

WATER RESOURCES SCIENCE GRADUATE MINOR

This program is available at the following location:

- Corvallis

A graduate minor in Water Resources Science for master of science, master of arts, and doctor of philosophy degree programs is offered with specialization in hydrology or geochemistry. Seminars, readings, and conferences are offered by the Water Resources Graduate Program.

The graduate minor options are structured around courses designed to broaden the student's education in water resources science, specifically in hydrology or geochemistry. Many departments and schools across the university offer courses related to water resources science. About 20 departments conduct teaching or research programs in water resources.

For more information, visit the website (<https://graduate.oregonstate.edu/water-resources-graduate-program/water-resources-science>).

Minor Code: 3530

Upon successful completion of the program, students will meet the following learning outcomes:
