PHL 461. ART AND MORALITY. (4 Credits)
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: REL 461

PHL 470. PHILOSOPHY OF SCIENCE. (3 Credits)
Examination of philosophical questions, classic and contemporary, about science and scientific knowledge. Scientific explanations, the structure of theories, the concept of a natural law, revolutions in science, influences of the sciences and philosophy on one another, science and values. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core  
Recommended: 6 credits of upper-division philosophy and sophomore standing

PHL 474. *PHILOSOPHY OF BIOLOGY. (4 Credits)
An introduction to some of the conceptual challenges engendered by contemporary evolutionary biology, including the nature of fitness, natural selection, adaptations, and species; identifying organisms, traits, and the units of selection; the evidence required to support particular adaptive or historical hypotheses; and others. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC  
Recommended: Previous university-level course work in either philosophy or the biological sciences

PHL 499. TOPICS IN PHILOSOPHY. (1-4 Credits)
Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.
Equivalent to: PHL 499H  
This course is repeatable for 16 credits.
Recommended: 6 credits of upper-division philosophy, sophomore standing.

PHL 499H. TOPICS IN PHILOSOPHY. (1-4 Credits)
Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.
Attributes: HNRS – Honors Course Designator  
Equivalent to: PHL 499  
This course is repeatable for 4 credits.
Recommended: 6 credits of upper-division philosophy, sophomore standing

PHL 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

PHL 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

PHL 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

PHL 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PHL 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.
Recommended: Two upper-division philosophy courses

PHL 510. INTERNSHIP. (1-12 Credits)
This course is repeatable for 16 credits.

PHL 511. GREAT FIGURES IN PHILOSOPHY. (4 Credits)
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511.
Equivalent to: REL 511  
This course is repeatable for 16 credits.

PHL 517. FEMINIST PHILOSOPHIES. (3 Credits)
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.
Equivalent to: WGSS 517, WS 517  
Recommended: 6 credits of philosophy
PHL 525. PHILOSOPHICAL METHODS. (3 Credits)
Examines diverse ways of approaching philosophical issues. Contains readings from different philosophical traditions. Develops understanding of the skills and conventions of philosophical argumentation.

PHL 530. HISTORY OF BUDDHIST PHILOSOPHY. (4 Credits)
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530.
Equivalent to: REL 530

PHL 531. BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE. (4 Credits)
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: REL 531

PHL 532. YOGA AND TANTRIC TRADITIONS. (4 Credits)
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532.
Equivalent to: REL 532

PHL 533. THEORY AND PRACTICE OF MODERN YOGA. (4 Credits)
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533.
Equivalent to: REL 533

PHL 534. SPIRITUALITY AND ECOLOGY: GREEN YOGA. (4 Credits)
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Equivalent to: REL 534

PHL 536. PHILOSOPHY AND RELIGION. (3 Credits)
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSLISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: REL 536

Recommended: 6 credits of philosophy

PHL 539. PHILOSOPHY OF NATURE. (3 Credits)
Intensive one-week field course taught in the Cascade Range. What is nature? What is the relation of humans to the rest of the natural world? How are our concepts of nature and decisions about land use shaped by the words and metaphors we use? What is the value of wild places? What can we learn from a close study of the natural world about right ways of acting in communities, both civic and biotic? The course will draw on many ways of knowing—philosophical analysis, close observation, and especially writing. Camping required.

PHL 540. ENVIRONMENTAL ETHICS. (3 Credits)
Philosophical ideas about our ethical relationships with parts of the non-human world and future generations, with applications to current environmental issues. Includes a study of different conceptions of environmental ethics, philosophical problems in environmental ethics (such as the moral status of animals, plants, species, and ecosystems), the uses of environmental ethics by environmental groups, and selected contemporary global environmental issues such as global warming and loss of biodiversity.
Recommended: PHL 205 and PHL 342 and PHL 365 or 6 credits of philosophy

PHL 541. CLASSIC MORAL THEORIES. (3 Credits)
Philosophical issues in ethics analyzed through the examination of such classical works in moral philosophy as Aristotle's Nichomachean ethics. Not offered every year.
Recommended: Either PHL 205 or PHL 342 or PHL 440 or one course in the history of philosophy.

PHL 542. CONTEMPORARY MORAL THEORIES. (3 Credits)
Examines contemporary ethical theories through study of moral philosophy in the 20th century, including recent developments in such areas as environmental ethics and feminist/feminine ethics.
Recommended: At least two philosophy courses including at least one of PHL 205 or PHL 342 or PHL 541.

PHL 543. WORLD VIEWS AND ENVIRONMENTAL VALUES. (3 Credits)
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543.
Equivalent to: REL 543
Recommended: One introductory-level science course

PHL 544. BIOMEDICAL ETHICS. (4 Credits)
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544.
Equivalent to: REL 544

PHL 547. RESEARCH ETHICS. (3 Credits)
An examination of the interrelationship between ethical values and scientific practice. Topics include professionalism in science; scientific integrity, misconduct, and whistleblowing; the ethics of authorship; conflicts of interest between academic science and commercial science, and social responsibilities in science.

PHL 548. NATIVE AMERICAN PHILOSOPHIES. (4 Credits)
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSLISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548.
Equivalent to: ES 548, REL 548
PHL 550. TOPICS. (1-16 Credits) Uses the IDEAS MATTER lectures as the focus for an exploration of ideas that make a difference in the world. Students read background materials, attend lectures, meet with the speakers, and write essays on the ideas they learn.

This course is repeatable for 16 credits.

PHL 551. KNOWLEDGE AND REALITY. (3 Credits) Examination of significant theories of knowledge, theories concerning the nature of reality, and their connections. Includes an analysis of important concepts and problems, such as perception, induction, belief, empiricism, rationalism, and skepticism. Not offered every year.

Recommended: 6 credits of philosophy

PHL 555. DEATH AND DYING. (3 Credits) A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSLISTED as PHL 455/REL 455 and PHL 555/REL 555.

Equivalent to: REL 555

Recommended: 6 credits of philosophy

PHL 556. PHILOSOPHY OF MIND. (4 Credits) Past and present theories about consciousness, the relationship of mind and body, and the roots and implications of those theories. Includes historical 'isms' (e.g., dualism, monism), contemporary views, and connections of these theories to further issues in philosophy and contemporary culture, e.g., desires, mental illness, personhood and otherness, animal minds, explanation, the mind in non-Western traditions and in religions.

Recommended: PHL 251

PHL 561. ART AND MORALITY. (4 Credits) The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561.

Equivalent to: REL 561

PHL 570. PHILOSOPHY OF SCIENCE. (3 Credits) Examination of philosophical questions, classic and contemporary, about science and scientific knowledge. Scientific explanations, the structure of theories, the concept of a natural law, revolutions in science, influences of the sciences and philosophy on one another, science and values. Not offered every year.

Recommended: 6 credits of upper-division philosophy

PHL 574. PHILOSOPHY OF BIOLOGY. (4 Credits) An introduction to some of the conceptual challenges engendered by contemporary evolutionary biology, including the nature of fitness, natural selection, adaptations, and species; identifying organisms, traits, and the units of selection; the evidence required to support particular adaptive or historical hypotheses; and others.

Recommended: Previous university-level course work in either philosophy or the biological sciences

PHL 599. TOPICS IN PHILOSOPHY. (1-4 Credits) Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.

Equivalent to: PHL 590

This course is repeatable for 16 credits.

Recommended: 6 credits of upper-division philosophy

Physical Activity Courses (PAC)

PAC 100. ADAPTED PHYSICAL ACTIVITY. (1 Credit) Individual workout for students with permanent or temporary physical disabilities and for students enrolled in another PAC who sustain an injury.

This course is repeatable for 11 credits.

PAC 102. AQUA AEROBICS. (1 Credit) Fitness class using a variety of movements in shallow and deep water, mostly in a vertical position. Do not need swimming skills.

Equivalent to: PAC 101

This course is repeatable for 11 credits.

PAC 103. DEEP WATER FITNESS. (1 Credit) Fitness class using a variety of movements in a deep water pool, mostly in a vertical position. Should be comfortable in deep water.

This course is repeatable for 11 credits.

PAC 104. ARCHERY. (1 Credit) Basic mechanics and introduction to archery. Exposure to varying archery techniques and equipment, including recurve and compound bow shooting.

This course is repeatable for 11 credits.

PAC 105. CPR/FIRST AID. (1 Credit) Introduces cardiac and first aid emergency response procedures. Emphasis placed on safe response, chain of survival, quality CPR (adults, children, infants and team responses), use of an AED, medical emergencies, injury emergencies and environmental emergencies.

Students successfully completing the American Heart Association certification requirements will be issued a HeartSaver First Aid and BLS (Basic Life Support) for the Healthcare Provider certification at the end of the course.

This course is repeatable for 11 credits.

PAC 106. BEAVER FIT. (1 Credit) A conditioning class for those of all fitness levels that focuses on mobility, functional movement, and high-intensity interval training as a means to improve cardiovascular fitness, muscular fitness, and flexibility.

This course is repeatable for 11 credits.

PAC 108. STEP AEROBICS. (1 Credit) Low-impact, high intensity workout adjustable to all fitness levels utilizing adjustable height benches. Strengthening and flexibility exercises included.

This course is repeatable for 11 credits.

PAC 110. INTRODUCTION TO WHITE WATER KAYAKING. (2 Credits) Students will learn fundamentals of white water kayaking in sheltered water based on the internationally recognized British Canoe (BC) teaching and skills certification system. Emphasis is on activity and basic skills. See class schedule for the location, website, and class schedule specific to the course. This course runs for six class sessions of 3 hours (Fridays), and one mandatory Saturday (5-hour) session. The entire class lasts for six weeks.

This course is repeatable for 11 credits.
PAC 111. INTRODUCTION TO CANOEING. (2 Credits)
Students will learn fundamentals of canoeing in sheltered water based on the internationally recognized British Canoe (BC) teaching and skills certification system. Emphasis is on activity and basic skills. See class schedule for the location, website, and class schedule specific to the course. This course runs for six class sessions of 3 hours (Fridays), and one mandatory Saturday (5-hour) session. The entire class lasts for six weeks.
This course is repeatable for 11 credits.

PAC 112. LEARNING KAYAK ROLLING BASICS. (2 Credits)
Students learn fundamentals of rolling a kayak in an indoor pool-based environment. Emphasis is on activity and basic skills. See class schedule for the location, website, and class schedule specific to the course.
This course is repeatable for 10 credits.

PAC 113. BADMINTON I. (1 Credit)
Singles and doubles skills, practice, rules, strategies and play.
This course is repeatable for 11 credits.

PAC 114. BADMINTON II. (1 Credit)
Intermediate skill development in badminton.
This course is repeatable for 11 credits.
Recommended: Fundamental skills, rules and strategy of singles and doubles play.

PAC 115. OUTDOOR LIVING SKILLS. (2 Credits)
Educates and introduces students on how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. Classroom and field (lab) experience. Includes one mandatory weekend overnight outing.
CROSSLISTED as PAC 115/TRAL 115.
Equivalent to: TRAL 115
This course is repeatable for 4 credits.

PAC 116. BASKETBALL I (MEN/WOMEN). (1 Credit)
Fundamental basketball skills, drills, rules, strategies, and practice. Game play appropriate for the skill level.
This course is repeatable for 11 credits.

PAC 117. BASKETBALL COMPETITIVE. (1 Credit)
Team play, individual and team skills developed and refined, competitive round robin tournaments.
This course is repeatable for 11 credits.
Recommended: Prior competitive experience.

PAC 118. LABORATORY FOR OUTDOOR LIVING SKILLS. (1 Credit)
Practical field application of concepts learned in PAC 115/TRAL 115, Outdoor Living Skills. Field (lab) experience includes one mandatory weekend overnight. Introduces how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. CROS BlISTED as PAC 118/TRAL 118.
Corequisites: PAC 115
Equivalent to: TRAL 118
This course is repeatable for 2 credits.

PAC 120. MOUNTAIN BIKING. (1 Credit)
Touring trails in Corvallis area; riding techniques, safety, maintenance, environmental concerns. Required equipment: mountain bike, tire repair kit, helmet.
This course is repeatable for 11 credits.

PAC 121. BILLIARDS. (1 Credit)
Skills, technique, strategy, game knowledge as introduction to billiards (pool), a 'cue' sport; rules and gaming for variations of pocket billiards; practice and class tournament play.
This course is repeatable for 11 credits.

PAC 122. BODY SCULPTING. (1 Credit)
Fitness workout set to music using lighter resistance training aids such as dumbbells, resistance tubing, bands, and aerobic steps.
This course is repeatable for 11 credits.

PAC 123. BOWLING I. (1 Credit)
Fundamentals of the game including etiquette, spot bowling, natural hook and straight ball delivery, scoring, handicap computation, spare pickup, and error correction. Additional fee; equipment supplied.
This course is repeatable for 11 credits.

PAC 124. BOWLING II. (1 Credit)
Review and refinement of basic fundamentals of bowling. Emphasis on spot bowling, adjusting for lane conditions, choices in equipment, league play, and mental training.
This course is repeatable for 11 credits.
Recommended: Bowling I or the ability to bowl above a 110 average.

PAC 126. CARDIO KICKBOXING I. (1 Credit)
High intensity group workout set to motivational music and combining skills and techniques from boxing, kickboxing, and other martial arts.
This course is repeatable for 11 credits.

PAC 129. CARDIO COMBO. (1 Credit)
Combination of aerobic training classes that use music such as Cardio Kickboxing, Body Sculpture, Sports Conditioning, and/or Step Aerobics. Actual curriculum may vary with instructors.
This course is repeatable for 11 credits.

PAC 130. CONDITIONING. (1 Credit)
Total body approach to fitness, cardiorespiratory conditioning, muscular strength and endurance; flexibility emphasized. May follow a specific training format, e.g., ROTC section follows Army conditioning format.
This course is repeatable for 11 credits.

PAC 131. SNOWBOARD-SKI CONDITIONING. (1 Credit)
Strength, muscular endurance, flexibility, balance, and cardiovascular exercises specific to downhill skiing and snowboarding; designed to help prepare students for participation in these sports.
This course is repeatable for 11 credits.

PAC 133. DANCE: TAP I. (1 Credit)
Individual and group dance with specialized shoes; basic step technique and vocabulary; warm up exercises progressing into rhythmic combinations performed to music; culminates in full routine to music.
This course is repeatable for 11 credits.

PAC 136. DANCE: BALLET I. (1 Credit)
Introduction to basic ballet technique and aesthetics, terminology, alignment, stretch and strength exercises. No previous dance experience needed. Additional fee for accompanist.
This course is repeatable for 11 credits.

PAC 137. DANCE: BALLET II. (1 Credit)
Review and practice of beginning ballet technique, introduction of more advanced stretches, steps, and combinations. Additional fee for accompanist.
This course is repeatable for 11 credits.
Recommended: Ballet I or previous ballet experience.
PAC 138. DANCE: BALLET III. (1 Credit)
Intermediate and advanced ballet technique, comprehensive exploration of the discipline. Additional fee for accompanist.
This course is repeatable for 11 credits.
Recommended: Ballet II, previous comparable experience

PAC 139. HIP HOP DANCE. (1 Credit)
Aerobic/energetic experience consisting of a warm-up/conditioning and choreographic combinations.
This course is repeatable for 11 credits.

PAC 140. DANCE: JAZZ I. (1 Credit)
Introduction to jazz dance, technique, isolations, and combinations. Different jazz styles are explored. No previous dance experience is necessary.
This course is repeatable for 11 credits.

PAC 141. DANCE: JAZZ II. (1 Credit)
Intermediate jazz technique, isolations and combinations.
Recommended: Jazz I or comparable experience.
This course is repeatable for 11 credits.

PAC 145. DANCE: MODERN I. (1 Credit)
Introduction to modern dance movement fundamentals. Technique, stretch, strength, and alignment are included, as well as an appreciation for movement expression. No previous dance experience needed. Additional fee for accompanist.
This course is repeatable for 11 credits.

PAC 146. DANCE: MODERN II. (1 Credit)
An intermediate level of modern dance technique and movement expression. Additional fee for accompanist.
This course is repeatable for 11 credits.
Recommended: Modern Dance I or comparable experience.

PAC 148. DANCE: CUBAN SALSA I (MEN/WOMEN). (1 Credit)
Foundations of Cuban Salsa (Casino) as well as Rueda de Casino with focus on musical development and fundamentals of leading and following in partner dance.
This course is repeatable for 11 credits.

PAC 149. DANCE: CUBAN SALSA II. (1 Credit)
Higher concepts of Cuban Salsa (Casino) as well as Rueda de Casino, with focus on musical development and fundamentals of leading and following in partner dance.
This course is repeatable for 11 credits.
Recommended: Cuban Salsa I or comparable experience.

PAC 150. CULTURAL WORLD DANCE (MEN/WOMEN). (1 Credit)
Introduction to traditional dance forms from Europe, Israel, North America and Asia, focusing on movement, cultural heritage, history, and diversity.
This course is repeatable for 11 credits.

PAC 151. COUNTRY LINE DANCE. (1 Credit)
Non-partner dance routines in country western style; musical interpretation, footwork, and sequencing of 20 different routines.
This course is repeatable for 11 credits.

PAC 152. DANCE: SALSA I. (1 Credit)
Steps and rhythmic accent of Salsa and Merengue style; fundamentals of leading and following, basic moves and combinations. No prior experience needed.
This course is repeatable for 11 credits.

PAC 153. DANCE: SALSA II. (1 Credit)
Intermediate moves, rhythmic accents and step combinations of Salsa; development of leading and following.
Prerequisites: PAC 152 with C- or better
This course is repeatable for 11 credits.

PAC 154. DANCE: COUNTRY WESTERN I (MEN/WOMEN). (1 Credit)
Focus on traditional Country Western dance patterns. Emphasizes fundamentals of leading and following. Also including introduction to waltz, two-step, cowboy cha-cha and 10-step polka.
Equivalent to: PAC 144
This course is repeatable for 11 credits.

PAC 155. DANCE: COUNTRY WESTERN II (MEN/WOMEN). (1 Credit)
Advanced two-step patterns and styling with a focus on musical interpretation; development of leading and following.
Prerequisites: PAC 155 with C- or better
This course is repeatable for 11 credits.

PAC 156. DANCE: COUNTRY WESTERN III (MEN/WOMEN). (1 Credit)
Focus on style, technique and many different step patterns of the western swing dance.
Recommended: Country Western I or comparable experience

PAC 157. DANCE: TANGO. (1 Credit)
Social dance focusing on Twenties-style Charleston, pure Balboa and Balboa-Swing, and Blues Dance.
This course is repeatable for 11 credits.

PAC 158. DANCE: BEGINNING SWING (MEN/WOMEN). (1 Credit)
Introduction to single time, double time, and triple time (jitterbug) swing; variations for each style, covering most swing music rhythms.
Emphasizes fundamentals of leading and following. Men/women.
This course is repeatable for 11 credits.

PAC 159. DANCE: BALLROOM I (MEN/WOMEN). (1 Credit)
Posture and alignment, fundamentals of leading and following, basic steps and variations for waltz, foxtrot, swing, tango, and cha-cha.
Equivalent to: PAC 134
This course is repeatable for 11 credits.

PAC 160. DANCE: BALLROOM II (MEN/WOMEN). (1 Credit)
Additional steps and patterns of popular ballroom dances.
Prerequisites: PAC 159 with C- or better
Equivalent to: PAC 135
This course is repeatable for 11 credits.

PAC 161. DANCE: BALLROOM III (MEN/WOMEN). (1 Credit)
Styling: additional dances: rhumba, silver fox trot, and Viennese waltz; advanced dance figures for tango and cha-cha.
Prerequisites: PAC 160 with C- or better
This course is repeatable for 11 credits.

PAC 162. DANCE: SWING II (MEN/WOMEN). (1 Credit)
Social dance focusing on Twenties-style Charleston, pure Balboa and Balboa-Swing, and Blues Dance.
This course is repeatable for 11 credits.

PAC 163. DANCE: LATIN I. (1 Credit)
Latin dances including cha-cha, mambo, salsa, rhumba, merengue, bolero, salsa, and paso doble. Emphasis on proper styling and technical execution of each dance; effective leading and following techniques.
Prerequisites: PAC 159 with C- or better
This course is repeatable for 11 credits.

PAC 165. DANCE: WEST COAST SWING (MEN/WOMEN). (1 Credit)
Focus on style, technique and many different step patterns of the west coast swing dance.
Prerequisites: PAC 154 with C- or better or PAC 159 with C- or better
Equivalent to: PAC 162
This course is repeatable for 11 credits.
PAC 166. BALLROOM 2 STEP, HUSTLE (MEN/WOMEN). (1 Credit)
Smooth, romantic social dance that is neither ballroom, Latin, nor swing
but a rhythm dance identified as club-style, danced to contemporary
ballad-like music. Hustle is fast-paced, swing-related dance to disco beat.
Class encompasses intermediate step patterns, technique and styling,
stationary, traveling patterns.
Prerequisites: PAC 160 with C- or better
This course is repeatable for 11 credits.

PAC 167. DANCE: Lindy Hop. (1 Credit)
Ballroom dance style based on original eight-count swing dance evolved
in Harlem ballrooms during the late 1920s; styling emphasized.
Prerequisites: PAC 158 with C- or better or PAC 159 with C- or better
This course is repeatable for 11 credits.

PAC 168. DANCE: LINDY HOP II (MEN/WOMEN). (1 Credit)
Intermediate patterns, syncopations, play techniques, and styling with a
focus on musical interpretation in the Lindy Hop style; development of
leading and following.
Prerequisites: PAC 167 with C- or better
This course is repeatable for 11 credits.

PAC 169. COOL SHOES, BALLROOM PERFORMANCE. (2 Credits)
Learn and perform ballroom dance routines on an intermediate level. This
course is a full year commitment ending with a dance concert in the
spring.
This course is repeatable for 12 credits.

PAC 170. DANCE: WEST COAST SWING II (MEN/WOMEN). (1 Credit)
Intermediate patterns, syncopations, play techniques, and styling with a
focus on musical interpretation; development of leading and following.
Prerequisites: PAC 165 with C- or better
This course is repeatable for 11 credits.

PAC 171. DANCE: NEW SHOES. (1 Credit)
IntroduceS students to formation ballroom dancing at a beginning level.
Dances learned over the course of this term will be determined by the
instructor at the beginning of the term.
Prerequisites: PAC 159 with D- or better
This course is repeatable for 11 credits.

PAC 173. INTERMEDIATE ROCK CLIMBING. (2 Credits)
Introduces variety of basic skills, gear and systems that will allow them to
safely participate in a single pitch rock climbing environment based on internationally recognized American Mountain Guides Association
(AMGA) teaching and skills certification systems. Presents students with
various technical skills that will serve as a foundation for future land-
based outdoor disciplines. Students will be introduced to gear, such as
software (ropes, webbing, harnesses) and hardware (carabiners, friction
deVICES); skills, such as knots, belaying, rappelling, lead climbing; and
systems such as anchors and basic rescue techniques. CROSSLISTED as
PAC 173/TRAL 173.
Equivalent to: TRAL 173
This course is repeatable for 10 credits.

PAC 174. FLAG FOOTBALL. (1 Credit)
Skill instruction and practice; drills; strategies, game play of America
football; emphasis on teamwork and sportsmanship in a competitive but
non-threatening or stressful environment.
This course is repeatable for 11 credits.

PAC 178. FLY FISHING I. (1 Credit)
Casting and fishing techniques, lure making, equipment selection,
terminology, and regulation for fishing in Oregon’s marine environment.
This course is repeatable for 11 credits.

PAC 179. FLY FISHING II. (1 Credit)
Advanced fly casting and fly fishing techniques for trout, fly-tying,
equipment selection, basic aquatic organism identification, terminology,
and regulations for fishing in Oregon's freshwater environment.
This course is repeatable for 11 credits.

PAC 180. STEELHEAD FISHING. (1 Credit)
Casting and fishing techniques, lure making, equipment selection,
terminology, and regulations for fishing in Oregon's marine environment
for steelhead.
This course is repeatable for 11 credits.

PAC 181. DISC GOLF I. (1 Credit)
Techniques for throwing discs; equipment, knowledge, etiquette, and
rules associated with playing a disc golf course; experience playing
practice and official disc golf courses.
This course is repeatable for 11 credits.

PAC 182. DISC GOLF II. (1 Credit)
Basic fundamental principles in all phases of golf; rules, terminology,
etiquette, safety and scoring. Equipment provided.
This course is repeatable for 11 credits.

PAC 183. GOLF III. (1 Credit)
Advanced skills, knowledge involved in competitive play. Course play
expected, additional fee.
This course is repeatable for 11 credits.
Recommended: Golf I

PAC 184. GOLF I. (1 Credit)
Basic level grappling self-defense techniques and applying them in
sparring sessions along with understanding the core principles which
make this martial arts system effective. An introduction to the history
of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and
culture.
This course is repeatable for 11 credits.

PAC 185. GOLF I. (1 Credit)
Basic fundamental principles in all phases of golf; rules, terminology,
etiquette, safety and scoring. Equipment provided.
This course is repeatable for 11 credits.
Recommended: Handicap below 15 or Golf II; competitive play.

PAC 186. GOLF II. (1 Credit)
Individual practice and course play; skill refinement as continuation of
Golf I. Equipment available. Course play expected, additional fee.
This course is repeatable for 11 credits.
Recommended: Handicap below 15 or Golf II; competitive play.

PAC 187. GYMNASIUM. (1 Credit)
Basic fundamental principles in all phases of golf; rules, terminology,
etiquette, safety and scoring. Equipment provided.
This course is repeatable for 11 credits.

PAC 188. GYMNASIUMS. (1 Credit)
Basic fundamental principles in all phases of golf; rules, terminology,
etiquette, safety and scoring. Equipment provided.
This course is repeatable for 11 credits.

PAC 189. GYMNASIUMS II. (1 Credit)
Basic level grappling self-defense techniques and applying them in
sparring sessions along with understanding the core principles which
make this martial arts system effective. An introduction to the history
of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and
culture.
This course is repeatable for 11 credits.

PAC 190. KARATE. (1 Credit)
Basic level grappling self-defense techniques and applying them in
sparring sessions along with understanding the core principles which
make this martial arts system effective. An introduction to the history
of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and
culture.
This course is repeatable for 11 credits.

PAC 191. BRAZILIAN JIU-JITSU. (1 Credit)
Basic level grappling self-defense techniques and applying them in
sparring sessions along with understanding the core principles which
make this martial arts system effective. An introduction to the history
of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and
culture.
This course is repeatable for 11 credits.

PAC 192. JUDO I. (1 Credit)
Basic level grappling self-defense techniques and applying them in
sparring sessions along with understanding the core principles which
make this martial arts system effective. An introduction to the history
of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and
culture.
This course is repeatable for 11 credits.
PAC 193. JUDO II. (1 Credit)
Intermediate skill instruction in landing, throwing, pins, chokes in Kodokan Judo style; principles of Seiryoku-Zenyou and Jita-Kyouei designed to help individuals become better members of society through training body and mind; instruction for competition knowledge and skills. Judo etiquette for practice and competition expected.  
This course is repeatable for 11 credits.  
Recommended: Judo I or comparable experience

PAC 194. PILATES. (1 Credit)
Non-impact, invigorating approach to physical conditioning and mind/ body awareness; helps develop core body strength, improve posture and balance, and increase muscle endurance, tone, flexibility.  
This course is repeatable for 11 credits.

PAC 195. PILATES II. (1 Credit)
Progression of Joseph Pilates mat exercises; emphasis on intermediate and advanced levels; application of Pilates’ principles to new exercises; use of props; application of principles to daily living.  
This course is repeatable for 11 credits.  
Recommended: PAC 194, Pilates.

PAC 197. PICKLEBALL. (1 Credit)
Fast-paced, self-officiated net game with similarities to tennis, badminton, table tennis, and racquetball. Course covers rules, strategies, technique, preparation for play, and includes extensive active practice and play; played with two, three, or four people.  
This course is repeatable for 11 credits.

PAC 199. SPECIAL TOPICS. (1-3 Credits)
Experimental or new classes.  
This course is repeatable for 11 credits.

PAC 201. RELAXATION. (1 Credit)
Introduction to techniques that promote relaxation of the nervous system. These may include, but are not limited to: meditation, imagery, yoga postures, and self-massage. Students will be encouraged to reflect on how life choices influence their nervous system.  
This course is repeatable for 11 credits.

PAC 202. MEDITATION. (1 Credit)
Examine the application of building simple awareness, how to manage thoughts in productive and compassionate ways, and how to transfer these skills into healthy relationships. Explore strategies for managing mental and physical difficulties including anxiety, pain, and overall stress through experiential learning and personal sharing of experiences.  
This course is repeatable for 11 credits.

PAC 203. OBSERVATION & ASSISTANT INSTRUCTIONAL PRACTICE IN PHYS ACT. (1 Credit)
Observe and begin physical activity instruction within dance, yoga, sports, fitness, aquatics, martial arts, or cross-disciplinary physical activities. Used in several of the leadership training program curriculums.  
This course is repeatable for 11 credits.

PAC 204. LEAD INSTRUCTIONAL PRACTICE IN PHYSICAL ACTIVITY. (1 Credit)
Lead physical activity curriculum within dance, yoga, fitness, aquatics, sports, martial arts, or cross-disciplinary physical activities. Gain experience implementing already designed lesson plans, assessment, and leading peers through basic exercise, while supervised by university and program personnel.  
Prerequisites: PAC 203 with C- or better  
This course is repeatable for 11 credits.

PAC 205. ROWING, CREW I (MEN/WOMEN). (1 Credit)
Introduction to the sport of rowing; designed for the novice (beginner). Includes basic technique and terminology, related water safety, and development of strength, endurance, and flexibility.  
This course is repeatable for 11 credits.  
Recommended: Swim Test (1).

PAC 208. WORKSHOP . (1-16 Credits)
This course is repeatable for 16 credits.

PAC 212. RUNNING, JOGGING. (1 Credit)
Cardiorespiratory fitness with scenic running routes; training, nutrition, and physiology. Beginning and intermediate level.  
This course is repeatable for 11 credits.

PAC 213. RUNNING: 10K TRAINING. (1 Credit)
Intermediate to advanced conditioning and training program for road racing.  
This course is repeatable for 11 credits.  
Recommended: Prior training in running.

PAC 214. HALF MARATHON TRAINING. (2 Credits)
Progressive training combining walking, running, core strengthening, interval techniques in preparation for a 13.1 mile (1/2 marathon) event. Open to all levels; may choose to walk, walk/run, or run.  
This course is repeatable for 11 credits.

PAC 215. RUGBY, TOUCH. (1 Credit)
Basic skills of open field rugby; emphasis on ball handling and attacking strategy; rules and history; game play.  
This course is repeatable for 11 credits.

PAC 217. SELF DEFENSE. (1 Credit)
Nonviolent self-defense. Develop self-confidence and skills for assault situations. Conditioning and practical skills. Men and women, all levels.  
This course is repeatable for 11 credits.

PAC 224. TELEMARK SKIING. (1 Credit)
Winter sport that is a cross between cross country and downhill skiing. Requires telemark equipment where the heel is unattached. Class accommodates all levels and practices on the downhill slopes. Additional fee covers bus transportation, lessons, and lift ticket. Rental of equipment is not included.  
This course is repeatable for 11 credits.

PAC 225. DOWNHILL SKIING. (1 Credit)
Travel to area facilities, 1-1/2 hour lesson followed by open practice, students grouped according to skill level: beginner, intermediate, advanced, racer. Special fee covers bus transportation, lessons, and lifts. Additional fee for rentals.  
This course is repeatable for 11 credits.

PAC 227. SNOWBOARDING. (1 Credit)
Travel to area facilities, 1 1/2 hour lesson followed by open practice, students grouped according to skill level: beginner, intermediate, advanced. Special fee covers bus transportation, lessons, and lifts. Additional fee for rentals.  
This course is repeatable for 11 credits.

PAC 229. SOCCER I. (1 Credit)
Basic skills of controlling the ball; conditioning; lead-up games; team play.  
Equivalent to: PAC 211  
This course is repeatable for 11 credits.
PAC 230. SOCCER II. (1 Credit)
Review of basic skills of offense and defense in controlled game play; concepts of team position and play, pressure and attack.
This course is repeatable for 11 credits.
Recommended: Previous soccer experience.

PAC 231. SOCCER III. (1 Credit)
High level soccer skills; team play and transition concepts; set plays and alignments for both offense and defense.
This course is repeatable for 11 credits.
Recommended: Soccer II or competitive playing experience.

PAC 233. SOCCER: INDOOR. (1 Credit)
Skill instruction and development; strategies and rules for indoor play; game play in indoor gymnasium.
This course is repeatable for 11 credits.

PAC 236. SOFTBALL, WHIFFLEBALL. (1 Credit)
Skills, rules, strategies, practice, and game play of the popular outdoor slow pitch game. Modified softball with whiffleball when play is indoors.
This course is repeatable for 11 credits.

PAC 242. SCUBA: OPEN WATER. (2 Credits)
Lecture includes physiology, water environment, equipment, and techniques for fundamental SCUBA diving. Laboratory includes practice in techniques, skills, and equipment usage; sessions held in pool and open water. Successful completion leads to PADI certification. Additional fee covers most equipment, texts, certification, and open water dive trip.
This course is repeatable for 11 credits.
Recommended: 200-yard swim, 10-minute survival skills and good health.

PAC 243. SCUBA: ADVANCED OPEN WATER. (1 Credit)
Classroom lecture and laboratory in hypothermics, natural navigation, dive physiology, compass navigation, night and limited visibility procedures, boat diving, search and salvage techniques, deep diving procedures, health for diving, and an introduction to dive rescue. Successful completion of this course can lead to PADI certification.
Additional fee.
Equivalent to: PAC 228
This course is repeatable for 11 credits.
Recommended: PAC 242 or PADI Open Water Certification

PAC 244. SCUBA: RESCUE DIVER. (1 Credit)
Techniques, skills, knowledge, and practice in self-rescue and rescue of others in underwater emergencies; may lead to PADI certification; lecture and pool laboratory; open water dive required. Additional fee.
This course is repeatable for 11 credits.
Recommended: PAC 243 or PADI Advanced Open Water Certification

PAC 245. SCUBA SPECIAL TOPICS. (1 Credit)
Specialized courses requiring previous certification in SCUBA. Check the current schedule of classes for more information and prerequisites. Possible classes: altitude diver, night diver, search and recovery, deep diver, underwater navigation, equipment specialist. Additional fee.
This course is repeatable for 11 credits.
Recommended: PAC 242 or PADI Open Water Certification

PAC 246. DIVEMASTER TRAINING. (2 Credits)
Enter level PADI certification course for preparation to instruct SCUBA; lecture, lab, open water experience; must take two consecutive terms.
This course is repeatable for 11 credits.
Recommended: PAC 244. PADI Advanced, Advanced Plus, Rescue Diver certifications and 20 logged dives

PAC 247. SURFING. (1 Credit)
Knowledge and fundamental skills of this aquatic sport including history, terminology, safety precautions, the ocean environment, and equipment. Additional fee.
This course is repeatable for 11 credits.

PAC 248. SWIM: NON-SWIMMER. (1 Credit)
Skills for self-rescue; fundamental skills in swimming and safety. Designed for people with a fear of water. Recommended S/U grading.
Equivalent to: PAC 219
This course is repeatable for 11 credits.

PAC 249. LIFEGUARD TRAINING. (1 Credit)
Trains participants in the skills required to become a lifeguard. Emphasis on professional behavior, water rescues, safe response, quality CPR (adults, children, infants, and team responses), use of an AED and first aid. Students successfully completing the American Red Cross certification requirements will be issued a lifeguarding certification at the end of the course.
This course is repeatable for 11 credits.
Recommended: Basic swimming skills

PAC 250. SWIM I. (1 Credit)
Swimming concepts, survival and breathing techniques, front crawl and elementary backstroke as minimum instruction.
This course is repeatable for 11 credits.
Recommended: Swim I or the ability to front crawl continuously for 75 yards

PAC 252. SWIM II. (1 Credit)
Fitness swimming, swimming strokes and skills.
Equivalent to: PAC 221
This course is repeatable for 11 credits.
Recommended: PAC 250. SWIM I

PAC 253. SWIM TRAINING WORKOUT. (1 Credit)
Competitive skills and strokes; emphasis on training.
This course is repeatable for 11 credits.
Recommended: Ability to do interval training.

PAC 254. COMPETITIVE SWIMMING. (1 Credit)
Prepares students for competitive swimming and emphasizes lifetime aquatic fitness; interval swim workouts designed for speed and endurance; instruction on legal techniques of strokes and turns; culminates in intra-class swim meet; 2,000-3,000 yards/day.
This course is repeatable for 11 credits.
Recommended: Swim II or previous interval training experience up to 400 yard distances

PAC 256. TAIJI, TAI CHI I. (1 Credit)
Introduction to ancient Chinese ‘internal martial art’ based upon concepts of Yin and Yang; detailed slow and relaxed form movements provide benefits to body, mind, and spirit.
This course is repeatable for 11 credits.

PAC 257. TAIJI, TAI CHI II. (1 Credit)
Continuation of study of the Yang-style Taiji form; more in-depth exploration of underlying principles and push-hands exercises.
This course is repeatable for 11 credits.

PAC 260. TENNIS I. (1 Credit)
Introduction to fundamental strokes, singles and doubles play, scoring, and basic concepts in tennis.
Equivalent to: PAC 234
This course is repeatable for 11 credits.
PAC 261. TENNIS II. (1 Credit)
Review and refinement of fundamental strokes; volley, lob, return of serve; introduction to singles and doubles strategy.
Equivalent to: PAC 235
This course is repeatable for 11 credits.
Recommended: Tennis I or competitive tennis experience

PAC 262. TENNIS III. (1 Credit)
Focus on ground stroke, serve consistency; approach shots and overheads; tactics for net and baseline play.
This course is repeatable for 11 credits.
Recommended: Tennis II

PAC 264. TEAM HANDBALL/(MEN/WOMEN). (1 Credit)
Fast-paced indoor court game that combines skills and strategies similar to water polo, basketball, soccer and hockey; rules, regulations, strategies, and skills introduced and practiced; requires teamwork, cooperation, and court strategy.
This course is repeatable for 11 credits.

PAC 265. TUMBLING I. (1 Credit)
Technical instruction, progressions, and practice in basic, intermediate, and advanced tumbling skills; emphasis on safety and fitness concepts; floor and mini-trampoline skills; no apparatus instruction.
This course is repeatable for 11 credits.
Recommended: Tumbling I or prior experience.

PAC 266. TUMBLING II. (1 Credit)
Technical instruction, progressions, safety, and practice building upon skills taught in PAC 265, Tumbling I.
This course is repeatable for 11 credits.

PAC 268. TRIATHLON TRAINING. (2 Credits)
Training in swimming, running, and bicycling to prepare for triathlon participation. Strategies, transitioning technique, and weight training information; training plan formation; event planning; culminates in class or community event.
This course is repeatable for 11 credits.
Recommended: Experience in at least one of the three activities.

PAC 271. ULTIMATE FRISBEE. (1 Credit)
Fundamentals for the beginning and intermediate player; individual skill development, rules, game play, and strategy.
This course is repeatable for 11 credits.

PAC 273. VOLLEYBALL I. (1 Credit)
Fundamental volleyball skills, drills, rules, strategies, and practice. Game play appropriate for skill level.
This course is repeatable for 11 credits.

PAC 274. VOLLEYBALL II. (1 Credit)
Fundamental skills and knowledge refined; intermediate skills developed, competitive play.
This course is repeatable for 11 credits.
Recommended: Volleyball I and good fundamental skills.

PAC 275. VOLLEYBALL III. (1 Credit)
Skill refinement and development; intense, highly competitive drills and game situations, doubles through sixes play.
This course is repeatable for 11 credits.
Recommended: Volleyball II or varsity-level experience

PAC 278. FITNESS WALKING. (1 Credit)
Establishment of personal fitness programs through walking with emphasis on technique and aerobic components.
This course is repeatable for 11 credits.

PAC 282. WATER POLO. (1 Credit)
Team game, played in deep water; instruction in skills, drills, strategies, techniques; game play; knowledge of rules and terminology.
This course is repeatable for 11 credits.
Recommended: Swim I skills.

PAC 286. WEIGHT TRAINING: CIRCUITS. (1 Credit)
Fast-paced fitness class using stations of resistance training exercises. Designed to improve cardiovascular fitness and muscular endurance more than strength.
This course is repeatable for 11 credits.

PAC 287. WEIGHT TRAINING I. (1 Credit)
Exercise techniques in both free and fixed resistance training equipment; safety procedures, terminology, and principles of exercise.
This course is repeatable for 11 credits.

PAC 288. WEIGHT TRAINING II. (1 Credit)
Intermediate level of weight training in free and fixed weights.
Prerequisites: PAC 287 with C+ or better
This course is repeatable for 11 credits.

PAC 292. WRESTLING. (1 Credit)
Collegiate wrestling fall and winter terms; freestyle and Greco wrestling spring term. All levels.
This course is repeatable for 11 credits.

PAC 293. INTERDISCIPLINARY YOGA. (1 Credit)
Basic yoga poses (asanas) using specific techniques and sequences to promote flexibility, strength, relaxation, and a sense of well-being will be used. Integrative concepts between yoga and our daily life will be examined as well as yoga in relationship to other forms of physical movement.
Equivalent to: PAC 293H
This course is repeatable for 11 credits.

PAC 293H. INTERDISCIPLINARY YOGA. (1 Credit)
Basic yoga poses (asanas) using specific techniques and sequences to promote flexibility, strength, relaxation, and a sense of well-being will be used. Integrative concepts between yoga and our daily life will be examined as well as yoga in relationship to other forms of physical movement.
Attributes: HNRS – Honors Course Designator
Equivalent to: PAC 293
This course is repeatable for 11 credits.

PAC 294. YOGA I. (1 Credit)
Principles and practice of basic yoga postures, techniques of posture alignment, yogi breathing styles and their impact on the body and mind. Students will be exposed to a variety of forms of yoga, as well as basic yoga philosophy.
This course is repeatable for 11 credits.

PAC 295. YOGA II. (1 Credit)
Building off Yoga I, this is an intermediate level course meant to develop a deeper understanding of yoga practice.
Equivalent to: PAC 256
This course is repeatable for 11 credits.
Recommended: Yoga I or previous yoga experience.

PAC 296. VINYASA YOGA. (1 Credit)
Dynamic flow that connects movement and breath encouraging meditation in motion. May include sustained yoga postures.
Equivalent to: PAC 257
This course is repeatable for 11 credits.
Recommended: Yoga I or previous yoga experience.
PAC 297. YOGATHON. (1 Credit)
Expands on knowledge and skills learned in Yoga I or Fitness Yoga through three to five class sessions, each 3-6 hours; longer sessions provide students with an intensive mental and physical experience centering on the concepts of yoga; includes introductory relaxation and meditation skills.
This course is repeatable for 11 credits.
Recommended: PAC 294 and PAC 295 and PAC 296 and (Yoga I or Fitness Yoga)

PAC 298. RESTORATIVE YOGA. (1 Credit)
An emphasis on floor postures, supported postures, and longer holds that cultivate a relationship with ease. Techniques will be used to help students facilitate greater personal awareness. Students will use self reflection practices for personal well-being.
This course is repeatable for 11 credits.

PAC 299. SPECIAL TOPICS. (1-3 Credits)
Advanced information, skills, practice, and application; experimental and new classes. May have additional fee.
This course is repeatable for 11 credits.
Recommended: Intermediate to advanced skills in an activity area

PAC 300. ALI: HIKING LOCAL TRAILS. (1 Credit)
Covers the fundamentals of hiking as a recreational activity and an outdoor travel skill. Content will cover local trails, place history, hiking techniques, clothing and equipment selection, elemental first aid and safety concerns, leave-no-trace principles, and map basics. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 301. ALI: CHALLENGE COURSE EXPERIENCE. (1 Credit)
Emphasis on gaining practical experience and understanding of various components that occur in challenge course activities/programs; group dynamic mental and physical challenges; cooperative games and initiatives that promote communication, problem solving skills and leadership; Low and High challenge course activities that promote self-confidence and agility. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 302. ALI: CHALLENGE COURSE PRACTICES AND FACILITATION. (1 Credit)
Covers the set up and facilitation of various challenge course low and high course elements as they pertain to ALI's Challenge Course programming. Students will learn facilitation skills, risk management concepts, operational procedures, and technical rescue skills. A passing grade in this course will result in a certificate of completion from the OSU ALI Challenge Course. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 301 with C- or better
This course is repeatable for 11 credits.
Recommended: Climbing wall instructor, efficient climbers toolbox, self-rescue

PAC 303. ALI: CAMP CRAFT. (1 Credit)
Provides basic front-country camping skills such as packing, trip planning, how to dress for different climates/weather, storm-proofing, knife and axe techniques and safety, stove and kitchen operations, and fire building. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 304. ALI: BACKPACKING. (1 Credit)
Hiking and camping while carrying all gear; tent set-up, camp site selection, operation of single-burner stoves, loading a backpack, water infiltration, navigation, proper hiking technique, energy conservation; leave-no-trace principles in every aspect of the trip and class; includes classroom instruction and required overnight trip. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 307. ALI: RAFTING. (1 Credit)
An introduction to white water rafting. Students will learn the fundamentals of safe rafting, trip planning and become familiar with the gear associated with rafting. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 308. ALI: CANOEING. (1 Credit)
Designed as an introduction to canoeing. Students learn the fundamentals of safe canoeing, trip planning and become familiar with the gear associated with rafting. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 309. ALI: KAYAKING I. (1 Credit)
Focuses on developing technical kayaking skills in flat water and moving water up to Class I. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 311. ALI: STAND UP PADDLEBOARD. (1 Credit)
Covers the curriculum for level 1 and 2 American Canoe Association standup paddle board skills courses. Skills include equipment, environmental factors, techniques, preparation and planning, emergency management, and environmental ethics. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 313. ALI: CANYONEERING. (1 Credit)
Students will learn the fundamentals of canyoneering, including efficient hiking techniques, safe anchoring, belaying and rappelling techniques, and environmental mitigation skills. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 314. ALI: BOULDERING. (1 Credit)
Introduction to the sport of bouldering, a subset of rock climbing using an indoor climbing facility; emphasis on safety, spotting, climbing movement, training techniques and improvement; provides activities that promote muscular strength and endurance, flexibility, and cardiovascular endurance. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 315. ALI: ROCK CLIMBING I. (1 Credit)
Physical conditioning for, and instruction in, the skills and techniques of rock climbing; environmental impact issues; held at on-campus indoor climbing center. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 316. ALI: ROCK CLIMBING II. (1 Credit)
Focuses on developing technical climbing skills related to lead climbing and anchor construction. Includes a one-day outdoor experience. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 315 with C- or better
This course is repeatable for 11 credits.
PAC 317. ALI: ROCK CLIMBING III. (1 Credit)
Focuses on developing technical climbing skills in an outdoor setting. Includes a weekend long outdoor experience and cover skills ranging from building anchors using natural protection, to advanced outdoor movement skills. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 315 with C- or better and PAC 316 [C-]
This course is repeatable for 11 credits.
Recommended: Intermediate to advanced skills in an activity area

PAC 319. ALI: TECHNICAL RAPPELLING. (1 Credit)
Students will learn, practice and hone their skills in the art of technical rappelling. Introduces many different styles, techniques and equipment used for rappelling in a variety of situations. Throughout the course, students will be provided with simple to advanced challenges to overcome. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 320. ALI: MOUNTAINEERING I. (1 Credit)
Snow climbing techniques, anchoring, belaying and rappelling techniques, snow camping/living skills, and wilderness ethics; classroom instruction and required overnight alpine trip. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 321. ALI: MOUNTAINEERING II. (1 Credit)
Building on skills learned in Mountaineering I; rope team/glacier travel experience, fundamentals of crevasse rescue, advanced snow climbing techniques, safe anchoring, belaying and rappelling techniques, snow camping/living skills, and wilderness ethics. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 320 with C- or better
This course is repeatable for 11 credits.

PAC 322. ALI: ICE CLIMBING. (1 Credit)
Students will learn the fundamentals of ice climbing, including efficient ice climbing techniques, safe anchoring, belaying and rappelling techniques and wilderness ethics. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 323. ALI: MOUNTAIN RESCUE BASICS. (1 Credit)
Focuses on developing technical skills in a mountain rescue system. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 320 with D- or better
This course is repeatable for 11 credits.

PAC 324. ALI: WHITE WATER RESCUE. (1 Credit)
Provides an introduction to white water rescue; students learn the fundamentals of white water rescue, scene management, and the necessary gear to perform rescues. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 325. ALI: WILDERNESS FIRST AID. (1 Credit)
Fundamentals of emergency care in a non-urban environment including anatomy, physiology, injury assessment, short-term care, small-group rescues; backcountry emphasis with long-term care and evacuation complications. PAC courses may not be used to fulfill upper-division requirements.
Equivalent to: PAC 325H
This course is repeatable for 11 credits.

PAC 326. ALI: BUSH CRAFT. (1 Credit)
Basic wilderness living techniques, knowledge and skills needed for a student to be ethical and efficient, and have the ability to survive in the outdoors. Special emphasis is placed on building shelters, water purification, navigation, awareness, fire, self-sufficiency and caring for groups in the wilderness. PAC courses may not be used to fulfill upper-division requirements.
Prerequisites: PAC 303 with D- or better
This course is repeatable for 11 credits.

PAC 327. ALI: ROCK GUIDE SCHOOL. (1 Credit)
Serves as an opportunity to learn the skills for being a rock guide for the ALI. With five days of training and practice in the field at two climbing sites in Oregon, it serves to help students understand the unique challenges of instructing climbing in the outdoor environment. This course may end with Sport Climbing Instructor certification through the Professional Climbing Instructors of America. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.
Recommended: Efficient climbers toolbox, self-rescue, climbing wall instructor--lead certification

PAC 328. ALI: RAFT GUIDE SCHOOL. (1 Credit)
Provides students the skills and guided practice time needed to become competent paddle raft guides. It is a nine-day course that focuses on the development of water reading, raft maneuvering, risk management, and whitewater rescue skills needed by raft guides. Successful completion of the course will result in a certificate of completion from the American Canoe Association (ACA). PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 329. ALI: WILDERNESS FIRST RESPONDER. (2 Credits)
Fundamentals of emergency care in a non-urban environment, including physiology, injury assessment, short-term care, anatomy, and small-group rescues. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 330. ALI: SNOW TRAVEL AND CAMPING. (1 Credit)
An introduction to traveling in the backcountry in adverse weather conditions that often accompany winter. Topics covered include cross country touring, snow shoeing, winter camping techniques, and winter safety considerations including introducing avalanche safety. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.
PAC 331. THE ART OF FLY FISHING. (1 Credit)
Students will be introduced to fly fishing skills such as casting, knot tying, safety considerations, fly selection, and ways to approach water. There will be a general overview of common places and species to fish in Oregon and other locations. This course combines approximately 30 hours of instruction, online activities, and assignments for 1 credit. PAC courses may not be used to fulfill upper-division requirements.
Corequisites: ENG 225, FW 112
This course is repeatable for 11 credits.

PAC 332. AI: AVALANCHE AWARENESS. (1 Credit)
Focuses on what causes avalanches, how to safely travel in avalanche terrain, and resources to pursue in understanding the avalanche risk where you are traveling. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

Physical Therapy/Therapist (PT)

PT 700. PROFESSIONALISM AND INTERPROFESSIONAL PRACTICE. (2 Credits)
Introduction to the role of the professional in physical therapy practice. Topics of application include communication, professional behavior and abilities, ethics, legal issues, and responsibility for professional development.

PT 711. ANALYTICAL ANATOMY AND IMAGING. (4 Credits)
Detailed kinesiologic analysis of appendicular, spine, head, neck, and face muscles. Lecture, clinical demonstration, and practical experiences.

PT 712. NEUROANATOMY AND NEUROSCIENCE. (5 Credits)
Organized approach to structures in the brain, spinal cord and peripheral nervous systems. Detailed analysis of Neurophysiologic mechanisms underlying normal and abnormal motor sensory function.

PT 713. MUSCULOSKELETAL ANATOMY. (6 Credits)
Musculoskeletal anatomy, innervation, blood supply, and function: intensive study of the head, neck, trunk, and limbs.

PT 716. CULTURAL COMPETENCE IN PHYSICAL THERAPY. (2 Credits)
An exploration of how cultural competence is a critical core component of professional practice in physical therapy and should be considered as a part of the best practice in providing physical therapy care.

PT 717. GERIATRICS IN PHYSICAL THERAPY. (2 Credits)
An overview of the Physical and Psycho-Behavior aspects of aging in adulthood. An introduction to usual and pathological changes and treatment issues relevant to older patients.

PT 718. PSYCHOSOCIAL ASPECTS OF DISABILITY. (2 Credits)
A study of behavior, social structures and beliefs, and interaction patterns to support the scientific basis of the effective interactions of physical therapists with patients.

PT 719. PHYSICAL THERAPY IN RURAL COMMUNITIES. (2 Credits)
An overview of major issues in the rural health care system and the environment in which physical therapists, as rural health clinicians, must function. Provides students with an understanding of the healthcare delivery system in rural America with a concentration on the diverse populations of the Northwest region of the United States.

PT 720. MOTOR DEVELOPMENT. (3 Credits)
Examination of normal development of gross motor, fine motor, language, cognition, psychosocial, and play skills across the lifespan from in utero to young adulthood.

PT 721. MOTOR CONTROL AND LEARNING ACROSS THE LIFE SPAN. (4 Credits)
Introduction to sensorimotor systems, overview of current perspectives in motor control and learning from fetus through late adulthood, and clinical tests of motor proficiency.

PT 722. PREVENTION WELLNESS AND POPULATION HEALTH. (3 Credits)
A study of the development of wellness plans for individuals or families in the community. Students will learn to assess family health care needs, seek out community resources, and educate community members on specific issues related to their own health and well-being.

PT 730. APPLIED PHYSIOLOGY. (3 Credits)
Selected subjects in cellular and systems physiology. Emphasis on molecular and cellular aspects of neuromuscular function, also renal and endocrine physiology.

PT 731. CLINICAL EXERCISE PHYSIOLOGY. (4 Credits)
Adaptation of the human body to exercise and the use of exercise to modify human function.

PT 740. THERAPEUTIC EXERCISE I. (3 Credits)
Theoretical principles for evaluation of exercise need and prescription of exercise programs. Emphasis on approaches for patients with musculoskeletal deficits.

PT 741. THERAPEUTIC EXERCISE II. (3 Credits)
Examination of needs analysis and prescription of exercise programs for special patient populations and assessment of current community trends in exercise and wellness.

PT 743. BUSINESS AND ADMINISTRATION IN PHYSICAL THERAPY. (3 Credits)
Examination on the factors affecting patients entry into and progression through the healthcare system, including the effect of current financial, legal and regulatory policies that affect the patient, the patient/professional relationship, and the practice of physical therapy. Provides an overview of primary business disciplines including market research and strategy, marketing, finance, operations, and management.

PT 745. BASICS OF PATIENT MANAGEMENT. (1,6 Credits)
Development of basic decision-making skills, professional behaviors and impairment assessment in patients with musculoskeletal, neurologic and/or cardiopulmonary dysfunction.
This course is repeatable for 6 credits.

PT 746. DISORDERS OF THE MUSCULOSKELETAL SYSTEM. (3 Credits)
Regional description of pathology and pathophysiological mechanisms of disorders of bone, connective tissue, and joints.

PT 748. THERAPEUTIC MODALITIES. (3 Credits)
An introduction to the management of pain and dysfunction using thermal, electrical and mechanical modalities used by Physical Therapists in general practice.

PT 750. CLINICAL BIOMECHANICS & GAIT. (5 Credits)
Introduction to the principles of biomechanics as they apply to physical therapy practice. Emphasis on joint structure and function and tissue mechanics. Introduction to both normal and pathological gait including examination of joint kinematics, kinetics, and muscle activity.

PT 752. PROSTHETICS AND ORTHOTICS. (3 Credits)
The examination of pathological gait of patients using prosthetic and orthotic devices. The course emphasizes types of orthotic and prosthetic devices, assessments, reassessment and corrections of gait deviations using therapeutic interventions geared toward functional interventions, patient/family education, exercises, and balance and coordination techniques.
PT 760. PHARMACOLOGY. (2 Credits)
The study of prescription and/or over-the-counter medications used in
the management of a variety of patient conditions encountered during
physical therapy management.

PT 761. RESEARCH METHODS AND EVIDENCE BASED PRACTICE. (2 Credits)
Introduction to evidence based practice, scientific methods, and clinical
research methodologies.

PT 780. DIFFERENTIAL DIAGNOSIS. (4 Credits)
Consideration of principles of differential diagnosis with emphasis on
mastering this skill.

PT 791. MANAGEMENT OF CARDIOPULMONARY DYSFUNCTION. (2 Credits)
Physical therapy evaluation and intervention in the care of patients with
circulatory, cardiac, or pulmonary dysfunction.

Physics (PH)

PH 104. *DESCRIPTIVE ASTRONOMY. (4 Credits)
Historical and cultural context of discoveries concerning planets
and stars and their motions. Topics include the solar system, the
constellations, birth and death of stars, pulsars and black holes. An
accompanying laboratory is used for demonstrations, experiments, and
projects, as well as for outdoor observations. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 104H

PH 104H. *DESCRIPTIVE ASTRONOMY. (4 Credits)
Historical and cultural context of discoveries concerning planets
and stars and their motions. Topics include the solar system, the
constellations, birth and death of stars, pulsars and black holes. An
accompanying laboratory is used for demonstrations, experiments, and
projects, as well as for outdoor observations. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course
Equivalent to: PH 104

PH 106. *PERSPECTIVES IN PHYSICS. (4 Credits)
A descriptive and non-mathematical study of the development of physical
concepts and their historical and philosophical context. The emphasis
is on the origin, meaning, significance, and limitations of these concepts
and their role in the evolution of current understanding of the universe.
Concepts to be covered include Copernican astronomy, Newtonian
mechanics, energy, electricity and magnetism, relativity, and quantum
theory. Intended primarily for non-science students. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science

PH 111. *INQUIRING INTO PHYSICAL PHENOMENA. (4 Credits)
Development of conceptual understandings through investigation of
everyday phenomena. Emphasis is on questioning, predicting, exploring,
observing, discussing, and writing in physical science contexts. Students
document their initial thinking, record their evolving understandings, and
write reflections upon how their thinking changed and what fostered their
learning. Lec/lab. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science

PH 198. FIRST-YEAR ORIENTATION. (1 Credit)
Introduction to the Physics Department including educational, research,
and career opportunities. Recommended for all freshman and transfer
physics majors, but open to all students interested in learning about
opportunities in Physics.

PH 199. SPECIAL STUDIES. (1-16 Credits)
One-credit sections are graded pass/no pass. 
This course is repeatable for 99 credits.

PH 201. *GENERAL PHYSICS. (5 Credits)
Introductory survey course covering a broad spectrum of classical
and modern physics with applications. Topics include dynamics,
vibrations and waves, electricity and magnetism, optics, and modern
physics. Laboratory and recitation sections accompany the lectures.
Mathematical preparation should include college algebra and
trigonometry. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 201H
Recommended: MTH 111 and MTH 112

PH 202. *GENERAL PHYSICS. (5 Credits)
Introductory survey course covering broad spectrum of classical
and modern physics with applications. Topics include dynamics,
vibrations and waves, electricity and magnetism, optics, and modern
physics. Laboratory and recitation sections accompany the lectures.
Mathematical preparation should include college algebra and
trigonometry. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 202H
Recommended: MTH 111 and MTH 112 and PH 201

PH 203. *GENERAL PHYSICS. (5 Credits)
Introductory survey course covering broad spectrum of classical
and modern physics with applications. Topics include dynamics,
vibrations and waves, electricity and magnetism, optics, and modern
physics. Laboratory and recitation sections accompany the lectures.
Mathematical preparation should include college algebra and
trigonometry. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 203H
Recommended: MTH 111 and MTH 112 and PH 202

PH 205. *SOLAR SYSTEM ASTRONOMY. (4 Credits)
History, laws, and tools of astronomy. Composition, motion, and origin
of the sun, planets, moons, asteroids, and comets. An accompanying
laboratory is used for demonstrations, experiments, and projects, as well
as for outdoor observations. The courses in the astronomy sequence
(PH 205, PH 206, PH 207) can be taken in any order. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science

PH 206. *STARS AND STELLAR EVOLUTION. (4 Credits)
Properties of stars; star formation, evolution, and death; supernovae,
pulsars, and black holes. An accompanying laboratory is used for
demonstrations, experiments, and projects, as well as for outdoor
observations. The courses in the astronomy sequence (PH 205, PH 206,
PH 207) can be taken in any order. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science

PH 207. *GALAXIES, QUASARS, AND COSMOLOGY. (4 Credits)
Nature and content of galaxies, properties of quasars, and the cosmic
background radiation. Emphasis on the Big-Bang model and its features.
An accompanying laboratory is used for demonstrations, experiments,
and projects, as well as for outdoor observations. The courses in the
astronomy sequence (PH 205, PH 206, PH 207) can be taken in any order.
Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
PH 211. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 211H
Recommended: MTH 251 and concurrent enrollment in MTH 252 and a PH 221 recitation section

PH 211H. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 211
Recommended: MTH 251 and concurrent enrollment in MTH 252 and a PH 211 recitation section

PH 212. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisites: PH 211 with D- or better or PH 211H with D- or better
Equivalent to: PH 212H, PH 212H
Recommended: MTH 252 and concurrent enrollment in PH 222 and MTH 254

PH 212H. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisites: PH 211 with D- or better or PH 211H with D- or better
Equivalent to: PH 212H, PH 212H
Recommended: MTH 252 and concurrent enrollment in PH 222 and MTH 254

PH 213. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 213H
Recommended: MTH 254 and (PH 212 or PH 212H). Concurrent enrollment in a recitation section is strongly recommended.

PH 213H. *GENERAL PHYSICS WITH CALCULUS. (4 Credits)
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 213
Recommended: MTH 254 and (PH 212 or PH 212H). Concurrent enrollment in a recitation section is strongly recommended.

PH 221. RECITATION FOR PHYSICS 211. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Prerequisites: PH 211 (may be taken concurrently) with D- or better or PH 211H (may be taken concurrently) with D- or better
Equivalent to: PH 221H

PH 221H. RECITATION FOR PHYSICS 211. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisites: PH 211 (may be taken concurrently) with D- or better or PH 211H (may be taken concurrently) with D- or better
Equivalent to: PH 221

PH 222. RECITATION FOR PHYSICS 212. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Graded P/N.
Prerequisites: PH 212 (may be taken concurrently) with D- or better or PH 212H (may be taken concurrently) with D- or better
Equivalent to: PH 222H

PH 222H. RECITATION FOR PHYSICS 212. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisites: PH 212 (may be taken concurrently) with D- or better or PH 212H (may be taken concurrently) with D- or better
Equivalent to: PH 222
Recommended: Concurrent enrollment in PH 212 or PH 212H

PH 223. RECITATION FOR PHYSICS 213. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Prerequisites: PH 213 (may be taken concurrently) with D- or better or PH 213H (may be taken concurrently) with D- or better
Equivalent to: PH 223H

PH 223H. RECITATION FOR PHYSICS 213. (1 Credit)
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisites: PH 213 (may be taken concurrently) with D- or better or PH 213H (may be taken concurrently) with D- or better
Equivalent to: PH 223
Recommended: Concurrent enrollment in PH 213

PH 265. SCIENTIFIC COMPUTING. (3 Credits)
Basic computational tools and techniques for courses in science and engineering. Project approach to problem solving using symbolic and compiled languages with visualization. Basic computer literacy assumed.
Equivalent to: CS 265
Recommended: Concurrent enrollment in MTH 251
PH 299. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PH 313. *ENERGY ALTERNATIVES. (3 Credits)
Exploration of the challenges and opportunities posed by dwindling resources; physical and technological basis of our current energy alternatives; new or controversial technologies such as nuclear or solar power; overview of resource availability, patterns of energy consumption, and current governmental policies. (Bacc Core Course)
Equivalent to: PH 313H
Recommended: Upper-division standing and 12 credits of introductory science.

PH 313H. *ENERGY ALTERNATIVES. (3 Credits)
Exploration of the challenges and opportunities posed by dwindling resources; physical and technological basis of our current energy alternatives; new or controversial technologies such as nuclear or solar power; overview of resource availability, patterns of energy consumption, and current governmental policies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society;
HNRS – Honors Course Designator
Equivalent to: PH 313
Recommended: Upper-division standing and 12 credits of introductory science.

PH 315. PHYSICS OF CONTEMPORARY CHALLENGES. (3 Credits)
An introduction to thermal and quantum physics in the context of contemporary challenges faced by our society, such as power generation, energy efficiency, and global warming.
Recommended: PH 211

PH 317. *EXPERIMENTAL PHYSICS. (3 Credits)
Conducting experiments, understanding equipment, modeling physical phenomena, analyzing and presenting data, sources of variation and uncertainty. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PH 213 with C- or better and PH 315 [C-] and PH 335 [C-]

PH 317X. EXPERIMENTAL PHYSICS. (3 Credits)
Conducting experiments, understanding equipment, modeling physical phenomena, analyzing and presenting data, data-driven conclusions and inferences, statistical analysis.
Prerequisites: PH 213 with C- or better and PH 315 [C-] and PH 335 [C-]

PH 331. *SOUND, HEARING, AND MUSIC. (3 Credits)
Basic course in the physics, technology, and societal implications of sound. Intended for students in nontechnical majors. Topics include wave motion, hearing and the perception of sound, noise pollution, music and musical instruments, architectural acoustics, and sound recording and reproduction. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and one year of university science.

PH 332. *LIGHT, VISION, AND COLOR. (3 Credits)
Basic physics of light, optical instruments (lenses, telescopes, microscopes), the eye and visual perception, colors, photography, environmental lighting, lasers and holography. For nontechnical majors.
(Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and one year of university science.

PH 335. TECHNIQUES OF THEORETICAL MECHANICS. (3 Credits)
Newtonian, Lagrangian, and Hamiltonian classical mechanics. Special relativity with relativistic mechanics.
Recommended: PH 212 and MTH 254

PH 365. COMPUTATIONAL PHYSICS LAB. (1 Credit)
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisites: PH 213 with C- or better
Equivalent to: PH 365X
Recommended: Concurrent enrollment in Paradigms.

PH 366. COMPUTATIONAL PHYSICS LAB. (1 Credit)
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisites: PH 213 with C- or better
Recommended: Concurrent enrollment in Paradigms.

PH 367. COMPUTATIONAL PHYSICS LAB. (1 Credit)
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisites: PH 213 with C- or better
Recommended: Concurrent enrollment in Paradigms.

PH 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PH 399H. SPECIAL TOPICS. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: PH 399
This course is repeatable for 16 credits.

PH 401. RESEARCH. (1-16 Credits)
A research project under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration.
This course is repeatable for 16 credits.

PH 403. *THESIS. (1-16 Credits)
A research project leading to a thesis under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.

PH 405. READING AND CONFERENCE. (1-16 Credits)
An independent study project under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration.
This course is repeatable for 16 credits.

PH 407. SEMINAR. (1-16 Credits)
Departmental seminars or colloquium. Graded P/N.
Equivalent to: PH 407H
This course is repeatable for 16 credits.
PH 407H. SEMINAR. (1-16 Credits)
Departmental seminars or colloquium.
Attributes: HNRS – Honors Course Designator
Equivalent to: PH 407
This course is repeatable for 16 credits.

PH 409. PHYSICS TEACHING PRACTICUM. (1-6 Credits)
Physics practicum experience for students assisting in Physics courses. Includes training in course content and development of instructional materials. Admission is by application. See the department office in Weniger 301 for details.
This course is repeatable for 6 credits.

PH 410. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

PH 411. ELECTRONICS. (3 Credits)
Covers how to build and analyze basic circuits. Topics include passive dc and ac circuits including filters, complex impedance, Fourier analysis, operational amplifiers, semiconductor diodes, and transistors.
Recommended: PH 423

PH 415. COMPUTER INTERFACING AND INSTRUMENTATION. (3 Credits)
Applications of computers as scientific instruments, with emphasis on hardware and instrumentation, online data acquisition, and computer control of experiments.
Recommended: Upper-division and PH 412/PH 512 or equivalent background in electronics

PH 422. PARADIGMS IN PHYSICS: STATIC FIELDS. (3 Credits)
Theory of static electric, magnetic, and gravitational potentials and fields using the techniques of vector calculus in three dimensions.
Equivalent to: PH 322
Recommended: PH 213 and MTH 255

PH 423. PARADIGMS IN PHYSICS: ENERGY AND ENTROPY. (3 Credits)
Thermodynamics and canonical statistical mechanics.
Equivalent to: PH 323
Recommended: PH 213

PH 424. PARADIGMS IN PHYSICS: OSCILLATIONS AND WAVES. (3 Credits)
Dynamics of mechanical and electrical oscillation using Fourier series and integrals; time and frequency representations for driven damped oscillators, resonance; one-dimensional waves in classical mechanics and electromagnetism; normal modes.
Recommended: PH 213 and PH 411 and MTH 256

PH 425. PARADIGMS IN PHYSICS: QUANTUM FUNDAMENTALS. (3 Credits)
Introduction to quantum mechanics through Stern-Gerlach spin measurements. Probability, eigenvalues, operators, measurement, state reduction, Dirac notation, matrix mechanics, time evolution. Quantum behavior of a one-dimensional well.
Recommended: PH 213 and concurrent enrollment in MTH 341

PH 426. PARADIGMS IN PHYSICS: CENTRAL FORCES. (3 Credits)
Gravitational and electrostatic forces; angular momentum and spherical harmonics, separation of variables in classical and quantum mechanics, hydrogen atom.
Recommended: PH 213 and PH 422 and PH 425 and concurrent enrollment in PH 335

PH 427. PARADIGMS IN PHYSICS: PERIODIC SYSTEMS. (3 Credits)
Quantum waves in position and momentum space; Bloch waves in one-dimensional periodic systems, and the reciprocal lattice; coupled harmonic oscillators; phonons.
Recommended: PH 424 and PH 425 and concurrent enrollment in PH 315

PH 431. CAPSTONES IN PHYSICS: ELECTROMAGNETISM. (3 Credits)
Static electric and magnetic fields in matter, electrodynamics, Maxwell equations, electromagnetic waves, wave guides, dipole radiation.
Recommended: (PH 424 or 524) and (PH 426 or PH 526)

PH 441. CAPSTONES IN PHYSICS: THERMAL AND STATISTICAL PHYSICS. (3 Credits)
Entropy and quantum mechanics; canonical Gibbs probability; ideal gas; thermal radiation; Einstein and Debye lattices; grand canonical Gibbs probability; ideal Fermi and Bose gases; chemical reactions and phase transformations.
Recommended: (PH 423 or PH 523) and (PH 451 or PH 551)

PH 451. CAPSTONES IN PHYSICS: QUANTUM MECHANICS. (3 Credits)
Wave mechanics, Schroedinger equation, operators, harmonic oscillator, identical particles, atomic fine structure, approximation methods and applications.
Recommended: (PH 424 or PH 524) and (PH 425 or PH 525) and (PH 426 or PH 526)

PH 455. ASTROPHYSICS. (3 Credits)
Physics of stars and the cosmos.
Recommended: PH 213; PH 315 or equivalent junior-level background in modern physics and thermodynamics.

PH 464. SCIENTIFIC COMPUTING II. (3 Credits)
Mathematical, numerical, and conceptual elements forming foundations of scientific computing: computer hardware, algorithms, precision, efficiency, verification, numerical analysis, algorithm scaling, profiling, and tuning.
Equivalent to: PH 365

PH 465. COMPUTATIONAL PHYSICS. (3 Credits)
The use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered include models and applications ranging from classical mechanics and electromagnetism to modern solid state and particle physics.
Recommended: PH 464 or PH 564

PH 481. PHYSICAL OPTICS. (4 Credits)
Wave propagation, polarization, interference, diffraction, and selected topics in modern optics.
Recommended: PH 431 or PH 531

PH 482. OPTICAL ELECTRONIC SYSTEMS. (4 Credits)
Photodetectors, laser theory, and laser systems. Lec/lab. CROSSLISTED as ECE 482/PH 482 and ECE 582/PH 582.
Equivalent to: ECE 482
Recommended: ECE 391 or (PH 481 or PH 581)

PH 483. GUIDED WAVE OPTICS. (4 Credits)
Optical fibers, fiber mode structure and polarization effects, fiber interferometry, fiber sensors, optical communication systems. Lec/lab. CROSSLISTED as ECE 483/PH 483 and ECE 583/PH 583.
Equivalent to: ECE 483
Recommended: Completion or concurrent enrollment in ECE 391 or PH 481

PH 495. INTRODUCTION TO PARTICLE AND NUCLEAR PHYSICS. (3 Credits)
Elementary particles and forces, nuclear structure and reactions.
Recommended: PH 451 or PH 551

PH 499. SPECIAL TOPICS. (1-16 Credits)
Topics vary from year to year. May be repeated for credit. Not offered every year.
This course is repeatable for 16 credits.
PH 501. RESEARCH. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 16 credits.

PH 503. THESIS. (1-16 Credits)  
This course is repeatable for 999 credits.

PH 505. READING AND CONFERENCE. (1-16 Credits)  
This course is repeatable for 16 credits.

PH 507. SEMINAR. (1-16 Credits)  
Section 1: Departmental Colloquium. Section 3: Nuclear and Particle Physics. Section 5: Atomic, Molecular, and Optical Physics. Section 7: Solid State Physics. Section 9: Computational Physics. One-credit options are graded P/N.  
This course is repeatable for 16 credits.

PH 510. INTERNSHIP. (1-16 Credits)  
This course is repeatable for 16 credits.

PH 511. ELECTRONICS. (3 Credits)  
Covers how to build and analyze basic circuits. Topics include passive dc and ac circuits including filters, complex impedance, Fourier analysis, operational amplifiers, semiconductor diodes, and transistors.  
Recommended: PH 213

PH 512. ANALOG AND DIGITAL ELECTRONICS. (3 Credits)  
Circuit theory. Passive dc and ac circuits including filters, resonance, complex impedance and Fourier analysis. Operational amplifiers, gates and combinational logic. Semiconductor principles, diodes, transistors, BJTs and FETs. Multiplexing, flip-flops and sequential logic, 555 timer, registers and memory, DAC, ADC.  
Recommended: PH 511 and completion or concurrent enrollment in PH 314

PH 515. COMPUTER INTERFACING AND INSTRUMENTATION. (3 Credits)  
Applications of computers as scientific instruments, with emphasis on hardware and instrumentation, online data acquisition, and computer control of experiments.  
Recommended: PH 412 or PH 512 or equivalent background in electronics

PH 531. CAPSTONES IN PHYSICS: ELECTROMAGNETISM. (3 Credits)  
Static electric and magnetic fields in matter, electrodynamics, Maxwell equations, electromagnetic waves, wave guides, dipole radiation.  
Recommended: (PH 424 or PH 524) and (PH 426 or PH 526)

PH 541. CAPSTONES IN PHYSICS: THERMAL AND STATISTICAL PHYSICS. (3 Credits)  
Entropy and quantum mechanics; canonical Gibbs probability; ideal gas; thermal radiation; Einstein and Debye lattices; grand canonical Gibbs probability; ideal Fermi and Bose gases; chemical reactions and phase transformations.  
Recommended: (PH 423 or PH 523) and (PH 451 or PH 551)

PH 551. CAPSTONES IN PHYSICS: QUANTUM MECHANICS. (3 Credits)  
Wave mechanics, Schroedinger equation, operators, harmonic oscillator, identical particles, atomic fine structure, approximation methods and applications.  
Recommended: (PH 424 or PH 524) and (PH 425 or PH 525) and (PH 426 or PH 526)

PH 555. ASTROPHYSICS. (3 Credits)  
Physics of stars and the cosmos.  
Recommended: PH 213; PH 315 or equivalent junior-level background in modern physics and thermodynamics.

PH 562. MATHEMATICAL PHYSICS. (3 Credits)  
Fundamental mathematical techniques needed for graduate students in physics. Topics include vector spaces and operators; fourier series, integrals, and transforms; partial differential equations; special functions, distributions, and delta functions; Green's functions; complex analysis.

PH 564. SCIENTIFIC COMPUTING II. (3 Credits)  
Mathematical, numerical, and conceptual elements forming foundations of scientific computing: computer hardware, algorithms, precision, efficiency, verification, numerical analysis, algorithm scaling, profiling, and tuning. Lec/lab.  
Equivalent to: PH 365

PH 575. INTRODUCTION TO SOLID STATE PHYSICS. (3 Credits)  
Introduction to condensed matter physics for majors in physics, chemistry, and engineering. Topics include band structure, free electron behavior, optical properties, magnetism, and lattice excitations. Recommended: (PH 451 or PH 551) and concurrent enrollment in PH 427 or PH 527

PH 581. PHYSICAL OPTICS. (4 Credits)  
Wave propagation, polarization, interference, diffraction, and selected topics in modern optics.  
Recommended: PH 431 or PH 531

PH 582. OPTICAL ELECTRONIC SYSTEMS. (4 Credits)  
Photodetectors, laser theory, and laser systems. Lec/lab. CROSSLISTED as ECE 482/PH 482 and ECE 582/PH 582.  
Equivalent to: ECE 582

PH 583. GUIDED WAVE OPTICS. (4 Credits)  
Optical fibers, fiber mode structure and polarization effects, fiber interferometry, fiber sensors, optical communication systems. Lec/lab. CROSSLISTED as ECE 483/PH 483 and ECE 583/PH 583.  
Equivalent to: ECE 583

Recommended: Completion or concurrent enrollment in ECE 391 or PH 481/581

PH 585. ATOMIC, MOLECULAR, AND OPTICAL PHYSICS. (3 Credits)  
Atomic and molecular structure, interaction with electromagnetic fields, atomic and molecular spectra, spectroscopic techniques, laser theory, nonlinear optics. Recommended: (PH 431 or PH 531) or (PH 451 or PH 551)

PH 591. BIOLOGICAL PHYSICS. (3 Credits)  
Basic physics principles applied to the kinetics and dynamics of molecular and cellular processes. Ion channels, two-state systems, dynamics of molecular motors, cell signalling, and multicellular phenomena.  
Recommended: PH 320, PH 421, PH 422 and PH 423 or junior-level background in classical mechanics, electromagnetism, and thermodynamics

PH 595. INTRODUCTION TO PARTICLE AND NUCLEAR PHYSICS. (3 Credits)  
Elementary particles and forces, nuclear structure and reactions.  
Recommended: PH 451 or PH 551

PH 599. SPECIAL TOPICS. (1-16 Credits)  
(See PH 499 for description.)  
This course is repeatable for 16 credits.

PH 601. RESEARCH. (1-16 Credits)  
This course is repeatable for 16 credits.

PH 603. THESIS. (1-16 Credits)  
This course is repeatable for 999 credits.
PH 605. READING AND CONFERENCE. (1-16 Credits)

This course is repeatable for 16 credits.

PH 607. SEMINAR. (1-16 Credits)

Section 1: Departmental Colloquium. Section 3: Nuclear and Particle Physics. Section 5: Atomic, Molecular, and Optical Physics. Section 7: Solid State Physics. Section 9: Computational Physics. One-credit options are graded P/N.

This course is repeatable for 16 credits.

PH 621. DYNAMICS OF SINGLE- AND MULTI-PARTICLE SYSTEMS. (3 Credits)

Introduction to theory of non-linear systems. Chaos in Hamiltonian and dissipative systems. Lyapunov exponents, fractal geometries.

Recommended: PH 435 or PH 535

PH 631. ELECTROMAGNETIC THEORY. (3 Credits)

Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.

Recommended: PH 431 or PH 531

PH 632. ELECTROMAGNETIC THEORY. (3 Credits)

Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.

Recommended: PH 431 or PH 531

PH 633. ELECTROMAGNETIC THEORY. (3 Credits)

Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.

Recommended: PH 432 or (PH 431 or PH 531)

PH 641. STATISTICAL THERMOPHYSICS. (3 Credits)

Macroscopic thermodynamics and kinetic theory. Classical and quantal statistical ensembles; partition functions. Applications to atoms and molecules, clustering, solids, radiation.

Recommended: PH 435 or PH 535

PH 642. STATISTICAL THERMOPHYSICS. (3 Credits)

Macroscopic thermodynamics and kinetic theory. Classical and quantal statistical ensembles; partition functions. Applications to atoms and molecules, clustering, solids, radiation.

Recommended: PH 641

PH 651. QUANTUM MECHANICS. (3 Credits)

Basic principles of nonrelativistic quantum theory and applications. Schrödinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.

Recommended: (PH 435 or PH 535) and (PH 451 or PH 551)

PH 652. QUANTUM MECHANICS. (3 Credits)

Basic principles of nonrelativistic quantum theory and applications. Schrödinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.

Recommended: (PH 435 or PH 535) and (PH 451 or PH 551) and PH 651

PH 653. QUANTUM MECHANICS. (3 Credits)

Basic principles of nonrelativistic quantum theory and applications. Schrödinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.

Recommended: (PH 435 or PH 535) and (PH 451 or PH 551) and PH 651

PH 654. ADVANCED QUANTUM THEORY. (3 Credits)

Scattering theory, second quantization and many body theory, relativistic quantum mechanics, quantization of fields, quantum electrodynamics, and elementary particles.

Recommended: PH 653

PH 671. SOLID STATE PHYSICS, ELECTRON TRANSPORT. (2 Credits)

Fundamentals of solid state physics, Boltzmann transport, phonon and defect scattering, quantum transport, transport in magnetic field, localization, Mott-insulator transition, electron tunneling, superconductivity. Offered in alternate years.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 672. SOLID STATE PHYSICS, THEORY. (2 Credits)

The many-body problem, density functional theory, excited states properties, BCS theory of superconductivity. Offered in alternate years.

Recommended: PH 575 and PH 654 and basic knowledge of electromagnetism and quantum mechanics.

PH 673. SOLID STATE PHYSICS, NANOSCIENCE AND NANOTECHNOLOGY. (2 Credits)

Introduction to nanoscience and nanotechnology; semiconductor quantum wells, wires, and dots; bulk metals vs nanoparticles; molecular ensembles vs single molecules; fabrication of nanoparticles and nanostructured materials; scanning probe microscopy; advanced optical imaging and manipulation. Offered in alternate years.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 674. SOLID STATE PHYSICS, MAGNETISM. (2 Credits)

Magnetism of atoms; interaction between magnetic atoms, magnetic ordering in crystalline solids; excitations in magnetic solids; temperature dependent phenomena in magnetic solids; magnetism of metals, alloys, insulators and semiconductors; topics of considerable interest in contemporary research.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 681. ATOMIC, MOLECULAR AND OPTICAL PHYSICS, MODERN OPTICS. (2 Credits)

Maxwell's equations in matter; refraction, phase and group indices; material and geometry dispersion; effective-medium regime. Not offered every year.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 682. ATOMIC, MOLECULAR, OPTICAL PHYSICS, SEMICONDUCTOR OPTICS. (2 Credits)

Linear response theory; polarization effects; interband excitations and emissions; low dimensional systems; excitons; phonons; semiconductor lasers; photovoltaics. Offered alternate years.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 683. ATOMIC, MOLECULAR AND OPTICAL PHYSICS, NONLINEAR OPTICS. (2 Credits)

Coherent nonlinear electromagnetic phenomena; harmonic generation and parametric mixing; quantum mechanical description of multi-photon interactions; incoherent multi-photon interactions; coherent nonlinear optical phenomena and spectroscopies. Offered in alternate years.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 684. ATOMIC, MOLECULAR AND OPTICAL PHYSICS, ULTRAFast OPTICS. (2 Credits)

Introduction of ultrafast optical science; short pulse propagation in linear media; pulse stretching and compressing; Q-switching and mode-locking; characterization of femtosecond lasers; coherent optical effects. Offered in alternate years.

Recommended: Basic knowledge of electromagnetism and quantum mechanics.
PH 699. SPECIAL TOPICS: BIOLOGICAL PHYSICS. (3 Credits)  
Topics vary from year to year. Not offered every year.  
This course is repeatable for 9 credits.

Plant Breeding & Genetics (PBG)

PBG 199. SPECIAL TOPICS. (1-16 Credits)  
Equivalent to: PBG 199H  
This course is repeatable for 16 credits.

PBG 199H. SPECIAL TOPICS. (1-16 Credits)  
Attributes: HNRS – Honors Course Designator  
Equivalent to: PBG 199  
This course is repeatable for 16 credits.

PBG 299. SPECIAL TOPICS. (1-16 Credits)  
Equivalent to: PBG 299H  
This course is repeatable for 16 credits.

PBG 299H. SPECIAL TOPICS. (1-16 Credits)  
Attributes: HNRS – Honors Course Designator  
Equivalent to: PBG 299  
This course is repeatable for 16 credits.

PBG 399. SPECIAL TOPICS. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 401. RESEARCH. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 403. THESIS. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 99 credits.

PBG 405. READING AND CONFERENCE. (1-16 Credits)  
Equivalent to: PBG 405H  
This course is repeatable for 16 credits.

PBG 405H. READING AND CONFERENCE. (1-16 Credits)  
Attributes: HNRS – Honors Course Designator  
Equivalent to: PBG 405  
This course is repeatable for 16 credits.

PBG 407. SEMINAR. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 409. TEACHING PRACTICUM. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 16 credits.

PBG 410. INTERNSHIP. (1-12 Credits)  
Offered via Ecampus only.  
This course is repeatable for 12 credits.

PBG 430. PLANT GENETICS. (3 Credits)  
Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes.  
Equivalent to: HORT 430  
Recommended: One year of biology and chemistry.

PBG 431. PLANT GENETICS RECITATION. (1 Credit)  
Review and demonstration of plant genetics principles.  
Equivalent to: CSS 431, HORT 431

PBG 441. PLANT TISSUE CULTURE. (4 Credits)  
Principles, methods, and applications of plant tissue culture. Laboratory is an important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.  
Equivalent to: HORT 441  
Recommended: (BI 311 and BOT 331) or PBG 430 or CSS 430

PBG 450. PLANT BREEDING. (4 Credits)  
An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Examples are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab.  
Prerequisites: PBG 430 with D- or better  
Equivalent to: CSS 450, HORT 450  
Recommended: BI 311 or PBG 430

PBG 499. SPECIAL TOPICS. (1-16 Credits)  
Equivalent to: PBG 499H  
This course is repeatable for 16 credits.

PBG 499H. SPECIAL TOPICS. (1-16 Credits)  
Attributes: HNRS – Honors Course Designator  
Equivalent to: PBG 499  
This course is repeatable for 16 credits.

PBG 501. RESEARCH. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 16 credits.

PBG 503. THESIS. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 16 credits.

PBG 505. READING AND CONFERENCE. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 506. PROJECTS. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 507. SEMINAR. (1-16 Credits)  
Graded P/N.  
This course is repeatable for 16 credits.

PBG 508. WORKSHOP. (1-16 Credits)  
This course is repeatable for 16 credits.

PBG 509. PRACTICUM IN TEACHING. (1-3 Credits)  
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509/ENT 509/PBG 509/SOIL 509.  
Equivalent to: CROP 509, ENT 509, SOIL 509  
This course is repeatable for 9 credits.

PBG 510. INTERNSHIP. (4 Credits)  
Offered via Ecampus only.  
This course is repeatable for 12 credits.

PBG 513. PLANT GENETIC ENGINEERING. (3 Credits)  
Principles, methods, and recent developments in the genetic engineering of higher plants. Offered alternate years.  
Equivalent to: HORT 513  
Recommended: (BI 311 and BOT 331) or (CSS 430 or CSS 530) or (HORT 430 or HORT 530) or (PBG 430 or PBG 530)
PBG 519. CURRENT TOPICS IN PLANT BREEDING AND GENETICS. (2 Credits)
Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 519/PBG 519.
Equivalent to: HORT 519
This course is repeatable for 12 credits.

PBG 530. PLANT GENETICS. (3 Credits)
Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes.
Equivalent to: HORT 530
Recommended: One year of biology and chemistry.

PBG 541. PLANT TISSUE CULTURE. (4 Credits)
Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.
Equivalent to: HORT 541, MCB 541
Recommended: (BI 311 and BOT 331) or PBG 430

PBG 550. PLANT BREEDING. (4 Credits)
An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Example are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab.
Equivalent to: CSS 550, HORT 550
Recommended: BI 311 or PBG 430 or PBG 530

PBG 551. BREEDING CLONAL CROPS. (1 Credit)
The overall goal of the course is to gain fundamental knowledge of breeding methods for clonal crops; these methods are different from those used for seed-propagated crops. Specific examples from a wide array of plant species (tree fruits, berries, tree nuts, potato, sweet potato, cassava, cacao) will be provided to illustrate application of the fundamental knowledge.
Prerequisites: PBG 450 with C or better or PBG 550 with C or better

PBG 552. PLANT BREEDING AND SEED PRODUCTION IN ORGANIC SYSTEMS. (3 Credits)
Genetic improvement and seed propagation of self-pollinated and cross-pollinated crops bred for and used in organic production. The philosophical basis for organic agriculture will be reviewed in the context of what breeding technologies are allowed and why. Important traits for adaptation to organic production will be described. Models for organic plant breeding and examples of such programs are provided.
Prerequisites: PBG 530 with D or better
Recommended: BI 311 or PBG 430

PBG 556. CROP PLANT DOMESTICATION. (2 Credits)
Learning is based on discussion of the contemporary literature on crop plant origins and domestication. The major agronomic and horticultural crops will be covered. Topics include primary centers of domestication, traits altered by domestication, effect of genetic architecture and local ecology on domestication, and importance of genetic diversity to current plant improvement efforts.

PBG 557. PLANTS AND PATENTS. (2 Credits)
Learn about different methods of intellectual property protection in agriculture with a focus on plant patents, plant variety protection and utility patents. The rights, current issues and restrictions that different types of patents allow will be presented through reading the current literature.

PBG 591. SELECTED TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PBG 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PBG 601. RESEARCH. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PBG 603. DISSERTATION. (1-16 Credits)
Graded P/N.
This course is repeatable for 999 credits.

PBG 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PBG 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

PBG 609. PRACTICUM IN TEACHING. (1-3 Credits)
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded P/N.
Equivalent to: CROP 609, ENT 609, SOIL 609
This course is repeatable for 9 credits.

PBG 620. DNA FINGERPRINTING. (1 Credit)
Principles and methods for producing and analyzing DNA fingerprints. Offered alternate years. CROSSLISTED as MCB 620/PBG 620.
Equivalent to: CSS 620, MCB 620
Recommended: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530

PBG 621. GENETIC MAPPING. (1 Credit)
Principles and methods for constructing genetic maps comprised of molecular and other genetic markers. Offered alternate years. CROSSLISTED as MCB 621/PBG 621.
Equivalent to: CSS 621, MCB 621
Recommended: BI 311 or CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530

PBG 622. MAPPING QUANTITATIVE TRAIT LOCI. (1 Credit)
Principles and methods for mapping genes underlying phenotypically complex traits. Offered alternate years. CROSSLISTED as MCB 622/PBG 622.
Equivalent to: CSS 622, MCB 622
Recommended: CROP 590 or CSS 590 or ST 513
PBG 650. ADVANCED PLANT BREEDING AND QUANTITATIVE GENETICS. (3 Credits)
Pedigree, bulk, single-seed-descent, doubled haploid, backcross, testcross, mass, and half-sib, S~1~, and S~2~ family breeding methods; breeding hybrids and selecting sources of alleles for developing superior hybrids; the nature and consequences of genotype by environment interactions; marker-assisted backcross and inbred line breeding; quantitative trait locus mapping; random linear models; designing and analyzing cultivar, line, and family selection experiments. Offered odd years.
Equivalent to: CSS 650
Recommended: (CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530) and (CSS 450 or CSS 550 or PBG 450 or PBG 550 or HORT 450 or HORT 550) and (ST 411 or ST 511) and (ST 412 or ST 512) and (ST 413 or ST 513)

PBG 691. SELECTED TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PBG 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

Political Science (PS)

PS 110. *GOVERNING AFTER THE ZOMBIE APOCALYPSE. (3 Credits)
Constitution-writing in a post-apocalyptic world. Students write a constitution that addresses issues of difference, power, and discrimination. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 110H

PS 110H. *GOVERNING AFTER THE ZOMBIE APOCALYPSE. (3 Credits)
Constitution-writing in a post-apocalyptic world. Students write a constitution that addresses issues of difference, power, and discrimination. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 110

PS 201. *INTRODUCTION TO UNITED STATES GOVERNMENT AND POLITICS. (4 Credits)
Description and analysis of American politics and government, including such topics as interest groups, parties, elections, media, the presidency, Congress, the Constitution, and the courts. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: PS 101, PS 102, PS 102H

PS 204. *INTRODUCTION TO COMPARATIVE POLITICS. (4 Credits)
Major concepts of comparative politics applied to various political settings; the United States, Western Europe, Communist regimes, and developing countries. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core

PS 205. *INTRODUCTION TO INTERNATIONAL RELATIONS. (4 Credits)
Analysis of the international system and factors affecting world politics. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: PS 205H

PS 206. *INTRODUCTION TO POLITICAL THOUGHT. (4 Credits)
Introduction to political philosophy. Major ideas and issues of selected political thinkers. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PS 206H

PS 221. INTRODUCTION TO LAW. (4 Credits)
Overview of American law and the U.S. legal system. Topics include legal concepts from selected substantive areas of law, structures and processes of law, and development of basic legal analytical skills.

PS 299. SPECIAL STUDIES. (1-4 Credits)
PREREQ: Departmental approval required.
This course is repeatable for 4 credits.

PS 300. *RESEARCH METHODS. (4 Credits)
Qualitative and quantitative approaches to the study of political phenomena. The role of values, theory, hypothesis, data collection, and analysis in evaluating and conducting political science research. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: PS 400

PS 311. CONGRESSIONAL POLITICS. (4 Credits)
Congressional politics, both on Capitol Hill and in the district, including campaigns, constituent relations, lobbying, legislating, and the legislature in democratic theory.
Equivalent to: PS 411

PS 312. PRESIDENTIAL POLITICS. (4 Credits)
Office, powers, and politics of the American presidency, with reference to other executive offices in American government; emphasis on the importance and effect of the presidency in American politics.

PS 313. CAMPAIGNS AND ELECTIONS. (4 Credits)
Political parties and elections, the conduct of electoral campaigns, the electorate and voting behavior, electoral system, exercise of the suffrage, extent and consequences of voter participation.
Equivalent to: PS 413

PS 314. INTEREST GROUP POLITICS. (4 Credits)
Interest group formation, resources, strategies, and internal struggles, as well as group influence on elections and politics, in government and policy making, and in relation to democratic theory.

PS 315. *THE POLITICS OF MEDIA. (4 Credits)
Examination of the methods of operation, content and effects of the media in relation to politics and government. Includes analysis of newspaper, radio and television, political advertising, and other forms of political communication. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

PS 317. GENDER AND POLITICS. (4 Credits)
Analyzes the role that gender plays in shaping politics and other aspects of society. The course will cover theories of gender difference, gender-based movements, gender and political office, and gender and public policy. (SS)
Attributes: LACS – Liberal Arts Social Core

PS 321. CONSTITUTIONAL LAW: GOVERNMENT POWERS AND CONSTRAINTS. (4 Credits)
The role of the U.S. Supreme Court in shaping the powers and limitations of the U.S. government. The powers of the three main branches of our government, and cases where the powers of these branches clash with one another or with the powers of the states or rights of the individual.
PS 322. *CONSTITUTIONAL LAW: CIVIL RIGHTS AND LIBERTIES. (4 Credits)
Doctrines pertaining to the First, Second and Fourteenth Amendments, such as freedom of speech, of expression, of the press and of the exercise, the right to bear arms and the prohibition against governmental establishment of religion. Issues of discrimination and the reach of the 14th amendment's equal protection clause, and the right to privacy. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

PS 323. CONSTITUTIONAL LAW: RIGHTS OF THE ACCUSED. (4 Credits)
The role of the U.S. Supreme Court in shaping the powers and limitations of the U.S. government. The powers of the three main branches of our government, and cases where the powers of these branches clash with one another or with the powers of states or rights of the individual.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

PS 325. *GENDER AND THE LAW. (4 Credits)
Legal status of American women, with emphasis on constitutional law, the 1964 Civil Rights Act and its amendments, and various state laws as they relate to the legal rights of women. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

PS 326. JUDICIAL PROCESS AND POLITICS. (4 Credits)
Study of the operation, processes, behavior and influence of the state and federal judiciaries, as well as current research in the judiciary as it relates to politics.

PS 328. SPORTS AND POLITICS. (4 Credits)
Topics include: Sport's interactions with formal political institutions, sports law, sports in the international community, sports at the university, sports and gender, sports and labor politics, and sports and race.

PS 331. *STATE AND LOCAL POLITICS. (4 Credits)
Role, organization, and functions of government at the state and local level. Satisfies teaching certification requirement for course work in state and local government. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: PS 203

PS 341. *EUROPEAN AND EU POLITICS. (4 Credits)
Describes and analyzes the political situation in Europe and the European Union. Special focus is given to issues concerning European security and the European Union, its institutions, politics, and the challenges it faces since the opening of Europe to the East. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

PS 342. THE POLITICS OF CORRUPTION. (4 Credits)
Surveys corruption and how it manifests itself in democracies and centralized states. Topics include theoretical accounts for why corruption occurs, what factors are conducive toward producing corruption, the consequences of corruption, and anti-corruption efforts that have succeeded and failed to rectify corruption.

PS 343. *RUSSIAN POLITICS. (4 Credits)
Brief survey of Russian politics in Tsarist and Soviet periods followed by extensive analysis of Russian politics in the late Soviet period under Gorbachev (1985-91), the collapse of the USSR in 1991, and post-Soviet Russian politics (1992-present). (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 344. *LATIN AMERICAN POLITICS. (4 Credits)
The key political, social and economic issues in Latin America. Surveys topics of interest in the region such as economic development, democratization, revolution and political leadership from both an historical and contemporary perspective. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 345. *POLITICS OF DEVELOPING NATIONS. (4 Credits)
Analyzes the concepts of development and modernization. Also focuses on the economic, political, and cultural problems faced by developing nations. (NC) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Equivalent to: PS 345H

PS 346. *MIDDLE EAST POLITICS. (4 Credits)
The comparative study of the Middle East and North Africa focusing on the internal political dynamics of countries in the region and the international relations among them. Examines issues of political and economic development in their post-colonial context and analyzes impact of nationalism, political Islam, ethnicity, and globalization. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PS 446

PS 348. *CHINESE POLITICS. (4 Credits)
Examines China's post-1949 political and economic development. Special attention is given to the reform era from the late 1970s to the present. The course also addresses the impact of the reforms on society and on the country's relationship with the world. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core

PS 349. *BRITISH POLITICS. (4 Credits)
The structure and operation of the British political system, the nature of the political parties and how the governing institutions of the British state have changed over time. The course will also consider how British politics impact upon the culture, politics and institutions of the United States. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

PS 350. *JAPANESE POLITICS. (4 Credits)
Examination of the Japanese political system during the postwar period. Topics include prewar historical influences, political parties, bureaucracy, interest groups, policy processes and issues, political economy, foreign policy, and United States-Japan relations. Attention will also be given to recent dramatic changes in Japan's political system. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 351. AMERICAN FOREIGN POLICY. (4 Credits)
Overview of the role of the United States in the world since World War II and of the factors influencing the formation of American foreign policy. Equivalent to: PS 456

PS 354. *INTERNATIONAL ORGANIZATIONS AND GLOBAL POLITICS. (4 Credits)
The role of international law and organizations in global politics. How sovereign states interact, and what motivates them to commit to supranational laws and intergovernmental organizations. How international law has evolved since the early 1900s. Intergovernmental organizations and treaties, with emphasis on the United Nations, the International Monetary Fund and the World Bank, the World Trade Organization, the European Union, and the North Atlantic Treaty Organization. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

PS 356. INTERNATIONAL POLITICS OF ASIA PACIFIC. (4 Credits)
Examines the most pressing issues facing the region: security and regional economic integration. The major players, their interests, and their differing perspectives on regional issues will be analyzed.
PS 361. CLASSICAL POLITICAL THOUGHT. (4 Credits)
Major political theorists from the pre-Socratics through the Scholastics.
(H)
Attributes: LACH – Liberal Arts Humanities Core
PS 362. MODERN POLITICAL THOUGHT. (4 Credits)
Major political theorists from the Renaissance to the mid-nineteenth century. (H)
Attributes: LACH – Liberal Arts Humanities Core
PS 363. *GENDER AND RACE IN AMERICAN POLITICAL THOUGHT. (4 Credits)
Traditional canon of American political thought scrutinized from vantage point of feminist and critical race theory scholarship. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 363H
PS 364. CONTEMPORARY POLITICAL THEORY. (4 Credits)
Major issues in contemporary political theory. The specific emphasis of the course may vary from term to term, focusing on questions related to theories of justice, theories of democracy, global political theory, or the work of a single important thinker.
PS 365. AMERICAN POLITICAL THOUGHT. (4 Credits)
Political values and theoretical systems in the American tradition, from the Puritans to the present.
PS 366. *FROM ATLANTIS TO UTOPIA: THE POLITICS OF THE IDEAL STATE. (4 Credits)
The search for the ideal state has occupied political philosophy since antiquity. From Plato’s Atlantis story through More’s utopia and beyond, philosophers, writers and filmmakers have pondered how to create a perfect state with perfect citizens which will stand the test of time. Each week will combine theoretical reflections from antiquity through post-modernity with a selection of examples from more or less contemporary fiction that will ideally already be known to the audience. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: PS 366H
PS 366H. *FROM ATLANTIS TO UTOPIA: THE POLITICS OF THE IDEAL STATE. (4 Credits)
The search for the ideal state has occupied political philosophy since antiquity. From Plato’s Atlantis story through More’s utopia and beyond, philosophers, writers and filmmakers have pondered how to create a perfect state with perfect citizens which will stand the test of time. Each week will combine theoretical reflections from antiquity through post-modernity with a selection of examples from more or less contemporary fiction that will ideally already be known to the audience. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: PS 366
PS 370. *SCIENCE, RELIGION, AND POLITICS. (4 Credits)
Addresses historical interplay between religion and science in Western culture, then focuses on the perceived conflicts between science and religion within American socio-political context; illustrates role of politics as the ‘playing field’ on which social differences contend; requires students to grapple with viewpoints that differ from their own. Team taught. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
PS 371. PUBLIC POLICY PROBLEMS. (4 Credits)
The content and the politics of adoption and application of such policy areas as defense, poverty and welfare, macroeconomics, and regulation.
PS 372. PUBLIC ADMINISTRATION. (4 Credits)
The workings of the modern administrative state, processes and procedures through which government acts, and the balance between powerful government, democratic and accountable government, and efficient government.
PS 374. *SUSTAINABLE LIVING: PRACTICES AND POLICIES. (4 Credits)
Exploration of the role individuals in sustainability practices and policies. Special focus is given to an examination of how individuals can make sustainable lifestyle choices in light of policy regulations, technologies, socio-economic conditions, and cultural values. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
PS 375. *THE CIVIL RIGHTS MOVEMENT AND POLICIES. (4 Credits)
Political and social evolution of the civil rights movement, emphasizing events 1954-1965, and major contemporary civil rights politics and policies in the South and the nation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 375H
PS 375H. *THE CIVIL RIGHTS MOVEMENT AND POLICIES. (4 Credits)
Political and social evolution of the civil rights movement, emphasizing events 1954-1965, and major contemporary civil rights politics and policies in the South and the nation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 375
PS 399. CURRENT PROBLEMS IN POLITICS. (1-4 Credits)
Selected issues of recent American and international concern such as Vietnam, Central America, or similar topical issues. May be repeated for credit when topic varies.
Equivalent to: PS 399H
This course is repeatable for 16 credits.
PS 399H. CURRENT PROBLEMS IN POLITICS. (1-4 Credits)
Selected issues of recent American and international concern such as Vietnam, Central America, or similar topical issues. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 399
This course is repeatable for 16 credits.
PS 401. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.
PS 402. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.
PS 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.
PS 405. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: PS 405H
This course is repeatable for 16 credits.
PS 405H. READING AND CONFERENCE. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 405
This course is repeatable for 16 credits.
PS 406. PROJECTS. (1-16 Credits)
Section 1-5: Reading. Associated with the internship for which credit is given in PS 410.
This course is repeatable for 16 credits.
PS 407. SEMINAR. (1-16 Credits)
Equivalent to: PS 407H
This course is repeatable for 16 credits.
PS 407H. SEMINAR. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 407
This course is repeatable for 16 credits.

PS 408. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

PS 409. PRACTICUM. (1-16 Credits)
This course is repeatable for 16 credits.

PS 410. POLITICAL SCIENCE INTERNSHIP. (1-12 Credits)
Supervised work experience in government- or law-related programs or other public affairs organizations. Reports and appraisals required. Only 4 credits may be applied to the major.
This course is repeatable for 12 credits.

PS 425. *GENDER AND THE LAW. (4 Credits)
Legal status of American women, with emphasis on constitutional law, the 1964 Civil Rights Act and its amendments, and various state laws as they relate to the legal rights of women. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 425H
Recommended: PS 201 or PS 326

PS 427. NUCLEAR NONPROLIFERATION AND ARMS CONTROL. (4 Credits)
Examines the history, politics and current challenges involving nuclear weapons proliferation and arms control.

PS 428. TERRORISM AND GLOBAL SECURITY. (4 Credits)

PS 441. DEMOCRATIZATION. (4 Credits)
Democratization and the factors that encourage and/or erode democratic stability. Political developments in a wide array of countries, with a particular focus on the unfolding events in the Middle East. Theories of what causes authoritarian regimes to collapse and what helps initially fragile democracies endure or collapse.

PS 446. EAST ASIAN POLITICAL ECONOMY. (4 Credits)
Surveys and analyzes the economic and political development of China, Japan, South Korea, Taiwan, Hong Kong, and Singapore. Japan is examined as a developmental model for the East Asian Newly Industrializing Countries (NICs) and as a major player in the regional economy. China is examined as a contrasting model in terms of its changing pattern of economic development and its importance for the region.
Equivalent to: PS 346

PS 449. *TOPICS IN COMPARATIVE POLITICS. (4 Credits)
Topics in comparative politics not covered in other courses. May be repeated for credit when topic varies. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.

PS 454. INTERNATIONAL LAW AND ORGANIZATIONS. (4 Credits)
Theories and historical development of international law and organizations; the United Nations system.
Recommended: PS 204 or PS 205

PS 455. *THE POLITICS OF CLIMATE CHANGE. (4 Credits)
Covers domestic and international political aspects of global climate change. Topics include local, state, and national activity as well as roles played by presidents, Congress, the Supreme Court, corporations and media. International focus on conventions and treaties, tensions between developed and developing nations and possible national security impacts. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

PS 457. US-CHINA RELATIONS. (4 Credits)
Equivalent to: PS 557

PS 458. *INTERNATIONAL POLITICAL ECONOMY. (4 Credits)
Examines topics in which politics and economics meet in the international arena, such as trade, debt, finance, development, multinational corporations, and globalization. Does not require a background in economics. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

PS 461. ENVIRONMENTAL POLITICAL THEORY. (4 Credits)
Examines the ways in which political theory enhances our understanding of environmental issues. Focuses on the political and philosophical premises of various environmental perspectives, and how different theories of justice and democracy address issues such as environmental racism, ecological justice, and global climate change.

PS 462. THEORIES OF LAW. (4 Credits)
Covers some of the main theories and approaches to the nature of law. What is law? What is its relation, if any, to morality? What is it that judges do? Questions such as these are explored through reading some of the classic works on the topic.

PS 470. GLOBAL FOOD POLITICS AND POLICY. (4 Credits)
Examines the politics and policy of global food systems as they relate to food distribution, production, and consumption. The cultivation and consumption of food is highly political, and at times, contentious. Specific focus is given to issues like social justice, GMOs, human health, environment and agribusiness.

PS 471. NUCLEAR POLITICS AND POLICY. (4 Credits)
Covers the political and policy implications of nuclear technology, including both nuclear weapons and civilian applications such as nuclear energy.

PS 473. US ENERGY POLICY. (4 Credits)
Addresses US energy policy with respect to how the U.S. governs the production and use of different energy sources, along with the management of its energy infrastructure. Examines policies currently in place, as well as proposals for alternatives, while examining the economic, environmental, national security and energy security implications of different policy approaches.

PS 475. ENVIRONMENTAL POLITICS AND POLICY. (4 Credits)
Environmental and natural resource issues and policies in national and regional context, emphasizing public attitudes, elections, Congress, public policy, and relevant national and state agencies.

PS 476. *SCIENCE AND POLITICS. (4 Credits)
Relationship between science and the political system in political ideas and history, in bureaucratic politics of science policy, and in contemporary scientific disputes. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
PS 477. INTERNATIONAL ENVIRONMENTAL POLITICS AND POLICY. (4 Credits)
Analysis of international environmental theory and politics, the development of international environmental regimes, agreements and treaties, and the process of globalization and the quality of the environment.

PS 478. RENEWABLE ENERGY POLICY. (4 Credits)
Renewable energy policy with respect to how the U.S. governs the market development, production and use of different renewable energy sources are addressed.

PS 483. CUBAN CULTURE, POLITICS AND SOCIETY. (4 Credits)
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, ES 483, WLC 483

PS 499. SPECIAL TOPICS. (1-16 Credits)
Selected topics in political science of special or current interest not covered in other courses. May be repeated for credit when topic varies. This course is repeatable for 99 credits.

PS 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Independent research project under supervision of graduate faculty. This course is repeatable for 16 credits.

PS 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

PS 503. THESIS. (1-16 Credits)
This course is repeatable for 99 credits.

PS 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PS 506. PROJECTS. (1-16 Credits)
Section 1-5: Reading. Associated with the internship for which credit is given in PS 410. Completion of this course is required to receive credit for PS 410. Section 11: MU Field Training, 3 credits. Section 12: ASOSU Field Training, 3 credits, each graded P/N. This course is repeatable for 16 credits.

PS 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

PS 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

PS 509. PRACTICUM. (1-16 Credits)
This course is repeatable for 16 credits.

PS 510. POLITICAL SCIENCE INTERNSHIP. (1-12 Credits)
Supervised work experience in government- or law-related programs or other public affairs organizations. Reports and appraisals required. This course is repeatable for 12 credits.

PS 527. NUCLEAR NONPROLIFERATION AND ARMS CONTROL. (4 Credits)
Examines the history, politics and current challenges involving nuclear weapons proliferation and arms control.

PS 528. TERRORISM AND GLOBAL SECURITY. (4 Credits)

PS 541. DEMOCRATIZATION. (4 Credits)
Democratization and the factors that encourage and/or erode democratic stability. Political developments in a wide array of countries, with a particular focus on the unfolding events in the Middle East. Theories of what causes authoritarian regimes to collapse and what helps initially fragile democracies endure or collapse.

PS 554. INTERNATIONAL LAW AND ORGANIZATIONS. (4 Credits)
Theories and historical development of international law and organizations; the United Nations system. Recommended: PS 204 or PS 205

PS 555. THE POLITICS OF CLIMATE CHANGE. (4 Credits)
Covers domestic and international political aspects of global climate change. Topics include local, state, and national activity as well as roles played by presidents, Congress, the Supreme Court, corporations and media. International focus on conventions and treaties, tensions between developed and developing nations and possible national security impacts.

PS 557. US-CHINA RELATIONS. (4 Credits)

PS 558. INTERNATIONAL POLITICAL ECONOMY. (4 Credits)
Examines topics in which politics and economics meet in the international arena, such as trade, debt, finance, development, multinational corporations, and globalization. Does not require a background in economics.

PS 561. ENVIRONMENTAL POLITICAL THEORY. (4 Credits)
Examines the ways in which political theory enhances our understanding of environmental issues. Focuses on the political and philosophical premises of various environmental perspectives, and how different theories of justice and democracy address issues such as environmental racism, ecological justice, and global climate change.

PS 562. THEORIES OF LAW. (4 Credits)
Covers some of the main theories and approaches to the nature of law. What is law? What is its relation, if any, to morality? What is it that judges do? Questions such as these are explored through reading some of the classic works on the topic.

PS 570. GLOBAL FOOD POLITICS AND POLICY. (4 Credits)
Examines the politics and policy of global food systems as they relate to food distribution, production, and consumption. The cultivation and consumption of food is highly political, and at times, contentious. Specific focus is given to issues like social justice, GMOs, human health, environment and agribusiness.

PS 573. US ENERGY POLICY. (4 Credits)
Addresses US energy policy with respect to how the U.S. governs the production and use of different energy sources, along with the management of its energy infrastructure. Examines policies currently in place, as well as proposals for alternatives, while examining the economic, environmental, national security and energy security implications of different policy approaches.

PS 575. ENVIRONMENTAL POLITICS AND POLICY. (4 Credits)
Environmental and natural resource issues and policies in national and regional context, emphasizing public attitudes, elections, Congress, public policy, and relevant national and state agencies.
PS 576. SCIENCE AND POLITICS. (4 Credits)
Relationship between science and the political system in political ideas and history, in bureaucratic politics of science policy, and in contemporary scientific disputes.

PS 577. INTERNATIONAL ENVIRONMENTAL POLITICS AND POLICY. (4 Credits)
Analysis of international environmental theory and politics, the development of international environmental regimes, agreements and treaties, and the process of globalization and the quality of the environment.

PS 578. RENEWABLE ENERGY POLICY. (4 Credits)
Renewable energy policy with respect to how the U.S. governs the market development, production and use of different renewable energy sources are addressed.

PS 583. CUBAN CULTURE, POLITICS AND SOCIETY. (4 Credits)
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 583, ES 583, WLC 583

PS 599. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 99 credits.

PS 808. WORKSHOP. (4 Credits)
Principles of public administration, administrative organization and procedures, public relations. It will include collaborative governance, leadership, and other issues.

Professional Science Masters (PSM)

PSM 506. PROJECTS. (1,16 Credits)
This course is repeatable for 99 credits.

PSM 507. SEMINAR. (1-16 Credits)
This course is repeatable for 99 credits.

PSM 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 99 credits.

Psychology (PSY)

PSY 199. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 201. *GENERAL PSYCHOLOGY. (3 Credits)
Scientific study of behavior and experience. Biological bases of behavior; sensation and perception; conditioning, learning and memory; thinking, problem solving, language, and consciousness; cognitive, personal and social development. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core

PSY 202. *GENERAL PSYCHOLOGY. (3 Credits)
Motivation and emotion; personality; measurement of human differences; adjustment, psychopathology and psychotherapy; attitudes and social behavior. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core

PSY 298. QUANTITATIVE METHODS IN PSYCHOLOGICAL SCIENCE. (4 Credits)
Foundational course explores quantitative methods in psychological science to prepare students for further study in research methods in psychological science. Topics include descriptive statistics, hypothesis testing, correlation, one-way or two-way ANOVA, regression, controversies and emerging practices in open psychological science.
Prerequisites: PSY 201 with C- or better and (PSY 202 [C-] or PSY 202H [C-]) and MTH 105 [C-] and ST 201 [C-] and (PHL 121 [C-] or WR 222 [C-] or WR 327 [C-])

PSY 299. SPECIAL TOPICS. (0-6 Credits)
This course is repeatable for 30 credits.

PSY 301. RESEARCH METHODS IN PSYCHOLOGY. (4 Credits)
Study of scientific methodology in psychology, including experimental and observational techniques. Topics include problem identification and hypothesis formation, research design, application of statistics, collection and interpretation of data, computer usage, and research report writing. Lec/lab.
Prerequisites: PSY 201 with D- or better and PSY 202 [D-] and (ST 351 [D-] or ST 351H [D-])

PSY 330. BRAIN AND BEHAVIOR. (4 Credits)
Introduction to the relationships of the structure and functioning of the human brain to behavior. Information from neuroanatomy, neurochemistry, neurosurgery and neurology is combined with psychological research on both normal and abnormal human behavior. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 340. COGNITION. (4 Credits)
Theories, research and applications concerning cognition. Topics include perception, attention, memory, learning, thinking and language. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 340H. COGNITION. (4 Credits)
Theories, research and applications concerning cognition. Topics include perception, attention, memory, learning, thinking and language.
Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 350. HUMAN LIFESPAN DEVELOPMENT. (4 Credits)
An introduction to physical, social, cognitive and linguistic development with an emphasis on theory and methodology. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]
PSY 360. SOCIAL PSYCHOLOGY. (4 Credits)
The study of behavior and experience in a social context. Topics include
person perception, attribution, attraction and love, attitudes and attitude
change, aggression, social influence and group dynamics. Applications of
social psychological principles to other fields, e.g., law, health care, etc.

Attributes: LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 360

PSY 360H. SOCIAL PSYCHOLOGY. (4 Credits)
The study of behavior and experience in a social context. Topics include
person perception, attribution, attraction and love, attitudes and attitude
change, aggression, social influence and group dynamics. Applications of social psychological principles to other fields, e.g., law, health care, etc. (SS)

Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 360

PSY 370. PERSONALITY. (4 Credits)
An overview of major theories of personality is followed by an
introduction to personality testing and research. (SS)

Attributes: LACS – Liberal Arts Social Core
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 370H

PSY 381. ABNORMAL PSYCHOLOGY. (4 Credits)
Survey of various forms of psychological disorders; theories regarding
etiology and treatment. Special emphasis on research approaches to
such disorders.

Prerequisites: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 381H

PSY 399. SPECIAL TOPICS. (1-6 Credits)
Equivalent to: PSY 399H
This course is repeatable for 30 credits.

PSY 399H. SPECIAL TOPICS. (1-6 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: PSY 399
This course is repeatable for 30 credits.

PSY 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 402. INDEPENDENT STUDY. (1-16 Credits)
Graded P/ N.
This course is repeatable for 16 credits.

PSY 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 406. PROJECTS. (0-16 Credits)
This course is repeatable for 16 credits.

PSY 407. SEMINAR. (1-16 Credits)
Graded P/ N.
This course is repeatable for 16 credits.

PSY 408. WORKSHOP. (1-16 Credits)
Graded P/ N.
This course is repeatable for 16 credits.

PSY 410. PSYCHOLOGY INTERNSHIP. (1-16 Credits)
Professional experience applying psychological science in a variety of
employment settings under joint faculty and employer supervision. Graded P/ N.
This course is repeatable for 16 credits.

PSY 426. PSYCHOLOGY OF GENDER. (4 Credits)
Survey of theories, life cycles and contemporary problems of women
and men in a social context. Scientific examination of gender related to
psychological functioning and behavior. Topics can include psychological
research on human similarities and differences in gender attitudes,
relationships, sexuality, violence, employment, and mental health. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Pow er/Discrimination
Prerequisites: PSY 202 with D- or better

PSY 432. PHYSIOLOGICAL PSYCHOLOGY. (4 Credits)
Basic vertebrate neurophysiology and neuroanatomy in relation to
behavior. Neural and hormonal correlates of sensation, learning, memory
and motivation.
Prerequisites: PSY 330 with D- or better
Recommended: Biological science background

PSY 433. PSYCHOPHARMACOLOGY. (4 Credits)
Drug-brain-behavior interactions. Psychoactive drugs and their
relationships to normal and abnormal behavior in humans.
Recommended: Upper-division standing and biological science
background

PSY 434. BRAIN AND BEHAVIOR METHODS. (4 Credits)
Methodology primarily in the area of neuropsychological research. Topics include the finding and interpretation of background literature, critical
evaluation of research, hypothesis formulation, experimental design,
data interpretation, reporting of results and methods, and weaving a
conclusion and review article. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PSY 301 with D- or better and PSY 330 [D-]

PSY 437. MOTIVATION. (4 Credits)
Biological, learning, and cognitive approaches to human and animal
motivation. Topics include evolution, homeostasis, drive, arousal,
incentive motivation, achievement motivation, and social motivation.
Prerequisites: (PSY 330 with D- or better or PSY 340 with D- or better) and
PSY 301 [D-]

PSY 440. COGNITION RESEARCH. (4 Credits)
Advanced scientific methodology primarily in the areas of attention,
learning, memory, and thinking. Students will design their own research
projects, collect and analyze data, and write a professional report.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PSY 301 with D- or better and PSY 340 [D-]

PSY 442. PERCEPTION. (4 Credits)
Fundamental concepts of animal and human sensation and perception,
with emphasis on audition and vision. Applications of psychophysical
methods to research in all sensory modalities. Includes review workshops
on basic mathematical, physical and physiological concepts necessary to
interpret research in this field.
Prerequisites: PSY 301 with D- or better and (PSY 330 [D-] or PSY 340 [D-])

PSY 444. LEARNING AND MEMORY. (4 Credits)
Experimental and theoretical work on learning, conditioning, and memory
in animals and humans.
Prerequisites: PSY 301 with D- or better and PSY 340 [D-]
PSY 448. CONSCIOUSNESS. (4 Credits)
Psychological, phenomenological, and physiological approaches to the content and processes of subjective awareness. Topics include philosophical issues, cortical and reticular neurophysiology, sleeping and dreaming, selective attention, imagery, and self-awareness.
Prerequisites: PSY 301 with D- or better and PSY 340 [D-]

PSY 454. COGNITIVE DEVELOPMENT. (4 Credits)
Discusses intellectual development from infancy to adulthood. Topics include the origin of thinking, the development of perception, attention, memory, problem solving, language, academic skills, and social cognition. Piaget, Vygotsky, and information processing approaches will be discussed.
Prerequisites: PSY 350 with D- or better

PSY 456. SOCIAL DEVELOPMENT. (4 Credits)
Covers theories and research concerning human social development. Topics include theories of socialization; the development of social relationships; the self-concept; emotion; sex roles; social cognition; pro-social behavior; morality; self-control; and aggression.
Prerequisites: PSY 350 with D- or better

PSY 458. LANGUAGE ACQUISITION. (4 Credits)
Psychological processes involved in the acquisition and use of language throughout childhood. Biological, cognitive, and social influences on language will be discussed, as well as personal uses of language, such as language in thought and reading.
Prerequisites: PSY 350 with D- or better

PSY 460. ^ADVANCED SOCIAL RESEARCH METHODS. (4 Credits)
Advanced experimental research methods in the social sciences. Issues in psychological construct operationalization, experimental design, data collection, analysis, and report writing will be emphasized. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PSY 301 with D- or better and PSY 360 [D-]

PSY 463. JUDGMENT AND DECISION MAKING. (4 Credits)
Explores ways to improve judgment and decision making through the application of research from cognitive psychology. Emphasis on development of critical thinking skills.
Prerequisites: PSY 340 with D- or better

PSY 464. SOCIAL COGNITION. (4 Credits)
Research and theory concerning cognitive structures and processes underlying social judgment and social behavior. Topics include attribution theory, social inference, person memory, schema-based information processing.
Prerequisites: PSY 360 with D- or better

PSY 465. WOMEN, WEIGHT, AND BODY IMAGE. (4 Credits)
Focuses on women's increasing struggles with weight, eating disorders, and broader body image issues in contemporary society. Explores how social institutions such as media, medicine, government contribute to weight bias and unhealthy standards for appearance. Examines weightism as a system of oppression that intersects with other systems of oppression including sexism, racism, classism, heterosexism, ableism, and ageism. CROSSLISTED as PSY 465/WGSS 465 and PSY 565.
Equivalent to: WGSS 465

PSY 466. ^FAT STUDIES. (4 Credits)
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/PowereDiscrimination
Prerequisites: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 240 with D- or better or WGSS 262 with D- or better or WGSS 262H with D- or better or WGSS 270 with D- or better or WGSS 280 with D- or better or WGSS 280H with D- or better or WGSS 321 with D- or better or WGSS 325 with D- or better or WGSS 325H with D- or better or WGSS 340 with D- or better or WGSS 340H with D- or better or WGSS 350 with D- or better or WGSS 360 with D- or better or WGSS 360H with D- or better or WGSS 364 with D- or better or WGSS 364H with D- or better or WGSS 373 with D- or better or WGSS 375 with D- or better or WGSS 380 with D- or better or WGSS 380H with D- or better
Equivalent to: WGSS 466, WS 466

PSY 467. POLITICAL PSYCHOLOGY. (4 Credits)
Survey of classic and contemporary perspectives in political psychology. Special focus on how citizens form political judgments. Topics include personality, affect, cognition, group influence, voting, nationalism, and political tolerance.
Prerequisites: PSY 360 with D- or better

PSY 468. THE PSYCHOLOGY OF CLOSE RELATIONSHIPS. (4 Credits)
Explores the research and theory on the development, maintenance, and dissolution of human relationships. The course will examine various directions to the study of interpersonal relationships, including attachment, evolutionary-biological, cognition, and interdependence. Topics will also include physical attraction, love, friendship, communication, trust, jealousy, and several issues that are specific to troubled dyadic relations.
Prerequisites: PSY 360 with D- or better

PSY 470. ^PSYCHOMETRICS AND PSYCHOLOGICAL TESTING. (4 Credits)
An introduction to psychological measurement is provided with emphasis on the notions of reliability and validity; advanced correlation techniques are introduced. These methods are applied to contemporary tests of personality, aptitude, and achievement. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PSY 301 with D- or better and (PSY 340 [D-] or PSY 370 [D-] or PSY 380 [D-] or PSY 381 [D-] or PSY 481 [D-])

PSY 480. ^CLINICAL RESEARCH METHODS. (4 Credits)
Advanced research methods used in clinical psychology research. Design of studies, assessment, data collection, and interpretation will be discussed. The clinical content area focused on will vary. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: PSY 301 with D- or better and (PSY 340 [D-] or PSY 370 [D-] or PSY 380 [D-] or PSY 381 [D-] or PSY 481 [D-])

PSY 482. PSYCHOTHERAPY. (4 Credits)
Survey of the theory, techniques and research on the major contemporary systems of psychotherapy.
Prerequisites: PSY 370 with D- or better or PSY 380 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
PSY 483. DEVELOPMENTAL PSYCHOPATHOLOGY. (4 Credits)
Developmental perspective on child and adolescent psychological disorders including causal factors, associated features, and research-supported interventions.
Prerequisites: PSY 350 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better

PSY 484. *PSYCHOLOGY OF ADDICTION. (4 Credits)
Focuses on the psychological factors in drug and behavioral addictions and associated interventions. The approach will be biopsychosocial, addressing neurobiological, behavioral, psychological, and social factors that influence addiction. Topics will include epidemiology and public health impact, diagnosis, models of addiction, and intervention and treatment approaches.
Attributes: CWIC – Core, Skills, WIC
Prerequisites: H 220 with C- or better or PSY 301 with C- or better or SOC 315 with C- or better

PSY 485. BEHAVIOR MODIFICATION. (4 Credits)
Review of basics of operant and classical conditioning. Research on behavior modification and behavior therapy with both normal and abnormal animals, human adults, and children. Application areas include behavior problems, handicaps, eating disorders, time management, self-control stress management, contingency contracts, and cognitive therapies.
Prerequisites: PSY 350 with D- or better or PSY 380 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
Recommended: Background work in family life or education

PSY 486. YOGA AND MENTAL HEALTH. (4 Credits)
Examines the use of yoga in psychological practice with a particular focus on managing mental and physical illnesses.
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 492. CONSERVATION PSYCHOLOGY. (4 Credits)
Explores connections between the study of human behavior and the achievement of conservation goals. Understanding how people think about and interact with nature is crucial for promoting environmental sustainability and human well-being. Students will examine theory and research on human cognitive, emotional, and behavioral responses to nature.
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 493. POSITIVE PSYCHOLOGY. (4 Credits)
Psychological theory, research, and interventions directed at how humans can flourish and identify and enhance positive strengths. Topics include positive emotional and cognitive states and processes, prosocial behavior, positive school and work environments, and discovering meaning in life.
Prerequisites: PSY 360 with D- or better or PSY 370 with D- or better

PSY 494. ENGINEERING PSYCHOLOGY. (4 Credits)
Survey human capabilities and limitations in human-machine interaction, including vision, memory, attention, motor control, and human error. Emphasis on theory and implications for system designs.
Prerequisites: PSY 301 with D- or better and PSY 340 [D-]

PSY 495. PSYCHOLOGY OF MEDITATION. (4 Credits)
Explores the psychological processes of meditation, and requires regular meditation sessions by students. Readings ranging from traditional Eastern philosophy to empirical psychological research journal articles will focus on outcomes and effective methods of meditation practice.
Prerequisites: PSY 201 with D- or better or PSY 202 with D- or better

PSY 496. INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY. (4 Credits)
Survey of psychological research and theory relevant to organizations, industry, and other work settings. Topics include training, employee selection, performance evaluation, work attitudes, and motivation.
Prerequisites: PSY 360 with D- or better or PSY 370 with D- or better

PSY 497. EVOLUTIONARY PSYCHOLOGY. (4 Credits)
Evolutionary approach to the study of psychology. Focus on psychological mechanisms as evolved traits.
Prerequisites: PSY 201 with D- or better and PSY 202 [D-]

PSY 498. HEALTH PSYCHOLOGY. (4 Credits)
Psychological factors in the maintenance of good health and in the prevention of, treatment of, and recovery from illness: Behavioral contributions to illness, life-style risk factors, stress and the immune system, psychological response to symptoms and care-givers, health habits and self-care, management of pain and chronic illness, disability and terminal illness.
Prerequisites: PSY 330 with D- or better or PSY 340 with D- or better or PSY 350 with D- or better or PSY 360 with D- or better or PSY 370 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better

PSY 499. SPECIAL TOPICS. (1-16 Credits)
Newly emerging or specialized topics that can only be offered occasionally or for particular purposes. Each offering will be structured with a syllabus.
Equivalent to: PSY 422, PSY 499H
This course is repeatable for 30 credits.

PSY 499H. SPECIAL TOPICS. (1-16 Credits)
Newly emerging or specialized topics that can only be offered occasionally or for particular purposes. Each offering will be structured with a syllabus.
Attributes: HNRS – Honors Course Designator
Equivalent to: PSY 499

PSY 501. RESEARCH. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PSY 502. INDEPENDENT STUDY. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PSY 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

PSY 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 506. PROJECTS. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PSY 507. SEMINAR. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PSY 508. WORKSHOP. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

PSY 510. PSYCHOLOGY INTERNSHIP. (1-16 Credits)
Professional experience applying psychological science in a variety of employment settings under joint faculty and employer supervision. Graded P/N.
This course is repeatable for 16 credits.
PSY 514. RESEARCH METHODS I. (4 Credits)
An introduction to the tools and methods that psychologists use to examine the processes that underlie human behavior. Emphasis is on the skills necessary for completing a research study: hypothesis formulation, design criteria, data collection, analysis, interpretation, write-up, and presentation of results. Utilizes a combination of readings, discussions, and class exercises. Course culminates in an independent research project proposal.
Prerequisites: ST 511 with B- or better

PSY 521. ISSUES IN PROFESSIONAL PSYCHOLOGY. (1 Credit)
Professional development seminar focused on professional issues specific to the field of research-based psychology. Includes writing for publication, professional speaking, professional development and leadership, and current professional and research controversies. Each iteration of the course over the academic year will have a different focus. Graded P/N. This course is repeatable for 3 credits.

PSY 523. ETHICS IN PSYCHOLOGICAL RESEARCH. (1 Credit)
Covers research ethics in psychology. Topics include the history of research-oriented ethical guidelines, ethical principles, working with an IRB, questionable research practices, and fraud. Meets OSU's Learning Outcome regarding the ethical conduct of research.
Recommended: An undergraduate-level psychological research methods course

PSY 526. PSYCHOLOGY OF GENDER. (4 Credits)
Survey of theories, life cycles and contemporary problems of women and men in a social context. Scientific examination of gender related to psychological functioning and behavior. Topics can include psychological research on human similarities and differences in gender attitudes, relationships, sexuality, violence, employment, and mental health.
Recommended: PSY 202

PSY 531. GRADUATE BEHAVIORAL NEUROSCIENCE. (4 Credits)
Neurobiological underpinnings of behavior examining animal and human research on neural structure and function in relation to typical and atypical behavior, including psychiatric disorders.

PSY 533. PSYCHOPHARMACOLOGY. (4 Credits)
Drug-brain-behavior interactions. Psychoactive drugs and their relationships to normal and abnormal behavior in humans.
Recommended: Biological science background

PSY 534. BRAIN AND BEHAVIOR METHODS. (4 Credits)
Methodology primarily in the area of neuropsychological research. Topics include the finding and interpretation of background literature, critical evaluation of research, hypothesis formulation, experimental design, data interpretation, reporting of results and methods, and weaving a conclusion and review article.
Recommended: PSY 301 and PSY 330

PSY 537. MOTIVATION. (4 Credits)
Biological, learning, and cognitive approaches to human and animal motivation. Topics include evolution, homeostasis, drive, arousal, incentive motivation, achievement motivation, and social motivation.
Recommended: PSY 301 and (PSY 330 or PSY 340)

PSY 540. COGNITION RESEARCH. (4 Credits)
Advanced scientific methodology primarily in the areas of attention, learning, memory, and thinking. Students will design their own research projects, collect and analyze data, and write a professional report.
Recommended: PSY 301 and PSY 340

PSY 541. GRADUATE SEMINAR IN COGNITION. (4 Credits)
Cognitive psychology studies the processes by which human beings notice, encode, remember, and use information. A graduate-level survey that covers the history, methods, important findings, and major theories of the field, with an emphasis on reading and critically analyzing articles from the primary research literature. Topics of interest will include perception and object recognition, attention, working memory, long-term memory, concepts and categorization, and judgment and decision making.

PSY 542. PERCEPTION. (4 Credits)
Fundamental concepts of animal and human sensation and perception, with emphasis on audition and vision. Applications of psychophysical methods to research in all sensory modalities. Includes review workshops on basic mathematical, physical and physiological concepts necessary to interpret research in this field.
Recommended: PSY 301 and (PSY 330 or PSY 340)

PSY 544. LEARNING AND MEMORY. (4 Credits)
Experimental and theoretical work on learning, conditioning, and memory in animals and humans.
Recommended: PSY 301 and PSY 340

PSY 548. CONSCIOUSNESS. (4 Credits)
Psychological, phenomenological, and physiological approaches to the content and processes of subjective awareness. Topics include philosophical issues, cortical and reticular neurophysiology, sleeping and dreaming, selective attention, imagery, and self-awareness.
Recommended: PSY 301 and PSY 340

PSY 551. LIFESPAN DEVELOPMENTAL SCIENCE. (4 Credits)
The study of human change and stability over time. Topics may include, but are not limited to, theories, methodological approaches, and contexts for developmental research, cognitive development, and biopsychosocial processes including temperament and personality, resilience, health, thriving, emotion regulation, and developmental contexts.

PSY 554. COGNITIVE DEVELOPMENT. (4 Credits)
Discusses intellectual development from infancy to adulthood. Topics include the origin of thinking, the development of perception, attention, memory, problem solving, language, academic skills, and social cognition. Piaget, Vygotsky, and information processing approaches will be discussed.
Recommended: PSY 350

PSY 556. SOCIAL DEVELOPMENT. (4 Credits)
Covers theories and research concerning human social development. Topics include theories of socialization, the development of social relationships; the self-concept; emotion; sex roles; social cognition; prosocial behavior; morality; self-control; and aggression.
Recommended: PSY 350

PSY 558. LANGUAGE ACQUISITION. (4 Credits)
Psychological processes involved in the acquisition and use of language throughout childhood. Biological, cognitive, and social influences on language will be discussed, as well as personal uses of language, such as language in thought and reading.
Recommended: PSY 350

PSY 560. ADVANCED SOCIAL RESEARCH METHODS. (4 Credits)
Advanced experimental research methods in the social sciences. Issues in psychological construct operationalization, experimental design, data collection, analysis, and report writing will be emphasized.
Recommended: PSY 301 and PSY 360
PSY 561. GRADUATE SOCIAL PSYCHOLOGY. (4 Credits)
A graduate level survey course of the theories, methods, and empirical findings that constitute the field of social psychology. Topics will include, but not be limited to, person perception, social cognition, attitudes, attitude change, persuasion, interpersonal attraction, relationships, small-group processes, altruism, and aggression.

PSY 564. SOCIAL COGNITION. (4 Credits)
Research and theory concerning cognitive structures and processes underlying social judgment and social behavior. Topics include attribution theory, social inference, person memory, schema-based information processing.
Recommended: PSY 360

PSY 565. WOMEN, WEIGHT, AND BODY IMAGE. (4 Credits)
Focuses on women's increasing struggles with weight, eating disorders, and broader body image issues in contemporary society. Explores how social institutions such as media, medicine, government contribute to weight bias and unhealthy standards for appearance. Examines weightism as a system of oppression that intersects with other systems of oppression including sexism, racism, classism, heterosexism, ableism, and ageism. CROSSLISTED as PSY 465/WGSS 465 and PSY 565.
Equivalent to: WGSS 565

PSY 566. FAT STUDIES. (4 Credits)
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566.
Equivalent to: WGSS 566, WS 566
Recommended: WGSS 223 or WGSS 223H or WGSS 224 or WGSS 240 or WGSS 262 or WGSS 262H or WGSS 270 or WGSS 280 or WGSS 280H or WGSS 321 or WGSS 325 or WGSS 325H or WGSS 340 or WGSS 340H or WGSS 350 or WGSS 360 or WGSS 360H or WGSS 364 or WGSS 364H or WGSS 373 or WGSS 375 or WGSS 380 or WGSS 380H

PSY 567. POLITICAL PSYCHOLOGY. (4 Credits)
Survey of classic and contemporary perspectives in political psychology. Special focus on how citizens form political judgments. Topics include personality, affect, cognition, group influence, voting, nationalism, and political tolerance.

PSY 570. PSYCHOMETRICS AND PSYCHOLOGICAL TESTING. (4 Credits)
An introduction to psychological measurement is provided, with emphasis on the notions of reliability and validity; advanced correlational techniques are introduced. These methods are applied to contemporary tests of personality, aptitude, and achievement.
Recommended: PSY 301 and (PSY 340 or PSY 370)

PSY 571. GRADUATE PSYCHOMETRICS. (4 Credits)
A graduate level introduction to psychological testing theory and practice, and to ethical, sociopolitical, psychological, and psychometric issues in the use of psychological tests. Particularly emphasizes basic psychometric principles that are important in scale construction, test evaluation, and practical assessment.
Prerequisites: ST 511 with B- or better and ST 512 [B-]

PSY 580. CLINICAL RESEARCH METHODS. (4 Credits)
Advanced research methods used in clinical psychology research. Design of studies, assessment, data collection, and interpretation will be discussed. The clinical content area focused on will vary.
Recommended: PSY 301 and (PSY 380 or PSY 381 or PSY 481)

PSY 581. GRADUATE SEMINAR IN CLINICAL RESEARCH AND THEORY. (4 Credits)
Focuses on major concepts, theory, and empirical findings on the causes and treatment of psychological disorders. The seminar emphasizes culture, context, bias, and stigma, as well as application of principles of clinical science to students' graduate program research agendas.

PSY 582. PSYCHOTHERAPY. (4 Credits)
Survey of the theory, techniques and research on the major contemporary systems of psychotherapy.
Recommended: PSY 370 or PSY 381

PSY 583. DEVELOPMENTAL PSYCHOPATHOLOGY. (4 Credits)
Developmental perspective on child and adolescent psychological disorders including causal factors, associated features, and research-supported interventions.
Recommended: PSY 350 or PSY 381 or PSY 481

PSY 584. PSYCHOLOGY OF ADDICTION. (4 Credits)
Focuses on the psychological factors in drug and behavioral addictions and associated interventions. The approach will be biopsychosocial, addressing neurobiological, behavioral, psychological, and social factors that influence addiction. Topics will include epidemiology and public health impact, diagnosis, models of addiction, and intervention and treatment approaches.

PSY 585. BEHAVIOR MODIFICATION. (4 Credits)
Review of basics of operant and classical conditioning. Research on behavior modification and behavior therapy with both normal and abnormal animals, human adults, and children. Application areas include: behavior problems, handicaps, eating disorders, time management, self-control, stress management, contingency contracts, and cognitive therapies.
Recommended: PSY 350 or equivalent work in family life or education.

PSY 586. YOGA AND MENTAL HEALTH. (4 Credits)
Examines the use of yoga in psychological practice with a particular focus on managing mental and physical illnesses.
Recommended: PSY 201 and PSY 202

PSY 591. GRADUATE SEMINAR IN HEALTH PSYCHOLOGY. (4 Credits)
Covers the theories, methods, and empirical findings that constitute the field of health psychology. Topics include, but are not limited to, the interaction of multiple factors involved in etiology, prevention, treatment, and course of illness and disability; health behavior, health promotion, and health risks; stress and coping in health; long-term care and adaptation to chronic illness or disability; practice of institutional healthcare.

PSY 592. CONSERVATION PSYCHOLOGY. (4 Credits)
Explores connections between the study of human behavior and the achievement of conservation goals. Understanding how people think about and interact with nature is crucial for promoting environmental sustainability and human well-being. Students will examine theory and research on human cognitive, emotional, and behavioral responses to nature.
Recommended: PSY 201 and PSY 202

PSY 593. POSITIVE PSYCHOLOGY. (4 Credits)
Psychological theory, research, and interventions directed at how humans can flourish and identify and enhance positive strengths. Topics include positive emotional and cognitive states and processes, prosocial behavior, positive school and work environments, and discovering meaning in life.
Recommended: PSY 360 or PSY 370
PSY 594. ENGINEERING PSYCHOLOGY. (4 Credits)
Survey human capabilities and limitations in human-machine interaction, including vision, memory, attention, motor control, and human error. Emphasis on theory and implications for system designs. Recommended: (PSY 301 and PSY 340)

PSY 595. PSYCHOLOGY OF MEDITATION. (4 Credits)
Explores the psychological processes of meditation, and requires regular meditation sessions by students. Readings ranging from traditional Eastern philosophy to empirical psychological research journal articles will focus on outcomes and effective methods of meditation practice. Recommended: PSY 201 and PSY 202

PSY 596. INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY. (4 Credits)
Survey of psychological research and theory relevant to organizations, industry, and other work settings. Topics include training, employee selection, performance evaluation, work attitudes, and motivation. Recommended: PSY 360 and PSY 370

PSY 598. HEALTH PSYCHOLOGY. (4 Credits)
Psychological factors in the maintenance of good health and in the prevention of, treatment of, and recovery from illness: Behavioral contributions to illness, lifestyle risk factors, stress and the immune system, psychological response to symptoms and care-givers, health habits and self-care, management of pain and chronic illness, disability and terminal illness. Recommended: 300-level course in psychology.

PSY 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 99 credits.

PSY 601. RESEARCH. (1-16 Credits)
Research credits for PhD students in Psychological Science. Graded P/N. This course is repeatable for 99 credits.

PSY 602. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 603. THESIS/DISSERTATION. (1-16 Credits)
Graded P/N. This course is repeatable for 999 credits.

PSY 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 606. SPECIAL PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

PSY 643. APPLIED COGNITION. (4 Credits)
Surveys a range of applied cognition research in real-world settings, including aviation, driving, business, education, sports, legal practice, and everyday activities.

PSY 649. ADVANCED ENGINEERING PSYCHOLOGY. (4 Credits)
Advanced survey of human information processing and performance in human-technology systems, with emphasis on theory, methodology, and implications for system analysis and design.

PSY 697. GRADUATE PSYCHOLOGICAL SCIENCE OF TEACHING AND LEARNING. (4 Credits)
For graduate students of all majors on the translation of cognitive, social, and developmental psychological science for the practice of university teaching and learning. Topics include memory, attention, metacognition, motivation, interpersonal and developmental processes, and individual differences. Emphasis on critical review of theories and methods, and practical applications for university teaching.

PSY 699. SPECIAL TOPICS. (1-16 Credits)
Special topics for advanced graduate students. Graded A-F. This course is repeatable for 99 credits.

Public Health (H)
Additional public health courses can be found under HHS.

H 100. INTRODUCTION TO PUBLIC HEALTH. (4 Credits)
A basic overview of public health. Uses a mix of lectures, guest speakers, classroom activities and homework to help students understand the role of public health in eliminating health disparities, understanding epidemics, and setting policy. Equivalent to: H 100H

H 100H. INTRODUCTION TO PUBLIC HEALTH. (4 Credits)
A basic overview of public health. Uses a mix of lectures, guest speakers, classroom activities and homework to help students understand the role of public health in eliminating health disparities, understanding epidemics, and setting policy. Attributes: HNRS – Honors Course Designator Equivalent to: H 100

H 199. SPECIAL STUDIES. (1-16 Credits)
This course is repeatable for 16 credits.

H 201. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

H 206. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

H 210. *INTRODUCTION TO THE HEALTH CARE SYSTEM. (3 Credits)
Provides tools to understand and critically assess the health care delivery system, its components, and the challenges created by its structure. The health care system will be considered from the perspective of several main players [e.g., patients, hospitals, doctors, health plans]. (Bacc Core Course) Attributes: CPSI – Core, Pers, Soc Proc & Inst

H 220. INTRODUCTION TO HEALTH DATA ANALYSIS. (3 Credits)
Introduction to the application of biostatistics and probability to the health sciences. Topics include quantitative analysis and inference, statistical methods in the biosciences, and quantitative study to evaluate and control health problems. Recommended: MTH 105 or MTH 111 or higher mathematics.

H 225. *SOCIAL AND INDIVIDUAL HEALTH DETERMINANTS. (4 Credits)
Overview of the macro (social/system/environmental) and micro (individual) contributors to premature disease, disability and population health. Selected behavioral theories supporting health risks and strategies for the prevention of premature disease/disability and the promotion of health. (Bacc Core Course) Attributes: CPSI – Core, Pers, Soc Proc & Inst
H 250. INTRODUCTION TO HEALTH CARE MANAGEMENT. (3 Credits)
Participants will learn key principles, practices and personalities of health care management. The content is broadly applicable to health care enterprises of every kind: public health organizations, physician practices and clinics, hospitals and health systems, agencies and service organizations, for-profit firms, not-for-profit enterprises, etc.
Prerequisites: H 210 (may be taken concurrently) with C- or better

H 309. PRACTICUM IN HEALTH CARE SERVICES. (3-6 Credits)
Supervised work experience in a health care service setting or health-related agency or program. Weekly progress reports and post-experience summary report and evaluation will be expected. Preplanned with instructor approval. Open to health care administration majors. Graded P/N.
This course is repeatable for 12 credits.

H 310. HEALTH FIELD EXPERIENCES. (3-6 Credits)
Introductory field experience in a health or health-related worksite. Graded P/N.
Prerequisites: H 210 with C- or better
This course is repeatable for 12 credits.

H 312. * HIV/AIDS AND STIS IN MODERN SOCIETY. (3 Credits)
Fundamental principles relating to etiology, nature, prevention, and control of AIDS and other sexually transmitted diseases in contemporary society; emphasis on social, psychological, legal, economic, and ethical issues surrounding these diseases. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: H 312H

H 319. INTRODUCTION TO HEALTH POLICY. (3 Credits)
Describe policy development process, including problem conceptualization, agenda setting, role of interest groups and public opinion, analysis of alternatives and selection of policy alternative.
Prerequisites: H 210 with C- or better and PS 201 [C-]

H 320. INTRODUCTION TO HUMAN DISEASE. (3 Credits)
Fundamental principles relating to etiology, nature, prevention, and control of communicable and noncommunicable diseases in human populations. Special emphasis on disease prevention and health promotion in the high risk diseases of modern, industrialized society.

H 333. * GLOBAL PUBLIC HEALTH. (3 Credits)
Introduction to the field of global health, its history, methods, and key principles; understanding global health inequities through case studies; overview of major global health prevention programs. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

H 344. *FOUNDATIONS OF ENVIRONMENTAL HEALTH. (3 Credits)
Introductory course examining environmentally-linked disease, and health effects associated with toxic substances, food quality, pesticides, air, water, and noise pollution, and solid/hazardous wastes.

H 349. PEER HELPER SKILLS DEVELOPMENT. (3 Credits)
Prepares the student for an active role as a peer helper in alcohol and drug abuse prevention and health education. Course work will include: drug, alcohol, addiction and other related health issues, basic listening and communication skills, conflict resolution, crisis recognition and referral. A major component will be affective learning situations designed to promote self-awareness and personal growth.

H 364. DRUGS, SOCIETY AND HUMAN BEHAVIOR. (3 Credits)
Drug use and abuse; theories of addiction; basic principles of drug action regarding the use of sedative and stimulative compounds; alcohol; opiates; hallucinogens; designer drugs; cocaine; and over-the-counter products. Particular emphasis on the role of the individual's value orientation, decision-making, and self-responsibility in treatment and educational approaches to prevention.
Prerequisites: PSY 201 with C- or better or PSY 202 with C- or better
Equivalent to: H 364H

H 364H. DRUGS, SOCIETY AND HUMAN BEHAVIOR. (3 Credits)
Drug use and abuse; theories of addiction; basic principles of drug action regarding the use of sedative and stimulative compounds; alcohol; opiates; hallucinogens; designer drugs; cocaine; and over-the-counter products. Particular emphasis on the role of the individual's value orientation.
Attributes: HNRS – Honors Course Designator
Prerequisites: PSY 201 with C- or better or PSY 202 with C- or better
Equivalent to: H 364

H 376. EVIDENCE-BASED HEALTH PROMOTION. (3 Credits)
Future health professionals will learn what makes a successful health promotion program. Students will learn about research-tested programs that are effective for promoting health in community, clinical, and educational settings. Participants will critically examine evidence in the field and select programs to address the current public health issues.
Prerequisites: H 100 with C- or better and H 225 [C-]

H 385. SAFETY AND HEALTH STANDARDS AND LAWS. (3 Credits)
Emphasis on the Occupational Safety and Health Act; study includes the scope and duties under the act, enforcement, and adjudication procedures and OSHA litigation; components of Oregon-OSHA.

H 388. *GLOBAL ENVIRONMENTAL HEALTH. (3 Credits)
An overview of global environmental issues, including climate change, air pollution, water, e-waste, and metals, and their impacts on human health. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

H 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

H 399H. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

H 401. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

H 402. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

H 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

H 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

H 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.
H 407. SEMINAR. (2 Credits)
Seminar to prepare students for their internship in public health. Focus is on professionalism, leadership skills, identifying strengths, and transitioning from college to graduate school or the working world. 
Equivalent to: H 407H
Recommended: H 480 for students in EOH (Environmental and Occupational Health) minors. H 250 for students in the HMP (Health Management and Policy) option. H 225 and H 320 for students in the HPHB (Health Promotion and Health Behavior) option

H 407H. SEMINAR. (2 Credits)
Seminar to prepare students for their internship in public health. Focus is on professionalism, leadership skills, identifying strengths, and transitioning from college to graduate school or the working world.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 407
Recommended: H 480 for students in EOH (Environmental and Occupational Health) minors. H 250 for students in the HMP (Health Management and Policy) option. H 225 and H 320 for students in the HPHB (Health Promotion and Health Behavior) option

H 408. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

H 409. PRACTICUM. (1-6 Credits)
Supervised work experience in a public health or health care administration setting. Open to majors in public health. Graded P/N. This course is repeatable for 16 credits.

H 410. INTERNSHIP. (1-12 Credits)
Directed field experience with participation in a community, worksite, or health agency program. Experience is individually arranged to meet student needs. Graded P/N.
Prerequisites: H 407 with C- or better
This course is repeatable for 24 credits.
Recommended: H 436 (for HMP students). H 225 and H 320 and H 476 (for HPHB students)

H 418. PUBLIC HEALTH ETHICS AND ISSUES. (3 Credits)
Current ethical issues in public health, including gender and ethnicity in employment, pharmaceutical controls, product liability, advertising, and export of high technology.

H 421. MENTAL HEALTH. (3 Credits)
Examination of social, governmental, legal and individual mental health issues. Brief overview of some major mental disorders.
Prerequisites: H 225 with C- or better and H 320 [C-]

H 422. HEALTH, AGING AND CONTROL OF CHRONIC DISEASES. (4 Credits)
Epidemiology of the major chronic diseases, risk factors, potential methods of prevention/intervention, ethical issues, and efficacy of current methods of prevention and control. Emphasis on adult populations and public health services, policies, and programs at the local, state, and federal levels designed to promote healthy aging.
Recommended: 9 credits of health course work.

H 425. FOUNDATIONS OF EPIDEMIOLOGY. (3 Credits)
Measures of disease frequency; measures of effect; association and causation; sources of inaccuracy; experimental and observational study designs. Lec/rec.
Prerequisites: H 220 with C- or better or ST 201 with C- or better or ST 314 with C- or better or ST 351 with C- or better

H 431. HEALTH CARE MARKETING. (3 Credits)
Principles, elements and methods of marketing health care services. Role of the consumer, governing body, administration and medical staff as well as impact of professional ethics.

H 432. ECONOMIC ISSUES IN HEALTH AND MEDICAL CARE. (3 Credits)
Application of economic principles to the health care field: the demand for medical care and insurance, health care suppliers, health care markets.
Prerequisites: (ECON 201 with C- or better or ECON 201H with C- or better) and H 210 [C-]

H 434. HEALTH CARE LAW AND REGULATION. (3 Credits)
Legal aspects of health care delivery; tort law and its applications; professional liability and liability insurance; laws relative to health care institutions, cost controls, antitrust and access. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: H 210 with C or better and H 250 [C-] and WR 222 [C-]

H 436. ADVANCED TOPICS IN HEALTH CARE MANAGEMENT. (3 Credits)
Covers how health services are governed and organized; how health care organizations assess and adapt to change; constraints/opportunities in shaping organizational performance; leadership; strategic decision-making and the use of evidence-based management in health care.
Prerequisites: H 210 with C- or better and H 250 [C-]

H 445. OCCUPATIONAL HEALTH. (3 Credits)
Current and historical topics in the area of occupational health, with particular emphasis on the types of materials that produce human health effects; clinical and epidemiologic data used to assess the public health importance of occupational polluants and to evaluate control strategies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

H 448. PUBLIC HEALTH TOXICOLOGY. (3 Credits)
Introduction to the concepts and principles of toxicology as they apply to environmental and occupational health.
Prerequisites: H 344 with C- or better
Recommended: One term of basic chemistry

H 449. MASS MEDIA AND HEALTH. (3 Credits)
Designed to examine the effects of mass media on population health, from the negative impact of advertising of cigarettes, alcohol and junk food, to the (hopefully) positive impact of public-health campaigns.
Prerequisites: H 225 with C- or better and H 320 [C-]

H 457. FINANCIAL MANAGEMENT OF HEALTH CARE ORGANIZATIONS. (3 Credits)
Utilization of standard financial tools needed to manage the capital resources of health care organizations. Includes funding capital projects, product costing, budgeting methods, capital formation and investment strategies.
Prerequisites: BA 215 with C- or better and H 210 [C-] and H 250 [C-]

H 458. REIMBURSEMENT MECHANISMS. (3 Credits)
Introduces and analyzes the different types of healthcare reimbursement methodologies used in the U.S. health care system.
Prerequisites: H 210 with C- or better

H 461. SEXUALITY: A HEALTH SCIENCE PERSPECTIVE. (3 Credits)
Exploration of the meaning of sexuality from a variety of contemporary health science perspectives; aspects of sex and sexuality fundamental to total health; issues central to the health educator role examined.
H 465. *PUBLIC HEALTH AND WOMEN: SOCIAL AND POLICY ISSUES. (3 Credits)
Public health approach to the identification of women’s health needs in the United States and in other countries as it relates to the intersection of race, ethnicity, social class, sexual orientation, age, and ability. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Recommended: 6 credits in public health.

H 467. LONG-TERM CARE ALTERNATIVES. (3 Credits)
Overview of the long-term care alternatives. Comparisons of nursing homes with community based facilities; adult day care centers, respite to hospice facilities, social HMOs and other services; cost, quality of life and practicality are addressed.

H 468. FINANCING AND ADMINISTRATION OF LONG-TERM CARE. (3 Credits)
Examines the financing and administration of long term care. Emphasis is on a system-wide overview and specific application to nursing facility management.

H 474. PUBLIC HEALTH AND VIOLENCE IN SOCIETY. (3 Credits)
Examination of violence as a major public health issue. Historical, social, environmental, economic, behavioral and psychological aspects of assaultive violence, spousal abuse, rape and sexual assault, child abuse, child sexual abuse, suicide, the effects of the media on violence, drug abuse and violence, and related public health problems in contemporary American society. Emphasis on health and the efficacy of current efforts aimed at ameliorating these problems and potential for alternative public health models for prevention and intervention.

H 476. PLANNING AND EVALUATING HEALTH PROMOTION PROGRAMS. (4 Credits)
A systematic approach to planning, implementing and evaluating health promotion programs in a variety of health related settings. Students will be writing a series of drafts to effectively develop a health promotion program plan. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: H 225 with C- or better and H 320 [C-]

H 477. DIETARY INTERVENTIONS FOR PUBLIC HEALTH. (3 Credits)
A public health perspective on the practice of population-based dietary intervention. Examination of relevant theories, research, and practice that pertain to health promoters/educators.
Prerequisites: NUTR 225 with C- or better
Equivalent to: NUTR 477

H 480. UNDERGRADUATE EOH SEMINAR. (1 Credit)
Explores current topics in environmental health and safety. EOH faculty will discuss their current research interests; EOH graduate student speakers will share their environmental health and safety internship experiences. Documentaries will be viewed to introduce topics of discussion. Features will be discussions relating directly to ongoing, current environmental/occupational health crises, both in the United States and around the world. Graded P/N.
This course is repeatable for 2 credits.

H 489. EMERGENCY AND DISASTER MANAGEMENT. (3 Credits)
Study of preparedness, response, recovery and business resumption strategies, activities and applications needed to effectively deal with emergency and disaster incidents.
H 513. INTEGRATED APPROACH TO PUBLIC HEALTH. (12 Credits)
An integrated approach to introduce students to the core knowledge and methods used in public health, including evidence-based approaches to public health, public health and health care systems, planning and management to promote health, and policy in public health.

H 514. ENVIRONMENT, SAFETY AND HEALTH SEMINAR. (1 Credit)
One-credit graduate seminar on current topics of interest and importance to the environmental health and occupational safety field. Critical reading of research publications, discussion of controversial issues facing ESH professionals, and/or presentation of current ESH research. This course is repeatable for 3 credits.

H 515. RESEARCH METHODS IN SOCIAL AND BEHAVIORAL HEALTH SCIENCES. (3 Credits)
Provides an introduction to quantitative research methods and design. Topics include definition of research problems and questions, hypothesis generation, research design, sampling, variable definition and measurement, data collection, and ethical considerations. Also provides a brief introduction to qualitative and mixed methods.

H 516. RESEARCH METHODS IN GLOBAL HEALTH. (3 Credits)
Overview of research methods used to understand health, illness, health care, and health-seeking behavior in international settings. Special emphasis on the use of qualitative and mixed methods in international health research.

H 518. PUBLIC HEALTH ETHICS AND ISSUES. (3 Credits)
Explores key ethical issues in the context of public health practice; codes and guidelines for ethical conduct of public health practice; issues related to social accountability, vulnerable populations, and ethical framework for community engagement.

H 519. DISPLACEMENT, MIGRATION, AND GLOBAL HEALTH. (3 Credits)
Critical examination of health of displaced/migrant populations with an emphasis on health disparities and social determinants. Understanding intersections of humanitarianism, migration, vulnerability, and displacement from a global health perspective.

H 520. HEALTH DISPARITIES. (3 Credits)
Health disparities based on race/ethnicity, culture, social class, and rural/urban residence, among others; strategies to reduce disparities, promote health, and prevent disease in diverse populations.

H 521. MENTAL HEALTH. (3 Credits)
Focus upon mental health policy development, in relation to federal and state government services and regulations, implementation of services.

H 522. HEALTH, AGING AND CONTROL OF CHRONIC DISEASES. (4 Credits)
Epidemiology of the major chronic diseases, risk factors, potential methods of prevention/intervention, ethical issues, and efficacy of current methods of prevention and control. Emphasis on adult populations and public health services, policies, and programs at the local, state, and federal levels designed to promote healthy aging. Recommended: 9 credits of public health course work.

H 523. FOUNDATIONS OF PUBLIC HEALTH. (4 Credits)
Fundamental principles, concepts and tools used in public health to promote the health of populations. Using a combination of case study method, lecture and discussion, students will develop a broad understanding of public health and recognition of how discipline-specializations address the social, behavioral and environmental determinants of public health.

H 524. INTRODUCTION TO BIOSTATISTICS. (4 Credits)
Quantitative analysis and interpretation of health data including probability distributions, estimation of effects, and hypothesis-tests such as Chi-square, one-way ANOVA, and simple linear regression.

H 525. EPIDEMIOLOGICAL METHODS I. (3 Credits)
Introduction to the concepts and methods of epidemiology. Topics include measures of population health, screening, study design, measures of association, and interpretation of epidemiological data.

Prerequisites: H 513 with B- or better or H 535 with B- or better

H 526. EPIDEMIOLOGIC METHODS II. (3 Credits)
Concepts and methods of epidemiological analysis; standardization; stratified analysis; confounding and its control; planning and conducting epidemiologic research; role of multivariate analysis in epidemiologic research.

Prerequisites: H 524 with B- or better and H 525 [B-]

H 527. CRITICAL ASSESSMENT OF INTERNATIONAL HEALTH PROGRAMS. (3 Credits)
Introduces the critical evaluation framework of assessing international health development programs, based on self-determination and community ownership principles. The framework of assessment method includes three levels: upstream evaluation, midstream evaluation, and downstream evaluation.

Recommended: H 528 and H 529

H 528. GLOBAL HEALTH ISSUES. (3 Credits)
Examines major issues in health developments of global significance, their causes and impacts on international health, and methods and strategies to address them.

H 529. INTERNATIONAL HEALTH. (3 Credits)
Overview of the epidemiological, economic, political, sociological, and cultural factors that impact on international health. Special emphasis on the methods of prevention/intervention utilized in coping with health problems on an international level.

H 530. HEALTH POLICY ANALYSIS AND POLITICS. (3 Credits)
Examination of current health policy issues affecting health care programs, services, and organization as well as the role of politics in public health and health policy. Exploration of processes by which health policy proposals are generated, promoted, defeated, modified and implemented.

Prerequisites: H 513 with B- or better or HHS 514 with B- or better

H 532. ECONOMIC ISSUES IN HEALTH AND MEDICAL CARE. (3 Credits)
Application of economics principles to the health care field: the demand for medical care and insurance, health care suppliers, health care markets.

Recommended: ECON 201

H 533. HEALTH SYSTEMS ORGANIZATION. (3 Credits)
Examines the nature of health and health care services and reviews the role of government and the free market on health services. Alternative ways of organizing, financing, and delivery of health care services are explored.

H 534. HEALTH CARE LAW AND REGULATION. (3 Credits)
Legal aspects of health care delivery; tort law and its applications; professional liability and liability insurance; laws relative to health care institutions, cost controls, antitrust and access.
H 535. INTERPRETING EPIDEMIOLOGIC EVIDENCE. (3 Credits)
Intended for students in the human sciences and allied health fields. Introduces basic epidemiology concepts. Topics will include measures of disease frequency, assessing population health, causal logic, quantifying associations between exposures and health outcomes, epidemiologic study design, and threats to study validity (random error, bias, confounding). Examples focus on application of epidemiological methods to a variety of health-related fields.

H 536. HEALTHCARE ORGANIZATION LEADERSHIP THEORY AND BEHAVIOR. (3 Credits)
Overview of organization theory and behavior in health care organizations. Emphasis is on developing an understanding of the factors and forces that influence the structures, behaviors, and operations of health care delivery organizations. This understanding will be developed through consideration of organizations, their environments, and the roles of individuals working in management.
Prerequisites: H 513 with B- or better or HHS 514 with B- or better

H 537. INJURY EPIDEMIOLOGY. (3 Credits)
An overview of the distribution and determinants of injuries, methodological issues specific to injury epidemiology, and approaches to injury control.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 513 with B- or better
Recommended: Graduate epidemiology training

H 538. PUBLIC AND PRIVATE HEALTH INSURANCE. (3 Credits)
Introduction to the principles and practices of public or social and commercial health insurance, and their financial reimbursement mechanisms.

H 540. WATER AND HUMAN HEALTH. (3 Credits)
Critically examine the complex relationship between water quality, human activities, and population health.

H 541. AIR QUALITY AND HUMAN HEALTH. (3 Credits)
Examination of the major sources of air pollution, its impact on ecosystems and climate change, and population health. Will also discuss technologies and introduce regulations that are used to control air pollutants.

H 542. ENVIRONMENTAL AND OCCUPATIONAL HEALTH RISK ASSESSMENT. (3 Credits)
Understand concepts, principles and practices in modern environmental and occupational risk analysis and how they are utilized to make evidence-based decisions by regulatory agencies.

H 543. EXPOSURE SCIENCE I. (4 Credits)
Overview of the concepts, principles and practices in modern environmental and occupational exposure assessment. Exposure Science I provides a broad introduction to environmental and occupational exposure assessment methods, while Exposure Science II focuses on sampling and measurement methods.

H 544. ENVIRONMENTAL AND OCCUPATIONAL EPIDEMIOLOGY. (3 Credits)
Examines exposure assessment methodology and epidemiological study designs that are commonly used in environmental and occupational health science in order to characterize the impact of environmental and occupational exposures on population health.
Prerequisites: H 525 with C or better
Recommended: Graduate level statistics course

H 546. PHYSICAL AGENTS AND HUMAN HEALTH. (3 Credits)
Focus on physical agents (heat, noise, vibration, radiation) and health risks associated with these agents. It covers the range and sources of exposure to physical agents, methods of characterizing these exposures, effects on human health, and the regulations/standards that set limits for physical agents. Lec/lab.

H 547. GIS AND PUBLIC HEALTH. (4 Credits)
Applications of geographic information systems (GIS) to public health are reviewed, including mapping, spatial analysis methods, estimating access, and exposure assessment. This course is geared toward individuals involved in public health who have no (or introductory level) knowledge of GIS. Lec/lab.

H 548. PUBLIC HEALTH TOXICOLOGY. (3 Credits)
Introduction to the concepts and principles of toxicology as they apply to environmental and occupational health.
Recommended: H 344 with a grade of C- or better and one term of basic chemistry.

H 549. MASS MEDIA AND HEALTH. (3 Credits)
Examines the effects of mass media on population health, from the negative impact of advertising of cigarettes, alcohol and junk food, to the (hopefully) positive impact of public health campaigns.
Prerequisites: H 571 with C or better

H 550. SOCIAL EPIDEMIOLOGY. (3 Credits)
Explores the social determinants of health at the population level. Primary focus is on introduction to methods specific to social epidemiology, but will also provide an overview of current understanding of the empirical associations between social factors and health.
Prerequisites: H 525 with B or better
Recommended: Introductory course in epidemiology

H 551. APPLIED EPIDEMIOLOGICAL ANALYSIS OF SECONDARY DATA. (3 Credits)
Practical experience performing a hypothesis-driven epidemiological analysis utilizing secondary surveillance or other appropriate data set, writing an analytical plan, appropriate programming for the analysis (using STATA or SAS), understanding the analysis output, preparing tables, and interpreting results.
Prerequisites: H 526 with B- or better and H 560 [B-] and H 580 [B-]

H 552. DISASTER EPIDEMIOLOGY. (3 Credits)
Describe the impact of natural and manmade disasters on human health, understand epidemiologic methods specific to disasters, and apply fundamental epidemiologic methods to identify and characterize disaster-related adverse health outcomes.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better

H 554. EPIDEMIOLOGY OF AGING. (3 Credits)
An overview of the core principles of the epidemiology of aging is provided. There will be an emphasis on health and disease processes in older adults. Students will learn essential study design and analytic issues that may arise in studies of aging.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better

H 555. CANCER EPIDEMIOLOGY. (3 Credits)
Introduction to basic concepts and methodology in cancer epidemiology.
Prerequisites: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better
H 556. STRATEGIC MANAGEMENT OF HEALTH SERVICE ORGANIZATIONS. (3 Credits)
Theories and methodologies of long-range planning and strategic management in health care organizations.

H 557. FINANCIAL MANAGEMENT OF HEALTH CARE ORGANIZATIONS. (3 Credits)
Utilization of standard financial tools needed to manage the capital resources of health care organizations. Includes funding capital projects, product costing, budgeting methods, capital formation and investment strategies.
Recommended: H 210 and H 250

H 558. REIMBURSEMENT MECHANISMS. (3 Credits)
Techniques used in cost-effectiveness analysis. Examples are drawn from the public health and health economics literature.

H 560. PUBLIC HEALTH SURVEILLANCE. (3 Credits)
An introduction to public health surveillance systems (national and international) for chronic and infectious diseases. Utility of existing surveillance systems for secondary epidemiological data analysis.
Prerequisites: H 524 with B- or better and H 525 [B-]

H 562. INFECTIOUS DISEASE EPIDEMIOLOGY. (3 Credits)
Understand epidemiologic methods specific to infectious diseases, apply fundamental epidemiologic methods to infectious disease questions, and describe the broad trends in global infectious disease burden. The application methods and principles will be explored through lectures, discussions, assignments and writing projects.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or H 514 with B- or better

H 563. PHYSICAL ACTIVITY EPIDEMIOLOGY. (3 Credits)
Physical activity epidemiology will focus on current research, controversial issues, and methodological problems in the epidemiology of physical activity, exercise, and health.
Prerequisites: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better
Recommended: H 524

H 564. COMPUTING TOOLS AND HEALTH DATA ANALYSIS. (3 Credits)
Modern computational biostatistics for analyzing health data, emphasizing important technologies and methods for data processing and understanding of how they work. Topics will evolve over time as new procedures are developed.
Corequisites: H 524

H 565. PUBLIC HEALTH AND WOMEN: SOCIAL AND POLICY ISSUES. (3 Credits)
Public health approach to the identification of women's health needs in the United States and in other countries as it relates to the intersection of race, ethnicity, social class, sexual orientation, age, and ability.
Equivalent to: BA 565
Recommended: 6 credits in public health.

H 566. DATA MINING IN PUBLIC HEALTH. (3 Credits)
An introduction to high-dimensional data analysis and data mining techniques used as an information technology tool to extract previously unknown and potentially useful information from large databases in biology, medicine, and public health.
Recommended: H 581 and H 564

H 567. LONG-TERM CARE ALTERNATIVES. (3 Credits)
Overview of the long-term care alternatives. Comparisons of nursing homes with community based facilities; adult day care centers, respite to hospice facilities, social HMOs and other services; cost, quality of life and practicality are addressed.

H 568. FINANCING AND ADMINISTRATION OF LONG-TERM CARE. (3 Credits)
Examines the financing and administration of long term care. Emphasis is on a system-wide overview and specific application to nursing facility management.

H 569. MATERNAL AND CHILD HEALTH. (3 Credits)
Women's reproductive health and health of children stressing causation, management, and prevention of public health problems. Epidemiological analysis of morbidity and mortality in children and women of childbearing age; impact of social, political and economic influences on the health of women and children; comparison of issues and problems of industrialized versus developing nations. Consideration of health issues of interest to the many diverse racial and ethnic groups of women and children in the U.S. as well as the global village.

H 571. PRINCIPLES OF HEALTH BEHAVIOR. (3 Credits)
Theoretical approaches to behavior change in health promotion/education research and practice; factors influencing health behaviors, ethical behavior change issues, behavioral interventions for special populations.

H 572. COMMUNITY ORGANIZATION FOR HEALTH PROMOTION AND EDUCATION. (3 Credits)
History, theory, and practice of community organizing for health advocacy; focus on group processes, use of media, leadership, coalitions, grass roots methods and social change.

H 573. INTRODUCTION TO MULTILEVEL/HIERARCHICAL MODELS. (3 Credits)
Introduction to the theory and application of hierarchical models to problems in epidemiology and public health. Hierarchical models will be dealt with using both frequentist and Bayesian frameworks.
Recommended: H 581

H 575. EVALUATION OF HEALTH PROMOTION AND EDUCATION PROGRAMS. (3 Credits)
Provides theoretical and practical bases for program evaluation. Develops basic skills in a variety of approaches to evaluation, including techniques that are particularly suitable for evaluating health promotion, community health improvement, and related health and social services programs. Course learning is synthesized through designing an evaluation framework and methodology for a relevant program.
Prerequisites: H 513 with B- or better or H 515 with B- or better or HHS 514 with B- or better

H 576. PROGRAM PLANNING FOR HEALTH/HUMAN SERVICES. (4 Credits)
Provides students with an introduction to the principles of program planning and the development of program plans, with a focus on evidence-based public health/human services. Students will have the opportunity to integrate skills developed through prior courses in the context of writing a program plan.
Prerequisites: (H 515 with C- or better or HHS 514 with C- or better) and H 571 [C-] and H 575 [C-]

H 578. INTRODUCTION TO MOLECULAR EPIDEMIOLOGY I. (3 Credits)
A survey of and introduction to the methods and issues arising in genetics and molecular epidemiology, including key biostatistical methods, study designs, and technologies used in the conduct of these studies. Students will gain experience conducting critical reviews of research papers with respect to study design and biostatistical analysis.
Prerequisites: (H 524 with C or better and H 526 [C])
Recommended: Knowledge of and familiarity with basic concepts of molecular biology (DNA replication, transcription, and translation)
H 580. LINEAR REGRESSION AND ANALYSIS OF TIME TO EVENT DATA. (4 Credits)
Multiple linear regression analysis for measurement data and survival analysis methods for time to event health data, including modes of inference, diagnostics, model selection, and reporting conclusions. Lec/lab.
Prerequisites: (H 524 with C or better or HDFS 530 with C or better)

H 581. GENERALIZED LINEAR MODELS AND CATEGORICAL DATA ANALYSIS. (4 Credits)
Biostatistical methods focusing on binary and count data will provide a foundation for understanding and implementing generalized linear regression and categorical data models that are commonly used to analyze epidemiological and public health data from cohort, case-control, and clinical trial study designs. Lec/lab.
Recommended: H 580

H 582. ANALYSIS OF CORRELATED HEALTH DATA. (3 Credits)
Biostatistical methods for clustered, repeated measures, and longitudinal correlated health data, with an introduction to applications of linear and generalized linear mixed models and generalized estimating equations.
Prerequisites: H 581 with C or better

H 583. ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT. (4 Credits)
Studies the design and management principles and practices in the environment, safety and health field.

H 584. ANALYSIS OF INTERVENTION STUDIES AND CLINICAL TRIALS. (3 Credits)
Principles of data analysis from intervention studies and clinical trials, including professional graphical and tabular presentation, reproducibility and reliability of measurements, and controlling the Type I error rate when analyzing multiple endpoints. Basic principles of designing experiments are also covered including blocking, stratification, interaction, and control of variability.
Prerequisites: (H 524 with C or better or HDFS 530 with C or better)

H 585. ENVIRONMENT, SAFETY AND HEALTH POLICY AND LAW. (3 Credits)
Survey of the environment, safety and health policy and law in the United States. Furnishes the basic knowledge and general understanding about policy and law-related issues important to all environmental health and safety professionals.
Recommended: H 385

H 586. BAYESIAN BIOSTATISTICS IN PUBLIC HEALTH. (3 Credits)
An examination of methods for designing and implementing Bayesian analysis to address scientific questions through hands-on experience with health data. This survey course also covers proper interpretation and communication of results from practical Bayesian methods for biostatistics data analysis, with illustrations of the utility of Bayesian ideas in public health.
Prerequisites: H 581 with C or better

H 587. TIME TO EVENT ANALYSIS OF HEALTH DATA. (3 Credits)
Biostatistical models and methods for survival analysis of time to event data that are routinely encountered in biomedical and health research.
Prerequisites: (H 524 with C or better or HDFS 530 with C or better)

H 588. APPLIED OCCUPATIONAL SAFETY AND HEALTH. (3 Credits)
The management and technical aspects of a workplace safety and health program are identified and assessed. Students completing the course receive a 30-hour OSHA General Industry card.

H 589. EMERGENCY AND DISASTER MANAGEMENT. (3 Credits)
Study of preparedness, response, recovery and business resumption strategies, activities and applications needed to effectively deal with emergency and disaster incidents.

H 590. OCCUPATIONAL ERGONOMICS AND BIOMECHANICS. (3 Credits)
Examines the advanced theories, applications, and contemporary topics of occupational ergonomics and biomechanics. Topics include muscle physiology, work-related musculoskeletal disorders, assessing biomechanical exposure in the workplace, various material handling assessment tools, 3-Dimensional Static Strength Prediction Program, human vibrations, and implementing ergonomic interventions.

H 591. SELECTED TOPICS. (1-3 Credits)
Recent changes and advances in public health and health care administration and their application to special fields of study. Topics vary from term to term and year to year.
This course is repeatable for 9 credits.

H 592. SPATIAL EPIDEMIOLOGY. (3 Credits)
An introduction to methods in spatial epidemiology is provided, including spatial exploration of health data, quantifying spatial patterns and clusters, spatial exposure assessment, and explaining patterns and associations.
Prerequisites: H 547 with C or better and H 581 [C]

H 593. REPRODUCTIVE EPIDEMIOLOGY. (3 Credits)
Focuses on current research, controversial issues, and methodological problems in the epidemiology of reproductive health.
Prerequisites: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better
Recommended: H 524

H 594. APPLIED ERGONOMICS. (3 Credits)
Principles of occupational ergonomics for managing optimal worker performance and well-being.

H 595. DESIGN FOR ENVIRONMENT, SAFETY, AND HEALTH. (3 Credits)
Systematic consideration of environmental, safety, and health concerns at the earliest possible stage in the lifecycle design engineering of products, technologies, and manufacturing processes.

H 596. HEALTHCARE EPIDEMIOLOGY. (3 Credits)
Focus on current research, controversial issues, and methodological problems in the epidemiology of healthcare. Topics include institutional infection control, medical errors, screening and diagnostic testing, cost-effectiveness, and others related to the delivery and assessment of healthcare, with a focus on the US healthcare system specifically.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better
Recommended: H 524

H 597. METHODS IN FOODBORNE DISEASE OUTBREAK INVESTIGATION. (3 Credits)
Focuses on the practical basis for developing and implementing methods for foodborne disease outbreak detection, investigation and control, using recent outbreaks to highlight underlying principles. Biological characteristics of major foodborne disease pathogens, clinical features of the illnesses its causes and epidemiologic presentations of foodborne outbreaks will be reviewed. The implications of these characteristics will be discussed in a problem solving, interactive format that examines theory and practice in the context of recent outbreaks. Strategies to promote timely decision-making will be emphasized.
Prerequisites: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better
H 598. HEALTH POLICY ANALYSIS METHODS. (3 Credits)
Analysis of public policies affecting health care programs, services and organizations and the impact of those programs on citizens. Health services research methods, including data sources for health policy research and health policy literature.
Prerequisites: H 513 with B- or better and H 533 [B-]

H 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 24 credits.

H 601. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

H 603. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

H 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

H 606. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

H 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

H 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

H 610. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

H 611. INTRODUCTION TO SYSTEMATIC LITERATURE REVIEWS. (3 Credits)
Students will learn how to apply systematic review methodology to a research question of their choice and understand how literature reviews inform evidence-based decision-making. Examples will focus on applying literature reviews to public health, clinical science, and biomedical research.

H 612. DOCTORAL SEMINAR IN PUBLIC HEALTH: RESEARCH AND PRACTICE. (1 Credit)
Contemporary research and professional issues specific to the discipline of public health. Includes responsible conduct of research, writing for publication, professional development and leadership, and faculty research in public health.
This course is repeatable for 9 credits.

H 613. INDEPENDENT RESEARCH PROJECT. (1-9 Credits)
Independent research project for PhD students, including research design, execution or research, and the formal presentation of findings in written form. Student will develop an original research topic based on knowledge and review of the literature in a public health-relevant area of inquiry. Graded P/N.
This course is repeatable for 9 credits.

H 614. RESEARCH MANUSCRIPT. (4 Credits)
PhD students write a manuscript to submit to a peer-reviewed journal as part of the course requirements. Graded P/N.

H 615. ADVANCED EVALUATION AND RESEARCH DESIGN. (3 Credits)
Provides an in-depth examination of advanced research designs and methods for establishing causal statements about the efficacy, effectiveness and generalizability of public health and social service interventions designed to alter public health and social risk or protective factors.
Recommended: H 515 and H 575

H 620. ADVANCED TOPICS IN GLOBAL HEALTH INTERVENTION AND PRACTICE. (3 Credits)
Examines the processes and tools involved in planning and evaluating culturally competent health and human service prevention and intervention programs in the global context. Special considerations in program decision-making in the global context (community engagement, cultural competence, sustainability, feasibility, political/ethical issues) will be explored. Provides a key forum for doctoral students to share ongoing developments in their research and practice drawing from fieldwork as well as attended conferences and meetings.

H 622. GLOBAL HEALTH SYSTEMS, POLICY AND POLITICS. (3 Credits)
Focuses on learning to identify key stakeholders in the politics of global health, and to be able to describe political and policy processes involved in negotiating global health decisions. Employment of theories and evidence from both the global North and South to explain political processes affecting public health practice and programs.

H 626. GLOBAL HEALTH SYSTEM FINANCE AND STRENGTHENING. (3 Credits)
Introduces an analytical framework of health system finance strengthening for global health, from local community to national level and international level. Develops the analytical skill and knowledge for examining the source and mechanism of financing health systems and identify, mobilize, organize, and manage domestic and global health resources. Provides training to examine equity and efficiency of financial burden in a health system, and the strategies to strengthen it.

H 630. QUANTITATIVE HEALTH POLICY RESEARCH METHODS I. (4 Credits)
Contemporary doctoral-level quantitative health policy/services research methods emphasizing linear regression models, data sources for health policy research, and health policy research literature.
Prerequisites: H 524 with B- or better

H 632. APPLIED HEALTH ECONOMICS. (4 Credits)
Advanced doctoral-level quantitative health policy/services research methods emphasizing causal inference when potential endogeneity is present.
Prerequisites: H 630 with B- or better

H 635. COST EFFECTIVENESS ANALYSIS IN HEALTH AND MEDICAL CARE. (3 Credits)
The primary objective of this course is to introduce students to cost-effectiveness studies in health and medical care. Covers the core concepts of CEA, quality adjusted life years, cost calculations, and decision rules.

H 638. PUBLIC AND PRIVATE HEALTH INSURANCE. (3 Credits)
Introduction to the principles and practices of public or social and commercial health insurance, their finance mechanisms, and theoretical foundation behind the selection of certain system of health insurance and finance method.
Prerequisites: H 533 with C or better

H 639. COMMUNITY-BASED PARTICIPATORY RESEARCH. (4 Credits)
Focuses on initiating and conducting research in partnership with communities. Includes in-depth examination of community-based participatory research (CBPR) elements, principles, theories, and approaches; how researchers can successfully partner with communities; and research with minority and/or underprivileged communities; with examples from environmental health, gerontology, and health promotion.
Recommended: 9 credits of public health or HDFS graduate coursework
H 642. ENVIRONMENTAL AND REGULATORY RISK ASSESSMENT. (3 Credits)
Understand concepts, principles and practices in modern risk analysis and how they are utilized to make evidence-based decisions in public health. Focus will be on real world examples of risk assessment by environmental and occupational regulatory agencies.

H 650. REPORTING RESULTS: WRITING FOR EPIDEMIOLOGY. (3 Credits)
Applied experience writing a scientific paper to disseminate results, including deciding on authorship, preparing a lay summary, revising and responding to peer review, and serving as a reviewer.
Prerequisites: H 526 with B- or better and H 551 [B-] and H 580 [B-]

H 651. ADVANCED EPIDEMIOLOGICAL METHODS. (4 Credits)
Covers advanced topics in epidemiology. Course expands on many of the same topics as H 526, and explores them in greater breadth and depth. Topics include causal theory, measures of disease and association, confounding, selection bias, predictive models, directed acyclic graphs, effect modification, mediation, indirect and direct effects, study design, and other contemporary topics.
Prerequisites: H 526 with B- or better and H 581 [B-]

H 652. CAUSAL INFERENCE IN EPIDEMIOLOGY. (3 Credits)
Discussion of the theoretical framework of causal statistics and the development of modern methods including propensity scores and marginal structural models. Focus is on the inverse probability of treatment weighting; discussion of other estimation methods will be included. Additional topics may include longitudinal causal models, causal mediation, instrumental variables, and other contemporary topics.
Prerequisites: H 652 with B- or better and H 581 [B-]

H 659. QUANTITATIVE HEALTH POLICY RESEARCH METHODS II. (4 Credits)
Advanced doctoral-level quantitative health policy/services research methods emphasizing health care utilization, expenditures, and outcomes data.
Prerequisites: H 651 with B- or better

H 662. ADVANCED METHODS IN INFECTIOUS DISEASE EPIDEMIOLOGY. (3 Credits)
Covers advanced methods and principles for infectious disease research, including framing infectious disease issues into testable hypotheses, designing epidemiologic studies using appropriate sampling strategies, and identifying strengths and weaknesses of various epidemiologic research methods.
Prerequisites: H 526 with B- or better and H 562 [B-]

H 671. ADVANCED THEORIES OF HEALTH BEHAVIOR. (3 Credits)
Provides an in-depth examination of major theories of health behavior (both health compromising and health enhancing).
Recommended: H 571

H 672. ADVANCED QUALITATIVE METHODS IN HEALTH BEHAVIOR. (3 Credits)
Provides an in-depth examination of the use of qualitative methods in health behavior research and practice.
Recommended: H 515 and SOC 518 and HDFS 538

H 673. MEASUREMENT OF HEALTH BEHAVIOR CONCEPTS. (4 Credits)
Provides in-depth study and field work for graduate students in public health and related fields of the methods used in the conceptualization, development, and evaluation of quantitative measures of health behavior and related concepts.
Recommended: H 524, H 515, and 3 credits in other quantitative research methods or social behavioral methods (eg. sociology or psychology or health promotion or education programs)

H 675. DEVELOPMENT OF HEALTH BEHAVIOR INTERVENTIONS. (3 Credits)
Examines the application of social/behavioral theories in health promotion interventions and in conducting intervention research in diverse populations. The course will focus on program development, on implementation strategies, and on translation into practice.
Recommended: H 571 and H 575 and H 576

H 676. ADVANCED TOPICS IN HEALTH PROMOTION AND HEALTH BEHAVIOR. (3 Credits)
Examines topics of relevance to health promotion and health behavior. Specific topics include current issues and emerging research findings, with a focus on social and behavior science perspectives, analysis of public health problems, and application of principles and practices of health promotion and health behavior.
This course is repeatable for 6 credits.
Recommended: H 515 and H 571

H 681. ADVANCED TOPICS IN ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY. (3 Credits)
Advanced topics in the environment, safety and health discipline. Content varies with each offering.

H 682. ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY: MOVING FROM RESEARCH TO PRACTICE. (3 Credits)
An examination of research transfer models that can be adapted and implemented to environmental and occupational settings. Case studies and content will vary with each course offering.

H 683. ADVANCED RESEARCH METHODS IN ENVIRONMENTAL AND OCCUPATIONAL HEALTH. (3 Credits)
Covers advanced methods for environmental and occupational health research, including framing environmental and occupational health issues into testable hypotheses, designing appropriate studies, and identifying strengths and weaknesses of different research methods.

H 685. RACE, CLASS, CULTURE AND AGING. (4 Credits)
Examines the diversity among the older population in health status, health beliefs/behaviors, and health care, and explores the interaction of culture and structure as determinants of their life chances. The empirical literature used in the course is drawn from the experiences of aging African-American, Latino, and Asian-Pacific Islander elderly. Taught spring term even years. CROSSTLISTED as H 685/HDFS 685.
Equivalent to: HDFS 685
Recommended: 9 credits of public health or HDFS graduate coursework

H 699. SPECIAL STUDIES. (1-16 Credits)
This course is repeatable for 16 credits.

Public Policy (PPOL)

PPOL 002. LEADERSHIP. (0 Credits)
Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.
Additional readings will be posted on Canvas. The format includes reading, discussion, review questions and exercises, discussion board participation, and data collection, analysis and reporting. Activities include reading, reflection, exercises and a multi-stage policy analysis memo project using analyses conducted in PPOL 421.

**Prerequisites:** ECON 201 with D- or better and PS 201 [D-] and SOC 204 [D-]

**Attributes:** CWIC – Core, Skills, WIC

**PPOL 422. **POLICY ANALYSIS. (4 Credits)

Overview of common policy analysis approaches, methods and tools used to identify, assess, present and select public policy. Assignments include reading, reflection, exercises and a multi-stage policy analysis memo project using analyses conducted in PPOL 421.

**Prerequisites:** PPOL 421 with C or better

**Attributes:** CSST – Core, Synthesis, Science/Technology/Society

**PPOL 447. **INTEGRATED POLICY: FOOD, ENERGY, WATER, CLIMATE. (4 Credits)

Environmental decisions include trade-offs. Policy choices for sustainably providing Earth's eight billion people with food, energy, and water are urgently needed. Policy sectors (such as food) risk outcomes that are not beneficial, and impose long-term costs and potential catastrophic climate burdens. This transdisciplinary course examines emerging integrated policies concerning provision of food, energy, and water and their relationship to climate.

**PPOL 448. **MARINE POLICY IN THE UNITED STATES. (4 Credits)

Introduces students to the history, rationale, achievements, and gaps in American ocean policy. Students will acquire foundational tools of policy analysis and problem solving, and will synthesize and apply their knowledge creatively in order to propose integrated policy solutions to specific contemporary marine issues.

**PPOL 452. **INTERNATIONAL COMPARATIVE RURAL POLICY. (4 Credits)

Examines and compares the role of rural policy in different cultural, political and administrative contexts at the international, national, state, regional and local levels. The course also provides the opportunity to study the nature and implications of new forms of governance in rural contexts in North America and Europe.

**PPOL 501. **RESEARCH AND SCHOLARSHIP. (1-12 Credits)

Graded P/N.

**PPOL 505. **READING AND CONFERENCE. (1-10 Credits)

**PPOL 507. **SEMINAR. (1-6 Credits)

**PPOL 510. **INTERNSHIP. (1-12 Credits)

Supervised work experience in government, public policy, public affairs or non-profit organizations. Reports and appraisals required. Graded P/N.

**PPOL 511. **PUBLIC ORGANIZATIONS AND LEADERSHIP. (4 Credits)

Provides an historical overview of developments in, and theories associated with, the organization and control of public organizations. Students will critically examine various influential models of bureaucracy, while also learning about the strengths and weaknesses of emergent forms of bureaucratic organization, including networks, public-private partnerships, collaboration, and governance. The course also explores different theories of leadership, assisting students in the development of their own authentic leadership style, and thinking through the application of such theories and styles to the real world of public organization leadership, especially in the fragmented, decentralized, complex, and uncertain contemporary environment of networks, partnerships, and governance.

**PPOL 512. **PUBLIC POLICY THEORY. (4 Credits)

Theoretical approaches to the study of the policy process, policy elements, policy tools, (e.g., regulation), and policy typologies.

**Equivalent to:** PS 571

**PPOL 521. **UNDERSTANDING SOCIAL RESEARCH. (4 Credits)

Study of basic concepts and principles of qualitative and quantitative social research, including selection of general strategies and specific designs, conceptual and operational measurement, sample selection, data collection, data processing and analysis techniques, interpretation and reporting. Utilizes reports of social research in scholarly journals, popular media, and agency documents. Emphasis on critical evaluation and interpretation.

**Equivalent to:** SOC 515
PPOL 522. QUANTITATIVE METHODS FOR PUBLIC POLICY ANALYSIS. (4 Credits)
Covers a variety of techniques for analyzing quantitative data, including linear regression, logistic regression, and other techniques. Emphasis is placed on working with data and software to answer research questions. Prior knowledge of hypothesis testing and descriptive statistics is assumed.
Prerequisites: PPOL 521 with C or better and ECON 524 [C]
Equivalent to: SOC 516

PPOL 523. QUALITATIVE RESEARCH METHODS. (4 Credits)
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.
Equivalent to: SOC 518
Recommended: SOC 204 or SOC 204H

PPOL 524. APPLIED RESEARCH METHODS. (4 Credits)
Application of sociological theory, concepts, and methods. Topics vary but may include program evaluation, social impact assessment, policy analysis, focus group research, survey research, among others.
Equivalent to: SOC 519
Recommended: SOC 204 or SOC 204H and at least one upper-division course in sociology.

PPOL 525. MANAGING AND GOVERNING PUBLIC AND NON-PROFIT ORGANIZATIONS. (4 Credits)
Provides students with an introduction to management in public and non-profit organizations. Public and non-profit managers face challenges that are not faced by their counterparts in the private sector. These challenges are often associated with a different legal structure, employee protections, and differences in ethos and motivation. Students will build on knowledge of public administration to examine contemporary issues of public management and public governance and the techniques and challenges of management in practice. Successful completion of the course will equip students to be critically reflective practitioners and scholars of the management of public and non-profit organizations.
Recommended: Public Administration or PS 572 or PPOL 532 or experience in working in public or community service

PPOL 531. INFLUENCING PUBLIC POLICY: AN INTRODUCTION TO THE DARK ARTS. (4 Credits)
Explores the various tactical and strategic behaviors that individuals and groups use to influence public policy. Focusing on the ethical and pragmatic dimensions of policy consequential tactics and strategy, topics vary but may include policy communication, the use of science and evidence, human cognition and decision-making processes, lobbying, and vote and agenda manipulation.

PPOL 541. ENERGY AND SOCIETY. (4 Credits)
Explores the complex interrelationships between humans and energy, emphasizing the role of energy in critical social issues, including but not limited to: domestic and international conflict, poverty, social change, inter-generational equity, energy transitions and environmental justice.

PPOL 542. QUANTITATIVE METHODS FOR PUBLIC POLICY ANALYSIS. (4 Credits)
Explores and develops the norms, rules, institutional design, decision-making dynamic, and politics of collaborative governance arrangements for complex natural resource problem settings. Designed to bring together traditional adversaries, government agencies, and citizens to resolve and improve management of collective public problems, collaborative governance for natural resources is now an important problem-solving tool that is employed in thousands of communities, watersheds, and landscapes around the world.

PPOL 544. COLLABORATIVE GOVERNANCE. (4 Credits)
Explores and develops the norms, rules, institutional design, decision-making dynamic, and politics of collaborative governance arrangements for complex natural resource problem settings. Designed to bring together traditional adversaries, government agencies, and citizens to resolve and improve management of collective public problems, collaborative governance for natural resources is now an important problem-solving tool that is employed in thousands of communities, watersheds, and landscapes around the world.

PPOL 545. INTERNATIONAL MARINE POLICY. (4 Credits)
Explores the institutional, political and legal factors that impact international marine policy with an emphasis on the United Nations Law of the Sea Convention. Additional topics include marine resource exploitation, climate change, and national security issues as they pertain to the world’s oceans, coasts, and national policies.
This course is repeatable for 16 credits.

PPOL 546. THE POLICY AND LAW OF UNITED STATES COASTAL GOVERNANCE. (4 Credits)
Examines federal and state policy, legislative and judicial protections of public beach access; ownership and use of tide and submerged lands, including the public trust doctrine; wetland conservation; and the Federal Coastal Zone Management Act. This course is intended to equip future environmental and natural resource professionals with a foundation in US coastal management, especially areas where new professionals will be very involved (coastal development, offshore/alternative energy, and sea level rise/storm hazards). The format includes reading, discussion, and student presentations. Readings will be drawn from the textbook; additional readings will be posted on Canvas.

PPOL 547. INTEGRATED POLICY: FOOD, ENERGY, WATER, CLIMATE. (4 Credits)
Environmental decisions include trade-offs. Policy choices for sustainably providing Earth’s eight billion people with food, energy, and water are urgently needed. Policy sectors (such as food) risk outcomes that are not beneficial, and impose long-term costs and potential catastrophic climate burdens. This transdisciplinary course examines emerging integrated policies concerning provision of food, energy, and water and their relationship to climate.

PPOL 548. MARINE POLICY IN THE UNITED STATES. (4 Credits)
Introduces students to the history, rationale, achievements, and gaps in American ocean and coastal policy. Students will acquire foundational tools of policy problem solving, critique, and analysis, and will synthesize and apply their knowledge creatively to propose integrated policy solutions to specific contemporary marine issues.

PPOL 551. HIGHER EDUCATION POLICY. (4 Credits)
An introduction to policy issues in the area of higher education and exploration of possible tensions within the policy goals of quality, equity, access and outcomes. Students will gain knowledge of the key pieces of legislation and constitutional law governing higher education policy at both federal and state levels, as well as an overview of the relevant research in this area. Begins with a short historical introduction to the U.S. higher education system and concludes with a discussion of its competing demands and functions.

PPOL 552. INTERNATIONAL COMPARATIVE RURAL POLICY. (4 Credits)
Examines and compares the role of rural policy in different cultural, political and administrative contexts at the international, national, state, regional and local levels. The course also provides the opportunity to study the nature and implications of new forms of governance in rural contexts in North America and Europe.
PPOL 599. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 16 credits.

PPOL 602. INDEPENDENT STUDY. (1-4 Credits)
This course is repeatable for 16 credits.

PPOL 603. THESIS. (1-12 Credits)
This course is repeatable for 999 credits.

PPOL 607. SEMINAR. (1-4 Credits)
This course is repeatable for 16 credits.

PPOL 609. PRACTICUM. (1-12 Credits)
This course is repeatable for 24 credits.

PPOL 613. ADVANCED POLICY THEORY I. (4 Credits)
First of two-class series introducing a comprehensive review of public policy theory focused on examining theoretical approaches to understanding the complex and contentious assumptions and premises that pose challenges to the way we conduct public policy.

PPOL 614. ADVANCED POLICY THEORY II. (4 Credits)
Second course in a two-course series providing a comprehensive review of public policy theory. The course examines theoretical approaches to understanding the complex and contentious assumptions and premises that pose challenges to the way we conduct public policy.

PPOL 621. ADVANCED QUANTITATIVE METHODS. (4 Credits)
Methods used in research in the social sciences, focused on causal inference in public policy contexts. Covers methods used at the frontier of research to estimate the causal effect of policies on outcomes, including instrumental variables, regression discontinuity, and difference-in-differences estimation.
Recommended: ECON 524

PPOL 622. ADVANCED POLICY ANALYSIS. (4 Credits)
Introduction to advanced quantitative modeling used in policy analysis, with an emphasis on the application of modeling techniques to research papers. Focus is predominantly on counts and zero-truncated modeling, time series, and panel regression.
Prerequisites: ECON 524 with B+ or better and PPOL 522 [B+] or PPOL 621 [C+] or AEC 523 [C+] and AEC 525 [C+]

PPOL 628. ADVANCED QUALITATIVE METHODS. (4 Credits)
Focus on epistemological approaches, research design, data analysis techniques and critiques of qualitative research, with emphasis on participant observation and interviewing. Culminates in the written and oral presentation of a qualitative research proposal, including preliminary results from fieldwork conducted during the course.
Prerequisites: ANTH 591 with C or better or HDFS 538 with C or better or SOC 518 with C or better

PPOL 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

Queer Studies (QS)

QS 262. *INTRODUCTION TO QUEER STUDIES. (3 Credits)
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 262H, WGSS 262, WGSS 262H

QS 262H. *INTRODUCTION TO QUEER STUDIES. (3 Credits)
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 262, WGSS 262, WGSS 262H

QS 299. SPECIAL TOPICS. (3 Credits)
This course is repeatable for 9 credits.

QS 321. *QUEER POP CULTURE. (3 Credits)
Examines the concept of Queer popular culture through film, music, TV, image, and other mediums. Seeks to disrupt dominant discourses around gender and sexuality by centralizing women of color feminisms and queer of color critiques to analyze popular representations of gender, sexuality, race, class, disability, and other social locations. CROSSLISTED as QS 321/WGSS 321. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WGSS 321

QS 361. (RE)FRAMING RACE THROUGH FILM PRODUCTION. (4 Credits)
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSLISTED as ES 361/ QS 361/WGSS 361/WLC 361.
Equivalent to: ES 361, WGSS 361, WLC 361
Recommended: Prior filmmaking experience

QS 362. *SERVING LGBTQ+ COMMUNITIES. (3 Credits)
Engages the ethics and responsibilities involved in serving LGBTQ+ communities in fields such as education, health, law, and social services for those entering and/or continuing professions in fields that historically underserve LGBTQ+ people. Topics include LGBTQ+ youth; LGBTQ+ elders; issues affecting LGBTQ+ people across their lifespans; approaches to cultural competency; violence against LGBTQ+ people, forms of oppression including heterosexism, homophobia, and transphobia; and LGBTQ+ community resilience. CROSSLISTED as QS 362/WGSS 362. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WGSS 362

QS 364. *TRANSGENDER POLITICS. (3 Credits)
Addresses transgender politics— including transsexual, genderqueer, and gender non-conforming issues— through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 364H, WGSS 364, WGSS 364H

QS 364H. *TRANSGENDER POLITICS. (3 Credits)
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, WGSS 364, WGSS 364H
QS 375. *ARTS AND SOCIAL JUSTICE. (4 Credits)
Explores concepts of structural inequality, difference, power, and discrimination through a critical survey of arts activism. Think critically about artwork and artists which address a number of social issues in the United States, including race, ethnicity, class, gender, sexuality, immigration, and indigeneity. CROSSLISTED as ES 375/QS 375/WGSS 375.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 375, WGSS 375

QS 399. SPECIAL TOPICS IN QUEER STUDIES. (3 Credits)
This course is repeatable for 12 credits.

QS 409. PRACTICUM: PROJECTS IN QUEER STUDIES. (1-12 Credits)
Capstone projects bring theory into practice through research, design, and implementation of a project that synthesizes and demonstrates learning in the Queer Studies program.
This course is repeatable for 12 credits.

QS 431. *QUEER OF COLOR CRITIQUES. (4 Credits)
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 431, WGSS 431

QS 432. *GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE. (3 Credits)
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ART 432, WGSS 432

QS 462. *QUEER THEORIES. (4 Credits)
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues, Keywords: CPCI – Core, Pers, Cult Diversity
Equivalent to: QS 462, WGSS 462

QS 472. *INDIGENOUS TWO-SPIRIT AND QUEER STUDIES. (4 Credits)
Attributes: CSGI – Core, Skills, WIC
Equivalent to: ES 472, WGSS 472
Recommended: QS 262 or ES 242 or WGSS 414

QS 473. TRANSGENDER LIVES. (4 Credits)
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573.
Equivalent to: WGSS 473
Recommended: WS/QS 262, WGSS/QS 364

QS 476. *TRANSNATIONAL SEXUALITIES. (4 Credits)
Explores contemporary experiences of sexualities within transnational contexts. Examines themes including queer and LGBTQI organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSLISTED as QS 476/WGSS 476 and QS 576/WGSS 576. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisites: QS 262 with D- or better
Equivalent to: WGSS 476

QS 477. QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM. (4 Credits)
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 477, WGSS 477
Recommended: QS 262 and QS 462

QS 499. SPECIAL TOPICS IN QUEER STUDIES. (4 Credits)
Topics in gay, lesbian, bisexual, transgender, and queer issues and scholarship. May be repeated for credit when topic varies. This course is repeatable for 12 credits.

QS 524. TRANS/GENDER POLITICS. (4 Credits)
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 524/WGSS 524.
Equivalent to: WGSS 524

QS 531. QUEER OF COLOR CRITIQUES. (4 Credits)
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531.
Equivalent to: ES 531, WGSS 531

QS 532. GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE. (3 Credits)
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532.
Equivalent to: ART 532, WGSS 532
**Rangeland Ecology & Management (RNG)**

**RNG 121. *INTRODUCTION TO WILDLAND ECOLOGY. (4 Credits)***

Ecological principles will be applied to understand contemporary issues related to wildlands, specifically the rangeland biomes that comprises over 50% of the Earth’s surface (FAO, SRM, USDA ERS). Topics to be covered fall into the following categories: Fundamentals of Ecology; Animals (wildlife & livestock); Disturbance (e.g., invasive species, fire, mineral extraction, etc.); Ecosystem Goods & Services (e.g., carbon sequestration, watersheds, biodiversity, recreation, etc.). The course will largely focus on U.S. wildlands, however a portion will examine the ecology and issues of international rangelands in Africa, Eurasia, Australia, and South America. (Bacc Core Course)

**Attributes:** CPBS – Core, Pers, Biological Science

**Equivalent to:** RNG 299H

This course is repeatable for 16 credits.

**RNG 351. RANGE ECOLOGY I-GRASSLANDS. (3 Credits)**

Principles and terminology of grassland ecology. Addresses the spatial-temporal dynamics of structure, function, and process in North American grassland ecosystems. Water, nutrient cycles and energy pathways are explored in context of the variable driving forces of climate (drought), herbivory, and fire.

**Recommended:** (BOT 313 [D-] and RNG 341 [D-])

**Equivalent to:** RNG 241

**RNG 352. RANGE ECOLOGY II-SHRUBLANDS. (3 Credits)**

Introduces the ecology of shrublands using an autecological approach. Explores the effects of stressors such as temperature, drought, fire, and herbivory on plant morphology, physiology, reproduction, and growth. Covers life histories of common shrubs and descriptions of shrubland communities used to promote understanding of autecological principles.

**Recommended:** BOT 313 and RNG 341

**RNG 353. WILDLAND PLANT IDENTIFICATION. (4 Credits)**

Students will learn how to identify approximately 100 plant species found in wildlands of North America and Mexico. Individual plant species ecology, basic plant anatomy and identification characteristics observable only through a microscope or dissecting scope, and how to use a dichotomous key for plant ID will also be covered.

**Equivalent to:** RNG 253

**RNG 355. DESERT WATERSHED MANAGEMENT. (4 Credits)**

A systems-based understanding of hydrologic processes in arid and semiarid landscapes. The class is focused on gaining knowledge of multiple ecological and hydrological interactions occurring in dryland watersheds and on discussing practical methodology aimed to enhance site productivity and ecosystem resilience. Emphasis is placed on land use effects on watershed function; monitoring of soil, water, and vegetation variables; and methods of rehabilitation of degraded landscapes. The course has a strong experiential learning component through a series of 'hands-on' practicums and a field trip to a semiarid location in eastern Oregon. Lec/lab.
RNG 399. SPECIAL TOPICS. (1-16 Credits)
May be repeated for a total of 16 credits.
This course is repeatable for 16 credits.

RNG 403. SENIOR THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 411. ADVANCED PLANT ID. (2 Credits)
Advanced rangeland plant taxonomy.
This course is repeatable for 16 credits.

RNG 421. WILDLAND RESTORATION AND ECOLOGY. (4 Credits)
Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function. Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed. This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function.
Recommended: Course work in soils and ecology

RNG 441. RANGELAND ANALYSIS. (4 Credits)
Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods.
Recommended: ST 351 or ST 351H

RNG 442. RANGELAND-ANIMAL RELATIONS. (4 Credits)
Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiology, and their effects on management of rangeland-animal resources.

RNG 448. LIVESTOCK PRODUCTION ON PASTURE. (4 Credits)
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 448, CROP 448

RNG 455. RIPARIAN ECOHYDROLOGY AND MANAGEMENT. (4 Credits)
A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture).
Recommended: RNG 355

RNG 457. HABITAT ANALYSIS 1: HABITAT USE AND MOVEMENT. (3 Credits)
Effective habitat management necessitates an understanding of how animals use and move through the landscape, including rangelands. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on site selection of terrestrial animals (wild and domestic). However, topics covered in this course are broadly analogous to other ecosystems. Emphasis will be placed on analysis of habitat use (space use) and animal movement from multiple study designs.
Prerequisites: FW 251 with D- or better and RNG 341 [D-] and MTH 241 [D-] and (ST 201 [D-] or ST 351 [D-])

RNG 458. HABITAT ANALYSIS 2: ABUNDANCE, OCCUPANCY AND DEMOGRAPHY. (3 Credits)
Habitat influences abundance, occupancy, and demographic rates of wildlife. Wildlife management is often a component of land management and both benefit from land stewards that have an understanding of how habitat characteristics influence the occupancy, abundance, and performance of wildlife within an area. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on abundance, occupancy, and demographic rates of terrestrial animals.
Prerequisites: FW 251 with D- or better and RNG 341 [D-] and MTH 241 [D-] and (ST 201 [D-] or ST 351 [D-])

RNG 470. PASTORAL SYSTEMS OF THE WORLD. (4 Credits)
Description and evaluation of ecosystems which support grazing animals and pastoralists. Biology, ecology and management of these landscapes will be explored through climate, soils, and plant communities and human-livestock interactions. The historic role of trade and contemporary challenges to the ecological, social and economic sustainability of pastoral systems will be examined.

RNG 490. RANGELAND MANAGEMENT PLANNING. (4 Credits)
Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints affecting decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab.

RNG 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 503. MASTER’S THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

RNG 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 507. SEMINAR. (1-2 Credits)
This course is repeatable for 16 credits.

RNG 521. WILDLAND RESTORATION AND ECOLOGY. (4 Credits)
Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function. Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed. This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function.
RNG 541. RANGELAND ANALYSIS. (4 Credits)
Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods.
Recommended: ST 351

RNG 542. RANGELAND-ANIMAL RELATIONS. (4 Credits)
Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiography, and their effects on management of rangeland-animal resources.
Recommended: RNG 341

RNG 548. LIVESTOCK PRODUCTION ON PASTURE. (4 Credits)
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 548, CROP 548

RNG 555. RIPARIAN ECODYNAMICS AND MANAGEMENT. (4 Credits)
A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture).
Recommended: RNG 355

RNG 557. HABITAT ANALYSIS 1: HABITAT USE AND MOVEMENT. (3 Credits)
Effective habitat management necessitates an understanding of how animals use and move through the landscape, including rangelands. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on site selection of terrestrial animals (wild and domestic). However, topics covered in this course are broadly analogous to other ecosystems. Emphasis will be placed on analysis of habitat use (space use) and animal movement from multiple study designs.
Recommended: ST 511 and ST 512

RNG 558. HABITAT ANALYSIS 2: ABUNDANCE, OCCUPANCY AND DEMOGRAPHY. (3 Credits)
Habitat influences abundance, occupancy, and demographic rates of wildlife. Wildlife management is often a component of land management and both benefit from land stewards that have an understanding of how habitat characteristics influence the occupancy, abundance, and performance of wildlife within an area. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on abundance, occupancy, and demographic rates of terrestrial animals.

RNG 577. AGROFORESTRY. (3 Credits)
Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/NR 477 and FES 577/RNG 577.
Equivalent to: FES 577, FS 577, NR 577
Recommended: Introductory course in biology

RNG 590. RANGELAND MANAGEMENT PLANNING. (4 Credits)
Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints necessary for decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab

RNG 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 601. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 603. PH.D. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

RNG 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 606. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 607. SEMINAR. (1-2 Credits)
This course is repeatable for 16 credits.

RNG 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

RNG 643. WILDLAND PLANT ECOPHYSIOLOGY. (4 Credits)
Emphasizes the physiological ecology of plants living in arid and semi-arid ecosystems. Primary class emphasis will include photosynthesis, respiration, water stress and water use efficiency, stable isotopes, root structure and function, nutrient uptake and stress, and defoliation. Offered every other winter, odd years.

RNG 662. RANGELAND ECOLOGY. (3 Credits)
Studies ecological theory and related resource management implications in rangelands and arid wildlands. Topics include the history and development of rangeland ecology, plant demography, invasive species, plant population dynamics, disturbance theory, succession, vegetation classification and range condition assessments. Offered every other winter, even years.
Recommended: Basic ecology course

RNG 670. ECOLOGICAL INVASIVE PLANT MANAGEMENT. (2 Credits)

RNG 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.
REL 160. *QUESTS FOR MEANING: WORLD RELIGIONS. (4 Credits)
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam.
Lec/rec. CROSSLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, PHL 160H, REL 160H

REL 160H. *QUESTS FOR MEANING: WORLD RELIGIONS. (0-4 Credits)
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam.
Lec/rec. CROSSLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, PHL 160H, REL 160

REL 170. *THE IDEA OF GOD. (4 Credits)
Concepts and images of God and their connections to world-views, experience, science, gender, society, self-understanding, and religions.
CROSSLISTED as PHL 170/REL 170. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: PHL 170

REL 199. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 12 credits.

REL 201. STUDY OF PEACE AND THE CAUSES OF CONFLICT. (3 Credits)
Examination of the causes of personal, social, and institutional conflict and peaceful, constructive means of dealing with conflict. The history and current status of peace movements within and outside governments; prospects for world peace. Case studies in peace and conflict.
CROSSLISTED as PAX 201/REL 201. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: PAX 201

REL 202. INTRODUCTION TO RELIGIOUS STUDIES. (4 Credits)
An introduction to the academic study of religion. It examines the concepts of religion and the sacred, approaches to the study of religion, ubiquitous features of religious experience, including symbol, myth, ritual, and community, understandings of the human condition in diverse religious traditions, and ways religious communities address challenges of pluralism and secularization.
CROSSLISTED as PHL 202/REL 202.
Equivalent to: PHL 202

REL 206. *RELIGIOUS ETHICS AND MORAL PROBLEMS. (4 Credits)
An examination of the practical ethics of the monotheistic religious traditions of the West--Judaism, Christianity, Islam--and their different approaches to concrete moral problems. Topics include sexuality and marriage, euthanasia, capital punishment, pacifism and just war, and environmentalism.
CROSSLISTED as PHL 206/REL 206. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: PHL 206

REL 208. INTRODUCTION TO BUDDHIST TRADITIONS. (4 Credits)
Survey of the historical development of Buddhism in India and its spread throughout Asia and beyond by investigating the literature, rituals, history and social structure of the Buddhist traditions of Sri Lanka and Southeast Asia, Tibet and the Himalayan region, China, Taiwan, Korea, Japan, and finally its growth in the West.
CROSSLISTED as PHL 208/REL 208. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 208

REL 210. *RELIGION IN THE UNITED STATES. (4 Credits)
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present.
CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, PHL 210H, REL 210H

REL 210H. *RELIGION IN THE UNITED STATES. (4 Credits)
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present.
CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, PHL 210H, REL 210H

REL 212. *INTRODUCTION TO CATHOLICISM. (4 Credits)
Explores historical experiences of Roman Catholics from the origins of the tradition to the present. The course 1) explores the historical origins and expansions of Catholicism in world history, 2) examines Catholic practices, structures, ideas and beliefs, and 3) surveys the unique form Catholicism took in United States history using a wide variety of sources, including historical monographs, novels, memoir, film, papal documents, correspondence, essays, speeches, poetry, political writing, sermons, advertisements, liturgy, and artwork. Learn about the major developments, persons, institutions, and ideas that shaped the experience of Catholics in different moments of world history.
Attributes: CPWC – Core, Pers, West Culture

REL 213. *INTRODUCTION TO HINDU TRADITIONS. (4 Credits)
Survey of the historical development of Hinduism in India and the 'Hindu Diaspora.' Topics will include the Indus Valley civilization, the Vedic tradition, yoga, and Hindu renunciation, 'Classical' Hindu theism and devotion, Hindu philosophy and ritual, and modern and contemporary Hinduism.
CROSSLISTED as PHL 213/REL 213. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PHL 213

REL 214. *INTRODUCTION TO ISLAMIC TRADITIONS. (4 Credits)
Development of Islamic traditions in the Arab world and in the global context. Origins of Islam, the narrative of the Prophet Muhammad, the development of the Qur’an, and the central tenets of Islamic faith and practice. Transformation of Islam from a regional to a global tradition.
CROSSLISTED as PHL 214/REL 214. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PHL 214

REL 215. *INTRODUCTION TO JEWISH TRADITIONS. (4 Credits)
An introduction to Judaism’s traditions, histories, and practices. Covers historical origins and developments from the biblical period through the Middle Ages, and considers Judaism in the modern world. Topics include the Jewish calendar (including holidays and their traditions), Jewish life cycle events, Jewish prayer, and traditional texts such as the Mishnah and Talmud.
CROSSLISTED as HST 215/REL 215. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 215
REL 220. *WORLD-VIEWS AND VALUES IN THE BIBLE. (4 Credits)
A study of central portions of the Bible (in the Old Testament: Torah, prophets, psalms, and wisdom; in the New Testament: Jesus, gospels, and letters) from the perspective of the academic discipline of biblical scholarship, exploring the philosophical questions of the relationships between story, myth, thought, values, and understandings of life. CROSSLISTED as PHL 220/REL 220. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 220

REL 299. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 12 credits.

REL 310. *CRITICS OF RELIGION. (4 Credits)
An introduction to critiques of religion by Nietzsche, Freud, Marx, and other influential thinkers. Examines the nature, scope, and effects of criticisms that challenge the psychological, moral, political, and epistemological foundations of religious belief, practice, and institutions. CROSSLISTED as PHL 310/REL 310. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 310

REL 312. *ASIAN THOUGHT. (4 Credits)
Familiarizes students with key figures in the history of Asian religious ideas and philosophy. While the emphasis will be on the philosophical traditions of Asia, it will quickly become apparent that philosophy and religion are not so easily distinguishable in many Asian traditions. Areas of thought studied will include Hindu, Buddhist, Confucian, and Taoist. CROSSLISTED as PHL 312/REL 312. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 312

REL 315. *GANDHI AND NONVIOLENCE. (4 Credits)
An examination of the life and work of Mohandas K. Gandhi, the 20th century activist and author, and the theory and practice of nonviolence in his life and work. Emphasis will be placed upon Gandhi's biographical narrative, the development of satyagraha, Gandhi's nonviolent approach to social transformation, and post-Gandhian nonviolent movements. CROSSLISTED as PHL 315/REL 315. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PHL 315

REL 316. INTELLECTUAL ISSUES OF MEXICO AND MEXICAN AMERICANS. (4 Credits)
The philosophical, social, cultural, and political reality of Mexican Americans and their historical roots in Mexico since the Spanish Conquest. Analysis of internal colonialism, racism, machismo, fatalism, alienation, cultural identity, as well as more contemporary including NAFTA, immigration, and U.S.-Mexican relations. CROSSLISTED as PHL 316/REL 316. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 316

REL 324. *ANCIENT JEWISH HISTORY. (4 Credits)
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 324, HST 324H, REL 324

REL 324H. *ANCIENT JEWISH HISTORY. (4 Credits)
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPWC – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: HST 324, HST 324H, REL 324

REL 325. *EARLY CHRISTIANITY: ORIGINS TO 600. (4 Credits)
Traces early Christianity from its origins to the beginning of the Middle Ages. It deals with the origins and Jewish background of Christianity in Palestine, the ministry and teachings of Jesus, the spread of Christianity throughout the Roman Empire by his disciples and early missionaries, the formation of the New Testament canon, the development of Christian doctrine, controversies over heresy, and the origin of monasticism and the Papacy. CROSSLISTED as HST 325/REL 325. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: HST 325

REL 326. *HISTORY OF MEDIEVAL EUROPE. (4 Credits)
Examines the history of global Christianity from the fifth through the seventeenth centuries. Themes to be investigated include the evolving relationship between the church and the state; mysticism; conversion and resistance; the emergence of Protestantism; marriage and sex, as well as women in the history of Christianity. CROSSLISTED as HST 326/REL 326.
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: HST 326

REL 327. HISTORY OF MEDIEVAL EUROPE. (4 Credits)
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 284 A.D. to 1000. Not offered every year. CROSSLISTED as HST 327/REL 327. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 327

REL 328. HISTORY OF MEDIEVAL EUROPE. (4 Credits)
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 1000 to 1400. Not offered every year. CROSSLISTED as HST 328/REL 328. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 328

REL 330. HISTORY OF EARLY MODERN EUROPE. (4 Credits)
Political, social, intellectual, and cultural history of Europe from 1400-1789. Focuses on the Reformation. Not offered every year. CROSSLISTED as HST 330/REL 330. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 330

REL 333. MEDIEVAL AND EARLY MODERN SPANISH HISTORY. (4 Credits)
From Islamic conquest to conquest of America, the social, religious, political and economic history of Spain from 1000 to 1700. Offered fall term in odd years. CROSSLISTED as HST 333/REL 333. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 333
REL 344. *PACIFISM, JUST WAR, AND TERRORISM. (4 Credits)
An examination of the philosophical and theological issues pertaining to pacifism, justified war, and forms of terrorism in Islamic and Western traditions. Special attention is given to concepts of jihad, justifications of war, and restraints on conduct in war. CROSSLISTED as PHL 344/REL 344. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PHL 344

REL 345. *FIRST FREEDOM: RELIGIOUS LIBERTY AND INTOLERANCE. (4 Credits)
An examination of the religious, philosophical, political, and historical issues regarding religious freedom, conscience, and disestablishment as enshrined in the First Amendment and as illustrated by historical and contemporary examples of religious intolerance in the United States. CROSSLISTED as PHL 345/REL 345. (Bacc Core Course)
Attributes: CPDP – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 345

REL 350. *MODERN LATIN AMERICA. (4 Credits)
History of Latin America leading up to and after Spanish and Portuguese conquest. Focus on indigenous American, European and African cultures and religions in contact under colonial government and economic systems. Covers the period from 1400 to 1810. CROSSLISTED as HST 350/REL 350. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 350, HST 350H

REL 352. *AFRICANS IN LATIN AMERICAN HISTORY. (4 Credits)
A survey of the role of Africans and their descendants in Latin American history, linking the history of the Americas, Europe and Africa. CROSSLISTED as HST 352/REL 352. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 352
Recommended: HST 350 and HST 351

REL 353. *SLAVERY IN THE AMERICAS. (4 Credits)
A survey of the roles of Africans and their descendants in the history of the Atlantic World, linking Europe, Africa, and the Americas. Examines slavery and freedom in the African Diaspora, as well as social, cultural, and spiritual life. CROSSLISTED as HST 353/REL 353. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 353

REL 364. *UNITED STATES RELIGION AND SOCIAL REFORM. (4 Credits)
Provides an awareness of how various religious groups have thought about and engaged with social change pertaining to slavery, feminism, civil rights, same-sex marriage, and immigration. Focus on reading primary sources related to each of these issues. CROSSLISTED as HST 364/REL 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: HST 364

REL 371. *PHILOSOPHIES OF CHINA. (4 Credits)
A study of the traditional philosophies of China, including Confucianism, Taoism, Mohism, Legalism, and Buddhism. Not offered every year. CROSSLISTED as PHL 371/REL 371. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 371, PHL 371H
Recommended: 3 credits of philosophy or upper-division standing.

REL 378. *RELIGION AND GENDER: A GLOBAL PERSPECTIVE. (4 Credits)
Introduces students to the academic study of religion, as well as the academic study of gender. In order to offer a global perspective, we will read a series of case studies that deal with the religion as a gendered experience. Students will produce two essays, one of which will be based on independent research. CROSSLISTED as HST 378/REL 378/WGSS 378. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 378, WGSS 378

REL 387. *ISLAMIC CIVILIZATION. (4 Credits)
Political, social, and religious developments from 600 to 1400. Early history and the formation of Islamic society to the Mongol invasion. CROSSLISTED as HST 387/REL 387. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 387

REL 388. *ISLAMIC CIVILIZATION. (4 Credits)
Political, social, and religious developments from 1400 to the present. The expansion of Islam, Turkic, and Asian dynasties, impact of Western imperialism and modern Islamic world. CROSSLISTED as HST 388/REL 388. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 388

REL 399. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 12 credits.

REL 402. INDEPENDENT STUDY. (1-12 Credits)
This course is repeatable for 16 credits.

REL 405. READING AND CONFERENCE. (1-4 Credits)
This course is repeatable for 12 credits.

REL 407. *SEMINAR. (1-16 Credits)
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.

REL 411. GREAT FIGURES IN PHILOSOPHY. (4 Credits)
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: PHL 411
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy and sophomore standing.

REL 415. SELECTED TOPICS. (1-4 Credits)
This course is repeatable for 16 credits.

REL 425. *THE HOLOCAUST IN ITS HISTORY. (4 Credits)
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, HST 425H, REL 425H
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, HST 425H, REL 425

Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530. (NC) Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 430, PHL 430H

Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: PHL 431, PHL 431H

An examination of the practice and theory of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 432

An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 433

An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534. Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 434, PHL 434H, REL 434H

An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534. Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: PHL 434, PHL 434H, REL 434

Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSLISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: PHL 436
Recommended: 6 credits of philosophy and sophomore standing.

A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443, PHL 443H, REL 443H
Recommended: One introductory-level science course and sophomore standing.

A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443, PHL 443H, REL 443
Recommended: One introductory-level science course and sophomore standing.

Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444, PHL 444H, REL 444H

Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444, PHL 444H, REL 444
REL 448. NATIVE AMERICAN PHILOSOPHIES. (4 Credits)
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSTLISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: ES 448, PHL 448

REL 455. DEATH AND DYING. (3 Credits)
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSTLISTED as PHL 455/REL 455 and PHL 555/REL 555.
Equivalent to: PHL 455
Recommended: 6 credits of philosophy or sophomore standing.

REL 461. ART AND MORALITY. (4 Credits)
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSTLISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: PHL 461

REL 466. RELIGION AND U.S. FOREIGN RELATIONS. (4 Credits)
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSTLISTED as HST 466/REL 466 and HST 566/REL 566.
Equivalent to: HST 466
Recommended: HST 202 and HST 203 or upper-division standing.

REL 470. RELIGION IN THE AMERICAN WEST. (4 Credits)
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSTLISTED as HST 470/REL 470 and HST 570/REL 570.
Equivalent to: HST 470

REL 484. RELIGION AND LAW. (4 Credits)
Investigates the relationship between religion and law in Jewish, Christian, and Muslim society, as well as modern western “secular” society, considering the question from a theoretical, historical, and contemporary case-study perspective. We will look at the religious origins of legal systems, the ways in which members of religious communities engaged with their own and others’ laws, and the ways in which modern societies have used law to separate “religion” from the state. CROSSTLISTED as HST 484/REL 484 and HST 584/REL 584.
Equivalent to: HST 484

REL 485. *POLITICS AND RELIGION IN THE MODERN MIDDLE EAST. (4 Credits)
The role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSTLISTED as HST 485/REL 485 and HST 585/REL 585. (H) (NC)
Attributes: CPCD – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 485

REL 511. GREAT FIGURES IN PHILOSOPHY. (4 Credits)
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSTLISTED as PHL 411/REL 411 and PHL 511/REL 511.
Equivalent to: PHL 511
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy

REL 525. THE HOLOCAUST IN ITS HISTORY. (4 Credits)
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSTLISTED as HST 425/REL 425 and HST 525/REL 525.
Equivalent to: HST 525

REL 530. HISTORY OF BUDDHIST PHILOSOPHY. (4 Credits)
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSTLISTED as PHL 430/REL 430 and PHL 530/REL 530.
Equivalent to: PHL 530

REL 531. BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE. (4 Credits)
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by "Socially Engaged Buddhists" living Buddhist traditions. CROSSTLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: PHL 531

REL 532. YOGA AND TANTRIC TRADITIONS. (4 Credits)
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSTLISTED as PHL 432/REL 432 and PHL 532/REL 532.
Equivalent to: PHL 532

REL 533. THEORY AND PRACTICE OF MODERN YOGA. (4 Credits)
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga. Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSTLISTED as PHL 433/REL 433 and PHL 533/REL 533.
Equivalent to: PHL 533
REL 534. SPIRITUALITY AND ECOLOGY: GREEN YOGA. (4 Credits)
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSELISTED as PHL 434/REL 434 and PHL 534/REL 534.
Equivalent to: PHL 534

REL 536. PHILOSOPHY AND RELIGION. (3 Credits)
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSELISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: PHL 536
Recommended: 6 credits of philosophy

REL 543. WORLD VIEWS AND ENVIRONMENTAL VALUES. (3 Credits)
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSELISTED as PHL 443/REL 443 and PHL 543/REL 543.
Equivalent to: PHL 543
Recommended: One introductory-level science course

REL 544. BIOMEDICAL ETHICS. (4 Credits)
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSELISTED as PHL 444/REL 444 and REL 544/REL 544.
Equivalent to: PHL 544

REL 548. NATIVE AMERICAN PHILOSOPHIES. (4 Credits)
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSELISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548.
Equivalent to: ES 548, PHL 548

REL 555. DEATH AND DYING. (3 Credits)
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSELISTED as PHL 455/REL 455 and PHL 555/REL 555.
Equivalent to: PHL 555
Recommended: 6 credits of philosophy

REL 561. ART AND MORALITY. (4 Credits)
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSELISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: PHL 561

REL 566. RELIGION AND U.S. FOREIGN RELATIONS. (4 Credits)
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSELISTED as HST 466/REL 466 and HST 566/REL 566.
Equivalent to: HST 566
Recommended: HST 202 and HST 203

REL 570. RELIGION IN THE AMERICAN WEST. (4 Credits)
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSELISTED as HST 470/REL 470 and HST 570/REL 570.
Equivalent to: HST 570

REL 584. RELIGION AND LAW. (4 Credits)
Examines the role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSELISTED as HST 485/REL 485 and HST 584/REL 584.
Equivalent to: HST 584

REL 585. POLITICS AND RELIGION IN THE MODERN MIDDLE EAST. (4 Credits)
The role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSELISTED as HST 485/REL 485 and HST 585/REL 585.
Equivalent to: HST 585

Robotics (ROB)

ROB 421. APPLIED ROBOTICS. (4 Credits)
Multidisciplinary teams of students design, build, and demonstrate a robotic system, including all sensing, computation, and actuation. The specific task, such as checkers-playing robots, changes each year, and is designed to be challenging for ambitious students. Robots will compete in a friendly competition at the end of the term. Lec/lab.
Prerequisites: ME 430 with C or better
Equivalent to: ENGR 421

ROB 456. INTELLIGENT ROBOTS. (4 Credits)
Foundations of probabilistic reasoning for robotics. Topics include state estimation, robot motion, perception, localization and decision making under uncertainty.
Prerequisites: ST 314 with C or better
Equivalent to: ME 456
Recommended: CS 331, CS 361, ECE 353, or other programming experience

ROB 501. RESEARCH. (1-16 Credits)
Graded P/N.
This course is repeatable for 99 credits.

ROB 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.
ROB 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

ROB 506. PROJECTS. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

ROB 507. SEMINAR. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

ROB 514. INTRODUCTION TO ROBOTICS. (4 Credits)
A broad introduction to the field of robotics, and to the graduate Robotics program. The goal of the class is to take students with different backgrounds (mechanical engineering, computer science, electrical engineering, physics, etc.) and give them a common base in the fundamentals of robotics. A secondary goal is to introduce students to the Robotics program, and to give them some of the skills that will make them successful, both in the program and as a professional roboticist.

ROB 521. RESEARCH ROBOTICS. (4 Credits)
Multidisciplinary teams of students will use the backdrop of a robotics competition to generate a research question, then design, build, and demonstrate a robotic system that is used to answer this research question. An example may be a Jenga-playing robot, where students try a new computer vision algorithm, or test a theory on force control. This directly parallels graduate research in robotics, where systems-building is necessary, and toy problems can illustrate research results, but the important focus is a core research question. The specific competition task changes each year, and robots will compete at the end of the term. Lec/lab.
Equivalent to: ENGR 521

ROB 534. SEQUENTIAL DECISION MAKING IN ROBOTICS. (4 Credits)
Examines sequential decision making in robotics with a focus on motion planning and related optimization problems applied to fielded systems in marine, aerial, and ground domains. Discussions regarding both fundamental background material as well as cutting edge research in the following areas: discrete planning, sampling-based planning, planning under uncertainty, multi-robot systems, optimization, and performance guarantees.

ROB 537. LEARNING-BASED CONTROL. (4 Credits)
Provides an introduction to learning systems and their application to the control of nonlinear systems. Covered topics include neural networks, reinforcement learning, and evolutionary algorithms. Includes project component in which students write a technical paper and give a conference style presentation based on their project.
Equivalent to: ME 537

ROB 538. AUTONOMOUS AGENTS AND MULTI-AGENT SYSTEMS. (4 Credits)
Provides an introduction to autonomous agents and multi-agent systems. In particular, it focuses on how to use agents as building blocks for different autonomous systems. Covered topics include reinforcement learning, game theory, swarms, auctions, and collectives. Because this course covers a constantly evolving field, there will be a significant paper reading component in addition to the regular lectures. Students are expected to spend at least three hours a week reading, discussing and critiquing assigned papers.
Equivalent to: ME 538

ROB 541. GEOMETRIC MECHANICS. (4 Credits)
An introduction to geometric methods in the analysis of dynamic systems. Using the kinematics of simple robotic systems as a motivating example, we explore topics such as manifolds and Lie groups, representations of velocity, holonomic and nonholonomic constraints, constraint curvature and response to cyclic inputs, distance metrics.
Recommended: Prior exposure to linear algebra and differential equations

ROB 542. ACTUATOR DYNAMICS. (4 Credits)
Focuses on how inertia, spring compliance, and other passive dynamics affect highly dynamic, software-controlled systems. Examples include robotic manipulation tasks, robot-human interaction, CNC machines, or legged locomotion. Lec/lab.
Recommended: Prior courses on dynamics and control such as ME 531, ME 533, ME 535

ROB 545. ROBOTIC MANIPULATION. (4 Credits)
Introduction to the mechanical processes governing manipulation with a focus on the kinematics, statics, and dynamics of interacting rigid bodies. Topics include numerical inverse kinematics, dynamics of open chains, and interaction control. Some manipulation problems considered include grasping, picking and placing, and assembly.

ROB 562. HUMAN CONTROL SYSTEMS. (4 Credits)
Covers mechanisms of human motor systems and control of the neuromusculoskeletal anatomy followed by functional analysis of these system components. Then all the components are integrated to study feedback control dynamics. Covers classic to modern theories of motor control, adaptation, cognitive involvement, and rehabilitation techniques.
Equivalent to: ME 539
Recommended: Basic feedback control systems, linear algebra, differential equations

ROB 564. SOFT ROBOTICS. (4 Credits)
Soft robotics researchers propose building intelligent machines purely out of stretchable compressible soft materials. The course is centered on term-long projects that will result in real soft robots with the goal of presenting to the international community. The topics covered include rapid digital manufacturing, soft actuators, soft sensors, soft logic, soft energy, applications of soft robotics, and modeling soft mechanics.

ROB 567. HUMAN ROBOT INTERACTION. (4 Credits)
The field of human-robot interaction brings together research and application of methodology from robotics, human factors, human-computer interaction, interaction design, cognitive psychology, education and other fields to enable robots to have more natural and more rewarding interactions with humans throughout their spheres of functioning.
Recommended: Background in one of human factors, usability/hci, programming experience, design

ROB 568. SOCIAL ROBOTICS. (4 Credits)
In-depth exploration of the leading research, design principles, and challenges in Human-Robot Interaction (HRI), with an emphasis on socially interactive robots. Topics include social embodiment, multi-modal communication, human-robot teamwork, social learning, aspects of social psychology and cognition, as well as applications and evaluation with human subjects. Requires participation, lightning talks, student-led lectures, written critiques of class readings, and a group project involving a hypothetical social robotics project.

ROB 599. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 32 credits.
ROB 601. RESEARCH. (1-16 Credits)
Graded P/N.
This course is repeatable for 99 credits.

ROB 603. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

ROB 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

Rural Studies (RS)

RS 421. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET. (4 Credits)
Examines the geography of poverty in the United States and the 'social safety net' that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as AEC 421.
Equivalent to: AEC 421, AREC 421

RS 499. SPECIAL TOPICS. (1-5 Credits)
This course is repeatable for 9 credits.

RS 502. INDEPENDENT STUDY. (1-6 Credits)
This course is repeatable for 9 credits.

RS 512. INTRODUCTION TO RURAL STUDIES. (2 Credits)
Introduces students to the emerging theoretical perspectives, methodologies, and critical themes that define rural studies in the U.S. and elsewhere. It draws primarily from the disciplines of sociology, economics, anthropology, human development and geography, examining how each discipline understands and analyzes rural households and communities.

RS 513. CONTEMPORARY RURAL ISSUES. (2 Credits)
The focus will be on issues confronting rural Oregon. The class will also explore broader U.S. and international rural issues and examine commonalities and differences across cultures and development contexts. Weekly lecturers are drawn from the OSU community and beyond, including public policy makers, rural stakeholders, and nonprofit organizations.

RS 521. ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET. (4 Credits)
Examines the geography of poverty in the United States and the 'social safety net' that the U.S. has constructed to reduce poverty and its negative effects. Understand the geographical consequences of federal policies and the challenges of providing social safety net programs in rural areas. CROSSLISTED as AEC 521.
Equivalent to: AEC 521, AREC 521

RS 599. SPECIAL TOPICS. (1-5 Credits)
This course is repeatable for 9 credits.

Russian (RUS)

RUS 111. FIRST-YEAR RUSSIAN. (4 Credits)
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Designed for students with no prior training in Russian. Native and/or bilingual speakers of Russian will not receive credit for RUS 111, RUS 112, RUS 113.

RUS 112. FIRST-YEAR RUSSIAN. (4 Credits)
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Designed for students with no prior training in Russian. Native and/or bilingual speakers of Russian will not receive credit for RUS 111, RUS 112, RUS 113.
Prerequisites: RUS 111 with D- or better

RUS 199. SPECIAL STUDIES. (1-16 Credits)
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 299. SPECIAL STUDIES. (1-16 Credits)
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 329. SPECIAL TOPICS IN LANGUAGE, CULTURE, AND/OR LITERATURE. (1-16 Credits)
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 402. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

RUS 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

RUS 407. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

RUS 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

RUS 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

RUS 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

Science & Mathematics Educ (SED)

SED 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SED 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SED 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SED 407. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SED 409. FIELD PRACTICUM: SCIENCE AND MATHEMATICS. (3 Credits)
Placement in middle or high school (grades 7-12) to assist in developing competencies with adolescents in science/mathematics classes.
This course is repeatable for 18 credits.
SED 412. TECHNOLOGY FOUNDATIONS FOR TEACHING MATH AND SCIENCE. (3 Credits)
Integration of instructional technologies with other strategies to teach math and science in elementary, middle, and secondary schools in the 21st century.
Equivalent to: SED 412H

SED 413. INQUIRY IN SCIENCE AND SCIENCE EDUCATION. (3 Credits)
Investigation of inquiry and the nature of inquiry in science as it relates to science education. Students will examine issues relating to integrating scientific understandings and practice into K-12 instruction.

SED 414. INQUIRY IN MATHEMATICS AND MATHEMATICS EDUCATION. (3 Credits)
Investigation of mathematics as it relates to mathematics education. Students will examine issues relating to integrating mathematical understanding, mathematics standards/curricula, and mathematics-specific strategies in K-12 instruction. Lec/lab.

SED 416. INQUIRY IN SCIENCE AND MATHEMATICS EDUCATION. (3 Credits)
Investigation of inquiry and the nature of inquiry in science as it relates to education. Students will examine issues relating to integrating mathematical and scientific understandings and practices into K-12 education.

SED 419. TEACHING MATHEMATICAL MODELING IN STEM. (3 Credits)
Provides students an overview of the content requirements in the Common Core Standards for Mathematics and the teaching practices that are central to those standards with a focus on the role of mathematical modeling. Students experience content lessons and lessons focused on supporting students in developing understanding of that content.
Recommended: Background in an educational setting or as a pre-service teacher at any level, a K-12 teacher or free-choice learning educator

SED 431. OVERVIEW OF FREE-CHOICE LEARNING. (3 Credits)
Examines learning that occurs when people believe they have choices over what and how they learn, how much time they spend learning, and what their sources of information are. Covers current research on learning in museums, aquariums, zoos, botanical gardens, science centers, after-school programs, media and apprenticeships.

SED 435. COMMUNICATING OCEAN SCIENCES TO INFORMAL AUDIENCES. (3 Credits)
For students interested in improving their ability to communicate their scientific knowledge by helping general public and student audiences learn about ocean sciences in a wide variety of learning settings. Combines instruction in inquiry-based teaching methods and learning theory with work in student’s local informal learning settings like museums, zoos, aquariums and libraries.

SED 459. SCIENCE AND THE NATURE OF INQUIRY. (3 Credits)
Focuses on inquiry approaches to the teaching and learning of science. Development of teaching strategies including materials and resources for teaching science using an inquiry approach as well as more teacher-directed approaches.

SED 473. SCIENCE PEDAGOGY AND TECHNOLOGY I. (4 Credits)
Development of pedagogical content knowledge in grades 6-12 science instruction: learning theory, nature of science, technology integration, and reform recommendations. Lec/lab/rec.

SED 474. MATHEMATICS PEDAGOGY AND TECHNOLOGY I. (4 Credits)
Development of pedagogical content knowledge in grades 6-12 mathematics instruction: learning theory, nature of mathematics, technology integration, and reform recommendations.
Recommended: Investigation of mathematics as it relates to mathematics education and SED 414

SED 476. MATHEMATICS PEDAGOGY AND TECHNOLOGY II. (4 Credits)
Development of additional pedagogical content knowledge in grades 6-12; stress on dominant themes of the school mathematics curriculum including problem solving, reasoning, communication, and connections as well as the integration of technology into the mathematics classroom.
Prerequisites: SED 474 with D- or better

SED 477. SCIENCE PEDAGOGY AND TECHNOLOGY II. (4 Credits)
Development of pedagogical content knowledge in grades 6-12; science instruction; learning theory, nature of science, technology integration, and reform recommendations.
Prerequisites: SED 473 with C or better

SED 499. SPECIAL TOPICS. (3 Credits)
PREREQ: Provisional acceptance to Education Double Degree program.
This course is repeatable for 18 credits.

SED 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SED 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

SED 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SED 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SED 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SED 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

SED 509. PRACTICUM. (1-16 Credits)
This course is repeatable for 16 credits.

SED 510. PROFESSIONAL INTERNSHIP. SCIENCE OR MATHEMATICS EDUCATION. (1-16 Credits)
Supervised teaching experience at the elementary, middle or high school level; students experience general classroom and professional responsibilities common to the regular science or mathematics teacher.
This course is repeatable for 16 credits.

SED 511. ANALYSIS OF CLASSROOMS I. (3 Credits)
Observation and analysis of the complex science/ mathematics classroom (grades 3-12) and school culture and their impact on student learning.

SED 512. TECHNOLOGY FOUNDATIONS FOR TEACHING MATH AND SCIENCE. (3 Credits)
Integration of instructional technologies with other strategies to teach math and science in elementary, middle, and secondary schools in the 21st century.

SED 513. INQUIRY IN SCIENCE AND SCIENCE EDUCATION. (3 Credits)
Investigation of inquiry and the nature of inquiry in science as it relates to science education. Students will examine issues relating to integrating scientific understandings and practice into K-12 instruction.
SED 514. INQUIRY IN MATHEMATICS AND MATHEMATICS EDUCATION. (3 Credits)
Investigation of mathematics as it relates to mathematics education. Students will examine issues related to integrating mathematical understanding, mathematics standards/curricula, and mathematics-specific strategies in K-12 instruction. Lec/lab.

SED 516. INQUIRY IN SCIENCE AND MATHEMATICS EDUCATION. (3 Credits)
Investigation of inquiry and the nature of inquiry in mathematics and science as it relates to education. Students will examine issue relating to integrating mathematical and scientific understandings and practices into K-12 education.

SED 519. TEACHING MATHEMATICAL MODELING IN STEM. (3 Credits)
Provides students an overview of the content requirements in the Common Core Standards for Mathematics and the teaching practices that are central to those standards with a focus on the role of mathematical modeling. Students experience content lessons and lessons focused on supporting students in developing understanding of that content.
Recommended: Background in an educational setting or as a pre-service teacher at any level, a K-12 teacher or free-choice learning educator

SED 520. TECHNOLOGY FOR MATH AND SCIENCE EDUCATION. (3 Credits)
Explore current and emerging technologies applied to math and science learning that promote critical thinking, communication, collaboration, and creativity. Gain technology skills and resources that can be transferred to formal and informal learning environments.
Recommended: Basic computer literacy.

SED 531. OVERVIEW OF FREE-CHOICE LEARNING. (3 Credits)
Examines learning that occurs when people believe they have choices over what and how they learn, how much time they spend learning, and what their sources of information are. Covers current research on learning in museums, aquariums, zoos, botanical gardens, science centers, after-school programs, media and apprenticeships.

SED 535. COMMUNICATING OCEAN SCIENCES TO INFORMAL AUDIENCES. (3 Credits)
For students interested in improving their ability to communicate their scientific knowledge by helping general public and student audiences learn about ocean sciences in a wide variety of learning settings. Combines instruction in inquiry-based teaching methods and learning theory with work in student's local informal learning settings like museums, zoos, aquariums and libraries.

SED 541. WEATHER CONCEPTS FOR SCIENCE AND MATH TEACHING. (3 Credits)
Science content and pedagogy in learning and teaching basic weather concepts.
Recommended: Background in an educational setting or as a K-12 teacher or free-choice learning educator

SED 550. HIGH QUALITY SCIENCE AND MATHEMATICS INSTRUCTION. (3 Credits)
Explores high quality science and mathematics instruction to prepare professional teachers in science and mathematics. Develops skills in high-leverage instructional practices and reviews research literature that supports these practices. Investigates social justice issues related to systems of schooling in the United States.

SED 552. MATHEMATICS METHODS: PRACTICUM I. (3 Credits)
Theoretical background, practical knowledge, and skills for teaching in mathematics classrooms (grades 3-12). Instructional methods/modes, classroom management, contemporary curriculum goals and instructional planning.

SED 553. SCIENCE METHODS/PRACTICUM I. (3 Credits)
Theoretical background, practical knowledge, and skills for teaching in science classrooms (grades 3-12). Instructional methods/modes, classroom management, contemporary curriculum goals and instructional planning.

SED 554. ENGINEERING AND SCIENCE IN THE LIVES OF STUDENTS. (3 Credits)
Explore the use of construction engineering as a vehicle to make science and math more relevant and useful for the everyday life of students.
Recommended: Background in an educational setting or as a K-12 teacher or free-choice learning educator

SED 556. FOSTERING REFLECTIVE DISCOURSE IN SCIENCE AND MATH CONTEXTS. (3 Credits)
Examines ways of speaking that foster learning in science and mathematics contexts such as K-16 classrooms and free-choice learning settings (i.e., museums, zoos, science camps, etc.). Assignments assume the participant is a K-12 teacher or free-choice learning educator enrolled in a graduate licensure program or has access to an educational setting.

SED 573. SCIENCE PEDAGOGY AND TECHNOLOGY I. (4 Credits)
Development of pedagogical content knowledge in grades 6-12 science instruction: learning theory, nature of science, technology integration, and reform recommendations. Lec/lab/rec.

SED 574. MATHEMATICS PEDAGOGY AND TECHNOLOGY I. (4 Credits)
Development of pedagogical content knowledge in grades 6-12 mathematics instruction: learning theory, nature of mathematics, technology integration, and reform recommendations.
Recommended: Investigation of mathematics as it relates to mathematics education and SED 414

SED 576. MATHEMATICS PEDAGOGY AND TECHNOLOGY II. (4 Credits)
Development of additional pedagogical content knowledge in grades 6-12; stress on dominant themes of the school mathematics curriculum including problem solving, reasoning, communication, and connections as well as the integration of technology into the mathematics classroom.
Prerequisites: SED 574 with C or better

SED 577. SCIENCE PEDAGOGY AND TECHNOLOGY II. (4 Credits)
Development of pedagogical content knowledge in grades 6-12; science instruction; learning theory; nature of science; technology integration, and reform recommendations.
Prerequisites: SED 573 with C or better

SED 580. RESEARCH AND EVALUATION. (3 Credits)
Analysis of qualitative and quantitative empirical research in science education, mathematics education and education in general. Development of data collection instruments for use by researchers and teachers of science education, mathematics education and education in general, including portfolio and other forms of alternative assessment.

SED 581. PROFESSIONAL DEVELOPMENT AND PRACTICUM IN MATHEMATICS. (3 Credits)
Developing and implementing a program for continuing learning and evaluation in mathematics education.
SED 582. PERSONAL DIMENSIONS OF FREE-CHOICE LEARNING. (3 Credits)
Investigates the fundamental roles that identity, motivation, interest, prior knowledge and experience, and choice and control play in supporting learning and how learning leaders can build on these dimensions of learning in order to successfully engage lifelong learners.

SED 583. SOCIO-CULTURAL DIMENSIONS OF FREE-CHOICE LEARNING. (3 Credits)
Investigates connections between theories of free-choice learning and the fundamental concepts of sociology, social psychology and anthropology; social stratification, social structure and interaction, social institutions, and cultural background. Real world examples will be included to support learning leaders' efforts to facilitate the socio-cultural dimensions of lifelong science and mathematics learning.

SED 584. PHYSICAL DIMENSIONS OF FREE-CHOICE LEARNING. (3 Credits)
Learning is influenced by the interaction of variables within three contexts--personal, socio-cultural and physical. This course focuses on how macro-scale environmental factors (e.g. space, crowding, novelty) and micro-scale environmental factors (e.g. design elements, real objects, different media) support free-choice learning.

SED 592. PROFESSIONAL DEVELOPMENT AND PRACTICUM IN SCIENCE. (3 Credits)
Developing and implementing a program for continuing learning and evaluation in science education.

SED 594. ADVANCED INSTRUCTIONAL STRATEGIES IN SCIENCE AND MATHEMATICS. (3 Credits)
Explore instructional strategies and skills for K-12 science and math teachers to support student learning rigorous content.

SED 595. ASSESSMENT AND EVALUATION. (3 Credits)
Examines education assessment focusing on formative assessment in multiple contexts across learning environments.

SED 597. PROFESSIONAL DEVELOPMENT IN MATHEMATICS AND SCIENCE EDUCATION. (3 Credits)
Development of strategies and skills for developing, implementing and evaluating a program of professional development for mathematics or science educators considering various choices of program settings.

SED 598. MATHEMATICS AND SCIENCE CURRICULUM. (3 Credits)
Current trends, history of these trends, and rationale for mathematics and science curriculum reform across learning environments.

SED 599. TOPICS IN SCIENCE EDUCATION. (3 Credits)
Current issues, trends, and topics in science education. May be repeated for credit with different topics. This course is repeatable for 18 credits.

SED 601. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits. SED 601 with C or better

SED 603. DISSERTATION. (1-16 Credits)
This course is repeatable for 999 credits. SED 603 with C or better

SED 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits. SED 605 with C or better

SED 606. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits. SED 606 with C or better

SED 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits. SED 607 with C or better

SED 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits. SED 608 with C or better

SED 611. SURVEY OF RESEARCH ON TEACHING. (3 Credits)
Critical analysis of perspectives of research in science/math education with a focus on teaching as the unit of analysis. Prerequisites: SED 580 with C or better

SED 612. QUANTITATIVE RESEARCH DESIGN AND CRITICAL ANALYSIS. (3 Credits)
A study of quantitative research designs and analytical procedures with specific applications in science or mathematics education. Prerequisites: SED 580 (may be taken concurrently) with C or better

SED 613. LEARNING THEORY. (3 Credits)
Provides a critical overview and analysis of current theories of learning and development, beginning with a discussion about what learning is, how it has been viewed and studied over time, and how seminal theories inform an understanding of lifelong learning and its facilitation. Prerequisites: SED 580 (may be taken concurrently) with C or better

SED 615. PRACTICUM IN MATHEMATICS/SCIENCE IN COLLEGE TEACHING. (3 Credits)
Supervised field practicum in college mathematics/science teaching. This course is repeatable for 9 credits. SED 615 with C or better

SED 617. SURVEY OF RESEARCH ON LEARNING. (3 Credits)
Critical analysis of perspectives on student thinking and learning in science/math education. Prerequisites: SED 580 (may be taken concurrently) with C or better

SED 622. QUALITATIVE RESEARCH TECHNIQUES. (3 Credits)
A study of qualitative research designs and analytical procedures with specific applications in science and mathematics education. Prerequisites: SED 580 (may be taken concurrently) with C or better

SED 623. CURRICULUM THEORY. (3 Credits)
Establishes theoretical grounding of curriculum. Includes theoretical background, practical knowledge, and skills related to science and mathematics curriculum, including the history, curriculum theory and practice. Prerequisites: SED 580 (may be taken concurrently) with C or better

SED 625. CRITICAL PEDAGOGY. (3 Credits)
Builds a foundation in critical pedagogy theory and practice. Includes reading of classic and contemporary literature by recognized thinkers in the fields of critical pedagogical studies, requiring careful evaluation of empirical research and synthesis to develop a coherent point of view. Develops methodologies for analyzing data using critical pedagogical theories and intersectional perspectives.

SED 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits. SED 699 with C or better

SED 808. WORKSHOP. (1-16 Credits)
This course is repeatable for 99 credits.

Social Science (SSCI)

SSCI 199. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 8 credits.

SSCI 211. CAREER DEVELOPMENT IN THE SOCIAL SCIENCES. (1 Credit)
An introduction to career options available to students pursuing a social science degree. Students will explore career options and engage in exercises to help them reflect on their own interests, career goals, and aspirations. Hybrid class.

SSCI 299. SPECIAL TOPICS. (1-4 Credits)
This course is repeatable for 8 credits.
SOCI 199. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

SOCI 204. *INTRODUCTION TO SOCIOLOGY. (3 Credits)
Development and application of sociological concepts and perspectives concerning human groups; includes attention to socialization, culture, organization, stratification, and societies. Consideration of fundamental concepts and research methodology. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: SOC 204H

SOC 205. *INSTITUTIONS AND SOCIAL CHANGE. (3 Credits)
Investigation of causes and consequences of social problems considered in societal context. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core

SOC 206. *SOCIAL PROBLEMS AND ISSUES. (3 Credits)
Examination of social problems with particular focus upon U.S. society. Sociological perspectives on definition, description, and analysis of contemporary and recurrent problems in industrialized societies. Investigation of causes and consequences of social problems considered in societal context. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core

SOC 241. INTRODUCTION TO CRIME AND JUSTICE. (3 Credits)
Provides a sociological understanding of criminal justice system institutions and processes. Emphasis is placed on understanding the criminal law; police and policing; courts and the prosecution process; and prisons, jails and corrections.

SOC 299. SPECIAL TOPICS. (1-16 Credits)
Equivalent to: SOC 299H
This course is repeatable for 16 credits.

SOC 312. *SOCIOLOGY OF THE FAMILY. (4 Credits)
Survey of the family as a social institution. Addresses historical and cultural perspectives with emphasis on family diversity, variations in family form and life style, interdependence between family and other institutions, analysis of major family issues, forces for change in the family. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better or SOC 205 with D- or better or SOC 206 with D- or better
Equivalent to: SOC 312H

SOC 312H. *SOCIOLOGY OF THE FAMILY. (4 Credits)
Survey of the family as a social institution. Addresses historical and cultural perspectives with emphasis on family diversity, variations in family form and life style, interdependence between family and other institutions, analysis of major family issues, forces for change in the family. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Prerequisites: SOC 204 with D- or better orSOC 204H with D- or better
Equivalent to: SOC 312

SOC 313. SOCIOLOGY OF INTIMATE RELATIONSHIPS. (4 Credits)
Examines the microsociological dynamics of intimate relationships. Perceptions and expectations of intimate relationships are explored. Specific attention will be given to issues, processes, and factors that are involved in the construction and management of intimate relationships in contemporary society.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 315. *METHODS I: RESEARCH DESIGN. (4 Credits)
First in a two-course sequence required of all sociology majors. Students learn to formulate researchable questions, devise measures, select data collection techniques, and examine ethical and practical dilemmas in constructing sociological research. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
Equivalent to: SOC 415
SOC 316. METHODS II: QUANTITATIVE ANALYSIS. (4 Credits)
Second in a two-course sequence required of all sociology majors.
The primary objective is to provide students with the statistical skills necessary to analyze sociological data. Covers the construction and interpretation of contingency tables, basic ideas of probability and statistical inference, and an introduction to correlation and regression.
Prerequisites: (SOC 204 with D- or better or SOC 204H with D- or better) and SOC 315 [C-]
Equivalent to: SOC 416

SOC 340. DEVIAN'T BEHAVIOR AND SOCIAL CONTROL. (4 Credits)
Current perspectives, research and theories of deviant behavior. Review and analysis of various approaches and programs designed to prevent and deal with deviant behavior.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 345. *CRIMES AND VIOLENCE IN INTIMATE RELATIONSHIPS. (4 Credits)
Analyzes the historical, social, political, legal, cultural, and psychological aspects of domestic violence, sexual assault, and stalking. Addresses definitions of the problem, demographics, survivors, perpetrators, witnesses, bystanders, strategies and tactics of abusers and survivors, along with strategies for prevention, intervention, treatment, and social change. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

SOC 350. HEALTH, ILLNESS AND SOCIETY. (4 Credits)
Social and cultural factors in the identification, course, and treatment of illness; analysis of selected health settings and professions.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 351. *SOCIOLOGY OF MENTAL ILLNESS. (4 Credits)
Focuses on how social and cultural context impact mental health, and how the very concepts of mental illness, abnormal or crazy are constructed in the first place, then applied by both “mental health” professionals and persons in their everyday lives. Examines major social models of “mental illness,” aiming to understand and evaluate their basic concepts and assumptions, as well as the response to “mental illness,” including how family, friends, troubled persons and professionals interpret, define and respond to “mental illness” and the processes shaping the policies and practices of the mental health enterprise.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

SOC 355. DEATH AND DYING. (4 Credits)
An overview of cross-cultural and historical attitudes and practices around end of life, death and dying. Assessment of contemporary legal, professional, cultural and technological issues surrounding end of life/ death and dying.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 360. *POPULATION TRENDS AND POLICY. (4 Credits)
Basic socio-demographic factors affecting population size, distribution, composition and change; examination of local, national, and international trends, and demographic policy. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 371. *SOCIAL MEDIA AND EVERYDAY LIFE. (4 Credits)
Examines key concepts, themes, and theories in the study of social media in today’s world. Interconnected themes include communication and the public sphere, self representation, power, and new technologies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

SOC 372. *POPULAR CULTURE. (4 Credits)
Critical examination of contemporary popular culture from a sociological perspective. Debates in the field of cultural sociology, including a critique of the distinction between 'high' and 'low' forms of culture, the social distinction between work and leisure time, the influence of society on individual patterns of consumption and personal taste, and the sociology of everyday life. Specific topics include mass media, sports, leisure activities, fashion, youth culture, science fiction, music, talk shows, soap operas, internet chat rooms, personal ads, home shopping, and folklore.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

SOC 381. SOCIAL DIMENSIONS OF SUSTAINABILITY. (4 Credits)
Exploration of the social forces driving current views of sustainability. Specific attention will be given to values and belief systems, as well as social institutions in shaping sustainability issues related to ecologically sound, socially just, and economically viable outcomes.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 399. SPECIAL TOPICS. (1-16 Credits)
Selected topics of special or current interest not covered in other courses.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
Equivalent to: SOC 399H
This course is repeatable for 16 credits.

SOC 399H. SPECIAL TOPICS. (1-16 Credits)
Selected topics of special or current interest not covered in other courses.
Attributes: HNRS – Honors Course Designator
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
Equivalent to: SOC 399
This course is repeatable for 16 credits.

SOC 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 407. SEMINAR. (1-16 Credits)
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
This course is repeatable for 16 credits.

SOC 410. INTERNSHIP. (1-16 Credits)
This course is repeatable for 30 credits.

SOC 412. SOCIOLOGY OF WORK AND FAMILY. (4 Credits)
Survey of the intersections between families and work; variations in family structure, policies and paid and unpaid work in the United States; interdependence between paid and unpaid family labor and broader social change.

SOC 413. SOCIOLOGICAL THEORY. (4 Credits)
Historical and philosophical foundations of sociological theory; major schools of thought and their major contributors.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
SOC 418. QUALITATIVE RESEARCH METHODS. (4 Credits)
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 422. SOCIOLOGY OF ORGANIZATIONS. (4 Credits)
Introduces sociological thinking about organizations in contemporary society with an emphasis on exploring the range of frameworks used to think about and explain modern organizations; applies knowledge to specific contemporary organizations.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 424. SOCIAL PSYCHOLOGY. (4 Credits)
Examines individuals in social context; explores dynamics of interpersonal relationships; evaluates link between self and society, including concepts of role/status/identity. Contemporary research design, problems, and findings pertinent to social psychology.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 426. *SOCIAL INEQUALITY. (4 Credits)
Evolution of social inequality in society. Emphasis upon the causes and consequences of inequality in power, privilege, and prestige in human societies, with special attention to the United States. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 430. GENDER AND SOCIETY. (4 Credits)
Examination of nature and consequences of social differentiation and stratification on the basis of sex and gender. Analysis of social position of women and men in society, focusing on their positions in institutional areas such as the family, politics, work and education. Evaluation of theories of biological, psychological, and sociological bases for the behavior and characteristics of women and men.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better or SOC 205 with D- or better or SOC 206 with D- or better

SOC 432. SOCIOLOGY OF AGING. (4 Credits)
Examination of the social significance of age, position and problems of the elderly in society; discusses the societal and individual consequences of an aging population; explores social theories of aging.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better or SOC 205 with D- or better or SOC 206 with D- or better

SOC 437. RACE AND ETHNIC RELATIONS. (4 Credits)
Comparative/international perspective on the social construction of race and ethnicity. Social, economic and political experiences of selected groups in the U.S. and other countries are examined.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 438. US IMMIGRATION ISSUES IN THE 21ST CENTURY. (4 Credits)
Provides a critical overview of immigration to the United States from a socio-historic perspective. Examines how successive waves of immigrants have influenced American society from the earliest groups of Europeans in the 19th century to the most recently arriving immigrants from Asia, Latin America and the Caribbean.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 439. WELFARE AND SOCIAL SERVICES. (4 Credits)
Analysis of social, political, and economic forces affecting welfare and social service systems, with overview of current programs, policy issues, public opinions, occupational aspects and societal impacts.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better or SOC 205 with D- or better or SOC 206 with D- or better

SOC 440. JUVENILE DELINQUENCY. (4 Credits)
Contemporary research and theories of juvenile delinquency. Review and evaluation of various strategies and programs designed to prevent delinquency or for treatment of delinquents.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 441. CRIMINOLOGY AND PENOLOGY. (4 Credits)
Review of sociological perspectives on crime and criminal justice, with emphasis upon North America. Review of crime statistics, types of crime, theories of criminality, corrections programs and prisons, and programs to reduce crime.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 442. SOCIOLOGY OF DRUG USE AND ABUSE. (4 Credits)
Emphasizes a sociological understanding of drug use, drug problems and drug policy. In order to understand drug use and abuse it is necessary to understand the chemical properties of the substances at issue, the attributes of the people who use and abuse drugs, and the norms and characteristics of the society in which the substance use occurs.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 444. INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION. (4 Credits)
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Prerequisites: SOC 204 with C or better
Equivalent to: SOC 444H

SOC 444H. INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION. (4 Credits)
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Attributes: HNRS – Honors Course Designator
Prerequisites: SOC 204 with C or better
Equivalent to: SOC 444

SOC 448. LAW AND SOCIETY. (4 Credits)
An introduction to social scientific approaches to law, covering major topics in the area. Topics may include digesting, legal consciousness, social movements and law, punishment, legal actors, and legal institutions.
Recommended: (SOC 204 or SOC 204H) with minimum grade of D-

SOC 449. LAW, CRIME, AND POLICY. (4 Credits)
Surveys criminal justice policies aimed at enforcing laws, reducing crime, punishing violators, and rehabilitating ex-offenders. Interrogates the behavioral assumptions used in creating and evaluating policies. Examines specific crimes and the policies used to address them.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better
SOC 450. SOCIOLOGY OF EDUCATION. (4 Credits)
Contemporary perspectives and research on schools, students, teachers and social forces affecting the educational system. Review of comparative and evaluation research on alternative educational strategies and programs. Overview of the literature of educational critics.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 452. SOCIOLOGY OF RELIGION. (4 Credits)
Social patterns within U.S. religious groups, relation of religious groups to society, and the methodological problems in studying such groups.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 453. SOCIOLOGY OF SPORT. (4 Credits)
Critical analysis of sport. Examines sport socialization; deviance; violence; gender; race/ethnicity; professional sport careers; intercollegiate athletics; marriage/family; and the media.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 454. *LEISURE AND CULTURE. (4 Credits)
Examination of the social, cultural, and global significance of leisure activity (in particular, tourism and recreation) from a historical perspective relative to attitudes, values, behaviors, and use of natural resources. (SS) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACS – Liberal Arts Social Core
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 456. *SCIENCE AND TECHNOLOGY IN SOCIAL CONTEXT. (4 Credits)
Study of social aspects of science and technology (values, practices, organization, impacts) by analysis of issues revealing their relationship to other social and cultural processes. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 460. THE SOCIOLOGY OF GLOBALIZATION. (4 Credits)
Examines the sociological effect of globalization on Western and non-Western societies. The course focuses on changes in the global economy and how this has influenced the social structure, patterns of change, and mutual influences among societies. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 466. INTERNATIONAL DEVELOPMENT: GENDER ISSUES. (4 Credits)
Examines roles and statuses of women and men throughout the world and differential impact of development on men and women. Evaluates traditional development policies and programs and discusses theories of gender stratification and of modernization. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 470. COLLECTIVE BEHAVIOR. (4 Credits)
Examines current theories; focuses on behavior in crowds and diverse social settings including fads/fashions, ecstatic crowds/miracles, natural/technological disasters, urban legends, collective delusions/mass hysteria, protest/demonstrations, riots/mobs.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 471. *SOCIAL MOVEMENTS. (4 Credits)
Introduces core theoretical and methodological issues related to social movements in the US and abroad. Emphasizes social forces giving rise to movements, tactics employed by movements, and impacts of them on society.
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 472. GIVING AND VOLUNTARIISM. (4 Credits)
Examines concepts of donor motivation, giving, charity, voluntarism, philanthropy, and the nonprofit sector through the analysis of gender roles, ethnicity, power, status, and social institutions.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 475. RURAL SOCIOLOGY. (4 Credits)
Helps students understand the rich diversity in rural society, with an emphasis on the interdependencies between urban and rural contexts. Current issues and social problems experienced by rural populations and how sociology is used to understand and address issues affecting rural communities are explored.
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 480. *ENVIRONMENTAL SOCIOLOGY. (4 Credits)
Explores the evolution of environmental thought, paradigm shifts, and institutional structures associated with environmental concerns, social movements, and social impacts. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 481. *SOCIETY AND NATURAL RESOURCES. (4 Credits)
Explores the complex interrelationships between humans and natural resources, emphasizing how management decisions and organizations are enmeshed in social and cultural contexts. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisites: SOC 204 with D- or better or SOC 204H with D- or better

SOC 499. SPECIAL TOPICS. (1-16 Credits)
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Equivalent to: SOC 490, SOC 499H
This course is repeatable for 16 credits.

SOC 499H. SPECIAL TOPICS. (1-16 Credits)
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 499
This course is repeatable for 16 credits.

SOC 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

SOC 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

SOC 510. INTERNSHIP. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.
SOC 512. SOCIOLOGY OF WORK AND FAMILY. (4 Credits)
Survey of the intersections between families and work; variations in family structure, policies and paid and unpaid work in the United States; interdependence between paid and unpaid family labor and broader social change.
Recommended: SOC 204 or SOC 204H

SOC 513. SOCIOCY TOGY THEORY. (4 Credits)
Historical and philosophical foundations of sociological theory; major school of thought and their major contributors.
Recommended: SOC 204 or SOC 204H

SOC 515. UNDERSTANDING SOCIAL RESEARCH. (4 Credits)
Study of basic concepts and principles of qualitative and quantitative social research, including selection of general strategies and specific designs, conceptual and operational measurement, sample selection, data collection, data processing and analysis techniques, interpretation and reporting. Utilizes reports of social research in scholarly journals, popular media, and agency documents. Emphasis on critical evaluation and interpretation.
Equivalent to: PPOL 521

SOC 518. QUALITATIVE RESEARCH METHODS. (4 Credits)
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.
Equivalent to: PPOL 523
Recommended: SOC 204 or SOC 204H

SOC 522. SOCIOLOGY OF ORGANIZATIONS. (4 Credits)
Introduces sociological thinking about organizations in contemporary society with an emphasis on exploring the range of frameworks used to think about and explain modern organizations; applies knowledge to specific contemporary organizations.
Recommended: SOC 204 or SOC 204H

SOC 524. SOCIAL PSYCHOLOGY. (4 Credits)
Examines individuals in social context; explores dynamics of interpersonal relationships; evaluates link between self and society, including concepts of role/status/identity. Contemporary research design, problems, and findings pertinent to social psychology.
Recommended: SOC 204 or SOC 204H

SOC 526. SOCIAL INEQUALITY. (4 Credits)
Evolution of social inequality in society. Emphasis upon the causes and consequences of inequality in power, privilege, and prestige in human societies, with special attention to the United States.
Recommended: SOC 204 or SOC 204H

SOC 530. GENDER AND SOCIETY. (4 Credits)
Examination of nature and consequences of social differentiation and stratification on the basis of sex and gender. Analysis of social position of women and men in society, focusing on their positions in institutional areas such as the family, politics, work and education. Evaluation of theories of biological, psychological, and sociological bases for the behavior and characteristics of women and men.
Recommended: SOC 204 or SOC 204H

SOC 532. SOCIOLOGY OF AGING. (4 Credits)
Examination of the social significance of age, position and problems of the elderly in society; discusses the societal and individual consequences of an aging population; explores social theories of aging.
Recommended: SOC 204 or SOC 204H

SOC 537. RACE AND ETHNIC RELATIONS. (4 Credits)
Comparative/international perspective on the social construction of race and ethnicity. Social, economic and political experiences of selected groups in the U.S. and other countries are examined.
Recommended: SOC 204 or SOC 204H

SOC 538. US IMMIGRATION ISSUES IN THE 21ST CENTURY. (4 Credits)
Provides a critical overview of immigration to the United States from a socio-historic perspective. Examines how successive waves of immigrants have influenced American society from the earliest groups of Europeans in the 19th century to the most recently arriving immigrants from Asia, Latin America and the Caribbean.

SOC 539. WELFARE AND SOCIAL SERVICES. (4 Credits)
Analysis of social, political, and economic forces affecting welfare and social service systems, with overview of current programs, policy issues, public opinions, occupational aspects and societal impacts.
Recommended: SOC 204 or SOC 204H or SOC 205 or SOC 206

SOC 540. JUVENILE DELINQUENCY. (4 Credits)
Contemporary research and theories of juvenile delinquency. Review and evaluation of various strategies and programs designed to prevent delinquency or for treatment of delinquents.
Recommended: SOC 204 or SOC 204H

SOC 541. CRIMINOLOGY AND PENOLOGY. (4 Credits)
Review of sociological perspectives on crime and criminal justice, with emphasis upon North America. Review of crime statistics, types of crime, theories of criminality, corrections programs and prisons, and programs to reduce crime.
Recommended: SOC 204 or SOC 204H

SOC 542. SOCIOLOGY OF DRUG USE AND ABUSE. (4 Credits)
Emphasizes a sociological understanding of drug use, drug problems and drug policy. In order to understand drug use and abuse it is necessary to understand the chemical properties of the substances at issue, the attributes of the people who use and abuse drugs, and the norms and characteristics of the society in which the substance use occurs.

SOC 544. INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION. (4 Credits)
Course takes place in a state correctional facility, with OSU students learning alongside 'inside' students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Recommended: SOC 204

SOC 548. LAW AND SOCIETY. (4 Credits)
An introduction to social scientific approaches to law, covering major topics in the area. Topics may include disputing, legal consciousness, social movements and law, punishment, legal actors, and legal institutions.
Recommended: (SOC 204 or SOC 204H) with minimum grade of D-

SOC 549. LAW, CRIME, AND POLICY. (4 Credits)
Surveys criminal justice policies aimed at enforcing laws, reducing crime, punishing violators, and rehabilitating ex-offenders. Interrogates the behavioral assumptions used in creating and evaluating policies. Examines specific crimes and the policies used to address them.
Recommended: SOC 204 or SOC 204H
SOC 550. SOCIOLOGY OF EDUCATION. (4 Credits)
Contemporary perspectives and research on schools, students, teachers and social forces affecting the educational system. Review of comparative and evaluation research on alternative educational strategies and programs. Overview of the literature of educational critics.
Recommended: SOC 204 or SOC 204H

SOC 552. SOCIOLOGY OF RELIGION. (4 Credits)
Social patterns within U.S. religious groups, relation of religious groups to society, and the methodological problems in studying such groups.
Recommended: SOC 204 or SOC 204H

SOC 553. SOCIOLOGY OF SPORT. (4 Credits)
Critical analysis of sport. Examines sport socialization; deviance; violence; gender; race/ethnicity; professional sport careers; intercollegiate athletics; marriage/family; and the media.
Recommended: SOC 204 or SOC 204H

SOC 554. LEISURE AND CULTURE. (4 Credits)
Examination of the social, cultural, and global significance of leisure activity (in particular, tourism and recreation) from a historical perspective relative to attitudes, values, behaviors, and use of natural resources.
Recommended: SOC 204 or SOC 204H

SOC 556. SCIENCE AND TECHNOLOGY IN SOCIAL CONTEXT. (4 Credits)
Study of social aspects of science and technology (values, practices, organization, impacts) by analysis of issues revealing their relationship to other social and cultural processes.
Recommended: SOC 204 or SOC 204H

SOC 560. THE SOCIOLOGY OF GLOBALIZATION. (4 Credits)
Examines the sociological effect of globalization on Western and non-Western societies. The course focuses on changes in the global economy and how this has influenced the social structure, patterns of change, and mutual influences among societies.
Recommended: SOC 204 or SOC 204H

SOC 566. INTERNATIONAL DEVELOPMENT: GENDER ISSUES. (4 Credits)
Examines roles and statuses of women and men throughout the world and differential impact of development on men and women. Evaluates traditional development policies and programs and discusses theories of gender stratification and of modernization.
Recommended: SOC 204 or SOC 204H

SOC 570. COLLECTIVE BEHAVIOR. (4 Credits)
Examines current theories; focuses on behavior in crowds and diverse social settings including fads/fashions, ecstatic crowds/miracles, natural/technological disasters, urban legends, collective delusions/ mass hysteria, protest/demonstrations, riots/mobs.
Recommended: SOC 204 or SOC 204H

SOC 571. SOCIAL MOVEMENTS. (4 Credits)
Introduces core theoretical and methodological issues related to social movements in the US and abroad. Emphasizes social forces giving rise to movements, tactics employed by movements, and impacts of them on society.
Recommended: SOC 204 or SOC 204H

SOC 572. GIVING AND VOLUNTARISM. (4 Credits)
Examines concepts of donor motivation, giving, charity, voluntarism, philanthropy, and the nonprofit sector through the analysis of gender roles, ethnicity, power, status, and social institutions.
Recommended: SOC 204 or SOC 204H

SOC 575. RURAL SOCIOLOGY. (4 Credits)
Helps students understand the rich diversity in rural society, with an emphasis on the interdependencies between urban and rural contexts. Current issues and social problems experienced by rural populations and how sociology is used to understand and address issues affecting rural communities are explored.
Recommended: SOC 204 or SOC 204H

SOC 580. ENVIRONMENTAL SOCIOLOGY. (4 Credits)
Explores the evolution of environmental thought, paradigm shifts, and institutional structures associated with environmental concerns, social movements, and social impacts.
Recommended: SOC 204 or SOC 204H

SOC 581. SOCIETY AND NATURAL RESOURCES. (4 Credits)
Explores the complex interrelationships between humans and natural resources, emphasizing how management decisions and organizations are enmeshed in social and cultural contexts.
Recommended: SOC 204 or SOC 204H

SOC 599. SPECIAL TOPICS. (1-16 Credits)
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Equivalent to: SOC 590
This course is repeatable for 16 credits.
Recommended: SOC 204 or SOC 204H

SOC 808. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

Software Engineering (SE)

SE 199. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

SE 201. SOFTWARE DEVELOPMENT I. (4 Credits)
Introduction to collaborative software development of larger, object-oriented systems. Overview of software architecture, and the tools, principles and practice of modern software development.
Prerequisites: CS 162 with C or better

SE 299. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

SE 303. SOFTWARE ENGINEERING III. (4 Credits)
Introduction to refactoring techniques and improving the quality and maintainability of software. Applying continuous integration and deployment tools; containers and virtual development environments.
Prerequisites: CS 362 with C or better

SE 399. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

SE 467. BUSINESS OF SOFTWARE II. (4 Credits)
Become an entrepreneur. Start a real software business, from ideation to sales. Real-world, hands-on learning in a fast-paced startup environment. Development of product ideas, hypotheses, and business models to discover customers. Teamwork, management, and positioning for investment.
Prerequisites: CS 466 with C or better

SE 468. BUSINESS OF SOFTWARE III. (4 Credits)
Become an entrepreneur. Start a real software business, from ideation to sales. Real-world, hands-on learning in a fast-paced startup environment. Development of product ideas, hypotheses, and business models to discover customers. Teamwork, management, and positioning for investment.
Prerequisites: SE 467 with C or better
SE 499. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

**Soil Science (SOIL)**

**SOIL 101. INTRODUCTION TO CROP, SOIL, AND INSECT SCIENCE. (1 Credit)**
Introduces students with interests in crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. CROSSLISTED as CROP 101/ENT 101 / SOIL 101.
Equivalent to: CROP 101, ENT 101, HORT 101

**SOIL 199. SPECIAL TOPICS. (1-16 Credits)**
Equivalent to: SOIL 199H
This course is repeatable for 16 credits.

**SOIL 199H. SPECIAL TOPICS. (1-16 Credits)**
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 199
This course is repeatable for 16 credits.

**SOIL 205. SOIL SCIENCE. (3 Credits)**
Introduction to the chemical, physical and biological nature of soils. Examines how soils function in terms of plant growth, nutrient supply, the global carbon cycle, ecological habitat, and water purification. Community-based learning projects provide hands-on experience with fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec. (Bacc Core Course if taken with SOIL 206 or FOR 206)

Attributes: CPBL – Core, Pers, BioSci Attached Lec; CPPL – Core, Pers, PhySci Attached Lec
Prerequisites: SOIL 206 (may be taken concurrently) with D- or better or FOR 206 (may be taken concurrently) with D- or better
Equivalent to: CSS 205, CSS 305

**SOIL 206. *SOIL SCIENCE LABORATORY FOR SOIL 205. (1 Credit)**
Students will gain hands-on experience with soil science concepts and applications. Laboratory exercises and field trips will help students develop proficiency in the methods/tools for analyzing soil chemistry, biology, morphology, physical properties, and soil forming factors. Skills will be taught in the context of soils’ social, economic, and environmental importance. (Bacc Core Course if taken with SOIL 205)

Attributes: CPBS – Core, Pers, Biological Science; CPPS – Core, Pers, Physical Science
Corequisites: SOIL 205

**SOIL 299. SPECIAL TOPICS. (1-16 Credits)**
Equivalent to: SOIL 299H
This course is repeatable for 16 credits.

**SOIL 299H. SPECIAL TOPICS. (1-16 Credits)**
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 299
This course is repeatable for 16 credits.

**SOIL 316. NUTRIENT CYCLING IN AGROECOSYSTEMS. (4 Credits)**
Nutrient forms, transformations, and cycling. Diagnosis and correction of nutrient deficiencies, pH and salinity. Impact of nutrient management practices on crop production, soil health, nutrient use efficiency, and environmental quality. Organic and inorganic fertilization. Labs include soil sampling and testing procedures, data collection on soil and plants, computer applications for soil fertility management, and field trips. Lec/ lab.
Prerequisites: (CH 121 with D- or better or CH 231 with D- or better) and (SOIL 205 [C] or CSS 205 [C] or CSS 305 [C])
Equivalent to: CSS 316

**SOIL 360. SOIL MANAGEMENT FOR ORGANIC PRODUCTION. (3 Credits)**
This is a skills-based soil management course that is part lecture and part student-centered learning. Significant class time will be devoted to making field-scale management decisions. The course includes individual and group work, presentation, and discussion. The intent is to prepare students for real-world application of soil management decisions in certified organic systems. Using the National Organic Program as a starting point as well as farm system descriptions with extensive long-term data sets, we will interpret soil nutrient analyses, cover cropping systems, and organic amendments, to design soil management plans for two model cropping systems (annual and perennial).
Prerequisites: (SOIL 205 with C or better and (SOIL 206 [C] or FOR 206 [C]) or CSS 205 [C])
Recommended: Introductory soil science course with lab

**SOIL 366. ECOSYSTEMS OF WILDLAND SOILS. (3 Credits)**
Focuses on soils that occur in relatively undisturbed ecosystems such as forests and rangelands. Topics covered include properties and processes specific to understanding and managing the soil resource in these areas. An overview of US Soil Taxonomy will also be given.
Prerequisites: SOIL 205 with D- or better or CSS 205 with D- or better or CSS 305 with D- or better
Recommended: An understanding and appreciation of environmental chemistry, biology, ecology, and physics

**SOIL 388. SOIL SYSTEMS AND PLANT GROWTH. (4 Credits)**
Introduces soils as providers of critical resources for plant growth. Explains how soils supply water, air, thermal energy and nutrients to plants. Shows that sustainable management of soil resources requires substantial understanding of their role in the functioning of natural, forest, and agricultural systems. Explains controls on stocks and availabilities of individual soil resources and mechanisms making these resources plant-available.
Prerequisites: ((SOIL 205 with D- or better and (SOIL 206 [D-] or FOR 206 [D-]) or CSS 205 [D-]) and (CH 121 [D-] or CH 231 [D-]) and (BOT 220 [D-] or (BI 204 [D-] or BI 205 [D-]) or BI 206 [D-]) or (BI 211 [D-] or BI 212 [D-] or BI 213 [D-]))
SOIL 395. WORLD SOIL RESOURCES. (3 Credits)
The properties, global distribution, and agricultural productivity of major
world soil groups are described. Potentials for human-accelerated
soil degradation are introduced for each soil group, and reasons for
conflicting assessments of degradation are discussed. Offered via
Ecampus only. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC –
Core, Skills, WIC
Prerequisites: CH 121 with D- or better or CH 122 with D- or better or
CH 123 with D- or better or CH 201 with D- or better or CH 202 with D-
or better or CH 231 with D- or better or CH 231H with D- or better or CH 232
with D- or better or CH 232H with D- or better or CH 233 with D- or better
or CH 233H with D- or better
Equivalent to: CSS 395
Recommended: One term of chemistry

SOIL 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 401. RESEARCH. (1-16 Credits)
Equivalent to: CSS 401
This course is repeatable for 16 credits.

SOIL 403. THESIS. (1-16 Credits)
Independent, original study and preparation of a senior thesis.
Equivalent to: CSS 403
This course is repeatable for 16 credits.

SOIL 405. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: SOIL 405H
This course is repeatable for 16 credits.

SOIL 405H. READING AND CONFERENCE. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 405
This course is repeatable for 16 credits.

SOIL 407. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 408. WORKSHOP. (1-16 Credits)
Evaluation and judging of soils in Oregon and other states; directed
studies of soil morphology, soil survey, soil fertility, soil physics, soil
chemistry, soil biology, and soil information systems.
Equivalent to: CSS 408
This course is repeatable for 16 credits.

SOIL 409. PRACTICUM. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 410. INTERNSHIP. (1-6 Credits)
Professional work experience previously approved and supervised by the
department, written report required.
Equivalent to: CSS 410
This course is repeatable for 12 credits.

SOIL 435. ENVIRONMENTAL SOIL PHYSICS. (3 Credits)
Covers principles of soil physical properties and processes as they relate
to agricultural, hydrological and environmental problems. Lec/lab. Offered
odd years.
Prerequisites: CSS 205 with D- or better or CSS 305 with D- or better or
SOIL 205 with D- or better
Equivalent to: CSS 435
Recommended: CH 123 and MTH 241 and PH 201

SOIL 445. ENVIRONMENTAL SOIL CHEMISTRY. (3 Credits)
Structural chemistry of clay minerals and organic matter, cation and
anion exchange, and soil solution equilibria of soils. Ion exchange,
mineral-solution equilibria, and adsorption reactions of silicate clays,
oxides, and organic matter are emphasized. Covers the sorption behavior
of environmental contaminants and the weathering reactions that govern
the transport of reactive solutes through soils. Lec/rec. Offered odd
years.
Equivalent to: CSS 445

SOIL 455. BIOLOGY OF SOIL ECOSYSTEMS. (4 Credits)
A detailed study of the organisms that live in the soil and their activities
in the soil ecosystems, soil as a habitat for organisms, taxonomy and
biology of soil organisms, fundamentals of nutrient cycles, special topics
in soil biology, review basis of soil microbial and ecological principles.
Lec/rec/lab.
Equivalent to: CSS 455
Recommended: (CSS 305 or CSS 205 or SOIL 205). Courses in chemistry,
physics, and microbiology

SOIL 466. SOIL MORPHOLOGY AND CLASSIFICATION. (4 Credits)
Observation and description of soil properties in the field; writing soil
profile descriptions; evaluating criteria that define features used to
classify soils; using soil classification keys. Lec/lab.
Prerequisites: SOIL 205 with D- or better or CSS 205 with D- or better or
CSS 305 with D- or better
Equivalent to: CSS 466

SOIL 468. SOIL LANDSCAPE ANALYSIS. (4 Credits)
Principles of soil geomorphology, soil stratigraphy, and surficial
processes as applied to understanding the soil system and landscape
scales. Emphasis on field observations of soils, geomorphic surfaces,
and environment. Field project entails design of soil survey map units,
field mapping and GIS cartographic techniques. Lec/lab. Offered even
years.
Prerequisites: SOIL 466 (may be taken concurrently) with D- or better or
CSS 466 (may be taken concurrently) with D- or better
Equivalent to: CSS 468

SOIL 499. SPECIAL TOPICS. (1-16 Credits)
Equivalent to: SOIL 499H
This course is repeatable for 16 credits.

SOIL 499H. SPECIAL TOPICS. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 499
This course is repeatable for 16 credits.

SOIL 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 503. THESIS/DISSERTATION. (1-16 Credits)
This course is repeatable for 999 credits.

SOIL 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.
SOIL 508. WORKSHOP. (1-16 Credits)
Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems.
Equivalent to: CSS 508
This course is repeatable for 16 credits.

SOIL 509. PRACTICUM IN TEACHING. (1-3 Credits)
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509/ENT 509/ PBG 509/SOIL 509.
Equivalent to: CROP 509, ENT 509, PBG 509
This course is repeatable for 9 credits.

SOIL 510. INTERNSHIP. (1-6 Credits)
Professional work experience previously approved and supervised by the department, written report required.
This course is repeatable for 6 credits.

SOIL 511. SOIL: A NATURAL AND SOCIETAL RESOURCE. (3 Credits)
Serves degree- and non-degree-seeking graduate learners wanting soil science knowledge but having minimal science background.
Understanding soil physical, chemical, and biological properties promotes informed soil management while supporting individual to global societal values. Established curriculum facilitates graduate degrees or certificates, continuing education, professional certification, and self-improvement goals. A highly interactive social media framework supports weekly student-student and instructor-student learning interactions.

SOIL 512. METHODS OF SOIL ANALYSIS - FIELD. (1 Credit)
Recognition and quantitative description of soil properties in agroecosystems. Assessments of soil environments used for crop production in Oregon. Demonstration and practice of volumetric and bulk soil sampling techniques as well as the application of pedotransfer functions. Each participant will be responsible for analyzing at least one soil sample in the chemical level. Five-day duration with four overnight stays at campgrounds. Participants will use their own or borrowed camping equipment.
Recommended: SOIL 205 with a minimum grade of C

SOIL 514. METHODS OF SOIL ANALYSIS - LABORATORY. (2 Credits)
Provide the theoretical background, as well as practical experience needed to plan, select, execute, and interpret soil chemical and physical analyses such as those typically used for nutrient management recommendations. Individual and group activities involve classroom presentations, as well as hands-on work in a teaching laboratory. Samples processed are those collected in SOIL 512, Methods of Soil Analysis - Field. Duration is five full work days.
Prerequisites: SOIL 512 (may be taken concurrently) with C or better
Recommended: SOIL 205 and successful completion of EH&S Laboratory

SOIL 515. SOIL FERTILITY MANAGEMENT. (3 Credits)
Management of plant nutrients in agronomic systems; diagnosis of nutrient availability and prediction of crop response to fertilizers; interactions between nutrient response and chemical, physical and biological properties of soils.
Equivalent to: CSS 515
Recommended: CSS 315 and courses in statistics, chemistry and plant physiology.

SOIL 523. PRINCIPLES OF STABLE ISOTOPES. (3 Credits)
An introduction to the theory and use of stable isotopes. Applications of stable isotopes to soil science, plant physiology, hydrology, and ecosystem studies. Offered even years.
Equivalent to: CSS 523

SOIL 525. MINERAL-ORGANIC MATTER INTERACTIONS. (3 Credits)
Studies the fundamental properties of the mineral-organic interface and the mechanisms of interaction between mineral and organic soil properties.
Equivalent to: CSS 525
Recommended: CSS 305 or CSS 205 or SOIL 205

SOIL 530. ORGANIC SOIL AND CROP MANAGEMENT. (3 Credits)
Overview of organic soil and crop management, organic soil system management, soil microbiology under organic systems, cropping systems, organic cereal production systems, organic forage production system, organic horticultural systems management, organic field and horticulture cropping systems; recent research and case studies. CROSSLISTED as CROP 530/SOIL 530.
Equivalent to: CROP 530
Recommended: (SOIL 525, CROP 200 and SOIL 205 or introductory biology) and completion or concurrent enrollment in AGRI 520

SOIL 535. SOIL PHYSICS. (3 Credits)
Theoretical elements of soil physical properties and processes related to agricultural, hydrological and environmental problems. Offered fall term in even years.
Equivalent to: CSS 535
Recommended: CSS 305, CSS 205, SOIL 205, MTH 241, CH 123, PH 201

SOIL 536. VADOSE ZONE HYDROLOGY LABORATORY. (1 Credit)
Experimental elements of soil physical properties and processes allowing practical experience in the measurement and analysis of soil physical processes related to agricultural, hydrological and environmental problems. Weekly laboratory. Offered even years.
Equivalent to: CSS 536
Recommended: CH 123 and PH 201

SOIL 545. ENVIRONMENTAL SOIL CHEMISTRY. (3 Credits)
Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.
Equivalent to: CSS 545

SOIL 547. NUTRIENT CYCLING. (3 Credits)
Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as BOT 547/SOIL 547.
Equivalent to: BOT 547, FS 547
Recommended: College-level chemistry and biology and one class in ecology (eg. BI 370) and/or soils (eg. SOIL 205)
SOIL 555. BIOLOGY OF SOIL ECOSYSTEMS. (4 Credits)
A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/rec/lab.
Equivalent to: CSS 555
Recommended: CSS 305 or CSS 205 or SOIL 205. Courses in chemistry, physics, and microbiology

SOIL 556. SOIL MORPHOLOGY AND CLASSIFICATION. (4 Credits)
Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab.
Equivalent to: CSS 566
Recommended: CSS 305 or CSS 205 or SOIL 205

SOIL 566. SOIL LANDSCAPE ANALYSIS. (4 Credits)
Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system at landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered odd years.
Prerequisites: CSS 566 (may be taken concurrently) with C or better or SOIL 566 (may be taken concurrently) with C or better
Equivalent to: CSS 568

SOIL 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 601. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 603. THESIS/DISSERTATION. (1-16 Credits)
This course is repeatable for 999 credits.

SOIL 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 606. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

SOIL 609. PRACTICUM IN TEACHING. (1-3 Credits)
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded P/N.
Equivalent to: CROP 609, ENT 609, PBG 609
This course is repeatable for 9 credits.

SOIL 635. ADVANCED SOIL PHYSICS. (3 Credits)
Explores theoretical development of a key topic in soil physics. Topics may include evaporation from porous media, multiphase fluid movement, soil deformation, and soil salinization, with respect to either historical development, present day understanding or future needs of the field. Course structure incorporates lectures and discussion requiring intensive student participation. Offered odd years.
Prerequisites: CSS 535 with C or better or SOIL 535 with C or better
Recommended: A working knowledge of soil physics and a passing grade in a graduate-level soil physics course

SOIL 645. SOIL MICROBIAL ECOLOGY. (3 Credits)
An advanced treatment of current topics in soil microbiology, with an emphasis on the ecology of soil microorganisms. Topics include the size, composition, diversity, and activity of soil microbial communities, linkage of microbial community structure to ecosystem functions, and applications of molecular biology to soil microbiology. Offered even years.
Equivalent to: CSS 645
Recommended: SOIL 455 or CSS 455 or MB 448

SOIL 684. GLOBAL BIOGEOCHEMICAL CYCLES. (4 Credits)
An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. CROSSLISTED as GEO 684/ SOIL 684.
Equivalent to: GEO 684
Recommended: One year of college-level physics and chemistry, including introductory biology. One year of graduate coursework in soil, earth, ocean, atmospheric or forest science

SOIL 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

Spanish (SPAN)

SPAN 111. FIRST-YEAR SPANISH. (4 Credits)
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers will not receive credit for SPAN 111, SPAN 112, SPAN 113. Lec/rec.

SPAN 112. FIRST-YEAR SPANISH. (4 Credits)
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers may not receive credit for SPAN 111, SPAN 112, SPAN 113. Lec/rec.
Prerequisites: SPAN 111 (may be taken concurrently) with D- or better or placement test

SPAN 113. FIRST-YEAR SPANISH. (4 Credits)
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers may not receive credit for SPAN 111, SPAN 112, SPAN 113. Lec/rec.
Prerequisites: SPAN 112 with D- or better or placement test

SPAN 117. FIRST-YEAR SPANISH-COMPLETE SEQUENCE. (12 Credits)
Introduction to Spanish. Listening, speaking, reading, and writing skills developed. Students must take all twelve credits. Entire first-year sequence in eight weeks.
Equivalent to: SPAN 111, SPAN 112, SPAN 113

SPAN 188. HISPANIC STUDIES, HISPANIC STUDY CENTERS. (1-12 Credits)
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises); Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.

SPAN 199. SPECIAL STUDIES. (1-3 Credits)
May be repeated for a maximum of 3 credits.
This course is repeatable for 9 credits.

SPAN 211. SECOND-YEAR SPANISH. (4 Credits)
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers will not receive credit for SPAN 211, SPAN 212, SPAN 213.
Prerequisites: SPAN 113 with D- or better or placement test
SPAN 212. SECOND-YEAR SPANISH. (4 Credits)
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers may not receive credit for SPAN 211, SPAN 212, SPAN 213.
Prerequisites: SPAN 211 with D- or better or placement test

SPAN 213. SECOND-YEAR SPANISH. (4 Credits)
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers may not receive credit for SPAN 211, SPAN 212, SPAN 213. Completion if SPAN 213 with a grade of C- or better satisfies BA requirement for foreign languages.
Prerequisites: SPAN 212 with D- or better or placement test

SPAN 214. SECOND-YEAR SPANISH FOR NATIVE SPEAKERS. (4 Credits)
Designed for native speakers who learned Spanish in a home environment. Introduction to written Spanish.
Recommended: SPAN 215

SPAN 215. SECOND-YEAR SPANISH FOR NATIVE SPEAKERS. (4 Credits)
Designed for native speakers who learned Spanish in a home environment. Introduction to written Spanish.
Recommended: SPAN 214

SPAN 217. SECOND-YEAR SPANISH-COMPLETE SEQUENCE. (12 Credits)
Intermediate Spanish. Listening, speaking, reading, and writing skills developed. Students must take all 12 credits. Entire second-year sequence in eight weeks.
Recommended: SPAN 113 or SPAN 117

SPAN 221. SPANISH FOR MEDICAL PROFESSIONS I. (4 Credits)
Provides students in health science and pre-professional disciplines with a working knowledge of Spanish used in health sciences and cultural competency needed to serve Latino populations.
Prerequisites: SPAN 113 with C- or better

SPAN 222. SPANISH FOR MEDICAL PROFESSIONS II. (4 Credits)
Provides students in health science and pre-professional disciplines with a working knowledge of Spanish used in health sciences and cultural competency needed to serve Latino populations.
Prerequisites: SPAN 221 with C- or better

SPAN 236. *CONTEMPORARY LATIN AMERICAN CULTURE. (3 Credits)
Students will examine the main currents of modern Latin American culture since the beginning of the 20th century. Key subjects covered include the mural movement, ‘magical realism’ in postwar literature, syncretism in the region’s music and religion, and environmentalism in literature and the arts. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

SPAN 237. *U.S. LATINO/A IDENTITIES AND CULTURES. (3 Credits)
An introduction to past and contemporary experiences of Latinos/as in the U.S. related to patterns of (im)migration as well as sociohistorical and political events that have shaped U.S. Latino identities. In addition, the course will explore the current social, political, economic and cultural status and experiences of Latinos/as in different regions of the United States. (Taught in English) (Bacc Core Course)
Attributes: CPDC – Core, Pers, Cult Diversity

SPAN 288. HISPANIC STUDIES, HISPANIC STUDY CENTERS. (1-12 Credits)
Section 1: Topics, Hispanic language; Section 2: Practical work (exercises); Section 3: Topics, Hispanic arts and letters; Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 299. SPECIAL STUDIES. (1-3 Credits)
This course is repeatable for 9 credits.

SPAN 311. ADVANCED SPANISH GRAMMAR. (3 Credits)
Students further develop language skills acquired in earlier courses while studying more complex structural aspects of the language through the application of grammar concepts in composition and other language tasks.
Prerequisites: SPAN 213 with C- or better or placement test
Equivalent to: SPAN 314

SPAN 312. INTERMEDIATE WRITING SKILLS. (3 Credits)
Focuses on written communication in Spanish. Authentic texts are used to identify writing processes and products and see how composition is informed by cultural considerations. Special attention will be paid to the author’s purpose and the distinctiveness of the target audience. Students will create original written works and reinforce oral communication skills through class discussions.
Prerequisites: SPAN 213 with C- or better or placement test
Equivalent to: SPAN 314

SPAN 313. SPANISH LANGUAGE THROUGH CULTURE. (3 Credits)
Development of Spanish language through an exploration of cultural products, perspectives and practices of Spanish-speaking communities around the world.
Equivalent to: SPAN 316
Recommended: SPAN 213

SPAN 314. THIRD-YEAR SPANISH FOR NATIVE SPEAKERS. (3 Credits)
Extensive practice in reading, writing, and speaking; refinement of spelling, grammar and vocabulary within a dynamic cultural context. Native speakers should take SPAN 314, SPAN 315, SPAN 316 instead of SPAN 311, SPAN 312, SPAN 313; credit is not allowed for both.
Equivalent to: SPAN 315
Recommended: SPAN 216

SPAN 315. THIRD-YEAR SPANISH FOR NATIVE SPEAKERS. (3 Credits)
Extensive practice in reading, writing, and speaking; refinement of spelling, grammar and vocabulary within a dynamic cultural context. Native speakers should take SPAN 314, SPAN 315, SPAN 316 instead of SPAN 311, SPAN 312, SPAN 313; credit is not allowed for both.
Equivalent to: SPAN 316
Recommended: SPAN 317

SPAN 316. THIRD-YEAR SPANISH FOR NATIVE SPEAKERS. (3 Credits)
Extensive practice in reading, writing, and speaking; refinement of spelling, grammar and vocabulary within a dynamic cultural context. Native speakers should take SPAN 314, SPAN 315, SPAN 316 instead of SPAN 311, SPAN 312, SPAN 313; credit is not allowed for both.
Equivalent to: SPAN 317
Recommended: SPAN 315

SPAN 317. DIRECTED READING AND WRITING IN SPANISH. (3 Credits)
Emphasis on reading comprehension and improving writing ability. Students will build on their language skills and cultural awareness using different forms of literary expression from the Spanish-speaking world.
Equivalent to: SPAN 327
Recommended: 9 credits of upper-division Spanish
SPAN 318. INTRODUCTION TO SPANISH LANGUAGE LITERATURE. (3 Credits)
Provides the literary background and analytical tools for students to discuss Spanish language literature with some depth and prepares students for more advanced literature courses. Some discussion of Latin American and Spanish history, politics and culture will provide a context for the readings.
Recommended: 9 credits of upper-division Spanish

SPAN 319. SPANISH FOR BUSINESS. (3 Credits)
Recommended: SPAN 312

SPAN 320. SPANISH CONVERSATION. (3 Credits)
Extensive listening and speaking practice in Spanish, and systematic contact with Latin culture. Emphasis on vocabulary, pronunciation, intonation, and comprehension. Native speakers of Spanish are not eligible to take this course. May be used to satisfy requirements for the major or minor.
Recommended: 6 credits of upper-division Spanish.

SPAN 327. MEXICAN-AMERICAN LITERATURE AND COMPREHENSIVE FOR SPANISH HERITAGE LANGUAGE LEARNERS. (3 Credits)
Combines the study of fiction, drama, and poetry in Spanish language produced by people of Mexican origin in what is today the United States, with intensive practice in the writing of formal Spanish. Students are encouraged to develop their independent thinking and analytical ability. Designed for students from a Spanish-speaking background.
Equivalent to: SPAN 317
Recommended: SPAN 316

SPAN 331. *THE CULTURES OF SPAIN AND PORTUGAL. (3 Credits)
Historical development of the cultures and societies of the Iberian Peninsula. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 332. *THE CULTURES OF SPAIN AND PORTUGAL. (3 Credits)
Historical development of the cultures and societies of the Iberian Peninsula. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 333. CULTURES OF SPAIN AND PORTUGAL. (3 Credits)
Historical development of the cultures and societies of today's Iberian Peninsula. Taught in Spanish.
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 336. *LATIN AMERICAN CULTURE. (3 Credits)
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 337. *LATIN AMERICAN CULTURE. (3 Credits)
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 338. *LATIN AMERICAN CULTURE. (3 Credits)
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 339. MEXICAN IMMIGRANT EXPERIENCE IN THE UNITED STATES. (3 Credits)
An interdisciplinary analysis of the immigration from Mexico to the United States. It will include discussions of literary, cultural and political accounts. Emphasis on the development of presentational communication skills in Spanish. Taught in Spanish.
Recommended: 12 credits from SPAN 314, SPAN 315, SPAN 316, SPAN 317, SPAN 318, SPAN 331, SPAN 332, SPAN 336, SPAN 337, SPAN 338.

SPAN 344. SELECTED TOPICS IN LITERATURE. (3 Credits)
Taught in Spanish. May be repeated for credit when topic varies. This course is repeatable for 9 credits.
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 350. PHONETICS AND PRONUNCIATION. (3 Credits)
An exploration of the organs of speech and hearing, acoustic analysis, and transcription of native and learner Spanish speech samples.
Recommended: 3 credits of upper-division Spanish.

SPAN 351. HISPANIC LINGUISTICS. (3 Credits)
Recommended for teacher certification.
Recommended: SPAN 350

SPAN 379. PROCTOR EXPERIENCE. (1 Credit)
Supervised practicum for advanced students, with assignments as proctors or tutors in lower-division Spanish language courses. No more than 2 credits may be used to satisfy degree requirements for a major in Spanish; no credit may be used to satisfy requirements for a minor in Spanish. Graded P/N.
This course is repeatable for 3 credits.
Recommended: Completion of 21 upper-division credits in Spanish with a minimum 3.00 GPA.

SPAN 388. HISPANIC STUDIES, HISPANIC STUDY CENTERS. (1-12 Credits)
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises). Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.
**SPAN 402. INDEPENDENT STUDY. (1-16 Credits)**

*This course is repeatable for 16 credits.*

**SPAN 403. THESIS. (1-16 Credits)**

*This course is repeatable for 16 credits.*

**SPAN 405. READING AND CONFERENCE. (1-16 Credits)**

*This course is repeatable for 16 credits.*

**SPAN 407. SEMINAR. (1-16 Credits)**

*This course is repeatable for 16 credits.*

**SPAN 410. INTERNSHIP. (1-15 Credits)**

*This course is repeatable for 15 credits.*

**SPAN 411. SPECIALIZED GRAMMAR OR LINGUISTICS TOPICS. (3 Credits)**

Students develop an in-depth knowledge of various linguistic aspects of Spanish, particularly in regard to problematic grammatical structures and the development of writing proficiency. The main focus is on integrating a thorough understanding of grammatical structures into writing using selected literary works as models. Students analyze their own linguistic progress and apply this meta-knowledge to their writing.

*Recommended: 18 credits of upper-division Spanish.*

**SPAN 412. ADVANCED COMPOSITION. (3 Credits)**

Emphasis on creative writing. Students will read and discuss a series of stories with the same theme, then write their own. The subjunctive and other advanced grammar topics will be reviewed and incorporated into the writing activities. Taught in Spanish.

*Recommended: 18 credits of upper-division Spanish*

**SPAN 413. ADVANCED COMMUNICATION SKILLS. (3 Credits)**

Contextualized exploration of skills outlined in the National Standards Project’s.

*Recommended: 18 credits of upper-division Spanish*

**SPAN 435. SPECIAL TOPICS IN LATIN AMERICAN CULTURE. (3 Credits)**

Historical and contemporary aspects of the cultures of Latin America. May include material relevant to Spain and U.S. Latinos. May be repeated for credit when topic varies.

*This course is repeatable for 9 credits.*

*Recommended: 18 credits of upper-division Spanish*

**SPAN 438. *SELECTED TOPICS IN LUSO-HISPANIC CULTURE. (3 Credits)**

Contemporary aspects of the cultures of Spain, Portugal, or Latin America with a cross-cultural perspective. Topics and language of instruction vary. May be repeated for credit when topic varies.

*Writing Intensive Course*

*Attributes: CWIC – Core, Skills, WIC This course is repeatable for 9 credits.*

*Recommended: Completion of 6 credits from SPAN 331, SPAN 332, SPAN 333, SPAN 336, SPAN 337, SPAN 338.*

**SPAN 439. TOPICS IN MEXICAN CULTURE AS EVIDENCED THROUGH MEXICAN FILM. (3 Credits)**

Critical analysis and evaluation of films as cultural texts that open up a window into Mexican society. Movies with strong sexual content, explicit violence, language, and/or drug use will be viewed in the class. Taught in Spanish with some readings in English. May be repeated for credit when topic varies. Not offered every year.

*This course is repeatable for 9 credits.*

*Recommended: Completion of 12 credits from SPAN 316, SPAN 317, SPAN 318, SPAN 331, SPAN 332, SPAN 333, SPAN 336, SPAN 337, SPAN 338, SPAN 339, SPAN 411, SPAN 412, SPAN 413 with a minimum grade of B-.

**SPAN 441. CONTEMPORARY SHORT STORY. (3 Credits)**

An exploration and comparison of the short story in its various manifestations across the Spanish-speaking world in the 20th and 21st centuries. Themes such as identity, discrimination, class conflict, language, power, resistance, and marginalization will be analyzed within the socio-historical contexts in which the literary works were created.

*Recommended: At least 12 credits of upper-division Spanish.*

**SPAN 444. SELECTED TOPICS IN THE LITERATURE OF SPAIN. (3 Credits)**

Representative Spanish prose, poetry, and drama, with an emphasis on the 19th and 20th centuries. Taught in Spanish. See Schedule of Classes for current term offering. May be repeated for credit when topic varies. Not offered every year.

*This course is repeatable for 12 credits.*

*Recommended: Completion of 21 upper-division credits in Spanish.*

**SPAN 445. SELECTED TOPICS IN THE LITERATURE OF LATIN AMERICA. (3 Credits)**

Representative prose, poetry, and drama of Spanish America and/or Brazil, with an emphasis on the mid-19th century to the present. Topics and language of instruction may vary. See Schedule of Classes for current term offering. May be repeated for credit when topic varies. Not offered every year.

*This course is repeatable for 18 credits.*

*Recommended: Completion of 21 upper-division credits in Spanish.*

**SPAN 446. RECENT LATIN AMERICAN LITERATURE. (3 Credits)**

Recent fiction that goes beyond Magical Realism. Discussion includes literary techniques, as well as Latin American history, politics and cultural values. Taught in Spanish.

*Recommended: Completion of 21 upper-division credits of Spanish.*

**SPAN 447. MEXICAN WOMEN WRITERS. (3 Credits)**

Fiction by contemporary Mexican women, emphasizing how the writing reflects the authors’ lives, as well as Mexican history, politics and cultural values. Taught in Spanish.

*Recommended: Completion of 21 upper-division credits of Spanish.*

**SPAN 448. LATIN AMERICAN GREAT WORKS. (3 Credits)**

Major works by Latin American writers, concentrating on literary style and technique, as well as Latin American history, politics and culture. Taught in Spanish.

*Recommended: Completion of 21 upper-division credits of Spanish.*

**SPAN 453. SPANISH SOCIOLINGUISTICS. (3 Credits)**

Provides a foundation of sociolinguistic theory from which various topics can be analyzed, discussed and applied to language situations that are specific to Spanish. These include language contact, Spanish varieties, language policy, and language attitudes. All topics are presented within the context of speech communities and the external and internal variables that affect these communities.

*Prerequisites: SPAN 350 with C- or better*

**SPAN 455. INTRODUCTION TO SPANISH TRANSLATION. (3 Credits)**

Combines beginning translation theory with hands-on practice using a variety of activities from several areas of professional specialization. Includes a brief introduction to simultaneous interpretation as it is done in professional conference or broadcast media settings. Participants must be highly proficient in both English and Spanish.

*Recommended: 12 credits of upper-division Spanish.*
SPAN 456. SPANISH IN THE UNITED STATES. (3 Credits)
Provides a foundation for the study of Spanish in the United States. Focuses on the diverse identities of Latino/as and Spanish speakers as they define what it means to be bilingual locally, regionally, and nationally. Spanish and Spanish-English bilingualism will be studied from critical sociolinguistic, historical and political perspectives.
Prerequisites: SPAN 350 with C- or better

SPAN 462. FIFTH-YEAR SPANISH. (3 Credits)
Continued development of listening comprehension, speaking, and writing skills. Introduction to debate and platform speaking in Spanish, and to specialized interests of students, e.g., methods and philosophies of interpretation and translation, business Spanish, creative writing.
Recommended: SPAN 461

SPAN 470. *ADVANCED SPANISH COORDINATED STUDIES. (1-30 Credits)
Interdisciplinary examination of a topic related to points of contact between Spanish- and English-speaking populations in Oregon and beyond. Includes the study of literature, culture, language skills, and a service-learning component. Constitutes a full-time course load. Taught in Spanish. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
This course is repeatable for 30 credits.

SPAN 488. HISPANIC STUDIES, HISPANIC STUDY CENTERS. (1-12 Credits)
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises). Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 499. SPECIAL TOPICS. (1-16 Credits)
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 99 credits.

SPAN 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 503. THESIS. (1-16 Credits)
This course is repeatable for 99 credits.

SPAN 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 506. SPECIAL PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

SPAN 510. INTERNSHIP. (1-15 Credits)
(See SPAN 410 for description.)
This course is repeatable for 15 credits.

SPAN 511. SPECIALIZED GRAMMAR OR LINGUISTICS TOPICS. (3 Credits)
Students develop an in-depth knowledge of various linguistic aspects of Spanish, particularly in regard to problematic grammatical structures and the development of writing proficiency. The main focus is on integrating a thorough understanding of grammatical structures into writing using selected literary works as models. Students analyze their own linguistic progress and apply this meta-knowledge to their writing.
Recommended: 18 credits of upper-division Spanish.

SPAN 512. ADVANCED COMPOSITION. (3 Credits)
Emphasis on creative writing. Students will read and discuss a series of stories with the same theme, then write their own. The subjunctive and other advanced grammar topics will be reviewed and incorporated into the writing activities. Taught in Spanish.
Recommended: 18 credits of upper-division Spanish

SPAN 513. ADVANCED COMMUNICATION SKILLS. (3 Credits)
Contextualized exploration of skills outlined in the National Standards Project's.
Recommended: 18 credits of upper-division Spanish

SPAN 535. SPECIAL TOPICS IN LATIN AMERICAN CULTURE. (3 Credits)
Historical and contemporary aspects of the cultures of Latin America. May include material relevant to Spain and U.S. Latinos. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Recommended: 18 credits of upper-division Spanish

SPAN 536. SELECTED TOPICS IN LUSO-HISPANIC CULTURE. (3 Credits)
Contemporary aspects of the cultures of Spain, Portugal, or Latin America with a cross-cultural perspective. Topics and language of instruction vary. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.
Recommended: Completion of 6 credits from SPAN 331, SPAN 332, SPAN 333, SPAN 336, SPAN 337, SPAN 338.

SPAN 544. SELECTED TOPICS IN THE LITERATURE OF SPAIN. (3 Credits)
Representative Spanish prose, poetry, and drama, with an emphasis on the 19th and 20th centuries. Taught in Spanish. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 545. SELECTED TOPICS IN THE LITERATURE OF LATIN AMERICA. (3 Credits)
Representative prose, poetry, and drama of Spanish America and/or Brazil, with an emphasis on the mid-19th century to the present. Topics and language of instruction may vary. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 18 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 546. RECENT LATIN AMERICAN LITERATURE. (3 Credits)
Recent fiction that goes beyond Magical Realism. Discussion includes literary techniques, as well as Latin American history, politics and cultural values. Taught in Spanish.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 547. MEXICAN WOMEN WRITERS. (3 Credits)
Fiction by contemporary Mexican women, emphasizing how the writing reflects the authors' lives, as well as Mexican history, politics and cultural values. Taught in Spanish.
Recommended: 21 upper-division credits of Spanish.

SPAN 548. LATIN AMERICAN GREAT WORKS. (3 Credits)
Major works by Latin American writers, concentrating on literary style and technique, as well as Latin American history, politics and culture. Taught in Spanish.
Recommended: 21 upper-division credits of Spanish.

SPAN 552. INTRODUCTION TO SPANISH SOCIOLINGUISTICS. (3 Credits)
Provides a foundation of sociolinguistic theory in order to analyze, discuss and apply the theory to Spanish language situations, such as language contact, Spanish varieties, language politics, and language attitudes; all within the context of a speech community and the external and internal variables that affect it.
SPAN 553. SPANISH SOCIOLINGUISTICS. (3 Credits)
Provides a foundation of sociolinguistic theory from which various topics can be analyzed, discussed and applied to language situations that are specific to Spanish. These include language contact, Spanish varieties, language policy, and language attitudes. All topics are presented within the context of speech communities and the external and internal variables that affect these communities.
Recommended: SPAN 350

SPAN 555. INTRODUCTION TO SPANISH TRANSLATION. (3 Credits)
Combines beginning translation theory with hands-on practice using a variety of activities from several areas of professional specialization. Includes a brief introduction to simultaneous interpretation as it is done in professional conference or broadcast media settings. Participants must be highly proficient in both English and Spanish.
Recommended: 12 credits of upper-division Spanish.

SPAN 556. SPANISH IN THE UNITED STATES. (3 Credits)
Provides a foundation for the study of Spanish in the United States. Focuses on the diverse identities of Latino/as and Spanish speakers as they define what it means to be bilingual locally, regionally, and nationally. Spanish and Spanish-English bilingualism will be studied from critical sociolinguistic, historical and political perspectives.
Recommended: SPAN 350

SPAN 561. FIFTH-YEAR SPANISH. (3 Credits)
Continued development of listening comprehension, speaking, and writing skills. Introduction to debate and platform speaking in Spanish, and to specialized interests of students, e.g., methods and philosophies of interpretation and translation, business Spanish, creative writing.
Recommended: SPAN 413

SPAN 562. FIFTH-YEAR SPANISH. (3 Credits)
Continued development of listening comprehension, speaking, and writing skills. Introduction to debate and platform speaking in Spanish, and to specialized interests of students, e.g., methods and philosophies of interpretation and translation, business Spanish, creative writing.
Recommended: SPAN 561

SPAN 563. FIFTH-YEAR SPANISH. (3 Credits)
Continued development of listening comprehension, speaking, and writing skills. Introduction to debate and platform speaking in Spanish, and to specialized interests of students, e.g., methods and philosophies of interpretation and translation, business Spanish, creative writing.
Recommended: SPAN 562

SPAN 569. TOPICS IN JOTERIA STUDIES. (3 Credits)
A space for engaging with arts, activism and scholarship emerging from queer Latin@/Chican@ experiences and consciousness is provided. Offered winter term in odd years. CROSSLISTED as ES 569/QS 569/SPAN 569/WGSS 569.
Equivalent to: ES 569, QS 569, WGSS 569
This course is repeatable for 6 credits.

SPAN 570. GRADUATE SPANISH COORDINATED STUDIES. (1-15 Credits)
An intensive, team-taught course in which learners engage in advanced exploration of issues of importance to Spanish-speaking communities in Oregon and facilitate the learning of undergraduate native speaker and second language students. Topics change regularly. The course addresses all communicative areas (reading, writing, speaking and listening) and includes content in the areas of literature, linguistics, culture, civic engagement, and service-learning. Successful completion of the full 15 credits with a grade of B or higher meets requirements for the graduate minor in Contemporary Hispanic Studies.
Equivalent to: SPAN 510, SPAN 538, SPAN 545, SPAN 546, SPAN 562, SPAN 563
This course is repeatable for 30 credits.
Recommended: SPAN 599

SPAN 588. HISPANIC STUDIES, HISPANIC STUDY CENTERS. (1-12 Credits)
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises). Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.

SPAN 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 99 credits.

SPAN 808. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

Statistics (ST)

ST 199. SPECIAL TOPICS. (3 Credits)
This course can only be taken once unless instructor permission is provided.

ST 201. PRINCIPLES OF STATISTICS. (4 Credits)
Study design, descriptive statistics, the use of probability in statistical arguments, sampling, hypothesis tests and confidence intervals for means and proportions. Lec/rec.
Equivalent to: ST 201H
Recommended: High school algebra

ST 202. PRINCIPLES OF STATISTICS. (4 Credits)
Comparisons of means and proportions between two populations (t-tests, chi-square tests, nonparametric tests), simple linear regression, correlation. Lec/rec.
Prerequisites: ST 201 with D- or better
Equivalent to: ST 209

ST 314. INTRODUCTION TO STATISTICS FOR ENGINEERS. (3 Credits)
Probability, common probability distributions, sampling distributions, estimation, hypothesis testing, control charts, regression analysis, experimental design.
Prerequisites: MTH 252 with D- or better or MTH 252H with D- or better
Equivalent to: ST 314H

ST 351. INTRODUCTION TO STATISTICAL METHODS. (4 Credits)
Study designs, descriptive statistics, collecting and recording data, probability distributions, sampling distributions for means and proportions, hypothesis testing and confidence intervals for means and proportions in one- and two-sample inference, and chi-square tests. Lec/lab.
Equivalent to: ST 351H
Recommended: High school algebra with statistics
ST 351H. INTRODUCTION TO STATISTICAL METHODS. (4 Credits)
Study designs, descriptive statistics, collecting and recording data, probability distributions, sampling distributions for means and proportions, hypothesis testing and confidence intervals for means and proportions in one- and two-sample inference, and chi-square tests. Lec/lab.

Attributes:  HNRS – Honors Course Designator
Equivalent to: ST 351
Recommended: High school algebra with statistics

Prerequisites: ST 351 with D- or better or ST 351H with D- or better

ST 352. INTRODUCTION TO STATISTICAL METHODS. (4 Credits)
Randomization tests and other nonparametric tests for one- and two-sample inference, simple and multiple linear regression, correlation, one- and two-way analysis of variance, logistic regression. Lec/lab.

Prerequisites: ST 351 with D- or better or ST 351H with D- or better

ST 406. PROJECTS. (1-16 Credits)
Section 1: Projects, graded P/N. Section 2: Teaching Experience, graded P/N. Section 3: Directed Work, graded P/N.
This course is repeatable for 16 credits.

ST 407. SEMINAR. (1 Credit)
Attendance at consulting practicum. Graded P/N.

ST 410. INTERNSHIP. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

ST 411. METHODS OF DATA ANALYSIS. (4 Credits)
Graphical, parametric and nonparametric methods for comparing two samples; one-way and two-way analysis of variance; simple linear regression. Lec/lab.

Recommended: ST 351

ST 412. METHODS OF DATA ANALYSIS. (4 Credits)
Multiple linear regression, including model checking, dummy variables, using regression to fit analysis of variance models, analysis of covariance, variable selection methods. Lec/lab.

Recommended: ST 351

Prerequisites: ST 411 with D- or better

ST 413. METHODS OF DATA ANALYSIS. (4 Credits)
Principles of experimental design; randomized block and factorial designs; repeated measures; categorical data analysis, including comparison of proportions, tests of homogeneity and independence in cross-classified frequency tables, Mantel-Haenszel test, logistic regression, log-linear regression. Introduction to multivariate statistics. Lec/lab.

Prerequisites: ST 412 with D- or better
Recommended: ST 351

ST 415. DESIGN AND ANALYSIS OF PLANNED EXPERIMENTS. (3 Credits)
Principles of experimental design; uses, construction and analysis of completely randomized, randomized block and Latin square designs; covariates; factorial treatments, split-plotting; random effects and variance components.

Prerequisites: ST 352 with D- or better or ST 411 with D- or better or ST 511 with D- or better

ST 421. INTRODUCTION TO MATHEMATICAL STATISTICS. (4 Credits)
Probability, random variables, expectation, discrete and continuous distributions, multivariate distributions.

Recommended: MTH 253

ST 422. INTRODUCTION TO MATHEMATICAL STATISTICS. (4 Credits)
Sampling distributions, Central Limit Theorem, estimation, confidence intervals, properties of estimators, and hypothesis testing.

Prerequisites: ST 421 with D- or better
Recommended: MTH 253

ST 431. SAMPLING METHODS. (3 Credits)
Estimation of means, totals and proportions; sampling designs including simple random, stratified, cluster, systematic, multistage and double sampling; ratio and regression estimators; sources of errors in surveys; capture-recapture methods.

Recommended: ST 411 or ST 511

ST 435. QUANTITATIVE ECOLOGY. (3 Credits)
Overview of statistical methods that are useful for analyzing ecological data, including spatial pattern analysis, multivariate techniques, logistic regression, Bayesian statistics and computer-intensive methods. Consideration of special topics such as population dynamics, food webs and ecological indicators. Not offered every year.

Prerequisites: ST 412 with D- or better or ST 512 with D- or better

ST 439. SURVEY METHODS. (3 Credits)
Survey design, data collection and analysis, general methodology.

Prerequisites: ST 201 with D- or better or ST 351 with D- or better

ST 441. PROBABILITY, COMPUTING, AND SIMULATION IN STATISTICS. (4 Credits)

Prerequisites: ST 422 with D- or better or ST 522 with D- or better

ST 443. APPLIED STOCHASTIC MODELS. (3 Credits)
Development of stochastic models commonly arising in statistics and operations research, such as Poisson processes, birth-and-death processes, discrete-time and continuous-time Markov chains, renewal and Markov renewal processes. Analysis of stochastic models by simulation and other computational techniques.

Prerequisites: ST 421 with D- or better or ST 521 with D- or better
Recommended: Experience with a high-level programming language or mathematical computation package

ST 499. SPECIAL TOPICS. (1-4 Credits)
May be repeated for credit.
This course is repeatable for 8 credits.

ST 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

ST 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

ST 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

ST 506. PROJECTS. (1-16 Credits)
Section 1: Projects. Section 2: Teaching Experience. Section 3: Directed Work.
This course is repeatable for 16 credits.

ST 507. SEMINAR. (1 Credit)
Section 1: Attendance at consulting practicum, 1 credit. Section 3: Research Seminar, 1 credit. Section 4: Computing Facilities, 1 credit. All sections graded P/N.
This course is repeatable for 99 credits.
ST 509. CONSULTING PRACTICUM. (2 Credits)
The student provides statistical advice, under faculty guidance, on university-related research projects. 
This course is repeatable for 99 credits.
Recommended: ST 507 and ST 553

ST 510. INTERNSHIP. (1-16 Credits)
Graded P/N. 
This course is repeatable for 16 credits.

ST 511. METHODS OF DATA ANALYSIS. (4 Credits)
Graphical, parametric and nonparametric methods for comparing two samples; one-way and two-way analysis of variance; simple linear regression. Lec/lab.
Recommended: ST 351

ST 512. METHODS OF DATA ANALYSIS. (4 Credits)
Multiple linear regression, including model checking, dummy variables, using regression to fit analysis of variance models, analysis of covariance, variable selection methods. Lec/lab.
Prerequisites: ST 511 with C or better
Recommended: ST 351

ST 513. METHODS OF DATA ANALYSIS. (4 Credits)
Principles of experimental design; randomized block and factorial designs; repeated measures; categorical data analysis, including comparison of proportions, tests of homogeneity and independence in cross-classified frequency tables, Mantel-Haenszel test, logistic regression, log-linear regression. Introduction to multivariate statistics. Lec/lab.
Prerequisites: ST 512 with C or better
Recommended: ST 351

ST 515. DESIGN AND ANALYSIS OF PLANNED EXPERIMENTS. (3 Credits)
Principles of experimental design; uses, construction and analysis of completely randomized, randomized block and Latin square designs; covariates; factorial treatments, split plotting; random effects and variance components.
Recommended: ST 352 or (ST 411 or ST 511)

ST 516. FOUNDATIONS OF DATA ANALYTICS. (4 Credits)
Foundations of estimation and hypothesis testing; desirable properties of estimators; maximum likelihood; one- and two-sample problems; theoretical results are explored through simulations and analysis using R. Offered via Ecampus only.
Recommended: ST 351

ST 517. DATA ANALYTICS I. (4 Credits)
Methods for modeling quantitative data and statistical learning—simple and multiple linear regression; linear mixed effects models; data imputation; prediction and cross-validation; scaling up to large datasets. Simulations and data analysis using R. Offered via Ecampus only.
Prerequisites: ST 516 with C+ or better

ST 518. DATA ANALYTICS II. (4 Credits)
Statistical methods and data analysis techniques for count data. Topics include tests for tables of counts, logistic regression, log-linear regression, generalized linear mixed models, and issues for large datasets. Data analysis in R.
Prerequisites: ST 517 with C+ or better

ST 521. INTRODUCTION TO MATHEMATICAL STATISTICS. (4 Credits)
Probability, random variables, expectation, discrete and continuous distributions, multivariate distributions.
Recommended: MTH 253

ST 522. INTRODUCTION TO MATHEMATICAL STATISTICS. (4 Credits)
Sampling distributions, Central Limit Theorem, estimation, confidence intervals, properties of estimators, and hypothesis testing.
Prerequisites: ST 521 with C or better
Recommended: MTH 253

ST 525. APPLIED SURVIVAL ANALYSIS. (3 Credits)
Statistical methods for analyzing survival data or time-to-event data, which may be censored and/or truncated. Specific topics can vary term to term, and could include Kaplan-Meier estimator; K-sample hypothesis tests for survival data; Accelerated failure time model; Cox proportional hazard regression model.
Prerequisites: ST 516 with C or better and ST 517 [C] and ST 518 [C]

ST 531. SAMPLING METHODS. (3 Credits)
Estimation of means, totals and proportions; sampling designs including simple random, stratified, cluster, systematic, multistage and double sampling; ratio and regression estimators; sources of errors in surveys; capture-recapture methods.
Recommended: ST 411 or ST 511

ST 535. QUANTITATIVE ECOLOGY. (3 Credits)
Overview of statistical methods that are useful for analyzing ecological data, including spatial pattern analysis, multivariate techniques, logistic regression, Bayesian statistics and computer-intensive methods. Consideration of special topics such as population dynamics, food webs and ecological indicators. Not offered every year.
Recommended: ST 412 or ST 512

ST 537. DATA VISUALIZATION. (3 Credits)
Perceptual principles for displaying data; critique and improvement of data visualizations; use of color in visualization; principles of tidy data; strategies for data exploration; select special topics.
Prerequisites: ST 512 with C or better or ST 517 with C or better or ST 552 with C or better
Recommended: Familiarity with linear regression and using R

ST 538. MODERN STATISTICAL METHODS FOR LARGE AND COMPLEX DATA SETS. (3 Credits)
Provides students with the tools and experience to analyze big and messy data and work effectively in a data science team. Covers the tools to handle big data and answer statistical questions based on the data. Includes three big data analysis projects that students work on in groups. Focuses on proper use of modern data analysis techniques related to regression, classification and clustering for data coming from a variety of application fields. R will be the lingua franca.
Prerequisites: ST 512 with C or better or ST 517 with C or better or ST 552 with C or better or ST 412 with C or better

ST 539. SURVEY METHODS. (3 Credits)
Survey design, data collection and analysis, general methodology.
Recommended: ST 201 or ST 351

ST 541. PROBABILITY, COMPUTING, AND SIMULATION IN STATISTICS. (4 Credits)
Recommended: ST 422 or ST 522
Recommended: (ST 421 or ST 521) and experience with a high-level programming language or mathematical computation package.

**ST 551. STATISTICAL METHODS. (4 Credits)**
Properties of t, chi-square, and F tests; randomized experiments; sampling distributions and standard errors of estimators, delta method, comparison of several groups of measurements; two-way tables of measurements.

Recommended: Concurrent enrollment in MTH 341 and (ST 422 or ST 522)

**ST 552. STATISTICAL METHODS. (4 Credits)**
Simple and multiple linear regression including polynomial regression, indicator variables, weighted regression, and influence statistics, nonlinear regression and linear models for binary data.

Prerequisites: ST 551 with C or better
Recommended: ST 422 or ST 522.

**ST 553. STATISTICAL METHODS. (4 Credits)**
Principles and analysis of designed experiments, including factorial experiments, analysis of covariance, random and mixed effect models.

Lec/lab.
Prerequisites: ST 552 with C or better

**ST 554. ADVANCED EXPERIMENTAL DESIGN. (3 Credits)**
Designs leading to mixed models including split plots, repeated measures, crossovers and incomplete blocks. Introduction to experimental design in industry including confounding, fractional factorials and response surface methodology. Analysis of unbalanced data.

Prerequisites: ST 553 with C or better

**ST 555. APPLIED MULTIVARIATE ANALYSIS. (3 Credits)**
Multivariate data structures, linear combinations; principal components, factor and latent structure analysis, canonical correlations, discriminant analysis; cluster analysis, multidimensional scaling. Not offered every year.

Recommended: (ST 412 or ST 512) and (MTH 252 or MTH 245)

**ST 556. TIME SERIES ANALYTICS. (3 Credits)**
Analysis of serially correlated data in both time and frequency domains. Autocorrelation and partial autocorrelation functions, autoregressive integrated moving average models, model building, forecasting; filtering, smoothing, spectral analysis, frequency response studies. Offered winter term in even years.

Recommended: (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 557. SPATIAL STATISTICS. (3 Credits)**
The analysis of spatial data. Graphical tools for exploring spatial data, geostatistics, variogram estimation, kriging, areal models, hierarchical spatial models, and spatio-temporal modeling. Offered winter term in odd years.

Recommended: (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 558. MULTIVARIATE ANALYSIS. (3 Credits)**
Basics of matrix algebra, principal components analysis, cluster analysis, factor analysis, multidimensional scaling.

Prerequisites: ST 518 with C- or better

**ST 559. BAYESIAN STATISTICS. (3 Credits)**
Bayesian statistics for data analysis. Characterizations of probability; comparative (Bayesian versus frequentist) inference; prior, posterior and predictive distributions; hierarchical modeling. Computational methods include Markov Chain Monte Carlo for posterior simulation.

Recommended: ST 562

**ST 560. THEORY OF STATISTICS. (4 Credits)**
Distributions of functions of random variables, joint and conditional distributions, sampling distributions, convergence concepts, order statistics. Lec/rec.

Recommended: ST 422 or ST 522

**ST 561. THEORY OF STATISTICS. (4 Credits)**
Sufficiency, exponential families, location and scale families; point estimation: maximum likelihood, Bayes, and unbiased estimators; asymptotic distributions of maximum likelihood estimators; Taylor series approximations.

Prerequisites: ST 561 with C or better
Recommended: ST 422 or ST 522

**ST 562. THEORY OF STATISTICS. (4 Credits)**
Hypothesis testing: likelihood ratio, Bayesian, and uniformly most powerful tests; similar tests in exponential families; asymptotic distributions of likelihood ratio test statistics; confidence intervals.

Prerequisites: ST 562 with C or better
This course is repeatable for 4 credits.

Recommended: ST 422 or ST 522

**ST 563. THEORY OF STATISTICS. (4 Credits)**
Analysis of serially correlated data in both time and frequency domains. Autocorrelation and partial autocorrelation functions, autoregressive integrated moving average models, model building, forecasting; filtering, smoothing, spectral analysis, frequency response studies. Offered winter term in even years.

Recommended: (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 564. TIME SERIES ANALYTICS. (3 Credits)**
Focuses on statistical and analytical tools for analyzing data that are observed sequentially over time. Specific topics can vary term to term, and could include methods for exploratory time series analysis, linear time series models (ARMA, ARIMA), forecasting, spectral analysis and state-space models. The focus will be on applied problems, though some mathematical statistics is necessary for a solid understanding of the statistical issues. This course is designed for students in Data Analytics MS and Certificate programs.

Prerequisites: ST 516 with C or better and ST 517 [C] and ST 518 [C]

**ST 565. SPATIAL STATISTICS. (3 Credits)**
The analysis of spatial data. Graphical tools for exploring spatial data, geostatistics, variogram estimation, kriging, areal models, hierarchical spatial models, and spatio-temporal modelling. Offered winter term in odd years.

Recommended: (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 566. THEORY OF STATISTICS. (4 Credits)**
Provides an overview of how genomic data is generated and analyzed. It focuses on the underlying biological motivation, theoretical concepts, and analytical challenges associated with genomic research, especially the generation of statistics that summarize genomic data. The class is organized as a combination of lectures and group literature review discussions. Students are expected to actively participate in the class. Students from diverse backgrounds, including quantitative, biological, and computations sciences, are encouraged to enroll.

Recommended: ST 411 or ST 511

**ST 567. STATISTICAL METHODS FOR GENOMICS RESEARCH. (3 Credits)**
Lectures include an overview of statistical methods commonly applied in genomics research. Specific methods can vary term to term, and could include cluster analysis, decision trees, dimension reduction tools, regression models, multiple testing adjustment, variable selection methods, etc. Journal clubs include team-based review and presentations of landmark papers in both statistical methodology and genomics research. Research experience includes whole-term collaboration between students from statistics and other disciplines on real projects.

Recommended: ST 411 or ST 511 or a higher level course such as ST 551
ST 595. CAPSTONE PROJECT. (3 Credits)
Provides an opportunity for students to integrate and apply the analytics skills learned in MS in Data Analytics program to solve real-world problems and to interpret and communicate their results. Student teams will engage in the entire process of solving data science projects in realistic settings, from placing the problem into appropriate statistical framework to applying suitable analytic methods to the problem. Problem solving, written and oral communication skills will be emphasized.
Prerequisites: ST 516 with C or better and ST 517 [C] and ST 518 [C] and ST 558 [C]

ST 599. SPECIAL TOPICS. (1-4 Credits)
May be repeated for credit when topic varies. This course is repeatable for 16 credits.

ST 601. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

ST 603. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

ST 606. PROJECTS. (1-16 Credits)
Section 1: Projects; Section 2: Teaching Experience, graded P/N; Section 3: Directed Work, graded P/N.
This course is repeatable for 16 credits.

ST 623. GENERALIZED REGRESSION MODELS. (3 Credits)
Maximum likelihood analysis for frequency data; regression-type models for binomial and Poisson data; iterative weighted least squares and maximum likelihood; analysis of deviance and residuals; over-dispersion and quasi-likelihood models; log-linear models for multidimensional contingency tables.
Prerequisites: ST 553 with C or better and ST 563 [C]

ST 625. SURVIVAL ANALYSIS. (3 Credits)
Prepares students to understand and analyze survival data. Concepts to be discussed include: hazard function (failure rate function); nonparametric likelihood; empirical processes; empirical distribution function; censoring (mostly right independent censoring); Kaplan-Meier estimator; Bias of the KM estimator; Cox proportional hazards model; Accelerated Failure Time Model; Partial Likelihood; log-rank test.
Prerequisites: ST 553 with C or better or ST 563 with C or better

ST 651. LINEAR MODEL THEORY. (3 Credits)
Least squares estimation, best linear unbiased estimation, parameterizations, multivariate normal distributions, distributions of quadratic forms, testing linear hypotheses, simultaneous confidence intervals. Offered alternate years.
Recommended: ST 553 and ST 563

ST 652. LINEAR MODEL THEORY. (3 Credits)
Advanced topics including classification models, mixed-effects models and multivariate models. Offered alternate years.
Prerequisites: ST 651 with C or better
Recommended: ST 553 and ST 563

ST 661. ADVANCED THEORY OF STATISTICS. (3 Credits)
Exponential families, sufficient statistics; unbiased, equivariant, Bayes, and admissible estimation. Offered alternate years.
Recommended: ST 563 and MTH 511

ST 662. ADVANCED THEORY OF STATISTICS. (3 Credits)
Uniformly most powerful, unbiased, similar, and invariant tests. Offered alternate years.
Prerequisites: ST 661 with C or better
Recommended: ST 563 and MTH 511

ST 663. ADVANCED THEORY OF STATISTICS. (3 Credits)
First-order and higher-order asymptotics; likelihood ratio, score, and Wald tests; Edgeworth and saddlepoint approximations. Offered alternate years.
Prerequisites: ST 662 with C or better
Recommended: ST 563 and MTH 511

Sustainability (SUS)

SUS 102. *INTRODUCTION TO ENVIRONMENTAL SCIENCE AND SUSTAINABILITY. (4 Credits)
An introduction to the science behind critical environmental issues and the biological basis of creating and maintaining sustainable ecosystems. Focus on such questions as: how do we decide what to believe about environmental issues? Do we quantify, restore, and value biodiversity? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: SOIL 102

SUS 103. *INTRODUCTION TO CLIMATE CHANGE. (4 Credits)
An introduction to the principles of climate change science with an emphasis on the empirical evidence for climate change. Students will learn critical thinking skills to assess such questions as: How do we determine the processes controlling global warming? How do we predict trends in climate change? How do we calculate and understand uncertainty in these predictions? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
Attributes: CPSS – Core, Pers, Physical Science

SUS 304. *SUSTAINABILITY ASSESSMENT. (4 Credits)
Explores theories and application of sustainability assessment techniques and analysis methods. Practical application of globally recognized assessment protocol, including checklists, footprinting, life-cycle analysis and the indicators used to conduct these analyses. Emphasis on ecological and social indicators, although economic indicators are explored. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

SUS 325. *AG AND ENVIRONMENTAL PREDICAMENTS: A CASE STUDY APPROACH. (3 Credits)
Analyze controversial agricultural and environmental issues, synthesize information from diverse sources, and apply scientific knowledge to recommend specific courses of action to solve real world problems. Develop oral and written communication skills through individual and group work. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: SOIL 325

SUS 331. *SUSTAINABILITY, JUSTICE, AND ENGAGEMENT. (3 Credits)
Many sustainability crises are local, and the people most impacted tend to be groups already experiencing difference, lack of power, and discrimination. Transformational responses led by those most affected will be examined – responses that address the environmental problem while also building social and economic power for those affected. The tools and tactics used to achieve positive changes will be analyzed. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
SUS 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

SUS 410. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

SUS 420. SOCIAL DIMENSIONS OF SUSTAINABILITY. (3 Credits)
Focuses on the social aspects of sustainability, including how the
environment, the economy, social life interact to create the world we
live in. Explores how social institutions (school, government, business,
family) contribute to sustainability and promote or discourage social and
environmental justice at local and global scales. Also offered at OSU-
Cascades and via Ecampus.

SUS 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

SUS 512. TOPICS IN THE SCIENCE OF SUSTAINABILITY. (4 Credits)
Provides a graduate-level introduction to key concepts and issues in
environmental science and sustainability, targeted at business-oriented
graduate and post-bacc students who do not have a science background.
The course is a core requirement of the Sustainable Business certificate
program offered jointly by the College of Business (COB) and the College
of Agricultural Sciences’ (CAS) Sustainability Double-Degree (SDD)
Program.

SUS 514. SUSTAINABILITY PLANNING AND ASSESSMENT. (4 Credits)
Sustainability is fundamentally about balancing social, economic
and ecological systems. This course examines a range of different
methodologies for measuring and evaluating performance towards
established sustainability criteria and indicators. Students will critically
evaluate tools for making sustainable decisions and understand
the limitations of individual assessment approaches in different
contexts. Specific assessment techniques to be explored include
ecological footprinting, sustainable community indicators, greenhouse
gas emissions inventories, sustainability checklists, environmental
management systems (ISO standards), life-cycle analysis, and business
sustainability reporting. Students will leave the course with the
fundamental skills required to complete sustainability assessments via
globally relevant approaches.

SUS 599. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

Sustainable Natural Resources (SNR)

SNR 506. INDEPENDENT PROJECT IN NATURAL RESOURCE
SUSTAINABILITY. (2 Credits)
Students identify, pose, frame, and analyze the various components of
an important natural resource sustainability problem within their country,
region, or organization and, at the end of term, present a workplan for its
resolution. Oral and written reports are expected. Graded P/N.
Prerequisites: SNR 511 with C or better

SNR 511. SUSTAINABLE NATURAL RESOURCE DEVELOPMENT. (1 Credit)
Using readings, class discussions, and field trips, we introduce the
program sessions and pedagogical methods, familiarize students with
basic working definitions of sustainability, and build capacity to work as
group on a common project.

SNR 520. SOCIAL ASPECTS OF SUSTAINABLE NATURAL RESOURCES. (3 Credits)
Using readings, personal experiences, and class discussions, students
explore five principles of socially sustainable natural resource
management, and review the role they play in creating natural resource-
based sustainable communities.
Recommended: SNR 511 and at least two years’ experience working in a
natural resources-related field

SNR 521. ECONOMICS OF SUSTAINABLE NATURAL RESOURCE
MANAGEMENT. (3 Credits)
Focuses on the sources of market failure, the means of correcting
market failure, and the real-world examples of making progress toward
sustainable resource use by means of market mechanisms.
Recommended: SNR 511 and at least two years’ experience working in a
natural resources-related field

SNR 522. BASIC BELIEFS AND ETHICS IN NATURAL RESOURCES. (3 Credits)
Examines basic philosophies and ethical systems in American forestry,
including Pinchot’s agricultural/utilitarian approach and Leopold’s biotic/
ecological model, compares them to contemporary public attitudes and
considers their implications for sustainability.

SNR 530. ECOLOGICAL PRINCIPLES OF SUSTAINABLE NATURAL
RESOURCES. (3 Credits)
Focus an ecological sustainability and ecological concepts and
principles, with examples drawn from forests and arid lands. Exploration
of global ecosystems, ecological processes and services, factors that
create and maintain diversity, ecosystem health and integrity. Principles
for sustainable natural resource management and use.
Recommended: SNR 511 and at least two years’ experience working in a
natural resources-related field. Basic ecology course highly
recommended.

SNR 531. SUSTAINABLE SILVICULTURE AND FOREST CERTIFICATION. (3 Credits)
Strategies for sustainable silviculture, and measuring and verifying
environmental performance (including certification systems) are
examined using classroom lectures, case studies, and field exercises.
Part of the 18-credit Sustainable Natural Resources (SNR) Graduate
Certificate; also open to other graduate students.
Recommended: SNR 511 and at least two years’ experience working in a
natural resources-related field

SNR 532. PLANNING AGROFORESTRY PROJECTS. (2 Credits)
Develop basic understanding and appreciation of agroforestry concepts,
systems, technologies and practices as used and applied in tropical and
temperate zones of the world.
Recommended: SNR 530 (or equivalent ecology course) and SNR 511

SNR 533. NONTIMBER FOREST PRODUCTS: AN INTERDISCIPLINARY
INTRODUCTION. (3 Credits)
Interdisciplinary introduction to the culture, history, economy, ecology,
policy and management of nontimber forest products (NTFP), e.g., wild
foods, medicines, floral greens, craft material and landscaping species.
Includes domestic public and private forest and international case
studies.
SNR 534. REDUCED IMPACT TIMBER HARVEST. (2 Credits)
Explores planning, implementation, monitoring, and evaluation of reduced impact timber harvesting. Part of the 18-credit Sustainable Natural Resources (SNR) Graduate Certificate; also open to other graduate students.
Recommended: SNR 511 and at least two years' experience working in a natural resources-related field

SNR 535. SUSTAINABLE MANAGEMENT OF AQUATIC AND RIPARIAN RESOURCES. (3 Credits)
Explores integrated strategies for sustainable management of watersheds, estuaries, coastal zones, and aquatic resources. Special emphasis given to links between land uses and aquatic environments. Part of the 18-credit Sustainable Natural Resources (SNR) Graduate Certificate; also open to other graduate students.
Recommended: SNR 511 and at least two years' experience working in a natural resources-related field

SNR 540. GLOBAL ENVIRONMENTAL CHANGE. (3 Credits)
Explore biophysical and social sciences that underlie contemporary global change issues: global biogeochemical cycles, climate system, climate change, threats to biodiversity; human dimensions of climate change, globalization, land cover and land use change, global environmental governance and management tools.
Recommended: At least two years' working in a natural resources-related field. Basic biology course highly recommended

SNR 808. WORKSHOP. (1-4 Credits)
Describes the policies, practices, and market mechanisms that enhance ecological, economic, and social sustainability of natural resource production and natural ecosystems. Sustainable natural resource management attempts to meet the needs of the present without compromising the future of people or the ecosystems on which they depend. 
This course is repeatable for 4 credits.

Theatre Arts (TA)

TA 121. ORAL INTERPRETATION I. (3 Credits)
Analysis and presentation of literature. Exploration of emotional reactions, expressive vocal and physical responses, and performing techniques for effective communication. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core

TA 144. PLAYREADING. (1 Credit)
Reading/discussion/examination of plays from world theatre of past and present from the perspective of production and theatre history.
This course is repeatable for 2 credits.

TA 147. *INTRODUCTION TO THE THEATRE. (3 Credits)
Origins, history, nature, elements, and style of theatre production; function of artists and craftspersons of the theatre. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core
Equivalent to: TA 147H

TA 147H. *INTRODUCTION TO THE THEATRE. (3 Credits)
Origins, history, nature, elements, and style of theatre production; function of artists and craftspersons of the theatre. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: TA 147

TA 199. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 242. VISUAL PRINCIPLES OF THEATRE. (3 Credits)
An introduction to visual creativity, creative thinking, and visual problem solving as applied to theatre arts as a whole, and to scene and costume design. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core

TA 243. PRINCIPLES OF COSTUMING FOR THE STAGE. (3 Credits)
Principles and techniques of costume construction; practical application in the costume shop on theatre production.
Recommended: TA 147 and TA 242

TA 244. SCENE CRAFTS. (3 Credits)
Constructing scenery and stage properties; practical experience in backstage procedures and scene painting. Lec/lab. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core

TA 245. STAGE LIGHTING. (3 Credits)
Fundamentals of electricity as used in stage lighting; color and light, lighting instruments and control systems, theory and practice of lighting stage production.
Recommended: TA 244

TA 247. STAGE MAKEUP. (3 Credits)
Basic principles and theory with laboratory experience in most-used applications of theatrical makeup.

TA 248. FUNDAMENTALS OF ACTING I. (3 Credits)
Examination of basic principles and techniques of acting. Exploration of relaxation/focus, personal vocal/physical awareness, the actor's craft, and the performance process. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Recommended: TA 147

TA 249. FUNDAMENTALS OF ACTING II. (3 Credits)
Continued work in the basic principles and techniques of acting. Emphasis on improvisation, character analysis, and creation, the balance between truth and technique.
Prerequisites: TA 248 with D- or better

TA 250. WORKSHOP: THEATRE ARTS. (1-3 Credits)
Practical experience in performance, technical theatre, or design. Maximum for 6 credits may be applied toward graduation.
Equivalent to: TA 250H
This course is repeatable for 6 credits.

TA 250H. WORKSHOP: THEATRE ARTS. (1-3 Credits)
Practical experience in performance, technical theatre, or design. Maximum for 6 credits may be applied toward graduation.
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 250
This course is repeatable for 6 credits.

TA 299. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 330. *HISTORY OF THE THEATRE. (3 Credits)
The rise and development of the composite arts of the theatre in their cultural and social context. Origins to 1500. Offered alternate years. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
TA 331. *HISTORY OF THE THEATRE. (3 Credits)
The rise and development of the composite arts of the theatre in their
cultural and social context. 1500 to 1870. Offered alternate years. (H)
(Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts
Humanities Core
Recommended: TA 144 and TA 147

TA 332. **HISTORY OF THE THEATRE. (3 Credits)
The rise and development of the composite arts of the theatre in their
cultural and social context. 1870 to present. Offered alternate years. (H)
(Bacc Core Course) (Writing Intensive Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CWIC – Core, Skills, WIC;
LACH – Liberal Arts Humanities Core
Recommended: TA 144 and TA 147

TA 344. PLAYSCRIPT ANALYSIS. (3 Credits)
Study of major approaches to playscript analysis and detailed application
of these systems to the theatrical production process. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisites: TA 147 with D- or better
Recommended: TA 144

TA 346. SCENE AND STAGE DESIGN. (3 Credits)
Designs for stage productions including elements of color, mass, line,
and lighting for various types of theatre architecture and plays. Offered
alternate years.
Recommended: TA 147 and TA 244

TA 348. ADVANCED ACTING: REALISM. (3 Credits)
Discussion, research, rehearsal, performance, and criticism of scenes
from realistic drama. Emphasis on the craft of acting, emotional
availability/honesty, personal awareness. Offered alternate years.
Prerequisites: TA 248 with D- or better

TA 349. ADVANCED ACTING: STYLES. (3 Credits)
Discussion, research, rehearsal, performance, and criticism of scenes
from a range of period and genre styles. Offered alternate years.
Prerequisites: TA 248 with D- or better

TA 350. WORKSHOP THEATRE ARTS. (1-3 Credits)
Advanced work in acting, directing or technical theatre in dramatic
productions; laboratory experience. Maximum of 6 credits may be applied
toward graduation.
This course is repeatable for 6 credits.

TA 351. PRINCIPLES OF PLAYWRITING. (3 Credits)
Basic principles and techniques of playwriting. Offered alternate years.
Recommended: TA 144 and TA 344

TA 352. PLAYWRITING WORKSHOP. (3 Credits)
Intensive work on student playscripts generated in TA 351, through re-
writes, revision and rehearsals. Offered alternate years.
Recommended: TA 351

TA 354. FUNDS PLAY DIRECTION. (3 Credits)
History, theories and techniques of stage direction. Script analysis,
study of the audience, staging, working with actors and designers, the
production process. Emphasis on practical exploration and application.
Offered alternate years.
Recommended: TA 244 and TA 248

TA 360. *MULTICULTURAL AMERICAN THEATRE. (3 Credits)
Examines the rich panorama of multicultural-American theatre (e.g.,
African-American, gay and lesbian, Hispanic, Asian American). (H) (Bacc
Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination;
HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: TA 360H

TA 360H. *MULTICULTURAL AMERICAN THEATRE. (3 Credits)
Examines the rich panorama of multicultural-American theatre (e.g.,
African-American, gay and lesbian, Hispanic, Asian American). (H) (Bacc
Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination;
HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: TA 360

TA 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 401. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

TA 402. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

TA 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

TA 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 407. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

TA 407H. SEMINAR. (1-16 Credits)
Equivalent to: TA 407H
This course is repeatable for 16 credits.

TA 408. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

TA 410. THEATRE ARTS INTERNSHIP. (1-16 Credits)
One- to three-term residency in a producing theatre, for a maximum
allowable total of 15 credits. Student works in a department of the theatre
and in related production activities, according to areas of interest or
specialization. Work supervised and evaluated by agency staff; academic
evaluation by supervising department faculty member(s). Available to
upper-division theatre arts majors and graduate students approved by
faculty and selected by intern agency.
This course is repeatable for 15 credits.
Recommended: 27 credits of theatre arts, with a minimum of 6 credits
in area of skill specialization, or 12 credits of upper-division theatre arts
courses, with a minimum of 6 credits in area of skill specialization

TA 416. TOPICS IN THEATRE ARTS. (3 Credits)
Lectures and explorations of theories, issues, methods, problems, and
applications in theatre arts. Concentrated work in a variety of selected
theatre topics. Offered as demand and staffing allow.
Equivalent to: TA 416H
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts
TA 416H. TOPICS IN THEATRE ARTS. (3 Credits)
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow.
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 416
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TA 443. COSTUME DESIGN. (3 Credits)
Theory and practice of designing costumes for a theatrical production.
Recommended: TA 243

TA 444. *THEORY AND CRITICISM OF THEATRE ARTS. (3 Credits)
Major theories that have influenced and motivated theatre practice in Western civilization throughout its development. Offered on alternate years. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: TA 444H
Recommended: 6 credits of theatre history, or 6 credits of dramatic literature.

TA 450. STUDIO: THEATRE ARTS. (3-6 Credits)
Advanced individual study on approved projects in one of the arts of the theatre: acting, directing or scene/costume/lighting design; or in stage or theatre management.
This course is repeatable for 6 credits.
Recommended: 9 credits of upper-division theatre arts

TA 451. INTRODUCTION TO ARTS ENTREPRENEURSHIP. (3 Credits)
Survey of the business strategies behind a successful career in the arts. Emphasizes the importance of entrepreneurial thinking, engages students with the fundamentals of the arts 'business', and explores ways to influence and shape the industry's future. CROSSLISTED as ART 451/ MUS 451/TA 451. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Equivalent to: ART 451, MUS 451

TA 454. ADVANCED PLAY DIRECTION. (3 Credits)
Expanded exploration of directing theories and techniques. Practical application through the production of a one-act play in a laboratory theatre. Offered alternate years.
Prerequisites: TA 354 with D- or better

TA 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

TA 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

TA 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

TA 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

TA 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

TA 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

TA 510. THEATRE ARTS INTERNSHIP. (6-15 Credits)
One- to three-term residency in a producing theatre, for a maximum allowable total of 15 credits. Student works in a department of the theatre and in related production activities, according to areas of interest or specialization. Work supervised and evaluated by agency staff; academic evaluation by supervising department faculty member(s). Available to upper-division theatre arts majors and graduate students approved by faculty and selected by intern agency.
This course is repeatable for 15 credits.
Recommended: 27 credits in theatre arts, with a minimum of 6 credits in area of skill specialization, or 12 credits of upper-division theatre arts courses, with a minimum of 6 credits in area of skill specialization

TA 516. TOPICS IN THEATRE ARTS. (3 Credits)
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow.
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TA 543. COSTUME DESIGN. (3 Credits)
Theory and practice of designing costumes for a theatrical production.
Recommended: TA 243

TA 550. STUDIO: THEATRE ARTS. (3-6 Credits)
Advanced individual study on approved projects in one of the arts of the theatre: acting, directing or scene/costume/lighting design; or in stage or theatre management.
This course is repeatable for 6 credits.
Recommended: 9 credits of upper-division theatre arts

TA 554. ADVANCED PLAY DIRECTION. (3 Credits)
Expanded exploration of directing theories and techniques. Practical application through the production of a one-act play in a laboratory theatre. Offered alternate years.
Recommended: TA 354

Tourism, Recreat, Adven. Lead. (TRAL)

TRAL 110. INTRODUCTION TO WHITE WATER KAYAKING. (2 Credits)
Students will learn fundamentals of white water kayaking in sheltered & moving water based on the internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Emphasis is on activity and basic skills.

TRAL 111. INTRODUCTION TO CANOEING. (2 Credits)
Students will learn fundamentals of canoeing in sheltered & moving water based on the internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Emphasis is on activity and basic skills.

TRAL 115. OUTDOOR LIVING SKILLS. (2 Credits)
Educates and introduces students on how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. Classroom and field (lab) experience. Includes one mandatory weekend overnight outing. CROSSLISTED as PAC 115/TRAL 115.
Corequisites: TRAL 118
Equivalent to: PAC 115
This course is repeatable for 4 credits.
TRAL 118. LABORATORY FOR OUTDOOR LIVING SKILLS. (1 Credit)
Practical field application of concepts learned in PAC 115/TRAL 115, Outdoor Living Skills. Field (lab) experience includes one mandatory weekend overnight. Introduces how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. CROSSLISTED as PAC 118/TRAL 118.
Corequisites: TRAL 115
Equivalent to: PAC 118
This course is repeatable for 2 credits.

TRAL 130. INTRODUCTION TO OUTDOOR AND ADVENTURE PROFESSIONS. (3 Credits)
Outdoor and adventure professions will be explored. Introduces students to practical and conceptual aspects of land and water trips in outdoor tourism, adventure, and educational settings. Innovative people and products will be examined in the context of outdoor and adventure professions and their impact; past, present, and future.
Equivalent to: TOL 130

TRAL 132. FOUNDATIONS AND HISTORY OF OUTDOOR AND ADVENTURE PROFESSIONS. (3 Credits)
History, evolution, and theoretical underpinning of outdoor and adventure professions as an important and evolving feature of Western culture within the United States and beyond. Influential ideas, paradigm shifts, events, and developments that have led to professionalism, institutionalization, dissemination, and impact on other subject areas and professions. Impact of other cultures on current state of the professions.
(Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: TOL 132

TRAL 173. INTERMEDIATE ROCK CLIMBING. (2 Credits)
Introduces variety of basic skills, gear and systems that will allow them to safely participate in a single pitch rock climbing environment based on internationally recognized American Mountain Guides Association (AMGA) teaching and skills certification systems. Presents students with various technical skills that will serve as a foundation for future land-based outdoor disciplines. Students will be introduced to gear, such as software (ropes, webbing, harnesses) and hardware (carabiners, friction devices); skills, such as knots, belaying, rappelling, lead climbing; and systems such as anchors and basic rescue techniques. CROSSLISTED as PAC 173/TRAL 173.
Equivalent to: PAC 173
This course is repeatable for 10 credits.

TRAL 215. GROUP FACILITATION. (4 Credits)
Introduces facilitation, leadership, and management of groups. Group facilitation theory, techniques, and models for use in a variety of environments and with different populations. Prominent personality types and how to effectively facilitate these. Determining needs, utilizing appropriate techniques, sequencing, and processing to meet specific determined needs of groups.

TRAL 217. INTERMEDIATE ROCK. (2 Credits)
 Begins by affirming rock site management foundational skills such as proper equipment, knots, belay techniques, rappelling, and basic climbing anchor systems. Then focuses on building upon those foundational skills by covering more complex anchor systems, belay techniques, vertical rescues, releasable rappels, and movement through various rock specific terrains.
Recommended: TRAL 172 or similar training and equivalent skill level

TRAL 218. ROCK SITE MANAGEMENT. (2 Credits)
Begins by affirming Intermediate Rock foundational skills such as proper equipment, knots, belay & lead climbing techniques, movement, rappelling, and basic climbing anchor systems based on internationally recognized American Mountain Guides Association (AMGA) teaching and skills certification systems. Class will then focus on building upon those foundational skills by covering more complex anchor systems, belay techniques, vertical rescues, releasable rappels and movement through various rock specific terrains.
Prerequisites: TRAL 173 with C or better or PAC 173 with C or better

TRAL 251. RECREATION RESOURCE MANAGEMENT. (4 Credits)
Overview of recreation resource management including study of land and water resources used for outdoor recreation. The planning and management of natural and cultural resources for long-term resource productivity, with a focus on rural and wildlife areas of the forest, range and coast.
Equivalent to: FES 251

TRAL 260. INTERMEDIATE PADDLESPORT. (2 Credits)
Learn how to successfully paddle as a competent group member within moving water & whitewater environments up to class III. This course will emphasize that the student has a holistic approach to river running, can be an effective group member during river rescues, can contribute to the safety, group skills and leadership of a river descent and showcase the knowledge required of an intermediate whitewater paddler based on internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Uses a variety of diverse whitewater specific kayaks and canoes.
Prerequisites: (TRAL 110 with C or better or PAC 110 with C or better) and (TRAL 111 [C] or PAC 111 [C])

TRAL 270. PRE-INTERNSHIP SEMINAR. (1 Credit)
Exploration of career goals, internship opportunities, and the variety of practice areas in the tourism, recreation, and adventure leadership (TRAL) professions. Student preparation in planning, obtaining, and completing TRAL internships. The course is designed to assist undergraduate majors in TRAL prepare for the required internship. Graded P/N.
Equivalent to: TOL 270

TRAL 280. OUTDOOR LEADERSHIP FUNDAMENTALS. (3 Credits)
A week-long outdoor expedition focusing on water-based and land-based skills while developing a comprehensive understanding of expedition behavior. Students will meet in the classroom to prepare for the week-long field expedition covering various topics such as risk management, expedition planning, navigation, water safety and other topics. The expedition will expose students to extended travel in the backcountry while further developing technical and interpersonal skills.
Prerequisites: (TRAL 110 with C or better or PAC 110 with C or better) and (TRAL 111 [C] or PAC 111 [C]) and TRAL 115 [C] and TRAL 118 [C] and TRAL 173 [C]

TRAL 299. SPECIAL TOPICS. (0-16 Credits)
Topics of current importance in tourism, recreation, and/or adventure leadership education. Topics will change from term to term. May be repeated with different topics for credit.
This course is repeatable for 16 credits.

TRAL 309. CERTIFICATION PRACTICUM. (2 Credits)
Allows students the opportunity to acquire nationally or internationally recognized certification in one or more disciplines. Will provide an avenue for students to acquire professional faculty guidance and mentoring so they are more able to attain a certification.
This course is repeatable for 6 credits.
TRAL 351. OUTDOOR RECREATION MANAGEMENT ON PUBLIC LANDS. (3 Credits)
Explores current issues and problems in outdoor recreation management on public lands and approaches to address these. Emphasis on day-to-day, field-based management of recreation resources, rather than broad-scale planning.
Prerequisites: TRAL 251 with C- or better or FES 251 with C- or better
Equivalent to: FES 351

TRAL 352. WILDERNESS MANAGEMENT. (3 Credits)
Wilderness as land use concept. Wilderness history, preservation, planning and management. Wilderness in the context of other land uses.
Equivalent to: FES 352

TRAL 353. NATURE, ECO, AND ADVENTURE TOURISM. (3 Credits)
Introduces students to natural resource-based tourism issues in both domestic and international contexts. Explores distinctions between nature, eco, and adventure tourism and other forms of tourism, positive and negative impacts, and contemporary issues such as accreditation/certification, and sustainable design.
Equivalent to: FES 353

TRAL 354. COMMUNITIES, NATURAL AREAS, AND SUSTAINABLE TOURISM. (3 Credits)
Introduces students to macro-level community and regional issues associated with tourism in natural areas. Explores positive and negative community impacts associated with tourism, traditional government-based tourism management and policies; community-based tourism management, and partnerships and stakeholder collaboration. Domestic and international examples are used to illustrate concepts and principles.
Equivalent to: FES 354

TRAL 357. *PARKS AND PROTECTED AREAS MANAGEMENT. (3 Credits)
Provides a broad yet comprehensive understanding of the theories, problems, and techniques of managing parks, wild and scenic rivers, wilderness, and other protected areas. Covers the evolution of policies and recent issues in management of these protected areas, in the United States and around the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: FES 357

TRAL 370. DESIGN AND MANAGEMENT OF OUTDOOR EXPERIENCES. (4 Credits)
Introduction to pedagogical, administrative, and organizational knowledge, skills, and dispositions for effective design and management of effective short and extended duration outdoor experiences in wilderness-like areas. Covers personnel logistics, site planning, itinerary planning, educational and skills progression, communication with volunteers and program contacts, budgets.
Prerequisites: TRAL 280 with C or better or TOL 375 with C or better
Equivalent to: TOL 370
Recommended: Junior standing

TRAL 372. ETHICS AND ADVENTURE LEADERSHIP. (3 Credits)
Examines ethical issues and situations inherent in adventure leadership and other experiential education settings. Leading adventure programs entails judgment-laden decisions that are made every hour of every day concerning participants, leaders, and programs. Students will become familiar with predominant ethical theories and apply these theories to practical situations with a view to assessing the values that influence their decisions and subsequent actions. Students will better understand how their decisions influence their professional work and those of others within the context of adventure leadership.
Equivalent to: TOL 372
Recommended: TOL 375 or TRAL 375 or other writing intensive course

TRAL 373. WILDERNESS AND ADVENTURE EDUCATION. (4 Credits)
Rationale for and methods used in the application of wilderness and outdoor adventure education programs in education, recreation, corporate and human service settings. Covers historical and contemporary philosophies and practices in adventure education, with a primary emphasis on outdoor adventure education. Explores the educational, social, and ethical consequences of outdoor adventure education programs. Also explores the role of wilderness in the context of the United States and differing views of what constitutes wilderness from an international perspective.
Equivalent to: TOL 373
Recommended: TRAL 375 or TOL 375

TRAL 374. OUTDOOR ADVENTURE EDUCATION. (3 Credits)
Rationale for and methods used in the application of outdoor adventure education programs in education, recreation, corporate and human service settings. Historical and contemporary philosophies and practices in outdoor adventure education. Explores the educational, social, and ethical consequences of outdoor adventure education programs.
Examines outdoor adventure education in the context of the United States and differing paradigms informing the practice in other cultures internationally. Presents current research in outdoor adventure education.
Prerequisites: TRAL 130 with C or better and TRAL 132 [C] and TRAL 215 [C]

TRAL 375. *EXPERIENTIAL EDUCATION. (4 Credits)
Theory, techniques, and practice of experiential education. Students will define learning objectives, design curriculum, develop teaching materials, and effectively teach a variety of audiences. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: TOL 375

TRAL 377. EXPEDITIONS I WATER. (5 Credits)
A field-based course that develops the knowledge, skills, and dispositions needed to safely and effectively lead, and participate in, an extended water-based expedition of one week or longer. Technical skill emphasis is on whitewater kayaks and/or rafts and/or canoes with an additional focus on swift water rescue skills.
Prerequisites: TRAL 370 with C or better and TRAL 260 [C]
Corequisites: TRAL 379
Recommended: MTH 111

TRAL 378. TOURISM AND RECREATION DATA ANALYSIS. (3 Credits)
Introduces students to descriptive and inferential statistics. The focus is on 1) applying relevant statistical analyses to tourism and recreation data and 2) interpreting results.
Equivalent to: TOL 378
Recommended: MTH 111

TRAL 379. EXPEDITIONS II-LAND. (10 Credits)
This is a field-based course that develops the knowledge, skills, and dispositions needed to safely and effectively lead and participate in an extended backcountry expedition of three weeks or longer. Emphasis is on mountaineering skills in a backcountry context.
Prerequisites: TRAL 370 with C or better
Corequisites: TRAL 377
Equivalent to: TOL 379

TRAL 399. SPECIAL TOPICS. (0-16 Credits)
Topics of current importance in tourism, recreation, and/or adventure leadership education. Topics will change from term to term. May be repeated with different topics for credit. This course is repeatable for 16 credits.
TRAL 401. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Equivalent to: TOL 401
This course is repeatable for 16 credits.

TRAL 406. PROJECTS. (1-16 Credits)
Equivalent to: TOL 406
This course is repeatable for 16 credits.

TRAL 410. INTERNSHIP. (1-16 Credits)
Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of university and agency personnel. Graded P/N.
Equivalent to: TOL 410
This course is repeatable for 16 credits.

Recommended: FES 251 and FES 351 and FES 356 and FOR 391 and FOR 407

TRAL 432. ECONOMICS OF RECREATION AND TOURISM. (3 Credits)
Applications of economic theory, concepts, and methods to outdoor recreation and nature-based tourism resources, projects and plans. Key topics include analyses of economic impacts, benefits and costs, demand and supply, and non-market valuation (e.g., revealed, stated, and benefit transfer methods).
Equivalent to: FES 432
Recommended: (AEC 350, ECON 201 or 201H) and (ST 202 or 202H)

TRAL 456. PLANNING FOR SUSTAINABLE RECREATION. (4 Credits)
Concepts related to the creation and design of outdoor recreation plans. Techniques for collecting data pertaining to visitor experiences and preferences. Recreation planning at several levels, both for public and private lands, with emphasis on larger scale site planning where recreation is integrated with other resource uses. Lec/lab.
Prerequisites: TRAL 251 with C- or better or FES 251 with C- or better
Equivalent to: FES 456

TRAL 457. PLANNING FOR SUSTAINABLE TOURISM. (4 Credits)
Examines relationships among tourists, tourism developments, and the planning of tourist attractions and services. Focuses on planning tourist resources and programs within a geographic region, as well as at both the destination and site levels. Planning tools and design concepts are reviewed, analyzed, and applied. Lec/lab.
Prerequisites: TRAL 251 with C or better or FES 251 with C or better
Equivalent to: FES 457

TRAL 474. ENTREPRENEURSHIP IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP. (3 Credits)
Creation and management of tourism and outdoor leadership businesses. Covers principles of running a successful business and includes special considerations for operations on public lands (e.g., concessionaires).
Equivalent to: TOL 474
Recommended: BA 101

TRAL 476. RISK MANAGEMENT IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP. (3 Credits)
Risk management in tourism and outdoor leadership from an operational perspective. Focuses on risk in tourism and outdoor education programs as a contributing factor for learning, growth, and satisfaction of client motivations. Covers the nature of accidents in outdoor settings, addresses the practitioner’s perspective of risk in the field, and describes theories and methods of implementing risk management. Covers the ethics of utilizing risk and potentially dangerous activities as a basis for enhancing client education and experience.
Equivalent to: TOL 476

TRAL 477. ADVENTURE THERAPY. (3 Credits)
Provides students with an overview of adventure therapy, including its history, theory, current status and future trends. Includes program design, ethical issues, and best practices in the field.
Equivalent to: TOL 477

TRAL 478. LEGAL ISSUES IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP. (3 Credits)
Covers the legal dimensions of tourism and outdoor leadership activities. Students will learn about the civil and criminal judicial system from a tourism and outdoor leadership perspective. They will learn to apply risk management methodologies and instruments, such as contracts, insurance, waivers and releases to address legal liability. The basic principles of intentional and negligent torts will be discussed, with an emphasis on practical applications. Also covers employment issues and general business law, including business structure and the use of entities as liability shields.
Prerequisites: TRAL 375 with C- or better or TOL 375 with C- or better
Equivalent to: TOL 478

TRAL 493. ENVIRONMENTAL INTERPRETATION. (4 Credits)
Interpretation of natural and cultural features in parks, museums, and similar settings. Emphasis on learning and applying effective communication techniques in the development of brochures, exhibits, talks, museums, and visitor centers.
Equivalent to: FES 493

TRAL 499. SPECIAL TOPICS. (1-16 Credits)
Topics of current importance in forest resources issues, education, policies, economics, management, business, social values, silviculture, and biometrics. Topics will change from term to term. May be repeated with different topics for credit. Section 8: Social aspects of natural resource management (3 credits) graded.
Equivalent to: TOL 499
This course is repeatable for 16 credits.

TRAL 593. ENVIRONMENTAL INTERPRETATION. (4 Credits)
Interpretation of natural and cultural features in parks, museums, and similar settings. Emphasis on learning and applying effective communication techniques in the development of brochures, exhibits, talks, museums, and visitor centers.
Equivalent to: FES 593

Toxicology (TOX)

TOX 003. UNDERGRADUATE RESEARCH. (0 Credits)
Students engage in research activities appropriate to their discipline; and through the research experience, to acquire skills, techniques, and knowledge relevant to their field of study. In consultation with a faculty mentor, students will engage in research activity, and make and execute a plan for a project.
TOX 230X. HUMANS AND THE OCEAN. (3 Credits)
An introduction to marine science and the history of humans’ interaction with the ocean. Lectures, group and individual library research, fieldtrips, and assignments will collate approaches from marine science, history, literary study, and other scientific and humanistic disciplines to introduce course material. Topics include oceanographic exploration, fishing and overfishing, and marine pollution. CROSSLISTED as ENG 230X/FW 230X/TOX 230X.
Equivalent to: ENG 230X, FW 230X

TOX 360. *THE WORLD OF POISONS. (3 Credits)
Provides a basic understanding of how we are exposed and respond to chemicals, examples of human diseases associated with toxic insult, the role of technology and the interface of society and toxicology in risk perception and legislation. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: One 3-credit course in chemistry or one 3-credit course in biology.

TOX 401. RESEARCH. (1-16 Credits)
Equivalent to: AC 401
This course is repeatable for 16 credits.

TOX 405. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: AC 405
This course is repeatable for 16 credits.

TOX 411. FUNDAMENTALS OF TOXICOLOGY. (3 Credits)
Introduction to the discipline of toxicology. Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations.
Prerequisites: BB 350 (may be taken concurrently) with D- or better or BB 450 (may be taken concurrently) with D- or better or BB 490 (may be taken concurrently) with D- or better

TOX 413. ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT. (3 Credits)
Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed.
Prerequisites: TOX 411 with D- or better

TOX 429. TOXIC SUBSTANCES IN FOOD. (3 Credits)
Toxicology and epidemiology of human exposures to pesticides and food toxicants.
Prerequisites: BB 350 (may be taken concurrently) with D- or better or BB 450 (may be taken concurrently) with D- or better or BB 490 (may be taken concurrently) with D- or better
Equivalent to: TOX 429H

TOX 430. CHEMICAL BEHAVIOR IN THE ENVIRONMENT. (3 Credits)
Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment.
Prerequisites: CH 123 with D- or better or CH 331 with D- or better

TOX 435. *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK. (3 Credits)
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FES 435, FES 435H, TOX 435H
Recommended: One quarter each of biology and chemistry

TOX 435H. *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK. (3 Credits)
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: BI 435, BI 435H, FES 435, FS 435, FS 435H, TOX 435
Recommended: One quarter each of biology and chemistry

TOX 455. ECOTOXICOLOGY: AQUATIC ECOSYSTEMS. (3 Credits)
Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish.
Prerequisites: CH 331 with D- or better

TOX 480. COMPUTATIONAL TOXICOLOGY AND RISK ASSESSMENT. (3 Credits)
Provides an in-depth understanding of the current systems biology paradigm for chemical risk and drug safety assessment. Learn about novel technologies in computational chemistry, molecular biology and systems biology used to develop methods for risk assessment, including approaches for chemical prioritization for screening and testing, predictive models for high-throughput hazard identification and utilization of “big data” to determine chemical mechanisms of action and toxicity pathways. Apply these approaches to specific case studies in risk analysis, environmental health and toxicology.
Recommended: One year college chemistry and biology plus introductory toxicology or biochemistry

TOX 490. ENVIRONMENTAL FORENSIC CHEMISTRY. (3 Credits)
Principles of Good Laboratory Practice Standards, methodology, utility and limitations of chemical forensic methods as applied to real investigations.
Recommended: One year of college chemistry and one term of organic chemistry.

TOX 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

TOX 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

TOX 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

TOX 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

TOX 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 511. FUNDAMENTALS OF TOXICOLOGY. (3 Credits)
Introduction to the discipline of toxicology. Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations.
Prerequisites: BB 550 (may be taken concurrently) with C or better or BB 590 (may be taken concurrently) with C or better
TOX 512. TARGET ORGAN TOXICOLOGY. (3 Credits)
Examination of toxicological effects of chemicals at organ level. Normal physiology of the organ system is received.
Prerequisites: TOX 511 with C or better
TOX 513. ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT. (3 Credits)
Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed.
Prerequisites: TOX 511 with C or better
TOX 529. TOXIC SUBSTANCES IN FOOD. (3 Credits)
Toxicology and epidemiology of human exposures to pesticides and food toxicants.
Recommended: Completion or concurrent enrollment in BB 350, BB 450 or BB 490
TOX 530. CHEMICAL BEHAVIOR IN THE ENVIRONMENT. (3 Credits)
Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment.
Recommended: CH 106 and CH 331 and graduate standing.
TOX 535. GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK. (3 Credits)
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535.
Equivalent to: BI 535, FES 535, FS 535, MCB 535
Recommended: One quarter each of biology and chemistry
TOX 555. ECOTOXICOLOGY: AQUATIC ECOSYSTEMS. (3 Credits)
Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish.
Recommended: CH 331
TOX 557. SCIENTIFIC SKILLS AND ETHICS. (3 Credits)
Acquire a multitude of skills to launch and maintain productive extramurally funded careers as research scientists. Explore the ethical practices, data sharing approaches, and compliance requirements needed to conduct research. Examine the ethical use of human subjects and animals in research. Explore the changing landscape of intellectual property and commercialization policies for scientists. Introduces communication strategies for effective interactions with scientific peers, the general public and research sponsors.
Equivalent to: MCB 557
TOX 575. ADVANCED XENOBIOTIC METABOLISM AND DISPOSITION. (2 Credits)
Course will focus on structure, function and regulation of specific proteins that function in uptake, distribution, metabolism, and excretion of drugs and other chemicals that are foreign to the body (xenobiotics). The course will focus on proteins which are termed Phase I and Phase II xenobiotic metabolizing enzymes and xenobiotic transporters. There will be an emphasis on Cytochrome P450 enzymes and hepatic and renal xenobiotic transporter proteins and their key roles in xenobiotic metabolism and excretion.
Recommended: TOX 512
TOX 580. COMPUTATIONAL TOXICOLOGY AND RISK ASSESSMENT. (3 Credits)
Provides an in-depth understanding of the current systems biology paradigm for chemical risk and drug safety assessment. Learn about novel technologies in computational chemistry, molecular biology and systems biology used to develop methods for risk assessment, including approaches for chemical prioritization for screening and testing, predictive models for high-throughput hazard identification and utilization of “big data” to determine chemical mechanisms of action and toxicity pathways. Apply these approaches to specific case studies in risk analysis, environmental health and toxicology.
Recommended: One year college chemistry and biology plus introductory toxicology or biochemistry
TOX 590. ENVIRONMENTAL FORENSIC CHEMISTRY. (3 Credits)
Principles of Good Laboratory Practice Standards, methodology, utility and limitations of chemical forensic methods as applied to real investigations.
Recommended: One year of college chemistry and one term of organic chemistry.
TOX 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 601. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 603. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.
TOX 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 611. TESTING FOR GENOTOXICITY. (4 Credits)
A lab-based course geared toward toxicology, biochemistry, biology, food science, nutrition, pharmacy and MCB students. Introduces principles and methods of several key assays used to screen for DNA damage and mutation. These tests will include the following: (i) Salmonella mutagenicity assay (‘Ames test’), (ii) single cell gel electrophoresis (‘comet’) assay, (iii) micronucleus assay, and (iv) PCR-based single strand conformation polymorphism (SSCP) screening for oncogene/tumor suppressor gene mutation in cancers. This 2-week, intensive lab/lecture class runs Mon-Fri in the LPSC during the first session of summer term. Each day includes laboratory work and a 2-hour lecture covering basic principles of the assays, as well as technical details of the experiment for the day.
Prerequisites: TOX 514 with C or better
Recommended: BB 400 series, prior course work on DNA repair and mutagenesis
TOX 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.
TOX 808. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

Twentieth Century Studies (TCS)

TCS 407. SEMINAR. (1-12 Credits)
Advanced study of selected topics related to issues and problems in the twentieth century introduced in TCS core course offerings. Section I seminars will be graded pass/no pass and carry 1 credit; other sections will be graded A-F and will carry variable credit.
This course is repeatable for 16 credits.

TCS 507. SEMINAR. (1-12 Credits)
Advanced study of selected topics related to issues and problems in the Twentieth Century introduced in TCS core course offerings. Section I seminars will be graded P/N and carry 1 credit; other sections will be graded A-F and will carry variable credit.
This course is repeatable for 16 credits.

University Experience (UEXP)

UEXP 111. INTRODUCTION TO RESIDENTIAL EDUCATION. (2 Credits)
Provides an interactive learning environment where participants will both acquire and apply the fundamental knowledge necessary to effectively assist college students as they navigate through their collegiate experiences in a residential setting.

UEXP 199. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

UEXP 290. INFORMATION AND GLOBAL SOCIAL JUSTICE. (3 Credits)
In preparing for any trip, many questions come up. In this course you will ask yourself questions, from the simple to the more complex. We will begin class on the OSU campus and continue on location in Spain or Italy. In-country, you will immerse in the local culture via a homestay, participate in service-learning, visit museums, explore cultural and historic locations, and attend lectures. While seeking answers to our questions we will reflect on the forces (politics, access, linguistic, economic, etc.) that affect the information available to us. This class has no language requirement.

UEXP 299. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

UEXP 399. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

UEXP 406. SPECIAL PROJECTS. (2 Credits)
Trains new ambassadors to lead campus and housing tours. Creates educated, ethically and morally responsible, fully confident TOUR (Team of Undergraduate Recruiters) Ambassadors who are engaged, reflective, creative, and caring members of their communities who can contribute to the success of prospective and new students.

UEXP 407. SEMINAR. (1-16 Credits)
Equivalent to: AHE 407
This course is repeatable for 16 credits.

UEXP 410. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

UEXP 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

Veterinary Medicine Biomedical (VMB)

VMB 110. PREVETERINARY MEDICINE. (1 Credit)
Introduction to the profession’s role in society. Graded P/N.
Equivalent to: VM 110

VMB 328. WILDLIFE CAPTURE AND IMMOBILIZATION. (2 Credits)
Manual and chemical restraint methods are covered with an emphasis on darting equipment, animal and human safety, drug pharmacology and species specific recommendations. CROSSTLISTED as FW 328/VMB 328.
Equivalent to: FW 328
This course is repeatable for 4 credits.

VMB 401. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

VMB 415. ONE HEALTH IN PRACTICE. (3 Credits)
One health is the concept that human, animal and environmental health are all intertwined. Utilizes current one health issues such as disease outbreaks and antimicrobial resistance to encourage students from diverse fields to develop interdisciplinary collaboration and communication skills. CROSSTLISTED as BHS 415/VMB 415.
Equivalent to: BHS 415

VMB 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

VMB 501. RESEARCH. (1-16 Credits)
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMB 503. THESIS. (1-12 Credits)
Equivalent to: VM 503
This course is repeatable for 999 credits.

VMB 504. WRITING AND CONFERENCE (NON-THESIS). (1-9 Credits)
This course is repeatable for 9 credits.

VMB 505. READING AND CONFERENCE. (1-16 Credits)
Graded P/N.
Equivalent to: VM 505
This course is repeatable for 16 credits.

VMB 517. VETERINARY PHYSIOLOGY. (5 Credits)
Physiology of body fluids, muscles, membranes, intermediary metabolism, cardiovascular system, and metabolism.
Equivalent to: VM 517

VMB 518. VETERINARY PHYSIOLOGY. (5 Credits)
Physiology of gastrointestinal, endocrine and reproductive systems.
Prerequisites: VMB 517 with C or better
Equivalent to: VM 518

VMB 519. VETERINARY PHYSIOLOGY. (4 Credits)
Physiology of respiratory and renal systems and acid-base balance.
Prerequisites: VMB 518 with C or better
Equivalent to: VM 519
VM 521. ANIMAL MODELS. (3 Credits)
Selection/use criteria for models describing animal or human diseases or processes with emphasis on experimental design, validation, transgenic technology, population dynamics, husbandry, and ethics.

VM 523. ZOONOSES. (3 Credits)
Interactive examination of the molecular basis of diseases that are transmissible between animals and humans. Emphasis on bacterial, viral and parasitic pathogens of animals and humans.

VM 601. RESEARCH. (1-16 Credits)
Graded P/N.
Equivalent to: VM 601
This course is repeatable for 16 credits.

VM 603. THESIS. (1-16 Credits)
Equivalent to: VM 603
This course is repeatable for 999 credits.

VM 604. WRITING AND CONFERENCE (NON-THESIS). (1-9 Credits)
This course is repeatable for 9 credits.

VM 605. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: VM 605
This course is repeatable for 16 credits.

VM 606. PROJECTS. (1-16 Credits)
Graded P/N.
Equivalent to: VM 606
This course is repeatable for 16 credits.

VM 607. SEMINAR. (1-16 Credits)
One-credit section; VMB 607 Sect. 1. Graded P/N.
Equivalent to: VM 607
This course is repeatable for 16 credits.

VM 611. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 611

VM 612. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 612

VM 613. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 613

VM 614. VETERINARY MICROSCOPIC ANATOMY. (4 Credits)
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 614

VM 615. VETERINARY MICROSCOPIC ANATOMY. (3 Credits)
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 615

VM 616. VETERINARY NEUROSCIENCES. (4 Credits)
Structural and functional relationships of the nervous system and organs of special sense with emphasis on general clinical application.

VM 620. VETERINARY IMMUNOLOGY. (5 Credits)
Clinical and diagnostic aspects of immunological mechanisms, serological reactions; hypersensitivity, allergy, and disorders of the immune system.
Equivalent to: VM 620

VM 621. GENERAL PATHOLOGY. (4 Credits)
General principles of pathology, cell injury and death, inflammation and tissue repair, abnormalities of cell growth, and structures and mechanisms of disease.
Equivalent to: VM 621

VM 622. PATHOLOGY LABORATORY. (1 Credit)
Laboratory instruction to complement VM 621.
Prerequisites: VM 611 (may be taken concurrently) with C or better
Equivalent to: VM 622

VM 624. ANTIBIOTIC STEWARDSHIP. (1 Credit)
Elective course for students to learn about significant aspects of antibiotic resistance. Intended to become part of the “One Health Program”, resulting in the ability to create a plan for effective antibiotic stewardship as it relates to human, animal, and environmental health.

VM 627. ORNAMENTAL FISH MEDICINE. (2 Credits)
An introduction to the basic principles of ornamental fish medicine including basic husbandry, handling and clinical procedures. This is a 1-week intensive course held at the Hatfield Marine Science Center in Newport, Oregon. Graded P/N.

VM 630. MECHANISMS OF DISEASE. (3 Credits)
Cellular and molecular events that contribute to the pathogenesis of disease in animals, including humans. Host interactions with infectious agents and the environment.
Equivalent to: VM 630

VM 631. MATHEMATICAL MODELING OF BIOLOGICAL SYSTEMS. (3 Credits)
The use of mathematical modeling in biological sciences is studied. A variety of modeling techniques are covered including implementing the methods computationally.

VM 640. SEMINARS IN LABORATORY ANIMAL MEDICINE. (2 Credits)
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment of research animals.

VM 641. SEMINARS IN LABORATORY ANIMAL MEDICINE. (2 Credits)
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment for research animals.

VM 642. SEMINARS IN LABORATORY ANIMAL MEDICINE. (2 Credits)
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment for research animals.

VM 651. SELECTED TOPICS IN VETERINARY MEDICINE. (3 Credits)
Topics vary; check Schedule of Classes for particular topics.
Equivalent to: VM 651

VM 652. CANCER SYSTEMS BIOLOGY. (3 Credits)
Overview of systems biology approaches that are being used to study cancer, with an emphasis on omics techniques and fundamental mechanisms in the origination and progression of cancer. Discussion-based, with each class session focused on a contemporary research article in the field of cancer systems biology.

VM 653. VETERINARY VIROLOGY. (4 Credits)
Virology for the professional and graduate student.

VM 659. VETERINARY BACTERIOLOGY AND MYCOLOGY. (5 Credits)
Veterinary bacteriology and mycology for the veterinary graduate student.
VMB 660. VETERINARY PARASITOLOGY. (5 Credits)
A study of the parasitic diseases of domestic animals with an emphasis on diagnosis and treatment. Fundamentals in host-parasite interactions, taxonomy and life cycle strategies are covered.

VMB 663. VETERINARY DIAGNOSTIC PATHOLOGY. (6 Credits)
Practical hands-on course training students in the diagnostic pathology utilizing case material received at the OSU Veterinary Diagnostic Lab. Graded P/N.

VMB 664. COMPARATIVE MICROSCOPIC PATHOLOGY. (1 Credit)
Case-based discussion course to train participants in the recognition, description, and pathogenesis of a wide variety of disease processes with an emphasis on microscopic features. Graded P/N. 
This course is repeatable for 4 credits.

VMB 665. READINGS IN VETERINARY PATHOLOGY. (1 Credit)
Group discussions of assigned readings central to understanding of veterinary pathology, including recent advances. Graded P/N. 
This course is repeatable for 6 credits.

VMB 666. VETERINARY MEDICINE AND PUBLIC HEALTH. (3 Credits)
Covers aspects of veterinary medicine that affect human health. An understanding of the contribution of the veterinary profession to human (public) health will enable students to play an effective role in this area, regardless of career direction.

VMB 667. VETERINARY EPIDEMIOLOGY. (3 Credits)
A course for veterinary students describing the factors determining the frequency and distribution of diseases, in a defined population of animals for the purpose of establishing programs to prevent and control their development and spread in this population.

VMB 669. INTRODUCTION TO GRANT PROPOSAL WRITING. (2 Credits)
To introduce students to the fundamentals of writing grant proposals to the National Institute of Health (NIH), different funding mechanisms, as well as the grant reviewing process. CROSSLISTED as PHAR 669/ VMB 669.
Equivalent to: PHAR 669
This course is repeatable for 20 credits.

VMB 670. INTRODUCTION TO SYSTEMS BIOLOGY. (2 Credits)
Students will gain a high-level overview of systems biology and bioinformatics, with an emphasis on biomedical applications, integration of ‘omics’ approaches, and biological networks.

VMB 671. MOLECULAR TOOLS. (3 Credits)
Intended for personnel with some scientific background who are seeking basic- and advanced-level molecular biology knowledge and who wish to become involved with molecular biology-related and biotechnological research. CROSSLISTED as MCB 671/VMB 671.
Equivalent to: MCB 671

VMB 672. MOLECULAR APPROACH TO CANCER. (1 Credit)
Overview of cancer pathogenesis and current molecular techniques to diagnose and treat various neoplasms is provided. Content will include both veterinary and human data and concepts. Discussion/Lab. Graded P/N.

VMB 673. COMPARATIVE IMMUNOLOGY. (3 Credits)
Examines immune system function in animals other than mice and men with a focus on adapting cutting-edge technologies.

VMB 674. VACCINES AND NEW THERAPIES. (3 Credits)
Provides students with a cohesive understanding of the basic research behind the discovery of new therapeutic targets and scientific advancements used in development of vaccines and new therapies.

VMB 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 99 credits.

VMB 701. RESEARCH. (1-16 Credits)
Equivalent to: VM 701
This course is repeatable for 16 credits.

VMB 705. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: VM 705
This course is repeatable for 16 credits.

VMB 706. PROJECTS. (1-16 Credits)
Equivalent to: VM 706
This course is repeatable for 16 credits.

VMB 709. VETERINARY MEDICINE ORIENTATION. (1 Credit)
An overview of veterinary medicine with emphasis on historical development, current veterinary medical issues, employment opportunities, and professionalism. Graded P/N.

VMB 711. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 711

VMB 712. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken. Lec/lab.
Equivalent to: VM 712

VMB 713. VETERINARY GROSS ANATOMY. (4 Credits)
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken. Lec/lab.
Equivalent to: VM 713

VMB 714. VETERINARY MICROSCOPIC ANATOMY. (4 Credits)
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 714

VMB 715. VETERINARY MICROSCOPIC ANATOMY. (3 Credits)
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 715

VMB 716. VETERINARY NEUROSCIENCES. (4 Credits)
Structural and functional relationships of the nervous system and organs of special sense with emphasis on general clinical application.
Equivalent to: VM 716

VMB 717. VETERINARY PHYSIOLOGY. (5 Credits)
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation.
Equivalent to: VM 717

VMB 718. VETERINARY PHYSIOLOGY. (5 Credits)
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation. Lec/lab.
Equivalent to: VM 718

VMB 719. VETERINARY PHYSIOLOGY. (4 Credits)
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation. Lec/lab.
Equivalent to: VM 719
VMB 720. VETERINARY IMMUNOLOGY. (5 Credits)
Clinical and diagnostic aspects of immunological mechanisms,
serological reactions, hypersensitivity, allergy, and disorders of the
immune system. Lec/lab.
Equivalent to: VM 720

VMB 721. VETERINARY PATHOLOGY. (5 Credits)
Basic mechanisms and concepts relating to reaction of cells and
tissues to disease, with emphasis on cellular and tissue degeneration,
inflammatory reaction, circulatory disturbance and neoplasia. Lec/lab.
Equivalent to: VM 721

VMB 722. RESEARCH READING SKILLS FOR VETERINARY STUDENTS. (1 Credit)
Training in critical evaluation of biomedical and clinical research studies,
and understanding of laboratory diagnostic methods.

VMB 723. VETERINARY LEADERSHIP: INCLUSION, REFLECTION,
DEVELOPMENT. (1 Credit)
Focusing on diversity and inclusion, self-compassion, and effective
interpersonal communication in relationship to fostering leadership in
veterinary medicine. Graded P/N. This course is repeatable for 10 credits.

VMB 724. ANTIBIOTIC STEWARDSHIP. (1 Credit)
Elective course for students to learn about significant aspects of
antibiotic resistance. Intended to become part of the "One Health
Program", resulting in the ability to create a plan for effective antibiotic
stewardship as it relates to human, animal, and environmental health.

VMB 726. PET BIRD AND SMALL MAMMAL MEDICINE AND SURGERY. (2 Credits)
Medicine and surgery of pet birds and small animals. Graded P/N.

VMB 727. ORNAMENTAL FISH MEDICINE. (2 Credits)
An introduction to the basic principles of ornamental fish medicine
including basic husbandry, handling and clinical procedures. Graded P/N.

VMB 728. SPECIAL ANIMAL MEDICINE. (4 Credits)
Diagnosis, treatment, and management of special animals, including the
common laboratory animals.
Equivalent to: VM 728 This course is repeatable for 8 credits.

VMB 729. LAB ANIMAL/PRIMATE MEDICINE AND SURGERY. (3-12 Credits)
Designed to provide hands-on experience with a variety of laboratory
animal species including primates, rodents, ungulates, fish, and reptiles.
May be repeated up to 4 times for 3, 6, 9 or 12 credits per term. 12 credits
maximum apply toward graduation. Graded P/N. This course is repeatable for 12 credits.

VMB 730. LARGE ANIMAL MEDICINE AND SURGERY LABORATORY. (1 Credit)
Development of physical examination skills and common diagnostic and
surgical procedures for domestic large animal species.

VMB 736. DIAGNOSTIC CLINICAL PATHOLOGY. (2 Credits)
One week clinical experience in clinical pathology, cytology, urinalysis,
clinical chemistry interpretation and hematology. Lec/lab.
Equivalent to: VM 736

VMB 740. VETERINARY INTEGRATED PROBLEM SOLVING. (1 Credit)
The first of three 1-credit courses in problem solving and integration of
clinical cases and basic sciences in the veterinary curriculum.
Equivalent to: VM 740

VMB 741. VETERINARY INTEGRATED PROBLEM SOLVING. (1 Credit)
The second of three 1-credit courses in problem solving and integration of
clinical cases and basic sciences in the veterinary curriculum.
Equivalent to: VM 741

VMB 742. VETERINARY INTEGRATED PROBLEM SOLVING. (1 Credit)
The third of three 1-credit courses in problem solving and integration of
clinical cases and basic sciences in the veterinary curriculum. Graded P/N.
Equivalent to: VM 742

VMB 743. VETERINARY INTEGRATED PROBLEM SOLVING. (1 Credit)
A course in problem solving and integration of clinical cases and basic
sciences in the veterinary curriculum. Students learn through interaction
with their peers and with independent study outside of class. Graded P/N.
Equivalent to: VM 743 This course is repeatable for 4 credits.

VMB 744. VETERINARY INTEGRATED PROBLEM SOLVING. (1 Credit)
A course in problem solving and integration of clinical cases and basic
sciences in the veterinary curriculum. Students learn through interaction
with their peers and with independent study outside of class. Graded P/N.
Equivalent to: VM 744

VMB 745. COMMUNICATIONS FOR VETERINARIANS. (1 Credit)
Communications and problem solving for the third-year veterinary
student. Graded P/N.

VMB 749. WILDLIFE SAFARI. (2 Credits)
Clinical training in the care of exotic and zoo animal species. Graded P/N.

VMB 750. SYSTEMIC PATHOLOGY I. (4 Credits)
Examines the principles of system and organ responses to injury and the
consequent effects of these changes on the host.
Equivalent to: VM 7500

VMB 751. SYSTEMIC PATHOLOGY II. (5 Credits)
Examines the principles of system and organ responses to injury and the
consequent effects of these changes on the host.
Equivalent to: VM 751

VMB 753. VETERINARY VIROLOGY. (4 Credits)
Virology for the professional DVM student.
Equivalent to: VM 753

VMB 756. ADVANCED CLINICAL PATHOLOGY. (1 Credit)
One-week rotation in advanced clinical pathology: cytology, hematology
and clinical chemistry interpretation. Graded P/N.
Prerequisites: VM 736 with C or better

VMB 759. VETERINARY BACTERIOLOGY AND MYCOLOGY. (5 Credits)
Bacteriology and mycology for the professional DVM student.
Equivalent to: VM 759

VMB 760. VETERINARY PARASITOLOGY. (5 Credits)
A study of the parasitic diseases of domestic animals with an emphasis
on diagnosis and treatment. Fundamentals in host-parasite interactions,
taxonomy and life cycle strategies are covered.
Equivalent to: VM 760

VMB 761. VETERINARY PHARMACOLOGY. (2 Credits)
Fundamentals of pharmacology as related to veterinary medicine
presented in a systems-oriented approach with drug therapy in domestic
animals.
Equivalent to: VM 761
VMB 762. VETERINARY PHARMACOLOGY II. (4 Credits)
Fundamentals of pharmacology as related to veterinary medicine presented in a systems-oriented approach with drug therapy in domestic animals.
Equivalent to: VM 762

VMB 763. VETERINARY CLINICAL PATHOLOGY. (4 Credits)
Clinical pathology for the professional DVM student.
Equivalent to: VM 763

VMB 765. VETERINARY TOXICOLOGY. (4 Credits)
A study of toxic agents, mechanisms of action, toxicosis and treatments, especially as related to domestic and wild animals, with principles of toxicity testing, clinical diagnosis, and identification of poisonous plants. Lec/lab.
Equivalent to: VM 765

VMB 766. EPIDEMIOLOGY AND PUBLIC HEALTH. (3 Credits)
Examination of the application of epidemiology to the field of veterinary medicine and the study of important veterinary public health issues.
Equivalent to: VM 766

VMB 767. VETERINARY EPIDEMIOLOGY. (3 Credits)
Examines factors determining the frequency and distribution of diseases in a defined population of animals for the purpose of establishing programs to prevent and control their development and spread in this population.
Equivalent to: VM 767

VMB 768. BASIC HISTOPATHOLOGY. (1 Credit)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species. Graded P/N.
Prerequisites: VMB 751 with C or better

VMB 769. ANIMAL GENOMICS. (1 Credit)
Discussion about the dog and cow genomes, susceptibility to diseases, and the possibilities and techniques for treatment of medical conditions by gene transfer and modification.

VMB 772. INTERNATIONAL VETERINARY MEDICINE. (2 Credits)
Veterinary students work with veterinarians and domestic animals in international settings. Graded P/N.
This course is repeatable for 4 credits.

VMB 774. LABORATORY ANIMAL MEDICINE. (6 Credits)
Clinical experience related to diagnosis, treatment, and management of laboratory animals. Graded P/N.
Equivalent to: VM 774

VMB 786. ADVANCED HISTOPATHOLOGY. (2 Credits)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species.

VMB 795. DIAGNOSTIC SERVICES. (2 Credits)
Students will perform service duty in the necropsy area of the Veterinary Diagnostic Laboratory and will perform necropsies on delivered specimens. Other activities.

Veterinary Medicine Clinical (VMC)

VMC 501. RESEARCH. (1-16 Credits)
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMB 763. VETERINARY CLINICAL PATHOLOGY. (4 Credits)
Clinical pathology for the professional DVM student.
Equivalent to: VM 763

VMB 765. VETERINARY TOXICOLOGY. (4 Credits)
A study of toxic agents, mechanisms of action, toxicosis and treatments, especially as related to domestic and wild animals, with principles of toxicity testing, clinical diagnosis, and identification of poisonous plants. Lec/lab.
Equivalent to: VM 765

VMB 766. EPIDEMIOLOGY AND PUBLIC HEALTH. (3 Credits)
Examination of the application of epidemiology to the field of veterinary medicine and the study of important veterinary public health issues.
Equivalent to: VM 766

VMB 767. VETERINARY EPIDEMIOLOGY. (3 Credits)
Examines factors determining the frequency and distribution of diseases in a defined population of animals for the purpose of establishing programs to prevent and control their development and spread in this population.
Equivalent to: VM 767

VMB 768. BASIC HISTOPATHOLOGY. (1 Credit)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species. Graded P/N.
Prerequisites: VMB 751 with C or better

VMB 769. ANIMAL GENOMICS. (1 Credit)
Discussion about the dog and cow genomes, susceptibility to diseases, and the possibilities and techniques for treatment of medical conditions by gene transfer and modification.

VMB 772. INTERNATIONAL VETERINARY MEDICINE. (2 Credits)
Veterinary students work with veterinarians and domestic animals in international settings. Graded P/N.
This course is repeatable for 4 credits.

VMB 774. LABORATORY ANIMAL MEDICINE. (6 Credits)
Clinical experience related to diagnosis, treatment, and management of laboratory animals. Graded P/N.
Equivalent to: VM 774

VMB 786. ADVANCED HISTOPATHOLOGY. (2 Credits)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species.

VMB 795. DIAGNOSTIC SERVICES. (2 Credits)
Students will perform service duty in the necropsy area of the Veterinary Diagnostic Laboratory and will perform necropsies on delivered specimens. Other activities.

Veterinary Medicine Clinical (VMC)

VMC 501. RESEARCH. (1-16 Credits)
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMB 763. VETERINARY CLINICAL PATHOLOGY. (4 Credits)
Clinical pathology for the professional DVM student.
Equivalent to: VM 763

VMB 765. VETERINARY TOXICOLOGY. (4 Credits)
A study of toxic agents, mechanisms of action, toxicosis and treatments, especially as related to domestic and wild animals, with principles of toxicity testing, clinical diagnosis, and identification of poisonous plants. Lec/lab.
Equivalent to: VM 765

VMB 766. EPIDEMIOLOGY AND PUBLIC HEALTH. (3 Credits)
Examination of the application of epidemiology to the field of veterinary medicine and the study of important veterinary public health issues.
Equivalent to: VM 766

VMB 767. VETERINARY EPIDEMIOLOGY. (3 Credits)
Examines factors determining the frequency and distribution of diseases in a defined population of animals for the purpose of establishing programs to prevent and control their development and spread in this population.
Equivalent to: VM 767

VMB 768. BASIC HISTOPATHOLOGY. (1 Credit)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species. Graded P/N.
Prerequisites: VMB 751 with C or better

VMB 769. ANIMAL GENOMICS. (1 Credit)
Discussion about the dog and cow genomes, susceptibility to diseases, and the possibilities and techniques for treatment of medical conditions by gene transfer and modification.

VMB 772. INTERNATIONAL VETERINARY MEDICINE. (2 Credits)
Veterinary students work with veterinarians and domestic animals in international settings. Graded P/N.
This course is repeatable for 4 credits.

VMB 774. LABORATORY ANIMAL MEDICINE. (6 Credits)
Clinical experience related to diagnosis, treatment, and management of laboratory animals. Graded P/N.
Equivalent to: VM 774

VMB 786. ADVANCED HISTOPATHOLOGY. (2 Credits)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species.

VMB 795. DIAGNOSTIC SERVICES. (2 Credits)
Students will perform service duty in the necropsy area of the Veterinary Diagnostic Laboratory and will perform necropsies on delivered specimens. Other activities.

Veterinary Medicine Clinical (VMC)

VMC 501. RESEARCH. (1-16 Credits)
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMB 763. VETERINARY CLINICAL PATHOLOGY. (4 Credits)
Clinical pathology for the professional DVM student.
Equivalent to: VM 763

VMB 765. VETERINARY TOXICOLOGY. (4 Credits)
A study of toxic agents, mechanisms of action, toxicosis and treatments, especially as related to domestic and wild animals, with principles of toxicity testing, clinical diagnosis, and identification of poisonous plants. Lec/lab.
Equivalent to: VM 765

VMB 766. EPIDEMIOLOGY AND PUBLIC HEALTH. (3 Credits)
Examination of the application of epidemiology to the field of veterinary medicine and the study of important veterinary public health issues.
Equivalent to: VM 766

VMB 767. VETERINARY EPIDEMIOLOGY. (3 Credits)
Examines factors determining the frequency and distribution of diseases in a defined population of animals for the purpose of establishing programs to prevent and control their development and spread in this population.
Equivalent to: VM 767

VMB 768. BASIC HISTOPATHOLOGY. (1 Credit)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species. Graded P/N.
Prerequisites: VMB 751 with C or better

VMB 769. ANIMAL GENOMICS. (1 Credit)
Discussion about the dog and cow genomes, susceptibility to diseases, and the possibilities and techniques for treatment of medical conditions by gene transfer and modification.

VMB 772. INTERNATIONAL VETERINARY MEDICINE. (2 Credits)
Veterinary students work with veterinarians and domestic animals in international settings. Graded P/N.
This course is repeatable for 4 credits.

VMB 774. LABORATORY ANIMAL MEDICINE. (6 Credits)
Clinical experience related to diagnosis, treatment, and management of laboratory animals. Graded P/N.
Equivalent to: VM 774

VMB 786. ADVANCED HISTOPATHOLOGY. (2 Credits)
a rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species.

VMB 795. DIAGNOSTIC SERVICES. (2 Credits)
Students will perform service duty in the necropsy area of the Veterinary Diagnostic Laboratory and will perform necropsies on delivered specimens. Other activities.
VMC 684. TOPICS IN SURGERY. (2-4 Credits)
In-depth investigation of important topics in physiology, pathophysiology, treatment, diagnosis, and other aspects of surgery through investigation of primary literature and recent reviews.
This course is repeatable for 16 credits.

VMC 701. RESEARCH. (1-16 Credits)
Equivalent to: VM 701
This course is repeatable for 16 credits.

VMC 705. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: VM 705
This course is repeatable for 16 credits.

VMC 706. PROJECTS. (1-16 Credits)
Equivalent to: VM 706
This course is repeatable for 16 credits.

VMC 711. CLINICAL CARDIOLOGY. (1-4 Credits)
A one-week clinical elective rotation in cardiology at the Veterinary Teaching Hospital. May be repeated up to 4 times, two weeks or more is encouraged. Fourth-year standing in Veterinary Medicine required. This course is repeatable for 4 credits.

VMC 712. CLINICAL ONCOLOGY. (1-4 Credits)
A one-week elective clinical rotation in oncology at the Veterinary Teaching Hospital. May be repeated up to 4 times, two weeks or more is encouraged. Fourth-year standing in Veterinary Medicine required.
Prerequisites: VMC 778 with C or better
This course is repeatable for 4 credits.

VMC 714. SMALL ANIMAL DENTISTRY. (1 Credit)
A clinical course designed to provide students with hands-on training in diagnosis, treatment and prophylaxis of dental diseases of dogs and cats.

VMC 715. CASE STUDIES IN SMALL ANIMAL MEDICINE I. (1 Credit)
A case-based course involving diseases and conditions of the endocrine, gastrointestinal and hepatobiliary systems as well as neoplastic and infectious diseases of small animals.

VMC 716. CASE STUDIES IN SMALL ANIMAL MEDICINE II. (1 Credit)
A case-based course involving diseases and conditions of the cardiovascular, respiratory and urogenital systems as well as emergent diseases and conditions.

VMC 717. CASE STUDIES IN SMALL ANIMAL MEDICINE III. (1 Credit)
A case-based course involving diseases and conditions of the dermatologic, neurologic, ophthalmologic, and hemolymphatic systems.

VMC 718. SMALL ANIMAL PREVENTIVE MEDICINE. (2 Credits)
Introductory course to basic concepts in small animal preventive medicine including vaccine immunology, vaccine strategies, internal/external parasite control, nutrition in disease prevention, and wellness programs for dogs and cats.

VMC 719. CLINICAL CARDIOLOGY I. (2 Credits)
Hands-on practical experience in a clinical setting in taking a clinical history, performing a cardiovascular physical examinations, recording electrocardiograms, interpreting thoracic radiographs and echocardiograms, creating problem lists, compiling lists of differential diagnosis, formulating diagnostic and therapeutic plans, discussing treatment options, generating medical records, and discharging patients.

VMC 720. VETERINARY CLINICAL NUTRITION. (2 Credits)
To examine the nutritional needs of many species of veterinary importance. Emphasis is placed on designing feeding programs to optimize health and animal performance.

VMC 721. SMALL ANIMAL CLINICAL NUTRITION. (1 Credit)
Introduction to the concepts of small animal clinical nutrition and is designed for the third-year veterinary student.

VMC 723. ADVANCED FELINE MEDICINE. (2 Credits)
A one-week elective for senior students in the DVM curriculum. The course emphasizes aspects of internal medicine specific to the domestic cat. Graded P/N.

VMC 724. LARGE ANIMAL SURGERY. (6 Credits)
Selected surgical techniques and procedures related to equine and food animal species.
Equivalent to: VM 724

VMC 725. PRINCIPLES OF SURGERY. (4 Credits)
A basic course in the principles and techniques of surgery for the professional veterinary student. Lec/lab.
Equivalent to: VM 725

VMC 726. SMALL ANIMAL THERIOGENOLOGY. (1 Credit)
Advanced clinical experience in small animal (canine) reproduction. Graded P/N.
Prerequisites: VMC 783 with C or better

VMC 727. ADVANCED SMALL ANIMAL SURGERY. (2 Credits)
One-week elective for senior students in the DVM curriculum. The course emphasizes aspects of small animal surgery. Lec/lab. Graded P/N.

VMC 729. CLINICAL THERIOGENOLOGY. (1 Credit)
Practical and theoretical training in reproductive management and disorders in all species; routine diagnostic and treatment procedures; clinic rounds.
This course is repeatable for 3 credits.

VMC 731. SMALL ANIMAL EMERGENCY CARE-DOVE LEWIS. (3 Credits)
A two-week clinical rotation at the Dove Lewis Memorial Emergency Clinic in Portland, OR.
Equivalent to: VM 731

VMC 732. CLINICAL LARGE ANIMAL MEDICINE I. (3,6 Credits)
Clinical medicine training in diseases of food animals and horses; clinic rounds and diagnostic procedures.
Equivalent to: VM 732
This course is repeatable for 24 credits.

VMC 733. LARGE ANIMAL SURGERY LABORATORY. (2 Credits)
Apply surgery principles and common surgical procedures of large animal species.

VMC 734. CLINICAL LARGE ANIMAL SURGERY I. (3,6 Credits)
Clinical surgery; care of food animals and horses; clinical rounds; training in surgery, lameness, and diagnostic procedures. Lec/lab.
Equivalent to: VM 734
This course is repeatable for 24 credits.

VMC 735. RURAL VETERINARY PRACTICE I. (3,6 Credits)
Rural practice training in diseases of food animals and horses. Lec/lab.
Equivalent to: VM 735
This course is repeatable for 6 credits.

VMC 736. CLINICAL SKILLS IV: PROFESSIONAL COMMUNICATION AND ETHICS. (2 Credits)
Develop communication skills and ethical reasoning for client interactions.

VMC 737. VETERINARY ANESTHESIOLOGY. (4 Credits)
A three-week rotation in veterinary anesthesiology utilizing patients presented to the veterinary teaching hospital.
Equivalent to: VM 737
VMC 738. INTRODUCTION TO ANIMAL CARE. (3 Credits)
Feeding, housing, breeding and marketing systems related to animal care.
Equivalent to: VM 738
This course is repeatable for 6 credits.

VMC 739. VETERINARY MEDICAL ETHICS. (1 Credit)
Introduction of ethics in veterinary medicine, with specific attention to ethical theories, ethical decision making, moral status of animals, professional ethics, and practice issues.
Equivalent to: VM 732 with C or better

VMC 740. SHEEP AND GOAT MEDICINE AND SURGERY. (3 Credits)
Discussions of economically important sheep and goat diseases, practical surgeries, and a review of nutrition and husbandry. Graded P/N.

VMC 741. LARGE ANIMAL GI SURGERY. (2 Credits)
A one-week course for 4th year veterinary students, with particular interest in gastrointestinal surgery. Graded P/N.

VMC 742. CAMELID MEDICINE AND SURGERY. (4 Credits)
Designed to give students an in-depth introduction to camelid health care via hands-on work, lectures, and discussion sections. Graded P/N.

VMC 744. ADVANCED LAMENESS IN EQUINE. (3 Credits)
Application of anatomy, lameness examination, nerve and joint anesthesia, diagnostic radiology, ultrasound and nuclear scintigraphy to diagnosis of lameness in horses. Graded P/N.

VMC 745. PRACTICE MANAGEMENT. (2 Credits)
A course in basic personal and business finances, career skills, and legal aspects of veterinary practice. Graded P/N.
Equivalent to: VMB 775

VMC 747. VETERINARY ANESTHESIOLOGY II. (3 Credits)
An additional two-week clinical rotation in veterinary anesthesiology utilizing patients presented to the Veterinary Teaching Hospital. Graded P/N.

VMC 748. EQUINE DENTISTRY. (2 Credits)
Utilizing modern, motorized equipment, cadaver specimens, and live hospital and client horses, students will learn and perform modern methods of equine dental prophylaxis and treatment. Graded P/N.

VMC 749. CLINICAL IMAGING II. (3 Credits)
Advanced clinical course for 4th-year veterinary students in which they will assume additional responsibility for performing common radiographic procedures. Graded P/N.
Prerequisites: VMC 796 with C or better

VMC 750. EQUINE CLINICAL NUTRITION. (1 Credit)
A one-week course for veterinary students focusing on equine nutrition that can be used in veterinary practice. Graded P/N.

VMC 751. RUMINANT NUTRITION. (2 Credits)
An advanced course in clinical ruminant nutrition dealing with nutritional problems of ruminants that might be encountered by a practicing veterinarian. Graded P/N.

VMC 752. CLINICAL LARGE ANIMAL MEDICINE II. (3-6 Credits)
Additional clinical medicine training. Graded P/N.
Prerequisites: VMC 732 with C or better
Equivalent to: VM 752
This course is repeatable for 6 credits.

VMC 753. CLINICAL ONCOLOGY I. (2 Credits)
Teaches students a realistic approach to the diagnosis and treatment of pets with cancer. Students will participate in rounds, case management and medical records keeping.

VMC 754. CLINICAL LARGE ANIMAL SURGERY II. (3,6 Credits)
Additional clinical surgery training. Graded P/N.
Prerequisites: VMC 734 with C or better
Equivalent to: VM 754
This course is repeatable for 6 credits.

VMC 755. RURAL VETERINARY PRACTICE II. (3-6 Credits)
One additional rural practice training. Graded P/N.
Prerequisites: VMC 735 with C or better
Equivalent to: VM 755
This course is repeatable for 6 credits.

VMC 756. CLINICAL SKILLS V: TECHNICAL SKILLS AND CLINICAL REASONING. (1 Credit)
Development of technical and psychomotor skills and clinical reasoning in preparation for clinical coursework.

VMC 758. CATTLE PRODUCTION MEDICINE. (3 Credits)
Clinical application of production medicine practices to dairy and beef cattle practice. Graded P/N.
Prerequisites: VMC 735 with C or better
Equivalent to: VM 758

VMC 759. LARGE ANIMAL PALPATION. (1 Credit)
A laboratory for additional experience in rectal palpation of large animals, for third-year veterinary students. Graded P/N.

VMC 760. CLINICAL SKILLS I: INTRO TO ANIMAL CARE AND VETERINARY MED. (3 Credits)
Introduction of a variety of topics relevant to veterinary clinical skills including professionalism, inclusion, ethics, and career options. In addition, animal care, handling, restraint, and physical exam skills will begin to be developed.

VMC 761. CLINICAL SKILLS II: PHYSICAL EXAM AND PROBLEM SOLVING SKILLS. (3 Credits)
Introduction to problem solving and integration of clinical case and basic science in the veterinary curriculum. Development of physical exam skills on healthy animals and medical records keeping.

VMC 762. CLINICAL SKILLS III: REASONING AND COMMUNICATION. (2 Credits)
Develop communication skills and clinical reasoning in preparation for client interactions and evidence-based decision-making.

VMC 763. ADVANCED CLINICAL CARDIOLOGY. (1 Credit)
An elective course for junior veterinary students detailing diagnosis and management of the common congenital and acquired cardiac diseases of domestic animals.

VMC 764. DIAGNOSTIC IMAGING. (4 Credits)
A lecture and laboratory course in diagnostic imaging covering physics or radiography and ultrasonography, radiation safety and image interpretation for small and large animals, presented by body systems. Equivalent to: VM 764

VMC 765. ADVANCED CLINICAL RADIOLOGY. (1 Credit)
An elective advanced radiology case-based course for Year 3 veterinary medicine students that focuses on radiographic findings of commonly encountered clinical disease.
VMC 766. CLINICAL SMALL ANIMAL ULTRASONOGRAPHY. (2 Credits)
A 1-week overview of clinical small animal ultrasonography with particular emphasis on material relevant to a general or emergency practitioner. Students will be able to perform a FAST scan to identify peritoneal fluid. Students will listen to didactic lectures in the morning with practical sessions in the afternoon. At the end of the week, pairs of students will make a short presentation based on a literature search on a topic of interest.

VMC 767. SMALL ANIMAL ABDOMINAL ULTRASOUND. (3 Credits)
Introductory course to provides instruction in veterinary ultrasound with an emphasis on image optimization, evaluation of the abdomen, description and interpretation of imaging findings in dogs and cats. This course is intended for students with a background in common small animal disease and imaging anatomy.

VMC 768. PRINCIPLES OF ANESTHESIA. (4 Credits)
A basic course in the principles and techniques of surgery and anesthesia for the professional veterinary student. Lec/lab.
Equivalent to: VM 768

VMC 769. GENERAL MEDICINE. (2 Credits)
An introduction to medicine with a discussion of the principles of medicine that would be applicable to all species. Physical examination, clinical diagnosis, pathophysiology of signs of disease in domestic animals, therapeutic principles and diagnostic procedures.
Equivalent to: VM 769

VMC 770. LARGE ANIMAL MEDICINE I. (4 Credits)
The first of three courses in large animal medicine for third-year professional veterinary students covering diagnosis and treatment of domestic large animals.
Equivalent to: VM 770

VMC 771. LARGE ANIMAL MEDICINE II. (4 Credits)
Diagnosis, treatment and control of diseases of large domestic animals, specifically gastrointestinal, hepatobiliary diseases, weight loss, and introduction to production medicine, and some swine diseases.

VMC 772. LARGE ANIMAL MEDICINE III. (4 Credits)
Diagnosis, treatment and control of diseases of large domestic animals, specifically central nervous system, mastitis, musculoskeletal, sudden death, skin, and some swine diseases.

VMC 773. MEDICINE LABORATORY I. (1 Credit)
Laboratory experience for third-year veterinary students concurrent with the large and small animal medicine courses.

VMC 774. MEDICINE LABORATORY II. (1 Credit)
Laboratory experience for third-year veterinary students concurrent with the large and small animal medicine courses.

VMC 775. CLINICAL SMALL SPORTS MEDICINE AND REHABILITATION. (3 Credits)
Clinical training in small animal rehabilitation in the Veterinary Teaching Hospital.

VMC 776. SMALL ANIMAL MEDICINE I. (5 Credits)
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.
Equivalent to: VM 776

VMC 777. SMALL ANIMAL MEDICINE II. (5 Credits)
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.

VMC 778. SMALL ANIMAL MEDICINE III. (5 Credits)
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.

VMC 779. EQUINE SPORTS MEDICINE. (1 Credit)
One-week elective encompassing basic exercise physiology, sports-related injuries, injury rehabilitation, training and nutrition of equine athletes. Graded P/N.
Equivalent to: VM 779

VMC 780. VETERINARY MEDICAL PRECEPTORSHIP. (1-16 Credits)
Theory of practice of veterinary medicine in a non-university situation. Graded P/N.
Equivalent to: VM 780
This course is repeatable for 16 credits.

VMC 781. SEMINAR IN VETERINARY MEDICINE. (1-16 Credits)
Seminars and case discussions on selected topics by students, staff, and others. Graded P/N.
Equivalent to: VM 781
This course is repeatable for 16 credits.

VMC 782. EMERGENCY CARE. (1 Credit)
One-week rotation in the Veterinary Teaching Hospital during non-regular hours. Practice and instruction in caring for critically ill patients.
Equivalent to: VM 782

VMC 783. THERIOGENOLOGY I. (4 Credits)
To present the clinical applications of reproductive physiology, anatomy, embryology, pathology and microbiology in domesticated animals.
Equivalent to: VM 783

VMC 785. SMALL ANIMAL SURGERY. (7 Credits)
A course for veterinary students describing major topics of small animal surgery.
Equivalent to: VM 785

VMC 786. ANIMAL BEHAVIOR. (1 Credit)
Diagnosis and treatment of feline, canine and equine problem behaviors including aggression, anxiety, house-soiling and compulsive behaviors.

VMC 787. 3RD YEAR CLINICS. (1 Credit)
An introductory clinical experience for third-year veterinary students.

VMC 788. BUSINESS APPLICATIONS IN PRIVATE SMALL ANIMAL PRACTICE. (1 Credit)
A hands-on elective course exploring the business of small animal general practice in a case-based approach.
This course is repeatable for 2 credits.

VMC 789. PET PRACTICE. (3 Credits)
Additional clinical training in primary care pet practice at a Banfield Pet Hospital. Graded P/N.
This course is repeatable for 6 credits.

VMC 790. CLINICAL EXPERIENCE. (1-16 Credits)
Equivalent to: VM 790
This course is repeatable for 48 credits.
VRE 791. CLINICAL SMALL ANIMAL MEDICINE. (3,6 Credits)
A clinical rotation in small animal internal medicine at the Veterinary Teaching Hospital. Emphasis will be placed on patient evaluation, diagnosis and treatment of diseases of dogs and cats.
This course is repeatable for 6 credits.

VRE 792. CLINICAL SMALL ANIMAL MEDICINE II. (3-6 Credits)
A two-week, three-credit clinical elective rotation in small animal internal medicine at the Veterinary Teaching Hospital. Emphasis will be placed on patient evaluation, diagnosis and treatment of diseases of dogs and cats.
This course is repeatable for 6 credits.

VRE 793. CLINICAL SMALL ANIMAL SURGERY. (3,6 Credits)
Clinical training in small animal surgery in the Veterinary Teaching Hospital.
Prerequisites: VRE 725 with C or better and VRE 785 [C]
This course is repeatable for 6 credits.

VRE 794. OHS SMALL ANIMAL PRIMARY CARE. (4 Credits)
Three-week rotation at OHS to gain experience with an emphasis on surgery, medical case workup, exam room protocol and behavior basics.

VRE 796. CLINICAL IMAGING. (3 Credits)
A clinical course for 4th-year veterinary students in which they will assume primary responsibility for performing common radiographic procedures.

VRE 797. SMALL ANIMAL CRITICAL CARE AND HOSPITAL SERVICE
ROTATION. (1 Credit)
A one-week clinical rotation in small animal critical care managing small animal cases in the intensive care unit at the Veterinary Teaching Hospital.

VRE 798. CLINICAL SMALL ANIMAL SURGERY II. (3-6 Credits)
Clinical training in small animal surgery in the College of Veterinary Medicine, Lois B. Acheson Veterinary Teaching Hospital.
This course is repeatable for 6 credits.

VRE 799. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

Water Resources Engineering (WRE)

WRE 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

WRE 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 509. PRACTICUM. (1-16 Credits)
This non-traditional class explores tools, models and concepts in the collaborative decision-making process in water resources. Emphasis is on group projects and self-directed practical application of community-based natural resources.
This course is repeatable for 16 credits.

WRE 510. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WRE 517. WRITING IN WATER RESOURCES. (4 Credits)
An intensive summer course to develop proficiency in writing at a graduate level for the wide range of writing tasks common to water resource professionals. Students will complete individual in-class writing assignments and collaborate on a draft of a technical report. While it is designed for students in the Water Cooperation and Peace joint degree program (many of whom will be international students) the course will also be useful for other students. Lec/rec.

WRE 521. WATER CONFLICT MANAGEMENT AND TRANSFORMATION. (3
Credits)
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.

WRE 523. ENVIRONMENTAL WATER TRANSACTIONS. (3 Credits)
Covers the theory and practice of using water rights transactions to reallocate water rights to environmental purposes. Different transactional techniques and contexts appropriate to their use are presented through case studies primarily from the western United States, with some reference to the use transactions in other countries such as Australia.

Water Resources Policy and Mgt (WRP)

WRP 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

WRP 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 509. PRACTICUM. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 510. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 511. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 517. WRITING IN WATER RESOURCES. (4 Credits)
An intensive summer course to develop proficiency in writing at a graduate level for the wide range of writing tasks common to water resource professionals. Students will complete individual in-class writing assignments and collaborate on a draft of a technical report. While it is designed for students in the Water Cooperation and Peace joint degree program (many of whom will be international students) the course will also be useful for other students. Lec/rec.

WRP 521. WATER CONFLICT MANAGEMENT AND TRANSFORMATION. (3
Credits)
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.

WRP 523. ENVIRONMENTAL WATER TRANSACTIONS. (3 Credits)
Covers the theory and practice of using water rights transactions to reallocate water rights to environmental purposes. Different transactional techniques and contexts appropriate to their use are presented through case studies primarily from the western United States, with some reference to the use transactions in other countries such as Australia.
WRS 524. SOCIOTECHNOLOGICAL ASPECTS OF WATER RESOURCES. (3 Credits)
Core curriculum, graduate-level course in the Water Resources Graduate Program focusing on an interdisciplinary approach to water resources research that integrates the human and the technological dimensions of water resource issues. It is comprised of lecture and discussion sessions with guest lectures by visiting seminar speakers.

WRS 544. MANAGING NATURAL RESOURCES FOR CLIMATE ADAPTATION. (3 Credits)
Students will work through series of case studies in resource management to identify strategies and approaches that promote or prevent resilience in resource management. Students participate in discussions and hands-on activities in addition to the lectures and will prepare daily reflections, a final reflection and a final essay due one week after the end of the classroom sessions. This course will use a lecture and discussion format, and draw from the international expertise of the instructor and guest lecturers.

WRS 548. CONDUCTING COLLABORATIVE PROJECTS. (3 Credits)
Focuses on development of the abilities needed to complete a directed water-related collaborative project, delivered through experiential learning. The course specifically addresses development of collaborative skills needed to work in interdisciplinary teams. The course activities are centered around a collaborative project on which students will be conducting research, collecting data synthesizing information; and providing classmates with constructive peer-review. Lec/rec.

WRS 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

WRP 808. WORKSHOP. (1-4 Credits)
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue. This course is repeatable for 4 credits.

**Water Resources Science (WRS)**

WRS 501. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

WRS 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 510. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 532. APPLIED FIELD PROBLEMS. (3 Credits)
Introduces graduate students to real-world water resources problems and approaches to solving them. Students will assess and analyze the various constraints and limitations to integrated water management that often cannot be adequately simulated in classroom exercises. They will acquire the practical tools necessary to become effective water resources professionals in a rapidly changing world.

WRS 536. FUNDAMENTALS OF HYDROLOGY. (3 Credits)
Teaches students from a non-technical background in the Water Cooperation and Peace program the fundamentals of hydrology. Students will be introduced to hydrology and the hydrological cycle at the graduate level with a focus on key concepts. Students will apply these concepts to understanding of real world problems in the associated course, WRS 532, Applied Field Problems. Lec/lab.

WRS 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 601. RESEARCH. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 603. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

WRS 605. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 606. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 607. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 608. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 610. INTERNSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WRS 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

**Women, Gender, and Sexuality (WGSS)**

WGSS 110. *GENDER, RACE, AND POP CULTURE. (3 Credits)
Introduces students to the critical analysis of mass media and representations of women, gender, sexuality, and race in popular culture. Topics vary from term to term and may include the entertainment industry, advertising, music, literature, the internet and technology. May be repeated for credit when topic varies. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
This course is repeatable for 9 credits.

WGSS 111. *FEMINIST PERSPECTIVES ON CURRENT EVENTS. (3 Credits)
Introduction to feminist analysis through the examination of current events and their relation to gender, sexuality, race, ethnicity, nationality, religion, class, age, and ability. Topics vary from term to term and may include issues related to politics, social movements, education, the workplace, science and technology, the environment, globalization, arts and culture, and the media. May be repeated for credit when topic varies. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
This course is repeatable for 9 credits.

WGSS 199. SPECIAL STUDIES. (1-3 Credits)
Special topics of contemporary relevance to research of women and gender role issues. For students who seek an elementary introduction to a specific realm of women, gender, and sexuality studies. May be repeated for credit when topic varies.
Equivalent to: WS 199
This course is repeatable for 9 credits.
WGSS 223. *INTRODUCTION TO WOMEN, GENDER, AND SEXUALITY STUDIES. (3 Credits)
Multidisciplinary introduction to women, gender, and sexuality studies. Focuses on the lives and status of women in society and explores ways institutions such as family, work, media, law and religion affect different groups of women. Explores issues of gender, race, class, age, sexual orientation, size and ability. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WGSS 223H, WS 223, WS 223H

WGSS 223H. *INTRODUCTION TO WOMEN, GENDER, AND SEXUALITY STUDIES. (3 Credits)
Multidisciplinary introduction to women, gender, and sexuality studies. Focuses on the lives and status of women in society and explores ways institutions such as family, work, media, law and religion affect different groups of women. Explores issues of gender, race, class, age, sexual orientation, size and ability. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 224

WGSS 224. *WOMEN: PERSONAL AND SOCIAL CHANGE. (3 Credits)
Examines the way the questioning of traditional gender roles and their accompanying power structures can lead to change in women's personal and public lives. Explores women's heritage and contributions and focuses on issues of self-growth and social movements for change. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 224

WGSS 230. *WOMEN IN THE MOVIES. (3 Credits)
Examines ways women are depicted in the movies and how those depictions are created by and create larger social constructions of women. Special attention is given to the intersections of race, class, sexual identity, and age with gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 230

WGSS 230H. *WOMEN IN THE MOVIES. (3 Credits)
Examines ways women are depicted in the movies and how those depictions are created by and create larger social constructions of women. Special attention is given to the intersections of race, class, sexual identity, and age with gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 235

WGSS 235. *WOMEN IN WORLD CINEMA. (3 Credits)
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: WS 235H

WGSS 235H. *WOMEN IN WORLD CINEMA. (3 Credits)
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: WS 235, WS 235H

WGSS 240. *GENDER AND SPORT. (3 Credits)
Focuses on sport as a gendered institution. Drawing from cultural, psychosocial, and political perspectives, the course examines intersections of gender with age, sexual orientation, social class, gender identity, race and ethnicity and politics. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WS 240H, WS 240

WGSS 240H. *GENDER AND SPORT. (3 Credits)
Focuses on sport as a gendered institution. Drawing from cultural, psychosocial, and political perspectives, the course examines intersections of gender with age, sexual orientation, social class, gender identity, race and ethnicity and politics. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WS 240

WGSS 262. *INTRODUCTION TO QUEER STUDIES. (3 Credits)
Centering itself on activism and scholarship, this course examines homophobia's and transphobia's relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as WS 262, WS 262H.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 262, QS 262H

WGSS 262H. *INTRODUCTION TO QUEER STUDIES. (3 Credits)
Centering itself on activism and scholarship, this course examines homophobia's and transphobia's relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as WS 262, WS 262H.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: WS 262, QS 262H

WGSS 270. *RESISTING GENDER VIOLENCE. (3 Credits)
Addresses issues of domestic violence, rape, dating violence, as well as contemporary social debates about pornography and the media's impact on violence in society, which includes a global perspective. Course focuses on individual and collective practices resisting gender violence. (Bacc Core Course) (SS)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 270

WGSS 280. *WOMEN WORLDWIDE. (3 Credits)
Focuses on women's experiences throughout the world and examines women's issues and status cross-culturally. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: WS 280H, WS 280

WGSS 280H. *WOMEN WORLDWIDE. (3 Credits)
Focuses on women's experiences throughout the world and examines women's issues and status cross-culturally. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: WS 280, WS 280H
WGSS 295. *FEMINISM AND THE BIBLE. (3 Credits)
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ENG 295, ENG 295H, PHL 295, PHL 295H, WGSS 295H
WGSS 295H. *FEMINISM AND THE BIBLE. (3 Credits)
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, ENG 295H, PHL 295, PHL 295H, WGSS 295H
WGSS 299. TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES. (1-6 Credits)
Current topics related to women, gender and sexuality. Description and analysis of different realms of knowledge about gender issues.
Equivalent to: WS 299
This course is repeatable for 12 credits.

WGSS 311. *GLOBAL EXPERIENCE: CULTURAL DIVERSITY. (3 Credits)
Engagement in a study abroad experience outside Western Europe with an emphasis on transnational, queer, and critical race feminist analysis (minimum of 7 days). (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
This course is repeatable for 12 credits.
WGSS 312. *GLOBAL EXPERIENCE: WESTERN CULTURE. (3 Credits)
Engagement in a study abroad experience in Western Europe with an emphasis on transnational, queer, and critical race feminist analysis (minimum of 7 days). (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
This course is repeatable for 12 credits.
WGSS 313. *GLOB EXPER: CONTEMP GLOB ISSU. (3 Credits)
Engagement in a study abroad experience with an emphasis on transnational, queer, and critical race feminist analysis of critical global issues (minimum of 7 days).
Attributes: CSSI – Core, Synth, Global Issues
This course is repeatable for 12 credits.
WGSS 319. *FEMINIST DECOLONIZING METHODOLOGIES: SOCIAL JUSTICE RESEARCH. (3 Credits)
Examines traditional scientific methods through a feminist philosophy of science lens that incorporates critiques of the racialized and gendered origins of modern science. Second, it introduces the breadth of feminist research methods associated with social justice research.
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisites: WGSS 223 with D- or better or WGSS 223H with D- or better
WGSS 320. *GENDER AND TECHNOLOGY. (3 Credits)
Explores women's contributions and focuses in technology fields. Analyzes gendered nature of technology. Theory and practice of technologies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: WS 320

WGSS 321. *QUEER POP CULTURE. (3 Credits)
Examines the concept of queer popular culture through film, music, TV, image, and other mediums. Seeks to disrupt dominant discourses around gender and sexuality by centralizing women of color feminisms and queer of color critiques to analyze popular representations of gender, sexuality, race, class, disability, and other social locations. CROSSLISTED as QS 321/WGSS 321. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WS 325

WGSS 324. *FEMINIST ACTIVISMS. (3 Credits)
Addresses the breadth of feminist social justice activism through a focus on collective movements for social change as well as individual and community resistance. In exploring relationships between feminist theories and practice, students are encouraged to vision and practice a variety of feminist activisms. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst

WGSS 325. *DISNEY: GENDER, RACE, EMPIRE. (3 Credits)
Explores constructions of gender, race, class, sexuality, and nation in the animated films of Walt Disney; introduces concepts in film theory and criticism, and develops analyses of the politics of representation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WS 325

WGSS 340. *GENDER AND SCIENCE. (3 Credits)
Analyzes the relationship between society and science by explaining technology and science as gendered practices and bodies of knowledge. Focuses on the ways the making of women and men affect the making of science and explores the roles of women in scientific pursuits. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACS – Liberal Arts Social Core
Equivalent to: WS 340

WGSS 340H. *GENDER AND SCIENCE. (3 Credits)
Analyzes the relationship between society and science by explaining technology and science as gendered practices and bodies of knowledge. Focuses on the ways the making of women and men affect the making of science and explores the roles of women in scientific pursuits. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: WS 340
WGSS 350. *POLITICS OF MOTHERHOOD IN A GLOBAL CONTEXT. (3 Credits)
Introduces students to the politics of motherhood in global contexts, focusing on politics of transnational adoption; motherhood, surrogacy, and biotechnologies; effects of globalization on mothering across borders; mothering in the global welfare state; movements for reproductive justice; and transnational representations of motherhood. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WS 350

WGSS 360. *MEN AND MASCULINITIES IN A GLOBAL CONTEXT. (3 Credits)
Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WS 360

WGSS 360H. *MEN AND MASCULINITIES. (3 Credits)
Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: WS 360, WS 360

WGSS 361. (RE)FRAMING RACE THROUGH FILM PRODUCTION. (4 Credits)
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSLISTED as ES 361/QS 361/WGSS 361/WLC 361.
Equivalent to: ES 361, QS 361, WLC 361
Recommended: Prior filmmaking experience

WGSS 362. *SERVING LGBTQ+ COMMUNITIES. (3 Credits)
Engages the ethics and responsibilities involved in serving LGBTQ+ communities in fields such as education, health, law, and social services for those entering and/or continuing professions in fields that historically underserve LGBTQ+ people. Topics include LGBTQ+ youth; LGBTQ+ elders; issues affecting LGBTQ+ people across their lifespans; approaches to cultural competency; violence against LGBTQ+ people; forms of oppression including heterosexism, homophobia, and transphobia; and LGBTQ+ community resilience. CROSSLISTED as QS 362/WGSS 362. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: QS 362

WGSS 364. *TRANSGENDER POLITICS. (3 Credits)
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 364, QS 364H, WGSS 364H

WGSS 364H. *TRANSGENDER POLITICS. (3 Credits)
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, QS 364H, WGSS 364

WGSS 373. APPROACHES TO SOCIAL JUSTICE. (3 Credits)
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSLISTED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ANTH 373, ES 373, WLC 373

WGSS 375. *ARTS AND SOCIAL JUSTICE. (4 Credits)
Explores concepts of structural inequality, difference, power, and discrimination through a critical survey of arts activism. Think critically about artwork and artists which address a number of social issues in the United States, including race, ethnicity, class, gender, sexuality, immigration, and indigeneity. CROSSLISTED as ES 375/QS 375/WGSS 375.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 375, QS 375

WGSS 378. *RELIGION AND GENDER: A GLOBAL PERSPECTIVE. (4 Credits)
Introduces students to the academic study of religion, as well as the academic study of gender. In order to offer a global perspective, we will read a series of case studies that deal with the religion as a gendered experience. Students will produce two essays, one of which will be based on independent research. CROSSLISTED as HST 378/REL 378/WGSS 378. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 378, REL 378

WGSS 380. *MUSLIM WOMEN. (3 Credits)
Examines the lives and experiences of Muslim women in Islamic communities around the world from a variety of perspectives in order to highlight issues significant for contemporary Muslim women: family, education, work, politics, health, marriage, divorce, war, and violence. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WGSS 380H

WGSS 389. TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES. (1-6 Credits)
Current topics in women, gender, and sexuality. May be repeated for credit when topic varies.
Equivalent to: WGSS 389H, WS 399
This course is repeatable for 12 credits.

WGSS 399H. TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES. (1-6 Credits)
Current topics in women, gender, and sexuality. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: WGSS 399, WS 399, WS 399H
This course is repeatable for 12 credits.

WGSS 402. INDEPENDENT STUDY. (1-16 Credits)
Equivalent to: WS 402
This course is repeatable for 16 credits.
WGSS 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WGSS 407. SEMINAR. (3 Credits)
Equivalent to: WS 407
This course is repeatable for 99 credits.

WGSS 409. PRACTICUM. (1-12 Credits)
This course is repeatable for 12 credits.

WGSS 410. INTERNSHIP. (1-16 Credits)
The internship experience provides the opportunity to gain experience within an off-campus private, public, or community agency or organization which has as one of its goals the improvement of the status of women in society. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the WGSS program. Only 6 credits will count toward the Women, Gender, and Sexuality Studies major.
Equivalent to: WS 410
This course is repeatable for 16 credits.

WGSS 414. *SYSTEMS OF OPPRESSION IN WOMEN’S LIVES. (4 Credits)
Explores the ways different systems of oppression and discrimination impact women’s lives. Examines sexism, classism, racism, and anti-Jewish oppression, as well as discrimination against queer women, older women, and those who differ in ability and appearance. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Prerequisites: WS 223 with D- or better or WS 223H with D- or better
Equivalent to: WS 416

WGSS 416. THEORIES OF FEMINISM. (4 Credits)
Explores feminist conceptions about the nature of the world, women’s reality and visions for change. Analyzes major issues raised by the women’s movement and the development of feminist ideas, as well as provides a critical examination of feminist thought and different theories which comprise it.
Prerequisites: WS 223 with D- or better or WS 223H with D- or better or WS 224 with D- or better or WS 224H with D- or better or WS 224 with D- or better or WS 224H with D- or better
Equivalent to: WS 416

WGSS 417. FEMINIST PHILOSOPHIES. (3 Credits)
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.
Equivalent to: PHL 417, WS 417

WGSS 418. FEMINIST RESEARCH METHODS. (4 Credits)
Introduces feminist research methods associated with research design, analysis, and interpretation. It utilizes feminist social justice frameworks and focuses on in-depth interviewing and focus groups, oral histories, ethnography, and visual and textual analysis, as well as survey design and community-based participatory research.
Prerequisites: WGSS 414 with C- or better

WGSS 430. WOMEN OF COLOR FEMINISMS. (4 Credits)
Explores the contemporary experiences of women of color, as well as the theoretical and practical frameworks of women of color feminisms. Analyses key themes in women of color feminisms, including politics of representation, multiple forms of state and interpersonal violence, intersecting forms of oppression, economic justice, reproductive justice, and strategies of resistance.
Prerequisites: WS 223 with D- or better or WS 223H with D- or better or WGSS 223 with D- or better or WGSS 223H with D- or better
Equivalent to: WS 430

WGSS 431. *QUEER OF COLOR CRITIQUES. (4 Credits)
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 431, QS 431

WGSS 432. *GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE. (3 Credits)
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ART 432, QS 432

WGSS 440. *WOMEN AND NATURAL RESOURCES. (3 Credits)
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women’s use and control of natural resources. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: WGSS 440H, WS 440

WGSS 440H. *WOMEN AND NATURAL RESOURCES. (3 Credits)
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women’s use and control of natural resources. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: WGSS 440

WGSS 450. ECOFEMINISM. (3 Credits)
Focuses on the ecological and feminist principles that mediate humanity’s relationship with nature.
Equivalent to: WS 450
WGSS 460. *SEXUALITIES, FEMINISMS, WOMEN. (4 Credits)
Explores the historical, theoretical, and political dimensions of female sexuality. The course also examines the basic assumptions about the meaning of gendered sexuality, how it has been shaped and controlled, and why women's sexuality has been/is a source of both women's liberation and subjugation. In addition, the course incorporates Queer and Trans* theories about gendered/women's sexualities. (SS) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACS – Liberal Arts Social Core
Prerequisites: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WS 460

WGSS 462. *QUEER THEORIES. (4 Credits)
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 462, WS 462

WGSS 463. *GLOBAL SEX WORK AND TRAFFICKING. (3 Credits)
Examination of sex work and trafficking, cross culturally drawing upon case studies from Africa, Asia, the Americas, and Europe. It explores legal and regulatory debates, diversity of sex work-related experiences, and sex work-related social activism to uncover the gendered intersections of power and privilege from a global perspective. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisites: WGSS 223 with D- or better or WS 223 with D- or better or WGSS 224 with D- or better or WS 224 with D- or better

WGSS 465. WOMEN, WEIGHT, AND BODY IMAGE. (4 Credits)
Focuses on women's increasing struggles with weight, eating disorders, and broader body image issues in contemporary society. Explores how social institutions such as media, medicine, government contribute to weight bias and unhealthy standards for appearance. Examines weightism as a system of oppression that intersects with other systems of oppression including sexism, racism, classism, heterosexism, ableism, and ageism. CROSSLISTED as PSY 465/WGSS 465 and PSY 565.
Equivalent to: PSY 462, PSY 465

WGSS 466. *FAT STUDIES. (4 Credits)
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566. (Bacc Core Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: WS 223 with D- or better or WS 223H with D- or better or WS 224 with D- or better or WS 224H with D- or better or WS 240 with D- or better or WS 262 with D- or better or WS 262H with D- or better or WS 270 with D- or better or WS 280 with D- or better or WS 280H with D- or better or WS 321 with D- or better or WS 325 with D- or better or WS 325H with D- or better or WS 340 with D- or better or WS 340H with D- or better or WS 350 with D- or better or WS 360 with D- or better or WS 360H with D- or better or WS 364 with D- or better or WS 364H with D- or better or WS 373 with D- or better or WS 375 with D- or better or WS 380 with D- or better or WS 380H with D- or better
Equivalent to: PSY 466, WS 466

WGSS 472. *INDIGENOUS TWO-SPIRIT AND QUEER STUDIES. (4 Credits)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: ES 472, QS 472
Recommended: QS 262 or ES 242 or WGSS 414

WGSS 473. TRANSGENDER LIVES. (4 Credits)
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573.
Equivalent to: QS 473
Recommended: WGSS/QS 262, WGSS/QS 364

WGSS 476. *TRANSNATIONAL SEXUALITIES. (4 Credits)
Explores contemporary experiences of sexualities within transnational contexts. Analyzes themes including queer and LGBTIQ organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSLISTED as QS 476/WGSS 476 and QS 576/WGSS 576. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisites: QS 262 with D- or better
Equivalent to: QS 476
WGSS 477. QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM. (4 Credits)
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/ WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 477, QS 477
Recommended: QS 262 and QS 464

WGSS 480. *GENDER AND TRANSNATIONAL ACTIVISMS. (3 Credits)
Focuses on social constructions of gender in global context. It explores the comparative realities of various gendered struggles for social justice and studies key definitions and theoretical assumptions relevant to the subject of global feminist activism. (NC) (Bacc Core Course)
Attributes: CPDC – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Prerequisites: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WGSS 480H, WS 480

WGSS 480H. *GENDER AND TRANSNATIONAL ACTIVISMS. (3 Credits)
Focuses on social constructions of gender in global context. It explores the comparative realities of various gendered struggles for social justice and studies key definitions and theoretical assumptions relevant to the subject of global feminist activism. (NC) (Bacc Core Course)
Attributes: CPDC – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Prerequisites: WS 223 with D- or better or WS 223H with D- or better or WS 224 with D- or better or WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WGSS 480

WGSS 482. GLOBAL PERSPECTIVES ON WOMEN’S HEALTH. (4 Credits)
Women’s health issues are examined from a global perspective in the context of a woman’s life and through a feminist political lens. Central to our discussions will be an analysis of the interplay among race, class, and gender in shaping particular health care outcomes. The course stresses the potential for women’s agency and autonomy with respect to improving their health and environments.
Equivalent to: WS 482

WGSS 483. RACE, GENDER, AND HEALTH JUSTICE. (4 Credits)
Based on a social justice framework, this course explores the intersections of race, gender, ethnicity, disability and sexuality to provide a deeper understanding of how these factors shape health inequities in diverse communities nationally and globally.
Equivalent to: WS 483

WGSS 485. CAPSTONE IN SOCIAL JUSTICE. (2 Credits)
Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisites: (ANTH 373 with D- or better or ES 373 with D- or better or WGSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WGSS 410 [D-] or WLC 410 [D-])
Equivalent to: ANTH 485, ES 485, WLC 485
This course is repeatable for 4 credits.

WGSS 486. GLOBAL EXPERIENCE I. (1 Credit)
Prepares students to participate in a short-term study abroad experience that emphasizes volunteer experiences in women’s organizations and analysis from transnational feminist perspectives.
Equivalent to: WS 486

WGSS 487. GLOBAL EXPERIENCE II. (1 Credit)
Engages students in a short-term study abroad experience that emphasizes volunteer experiences in women’s organizations and analysis from transnational feminist perspectives.
Prerequisites: WS 486 with D- or better or WS 586 with D- or better or WGSS 486 with D- or better or WGSS 586 with D- or better
Equivalent to: WS 487

WGSS 488. GLOBAL EXPERIENCE III. (1 Credit)
Students reflect on their short-term study abroad experience by engaging in in-depth transnational feminist analysis of particular aspects of the study abroad experience.
Prerequisites: WS 486 with D- or better or WS 487 with D- or better or WGSS 486 with D- or better or WGSS 487 with D- or better
Equivalent to: WS 488

WGSS 490. SELF-ESTEEM AND PERSONAL POWER. (3 Credits)
Explores ways to improve self-esteem and develop personal power. Focuses on issues of self and identity, contextualizing these in the ways gender is constructed in society. (SS)
Attributes: LACS – Liberal Arts Social Core
Equivalent to: WS 490

WGSS 495. *GLOBAL FEMINIST THEOLOGIES. (4 Credits)
Explores the connections between women’s religious experiences around the world and the global problems addressed by feminist theology and spirituality. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WGSS 495H, WS 495
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing.

WGSS 495H. *GLOBAL FEMINIST THEOLOGIES. (3 Credits)
Explores the connections between women’s religious experiences around the world and the global problems addressed by feminist theology and spirituality. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: WS 495, WS 495

WGSS 496. *FEMINIST THEOLOGIES IN THE UNITED STATES. (4 Credits)
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: WGSS 496H, WS 496, WS 496H
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing.
**WGSS 496H. *FEMINIST THEOLOGIES IN THE UNITED STATES. (4 Credits)**  
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences. (Bacc Core Course)  
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator  
Equivalent to: WGSS 495, WS 496, WS 496H  
Recommended: (WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224) and junior standing

**WGSS 498. FEMINIST PRACTICE. (4 Credits)**  
For graduating seniors in women, gender, and sexuality studies. Building on knowledge and experiences acquired in required and elective women, gender, and sexuality studies courses, it focuses on central questions for feminist research and activism. In particular, the course helps students develop deeper understandings of the process of generating feminist knowledge and its application in diverse forms of feminist practice.  
Prerequisites: WGSS 414 with D- or better and WGSS 416 [D+]  
Equivalent to: WS 498

**WGSS 499. TOPICS. (1-6 Credits)**  
Topics on contemporary research in women, gender, and sexuality studies. May be repeated for credit when topic varies.  
Equivalent to: WS 499  
This course is repeatable for 12 credits.

**WGSS 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)**  
Equivalent to: WS 501  
This course is repeatable for 16 credits.

**WGSS 502. INDEPENDENT STUDY. (1-16 Credits)**  
Equivalent to: WS 502  
This course is repeatable for 16 credits.

**WGSS 503. THESIS. (1-16 Credits)**  
Equivalent to: WS 503  
This course is repeatable for 999 credits.

**WGSS 506. PROJECTS. (1-16 Credits)**  
Equivalent to: WS 506  
This course is repeatable for 16 credits.

**WGSS 510. INTERNSHIP. (1-16 Credits)**  
The internship experience provides the opportunity to gain experience within an off-campus private, public, or community agency or organization which has as one of its goals the improvement of the status of women in society. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the Women, Gender, and Sexuality Studies program.  
Equivalent to: WS 510  
This course is repeatable for 16 credits.

**WGSS 511. ORIENTATION AND PROFESSIONALIZATION I. (1 Credit)**  
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 511 provides knowledge about Women, Gender, and Sexuality Studies as a discipline and as a course of study that helps students manage the transition to graduate school. Graded P/N.  
Equivalent to: GRAD 511, WS 511

**WGSS 512. ORIENTATION AND PROFESSIONALIZATION II. (1 Credit)**  
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 512 guides students in the development of an intellectual life with a focus on thriving and surviving as a scholar in Women, Gender, and Sexuality Studies. Graded P/N.  
Equivalent to: GRAD 511, WS 512

**WGSS 513. ORIENTATION AND PROFESSIONALIZATION III. (1 Credit)**  
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 513 focuses on helping students shape a future that utilizes the graduate degree in Women, Gender, and Sexuality Studies. It helps students manage the transition to life after the Women, Gender, and Sexuality Studies Master’s program at OSU. Graded P/N.  
Equivalent to: GRAD 511, WS 513

**WGSS 514. SYSTEMS OF OPPRESSION: STRATEGIES FOR RESISTANCE. (4 Credits)**  
Explores the ways different systems of oppression function in society. Applies feminist intersectionality approaches to examine interlocking systems of inequality and privilege.  
Equivalent to: WS 514

**WGSS 515. ADVANCED RESEARCH LITERATURE REVIEW. (3 Credits)**  
Provides graduate students with knowledge and experience in the advanced literature review process including construction of the literature review as product. One of the primary skills graduate students must master is advanced review of a body of literature for the research project. Mastery of the literature review process influences quality and sophistication of claims developed to justify research, with the written review clearly delineating the unique contribution of the student’s research and the knowledge gap that it fills. The literature review as a product is a strong written argument that builds a case from credible evidence based on previous research. CROSSLISTED as ANTH 515/ CSSA 515/ES 515/WGSS 515.  
Equivalent to: ANTH 515, CSSA 515, ES 515

**WGSS 516. THEORIES OF FEMINISM. (4 Credits)**  
Explores feminist conceptions about the nature of the world, women's reality and visions for change. Analyzes major issues raised by the women's movement and the development of feminist ideas, as well as provides a critical examination of feminist thought and different theories which comprise it.  
Equivalent to: WS 516  
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224

**WGSS 517. FEMINIST PHILOSOPHIES. (3 Credits)**  
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.  
Equivalent to: PHL 517, WS 517  
Recommended: 6 credits of philosophy

**WGSS 518. FEMINIST RESEARCH. (4 Credits)**  
Explores the socio-political and historical context out of which traditional research methodologies emerge and the relationship of gender to scientific pursuits. Teaches what it means to do emancipatory anti-sexist and participatory research.  
Equivalent to: WS 518
WGSS 521. FEMINIST LEADERSHIP. (4 Credits)
Examines theories of feminist leadership and applications in non-profit, governmental, and higher education institutions.
Equivalent to: WS 521

WGSS 522. GRANT AND FUND DEVELOPMENT FOR FEMINIST ORGANIZATIONS. (4 Credits)
Provides students with the skills needed to be successful in grant-writing and fundraising for feminist organizations. Students will address the politics of grant writing and fund raising in relation to the feminist movement’s aims and goals. They will also work directly with agencies to understand the trade-offs and value/need of securing funding for social change organizations.
Equivalent to: WS 522

WGSS 523. COMMUNITY ORGANIZING AND COLLECTIVE ACTION. (2 Credits)
Addresses relationships between theory and action in feminist context. Explores both social change activism in terms of individual and collective action strategies and social movement theory in historical and contemporary perspectives.
Equivalent to: WS 523

WGSS 524. TRANS/GENDER POLITICS. (4 Credits)
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 524/WGSS 524.
Equivalent to: QS 524

WGSS 525. GENDER AND TECHNOLOGY. (3 Credits)
Explores women’s contributions and focuses in technology fields. Analyzes gendered nature of technology. Theory and practice of technologies for change and activism.
Equivalent to: WS 525

WGSS 530. WOMEN OF COLOR FEMINISMS. (4 Credits)
Explores the contemporary experiences of women of color, as well as the theoretical and practical frameworks of women of color feminisms. Analyzes key themes in women of color feminisms, including politics of representation, multiple forms of state and interpersonal violence, intersecting forms of oppression, economic justice, reproductive justice, and strategies of resistance.
Equivalent to: WS 530
Recommended: WGSS 223 or WGSS 223H or WS 223 or WS 223H

WGSS 531. QUEER OF COLOR CRITIQUES. (4 Credits)
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531.
Equivalent to: ES 531, QS 531

WGSS 532. GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE. (3 Credits)
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532.
Equivalent to: ART 532, QS 532

WGSS 535. FEMINIST TEACHING AND LEARNING. (4 Credits)
Focuses on the experiences and practices of the feminist classroom. Key components of the class include issues associated with the identity and development of the teacher, as well as the development of skills to help facilitate understanding, empowerment, and the personal and social agency of students.
Equivalent to: WS 535

WGSS 536. FEMINIST MEDIA STUDIES. (4 Credits)
Examination of print, radio, television, and new media from feminist perspectives.

WGSS 540. WOMEN AND NATURAL RESOURCES. (3 Credits)
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women’s use and control of natural resources.
Equivalent to: WS 540

WGSS 542. THE INCLUSIVE CLASSROOM: DIFFERENCE, POWER AND DISCRIMINATION. (3 Credits)
An examination of multidisciplinary scholarship on difference, power, and discrimination; critical pedagogies; and curriculum transformation. Discussions of theory and research are coupled with practical hands-on opportunities for students to develop and hone their teaching and course development skills. CROSSLISTED as GRAD 542/WGSS 542.
Equivalent to: GRAD 542

WGSS 550. ECOFEMINISM. (3 Credits)
Focuses on the ecological and feminist principles that mediate humanity’s relationship with nature.
Equivalent to: WS 550

WGSS 555. FEMINIST TEXTUAL AND DISCOURSE ANALYSIS. (4 Credits)
Graduate students are introduced to current methods and modes of feminist literary, visual culture, performance, new media, and film studies with a focus on application. In doing so, the course focuses on feminist approaches to key topics within textual studies (such as form, authors, and readers) as well as distinct methodological approaches to various genres and mediums (including poems, performances, photographs, and films).

WGSS 560. SEXUALITIES, FEMINISMS, WOMEN. (4 Credits)
Explores the historical, theoretical, and political dimensions of female sexuality. The course also examines the basic assumptions about the meaning of gendered sexuality, how it has been shaped and controlled, and why women’s sexuality has been/is a source of both women’s liberation and subjugation. In addition, the course incorporates Queer and Trans* theories about gendered/women’s sexualities.
Equivalent to: WS 560
Recommended: WGSS 223 or WGSS 223H or WGSS 224

WGSS 562. QUEER THEORIES. (4 Credits)
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562.
Equivalent to: QS 562, WS 562
WGSS 566. FAT STUDIES. (4 Credits) 
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSTLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566. 
Equivalent to: PSY 566, WS 566 
Recommended: WS 223 or WS 223H or WS 224 or WGSS 240 or WGSS 262 or WGSS 262H or WGSS 270 or WGSS 280 or WGSS 280H or WGSS 321 or WGSS 325 or WGSS 325H or WGSS 340 or WGSS 340H or WGSS 350 or WGSS 360 or WGSS 360H or WGSS 364 or WGSS 364H or WGSS 373 or WGSS 375 or WGSS 380 or WGSS 380H

WGSS 569. TOPICS IN JOTERIA STUDIES. (3 Credits) 
A space for engaging with arts, activism and scholarship emerging from queer Latinx/Chicano experiences and consciousness is provided. Offered winter term in odd years. CROSSTLISTED as ES 569/WS 569. 
Equivalent to: ES 569, WS 569, SPAN 569 
This course is repeatable for 6 credits.

WGSS 572. INDIGENOUS TWO-SPIRIT AND QUEER STUDIES. (4 Credits) 
'Two-spirit' refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art. CROSSTLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/WGSS 572. 
Equivalent to: ES 572, QS 572 
Recommended: Qs 262 or ES 242 or WGSS 414 or WGSS 514

WGSS 573. TRANSGENDER LIVES. (4 Credits) 
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSTLISTED as QS 473/WGSS 473 and QS 573/WGSS 573. 
Equivalent to: QS 573 
Recommended: WS 585/WGSS 262, WGSS/WS 364

WGSS 575. CRITICAL RACE FEMINISM AND OUTSIDER JURISPRUDENCE. (4 Credits) 
Critical exploration of critical legal justice movements and their relationship to social identities. Seminar emphasizes specific legal cases, federal and state laws, and constitutional issues that impact groups deemed outsiders in liberal discourse as well as their social implications. The critical justice movement and anti-subordination struggles will be explored via case analyses that shape race, class, gender, sexuality, and disability relations. Theoretical contributions of law and society, critical race theory, LatCrit, and critical race feminism, critical white studies, critical mixed race studies, OutCrit, ClassCrit, and critical disability studies applied to historical precedent and current attempts at marginalizing/empowering communities. CROSSTLISTED as ES 575/WGSS 575. 
Equivalent to: ES 575

WGSS 576. TRANSNATIONAL SEXUALITIES. (4 Credits) 
Explores contemporary experiences of sexualities within transnational contexts. Analyzes themes including queer and LGBTQI organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSTLISTED as QS 476/WGSS 476 and QS 576/WGSS 576. 
Equivalent to: QS 576 
Reccommended: QS 262

WGSS 577. QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM. (4 Credits) 
LGBTQ people of color often engage struggles for social justice through artistic movements. Focused on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSTLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.

Equivalent to: ES 577, QS 577 
Recommended: QS 262 and QS 464

WGSS 582. GLOBAL PERSPECTIVES ON WOMEN'S HEALTH. (4 Credits) 
Women's health issues are examined from a global perspective in the context of a woman's life and through a feminist political lens. Central to our discussions will be an analysis of the interplay among race, class, and gender in shaping particular health care outcomes. The course stresses the potential for women's agency and autonomy with respect to improving their health and environments.

Equivalent to: WS 582

WGSS 583. RACE, GENDER, AND HEALTH JUSTICE. (4 Credits) 
Based on a social justice framework, this course explores the intersections of race, gender, ethnicity, disability and sexuality to provide a deeper understanding of how these factors shape health inequities in diverse communities nationally and globally.

Equivalent to: WS 585

WGSS 586. GLOBAL EXPERIENCE I. (1 Credit) 
Prepares students to participate in a short-term study abroad experience that emphasizes volunteer experiences in women's organizations and analysis from transnational feminist perspectives.

Equivalent to: WS 586

WGSS 587. GLOBAL EXPERIENCE II. (1 Credit) 
Engages students in a short-term study abroad experience that emphasizes volunteer experiences in women's organizations and analysis from transnational feminist perspectives.

Equivalent to: WS 587 
Recommended: WS 486 or WS 586 or WGSS 486 or WGSS 586

WGSS 588. GLOBAL EXPERIENCE III. (1 Credit) 
Students reflect on their short-term study abroad experience by engaging in in-depth transnational feminist analysis of particular aspects of the study abroad experience.

Equivalent to: WS 588 
Recommended: (WS 586 and WS 587) or (WGSS 586 and WGSS 587)
WGSS 595. GLOBAL FEMINIST THEOLOGIES. (4 Credits)
Explores the connections between women's religious experiences around the world and the global problems addressed by feminist theology and spirituality.
Equivalent to: WS 595
Recommended: WS 223 or WS 223H or WS 224 or WS 225 or WS 226 or WS 228
WGSS 596. FEMINIST THEOLOGIES IN THE UNITED STATES. (4 Credits)
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences.
Equivalent to: WS 596
Recommended: WS 223 or WS 223H or WS 224 or WS 225 or WS 226 or WS 228
WGSS 599. TOPICS. (1-6 Credits)
Topics on contemporary research in women, gender, and sexuality. May be repeated for credit when topic varies.
Equivalent to: WS 599
This course is repeatable for 12 credits.
WGSS 601. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Individual and collaborative research and scholarship under the supervision of faculty.
This course is repeatable for 16 credits.
WGSS 602. INDEPENDENT STUDY. (1-16 Credits)
Independent study in some field of special interest under the supervision of a faculty member.
This course is repeatable for 16 credits.
WGSS 603. THESIS. (1-12 Credits)
Graded P/N.
This course is repeatable for 999 credits.
WGSS 605. READING AND CONFERENCE. (1-16 Credits)
Independent reading in specialized topics, guided by discussions in conference with faculty.
This course is repeatable for 16 credits.
WGSS 606. PROJECTS. (1-16 Credits)
Special project initiation and participation under the supervision of faculty. Graded P/N.
This course is repeatable for 16 credits.
WGSS 610. INTERNSHIP. (1-6 Credits)
The internship experience provides opportunities to gain experience in a private, public, or community agency or organization, which has social justice advocacy as one of its goals. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the WGSS program. One feature of graduate internships is the opportunity to shadow key personnel in order to meet internship goals. Graded P/N.
This course is repeatable for 6 credits.
WGSS 611. COLLOQUIUM. (1 Credit)
Provides presentations of feminist research by OSU faculty and graduate students and faculty members from other institutions. Graded P/N.
This course is repeatable for 4 credits.
WGSS 616. MULTIRACIAL, TRANSNATIONAL, AND QUEER FEMINISMS I. (4 Credits)
Introduces doctoral students to foundational and emerging themes and texts in women, gender, and sexuality studies, with particular emphases on women of color feminisms, transnational feminisms, and queer feminist critiques. The first seminar in a two-part sequence (WGSS 616 and 617).

WGSS 617. MULTIRACIAL, TRANSNATIONAL, AND QUEER FEMINISMS II. (4 Credits)
Introduces doctoral students to foundational and emerging themes and texts in women, gender, and sexuality studies, with particular emphases on women of color feminisms, transnational feminisms, and queer feminist critiques. The second seminar in a two-part sequence (WGSS 616 and 617).
Prerequisites: WGSS 616 with B or better
WGSS 618. FEMINIST PARTICIPATORY ACTION RESEARCH. (4 Credits)
An examination of theories, principles and strategies of PAR, and appreciation of advantages and limitations of this approach and skills necessary for participating effectively in PAR projects.
Recommended: Any upper-division graduate level course in research methods.
WGSS 619. DECOLONIZING METHODS. (4 Credits)
Navigates from feminist philosophy of science interventions to postcolonial, Chicana/Latina, and critical race criticisms of methodological stances in 'normal' science. Standpoint methodologies, racialized and gendered origins of modern statistical methods, longstanding affinity between colonial inequalities and Eurocentric scientific inquiry, and successor sciences/sciences from below constitute the main themes of the course.
WGSS 620. SOCIAL JUSTICE THEORY AND PRACTICE. (4 Credits)
An examination of social justice theories and practices. Specifically engages with issues of power and privilege, systems of oppression, intersectionality, and social activism. Explores the practices of social justice movements.

Wood Science and Engineering (WSE)

WSE 111. RENEWABLE MATERIALS FOR A GREEN PLANET. (2 Credits)
Renewable materials are an integral part of modern lifestyles, and current societal trends point to increased use of renewable materials. This course provides an overview of renewable materials and their current applications in society. As an overview course, it covers a breadth of renewable material uses and exposes students to life-cycle thinking.

WSE 210. *RENEWABLE MATERIALS TECHNOLOGY AND UTILIZATION. (4 Credits)
Characteristics and uses of renewable fiber products including wood, bamboo and grasses; manufacturing processes; effect of tree growth and harvesting on renewable products manufacturing and properties. Wood identification. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: FP 210

WSE 211. WOODTURNING WITH SCIENCE I. (4 Credits)
An introduction to scientific woodturning. Students will get a grounding in tools, lathes, sharpening, and set-up, and then will transition into turning basic forms (spindle and bowl). Particular relevance will be placed upon grain orientation, wood moisture content, wood anatomy, wood chemistry, wood species and extractive effects, and how all of these attributed affect both form and function. Class instruction will be entirely studio based. CROSSLISTED as ART 211/WSE 211.
Equivalent to: ART 211
This course is repeatable for 8 credits.

WSE 225. DEVELOPMENTS OF BUILDING DESIGN WITH RENEWABLE MATERIALS. (3 Credits)
Introduction to architectural design, considering the different building requirements and the solutions available, with a focus on wood-based products and other ligno-cellulosic materials.
WSE 250. CAD: COMPUTER AIDED DESIGN. (3 Credits)
Provides students with the tools and techniques to design and render products, furniture, and structures using Solidworks, as well as create technical drawings that facilitate communication between designers, engineers, and clients. The techniques developed during this course are applicable to a wide variety of industrial CAD and product design industries worldwide. Lec/lab/studio.

WSE 266. *INDUSTRIAL HEMP. (3 Credits)
Introduction to the botany, biology and agronomy of the hemp plant, and the origins, historical contexts and implications of contemporary legal and social issues surrounding its use for food, fiber, and building products. Taught via Ecampus only. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture

WSE 299. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

WSE 320. ANATOMY OF RENEWABLE MATERIALS. (3 Credits)
Examination of macroscopic and microscopic anatomy of renewable (plant based) materials commonly used by society. Learning activities including lecture and the hands-on study of the various plant materials and their components with naked-eye, hand lens, and microscopic examination. Lec/lab.

WSE 321. CHEMISTRY OF RENEWABLE MATERIALS. (3 Credits)
Chemical structures and chemical properties of renewable plant-based materials will be taught at molecular levels. Chemical compositions of different renewable materials will be covered. Chemical and biochemical modifications and applications or renewable materials will be discussed in detail. Lec/lab.
Prerequisites: CH 122 with D- or better or CH 202 with D- or better or CH 232 with D- or better or CH 232H with D- or better

WSE 322. PHYSICAL AND MECHANICAL PROPERTIES OF RENEWABLE MATERIALS. (4 Credits)
Introduction to thermodynamics and mechanics of plant fibers, solid wood and bio-based composites: hygroscopicity, heat and mass transport; statics, elasticity and strength of materials; mechanical properties.
Prerequisites: WSE 321 with C- or better

WSE 324. RENEWABLE MATERIALS LABORATORY. (3 Credits)
Integrates the knowledge gained in the core science courses (WSE 321 and WSE 322) to help students obtain a deeper understanding of how chemistry, physics, and anatomy affect renewable material properties. The course uses renewable fiber materials such as hardwoods, softwoods, natural fibers, bamboo, composite wood products (e.g. OSB, plywood, MDF, etc.) and fiber-based products (e.g. wood-plastic composites, natural fiber composites, straw panels, paper, etc.) to examine the intricate relationships between fundamental properties and performance. Lec/lab.
Prerequisites: WSE 321 with C- or better and WSE 322 [C-]

WSE 350. SECONDARY PRODUCTS DESIGN AND MANUFACTURING. (3 Credits)
Provides students with hands-on experience designing and manufacturing wood furniture. Includes how to safely operate and properly maintain wood working equipment, as well as how to design for consumers with efficient manufacturing processes in mind. Lec/lab/studio.
Prerequisites: WSE 250 with C- or better

WSE 351. ADVANCED CAD: COMPUTER AIDED DESIGN. (3 Credits)
Develop advanced techniques using industry standard CAD software as it relates to wood based product, furniture, and structural design. Build upon the skills acquired during WSE 250 CAD: COMPUTER AIDED DESIGN and learn advanced Solidworks techniques. Introduction to Rhinoceros 3D software and various parametric plugins. Lec/studio.
Prerequisites: WSE 250 with C- or better

WSE 352. CAM FOR THE CNC ROUTER AND LASER ENGRAVER. (3 Credits)
Process G-code using CAM software for CNC routing operations, as well as create raster and vector drawings for laser cutting/engraving applications. Each student will work through the design process researching and conceptualizing ideas, 3D modeling designs, developing working prototypes, and fabricating a final product. Lec/lab/studio.
Prerequisites: WSE 350 with C- or better
Recommended: Introductory level CAD course or demonstrated proficiency in industry standard CAD software

WSE 385. *EVALUATING SUSTAINABILITY THROUGH LIFE CYCLE ANALYSIS. (3 Credits)
With increased focus on sustainability, it has become important to quantify a sustainability metric of a material, process, or a system. To that end an understanding of life cycle analysis (LCA) is needed that can be used to determine a sustainability metric. This Ecampus course presents the use of LCA to gain insights on the environmental and social impacts of the choices we make. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

WSE 392. *BAMBOOLOOZA: THE FASCINATING WORLD OF BAMBOO. (3 Credits)
An exploration of the world of bamboo and its application to renewable products. This course provides an in-depth understanding of a renewable material bamboo from its native form to processed products. Additionally, this course discusses the utilization and perception of bamboo in different societies of the world. Taught via Ecampus only. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

WSE 399. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 16 credits.

WSE 401. RESEARCH. (1-16 Credits)
Equivalent to: FP 401
This course is repeatable for 16 credits.

WSE 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.

WSE 405. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: FP 405
This course is repeatable for 16 credits.

WSE 406. PROJECTS. (1-16 Credits)
Equivalent to: FP 406
This course is repeatable for 16 credits.
WSE 413. WOODTURNING WITH SCIENCE II. (4 Credits)
An in-depth look at how character in wood (figure, spalting, knots, etc.) affects machinability and output in both functional and aesthetic turning. Students will work with a wide range of spalted wood types and figure across numerous species while working on advanced turning forms. Particular emphasis will be placed upon how figure affects grain orientation, how spalting affects density and stability, and how the challenges with character wood can be overcome without specialty tools. Class instruction will be entirely studio based. CROSSLISTED as ART 413/WSE 413.
Prerequisites: WSE 210 with C- or better and WSE 211 [C-]
Equivalent to: ART 413, FP 413
This course is repeatable for 8 credits.

WSE 414. *ART AND DESIGN CAPSTONE. (4 Credits)
For the final term of a student's last year in the Renewable Materials Industrial Design program, this course brings together the basic collaborative design elements and technical background of each student in the creation of collaborative design projects with the intention of giving students real-world, problem-based design experience. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

WSE 425. TIMBER TECTONICS IN THE DIGITAL AGE. (4 Credits)
An exploration of the advances in design, construction and fabrication of timber buildings. Includes experimentation with both physical and digital models and a final project, in collaboration with UO Architecture students. Lec/lab/studio.
Recommended: Junior standing and knowledge of CAD

WSE 430. FUNDAMENTALS OF ENGINEERING MECHANICS. (4 Credits)
An introduction to fundamentals of engineering mechanics for RM students selecting Science and Engineering option. While in most aspects the course follows standard introductory mechanics courses for engineers, special attention is paid to elasticity and strength in cellular and anisotropic materials like solid wood and bio-based composites. The overall objective of this course is to provide fundamental knowledge and practical skills in the area of engineering mechanics and mechanical principles behind some of the most important methods of characterization, processing, and utilization of renewable biomaterials; commonly used today, emerging and future. Lec/lab.
Prerequisites: MTH 254 with D- or better and WSE 324 [B-]

WSE 444. STRAND-BASED COMPOSITES MANUFACTURE. (1 Credit)
The strand-based composites manufacturing process uses the results of research projects and the instructor's mill experience. All aspects of the process from wood procurement through pressing are discussed. This course will be valuable to those interested in a manufacturing career.

WSE 450. ENTREPRENEURIAL PRODUCT DEVELOPMENT I. (3 Credits)
Provides an entrepreneurial experience in product development, in which students design, produce, market, and sell a product in a business setting. Working as a team, students will design a product using renewable materials and are expected to perform and understand manufacturing techniques and processes to produce the product in limited quantities.
Prerequisites: WSE 250 with C- or better and WSE 455 [C-]

WSE 451. ENTREPRENEURIAL PRODUCT DEVELOPMENT II. (3 Credits)
Provides an entrepreneurial experience in product development, in which students design, produce, market, and sell a product in a business setting. Working as a team, students will design a product using renewable materials and are expected to perform and understand manufacturing techniques and processes to produce the product in limited quantities. Lab/studio.
Prerequisites: WSE 250 with C- or better and WSE 450 [C-] and WSE 455 [C-]

WSE 453. *FOREST PRODUCTS BUSINESS. (3 Credits)
Provides students with the skills necessary to operate effectively in the global forest products industry. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: ECON 201 and ECON 202

WSE 455. INDUSTRIAL MARKETING IN THE FOREST SECTOR. (3 Credits)
Marketing relies heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating course work to the day-to-day work in business.
Equivalent to: FP 455

WSE 458. DESIGN OF WOOD STRUCTURES. (3 Credits)
Study of basic wood properties and design considerations. Design of wood connectors, beams, columns, and beam columns. Introduction to plywood and glue laminated members. Design of structural diaphragms and shear walls. Taught via Ecampus only.
Prerequisites: CE 381 with C or better
Equivalent to: CE 484

WSE 461. BIO-BASED PRODUCTS MANUFACTURING. (4 Credits)
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products.
Prerequisites: WSE 210 with C- or better and WSE 321 [C-] and WSE 324 [C-]

WSE 462. ADVANCED MANUFACTURING 1. (4 Credits)
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement.
Prerequisites: WSE 461 with C- or better

WSE 463. ADVANCED MANUFACTURING 2. (4 Credits)
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises.
Prerequisites: WSE 462 with C- or better
WSE 465. RENEWABLE MATERIALS MANUFACTURING EXPERIENCE. (2 Credits)
Learning about and visiting a number of renewable materials industrial and commercial operations representing all parts of the renewable materials value chain. The class will meet daily for one 5-day week immediately prior to the start of fall term. During the week, the students and at least one instructor will meet daily. Lectures will precede visits to industrial plants, mills and sites. At the end of the day, an instructor will participate in a debriefing session, reiterating what was learned during the day. Students will then submit a report on the day’s activities. The class includes daily travel and overnight stays.
This course is repeatable for 4 credits.

WSE 470. FORESTS, WOOD, AND CIVILIZATION. (3 Credits)
Multidisciplinary examination of issues related to the roles of forests, trees, and wood in civilization, as providers of commodities, ecosystem services, and spiritual and artistic inspiration. Issues include global supply and demand, wood ownership and political power, and perceptions and uses of forest resources in different societies. (Bacc Core Course)
Attributes: CSSI – Core, Synth, Global Issues
Equivalent to: WSE 470H

WSE 470H. FORESTS, WOOD, AND CIVILIZATION. (3 Credits)
Multidisciplinary examination of issues related to the roles of forests, trees, and wood in civilization, as providers of commodities, ecosystem services, and spiritual and artistic inspiration. Issues include global supply and demand, wood ownership and political power, and perceptions and uses of forest resources in different societies. (Bacc Core Course)
Attributes: CSSI – Core, Synth, Global Issues; HNRS – Honors Course
Designator
Equivalent to: WSE 470

WSE 471. RENEWABLE MATERIALS IN BUILDING CONSTRUCTION. (3 Credits)
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.

WSE 473. BIOENERGY AND ENVIRONMENTAL IMPACT. (3 Credits)
Explores world’s use of woody biomass fuels, their potential to contribute to our region’s energy supply, and conversion technologies such as direct combustion, pyrolysis, and thermochemical modification. Also examines emissions and other environmental impacts of utilizing renewable materials to generate energy and manufacture products.
Prerequisites: (MTH 111 with D- or better or MTH 112 with D- or better or MTH 231 with D- or better or MTH 241 with D- or better or MTH 245 with D- or better or MTH 251 with D- or better or MTH 251H with D- or better) and (CH 122 [D-] or CH 222 [D-] or CH 232 [D-] or CH 232H [D-])

WSE 475. ENVIRONMENTAL ASSESSMENT OF BUILDING MATERIALS. (4 Credits)

WSE 499. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 99 credits.

WSE 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Equivalent to: FP 501
This course is repeatable for 16 credits.

WSE 503. THESIS. (1-16 Credits)
Equivalent to: FP 503
This course is repeatable for 999 credits.

WSE 505. READING AND CONFERENCE. (1-16 Credits)
Equivalent to: FP 505
This course is repeatable for 16 credits.

WSE 506. PROJECTS. (1-16 Credits)
Equivalent to: FP 506
This course is repeatable for 16 credits.

WSE 507. SEMINAR. (1 Credit)
Section 1: Beginning Seminar. Section 2: Seminar. Graded P/N.
Equivalent to: FP 507
This course is repeatable for 99 credits.

WSE 513. WOODTURNING WITH SCIENCE II. (4 Credits)
An in-depth look at how character in wood (figure, spalting, knots, etc.) affects machinability and output in both functional and aesthetic turning. Students will work with a wide range of spalted wood types and figure across numerous species while working on advanced turning forms. Particular emphasis will be placed upon how figure affects grain orientation, how spalting affects density and stability, and how the challenges with character wood can be overcome without specialty tools. Class instruction will be entirely studio based.
This course is repeatable for 12 credits.
Recommended: WSE 210 and WSE 211

WSE 514. ART AND DESIGN CAPSTONE. (4 Credits)
For the final term of a student’s last year in the Renewable Materials Industrial Design program, this course brings together the basic collaborative design elements and technical background of each student in the creation of collaborative design projects with the intention of giving students real-world, problem-based design experience.

WSE 516. INTRODUCTION TO SCULPTURAL WOODTURNING. (4 Credits)
The development of studio / sculptural woodturning has a unique history, and involves a cluster of specialized skills. This course blends historic woodturning practices with modern approaches and aesthetics to bring an understanding of wood science into this very specialized field of woodturning.
Prerequisites: WSE 513 with B or better and WSE 514 [B]
This course is repeatable for 12 credits.

WSE 520. THE GLOBAL CONTEXT OF THE FOREST SECTOR. (3 Credits)
Provides a broad knowledge base of business and marketing practices in the global forest industry. Includes a module on research ethics that fulfills OSU Graduate School requirements.

WSE 521. WOOD SCIENCE I. (4 Credits)
A comprehensive overview and integration of wood anatomy, wood physics, wood chemistry and wood mechanics; global contemporary issues impacting the wood and fiber sector; integration of basic wood sciences to understand the complex relationships between environment and wood material properties, and the influence of both on the use of wood-based materials.

WSE 522. WOOD SCIENCE II. (4 Credits)
Continuation of the comprehensive overview and integration of wood and fiber anatomy, physics, chemistry, and mechanics; integration of basic wood science to understand relationships with wood and fiber properties and their impact on final use. Focus on biological, chemical and physical degradation of wood; adhesion; and physical and engineering properties of wood. Lec/lab.
WSE 525. TIMBER TECTONICS IN THE DIGITAL AGE. (4 Credits)
An exploration of the advances in design, construction and fabrication of timber buildings. Includes experimentation with both physical and digital models and a final project, in collaboration with UO Architecture students. Lec/lab/studio. Recommended: Knowledge of CAD

WSE 526. STRUCTURAL HEALTH ASSESSMENT/MONITORING OF TIMBER BUILDINGS. (3 Credits)
Holistic approaches for the evaluation of the performance of timber systems and structures in a building. Learn about the tools available to experts for different analysis purposes, and to understand how data acquired from different techniques can be analyzed and used to inform building management and maintenance, fabrication and construction practices, and future design.

WSE 530. POLYMER COMPOSITES. (3 Credits)
A comprehensive survey of the material and mechanical properties of polymer-based composite materials including failure mechanisms, interfacial and nanoscale effects, and transport and thermal properties. Recommended: CHE 545 and multivariable calculus

WSE 535. POLYMER SYNTHESIS AND STRUCTURE. (3 Credits)
A comprehensive overview of various synthetic methods for various synthetic polymers; structures of various synthetic and natural polymers. Recommended: 3 credits of undergraduate organic chemistry or CH 331 or CH 334

WSE 533. ENVIRONMENTAL ASSESSMENT OF BUILDING MATERIALS. (4 Credits)
This course is repeatable for 99 credits.

WSE 535. POLYMER SYNTHESIS AND STRUCTURE. (3 Credits)
A comprehensive overview of various synthetic methods for various synthetic polymers; structures of various synthetic and natural polymers. Recommended: 3 credits of undergraduate organic chemistry or CH 331 or CH 334

WSE 533. ENVIRONMENTAL ASSESSMENT OF BUILDING MATERIALS. (4 Credits)
This course is repeatable for 99 credits.

WSE 534. FOREST PRODUCTS BUSINESS. (3 Credits)
Provides students with the skills necessary to operate effectively in the global forest products industry. Recommended: ECON 201 and ECON 202

WSE 555. INDUSTRIAL MARKETING IN THE FOREST SECTOR. (3 Credits)
Marketing relies heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating coursework to the day-to-day work in business. Equivalent to: FP 555

WSE 556. WOOD DESIGN. (4 Credits)
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. Crosslisted as CE 584/WSE 558.

WSE 557. ENVIRONMENTAL ASSESSMENT OF BUILDING MATERIALS. (4 Credits)
This course is repeatable for 99 credits.

WSE 558. WOOD DESIGN. (4 Credits)
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. Crosslisted as CE 584/WSE 558.

WSE 559. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 99 credits.

WSE 560. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Equivalent to: FP 601
This course is repeatable for 16 credits.

WSE 561. BIO-BASED PRODUCTS MANUFACTURING. (4 Credits)
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products. Recommended: WSE 210 and WSE 321 and WSE 324

WSE 562. ADVANCED MANUFACTURING 1. (4 Credits)
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement. Recommended: WSE 461

WSE 563. ADVANCED MANUFACTURING 2. (4 Credits)
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises. Recommended: WSE 462

WSE 571. RENEWABLE MATERIALS IN BUILDING CONSTRUCTION. (3 Credits)
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.

WSE 573. BIOENERGY AND ENVIRONMENTAL IMPACT. (3 Credits)
Explores world's use of woody biomass fuels, their potential to contribute to our region's energy supply, and conversion technologies such as direct combustion, pyrolysis, and thermochemical modification. Also examines emissions and other environmental impacts of utilizing renewable materials to generate energy and manufacture products. Recommended: (MTH 111 or MTH 112 or MTH 231 or MTH 241 or MTH 245 or MTH 251 or MTH 251H) and (CH 122 or CH 222)

WSE 574. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WSE 575. ENVIRONMENTAL ASSESSMENT OF BUILDING MATERIALS. (4 Credits)

WSE 592. ADVANCED WOOD DESIGN. (4 Credits)
Study of advanced concepts in wood properties and design. Design and analysis of specialty wood connectors. Design of wood members for adverse conditions including fire design. Common failure mechanisms and forensic engineering concepts. Design for durability. Lec/lab. Recommended: Understanding of basic concepts in mechanics and timber design

WSE 599. SPECIAL TOPICS. (0-16 Credits)
This course is repeatable for 99 credits.

WSE 600. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Equivalent to: FP 601
This course is repeatable for 16 credits.

WSE 603. THESIS. (1-16 Credits)
Equivalent to: FP 603
This course is repeatable for 999 credits.

WSE 604. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
Equivalent to: FP 604
This course is repeatable for 16 credits.

WSE 605. PROJECTS. (1-16 Credits)
Equivalent to: FP 606
This course is repeatable for 16 credits.

WSE 607. SEMINAR. (1 Credit)
Section 1: Beginning Seminar. Section 2: Graduate Seminar. Equivalent to: FP 607
This course is repeatable for 99 credits.

WSE 699. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.
World Languages and Cultures (WLC)

**WLC 159. *LANGUAGE, RACE AND RACISM IN THE US: AN INTRODUCTION. (4 Credits)**
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed notions. CROSSLISTED as ANTH 159/ES 159/WLC 159. (Bacc Core Course)
**Attributes:** CPDP – Core, Perspective, Difference/Power/Discrimination
**Equivalent to:** ANTH 159, ES 159

**WLC 221H. *MASTERPIECES OF GERMAN CINEMA. (3 Credits)**
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
**Attributes:** CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
**Equivalent to:** WLC 221

**WLC 222. *WOMEN IN ITALIAN CINEMA. (3 Credits)**
An exploration of filmic portrayals of women as participants in social, economic and political life in Italy. Examines Italian cinema as a reflection of Italian culture. Focuses on women as protagonists, symbolic figures and filmmakers. Analysis will be presented through a variety of historical, critical and theoretical approaches. Taught in English. (Bacc Core Course)
**Attributes:** CPLA – Core, Pers, Lit and Arts
**Equivalent to:** IT 261

**WLC 230. *FRANCE TODAY: CULTURES WITHIN AND BEYOND ITS BORDERS. (3 Credits)**
An exploratory study of French culture and society since 1945. Topics include: decolonization, immigration, Francophone intellectual currents, France's European vocation, and social conflict today. Conducted in English. (Bacc Core Course)
**Attributes:** CPWC – Core, Pers, West Culture
**Equivalent to:** FR 270, FR 270H, WLC 230H

**WLC 230H. *FRANCE TODAY: CULTURES WITHIN AND BEYOND ITS BORDERS. (3 Credits)**
An exploratory study of French culture and society since 1945. Topics include: decolonization, immigration, Francophone intellectual currents, France's European vocation, and social conflict today. Conducted in English. (Bacc Core Course)
**Attributes:** CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
**Equivalent to:** FR 230, FR 230H, WLC 230

**WLC 231. *GERMAN DICTATORSHIPS: NAZIS AND COMMUNISTS. (3 Credits)**
Introduction to the two best-known dictatorships in German society, National Socialism of the Third Reich from 1933-1945 and Socialism in the German Democratic Republic from 1949-1989 via the study of visual media (feature films, documentaries, newsreels, etc.) and other primary and secondary sources. (Bacc Core Course)
**Attributes:** CPWC – Core, Pers, West Culture
**Equivalent to:** GER 231, GER 231H, WLC 231H

**WLC 231H. *GERMAN DICTATORSHIPS: NAZIS AND COMMUNISTS. (3 Credits)**
Introduction to the two best-known dictatorships in German society, National Socialism of the Third Reich from 1933-1945 and Socialism in the German Democratic Republic from 1949-1989 via the study of visual media (feature films, documentaries, newsreels, etc.) and other primary and secondary sources. (Bacc Core Course)
**Attributes:** CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
**Equivalent to:** GER 231H

**WLC 232. *INTRODUCTION TO JEWISH CULTURE. (3 Credits)**
An overview of Jewish culture from its origins to the present day. Students will compare and contrast the lifestyles, ideologies, religious and cultural practices of Jews living in Israel and the United States; two divergent cultures that developed from similar roots. Taught in English. Taught via Ecampus only. (Bacc Core Course)
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
**Equivalent to:** HEBR 231

**WLC 233. *RUSSIAN CULTURE I. (3 Credits)**
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
**Equivalent to:** RUS 231

**WLC 234. *RUSSIAN CULTURE II. (3 Credits)**
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
**Equivalent to:** RUS 232

**WLC 235. *RUSSIAN CULTURE III. (3 Credits)**
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
**Equivalent to:** RUS 233

**WLC 241. *GRIMMS’ FAIRY TALES. (4 Credits)**
We will read a selection of the most popular Grimms’ fairy tales and consider why they have remained so popular. What is it about fairy tales that has made them such a lasting source of creative inspiration into our time? Students will learn to understand and critique fairy tales and their role in Western cultures through analysis of the tales and creative adaptation of a tale for a modern audience. (Bacc Core Course)
**Attributes:** CPWC – Core, Pers, West Culture
**Equivalent to:** GER 241
WLC 261. *MASTERPIECES GERMAN CINEMA. (3 Credits)
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: GER 261, GER 261H, WLC 261H

WLC 261H. *MASTERPIECES GERMAN CINEMA. (3 Credits)
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: GER 261, GER 261H, WLC 261

WLC 301. *INTRODUCTION TO WORLD LANGUAGE AND CULTURE STUDIES. (4 Credits)
Addresses the structure, histories, and cultures associated with world languages and presents skills for learning languages more effectively. Includes related topics such as globalization, colonialism, and language justice; language policy, linguistic diversity, and language death; immigration and migration; race and racism. This is a required course in the WLC major in the Literacies thematic area. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

WLC 320. *FRANCOPHONE CULTURES IN FILM. (3-9 Credits)
An exploration of the different cultures of France and the Francophone world through film. Students will delve into the heart of these societies and discover their socio-historical, political, economic and cultural context. Students' analytical and critical skills will be thoroughly solicited through various research and writing activities. Taught in English. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: FR 329, FR 329H, WLC 320H
This course is repeatable for 9 credits.

WLC 320H. *FRANCOPHONE CULTURES IN FILM. (3-9 Credits)
An exploration of the different cultures of France and the Francophone world through film. Students will delve into the heart of these societies and discover their socio-historical, political, economic and cultural context. Students' analytical and critical skills will be thoroughly solicited through various research and writing activities. Taught in English. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: FR 329, FR 329H, WLC 320
This course is repeatable for 9 credits.

WLC 321. *MODERN SPAIN THROUGH SPANISH CINEMA. (3 Credits)
Examines the history of modern Spain and its cinematography via the study of key Spanish films and cineastes in the twentieth and twenty-first centuries. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture
Equivalent to: SPAN 361

WLC 331. *CHINESE CULTURE I. (3 Credits)
Introduction to basic features of Chinese culture from ancient times to the 9th century. Topics include philosophy and religion, the Chinese language, literature and the arts, science and technology, government, family and gender, social and economic conditions, contacts with the outside world. Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 331

WLC 332. *CHINESE CULTURE II. (3 Credits)
Introduction to basic features of Chinese culture from the 10th through the 19th centuries. Topics include philosophy and religion, literature and the arts, science and technology, government, family and gender, social and economic conditions, daily life, and contacts with the outside world. Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 332

WLC 333. *CHINESE CULTURE III. (3 Credits)
Survey of important developments of Chinese society and culture from the early 20th century to the present. Topics include wars and revolutions, economic, political, and social conditions, the new culture movement, changing family structure and women's status, relationships within greater China (Mainland China, Taiwan, and Hong Kong). Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 333

WLC 334. FASHION AND DESIGN IN THE FRANCOPHONE WORLD. (3 Credits)
A study of the world of French fashion and design: origins and history, what's new and exciting in French fashion today and attitudes about fashion and beauty of design that have given the French the inside track on prestige in this arena for centuries.
Equivalent to: FR 338

WLC 335. *JAPANESE CULTURE I. (3 Credits)
An introductory survey of Japanese history, arts, literature, society, and traditions from the ancient to the mid-19th century. Taught in English. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 331

WLC 336. *JAPANESE CULTURE II. (3 Credits)
An introductory survey of Japanese history, arts, literature, society, and traditions from the ancient to the mid-19th century. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 332

WLC 337. *JAPANESE CULTURE III. (3 Credits)
A survey of Japan from the mid-19th century to the present in areas including arts, literature, business, education, society, politics, and foreign relations. Taught in English. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 333
WLC 338. *DEAF CULTURE. (4 Credits)
Introduction to Deaf culture in the United States. Includes discussion and analysis of issues relevant to Deaf culture, including politics, language, education, art, literature, media representations, and contemporary life in the Deaf community. (Bacc Core Course)
Attributes: CPSI – Core, Perspective, Difference/Power/Discrimination

WLC 339. *DEAF HISTORY. (4 Credits)
This course covers the history of Deaf people and the Deaf community in the United States. It examines the historical and contemporary impacts of US social, political, legal, educational, and economic systems on the Deaf experience. (Bacc Core Course)
Attributes: CPWC – Core, Perspectives, West Culture; HNRS – Honors Course Designator
Equivalent to: FR 429, FR 429H, WLC 429

WLC 360. INTERNATIONAL FILM FESTIVAL. (3 Credits)
Critical study of a selection of films screened at the Oregon State University’s International Film Festival. Topics include acting, sound, special effects, cinematography. CROSSTLISTED as FILM 360/WLC 360.
Equivalent to: FILM 360
This course is repeatable for 9 credits.
Recommended: Sophomore standing or higher.

WLC 361. (RE)FRAMING RACE THROUGH FILM PRODUCTION. (4 Credits)
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSTLISTED as ES 361/QS 361/WGC 361/WLC 361.
Equivalent to: ES 361, QS 361, WGSS 361
Recommended: Prior filmmaking experience

WLC 373. APPROACHES TO SOCIAL JUSTICE. (3 Credits)
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSTLISTED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ANTH 373, ES 373, WGSS 373

WLC 399. SPECIAL TOPICS. (1-16 Credits)
Graded P/N.
This course is repeatable for 16 credits.

WLC 410. WORLD LANGUAGE INTERNSHIP. (1-12 Credits)
Opportunities for juniors and seniors to apply skills in world language and knowledge of world culture at selected government, industry, or business placement sites. Allows students to transition from academic to work world. Interns are supervised and evaluated by employer and faculty coordinator. See also Oregon International Internships in the catalog section on International Programs. Graded P/N.
Equivalent to: FLL 410
This course is repeatable for 16 credits.
Recommended: Completion of 90 credits with 2.75 GPA or higher; completion of the third-year language course in one foreign language with 3.00 GPA or better, with at least three terms of study in the OSU School of Language, Culture, and Society.

WLC 429. *FRENCH SOCIETY THROUGH ITS CINEMA. (3 Credits)
An examination of French society through its own cinema. Via the screening and study of films from the various periods of French history, students will delve into the heart of French society and will discover the socio-historical, political, economic and cultural context. (Bacc Core Course)
Attributes: CPWC – Core, Perspectives, West Culture
Equivalent to: FR 429, FR 429H, WLC 429H

WLC 429H. *FRENCH SOCIETY THROUGH ITS CINEMA. (3 Credits)
An examination of French society through its own cinema. Via the screening and study of films from the various periods of French history, students will delve into the heart of French society and will discover the socio-historical, political, economic and cultural context. (Bacc Core Course)
Attributes: CPWC – Core, Perspectives, West Culture; HNRS – Honors Course Designator
Equivalent to: FR 429, FR 429H, WLC 429

WLC 459. LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY. (4 Credits)
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSTLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ANTH 459, ES 459

WLC 473. COMMUNITY-BASED LEARNING. (3 Credits)
A service-learning course that allows students to apply the theory and skills acquired in advanced linguistics, culture, and literature courses to specific needs of populations that speak a language taught in the department. It combines 80 hours of community-supervised fieldwork with an online academic component consisting of assigned readings, independent research, and ongoing reflective writing. Each student is expected to make significant contributions toward the completion of a deliverable product that benefits a native speaker community. Pre-advanced oral proficiency required.
This course is repeatable for 6 credits.

WLC 483. CUBAN CULTURE, POLITICS AND SOCIETY. (4 Credits)
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSTLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, ES 483, PS 483

WLC 485. CAPSTONE IN SOCIAL JUSTICE. (2 Credits)
Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSTLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisites: (ANTH 373 with D- or better or ES 373 with D- or better or WGSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WGSS 410 [D-] or WLC 410 [D-])
Equivalent to: ANTH 485, ES 485, WGSS 485
This course is repeatable for 4 credits.

WLC 499. SPECIAL TOPICS. (1-16 Credits)
Equivalent to: WLC 499H
This course is repeatable for 16 credits.
WR 115. INTRODUCTION TO EXPOSITORY WRITING. (3 Credits)
Introduction to rhetorical concepts and writing strategies necessary for university level written composition. Includes substantial discussion of grammar, punctuation, and usage conventions of standard written English. Does not satisfy WR 121 requirement. Graded P/N.
This course is repeatable for 6 credits.

WR 121. *ENGLISH COMPOSITION. (3 Credits)
Introduction to critical thinking, the writing process, and the forms of expository writing. Intensive writing practice, with an emphasis on revision. The term in which the student takes the course is determined alphabetically. (Bacc Core Course)
Attributes: CSW1 – Core, Skills, WR I
Equivalent to: WR 121H

WR 201. *WRITING FOR MEDIA. (3 Credits)
Introduction to newspaper style. Introduction to reporting. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Equivalent to: LS 201
Recommended: Grade B or higher in WR 121 or WR 121H and 30 wpm typing speed.

WR 214. *WRITING IN BUSINESS. (3 Credits)
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in business and industry. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1

WR 222. *ENGLISH COMPOSITION. (3 Credits)
Continued practice in expository writing with an emphasis on argumentation and research. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1

WR 224. *INTRODUCTION TO FICTION WRITING. (3 Credits)
Discussion workshop. Student work examined in context of contemporary published work. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 224H

WR 224H. *INTRODUCTION TO FICTION WRITING. (3 Credits)
Discussion workshop. Student work examined in context of contemporary published work. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 224
WR 228. *WRITING ABROAD. (3 Credits)
Prepares students to compose thoughtful, nuanced, and journalistically-grounded writing for a Web-based audience based on experiences studying abroad. By reading deeply in the lifestyle and creative nonfiction genres, students will develop strategies for communicating their observations effectively. Instruction follows an editorial model, allowing students to practice the role of editor, freelancer, and designer, all with an eye towards publishing in a course-affiliated online magazine. To achieve success in this course, students must demonstrate knowledge of writing techniques appropriate to the genre and must demonstrate editorial skill.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better

WR 230. *ESSENTIALS OF ENGLISH GRAMMAR. (3 Credits)
Introduces students to the structure of sentences with a focus on beginning grammar. Students in WR 230 will learn the differences between clauses and phrases, how to recognize subjects and predicates in a variety of sentence types, how to avoid the most common grammatical errors in student writing, and how to use punctuation correctly—and with intention. Students will complete readings, watch videos, participate in discussions, and demonstrate understanding through weekly quizzes. They will also challenge themselves with numerous writing activities, and complete writing analysis projects.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II

WR 239. INTRODUCTION TO WRITING FICTION AND CREATIVE NONFICTION. (3 Credits)
Explores how to write good stories, whether real or imagined. Students will read and write in both genres, identifying the elements that make stories more vivid, more human, and more true. Students will write informal pieces and one longer work in each genre, and will workshop one story or essay. Taught via Ecampus only.

WR 240. *INTRODUCTION TO NONFICTION WRITING. (3 Credits)
Discussion workshop. Student work examined in context of contemporary published work. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 121 with C- or better or WR 121H with C- or better
This course is repeatable for 9 credits.

WR 241. *INTRODUCTION TO POETRY WRITING. (3 Credits)
Discussion workshop. Rudiments of mechanics and some background in development of modern poetry. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1

WR 250. *PODCAST STORYTELLING. (3 Credits)
Focuses on the skills needed to write, record, and produce informative and engaging podcasts. Students develop themes, write scripts, conduct interviews, and learn to make thoughtful editing decisions in the production of audio podcasts.
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better

WR 301. *PUBLISHING AND EDITING. (3 Credits)
Invites students to learn about editing and copyediting techniques, broader editorial decisions, and current publishing platforms. Students will learn about scholarly publishing in the U.S. and about how social media and public relations fit into this world. Participants will also explore editing within a rhetorical dimension, considering purpose and audience, as well as conventions of grammar, mechanics, and usage. Students will review a scholarly article reporting on research in editing and/or publishing; as well as develop a publication-ready work of their own. As part of a final project, the class will work toward a collaborative publication.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, GR II
Prerequisites: WR 121 with D- or better

WR 303. *WRITING FOR THE WEB. (3 Credits)
Concerns the production of instructive, informative, and rhetorically savvy writing for Web-based locations and applications. Helps people find information, get things done, convey their opinions, build communities, and collaborate on complex projects.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with D- or better or WR 121H with D- or better

WR 323. *ENGLISH COMPOSITION. (3 Credits)
Continued practice in writing with an emphasis on the elements of style: diction, tone, precision and economy, emphasis, figurative language.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1

WR 324. *SHORT STORY WRITING. (4 Credits)
Study and writing of the short story. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 224 with D- or better
This course is repeatable for 8 credits.

WR 327. *TECHNICAL WRITING. (3 Credits)
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 327H

WR 327H. *TECHNICAL WRITING. (3 Credits)
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 327

WR 329. WRITING FOR LAW AND LAW SCHOOL. (3 Credits)
Improves the rhetorical and structural sophistication of persuasive writing, and gives practice in writing the law application essay. Provides a thorough review of legal, grammatical, usage, and sentence-level errors.
Prerequisites: WR 121 with C- or better or WR 121H with C- or better
WR 330. UNDERSTANDING GRAMMAR. (3 Credits)
Advanced study of traditional grammatical forms and conventional grammatical terms with emphasis on the assumptions underlying the structure of traditional grammar. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
WR 340. CREATIVE NONFICTION WRITING. (4 Credits)
Intermediate study and writing of creative nonfiction.
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 240 with D- or better
This course is repeatable for 8 credits.
WR 341. POETRY WRITING. (4 Credits)
Study and writing of verse. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 241 with D- or better
This course is repeatable for 8 credits.
WR 353. WRITING ABOUT PLACES. (3 Credits)
Utilizing personal experience, reading, and research, students, study, discuss, and practice the conventions of writing about place far and near, global and local, for various audiences and in a range of formats.
Prerequisites: WR 121 with D- or better
WR 362. SCIENCE WRITING. (3 Credits)
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisites: WR 121 with C- or better or WR 121H with C- or better
Equivalent to: WR 362H
WR 362H. SCIENCE WRITING. (3 Credits)
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities.
(Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisites: WR 121 with C- or better or WR 121H with C- or better
Equivalent to: WR 362
WR 383. FOOD WRITING. (4 Credits)
Students will write about food and food issues for a variety of audiences, including print and digital, adapting their texts to become increasingly sophisticated critical thinkers and writers who can shape material effectively. Will also address food science and food studies from a historical and cultural background.
Prerequisites: (WR 121 with D- or better or WR 121H with D- or better) and (HC 199 [D-] or PHL 121 [D-] or WR 201 [D-] or WR 214 [D-] or WR 222 [D-] or WR 224 [D-] or WR 241 [D-] or WR 233 [D-] or WR 234 [D-] or WR 327 [D-] or WR 330 [D-] or WR 341 [D-] or WR 362 [D-])
WR 399. SPECIAL TOPICS. (1-16 Credits)
Equivalent to: WR 399H
This course is repeatable for 16 credits.
WR 399H. SPECIAL TOPICS. (1-16 Credits)
Attributes: HNRS – Honors Course Designator
Equivalent to: WR 399
This course is repeatable for 16 credits.
WR 401. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.
WR 402. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.
WR 403. THESIS. (1-16 Credits)
This course is repeatable for 16 credits.
WR 404. WRITING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.
WR 405. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.
WR 406. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.
WR 407. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.
WR 408. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.
WR 411. THE TEACHING OF WRITING. (4 Credits)
Pedagogy and theory in composition; prepares teachers (secondary through college) in writing process, assignment design, evaluation, and grammar. Also focuses on students’ own writing. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
WR 414. ADVERTISING AND PUBLIC RELATIONS WRITING. (4 Credits)
Writing news releases, annual reports, brochures, newsletters, and other PR materials. Writing advertising copy.
Prerequisites: WR 121 with B or better or WR 121H with B or better
WR 416. ADVANCED COMPOSITION. (4 Credits)
The development of style and voice in both the personal and the academic essay.
Equivalent to: WR 416H
This course is repeatable for 8 credits.
WR 420. STUDIES IN WRITING. (4 Credits)
Selected topics in rhetoric and composition.
This course is repeatable for 8 credits.
WR 424. ADVANCED FICTIONWRITING. (4 Credits)
Workshop. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 324 with D- or better
This course is repeatable for 8 credits.
WR 435. SCIENTIFIC, TECHNICAL, & PROFESSIONAL COMMUNICATION CAPSTONE. (1 Credit)
Complete a portfolio comprised of material generated throughout previous courses in the Certificate in Scientific, Technical, and Professional Communication. CROSSLISTED as COMM 435/WR 435.
Equivalent to: COMM 435
Recommended: Completion of 18 credits towards the Scientific, Technical, and Professional Communication Certificate
WR 440. ADVANCED CREATIVE NONFICTION WRITING. (4-8 Credits)
An advanced course in creative nonfiction writing, centered around workshops of polished material.
Prerequisites: WR 340 with D- or better
This course is repeatable for 8 credits.
WR 441. ADVANCED POETRY WRITING. (4 Credits)
Advanced poetry workshop. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisites: WR 341 with D- or better
This course is repeatable for 8 credits.
WR 448. MAGAZINE ARTICLE WRITING. (4 Credits)
Writing the magazine article. Analyzing markets and writing query and cover letters, marketing manuscripts to magazines. Interviewing and researching.

WR 449. CRITICAL REVIEWING. (4 Credits)
Writing critical reviews of books, television programs, movies, plays, and restaurants for newspapers and magazines. The role of criticism in popular culture.

WR 462. *ENVIRONMENTAL WRITING. (4 Credits)
Writing about environmental topics from multiple perspectives. Includes science journalism, research and writing on current scientific issues and controversies, and theories of rhetoric and environmentalism. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisites: WR 121 with C- or better or WR 121H with C- or better
This course is repeatable for 12 credits.

WR 466. PROFESSIONAL WRITING. (4 Credits)
Introduces the texts, contexts, and concepts important to the practice of professional communication in organizational contexts, addressing practical writing skills, rhetoric, ethics, and information design. Course readings concern what professional writers do and what theories govern their actions, bridging the gap between real-world problems and academic research.
Prerequisites: WR 121 with D- or better or WR 121H with D- or better

WR 475. RHETORICS OF RACE. (4 Credits)
By exploring the interrelated concepts of race, racialization, and racism, Rhetorics of Race problematizes race as a taken-for-granted phenomenon. Through reading, writing, and discussion, class participants study racial formations as historically specific and analyze contemporary forms of racism in the US. Readings and discussion pay close attention to how rhetoric and discourse have the power to reproduce and challenge white supremacy and race-based oppressions. Emphasizing the intersectionality of oppression—that racism necessarily takes place at intersections with other forms of subordination including sexism, homophobia, ableism, etc.—Rhetorics of Race draws from Queer Black Feminism, Chican@ Feminism, and Critical Race Theory.

WR 485. CONTEMPORARY RHETORIC THEORY. (4 Credits)
Familiarizes students with a range of theories that have significantly contributed to or influenced the field of modern and contemporary rhetorical research. The course examines scholars, concepts, and methodologies that are central to contemporary rhetorical theory, while touching on key critical theorists who, although may be considered outside the field of rhetoric studies, impact the ways in which language, persuasion, and communication are currently understood. From this work, students develop their own perspectives and generate evidence-based arguments concerning those same issues.
Prerequisites: WR 121 with C- or better or WR 121H with C- or better

WR 493. *THE RHETORICAL TRADITION AND THE TEACHING OF WRITING. (4 Credits)
Major past and contemporary theories of written communication, their historical context, and their impact on writing and the teaching of writing. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

WR 495. INTRODUCTION TO LITERACY STUDIES. (4 Credits)
Literacy studies in multidisciplinary contexts. Examines historical, theoretical, and practical relationships among reading, writing, language, culture, and schooling. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

WR 497. DIGITAL LITERACY AND CULTURE. (4 Credits)
From pencils to pixels, telegraphs to texts, and semaphores to social networking, Digital Literacy and Culture focuses on the relationships between human expression and the technologies that provide context, meaning, and shape to those expressions.
Prerequisites: WR 121 with C- or better or WR 121H with C- or better

WR 499. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 16 credits.

WR 500. MFA RESIDENCY. (1-20 Credits)
Low-Residency Masters of Fine Arts Residency. Required course for graduate students in the Low-Residency Masters of Fine Arts in Creative Writing.
This course is repeatable for 48 credits.

WR 501. RESEARCH AND SCHOLARSHIP. (1-16 Credits)
This course is repeatable for 16 credits.

WR 502. INDEPENDENT STUDY. (1-16 Credits)
This course is repeatable for 16 credits.

WR 503. THESIS. (1-16 Credits)
This course is repeatable for 999 credits.

WR 504. WRITING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WR 505. READING AND CONFERENCE. (1-16 Credits)
This course is repeatable for 16 credits.

WR 506. PROJECTS. (1-16 Credits)
This course is repeatable for 16 credits.

WR 507. SEMINAR. (1-16 Credits)
This course is repeatable for 16 credits.

WR 508. WORKSHOP. (1-16 Credits)
This course is repeatable for 16 credits.

WR 509. PRACTICUM. (1-16 Credits)
Required practicum for graduate students teaching introduction to poetry writing.
This course is repeatable for 16 credits.

WR 511. THE TEACHING OF WRITING. (4 Credits)
Pedagogy and theory in composition; prepares teachers (secondary through college) in writing process, assignment design, evaluation, and grammar. Also focuses on student's own writing.

WR 512. CURRENT COMPOSITION THEORY. (4 Credits)
Current rhetoric and composition theory and its applications for teachers and writers.

WR 513. LOW-RESIDENCY MFA MENTORSHIP. (5-12 Credits)
Low-Residency Masters of Fine Arts Mentorship. Required course for graduate students in the Low-Residency Masters of Fine Arts in Creative Writing.
This course is repeatable for 36 credits.

WR 514. ADVERTISING AND PUBLIC RELATIONS WRITING. (4 Credits)
Writing news releases, annual reports, brochures, newsletters, and other PR materials. Writing advertising copy.

WR 516. ADVANCED COMPOSITION. (4 Credits)
The development of style and voice in both the personal and the academic essay.
This course is repeatable for 16 credits.

WR 517. TEACHING PRACTICUM: ENGLISH COMPOSITION. (2 Credits)
Required practicum for graduate students teaching English Composition.
WR 518. TEACHING PRACTICUM: WRITING IN BUSINESS. (1 Credit)
Pedagogy practicum for graduate students in the teaching of professional writing and communication. This course is required for GTA's who will teach WR 214, Writing in Business.  
This course is repeatable for 3 credits.

WR 519. TEACHING PRACTICUM: WR 222. (1 Credit)
This practicum prepares graduate teaching assistants to teach Writing 222 (Argumentation). It includes both theoretical and practical components, providing an overview of the curriculum and addressing course development, lesson planning, and pedagogical best practices. The practicum is required for SWLF graduate students with a focus in rhetoric and composition.

WR 520. STUDIES IN WRITING. (4 Credits)
Selected topics in rhetoric and composition.  
This course is repeatable for 8 credits.

WR 521. TEACHING PRACTICUM: FICTION WRITING. (1 Credit)
Required practicum for graduate students teaching introduction to fiction writing.  
This course is repeatable for 3 credits.

WR 522. TEACHING PRACTICUM: POETRY WRITING. (1 Credit)
Required practicum for graduate students teaching introduction to poetry writing.  
This course is repeatable for 3 credits.

WR 523. TEACHING PRACTICUM: NONFICTION WRITING. (1 Credit)
Required practicum for graduate students teaching introduction to nonfiction writing.  
This course is repeatable for 3 credits.

WR 524. ADVANCED FICTION WRITING. (4 Credits)
Advanced fiction workshop with an emphasis on developing longer pieces.  
This course is repeatable for 24 credits.

WR 525. ADVANCED SCIENTIFIC AND TECHNICAL WRITING. (4 Credits)
Combines scientific and technical writing with science journalism. Students will draw on a data set (preferably their own) to draft a scientific journal article, short grant proposal, magazine article, and letter of inquiry. They will also critically evaluate and edit documents by reviewing classmates' drafts.  
Equivalent to: PSM 525

WR 540. ADVANCED NONFICTION WRITING. (4 Credits)
Advanced creative nonfiction workshop with an emphasis on developing longer pieces.  
This course is repeatable for 24 credits.

WR 541. ADVANCED POETRY WRITING. (4 Credits)
Advanced poetry workshop.  
This course is repeatable for 24 credits.

WR 548. MAGAZINE ARTICLE WRITING. (4 Credits)
Writing the magazine article. Analyzing markets and writing query and cover letters, marketing manuscripts to magazines. Interviewing and researching.  
This course is repeatable for 8 credits.

WR 549. CRITICAL REVIEWING. (4 Credits)
Writing critical reviews of books, television programs, movies, plays, and restaurants for newspapers and magazines. The role of criticism in popular culture.

WR 562. ENVIRONMENTAL WRITING. (4 Credits)
Writing about environmental topics from multiple perspectives. Includes science journalism, research and writing on current scientific issues and controversies, and theories of rhetoric and environmentalism.  
Equivalent to: STC 562
This course is repeatable for 8 credits.
Recommended: WR 121

WR 566. PROFESSIONAL WRITING. (4 Credits)
Introduces the texts, contexts, and concepts important to the practice of professional communication in organizational contexts, addressing practical writing skills, rhetoric, ethics, and information design. Course readings concern what professional writers do and what theories govern their actions, bridging the gap between real-world problems and academic research.

WR 575. RHETORICS OF RACE. (4 Credits)
By exploring the interrelated concepts of race, racialization, and racism, Rhetorics of Race problematizes race as a taken-for-granted phenomenon. Through reading, writing, and discussion, class participates study racial formations as historically specific and analyze contemporary forms of racism in the US. Readings and discussion pay close attention to how rhetoric and discourse have the power to reproduce and challenge white supremacy and race-based oppressions. Emphasizing the intersectionality of oppression—that racism necessarily takes place at intersections with other forms of subordination including sexism, homophobia, ableism, etc.—Rhetorics of Race draws from Queer Black Feminism, Chican@ Feminism, and Critical Race Theory.

WR 585. CONTEMPORARY RHETORIC THEORY. (4 Credits)
Familiarizes students with a range of theories that have significantly contributed to or influenced the field of modern and contemporary rhetorical research. The course examines scholars, concepts, and methodologies that are central to contemporary rhetorical theory, while touching on key critical theorists who, although may be considered outside the field of rhetoric studies, impact the ways in which language, persuasion, and communication are currently understood. From this work, students develop their own perspectives and generate evidence-based arguments concerning those same issues.  
Recommended: WR 121

WR 589. THE RHETORICAL TRADITION AND THE TEACHING OF WRITING. (4 Credits)
Major past and contemporary theories of written communication, their historical context, and their impact on writing and the teaching of writing.

WR 595. INTRODUCTION TO LITERACY STUDIES. (4 Credits)
Literacy studies in multidisciplinary contexts. Examines historical, theoretical, and practical relationships among reading, writing, language, culture, and schooling.

WR 597. DIGITAL LITERACY AND CULTURE. (4 Credits)
From pencils to pixels, telegraphs to texts, and semaphores to social networking, Digital Literacy and Culture focuses on the relationships between human expression and the technologies that provide context, meaning, and shape to those expressions.  
Recommended: WR 121

WR 599. SPECIAL TOPICS. (1-16 Credits)
This course is repeatable for 30 credits.
Z 349. BIODIVERSITY: CAUSES, CONSEQUENCES, AND CONSERVATION. (3 Credits)
The earth's biodiversity is a precious inheritance that is threatened by an unprecedented extinction crisis. This course examines the evolutionary and ecological processes that have created this unique diversity of life, the importance of biodiversity in maintaining the earth's ecosystems, and methods used to conserve biodiversity for future generations. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: BI 349

Z 350. ANIMAL BEHAVIOR. (3 Credits)
Concepts of behavior; sensory receptors, internal mechanisms governing responses; learning and habitation; social organization and communication.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 350

Z 361. INVERTEBRATE BIOLOGY. (3 Credits)
Exploration of the diversity and evolutionary relationships among major invertebrate phyla with an emphasis on morphological features, functional aspects, and life history for each phylum.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 362. INVERTEBRATE BIOLOGY LABORATORY. (2 Credits)
Morphology and anatomy of representative invertebrates introduced in Z 361; diversity within phyla. Study is by dissections and both microscopic and macroscopic examination; field trip fee. Lab fee. Lec/lab.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) and Z 361 (may be taken concurrently) [C--]

Z 364. DIVERSITY OF LIFE: INVERTEBRATES. (5 Credits)
Exploration of the diversity and evolutionary relationships among major invertebrate groups with an emphasis on building and interpreting phyllogenetic trees as well as comparing and contrasting morphology, function, and life history within each group. Laboratory activities build scientific skills by exploring current hypotheses and tools for the study of invertebrate evolution.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 365. BIOLOGY OF INSECTS. (4 Credits)
Introduction to the study of insects, focusing on the biological attributes responsible for the success and dominance of insects. Emphasis on taxonomy, morphology, behavior, ecology, and coevolutionary interrelationships. Required field trips. Lec/lab.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 371. VERTEBRATE BIOLOGY. (3 Credits)
Overview of vertebrate origins and phylogeny integrating several disciplines (anatomy, ecology, genetics, developmental biology, physiology, behavior, and evolution) to explore the structural and functional adaptations and evolutionary history of vertebrates. Lec.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Recommended: Completion or concurrent enrollment in Z 372

Z 372. VERTEBRATE BIOLOGY LABORATORY. (2 Credits)
Classification, identification, and natural history of vertebrates. Includes laboratory examination of specimens and frequent field trips (fee charged) emphasizing Oregon fauna. Lab fee.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and Z 371 (may be taken concurrently) [D-]

Z 374. DIVERSITY OF LIFE: VERTEBRATES. (5 Credits)
Examination of vertebrate origins and phylogeny, integrating several disciplines (molecular biology, anatomy, behavioral ecology, and evolution). Emphasizes critical thinking and the scientific process to explore the structural/functional adaptations and evolutionary history of vertebrates. Laboratory activities build scientific skills by exploring current hypotheses and tools for the study of vertebrate evolution.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and Z 371 (may be taken concurrently) [D-]

Z 422. COMPARATIVE/FUNCTIONAL VERTEBRATE ANATOMY. (5 Credits)
Phylogenetically-based study of the form and function of vertebrate organ systems, including integumentary, musculoskeletal, cardiopulmonary, digestive, and sensory. Lab emphasizes comparative form through dissection, and function through non-invasive experimentation. Lec/lab.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) and (CH 332 (may be taken concurrently) [D-] or CH 335 (may be taken concurrently) [D-] or BI 314 [D-] or BI 314H [D-] or BB 314 [D-] or BB 314H [D-])

Z 423. ENVIRONMENTAL PHYSIOLOGY. (3 Credits)
Comparative environmental physiology of animals with emphasis on adaptations to such aspects of the physical environment as temperature, water, ions, and gases. Consideration given to interactions between physiology and environment that influence the local and geographic distribution of animals.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 123 [C-] or (CH 233 [C-] or CH 233H [C-]) and (CH 263 [C-] or CH 263H [C-]))

Z 425. EMBRYOLOGY AND DEVELOPMENT. (5 Credits)
Prerequisites: (BI 311 with D- or better or BI 311H with D- or better) and (BI 314 [D-] or BI 314H [D-] or BB 314 [D-] or BB 314H [D-])
Z 431. VERTEBRATE PHYSIOLOGY I. (4 Credits)
Systems/concepts covered include motor reflexes, autonomic nervous system, digestion/metabolism, renal and osmoregulatory, endocrine and reproductive systems. First in Z 431, Z 432/Z 442 series. Lec/rec.
Prerequisites: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) and (CH 332 (may be taken concurrently) [C] or CH 335 (may be taken concurrently) [C])

Z 432. VERTEBRATE PHYSIOLOGY II. (3 Credits)
Systems/concepts covered include blood, immune, lymphatic, cardiovascular, and pulmonary. Second in the Z431, 432/442 series.
Prerequisites: Z 431 with C- or better

Z 437. VERTEBRATE ENDOCRINOLOGY. (4 Credits)
An exploration of vertebrate endocrinology that examines principles of hormone action, inter- and intracellular signaling mechanisms within endocrine axes, and comparative endocrine physiology, emphasizing concepts of homeostasis and methodologies for evaluating normal and physiological function. Students are provided multiple forums for class participation, in the form of scientific presentations and ‘mini-reports.’
Prerequisites: BB 314 with D- or better or BB 314H with D- or better

Z 438. BEHAVIORAL NEUROBIOLOGY. (3 Credits)
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or (BI 204 [C] and BI 205 [C] and BI 206 [C]) and (CH 123 [C] or (CH 233 [C] or CH 233H [C]) and (CH 263 [C] or CH 263H [C])))

Z 440. INSECT PHYSIOLOGY. (3 Credits)
Fundamentals of insect physiology from the behavioral to the molecular level. Cellular physiology and hormonal control of molting, metamorphosis and reproduction. Overview of functions: respiration, circulation, digestion, metabolism, and osmoregulation. Physiological basis of behavior: muscles and flight, structure and functions of the nervous system, sensory physiology and chemical communication. The contributions of insect physiology to general physiological principles and biorational methods of insect pest control are discussed.
Prerequisites: (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or (BI 204 [C] and BI 205 [C] and BI 206 [C]) and (CH 123 [C] or ((CH 233 [C] or CH 233H [C]) and (CH 263 [C] or CH 263H [C])))
Equivalent to: ENT 416

Z 442. VERTEBRATE PHYSIOLOGY LABORATORY. (2 Credits)
Experiments and exercises in vertebrate physiology covering systems studied in Z 431 and Z 432. Available to Biology majors. Lab fee.
Prerequisites: Z 431 with C- or better and Z 432 (may be taken concurrently) [C-]

Z 461. MARINE AND ESTUARINE VERTEBRATE ZOOLOGY. (4 Credits)
Comparative survey of eight major invertebrate phyla and many lesser-known phyla. Areas of emphasis will be 1) invertebrate identification, 2) natural history (diversity, habitat, feeding, behavior), and 3) comparative anatomy (adaptive significance of morphological structures). Laboratories and field trips will strongly supplement lecture material. Lec/lab. Taught at Hatfield Marine Science Center.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or (BI 204 [C] and BI 205 [C] and BI 206 [C])

Z 473. HERPETOLOGY. (4 Credits)
Exploration of global herpetofauna focusing on taxa of the Pacific Northwest of North America. Identification and natural history of amphibians and reptiles are emphasized, along with a phylogenetic framework, to explore and discuss ideas involving their behavior, evolution, ecology, and conservation. Student projects examine important topics in the field.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-])) or (BI 204 [C] and BI 205 [C] and BI 206 [C])

Z 477. AQUATIC ENTOMOLOGY. (4 Credits)
Biology, ecology, collection, and identification of aquatic insects. Two required Saturday field trips. Lec/lab.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-])) or (BI 204 [C] and BI 206 [C])

Z 499. SPECIAL TOPICS. (0-16 Credits)
Topics and credits vary.
Equivalent to: Z 499H
This course is repeatable for 16 credits.

Z 499H. SPECIAL TOPICS. (1-16 Credits)
Topics and credits vary.
Equivalent to: Z 499
This course is repeatable for 16 credits.

EARNING A DEGREE AT OREGON STATE UNIVERSITY

Administration
Office of the Registrar
B102 Kerr Admin. Bldg.
Corvallis, OR 97331-2130
Phone: 541-737-6616
Email: registrars@oregonstate.edu
Website: http://registrar.oregonstate.edu

Rebecca Mathern, University Registrar, 541-737-6616
Mike Jefferis, Associate Registrar - Catalog, Curriculum & Scheduling, 541-737-0604
Jennifer Ketterman, Associate Registrar - Operations, 541-737-2830
Kristin Benson, Associate Registrar - Compliance, 541-737-2012
Tursynay Issabekova, Senior Assistant Registrar - Technology, 541-737-9984
Autumn Landis, Assistant Registrar - Athletics and Eligibility, 541-737-2018

University Degree Requirements
Current degree requirements are printed each year in the Academic Regulations (p. 16) section of the Academic Catalog, along with other information on a wide range of topics from minimum credits for full-time status to adding courses. All students are encouraged to review this part of Academic Catalog each year for the most current information about OSU requirements and procedures.

Students with questions about baccalaureate degree requirements are encouraged to contact their advisor. Students needing assistance in selecting a major or selecting an advisor may wish to call or stop by the college office.

Catalog Rights Policy
Graduation Requirements/Catalog Contract Policy
When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student’s catalog year for institutional and baccalaureate core requirements is established by their first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student’s catalog year for college/major/option/minor requirements is based on the date of declaration of the major/option/minor.
- A student’s major and option(s) must be in the same catalog year. If an option(s) is declared in an academic year subsequent to the catalog year associated with the major, the option(s) will be aligned with the catalog year of the major. If the option(s) did not exist in the catalog year of the major, the major will roll forward to the catalog year of the option(s). A second major and option(s) may be declared by the student for a catalog year which differs from the first major and option(s).
- Additionally, while the student’s first major/option must be in the same catalog year, any additional declarations of majors/options/minors will be determined by the declaration dates (and corresponding catalog year) established by the change of academic program process.
- A student, in collaboration with an advisor, can also move their major/option/minor catalog year forward.
- At the time of graduation, all continuously enrolled students, including transfer students, may not use a catalog that is more than ten years old. Students may petition their college’s head advisor for an extension of a catalog greater than ten years prior to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms). The published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c (p. 18) beginning with the 2011–2012 academic year, provides a mechanism for a student to keep their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for institutional and baccalaureate core requirements. The catalog year for college/major/option/minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU Academic Catalog. However, Oregon State University may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University.

The Baccalaureate Experience
Oregon State University is committed to creating an atmosphere of intellectual curiosity, academic freedom, diversity, and personal empowerment. This will enable everyone to learn with and from others. This compelling learning experience celebrates knowledge; encourages personal growth and awareness; acknowledges the benefits of diverse experiences, world views, learning styles, and values; and engenders personal and societal values that benefit the individual and society.

OSU develops curricula based on sound disciplinary knowledge and input from practitioners. Students acquire skills and knowledge for a lifetime of learning, and will be involved in scholarly and creative pursuits.

The baccalaureate degree includes:

- the baccalaureate core
- an in-depth study in at least one major; and
- individual elective courses.

Minors are available in many areas and are required in certain programs. Students should check college, school, program, or departmental requirements.

The Baccalaureate Core (bacc core) Curriculum represents what the OSU faculty believes is the foundation for students’ further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the bacc core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the bacc core promotes understanding
of interrelationships among disciplines in order to increase students’ capacities as ethical citizens of an ever-changing world.

**The Baccalaureate Core**

The Oregon State University Baccalaureate Core (p. 1614) is continually enriched. It emphasizes critical thinking, writing, world cultures, appreciation of differences, the arts, sciences, literature, lifelong fitness, and global awareness in 15 course categories. Over 250 courses are available to meet core requirements. Students must complete a total of 48 credits plus a Writing Intensive Course (WIC) of at least 3 credits.

The Faculty Senate Baccalaureate Core Committee determines which courses will satisfy each of the requirements above. WIC courses will be reviewed by the WIC Director and the Faculty Senate Baccalaureate Core Committee. The core is governed by the following rules: (1) No more than two courses from any one department may be used by a student to satisfy the Perspectives category of the core. (2) No single course may be used by a student to satisfy more than one subject area of the core even though some courses have been approved in more than one area. (3) Both Synthesis courses may not be taken in the same department. (4) The WIC course must be taken in the student’s major. Each interdisciplinary major has a list of approved WIC courses for that major. (WIC Rationale (http://wic.oregonstate.edu/wic-learning-outcomes)) A current list of approved Baccalaureate Core courses can be found in the OSU Catalog (p. 1614).

Defining characteristics of baccalaureate core courses are available on the Office of Academic Programs and Assessment website (https://apa.oregonstate.edu/assessment/baccalaureate-core-assessment/). Additional information is also available online (http://main.oregonstate.edu/baccalaureate-core/).

The purpose of the writing intensive requirement is to insure that each graduate is prepared to write in the discourse, conventions, and genres of their major field.

A student completing requirements for two majors, including double degrees as well as dual majors (one degree with two majors), may request that one WIC course satisfy the WIC requirement for graduation in both majors. This opportunity is available if and only if:

1. The discourse, written conventions, and genres of the two majors are closely related, and
2. The substitution of a WIC course from one major for that in another major is approved in writing by the chairs or heads of both departments involved and the approval is placed in the student’s academic file.

Students and advisors should be aware that in some cases, the WIC course in a major is an integral part of the degree and substitution may not be appropriate. The final decision rests with the department chair or head.

**Baccalaureate Core Requirements**

No single course may be used by a student to satisfy more than one area of the Baccalaureate core even though some courses are approved for more than one area.

**Skilled Courses (lower division except WIC) (15)**

To support students’ success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSU-generated credits:

1. Writing I (3) (WR 121, must earn at least C–)
2. Speech (3)
3. Mathematics: MTH 105, *Intro to Contemporary Mathematics, or higher level mathematics (3)
4. Physical Science (including lab) (4)
5. Biological Science (including lab) (4)
6. Plus choice of additional physical or biological science (including lab) (4)

**Take a minimum of one course in each of the following areas:**

- Cultural Diversity (3)
- Literature and the Arts (3)
- Social Processes and Institutions (3)
- Western Culture (3)

**Difference, Power, and Discrimination Courses (lower or upper division) (3)**

**Synthesis Courses (upper division) (6)**

Both synthesis courses may not be taken in the same department. One course is from each of the following areas:

1. Contemporary Global Issues (3)
2. Science, Technology, and Society (3)
3. WIC (Writing Intensive Course, upper division, included in credits for major) (3)

The WIC course must be taken in the student’s major. Each interdisciplinary major has a list of approved WIC courses for that major.

**Total (48) + WIC (3) = 51**

**Approved Baccalaureate Core Courses**

For the current and complete list of approved baccalaureate core courses (p. 1614).

**Monitoring Degree Progress with MyDegrees**

MyDegrees is a web-based degree checklist program and academic advising tool designed to assist students and advisors in reviewing degree progress. It organizes a student’s academic transcript
chronologically and categorically, identifying courses they have completed and courses still needed to fulfill the degree requirements.

Students may access this tool through MyOSU (https://myosu.oregonstate.edu), or through links on the Office of the Registrar website (http://registrar.oregonstate.edu). Video tutorials on how to use MyDegrees are available on the Office of the Registrar website (http://registrar.oregonstate.edu/video-tutorials/).

The Office of the Registrar works with advisors to update and maintain an accurate degree audit that will be used to clear student degree requirements during the final term of the students’ undergraduate year.

**Major Program**

In-depth study in at least one area is required in each baccalaureate degree. Major requirements often include not only courses within the given discipline but also necessary prerequisites and work in related areas.

Students must satisfy all the requirements of their major department and major college. The dean’s certification of fulfillment of all requirements of the major college is required.

**Upper-Division Courses**

1. **Credits in upper-division courses:** minimum 60 (exclusive of upper-division physical education activity courses).
2. **Credits in each major:** minimum 36, including at least 24 in upper-division courses.

For further details on upper-division course requirements, see Academic Regulation 25c (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Practicum Courses and Internships**

Academic performance is not the sole criterion for admission to and continuation in certain courses and programs at the university, particularly practicum courses and internships. The university may find it necessary to evaluate a person’s behavior and background to determine the ability to maintain the standards of professional conduct which are necessary in some disciplines. An evaluation may take into consideration current performance as well as past experiences and actions which could affect the ability to perform in the particular course or program.

**Grade-Point Average (GPA)**

A minimum GPA of 2.00 on OSU cumulative grade-point average is required. See Academic Regulation 25e (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Total Credits**

A minimum 180 earned credits, which must include:

1. **Credits in upper-division courses:** minimum 60 (exclusive of upper-division physical education activity courses).
2. **Credits in each major:** minimum 36, including at least 24 in upper-division courses.

For further information on total credits required, see Academic Regulation 25c (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Academic Standing**

Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined in the Grades, Regulations, and Records section of this catalog.

**Academic Residence Requirement**

Academic Regulation 25f (p. 21), Academic Residence, Institutional Requirements for Baccalaureate Degrees, states:

- A minimum of 45 of the last 75 credits, or 150 total credits, must be completed while the student is in academic residence at OSU. ‘Academic Residence’ is defined as OSU courses taken as a degree-seeking student of OSU or courses through one of the following approved special programs: Professional degree programs which require that the student enroll in another institution while finishing the bachelor’s degree at OSU or an international study program sponsored by Oregon State University.
- A minimum of 15 upper-division credits used to meet the preceding residency requirement (1) must be taken in each of the student’s majors.
- Credits earned by special examination for credit (AR 23) are not considered in academic residence.

**Other Graduation Requirements**

**BA Degree Requirements**

The bachelor of arts (BA) degree is conferred for broad and liberal education in various approved areas of studies (typically humanities, arts, social science, and sciences). Requirements for the BA degree differ from those for a bachelor of science (BS) degree in the same department. Many departments offer only one or the other of the two baccalaureate degrees. Check departmental curricula for detailed information. The BA degree requires second language proficiency, including American Sign Language (ASL), equivalent to that attained at the end of the second year course in the language as certified by the School of Language, Culture, and Society. See the Academic Regulations for more details.

**Concurrent and Subsequent Baccalaureate Degrees**

Academic Regulation 26 (p. 22)

1. **Concurrent Baccalaureate Degrees:** An undergraduate student may be granted two or more baccalaureate degrees (for example the BA or BS) at the same graduation exercise. The student must:
   a. Complete institutional, college, and departmental requirements for the degree;
   b. Complete, for each additional degree, a minimum of 32 credits more than the requirements of the curriculum requiring the least number of credits; and
   c. Complete each additional 32 credits in residence.
2. **Subsequent Baccalaureate Degree:** A student who has received a previous baccalaureate degree from either OSU or another accredited university may be granted a subsequent baccalaureate degree. The student must:

---

1 Some degree programs may require more than 180 credits.
2 Unearned credits are those courses for which a grade of F, N, U, I, W, AUD, or WAU are assigned as a final grade for that course. All other grades are calculated as earned credit.
To become a degree candidate:

- You must be a current OSU student with senior standing
- You must be enrolled in the final course(s) required for your program of study

With Institutional Awarding, undergraduate students no longer need to apply for graduation. Students should meet regularly with their academic advisor to ensure their progress to graduation.

Commencement exercises are held annually in June and attendance is optional. Students who have graduated in the previous summer, fall or winter terms and senior-level students who will graduate in spring, or upcoming summer and fall terms may participate in the June Commencement exercises.

Ecampus students planning to travel to Corvallis for Commencement can contact Ecampus Student Services for additional information.

Additionally, please be aware that all corresponding transcripts are sealed, meaning the academic record cannot be altered, by the Office of the Registrar 90 days after the conferral of a degree. This ensures that the academic course work that reflects the components that substantiated the awarding of the degree is accurately and permanently recorded.

Double Degrees

A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student’s academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26).

Some double-degree programs — Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) — require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26.)

Dual (or Multiple) Majors

A student may earn two or more majors within a single degree program (a particular combination of degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student’s academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in

Subsequent Credentials: Minors, Certificates, Options, and Majors

Academic Regulation 27 (p. 23)

1. **Subsequent Minors and Certificates:** A student who has received a previous baccalaureate degree from either OSU or another accredited university or college may be granted a subsequent minor or certificate. The student must:
   a. Complete current requirements for minor or certificate and receive the dean’s certification;
   b. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
   c. Academic residence: minimum 15 credits in residence.

2. **Subsequent Options and Majors:** A student who has received a previous baccalaureate degree from OSU may be granted a subsequent option or major credential:
   a. Complete current requirements for option or major and receive dean’s approval;
   b. Achieve a minimum of 2.0 OSU cumulative grade-point average on work taken for subsequent credential;
   c. Academic residence: minimum 15 credits in residence.

3. Additional credits necessary for subsequent credentials may be taken prior to or subsequent to the granting of a previous baccalaureate degree.

Requirements for Certificates

See individual certificate programs described in this catalog.

Requirements for Advanced Degrees

For advanced degree requirements see the Graduate School section of this catalog or contact the Graduate School. Students who take courses they wish to apply toward an advanced degree before they have received baccalaureate degrees may have a limited number of credits reserved by petition. Also see Reserving Credits in the Graduate School section.

A graduate student also may obtain baccalaureate degrees from Oregon State University by satisfying the requirements for subsequent degrees.

Undergraduate Graduation via Institutional Awarding

To become a degree candidate:

- You must be a current OSU student with senior standing
- You must be enrolled in the final course(s) required for your program of study

With Institutional Awarding, undergraduate students no longer need to apply for graduation. Students should meet regularly with their academic advisor to ensure their progress to graduation.

Commencement exercises are held annually in June and attendance is optional. Students who have graduated in the previous summer, fall or winter terms and senior-level students who will graduate in spring, or upcoming summer and fall terms may participate in the June Commencement exercises.

Ecampus students planning to travel to Corvallis for Commencement can contact Ecampus Student Services for additional information.

Additionally, please be aware that all corresponding transcripts are sealed, meaning the academic record cannot be altered, by the Office of the Registrar 90 days after the conferral of a degree. This ensures that the academic course work that reflects the components that substantiated the awarding of the degree is accurately and permanently recorded.

Double Degrees

A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student’s academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26).

Some double-degree programs — Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) — require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26.)

Dual (or Multiple) Majors

A student may earn two or more majors within a single degree program (a particular combination of degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student’s academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in
some cases may be earned as a credential subsequent to completion of
the degree. (See Academic Regulation 27 (p. 23)).

**Note:** Occasionally, with careful planning, a student can complete two
majors from separate colleges in less than the 212 credits required for
two degrees. When this occurs a student can petition for an exception,
and graduate with two majors from separate colleges. The student must
pick one college as their home college and all majors will be associated
with the home college. The student must have the support of advisors
from both major programs to have their petition considered.

**Honors Degrees**

Students completing the honors college curriculum receive an honors
degree in the college of their major, e.g., HBS Honors Bachelor of Science
in Chemistry, or HBA Honors Bachelor of Arts in English. In some cases it
might be possible for an Honors College student to earn multiple degrees
simultaneously by following the double degrees requirements outlined in
Academic Regulation 26 (p. 22).

Students seeking an honors degree must meet the requirements of the
Honors College in order to receive their degree. Students that complete
an Honors degree will have the honors degree recorded on their academic
record. The student’s diploma will also include the honors degree
designation (e.g., Honors Bachelor of Science, etc.).

**Note:** Honors degrees are not currently available to Ecampus students.

**Degrees with Distinction**

Graduates who have completed at least 90 credits at OSU or sixty upper-
division credits at OSU, and who have an OSU cumulative GPA of 3.5 or
higher, are awarded an OSU degree with distinction as follows:

<table>
<thead>
<tr>
<th>Academic Distinction</th>
<th>OSU GPA Range</th>
<th>Graduation Honor Cord Color</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.50-3.69</td>
<td>Orange</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70-3.84</td>
<td>Gold</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.85-4.00</td>
<td>White</td>
</tr>
</tbody>
</table>

*These distinctions are noted on diplomas.*

**Undergraduate Research/Arts Fellow Honor Distinction**

Oregon State University recognizes significant engagement and
accomplishment in undergraduate research and the arts by awarding
an honor distinction of ‘Undergraduate Research/Arts Fellow’ to
students of all majors upon completion of a significant research or
creative arts experience under faculty mentorship. ‘Research’ here is
intended to encompass modes of scholarship and inquiry as they are
variously practiced and defined in OSU’s academic disciplines. Students
completing significant creative projects in the arts may receive the
honorary distinction ‘Undergraduate Arts Fellow’ The distinction will
be noted on the student’s transcript, and the student will receive a blue
honor cord to be worn at graduation ceremonies.

To qualify for the Undergraduate Research/Arts Fellow distinction:

1. Students must demonstrate involvement in all major phases of their
project including conception, implementation, and presentation. This
involvement will generally consist of sustained work over multiple
quarters or the summer resulting in an original contribution relative to
the discipline.

2. The project presentation must be to an audience that extends beyond
the immediate research group or creative context, for example
at a public performance, symposium/seminar, the annual CUE
(Celebration of Undergraduate Excellence) at OSU, a professional
meeting, or through publication in a journal.

3. Evidence of the presentation must be submitted with the final
honorary distinction application and deposited into the OSU Scholars
Archive.

4. The faculty mentor must endorse the application, verifying
satisfaction of the criteria described above.

To apply for the distinction, students should complete the OSU
Undergraduate Research/Arts Fellow Honor Distinction Application
(see http://undergraduate.oregonstate.edu/research/transcript-notation/).
Students that complete a thesis in the University Honors College,
International Education, Physics, BioResource Research or the Bioenergy
Minor should submit Form A while form B is to be used for all other
research/creative activities. The Form B which application requires
submission of a detailed description of the project and the student’s
involvement in specific research/creative tasks, a timeline of the
student’s project engagement, details of the public presentation, and the
faculty mentor’s endorsement. Applications are submitted to the head
advisor in the students’ major college, who will sign the application and
transmit to the Director for Undergraduate Research for signature before
it is sent to the Office of the Registrar for processing. Applications may
be submitted at any time during the undergraduate’s career but no later
than three weeks prior to a student’s anticipated graduation date.

**Dissertation/Thesis**

Upon completion and acceptance of a dissertation/thesis at the
conclusion of a program of study, the dissertation/thesis will be recorded
on a student’s transcript, noting the title and term/year that the
dissertation/thesis was accepted by the university.

**Re-Enrolling Students**

Re-enrolling students are reminded that graduation requirements may
have changed. Students are responsible for consulting their college for
changes in their curriculum. If a program has been discontinued, students
cannot expect to continue pursuit of that program. Re-enrolling students
are also reminded that individual retention and re-enrollment standards of
specific colleges may be in effect.

**Oregon Transfer Students**

Oregon community college students entering OSU who have completed
the Associate of Arts Oregon Transfer (AAOT) degree (meeting the block
transfer agreement between Oregon community colleges and Oregon
public universities) will satisfy the lower-division requirements of the
baccalaureate core (except those in the synthesis requirement) and have
junior standing for registration.

When entering OSU, Oregon community college students who have
completed the Associate of Arts Oregon Transfer (AAOT) degree will
have junior standing for registration and will satisfy the lower-division
requirements of the baccalaureate core, except those in the synthesis
requirement. The AAOT degree meets the block transfer agreement
between Oregon community colleges and Oregon public universities.

For more information about how OSU accepts any of the transfer degrees,
call OSU Admissions at 800-291-4192.
Washington Transfer Students

The Direct Transfer Associate degree awarded by any community college in Washington state will satisfy lower-division general (core) requirements at OSU. Students will receive junior level standing with an earned Washington Direct Transfer Associate degree of 90 transferable quarter hours or more. The minimum requirements are: 2.0 GPA on 90 earned quarter hours of transferable credit. OSU will accept a maximum of 12 credits in professional, vocational, and technical courses. You must still meet requirements in your chosen major, minor, or professional program.

For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

California Transfer Students

OSU accepts the Intersegmental General Education Transfer Curriculum (IGETC) to satisfy lower-division (general) core requirements. The IGETC was developed for community college students who plan to transfer to a four-year institution but are undecided about which one and/or undecided about a major. Students interested in the IGETC path to transfer are strongly advised to see an academic advisor prior to enrollment. The minimum requirements are: 36 quarter (24 semester) academically transferable hours, 2.25 cumulative GPA, IGETC Area 1 Group A English requirement (C– or higher grade), IGETC Area 2 Mathematical Concepts requirement (C– or higher grade), and student must be admissible to the last institution they attended.

For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

Transfer Credits

Decisions on transfer courses meeting specific baccalaureate core (general education requirements) will be made by the Office of Admissions with the Faculty Senate and the Office of Academic Programs. Some requirements may be met by advanced placement or international baccalaureate. For more information, contact the Office of Admissions. Articulation tables for baccalaureate core courses can be found online (http://admissions.oregonstate.edu/baccalaureate-core-course-equivalencies/).

Baccalaureate Core Courses

The Baccalaureate Core (Bacc Core) Curriculum represents what the OSU faculty believes is the foundation for students’ further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the Bacc Core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the Bacc Core promotes understanding of interrelationships among disciplines in order to increase students’ capacities as ethical citizens of an ever-changing world.

No single course may be used by a student to satisfy more than one subject area of the Core even though some courses have been approved in more than one area. See Academic Regulation 25(a)(5) (p. 21).

Skill Courses (15)

To support students’ success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSU-generated credits:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>WR 121</td>
<td>*ENGLISH COMPOSITION (must earn at least C-)</td>
<td>3</td>
</tr>
<tr>
<td>MTH 211</td>
<td>*FUNDATIONS OF ELEMENTARY MATHEMATICS</td>

Ecampus – Top-ranked degrees online
As a leader in online education, Oregon State University Ecampus works with OSU faculty to provide access to exceptional learning experiences that transform the lives of students in Oregon and around the world. Thousands of online and distance students enroll in Ecampus’ nationally ranked degree programs and courses each year, all of which are developed by Oregon State University faculty. In the 2018-19 academic year, more than 25,000 OSU students took at least one Ecampus class online.

OSU Ecampus is widely regarded as one of America’s best providers of online education and has been ranked nationally by numerous publications (http://ecampus.oregonstate.edu/online-degrees/promotion/top-ranked.htm) in each of the last nine years. In January 2019, Oregon State’s online bachelor's programs were ranked No. 3 in the nation (https://ecampus.oregonstate.edu/news/2019/oregon-state-online-education-top-10-rankings/) by U.S. News & World Report. It marked the fifth straight year OSU Ecampus was ranked in the top 10. This recognition is based on student engagement; faculty credentials and training; services and technology; and expert opinion.

Students interested in pursuing an Oregon State degree online can choose from more than 60 programs (https://ecampus.oregonstate.edu/online-degrees/), including bachelor’s degrees in business administration; fisheries and wildlife sciences; Spanish; computer science (postbaccalaureate); agricultural sciences; and various liberal arts disciplines. Oregon State’s online and hybrid graduate-level offerings feature four MBA tracks that include organizational leadership and innovation management; master’s programs in engineering management and data analytics; a Master of Natural Resources; and a variety of education programs. Find a complete list of degree and certificate programs here (http://ecampus.oregonstate.edu/). Ecampus delivers more than 1,200 courses online throughout the year. A complete list of classes is available online (http://ecampus.oregonstate.edu/soc/).

Ecampus is also helping expand Oregon State’s presence in the Portland region. Not only do students have access to OSU-signature programs and courses online through Ecampus, but now they can also study in a dynamic, hybrid (online/in-person) learning environment that includes face-to-face interaction with OSU faculty and students as well as on-site support services at the OSU Portland Center at Pioneer Square (https://portland.oregonstate.edu).

Oregon State’s distance learners include full- and part-time students, working and retired professionals, community college students, active-duty and retired military, high school students and individuals who want to further their education with a single college course. Ecampus students and graduates hail from all 50 states and more than 50 countries worldwide.

All curricula for Ecampus courses and degree programs are designed by Oregon State faculty and are held to the same rigorous academic standards as the university’s on-campus classes. OSU is accredited by the Northwest Commission on Colleges and Universities, and all Ecampus students who complete degree requirements receive the same diploma and transcript as campus-based students.

Ecampus works closely with more than 800 OSU faculty members and department heads in order to provide students with enriching educational opportunities. Our current online offerings include courses in more than 100 subjects, from anthropology and chemistry to economics and public health. Oregon State partners with 20 community colleges throughout the state and in Hawaii as a way to help students progress toward a four-year degree. The Degree Partnership Program allows students to take community college and OSU classes concurrently in order to meet the course-load requirement for financial aid and to access other OSU services, including advising. Learn more about taking Ecampus online classes with the Degree Partnership Program (http://partnerships.oregonstate.edu).

Services for Students
Oregon State Ecampus offers a variety of support services (https://ecampus.oregonstate.edu/students/) that meet students’ needs and help them along the path to graduation. Once enrolled online, Ecampus students have access to student services specialists; a team of success coaches, who work one-on-one with learners to identify strategies to support them in achieving their goals; a dedicated Ecampus librarian and 24/7 library support; free online tutoring and remote exam proctoring (https://ecampus.oregonstate.edu/services/proctoring/); OSU’s Disability Access Services; career counseling; and live, around-the-clock technical support on OSU’s learning management system, Canvas.

Ecampus works to create a sense of community for its students by sharing news about OSU faculty and students online (http://ecampus.oregonstate.edu/news/) and in a quarterly newsletter (https://ecampus.oregonstate.edu/news/newsletters/). Ecampus also has a strong following on Facebook (http://facebook.com/osuecampus/), Instagram (http://instagram.com/osuecampus/), Twitter (http://twitter.com/osuecampus/) and LinkedIn (http://linkedin.com/company/oregon-state-ecampus/) where students can engage with fellow classmates, OSU Beavers fans and ask questions of the Ecampus staff.

Ecampus also provides assistance by email, phone or in person to prospective and current students who are interested in taking Oregon State courses online and at a distance.

Services for Faculty
The Ecampus staff provides an array of services for faculty, including course development training workshops, facility coordination and liaison activities with partnering community colleges and universities. Find a complete list of training sessions and workshops online (http://ecampus.oregonstate.edu/faculty/training/).

The Ecampus Faculty Forum is an annual showcase of excellence in online teaching that features interactive, wide-ranging discussions on how Oregon State applies its academic prestige to online education. Held each spring on campus, the event gives faculty the opportunity to hear colleagues discuss innovative teaching methods, best practices and relate their experiences in online course development. More than 250 OSU faculty, administrators and staff attend the event annually.

Ecampus operates a program called QM Online Course Design, which seeks to improve student success in online courses by focusing on continuously improving course design. Using the independent and research-based Quality Matters peer review process, the faculty-driven
QM program examines course design, not the content itself or the teaching.

Having an online course peer reviewed is an ideal way for OSU faculty to receive fresh ideas from colleagues who can offer positive feedback to create more active learning. The Ecampus Course Development and Training team conducts training sessions (http://ecampus.oregonstate.edu/faculty/qm/) year-round, and stipends are awarded when one reviews a peer’s course.

Kathryn Linder, Director

The OSU Ecampus Research Unit (ECRU) makes research actionable through the creation of evidence-based resources related to effective online teaching, learning and program administration toward the fulfillment of the goals of Oregon State’s mission.

Specifically, the ECRU conducts original research and provides resources to encourage faculty research and external grant applications related to online teaching and learning.

Established in 2015, the ECRU regularly publishes the results of national and local studies, and it produces a weekly podcast, “Research in Action (https://ecampus.oregonstate.edu/research/podcast/),” to address topics and issues facing researchers nationwide.

In late 2017, the ECRU created the Online Learning Efficacy Research Database (https://ecampus.oregonstate.edu/research/projects/online-learning-efficacy-research/), a new repository of academic studies that allows users to explore whether the learning outcomes of online education are equivalent to face-to-face environments. As of April 2019, the Online Learning Efficacy Research Database has 240 citations across 74 discrete disciplines from 173 academic journals. The database is updated each month with additions of new studies that fit the database parameters.

The Research Unit houses a competitive award program to fund Oregon State faculty in their online learning research endeavors. Learn more about the Ecampus Research Fellows (ECRF) program (https://ecampus.oregonstate.edu/research/fellows/), its goals, timeline and the materials you’ll need to apply online (http://ecampus.oregonstate.edu/research/fellows/).

To make college more affordable and accessible for students, Ecampus Open Educational Resources works with university faculty to create no-cost and low-cost course materials to be used in classes on-campus and online with OSU Ecampus.

Ecampus Open Educational Resources aims to take advantage of OSU’s national reputation in the field of online learning to establish a competitive open educational resources (OER) program that focuses on reusable digital components. In partnership with OSU Libraries and Press, Ecampus Open Educational Resources partners with faculty to adopt, adapt and author open textbooks that are freely available online to students and faculty at Oregon State and worldwide.

Learn how you and your department can partner with Ecampus Open Educational Resources here (http://open.oregonstate.edu/opportunities/).

The Office of Financial Aid is here to help you invest in your future. It’s a good idea to apply for financial aid at the same time that you apply for admission to OSU. Although we won’t review your financial aid information until after your admission application is filed, you can still apply for financial aid before you have been admitted to OSU. Learn more about your options at OSU by choosing a category below.

Financial aid is based on the premise that you, and in the case of dependent students, your parents are primarily responsible for providing for your educational expenses, and it is intended to supplement student and family contributions toward educational costs. Financial aid comes from many sources, including federal and state government, private organizations, and Oregon State University’s institutional funds. These funds consist of grants, scholarships, federal work study, subsidized loans, unsubsidized loans, and parent loans.

Eligibility/Application Procedures
To be eligible for federal financial aid, a student must:

1. Fill out the Free Application for Federal Student Aid (FAFSA), beginning October 1st using previous year tax data (for example the 2019–2020 application will use 2017 tax information). Parents and students are encouraged to use the IRS data retrieval tool to update their income information and submit it by the OSU priority deadline of February 28. The FAFSA application process allows for the completion of tax information questions from the IRS directly from your return! Follow the prompts while completing the application to authorize this information exchange. Always remember that there is no fee to apply for federal aid.

2. List Oregon State University as a school that you would like your information to be sent to on the FAFSA. Oregon State’s federal school code is 003210.

3. The priority FAFSA application deadline for OSU is February 28th. This date is used to determine eligibility for some need-based aid programs as well as state and institutional funds. Applications received after the priority deadline will still be eligible for federal aid such as the Pell Grant and Direct Loans. Graduate students are not eligible for federal Title IV grants or subsidized loans.

4. Make sure you are eligible to receive financial aid. In order to receive federal funding you must:
   • Have a high school diploma or a General Education Development (GED) certificate, or complete a high school education in a home school setting that is treated as such under state law.
   • Be enrolled or accepted for enrollment in a degree or approved certificate program (e.g., not special admit)
   • Be a U.S. citizen or eligible noncitizen.
   • Have a valid Social Security Number.
   • Register with the Selective Service if required. You can register online (http://www.sss.gov) or you can call 1-847-688-6888. (TTY users can call 1-847-688-2567.)
   • Maintain satisfactory academic progress as defined by Oregon State University once in school.
   • Are not in default on a federal student loan and do not owe money on a federal student grant.
   • The Higher Education Act of 1965 as amended (HEA) suspends aid eligibility for students who have been convicted under federal or state law of the sale or possession of drugs, if the offense occurred during a period of enrollment for which the student was receiving federal student aid (grants, loans, and/or work-study).

5. Apply for admission to Oregon State University. Apply Online. You will not be considered for any financial aid award until you have applied to the university.

What happens AFTER I apply?
Once you have submitted your FAFSA application online you will receive a confirmation of receipt from Federal Student Aid. They will also send you a Student Aid Report that will give you a summary of your application and inform you of any problems you might need to resolve. You should read this report carefully and resolve problems in a timely manner. If you receive notification that something on your FAFSA is missing or incorrect, you can check your financial aid information through MyOSU Financial Aid Information or email the OSU Office of Financial Aid for further information.

Students whose aid application was received by the end of February may expect to receive an initial award letter by approximately April 1. Aid applications are then completed on a rolling basis by date of receipt with award notifications being sent out as files are completed.

You will receive an email or letter once your financial aid award has been completed. You will also be notified if you need to provide further information in order for us to complete your application. All correspondence will be sent to your ONID email account, so be sure to keep your information up to date!

The award notification will show the type and amount of aid available to you for the coming school year. To reserve these funds, the student must
read and accept the award within 30 days. The accepted award indicates the student has read and agrees to the terms of the award as outlined.

Understand Before You Accept

By accepting your award, you are stating that you have read, understand, and accept the Terms and Conditions (http://financialaid.oregonstate.edu/review_termsofconditions/) of your award. As a recipient of financial aid, you must meet certain requirements to maintain financial aid eligibility. The Office of Financial Aid reserves the right to revise a financial aid award during any time of the year if there are changes in your financial aid eligibility. You will be notified through your OSU student email if new requirements have been established or revisions have been made. Your aid eligibility may change based on FAFSA Verification (http://financialaid.oregonstate.edu/verification-faqs/), Satisfactory Academic Progress (http://financialaid.oregonstate.edu/review_satisfactoryacademicprogress/), withdrawing (http://financialaid.oregonstate.edu/receive_withdrawal/), from courses, course participation (http://financialaid.oregonstate.edu/course-participation/), Census Date enrollment (http://financialaid.oregonstate.edu/receive_censusdate/), reaching aid limits (http://financialaid.oregonstate.edu/aid-limits-undergraduates/), and other factors. If you will be less than fulltime (12 credits as an undergraduate/post-bacc or 9 credits as a graduate student) please submit an enrollment revision form (http://financialaid.oregonstate.edu/forms/) to let us know.

Acceptance Deadlines

The acceptance deadlines listed on your award letter do not apply to federal Ford Direct subsidized and unsubsidized loan offers. If you are still deciding how much to accept in Ford loans, you may wait until closer to the start of the term to accept that portion of the aid offer.

Students Who Are Not Yet Admitted

You will not be able to login and accept your aid offer until you have received your Admission's letter and your OSU student ID number. If you have not yet received your ID number and cannot login to MyOSU, you may disregard the acceptance deadline listed on your award letter. Just be sure to accept or decline your aid offer once the Admission's process is complete.

How to Accept Your Aid Offer

To accept your financial aid, login to MyOSU (http://oregonstate.edu/main/online-services/). Log in using your ONID username and password. If you need assistance with this information, you can contact the OSU Computer Help Desk at 541-737-3474.

You can then accept, reject, or revise your Financial Aid Award through MyOSU (http://oregonstate.edu/main/online-services/) by completing the following steps:

- Select the Paying for College tab
- Select Financial Aid Awards
- Select the appropriate year (ex. 2019-2020)
- Answer and submit any relevant questions on the Resources/ Additional Information Tab
- Review your Terms & Conditions by selecting the Terms and Conditions tab
- Then select Accept Award Offer tab
- Click Submit when done
- Go to Student Loans (https://studentaid.gov/) to complete any necessary Entrance Counseling and Master Promissory Notes (these are both required in order to receive federal student loans)
- If you will be enrolled less than fulltime submit an enrollment revision form (http://financialaid.oregonstate.edu/forms)

*You may accept all or a portion of aid awarded to you. You are also not required to accept the maximum loan amount offered to you. To borrow a lesser amount, indicate the total amount of loan you wish to borrow for the academic year. When deciding what amount to accept, please note that your loans must be divided up equally throughout the academic year.

*You are responsible for notifying the OSU Office of Financial Aid in the event that you receive any additional awards from any other source. The OSU Office of Financial Aid and Scholarships will then make any required revisions to your aid package. The receipt of additional aid may result in a reduction or elimination of aid from university-administered programs, even if it has already been paid.

*If you are considered a dependent student, your parents can also apply for a Parent PLUS loan up to the remaining cost of attendance by completing a PLUS loan application and Master Promissory Note available for them through the Federal Student Loans website. (https://studentloans.gov/myDirectLoan/index.action/)

*Important notice about Parent PLUS loan applications: The PLUS loan application will not be available for 2019-2020 until May 01, 2019. If you attempt to apply prior to that date you will be told that OSU does not participate in the program. Rest assured, OSU DOES participate in the Federal Direct Parent PLUS loan program. Applications for parent PLUS loan requires a credit check each time the parent applies for the loan and is only valid for 180 days. Applying too early may cause delays with processing and disbursements. Students can review their file status by logging into their ONID account.

Types of Financial Aid

Federal Programs

Federal Pell Grant

A need-based grant from the federal government intended for high need undergraduate students seeking their first bachelor's degree.

- After the Free Application for Federal Student Aid (FAFSA) is filed, the Department of Education sends you a Student Aid Report (SAR) or an Information Acknowledgement if you filed online. These documents will indicate if you are Pell eligible and it is important to review them for accuracy.
- Based on the Congressional approval of year round Pell, students may now receive up to 150% of their Pell eligibility in a single year. You may be eligible to receive a fulltime Pell Grant for all 4 terms of the academic year. Terms in which a student is attending less than halftime (fewer than 6 credit hours) may not be counted towards this additional eligibility.
- Students may receive the Pell grant for a maximum of 18 terms/12 semesters. Utilizing year round Pell will use this lifetime eligibility (https://studentaid.ed.gov/sa/types/grants-scholarships/pell/calculate-eligibility/) more quickly.

Federal Supplemental Educational Opportunity Grant (FSEOG)

- A need-based grant from the federal government intended for high need undergraduate students seeking their first bachelor's degree.
• Administered by the OSU Office of Financial Aid. Funds are limited and eligibility is based in part by meeting the OSU priority FAFSA submission deadline of February 28.

Federal College Work-Study Program (FWS)

The Federal College Work-Study Program (FWS) program helps provide part-time jobs for students with financial need to help them pay for their education.

• The program is administered by the OSU Office of Financial Aid. Funds are limited and eligibility is based on need and in part by meeting the OSU priority FAFSA submission deadline of February 28.
• Being awarded FWS funds allows you to apply for jobs that specifically have the Work-Study designation. If you are awarded FWS and secure a Work-Study job, you will be paid monthly for hours worked.
• The amount of FWS indicated on your award is the maximum amount you may earn for the academic year. Funds are paid monthly on the basis of hours worked in the pay period not to exceed 20 hours per week.
• Students not awarded FWS may still apply for jobs both on and off campus.

Please review our Work-Study Page (https://financialaid.oregonstate.edu/Work_Study/) for more detailed information

LOANS

Loans: Federal Aid THAT DOES HAVE TO BE REPAID

Federal Loan Basics

• Federal Student Loans are aid that must be repaid.
• You must file a FAFSA each year to receive a federal loan offer.
• On Subsidized Loans, the U.S. Department of Education pays the interest while you are attending school at least half time.
• On Unsubsidized Loans, you are responsible for paying the interest during times of deferment.
• Parent Plus and Graduate Plus loans require a credit check and separate application each year.
• Minimum halftime enrollment is required each term to receive federal loans.
• Find interest rate and origination fees for all federal loans online at https://studentaid.ed.gov/sa/types/loans/interest-rates/.
• There are yearly, aggregate, and timeframe maximums for federal loans.
• The Perkins Loan program has not been extended beyond the 2017-2018 aid year. Repayment and deferment options are handled by the OSU Business Affairs Student Loan Office (https://fa.oregonstate.edu/business-affairs/perkins/). Please see our Perkins disclosure page (https://financialaid.oregonstate.edu/federal-perkins-loan-program-extension-act-additional-disclosures/) if you have an existing Perkins loan.

Types of Federal Loans

Subsidized Federal Ford Direct Student Loan

• Subsidized means the U.S. Department of Education pays the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) while you are attending school at least half time.

• Awarded to undergraduate students with financial need.
• The amount you are awarded is determined by your financial need and class rank.
• If you have not received a Federal Ford Direct Loan at OSU in the past, you must complete Entrance Counseling and a Master Promissory Note online at StudentLoans.gov (https://studentloans.gov/myDirectLoan/index.action/).
• Repayment begins 6 months after graduation or dropping below half time enrollment
• Has yearly, aggregate, and timeframe limits.

Unsubsidized Federal Ford Direct Student Loan

• Unsubsidized means you are responsible for paying the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) during times of deferment.
• Awarded to undergraduate and graduate students.
• The amount you are awarded is determined by your class rank and dependency status.
• If you have not received a Federal Ford Direct Loan at OSU in the past, you must complete Entrance Counseling and a Master Promissory Note online at StudentLoans.gov (https://studentloans.gov/myDirectLoan/index.action/).
• If you are a dependent student and your parent has been credit denied for the Parent Plus loan this year, you may submit a Student Loan Revision form to request an increase in the Ford Direct unsubsidized student loan.
• Repayment begins 6 months after graduation or dropping below half time enrollment.
• Has yearly and aggregate limits.

Parent PLUS Federal Loan

• The Federal Direct Parent PLUS Loan is a credit based loan borrowed by the parent on behalf of a dependent undergraduate or post-bacc student for educational expenses.
• Has no yearly or aggregate limits but amounts must fit into the expected cost of attendance.
• The loan is unsubsidized meaning you are responsible for paying the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) during times of deferment.
• The parent borrower must complete a Direct PLUS Loan Application and Master Promissory Note (MPN) online at StudentLoans.gov.
• The credit check, run as part of the application, is only valid for 180 days. Do not complete the application more than 180 days before the start of the term, or before May of the respective year if attending summer term.

*For applicants who have been determined to have an adverse credit history, but qualify for a Direct Parent PLUS loan by documenting extenuating circumstances or obtaining an endorser must complete the PLUS Counseling online at StudentLoans.gov (https://studentloans.gov/myDirectLoan/index.action/). Students can review their file status by logging into their MyOSU (https://main.oregonstate.edu/) account.

*If a Parent Plus loan has been credit denied for this year, the student may submit a Student Loan Revision form (https://financialaid.oregonstate.edu/forms/) to request an increase in the Ford Direct unsubsidized student loan.
Graduate PLUS Federal Loan

- The Federal Direct Grad PLUS Loan is a credit based loan borrowed by graduate students to assist with educational expenses.
- Has no yearly or aggregate limits but amounts must fit into the expected cost of attendance.
- The loan is unsubsidized meaning you are responsible for paying the interest during times of deferment.
- You must complete a Direct PLUS Loan Application and Master Promissory Note (MPN) and Entrance Counseling online at StudentLoans.gov (https://studentloans.gov/myDirectLoan/index.action/).
- The credit check, run as part of the application, is only valid for 180 days. Do not complete the application more than 180 days before the start of the term, or before May of the respective year if attending summer term.

*For applicants who have been determined to have an adverse credit history, but qualify for a Direct Graduate PLUS loan by documenting extenuating circumstances or obtaining an endorser must complete the PLUS Counseling online at StudentLoans.gov (https://studentloans.gov/myDirectLoan/index.action/).

FEDERAL LOAN LIMITS

Dependent Undergraduate Ford Direct Student Loan Maximum Per Year:

- $5,500 freshman ($3,500 of that may be subsidized if eligible)
- $6,500 sophomore ($4,500 of that may be subsidized if eligible)
- $7,500 junior/senior ($5,500 of that may be subsidized if eligible)

* If a Parent Plus loan has been credit denied for this year, the student may submit a Student Loan Revision form to request an increase in the Ford Direct unsubsidized student loan. The maximum increase is $4,000 for fresh/soph and $5,000 for jr/sr.

Dependent Undergraduate Ford Direct Student Loan Aggregate Maximum (Limit for all years combined):

- $31,000 Ford Direct Subsidized and Unsubsidized Loans Combined (no more than $23,000 of that may be subsidized)

* If a Parent Plus loan has been credit denied for this year, the student may submit a Student Loan Revision form to request an increase in the Ford Direct unsubsidized student loan. In this case the aggregate maximum increases to $57,500.

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

* The Subsidized Federal Direct Ford Loan is need-based with the government paying the interest on the loan while the student is enrolled. Effective July 1, 2013 there will be a limit on the amount of time that a student is allowed to borrow subsidized loan funds which will be tied to their program length. Students that exceed 150% of their program length will no longer be eligible to receive subsidized loan funds, regardless of any extensions granted based on the Satisfactory Academic Progress appeal process through the Office of Financial Aid. Find more details on the federal loan webpage.

Independent Undergraduate Ford Direct Student Loan Maximum Per Year:

- $9,500 freshman ($3,500 of that may be subsidized if eligible)
- $10,500 sophomore ($4,500 of that may be subsidized if eligible)
- $12,500 junior/senior ($5,500 of that may be subsidized if eligible)

Independent Undergraduate Ford Direct Student Loan Aggregate Maximum (Limit for all years combined):

- $57,500 Ford Direct Subsidized and Unsubsidized Loans Combined (no more than $23,000 of that may be subsidized)

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

* The Subsidized Federal Direct Ford Loan is need-based with the government paying the interest on the loan while the student is enrolled. Effective July 1, 2013 there will be a limit on the amount of time that a student is allowed to borrow subsidized loan funds which will be tied to their program length. Students that exceed 150% of their program length will no longer be eligible to receive subsidized loan funds, regardless of any extensions granted based on the Satisfactory Academic Progress appeal process through the Office of Financial Aid.

Graduate Ford Direct Loan Limits

Graduate Ford Direct Student Loan Maximum Per Year:

- $20,500 (unless seeking certain medical or professional degrees)

Graduate Ford Direct Student Loan Aggregate Maximum (Limit for all years of undergraduate and graduate work combined):

- $138,500 (unless seeking certain medical or professional degrees)

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

Campus Scholarships

These limited merit and need based scholarships are administered by the Office of Scholarships and the Office of Financial Aid. Incoming students are considered based on completion of the scholarship portion of the admissions application. Eligibility is limited to students who have completed fewer than 12 terms and submit the application for Admission by February 1. Recipients must be enrolled full-time and are notified of their awards in writing. Criteria is available on the Scholarships website (https://scholarships.oregonstate.edu/prospective-student-scholarships/).

Departmental Awards

Each department on campus administers their own awards. Contact the department or donor directly for specific information regarding the award. For a searchable database of scholarships, visit ScholarDollars (https://scholarships.oregonstate.edu/scholardollars/).

Private Awards
These awards come from outside donors and can affect your financial aid package. Outside scholarship checks should be mailed to: Student Accounts, Oregon State University, PO Box 1086, Corvallis, OR 97339. If you have not already submitted notification to the Financial Aid Office regarding your outside scholarships, please submit the Reporting Additional Sources of Assistance form located on the Financial Aid Forms page.

State of Oregon Opportunity Grant

The Opportunity Grant is a state grant administered by the Office of Student Access and Completion (OSAC) and awarded to undergraduate Oregon residents based on need and allowable funding. Students must complete the FAFSA (https://fafsa.ed.gov/) or ORSAA (https://oregonstudentaid.gov/fafsa-orsaa.aspx) each year in order to be considered. Twelve terms of eligibility are possible. This grant is not available during summer term.

OSAC Scholarship Application

Start your OSAC Scholarship Application (https://app.oregonstudentaid.gov/), final deadline is March 1 of each year. In the event that it falls on a weekend or holiday, the deadline will automatically be extended to 5:00 p.m. (PST) of the following business day.

Oregon Student Child Care Grant

You may apply for the Oregon Student Child Care Grant (https://app.oregonstudentaid.gov/) if you are an Oregon student seeking financial support for college students with children in daycare.

Other Programs

Private Supplemental/Alternative Loan

Students needing additional funding for school, whose aid package has not fully met their cost of attendance, may opt to apply for funding through a private lending agency. These loans have a variable interest rate, and a credit check must be done on all applicants. OSU cannot recommend lenders for private/alternative loans. More information may be found on our webpage (http://financialaid.oregonstate.edu/review_aidtypes_private_loan/).

Graduate Students

Based on the FAFSA application, graduate degree seeking students may be eligible to receive Unsubsidized Direct Loans. The annual loan maximum for non-professional students is $20,500 per academic year. The aggregate borrowing limit is $138,500. This includes all Federal Direct Subsidized and Unsubsidized loans borrowed for undergraduate and graduate study. Students must be enrolled at least half time (5 credits) and repayment begins six months after graduation, withdrawal, or if you drop below half-time enrollment. Interest rate and origination fee information may be found on the FSA webpage (https://studentaid.ed.gov/sa/types/loans/interest-rates/). For more information, visit our graduate student webpage (http://financialaid.oregonstate.edu/graduate-student-aid/).

In addition to Unsubsidized Direct Loan, Graduate Students can apply for a credit based Graduate PLUS loan at studentloans.gov (https://studentloans.gov/myDirectLoan/index.action/). If credit approved for this loan, graduate students may accept up to their remaining cost of attendance for that year.

Before you can receive a PLUS Loan, your school must have determined your maximum eligibility for Direct Unsubsidized Stafford Loans.

In addition to these Federal Aid Programs, the Graduate School offers additional information on Assistantship, Grant and Scholarship Opportunities on their webpage (http://gradschool.oregonstate.edu/).

Receipt of Aid Funds

OSU Office of Business Affairs is responsible for disbursing refunds from student accounts once financial aid has been applied. You must be registered and have your tuition and fees billed to your account for financial aid to be applied. Aid funds are never made available in advance. Textbooks cannot be charged to a student's account. It is assumed that the student will purchase textbooks out-of-pocket and use any refund to ‘reimburse’ themselves for the costs. If a credit balance remains on your student account after current university charges are paid, you will be issued a refund. Federal Work-Study earnings are paid by payroll check to you each month for hours worked. You may receive a refund and still have an outstanding balance on your account. For more information about your bill or refund, visit the Business Affairs website.

Delayed Disbursements

There are several ways in which your aid may be delayed. Here are the most common reasons:

• You may be required to complete Entrance Counseling and sign a Master Promissory Note (MPN) for your Ford Direct Loans. You would have been notified of these requirements via an email to your ONID email account.
• Dropping classes (below 12 for undergraduates, 9 for graduates). All students are assumed to be full-time unless they notify Financial Aid in writing that they will be less. If you are not enrolled at full-time and have not notified us, your aid will not disburse.
• Registering late for classes.
• Being waitlisted for classes. These classes do not count toward your enrollment level until you are actually enrolled in them.
•Having unsatisfied requirements with your financial aid file. Check your status through MyOSU/Financial Aid/My Eligibility.

You are responsible for managing your Financial Aid experience, so be sure to check MyOSU frequently and review any emails you receive from us as they may include requests for additional information or action.

Requesting Changes

It is understood that you want as much grant and scholarship money as possible. When you are awarded your financial aid, your award will reflect your eligibility for available grant aid. When accepting your award, you may always request a lesser loan amount. Please note that loan funds are divided into equal disbursements, based on your enrollment at OSU within the given year. You may replace your Federal Work-Study funds with a Direct Ford loan, however this is dependent upon your loan eligibility. In addition, if you initially decline loan funds but find later that you in fact need them, you may also request that the loan be reinstated up to the total of your original offer. Please request any changes in writing by submitting a Loan Revision Request form to the financial aid office. Be aware that not all budget requests can be accommodated.

Additional Costs

In certain instances, your cost of attendance may be adjusted to include other allowable costs incurred to meet your educational
needs. Requests are reviewed on a case-by-case basis to determine approval. Documentation of the additional expense must be included for consideration. If approved, additional expenses are usually funded with 'self-help' assistance in the form of loans. Adjustments are not made for consumer debts, car payments, or private school tuition.

Adjustments may include, but are not limited to:

- Medical or dental cost not covered by insurance
- Computer expense (one time allowance)
- Child care cost for children 12 and under
- Commuting costs from outside the Corvallis area
- Costs related to students with disabilities
- Study abroad program fees

Parent or Student Expected Contributions (EFC)

The information you reported on your FAFSA is used to calculate a number called the Expected Family Contribution (EFC). The EFC is not the amount of money that your family must provide. The school uses the EFC to determine the amount of your federal grants, loans, or work-study awards for which you may be eligible.

Changes in Your Situation

Financial Aid offices may consider special or unusual circumstances that impact your family situation. Please contact us with any questions you might have regarding your eligibility for a review.

Renewing Aid

You must apply for financial aid every year by submitting a FAFSA application. Applications must be received before February 28 at the central processor to be considered for priority funding. You may apply for aid online after October 1st for the following academic year.

Dropping Courses and the Census Date

Dropping courses impacts your financial aid in several ways. Aid is based on your enrollment level on the Census Date (https://financialaid.oregonstate.edu/receive_censusdate/) of each term. For undergraduates, full-time status is 12 or more credits, 3/4 time is 9-11 credits, 1/2 time is 6-8 credits, and less than halftime is 1-5 credits. Less than fulltime enrollment may affect your financial aid eligibility. Students enrolled less than halftime are not eligible to receive most types of aid including federal student loans. If you plan on being less than fulltime you must submit an enrollment revision form (https://financialaid.oregonstate.edu/forms/) to the Office of Financial Aid.

Financial aid eligibility each term is based on your level of enrollment on the Census Date (https://financialaid.oregonstate.edu/receive_censusdate/). On this date, budgets and financial aid are adjusted and locked based on your enrollment level at that time. If your aid was paid at the full-time amount and you are less than fulltime on the Census Date, your budget will be revised and your aid may need to be reduced to reflect your Census Date enrollment. This revision may create a new bill on your OSU student billing account.

Dropping or withdrawing from courses after the census date, may also impact your financial aid eligibility for the current and future terms. Withdrawing (https://financialaid.oregonstate.edu/receive_withdrawal/) from all courses, failing to complete courses (unofficially withdrawing), or not participating (https://financialaid.oregonstate.edu/course-participation/) in courses, may result in the partial or full loss of aid eligibility for that term. Future term eligibility will depend on continuing to make Satisfactory Academic Progress (https://financialaid.oregonstate.edu/review_satisfactoryacademicprogress/).

If you will be less than halftime, be sure to stay in contact with your loan servicer. Halftime enrollment is required in order to keep federal loans in the "in school deferment status". Find more on our Loan Repayment page (https://financialaid.oregonstate.edu/loan-repayment/).

Short Sessions (Courses in Modules)

If a student is enrolled in sessions that do not span the entire 11 week term (modules) there are special rules that apply. You are paid federal financial aid based on all of the modules (entire payment period) you are registered for at the time of disbursement. If you do not complete all of those modules a return of federal funds may be required.

Be sure to monitor your OSU student email carefully. If you drop, withdraw from, or do not fully complete your current modules, you will be considered withdrawn from the term even if you are still enrolled in a future modules. In this case you may be emailed a request to complete a survey verifying your intent to participate in future modules. If you do not complete this survey, a return of federal aid may be required. See our Withdrawal Page (https://financialaid.oregonstate.edu/receive_withdrawal/) under “How is the return of federal aid calculation different for short sessions/modules?” for more detailed information on how drops, withdrawals, and non-completion can impact your aid.

The Pell Grant must always be adjusted to exclude payments for any course you do not participate in. If you drop a course before that course session began, we are required to reverse any Pell Grant payments made for that course. Reversed Pell will be returned to the Department of Education. This reversal of aid may create a new bill on your OSU student billing account.

What Happens If I Withdraw?

Students who withdraw from the university after the start of the term must complete a Withdrawal Form through the (https://registrar.oregonstate.edu/withdraw-term/)/Registrar’s Office (http://oregonstate.edu/registrar/) and notify the Office of Financial Aid of their current and future term enrollment plans with an Enrollment Revision Form (https://financialaid.oregonstate.edu/forms/). If financial aid funds were used to pay tuition and fees any refundable tuition amount is returned to the appropriate financial aid sources (refer to the tuition/fee refund schedule on the Business Affairs page (https://fa.oregonstate.edu/business-affairs/tuition-reduction-schedule/#text)).

OSU is required to calculate the Return of Title IV financial aid funds for students that officially withdraw (complete the withdrawal process) or unofficially withdraw (ceasing course participation) during the academic term. Students who do not intend to complete the term for which they are enrolled, should follow the official withdrawal process as outlined by university regulations.

The information below is a brief summary of the process that takes place when a student withdraws from all courses or fails to receive a passing grade for a given term. The policies and procedures listed are subject to change without advance notice based on changes in federal or institutional policies. This is not an exhaustive list of the rules pertaining to the Return of Title IV funds. Further guidance regarding these policies
What Happens If I Withdraw From or Do Not Complete A Course

The impact of a partial withdrawal (official or unofficial) will vary greatly by student status, type of aid awarded, participation, and other factors. Students who plan to drop, withdraw, or not complete one or more courses, should contact the Office of Financial Aid for a personalized evaluation of how a partial withdrawal will impact their current and future aid eligibility.

Below are some important things to keep in mind about how a partial withdrawal may impact current and future term federal aid eligibility:

Current Term

The Census Date (https://financialaid.oregonstate.edu/census-date/) is the point at which your enrollment is locked for financial aid purposes. During the fall, winter, and spring terms, the census coincides with the last day you can drop classes for a full tuition refund at OSU. At this point in the term, credit hours are locked and financial aid for the term is adjusted to reflect the student's official enrolled credits. In a standard length term, a partial withdrawal after census does not impact current term aid eligibility in most cases.

Terms when a student is taking short session/modular courses are treated differently. You may be considered completely withdrawn from the term even if you have successfully completed earlier modules or are enrolled in future modules. Review the “How is the return of federal aid calculation different for short sessions/modules?” section (drop down on the lower part of the withdrawal page) for further information.

Future Term

To maintain federal aid eligibility a student must make Satisfactory Academic Progress. This means meeting certain criteria for OSU GPA, Pace of completion, and consistency of completion. The Pace of completion percentage is calculated by dividing the number of credits successfully completed by the number attempted. When you withdraw from or do not successfully complete a course, your Pace of completion goes down. For example, if you complete 5 out of 10 credits your Pace of completion is 50%. If you do not maintain a pace of at least 67% overall Pace, federal aid eligibility can be lost. Find out more on our Satisfactory Academic Progress page (https://financialaid.oregonstate.edu/renewing-your-aid/).

Students are expected to understand the terms, conditions, and requirements that relate to their financial aid award. Additional information on retaining full financial aid eligibility may be found on the Financial Aid webpages:

- Satisfactory Academic Progress (https://financialaid.oregonstate.edu/satisfactory-academic-progress/)
- Terms and Conditions (https://financialaid.oregonstate.edu/terms-conditions/)
- Renewing Your Aid (https://financialaid.oregonstate.edu/renewing-your-aid/)
- Census Date (https://financialaid.oregonstate.edu/census-date/)
- Course Participation (https://financialaid.oregonstate.edu/course-participation/)

What Happens If I Do Not Complete Any Courses in a Term?

Federal financial aid is awarded based on the expectation that a student will participate in all of their courses through the last day of the term. When a student does not complete any courses, the Office of Financial Aid is required to review their eligibility for aid that has been or could be disbursed. A return of Title IV (federal aid) calculation must be completed for any student who did not complete the term. A student is considered to have earned the full amount of disbursed federal aid if they participated in all courses and completed more than 60% of the term. In cases where full participation and more than 60% term completion cannot be verified, a return of federal Title IV and other types of aid may be required.

In most cases, the percent completion date used for the Return of Title IV funds calculation will either be based on the date of withdrawal or the last date of participation reported by instructors. In the case of an official withdrawal that is processed during the term, the calculation is usually completed based on the date of official withdrawal reported by the Registrar’s Office. A student is considered unofficially withdrawn if they fail to receive any passing grades in a given term. In the case of an unofficial withdrawal, the date used will be based on participation dates reported by OSU and partner school instructors. The last date of participation may also be used for the Return of Title IV funds calculation instead of the withdrawal date in cases where the participation date is considered more accurate.

In addition to a current term return of federal funds, future term aid eligibility may be impacted by a full withdrawal. Students are expected to understand the terms, conditions, and requirements that relate to their financial aid award. Additional information on retaining full financial aid eligibility may be found on these Financial Aid webpages:

- Satisfactory Academic Progress (https://financialaid.oregonstate.edu/satisfactory-academic-progress/)
- Terms and Conditions (https://financialaid.oregonstate.edu/terms-conditions/)
- Renewing Your Aid (https://financialaid.oregonstate.edu/renewing-your-aid/)

How Does a Return of Federal Aid Calculation Work

The Return of Title IV Funds calculation determines the amount of federal funds that must be returned by the institution as well as how much aid the student must return for the period of non-enrollment. For students who completed 60% or less of the term, a pro-rated schedule is used to determine the amount of aid that must to be returned. That means the percentage of aid that a student is eligible to retain for the term is based on the percentage of the term that they completed. If a return of aid amount is calculated, the funds must be repaid to the financial aid programs in the following order:

- Federal Direct Unsubsidized Ford Loan
- Federal Direct Ford Loans
- Federal Perkins Loan
- Federal Direct PLUS Loan
- Federal Pell Grant
- FSEOG
The amount of federal aid that you must repay is determined via the Federal Formula for Return of Title IV funds (Section 484B of the Higher Education Act). This law also specifies the order in which funds are to be returned to the financial aid programs from which they were awarded, starting with loan programs.

You may be required to make a repayment when cash has been disbursed from financial aid funds, in excess of the amount of aid that you earned (based on the date of your total withdrawal or last date of participation) during the term. The amount of Title IV aid earned is determined by multiplying the total Title IV aid (other than FWS) for which you qualified by the percentage of time during the term that you were enrolled.

If less aid was disbursed than was earned, you may submit a request to receive a late disbursement for the difference.

If more aid was disbursed than was earned, the amount of Title IV aid that you must return (i.e. not earned) is determined by subtracting the earned amount from the amount actually disbursed.

The responsibility for returning unearned Title IV aid is shared between the university and you. It is allocated according to the portion of disbursed aid that could have been used to cover university charges, and the portion that could have been disbursed directly to you once those charges were covered. OSU will distribute the unearned aid back to the Title IV programs, as specified by law. The return of funds will be completed within 45 days of the date the determination of the withdrawal. You will receive a letter by postal mail if the Return of Title IV Funds calculation was completed and a return of funds was required. If the Return of Title IV Funds calculation was not required but funds needed to be returned for other reasons, you will be notified through your OSU student (ONID) email.

You will be billed for the amount that you owe to the Title IV programs, as well as any amount due to the university, as a result of Title IV funds that were returned that would have been used to cover university charges.

Withdrawing (official or unofficially) from a term may also impact a student’s eligibility for financial aid in future terms. Students should familiarize themselves with the Satisfactory Academic Progress requirements for federal aid and should contact the Office of Financial Aid regarding how federal and other types of aid may be impacted.

### How is the Return of Federal Aid Calculation Different for Short Sessions/Modules

OSU has multiple sessions that do not span the entire length of our usual 11 week term (mostly during summer). These shorter sessions are considered “modules” for federal financial aid purposes and these modules have unique rules that may impact federal aid eligibility.

A student may be considered withdrawn if they do not complete all days in the payment period they were scheduled to complete. For a student enrolled in sessions not spanning a full 11 week term, the payment period they are expected to complete is made up of the combined calendars for all sessions that they were paid aid on.

If a student drops courses in a future session while they are enrolled in a current session, they are not considered withdrawn from the term. An aid adjustment may be required for those drops but a Return of Title IV calculation would not be required.

A student who drops, withdraws from, or does not complete their current sessions, will be considered withdrawn from the term even if they are still enrolled in a future session. Students must monitor their student email for the Summer Survey request. Students will be required to submit that survey in order to verify their intent to participate in those future sessions. If this intent to participate survey is not received, a Return of Title IV Calculation must be done even if the student has successfully completed other coursework for the term and is enrolled in future sessions.

For courses in modules, the calendar used in the Return of Title IV funds calculation includes all days within the period that the student was scheduled to complete (including those completed by the student) prior to ceasing attendance. For example, a student enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). If they drop session 5 (a session that has not yet started) before they withdraw from session 2, we calculate using only the session 2 calendar. If they were still enrolled in session 5 when they withdraw from session 2, we calculate on both calendars combined. Calculating on the combined calendars may reduce the completion percentage which may increase the amount of funds that needs to be returned.

Below are 3 examples of how drops, withdrawals, and non-completion can impact aid in modules:

**EX 1.** Mary enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). She withdraws from session 2 on 6/1 and remains enrolled in session 5. In this case Mary will be considered withdrawn from the term if she does not complete the summer survey to confirm her intent to attend session 5. As long as Mary submits that survey and successfully completes session 5, a Return of Title IV calculation is not required.

**EX 2.** Joe enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). He receives a B grade in his session 2 course but, after that course had ended, decides he no longer wants to take the course in session 5. Joe had been paid federal aid with the expectation that he would complete the entire payment period that spanned both sessions. Because he decided not to complete session 5 after session 2 had ended, a Return of Title IV calculation is required and he may end up owing aid money back for the term.

**EX 3.** Barry enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). While enrolled his session 2 course he decides he no longer wants to take the course in session 5 and drops that course. Barry had been paid federal aid with the expectation that he would complete the entire payment period that spanned both sessions. Because he dropped his session 5 course while he was still attending session 2, a Return of Title IV Calculation is not required but his Pell Grant is still reduced for the session 5 course he never attended.

### What if I am a Degree Partnership Program Student Who Withdraws from a Fails Partner School Courses

In cases of official and unofficial withdrawal an instructor reported last date of participation (https://financialaid.oregonstate.edu/course-participation/) may be required to determine a student’s aid eligibility. The OSU Office of Financial Aid is not able to contact partner school instructors directly to obtain this information. After a term has ended DPP students may be contacted with instructions on how to complete this participation verification process. Due to the time sensitive nature of this process, it is very important for DPP students to check their OSU Student (ONID) email regularly to look for these financial aid notifications. Failure to verify participation may result in the reduction or full loss of financial aid eligibility for the term.
Student Responsibilities

Reporting Changes
Your financial aid is based on the information submitted to our office for the current academic year in which you requested aid. To keep your file current and accurate, you are required to report the changes to the OSU Office of Financial Aid. You should expect a revision of your award in most cases. Reasons for changes can include but are not limited to:

- Additional financial assistance: scholarships, grants, loans, fee waivers, Tribal Assistance, tuition/book support, social security benefits or any other monetary award not reported previously.
- Receipt of graduate teaching or research assistantship, and/or fellowship.
- Receipt of resident advisor position.
- Changes in enrollment hours and/or withdrawal from the university.
- Changes in residency status for tuition purposes.
- Change in course load if below full time.

Entrance and Exit Interview
All Federal Direct Ford loan recipients are required to complete an entrance interview prior to receiving the first disbursement of their loan proceeds. They are also required to complete an exit interview during their last term of attendance. (For further information, visit studentloans.gov (https://studentloans.gov/myDirectLoan/index.action)).

Appeals
Students who are not satisfied with a decision of a financial aid staff member may appeal that decision, in writing, and then in person to the following staff in the order indicated: the director of Financial Aid, and then the Financial Aid Appeals Subcommittee. The decision of the director and/or Financial Aid Appeals Subcommittee will be considered final.

Student Enrollment Levels
Federal financial aid eligibility and deferment of student loans are affected by enrollment levels. Summer enrollment levels are the same as other terms.

Undergraduate
Full Time: 12 or more credits in a term
Three Quarter Time: 9 to 11 credits in a term
Half Time: 6 to 8 credits in a term

Graduate
Full Time: 9 or more credits in a term
Half Time: 5 to 8 credits in a term

OSU ScholarDollars
Starting November 1st, OSU students may use OSU ScholarDollars to submit an application for the nearly $50 million in campus-based scholarship funding available for the 2019-2020 academic year. By submitting one application, you will be considered for over 1,600 OSU scholarship opportunities!

Newly-admitted and continuing OSU students are eligible to apply for scholarships through OSU ScholarDollars. Students must have been admitted to OSU and have an active ONID account to be able to log into the system and submit an application.

Submit your OSU ScholarDollars application between November 1, 2018 and February 1, 2019 to maximize the number of scholarships for which you will be considered. Most OSU scholarships have a deadline on or after February 15, 2019, but specific deadlines may vary.

Merit-based, need-based, and activity-based OSU scholarships are available, and OSU ScholarDollars also offers a searchable database of external scholarships.

For further information about ScholarDollars, please email the Scholarship Office at scholarship.office@oregonstate.edu.

- OSU ScholarDollars (https://scholarships.oregonstate.edu/scholardollars/)
GLOSSARY & CATALOG DEFINITIONS

The following terms are used throughout the Academic Catalog.

**Academic Probation:** Students who have completed two or more terms at OSU and have an OSU cumulative GPA below 2.0 will be placed on probation. Students who attain a cumulative GPA of 2.0 or better are removed from academic probation.

**Academic Suspension:** Students who are on probation and have a subsequent term GPA of less that 2.0 will be placed on suspension. A student who has been suspended from OSU is prohibited from enrolling in classes, and must fulfill specified criteria before being re-admitted to the university (see Academic Regulation 22 (https://catalog.oregonstate.edu/regulations/). Academic suspension is recorded on the student’s academic record.

**Academic Warning:** Students with a term GPA below 2.0 will be placed on academic warning.

**Academic Year:** The time period containing the academic terms fall, winter, and spring (currently September through June). When summer term is considered as part of an academic year, or when it is considered as part of the Banner Student Information Systems (SIS), summer term is the first term of the academic year.

**Add/Drop:** Students may add or drop classes in accordance with the dates outlined on the Academic Calendar (https://registrar.oregonstate.edu/osu-academic-calendar/).

**Advanced Placement:** Advanced placement and/or credit may be granted to an entering student who has satisfactorily completed College Board Advanced Placement Examinations taken during high school.

**Advanced Placement Report:** A summary of courses and credits completed by a student at one postsecondary institution and accepted by another institution at the time of admission. The advanced standing report is used to determine the number of required and elective credits needed to complete degree requirements.

**Advisor:** A faculty member appointed by a program, department, school, or college to advise students during their college experience.

**Baccalaureate Core:** The university’s general education requirements consisting of skills courses; perspectives courses; difference, power and discrimination courses; synthesis courses; and writing intensive courses. A baccalaureate core course is designated with an asterisk, *, a writing intensive course with a caret, ^. See Earning a Degree at Oregon State University (https://catalog.oregonstate.edu/earning-degrees/) in this catalog.

**Baccalaureate Degree:** An approved academic award given for the satisfactory completion of an instructional program requiring at least four but not more than five years of full-time equivalent college-level academic work that includes the following:

1. institutional general education requirements (i.e., baccalaureate core);
2. major area of study requirements; and
3. may include option, minor, supporting area, or elective requirements.

A minimum of 180 credits is required for most degree programs. Some majors may require more. The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

**BA Degree:** The Bachelor of Arts degree is conferred for broad and liberal education in humanities, arts, social sciences, and sciences. College BA requirements provide:

1. a breadth of preparation in these fields that is significantly greater than that required of all undergraduates through the baccalaureate core; and
2. foreign language proficiency certified by the School of Language, Culture, and Society as equivalent to that attained at the end of the second year course in the language.

Proficiency in American Sign Language equivalent to that attained at end of the second year also meets the BA language requirement.

**BFA Degree:** The Bachelor of Fine Arts is a professional degree requiring a minimum of 105 credits in the visual arts.

**BS Degree:** The Bachelor of Science degree is conferred for focused curricula that emphasize scientific ways of knowing and quantitative approaches to understanding in the sciences and social sciences, and for curricula in professional fields.

**Blanket-numbered Courses:** Reserved number courses such as 401/501/601. See Reserved numbered courses.

**Certificate Program (undergraduate):** A specified interdisciplinary program of study leading to an official certificate and notation on the transcript. A certificate program draws courses from more than one department, rather than a single department (as with most minors). An undergraduate certificate program must be taken in conjunction with a formal degree program. An undergraduate certificate requires a minimum of 27 credits.

**Certificate Program (postbaccalaureate):** A specified program of study of undergraduate courses leading to an official certificate and notation on the transcript. A completed baccalaureate degree program from an accredited institution is required. A postbaccalaureate certificate program requires a minimum of 27 credits.

**Certificate Program (graduate):** A structured progression of graduate-level courses that constitute a coherent body of study with a specifically defined focus within a single discipline or a logical combination of disciplines. It is designed for students who have completed a baccalaureate degree and are in pursuit of advanced-level learning. A graduate certificate requires a minimum of 18 graduate credits.

**Certificate Program (professional):** A site-based training and professional development certificate that is not transcript visible.

**College:** A subdivision of the university offering degree programs within a specific subject area. For example, the College of Forestry offers degree programs in forest engineering, forest resources, forest science, and wood science and technology.

**Commencement:** A term used to refer to the graduation ceremony held in June.

**Corequisite:** A course that must be taken concurrently with another course.
**Course**: An organized unit of instruction or research. Types include lectures, recitations, seminars, laboratories, discussions, internships, clerkships, reading and conference, independent study, and other categories of courses.

**Course Designator (subject code)**: An abbreviation representing the department, college, or program offering the course. Example: MB indicates that the course is offered through the Department of Microbiology.

**Course Numbering**: State universities in Oregon follow this basic course numbering system:

- 0–99. Noncredit or credit courses of a remedial, terminal, or semiprofessional nature that are not applicable toward degree requirements
- 100–299. Undergraduate, lower-division courses
- 300–499. Undergraduate, upper-division courses
- 500–599. Graduate courses offered primarily in support of a master’s degree but which are also available for doctoral-level credit. Undergraduates of superior scholastic achievement may be admitted on approval of the instructor and department head. An undergraduate student may apply to reserve these courses for later use on a graduate degree program
- 600–699. Graduate courses offered principally in support of doctoral-level instructional programs but also available for master’s program credit
- 700–799. Professional or technical courses that may be applied toward a professional degree (such as DVM or PharmD) but not toward other graduate degrees (such as PhD)
- 800–899. In-service courses aimed at practicing professionals in the discipline. These courses may not be applied to graduate or professional degree programs
- 001NC–099NC. Non-credit courses offered through the INTO Oregon State University Intensive English program

**Course Reference Number (CRN)**: A five-digit number used to select a specific course, lab, and/or recitation.

**Commonly Numbered Courses**: House Bill 2913 directed the Oregon University System (defunct since June 30, 2015) and Oregon community colleges to jointly develop, to the extent possible, a common course numbering system for lower-division transfer courses. The 'Commonly Numbered Course List' represents a good faith effort to meet the requirements of the legislation. The list of courses is recommended for use by campuses’ faculty and administration as they develop or revise academic programs to better facilitate students transferring from community colleges to public four-year institutions. OSU agreed to this list after review by all affected departments. The 'Commonly Numbered Course List' is available through the Office of Academic Programs and Assessment includes course descriptions in addition to the course numbers and titles. Course numbers and title should follow the usage in the list. Descriptions may vary.

**CRED (Credential)**: A student who has received a previous baccalaureate degree from either OSU or another accredited university or college may be granted a subsequent minor, certificate, major or option under the guidelines of Academic Regulation 27 (https://catalog.oregonstate.edu/regulations/). It indicates the student is not seeking a degree, but rather a credential to accompany an existing degree.

**Credit**: Credits vary, depending upon the type of course and level at which it is offered. One credit is generally given for three hours per week of work in and out of class. For example, each hour of class lecture is generally expected to require two hours of work out of class. One credit would be given for a lecture course that met for one 50-minute period each week over a 10-week period; i.e., 10 contact hours between faculty and students. One credit is typically given for a laboratory course that meets for two to three hours per week for an entire term. Equivalent credits are given for recitations, discussions, and other types of courses. All credits given in the Academic Catalog refer to quarter credits. When transferring in course work from a semester system institution, multiply the number of credits by 1.5 to determine how many quarter credits will be transferred (3 semester hours x 1.5 = 4.5 quarter credits). If planning to transfer OSU credits out to a semester system institution, multiply the number of quarter credits by .67 to determine how many credits will transfer (4 quarter credits x .67 = 2.68 semester credits).

**Curriculum**: (plural curricula) An organized program of study and courses required for a specific degree or certificate program.

**Degree**: An academic award granted upon satisfactory completion of a set of collegiate-level educational requirements.

**Discipline**: A field of study in which a student may concentrate, such as sociology, anthropology, or mathematics.

**Doctoral Degree**: An approved academic award given as a sign of proficiency in scholarship and for the satisfactory completion of an instructional program requiring at least three years of full-time equivalent academic work beyond the baccalaureate degree, the completion of which signifies recognized competence, original research and/or the capacity to do independent advanced graduate-level analysis. A minimum of 108 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

**Double Degrees**: A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student’s academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26 (https://catalog.oregonstate.edu/regulations/)).

Some double-degree programs — Education (BA, BS, HBA, HBS), Innovation Management (BA, BSA, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) — require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26 (https://catalog.oregonstate.edu/regulations/)).

**Dual (or Multiple) Majors from Same College**: A student may earn two or more majors within a single degree program (a particular combination of
degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student's academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in some cases may be earned as a credential subsequent to completion of the degree. (See Academic Regulation 27 [https://catalog.oregonstate.edu/regulations/].)

Note: Occasionally, with careful planning, a student can complete two majors from separate colleges in less than the 212 credits required for two degrees. When this occurs a student can petition for an exception, and graduate with two majors from separate colleges. The student must pick one college as their home college and all majors will be associated with the home college. The student must have the support of advisors from both major programs to have their petition considered.

Electives: Courses students may select, either for general knowledge or for fulfilling specific degree requirements. They are generally chosen and used by students to supplement or enrich the required curriculum.

Endorsement: An endorsement is the subject matter (content area) or specialty in which an individual is licensed to teach. Endorsements can be part of an initial teaching license or can be added later.

First Professional Degree: An academic award granted for an instructional program the completion of which: (1) signifies completion of the academic requirements to begin practice in the profession; (2) requires at least two years of full-time equivalent college-level work prior to entrance; and (3) usually requires a total of at least five years of full-time equivalent academic work to complete the degree program, including prior required college-level work plus the length of the professional program itself (examples, DVM in veterinary medicine and PharmD in pharmacy). The conditions and conferral of the award are governed by the faculty and ratified by the state of Oregon Higher Education Coordinating Commission.

Freshman: A student who has completed 44 of fewer term credits toward an undergraduate degree.

Grade-point Average (GPA): Total number of grade points received for A, A–, B+, B, B–, C+, C, C–, D+, D, D– or F grades divided by total number of credits attempted. OSU uses a 4-point grade scale.

Grade Points: Quality points assigned for one term credit of each grade: A = 4.0; A– = 3.7; B+ = 3.3; B = 3; B– = 2.7; C+ = 2.3; C = 2.0; C– = 1.7; D+ = 1.3; D = 1; D– = .7; F = 0.0. Grades of I, P, N, S, U and W are not computed.

Grades: [https://catalog.oregonstate.edu/grades-regulations-records/]
Letters used to indicate the quality of academic work completed in a given course: A, A–, B+, B, B–, C+, C, C–, D+, D, D–, F, I, S, U, P, N, W.

Graduation Audit: An evaluation of a student's academic record to determine if the graduation requirements set forth by the university, college, and major department have been fulfilled.

Graduate Area of Concentration: A graduate area of concentration is a subdivision of a major or minor in which a strong graduate program is available. Areas of concentration may be referenced on the student's program of study, but they are not listed on the student's transcript.

'Areas of concentration' can only be used in association with graduate programs.

Graduate Major: A graduate major is the area of academic specialization, approved by the State Board of Higher Education, in which the student chooses to qualify for a graduate degree. Upon completion of a graduate degree, the degree awarded and the graduate major are listed on the student's transcript.

Graduate Option: Options are for students of a specific major. An option is one of several distinct variants of course aggregations within a major that focuses on an area of study designed to provide a student with specialized knowledge, competence, and skills while sharing a minimum core of courses.

A graduate option consists of a minimum of 12 designated quarter credits of related course work (excluding thesis credits), comprised of course work offered by the sponsoring unit as well as by other academic units. The option may be comprised of specific courses, completion of a designated number of credits from a longer list of alternative courses, or a combination of specific and alternative course lists. Approved options may be added to a graduate program of study, and approved by the faculty advisor(s) and the director of the sponsoring unit. On the program of study, there should be no overlap in course credits between options (the same course cannot be used to satisfy credit requirements in multiple options). When the unit submits the final examination card to validate awarding of the major to the Graduate School, the unit will also validate that the requirements of the option have been completed.

Hybrid Course: A hybrid [http://ctl.oregonstate.edu/hybrid-learning/osu-hybrid-faqs/] course includes both regularly scheduled on-site classroom meetings and significant online, out-of-classroom components that replace regularly scheduled class meeting time. A substantial portion of the course learning activities are delivered online; face-to-face meeting time is generally reduced by approximately 50% compared to a traditional on-campus course.

Interdisciplinary: A course or program that integrates concepts, knowledge, or faculty from several fields of study.

Junior: A student who has completed at least 90 but not more than 134 term credits toward an undergraduate degree.

Lower-division Courses: Course offerings at a level of preparation usually associated with freshmen and sophomore students (e.g., 100- and 200-level courses).

Major (graduate): See Graduate major above.

Major (undergraduate): An extensive program of study in a designated subject area.

Master's Degree: An approved academic award given as a mark of proficiency in scholarship and for the satisfactory completion of an instructional program requiring at least one but not more than two years of full-time equivalent academic work beyond the baccalaureate degree. A minimum of 45 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

Minor (graduate): A graduate minor is an academic area that clearly supports the major. Master's program minors must include a minimum of 15 quarter credits of graduate course work; doctoral minors require a...
minimum of 18 credits. On a master’s or doctoral program, a minor may be:

1. an academic area available only as a minor;
2. a different major;
3. the same major with a different area of concentration, or
4. an integrated minor.

An integrated minor consists of a series of cognate courses from two or more areas. These courses must be outside the major area of concentration, with most of the courses being outside the major department. The graduate faculty member representing the integrated minor must be from outside the major department. Graduate minors are listed on the student’s transcript.

**Minor (undergraduate):** A secondary field of specialized study that may be offered by an academic unit for its own majors and/or majors from other academic units. Minors require at least 27 credits, 12 of which must be at the upper-division level. An approved minor is placed on the student’s transcript.

**Option (undergraduate):** Options are for students of a specific major. Options consist of at least 21 designated credits of course work, 15 of which must be at the upper-division level. If all requirements have been met, the option may be listed on a student’s transcript.

**Perspectives Courses:** Baccalaureate core courses that integrate fundamental knowledge from science and liberal arts disciplines to develop cultural, historic, and scientific perspectives.

**Postbaccalaureate Student:** A student holding a baccalaureate degree who is admitted to work toward a second baccalaureate degree or teaching certificate is classified as a postbaccalaureate student (AR 4 [https://catalog.oregonstate.edu/regulations/]).

**Pre-professional Program:** Curriculum generally offered at the freshman and sophomore levels. A pre-professional program is designed to ensure students have the aptitude, motivation, and discipline to successfully complete advanced course work as well as achieve the standards for a chosen career field.

**Prerequisites:** Requirements that must be completed before enrollment in a particular course. The instructor may waive a prerequisite.

**Professional Program:** Curriculum generally offered at the junior and senior level, designed to prepare students for a professional career within a specific field (e.g., engineering, pharmacy). Admission to professional programs, often based on prior course work and/or work experience, is competitive.

**Program:** Academic studies that comprise the core, required and elective courses that lead to a degree or qualification. At OSU, this includes majors, minors, options and certificates.

**Reading and Conference:** A course focused on reading assignments to be completed in conferences with the instructor.

**Reserved Numbered Courses:** Certain blocks of numbers that have been assigned for specific courses that may be taken for more than one term. The credits being granted vary according to the amount of work done.

**100–110 and 200–210:** Survey or foundation courses in the liberal arts and sciences

**401/501/601:** Research and Scholarship

**402/502/602:** Independent Study

**403/503/603:** Thesis/Dissertation

**404/504/604:** Writing and Conference

**405/505/605:** Reading and Conference

**406/506/606:** Special Problems/Special Projects

**407/507/607:** Seminar

**408/508/608:** Workshop

**409/509/609:** Practicum/Clinical Experience

**410/510/610:** Internship/Work Experience

**Senior:** A student who has completed 135 or more term credits toward an undergraduate degree.

**Sequence:** Two, three, or four closely related courses that are usually taken in numerical order and through more than one term.

**Skills Courses:** Baccalaureate core courses designed to give the student fundamental mathematical, communication, and fitness competence.

**Sophomore:** A student who has completed at least 45 but not more than 89 term credits toward an undergraduate degree.

**Special Topics Courses (X99):** Like reserved numbered courses, special topics courses may be repeated as specified by the academic unit responsible for the course offering. It is implied that the course content is different each time the student takes the course. In the schedule of classes, section titles are listed as ‘ST/’ followed by the topic covered in the section.

**Student Enrollment Levels:** The levels below establish enrollment levels for federal financial aid eligibility and the deferral of student loans. Summer enrollment levels are the same as other terms.

- Full Time: 12 or more credits in a term
- Three Quarter Time: 9 to 11 credits in a term
- Half Time: 6 to 8 credits in a term

**Syllabus:** A list of course objectives, lecture topics, assigned reading, exams, etc., prepared and distributed by a professor at the beginning of the term.

**Synthesis Courses:** Baccalaureate core upper-division courses that emphasize interdisciplinary, critical thinking approaches to global, technological, and societal issues.

**TBA:** Commonly used abbreviation for ‘to be arranged’; time, place, or credit of a course is to be arranged with the instructor.

**Term:** Usually one-third of the school year. Terms at OSU are divided into fall, winter, and spring terms (also referred to as ‘quarters’). Summer term is generally an 8- or 11-week session during the summer. See ‘Credits’ above.

**Transfer Student:** An individual who has completed 36 or more transferable term credits at another institution and will resume their college course work at a second institution.

**U-Engage:** First-year seminar designed to assist the transition of new students to college.

**University:** An assembly of colleges, each specializing in a different field.

**Upper-Division Courses:** Advanced course offerings at a level usually associated with junior or senior students. Upper-division courses are numbered in the 300s and 400s.
**Waive:** This term refers to decisions of advisors to ‘waive’ a course or courses in a student’s program. Typical reasons include transfer credit for equivalent courses, equivalent experience in the profession or discipline, and petitioning for and successfully completing an examination. Waiving courses usually does not decrease the total credits required for completion of the degree or program; students should discuss this with their advisor.

**Withdraw:** To voluntarily leave a course or the term without academic penalty. A W letter grade will be placed on the student’s transcript for each course attempted.

**Workshop:** A brief intensive course for a small group which emphasizes problem solving.

**Writing Intensive Courses (WIC):** Designated upper-division courses in the major discipline that use student writing as a significant approach to learning. WIC courses must meet a variety of requirements, as do other courses in the baccalaureate core. WIC courses have a carat, ^, in front of the title.
When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student’s catalog year for institutional and baccalaureate core requirements is established by their first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student’s catalog year for college/major/option/ minor requirements is based on the date of declaration of the major/option/ minor; consequently, a student’s first (primary) major/option must be in the same catalog year. If a primary option is declared in a subsequent academic year, the primary option will be aligned with the catalog year of the primary major. If the primary option did not exist in the catalog year of the primary major, the primary major will roll forward to the catalog year of the primary option.
- Additionally, while the student’s first major/option must be in the same catalog year, any additional declarations of majors/ options/minors will be determined by the declaration dates (and corresponding catalog years) established by the change of academic program process. A student, in collaboration with an advisor, can also choose to graduate under a subsequent (to their most recent major declaration date) catalog year within the same major/option.
- At the time of graduation, all students, including transfer students, must use a catalog that is not more than ten years old. Students may petition to the head advisor of their college for an extension of a catalog greater than ten years prior to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms); the published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c beginning with 2011–2012 academic year, provides a mechanism for a student to sustain their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for institutional and baccalaureate core requirements. The catalog year for college/major/option/ minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU Academic Catalog. However, Oregon State University or the Oregon State Board of Higher Education may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University or the State Board of Higher Education.

Grading System
Grades
The grading system consists of:

- **A** = Exceptional, 4.0 grade points per credit.
- **A–** = 3.7 grade points per credit.
- **B+** = 3.3 grade points per credit.
- **B** = Superior, 3.0 grade points per credit.
- **B–** = 2.7 grade points per credit.
- **C+** = 2.3 grade points per credit.
- **C** = Average, 2.0 grade points per credit.
- **C–** = 1.7 grade points per credit.
- **D+** = 1.3 grade points per credit.
- **D** = Inferior, 1.0 grade point per credit.
- **D–** = 0.7 grade point per credit.
- **F** = Failure, 0.0 grade point per credit.
- **G** = Reserved for Graduate Credit, no grade point per credit.
- **I** = Incomplete, no grade points or credits.
- **I/Alt Grade** = Incomplete, no grade points or credits. If not resolved after 12 months or degree conferral, the ‘I’ reverts to the alternate grade.
- **N** = No credit, no grade points or credits.
- **NG** = No basis for a grade, no credit or grade points.
- **P** = Pass, credit given, no grade points.
- **R** = Thesis in Progress, credit given, no grade points.
- **S** = Satisfactory, credit given, no grade points.
- **TR** = Accepted Transfer Credit.
- **U** = Unsatisfactory, no credit or grade points.
- **W** = Withdrawal (passing), no credit or grade points.
- **WC** = Complete withdrawal, no credit or grade points.
- **AUD** = Audit, no credit or grade points.
- **WAU** = Withdrawal from Audit, no credit or grade points.

When a requirement of a course has not been completed for reasons acceptable to the instructor and the rest of the academic work is passing, a report of I (incomplete) may be made and additional time granted. The I is only granted at the discretion of the instructor. The instructor must submit the grade the student will earn if the missing work is not completed. That alternate grade will become the default grade if the missing work is not completed. The instructor documents the deficiency and the deadline for completing the missing work. A record of the deficiency shall be kept on file in the unit or department office. The allotted time awarded shall not exceed one calendar year except by petition or the time of the degree conferral, whichever comes first. To remove the I grade, the student must complete the deficiency within the allotted time and the instructor will then submit the appropriate grade. If the student fails to complete the work within the allotted time, the Office of the Registrar will automatically change the I grade on the student’s record to the alternate grade submitted by the instructor at the time the I was given. The alternate grade will be included in the grade-point average. Under no circumstances shall a student who earns an A– F grade or an N or U grade have their grade changed retroactively to an I grade.

An instructor may move to correct a grade by filing a Change of Grade in the Registrar’s Office. Grade changes for students of a permanently separated instructor will be managed by the department chair of the
course involved. Upon permanent separation from the University an instructor’s change of grade will not be accepted by the Office of the Registrar. The Office of the Registrar will routinely review grade changes.

Students may withdraw from a course. In such cases, a grade of W is assigned. A student who discontinues attendance in a course without official withdrawal receives a grade of F in the course.

1 A student may petition via the Office of the Registrar for an extension of the one calendar year deadline with the concurrence of the faculty. An approved petition will grant an extension of a single additional term, with a maximum of three total extensions being possible. An approved petition for an extension of time to remove an incomplete will be voided at the time of degree conferral.

Grade Points
Grade points are computed on the basis of 4 points for each credit of A grade, 3.70 for each credit of A– grade, 3.30 for each credit of B+ grade, 3.00 for each credit of B grade, 2.70 for each credit of B– grade, 2.30 for each credit of C+ grade, 2.00 for each credit of C grade, 1.70 for each credit of C– grade, 1.30 for each credit of D+ grade, 1.00 for each credit of D grade, .70 for each credit of D– grade, and 0 for each credit of F.

Marks of I, Alt, W, WC, P, N, NG, R, S, and U are disregarded in the computation of points. The grade-point average (GPA) is the quotient of total points divided by total credits; total credits are the number of term credits in which grades A, B, C, D, and F are received.

Academic Standing
Satisfactory Academic Standing (Undergraduate Students) (AR 22)
Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.

1. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.
2. Academic Probation: Students who have attempted1 24 or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.
3. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student’s academic record. Students who are academically suspended are denied all the privileges of the institution and of all organizations in any way connected to it, including any university-recognized living group.
4. Reinstatement to the University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable college-level work at an accredited college or university, with a GPA of 2.5 or above.

The Faculty Senate Academic Standing Committee (http://senate.oregonstate.edu/academic-standing-committee/) is responsible for enforcement of the above regulations on Satisfactory Academic Standing. Additionally, this committee has discretionary authority to grant exceptions and to develop guidelines for administering these regulations.

1 An attempt comprises a final grade in a course where the grade is: A, A–, B+, B, B–, C+, C, C–, D+, D, D–, F, S, U, P, NP, I/Alternate Grade (where the Alternate Grade is one of these grades), W.

Attendance
An instructor has the privilege of considering class participation in arriving at a student’s grade, but it is not intended that attendance in and of itself normally be a factor in measuring a student’s academic accomplishment in a course.

Other Limitations
Academic performance is not the sole criterion for admission to and continuation in certain courses and programs at the university, such as practicum courses and internships. The university may find it necessary to evaluate a person’s background to determine their likelihood of maintaining standards of professional conduct that are necessary in the academic discipline or profession. An evaluation may take into consideration current performance, as well as past experiences and actions that could affect a student’s ability to perform in the particular course or program.

Student Conduct Regulations
Oregon State University aspires to stimulate a lasting attitude of civility, social responsibility and openness in our students as well as an appreciation for our values of accountability, diversity, respect, and truth. Consistent with that, all students enrolled at OSU are expected to follow student conduct regulations and university policies that have been developed to govern the behavior of students as well as members of the university community. These regulations and policies are formulated to guarantee each student’s freedom to learn and to protect the fundamental rights of others. The assumption upon which these regulations are based is that all people must treat others with dignity and respect in order for scholarship to thrive. The regulations and procedures for disciplinary action and appeal are available on the OSU website (http://studentlife.oregonstate.edu/studentconduct/). Violations of the regulations subject a student to appropriate disciplinary or judicial action. These regulations have been formulated by the Student Conduct Committee, the Student Activities Committee, the university administration, and the State Board of Higher Education.

Student Grades
Student grades may be obtained via MyOSU (https://myosu.oregonstate.edu): Select Student, then Student Grades. Or obtain an unofficial transcript under Academic Profile, and click on Transcript. Grades are not automatically mailed to the student.

You may request a transcript online (http://registrar.oregonstate.edu/transcripts/) at no charge.

Grades, GPA calculations, and academic standings are not complete and final prior to 8 a.m. on the Wednesday following the final exam week. Grades and GPAs appearing prior to that day may be incomplete.
Student Records

Family Educational Rights and Privacy Act of 1974, as amended, (20 U.S.C. 1232g) provides that Oregon State University students have the right to inspect and review the student's education records within 45 days of the day the university receives a request for access; the right to request the amendment of the student’s education record if the student believes that the records are inaccurate or misleading; the right to consent to disclosures of the personally identifiable information contained in the student's educational record, except to the extent that FERPA authorizes disclosure without consent; and the right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA. The Student Records Policy is available in the OSU Academic Catalog.

Progress Standards for Veteran Students

Programs at Oregon State University are approved for the use of VA benefits under the Montgomery GI Bill®, Dependents Educational Assistance, and Title 38 and Title 10 of the US Code, or benefits offered by the State of Oregon Department of Veteran Affairs. The university, through the Registrar’s Office, provides the certifying service to qualified students. The certifying official issues enrollment certification documents to the appropriate VA regional office and monitors students’ satisfactory progress for the VA. Any student receiving GI Bill® education benefits while attending Oregon State University is required to obtain transcripts from all previously attended schools and submit them to the school for review of prior credit.

1. OSU students who receive benefits from the Veterans Benefits Administration of the Department of Veterans Affairs are subject to the satisfactory progress standards as set forth in Chapter 38, U.S. Code sections 1674, 1724, 1775, and 1776, and to those defined by the university in Academic Regulation 22, Satisfactory Academic Standing:

2. Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.

   a. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.

   b. Academic Probation: Students who have attempted 24 or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.

   c. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student's academic record. Students who are academically suspended are denied all the privileges of the institution and of all organizations in any way connected to it, including any university-recognized living group.

   d. Reinstatement to the University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable college-level work at an accredited college or university, with a GPA of 2.5 or above.

3. Students, who are placed on probation by the university, also will be notified that they are on probation insofar as Veterans Affairs’ progress standards are concerned. If a student’s deficiency is not corrected and they subsequently are placed on academic suspension, the university will notify Veterans Affairs of their unsatisfactory progress.

4. The university will recertify students who are suspended by the university and subsequently reinstated by the Academic Standing Committee.

5. Students dismissed from the university for unsatisfactory conduct will be reported as making unsatisfactory progress. The university will recertify the student only upon rescission of the dismissal by the university.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website (https://www.benefits.va.gov/gibill/)

Options for Exemption from Nonresident Tuition

HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375

A public university listed in ORS 352.002 or community college shall charge an enrolled student who is not a resident of this state, and who is attending classes as an undergraduate or graduate at a public university or community college campus in this state, tuition and fees no greater than the resident rate if the student:

a. Served in the armed forces of the United States; and

b. Was relieved or discharged from that service with either an honorable discharge or a general discharge under honorable conditions; and

c. Undergraduate student newly enrolled after September 15, 2013, or graduate student newly enrolled after September 15, 2014, and

d. Provides proof that the student has established a physical presence in Oregon within 12 months of being enrolled at the public university or community college.

Students eligible for in-state tuition under Section 702 (“Choice Act”) include:

- A Veteran who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
- A spouse or child using transferred benefits who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and enrolls in the school within 3 years of the transferor’s discharge from a period of active duty service of 90 days or more.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in the state in which the institution of higher learning is located (regardless of their formal
state of residence) and enrolls in the institution within three years of the servicemember’s death in the line of duty following a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 GI Bill® benefits (38 U.S.C. § 3319) who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.

- Anyone using Vocational Rehabilitation benefits (38 U.S.C. § 3102) who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence).

Choice Act eligible students will continue to receive in-state tuition rates after they have used all of their GI Bill® benefits or Marine Gunnery Sergeant John David Fry Scholarship benefits as long as the student remains continuously enrolled. If there is a break in enrollment, or if the student changes their program of study after exhausting their VA educational benefits, they will no longer receive in-state tuition rates.

Veterans who do not qualify under the Choice Act will likely qualify under HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375 or HB 2787 Veterans who do not qualify under the Choice Act will likely qualify under HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375 or HB 2787 (see above).

If you are a Veteran and need to apply for residency, you may need to complete a Residency Affidavit (https://admissions.oregonstate.edu/sites/admissions.oregonstate.edu/files/residency_affidavit.pdf) or the Exemption from Nonresident Tuition Veteran Form (https://registrar.oregonstate.edu/sites/registrar.oregonstate.edu/files/forms/exemption-from-nonresident-tuition_2018.pdf) depending on your circumstances.

Another helpful resource when applying for residency are the Instructions for Completing Residence Information Affidavit (https://admissions.oregonstate.edu/residency-frequently-asked-questions-faq/#military).

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website (https://www.benefits.va.gov/gibill/)

School Certifying Official (SCO)

The School Certifying Official (SCO) certifies the enrollment of veterans and eligible dependents at Oregon State University. All veterans and eligible dependents, whether new, returning, or transfer students, who expect to receive educational benefits from the Veterans Administration must notify the SCO in the Registrar’s Office. For questions about benefits, contact veterans@oregonstate.edu.

The School Certifying Official also monitors and reports to the Veterans Administration the Satisfactory Progress Standards for students who are receiving VA education benefits. See Progress Standards for Veteran Students for more information.

Military Tuition Assistance Program

The School Certifying Officials (SCO) at Oregon State University are the direct contact points for students using the Military Tuition Assistance Program. SCOs process students’ tuition assistance authorizations and contracts and forward copies to OSU Business Affairs for billing the military branches. Depending on the branch of the military, requirements vary on how grades are reported. Grade reporting is done at the end of each academic term.

For questions about the Military Tuition Assistance Program, contact veterans@oregonstate.edu.

Veteran and U.S. Military Service Recognition Cord

Recognition of U.S. Military Service

Oregon State University recognizes the significant contribution and sacrifices made by OSU students who are U.S. military servicemembers and veterans. Students may receive red, white, and blue Military Service Recognition Cords to be worn at commencement.

Servicemembers and veterans may visit the Office of the Registrar in Kerr Administration Building during the month prior to commencement to request cords.

Undergraduate Planned Educational Leave Program

Students may find that a planned interruption or pause in their regular, full-time education is needed. PELP is designed to enhance the prospect of successful completion of an academic program by allowing a student to arrange a voluntary absence that temporarily suspends their academic work for a period of time. For detailed information please refer to Academic Regulation 13 (p. 18).

Unauthorized Peer-to-Peer (P2P) File Sharing and Other Copyright Infringement

The university takes copyright infringement seriously. As set forth in the Acceptable Use of University Computing Resources Policy, all students must abide by federal and state copyright laws when using university computing or network resources. The unauthorized publishing or use of copyrighted material on the university computer network is strictly prohibited and users are personally liable for the consequences of such unauthorized use. This specifically applies to Peer-to-Peer or P2P file-sharing of copyrighted music and movies. Students should be aware that by engaging in unauthorized sharing of copyrighted material, they not only violate university policy, but they...
may also be held criminally and civilly liable by federal and/or state authorities.

Under current copyright law, criminal cases of copyright violation carry a penalty of up to five (5) years in prison and a $250,000 fine. Civil penalties for copyright infringement include a minimum fine of $750 for each work. Oregon State University will subject students who violate this policy to discipline as appropriate. For a first-time violation of this copyright policy, students are required to pass a copyright quiz within 72 hours or else their network access is disabled. Repeated infringement is subject to disciplinary action by the office of Student Conduct and Community Standards, up to and including expulsion from the university.

The entire policy regarding Unauthorized Peer-to-Peer (P2P) File Sharing and Other Copyright Infringement is available online (http://fa.oregonstate.edu/gen-manual/).

**Student Records-Right to Privacy**

**Notice to Students Regarding Privacy of Records**

The Family Educational Rights and Privacy Act (FERPA) of 1974 (Public Law 93-380), as amended, Oregon Revised Statutes 351.065, and Oregon Administrative Rule 580-013-0005 of the State Board of Higher Education afford students certain rights with respect to their education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education record that the student believes are inaccurate or misleading. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of the personally identifiable information contained in the student’s educational record, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including health staff and members of the Law Enforcement Unit); a person or company with whom the university has contracted; a person or company acting as consultant or volunteer for the university; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill their professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920
1-800-USA-LEARN (1-800-872-5327)

**Revised directory information effective May 2014:** Oregon State University will provide the following ‘directory’ information to all inquiries without students’ written consent:

- student’s name
- current mailing address and telephone number
- current OSU ONID email address
- campus office address
- class standing (e.g., freshman, sophomore, etc.)
- student level (undergraduate, graduate, etc.)
- college
- major field of study
- honors
- full-time or part-time enrollment status
- status as a graduate teaching assistant or graduate research assistant and hours of service.
- participation in officially recognized activities and sports
- dates of attendance
- anticipated graduation date
- degrees and awards received
- date(s) of degree(s)
- most recent previous educational institution attended by student

A student may request in writing that all of the above directory information be kept confidential. This option may be exercised by filing a written, dated, and signed request at the Office of the Registrar at any time. The restriction remains in effect until revoked by the student even if the student leaves the university or graduates.

The procedures for exercising the above rights are explained in Oregon Administrative Rules 576-020-0005 through 576-020-0065.

**Release of Student Information to Military Recruiters (Solomon Amendment)**

Oregon State University provides information about students that is requested by military recruiters under requirements of the Solomon Amendment (As of Oct. 23, 1998 [63 Fed. Reg. 56819] and the Interim Rule published Jan. 13, 2000 [65 Fed. Reg. 2056] by Department of Defense). Under this federal law military recruiters may request the following information: Name, current mailing address (as provided by the student) including email address, current telephone number (as provided by the student), age, class level (e.g., freshman, sophomore, etc.), and academic major. The information may be requested for the immediately previous term, current term, or future term for all students.
age 17 and older who are or were registered at OSU for at least 1 credit in the requested term. Recruiters may request this information each term. Recruiters may not obtain any information that is not in the above list of student recruiting information. For example, they may not request any of the following: Social Security Number or ID Number, place of birth, race/ethnicity/nationality, grades and GPA, grades of low-performing students, religious affiliation, names of students with loans in default, veteran status, or names of students no longer enrolled at OSU. Institutions that do not comply with the Solomon Amendment risk losing federal funding from the departments of Defense, Education, Health and Human Services, Labor, and Transportation. Institutions do not risk losing student-aid funding such as Perkins Loans, Federal SEOG or Work-Study funds.

**Use of Social Security Number (SSN)**

You are requested to provide voluntarily your Social Security Number to assist OSU (and organizations conducting studies for or on behalf of OSU) in developing, validating, or administering predictive tests and assessments; administering student aid programs; improving instructions; internal identification of students and alumni; collection of student debts; or comparing student educational experiences with subsequent workforce experiences. When conducting studies, OSU will disclose your Social Security Number only in a manner that does not permit personal identification of you by individuals other than representatives of OSU (or the organization conducting the study for OSU) and only if the information is destroyed when no longer needed for the purposes for which the study was conducted. By providing your Social Security Number, you are consenting to the use identified above. This request is made pursuant to ORS 352.004, ORS 352.107, and ORS 352.146. Provision of your Social Security Number and consent to its use is not required and if you choose not to do so you will not be denied any right, benefit, or privilege provided by law. You may revoke your consent to the use of your Social Security Number at any time by contacting: Office of the Registrar, Oregon State University, Corvallis, OR 97331-2130; 541-737-4331.

All access and use at Oregon State University of the Social Security Number is prohibited except for meeting federal or state requirements, compliance, and reporting.

**Students Rights to Privacy of Records Tutorial (FERPA)**

A brief online tutorial that explains students’ rights may be viewed at [http://registrar.oregonstate.edu/ferpa-training-module/](http://registrar.oregonstate.edu/ferpa-training-module/).

**OSU Directory**

The OSU Campus Directory is a directory of staff and student names, addresses and telephone numbers. This information is extracted at the end of the second week of the fall term and is published annually and posted on the OSU website. To find students, faculty and staff, use the Search box for Find people and pages or go to [http://directory.oregonstate.edu/](http://directory.oregonstate.edu/).

Students who do not want information to be included in either the printed or electronic version should indicate that in their Directory Profile on the Web before the end of the second week of fall term. Just log in to MyOSU at [https://myosu.oregonstate.edu](https://myosu.oregonstate.edu) and under Update Personal Profile select OSU Directory Preferences, then follow the instructions on that page.

**Student Photo Roster**

Getting to know students is an important means by which instructors and advisors can improve the quality of the learning environment.

**Accessing Student Photo Roster System:**

1. Login to MyOSU at [https://myosu.oregonstate.edu](https://myosu.oregonstate.edu).
2. Under Update Personal Profile, select OSU Directory Preferences.
3. Check or uncheck the checkbox ‘Photo Viewable to Advisor’.
4. Check or uncheck the checkbox ‘Photo Viewable to Instructor’.
5. Click the ‘Submit Changes’ button to update your Directory Profile.

To view your choices regarding opting in or out of the Student Photo Roster System, please view it online using the instructions above.

Selecting the ‘opt in’ option for instructors means that all instructors of record associated with the student’s current classes will be able to view the photograph.

Students can change their minds at any time.
HOW TO READ THE SCHEDULE OF CLASSES

Registration instructions can be found on the Office of the Registrar website (https://registrar.oregonstate.edu/registration/).

Courses in the Schedule of Classes are arranged alphabetically and numerically by course designator or subject code. For example, ENG for English, MTH for mathematics.

Schedule of Classes Terms and Abbreviations

Avail = Remaining seats available

Baccalaureate / WIC Courses

All baccalaureate core classes in the Schedule of Classes have an asterisk '*' in the title. The course description also contains the note, '*(Bacc Core Course)*'.

All writing intensive course classes (WIC) have a carat ^ in the title. The course description also contains the note, '*(Writing Intensive Course)*'.

Campus

'Dx' = Ecampus - Distance Ed = An Ecampus course (Additional abbreviations may follow indicating a specific location or course level such as 'LD' for lower division and 'UD' for upper division)

'B' = Oregon State - Cascades = OSU Cascades Campus in Bend, Oregon

'C' = Oregon State - Corvallis = Corvallis Campus

'N' = Newport/HMSC = Hatfield Marine Science Center in Newport, Oregon

'L' = EOU = OSU courses taught at Eastern Oregon University in LaGrande, Oregon

'PDX' = Oregon State - Portland

Cap = Seating Capacity

Curr = Current Enrollment

Comments

Special instructions, textbooks required, etc.

Courses with Labs/Recitations/Studios

If a course lecture is 'linked' to a noncredit lab or recitation or studio, you must register for all parts of the course. Web registration will not permit you to register for one part without the other. Likewise, you may not drop only one part of a 'linked' course; if you do so, the other part will be dropped automatically. If you want to change one part of a multi-part course, you should drop the part and add a new part at the same time before processing your requested changes. Be sure to process the request after specifying the drop and the add.

Course Numbers

100/200 = Lower Division, Undergraduate

300/400 = Upper Division, Undergraduate

500 = Graduate, primarily Master's

600 = Graduate, primarily Doctoral

700 = Professional, DVM, PharmD

800 = In-service courses for practicing professionals

CRN

The unique Course Reference Number identifying each class.

Cr = Credit

All credits listed in the Schedule of Classes refer to quarter credits.

If a course is taught for variable credits, for example 1–16 credits, Web registration will prompt you to enter the correct number of credits for which you want to enroll. If you need to change that number later, you may do so via the Web.

Day/Time/Date

Days of the week and hours the class meets (see Meeting Time below), and start and end dates of classes.

End Date

Last day of classes before finals week.

Fees

A list of course fee codes, their description, and the fee amounts are listed in the catalog under Tuition, Fees and Payment at https://catalog.oregonstate.edu/fees-residency-requirements/. Additional information is in the Business Affairs website at http://fa.oregonstate.edu/business-affairs/tuition-and-fee-information/.

Instructor

Name of instructor or staff.

Location

See the campus map at https://map.oregonstate.edu/ for building abbreviations and locations.

Meeting Time

Days of the week are abbreviated as follows:

M = Monday

T = Tuesday

W = Wednesday,

Th = Thursday

F = Friday

S = Saturday

TBA = To Be Announced

NSHD

No-show-drop will appear in the Comments column. A student who is registered for such a course who attends no meetings of the course during the first five school days of the term will be dropped from the course by the instructor, unless the student has obtained prior permission for absence. See Academic Regulation 9b (https://catalog.oregonstate.edu/regulations/).

P/N = Pass/No Credit

A class is graded A–F unless P/N appears, in which case Pass/No Credit grading applies.
All courses registered via the Web are given the A–F or P/N grade option as appropriate. Any change of the A–F option (to S/U) is done in-person at the Office of the Registrar after completing the Change of Grading Basis form (http://oregonstate.edu/registrar/forms/). The deadline for these changes is the end of the 7th week of classes. See the Academic Calendar (http://registrar.oregonstate.edu/osu-academic-calendar/).

Restrictions

Prerequisites, corequisites, limitations to registration. See Registration Restrictions below.

Sec = Section

Section Title

Seminars, special topics, blanket courses and others may have course subject section titles.

Section Description

Description of what the topic covered.

Session

Summer term sessions, e.g., 8-week session.

Start Date

First day of class.

Status

Whether the section is open, closed, waitlisted or cancelled for registration.

TBA = To be announced.

Term

Su 18 = Summer term 2018
F 18 = Fall term 2018
W 19 = Winter term 2019
Sp 19 = Spring term 2019

Type

The method of instructional delivery.
A=Lecture
B=Discussion
C=Recitation
D=Laboratory
E=Seminar
F=Independent or Special Studies
FNL=Final Exam
G=Research
H=Activity
HYB=Hybrid (a combination of online and classroom)
I=Experimental
J=Internship
L=Tutorial
M=Practicum
MID=Midterm
N=Reading and Conference
O=Experiential/Co-op Education
P=Programmed Instruction
Q=Thesis
R=Studio
U=Externship
V=Examination for Credit
W=Workshop
Y=Online
Z=Modular

Weeks

Number of weeks in the term or summer session.

WL Avail = Seats available on waitlist
WL Cap = Waitlist capacity
WC Curr = Students currently on waitlist

Registration Restrictions

Prerequisites

Prerequisites provide the background necessary for successful performance in a course. Students may attempt a course without having prerequisites if they have obtained the consent of the instructor to do so. If the instructor’s consent is not obtained, then students who have not fulfilled published prerequisites may be disenrolled from the course during the first week of classes.

Departmental Approval

Special approval is required for this course; the student requests an ‘override’ from the department teaching the course, and then the student registers for the course.

+/−

+ indicates ‘only’. For example, under class limitation +1 means only freshmen, – indicates ‘no’. Under college limitation, –1,7 means no students from College of Agricultural Sciences or the College of Pharmacy may register.

AL=Alphabetic Sections (Alpha sections for WR 121)

WR 121 course sections have registration limitations determined by the first letter of the student’s last name. These are marked in the comments or restrictions column with the following codes:

• AL+AG = Students whose last names range from A to G may register that term.
• AL+HN = Students whose last names range from H to N may register that term.
• AL+OZ = Students whose last names range from O to Z may register that term.

CL=Class Standing.

The catalog system translates these codes into the following terminology:

1 = Freshman
2 = Sophomore
3 = Junior
4 = Senior
5 = Undergraduate nondegree
6 = Graduate nondegree
7 = Postbaccalaureate (undergraduate)
8 = Master’s candidate
9 = Doctoral candidate
G = Postbaccalaureate (graduate)
V = Professional

**CO=College Codes**
The catalog system translates these codes into the following terminology:

01 = Agricultural Sciences
02 = Business
03 = Education
04 = Pre-Engineering
05 = Forestry
07 = Pharmacy
08 = Science
09 = Graduate School
10 = Liberal Arts
11 = Defense Education (ROTC)
14 = University Exploratory Studies Program
15 = Veterinary Medicine
16 = Engineering
17 = Interdisciplinary Programs
18 = University Honors College
22 = Pre-Business Program
23 = Public Health and Human Sciences
24 = Oceanic and Atmospheric Sciences
EP = Intensive English Program

**DG=Degree**
If a course is restricted to students pursuing specific degrees, it will list a code of DG + – under the Registration Restrictions column. Degrees listed may include HBA (Honors Bachelor of Art), HBFA (Honors Bachelor of Fine Arts) and HBS (Honors Bachelor of Science).

**LV=Level**
The catalog system translates these codes into the following terminology:

01 = Undergraduate
02 = Graduate students
03 = Postbaccalaureate students
04 = Nondegree and Credential
05 = Professional students
06 = INTO OSU GE/AE/Pathways

**Major Restrictions/Major Code Descriptions**
Some courses are restricted to students enrolled in particular majors. Numerical codes of the majors students are restricted to are noted in the Restrictions section in the online Schedule of Classes.
INFORMATION SERVICES, COMPUTERS, AND ACADEMIC TECHNOLOGIES

Information Services supports OSU students by providing accounts, technologies, equipment checkout, printing, computing networks and computing labs. The IS Service Desk provides students with technical support for laptops, mobile devices, and campus systems like Canvas. If you need in-person support, please visit the Walk-up Service Desk in Milne Computer Center room 201.

Student employment opportunities are available from a variety of units within IS, including the IS Service Desk and Academic Technology, with the greatest opportunities announced just prior to each new term.

Accounts and Passwords

Website: https://oregonstate.teamdynamix.com/TDClient/KB/ArticleDet?ID=58474

- Accounts & Technologies Guide for New Students: This guide is for new OSU students who need to get connected to OSU systems such as email and Canvas. Even if you are already connected to one or more OSU systems, we recommend you go through this guide, just to be sure you’ve covered the bases and know where to get computing help.
- ONID: ONID stands for OSU Network ID. It’s a universal computer account available to all OSU students, employees and associates. You use your ONID username and password to access Online Services, Canvas, email, the wireless network and many other university computing services.
- Box: Box is unlimited cloud storage and collaboration for all OSU students and employees.
- G Suite: ONID email is accessed via G Suite. All OSU students, instructors, and employees may access all the supported core apps: Drive, Mail, Calendar, Site and Groups.
- Office365 for OSU: Office365 allows students and employees to download and install up to 5 free copies of Microsoft Office on personal devices and to collaborate online using native Microsoft Office tools: Word, Excel, PowerPoint and OneNote.

Technical Support

- OSU Computer Help Documents (http://oregonstate.edu/helpdocs/), 24/7 help guides and FAQs
- OSU Service Desk (http://is.oregonstate.edu/service-desk/), Monday–Friday support via phone, 541-737-8787, webform, and in-person at Milne Computer Center room 201 (also open on weekends during regular terms)

Student Employment

(Opportunities subject to availability)

Student workers provide programming, development, and support services for the OSU community. Potential employment is contingent upon eligibility per university policy on student employment.

- IS Service Desk
- Technical support, programmers
- Central Web Services
- Web app and mobile app developers
- Customer service and support, system maintenance

See the OSU website (http://jobs.oregonstate.edu) for postings.

Learning Technologies

Website: http://is.oregonstate.edu/learning-technologies

- Canvas, OSU’s Learning Management System used by both off-campus and on-campus students for classwork.
- Classroom Technology Services
- Equipment Loan and Rental
- Standard Printing
- Media Creation

Software

Website: http://is.oregonstate.edu/accounts-support/software

- Many software packages are available to students.
INTO OREGON STATE UNIVERSITY

1701 SW Western Blvd
Corvallis, OR 97333, USA
Phone: +1-541-737-2464
Email: info@oregonstate.edu
Website: http://www.intoosu.oregonstate.edu (http://intoosu.oregonstate.edu/)

Administration
Bob Gilmour, Executive Director, INTO OSU
Julianna Betjemann, Director of Student Experience, INTO OSU
Shain Panzeri, Director of International Admissions and Academic Support, INTO OSU
Elena Sapp, Director of Academic Programs, INTO OSU

Oregon State University offers academic Pathway and English language training programs through the INTO OSU Center. Personalized support tailored to international students’ educational, social and cultural needs prepares them to progress with confidence as degree-seeking students. INTO OSU provides international students with learning experiences and services that promote academic, professional and personal success.

INTO established its first partnership in the U.S. at Oregon State University in 2008. Located in the new International Living-Learning Center, INTO OSU offers outstanding academic programs, technology-assisted learning, a welcoming, interconnected community of students from across the U.S. and the world, strong student support programs and state-of-the-art facilities. The innovative Pathway and English language programs offered at the INTO OSU Center are delivered by highly qualified OSU teaching faculty. INTO OSU also provides a breadth of academic preparation and support services designed specifically to meet the unique needs of its international students.

Facilities
The International Living-Learning Center opened in September 2011 and is the home for INTO Oregon State University. This state-of-the-art building offers a world-class student experience where international and domestic students live and learn together in the heart of the OSU campus. This building includes residential accommodations for more than 300 international and domestic students, 26 classrooms, a large and spacious auditorium, computer labs, a café, market and comfortable open spaces where students can socialize.

Student Services
The INTO OSU Student Services team provides a range of co-curricular programs and services promoting social, personal and academic well being. Upon arrival at OSU, the team helps students settle in to life in Corvallis, provide social opportunities and a variety of resources tailored to the specific needs of international students. Whether it’s a question about making an appointment with a doctor, finding a place to live, renewing your visa or anything else, there will always be someone available to help you.

International Student Orientation
Orientation involves a variety of important events that prepare students to be successful at OSU, including information about maintaining your visa status, registering for OSU classes, health requirements and insurance coverage. Attendance at International Student Orientation is required of all international students, both direct and INTO OSU.

Other important activities during orientation include: opening an OSU email account, getting an OSU ID card, learning about OSU community expectations and taking a tour of the campus. It’s also a great time to make new international and American friends and attend the many social events planned on campus.

Visa and Immigration Support
Upon arrival, the university’s Office of International Services (OIS) office, in conjunction with the INTO OSU Student Services team, will provide information, support and guidance on maintaining your immigration status while you are in the U.S. These can include questions about renewing a student visa, making sure your I-20 or DS-2019 status is always current, bringing your dependents, employment, traveling and more. During your program, in conjunction with the INTO OSU Academic Support and Finance teams, they will support you through your program and issue any documentation you may need to support your visa status. Students can come in for walk-in hours, or make individual appointments with an International Student Adviser or Sponsored Student Adviser at the Office of International Services (OIS). In addition, workshops are held throughout the year on topics such as employment, scholarships and travel.

OSU Office of International Admissions
The OSU Office of International Admissions is housed in the INTO OSU Center. The Office of International Admissions works closely with prospective international students from inquiry to admission for a variety of programs including: Academic English, Pathway Programs (Undergraduate and Graduate), Undergraduate, Post-Baccalaureate, Professional (MBA, PharmD, and DVM), and Non-degree Exchange Students. All other graduate programs (Master’s and PhD) are served by the Graduate School. Visit the Office of International Admissions (http://admissions.oregonstate.edu/international/) online.

Scholarships
Oregon State University and INTO Oregon State University are proud to offer a wide variety of scholarships for exceptional international students. Scholarships are available to undergraduate students, graduate students and Pathway students alike. For more information about these exciting scholarship opportunities, please visit the Office of International Admissions (http://admissions.oregonstate.edu/international/scholarships-international-students/) online. Scholarships are available to undergraduate students, graduate students and Pathway and English language students.

Undergraduate Pathway and Undergraduate Transfer Program (UTP)
These programs combine intensive language study, academic skills development and academic course work in a carefully constructed program designed to prepare students for rigorous OSU degree programs.

The UTP offers customized programs for students who have earned university credits and wish to apply them towards their OSU degree. UTP students receive additional academic, language and cultural support to help be successful at OSU.
The Undergraduate Pathway program and UTP are designed for students who:

- Want to study for an undergraduate degree in the U.S.
- Need to improve their English language skills
- May have lower GPAs than required of direct-entry students
- Desire additional academic, language, and cultural support in order to succeed during their first year at a U.S. university
- Apply previously earned university credit towards graduation at OSU (UTP only)

The Undergraduate Pathway and UTP programs are for students who want to take the fast-track to success. Students receive the highest level of support during their transition abroad, making it an ideal choice for international students who are driven to achieve high academic goals.

**Undergraduate Pathway and UTP programs are available in:**

- Business
- Engineering
- Science
- Computer Science
- Natural Resources and Renewable Materials
- Food Science and Technology
- Exercise and Sport Science
- General
- Public Policy
- Women and Gender Studies
- Design, Apparel and Merchandising Management
- Mathematics
- Psychology

**Four types of Undergraduate and UTP programs are available:**

- **1-term Accelerated Pathway and UTP:** This program is composed of one term of Pathway programming which counts toward the student’s undergraduate degree.
- **2-term Accelerated Pathway and UTP:** This program is composed of two terms of Pathway programming which count toward the student’s undergraduate degree.
- **3-term Standard Pathway and UTP:** Leads students through their first year and upon completion of all progression requirements, students will move on to their degree-seeking program as a second-year sophomore.
- **4-term Comprehensive Pathway and UTP:** Offers an intensive language curriculum for students to start their first year of study, allowing students to progress to their degree program. After successfully completing progression requirements, students will move on to their degree-seeking program as a second-year sophomore.

**Undergraduate Pathway and UTP Core Academic Courses**
The Undergraduate Pathway program and UTP are comprised of OSU credit-earning courses in math, science and writing. From the first day of classes, INTO OSU Pathway and UTP students study alongside domestic students in many of the same courses.

For more information please visit INTO OSU (http://intoosu.oregonstate.edu).

---

**Graduate Pathway Program**
The innovative Graduate Pathway program provides international students a direct path to various graduate degrees at the university. Upon successful completion of the program, students are guaranteed progression to a graduate degree program through a curriculum consisting of graduate credit courses that apply to the OSU degree program. The program provides academic, language and cultural support in order to succeed at Oregon State University.

Direct admission to the Graduate School and respective department-based graduate programs at Oregon State University is highly competitive with only the best and most prepared students being selected. Many students who meet all the minimum entry requirements are not admitted because of the highly competitive nature of the programs.

The Graduate Pathway program is designed for international students who:

- Choose to demonstrate their admissibility to an OSU degree seeking program through Graduate Pathway performance in OSU graduate level courses in a specific area of study
- Fall short of meeting the minimum GPA or test score requirements
- Need further English development
- Any or all of the above

**Graduate Pathway Programs are available in:**

- Business Administration (MBA)
- Business (MSB)
- Chemical Engineering (MEng)
- Organic Chemistry (MS)
- Civil Engineering (MEng)
- Comparative Health Sciences (MS/PhD)
- Computer Science (MEng)
- Electrical and Computer Engineering (MEng)
- Environmental Engineering (MEng)
- Environmental Sciences (PSM)
- Industrial Engineering (MEng)
- Mechanical Engineering (MEng)
- Biostatics (MPH)
- Global Health (MPH)
- Health Promotion and Health Behavior (MPH)
- Materials Chemistry (MS)
- Mathematics (MS)
- Biological and Ecological Engineering (MEng)

**Three types of Graduate Pathway Programs are offered:**

- **1-term Accelerated Pathway:** Minimum 9 graduate credits earned in the program
- **2-term Accelerated Pathway:** Minimum 15 graduate credits earned in the program
- **3-term Standard Pathway:** Minimum 15 graduate credits earned in the program

**Graduate Pathway Core Academic Courses**
The academic courses included in the Graduate Pathway programs are carefully chosen to ensure success in graduate-level studies. Students
will be advised on which modules to follow during their academic orientation at the INTO OSU Center.

For more information please visit INTO OSU (http://intoosu.oregonstate.edu).

**Academic English**

**Program Description**
The Academic English program at INTO Oregon State University prepares international students for university study in the U.S. The academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at OSU through development of:

- Listening
- Speaking
- Reading
- Writing
- Grammar
- Standardized test preparation
- Academic study skills

**Program Highlights**
- Intensive English to prepare for university study
- Academic advising throughout the program
- Small classes of 18-20 students
- Highly-trained and experienced instructors
- Participation in the Conversant Program
- Use of a fully-equipped Learning Center with state-of-the-art technology

**Program Outcomes**
After finishing this intensive program successful students will be able to:

- Interact comfortably in the U.S. classroom with professors and fellow students
- Understand U.S. values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the Internet and OSU library databases to conduct academic research
- Read, understand, and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

**Study Abroad with INTO OSU**

**Program Description**
Study Abroad at INTO OSU is designed for students who want one or more terms of study abroad experience at a top US university. The program provides students with a classic American university experience while taking a variety of classes. Students will have access to all the support services available at the university and INTO OSU, including exceptional one-on-one tutoring, social and cultural trips and more.

The length of the Study Abroad program will vary depending on a student’s needs. The program can be customized for different levels of English and for specific academic interests. There are fall, winter, spring and summer start dates available. Additional program and admission information can be found online (http://admissions.oregonstate.edu/international/programs/study-abroad-osu/).

With prior approval from your home university, the academic courses you will study at OSU can be used to gain credits toward your undergraduate degree in your home country. This program is not designed as a route to degree-seeking OSU programs, though your credits may apply to an OSU degree if you seek admission.

This program consists of three parts:

**Study Abroad with English (SAWE) Part 1**
Students study full-time in the Academic English program. Students have an opportunity to progress to Study Abroad with English Part 2 upon successful completion of Academic English level 4 and meeting internal progression criteria.

**Study Abroad with English (SAWE) Part 2**
Students are able to select from OSU undergraduate credit bearing courses offered by the College of Liberal Arts and study alongside domestic and international students while continuing to take 6-12 hours of academic English classes. Students have an opportunity to progress to the Visiting International Students Program upon successful completion of Academic English core level 6 courses or ALS 161/ALS 162 and meeting internal progression criteria.

**Visiting International Students Program (VISP)**
Students can select from a range of OSU credit-bearing courses offered by the College of Liberal Arts. Optional academic English courses are also available.

All OSU undergraduate College of Liberal Arts courses taken through the VISP and SAWE Part 2 program are transferrable with prior approval from the student’s home university (except intensive English courses, if selected).

Departmental approval is required for students seeking to register for a course outside the College of Liberal Arts.

MUSEUMS, GALLERIES, AND COLLECTIONS

The educational resources of the university include art, galleries, collections, and exhibits of cultural and scientific materials. Research, teaching, and extension functions are combined in these collections, which serve both the institution and the general public.

Over the years, various departments and schools of the university have become repositories for extensive holdings of manuscripts; rare books; prints, paintings, and other art objects; costumes; textiles; historic artifacts; archaeological material; fossils; preserved plants and animals; wood products; and marine material. These collections serve many of the same functions as a library or make possible the identification of materials whose age, name, or significance is unknown.

Most university collections serve primarily research and teaching functions and may be viewed by prior appointment with their curators.

- Archaeological Collection: Consists of artifacts, field notes, maps, drawings, sketches, and photographs accumulated in archaeological investigations. Several thousand items of primary archaeological documentation comprise this collection. Location: Waldo Hall.

- Art About Agriculture ([https://agsci.oregonstate.edu/art/art-about-agriculture/](https://agsci.oregonstate.edu/art/art-about-agriculture/)): Recognizes professional and emerging Pacific Northwest artists, creating a growing, dynamic, permanent collection of fine art based on, stimulated by, and portraying agriculture, and presents the permanent collection and tour exhibit to rural and urban audiences.

- College of Business-Design Collection ([https://business.oregonstate.edu/sdhe/historic-collection/](https://business.oregonstate.edu/sdhe/historic-collection/)): The collection, with display cases on the 2nd floor of Milam Hall, supports the outreach missions of the College of Business Design Programs by providing an educational resource and creative inspiration for students, researchers, and the general public.

- Department of Fisheries and Wildlife's Mammals and Fishes Collections: Include more than 9,000 specimens of birds and 10,000 specimens of mammals, as well as the Braly Ornithological Collection; Overton Dowell, Jr., Bird Collection; Alex Walker Ornithological Collection; and Oregon Game Commission Collection. Location: Nash Hall.

- Fairbanks Art Gallery ([https://liberalarts.oregonstate.edu/sac/art-and-art-history/fairbanks-galleries/fairbanks-gallery-art/](https://liberalarts.oregonstate.edu/sac/art-and-art-history/fairbanks-galleries/fairbanks-gallery-art/)): Fairbanks Gallery of Art is Oregon State University's professional art gallery. Its mission is to initiate, produce, and present scholarly visual art exhibitions to advance contact and dialogue with original works of art as an indispensable part of liberal art education. The exhibition programming of the gallery reflects the diversity of visual-art practices and cultures, fostering critical thinking, and reflecting the depth and breadth of human experience. The exhibitions support the educational missions of Art and Art History and broaden the dialogue across University communities, including general audiences.

- Fine Arts Print Collection ([https://oregondigital.org/sets/fairbanks/](https://oregondigital.org/sets/fairbanks/)): Contains nearly 600 prints representing numerous countries and spanning several centuries. The collection's holdings includes work of various styles, including Japanese Ukiyo-e, modern Japanese woodblock, 20th century Latin American, German Expressionism, and 20th century American prints.

- Geological Collections: Include minerals, rocks, and fossils. The Edward Taylor Mineral Collections (F. Tepley, Curator) contain several thousand rare and fine specimens. Over 5,000 fossil specimens of Paleozoic, Mesozoic, and Cenozoic marine invertebrates comprise the outstanding John H. Howard and Earl L. Packard Collections in Paleontology (A.G Grander, Curator). Location: Wilkinson Hall.

- The Herbarium ([http://oregonstate.edu/dept/botany/herbarium/](http://oregonstate.edu/dept/botany/herbarium/)): Contains more than 450,000 named specimens of seed plants, ferns, mosses, algae, fungi, and lichens. Emphasis is on collections from western North America. The herbarium is the repository for the Morton E. Peck Herbarium of Willamette University, a research collection of Oregon flora consisting of more than 30,000 sheets, and the former University of Oregon herbarium.

- Herpetology Collection ([http://people.oregonstate.edu/~arnoldst/herp%20collection.htm](http://people.oregonstate.edu/~arnoldst/herp%20collection.htm)): Consists of more than 60,000 ethanol-preserved amphibians and reptiles, and approximately 24,000 frozen tissue samples. The collection has excellent representation for sites in the Pacific Northwest and includes the largest collection of garter snakes (Thamnophis) in the world.

- The J.C. Braly Natural History Collection: Includes 550 mounts of birds and mammals in addition to over 1,000 preserved specimens of amphibians and reptiles from the Pacific Northwest. Location: Cordley Hall.

- The LaSells Stewart Center Galleries ([https://lasells.oregonstate.edu/gallery/](https://lasells.oregonstate.edu/gallery/)): Offer visitors the opportunity to experience three distinct art galleries: Giustina Gallery, Murdock Gallery, and South Hall Display Case. Collectively, the galleries provide the local and campus community diverse opportunities to view and display art work. Annual exhibits include: Vista and Vineyards, Art about Agriculture, Cultural Connections Exhibit and the Community Art Exhibit.

- The Little Gallery ([https://liberalarts.oregonstate.edu/feature-story/little-gallery-presents/](https://liberalarts.oregonstate.edu/feature-story/little-gallery-presents/)): Exhibits eclectic selections of art from well-established and emerging artists and visually advances different critical methods of seeing, crucial and transformative approaches to large intercultural questions. The gallery has a welcome place in an international language department, is bringing cultures together and has become a confluence of disciplines, a place for discussion and wonder.

- Memorial Union Art Collection ([https://mu.oregonstate.edu/gallery/](https://mu.oregonstate.edu/gallery/)): Currently among the 125 artists included in the collection are paintings and sculptures by J. Leo Fairbanks, works from the early nineteen hundreds by Carrie Gilbert depicting Native Americans, prints collected and donated by Gordon and Vivian Gilkey, and historic photographs of OSU (a number of which are on display in the mezzanine hall).

- Memorial Union Concourse Gallery ([https://mu.oregonstate.edu/art-gallery/](https://mu.oregonstate.edu/art-gallery/)): One of the largest exhibition spaces on the OSU Campus. Several contemporary art exhibits reflecting a diversity of styles, media and cultural perspectives are scheduled throughout the year. These exhibits feature the artwork of international, regional, local recognized artists, and the art of talented OSU students.

- Oregon State Arthropod Collection ([http://osac.oregonstate.edu/](http://osac.oregonstate.edu/)): A valuable research collection of nearly three million insect and mite
specimens, chiefly from the Pacific Northwest. Collection strengths include Coleoptera, Hemiptera, Lepidoptera, and Hymenoptera. Location: 4082 Cordley Hall.

- Special Collections and Archives Research Center (http://scarc.library.oregonstate.edu/): Include collections pertaining to the history of science and technology; the historical records of OSU and papers of its prominent faculty members; collections documenting cultural and ethnic groups in Oregon; rare book collections; and collections documenting natural resources in the Pacific Northwest, especially agriculture and forestry.

- Valley Library NW Art Collection (https://library.oregonstate.edu/nwart/): Consists of more than 140 contemporary artworks by leading Northwest artists, including current and former art faculty members at OSU. The majority of the works were added to the collection during the 1999 library renovation through the Oregon Percent for Art law and selected in collaboration with the Oregon Arts Commission.

- Visitor Center of the OSU Marine Science Center (https://seagrant.oregonstate.edu/visitor-center/): Features aquariums, interactive exhibits, and hands-on displays that bring to life the marine research conducted by OSU scientists. Special events, educational programs, guided tours and walks are available on request to teach visitors about the ocean and its inhabitants, from undersea volcanoes to the tiniest tide pool creatures.

- The Xylarium (Wood Collection): Contains approximately 2,500 species of wood, primarily from North and South America, Southeast Asia, and Africa.
OSU OFFICE OF GLOBAL OPPORTUNITIES (OSU GO)

Caine Francis, Director
University Plaza
1600 SW Western Blvd., Suite 290
Oregon State University
Corvallis, Oregon 97333
Phone: 541-737-6434
Website: http://international.oregonstate.edu/osugo

OSU Office of Global Opportunities (OSU GO) is the centralized hub for supporting students and faculty who wish to explore, travel, study, and go global: whether studying abroad in diverse countries, participating in specialized international internships, joining service-learning and experiential programs that delve into unique projects and communities, and/or conducting comprehensive and rigorous international research.

Overseas Study and Internship Programs

OSU students may broaden their education by taking part in one or a number of OSU GO’s international study programs. Many of the programs allow qualified students from a wide variety of disciplines to earn academic credit from Oregon State University while pursuing their studies internationally. For academic programs approved for OSU credit, financial aid may apply to help cover the costs. IE3 Global is the program development unit within OSU GO to support the strategic mission of education abroad.

IE3 Global offers wide and diverse program options for OSU: direct exchange, study abroad, faculty-led, international internships and research, and supports faculty sabbatical opportunities. Furthermore, IE3 Global partners with colleges and departments on new program opportunities, development, and implementation that align with OSU’s strategic internationalization goals and evolving international curriculum.

More information about OSU GO programs can be obtained by writing to caine.francis@oregonstate.edu or calling 541-737-6434.

Course Equivalency Database:

To assist students and academic advisors in the planning process, OSU GO manages a database of credits earned by OSU students participating in education abroad programs.

Administration

Cynthia Sagers, Vice President for Research
Roy Haggerty, Associate Vice President for Research, 541-737-8390, roy.haggerty@oregonstate.edu
Mark Peters, Interim Director, Office of Research Integrity, 541-737-0647, mark.peters@oregonstate.edu
Patricia Hawk, Assistant Vice President, Office for Sponsored Research and Award Administration, 541-737-4933, patricia.hawk@oregonstate.edu
Brian Wall, Assistant Vice President for Research, Commercialization and Industry Partnerships, Office for Commercialization and Corporate Development and Oregon State University Advantage, 541-737-9058, brian.wall@oregonstate.edu
Susan Emerson, Research Development Associate, 541-737-1755, susan.emerson@oregonstate.edu

The Research Office

Oregon’s State University is one of only two land, sea, space and sun grant institutions in the U.S., holds top tier research designation from the Carnegie Foundation, and is the state’s largest public research university. Oregon State research exceeded $308 million dollars in fiscal year 2015, with private sector funding totaling approximately $40 million.

The OSU Research Agenda, integrated with the university’s strategic plan, guides faculty inquiry in OSU’s three signature areas of distinction: Advancing the Science of Sustainable Earth Ecosystems; Improving Human Health and Wellness; and Promoting Economic Growth and Social Progress.

Headed by the vice president for research, the Research Office serves faculty involved in research, innovation, scholarship, and creativity in all OSU colleges and in a variety of multidisciplinary centers, institutes and programs. The office provides support to secure funding, comply with regulations, partner with industry, establish collaborations across the university and raise the profile of OSU.

Programs, Offices and Centers

Incentive Programs (http://research.oregonstate.edu/incentive/): The General Research Fund is for projects not otherwise supported by organized or directed programs. Faculty Release Time provides funding for developing external grant proposals or furthering scholarly activities. Research Equipment Reserve Funds help acquire, repair, renovate, or improve equipment. The Undergraduate Research, Innovation, Scholarship and Creativity Fund enables students to initiate scholarly relationships with faculty early in their academic careers.

Advantage (http://advantage.oregonstate.edu/home/): OSU Advantage connects business with faculty expertise, student talent and world-class facilities to research solutions, bring ideas to market and launch companies. OSU Advantage helps faculty take their research and projects into the marketplace where they can have real-world impacts, and provides opportunities to new sources of funding to carry on important and impactful work. Three aligned organizations offer this opportunity: Advantage Accelerator, Advantage Partnerships, and Advantage Impact.

Office of Research Integrity (http://research.oregonstate.edu/ori/): The ORI works with OSU faculty, staff, and students to help assure proper conduct of research in areas pertaining to the use of human subjects, and non-human vertebrate animals. The office also works with faculty and Academic Affairs to identify and appropriately manage issues that could be perceived to present financial conflicts of interest. The university’s Small Boat and Diving Safety programs are overseen by the office, as are issues related to technology export controls. The ORI’s purpose is to facilitate the research efforts of OSU faculty, staff and students by helping them to remain compliant with the many federal and state research regulations that assure the integrity of research, the safety of all, and the ethical treatment of human and animal subjects.

Office of Sponsored Research and Award Administration (http://research.oregonstate.edu/osraa/) (OSRAA) (http://research.oregonstate.edu/osraa/): OSRAA has central responsibility for proposal submission for sponsored research, scholarship, instructional and other activities at Oregon State and contractual compliance as it relates to sponsored activities. OSRAA balances service to OSU faculty and staff, university administration, and the numerous organizations that sponsor Oregon State University activities. Functions include proposal review, monitoring institutional compliance with terms and conditions, official institutional signatory, policy and procedure development, training, compliance activities related to research administration, and general funding opportunity assistance.

Office for Commercialization and Corporate Development (OCCD) (http://advantage.oregonstate.edu/advance-impact/): The OCCD leads OSU’s industry-sponsored research efforts and the commercialization of OSU innovations by evaluating markets, developing an intellectual property protection strategy and executing research, confidentiality, materials transfer, licensing and other industry agreements. The OCCD is the bridge to commercial entities—from Oregon-based startups to large international companies, the OCCD facilitates OSU research to impact the world.

Office for Research Development (ORD) (http://research.oregonstate.edu/ord/): The ORD provides leadership in strategic planning, implementation, coordination, and review of large research proposals across campus, and manages the University Limited Submission process. The primary responsibilities of the ORD are to identify and develop new external funding sources, increase funding support for the university, facilitate the development of research partnerships, research future grant opportunities, and provide education for faculty and administrators to encourage applications for grant funding.

Multidisciplinary Centers and Institutes (https://research.oregonstate.edu/research-centers-and-institutes-osu-0/): Addressing many of the world’s most pressing challenges requires collaborative efforts of scientists, engineers, social scientists, and humanists to attain long-lasting, high impact results. OSU fosters these dynamic transdisciplinary collaborations through a variety of centers, institutes and programs. With particular strengths in material sciences, ocean and earth sciences, enterprise innovation and economic development, health sciences, and natural resources, OSU investigators, representing virtually every college on campus, team to conduct cutting-edge research, provide undergraduate and graduate education, and
proactively engage communities throughout Oregon and the world in helping them address their greatest needs.

**Center for Genome Research and Biocomputing**

Brett Tyler, Director  
Website: http://cgrb.oregonstate.edu/

Facilitates the development, application and training in computationally intensive, genome-enabled research at OSU and across the state. Research in the CGRB and faculty affiliate laboratories seeks to improve health, better utilize natural and agricultural resources, understand our global environment, and develop new bio-based products and energy sources. The center offers leadership and services to faculty, staff and students through core laboratories, computational facilities, seminars and technology workshops, and conferences. It also provides a focal point for researchers to establish contacts, initiate collaborations, and apply new technologies in their own laboratories.

**Center for Latino/a Studies and Engagement**

Ana Gómez-Diazgranados, Associate Director of Outreach and Engagement  
Email: Ana.Gomez@oregonstate.edu (Daniel.Lopez-Cevallos@oregonstate.edu)

Daniel López-Cevallos, Associate Director of Research  
Email: Daniel.Lopez-Cevallos@oregonstate.edu

Website: http://liberalarts.oregonstate.edu/centers-and-initiatives/center-latino-studies-and-engagement/  
http://liberalarts.oregonstate.edu/centers-and-initiatives/center-latino-studies-and-engagement/

The mission of the Center for Latino/a Studies and Engagement is to promote engaged research and outreach devoted to advancing knowledge and understanding of Latinx life chances and the issues shaping their lived experiences in our state, region and beyond. The overarching goal of the center are to promote excellence in engaged research, teaching, and outreach in Latinx Studies; to establish an action-based agenda which will promote the economic, political, physical, and educational well-being and development of the Latinx community in rural and urban Oregon; to serve as a model for enhancing the university’s capabilities in similarly targeted research and engagement efforts; and to foster engaged research that is collaborative, trans-disciplinary, and community oriented; furthering both theoretical and applied knowledge to solve real-world problems.

**Center for Research on Lifelong STEM Learning**

Martin Storksdieck, Director  
Email: Storksdieck@oregonstate.edu  
Website: http://stem.oregonstate.edu/

Works to improve understanding of how all people learn STEM throughout the lifespan and across formal and informal settings. The center works across campus to enhance OSU’s capacity to conduct applied research on learning and education in STEM disciplines (Science, Technology, Engineering and Mathematics), and to provide OSU with the insights from past and current research on STEM learning. It serves a diverse and decentralized community of those who engage in STEM, or use learning research at OSU, by functioning as a central hub and institutional support structure. The center represents OSU STEM learning research at state, national and international levels.

**The Center for the Humanities**

Christopher McKnight Nichols, Director  
Joy Jensen, Coordinator  
Website: http://oregonstate.edu/dept/humanities/

Primarily concerned with the advancement of interdisciplinary humanities research and provides fellowships to visiting scholars and OSU faculty members engaged in research and writing projects in literature, history, philosophy, foreign languages, and related humanities fields. Fellowship applications are screened by an advisory board made up of former fellows and OSU faculty from the College of Liberal Arts. The Humanities Center also hosts or co-sponsors research conferences, seminars, films, lectures, and other public programs in the humanities. The Humanities Center’s fundamental concern is the advancement of humanities research, teaching, and public presence at OSU.

**Cooperative Institute for Marine Resources Studies**

Michael A. Banks, Director  
Website: http://hmsc.oregonstate.edu/cimrs/

Established in 1982 to foster collaborative research between the National Oceanic and Atmospheric Administration (NOAA) and Oregon State University in fisheries, aquaculture, oceanography, and related fields. It also encourages education and training of scientists in disciplines related to marine resources. Administered through the Vice President for Research, the institute is the academic home for a staff of 25 to 45 (total) research assistants, associate and full professors, research associates, and faculty research assistants and students. Headquartered at the Hatfield Marine Science Center in Newport, the institute hosts collaborative research with various NOAA investigators within DAR, NOS and NMFS, specifically, the Pacific Marine Environmental Laboratory, the Northwest Fisheries Science Center and the Alaska Fisheries Science Center, the West Coast Regional Office, as well as researchers from a broad range of colleges and departments within the entire OUS system.

**Environmental Health Sciences Center**

Joseph Beckman, Director  
Website: http://ehsc.oregonstate.edu/

Established in 1967 with funding by the National Institute of Environmental Health Sciences (NIEMS). As an organizational unit under the vice president for research, it provides resources for coordination and stimulation of interdisciplinary basic research and training related to the effects of environmental factors on human health. The EHS Center currently brings together and uses a variety of professional capabilities of research and teaching faculty, staff, and students from numerous OSU departments, schools, and colleges within OSU. Academic areas include chemistry, biochemistry and biophysics, environmental and molecular toxicology, microbiology, molecular and cell biology, food science and technology, fisheries and wildlife, veterinary medicine, pharmacology, zoology, and statistics. The center’s visiting scientists program complements research expertise in these areas.
Hatfield Marine Science Center

Robert Cowen, Director
2030 SE Marine Science Drive, Newport, OR 97365
Phone: 541-867-0212 (Director’s Office)
Email: HMSCmainoffice@oregonstate.edu
Website: http://hmsc.oregonstate.edu/

HMSC has over 50 years of accomplishment in research, education, and outreach. Originally established as a marine laboratory for Oregon State University, it has grown to encompass a large group of partners on its 49-acre site on Yaquina Bay in Newport, Oregon. Within OSU, HMSC includes researchers, students, and faculty from six colleges. It serves as home to several university programs, including the Coastal Oregon Marine Experiment Station, the Cooperative Institute for Marine Resources Studies, and the Marine Mammal Institute. It also includes important components of the Oregon Sea Grant program and the Northwest National Marine Renewable Energy Center. Our onsite partners include six state and federal agencies involved in research and management of the marine environment, and our cooperation includes faculty appointments for agency staff, as well as opportunities for students to work with agency scientists.

Institute for Natural Resources

Lisa Gaines, Interim Director
Phone: 541-737-9918 (Main Office)
Website: http://inr.oregonstate.edu/

Created by the Oregon Legislature with the Oregon Sustainability Act of 2001, the INR is a cooperative enterprise bringing the scientific knowledge and expertise of the Oregon University System and other Oregon higher education institutions to bear on natural resource management. Designated as the lead university to administer INR, Oregon State University (OSU) established INR as a research institute within OSU to help decision-makers identify and use relevant science in making policy choices. At INR’s foundation is the land grant mission — building bridges between theory and practice and effectively communicating knowledge to decision-makers.

Institute for Water and Watersheds

Todd Jarvis, Director
Kathryn Motter, Laboratory Manager
Phone: 541-737-9918
Email: iww@oregonstate.edu
Website: http://water.oregonstate.edu/

Since water is ‘virtually’ embedded in all Oregon products, whether natural or manufactured, the state’s economic vitality is tied directly to water. Water quantity and quality issues in the Willamette and Klamath Basins are two of the state’s top environmental priorities. The Institute for Water and Watersheds (IWW), Oregon’s federally-designated water resources research institute, has over 125 affiliated faculty and pursues solutions to Oregon’s water problems by assembling research teams from a broad spectrum of disciplines. The institute utilizes educational and outreach models to communicate the latest water science and policy options to stakeholders so that they can make informed intelligent decisions. The IWW’s Water Collaboratory, an open analytical chemistry laboratory, provides faculty, staff, and students with a variety of analytical capabilities.

Laboratory Animal Resources Center

Helen E. Diggs, MEd, DVM, DACLAM
Director and Campus Attending Veterinarian
101 Laboratory Animal Resources Center
Corvallis, Oregon 97331
541-737-6213
Email: larc@oregonstate.edu
Website: http://oregonstate.edu/dept/larc/

Supports and manages the care and veterinary oversight of vertebrate animals used in instruction, research, production, and testing on the Oregon State University campus and property throughout the state. As the leading public research university in Oregon, the campus community is held to the highest standards of responsible animal care. The LARC staff is composed of veterinarians, animal technicians, and veterinary technicians all with specialty training and certifications specific to laboratory animal medicine. LARC employees are committed to providing an exemplary animal oversight program. This includes assured humane care and use of animals through quality veterinary oversight, husbandry, social housing and environmental enrichment. The LARC staff facilitates campus research and instructional collaborations, through consultation, training, and provision of professional technical and clinical services, and by maintaining compliance with applicable federal and state regulations. The LARC upholds the university’s academic mission and commitment to public service.

Linus Pauling Institute

Balz Frei, Director
307 Linus Pauling Science Center
541-737-5075
Email: lpi@oregonstate.edu
Website: http://lpi.oregonstate.edu/

The Linus Pauling Institute was co-founded in 1973 by Linus Pauling, the only individual to win two unshared Nobel Prizes (Chemistry, 1954; Peace, 1962). The institute moved to the campus of Oregon State University (Dr. Pauling’s undergraduate alma mater) in 1996 and now operates as one of the university’s research centers and institutes. Researchers at the Linus Pauling Institute investigate the role that vitamins and essential minerals (micronutrients) and chemicals from plants (phytochemicals) play in human aging, immune function, and chronic diseases, especially heart disease, cancer, and neurodegenerative diseases. A major emphasis is to understand the role of oxidative stress and inflammation in disease etiology, and the preventive effects of dietary constituents with antioxidant or anti-inflammatory properties.

Northwest National Marine Renewable Energy Center

Belinda Batten, Director
Phone: 541-737-9492
Email: belinda.batten@oregonstate.edu
Website: http://nnmrec.oregonstate.edu/

The NNMREC is a U.S. Department of Energy-sponsored partnership between Oregon State University (OSU), the University of Washington
and monitoring. Facilities for radiation work include teaching and detectors; and a variety of instruments for radiation measurements.

2,500 megawatts in the pulsing mode); a cobalt-60 gamma irradiator; a natural dimensions of coastal and marine fisheries, and cultural beliefs, elementary through university levels.

2,500 megawatts in the pulsing mode); a cobalt-60 gamma irradiator; a natural dimensions of coastal and marine fisheries, and cultural beliefs, elementary through university levels.

The Radiation Center is a campus-wide instructional and research facility specially designed to accommodate programs involving the use of radiation and radioactive materials. Located in the center are major items of specialized equipment and unique teaching and research laboratories with up-to-date instrumentation and related equipment for performing neutron activation analysis and radiotracer studies; laboratories for plant experiments involving radioactivity; an instrument calibration facility for radiation protection instrumentation; and facilities for packaging radioactive materials for shipment to national and international destinations.

Superfund Research Center
Robert Tanguay, Director
Email: robert.tanguay@oregonstate.edu
541-737-6514
Website: http://superfund.oregonstate.edu/

The Superfund Research Center oversees the NIEHS-funded Superfund Research Program grant at Oregon State University. This grant supports a multidisciplinary research effort to address the re-emerging health threat of polycyclic aromatic hydrocarbons (PAHs) in the environment. PAHs are considered a re-emerging threat to environmental health due to the increased burning of fossil fuels (e.g., coal and petroleum products) for energy production. The SRP grant supports five research projects and six support cores at Oregon State University and Pacific Northwest National Laboratory in Richland, WA, in a range of efforts involving human exposure to PAHs. In addition, research partners are located at San Diego State University, the Confederated Tribes of the Umatilla Indian Reservation and Pennsylvania State University. These research projects focus on determining the effect of PAHs on a variety of adverse human health outcomes employing animal models such as zebrafish to detect developmental toxicities.

Oregon Nanoscience and Microtechnologies Institute
Skip Rung, President and Executive Director
Phone: 541-713-1331
Email: skip@onami.us
Website: http://onami.us/

ONAMI is Oregon’s first ‘signature research center’ for the purpose of sustaining and growing Oregon’s innovation economy. As is true of only three other states, technology is Oregon’s largest employer, with an average wage twice the statewide average. Growth of these kinds of job opportunities is the single most effective thing we can do for state financial health, schools, public safety and human services.

Our strategy has been 10 years in the making, and the selection of ‘nanoscience and microtechnologies’ was based on a careful analysis intended to discover the largest possible intersection among:

- nationally competitive research in our universities,
- future commercial opportunities/growing sectors of the national economy,
- the existing skills of Oregon industry and its surrounding value chain ecosystem.

ONAMI is now a nationally recognized model for state innovation initiatives, and is frequently featured at events and in publications by the National Science Foundation, National Governors Association, and other organizations concerned with keeping the United States competitive in the global innovation economy.
The state of Oregon so far has invested $47 million in ONAMI, including $5.2 million from the Oregon Innovation Council (OECDD) for fiscal year 2012–2013. These funds are invested in OSU research and commercialization capacity in the form of matching funds for competitive extramural proposals, facility operations, and ‘gap’ grants to assist in the formation of successful new products and startup companies.

Oregon BEST funds and supports innovative cleantech startups across Oregon. As an economic development catalyst, Oregon BEST connects startups with state and federal resources while preparing them for follow-on investment through a series of focused programs.

We invest strategically in public-private partnerships that rapidly transform university research into new clean technologies, companies, and jobs. The research, projects, and startups we support serve as a proving ground for leading-edge clean technologies while powering a vibrant innovation ecosystem.

Oregon BEST’s work not only adds value and enhances competitiveness for Oregon businesses, it also grows the state’s research revenue, expands research programs, enhances workforce development, and positions Oregon to recruit new cleantech companies.

Since its establishment as an independent, nonprofit organization by the Oregon Legislature in 2007, Oregon BEST’s 270+ Member Researchers (http://oregonbest.org/portfolio/) have attracted more than $135 million in research revenue to Oregon from federal, industry, and foundation sources. Building on Oregon’s international reputation as a sustainability innovator, Oregon BEST offers a range of programs, expertise, and research facilities described below.

Oregon BEST supports a network of nine shared-user research facilities (http://oregonbest.org/what-we-offer/expertise/labs/) at Oregon State University, Portland State University, and the University of Oregon. These multi-million dollar labs offer our industry partners access to research tools, faculty expertise, and workforce development opportunities. The labs help Oregon businesses compete while helping universities grow research and educate graduates. By providing both financial and leadership support, Oregon BEST works to ensure that our community has access to advanced research facilities.

Agricultural Experiment Station

Daniel J. Arp, Director
William G. Boggess, Executive Associate Director
W. Daniel Edge, Associate Director
Joyce Loper, Associate Director
John R. Talbott, Assistant Director
Jack Breen, Agricultural Sciences and Marine Sciences Business Center Manager
Email: AESsupport@oregonstate.edu
Website: http://agsci.oregonstate.edu/research/research (http://agsci.oregonstate.edu/research/research/)

A statewide research network of Oregon State University scientists working on the Corvallis campus and at 11 branch stations in the major crop, climate, and marketing areas of Oregon. These diverse locations ensure that the station’s research program is close to the people and the needs of Oregon’s agricultural and natural resources. Founded July 1, 1888, in accordance with the federal Hatch Act of 1887, the mission of the Oregon Agricultural Experiment Station is to conduct research and demonstrations in the agricultural, biological, social, and environmental sciences that contribute to the economic, environmental, and social welfare of Oregon.

College of Engineering Research and Economic Development Office

Irem Y. Tumer, Associate Dean for Research and Economic Development
Website: http://red.engr.oregonstate.edu/

RED at the College of Engineering was established to promote and support research programs and faculty. The overall mission of the RED office is to build new bridges between faculty, external stakeholders and collaborators, help faculty find and apply for funding opportunities, boost the college’s reputation for research, and grow industry funding. We specifically aim to foster high-impact research initiatives among our faculty, and develop strong relationships with our academic, industry, and government partners. This includes not only connecting faculty teams with funding opportunities and matching industry needs with Oregon State expertise, but also assembling teams that can build new programs in emerging areas that are responsive to global challenges.

Aquaculture Collaborative Research Unit

Hillary S. Egna, Director
Websites: http://aquafishcrsp.oregonstate.edu/ and http://pdacrsp.oregonstate.edu/

The Aquaculture Unit, a center within the College of Agricultural Sciences since 1999, has served as the home for international aquaculture programs such as the Feed the Future Innovation Lab
for Collaborative Research on Aquaculture & Fisheries (formerly AquaFish CRSP), the Aquaculture Best Management Practices for Strategic Investment in Rapid Technology Dissemination project, the Aquatic Resource Use and Conservation for Sustainable Freshwater Aquaculture and Fisheries Project (USAID Mali/Bamako Mission), a USAID Cairo Mission Aquaculture Project, the Aquaculture CRSP, the Pond Dynamics/Aquaculture (PD/A) CRSP and other projects. These diverse international aquaculture programs have been knitted together under independent grants, and have shared a common goal to reduce poverty in developing countries by improving access by the poor to fish and water resources. The Unit has worked with nearly 600 U.S. and host country universities, government, private companies, and non-governmental organizations to support research, development, and outreach activities in 34 countries including Bangladesh, Belize, Brazil, Bolivia, Burma, Cambodia, China, Colombia, Costa Rica, Ecuador, Egypt, El Salvador, Ghana, Guatemala, Guyana, Honduras, Indonesia, Kenya, Laos, PDR, Malawi, Mali, Mexico, Nepal, Nicaragua, Panama, Peru, Philippines, Rwanda, South Africa, Tanzania, Thailand, Uganda, U.S.A., and Vietnam. 

**Forest Research Laboratory - Institute for Working Forest Landscapes**

**Thomas Maness**, Director  
**Anthony S. Davis**, Associate Director  
**Roger D. Admiral**, Associate Director  
Website: [http://www.forestry.oregonstate.edu/research/forest-research-laboratory](http://www.forestry.oregonstate.edu/research/forest-research-laboratory/)

Research in the College of Forestry (CoF) is conducted under the broad umbrella of the Forest Research Laboratory (FRL), which was established by the Oregon Legislature in 1941. The FRL is partially funded by the Legislature as one of three Statewide Public Service Units (see Oregon Revised Statute 526.225). Faculty, staff, and students from the College of Forestry’s Departments of Forest Engineering, Resources, and Management; Forest Ecosystems and Society; and Wood Science and Engineering contribute to a diverse portfolio of fundamental and applied research and outreach activities. In November 2013, the college launched the Institute for Working Forest Landscapes (IWFL) to focus FRL research programs on innovative approaches for managing landscapes that will enhance people’s lives and improve the health of communities, businesses and vital ecosystems. The IWFL’s program is organized under four broad thematic areas: Healthy People and Communities, Resilient Ecosystems, Intensively Managed Forests, and Competitive and Innovative Products.

**Integrated Plant Protection Center**

**Paul Jepson**, Director  
Website: [http://www.ipmnet.org/](http://www.ipmnet.org/)

IPPC was established in 1991, to expand upon the range of activities of the International Plant Protection Center, that was chartered by Oregon State University in 1969. The IPPC is partially supported by the Agricultural Experiment Station, and the Cooperative Extension Service. The IPPC focuses upon research, education and outreach activities associated with the adoption of sustainable integrated pest management (IPM) practices in agriculture. It is the home for a number United States Department of Agriculture (USDA)-funded programs associated with pest control and pesticide management, including the state IPM program, the Regional Pest Management Center program, the Pesticide and Environmental Stewardship program, and the Farm Safety program.

**Inter-University Consortium for Political and Social Research**

**Valery King**, Official Representative (OSU Libraries)  
Website: [http://www.icpsr.umich.edu/icpsrweb/](http://www.icpsr.umich.edu/icpsrweb/)

Through funding provided by OSU Libraries, OSU is a member of ICPSR, the Inter-University Consortium for Political and Social Research. A unit within the Institute for Social Research at the University of Michigan, ICPSR was established in 1962 and maintains and provides access to a vast archive of social science data for research and instruction. OSU students, faculty and staff may access these data at no charge and may also deposit their own data into the collection. ICPSR offers members reduced fees to attend the Summer Training Program in Quantitative Methods of Social Research, a comprehensive curriculum of intensive courses in research design, statistics, data analysis, and social methodology. Additionally ICPSR leads several initiatives that encourage use of data in teaching, particularly for undergraduate instruction, and offers user support to assist researchers in identifying relevant data for analysis and in conducting their research projects.

**Kiewit Center for Infrastructure and Transportation**

**Jason Weiss**, Director  
Email: kiewit.center@oregonstate.edu  
Website: [http://cce.oregonstate.edu/research/](http://cce.oregonstate.edu/research/)

The center was initially established in 1962 as the Transportation Research Institute. The Kiewit Center serves as the umbrella organization for all research within the School of Civil and Construction Engineering. The center is a key component in the College of Engineering’s drive to become a top 25 engineering program, coordinating multi- and interdisciplinary research projects. For the last 150 years, civil engineers have built the infrastructure upon which American prosperity rests. Roads, bridges, airfields, dams, schools, and safe drinking water form the foundation for our quality of life. Today that foundation is crumbling. Americans experience this deterioration every day. A recent report by the American Society of Civil Engineers confirms what most Americans already know—the ASCE report gave the U.S. infrastructure an overall grade of D+. The center is an interdisciplinary unit that provides research, education and public service related to the built environment and the systems that operate in that environment.

**Marine Mammal Institute**

**Bruce Mate**, Director  
Website: [http://mni.oregonstate.edu/](http://mni.oregonstate.edu/)

A multi-disciplinary faculty incorporating the work of academics from engineering, genetics, fisheries and wildlife (agriculture), aquatics, ecology, veterinary medicine, biology, and communications.

- Whale Telemetry Group (WTG): Using satellite-monitored radio tags to determine the distribution and critical habitats of endangered whales.
• Cetacean Conservation and Genomics Laboratory (CCGL): Exploring the genomes of whales and dolphins to understand the past, assess the present, and conserve the future.
• Geospatial Ecology of Marine Megafauna (GEMM) Laboratory: Spatial and behavioral studies of marine megafauna to generate an improved understanding of species ecology and distribution patterns.
• Bio-Telemetry and Behavioral Ecology Laboratory: Using telemetry and bio-logging tools to study the behavioral ecology of marine mammals.
• Oregon Marine Mammal Stranding Network (OMMSN): Documenting occurrences and investigating the causes of marine mammal strandings in Oregon.

Microproducts Breakthrough Institute

Goran Jovanovic, OSU Co-Director
Phone: 541-713-1348 (MBI Office)
Email: goran.jovanovic@oregonstate.edu
Website: http://mbi-online.org/

The MBI is a 45,000 square foot facility located on the Hewlett-Packard Corvallis campus containing offices, laboratories, fabrication facilities and laydown space for the research, development and commercialization of arrayed microfluidic systems and related nanomanufacturing technology. This facility is focused on accelerating the discovery, development and commercial deployment of new nano- and micro-scale phenomena and their technology embodiments. The MBI is collaboration between the Pacific Northwest National Laboratory (PNNL) and OSU. PNNL and OSU are leaders in the science, engineering, and technology development of nano- and micro-scale processes and systems. Collaboratively they conduct research and development projects ranging from fundamental science and technology investigations to assistance to local governments to assist them in developing climate change policies, practices, and programs.

O.H. Hinsdale Wave Research Laboratory

Pedro Lomonaco, Director
Phone: 541-737-2875
Email: pedro.lomonaco@oregonstate.edu
Website: http://wave.oregonstate.edu/

Provides outstanding research and testing at the largest nearshore experimental facility at an academic institution in the US. The 6,100 ft² (570 m²) building is situated on the main campus and houses the Large Wave Flume (LWF), Directional Wave Basin (DWB), and 3,000 ft² (300 m²) of office space for staff, graduate students, visiting researchers, and clients. The laboratory conducts research on coastal and nearshore processes involving wave-structure interaction, nearshore hydrodynamics and sediment transport, marine renewable energy, tsunami and coastal hazards and fixed and floating structures. Through our work we deliver research, testing, and education and outreach opportunities to improve the resilience and sustainability of coastal areas, and to develop innovative solutions to the design of coastal infrastructure.

Oregon Climate Change Research Institute

Philip W. Mote, Director
Kathie Dello, Associate Director
Website: http://occri.weebly.com/

The Oregon State Legislature established the Oregon Climate Change Research Institute (OCCRI) within the Department of Higher Education in 2007. OCCRI is a network of over 150 researchers at Oregon State University (OSU), the University of Oregon, Portland State University, Southern Oregon University, and affiliated federal and state labs. OCCRI is tasked with: facilitating research by faculty at Oregon’s public universities on climate change and its effects on natural and human systems in Oregon; serving as a clearinghouse for climate change information; providing climate change information to the public in integrated and accessible formats; supporting the Oregon Global Warming Commission in developing strategies to prepare for and to mitigate the effects of climate change on natural and human systems, and providing technical assistance to local governments to assist them in developing climate change policies, practices, and programs.

Oregon Wood Innovation Center

Scott Leavengood, Director
Phone: 541-737-4212
Chris Knowles, Assistant Director
Phone: 541-737-1438
Email: owic@oregonstate.edu
Website: http://owic.oregonstate.edu/

OWIC is a joint initiative of Oregon State University’s College of Forestry and Extension Service. OWIC’s mission is to improve the competitiveness of Oregon’s wood products industry by fostering innovation in products, processes, and business systems. A key function of the center is to serve as the primary link between university research and needs and opportunities in the forest industry. The forest products industry has undergone dramatic changes in recent years. The industry responded to reductions in raw material supply and the forces of globalization by consolidating, retooling production systems, and by focusing on improving efficiencies in manufacturing processes. However, it is clear that focusing solely on process innovation will be insufficient to maintain future competitive advantage. Firms must also focus on product and business systems innovation. OWIC helps foster such innovation by serving as a ‘clearinghouse’ to connect manufacturers to the research community, to other organizations that provide assistance to businesses, and to facilitate networking within the industry.

Sun Grant Western Regional Center

John R. Talbott, Director
Phone: 541-737-2194
Emails: john.talbott@oregonstate.edu or sungrant@oregonstate.edu
Website: http://sungrant.oregonstate.edu/

A network of five land grant universities serve as regional Sun Grant Centers. These universities include Oregon State University (Western Region), South Dakota State University (North-Central), Oklahoma State University (South-Central), the University of Tennessee-Knoxville (Southeastern), and Pennsylvania State University (Northeastern). The centers facilitate federally funded research, extension, and education programs in their respective regions.
The mission of the Sun Grant Initiative is to:

1. Enhance national energy security through development, distribution and implementation of biobased energy technologies;
2. Promote diversification in and the environmental sustainability of, agricultural production in the United States through biobased energy and products technologies;
3. Promote economic diversification in rural areas of the United States through biobased energy and product technologies; and
4. Enhance the efficiency of bioenergy and biomass research and development programs through improved coordination and collaboration among the Department of Agriculture, the Department of Energy, and the land grant colleges and universities.
OSU Summer Session annually serves more than 9,000 students on the Corvallis campus, as well as at the OSU Hatfield Marine Science Center on the Oregon coast. Attending summer session is an ideal way to expedite the path to graduation. It enables students to stay on track or get ahead on required coursework, and provides opportunities to perform research with faculty and seek professional development or enrichment courses.

During the summer term, Oregon State offers more than 1,200 on-site and 600 online courses in over 100 subjects, from agriculture to zoology. Courses range in length from one week to 11 weeks, with most courses running in three, four, or eight week sessions. Sequential courses (e.g., general chemistry, biology or Spanish) enable students to complete a full year’s worth of a subject in one term.

OSU Summer Session courses are held to the same rigorous academic standards as courses offered during the rest of the school year. Among the benefits of enrolling in the summer term are the smaller class sizes and increased accessibility to instructors.

The full-time summer course load for undergraduates is 12 credits; for graduate students it is 9 credits. However, with advisor approval, undergraduates may take up to 19 credits, and graduate students up to 16 credits.

Nonresident students enjoy considerable tuition savings during summer term because all students pay in-state tuition (not eligible for OSU Ecampus, VetMed or PharmD classes or INTO students).

Summer classes are open to all students who meet course requirements. Students who have been academically suspended from the university are ineligible to enroll in Summer Session. For application details, contact the OSU Office of Admissions at 800-291-4192.

For the most current Summer Session information, visit the Summer Session website (https://summer.oregonstate.edu/). The website provides important information regarding summer admission, registration procedures and deadlines, the summer calendar, tuition and fees, financial aid and housing options.

Beginning in January, updated descriptions and schedule information for OSU Summer Session courses are available online (https://classes.oregonstate.edu/).
TUITION, FEES, AND PAYMENT

Tuition, Fees, and Student Accounts

Tuition Charges
Tuition rates vary depending on factors such as academic program, residency, campus, and student or course level. For a full listing of tuition and fees, please visit the OSU Business Affairs website (http://fa.oregonstate.edu/business-affairs/tuition-and-fee-information/) or the OSU Budget Office website (http://fa.oregonstate.edu/budget/).

Mandatory Enrollment Fees
Building, Incidental, Student Health: amounts updated annually
Students pay mandatory enrollment fees each term which include the Building Fee, Incidental Fee, and Student Counseling and Health Services Fees. These fees support services that benefit all students, and are required of all enrolled students. For more detail, see Student Fee Information (https://fa.oregonstate.edu/business-affairs/student-fee-information/).

Advance Tuition Deposit: $200.00
Once you have been admitted to OSU as a degree-seeking student, to confirm intent to enroll, students are requested to submit an advance tuition deposit (ATD) of $200.00. For more information, see the Admissions website. (https://admissions.oregonstate.edu/instructions-paying-your-atd/)

Matriculation Fee: $350.00
All new students (undergraduate and graduate) are charged a one-time fee of $350.00 at the start of their first term at OSU to support access to a variety of OSU programs and services, including but not limited to: new student orientation; pre-enrollment advising; and campus open houses.

Course Fees: varies by course
Certain courses have additional fees which may include lab fees, field trip fees, and material fees. Refer to the Schedule of Classes (https://catalog.oregonstate.edu/course-search/) for individual course related fees.

Student ID Card Fee: $25.00
Charged to all new and readmitted students their first term after admission or readmission. Ecampus students are not charged this fee unless they request an ID card (email request to ID.Center@oregonstate.edu) or attend an on-campus class.

Other Fees
Every student at OSU has a student account. Charges that students incur beyond tuition and fees are posted to the student account and are part of the student's financial responsibility. This includes, but not limited to: housing, dining, library, parking, recreation center, fines and the like. For more information, visit OSU External Fees (https://fees.oregonstate.edu/Public/BrowseExternal.aspx).

Special Tuition Rate Categories
Graduate Assistants
OSU has a tuition remission policy for students who meet specific criteria and are eligible to hold a graduate assistant appointment. For more information, see the Graduate School website (https://gradschool.oregonstate.edu/finance/tuition-remission/graduate-tuition-remission-policy/).

Non-degree Students
Non-degree students (those that are not enrolled as a degree seeking student) pay undergraduate or graduate tuition based on the level of the course. If enrolled in 8 or fewer credits, the resident tuition rates apply. If taking 9 or more credits, resident or nonresident tuition rates apply, based on the student's residency status.

Non-degree students are charged the mandatory Building and Incidental Fees. To be eligible to use Student Health Services, Non-degree students must pay the Student Health fees.

Senior citizens Auditing a Course
Senior citizens in Oregon may audit courses without paying tuition or fees. The person must receive permission from the instructor before enrolling in the course, and fill out the university’s non-degree admissions application, as well as pay a non-refundable non-degree enrollment application fee. Qualifying students must be 65 years of age or older and register for 8 or fewer credits each term. Enrollment is dependent upon space availability.

All other students (under 65 years of age) auditing courses are charged tuition and fees at the same rate as courses taken for credit.

Employees and dependents
OSU offers an employee benefit to eligible employees appointed to at least .50 FTE (not including temporary or student employees) to register for courses and receive reduced tuition rates for a maximum of 12 credit hours. Eligible employees may transfer this benefit to a qualified family member each term. For more information see the Human Resources website (https://hr.oregonstate.edu/benefits/current-employees/tuition-reduction-staff-fee-privileges/).

Student Financial Obligation
Upon registering for or receiving services from the University, the student agrees to accept full responsibility to pay tuition, fees and other associated costs assessed as a result of the student’s registration or receipt of services. The student understands and agrees that registration constitutes an obligation to pay for all assessed tuition, fees and other associated costs by the published or assigned due date. Even if the student is younger than the applicable age of majority, the student agrees the educational services provided by the University are a necessity, and the student is contractually obligated pursuant to the “doctrine of necessaries.”

Any student incurring tuition, fees and any other charges at the University understands and agrees to be fully responsible for the resulting amounts that become due and owing to the University. All charges incurred by the student resulting from attendance at the University (or use of any University services) including tuition, course fees, library charges, room and board fees, health services, and other University charges are added to, and available on, the student’s account.

Financial Aid, awards, scholarships, grants, and sponsorships are all posted to the student account as credits and subsequently applied as payment for charges (in accordance with federal Title IV financial aid regulations as applicable). The student account will remain active as long the Student attends the University, receives University services, or has an account balance.

Billing
The University uses electronic billing as its official billing method. Any charge added to the student account balance is due and payable.
immediately and, therefore, the student is responsible for viewing and paying the student account at the time the charge posts to the student’s account. Students are sent an email to their ONID email account on the 5th day of each month as a reminder to view their account activity online at MyBill (http://mybill.oregonstate.edu). On the 2nd day of every month, any unpaid balance on the student’s account from the previous month incurs simple interest at the rate of 12% percent per year. There is no penalty for early repayment of all or any part of the account, and the student maintains the right to pay the outstanding debt in full at any time. Failure to review the student account does not constitute a valid reason for failing to pay the bill on time. For more information about student billing, see the Business Affairs website (https://fa.oregonstate.edu/business-affairs/student-billing/).

Payment
OSU accepts electronic check (bank debits), paper checks, credit cards, money orders, and cash as payment methods for student accounts. Online payment options can be accessed through MyBill (http://mybill.oregonstate.edu) or MyOSU (http://myosu.oregonstate.edu) (navigate to Paying for College, Financial Services, Pay My Bill). Please note any service or convenience fees associated with the selected payment option. For more information, see the OSU Cashiers website (https://fa.oregonstate.edu/business-affairs/student-billing/).

Delinquent Accounts
Financial Holds: Failure to pay the student account balance or any monies due and owed to the University will result in a financial hold on the student’s account. A financial hold will prevent the student from registering for future terms, requesting transcripts, and will restrict the student from other campus services as determined by the University.

• Registration Hold, continuing students: Enforced if the student account balance is more than $2,200 or if there are unpaid charges, of any amount, owed from any term other than the two most recent terms. If either of these conditions exist, a Registration Hold will be placed on the student account. Please note: Cascades campus students must pay their account in full in order to register.

• Registration Hold, returning students: Enforced unless the student account is paid in full. This applies to students who are no longer registered or have not attended for a term or more (other than Summer).

• Transcript Hold: Enforced if any prior term charges remain unpaid. All prior term charges must be paid in full in order to access an official transcript. Please note: Cascades campus students must pay their entire student account in full, including current term charges, in order to access an official transcript.

Interest: On the 2nd day of every month, any unpaid balance on the student’s account from the previous bill will be assessed a 1% interest charge (simple interest at the rate of 12% percent per year). There is no penalty for early repayment of all or any part of the account, and the student maintains the right to pay the outstanding debt in full at any time.

Debt Resolution: If a student fails to pay the balance owed on their student account after the fourth week of the next term, then the student is in default of their financial obligation. The University will provide the student with notice of default, and may use all remedies in law and in equity to enforce and collect the amount owed on the student’s account. Additional fees or penalties will apply. Failure to pay the student account, or any monies due and owed to the University or failure to make acceptable payment arrangements, may result in the University referring the student’s delinquent account to a collection agency.

OSU will not impose any penalty (e.g., assessment of late fees; denial of access to classes, libraries or other institutional facilities; or the requirement to borrow additional funds) to any student actively using chapter 31 or chapter 33 benefits at OSU because of the student’s inability to meet their financial obligations to OSU due to the delayed disbursement of funding from the VA under chapter 31 or chapter 33.

Drop/Withdraw Refunds
Students who drop or withdraw from a class during the first 30% of the term (or part of term) may be eligible for a partial tuition refund. If the financial aid that was disbursed to the student is revoked due to dropping or withdrawing from classes, the student must repay the revoked financial aid. Refunds are calculated from the date of official drop, withdraw, or cancellation, not the last date of class attendance. For refund deadlines, see below or the Business Affairs website (https://fa.oregonstate.edu/business-affairs/tuition-reduction-schedule/). For complete withdraw from the term, follow instructions found at Withdraw from the Term (https://Registrar.oregonstate.edu/Withdraw-Term/).

Special Fees

Admission Office (not refundable)
• Application Fee, Undergraduate: $65.00
• Application Fee, Graduate, US Citizen/Permanent Resident: $75.00
• Application Fee, Graduate, International: $85.00
• Application Fee, Non-degree, Undergraduate: $30.00
• Application Fee, Non-degree, Graduate: $35.00
• Re-Admission Fee, Undergraduate: $25.00. Required after an absence of one year.
• Re-Admission Fee, Graduate: Domestic Students $75.00; International Students $85.00. Required after an absence of one term.
• Reinstatement Fee: $50.00. Required after student is suspended and wishes to be reinstated.

Office of the Registrar
• Diploma Mailing Fee: $25.00, or $40.00 for out of U.S.
• Duplicate Diploma: $40.00
• Examination for Credit or Waiver $80.00 per exam
• FAX Service: $20.00 per request to fax documents
• Late Course Change: $20.00 per course changed. This applies to any late add, late add to audit, late drop, late withdrawal from a course, late change in grading basis, or late change in course credit done after the stated deadlines, see Office of the Registrar website (https://registrar.oregonstate.edu/osu-academic-calendar/).
• Late Registration Fees, during first two weeks of classes: $50.00
• Late Registration Fees, after the second week of classes and by approval only: $100.00
• PELP Fee (Undergraduate Planned Educational Leave Program): $25.00. The non-refundable application fee allows an undergraduate student to maintain their official standing as a student at OSU and reserves the student’s right to keep their original academic catalog active during their absence.
• Transcripts: $10.00 or no fee depending on delivery method, see Office of the Registrar website (http://registrar.oregonstate.edu/transcripts/). Please note that all obligations to OSU must be cleared before transcript orders can be processed.
• Verification of Enrollment Fee: $15.00 per verification. See Office of the Registrar website (https://registrar.oregonstate.edu/verify-your-enrollment/).

Business Affairs
• Collection Account Processing Fee: $5.00 to $60.00
• Returned Check Fee: $25.00
• Stop Payment Fee: $20.00
• Sponsored Student Administrative Fee: $275.00 per term. An administrative management fee is charged for international students supported under contractual arrangement with sponsoring agencies or entities requiring special administrative or management services beyond those normally provided.

Billing Questions
If there appears to be an error on your monthly statement, use the following guidelines:

Financial Aid questions: Contact the Office of Financial Aid and Scholarships - A218 Kerr Administration Building, 541-737-2241, financial.aid@oregonstate.edu

Graduate Assistants: Please contact your department. For information regarding GRA/GTA, see the Graduate School website (https://gradschool.oregonstate.edu/finance/graduate-assistantships/).

Housing questions: Contact University Housing and Dining Office - Oxford House, 957 SW Jefferson Ave, 541-737-4771, or please see UHDS website (https://uhds.oregonstate.edu/housing/room-dining-rates-common-charges/).

Residency questions: Please see Admissions website (https://admissions.oregonstate.edu/residency/).

Sponsor Payment questions: Contact Business Affairs - B100 Kerr Administration Building, 541-737-3775, ThirdPartyBilling@oregonstate.edu

Other Billing questions: Contact Business Affairs - B100 Kerr Administration Building, 541-737-3775, Accounts.Receivable@oregonstate.edu

Financial Aid
Scholarships, Student Loans, and Grants
Eligible students who have accepted scholarships, student loans and grant awards will have those funds applied automatically to their student billing account. You can monitor your financial aid eligibility and billing account through MyOSU.

If financial aid amounts exceed the amount of qualifying tuition/fees expenses owed, a refund will be generated if the surplus exceeds $1.00. Distribution of the refund can be made by direct deposit or check. Please note that federal financial aid cannot be posted toward the balance of the matriculation fee, accrued interest, printing charges, parking or library fines or student health service charges.

• If you would like direct deposit of your financial aid refund, complete the Direct Deposit form found through Online Services or Student Finance website (http://fa.oregonstate.edu/business-affairs/student-finance/).
• If you would like your refund as a check, your current mailing address must be up to date for all check processing. You can do this through MyOSU (https://myosu.oregonstate.edu/).

For full details, visit the Business Affairs Office Website. Click on Current Student.

Beginning the third week of the term, students eligible for refunds due to financial aid or scholarship disbursements may request a refund at the Cashier’s Office or through email at refund@oregonstate.edu.

Emergency Loans
Emergency loans, not to exceed $350.00 per term, are available to students in good financial standing, attending at least half time, and formally admitted to the university. Loans are to be repaid by the last day of the current term. Loan amounts become part of the revolving account balance and carry interest at 1 percent per month (12 percent APR). The Cashier’s Office reviews the applications and issues payment if approved. Application forms are available at the Cashier’s Office in the Kerr Administration Building. Be sure to have your OSU ID and a second photo ID to present with the application.

Ecampus students can email cashiers.office@oregonstate.edu to request the application. They will be asked to scan the completed form and email it back to the Cashier’s Office with accompanying identification.
Residency Requirements

Payment of Student Fees

Payment of Nonresident Instruction Fee (580-10-080)
1. All students classified as nonresidents shall pay a nonresident fee.
2. Refunds of the nonresident fee may be granted if the student shows that the classification previously assigned was in error. However, no such refund shall be made unless the student applies and submits all supporting information for residency status prior to the last day to register for the term in which the student seeks the change of status.

Enrollment of Spouse and Dependent Children (580-010-086)
The spouse and dependent children of regular department staff members with a full-time equivalent of at least .50 may enroll as students at resident fee rates in department institutions.

In-State Tuition for Veterans
The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

• A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill - Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.

• Anyone using transferred Post-911 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.

• Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.

• Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge, release, or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

Residency Requirements

Residency: OSU Admissions Website
For further details about residency, please visit the OSU Admissions website (http://admissions.oregonstate.edu/residency/) or email Residency@oregonstate.edu.

Appendix I: Residency Standards: A–G

A. Definitions
For the purpose of these Residency Standards the following definitions apply

1. "Domicile" is a person's true, fixed, and permanent home and place of habitation. It is the place where a person intends to remain and to which the person expects to return when the person leaves without intending to establish a new domicile elsewhere. In order to establish a domicile in Oregon, a person must maintain a predominant physical presence in Oregon for 12 consecutive months after moving to the state.

2. A 'financially independent person' is a person who, at the time of application for residency status: (a) declares themselves to be financially independent; (b) has not been claimed as a dependent during the immediately preceding tax year, and will not be claimed as a dependent during the current tax year, on the federal or state income tax returns of any other person; and (c) has not received in the immediately preceding calendar year, and will not receive during the current calendar year, one-half or more of their support, in cash or in kind, from another person or persons, except for support received from their spouse.

3. A 'financially dependent person' is a person who, at the time of application for residency status: (a) declares themselves to be financially dependent; and (b) has been claimed as a dependent on the federal and state income tax returns of another person during the immediately preceding tax year.

4. "University" or 'Universities' are Oregon public universities listed in ORS 352.002.

5. 'Residency Procedure' is the procedure attached as Appendix II to the Interinstitutional Residency Compact, including any subsequent amendments as described in that
5. A financially dependent person who is claimed as a dependent by another person who has not established and maintained an Oregon domicile shall be presumed to be a non-resident. This presumption may be overcome by evidence of the student’s long-standing presence in Oregon and demonstration of other factors under Section C of these Standards.

6. The criteria for determining Oregon resident classification shall also be used to determine whether a person who has moved from Oregon has established a non-Oregon residence.

7. If institution records show that the residence of a student or the person upon whom the student is dependent is outside of Oregon, the student shall continue to be classified as a nonresident until entitlement to resident classification is shown. The burden of showing that the residence classification should be changed is on the student requesting the change.

8. Notwithstanding section B.4 of these Standards, a student who is financially dependent on a non-Oregon resident may nonetheless be considered an Oregon resident if the student resides in Oregon for at least 12 consecutive months with a parent or legal guardian who has both: (a) established and maintained an Oregon domicile for 12 consecutive months; and (b) during that period, has been primarily engaged in activities other than those of being a college student.

1. Oregon law establishes two exemptions from non-resident tuition. ORS 351.641 provides an exemption for students who are not US citizens or lawful permanent residents, but who meet certain other qualifications, including attendance at an Oregon school and receiving a high school diploma or equivalent in Oregon. ORS 352.375 provides an exemption for qualified veterans of the U.S. Armed Forces. Students who qualify for either of these exemptions are not considered Oregon residents under these Residency Standards. However, they are exempt from paying non-resident tuition. Questions about these exemptions and the process for establishing eligibility should be directed to the appropriate official at each university.

C. Residency Consideration Factors

1. The following factors, although not necessarily conclusive or exclusive, have probable value in support of a claim for Oregon resident classification:
   a. Reside in Oregon for 12 consecutive months prior to the beginning of the term for which resident classification is sought and during that period be primarily engaged in activities other than those of a college student;
   b. Reliance upon Oregon resources for financial support;
   c. Domicile in Oregon of persons legally responsible for the student;
   d. Acceptance of an offer of permanent employment in Oregon; and
   e. Ownership by the person of their living quarters in Oregon.

2. The following factors, standing alone, do not constitute sufficient evidence to effect classification as an Oregon resident:
   a. Voting or registration to vote;
   b. Employment in any position normally filled by a student;
   c. The lease of living quarters;
   d. Admission to a licensed practicing profession in Oregon;
   e. Automobile registration;
   f. Public records, for example, birth and marriage records, Oregon driver’s license;
   g. Continuous presence in Oregon during periods when not enrolled in school;
   h. Ownership of property in Oregon or the payment of Oregon income or other Oregon taxes; or
   i. Domicile in Oregon of the student’s spouse.

D. Evidence of Financial Dependency

In determining whether a student is financially dependent, a student must provide:
   a. Evidence of established domicile of the person claiming the student as a dependent; and
   b. The identification of the student as a dependent on the federal and state income tax returns of the person claiming the student as a dependent. Additional documentation to substantiate dependency during the current calendar year may be required at a later time if deemed necessary by the institution.
   c. A student who provides evidence that they are a financially dependent person under these rules shall not be required to establish a 12-month domicile prior to classification of resident status, provided such a student may not be classified as a resident while receiving financial assistance from another state or state agency for educational purposes.

E. Residence Classification of Armed Forces Personnel

1. For purposes of these Standards, members of the armed forces means officers and enlisted personnel of:
   a. The Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
   b. Reserve components of the Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
   c. The National Guard of the United States and the Oregon National Guard.

2. Notwithstanding Section B, active members of the armed forces and their spouses and dependent children shall be considered residents for purposes of an institution’s tuition and mandatory enrollment fees if the members:
   a. Reside in this state while assigned to duty at any base, station, shore establishment, or other facility in this state;
   b. Reside in this state while serving as members of the crew of a ship that has an Oregon port of shore establishment as its home port or permanent station; or
   c. Reside in another state or a foreign country and file Oregon state income taxes no later than 12 months before leaving active duty.

3. An Oregon resident entering the armed forces retains Oregon residence classification until it is voluntarily relinquished.

4. An Oregon resident who has been in the armed forces and assigned on duty outside of Oregon, including a person who establishes residency under section E.2.c of these Standards, must, within a reasonable time, demonstrate intent to retain classification as an Oregon resident. Such intent may be shown by returning to Oregon within six months after completing service in the armed forces.

5. A person who continues to reside in Oregon after separation from the armed forces may count the time spent in the state while in the armed forces to support a claim for classification as an Oregon resident.
6. The dependent child and spouse of a person who is a resident under Section E.2 of these Standards shall be considered an Oregon resident. 'Dependent child' includes any child of a member of the armed forces who:
   a. Is under 18 years of age and not married, otherwise emancipated or self-supporting; or
   b. Is under 23 years of age, unmarried, enrolled in a full-time course of study in an institution of higher learning, and dependent on the member for over one-half of his/her support.

F. Residence Classification of Members of Oregon Tribes
1. Students who are enrolled members of federally recognized tribes of Oregon or who are enrolled members of a Native American tribe which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon shall be assessed resident tuition regardless of their state of residence.
2. For purposes of these Standards, the federally recognized tribes of Oregon are:
   a. Burns Paiute Tribe;
   b. Confederated Tribes of Coos, Lower Umpqua and Siuslaw;
   c. Confederated Tribes of Grand Ronde Community of Oregon;
   d. Confederated Tribes of Siletz Indians of Oregon;
   e. Confederated Tribes of the Umatilla Indian Reservation;
   f. Confederated Tribes of the Warm Springs Indian Reservation;
   g. Coquille Indian Tribe;
   h. Cow Creek Band of Umpqua Indians;
   i. Klamath Tribes.
3. For purposes of this rule these Standards, the Native American tribes which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon are:
   a. CALIFORNIA:
      1. Benton Paiute Tribe;
      2. Big Bend Rancheria;
      3. Big Lagoon Rancheria;
      4. Blue Lake Rancheria;
      5. Bridgeport Indian Colony;
      6. Cedarville Rancheria;
      7. Fort Bidwell Indian Tribe;
      8. Hoopa Valley Tribe;
      9. Karuk Tribe of California;
     10. Likely Rancheria;
     11. Lookout Rancheria;
     12. Lytton Rancheria;
     13. Melochundum Band of Tolowa Indians;
     14. Montgomery Creek Rancheria
     15. Pit River Tribe;
     16. Quartz Valley Indian Community;
     17. Redding Rancheria;
     18. Roaring Creek Rancheria;
     19. Smith River Rancheria;
     20. Susansville Rancheria; Tolowa-Tututni Tribe;
     21. Winnemucca Colony;
     22. XL Ranch;
     23. Yurok Tribe.
   b. IDAHO:
      1. Nez Perce Tribe of Idaho;
      2. Shoshoni-Bannock Tribes.
   c. NEVADA:
      1. Duck Valley Shoshone-Paiute Tribes;
      2. Fallon Paiute-Shoshone Tribe;
      3. Fort McDermitt Paiute-Shoshone Tribe;
      4. Lovelock Paiute Tribe;
      5. Pyramid Lake Paiute Tribe;
      6. Reno-Sparks Indian Colony;
      7. Summit Lake Paiute Tribe;
      8. Walker River Paiute Tribe;
      9. Winnemucca Indian Colony;
   d. OKLAHOMA: Modoc Tribe of Oklahoma.
   e. WASHINGTON:
      1. Chehalis Community Council;
      2. Colville Confederated Tribes;
      3. Quinault Indian Nation;
      4. Shoalwater Bay Tribe;
      5. Yakama Indian Nation.
4. A student seeking to be assessed resident tuition and mandatory enrollment fees under these Standards shall submit, following procedures prescribed by the University where the student seeks to enroll, a photocopy of tribal enrollment which documents tribal membership.

G. Residence Classification of Non-Citizens
1. A person who is not a citizen of the United States may be considered an Oregon resident if the person qualifies as a resident under Section B and is one of the following:
   a. A lawful permanent resident. The date of approval of lawful permanent residency shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue.
   b. An immigrant granted refugee or political asylum in the United States. The date of approval of political asylum or refugee status shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue.
   c. A person holding one of the following non-immigrant visa classifications: A, E, G, H-1B, H-1C, the spouse or child of a person holding an H-1B or H-1C visa, I, K, L, NATO, O, R, S, T, TN, U, or V. The date of the issuance of a visa for one of these classifications shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue. A person possessing a non-immigrant or temporary visa that is not identified under these Standards shall not be considered an Oregon resident under this Section G.1.c.

Appendix II: Residency Procedure: A–C
A. Definitions
Definitions in the Residency Standards shall also apply to this Residency Procedure.
B. Changes in Residence Classification
1. Unless otherwise specified in the Residency Standards, if an Oregon resident student enrolls in an institution outside of Oregon and later seeks to enroll in a University that applies these Residency Standards, the residence classification of that student shall be re-examined and determined on the same basis as for any other person.

2. A student who becomes eligible for resident tuition during a term of enrollment at a University will not qualify for resident tuition until the beginning of the next term.

3. Once established, classification as a resident continues so long as the student remains in continuous academic year enrollment in the classifying University.

4. A person who seeks eligibility for resident tuition under these rules shall complete and submit a notarized Residence Information Affidavit. The affidavit and all required supportive documents and materials must be submitted by the last day to register for the term in which resident status is sought.

5. Universities that apply this Residency Procedure are only bound by determinations of residency that follow this Procedure, including timely submittal of the notarized affidavit.

C. Review of Residence Classification Decisions
   1. An inter-institutional residency committee (IRC) is established consisting of the officers who determine student residence classification at each University that applies this Residency Procedure. The chair of the committee shall rotate among the Universities with no chair serving more than two consecutive years. A majority of the members of the Committee shall constitute a quorum. A majority of a quorum may make recommendations.

   2. Residence cases of unusual complexity, especially where there may be conflict of rules, may be referred by the originating classification officer to the IRC for its recommendation to the registrar or designee.

   3. Any person who is aggrieved by the originating classification officer’s classification decision may, within ten days of the date of mailing or other service of the classification decision, request that the IRC review the classification and make recommendations to the registrar or designee of the originating university. The appeal must be in writing and shall be filed with the originating University. An aggrieved person may supply written statements to the IRC for consideration in reviewing the case and may also make an oral presentation to the IRC on a date to be scheduled by the IRC. The IRC shall make a recommendation to the registrar or designee of the originating University. That registrar or designee shall then issue a decision. The decision of the registrar or designee shall be final unless appealed.

   4. A person dissatisfied with the decision of the registrar or designee may, within ten days of the date of the mailing or other service of the decision, appeal the decision to the president or designee of the originating University. An appeal shall be in writing only. The decision of the president or designee shall be final.

   5. A person granted a meritorious hardship exception to residency under the Oregon Administrative Rules regarding residency prior to July 1, 1990, shall not lose the exception solely because of the repeal of the exception authorization.
TUTORING AND STUDENT SUPPORT SERVICES

Departments and Offices

There are numerous departments dedicated to your success as a student. Get involved on campus, find support for a challenging class, discover your community, connect with new friends or obtain help during a hard time. Our programs and services are here to assist you.

• Academic Achievement: (http://oregonstate.edu/studentaffairs/academic-achievement/) These units work to increase and equalize student success, support retention, help students graduate and foster the holistic development of students.

• Academics for Student Athletes (http://studentathlete.oregonstate.edu/): This office provides academic and personal support to all student athletes at Oregon State University.

• Academic Success Center (http://success.oregonstate.edu/): The Academic Success Center creates opportunities for students to learn how to learn throughout their academic careers. Services include drop-in consultations, academic coaching, the Learning Corner (https://success.oregonstate.edu/learning/) online resource, and supplemental instruction.

• Associated Students of Oregon State University (http://asosu.oregonstate.edu/): ASOSU is the student government body at Oregon State. It supports the varied interests of OSU students through democratic representation.

• Career Development Center: (http://oregonstate.edu/career/) The Career Development Center provides comprehensive professional development to all OSU students through presentations, workshops and appointments. The center also hosts the quarterly Career Expo and maintains Handshake, a networked platform that connects students with employers and thousands of job and internship opportunities.

• Center for Fraternity & Sorority Life (http://studentlife.oregonstate.edu/cfsi/): The Center for Fraternity & Sorority Life advocates for the interests of the Greek community at OSU by providing advice to governing chapters. The center serves as the direct university contact for organization headquarters staff.

• College Assistance Migrant Program (CAMP): (http://camp.oregonstate.edu/) This program provides financial and academic support to first-year students with the goal of preparing them for success in college. CAMP works with faculty, student services and community-based agencies to improve educational opportunities.

• Counseling & Psychological Services: (http://oregonstate.edu/counsel/) Counseling & Psychological Services provides individual, couples and group counseling for OSU students, as well as outreach and education on topics like mindfulness, stress management and suicide prevention.

• Craft Center (http://sli.oregonstate.edu/craft/): The Craft Center supports an enriched experiential learning experience where students can foster their own creativity. The center offers ceramic, glass, jewelry, woodworking and photography classes, in addition to fluctuating craft events and activities.

• Cross Campus Strategic Initiatives: (http://studentaffairs.oregonstate.edu/ccsi/) Oversees the development, implementation, and assessment of campus-wide initiatives in support of the transition, integration, and advisement of matriculated students. We provide training, resources, transitional coursework, advocacy, expertise and community-building opportunities for professional faculty, instructional faculty and students.

• Disability Access Services: (http://ds.oregonstate.edu/home/) Disability Access Services facilitates access to university programs and services for individuals with disabilities through accommodations, education, consultation and advocacy.

• Educational Opportunities Program: (http://eop.oregonstate.edu/) EOP provides a welcoming environment that supports the full development of the personal and academic potential of students who have traditionally been denied equal access to higher education. This includes but is not limited to students of color, low-income students, first generation in college (neither parent graduated) and undocumented or DACAmented students.

• Diversity & Cultural Engagement (http://oregonstate.edu/dept/iss/): Diversity & Cultural Engagement is committed to the development of underserved students by creating and advocating for inclusive and educationally purposeful initiatives that enhance learning, academic success, cross-cultural fluency and self-efficacy.

• Family Resource Center (http://familyresources.oregonstate.edu/): Located in Champinefu Lodge, the Family Resource Center provides a welcoming place for families to spend time on campus with their children. The center advocates for and supports students with families by focusing on quality early education and children's care centers, lactation support and financial assistance.

• Human Services Resource Center: (http://studentlife.oregonstate.edu/hsrc/) The Human Services Resource Center provides low-income students with the resources they need to be academically successful. HSRC services include food insecurity, housing and textbook expense support.

• Louis Stokes Alliance for Minority Participation: (http://lsamp.oregonstate.edu/) LSAMP is dedicated to increasing the number of traditionally underrepresented students successfully completing science, technology, engineering and mathematics baccalaureate degree programs.

• Mathematics & Statistics Learning Center (https://math.oregonstate.edu/mlc/): Provides free drop-in tutoring, resources, make-up testing, a mathematics education resource room and a computer classroom with Mathematical Software (https://math.oregonstate.edu/mlc_software/) installed.

• Memorial Union: (http://osumu.org/) The Memorial Union is the community center of OSU and serves students, alumni, staff and guests. The MU complements students’ academic experience through cultural, educational, social and recreational programs.

• Men's Development & Engagement (https://studentaffairs.oregonstate.edu/AAESS/mens-development-engagement/): MDE provides engaging and innovative programs that support male-identified student success, develop healthy men and masculinities and engage male-identified individuals and groups in exploration of identity development and societal norms. Through one-on-one sessions and group meetings, the MDE’s Distinguished Scholars Initiative supports the continued development of self-efficacy, servant leadership, professional skills and academic excellence for OSU male students of color.
• Military & Veteran Resources (http://studentlife.oregonstate.edu/veterans/): The Military & Veteran Resources provides support to military service members, veterans, and their families studying at OSU. The office helps navigate the requirements of higher education to ensure awareness of available benefits and services and foster a successful learning experience.

• New Student Programs & Family Outreach: (http://oregonstate.edu/soar/) New Student Programs & Family Outreach serves as a campus leader in facilitating the transition process for new students and their family members, promoting and enhancing successful transitions through collaborative programs and outreach.

• Office of International Services: (http://international.oregonstate.edu/) This office supports international students from admissions through graduation with advising services and guidance on settling in at Oregon State. Staff are available to help you with questions and locate other services on campus, as needed.

• Recreational Sports: (http://oregonstate.edu/recsports/) The Department of Recreational Sports provides an extensive and diverse list of sport, fitness and adventure opportunities to serve the varied recreation preferences and interests of the campus community.

• Student Conduct & Community Standards: (http://oregonstate.edu/studentconduct/) The Office of Student Conduct & Community Standards handles student-conduct and related matters at Oregon State University.

• Student Experiences & Engagement: (http://sli.oregonstate.edu/) In addition to the Craft Center and Orange Media Network, this unit supports students and student groups by providing opportunities for leadership and community involvement. This department houses the Center for Civic Engagement (http://sli.oregonstate.edu/cce/), Late Night (http://sli.oregonstate.edu/latenight/) programs, the OSU Program Council (http://sli.oregonstate.edu/osupc/) and Leadership Development (https://sli.oregonstate.edu/ld/).

• Student Life (http://studentlife.oregonstate.edu/): The Office of Student Life fosters environments that enable students to effectively engage in their academic work, develop cultural competencies and global awareness, and become informed citizens.

• Student Care (http://studentlife.oregonstate.edu/student-care/): Student Care is designed help students manage unexpected life events, personal crises, mental health struggles, academic difficulties and challenges that can interfere with college success.

• Student Health Services: (http://studenthealth.oregonstate.edu/) Student Health Services contributes to the success of students and the university community by providing medical and health promotion services while creating a safe environment for all individuals.

• TRIO Student Support Services: (http://trio-sss.oregonstate.edu/) TRIO-SSS helps first-generation college students and other students who would benefit from additional support make the transition to college, offering academic guidance, professional development, peer mentorship, technology access, student success seminars and additional services. To learn about eligibility requirements or to apply, visit the TRIO-SSS website.

• University Exploratory Studies Program: (http://uesp.oregonstate.edu/) UESP is the academic home for students who are exploring their options before deciding on a major and offers a comprehensive range of services to help students make informed decisions about their academic coursework and potential majors while they are exploring.

• University Housing & Dining Services: (http://oregonstate.edu/uhds/dining/) University Housing & Dining Services offers on-campus residents a connection from the moment they arrive to campus. UHDS facilities include 15 residence halls, three dining centers, an on-campus grocery store and one family housing complex, providing students with connections to residential staff, academic support services, healthy dining options and leadership opportunities right where they live.

• Writing Center: (http://writingcenter.oregonstate.edu/) The Writing Center offers three programs in support of Oregon State University student writing: The Undergrad Research & Writing Studio, The Graduate Writing Center, and The Online Writing Lab.
