

BACCALAUREATE CORE COURSES

The Baccalaureate Core (Bacc Core) Curriculum represents what the OSU faculty believes is the foundation for students' further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the Bacc Core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the Bacc Core promotes understanding of interrelationships among disciplines in order to increase students' capacities as ethical citizens of an ever-changing world.

No single course may be used by a student to satisfy more than one subject area of the Core even though some courses have been approved in more than one area. See Academic Regulation 25(a)(5) (<http://catalog.oregonstate.edu/regulations/#ar25>).

Skill Courses (15)

To support students' success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSU-generated credits:

Code	Title	Credits
Writing I		
WR 121	*ENGLISH COMPOSITION (must earn at least C-)	3
Mathematics (approved list below)

Perspective Courses (24)

No more than two courses (or lecture/lab combinations) from any one department may be used by a student to satisfy the Perspectives category of the core. GEO courses listed under Physical Science are considered to be from a different department than GEO courses listed under any other Perspective category. Choose one Biological Science lecture/lab combination, one Cultural Diversity, one Literature and the Arts, one Physical Science lecture/lab combination, one Social Processes and Institutions, one Western Culture, plus one additional lecture/lab combination from either Physical Science or Biological Science.
