The Office of International Services (formerly International Student Advising and Services, and International Scholar and Faculty Services) collaborates with campus and community partners to support the success and retention of all OSU international visitors from approximately 100 different countries. This includes over 500 international faculty and staff, and over 4,000 students in degree, exchange and INTO OSU (English Language and academic preparation (Pathway) programs). OIS is responsible for all international student and scholar immigration related advising, orientation, cultural, financial, scholarships, travel, employment, personal or academic related matters. OIS manages select merit and need based financial scholarships for international students including the International Cultural Service Program (ICSP).

OIS also maintains the regulatory compliance and integrity of OSU's international student and international employee visa programs. Through trainings, workshops and consultation, the unit serves as a liaison and resource to OSU colleges and departments, as well as community groups to enhance understanding of student and scholar immigration regulations and cross cultural competency.
