

ENVIRONMENTAL ENGINEERING GRADUATE MINOR

The Graduate Minor in Environmental Engineering is for masters and doctoral level students who seek additional formal training and mentoring in environmental engineering. Students pursuing a Minor in Environmental Engineering must include at least one Environmental Engineering faculty member on their committee. This faculty member must be engaged in the development of the student's Program of Study and in the case of Doctoral students, their dissertation research; therefore, it is recommended that this faculty member be identified early in the doctoral program.

For more information, contact the Graduate Programs Coordinator, School of Chemical, Biological and Environmental Engineering, Oregon State University, Corvallis, OR 97331-2904, 541-737-0479 or email cbee-gradinfo@enr.orst.edu

Minor Code: 3310

Code	Title	Credits
MS Minor		
Courses selected in consultation with their Environmental Engineering Faculty Advisor (15 credits)		
PhD Minor		
Courses selected in consultation with their Environmental Engineering Faculty Advisor (18 credits)		

Minor Code: 3310
