KINESIOLOGY GRADUATE MAJOR (MS, PHD, MAIS)

Graduate Areas of Concentration

*Biophysical kinesiology, psychosocial kinesiology*

The graduate program in kinesiology offers courses and learning experiences in the theoretical and practical study of physical activity (including exercise and sport) for the promotion of optimal health and disease prevention.

Graduate fields in kinesiology include biophysical kinesiology and psychosocial kinesiology.

The MS degree can be completed via a thesis or project. The PhD degree requires the completion of a dissertation. For further information about the graduate program in Kinesiology, visit the school's website at http://health.oregonstate.edu/bphs.

**Major Code:** 7700
