PSYCHOLOGY MINOR

Also available at OSU-Cascades, OSU-Portland and via Ecampus.

The School of Psychological Science offers students a variety of educational avenues that provide the necessary tools for competency in, and appreciation for, psychology as a scientific discipline.

Many of our graduates will go straight into the workforce into areas such as human services, human resources, and educational assistants. Many graduates will also continue their education through professional schools such as law, medicine, or optometry. Others will engage in further study in business or in public administration. Some students will continue their study of Psychology at a school with a graduate program in one of the specialty areas of psychology.

In addition to classes whose contents span the many sub disciplines of psychology, the School of Psychological Science at Oregon State values the intellectual contributions of its students and offers a number of opportunities for research experience.

Minor Code: 965

Students should consult their major advisors to see if specific courses are required for their major. Students must receive a grade of C– or better in any course applied toward the minor. Such courses cannot be taken with S/U grading.
