

VINEYARD MANAGEMENT MINOR

+ Core Education course. Applies to general education requirements for undergraduate students in catalog year 2025-2026 and beyond

Minor Code: A079

This program is available at the following location:

- Corvallis

The Vineyard Management minor will provide OSU students, including those with majors outside the College of Agricultural Sciences, with the basic knowledge and skill set to seek out employment in the wine industry as a viticulturist or vineyard manager. The coursework will cover both the technical and operational aspects of vineyard production.

Minor Code: A079

Upon successful completion of the program, students will be able to:

- Find, interpret and integrate data and theory from horticultural systems and sciences, and related disciplines.
- Assess horticultural systems, diagnose horticultural problems and recommend solutions, and create novel systems based on data and theory from horticultural sciences and related disciplines.
- Integrate horticultural sciences with contemporary social, economic, political and environmental issues.
- Develop and articulate content knowledge and critical thinking in horticulture through frequent practice of oral and written communication.
- Develop a vineyard management strategy which incorporates grapevine physiology and growth, local environmental conditions and local practices.
