

# COLLEGE AND UNIVERSITY TEACHING GRADUATE CERTIFICATE

Also available via Ecampus.

The 18-credit graduate certificate in College and University Teaching is designed to provide advanced course work and experiential learning opportunities to current graduate students who plan to pursue careers in teaching and instruction in higher education settings or who plan to pursue careers that require similar skill sets in facilitation.

Core courses focus on educational/learning theory and instructional strategies for working with adult learners. The specialized course work includes student-selected course work, workshops, and/or other approved experiences appropriate to the student's field of study. The supervised teaching internship will allow students to engage in supervised field experiences to practice and refine instructional skills. The capstone teaching portfolio will provide a culminating professional development experience for students.

For further information, visit the website (<http://gradschool.oregonstate.edu/graduate-certificate-college-and-university-teaching>) or contact Jessica Beck, Assistant Dean of Graduate Student Development, 413 Learning Innovation Center, 541-737-8576, [jessica.beck@oregonstate.edu](mailto:jessica.beck@oregonstate.edu)
