The Geography minor will allow interested non-majors to explore:

- how the Earth works,
- the people who live on its surface,
- the value of accessing and properly using geographic information, and
- how to bring concepts of relative location, pattern, and spatial process to bear on key societal questions.

Minor Code: 545

The minor consists of 14 credits of core courses and at least 13 credits of elective courses for a total of 27 credits. Students must complete a minimum of 14 unique credits in the minor that do not fulfill requirements of majors, minors, options or certificates.
