

HORTICULTURE MINOR

Also available via Ecampus.

The Horticulture minor is an effective way for students, including majors outside the College of Agricultural Sciences, to meet their interests. The goals of students minoring in horticulture may vary widely. With just five credits in the minor core, students will be able to tailor their additional horticulture coursework to personal goals.

Minor Code: 145

Students are required to earn a grade of C– or better in all HORT and PBG courses taken to complete the minor.

Code	Title	Credits
