The Office of Financial Aid administers federal financial aid programs to assist graduate students with meeting the cost of higher education. To determine eligibility for specific federal aid programs at Oregon State, graduate students are required to complete the Free Application for Federal Student Aid (FAFSA) each year. Graduate students must be degree-seeking or in an approved certificate program and enrolled at least half-time (5 credits) to qualify for financial aid. Graduate students are not eligible for federal Title IV grants or subsidized loans. Students in graduate certificate programs are only eligible for aid for courses required for their certificate program.

For additional information about Financial Aid for graduate students, visit the Office of Financial Aid website ([https://financialaid.oregonstate.edu/financial-aid/](https://financialaid.oregonstate.edu/financial-aid/)) or find contact information ([https://financialaid.oregonstate.edu/contact-us/](https://financialaid.oregonstate.edu/contact-us/)).

This page contains descriptions and additional policies specific to the degree types listed. Please find the list of policies pertaining to all graduate degree types and graduate majors on the Policies page. (p. 1711)

Visit the list of graduate programs. (p. 1711)

**Master of Adapted Physical Education (MAPE)**

The MAPE is an intensive professional degree program intended to prepare teachers for careers in teaching physical education and adapted physical education in K-12 schools. Successful completion of the program earns recommendation for an Oregon K-12 preliminary teaching license in physical education and an additional endorsement in adapted physical education. The professional program in teacher education is a full-time, 14-month graduate program which includes graduate courses as well as extensive practical experiences in the public schools at all levels. Beginning Fall Term, students are in continuous, on-site, supervised student teaching experiences in elementary, middle and high school physical education settings. Coursework is integrated with these student teaching experiences, creating a unique mesh between theory and practice.

The MAPE program is housed in the College of Public Health and Human Sciences and accredited through the College of Education. The 65-hour program includes 37 credit hours of course work taught by Physical Education and Adapted Physical Education faculty, 7 credit hours of coursework taught by other Public Health and Education faculty, and the remaining 21 credit hours of internship experiences in public schools.

The MAPE degree requires the successful completion of a final oral examination.

**Master of Arts (MA)**

In certain departments and programs, M.A. thesis is optional, to be determined in each case by the department, school, or program and the major professor. For the master of arts degree, the student must show foreign language proficiency (including American Sign Language) equivalent to that attained at the end of a second-year university course in that language with a grade of ‘C’ (2.00) or better. English is not considered a foreign language for purposes of this requirement. For other master’s degrees, there is no foreign language requirement unless a language is required in the individual student’s program. A student must be enrolled to complete their foreign language requirement before they take the final oral examination for the degree.
Master of Arts in Interdisciplinary Studies (MAIS)

The MAIS degree is granted for attainment of broad, advanced knowledge and achievement integrated from three fields of study. Most graduate majors or minors may serve as a field for this degree. The current list of approved majors is on the Graduate School website (http://gradschool.oregonstate.edu/programs/). Two of the three fields may be from one department if the areas of concentration within these two fields are different. A minimum of 9 credits in each of the three fields of study is required. The degree requires a minimum of 49 credits, including 4 credits of course work on interdisciplinary research methods.

No more than 21 credits (excluding thesis or project credit) may be taken in any field unless the total program exceeds 49 credits. There is no foreign language requirement. No more than 3 credits of blanket-numbered courses in each field of study may be used in the program; thesis credits (Option A) or project credits (Option B) are exempt from this limitation. The student’s committee consists of four members of the graduate faculty—one from each of the three fields—and a Graduate Council representative. A formal program meeting must be held prior to the completion of 18 graduate credits. A final oral examination is required.

Two options under the program:

**Option A:** Thesis option. The thesis must coordinate work in the three fields. The requirement is 6 to 9 credits of Thesis 503. The thesis advisor must be a member of the graduate faculty authorized to direct theses.

**Option B:** Project option. The project must integrate work from at least two of the three fields. The requirement is 4 to 7 credits, registered as Research 501, Reading and Conference 505, or Projects 506.

Master of Arts in Teaching (MAT)

The MAT is an intensive professional degree program intended to prepare teachers for careers in public school education. Students who successfully complete the MAT can be recommended for the Oregon basic teaching license upon the positive evaluations of the university and public school supervisors.

The professional program in teacher education is full-time and one calendar year in length. Students will enroll with their subject area cohort group and complete the program in one year. Teacher licensure is offered in the following areas:

- Advanced Mathematics Education
- Agricultural Education
- Biology Education
- Chemistry Education
- Elementary Education
- Family and Consumer Sciences Education
- Foundational Mathematics
- Integrated Science Education
- Language Arts Education (English) — Cascades Campus only
- Music Education
- Physics Education
- Spanish Education

The professional teacher education program begins with a 15-credit professional education core that is foundational to and a prerequisite for the 48-credit Master of Arts in Teaching degree. The 48-credit MAT includes a professional education concentration (3 credits), professional course work in the teaching specialty (18 to 21 credits), a public school professional internship (15 to 18 credits), and a minimum of 9 graduate credits in the subject matter specialization (mathematics, physics, literature, etc.). Because the professional teacher education program is a two-part program, including the professional core and the MAT, future students may plan their programs as either five-year (with a nine-month MAT) or as fifth year programs (with 12 months of graduate study including both the professional core and the MAT).

The MAT degree requires successful completion of a final oral examination.

Master of Athletic Training (MATRN)

The Master of Athletic Training (MATRN) degree consists of a combination of classroom, laboratory, and clinical education experiences in the field of athletic training. Students proceed through the accredited two-year professional program in a cohort model attaining the entry-level educational standards stipulated by the Commission on the Accreditation of Athletic Training Education. The degree prepares students to complete the Board of Certification for the Athletic Trainer’s certification exam and pursue a career as an athletic trainer.

Master of Business Administration (MBA)

The MBA program represents a broad, yet responsive general management education that crosses the functional disciplines of business. Its advanced management emphasis creates practical value-added content for all students, both business and nonbusiness undergraduates, enabling them to solve complex business problems and successfully compete in the business marketplace.

The MBA program is concentrated in length—three academic terms for full-time students with a BA/BS in business or who have completed the foundation courses. Full-time students with no previous business or business-related course work can complete the program in as few as six terms. The MBA degree requires no thesis. MBA students submit capstone projects that are assessed at the curricular core and graduate option levels, in addition to being assessed upon their fulfillment of graduate learning outcomes.

Master of Science in Business (MSB)

The MSB is a specialty master’s program that provides a focused exploration into a current or emerging business discipline. The course work provides a strong foundation of business acumen, the tools to be a recognized expert in the field, and the flexibility to customize for emerging opportunities. The MSB is a STEM-designated, non-thesis degree that can be completed in as few as nine months for full-time students, and culminates in an industry-focused capstone project.

Master of Accountancy (MAC)

The MAC is a one-year master’s program for students with an undergraduate degree in accounting. It allows accounting students to receive an undergraduate degree and a master’s degree during their five years of university study required to become a CPA. As an integrated program, the MAC is designed to allow students the opportunity to plan early enough in their accounting education program to enable them to receive both an undergraduate degree and a graduate degree. The MAC is also designed to accommodate postbaccalaureate students wishing to prepare for accounting careers.
Master of Counseling (MCOUN)

Students admitted to the MCoun degree program prior to June 2017 must successfully pass a written project portfolio that demonstrates mastery of the MCoun learning outcomes. Students will specifically address graduate learning outcomes (G.L.O.’s) by describing how they have and/or how they would utilize research/evidence-based counseling practice in their clinical work. Students will be required to describe an ethical dilemma they have faced in their clinical practice to date and include an ethical decision model when describing their ethical decision-making processes. The written project portfolio will assess the 8 CACREP areas, in which the MCoun learning outcome objectives are based. A student shall receive a Pass when the grading committee unanimously grades the portfolio as a Pass.

Students admitted to the MCoun degree program beginning June 2017 must successfully pass a nationally administered exam determined by program faculty. The written exam will evaluate all three graduate learning outcomes (G.L.O.’s). Successful completion of the national exam will evidence the candidate’s mastery of MCoun subject matter covered in the program and assess the candidate’s ability to apply research and ethical proficiencies on the exam. The exam will assess the 8 CACREP areas, in which the MCoun learning outcome objectives are based.

The minimum passing score for the national exam is defined as one standard deviation below the national mean at the time of administration. Candidates who do not pass the national exam are allowed to take re-examination, but not before the end of the term in which the exam was administered. No more than two re-exams are permitted.

Please contact the College of Education for additional information regarding additional MCoun examination requirements, graduate learning outcomes, and the CACREP national examination.

Master of Education (EDM)

The EdM is a professional degree requiring a minimum of 45 credits in graduate courses (including a maximum of blanket-numbered courses); additional credits may be required in some areas of concentration.

The EdM degree requires successful completion of a final written examination.

A candidate for the EdM degree qualifies for the degree under one of these options:

1. For Adult and Higher Education (AHE) majors, students complete 45 credits in the major, including 5 internship credits focusing on instructional design, training and development, and/or developmental education. Students complete a capstone project that meets the standards for a master’s degree on some applied or professional aspect of education. AHE students are required to complete 4 capstone credits as their summative learning experience under the direction of an advisor. A thesis is not required for the AHE major.

2. For College Student Services Administration (CSSA) majors, students complete at least 39 credits in the major and 15 credits of graduate-level elective courses for a minimum of 54 credits. The Master of Education (Ed.M.), is earned through successful completion of all required program coursework and successful completion and defense of a capstone portfolio. The capstone portfolio is a cumulative, comprehensive, and reflective form of student assessment.

Master of Engineering (MENG)

The MEng degree is designed to provide students the opportunity to pursue advanced-level study in a field of engineering. The degree is concerned with application of specialized, graduate-level engineering and managerial knowledge to specific engineering disciplines. The degree is a course work-only degree, with the option of substituting research or internship credits for a few courses. No thesis or project is required.

The MEng program requires a minimum of 45 credits. The final summative assessment is achieved through the development, and review by faculty, of a portfolio. The examining committee consists of two faculty approved to serve as graduate faculty in the respective program.

Master of Fine Arts (MFA)

The Master of Fine Arts is offered in two formats. The curriculum at the Corvallis campus provides an appropriate terminal degree for those who wish to teach in creative, performing, and studio arts in higher education. The MFA in Creative Writing is a program that helps students define and advance their literary ambitions and develop their skills as artists and teachers. Students will be introduced to three broad areas of knowledge within the field of creative writing that they need in order to become successful writers, editors, or teachers. These areas involve writing, reading, and marketing skills within contemporary literary fiction, poetry, and nonfiction. The degree requires a minimum of 60 credits comprised of 24 credits in creative writing workshops, 24 credits in literature and/or composition and rhetoric and one course emphasizing literary roots, and 12 credits in thesis and/or writing and conference. All MFA candidates are required to complete a thesis, which is to be a sustained piece of imaginative writing of literary merit. A final oral examination is required.

OSU-Cascades’ Low Residency MFA is a two-year 77 credit program comprised of four intensive ten-day residencies (with pre-residency independent-study as preparation) in June and November followed by four term-length individual mentorships. Individualized mentorships are conducted by nationally known writers throughout the year, allowing students to work closely with established writers to hone their craft. When not in residency, students engage in self-directed study involving the generation of new work, revision, peer review, and research. The curriculum builds sustainable writing habits, develops skills needed to support a creative livelihood after graduation, and creates an environment for taking imaginative risks.

Master of Forestry (MF)

The Master of Forestry (MF) is largely a course-based and non-thesis professional degree intended for professional forestry and natural resource specialists in public and private organizations where a broad technical education is needed. Students can pursue this degree in either the: (a) Sustainable Forest Management, or (b) Forest Ecosystems and Society programs. For both programs, a thesis is not required, but a technical report on an approved topic, correlated with courses in the major field, must be submitted. A final oral examination is required.

The MF in Sustainable Forest Management is housed in the Department of Forest Engineering, Resources, and Management (FERM), and is designed for students who want one or more years of formal graduate work and who plan professional careers with forestry organizations, either public or private. The main objective is to improve students’ knowledge of and competence in the principles and practice of active forest management to provide the full range of products and ecosystem services from forested landscapes.
The MF in Forest Ecosystems and Society is housed in the Department of Forest Ecosystems and Society (FES), and is designed for students who want one or more years of formal graduate education and who plan professional careers with a wide variety of natural resource organizations, such as government agencies and non-governmental organizations. Coursework and the technical report focus on natural resources, forest science, social science, or nature-based tourism or recreation.

**Master of Health Physics (MHP)**
The MHP degree is designed to be a professional, advanced graduate degree that emphasizes fundamental learning and professional development for those wishing the master's credential, but not requiring a research focus for their planned profession. The degree directs students toward professional licensing as a certified health physicist in the field of radiation protection. The program will consist of a minimum of 45 graduate credits, with 30 graduate credits in the major, and 15 elective graduate credits. A final oral examination is required.

**Master of Medical Physics (MMP)**
The MMP program prepares the graduate for a professional career in applied medical physics, focused on practical hands-on experience. The MMP program is designed as a clinical specialization for individuals with an undergraduate degree in science or engineering, offering areas of concentration in therapeutic radiologic physics or medical health physics. The degree requires a minimum of 45 graduate credits, including 30 graduate credits in the major and 15 elective graduate credits. The program does not require a thesis, however, candidates are required to pass a final oral examination.

**Master of Natural Resources (MNR)**
The MNR program is designed for individuals interested in strengthening their natural resources knowledge and skills. The College of Forestry administers the MNR degree, however this interdisciplinary program draws from leading scientists from multiple departments within the Colleges of Agricultural Sciences; Forestry; Science; Liberal Arts; and Earth, Ocean, and Atmospheric Sciences. The MNR curriculum, consisting of 45 credits, is organized into three sections: core (18 credits), area of emphasis (18 credits), and capstone project (9 credits). It is taught as a distance, online curriculum, although it may be possible for some students to work toward the MNR degree while in residence at Oregon State University. The MNR degree is offered as a non-thesis option only. A final oral examination is required.

**Master of Public Health (MPH)**
The MPH degree program combines broad training in public health with specific training in one of the specialty or interdisciplinary options. The MPH program is designed for persons who already have a bachelor's degree and who wish to obtain further formal education in the field of public health. The MPH degree has options in biostatistics, environmental and occupational health, epidemiology, global health, health systems and policy, health promotion and health behavior, and physical activity, as well as the online option in public health practice. The MPH degree consists of 12 core credits, plus additional units of required and elective courses, and an internship. Programs are approximately 60 credits in length. All students are required to complete an alternative summative assessment as determined by their specific option.

**Executive Master of Public Policy (EMPP)**
The EMPP at Oregon State is designed for mid-career professionals with 5+ years in the public and nonprofit sectors who are interested in moving up in their positions or who are looking to transition from the private sector to a career in public service. Students can move through the program at their own pace and all coursework is available online through OSU Ecampus. The EMPP is a 45-credit (quarter) program with interdisciplinary core coursework, five policy concentrations, and a final Applied Policy Capstone Project. EMPP students can select a focus in one of 4 concentrations (energy policy, environmental policy, rural policy and social policy) or 11 graduate certificate programs, or self-design a concentration with an advisor and with the approval of the OSU Public Policy Graduate Program Director. All concentrations and graduate certificates require at least 16 quarter credits. Students can take concentration and elective courses from a variety of approved programs and colleges across OSU curriculum and relevant Portland State University online courses. Each concentration and/or certificate has a faculty advisor to help students identify appropriate courses and committee members.

**Master of Public Policy (MPP)**
The MPP is a professional degree intended to prepare students for careers in the public, nonprofit, and international sectors and offer training for in-service students desiring professional growth and advancement. The degree is designed to be a generalist program, with an emphasis on analytic skills and policy knowledge. The degree requires a minimum of 62 graduate credits, 44 of which are in the required core. The core curriculum provides an important foundation in statistics, research methods, computer applications, public policy analysis, public administration and ethics, and economics. The remaining 18 credits support the student’s preferred area of concentration, consisting of environmental policy, international policy, rural policy, science policy, or social policy. Students with little work experience in public service, the nonprofit sector, or the international context will be required to engage in a supervised internship that will allow them to work closely with experienced mentors who will help them integrate theory with practice and introduce them to a professional network. Students with relevant work experience will substitute course work for internship credits. A final oral examination is required. The MPP is available at the Corvallis campus or through Ecampus.

**Master of Science (MS)**
In certain departments and programs, M.S. thesis is optional, to be determined in each case by the department/school/program and the major professor.

**Professional Science Master’s (PSM)**
The PSM allows students to pursue advanced training in science while simultaneously developing workplace skills highly valued by employers. PSM programs consist of two years of academic training in an emerging or interdisciplinary area in science, along with a professional component that includes internships and ‘cross-training’ in workplace skills, such as business, communications, and regulatory affairs. All have been developed in concert with employers and are designed to dovetail into present and future professional career opportunities.

The Professional Science Master’s Degree (PSM) is offered with two graduate majors:
1. Environmental Sciences
2. Fisheries and Wildlife Administration

For further information on Environmental Sciences, email: carolyn.fonyo@oregonstate.edu
For further information on Fisheries and Wildlife, email: fw.gradadvising@oregonstate.edu

**Doctor of Education (EDD)**
The EdD program in Adult and Higher Education prepares post-secondary education professionals for leadership roles in four-year universities, community colleges and similar institutions. The purpose of the EdD is to apply research to practice and for developing practitioner knowledge related to leadership in postsecondary institutions.

Learn more about the admission requirements of the EdD from the College of Education's website. ([https://education.oregonstate.edu/ahe/](https://education.oregonstate.edu/ahe/))

In general, the following requirements are in effect for the EdD:

1. A minimum of 108 credits beyond the baccalaureate degree.
2. Effective fall 2005, all graduate student programs of study submitted to the Graduate School must consist of, at a minimum, 50 percent graduate stand-alone courses. The remaining credits may be the 500 component of 400/500 slash courses.
3. Completion of the same residence requirements as listed for the PhD degree.
4. A dissertation of no less than 24 credits.
5. A mentored internship in an appropriate work setting for a minimum of 6 credits.

Procedures and requirements for preliminary and final examinations and thesis are the same as those for the doctor of philosophy degree.

**Doctor of Philosophy (PhD)**
Please review Ph.D. requirements on the policies page. (p.  )

**Graduate Education (GRAD)**

**GRAD 402, INDEPENDENT STUDY, 1-16 Credits**
Lab/Field trip fee.
*This course is repeatable for 16 credits.*

**GRAD 420, GRADUATE SCHOOL PREPARATION, 1 Credit**
Applying for graduate or professional school can be a daunting task. How and where to apply, how to choose an advisor, what to look for in a school, and how to obtain funding are hurdles to overcome during the application process. Supplemental materials will be provided as part of the course materials.
*Available via Ecampus*

**GRAD 430, INTRODUCTION TO SCIENTIFIC DIVING, 4 Credits**
Incorporates academic, confined water and open water training to prepare the student to manage the task loading associated with performing scientific tasks underwater. Introduces the diver to basic techniques and equipment used in underwater data collection. Qualifies the student for acceptance into the OSU Scientific Diving Program as a Scientific Diver-in-Training, at the discretion of the DSO and OSU Diving Control Board. Includes field trips.

**GRAD 499, SPECIAL TOPICS, 4 Credits**
Graduate school preparation.
GRAD 521, RESEARCH DATA MANAGEMENT, 2 Credits
Careful examination of all aspects of research data management best practices. Designed to prepare students to exceed funder mandates for performance in data planning, documentation, preservation and sharing in an increasingly complex digital research environment. Open to students of all disciplines.

GRAD 522, PREPARING AN IRB SUBMISSION, 1 Credit
Workshop-style course resulting in applications that are ready for IRB review. Ethical issues in research will be discussed. Students will draft all submission materials outside of class and participate in the critique of each other's protocols and consent forms. IRB approval will not be granted as part of this class. Graded P/N.

GRAD 530, INTRODUCTION TO SCIENTIFIC DIVING, 4 Credits
Incorporates academic, confined water and open water training to prepare the student to manage the task loading associated with performing scientific tasks underwater. Introduces the diver to basic techniques and equipment used in underwater data collection. Qualifies the student for acceptance into the OSU Scientific Diving Program as a Scientific Diver-in-Training, at the discretion of the DSO and OSU Diving Control Board. Includes field trips.

GRAD 542, THE INCLUSIVE CLASSROOM: DIFFERENCE, POWER AND DISCRIMINATION, 3 Credits
An examination of multidisciplinary scholarship on difference, power, and discrimination; critical pedagogies; and curriculum transformation. Discussions of theory and research are coupled with practical hands-on opportunities for students to develop and hone their teaching and course development skills. CROSSTLISTED as GRAD 542/WGSS 542.
Equivalent to: WGSS 542
Available via Ecampus

GRAD 550, INTRODUCTION TO ONLINE COURSE DEVELOPMENT AND FACILITATION, 2 Credits
Prepares students to develop and teach distance courses. Students explore practical aspects of course development and facilitation: a brief history of distance education and pedagogical theory; course design principles; engagement of adult learners; active learning; and investigation of how online instruction, in addition to offering flexibility and convenience, also offers distinct pedagogical benefits. Open to students in all disciplines.
Available via Ecampus

GRAD 560, THEORIES OF TEACHING AND LEARNING IN HIGHER EDUCATION, 3 Credits
Examination and analysis of theories and research related to teaching and learning in higher education contexts with emphasis on theoretical applications for GTAs, instructors, and other who teach in the college and university classroom.
Available via Ecampus

GRAD 561, COURSE DESIGN AND METHODS FOR COLLEGE & UNIVERSITY TEACHING, 3 Credits
Exploration of research and research-based practices related to teaching and learning in higher education contexts with emphasis on course design, facilitation, and other instructional techniques for GTAs, instructors, and others who teach in the college and university classroom.
Available via Ecampus

GRAD 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.
Available via Ecampus

GRAD 605, READING AND CONFERENCE, 1-16 Credits
Reading and discussions on special topics. Graded P/N. This course is repeatable for 16 credits.

GRAD 606, PROJECTS, 1-16 Credits
Graded P/N. This course is repeatable for 16 credits.

GRAD 607, CAPSTONE SEMINAR, 3 Credits
Provides a culminating experience required for all graduate students pursuing the Graduate Certificate in College and University Teaching and for other graduate students seeking a structured opportunity to develop their teaching portfolio.
Prerequisite: GRAD 560 with C or better and GRAD 561 [C]
Available via Ecampus

GRAD 609, PRACTICUM, 1-16 Credits
Graded P/N. This course is repeatable for 16 credits.

GRAD 610, INTERNSHIP, 3 Credits
Provides a framework for the in-depth internship experiences required of all graduate students pursuing the Graduate Certificate in College and University Teaching and for other graduate students seeking a structured opportunity to reflect on and improve their teaching.
Prerequisite: GRAD 560 with C or better and GRAD 561 [C]
Available via Ecampus

Interdisciplinary Programs (IST)

IST 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.
IST 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

IST 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

IST 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

IST 511, INTRODUCTION TO INTERDISCIPLINARY GRADUATE STUDIES, 1 Credit
First term graduate seminar for master's students in interdisciplinary studies to design their program of study; discover and access library and other university resources related to their fields of study; and practice synthesizing aspects of three differing fields.
Available via Ecampus

IST 512, APPLYING AN INTERDISCIPLINARY PERSPECTIVE, 3 Credits
Students will develop knowledge and skills in theory, research methods, and practice of approaching problems, issues, or events from an interdisciplinary perspective.
Recommended: IST 511
Available via Ecampus

IST 513, INTERDISCIPLINARY RESEARCH COLLOQUIUM, 1 Credit
Supports MAIS students as they conduct research for their thesis, research paper, or project, further their understanding how to synthesize multiple fields of study into a research project, and effectively employ this knowledge in preparation of the thesis/paper/project itself. Graded P/N.

Molecular & Cellular Biology (MCB)

MCB 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 99 credits.

MCB 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

MCB 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 99 credits.

MCB 507, SEMINAR, 1-16 Credits
This course is repeatable for 99 credits.

MCB 508, WORKSHOP, 1-16 Credits
This course is repeatable for 99 credits.
Available via Ecampus

MCB 509, PRACTICUM, 1-16 Credits
This course is repeatable for 99 credits.

MCB 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 99 credits.

MCB 525, TECHNIQUES IN MOLECULAR AND CELLULAR BIOLOGY, 3 Credits
An intensive laboratory course introducing modern methods for the manipulation of cellular macromolecules. Recombinant DNA technology, protein chemistry, and in situ hybridization methods presented in a format that emphasizes experimental continuity. The course requires two weeks of intensive full-time involvement.

MCB 530, INTRODUCTION TO POPULATION GENETICS, 3 Credits
Genetic polymorphisms, inbreeding, genetic drift, population subdivision and gene flow, mutation and selection. Emphasis on applied rather than theoretical questions. Offered alternate years.
Equivalent to: GEN 530
Recommended: BI 311 and ST 351 and ST 352

MCB 535, GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535.
Equivalent to: BI 535, FES 535, FS 535, TOX 535
Recommended: One quarter each of biology and chemistry
Available via Ecampus

MCB 541, PLANT TISSUE CULTURE, 4 Credits
Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.
Equivalent to: HORT 541, PBG 541
Recommended: (BI 311 and BOT 331) or PBG 430

MCB 554, GENOME ORGANIZATION, STRUCTURE, AND MAINTENANCE, 4 Credits
How diverse organisms store their individual sets of genetic information (genomes). Evolution of genomes and gene families. Structures of DNA and chromatin. Biochemical and regulatory pathways that protect cellular genomes against environmental and endogenous damage and ensure transmission of faithful copies to progeny. Remodeling of genomes by recombination and transposition.
Equivalent to: GEN 554, MB 554, TOX 554
Recommended: BI 311 (or genetics equivalent) and (BB 450 and BB 451 and BB 452) or (BB 490 and BB 491 and BB 492)
MCB 555, GENOME EXPRESSION AND REGULATION, 4 Credits
Prokaryotic and eukaryotic systems will be used to describe recent advances in understanding transcriptional and posttranscriptional control mechanisms. Topics include: microbial, yeast and mouse model systems; transcriptional control mechanisms; RNA processing, silencing and microRNAs; protein synthesis and posttranslational modification; microarray- and mass spectrometry-based expression genomics.
Equivalent to: GEN 555
Recommended: BB 451

MCB 557, SCIENTIFIC SKILLS AND ETHICS, 3 Credits
Offers instruction, guest lectures and case-study based discussions of ethical issues relevant to scientists on topics such as mentoring, best practices of conducting research, research misconduct and compliance, intellectual property, peer review, ethical use of animal and human subjects and managing conflicts of interest. Training in the preparation and presentation of scientific seminars and grant writing.
Recommended: BB 451 and BI 314 and BI 460

MCB 563, CANCER AND CHEMOPREVENTION, 2 Credits
A summary of mechanisms of cancer progression, how cancer is detected, and introduction to chemoprevention using targeted therapy and alternative medicine.
Recommended: BB 451 and BI 314 and BI 460

MCB 575, COMPARATIVE GENOMICS, 4 Credits
Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. CROSSLISTED as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575.
Equivalent to: BDS 575, BOT 575
Recommended: BB 314 and (BI 311 or PBG 430) and basic working knowledge of cell and molecular biology and genetics

MCB 576, INTRODUCTION TO COMPUTING IN THE LIFE SCIENCES, 3 Credits
Introduction to management of large datasets (e.g., nucleic acids, protein), computer programming languages, application of basic mathematical functions, and assembly of computational pipelines pertinent to life sciences. CROSSLISTED as BOT 576/MCB 576.
Equivalent to: BOT 576
Recommended: Cell and molecular biology or genetics and familiarity with text editing software and unix/linux operating system

MCB 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MCB 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MCB 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

MCB 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MCB 609, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

MCB 610, INTERNSHIP, 1-9 Credits
Laboratory rotation.
This course is repeatable for 16 credits.

MCB 620, INTRODUCTION TO MOLECULAR MARKERS, 2 Credits
Principles and methods for molecular marker discovery and analysis. Offered even years. CROSSLISTED as PBG 620/MCB 620.
Equivalent to: PBG 620
Recommended: BI 311 or PBG 430 or PBG 530 or HORT 430 or HORT 530

MCB 621, GENETIC MAPPING AND ASSOCIATION, 2 Credits
Principles and methods for genetic map construction and genome-wide association studies. Offered even years. CROSSLISTED as MCB 621/PBG 621.
Equivalent to: PBG 621
Recommended: BI 311 or PBG 430 or PBG 530 or HORT 430 or HORT 530

MCB 622, MAPPING QUANTITATIVE TRAIT LOCI, 1 Credit
Principles and methods for mapping genes underlying phenotypically complex traits. Offered alternate years. CROSSLISTED as MCB 622/PBG 622.
Equivalent to: CSS 622, GEN 622, PBG 622
Recommended: CSS 590 or ST 513

MCB 637, MOLECULAR HOST-MICROBE INTERACTIONS, 3 Credits
Lecture and discussion-based presentation of the molecular bases for interactions between organisms. Addresses bacterial, algal, and fungal symbionts of eukaryotes and considers pathogenesis, commensalism, and mutualism. A focus on the evolution of host-microbe interactions is included.

MCB 671, MOLECULAR TOOLS, 3 Credits
Intended for personnel with some scientific background who are seeking basic- and advanced-level molecular biology knowledge and who wish to become involved with molecular biology-related and biotechnological research. CROSSLISTED as MCB 671/VMB 671.
Equivalent to: VMB 671

MCB 699, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

Professional Science Masters (PSM)

PSM 506, PROJECTS, 1,16 Credit
This course is repeatable for 99 credits.

PSM 507, SEMINAR, 1-16 Credits
This course is repeatable for 99 credits.

Water Resources Policy & Management (WRP)

**WRP 501, RESEARCH**
This course is repeatable for 16 credits.

**WRP 503, THESIS**
This course is repeatable for 999 credits.
WRP 524, SOCIOTECHNOLOGICAL ASPECTS OF WATER RESOURCES, 3 Credits
Core curriculum, graduate-level course in the Water Resources Graduate Program focusing on an interdisciplinary approach to water resources research that integrates the human and the technological dimensions of water resource issues. It is comprised of lecture and discussion sessions with guest lectures by visiting seminar speakers.

WRP 544, MANAGING NATURAL RESOURCES FOR CLIMATE ADAPTATION, 3 Credits
Students will work through series of case studies in resource management to identify strategies and approaches that promote or prevent resilience in resource management. Students participate in discussions and hands-on activities in addition to the lectures and will prepare daily reflections, a final reflection and a final essay due one week after the end of the classroom sessions. This course will use a lecture and discussion format, and draw from the international expertise of the instructor and guest lecturers.

WRP 548, CONDUCTING COLLABORATIVE PROJECTS, 3 Credits
Focuses on development of the abilities needed to complete a directed water-related collaborative project, delivered through experiential learning. The course specifically addresses development of collaborative skills needed to work in interdisciplinary teams. The course activities are centered around a collaborative project on which students will be conducting research, collecting data synthesizing information; and providing classmates with constructive peer-review. Lec/rec.

WRP 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 532, APPLIED FIELD PROBLEMS, 3 Credits
Introduces graduate students to real-world water resources problems and approaches to solving them. Students will assess and analyze the various constraints and limitations to integrated water management that often cannot be adequately simulated in classroom exercises. They will acquire the practical tools necessary to become effective water resources professionals in a rapidly changing world.

WRS 536, FUNDAMENTALS OF HYDROLOGY, 3 Credits
Teaches students from a non-technical background in the Water Cooperation and Peace program the fundamentals of hydrology. Students will be introduced to hydrology and the hydrological cycle at the graduate level with a focus on key concepts. Students will apply these concepts to understanding of real world problems in the associated course, WRS 532, Applied Field Problems. Lec/lab.

WRS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRS 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRS 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WRS 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRS 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 610, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Biological Data Sciences Graduate Minor

The graduate minor in Biological Data Sciences will familiarize MS and PhD graduate students in the life sciences with research concepts and methodologies in quantitative sciences, and those in the quantitative sciences with research concepts and methodologies in life sciences.
The disciplinary learning goals of the minor are by nature foundational. Thus, for example, students with advanced expertise in life sciences would receive foundational training in computer science, statistics and/or mathematics. Students with advanced expertise in computer science would receive foundational training in life science, statistics and, if needed, mathematics. A capstone collaborative problem-solving course will be required by all students. Students may complete all the course work in a single year (encouraged), or may choose spread the courses out over several years. With approval by the director of the minor, students may receive credit for courses taken for their major.

The minor is open to both MS and PhD students.

**Minor Code: 1375**

PhD students must complete at least 18 credits for the minor and MS students must complete 15 credits.

Students must select courses from at least two disciplinary focal areas outside their undergraduate and graduate majors. For example a life sciences student might take courses in mathematics and computer science, while a statistics student might take courses in computer science and life sciences. In each focal area, PhD students must take at least 5 credits and MS students at least 3 credits. Some courses span more than one focal area; these courses may not be counted towards two focal areas simultaneously.

Some courses that are electives in an MS or PhD major may also be counted towards the BLDS minor. For example, a PhD student in Molecular and Cellular Biology (MCB) may select MCB 576 as an elective for their MCB requirements, and also as computer science credit for the BLDS minor.

**Required by All Students:**

</tr>
</tbody>
</table>

Students who do not complete an ethics and professionalism class as part of their PhD major must take MCB 557 or an equivalent course.

Students are recommended to choose their courses from the following lists, depending on their prior preparation as an undergraduate. Equivalent or more advanced courses may be substituted after consultation with the BLDS director. Some courses require prerequisites. Some courses span more than one focal area; such courses can be counted towards one or other of those focal areas, but not both.

Note: All of the 599 classes here represent classes that are in transition to becoming regular offerings.

College and University Teaching Graduate Certificate

Also available via Ecampus.

The 18-credit Graduate Certificate in College and University Teaching (GCCUT) is designed to provide advanced course work and experiential learning opportunities to students who plan to pursue careers in teaching in higher education settings, or who plan to pursue careers in other fields that may require similar facilitation skills. Students completing the Graduate Certificate in College and University Teaching will receive a formal, transcript-visible credential. The certificate will be granted through the Graduate School.

The Graduate Certificate in College and University Teaching is designed to be completed in two years, and may be done in conjunction with a concurrent graduate degree or on its own as a standalone (without an accompanying graduate degree) certificate. There are two versions of the GCCUT program, one at the Oregon State Corvallis campus and the other through Oregon State Ecampus (http://ecampus.oregonstate.edu/online-degrees/graduate/college-university-teaching/). Current Oregon State graduate students and prospective students who intend to complete the certificate as a standalone experience are eligible to apply.

For further information, visit the website (https://gradschool.oregonstate.edu/graduate-certificate-college-and-university-teaching/frequently-asked-questions/) or contact Jessica Beck, Assistant Dean, jessica.beck@oregonstate.edu

Certificate Code: CG11

Comparative Health Sciences Graduate Major (MS, PhD)

This major offers the following option(s):

- Biomedical Sciences (p. 1735)
- Clinical Sciences (p. 1735)

The Comparative Health Sciences graduate major is an interdisciplinary program administered by the Graduate School. Participating colleges include Veterinary Medicine, Public Health and Human Sciences, Pharmacy, and the Graduate School.

The addition of a non-thesis Masters degree track to the CHS Graduate Program aims to serve students who do not see work in laboratory experimental research as their immediate career path.

Comparative Health Sciences is a graduate program under the Graduate School, focusing on a multi-disciplinary approach. Faculty involved in the program have interests in microbiology, ecology, animal science, immunology, nutrition, food science, bioengineering, veterinary medicine, public health, human health, bioinformatics, mathematical modeling, microbiome, neuroscience, and others.

Major Code: 9300
The training involves classes, laboratory research, travel/presentations, outreach activities, teaching and direct participation in a seminar series. The Masters and PhD program requirements are outlined below:

- MS degree students complete a total of 45 graduate credits, including 12 thesis credits.
- Non-thesis MS degree students complete a total of 45 graduate credits, including 9 credits of blanket course VMB 504/VMB 604, after all required core courses are taken.
- PhD degree students complete a total of 108 graduate credits beyond the bachelor’s or professional (DVM, MD) degree, including at least 36 credits of non-blanket course work.

All students complete the core curriculum and at least two electives from the VMB listing or other programs agreed upon by the graduate committee, for a total of 12 credits. It is important to form your committee and consult with them on a regular basis.

### Clinical Sciences Graduate Option

This option is offered within the following major(s):

- Comparative Health Sciences - Graduate School (p. 1734)

The Clinical Sciences graduate option will reflect the unique program of dual clinical residents/graduate students. The purpose of this option is to educate veterinarians in the conduct of research in a specialty clinical environment, consistent with the overall goals of comparative veterinary medicine.

This option is available only to dual clinical residents/graduate students of the College of Veterinary Medicine, in conjunction with 2-, 3- or 4-year residencies in a veterinary specialty.

### Option Code: 9305

### Minor Code: 9310

**Comparative Health Sciences Graduate Minor**

Minor Code: 9310
Environmental Sciences

Environmental sciences consists of curricula that foster interdisciplinary education for students seeking to better understand earth systems. The undergraduate curriculum leads to the BS degree in Environmental Sciences and requires students to complete courses that develop a broad base of knowledge in basic science disciplines, social sciences, and an area of specialization. A minor in environmental sciences is also available for those undergraduate students completing their degrees in other fields. The theme of the Environmental Sciences Program is central to the mission of OSU and reflects the strengths of OSU and other agencies and institutions in Corvallis and throughout the state of Oregon. The BS degree in Environmental Sciences provides excellent training for careers with agencies responsible for environmental protection and natural resource use, consulting firms, and those seeking opportunities for graduate studies.

Website: http://envsci.science.oregonstate.edu/

ENSC 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

ENSC 004, INTERNSHIP, 0 Credits
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students' understanding of the connection between theory and practice in their respective disciplines.

ENSC 101, ENVIRONMENTAL SCIENCES ORIENTATION, 1 Credit
Introduction to the Environmental Sciences Program and related professional and educational opportunities. Recommended for all freshman and first-year transfer environmental sciences majors, but open to all students interested in learning about career options in the environmental sciences. Graded P/N.

ENSC 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ENSC 399H
This course is repeatable for 16 credits.

ENSC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits. Available via Ecampus

ENSC 402, INDEPENDENT STUDIES, 1-16 Credits
This course is repeatable for 24 credits.

ENSC 403, THESIS, 1-16 Credits
This course is repeatable for 24 credits.

ENSC 405, READING AND CONFERENCE, 1-12 Credits
Equivalent to: ENSC 405H
This course is repeatable for 12 credits.

ENSC 406, PROJECTS, 1-16 Credits
This course is repeatable for 24 credits.

ENSC 407, SEMINAR, 1-16 Credits
Equivalent to: ENSC 407H
This course is repeatable for 12 credits.

ENSC 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENSC 407
This course is repeatable for 12 credits.
Available via Ecampus

ENSC 408, WORKSHOP, 1-16 Credits
This course is repeatable for 12 credits.

ENSC 410, ENVIRONMENTAL SCIENCE INTERNSHIP, 1-12 Credits
Supervised practical experience working with professionals at selected cooperating institutions, agencies, laboratories, or companies. Graded P/N.
This course is repeatable for 48 credits.
Available via Ecampus

ENSC 452, ENVIRONMENTAL ASSESSMENT, 3 Credits
Environmental site assessment is a primary tool for environmental science professionals. Apply environmental science concepts to evaluate features of a specific natural area and conduct a land suitability analysis. Create a conceptual site design and management plan that complies with federal, state, and local regulations and environmental laws.
CROSSTHISTED as ENSC 452/GEOG 452 and GEOG 552.
Equivalent to: GEOG 452
Available via Ecampus

This course is repeatable for 16 credits.
ENSC 479, "ENVIRONMENTAL CASE STUDIES, 3 Credits
Improves students' ability to ask questions, gather and synthesize information, and communicate ideas on environmental topics. Instruction and information necessary for the course is entirely Web based. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: BOT 479
Recommended: One year of college biology or chemistry
Available via Ecampus

ENSC 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ENSC 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENSC 503, THESIS, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 999 credits.
Available via Ecampus

ENSC 504, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENSC 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ENSC 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ENSC 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ENSC 508, WORKSHOP, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 16 credits.
Available via Ecampus

ENSC 510, INTERNSHIP, 1-12 Credits
This course is repeatable for 12 credits.
Available via Ecampus

ENSC 515, ENVIRONMENTAL PERSPECTIVES AND METHODS, 3 Credits
Unique perspective or method each quarter. Possibilities include: remote sensing, modeling over a range of scales in time, space, and levels of system organization; and risk analysis.
Available via Ecampus

ENSC 516, USING BEST PRACTICES IN ENVIRONMENTAL PROJECT MANAGEMENT, 4 Credits
Explore foundational project management concepts using a real world case-study to practice both soft and hard skills through individual and group assignments, discussions and presentations. Apply best practices, methodologies and tools using a global standards framework to achieve successful outcomes in environmental project management work. Active learning and networking are incorporated throughout the course to provide a full perspective on project management.
Available via Ecampus

ENSC 520, ENVIRONMENTAL ANALYSIS, 3 Credits
Develop analytical thinking, explore analytical approaches, enhance writing skills, and gain experience in oral communication about environmental issues.
Available via Ecampus

ENSC 540, ENVIRONMENTAL SCIENCE PERSPECTIVES ON THE FUTURE OF FOOD, 4 Credits
Examines the newest developments in environmental science research and on-the-ground best management practices for achieving food security and sustainability for growing U.S. and global populations in a dynamic environment and climate.
Available via Ecampus

ENSC 541, ENVIRONMENTAL SCIENCE, SCIENTISTS, AND SOUND DECISIONS, 4 Credits
Focusing on analyzing the role of environmental science and scientists in decision-making in a variety of professional contexts at various scales (local through global) using a case-study approach and proposing a draft model process.
Available via Ecampus

ENSC 542, MANAGEMENT OPPORTUNITIES IN THE NITROGEN CASCADE, 4 Credits
Analyzes the environmental science behind reducing excess reactive nitrogen entering the environment through our provision of food, power, and transportation for future populations. Identifies emerging complementary suites of interventions and legislation innovating management practices at local, regional, national and international scales.
Available via Ecampus

ENSC 543, EXCELLENT IN AN INTERDISCIPLINARY TEAM, 4 Credits
Identifying, examining and practicing the top skills, attributes and leadership dynamics involved in working in interdisciplinary environmental science teams in industry, government, and research organizations, informed by experienced experts across these areas.
Available via Ecampus
Environmental Sciences Graduate Major (MA, MS, PhD, PSM)

Graduate Areas of Concentration

Biogeochemistry, ecology, environmental education, natural resources, quantitative analysis, social science, water resources, climate change

PSM and MS also available via Ecampus.

The Environmental Sciences (ES) Graduate Program provides curricula leading to MA, MS (Corvallis campus and Ecampus), PSM (Corvallis campus and Ecampus), and PhD degrees in Environmental Sciences. The MS degree, non-thesis option, in Environmental Sciences is available via Ecampus in addition to OSU Main – Corvallis.

The curriculum integrates thinking across disciplines, especially life, physical, and social sciences. Environmental science explores natural processes on earth and their alteration by human activity. OSU has exceptional strength in many of the disciplines, including science, agriculture, forestry, engineering, public health, liberal arts, social science, and oceanography and atmospheric science. Strength in these disciplines allows the ES Graduate Program to provide high-quality interdisciplinary education for environmental scientists and continuing postgraduate educational opportunities to scientists who are already active in the field. The degrees administered by the program are OSU’s contribution to the Joint-Campus Graduate Program in Environmental Sciences, Studies, and Policy, which links environmental graduate programs among the major research universities in Oregon.

The ES Graduate Program develops scientists who will be able to analyze and understand environmental systems, predict environmental change, and participate in the management of the environment. Each student completing a major in the ES Graduate Program will perform research and complete a thesis, dissertation, or research project. Each student will complete a core of ES graduate courses that will integrate concepts across the physical sciences, life sciences, and social sciences. Each student will also develop depth in a carefully designed, interdisciplinary area of concentration or track. Tracks that are currently available include ecology, biogeochemistry, social science, quantitative analysis, water resources, and environmental education. Methods and numerical skill courses, electives, and thesis or non-thesis project credits comprise the remainder of a student’s program.

Students in the ES Graduate Program may choose advisors from faculty members already appointed at OSU, as well as other scientists who apply and are accepted in the environmental sciences graduate faculty. The Environmental Sciences Graduate Program fosters interdisciplinary education and seeks connections between institutions.

Professional Science Master’s (PSM) Degree in Environmental Sciences

The Professional Science Master’s degree in Environmental Sciences (PSM@ENSC) provides advanced training for early- and mid-career professionals with a need for expertise in environmental sciences. Preferably applicants would have at least two years of experience working in the environmental field, but this is not mandatory for admission. The PSM@ENSC degree is offered as a non-thesis Master’s degree program with an internship. Students have an advisor and graduate committee to review their program of study, provide career and internship advice, and evaluate a final report based on the internship experience.

The Master of Arts in Interdisciplinary Studies (MAIS) degree program is designed to permit students to formulate programs that integrate work from three separate disciplines. Breadth of study is important in designing the program. A research paper or thesis offers the opportunity to integrate the three disciplines.

Many programs at OSU participate in the MAIS program. Please consult the MAIS program director to determine specific program participation.

Graduate programs that are participating in this degree are listed in the Graduate School website (http://gradschool.oregonstate.edu/programs/).

Admission

The applicant must satisfy university admission requirements at the graduate level and must gain acceptance at the point of admission by the departments offering the fields that will make up the program.

Administration

The Graduate School will handle general administration and recordkeeping. Students with general questions about the MAIS degree are encouraged to confer with the director of the MAIS graduate program.

The student should select a committee in consultation with the department/school chair of the emphasized field or with their designated representative. With the advice of the committee chair, the student will select a committee member from each of the remaining two fields. The student will select the fourth committee member, a Graduate Council representative, from a list of names to be obtained in the Graduate School office. All members of the committee must be on the graduate faculty.

Before the completion of 18 credits of graduate course work, the student must file the official program form, approved by the committee. Program planning meetings are required, and the student has the responsibility for arranging the committee meetings necessary in the planning of the program. In the event that the student subsequently desires to change one or more disciplines on their program, the student must file a change in degree program with the Graduate School and schedule another program meeting in order to gain committee approval.

For more information, contact the Director.

Major Code: 9900

The Master of Arts in Interdisciplinary Studies (MAIS) degree is granted for attainment of broad, advanced knowledge and achievement integrated from three fields of study. Any graduate major or minor may serve as a field for this degree. Two of the three fields may be from one department if the areas of concentration within these two fields are different. A minimum of 9 credits in each of the three fields of study is required. The degree requires a minimum of 49 credits, including 4 credits of course work on interdisciplinary research methods.

No more than 21 credits (excluding thesis or research paper credit) may be taken in any field unless the total program exceeds 49 credits. There is no foreign language requirement. No more than 3 credits of blanket-numbered courses in each field of study may be used in the program; thesis credits (Option A) or research paper credits (Option B) are exempt from this limitation. The student’s committee consists of four members of the graduate faculty—one from each of the three fields—and a Graduate Council representative. A formal program meeting must be held prior to the completion of 18 graduate credits. A final oral examination is required.

There are two options under the program:

Option A: Thesis option. The thesis must coordinate work in the three fields. The requirement is 6 to 9 credits of Thesis 503. The thesis advisor must be a member of the graduate faculty authorized to direct theses.

Option B: Research paper option. The research paper must integrate work from at least two of the three fields. The requirement is 4 to 7 credits, registered as Research 501, Reading and Conference 505, or Projects 506.

Major Code: 9900

Water Resources Engineering

Graduate Areas of Concentration

Groundwater engineering, surface water engineering, watershed engineering

A graduate major or minor in Water Resources Engineering for the master of science, master of arts, and doctor of philosophy degree programs is offered with specialization in groundwater engineering, surface water engineering, or watershed engineering. Seminars, courses, and reading
and conference courses in water resources engineering are offered by the
Water Resources Graduate Program.

The graduate major or minor options are structured around courses
designed to broaden the student's education in one of the above areas
of concentration. University departments and schools that offer courses
related to water resources engineering include the departments of
Biochemistry and Biophysics; Biological and Ecological Engineering;
Botany and Plant Pathology; Chemistry; Crop and Soil Science;
Geosciences; Mathematics; Rangeland Ecology and Management;
Statistics; the School of Forest Engineering, Resources and Management;
the School of Biological and Population Health Sciences; the School
of Chemical, Biological, and Environmental Engineering; the School
of Civil and Construction Engineering; the School of Mechanical, Industrial,
and Mechanical Engineering; and the College of Earth, Ocean, and
Atmospheric Sciences. About 20 departments conduct teaching or
research programs in water resources.

WRP 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRP 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRP 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRP 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.
WRP 509, PRACTICUM, 1-16 Credits
This non-traditional class explores tools, models and concepts in the collaborative decision-making process in water resources. Emphasis is on group projects and self-directed practical application of community-based natural resources.
This course is repeatable for 16 credits.
Available via Ecampus

WRP 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 517, WRITING IN WATER RESOURCES, 4 Credits
An intensive summer course to develop proficiency in writing at a graduate level for the wide range of writing tasks common to water resource professionals. Students will complete individual in-class writing assignments and collaborate on a draft of a technical report. While it is designed for students in the Water Cooperation and Peace joint degree program (many of whom will be international students) the course will also be useful for other students. Lec/rec.

WRP 521, WATER CONFLICT MANAGEMENT AND TRANSFORMATION, 3 Credits
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.
Available via Ecampus

WRP 523, ENVIRONMENTAL WATER TRANSACTIONS, 3 Credits
Covers the theory and practice of using water rights transactions to reallocate water rights to environmental purposes. Different transactional techniques and contexts appropriate to their use are presented through case studies primarily from the western United States, with some reference to the use transactions in other countries such as Australia.
Available via Ecampus

WRP 524, SOCIOTECHNOLOGICAL ASPECTS OF WATER RESOURCES, 3 Credits
Core curriculum, graduate-level course in the Water Resources Graduate Program focusing on an interdisciplinary approach to water resources research that integrates the human and the technological dimensions of water resource issues. It is comprised of lecture and discussion sessions with guest lectures by visiting seminar speakers.

WRP 544, MANAGING NATURAL RESOURCES FOR CLIMATE ADAPTATION, 3 Credits
Students will work through series of case studies in resource management to identify strategies and approaches that promote or prevent resilience in resource management. Students participate in discussions and hands-on activities in addition to the lectures and will prepare daily reflections, a final reflection and a final essay due one week after the end of the classroom sessions. This course will use a lecture and discussion format, and draw from the international expertise of the instructor and guest lecturers.

WRP 548, CONDUCTING COLLABORATIVE PROJECTS, 3 Credits
Focuses on development of the abilities needed to complete a directed water-related collaborative project, delivered through experiential learning. The course specifically addresses development of collaborative skills needed to work in interdisciplinary teams. The course activities are centered around a collaborative project on which students will be conducting research, collecting data synthesizing information; and providing classmates with constructive peer-review. Lec/rec.

WRP 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRP 808, WORKSHOP, 1-4 Credits
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.
This course is repeatable for 4 credits.

Water Resources Policy and Management Graduate Major (MS)

Graduate Areas of Concentration
Water resources policy and management

A Masters Degree in Water Resources Policy and Management is offered with specialization in the human dimensions of water resources policy and management. Seminars, readings, and conferences in water resources policy and management are offered by Water Resources Graduate Program and several affiliated departments.

The graduate degree options are structured around courses designed to broaden the student's education in water resources policy and management. University departments that offer courses related to water resources policy and management include the departments of Applied Economics; Anthropology; Fisheries and Wildlife; Geosciences; Rangeland Ecology and Management; Statistics; and Zoology; the School of Public Policy; the School of Forest Engineering, Resources and Management; the School of Biological and Population Health Sciences; the College of Business Administration, and the College of Earth, Ocean, and Atmospheric Sciences.

#### Graduate Areas of Concentration

**Water resources policy and management**

A graduate minor in Water Resources Policy and Management for the master of science, master of arts, and doctor of philosophy degree programs is offered with specialization in the human dimensions of water resources policy and management. Seminars, readings, and conferences in water resources policy and management are offered by Water Resources Graduate Program and several affiliated departments.

The graduate minor options are structured around courses designed to broaden the student's education in water resources policy and management. University departments that offer courses related to water resources policy and management include the departments of Applied Economics; Anthropology; Fisheries and Wildlife; Geosciences; Rangeland Ecology and Management; Statistics; and Zoology; the School of Public Policy; the School of Forest Engineering, Resources and Management; the School of Biological and Population Health Sciences; the College of Business Administration, and the College of Earth, Ocean, and Atmospheric Sciences.

For more information, email gradwater_director@oregonstate.edu or visit the website (http://oregonstate.edu/gradwater/).

**Minor Code:** 0990

### Water Resources Science

A graduate major or minor in Water Resources Science for master of science, master of arts, and doctor of philosophy degree programs is offered with specialization in hydrology or geochemistry. Seminars, readings, and conferences are offered by the Water Resources Graduate Program.

The graduate minor options are structured around courses designed to broaden the student's education in water resources science, specifically in hydrology or geochemistry. University departments and schools that offer courses related to water resources science include the departments of Biochemistry and Biophysics; Biological and Ecological Engineering; Botany and Plant Pathology; Chemistry; Crop and Soil Science; Entomology; Fisheries and Wildlife; Geosciences; Mathematics; Microbiology; Rangeland Ecology and Management; Statistics; and Zoology; and the School of Forest Engineering, Resources and Management; the School of Biological and Population Health Sciences; the School of Chemical, Biological, and Environmental Engineering; the School of Civil and Construction Engineering; the School of Mechanical, Industrial, and Mechanical Engineering; the School of Public Policy;
and the College of Earth, Ocean, and Atmospheric Sciences. About 20 departments conduct teaching or research programs in water resources.

WRS 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 532, APPLIED FIELD PROBLEMS, 3 Credits
Introduces graduate students to real-world water resources problems and approaches to solving them. Students will assess and analyze the various constraints and limitations to integrated water management that often cannot be adequately simulated in classroom exercises. They will acquire the practical tools necessary to become effective water resources professionals in a rapidly changing world.

WRS 536, FUNDAMENTALS OF HYDROLOGY, 3 Credits
Teaches students from a non-technical background in the Water Cooperation and Peace program the fundamentals of hydrology. Students will be introduced to hydrology and the hydrological cycle at the graduate level with a focus on key concepts. Students will apply these concepts to understanding of real world problems in the associated course, WRS 532, Applied Field Problems. Lec/lab.

WRS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRS 603, THESIS, 1-16 Credits

Water Resources Graduate Minor
Graduate Areas of Concentration
Hydrology, water quality, water resources planning and management

A Water Resources graduate minor for the master of science, master of arts, and doctor of philosophy degree programs is offered with specialization in hydrology, water quality, or water resources planning and management. The first two options are technically oriented while the third gives added socioeconomic emphasis. Seminars, readings, and conferences are offered by Water Resources Graduate Program.

The graduate minor options are structured around core groups of courses and complementary courses designed to broaden the student’s education. University departments and schools that offer courses related to water resources include the departments of Applied Economics; Anthropology; Biochemistry and Biophysics; Biological and Ecological Engineering; Botany and Plant Pathology; Business Administration; Chemistry; Crop and Soil Science; Entomology; Fisheries and Wildlife; Forest Engineering; Forest Resources; Mathematics; Microbiology; Public Health; Rangeland Ecology and Management; Statistics; and Zoology; the School of Chemical, Biological, and Environmental Engineering; the School of Civil and Construction Engineering; the School of Mechanical,
Industrial, and Mechanical Engineering; School of Public Policy; and the College of Earth, Ocean, and Atmospheric Sciences. About 20 departments conduct teaching or research programs in water resources.

International Programs
Office of International Services (OIS)

Grace Atebe, Director
University Plaza
1600 SW Western Blvd., Suite 130
Oregon State University
Corvallis, Oregon 97333
Phone: 541-737-6310
Email: grace.atebe@oregonstate.edu
Website: http://international.oregonstate.edu/ois/

The Office of International Services (formerly International Student Advising and Services, and International Scholar and Faculty Services) collaborates with campus and community partners to support the success and retention of all OSU international visitors from approximately 100 different countries. This includes over 500 international faculty and staff, and over 4,000 students in degree, exchange and INTO OSU (English Language and academic preparation (Pathway) programs). OIS is responsible for all international student and scholar immigration related advising, orientation, cultural, financial, scholarships, travel, employment, personal or academic related matters. OIS manages select merit and need based financial scholarships for international students including the International Cultural Service Program (ICSP).

OIS also maintains the regulatory compliance and integrity of OSU's international student and international employee visa programs. Through trainings, workshops and consultation, the unit serves as a liaison and resource to OSU colleges and departments, as well as community groups to enhance understanding of student and scholar immigration regulations and cross cultural competency.

General inquiries can also be directed to:

International Studies Undergraduate Major (BA, HBA)

Also available at OSU-Cascades.

The International Degree is Oregon State University's unique double-degree program. It allows any interested undergraduate student the opportunity to explore the international dimensions of any primary major. International Degree students complete Advanced Proficiency in a Second Language, Four additional Baccalaureate Core Courses in International Studies, an International Experience, and a Senior Thesis.

As an International Degree participant, you will earn two degrees. The first degree, the primary degree, will be your chosen major in any department on campus. The International Degree, or concurrent degree, will be in International Studies in your primary degree department.

For example, if your primary degree is a BS in Environmental Sciences, then the International Degree would be a BA in International Studies in Environmental Sciences.

For more information about this degree, contact:

Kerry Thomas, Academic Advisor, International Degree
International Degree and Education Abroad
University Plaza
1600 SW Western Blvd., Suite 130
Oregon State University
Corvallis, Oregon 97333
Phone: 541-737-5223
**Admission Requirements to the International Degree Program**

1. A minimum 2.75 cumulative GPA after completing at least 32 credits of college-level courses and good standing within your department, college and the university. The dean of your college may give you special consideration if you fall below this minimum. See the International Degree office for more information about this process.

2. Proficiency in a foreign language equivalent to that attained by the end of a second-year language sequence at OSU. This may be met in one of the following ways:
   a. Successful completion of four or more years of consecutive study of the same foreign language at the high school level preceding admission to Oregon State University;
   b. Completion of the AP College Board test in a foreign language with a score of 4 or 5;
   c. Completion of the third term of a second-year foreign language sequence at OSU or another accredited university with a GPA of 3.0 or better. This course must constitute a minimum of 4 quarter or 3 semester credits.
   d. Completion of one term of a third-year foreign language course (i.e., any course designated 311, 312 or 313) at OSU or another accredited university with a GPA of 3.0 or better. This course must constitute a minimum of 3 quarter or 2 semester credits.
   e. An international student whose native language is not English who wishes to use English to satisfy the foreign language entrance requirement will have satisfied the requirement upon admission to OSU.

3. Meet any additional requirements established by your major department or college.

**Special Notes about Admission**

If you change majors after admission to the International Degree Program, you will have to reapply for admission to the International Degree Program in your new department.

If you are pursuing two degrees besides the International Degree, you only need to apply for the International Degree in one department. The choice of departments is up to you, but you should consult your advisors before determining where to apply.

**General International Degree Requirements**

1. You must successfully complete all departmental, college, and institutional requirements for your primary degree.

2. You must also complete a minimum of 32 credits in residence beyond the minimum 180 to 204 credits required for most primary degrees. Courses taken through an OSU-sponsored program abroad are considered in-residence credits. Depending on the level of previous foreign language study and experience abroad, you could take anywhere from a minimum of 32 additional credits to a maximum range of 70-plus additional credits to complete the degree.

3. Additional International Degree requirements may be established for your primary degree, so check with your major advisor or the International Degree contact in your department to make sure that you know what they are and that you are able to complete them. When you meet with your advisor, have a transcript in hand.

4. As is currently true for all degrees, your academic dean will verify that you have completed the International Degree requirements. The graduation audit will be done along with and in the same fashion as for your primary degree by your major department. Confirmation of the International Degree will be appropriately noted on your transcripts, and you will receive separate diplomas.

**Specific International Degree Requirements**

1. You must demonstrate advanced level achievement or proficiency in a foreign language in one of the approved ways. Typically, this requirement is met by completing the third term of a fourth-year language sequence at OSU. Students must take language courses for letter grades and earn a cumulative GPA of 3.0. Exceptions may be considered only by petition (see International Degree office for details). To find out about additional ways to demonstrate advanced proficiency, contact the International Degree office.

2. You must successfully complete a minimum of four courses selected from the baccalaureate core curriculum, with the approval of your departmental International Degree advisor. These courses are in addition to the university’s baccalaureate core requirements. The International Degree course requirements from the baccalaureate core are as follows:
   - One course selected from the Western Culture category (3–4 credits);
   - Two courses selected from the Cultural Diversity category (6–8 credits);
   - One course selected from the Western Culture, Cultural Diversity, or Contemporary Global issues categories (3–4 credits). **Note:** Not all four courses may focus on the same culture or language. For example, you cannot take all four of the additional baccalaureate core courses focusing on Spanish speaking countries/peoples.
   - To see the entire baccalaureate core list, refer to the BCC listings in the Catalog (p. 2423)

3. The third requirement of the degree is to spend a minimum of 10 weeks in a country where your International Degree language is spoken and be engaged in a study abroad program, an international internship or an international research project.

4. The final requirement for the degree is to prepare a rigorous and integrative senior thesis, which demonstrates a fundamental and comprehensive understanding of global issues and of the international dimensions of your primary degree. Requirements for the senior thesis include successful completion of INTL 407 for 1 credit, and 3 to 6 credits of 403 (Thesis) in your department.

**Graduation Language Requirements**

Students must demonstrate advanced level achievement or proficiency in a single foreign language in one of the following ways:

- Completion of a four-year foreign language sequence (designated 411, 412, 413) at OSU with a minimum 3.00 GPA cumulative in all foreign language courses. Courses must be taken for a letter grade and may not be graded S/U.
- Completion of a four-year foreign language sequence at another accredited university with a minimum 3.00 GPA, in a program in which
the combined third-year and fourth-year language courses constitute a minimum of 18 quarter or 12 semester credits.

- Completion of a minimum of 9 quarter (6 semester) credits with a minimum 3.00 GPA, at Oregon State University or another accredited university, of any 400-level course work (in any discipline) taught in a foreign language, if approved by the student’s primary degree department or school.
- Demonstration of end of fourth-year level proficiency in a foreign language by successful completion of an achievement test administered by the School of Language, Culture, and Society at OSU.
- Demonstration of fourth-year level proficiency in a foreign language as evidenced by an oral proficiency test administered by a certified foreign language proficiency tester that is approved by the OSU School of Language, Culture, and Society.
- For languages not offered at OSU, the requirement may also be completed by a minimum of nine-month residency (study, research, work), after fulfilling the foreign language entrance requirement, in a country in which the language is spoken.
- Completion of a minimum of one term international internship using the target language after completion of a third-year language sequence (311, 312, 313) at OSU with a cumulative GPA of 3.0 or above.

Experience Abroad

Students must spend a minimum of 10 weeks in another country where the language used to meet the International Degree requirement is spoken and be engaged in one of the following:

- A study abroad program offered by OSU, another university, or a program designed by the student. Programs administered by other universities or those designed by students must be approved by the International Degree Program and the student's primary degree department. Currently OSU has university-sponsored programs in over 70 countries.
- An international internship or work program that receives academic credit, such as the IE3 Global Internship Program offered by OSU.
- A pre-approved research project abroad.
- Previous international experience, such as the Peace Corps, approved by the primary academic department and the International Degree Program.

Senior Thesis

The final requirement for the degree is to prepare a rigorous and integrative senior thesis that demonstrates a fundamental and comprehensive understanding of global issues and of the international dimensions of your primary degree. This thesis places your academic discipline in an international context, often in a comparative fashion. Because it fulfills the writing intensive course requirement for the International Degree, it will involve multiple drafts and revisions. The final product will represent polished, formal writing, in a format appropriate to your academic field.

Dual Thesis Requirements

You may write one thesis to meet the International Degree requirement and the thesis requirement in your department. If you will complete a senior thesis to meet another academic requirement in your primary degree, it is important to consult with academic advisors in your major as well as in the International Degree office.

- **Example:** If you are in the University Honors College, you would register for a minimum of 3 credits of SOC 403. If you are a mathematics major, you would register for MTH 403. Some departments already have a thesis course listed in the schedule of classes, but other departments may ask the registration schedule desk to set up a CRN for that course number during the term(s) for which you wish to register for thesis credit.

These credits may be graded or pass/no pass. If you and your advisor agree that the scope of your thesis warrants additional credit, and your college and department's policies allow it, you may register for additional credits. The suggested maximum is 6 credits.

Colleges, departments, or advisors may elect to set different requirements for thesis credits that meet the needs of their programs. In this case, the requirements or preferences of the college/department take precedence over general International Degree requirements.

Requirements for the Senior Thesis

**Thesis class:** As a part of your program, you will enroll in the 1-credit class INTL 407, offered on a pass/no pass grading basis. The course is offered twice a year during fall and winter terms. It is designed to help you define and focus your areas of interest, get an overview of research methods, develop your thesis ideas, identify a suitable advisor in your major department who will assist you throughout the process, complete a thesis proposal form, and develop a realistic and effective timetable for completion. During this course, you will receive a copy of the guide, Preparing a Senior Thesis. **Note:** If you are also a student in the University Honors College, you may enroll in either the UHC thesis class or the International Degree Program's thesis class.

**Final thesis:** This represents polished, formal writing. Theses average 30 to 50 pages, but to ensure fulfillment of the WIC requirement, even a thesis with a nonverbal component such as art, music, or photography must include a minimum of 8 to 10 pages of formal writing and place the
For more than a century, military training has been offered at Oregon State University. Fulfilling a provision of the Morrill Act of 1862, which gave Corvallis College its first public support, an Army Cadet Corps was organized in 1873.

ROTC at Oregon State is made up of the departments of Military Science, Naval Science, and Aerospace Studies. In 1917, the Department of Military Science became responsible for all military training under the National Defense Act of 1916. This act expanded and standardized the training of Army officers by colleges and universities and established the Reserve Officer Training Corps (ROTC). During World War II, OSU became known as the “West Point of the West” for commissioning more officers than any other nonmilitary academy in the nation. At the end of World War II, the secretary of the Navy commissioned the Department of Naval Science (NROTC) on this campus to provide the training of both Navy and Marine Corps officers. On July 1, 1949, the U.S. Air Force activated an AFROTC unit that today is called the Department of Aerospace Studies. OSU is now one of 48 colleges and universities that offer education for all three military departments.

Originally, two years of military science and tactics were required of all able-bodied male students, but since 1962, ROTC has been voluntary. Since 1965, two-year programs have been available for students who have finished two years of college but have not taken ROTC previously.

As opportunities for women to serve as officers in the armed forces grow, opportunities for women to participate in ROTC programs expand. Women have long been eligible to take ROTC course work for credit. Since 1970, they have been enrolled as cadets in Air Force ROTC and, since 1973, have also been enrolled as cadets and midshipmen in the Army and Navy ROTC programs.

**Mission and Objectives**

The ROTC selects and prepares young men and women, through a program of instruction coordinated with the student’s normal academic curriculum, for commissioning and service as officers in the regular and reserve components of the Army, Navy, Air Force, and Marine Corps.

**Uniforms and Allowances**

Students in each of the units receive uniforms to be worn at drill periods and on special occasions. Travel to and from any summer camps or cruises is paid. While at camp or on a cruise, the members receive food and quarters at government expense in addition to basic pay. (See the individual sections for further information on the various camps and cruises.) Those selected for the scholarship programs receive tuition, books, and fees plus $300 to $500 a month subsistence pay for up to 40 months.

**Flight Training**

Eligible Army, Navy, Marine Corps, and Air Force ROTC students may be selected for flight training upon their successful completion of the program and commissioning.

**How to Enroll**

See the Army (https://catalog.oregonstate.edu/college-departments/rotc/military-science/), Navy (https://catalog.oregonstate.edu/college-departments/rotc/naval-science/), or Air Force (https://catalog.oregonstate.edu/college-departments/rotc/aerospace-studies/) sections of this catalog for enrollment details for the various ROTC programs. All three departments have staff available throughout the year during normal school hours to answer any inquiries regarding the ROTC programs.

**Aerospace Studies (AS)**

**AS 111, FOUNDATIONS OF THE AIR FORCE PART I, 1 Credit**

The introduction to the Air Force mission and organization. Featured topics include Air Force dress and appearance stand standards; military customs and courtesies, Air Force heritage, overview of the Department of the Air Force, and Air Force core values. Basic oral and written communication will be assessed.
AS 112, FOUNDATIONS OF THE AIR FORCE PART II, 1 Credit
Second part of the introduction to the Air Force mission and organization. Featured topics include Air Force career opportunities, Air Force benefits, military communication skills, Air Force installations, and look at the basic characteristics of war. Basic oral and written communication will be assessed.

AS 113, FOUNDATIONS OF THE AIR FORCE PART III, 1 Credit
Third part of the introduction of what the Air Force is about and what the Air Force has to offer. Featured topics include basic leadership, team building, interpersonal skills, diversity in the Air Force, and the oath of office and commissioning. Basic oral and written communication will be assessed.

AS 120, LEADERSHIP LABORATORY, 1 Credit
Cadets learn officership, leadership, drill and ceremony, and customs and courtesies. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 211, THE EVOLUTION OF AIR AND SPACE POWER 1860-1945, 1 Credit
Study of the development of air power, concepts, and doctrine from its beginnings to the end of World War II. Historical examples examined include balloons, dirigibles, Wright Brother’s first flight, and the role of air power in World War I and II. Oral and written communication skills will be assessed.

AS 212, THE EVOLUTION OF AIR AND SPACE POWER 1945-1990, 1 Credit
Study of the development of air power, concepts, and doctrine during the Cold War. Historical examples examined include the Berlin Airlift, nuclear deterrence, and the role of air power employment in the Korean and Vietnam conflicts. Oral and written communication skills will be assessed.

AS 213, THE EVOLUTION OF AIR AND SPACE POWER 1991-2025, 1 Credit
Study of the factors contributing to the development of air power, concepts, and doctrine from the Persian Gulf War in 1990 to the present and beyond. Historical examples examined include the air campaigns used in the Gulf War, Kosovo crisis, Operations Enduring Freedom, Iraqi Freedom, and the Global War on Terrorism. Oral and written communication skills will be assessed.

AS 220, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in element leadership positions as a preparation for Air Force active duty. Cadet responsibilities include planning, organizing, directing, and controlling the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 299, SPECIAL TOPICS IN AIR FORCE STUDIES, 1-16 Credits
Supervised individual work. This course is repeatable for 99 credits.

AS 304, FIELD TRAINING, 6 Credits
Four-week field training supplements campus courses in developing leadership and discipline. Mission, organization, and functions of an Air Force base; marksmanship, survival, and physical training; aircrew and aircraft indoctrination; orientation on specific opportunities in career fields. Conducted at an Air Force base. Graded P/N.

AS 311, LEADERSHIP FUNDAMENTALS, TEAM BUILDING AND PROBLEM SOLVING, 3 Credits
Emphasis on leadership and management fundamentals, team building and problem solving. Case studies are used to examine leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Unique exercises will be utilized to emphasize team building and problem solving. Oral and written communication skills will be assessed.

AS 312, EFFECTIVE SUPERVISION AND GROUP CONFLICT MANAGEMENT, 3 Credits
Emphasis on situational leadership, group conflict management, effective supervision, professional knowledge, and communicative skills required of an Air Force officer. Unique case studies on leadership and management situations, and group conflict management will be utilized. Oral and written communication skills will be assessed.

AS 313, LEADERSHIP, ETHICS, AIR FORCE CORE VALUES AND ACCOUNTABILITY, 3 Credits
Emphasis on leadership ethics, leadership core values, leadership accountability, and professional knowledge. Unique case studies on leadership ethics and accountability will be utilized. Oral and written communication skills will be assessed.

AS 320, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in line and staff leadership positions as a preparation for Air Force active duty. Cadet responsibilities include planning, organizing, directing, and controlling the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 405, READING AND CONFERENCE, 1-16 Credits
Supervised individual work. This course is repeatable for 16 credits.
AS 411, NATIONAL SECURITY AFFAIRS, 3 Credits
Emphasis on the needs for national security, evolution of American defense strategy, policy, and organization. Examination of methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues will also be addressed. Refinement of oral and written communication skills will be assessed.

AS 412, WORLD REGIONAL CULTURAL STUDIES, 3 Credits
Study key transnational issues and religious or ethnic factors that shape the environment Air Force professionals must operate in. Emphasis will be on national security perspective of Africa, South Asia, East Asia, Latin America, Europe, Middle East and former Soviet Republics in transition. Refinement of oral and written communication skills will be assessed.

AS 413, PREPARATION FOR ACTIVE DUTY, 3 Credits
Emphasis on current military issues, evaluation systems, military commission, and risk management. Final preparation for the Air Force professional before commissioning. Refinement of oral and written communication skills will be emphasized.

AS 420, LEADERSHIP LABORATORY, 1 Credit
The senior-level Leadership Laboratory program places cadets in command, line, and staff positions as a preparation for commissioned Air Force service. Cadet responsibilities include planning, organizing, directing, coordinating, and controlling leadership laboratory and the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 6 credits.

Military Science (MS)

MS 111, MILITARY SCIENCE I: INTRODUCTION TO ARMY LEADERSHIP AND ROTC, 1 Credit
Introduction to ROTC, and its relationship to the U.S. Army. Role of the army officer, including leadership and management fundamentals. Introduction to land navigation. Lec/lab.

MS 112, MILITARY SCIENCE I: INTRODUCTION TO BASIC MILITARY SKILLS, 1 Credit
Basic small unit tactics; land navigation; how to read a topographic map and use a magnetic compass; includes practical exercises. Graded A-F only.

MS 113, MILITARY SCIENCE I: INTRODUCTION TO TACTICAL LEADERSHIP, 1 Credit
Customs and traditions of the U.S. Army; unit organization and missions. Types of careers available to army officers. Practical exercises. Lec/lab.

MS 130, MILITARY PHYSICAL CONDITIONING, 1 Credit
Prepares military science cadets and university students to excel in the Army Physical Fitness Test (APFT). (Bacc Core Course) Attributes: CSFT – Core, Skills, Fitness This course is repeatable for 11 credits.

MS 211, MILITARY SCIENCE II: FOUNDATIONS OF LEADERSHIP I, 2 Credits
An examination of effective leadership. Development of interpersonal skills using practical exercises and case studies. Graded A-F only. Lec/lab.

MS 212, MILITARY SCIENCE II: FUNDAMENTALS OF LEADERSHIP II, 2 Credits
History of the American soldier from 1775 to 1919; weaponry and tactics of the American Army. Use of battle analysis and war gaming included.

MS 213, MILITARY SCIENCE II: FUNDAMENTALS OF MILITARY OPERATIONS, 2 Credits
Basic U.S. Army tactics at the individual, team, and squad levels. Integration of military skills in offensive and defensive operations. Graded A-F only. Lec/lab.

MS 214, MILITARY SCIENCE: LEADER’S TRAINING COURSE (LTC), 6 Credits
Four weeks of classroom and field training at Fort Knox, Kentucky. Can substitute for the first two years of the ROTC program.

MS 311, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATION, 3 Credits
Study of military leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 312, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATIONS, 3 Credits
Study of military leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.
MS 313, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATIONS, 3 Credits
Study of military leadership, management, theory and dynamics of the military team. Applies principles to advanced military operations. Includes leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 314, MILITARY SCIENCE: LEADER DEVELOPMENT AND ASSESSMENT COURSE, 6 Credits
Practical and theoretical instruction and training in soldier skills for four weeks. Practical leadership application and experience in a military environment. 
Prerequisite: MS 311 with D- or better and MS 312 [D-] and MS 313 [D-]

MS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MS 411, MILITARY SCIENCE IV: ADAPTIVE LEADERSHIP, 3 Credits
Train, mentor and evaluate underclass cadets. Learn duties and responsibilities of Army staff office and apply processes. Execute and assess battalion training events. Understand and employ risk management process and use soldier fitness program to reduce and manage stress. Graded A-F only. Lec/lab.

NS 002, LEADERSHIP, 0 Credits
Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience help students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

NS 111, INTRO TO NAVAL SCIENCE, 3 Credits
Naval organization and administration; organization of the Navy or Marine Corps, the Navy and Marine Corps as a career, responsibilities and commitments as an officer in the Navy or Marine Corps.

NS 112, U.S. NAVAL HISTORY I, 3 Credits
A study of U.S. seapower and maritime affairs from the American Revolution through 1900. Lec/lab.

NS 113, U.S. NAVAL HISTORY II, 3 Credits
A study of U.S. seapower and maritime affairs from 1900 through present day. Lec/lab.
Prerequisite: NS 112 with D- or better

NS 211, LEADERSHIP AND MANAGEMENT, 5 Credits
The first of two core leadership courses that provide the academic foundation of the four-year continuum of leadership development in Naval ROTC. Includes key concepts from various fields in leadership, management, the behavioral sciences, and information that comes straight from the Navy and Marine Corps. The theory to application model provides a scholarly framework.

NS 212, NAVAL ENGINEERING, 5 Credits
Propulsion, basic engineering systems theory, and concepts application in modern ship and jet propulsion. Course will include auxiliary systems, theory and design of shipboard auxiliaries, ship design, and damage control/safety procedures. Offered every other winter term.
Prerequisite: NS 111 with D- or better

NS 311, NAVIGATION, 5 Credits
Introduction to navigation including piloting, dead reckoning, and voyage planning. Course includes nautical rules of the road, maneuvering board, relative motion, and shipboard external communications.

NS 313, NAVAL OPERATIONS AND SEAMANSHIP, 3 Credits
Theory of shiphandling, communications, shipboard evolutions, heavy weather, case study discussions.
Prerequisite: NS 311 with D- or better
NS 321, EVOLUTION OF WARFARE, 5 Credits
Provides a basic understanding of the art and practice of warfare from the beginning of recorded history to present day. Utilizes Marine Corps Doctrinal Publications as base documents to evaluate warfare technology, tactics, and strategic thought. Special emphasis is placed on the evolution and innovation of warfare, and decision-making at all levels of war. Historical case studies recognize and reinforce patterns, enduring themes, and principles of warfighting. Historical study is not simply to ascertain what happened, but to use historical lessons learned as a basis for making practical judgments about the present and future.

NS 323, NAVAL SCIENCE III: MARINE CORPS OPTION, 3 Credits
Explores a fundamental understanding of the basic military skills required for completion of the commissioning course at Officer Candidate School (OCS). Examines USMC history, mission and organization, map reading, land navigation, small unit leadership and tactics, 5-paragraph order, and M16 familiarization, in order to face the environment expected during OCS.
Prerequisite: NS 321 with D- or better

NS 405, READING AND CONFERENCE, 1-16 Credits
To prepare midshipmen returning from a leave of absence from the Naval ROTC program for commissioning and entrance into the fleet. This course is repeatable for 16 credits.

NS 411, NAVAL WEAPONS SYSTEMS, 5 Credits
Introduction to the theory and development of U.S. Naval weapons systems, current weapons systems types, platforms, and employment. Course will include naval weapons systems types, launch platforms, characteristics and employment.
Prerequisite: NS 111 with D- or better

NS 413, LEADERSHIP AND ETHICS, 4 Credits
The second of two core leadership courses that provide the academic foundation of NROTC leadership development. The purpose of this capstone course is to provide future naval leaders with a sound moral leadership foundation for “real life” military decision making. Integrates an intellectual exploration of Western moral traditions and ethical philosophy with military leadership, core values, professional ethics, the Uniform Code of Military Justice, and Navy regulations. Combining ethical theory and leadership discussions with current military events will prepare students for the role and responsibilities of leadership in the naval service.
Prerequisite: NS 211 with C- or better

NS 421, FUNDAMENTALS OF MANEUVER WARFARE, 5 Credits
A detailed look at broad aspects of warfare and their interactions with maneuver warfare doctrine, with a focus on the United States Marine Corps. Throughout the course there is a strong focus on leadership, as the fundamental purpose of this course is to develop the skills, knowledge, leadership background, and mindset necessary for a successful Marine Corps Officer. This class is open to all students; however, most topics and concepts of this class are intended to professionally develop future United States Marine Corps officers.
Prerequisite: NS 321 with D- or better

Aerospace Studies
The Air Force Reserve Officers Training Corps (AFROTC) program, offered by the Department of Aerospace Studies, provides college-level education to prepare interested men and women for commissioning as second lieutenants in the United States Air Force while simultaneously completing any university undergraduate or graduate degree. The program emphasizes leadership, managerial skills, and the development of each student’s sense of personal integrity, honor, and individual responsibility.

Aerospace Studies courses are open to all university students and are taught by Air Force officers. Detachment 685 (Aerospace Studies) offers a Minor in Aerospace Leadership for graduating students/cadets. If students desire a career as an Air Force officer, they must complete all AFROTC requirements. University students who attend academic classes only as a special student (there is no stipend for special students) can receive elective credit for the course(s). Except for cadets on AFROTC scholarship, students incur no active-duty service commitment by taking general military courses (GMC) and may drop the courses at any time within the limits of university course-drop policies.

The U.S. Air Force’s mission is to ‘Fly, Fight and Win in Air, Space and Cyberspace.’ Whether a student’s interest lies in flying advanced aircraft, operating sophisticated outer space systems, defending America’s cyberspace infrastructure, researching and developing state-of-the-art technology, or working as a language interpreter, defense intelligence officer, medical or legal professional, the Aerospace Studies Department can guide students to exciting and challenging opportunities.

AFROTC Scholarships
If students qualify, scholarship opportunities are available. A variety of full and partial scholarships are available, and certain scholarships have specific requirements. Test High school students must apply online no later than December-January timeframe, before they begin college in order to compete for a scholarship while still in high school. Students will find application procedures, forms and deadlines online (http://www.afrotc.com/).

Air Force ROTC scholarships cover up to 100% of tuition, laboratory fees, and incidental expenses. ROTC scholarship students will also receive $900 annually for textbooks and a monthly tax-free stipend of up to $500. Students must apply and be accepted into the AFROTC program and agree to accept an Air Force officer commission and service commitment upon graduation.

For details on AFROTC or on Air Force scholarships, contact the AFROTC Detachment, McAlexander Fieldhouse, Room 303, (541)737-3291,
Allowances, Uniforms, Textbooks

Students on an Air Force ROTC scholarship or enrolled in the ROTC Professional Officer Course are paid a monthly stipend of up to $500. Uniforms and textbooks for all Aerospace Studies courses are provided by the Air Force.

Four- or Three-Year Program

The four- or three-year program consists of the General Military Course: six quarters of lower-division Air Force Studies classes, including a laboratory each term, and the Professional Officer Course: six quarters of upper-division Air Force Studies classes, including a laboratory each term. Four- or three-year cadets attend an expeditionary summer field training (AS 304) prior to their junior year of college.

If you're already in college, it's not too late to experience the benefits of joining Air Force ROTC. There are numerous options for you even if you start after your freshman year. Previous military experience—ROTC, Academy, or military service—may allow the Professor of Aerospace Studies to waive all or part of the General Military Course (freshman and sophomore years) for students enrolled in the four-year AFROTC program. This program provides an opportunity for students who did not enter ROTC previously. Entry is on a competitive basis and the accelerated three-year program is available to students who join no later than Fall term with no fewer than 3 years remaining in school.

Students may enter the first-year class during the fall, winter, or spring term. Sophomore students may take the 100 and 200 level courses concurrently. Prior to enrolling in the last two years of the program, the Professional Officer Course, the student must meet AFROTC qualification standards and requirements.

SPECIAL Program

Special programs are also open for Law Students and graduate Law Programs. Students already attending law school wishing to serve as Air Force Judge Advocate Generals (JAGs) may apply for the program through the Air Force JAG website. Officer training will be provided by the AFROTC detachment at an accelerated pace to meet Air Force recruiting goals.

General Military Course (GMC)

The 100- and 200-level courses for AFROTC cadets consist of one classroom hour, two hours of leadership laboratory, and two hours of physical fitness per week during the freshman and sophomore years. Uniforms and textbooks are provided. Students may enter the freshman class at the start of autumn or winter quarters. Sophomore students may enter at the start of Fall, Winter or Spring terms. A field training-course, normally taken during the summer between the sophomore and junior years, is required for entry into the professional officer courses. Students will receive pay and travel costs for field training.

Professional Officer Course (POC)

Cadets selected for enrollment in professional officer courses are enlisted in the Air Force Reserve and receive tax-free monthly subsistence stipends ranging from $300 - $500 a month. They are furnished textbooks and uniforms. Junior- and senior-level classes consist of three hours of academic classes, two hours of leadership laboratory and two hours of physical fitness per week.

Commitments

Students in the four-year program incur no obligation during their first two years in AFROTC unless on scholarship. The student agrees to accept a commission, if offered, only after enrolling in AS 311. High school scholarship students incur a commitment at the beginning of their sophomore year. Upon accepting their commissions, students incur a 4 year commitment; pilots incur a 10 year obligation after completion of pilot training; combat systems officers and air battle managers incur a 6 year obligation after initial training. Graduates pursuing medical school incur a 4 year commitment after medical school.

Standards

Cadets must be U.S. citizens of sound physical condition, maintain academic standards and high moral character. Air Force physical fitness standards must be met prior to activating a scholarship, attending field training and commissioning.

Further Educational Opportunities

After completion of AFROTC requirements, advanced degrees may be sought by delaying active duty commitments. Some commissioned officers continue advanced studies through fully-funded Air Force Institute of Technology or other DoD-sponsored programs.

Field Training

Under the Air Force ROTC program, one summer field training session is required, normally after the AS 200 year. Successful completion of field training is required for all cadets prior to membership in the Professional Officer Course. Students are paid varying amounts during field training.

Faculty

Professor Lt Col Michael W. Rue, U.S. Air Force
Assistant Professors Maj Michael Vanderlaan, Capt Renee Bohac

AS 111, FOUNDATIONS OF THE AIR FORCE PART I, 1 Credit

The introduction to the Air Force mission and organization. Featured topics include Air Force dress and appearance standards; military customs and courtesies, Air Force heritage, overview of the Department of the Air Force, and Air Force core values. Basic oral and written communication will be assessed.
AS 112, FOUNDATIONS OF THE AIR FORCE PART II, 1 Credit
Second part of the introduction to the Air Force mission and organization. Featured topics include Air Force career opportunities, Air Force benefits, military communication skills, Air Force installations, and look at the basic characteristics of war. Basic oral and written communication will be assessed.

AS 113, FOUNDATIONS OF THE AIR FORCE PART III, 1 Credit
Third part of the introduction of what the Air Force is about and what the Air Force has to offer. Featured topics include basic leadership, team building, interpersonal skills, diversity in the Air Force, and the oath of office and commissioning. Basic oral and written communication will be assessed.

AS 120, LEADERSHIP LABORATORY, 1 Credit
Cadets learn officeranship, leadership, drill and ceremony, and customs and courtesies. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 211, THE EVOLUTION OF AIR AND SPACE POWER 1860-1945, 1 Credit
Study of the development of air power, concepts, and doctrine from its beginnings to the end of World War II. Historical examples examined include balloons, dirigibles, Wright Brother's first flight, and the role of air power in World War I and II. Oral and written communication skills will be assessed.

AS 212, THE EVOLUTION OF AIR AND SPACE POWER 1945-1990, 1 Credit
Study of the development of air power, concepts, and doctrine during the Cold War. Historical examples examined include the Berlin Airlift, nuclear deterrence, and the role of air power employment in the Korean and Vietnam conflicts. Oral and written communication skills will be assessed.

AS 213, THE EVOLUTION OF AIR AND SPACE POWER 1991-2025, 1 Credit
Study of the factors contributing to the development of air power, concepts, and doctrine from the Persian Gulf War in 1990 to the present and beyond. Historical examples examined include the air campaigns used in the Gulf War, Kosovo crisis, Operations Enduring Freedom, Iraqi Freedom, and the Global War on Terrorism. Oral and written communication skills will be assessed.

AS 220, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in element leadership positions in order to know and comprehend the Air Force concepts of command, discipline, tradition, and courtesies. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 299, SPECIAL TOPICS IN AIR FORCE STUDIES, 1-16 Credits
Supervised individual work. This course is repeatable for 16 credits.

AS 304, FIELD TRAINING, 6 Credits
Four-week field training supplements campus courses in developing leadership and discipline. Mission, organization, and functions of an Air Force base; marksmanship, survival, and physical training; aircrew and aircraft indoctrination; orientation on specific opportunities in career fields. Conducted at an Air Force base. Graded P/N.

AS 311, LEADERSHIP FUNDAMENTALS, TEAM BUILDING AND PROBLEM SOLVING, 3 Credits
Emphasis on leadership and management fundamentals, team building and problem solving. Case studies are used to examine leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Unique exercises will be utilized to emphasize team building and problem solving. Oral and written communication skills will be assessed.

AS 312, EFFECTIVE SUPERVISION AND GROUP CONFLICT MANAGEMENT, 3 Credits
Emphasis on situational leadership, group conflict management, effective supervision, professional knowledge, and communicative skills required of an Air Force officer. Unique case studies on leadership and management situations, and group conflict management will be utilized. Oral and written communication skills will be assessed.

AS 313, LEADERSHIP, ETHICS, AIR FORCE CORE VALUES AND ACCOUNTABILITY, 3 Credits
Emphasis on leadership ethics, leadership core values, leadership accountability, and professional knowledge. Unique case studies on leadership ethics and accountability will be utilized. Oral and written communication skills will be assessed.

AS 320, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in line and staff leadership positions as a preparation for Air Force active duty. Cadet responsibilities include planning, organizing, directing, and controlling the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 3 credits.

AS 405, READING AND CONFERENCE, 1-16 Credits
Supervised individual work. This course is repeatable for 16 credits.
AS 411, NATIONAL SECURITY AFFAIRS, 3 Credits
Emphasis on the needs for national security, evolution of American defense strategy, policy, and organization. Examination of methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues will also be addressed. Refinement of oral and written communication skills will be assessed.

AS 412, WORLD REGIONAL CULTURAL STUDIES, 3 Credits
Study key transnational issues and religious or ethnic factors that shape the environment Air Force professionals must operate in. Emphasis will be on national security perspective of Africa, South Asia, East Asia, Latin America, Europe, Middle East and former Soviet Republics in transition. Refinement of oral and written communication skills will be assessed.

AS 413, PREPARATION FOR ACTIVE DUTY, 3 Credits
Emphasis on current military issues, evaluation systems, military commission, and risk management. Final preparation for the Air Force professional before commissioning. Refinement of oral and written communication skills will be emphasized.

AS 420, LEADERSHIP LABORATORY, 1 Credit
The senior-level Leadership Laboratory program places cadets in command, line, and staff positions as a preparation for commissioned Air Force service. Cadet responsibilities include planning, organizing, directing, coordinating, and controlling leadership laboratory and the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 6 credits.

Aerospace Studies Minor
The Department of Air Force Studies offers a minor open to any OSU student. Students gain a broad exposure to the concepts of aerospace power, leadership and management, and general military studies. A student cannot use a course for this minor that is being used for their major.

Military Science (AROTC)
The Military Science program is intended for students with the characteristics and attributes of a “scholar-athlete-leader.” The program is specifically designed to give college students on-campus instruction and experience in the art of organizing, motivating, and leading others. It includes instruction in leadership to develop self-discipline, physical stamina, and professional bearing.

All courses offered by the Department of Military Science are fully accredited and applicable toward fulfilling academic requirements for graduation. The university offers each eligible student the opportunity to compete for a commission as an officer in the United States Army while earning a college degree. There are both basic and advanced programs with multiple entry points which can be tailored to a student’s needs. Merit scholarship opportunities exist for students in any approved academic discipline, particularly in computer science, engineering, math, and science. Uniforms and books are provided free of charge. There are multiple opportunities for cadets to attend funded internships, training with Army units, multi-week trips to foreign countries across the world, Airborne, and Air Assault Training.

Basic Program
The basic program is voluntary and is open to all students, comprising the 1- and 2-credit, lower-division courses listed below, and is normally completed during the freshman and sophomore years. Students may also satisfy the advanced program prerequisites or accelerate their progress through previous military experience or by completing MS 214 (6 credits) held at Fort Knox, Kentucky during the summer. No military obligation is incurred for participation in basic program classes, and students can decide whether they want to apply for the advanced program. Additionally, students who only want to attend the lecture portion of the lower-division classes may do so and are not expected to wear uniforms.
Advanced Program

Students who desire to enroll in the two-year advanced program, comprising the 3-credit, upper-division courses listed below, must apply and be accepted. Only those students who have satisfied the basic program requirements described above are eligible. Enrollment in the Advanced Program requires a contract incurring a Service Commitment in the Army, Army Reserve, or Army National Guard.

Students in the advanced program receive $450 to $500 per month subsistence allowance during the school year. During the four-week summer Leadership Development Assessment Course (LDAC), they receive room and board, travel expenses to and from the program location, and approximately $900 for the period involved. Veteran students enrolled in the ROTC program receive these amounts in addition to any other educational benefits.

The LDAC summer program is normally attended between the cadet’s junior and senior years. The university awards 6 credits for successful completion.

Campus-Based Scholarship Program

Each year, the Army ROTC program has dedicated four-, three-, and two-year scholarships awarded to local students attending or planning to attend OSU. Applications are accepted any time during the year. Applicants must meet physical requirements, have a minimum cumulative college GPA of 2.50, SAT score of 920+ or ACT of 19+, no criminal record, and be of good moral character. The scholarship pays full tuition, $1,200 per year for books, and a stipend of $300 to $500 per month while the student is in school. For an application, contact the Department of Military Science at 541-737-3511.

Simultaneous Membership Program (SMP)

The Simultaneous Membership Program (SMP) is a voluntary program that allows ROTC students to join the Army National Guard and Army Reserve. Upon graduation from basic training and advanced training, students are eligible for the G.I. Bill, which, combined with tuition assistance, is worth over $18,000 per year as a full-time student. Upon degree completion, students earn a commission in the active Army, National Guard or Army Reserve.

Service Obligation and Academic Delay

Current laws and regulations require each advanced program graduate to accept a commission upon graduation and to fulfill an eight-year military commitment. This may be satisfied by eight years of reserve forces duty in the USAR or ARNG or by a combination of active duty and reserve forces duty, usually four years active duty and four years reserve forces duty.

Delays in reporting to active duty may also be granted for up to four years to selected students who are enrolled in a full-time program of instruction leading to an acceptable advanced degree.

Faculty

Professor LTC David McRae
Assistant Professors Major Joseph Snyder, Master Sergeant Adam Nin, Sergeant First Class Justin Spangler, Sergeant First Class Dustin Farnsworth, Mr. John Mayer

MS 111, MILITARY SCIENCE I: INTRODUCTION TO ARMY LEADERSHIP AND ROTC, 1 Credit
Introduction to ROTC, and its relationship to the U.S. Army. Role of the army officer, including leadership and management fundamentals. Introduction to land navigation. Lec/lab.

MS 112, MILITARY SCIENCE I: INTRODUCTION TO BASIC MILITARY SKILLS, 1 Credit
Basic small unit tactics; land navigation; how to read a topographic map and use a magnetic compass; includes practical exercises. Graded A-F only.

MS 113, MILITARY SCIENCE I: INTRODUCTION TO TACTICAL LEADERSHIP, 1 Credit
Customs and traditions of the U.S. Army; unit organization and missions. Types of careers available to army officers. Practical exercises. Lec/lab.

MS 130, *MILITARY PHYSICAL CONDITIONING, 1 Credit
Prepares military science cadets and university students to excel in the Army Physical Fitness Test (AFPT). (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness
This course is repeatable for 11 credits.

MS 211, MILITARY SCIENCE II: FOUNDATIONS OF LEADERSHIP I, 2 Credits
An examination of effective leadership. Development of interpersonal skills using practical exercises and case studies. Graded A-F only. Lec/lab.

MS 212, MILITARY SCIENCE II: FUNDAMENTALS OF LEADERSHIP II, 2 Credits
History of the American soldier from 1775 to 1919; weaponry and tactics of the American Army. Use of battle analysis and war gaming included.
MS 213, MILITARY SCIENCE II: FUNDAMENTALS OF MILITARY OPERATIONS, 2 Credits
Basic U.S. Army tactics at the individual, team, and squad levels. Integration of military skills in offensive and defensive operations. Graded A-F only. Lec/lab.

MS 214, MILITARY SCIENCE: LEADER'S TRAINING COURSE (LTC), 6 Credits
Four weeks of classroom and field training at Fort Knox, Kentucky. Can substitute for the first two years of the ROTC program.

MS 311, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATION, 3 Credits
Study of military leadership, management, theory and dynamics of the military team. Applies principles to advanced military operations. Includes leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 312, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATIONS, 3 Credits
Study of military leadership, management, theory and dynamics of the military team. Applies principles to advanced military operations. Includes leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 313, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATIONS, 3 Credits
Study of military leadership, management, theory and dynamics of the military team. Applies principles to advanced military operations. Includes leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 314, MILITARY SCIENCE: LEADER DEVELOPMENT AND ASSESSMENT COURSE, 6 Credits
Practical and theoretical instruction and training in soldier skills for four weeks. Practical leadership application and experience in a military environment.
Prerequisite: MS 311 with D- or better and MS 312 [D-] and MS 313 [D-]

MS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MS 411, MILITARY SCIENCE IV: ADAPTIVE LEADERSHIP, 3 Credits
Train, mentor and evaluate underclass cadets. Learn duties and responsibilities of Army staff office and apply processes. Execute and assess battalion training events. Understand and employ risk management process and use soldier fitness program to reduce and manage stress. Graded A-F only. Lec/lab.

MS 412, MILITARY SCIENCE IV: PREPARATION FOR OFFICERSHIP, 3 Credits
Recent military history, national defense policy and its application in current world events. Includes military law; law of land warfare; small-unit administration; and ethics and professionalism with emphasis on applied leadership, management techniques, and ethical decision making. Designed to assist the future army officer with the transition from student to junior officer leader. Graded A-F only. Lec/lab.

MS 413, MILITARY SCIENCE IV: PREPARATION FOR OFFICERSHIP, 3 Credits
Recent military history, national defense policy and its application in current world events. Includes military law; law of land warfare; small-unit administration; and ethics and professionalism with emphasis on applied leadership, management techniques, and ethical decision making. Designed to assist the future army officer with the transition from student to junior officer leader. Graded A-F only. Lec/lab.

Military Science Minor
Also available at OSU-Cascades.

The Department of Military Science offers a minor which is open to any OSU student.

Minor Code: 805

At least 18 of the 27 credits required in the minor must be military science courses.
NROTC Scholarships

The Navy and Marine Corps offer four-year scholarships to qualified students seeking baccalaureate degrees. Students are selected through national competition, and are appointed midshipmen in the United States Naval Reserve by the Secretary of the Navy. The Navy provides uniforms, pays tuition and fees, a $250 per term book stipend, and a subsistence allowance of $250 to $400 per month depending on the student's undergraduate status. Scholarship students will be required to attend summer training before and after their freshman, sophomore, and junior years designed to familiarize them with the warfare areas of the Navy and Marine Corps.

To qualify for a national NROTC scholarship you must be a U.S. citizen not less than 17 years old by September 1 of your first year of college and no more than 23 years old that same year. Additionally you must be physically qualified by Naval or Marine Corps standards and have a minimum SAT score of 550 verbal, 540 math or a minimum ACT score of 22 verbal and 21 math. Sophomores not enrolled in the NROTC program can compete nationally for a two-year scholarship by March of their sophomore year. Competitive applicants should have completed three terms of calculus with a grade of C or better and earned a 3.0 cumulative grade-point average or better.

For more information about Naval ROTC scholarship opportunities, visit the website (http://nrotc.navy.mil/) or contact your local Navy-Marine Corps recruiting office. For specific information about OSU NROTC or questions regarding the two-year NROTC scholarships, visit the website (http://nrotc.oregonstate.edu/) or call the unit at 541-737-5620 or 541-737-6289.

College Program

Students who are not awarded a national scholarship and are accepted to OSU can still participate in Naval ROTC through the college program by applying through the OSU Department of Naval Science. College program midshipmen participate in all aspects of the NROTC program and may be eligible for a scholarship provided they have been active in the program for a minimum of one academic term. To be competitive, a student should not have less than a B (3.0) grade-point average, meet aptitude and physical fitness standards, and receive a favorable recommendation from the Professor of Naval Science. If selected, students receive the same benefits as national scholarship recipients.

College program midshipmen who are not awarded a scholarship must be selected for “advanced standing” status before beginning their junior year to remain in the NROTC program. If selected for “advanced standing” students receive a monthly subsistence allowance of $350 their junior year and $400 their senior year. College program midshipmen receive a commission upon graduation and have the same professional opportunities as scholarship midshipmen to select careers in all warfare areas of the Navy and Marine Corps. For specific information about the college program, visit the website (http://nrotc.oregonstate.edu/) or call the unit at 541-737-5620 or 541-737-6289.

Naval Science Minor Requirements

University students may take any naval science courses for credit, except for NS 002 Leadership Lab. However, such students are classified as naval science students and are not enrolled in the NROTC program.

Naval Science (NROTC)

The NROTC program was established to educate and train qualified young men and women for service as commissioned officers in the unrestricted line Naval or Marine Corps Service. As the largest single source of Navy and Marine Corps officers, the NROTC program fills a vital need in preparing mature young adults for leadership and management positions in an increasingly technical Navy and Marine Corps. Upon successful completion of the program and graduation from Oregon State University, NROTC midshipmen receive a commission from the president of the United States as an ensign in the U.S. Navy or second lieutenant in the U.S. Marine Corps. The minimum active service requirement upon commissioning is service dependent; it is generally five years for Navy and four years for the Marines.
Status and Curriculum

Students enrolled in the NROTC program are not on active duty. They wear the uniform only for drills, on special occasions, and during the summer training periods.

The program of study fits into curricula leading to baccalaureate degrees. Additionally, Naval Science-U.S. Navy minor scholarship students must complete three terms of calculus by the end of their sophomore year and three terms of calculus-based physics by the end of their junior year.

Undergraduate Programs

Minors

- Naval Science-U.S. Marine Corps (p. 1761)
- Naval Science-U.S. Navy (p. 1761)

Captain Trey Sisson, USN (US Navy)
Commanding Officer
116 Cascade Hall
Oregon State University
Corvallis, OR 97331-5401
Phone: 541-737-6289
Website: http://nrotc.oregonstate.edu/

Faculty

Professors Captain Trey Sisson (USN, Commanding Officer), Commander Valdespino (USN, Executive Officer)

Assistant Professors Captain Simpson (USMC), Lieutenant Kincaid (USN), Lieutenant Calderon-Lugo (USN), Lieutenant Rumments (USN)

Instructor Gunnery Sergeant Williams (USMC)

NS 002, LEADERSHIP, 0 Credits

Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience help students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

NS 111, INTRO TO NAVAL SCIENCE, 3 Credits

Naval organization and administration; organization of the Navy or Marine Corps, the Navy and Marine Corps as a career, responsibilities and commitments as an officer in the Navy or Marine Corps.

NS 112, U.S. NAVAL HISTORY I, 3 Credits

A study of U.S. seapower and maritime affairs from the American Revolution through 1900. Lec/lab.

NS 113, U.S. NAVAL HISTORY II, 3 Credits

A study of U.S. seapower and maritime affairs from 1900 through present day. Lec/lab.

Prerequisite: NS 112 with D- or better

NS 211, LEADERSHIP AND MANAGEMENT, 5 Credits

The first of two core leadership courses that provide the academic foundation of the four-year continuum of leadership development in Naval ROTC. Includes key concepts from various fields in leadership, management, the behavioral sciences, and information that comes straight from the Navy and Marine Corps. The theory to application model provides a scholarly framework.

NS 212, NAVAL ENGINEERING, 5 Credits

Propulsion, basic engineering systems theory, and concepts application in modern ship and jet propulsion. Course will include auxiliary systems, theory and design of shipboard auxiliaries, ship design, and damage control/safety procedures. Offered every other winter term.

Prerequisite: NS 111 with D- or better

NS 311, NAVIGATION, 5 Credits

Introduction to navigation including piloting, dead reckoning, and voyage planning. Course includes nautical rules of the road, maneuvering board, relative motion, and shipboard external communications.

NS 313, NAVAL OPERATIONS AND SEAMANSHIP, 3 Credits

Theory of ship handling, communications, shipboard evolutions, heavy weather, case study discussions.

Prerequisite: NS 311 with D- or better

NS 321, EVOLUTION OF WARFARE, 5 Credits

Provides a basic understanding of the art and practice of warfare from the beginning of recorded history to present day. Utilizes Marine Corps Doctrinal Publications as base documents to evaluate warfare technology, tactics, and strategic thought. Special emphasis is placed on the evolution and innovation of warfare, and decision-making at all levels of war. Historical case studies recognize and reinforce patterns, enduring themes, and principles of war fighting. Historical study is not simply to ascertain what happened, but to use historical lessons learned as a basis for making practical judgments about the present and future.

NS 323, NAVAL SCIENCE III: MARINE CORPS OPTION, 3 Credits

Explores a fundamental understanding of the basic military skills required for completion of the commissioning course at Officer Candidate School (OCS). Examines USMC history, mission and organization, map reading, land navigation, small unit leadership and tactics, 5-paragraph order, and M16 familiarization, in order to face the environment expected during OCS.

Prerequisite: NS 321 with D- or better

NS 405, READING AND CONFERENCE, 1-16 Credits

To prepare midshipmen returning from a leave of absence from the Naval ROTC program for commissioning and entrance into the fleet.

This course is repeatable for 16 credits.
NS 411, NAVAL WEAPONS SYSTEMS, 5 Credits
Introduction to the theory and development of U.S. Naval weapons systems, current weapons systems types, platforms, and employment. Course will include naval weapons systems types, launch platforms, characteristics and employment.
Prerequisite: NS 111 with D- or better

NS 413, LEADERSHIP AND ETHICS, 4 Credits
The second of two core leadership courses that provide the academic foundation of NROTC leadership development. The purpose of this capstone course is to provide future naval leaders with a sound moral leadership foundation for "real life" military decision making. Integrates an intellectual exploration of Western moral traditions and ethical philosophy with military leadership, core values, professional ethics, the Uniform Code of Military Justice, and Navy regulations. Combining ethical theory and leadership discussions with current military events will prepare students for the role and responsibilities of leadership in the naval service.
Prerequisite: NS 211 with C- or better

NS 421, FUNDAMENTALS OF MANEUVER WARFARE, 5 Credits
A detailed look at broad aspects of warfare and their interactions with maneuver warfare doctrine, with a focus on the United States Marine Corps. Throughout the course there is a strong focus on leadership, as the fundamental purpose of this course is to develop the skills, knowledge, leadership background, and mindset necessary for a successful Marine Corps Officer. This class is open to all students; however, most topics and concepts of this class are intended to professionally develop future United States Marine Corps officers.
Prerequisite: NS 321 with D- or better

Naval Science-U.S. Marine Corps Minor
The Department of Naval Science offers two minors. Naval Science-U.S. Navy and the Naval Science-U.S. Marine Corps which are open to ROTC students and may include students not pursuing a commission through the ROTC program.

University Honors College
Students who complete the requirements of the Oregon State University Honors College receive OSU’s most prestigious undergraduate degree: an honors baccalaureate degree (HBA, HBFA, HBM or HBS) in their major, jointly awarded by the Honors College and the college of their major.

Main HC Administrative Offices
Oregon State University
450 Learning Innovation Center (LinC)
Corvallis, OR 97331-2221

Email: Honors.College@oregonstate.edu
Website: http://honors.oregonstate.edu

Honors College
The Honors College (HC) is a small degree-granting college at Oregon State University where enrolled students work toward an Honors Baccalaureate degree in their academic major(s). The HC engages students in unique curricular and co-curricular experiences designed to help them explore the many opportunities offered by OSU. Honors undergraduates explore their full range of interests through small, hands-on courses and dive deeply into a single discipline through an immersive original research project, guided by a faculty mentor. The honors curriculum changes each year to adapt to student interests and to take full advantage of the wide-ranging expertise of Oregon State faculty.

The Honors College, in partnership with University Housing and Dining Services, maintains an honors living-learning community in West and Sackett Residence Halls.

The Honors College is available at Corvallis and OSU-Cascades.
Majors and Degrees

Students enrolled in the Honors College can pursue any one of OSU’s wide range of undergraduate majors. Students who complete the requirements of the Honors College receive OSU’s most prestigious undergraduate degree: an honors baccalaureate degree in their major, jointly awarded by the Honors College and the college in which their major is located. Both a four-year and a two-year track are available. The two-year track is designed for transfer students or for students already enrolled at OSU. Interested students should contact the Honors College for information.

Honors Courses

See the Schedule of Classes (https://classes.oregonstate.edu/) each term under Honors College (HC) and under departmental listings for courses with an H suffix. The HC publishes its own schedule, which is available each term in the HC office and on the HC website. Honors courses change annually; many are offered under departmental designators.

Admission

To be considered for admission, high school applicants must have a minimum of a 3.75 cumulative unweighted high school GPA (students who don’t meet the GPA minimum can qualify with a test score of 1300 SAT or 27 ACT). Honors College admission is competitive, and decisions are based on grade-point averages, SAT or ACT scores, and responses to an essay question that reveal the student’s ability to think deeply and creatively.

Enter first-year students interested in beginning the HC fall term should submit an application by either November 1 or February 1. HC applicants must also apply for admission to OSU by that time. Admission decisions are made approximately 45 days after the submission deadlines. A response to the current year HC essay question is required.

Transfer or advanced-standing applicants should submit an application by March 15th and will be notified no later than April 30th.

On-campus visits are encouraged.

Degree Requirements

The honors degree is jointly awarded by the Honors College (HC) and by the colleges of the student’s major. Therefore, additional credit requirements beyond the total required by the colleges of the student’s major must be completed. HC students must satisfy all university and major requirements, as well as honors requirements. A student who completes a 30-credit track of Honors College courses will be designated an Honors Scholar. A student who completes a 15-credit track will be designated as an Honors Associate. In either instance successful completion leads to receipt of an honors baccalaureate degree. Transcripts will reflect Honors College completion, honors coursework, and a research notation for the honors thesis.

Many honors classes satisfy dual requirements; please check details with an Honors College advisor. For students in majors that require a senior thesis project, the honors thesis requirements may complement those majors.

Retention Criteria

All HC students must maintain a 3.25 cumulative OSU GPA and make satisfactory progress toward fulfilling the requirements of the HC and their major. Progress in three key areas—GPA, course work, and thesis—will be reviewed every fall, winter, and spring term. Students below, or at risk of falling below, the specified 3.25 cumulative OSU GPA will be notified to come in for advising. Students who do not meet retention expectations may be removed from the college. If removed, a student has the right to petition for reinstatement.

All students must maintain contact with Honors College advisors through regularly scheduled appointments.

Undergraduate Programs

Majors

- Honors Associate (p. 1793)
- Honors Scholar (p. 1793)

ACTG 378H, ACCOUNTING INFORMATION MANAGEMENT, 4 Credits

Introduces students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, the system life cycle model, systems analysis and design methodologies, and the development and implementation of information systems. Lec/rec.

Attributes: HNRS – Honors Course Designator

Prerequisite: (BA 213 with C or better or BA 213H with C or better) and (BA 270 [C] or BA 270H [C] or BA 302 [C]) and (BA 275 [C] or BA 275H [C] or BA 276 [C])

Equivalent to: ACTG 378

AEC 250H, *INTRODUCTION TO ENVIRONMENTAL ECONOMICS AND POLICY, 3 Credits

Examines how economic forces and social institutions cause environmental degradation and help build management solutions. Explains key economic concepts for valuing environmental resources and evaluating the trade-offs of alternative management approaches from private markets to regulation. Applies the concepts and theories to topical environmental issues such as water pollution and conserving biodiversity. (Bacc Core Course)

Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator

Equivalent to: AEC 250

Recommended: MTH 111

AEC 399H, SPECIAL TOPICS, 1-4 Credits

Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.

Attributes: HNRS – Honors Course Designator

Equivalent to: AEC 399, AREC 399

This course is repeatable for 8 credits.

AEC 407H, SEMINAR, 1-16 Credits

Attributes: HNRS – Honors Course Designator

Equivalent to: AEC 407, AREC 407, AREC 407H

This course is repeatable for 16 credits.
ANTH 313H, *PEOPLES OF THE WORLD-LATIN AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 313
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 314H, *PEOPLES OF THE WORLD-MIDDLE EAST, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 314
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 315H, *PEOPLES OF THE WORLD-AFRICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 315
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 318H, *PEOPLES OF THE WORLD-CHINA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Prerequisite: ANTH 110 with D- or better or ANTH 210 with D- or better
Equivalent to: ANTH 318
Recommended: Completion of social processes and institutions requirement.

ANTH 312H, *PEOPLES WORLD-EUROPE, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: ANTH 312
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 311H, *PEOPLES WORLD-NORTH AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 311
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 251H, *LANGUAGE IN THE USA, 3 Credits
Examines the linguistic aspects of ethnic, class, and gender differences in the United States of America, with a focus on language attitudes. Uses both oral and written materials and quantitative and qualitative approaches. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: ANTH 251

ANS 121H, *INTRODUCTION TO ANIMAL SCIENCES, 4 Credits
Principles of breeding, physiology, nutrition, and management as they apply to modern livestock and poultry production. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
ANTH 330H, *EVOLUTION OF PEOPLE, TECHNOLOGY, AND SOCIETY, 3 Credits
Overview of the evolution and prehistory of the human species, including the development and interaction of human biology, technology, and society. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 330

ANTH 374H, *ANTHROPOLOGY AND GLOBAL HEALTH, 3 Credits
An overview of historical and contemporary issues in gender health with emphasis on politics, globalization, and the complex outcomes of interventions in diverse cultural settings. Students will articulate a critical and evidence-based perspective on complex global health issues. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 374

ANTH 380H, *GLOBAL CONFLICTS: ANTHROPOLOGICAL PERSPECTIVES, 3 Credits
Introduction to global conflicts. Investigates the origins of global conflicts in cultures of militarism and analyzes the historical connections of militarism with capitalism, colonialism, patriarchy, and other structures of power. Explores anthropological, historical, and interdisciplinary methods to explain the implications and wide-ranging consequences of global conflicts and militarisms and to analyze how they forge relations between people in distant places. Applies concepts and frameworks from the humanities and social sciences to generate critical and original analyses of global conflicts. Analyzes global resistance to conflict and militarization and develops creative alternatives to conflict in dialogue with peers. (SS) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 380
Recommended: ANTH 101, ANTH 210 or completion of non-Western Cultures requirement

ANTH 383H, INTRODUCTION TO MEDICAL ANTHROPOLOGY, 3 Credits
Examines human health and healing systems from evolutionary and cross-cultural perspectives. Using a case study approach, this class explores individual- and population-level experiences of illness and healing, while providing students with the tools to evaluate global disease patterns and international health promotion and education programs.
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 383

ANTH 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 399
This course is repeatable for 16 credits.

ANTH 405H, READING AND CONFERENCE, 1-6 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 405
This course is repeatable for 16 credits.

ANTH 407H, SEMINAR, 1-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 407
This course is repeatable for 16 credits.

ANTH 432H, *DOMESTICATION, URBANIZATION, AND THE RISE OF CIVILIZATION, 4 Credits
Reviews the development of culture in the Old and New Worlds with special emphasis placed on the when, where, and how of early domestication of plants and animals. Examines the process of urbanization. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ANTH 432
Recommended: 6 credits of anthropology

ANTH 447H, *ARCTIC PERSPECTIVES ON GLOBAL PROBLEMS, 4 Credits
The Arctic is on the frontline of today’s most pressing problems. This course uses Arctic perspectives to explore issues affecting us all: climate change, environmental conservation, traditional ecological knowledge, development, energy extraction, indigenous rights, and indigenous media. Using insights from Arctic perspectives, we will plot pathways toward potential solutions. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: ANTH 447

ANTH 481H, *NATURAL RESOURCES AND COMMUNITY VALUES, 3 Credits
Investigates relations between human communities and the values of community members. Resource issues integrate concepts from social science, economics, and ecology. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Recommended: 3 credits of social science

ANTH 499H, SPECIAL TOPICS IN ANTHROPOLOGY, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 499
This course is repeatable for 16 credits.

BA 160H, B-ENGAGED, 3 Credits
Understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Opportunity to connect with faculty and peers with common interests in a supportive learning environment.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 160, BA 163
BA 161H, INNOVATION NATION-- AWARENESS TO ACTION, 3 Credits
First course in a two-course sequence. Begins a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 161, BA 167

BA 162H, INNOVATION NATION--IDEAS TO REALITY, 3 Credits
Second course in a two-course sequence. Topics include evaluating entrepreneurial capabilities, creativity and innovation, opportunity recognition, impression management, and responsible business practices. Continues a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 161 with C- or better or BA 161H with C- or better
Equivalent to: BA 162, BA 168

BA 211H, FINANCIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of external users, principally investors and creditors. Emphasis on the preparation and interpretation of financial statements, income recognition and determination, and asset valuation.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 111 with C- or better or MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 60
Equivalent to: BA 211

BA 213H, MANAGERIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 211 with C- or better or BA 211H with C- or better
Equivalent to: BA 213

BA 223H, PRINCIPLES OF MARKETING, 4 Credits
Covers concepts and principles used by marketing professionals. Designed explicitly for business majors, it's an introduction to the relationships between customers, products, and companies in a competitive and dynamically evolving marketplace.
Attributes: HNRS – Honors Course Designator
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better
Equivalent to: BA 223, BA 390, BA 390H

BA 230H, BUSINESS LAW I, 4 Credits
Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 230

BA 240H, FINANCE, 4 Credits
Introduces basic tools of finance and applications of financial theory in use today. These tools include rates of return, the time value of money, those that can be applied to capital budgeting decisions, and the logic and fundamentals of financial statements. It is designed to enhance a student’s approach to financial decision-making and emphasizes quantitative approaches to decision making. This course will also introduce students to equity and debt markets and securities, and serves as a stepping stone to advanced courses in finance.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 211 with C- or better or BA 211H with C- or better and (ECON 201 [C-] or ECON 201H [C-])
Equivalent to: BA 240, BA 360, BA 360H

BA 253H, PROFESSIONAL DEVELOPMENT, 4 Credits
Designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them to success within the chosen profession.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 101 with C- or better or BA 162 with C- or better and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-])
Equivalent to: BA 253, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 260H, INTRODUCTION TO ENTREPRENEURSHIP, 4 Credits
Topics include evaluating entrepreneurial capabilities, creativity, business plan creation, opportunity assessment and feasibility analysis, business implementation, new product introduction, and seeking funds.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 260
BA 270H, BUSINESS PROCESS MANAGEMENT, 4 Credits
Introduces and integrates some core concepts from Operations Management (OM) and Business Information System (BIS) disciplines by introducing a process-oriented view of the flows of materials, information, products and services through and across organizational functions. Helps students to: identify information-bearing events and actors, model and analyze business processes, assess and improve process efficiency, recognize probabilistic components of business processes and understand the interactions between human behavior and process design. Hands-on, case-based assignments allow for practicing some principles and concepts addressed in the course.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 275 with C- or better or BA 275H with C- or better
Equivalent to: BA 270H, BA 276

BA 275H, FOUNDATIONS OF STATISTICAL INFERENCE, 4 Credits
An introductory course on statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples, and linear regression analysis.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better or MTH 111 with C- or better or Math Placement - ALEKS with a score of 046
Equivalent to: BA 275, BA 276

BA 281H, PROFESSIONAL DEVELOPMENT, 3 Credits
Designed to give students an early start on the process of career planning and development. The process involves thoughtful self-assessment, career exploration, planning and follow-through with preliminary employment strategies.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 253, BA 253H, BA 281, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 347H, INTERNATIONAL BUSINESS, 4 Credits
Integrated view of international business including current patterns of international business, socioeconomic and geopolitical systems within countries as they affect the conduct of business, major theories explaining international business transactions, financial forms and institutions that facilitate international transactions, and the interface between nation states and the firms conducting foreign business activities.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ECON 202 with C- or better or ECON 202H with C- or better) and (BA 230 [C-] or BA 230H [C-] or BA 330 [C-])
Equivalent to: BA 347

BA 352H, MANAGING INDIVIDUAL AND TEAM PERFORMANCE, 4 Credits
Diagnose individual and small-group behavior and develop skill in improving individual and small-group performance in entrepreneurial and established ventures. Emphasis on professional skill development and the practical application of theory and research. Concepts of ethics, diversity and cross-cultural relations are integrated throughout the course.
Attributes: HNRS – Honors Course Designator
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 352

BA 354H, MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY, 4 Credits
Introduces contemporary issues that business professionals face making ethical and socially responsible decisions in an increasingly fast-paced, transparent, and global environment. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 354, MGMT 459

BA 357H, OPERATIONS MANAGEMENT, 4 Credits
Provides an overview of the functional activities necessary for the creation/delivery of goods and services. Topics covered include: productivity; strategy in a global business environment; project management; quality management; location and layout strategies; supply chain and inventory management; material requirements planning; JIT; work-place safety; maintenance and reliability; sourcing and sustainability.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 275 with C- or better or BA 275H with C- or better or BA 276 with C- or better and (BA 270 [C-] or BA 270H [C-] or BA 302 [C-] or BA 302H [C-])
Equivalent to: BA 357

BA 360H, INTRODUCTION TO FINANCIAL MANAGEMENT, 4 Credits
Explore the issues facing a financial manager in new business ventures, small businesses, and corporations. Focus on the role of the financial manager in business settings, explores the functions of a financial manager in financial analysis, forecasting, planning, and control; asset and liability management; capital budgeting; and raising funds for new business ventures, small businesses, and corporations.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ECON 201 with C- or better or ECON 201H with C- or better) and (ECON 201H with C- or better or ECON 201H with C- or better or ECON 250 with C- or better or ECON 250H with C- or better or ECON 251 with C- or better)
Equivalent to: BA 240, BA 240H, BA 360
BA 370H, BUSINESS INFORMATION SYSTEMS OVERVIEW, 4 Credits
Introduction to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, and the development and implementation of information systems. Use relational database models to design a real-world case study.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 270 with C- or better or BA 270H with C- or better or BA 302 with C- or better
Equivalent to: BA 370

BA 375H, APPLIED QUANTITATIVE METHODS, 4 Credits
Introduces students to the basics of data science and data analytics for handling of large-scale databases. It provides an overview of the main data-analytic techniques and topics including data visualization, linear and nonlinear regression analysis, time series analysis and forecasting, classification, and clustering methods.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 275 with C- or better or BA 275H with C- or better
Equivalent to: BA 466

BA 390H, PRINCIPLES OF MARKETING, 4 Credits
Explores consumer and industrial markets, and activities and enterprises involved in distributing products to those markets. Develops an understanding of distribution processes, marketing problems, and marketing principles.
Attributes: HNRS – Honors Course Designator
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better or AREC 250 with C- or better or AEC 251 with C- or better
Equivalent to: BA 223, BA 223H, BA 390

BA 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 407
This course is repeatable for 16 credits.

BA 465H, SYSTEMS THINKING AND PRACTICE, 4 Credits
Hard and soft system theories examined, methods and techniques for dealing with real-world problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 465

BA 466H, INTEGRATIVE STRATEGIC EXPERIENCE, 4 Credits
Provides students with an overview of the basic concepts in strategic management. Students learn frameworks and models to understand and analyze a firm’s external environment and internal resources in an effort to create sustainable competitive advantages. Analysis and critique of conventional conceptions of business ethics. Evaluation of ethical issues involving businesses at firm, national, and international levels.
Attributes: HNRS – Honors Course Designator
Prerequisite: ((BA 240 with C- or better or BA 240H with C- or better or FIN 340 with C- or better or FIN 340H with C- or better or BA 360 with C- or better or BA 360H with C- or better) and (BA 352 [C-] or BA 352H [C-]) and (BA 357 [C-] or BA 357H [C-]) and (BA 223 [C-] or BA 223H [C-] or BA 390 [C-] or BA 390H [C-])
Equivalent to: BB 314H, CELL AND MOLECULAR BIOLOGY, 4 Credits
Fundamental concepts of prokaryotic and eukaryotic cell biology. Emphasizes cell structure and function at the molecular level. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (( (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and CH 331 (may be taken concurrently) or CH 334 (may be taken concurrently) or CH 331 (may be taken concurrently) or CH 334 (may be taken concurrently) or CH 331 (may be taken concurrently) or CH 334 (may be taken concurrently))
Equivalent to: BB 314, BI 314, BI 314H

BB 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BB 399
This course is repeatable for 16 credits.

BB 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BB 405
This course is repeatable for 16 credits.

BB 407H, BIOCHEMISTRY/BIOPHYSICS SEMINAR, 1-16 Credits
Informal seminars presenting information about research problems and careers and research programs on campus in biochemistry or biophysics.
Attributes: HNRS – Honors Course Designator
Equivalent to: BB 407
This course is repeatable for 99 credits.

BEE 407H, SEMINAR, 1-16 Credits
Departmental seminars. Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: BEE 407
This course is repeatable for 16 credits.

BEE 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BEE 499
This course is repeatable for 16 credits.
BI 199H, SELECTED TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 199
This course is repeatable for 16 credits.

BI 211H, *PRINCIPLES OF BIOLOGY, 4 Credits
Origins of life, energy transformations, plant and animal physiology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: BI 211

BI 212H, *PRINCIPLES OF BIOLOGY, 4 Credits
Cell biology, organ systems, plant and animal physiology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: BI 212

BI 213H, *PRINCIPLES OF BIOLOGY, 4 Credits
Genetics, evolution, natural selection, and ecology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: BI 213

BI 221H, *PRINCIPLES OF BIOLOGY: CELLS, 4 Credits
Introduction to fundamental biological concepts and theories about the chemical and molecular basis of life, structure and function, transformation of energy and matter and information flow at a cellular and molecular level. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Prerequisite: CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or CH 221 (may be taken concurrently) with D- or better or CH 224H (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 261H (may be taken concurrently) with D- or better or CH 261 (may be taken concurrently) with D- or better or CH 271 (may be taken concurrently) with D- or better or CH 271H (may be taken concurrently) with D- or better)
Equivalent to: BI 221

BI 306H, *ENVIRONMENTAL ECOLOGY, 3 Credits
Biological, physical, and chemical nature of both natural and human-disturbed ecosystems. Topics include population and conservation ecology, toxins in the food chain and in the environment, forest decline and acid rain, eutrophication of terrestrial and aquatic ecosystems, and ecosystem restoration. Offered alternate years. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: BI 306

BI 311H, GENETICS, 4 Credits
Fundamentals of Mendelian, quantitative, population, molecular, and developmental genetics. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 311

BI 370H, ECOLOGY, 3 Credits
The study of interactions between organisms and their biotic and abiotic environments at the population, community, ecosystem, and biosphere levels of organization.
Attributes: HNRS – Honors Course Designator
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 370

BI 401H, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 401
This course is repeatable for 16 credits.

BI 407H, SEMINAR, 1 Credit
Departmental seminar. Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 407
This course is repeatable for 16 credits.

BI 445H, EVOLUTION, 3 Credits
Formal analysis of genetic and ecological mechanisms producing evolutionary change; special topics include speciation, ecological constraints, adaptive radiations, paleontology, biogeography, the origin of life, molecular evolution, and human evolution.
Attributes: HNRS – Honors Course Designator
Prerequisite: BI 311 with D- or better or BI 311H with D- or better
Equivalent to: BI 445

BI 499H, SPECIAL TOPICS, 1-16 Credits
Topics and credits vary.
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 499
This course is repeatable for 16 credits.
**BOT 407H, SEMINAR, 1 Credit**
Section 1: Departmental seminar. Section 3: Lichens and Bryophytes Research (1). Weekly one-hour meetings for reporting and discussion of active research projects, discussion of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Normally graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: BOT 407
This course is repeatable for 16 credits.

**BOT 499H, SPECIAL TOPICS, 0-16 Credits**
Attributes: HNRS – Honors Course Designator
Equivalent to: BOT 499
This course is repeatable for 16 credits.

**CBEE 101H, CHEMICAL, BIOLOGICAL, AND ENVIRONMENTAL ENGR ORIENTATION, 3 Credits**
Introduction to the engineering profession in general and in particular the CHE, BIOE, and ENVE programs; development of problem solving strategies and teamwork; analysis and presentation of experimental data, basic process calculations, and design methodologies.
Attributes: HNRS – Honors Course Designator
Equivalent to: CBEE 101

**CBEE 102H, ENGINEERING PROBLEM SOLVING AND COMPUTATIONS, 3 Credits**
Elementary programming and problem-solving concepts implemented using MATLAB software; emphasis on problem analysis and development of algorithms in engineering including dimensional analysis; application experiences are established through team-based activities including projects using the LEGO-NXT microprocessor for data acquisition.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 112 with C or better or MTH 251 with C or better or MTH 251H with C or better
Equivalent to: CBEE 102

**CBEE 211H, MATERIAL BALANCES AND STOICHIOMETRY, 3 Credits**
Material balances, thermophysical, and thermochemical calculations.
Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: CBEE 211
Recommended: General chemistry and second-year standing in engineering

**CBEE 212H, ENERGY BALANCES, 3 Credits**
Energy balances, thermophysical and thermochemical calculations.
Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CBEE 211 with C or better or CBEE 211H with C or better) and (MTH 256 (may be taken concurrently) [C] or MTH 256H (may be taken concurrently) [C])
Equivalent to: CBEE 212
Recommended: One year general chemistry and second-year standing in engineering

**CBEE 414H, ^PROCESS ENGINEERING LABORATORY, 3 Credits**
Unit operations and unit processes; preparation of technical reports. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: CBEE 213 (may be taken concurrently) with C or better and CHE 311 [C] and (CHE 333 [C] or CHE 333H [C])
Equivalent to: CBEE 414

**CCE 321H, CIVIL AND CONSTRUCTION ENGINEERING MATERIALS, 4 Credits**
Highway materials; aggregate, concrete and asphalt. Standard test methods.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and (ST 314 [C] or BA 276 [C])
Equivalent to: CCE 321

**CE 299H, SPECIAL TOPICS, 1-4 Credits**
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: CE 299

**CE 407H, SEMINAR, 1-3 Credits**
Understanding complexity and systems thinking.
Attributes: HNRS – Honors Course Designator
Equivalent to: CE 407
This course is repeatable for 16 credits.

**CH 231H, GENERAL CHEMISTRY, 4 Credits**
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 231H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 261H)
Attributes: CPPL – Core, Pers, PhySci Attached Lec; HNRS – Honors Course Designator
Prerequisite: MTH 111 (may be taken concurrently) with C- or better or MTH 112 (may be taken concurrently) with C- or better or MTH 251 (may be taken concurrently) with C- or better or MTH 251H (may be taken concurrently) with C- or better or MTH 252 (may be taken concurrently) with C- or better or MTH 252H (may be taken concurrently) with C- or better or MTH 254 (may be taken concurrently) with C- or better or MTH 254H (may be taken concurrently) with C- or better or Math Placement - ALEKS with a score of 060
Equivalent to: CH 231

**CH 232H, GENERAL CHEMISTRY, 4 Credits**
A general chemistry sequence for students majoring in most sciences, pre-pharmacy, and chemical engineering. CH 232H is a lecture course; CH 262H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 262H)
Attributes: CPPL – Core, Pers, PhySci Attached Lec; HNRS – Honors Course Designator
Prerequisite: MTH 111 (may be taken concurrently) with C- or better or MTH 112 (may be taken concurrently) with C- or better or MTH 251 (may be taken concurrently) with C- or better or MTH 251H (may be taken concurrently) with C- or better or MTH 252 (may be taken concurrently) with C- or better or MTH 252H (may be taken concurrently) with C- or better or MTH 254 (may be taken concurrently) with C- or better or MTH 254H (may be taken concurrently) with C- or better or Math Placement - ALEKS with a score of 060
Equivalent to: CH 232
CH 233H, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 233H is a lecture course; CH 263H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 263H)
Attributes: CPPL – Core, Pers, PhySci Attached Lec; HNRS – Honors Course Designator
Prerequisite: (CH 232 with C- or better or CH 232H with C- or better) or CH 222 with C- or better
Equivalent to: CH 233

CH 261H, *LABORATORY FOR CHEMISTRY
231H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 231H)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Corequisites: CH 231H
Equivalent to: CH 261

CH 262H, *LABORATORY FOR CHEMISTRY
232H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 232H)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: CH 261 with D- or better or CH 261H with D- or better or CH 271 with D- or better or CH 271H with D- or better or CH 222 with D- or better or CH 222H with D- or better
Corequisites: CH 232H
Equivalent to: CH 262

CH 263H, *LABORATORY FOR CHEMISTRY
233H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 233H)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: CH 262 with D- or better or CH 262H with D- or better or CH 272 with D- or better or CH 272H with D- or better or CH 223 with D- or better or CH 223H with D- or better
Corequisites: CH 233H
Equivalent to: CH 263

CH 361H, EXPERIMENTAL CHEMISTRY I, 3 Credits
First term of integrated laboratory program for chemistry majors highlighting techniques in organic, physical, and analytical chemistry. First-hand experience is gained using specialized glassware, scientific equipment and instrumentation plus computers. Essential technical laboratory standards and technical writing are emphasized. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 221 with D- or better and CH 222 [D-] and CH 223 [D-]) or (CH 224H [D-] and CH 225H [D-] and CH 226H [D-]) or ((CH 231 [D-] or CH 231H [D-]) and (CH 261 [D-] or CH 261H [D-] or CH 271 [D-]) and (CH 232 [D-] or CH 232H [D-]) and (CH 262 [D-] or CH 262H [D-] or CH 272 [D-]) and (CH 233 [D-] or CH 233H [D-]) and (CH 263 [D-] or CH 263H [D-] or CH 273 [D-]) and (MTH 251 (may be taken concurrently) [D-] or MTH 251H (may be taken concurrently) [D-] or PH 201 (may be taken concurrently) [D-] or PH 211 (may be taken concurrently) [D-] or PH 211H (may be taken concurrently) [D-] and CH 334 (may be taken concurrently) [D-])
Equivalent to: CH 361

CH 362H, EXPERIMENTAL CHEMISTRY I, 3 Credits
First-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 361 with D- or better or CH 361H with D- or better) and CH 335 (may be taken concurrently) [D-]
Equivalent to: CH 362

CH 407H, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Attributes: HNRS – Honors Course Designator
Equivalent to: CH 407

CH 461H, EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic and physical chemistry. Lec/Lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 421 (may be taken concurrently) [D-] and CH 440 (may be taken concurrently) [D-]
Equivalent to: CH 461

CH 462H, ^EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 441 (may be taken concurrently) [D-] and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-])
Equivalent to: CH 462
Recommended: CH 422
CH 463H, EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-]) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 463

CH 464H, EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 464
Recommended: CH 461 or CH 461H or CH 324

CHE 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CHE 199

CHE 331H, TRANSPORT PHENOMENA I, 4 Credits
Fundamentals and application of momentum and energy transfer phenomena to fluid flow for the design of industrial chemical engineering equipment.
Attributes: HNRS – Honors Course Designator
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and (CBEE 212 [may be taken concurrently] [C] or CBEE 212H [may be taken concurrently] [C])
Equivalent to: CHE 331

CHE 332H, TRANSPORT PHENOMENA II, 3 Credits
A unified treatment using control volume and differential analysis of heat transfer, prediction of heat transport properties, and introduction to heat transfer operations.
Attributes: HNRS – Honors Course Designator
Prerequisite: CHE 311 with C or better and (CHE 331 [C] or CHE 331H [C])
Equivalent to: CHE 332

CHE 333H, TRANSPORT PHENOMENA III, 3 Credits
A unified treatment using control volume and differential analysis of binary mass transfer, prediction of mass transport properties, and introduction to mass transfer operations. Lec/studio.
Attributes: HNRS – Honors Course Designator
Prerequisite: CHE 331 with C or better or CHE 331H with C or better or CHE 332 with C or better or CHE 332H with C or better
Equivalent to: CHE 333

CHE 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CHE 405
This course is repeatable for 16 credits.

COMM 111H, PUBLIC SPEAKING, 3 Credits
Public communication as it relates to informative and persuasive discourse. The theory and practice of public speaking in informative and persuasive contexts. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech; HNRS – Honors Course Designator
Equivalent to: COMM 111

COMM 114H, ARGUMENT AND CRITICAL DISCOURSE, 3 Credits
Examination of argumentation as a part of human interaction and investigation. The course emphasizes the processes by which people give reasons to gain adherence and to justify beliefs and actions. The course includes readings, writing, and presentations concerned with the nature of arguments, processes of arguing, and argument criticism. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech; HNRS – Honors Course Designator
Equivalent to: COMM 114

CROP 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CROP 405, CSS 405H
This course is repeatable for 16 credits.

CROP 499H, SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE, 1-16 Credits
Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ.
Attributes: HNRS – Honors Course Designator
Equivalent to: CROP 499, CSS 499H
This course is repeatable for 16 credits.

CS 160H, COMPUTER SCIENCE ORIENTATION, 3 Credits
Introduction to the computer science field and profession. Team problem solving. Introduction to writing computer programs. Approaches to teaching course topics vary across sections. Lec/lab.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 160

CS 321H, INTRODUCTION TO THEORY OF COMPUTATION, 3 Credits
Survey of models of computation including finite automata, formal grammars, and Turing machines.
Attributes: HNRS – Honors Course Designator
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 321
CS 325H, ANALYSIS OF ALGORITHMS, 4 Credits
Recurrence relations, combinatorics, recursive algorithms, proofs of correctness.
Attributes: HNRS – Honors Course Designator
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 325

CS 391H, *SOCIAL AND ETHICAL ISSUES IN COMPUTER SCIENCE, 3 Credits
In-depth exploration of the social, psychological, political, and ethical issues surrounding the computer industry and the evolving information society. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: CS 391
Recommended: CS 101 or computer literacy

CS 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 407
This course is repeatable for 16 credits.

CS 419H, SELECTED TOPICS IN COMPUTER SCIENCE, 1-5 Credits
Topics of special and current interest not covered in other courses.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 419
This course is repeatable for 99 credits.

DSGN 244H, COLOR INNOVATION, 4 Credits
The aesthetics, meaning, and perception of color provide the foundational knowledge in this course.
Attributes: HNRS – Honors Course Designator
Equivalent to: DSGN 244

DSGN 341H, DESIGN THINKING AND PROCESS INNOVATION, 4 Credits
Application of a qualitative, multi-method approach to gain insight into how the consumer experience can be improved within a given context. Application of design thinking principles to identify and develop solutions to improve consumer experience within a given context.
Attributes: HNRS – Honors Course Designator
Equivalent to: DSGN 341

ECE 322H, ELECTRONICS I, 3 Credits
Fundamental device characteristics including diodes, MOSFETs and bipolar transistors; small- and large-signal characteristics and design of linear circuits.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 203 with C or better
Equivalent to: ECE 322

ECON 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ECON 399
This course is repeatable for 16 credits.

ED 216H, *PURPOSE, STRUCTURE, AND FUNCTION OF EDUCATION IN A DEMOCRACY, 3 Credits
Introduction to the historical, social, philosophical, political, legal and economic foundations of education in Oregon, the United States, and other countries in order to provide a framework from which to analyze contemporary educational and environmental issues in various schools, communities, and workplaces. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ED 216

ED 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ED 407, TCE 407
This course is repeatable for 16 credits.

ED 408H, WORKSHOP, 1-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ED 408, TCE 408H
This course is repeatable for 16 credits.

ENG 104H, *INTRODUCTION TO LITERATURE: FICTION, 3 Credits
Study of fiction for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 104

ENG 106H, *INTRODUCTION TO LITERATURE: POETRY, 3 Credits
Study of poetry for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 106

ENG 201H, *SHAKESPEARE, 4 Credits
The earlier plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 201

ENG 202H, *SHAKESPEARE, 4 Credits
The later plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 202
ENG 204H, *SURVEY OF BRITISH LITERATURE: BEGINNINGS TO 1660, 4 Credits
English literature presented in chronological sequence. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 204

ENG 205H, * SURVEY OF BRITISH LITERATURE: RESTORATION TO ROMANTIC ERA, 4 Credits
English literature presented in chronological sequence. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 205

ENG 211H, *LITS OF THE WORLD: AFRICA, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of Africa. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ENG 211

ENG 213H, *LITERATURES OF THE WORLD: MIDDLE EAST, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of the Middle East. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ENG 213

ENG 220H, *TOPICS IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
A comparative treatment of literary topics in the context of institutional and systematic discrimination. Not offered every year. CROSSLISTED as ENG 220/FILM 220. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 220, FILM 220

ENG 221H, *AFRICAN-AMERICAN LITERATURE, 4 Credits
Reading and critical analysis of African-American literature in historical, political, and/or thematic perspective. Content changes from term to term. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 221
This course is repeatable for 8 credits.

ENG 254H, *SURVEY OF AMERICAN LITERATURE: 1900 TO PRESENT, 4 Credits
Readings from American literature presented in chronological sequence, important eras and movements with emphasis on major writers. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 254

ENG 260H, *LITERATURE OF AMERICAN MINORITIES, 4 Credits
Study of the literature of American minorities: North American Indian, black, Chicano/Chicana, Asian, Middle Eastern, gay and lesbian. Not offered every year. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 260

ENG 275H, *THE BIBLE AS LITERATURE, 4 Credits
Biblical structure, literary types, ideas, influences. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 275

ENG 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, PHL 295, PHL 295H, WGSS 295, WGSS 295H

ENG 374H, *MODERN SHORT STORY, 4 Credits
Survey of the short story from the 19th century to present. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 374

ENG 375H, CHILDREN'S LITERATURE, 4 Credits
Surveys a variety of genres, including fairy tales, folktales and fables, nonsense poetry, picture books, historical and fantasy novels, examining how these texts represent childhood and connect with historical, cultural, and psychological contexts.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENG 375
ENG 399H, SELECTED TOPICS, 1-16 Credits

(H)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 399
This course is repeatable for 16 credits.

ENG 406H, PROJECTS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENG 406
This course is repeatable for 16 credits.

ENGR 112H, INTRODUCTION TO ENGINEERING COMPUTING, 3 Credits
Systematic approaches to engineering problem solving using computers. Logical analysis, flow charting, input/output design, introductory computer programming and use of engineering software. Lec/lab/rec.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 112

ENGR 201H, ELECTRICAL FUNDAMENTALS I, 3 Credits
Attributes: HNRS – Honors Course Designator
Prerequisite: (MTH 251 with C or better or MTH 251H with C or better) and (MTH 252 [C] or MTH 252H [C])
Equivalent to: ENGR 201

ENGR 211H, STATICS, 3 Credits
Analysis of forces induced in structures and machines by various types of loading. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: ENGR 211

ENGR 212H, DYNAMICS, 3 Credits
Kinematics, Newton's laws of motion, and work-energy and impulse-momentum relationships applied to engineering systems. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 211 with C or better or ENGR 211H with C or better) and (PH 211 [C] or PH 211H [C])
Equivalent to: ENGR 212

ENGR 213H, STRENGTH OF MATERIALS, 3 Credits
Properties of structural materials; analysis of stress and deformation in axially loaded members, circular shafts, and beams, and in statically indeterminate systems containing these components. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 211 with C or better or ENGR 211H with C or better
Equivalent to: ENGR 213

ENGR 299H, SPECIAL TOPICS, 0-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 299
This course is repeatable for 16 credits.

ENGR 350H, *SUSTAINABLE ENGINEERING, 3 Credits
Examination of technological innovations and alternatives required to maintain human quality of life and environmental sustainability. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ENGR 350

ENGR 363H, *ENERGY MATTERS, 3 Credits
Establishes a basic energy vocabulary, applies the fundamental concepts of identifying energy and determining efficiency, and studies the implications of energy decisions in the context of traditional, alternative, and sustainable energy resources. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ENGR 363
Recommended: MTH 112 or higher

ENGR 391H, ENGINEERING ECONOMICS AND PROJECT MANAGEMENT, 3 Credits
Critical issues in the management of engineering and high-technology projects are discussed. Economic, time, and performance parameters of engineering projects are analyzed from the organizational and resource perspectives. Network optimization and simulation concepts are introduced. Fundamental engineering economics concepts are introduced and applied to planning and managing projects.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 391

ENGR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 399
This course is repeatable for 16 credits.

ENGR 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 407
This course is repeatable for 16 credits.

ENGR 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 499
This course is repeatable for 16 credits.

ENSC 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENSC 407
This course is repeatable for 12 credits.
Available via Ecampus
ENVE 299H, SPECIAL TOPICS, 0-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENVE 299
This course is repeatable for 16 credits.

ENVE 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENVE 407
This course is repeatable for 16 credits.

ES 221H, *SURVEY OF AFRICAN AMERICAN STUDIES I, 3 Credits
An interdisciplinary survey of the African American experience beginning with pre-colonial Africa and ending with World War I. (H) (NC) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 221

ES 223H, *SURVEY OF AFRICAN AMERICAN STUDIES II, 4 Credits
An interdisciplinary survey of the African American experience from World War I to the present. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ES 223

ES 241H, *INTRODUCTION TO NATIVE AMERICAN STUDIES, 4 Credits
A survey of Native American cultures and history, both prior to and following contact with Europeans. Introduces the key contemporary issues and questions in the field of Native American studies. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 241

ES 353H, *ENVIRONMENTAL RACISM, 4 Credits
Introduces environmental racism; the unequal impact of environmental harm on communities of color and indigenous peoples. Presents empirical evidence and theoretical frames, and explores efforts by government, residents, and activists to combat it. Considers questions of environmental justice via social structure, public access, open space, indigeneity, food, and media. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 353

ES 355H, *RACE, SPACE, AND DIFFERENCE, 4 Credits
A hands-on approach to exploring how we make space, and why geography is always infused with markers of social identity and exercises of power. Will practice ‘reading’ space and landscapes, and learn how notions of race and other forms of ‘difference’ shape space and (vice versa) to produce experiences of inclusion, exclusion, cooperation, and conflict. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 355

ES 357H, *FARMWORKER JUSTICE MOVEMENTS, 4 Credits
Justice movements for farmworkers have a long and storied past in the annals of US history. This course begins with the 1960s Chicano civil rights era struggles for social justice. Focus on the varied strategies of four farmworker justice movements: United Farm Workers, Farm Labor Organizing Committee, Piñeros y Campesinos Unidos Noroeste, and the Coalition of Immokalee Workers. The course is structured around the question of the movement and its various articulations. Course covers central themes and strategies that comprise the core of farmworker movements but is designed to allow students to explore other articulations they find relevant. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 357

ES 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

ES 445H, *NATIVE AMERICAN SCIENCE AND TECHNOLOGY, 4 Credits
Examination of scientific and technological discovery, continuity, and change among indigenous peoples, with particular emphasis on selected communities of pre- and post-European contact North America. (Bacc Core Course) (H) (NC)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 445

FES 240H, *FOREST BIOLOGY, 4 Credits
Structure, function, development and biology of forest vegetation and their relationships to forestry and natural resource applications. Field trips required. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: FES 240
FILM 245H, *THE NEW AMERICAN CINEMA, 4 Credits
A formalist, ideological, and commercial investigation into contemporary American cinema. Three hours of lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 245, ENG 245H, FILM 245

FILM 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FILM 399
This course is repeatable for 16 credits.

FILM 452H, STUDIES IN FILM, 4 Credits
Particular cinematographers, movements, types, conventions, or problems in film. Topics change from term to term. Lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 452, FILM 452
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above

FILM 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FILM 399
This course is repeatable for 16 credits.

FOR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FOR 399
This course is repeatable for 16 credits.

FR 499H, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. See Schedule of Classes for current offerings and prerequisites. Not offered every year.
Attributes: HNRS – Honors Course Designator
Equivalent to: FR 499
This course is repeatable for 9 credits.

FST 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FST 399
This course is repeatable for 16 credits.

FW 199H, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: FW 199
This course is repeatable for 16 credits.

FW 407H, SEMINAR, 1-16 Credits
Graded P/N. Taught at Hatfield Marine Science Center.
Attributes: HNRS – Honors Course Designator
Equivalent to: FW 407
This course is repeatable for 16 credits.

GEO 352H, OREGON: GEOLOGY, PLACE, AND LIFE ON THE RING OF FIRE, 4 Credits
Provides an overview of the geology of Oregon in the context of the Pacific Northwest including tectonic setting, geologic features and landscapes, as well as topics and concepts of interest to society in general. Lessons will include discussion of the relationship between people and the landscape, incorporating the concept of ethnographic landscapes–geologic structures, natural resources and geologic hazards that are part of the identity of a place. Emphasizes written and graphic communication skills. Field trip required, transportation fee charged. Lec/lab. (Bacc core course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: GEO 352

GEO 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: GEO 399
This course is repeatable for 16 credits.

GEO 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: GEO 407
This course is repeatable for 12 credits.

GEOG 340H, INTRODUCTION TO WATER SCIENCE AND POLICY, 3 Credits
Policy and science of the hydrologic cycle. Emphasis on interaction between water’s natural time-space fluctuations and human uses. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: CSS 335, CSS 335H, GEO 335, GEO 335H, GEOG 340, SOIL 335

GEOG 399H, SPECIAL STUDIES, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: GEOG 399
This course is repeatable for 16 credits.

H 100H, INTRODUCTION TO PUBLIC HEALTH, 4 Credits
A basic overview of public health. Uses a mix of lectures, guest speakers, classroom activities and homework to help students understand the role of public health in eliminating health disparities, understanding epidemics, and setting policy.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 100

H 333H, GLOBAL PUBLIC HEALTH, 3 Credits
Introduction to the field of global health, its history, methods, and key principle; understanding global health inequities through case studies; overview of major global health prevention programs. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: H 333
H 364H, DRUGS, SOCIETY AND HUMAN BEHAVIOR, 3 Credits
Drug use and abuse; theories of addiction; basic principles of drug action regarding the use of sedative and stimulative compounds; alcohol; opiates; hallucinogens; designer drugs; cocaine; and over-the-counter products. Particular emphasis on the role of the individual's value orientation, decision-making, and self-responsibility in treatment and educational approaches to prevention.
Attributes: HNRS – Honors Course Designator
Prerequisite: PSY 201 with C- or better or PSY 202 with C- or better
Equivalent to: H 364

H 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

H 407H, SEMINAR, 2 Credits
Seminar to prepare students for their internship in public health. Focus is on professionalism, leadership skills, identifying strengths, and transitioning from college to graduate school or the working world.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 407
Recommended: H 480 for students in EOH (Environmental and Occupational Health) minors. H 250 for students in the HMP (Health Management and Policy) option. H 225 and H 320 for students in the HPHB (Health Promotion and Health Behavior) option

H 491H, SPECIAL TOPICS, 1-3 Credits
Recent changes and advances in public health and health care administration and their application to special fields of study. Topics vary from term to term and year to year.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 491
This course is repeatable for 6 credits.

HC 001, SERVICE LEARNING, 0 Credits
Engage in a service-learning or community engagement experience where skills and knowledge are applied to meet an authentic community-identified need. The experience will integrate meaningful community service with reflection. Through readings and discussions, critically reflect on the service in order to increase understanding of the discipline, gain a broader appreciation of the discipline, enhance a sense of civic responsibility, and strengthen connections with communities.
Attributes: HNRS – Honors Course Designator

HC 002, LEADERSHIP, 0 Credits
Provides basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.
Attributes: HNRS – Honors Course Designator

HC 199, *HONORS WRITING, 3 Credits
Through a range of assignments, texts, and guest speakers, Honors College students will develop critical thinking skills and a strategy for writing in their discipline. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with D- or better or WR 121H with D- or better

HC 299, SELECTED TOPICS, 1-16 Credits
Selected topics for Honors College students.
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 399, SELECTED TOPICS, 1-16 Credits
Upper-division special topics for Honors College students.
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 402, INDEPENDENT STUDY, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 403, THESIS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 404, WRITING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 405, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 406, PROJECTS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 407, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 18 credits.
Available via Ecampus

HC 408, WORKSHOP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.
Available via Ecampus

HC 409, PRACTICUM, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 499, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.
HDFS 447H, *FAMILIES AND POVERTY, 4 Credits
Examines families in poverty focusing on causes and consequences of family poverty, including global economic factors, migration patterns, discrimination, and policies and programs for families. Community service required. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HDFS 447

HDFS 465H, TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 3 Credits
Topics and issues in human development and family sciences. Examples: children and the law; gender and families; parenting; aging; relationship development across the lifespan.
Attributes: HNRS – Honors Course Designator
Equivalent to: HDFS 465
This course is repeatable for 18 credits.
Recommended: 6 credits of HDFS, SOC or PSY

HDFS 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HDFS 499
This course is repeatable for 16 credits.

HHS 231H, *LIFETIME FITNESS FOR HEALTH, 2 Credits
Provides up-to-date and relevant health and wellness information; practical strategies to implement positive behavior change in physical activity, nutrition, and stress management throughout college and the lifespan. (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness; HNRS – Honors Course Designator
Equivalent to: HHS 231

HORT 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 199
This course is repeatable for 16 credits.

HORT 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 299
This course is repeatable for 16 credits.

HORT 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 405
This course is repeatable for 16 credits.

HORT 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 499
This course is repeatable for 16 credits.

HST 105H, *WORLD HISTORY II: MIDDLE AND EARLY MODERN AGES, 3 Credits
A survey of the historical development of several world civilizations roughly from the 8th century to the late 18th century. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 105

HST 106H, *WORLD HISTORY III: THE MODERN AND CONTEMPORARY WORLD, 3 Credits
A survey of the historical development of several world civilizations from the 18th century to the contemporary period. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. Not offered every year. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 106

HST 201H, *HISTORY OF THE UNITED STATES, 4 Credits
Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers pre-Columbian and colonial origins to 1820. HST 201H, HST 202H, HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 201

HST 202H, *HISTORY OF THE UNITED STATES, 4 Credits
Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1820 to 1920. HST 202H and HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 202
HST 203H, *HISTORY OF THE UNITED STATES, 4 Credits
Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1920 to present. HST 202H and HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 203

HST 210H, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, PHL 210, PHL 210H, REL 210, REL 210H

HST 299H, SPECIAL TOPICS, 1–16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HST 299
This course is repeatable for 16 credits.

HST 317H, *WHY WAR: A HISTORICAL PERSPECTIVE, 4 Credits
An inquiry into the origins of mass violence. Theory and case studies are used to suggest possible causes of international war, civil war, revolution, and genocide. (H) (Bacc Core Course)
Attributes: CSSI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 317

HST 324H, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPDC – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: HST 324, REL 324, REL 324H

HST 350H, *EARLY LATIN AMERICA, 4 Credits
History of Latin America leading up to and after Spanish and Portuguese conquest. Focus on indigenous American, European and African cultures and religions in contact under colonial government and economic systems. Covers the period from 1400 to 1810. CROSSLISTED as HST 350/REL 350. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 350, REL 350

HST 365H, *THE CIVIL RIGHTS MOVEMENT IN THE MODERN U.S., 4 Credits
An exploration of the 'long civil rights movement' among African Americans and their allies during the 20th century United States, with attention to the structure of racial inequality, movement philosophies and strategies, white allies and opponents, relationships to other freedom movements, and the movement’s legacies. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 365

HST 382H, *HISTORY OF AFRICA, 4 Credits
History of Africa from earliest times to present, including origins of human society, slave trade, European imperialism and African nationalism. Covers Nineteenth and Twentieth century Africa. (H) (NC) (Bacc Core Course)
Attributes: CPDC – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 382

HST 385H, *THE ARAB-ISRAELI CONFLICT, 4 Credits
Examination of the origins of the Arab-Israeli conflict and subsequent efforts to find a lasting solution. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 385

HST 386H, *MODERN IRAN: REVOLUTION AND ITS AFTERMATH, 4 Credits
The history of 20th century Iran with a focus on the Islamic revolution and its consequences. Readings will provide the cultural and political background for understanding contemporary Iran and its place in the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HST 386
HST 390H, *MIDEAST WOMEN: IN THEIR OWN WORDS, 4 Credits
The lives of modern Middle Eastern women as told in memoirs, autobiography and film. First-person narratives and film portrayals provide the means for understanding historical events and contemporary trends in the region. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HST 390

HST 399H, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HST 407H, ^SEMINAR, 5 Credits
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Equivalent to: HST 407
This course is repeatable for 20 credits.

HST 415H, SELECTED TOPICS, 4 Credits
Selected topics of special or current interest not covered in other courses. (H)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 415
This course is repeatable for 99 credits.

HST 425H, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, REL 425, REL 425H

HST 432H, THE HISTORY OF SEXUALITY, 4 Credits
The history of human sexuality from ancient Greece to the present. (H) (SS)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 432

HST 440H, *HISTORY OF PSYCHOTHERAPY, 4 Credits
The history of psychotherapy in modern Western societies, from biomedical, cultural, political, and psychosocial perspectives. Not offered every year. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HSTS 419

HST 499H, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HSTS 415H, ^THEORY OF EVOLUTION AND FOUNDATION OF MODERN BIOLOGY, 4 Credits
Origin and development of Darwin’s theory of evolution. Reception of theory and history of evolution to the present. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 415

HSTS 417H, ^HISTORY OF MEDICINE, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine’s development to general changes in science and culture. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 417

HSTS 419H, ^STUDIES IN SCIENTIFIC CONTROVERSY: METHODS AND PRACTICES, 4 Credits
Course focuses on accounts of scientific discoveries that have been controversial, to understand the rational, psychological, and social characteristics which have defined the meaning and procedures of the natural sciences. Case studies are used from the 18th through 20th centuries. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 419

HSTS 440H, *HISTORY OF PSYCHOTHERAPY, 4 Credits
The history of psychotherapy in modern Western societies, from biomedical, cultural, political, and psychosocial perspectives. Not offered every year. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HSTS 440

KIN 399H, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 18 credits.
MB 299H, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: MB 299
This course is repeatable for 16 credits.

MB 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: MB 399
This course is repeatable for 16 credits.

ME 299H, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: ME 299
This course is repeatable for 16 credits.

ME 311H, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSLISTED as ME 311/NSE 311.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ENGR 311, ENGR 311H, ME 311, NE 311, NE 311H, NSE 311, NSE 311H

ME 312H, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSLISTED as ME 312/NSE 312.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better)
Equivalent to: ENGR 312, ME 312, NE 312, NE 312H, NSE 312, NSE 312H

ME 331H, INTRODUCTORY FLUID MECHANICS, 4 Credits
Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSLISTED as ME 331/NSE 331.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 331, ENGR 331H, ME 331, NE 331, NE 331H, NSE 331, NSE 331H

ME 332H, HEAT TRANSFER, 4 Credits
Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSLISTED as ME 332/NSE 332.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 331 with C or better or ME 331H with C or better or NSE 331 with C or better or NSE 331H with C or better or NE 331 with C or better or NE 331H with C or better
Equivalent to: ME 332, ME 332H, NSE 332, NSE 332H

ME 337H, INTERMEDIATE DYNAMICS, 4 Credits
Continues the study of kinematics and kinetics of particles and rigid bodies, with applications to mechanical systems of current interest to engineers.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C]) and (ENGR 112 [C] or CS 161 [C] or CBEE 102 [C] or NSE 115 [C])
Equivalent to: ME 317
ME 422H, MECHANICAL VIBRATIONS, 4 Credits
Dynamic response of single and multiple degree-of-freedom systems.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: ME 317 with C or better or ME 317H with C or better  
Equivalent to: ME 422

ME 430H, SYSTEMS DYNAMICS AND CONTROL, 4 Credits
Modeling and analysis of linear continuous systems in time and frequency domains. Fundamentals of single-input-single-output control system design. CROSSLISTED as ECE 451/ME 430.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: (ME 317 with C or better or ME 317H with C or better or (ECE 351 with C or better and ECE 352 [C] and (ENGR 212 [C] or ENGR 212H [C])))  
Equivalent to: ECE 451, ME 430

ME 452H, THERMAL AND FLUIDS SCIENCES LABORATORY, 4 Credits
Course emphasis is on experiments related to thermodynamics, heat transfer, and fluid mechanics. Proper experimental methods, data and uncertainty analysis related to thermal and fluids measurements are discussed.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: (ME 311 with C or better or ME 311H with C or better) and (ME 331 [C] or ME 331H [C]) and (ME 332 [C] or ME 332H [C])  
Equivalent to: ME 452

ME 499H, SPECIAL TOPICS, 0-16 Credits  
Attributes: HNRS – Honors Course Designator  
Equivalent to: ME 499  
This course is repeatable for 16 credits.

MIME 101H, INTRODUCTION TO MIME, 3 Credits
Provides students with an overview of mechanical, industrial, manufacturing, and energy systems engineering careers and an introduction to technical areas of study. Skills necessary for success in both the academic curriculum and in the engineering profession will also be emphasized, including communication and ethics. Lec/rec.  
Attributes: HNRS – Honors Course Designator  
Equivalent to: MIME 101

MTH 231H, ELEMENTS OF DISCRETE MATHEMATICS, 4 Credits
Elementary logic and set theory, functions, direct proof techniques, contradiction and contraposition, mathematical induction and recursion, elementary combinatorics, basic graph theory, minimal spanning trees. All courses used to satisfy MTH prerequisites must be completed with C- or better.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: MTH 111 with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 060  
Equivalent to: MTH 231

MTH 251H, *DIFFERENTIAL CALCULUS, 4 Credits
Differential calculus for engineers and scientists. Rates of change: the derivative, velocity, and acceleration. The algebraic rules of differential calculus and derivatives of polynomial, rational, and trigonometric functions. Maximum-minimum problems, curve sketching, and other applications. Antiderivatives and simple motion problems. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)  
Attributes: CSMA – Core, Skills, Math; HNRS – Honors Course Designator  
Prerequisite: MTH 112 with C- or better or MTH 150X with C- or better or Math Placement Test with a score of 33 or Math Placement - ALEKS with a score of 075  
Equivalent to: MTH 251

MTH 252H, INTEGRAL CALCULUS, 4 Credits
Definite integrals, elementary applications to area, force, and work. Integral tables and basic techniques of integration, calculus of logarithmic and exponential functions, polar coordinates, applications to areas, volumes, force, work, and growth and decay problems. All courses used to satisfy MTH prerequisites must be completed with C- or better.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better  
Equivalent to: MTH 252

MTH 254H, VECTOR CALCULUS I, 4 Credits
Vectors, vector functions, and curves in two and three dimensions. Surfaces, partial derivatives, gradients, and directional derivatives. Multiple integrals in rectangular, polar, cylindrical, and spherical coordinates. Physical and geometric applications. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better  
Equivalent to: MTH 254

MTH 255H, VECTOR CALCULUS II, 4 Credits
Brief review of vector functions, space curves, gradients, and directional derivatives. Introduction to vector analysis: vector fields, divergence, curl, line integrals, surface integrals, conservative fields, and the theorems of Gauss and Stokes with applications to force, work, mass, and charge. All courses used to satisfy MTH prerequisites must be completed with C- or better.  
Attributes: HNRS – Honors Course Designator  
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better  
Equivalent to: MTH 255
MTH 256H, APPLIED DIFFERENTIAL EQUATIONS, 4 Credits
First order linear and nonlinear equations, and second order linear equations. Applications to electric circuits and mechanical oscillators. Introduction to the Laplace transform and higher order equations. Solution methods and applications appropriate for science and engineering. (Familiarity with complex numbers and Euler's identities is highly desirable.) All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Equivalent to: MTH 256

MTH 264H, INTRODUCTION TO MATRIX ALGEBRA, 2 Credits
Introduction to matrix algebra: systematic solution to systems of linear equations; linear transformations; eigenvalue problems.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better

MTH 265H, INTRODUCTION TO SERIES, 2 Credits
Convergence and divergence of numerical series, including geometric series. Series of functions. Power series and their analytic properties. Taylor series expansions and Taylor polynomials.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better

MTH 306H, MATRIX AND POWER SERIES METHODS, 4 Credits
Introduction to matrix algebra, determinants, systematic solution to linear systems, and eigenvalue problems. Convergence and divergence of series with emphasis on power series, Taylor series expansions, convergence tests for power series, and error estimates for truncated series used in practical approximations. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 306

MUS 102H, *MUSIC APPRECIATION II: PERIODS AND GENRES, 3 Credits
A study of the masterworks of a single era (such as Baroque, classic, romantic, twentieth century) or a genre (such as orchestra, chamber, opera, musical theatre). For non-majors. Need not be taken in order. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 102
This course is repeatable for 12 credits.

MUS 108H, *MUSIC CULTURES OF THE WORLD, 3 Credits
Survey of the world’s music with attention to musical styles and cultural contexts. Included are Oceania, Indonesia, Africa, Asia, Latin America. For non-majors. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: MUS 108
This course is repeatable for 18 credits.

MUS 101H, *MUSIC APPRECIATION I: SURVEY, 3 Credits
Dealing primarily with the Western classical tradition, the course focuses on developing perceptive listening skills through the study of musical forms and styles. For non-majors. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 101

MUS 399H, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

NSE 311H, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSLISTED as ME 311/NSE 311.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ME 311, ME 311H, NE 311H, NSE 311

NSE 312H, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSLISTED as ME 312/NSE 312.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 312, ME 312, ME 312H, NE 312, NE 312H, NSE 312
**NSE 331H, INTRODUCTORY FLUID MECHANICS, 4 Credits**

Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSLISTED as ME 331/NSE 331.

**Attributes:** HNRS – Honors Course Designator

**Prerequisite:** ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better

**Equivalent to:** ENGR 331, ENGR 331H, ME 331, ME 331H, NE 331, NE 331H, NSE 331

**NSE 332H, HEAT TRANSFER, 4 Credits**

Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSLISTED as ME 332/NSE 332.

**Attributes:** HNRS – Honors Course Designator

**Prerequisite:** ME 331 with C or better or ME 331H with C or better or NSE 331 with C or better or NSE 331H with C or better or NE 331 with C or better or NE 331H with C or better

**Equivalent to:** ME 332, ME 332H, NE 332, NE 332H, NSE 332

**OC 399H, SPECIAL TOPICS IN OCEANOGRAPHY, 1-4 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** OC 399

*This course is repeatable for 16 credits.*

**OC 407H, SEMINAR, 1-3 Credits**

Undergraduate seminar on current developments in the oceanographic research literature, with student presentations and group discussions. A written report may be required.

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** OC 407

*This course is repeatable for 12 credits.*

**PAC 145H, DANCE: MODERN I, 1 Credit**

Introduction to modern dance movement fundamentals. Technique, stretch, strength, and alignment are included, as well as an appreciation for movement expression. No previous dance experience needed.

**Additional fee for accompanist.**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PAC 145

*This course is repeatable for 11 credits.*

**PAC 293H, INTERDISCIPLINARY YOGA, 1 Credit**

Basic yoga poses (asanas) using specific techniques and sequences to promote flexibility, strength, relaxation, and a sense of well-being will be used. Integrative concepts between yoga and our daily life will be examined as well as yoga in relationship to other forms of physical movement.

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PAC 293

*This course is repeatable for 11 credits.*

**PAC 325H, ALI: WILDERNESS FIRST AID, 1 Credit**

Fundamentals of emergency care in a non-urban environment including anatomy, physiology, injury assessment, short-term care, small-group rescues; backcountry emphasis with long-term care and evacuation complications. PAC courses may not be used to fulfill upper-division requirements.

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PAC 325

*This course is repeatable for 11 credits.*

**PAX 415H, TOPICS IN PEACE STUDIES, 1-16 Credits**

Selected topics relevant to the study of conflict, peace, and war. May be taken more than one time as topics vary.

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PAX 415

*This course is repeatable for 16 credits.*

**PBG 199H, SPECIAL TOPICS, 1-16 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PBG 199

*This course is repeatable for 16 credits.*

**PBG 299H, SPECIAL TOPICS, 1-16 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PBG 299

*This course is repeatable for 16 credits.*

**PBG 405H, READING AND CONFERENCE, 1-16 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PBG 405

*This course is repeatable for 16 credits.*

**PBG 499H, SPECIAL TOPICS, 1-16 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** PBG 499

*This course is repeatable for 16 credits.*

**PH 104H, *DESCRIPTIVE ASTRONOMY, 4 Credits**

Historical and cultural context of discoveries concerning planets and stars and their motions. Topics include the solar system, the constellations, birth and death of stars, pulsars and black holes. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. Lec/lab. (Bacc Core Course)

**Attributes:** CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator

**Equivalent to:** PH 104
PH 211H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 211
Recommended: MTH 251 and concurrent enrollment in MTH 252 and a PH 211 recitation section

PH 212H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: PH 211 with D- or better or PH 211H with D- or better
Equivalent to: PH 212
Recommended: MTH 252 and concurrent enrollment in PH 222 and MTH 254

PH 213H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 213
Recommended: MTH 254 and (PH 212 or PH 212H). Concurrent enrollment in a recitation section is strongly recommended.

PH 221H, RECITATION FOR PHYSICS 211, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 211 (may be taken concurrently) with D- or better or PH 211H (may be taken concurrently) with D- or better
Equivalent to: PH 221

PH 222H, RECITATION FOR PHYSICS 212, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 212 (may be taken concurrently) with D- or better or PH 212H (may be taken concurrently) with D- or better
Equivalent to: PH 222
Recommended: Concurrent enrollment in PH 212 or PH 212H

PH 223H, RECITATION FOR PHYSICS 213, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 213 (may be taken concurrently) with D- or better or PH 213H (may be taken concurrently) with D- or better
Equivalent to: PH 223
Recommended: Concurrent enrollment in PH 213

PH 313H, *ENERGY ALTERNATIVES, 3 Credits
Exploration of the challenges and opportunities posed by dwindling resources; physical and technological basis of our current energy alternatives; new or controversial technologies such as nuclear or solar power; overview of resource availability, patterns of energy consumption, and current governmental policies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: PH 313
Recommended: Upper-division standing and 12 credits of introductory science

PH 399H, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PH 407H, SEMINAR, 1-16 Credits
Departmental seminars or colloquium.
Attributes: HNRS – Honors Course Designator
Equivalent to: PH 407
This course is repeatable for 16 credits.

PHL 160H, *QUESTS FOR MEANING: WORLD RELIGIONS, 4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSTLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, REL 160, REL 160H

PHL 205H, *ETHICS, 4 Credits
Introduction to ethical theory and to the evaluation of ethical issues in society such as sexual ethics and euthanasia. Includes the study of philosophical theories of moral responsibility and moral virtue, and the philosophical ideas behind ethics debates in society. Students are encouraged to develop their own positions on ethical issues through discussion projects and term papers. Lec/rec. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 205
PHL 210H, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, REL 210, REL 210H

PHL 251H, *KNOWERS, KNOWING, AND THE KNOWN, 4 Credits
An introduction to the major debates in Western philosophy concerning the nature of reality, and the ways we come to know about that reality. One example concerns debates about the problem of skepticism: Is it possible that humans could be completely mistaken about the way the world is? Another example concerns debates about human identity and free will. Beginning with historical figures such as Descartes and Hume, the course also provides an introduction to more contemporary thinkers. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: PHL 251

PHL 275H, *INTRODUCTION TO DISABILITY STUDIES, 4 Credits
Introduces core concepts and themes in the multidisciplinary field of disability studies. Analyzes disability as a product of discriminatory, oppressive, and inaccessible built environments and societies. Explores disability pride, culture, and community as alternatives to medical and charity models of disability. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PHL 275

PHL 280H, *ETHICS OF DIVERSITY, 4 Credits
Uses moral philosophy to examine difference-based discrimination and prejudice in the human community. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 280

PHL 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, ENG 295H, PHL 295, WGSS 295, WGSS 295H

PHL 360H, *PHILOSOPHY AND THE ARTS, 4 Credits
Major philosophical theories about art and its meaning, from ancient to modern times. How philosophers have understood beauty, the imagination, art and knowledge, art and pleasure, art and emotion. Offered every other year. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 360
Recommended: 3 credits of philosophy or upper-division standing

PHL 371H, *PHILOSOPHIES OF CHINA, 4 Credits
A study of the traditional philosophies of China, including Confucianism, Taoism, Mohism, Legalism, and Buddhism. Not offered every year. CROSSLISTED as PHL 371/REL 371. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 371, REL 371
Recommended: 3 credits of philosophy or upper-division standing

PHL 399H, SPECIAL TOPICS IN PHILOSOPHY, 1-4 Credits
Examination of the work of a philosopher or of a specific philosophical problem; e.g., Wittgenstein, determinism, perception, philosophy of mind. May be repeated for credit when topic varies. Not offered every term.
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 399
This course is repeatable for 16 credits.
Recommended: 3 credits of upper-division philosophy

PHL 407H, ^SEMINAR, 1-16 Credits
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Equivalent to: PHL 407
This course is repeatable for 16 credits.
Recommended: Two upper-division philosophy courses and sophomore standing

PHL 430H, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530. (NC)
Attributes: HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 430, REL 430

PHL 431H, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 431, REL 431
PHL 434H, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSTLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: PHL 434, REL 434, REL 434H

PHL 440H, *ENVIRONMENTAL ETHICS, 3 Credits
Philosophical ideas about our ethical relationships with parts of the non-human world and future generations, with applications to current environmental issues. Includes a study of different conceptions of environmental ethics, philosophical problems in environmental ethics (such as the moral status of animals, plants, species, and ecosystems), the uses of environmental ethics by environmental groups, and selected contemporary global environmental issues such as global warming and loss of biodiversity. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 440
Recommended: PHL 205 and PHL 342 and PHL 365 or 6 credits of philosophy and sophomore standing

PHL 443H, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSTLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443, REL 443, REL 443H
Recommended: One introductory-level science course and sophomore standing

PHL 444H, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSTLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444, REL 444, REL 444H

PHL 499H, TOPICS IN PHILOSOPHY, 1-4 Credits
Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 499
This course is repeatable for 4 credits.
Recommended: 6 credits of upper-division philosophy, sophomore standing

PS 110H, *GOVERNING AFTER THE ZOMBIE APOCALYPSE, 3 Credits
Constitution-writing in a post-apocalyptic world. Students write a constitution that addresses issues of difference, power, and discrimination. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 110

PS 366H, *FROM ATLANTIS TO UTOPIA: THE POLITICS OF THE IDEAL STATE, 4 Credits
The search for the ideal state has occupied political philosophy since antiquity. From Plato’s Atlantis story through More’s utopia and beyond, philosophers, writers and filmmakers have pondered how to create a perfect state with perfect citizens which will stand the test of time. Each week will combine theoretical reflections from antiquity through post-modernity with a selection of examples from more or less contemporary fiction that will ideally already be known to the audience. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: PS 366

PS 375H, *THE CIVIL RIGHTS MOVEMENT AND POLICIES, 4 Credits
Political and social evolution of the civil rights movement, emphasizing events 1954-1965, and major contemporary civil rights politics and policies in the South and the nation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 375

PS 399H, CURRENT PROBLEMS IN POLITICS, 1-4 Credits
Selected issues of recent American and international concern such as Vietnam, Central America, or similar topical issues. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 399
This course is repeatable for 16 credits.
PS 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 405
This course is repeatable for 16 credits.

PS 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 407
This course is repeatable for 16 credits.

PSY 201H, *GENERAL PSYCHOLOGY, 4 Credits
Scientific study of behavior and experience. Neuroscience; sensation and perception; conditioning, learning and memory; thinking, problem solving, language, intelligence, and consciousness. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: PSY 201

PSY 202H, *GENERAL PSYCHOLOGY, 4 Credits
Scientific study of behavior and experience. Motivation and emotion; personality; social psychology, human development, psychopathology and psychotherapy. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: PSY 202

PSY 298H, QUANTITATIVE METHODS IN PSYCHOLOGICAL SCIENCE, 4 Credits
Foundational course explores quantitative methods in psychological science to prepare students for further study in research methods in psychological science. Topics include descriptive statistics, hypothesis testing, correlation, one-way or two-way ANOVA, regression, controversies and emerging practices in open psychological science.
Attributes: HNRS – Honors Course Designator
Prerequisite: (PSY 201 with C- or better or PSY 201H with C- or better)
and (PSY 202 [C-] or PSY 202H [C-]) and MTH 105 [C-] and ST 201 [C-] and (PHL 121 [C-] or WR 222 [C-] or WR 327 [C-])
Equivalent to: PSY 298

PSY 299H, SPECIAL TOPICS, 0-6 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PSY 299
This course is repeatable for 30 credits.

PSY 340H, COGNITION, 4 Credits
Theories, research and applications concerning cognition. Topics include perception, attention, memory, learning, thinking and language.
Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]

PSY 360H, SOCIAL PSYCHOLOGY, 4 Credits
The study of behavior and experience in a social context. Topics include person perception, attribution, attraction and love, attitudes and attitude change, aggression and social influence and group dynamics. Applications of social psychological principles to other fields, e.g., law, health care, etc. (SS)
Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 360

PSY 399H, SPECIAL TOPICS, 1-6 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 30 credits.

QS 262H, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course).
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 262, WGSS 262, WGSS 262H

QS 364H, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, WGSS 364, WGSS 364H

REL 160H, *QUESTS FOR MEANING: WORLD RELIGIONS, 0-4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, PHL 160H, REL 160
REL 210H, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, PHL 210H, REL 210

REL 324H, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: HST 324, HST 324H, REL 324

REL 425H, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, HST 425H, REL 425

REL 434H, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: PHL 434, PHL 434H, REL 434

REL 443H, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443, PHL 443H, REL 443
Recommended: One introductory-level science course and sophomore standing

REL 444H, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444, PHL 444H, REL 444

RNG 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: RNG 299
This course is repeatable for 16 credits.

SOC 312H, *SOCIOLOGY OF THE FAMILY, 4 Credits
Survey of the family as a social institution. Addresses historical and cultural perspectives with emphasis on family diversity, variations in family form and life style, interdependence between family and other institutions, analysis of major family issues, forces for change in the family. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: SOC 312

SOC 399H, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 399
This course is repeatable for 16 credits.

SOC 444H, INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION, 4 Credits
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 444

SOC 499H, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 499
This course is repeatable for 16 credits.

SOIL 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 199
This course is repeatable for 16 credits.
SOIL 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 299
This course is repeatable for 16 credits.

SOIL 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 405
This course is repeatable for 16 credits.

SOIL 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 499
This course is repeatable for 16 credits.

SOIL 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 405
This course is repeatable for 16 credits.

ST 351H, INTRODUCTION TO STATISTICAL METHODS, 4 Credits
Study designs, descriptive statistics, collecting and recording data, probability distributions, sampling distributions for means and proportions, hypothesis testing and confidence intervals for means and proportions in one- and two-sample inference, and chi-square tests. Lec/lab.
Attributes: HNRS – Honors Course Designator
Equivalent to: ST 351
Recommended: High school algebra with statistics

TA 147H, *INTRODUCTION TO THE THEATRE, 3 Credits
Origins, history, nature, elements, and style of theatre production; function of artists and crafts-persons of the theatre. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: TA 147

TA 250H, WORKSHOP: THEATRE ARTS, 1-3 Credits
Practical experience in performance, technical theatre, or design. Maximum for 6 credits may be applied toward graduation.
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 250
This course is repeatable for 6 credits.

TA 360H, *MULTICULTURAL AMERICAN THEATRE, 3 Credits
Examines the rich panorama of multicultural-American theatre (e.g., African-American, gay and lesbian, Hispanic, Asian American). (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Powers/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: TA 360

TA 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 407
This course is repeatable for 16 credits.

TA 416H, TOPICS IN THEATRE ARTS, 3 Credits
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow.
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 416
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TOX 435H, *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: BI 435, BI 435H, FES 435, FS 435, FS 435H, TOX 435
Recommended: One quarter each of biology and chemistry

WGSS 223H, *INTRODUCTION TO WOMEN, GENDER, AND SEXUALITY STUDIES, 3 Credits
Multidisciplinary introduction to women, gender, and sexuality studies. Focuses on the lives and status of women in society and explores ways institutions such as family, work, media, law and religion affect different groups of women. Explores issues of gender, race, class, age, sexual orientation, size and ability. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Powers/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: WGSS 223, WS 223, WS 223H

WGSS 230H, *WOMEN IN THE MOVIES, 3 Credits
Examines ways women are depicted in the movies and how those depictions are created by and create larger social constructions of women. Special attention is given to the intersections of race, class, sexual identity, and age with gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Powers/Discrimination; HNRS – Honors Course Designator
Equivalent to: WGSS 230

WGSS 235H, *WOMEN IN WORLD CINEMA, 3 Credits
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: WGSS 235, WS 235, WS 235H
WGSS 240H, *GENDER, RACE, AND SPORT, 3 Credits
Focuses on sport as a gendered and racialized institution. Drawing from cultural, psychosocial, and political perspectives students examine intersections of gender with race, sexual identity, social class, ability, age, and religion. 
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: WGSS 240

WGSS 262H, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 262, QS 262H, WGSS 262

WGSS 280H, *WOMEN WORLDWIDE, 3 Credits
Focuses on women’s experiences throughout the world and examines women’s issues and status cross-culturally. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: WGSS 280, WS 280, WS 280H

WGSS 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, ENG 295H, PHL 295, PHL 295H, WGSS 295

WGSS 325H, *DISNEY: GENDER, RACE, EMPIRE, 3 Credits
Explores constructions of gender, race, class, sexuality, and nation in the animated films of Walt Disney; introduces concepts in film theory and criticism, and develops analyses of the politics of representation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: WGSS 325

WGSS 340H, *GENDER AND SCIENCE, 3 Credits
Analyzes the relationship between society and science by explaining technology and science as gendered practices and bodies of knowledge. Focuses on the ways the making of women and men affect the making of science and explores the roles of women in scientific pursuits. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: WGSS 340

WGSS 360H, MEN AND MASCULINITIES IN A GLOBAL CONTEXT, 3 Credits
Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work.
Attributes: HNRS – Honors Course Designator
Equivalent to: WGSS 360, WS 360

WGSS 364H, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, QS 364H, WGSS 364

WGSS 399H, TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES, 1-6 Credits
Current topics in women, gender, and sexuality. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: WGSS 399, WS 399, WS 399H
This course is repeatable for 12 credits.

WGSS 440H, *WOMEN AND NATURAL RESOURCES, 3 Credits
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women’s use and control of natural resources. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: WGSS 440
WGSS 480H, *GENDER AND TRANSNATIONAL ACTIVISMS, 3 Credits
Focuses on social constructions of gender in global context. It explores the comparative realities of various gendered struggles for social justice and studies key definitions and theoretical assumptions relevant to the subject of global feminist activism. (NC) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WGSS 480

WGSS 495H, *GLOBAL FEMINIST THEOLOGIES, 3 Credits
Explores the connections between women's religious experiences around the world and the global problems addressed by feminist theology and spirituality. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: WGSS 495, WS 495
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing

WGSS 496H, *FEMINIST THEOLOGIES IN THE UNITED STATES, 4 Credits
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: WGSS 495, WS 496, WS 496H
Recommended: (WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224) and junior standing

WLC 221H, *MASTERPIECES OF GERMAN FILM, 3-9 Credits
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: WLC 221

WLC 230H, *FRANCE TODAY: CULTURES WITHIN AND BEYOND ITS BORDERS, 3 Credits
An exploratory study of French culture and society since 1945. Topics include: decolonization, immigration, Francophone intellectual currents, France's European vocation, and social conflict today. Conducted in English. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: FR 230, FR 230H, WLC 230

WLC 231H, *GERMAN DICTATORSHIPS: NAZIS AND COMMUNISTS, 3 Credits
Introduction to the two best-known dictatorships in German society, National Socialism of the Third Reich from 1933-1945 and Socialism in the German Democratic Republic from 1949-1989 via the study of visual media (feature films, documentaries, newsreels, etc.) and other primary and secondary sources. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: GER 231H

WLC 261H, *MASTERPIECES GERMAN CINEMA, 3 Credits
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: GER 261, GER 261H, WLC 261

WLC 320H, *FRANCOPHONE CULTURES IN FILM, 3-9 Credits
An exploration of the different cultures of France and the Francophone world through film. Students will delve into the heart of these societies and discover their socio-historical, political, economic and cultural context. Students' analytical and critical skills will be thoroughly solicited through various research and writing activities. Taught in English. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: FR 329, FR 329H, WLC 320
This course is repeatable for 9 credits.

WLC 429H, *FRENCH SOCIETY THROUGH ITS CINEMA, 3 Credits
An examination of French society through its own cinema. Via the screening and study of films from the various periods of French history, students will delve into the heart of French society and discover the socio-historical, political, economic and cultural context. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: FR 429, FR 429H, WLC 429

WLC 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: WLC 499
This course is repeatable for 16 credits.

WR 121H, *ENGLISH COMPOSITION, 3 Credits
Introduction to critical thinking, the writing process, and the forms of expository writing. Intensive writing practice, with an emphasis on revision. The term in which the student takes the course is determined alphabetically. (Bacc Core Course)
Attributes: CSW1 – Core, Skills, WR I; HNRS – Honors Course Designator
Equivalent to: WR 121
WR 224H, *INTRODUCTION TO FICTION WRITING, 3 Credits
Discussion workshop. Student work examined in context of contemporary published work. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 224
Available via Ecampus

WR 327H, *TECHNICAL WRITING, 3 Credits
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 327
Available via Ecampus

WR 362H, *SCIENCE WRITING, 3 Credits
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
Equivalent to: WR 362

WR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: WR 399
This course is repeatable for 16 credits.

Honors Associate Undergraduate Major (HBA, HBFA, HBM, HBS)
Also available at OSU-Cascades.
The honors degree is jointly awarded by the Honors College and by the college of the student's major. Therefore additional credit requirements beyond the total required by the colleges of the student's major must be completed. HC students must satisfy all university and major requirements, as well as honors requirements. A student who completes a 15-credit track will be designated an Honors Associate. Successful completion leads to receipt of an honors baccalaureate degree. Transcripts will also reflect Honors College completion and will denote HC course work. Interested students please contact the Honors College at 541-737-6400 or email honors.college@oregonstate.edu.
Major Code: 012

• Meet milestones related to scholastic achievement, thesis research, honors coursework, and engagement with the honors community.

The requirements for the Honors Associate track include:

• Honors colloquia (minimum 6 credits)
• Honors electives (minimum 6 credits)
• Thesis/Research/Projects (minimum 3 credits)
• At least 12 honors credits must be upper division.
• Submitted thesis
• Total credits required for graduation is 180.

Honors Scholar Undergraduate Major (HBA, HBFA, HBM, HBS)
Also available at OSU-Cascades.
The honors degree is jointly awarded by the Honors College and by the college of the student's major. Therefore additional credit requirements beyond the total required by the colleges of the student's major must be completed. HC students must satisfy all university and major requirements, as well as honors requirements. A student who completes a 30-credit track of Honors College courses will be designated an Honors Scholar. Successful completion leads to receipt of an honors baccalaureate degree. Transcripts will also reflect Honors College completion and will denote HC course work. Interested students please contact the Honors College at 541-737-6400 or email honors.college@oregonstate.edu.
Major Code: 011

• Engage in pursuits that create new knowledge and contribute to one or more scholarly areas of study.
• Fully engage in meaningful dialog, which incorporates cross-disciplinary and multi-disciplinary perspectives.
• Meet milestones related to scholastic achievement, thesis research, honors coursework, and engagement with the honors community.

The requirements for the Honors Scholar track include:

• Honors baccalaureate core courses (minimum 6 credits)
• Honors colloquia (minimum 6 credits)
• Honors electives (minimum 12 credits)
• Thesis/Research/Projects (minimum 6 credits)
• At least 12 honors credits must be upper division.
• Submitted thesis
• Total credits required for graduation is 180.

Major Code: 011
COURSE DESCRIPTIONS

Refer to the glossary below for how to read each course description. Additional enrollment information, such as registration restrictions, fees and class notes, are available in the Schedule of Classes (https://classes.oregonstate.edu/).

- **Subject Code** – An abbreviation used with a course number to indicate an academic subject area
- **Course Number** – Each course is assigned a course level. Courses numbered 100–499 are undergraduate courses (100–299 are lower division, 300–499 are upper division). Courses numbered 500 and above are graduate or professional/technical (500-699 are for masters or doctoral students and 700-899 are professional or technical courses for advanced degrees)
  - Some graduate level courses may be completed by senior undergraduates but interested students should consult their advisor or the department offering the course before enrolling
- **Credits** – The number of quarter credits awarded for successful completion of the course
- **Description** – A brief overview of the course content. If no description is listed, refer to the Schedule of Classes (https://classes.oregonstate.edu/) for details
- **Attributes** – Courses that meet a specific educational requirement
  - Baccalaureate Core Courses (BCC) and Writing Intensive Courses (WIC) are indicated by attributes beginning with ‘Core.’ Titles with an asterisk* are BCC courses and titles with a carat^ are WIC courses. All BCC and WIC courses are listed in the Baccalaureate Core (p. 2423) section of this Catalog
  - PAC courses always meet the lower-division Fitness Core requirement and are therefore not indicated with the BCC attribute or asterisk
  - Honors courses for students registered with the Honors College are indicated by the HNRS attribute
  - Courses that meet the College of Liberal Arts core requirement begin with the LA attribute
- **Prerequisites** – Courses or other educational requirements (e.g. placement test) that must be completed prior to registering for another course or before proceeding to more advanced study. Concurrency will be indicated if you are allowed to enroll in the prerequisite at the same time. Minimum passing grade is indicated in brackets or parentheses
  - If you do not meet the prerequisites but you believe you have the necessary knowledge to be successful in the course, consult your advisor. The department has final say on whether you are permitted to enroll in a course without the specific prerequisite
  - Some courses may be restricted by campus, degree, program or class standing, or require departmental approval. Registration restrictions are indicated in the Schedule of Classes (https://classes.oregonstate.edu/) not the Catalog
- **Corequisites** – Courses you must enroll in at the same time with another course
- **Equivalency** – A course that is equivalent to the selected course. Credit will only be awarded for one of these courses. Crosslisted courses are indicated with equivalency and in the course description as ‘CROSSLISTED’
- **Repeatability** – If the course can be taken multiple times for credit towards graduation, it will be indicated as “This course is repeatable for...credits”
- **Recommended** – Suggested background knowledge or college-level courses that you are encouraged to have completed prior to enrolling in the selected course. If you do not have the recommended background, consult your advisor or the course instructor regarding your suitability
- **Available via Ecampus** – The course has been taught online in the past two years. Refer to the Schedule of Classes (https://classes.oregonstate.edu/) for current scheduling and campus availability.

Available via Ecampus

Academic Learning Services (ALS)

ALS 102, COLLEGE READING, 3 Credits
Provides students with specific strategies for learning through reading. The primary focus of the course is to prepare students to function successfully in subsequent university course work. Emphasis is placed on the demonstration and practice of a study-reading process.
Equivalent to: ALS 102X

ALS 107, CAMP ORIENTATION, 1-3 Credits
Assists students of migrant worker background to develop successful skills adaptive to the culture of higher education.
This course is repeatable for 9 credits.

ALS 108, ONLINE LEARNING SUCCESS, 2 Credits
A comprehensive orientation for distance learners. The course will address topics such as success strategies for online learning, Ecampus resources, how to engage in the campus community, time management, OSU library resources, academic integrity and more. Graded P/N.
Available via Ecampus

ALS 109, TRIO-SSS FIRST-YEAR STUDENT SUCCESS, 2 Credits
For TRIO-SSS students. Designed to ease their transition to college by providing technological and academic skills, as well as knowledge of resources and the information necessary to be successful students and productive citizens. Students will also learn the importance of self-reliance and the skills necessary to be self-sufficient.

ALS 114, CAREER DECISION MAKING, 2 Credits
Students will become knowledgeable about the world of work and career development theories using career assessment, literature, media, and computer resources. Lec/rec.
Available via Ecampus
ALS 116, ACADEMIC SUCCESS, 2 Credits
Assessment and development of strategies for succeeding in university-level academics. Topics include time management, goal setting, critical thinking, note taking, and study skills. Graded P/N. Available via Ecampus

ALS 139, WELCOME TO OSU: INTERNATIONAL FIRST YEAR EXPERIENCE, 3 Credits
A university integration class specifically designed for new students at Oregon State University. Explore topics such as academic integrity, working with academic advisors, U.S. academic culture, navigating campus resources, communicating with professors, and integrating into the campus community.

ALS 140, INTRODUCTION TO UNIVERSITY READING AND WRITING, 3 Credits
Students will strengthen their ability to comprehend and analyze a variety of texts. They will also improve the unity and coherence of their writing as well as develop techniques for writing in an academic setting. Students will focus on strategic reading and content analysis; comparing and contrasting ideas; considering different points of view; and linking cause and effect relationships. In addition, students will be introduced to concepts regarding academic accountability and using outside sources in their writing.
Corequisites: ALS 181

ALS 141, INTRODUCTION TO UNIVERSITY LISTENING AND SPEAKING, 3 Credits
Students will improve their ability to understand main ideas, important details, and implied meanings of authentic academic speech. They will listen to audio and video lectures, participate in in-class discussions, improve their note-taking skills, and conduct basic research that they will present in formal and informal in-class presentations.
Corequisites: ALS 181

ALS 143, INTO OSU BUSINESS GRADUATE STUDENT SUCCESS, 2 Credits
Successfully completing graduate level studies in the United State presents challenges to a student on many levels, including personal, social, academic and language skills. This course provides MBA Graduate Pathway students with cultural and business-specific support to supplement the Pathway program's content and language-focused courses. In addition, it supports students in developing essential culturally specific soft skills while working towards progression from the Pathway to full MBA graduate admission. Graded P/N.

ALS 145, BUILDING STRATEGIES FOR GRADUATE SUCCESS, 3 Credits
Provides international graduate students with cultural support to supplement other content and language-focused courses. Covers essential skills to success as a graduate student such as time management, group work, and effective communication. Learn ways of accessing information and support from various campus resources. Available via Ecampus

ALS 150, INTO OSU ACADEMIC READING AND WRITING 5, 3 Credits
Designed to provide international and/or immigrant students substantive practice in reading and writing English at the advanced level. Students are expected to read, understand and discuss a variety of academic readings from the natural and physical sciences, the social sciences, the humanities and literature. Students will work on reading skills; vocabulary acquisition; library and research skills; paraphrasing and summarizing; and the organization, style and development of essays. Available via Ecampus

ALS 151, INTO OSU ACADEMIC LISTENING AND SPEAKING 5, 3 Credits
Skill building to develop and improve comprehension and notetaking of lectures in an academic format. Students required to give individual and group presentations including informational, argumentative, and persuasive presentations. Instruction is given in cross-cultural communications styles, non-verbal communication, questioning techniques, and clarifying information. Available via Ecampus

ALS 161, LECTURE AND PRESENTATION METHODS FOR INTERNATIONAL STUDENTS, 3 Credits
Develop and improve comprehension and notetaking of lectures in an academic format. Give individual and group presentations. Develop skills in cross-cultural communication styles, non-verbal communication, questioning techniques, and clarifying information. Available via Ecampus

ALS 162, ADVANCED ACADEMIC WRITING FOR INTERNATIONAL STUDENTS, 3 Credits
University reading and writing skills for international students. Comprehension of advanced authentic academic texts, including full-length academic articles on a variety of topics. Production of written texts that develop arguments systematically, synthesize and integrate information from multiple sources, underline relevant salient issues, and expand and support opinions on a range of advanced academic topics. Academic reading, and writing strategies. Prerequisite: ALS 150 with C- or better Available via Ecampus
ALS 165, TECHNICAL COMMUNICATION FOR INTERNATIONAL GRADUATE STUDENTS, 3 Credits

Helps students develop comprehension of university-level academic material, engage in classroom discussions, and make academic presentations. Comprehension topics include note-taking skills and understanding organizational structures and signals used by university academic lecturers and discussions in STEM-related fields. Presentation skill development activities prepare students for COMM 111 and COMM 218, focusing on incorporating outside research from library sources (such as academic journals, newspapers, magazines, and textbooks) and working together with other students. Emphasis on group participation, equal sharing of group projects, self-evaluation, and critiques of the presentation styles of peers and lecturers.

Available via Ecampus

ALS 166, WRITING/RESEARCH METHODS FOR INTERNATIONAL GRADUATE STUDENTS, 3 Credits

Emphasizes reading and writing skills required for graduate-level STEM majors at the university, focusing on a wide range of reading skills and strategies that include critically analyzing academic journal articles, synthesizing ideas, vocabulary expansion, and vocabulary acquisition skills. Reading and vocabulary study are centered on a range of STEM fields and student interests. Written work focuses on writing critical reactions to readings through synthesizing multiple sources and developing coherent arguments. Students develop skills of summarizing, paraphrasing, utilizing appropriate grammar, customizing their writing style to their audience, and increasing familiarization with library and online resources.

Available via Ecampus

ALS 173, COMMUNICATION FOR INTERNATIONAL GRADUATE BUSINESS STUDENTS, 3 Credits

Focuses on developing comprehension of graduate-level business material and the ability to critically think and engage in classroom discussions, as well as making academic presentations. Comprehension topics include note-taking skills, organizational structures, and interpersonal communication cues used by business professionals. Communication and presentation skill development prepare students for the demands of BA 512, which focuses on comprehending lectures and analyzing content. Focuses on group participation, equal sharing of group projects, self-evaluation, opinion giving, and presentation styles. Students also will work on incorporating outside research from library sources, such as academic journals, newspapers, magazines, and textbooks.

ALS 174, PROFESSIONAL WRITING FOR GRADUATE BUSINESS STUDENTS, 3 Credits

Emphasizes development of reading, writing and critical thinking skills needed for progression into the MBA program. Written work focuses on writing critical reactions to readings, summarizing, paraphrasing and synthesizing information and increasing familiarization with library and online resources. Additionally, the course gives attention to a range of reading skills and strategies, including vocabulary expansion and vocabulary acquisition skills. Students will develop business vocabulary and knowledge of key business concepts by reading and analyzing real-world business case studies and writing case briefs.

ALS 176, PROFESSIONAL WRITING FOR INTERNATIONAL GRADUATE STUDENTS, 3 Credits

This course acts as a ‘bridge’ for international students enrolled in specific OSU courses. It supports the understanding of OSU course assignments and vocabulary, and helps to build language skills needed to fulfill assignments. Classroom activities include, but are not limited to, discussions, in-class exercises, vocabulary games and exercises, and work in Canvas. Graded P/N.

This course is repeatable for 8 credits.

ALS 181, INTO OSU ESL BRIDGE, 2 Credits

Focuses on study skills, time management and college success strategies specifically targeted to improve the academic performance of first-year student athletes at Oregon State University. Covers study strategies, time management, note taking, test preparation, critical reading, OSU’s campus resources, and online learning platforms. Students practice these skills in an accompanying baccalaureate core class. Provides first-year student athletes with a summer introduction to college along with strategies for balancing athletics and academics at the Division I level.

This course is repeatable for 5 credits.

ALS 190, BEST ORIENTATION, 1-5 Credits

Provides support to new first-year University Exploratory Studies Program (UESP) students in their transition to the university and explores foundational experiences and resources to support academic and personal exploration at OSU. Examines tools to identify personal strengths, values, interests and preferences, and resources to reflect on how these elements correspond to the various academic pathways at the university.
ALS 199, SPECIAL TOPICS, 0-3 Credits
Equivalent to: ALS 199H
This course is repeatable for 9 credits.
Available via Ecampus

ALS 199H, SPECIAL TOPICS, 0-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ALS 199
This course is repeatable for 9 credits.

ALS 210, HOW TO BE SUCCESSFUL IN YOUR INTERNSHIP SEARCH, 2 Credits
Internship preparation course designed to provide students with the fundamental tools to find and secure an internship. Topics will include internship search strategies, resumes, cover letters, and interviewing. Guest speakers will provide additional insight into these topics from the perspective of employers and students with prior internship experience. Reflection on student’s interests, values, and goals will also be integrated into the course.

ALS 277, SUPPLEMENTAL INSTRUCTION (SI) PEDAGOGY, 2 Credits
Develops and strengthens your knowledge of collaborative and active learning and prepares you for a position as an SI Leader. Focuses on learning theories which inform our work; effective pedagogy for planning and leading study tables; and strategies for developing professional relationships with faculty, students, and coworkers. Through a variety of exercises including reading, reflection, observation, activity design, and facilitation, you will develop skills needed to succeed as a peer educator. Graded P/N.

ALS 298, AVOIDING PLAGIARISM, 2 Credits
Intellectual property is highly valued in the US. Violating intellectual property rights is considered to be a significant offense, especially in higher education. Successful university students must learn intellectual property and scholarly communication conventions, including definitions of plagiarism, its significance, and ways to avoid it. To guide students in conducting scholarly conversations, this course addresses formal expectations of academic communication, including proper source integration in academic writing and community expectations and ethics surrounding attribution. Effective integration and attribution of sources empowers students to become responsible and successful participants and contributors in academic conversations.

ALS 299, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 9 credits.

Accounting (ACTG)

ACTG 317, EXTERNAL REPORTING I, 4 Credits
Examines the theory and practice of financial accounting, the processing and controls phases of the accounting system, and reporting to external parties. Emphasis is placed on the accounting cycle and financial statement structure and content. The emphasis on the accounting cycle includes the processing and tracing of transaction data from source documents to financial statements.
Prerequisite: (BA 211 with C or better or BA 211H with C or better) and (BA 213 [C] or BA 213H [C])
Equivalent to: BA 317

ACTG 318, EXTERNAL REPORTING II, 4 Credits
Continuation from ACTG 317 and the theory and practice of financial accounting and the reporting to external parties. Covers financial reporting objectives to provide information that is useful in investment and credit decisions, in assessing cash flow prospects, and about company resources and claims to those resources.
Prerequisite: ACTG 317 with C or better
Equivalent to: BA 318

ACTG 319, EXTERNAL REPORTING III, 4 Credits
Continuation from ACTG 318 and the theory and practice of financial accounting and the reporting to external parties. Covers financial reporting objectives to provide information that is useful in investment and credit decisions, in assessing cash flow prospects, and about company resources and claims to those resources.
Prerequisite: ACTG 318 with C or better
Equivalent to: BA 319

ACTG 321, COST MANAGEMENT I, 4 Credits
Reinforces and builds on the language and concepts of management accounting. Emphasizes different models for product costing and examines their effects on profit planning, budgeting, motivation, and control.
Prerequisite: ACTG 317 with C or better
Equivalent to: BA 321

ACTG 326, ACCOUNTING RESEARCH METHODS AND TOPICS, 2 Credits
Covers the theory and practice of corporate financial reporting. It highlights the development of generally accepted accounting principles (GAAP) and accounting policy choices from two perspectives. First, it examines accounting policy making at the macro (standard setter) level, as well as to examine the past, present, and future role of standard setters in formulating accounting policy. Second, from the micro or company level, it will use cases involving decisions in financial reporting to evaluate accounting conventions, particularly with regard to how those decisions reflect economic reality and the quality of earnings. It will also conduct applied accounting research.
Prerequisite: (BA 211 with C or better or BA 211H with C or better) and (BA 213 [C] or BA 213H [C])
ACTG 378, ACCOUNTING INFORMATION MANAGEMENT, 4 Credits
Introduces students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, the system life cycle model, systems analysis and design methodologies, and the development and implementation of information systems. Lec/rec.
Prerequisite: (BA 213 with C or better or BA 213H with C or better) and (BA 270 [C] or BA 270H [C] or BA 302 [C]) and (BA 275 [C] or BA 275H [C] or BA 276 [C])
Equivalent to: ACTG 378H, BA 378

ACTG 378H, ACCOUNTING INFORMATION MANAGEMENT, 4 Credits
Introduces students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, the system life cycle model, systems analysis and design methodologies, and the development and implementation of information systems. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (BA 213 with C or better or BA 213H with C or better) and (BA 270 [C] or BA 270H [C] or BA 302 [C]) and (BA 275 [C] or BA 275H [C] or BA 276 [C])
Equivalent to: ACTG 378

ACTG 379, ACCOUNTING ANALYTICS, 4 Credits
Covers the analysis of data as it pertains to accounting professionals. The focuses include analytic techniques for decision making and the examination of “big data” involving accounting information. Hands-on experiences will develop skills with select software tools used in data analytics for accounting professionals.
Prerequisite: ACTG 318 with C or better and (ACTG 378 [C] or ACTG 378H [C])

ACTG 405, READING & CONFERENCE, 1-6 Credits
This course is repeatable for 12 credits.

ACTG 414, FORENSIC ACCOUNTING, 2 Credits
Explores the forensic accountant's role in today's economy. Topics covered include fraud detection and fraud investigation techniques, valuation of closely held businesses, lost profits analyses, and various types of litigation support services. Fundamental legal concepts governing expert witness testimony are also examined, and students are required to quantify economic damages in cases.
Prerequisite: ACTG 319 with C or better

ACTG 415, GOVERNMENTAL AND NOT-FOR-PROFIT, 2 Credits
Introduction to accounting and financial reporting for governmental and not-for-profit organizations. Topics include state, local and federal governmental accounting, including fund accounting and reporting, and accounting for not-for-profit hospitals, universities, and health/welfare organizations.
Prerequisite: ACTG 319 with C or better

ACTG 416, ACCOUNTING RESEARCH AND ANALYSIS, 2 Credits
Covers the theory and practice of corporate financial reporting. It highlights the development of generally accepted accounting principles (GAAP) and accounting policy choices from two perspectives. First, it examines accounting policy making at the macro (standard setter) level as well as to examine the past, present, and future role of standard setters in formulating accounting policy. Second, from the micro or company level it will use cases involving decisions in financial reporting to evaluate accounting conventions, particularly with regard to how those decisions reflect economic reality and the quality of earnings. It will also conduct applied accounting research.
Prerequisite: ACTG 319 with C or better

ACTG 417, ADVANCED ACCOUNTING, 4 Credits
An advanced course in financial accounting theory. Covers corporate combinations, consolidated financial statements, and government and not-for-profit accounting.
Prerequisite: ACTG 319 with C or better
Equivalent to: BA 417

ACTG 420, IT AUDITING, 4 Credits
Explores key information systems issues such as planning, acquisition, delivery, and monitoring from a risk and control perspective. Students learn to use IT audit standards, guidelines, and frameworks and build data analysis tool skills.
Prerequisite: (ACTG 319 with C or better or BA 372 with C or better) and ACTG 378 [C]
Equivalent to: BA 420

ACTG 422, STRATEGIC COST MANAGEMENT, 4 Credits
Continuation of concepts and processes of management accounting. Emphasizes relevant costs, cost accumulation and allocation, segment performance measurement and control and quantitative techniques.
Prerequisite: ACTG 319 with C or better and ACTG 321 [C] and BA 357 [C]
Equivalent to: BA 422

ACTG 424, TAXATION I, 4 Credits
Covers concepts related to business taxation and focuses primarily on 1) basic income tax law as it relates to businesses, 2) the role of income taxes in decision making processes, and 3) basic income tax research. In addition, the course is intended to assist students in preparation to become a professional, and thus contains components designed to aid in the development of technical, analytical, problem-solving and communication skills.
Prerequisite: ACTG 319 with C or better
Equivalent to: ACTG 325
ACTG 425, ADVANCED TAXATION, 4 Credits
Examination of the federal tax system as it applies to corporations, partnerships, and estates and trusts. Emphasis is placed on understanding tax planning for business owners and refining the ability to research tax issues.
Prerequisite: ACTG 424 with C or better

ACTG 427, ASSURANCE AND ATTESTATION SERVICES, 4 Credits
Assertions of enterprises gain credibility when examined by an independent third party. Assurance and attestation provide credibility. Coverage includes ethics, risk, materiality, internal control, evidence and reporting.
Prerequisite: ACTG 319 with C or better
Equivalent to: BA 427
Available via Ecampus

ACTG 428, ADVANCED AUDIT ANALYTICS, 4 Credits
An advanced four-credit course covering audit theory, current audit practice and auditor professional skills. The equivalent of three credits (30 hours) relates to in-class activities, readings, presentations, research and group discussions of relevant advanced audit topics. The equivalent of one credit (10 hours) relates to understanding the use and future of data analytics in the audit profession. Theory, current audit practice and auditor professional skills.
Prerequisite: ACTG 427 with C or better

ACTG 429, TOPICS IN ACCOUNTING, 1-4 Credits
Analysis of current topics in accounting. Topics will vary from term to term.
Equivalent to: BA 429

ACTG 516, ACCOUNTING RESEARCH AND ANALYSIS, 3 Credits
Emphasis on financial accounting, tax and auditing research and analysis and communication of conclusions in the context of accounting case studies.

ACTG 517, ADVANCED ACCOUNTING, 4 Credits
An advanced course in financial accounting theory. Corporate combinations, consolidated financial statements, foreign operations and subsidiaries, partnerships, and sole proprietorships; contemporary issues in financial accounting.
Equivalent to: BA 517
Recommended: ACTG 319

ACTG 518, ACCOUNTING THEORY AND PRACTICE I, 3 Credits
Expands and integrates knowledge of US and international generally accepted accounting principles (GAAP) in a rigorous study of the design, selection, and consequences of various models of financial reporting.
Prerequisite: (ACTG 516 with C or better and ACTG 517 [C])

ACTG 519, ACCOUNTING THEORY AND PRACTICE II, 3 Credits
Study of the design, selection, and consequences of various models of financial reporting. Research accounting treatments for complex facts and circumstances with ambiguous accounting guidance. Build on financial reporting models to develop in-depth understanding and application of accounting practice.
Prerequisite: ACTG 518 with C or better

ACTG 520, IT AUDITING, 4 Credits
Explores key information systems issues such as planning, acquisition, delivery, and monitoring from a risk and control perspective. Students learn to use IT audit standards, guidelines, and frameworks and build data analysis tool skills.
Recommended: (ACTG 319 or BA 372) and ACTG 378

ACTG 522, STRATEGIC COST MANAGEMENT, 4 Credits
Continuation of concepts and processes of management accounting. Emphasizes relevant costs, cost accumulation and allocation, segment performance measurement and control and quantitative techniques.
Recommended: ACTG 319, ACTG 321 and BA 357

ACTG 524, INTRODUCTION TO TAXATION, 4 Credits
Meets two major objectives. First, it is a technical introduction to U.S. income tax with emphasis on general and business related topics. Second, it provides a framework for students to launch further study in the tax area. Students will be encouraged to supplement text materials with readings from the Internal Revenue Code and Regulations as well as secondary tax research services.
Prerequisite: BA 528 with C or better

ACTG 525, ADVANCED TAXATION, 4 Credits
Examination of the federal tax system as it applies to corporations, partnerships, and estates and trusts. Emphasis is placed on understanding tax planning for business owners and refining the ability to research tax issues.
Prerequisite: ACTG 424

ACTG 527, ASSURANCE AND ATTESTATION SERVICES, 4 Credits
Assertions of enterprises gain credibility when examined by an independent third party. Assurance and attestation provide credibility. Coverage includes ethics, risk, materiality, internal control, evidence and reporting.
Equivalent to: BA 527
Recommended: ACTG 319

ACTG 529, TOPICS IN ACCOUNTING, 1-4 Credits
Analysis of current topics in accounting. Topics will vary from term to term.
Equivalent to: BA 529
ACTG 620, FOUNDATIONS OF ACCOUNTING RESEARCH, 3 Credits
Introduces first-year doctoral students to accounting research by discussing the development of modern accounting theory, relating it to theories in economics and finance, and exposing students to the different areas of and methodologies used in accounting research. Also begins a survey of classic and contemporary literature in the area of financial accounting research. Specific financial accounting topics may change from quarter to quarter, but sample topics include earnings management, earnings quality, and voluntary disclosure.

ACTG 621, FINANCIAL ACCOUNTING RESEARCH, 3 Credits
Surveys classic and contemporary research in the area of financial accounting. Specific topics may change from quarter to quarter, but sample topics include the value relevance of accounting information, post earnings announcement drift, the residual income model, analysts’ use accounting information, and market-based assessments of the usefulness and limitations of alternative accounting measurements and disclosures.

ACTG 622, ACCOUNTING, JUDGMENT AND ACCOUNTABILITY, 3 Credits
Surveys classic and contemporary research in areas related to management, judgment, and accountability in accounting. Specific topics may change from quarter to quarter, but sample topics include research on management incentives and compensation, performance measurement, auditing, corporate governance, and research using behavioral methods.

ACTG 623, TAX RESEARCH, 3 Credits
Surveys classic and contemporary research in the area of taxation. Specific topics may change from quarter to quarter, but sample topics include tax vs. nontax costs in business decisions, book-tax differences, taxes and financial reporting, multijurisdictional tax issues, and tax avoidance.

Adult Ed & Higher Ed Leadership (AHE)

AHE 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

AHE 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

AHE 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

AHE 401, RESEARCH, 1-16 Credits
Equivalent to: ED 401
This course is repeatable for 16 credits.

AHE 402, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: ED 402
This course is repeatable for 16 credits.

AHE 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CSSA 405
This course is repeatable for 16 credits.

AHE 406, PROJECTS, 1-16 Credits
Equivalent to: CSSA 406
This course is repeatable for 16 credits.

AHE 407, SEMINAR, 1-16 Credits
Equivalent to: CSSA 407, UEXP 407
This course is repeatable for 16 credits.

AHE 408, WORKSHOP, 1-16 Credits
Equivalent to: CSSA 408
This course is repeatable for 16 credits.

AHE 410, INTERNSHIP/WORK EXPERIENCE, 1-16 Credits
Equivalent to: ED 410
This course is repeatable for 16 credits.

AHE 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ED 499
This course is repeatable for 16 credits.

AHE 501, RESEARCH, 1-16 Credits
Equivalent to: CSSA 501, ED 501
This course is repeatable for 16 credits.

AHE 502, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: CSSA 502
This course is repeatable for 16 credits.

AHE 503, THESIS, 1-16 Credits
Equivalent to: CSSA 503
This course is repeatable for 999 credits.

AHE 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CSSA 505
This course is repeatable for 16 credits.

AHE 506, PROJECTS, 1-16 Credits
Equivalent to: CSSA 506
This course is repeatable for 16 credits.

AHE 507, SEMINAR, 1-5 Credits
Equivalent to: CSSA 507
This course is repeatable for 16 credits.

AHE 508, WORKSHOP, 1-3 Credits
Equivalent to: CSSA 508
This course is repeatable for 16 credits.

AHE 509, PRACTICUM, 1-16 Credits
Equivalent to: ED 509
This course is repeatable for 16 credits.
AHE 510, INTERNSHIP, 1-18 Credits
By special permission and arrangement.
Equivalent to: ED 510
This course is repeatable for 18 credits.
Available via Ecampus

AHE 517, EDUCATION AND WORK, 3 Credits
Issues related to work in the U.S. and other countries. The role of public, private, corporate, government, military and other education and training programs in meeting changing individual, corporate, and social work-related needs.
Equivalent to: ED 517

AHE 520, MULTICULTURAL ISSUES IN HIGHER EDUCATION, 3 Credits
Developing understanding, knowledge, and skills of multiculturalism affecting the student affairs profession and careers in student affairs administration.
Equivalent to: CSSA 520

AHE 522, INSTRUCTIONAL TECHNOLOGY I, 1 Credit
Explores technologies used in distance education to deliver content and facilitate active learning through learner creation of digital portfolios and artifacts using online tools and apps.
Corequisites: AHE 553
Available via Ecampus

AHE 523, INSTRUCTIONAL TECHNOLOGY II, 1 Credit
An overview of best practices in digital-age learning design, including implementation of backward design principles.
Prerequisite: AHE 522 with C or better
Corequisites: AHE 533
Available via Ecampus

AHE 524, INSTRUCTIONAL TECHNOLOGY III, 1 Credit
Students will develop the knowledge and skills needed to design and create complete online teachings/courses within a learning management system.
Prerequisite: (AHE 522 with C or better and AHE 523 [C])
Corequisites: AHE 531
Available via Ecampus

AHE 525, INSTRUCTIONAL TECHNOLOGY IV, 1 Credit
Learners will research and demonstrate how to use a current innovative instructional technology, as well as develop skills in understanding trends and preparing for future innovations in instructional technology.
Prerequisite: (AHE 522 with C or better and AHE 523 [C] and AHE 524 [C])
Corequisites: AHE 547
Available via Ecampus

AHE 531, INSTRUCTIONAL DESIGN, 4 Credits
Designed for instructors, trainers, managers, organizational consultants or others who are responsible for the development of programs and courses in community colleges, the workplace or other settings. Using systems concepts and methods, students will learn to design learner-centered instructional programs and courses.
Equivalent to: ED 531
Available via Ecampus

AHE 532, PROGRAM EVALUATION, 4 Credits
Assessing outcomes in college curriculum and workplace training programs from a systems perspective and evaluation of program effectiveness. Particular emphasis on formative and summative evaluation, frameworks for program evaluation, quantitative and qualitative methods and analysis, communicating and reporting evaluation findings, and the ethics and standards of evaluation practice.
Equivalent to: ED 532
Available via Ecampus

AHE 533, NEEDS ASSESSMENT AND RESEARCH, 4 Credits
Introduces workplace learning needs assessment (WLNA) and research principles and practices for individual and collaborative learning groups.
Prerequisite: AHE 553 with C or better
Equivalent to: ED 533
Available via Ecampus

AHE 534, ORGANIZATIONS AND SYSTEMS THEORY, 4 Credits
Introduces principles and practices underlying individual and collaborative work group learning. Participants will learn how to create an environment that promotes effective and efficient workplace learning.
Available via Ecampus

AHE 547, INSTRUCTIONAL STRATEGIES FOR ADULT LEARNERS, 4 Credits
Exploration of and practice using instructional strategies to enhance adult learning. Acquisition of an instructional strategy tool kit as well as a method for evaluating adult learning events.
Equivalent to: ED 547
This course is repeatable for 60 credits.
Available via Ecampus

AHE 549, ETHICAL AND PROFESSIONAL ISSUES, 4 Credits
Focuses on issues facing professionals working with adult learners as well as ethical issues relevant to the practice and scholarship in the field. Combines instruction in inquiry-based teaching methods and learning theory with work in professional settings, such as for-profit and non-profit organizations and government agencies.
Available via Ecampus
AHE 553, ADULT LEARNING & DEVELOPMENT, 4 Credits
Introduce participants to key theories, orientations, models, and principles of learning and development in adulthood.
Equivalent to: ED 553
Available via Ecampus

AHE 567, LEADERSHIP DEVELOPMENT AND HUMAN RELATIONS, 4 Credits
Exploration of multiple theories of leadership in different organizational contexts; synthesize theory with experience to construct a personal framework for leadership practice.
Equivalent to: ED 567
Available via Ecampus

AHE 575, EDUCATIONAL FINANCE, 3 Credits
Finance, budgeting and accounting for sources of revenue; deferral, state and local financing, budgeting and accounting models, practical experience combined with examination of theory, trends and issues. Focus in either public schools, community colleges or higher education through practical experience.
Equivalent to: ED 575
Available via Ecampus

AHE 582, LEGAL ISSUES IN HIGHER EDUCATION, 3 Credits
A comprehensive presentation and discussion of the law governing administration within community colleges and college/universities with a special emphasis on student services administration.
Available via Ecampus

AHE 599, SPECIAL TOPICS, 1-16 Credits
Equivalent to: CSSA 599, ED 599
This course is repeatable for 16 credits.

AHE 601, RESEARCH, 1-16 Credits
Equivalent to: ED 601
This course is repeatable for 16 credits.
Available via Ecampus

AHE 602, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: ED 602
This course is repeatable for 16 credits.
Available via Ecampus

AHE 603, THESIS, 1-16 Credits
Equivalent to: ED 603
This course is repeatable for 999 credits.
Available via Ecampus

AHE 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: ED 605
This course is repeatable for 16 credits.
Available via Ecampus

AHE 606, PROJECTS, 1-16 Credits
Equivalent to: CSSA 606
This course is repeatable for 16 credits.

AHE 607, SEMINAR, 1-16 Credits
Equivalent to: ED 607
This course is repeatable for 16 credits.

AHE 608, WORKSHOP, 1-16 Credits
Equivalent to: ED 608
This course is repeatable for 16 credits.

AHE 609, PRACTICUM CLINICAL EXPERIENCE, 1-16 Credits
Equivalent to: ED 609
This course is repeatable for 16 credits.

AHE 610, INTERNSHIP, 1-15 Credits
Equivalent to: ED 610
This course is repeatable for 15 credits.
Available via Ecampus

AHE 611, QUANTITATIVE ANALYSIS IN EDUCATIONAL RESEARCH I, 3 Credits
Foundational course to methods and statistics used in quantitative educational research. Examines data analysis, statistical procedures, and interpretation of results within postsecondary environments.

AHE 612, RESEARCH PERSPECTIVES IN EDUCATION, 3 Credits
Research perspectives, how they are influenced by worldviews, and how these worldviews influence research.
Equivalent to: ED 612
Recommended: AHE 562 and completion or concurrent enrollment in an introductory statistics course

AHE 613, RESEARCH ANALYSIS AND INTERPRETATION IN EDUCATION, 3 Credits
Critical analysis of scholarly studies in education from a variety of research perspectives.
Equivalent to: ED 613
Recommended: AHE 612 and completion or concurrent enrollment in an intermediate statistics course

AHE 614, ADVANCED RESEARCH METHODS IN EDUCATION, 1-3 Credits
Selected topics in research methods as appropriate for research perspectives in education. May be repeated.
Equivalent to: ED 614
This course is repeatable for 6 credits.
Recommended: AHE 613

AHE 615, RESEARCH ISSUES, 3 Credits
A core course in the College of Education's doctoral program that focuses on research issues.
Prerequisite: (AHE 612 with C or better and AHE 613 [C] and AHE 614 [C])
AHE 616, QUANTITATIVE ANALYSIS IN EDUCATIONAL RESEARCH II, 3 Credits
Develop conceptual and practical understanding of research and evaluation in higher education. Course topics include basic statistics, survey design, data analysis, and assessment issues. As an advanced statistics course, students will have the opportunity to apply concepts and gain direct research experience by conducting an original research project.
Prerequisite: AHE 611 with C or better

AHE 618, QUALITATIVE ANALYSIS IN EDUCATIONAL RESEARCH, 3 Credits
Introduces learners to a variety of qualitative research perspectives and methodologies. Participants will examine these approaches by critiquing a scholarly article containing qualitative methods; formulating qualitative questions; writing a short proposal; collecting, coding, and analyzing data; and writing a final synthesis paper.
Available via Ecampus

AHE 621, LEADERSHIP IN STUDENT SERVICES, 3 Credits
Exploration of significant issues in design and delivery of student services in community college and higher education settings. Group discussion, model building, problem posing, issues analysis, and theory applications are employed. Students will reflect on current and future practices in student services, including emerging approaches to leadership.
Equivalent to: ED 621

AHE 638, HISTORY OF HIGHER EDUCATION, 3 Credits
Surveys American higher education across 200-plus years of American history, with a specific emphasis in this section on the American community college.

AHE 640, HIGHER EDUCATION ADMINISTRATION, 3 Credits
Current leadership and management theories and models, systems of organization, patterns of internal and external governance, and issues in institutional planning and advancement in higher education.
Equivalent to: ED 640

AHE 643, ORGANIZATION THEORY-HIGHER EDUCATION, 3 Credits
An introduction to organizational theory (OT). The texts allow us to explore how systems thinking is applied to our world; and how we can use it to better understand the nature of human social engagement. Both OT and living systems theories are deeply associated with improvement and change theories in higher education settings and business.

AHE 645, ETHICAL PRACTICE, 3 Credits
Reviews major ethical theories with an emphasis on practical applications related to community college professional practice.
Available via Ecampus

AHE 653, INSTRUCTIONAL LEADER I, 3 Credits
A core course in the College of Education’s doctoral program. Introduces major theories, theorists, and theoretical principles that will assist the learner in the understanding and development of systemic frameworks for instructional leadership.

AHE 672, RESEARCH PERSPECTIVES IN FOUR-YEAR HIGHER EDUCATION, 3 Credits
An overview of the extensive research related to four-year colleges and universities, with an emphasis on the role of research in understanding and interpreting the nature of higher education. Explore research epistemologies, theories, and approaches related to social science and higher education, and how these ideas influence worldview and subsequent research. Identify a significant research topic/problem statement which will carry forward into the second year research courses in moving toward the dissertation topic for research related to four-year higher education.

AHE 673, RESEARCH INTERPRETATION IN FOUR-YEAR HIGHER EDUCATION, 3 Credits
Critical analysis and interpretation of journal articles and scholarly research related to a problem statement in four-year higher education organization, learning, and/or leadership. Refinement of Sections 1 (Research Focus and Problem Statement) and II (Manuscript and Literature Review) of a Dissertation Proposal in four-year higher education.
Prerequisite: AHE 672 with C or better

AHE 674, ADVANCED RESEARCH METHODS IN FOUR-YEAR HIGHER EDUCATION, 3 Credits
Identification and evaluation of an appropriate quantitative or qualitative study focused on four-year higher education. This includes a requirement that students demonstrate the ability to analyze and interpret data associated with their research question(s) as identified in their research proposal and that they outline the methodology that will be used to answer their research question(s)/proposal.
Prerequisite: AHE 673 with C or better

AHE 675, FOUR-YEAR HIGHER EDUCATION RESEARCH ISSUES, 3 Credits
Finalize a dissertation proposal related to a research question on four-year education institutions that reflects research epistemologies, theories and approaches. Develop a dissertation draft for review by the student’s dissertation committee outlining: (a) Purpose of the student’s study and its significance within the context of research on four-year colleges and universities, (b) Review of related literature on the specific topic of the dissertation, and (c) Design of the dissertation study.
Prerequisite: AHE 674 with C or better

AHE 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
AHE 805, READING AND CONFERENCE, 1-16 Credits
Equivalent to: ED 805
This course is repeatable for 16 credits.

AHE 808, WORKSHOP, 1-4 Credits
Equivalent to: ED 808
This course is repeatable for 16 credits.

Aeronautical & Astronaut. Eng. (AAE)

AAE 210, INTRODUCTION TO AEROSPACE ENGINEERING, 3 Credits
Topics will include the engineering fundamentals of aeronautics and astronautics, including an introduction to aerodynamics, propulsion, structures, orbital mechanics and mission planning. Current industry practices in aerospace vehicle specifications, manufacturing, flight testing and certification will be presented.
Prerequisite: ENGR 211 with C or better

AAE 411, AEROSPACE APPLICATIONS IN MECHANICAL ENGINEERING, 4 Credits
Explores the fundamentals of mechanical engineering applications to aerospace. Features an overview of modern aircraft and spacecraft analysis, with an emphasis on performance, stability, structures, materials, FAA and FAR standards. Applies current professional practices in the conceptual design of aerospace vehicles.
Prerequisite: ENGR 311 with C or better
Recommended: ENGR 311
Equivalent to: ME 411

Aeronautical & Astronaut. Eng. (AAE)

AAE 415, UAV ENGINEERING, 4 Credits
Develop a strong foundation in Unmanned Aerial Vehicles (UAV) systems technologies. Engineering evaluation of UAV systems, subcomponents, aircraft missions, operations and Federal Aviation Administration (FAA) requirements. Apply actual UAV models and subsystems to a real-world project on UAV deployment for humanitarian and environmental missions. Write a technical report as a team-project, developing and demonstrating critical thinking and engineering reporting skills in the subject. CROSSTLISTED as AAE 415/HEST 415.
Prerequisite: ME 316 with C or better and ME 317c and ME 331c and ME 373c
Equivalent to: HEST 415

Aeronautical & Astronaut. Eng. (AAE)

AAE 512, SPACE SYSTEMS ENGINEERING, 4 Credits
Introduction to space systems engineering. Topics will include the fundamentals of astronautics, orbital mechanics and trajectory design, flight dynamics, guidance and navigation, stability and control of spacecraft. Rocket propulsion concepts, including chemical rockets (liquid, gas and solid propellants), hybrid rocket engines and modern advances in satellite power systems will be discussed. Current design practices in space systems engineering will be emphasized.
Recommended: (ME 373 or ME 373H) and (ME 317 or ME 317H)

Aerospace Studies (AS)

AS 111, FOUNDATIONS OF THE AIR FORCE PART I, 1 Credit
The introduction to the Air Force mission and organization. Featured topics include Air Force dress and appearance stand standards; military customs and courtesies, Air Force heritage, overview of the Department of the Air Force, and Air Force core values. Basic oral and written communication will be assessed.

AS 112, FOUNDATIONS OF THE AIR FORCE PART II, 1 Credit
Second part of the introduction to the Air Force mission and organization. Featured topics include Air Force career opportunities, Air Force benefits, military communication skills, Air Force installations, and look at the basic characteristics of war. Basic oral and written communication will be assessed.

AS 113, FOUNDATIONS OF THE AIR FORCE PART III, 1 Credit
Third part of the introduction of what the Air Force is about and what the Air Force has to offer. Featured topics include Air Force career opportunities, Air Force benefits, military communication skills, Air Force installations, and look at the basic characteristics of war. Basic oral and written communication will be assessed.

AS 120, LEADERSHIP LABORATORY, 1 Credit
Cadets learn officership, leadership, drill and ceremony, and customs and courtesies. Lab. Graded P/N. This course is repeatable for 3 credits.
AS 211, THE EVOLUTION OF AIR AND SPACE POWER 1860-1945, 1 Credit
Study of the development of air power, concepts, and doctrine from its beginnings to the end of World War II. Historical examples examined include balloons, dirigibles, Wright Brother’s first flight, and the role of air power in World War I and II. Oral and written communication skills will be assessed.

AS 212, THE EVOLUTION OF AIR AND SPACE POWER 1945-1990, 1 Credit
Study of the development of air power, concepts, and doctrine during the Cold War. Historical examples examined include the Berlin Airlift, nuclear deterrence, and the role of air power employment in the Korean and Vietnam conflicts. Oral and written communication skills will be assessed.

AS 213, THE EVOLUTION OF AIR AND SPACE POWER 1991-2025, 1 Credit
Study of the factors contributing to the development of air power, concepts, and doctrine from the Persian Gulf War in 1990 to the present and beyond. Historical examples examined include the air campaigns used in the Gulf War, Kosovo crisis, Operations Enduring Freedom, Iraqi Freedom, and the Global War on Terrorism. Oral and written communication skills will be assessed.

AS 220, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in element leadership positions in order to know and comprehend the Air Force concepts of command, discipline, tradition, and courtesies. Lab. Graded P/N.
This course is repeatable for 10 credits.

AS 299, SPECIAL TOPICS IN AIR FORCE STUDIES, 1-16 Credits
Supervised individual work.
This course is repeatable for 99 credits.

AS 304, FIELD TRAINING, 6 Credits
Four-week field training supplements campus courses in developing leadership and discipline. Mission, organization, and functions of an Air Force base; marksmanship, survival, and physical training; aircrew and aircraft indoctrination; orientation on specific opportunities in career fields. Conducted at an Air Force base. Graded P/N.

AS 311, LEADERSHIP FUNDAMENTALS, TEAM BUILDING AND PROBLEM SOLVING, 3 Credits
Emphasis on leadership and management fundamentals, team building and problem solving. Case studies are used to examine leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. Unique exercises will be utilized to emphasize team building and problem solving. Oral and written communication skills will be assessed.

AS 312, EFFECTIVE SUPERVISION AND GROUP CONFLICT MANAGEMENT, 3 Credits
Emphasis on situational leadership, group conflict management, effective supervision, professional knowledge, and communicative skills required of an Air Force officer. Unique case studies on leadership and management situations, and group conflict management will be utilized. Oral and written communication skills will be assessed.

AS 313, LEADERSHIP, ETHICS, AIR FORCE CORE VALUES AND ACCOUNTABILITY, 3 Credits
Emphasis on leadership ethics, leadership core values, leadership accountability, and professional knowledge. Unique case studies on leadership ethics and accountability will be utilized. Oral and written communication skills will be assessed.

AS 320, LEADERSHIP LABORATORY, 1 Credit
Cadets are placed in line and staff leadership positions as a preparation for Air Force active duty. Cadet responsibilities include planning, organizing, directing, and controlling the activities of the cadet corps. Lab. Graded P/N.
This course is repeatable for 3 credits.

AS 405, READING AND CONFERENCE, 1-16 Credits
Supervised individual work.
This course is repeatable for 16 credits.

AS 411, NATIONAL SECURITY AFFAIRS, 3 Credits
Emphasis on the needs for national security, evolution of American defense strategy, policy, and organization. Examination of methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues will also be addressed. Refinement of oral and written communication skills will be assessed.

AS 412, WORLD REGIONAL CULTURAL STUDIES, 3 Credits
Study key transnational issues and religious or ethnic factors that shape the environment Air Force professionals must operate in. Emphasis will be on national security perspective of Africa, South Asia, East Asia, Latin America, Europe, Middle East and former Soviet Republics in transition. Refinement of oral and written communication skills will be assessed.

AS 413, PREPARATION FOR ACTIVE DUTY, 3 Credits
Emphasis on current military issues, evaluation systems, military commission, and risk management. Final preparation for the Air Force professional before commissioning. Refinement of oral and written communication skills will be emphasized.
AS 420, LEADERSHIP LABORATORY, 1 Credit
The senior-level Leadership Laboratory program places cadets in command, line, and staff positions as a preparation for commissioned Air Force service. Cadet responsibilities include planning, organizing, directing, coordinating, and controlling leadership laboratory and the activities of the cadet corps. Lab. Graded P/N. This course is repeatable for 6 credits.

Agricultural Education (AED)

AED 235, INTRODUCTION TO AGRICULTURAL EDUCATION, 2 Credits
Introduces students to the field of agricultural education. Explore the historical foundations and career pathways in non-formal and school-based agricultural education. Topics will include school-based agricultural education, non-formal and extension education, and agricultural literacy. Develop career skills and a plan to pursue a future career in agricultural education.

AED 313, THEORY AND PRACTICUM III: FIELD, 4 Credits
Field based experience for students preparing to be agricultural teachers. Focus on teaching models. Available via Ecampus

AED 325, PLANNING AND DELIVERING NON-FORMAL AGRICULTURAL EDUCATION, 3 Credits
This course uses adult learning theory and practice, including planning non-formal agricultural education programs for youth and adults, methods of instructional delivery, effective use of instructional technology, marketing agricultural education programs, and evaluation of agricultural education outcomes. Microteaching (practice teaching presentations) and group presentations required as part of laboratory assignments.

AED 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

AED 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

AED 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits. Available via Ecampus

AED 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

AED 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits. Available via Ecampus

AED 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

AED 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

AED 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

AED 510, PROFESSIONAL INTERNSHIP: AGRICULTURE EDUCATION, 1-40 Credits
A field experience in which the intern will integrate academic study with classroom teaching experience to learn specific competencies relating to functioning well in the context of the classroom and the school, and demonstrate this competency through the assessment of work by supervisors and by evidence collected and presented in work samples. This course is repeatable for 40 credits. Available via Ecampus

AED 518, EXTENSION COURSE IN TEACHER EDUCATION/PEDAGOGY, 1-3 Credits
Enables present and prospective teachers of agriculture to continue their professional development on pedagogical topics of current importance. (This course is limited to 9 credits per term.) Equivalent to: AG 518 This course is repeatable for 50 credits. Available via Ecampus

AED 533, RURAL SURVEY METHODS, 3 Credits
Technique; analyzing, interpreting, and using results of survey data; identifying and utilizing community resources; develop and organize agriculture programs to meet community needs.

AED 552, PROGRAM ORGANIZATION AND MANAGEMENT, 3 Credits
Explores the foundations of vocational education, essential learning skills, advisory committees, and development of a vocational education philosophy. Students will study the elements of educational reform as they apply to specific service areas. Resource analysis, student organizations, and school-to-work transitions will also be studied.

AED 553, APPLIED INSTRUCTIONAL STRATEGIES, 3 Credits
Helps students in the identification and development of goals, objectives and units. The course includes the development and application of subject area instructional strategies/models, including applied math, writing, communication skills, measurement and evaluation of achievement, and delivery of instruction to at-risk students. Safety is a primary focus.

AED 554, MICRO-TEACHING, 3 Credits
Planning, presenting and evaluating lessons in a micro-teaching lab. It includes application of content pedagogy strategies, subject matter principles and media technology. Lessons presented on safety.
AED 555, LABORATORY PEDAGOGY, 3 Credits
Applications of efficient planning, organizing, and teaching skills within the laboratory setting and utilization of laboratory facilities to optimize learning experiences. Laboratory facilities could include a shop, greenhouse, land laboratories/outdoors, agriscience labs, aquaculture, computer lab, field trips, etc.

AED 556, LINK RESEARCH, TEACHING, AND PRACTICE, 3 Credits
Links research to teaching. Students will work with cooperating teachers to identify and apply research to teaching.

AED 557, ISSUES AND TRENDS IN CURRICULUM AND INSTRUCTION, 3 Credits
Emphasizes trends related to subject matter curriculum issues unique to agricultural education at the secondary level.

AED 558, IMPROVING AGRICULTURAL SCIENCE AND TECHNOLOGY PROGRAMS, 3 Credits
Provides impetus toward evaluation and improvement of local programs of agricultural science and technology (AST), such that they better reflect community, regional, and national needs.

AED 580, COMMUNICATING AGRICULTURAL AND LIFE SCIENCES TO THE PUBLIC, 3 Credits
Focuses on communicating with the public about research-based science in agricultural and life sciences for the purposes of education, influencing public policy, promoting positive agricultural practices and creating change. Explores various communication outlets and media and how they are appropriate for different messages.

AED 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits. Available via Ecampus

AED 603, DISSERTATION, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

AGRI 199, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 8 credits.

AGRI 299, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agriculture and natural resources. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
This course is repeatable for 8 credits.

AGRI 399, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural science. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
This course is repeatable for 8 credits. Available via Ecampus

AGRI 402, INDEPENDENT STUDIES, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

AGRI 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

AGRI 411, *INTRODUCTION TO FOOD SYSTEMS: LOCAL TO GLOBAL, 3 Credits
What is a food system, what does it look like, and how does it work? How do our food choices shape our world? Food systems, farm to plate, operate within social, political, economic, and natural environments, at multiple scales. This multidisciplinary course will introduce students to the complex topic of food systems, at different scales and from a variety of perspectives. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

AGRI 420, INTRO TO ORGANIC PRODUCTION, 3 Credits
History of organic farming, advantages and disadvantages, review of long-term studies comparing organic and conventional production systems, a review of the federal organic production guidelines, methods and applications for organic production facilities, crop nutrition, compost and manure utilization, organic amendments, organic field crop production, organic gardening, organic livestock production, weed and pest control in organic systems, and marketing of organic produce.
Prerequisite: CROP 200 with D- or better or SOIL 205 with D- or better or BI 213 with D- or better
Available via Ecampus

AGRI 438, EXPLORING WORLD AGRICULTURE, 2 Credits
Global practices of food production are highly diverse. However, there are also many common global issues related to agriculture, food, and natural resources. Speakers with international backgrounds and experiences will present material, as well as student teams who will research a topic of personal interest. In addition, opportunities for global study, internship, and research will be explored.
Equivalent to: AEC 438
AGRI 499, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agriculture and natural resources. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
This course is repeatable for 8 credits.

AGRI 506, ORGANIC AGRICULTURE CAPSTONE, 3 Credits
Recommended: AGRI 520, CROP/SOIL 530, ANS 550

AGRI 511, INTRODUCTION TO FOOD SYSTEMS: LOCAL TO GLOBAL, 3 Credits
What is a food system, what does it look like, and how does it work? How do our food choices shape our world? Food systems, farm to plate, operate within social, political, economic, and natural environments, at multiple scales. This multidisciplinary course will introduce students to the complex topic of food systems, at different scales and from a variety of perspectives.
Available via Ecampus

AGRI 520, INTRODUCTION TO ORGANIC FOOD PRODUCTION, 3 Credits
History of organic farming, advantages and disadvantages, review of long-term studies comparing organic and conventional production systems, a review of the federal organic production guidelines, methods and applications for organic production facilities, crop nutrition, compost and manure utilization, organic amendments, organic field crop production, organic gardening, organic livestock production, weed and pest control in organic systems, and marketing of organic produce.
Recommended: CROP 200 or SOIL 205 or BI 213
Available via Ecampus

AGRI 599, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural science. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
This course is repeatable for 8 credits.

Agriculture-General (AG)

AG 111, INFORMATION TECHNOLOGY IN AGRICULTURE, 3 Credits
Using information technology in agriculture and agribusiness; practical experience with computer programs applicable to all agricultural disciplines.
Equivalent to: AREC 111
Available via Ecampus

AG 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

AG 200, ORIENTATION TO THE AGRICULTURAL SCIENCES MAJOR, 2 Credits
Exploration of Agricultural Sciences major and career opportunities.

AG 211, SURVEY AND CONSTRUCTION, 3 Credits
Land measurement and leveling as applied to agricultural uses. Concrete and agricultural building construction including the use of construction power tools, selection of materials and cost estimating.

AG 221, METALS AND WELDING, 3 Credits
Practices of metal working including the use of metal working machines, metal identification, heat treating and metal properties. Fabrication of metals including arc and oxy- acetylene welding and cutting. Lec/lab.

AG 230, INTRODUCTION TO EXTENSION AND ENGAGEMENT, 3 Credits
For students interested in pursuing a career with the OSU Extension Service. An introduction to the OSU Extension Service mission, philosophy, history, organization, structure, administration, program areas, Extension program development, Extension teaching and delivery methods, and the involvement and use of volunteers.
This course is repeatable for 6 credits.

AG 301, *ECOSYSTEM SCIENCE OF PACIFIC NW INDIANS, 3 Credits
Designed and presented in partnership with Pacific Northwest Indians and Alaska Natives, focusing on natural ecosystems, differing views, power relationships, policymaking, and gender roles. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

AG 311, *NATIVE AMERICAN AGRICULTURE, 3 Credits
Explores Native North American agriculture and land management—prehistory of important domesticates such as maize, historic change, and contemporary issues including modern stereotypes, women in agriculture, cultural survival, and both the physical and spiritual significance of these crops in Native American communities and around the globe past and present. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Available via Ecampus

AG 312, ENGINE THEORY AND OPERATION, 3 Credits
Engine construction, operational theories and principles, lubrication, fuels and oils, emissions and preventive maintenance are taught through the process of small engine lab activities. Engine efficiency theories and measurement are presented.

AG 318, ACCESSING INFORMATION FOR AGRICULTURAL RESEARCH, 1 Credit
Designed for students at a distance to develop library skills and improve access to information used to conduct technical agricultural research.
AG 351, *COMMUNICATING AGRICULTURE TO THE PUBLIC, 3 Credits
Students will explore various outlets for communicating with the public about agriculture using appropriate, professional writing. Additionally, students will articulate their thoughts on controversial issues as well as write feature and editorial pieces promoting positive agricultural practices and people in agriculture. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

AG 391, FARM IMPLEMENTS, 3 Credits
Power farming implements including operation, maintenance, adjustments, calibration and use are covered. Field trips may be required.
Available via Ecampus

AG 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

AG 402, INDEPENDENT STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

AG 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

AG 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

AG 406, SPECIAL PROBLEMS, 1-16 Credits
This course is repeatable for 16 credits.

AG 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

AG 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

AG 410, INTERNSHIP, 1-16 Credits
A work internship to give students practical on-the-job preparation in any of the main facets of agriculture or related industries.
This course is repeatable for 16 credits.
Available via Ecampus

AG 412, AG SAFETY AND HEALTH, 3 Credits
An examination of various hazards associated with agriculture. Control strategies will be explored and prevention methods identified. Hazards examined include machinery, livestock, controlled spaces, pesticides, and other items common to the agricultural workplace. Lec/lab.
Available via Ecampus

AG 421, ^WRITING IN AGRICULTURE, 3 Credits
Students will synthesize their knowledge in various areas of agricultural sciences and analyze how current issues impact the agriculture industry, explore careers in agriculture, and develop their written communication skills. Students will share their ideas and demonstrate their learning primarily in writing. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Available via Ecampus

AG 425, DEVELOPMENTS IN AGRICULTURAL MECHANICS, 3 Credits
Emphasis on the development of instructional units for agricultural instruction programs. Wide applications to agricultural mechanization and biotechnology.
This course is repeatable for 9 credits.

AG 435, PROFESSIONAL PRESENTATIONS IN AGRICULTURE, 3 Credits
Students will learn to effectively create and deliver professional presentations relevant to careers in agriculture and natural resources. This includes developing skills for both formal and informal presentations, using visual aids effectively, and using appropriate strategies to engage various audiences.
Available via Ecampus

AG 445, SOCIAL MEDIA ADVOCACY IN AGRICULTURE & NATURAL RESOURCES, 3 Credits
Through practice and application, students develop the ability to communicate effectively in writing using social media and other digital platforms for business purposes, including internal communication, stakeholder engagement, educational messaging, event promotion, and product marketing.

AG 455, *RISK AND CRISIS COMMUNICATIONS IN AG SCI & NATURAL RESOURCES, 3 Credits
Examine potential risk and crisis communications scenarios in agriculture, natural resources and environmental sciences, plus the relevant theories, models, and processes involved in addressing these types of situations effectively. Explores the mitigation, management, and response to risks and crises from a communications perspective with special application to natural resources, along with agricultural and environmental sciences, hazardous situations through completing case studies and creating a risk and crisis communications manual. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus
AG 465, AG SCI AND NATURAL RESOURCES COMMUNICATIONS MINOR CAPSTONE, 2 Credits
Reflect on accumulated knowledge and technical/soft skills gained and conceptualize how to apply communication theories and practices in the context of future agricultural and natural resources careers. Integrate real-life agriculture and natural resources communications scenarios, which will allow for the practice of strategy development, proper implementation, and appropriate assessment methods. Helps package and demonstrate skills verbally and in a portfolio.
Prerequisite: AG 351 with D- or better

AG 492, TECHNOLOGY TRANSFER IN AGRICULTURE, 3 Credits
Examination of processes by which formal and informal agricultural instruction programs influence the introduction and acceptance of technology in agriculture. An emphasis in the international arena will be maintained. The focus throughout the course will be on the role of a professional change agent working with technological change.

AG 499, SPECIAL TOPICS, 1-4 Credits
Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
This course is repeatable for 12 credits.

AG 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

AG 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

AG 518, EXTENSION COURSE IN TEACHER EDUCATION: TECHNICAL, 1-3 Credits
Enables present and prospective teachers of agriculture to continue their professional development on technical topics of current importance.
Equivalent to: AED 518
This course is repeatable for 9 credits.

AG 521, WRITING IN AGRICULTURE, 3 Credits
Students will synthesize their knowledge in various areas of agricultural sciences and analyze how current issues impact the agriculture industry, explore careers in agriculture, and develop their written communication skills. Students will share their ideas and demonstrate their learning primarily in writing.
Available via Ecampus

AG 525, DEVELOPMENTS IN AGRICULTURAL MECHANICS, 3 Credits
Emphasis on the development of instructional units for agricultural instruction programs. Wide applications to agricultural mechanization and biotechnology.
This course is repeatable for 45 credits.
Available via Ecampus

AG 541, COMMUNITY PROGRAMS IN AGRICULTURE, 3 Credits
Evaluating agricultural education program effectiveness and technical appropriateness. Development of long-range plans for agricultural programs to meet the technical needs of a community.

AG 592, TECHNOLOGY TRANSFER IN AGRICULTURE, 3 Credits
Examination of processes by which formal and informal agricultural instruction programs influence the introduction and acceptance of technology in agriculture. An emphasis in the international arena will be maintained. The focus throughout the course will be on the role of a professional change agent working with technological change.

AG 808, WORKSHOP, 1-4 Credits
Designed to enhance professionalism and create a knowledge base to increase personal effectiveness. This course will provide a basis for future leadership by synthesizing theoretical knowledge with practical application. Individuals will have the opportunity to explore their own personality, reflect on their leadership ability, and develop the professional skills and networking abilities necessary to become influential leaders in their home, community and profession.
This course is repeatable for 4 credits.

American Sign Language (ASL)

ASL 111, FIRST-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A beginning course to learn the basics of American Sign Language. The course focuses on the ASL language and its uses of syntax, grammar, vocabulary, facial expressions and deaf culture.

ASL 112, FIRST-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A continuation of ASL 111 with the development of structures, receptive/expressive skills and vocabulary. Native and/or bilingual speakers of ASL will not receive credit for ASL 111, ASL 112, ASL 113.
Prerequisite: ASL 111 with D- or better
Recommended: Basic foundation of the language
Available via Ecampus

ASL 113, FIRST-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A continuation of ASL 111 and ASL 112 with the further development of structures, receptive/expressive skills and vocabulary. Native and/or bilingual speakers of ASL will not receive credit for ASL 111, ASL 112, ASL 113.
Prerequisite: ASL 112 with D- or better
Available via Ecampus
ASL 211, SECOND-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A continuation of the first-year ASL courses with the further development of structures, receptive/expressive skills and vocabulary. Native and/or bilingual speakers of ASL will not receive credit for ASL 211, ASL 212, ASL 213.
Prerequisite: ASL 113 with D- or better
Available via Ecampus

ASL 212, SECOND-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A continuation of the second-year ASL series with the further development of structures, receptive/expressive skills and vocabulary. Native and/or bilingual speakers of ASL will not receive credit for ASL 211, ASL 212, ASL 213.
Prerequisite: ASL 211 with D- or better
Available via Ecampus

ASL 213, SECOND-YEAR AMERICAN SIGN LANGUAGE, 4 Credits
A continuation of the second-year ASL series with the further development of structures, receptive/expressive skills and vocabulary. Native and/or bilingual speakers of ASL will not receive credit for ASL 211, ASL 212, ASL 213.
Prerequisite: ASL 212 with D- or better
Available via Ecampus

American Studies Program (AMS)

AMS 311, TOPICS IN AMERICAN STUDIES, 4 Credits
Selected topics, changed annually, that investigate American ideas, regions, events, or periods. Fulfills the requirement for an integrated course in the major. May be repeated as topics vary. Open to nonmajors. This course is repeatable for 99 credits.

AMS 350, *AMERICAN CULTURE AND THE VIETNAM EXPERIENCE, 4 Credits
Examines through literature, film, and popular media the effects of the Vietnam War on American culture. Taught at OSU-Cascades only. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

AMS 405, READING AND CONFERENCE, 1-16 Credits
Independent, individual studies supervised by the director, members of the American Studies Board, or assigned professors, as arranged by the student and the director. This course is repeatable for 16 credits.

AMS 406, PROJECTS, 1-16 Credits
Studies of American culture and society centered around topical events or cultural programs of current interest in American studies. This course is repeatable for 16 credits.

AMS 407, ^SEMINAR, 1-16 Credits
CROSSLISTED as AMS 407/ENG 407. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: ENG 407
This course is repeatable for 16 credits.

AMS 410, AMERICAN STUDIES INTERNSHIP, 1-16 Credits
Supervised and evaluated work in a variety of professional fields to enhance students' career preparation; arranged at the initiative of the student one semester in advance. This course is repeatable for 16 credits.

AMS 507, SEMINAR, 1-16 Credits
CROSSLISTED as AMS 507/ENG 507.
Equivalent to: ENG 507
This course is repeatable for 16 credits.

Animal Sciences (ANS)

ANS 100, ORIENTATION TO ANIMAL AND RANGELAND SCIENCES, 1 Credit
Designed to provide incoming Animal and Rangeland Sciences students an introduction to college life at OSU with an emphasis on the faculty, facilities, services, and the curricula of the Department of Animal and Rangeland Sciences.

ANS 121, *INTRODUCTION TO ANIMAL SCIENCES, 4 Credits
Principles of breeding, physiology, nutrition, and management as they apply to modern livestock and poultry production. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: ANS 121H
Available via Ecampus

ANS 121H, *INTRODUCTION TO ANIMAL SCIENCES, 4 Credits
Principles of breeding, physiology, nutrition, and management as they apply to modern livestock and poultry production. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: ANS 121

ANS 207, SOPHOMORE SEMINAR, 2 Credits
Examination of career opportunities in animal sciences. Available via Ecampus

ANS 215, BEEF/DAIRY INDUSTRIES, 3 Credits
Introduction to beef and dairy industries; history, current industry status, and demonstration and practice of basic husbandry skills. Recommended: ANS 121
ANS 216, SMALL RUMINANT/SWINE INDUSTRIES, 3 Credits
Introduction to the small ruminant and swine industries including history, current status and production practices, with demonstration and hands-on experience of basic husbandry practices.
Recommended: ANS 121

ANS 217, POULTRY INDUSTRIES, 3 Credits
Familiarization of the organizational structure and marketing arrangement of poultry industries; hands-on managerial techniques, practices and procedures carried out by the poultry industries.

ANS 220, INTRODUCTORY HORSE SCIENCE, 3 Credits
Introduction to horses, their history, breeds, form and function, performance evaluation, current industry status, and general management.
Recommended: ANS 121

ANS 223, EQUINE MARKETING, 2 Credits
Course covers practical concepts of equine marketing. Emphasis on market assessment, targeting buyers, marketing and advertising strategies, hands-on experience in product preparation and presentation, marketing legalities.
Recommended: ANS 121, ANS 220 and ANS 192

ANS 231, LIVESTOCK EVALUATION, 3 Credits
Focuses on an individual animal's economic merit as compared to a sample group. Visual appraisal, performance data, and carcass merit are stressed. Includes the evaluation of both market and breeding animals. The livestock species of concentration include beef cattle, swine, sheep, and meat goats. Lec/lab.
Recommended: ANS 121

ANS 251, PRINCIPLES OF ANIMAL FOODS TECHNOLOGY, 3 Credits
Processing of meat, milk and eggs into human food products. Lec/lab.
Recommended: ANS 121

ANS 280, COMPANION ANIMAL MANAGEMENT, 4 Credits
An introduction to the challenges, responsibilities, and benefits of interaction with selected companion animals. Topics covered will provide an overview of the human-animal bond, the position of companion animals in society, ethical issues of pet ownership and potential career opportunities. In addition, the course will serve as an introduction to preventive care and normal behavior of dogs, cats, and selected exotic pets. As the Department of Animal and Rangeland Sciences curriculum offers courses addressing equine care and husbandry, horses will not be discussed in this class.
Available via Ecampus

ANS 302, COMMON DISEASES OF COMPANION ANIMALS, 4 Credits
An introduction to common diseases of selected companion animals. Emphasis will be placed on identifying predisposing factors, clinical signs, common diagnostic procedures and potential implications for human health. A $10 course fee will be required. Lec/rec.
Prerequisite: (( BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) and (BI 213 [D-] or BI 213H [D-])) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-])) and CH 121 [D-] and CH 122 [D-] and CH 123 [D-]
Recommended: ANS 280
Available via Ecampus

ANS 311, PRINCIPLES OF ANIMAL NUTRITION, 3 Credits
Classification, digestion, absorption, and metabolism of nutrients in animals; consequences of nutritional deficiencies and toxicities.
Prerequisite: (( BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-]))
Available via Ecampus

ANS 313, APPLIED ANIMAL NUTRITION: FEEDS AND RATION FORMULATION, 4 Credits
Discusses topics relevant to feedstuff identification and nutrient analysis, feed processing and formulation of balanced animal diets based on nutrient requirements. Provides students hands-on experiences in identifying various feedstuffs and formulating rations based on the nutrient composition of those feedstuffs.
Recommended: MTH 111
Available via Ecampus

ANS 314, ANIMAL PHYSIOLOGY, 4 Credits
Biological basis of animal performance; describes how networks of cells act cooperatively to enable locomotion, provide a stable internal environment, allocate resources, remove metabolic end-products, and counteract microorganisms.
Recommended: General principles of biology equivalent to BI 211, BI 212, BI 213 and junior standing or higher
Available via Ecampus

ANS 315, *CONTENTIOUS SOCIAL ISSUES IN ANIMAL AGRICULTURE, 3 Credits
Discussion of contentious issues including role of animal products and human health; use of hormones and antibiotics; new animal biotechnologies; animal rights/welfare; livestock grazing on public lands.
(Bacc Core Course).
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus
ANS 316, REPRODUCTION IN DOMESTIC ANIMALS, 4 Credits
Anatomy and physiology of mammalian and avian reproductive systems; fertilization, embryonic and fetal development, placentation and parturition; reproductive technologies. Lec/rec.
Prerequisite: ((BI 211 with D- or better or BI 211H with D- or better) or ((BI 221 with D- or better or BI 221H with D- or better) and (BI 222 [D-] or BI 222H [D-] and (BI 223 [D-] or BI 223H [D-]))) and (CH 121 [D-] or CH 221 [D-] or CH 231 [D-] or CH 231H [D-])
Recommended: ANS 121
Available via Ecampus

ANS 317, REPRODUCTION IN DOMESTIC ANIMALS LABORATORY, 1 Credit
Gross and microscopic anatomy of the reproductive tract; semen collection, evaluation and extension; evaluation of fertilization, embryo and fetal development and placentation. Lec/lab.
Prerequisite: ANS 316 (may be taken concurrently) with D- or better
Available via Ecampus

ANS 320, PRINCIPLES OF COMPANION ANIMAL NUTRITION, 3 Credits
Learn about nutrients, the digestive process, and the application of nutritional sciences to the health and welfare of companion animals. Introduction to the metabolic basis and practical preventative management for nutritional diseases in companion animals.
Prerequisite: ((BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-]))
Available via Ecampus

ANS 321, AVIAN EMBRYO, 4 Credits
Discussion and experimentation involving the development and the environmental requirements for the artificial incubation of avian embryos. Lec/lab. Offered even-numbered years.
Recommended: ANS 121 and ANS 217 and BI 211

ANS 333, EQUINE STABLE MANAGEMENT, 3 Credits
Discusses developing a business plan, financial statements, and ratios, budgeting, financial planning, taxation, and employment issues within the current equine industry.
Prerequisite: ANS 220 with D- or better
Recommended: ANS 222

ANS 335, EQUINE HEALTH AND DISEASE, 3 Credits
Recognition of common diseases and disorders including their cause, treatment and prevention. Management of internal and external parasites. Recognizing common lameness issues.
Available via Ecampus

ANS 341, ANIMAL BEHAVIOR AND COGNITION, 3 Credits
Survey, discuss, and explore principles of animal behavior and cognition from a comparative perspective, taking into account the interacting influences of biology, environment, and life experience on the individual and group behavior of animals across species. Aspects of animal cognition, including reasoning, perception, memory and personality, that play an important role in animal behavior will also be addressed.
Prerequisite: BI 102 with D or better or (BI 213 with D or better or BI 213H with D or better) or (BI 221 with D or better or BI 221H with D or better) and (BI 222 [D] or BI 222H [D]) and (BI 223 [D] or BI 223H [D])
Available via Ecampus

ANS 351, ADVANCED PRINCIPLES OF ANIMAL FOODS TECHNOLOGY, 4 Credits
Provides in-depth coverage of both fresh and processed meats and eggs into products suitable for human consumption.
Recommended: ANS 251

ANS 378, ANIMAL GENETICS, 4 Credits
Fundamentals of inheritance, principles of genetic segregation, population and quantitative genetics, response to natural selection and artificial manipulation of populations.
Prerequisite: BI 211 with D- or better or BI 211H with D- or better or BI 212 with D- or better or BI 212H with D- or better or BI 213 with D- or better or BI 213H with D- or better or BI 221 with D- or better or BI 221H with D- or better or BI 222 with D- or better or BI 222H with D- or better or BI 223 with D- or better or BI 223H with D- or better
Recommended: ANS 121 and ST 351
Available via Ecampus

ANS 380, PRINCIPLES OF ANIMAL ANATOMY AND PHYSIOLOGY, 3 Credits
An introductory course in animal anatomy to provide a foundation for advanced courses in the Animal Science curriculum. Emphasis is on acquisition of a basic knowledge of minute and gross anatomical structures, their operation, and integration. Begins with anatomical nomenclature such as body planes and directional terms then covers the following tissues and organ systems: epithelium, connective tissue, blood and bone marrow, bone/cartilage, muscle tissue, nervous tissue, digestive system, circulatory system, reproductive system, urinary system, and respiratory system.
Prerequisite: ((BI 211 with D or better or BI 211H with D or better) and (BI 212 [D] or BI 212H [D]) and (BI 213 [D] or BI 213H [D])) or ((BI 221 [D] or BI 221H [D]) and (BI 222 [D] or BI 222H [D]) and (BI 223 [D] or BI 223H [D]))
Available via Ecampus
ANS 385, FOUNDATIONS OF MAMMALIAN HISTOLOGY, 3 Credits
Provides a basic knowledge of mammalian microscopic anatomy. Emphasis will be on the appearance, organization and function of minute anatomical structures that can only be observed with the help of a visual enhancer, such as a microscope. Covers basic histological techniques and histology and related functions of the following tissues and organ systems: epithelium, connective tissue, bone/cartilage, blood, muscle tissue, nervous tissue, circulatory system, digestive system, reproductive system, urinary system, respiratory system, immune system, integument, eye and ear. Also covers gametogenesis, fertilization, and early development of the vertebrate embryo. Lec/rec.
Prerequisite: (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-])) or (((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) and (BB 314 [C-] or BB 314H [C-]))
Available via Ecampus

ANS 390, GROSS ANATOMY OF DOMESTIC ANIMALS, 4 Credits
Provides a foundation for advanced courses in the Animal Sciences curriculum. Emphasis on gaining knowledge of mammalian anatomy. Lectures cover anatomical nomenclature, structure, operation, and integration of major organ systems. The dog is used as the general model while comparative domestic animal anatomy is also covered. Lec/lab.
Prerequisite: (((BI 211 with D or better or BI 211H with D or better) and (BI 212 [D] or BI 212H [D-]) and (BI 213 [D] or BI 213H [D-])) or (((BI 221 [D] or BI 221H [D-]) and (BI 222 [D] or BI 222H [D-]) and (BI 223 [D] or BI 223H [D-]))

ANS 401, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ANS 405, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 407, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 410, ANIMAL SCIENCE INTERNSHIP, 1-12 Credits
On- or off-campus, occupational work experience supervised by the department. Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus

ANS 420, ETHICAL ISSUES IN ANIMAL AGRICULTURE, 3 Credits
Students are provided with an opportunity to discuss, debate and write extensively about current, relevant, and controversial social issues dealing with modern animal agriculture. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Available via Ecampus

ANS 427, APPLIED PHYSIOLOGY OF REPRODUCTION, 5 Credits
Principles, techniques and recent development in semen collection, evaluation, extension and preservation; artificial insemination, estrus detection and synchronization; pregnancy diagnosis and embryo transfer.
Prerequisite: ANS 316 with C or better and ANS 317 [C]
Equivalent to: ANS 327

ANS 430, EQUINE SYSTEMS I: EXERCISE SCIENCE, 4 Credits
Seniors and graduate students intensively explore and apply science to real-life situations regarding cardiorespiratory, muscle physiology, and bone physiology responses to exercise, climate, and altitude. Lec/lab.
Recommended: ANS 314

ANS 431, EQUINE SYSTEMS II: NUTRITION, 3 Credits
Senior and graduate students intensively explore and apply science to real-life situations regarding starch, fiber, protein, and fat metabolism in performance horses, breeding stock, and growing horses.
Recommended: ANS 313

ANS 432, EQUINE SYSTEMS III: REPRODUCTION, 4 Credits
Senior and graduate students explore the fundamentals of equine reproduction and their application in horse breeding. Includes practical training of laboratory techniques. Lec/lab.
Prerequisite: ANS 220 with D- or better and ANS 316 [D-]
Recommended: ANS 327

ANS 433, POULTRY MEAT PRODUCTION SYSTEMS, 3 Credits
Fundamental applications and the analysis of management principles applied to brooding, rearing, feeding and housing meat-type chickens and turkeys and their respective breeders. Decision case studies and practical management problems are incorporated into the course. Offered odd number years.
Recommended: ANS 217 and ANS 313 and ANS 316 and ANS 378

ANS 434, EGG PRODUCTION SYSTEMS, 3 Credits
Applications and analyses of egg production systems for brooding, rearing, feeding and housing egg producing chickens. Decision case studies and practical management problems are incorporated into the course. Offered even-numbered years.
Recommended: ANS 217 and ANS 313 and ANS 316 and ANS 378
ANS 435, APPLIED ANIMAL BEHAVIOR, 3 Credits
Exploration of the fundamental processes of animal behavior and implications for animal management, production, housing and welfare. Examples provided in class will cover a range of species, with emphasis on domestic animals. Lec/lab.
Recommended: ANS 314 and BI 350 or Z 350

ANS 436, SHEEP PRODUCTION SYSTEMS, 3 Credits
Integration of nutrition, genetics, reproduction, behavior, and health principles into management systems for production and marketing of lamb and wool.
Recommended: ANS 216 and ANS 311 and ANS 316 and ANS 378

ANS 439, DAIRY PRODUCTION SYSTEMS, 4 Credits
Fundamentals of nutrition, breeding, reproductive physiology and health programs and their applications in the care and management of dairy cattle.
Recommended: ANS 215 and ANS 313 and ANS 316 and ANS 378

ANS 440, DAIRY PRODUCTION SYSTEMS, 3 Credits
Decision case analysis or special topics in application of dairy management principles.
Prerequisite: ANS 439 with D- or better

ANS 441, TOPICS IN ANIMAL LEARNING, 3 Credits
Explore when and how the behavior of animals can be shaped by the environment, individual experiences, and interactions with other animals (including humans).
Prerequisite: ([BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-])] or ([BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-])]
Recommended: ANS 435 or ANS 535 and (BI 350 or Z 350) and BI 213

ANS 443, BEEF PRODUCTION SYSTEMS: COW/CALF, 4 Credits
Fundamentals of nutrition, reproductive physiology, health and care, and financial management of beef cow/calf operations in the western U.S. Discussions will focus on critical management stages and practices common to the beef cow/calf production cycle. Taught at EOU La Grande campus only.
Recommended: ANS 121 and ANS 313 and (BA 321 or AEC 211)

ANS 444, BEEF PRODUCTION SYSTEMS: STOCKER/FEEDLOT, 4 Credits
A continuation of the study of beef cattle management. Content will encompass the growth and development of weaned calves through slaughter for consumer beef production, with particular focus on the management of growing and yearling cattle in forage-based (stocker cattle) and drylot (feedlot) systems. Taught at EOU La Grande campus only.
Recommended: ANS 121 and ANS 313 and (BA 321 or AEC 211)

ANS 445, BEEF PRODUCTION SYSTEMS, 4 Credits
Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of beef cattle from conception through calving, weaning, stocker/back grounding and the feedlot. Students will practice decision-making processes using working case studies. Overnight field trip with extra fee charged.
Recommended: ANS 313 and ANS 316 and ANS 317 and ANS 378

ANS 446, GRAZING LIVESTOCK PRODUCTION, 4 Credits
Equips non-animal science majors with basic ruminant livestock (beef cattle, sheep and meat goat) production knowledge, so they may communicate and collaborate effectively with livestock producers.
Prerequisite: ANS 121 with D- or better
Available via Ecampus

ANS 448, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSTLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: CROP 448, RNG 448

ANS 452, LIVESTOCK HOUSING AND WASTE MANAGEMENT, 3 Credits
Basics in where, how, and why one would build, insulate, and ventilate livestock buildings. Manure and wastewater collection, treatment, storage, and utilization.
Available via Ecampus

ANS 456, COMPANION ANIMAL PRODUCTION SYSTEMS, 3 Credits
Fundamentals of dog and cat breeding stock selection, feeding and housing as well as biology and management from estrus through parturition to weaning. Due to the nature of this class, a variety of animals may be present during class session. Questions and interactions are encouraged but, while precautions are taken, any contact with animals carries some risk of injury or illness.
Prerequisite: (ANS 313 with D- or better and ANS 316 (may be taken concurrently) [D-] and ANS 317 (may be taken concurrently) [D-] and ANS 378 [D-])
Available via Ecampus

ANS 447, LIVESTOCK PRODUCTION SYSTEMS ON PASTURE, 4 Credits
Equips non-animal science majors with basic ruminant livestock (beef cattle, sheep and meat goat) production knowledge, so they may communicate and collaborate effectively with livestock producers.
Prerequisite: ANS 121 with D- or better
Available via Ecampus
ANS 460, SWINE PRODUCTION SYSTEMS, 4 Credits
Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of swine from conception through farrowing, weaning, and the growing/finishing phases. Students will practice decision-making processes using working case studies. Overnight field trip with extra fee charged.
Recommended: ANS 121 and ANS 216 and ANS 311 and ANS 316 and ANS 378

ANS 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

ANS 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 503, THESIS, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

ANS 505, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 507, GRADUATE SEMINAR, 1 Credit
Section 1: Seminar/general for all graduate students. Preparation of effective visual aids. Practice explaining the validity or significance of experimental results to an informed audience. Section 2: Seminar/endocrinology, for graduate students interested in physiology.
This course is repeatable for 99 credits.

ANS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ANS 509, TEACHING PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

ANS 511, DIGESTIVE PHYSIOLOGY AND NUTRITION OF RUMINANT ANIMALS, 4 Credits
Anatomy and physiology of the ruminant digestive tract including rumen microbiology and digestive processes. Nutritional biochemistry and physiology of ruminants. Feed chemistry, feed intake and principles of ration balancing. Theory of energy and protein metabolism.
Recommended: ANS 311 or ANS 313

ANS 512, MONOGASTRIC AND POULTRY NUTRITION, 3 Credits
Anatomical differences in digestive tracts of monogastrics; nutritional biochemistry of poultry; practical feeding of avian species; least-cost ration techniques; techniques for determining nutrient needs of monogastrics.
Recommended: ANS 311 and ANS 313

ANS 515, REVIEW OF APPLIED RUMINANT NUTRITION RESEARCH TECHNIQUES, 3 Credits
Review and discussion and applied techniques and methodology used for ruminant nutrition research.

ANS 530, EQUINE SYSTEMS I: EXERCISE SCIENCE, 4 Credits
Senior and graduate students intensively explore and apply science to real-life situations regarding cardiorespiratory, muscle physiology, and bone physiology responses to exercise, climate, and altitude. Lec/lab.
Recommended: ANS 314

ANS 531, EQUINE SYSTEMS II: NUTRITION, 3 Credits
Senior and graduate students intensively explore and apply science to real-life situations regarding starch, fiber, protein, and fat metabolism in performance horses, breeding stock, and growing horses.
Recommended: ANS 313

ANS 532, EQUINE SYSTEMS III: REPRODUCTION, 4 Credits
Designed for seniors and graduate students to explore the fundamentals of equine reproduction and their application in horse breeding. Includes practical training in laboratory techniques. Lec/lab.
Equivalent to: BI 532
Recommended: ANS 220 and ANS 316 and ANS 327

ANS 533, POULTRY MEAT PRODUCTION SYSTEMS, 3 Credits
Fundamental applications and the analysis of management principles applied to brooding, rearing, feeding and housing meat-type chickens and turkeys and their respective breeders. Decision case studies and practical management problems are incorporated into the course. Offered odd number years.
Recommended: ANS 217 and ANS 313 and ANS 316 and ANS 378

ANS 534, EGG PRODUCTION SYSTEMS, 3 Credits
Applications and analyses of egg production systems for brooding, rearing, feeding and housing egg producing chickens. Decision case studies and practical management problems are incorporated into the course. Offered even-numbered years.
Recommended: ANS 217 and ANS 313 and ANS 316 and ANS 378

ANS 535, APPLIED ANIMAL BEHAVIOR, 3 Credits
Exploration of the fundamental processes of animal behavior and implications for animal management, production, housing and welfare. Examples provided in class will cover a range of species, with emphasis on domestic animals. Lec/lab.
Recommended: ANS 314 and BI 350 or Z 350
ANS 536, SHEEP PRODUCTION SYSTEMS, 3 Credits
Integration of nutrition, genetics, reproduction, behavior, and health principles into management systems for production and marketing of lamb and wool.
Recommended: ANS 216 and ANS 311 and ANS 316 and ANS 378

ANS 538, BIOLOGY OF LACTATION, 3 Credits
Physiological and environmental factors affecting mammary gland development and function. Offered alternate years.
Recommended: Z 431 or Z 531

ANS 539, DAIRY PRODUCTION SYSTEMS, 4 Credits
Fundamentals of nutrition, breeding, reproductive physiology and health programs and their applications in the care and management of dairy cattle.
Recommended: ANS 215 and ANS 313 and ANS 316 and ANS 378

ANS 540, DAIRY PRODUCTION SYSTEMS, 3 Credits
Decision case analysis or special topics in application of dairy management principles.
Recommended: ANS 439

ANS 541, TOPICS IN ANIMAL LEARNING, 3 Credits
Explore when and how the behavior of animals can be shaped by the environment, individual experiences, and interactions with other animals (including humans).
Recommended: BI 211 and BI 212 and BI 213 and (ANS 435 or ANS 535) and (BI 350 or Z 350)

ANS 543, BEEF PRODUCTION SYSTEMS: COW/CALF, 3 Credits
Fundamentals of nutrition, reproductive physiology and health programs and their applications in the care and management of beef cattle. Overnight field trip with extra fee charged. Taught at EOU La Grande campus only.
Recommended: ANS 315 and ANS 313 and ANS 316 and ANS 378

ANS 544, BEEF PRODUCTION SYSTEMS: STOCKER/FEEDLOT, 3 Credits
Continuation of the study of beef cattle management. Students will practice decision-making processes using area beef cattle operations as case studies. Overnight field trip with extra fee charged. Taught at EOU La Grande campus only.
Recommended: ANS 443 or ANS 543

ANS 545, BEEF PRODUCTION SYSTEMS, 4 Credits
Students will be exposed to the fundamentals of nutrition, reproductive physiology, selection, health programs, and their applications in the care and management of beef cattle from conception through calving, weaning, stocker/back grounding and the feedlot. Students will practice decision-making processes using working case studies. Overnight field trip with extra fee charged.
Recommended: ANS 313 and ANS 316 and ANS 317 and ANS 378

ANS 548, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: CROP 548, RNG 548

ANS 550, ORGANIC ANIMAL PRODUCTION SYSTEMS, 3 Credits
Topics include the principles of livestock production, legislation, animal welfare, and marketing of organic production systems. Course emphasizes principles, concepts, and techniques of organic and sustainable production of animals.
Available via Ecampus

ANS 552, LIVESTOCK HOUSING AND WASTE MANAGEMENT, 3 Credits
Basics in where, how, and why one would build, insulate, and ventilate livestock buildings. Manure and wastewater collection, treatment, storage, and utilization. Offered alternate years.

ANS 556, COMPANION ANIMAL PRODUCTION SYSTEMS, 3 Credits
Fundamentals of dog and cat breeding stock selection, feeding and housing as well as biology and management from estrus through parturition to weaning. Due to the nature of this class, a variety of animals may be present during class session. Questions and interactions are encouraged but, while precautions are taken, any contact with animals carries some risk of injury or illness.
Recommended: ANS 313 and ANS 378 and completion or concurrent enrollment in ANS 316 and ANS 317

ANS 560, LIPID METABOLISM, 3 Credits
Digestion, absorption and metabolism of lipids with emphasis on lipoprotein metabolism, regulation of lipid metabolism in various tissues and metabolism of eicosanoids. Offered alternate years.
Equivalent to: NUTR 560
Recommended: BB 452 and BB 492

ANS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
ANS 601, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ANS 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ANS 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ANS 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ANS 607, GRADUATE SEMINAR, 1 Credit
This course is repeatable for 99 credits.

ANS 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ANS 609, TEACHING PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

ANS 662, HORMONE ACTION, 3 Credits
Mechanisms of action of peptide and steroid hormones and related compounds at the cellular level. Offered every other year, winter term.
Prerequisite: BB 551 with C or better or BB 592 with C or better
Equivalent to: PHAR 662

ANS 673, BIOLOGY OF MAMMALIAN REPRODUCTION, 4 Credits
Physiological, neuroendocrine, endocrine and environmental factors that regulate reproduction of mammals. Offered alternate years.
Equivalent to: BI 673
Recommended: ANS 316 and BB 350

ANS 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Anthropology (ANTH)

ANTH 101, *INTRODUCTION TO ANTHROPOLOGY, 3 Credits
Located at the intersection of the humanities and the sciences, anthropology strives for a holistic understanding of the human condition. This course introduces students to the basic concepts, theories and methods of anthropology, including its four main sub-fields: archaeology, biological anthropology, cultural anthropology, and linguistic anthropology. The course is driven by fundamental questions, including: What is culture? How do anthropologists study human populations, both past and present? How can this field help us better understand contemporary human problems? (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Available via Ecampus

ANTH 109, *INTRODUCTION TO CULTURAL ANTHROPOLOGY, 3 Credits
Investigates cultural adaptation and change in different environmental and historical contexts. Compares the means by which cultures solve common human problems. Shows similarities and differences throughout the world in systems of values, family, religion, economics, and politics. Students are asked to consider future cultural conditions. Uses a video format. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Available via Ecampus

ANTH 159, *LANGUAGE, RACE AND RACISM IN THE US: AN INTRODUCTION, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed notions. CROSSTLISTED as ANTH 159/ES 159/WLC 159. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 159, WLC 159

ANTH 199, SPECIAL STUDIES, 1-3 Credits
Equivalent to: ANTH 199H
This course is repeatable for 3 credits.

ANTH 201, INNOVATION FOR SOCIAL IMPACT, 3 Credits
Introduces methods for designing solutions to address needs of low-resource or other vulnerable peoples using tools from engineering and social sciences, and investigates techniques to bring ideas to market sustainably through social entrepreneurship. Multidisciplinary teams will step through the design process, including detailed needs assessment and customer discovery, critique and application of theoretical frameworks, exploration of the diffusion process and relevant system/institutions, prototyping, plans for technical and user experience testing, and considering implementation. CROSSTLISTED as ANTH 201/HEST 201.
Equivalent to: HEST 201

ANTH 208, *WESTERN CULTURE STUDY ABROAD, 3 Credits
Overseas study of the history and contemporary form of important features of Western culture. Based on at least 10 weeks of studying abroad. CROSSTLISTED as ANTH 208/LING 208. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: LING 208
Available via Ecampus

ANTH 209, *CULTURAL DIVERSITY STUDY ABROAD, 3 Credits
Overseas study of non-Western cultures. Based on at least 10 weeks of studying abroad. CROSSTLISTED as ANTH 209/LING 209. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: LING 209
ANTH 210, *INTRODUCTION TO CULTURAL ANTHROPOLOGY, 3 Credits
Defines culture and how the concept of culture developed in Anthropology, including how anthropologists study culture via fieldwork. Discusses how language impacts culture and how globalization has impacted languages and cultures worldwide. Includes discussion on how race is seen from a non-Western perspective. Uses an anthropological perspective to consider religion, human political history, economic processes, sexuality, and health care practices. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: ANTH 210H
Available via Ecampus

ANTH 230, TIME TRAVELERS, 3 Credits
Introduction to the historical developments of modern archaeology. The often romanticized public image of archaeology will be contrasted with scientific reality. The nature of archaeological data, modern field methods, analytical techniques, and theoretical background will be reviewed in order to illustrate how the unwritten record of human cultural behavior is deciphered. (SS)
Attributes: LACS – Liberal Arts Social Core
Available via Ecampus

ANTH 240, INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY, 3 Credits
An investigation of the origin of modern people (Homo sapiens) in a historical context; review of key discoveries and current research on the relationships between humans and other primates; exploration of contrasting views of humanity. (SS)
Attributes: LACS – Liberal Arts Social Core
Available via Ecampus

ANTH 251, *LANGUAGE IN THE USA, 3 Credits
Examines the linguistic aspects of ethnic, class, and gender differences in the United States of America, with a focus on language attitudes. Uses both oral and written materials and quantitative and qualitative approaches. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Powers/Discrimination
Equivalent to: ANTH 251H
Available via Ecampus

ANTH 261, *FOOD IN AMERICAN CULTURE, 3 Credits
Fosters understanding of the meanings of foods and foodways in American culture. Uses food as a lens to explore general topic areas such as work, family, ecology, and identity. Critically examines core issues that shape and have shaped American culture. CROSSLISTED as ANTH 261/ FCSJ 261. (Bacc Core Course) (SS)
Attributes: CPWC – Core, Pers, West Culture; LACS – Liberal Arts Social Core
Equivalent to: FCSJ 261
Available via Ecampus

ANTH 284, PRIMATE ADAPTATION AND EVOLUTION, 4 Credits
Introduces students to our closest living relatives, the primates. Uses theories and concepts from evolutionary biology to explore the diverse anatomical and behavioral adaptations of different primate species. Also explores the relationships between anatomy, behavior, and ecology on the individual and community level. Provides an evolutionary and ecological framework with which to view primates (including humans) and all living organisms.

ANTH 311, *PEOPLES OF THE WORLD-NORTH AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 311H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 311H, *PEOPLES WORLD-NORTH AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 311
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
ANTH 312, *PEOPLES WORLD-EUROPE, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: ANTH 312H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 312H, *PEOPLES WORLD-EUROPE, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: ANTH 312
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 313, *PEOPLES OF THE WORLD-LATIN AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 313H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 313H, *PEOPLES OF THE WORLD-LATIN AMERICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 313
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 314, *PEOPLES OF THE WORLD-MIDDLE EAST, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 314H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 314H, *PEOPLES OF THE WORLD-MIDDLE EAST, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 314
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 315, *PEOPLES OF THE WORLD-AFRICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 315H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 315H, *PEOPLES OF THE WORLD-AFRICA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 315
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
ANTH 316, *PEOPLES OF THE WORLD- SOUTH AND SOUTHEAST ASIA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 317, *PEOPLES OF THE WORLD- PACIFIC, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.

ANTH 318, *PEOPLES OF THE WORLD- CHINA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: ANTH 318H
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 318H, *PEOPLES OF THE WORLD- CHINA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Prerequisite: ANTH 110 with D- or better or ANTH 210 with D- or better
Equivalent to: ANTH 318
Recommended: Completion of social processes and institutions requirement

ANTH 319, *PEOPLES OF THE WORLD- JAPAN AND KOREA, 3 Credits
Survey of peoples around the world. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Recommended: ANTH 110 or ANTH 210 or completion of social processes and institutions requirement.
Available via Ecampus

ANTH 320, *MARITIME CULTURES AND LIFE-WAYS, 3 Credits
Introduces a selection of rich maritime non-western living traditions through intensive study of the literature, ethnographic films and anthropological lectures. The UNESCO convention on intangible cultural heritage domain of knowledge concerning nature and the universe is a grounding point. This domain includes cultural knowledge, skills, and practices that have been developed by cultural groups through interacting with the natural environment. Examines a range of material for key cultural features and concepts and critically reflects on the diversity of maritime cultures and cultural survival. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

ANTH 330, *EVOLUTION OF PEOPLE, TECHNOLOGY, AND SOCIETY, 3 Credits
Overview of the evolution and prehistory of the human species, including the development and interaction of human biology, technology, and society. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACS – Liberal Arts Social Core
Equivalent to: ANTH 330H
Available via Ecampus

ANTH 330H, *EVOLUTION OF PEOPLE, TECHNOLOGY, AND SOCIETY, 3 Credits
Overview of the evolution and prehistory of the human species, including the development and interaction of human biology, technology, and society. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 330

ANTH 331, MESOAMERICAN PREHISTORY, 3 Credits
Explores the archaeology and prehistory of Mesoamerica from Paleo-Indian times through the Olmec, Maya, Zapotec, and Aztec cultures to the Spanish Conquest. Themes include the transition to settled agriculture, emergence of social inequality and political authority, the role of the natural environment, and the rich cultural heritage of Mesoamerican civilizations.
Attributes: LACN – Liberal Arts Non-Western Core
Recommended: Understanding of the fundamentals of archaeology
ANTH 332, ARCHAEOLOGICAL INERENCE, 4 Credits
In this course on archaeological inference, or the thought process of forming our understanding about the past, we will take a guided tour of the main stages of archaeological research design and try our hand at making archaeological inferences. We begin by learning about the basic conceptual problems in the study of the past, then, we engage with the theories and models used to address them, and finally we apply this knowledge in hands-on analytical activities during the laboratory sessions with archaeological artifacts. Lec/lab.
Prerequisite: ANTH 230 with D- or better
Available via Ecampus

ANTH 345, *BIOLOGICAL AND CULTURAL CONSTRUCTIONS OF RACE, 3 Credits
The social, cultural, and historical context of human biological diversity in the United States. Students become acquainted with primary resources relating to biological diversity within the modern human species and will offer a critical perspective on racial/ethnic categorization of that diversity. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ANTH 345H
Recommended: Sophomore standing and completion of one anthropology course.
Available via Ecampus

ANTH 350, LANGUAGE, CULTURE AND SOCIETY, 4 Credits
An examination of the communicative functions of language and the role of language in the construction of social relations. Covers the origins, structure, and diversity of language. Explores the relationships between language and thought and the use of linguistic models in the study of culture. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: 3 credits of social science.
Available via Ecampus

ANTH 352, *ANTHROPOLOGY, HEALTH, AND ENVIRONMENT, 3 Credits
Major threats to human health are increasingly linked to global environmental changes. This course engages medical and environmental anthropology research to critically explore the values, meanings and ideologies associated with ecological and public health issues in given localities throughout the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

ANTH 361, *FOOD JUSTICE, 4 Credits
Contemporary food systems are examined from a cultural and social justice perspective. The human right to food as recognized by the United Nations serves as the justice grounding point. Impediments to realizing the right to food will be examined in national and international contexts. CROSSLISTED as ANTH 361/FCSJ 361. (Bacc Core Course) (SS)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Equivalent to: FCSJ 361
Available via Ecampus

ANTH 370, ^ANTHROPOLOGICAL THEORIES, 4 Credits
Foundational theories, approaches, and concepts are explored and used as a means to understanding how anthropologists past and present use theory. Students compare and contrast prominent theories, analyze current events and situations, and write a major research paper using anthropological sources.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ANTH 110 with D- or better
Recommended: Completion of social processes and institutions requirement
Available via Ecampus

ANTH 371, RESEARCH METHODS IN CULTURAL ANTHROPOLOGY, 4 Credits
Designed for anthropology majors, this course involves students in learning about and practicing anthropological research methods. Students practice ethnographic fieldwork by conducting participant observation and interviews, writing fieldnotes, analyzing real-life material for cultural values and power differences, and writing up a research paper.
Prerequisite: ANTH 101 with D- or better or ANTH 210 with D- or better
Available via Ecampus

ANTH 372, *SOCIAL NETWORKS AND SOCIETY, 3 Credits
Introduces the foundational theory and concepts of social network analysis (SNA) and explores practical applications of SNA in environmental science, public health, business, politics, education, and public life. Also explores how the Internet, social media, and other information and communication technologies are affecting social networks and culture in the 21st century. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

ANTH 373, APPROACHES TO SOCIAL JUSTICE, 3 Credits
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSLISTED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ES 373, WGSS 373, WLC 373

ANTH 374, *ANTHROPOLOGY AND GLOBAL HEALTH, 3 Credits
An overview of historical and contemporary issues in gender health with emphasis on politics, globalization, and the complex outcomes of interventions in diverse cultural settings. Students will articulate a critical and evidence-based perspective on complex global health issues. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACS – Liberal Arts Social Core
Equivalent to: ANTH 374H
Available via Ecampus
ANTH 374H, *ANTHROPOLOGY AND GLOBAL HEALTH, 3 Credits
An overview of historical and contemporary issues in gender health with emphasis on politics, globalization, and the complex outcomes of interventions in diverse cultural settings. Students will articulate a critical and evidence-based perspective on complex global health issues. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 374

ANTH 380, *GLOBAL CONFLICTS: ANTHROPOLOGICAL PERSPECTIVES, 3 Credits
Introduction to global conflicts. Investigates the origins of global conflicts in cultures of militarism and analyzes the historical connections of militarism with capitalism, colonialism, patriarchy, and other structures of power. Explores anthropological, historical, and interdisciplinary methods to explain the implications and wide-ranging consequences of global conflicts and militarisms and to analyze how they forge relations between people in distant places. Applies concepts and frameworks from the humanities and social sciences to generate critical and original analyses of global conflicts. Analyzes global resistance to conflict and militarization and develops creative alternatives to conflict in dialogue with peers. (SS) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACS – Liberal Arts Social Core
Equivalent to: ANTH 380H
Recommended: ANTH 101, ANTH 210 or completion of non-Western Cultures requirement
Available via Ecampus

ANTH 380H, *GLOBAL CONFLICTS: ANTHROPOLOGICAL PERSPECTIVES, 3 Credits
Introduction to global conflicts. Investigates the origins of global conflicts in cultures of militarism and analyzes the historical connections of militarism with capitalism, colonialism, patriarchy, and other structures of power. Explores anthropological, historical, and interdisciplinary methods to explain the implications and wide-ranging consequences of global conflicts and militarisms and to analyze how they forge relations between people in distant places. Applies concepts and frameworks from the humanities and social sciences to generate critical and original analyses of global conflicts. Analyzes global resistance to conflict and militarization and develops creative alternatives to conflict in dialogue with peers. (SS) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: ANTH 380
Recommended: ANTH 101, ANTH 210 or completion of non-Western Cultures requirement

ANTH 383, INTRODUCTION TO MEDICAL ANTHROPOLOGY, 3 Credits
Examines human health and healing systems from evolutionary and cross-cultural perspectives. Using a case study approach, this class explores individual- and population-level experiences of illness and healing, while providing students with the tools to evaluate global disease patterns and international health promotion and education programs.
Equivalent to: ANTH 383H
Available via Ecampus

ANTH 383H, INTRODUCTION TO MEDICAL ANTHROPOLOGY, 3 Credits
Examines human health and healing systems from evolutionary and cross-cultural perspectives. Using a case study approach, this class explores individual- and population-level experiences of illness and healing, while providing students with the tools to evaluate global disease patterns and international health promotion and education programs.
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 383

ANTH 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 399H, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 399
This course is repeatable for 16 credits.

ANTH 401, RESEARCH, 1-6 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ANTH 402, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ANTH 403, THESIS, 1-6 Credits
This course is repeatable for 16 credits.

ANTH 405, READING AND CONFERENCE, 1-6 Credits
Equivalent to: ANTH 405H
This course is repeatable for 16 credits.
Available via Ecampus

ANTH 405H, READING AND CONFERENCE, 1-6 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 405
This course is repeatable for 16 credits.

ANTH 406, PROJECTS, 1-6 Credits
This course is repeatable for 16 credits.
ANTH 407, SEMINAR, 1-3 Credits
Equivalent to: ANTH 407H
This course is repeatable for 16 credits.

ANTH 407H, SEMINAR, 1-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ANTH 407
This course is repeatable for 16 credits.

ANTH 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ANTH 410, INTERNSHIP, 1-16 Credits
Opportunities for students at junior and first-term senior class levels to take advantage of off-campus work experiences during regular term sessions for academic credit. Allows students to broaden and deepen their understanding and appreciation of the value of their academic activity. Internship is supervised and evaluated by individual faculty members.
This course is repeatable for 16 credits.
Recommended: 6 credits of anthropology.
Available via Ecampus

ANTH 420, WORLD CULTURES--TOPICS, 4 Credits
In-depth study of world cultures. Early settlement, cultural history, ecological adaptations, population, family and gender roles, religious ideology, political and economic systems, modern social changes, and contemporary issues pertaining to indigenous peoples in culturally distinct regions of the world. Emphasis is placed on dispelling stereotypic images, both past and present. Includes three hours of lecture and one hour of seminar. Cannot be taken if student is taking or has completed the 300-level course in the same geographical area. Graded P/N.
Recommended: 9 credits of social science including 3 credits of anthropology

ANTH 421, ANALYSIS OF LITHIC TECHNOLOGIES, 4 Credits
Covers the principles, procedures, and purpose of archaeological lithic analysis and the anthropological interpretation of lithic technologies used by prehistoric hunter-gatherers.
Prerequisite: ANTH 230 with D- or better

ANTH 422, HISTORIC MATERIALS ANALYSIS, 3 Credits
Introduction to the analytical and descriptive methods and techniques used by historical archaeologists to study late 18th through 20th century machine and handmade objects.
Prerequisite: ANTH 230 with D- or better

ANTH 423, METHOD AND THEORY IN HISTORICAL ARCHAEOLOGY, 4 Credits
Examines the origins and growth of historical archaeology in the Americas. Students will critically learn about the linkages with history and anthropology and explore the theoretical underpinnings of historical archaeology.

ANTH 424, SETTLEMENT ARCHAEOLOGY, 4 Credits
Explores the evolution of the theoretical underpinnings and field methods of settlement archaeology as well as the refinement of the meaning of ‘settlement archaeology’ over time.

ANTH 425, CERAMIC ANALYSIS IN ARCHAEOLOGY, 4 Credits
Provides fundamental practical skills and theoretical perspectives for the analysis and interpretation of archaeological ceramics. On the practical side, students will learn both basic and advanced techniques for describing and analyzing pottery assemblages encountered by field archaeologists. On the theoretical side, the course will explore the diversity of research questions in which pottery can play a critical role, as well as the various ways in which ceramic data can be interpreted. Lec/lab.
Prerequisite: ANTH 230 with D- or better

ANTH 430, TOPICS IN ARCHAEOLOGY, 1-4 Credits
Recent advances in archaeology and their application to special fields of study. Topics vary from term to term.
Prerequisite: ANTH 230 with D- or better or ANTH 330 with D- or better
This course is repeatable for 99 credits.

ANTH 432, *DOMESTICATION, URBANIZATION, AND THE RISE OF CIVILIZATION, 4 Credits
Reviews the development of culture in the Old and New Worlds with special emphasis placed on the when, where, and how of early domestication of plants and animals. Examines the process of urbanization. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: ANTH 432H
Recommended: 6 credits of anthropology.

ANTH 432H, *DOMESTICATION, URBANIZATION, AND THE RISE OF CIVILIZATION, 4 Credits
Reviews the development of culture in the Old and New Worlds with special emphasis placed on the when, where, and how of early domestication of plants and animals. Examines the process of urbanization. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ANTH 432
Recommended: 6 credits of anthropology
ANTH 433, FIRST AMERICANS, LAST FRONTIERS, 4 Credits
The initial human occupation of the Western Hemisphere is explored with particular emphasis on northeast Siberian cultural progenitors, routes and timing of entry into the Americas, population dispersal theory, the paleoenvironmental record, and human cultural responses to the conditions of the last frontier prior to 8,000 years ago.
Attributes: LACN – Liberal Arts Non-Western Core
Recommended: 6 credits of anthropology.
Available via Ecampus

ANTH 434, NORTH AMERICA AFTER THE ICE AGE, 4 Credits
The development of regional hunting and gathering adaptive strategies in North America from 8000 B.C. to the historic period are examined against a backdrop of changing climate, natural disasters, population growth, and human invention.
Recommended: ANTH 433 or 6 credits of anthropology.
Available via Ecampus

ANTH 435, CULTURAL RESOURCES: POLICY AND PROCEDURES, 4 Credits
Description and analysis of requirements and demands of cultural resource management. Historical development of cultural resource laws and appropriate field techniques and strategies to implement legislation.
Prerequisite: ANTH 230 with D- or better
Available via Ecampus

ANTH 436, NORTHWEST PREHISTORY, 4 Credits
Materials and theories relating to prehistoric aboriginal cultures of the Northwest. Evaluation of different theories on the origins and adaptations of prehistoric populations to ecological zones within the Northwest; comparisons of the cultural development through prehistoric times of the Columbia Plateau, intermontane and coastal zones of Oregon, Washington, and British Columbia. Special emphasis on the theories of origin, subsequent development of prehistoric cultures in the Northwest, and the present circumstances of archaeology in the Northwest.
Recommended: 6 credits of anthropology.

ANTH 437, GEOARCHAEOLOGY, 4 Credits
Provides an introduction to geoarchaeological concepts and methods. Emphasis will be placed on the use of geoscientific perspectives and datasets to solve archaeological problems.
Prerequisite: ANTH 230 with D- or better
Available via Ecampus

ANTH 439, ARCHAEOLOGY OF FORAGERS, 4 Credits
Provides an in-depth review of the concepts and approaches employed to study cultural aspects of past foraging peoples using archaeological research methods and theoretical perspectives.

ANTH 440, TOPICS IN PHYSICAL ANTHROPOLOGY, 1-4 Credits
Recent advances in physical anthropology and their applications to special fields of study. Topics vary from term to term.
Prerequisite: ANTH 240 with D- or better or ANTH 330 with D- or better
This course is repeatable for 16 credits.
Recommended: General biology

ANTH 441, HUMAN EVOLUTION, 4 Credits
The evolutionary history of the primate order as it is represented by fossils of the Paleocene through the Holocene. Special attention given to development of the Hominoids in the Miocene, the Australopithecines in the Pliocene, and members of the genus Homo in the Pleistocene. Lec/lab.
Prerequisite: (ANTH 110 with D- or better or ANTH 210 with D- or better) and ANTH 240 [D-]
Recommended: General biology
Available via Ecampus

ANTH 442, HUMAN ADAPTABILITY, 4 Credits
Prerequisite: ANTH 240 with D- or better
Recommended: ANTH 340 or general biology

ANTH 443, HUMAN OSTEOLOGY LAB, 4 Credits
Identification and analysis of human skeletal materials in an archaeological context.
Prerequisite: ANTH 240 with D- or better
Available via Ecampus

ANTH 444, NUTRITIONAL ANTHROPOLOGY, 4 Credits
Examines human nutrition and food systems from comparative, biocultural and evolutionary perspectives. Long-term evolutionary processes are examined within an ecological framework as significant factors affecting human biology and susceptibility to diet-related disease. An emphasis on anthropological methods in nutritional assessment including anthropometry, paleodietaiy assessment and nutritional participant-observation will provide students with the tools to evaluate human diet from skeletal and fossil collections through contemporary cross-cultural populations. CROSSLISTED as ANTH 444/FCSJ 444 and ANTH 544/FCSJ 544.
Prerequisite: ANTH 240 with C or better or ANTH 330 with C or better
Equivalent to: FCSJ 444
Available via Ecampus
ANTH 446, FORENSIC ANTHROPOLOGY, 4 Credits

Concepts and practices in the use of anthropology in legal matters and police cases, especially involving identification of human remains.

Prerequisite: ANTH 443 with D- or better

Available via Ecampus

ANTH 447, *ARCTIC PERSPECTIVES ON GLOBAL PROBLEMS, 4 Credits

The Arctic is on the frontline of today's most pressing global problems. This course uses Arctic perspectives to explore issues affecting us all: climate change, environmental conservation, traditional ecological knowledge, development, energy extraction, indigenous rights, and indigenous media. Using insights from Arctic perspectives, we will plot pathways toward potential solutions. (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity

Equivalent to: ANTH 447H

ANTH 447H, *ARCTIC PERSPECTIVES ON GLOBAL PROBLEMS, 4 Credits

The Arctic is on the frontline of today's most pressing problems. This course uses Arctic perspectives to explore issues affecting us all: climate change, environmental conservation, traditional ecological knowledge, development, energy extraction, indigenous rights, and indigenous media. Using insights from Arctic perspectives, we will plot pathways toward potential solutions. (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course

Designator: ANTH 447

ANTH 448, EVOLUTIONARY MEDICINE, 4 Credits

Evolutionary medicine is founded on the idea that many challenges to human health can be accounted for by discordances between contemporary environments and those under which humans evolved. This course examines ways anthropologists may help to reframe questions about diseases within long-term, evolutionary contexts.

Prerequisite: (ANTH 110 with D- or better or ANTH 210 with D- or better) and (ANTH 240 [D-] or ANTH 330 [D-])

ANTH 449, BIOCULTURAL PERSPECTIVES ON HUMAN REPRODUCTION, 4 Credits

Examines human reproduction and sexuality from the perspective of the New Biocultural Synthesis, a theoretical approach in anthropology that examines the interface of evolved biological, sociocultural and political-economic factors that interact to produce complex human behaviors and biology. Topics are presented from a life-history perspective where questions related to human reproduction and evolutionary history are examined across the lifespan from mating and conception through childhood and menopause. Lec/lab.

Available via Ecampus

ANTH 450, TOPICS IN LINGUISTIC ANTHROPOLOGY, 1-4 Credits

Recent advances in the study of culture and communication and their application to special fields of knowledge. Topics vary from term to term.

This course is repeatable for 16 credits.

Recommended: 3 credits of linguistic anthropology.

ANTH 452, FOLKLORE AND EXPRESSIVE CULTURE, 4 Credits

The study of folklore/popular culture in its social and historical context. Examines content, structure, communicative potential, and performative aspects of various forms of oral and written expression. Includes familiarization with the analysis of myths, legends, tall tales, proverbs, riddles, and play languages. (FA)

Attributes: LACF – Liberal Arts Fine Arts Core

Equivalent to: ANTH 453

ANTH 453, COMMUNITY HEALTH FIELD SCHOOL, 3-12 Credits

Meets the growing need for international experiences for students in medical anthropology; international public health; and women, gender and sexuality studies. The field school is offered over a three- to seven-week period during the summer term. In-country time is flexible and can be adjusted depending on program requirements and financial constraints. Provides an intensive cross-cultural field experience in San Juan, Puerto Rico, that is premised on a model of community-engaged, service learning and applied, emancipatory research.

This course is repeatable for 12 credits.

ANTH 455, REPRODUCTIVE JUSTICE: A SERVICE LEARNING COURSE, 4 Credits

Reproductive Justice is a service-learning course that aims to bridge theory and practice in reproductive health and social justice by developing connections between the university campus and members of the local community.

ANTH 459, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits

Unpack language, race and racism—as well as the intersections between those ideas—-as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.

Equivalent to: ES 459, WLC 459

ANTH 460, ETHNOGRAPHIC FIELD SCHOOL, 6 Credits

Involves an intensive field experience, learning and developing practical skills for operating socially and culturally in another culture. Students engage in anthropological and mixed research topics, methods, and analysis, such as research ethics, research design, participant observation, ethnographic interviewing, community mapping, qualitative and quantitative data analysis.

Available via Ecampus
ANTH 461, NEUROANTHROPOLOGY, 4 Credits
The emerging interdisciplinary field of neuroanthropology combines anthropological understandings of human biological and cultural variation with recent findings in neuroscience. Key topics include socialization and enculturation, addiction, ritual, depression, and psychiatric disorders.
Prerequisite: ANTH 240 with C- or better or ANTH 345 with C- or better or ANTH 383 with C- or better

ANTH 465, POPULAR CULTURE: AN ANTHROPOLOGICAL PERSPECTIVE, 4 Credits
Introduces some of the debates and issues swirling around analyses of late twentieth-, early twenty-first century popular/mass/public/mediated/commercial culture. Learning about its pervasive forms, its origins and effects, how we are situated in it, and how it situates us is vital to understanding the changes that characterize our postmodern world.

ANTH 466, *RURAL ANTHROPOLOGY, 4 Credits
Concentrates on study of the socio-cultural dynamics in rural communities as they develop in national and global contexts of political and economic change. Includes anthropological readings on rural issues in domestic and international contexts and a research paper on a contemporary rural issue. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Recommended: 3 credits of social science.
Available via Ecampus

ANTH 468, ANTHROPOLOGY OF CHILDHOOD, 4 Credits
Ethnographies of the organization of children’s lives in different cultural contexts are combined with readings on the conceptual and methodological genealogies that have constructed children as research subjects in anthropology.
Recommended: 3 credits of social science

ANTH 469, ENERGY IN CULTURAL PERSPECTIVE, 4 Credits
Examines historical and current trends in energy around the globe. Course themes include the role of energy in economic development, cultural innovation in energy production, social problems that arise from energy shortages or the uneven distribution of energy resources and social and cultural changes required as societies attempt to reduce their dependence on fossil fuels.
Prerequisite: ANTH 110 with D- or better or ANTH 210 with D- or better

ANTH 470, TOPICS IN CULTURAL ANTHROPOLOGY, 1-16 Credits
Covers recent advances in cultural anthropology and their applications to the field. Topics vary from term to term.
Equivalent to: ANTH 470H
This course is repeatable for 16 credits.
Recommended: 3 credits of social science.

ANTH 471, CASH, CLASS AND CULTURE: HUNTER-GATHERERS TO CAPITALISM, 4 Credits
Students explore the cultural and social effects of capitalism in the contemporary world within the larger question of how economics and society intersect and change over time. Special emphases are put on food and work, but students explore the linkages of global forces and local life in a variety of ways.
Recommended: 3 credits of social science.

ANTH 472, CONTEMPORARY INDIAN ISSUES, 4 Credits
Examines the background of Indian treaties and reservations with discussions of present issues such as health care, education, the Indian Child Welfare Act, fishing rights, and religious freedom. Issues are discussed in class with considerable class participation and some role playing.
Recommended: 3 credits of social science.
Available via Ecampus

ANTH 473, *GENDER, ETHNICITY, AND CULTURE, 4 Credits
Study of the practices and ideologies of gender as they intersect with those of ethnicity, race, class, and culture. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Recommended: 3 credits of social science.
Available via Ecampus

ANTH 474, CROSS-CULTURAL HEALTH AND HEALING, 4 Credits
A comprehensive overview of current issues in global health with particular emphasis on social, cultural, and behavioral interventions. Explores issues of health and development in the international context, focusing on such issues as inequality, structural adjustment, economic development, and community-based approaches to health care, specific cultural beliefs and practices, and the influence of people’s perceptions of health, illness, and healing.

ANTH 475, ANTHROPOLOGY IN PRACTICE, 4 Credits
Capstone course for Anthropology majors. Discusses the use of anthropological skills and methods to solve real-world problems.
Addresses professional opportunities for anthropologists; provides career development opportunities; and assesses learning outcomes for Anthropology majors.
Available via Ecampus

ANTH 477, ECOLOGICAL ANTHROPOLOGY, 4 Credits
Examines past and present interactions between humans and their environments. Emphasizes the concept of system and process of human adaptation.
Recommended: Upper-division standing and 3 credits of social science.
Available via Ecampus
ANTH 478, *ANTHROPOLOGY OF TOURISM, 4 Credits

Tourism is among the world’s largest industries. The anthropology of tourism seeks to understand the relationships between the industry and the other cultural productions. Students explore the cultural practices and impacts of tourism in relation to both host and guest communities, and travel as cultural practice. Course is taught online and on Corvallis campus. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Recommended: 3 credits of social science
Available via Ecampus

ANTH 479, ANTHROPOLOGY OF MIGRATION, 4 Credits

Focuses on the multiple aspects of population movements around the globe. Investigates the history of recent human migration; current theories, trends and policies; as well as issues of immigrant incorporation and anti-immigrant politics.
Recommended: 3 credits of social science.

ANTH 480, TOPICS IN APPLIED ANTHROPOLOGY, 1-4 Credits

Recent advances in applied anthropology and their application to special fields of study. Topics vary from term to term. This course is repeatable for 16 credits.
Recommended: 3 credits of social science.

ANTH 481, *NATURAL RESOURCES AND COMMUNITY VALUES, 3 Credits

Investigates relations between human communities and the values of community members. Resource issues integrate concepts from social science, economics, and ecology. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: 3 credits of social science
Available via Ecampus

ANTH 481H, *NATURAL RESOURCES AND COMMUNITY VALUES, 3 Credits

Investigates relations between human communities and the values of community members. Resource issues integrate concepts from social science, economics, and ecology. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Recommended: 3 credits of social science

ANTH 482, *ANTHROPOLOGY OF INTERNATIONAL DEVELOPMENT, 4 Credits

Examines the ideological and theoretical bases of world assistance programs and their effects on different sectors and classes, including women. Causes of world hunger in terms of agronomic, mainstream economic and radical economic paradigms are developed and contrasted. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: AG 482

ANTH 483, ADVANCED MEDICAL ANTHROPOLOGY, 4 Credits

An overview of anthropological studies of the health of human communities from a biological and behavioral perspective. Topics include prehistory of disease, cultural perspectives on causation of disease and approaches to healing; anthropological approach to international health issues; and case studies.
Prerequisite: (ANTH 110 with D- or better and ANTH 210 with D- or better) and (ANTH 240 [D-] or ANTH 330 [D-])

ANTH 484, *WEALTH AND POVERTY, 4 Credits

Summarizes the distribution of wealth observed cross-culturally and through time. Determines the relation between wealth distribution and economic productivity. Shows the impact of industrialization and economic wealth distribution in Western civilization and cross-culturally. Evaluates how cultural practices affect wealth distribution in Western and non-Western societies. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Recommended: 3 credits of social science
Available via Ecampus

ANTH 485, CAPSTONE IN SOCIAL JUSTICE, 2 Credits

Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisite: (ANTH 373 with D- or better or ES 373 with D- or better or WCSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WCSS 410 [D-] or WLC 410 [D-])
Equivalent to: ES 485, WGSS 485, WLC 485
This course is repeatable for 4 credits.

ANTH 486, ANTHROPOLOGY OF FOOD, 4 Credits

The role of food in human cultures, both past and present. Includes discussion of different food procurement styles, social movements and the political economy of food. Looks at the symbolic aspects of food as well as its relationship with the environment. CROSSLISTED as ANTH 486/FCSJ 486 and ANTH 586/FCSJ 586.
Attributes: LACS – Liberal Arts Social Core
Equivalent to: FCSJ 486
Recommended: 3 credits of social science
Available via Ecampus

ANTH 487, LANGUAGE IN GLOBAL CONTEXT, 4 Credits

Deals with practical uses of linguistics in the global political arena. Explores use of official vs. unofficial languages, language standardization, the preservation of dying languages; problems in learning first and second languages, and the relevance of linguistic knowledge to education and cross-cultural communication.
Prerequisite: ANTH 251 with D- or better or ANTH 350 with D- or better
Recommended: Some knowledge of linguistic structure
**ANTH 490, TOPICS IN METHODOLOGY, 1-4 Credits**
Recent advances in anthropological methodologies and their application to special fields of study. Topics vary from term to term.
*This course is repeatable for 16 credits.*
*Recommended: 6 credits of anthropology*

**ANTH 492, ARCHAEOLOGICAL LABORATORY METHODS, 1-3 Credits**
Provides information on the basics of archaeological laboratory work. Students learn the day-to-day operations of a lab, how to classify and catalog artifacts, and how to do artifact analysis, research hypothesis.
*Recommended: 6 credits of anthropology*

**ANTH 497, ARCHAEOLOGICAL FIELD METHODS, 1-3 Credits**
Archaeological field strategies emphasizing reconnaissance and survey. Application of field equipment and project management.

**ANTH 498, ORAL NARRATIVE, 3 Credits**
Methodology course focused on the collection and processing of multiple speech genres, including personal narrative, oral history, folklore, and songs. Attention is given to ethics, legal issues, different forms of transcription, and the politics of representation.
*Prerequisite: ANTH 350 with D- or better*
*Available via Ecampus*

**ANTH 499, SPECIAL TOPICS IN ANTHROPOLOGY, 1-16 Credits**
*Equivalent to: ANTH 499H*
*This course is repeatable for 16 credits.*

**ANTH 499H, SPECIAL TOPICS IN ANTHROPOLOGY, 1-16 Credits**
*Attributes: HNRS – Honors Course Designator*
*Equivalent to: ANTH 499*
*This course is repeatable for 16 credits.*

**ANTH 501, RESEARCH, 1-6 Credits**
*This course is repeatable for 16 credits.*

**ANTH 502, INDEPENDENT STUDY, 1-6 Credits**
*This course is repeatable for 16 credits.*

**ANTH 503, THESIS, 1-12 Credits**
*This course is repeatable for 999 credits.*

**ANTH 505, READING AND CONFERENCE, 1-6 Credits**
*This course is repeatable for 16 credits.*

**ANTH 506, PROJECTS, 1-6 Credits**
*This course is repeatable for 16 credits.*

**ANTH 507, SEMINAR, 1-3 Credits**
*This course is repeatable for 16 credits.*

**ANTH 509, PRACTICUM, 1-16 Credits**
*This course is repeatable for 16 credits.*

**ANTH 510, GRADUATE INTERNSHIP, 1-16 Credits**
Opportunities for students at junior and first-term senior class levels to take advantage of off-campus work experiences during regular term sessions for academic credit. Allows students to broaden and deepen their understanding and appreciation of the value of their academic activity. Internship is supervised and evaluated by individual faculty members.
*This course is repeatable for 16 credits.*
*Recommended: 6 credits of anthropology*

**ANTH 515, ADVANCED RESEARCH LITERATURE REVIEW, 3 Credits**
Provides graduate students with knowledge and experience in the advanced literature review process including construction of the literature review as product. One of the primary skills graduate students must master is advanced review of a body of literature for the research project. Mastery of the literature review process influences quality and sophistication of claims developed to justify research, with the written review clearly delineating the unique contribution of the student’s research and the knowledge gap that it fills. The literature review as a product is a strong written argument that builds a case from credible evidence based on previous research. CROSSLISTED as ANTH 515/CSSA 515/ES 515/WGSS 515.
*Equivalent to: CSSA 515, ES 515, WGSS 515*

**ANTH 519, BIOLOGIES OF POVERTY, 4 Credits**
A readings-based, discussion seminar on the applications of biological and biocultural anthropological theory to questions of embodiment and poverty. In it we will explore the ways key theoretical and methodological developments over the past two decades enable biocultural anthropologists to measure and explain the ways poverty and inequality become embedded beneath our skin—that is, the ways culture, belief, difference, power and discrimination are written on our bodies, and thus contribute to inequities in health outcomes across populations.
*Recommended: A minimum of 6 credits of anthropology coursework*

**ANTH 521, ANALYSIS OF LITHIC TECHNOLOGIES, 4 Credits**
Covers the principles, procedures, and purpose of archaeological lithic analysis and the anthropological interpretation of lithic technologies used by prehistoric hunter-gatherers.
*Recommended: ANTH 230*

**ANTH 522, HISTORIC MATERIALS ANALYSIS, 3 Credits**
Introduction to the analytical and descriptive methods and techniques used by historical archeologists to study late 18th through 20th century machine and handmade objects.
*Recommended: ANTH 230*
ANTH 523, METHOD AND THEORY IN HISTORICAL ARCHAEOLOGY, 4 Credits
Examines the origins and growth of historical archaeology in the Americas. Students will critically learn about the linkages with history and anthropology and explore the theoretical underpinnings of historical archaeology.

ANTH 524, SETTLEMENT ARCHAEOLOGY, 4 Credits
Explores the evolution of the theoretical underpinnings and field methods of settlement archaeology as well as the refinement of the meaning of 'settlement archaeology' over time.

ANTH 525, CERAMIC ANALYSIS IN ARCHAEOLOGY, 4 Credits
Provides fundamental practical skills and theoretical perspectives for the analysis and interpretation of archaeological ceramics. On the practical side, students will learn both basic and advanced techniques for describing and analyzing pottery assemblages encountered by field archaeologists. On the theoretical side, the course will explore the diversity of research questions in which pottery can play a critical role, as well as the various ways in which ceramic data can be interpreted. Lec/lab.
Recommended: ANTH 230

ANTH 530, TOPICS IN ARCHAEOLOGY, 1-4 Credits
Recent advances in archaeology and their application to special fields of study. Topics vary from term to term. This course is repeatable for 16 credits.
Recommended: ANTH 230 or ANTH 330

ANTH 531, ARCHAEOLOGICAL THEORY, 4 Credits
Historical development of archaeological field techniques and theoretical concepts with an emphasis on modern method and theory in North American archaeology.
Recommended: ANTH 230

ANTH 533, FIRST AMERICANS, LAST FRONTIERS, 4 Credits
The initial human occupation of the Western Hemisphere is explored with particular emphasis on northeast Siberian cultural progenitors, routes and timing of entry into the Americas, population dispersal theory, the paleoenvironmental record, and human cultural responses to the conditions of the last frontier prior to 8,000 years ago.
Recommended: 6 credits of anthropology.

ANTH 534, NORTH AMERICA AFTER THE ICE AGE, 4 Credits
The development of regional hunting and gathering adaptive strategies in North America from 8000 B.C. to the historic period are examined against a backdrop of changing climate, natural disasters, population growth, and human invention.
Recommended: ANTH 433 or 6 credits of anthropology.

ANTH 535, CULTURAL RESOURCES: POLICY AND PROCEDURES, 4 Credits
Description and analysis of requirements and demands of cultural resource management. Historical development of cultural resource laws and appropriate field techniques and strategies to implement legislation.
Recommended: ANTH 431

ANTH 536, NORTHWEST PREHISTORY, 4 Credits
Materials and theories relating to prehistoric aboriginal cultures of the Northwest. Evaluation of different theories on the origins and adaptations of prehistoric populations to ecological zones within the Northwest; comparisons of the cultural development through prehistoric times of the Columbia Plateau, intermontane and coastal zones of Oregon, Washington, and British Columbia. Special emphasis on the theories of origin, subsequent development of prehistoric cultures in the Northwest, and the present circumstances of archaeology in the Northwest.
Recommended: 6 credits of anthropology.

ANTH 537, GEOARCHAEOLOGY, 4 Credits
Provides an introduction to geoarchaeological concepts and methods. Emphasis will be placed on the use of geoscientific perspectives and datasets to solve archaeological problems.
Recommended: ANTH 230

ANTH 538, ARCHAEOLOGY FIELD SCHOOL, 1-10 Credits
Practical skills, archaeological methods and techniques including use of equipment, site surveying and mapping techniques, site excavation strategies, record keeping, field cataloging, report writing, and field camp management.
Recommended: 6 credits of anthropology
Available via Ecampus

ANTH 539, ARCHAEOLOGY OF FORAGERS, 4 Credits
Provides an in-depth review of the concepts and approaches employed to study cultural aspects of past foraging peoples using archaeological research methods and theoretical perspectives.

ANTH 540, TOPICS IN PHYSICAL ANTHROPOLOGY, 1-4 Credits
Recent advances in physical anthropology and their applications to special fields of study. Topics vary from term to term. This course is repeatable for 16 credits.
Recommended: ANTH 240 or ANTH 330 or general biology

ANTH 541, HUMAN EVOLUTION, 4 Credits
The evolutionary history of the primate order as it is represented by fossils of the Paleocene through the Holocene. Special attention given to development of the Hominoids in the Miocene, the Australopithecines in the Pliocene, and members of the genus Homo in the Pleistocene. Lec/lab.
Recommended: (ANTH 110 or ANTH 210) and ANTH 240
ANTH 542, HUMAN ADAPTABILITY, 4 Credits
Overview of human biology and its various sub fields, applications of human biology in areas of nutrition, health, growth, adaptation, and demography. Understanding adaptive variations among populations and individuals in responses to environment, disease, and nutritional stress. Recommended: ANTH 240 or ANTH 340 or general biology

ANTH 543, HUMAN OSTEOLOGY LAB, 4 Credits
Identification and analysis of human skeletal materials in an archaeological context. Recommended: ANTH 240

ANTH 544, NUTRITIONAL ANTHROPOLOGY, 4 Credits
Examines human nutrition and food systems from comparative, biocultural and evolutionary perspectives. Long-term evolutionary processes are examined within an ecological framework as significant factors affecting human biology and susceptibility to diet-related disease. An emphasis on anthropological methods in nutritional assessment including anthropometry, paleodietary assessment and nutritional participant-observation will provide students with the tools to evaluate human diet from skeletal and fossil collections through contemporary cross-cultural populations. CROSSLISTED as ANTH 444/FCSJ 444 and ANTH 544/FCSJ 544. Equivalent to: FCSJ 544

ANTH 546, FORENSIC ANTHROPOLOGY, 4 Credits
Concepts and practices in the use of anthropology in legal matters and police cases, especially involving identification of human remains. Recommended: ANTH 443

ANTH 547, METHODS IN FOOD IN CULTURE AND SOCIAL JUSTICE STUDIES, 4 Credits
Exposes graduate students to the methodological approaches and methods used in guiding empirical research on the socio-cultural aspects of food, focusing on vulnerable populations, food security, procurement, foodways, disasters, and climate change. Methodological approaches and methods as evidenced in peer-reviewed publications is the grounding for the course. CROSSLISTED as ANTH 547/FCSJ 547. Equivalent to: FCSJ 547

ANTH 548, EVOLUTIONARY MEDICINE, 4 Credits
Evolutionary medicine is founded on the idea that many challenges to human health can be accounted for by discordances between contemporary environments and those under which humans evolved. This course examines ways anthropologists may help to reframe questions about diseases within long-term, evolutionary contexts. Recommended: (ANTH 110 or ANTH 210) and (ANTH 240 or ANTH 330)

ANTH 549, BIOCULTURAL PERSPECTIVES ON HUMAN REPRODUCTION, 4 Credits
Examines human reproduction and sexuality from the perspective of the New Biocultural Synthesis, a theoretical approach in anthropology that examines the interface of evolved biological, sociocultural and political-economic factors that interact to produce complex human behaviors and biology. Topics are presented from a life-history perspective where questions related to human reproduction and evolutionary history are examined across the lifespan from mating and conception through elderhood and menopause. Lec/lab.

ANTH 550, TOPICS IN LINGUISTIC ANTHROPOLOGY, 1-4 Credits
Recent advances in the study of culture and communication and their application to special fields of knowledge. Topics vary from term to term. This course is repeatable for 16 credits. Recommended: 3 credits of linguistic anthropology.

ANTH 551, LINGUISTIC ANTHROPOLOGY, 4 Credits
The study of language in social context including the relationships between language and age, gender, personality, religion, ethnicity and social class. Examines pidgins, creoles, dialects, genres and the processes of language change. Recommended: ANTH 251 or ANTH 350

ANTH 552, FOLKLORE AND EXPRESSIVE CULTURE, 4 Credits
The study of folklore/popular culture in its social and historical context. Examines content, structure, communicative potential, and performative aspects of various forms of oral and written expression. Includes familiarization with the analysis of myths, legends, tall tales, proverbs, riddles, and play languages. Recommended: ANTH 251 or ANTH 350

ANTH 553, COMMUNITY HEALTH FIELD SCHOOL, 3-12 Credits
Meets the growing need for international experiences for students in medical anthropology; international public health; and women, gender and sexuality studies. The field school is offered over a three- to seven-week period during the summer term. In-country time is flexible and can be adjusted depending on program requirements and financial constraints. Provides an intensive cross-cultural field experience in San Juan, Puerto Rico, that is premised on a model of community-engaged, service learning and applied, emancipatory research. This course is repeatable for 12 credits.

ANTH 555, REPRODUCTIVE JUSTICE: A SERVICE LEARNING COURSE, 4 Credits
Reproductive Justice is a service-learning course that aims to bridge theory and practice in reproductive health and social justice by developing connections between the university campus and members of the local community.
ANTH 556, SOCIAL NETWORK ANALYSIS: METHODS AND THEORY, 4 Credits
An introduction to social network analysis (SNA), focusing on the methods of research design, data collection, and analysis. Students will learn key concepts and theories of SNA, apply these concepts to research projects in their chosen field, develop methods for collecting network data, and perform qualitative and quantitative analysis of these networks. Readings draw on studies of social networks from a variety of disciplines, including anthropology, sociology, environmental studies, public health, and political science.

ANTH 559, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas— as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ES 559, WLC 559

ANTH 560, ETHNOGRAPHIC FIELD SCHOOL, 6 Credits
Involves an intensive field experience, learning and developing practical skills for operating socially and culturally in another culture. Students engage in anthropological and mixed research topics, methods, and analysis, such as research ethics, research design, participant observation, ethnographic interviewing, community mapping, qualitative and quantitative data analysis.

ANTH 561, NEUROANTHROPOLOGY, 4 Credits
The emerging interdisciplinary field of neuroanthropology combines anthropological understandings of human biological and cultural variation with recent findings in neuroscience. Key topics include socialization and enculturation, addiction, ritual, depression, and psychiatric disorders. Recommended: ANTH 240 or ANTH 345 or ANTH 383

ANTH 565, POPULAR CULTURE: AN ANTHROPOLOGICAL PERSPECTIVE, 4 Credits
Introduces some of the debates and issues swirling around analyses of late twentieth-, early twenty-first century popular/mass/public/mediated/commercial culture. Learning about its pervasive forms, its origins and effects, how we are situated in it, and how it situates us is vital to understanding the changes that characterize our postmodern world.

ANTH 566, RURAL ANTHROPOLOGY, 4 Credits
Concentrates on study of socio-cultural dynamics in rural communities as they develop in national and global contexts of political and economic change. Includes anthropological readings on rural issues in domestic and international contexts and a research paper on a contemporary rural issue. Recommended: 3 credits of social science.

ANTH 567, AGRI-FOOD MOVEMENTS, 4 Credits
Investigates the origins and contemporary status of producer and consumer food movements including, but not limited to, organics, agricultural labor movements, animal welfare, vegetarian and vegan movements, farmers’ markets, and permaculture. CROSSLISTED as ANTH 567/FCSJ 567.
Equivalent to: FCSJ 567

ANTH 568, ANTHROPOLOGY OF CHILDHOOD, 4 Credits
Ethnographies of the organization of children’s lives in different cultural contexts are combined with readings on the conceptual and methodological genealogies that have constructed children as research subjects in anthropology. Recommended: 3 credits of social science

ANTH 569, ENERGY IN CULTURAL PERSPECTIVE, 4 Credits
Examines historical and current trends in energy around the globe. Course themes include the role of energy in economic development, cultural innovation in energy production, social problems that arise from energy shortages or the uneven distribution of energy resources and social and cultural changes required as societies attempt to reduce their dependence on fossil fuels. Recommended: ANTH 110 or ANTH 210

ANTH 570, TOPICS IN CULTURAL ANTHROPOLOGY, 1-16 Credits
Covers recent advances in cultural anthropology and their applications to the field. Topics vary from term to term. This course is repeatable for 16 credits. Recommended: 3 credits of social science.

ANTH 571, CASH, CLASS AND CULTURE: HUNTER-GATHERERS TO CAPITALISM, 4 Credits
Students explore the cultural and social effects of capitalism in the contemporary world within the larger question of how economics and society intersect and change over time. Special emphases are put on food and work, but students explore the linkages of global forces and local life in a variety of ways. Recommended: 3 credits of social science.
ANTH 572, CONTEMPORARY INDIAN ISSUES, 4 Credits
Examines the background of Indian treaties and reservations with discussions of present issues such as health care, education, the Indian Child Welfare Act, fishing rights, and religious freedom. Issues are discussed in class with considerable class participation and some role playing.
Recommended: 3 credits of social science.

ANTH 573, GENDER, ETHNICITY, AND CULTURE, 4 Credits
Study of the practices and ideologies of gender as they intersect with those of ethnicity, race, class, and culture.
Recommended: 3 credits of social science.

ANTH 574, CROSS-CULTURAL HEALTH AND HEALING, 4 Credits
A comprehensive overview of current issues in global health with particular emphasis on social, cultural, and behavioral interventions. Examines issues of health and development in the international context, focusing on such issues as inequality, structural adjustment, economic development, and community-based approaches to health care, specific cultural beliefs and practices, and the influences of people's perceptions of health, illness, and healing.

ANTH 575, THEORY OF CULTURE, 4 Credits
Core ideas in the discipline of anthropology. Examination of the contributions to anthropological method and theory of the major schools of thought in the history of anthropology.
Recommended: 9 credits of upper-division social science, including at least one 400-level anthropology course.

ANTH 576, ADVANCED ANTHROPOLOGICAL THEORY SEMINAR, 4 Credits
Investigates theories used by current anthropologists to explicate issues of concern in a world of movement, fragmentation, global-local interactions, individuation via state and media unequal power relations, and neoliberal agendas. Students will participate in discussions, essays and a paper that links these theories to their research topics for theses or dissertations.
Recommended: ANTH 575

ANTH 577, ECOLOGICAL ANTHROPOLOGY, 4 Credits
Examines past and present interactions between humans and their environments. Emphasizes the concept of system and process of human adaptation.
Recommended: 3 credits of social science

ANTH 578, ANTHROPOLOGY OF TOURISM, 4 Credits
Examines the cultural practices and impacts of tourism in relation to both host and guest communities, and travel itself as a part of culture. We will explore theories of tourism and what role anthropology can play in influencing the industry and tourist and host relationships.
Recommended: 3 credits of social science.

ANTH 579, ANTHROPOLOGY OF MIGRATION, 4 Credits
Focuses on the multiple aspects of population movements around the globe. Investigates the history of recent human migration; current theories, trends and policies; as well as issues of immigrant incorporation and anti-immigrant politics.
Recommended: 3 credits of social science.

ANTH 580, TOPICS IN APPLIED ANTHROPOLOGY, 1-4 Credits
Recent advances in applied anthropology and their application to special fields of study. Topics vary from term to term.
This course is repeatable for 16 credits.
Recommended: 3 credits of social science.

ANTH 581, NATURAL RESOURCES AND COMMUNITY VALUES, 4 Credits
Investigates relations between human communities and the values of community members. Resource issues integrate concepts from social science, economics, and ecology.
Recommended: 3 credits of social science.

ANTH 582, ANTHROPOLOGY OF INTERNATIONAL DEVELOPMENT, 4 Credits
Examines the ideological and theoretical bases of world assistance programs and their effects on different sectors and classes, including women. Causes of world hunger in terms of agronomic, mainstream economic and radical economic paradigms are developed and contrasted.
Equivalent to: AG 582

ANTH 583, ADVANCED MEDICAL ANTHROPOLOGY, 4 Credits
An overview of anthropological studies of the health of human communities from a biological and behavioral perspective. Topics include prehistory of disease, cultural perspectives on causation of disease and approaches to healing; anthropological approach to international health issues; and case studies.
Recommended: (ANTH 110 or ANTH 210) and (ANTH 240 or ANTH 330)

ANTH 584, WEALTH AND POVERTY, 4 Credits
Summarizes the distribution of wealth observed cross-culturally and through time. Determines the relation between wealth distribution and economic productivity. Shows the impact of industrialization and economic wealth distribution in Western civilization and cross-culturally. Evaluates how cultural practices affect wealth distribution in Western and non-Western societies.
Recommended: 3 credits of social science.
ANTH 585, USES OF ANTHROPOLOGY, 4 Credits
Examines the practical applications of anthropological knowledge in historical and contemporary contexts. Focuses on planned social change and roles of anthropologists in interdisciplinary research and nonacademic settings such as international business, industrial relations, economic and technological development, education, legal institutions, environmental change, minority relations, health care, and cultural preservation. Emphasizes relevance to public policy and ethical issues associated with applications of anthropological knowledge.
Recommended: 3 credits of social science.

ANTH 586, ANTHROPOLOGY OF FOOD, 4 Credits
The role of food in human cultures, both past and present. Includes discussion of different food procurement styles, social movements and the political economy of food. Looks at the symbolic aspects of food as well as its relationship with the environment. CROSSLISTED as ANTH 486/FCSJ 486 and ANTH 586/FCSJ 586.
Equivalent to: FCSJ 586
Recommended: 3 credits of social science.

ANTH 587, LANGUAGE IN GLOBAL CONTEXT, 4 Credits
Deals with practical uses of linguistics in the global political arena. Explores use of official vs. unofficial languages, language standardization, the preservation of dying languages; problems in learning first and second languages, and the relevance of linguistic knowledge to education and cross-cultural communication.
Recommended: ANTH 251 or ANTH 350 or some knowledge of linguistic structure

ANTH 590, TOPICS IN METHODOLOGY, 1-4 Credits
Recent advances in anthropological methodologies and their application to special fields of study. Topics vary from term to term.
This course is repeatable for 16 credits.
Recommended: 6 credits anthropology

ANTH 591, ETHNOGRAPHIC METHODS, 4 Credits
Cultural descriptions are produced through systematic observation, elicitation, and analysis to achieve proximity to the insider's point of view. Covers techniques of interviewing, validating, and interpreting cultural data. Allows students to practice what they have learned.
Recommended: 6 credits of anthropology

ANTH 592, ARCHAEOLOGICAL LABORATORY METHODS, 1-3 Credits
Provides information on the basics of archaeological laboratory work. Students learn the day-to-day operations of a lab, how to classify and catalog artifacts, and how to do artifact analysis.
Recommended: 6 credits of anthropology

ANTH 593, STATISTICAL APPLICATIONS IN ANTHROPOLOGY, 4 Credits
Develops the skills necessary to use statistical software to analyze and interpret numerical data. Covers descriptive statistics, correlation, and multivariate statistical procedures. Evaluate the adequacy of data for parametric and nonparametric statistical tests.
Recommended: A minimum of 6 credits of anthropology if an undergraduate

ANTH 595, ANTHROPOLOGICAL RESEARCH DESIGN, 4 Credits
Critical examination of research design and methodology in anthropology; analysis of methods and procedures of research in the subfields of anthropology.
Recommended: 9 credits of upper-division social science, including at least one 400-level anthropology course.

ANTH 597, ARCHAEOLOGICAL FIELD METHODS, 1-3 Credits
Archaeological field strategies emphasizing reconnaissance and survey. Application of field equipment and project management.

ANTH 598, ORAL TRADITIONS, 3 Credits
Method of examining unwritten culture preserved in speech, including local history, folklore, and songs passed from one generation to another. May include the use of life history, genealogy, and other means of collecting information. Attention is given to ethics, legal issues, and the process of transcription.
Recommended: ANTH 350

ANTH 599, SPECIAL TOPICS IN ANTHROPOLOGY, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 602, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 16 credits.

ANTH 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ANTH 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 610, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
ANTH 695, ANTHROPOLOGICAL RESEARCH DESIGN, 4 Credits
Doctoral student seminar focused on the research process, from the selection of a research topic, to the choice of appropriate methods for data collection and analysis, to the submission of a research proposal. Class assignments will result in completion of a research proposal. Seminal discussion will focus on problem formulation, statement of objectives, theoretical background, methodological approach, analytical techniques, ethical responsibilities, justification for the research, data analysis and interpretation, and budgetary concerns.

ANTH 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ANTH 808, WORKSHOPS, 1-16 Credits
This course is repeatable for 16 credits.

Applied Economics (AEC)

AEC 121, DISCOVERING AGRICULTURAL AND RESOURCE ECONOMICS, 1 Credit
Explore issues, opportunities, and challenges in the dynamic and diverse employment field of agricultural and resource economics.
Equivalent to: AREC 121

AEC 199, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
Equivalent to: AREC 199
This course is repeatable for 8 credits.

AEC 211, AGRICULTURAL AND FOOD MANAGEMENT, 4 Credits
Economic and business principles applied to the management of firms in agricultural and food industries, including farms, ranches and nurseries, agricultural input suppliers, packers, shippers, processors and food manufacturers and distributors; firm-level goal setting, information management and financial analysis.
Prerequisite: AEC 250 with C- or better or AEC 251 with C- or better or AREC 250 with C- or better or ECON 201 with C- or better or ECON 201H with C- or better
Equivalent to: AEC 211
Available via Ecampus

AEC 221, AGRICULTURAL AND FOOD MARKETING, 3 Credits
Organization and functions of agricultural and food markets both domestic and international; market channels and supply chains for various agricultural commodities and food products; role of agribusiness, cooperatives, and government in marketing decisions.
Equivalent to: AREC 221
Available via Ecampus

AEC 240, *RURAL ECONOMICS OF PLACE AND PEOPLE, 3 Credits
Provides perspective on issues influencing rural communities and economic development in rural America. People, places and natural resources of rural communities play a vital role in economic vitality of the West, yet rural landscapes are changing faster than many urban counterparts. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: AREC 240

AEC 243, *GLOBAL POVERTY AND SUSTAINABLE DEVELOPMENT, 3 Credits
Students are introduced to the challenges of eradicating extreme poverty and achieving sustainable economic development in the world. Topics include: the measurement of poverty and inequality; analysis of food security and agricultural development; the role of health and education in economic development; credit markets; risk and insurance; climate change and biodiversity; gender equality; rural-urban and international migration; population growth and development; institutions and economic performance; the political economy of development. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

AEC 250, *INTRODUCTION TO ENVIRONMENTAL ECONOMICS AND POLICY, 3 Credits
Examines how economic forces and social institutions cause environmental degradation and help build management solutions. Explains key economic concepts for valuing environmental resources and evaluating the trade-offs of alternative management approaches from private markets to regulation. Applies the concepts and theories to topical environmental issues such as water pollution and conserving biodiversity. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: AEC 250H, AREC 250, AREC 250
Recommended: MTH 111
Available via Ecampus

AEC 250H, *INTRODUCTION TO ENVIRONMENTAL ECONOMICS AND POLICY, 3 Credits
Examines how economic forces and social institutions cause environmental degradation and help build management solutions. Explains key economic concepts for valuing environmental resources and evaluating the trade-offs of alternative management approaches from private markets to regulation. Applies the concepts and theories to topical environmental issues such as water pollution and conserving biodiversity. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: AEC 250
Recommended: MTH 111
AEC 251, *INTRODUCTION TO AGRICULTURAL AND FOOD ECONOMICS, 3 Credits
An introductory applied microeconomics course focused on the unique challenges of agricultural and food systems. Topics include rational choice theory, models of supply and demand, and price formation, with particular attention on markets for agricultural and food products.
Additional topics include market interdependencies, government policy, the behavior of firms, and market structure within agricultural and food systems. (Bacc Core Course)
Attributes: CPSI – Core, Pers, West Culture
Recommended: MTH 111
Available via Ecampus

AEC 253, *ENVIRONMENTAL LAW, POLICY, AND ECONOMICS, 4 Credits
A general introduction to federal environmental law and policy in the U.S. Familiarizes students with basic legal institutions and concepts of the American legal system, outlines the transition of environmental policy from its common law roots to its modern administrative law form, and gives an overview of the major federal environmental statutes. Relationships among legal theory and process and economic principles are emphasized. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: AREC 253
Available via Ecampus

AEC 299, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
Equivalent to: AREC 299
This course is repeatable for 8 credits.

AEC 310, EXPLORING EXPERIENTIAL LEARNING OPPORTUNITIES, 2 Credits
Provides background and preparation for students’ experiential learning (EL) activities. Students will be shown examples of appropriate EL, how to find and compete for opportunities, and how to establish and define their learning objectives for EL. Resume writing, appropriate conduct in the workplace, as well as writing and oral presentation skills will be covered. A proposal for an EL activity will be prepared and presented to classmates. Graded P/N.
Recommended: WR 121

AEC 311, INTERMEDIATE APPLIED ECONOMICS I: PRODUCERS AND CONSUMERS, 4 Credits
An examination of the theories of consumer behavior and demand, production cost, the firm, supply, and competitive and monopoly market structures.
Prerequisite: ((AEC 250 with C- or better or AREC 250 with C- or better) or AEC 251 with C- or better or (ECON 201 with C- or better or ECON 201H with C- or better)) and (MTH 241 [C-] or (MTH 251 [C-] or MTH 251H [C-]))
Equivalent to: AREC 311
Available via Ecampus

AEC 313, INTERMEDIATE APPLIED ECONOMICS II: MARKETS, WELFARE & POLICY, 4 Credits
Complementing the private-decision focus in AEC 311, the present course focuses on the intermediate microeconomic theory of social welfare and public decision-making. Topics include exchange, monopoly, game theory, social welfare, externalities, public goods and choice, asymmetric information, uncertainty, and cost-benefit analysis. Substantial attention will be given to the implications of these theories for real-world problems, especially regarding resource and environmental issues.
Prerequisite: MTH 241 with C- or better or (AREC 311 with C- or better or ECON 311 with D- or better or AREC 311 with D- or better or ECON 311 with C- or better)
Equivalent to: AREC 313
Available via Ecampus

AEC 351, *NATURAL RESOURCE ECONOMICS AND POLICY, 3 Credits
Application of principles of economics to identify the causes, consequences, and ways of dealing with natural resource problems, including problems associated with fisheries, forests, water resources, and land. Conceptual topics and policy applications. Emphasis is on developing students’ skill in applying an economic way of thinking about natural resource management. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisite: (AEC 250 with D- or better or AREC 250 with D- or better or ECON 201 with D- or better or ECON 201H with D- or better)
Equivalent to: AREC 351
Recommended: MTH 111
Available via Ecampus

AEC 352, *ENVIRONMENTAL ECONOMICS AND POLICY, 3 Credits
Provides an overview of the interrelationships between economic activity, the environment, and public policy. Through case studies, discussion groups, readings, and group activities, students learn how economists define and analyze environmental problems and the types of policies they advocate for managing environmental quality. CROSSLISTED as AEC 352/ ECON 352. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisite: AEC 250 with D- or better or AREC 250 with D- or better or ECON 201 with D- or better or ECON 201H with D- or better
Equivalent to: AREC 352
Available via Ecampus

AEC 353, *INTRODUCTION TO COASTAL AND MARINE RESOURCE ECONOMICS, 3 Credits
Introduces tools of economic analysis for understanding coastal and marine resource management. Surveys a selection of current topics in the field, emphasizing innovation in production and stewardship, institutions, and sustainability. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: MTH 111 with C- or better and (AEC 250 [C-] or AREC 250 [C-] or ECON 201 [C-] or ECON 201H [C-])
AEC 372, AGRICULTURAL COOPERATIVES, 3 Credits
An introduction to and in-depth examination of the agricultural cooperative. Students will gain a working knowledge of the concepts, principles, and terminology of agricultural cooperatives through reference materials, lectures, presentations by guest speakers and a cooperatives tour. Students will consider the strengths and weaknesses of the agricultural cooperative as well as the unique management and operational challenges inherent to this form of business operation.
Prerequisite: AEC 211 with D- or better or AREC 211 with D- or better
Equivalent to: AREC 372

AEC 388, AGRICULTURAL LAW, 4 Credits
Application of legal principles to business decision making in farming, ranching, and the agricultural support industry. Consideration of the obligations arising out of contract, tort, property, water, public land, and natural resource law.
Equivalent to: AREC 388
Available via Ecampus

AEC 399, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
Equivalent to: AEC 399H, AREC 399H
This course is repeatable for 8 credits.

AEC 399H, SPECIAL TOPICS, 1-4 Credits
Targeted courses that focus on specific topics in agricultural and resource economics. Topics may vary from term to term and from year to year. May be repeated for credit when topics differ.
Attributes: HNRS – Honors Course Designator
Equivalent to: AEC 399, AREC 399
This course is repeatable for 8 credits.

AEC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: AREC 401
This course is repeatable for 16 credits.

AEC 402, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: AREC 402
This course is repeatable for 16 credits.

AEC 403, THESIS, 1-16 Credits
Equivalent to: AREC 403
This course is repeatable for 16 credits.

AEC 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: AREC 405
This course is repeatable for 16 credits.

AEC 406, PROJECTS, 1-16 Credits
Equivalent to: AREC 406
This course is repeatable for 16 credits.
Available via Ecampus

AEC 407, SEMINAR, 1-16 Credits
Equivalent to: AEC 407H, AREC 407, AREC 407H
This course is repeatable for 16 credits.

AEC 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: AEC 407, AREC 407, AREC 407H
This course is repeatable for 16 credits.

AEC 408, WORKSHOP, 1-16 Credits
Equivalent to: AREC 408
This course is repeatable for 16 credits.

AEC 410, INTERNSHIP, 1-6 Credits
Practical on-the-job training in agricultural business, marketing, commercial agricultural production, or related private or public organizations. Graded P/N.
Equivalent to: AREC 410
This course is repeatable for 6 credits.

AEC 421, ECONOMICS OF RURAL POVERTY AND THE U.S. SOCIAL SAFETY NET, 4 Credits
Introduces students to the geography of poverty in the United States and the “social safety net” that the U.S. has constructed to reduce poverty and its negative effects. The course focuses on the geography of the social safety net, the operation and administration of the safety net, and how recent changes in the social safety net may have disadvantaged rural people and places.
Equivalent to: AREC 421, RS 421
Available via Ecampus

AEC 432, ENVIRONMENTAL LAW, 4 Credits
Legal relationships arising out of rights to air, water, and land. The impact of federal and state regulation on pollution control and on the production, use, and disposal of hazardous materials.
Equivalent to: AREC 432
Available via Ecampus

AEC 434, ^BENEFIT-COST ANALYSIS, 4 Credits
Develops the fundamental tools for Benefit-Cost Analysis, a technique for evaluating a project or investment by comparing the economic benefits with the economic costs of the activity. Examines the tricky topic of how to measure the benefits of non-market such as good health and higher environmental quality. The methods introduced here apply to a wide variety of situations. Explores the broad issues of how to think about uncertainty and risk, how to discount future costs and benefits, to value lives saved, and other challenging topics. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: AEC 311 with C- or better or ECON 411 with C- or better
Equivalent to: AREC 434
Recommended: STAT 352 or familiarity with regression analysis
Available via Ecampus
AEC 440, THE ECONOMICS OF BUSINESS ORGANIZATION IN THE FOOD SYSTEM, 4 Credits
Application of economic analysis to questions related to the choice of an appropriate form of business organization for a wide variety of food system enterprises. Topics include costs of contracting, costs of ownership, enterprise scope and scale, and the dynamics of business ownership and structure. Particular emphasis is given to entrepreneurial enterprises and cooperative businesses in the food system.
Prerequisite: AEC 311 with D- or better or ECON 311 with D- or better

AEC 442, AGRICULTURAL BUSINESS MANAGEMENT, 4 Credits
Application of economic, financial, and strategic management principles to agricultural business with a focus on a case-study framework for analysis and business decision making for alternative business management strategies.
Equivalent to: AREC 442

AEC 444, COMMODITY FUTURES AND OPTIONS MARKETS, 4 Credits
Provides an overview of the basic concepts needed to use commodity futures and options markets to successfully manage price risk. To address the increasingly global economy in which commodity transactions occur, the course also includes financial futures such as interest rates and currencies. Specific topics covered include contract standardization, speculation and hedging, opening and closing of positions, and basis, i.e. the relationship between cash and futures markets, input-output hedges, and spreads. Students also gain hands-on experience through a trading simulation.
Equivalent to: AREC 444
Available via Ecampus

AEC 446, INTRODUCTION TO APPLIED ECONOMETRICS, 4 Credits
Introduces students to applied econometrics: the use of statistical techniques to estimate and test economic relationships. Topics include multiple regression models, multicollinearity, and simultaneous equations. The applications and labs will focus on econometric analysis of real world problems pertaining to issues in environmental, food, and resource economics and policy. Lec/lab.
Prerequisite: AEC 311 with D- or better and ST 351 [D-]

AEC 447, AGRICULTURAL PRICE AND MARKET ANALYSIS, 4 Credits
Price determination for food and agricultural commodities; development of quantitative economic models that explain and predict prices and other market outcomes. Lec/lab.
Equivalent to: AREC 447
Recommended: AEC 311 and ST 351

AEC 448, ADVANCED TOPICS IN ENVIRONMENTAL AND RESOURCE ECONOMICS, 3 Credits
Reviews core concepts of economic efficiency and market failures and then focuses on the economics of environmental regulation. Develops an appreciation for the structure of key concepts that underlie the economic approach to environmental issues and applications to policy and regulations. Builds skills in assessing regulatory policies from the perspective of economics.
Prerequisite: AEC 311 with D- or better and AEC 352 [D-]

AEC 452, MARINE ECONOMICS, 3 Credits
Economic aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and aquaculture, with special emphasis on commercial fisheries.
Prerequisite: AEC 351 with D- or better or AEC 352 with D- or better or AREC 351 with D- or better or AREC 352 with D- or better
Equivalent to: AREC 452

AEC 453, CONSERVATION ON PRIVATE LAND, 3 Credits
Explore and experience the increasingly popular phenomenon of conservation on private land. This exploration includes the explosive growth of land trusts and the use of conservation easements to restrict the use of private land and often promote ecological goals.

AEC 454, RURAL DEVELOPMENT ECONOMICS AND POLICY, 3 Credits
Learn economic and regional development conceptual frameworks. Explore U.S. rural development and government interventions. Discuss differing popular local strategies for development that emphasize building current assets like local entrepreneurship to attracting resources and incomes from outside the region like amenity migration and tourism.
Equivalent to: AREC 454
Available via Ecampus

AEC 455, PROGRAM EVALUATION, 3 Credits
Explores the leading methods for evaluating the effectiveness of public programs and policies, specifically focusing on causal inference and empirical applications.
Prerequisite: (AEC 311 with C- or better or ST 351 with C-) and AEC 313 [C-]
Available via Ecampus

AEC 460, CAPITAL INVESTMENT ANALYSIS USING AGBiz LOGIC, 3 Credits
Learn and understand the important factors in measuring the impacts of implementing technologies and/or conservation practices, adding value to products, or changing cropping systems or livestock enterprises. The AgBiz LogicTM software programs will be used to apply financial and economic principles to better understand and reduce the financial, production, marketing, and human resource risks facing agribusinesses.
Equivalent to: AREC 460
AEC 461, AGRICULTURAL AND FOOD POLICY ISSUES, 4 Credits
Principles of agricultural and food policy formulation; agricultural price and income policies in relation to land use, water, and food policies; interrelationships among U.S. and foreign agriculture and trade policies. 
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: AEC 311 with D- or better or ECON 311 with D- or better
Equivalent to: AEC 461

AEC 465, AGRICULTURAL AND FOOD FINANCIAL MANAGEMENT, 4 Credits
Students will develop risk management strategies utilizing the AgBiz Logic program to reduce the financial, production, marketing, and human resource risks facing agribusinesses. This course is designed to help students apply financial and economic principles to business decisions under diverse and changing circumstances. The course reviews basic financial reporting statements, details accounting and financing practices specific to agricultural and food enterprises.
Prerequisite: (AEC 211 with D- or better or AREC 211 with D- or better) and AEC 311 [D-]
Equivalent to: AREC 465

AEC 466, AGRICULTURAL AND FOOD MARKETING MANAGEMENT, 4 Credits
Principles, trends, issues, barriers, policies, strategies and decisions involved in domestic and international marketing of perishable and storable agricultural commodities and food products from the point of production to the point of consumption. Topics include firm-level marketing concepts, the integration of marketing with firms' overall strategic management goals, as well as comparative studies across multiple outlets for agricultural and food products, to include local, regional, and global markets.
Prerequisite: AEC 221 with D- or better and (AEC 250 [D-] or AEC 251 [D-] or ECON 201 [D-])

AEC 475, WRITING BUSINESS PLANS: AGRICULTURE/FOOD-RELATED ENTERPRISES, 2 Credits
Students choose an enterprise and write a comprehensive business plan that describes the business vision, marketing plan, financial projections, risk management, and implementation strategy. At the end of term selected students present their plan to a commercial lender.
Equivalent to: AEC 475
Recommended: AEC 211 and AEC 221

AEC 499, SPECIAL TOPICS, 1-16 Credits
Various topics in agricultural and resource economics of special and current interest not covered in other courses.
Equivalent to: AREC 499
This course is repeatable for 16 credits.

AEC 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: AREC 501
This course is repeatable for 16 credits.
AEC 525, APPLIED ECONOMETRICS, 4 Credits
General principles of applied econometric research are emphasized, including model building, data analysis, hypothesis testing, and evaluation and interpretation of results. A variety of estimators are applied to real data, including least squares, panel data, simultaneous equations, discrete choice, and limited dependent variable models.

AEC 532, ENVIRONMENTAL LAW, 4 Credits
Legal relationships arising out of rights to air, water, and land. The impact of federal and state regulation on pollution control and on the production, use, and disposal of hazardous materials. Equivalent to: AREC 532
Available via Ecampus

AEC 534, ENVIRONMENTAL AND RESOURCE ECONOMICS, 3 Credits
Environmental problems and misuse of natural resources are caused by human behavior, and thus must be solved by changing behavior. Explores the ways economics is central to understanding the incentive behind the causes, consequences, and potential for effective solutions to environmental and resource problems involving air, water, fish, forests, climate change, and biodiversity. Builds on microeconomics principles to include theories of market failures, externalities, common-pool resources, and institutions, as well as growth and sustainability. Equips students with tools for non-market valuation and for critical evaluation of environmental policies' benefits and costs. Equivalent to: AREC 534
Recommended: AEC 311 or AREC 311
Available via Ecampus

AEC 540, THE ECONOMICS OF BUSINESS ORGANIZATION IN THE FOOD SYSTEM, 4 Credits
Application of economic analysis to questions related to the choice of an appropriate form of business organization for a wide variety of food system enterprises. Topics include costs of contracting, costs of ownership, enterprise scope and scale, and the dynamics of business ownership and structure. Particular emphasis is given to entrepreneurial enterprises and cooperative businesses in the food system. Recommended: AEC 311 or ECON 311

AEC 543, INTERNATIONAL TRADE, 4 Credits
Introduction to the major theories of international trade and to models that are useful for applied policy and regional analysis. Effects of trade and trade policy on consumers, workers, and firms are emphasized. Prerequisite: AEC 513 with C or better Equivalent to: AREC 543

AEC 544, COMMODITY FUTURES AND OPTIONS MARKETS, 4 Credits
Provides an overview of the basic concepts needed to use commodity futures and options markets to successfully manage price risk. To address the increasingly global economy in which commodity transactions occur, the course also includes financial futures such as interest rates and currencies. Specific topics covered include contract standardization, speculation and hedging, opening and closing of positions, and basis, i.e. the relationship between cash and futures markets, input-output hedges, and spreads. Students also gain hands-on experience through a trading simulation. Equivalent to: AREC 544
Available via Ecampus

AEC 546, INTRODUCTION TO APPLIED ECONOMETRICS, 4 Credits
Introduces students to applied econometrics: the use of statistical techniques to estimate and test economic relationships. Topics include multiple regression models, multicollinearity, and simultaneous equations. The applications and labs will focus on econometric analysis of real world problems pertaining to issues in environmental, food, and resource economics and policy. Lec/lab. Recommended: AEC 311 and ST 351

AEC 548, ADVANCED TOPICS IN ENVIRONMENTAL AND RESOURCE ECONOMICS, 3 Credits
Reviews core concepts of economic efficiency and market failures and then focuses on the economics of environmental regulation. Develops an appreciation for the structure of key concepts that underlie the economic approach to environmental issues and applications to policy and regulations. Builds skills in assessing regulatory policies from the perspective of economics.

AEC 550, ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS, 4 Credits
Presents concepts, theories, and methods used in the economic analysis of environmental and natural resource issues. The emphasis is on the economics of environmental policies and the development of decision rules regarding the efficient use of natural resources. Prerequisite: AEC 512 with C or better Equivalent to: AREC 550

AEC 551, APPLICATIONS OF ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS, 4 Credits
Applies and expands upon concepts, theories, and methods in environmental and natural resource economics introduced in AEC 550. Topics include non-market valuation, discounting, and benefit-cost analysis, as well as the role and importance of institutions, appropriate research methods, and the philosophical basis for normative judgments in economics. Prerequisite: AEC 550 with C or better or AREC 550 with C or better Equivalent to: AREC 551
AEC 552, MARINE ECONOMICS, 3 Credits
Economic aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and aquaculture, with special emphasis on commercial fisheries. CROSSLISTED as AEC 552/MRM 552.
Equivalent to: AREC 552, MRM 552
Recommended: (AEC 351 or AEC 352 or AREC 351 or AREC 352)

AEC 553, CONSERVATION ON PRIVATE LAND, 3 Credits
Explore and experience the increasingly popular phenomenon of conservation on private land. This exploration includes the explosive growth of land trusts and the use of conservation easements to restrict the use of private land and often promote ecological goals.

AEC 554, RURAL DEVELOPMENT ECONOMICS AND POLICY, 3 Credits
Learn economic and regional development conceptual frameworks. Explore U.S. rural development and government interventions. Discuss differing popular local strategies for development that emphasize building current assets like local entrepreneurship to attracting resources and incomes from outside the region like amenity migration and tourism. Equivalent to: AREC 554
Available via Ecampus

AEC 555, PROGRAM EVALUATION, 3 Credits
Explores the leading methods for evaluating the effectiveness of public programs and policies, specifically focusing on causal inference and empirical applications. Available via Ecampus

AEC 560, CAPITAL INVESTMENT ANALYSIS USING AGBIZ LOGIC, 3 Credits
Learn and understand the important factors in measuring the impacts of implementing technologies and/or conservation practices, adding value to products, or changing cropping systems or livestock enterprises. The AgBiz LogicTM software programs will be used to apply financial and economic principles to better understand and reduce the financial, production, marketing, and human resource risks facing agribusinesses. Equivalent to: AREC 560

AEC 565, AGRICULTURAL AND FOOD FINANCIAL MANAGEMENT, 4 Credits
Students will develop risk management strategies utilizing the AgBiz Logic program to reduce the financial, production, marketing, and human resource risks facing agribusinesses. This course is designed to help students apply financial and economic principles to business decisions under diverse and changing circumstances. The course reviews basic financial reporting statements, details accounting and financing practices specific to agricultural and food enterprises. Equivalent to: AREC 565
Recommended: (AEC 211 or AREC 211) and AEC 311

AEC 566, AGRICULTURAL AND FOOD MARKETING MANAGEMENT, 4 Credits
Principles, trends, issues, barriers, policies, strategies and decisions involved in domestic and international marketing of perishable and storable agricultural commodities and food products from the point of production to the point of consumption. Topics include firm-level marketing concepts, the integration of marketing with firms’ overall strategic management goals, as well as comparative studies across multiple outlets for agricultural and food products, to include local, regional, and global markets. Recommended: AEC 221 and (AEC 250 or AEC 251 or ECON 201)

AEC 599, SPECIAL TOPICS, 0-16 Credits
Various topics in applied economics of special and current not covered in other courses. May be repeated for credit when topics differ. Equivalent to: AREC 599
This course is repeatable for 16 credits.

AEC 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: AREC 601
This course is repeatable for 16 credits.

AEC 602, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: AREC 605
This course is repeatable for 16 credits.

AEC 603, THESIS, 1-16 Credits
Equivalent to: AREC 603
This course is repeatable for 999 credits.

AEC 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: AREC 605
This course is repeatable for 16 credits.

AEC 606, SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

AEC 607, SEMINAR, 1-16 Credits
Equivalent to: AREC 607
This course is repeatable for 16 credits.

AEC 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

AEC 611, ADVANCED MICROECONOMIC THEORY I, 4 Credits
A rigorous development of the theory of consumption and production, with emphasis on duality. Prerequisite: (AEC 512 with C or better and AEC 513 [C]) Recommended: MTH 254
AEC 612, ADVANCED MICROECONOMIC THEORY II, 4 Credits
A rigorous extension of the theory of the consumer and firm to aggregate and heterogeneous populations, decision making under uncertainty, and related game theory concepts.
Prerequisite: AEC 611 with C or better

AEC 613, ADVANCED MICROECONOMIC THEORY III, 4 Credits
A rigorous development of the theory of competitive equilibrium, market power, public goods, and information.
Prerequisite: AEC 612 with C or better

AEC 625, ADVANCED ECONOMETRICS I, 4 Credits
Emphasizes the basic theory underlying the main types of estimators used in econometrics, as well as their application in empirical research. Includes derivation, properties, and application of method of moments, maximum likelihood, ordinary and generalized least squares, and instrumental variables estimators, statistical inference and hypothesis testing, and model building and specification analysis. Provides the necessary foundation for estimation techniques covered in AEC 626. Lec/lab.
Prerequisite: AEC 525 with C or better

AEC 626, ADVANCED ECONOMETRICS II, 4 Credits
Extensions to the generalized linear regression model are considered: discrete choice, limited dependent variable, panel data, and simultaneous equations models, and new solutions to identification problems. Strong applied orientation, emphasizing problems of data measurement, model selection and specification.
Prerequisite: AEC 625 with C or better

AEC 627, COMPUTATIONAL ECONOMICS, 4 Credits
Covers the numerical analysis of static optimization models and stochastic dynamic models in resource and development economics, emphasizing formulation, solution, and simulation of dynamic optimization, rational expectations, and arbitrage pricing models. Lec/lab.

AEC 640, SUSTAINABLE DEVELOPMENT, 3 Credits
Surveys research on the quantitative economic analysis of sustainable development, with an emphasis on integrated assessment methods and models and their application to agriculture and rural development policy, agricultural technology impact assessment, and climate change impact assessment.
Prerequisite: AEC 611 with D- or better and AEC 612 [D-] and AEC 625 [D-]
Equivalent to: AREC 640

AEC 643, ADVANCED TOPICS IN DEVELOPMENT ECONOMICS, 3 Credits
Introduces students to key issues in the economics of development and equips them with the theoretical and empirical tools required to conduct advanced research in these topics.
Prerequisite: AEC 613 with C or better and AEC 626 [C]
Equivalent to: AREC 643

AEC 651, ADVANCED NATURAL RESOURCE ECONOMICS, 3 Credits
Contemporary economic theory of dynamic natural resource allocation is introduced. Assignments focus on analytical and numerical methods for solving dynamic optimization problems in resource and environmental management. Lecture and readings emphasize current research trends in the field and relevant advances in quantitative methodology.
Prerequisite: AEC 611 with C or better
Equivalent to: AREC 651

AEC 652, ADVANCED ENVIRONMENTAL ECONOMICS, 3 Credits
Interrelationships of natural resource use and the environment; applied welfare and benefit-cost analysis; externalities and pollution abatement; non-market valuation of resources; property rights; legal and social constraints; policy approaches.
Prerequisite: (AEC 513 with C or better or AREC 513 with C or better) and (AEC 525 [C] or AREC 525 [C])
Equivalent to: AREC 652

AEC 653, EMPIRICAL ENVIRONMENTAL AND RESOURCE ECONOMICS, 3 Credits
Introduces empirical methods at the current frontiers of research in environmental and resource economics. General topics may include the identification of non-market values, revealed and stated preference methods, environmental policy evaluation, equilibrium sorting models, and climate econometrics.
Prerequisite: AEC 513 with C or better and AEC 525 [C]
Equivalent to: AREC 653

AEC 699, SPECIAL TOPICS, 1-16 Credits
Various topics in applied economics of special and current interest not covered in other courses.
Equivalent to: AREC 699
This course is repeatable for 16 credits.

Applied Journalism (AJ)
AJ 199, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 12 credits.

AJ 299, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 6 credits.

AJ 308, WORKSHOP, 1-3 Credits
This course is repeatable for 6 credits.

AJ 311, MEDIA STORYTELLING, 3 Credits
Introduction to community journalism, with a focus on developing storytelling methodologies for a variety of media in firsthand reporting praxis.
Prerequisite: WR 121 with B or better

AJ 312, ADVANCED MEDIA STORYTELLING, 3 Credits
Continued praxis in journalistic storytelling, with an emphasis on developing intensive hard news stories and photojournalistic essay packages through reporting government agencies.
Prerequisite: AJ 311 with B or better
AJ 313, PROFESSIONAL PRACTICES IN APPLIED JOURNALISM, 3 Credits
Faculty, staff and students connect to generate in-depth critiques of polished journalistic projects, culminating in the production and distribution of a best practices job kit.
Prerequisite: AJ 311 with B or better and AJ 312 [B]
This course is repeatable for 6 credits.

AJ 408, WORKSHOP, 1-3 Credits
This course is repeatable for 6 credits.

AJ 410, INTERNSHIP, 1 Credit
Students seeking to obtain the Applied Journalism Minor must complete three sections of AJ 410 Internship, to include reporting, production and/or editorial duties at Orange Media Network (OMN).
This course is repeatable for 6 credits.

AJ 490, MEDIA LAW AND ETHICS, 3 Credits
Exploring case studies and other analyses germane to the most relevant and pressing legal and ethical issues in contemporary journalism.
Prerequisite: AJ 311 with B or better
This course is repeatable for 6 credits.

Arabic (ARAB)

ARAB 111, FIRST-YEAR ARABIC, 4 Credits
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Initiation to Arabic culture and attitudes. Designed for students with no prior training in Arabic. Native and/or bilingual speakers of Arabic will not receive credit for ARAB 111, ARAB 112, ARAB 113.
Equivalent to: ARAB 111H

ARAB 199, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

ARAB 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ARAB 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ARCHITECTURAL ENGINEERING (ARE)

ARE 301, ARE JUNIOR SEMINAR, 1 Credit
Professional practices of architectural engineering.

ARE 352, DESIGN OF ELECTRICAL AND ILLUMINATION SYSTEMS FOR BUILDINGS, 0-4 Credits
Design of electrical and illumination systems in buildings, including consideration of energy usage.
Prerequisite: CEM 471 with C or better

ARE 353, DESIGN OF HVAC SYSTEMS FOR BUILDINGS, 4 Credits
Design and engineering of heating, ventilating, and air conditioning (HVAC) systems in buildings, including consideration of energy usage and indoor environmental conditions.
Prerequisite: CEM 472 with C or better

ARE 418, ARCHITECTURAL ENGINEERING PROFESSIONAL PRACTICE, 4 Credits
Principles and methods of solving architectural engineering problems in a studio setting, with considerations of space, form, function, and technology. Lec/rec. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ARE 351 with C or better and ARE 352 [C] and CE 382 [C]

ARE 419, ARCHITECTURAL ENGINEERING DESIGN, 3 Credits
A capstone design project experience exposing students to problems and issues similar to those encountered in the practice of architectural engineering. Use of Building Information Modeling (BIM) in design, construction management, and integration of architectural, structural, mechanical, electrical and lighting systems. Lec/rec. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ARE 418 with C or better

ARE 451, ADVANCED BUILDING CONSTRUCTION METHODS, 4 Credits
Advanced building construction methods, including integration of building components in building envelopes. Lec/rec.
Prerequisite: CEM 442 with C or better

ARE 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ARE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ARE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ARE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ARE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

ARE 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
ARE 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ARE 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Art (ART)

ART 100, ART ORIENTATION, 1 Credit
Introduction to the study of art and career options in fine arts, graphic design, photography, and art history.

ART 101, *INTRODUCTION TO THE VISUAL ARTS, 3 Credits
An introductory lecture course using visual materials with emphasis on methods and motivations that generate the visual experience, both past and present. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core
Available via Ecampus

ART 115, 2-D CORE STUDIO, 4 Credits
Studio course that introduces the visual language, the elements of design, and the principles of organization. Emphasizes skills, concepts, and problem solving in the areas of two-dimensional design and color.
Attributes: LACF – Liberal Arts Fine Arts Core

ART 117, 3-D CORE STUDIO, 4 Credits
Studio course examining three-dimensional design elements and their spatial organization. Emphasizes innovative problem solving and exposure to varied media. Gives students a sound conceptual basis to apply to more advanced media-oriented courses.

ART 121, DIGITAL CORE STUDIO, 4 Credits
An introductory studio art class using computers in the visual arts. Project-based exploration of digital imaging, layout, 3-D rendering, and video. Examination of the impact of digital technology on the visual arts from contemporary and historical perspectives.
Available via Ecampus

ART 131, DRAWING CORE STUDIO, 4 Credits
Introductory studio course in drawing techniques with emphasis on developing skills in perception and visual organization. Lec/studio.
Attributes: LACF – Liberal Arts Fine Arts Core

ART 199, SPECIAL STUDIES, 0-16 Credits
Equivalent to: ART 199H
This course is repeatable for 16 credits.
Available via Ecampus

ART 204, *INTRODUCTION TO WESTERN ART: PREHISTORY TO THE HIGH MIDDLE AGES, 3 Credits
A survey of the painting, sculpture, architecture, and decorative arts of Europe and the Mediterranean between the Paleolithic period and the eleventh century. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

ART 205, *INTRODUCTION TO WESTERN ART: GOTHIC TO BAROQUE, 3 Credits
A survey of the painting, sculpture, architecture, and decorative arts of Europe between the late Middle Ages and the seventeenth century. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

ART 206, *INTRODUCTION TO WESTERN ART: NEOCLASSICISM TO CONTEMPORARY, 3 Credits
A survey of painting, sculpture and other visual arts in the Western world from the late eighteenth century to the present. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

ART 208, *INTRODUCTION TO ASIAN ART, 3 Credits
Introduces the distinctive, yet related, aesthetic traditions of South and Southeast Asia, Inner Asia, and East Asia. It focuses on architectural sites, sculptures, and paintings from prehistory to the present. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts

ART 210, *HISTORY OF WESTERN ARCHITECTURE, 3 Credits
A survey of buildings and architectural thought in the West from antiquity to the twentieth century; focuses on major periods and movements of architectural history by examining building types, patrons, materials, building traditions, structural innovations and other critical aspects inherent to architecture. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture
ART 211, WOODTURNING WITH SCIENCE I, 4 Credits
An introduction to scientific woodturning. Students will get a grounding in tools, lathes, sharpening, and set-up, and then will transition into turning basic forms (spindle and bowl). Particular relevance will be placed upon grain orientation, wood moisture content, wood anatomy, wood chemistry, wood species and extractive effects, and how all of these attributed affect both form and function. Class instruction will be entirely studio based. CROSSTLISTED as ART 211/WSE 211.
Equivalent to: WSE 211
This course is repeatable for 8 credits.

ART 215, COLOR IN THE VISUAL ARTS, 4 Credits
Studio course following ART 115 and ART 117 that examines the properties of colors and their interaction. Emphasizes problem solving and the experimental use of color.
Prerequisite: ART 115 with D- or better

ART 222, INTRODUCTION TO TIME-BASED ART, 4 Credits
Introduction to time-based media using the computer as a tool. Studio art class developing skills in video art, sound art, performance, and other time-based digital arts. Exploration of sequential, experimental, historical, and contemporary themes and the role of the audience in time-based art.
Prerequisite: ART 121 with C- or better
Available via Ecampus

ART 234, DRAWING II: FIGURE, 4 Credits
Drawing from the life model with emphasis on skill and conceptual awareness as well as anatomical consideration.
Prerequisite: ART 131 with C- or better

ART 263, DIGITAL PHOTOGRAPHY, 4 Credits
Introductory course in digital photography. Focus on creation of photographic images in series format. Technical camera operation will be emphasized as well as basic photographic composition, use of photographic editing software, historical grounding, and discussions of contemporary issues in photography. Students must have the use of a digital single lens reflex camera (DSLR) or mirrorless camera (with viewfinder and fully manual controls).
Recommended: ART 115 and ART 120
Available via Ecampus

ART 264, *PHOTOGRAPHY: HISTORY, TECHNOLOGY, CULTURE AND ART, 3 Credits
Introduction to the history of photography through aesthetic, cultural and technical contexts. This course covers the history of photography and its technologies, photography in art, some photographers and their photographs and the purposes of photography. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Available via Ecampus

ART 271, PRINTMAKING I, 4 Credits
Introduction to the basic processes of printmaking, with options among relief, lithography, intaglio, screen printing and monotype.
Prerequisite: ART 115 with C- or better and ART 131 [C-]

ART 281, PAINTING I, 4 Credits
Introductory studio course with emphasis on basic materials and techniques in painting. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisite: ART 131 with C- or better

ART 291, SCULPTURE I, 4 Credits
Studio course in basic materials and approaches used in sculpture; a foundation for further three-dimensional work. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisite: ART 117 with C- or better
Recommended: Art core curriculum

ART 306, ADVISOR REVIEW, 1 Credit
A review, conducted by the student's advisor and another faculty member of the student's choosing, of work produced to date in the student's area of concentration. Graded P/N.
Prerequisite: Fine Arts Portfolio Review with a score of 1

ART 310, *EARLY CHINESE ART AND ARCHAEOLOGY, 3 Credits
Introduces major forms of Chinese art from the Neolithic period to the Tang dynasty (618-907 CE) and related major archaeological finds. Stresses the materials and processes of making art, development of representational art, and the role of visual arts in an aristocratic and religious culture. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts

ART 311, *LATE CHINESE ART AND CULTURE, 3 Credits
Introduction to the major forms of Chinese art and visual culture from the eleventh century to the early twentieth century. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts

ART 312, *CONTEMPORARY CHINESE ART, 3 Credits
Introduces origins and development of contemporary Chinese art and visual culture in its domestic and global contexts. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts

ART 313, *ART OF JAPAN, 3 Credits
Surveys the arts of Japan from the prehistoric period to the twentieth century. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts

ART 320, *ANCIENT GREEK ART, 3 Credits
Focuses on the major artistic developments in Ancient Greece from the Middle Bronze Age to 31 BCE, and especially on the city-state of Athens during the Fifth Century. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
ART 321, *ANCIENT ROMAN ART AND ARCHITECTURE, 3 Credits
Survey of ancient Roman art and culture between the sixth century BCE and fifth century CE, covering principal media, styles, and subject matter. (Bacc Core Course)
*Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture

ART 322, *MEDIEVAL ART AND ARCHITECTURE, 3 Credits
Survey of the art and architecture of the major periods and cultures of Europe and the Mediterranean between the fourth and the fourteenth century. Traces salient developments in thought and material culture of western civilization. (Bacc Core Course)
*Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture

ART 323, *ITALIAN RENAISSANCE ART AND ARCHITECTURE, 3 Credits
Survey of Italian Renaissance art and culture, covering the principal artists, patrons, media, styles, and subject matter. (Bacc Core Course)
*Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture

ART 331, DRAWING CONCEPTS, 4 Credits
Studio course emphasizing drawing composition as an investigative, conceptualizing and communicative nonverbal language. Independent thinking, problem solving, and creative development encouraged.
Prerequisite: ART 234 with C- or better
This course is repeatable for 12 credits.

ART 334, DRAWING III: FIGURE, 4 Credits
Intermediate study of the human figure utilizing life models, the skeleton, and anatomy texts. Emphasis on gaining greater knowledge of the body's underlying structure and potential for aesthetic expression.
Prerequisite: ART 234 with D- or better and (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
This course is repeatable for 12 credits.
Recommended: Art core curriculum.

ART 339, PROFESSIONAL PRACTICES FOR ARTISTS, 3 Credits
Examination of relevant issues and realities facing working artists today through class discussion, critical readings, gallery visits, guest lectures and panel discussions. Development of professional practices appropriate for artists and the business of art include portfolio development, writing and presentation skills, grants, contracts, exhibition opportunities and marketing strategies.
This course is repeatable for 6 credits.

ART 340, DARKROOM PHOTOGRAPHY I, 4 Credits
Studio course in black-and-white film exposure and development, and printing in the darkroom. The medium of silver-based black-and-white photography is explored as a communication mode and art form. Historical, conceptual, technical and legal aspects of traditional wet processing are surveyed. Access to a single lens reflex (SLR) film camera is required. Course fee.
Recommended: ART 263 for Photography majors

ART 341, DARKROOM PHOTOGRAPHY II, 4 Credits
Improving silver-gelatin printing and photographic presentation techniques. Emphasis on furthering creative visual language and individual photographic project development. Studio and lecture course. Student must supply a medium format or 35mm single lens reflex (SLR) film camera. Lec/studio.
Prerequisite: ART 340 with D- or better

ART 345, INTERMEDIATE PHOTOGRAPHY, 4 Credits
Emphasis is on both technical and aesthetic expression of digital color photography, from initial image capture, color management to finished print along with color symbolism and composition. Exploration of narrative, sequencing and image-series concepts. Introduction to contemporary color photographers. Studio.
Prerequisite: ART 263 with C+ or better

ART 346, PHOTO ILLUSTRATION I, 3 Credits
Prerequisite: (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
Recommended: ART 262 and Art core curriculum

ART 347, PHOTOGRAPH: STUDIO LIGHTING, 4 Credits
Practical studio class surveying the basic principles and application of light in the creation of photographs. The development of craft and technique inside the studio will be emphasized but formal and conceptual considerations related to light and photography will also be explored.
Prerequisite: ART 263 with C or better
Recommended: ART 345

ART 348, CONCEPTS IN DIGITAL IMAGING, 4 Credits
Approaches to non-traditional and the manipulated image in digital photography with an emphasis on producing personal imagery. Introduction to the history of the manipulated image in photography and to contemporary approaches to digital photography.
Prerequisite: ART 263 with D- or better
Recommended: ART 121 or prior Photoshop knowledge

ART 349, VIDEO ART, 4 Credits
Studio course in video art and time-based media projects. Emphasis on experimental approaches to video art in a contemporary art context, linear and non-linear video production and the projection and screening of video art projects. Introduction to the history of video art as an art form.
Lec/studio. CROSSLISTED as ART 349/NMC 349.
Prerequisite: ART 222 with C- or better and ART 263 [C-]
Equivalent to: NMC 349
This course is repeatable for 8 credits.
ART 350, PHOTOGRAPHY ON ASSIGNMENT, 4 Credits
An introduction to shooting photographs on assignment. Students will create, edit, caption, and submit photographs for print publications, online media, and alternative/independent media venues. Students will experiment with text, audio slideshows, and other creative means of illustrating concepts and ideas. Also covered are history, law, and ethics of photojournalism.
Recommended: ART 263 or active knowledge of camera operations, shooting RAW files and Adobe Lightroom.
Available via Ecampus

ART 351, INSTALLATION, 4 Credits
Studio course designed to acquaint the student with the possibilities of using non-traditional means such as site, time, and interaction to communicate ideas.
Prerequisite: ART 291 with C- or better
This course is repeatable for 12 credits.
Recommended: Foundation curriculum

ART 352, *CREATIVE COLLABORATION: DESIGNING AND BUILDING, 3 Credits
Working in multi-disciplinary teams, design, implement, and document a piece of public art work or science museum display. Projects may be made of any media, but must demonstrate creativity both in the engineering used to create them and the technology and society message they convey. CROSSLISTED as ART 352/ENGR 352. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ENGR 352

ART 354, ALTERNATIVE PROCESSES IN PHOTOGRAPHY, 4 Credits
Historical photographic printing methods in use today e.g., cyanotype, gum bichromate and more. Use of digital and analog negatives, mixing emulsions and coating paper by hand.
Prerequisite: ART 263 with C- or better and ART 345 [C-]
Recommended: ART 340

ART 355, THE PHOTOGRAPHIC BOOK, 4 Credits
Practical studio course focusing on the photographic book in all of its forms. Use appropriated imagery as well as original imagery to create a variety of zines as well as soft and hardcover photo-books. Structure, form, materials, and layout will be discussed as well as content, sequencing, and physical construction. CROSSLISTED as ART 355/ GD 355.
Prerequisite: ART 263 with C- or better
Equivalent to: GD 355

ART 359, *PHOTOGRAPHY: ACTIVISM, AND SOCIAL CHANGE, 3 Credits
Explores photography as an agent of social change through creative projects and topical discussions. Emphasis on the visual language, ethical considerations, and strategies employed by activist photographers that disrupt dominant ideologies and address institutionalized inequality and privilege in the United States. No prior photography experience necessary. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

ART 364, *NINETEENTH-CENTURY ART, 3 Credits
Lecture course covering the principal movements and trends in late eighteenth-century and nineteenth-century architecture, painting, and sculpture in Europe and America, from Neoclassicism to Symbolism. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

ART 365, *HISTORY OF MODERN ART 1900-1945, 3 Credits
Lecture course covering the principal movements and trends in early twentieth-century Western art, from Expressionism to early American Modernism. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

ART 366, ART SINCE 1945, 3 Credits
Lecture course covering the principal movements, theories and ideas in visual art since 1945, including painting, sculpture, photography, installation, performance and participatory art.
Recommended: ART 204 and ART 205 and ART 206

ART 367, *HISTORY OF DESIGN, 3 Credits
A survey of the impact of technology on the visual qualities of graphic, advertising, fashion, architecture, and industrial design from the Victorian Arts and Crafts Movement to the computer age. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

ART 368, ^HISTORY OF PHOTOGRAPHY, 3 Credits
The development of photographic processes and applications. Influential figures. From the early beginnings to contemporary trends. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

ART 371, ART, SCIENCE AND TECHNOLOGY, 3 Credits
A survey of the influence and application of science and technology in the arts. Provides historical and contemporary context of the effects of the evolution of technology and scientific discovery on visual art practices.
Available via Ecampus
ART 375, PRINTMAKING: RELIEF, 4 Credits
Studio course in relief printmaking with emphasis on linocut and woodcut; may include other relief processes, i.e. photo polymer plate. Black-and-white and color.
Prerequisite: ART 101 with C- or better and ART 115 [C-] and ART 131 [C-] and ART 271 [C-]

ART 376, PRINTMAKING: INTAGLIO, 4 Credits
Studio course in intaglio printmaking with emphasis on drypoint, line etching, aquatint, softground and photo process. Black-and-white and possibly color for final project.
Prerequisite: ART 101 with C- or better and ART 115 [C-] and ART 131 [C-] and ART 271 [C-]

ART 377, PRINTMAKING: LITHOGRAPHY, 4 Credits
Studio course in lithographic printmaking with emphasis on graining the stone, drawing with crayon and tusche, etching and reworking, inking and printing lithographic limestone. Black-and-white and possibly color for final project.
Prerequisite: ART 101 with C- or better and ART 115 [C-] and ART 131 [C-] and ART 271 [C-]

ART 378, PRINTMAKING: MONOTYPE, 4 Credits
Studio course in monotype printmaking with emphasis on drawing/painting with brushes, oil pastels, watercolors, water-based crayons, inking with a lithographic roller and printing with an etching press. Black-and-white and color.
Prerequisite: ART 101 with C- or better and ART 115 [C-] and ART 131 [C-] and ART 271 [C-]

ART 379, PRINTMAKING: SCREEN PRINTING, 4 Credits
Studio course in screen printing with emphasis on paper stencil, drawing fluid and photo emulsion processes. Students are exposed to a range of techniques and concepts are encouraged to investigate personal motivations while making multiple color prints.
Prerequisite: ART 115 with C- or better
Recommended: Art core curriculum. ART 100, ART 101, ART 117, ART 131, ART 204, ART 205, ART 206.

ART 381, PAINTING II: THE FIGURE, 4 Credits
Studio course with emphasis on painting from the live model; understanding the figure in terms of color, form and composition, the figure as symbol, implied narrative and vehicle of expression.
Prerequisite: ART 281 with C- or better and ART 234 [C-]
This course is repeatable for 8 credits.
Recommended: ART 234 and Art core curriculum.

ART 382, PAINTING II: CONCEPTS, 4 Credits
Painting with emphasis on experimentation and an exploratory investigation of mixed media, new media, collage, and assemblage, utilizing either representation or abstraction.
Prerequisite: ART 281 with C- or better
This course is repeatable for 12 credits.
Recommended: Art core curriculum

ART 383, PAINTING II: ABSTRACT AND MULTIMEDIA, 4 Credits
Intermediate studio course with emphasis on contemporary directions in painting: abstraction and non-literal approaches.
Prerequisite: ART 101 with C- or better and ART 115 [C-] and ART 131 [C-] and ART 281 [C-]
This course is repeatable for 12 credits.
Recommended: Art core curriculum

ART 384, PAINTING II: NEW GENRE, 4 Credits
Exploration of current directions in painting using traditional and non-traditional concepts and techniques.
Prerequisite: ART 281 with D- or better and (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
This course is repeatable for 12 credits.

ART 385, PAINTING II: ENCAUSTICS, 4 Credits
Exploration and application of a variety of traditional and non-traditional techniques using encaustics paint; beeswax and pigment fused to a surface.
Prerequisite: ART 281 with C- or better
This course is repeatable for 8 credits.

ART 386, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART I, 4 Credits
The first course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Conquest to Civil War. CROSSTLISTED as ART 386/ENG 386.
Equivalent to: ENG 386

ART 387, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART II, 4 Credits
The second course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Civil War to Harlem Renaissance. CROSSTLISTED as ART 387/ENG 387.
Equivalent to: ENG 387
ART 388, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART III, 4 Credits
The third course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Great Depression to Postmodernity. CROSSLISTED as ART 388/ENG 388.
Equivalent to: ENG 388

ART 391, SCULPTURE II, 4 Credits
Intermediate studio course with emphasis in material research and developing greater skills and technical knowledge in sculptural fabrication processes.
Prerequisite: ART 291 with C- or better
This course is repeatable for 12 credits.
Recommended: Art core curriculum.

ART 395, SPECIAL TOPICS IN EARLY ART HISTORY, 3 Credits
Intermediate studio course in painting with aqueous materials. Emphasis on media and composition. PREREQ: Core curriculum; ART 295.
This course is repeatable for 99 credits.

ART 396, SELECTED TOPICS IN MODERN ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 397, SELECTED TOPICS IN GLOBAL ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 398, SPECIAL TOPICS IN ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ART 399H, SPECIAL TOPICS, 0-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

ART 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ART 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ART 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ART 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ART 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ART 407, SEMINAR, 1-16 Credits
Equivalent to: ART 407H
This course is repeatable for 16 credits.
Recommended: ART 206

ART 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ART 409, PRACTICUM STUDENT MEDIA, 1 Credit
Practical workshop class offering experiential learning in student media on the Oregon State University campus.
Equivalent to: NMC 409
This course is repeatable for 12 credits.

ART 410, INTERNSHIP, 1-16 Credits
A one-quarter residency with an appropriate, approved agency or organization where a student may receive practical experience related to the objectives of the Department of Art. The intern observes and produces; the work is supervised and evaluated, both by the agency and the art faculty.
This course is repeatable for 16 credits.
Available via Ecampus

ART 411, ^ART IN CONTEXT HISTORICAL AND CRITICAL APPROACHES, 3 Credits
Seminar developing writing and research skills in the field of art with interdisciplinary approaches. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: Fine Arts Portfolio Review with a score of 1
Recommended: Art core curriculum plus 12 credits of upper-division studio credits.

ART 413, WOODTURNING WITH SCIENCE II, 4 Credits
An in-depth look at how character in wood (figure, spalting, knots, etc.) affects machinability and output in both functional and aesthetic turning. Students will work with a wide range of spalted wood types and figure across numerous species while working on advanced turning forms. Particular emphasis will be placed upon how figure affects grain orientation, how spalting affects density and stability, and how the challenges with character wood can be overcome without specialty tools. Class instruction will be entirely studio based. CROSSLISTED as ART 413/WSE 413.
Prerequisite: WSE 210 with C- or better and WSE 211 [C-]
Equivalent to: WSE 413
This course is repeatable for 8 credits.

ART 414, ARTS MANAGEMENT, 3 Credits
Survey of the theory and practice of managing an arts organization in an increasingly digital world. Includes managing diverse teams, interpersonal communication, cultural competence, and best practices in leadership, organizational planning, and conflict management.
ART 415, ART FOR TEACHERS I, 4 Credits
A studio course covering basic art materials and techniques. Integrates aesthetics and art criticism, creating art, and the cultural and historical context of works of art for K-12. May be taken in any order.
Recommended: Fine Arts Portfolio Review (ART1) and Graphic Design Portfolio Review (ART2)

ART 416, ART FOR TEACHERS II, 4 Credits
A studio course covering basic art materials and techniques. Integrates aesthetics and art criticism, creating art, and the cultural and historical context of works of art for K-12. May be taken in any order.
Prerequisite: (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)

ART 418, PORTFOLIO SEMINAR, 2 Credits
An advanced lecture course providing an overview of pertinent issues in creating a professional graphic design portfolio. Graded P/N.
Prerequisite: Graphic Design Portfolio Revie with a score of 1

ART 422, NEW MEDIA: INTERACTIVE, 4 Credits
An advanced course designing digital experiences with emphasis on innovative navigation, architectural structures, theoretical, and historical issues of new media.
Prerequisite: Graphic Design Portfolio Revie with a score of 1
Recommended: CS 295

ART 431, DRAWING IV, 3-5 Credits
Development of an individual approach to the varied aspects of drawing, emphasis on exploration of traditional and contemporary techniques and styles. Course offered 3 to 5 credits per term.
Prerequisite: (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
This course is repeatable for 15 credits.
Recommended: 9 credits of ART 331.

ART 432, *GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/ QS 532/WGSS 532. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 432, WGSS 432
Available via Ecampus

ART 434, DRAWING IV/FIGURE, 3-5 Credits
Development of an individual approach to the varied aspect of figure drawing; emphasis on exploration of traditional and contemporary techniques and styles. Course offered 3-5 credits per term; maximum 15 credits. Departmental approval required for 5 credits.
Prerequisite: (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
This course is repeatable for 15 credits.
Recommended: 9 credits of ART 334.

ART 441, ADVANCED DARKROOM, 4 Credits
Explores using the camera as a tool to sharpen aesthetic and visual perception. Creates exhibition-quality silver-gelatin prints in pursuit of an individual student portfolio. Introduction to the view camera. Applies advanced darkroom techniques.
Prerequisite: ART 340 with C- or better
This course is repeatable for 12 credits.

ART 443, COMBINED MEDIA: PHOTO INSTALLATION, 4 Credits
This studio course explores the use the photographic image in conjunction with other studio media to create multi-media works and site-specific installations. Designed to remove and release the photographic image from its ubiquitous tradition, it looks to reassign the association of photography as merely a two dimensional pursuit. Emphasizing the relationship between objects, the course investigates installation art as a contemporary practice and focuses on the role photography or the photographic image has played in expanding this dialogue. Issues involved with using photography for the purposes of creating multimedia spatial experiences are discussed and compared with ideas related to traditional photographic presentation.
Prerequisite: ART 345 with C or better
This course is repeatable for 8 credits.
Recommended: Understanding of basic camera functions and competency using digital printing techniques

ART 444, THE CONSTRUCTED IMAGE, 4 Credits
An advanced studio photography course that explores directed, manipulated, and constructed photographs. It investigates this rich tradition by looking at both historical and contemporary photography. Issues involved with making clearly artificial photographs are addressed and compared with traditional ideas related to veracity of the photographic image.
Prerequisite: ART 345 with C or better
Recommended: Pre-established foundation of technical camera operations and digital printing skills

ART 446, DOCUMENTARY PHOTOGRAPHY, 4 Credits
Intensive in-depth documentary photography course designed to develop skill in telling stories with pictures. The course requires pitching a photographic project, reading and writing about documentary photography, and producing a sustained photographic essay with a self-selected documentary subject. Expanded documentary mediums and socially concerned photography are also covered. Hybrid Course.
Prerequisite: ART 263 with C or better and ART 345 [C-]
This course is repeatable for 12 credits.
ART 447, ADVANCED STUDIO LIGHTING, 4 Credits
Practical studio course focusing on the advanced applications of studio and location lighting. Students will use digital cameras in combination with professional strobe and mixed artificial lighting. Real-world location lighting challenges will be mastered: scouting locations, hauling and setting up gear, working with models and products, and learning to work on-location.
Prerequisite: ART 263 with C or better and ART 347 [C]
This course is repeatable for 8 credits.

ART 451, INTRODUCTION TO ARTS ENTREPRENEURSHIP, 3 Credits
Survey of the business strategies behind a successful career in the arts. Emphasizes the importance of entrepreneurial thinking, engages students with the fundamentals of the arts 'business', and explores ways to influence and shape the industry's future. CROSSLISTED as ART 451/ MUS 451/TA 451. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 451, TA 451
Available via Ecampus

ART 454, ALTERNATIVE PROCESSES IN PHOTOGRAPHY II, 4 Credits
Advanced projects using historical photographic processes.
Prerequisite: ART 354 with C- or better
This course is repeatable for 8 credits.

ART 455, THE PHOTOGRAPHIC BOOK II, 4 Credits
Practical studio course focusing on advanced practices and techniques in relation to the photographic book. Use appropriated imagery as well as original imagery to complete well-developed book projects. Structure, form, materials, and layout will be discussed as well as content, sequencing, and physical construction. Advanced elements such as application of blanking, slip cases, screen printing, and other construction techniques will be taught. CROSSLISTED as ART 455/GD 455.
Prerequisite: ART 355 with C- or better
Equivalent to: GD 455

ART 456, PORTFOLIO-PHOTOGRAPHY/VIDEO ART, 4 Credits
Culmination-level course for the creation of an exhibition-level photographic portfolio or other artistic product using lens-based media. Taught using lectures, critiques, readings, writing and self-reflection.
Prerequisite: ART 340 with C- or better and ART 345 [C-] and ART 347 [C-]
This course is repeatable for 12 credits.

ART 457, HISTORY OF AMERICAN ART, 3 Credits
Specialized study of the visual arts in the United States focusing on such issues as landscape, mass culture, and American responses to European culture. American modernism since 1900. Not offered every year.
Recommended: 9 credits of art history and American literature or American history.

ART 458, HISTORY OF PRINTMAKING, 3 Credits
Survey of the social, economic, intellectual, and technical history of printmaking between the early Middle Ages and the twentieth century in Asia, Europe, and the Americas. Treats the major printmaking processes of woodcut, intaglio, lithography, silkscreen, and photography.

ART 459, METHODS AND THEORY OF ART HISTORY, 3 Credits
Seminar designed to improve writing and library skills, develop interdisciplinary approaches, and explore art historical theory from Plato to the present.
Attributes: CWIC – Core, Skills, WIC
Recommended: 9 credits of art history

ART 460, PRINTMAKING STUDIO, 4 Credits
Specialized study of the visual arts in the United States focusing on such issues as landscape, mass culture, and American responses to European culture. Art and ideas from the colonial period to 1900. Not offered every year.
Recommended: 9 credits of art history and American literature or American history.
ART 479, PRINTMAKING: ADVANCED SCREEN PRINTING, 4 Credits
Studio course in screen printing with an emphasis on photo emulsion processes. Students are encouraged to integrate these processes with other art-making methods in their creative work.
Prerequisite: ART 379 with C- or better
This course is repeatable for 12 credits.

ART 481, PAINTING III, 4 Credits
Development of individual interests and directions in painting.
Prerequisite: ART 382 with C- or better and ART 384 [C-]
This course is repeatable for 30 credits.

ART 491, SCULPTURE III, 4 Credits
Development of individual interests and directions in sculpture.
Prerequisite: ART 391 with C- or better
This course is repeatable for 24 credits.
Recommended: 12 credits of 300-level sculpture

ART 492, SPECIAL TOPICS IN ASIAN ART, 3 Credits
Specialized study of selected areas of Asian art history such as Chinese calligraphy, Song Dynasty painting, and storytelling in Asian art. May be repeated with different topics.
This course is repeatable for 99 credits.

ART 494, SPECIAL TOPICS IN EARLY ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 495, EXHIBITION DESIGN, 1 Credit
Participatory experience in art gallery exhibition design working in Fairbanks Gallery. Includes specialized study in visual design, lighting, and technical installation. Course offered 1 credit per term, maximum 3 credits.
Prerequisite: (Fine Arts Portfolio Review with a score of 1 or Graphic Design Portfolio Revie with a score of 1)
This course is repeatable for 3 credits.

ART 496, SELECTED TOPICS IN MODERN ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 497, SELECTED TOPICS IN GLOBAL ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 498, SPECIAL TOPICS IN ART HISTORY, 3 Credits
This course is repeatable for 99 credits.

ART 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

ART 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ART 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ART 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

ART 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ART 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ART 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Recommended: ART 206

ART 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ART 510, INTERNSHIP, 1-12 Credits
A one-quarter residency with an appropriate, approved agency or organization where a student may receive practical experience related to the objectives of the Department of Art. The intern observes and produces; the work is supervised and evaluated, both by the agency and the art faculty.
This course is repeatable for 15 credits.

ART 514, ARTS MANAGEMENT, 3 Credits
Survey of the theory and practice of managing an arts organization in an increasingly digital world. Includes managing diverse teams, interpersonal communication, cultural competence, and best practices in leadership, organizational planning, and conflict management.

ART 515, ART FOR TEACHERS I, 4 Credits
A studio course covering basic art materials and techniques. Integrates aesthetics and art criticism, creating art, and the cultural and historical context of works of art for K-12. May be taken in any order.

ART 516, ART FOR TEACHERS II, 4 Credits
A studio course covering basic art materials and techniques. Integrates aesthetics and art criticism, creating art, and the cultural and historical context of works of art for K-12. May be taken in any order.

ART 532, GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532.
Equivalent to: QS 532, WGSS 532
Available via Ecampus
ART 546, DOCUMENTARY PHOTOGRAPHY, 3 Credits
An intensive shooting course in 35mm photography designed to develop skill in telling stories using pictures. Single picture and multiple picture stories. Lec/lab. This course is repeatable for 9 credits.
Recommended: ART 350

ART 556, PORTFOLIO-PHOTOGRAPHY/VIDEO ART, 4 Credits
Culmination-level course for the creation of an exhibition-level photographic portfolio or other artistic product using lens-based media. Taught using lectures, critiques, readings, writing and self-reflection. This course is repeatable for 12 credits.

ART 562, DIRECTIONS AND ISSUES IN CONTEMPORARY ART, 3 Credits
Specialized study of current trends, developments, and critical issues, including the study of new media such as video and photography, as they manifest themselves in the contemporary art world. Not offered every year. May be repeated with different topics. This course is repeatable for 9 credits.
Recommended: 9 credits of art history

ART 564, CULTURAL STUDIES OF THE MUSEUM, 3 Credits
Overview of the history, visual culture, and cultural significance of the Western museum. Special attention paid to the development of the art museum and artist’s projects that pertain to museums.
Recommended: 9 credits of art history

ART 569, METHODS AND THEORY OF ART HISTORY, 3 Credits
Seminar designed to improve writing and library skills, develop interdisciplinary approaches, and explore art historical theory from Plato to the present.
Recommended: 9 credits of art history

ART 581, PAINTING III, 3-5 Credits
Development of individual interests and directions in painting. Course offered 3 to 5 credits per term; maximum 15 credits. This course is repeatable for 15 credits.
Recommended: 9 credits of 300-level painting

ART 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

Atmospheric Sciences (ATS)

ATS 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

ATS 004, INTERNSHIP, 0 Credits
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students’ understanding of the connection between theory and practice in their respective disciplines.

ATS 201, *CLIMATE SCIENCE, 4 Credits
Physical laws governing the Earth’s climate and their interactions with chemical and biological processes on land and in the atmosphere, oceans, and cryosphere. Past, present, and potential future climate changes due to natural and human causes are assessed using a variety of observations, models, and laboratory exercises. (Bacc Core Course) Attributes: CPPS – Core, Pers, Physical Science Available via Ecampus

ATS 295, OBSERVING CLIMATE, 3 Credits
One-week course taught during Spring Break at field sites near Corvallis, with ten hours of preparatory meetings on campus. Make and analyze observations of properties of the atmosphere, ocean, biosphere, and cryosphere that reflect processes relevant to regional and global climate. Serves as an introduction to upper-division course work in climate science. Field trip(s) required; transportation fee charged. Lec/lab. Prerequisite: ATS 201 with C- or better or ATS 320 with C- or better

ATS 301, CLIMATE DATA ANALYSIS, 4 Credits
Quantitative methods to characterize the physical climate system and detect change. Interpret data based on source timescale, and statistics; communicate conclusions and uncertainties regarding past climate and future changes.
Prerequisite: ATS 201 with C- or better and ST 351 [C-]

ATS 302, MATHEMATICAL APPLICATIONS IN THE EARTH SCIENCES, 4 Credits
An introductory survey of mathematical applications in climate science, meteorology, oceanography, geology, and geophysics. Topics may include conservation laws, harmonic motion, exponential growth/decay, linear approximations, numerical methods, waves, diffusion, fluid flow, systems of equations, inverse problems, and data analysis.
Prerequisite: MTH 252 with C- or better
Recommended: PH 201 or PH 211

Asian Languages and Culture (ASN)
ASN 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
ATS 310, METEOROLOGY, 4 Credits
The study of the atmosphere, in particular atmospheric phenomena that we experience as weather. Key physical concepts in meteorology are introduced and explored. The physics of the atmosphere necessary to understand why atmospheric phenomena occur and how these are forecast is discussed. Meteorological data from observations and models will be analyzed to explore concepts introduced in the context of the weather we experience. Lec/Lab.
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better and (PH 201 [D-] or PH 201H [D-] or PH 211 [D-] or PH 211H [D-]) and (PH 202 (may be taken concurrently) [D-] or PH 202H (may be taken concurrently) [D-] or PH 212 (may be taken concurrently) [D-] or PH 212H (may be taken concurrently) [D-] or CH 121 (may be taken concurrently) [D-] or CH 231 (may be taken concurrently) [D-] or CH 231H (may be taken concurrently) [D-])

ATS 341, *SNOW, SMOKE, AND STORMS: CLIMATE CHANGE IMPACTS IN THE PNW, 3 Credits
Climate change will alter mountain snowpack, water availability, coastal storms, erosion, and sea level in the Pacific Northwest. Increasing temperatures and changing precipitation patterns will lead to more extreme drought and flooding events, wildfire seasons, and insect and disease outbreaks in forests. These changes will impact the region's natural resource economy; heritage and quality of life; water, transportation, and energy infrastructure; and health and social systems. Case studies of past extreme years highlight the close interrelationships between the climate, the natural and built environment, and the health and well-being of the Pacific Northwest’s residents.
Attributes: CSST – Core, Synthesis, Science/Technology/Society

ATS 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ATS 399H
This course is repeatable for 12 credits.

ATS 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ATS 399
This course is repeatable for 12 credits.

ATS 401, RESEARCH, 1-16 Credits
This course is repeatable for 24 credits.

ATS 403, THESIS, 1-16 Credits
This course is repeatable for 24 credits.

ATS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ATS 406, PROJECTS, 1-16 Credits
This course is repeatable for 24 credits.

ATS 407, SEMINAR, 1 Credit
One-credit sections. Graded P/N.
This course is repeatable for 12 credits.

ATS 408, WORKSHOP, 0-12 Credits
May be repeated for credit when topic varies.
This course is repeatable for 12 credits.

ATS 410, INTERNSHIP, 1-12 Credits
Pre-career professional experience under joint faculty and employer supervision. Graded P/N.
This course is repeatable for 48 credits.
Recommended: 12 credits of upper-division college courses

ATS 411, THERMODYNAMICS AND CLOUD MICROPHYSICS, 4 Credits
Thermodynamic processes in the atmosphere, and an introduction to cloud microphysics. Offered annually.
Prerequisite: MTH 254 (may be taken concurrently) [D-] or MTH 254H (may be taken concurrently) [D-] or PH 201 [C-] or PH 201H [C-]

ATS 412, ATMOSPHERIC RADIATION, 3 Credits
Examines properties of radiation and the electromagnetic spectrum. Explores reflection and refraction; radiative properties of natural surfaces; thermal emission; atmospheric transmission and emission; absorption by atmospheric gases; broadband fluxes and heating rates; introduction to the radiative transfer equation; scattering and absorption by particles.
Prerequisite: (MTH 254 with D- or better or MTH 254H with D- or better) and (PH 213 [D-] or PH 213H [D-])

ATS 413, ATMOSPHERIC CHEMISTRY, 3 Credits
Principles of atmospheric chemistry; chemical fundamentals, sampling principles, sources, reactions, scavenging, and deposition of sulfur, nitrogen, ozone, and carbon compounds. Atmospheric aerosol size distribution, mechanics, optics, and scavenging. Offered annually.
Recommended: (CH 121 [D-] or CH 201 [D-] or CH 231 [D-] or CH 231H [D-]) and (MTH 251 [D-] or MTH 241[D-])

ATS 415, ATMOSPHERIC DYNAMICS, 4 Credits
Prerequisite: ATS 301 with C- or better and ATS 310 [C-] and (ATS 302 (may be taken concurrently) [C-] or MTH 254 (may be taken concurrently) [C-]) and (PH 202 (may be taken concurrently) [C-] or PH 212 [C-])

ATS 417, WEATHER SYSTEM DYNAMICS AND FORECASTING, 4 Credits
Dynamics of weather systems and basic forecasting methods. Mid-latitude storm formation and structure; basic dynamical equations and applications to real-time weather; map analysis; description and interpretation of weather prediction models; forecasting methods; Pacific NW weather. Lec/Lab.
Prerequisite: ATS 310 with C- or better or ME 311 with C- or better or ME 311H with C- or better or BEE 311 with C- or better or CE 311 with C- or better
ATS 420, CLIMATE PHYSICS, 4 Credits
Prerequisite: (MTH 252 with C- or better or MTH 252H with C- or better) and (PH 202 [C-] or PH 212 [C-]) and (ATS 301 [C-] or (PH 365 [C-] and PH 366 [C-])) and (ATS 310 [C-] or PH 315 [C-])

ATS 421, CLIMATE MODELING, 4 Credits
Numerical models of the physics, chemistry, biology, and geology of the climate system. A range of climate models from a simple, single equation to complex state-of-the-science systems used for future projections. Theoretical concepts will be linked to practical applications through hands-on programming exercises and data analysis.
Prerequisite: ATS 420 with C- or better and (ATS 301 [C-] or (PH 365 [C-] and PH 366 [C-])) and (MTH 254 [C-] or ATS 302 [C-])

ATS 441, NORTHWEST CLIMATE AND WEATHER, 4 Credits
A survey of climate and weather phenomena that are consequential in the northwestern United States. The Pacific Ocean, the North Pacific jet and storm track, mountain and coastal meteorology, and topographic features like the region's mountains and Columbia River Gorge all affect the climate and weather of the Northwest, which in turn affect the region's hydrologic characteristics, vegetation, and numerous other natural and human systems. Preexisting content knowledge and analytical skills are used to produce a comprehensive written report and oral presentation for a regional stakeholder. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ATS 301 with C- or better and ATS 420 [C-]

ATS 475, PLANETARY ATMOSPHERES, 3 Credits
Origin and evolution of planetary atmospheres; vertical structure of atmospheres; hazes and clouds; atmospheric motions and general circulation. Presentation of recent observations and current research issues, focusing on Venus, Earth, Mars, Jupiter, Saturn, and Titan. Emphasis on comparative aspects and simple models.
Prerequisite: (MTH 254 with D- or better or MTH 254H with D- or better) and (PH 213 [D-] or PH 213H [D-])

ATS 499, SPECIAL TOPICS, 0-4 Credits
Equivalent to: ATS 499H
This course is repeatable for 12 credits.

ATS 501, RESEARCH, 1-16 Credits
This course is repeatable for 24 credits.

ATS 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ATS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ATS 506, PROJECTS, 1-16 Credits
This course is repeatable for 72 credits.

ATS 507, SEMINAR, 1 Credit
One-credit sections. Graded P/N.
This course is repeatable for 48 credits.

ATS 508, WORKSHOP, 0-12 Credits
May be repeated when topic varies.
This course is repeatable for 12 credits.

ATS 511, THERMODYNAMICS AND CLOUD MICROPHYSICS, 4 Credits
Thermodynamic processes in the atmosphere, and an introduction to cloud microphysics. Offered annually.
Recommended: MTH 254 and PH 213

ATS 512, ATMOSPHERIC RADIATION, 3 Credits
Examines properties of radiation and the electromagnetic spectrum. Explores reflection and refraction; radiative properties of natural surfaces; thermal emission; atmospheric transmission and emission; absorption by atmospheric gases; broadband fluxes and heating rates; introduction to the radiative transfer equation; scattering and absorption by particles.

ATS 513, ATMOSPHERIC CHEMISTRY, 3 Credits
Principles of atmospheric chemistry; chemical fundamentals, sampling principles, sources, reactions, scavenging, and deposition of sulfur, nitrogen, ozone, and carbon compounds. Atmospheric aerosol size distribution, mechanics, optics, and scavenging. Offered annually.
Recommended: (CH 121 or CH 201 or CH 221 or CH 231 or CH 231H or CH 224) and (MTH 251 or MTH 241)

ATS 515, ATMOSPHERIC DYNAMICS, 4 Credits
Recommended: OEAS 530 with C- or better

ATS 516, ATMOSPHERIC DYNAMICS II, 4 Credits
Review of basic equations; scale analysis and approximations. Turbulence and boundary layers. Dry and moist convection; convective storms. Frontogenesis; symmetric instability; internal gravity waves and mountain waves; differentially heated circulations including sea breezes. Slope flows and urban circulations. Offered alternate years.
Prerequisite: ATS 515 with C or better
ATS 517, WEATHER SYSTEM DYNAMICS AND FORECASTING, 4 Credits
Dynamics of weather systems and basic forecasting methods. Mid-latitude storm formation and structure; basic dynamical equations and applications to real-time weather; map analysis; description and interpretation of weather prediction models; forecasting methods; Pacific NW weather. Lec/Lab.
Prerequisite: OEAS 530 with C- or better

ATS 520, CLIMATE PHYSICS, 4 Credits
Prerequisite: OEAS 530 with C- or better

ATS 521, CLIMATE MODELING, 4 Credits
Numerical models of the physics, chemistry, biology, and geology of the climate system. A range of climate models from a simple, single equation to complex state-of-the-science systems used for future projections. Theoretical concepts will be linked to practical applications through hands-on programming exercises and data analysis.
Prerequisite: ATS 520 with C- or better or OEAS 530 with C- or better
Recommended: One year of college calculus and physics. Python programming experience or concurrent enrollment in ATS 508 (Python for Climate Modeling)

ATS 541, NORTHWEST CLIMATE AND WEATHER, 4 Credits
A survey of climate and weather phenomena that are consequential in the northwestern United States. The Pacific Ocean, the North Pacific jet and storm track, mountain and coastal meteorology, and topographic features like the region’s mountains and Columbia River Gorge all affect the climate and weather of the Northwest, which in turn affect the region’s hydrologic characteristics, vegetation, and numerous other natural and human systems. Preexisting content knowledge and analytical skills are used to produce a comprehensive written report and oral presentation for a regional stakeholder.
Prerequisite: OEAS 530 with C- or better or ATS 520 with C- or better

ATS 546, EXPERIMENTAL ENERGY AND GAS EXCHANGE, 4 Credits
Experimental methods to quantify the atmospheric carbon dioxide, water, methane, heat, momentum, and radiative exchange at the vegetation-land-ocean-air interface. Techniques include bulk and gradient approaches, and eddy covariance. The central activity consists of student teams designing and conducting a field experiment, analyzing and interpreting observations, and presenting results. Lec/lab/discussion/activity.
Recommended: ATS 516 [D-] or ATS 564 [D-] or FS 564 [D-]

ATS 564, INTERACTIONS OF VEGETATION AND ATMOSPHERE, 3 Credits
Quantitative treatment of radiation, heat, mass, and momentum exchange between vegetation and atmosphere; forest, natural and agricultural ecosystem examples. Physical and biological controls of carbon dioxide and water vapor exchange; remote sensing of canopy processes; models of stand-scale evaporation, photosynthesis and respiration; landscape and regional scale exchanges; vegetation and planetary boundary layer coupling; vegetation in global climate models.
Equivalent to: FS 564
Recommended: MTH 251 and PH 201

ATS 575, PLANETARY ATMOSPHERES, 3 Credits
Origin and evolution of planetary atmospheres; vertical structure of atmospheres; hazes and clouds; atmospheric motions and general circulation. Presentation of recent observations and current research issues, focusing on Venus, Earth, Mars, Jupiter, Saturn, and Titan. Emphasis on comparative aspects and simple models.
Recommended: MTH 254 and PH 213

ATS 590, SPECIAL TOPICS, 0-4 Credits
May be repeated when topic varies.
This course is repeatable for 12 credits.

ATS 601, RESEARCH, 1-16 Credits
This course is repeatable for 36 credits.

ATS 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ATS 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ATS 606, PROJECTS, 1-16 Credits
This course is repeatable for 84 credits.

ATS 607, SEMINAR, 1 Credit
One-credit sections. Graded P/N.
This course is repeatable for 48 credits.

ATS 608, WORKSHOP, 0-12 Credits
May be repeated when topic varies.
This course is repeatable for 12 credits.

ATS 615, LARGE-SCALE INTERACTIONS OF THE OCEAN AND ATMOSPHERE, 3 Credits
Ocean-atmosphere circulations in the time-mean and seasonal cycles, equatorial wave modes, El Nino-Southern Oscillation, Madden-Julian oscillation, teleconnections and atmospheric bridges, mid-latitude air-sea interactions, Pacific and Atlantic decadal variability, the North Atlantic oscillation/Arctic oscillation.
Prerequisite: (ATS 515 with C or better or OC 670 with C or better)

ATS 690, SELECTED TOPICS, 0-4 Credits
May be repeated for credit when topic varies.
This course is repeatable for 12 credits.
Biochemistry and Biophysics (BB)

BB 100, THE MOLECULES OF LIFE, 2 Credits
A brief introduction to molecular biology for nonspecialists. Subjects vary, but have included biochemical basis of the origin of life, biochemical genetics, biochemical aspects of memory and behavior, mutagenesis, bioenergetics and nutrition, and environmental biochemistry.
Equivalent to: BB 100H

BB 111, INTRODUCTION TO BIOCHEMISTRY AND BIOPHYSICS RESEARCH, 1 Credit
Designed to introduce biochemistry and biophysics students to departmental research opportunities and advisors.

BB 211, PROFESSIONAL DEVELOPMENT II: MOLECULAR, MICROBIAL, BIOHEALTH, 1 Credit
Develop awareness of the elements of professional development, identify strategic areas for growth, and design an exploration plan. Emphasis is placed on being able to analyze career opportunities to determine the best mix of technical and professional skills needed for success as a biological science professional. Graded P/N. CROSSLISTED as BB 211/BHS 211.
Equivalent to: BHS 211

BB 314, CELL AND MOLECULAR BIOLOGY, 4 Credits
Fundamental concepts of prokaryotic and eukaryotic cell biology. Emphasizes cell structure and function at the molecular level. Lec/rec.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 331 (may be taken concurrently) [C-] or CH 334 (may be taken concurrently) [C-])
Equivalent to: BB 314H, BI 314, BI 314H
Available via Ecampus

BB 314H, CELL AND MOLECULAR BIOLOGY, 4 Credits
Fundamental concepts of prokaryotic and eukaryotic cell biology. Emphasizes cell structure and function at the molecular level. Lec/rec.
Prerequisites: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 331 (may be taken concurrently) [C-] or CH 334 (may be taken concurrently) [C-])
Equivalent to: BB 314, BI 314, BI 314H

BB 315, MOLECULAR BIOLOGY LABORATORY, 3 Credits
Laboratory projects exploring the transmission of genetic information from storage to function will introduce students to fundamental molecular biology concepts and techniques, including isolation of DNA, construction of recombinant plasmids, quantification of gene expression in model organisms, polymerase chain reaction, and analysis of protein expression and subcellular localization. Lec/lab.
Prerequisite: BB 314 with C- or better or BB 314H with C- or better
Equivalent to: BI 315

BB 317, *SCIENTIFIC THEORY AND PRACTICE, 3 Credits
Teaches students the practice of biological science. Topics cover scientific theory, communications, ethics and critical evaluation. CROSSLISTED as BB 317/BI 317. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 331 (may be taken concurrently) [C-] or CH 334 (may be taken concurrently) [C-])
Equivalent to: BI 317

BB 331, *INTRODUCTION TO MOLECULAR BIOLOGY, 3 Credits
Course dealing with the molecular basis of cellular function, with emphasis upon modern developments, and the foundation for practical applications of this knowledge. The course will involve the conceptual background necessary to appreciate the applications of molecular biology. Throughout the course opportunities will be given to discuss public policy issues and questions: What are the moral and practical problems that flow from identification of an individual as being at risk for a late-appearing genetic disorder, such as Huntington’s disease or certain cancers? Does the scientific or public value of knowing the entire DNA sequence of the human genome justify a situation in which individual or small-scale research cannot be supported? What issues arise when the fruits of biological research, mostly publicly funded, are commercialized? Should a novel organism be patented? How can biotechnology be applied to environmental problems? (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: (CH 122 with D- or better or CH 202 with D- or better or CH 222 with D- or better or CH 225 with D- or better or ((CH 232 with D- or better or CH 232H with D- or better) or (CH 262 with D- or better or CH 262H with D- or better) or (CH 262H with D- or better or CH 272 with D- or better))
Available via Ecampus
BB 332, *MOLECULAR MEDICINE, 3 Credits
Provides students an understanding of medical advances from a rapidly evolving molecular point of view. Advances in knowledge of the human genome arising from DNA sequencing efforts and major leaps in understanding of the regulating cellular growth and division are presented in an easy-to-understand fashion appropriate for students in all majors. Course discussions and assignments will cover implications of advances in molecular medicine from ethical, economic, technical and societal standpoints. The aim of the course is to present technical material in a way that non-scientists will understand and conversely to summarize ethical, economic, and philosophical considerations in a way that the scientists understand the implications of these technologies.
(Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Any biology course.

BB 345, INTRODUCTION TO BIOLOGICAL SEQUENCE ANALYSIS, 2 Credits
Introduction to computer-based analyses of biomolecular data, particularly nucleic acid and protein sequences, with the Python programming language. Topics include reading and writing of sequence files, subsequences, reverse complement, finding sequence patterns, subroutines, control structures, and parsing complex data files.

BB 350, ELEMENTARY BIOCHEMISTRY, 4 Credits
Service course for students desiring a short introduction to biochemistry. Four lectures weekly.
Prerequisite: CH 331 with D- or better and CH 332 (may be taken concurrently) [D-]
Available via Ecampus

BB 360, INTRODUCTION TO NEUROSCIENCE, 3 Credits
An introduction to the field of neuroscience. Topics include structure of neurons, outline of signaling in the central nervous system, Nernst equation, action potentials, synaptic transmission, chemical signaling in vision, disease and drugs.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 233 [C-] or CH 233H [C-]) and (CH 263 [C-] or CH 263H [C-])
Available via Ecampus

BB 361, NEUROSCIENCE OF SENSORY AND MOTOR SYSTEMS, 3 Credits
Provides advanced knowledge and understanding of the structural and functional details of the sensory and motor systems and the interactions between them. These systems will be considered in the context of human physiology.
Prerequisite: BB 360 with C- or better

BB 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: BB 399H
This course is repeatable for 16 credits.

BB 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BB 399
This course is repeatable for 16 credits.

BB 401, UNDERGRADUATE RESEARCH, 1-16 Credits
Equivalent to: BB 401H
This course is repeatable for 16 credits.

BB 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

BB 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: BB 405H
This course is repeatable for 16 credits.

BB 407, BIOCHEMISTRY/BIOPHYSICS SEMINAR, 1-16 Credits
Informal seminars presenting information about research problems and careers and research programs on campus in biochemistry or biophysics. Graded P/N.
Equivalent to: BB 407H
This course is repeatable for 99 credits.

BB 407H, BIOCHEMISTRY/BIOPHYSICS SEMINAR, 1-16 Credits
Informal seminars presenting information about research problems and careers and research programs on campus in biochemistry or biophysics.
Attributes: HNRS – Honors Course Designator
Equivalent to: BB 407
This course is repeatable for 99 credits.

BB 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

BB 450, GENERAL BIOCHEMISTRY, 4 Credits
Sequence course for students with a limited background in physical chemistry. BB 450/BB 550, three lectures and one recitation. BB 451/BB 551, three lectures.
Prerequisite: CH 332 with D- or better or CH 336 with D- or better
Equivalent to: BB 450H
Available via Ecampus
BB 451, GENERAL BIOCHEMISTRY, 3 Credits
Sequence course for students with a limited background in physical chemistry. BB 450/BB 550, three lectures and one recitation. BB 451/BB 551, three lectures.
Prerequisite: BB 450 with D- or better or BB 450H with D- or better
Equivalent to: BB 451H
Available via Ecampus

BB 453, BIOCHEMISTRY AND MOLECULAR BIOLOGY LABORATORY TECHNIQUES, 4 Credits
Laboratory course for non-majors that introduces students to biochemistry and molecular biology techniques used to investigate the functional relationship between nucleic acid sequence, gene expression, and protein function.
Prerequisite: BB 451 with C- or better

BB 460, ADVANCED CELL BIOLOGY, 3 Credits
History and theory of cell biology; microscopy and other techniques to study cells and organelles; membranes; organelles; protein import; cell signaling; cytoskeleton; polarity; cell cycle; stem cells; pattern formation; cancer biology. Offered every other fall in odd years.
Prerequisite: BB 314 with C- or better or BI 314 with C- or better or BI 314H with C- or better or BB 451 with C- or better or BB 492 with C- or better

BB 481, MACROMOLECULAR STRUCTURE, 3 Credits
An introduction to structural biology, the discipline focused on understanding the structural properties of biological macromolecules—especially proteins and nucleic acids—and relating them to their function. Introduces students to the vocabulary and tools of this discipline, covering both the fundamental physico-chemical principles governing the structure and function of biological macromolecules and a selected set of widely used experimental and theoretical approaches to their characterization. This is done through lectures, and textbook and literature readings. Graduate students receive additional experience in scientific reading, writing and presentation through a literature-based term project.
Prerequisite: BB 450 with D- or better or BB 490 with D- or better
Available via Ecampus

BB 482, BIOPHYSICS, 3 Credits
Examines quantitative properties of biological systems and biological phenomena using concepts derived from mathematics and physics.
Prerequisite: BB 481 with D- or better and CH 440 [D-]

BB 483, ADVANCED BIOCHEMISTRY AND BIOPHYSICS: CAPSTONE, 3 Credits
Covers applications of advanced biophysical techniques, and how these fit within the larger context of biochemistry, biology and society. Explores techniques and their applications to macromolecules as well as the scientific process. Techniques discussed include in vitro, in vivo, and in silico methods, with an emphasis on biomolecular interactions.
Prerequisite: BB 482 with D- or better or BB 582 with D- or better

BB 484, CHROMATIN AND EPIGENETICS, 3 Credits
An in-depth look at 'chromatin' (the complex generated by DNA, RNA and complex protein) and how it behaves during gene activation and silencing. Specific examples of long-lasting gene regulation (across cell cycles) will be used to describe the concept of 'epigenetic' gene regulation by modification of DNA or proteins. The class will combine more traditional lectures with discussion periods where primary research papers will be analyzed. The target audience is third- and fourth-year students as well as graduate students.
Prerequisite: ((BI 314 with C- or better or BI 314H with C- or better or BB 314 with C- or better or BB 314H with C- or better) and (BI 315 [C-] or BB 315 [C-] or BB 493 [C-] or BB 493H [C-]))

BB 485, APPLIED BIOINFORMATICS, 3 Credits
Fundamental concepts needed to understand the software and methods used in bioinformatics. Includes contemporary techniques such as databases, gene and genome annotations, functional annotations, sequence alignment, motif finding, secondary structure prediction, phylogenetic tree construction, high-throughput sequence data, ChIP-seq peak identification, transcriptome profiling by RNA-Seq, microRNA discovery and target prediction.
Prerequisite: BB 314 with C- or better or BB 314H with C- or better
Available via Ecampus

BB 486, ADVANCED MOLECULAR GENETICS, 3 Credits
Covers aspects of transmission genetics (Mendel's laws, mapping strategies) informed by the machineries required for genetic information storage, transcription, translation, and protein processing. Analyses of state-of-the-art primary literature and lectures give a perspective on important "model" organisms, including examples from among bacteria, plants, fungi, and animals.
Prerequisite: (BB 314 with C- or better or BB 491 with C- or better) and (BB 492 [C-] or BB 451 [C-])

BB 490, BIOCHEMISTRY 1: STRUCTURE AND FUNCTION, 3 Credits
Examines how the structure and function of biological macromolecules arises from the organic chemistry of their fundamental building blocks. The organic chemistry of biochemistry will be a focus, including the mechanisms by which enzymes catalyze biological reactions.
Prerequisite: (CH 332 with C- or better or CH 336 with C- or better) and (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-])) and (BI 213 [C-] or BI 213H [C-])) or (((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-])) and (BI 223 [C-] or BI 223H [C-]))

BB 491, BIOCHEMISTRY 2: METABOLISM, 3 Credits
Sequence professional course to meet the requirements of majors in biochemistry and biophysics. The second course in a series, BB 491/BB 591 covers the mechanisms and regulation of the pathways by which cells break down fuel molecules, conserve some of the released energy in the form of reactive nucleotides, and use this energy to create biological building blocks from simpler metabolites.
Prerequisite: BB 490 with D- or better or BB 590 with D- or better
BB 492, BIOCHEMISTRY 3: GENETIC BIOCHEMISTRY, 3 Credits
Sequence professional course to meet the requirements of majors in biochemistry and biophysics. The third course in the series, BB 492/BB 592 focuses on genetic biochemistry, including the synthesis of nucleotides, DNA synthesis and repair, RNA synthesis and processing, and protein synthesis and modification.
Prerequisite: (BB 490 with D- or better or BB 590 with D- or better) and (BB 491 [D-] or BB 591 [D-])

BB 493, BIOCHEMISTRY LABORATORY MOLECULAR TECHNIQUES 1, 3 Credits
Laboratory course to accompany BB 450, BB 451 or BB 490, BB 491, BB 492. Lec/lab.
Prerequisite: (BB 451 with D- or better or BB 451H with D- or better) or BB 492 with D- or better
Equivalent to: BB 493H

BB 494, BIOCHEMISTRY LABORATORY MOLECULAR TECHNIQUES 2, 3 Credits
Laboratory to accompany BB 450, BB 451 or BB 490, BB 491, BB 492. Lec/lab.
Prerequisite: BB 493 with D- or better or BB 593 with D- or better or BB 315 with D- or better or BI 315 with D- or better
Equivalent to: BB 494H

BB 498, ASBMB CERTIFICATION EXAM, 0 Credits
A comprehensive, standardized test administered by the American Society of Biochemistry and Molecular Biology and used as a direct assessment of the discipline specific knowledge of seniors in the majors administered by the Biochemistry and Biophysics department. A pass will be given to all students who complete the exam. Contact the Biochemistry and Biophysics Program for more information.

BB 499, SPECIAL TOPICS, 0-16 Credits
Topics and credits vary.
This course is repeatable for 16 credits.

BB 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

BB 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

BB 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

BB 507, SEMINAR, 1-2 Credits
Section 1: Descriptions of campus research programs in biochemistry and biophysics, 1 credit fall. Graded P/N. Student presentations of current research literature, 1 credit winter and spring. Should be taken by all entering departmental graduate students. Section 2: Presentation of departmental research seminar, 2 credits any term. PhD candidates in biochemistry and biophysics present a departmental research seminar in the third or fourth year. One registers in the term the seminar is presented.
This course is repeatable for 16 credits.

BB 550, GENERAL BIOCHEMISTRY, 4 Credits
Sequence course for students with a limited background in physical chemistry. BB 450/BB 550, three lectures and one recitation. BB 451/BB 551 and BB 452, three lectures.
Recommended: CH 332
Available via Ecampus

BB 551, GENERAL BIOCHEMISTRY, 3 Credits
Sequence course for students with a limited background in physical chemistry. BB 450/BB 550, three lectures and one recitation. BB 451/BB 551 and BB 452, three lectures.
Recommended: BB 550
Available via Ecampus

BB 560, ADVANCED CELL BIOLOGY, 3 Credits
History and theory of cell biology; microscopy and other techniques to study cells and organelles; membranes; organelles; protein import; cell signaling; cytoskeleton; polarity; cell cycle; stem cells; pattern formation; cancer biology
Recommended: BB 314 or BI 314 or BI 314H or BB 492 or BB 451

BB 581, MACROMOLECULAR STRUCTURE, 3 Credits
An introduction to structural biology, the discipline focused on understanding the structural properties of biological macromolecules—especially proteins and nucleic acids—and relating them to their function. Introduces students to the vocabulary and tools of this discipline, covering both the fundamental physico-chemical principles governing the structure and function of biological macromolecules and a selected set of widely used experimental and theoretical approaches to their characterization. This is done through lectures, textbook and literature readings. Graduate students receive additional experience in scientific writing, reading and presentation through a literature-based term project.
Recommended: BB 450 or BB 490
Available via Ecampus

BB 582, BIOPHYSICS, 3 Credits
Examines quantitative properties of biological systems and biological phenomena using concepts derived from mathematics and physics.
Prerequisite: BB 581 with D- or better

BB 583, ADVANCED BIOCHEMISTRY AND BIOPHYSICS: CAPSTONE, 3 Credits
Covers applications of advanced biophysical techniques, and how these fit within the larger context of biochemistry, biology and society. Explores techniques and their applications to macromolecules as well as the scientific process. Techniques discussed include in vitro, in vivo, and in silico methods, with an emphasis on biomolecular interactions.
Prerequisite: BB 582 with C or better
BB 584, CHROMATIN AND EPIGENETICS, 3 Credits
An in-depth look at ‘chromatin’ (the complex generated by DNA, RNA and complex protein) and how it behaves during gene activation and silencing. Specific examples of long-lasting gene regulation (across cell cycles) will be used to describe the concept of ‘epigenetic’ gene regulation by modification of DNA or proteins. The class will combine more traditional lectures with discussion periods where primary research papers will be analyzed. The target audience is third- and fourth-year students as well as graduate students. 
Recommended: (BI 314 or BI 314H) and BI 315

BB 585, APPLIED BIOINFORMATICS, 3 Credits
Fundamental concepts needed to understand the software and methods used in bioinformatics. Includes contemporary techniques such as databases, gene and genome annotations, functional annotations, sequence alignment, motif finding, secondary structure prediction, phylogenetic tree construction, high-throughput sequence data, ChIP-Seq peak identification, transcriptome profiling by RNA-Seq, microRNA discovery and target prediction. 
Recommended: BB 314 or BB 314H

BB 586, ADVANCED MOLECULAR GENETICS, 3 Credits
Covers aspects of transmission genetics (Mendel’s laws, mapping strategies) informed by the machineries required for genetic information storage, transcription, translation, and protein processing. Analyses of state-of-the-art primary literature and lectures give a perspective on important “model” organisms, including examples from among bacteria, plants, fungi, and animals. 
Recommended: (BI 314 or BI 314H) and BI 315 and BB 492

BB 590, BIOCHEMISTRY 1: STRUCTURE AND FUNCTION, 3 Credits
Examines how the structure and function of biological macromolecules arises from the organic chemistry of their fundamental building blocks. The organic chemistry of biochemistry will be a focus, including the mechanisms by which enzymes catalyze biological reactions.

BB 591, BIOCHEMISTRY 2: METABOLISM, 3 Credits
Sequence professional course to meet the requirements of majors in biochemistry and biophysics. The second course in the series, BB 491/BB 591 covers the mechanisms and regulation of the pathways by which cells break down fuel molecules, conserve some of the released energy in the form of reactive nucleotides, and use this energy to create biological building blocks from simpler metabolites.  
Prerequisite: BB 590 with C or better

BB 592, BIOCHEMISTRY 3: GENETIC BIOCHEMISTRY, 3 Credits
Sequence professional course to meet the requirements of majors in biochemistry and biophysics. The third course in the series, BB 492/BB 592 focuses on genetic biochemistry, including the synthesis of nucleotides, DNA synthesis and repair, RNA synthesis and processing, and protein synthesis and modification.  
Prerequisite: BB 590 with C or better and BB 591 [C]

BB 593, BIOCHEMISTRY LABORATORY MOLECULAR TECHNIQUES 1, 3 Credits
Laboratory course to accompany BB 450, BB 451 or BB 490, BB 491, BB 492. Lec/lab. 
Recommended: (BB 451 or BB 451H) or BB 492

BB 594, BIOCHEMISTRY LABORATORY MOLECULAR TECHNIQUES 2, 3 Credits
Laboratory to accompany BB 450, BB 451 or BB 490, BB 491, BB 492. Lec/lab. 
Recommended: BB 493 or BB 593 or BB 315 or BI 315

BB 599, SPECIAL TOPICS, 0-16 Credits
Topics and credits vary.  
This course is repeatable for 16 credits.

BB 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

BB 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

BB 605, READING & CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

BB 607, SEMINAR, 1-2 Credits
Section 1: Descriptions of campus research programs in biochemistry and biophysics, 1 credit fall. Graded P/N. Student presentations of current research literature, 1 credit winter and spring. Should be taken by all entering departmental graduate students. Section 2: Presentation of departmental research seminar, 2 credits any term. PhD candidates in biochemistry and biophysics present a departmental research seminar in the third or fourth year. One registers in the term the seminar is presented. This course is repeatable for 16 credits.

BB 650, SELECTED TOPICS IN BIOCHEMISTRY AND BIOPHYSICS, 3 Credits
Nonsequence courses designed to acquaint student with current research in biochemistry and biophysics. Courses include enzyme kinetics, cell cycle and cancer, neurochemistry, oxidative stress, cell adhesion and motility. Most courses offered alternate years.  
This course is repeatable for 18 credits.
BB 651, SELECTED TOPICS IN BIOCHEMISTRY AND BIOPHYSICS, 3 Credits
Nonsequence courses designed to acquaint student with current research in biochemistry and biophysics. Courses include cell surfaces, enzyme kinetics, metabolism, neurochemistry, trace element metabolism, biological oxidations, and bioenergetics. Most courses offered alternate years. 
This course is repeatable for 18 credits.

BB 652, SELECTED TOPICS IN BIOCHEMISTRY AND BIOPHYSICS, 3 Credits
Nonsequence courses designed to acquaint student with current research in biochemistry and biophysics. Courses include cell surfaces, enzyme kinetics, metabolism, neurochemistry, trace element metabolism, biological oxidations, and bioenergetics. Most courses offered alternate years. 
This course is repeatable for 18 credits.

BB 699, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

BioHealth Sciences (BHS)

BHS 107, HEALTH PROFESSIONS: DENTAL, 1 Credit
Discussion of matters relating to a dental career. Includes application procedures, the importance of various requirements, admissions, professional school curricula, financing education and related matters. Speakers are included. Graded P/N.

BHS 110, BIOHEALTH SCIENCES ORIENTATION, 1 Credit
Introduction of incoming BioHealth Sciences students to college life with an emphasis on faculties, facilities, services, and curricula in BHS. Exposure to career opportunities for students interested in the BioHealth Sciences. Graded P/N.

BHS 199, SPECIAL TOPICS, 1-16 Credits
Graded P/N. 
Equivalent to: GS 199
This course is repeatable for 16 credits.

BHS 211, PROFESSIONAL DEVELOPMENT II: MOLECULAR, MICROBIAL, BIOHEALTH, 1 Credit
Develop awareness of the elements of professional development, identify strategic areas for growth, and design an exploration plan. Emphasis is placed on being able to analyze career opportunities to determine the best mix of technical and professional skills needed for success as a biological science professional. Graded P/N. CROSSLISTED as BB 211/ BHS 211.
Equivalent to: BB 211

BHS 255, ALLIED HEALTH MICROBIOLOGY, 4 Credits
General properties of cellular microbes and viruses, microbial biochemistry and genetics, pathogenesis and disease, immunity, and microbial infections. Lecture and lab emphasis is on medical microbiology, infectious diseases, and public health. Not intended for biological sciences majors. Lec/lab. CROSSLISTED as BHS 255/MB 255. 
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: MB 255
Available via Ecampus

BHS 316, PRINCIPLES OF IMMUNOLOGY, 3 Credits
Interactions of the innate and adaptive immune responses in the context of infectious diseases, autoimmunity, immunodeficiencies and immunotherapies. This course is designed for non-microbiology majors. 
Prerequisite: MB 230 with C- or better or (BI 212 with C- or better or BI 212H with C- or better) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]))
Available via Ecampus

BHS 320, HUMAN BACTERIOLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 205 [C-] and BI 206 [C-]) or ((BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])
Equivalent to: MB 320
Available via Ecampus

BHS 323, *MICROBIAL INFLUENCES ON HUMAN HEALTH, 3 Credits
How microorganisms contribute in beneficial and detrimental ways to human health. Emphasis on microbial contributions to cancer, gut health, chronic infection and autoimmunity diseases. This course is part of the Writing Intensive Curriculum for the BioHealth Sciences major. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: MB 302 with D- or better or (BB 314 with D- or better or BB 314H with D- or better) or BB 450 with D- or better
Available via Ecampus

BHS 329, MECHANISMS OF DISEASE: INTRODUCTION TO GENERAL PATHOLOGY, 3 Credits
An introduction to basic principles of disease, focused on structural and functional changes of cells, tissues and organs, and their relationships to clinical disease. The emphasis of the course is at the cellular to organ level, but will cover some on molecular mechanisms as pertinent. 
Prerequisite: (BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]))
Available via Ecampus
BHS 340, HUMAN VIROLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 206 [C-] or (BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]))
Equivalent to: MB 340
Available via Ecampus

BHS 401, RESEARCH, 1-16 Credits
Equivalent to: GS 401
This course is repeatable for 16 credits.

BHS 403, THESIS, 1-16 Credits
Equivalent to: GS 403
This course is repeatable for 16 credits.

BHS 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: GS 405
This course is repeatable for 16 credits.

BHS 406, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

BHS 407, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: GS 407
This course is repeatable for 16 credits.

BHS 410, SCIENCE INTERNSHIP, 1-12 Credits
Supervised scientific work experience at selected cooperating institutions, agencies, laboratories, or companies. Graded P/N.
Equivalent to: GS 410
This course is repeatable for 12 credits.

BHS 415, ONE HEALTH IN PRACTICE, 3 Credits
One health is the concept that human, animal and environmental health are all intertwined. Utilizes current one health issues such as disease outbreaks and antimicrobial resistance to encourage students from diverse fields to develop interdisciplinary collaboration and communication skills. CROSSLISTED as BHS 415/VMB 415.
Equivalent to: VMB 415
Recommended: At least third-year standing.

BHS 499, SPECIAL TOPICS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

Biological & Ecological Engr (BEE)

BEE 101, ECOLOGICAL ENGINEERING I, 3 Credits
Introduction to engineering at OSU and the field of ecological engineering. Topics include engineering analysis and problem solving, professional ethics, the design process and teamwork.
Recommended: MTH 112

BEE 102, ECOLOGICAL ENGINEERING II, 3 Credits
Introduction to common problems and solutions in ecological engineering, emphasizing the multiplicity of approaches to constraining, analyzing, and resolving challenges of ecosystem management. Two overnight field trips to local ecological monitoring and engineering sites will be required.

BEE 103, ECOLOGICAL ENGINEERING III, 3 Credits
Programming hardware/software for sensing and control with applications in Ecological Engineering. Introduction to computational thinking strategies.

BEE 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

BEE 221, FUNDAMENTALS OF ECOLOGICAL ENGINEERING, 3 Credits
Introduction to the concepts and practice of ecological engineering. Covers chemical behavior and cycling in the environment, chemical kinetics, and unit processes of conventional treatment systems. Topics are applied to develop ecological treatment alternatives that meet the needs of human societies.

BEE 222, ECOLOGICAL ENGINEERING COMPUTATION, 2 Credits
Develops programming skills in Python, including basic programming tasks, data analysis, data visualization, and optimization, with applications in Ecological Engineering. Builds computational thinking skills.

BEE 270, ECOLOGY FOR ENGINEERS, 3 Credits
The study of ecology in the context of engineering. Develops an understanding of the patterns associated with species distribution in the natural world. Examines the theories of competition, predation, disease and mutualism that help explain the functioning of biological communities. Discusses interactions between abiotic and organismal factors, the environment, and ecological properties and processes.

BEE 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
BEE 311, ECOLOGICAL FLUID MECHANICS, 4 Credits
Fluid properties, fluid statics, fluid motion, conservation of mass, momentum and energy for incompressible fluids, dimensional analysis, ecological engineering applications. Lec/rec.
Prerequisite: (PH 212 with C or better or PH 212H with C or better) and (MTH 254 [C] or MTH 254H [C]) and (ENGR 211 [C] or ENGR 211H [C])

BEE 312, ECOHYDRAULICS, 4 Credits
Theory and design of hydraulic systems for ecological engineering applications. Lec/rec.
Prerequisite: BEE 311 with C or better or CE 311 with C or better or CHE 331 with C or better or CHE 331H with C or better

BEE 313, ECOHYDROLOGY, 4 Credits
Provides a quantitative description of fundamental ecohydroligic processes, the interactions of between water and the atmosphere, soils, and plants, as well as techniques for estimating the movement of water in the though ecosystems.
Prerequisite: BEE 312 with C or better and BEE 320 [C]

BEE 320, BIOSYSTEMS ANALYSIS AND MODELING, 4 Credits
An introduction to simulation modeling and analysis of a variety of biological and ecological systems. Systems approaches to describing ecological systems.
Prerequisite: BEE 222 with C or better and (MTH 256 [C] or MTH 256H [C])
Recommended: MTH 256

BEE 322, ECOLOGICAL ENGINEERING THERMODYNAMICS AND TRANSFER PROCESS, 4 Credits
A study of the transport processes of fluid flow, heat transfer and mass transfer applied to biological organisms and ecological systems.
Prerequisite: BEE 320 with C or better

BEE 361, ECOLOGICAL ENGINEERING LABORATORY, 3 Credits
Introduction to modern measurement methods for ecological and environmental applications includes sensors and systems for measuring soil, water and atmospheric properties. No final exam; field trip required. Lec/lab.
Prerequisite: BEE 312 with C or better

BEE 362, ECOLOGICAL ENGINEERING MICROBIAL PROCESSES, 3 Credits
Applies ecological engineering principles to the modeling, analysis and design of microbial processes in the environment.
Prerequisite: BEE 320 with C or better or ENVE 322 with C or better

BEE 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

BEE 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

BEE 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: BRE 405
This course is repeatable for 16 credits.

BEE 407, SEMINAR, 1-16 Credits
Departmental seminars. Graded P/N.
Equivalent to: BEE 407H, BRE 407
This course is repeatable for 16 credits.

BEE 407H, SEMINAR, 1-16 Credits
Departmental seminars. Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: BEE 407
This course is repeatable for 16 credits.

BEE 410, ECOLOGICAL ENGINEERING INTERNSHIP, 1-12 Credits
Internship in ecological engineering to provide students with an opportunity to apply course work and theory to the real world. Requires internship opportunity identification by student.
This course is repeatable for 12 credits.

BEE 411, GLOBAL ENVIRONMENTAL CHANGE: USING DATA TO INFORM DECISIONS, 3 Credits
Empowers students interested in global change research to focus on the interactions between changes in human land use and climate. Using an innovative online data and mapping tool called Data Basin, students will explore topics accessing the highest quality datasets available in an all-in-one platform.
Prerequisite: FE 257 with C or better
Available via Ecampus

BEE 415, PROFESSIONAL DEVELOPMENT, 1 Credit
Preparation for student professional careers. Students will interact with and hear seminars from professionals working in the ecological engineering field to learn from their experiences.
Corequisites: BEE 469

BEE 433, IRRIGATION SYSTEM DESIGN, 4 Credits
Principles of soil physics and plant water use applied to irrigation system design. Design of gravity, pressurized, and trickle irrigation systems, improving on-farm water management, performance characteristics of pumps and other irrigation equipment. Lec/lab. Offered alternate years.
Prerequisite: BEE 312 with C or better or CE 313 with C or better
Equivalent to: BRE 433
BEE 438, ECOLOGICAL SYSTEMS ANALYSIS, 4 Credits
An introduction to sustainability with a focus on case studies that are relevant to biological and ecological engineers. An introduction to tools that perform technical feasibility analysis, economic viability analysis, environmental risk assessment, resource sustainability assessment and life cycle assessment (LCA). Course will consist of theory and case studies highlighting the use of LCA methods to assess sustainability.
Prerequisite: ENGR 391 with C or better or ENGR 391H with C or better

BEE 439, IRRIGATION PRINCIPLES AND PRACTICES, 4 Credits
Survey of irrigation systems, system configurations, factors that influence irrigation efficiency, crop water requirements, energy requirements, pumps, irrigation scheduling. For non-engineers. Lec/lab/rec.
Prerequisite: MTH 111 with C or better
Equivalent to: BRE 439

BEE 446, RIVER ENGINEERING, 4 Credits
Multipurpose river use; natural physical processes in alluvial rivers; channel modification practices; river structures; design practices; impact of river modification; problem analysis; and impact minimization. Offered alternate years.
Prerequisite: BEE 312 with C or better or CE 313 with C or better
Recommended: CE 313

BEE 458, NONPOINT SOURCE POLLUTION ASSESSMENT AND CONTROL, 3 Credits
Problem solving in nonpoint source pollution. Methods for evaluating the extent, rate, timing, and fate of Non-Point Source (NPS) pollutants in agricultural and urban environments.
Prerequisite: BEE 313 with C or better or CE 412 with C or better
Available via Ecampus

BEE 468, BIOREMEDIATION ENGINEERING, 4 Credits
Examines strategies for using a variety of biological processes for treating municipal, agricultural and industrial contaminants. Lec/lab.
Prerequisite: BEE 221 with C or better or ENVE 322 with C or better
Available via Ecampus

BEE 469, ECOLOGICAL ENGINEERING DESIGN I, 4 Credits
Engineering design processes for ecological engineering applications, including specifications, performance criteria, timelines, and project logistics, principles and practices of working in engineering teams.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: BEE 322 with C or better
Recommended: ENGR 391 or ENGR 391H

BEE 470, ECOLOGICAL ENGINEERING DESIGN II, 4 Credits
Engineering design processes for ecological engineering applications, including specifications, performance criteria, timelines, and project logistics, principles and practices of working in engineering teams.
Prerequisite: BEE 469 with C or better

BEE 472, INTRODUCTION TO FOOD ENGINEERING PRINCIPLES, 5 Credits
Fundamental engineering principles for scientists and non-process engineers. Topics include fluid flow, mass and energy transfer, and material and energy balances. Directed at food scientists and other majors who need or would like a working knowledge of food engineering principles.
Prerequisite: MTH 112 with C or better and (MTH 227 [C-] or MTH 251 [C-] or MTH 251H [C-]) and PH 201 [C-]
Equivalent to: BEE 452

BEE 473, INTRODUCTION TO FOOD ENGINEERING PROCESS DESIGN, 3 Credits
Fundamental engineering process design principles for food scientists and non-process engineers. Directed at those who need or would like a working knowledge of applied food engineering process design. Lec/rec.
Equivalent to: BEE 453
Recommended: BEE 472 or BEE 572

BEE 481, ECOLOGICAL ENGINEERING DESIGN I, 4 Credits
Explores engineering design processes for ecological engineering applications, including specifications, performance criteria, timelines, and project logistics, principles and practices of working in engineering teams.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: BEE 322 with C or better
Equivalent to: BEE 469

BEE 482, ECOLOGICAL ENGINEERING DESIGN II, 3 Credits
Designs engineering processes for ecological engineering applications, including specifications, performance criteria, timelines, and project logistics, principles and practices of working in engineering teams.
Prerequisite: BEE 481 with C or better

BEE 483, ECOLOGICAL ENGINEERING DESIGN III, 2 Credits
Designs engineering processes for ecological engineering applications, including specifications, performance criteria, timelines, and project logistics, principles and practices of working in engineering teams.
Prerequisite: BEE 482 with C or better

BEE 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.
Equivalent to: BEE 499H, BRE 499

BEE 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.
Equivalent to: BEE 499

BEE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
BEE 503, THESIS, 1-16 Credits
Equivalent to: BRE 503
This course is repeatable for 99 credits.

BEE 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: BRE 505
This course is repeatable for 16 credits.

BEE 506, PROJECTS, 1-16 Credits
Equivalent to: BRE 506
This course is repeatable for 16 credits.

BEE 507, SEMINAR, 1 Credit
Section 1: Graduate Student Orientation Seminar to acquaint new graduate students with graduate school and departmental requirements, policies and expectations, and departmental research programs.
Section 2: Graduate Research Publication Seminar to expose students to requirements for successful proposals and publication of research results.
Section 3: Oral Presentation Improvement--A highly participatory educational effort designed to improve performance in presenting research reports, technical papers and in responding to oral examination questions. Graded P/N.
Equivalent to: BRE 507
This course is repeatable for 99 credits.

BEE 511, GLOBAL ENVIRONMENTAL CHANGE: USING DATA TO INFORM DECISIONS, 3 Credits
Empowers students interested in global change research to focus on the interactions between changes in human land use and climate. Using an innovative online data and mapping tool called Data Basin, students will explore topics accessing the highest quality datasets available in an all-in-one platform.
Available via Ecampus

BEE 512, PHYSICAL HYDROLOGY, 3 Credits
Principles of hydrologic processes and the integration of these processes into the hydrologic cycle. Topics include atmospheric processes, precipitation and runoff, storm response in streamflow on a watershed scale, and major concepts in groundwater systems.
Equivalent to: BRE 512
Recommended: One year of calculus.
Available via Ecampus

BEE 522, DATA ANALYSIS AND VISUALIZATION USING PYTHON, 3 Credits
Foundation course in computational thinking and computational skills relevant to data analysis and visualization of environmental data.

BEE 525, STOCHASTIC HYDROLOGY, 3 Credits
Introduction to fundamental concepts that are needed for stochastic modeling of hydrologic processes in presence of nonstationarity and uncertainty. CROSSLISTED as BEE 525/CE 525.
Prerequisite: CE 512 with C or better or BEE 512 with C or better
Equivalent to: CE 525

BEE 529, BIOSYS MODELING TECHNIQUES, 3 Credits
Development of mathematical models of biological and ecological systems; linear and nonlinear systems analysis; stochastic modeling and random processes; model solution and analysis techniques.

BEE 533, IRRIGATION SYSTEM DESIGN, 4 Credits
Principles of soil and plant water use applied to irrigation system design. Design of gravity, pressurized, and trickle irrigation systems, improving on-farm water management, performance characteristics of pumps and other irrigation equipment. Lec/lab. Offered alternate years.
Equivalent to: BRE 533
Recommended: ENGR 332

BEE 538, ECOLOGICAL SYSTEMS ANALYSIS, 4 Credits
An introduction to sustainability with a focus on case studies that are relevant to biological and ecological engineers. An introduction to tools that perform technical feasibility analysis, economic viability analysis, environmental risk assessment, resource sustainability assessment and life cycle assessment (LCA). Course will consist of theory and case studies highlighting the use of LCA methods to assess sustainability.
Recommended: ENGR 391 or ENGR 391H

BEE 540, ENVIRONMENTAL TRANSPORT PROCESSES, 3 Credits
Mixing and transport processes in the environment.

BEE 542, VADOSE ZONE TRANSPORT, 4 Credits
Introduction to the physical and hydraulic properties involved in flow from the soil surface to groundwater. Classical infiltration equations will be derived and presented with exact and approximate solutions. Attention is focused on application to pollutant transport and recent advances in non-ideal flow.
Equivalent to: BRE 542
Recommended: MTH 254

BEE 544, OPEN CHANNEL HYDRAULICS, 4 Credits
Steady, uniform, and nonuniform flow in natural and artificial open channels; unsteady flow; interaction of flow with river structures; and computational methods. Offered alternate years.
Equivalent to: BRE 544, CE 544
Recommended: CE 313

BEE 545, SEDIMENT TRANSPORT, 4 Credits
Principles of sediment erosion, transportation and deposition in rivers, reservoirs, and estuaries; measurement, analysis, and computational techniques. Offered even years in winter term. CROSSLISTED as BEE 545/FE 545.
Equivalent to: BRE 545, FE 545
Recommended: CE 313 or FE 330
BEE 546, RIVER ENGINEERING, 4 Credits
Multipurpose river use; natural physical processes in alluvial rivers; channel modification practices; river structures; design practices; impact of river modification; problem analysis; and impact minimization. Offered alternate years.
Equivalent to: CE 546
Recommended: CE 313

BEE 549, REGIONAL HYDROLOGIC MODELING, 3 Credits
Challenges in regional-scale water resource analysis and management with emphasis on application to production agriculture. Application of geostatistical techniques to spatially variable systems and remote sensing to large-scale water resource systems. Development of soil-water-atmosphere-plant models. Analysis of evapotranspiration estimating methods. Offered alternate years.
Equivalent to: BRE 549
Recommended: BEE 512 and MTH 256

BEE 558, NONPOINT SOURCE POLLUTION ASSESSMENT AND CONTROL, 3 Credits
Problem solving in nonpoint source pollution. Methods for evaluating the extent, rate, timing, and fate of Non-Point Source (NPS) pollutants in agricultural and urban environments.
Available via Ecampus

BEE 559, SPECIAL TOPICS, 0-16 Credits
Equivalent to: BRE 599
This course is repeatable for 16 credits.

BEE 568, BIOREMEDIATION ENGINEERING, 4 Credits
Examines strategies for using a variety of biological processes for treating municipal, agricultural and industrial contaminants. Lec/lab. Available via Ecampus

BEE 572, INTRODUCTION TO FOOD ENGINEERING PRINCIPLES, 5 Credits
Fundamental engineering principles for scientists and non-process engineers. Topics include fluid flow, mass and energy transfer, and material and energy balances. Directed at food scientists and other majors who need or would like a working knowledge of process engineering principles.
Recommended: MTH 112 and (MTH 227 or MTH 251 or MTH 251H) and PH 201

BEE 573, INTRODUCTION TO FOOD ENGINEERING PROCESS DESIGN, 3 Credits
Fundamental engineering process design principles for food scientists and non-process engineers. Directed at those who need or would like a working knowledge of applied food engineering process design. Lec/rec.
Equivalent to: BEE 553
Recommended: BEE 472 or BEE 572

BEE 585, METABOLIC SYSTEMS ENGINEERING, 3 Credits
Quantitative and experimental approaches for describing and engineering biological networks and an introduction to the principles and methodologies of metabolic engineering and synthetic biology.
Equivalent to: BIOE 585
Recommended: Statistics, biology, biochemistry or microbiology.

BEE 586, PROBLEM SOLVING FOR METABOLIC SYSTEMS ENGINEERING, 1 Credit
Corequisites: BEE 585
Recommended: MTH 251 and MTH 252

BEE 601, RESEARCH, 1-16 Credits
Equivalent to: BRE 601
This course is repeatable for 16 credits.

BEE 603, THESIS, 1-16 Credits
Equivalent to: BRE 603
This course is repeatable for 999 credits.

BEE 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: BRE 605
This course is repeatable for 16 credits.

BEE 606, PROJECTS, 1-16 Credits
Equivalent to: BRE 606
This course is repeatable for 16 credits.

BEE 607, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: BRE 607
This course is repeatable for 16 credits.

BEE 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Biological Data Sciences (BDS)

BDS 211, USE AND ABUSE OF DATA: CRITICAL THINKING IN SCIENCE, 3 Credits
Critically examine how data analysis can support legitimate conclusions from biological datasets and also how deceptive visualizations, misleading comparisons, and spurious reasoning can lead to false conclusions. Analyze data to break down the logical flow of an argument and identify key assumptions, even when they are not stated explicitly.
Prerequisite: (MTH 251 (may be taken concurrently) with C- or better or MTH 251H (may be taken concurrently) with C- or better) or MTH 227 with C- or better or MTH 241 with C- or better or MTH 245 with C- or better
BDS 311, COMPUTATIONAL APPROACHES FOR BIOLOGICAL DATA, 3 Credits

The theory and practice underlying widely used computational methods for biological data analysis. Focuses on the analysis and visualization of large data sets using Python, with broad applications to genomics, ecology, and other disciplines. Topics may include image processing, time series analysis, dimensionality reduction, and resampling methods. Develops student expertise in designing and implementing algorithms in the Python programming language. **Prerequisite:** (BI 223 with C- or better or BI 223H with C- or better) and (MTH 252 [C-] or MTH 252H [C-] or MTH 228 [C-]) and (CS 161 [C-] or BOT 476 [C-])

BDS 406, SPECIAL PROJECTS, 1-99 Credits

This course is repeatable for 99 credits.

BDS 411, ANALYSIS OF BIOLOGICAL DATA: CASE STUDIES, 3 Credits

Case studies; synthesize previously acquired knowledge and skills in biology, mathematics, statistics, and computer science to implement, in writing, an analysis strategy. (Writing Intensive Course) **Attributes:** CWIC – Core, Skills, WIC

**Prerequisite:** (BI 311 with C- or better or BI 311H with C- or better) or (BB 314 with C- or better or BB 314H with C- or better) or MB 310 with C- or better) and ((MTH 252 with C- or better or MTH 252H with C- or better) or MTH 228 with C- or better) and CS 261 [C-] and (ST 352 [C-] or ST 412 [C-])

BDS 474X, INTRODUCTION TO GENOME BIOLOGY, 3 Credits

Explores how genomes underlie and influence biological phenomena, across the diversity of life, from prokaryotic microbes to eukaryotic multicellular organisms. Covers genome organization: the structure of chromosomes and chromatin; genes and gene families; and mechanisms that remodel genomes, such as mutation, recombination and transposable elements in the first part of the course. Focuses on genome expression and regulation: gene expression, cellular functions and biochemical pathways; transcriptional and post-transcriptional regulatory mechanisms; and genotype-to-phenotype relationships in the second part of the course. Emphasizes the use of recent technological advances and genome-wide assays that enable investigation of these topics. **Prerequisite:** BI 311 (may be taken concurrently) with C- or better or BB 314 (may be taken concurrently) with C- or better  
**Equivalent to:** BOT 474X

BDS 475, COMPARATIVE GENOMICS, 4 Credits

Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. **CROSSLISTED** as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575. **Prerequisite:** (BB 314 with D- or better or BB 314H with D- or better) and (BI 311 [D-] or BI 311H [D-] or PBG 430 [D-])  
**Equivalent to:** BOT 475  
**Recommended:** Basic working knowledge of cell and molecular biology and genetics

BDS 478, FUNCTIONAL GENOMICS, 3 Credits

Introduces conceptual approaches and associated laboratory techniques that rely on genome-scale datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. Examples include: predicting protein function based on nucleotide and amino acid sequence analysis; large-scale genetic approaches to identifying novel genotype-phenotype associations; and analysis of transcriptomic, proteomic and metabolomic datasets, which measure changes in RNA transcripts, proteins and metabolites, respectively, to explore gene function and cellular/organismal networks. Provides a conceptual framework for understanding how the wide range of available large-scale technologies can be applied to solve biological problems. **Prerequisite:** BB 314 with C- or better or BB 314H with C- or better  
**Equivalent to:** BOT 460, BOT 478

BDS 491, CAPSTONE PROJECTS IN BIOLOGICAL DATA SCIENCE I, 3 Credits

Quantitative skills and biological thinking will be used to analyze and draw conclusions from real-world biological datasets. Projects will be completed in the context of small groups. Draws on skills in mathematics, statistics, computer science, and biology. **Prerequisite:** (ST 352 with C- or better or ST 412 with C- or better) and (CS 162 [C-] or BOT 476 [C-] or BB 485 [C-] or MTH 427 [C-])

BDS 492, CAPSTONE PROJECTS IN BIOLOGICAL DATA SCIENCE II, 3 Credits

Quantitative skills and biological thinking will be used to analyze and draw conclusions from biological datasets retrieved in BDS 412. This is a synthesis course that draws skills in mathematics, statistics, computer science, and biology, in which the students will process their curated datasets and draw conclusions. **Prerequisite:** BDS 491 with C- or better
BDS 574X, INTRODUCTION TO GENOME BIOLOGY, 3 Credits
Explores how genomes underlie and influence biological phenomena, across the diversity of life, from prokaryotic microbes to eukaryotic multicellular organisms. Covers genome organization: the structure of chromosomes and chromatin; genes and gene families; and mechanisms that remodel genomes, such as mutation, recombination and transposable elements in the first part of the course. Focuses on genome expression and regulation: gene expression, cellular functions and biochemical pathways; transcriptional and post-transcriptional regulatory mechanisms; and genotype-to-phenotype relationships in the second part of the course. Emphasizes the use of recent technological advances and genome-wide assays that enable investigation of these topics.
Equivalent to: BOT 574X

BDS 575, COMPARATIVE GENOMICS, 4 Credits
Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. CROSSLISTED as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575.
Equivalent to: BOT 575, MCB 575
Recommended: BB 314 and (BI 311 or PBG 430) and basic working knowledge of cell and molecular biology and genetics

BDS 578, FUNCTIONAL GENOMICS, 3 Credits
Introduces conceptual approaches and associated laboratory techniques that rely on genome-scale datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. Examples include: predicting protein function based on nucleotide and amino acid sequence analysis; large-scale genetic approaches to identifying novel genotype-phenotype associations; and analysis of transcriptomic, proteomic and metabolomic datasets, which measure changes in RNA transcripts, proteins and metabolites, respectively, to explore gene function and cellular/organismal networks. Provides a conceptual framework for understanding how the wide range of available large-scale technologies can be applied to solve biological problems. CROSSLISTED as BDS 478/BOT 478 and BDS 578/BOT 578.
Equivalent to: BOT 560, BOT 578

BDS 599, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 99 credits.

Biological Engineering (BIOE)
BIOE 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
BIOE 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 340, BIOMEDICAL ENGINEERING PRINCIPLES, 3 Credits
Application of engineering concepts (mass and energy conservation, thermodynamics, and transport phenomena) to cellular- and system-level human physiology; design considerations for biomedical interventions and devices.
Prerequisite: BI 231 with C or better and BI 233 (may be taken concurrently) [C] and CBEE 213 (may be taken concurrently) [C] and (CHE 333 (may be taken concurrently) [C] or CHE 333H (may be taken concurrently) [C])
Recommended: Completion or concurrent enrollment in BI 233 and (CHE 333 or CHE 333H)

BIOE 351, BIOMATERIALS AND BIOINTERFACES, 3 Credits
Material interactions with human tissue, with emphasis on the role of interfacial chemistry and physics in cell adhesion, infection, blood coagulation and thrombosis. Preparation of functional hydrogels, material coatings, and derivitizations, including immobilized bio-active molecules. Issues surrounding regulation of implants and device failure.
Prerequisite: (BB 451 (may be taken concurrently) with C or better or BB 451H (may be taken concurrently) with C or better) and (CHE 333 (may be taken concurrently) [C] or CHE 333H (may be taken concurrently) [C])

BIOE 399, SPECIAL TOPICS, 0-16 Credits
Equivalent to: BIOE 399H
This course is repeatable for 16 credits.

BIOE 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 415, BIOENGINEERING LABORATORY, 3 Credits
Laboratory experimentation with unit operations and processes in bioengineering; preparation of technical reports.
Prerequisite: CBEE 414 with C or better

BIOE 420, SOCIAL JUSTICE, ETHICS, AND ENGINEERING, 3 Credits
Examination of difference, power, and discrimination in engineering education and practice. Lec/rec.
Prerequisite: CBEE 320 with C or better
BIOE 440, BIOCONJUGATION, 3 Credits
Survey of theory and practical current methods for chemical modification and conjugation of proteins and other biomolecules. Topics include permanent and cleavable cross-linkers, protein modification reagents, immobilization of enzymes/DNA, enzyme-antibody conjugates, protein-protein interactions, PEGylation and labeling of proteins, and solid-phase peptide synthesis.
Prerequisite: BB 450 with C or better

BIOE 445, SURFACE ANALYSIS, 3 Credits
The characterization of molecular, biological, and engineered surfaces by modern surface analytical techniques. Topics include surface sensitive modes of electron spectroscopy, vibrational spectroscopy, and mass spectrometry. Students will interpret surface analytical data and gain access to the surface science literature.
Prerequisite: BIOE 351 (may be taken concurrently) with C or better

BIOE 457, BIOREACTORS, 3 Credits
Design and analysis of bioreactors using suspension and immobilized microbial cultures.
Prerequisite: (BB 451 with C or better or BB 451H with C or better) and (CHE 333 [C] or CHE 333H [C])

BIOE 459, CELL ENGINEERING, 3 Credits
Application of engineering methods and principles to the study of mammalian cells. Emphasis on mathematical models of cellular processes (e.g., cellular mass transport, protein-ligand interactions, cellular mechanics) and methods for probing the physical characteristics of biological molecules and cells.
Prerequisite: (BB 451 with C or better or BB 451H with C or better) and (CHE 333 [C] or CHE 333H [C])
Recommended: BB 451 and CHE 333

BIOE 462, BIOSEPARATIONS, 3 Credits
Application of basic mass transfer, reaction kinetics and thermodynamic principles to understanding, selection, and development of strategies for the recovery of products from bioreactors.
Prerequisite: (BB 451 with C or better or BB 451H with C or better) and (CHE 333 [C] or CHE 333H [C])

BIOE 490, BIOENGINEERING PROCESS DESIGN, 4 Credits
Prerequisite: BIOE 415 with C or better and BIOE 457 [C] and BIOE 462 [C]

BIOE 491, BIOENGINEERING PRODUCT DESIGN, 4 Credits
Design of biomedical and biotechnology-based products by a structured design process that considers customer and regulatory needs.
Prerequisite: BIOE 340 with C or better and (BB 451 [C] or BB 451H [C])

BIOE 492, BIOENGINEERING CAPSTONE DESIGN, 4 Credits
Culminating experience in bioengineering design of processes and devices. Includes capstone project prototyping, testing and documentation, and constraints in ethics, intellectual property, standards, regulatory, and manufacturing.
Prerequisite: BIOE 491 with C or better

BIOE 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

BIOE 503, THESIS, 1-16 Credits
Graded P/N.
This course is repeatable for 999 credits.

BIOE 507, SEMINAR, 1 Credit
Graded P/N.
This course is repeatable for 3 credits.

BIOE 511, CELLULAR AND MOLECULAR BIOENGINEERING, 3 Credits
Fundamentals of mammalian cell biology, with an emphasis on biomedical applications and engineering approaches to study and manipulate cells and tissues.
Recommended: A working knowledge of cell biology and biochemistry

BIOE 512, MODELING OF PHYSIOLOGICAL SYSTEMS, 4 Credits
Integration of engineering principles and human physiology in the areas of: transport phenomena in the cardiopulmonary and renal systems, bioelectricity in the nervous system, and mechanics of the musculoskeletal system.

BIOE 513, DRUG AND MEDICAL DEVICE REGULATIONS IN TECHNOLOGY DEVELOPMENT, 2 Credits
Overview of the processes by which drugs and devices are regulated by the Food and Drug Administration. Topics include drug and device classifications, approval routes for different classes of drugs and devices, current good manufacturing practices, process validation, and quality assurance and control.
Available via Ecampus

BIOE 520, SOCIAL JUSTICE, ETHICS, AND ENGINEERING, 3 Credits
Examination of difference, power, and discrimination in engineering education and practice. Lec/rec.

BIOE 540, BIOCONJUGATION, 3 Credits
Survey of theory and practical current methods for chemical modification and conjugation of proteins and other biomolecules. Topics include permanent and cleavable cross-linkers, protein modification reagents, immobilization of enzymes/DNA, enzyme-antibody conjugates, protein-protein interactions, PEGylation and labeling of proteins, and solid-phase peptide synthesis.
Recommended: BB 450

BIOE 545, SURFACE ANALYSIS, 3 Credits
The characterization of molecular, biological, and engineered surfaces by modern surface analytical techniques. Topics include surface sensitive modes of electron spectroscopy, vibrational spectroscopy, and mass spectrometry. Students will interpret surface analytical data and gain access to the surface science literature.
Recommended: BIOE 351
**BIOE 557, BIOREACTORS, 3 Credits**
Design and analysis of bioreactors using suspension and immobilized microbial cultures.
**Recommended:** (BB 451 or BB 451H) and (CHE 333 or CHE 333H)

**BIOE 562, BIOSEPARATIONS, 3 Credits**
Application of basic mass transfer, reaction kinetics and thermodynamic principles to understanding, selection, and development of strategies for the recovery of products from bioreactors.
**Recommended:** BB 451 and CHE 332

**BIOE 599, SPECIAL TOPICS, 1-16 Credits**
This course is repeatable for 16 credits.

**BIOE 603, THESIS, 1-16 Credits**
Graded P/N.
This course is repeatable for 999 credits.

**Biology (BI)**

**BI LD1, GENERAL CREDIT, 1-16 Credits**

**BI LD2, GENERAL CREDIT, 1-16 Credits**

**BI 003, UNDERGRADUATE RESEARCH, 0 Credits**
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

**BI 101, *ENVIRONMENTAL BIOLOGY: ECOLOGY, CONSERVATION, GLOBAL CHANGE, 4 Credits**
Introduction to ecosystems, including biodiversity, species interactions, human impacts, and conservation biology. Lectures introduce biological themes and research in the context of current issues in science and society. Hands-on laboratories focus on using organisms and technologies to explore biology and develop skills for lifelong learning. No previous science courses are required, intended for non-biological science majors. This course can be taken alone or in any combination with BI 102 or 103. Lec/lab/rec. (Bacc Core Course)
**Attributes:** CPBS – Core, Pers, Biological Science
**Available via Ecampus**

**BI 102, *ANIMAL BIOLOGY: GENES, BEHAVIOR AND EVOLUTION OF LIFE, 4 Credits**
Introduction to how genetics shapes life on Earth, including how understandings of DNA and environmental factors are leading to biotechnological advances. Lectures introduce biological themes and research in the context of current issues in science and society. Hands-on laboratories focus on using organisms and technologies to explore biology and develop skills for lifelong learning. No previous science courses are required, intended for non-biological science majors. This course can be taken alone or in any combination with BI 101 and BI 103. Lec/lab/rec. (Bacc Core Course)
**Attributes:** CPBS – Core, Pers, Biological Science
**Equivalent to:** BI 102H
**Available via Ecampus**

**BI 103, *HUMAN BIOLOGY: ANATOMY, PHYSIOLOGY AND DISEASE, 4 Credits**
Introduction to the biology of humans, including aspects of human health and disease. Lectures introduce biological themes and research in the context of current issues in science and society. Hands-on laboratories focus on using organisms and technologies to explore biology and develop skills for lifelong learning. No previous science courses are required, intended for non-biological science majors. This course can be taken alone or in any combination with BI 101 and BI 102. Lec/lab/rec. (Bacc Core Course)
**Attributes:** CPBS – Core, Pers, Biological Science
**Equivalent to:** BI 103H

**BI 109, HEALTH PROFESSIONS: MEDICAL, 1 Credit**
Discussion of matters relating to a medical career. Includes application procedures, the importance of various requirements, admissions, professional school curricula, financing education, and related matters. Speakers are included. Graded P/N.

**BI 111, INTRODUCTION TO MARINE LIFE IN THE SEA: MARINE HABITATS, 1 Credit**
A field-focused learning experience exploring the varied marine life and habitats on the Oregon coast, including rocky shores, sandy beaches, mud flats, bays and estuaries. Students will also be introduced to the breadth of marine science course offerings and research at Oregon State University’s Hatfield Marine Science Center located in Newport, Oregon. Graded P/N.
**Equivalent to:** FW 111
**Available via Ecampus**

**BI 150, INTRODUCTION TO MARINE BIOLOGY, 3 Credits**
Survey of marine organisms, the environments they inhabit, and their evolutionary adaptations for thriving in those environments. The course will also highlight current conservation challenges that threaten marine life, such as climate change, overfishing, and pollution.
BI 175, *GENOMES, IDENTITIES AND SOCIETIES, 3 Credits
DNA’s roles in shaping our senses of identity, individuality, and societal interconnectivity will be analyzed. New advances in genetic technology will be explored, along with their potential impacts on society. The relationships between genetics and discrimination will be examined with focus on cases from Oregon, America, and the world. (Bacc Core Course) Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

BI 197, PROFESSIONAL DEVELOPMENT I: HEALTH PROFESSIONS, 1 Credit
Integrative Biology faculty and other professionals introduce a variety of human health professions including dentistry, medicine, pharmacy and others (veterinary medicine students take BI 198). Emphasizes professional development through exploring relevant social and cognitive concepts, as well as engaging in experiential learning and networking. Departmental and campus student success resources are highlighted. Graded P/N.

BI 198, PROFESSIONAL DEVELOPMENT I: BIOLOGY AND ZOOLOGY, 1 Credit
Integrative Biology faculty and biology professionals introduce life science careers outside of human health professions (human health profession students take BI 197). Emphasizes professional development through exploring relevant social and cognitive concepts, as well as engaging in experiential learning and networking. Departmental and campus student success resources are highlighted. Graded P/N. Available via Ecampus

BI 199, SELECTED TOPICS, 1-16 Credits
Field Ecology.
Equivalent to: BI 199H
This course is repeatable for 16 credits.

BI 199H, SELECTED TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 199
This course is repeatable for 16 credits.

BI 204, *INTRODUCTORY BIOLOGY I, 4 Credits
Foundations of biological sciences including scientific inquiry, genetics, evolution, and ecology. Significant emphasis throughout on the application of core concepts to solve human and environmental problems. Laboratory emphasizes skills in critical thinking, scientific writing, and experimental design. Not intended for pre-health profession students. Lec/lab. (Bacc Core Course) Attributes: CPBS – Core, Pers, Biological Science
Available via Ecampus

BI 205, *INTRODUCTORY BIOLOGY II, 4 Credits
Fundamental concepts in molecular and cellular biology, beginning with biomolecules and the origin of life, and ending with genomics. Significant emphasis throughout on applications of biotechnology to solve human problems. Laboratory emphasizes skills in critical thinking, scientific writing, and experimental design. Not intended for pre-health profession students. Lec/lab. (Bacc Core Course) Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better) and (CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-] or CH 271H (may be taken concurrently) [D-])
Available via Ecampus

BI 206, *INTRODUCTORY BIOLOGY III, 4 Credits
Basic plant and animal physiology from an evolutionary perspective. Significant emphasis on topics of importance to human society, including human and plant disease. Laboratory emphasizes skills in critical thinking, scientific writing, and experimental design. Not intended for pre-health professional students. Lec/lab. (Bacc Core Course) Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better) and (CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-] or CH 271H (may be taken concurrently) [D-])
Available via Ecampus

BI 211, *PRINCIPLES OF BIOLOGY, 4 Credits
Origins of life, energy transformations, plant and animal diversity. Lec/lab. (Bacc Core Course) Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: BI 211H

BI 211H, *PRINCIPLES OF BIOLOGY, 4 Credits
Origins of life, energy transformations, plant and animal physiology. Lec/lab. (Bacc Core Course) Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: BI 211
BI 212, *PRINCIPLES OF BIOLOGY, 4 Credits
Cell biology, organ systems, plant and animal physiology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or CH 221 (may be taken concurrently) with D- or better or CH 224H (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better) and (CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 212H

BI 212H, *PRINCIPLES OF BIOLOGY, 4 Credits
Cell biology, organ systems, plant and animal physiology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Prerequisite: (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or CH 221 (may be taken concurrently) with D- or better or CH 224H (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better) and (CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 212

BI 213, *PRINCIPLES OF BIOLOGY, 4 Credits
Genetics, evolution, natural selection, and ecology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: CH 121 with D- or better or CH 201 with D- or better or CH 221 with D- or better or CH 224H with D- or better or ((CH 231 with D- or better or CH 231H with D- or better or CH 271 [D-]) )
Equivalent to: BI 213H

BI 213H, *PRINCIPLES OF BIOLOGY, 4 Credits
Genetics, evolution, natural selection, and ecology. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Prerequisite: CH 121 with D- or better or CH 201 with D- or better or CH 221 with D- or better or CH 224H with D- or better or ((CH 231 with D- or better or CH 231H with D- or better or CH 271 [D-]) )
Equivalent to: BI 213

BI 221, *PRINCIPLES OF BIOLOGY: CELLS, 4 Credits
Introduction to fundamental biological concepts and theories about the chemical and molecular basis of life, structure and function, transformation of energy and matter and information flow at a cellular and molecular level. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 221H

BI 221H, *PRINCIPLES OF BIOLOGY: CELLS, 4 Credits
Introduction to fundamental biological concepts and theories about the chemical and molecular basis of life, structure and function, transformation of energy and matter and information flow at a cellular and molecular level. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Prerequisite: (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 221

BI 222, *PRINCIPLES OF BIOLOGY: ORGANISMS, 4 Credits
Introduction to fundamental biological concepts and theories about plant, and animal physiology, evolution, structure and function, transformation of energy and matter and systems at an organismal level. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Prerequisite: BI 221 with D- or better and (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 222H

BI 222H, *PRINCIPLES OF BIOLOGY: ORGANISMS, 4 Credits
Introduction to fundamental biological concepts and theories about plant, and animal physiology, evolution, structure and function, transformation of energy and matter and systems at an organismal level. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Prerequisite: BI 221 with D- or better and (CH 121 (may be taken concurrently) with D- or better or CH 201 (may be taken concurrently) with D- or better or (CH 231 (may be taken concurrently) with D- or better or CH 231H (may be taken concurrently) with D- or better or CH 261 (may be taken concurrently) [D-] or CH 261H (may be taken concurrently) [D-] or CH 271 (may be taken concurrently) [D-]) )
Equivalent to: BI 222
BI 232, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The second of a three-term introductory series. Using a strong gross anatomy focus, course topics address the structures, functions and regulatory mechanisms involved in the human nervous, endocrine and reproductive systems. Lec.

Prerequisite: BI 231 (may be taken concurrently) with C- or better

BI 233, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The third of a three-term introductory series. Using a strong gross anatomy focus, course topics address the structures, functions, and regulatory mechanisms involved in the human cardiovascular, respiratory, urinary and digestive systems. Lec.

Prerequisite: BI 231 (may be taken concurrently) with C- or better

BI 241, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The first of a three-term introductory series. Using the human cadaver (prosection), course topics address fundamental concepts of biology as they apply to human anatomy and physiology and then focus on understanding the structures, functions, and regulatory mechanisms involved in the human skeletal, muscular and integumentary systems. Physiology demonstrations illustrate functions of organ systems. Lab/rec.

Prerequisite: BI 231 (may be taken concurrently) with C- or better

BI 242, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The second of a three-term introductory series. Using the human cadaver (prosection) and dissection of preserved specimens with a strong gross anatomy focus, course topics address the structures, functions and regulatory mechanisms involved in the nervous, endocrine and reproductive systems. Physiology demonstrations illustrate functions of organ systems. Lab/rec.

Prerequisite: BI 231 (may be taken concurrently) with C- or better and BI 232 (may be taken concurrently) [C-] and BI 241 (may be taken concurrently) [C-]

BI 243, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The third of a three-term introductory series. Using the human cadaver (prosection) and dissection of preserved specimens with a strong gross anatomy focus, course topics address the structures, functions, and regulatory mechanisms involved in the human cardiovascular, respiratory, urinary and digestive systems. Physiology demonstrations illustrate functions of organ systems. Lab/rec.

Prerequisite: BI 231 (may be taken concurrently) with C- or better and BI 233 (may be taken concurrently) [C-] and BI 241 (may be taken concurrently) [C-]

BI 231, INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term introductory series. Using a strong gross anatomy focus, course topics address fundamental concepts of biology as they apply to human anatomy and physiology and then focus on understanding the structures, functions, and regulatory mechanisms involved in the human skeleton, muscular and integumentary systems.

Prerequisite: BI 231 is a required prerequisite to BI 232 and BI 233. The BI 241 Lab is optional but prerequisite for either of the subsequent BI 242 or BI 243 lab courses in the series. Lec.
BI 298, PROFESSIONAL DEVELOPMENT FOR BIOLOGISTS II, 1 Credit

Students will develop awareness of the elements of professional development, identify strategic areas for growth, and design an exploration plan. Emphasis is placed on being able to analyze career opportunities to determine the best mix of technical and professional skills needed for success as a biological science professional. Graded P/N.

Equivalent to: BI 298H
Available via Ecampus

BI 299, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 16 credits.

BI 301, *HUMAN IMPACTS ON ECOSYSTEMS, 3 Credits

Selected human impacts on ecosystems are examined in depth, including air quality, global climate change, management of agricultural and forest resources, and threats to biological diversity. The causes, approaches to investigating, and potential solutions for each issue are discussed from a scientific and social perspective. Adverse effects on ecosystems that result from each environmental problem are examined. (Bacc Core Course)

Attributes: CSGI – Core, Synth, Global Issues
Recommended: One year of college biology or chemistry

BI 306, *ENVIRONMENTAL ECOLGY, 3 Credits

Biological, physical, and chemical nature of both natural and human-disturbed ecosystems. Topics include population and conservation ecology, toxins in the food chain and in the environment, forest decline and acid rain, eutrophication of terrestrial and aquatic ecosystems, and ecosystem restoration. Offered alternate years. (Bacc Core Course)

Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: BI 306H
Recommended: One year of college biology and chemistry

BI 306H, *ENVIRONMENTAL ECOLGY, 3 Credits

Biological, physical, and chemical nature of both natural and human-disturbed ecosystems. Topics include population and conservation ecology, toxins in the food chain and in the environment, forest decline and acid rain, eutrophication of terrestrial and aquatic ecosystems, and ecosystem restoration. Offered alternate years. (Bacc Core Course)

Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: BI 306
Recommended: One year of college biology and chemistry

BI 309, TEACHING PRACTICUM, 1-6 Credits

Introductory experience for students assisting with instruction in Biology or Zoology courses. Admission is by application. See Cordley 3029 for details.

This course is repeatable for 6 credits.

BI 311, GENETICS, 4 Credits

Fundamentals of Mendelian, quantitative, population, molecular, and developmental genetics. Lec/rec.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Equivalent to: BI 311H
Available via Ecampus

BI 311H, GENETICS, 4 Credits

Fundamentals of Mendelian, quantitative, population, molecular, and developmental genetics. Lec/rec.

Attributes: HNRS – Honors Course Designator
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Equivalent to: BI 311

BI 315, MOLECULAR BIOLOGY LABORATORY, 3 Credits

Laboratory projects exploring the transmission of genetic information from storage to function will introduce students to fundamental molecular biology concepts and techniques, including isolation of DNA, construction of recombinant plasmids, quantification of gene expression in model organisms, polymerase chain reaction, and analysis of protein expression and subcellular localization. Lec/lab.

Prerequisite: BB 314 with C- or better or BB 314H with C- or better
Equivalent to: BB 315

BI 319, *THEORY, PRACTICE AND DISCOURSE IN THE LIFE SCIENCES, 3 Credits

The practice of science and the critical evaluation of scientific claims are explored through writings, discussions and presentations. Topics including the scientific method, ethics and the role of science in society are examined along with implications for professionals ranging from health care to environmental biology. Strategies for effectively communicating science with diverse audiences are emphasized. (Writing Intensive Course).

Attributes: CWIC – Core, Skills, WIC
Prerequisite: (( (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) ) and (ST 351 [D-] or ST 351H [D-])
Available via Ecampus
BI 331, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term advanced series. With a strong focus on the physiological underpinnings of disease, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 123 [C-] or (CH 233 [C-] or CH 233H [C-]) and (CH 263 [C-] or CH 263H [C-])) and BI 341 (may be taken concurrently) [C-]

BI 332, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The second of a three-term advanced series. With a strong focus on the physiological underpinnings of disease, course topics address the structures, functions, and regulatory mechanisms involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: BI 331 with C- or better and BI 342 (may be taken concurrently) [C-]

BI 333, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The third part of a three-term advanced series. With a strong focus on the physiological underpinnings of disease, course topics address the structures, functions, and regulatory mechanisms involved in the cardiovascular, respiratory, urinary and digestive systems. Lec.
Prerequisite: BI 332 with C- or better and BI 343 (may be taken concurrently) [C-]

BI 341, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The first of a three-term advanced series. Using the human cadaver (prosection) and physiological data acquisition equipment, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the human skeletal, muscular and integumentary systems. Lab.
Corequisites: BI 331

BI 342, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The second of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human nervous, endocrine and reproductive systems. Lab.
Corequisites: BI 332

BI 343, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The third of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human cardiovascular, respiratory, urinary and digestive systems. Lab.
Corequisites: BI 333

BI 345, *INTRODUCTION TO EVOLUTION, 3 Credits
Elements of evolutionary theory; origin and history of life; evolutionary controversy; origins of species, sex, and humans. (Bacc Core Course) Attributes: CSST – Core, Synthesis, Science/Technology/Society Equivalent to: Z 345 Available via Ecampus

BI 347, *OCEANS IN PERIL, 3 Credits
The interactions of society and the marine environment, emphasizing the ecological, biogeochemical, economic, sociological, and political significance of the oceans. Topics of current critical importance will include marine pollution, protecting marine habitats, conserving marine biodiversity, fisheries and aquaculture, ocean energy, biogeochemical change, global warming, ocean acidification, and sea level rise. (Bacc Core Course) Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: BI 101 with C- or better or BI 102 with C- or better or BI 211 with C- or better or BI 211H with C- or better or BI 213 with C- or better or BI 213H with C- or better or BI 204 with C- or better or BI 150 with C- or better or BI 221 with C- or better or BI 221H with C- or better or BI 223 with C- or better or BI 223H with C- or better or BI 223H with C- or better or BI 204 with C- or better
Available via Ecampus

BI 348, *HUMAN ECOLOGY, 3 Credits
The impact of humans on the environment, emphasizing the political, sociological, and ecological consequences of human population growth. Topics of current critical importance will include global warming trends, destruction of the ozone layer, consequences of pollution, habitat destruction, the loss of biodiversity, and conservation biology. (Bacc Core Course) Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: Z 348
Available via Ecampus

BI 351, MARINE ECOLOGY, 3 Credits
Ecological interactions and principles in different marine habitats. Topics include the organisms (plants, invertebrates, vertebrates) found in major habitats and interactions between organisms. Habitats discussed include coral reefs, rocky shores, kelp forests, near-shore waters, open-ocean waters, and the deep sea. Emphasis is placed on how organism-organism interactions produce varying patterns of distribution, abundance, body size, diversity, stability, and succession.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 123 [C-] or (CH 233 [C-] or CH 233H [C-]) and (CH 263 [C-] or CH 263H [C-])) and BI 341 (may be taken concurrently) [C-]
Equivalent to: Z 351
Available via Ecampus

BI 352, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: BI 331 with C- or better and BI 342 (may be taken concurrently) [C-]

BI 353, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The second of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human nervous, endocrine and reproductive systems. Lab.
Corequisites: BI 331

BI 354, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The third of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human cardiovascular, respiratory, urinary and digestive systems. Lab.
Corequisites: BI 333

BI 355, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: BI 331 with C- or better and BI 342 (may be taken concurrently) [C-]

BI 356, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The second of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human nervous, endocrine and reproductive systems. Lab.
Corequisites: BI 332

BI 357, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The third of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human cardiovascular, respiratory, urinary and digestive systems. Lab.
Corequisites: BI 333

BI 358, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: BI 331 with C- or better and BI 342 (may be taken concurrently) [C-]

BI 359, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The second of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human nervous, endocrine and reproductive systems. Lab.
Corequisites: BI 332

BI 360, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY LABORATORY, 2 Credits
The third of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the structures, functions, regulatory mechanisms and common pathologies involved in the human cardiovascular, respiratory, urinary and digestive systems. Lab.
Corequisites: BI 333

BI 361, ADVANCED HUMAN ANATOMY AND PHYSIOLOGY, 3 Credits
The first of a three-term advanced series. Using the human cadaver (prosection), dissection of preserved specimens, and physiological data acquisition equipment, course topics address the fundamental concepts of human anatomy and physiology and then focus on understanding the structures, functions, regulatory mechanisms and common pathologies involved in the nervous, endocrine and reproductive systems. Lec.
Prerequisite: BI 331 with C- or better and BI 342 (may be taken concurrently) [C-]
BI 353, PACIFIC NORTHWEST COASTAL ECOSYSTEMS, 4 Credits
A field-based introduction to the diversity of ecosystems of the Pacific Northwest coast. Biological and physical processes affecting the distribution, structure, community composition and physical features of these systems are explored through a variety of lectures and field trips. Ecosystem services and human impacts are examined.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

BI 358, SYMBIOSES AND THE ENVIRONMENT, 3 Credits
Overview of the diversity of mutualistic symbioses and their roles in the natural environment. Integrative approach, from ecosystem to molecule, to the examination of certain key mutualisms. Lec. Offered alternate years.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 123 [C-] or CH 123H [C-] or CH 263 [C-] or CH 263H [C-])

BI 370, ECOLOGY, 3 Credits
The study of interactions between organisms and their biotic and abiotic environments at the population, community, ecosystem, and biosphere levels of organization.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 370H
Available via Ecampus

BI 370H, ECOLOGY, 3 Credits
The study of interactions between organisms and their biotic and abiotic environments at the population, community, ecosystem, and biosphere levels of organization.
Attributes: HNRS – Honors Course Designator
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 370

BI 371, ECOLOGICAL METHODS, 3 Credits
Experimental design, data collection, analysis and synthesis in ecological studies; local ecosystems emphasized. May have field trip fee. Lec/lab.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: BI 370 with D- or better or BI 370H with D- or better

BI 373, FIELD METHODS IN MARINE ECOLOGY, 3 Credits
Exposure to research methods used in field studies of the marine rocky intertidal ecosystem. Research projects and writing exercises provide students with hands-on experience of collecting, analyzing, and presenting marine ecological data. Field trip fee. Lab fee. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: BI 351 (may be taken concurrently) with D- or better or BI 370 with D- or better or BI 370H with D- or better and (ST 351 [D-] or ST 351H [D-])
Recommended: ST 352

BI 375, FIELD METHODS IN ECOLOGICAL RESTORATION, 4 Credits
Observation and application of theory and practice in ecological restoration. Using site visits and hands-on research, explores the roles in restoration of fire, local adaptation, disturbance history, natural history, beaver, and soils, including visits to several active and completed restoration projects and overnights in the field.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 123 [C-] or CH 263 [C-] or CH 263H [C-])

BI 379, SPECIAL TOPICS, 0-16 Credits
May be repeated for 16 total credits.
Equivalent to: BI 399H
This course is repeatable for 16 credits.

BI 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: BI 401H
This course is repeatable for 16 credits.

BI 401H, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 401
This course is repeatable for 16 credits.

BI 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: BI 405H
This course is repeatable for 16 credits.

BI 406, PROJECTS: CURATORIAL ASSISTANT, 1-6 Credits
Students assist with curatorial projects in OSU biological collections. Admission is by application. See Cordley 3029 for details.
This course is repeatable for 6 credits.

BI 407, SEMINAR, 1 Credit
Departmental seminar. Graded P/N.
Equivalent to: BI 407H, BI 407H, BOT 407, BOT 407H
This course is repeatable for 16 credits.
BI 407H, SEMINAR, 1 Credit
Departmental seminar. Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 407
This course is repeatable for 16 credits.

BI 409, ADVANCED TEACHING PRACTICUM, 1-6 Credits
Advanced practicum experience for students assisting in Biology or Zoology courses. Includes advanced training in course content and development of instructional materials. Admission is by application. See Cordley 3029 for details.
This course is repeatable for 6 credits.

BI 410, INTERNSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus

BI 420, *VIRUSES IN MODERN SOCIETY, 3 Credits
Impact of viruses on modern civilization. Molecular mechanisms of viral infectivity. Approaches to the prevention and cure of viral diseases. Role of viruses in agriculture and industry. Offered alternate years. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: BI 311 with D- or better or BI 311H with D- or better or BI 314 with D- or better or BI 314H with D- or better

BI 427, PALEOBIOLOGY, 4 Credits
Fossils provide a direct window into the evolution, extinction, and ecology of past life on Earth. A process-based study of the marine and terrestrial fossil record is taken to explore the topics of preservation, macroevolution, extinction of biotas, biomechanics, paleoecology, and climate change. Required laboratory and weekend field trip.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) or GEO 203 [D-]
Equivalent to: Z 427

BI 445, EVOLUTION, 3 Credits
Formal analysis of genetic and ecological mechanisms producing evolutionary change; special topics include speciation, ecological constraints, adaptive radiations, paleontology, biogeography, the origin of life, molecular evolution, and human evolution.
Prerequisite: BI 311 with D- or better or BI 311H with D- or better
Equivalent to: BI 445H

BI 445H, EVOLUTION, 3 Credits
Formal analysis of genetic and ecological mechanisms producing evolutionary change; special topics include speciation, ecological constraints, adaptive radiations, paleontology, biogeography, the origin of life, molecular evolution, and human evolution.
Attributes: HNRS – Honors Course Designator
Prerequisite: BI 311 with D- or better or BI 311H with D- or better
Equivalent to: BI 445

BI 450, ^MARINE BIOLOGY AND ECOLOGY, 15 Credits
A comprehensive lecture and laboratory introduction to the flora and fauna of the marine environment approached from the level of the organism to ecosystem. Ecological patterns and processes characteristic of marine communities will be emphasized. Lec/lab. Taught at Hatfield Marine Science Center, Newport, OR. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (BI 370 with D- or better or BI 370H with D- or better) and (ST 351 [D-] or ST 351H [D-])
Recommended: ST 352
Available via Ecampus

BI 451, FUNCTIONAL ANATOMY OF THE HUMAN MUSCULAR SYSTEM, 4 Credits
In-depth dissection of the orientation, innervation, and functional significance of muscles and muscle groups. Topics include muscle identification, joint anatomy and variation of human form. BI 551 student expectations include vascularization and detailed joint anatomy. The laboratory component will consist of the dissection of the muscular anatomy of a human cadaver. Lab fee. Lec/lab.
Prerequisite: ((BI 231 with D- or better and BI 241 [D-]) or (BI 331 [D-] and BI 341 [D-])) and (BI 232 [D-] and BI 242 [D-]) or (BI 332 [D-] and BI 342 [D-]) and ((BI 233 [D-] and BI 243 [D-]) or (BI 333 [D-] and BI 343 [D-]))
Equivalent to: Z 451

BI 454, EVOLUTIONARY GENOMICS, 3 Credits
Examines the evolutionary forces that have produced such varied and complex genomes across the tree of life. The processes by which genomes can be structured, maintained, and remodeled (by nature or by humans) are explored through scientific literature. Special emphasis will be given to recent technological advances in genomics, along with their potential impacts on individuals and society.
Prerequisite: BI 311 with D- or better or BI 311H with D- or better

BI 456, PHYLOGENETICS, 4 Credits
Explores the theory and practice of modern phylogenetic analysis. Emphasis placed on tree reconstruction algorithms, assessment of statistical support, and contemporary issues in phylogenetics. Lab will focus on the use of phylogenetic software and the analysis of molecular data sets. Lec/lab.
Prerequisite: (ST 351 with D- or better or ST 351H with D- or better) and (ST 352 (may be taken concurrently) [D-] or ST 411 (may be taken concurrently) [D-]) and (BI 311 [D-] or BI 311H [D-] or BI 445 [D-] or BI 445H [D-])

BI 481, BIOGEOGRAPHY, 3 Credits
Biogeography is the study of the distribution of biodiversity. We focus on abiotic (geological, climatological) and biotic (ecological, evolutionary) factors that govern diversity across space and through time, emphasizing assembly of communities, global change, and conservation in today’s rapidly changing world. The course format includes lecture, computer-based activities, and discussion. Offered winter term in odd years.
Prerequisite: BI 370 with D- or better or BI 370H with D- or better
Equivalent to: Z 481
BI 483, POPULATION BIOLOGY, 3 Credits
Theoretical and empirical views of the structure and function of populations from across the tree of life, emphasizing the integration of ecological and evolutionary approaches. Lec.
Prerequisite: (MTH 241 with D- or better or MTH 251 with D- or better or MTH 251H with D- or better or MTH 227 with D- or better) and (ST 351 [D-] or ST 351H [D-] and (ST 352 (may be taken concurrently) [D-] or ST 411 (may be taken concurrently) [D-]) and (BI 311 [D-] or BI 311H [D-] or BI 370 [D-] or BI 370H [D-])
Available via Ecampus

BI 485, MONSTER BIOLOGY, 3 Credits
Scientists seek to explain what exists and why things are. An alternative approach is to ask why things are not. Biological and physical laws are used to critically and rigorously assess why monsters from literature, television and film are not possible in the real world.
Prerequisite: (BI 311 (may be taken concurrently) with D- or better or BI 311H (may be taken concurrently) with D- or better) and (BI 370 (may be taken concurrently) [D-] or BI 370H (may be taken concurrently) [D-])

BI 495, DISEASE ECOLOGY, 3 Credits
An introduction to disease ecology—the study of disease processes in natural populations and communities. The course focuses on (I) the role parasites play in the ecology and evolution of animal populations, including humans; and (II) the relevance of ecological and evolutionary considerations in managing infectious diseases.
Prerequisite: BI 370 with C- or better or BI 370H with C- or better

BI 498, SENIOR BIOLOGY FIELD TEST, 0 Credits
A comprehensive, two-hour exam to assess the biological knowledge of Biology and Zoology seniors. Students must complete the exam in their final undergraduate term or during spring term if graduating during summer when it is not offered. A pass will be given to all students who complete the exam. More details at http://ib.oregonstate.edu/advising/MF-Info.

BI 499, SPECIAL TOPICS, 0-16 Credits
Topics and credits vary.
Equivalent to: BI 499H
This course is repeatable for 16 credits.

BI 499H, SPECIAL TOPICS, 1-16 Credits
Topics and credits vary.
Attributes: HNRS – Honors Course Designator
Equivalent to: BI 499
This course is repeatable for 16 credits.

Bioresource Research (BRR)
BRR 100, GREAT EXPERIMENTS IN BIORESOURCE SCIENCES, 2 Credits
For students interested in BRR and undergraduate research, to introduce the research process and help them start defining research interests and project areas. Faculty describe research projects and experimental approaches, and pose interesting political and ethical questions related to scientific research. Students work with junior and senior student mentors already involved in research projects. Offered fall term.
This course is repeatable for 4 credits.

BRR 200, SCIENCE AND RESEARCH, 2 Credits
An introduction to science concepts, professional skills and science literacy for organizing, planning, designing and conducting research in biological, agricultural and natural resource science. Learn the process of research, prepare a resume for prospective research mentors, and work in teams to analyze a timely and relevant problem, formulate experimental approaches to address it, and write a research proposal.

BRR 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

BRR 325, *ENERGY TECHNOLOGY AND SOCIAL CHANGE, 3 Credits
Science and technology co-evolve with a prosperous human society. The course discusses key issues surrounding the interaction between social changes and energy technologies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: One term physical science with lab.
Available via Ecampus

BRR 399, SPECIAL TOPICS, 0-4 Credits
This course is repeatable for 6 credits.

BRR 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Undergraduate mentored research. Students select a faculty research mentor (from 7 OSU colleges) and complete 14 credits of research. Students follow established guidelines to prepare project proposals, progress reports, and a thesis; learn research methods applicable to their chosen field; gain professional skills and contacts. Students are evaluated on their ability to develop and complete a research project proposal, learn and develop research methodologies, conduct research and trouble-shooting procedures, and demonstrate responsible and ethical participation in the research project. Offered all terms.
This course is repeatable for 99 credits.

BRR 403, ^THESIS, 4 Credits
BRR students independently interpret and present their research in writing. Students write the thesis in a style appropriate for submission to a peer-reviewed journal in their chosen scientific discipline. Students receive a letter grade based on their final thesis. Timeliness of reports is factored in student assessments. The student’s faculty mentor and the BRR Director provide a consensus grade when the thesis is completed. Offered all terms. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.

BRR 404, WRITING AND CONFERENCE, 1-3 Credits
Thesis writing for Bioenergy minor and other students.
This course is repeatable for 3 credits.

BRR 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
**BRR 406, PROJECTS-DATA PRESENTATIONS, 1 Credit**

For any student doing research, to learn to develop and evaluate poster and slide presentations containing scientific data. Students are exposed to a variety of scientific disciplines as they prepare and critique their own and other students’ posters and oral presentations. Students improve written and oral communication skills. Letter grade is based on participation, improvement, and the quality of a final poster project and oral presentation. Offered winter term. CROSSLISTED as BRR 406/HORT 406.

Equivalent to: HORT 406

**BRR 407, SEMINAR, 1 Credit**

For BRR students, to encourage excellence in public speaking. Exposes students to a variety of current seminar topics and provides them with the opportunity to evaluate components of good public seminars. Students receive a grade only after completing a public seminar on their own research (final research seminar). Offered spring term.

**BRR 409, PRACTICUM: TEACHING AND PEER MENTORING, 2-4 Credits**

Upper-division BRR students are grouped with lower-division students in BRR 100 to facilitate discussion and encourage dialogue about current research topics. Juniors and seniors continue to learn new ways to teach and communicate science issues in written and verbal formats.

This course is repeatable for 16 credits.

**BRR 410, INTERNSHIP, 1-12 Credits**

Supervised internship allowing students to gain off-campus work experience for credit. Under direction and approval of the program director, students will submit a statement of intent, identify employer contact, and provide a written report upon completion.

This course is repeatable for 16 credits.

**BRR 499, SPECIAL TOPICS, 2 Credits**

This course is repeatable for 4 credits.

**Botany and Plant Pathology (BOT)**

**BOT 101, *BOTANY: A HUMAN CONCERN, 4 Credits**

Introductory botany for non-majors, emphasizing the role of plants in the environment, agriculture and society. Includes molecular approaches to the study of plant function and genetic engineering. Lec/lab. (Bacc Core Course)

Attributes: CPBS – Core, Pers, Biological Science

**BOT 220, *INTRODUCTION TO PLANT BIOLOGY, 4 Credits**

Introduction to plant biology including an overview of major groups of plants, plant cells and cell types, plant anatomy and architecture, physiology and function, and ecology and the roles of plants in the environment. Laboratory exercises build on lecture themes and provide hands-on learning experiences including field trips. Lec/lab. (Bacc Core Course)

Attributes: CPBS – Core, Pers, Biological Science

**BOT 313, PLANT STRUCTURE, 4 Credits**

The structural components of vascular plants and how plant structure relates to function, development, environment, evolution, and human use of plants. Field trip. Lec/lab.

Prerequisite: (BI 212 with D- or better or BI 212H with D- or better) and ((BI 211 with D- or better or BI 211H with D- or better) or (BI 213 with D- or better or BI 213H with D- or better)) or (BI 221 with D- or better or BI 221H with D- or better) and (BI 222 [D-] or BI 222H [D-]) or (BI 205 [D-] and BI 206 [D-])

Recommended: BI 213 or BI 213H or BI 223 or BI 223H

Available via Ecampus

**BOT 321, PLANT SYSTEMATICS, 4 Credits**

Vascular plant classification, diversity, and evolutionary relationships. Lab emphasizes the collection and identification of ferns, gymnosperms, and flowering plants in Oregon. Field trips. Lec/lab.

Recommended: BI 213 or BI 213H or BI 223 or BI 223H

Available via Ecampus

**BOT 322, ECONOMIC AND ETHNOBOTANY: ROLE OF PLANTS IN HUMAN CULTURE, 3 Credits**

Economic and cultural (ethnobotanical) uses of plants and fungi by humans, including domesticated cultivated plants as well as wild-growing plants, and uses of plants and fungi by indigenous cultures. Ecampus course only.

Available via Ecampus

**BOT 323, ^FLOWERING PLANTS OF THE WORLD, 3 Credits**

Global perspective of plant biodiversity with a focus on evolutionary origins, classification, and evolutionary relationships of the major groups of plants. Development and application of scientific writing and utilization of online information resources in plant evolutionary biology. (Writing Intensive Course)

Attributes: CWIC – Core, Skills, WIC

Recommended: (BI 211, BI 212, BI 213) or (BI 221, BI 222, BI 223) or (BI 204, BI 205, BI 206)

Available via Ecampus

**BOT 324, *FUNGI IN SOCIETY, 3 Credits**

Explores the diverse roles played by fungi in relation to human civilization and the natural environment. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society

Recommended: One course in biological sciences.

Available via Ecampus
**BOT 325, *INTERSECTIONS BETWEEN PLANTS AND HUMANITY, 3 Credits**

The unique attributes of plants—including aspects of their biochemistry, growth, structure, and physiology—have influenced all aspects of life on earth, from biogeochemical cycles to the rise and expansion of human civilizations. Plants are sources of medicines, stimulants, hallucinogens, fibers and woods, resins and latex, oils and waxes; plants have inspired technological innovation, exploration, and exploitation of people and the environment. This course critically examines the intersections of plants with society and technology by exploring the roles plants have played in both historical and modern contexts. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society

Recommended: One course in biological sciences and junior standing.

**BOT 331, PLANT PHYSIOLOGY, 4 Credits**

Survey of physiological processes in plants, including photosynthesis and plant metabolism, mineral nutrition and ion uptake processes, plant cell/water relations, regulation of plant growth and development, and transpiration and translocation. Lec/rec.

Prerequisite: ((BI 212 with D- or better or BI 212H with D- or better) and (BI 213 [D-] or BI 213H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) or (BI 205 [D-] and BI 206 [D-]) and (CH 123 [D-] or (CH 233 [D-] and CH 263 [D-]))

Recommended: (BI 213 or BI 213H or BI 223 or BI 223H) and (CH 123 or (CH 233 and CH 263))

Available via Ecampus

**BOT 332, LABORATORY TECHNIQUES IN PLANT BIOLOGY, 3 Credits**

Laboratory experiences in the manipulation and observation of physiological processes in plant systems. Analysis and interpretation of physiological data generated in experimentation with plant systems. Training in basic laboratory skills, including the principles and procedures involved in the use of common items of laboratory instrumentation. Lab.

Recommended: BOT 331 or BI 314 or BB 314

Available via Ecampus

**BOT 341, PLANT ECOLOGY, 4 Credits**

Study of higher plants in relation to their environment. The relationship of plant physiology and reproduction to environmental factors; competition and other species interactions; the structure, dynamics and analysis of vegetation. Field trips. Lec/lab.

Recommended: BOT 321 and ((BI 213 or BI 213H) or (BI 223 or BI 223H))

Available via Ecampus

**BOT 350, INTRODUCTORY PLANT PATHOLOGY, 4 Credits**

Symptoms, causal agents, diagnosis, and prevention of plant diseases, with emphasis on fungi, bacteria, nematode, and virus pathogens. Lec/lab.

Prerequisite: ((BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) and (BI 213 [D-] or BI 213H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 205 [D-] and BI 206 [D-]) and (CH 123 [D-] or CH 233 [D-] and CH 263 [D-]))

Available via Ecampus

**BOT 401, RESEARCH, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 403, THESIS, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 405, READING AND CONFERENCE, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 406, PROJECTS: CURATORIAL ASSISTANT, 1-6 Credits**

Students assist with curatorial projects in the OSU Herbarium. Admission is by application to the Department of Botany & Plant Pathology. This course is recommended for 6 credits.

**BOT 407, SEMINAR, 1 Credit**

Section 1: Departmental seminar. Section 2: Lichens and Bryophytes Research (1). Weekly one-hour meetings for reporting and discussion of active research projects, discussion of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Normally graded P/N.

Equivalent to: BI 407H, BOT 407H

This course is repeatable for 16 credits.

**BOT 407H, SEMINAR, 1 Credit**

Section 1: Departmental seminar. Section 2: Lichens and Bryophytes Research (1). Weekly one-hour meetings for reporting and discussion of active research projects, discussion of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Normally graded P/N.

Attributes: HNRS – Honors Course Designator

Equivalent to: BOT 407

This course is repeatable for 16 credits.

**BOT 408, WORKSHOP, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 410, INTERNSHIP, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 413, FOREST PATHOLOGY, 3 Credits**

Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSTLISTED as BOT 413/FOR 413.

Prerequisite: BI 204 with C or better or BI 212 with C or better or BI 212H with C or better or BI 213 with C or better or BI 213H with C or better or BI 221 with C or better or BI 221H with C or better

Equivalent to: FOR 413

**BOT 414, AGROSTOLOGY, 4 Credits**

Classification and identification of grasses, with emphasis on the modern system of grass classification; laboratory practice in keying grass specimens to genus and species. Lec/lab.

Recommended: BOT 321
BOT 416, AQUATIC BOTANY, 4 Credits
Taxonomy and ecology of aquatic vegetation, emphasizing freshwater and marine algae and the submergent vascular plants. Morphology, physiology, and classification of the algae; morphological and physiological adaptations of aquatic vascular plants; and primary production in aquatic ecosystems. Laboratory practice in the identification of local taxa. Field trips. Lec/lab.
Recommended: (BI 213 or BI 213H) or (BI 223 or BI 223H)

BOT 417X, PHYCOLOGY, 4 Credits
A field and laboratory based introduction to micro- and macro-algal biology, reproduction and evolution. Emphasis is placed on how the endosymbiosis theory ties algae together as a functional group. Algal diversity will be explored through lectures, laboratory and field trips. The laboratory experience will include methods for isolation, culturing and maintenance of algae for aquaculture and research.
Recommended: One year of biology

BOT 425, FLORA OF THE PACIFIC NORTHWEST, 3 Credits
Vascular plant identification, terminology, and diagnostic characteristics of plant families. Lab emphasizes the use of keys for identification to the species level and ability to recognize by sight those plant families found in the Pacific Northwest. Field trips. Lec/lab.
Recommended: BOT 321

BOT 440, FIELD METHODS IN PLANT ECOLOGY, 4 Credits
Concepts and tools for describing, monitoring, and experimenting on vegetation. Combines Web-based material, field experience at the student’s location, and student projects.
Recommended: Course in ecology and a course in statistics.
Available via Ecampus

BOT 442, PLANT POPULATION ECOLOGY, 3 Credits
Ecological aspects of plant form and reproduction; demography and population modeling; species interactions, including competition, mutualism, and herbivory. Lec/lab.
Recommended: BOT 341

BOT 458, ECOSYSTEMS GENOMICS, 3 Credits
Genomic approaches used to understand species interactions with a focus on plant-associated microbes. Learning the conceptual framework and computational techniques of genomics to study the ecology of plant-microbe interactions at the ecosystem level.
Prerequisite: (BI 311 with D- or better or BI 311H with D- or better) and (BI 314 [D-] or BI 314H [D-] or BB 314 [D-] or BB 314H [D-])

BOT 460, FUNCTIONAL GENOMICS, 3 Credits
Functional genomics describes a set of conceptual approaches and associated laboratory techniques that rely on large-scale DNA sequence datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. This course will provide an overview of these techniques, including a) approaches to predicting protein function based on sequence analysis, b) large-scale genetic approaches to identifying novel genotype-phenotype associations, and c) transcriptomic, proteomic and metabolic approaches that reveal gene functions by measuring changes in abundance/modification of associated RNA transcripts, proteins and metabolites.
Prerequisite: (BI 311 with C- or better or BI 311H with C- or better) and (BI 314 [C-] or BI 314H [C-] or BB 314 [C-] or BB 314H [C-])

BOT 461, MYCOLOGY, 4 Credits
Broad taxonomic survey of the fungi and their biology. Examines fungal life histories, systematics, ecology, and genetics, as well as ethnomycology. Introduces approaches to mycology in the field, including collection and preparation of specimens.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])

BOT 465, LICHENOLOGY, 4 Credits
Biology of lichens; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years.
Recommended: ((BI 213 or BI 213H) or (BI 223 or BI 223H)) and two botany courses

BOT 466, BRYOLOGY, 4 Credits
Biology of bryophytes; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years.
Recommended: ((BI 213 or BI 213H) or (BI 223 or BI 223H)) and two botany courses

BOT 474X, INTRODUCTION TO GENOME BIOLOGY, 3 Credits
Explores how genomes underlie and influence biological phenomena, across the diversity of life, from prokaryotic microbes to eukaryotic multicellular organisms. Covers genome organization: the structure of chromosomes and chromatin; genes and gene families; and mechanisms that remodel genomes, such as mutation, recombination and transposable elements in the first part of the course. Focuses on genome expression and regulation: gene expression, cellular functions and biochemical pathways; transcriptional and post-transcriptional regulatory mechanisms; and genotype-to-phenotype relationships in the second part of the course. Emphasizes the use of recent technological advances and genome-wide assays that enable investigation of these topics.
Prerequisite: BI 311 (may be taken concurrently) with C- or better or BB 314 (may be taken concurrently) with C- or better
Equivalent to: BDS 474X
**BOT 475, COMPARATIVE GENOMICS, 4 Credits**

Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. CROSSLISTED as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575.

**Prerequisite:** (BB 314 with D- or better or BB 314H with D- or better) and (BI 311 [D-] or BI 311H [D-] or PBG 430 [D-])

**Equivalent to:** BDS 475

**Recommended:** Basic working knowledge of cell and molecular biology and genetics

**BOT 476, INTRODUCTION TO COMPUTING IN THE LIFE SCIENCES, 3 Credits**

Introduction to management of large datasets (e.g., nucleic acids, protein), computer programming languages, application of basic mathematical functions, and assembly of computational pipelines pertinent to life sciences.

**Recommended:** Cell and molecular biology or genetics. Familiarity with text editing software and unix/linux operating system is advantageous

**BOT 478, FUNCTIONAL GENOMICS, 3 Credits**

Introduces conceptual approaches and associated laboratory techniques that rely on genome-scale datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. Examples include: predicting protein function based on nucleotide and amino acid sequence analysis; large-scale genetic approaches to identifying novel genotype-phenotype associations; and analysis of transcriptomic, proteomic and metabolomic datasets, which measure changes in RNA transcripts, proteins and metabolites, respectively, to explore gene function and cellular/organismal networks. Provides a conceptual framework for understanding how the wide range of available large-scale technologies can be applied to solve biological problems.

**Prerequisite:** BB 314 with C- or better or BB 314H with C- or better

**Equivalent to:** BDS 478, BOT 460

**BOT 480, PHOTOSYNTHESIS AND PHOTOBIOLOGY, 3 Credits**

Explores the diverse use of light in biological systems, with particular emphasis on photosynthesis. Lectures will discuss the nature of light, light in the natural environment, light absorption in biological systems, use of light energy for photosynthesis, communication, defense, motility, and vision, as well as deleterious effects of light and its use for global monitoring satellite systems.

**Recommended:** One course in plant physiology or ecology

**BOT 488, ENVIRONMENTAL PHYSIOLOGY OF PLANTS, 3 Credits**

Introduces students to mechanisms of plant responses to environmental change caused by humans, including atmospheric, nutrient, water, and global climate factors. Concepts are built around principles of plant environment relations. Lec/lab.

**Recommended:** One course in plant physiology or one course in ecology

**BOT 499, SPECIAL TOPICS, 0-16 Credits**

**Equivalent to:** BOT 499H

This course is repeatable for 16 credits.

**BOT 499H, SPECIAL TOPICS, 0-16 Credits**

**Attributes:** HNRS – Honors Course Designator

**Equivalent to:** BOT 499

This course is repeatable for 16 credits.

**BOT 501, RESEARCH, 1-16 Credits**

Graded P/N.

This course is repeatable for 16 credits.

**BOT 503, THESIS, 1-16 Credits**

This course is repeatable for 999 credits.

**BOT 505, READING AND CONFERENCE, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 507, SEMINAR, 1-16 Credits**

Section 1: Departmental seminar (F, W, S). Section 2: Communication in Ecology (F). Section 3: Community and Habitat Analyses (W). Section 4: Lichens and Bryophytes Research (S). Weekly one-hour meetings for reporting and discussions of proposal research, review and discussion of recent literature, and mini-workshops on particular problems. Graded P/N.

**BOT 508, WORKSHOP, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 510, INTERNSHIP, 1-16 Credits**

This course is repeatable for 16 credits.

**BOT 513, FOREST PATHOLOGY, 3 Credits**

Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSLISTED as BOT 513/FOR 513.

**Equivalent to:** FOR 513

**Recommended:** BI 204 or BI 212 or BI 212H or BI 213 or BI 213H

**BOT 514, AGROSTOLOGY, 4 Credits**

Classification and identification of grasses, with emphasis on the modern system of grass classification; laboratory practice in keying grass specimens to genus and species. Lec/lab.

**Recommended:** BOT 321

**BOT 516, AQUATIC BOTANY, 4 Credits**

Taxonomy and ecology of aquatic vegetation, emphasizing freshwater and marine algae and the submergent vascular plants. Morphology, physiology, and classification of the algae; morphological and physiological adaptations of aquatic vascular plants; and primary production in aquatic ecosystems. Laboratory practice in the identification of local taxa. Field trips. Lec/lab.

**Recommended:** BI 213 or BI 213H
BOT 517X, PHYCOLOGY, 4 Credits
A field and laboratory based introduction to micro- and macro-algal biology, reproduction and evolution. Emphasis is placed on how the endosymbiosis theory ties algae together as a functional group. Algal diversity will be explored through lectures, laboratory and field trips. The laboratory experience will include methods for isolation, culturing and maintenance of algae for aquaculture and research.
Recommended: One year of biology

BOT 525, FLORA OF THE PACIFIC NORTHWEST, 3 Credits
Vascular plant identification, terminology, and diagnostic characteristics of plant families. Lab emphasizes the use of keys for identification to the species level and ability to recognize by sight those plant families found in the Pacific Northwest. Field trips. Lec/lab.
Recommended: BOT 321

BOT 540, FIELD METHODS IN PLANT ECOLOGY, 4 Credits
Concepts and tools for describing, monitoring, and experimenting on vegetation. Combines Web-based material, field experience at the student's location, and student projects.
Recommended: Course in ecology and a course in statistics. Available via Ecampus

BOT 542, PLANT POPULATION ECOLOGY, 3 Credits
Ecological aspects of plant form and reproduction; demography and population modeling; species interactions, including competition, mutualism, and herbivory. Lec/lab.
Recommended: BOT 341

BOT 543, PLANT COMMUNITY ECOLOGY, 3 Credits
The structure, diversity, and successional dynamics of terrestrial plant communities; methods of analysis. Lec/lab.
Recommended: BOT 341 or equivalent.

BOT 547, NUTRIENT CYCLING, 3 Credits
Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as BOT 547/SOIL 547.
Equivalent to: FS 547, SOIL 547
Recommended: College-level chemistry and biology and one class in ecology (eg. BI 370) and/or soils (eg. SOIL 205)

BOT 550, PLANT PATHOLOGY, 5 Credits
Causal agents of plant disease, diagnosis, pathogenesis, epidemiology, and disease management principles and strategies. Field trip. Lec/lab/rec.
Recommended: BI 213 or BI 213H

BOT 552, PLANT DISEASE MANAGEMENT, 4 Credits
Analysis of host, pathogen, and environmental factors influencing the increase and spread of plant disease. Epidemiological theory will be used as a basis for developing and evaluating principles and concepts of plant disease management. Lec/lab/rec. Offered alternate years.
Recommended: BOT 350 or BOT 550

BOT 553, PLANT DISEASE DIAGNOSIS, 3 Credits
Diagnosis of plant diseases and identification of causal agents. Laboratory practice in identification techniques. Observation of symptoms exhibited by diseased plants in greenhouse and field locations. Field trips. Lec/lab. Offered alternate years in summer term.
Recommended: BOT 350 or BOT 550

BOT 554, BIOLOGY OF NEMATODES, 4 Credits
Survey of basic biology and biodiversity of nematodes. Includes taxonomy, identification, life cycles, ecology and pathology, and interaction with other organisms. Lec/lab. Offered alternate years. This course is repeatable for 4 credits.
Recommended: Plant pathology

BOT 558, ECOSYSTEMS GENOMICS, 3 Credits
Genomic approaches used to understand species interactions with a focus on plant-associated microbes. Learning the conceptual framework and computational techniques of genomics to study the ecology of plant-microbe interactions at the ecosystem level.
Recommended: BI 311 and BI 314

BOT 560, FUNCTIONAL GENOMICS, 3 Credits
Functional genomics describes a set of conceptual approaches and associated laboratory techniques that rely on large-scale DNA sequence datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. This course will provide an overview of these techniques, including a) approaches to predicting protein function based on sequence analysis, b) large-scale genetic approaches to identifying novel genotype-phenotype associations, and c) transcriptomic, proteomic and metabolomic approaches that reveal gene functions by measuring changes in abundance/ modification of associated RNA transcripts, proteins and metabolites.
Recommended: (BI 311 or BI 311H) and (BI 314 or BI 314H)

BOT 561, MYCOLOGY, 4 Credits
Broad taxonomic survey of the fungi and their biology. Examines fungal life histories, systematics, ecology, and genetics, as well as ethnomycology. Introduces approaches to mycology in the field, including collection and preparation of specimens.
BOT 565, LICHENOLOGY, 4 Credits
Biology of lichens; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years.
Recommended: (BI 213 or BI 213H) and two botany courses.

BOT 566, BRYOLOGY, 4 Credits
Biology of bryophytes; includes structure, life histories, classification, and ecology. Field trip fee. Lec/lab. Offered alternate years.
Recommended: (BI 213 or BI 213H) and two botany courses.

BOT 570, COMMUNITY STRUCTURE AND ANALYSIS, 4 Credits
Quantitative methods for the analysis of biotic communities, including community concepts, estimation of community composition parameters, theoretical aspects of multivariate methods of analyzing species-importance data, and overview of multivariate tools; hands-on computer analysis of data sets. Lec/lab.
Equivalent to: BI 570
Recommended: BI 370 and (ST 412 or ST 512) and calculus

BOT 574X, INTRODUCTION TO GENOME BIOLOGY, 3 Credits
Explores how genomes underlie and influence biological phenomena, across the diversity of life, from prokaryotic microbes to eukaryotic multicellular organisms. Covers genome organization: the structure of chromosomes and chromatin; genes and gene families; and mechanisms that remodel genomes, such as mutation, recombination and transposable elements in the first part of the course. Focuses on genome expression and regulation: gene expression, cellular functions and biochemical pathways; transcriptional and post-transcriptional regulatory mechanisms; and genotype-to-phenotype relationships in the second part of the course. Emphasizes the use of recent technological advances and genome-wide assays that enable investigation of these topics.
Equivalent to: BDS 574X

BOT 575, COMPARATIVE GENOMICS, 4 Credits
Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. CROSSTLISTED as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575.
Equivalent to: BDS 575, MCB 575
Recommended: BB 314 and (BI 311 or PBG 430) and basic working knowledge of cell and molecular biology and genetics

BOT 578, FUNCTIONAL GENOMICS, 3 Credits
Introduces conceptual approaches and associated laboratory techniques that rely on genome-scale datasets to investigate the function of, and interactions between, genes as well as their RNA/protein products. Examples include: predicting protein function based on nucleotide and amino acid sequence analysis; large-scale genetic approaches to identifying novel genotype-phenotype associations; and analysis of transcriptomic, proteomic and metabolomic datasets, which measure changes in RNA transcripts, proteins and metabolites, respectively, to explore gene function and cellular/organismal networks. Provides a conceptual framework for understanding how the wide range of available large-scale technologies can be applied to solve biological problems. CROSSTLISTED as BDS 478/BOT 478 and BDS 578/BOT 578.
Equivalent to: BDS 578, BOT 560

BOT 580, PHOTOSYNTHESIS AND PHOTOBIOLOGY, 3 Credits
Explores the diverse use of light in biological systems, with particular emphasis on photosynthesis. Lectures will discuss the nature of light, light in the natural environment, light absorption in biological systems, use of light energy for photosynthesis, communication, defense, motility, and vision, as well as deleterious effects of light and its use for global monitoring satellite systems.
Recommended: One course in plant physiology or ecology

BOT 588, ENVIRONMENTAL PHYSIOLOGY OF PLANTS, 3 Credits
Introduces students to mechanisms of plant responses to environmental change caused by humans, including atmospheric, nutrient, water, and global climate factors. Concepts are built around principles of plant environment relations. Lec/lab.
Recommended: One course in plant physiology or ecology

BOT 590, SELECTED TOPICS IN MYCOLOGY, 1-3 Credits
Advanced topics in mycology through analysis of current literature. Detailed study of an aspect of mycology beyond those covered in regular classes. Seminar and discussion format. This course is repeatable for 16 credits.
Recommended: BOT 461 or BOT 561

BOT 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

BOT 601, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

BOT 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

BOT 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
BOT 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

BOT 651, MOLECULAR BASIS OF PLANT PATHOGENESIS, 3 Credits
Analysis of current concepts in the physiology, biochemistry, and genetics of host-parasite interactions. Topics covered include specificity, recognition, penetration, toxin production, altered plant metabolism during disease, resistance mechanisms and regulatory aspects of gene expression during host-parasite interactions. Offered alternate years.
Equivalent to: MCB 651
Recommended: BOT 550

BOT 668, PLANT DISEASE DYNAMICS, 4 Credits
Evaluation of processes affecting the dynamics of plant disease and pathogen populations through analysis of current literature. Students will be expected to conduct extensive reading and analysis of literature and to meet with the instructor for small group discussions. Offered alternate years.
Recommended: BOT 550 and ST 412

BOT 691, SELECTED TOPICS-PLANT ECOLOGY, 1-3 Credits
Recent advances and developing problems in plant ecology, with critical evaluation of current literature. Topics vary from year to year.
This course is repeatable for 99 credits.
Recommended: Graduate-level ecology.

BOT 692, SELECTED TOPICS: PLANT PATHOLOGY, 1-3 Credits
Selected topics concerning plant pathogens and plant disease processes, emphasizing current literature and theory. Topics vary from year to year.
Equivalent to: MCB 692
This course is repeatable for 99 credits.
Recommended: BOT 550

BOT 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Business Administration (BA)

BA 004, INTERNSHIP, 0 Credits
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students’ understanding of the connection between theory and practice in their respective disciplines.

BA 101, BUSINESS NOW, 6 Credits
Presents an integrated view of both established and entrepreneurial business organizations by studying their common processes and characteristics. Introduces theory and develops basic skills in the areas of management, finance, accounting and marketing. Lec/lab/rec.
Available via Ecampus

BA 140, FINANCIAL LITERACY FOR COLLEGE LIFE, 2 Credits
Helps you learn the fundamentals of personal finance. It is crucial you are prepared to be prudent managers of your financial resources, enabling you to achieve long- and short-term financial goals and security. In addition, this course will examine how your background experiences, values, goals, and decisions can impact your financial future.
Available via Ecampus

BA 150, EXPLORING ENTREPRENEURSHIP, 1 Credit
Participants are challenged with economic concepts and projects. Inspirational speakers address key topics concerning all aspects of business and leadership development. Students must be registered for Young Entrepreneurs Business Week Camp to receive credit for the course. Graded P/N.

BA 151, EXPLORING INVESTING, 1 Credit
Students participating in Investing Week will learn about basic investment vehicles and the principles of evaluating a potential investment. Students will also learn how to understand the financial market system and how it affects their personal and business life. Students will be assigned a role as a junior analyst with Toots, Toots and Peabody, and critically assess the benefits and strengths of individual investment vehicles. Graded P/N.

BA 152, EXPLORING SOCIAL ENTREPRENEURSHIP, 1 Credit
Provides an immersive experience regarding responsible business practices. In addition, from an entrepreneurial prospective, students have the opportunity to explore ways in which real social change is being conducted worldwide. Graded P/N.

BA 153, EXPLORING FINANCE, 1 Credit
Students will establish real world financial literacy in a business capacity. Through this course, students will complete a case study involving a business financial plan.

BA 154, EXPLORING MARKETING, 1 Credit
Students will understand the process of developing and executing a marketing plan in the context of a business model. Each student will participate in a Case Study conducting a small business-marketing plan.

BA 160, B-ENGAGED, 3 Credits
Understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Opportunity to connect with faculty and peers with common interests in a supportive learning environment.
Equivalent to: BA 160H, BA 163
Available via Ecampus

BA 160H, B-ENGAGED, 3 Credits
Understand and accomplish college-level academic work and explore OSU resources and options that will enhance your college experience and success. Opportunity to connect with faculty and peers with common interests in a supportive learning environment.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 160, BA 163
BA 161, INNOVATION NATION--AWARENESS TO ACTION, 3 Credits
First course in a two-course sequence. Begins a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career.
Equivalent to: BA 161H, BA 167

BA 161H, INNOVATION NATION--AWARENESS TO ACTION, 3 Credits
First course in a two-course sequence. Begins a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Builds a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 161, BA 167

BA 162, INNOVATION NATION--IDEAS TO REALITY, 3 Credits
Second course in a two-course sequence. Topics include evaluating entrepreneurial capabilities, creativity and innovation, opportunity recognition, impression management, and responsible business practices. Continues a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market.
Prerequisite: BA 161 with C- or better or BA 161H with C- or better
Equivalent to: BA 162H, BA 168

BA 162H, INNOVATION NATION--IDEAS TO REALITY, 3 Credits
Second course in a two-course sequence. Topics include evaluating entrepreneurial capabilities, creativity and innovation, opportunity recognition, impression management, and responsible business practices. Continues a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 161 with C- or better or BA 161H with C- or better
Equivalent to: BA 162, BA 162H

BA 163, B-ENGAGED, 3 Credits
The first term is a critical time for college students. B-Engaged helps the student transition to the OSU academic community and college learning expectations. B-Engaged will help the student understand and accomplish college-level academic work and explore OSU resources and options that will enhance their college experience and success. Additionally, B-Engaged is the student's opportunity to connect with a faculty member and peers with common interests in a supportive learning environment.
Equivalent to: BA 160, BA 160H

BA 167, LAUNCH PAD I, 3 Credits
Begins a conversation on self-management, offering opportunities for active reflection on critical skill sets necessary for success in today's global market. Focused on building a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career.
Equivalent to: BA 161, BA 161H

BA 168, LAUNCH PAD II, 3 Credits
Continues the conversation on self-management, focused on building a foundation of entrepreneurial knowledge and gaining a competitive edge while becoming aware of your role in managing your own career. BA 167/BA 168 presents an integrated view of both established and entrepreneurial business organizations by studying their common processes and characteristics. The series introduces theory and develops basic skills in the areas of management, finance, accounting, and marketing. Departmental approval required.
Prerequisite: BA 167 with C- or better
Equivalent to: BA 162, BA 162H

BA 182, FIRST-YEAR PERSONAL PROFESSIONAL LEADERSHIP DEVELOPMENT I, 1 Credit
BA 182 – BA 184 is a series of three one-credit courses taken during a student's first year. These courses, along with the respective 2nd to 4th year one-credit courses, are designed to help the student navigate college successfully and develop lifelong skills that are practical, meaningful, and useful. These courses revolve around personal, professional and leadership development, and the first-year series provides incoming first-year students with the skills to be successful during college.
BA 182 covers personal development skills; BA 183 covers professional development skills; and BA 184 covers leadership development skills.

BA 183, FIRST YEAR PERSONAL PROFESSIONAL LEADERSHIP DEVELOPMENT II, 1 Credit
BA182 – BA184 is a series of three one-credit courses taken during a student's first year. These courses, along with the respective 2nd to 4th year one-credit courses, are designed to help the student navigate college successfully and develop lifelong skills that are practical, meaningful, and useful. These courses revolve around personal, professional and leadership development, and the first-year series provides incoming first-year students with the skills to be successful during college.
BA 182 covers personal development skills; BA 183 covers professional development skills; and BA 184 covers leadership development skills.
BA 184, FIRST-YEAR PERSONAL PROFESSIONAL LEADERSHIP DEVELOPMENT III, 1 Credit
BA 182 – BA 184 is a series of three one-credit courses taken during a student’s first year. These courses along with the respective 2nd to 4th year one-credit courses are designed to help the student navigate college successfully and develop lifelong skills that are practical, meaningful, and useful. These courses revolve around personal, professional and leadership development, and the first-year series provides incoming first-year students with the skills to be successful during college. BA 182 covers personal development skills; BA 183 covers professional development skills; and BA 184 covers leadership development skills.

BA 199, SPECIAL STUDIES, 1-6 Credits
Graded P/N.
This course is repeatable for 12 credits.

BA 210, INTERNSHIP, 1-6 Credits
Planned and supervised work experience at selected cooperating business firms. Supplementary training, conference, reports, and appraisals. Graded P/N.
This course is repeatable for 16 credits.

BA 211, FINANCIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of external users, principally investors and creditors. Emphasis on the preparation and interpretation of financial statements, income recognition and determination, and asset valuation.
Prerequisite: (MTH 111 with C- or better or MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better) or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 60
Equivalent to: BA 211H
Available via Ecampus

BA 211H, FINANCIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of external users, principally investors and creditors. Emphasis on the preparation and interpretation of financial statements, income recognition and determination, and asset valuation.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 111 with C- or better or MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 60
Equivalent to: BA 211

BA 213, MANAGERIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control.
Prerequisite: BA 211 with C- or better or BA 211H with C- or better
Equivalent to: BA 213H
Available via Ecampus

BA 213H, MANAGERIAL ACCOUNTING, 4 Credits
Accounting information from the perspective of management users with an emphasis on data accumulation for product costing, planning, and performance evaluation and control.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 211 with C- or better or BA 211H with C- or better
Equivalent to: BA 213

BA 223, PRINCIPLES OF MARKETING, 4 Credits
Covers concepts and principles used by marketing professionals. Designed explicitly for business majors, it’s an introduction to the relationships between customers, products, and companies in a competitive and dynamically evolving marketplace.
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better
Equivalent to: BA 223H, BA 390, BA 390H

BA 223H, PRINCIPLES OF MARKETING, 4 Credits
Covers concepts and principles used by marketing professionals. Designed explicitly for business majors, it’s an introduction to the relationships between customers, products, and companies in a competitive and dynamically evolving marketplace.
Attributes: HNRS – Honors Course Designator
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better
Equivalent to: BA 223H, BA 390, BA 390H

BA 230, BUSINESS LAW I, 4 Credits
Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof.
Equivalent to: BA 230H, BA 330
Available via Ecampus

BA 230H, BUSINESS LAW I, 4 Credits
Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 230

BA 240, FINANCE, 4 Credits
Introduces basic tools of finance and applications of financial theory in use today. These tools include rates of return, the time value of money, those that can be applied to capital budgeting decisions, and the logic and fundamentals of financial statements. It is designed to enhance a student’s approach to financial decision-making and emphasizes quantitative approaches to decision making. This course will also introduce students to equity and debt markets and securities, and serves as a stepping stone to advanced courses in finance.
Prerequisite: (BA 211 with C- or better or BA 211H with C- or better) and (ECON 201 [C-] or ECON 201H [C-])
Equivalent to: BA 240H, BA 360, BA 360H
BA 240H, FINANCE, 4 Credits
Introduces basic tools of finance and applications of financial theory in use today. These tools include rates of return, the time value of money, those that can be applied to capital budgeting decisions, and the logic and fundamentals of financial statements. It is designed to enhance a student's approach to financial decision-making and emphasizes quantitative approaches to decision making. This course will also introduce students to equity and debt markets and securities, and serves as a stepping stone to advanced courses in finance.
Attributes: HNRS – Honors Course Designator
Prerequisite: (BA 211 with C- or better or BA 211H with C- or better) and (ECON 201 [C-] or ECON 201H [C-])
Equivalent to: BA 240, BA 360, BA 360H

BA 253, PROFESSIONAL DEVELOPMENT, 4 Credits
Designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them to success within the chosen profession.
Prerequisite: (BA 101 with C- or better or BA 162 with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-])
Equivalent to: BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 253H, PROFESSIONAL DEVELOPMENT, 4 Credits
Designed to improve the ability of students to describe their accomplishments and sell their ideas in situations like professional networking, company meetings, response to proposals for services, and interviews. It teaches writing skills and workplace integration for new jobs. Particular emphasis is put on verbal communication and preparation for verbal communication. Students will learn to create career plans that require them to research career options and potential employers, and prepare a developmental roadmap that will lead them to success within the chosen profession.
Attributes: HNRS – Honors Course Designator
Prerequisite: (BA 101 with C- or better or BA 162 with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-])
Equivalent to: BA 253, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 260H, INTRODUCTION TO ENTREPRENEURSHIP, 4 Credits
Topics include evaluating entrepreneurial capabilities, creativity, business plan creation, opportunity assessment and feasibility analysis, business implementation, new product introduction, and seeking funds.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 260
Available via Ecampus

BA 270, BUSINESS PROCESS MANAGEMENT, 4 Credits
Introduces and integrates some core concepts from Operations Management (OM) and Business Information System (BIS) disciplines by introducing a process-oriented view of the flows of materials, information, products and services through and across organizational functions. Helps students to: identify information-bearing events and actors, model and analyze business processes, assess and improve process efficiency, recognize probabilistic components of business processes and understand the interactions between human behavior and process design. Hands-on, case-based assignments allow for practicing some principles and concepts addressed in the course.
Prerequisite: BA 275 with C- or better or BA 275H with C- or better
Equivalent to: BA 270H, BA 302, BA 302H
Available via Ecampus

BA 272, BUSINESS APPLICATION DEVELOPMENT, 4 Credits
Introduction to business computer programming. Beginning computer programming skills and concepts for scripting and console applications using the Python programming language.
Available via Ecampus
BA 275, FOUNDATIONS OF STATISTICAL INFERENCE, 4 Credits
An introductory course on statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples, and linear regression analysis.
Prerequisite: MTH 111 with C- or better or MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better or Math Placement - ALEKS with a score of 046
Equivalent to: BA 275H, BA 276
Available via Ecampus

BA 275H, FOUNDATIONS OF STATISTICAL INFERENCE, 4 Credits
An introductory course on statistical inference with an emphasis on business applications. Coverage includes descriptive statistics, random variables, probability distributions, sampling and sampling distributions, statistical inference for means and proportions using one and two samples, and linear regression analysis.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 241 with C- or better or MTH 251 with C- or better or MTH 251H with C- or better or Math Placement - ALEKS with a score of 046
Equivalent to: BA 275, BA 276

BA 280, BUSINESS INSIGHTS, 2 Credits
Connect with faculty and peers and explore OSU resources designed to enhance your college experience and success. Engage in professional development activities and cultivate the soft skills employers are looking for in their future employees.
Equivalent to: BA 170
Available via Ecampus

BA 281, PROFESSIONAL DEVELOPMENT, 3 Credits
Designed to give students an early start on the process of career planning and development. The process involves thoughtful self-assessment, career exploration, planning and follow-through with preliminary employment strategies.
Equivalent to: BA 253, BA 253H, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253
Available via Ecampus

BA 281H, PROFESSIONAL DEVELOPMENT, 3 Credits
Designed to give students an early start on the process of career planning and development. The process involves thoughtful self-assessment, career exploration, planning and follow-through with preliminary employment strategies.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 253, BA 253H, BA 281, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 282, DRAFTING YOUR CAREER BLUEPRINT, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Topics include characteristics of exemplary leadership, analyzing own strengths and talents, and developing a plan for strengthening leadership capacity.
Equivalent to: DSGN 282
Available via Ecampus

BA 283, CREATIVITY, CULTURE, AND THE WORKPLACE, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Topics include exploration of students’ unique talents; understanding of how teams as well as organizations can benefit from diverse and inclusive communities.
Equivalent to: DSGN 283
Available via Ecampus

BA 284, FOUNDATIONS OF PERSONAL FINANCE I, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. First of four courses dedicated to the foundations of personal finances. Topics include basics of personal finances and resources available; setting academic plan; setting strategic financial goals; budgeting.
Equivalent to: DSGN 284
Available via Ecampus

BA 290, INTRODUCTION TO CAREERS IN MARKETING, 3 Credits
Explores marketing through the perspectives of current marketing professionals. Introductory language and principles of marketing are introduced and examined through real world examples. Presents various careers within marketing.
Available via Ecampus

BA 291, BLUEPRINT - TRANSFER TRANSITIONS - SECOND YEAR FALL EXTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to OSU and the College of Business’ component, and Professional Development content, including business writing and verbal communication. Appropriate for second year external transfer students matriculating to the College in the Fall term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 292, BA 294, BA 295, BA 353, BA 382, BA 384, BA 385, DSGN 253
BA 292, BLUEPRINT - TRANSFER TRANSITIONS - SECOND YR WINTER EXTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to OSU and the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis. Appropriate for second year external transfer students matriculating to the College in the Winter term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 293, BLUEPRINT-TRANSFER TRANSITIONS-SECOND YEAR SPRING EXTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture. Appropriate for second year external transfer students matriculating to the College in the Spring term.

BA 294, BLUEPRINT - TRANSFER TRANSITIONS - SECOND YEAR FALL INTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication. Appropriate for second year internal transfer students matriculating to the College in the Fall term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 295, BLUEPRINT - TRANSFER TRANSITIONS - SECOND YR WINTER INTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis. Appropriate for second year internal transfer students matriculating to the College in the Winter term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 353, BA 381, BA 382, BA 384, BA 385, DSGN 253

BA 296, BLUEPRINT-TRANSFER TRANSITIONS-SECOND YEAR SPRING INTERNAL, 4 Credits
Customized entry course for transfer students that provides a ‘welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture. Appropriate for second year internal transfer students matriculating to the College in the Spring term.

BA 302, BUSINESS PROCESS MANAGEMENT, 4 Credits
Integrates core concepts from Business Information Systems (BIS) with those of Operations Management and introduces a process-oriented view of the flows of materials, information and services through and across organizations. The course helps students identify information-bearing events, assess and improve process efficiency, learn to model and analyze business processes, and understand the interactions between human behavior and process design. Hands-on, case-based assignments and labs allow students to practice the principles addressed.
Prerequisite: BA 275 with C- or better or BA 276 with C- or better
Equivalent to: BA 270, BA 270H, BA 302

BA 302H, BUSINESS PROCESS MANAGEMENT, 4 Credits
Integrates core concepts from Business Information Systems (BIS) with those of Operations Management and introduces a process-oriented view of the flows of materials, information and services through and across organizations. The course helps students identify information-bearing events, assess and improve process efficiency, learn to model and analyze business processes, and understand the interactions between human behavior and process design. Hands-on, case-based assignments and labs allow students to practice the principles addressed.
Prerequisite: BA 275 with C- or better or BA 276 with C- or better
Equivalent to: BA 270, BA 270H, BA 302

BA 311, FRAMING YOUR CAREER PLAN, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Course topics are designed to help the student explore different types of business communications and how to effectively communicate their ideas in a variety of methods.
Equivalent to: DSGN 311
Available via Ecampus

BA 312, FOUNDATIONS OF PERSONAL FINANCE II, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. The second of a four course series in Blueprint that is dedicated to the foundations of personal finances for life here at OSU.
Equivalent to: DSGN 312
Available via Ecampus

BA 313, THE ORANGE AND BLACK CASE COMPETITION, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Topics include leadership practices; business ethics case competition.
Prerequisite: (BA 260 with C- or better or BA 260H with C- or better) and (BA 213 [C-] or BA 213H [C-])
Equivalent to: DSGN 313
Available via Ecampus
BA 314, SUSTAINABLE BUSINESS OPERATIONS, 4 Credits
Operations are the processes by which an organization transforms inputs (e.g., labor, material, and knowledge) into outputs (products and services). Operations managers are responsible for designing, running and improving the processes and systems to efficiently accomplish this for production or service businesses. This course focuses on the concepts and tools employed by operations managers to provide their organization a competitive advantage. Topics include statistical tools and quantitative methods (descriptive statistics, probabilities, sampling, interval estimation and hypothesis testing) and operations management concepts (strategies, forecasting, process design, capacity utilization, quality systems, supply chain management, inventory management, resource planning, sustainability and lean systems.)
Available via Ecampus

BA 315, ACCOUNTING FOR DECISION MAKING, 4 Credits
Looks at how the accounting model reflects business transactions and events. Students are introduced to both financial and managerial accounting and the creation, interpretation, and analysis of financial statements. In addition, students obtain an understanding of the determination, organization, and management of costs and revenues including management decisions based upon this information.
Equivalent to: BA 215
Recommended: Third-year (junior) standing
Available via Ecampus

BA 330, LEGAL ENVIRONMENT OF BUSINESS, 4 Credits
Nature and function of law in our business society. Obligations arising out of agency, contract formation and breach, crimes, torts, warranty, regulation of competition, and international aspects thereof.
Equivalent to: BA 230, BA 230H
Recommended: Third-year (junior) standing
Available via Ecampus

BA 347, INTERNATIONAL BUSINESS, 4 Credits
Integrated view of international business including current patterns of international business, socioeconomic and geopolitical systems within countries as they affect the conduct of business, major theories explaining international business transactions, financial forms and institutions that facilitate international transactions, and the interface between nation states and the firms conducting foreign business activities.
Prerequisite: (ECON 202 with C- or better or ECON 202H with C- or better) and (BA 230 [C-] or BA 230H [C-] or BA 330 [C])
Equivalent to: BA 347H
Available via Ecampus

BA 347H, INTERNATIONAL BUSINESS, 4 Credits
Integrated view of international business including current patterns of international business, socioeconomic and geopolitical systems within countries as they affect the conduct of business, major theories explaining international business transactions, financial forms and institutions that facilitate international transactions, and the interface between nation states and the firms conducting foreign business activities.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ECON 202 with C- or better or ECON 202H with C- or better) and (BA 230 [C-] or BA 230H [C-] or BA 330 [C-])
Equivalent to: BA 347

BA 348, INTERNATIONAL EXCHANGE ORIENTATION, 1 Credit
Consists of large-group sessions as well as small-group break-out sessions for each country individually. It is vital to attend all sessions as valuable information pertaining to your study abroad opportunity will be presented. Graded P/N.

BA 349, IMPACT OF CULTURE ON BUSINESS, 1 Credit
A requirement of all students participating in a College of Business-approved international exchange program and for completing the College of Business International Business option. The major emphasis is for students to reflect on their experience while studying, living and traveling in a foreign culture and for them to determine how the foreign culture impacts how they would conduct business in that country. Graded P/N.
Prerequisite: BA 348 (may be taken concurrently) with C- or better

BA 351, MANAGING ORGANIZATIONS, 4 Credits
A systems perspective to understanding the management functions of planning, organizing, leading and controlling. Ethical and diversity issues are addressed as they are relevant in entrepreneurial and established ventures.
Available via Ecampus

BA 352, MANAGING INDIVIDUAL AND TEAM PERFORMANCE, 4 Credits
Diagnose individual and small-group behavior and develop skill in improving individual and small-group performance in entrepreneurial and established ventures. Emphasis on professional skill development and the practical application of theory and research. Concepts of ethics, diversity and cross-cultural relations are integrated throughout the course.
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 352H
Available via Ecampus
BA 352H, MANAGING INDIVIDUAL AND TEAM PERFORMANCE, 4 Credits
Diagnose individual and small-group behavior and develop skill in improving individual and small-group performance in entrepreneurial and established ventures. Emphasis on professional skill development and the practical application of theory and research. Concepts of ethics, diversity and cross-cultural relations are integrated throughout the course.
Attributes: HNRS – Honors Course Designator
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 352

BA 354, MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY, 4 Credits
Introduces contemporary issues that business professionals face making ethical and socially responsible decisions in an increasingly fast-paced, transparent, and global environment. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 354H, MGMT 459
Available via Ecampus

BA 354H, MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY, 4 Credits
Introduces contemporary issues that business professionals face making ethical and socially responsible decisions in an increasingly fast-paced, transparent, and global environment. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (COMM 111 with C- or better or COMM 111H with C- or better or COMM 114 with C- or better or COMM 114H with C- or better or COMM 218 with C- or better or COMM 218H with C- or better) and (WR 222 [C-] or WR 323 [C-] or WR 327 [C-] or WR 327H [C-] or HC 199 [C-])
Equivalent to: BA 354, MGMT 459

BA 357, OPERATIONS MANAGEMENT, 4 Credits
Provides an overview of the functional activities necessary for the creation/delivery of goods and services. Topics covered include: productivity; strategy in a global business environment; project management; quality management; location and layout strategies; supply chain and inventory management; material requirements planning; JIT; work-place safety; maintenance and reliability; sourcing and sustainability.
Prerequisite: (BA 275 with C- or better or BA 275H with C- or better or BA 276 with C- or better) and (BA 270 [C-] or BA 270H [C-] or BA 302 [C-] or BA 302H [C-])
Equivalent to: BA 357H
Available via Ecampus

BA 357H, OPERATIONS MANAGEMENT, 4 Credits
Provides an overview of the functional activities necessary for the creation/delivery of goods and services. Topics covered include: productivity; strategy in a global business environment; project management; quality management; location and layout strategies; supply chain and inventory management; material requirements planning; JIT; work-place safety; maintenance and reliability; sourcing and sustainability.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 275 with C- or better or BA 275H with C- or better or BA 276 with C- or better and (BA 270 [C-] or BA 270H [C-] or BA 302 [C-] or BA 302H [C-])
Equivalent to: BA 357

BA 360, INTRODUCTION TO FINANCIAL MANAGEMENT, 4 Credits
Explore the issues facing a financial manager in new business ventures, small businesses, and corporations. Focus on the role of the financial manager in business settings, explores the functions of a financial manager in financial analysis, forecasting, planning, and control; asset and liability management; capital budgeting; and raising funds for new business ventures, small businesses, and corporations.
Prerequisite: (BA 211 with C- or better or BA 211H with C- or better) or (BA 215 with C- or better or BA 215H with C- or better) or (BA 315 with C- or better) or (ECON 201 with C- or better or ECON 201H with C- or better) or (AEC 250 with C- or better or AEC 250H with C- or better) or (AEC 251 with C- or better)
Equivalent to: BA 360

BA 360H, INTRODUCTION TO FINANCIAL MANAGEMENT, 4 Credits
Explore the issues facing a financial manager in new business ventures, small businesses, and corporations. Focus on the role of the financial manager in business settings, explores the functions of a financial manager in financial analysis, forecasting, planning, and control; asset and liability management; capital budgeting; and raising funds for new business ventures, small businesses, and corporations.
Attributes: HNRS – Honors Course Designator
Prerequisite: (BA 211 with C- or better or BA 211H with C- or better) or (BA 215 with C- or better or BA 215H with C- or better) or (BA 315 with C- or better) or (ECON 201 with C- or better or ECON 201H with C- or better) or (AEC 250 with C- or better or AEC 250H with C- or better) or (AEC 251 with C- or better)
Equivalent to: BA 240, BA 240H, BA 360H
Available via Ecampus

BA 362, SOCIAL ENTREPRENEURSHIP AND SOCIAL INITIATIVES, 4 Credits
The core concepts of entrepreneurship, using entrepreneurship to craft innovative responses to social problems. Entrepreneurial skills are as valuable in the social sector as they are in business. Includes both profit and non-profit firms that have programs designed to create social value.
BA 363, TECHNOLOGY AND INNOVATION MANAGEMENT, 4 Credits
Introduces students to the fundamentals of managing innovation and technology toward the production of intellectual assets; how innovations are created, evaluated and leveraged within business strategy; and how innovation is managed within various business environments.
Available via Ecampus

BA 365, FAMILY BUSINESS MANAGEMENT, 4 Credits
Focuses on the opportunities and the problems characteristic of family businesses: entrepreneurship, management succession, transfer of ownership, mixing family and business roles, family conflicts, personnel issues, non-family employees, and outside advisors.
Available via Ecampus

BA 367, LAUNCH ACADEMY, 3 Credits
The Oregon State Launch Academy is an incubator for student entrepreneurs who want to be immersed in an innovative, high-energy environment that promotes the creation, evolution and implementation of business ideas. Launch Academy students earn academic credit for working on their businesses and have access to seed funding, prototyping equipment, co-working space, mentoring and training to help them advance their ideas. Launch Academy students learn about developing new products or services, marketing their ideas, building teams and securing funding, among other critical elements of entrepreneurial success.
Available via Ecampus

BA 368, ADVANCED LAUNCH ACADEMY, 1-3 Credits
The Oregon State Launch Academy is an incubator for student entrepreneurs who want to be immersed in an innovative, high-energy environment that promotes the creation, evolution and implementation of business ideas. Launch Academy students earn academic credit for working on their businesses and have access to seed funding, prototyping equipment, co-working space, mentoring and training to help them advance their ideas. In BA 368 Advanced Launch Academy students/teams will receive coaching from the instructor to move their business ideas forward. Students will secure and engage mentors, complete and test prototypes of their ideas, market their ideas, and prepare to secure funding for their ideas. Graded P/N.
Prerequisite: BA 367 with C- or better
This course is repeatable for 12 credits.

BA 370, BUSINESS INFORMATION SYSTEMS OVERVIEW, 4 Credits
Introduce students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, and the development and implementation of information systems. Use relational database models to design a real-world case study.
Prerequisite: BA 270 with C- or better or BA 270H with C- or better or BA 302 with C- or better
Equivalent to: BA 370H
Available via Ecampus

BA 370H, BUSINESS INFORMATION SYSTEMS OVERVIEW, 4 Credits
Introduce students to the field of information management. Topics include information systems technology, the strategic role of IT, the business applications of networks, databases and Internet technologies, and the development and implementation of information systems. Use relational database models to design a real-world case study.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 270 with C- or better or BA 270H with C- or better or BA 302 with C- or better
Equivalent to: BA 370

BA 371, BUSINESS DATA MANAGEMENT, 4 Credits
Exploration of business data management technologies including but not limited to relational database modeling, data retrieval, database triggers and stored procedures, NoSQL databases, programmatic database querying.
Prerequisite: BA 272 with C- or better and (ACTG 378 [C-] or ACTG 378H [C-] or BA 370 [C-] or BA 370H [C-])

BA 372, BUSINESS INFORMATION SYSTEMS DESIGN AND DEVELOPMENT, 4 Credits
Logical and physical design of computer-based information systems; tools and techniques that underlie the design processes. Design of an enterprise information system with CASE tools. Alternative approaches to systems design with emphasis on object-orientation. Lec/rec.
Prerequisite: BA 272 with C- or better and (ACTG 378 [C-] or ACTG 378H [C-] or BA 370 [C-] or BA 370H [C-])
Recommended: BA 371

BA 375, APPLIED QUANTITATIVE METHODS, 4 Credits
Introduces students to the basics of data science and data analytics for handling of large-scale databases. It provides an overview of the main data-analytic techniques and topics including data visualization, linear and nonlinear regression analysis, time series analysis and forecasting, classification, and clustering methods.
Prerequisite: BA 275 with C- or better or BA 275H with C- or better
Equivalent to: BA 375H
Available via Ecampus

BA 375H, APPLIED QUANTITATIVE METHODS, 4 Credits
Introduces students to the basics of data science and data analytics for handling of large-scale databases. It provides an overview of the main data-analytic techniques and topics including data visualization, linear and nonlinear regression analysis, time series analysis and forecasting, classification, and clustering methods.
Attributes: HNRS – Honors Course Designator
Prerequisite: BA 275 with C- or better or BA 275H with C- or better
Equivalent to: BA 375
BA 381, PERSONAL AND PROFESSIONAL DEVELOPMENT, 4 Credits
Designed to help students transition to the OSU and COB communities, identify and employ academic success strategies, and start the process of career planning and development. Teaches students how to set financial goals.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 382, BA 384, BA 385, DSGN 253
Available via Ecampus

BA 382, BLUEPRINT - TRANSFER TRANSITIONS - THIRD YR WINTER EXTERNAL, 4 Credits
Customized entry course for transfer students that provides a welcome to OSU and College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture; Map to Graduation; Paying for College; Managing Professional Career Opportunities and Personal Fit. Appropriate for third year external transfer students matriculating to the College in the Winter term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 384, BA 385, DSGN 253

BA 383, BLUEPRINT-TRANSFER TRANSITIONS-THIRD YEAR SPRING EXTERNAL, 4 Credits
Customized entry course for transfer students that provides a welcome to OSU and College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture; Map to Graduation; Paying for College; Managing Professional Career Opportunities and Personal Fit; Investing, Taxes, Credit/Banking. Appropriate for third year internal transfer students matriculating to the College in the Spring term.

BA 384, BLUEPRINT - TRANSFER TRANSITIONS - THIRD YEAR FALL INTERNAL, 4 Credits
Customized entry course for transfer students that provides a welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture; Map to Graduation; and Paying for College. Appropriate for third year internal transfer students matriculating to the College in the Fall term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 385, DSGN 253

BA 385, BLUEPRINT - TRANSFER TRANSITIONS - THIRD YR WINTER INTERNAL, 4 Credits
Customized entry course for transfer students that provides a welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture; Map to Graduation; Paying for College; Managing Professional Career Opportunities and Personal Fit. Appropriate for third year internal transfer students matriculating to the College in the Winter term.
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, DSGN 253

BA 386, BLUEPRINT-TRANSFER TRANSITIONS-THIRD YEAR SPRING INTERNAL, 4 Credits
Customized entry course for transfer students that provides a welcome to the College of Business’ component, and Professional Development content, including business writing and verbal communication; CliftonStrengths; Gap Analysis; Corporate Culture; Map to Graduation; Paying for College; Managing Professional Career Opportunities and Personal Fit; Investing, Taxes, Credit/Banking. Appropriate for third year internal transfer students matriculating to the College in the Spring term.

BA 390, PRINCIPLES OF MARKETING, 4 Credits
Explores consumer and industrial markets, and activities and enterprises involved in distributing products to those markets. Develops an understanding of distribution processes, marketing problems, and marketing principles.
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better or AREC 250 with C- or better or AEC 250 with C- or better or AEC 251 with C- or better
Equivalent to: BA 223, BA 223H, BA 390H
Available via Ecampus

BA 390H, PRINCIPLES OF MARKETING, 4 Credits
Explores consumer and industrial markets, and activities and enterprises involved in distributing products to those markets. Develops an understanding of distribution processes, marketing problems, and marketing principles.
Attributes: HNRS – Honors Course Designator
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better or AREC 250 with C- or better or AEC 250 with C- or better or AEC 251 with C- or better
Equivalent to: BA 223, BA 223H, BA 390

BA 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

BA 405, READING AND CONFERENCE, 1-16 Credits
Supervised individual work in some field of special application and interest. Subjects chosen must be approved by professor in charge.
This course is repeatable for 16 credits.
BA 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

BA 407, SEMINAR, 1-16 Credits
Equivalent to: BA 407H
This course is repeatable for 16 credits.

BA 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 407
This course is repeatable for 16 credits.

BA 410, BUSINESS INTERNSHIP, 1-12 Credits
Planned and supervised work experience at selected cooperating business firms. Supplementary training, conference, reports, and appraisals. Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus

BA 411, NAVIGATING YOUR WORKPLACE, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Builds a foundation of financial planning, offering students the tools to successfully manage their career pathways. Topics include: analyzing job offers and benefits packages, negotiating a job’s salary/benefits, strategizing the first 90 days on the job, and advocating for opportunities at work.
Equivalent to: DSGN 411
Available via Ecampus

BA 412, FINANCIAL PLANNING I, 1 Credit
Part of Blueprint – a 12-course professional development course series to guide the student from college to career. Continues to build a foundation of financial planning, offering students the tools to successfully prepare for future wealth. Topics include: budgeting for life after graduation, planning for new earnings and income, saving for your future self, and keeping your money and yourself secure.
Equivalent to: DSGN 412
Available via Ecampus

BA 413, FINANCIAL PLANNING II, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Fourth of four courses dedicated to the foundations of professional financial planning so the student can have the tools needed to successfully manage their career pathway.
Equivalent to: DSGN 413
Available via Ecampus

BA 432, *ENVIRONMENTAL LAW, SUSTAINABILITY AND BUSINESS, 3 Credits
Explores fundamental business, legal, and policy issues raised by environmental law, sustainable business practices, and clean energy policies, and their impact on business and management practices.
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

BA 447, TOPICS IN INTERNATIONAL BUSINESS, 1-4 Credits
Analysis of current topics in international business. Topics will vary from term to term.
Prerequisite: BA 347 with C- or better or BA 347H with C- or better

BA 451, SUPPLY AND SOURCING MANAGEMENT, 3 Credits
Use of operations and supply chain management to make sourcing and supply decisions in international business contexts. Topics include purchasing/procurement procedures and policy, supply organization, specifications, sourcing strategy, supplier evaluation, competitive bidding, and e-procurement. Global contexts and environmentally and socially responsible supply management are emphasized.
Prerequisite: BA 270 with C- or better or BA 270H with C- or better
Available via Ecampus

BA 453, SUPPLY CHAIN MODELING AND DECISION ANALYSIS, 4 Credits
Introduce decision modeling and analysis tools with a particular emphasis on linear programming and stochastic decision making tools for solving various business decision problems pertaining to supply chain management. The major goals are to enhance students’ ability to think, formulate and analyze business problems using optimization and stochastic simulation (Monte Carlo simulation and discrete-event simulation). The case study approach, lectures, discussions and computer-aided problem solving will be used to develop and apply the relevant concepts and methodologies.
Prerequisite: BA 375 with C- or better

BA 454, LEAN ENTERPRISE MANAGEMENT AND CAPSTONE, 3 Credits
Analyze business cases that address global value creation and production/delivery systems. Complete integrated business projects to identify critical operations and supply chain management issues, apply multidisciplinary knowledge, analyze and evaluate alternative solutions and write and present reports recommending firm strategies. International business and cross-cultural competencies are emphasized.
Prerequisite: BA 459 with C- or better and MGMT 457 [C-]
Available via Ecampus

BA 456, TECHNOLOGY APPLICATIONS IN SUPPLY CHAIN MANAGEMENT, 4 Credits
Introduction to the knowledge and skills necessary to quantify the impact of supply chain management decisions on the bottom line. Basic understanding of accounting, finance, production cost, scheduling, and the link between supply chain and overall financial performance. Management of a company’s integrated supply chain using a sophisticated ERP system.
Prerequisite: BA 375 with C- or better
Equivalent to: MGMT 456
Recommended: a minimum grade of C- or better. Senior standing.
BA 458, INNOVATION AND NEW PRODUCT DEVELOPMENT, 4 Credits
Strategic management of an organization’s system and technologies in support of innovation and new product/service development. Application experience with new product/service development process using problem solving skills, information management, and critical thinking.
Prerequisite: BA 223 with C- or better or BA 223H with C- or better or BA 390 with C- or better or BA 390H with C- or better

BA 459, SERVICE OPERATIONS MANAGEMENT, 3 Credits
Focus on the management of global service operations including designing and managing systems to coordinate global information and material flows within and between firms in a supply chain. Covers planning operations, evaluating system alternatives, designing and researching global supply networks, examining complex adaptive systems and evaluating value stream synchronization.
Prerequisite: BA 375 with C- or better or BA 375H with C- or better
Available via Ecampus

BA 460, VENTURE MANAGEMENT, 4 Credits
Entrepreneurial and innovation processes applied to new business start-ups, existing small businesses, and new ventures within larger organizations; new venture planning, project management, and productivity improvement. Cases and projects are used to apply concepts and to develop communication skills.
Prerequisite: (BA 260 with C- or better or BA 260H with C- or better) and (BA 351 [C-] or BA 352 [C-] or BA 352H [C-]) and (BA 223 [C-] or BA 223H [C-] or BA 390 [C-] or BA 390H [C-])
Available via Ecampus

BA 463, FAMILY ENTERPRISE GOVERNANCE, 4 Credits
Explores and analyzes family enterprise governance practices. Addresses the governance of established family enterprises as distinct from publicly-held firms. Examines succession, stewardship, conflict resolution, communications, legal, and financial aspects, estate planning, strategy, philanthropy and other topics that drive successful family enterprise governance.
Available via Ecampus

BA 464, NEW VENTURE FINANCING, 4 Credits
Explore financial issues facing entrepreneurial business ventures: cash flow and budgets, financial analysis, financial statement forecasting, financial controls, asset management, and understanding the funding options at different points in the business life cycle including SBA loans, angel investment, venture capital, bank loans, and going public.
Prerequisite: ((BA 260 with C- or better or BA 260H with C- or better) and (BA 240 [C-] or BA 240H [C-] or BA 360 [C-] or BA 360H [C-] or FIN 340 [C-] or FIN 340H [C-])
Available via Ecampus

BA 465, SYSTEMS THINKING AND PRACTICE, 4 Credits
Hard and soft system theories examined, methods and techniques for dealing with real-world problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions.
Equivalent to: BA 465H

BA 465H, SYSTEMS THINKING AND PRACTICE, 4 Credits
Hard and soft system theories examined, methods and techniques for dealing with real-world problems; skills and dialogue techniques to identify mindsets, define problems, and explore alternative pathways for solutions.
Attributes: HNRS – Honors Course Designator
Equivalent to: BA 465

BA 466, INTEGRATIVE STRATEGIC EXPERIENCE, 4 Credits
Provides students with an overview of the basic concepts in strategic management. Students learn frameworks and models to understand and analyze a firm’s external environment and internal resources in an effort to create sustainable competitive advantages. Analysis and critique of conventional conceptions of business ethics. Evaluation of ethical issues involving businesses at firm, national, and international levels.
Prerequisite: ((BA 240 with C- or better or BA 240H with C- or better or FIN 340 with C- or better or FIN 340H with C- or better or BA 360 with C- or better or BA 360H with C- or better) and (BA 352 [C-] or BA 352H [C-]) and (BA 357 [C-] or BA 357H [C-]) and (BA 223 [C-] or BA 223H [C-] or BA 390 [C-] or BA 390H [C-])
Equivalent to: BA 466H
Available via Ecampus

BA 466H, INTEGRATIVE STRATEGIC EXPERIENCE, 4 Credits
Provides students with an overview of the basic concepts in strategic management. Students learn frameworks and models to understand and analyze a firm’s external environment and internal resources in an effort to create sustainable competitive advantages. Analysis and critique of conventional conceptions of business ethics. Evaluation of ethical issues involving businesses at firm, national, and international levels.
Attributes: HNRS – Honors Course Designator
Prerequisite: ((BA 240 with C- or better or BA 240H with C- or better or FIN 340 with C- or better or FIN 340H with C- or better or BA 360 with C- or better or BA 360H with C- or better) and (BA 352 [C-] or BA 352H [C-]) and (BA 357 [C-] or BA 357H [C-]) and (BA 223 [C-] or BA 223H [C-] or BA 390 [C-] or BA 390H [C-])
Equivalent to: BA 466

BA 467, NEW VENTURE LABORATORY, 4 Credits
Entrepreneurship capstone course. Fully develop a business plan including product specs with prototype, financial analysis, market analysis, marketing plan, management structure and proposed financing.
Prerequisite: (BA 357 with C- or better or BA 357H with C- or better) and BA 458 [C-]
Equivalent to: ENGR 467
BA 468, TECHNOLOGY COMMERCEALIZATION, 2-4 Credits
'Hands on' class in which students will exercise commercialization concepts on recently awarded Oregon State University patents or individual commercialization projects. Students will learn a process and tools to assess the business viability of a technical idea, and to develop the best business approach for commercialization.
Prerequisite: BA 363 with C- or better
Equivalent to: BA 468X
This course is repeatable for 8 credits.

BA 474, DATA MANAGEMENT, 3 Credits
Familiarize students with the major activities involved in collecting and managing data for a data analytics project, including extracting information from relational databases, mapping organizational requirements into a data design, transforming data into information, and exploring basic concepts underlying noSQL data management and analysis methods.
Prerequisite: BA 481 with C- or better or BA 483 with C- or better
Available via Ecampus

BA 475, DATA EXPLORATION AND VISUALIZATION, 3 Credits
Exploring and visualizing data in business analytics projects. We will focus on exploring and wrangling data to discover interesting analysis questions and prepare for other analytics activities. We will pay special attention to data visualization methods and their overall place in data science and business analytics.
Prerequisite: BA 481 with C- or better or BA 483 with C- or better
Available via Ecampus

BA 476, DATA AND TEXT MINING, 3 Credits
Introduces the concepts and applications of data and text mining. As the core of business analytics, mining structured and unstructured information is critical for better decision making by deriving valuable insights from your enterprise data repositories regardless of source or format. It allows deep, rich analysis of information. Data/text mining can help organizations surface undetected problems, fix process inefficiencies, improve customer service and corporate accountability, reduce operating costs and risks and discover new revenue opportunities. Student groups will implement a comprehensive project of data/text analytics.
Prerequisite: BA 474 with C- or better and BA 475 [C-]

BA 478, SUPPLY CHAIN ANALYTICS, 3 Credits
Explores modeling methods for design, analysis, execution and integration of supply chains. Introduces students to a variety of modeling and optimization techniques for the analysis of strategic, tactical and operational supply chain problems, including demand forecasting, risk analysis, revenue management, distribution and facility location.
Prerequisite: (BA 357 with C- or better or BA 357H with C- or better) and (BA 375 [C-] or BA 375H [C-])
Available via Ecampus

BA 479, BUSINESS TELECOMMUNICATIONS AND NETWORKING, 4 Credits
Provide a fundamental understanding of the five-layer Internet model and its effects on the business environment and enterprise-wide computing. Assignments relate to network administration in a virtualized cloud environment.
Prerequisite: BA 270 with C- or better or BA 270H with C- or better

BA 480, INFORMATION SYSTEMS SECURITY, 4 Credits
Covers security risk mitigation methods and procedures such as access control, identity management, intrusion prevention and detection, network and physical security, etc. These and other topics will be placed in both the operational and strategic context of the business. Addresses several IS governance and IS security frameworks within which the various security concepts, aspects, policies and procedures can be viewed and discussed.
Prerequisite: (ACTG 378 with C- or better or ACTG 378H with C- or better or BA 370 with C- or better or BA 370H with C- or better) and BA 479 [C-]

BA 481, INTRODUCTION TO BUSINESS ANALYTICS, 4 Credits
How organizations can successfully collect, evaluate and apply information for better decision making. Emerging technologies such as transaction processing systems, RFID, weblogs, social networks, website usage, and online communities have the potential to reveal market trends, suppliers’ preferences, and competitors’ next moves. The success of an organization largely depends on its ability to take advantage of those data sets that are already available to it. The class starts with basic IT strategy concepts for the identification of the opportunities for BI solutions, and ends with hands-on experience using Business Intelligence tools to implement such solutions.
Equivalent to: BA 483
Available via Ecampus

BA 482, INFORMATION SECURITY GOVERNANCE, 4 Credits
As a discipline cybersecurity covers software, hardware, networking, systems, individuals, organizations and applicable policies, laws and standards, among others. Given societies’ dependence on the security of global infrastructure and the increasing complexity of maintaining the security of those systems, there is a growing need for an interdisciplinary approach to study this topic. This course introduces several well-regarded and well-used IT and IT security governance frameworks which can be used to apply and govern security policies and protocols in organizations. The course also delves into SOC IT auditing.
Available via Ecampus
BA 483, BUSINESS ANALYTICS, 4 Credits
Presents how organizations can successfully 'collect, evaluate and apply information' for better decision making. Technologies such as transaction processing systems, RFID, weblogs, social networks, website usage, and online communities have the potential to reveal market trends, suppliers' preferences, and competitors' next moves. The success of an organization largely depends on its ability to take advantage of those data sets that are already available to it.
Prerequisite: BA 371 with C- or better and BA 479 [C-]
Equivalent to: BA 481

BA 487, HOSPITALITY FINANCIAL MANAGEMENT, 4 Credits
Introduces students to the evaluation of investments in competitive products and services as sustainable strategies for the hospitality industry.
Prerequisite: BA 360 with C- or better and BA 486 [C-]

BA 488, ADVANCED HOSPITALITY MANAGEMENT, 4 Credits
Designed to provide students with an in-depth understanding of the importance of core competencies in the hospitality industry in terms of overall value addition, competitive methods, and competitive advantage, taking into consideration both present and future effects.
Prerequisite: BA 352 with C- or better

BA 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

BA 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

BA 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

BA 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

BA 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

BA 510, BUSINESS INTERNSHIP, 1-6 Credits
Planned and supervised work experience at selected cooperating business firms. Supplementary training, conferences, reports, and appraisals.
This course is repeatable for 16 credits.

BA 512, BUSINESS ANALYSIS AND COMMUNICATION, 6 Credits
Students will be guided through a process of determining business issues or challenges given specific situations, providing reasons/justifications why these are important, proposing solutions to the identified business problems, and communicating this analysis through in-class discussions and writing.
Recommended: ALS 162 with a minimum grade of B

BA 513, BUSINESS LEGAL ENVIRONMENT, 3 Credits
Provides the essential legal foundation for business managers in companies operating in the U.S. Effective strategies for managers to prevent and resolve legal disputes will be stressed. Topics include legal issues related to corporate forms, creating and enforcing contracts, reducing exposure to tort liability and the role of employees as agents of a business.
Available via Ecampus

BA 514, OPERATIONS MANAGEMENT, 3 Credits
Provides a foundation for business managers in statistics and operations management. Emphasis on quantitative tools for sampling, interval estimation and hypothesis testing as well as operations management concepts for processes, quality systems, supply chain management, inventory management, resource planning, and sustainable lean systems.
Recommended: College algebra (including probabilities).
Available via Ecampus

BA 515, MANAGERIAL DECISION TOOLS, 3 Credits
Develop business management skills by learning the principles of managerial and financial accounting. Emphasis will be placed on understanding financial statements, cost analysis, and funding decisions. Focuses on integrating the theoretical framework of accounting and finance with the "hands on" technical skills needed to evaluate financial decisions within an organization.
Recommended: College algebra.
Available via Ecampus

BA 516, CREATING VALUE IN EXCHANGE, 3 Credits
A graduate-level survey course that provides a foundation for business managers in the concepts of marketing. The student will develop an understanding of marketing principles and an awareness of marketing challenges.
Recommended: Microeconomics
Available via Ecampus

BA 517, MARKETS AND VALUATION, 3 Credits
Introduces students to the basic questions facing a financial manager and the tools a financial manager uses to find answers to these questions. Introduces the basic tools of finance and applications of financial theory in use today. Students will be introduced to legal, ethical, technology, and global issues facing a financial manager. The course is designed to enhance a student’s approach to financial decision making and emphasizes technical analysis and quantitative approaches to decision making.
Available via Ecampus

BA 518, ADOPTING THE ENTREPRENEURIAL MINDSET, 3 Credits
Introduces the fundamentals of entrepreneurship and innovation, and exposes the concepts, practice, and tools of the entrepreneurial world.
Available via Ecampus
BA 528, FINANCIAL AND COST ANALYSIS, 3 Credits
Analysis of the balance sheet and income statement to determine profitability, risk, and rate of return; preparation of pro forma financial statements; cost measurement for products, projects, jobs, customers, and markets; strategic cost decision making for pricing and resource allocation.
Recommended: BA 213 with a grade of C- or higher
Available via Ecampus

BA 531, BUSINESS LAW - TECHNOLOGY/NEW VENTURES, 3 Credits
An integrative course on managing legal and ethical issues for new ventures. Focuses on business law for founders of start-up companies including formation of new business entities, protecting intellectual property, workforce management and global issues. Topics presented from an entrepreneurial perspective and include technology law, e-commerce law and government regulation. Students develop skills to identify and resolve legal and ethical issues, deal with administrative agencies, and proactively manage legal liability. Considerations of ethics and corporate responsibility are emphasized.
Recommended: BA 230 or BA 330 or BA 513 with a minimum grade of B-

BA 532, ENVIRONMENTAL LAW, SUSTAINABILITY, AND BUSINESS, 4 Credits
Explores fundamental business, legal, and policy issues raised by environmental law, sustainable business practices, and clean energy policies, and their impact on business and management practices.

BA 533, BUSINESS LAW FOR MANAGERS, 3 Credits
Develops knowledge and skills about business law used by managers in global organizations. Topics covered include establishing lawful and ethical business practices; preventing and responding to compliance failures, infringement and other legal threats; effective use of contracts; and resolving disputes through litigation and alternative dispute resolution.
Recommended: BA 230 and BA 233 and BA 513 and PHAR 707 and PHAR 708
Available via Ecampus

BA 540, CORPORATE FINANCE, 3 Credits
Emphasizes analytical tools to measure and manage firm value, through corporate strategies such as mergers and acquisitions, leveraged buyouts, international expansion, and new venture development.
Recommended: (BA 340 or FIN 340 or FIN 340H) with a minimum grade of C-
Available via Ecampus

BA 550, ORGANIZATION LEADERSHIP AND MANAGEMENT, 3 Credits
Organization-wide implementation issues driven by change. Provides a balanced view of the structural and human sides of organization design.
Recommended: BA 352 with a minimum grade of C-
Available via Ecampus

BA 551, SUPPLY AND SOURCING MANAGEMENT, 3 Credits
Use of operations and supply chain management to make sourcing and supply decisions in international business contexts. Topics include purchasing/procurement procedures and policy, supply organization, specifications, sourcing strategy, supplier evaluation, competitive bidding, and e-procurement. Global contexts and environmentally and socially responsible supply management are emphasized.
Available via Ecampus

BA 554, LEAN ENTERPRISE MANAGEMENT AND CAPSTONE, 3 Credits
Analyze business cases that address global value creation and production/delivery systems. Complete integrated business projects to identify critical operations and supply chain management issues, apply multidisciplinary knowledge, analyze and evaluate alternative solutions and write and present reports recommending firm strategies. International business and cross-cultural competencies are emphasized.
Prerequisite: BA 559 with B- or better and BA 561 [B-]
Available via Ecampus

BA 555, PRACTICAL BUSINESS ANALYSIS, 3 Credits
Advanced survey of quantitative business methods useful for aiding management decisions. Topics include a review of basic statistics, mathematical programming, business simulation, statistical process control, advanced regression analysis and forecasting.
Recommended: BA 275 with a minimum grade of C- or higher
Available via Ecampus

BA 557, GLOBAL LOGISTICS MANAGEMENT: FUNDAMENTALS AND STRATEGY, 3 Credits
Students will learn key concepts, basic strategies, and decision-making tools relevant to logistics management, and apply them to real-world logistics problems faced by companies in the context of managing their global supply chains.
Prerequisite: BA 551 with B or better and BA 552 [B] and BA 561 [B]
Available via Ecampus

BA 543, FINANCIAL MARKETS AND INSTITUTIONS, 3 Credits
Investigates the five major financial markets: common stock, bond, derivatives, mortgage, and currency. The course examines the agents in each of these markets, the rules of trading, and the rationale of the agents participating in the different markets.
Recommended: (BA 340 or FIN 340 or FIN 340H) with a minimum grade of C-
**BA 559, SERVICE OPERATIONS MANAGEMENT, 3 Credits**
Focus on the management of global service operations including designing and managing systems to coordinate global information and material flows within and between firms in a supply chain. Covers planning operations, evaluating system alternatives, designing and researching global supply networks, examining complex adaptive systems and evaluating value stream synchronization.
**Prerequisite:** BA 551 with B- or better and BA 555 [B-]
**Equivalent to:** BA 552
Available via Ecampus

**BA 560, VENTURE PLANNING, 3 Credits**
Entrepreneurial and innovation processes applied to new business start-ups, existing small businesses, and new ventures within larger organizations; emphasis on venture planning with project management.
**Recommended:** ((BA 340 or BA 340H or FIN 340 or FIN 340H) and (BA 390 or BA 390H)) with a minimum grade of C-

**BA 561, SUPPLY CHAIN MANAGEMENT, 3 Credits**
Covers tools and concepts needed to manage the entire supply chain effectively. Topics include negotiation, purchasing, logistics operations, and applying e-business tools. Emphasis on creating integrated supply chains.
**Recommended:** (BA 357 and BA 555) with a minimum grade of C-
Available via Ecampus

**BA 562, MANAGING PROJECTS, 3 Credits**
Covers tools and concepts used by managers to plan and initiate business projects. Computer applications, cases and a project.
**Recommended:** (BA 352 and BA 357) with a minimum grade of C-
Available via Ecampus

**BA 563, FAMILY ENTERPRISE GOVERNANCE, 4 Credits**
Builds on the introductory family business management course to examine the required elements of a successful enterprise, a diversified and multigenerational organization comprised of multiple business lines.
**Recommended:** BA 365
Available via Ecampus

**BA 567, SELECTED TOPICS IN MANAGEMENT, 0-4 Credits**
Examination of the impact of recent advances in management on contemporary business. Topic will vary from term to term. Lec/rec. This course is repeatable for 16 credits.

**BA 568, INTEGRATED BUSINESS PROJECT, 3 Credits**
The project requires students to complete a business plan, as a means of directing the development of a business. A business plan can help focus a business idea, chart a course for strategic business development, and facilitate setting objectives and creating evaluative benchmarks of progress. To be taken during the last year of the MBA program.

**BA 569, ADVANCED STRATEGIC MANAGEMENT, 3 Credits**
Advanced integrative case-based course on the process of systematically developing and managing firm strategies. Topics are covered from a general management perspective and include setting corporate goals and objectives, analyzing external competitive environments, understanding business models, identifying strategy options, and designing appropriate organization systems and structure for implementation of plans. International and e-business issues are integrated throughout.
**Recommended:** All foundation courses
Available via Ecampus

**BA 570, INNOVATION STRATEGY, IP, AND NPD, 3 Credits**
Enables students who are aspiring entrepreneurs forming new ventures or corporate managers leading existing businesses to understand the fundamental drivers of the success or failure of new products, from the perspective of the strategic management of technological innovation.
**Prerequisite:** BA 560 with B- or better

**BA 571, HEALTHCARE AND BIOMEDICAL INNOVATION, 3 Credits**
An integrative learning experience intended to provide current and future managerial, analytical, clinical, and technical professionals in health-related fields with an understanding of the full range of strategic issues associated with innovation management, intellectual property (IP) protection, and new product development. Through the use of conceptual frameworks, relevant case studies, simulations, and product/service examples drawn from the global healthcare ecosystem, explore the effective use of IP to reduce and manage risk, facilitate market entry, and enhance competitive positioning.

**BA 572, ADVANCED INFORMATION SYSTEMS, 3 Credits**
The development, implementation and management of information technology applications will be addressed. Topics will address the development and application of technology to support linkages within the organization and outside the organization. Projects will be assigned to illustrate the topics.
Available via Ecampus

**BA 573, DATA ANALYTICS FOR COMPETITIVE ADVANTAGE, 3 Credits**
Case studies, hands-on data analysis experience, and a class project will introduce basic concepts of data analytics, sketch the lifecycle of a data analytics project, and connect analytics to business consequences. Students will use representative analytic tools to support decision making.
Available via Ecampus
BA 574, DATA MANAGEMENT, 3 Credits
Familiarize students with the major activities involved in collecting and managing data for a data analytics project, including extracting information from relational databases, mapping organizational requirements into a data design, transforming data into information, exploring data warehouse concepts, and exploring basic concepts underlying Hadoop and other noSQL data management and analysis methods.
Prerequisite: BA 573 with C or better
Available via Ecampus

BA 575, DATA EXPLORATION AND VISUALIZATION, 3 Credits
In this course we concentrate on the initial, exploratory phases of business analytic data analysis. We explore different types of data and the types of analysis they allow; aggregating and disaggregating data and issues of validity with both selecting and collecting data. We also start exploring one or more datasets relating to our Integrated Business Analytics Project (BA 577).
Prerequisite: BA 573 with C or better
Available via Ecampus

BA 576, DATA AND TEXT MINING, 3 Credits
Examine how data/text analysis technologies can be used to improve decision making. The class covers the fundamental principles and techniques of data mining, text analysis, and uses real-world examples and cases to place data-mining techniques in context. Students will have hands-on experience with data/text mining software.
Prerequisite: BA 574 with C or better and BA 575 [C]
Available via Ecampus

BA 577, INTEGRATED BUSINESS ANALYTICS PROJECT, 3 Credits
Students will integrate what they have learned to solve industry-sponsored problems. The goal of the class is to provide students with opportunities to design, implement, and evaluate analytic solutions for a real-world enterprise. Student teams will examine the data requirements, technical requirements, and organizational requirements necessary for the success of analytical solutions. The project will give students the experience of leading and managing an analytical team, much as a Chief Analytics Officer (CAO) would be expected to do.
Prerequisite: BA 555 with C or better and BA 574 [C] and BA 575 [C]
Available via Ecampus

BA 578, SUPPLY CHAIN ANALYTICS, 3 Credits
Explores modeling methods for design, analysis, execution and integration of supply chains. Introduces students to a variety of modeling and optimization techniques for the analysis of strategic, tactical and operational supply chain problems including demand forecasting, risk analysis, revenue management, distribution and facility location.
Prerequisite: BA 555 with B- or better
Available via Ecampus

BA 590, MARKETING MANAGEMENT, 3 Credits
Provides students with an understanding of how a market-orientation can help firms to profitably deliver value to their targeted customers. Through a combination of lectures, in-class exercises, and case discussions, students will learn how to analyze complex marketing challenges, and make strategic decisions based on established marketing management principles.
Recommended: BA 390 with a minimum grade of C-
Available via Ecampus

BA 599, SPECIAL TOPICS IN BUSINESS ADMINISTRATION, 1-4 Credits
This course is repeatable for 16 credits.

BA 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 32 credits.

BA 602, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 32 credits.

BA 603, THESIS/DISSERTATION, 1-16 Credits
Graded P/N.
This course is repeatable for 999 credits.

BA 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 32 credits.

BA 607, SEMINAR, 1-16 Credits
This course is repeatable for 32 credits.

BA 611, TEACHING EFFECTIVENESS, 1-6 Credits
Provides an overview of a broad range of effective teaching techniques and common issues associated with teaching at the college level (e.g., defining learning outcomes, common pitfalls, assessing of student learning, etc.).
This course is repeatable for 6 credits.

BA 612, FOUNDATIONS OF BUSINESS RESEARCH, 3 Credits
Introduces first-year business doctoral students to concepts fundamental to conducting research in business as a social science. Specific topics may change from quarter to quarter, but sample topics include the academic environment in business, research paradigms, ethics in research, fundamentals of scientific research, constructs, validity, sampling, and analysis and interpretation.
BA 613, SEMINAR IN BUSINESS RESEARCH METHODS, 3 Credits
Provides first-year business PhD students with an in-depth introduction to the most common research methodologies used by current business faculty across multiple functional disciplines. Specific research methods covered may change from quarter to quarter, but sample topics include use of basic econometric models for analysis of archival data, experimental methodologies, qualitative research techniques, and survey research.

BA 660, FOUNDATIONS OF ENTREPRENEURSHIP RESEARCH, 3 Credits
Provides a broad overview of the foundations of entrepreneurship research, including theoretical underpinnings of the field as well as some of the common and/or promising approaches to the study of entrepreneurial phenomena.

BA 661, DOCTORAL SEMINAR IN ORGANIZATIONAL THEORY, 3 Credits
Surveys research on classic and contemporary developments in basic organizational theory.

BA 662, CORPORATE ENTREPRENEURSHIP AND NEW VENTURES, 3 Credits
Surveys research in the area of corporate entrepreneurship and venturing, focusing on relevant theoretical underpinnings and core concepts in the corporate entrepreneurship, entrepreneurship, and strategy literatures.

BA 663, STRATEGIC MANAGEMENT, 3 Credits
Surveys research exploring the central question in strategy: Why do some firms outperform others? The course considers a wide variety of foundational and contemporary issues in the field, and while specific topics may change from quarter to quarter, sample topics include competitive and cooperative interactions, the resource-based view and firm capabilities, organizational learning and adaptation, and industry evolution.

BA 664, TECHNOLOGY AND INNOVATION MANAGEMENT, 3 Credits
Surveys research on the management of innovation and technology in organizations, focusing on innovation as an outcome (product, service, technology, practice) and on the process of generation, adoption, and implementation of innovation in organizations.

BA 808, WORKSHOPS, 0-16 Credits
Workshops aimed at practicing professionals in the discipline. Topics may vary.

Chem, Bio, Enviro Engineering (CBEE)

CBEE 101, CHEMICAL, BIOLOGICAL, AND ENVIRONMENTAL ENGR ORIENTATION, 3 Credits
Introduction to the engineering profession in general and in particular the CHE, BIOE, and ENVE programs; development of problem solving strategies and teamwork; analysis and presentation of experimental data, basic process calculations, and design methodologies.
Equivalent to: CBEE 101H

CBEE 101H, CHEMICAL, BIOLOGICAL, AND ENVIRONMENTAL ENGR ORIENTATION, 3 Credits
Introduction to the engineering profession in general and in particular the CHE, BIOE, and ENVE programs; development of problem solving strategies and teamwork; analysis and presentation of experimental data, basic process calculations, and design methodologies.
Attributes: HNRS – Honors Course Designator
Equivalent to: CBEE 101

CBEE 102, ENGINEERING PROBLEM SOLVING AND COMPUTATIONS, 3 Credits
Elementary programming and problem-solving concepts implemented using MATLAB software; emphasis on problem analysis and development of algorithms in engineering including dimensional analysis; application experiences are established through team-based activities including projects using the LEGO-NXT microprocessor for data acquisition.
Prerequisite: MTH 112 with C or better or MTH 251 with C or better or MTH 251H with C or better
Equivalent to: BIO 102, CBEE 102H, CHE 102, ENVE 102

CBEE 102H, ENGINEERING PROBLEM SOLVING AND COMPUTATIONS, 3 Credits
Elementary programming and problem-solving concepts implemented using MATLAB software; emphasis on problem analysis and development of algorithms in engineering including dimensional analysis; application experiences are established through team-based activities including projects using the LEGO-NXT microprocessor for data acquisition.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 112 with C or better or MTH 251 with C or better or MTH 251H with C or better
Equivalent to: CBEE 102

CBEE 111, ENGINEERING PROBLEM SOLVING FUNDAMENTALS, 3 Credits
Engineering problem solving, dimensional analysis, sketches and drawings, algorithmic thinking, arrays and indexing, understanding the operating system and file handling, the concepts of programming languages and syntax, troubleshooting approaches to coding. Lec/Studio
This course is repeatable for 3 credits.
CBEE 211, MATERIAL BALANCES AND STOICHIOMETRY, 3 Credits
Material balances, thermophysical, and thermochemical calculations. Lec/rec.
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: BIOE 211, CBEE 211H, CHE 211, ENVE 211
Recommended: General chemistry and second-year standing in engineering

CBEE 211H, MATERIAL BALANCES AND STOICHIOMETRY, 3 Credits
Material balances, thermophysical, and thermochemical calculations. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: CBEE 211
Recommended: General chemistry and second-year standing in engineering

CBEE 212, ENERGY BALANCES, 3 Credits
Energy balances, thermophysical and thermochemical calculations. Lec/rec.
Prerequisite: (CBEE 211 with C or better or CBEE 211H with C or better) and (MTH 256 (may be taken concurrently) [C] or MTH 256H (may be taken concurrently) [C])
Equivalent to: BIOE 212, CBEE 212H, CHE 212, ENVE 212
Recommended: One year general chemistry and second-year standing in engineering

CBEE 212H, ENERGY BALANCES, 3 Credits
Energy balances, thermophysical and thermochemical calculations. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CBEE 211 with C or better or CBEE 211H with C or better) and (MTH 256 (may be taken concurrently) [C] or MTH 256H (may be taken concurrently) [C])
Equivalent to: CBEE 212
Recommended: One year general chemistry and second-year standing in engineering

CBEE 213, PROCESS DATA ANALYSIS, 4 Credits
Applications of material and energy balances, with an emphasis on data analysis important to chemical engineers, bioengineers, and environmental engineers. Contextual learning is emphasized through the laboratory component and the use of process flow simulation modeling and analysis software.
Prerequisite: CBEE 212 (may be taken concurrently) with C or better or CBEE 212H (may be taken concurrently) with C or better
Equivalent to: BIOE 213, CHE 213, ENVE 213

CBEE 280, MATERIAL AND ENERGY BALANCES, 0-6 Credits
Material balances, thermophysical, and thermochemical calculations. Energy balances, thermophysical and thermochemical calculations.
Prerequisite: MTH 256 (may be taken concurrently) with C or better or MTH 256H (may be taken concurrently) with C or better
This course is repeatable for 6 credits.
Available via Ecampus

CBEE 320, PROFESSIONALISM AND ENGINEERING ETHICS, 3 Credits
Introduction to engineering ethics. Topics include ethical theory, professional engineering responsibility, codes of ethics, ethical assessment, conflicts of interest, risk and safety, loyalty and dissent, as well as overarching professional concerns.
Prerequisite: CBEE 212 with C or better or CBEE 212H with C or better or CBEE 280 with C or better
Equivalent to: BIOE 320

CHE 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: CHE 199H
This course is repeatable for 99 credits.

CHE 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CHE 199
CHE 299, PROFESSIONAL WORKSKILLS, 1-16 Credits
Equivalent to: CHE 299H
This course is repeatable for 99 credits.
Available via Ecampus

CHE 311, THERMODYNAMICS, 3 Credits
Entropy, the second law of thermodynamics, equations of state, and thermodynamic network.
Prerequisite: (CBEE 212 with C or better or CBEE 212H with C or better or CBEE 280 with C or better) and (MTH 256 [C] or MTH 256H [C])

CHE 312, CHEMICAL ENGINEERING THERMODYNAMICS, 3 Credits
Thermodynamic mixtures, fugacity, phase equilibrium, and chemical reactions equilibrium.
Prerequisite: CHE 311 with C or better

CHE 320, SAFETY, ENGINEERING ETHICS AND PROFESSIONALISM, 3 Credits
Introduction to engineering ethics and safety concepts. Topics include professional engineering responsibility, codes of ethics, ethical assessment, conflicts of interest, loyalty and dissent, life-long learning, hazard identification, risk and safety, and process safety management.
Lec/rec.
Prerequisite: CBEE 212 with C or better or CBEE 212H with C or better or CBEE 280 with C or better

CHE 331, TRANSPORT PHENOMENA I, 4 Credits
Fundamentals and application of momentum and energy transfer phenomena to fluid flow for the design of industrial chemical engineering equipment.
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and (CBEE 212 [may be taken concurrently] [C] or CBEE 212H [may be taken concurrently] [C])
Equivalent to: CHE 323, CHE 331H

CHE 331H, TRANSPORT PHENOMENA I, 4 Credits
Fundamentals and application of momentum and energy transfer phenomena to fluid flow for the design of industrial chemical engineering equipment.
Attributes: HNRS – Honors Course Designator
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and (CBEE 212 [may be taken concurrently] [C] or CBEE 212H [may be taken concurrently] [C])
Equivalent to: CHE 331

CHE 332, TRANSPORT PHENOMENA II, 3 Credits
A unified treatment using control volume and differential analysis of heat transfer, prediction of heat transport properties, and introduction to heat transfer operations.
Prerequisite: CHE 311 with C or better and (CHE 331 [C] or CHE 331H [C])
Equivalent to: CHE 332H

CHE 332H, TRANSPORT PHENOMENA II, 3 Credits
A unified treatment using control volume and differential analysis of heat transfer, prediction of heat transport properties, and introduction to heat transfer operations.
Attributes: HNRS – Honors Course Designator
Prerequisite: CHE 311 with C or better and (CHE 331 [C] or CHE 331H [C])
Equivalent to: CHE 332

CHE 333, TRANSPORT PHENOMENA III, 3 Credits
A unified treatment using control volume and differential analysis of binary mass transfer, prediction of mass transport properties, and introduction to mass transfer operations. Lec/studio.
Prerequisite: CHE 331 with C or better and CHE 331H with C or better or CHE 332 with C or better or CHE 332H with C or better
Equivalent to: CHE 333H

CHE 333H, TRANSPORT PHENOMENA III, 3 Credits
A unified treatment using control volume and differential analysis of binary mass transfer, prediction of mass transport properties, and introduction to mass transfer operations. Lec/studio.
Attributes: HNRS – Honors Course Designator
Prerequisite: CHE 331 with C or better and CHE 331H with C or better or CHE 332 with C or better or CHE 332H with C or better
Equivalent to: CHE 333

CHE 334, TRANSPORT PHENOMENA LABORATORY, 3 Credits
Engineering lab practices and the application of the macroscopic balances of mass, energy, and chemical species; fluid flow, heat and mass transfer experiments by teams for demonstrations of principles established in previous transport phenomena courses.
Prerequisite: CBEE 213 (may be taken concurrently) with C or better and (CHE 333 [may be taken concurrently] [C] or CHE 333H [may be taken concurrently] [C])

CHE 361, CHEMICAL PROCESS DYNAMICS AND SIMULATION, 3 Credits
Fundamental principles for process dynamic modeling used in the control of process variables such as pressure, temperature, flow rate and chemical composition.
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and (CHE 331 [C] or CHE 331H [C])
Recommended: CBEE 102 and completion of concurrent enrollment in (CHE 331 or CHE 331H)

CHE 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

CHE 401, RESEARCH, 1-16 Credits
Equivalent to: CHE 401H
This course is repeatable for 16 credits.

CHE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.
CHE 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CHE 405H
This course is repeatable for 16 credits.

CHE 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CHE 405
This course is repeatable for 16 credits.

CHE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CHE 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

CHE 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

CHE 411, MASS TRANSFER OPERATIONS, 4 Credits
Mass transfer operations; design of separation processes. Lec/rec.
Prerequisite: CHE 312 with C or better and (CHE 333 [C] or CHE 333H [C])

CHE 415, CHEMICAL ENGINEERING LABORATORY I, 3 Credits
Theoretical and empirical analysis of several unit operations, use of formal work processes, safety, teamwork, oral and written communication, and personal accountability. Lec/lab/rec.
Prerequisite: CBEE 414 with C or better and CHE 411 [C] and CHE 443 [C] and CHE 361 (may be taken concurrently) [C]
Equivalent to: CHE 415H, ENVE 415

CHE 417, INSTRUMENTATION IN CHEMICAL, BIOLOGICAL, AND ENVIRONMENTAL ENGINEERING, 4 Credits
Equips students with a toolbox of instrumental techniques important in chemical, biological, and environmental engineering and the background required to determine the appropriate instrumental technique to address a specific problem. Lec/lab/rec.
Prerequisite: CH 332 with C or better or CH 335 with C or better
Recommended: (CH 231 or CH 231H) and (CH 261 or CH 261H) and (CH 232 or CH 232H) and (CH 262 or CH 262H) and (CH 233 or CH 233H) and (CH 263 or CH 263H)

CHE 431, CHEMICAL PLANT DESIGN I, 3 Credits
Short-cut techniques and other abbreviated and useful methods for specifying equipment sufficient for the preliminary design of processes and equipment; estimating capital and manufacturing costs based on equipment specifications.
Prerequisite: CHE 312 with C or better and CHE 411 [C] and CHE 443 [C]

CHE 432, CHEMICAL PLANT DESIGN II, 3 Credits
Transformation of preliminary design to detailed design; introduction to safety, ethical, economical, and environmental considerations in chemical plant design.
Prerequisite: CHE 431 with C or better

CHE 443, CHEMICAL REACTION ENGINEERING, 4 Credits
Design of chemical reactors for economical processes and waste minimization. Contacting patterns, kinetics and transport rate effects in single phase and catalytic systems.
Prerequisite: CHE 312 with C or better and (CHE 333 [C] or CHE 333H [C])

CHE 444, THIN FILM MATERIALS PROCESSING, 4 Credits
Solid state devices are based on the patterning of thin films. This lecture and lab course is primarily an introduction to the technology associated with processing thin films. Topics include chemical vapor deposition, physical vapor deposition, plasma etching, and thin-film characterization. Lec/lab/rec.
Prerequisite: CHE 443 (may be taken concurrently) with C or better
Recommended: CHE 443

CHE 445, POLYMER ENGINEERING AND SCIENCE, 4 Credits
Polymer engineering and science with an emphasis on practical applications and recent developments. Topics include polymer synthesis, characterization, mechanical properties, rheology, and processing at a level suitable for most engineering and science majors. Lec/lab/rec.
Recommended: CH 334 and CH 335 and CH 336 and (MTH 256 or MTH 256H) and/or junior standing in engineering or science

CHE 450, CONVENTIONAL AND ALTERNATIVE ENERGY SYSTEMS, 3 Credits
Principles of energy conversion from chemical/mechanical energy to electrical energy including an overview of conventional energy systems and of likely renewable energy systems with a focus on the fundamental physico-chemical and thermodynamic concept for each technology. The economics of energy systems will also be discussed.
Prerequisite: CHE 311 (may be taken concurrently) with C or better or ME 311 (may be taken concurrently) with C or better or ME 311H (may be taken concurrently) with C or better or CH 440 (may be taken concurrently) with C or better
CHE 451, SOLAR ENERGY TECHNOLOGIES, 3 Credits
A foundation in the principles of solar energy processes is provided. Topics covered include photovoltaics and solar thermal, and will cover the fundamental solid state physics of semiconductors to applied heat transfer analysis of solar collectors. The course objective is to equip students with an adequate depth of understanding of the operational principles of solar energy systems, and to cover the breadth of the various approaches employed in active solar energy systems.
Prerequisite: CHE 311 (may be taken concurrently) with C or better or ME 311 (may be taken concurrently) with C or better or ME 311H (may be taken concurrently) with C or better or CH 440 (may be taken concurrently) with C or better
Recommended: CHE 311

CHE 452, ELECTROCHEMICAL ENERGY SYSTEMS, 3 Credits
Introduces principles and processes of electrochemical energy storage and conversion systems. Topics include fundamentals of electrochemistry and concepts of electrochemical energy storage systems. Examples from batteries, fuel cells, supercapacitors devices will be discussed. Lec/rec.
Prerequisite: CHE 311 with C or better and (CHE 333 [C] or CHE 333H [C])

CHE 461, PROCESS CONTROL, 3 Credits
Principles of PID feedback control based on models of chemical processes; analysis and implementation of proportional, integral and derivative tuning; cascade, feedforward, ratio and deadtime compensation; multivariable control and control system design issues and methods.
Prerequisite: (CHE 331 with C or better or CHE 331H with C or better) and (CHE 332 (may be taken concurrently) [C] or CHE 332H (may be taken concurrently) [C]) and CHE 361 [C]

CHE 499, SPECIAL TOPICS, 0-4 Credits
This course is repeatable for 8 credits.
CHE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
CHE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CHE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
CHE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
CHE 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
CHE 514, FLUID FLOW, 4 Credits
Fundamentals of fluid dynamics for Newtonian and non-Newtonian fluids; flow through porous media; two-phase flow. Lec/rec.

CHE 517, INSTRUMENTATION IN CHEMICAL, BIOLOGICAL, AND ENVIRONMENTAL ENGINEERING, 4 Credits
Equips students with a toolbox of instrumental techniques important in chemical, biological, and environmental engineering and the background required to determine the appropriate instrumental technique to address a specific problem. Lec/lab/rec.
Recommended: (CH 231 and CH 261 and CH 232 and CH 262 and CH 233 and CH 263)

CHE 520, MASS TRANSFER I, 4 Credits

CHE 525, CHEMICAL ENGINEERING ANALYSIS, 4 Credits
Modeling of physical and chemical processes; mathematical analysis of models with appropriate advanced techniques.

CHE 537, CHEMICAL ENGINEERING THERMODYNAMICS I, 4 Credits
Applications of the fundamental laws of thermodynamics to complex systems. Properties of solutions of non-electrolytes. Phase and chemical equilibrium.

CHE 540, CHEMICAL REACTORS I, 4 Credits
Catalysis, reactions coupled with transport phenomena. Reactors for high tech applications.

CHE 541, CATALYSIS, 3 Credits
Introduction to topics related to catalysts and catalytic reactions. Course covers catalytic reaction mechanisms and kinetics, catalyst characterization and testing, and catalyst preparation and manufacturing processes.

CHE 542, MOLECULAR ASPECTS OF HETEROGENEOUS CATALYSIS, 3 Credits
Introducing the principles of heterogeneous catalysis from the molecular aspect with emphasis on computational molecular approaches and surface science. The role of surface structure in heterogeneous catalytic reactions and surface interactions, development and analysis of reaction kinetics through microkinetic modeling approaches will be covered. A class project will utilize Density Functional Theory software to calculate catalytic properties of model systems.
Prerequisite: CHE 540 with C or better
CHE 544, THIN FILM MATERIALS PROCESSING, 4 Credits
Solid state devices are based on the patterning of thin films. This lecture and lab course is primarily an introduction to the technology associated with processing thin films. Topics include chemical vapor deposition, physical vapor deposition, plasma etching, and thin-film characterization. Lec/lab/rec.
Recommended: CHE 443 or CHE 543

CHE 545, POLYMER ENGINEERING AND SCIENCE, 4 Credits
Polymer engineering and science with an emphasis on practical applications and recent developments. Topics include polymer synthesis, characterization, mechanical properties, rheology, and processing at a level suitable for most engineering and science majors. Lec/lab/rec.
Recommended: CH 334 and CH 335 and CH 336 and MTH 256

CHE 550, CONVENTIONAL AND ALTERNATIVE ENERGY SYSTEMS, 3 Credits
Principles of energy conversion from chemical/mechanical energy to electrical energy including an overview of conventional energy systems and of likely renewable energy systems with a focus on the fundamental physico-chemical and thermodynamic concept for each technology. The economics of energy systems will also be discussed.
Recommended: CHE 311 or ME 311 or ME 311H

CHE 551, SOLAR ENERGY TECHNOLOGIES, 3 Credits
A foundation in the principles of solar energy processes is provided. Topics covered include photovoltaics and solar thermal, and will cover the fundamental solid state physics of semiconductors to applied heat transfer analysis of solar collectors. The course objective is to equip students with an adequate depth of understanding of the operational principles of solar energy systems, and to cover the breadth of the various approaches employed in active solar energy systems.
Recommended: CHE 311

CHE 552, ELECTROCHEMICAL ENERGY SYSTEMS, 3 Credits
Introduces principles and processes of electrochemical energy storage and conversion systems. Topics include fundamentals of electrochemistry and concepts of electrochemical energy storage systems. Examples from batteries, fuel cells, supercapacitors devices will be discussed. Lec/rec.
Recommended: CHE 311 AND (CHE 333 or CHE 333H)

CHE 581, SELECTED TOPICS, 3 Credits
Non-sequence course designed to acquaint students with recent advances in chemical engineering. Topics vary from term to term and from year to year. May be repeated for credit.
This course is repeatable for 9 credits.
Available via Ecampus

CHE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.
CH 110, *ROYGBIV: THE CHEMISTRY OF COLORS, 4 Credits
An introduction to the concepts of chemistry and the importance of these concepts in understanding color. Lec/lab.
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

CH 121, GENERAL CHEMISTRY, 5 Credits
A general chemistry sequence for students who have had no previous training in chemistry and for those whose college aptitude test scores indicate the need for a more elementary introduction to chemistry. Entering students are expected to have a working knowledge of high school algebra, logarithms, and scientific notation. Lec/lab/rec. (CH 122, CH 123 are Bacc Core Courses)
Equivalent to: CH 104
Available via Ecampus

CH 122, *GENERAL CHEMISTRY, 5 Credits
A general chemistry sequence intended for majors in fields other than the physical sciences. Lec/lab/rec. (CH 122 and CH 123 are Bacc Core courses.)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 121 with C- or better or (CH 201 with C- or better or (CH 231 with C- or better or CH 231H with C- or better))
Available via Ecampus

CH 123, *GENERAL CHEMISTRY, 5 Credits
A general chemistry sequence intended for majors in fields other than the physical sciences. (CH 122 and CH 123 are Bacc Core courses.) Lec/rec/lab.
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 122 with C- or better or ((CH 232 with C- or better or CH 232H with C- or better) and (CH 262 [C-] or CH 262H [C-] or CH 272 [C-]) or (CH 202 [C-] and CH 205 [C-]))
Available via Ecampus

CH 124, GENERAL CHEMISTRY, 3 Credits
A bridge course, allowing students who have taken one term of General Chemistry (CH 121) to complete the equivalent of one full semester of general chemistry. Entering students are expected to have a working knowledge of high school algebra, logarithms, and scientific notation. Lec/lab.
Prerequisite: CH 121 with D- or better

CH 125, GENERAL CHEMISTRY, 2 Credits
A bridge course, allowing students who also take one term of General Chemistry (CH 123) to complete the equivalent of one full semester of General Chemistry. Entering students are expected to have a working knowledge of high school algebra, logarithms, and scientific notation. Lec/lab. Offered via Ecampus only.
Prerequisite: CH 121 with D- or better and CH 124 [D-]
Recommended: One semester of general chemistry at another institution

CH 130, GENERAL CHEMISTRY OF LIVING SYSTEMS, 4 Credits
Introduction to organic chemistry and the chemistry of biological systems. Organic nomenclature and fundamental reactions, emphasizing topics such as amino acids, proteins, biochemical energy, and nucleic acids (DNA and RNA). Intended as a terminal course in chemistry, not to serve as a prerequisite to higher numbered chemistry courses. Lec/lab. Does not count toward a chemistry minor.
Available via Ecampus

CH 140, GENERAL, ORGANIC, AND BIOLOGICAL CHEMISTRY, 6 Credits
An introduction to general, organic, and biological chemistry. Intended as a terminal course in chemistry, not to serve as a prerequisite to higher numbered chemistry courses. Offered via Ecampus only.
Recommended: Entering students should have a working knowledge of high school algebra, logarithms, and scientific notation
Available via Ecampus

CH 199, SPECIAL TOPICS, 1-3 Credits
This course is repeatable for 3 credits.

CH 201, CHEMISTRY FOR ENGINEERING MAJORS, 3 Credits
A sequence of selected chemistry topics for pre-engineering students. Lec.
Prerequisite: MTH 111 (may be taken concurrently) with D- or better or MTH 112 (may be taken concurrently) with D- or better or MTH 251 (may be taken concurrently) with D- or better or MTH 251H (may be taken concurrently) with D- or better or MTH 252 (may be taken concurrently) with D- or better or MTH 252H (may be taken concurrently) with D- or better or MTH 254 (may be taken concurrently) with D- or better or MTH 254H (may be taken concurrently) with D- or better or Math Placement - ALEKS with a score of 060
Available via Ecampus

CH 202, CHEMISTRY FOR ENGINEERING MAJORS, 3 Credits
A sequence of selected chemistry topics for pre-engineering students. Lec.
Prerequisite: CH 121 with C- or better or CH 201 with C- or better or CH 231 with C- or better or CH 231H with C- or better

CH 205, LABORATORY FOR CH 202, 1 Credit
Three-hour weekly session for the development of laboratory skills in general chemistry for engineers. Lec/lab.
Prerequisite: CH 202 (may be taken concurrently) with D- or better

CH 211, RECITATION FOR CHEMISTRY 201, 1 Credit
80-minute weekly session for the development of problem-solving skills in general chemistry for engineers. Rec.
Corequisites: CH 201
CH 212, RECITATION FOR CHEMISTRY 202, 1 Credit
One-hour weekly session for the development of problem-solving skills in general chemistry for engineers. Rec.
Corequisites: CH 202

CH 220, CAREERS IN CHEMISTRY, 1 Credit
Course for chemistry majors that discusses strategies for success in the study of chemistry and the varied career opportunities available. Topics range from surviving freshman chemistry to choices of advanced classes, study abroad opportunities, internships, getting into and succeeding in graduate school, choices of chemical careers in academia, industry, government, non-governmental organizations, and using chemistry as a foundation for careers in other areas such as law and business. Graded P/N.

CH 231, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 231 is a lecture course; CH 261 is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 261)
Attributes: CPPL – Core, Pers, PhysSci Attached Lec
Prerequisite: MTH 111 (may be taken concurrently) with C- or better or MTH 112 (may be taken concurrently) with C- or better or MTH 251 (may be taken concurrently) with C- or better or MTH 251H (may be taken concurrently) with C- or better or MTH 252 (may be taken concurrently) with C- or better or MTH 252H (may be taken concurrently) with C- or better or MTH 254 (may be taken concurrently) with C- or better or MTH 254H (may be taken concurrently) with C- or better or Math Placement - ALEKS with a score of 060
Equivalent to: CH 221, CH 221H, CH 224H, CH 231H
Available via Ecampus

CH 231H, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 231H is a lecture course; CH 261H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 261H)
Attributes: CPPL – Core, Pers, PhysSci Attached Lec
Prerequisite: MTH 111 (may be taken concurrently) with C- or better or MTH 112 (may be taken concurrently) with C- or better or MTH 251 (may be taken concurrently) with C- or better or MTH 251H (may be taken concurrently) with C- or better or MTH 252 (may be taken concurrently) with C- or better or MTH 252H (may be taken concurrently) with C- or better or MTH 254 (may be taken concurrently) with C- or better or MTH 254H (may be taken concurrently) with C- or better or Math Placement - ALEKS with a score of 060
Equivalent to: CH 231
Available via Ecampus

CH 232, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pre-pharmacy, and chemical engineering. CH 232 is a lecture course; CH 262 is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 262)
Attributes: CPPL – Core, Pers, PhysSci Attached Lec
Prerequisite: CH 231 with C- or better or CH 231H with C- or better or CH 221 with C- or better
Equivalent to: CH 222, CH 225H, CH 232H
Available via Ecampus

CH 232H, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pre-pharmacy, and chemical engineering. CH 232H is a lecture course; CH 262H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 262H)
Attributes: CPPL – Core, Pers, PhysSci Attached Lec
Prerequisite: (CH 231 with C- or better or CH 231H with C- or better) or CH 221 with C- or better
Equivalent to: CH 232

CH 233, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 233 is a lecture course; CH 263 is the laboratory component. (Bacc Core Course if taken with CH 263)
Lec/rec.
Attributes: CPPL – Core, Pers, PhysSci Attached Lec
Prerequisite: (CH 232 with C- or better or CH 232H with C- or better) or CH 222 with C- or better
Equivalent to: CH 223, CH 226H, CH 233H
Available via Ecampus

CH 233H, GENERAL CHEMISTRY, 4 Credits
A general chemistry sequence for students majoring in most sciences, pharmacy, and chemical engineering. CH 233H is a lecture course; CH 263H is the laboratory component. Lec/rec. (Bacc Core Course if taken with CH 263H)
Attributes: CPPL – Core, Pers, PhysSci Attached Lec; HNRS – Honors Course Designator
Prerequisite: (CH 232 with C- or better or CH 232H with C- or better) or CH 222 with C- or better
Equivalent to: CH 233

CH 261, *LABORATORY FOR CHEMISTRY 231, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 231)
Attributes: CPPL – Core, Pers, Physical Science
Corequisites: CH 231
Equivalent to: CH 261, CH 271

CH 261H, *LABORATORY FOR CHEMISTRY 231H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 231H)
Attributes: CPPL – Core, Pers, Physical Science; HNRS – Honors Course Designator
Corequisites: CH 231H
Equivalent to: CH 261
Available via Ecampus
CH 262, *LABORATORY FOR CHEMISTRY 232, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 232)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 261 with D- or better or CH 261H with D- or better or CH 271 with D- or better or CH 221 with D- or better or CH 224H with D- or better
Corequisites: CH 232
Equivalent to: CH 262H, CH 272

CH 262H, *LABORATORY FOR CHEMISTRY 232H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 232H)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: CH 261 with D- or better or CH 261H with D- or better or CH 271 with D- or better or CH 221 with D- or better or CH 224H with D- or better
Corequisites: CH 232
Equivalent to: CH 262

CH 263, *LABORATORY FOR CHEMISTRY 233, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 233)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 262 with D- or better or CH 262H with D- or better or CH 272 with D- or better or CH 222 with D- or better or CH 225H with D- or better
Corequisites: CH 233
Equivalent to: CH 263H, CH 273

CH 263H, *LABORATORY FOR CHEMISTRY 233H, 1 Credit
A general chemistry laboratory sequence for students majoring in most sciences, pharmacy, and chemical engineering. (Bacc Core Course if taken with CH 233H)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: CH 262 with D- or better or CH 262H with D- or better or CH 272 with D- or better or CH 222 with D- or better or CH 225H with D- or better
Corequisites: CH 233
Equivalent to: CH 263

CH 271, *LABORATORY FOR CH 231 FOR CHEMISTRY MAJORS, 1 Credit
A general chemistry laboratory sequence for students majoring in chemistry. (Bacc Core Course if taken with CH 231)
Attributes: CPPS – Core, Pers, Physical Science
Corequisites: CH 231
Equivalent to: CH 271H

CH 272, *LABORATORY FOR CH 232 FOR CHEMISTRY MAJORS, 1 Credit
A general chemistry laboratory sequence for students majoring in chemistry. (Bacc Core Course if taken with CH 232)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 271 with D- or better or CH 221 with D- or better or CH 224H with D- or better
Corequisites: CH 232
Equivalent to: CH 272H

CH 273, *LABORATORY FOR CH 233 FOR CHEMISTRY MAJORS, 1 Credit
A general chemistry laboratory sequence for students majoring in chemistry. (Bacc Core Course if taken with CH 233)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: CH 272 with D- or better or CH 222 with D- or better or CH 225H with D- or better
Corequisites: CH 233
Equivalent to: CH 273H

CH 324, QUANTITATIVE ANALYSIS, 4 Credits
A basic course in modern chemical analysis. Self-paced laboratory.
CH 130 does not meet the prerequisites for this course.
Prerequisite: CH 123 with D- or better or CH 223 with D- or better or CH 226H with D- or better or (CH 233 with D- or better or CH 233H with D- or better) and (CH 263 [D-] or CH 263H [D-] or CH 273 [D-])
Recommended: One year of general chemistry
Available via Ecampus

CH 331, ORGANIC CHEMISTRY, 4 Credits
Service course covering aliphatic and aromatic chemistry. Introduction to nomenclature, mechanism and synthesis. Lec/rec. CH 130 does not meet the prerequisites for this course.
Prerequisite: CH 123 with C- or better or CH 223 with C- or better or CH 226H with C- or better or ((CH 233 with C- or better or CH 233H with C- or better) and (CH 263 [C-] or CH 263H [C-] or CH 273 [C-]))
Recommended: One year of general chemistry
Available via Ecampus

CH 332, ORGANIC CHEMISTRY, 4 Credits
Service course covering aliphatic and aromatic chemistry. Introduction to nomenclature, mechanism and synthesis. Lec/rec.
Prerequisite: CH 331 with C- or better
Recommended: one year of general chemistry
Available via Ecampus

CH 334, ORGANIC CHEMISTRY, 3 Credits
Professional course for majors in chemistry, biochemistry, chemical engineering and other students who need a year of organic chemistry. In-depth treatment of major classes of organic compounds. Interrelation of mechanistic and synthetic approaches.
Prerequisite: CH 123 with D- or better or CH 223 with D- or better or CH 226H with D- or better or ((CH 233 with D- or better or CH 233H with D- or better) and (CH 263 [D-] or CH 263H [D-] or CH 273 [D-]))
Recommended: One year of general chemistry
CH 335, ORGANIC CHEMISTRY, 3 Credits
Professional course for majors in chemistry, biochemistry, chemical engineering and other students who need a year of organic chemistry. In-depth treatment of major classes of organic compounds. Interrelation of mechanistic and synthetic approaches.
Prerequisite: CH 334 with D- or better
Recommended: One year of general chemistry

CH 336, ORGANIC CHEMISTRY, 3 Credits
Professional course for majors in chemistry, biochemistry, chemical engineering and other students who need a year of organic chemistry. In-depth treatment of major classes of organic compounds. Interrelation of mechanistic and synthetic approaches.
Prerequisite: CH 335 with D- or better
Recommended: One year of general chemistry

CH 337, ORGANIC CHEMISTRY LABORATORY, 4 Credits
Laboratory course in organic chemistry for nonmajors, designed to supplement CH 331, CH 332 and CH 334, CH 335, CH 336. Lec/lab.
Prerequisite: (CH 331 with D- or better and CH 332 [D-]) or (CH 334 [D-] and CH 335 [D-] and CH 336 [D-])

CH 361, EXPERIMENTAL CHEMISTRY I, 3 Credits
First term of integrated laboratory program for chemistry majors highlighting techniques in organic, physical, and analytical chemistry. First-hand experience is gained using specialized glassware, scientific equipment and instrumentation plus computers. Essential technical laboratory standards and technical writing are emphasized. Lec/lab.
Prerequisite: (CH 221 with D- or better and CH 222 [D-] or CH 223 [D-]) or (CH 224H [D-] and CH 225H [D-] and CH 226H [D-]) or ((CH 231 [D-] or CH 231H [D-]) and (CH 261 [D-] or CH 261H [D-] or CH 271 [D-]) and (CH 232 [D-] or CH 232H [D-] and (CH 262 [D-] or CH 262H [D-] or CH 272 [D-]) and (CH 233 [D-] or CH 233H [D-]) and (CH 263 [D-] or CH 263H [D-] or CH 273 [D-]) and (MTH 251 (may be taken concurrently) [D-] or MTH 251H (may be taken concurrently) [D-] and (PH 201 (may be taken concurrently) [D-] or PH 211 (may be taken concurrently) [D-] or PH 211H (may be taken concurrently) [D-] and CH 334 (may be taken concurrently) [D-])
Equivalent to: CH 361

CH 361H, EXPERIMENTAL CHEMISTRY I, 3 Credits
First term of integrated laboratory program for chemistry majors highlighting techniques in organic, physical, and analytical chemistry. First-hand experience is gained using specialized glassware, scientific equipment and instrumentation plus computers. Essential technical laboratory standards and technical writing are emphasized. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 221 with D- or better and CH 222 [D-] and CH 223 [D-]) or (CH 224H [D-] and CH 225H [D-] and CH 226H [D-]) or ((CH 231 [D-] or CH 231H [D-]) and (CH 261 [D-] or CH 261H [D-] or CH 271 [D-]) and (CH 232 [D-] or CH 232H [D-] and (CH 262 [D-] or CH 262H [D-] or CH 272 [D-]) and (CH 233 [D-] or CH 233H [D-]) and (CH 263 [D-] or CH 263H [D-] or CH 273 [D-]) and (MTH 251 (may be taken concurrently) [D-] or MTH 251H (may be taken concurrently) [D-] and (PH 201 (may be taken concurrently) [D-] or PH 211 (may be taken concurrently) [D-] or PH 211H (may be taken concurrently) [D-] and CH 334 (may be taken concurrently) [D-])
Equivalent to: CH 361

CH 362, EXPERIMENTAL CHEMISTRY I, 3 Credits
First-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, and physical chemistry. Lec/lab.
Prerequisite: (CH 361 with D- or better or CH 361H with D- or better) and CH 335 (may be taken concurrently) [D-]
Equivalent to: CH 362

CH 362H, EXPERIMENTAL CHEMISTRY I, 3 Credits
First-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 361 with D- or better or CH 361H with D- or better) and CH 335 (may be taken concurrently) [D-]
Equivalent to: CH 362

CH 374, TECHNOLOGY, ENERGY, AND RISK, 3 Credits
Decision-making in a technical, democratic society. Discussion of current issues such as acid rain, toxic organic chemicals in the environment, energy resources, etc. Does not meet the prereq for any other chemistry course. Does not meet requirements for chemistry minor. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Completion of Bacc Core in physical science

CH 390, ENVIRONMENTAL CHEMISTRY, 3 Credits
Sources, reactions, transport, effects, and fates of chemical species in water, soil, air, and living environments and the effects of technology thereon.
Prerequisite: CH 331 with D- or better or CH 334 with D- or better
Available via Ecampus
CH 399, SPECIAL TOPICS, 1-16 Credits
Discussion of special topics in chemistry.  
This course is repeatable for 99 credits.
Recommended: Completion of Bacc Core in the physical sciences

CH 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

CH 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

CH 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CH 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CH 407, SEMINAR, 1-16 Credits
Equivalent to: CH 407H
This course is repeatable for 16 credits.

CH 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CH 407
This course is repeatable for 16 credits.

CH 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

CH 411, INORGANIC CHEMISTRY, 3 Credits
Fundamental principles of inorganic chemistry including atomic structure, bonding models for molecules and solids, symmetry, acid/base chemistry, oxidation-reduction, and metal-ligand complexes.
Recommended: One year of general chemistry and one year of college physics. Concurrent enrollment in CH 440 or CH 541

CH 412, INORGANIC CHEMISTRY, 3 Credits
Descriptive chemistry of the elements, focusing on main-group compounds, transition metal complexes, and solid-state chemistry.
Prerequisite: CH 411 with D- or better
Available via Ecampus

CH 418, NUCLEAR CHEMISTRY, 3 Credits
Radioactive decay, nuclear properties, nuclear structure, alpha, beta, and gamma decay, nuclear reactions, fission, interaction of radiation with matter, chemical techniques, radiation safety, and nuclear instrumentation.
Recommended: Concurrent enrollment in (CH 440 or CH 540) or PH 314

CH 421, ANALYTICAL CHEMISTRY, 3 Credits
A professional sequence for majors in chemistry and related disciplines. Chemical equilibrium, analytical electrochemistry, separations, spectroscopy, instrumentation, and treatment of data.
Recommended: One year of general chemistry and one year of college physics. Concurrent enrollment in CH 440 or CH 540

CH 422, ANALYTICAL CHEMISTRY, 3 Credits
A professional sequence for majors in chemistry and related disciplines. Chemical equilibrium, analytical electrochemistry, separations, spectroscopy, basic electronics and instrumentation, and treatment of data.
Recommended: One year of general chemistry and one year of college physics. Concurrent enrollment in CH 441 or CH 541

CH 424, BIOANALYTICAL CHEMISTRY, 3 Credits
Analytical methods employed in the study of biologically important molecules. Separations (chromatography, electrophoresis), spectroscopy, mass spectrometry, biosensors, and immunoassays. Lec/lab. Not offered every year.
Recommended: One year of organic chemistry and one term of organic chemistry laboratory.

CH 435, STRUCTURE DETERMINATION BY SPECTROSCOPIC METHODS, 3 Credits
Use of ultraviolet, infrared, nuclear magnetic resonance, and mass spectra for determination of structures and stereochemistry of complex organic molecules.
Prerequisite: CH 336 with D- or better and (CH 442 [D-] or CH 542 [D-])

CH 440, PHYSICAL CHEMISTRY, 3 Credits
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.
Prerequisite: MTH 254 with D- or better or MTH 254H with D- or better
Recommended: One year of general chemistry and one year of college physics
Available via Ecampus

CH 441, PHYSICAL CHEMISTRY, 3 Credits
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.
Prerequisite: (CH 440 with C- or better or CHE 311 with C- or better) and (MTH 254 [C-] or MTH 254H [C-])
Available via Ecampus

CH 442, PHYSICAL CHEMISTRY, 3 Credits
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.
Prerequisite: (MTH 254 with D- or better or MTH 254H with D- or better) and CH 441 [D-]
Recommended: One year of general chemistry and one year of college physics

CH 450, INTRODUCTORY QUANTUM CHEMISTRY, 3 Credits
Elementary wave mechanics and matrix mechanics of atoms and molecules. Quantum basis of chemical structure. Not offered every year.
Prerequisite: CH 442 with D- or better or CH 542 with D- or better
Recommended: One year college physics
CH 461, EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab.
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 421 (may be taken concurrently) [D-] and CH 440 (may be taken concurrently) [D-]
Equivalent to: CH 461H

CH 461H, EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic and physical chemistry. Lec/Lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 421 (may be taken concurrently) [D-] and CH 440 (may be taken concurrently) [D-]
Equivalent to: CH 461

CH 462, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 441 (may be taken concurrently) [D-] and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-])
Equivalent to: CH 462H
Recommended: CH 422

CH 462H, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 441 (may be taken concurrently) [D-] and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-])
Equivalent to: CH 462
Recommended: CH 422

CH 463, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-]) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 463H

CH 463H, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and (CH 324 [D-] or CH 461 [D-] or CH 461H [D-]) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 463

CH 464, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 464H
Recommended: CH 461 or CH 461H or CH 324

CH 464H, *EXPERIMENTAL CHEMISTRY II, 3 Credits
Second-level integrated laboratory course for majors in chemistry and related disciplines, covering experimental techniques of analytical, inorganic, organic and physical chemistry. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Prerequisite: (CH 362 with D- or better or CH 362H with D- or better) and CH 442 (may be taken concurrently) [D-]
Equivalent to: CH 464
Recommended: CH 461 or CH 461H or CH 324

CH 470, FOUNDATIONS OF INNOVATION, 2 Credits
Learn the basic language and the initial skill set needed to address how scientific ideas and research results become innovations – solutions that address societal and market needs. Acquire the skills to become innovators and to create value for all types of academic, small-company, industrial, governmental, and non-profit research and development organizations. Students work in areas aligned with their scientific interests either individually or in a team. CROSSLISTED as CH 470/SCI 470 and CH 570/SCI 570.
Equivalent to: SCI 470
Recommended: Science and engineering majors

CH 471, ADVANCED ORGANIC CHEMISTRY, 3 Credits
Principles of synthetic organic chemistry. Particular emphasis will be directed at understanding stereochemical outcomes in carbon-carbon bond-forming reactions (Diels-Alder, aldol, and pericyclic reactions). Other topics will include oxidation/reduction reactions, organometallic chemistry, and enantioselective methodologies.
Prerequisite: CH 336 with D- or better or CH 337 with D- or better
CH 490, COMPUTER PROGRAMMING FOR SCIENTISTS, 3 Credits
Programming, numerical and graphical analysis, problem solving, simulations and use of databases for information handling and retrieval. Applications to problems in chemistry.
Prerequisite: MTH 252 with D- or better or MTH 252H with D- or better

CH 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

CH 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CH 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CH 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CH 507, SEMINAR, 1-16 Credits
Student should enroll in the seminar section that meets the specific divisional requirements for credits and grading scheme or that is designated for teaching or mentoring programs. Graded P/N.
This course is repeatable for 16 credits.

CH 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

CH 511, INORGANIC CHEMISTRY, 4 Credits
Fundamental principles of inorganic chemistry including atomic structure, bonding models for molecules and solids, symmetry, acid/base chemistry, oxidation-reduction, metal-ligand complexes, sol-gel chemistry and nanotechnology.
Recommended: CH 442 or CH 542

CH 512, INORGANIC CHEMISTRY, 4 Credits
Descriptive chemistry of the elements, focusing on main-group compounds, transition metal complexes, and solid-state chemistry.
Prerequisite: CH 511 with C or better

CH 513, SOLID STATE CHEMISTRY, 3-4 Credits
Basic principles of chemistry are applied to descriptions of structure-property relationships in inorganic solids. Topics include crystal structure, materials synthesis, chemical bonding, electronic properties, optical properties, and magnetism. Students who register for 4 credits will perform independent study of an advanced topic based on research literature.
This course is repeatable for 4 credits.
Recommended: CH 442 or CH 542

CH 516, RADIOCHEMISTRY, 4 Credits
Selected methods in radiochemical analysis. Actinide chemistry, activation analysis, radionuclide solvent extraction, and microbial reactions with radionuclides. Designed for majors in chemistry, chemical engineering, nuclear engineering, and radiation health physics. Lec/lab.
CROSSTPORTED as CH 516/NSE 516.
Prerequisite: NE 531 with C or better or (RHP 531 with C or better and RHP 536)
Equivalent to: CHE 516, NE 516, NSE 516, RHP 516
This course is repeatable for 12 credits.

CH 518, NUCLEAR CHEMISTRY, 3 Credits
Radioactive decay, nuclear properties, nuclear structure, alpha, beta, and gamma decay, nuclear reactions, fission, interaction of radiation with matter, chemical techniques, radiation safety, and nuclear instrumentation.
Recommended: Concurrent enrollment in (CH 440 or CH 540) or PH 314

CH 521, ANALYTICAL CHEMISTRY, 3 Credits
A professional sequence for majors in chemistry and related disciplines. Chemical equilibrium, analytical electrochemistry, separations, spectroscopy, instrumentation, and treatment of data.
Recommended: One year of college chemistry and physics. Concurrent enrollment in CH 540

CH 522, ANALYTICAL CHEMISTRY, 3 Credits
A professional sequence for majors in chemistry and related disciplines. Chemical equilibrium, analytical electrochemistry, separations, spectroscopy, basic electronics and instrumentation, and treatment of data.
Recommended: One year of college chemistry and physics. Concurrent enrollment in CH 541

CH 524, BIOANALYTICAL CHEMISTRY, 3 Credits
Analytical methods employed in the study of biologically important molecules. Separations (chromatography, electrophoresis), spectroscopy, mass spectrometry, biosensors, and immunoassays. Lec/lab. Not offered every year.
Equivalent to: VM 524, VMB 524
Recommended: One year of organic chemistry and one term of organic chemistry laboratory.

CH 535, STRUCTURE DETERMINATION BY SPECTROSCOPIC METHODS, 3 Credits
Use of ultraviolet, infrared, nuclear magnetic resonance, and mass spectra for determination of structures and stereochemistry of complex organic molecules.
Recommended: CH 336 and (CH 442 or CH 542)

CH 540, PHYSICAL CHEMISTRY, 3 Credits
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.
Recommended: MTH 254 and one year of college chemistry and one year of college physics
**CH 541, PHYSICAL CHEMISTRY, 3 Credits**
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.  
**Recommended:** (CH 440 or CHE 311) AND (MTH 254 or MTH 254H)

**CH 542, PHYSICAL CHEMISTRY, 3 Credits**
Thermodynamics, electrochemistry, solutions, kinetic theory of gases, chemical kinetics, quantum theory and statistical mechanics, molecular structure and spectroscopy.  
**Recommended:** CH 541

**CH 550, INTRODUCTORY QUANTUM CHEMISTRY, 3 Credits**
Elementary wave mechanics and matrix mechanics of atoms and molecules. Quantum basis of chemical structure. Not offered every year.  
**Prerequisite:** CH 542 with C or better  
**Recommended:** One year college physics

**CH 553, CHEMICAL THERMODYNAMICS, 3 Credits**
The laws of chemical thermodynamics applied to analyze properties of gases, gas mixtures, liquid solutions, fluctuations, critical phenomena, and magnetic systems. Not offered every year.  
**Recommended:** CH 542

**CH 570, FOUNDATIONS OF INNOVATION, 2 Credits**
Learn the basic language and the initial skill set needed to address how scientific ideas and research results become innovations – solutions that address societal and market needs. Acquire the skills to become innovators and to create value for all types of academic, small-company, industrial, governmental, and non-profit research and development organizations. Students work in areas aligned with their scientific interests either individually or in a team. CROSSLISTED as CH 470/SCI 470 and CH 570/SCI 570.  
**Equivalent to:** SCI 570

**CH 571, ADVANCED ORGANIC CHEMISTRY, 3 Credits**
Principles of synthetic organic chemistry. Particular emphasis will be directed at understanding stereochemical outcomes in carbon-carbon bond-forming reactions (Diels-Alder, aldol, and pericyclic reactions). Other topics will include oxidation/reduction reactions, organometallic chemistry, and enantioselective methodologies.  
**Recommended:** CH 336 or CH 337

**CH 582, CHEMISTRY AND MATERIALS OF BATTERIES AND SUPER CAPACITORS, 3 Credits**
Examines the chemistry and materials currently in use and proposed for future primary and secondary batteries and supercapacitors. After a brief historical review, we will examine in detail the state-of-the-art technologies including lithium-ion, lithium, and sodium-sulfur batteries and electrochemical double-layer capacitors, and future technologies such as metal-air and lithium-sulfur. Class discussions will focus on structure/performance relationships and other issues such as environmental impact, safety and cost. Offered via Ecampus only.  
**Recommended:** Full year of general chemistry, college-level physics and materials science background

**CH 584, INSTRUMENTS AND ONLINE INTERACTIONS IN THE SCIENCES, 3 Credits**
Examine methods and technologies for and incorporating virtual instruments and online interactions into laboratory courses to support learners in becoming critical thinkers and creative producers of their knowledge and understanding in science.  
**Recommended:** Basic computer literacy and one year of general chemistry, physics or biology  
Available via Ecampus

**CH 590, COMPUTER PROGRAMMING FOR SCIENTISTS, 3 Credits**
Programming, numerical and graphical analysis, problem solving, simulations and use of databases for information handling and retrieval. Applications to problems in chemistry.  
**Recommended:** MTH 252

**CH 601, RESEARCH, 1-16 Credits**
This course is repeatable for 16 credits.

**CH 603, THESIS, 1-16 Credits**
This course is repeatable for 999 credits.

**CH 605, READING AND CONFERENCE, 1-16 Credits**
This course is repeatable for 16 credits.

**CH 607, SEMINAR, 1-16 Credits**
Student should enroll in the seminar section that meets the specific divisional requirements for credits and grading scheme or that is designated for teaching or mentoring programs.  
This course is repeatable for 16 credits.
CH 614, SELECTED TOPICS IN INORGANIC CHEMISTRY, 4 Credits
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in fields such as solid state chemistry, theoretical inorganic chemistry, spectroscopy and magnetism, chemistry of coordination compounds, kinetics and mechanisms of inorganic reactions, acid-base theory and reactions in nonaqueous solvents, organometallic chemistry, and chemistry of the less familiar elements. Not offered every year.
Equivalent to: CH 514
This course is repeatable for 8 credits.
Recommended: CH 413 or CH 513

CH 615, SELECTED TOPICS IN INORGANIC CHEMISTRY, 4 Credits
Focus is on cutting edge research topics in inorganic materials chemistry, which will evolve from year-to-year to stay up-to-date. Current journal articles, software programs, and lab demonstrations will be utilized. Students will learn both content of a research area, as well as tools used in the practice.

CH 616, CRYSTALLOGRAPHY AND X-RAY DIFFRACTION, 4 Credits
Principles of crystallography and x-ray diffraction as applied to the structural characterization of both single crystals, powders, and thin films.
Equivalent to: CH 516
Recommended: At least one upper-level undergraduate inorganic chemistry course

CH 630, ADVANCED ORGANIC CHEMISTRY, 3 Credits
Molecular orbital bonding theory, orbital symmetry, reaction mechanisms, stereoisomerism, conformational analysis, and advanced methods of synthesis. Not offered every year.
Equivalent to: CH 530
Recommended: CH 336 and (CH 442 or CH 542)

CH 631, ADVANCED ORGANIC CHEMISTRY, 4 Credits
Carbon-carbon bond forming reactions, reaction mechanisms, stereoisomerism, conformational analysis, and advanced methods of synthesis. Not offered every year.
Equivalent to: CH 531
Recommended: CH 630

CH 632, ADVANCED ORGANIC CHEMISTRY, 3 Credits
Molecular orbital bonding theory, orbital symmetry, reaction mechanisms, stereoisomerism, conformational analysis, and advanced methods of synthesis. Not offered every year.
Equivalent to: CH 532
Recommended: CH 336 and (CH 442 or CH 542)

CH 633, HYPOTHESIS, EVIDENCE, AND ARGUMENT IN ORGANIC CHEMISTRY, 2 Credits
Immerses the student in the tools of scientific method as applied to current research topics in the chemical literature. The student will perform an extensive review of a modern topic in organic chemistry, prepare a written summary and analysis of this literature review and make a public oral presentation and discussion.
Prerequisite: CH 632 with C or better
This course is repeatable for 4 credits.

CH 636, SELECTED TOPICS IN ORGANIC CHEMISTRY, 3 Credits
Nonsequence courses designed to acquaint students with recent advances in organic chemistry and their application to special fields of study. Topics covered vary from term to term and year to year. Topics include: theoretical organic chemistry, recent advances in reaction mechanisms, advanced synthesis, free radical reactions, organic sulfur chemistry, and biosynthesis of natural products. CH 636, CH 637, CH 638 need not be taken in order. Not offered every year.
Equivalent to: CH 536
This course is repeatable for 12 credits.

CH 637, SELECTED TOPICS IN ORGANIC CHEMISTRY, 3 Credits
Nonsequence courses designed to acquaint students with advances in organic chemistry, specifically focusing on biosynthesis of natural products and enzyme reaction mechanisms. CH 636, CH 637, CH 638 need not be taken in order.
Equivalent to: CH 537
This course is repeatable for 12 credits.

CH 638, SELECTED TOPICS IN ORGANIC CHEMISTRY, 3 Credits
Nonsequence courses designed to acquaint students with recent advances in organic chemistry and their application to special fields of study. Topics covered vary from term to term and year to year. Topics include: theoretical organic chemistry, recent advances in reaction mechanisms, advanced synthesis, free radical reactions, organic sulfur chemistry, and biosynthesis of natural products. CH 636, CH 637, CH 638 need not be taken in order. Not offered every year.
Equivalent to: CH 538
This course is repeatable for 12 credits.

CH 651, QUANTUM MECHANICS OF ATOMS AND MOLECULES, 3 Credits
Not offered every year.
Equivalent to: CH 551
Recommended: CH 450 or CH 550

CH 652, QUANTUM MECHANICS OF MOLECULAR SPECTROSCOPY, 3 Credits
Not offered every year.
Equivalent to: CH 552
Recommended: CH 651
**CH 660, SPECTROCHEMICAL ANALYSIS, 3 Credits**
Theoretical concepts and methodology of optical spectrochemical methods of analysis, components of spectrometers, flame and electrothermal atomic spectrophotometry, ICP atomic emission spectrometry, molecular absorption and fluorescence spectrometry.
Equivalent to: CH 560
Recommended: CH 442 or CH 542

**CH 661, SEPARATIONS: CHROMATOGRAPHY AND RELATED METHODS, 4 Credits**
Theory, instrumentation, and practice of modern separation techniques (gas chromatography, liquid chromatography, electrokinetic separations) and sample preparation methods; handling and interpretation of chromatographic and electrophoretic data.
Equivalent to: CH 561
Recommended: CH 440 or CH 540

**CH 662, ANALYTICAL ELECTROCHEMISTRY, 4 Credits**
Study of current, voltage and time relationships in electrochemical cells. Offered alternate years.
Equivalent to: CH 562
Recommended: CH 442

**CH 6680, SELECTED TOPICS IN PHYSICAL CHEMISTRY, 3 Credits**
Nonsequence courses designed to acquaint students with recent advances in physical chemistry. Topics include molecular structure determination (UV-visible, near-IR light sources, x-ray, electron and neutron diffraction), spectroscopy (ultrafast, nonlinear, multidimensional, multiphoton, magnetic resonance, photoelectron), physical chemistry of condensed phase systems (biomolecules, aqueous solution, novel materials, ionic, molecular and liquid crystals, critical phenomena, mass transport), theoretical chemistry (chemical bonding, scattering theory, group theory, dynamics), electronic structure theory of molecules, structural dynamics of complex systems. Need not be taken in order. Not offered every year.
Prerequisite: CH 550 with B- or better
Equivalent to: CH 580
This course is repeatable for 12 credits.

**CH 6682, SELECTED TOPICS IN PHYSICAL CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint students with recent advances in physical chemistry. Topics include molecular structure determination (x-ray, electron and neutron diffraction), spectroscopy (nonlinear and multiphoton, magnetic resonance, photoelectron, Moessbauer effect), physical chemistry of condensed phases (ionic, molecular and liquid crystals, critical phenomena, mass transport), theoretical chemistry (chemical bonding, scattering theory, group theory, dynamics), electronic structure theory of molecules. Need not be taken in order. Not offered every year.
Equivalent to: CH 582
This course is repeatable for 12 credits.

**CH 6683, SELECTED TOPICS IN ANALYTICAL CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in analytical chemistry. Not offered every year.
Equivalent to: CH 583
This course is repeatable for 12 credits.

**CH 6684, SELECTED TOPICS IN ANALYTICAL CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in analytical chemistry. Not offered every year.
Equivalent to: CH 584
This course is repeatable for 12 credits.

**CH 6685, SELECTED TOPICS IN ANALYTICAL CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in analytical chemistry. Not offered every year.
Equivalent to: CH 585
This course is repeatable for 12 credits.

**CH 6686, SELECTED TOPICS IN NUCLEAR AND RADIATION CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in nuclear and radiation chemistry. Not offered every year.
Equivalent to: CH 586
This course is repeatable for 12 credits.

**CH 6687, SELECTED TOPICS IN NUCLEAR AND RADIATION CHEMISTRY, 2 Credits**
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in nuclear and radiation chemistry. Not offered every year.
Equivalent to: CH 587
This course is repeatable for 12 credits.
CH 688, SELECTED TOPICS IN NUCLEAR AND RADIATION CHEMISTRY, 2 Credits
Nonsequence courses designed to acquaint the advanced graduate student with recent advances in nuclear and radiation chemistry. Not offered every year.
Equivalent to: CH 588
This course is repeatable for 12 credits.

CH 692, ENVIRONMENTAL TRANSFORMATION OF ORGANIC COMPOUNDS, 3 Credits
Chemical, photochemical, and biological transformation reactions of organic compounds in the environment. Test methods and predictive models for determining the persistence of organic compounds in the environment. Offered alternate years.
Recommended: CH 336 and CH 440

CH 697, MASS SPECTROMETRY OF ORGANIC COMPOUNDS, 4 Credits
Physical principles of mass spectrometric instrumentation and interpretation of the mass spectra of organic compounds and biomolecules. Not offered every year.
Equivalent to: TOX 637

Chinese (CHN)

CHN 111, FIRST-YEAR CHINESE, 4 Credits
Essentials of colloquial Mandarin with emphasis on conversation, reading, and writing. Designed for students with no prior training in Chinese. Native and/or bilingual speakers of Chinese will not receive credit for CHN 111, CHN 112, CHN 113. Lec/rec.
Available via Ecampus

CHN 112, FIRST-YEAR CHINESE, 4 Credits
Essentials of colloquial Mandarin with emphasis on conversation, reading, and writing. Designed for students with no prior training in Chinese. Native and/or bilingual speakers of Chinese will not receive credit for CHN 111, CHN 112, CHN 113. Lec/Rec.
Prerequisite: CHN 111 with D- or better
Available via Ecampus

CHN 113, FIRST-YEAR CHINESE, 4 Credits
Essentials of colloquial Mandarin with emphasis on conversation, reading, and writing. Designed for students with no prior training in Chinese. Native and/or bilingual speakers of Chinese will not receive credit for CHN 111, CHN 112, CHN 113. Lec/Rec.
Prerequisite: CHN 112 with D- or better
Available via Ecampus

CHN 199, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

CHN 211, SECOND-YEAR CHINESE, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Emphasis on conversational fluency and increased vocabulary. Native and/or bilingual speakers of Chinese will not receive credit for CHN 211, CHN 212, CHN 213. Completion of CHN 213 with grade of C- or better satisfies BA requirement in foreign languages. Lec/Rec.
Prerequisite: CHN 113 with C- or better
Available via Ecampus

CHN 212, SECOND-YEAR CHINESE, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Emphasis on conversational fluency and increased vocabulary. Native and/or bilingual speakers of Chinese will not receive credit for CHN 211, CHN 212, CHN 213. Completion of CHN 213 with grade of C- or better satisfies BA requirement in foreign languages. Lec/discussion/activity.
Prerequisite: CHN 211 with D- or better
Available via Ecampus

CHN 213, SECOND-YEAR CHINESE, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Emphasis on conversational fluency and increased vocabulary. Native and/or bilingual speakers of Chinese will not receive credit for CHN 211, CHN 212, CHN 213. Completion of CHN 213 with grade of C- or better satisfies BA requirement in foreign languages. Lec/discussion.
Prerequisite: CHN 212 with C- or better

CHN 299, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

CHN 311, THIRD-YEAR CHINESE LANGUAGE, 3 Credits
Further development of listening, speaking, reading, and writing skills to a more advanced level with emphasis on the practical application of the Chinese language.
Prerequisite: CHN 213 with emphasis on the practical application of the Chinese language.

CHN 312, THIRD-YEAR CHINESE LANGUAGE, 3 Credits
Further development of listening, speaking, reading, and writing skills to a more advanced level with emphasis on the practical application of the Chinese language. Lec/rec.
Prerequisite: CHN 311 with C- or better

CHN 313, THIRD-YEAR CHINESE LANGUAGE, 3 Credits
Further development of listening, speaking, reading, and writing skills to a more advanced level with emphasis on the practical application of the Chinese language.
Prerequisite: CHN 312 with C- or better
CHN 379, PROCTOR EXPERIENCE, 1-2 Credits
Supervised practicum for advanced students, with assignments as proctor or tutor in lower-division Chinese courses. May be repeated for credit. No credit may be used to satisfy requirements for a minor in Chinese. Graded P/N.
This course is repeatable for 6 credits.
Recommended: Completion of third-year Chinese with a minimum 3.0 GPA in that sequence

CHN 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

CHN 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

CHN 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

CHN 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CHN 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.

CHN 411, FOURTH-YEAR CHINESE (NEWSPAPER CHINESE), 3 Credits
Development of reading, writing, and speaking skills at a more advanced level; reading of newspaper articles from China, Taiwan, and other sources; oral reports and compositions in Chinese. Not offered every year.
Recommended: CHN 313

CHN 412, FOURTH-YEAR CHINESE (NEWSPAPER CHINESE), 3 Credits
Development of reading, writing, and speaking skills at a more advanced level; reading of newspaper articles from China, Taiwan, and other sources; oral reports and compositions in Chinese. Not offered every year.
Recommended: CHN 411

CHN 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

CHN 505, READING AND CONFERENCE, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 16 credits.

Civil and Construction Engr (CCE)

CCE 101, CIVIL AND CONSTRUCTION ENGINEERING ORIENTATION, 2 Credits
Introduction to civil and construction engineering professions; problem solving, communication skills. This course is required by the CE, CEM and FE programs.
Equivalent to: CE 101
Recommended: MTH 111 and completion or concurrent enrollment in MTH 112 or MTH 251

CCE 102, CIVIL AND CONSTRUCTION ENGINEERING: PROBLEM-SOLVING AND TECHNOLOGY, 3 Credits
A skills-based course that focuses on introducing freshman students to the use of hand calculation and computer technology in solving civil engineering and construction engineering problems. Topics to be covered include structured approach to problem solving, use of Excel for engineering applications, internet tools and data bases, homework professionalism. Opportunities for involvement with ASCE and AGC student chapters. Lec/lab.
Equivalent to: CE 102
Recommended: Completion or concurrent enrollment in MTH 112 or MTH 251

CCE 201, CIVIL AND CONSTRUCTION ENGINEERING GRAPHICS AND DESIGN, 3 Credits
Introduces the engineering design process and graphic skills that are used by civil and construction engineers. Topics include design process, geometric construction, multiviews, auxiliary views, sections, dimensioning, tolerances and engineering drawing standards. Students participate in team design projects and presentations. Graphic and design projects from the areas of civil and construction engineering. Lec/lab.
Prerequisite: MTH 111 with C or better or MTH 112 (may be taken concurrently) with C or better or MTH 241 (may be taken concurrently) with C or better or MTH 251 (may be taken concurrently) with C or better
Equivalent to: CE 201

CCE 203, INTRODUCTION TO VIRTUAL DESIGN AND CONSTRUCTION, 3 Credits
Basic principles of virtual design and construction (VDC) focusing on skills required for generating design and construction information models. Parametric modeling and design constraints are introduced. Students will utilize construction drawings and documentation to create accurate 3D models. Use of design and construction information models for making estimates of quantities and cost, and for determination of constructability problems. Lec/lab.
Prerequisite: CCE 201 with C or better or ENGR 248 with C or better

CCE 207, CCE SEMINAR, 1 Credit
Professional practices of civil and construction engineering.
Prerequisite: CCE 102 with C or better or ENGR 112 with C or better or CBEE 102 with C or better or NSE 115 with C or better or CS 162 with C or better or EEE 102 with C or better
Recommended: Sophomore standing
CCE 321, CIVIL AND CONSTRUCTION ENGINEERING MATERIALS, 4 Credits
Highway materials; aggregate, concrete and asphalt. Standard test methods.
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and (ST 314 [C] or BA 276 [C])
Equivalent to: CCE 321H, CE 321

CCE 321H, CIVIL AND CONSTRUCTION ENGINEERING MATERIALS, 4 Credits
Highway materials; aggregate, concrete and asphalt. Standard test methods.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and (ST 314 [C] or BA 276 [C])
Equivalent to: CCE 321

CCE 422, GREEN BUILDING MATERIALS, 3 Credits
Introduces concepts of construction with green building materials. Specific concepts include evaluation of what truly makes a material 'green', long-term performance (e.g., durability) of materials, material production and life cycle cost analysis. Concepts of green building programs, guidelines and specifications will be introduced.
Prerequisite: CE 321 with C or better or CCE 321 with C or better
Recommended: (ECON 201 or ECON 201H or ECON 202 or ECON 202H) and ST 314
Available via Ecampus

CCE 423, CONCRETE FUNDAMENTALS, 4 Credits
Portland cement hydration, microstructural development, fresh and hardened properties, testing standards, durability, alternative cements.
Recommended: CCE 321

CCE 424, ASPHALT FUNDAMENTALS, 3 Credits
Focuses on characterization of asphalt materials and mixtures, current laboratory testing technology for asphalt binders and mixes, engineering of asphalt mixes to meet design requirements, asphalt recycling process, environmental impacts of asphalt pavements, and recent developments in asphalt technology.
Prerequisite: CCE 321 with C or better

CCE 520, SELECTED TOPICS IN INFRASTRUCTURE MATERIALS, 0-4 Credits
A critical examination of in-depth topics selected by the instructor from among topics not covered in other infrastructure materials courses.
This course is repeatable for 16 credits.

CCE 522, GREEN BUILDING MATERIALS, 3 Credits
Introduces concepts of construction with green building materials. Specific concepts include evaluation of what truly makes a material 'green', long-term performance (e.g., durability) of materials, material production and life cycle cost analysis. Concepts of green building programs, guidelines and specifications will be introduced.
Recommended: (CE 321 or CCE 321) and (ECON 201 or ECON 201H or ECON 202 or ECON 202H) and ST 314
Available via Ecampus

CCE 523, CONCRETE FUNDAMENTALS, 4 Credits
Portland cement hydration, microstructural development, fresh and hardened properties, testing standards, durability, alternative cements.
Recommended: CCE 321 or similar introductory materials course or CCE 421

CCE 524, ASPHALT FUNDAMENTALS, 3 Credits
Focuses on characterization of asphalt materials and mixtures, current laboratory testing technology for asphalt binders and mixes, engineering of asphalt mixes to meet design requirements, asphalt recycling process, environmental impacts of asphalt pavements, and recent developments in asphalt technology.

CCE 525, CONSTRUCTION SITE SYSTEMS ENGINEERING, 3 Credits
Design and planning of construction site field operations and engineered systems. Systems analysis and design as it applies to civil engineering projects. Design of construction systems: blasting; rock crushing and conveying; dewatering; cranes, pile driving, and rigging; and concrete pumping and placement. Construction site design and process design.

CCE 526, DESIGN FOR SAFETY, 3 Credits
Theoretical concepts and industry practices used to model, evaluate, and improve construction worker safety through the design of the project features, construction operations, and site safety program elements. Causes of construction site accidents, hazard recognition and comprehension, safety risk valuation and mitigation, and the true costs of injuries and fatalities.

CCE 528, ADVANCED VIRTUAL DESIGN AND CONSTRUCTION, 4 Credits
Focusing on the skills and information needed to effectively use an existing Building Information Model (BIM) in plan execution for a building construction project. This is a project based course where students gain knowledge on the implementation of BIM concepts throughout the lifecycle of a building, from planning and design, to construction and operations.
Recommended: CCE 203 [D-]
CCE 529, LEAN CONSTRUCTION, 3 Credits
Introduction to the basics of lean production management, especially about how they are applied to the AEC industry to improve the operation management and product development. Class topics include theory of manufacturing science, principles of the lean production system, application of production management to project management, variability management in design and construction, improving project performance in the AEC industry, data gathering and process evaluation for productivity improvement.

CCE 552, PROJECT RISK MANAGEMENT, 4 Credits
An introduction to the concept of project risk in producing constructed engineering projects. Course content includes project baselining, risk definition and identification, risk assessment and management techniques, risk control, risk response, and risk management. CROSSLISTED as CCE 652/IE 586.
Equivalent to: IE 586
Available via Ecampus

CCE 554, PROFESSIONAL RESPONSIBILITY AND ETHICS, 3 Credits
An in-depth exploration of professional engineering ethics. Course content includes conceptual theoretical basis of ethics, ethics among professional organizations, ethical consideration of design, critical analysis of ethical situations, ethics in the workplace, and ethical considerations regarding the broader environment. CROSSLISTED as CCE 554/IE 589.
Equivalent to: IE 589
Available via Ecampus

CCE 561, HYDROGRAPHIC SURVEYING, 3 Credits
Covers the fundamentals of hydrographic surveys performed to measure the depth and bottom configuration of water bodies in support of nautical charting and other areas of marine geomatics, as well as marine construction, benthic habitat mapping, marine spatial planning, and bathymetric mapping of rivers and lakes. Topics include underwater acoustics, sound velocity, the sonar equation, types of sonar systems (e.g., single-beam, multibeam, side scan sonar), water levels and tidal datums, positioning and motion sensing for hydrographic surveying, bathymetric lidar, and applications of hydrographic surveying.

CCE 599, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 16 credits.

CCE 621, DURABILITY AND CONDITION ASSESSMENT OF REINFORCED CONCRETE, 4 Credits
Concrete durability including freeze-thaw attack, sulfate attack, corrosion, alkali-silica reaction, long-term performance, durability modeling, durability of alternative cements. Non-destructive condition assessment; model-assisted testing; corrosion detection and monitoring; multi-scale assessment; service/remaining life predictions.
Prerequisite: CCE 523 with C or better
Recommended: CCE 321

CCE 623, CORROSION OF METALS AND CORROSION CONTROL, 4 Credits
Recommended: CH 202 or CH 231 or CH 231H or CCE 321

CCE 624, SERVICE LIFE MODELING OF INFRASTRUCTURE MATERIALS, 4 Credits
Recommended: Undergraduate level calculus and chemistry courses

Civil Engineering (CE)

CE 199, SPECIAL TOPICS, 1-4 Credits

CE 202, CIVIL ENGINEERING: GEOSPATIAL INFORMATION AND GIS, 3 Credits
Introductory design principles presented with the use of GIS and geospatial information (remote sensing, GPS, surveying, and aerial photography) for civil engineering problem solving. Introduction to the integration of geospatial data and analysis for decision making and management for site selection, mitigation, change analysis, modeling and assessment. Standard software and custom programming used in course. Students participate in both individual and team projects and presentations. Projects from the area of civil engineering. Lec/lab.
Prerequisite: CCE 201 with C or better or ENGR 248 with C or better

CE 299, SPECIAL TOPICS, 1-4 Credits
Graded P/N.
Equivalent to: CE 299H

CE 299H, SPECIAL TOPICS, 1-4 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: CE 299

CE 301, CE JUNIOR SEMINAR, 1 Credit
Professional practices of civil engineering.

CE 311, FLUID MECHANICS, 4 Credits
Fluid properties, fluid statics, fluid motion, conservation of mass, momentum and energy for incompressible fluids, dimensional analysis, civil engineering applications.
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and PH 213 [C] and ENGR 213 [C] and ENGR 212 [C]
CE 313, HYDRAULIC ENGINEERING, 4 Credits
Analysis of large civil engineering fluid systems including conduit flow, multiple reservoirs, pipe networks, pumps, turbines, open channel flow, and hydraulic structures.
Prerequisite: CE 311 with C or better or CHE 331 with C or better or CHE 331H with C or better

CE 361, SURVEYING THEORY, 4 Credits
Use of surveying equipment, Gaussian error theory applied to measurements, calculations of position on spherical and plane surfaces, state plane coordinate systems, introduction to global positioning systems.
Prerequisite: (CCE 201 with C or better or CE 202 with C or better) and ENGR 213 [C] and PH 213 [C] and ST 314 [C]

CE 365, HIGHWAY LOCATION AND DESIGN, 3 Credits
Curve problems in highway design, including circular, vertical, compound curves and spirals; earth distribution analysis; preliminary office studies; paper location procedures and field layout problems.
Prerequisite: CE 361 with C or better or CEM 263 with C or better or FE 208 with C or better

CE 372, GEOTECHNICAL ENGINEERING I, 4 Credits
Basic soil mechanics including the identification and classification of soil, principles of compaction and consolidation, flow through porous media, effective stress, and shear strength. Lec/lab.
Prerequisite: ENGR 213 with C or better or ENGR 213H with C or better and (CE 311 (may be taken concurrently) [C] or CEM 311 (may be taken concurrently) [C] or CHE 331 (may be taken concurrently) [C] or CHE 331H (may be taken concurrently) [C]) and CH 201 [C] and PH 212 [C]

CE 373, GEOTECHNICAL ENGINEERING II, 4 Credits
Application of fundamental soil mechanics principles to analyses of slope stability, retaining structures, and foundation support. Lec/rec.
Prerequisite: CE 372 with C or better or FE 315 with C or better

CE 381, STRUCTURAL THEORY I, 4 Credits
Analysis of statically determinate structures (beams, frames, trusses, arches, and cables). Approximate analysis, influence lines, deflections.
Prerequisite: ENGR 213 with C or better or ENGR 213H with C or better

CE 382, STRUCTURAL THEORY II, 4 Credits
Analysis of statically indeterminate structures (beams, frames, trusses). Deflections. Energy methods, introduction to matrix methods.
Prerequisite: CE 381 with C or better and (MTH 306 [C] or MTH 306H [C] or (MTH 264 [C] and MTH 265 [C])

CE 383, DESIGN OF STEEL STRUCTURES, 4 Credits
Introduction to design of steel members, connections and structural systems. Lec/lab.
Prerequisite: CE 382 with C or better

CE 392, INTRODUCTION TO HIGHWAY ENGINEERING, 4 Credits
Highway engineering standards, geometric design, cross section and roadside design, highway surfaces, pavement design, highways and the environment, highway construction and maintenance.
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and CE 361 [C]

CE 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

CE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

CE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CE 407, SEMINAR, 1-3 Credits
Understanding complexity and systems thinking.
Equivalent to: CE 407H
This course is repeatable for 16 credits.

CE 407H, SEMINAR, 1-3 Credits
Understanding complexity and systems thinking.
Attributes: HNRS – Honors Course Designator
Equivalent to: CE 407
This course is repeatable for 16 credits.

CE 408, WORKSHOP, 1-3 Credits
This course is repeatable for 3 credits.

CE 410, INTERNSHIP, 1-12 Credits
This course is repeatable for 16 credits.

CE 411, OCEAN ENGINEERING, 4 Credits
Introduction to linear wave theory and wave forces on piles. Guided design of wave gauge facility at Coos Bay, Oregon, that requires synthesizing fluid mechanics, structural design and foundation design.
Prerequisite: CE 313 with C or better or CEM 311 with C or better

CE 412, HYDROLOGY, 4 Credits
Fundamentals of hydrology, the hydrologic cycle, precipitation, streamflow, hydrograph analysis and hydrologic measurements.
Prerequisite: CE 313 with C or better

CE 413, GIS IN WATER RESOURCES, 3 Credits
Course presents Geographic Information System (GIS) technology for developing solutions to water resource problems: water quality, availability, flooding, the natural environment, and management of water resources. Typical GIS data models for hydrologic information are presented. Synthesis of geospatial and temporal water resources to support hydrologic analysis and modeling are covered.
Recommended: Senior standing or a previous introductory GIS course
CE 415, COASTAL INFRASTRUCTURE, 3 Credits
Planning and design criteria of coastal infrastructure, including breakwaters, jetties, sea walls, groins, piers, submerged pipelines, harbor design, and tsunami defense. Use of laboratory models, numerical simulations, and field observations for design.
Prerequisite: CE 313 with C or better

CE 417, HYDRAULIC ENGINEERING DESIGN, 4 Credits
Theory, planning, analysis, and design of hydraulic structures. Application of basic principles detailed analysis and design. Engineering planning and design of water resource systems.
Prerequisite: CE 313 with C or better

CE 418, CIVIL ENGINEERING PROFESSIONAL PRACTICE, 3 Credits
Engineering career paths; ethics and professionalism, project planning, execution and delivery; team building/management; marketing proposals; engineering overseas; dispute resolution; partnering; effective decision making; uncertainty and risk analysis; and current industry design and construction methods. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CE 382 with C or better and CE 313 [C] and (CE 372 [C] or FE 315 [C])
Equivalent to: CE 454

CE 419, CIVIL INFRASTRUCTURE DESIGN, 3 Credits
A capstone design project experience exposing students to problems and issues similar to those encountered in the practice of civil engineering. Students should have completed ALL other required courses in their degree program prior to registering for this course. Lec/rec.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CE 418 with C or better

CE 420, ENGINEERING PLANNING, 4 Credits
The application of systems analysis to structuring, analyzing, and planning for civil engineering projects. Concept of the system and its environment; setting goals, objectives, and standards; evaluation criteria; solution generation and analysis; evaluation and optimization. Project management using precedence node diagramming; resource allocation and leveling; time-cost trade-off; and PERT.

CE 424, CONTRACTS AND SPECIFICATIONS, 4 Credits
Fundamentals of construction industry contracts, including technical specifications, and issues related to time, money, warranty, insurance, and changed conditions.
Prerequisite: CEM 442 with C or better

CE 427, TEMPORARY CONSTRUCTION STRUCTURES, 4 Credits
Design and construction of temporary structures including formwork, shoring, and earth retaining structures.
Prerequisite: (CE 321 with C or better or CCE 321 with C or better) and (FE 315 [C] or CE 372 [C]) and (CEM 383 [C] or CE 383 [C])

CE 429, OPTIMIZATION IN WATER RESOURCES ENGINEERING, 3 Credits
Introduction to problem formulation and optimization techniques for design of complex water resources systems.
Recommended: CE 412

CE 461, PHOTOGRAMMETRY, 3 Credits
Geometry of terrestrial and vertical photographs, flightline planning, stereoscopy and parallax, stereoscopic plotting instruments, analytical photogrammetry, orthophotography, introduction to photo interpretation, and aerial cameras.
Prerequisite: CE 361 with C or better or CEM 263 with C or better or FE 208 with C or better

CE 463, CONTROL SURVEYING, 4 Credits
Global Positioning Systems (GPS) theory, networks, and fieldwork; control specifications, methods and problems in obtaining large area measurements; precise leveling; network adjustments using least square techniques; field instrument adjustments.
Prerequisite: CE 361 with C or better or CEM 263 with C or better or FE 208 with C or better

CE 465, OREGON LAND SURVEY LAW, 3 Credits
Introduction to U.S. public land survey; Oregon state statutes, common law decisions, and administrative rules dealing with boundary law; case studies; unwritten land transfers; original and resurvey platting laws; guarantees of title; deed descriptions.
Prerequisite: CE 361 with C or better or CEM 263 with C or better or FE 208 with C or better

CE 469, PROPERTY SURVEYS, 3 Credits
U.S. public land survey: restoration of corners, subdivision of sections; topographic mapping; subdivision and partition plats, resurvey plats, subdivision design; introduction to LIS/GIS; field astronomy.
Prerequisite: CE 361 with C or better or CEM 263 with C or better or FE 208 with C or better

CE 471, FOUNDATIONS FOR STRUCTURES, 3 Credits
Criteria, theory, design, and construction for foundations of structures; use of in-situ tests for geotechnical engineering; computer applications.
Prerequisite: CE 373 with C or better or FE 316 with C or better

CE 479, SLOPE AND EMBANKMENT DESIGN, 3 Credits
A comprehensive overview of evaluating stability and performance for natural and engineered slopes. Design aspects include construction of road embankments, slope remediation techniques and application of geosynthetics for slope stabilization, slope and wall construction, and drainage. CROSSTLISTED as CE 479/FE 479 and CE 579/FE 579.
Prerequisite: CE 373 with C or better or FE 316 with C or better
Equivalent to: FE 479
CE 481, REINFORCED CONCRETE I, 4 Credits
Basic principles of reinforced concrete design; strength, stability, and serviceability criteria; design of reinforced concrete members for flexure and shear. Detailing, development length and splices.
Prerequisite: CE 382 with C or better

CE 482, MASONRY DESIGN, 3 Credits
A critical examination in depth of masonry design topics.
Prerequisite: CE 481 with C or better

CE 484, WOOD DESIGN, 4 Credits
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab.
Prerequisite: CE 383 with C or better or CE 481 with C or better
Equivalent to: WSE 458

CE 486, PRESTRESSED CONCRETE, 3 Credits
Prestressed concrete analysis and design, systems of prestressing, materials, economics.
Prerequisite: CE 481 with C or better

CE 489, SEISMIC DESIGN FUNDAMENTALS, 3 Credits
Fundamentals of earthquake engineering, introduction to structural dynamics principles, response spectra, and ASCE 7 design and analysis provisions.
Prerequisite: CE 481 with C- or better and CE 383 [C-]

CE 491, TRANSPORTATION ENGINEERING, 3 Credits
Introduction to transportation engineering systems characteristics, traffic estimation, comprehensive transportation planning, highway economics, driver and vehicle characteristics, highway operations and capacity, signalization and control. Introduction to intelligent transportation.
Prerequisite: CE 392 with C or better and ST 314 [C]

CE 492, PAVEMENT STRUCTURES, 3 Credits
Design and rehabilitation of pavement structures for streets, highways, and airports.
Prerequisite: CE 392 with C or better

CE 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

CE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

CE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CE 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

CE 508, WORKSHOP, 1-3 Credits
Graded P/N.
This course is repeatable for 3 credits.

CE 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

CE 511, OCEAN ENGINEERING, 4 Credits
Introduction to linear wave theory and wave forces on piles. Guided design of wave gauge facility at Coos Bay, Oregon, that requires synthesizing fluid mechanics, structural design and foundation design.
Recommended: CE 313 or CEM 311

CE 512, HYDROLOGY, 4 Credits
Fundamentals of hydrology, the hydrologic cycle, precipitation, streamflow, hydrograph analysis and hydrologic measurements.

CE 513, GIS IN WATER RESOURCES, 3 Credits
Course presents Geographic Information System (GIS) technology for developing solutions to water resource problems: water quality, availability, flooding, the natural environment, and management of water resources. Typical GIS data models for hydrologic information are presented. Synthesis of geospatial and temporal water resources to support hydrologic analysis and modeling are covered.
Recommended: Senior standing or a previous introductory GIS course

CE 514, GROUNDWATER HYDRAULICS, 4 Credits
Principles of groundwater flow and chemical transport in confined and unconfined aquifers, aquifer testing and well construction. Design of dewatering and contaminant recovery systems.
Prerequisite: CE 547 with B or better
Equivalent to: BEE 514
Recommended: CE 313 and MTH 252

CE 515, COASTAL INFRASTRUCTURE, 3 Credits
Planning and design criteria of coastal infrastructure, including breakwaters, jetties, sea walls, groins, piers, submerged pipelines, harbor design, and tsunami defense. Use of laboratory models, numerical simulations, and field observations for design.
Recommended: CE 313

CE 516, STORMWATER DESIGN AND MANAGEMENT, 4 Credits
Introduction to urban stormwater drainage systems; urban hydrologic analysis; water quality in urban storm water; design of stormwater control systems; low impact development; storm water monitoring; and computer modeling of urban storm water systems.
Prerequisite: CE 512 with C or better or BEE 512 with C or better
CE 517, HYDRAULIC ENGINEERING DESIGN, 4 Credits
Theory, planning, analysis, and design of hydraulic structures. Application of basic principles detailed analysis and design. Engineering planning and design of water resource systems.
Recommended: CE 313

CE 518, GROUNDWATER MODELING, 4 Credits
Application of numerical methods to the solution of water flow and solute transport through saturated and unsaturated porous media. Analysis of confined and unconfined aquifers. Computer solution of large-scale field problems including groundwater contamination and aquifer yield.
Prerequisite: CE 514 with C or better

CE 520, ENGINEERING PLANNING, 4 Credits
The application of systems analysis to structuring, analyzing, and planning for civil engineering projects. Concept of the system and its environment; setting goals, objectives, and standards; evaluation criteria; solution generation and analysis; and evaluation and optimization. Project management using precedence node diagramming; resource allocation and leveling; time-cost trade-off; and PERT.

CE 524, CONTRACTS AND SPECIFICATIONS, 4 Credits
Fundamentals of construction industry contracts, including technical specifications, and issues related to time, money, warranty, insurance, and changed conditions.

CE 525, STOCHASTIC HYDROLOGY, 3 Credits
Introduction to fundamental concepts that are needed for stochastic modeling of hydrologic processes in presence of nonstationarity and uncertainty. Crosslisted as BEE 525/CE 525.
Prerequisite: CE 512 with C or better or BEE 512 with C or better
Equivalent to: BEE 525

CE 527, TEMPORARY CONSTRUCTION STRUCTURES, 4 Credits
Design and construction of temporary structures including formwork, shoring, and earth retaining structures.
Recommended: (CE 321 or CCE 321) and (FE 315 or CE 372) and (CEM 383 or CE 383)

CE 529, OPTIMIZATION IN WATER RESOURCES ENGINEERING, 3 Credits
Introduction to problem formulation and optimization techniques for design of complex water resources systems.
Recommended: CE 512 or BEE 512

CE 530, SELECTED TOPICS IN STRUCTURAL ANALYSIS AND MECHANICS, 3 Credits
A critical, in-depth examination of topics selected by the instructor from among topics not covered in other structural analysis and mechanics courses.
Prerequisite: CE 585 with C or better
This course is repeatable for 16 credits.

CE 531, STRUCTURAL MECHANICS, 3 Credits
Theories of failure, multi-axial stress conditions, torsion, shear distortions, energy methods of analysis, beams on elastic foundations. Nonlinear and inelastic behavior.

CE 532, FINITE ELEMENT ANALYSIS, 4 Credits
Applications of the finite element method to structural analysis, fluid flow and elasticity problems. Use and development of large finite element computer programs.
Prerequisite: (CE 585 with C or better or ME 520 with C or better)

CE 533, STRUCTURAL STABILITY, 3 Credits
Stability theory and applications, with emphasis on design of steel structures.
Recommended: CE 383

CE 534, STRUCTURAL DYNAMICS, 4 Credits
Analytical and numerical solutions for single, multi-degree of freedom and continuous vibrating systems. Behavior of structures, dynamic forces and support motions. Seismic response spectra analysis.
Recommended: CE 382

CE 535, INTRODUCTION TO RANDOM VIBRATIONS, 4 Credits
Introduction to probability theory and stochastic processes. Correlation and spectral density functions. Response of linear systems to random excitations. First excursion and fatigue failures. Applications in structural and mechanical system analysis and design.
Prerequisite: CE 534 with C or better or ME 522 with C or better

CE 536, MATRIX METHODS OF STRUCTURAL ANALYSIS, 4 Credits
Equivalent to: CE 585
Recommended: CE 382 with a minimum grade of C
Available via Ecampus
CE 537, NONLINEAR STRUCTURAL ANALYSIS, 4 Credits

CE 538, STRUCTURAL RELIABILITY AND RISK ANALYSIS, 4 Credits
Application of probability and statistics in the reliability-based analysis and design of civil and mechanical engineering systems. Probabilistic modeling of loading and resistance including load and resistance factor design. Introduction to risk analysis and robustness. Prerequisite: (CE 536 with C or better or ME 520 with C or better) Recommended: ST 314

CE 540, SPECIAL TOPICS IN HYDRAULIC ENGINEERING, 3-4 Credits
Introduction to the tools and methods employed to characterize hydrologic properties of subsurface systems. Hands-on use of GPR, TDR, resistivity, and methods of determining hydraulic conductivity, sorptivity, bulk density, and other fundamental hydrologic properties. Equivalent to: BEE 540
This course is repeatable for 16 credits.

CE 543, APPLIED HYDROLOGY, 4 Credits
Advanced treatment of hydrology covering major components of the hydrological cycle with special emphasis on surface water; hydrologic analysis and design of water resource systems; runoff prediction; and simulation of surface water systems. Offered alternate years. Equivalent to: BEE 543
Recommended: BEE 512 and CE 412

CE 544, OPEN CHANNEL FLOW, 3 Credits
Steady, uniform, and nonuniform flow in natural and artificial open channels; unsteady flow; interaction of flow with river structures; and computational methods. Equivalent to: BEE 544, BRE 544
Recommended: (CE 311 and CE 313) or CE 547

CE 547, WATER RESOURCES ENGINEERING I: PRINCIPLES OF FLUID MECHANICS, 4 Credits
Fluid mechanics for water resources engineers, classifications of fluid flows; fluid statics and dynamics, incompressible viscous flows; dimensional analysis; applications to fluid machinery, flow through porous media, fluid motion in rivers, lakes, oceans.

CE 552, ISOLATED SIGNALIZED INTERSECTIONS, 3 Credits
Relationships between signal display, user response, vehicle detection, and signal timing parameters are examined in detail. Traffic simulation is introduced to visualize and design the various elements of isolated signalized intersections. Recommended: CE 595

CE 553, RAILROAD ENGINEERING, 3 Credits
The principal subject of this course is the railway infra-structure and operational issues related to high speed passenger rail and freight rail (class 1 and regional rail). The course will cover the techniques used to design, construct, monitor and maintain railway track. Class will include field trips. Corequisites: CE 392

CE 554, DRIVING SIMULATION, 3 Credits
Relationships between the functional elements of driving simulation (simulation computer processing, sensory feedback generation, sensory display devices, and the human operator) are examined in detail. The role of driving simulation in transportation engineering research and practice is also considered in depth. Students will design experiments, analyze and interpret data, and extrapolate simulator results to real-world scenarios. Recommended: CE 595

CE 556, TRANSPORTATION SAFETY ANALYSIS, 3 Credits
Provides students with a general knowledge of major transportation safety issues and a general background in the application of various statistical and econometric safety analysis techniques. In addition, this course presents a number of model-estimation methods used in transportation safety data analysis, and other subject areas that deal with safety analysis. Recommended: CE 392 with a minimum grade of C and ST 511

CE 557, NETWORK FLOW ANALYSIS AND OPTIMIZATION, 3 Credits
Acquaints students with the basic elements of operations research through transportation networks, optimal paths in transportation networks, vehicle routing and scheduling problems on networks, facility location problems, transportation network design problems, transportation network flows, and to indicate the directions for future research in this area. Although the course utilizes examples from transportation, the techniques and models are generalizable to other areas of engineering, e.g., water networks, computer networks, energy networks, agricultural, power, telecommunication, etc. Recommended: CE 392 with a minimum grade of C

CE 560, SELECTED TOPICS IN GEOMATICS ENGINEERING, 0-4 Credits
Selected topics on contemporary problems in geomatics engineering; application of ongoing research from resident and visiting faculty. This course is repeatable for 16 credits.

CE 561, PHOTOGRAMMETRY, 3 Credits
Geometry of terrestrial and vertical photographs, flightline planning, stereoscopy and parallax, stereoscopic plotting instruments, analytical photogrammetry, orthophotography, introduction to photo interpretation, and aerial cameras. Recommended: CE 361 or CEM 263 or FE 208
CE 562, DIGITAL TERRAIN MODELING, 4 Credits
Fundamentals of LIDAR and creating digital terrain models. Computational geometry, Delaunay triangulations, spline interpolations, statistical gridding methods, ground filtering, data optimizations, and advanced topics in 3D modeling. Recommended: CE 361 or CEM 263 or equivalent surveying or GIS course.

CE 563, CONTROL SURVEYING, 4 Credits
Global Positioning Systems (GPS) theory, networks, and fieldwork; control specifications, methods and problems in obtaining large area measurements; precise leveling; network adjustments using least square techniques; field instrument adjustments. Recommended: CE 361 or CEM 263 or FE 208

CE 564, GLOBAL NAVIGATION SATELLITE SYSTEM, 4 Credits
Theories and applications of surveying using satellites, focusing on the use of Global Navigation Satellite System (GNSS). The course will begin with the comprehensive overviews of the GNSS; reference and time systems as well as basic orbital mechanics. A description of the satellite signals and the data collected by GNSS receivers will also be covered. Different positioning and navigation techniques for using GNSS data (absolute/relative positioning, static/kinematic positioning, stand-alone/network based positioning) and different user applications will be reviewed, followed by practices of data collections and processing techniques. Recommended: CE 361 or CE 202

CE 565, OREGON LAND SURVEY LAW, 3 Credits
Introduction to U.S. public land survey; Oregon state statutes, common law decisions, and administrative rules dealing with boundary law; case studies; unwritten land transfers; original and resurvey platting laws; guarantees of title; deed descriptions. Recommended: CE 361 or CEM 263 or FE 208

CE 566, 3D LASER SCANNING AND IMAGING, 4 Credits
Fundamentals of lidar acquisition, registration, processing, modeling, analysis, and verification. Use of sensor platforms for 3D acquisition. Effective data management procedures. Introduction to other imaging techniques including structure from motion and structured light. Lec/lab.

CE 567, COASTAL REMOTE SENSING, 4 Credits
Application of remote sensing technologies (e.g., unmanned aircraft systems, multi- and hyperspectral imagery, high-resolution commercial satellite imagery, synthetic-aperture radar, and topographic and bathymetric lidar) to coastal mapping and charting, coastal engineering and coastal zone management. Both the theory and applications of advanced remote sensing technologies are covered. Lec/lab. Recommended: An undergraduate surveying course, such as CE 361, CEM 263 or FE 208 and some exposure to MATLAB

CE 568, LEAST SQUARES ADJUSTMENTS, 3 Credits
Examines the theory of random error and statistical testing. Discusses the propagation of error in both indirect observations and direct observations from survey. Studies weights of observations and the principles of least squares. Explains how to adjust redundant observations in level nets, horizontal surveys, GNSS networks, and GNSS and terrestrial survey networks by least squares. Estimates the error ellipses of the adjusted observations. Evaluates methods for performing coordinate transformations. Recommended: CE 361 or CEM 263 or FE 208

CE 569, PROPERTY SURVEYS, 3 Credits
U.S. public land survey: restoration of corners, subdivision of sections; topographic mapping; subdivision and partition plats, resurvey plats, subdivision design; introduction to LIS/GIS; field astronomy. Recommended: CE 361 and CEM 263 or FE 208

CE 570, GEOTECHNICAL SPECIAL TOPICS, 1-16 Credits
Development and management of actual projects through the examination of case histories; evaluation of geotechnical data; development of design recommendations and preparation of project reports. This course is repeatable for 16 credits.

CE 571, ADVANCED FOUNDATION ENGINEERING, 4 Credits
Presents the planning, analysis, and design of shallow and deep foundations from the geotechnical engineering perspective. Topics supporting course objectives include planning and execution of subsurface investigations, interpretation of in-situ tests, analysis and design of deep and shallow foundations, including geotechnical capacity, and immediate settlement. Assessment of deep foundation installation, axial and lateral loading tests, and group effects is presented. Evaluation of foundation performance is conducted under deterministic and probabilistic frameworks. Recommended: CE 373 and CE 471

CE 572, ADVANCED GEOTECHNICAL LABORATORY, 4 Credits
Examination of soil composition and engineering properties of soils including volume change, pore pressure generation, strength, and deformation behavior of soils in the laboratory. Advanced static and cyclic shear strength testing of soils will also be discussed. Lec/lab. Recommended: CE 373 and CE 471

CE 575, EARTH RETENTION AND SUPPORT, 4 Credits
Presents the theory and practice of design and construction of earth retaining structures. Topics include rigid and flexible retaining structures, ranging from gravity and cantilever systems, cantilever and anchored sheet piling, tied-back shoring elements, soil nailing, and mechanically stabilized earth walls. These topics are developed with a view on compaction stresses and surface loading, and invokes approaches that range from the static equations of equilibrium to empirical rules of thumb. Recommended: CE 373
CE 576, GROUND IMPROVEMENT, 3 Credits
Presents the analysis and design of ground improvement techniques. Topics supporting course objectives include design for accelerated settlement (surcharge design) with and without pre-fabricated vertical drains, vibro-compaction, vibro-replacement (stone columns) and aggregate piers, deep soil mixing, jet grouting, EPS geofoam, and other improvement techniques for improving soil strength and stability, and limiting deformations and the effects of liquefaction.
Prerequisite: CE 572 with C or better and CE 577 [C]

CE 577, STATIC AND DYNAMIC SOIL BEHAVIOR, 3 Credits
An advanced coverage of volume change and strength behavior of soil. Specific course topics include effective stress, one-dimensional compression of soil, rate of soil consolidation, Mohr circle analysis, shear strength of sands, clays, and silts, and dynamic soil properties, strength, and testing.
Recommended: CE 372 and CE 373

CE 578, GEOTECHNICAL EARTHQUAKE ENGINEERING, 4 Credits
Major course topics include engineering seismology, strong ground motion, seismic hazard analysis, soil dynamics, seismic site response, earthquake motion selection, liquefaction, and seismic slope stability. Attention will be given to earthquakes created by the Cascadia Subduction Zone. Lec/lab.
Recommended: CE 373 and CE 471

CE 579, SLOPE AND EMBANKMENT DESIGN, 3 Credits
A comprehensive overview of evaluating stability and performance for natural and engineered slopes. Design aspects include construction of road embankments, slope remediation techniques and application of geosynthetics for slope stabilization, slope and wall construction, and drainage. CROSSLISTED as CE 479/FE 479 and CE 579/FE 579.
Equivalent to: FE 579
Recommended: CE 373 or FE 316

CE 580, SELECTED TOPICS IN STRUCTURAL DESIGN, 3 Credits
A critical examination in depth of topics selected by the instructor from among topics not covered in other structural design courses. This course is repeatable for 18 credits.

CE 581, REINFORCED CONCRETE I, 4 Credits
Basic principles of reinforced concrete design; strength, stability, and serviceability criteria; design of reinforced concrete members for flexure and shear. Detailing, development length and splices.
Recommended: CE 382

CE 582, MASONRY DESIGN, 3 Credits
A critical examination in depth of masonry design topics.
Recommended: CE 581

CE 583, BRIDGE DESIGN, 3 Credits
AASHTO specifications for bridge design; load models; design for moving loads; design and analysis of bridge decks and simple and continuous bridge spans.
Recommended: Completion of CE 381 and CE 382 and (CE 481 or CE 581) and concurrent enrollment in CE 383

CE 584, WOOD DESIGN, 4 Credits
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. CROSSLISTED as CE 584/WSE 558.
Equivalent to: WSE 558
Recommended: CE 383 or CE 481 with a minimum grade of C

CE 586, PRESTRESSED CONCRETE, 3 Credits
Prestressed concrete analysis and design, systems of prestressing, materials, economics.
Recommended: CE 581

CE 589, SEISMIC DESIGN, 4 Credits
Design of structures to resist the effects of earthquakes. Introduction to structural dynamics, dynamic analysis, seismic design philosophy, code requirements, and detailing for steel and reinforced concrete.
Recommended: CE 383 or CE 481

CE 590, SELECTED TOPICS IN TRANSPORTATION ENGINEERING, 1-3 Credits
Selected topics on contemporary problems in transportation engineering; application of ongoing research from resident and visiting faculty. This course is repeatable for 9 credits.

CE 591, TRANSPORTATION SYSTEMS ANALYSIS, PLANNING, AND POLICY, 3 Credits

CE 592, PAVEMENT STRUCTURES, 3 Credits
Design and rehabilitation of pavement structures for streets, highways, and airports.
Recommended: CE 392

CE 593, TRAFFIC FLOW ANALYSIS AND CONTROL, 4 Credits
Traffic operations and control systems; traffic flow theory and stream characteristics; capacity analysis; traffic models and simulation; accident and safety improvement. Offered alternate years.
CE 594, TRANSPORT FACILITY DESIGN, 4 Credits
Location and design of highways, and other surface transportation terminals; design for safety, energy efficiency, and environmental quality. Offered alternate years. Lec/rec.
Recommended: CE 392

CE 595, TRAFFIC OPERATIONS AND DESIGN, 3 Credits
Traffic operations and engineering; human and vehicular characteristics; traffic stream characteristics; highway capacity analysis; intersection operation, control and design.
Recommended: Completion or concurrent enrollment in CE 491

CE 596, PAVEMENT EVALUATION AND MANAGEMENT, 3 Credits
Advanced topics in pavement evaluation techniques and pavement management procedures.
Recommended: CE 492

CE 597, PUBLIC TRANSPORTATION, 3 Credits
Characteristics and nature of public transportation systems, including bus, light and heavy rail; financing policy considerations; planning transit service; managing and operating transit systems for small and large urban areas. Offered alternate years.

CE 598, AIRPORT PLANNING AND DESIGN, 3 Credits
Characteristics and nature of the air transport system. Airport financing, air traffic control. Analysis and design of airports and the airport planning processes. Airport appurtenances. Airport pavement design, environmental facilities and drainage. Offered alternate years.

CE 599, INTELLIGENT TRANSPORTATION SYSTEMS, 3 Credits
Introduction to intelligent transportation systems, including enabling surveillance, navigation, communication and computer technologies. Application of technologies for monitoring, analysis evaluation and prediction of transportation system performance. Intervention strategies, costs and benefits, safety, human factors, institutional issues and case studies. Offered alternate years.
Recommended: CE 491 for new graduate students

CE 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

CE 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CE 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CE 607, OCEAN ENGINEERING SEMINAR, 1 Credit
Presentations from on-campus and off-campus speakers discussing state of technology topics in ocean engineering research, development, and construction. Graded P/N. This course is repeatable for 16 credits.

CE 630, OCEAN WAVE MECHANICS I, 3 Credits
Linear wave boundary value problem formulation and solution, water particle kinematics, shoaling, refraction, diffraction, and reflection. Linear long wave theory with applications to tides, seiching, and storm surge. CROSSLISTED as CE 630/OC 630.
Equivalent to: OC 630

CE 631, OCEAN WAVE MECHANICS II, 3 Credits
Second in the sequence of ocean wave engineering mechanics, covers the following topics: introduction to long wave theory, wave superposition, wave height distribution, and the wind-wave spectrum, introduction to wave forces, and basic nonlinear properties of water waves. May include additional selected topic in wave mechanics. CROSSLISTED as CE 631/OC 631.
Prerequisite: (CE 630 with C or better or OC 630 with C or better)
Equivalent to: OC 631

CE 634, LONG WAVE MECHANICS, 3 Credits
Theory of long waves. Depth-integrated Euler’s equation and its jump conditions. Evolution equations and their solutions. Nonlinear shallow-water waves, the Korteweg-deVries equation and Boussinesq equation. Boundary-layer effects. Shallow-water waves on beaches. Applications of the fundamentals to problems of tsunamis. CROSSLISTED as CE 634/OC 634.
Prerequisite: (CE 630 with C or better and CE 631 [C])
Equivalent to: OC 634
Recommended: OC 670

CE 639, DYNAMICS OF OCEAN STRUCTURES, 3 Credits
Dynamic response of fixed and compliant structures to wind, wave and current loading; Morison equation and diffraction theory for wave and current load modeling, time and frequency domain solution methods; application of spectral and time series analyses; system parameter identification; and stochastic analysis of fatigue and response to extreme loads. Offered alternate years.

CE 640, SELECTED TOPICS IN OCEAN AND COASTAL ENGINEERING, 1-3 Credits
Selected topics on contemporary problems in ocean and coastal engineering; application of ongoing research from resident and visiting faculty. Offered alternate years.
This course is repeatable for 9 credits.
Recommended: CE 630
CE 642, RANDOM WAVE MECHANICS, 3 Credits
Random wave theories, probability and statistics of random waves and wave forces, time series analyses of stochastic processes, ocean wave spectra. Offered alternate years.
Prerequisite: CE 630 with C or better

CE 643, COASTAL ENGINEERING, 3 Credits
Coastal sediment transport including nearshore currents, longshore onshore-offshore transport, and shoreline configuration; equilibrium beach profile concept with application to shore protection; shoreline modeling; tidal inlet hydrodynamics and inlet stabilization; design criteria for soft structures. Offered alternate years.
Prerequisite: CE 630 with C or better

CE 645, WAVE FORCES ON STRUCTURES, 3 Credits
Wave forces on small and large members, dimensional analyses and scaling of equations, identification and selection of force coefficients for Morison equation; compatibility of wave kinematics and force coefficients in Morison equation, diffraction and radiation of surface gravity waves by large floating bodies, wavemaker problem, and reciprocity relations.
Prerequisite: CE 630 with C or better

CE 647, OCEAN AND COASTAL ENGINEERING MEASUREMENTS, 3 Credits
Hands-on experience in the conduct of field and laboratory observations, including waves, currents, wind, tides, tsunami, sediments, bathymetry, shore profiles, wave forces on structures, and structural response. Online data archival and retrieval systems.
Prerequisite: CE 630 with C or better

CE 661, KINEMATIC POSITIONING AND NAVIGATION, 3 Credits
Application of Global Navigation Satellite System (GNSS) aided Inertial Navigation Systems (INS) to directly georeference data acquired from a moving platform, such as an unmanned aircraft system (UAS), conventional aircraft, survey boat, or all-terrain vehicle. Topics include 3D coordinate transformations, dead-reckoning, inertial navigation, kinematic GNSS, Kalman filtering, and sensor modeling.
Recommended: Undergraduate surveying course, such as CE 361, CE 263 or FE 208, and some exposure to MATLAB

CE 663, GEODESY, 4 Credits
Covers the geometrical aspects of terrestrial and celestial reference systems as well as modern realizations of these coordinate systems. In addition, an introductory level of the physical geodesy is also included, such as gravitational and gravity fields in order to deal with the geoid and heights. From this course, students are expected to understand the core elements of geometric and physical earth, which will assist them to have a solid background for other geospatial related studies.
Recommended: CE 202 or CE 361

CE 808, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.
CSSA 515, ADVANCED RESEARCH LITERATURE REVIEW, 3 Credits
Provides graduate students with knowledge and experience in the advanced literature review process including construction of the literature review as product. One of the primary skills graduate students must master is advanced review of a body of literature for the research project. Mastery of the literature review process influences quality and sophistication of claims developed to justify research, with the written review clearly delineating the unique contribution of the student’s research and the knowledge gap that it fills. The literature review as a product is a strong written argument that builds a case from credible evidence based on previous research. CROSSTLISTED as ANTH 515/ CSSA 515/ES 515/WGSS 515.
Equivalent to: ANTH 515, ES 515, WGSS 515

CSSA 520, MULTICULTURAL ISSUES IN HIGHER EDUCATION, 3 Credits
Developing understanding, knowledge, and skills of multiculturalism affecting the student affairs profession and careers in student affairs administration.
Equivalent to: AHE 520
Available via Ecampus

CSSA 530, FUNDAMENTALS OF COUNSELING, 3 Credits
Explores basic helping skills and processes appropriate in a variety of settings, specifically within the higher education arena. Instruction will focus on a variety of counseling skills and techniques through videotape and role plays. Course activities will explore ethical standards of conduct, multicultural considerations and competencies, and engage in discussions of counseling issues within higher education.
Equivalent to: COUN 530
Available via Ecampus

CSSA 535, TRAGEDY AND CRISIS MANAGEMENT IN HIGHER EDUCATION, 3 Credits
Introduction to the history of major incidents of college and university tragedies and best practices for preventing and responding to these crisis situations.
Available via Ecampus

CSSA 548, AMERICAN HIGHER EDUCATION, 3 Credits
The origins and development of higher education in the United States from the colonial colleges to the present.
Equivalent to: AHE 548
Available via Ecampus

CSSA 549, GLOBALIZATION IN HIGHER EDUCATION, 3 Credits
Exposes students to the multifaceted nature of global education by exploring Globalization/internationalization as it relates not only to student affairs, but to the greater higher education setting.
Available via Ecampus

CSSA 551, PROGRAMS AND FUNCTIONS IN COLLEGE STUDENT SERVICES, 3 Credits
Historical, philosophical, and organizational foundations; operational components and functional areas; overview and analysis of college student services in postsecondary educational institutions; leadership development.
Equivalent to: AHE 551
Available via Ecampus

CSSA 552, STUDENT DEVELOPMENT IN UNIVERSITIES AND COLLEGES, 3 Credits
Theoretical and philosophical foundations of student development; analysis of college student characteristics and the student culture; nontraditional student subgroups; student attitudes, values, and beliefs; concepts and models that promote student learning; and assessment of student growth.
Equivalent to: AHE 552
This course is repeatable for 6 credits.
Available via Ecampus

CSSA 553, STUDENT DEVELOPMENT IN UNIVERSITIES AND COLLEGES II, 3 Credits
Gain a deeper understanding of adult student populations and development theory (specifically, cognitive theories and typologies) and its application to practice.
Available via Ecampus

CSSA 554, LEGAL ISSUES IN HIGHER EDUCATION, 3 Credits
A comprehensive presentation and discussion of the law governing administration within public colleges and universities with a special emphasis on tort liability and freedom of expression.
Equivalent to: AHE 554
Available via Ecampus

CSSA 557, PROFESSIONAL DEVELOPMENT IN COLLEGE STUDENT SERVICES, 1 Credit
Self-assessment, goal setting, professional growth, and professional ethics as a practitioner in college student services administration. Graded P/N.
Equivalent to: AHE 557
Available via Ecampus

CSSA 558, ORGANIZATION AND ADMINISTRATION OF COLLEGE STUDENT SERVICES, 3 Credits
Legal foundations, governance models, planning, and goal setting, resource acquisition and allocation, personnel and financial management and administrative leadership.
Equivalent to: AHE 558
Available via Ecampus
CSSA 559, CSSA TRANSITIONS, 3 Credits
First-term CSSA students will explore issues of professional transition, orientation and acculturation, including: foundational professional values that inform student affairs work; student affairs professional associations; student affairs research and scholarship; social justice in higher education; and approaches to self-care and professional well-being.
Available via Ecampus

CSSA 574, BUDGET AND FINANCE, 3 Credits
Introduces budget and finance in student services. Covers topics which student affairs practitioners should be familiar, able to use, and to assess.
Equivalent to: AHE 574
Available via Ecampus

CSSA 575, INTRODUCTION TO COMMUNITY COLLEGES, 3 Credits
Develops a baseline understanding of key community college concepts. Explores an overview of history and mission, culture, governance, funding, student demographics, academic programs, and student support services.

CSSA 580, ACADEMIC ADVISING, 2 Credits
Provides an introduction to academic advising as a profession and an essential component of quality higher education. Examines the history, theory, core values and practices that encompass this dynamic functional area and considers how advising skill sets play out in other student services areas.

CSSA 599, SPECIAL TOPICS, 1-16 Credits
Equivalent to: AHE 599, ED 599
This course is repeatable for 16 credits.
Available via Ecampus

Communication (COMM)

COMM 111, *PUBLIC SPEAKING, 3 Credits
Public communication as it relates to informative and persuasive discourse. The theory and practice of public speaking in informative and persuasive contexts. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech
Equivalent to: COMM 111H
Available via Ecampus

COMM 111H, *PUBLIC SPEAKING, 3 Credits
Public communication as it relates to informative and persuasive discourse. The theory and practice of public speaking in informative and persuasive contexts. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech; HNRS – Honors Course Designator
Equivalent to: COMM 111

COMM 114, *ARGUMENT AND CRITICAL DISCOURSE, 3 Credits
Examination of argumentation as a part of human interaction and investigation. The course emphasizes the processes by which people give reasons to gain adherence and to justify beliefs and actions. The course includes readings, writing, and presentations concerned with the nature of arguments, processes of arguing, and argument criticism. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech
Equivalent to: COMM 114H

COMM 114H, *ARGUMENT AND CRITICAL DISCOURSE, 3 Credits
Examination of argumentation as a part of human interaction and investigation. The course emphasizes the processes by which people give reasons to gain adherence and to justify beliefs and actions. The course includes readings, writing, and presentations concerned with the nature of arguments, processes of arguing, and argument criticism. Lec/rec. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech; HNRS – Honors Course Designator
Equivalent to: COMM 114

COMM 180, INTRODUCTION TO THE RHETORIC OF THE FILM, 3 Credits
The motion picture from prephotographic eras to the present; individuals responsible for major advances in theory and technique. The motion picture and social influence. Films viewed for discussion and analysis. Film fee required.

COMM 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 211, *COMMUNICATING ONLINE, 3 Credits
In our increasingly technological world, we use mediated communication to build relationships. Introduces students to the theoretical and practical dimensions on online communication in order to facilitate more informed analysis and performance of online communication as a means of developing both interpersonal and public relationships. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech
Available via Ecampus

COMM 218, *INTERPERSONAL COMMUNICATION, 3 Credits
Introduction to dyadic and relational communication. Overview of current research in such areas as verbal and nonverbal messages, self-concept and perception, culture and gender stereotypes and styles, relational development and dissolution, deception, compliance gaining and conflict management. (Bacc Core Course)
Attributes: CSW3 – Core, Skills, Speech
Equivalent to: COMM 218H
Available via Ecampus
COMM 221, FORENSICS, 3 Credits
Laboratory experience in debate, public speaking, and interpretation of literature. Preparation for intercollegiate debate and forensics participation.

COMM 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 312, ADVANCED PUBLIC SPEAKING, 3 Credits
Advanced theory and practice in public speaking. Simulated public speaking situations, audience analysis, and rhetorical strategies will be emphasized. Students will prepare and present a variety of public speeches.
Prerequisite: COMM 111 with D- or better or COMM 111H with D- or better or COMM 114 with D- or better or COMM 114H with D- or better

COMM 314, ARGUMENTATION, 3 Credits
Concepts and processes of argumentation, systems of logic, critical analysis of contemporary efforts to influence. Examination of arguing to gain adherence and argumentation as a way of knowing. Development of cases and argument briefs for presentation. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: COMM 114 with D- or better or COMM 114H with D- or better

COMM 316, ADVANCED PERSUASION, 3 Credits
Advanced theory and practice in persuasion, with evidence on social and behavioral science research. Examination of the cognitive and affective aspects of persuasion, focusing particularly on the audience. Consideration of persuasion in interpersonal relations, organizations, public advocacy, and public relations. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: COMM 111

COMM 318, ADVANCED INTERPERSONAL COMMUNICATION, 3 Credits
Advanced theory and practice in communication in interpersonal relations. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: COMM 218 with D- or better or COMM 218H with D- or better
Available via Ecampus

COMM 320, INTRODUCTION TO RHETORICAL THEORY, 3 Credits
Introduction to the basic theories of rhetoric, as well as the background of rhetoric as a discipline in speech communication. (H)
Attributes: LACH – Liberal Arts Humanities Core

COMM 321, INTRODUCTION TO COMMUNICATION THEORY, 3 Credits
Introduction to 20th century models, theories, and empirical research programs in communication. Survey of selected theories and social scientific methods across diverse contexts in communication. (SS)
Attributes: LACS – Liberal Arts Social Core

COMM 322, SMALL-GROUP PROBLEM SOLVING, 3 Credits
Theory and practice of small-group decision making. Group processes of problem solving and decision by consensus. The history and role of group problem solving in a democratic society. Group power, leadership, and roles. Experience with problems of fact, value, and policy. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 218

COMM 323, COMMUNITY DIALOGUE, 4 Credits
Examination of the nature and role of community dialogue in formal and informal social scenes in which participants communicate differing perspectives, values and beliefs. Taught at OSU-Cascades only.

COMM 324, COMMUNICATION IN ORGANIZATIONS, 3 Credits
Examination of the nature and role of communication in formal and informal organizations. Introductory survey of central issues in the study of organizations, including corporate communication, leadership, organizational effectiveness, power, organizational culture, management styles, organizational conflict, and decision making. (SS)
Attributes: LACS – Liberal Arts Social Core

COMM 325, COMMUNICATING LEADERSHIP, 4 Credits
Theory and practice of communicating leadership. Communication processes of facilitating productive climates, innovative and creative leading, and goal-oriented community leading. Offered at OSU-Cascades only.

COMM 326, INTERCULTURAL COMMUNICATION, 3 Credits
Perspectives, theories, and experiences of communication in intercultural, cross-cultural, and pan-cultural relations. (SS)
Attributes: LACS – Liberal Arts Social Core

COMM 328, NONVERBAL COMMUNICATION, 3 Credits
The study of human communication behavior that transcends the spoken and written word; nondiscursive symbolism. The course examines the relationship between nonverbal and verbal communication behavior and nonverbal communication skill development. Topics addressed include space, distance, the environment, touch, gesture, facial expression, and gaze as communication. (SS)
Attributes: LACS – Liberal Arts Social Core
Available via Ecampus

COMM 332, FAMILY COMMUNICATION, 3 Credits
How various elements of communication impact familial relationships. Two main discussions: general communication patterns in the family, and various understudied types of family relationships. Provides students with insights into past familial experiences and skills for future family relationships.
Prerequisite: COMM 218 with D or better
COMM 350, DEBATE AND FORENSICS WORKSHOP, 1-3 Credits
Laboratory experience in debate, public speaking, and interpretation of literature. Preparation for intercollegiate debate and forensics participation. This course is repeatable for 15 credits.

COMM 368, PROPAGANDA AND SOCIAL CONTROL, 3 Credits
Case studies, examples, and analyses of direct and indirect influences upon thought, belief, and action involving mass media of communication, including film, theatre, radio, television, posters, and art objects. Historical approach using film, tape, and recordings for student analysis and discussion. (SS)
Attributes: LACS – Liberal Arts Social Core
Available via Ecampus

COMM 372, VISUAL RHETORIC, 3 Credits
The course will survey the major theories of semiotics. Using semiotics as a foundation, students will explore the nature of the rhetoric of the visual image. (H)
Attributes: LACH – Liberal Arts Humanities Core

COMM 380, IMAGE AND MYTH IN FILM, 3 Credits
Film as a medium for creating, reflecting, and defining values, roles, styles, conflicts, problems, strategies, expectations, and institutions in American life. Various methods of analysis and evaluation are applied to film as an agent and artifact. Film images of the frontier, war, women, men, justice, America, progress, and beauty are explored. Film fee required. (H)
Attributes: LACH – Liberal Arts Humanities Core

COMM 385, COMMUNICATION AND CULTURE IN CYBERSPACE, 3 Credits
Covers history and culture of the Internet, as well as social, political, and economic issues of computer-mediated communication. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

COMM 388, SOCIAL MEDIA AND INTERPERSONAL RELATIONSHIPS, 3 Credits
Examines how individuals build and maintain close relationships through new media and social networks. Currently, scholars are seeing a shift in how individuals self-report building close relationships, as people use elements of new media more and more frequently. Designed to look into the similarities and differences of these relationships as compared to face-to-face relationships. CROSSLISTED as COMM 388/NMC 388.
Equivalent to: NMC 388
Available via Ecampus

COMM 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

COMM 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

COMM 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

COMM 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

COMM 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

COMM 410, COMMUNICATION INTERNSHIP, 1-16 Credits
An assignment in a private or public business or agency. The student observes or works in one or more departments of the enterprise, perhaps in one area of interest or specialization (e.g., public relations, training, personnel, research and planning). Work is supervised by the agency staff, supervising school faculty member(s) provide academic evaluation. 12 credits maximum. This course is repeatable for 12 credits.
Recommended: Minimum of 21 credits

COMM 412, TOPICS IN SPEECH COMMUNICATION, 3 Credits
Contemporary issues in speech communication: appraisal and discussion of current theories, trends, research methods, problems, or applications.
This course is repeatable for 9 credits.
Recommended: 9 credits of speech communication.

COMM 414, COMMUNICATION RESEARCH METHODS, 3 Credits
Communication research and its relationship to theory. Quantitative and qualitative methods of investigation in speech communication. Experimental and non-experimental research design; naturalistic observation; issues of reliability and validity; statistical analysis. Standards and principles of writing and reporting research.
Prerequisite: COMM 321 with D- or better

COMM 416, ETHNOGRAPHY OF COMMUNICATION, 3 Credits
Study and practice of using ethnography of communication as a research method for developing theory in communication studies; topics include data collection, analysis, and writing ethnographic reports. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: COMM 321 with D- or better
COMM 418, "INTERPERSONAL COMMUNICATION THEORY AND RESEARCH, 3 Credits
Current theory, research, and practice in interpersonal communication. Issues addressed may include compliance gaining, nonverbal behavior, family communication, gender issues, impression formation, rules, and human relations. (SS) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACS – Liberal Arts Social Core
Prerequisite: COMM 321 with D- or better

COMM 422, "SMALL-GROUP COMMUNICATION THEORY AND RESEARCH, 3 Credits
Current theory, research, and practice in communication and small-group communication. Issues addressed may include leadership, decision making, problem solving, training, and human relations. (SS) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACS – Liberal Arts Social Core
Prerequisite: COMM 321 with D- or better

COMM 425, COMMUNICATION AND YOUTH OUTREACH, 4 Credits
Examines the role of communication outreach when working with youth. Study and examination of applied youth communication theory and research. Topics may include establishing communication boundaries, communicating identity, anti-smoking and anti-drug campaigns, social exclusion, effects of media, and pro-social communication. Students are required to volunteer in a youth context coordinated by the instructor. Taught only on the OSU-Cascades Campus.

COMM 426, INTERCULTURAL COMMUNICATION: THEORIES AND ISSUES, 3 Credits
Advanced study in intercultural communication theoretical developments and research directions. Topics addressed may include intercultural research methods, training, language and culture, acculturation, and intercultural effectiveness. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: COMM 321 with D- or better and COMM 326 [D-]

COMM 427, CULTURAL CODES IN COMMUNICATION, 3 Credits
Study and examination of the contextualized use of communication within speech communities and cultures; topics include the cultural patterning of communication and cultural communication theory.

COMM 430, THEORETICAL ISSUES IN COMMUNICATION INQUIRY, 3 Credits
Review of conceptual, philosophical, ontological, epistemological, and methodological issues in the development of theories in human communication; application to contemporary, empirical human communication research. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: COMM 321 with D- or better

COMM 432, GENDER AND COMMUNICATION, 3 Credits
Investigation of impact of sex and gender on communication in conflict, decision-making, leadership, nonverbal messages, language, and interpersonal relationships. Focus on definitions of sex and gender in regard to knowledge, social constructs, and self-development.
Prerequisite: COMM 321 with D- or better
Equivalent to: COMM 432H

COMM 435, SCIENTIFIC, TECHNICAL, & PROFESSIONAL COMMUNICATION CAPSTONE, 1 Credit
Complete a portfolio comprised of material generated throughout previous courses in the Certificate in Scientific, Technical, and Professional Communication. CROSSLISTED as COMM 435/WR 435.
Equivalent to: WR 435
Recommended: Completion of 18 credits towards the Scientific, Technical and Professional Communication Certificate

COMM 437, HEALTH COMMUNICATION, 3 Credits
This class is designed to unpack various elements of how communication impacts health, and vice versa. There are three main sections to this course: 1) discussing doctor-patient communication, 2) discussing the effects of health campaigns, and 3) discussing the link between communication and both psychological and physiological health.

COMM 440, THEORIES OF CONFLICT AND CONFLICT MANAGEMENT, 3 Credits
Conflict on a variety of levels: intrapersonal, interpersonal, group, public, and social. Conflict in a variety of contexts: relationships, family, organizations, community, and society. Constructive and destructive means of confronting and managing conflict; social and psychological aspects of conflict; conflict analysis; causes of conflict; conflict and peace, social order, and social change; case studies of conflict. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 321

COMM 442, BARGAINING AND NEGOTIATION PROCESSES, 3 Credits
Theory and practice of bargaining and negotiation as means of settling disputes, with emphasis on the role of communication. Strategies and tactics of distributive and integrative bargaining orientations. Negotiation preparation and experience through case studies and simulations. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 321

COMM 444, THIRD PARTIES IN DISPUTE RESOLUTION: MEDIATION AND ARBITRATION, 3 Credits
Philosophies, strategies, practices, and characteristics of mediation and arbitration processes in the settlement of conflicts and disputes. Study of the role of the third party neutral in the peace making process. Case studies and simulations in mediation and arbitration. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 321
COMM 446, *COMMUNICATION IN INTERNATIONAL CONFLICT AND DISPUTES, 3 Credits
Examination of the nature of international conflicts and disputes and the roles culture and communication play in resolving them constructively. Analysis of negotiation, mediation, and international law as approaches to dealing with international political, economic, cultural, and religious disputes. Scrutiny of contemporary world conflicts. (SS) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACS – Liberal Arts Social Core
Recommended: COMM 321

COMM 454, ADVANCED ARGUMENTATION, 3 Credits
Advanced study in classical and current theories of the persuasive and epistemological functions of argumentation. Examination of the dominant contemporary theorists, including Toulmin, Perelman, and Willard. Analysis of research and applied perspectives, including conversational argument, argument fields, the philosophy of argument, argument as rhetoric, and argument in contexts. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 458, ^RHETORIC: 500 BC TO 1900, 3 Credits
History and philosophy of rhetorical principles. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 459, ^CONTEMPORARY THEORIES OF RHETORIC, 3 Credits
A survey of contemporary rhetorical theories from 1900 to the present. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 460, RHETORIC OF REVOLUTIONARIES AND REACTIONARIES: 1750 TO 1900, 3 Credits
Speech criticism; great American speakers, relation of their speaking to the history of ideas; rhetoric and political, social, and religious movements. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 462, RHETORIC OF REVOLUTIONARIES AND REACTIONARIES: 1900-PRESENT, 3 Credits
Speech criticism; great American speakers; relation of their speaking to the history of ideas; rhetoric and political, social, and religious movements. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 464, RHETORICAL CRITICISM, 3 Credits
Explores the approaches to the criticism of rhetoric, including aesthetic, social movement, genre, feminist, and other modes of criticism.
Prerequisite: COMM 320 with D- or better

COMM 466, ETHICS OF RHETORIC, 3 Credits
Examines the ethical questions raised by the use of persuasive discourse, including the derivation of standards of ethical persuasion and approaches to ethical judgment about persuasion. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: COMM 320 with D- or better

COMM 470, HISTORY OF SPEECH COMMUNICATION, 3 Credits
Examines the theories and practices involved in the development of speech communication as a field and a discipline, with a special emphasis on the central roles played by rhetorical theory and criticism.
Prerequisite: COMM 320 with D- or better and COMM 321 [D-]

COMM 472, THE RHETORIC OF POPULAR CULTURE, 3 Credits
A survey of theories of popular culture from Arnold to Hall. Students will examine various artifacts of popular culture and the influences they exert. (H)
Attributes: LACH – Liberal Arts Humanities Core

COMM 476, ISSUES IN THE FREEDOM OF SPEECH, 3 Credits
Examination of the theories of free expression and case materials related to tests of free speech in key U.S. Supreme Court cases. The course emphasizes the context of social and political movements from which the cases arise. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: COMM 320

COMM 478, POLITICAL CAMPAIGN RHETORIC, 3 Credits
Theory, research and methods of political campaign rhetoric. Topics include rhetorical strategies and tactics in advertising, national conventions, broadcast debates, media coverage and public opinion polls. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: COMM 320
COMM 482, THE MEDIA IN CULTURE AND SOCIETY, 3 Credits
The study of the societal-cultural impact on the media, and their effect upon individuals, social, cultural, political, economic, and leisure structures and systems. Special focus on the issues of media in shaping values, molding opinions, and reflecting/projecting attitudes, beliefs, and behaviors, including media’s role in racial, gender, and familial relations. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 280

COMM 484, MEDIA CRITICISM, 3 Credits
A critical examination of the media analysis of content, forms and deployment of media messages and products. A critical study of the structure, functions and economics of media systems. A consideration of media ethics and responsibilities in relation to news and information, entertainment, advertising and marketing, and social-cultural influence. (SS)
Attributes: LACS – Liberal Arts Social Core
Recommended: COMM 280

COMM 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

COMM 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

COMM 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

COMM 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

COMM 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

COMM 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

COMM 510, COMMUNICATION INTERNSHIP, 1-12 Credits
An assignment in a private or public business or agency. The student observes or works in one or more departments of the enterprise, perhaps in one area of interest or specialization (e.g., public relations, training, personnel, research and planning). Work is supervised by the agency staff, supervising school faculty member(s) provide academic evaluation. 12 credits maximum. Graded P/N. This course is repeatable for 12 credits.

COMM 512, TOPICS IN SPEECH COMMUNICATION, 3 Credits
Contemporary issues in speech communication: appraisal and discussion of current theories, trends, research methods, problems, or applications. This course is repeatable for 9 credits. Recommended: 9 credits of speech communication.

COMM 514, COMMUNICATION RESEARCH METHODS, 3 Credits
Communication research and its relationship to theory. Quantitative and qualitative methods of investigation in speech communication. Experimental and non-experimental research design; naturalistic observation; issues of reliability and validity; statistical analysis. Standards and principles of writing and reporting research. Recommended: COMM 321

COMM 516, ETHNOGRAPHY OF COMMUNICATION, 3 Credits
Study and practice of using ethnography of communication as a research method for developing theory in communication studies; topics include data collection, analysis, and writing ethnographic reports. Recommended: COMM 321

COMM 517, RESEARCH METHODS IN COMMUNICATION, 3 Credits
Introduction to the structure, process, and logic of quantitative empirical research in communication. Topics include research design, measurement, methodology, and descriptive statistics. Think of this as a skills course, where you are going to learn how to understand, critique, and design quantitative methodological approaches. Note that this course is rigorous, and will hopefully challenge you to better understand how research applies to your life outside of the classroom.

COMM 518, INTERPERSONAL COMMUNICATION THEORY AND RESEARCH, 3 Credits
Current theory, research, and practice in interpersonal communication. Issues addressed may include compliance gaining, nonverbal behavior, family communication, gender issues, impression formation, rules, and human relations. Recommended: COMM 321

COMM 520, INTRODUCTION TO GRADUATE STUDY IN SPEECH COMMUNICATION, 3 Credits
Introductory graduate seminar in the field of communication. Emphasis on the breadth and depth of the discipline, graduate study, and research directions.
COMM 522, SMALL-GROUP COMMUNICATION THEORY AND RESEARCH, 3 Credits
Current theory, research, and practice in communication and small-group communication. Issues addressed may include leadership, decision making, problem solving, training, and human relations.
Recommended: COMM 321

COMM 524, COMMUNICATION IN ORGANIZATIONS: THEORIES AND ISSUES, 3 Credits
Analysis of human interaction within the informal and formal systems of organizations. Theory, research, and practice relevant to the analysis of the nature and role of communication within small, mid-range and highly complex organizations. The course addresses structural, functional, and cultural features of communication in organizational environments.

COMM 526, INTERCULTURAL COMMUNICATION: THEORIES AND ISSUES, 3 Credits
Advanced study in intercultural communication theoretical developments and research directions. Topics addressed may include intercultural research methods, training, language and culture, acculturation, and intercultural effectiveness.
Recommended: COMM 321 and COMM 326

COMM 527, CULTURAL CODES IN COMMUNICATION, 3 Credits
Study and examination of the contextualized use of communication within speech communities and cultures; topics include the cultural patterning of communication and cultural communication theory.

COMM 530, THEORETICAL ISSUES IN COMMUNICATION INQUIRY, 3 Credits
Review of conceptual, philosophical, ontological, epistemological, and methodological issues in the development of theories in human communication; application to contemporary, empirical human communication research.
Recommended: COMM 321

COMM 532, GENDER AND COMMUNICATION, 3 Credits
Investigation of impact of sex and gender on communication in conflict, decision-making, leadership, nonverbal messages, language, and interpersonal relationships. Focus on definitions of sex and gender in regard to knowledge, social constructs, and self-development.
Recommended: COMM 321

COMM 537, HEALTH COMMUNICATION, 3 Credits
This class is designed to unpack various elements of how communication impacts health, and vice versa. There are three main sections to this course: 1) discussing doctor-patient communication, 2) discussing the effects of health campaigns, and 3) discussing the link between communication and both psychological and physiological health.

COMM 540, THEORIES OF CONFLICT AND CONFLICT MANAGEMENT, 3 Credits
Conflict on a variety of levels: intrapersonal, interpersonal, group, public, and social. Conflict in a variety of contexts: relationships, family, organizations, community, and society. Constructive and destructive means of confronting and managing conflict; social and psychological aspects of conflict; conflict analysis; causes of conflict; conflict and peace, social order, and social change; case studies of conflict.
Recommended: COMM 321

COMM 542, BARGAINING AND NEGOTIATION PROCESSES, 3 Credits
Theory and practice of bargaining and negotiation as means of settling disputes, with emphasis on the role of communication. Strategies and tactics of distributive and integrative bargaining orientations. Negotiation preparation and experience through case studies and simulations.
Recommended: COMM 321

COMM 544, THIRD PARTIES IN DISPUTE RESOLUTION: MEDIATION/ARBITRATION, 3 Credits
Philosophies, strategies, practices, and characteristics of mediation and arbitration processes in the settlement of conflicts and disputes. Study of the role of the third party neutral in the peace making process. Case studies and simulations in mediation and arbitration.
Recommended: COMM 321

COMM 546, COMMUNICATION IN INTERNATIONAL CONFLICT AND DISPUTES, 3 Credits
Examination of the nature of international conflicts and disputes and the roles culture and communication play in resolving them constructively. Analysis of negotiation, mediation, and international law as approaches to dealing with international political, economic, cultural, and religious disputes. Scrutiny of contemporary world conflicts.
Recommended: COMM 321

COMM 550, COMMUNICATION AND THE PRACTICE OF SCIENCE, 3 Credits
Communication is central to science-based decision-making, the function of science teams, the reporting and critique of scientific knowledge, and the interface between science and policy making. This seminar emphasizes communication competence in the arena of applied science; that is, science as practiced in government agencies, private corporations, and nonprofit organizations.

COMM 554, ADVANCED ARGUMENTATION, 3 Credits
Advanced study in classical and current theories of the persuasive and epistemological functions of argumentation. Examination of the dominant contemporary theorists, including Toulmin, Perelman, and Willard. Analysis of research and applied perspectives, including conversational argument, argument fields, the philosophy of argument, argument as rhetoric, and argument in contexts.
Recommended: COMM 320
COMM 556, RHETORIC: 500 BC TO 500 AD, 3 Credits
History and philosophy of rhetorical principles.
Recommended: COMM 320

COMM 558, RHETORIC: 500 AD TO 1900, 3 Credits
History and philosophy of rhetorical principles.
Recommended: COMM 320

COMM 559, CONTEMPORARY THEORIES OF RHETORIC, 3 Credits
A survey of contemporary rhetorical theories from 1900 to the present.
Recommended: COMM 320

COMM 560, RHETORIC OF REVOLUTIONARIES AND REACTIONARIES: 1750 TO 1900, 3 Credits
Speech criticism; great American speakers; relation of their speaking to the history of ideas; rhetoric and political, social, and religious movements.
Recommended: COMM 320

COMM 562, RHETORIC OF REVOLUTIONARIES AND REACTIONARIES: 1900-PRESENT, 3 Credits
Speech criticism; great American speakers; relation of their speaking to the history of ideas; rhetoric and political, social, and religious movements.
Recommended: COMM 320

COMM 564, RHETORICAL CRITICISM, 3 Credits
Explores the approaches to the criticism of rhetoric, including aesthetic, social movement, genre, feminist, and other modes of criticism.
Recommended: COMM 320

COMM 565, RESEARCH METHODS IN RHETORIC, 3 Credits
A graduate-level introduction to research methods in rhetorical studies. Topics include rhetorical criticism, discourse analysis, and historiography. Course goals include the ability to understand and critique common methodological approaches in rhetorical studies.

COMM 566, ETHICS OF RHETORIC, 3 Credits
Examines the ethical questions raised by the use of persuasive discourse, including the derivation of standards of ethical persuasion and approaches to ethical judgment about persuasion.
Recommended: COMM 320

COMM 572, THE RHETORIC OF POPULAR CULTURE, 3 Credits
A survey of theories of popular culture from Arnold to Hall. Students will examine various artifacts of popular culture popular culture and the influences they exert.

COMM 576, ISSUES IN THE FREEDOM OF SPEECH, 3 Credits
Examination of the theories of free expression and case materials related to tests of free speech in key U.S. Supreme Court cases. The course emphasizes the context of social and political movements from which the cases arise.
Recommended: COMM 320

COMM 578, POLITICAL CAMPAIGN RHETORIC, 3 Credits
Theory, research and methods of political campaign rhetoric. Topics include rhetorical strategies and tactics in advertising, national conventions, broadcast debates, media coverage and public opinion polls.
Recommended: COMM 320

COMM 584, MEDIA CRITICISM, 3 Credits
A critical examination of the media analysis of content, forms and deployment of media messages and products. A critical study of the structure, functions and economics of media systems. A consideration of media ethics and responsibilities in relation to news and information, entertainment, advertising and marketing, and social-cultural influence.
Recommended: COMM 280

COMM 590, GRADUATE SEMINAR IN RHETORIC, 3 Credits
Examines topics dealing with the current state of research in rhetorical studies. This includes discussing a number of approaches to the history, theory and criticism of rhetoric, as well as to the relationship between rhetoric and related disciplines. Course goals include increased competence in understanding the current state of rhetorical theory and research in the area being explored.
This course is repeatable for 9 credits.

COMM 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

COMM 808, WORKSHOP, 1-16 Credits
Through reading, dialogue, reflection, and appreciative inquiry, participants will become more aware of our differences and similarities from an intercultural perspective. Through study and practice, participants will develop skills to more effectively communicate with culturally different others.
This course is repeatable for 16 credits.

Computer Science (CS)

CS 101, COMPUTERS: APPLICATIONS AND IMPLICATIONS, 4 Credits
The varieties of computer hardware and software. The effects, positive and negative, of computers on human lives. Ethical implications of information technology. Hands-on experience with a variety of computer applications. Lec/lab.
Available via Ecampus
CS 160, COMPUTER SCIENCE ORIENTATION, 3 Credits
Introduction to the computer science field and profession. Team problem solving. Introduction to writing computer programs. Approaches to teaching course topics vary across sections. Lec/lab.
Equivalent to: CS 160H
Available via Ecampus

CS 160H, COMPUTER SCIENCE ORIENTATION, 3 Credits
Introduction to the computer science field and profession. Team problem solving. Introduction to writing computer programs. Approaches to teaching course topics vary across sections. Lec/lab.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 160

CS 161, INTRODUCTION TO COMPUTER SCIENCE I, 4 Credits
Overview of fundamental concepts of computer science. Introduction to problem solving, software engineering, and object-oriented programming. Includes algorithm design and program development. Lec/lab/rec.
Prerequisite: MTH 112 (may be taken concurrently) with C or better or Math Placement Test with a score of 33 or Math Placement - ALEKS with a score of 061
Equivalent to: EECS 161
Available via Ecampus

CS 162, INTRODUCTION TO COMPUTER SCIENCE II, 4 Credits
Basic data structures. Computer programming techniques and application of software engineering principles. Introduction to analysis of programs. Lec/lab/rec.
Prerequisite: CS 161 with C or better or EECS 161 with C or better
Equivalent to: EECS 162
Available via Ecampus

CS 165, ACCELERATED INTRODUCTION TO COMPUTER SCIENCE, 8 Credits
Overview of the fundamental concepts of computer science. Introduction to problem solving, algorithm development, data types, and basic data structures. Introduction to analysis of algorithms and principles of software engineering. System development and computer programming using procedural/object-oriented paradigms. Offered via Ecampus only.
Prerequisite: MTH 112 with C or better or Math Placement Test with a score of 075
Available via Ecampus

CS 195, WEBSITE DESIGN, 4 Credits
How to design and publish a static website using an existing publishing platform: Techniques and tools for designing and publishing on the World Wide Web; hypertext and HTML; site and page design; media integration; issues raised by Internet publishing.
Equivalent to: CS 295

CS 199, SPECIAL TOPICS/COMPUTER SCIENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

CS 201, COMPUTER PROGRAMMING FOR NON-CS MAJORS, 3 Credits
Covers a variety of fundamental topics in computer programming relevant to anyone who wants to write or work with computer code in their work or studies. Teaches basic computational thinking and programming skills which will allow students to solve a variety of real-world problems. In addition, students will learn more advanced topics such as how some basic algorithms work and can be written in computer code.
Prerequisite: MTH 111 with C- or better
Available via Ecampus

CS 225, DISCRETE STRUCTURES IN COMPUTER SCIENCE, 4 Credits
An introduction to the discrete mathematics of computer science, including logic, set and set operations, methods of proof, recursive definitions, combinatorics, and graph theory. (Note: Students may take either MTH 231 or CS 225, but cannot receive credit for both.)
Prerequisite: MTH 111 with C or better Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 061 or MTH 112 (may be taken concurrently) with C or better
Available via Ecampus

CS 261, DATA STRUCTURES, 4 Credits
Abstract data types, dynamic arrays, linked lists, trees and graphs, binary search trees, hash tables, storage management, complexity analysis of data structures. Lec/rec.
Prerequisite: (CS 162 with C or better or CS 165 with C or better) and (CS 225 [C] or MTH 231 [C])
Equivalent to: EECS 261
Available via Ecampus

CS 262, PROGRAMMING PROJECTS IN C++, 4 Credits
Learning a second computer programming language. Elements of C++. Object-oriented programming. Experience team work on a large programming project.
Prerequisite: CS 261 with C or better
CS 271, COMPUTER ARCHITECTURE AND ASSEMBLY LANGUAGE, 4 Credits
Introduction to functional organization and operation of digital computers. Coverage of assembly language; addressing, stacks, argument passing, arithmetic operations, decisions, macros, modularization, linkers and debuggers.
Prerequisite: CS 151 with C or better or CS 161 with C or better or CS 165 with C or better
Available via Ecampus

CS 290, WEB DEVELOPMENT, 4 Credits
How to design and implement a multi-tier application using web technologies: Creation of extensive custom client- and server-side code, consistent with achieving a high-quality software architecture.
Prerequisite: CS 162 with C or better or CS 165 with C or better
Equivalent to: CS 494
Available via Ecampus

CS 295, WEBSITE MANAGEMENT, 4 Credits
How to create and promote a dynamic website using existing frameworks/libraries: Designing, developing, publishing, maintaining, and marketing dynamic websites; web security and privacy issues; emerging web technologies; running a website marketing campaign.
Prerequisite: CS 195 with C or better
Recommended: Basic HTML and CSS

CS 299, SPECIAL TOPICS, 0-4 Credits
This course is repeatable for 99 credits.

CS 312, SYSTEM ADMINISTRATION, 4 Credits
Prerequisite: (CS 311 with C or better or CS 344 with C or better) and CS 372 [C]

CS 321, INTRODUCTION TO THEORY OF COMPUTATION, 3 Credits
Survey of models of computation including finite automata, formal grammars, and Turing machines.
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 321H
Available via Ecampus

CS 321H, INTRODUCTION TO THEORY OF COMPUTATION, 3 Credits
Survey of models of computation including finite automata, formal grammars, and Turing machines.
Attributes: HNRS – Honors Course Designator
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 321

CS 325, ANALYSIS OF ALGORITHMS, 4 Credits
Recurrence relations, combinatorics, recursive algorithms, proofs of correctness.
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 325H
Available via Ecampus

CS 325H, ANALYSIS OF ALGORITHMS, 4 Credits
Recurrence relations, combinatorics, recursive algorithms, proofs of correctness.
Attributes: HNRS – Honors Course Designator
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Equivalent to: CS 325

CS 331, INTRODUCTION TO ARTIFICIAL INTELLIGENCE, 4 Credits
Fundamental concepts in artificial intelligence using the unifying theme of an intelligent agent. Topics include agent architectures, search, games, logic and reasoning, and Bayesian networks.
Prerequisite: CS 325 with C or better or CS 325H with C or better

CS 340, INTRODUCTION TO DATABASES, 4 Credits
Design and implementation of relational databases, including data modeling with ER or UML, diagrams, relational schema, SQL queries, relational algebra, user interfaces, and administration.
Prerequisite: CS 290 with C or better
Equivalent to: CS 275
Available via Ecampus

CS 344, OPERATING SYSTEMS I, 4 Credits
Introduction to operating systems using UNIX as the case study. System calls and utilities, fundamentals of processes and interprocess communication.
Prerequisite: CS 261 with C or better and (CS 271 [C] or ECE 271 [C])
Equivalent to: CS 311
Recommended: Experience programming in the C language
Available via Ecampus

CS 352, INTRODUCTION TO USABILITY ENGINEERING, 4 Credits
Basic principles of usability engineering methods for the design and evaluation of software systems. Includes the study of human-machine interactions, user interface characteristics and design strategies, software evaluation methods, and related guidelines and standards.
Prerequisite: CS 151 with C or better or CS 161 with C or better or CS 165 with C or better or CS 295 with C or better or ECE 151 with C or better
Equivalent to: CS 252
Available via Ecampus
CS 361, SOFTWARE ENGINEERING I, 4 Credits
Introduction to the 'front end' of the software engineering lifecycle; requirements analysis and specification; design techniques; project management.
Prerequisite: CS 261 with C or better
Available via Ecampus

CS 362, SOFTWARE ENGINEERING II, 4 Credits
Introduction to the 'back end' of the software engineering lifecycle implementation; verification and validation; debugging; maintenance.
Prerequisite: CS 261 with C or better
Recommended: Experience with object-oriented programming and data structures (e.g., CS 161, CS 162, CS 361)
Available via Ecampus

CS 370, INTRODUCTION TO SECURITY, 4 Credits
Introductory course on computer security with the objective to introduce concepts and principles of computer systems security. Notions of security, basic cryptographic primitives and their application, basics of authentication and access control, basics of key-management, basics of malware and software security.
Prerequisite: CS 344 (may be taken concurrently) with C or better
Available via Ecampus

CS 372, INTRODUCTION TO COMPUTER NETWORKS, 4 Credits
Computer network principles, fundamental networking concepts, packet-switching and circuit switching, TCP/IP protocol layers, reliable data transfer, congestion control, flow control, packet forwarding and routing, MAC addressing, multiple access techniques. CROSSLISTED as CS 372/ECE 372.
Prerequisite: CS 261 with C or better and (ECE 271 [C] or CS 271 [C])
Equivalent to: ECE 372
Recommended: C programming and Unix familiarity.
Available via Ecampus

CS 373, DEFENSE AGAINST THE DARK ARTS, 4 Credits
Introduction to the current state of the art in anti-malware, computer forensics, and networking, messaging, and web security. Broad introduction to the field of computer security.
Prerequisite: CS 344 with C or better and CS 340 [C] and CS 372 [C]
Available via Ecampus

CS 381, PROGRAMMING LANGUAGE FUNDAMENTALS, 4 Credits
An introduction to the concepts found in a variety of programming languages. Programming languages as tools for problem solving. A brief introduction to languages from a number of different paradigms.
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C])
Available via Ecampus

CS 391, *SOCIAL AND ETHICAL ISSUES IN COMPUTER SCIENCE, 3 Credits
In-depth exploration of the social, psychological, political, and ethical issues surrounding the computer industry and the evolving information society. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: CS 391H, CS 391H
Recommended: CS 101 or computer literacy
Available via Ecampus

CS 391H, *SOCIAL AND ETHICAL ISSUES IN COMPUTER SCIENCE, 3 Credits
In-depth exploration of the social, psychological, political, and ethical issues surrounding the computer industry and the evolving information society. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: CS 391
Recommended: CS 101 or computer literacy

CS 395, WEBSITE MULTIMEDIA, 4 Credits
How to create and deploy interactive digital multimedia through static websites: Technological, aesthetic, and pedagogical issues of communication using interactive multimedia and hypermedia; techniques for authoring interactive multimedia projects using a variety of digital media roots.
Prerequisite: CS 195 with C or better or (ART 120 with C or better and (CS 162 [C] or CS 165 [C]))

CS 399, SPECIAL TOPICS, 0-4 Credits
This course is repeatable for 99 credits.

CS 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

CS 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

CS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CS 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CS 407, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: CS 407H
This course is repeatable for 16 credits.

CS 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 407
This course is repeatable for 16 credits.
CS 410, OCCUPATIONAL INTERNSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

CS 419, SELECTED TOPICS IN COMPUTER SCIENCE, 0-5 Credits
Topics of special and current interest not covered in other courses.
Equivalent to: CS 419H
This course is repeatable for 99 credits.

Available via Ecampus

CS 419H, SELECTED TOPICS IN COMPUTER SCIENCE, 1-5 Credits
Topics of special and current interest not covered in other courses.
Attributes: HNRS – Honors Course Designator
Equivalent to: CS 419
This course is repeatable for 99 credits.

CS 420, GRAPH THEORY WITH APPLICATIONS TO COMPUTER SCIENCE, 3 Credits
Directed and undirected graphs; paths, circuits, trees, coloring, planar graphs, partitioning; computer representation of graphs and graph algorithms; applications in software complexity metrics, program testing, and compiling.
Prerequisite: (CS 325 with C or better or CS 325H with C or better)

CS 427, CRYPTOGRAPHY, 4 Credits
Introduction to the theory and practice of modern cryptography. Fundamental primitives including pseudorandom generators, block ciphers, hash functions. Symmetric-key cryptography for privacy and authenticity. Public-key cryptography based on number-theoretic problems.
Prerequisite: CS 261 with C or better or MTH 355 with C or better
Available via Ecampus

CS 434, MACHINE LEARNING AND DATA MINING, 4 Credits
Introduction to machine learning and data mining algorithms (supervised learning, unsupervised learning, and reinforcement learning) tools that are widely employed in industrial and research settings.
Prerequisite: CS 325 with C or better or CS 325H with C or better

CS 440, DATABASE MANAGEMENT SYSTEMS, 4 Credits
Relational database design, normalization, file structures, disk storage, query processing and optimization, team development of database applications.
Prerequisite: CS 261 with C or better and CS 340 [C]

CS 444, OPERATING SYSTEMS II, 4 Credits
Explores principles of computer operating systems: concurrent processes, memory management, job scheduling, multiprocessing, file systems, performance evaluation, and networking.
Prerequisite: CS 344 with C or better and (CS 271 [C] or ECE 375 [C])
Equivalent to: CS 411

CS 446, NETWORKS IN COMPUTATIONAL BIOLOGY, 3 Credits
Prerequisite: CS 261 with C or better or BOT 476 with C or better
Recommended: Completion or concurrent enrollment in CS 325

CS 447, WIRELESS EMBEDDED SYSTEMS, 4 Credits
A hands-on introduction to programming wireless embedded systems (aka the 'Internet of Things'). Topics include sensors, actuators, state machines, scheduling, wireless communications, time synchronization, localization, fault tolerance, and security related to cyber-physical systems.
Prerequisite: CS 344 with C or better

CS 450, INTRODUCTION TO COMPUTER GRAPHICS, 4 Credits
Theoretical and practical treatment of 3D computer graphics using OpenGL: geometric modeling, transformations, viewing, lighting, texture mapping, shading, rendering, and animation.
Prerequisite: CS 261 with C or better

CS 453, SCIENTIFIC VISUALIZATION, 4 Credits
Applies 3D computer graphics methods to visually understand scientific and engineering data. Methods include hyperbolic projections; mapping scalar values to color spaces; data visualization using range sliders; scalar visualization (point clouds, cutting planes, contour plots, isosurfaces); vector visualization (arrow clouds, particle advection, streamlines); terrain visualization; Delauney triangulation; and volume visualization.
Prerequisite: CS 261 with C or better
Recommended: Prior experience with Unix or Windows, programming experience.

CS 457, COMPUTER GRAPHICS SHADERS, 4 Credits
Theoretical and practical treatment of computer graphics shaders, including both RenderMan and GPU shaders. Programming in both RenderMan and OpenGL shading languages.
Recommended: Previous graphics pipeline programming experience.
CS 458, INTRODUCTION TO INFORMATION VISUALIZATION, 4 Credits
Tools and techniques for designing, developing, and deploying interactive visualizations of abstract data sources. Discusses techniques based on principles from design, cognitive science, and perceptual psychology. Topics include 1D, 2D, 3D, multivariate representations, time-series, graphs and trees, text and documents, and interaction techniques.
Prerequisite: CS 361 with C or better

CS 461, SENIOR SOFTWARE ENGINEERING PROJECT I, 3 Credits
Utilize software engineering methodology in a team environment to develop a real-world application. Teams will be responsible for all phases of software development, including project planning, requirements analysis, design, coding, testing, configuration management, quality assurance, documentation, and delivery. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CS 361 with C or better and CS 325 [C] and CS 362 [C]
Available via Ecampus

CS 462, SENIOR SOFTWARE ENGINEERING PROJECT II, 3 Credits
Utilize software engineering methodology in a team environment to develop a real-world application. Teams will be responsible for all phases of software development, including project planning, requirements analysis, design, coding, testing, configuration management, quality assurance, documentation, and delivery. Three-term sequence required. (Writing Intensive Courses)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CS 362 with C or better and CS 461 [C]

CS 463, SENIOR SOFTWARE ENGINEERING PROJECT, 2 Credits
Utilize software engineering methodology in a team environment to develop a real-world application. Teams will be responsible for all phases of software development, including project planning, requirements analysis, design, coding, testing, configuration management, quality assurance, documentation, and delivery. Three-term sequence required.
Prerequisite: CS 462 with C or better

CS 464, OPEN SOURCE SOFTWARE, 4 Credits
Provides a theoretical foundation of the history, key concepts, technologies, and practices associated with modern Free and Open Source Software (FOSS) projects, and gives students an opportunity to explore and make contributions to FOSS projects with some mentoring and guidance.
Prerequisite: CS 261 with C or better and CS 361 [C]
Available via Ecampus

CS 466, WEB-BASED START-UP PROJECT, 4 Credits
Real-world, hands-on learning in a high-tech web/mobile-based company environment. Research in the development of product ideas, hypotheses, and business models to create customer experiments. Prototyping and statistical analysis to develop, optimize, and evaluate solutions. Rapid iteration/refactoring based on customer input, web analytics, and user engagement metrics. Offered at OSU-Cascades only.
Corequisites: CS 461

CS 467, ONLINE CAPSTONE PROJECT, 4 Credits
Real-world team-based experience with the software engineering design and delivery cycle, including requirements analysis and specification, design techniques, and requirements and final project written documentation. For students in the online CS double-degree program only.
Prerequisite: CS 344 with C or better and CS 361 [C] and CS 362 [C]
Available via Ecampus

CS 468, INCLUSIVE DESIGN (HCI), 4 Credits
Inclusive design is designing software that works for a wide variety of differently abled customers. Teaches the skills needed to design inclusively without having to have a separate design for each differently abled customer.
Prerequisite: CS 352 with C or better
Recommended: CS 565 with a minimum grade of C

CS 472, COMPUTER ARCHITECTURE, 4 Credits
Computer architecture using processors, memories, and I/O devices as building blocks. Issues involved in the design of instruction set architecture, processor, pipelining and memory organization. Design philosophies and trade-offs involved in Reduced Instruction Set Computer (RISC) architectures. Lec/lab. CROSSLISTED as CS 472/ ECE 472 and CS 572/ECE 572.
Prerequisite: ECE 375 with C or better
Equivalent to: CS 470, ECE 472

CS 475, INTRODUCTION TO PARALLEL PROGRAMMING, 4 Credits
Theoretical and practical survey of parallel programming, including a discussion of parallel architectures, parallel programming paradigms, and parallel algorithms. Programming one or more parallel computers in a higher-level parallel language.
Prerequisite: CS 261 with C or better
Available via Ecampus
CS 476, ADVANCED COMPUTER NETWORKING, 4 Credits
Prerequisite: (CS 372 with C or better or ECE 372 with C or better) and (ECE 353 [C] or ST 314 [C] or ST 314H [C])
Equivalent to: ECE 476, EEC 476

CS 477, INTRODUCTION TO DIGITAL FORENSICS, 4 Credits
Introduces concepts related to digital forensics, its role and importance, and tools and techniques for collecting and curating digital evidence. The course will also discuss the role of evidence in the justice system and some legal aspects as they pertain to digital forensics. It will introduce tools and techniques for computer and network forensics.
Prerequisite: CS 344 with C or better and CS 370 [C]
Available via Ecampus

CS 478, NETWORK SECURITY, 4 Credits
Basic concepts and techniques in network security, risks and vulnerabilities, applied cryptography and various network security protocols. Coverage of high-level concepts such as authentication, confidentiality, integrity, and availability applied to networking systems. Fundamental techniques including authentication protocols, group key establishment and management, trusted intermediaries, public key infrastructures, SSL/TLS, IPSec, firewalls and intrusion detection CROSSLISTED as CS 478/ECE 478.
Prerequisite: CS 372 with C or better or ECE 372 with C or better
Equivalent to: ECE 478
Recommended: CS 370
Available via Ecampus

CS 480, TRANSLATORS, 4 Credits
Explores content on the subject of compilers; attribute grammars, syntax-directed translation, lex, yacc, LR(1) parsers, symbol tables, semantic analysis, and peep-hole optimization.
Prerequisite: CS 344 with C or better and CS 381 [C] and (CS 321 [C] or CS 321H [C])

CS 491, COMPUTER SCIENCE SKILLS FOR SIMULATION AND GAME PROGRAMMING, 4 Credits
Game and simulation development is very much a data and math-intensive activity. A certain number of actions must be produced, and producing them by hand is hard. This is a middleware CS course that fills in many of the missing pieces for those wanting to enter the simulation and game development worlds in a software tool-building capacity.
Prerequisite: CS 261 with C or better and (CS 225 [C] or MTH 231 [C]) and MTH 252 [C]

CS 492, MOBILE SOFTWARE DEVELOPMENT, 4 Credits
Introduction to concepts and techniques for developing mobile applications. Students will become familiar with modern mobile structure, implementation, development tools, and workflow.
Prerequisite: CS 344 with C or better
Available via Ecampus

CS 493, CLOUD APPLICATION DEVELOPMENT, 4 Credits
Covers developing RESTful cloud services, an approach based on representational state transfer technology, an architectural style and approach to communications used in modern cloud services development.
Prerequisite: CS 290 with C or better and CS 340 [C] and CS 372 [C]
Available via Ecampus

CS 495, INTERACTIVE MULTIMEDIA PROJECTS, 4 Credits
Students apply principles and procedures of digital art, design, communication, and software authoring while working on large integrated media projects.
Recommended: CS 395

CS 496, MOBILE AND CLOUD SOFTWARE DEVELOPMENT, 4 Credits
Introduction to the concepts and techniques for developing mobile and cloud applications.
Prerequisite: CS 344 with C or better or CS 311 with C or better
Recommended: Working knowledge of at least one operating system

CS 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

CS 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

CS 503, COMPUTER SCIENCE MS THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 20 credits.

CS 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

CS 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

CS 510, OCCUPATIONAL INTERNSHIP, 1-4 Credits
This course is repeatable for 99 credits.
Available via Ecampus
CS 511, PROGRAMMING AND DATA STRUCTURES, 4 Credits
Computer programming, problem solving, data structures, object-oriented programming, recursion, sorting, dynamic programming, asymptotic time complexity
Recommended: College algebra, plus the ability to navigate an operating system, manipulate files, and use a command line.
Available via Ecampus

CS 512, DATA SCIENCE TOOLS AND PROGRAMMING, 4 Credits
Accessing and distributing data in the cloud; relational and non-relational databases; map reduction; cloud data processing; load balancing; types of data-stores used in the cloud.
Recommended: CS 511 or an equivalent course or programming experience in in a high-level language like Python, Java or C++.
Available via Ecampus

CS 515, ALGORITHMS AND DATA STRUCTURES, 4 Credits
Greedy algorithms, divide and conquer, dynamic programming, network flow, data structures.
Recommended: Undergraduate course in algorithms

CS 516, THEORY OF COMPUTATION AND FORMAL LANGUAGES, 4 Credits

CS 517, THEORY OF COMPUTATION, 4 Credits
Turing machines, decidability, NP-completeness, complexity classes, randomized computation, relativization, circuit complexity, interactive proof systems, lower bounds, cryptography.

CS 519, SELECTED TOPICS IN COMPUTER SCIENCE, 0-5 Credits
Topics of special and current interest not covered in other courses. May not be offered every year.
This course is repeatable for 99 credits.
Available via Ecampus

CS 520, GRAPH THEORY WITH APPLICATIONS TO COMPUTER SCIENCE, 3 Credits
Directed and undirected graphs; paths, circuits, trees, coloring, planar graphs, partitioning; computer representation of graphs and graph algorithms; applications in software complexity metrics, program testing, and compiling.
Recommended: CS 325 and MTH 232

CS 523, ADVANCED ALGORITHMS, 4 Credits
Approximation algorithms, randomized and probabilistic algorithms, online algorithms.
Recommended: CS 515

CS 527, ERROR-CORRECTING CODES, 4 Credits
Hamming codes, linear codes, cyclic codes, BCH and Reed-Solomon codes. Introduction to Galois fields. Encoding and decoding algorithms. Burst error correcting codes, asymmetric and unidirectional codes. Applications of codes for computer systems.
Recommended: Discrete math and probability

CS 529, SELECTED TOPICS IN THEORETICAL COMPUTER SCIENCE, 1-5 Credits
Topics of interest in algorithms and theory of computation. Topics include approximation algorithms, planar graph algorithms, distributed algorithms, combinatorial optimization, computational geometry.
This course is repeatable for 99 credits.
Recommended: CS 515

CS 531, ARTIFICIAL INTELLIGENCE, 4 Credits

CS 533, INTELLIGENT AGENTS AND DECISION MAKING, 4 Credits
Recommended: CS 531

CS 534, MACHINE LEARNING, 4 Credits

CS 535, DEEP LEARNING, 4 Credits
Prerequisite: CS 534 with C or better or ROB 537 with C or better
CS 536, PROBABILISTIC GRAPHICAL MODELS, 4 Credits
 Representation of probabilistic graphical models, both directed (Bayesian networks) and undirected (Markov networks). Exact and approximate inference techniques. Parameter and structure learning from data.
 Recommended: Strong programming skills

CS 537, COMPUTER VISION I, 3 Credits
 An introduction to low-level computer vision and visual geometry. Topics of interest include the following: detection of interest points and edges, matching points and edges, color models, projective geometry, camera calibration, epipolar geometry, homography, image stitching, and multiframe target tracking.
 Recommended: Undergraduate-level statistics, probability, calculus, linear algebra, good programming skills, machine learning or AI

CS 539, SELECTED TOPICS IN ARTIFICIAL INTELLIGENCE, 0-5 Credits
 Advanced topics in artificial intelligence. Typical topics include machine learning for sequential and spatial data, knowledge representation and inference, probabilistic modeling of complex systems, data mining and information extraction.
 This course is repeatable for 99 credits.

CS 540, DATABASE MANAGEMENT SYSTEMS, 4 Credits
 Purpose of database systems, levels of data representation. Entity-relationship model. Relational systems: data definition, data manipulation, query language (SQL), relational calculus and algebra, data dependencies and normal forms. DBTG network model. Query optimization, recovery, concurrency control.
 Recommended: CS 261

CS 544, OPERATING SYSTEMS II, 4 Credits
 Principles of computer operating systems: concurrent processes, memory management, job scheduling, multiprocessing, file systems, performance evaluation, and networking. Lec/rec.
 Equivalent to: CS 511
 Recommended: (CS 311 or CS 344) and (CS 271 or ECE 375)

CS 546, NETWORKS IN COMPUTATIONAL BIOLOGY, 3 Credits
 Recommended: Completion or concurrent enrollment in CS 325

CS 549, SELECTED TOPICS ON DATA SCIENCE & SYSTEMS, 0-5 Credits
 Current topics in data science and systems, e.g. querying, inference, and learning over large datasets; reasoning and learning on graph, heterogeneous, and multi-modal data; data curation; knowledge representation; systems for large data exploration and analytics; distributed data systems; human-centered data science; fairness and responsibility in data science.
 This course is repeatable for 99 credits.
 Recommended: CS 540

CS 550, INTRODUCTION TO COMPUTER GRAPHICS, 4 Credits
 Theoretical and practical treatment of 3D computer graphics using OpenGL: geometric modeling, transformations, viewing, lighting, texture mapping, shading, rendering, and animation.
 Recommended: CS 261

CS 551, COMPUTER GRAPHICS, 4 Credits
 3-D graphics hardware: Line and polygon scan conversion, modeling transformations, viewing transformations, matrix stacks, hierarchical models, perspective and orthographic projections, visible surface determination, illumination models, shading models, texture mapping, ray tracing.
 Recommended: CS 450 or CS 550

CS 552, COMPUTER ANIMATION, 4 Credits
 Traditional animation concepts: production pipeline, keyframing implementation, interpolation, point-mass dynamics, spring-mass systems, rigid body dynamics, forward and inverse kinematics, human motion control, motion capture.
 Recommended: CS 551

CS 553, SCIENTIFIC VISUALIZATION, 4 Credits
 Applies 3D computer graphics methods to visually understand scientific and engineering data. Methods include hyperbolic projections; mapping scalar values to color spaces; data visualization using range sliders; scalar visualization (point clouds, cutting planes, contour plots, isosurfaces); vector visualization (arrow clouds, particle advection, streamlines); terrain visualization; Delauney triangulation; and volume visualization.
 Recommended: Prior experience with Unix or Windows, programming experience.

CS 554, GEOMETRIC MODELING IN COMPUTER GRAPHICS, 4 Credits
 Advanced topics in computer graphics focusing on representation and processing of polygonal models and their application. Surface fundamentals; discrete differential geometry and topology; data structures for representing 3-D surfaces; surface subdivision and smoothing; mesh simplification and multi-resolution representation of 3-D surfaces; geometry compression; surface parameterization; geometry remeshing; topological simplification; implicit surfaces.
 Recommended: CS 450
CS 557, COMPUTER GRAPHICS SHADERS, 4 Credits
Theoretical and practical treatment of computer graphics shaders, including both RenderMan and GPU shaders. Programming in both RenderMan and OpenGL shading languages.
Recommended: Previous graphics pipeline programming experience.

CS 559, SELECTED TOPICS IN COMPUTER GRAPHICS AND VISION, 0-5 Credits
Advanced topics in graphics, animation, and vision. Topics include distribution ray tracing, global-illumination, radiosity, image-based modeling and rendering, vision-assisted image and video editing, 3-D vision, 3-D virtual environments, 3-D interaction, control for physical simulation, motion graphs, computational geometry, etc.
This course is repeatable for 99 credits.

CS 560, DATA-DRIVEN SOFTWARE ENGINEERING, 4 Credits
An overview of data-driven empirical research methods that can be used to understand the different aspects of software engineering.
Prerequisite: CS 561 with C or better

CS 561, SOFTWARE ENGINEERING METHODS, 4 Credits
Master software engineering methods and supporting tools in the context of agile processes. Teams will engage in all aspects of software development including design, testing, implementation, deployment and maintenance. 3 hours of lecture per week plus one-hour independent lab per week.
Recommended: CS 362

CS 562, SOFTWARE PROJECT MANAGEMENT, 4 Credits
Master software project management with an emphasis on timely, cost-effective delivery of high-quality systems. Learn about existing techniques and supporting tools, with a particular focus on coordination and project management. 3 hours of lecture per week plus one-hour independent lab per week.
Recommended: CS 561

CS 563, SOFTWARE MAINTENANCE AND EVOLUTION, 4 Credits
Contribute to the cutting-edge of software engineering. Learn about existing techniques and supporting tools, with a particular focus on maintenance and evolution. Identify opportunities to support software maintenance and evolution more effectively, by creating new knowledge and supporting systems through research and innovation. 3 hours of lecture per week plus one-hour independent lab per week.
Prerequisite: CS 561 with C or better

CS 564, FIELD STUDIES IN SE AND HCI, 4 Credits
Deals with the type of empirical study known as the 'case' study. These are studies that collect data from natural software development situations as they really occur in the field, in which the researcher does not manipulate or 'control' anything. The course is an end-to-end coverage of the process. Mainly focuses on case studies involving human software developers in the field. The student will conduct a field study as part of this course.

CS 565, HUMAN-COMPUTER INTERACTION, 4 Credits
Basic principles of Human-Computer Interaction (HCI) for the design and evaluation of software systems. Includes research methods for studying human-machine interactions and user interfaces, design strategies, software evaluation methods, and related guidelines and standards.

CS 567, LABORATORY STUDIES IN SE AND HCI, 4 Credits
Empirical lab studies of software development. Covers how to go about designing, preparing for, running, analyzing, and writing-for-publication lab experiments of programming situations involving human subjects. This is an end-to-end coverage of the entire process, and will put students in a position to conduct lab studies of their own with human subjects.

CS 568, INCLUSIVE DESIGN (HCL), 4 Credits
Inclusive design is designing software that works for a wide variety of differently abled customers. Teaches the skills needed to design inclusively without having to have a separate design for each differently abled customer.
Recommended: CS 352 [C] or CS 565 [C]

CS 569, SELECTED TOPICS IN SOFTWARE ENGINEERING, 0-5 Credits
Topics include new programming methodologies, productivity, software development, software complexity metrics.
This course is repeatable for 99 credits.
Recommended: CS 561

CS 570, HIGH PERFORMANCE COMPUTER ARCHITECTURE, 4 Credits
Advanced concepts in computer architecture. Performance improvement employing advanced pipelining and multiple instruction scheduling techniques. Issues in memory hierarchy and management. CROSSLISTED as CS 570/ECE 570.
Equivalent to: ECE 570
Recommended: ECE 472 or ECE 572
CS 572, COMPUTER ARCHITECTURE, 4 Credits
Computer architecture using processors, memories, and I/O devices as building blocks. Issues involved in the design of instruction set architecture, processor, pipelining and memory organization. Design philosophies and trade-offs involved in Reduced Instruction Set Computer (RISC) architectures. Lec/lab. CROSSLISTED as CS 472/ECE 472 and CS 572/ECE 572.
Equivalent to: ECE 572
Recommended: ECE 375

CS 575, INTRODUCTION TO PARALLEL PROGRAMMING, 4 Credits
Theoretical and practical survey of parallel programming, including a discussion of parallel architecture, parallel programming paradigms, and parallel algorithms. Programming one or more parallel computers in a higher-level parallel language.
Available via Ecampus

CS 576, ADVANCED COMPUTER NETWORKING, 4 Credits
Equivalent to: ECE 576
Recommended: (CS 372 or ECE 372) and (ECE 353 or ST 314 or ST 314H)

CS 578, CYBER-SECURITY, 4 Credits
A broad overview of the field of computer and network security. Essential cryptographic mechanisms such as symmetric and public-key cryptography (e.g., encryption, signatures), network security and authentication protocols (e.g., Kerberos, TLS, IPsec), system security (e.g., access control, firewalls), advanced topics (e.g., searchable encryption, cloud security, secure computation). CROSSLISTED as CS 578/ECE 578.
Equivalent to: ECE 578

CS 579, TOPICS IN COMPUTER ARCHITECTURE AND PARALLEL PROCESSING, 0-5 Credits
Current topics in advanced computer architecture and parallel processing.
This course is repeatable for 99 credits.
Recommended: CS 575 or CS 572 or ECE 572

CS 581, PROGRAMMING LANGUAGES I, 4 Credits
Graduate-level introduction to functional programming and programming language theory. Strongly typed functional programming in Haskell, abstract syntax and grammars, interpreters, denotational semantics, domain theory, and lambda calculus.

CS 582, PROGRAMMING LANGUAGES II, 4 Credits
Essentials of programming language theory for understanding and conducting programming language research. Dependently typed programming in Agda, Coq, or Idris; operational semantics; type systems; unification and type inference.
Prerequisite: CS 581 with C or better

CS 583, ADVANCED FUNCTIONAL PROGRAMMING, 4 Credits
Advanced functional programming concepts and strategies, with a focus on techniques useful for the design and implementation of programming languages. Includes higher-order abstract syntax, functors and monads, generalized algebraic data types, functional data structures, and graph reduction.
Prerequisite: CS 581 with C or better

CS 585, DOMAIN-SPECIFIC LANGUAGES, 4 Credits
Graduate-level introduction to the design and implementation of domain-specific languages (DSLs). Domain analysis; review and revision of language designs; binding constructs to support abstraction; definition of syntax and semantics of DSLs; prototype implementation of embedded DSL.
Prerequisite: CS 581 with C or better

CS 589, SELECTED TOPICS IN PROGRAMMING LANGUAGES, 1-5 Credits
An in-depth examination of a specific topic of interest in programming language design and implementation. Example topics include object-oriented programming, parallel programming, compiler optimization, programming language semantics.
This course is repeatable for 99 credits.

CS 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

CS 601, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

CS 603, COMPUTER SCIENCE PHD THESIS, 1-16 Credits
This course is repeatable for 999 credits.

CS 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CS 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
CS 637, COMPUTER VISION II, 4 Credits
An introduction to recent advances in visual recognition, including object detection, semantic segmentation, multimodal parsing of images and text, image captioning, face recognition, and human activity recognition. The course covers common formulations of these problems, including energy minimization on graphical models, and supervised machine learning approaches to low- and high-level recognition tasks.
Prerequisite: CS 535 with B+ or better or CS 537 with B- or better
Recommended: CS 519

Construction Engineering Mngmt (CEM)

CEM 263, PLANE SURVEYING, 3 Credits
Use of field surveying equipment; error analysis; plane surveying methods applied to construction; plane coordinate computations; topographic mapping; and introduction to GPS. Lec/lab.
Prerequisite: ENGR 211 with C or better or ENGR 211H with C or better

CEM 311, HYDRAULICS, 4 Credits
Pressure and energy concepts of fluids, fluid measurements, flow in pipes and open channels.
Prerequisite: ENGR 211 with C or better or ENGR 211H with C or better

CEM 326, CONSTRUCTION SAFETY, 3 Credits
Training in construction safety with emphasis on hazard identification, avoidance, control, and prevention. Lec/rec.
Prerequisite: CCE 207 with C or better or CEM 407 with C or better

CEM 341, CONSTRUCTION ESTIMATING I, 4 Credits
Fundamentals of estimating and bidding construction projects; plan reading, specification interpretation; quantity take-off; types of estimates; estimating and methods of construction for sitework, concrete, and carpentry; estimating subcontracts, estimating job overhead and home office overhead; estimating profit, and computer-aided estimating.
Prerequisite: CEM 442 with C or better
Recommended: CCE 102 and CCE 201

CEM 342, CONSTRUCTION ESTIMATING II, 4 Credits
Fundamentals of estimating and bidding construction projects; plan reading, specification interpretation; quantity take-off; types of estimates; estimating and methods of construction for sitework, concrete, and carpentry; estimating subcontracts, estimating job overhead and home office overhead; estimating profit, and computer-aided estimating.
Prerequisite: CEM 341 with C or better

CEM 343, CONSTRUCTION PLANNING AND SCHEDULING, 4 Credits
Principles of construction planning, scheduling, and resource optimization; scheduling techniques and calculations; methods for integrating project resources (materials, equipment, personnel, and money) into the schedule.
Prerequisite: CEM 342 (may be taken concurrently) with C or better

CEM 381, STRUCTURES I, 4 Credits
Introduction to statically determinate analysis and design of steel structures. Lec/rec.
Prerequisite: ENGR 213 with C or better or ENGR 213H with C or better
Available via Ecampus

CEM 383, STRUCTURES II, 4 Credits
Analysis and design of building elements of concrete and timber; detailing and fabrication. Lec/rec.
Prerequisite: CCE 321 (may be taken concurrently) with C or better and CEM 381 [C]

CEM 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

CEM 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

CEM 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

CEM 407, SEMINAR, 1 Credit
Professional practices of construction engineering management.

CEM 431, OBTAINING CONSTRUCTION CONTRACTS, 4 Credits
Preparing and effectively presenting detailed and complete proposals for the execution of construction projects.
Prerequisite: CEM 341 with C or better
Equivalent to: CEM 432

CEM 432, CONSTRUCTION PROJECT PLANNING, 3 Credits
Planning and preparing cost estimates, schedules, site logistics plans for executing construction projects; presenting written and oral construction proposals.
Prerequisite: CEM 341 with C or better
Equivalent to: CEM 431

CEM 441, HEAVY CIVIL CONSTRUCTION MANAGEMENT, 4 Credits
Heavy civil construction management methods. Construction equipment types, capabilities, costs, productivity, and the selection and planning of equipment needed for a project. Soil characteristics, quantity analysis, and movement on construction sites.
Prerequisite: FE 315 with C or better or CE 372 with C or better

CEM 442, BUILDING CONSTRUCTION MANAGEMENT, 4 Credits
Building construction management and methods.
Prerequisite: CCE 207 with C or better or CEM 407 with C or better
CEM 443, PROJECT MANAGEMENT FOR CONSTRUCTION, 4 Credits

Project management concepts for construction; concepts, roles and responsibilities, labor relations and supervision, administrative systems, documentation, quality management, and process improvement. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CEM 341 with C or better and CEM 343 [C]

CEM 471, ELECTRICAL FACILITIES, 4 Credits

Principles and applications of electrical components of constructed facilities; basic electrical circuit theory, power, motors, controls, codes, and building distribution systems. Lec/lab.
Prerequisite: CCE 207 with C or better or CEM 407 with C or better

CEM 472, MECHANICAL FACILITIES, 3 Credits

Principles and applications of mechanical components of constructed facilities; heating, ventilating, air conditioning, plumbing, fire protection, and other mechanical construction.
Prerequisite: CCE 207 with C or better or CEM 407 with C or better

CEM 541, HEAVY CIVIL CONSTRUCTION MANAGEMENT, 4 Credits

Heavy civil construction management methods. Construction equipment types, capabilities, costs, productivity, and the selection and planning of equipment needed for a project. Soil characteristics, quantity analysis, and movement on construction sites.
Recommended: FE 315 or CE 372

CEM 543, PROJECT MANAGEMENT FOR CONSTRUCTION, 4 Credits

Project management concepts for construction; concepts, roles and responsibilities, labor relations and supervision, administrative systems, documentation, quality management, and process improvement.

CEM 550, CONTEMPORARY TOPICS IN CONSTRUCTION ENGINEERING MANAGEMENT, 4 Credits

Contemporary topics of emerging technologies and processes, construction engineering and management, how industry environmental change causes development of new technologies, and the applications of the technologies in the field.

CEM 551, PROJECT CONTROLS, 4 Credits

Advanced methods of project controls including advanced technologies and methodologies for quality, time, and cost management; project management organization models, and intra-organizational relationships.

COUN 421, PERSONAL GROWTH AND WELLNESS IN THE MODERN WORLD, 3 Credits

Explores social and emotional adjustment, growth, and wellness within current social contexts. Examines challenges to wellness and the role of normal development, self-help, and the helping professions in the growth process.
Available via Ecampus

COUN 431, SOCIAL CHANGE: ADDICTIONS AND TREATMENT, 3 Credits

Explores the etiology of addictions in modern society including the history and development of addictions work. Studies many aspects of addiction including historical origins, risk factors, biological and psychological functioning, counseling issues, skills, theories, assessment, treatment, relapse prevention, research, cultural and social justice issues, co-occurring disorders and population-specific information.
Available via Ecampus

COUN 441, INTRODUCTION TO PROFESSIONAL COUNSELING, 3 Credits

Provides students with an overview of the counseling profession that includes the history and philosophical foundations of the profession and roles and functions of professional counselors. The course content will critically engage the privilege and responsibility of the counseling profession in a multicultural society.
Available via Ecampus

COUN 499, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 18 credits.
Available via Ecampus

COUN 501, RESEARCH, 1-16 Credits

Equivalent to: TCE 501
This course is repeatable for 16 credits.

COUN 502, INDEPENDENT STUDY, 1-16 Credits

Equivalent to: TCE 502
This course is repeatable for 16 credits.

COUN 503, THESIS, 1-16 Credits

Equivalent to: TCE 503
This course is repeatable for 999 credits.

COUN 505, READING AND CONFERENCE, 1-3 Credits

Equivalent to: TCE 505
This course is repeatable for 16 credits.

COUN 506, PROJECTS, 1-3 Credits

Equivalent to: TCE 506
This course is repeatable for 16 credits.
COUN 507, SEMINAR, 1-3 Credits
Equivalent to: TCE 507
This course is repeatable for 16 credits.

COUN 508, WORKSHOP, 1-16 Credits
Equivalent to: TCE 508
This course is repeatable for 16 credits.

COUN 509, PRACTICUM, 1-16 Credits
Designed to develop competencies in basic skills, facilitative dimensions, and counseling process. Self-critique, peer-critique, and supervisor-critique of videotaped interview. Written self-critique, oral case presentation and charting skills are learned. Graded P/N.
Equivalent to: TCE 509
This course is repeatable for 16 credits.

COUN 510, INTERNSHIP, 1-18 Credits
The internship is the culminating field experience of the MS in Counseling program. It is designed to provide students with an on-site placement in a public or private mental health or school setting that will create the necessary bridge between training and professionalism. Students are expected to function per the expectations of other full-time employees and counseling staff at the internship site. Graded P/N.
Equivalent to: TCE 510
This course is repeatable for 16 credits.

COUN 513, COUNSELING PRE-PRACTICUM, 3 Credits
Designed to develop competencies in basic counseling skills and processes. Self-critique, peer-critique, and supervisor critique of videotaped interviews with peer clients. A pass requires at least B level work. Graded P/N.
Equivalent to: TCE 513
This course is repeatable for 6 credits.

COUN 514, PRACTICUM IN COUNSELING, 1-3 Credits
Designed to develop competencies in basic skills, facilitative dimensions, and counseling process. Self-critique, peer-critique, and supervisor-critique of videotaped interview. Written self-critique, oral case presentation and charting skills are learned. A pass requires at least B level work. Graded P/N.
Equivalent to: TCE 514
This course is repeatable for 9 credits.

COUN 515, COUNSELING INTERNSHIP, 1-15 Credits
The internship is the culminating field experience of the MS in Counseling program. It is designed to provide the student with an on-site placement in a public or private mental health or school setting that will create the necessary bridge between training and professionalism. Graded P/N.
Equivalent to: TCE 515
This course is repeatable for 24 credits.
Available via Ecampus

COUN 530, FUNDAMENTALS OF COUNSELING, 3 Credits
Exploration of basic helping processes appropriate in a variety of settings. Designed for students planning on working in a human service profession, such as counseling, teaching, nursing, medicine, law. A variety of skills and techniques are demonstrated and practiced through videotape and role play, and review of ethical standards of conduct.
Equivalent to: CSSA 530, TCE 530

COUN 531, DEVELOPMENTAL PERSPECTIVES IN COUNSELING, 3 Credits
A study of affective, behavioral, cognitive, physical, and moral development for human growth and maturation. Theories of personality and learning that affect normal and non-normal development. Relationship of understanding human development to the counseling profession.
Equivalent to: TCE 531

COUN 532, SOCIAL AND CULTURAL PERSPECTIVES IN COUNSELING, 3 Credits
Social and cultural factors effecting counseling. Includes studies of change, ethnic groups, subcultures, changing roles of women, sexism, urban and rural societies, population patterns, cultural mores, use of leisure time, and differing life patterns.
Equivalent to: TCE 532

COUN 533, ADDICTIVE BEHAVIOR COUNSELING, 3 Credits
Techniques for addictive behavior assessment and counseling. Specific addictions covered include substance abuse, gambling, and eating disorders.
Equivalent to: TCE 533

COUN 536, APPLIED PSYCHOPHARMACOLOGY FOR COUNSELORS, 3 Credits
Acquaints counseling students with the fundamentals of psychotropic drugs. Basics of pharmacology, adverse effects, indications, and drug interactions will be discussed. Boundaries of practice and practical issues of assessment and referral will be covered. The overall aim of the course is to provide information about psychopharmacology to the non-medical mental health care provider so that she or he can be a more informed member of the mental health care team. This course does not purport to prepare the student to be any part of the pharmacological prescriptive process. That is the purview of the medically trained person.
Equivalent to: TCE 536
Available via Ecampus
**COUN 540, NEW VISION SCHOOL COUNSELING: ACADEMIC ACHIEVEMENT, 3 Credits**

Participants will be able to implement research-based educational practices in: 1. Individual and group academic achievement counseling. 2. Consulting with parents, teachers, and schools regarding academic achievement. 3. Utilizing culturally competent practices in addressing academic achievement issues. 4. Applying the appropriate legal and ethical guidelines to work in the academic domain.

**Equivalent to:** TCE 540

---

**COUN 541, THE COUNSELING PROFESSION, 3 Credits**

Provides the foundation for becoming a counselor and explores the psychological and philosophical ramifications of the counselor in a changing world. Topics will include values in counseling, ethical and legal issues in counseling, research in counseling, and maintaining a professional identity.

**Equivalent to:** TCE 541

---

**COUN 546, LEADERSHIP OF SCHOOL COUNSELING PROGRAMS, 3 Credits**

Designed to prepare school counselors to lead teams in the development and implementation of comprehensive school counseling programs. Principles of leadership, system change, and advocacy are introduced. State and National Comprehensive School Counseling models are examined.

**Equivalent to:** TCE 546

---

**COUN 548, SPECIAL EDUCATION ISSUES IN COUNSELING, 3 Credits**

Addresses various educational disability categories, the fundamentals of special education law, the special education assessment process, the special education definition of emotional/behavioral disorders, and the counselor’s role in supporting children with special emotional needs.

**Equivalent to:** TCE 548

---

**COUN 550, FOUNDATIONS OF MENTAL HEALTH COUNSELING, 3 Credits**

Addresses the foundations of mental health counseling: (1) historical, philosophical, societal, cultural, economic, and political dimensions of, and current trends in, the mental health movement; (2) roles, functions, preparation standards, credentialing, licensure and professional identity of mental health counselors, (3) policies, laws, legislation, recognition, reimbursement, right-to-practice, and other issues relevant to mental health counseling.

**Equivalent to:** TCE 550

---

**COUN 551, THEORY AND TECHNIQUES OF COUNSELING I, 3 Credits**

Basic concepts and facilitative skills of helping relationships. Introduction and overview of counseling theories and their related processes and techniques.

**Equivalent to:** TCE 551

---

**COUN 552, THEORY AND TECHNIQUES OF COUNSELING II, 3 Credits**

Continued development of the theories and techniques of counseling including identification of the counseling process. Emphasis on personality development and affective, behavioral and cognitive approaches.

**Equivalent to:** TCE 552

**Recommended:** COUN 551

---

**COUN 552, THEORY AND TECHNIQUES OF COUNSELING II, 3 Credits**

Continued development of the theories and techniques of counseling including identification of the counseling process. Emphasis on personality development and affective, behavioral and cognitive approaches.

**Equivalent to:** TCE 552

**Recommended:** COUN 551

---

**COUN 562, INTRODUCTION TO RESEARCH METHODS IN COUNSELING, 3 Credits**

An introductory course for master’s level students. Explains basic evaluation, quantitative and qualitative research methods in the counseling profession; action research and the fundamental statistical procedures used in the interpretation and use of research studies.

**Equivalent to:** TCE 567

**Recommended:** Basic statistics course.

---

**COUN 567, APPRAISAL OF THE INDIVIDUAL, 3 Credits**

Development of framework for understanding the individual; methods for data gathering and assessment; individual and group testing; case study approaches; observational, sociometric, and environmental procedures; study of individual differences. Ethnic, cultural, and sex factors are emphasized.

**Equivalent to:** TCE 567

**Recommended:** Basic statistics course.

---

**COUN 568, LIFESTYLE AND CAREER DEVELOPMENT, 3 Credits**

Major theoretical approaches to career development; available resources for educational and occupational assessment; procedures to enhance career exploration, planning and placement. Emphasis is on the decision-making process and issues of career counseling with special populations.

**Equivalent to:** TCE 568

---

**COUN 571, GROUP COUNSELING PROCEDURES, 3 Credits**

A conceptual and experiential introduction to group dynamics. Group counseling approaches and models; issues of group leadership; styles of leadership and group facilitation skills. Consideration is given to group counseling goals, composition, phases and research.

**Equivalent to:** TCE 571

---

**COUN 575, FAMILY COUNSELING, 3 Credits**

An overview of the major theoretical approaches to family counseling will be covered. Through the use of readings, demonstrations, and videos the student will become familiar with systems foundations, the history of family counseling, family roles, interaction patterns, and decision-making processes.

**Equivalent to:** TCE 575
COUN 577, APPLIED PSYCHOPATHOLOGY AND PSYCHODIAGNOSTICS, 3 Credits
Addresses the principles of diagnosis of psychopathology and the use of current diagnostic tools, including the current edition of the Diagnostic and Statistical Manual (DSM). Includes psychiatric terminology, treatment, current research, cross cultural impact, ethical implications, and goal planning related to mental health processes and case management.
Equivalent to: TCE 577
Recommended: COUN 541 and COUN 551 and COUN 552.

COUN 578, CRISIS, TRAUMA, AND GRIEF COUNSELING, 3 Credits
The theory and pragmatics of crisis, trauma and grief counseling are addressed.
Equivalent to: TCE 578

COUN 579, TRAUMA-INFORMED COUNSELING, 3 Credits
Trauma-informed counseling methods for promoting client wellness and resilience are addressed.
Prerequisite: COUN 578 with C or better
Recommended: COUN 509

COUN 581, CROSS-CULTURAL COUNSELING, 3 Credits
Cognitive and experimental study of social and psychological variables influencing the cross-cultural counseling relationship. Social and psychological experiences of selected subcultures. Relevant assessment instruments and current literature, methods and outcome studies.
Equivalent to: TCE 581

COUN 582, MULTICULTURAL COUNSELING II, 3 Credits
Further explores multicultural counseling by studying in-depth the experience of specific student populations and their unique strengths and needs. Students will gain understanding of the specialized school programs and state and national regulations that support a variety of learners as well as the theories and research related to language acquisition to support ELL and bilingual students in the PK-12 system. Students will engage in authentic experiences and assignments to enrich their understanding of sub-populations of students and their families to enhance their cultural responsiveness with those specific groups of learners.
Prerequisite: COUN 581 with C or better

COUN 591, INSTRUCTIONAL STRATEGIES FOR SCHOOL COUNSELORS, 3 Credits
Students will gain understanding in research-based classroom teaching practices including classroom planning and evaluation. Students will refine their educational beliefs of classroom practice and gain insight into the administrative structure of public schools as it relates to the teacher and school counselor.
Equivalent to: TCE 591
Available via Ecampus

COUN 592, CLASSROOM INSTRUCTION FOR COUNSELORS, 3 Credits
75 hours of supervised instruction in a public school setting.
Equivalent to: TCE 592
Recommended: COUN 591.

COUN 595, GROUP COUNSELING II, 3 Credits
Group counseling theories and pragmatics for clients with mental and emotional disorders.
Equivalent to: TCE 595
Available via Ecampus

COUN 597, INTRODUCTION TO COUNSELOR SUPERVISION, 3 Credits
Introduction to the theory and pragmatics of counselor supervision.
Equivalent to: TCE 597
Available via Ecampus

COUN 598, COUNSELOR CONSULTATION, 3 Credits
Development of consultation skills as a supervisor and counselor educator. Consultation theory and practice are studied. Students practice consultation skills and receive feedback.
Equivalent to: TCE 598
Available via Ecampus

COUN 599, SPECIAL TOPICS, 1-4 Credits
Equivalent to: TCE 599
This course is repeatable for 90 credits.

COUN 601, RESEARCH, 1-16 Credits
Equivalent to: TCE 601
This course is repeatable for 16 credits.
Available via Ecampus

COUN 602, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: TCE 602
This course is repeatable for 16 credits.

COUN 603, THESIS, 1-16 Credits
Equivalent to: TCE 603
This course is repeatable for 999 credits.
Available via Ecampus

COUN 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: TCE 605
This course is repeatable for 16 credits.

COUN 606, PROJECTS, 1-16 Credits
Equivalent to: TCE 606
This course is repeatable for 16 credits.
COUN 607, SEMINAR, 1-16 Credits
Equivalent to: TCE 607
This course is repeatable for 16 credits.
Available via Ecampus

COUN 608, WORKSHOP, 1-16 Credits
Equivalent to: TCE 608
This course is repeatable for 16 credits.

COUN 609, PRACTICUM IN COUNSELING, 1-12 Credits
Specialized counseling experiences supervised by a professional.
Emphasis is on development of advanced skills in counseling specific to a population.
Equivalent to: TCE 609
This course is repeatable for 16 credits.

COUN 610, INTERNSHIP IN COUNSELING, 1-15 Credits
Designed to provide experiences in development of teaching and supervision skills in preparation as a counselor educator and supervisor.
Equivalent to: TCE 610
This course is repeatable for 15 credits.

COUN 612, RESEARCH PERSPECTIVES IN EDUCATION, 3 Credits
Research perspectives, how they are influenced by worldviews, and how these worldviews influence research.
Equivalent to: TCE 612
Recommended: COUN 562 and completion or concurrent enrollment in an introductory statistics course

COUN 613, RESEARCH ANALYSIS AND INTERPRETATION IN EDUCATION, 3 Credits
Critical analysis of scholarly studies in education from a variety of research perspectives.
Equivalent to: TCE 613
Recommended: (TCE 612 or COUN 612) and completion or concurrent enrollment in an intermediate statistics course

COUN 614, ADVANCED RESEARCH METHODS IN EDUCATION, 1-3 Credits
Selected topics in research methods as appropriate for research perspectives in education.
Equivalent to: TCE 614
This course is repeatable for 6 credits.
Recommended: COUN 613

COUN 616, UNIVERSITY LEVEL INSTRUCTIONAL THEORY AND METHODS, 3 Credits
Addresses general university level instructional theory and methods as well as pedagogy specific to counselor education.
Equivalent to: TCE 616

COUN 617, ADVANCED COUNSELOR SUPERVISION, 3 Credits
Advanced theory and techniques in counselor supervision. Pedagogical issues in training supervisors are addressed.
Equivalent to: TCE 617

COUN 618, PRACTICUM IN COUNSELING, 1-12 Credits
Specialized counseling experiences supervised by a professional.
Emphasis is on development of advanced skills in counseling specific to a population.
Equivalent to: TCE 618
This course is repeatable for 16 credits.

COUN 619, INTERNSHIP IN COUNSELING, 1-12 Credits
Designed to provide experiences in development of teaching and supervision skills in preparation as a counselor educator and supervisor.
Equivalent to: TCE 619
This course is repeatable for 16 credits.
Available via Ecampus

COUN 621, ADVANCED TOPICS IN EDUCATION, 3 Credits
Advanced critical study of theory and research related to specific topics of counseling and counselor education.
Equivalent to: TCE 621
This course is repeatable for 18 credits.

COUN 634, ADVANCED COUNSELING PRACTITIONER II, 3 Credits
Addresses the theory, science, pragmatics and pedagogy of evidence-based practices in professional counseling.
Equivalent to: TCE 634

COUN 662, COUNSELOR EDUCATION QUANTITATIVE RESEARCH METHODS I, 3 Credits
Part I of a three-course sequence designed to prepare students to meet the CACREP doctoral standards for quantitative research methods in counselor education. Topics addressed in course I include application of the following in counselor education research: (1) data scales and scale transformation, (2) frequency distributions and histograms, (3) measures of central position, (4) variability, (5) characteristics of data curves, (6) normality, (7) measures of variability, (8) the statistical hypothesis, (9) statistical errors (Type I/Type II), (10) power analysis, and (11) statistical correlation.
Equivalent to: TCE 662
Recommended: COUN 562.
COUN 663, COUNSELOR EDUCATION QUANTITATIVE RESEARCH METHODS II, 3 Credits
Part II of a three-part course sequence designed to prepare students to meet the CACREP doctoral standards for quantitative research methods in counselor education. Topics addressed in course II include application of the following in counselor education research: (1) a review of the dependent variable, normal curve, Type I and Type II errors, power analysis, and criteria for selecting statistical tools, (2) significance tests, including Chi-square t-test, one-factor analysis of variance, multiple comparison tests (L.S.D. and Tukey’s HSD), two-factor analysis of variance, statistical interaction (ordinal and disordinal), linear regression, factor analysis, and analysis of covariance.
Equivalent to: TCE 663

COUN 664, COUNSELOR EDUCATION QUANTITATIVE RESEARCH METHODS III, 3 Credits
Part III of a three-course sequence designed to prepare students to meet the CACREP doctoral standards for quantitative research methods in counselor education. Topics addressed in course III include application of the following in counselor education research: (1) multiple regression, (2) path analysis, (3) confirmatory factor analysis, analysis, (4) logistic regression, (5) reliability and generalizability theory, (6) cluster analysis, (7) structural equation modeling, and (8) single subject designs.
Equivalent to: TCE 664

COUN 665, PUBLICATION METHODS IN COUNSELOR EDUCATION, 3 Credits
Teaches doctoral students how to write theses, grant reports, peer-reviewed journal articles, and textbook chapters.
Equivalent to: TCE 665

COUN 667, ADVANCED ASSESSMENT IN COUNSELING, 3 Credits
Explores current issues in the use of assessment in counseling, best practices in instrument development, and best practices in assessment pedagogy.
Equivalent to: TCE 667

Crop & Soil Science (CSS)

CSS 205, *SOIL SCIENCE, 4 Credits
Introduction to the chemical, physical and biological nature of soils. Examines the functions of soil as a medium for plant growth, a recycling system for nutrients and wastes, a modifier of atmospheric chemistry, a habitat for soil organisms, a system for water purification, and an engineering medium. Field and laboratory projects provide an understanding of fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec/lab. (Bacc Core Course) Taught via Ecampus only.
Attributes: CPBS – Core, Pers, Biological Science; CPPS – Core, Pers, Physical Science
Equivalent to: CSS 305, SOIL 205
Available via Ecampus
CSS 305, PRINCIPLES OF SOIL SCIENCE, 4 Credits
Origin, formation, classification, physical, chemical, and biological characteristics; ecosystem functions of soils; effects of soil management on agricultural and forest crop production. Field trips. Taught at EOU LaGrande campus only.
Equivalency: CSS 205, SOIL 205
Recommended: Two quarters of college chemistry and CSS 306

CSS 306, PROBLEM SOLVING: SOIL SCIENCE APPLICATIONS, 1 Credit
Problem solving for, and in-depth exploration of, Principles of Soil Science (CSS 305). Real-world problems requiring knowledge of soil physical, chemical, and biological properties. Taught at EOU LaGrande campus only.
Corequisites: CSS 305

CSS 315, NUTRIENT MANAGEMENT AND CYCLING, 4 Credits
Nutrient forms, transformations, and plant availability as influenced by chemical and biological reactions in soils; soil pH and management of acid and alkaline soils; characteristics and use of fertilizers, soil amendments and organic wastes. Labs include routine soil testing procedures, computer applications for soil fertility management, and field trips. Lec/lab. (Writing Intensive Course) Taught at EOU LaGrande campus only.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: CSS 305 with D- or better
Recommended: CH 122 and courses in computers

CSS 320, PRINCIPLES OF OIL AND FIBER CROP PRODUCTION, 1 Credit
An overview of production practices and characteristics of oil seed, essential oil, and fiber crops. Taught at EOU LaGrande campus only.
Recommended: CSS 300 and CSS 305

CSS 321, PRINCIPLES OF CEREAL CROP PRODUCTION, 1 Credit
An overview of the principles underlying small grain production practices in the Pacific Northwest. Taught at EOU LaGrande campus only.
Recommended: CSS 300 and CSS 305

CSS 322, PRINCIPLES OF POTATO PRODUCTION, 1 Credit
Principles and practices governing all aspects of potato production, storage and use. Taught at EOU LaGrande campus only.
Recommended: CSS 300 and CSS 305
CROP 310, FORAGE PRODUCTION, 4 Credits
Importance of, and current production practices for, forage crops. Lec/lab.
Equivalent to: CSS 310
Recommended: (CSS 300 or CROP 300 or HORT 300) and (CSS 305 or CSS 205 or SOIL 205)
Available via Ecampus

CROP 325, AG AND ENVIRONMENTAL PREDICAMENTS: A CASE STUDY APPROACH, 3 Credits
Analyze controversial agricultural and environmental issues, synthesize information from diverse sources, and apply scientific knowledge to recommend specific courses of action to solve real world problems. Develop oral and written communication skills through individual and group work. CROSSLISTED as CROP 325/SOIL 325/SUS 325. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: SOIL 325, SUS 325

CROP 330, WORLD FOOD CROPS, 3 Credits
Origin, production, utilization, and improvement of the world’s major food crops. The role of crop production in global economic and social development; food security and worldwide nutritional requirements. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: CSS 330
Recommended: CSS 200 or CROP 200
Available via Ecampus

CROP 340, PENS AND PLOWS: WRITINGS OF WORKING THE LAND, 3 Credits
A survey of literature from ancient Greece to the twentieth century focusing on the significance of agricultural life and/or the natural world. Students read and discuss writings considered critical in the development of Western culture and receive input on the literary significance and the accuracy of agriculture presented within the readings. (Bacc Core Course) Taught via Ecampus only.
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: CSS 340
Available via Ecampus

CROP 355, ORGANIC CERTIFICATION, 3 Credits
Learn about the USDA National Organic Program (NOP) standards relating to certified operations, inspection, certification processes, and labeling. Focus on the crops, processing, and livestock aspects of organic certification for farms and food manufacturing operations.
Available via Ecampus

CROP 401, RESEARCH, 1-16 Credits
Equivalent to: CSS 401
This course is repeatable for 16 credits.

CROP 403, THESIS, 1-16 Credits
Independent, original study and preparation of a senior thesis.
Equivalent to: CSS 403
This course is repeatable for 16 credits.

CROP 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CROP 405H, CSS 405
This course is repeatable for 16 credits.

CROP 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: CROP 405, CSS 405H
This course is repeatable for 16 credits.

CROP 407, SEMINAR, 1 Credit
Equivalent to: HORT 407, SOIL 407
Available via Ecampus

CROP 410, INTERNSHIP, 1-6 Credits
Professional work experience previously approved and supervised by the department, written report required.
Equivalent to: CSS 410
This course is repeatable for 12 credits.

CROP 414, PRECISION AGRICULTURE, 4 Credits
Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS, soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab. CROSSLISTED as CROP 414/HORT 414.
Equivalent to: HORT 414
Available via Ecampus

CROP 418, TOXIC PLANTS IN PNW PASTURES, 1 Credit
Identifying and understanding ecology and biology of harmful weeds and poisonous plants found in Pacific Northwest pastures and rangelands and determining best management and control options. Taught via Ecampus only.
Equivalent to: CSS 418
Recommended: College-level plant biology and/or taxonomy courses.

CROP 420, SEED SCIENCE AND TECHNOLOGY, 3 Credits
Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only.
Equivalent to: CSS 420
Recommended: Biology, plant anatomy and/or physiology courses
Available via Ecampus
CROP 433, SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS, 4 Credits
Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSLISTED as CROP 433/HORT 433 and CROP 533/HORT 533.
Prerequisite: BI 102 with D- or better or BI 213 with D- or better or BI 213H with D- or better or BI 223 with D- or better or BI 223H with D- or better or BI 311 with D- or better or BI 311H with D- or better or HORT 430 with D- or better or CSS 430 with D- or better or PBG 430 with D- or better or HORT 450 with D- or better or CSS 450 with D- or better or PBG 450 with D- or better
Equivalent to: HORT 433

CROP 440, WEED MANAGEMENT, 4 Credits
Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/lab/rec.
Equivalent to: CSS 440
Recommended: One year biological science and one course in organic chemistry.
Available via Ecampus

CROP 448, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 448, RNG 448

CROP 460, SEED PRODUCTION, 3 Credits
Equivalent to: CSS 460
Recommended: CROP 200 or CSS 200
Available via Ecampus

CROP 463, SEED BIOLOGY, 3 Credits
Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. Lec/lab. CROSSLISTED as CROP 463/HORT 463 and CROP 563/HORT 563.
Equivalent to: HORT 463

CROP 470, OILSEEDS AND ESSENTIAL OIL CROPS, 3 Credits
Provides students with an understanding of the principles and the latest research information of field crop production, chemistry, oil extraction and utilization of OEC. Includes the importance of OEC, their uses, current trends, production systems for major crops, harvesting, drying, processing, and other post-harvest operations, fixed (fatty acid) and essential oil extraction methods, and oil utilization. Relevant recent research and review papers will be also included and the information discussed and assessed.
Prerequisite: CROP 200 with D- or better

CROP 480, CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT, 4 Credits
Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as CROP 480/HORT 480 and CROP 580/HORT 580.
Equivalent to: HORT 480
Recommended: CROP 300 or HORT 300
Available via Ecampus

CROP 499, SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE, 1-16 Credits
Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ.
Equivalent to: CROP 499H, CSS 499
This course is repeatable for 16 credits.
Available via Ecampus

CROP 499H, SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE, 1-16 Credits
Technical knowledge and skills development courses offered in a wide array of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ.
Attributes: HNRS – Honors Course Designator
Equivalent to: CROP 499, CSS 499H
This course is repeatable for 16 credits.

CROP 501, RESEARCH, 1-16 Credits
Equivalent to: CSS 501
This course is repeatable for 16 credits.

CROP 503, THESIS, 1-16 Credits
Equivalent to: CSS 503
This course is repeatable for 999 credits.

CROP 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CSS 505
This course is repeatable for 16 credits.

CROP 506, PROJECTS, 1-16 Credits
Equivalent to: CSS 506
This course is repeatable for 16 credits.
CROP 507, SEMINAR, 1 Credit
Graded P/N.
Equivalent to: CSS 507
This course is repeatable for 99 credits.

CROP 509, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSTLED as CROP 509/ENT 509/PBG 509/SOIL 509.
Equivalent to: CSS 509, ENT 509, PBG 509, SOIL 509
This course is repeatable for 9 credits.

CROP 514, PRECISION AGRICULTURE, 4 Credits
Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS, soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab.

CROP 520, SEED SCIENCE AND TECHNOLOGY, 3 Credits
Seed formation and factors affecting their development and maturation. Seed structure and chemical composition. Physiological and biochemical aspects of seed germination, dormancy, deterioration and storability. The concept of seed quality, its importance in agriculture, its attributes and impact on field performance. Methods of measuring seed quality of conventional and genetically modified seeds. Taught via Ecampus only.
Equivalent to: CSS 520
Recommended: Biology, plant anatomy and/or physiology courses
Available via Ecampus

CROP 530, ORGANIC SOIL AND CROP MANAGEMENT, 3 Credits
Overview of organic soil and crop management, organic soil system management, soil microbiology under organic systems, cropping systems, organic cereal production systems, organic forage production system, organic horticultural systems management, organic field and horticulture cropping systems; recent research and case studies. CROSSLISTED as CROP 530/SOIL 530.
Equivalent to: SOIL 530
Recommended: SOIL 525, CROP 200, SOIL 205 or introductory biology. Completion or concurrent enrollment in AGRI 520
Available via Ecampus

CROP 533, SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS, 4 Credits
Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSTLED as CROP 433/HORT 433 and CROP 533/HORT 533.
Equivalent to: CSS 533, HORT 533
Recommended: BI 102 or BI 213 or BI 311 or HORT 430 or CSS 430 or PBG 430 or HORT 450 or CSS 450 or PBG 450

CROP 540, WEED MANAGEMENT, 4 Credits
Principles of weed control by cultural, biological, and chemical means; weed identification; introduction to herbicides and factors influencing their use. Lec/lab/rec.
Equivalent to: CSS 540
Recommended: One year biological science and one course in organic chemistry.
Available via Ecampus

CROP 548, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSTLED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 548, RNG 548

CROP 560, SEED PRODUCTION, 3 Credits
Equivalent to: CSS 560
Recommended: CROP 200 or CSS 200
Available via Ecampus

CROP 563, SEED BIOLOGY, 3 Credits
Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. Lec/lab. CROSSTLED as CROP 463/HORT 463 and CROP 563/HORT 563.
Equivalent to: HORT 563
CROP 570, OILSEEDS AND ESSENTIAL OIL CROPS, 3 Credits
Provides students with an understanding of the principles and the latest research information of field crop production, chemistry, oil extraction and utilization of OEOC. Includes the importance of OEOC, their uses, current trends, production systems for major crops, harvesting, drying, processing, and other post-harvest operations, fixed (fatty acid) and essential oil extraction methods, and oil utilization. Relevant recent research and review papers will be also included and the information discussed and assessed.
Prerequisite: CROP 200 with D- or better
Recommended: Horticulture, biology or chemistry course

CROP 580, CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT, 4 Credits
Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as CROP 480/HORT 480 and CROP 580/HORT 580.
Equivalent to: HORT 580
Recommended: CROP 300 or HORT 300
Available via Ecampus

CROP 590, EXPERIMENTAL DESIGN IN AGRICULTURE, 4 Credits
Field layout, analysis, and interpretation of basic experimental designs used in agronomy and plant breeding and including field plot techniques such as optimum plot size and shape, factorial arrangement, replication, sub-sampling, randomization, and blocking. Recitation provides practical experience with SAS. Lec/rec.
Equivalent to: CSS 590
Recommended: ST 351
Available via Ecampus

CROP 599, SPECIAL TOPICS IN CROP SCIENCE AND SOIL SCIENCE, 0-16 Credits
Technical knowledge and skills development courses offered in a wide variety of course formats. Topics vary from term to term and year to year. May be repeated for credit when topics differ.
Equivalent to: CSS 599
This course is repeatable for 16 credits.

CROP 601, RESEARCH, 1-16 Credits
Equivalent to: CSS 601
This course is repeatable for 16 credits.

CROP 603, THESIS, 1-16 Credits
Equivalent to: CSS 603
This course is repeatable for 99 credits.

CROP 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: CSS 605
This course is repeatable for 16 credits.

CROP 606, PROJECTS, 1-16 Credits
Equivalent to: CSS 606
This course is repeatable for 16 credits.
DSGN 244H, COLOR INNOVATION, 4 Credits
The aesthetics, meaning, and perception of color provide the foundational knowledge in this course.
Attributes: HNRS – Honors Course Designator
Equivalent to: DSGN 244

DSGN 253, PROFESSIONAL DEVELOPMENT, 3 Credits
Introduces career management process. Emphasizes ongoing, systematic nature of process. Topics include self-assessment, career exploration, preliminary employment strategies.
Prerequisite: DSGN 121 with C- or better
Equivalent to: BA 253, BA 253H, BA 281, BA 281H, BA 291, BA 292, BA 294, BA 295, BA 353, BA 381, BA 382, BA 384, BA 385

DSGN 255, TEXTILES, 4 Credits
Equivalent to: DHE 255

DSGN 276, INTRODUCTION TO MERCHANDISING MANAGEMENT, 4 Credits
Provides the introductory knowledge necessary to prepare students for working in the retail industry. Introduces students to the retail industry including basic terminology, industry history, and to merchandising management decisions. Prepares students for more advanced knowledge acquired in the Merchandising Management concentration.

DSGN 281, DRAWING AND SKETCHING, 4 Credits
Designed for both beginning drawers and those wanting to improve their skills. Focuses exclusively on hand drawing skills with an emphasis on technical drawing skills, observational and perspective drawing, as well as imagination and creativity. Students develop a working knowledge of visual methods for communicating design concepts. Class format includes a combination of quick drawing activities, demonstrations, lectures, critiques, and work time on drawing assignments. Throughout the term students are introduced to the drawings of several prominent designers and artists.

DSGN 282, DRAFTING YOUR CAREER BLUEPRINT, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Topics include understanding and developing one’s own talents and strengths and beginning the initial stages of career exploration.
Equivalent to: BA 282

DSGN 283, CREATIVITY, CULTURE, AND THE WORKPLACE, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Explores students’ unique talents and how teams as well as organizations can benefit from diverse and inclusive communities.
Equivalent to: BA 283

DSGN 284, FOUNDATIONS OF PERSONAL FINANCE I, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Topics include foundations of personal finance, helping students navigate paying-for-college resources and aiding them in developing and sticking to a realistic budget while in school.
Equivalent to: BA 284

DSGN 287, STUDIO I: DESIGN COMMUNICATION, 4 Credits
Focuses on design communication through electronic media. Students use AutoCAD, SketchUp, and the Adobe Creative Cloud to create 2D and 3D visualizations and presentations of interiors. Lec/studio.

DSGN 311, FRAMING YOUR CAREER PLAN, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Course topics are designed to help the student explore different types of business communications and how to effectively communicate their ideas in a variety of methods.
Equivalent to: BA 311

DSGN 312, FOUNDATIONS OF PERSONAL FINANCE II, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Second of four course in Blueprint that is dedicated to learning the foundations of personal finance. Topics include Taxes, Credit, Loans & Cars, and Investing.
Equivalent to: BA 312

DSGN 313, THE ORANGE AND BLACK CASE COMPETITION, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Strengthens students’ foundational business knowledge, critical thinking abilities, and team collaboration skills through a college-wide case competition.
Prerequisite: BA 260 with C- or better or BA 260H with C- or better
Equivalent to: BA 313

DSGN 327, PERFORMANCE APPAREL INNOVATION I, 4 Credits
Develop innovative performance apparel from technical specifications or prototypes. Analysis of apparel construction related to equipment, cost, quality, end use and customer needs. Lec/lab.
Prerequisite: DSGN 226 with C- or better

DSGN 328, DIGITAL DESIGN FOR APPAREL, 3 Credits
Computer-aided flat pattern, grading and marker techniques using industry relevant pattern development software.
Prerequisite: DSGN 327 with C- or better
DSGN 329, SPORTSWEAR INDUSTRY COLLABORATION, 3 Credits
Industry lead team project. Creation of briefs, sketch, pattern, design textile prints, construct prototypes based on identified consumer and company.
Prerequisite: DSGN 327 with C- or better

DSGN 330, FASHION FORECASTING AND MARKET ANALYSIS, 4 Credits
Forecasting and market analysis processes applied to fashion goods. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: WR 222 with C- or better or WR 323 with C- or better or WR 327 with C- or better
Equivalent to: DSGN 330

DSGN 333, HISTORY OF CONTEMPORARY FASHION, 4 Credits
Historic analysis of fashion change in men’s and women’s apparel from 1890 to the present. The influence of social and cultural factors upon Euro-American fashion.

DSGN 341, DESIGN THINKING AND PROCESS INNOVATION, 4 Credits
Application of a qualitative, multi-method approach to gain insight into how the consumer experience can be improved within a given context. Application of design thinking principles to identify and develop solutions to improve consumer experience within a given context.
Equivalent to: DSGN 341H

DSGN 341H, DESIGN THINKING AND PROCESS INNOVATION, 4 Credits
Application of a qualitative, multi-method approach to gain insight into how the consumer experience can be improved within a given context. Application of design thinking principles to identify and develop solutions to improve consumer experience within a given context.
Attributes: HNRS – Honors Course Designator
Equivalent to: DSGN 341

DSGN 342, INTRODUCTION TO DESIGN MANAGEMENT, 4 Credits
Introduces the foundations and concepts of design strategy and creative development.
Prerequisite: DSGN 341 with C- or better

DSGN 343, IDEA VISUALIZATION, 4 Credits
Focuses on the design process through visual communication of ideation and sketching.
Prerequisite: DSGN 342 with C- or better

DSGN 356, SPECIFICATION AND EVALUATION OF PERFORMANCE MATERIALS, 3 Credits
Specification of materials for athletic and outdoor apparel to enhance human comfort, safety, and performance.
Prerequisite: DSGN 255 with C- or better
DSGN 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: DHE 405
This course is repeatable for 16 credits.

DSGN 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

DSGN 407, SEMINAR, 1-16 Credits
Equivalent to: DHE 407
This course is repeatable for 16 credits.

DSGN 408, WORKSHOP, 1-16 Credits
Equivalent to: DHE 408
This course is repeatable for 16 credits.

DSGN 409, PRACTICUM, 1-16 Credits
Equivalent to: DHE 409
This course is repeatable for 16 credits.

DSGN 410, DESIGN INTERNSHIP, 1-6 Credits
Planned and supervised work experience at selected cooperating business firms. Supplementary training, conference, reports, and appraisals. Graded P/N.
Equivalent to: DHE 410
This course is repeatable for 16 credits.

DSGN 411, NAVIGATING YOUR WORKPLACE, 1 Credit
Part of Blueprint – a 12 course professional development course series to guide the student from college to career. Builds a foundation of financial planning, offering students the tools to successfully manage their career pathways. Topics include: analyzing job offers and benefits packages, negotiating a job’s salary/benefits, strategizing the first 90 days on the job, and advocating for opportunities at work.
Equivalent to: BA 411

DSGN 412, FINANCIAL PLANNING I, 1 Credit
Part of Blueprint – a 12-course professional development course series to guide the student from college to career. Continues to build a foundation of financial planning, offering students the tools to successfully prepare for future wealth. Topics include: budgeting for life after graduation, planning for new earnings and income, saving for your future self, and keeping your money and yourself secure.
Equivalent to: BA 412

DSGN 413, FINANCIAL PLANNING II, 1 Credit
Part of Blueprint – a 12-course professional development course series to guide the student from college to career. Finalizes the foundations of financial planning, offering students the tools to successfully outline long-term financial goals. Topics include: addressing debt and buying a home, managing risk and insurance, planning for retirement, and creating a long-term legacy.
Equivalent to: BA 413

DSGN 427, PERFORMANCE APPAREL INNOVATION II, 4 Credits
Develop innovative performance apparel from technical specifications or prototypes. Analysis of apparel construction related to equipment, cost, quality, end use and customer needs. Lec/lab.
Prerequisite: DSGN 327 with C- or better

DSGN 428, TECHNICAL SPORTSWEAR SIZING AND FIT, 4 Credits
Development of sizing and grading systems used in sportswear and evaluation of garment fit by use of virtual and physical prototypes.
Prerequisite: DSGN 327 with C- or better

DSGN 429, FUNCTIONAL DESIGN AND PRODUCT DEVELOPMENT, 4 Credits
Design processes and research methods used to create functional designs. Students will identify design problems and develop design brief and functional product line for identified target company. Lec/lab.
Prerequisite: DSGN 428 with C- or better

DSGN 440, DESIGN RESEARCH, 4 Credits
Surveys design principles, methods and applications in business outcomes. Application of design research is investigated and analyzed in group projects.
Prerequisite: DSGN 343 with C- or better

DSGN 441, SERVICE DESIGN INNOVATION, 4 Credits
Focuses on the impact that service design has on business enterprises. Creative ideation, critical analysis, and innovative thinking are integrated as foundations for service design outcomes.
Prerequisite: DSGN 440 with C- or better

DSGN 442, MATERIALITY AND MAKING FIELD PROJECT, 4 Credits
Focuses on material properties and specifications. Students work in the makerspace to design product outcomes.
Prerequisite: DSGN 440 with C- or better
Equivalent to: DHE 442

DSGN 464, CONTEMPORARY HISTORY OF INTERIORS AND HOUSING, 3 Credits
History of interior design from the mid-19th century to the present.
Prerequisite: ART 204 with C- or better or ART 205 with C- or better or ART 206 with C- or better

DSGN 471, RETAIL PRESENTATION STRATEGIES, 4 Credits
Provides an overview of, and examines competitive presentation strategies within, retail environments and channels (e.g., in-store, catalog, online, mobile) by integrating the principles and elements of design with sensory marketing.
Prerequisite: DSGN 377 with C- or better and (BA 390 [C-] or BA 390H [C-] or BA 223 [C-] or BA 223H [C-] or MRKT 390 [C-])
ECON 202, *INTRODUCTION TO MACROECONOMICS, 4 Credits
An introduction to macroeconomic principles including study of the theories of output determination, consumption, investment, inflation, unemployment, and fiscal and monetary policy. Other selected topics may include the study of the international balance of payments, growth and development, and urban and regional problems. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: ECON 202H
Recommended: MTH 111
Available via Ecampus

ECON 311, INTERMEDIATE MICROECONOMIC THEORY, 4 Credits
An examination of demand theory, production and cost theory, game theory, behavioral economics, competitive and imperfectly competitive markets, and general equilibrium and welfare economics. ECON 311 and ECON 411 cannot both be taken for credit toward the economics major.
Prerequisite: ECON 201 with D- or better or ECON 201H with D- or better
Equivalent to: AREC 311, EC 311
Available via Ecampus

ECON 315, INTERMEDIATE MACROECONOMIC THEORY, 4 Credits
An examination of macroeconomic aggregates, income determination, aggregate demand and supply. The basic macroeconomic models will be discussed such as Keynesian, Classical, Monetarist, and Neo-Classical. ECON 315 and ECON 415 cannot both be taken for credit toward the Economics major.
Prerequisite: (ECON 201 with D- or better or ECON 201H with D- or better) and (ECON 202 [D-] or ECON 202H [D-])
Equivalent to: EC 315
Available via Ecampus

ECON 329, INTRODUCTION TO MATHEMATICAL ECONOMICS, 4 Credits
Mathematical methods of economic analysis. Theory of economic structure and optimization developed through calculus and linear algebra, dynamic systems analyzed through integral calculus and difference and differential equations. The mathematical tools are developed in conjunction with their application to economic problems. Some acquaintance with calculus recommended.
Prerequisite: (ECON 201 with D- or better or ECON 201H with D- or better) and (ECON 202 [D-] or ECON 202H [D-]) and (MTH 241 [D-] or MTH 251 [D-] or MTH 251H [D-])
Equivalent to: EC 329

ECON 330, MONEY AND BANKING, 4 Credits
Nature and functions of money; functions and operations of depository institutions; the money market; central banking and monetary policy. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: (ECON 201 with D- or better or ECON 201H with D- or better) and (ECON 202 [D-] or ECON 202H [D-])
Equivalent to: EC 330
Available via Ecampus
ECON 340, INTERNATIONAL ECONOMICS, 4 Credits
An overview of international economics with an emphasis on current events and applications, including classical and modern trade theory and the study of trade and exchange-rate policies. (SS) (See Schedule Comment regarding Bacc Core status.)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: (ECON 201 with D- or better or ECON 201H with D- or better) and (ECON 202 [D-] or ECON 202H [D-])
Equivalent to: EC 340
Available via Ecampus

ECON 350, FINANCIAL ECONOMICS, 4 Credits
Discusses how various securities meet the needs of different economic agents and the efficiency of financial markets in meeting those needs. Topics include interest rates, valuation, investment risk, trading and market structure, arbitrage, market efficiency, debt markets, equity markets, and financial derivatives.
Prerequisite: ECON 201 with D- or better and ECON 202 [D-]
Available via Ecampus

ECON 352, *ENVIRONMENTAL ECONOMICS AND POLICY, 3 Credits
Provides an overview of the interrelationships between economic activity, the environment, and public policy. Through case studies, discussion groups, readings, and group activities, students learn how economists define and analyze environmental problems and the types of policies they advocate for managing environmental quality. CROSSLISTED as AEC 352/ECON 352. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisite: AEC 250 with D- or better or AREC 250 with D- or better or ECON 201 with D- or better or ECON 201H with D- or better
Equivalent to: AEC 352, AREC 352, AREC 352H, EC 352, ECON 352H
Available via Ecampus

ECON 383, *THE ECONOMICS OF DISCRIMINATION, 4 Credits
An economic analysis of discrimination, focusing on labor market inequities for women and minorities. Historical and current trends in pay, education, and employment disparities, economic explanations for such disparities, and econometric evidence for wage and employment discrimination. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Prerequisite: ECON 201 with C- or better or ECON 201H with C- or better
Equivalent to: EC 383
Available via Ecampus

ECON 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ECON 399H
This course is repeatable for 16 credits.

ECON 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ECON 399
This course is repeatable for 16 credits.

ECON 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EC 401
This course is repeatable for 16 credits.

ECON 402, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: EC 402
This course is repeatable for 16 credits.

ECON 403, THESIS, 1-16 Credits
Equivalent to: EC 403
This course is repeatable for 16 credits.

ECON 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EC 405
This course is repeatable for 16 credits.

ECON 406, PROJECTS, 1-16 Credits
Equivalent to: EC 406
This course is repeatable for 16 credits.

ECON 407, SEMINAR, 1-16 Credits
Equivalent to: EC 407
This course is repeatable for 16 credits.

ECON 408, WORKSHOP, 1-16 Credits
Equivalent to: EC 408
This course is repeatable for 16 credits.

ECON 410, INTERNSHIP, 1-16 Credits
Equivalent to: EC 410
This course is repeatable for 16 credits.

ECON 411, ADVANCED MICROECONOMIC THEORY, 4 Credits
Rigorous treatment of optimizing behavior of economic agents and markets. Examines utility maximization and demand; cost minimization, profit maximization and supply; perfect competition and monopoly; imperfect competition and game theory; and general equilibrium, social welfare and market failure using sophisticated mathematical tools. Students cannot receive credit toward the major for both ECON 311 and ECON 411.
Prerequisite: (ECON 201 with D- or better or ECON 201H with D- or better) and (MTH 241 [D-] or MTH 251 [D-] or MTH 251H [D-])

ECON 414, BEHAVIORAL ECONOMICS, 4 Credits
Economic analysis of the effects of social, cognitive, and emotional factors on individual decision making and their implications for market outcomes and policy making. Topics include time inconsistency, decision making under risk, cognitive dissonance, heuristics, social preferences, and experimental economics.
Prerequisite: ECON 311 with D- or better or ECON 411 with D- or better
**ECON 415, ADVANCED MACROECONOMIC THEORY, 4 Credits**

Macroeconomics as an application of general equilibrium theory. Macroeconomic models are developed taking preferences and technology as primitives. The models’ short and long run predictions are analyzed and compared to the data. The welfare implications of fiscal and monetary policy are discussed. ECON 315 and ECON 415 cannot both be taken for credit toward the major.

**Prerequisite:** (ECON 201 with D- or better or ECON 201H with D- or better) and (ECON 202 [D-] or ECON 202H [D-]) and (MTH 241 [D-] or MTH 251 [D-] or MTH 251H [D-])

**ECON 420, GAME THEORY, 4 Credits**

Systematically studies strategic interactions among multiple decision makers with applications in economics, politics, sociology, law, computer science, sports, and biology. Topics taught include static, sequential, and repeated games of perfect and imperfect information.

**Attributes:** LACS – Liberal Arts Social Core

**Prerequisite:** ECON 311 with D- or better or ECON 411 with D- or better

**Equivalent to:** EC 420

**ECON 423, PRE-ECONOMETRICS, 4 Credits**

Introduction to probability and statistics with an emphasis on estimation and hypothesis testing. Applications to economic models.

**Prerequisite:** MTH 241 with D- or better or MTH 251 with D- or better or MTH 251H with D- or better

**Available via Ecampus**

**ECON 424, INTRODUCTION TO ECONOMETRICS, 4 Credits**

Application of statistical techniques, including sampling theory, hypothesis testing, and multiple regression analysis, to economic models. Economic modeling, analysis of economic data, and policy analysis are emphasized. ECON 424 and ECON 427 cannot both be taken for credit toward the major. Lec/lab.

**Prerequisite:** (ECON 311 with C or better or ECON 411 with C or better) and (ST 351 [C] or ST 351H [C] or ECON 423 [C])

**Equivalent to:** ECON 325

**Available via Ecampus**

**ECON 427, INTRODUCTION TO ECONOMETRICS WITH CALCULUS, 4 Credits**

Addresses both the theory and practice of econometrics, including properties of estimators, modeling economic processes, estimation, hypothesis testing, prediction and interpretation of results. Students cannot receive credit toward the major for both ECON 424 and ECON 427. Lec/lab.

**Prerequisite:** (ECON 311 with C or better or ECON 411 with C or better) and ECON 423 [C]

**ECON 428, ^INTRODUCTION TO ECONOMIC RESEARCH, 4 Credits**

Basic methods of economic research: concepts and models; data sources, collection, and presentation; hypothesis formulation and testing; policy analysis. Written assignments apply methods. (Writing Intensive Course)

**Attributes:** CWIC – Core, Skills, WIC

**Prerequisite:** ECON 311 with C- or better or ECON 411 with C- or better

**Equivalent to:** ECON 328

**Recommended:** Prior completion of WR II

**Available via Ecampus**

**ECON 435, PUBLIC ECONOMICS, 4 Credits**

Composition and growth of government spending; theory of public expenditure; analysis of public expenditure programs; benefit-cost analysis; theory and practice of taxation; analysis of local, state, and federal taxes; government borrowing and fees; current issues in tax and expenditure policy.

**Prerequisite:** ECON 311 with C- or better or ECON 411 with C- or better

**Equivalent to:** EC 435

**Available via Ecampus**

**ECON 439, ^PUBLIC POLICY ANALYSIS, 4 Credits**

Theory of public problems and decision making. Evaluation of public policy strategies, selected public programs and individual public projects considering the full range of efficiency and equity effects. Direct and indirect impacts of policy, strength of implicit incentives, administrative feasibility, and problems of policy implementation. (Writing Intensive Course)

**Attributes:** CWIC – Core, Skills, WIC

**Prerequisite:** ECON 311 with D- or better or ECON 411 with D- or better

**Equivalent to:** EC 439

**Available via Ecampus**

**ECON 440, ECONOMICS OF GLOBALIZATION, 4 Credits**

Examination of the phenomenon of globalization using economic analysis to explore controversial themes of the globalization debate—offshoring, sweatshops, child labor, environmental standards, intellectual property protection, cultural diversity, economic development, immigration, and governance.

**Prerequisite:** ECON 311 with D- or better

**Equivalent to:** EC 440

**ECON 441, INTERNATIONAL FINANCE THEORY AND POLICY, 4 Credits**

Theories and policies of exchange rate regimes; fixed, floating and managed floats; internal and external trade and capital balances; international capital flows and institutions.

**Prerequisite:** ECON 315 with D- or better

**Equivalent to:** EC 441
ECON 455, ECONOMIC DEVELOPMENT, 4 Credits
History, theories and policies for economic development in the Third World of underdeveloped countries. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: ECON 201 with D- or better and ECON 202 [D-]
Equivalent to: EC 449, EC 450, EC 455

ECON 460, INDUSTRIAL ORGANIZATION THEORY AND POLICY, 4 Credits
The study of the causes of market structure, the behavior of firms in game theoretic settings, and the welfare implications of competitive and imperfectly competitive markets; United States antitrust and other laws regulating business behavior.
Prerequisite: ECON 311 with D- or better or ECON 411 with D- or better
Equivalent to: EC 460
Available via Ecampus

ECON 461, LAW, ECONOMICS, AND REGULATION, 4 Credits
The analysis of the effectiveness of laws and government regulations in fostering economic efficiency and fairness. Topics include the design of laws and policies to promote social welfare and the study of the effectiveness of criminal law, antitrust law, and the government regulation of business in promoting social goals.
Prerequisite: ECON 201 with D- or better or ECON 201H with D- or better
Available via Ecampus

ECON 462, MANAGERIAL ECONOMICS, 4 Credits
The application of microeconomic theory and quantitative methods to management decisions. Case-oriented course emphasizing actual business decisions.
Prerequisite: ECON 311 with D- or better or ECON 411 with D- or better

ECON 463, EFFICIENCY AND PRODUCTIVITY ANALYSIS, 4 Credits
Workshop on the theory and measurement of performance, especially efficiency and productivity. Emphasis on application including introduction to user-friendly software.
Prerequisite: ECON 311 with C or better or ECON 411 with C or better

ECON 466, ECONOMICS OF TRADITIONAL AND RENEWABLE ENERGY, 4 Credits
Reviews and analyzes the economics and structure of world markets for various traditional energy (e.g., oil, coal, natural gas), as well as renewable energy (wind, geothermal and solar) with the latter focusing on the Pacific Northwest electrical industry structure and regulatory framework. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ECON 201 with D- or better or ECON 201H with D- or better

ECON 468, LABOR ECONOMICS AND SOCIAL POLICY, 4 Credits
Interaction of workers and firms in labor markets, social policy and its effects on labor markets, human capital theory and education policy, discrimination and other sources of wage differentials, immigration, unemployment, inequality.
Prerequisite: ECON 311 with D- or better or ECON 411 with D- or better
Equivalent to: EC 480
Recommended: Microeconomics such as ECON 517
Available via Ecampus

ECON 491, ECONOMICS OF INEQUALITY, 4 Credits
Prerequisite: ECON 311 with D- or better or ECON 411 with D- or better
Equivalent to: EC 491
Available via Ecampus

ECON 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
Recommended: ECON 311 or ECON 411

ECON 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EC 501
This course is repeatable for 16 credits.

ECON 502, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: EC 502
This course is repeatable for 16 credits.

ECON 503, THESIS, 1-16 Credits
Equivalent to: EC 503
This course is repeatable for 999 credits.

ECON 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EC 505
This course is repeatable for 16 credits.

ECON 506, PROJECTS, 1-16 Credits
Equivalent to: EC 506
This course is repeatable for 16 credits.

ECON 507, SEMINAR, 1-16 Credits
Equivalent to: EC 507
This course is repeatable for 16 credits.

ECON 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
ECON 512, MICROECONOMIC THEORY I, 4 Credits
Economic theories of consumer behavior and demand, production, cost, the firm, supply, and competitive and monopoly market structures.
Equivalent to: AREC 512
Recommended: ECON 312

ECON 513, MICROECONOMIC THEORY II, 4 Credits
Economic theories of imperfect competition, input markets, general equilibrium and welfare economics.
Equivalent to: AREC 513
Recommended: ECON 512

ECON 514, BEHAVIORAL ECONOMICS, 4 Credits
Economic analysis of the effects of social, cognitive, and emotional factors on individual decision making and their implications for market outcomes and policy making. Topics include time inconsistency, decision making under risk, cognitive dissonance, heuristics, social preferences, and experimental economics.
Recommended: ECON 311 or ECON 411

ECON 515, MACROECONOMIC THEORY I, 4 Credits
Determination of income, employment, and prices in classical, Keynesian, monetarist, and new classical macroeconomic models. Theories of consumption, investment, money demand, and money supply. Monetary and fiscal policies, the role of expectations.
Equivalent to: EC 515
Recommended: ECON 315

ECON 517, MICROECONOMIC THEORY FOR MPP, 4 Credits
Familiarizes MPP students who do not have a strong background in microeconomics with the material they will need for their future economics course work.
Recommended: Working knowledge of algebra and geometry.
Available via Ecampus

ECON 520, GAME THEORY, 4 Credits
Systematically studies strategic interactions among multiple decision makers with applications in economics, politics, sociology, law, computer science, sports, and biology. Topics taught include static, sequential, and repeated games of perfect and imperfect information.
Equivalent to: EC 520
Recommended: ECON 311 or ECON 411

ECON 523, STATISTICS FOR ECONOMETRICS, 4 Credits
Examines mathematical and statistical topics essential for graduate-level econometric analysis, including matrix algebra, probability and distribution theory (emphasizing joint and conditional distributions), statistical inference, and econometric optimization algorithms.
Equivalent to: AREC 523
Recommended: MTH 253 and (ST 351 or ST 351H) and (ST 352 or ECON 424 or ECON 524)

ECON 524, INTRODUCTION TO ECONOMETRICS, 4 Credits
Application of statistical techniques, including sampling theory, hypothesis testing, and multiple regression analysis, to economic models. Economic modeling, analysis of economic data, and policy analysis are emphasized.
Recommended: (ECON 311 or ECON 411 or ECON 517) and (ST 351 or ST 351H or ECON 423)
Available via Ecampus

ECON 525, ECONOMETRIC METHODS, 4 Credits
The use of multiple regression under generalized assumptions, specification problems, an introduction to simultaneous equation estimation, the classical linear model using matrices. Emphasis on the analysis of data and communication of findings.
Prerequisite: ECON 523 with C or better
Equivalent to: AREC 525, EC 525
Recommended: (ECON 424 or ECON 524) and ECON 512

ECON 526, APPLIED ECONOMETRICS, 4 Credits
Model building, hypothesis testing, and appropriate estimation procedures including generalized least squares, seemingly unrelated regressions, simultaneous equations, maximum likelihood, and limited dependent variables. Emphasis on applications and interpretation of results.
Equivalent to: AREC 526, EC 526
Recommended: ECON 525

ECON 535, PUBLIC ECONOMICS, 4 Credits
Composition and growth of government spending; theory of public expenditure; analysis of public expenditure programs; benefit-cost analysis; theory and practice of taxation; analysis of local, state, and federal taxes; government borrowing and fees; current issues in tax and expenditure policy.
Equivalent to: EC 535
Recommended: ECON 311 or ECON 411

ECON 539, PUBLIC POLICY ANALYSIS, 4 Credits
Theory of public problems and decision making. Evaluation of public policy strategies, selected public programs and individual public projects considering the full range of efficiency and equity effects. Direct and indirect impacts of policy, strength of implicit incentives, administrative feasibility, and problems of policy implementation.
Equivalent to: EC 539
Recommended: ECON 311 and ECON 435
Available via Ecampus

ECON 540, ECONOMICS OF GLOBALIZATION, 4 Credits
Examination of the phenomenon of globalization using economic analysis to explore controversial themes of the globalization debate--offshoring, sweatshops, child labor, environmental standards, intellectual property protection, cultural diversity, economic development, immigration, and governance.
Equivalent to: EC 540
Recommended: ECON 311
ECON 541, INTERNATIONAL FINANCE THEORY AND POLICY, 4 Credits
Theories and policies of exchange rate regimes; fixed, floating and managed floats; internal and external trade and capital balances; international capital flows and institutions.
Equivalent to: EC 541
Recommended: ECON 315

ECON 555, ECONOMIC DEVELOPMENT, 4 Credits
History, theories and policies for economic development in the Third World of underdeveloped countries.
Equivalent to: EC 555
Recommended: (ECON 201 or ECON 201H) and (ECON 202 or ECON 202H)

ECON 560, INDUSTRIAL ORGANIZATION THEORY AND POLICY, 4 Credits
The study of the causes of market structure, the behavior of firms in game theoretic settings, and the welfare implications of competitive and imperfectly competitive markets; United States antitrust and other laws regulating business behavior.
Equivalent to: EC 560
Recommended: ECON 311 or ECON 411

ECON 561, LAW, ECONOMICS, AND REGULATION, 4 Credits
The analysis of the effectiveness of laws and government regulations in fostering economic efficiency and fairness. Topics include the design of laws and policies to promote social welfare and the study of the effectiveness of criminal law, antitrust law, and the government regulation of business in promoting social goals.
Recommended: ECON 201 or ECON 201H

ECON 562, MANAGERIAL ECONOMICS, 4 Credits
The application of microeconomic theory and quantitative methods to management decisions. Case-oriented course emphasizing actual business decisions.
Recommended: ECON 311 or ECON 411

ECON 563, EFFICIENCY AND PRODUCTIVITY ANALYSIS, 4 Credits
Workshop on the theory and measurement of performance, especially efficiency and productivity. Emphasis on application including introduction to user-friendly software.
Recommended: ECON 311 or ECON 411

ECON 566, ECONOMICS OF TRADITIONAL AND RENEWABLE ENERGY, 4 Credits
Reviews and analyzes the economics and structure of world markets for various traditional energy (e.g., oil, coal, natural gas), as well as renewable energy (wind, geothermal and solar) with the latter focusing on the Pacific Northwest electrical industry structure and regulatory framework.
Recommended: ECON 201 or ECON 201H

ECON 570, MACROECONOMIC THEORY I, 4 Credits
Introduction to dynamic macroeconomic theory, including a review of Keynesian models, continuous and discrete time programming, Solow, Ramsey, and endogenous growth models, and real business cycle theory.
Equivalent to: ECON 315 or equivalent.

ECON 580, LABOR ECONOMICS AND SOCIAL POLICY, 4 Credits
Interaction of workers and firms in labor markets, social policy and its effects on labor markets, human capital theory and education policy, discrimination and other sources of wage differentials; immigration, unemployment, inequality.
Equivalent to: EC 580
Recommended: ECON 311 or ECON 411 or Microeconomics such as ECON 517

ECON 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
Recommended: ECON 311 or ECON 411 or Microeconomics such as ECON 517

ECON 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EC 601
This course is repeatable for 16 credits.

ECON 602, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: EC 602
This course is repeatable for 16 credits.

ECON 603, THESIS, 1-16 Credits
Equivalent to: EC 603
This course is repeatable for 999 credits.

ECON 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EC 605
This course is repeatable for 16 credits.

ECON 606, PROJECTS, 1-16 Credits
Equivalent to: EC 606
This course is repeatable for 16 credits.

ECON 607, SEMINAR, 1-16 Credits
Equivalent to: EC 607
This course is repeatable for 16 credits.

ECON 610, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
ED 199, SPECIAL TOPICS, 1-16 Credits

Students in this course receive training and experience in one-on-one and group tutoring in varied courses. They are then assigned tutees.

Equivalent to: TCE 199
This course is repeatable for 16 credits.

ED 216, *PURPOSE, STRUCTURE, AND FUNCTION OF EDUCATION IN A DEMOCRACY, 3 Credits

Introduction to the historical, social, philosophical, political, legal and economic foundations of education in Oregon, the United States, and other countries in order to provide a framework from which to analyze contemporary educational and environmental issues in various schools, communities, and workplaces. (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

Equivalent to: ED 216H, TCE 216
Available via Ecampus

ED 216H, *PURPOSE, STRUCTURE, AND FUNCTION OF EDUCATION IN A DEMOCRACY, 3 Credits

Introduction to the historical, social, philosophical, political, legal and economic foundations of education in Oregon, the United States, and other countries in order to provide a framework from which to analyze contemporary educational and environmental issues in various schools, communities, and workplaces. (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator

Equivalent to: ED 216

ED 219, *SOCIAL JUSTICE, CIVIL RIGHTS & MULTICULTURALISM IN EDUCATION, 3 Credits

Covers examination of equity and injustice based on social groupings such as race, gender, language, and ability. Discusses equitable approaches and power in systems and institutions of society (e.g., schooling, curriculum, educational policy) and how to actively make change. Reviews contemplation of multiculturalism and personal experiences through a wholeness approach. (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

Equivalent to: TCE 219
Available via Ecampus

ED 253, LEARNING ACROSS THE LIFESPAN, 3 Credits

An exploration of how learning occurs at all ages from early childhood through adulthood. Covers major and emerging theories and styles, self-reflection on implications of how learning occurs for self and others, and the impact of these issues on the development and delivery of instruction.

Equivalent to: TCE 253
Available via Ecampus

ED 299, SPECIAL TOPICS, 1-16 Credits

Equivalent to: TCE 299
This course is repeatable for 16 credits.

ED 309, FIELD PRACTICUM, 3-6 Credits

Placement in either an elementary, middle or secondary school. To assist students to develop competencies in dealing with children or adolescents according to the individual major of the university student.

Equivalent to: TCE 309
This course is repeatable for 18 credits.

Available via Ecampus

ED 310, INTERNSHIP/WORK EXPERIENCE, 1-18 Credits

This course is repeatable for 18 credits.

ED 340, SUPPORTIVE DIFFERENTIATED ENVIRONMENTS, 3 Credits

Addresses special abilities and needs of learners and helps prepare teachers to develop strategies and instructional practices for diverse learners and students with exceptionalities in a supportive and inclusive classroom. (Writing Intensive Course)

Attributes: CWIC – Core, Skills, WIC

Equivalent to: TCE 340

ED 394, DIFFERENTIATION IN THE ELEMENTARY CLASSROOM, 2 Credits

The role of culture, language, and group identification in learning will be examined and applied to the consideration of differentiated instructional strategies in grades K-5. Students will learn strategies teachers use to help differentiate instruction to meet the diverse needs of students in the elementary classroom.

ED 399, SPECIAL TOPICS, 1-16 Credits

Equivalent to: TCE 399
This course is repeatable for 16 credits.

ED 401, RESEARCH, 1-16 Credits

Equivalent to: TCE 401
This course is repeatable for 16 credits.

ED 402, INDEPENDENT STUDY, 1-16 Credits

Equivalent to: TCE 402
This course is repeatable for 16 credits.

Available via Ecampus

ED 403, THESIS, 1-16 Credits

This course is repeatable for 16 credits.

ED 405, READING AND CONFERENCE, 1-16 Credits

Equivalent to: TCE 405
This course is repeatable for 16 credits.

ED 406, PROJECTS, 1-3 Credits

Equivalent to: TCE 406
This course is repeatable for 16 credits.
ED 407, SEMINAR, 1-16 Credits
Equivalent to: ED 407H, TCE 407
This course is repeatable for 16 credits.
Available via Ecampus

ED 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ED 407, TCE 407
This course is repeatable for 16 credits.

ED 408, WORKSHOP, 1-3 Credits
Equivalent to: ED 408H, TCE 408
This course is repeatable for 16 credits.

ED 408H, WORKSHOP, 1-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ED 408, TCE 408H
This course is repeatable for 16 credits.

ED 409, PRACTICUM/CLINICAL EXPERIENCE, 1-16 Credits
Equivalent to: TCE 409
This course is repeatable for 16 credits.

ED 410, INTERNSHIP/WORK EXPERIENCE, 1-18 Credits
Equivalent to: TCE 410
This course is repeatable for 18 credits.
Available via Ecampus

ED 411, EDUCATIONAL PSYCHOLOGY, LEARNING AND DEVELOPMENT, 3 Credits
An opportunity to begin the transition from student to teacher. Explores the relationship between human development and learning through the life cycle.
Equivalent to: TCE 411
Available via Ecampus

ED 412, LEARNING STYLES AND NEEDS IN ADOLESCENCE, 2 Credits
Exploration of the particular learning styles and needs of the adolescent, major and emerging learning theories, individual learning styles including one’s own learning styles, self-reflection on implications of how learning occurs, and the impact of these issues on the development and delivery of instruction.
Equivalent to: TCE 412

ED 413, LEARNING ENVIRONMENTS I: FOSTERING CLASS ENGAGEMENT, 3 Credits
Creating a positive culture in the classroom, managing student behavior, and engaging students in critical learning discourse are challenges faced by all educators. Students will learn to develop the components of a productive and safe learning environment.

ED 414, LEARNING ENVIRONMENTS II: ADVANCING EVERY STUDENT, 2 Credits
Students will expand their knowledge about constructing a positive K-12 classroom environment to a productive learning environment accommodated to fit the needs of a diversified student population.
Prerequisite: ED 413 with D- or better

ED 420, CLASSROOM MANAGEMENT, 3 Credits
Build knowledge and learn techniques for cultivating a positive learning environment and for managing classrooms. Learn through examining the literature and observing relevant learning environments and classrooms. Explore factors that influence student behavior, including those associated with social and/or multicultural student populations.
Available via Ecampus

ED 424, TEACHER AS REFLECTIVE PRACTITIONER, 2 Credits
Designed to help teachers make complex judgments based upon their knowledge and understanding of their students, the curriculum, and larger social and cultural issues through reflective practice. Problem solving related to teaching with strong focus on generating new knowledge about teaching, learning, and assessment.
Prerequisite: ED 407 with C- or better and ED 410 [C-]

ED 425, CURRICULUM IMPLEMENTATION AND INSTRUCTIONAL STRATEGIES 7-12, 4 Credits
The relationship of theory to practice in teaching the content areas in grades 7-12 is examined. General curriculum trends as well as content selection in specific endorsement/subject areas are explored. This course is preparation for and is coordinated with part-time student teaching.
Equivalent to: TCE 425

ED 427, ASSESSMENT FOR K-12 INSTRUCTION, 2 Credits
Students study and practice the administration, interpretation, and design of assessments for groups and individuals within the content area. Students will develop an understanding of a variety of assessment strategies for K-12 education that will enhance their understandings of the role of assessment in learning and curriculum design.
Equivalent to: TCE 427

ED 429, CURRICULUM, INSTRUCTION, AND ASSESSMENT FOR CTE, 3 Credits
Build knowledge and skills in curriculum design, instructional strategies, and assessment for successful teaching in a Career and Technical Education and other specialty areas: (a) Agriculture Food and Natural Resource Systems, (b) Arts, Information and Communications, (c) Business Management, (d) Health Sciences (e) Human Resources, (f) Industrial and Engineering Systems, (g) Family and Consumer Sciences, (h) Career Trades.
Available via Ecampus
ED 440, HUMAN DEVELOPMENT AND PSYCHOLOGY OF THE ADOLESCENT, 3 Credits
Examines research from psychology, human development, and neuroscience to provide a holistic understanding of adolescents and learning with a focus on the middle/secondary student. Investigates the influence of family, neighborhood, peer, and school contexts on brain development; identity formation; and the challenges and opportunities of adolescence.
Available via Ecampus

ED 448, STUDENTS WITH SPECIAL NEEDS, 2 Credits
Explores the broad range of special needs represented in today's classrooms. Addresses various types and characteristics of disabilities as well as collaborating with specialists and families with children with special needs. Discusses strategies and instructional practices to enhance the learning of diverse students in the inclusive classroom.

ED 450, FOUNDATIONS OF EDUCATION AND PLANNING, 4 Credits
The first of three courses examining the iterative cycle of curriculum planning, instruction and assessment. An introduction to learning theory and the relationship between teaching and learning provide the foundation. An overview of the complete teaching cycle leads to a focus on curriculum planning based on state standards.

ED 451, ASSESSMENT, 4 Credits
Assessment for and of learning and its importance to student engagement and advancement. Formal and informal writing derived from multiple revisions will result in documents intended for different audiences including parents, school administrators, and national assessment prompts citing research-based practices.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ED 450 with C or better

ED 452, USING DATA TO SUPPORT ALL STUDENTS, 3 Credits
Teacher candidates will gather and analyze student data to inform instructional practice devoted to enhancing student learning; develop data literacy skills; differentiate instruction for targeted groups and individualized student learners while continuing to foster higher-order thinking and communication skills in the whole class; analyze patterns and gaps in individualized student learning; apply differentiated instruction and assessment strategies to support student growth; engage learners in goal setting; and identify teaching and assessment strategies to work with students with exceptional needs.
Prerequisite: ED 451 with C or better

ED 456, STRATEGIES FOR TEACHING LANGUAGE ARTS AND SOCIAL STUDIES, 3 Credits
Exploration of language arts and social studies programs (e.g., children's literature, writing, special needs, spelling, and cultural factors). Development of research-based teaching strategies and assessment. Focuses on the development of inquiry approaches that reflect interdisciplinary curriculum as well as subject-specific pedagogy in the teaching of both social studies and language arts.
Equivalent to: TCE 456
Recommended: ED 216 and ED 219 and ED 253

ED 457, TEACHING ELEMENTARY MATHEMATICS FOR UNDERSTANDING, 3 Credits
Part of the Education Double Degree. Explores the teaching of mathematics in K-8 classrooms in a manner consistent with state and national standards. Students learn teaching strategies that incorporate the development of mathematical models and mental constructs.
Equivalent to: TCE 457
Recommended: MTH 211 and MTH 212 and MTH 390

ED 458, STRATEGIES FOR TEACHING WELLNESS AND FINE ARTS, 2 Credits
Exploration of recent trends and research-based practices in the teaching of wellness, physical education, and fine arts. Includes strategies, assessments, special needs, integrating curriculum through developmentally appropriate practices, content standards, and the value of developing holistic learners though an effective wellness and fine arts program.
Equivalent to: TCE 458
Recommended: ED 216 and ED 219 and ED 253

ED 463, STRATEGIES FOR TEACHING PHYSICAL EDUCATION HEALTH & WELLNESS, 1 Credit
Exploration of recent trends and research-based practices in the teaching of physical education, health, and wellness in elementary school. Includes instructional strategies for developing holistic learners though an effective wellness program.

ED 465, ELEMENTARY METHODS: LITERACY, 2-4 Credits
Understanding the theoretical and developmental foundations for literacy programs K-5; targeted reading, writing, listening, vocabulary, and speaking skill needs assessments; organizational strategies for teaching literacy; understanding dyslexia and how to differentiate instruction for students with dyslexia; and the integration of cultural diversity and social justice into literacy learning.
This course is repeatable for 4 credits.
ED 466, ELEMENTARY METHODS II: MATHEMATICS, 4 Credits
Exploration of the teaching of early childhood/elementary school mathematics with emphases on problem solving, connections, representation, communication, reasoning and proof. Course will incorporate the development of mathematical models and mental constructs. Research-based, developmentally appropriate and culturally relevant practices will be incorporated into lessons.

ED 467, ELEMENTARY METHODS III: NATURAL AND SOCIAL SCIENCE, 4 Credits
Inquiry approaches to the teaching and learning of the natural and social sciences are used to explore the structure of the disciplines and support the creation of instructional units that develop disciplinary knowledge and practices/skills while highlighting cross-cutting themes. Scientific literacy and civic competence are emphasized.

ED 468, ELEMENTARY METHODS IV: LANGUAGE ARTS, 4 Credits
This course will build on ED 465: Elementary Methods I: Literacy. Development of pedagogy in teaching of reading to elementary-aged students, including the teaching of vocabulary, comprehension, phonics, fluency and motivation to read. Use of children's literature, assessment approaches, and special needs students are also addressed. Students will gain a deeper level of understanding in how to differentiate the teaching of reading at grades K-5, how to run a Writers' Workshop, and how to integrate literacy into other content areas.
Prerequisite: ED 465 with C or better

ED 469, STRATEGIES FOR TEACHING THE FINE ARTS, 1 Credit
Exploration of recent trends and research-based practices in the teaching of performing arts (dance, music, theater) and the visual arts in elementary school. Includes instructional strategies for developing holistic learners through an effective fine arts program.

ED 470, BILITERACY INSTRUCTION, 3 Credits
Explores literacy development in Spanish and English. Examines differences in literacy development across the two languages, as well as pedagogical approaches that leverage students’ home language and literacy practices. Explores equity and bias in classroom language practices. Taught bilingually in Spanish and English.
Prerequisite: ED 472 (may be taken concurrently) with C or better
Available via Ecampus

ED 471, MULTILINGUAL LINGUISTICS, 3 Credits
Explores linguistic categories: phonology, morphology, syntax, semantics, pragmatics, and discourse. Focuses on academic language development and teaching implications for emergent bilingual students in Spanish-English K-12 dual language programs. Taught bilingually in Spanish and English.
Prerequisite: ED 472 (may be taken concurrently) with C or better
Available via Ecampus

ED 472, FOUNDATIONS OF ESOL EDUCATION, 3 Credits
Examines characteristics of English language learners (ELLs), key theories in language acquisition, the role of culture in language development, and instructional program models for ELLs, while considering implications for classroom instruction.
Equivalent to: TCE 472
Available via Ecampus

ED 473, INSTRUCTIONAL APPROACHES FOR ESOL EDUCATION, 3 Credits
Examines characteristics of standards-based content-area instruction for emergent bilinguals. Includes integration of content and language development, classroom-based assessment, and use of technology to support student learning.
Prerequisite: ED 472 with C or better
Equivalent to: TCE 473

ED 474, PROJECT-BASED MATHEMATICS, 3 Credits
Building on the foundational concepts covered in ED 457 and ED 466/ED 566, students will plan and apply project-based lessons. Students will transfer knowledge and skills of mathematics to real world problems and will learn to teach with a project-based approach.

ED 475, INTEGRATED STEM, 3 Credits
Students will continue to develop their pedagogical content knowledge in science, technology, engineering, mathematics, and integrated STEM. Students will develop a deeper understanding of the crosscutting concepts common to all science endeavors and will learn how to use these concepts to bridge across science or STEM curriculum units. Students will also examine and develop expertise in using science and engineering practices to lead students in authentic inquiry. Integrating crosscutting concepts, science and engineering practices, and disciplinary core ideas, students will learn and practice the development of curriculum and instruction utilizing the engineering design process.

ED 476, PARTNERSHIPS AND IDEOLOGIES IN ESOL EDUCATION, 3 Credits
Considers social and political issues pertaining to educating English language learners. Focuses on exploring multiple ideologies in ESOL and building partnerships across schools, families, and communities.
Prerequisite: ED 472 with C or better
Equivalent to: TCE 476

ED 477, DIFFERENTIATION FOR STUDENTS WITH SPECIAL NEEDS, 3 Credits
Building on the foundational concepts covered in HDFS 431, this course goes into greater depth on how to provide students with a range of exceptionalities with education in the least restrictive environment. Teacher candidates will explore differentiated instruction techniques for students with special needs that can be used in both the regular education and pull out Special Education resource classrooms.
ED 478, SPECIAL EDUCATION LAW RIGHTS AND REGULATIONS, 3 Credits
In-depth review of special education law and regulations that protect and provide educational rights for students with disabilities. Teacher candidates will leave the class understanding both the historical and current legal rights of students receiving special education and how to best meet those rights in both the regular and special education resource classrooms.
Available via Ecampus

ED 479, LINGUISTICS FOR TEACHERS, 3 Credits
Explores linguistic categories: phonology, morphology, syntax, semantics, pragmatics, and discourse. Focuses on teaching implications—from psycholinguistic, sociolinguistic, and critical perspectives—for emergent bilingual students in P-12 contexts.
Prerequisite: ED 472 with C or better
Equivalent to: TCE 479

ED 480, TEACHING MATH TO SECONDARY LEARNERS IN CONTEXT, 3 Credits
Enhance and reinforce mathematics embedded within occupational-specific curricula taught at the secondary level to prepare Career and Technical Education teachers for licensure.

ED 481, READING AND WRITING FOR SECONDARY LEARNERS IN CONTEXT, 3 Credits
Enhance and reinforce the authentic reading and writing embedded within occupationally relevant materials to prepare Career and Technical Education teachers for licensure.
Available via Ecampus

ED 483, DEVELOPMENTAL READING, 3 Credits
Development of pedagogy in teaching of reading to elementary-aged students, including teaching of vocabulary, comprehension, phonics, fluency and motivation to read. Use of children's literature, assessment approaches, and special needs students are also addressed. This is a PTCE course in the elementary Double Degree Program.
Equivalent to: TCE 483

ED 484, INTRODUCTION TO CAREER AND TECHNICAL EDUCATION, 3 Credits
A study of the history of Career and Technical Education, the impact of the educational reform on Career and Technical Education and workforce development. Topics include leaders in vocational education; legislative initiatives, social issues, and organizations involved in and impacting Career and Technical Education.
Available via Ecampus

ED 492, TECHNOLOGY TOOLS FOR TEACHING, 1 Credit
Develops technology skills needed to be successful as a classroom teacher. Explores how digital tools can be used in instruction, assessment, communication, and collaboration in educational settings to bring vibrant energy into student learning and engagement. Covers responsible digital citizenship, responsible use and ethics of technology in the classroom.

ED 493, READING, LITERATURE, AND LANGUAGE DEVELOPMENT IN THE CONTENT, 2 Credits
Examination of reading, literature, and language development methods that can be used by middle school and high school teachers to support students' learning of content area information. Development of specific reading strategies in content areas.
Equivalent to: TCE 493

ED 494, CONTENT STANDARDS AND CURRICULUM DEVELOPMENT FOR HIGH SCHOOL, 3 Credits
Exploration of content standards, materials and methods appropriate for high school students. Develops skills in work sample methodology through the design of effective instruction, integrating a variety of methods with existing understandings of content area, how people learn, and the diverse communities in which they work.
Equivalent to: TCE 494

ED 496, TECHNOLOGY FOR EDUCATORS, 3 Credits
Explore the integration of current and emerging technologies into K-12 content areas by engaging learners in real world issues and learning in a social context. Integrate technologies that promote critical thinking, communication, collaboration, and creativity. Discuss technologies in terms of cultural linguistic diversity. Gain transferable skills. Taught via Ecampus only.
Recommended: Basic computer literacy.
Available via Ecampus

ED 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: TCE 499
This course is repeatable for 16 credits.

ED 501, RESEARCH, 1-16 Credits
Equivalent to: TCE 501
This course is repeatable for 16 credits.

ED 502, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: TCE 502
This course is repeatable for 16 credits.
Available via Ecampus

ED 503, THESIS, 1-16 Credits
Equivalent to: TCE 503
This course is repeatable for 999 credits.
ED 505, READING & CONFERENCE, 1-16 Credits
Equivalent to: TCE 505
This course is repeatable for 16 credits.

ED 506, PROJECTS, 1-3 Credits
Equivalent to: TCE 506
This course is repeatable for 16 credits.

ED 507, SEMINAR, 1-16 Credits
Equivalent to: TCE 507
This course is repeatable for 16 credits.
Available via Ecampus

ED 508, WORKSHOP, 1-16 Credits
Equivalent to: TCE 508
This course is repeatable for 16 credits.

ED 509, PRACTICUM, 1-16 Credits
Equivalent to: TCE 509
This course is repeatable for 16 credits.
Available via Ecampus

ED 510, INTERNSHIP, 1-18 Credits
By special permission and arrangement.
Equivalent to: TCE 510
This course is repeatable for 40 credits.
Available via Ecampus

ED 513, LEARNING ENVIRONMENTS I: FOSTERING CLASS ENGAGEMENT, 3 Credits
Creating a positive culture in the classroom, managing student behavior, and engaging students in critical learning discourse are challenges faced by all educators. Students will learn to develop the components of a productive and safe learning environment.

ED 514, LEARNING ENVIRONMENTS II: ADVANCING EVERY STUDENT, 2 Credits
Students will expand their knowledge about constructing a positive K-12 classroom environment to a productive learning environment accommodated to fit the needs of a diversified student population.
Prerequisite: ED 513 with B or better

ED 515, LEARNING ENVIRONMENTS III: CULTURES AND COMMUNITIES, 2 Credits
The third in a series of courses to assist the Teacher candidate in developing a classroom culture of learning that challenges every student to succeed and thrive. Teacher candidates will understand the important role that culture and community play in the teaching and learning process, and develop culturally responsive teaching practices.
Prerequisite: ED 513 with B or better and ED 514 [B]

ED 518, PROFESSIONAL PRACTICE IN THE TEACHING COMMUNITY, 2 Credits
The professional themes of communication, collaboration, reflection, knowledge of learners, professional ethics, social justice and cultural understanding will be explored and applied to teaching contexts, behaviors, dispositions, and actions.

ED 519, CAPSTONE: TEACHING AS A PROFESSION, 3 Credits
Capstone course for the MAT in which teacher candidates further develop their educational philosophy and analyze their professional growth in alignment with national standards.

ED 520, CLASSROOM MANAGEMENT, 3 Credits
Build knowledge and learn techniques for cultivating a positive learning environment and for managing classrooms. Learn through examining the literature and observing relevant learning environments and classrooms. Explore factors that influence student behavior, including those associated with social and/or multicultural student populations.
Equivalent to: TCE 520
Available via Ecampus

ED 521, FUNDS OF KNOWLEDGE IN EDUCATION, 3 Credits
An introduction to multicultural education and developing cultural competence by using a funds of knowledge approach. This approach helps educators combine fieldwork and ethnographic research methods to gain cultural competence about the students they serve. Educators explore their own funds of knowledge as well as the children's through exploring their community and developing activities centered on children's own connections and resources.

ED 522, RACIAL AND CULTURAL HARMONY IN THE K-12 CLASSROOM, 3 Credits
An overview of many issues relevant to the increasingly diverse student population in public schools today. It explores how a culturally competent perspective can be incorporated into curriculum design, teaching strategies, and interactions with students and parents. The course is both self-directed and communal, requiring students to respond to the materials and each other, yet at their own pace.
Equivalent to: TCE 522
Available via Ecampus

ED 524, TEACHER AS REFLECTIVE PRACTITIONER, 2-3 Credits
Designed to help teachers make complex judgements based upon their knowledge and understanding of their students, the curriculum, and larger social and cultural issues through reflective practice. Problem solving related to teaching with strong focus on generating new knowledge about teaching, learning, and assessment.
Equivalent to: TCE 524
Available via Ecampus
ED 528, ASSESSMENT FOR LEARNING, 3 Credits
Applies the formative learning cycle to through development of an assessment plan. Examines various formative assessment practices that promote higher order thinking and empower students to show evidence of their learning through self-assessment and feedback.
Equivalent to: TCE 528
Available via Ecampus

ED 531, SCIENCE METHODS I: INQUIRY AND THE NATURE OF SCIENCE, 4 Credits
Introduction to (1) fundamentals of science teaching including the nature of science and inquiry, (2) designing instructional sequences and selecting curriculum resources aligned to state science standards and research-based learning progressions, (3) effective teaching moves, (4) supporting acquisition of academic language, and (5) productive and safe science learning environments.
Equivalent to: SED 513

ED 532, SCIENCE METHODS II: SUPPORTING STUDENTS’ CONCEPTUAL CHANGE, 4 Credits
Development of skill in identifying and addressing misconceptions or naive conceptions as part of the individualized conceptual change process. Integration of technology tools for instruction and assessment. Development of high-leverage science teaching practices with a focus on enhancing classroom discourse and evidence-based argumentation with a survey of science curriculum models.
Prerequisite: ED 531 with B or better

ED 533, SCIENCE METHODS III: SCIENCE FOR ALL LEARNERS, 4 Credits
Teaching science as a community of practice means addressing the needs of all learners, particularly those underrepresented in science. Uses technology to enhance high-leverage teaching practices and practices safe and effective laboratory teaching methods. Explores contextualized and interdisciplinary approaches to science education.
Prerequisite: ED 531 with B or better and ED 532 [B]

ED 537, MATHEMATICAL METHODS I: FOUNDATIONS OF NUMERICAL THOUGHT, 4 Credits
Introduction to the fundamentals of mathematics teaching including the nature and goals of mathematical thinking, numeracy, inquiry, and related academic language of mathematics. Students are introduced to the high high-leverage practices of ambitious mathematics teaching, designing instructional sequences and selecting curriculum resources aligned to state science standards and research-based learning progressions.
Equivalent to: SED 514

ED 538, MATHEMATICS METHODS II: CYCLES OF ENACTMENT, 4 Credits
Teacher candidates create instructional units based on student knowledge and skill while attending to needed accommodations. Designed to help the teacher candidate select or modify instructional materials based on student prior knowledge, experience, and interests; make accommodations for students; and provide for multiple representations across a unit of instruction.
Prerequisite: ED 537 with B or better

ED 539, MATHEMATICAL METHODS III: MATHEMATICS FOR EVERY LEARNER, 4 Credits
Teacher candidates will develop practices that support all students, regardless of background or ability. The teacher candidate will design a unit of instruction with complex learning goals that are cross- and multi-disciplinary, draw on multiple perspectives, and invoke higher order thinking and communication skills.
Prerequisite: ED 537 with B or better and ED 538 [B]

ED 540, HUMAN DEVELOPMENT AND PSYCHOLOGY OF THE ADOLESCENT, 3 Credits
Examines research from psychology, human development, and neuroscience to provide a holistic understanding of adolescents and learning with a focus on the middle/secondary student. Investigates the influence of family, neighborhood, peer, and school contexts on brain development; identity formation; and the challenges and opportunities of adolescence.
Available via Ecampus

ED 542, TEACHER LEADERSHIP, 3 Credits
Examines current conceptions, research, and philosophies of educational leadership. The goal is to promote teacher-leadership in effective teaching and learning and influence in local educational policies and programs.
Equivalent to: TCE 542

ED 544, TEACHING CRITICAL LITERACY, 3 Credits
Examines literacy curriculum and teaching practices in various real world contexts, such as critical literacy, supporting second language learners, argumentation, reading engagement and social justice. While still addressing technical dimensions of literacy education, students write critical literacy curricula, take turns leading critical book discussions, and learn to critique text bias. Course challenges students to develop critical consciousness as teachers of literacy in a democracy.

ED 548, STUDENTS WITH SPECIAL NEEDS, 2 Credits
Explores the broad range of special needs represented in today’s classrooms. Addresses various types and characteristics of disabilities as well as collaborating with specialists and families with children with special needs. Discusses strategies and instructional practices to enhance the learning of diverse students in the inclusive classroom.
Available via Ecampus
ED 549, TEACHING IN A DIFFERENTIATED AND DIVERSE CLASSROOM, 3 Credits
Addresses the philosophical framework, strategies, and assessment of differentiation to meet the needs of all students in the classroom.
Equivalent to: TCE 549

ED 550, THE EFFECTIVE TEACHING CYCLE I: FOUNDATIONS AND PLANNING, 4 Credits
The first of three courses examining the iterative cycle of curriculum planning, instruction, and assessment. An introduction to learning theory and the relationship between teaching and learning provides the foundation. An overview of the complete teaching cycle leads to a focus on curriculum planning based on state standards.

ED 551, THE EFFECTIVE TEACHING CYCLE II: ASSESSMENT, 4 Credits
The second of three courses examining the iterative cycle of curriculum planning, instruction, and assessment. Learning in this class will concentrate on assessment for and of learning and its importance to student engagement and advancement.
Prerequisite: ED 550 with B or better

ED 558, STRATEGIES FOR TEACHING WELLNESS AND FINE ARTS, 2 Credits
Exploration of recent trends and research-based practices in the teaching of wellness, physical education, and fine arts. Includes strategies, assessments, special needs, integrating curriculum through developmentally appropriate practices, content standards, and the value of developing holistic learners though an effective wellness and fine arts program.

ED 559, STRATEGIES FOR TEACHING HUMANITIES, 3 Credits
Pedagogical approaches to teaching language arts and social studies in K-5, multiple subject classrooms. Focus on developing research-based daily lessons and unit plans that integrate curriculum, support national standards, and use an inquiry approach for student learning.

ED 560, CHANGES IN ESOL EDUCATION, 3 Credits
Explores recent developments in education for K-12 emergent bilingual students, examining changes in theory, policy, and instruction. Practice-based projects draw on new language acquisition theories to address both language and content-knowledge development. Course work intended for K-12 teachers who earned an ESOL endorsement more than five years ago, as well as those with equivalent background knowledge.
Recommended: K-12 teaching license with ESOL endorsement Available via Ecampus

ED 561, ACTION RESEARCH, 1-3 Credits
Examines action research as a vehicle for teacher and administrator professional development. Specific topics of study include problem posing, data collection and analysis, theory building, and writing the report.
Equivalent to: TCE 561
This course is repeatable for 3 credits.

ED 562, INTRODUCTION TO EDUCATIONAL RESEARCH, 3 Credits
Explores the purpose and use of social science research in education with emphasis on action and applied research. Designed to help teachers and informal educators to critically read, interpret, and apply research findings to the diverse contexts in which they work, and to become informed consumers of educational research.
Equivalent to: TCE 562

ED 563, STRATEGIES FOR TEACHING PHYSICAL EDUCATION HEALTH & WELLNESS, 1 Credit
Exploration of recent trends and research-based practices in the teaching of physical education, health, and wellness in elementary school. Includes instructional strategies for developing holistic learners though an effective wellness program.

ED 565, ELEMENTARY METHODS: LITERACY, 2-4 Credits
Understanding the theoretical and developmental foundations for literacy programs K-5; targeted reading, writing, listening, vocabulary, and speaking skill needs assessments; organizational strategies for teaching literacy; understanding dyslexia and how to differentiate instruction for students with dyslexia; and the integration of cultural diversity and social justice into literacy learning.
This course is repeatable for 4 credits.

ED 566, ELEMENTARY METHODS: MATHEMATICS, 4 Credits
Exploration of the teaching of early childhood/elementary school mathematics with emphases on problem solving, connections, representation, communication, reasoning and proof. Course will incorporate the development of mathematical models and mental constructs. Research-based, developmentally appropriate and culturally relevant practices will be incorporated into lessons.

ED 567, ELEMENTARY METHODS: NATURAL AND SOCIAL SCIENCE, 4 Credits
Inquiry approaches to the teaching and learning of the natural and social sciences are used to explore the structure of the disciplines and support the creation of instructional units that develop disciplinary knowledge and practices/skills while highlighting cross-cutting themes. Scientific literacy and civic competence are emphasized.

ED 569, STRATEGIES FOR TEACHING THE FINE ARTS, 1 Credit
Exploration of recent trends and research-based practices in the teaching of performing arts (dance, music, theater) and the visual arts in elementary school. Includes instructional strategies for developing holistic learners though an effective fine arts program.
ED 570, BILITERACY INSTRUCTION, 3 Credits
Explores literacy development in Spanish and English. Examines differences in literacy development across the two languages, as well as pedagogical approaches that leverage students’ home language and literacy practices. Explores equity and bias in classroom language practices. Taught bilingually in Spanish and English.
Prerequisite: ED 572 (may be taken concurrently) with C or better
Available via Ecampus

ED 571, MULTILINGUAL LINGUISTICS, 3 Credits
Explores linguistic categories: phonology, morphology, syntax, semantics, pragmatics, and discourse. Focuses on academic language development and teaching implications for emergent bilingual students in Spanish-English K-12 dual language programs. Taught bilingually in Spanish and English.
Prerequisite: ED 572 (may be taken concurrently) with C or better
Available via Ecampus

ED 572, FOUNDATIONS OF ESOL EDUCATION, 3 Credits
Examines characteristics of English language learners (ELLs), key theories in language acquisition, the role of culture in language development, and instructional program models for ELLs, while considering implications for classroom instruction.
Equivalent to: TCE 572
Available via Ecampus

ED 573, INSTRUCTIONAL APPROACHES FOR ESOL EDUCATION, 3 Credits
Examines characteristics of standards-based content-area instruction for emergent bilinguals. Includes integration of content and language development, classroom-based assessment, and use of technology to support student learning.
Prerequisite: ED 572 with C or better
Equivalent to: TCE 573
Available via Ecampus

ED 574, PROJECT-BASED MATHEMATICS, 3 Credits
Building on the foundational concepts covered in ED 457 and ED 466/ED 566, students will plan and apply project-based lessons. Students will transfer knowledge and skills of mathematics to real world problems and will learn to teach with a project-based approach.

ED 575, INTEGRATED STEM, 3 Credits
Students will continue to develop their pedagogical content knowledge in science, technology, engineering, mathematics, and integrated STEM. Students will develop a deeper understanding of the crosscutting concepts common to all science endeavors and will learn how to use these concepts to bridge across science or STEM curriculum units. Students will also examine and develop expertise in using science and engineering practices to lead students in authentic inquiry. Integrating crosscutting concepts, science and engineering practices, and disciplinary core ideas, students will learn and practice the development of curriculum and instruction utilizing the engineering design process.

ED 576, PARTNERSHIPS AND IDEOLOGIES IN ESOL EDUCATION, 3 Credits
Considers social and political issues pertaining to educating English language learners. Focuses on exploring multiple ideologies in ESOL and building partnerships across schools, families, and communities.
Prerequisite: ED 572 with C or better
Equivalent to: TCE 576
Available via Ecampus

ED 577, DIFFERENTIATION FOR STUDENTS WITH SPECIAL NEEDS, 3 Credits
Building on the foundational concepts covered in HDFS 431, this course goes into greater depth on how to provide students with a range of exceptionalities with education in the least restrictive environment. Teacher candidates will explore differentiated instruction techniques for students with special needs that can be used in both the regular education and pull out Special Education resource classrooms.

ED 578, SPECIAL EDUCATION LAW RIGHTS AND REGULATIONS, 3 Credits
In-depth review of special education law and regulations that protect and provide educational rights for students with disabilities. Teacher candidates will leave the class understanding both the historical and current legal rights of students receiving special education and how to best meet those rights in both the regular and special education resource classrooms.

ED 579, LINGUISTICS FOR TEACHERS, 3 Credits
Explores linguistic categories: phonology, morphology, syntax, semantics, pragmatics, and discourse. Focuses on teaching implications—from psycholinguistic, sociolinguistic, and critical perspectives—for emergent bilingual students in P-12 contexts.
Prerequisite: ED 572 with C or better
Equivalent to: TCE 579
Available via Ecampus

ED 582, STRATEGIES FOR DEVELOPING LITERACY, 3 Credits
Focus on teaching of reading to K-5 students. Instruction in pedagogical techniques and assessment on teaching vocabulary, comprehension, phonic and fluency. Strategies related to motivation to read, integration of cultural diversity and social justice and the needs of diverse learners in literacy development are also addressed.

ED 584, LANGUAGE ARTS METHODS I: ADOLESCENT LITERACY, 4 Credits
Teaching language arts to middle and high school students requires a deep understanding of how reading and writing to learn occur. Guided by current professional and state literacy standards, students will learn to assess and advance adolescent reading comprehension, and writing and speaking skills.
ED 585, LANGUAGE ARTS METHODS II: STRATEGIES FOR GRADES 5-12, 4 Credits
Explores the integration and implementation of curriculum and high leverage instructional practices that respond to the learning needs of adolescents in language arts classrooms. Examines the importance of metacognitive strategies in the teaching of content-related skills and concepts, and how to create school cultures that support high achievement.

ED 586, LANGUAGE ARTS METHODS III: CURRICULUM AND THE PROFESSION, 4 Credits
Learning to teach language arts as a community of practice including the development of high-leverage instructional practices. Focus on enhancing classroom discourse and building student comprehension, meaning construction, interpretation, and response to complex text. Integration of technology tools for instruction and assessment.
Prerequisite: ED 584 with B or better and ED 585 [B]

ED 587, SOCIAL STUDIES METHODS I: ADOLESCENT LITERACY, 4 Credits
Teaching social studies to middle and high school students requires a deep understanding of how reading and writing to learn occur. Guided by current professional and state literacy standards, students will learn to assess and advance adolescent content reading comprehension, writing and speaking skills.

ED 588, SOCIAL STUDIES METHODS II: STRATEGIES FOR GRADES 5-12, 4 Credits
Explores the integration and implementation of curriculum and high leverage instructional practices that respond to the learning needs of adolescents in secondary social studies classrooms. Examines the importance of metacognitive strategies in the teaching of content-related skills and concepts, and how to create school cultures that support high achievement.

ED 589, SOCIAL STUDIES METHODS III: CURRICULUM AND THE PROFESSION, 4 Credits
Learning to teach social studies as a community of practice including the development of high-leverage instructional practices. Focus on curriculum strategies that provide opportunities for learners to develop and use facts, concepts, interpretations, and analyses to build and support arguments. Integration of technology tools for instruction and assessment.
Prerequisite: ED 587 with B or better and ED 588 [B]

ED 590, SOCIAL JUSTICE IN EDUCATION, 3 Credits
Examines social, environmental and ecological justice in educational settings focusing on bias critique in text, development of social justice curriculum, and creation of an action related to a social justice issue. The interconnectedness of social and ecological justice is also explored. Various international justice standards are used to ground students’ work in curriculum development.
Equivalent to: TCE 590
Available via Ecampus

ED 592, TECHNOLOGY TOOLS FOR TEACHING, 1 Credit
Develops technology skills needed to be successful as a classroom teacher. Explores how digital tools can be used in instruction, assessment, communication, and collaboration in educational settings to bring vibrant energy into student learning and engagement. Covers responsible digital citizenship, responsible use and ethics of technology in the classroom.

ED 594, DIFFERENTIATION, 2 Credits
Issues of K-12 learner and the role of culture, language, and group identification in learning will be examined and applied to the consideration of differentiated instructional strategies.

ED 595, EDUCATIONAL DEVELOPMENT, 2 Credits
Issues of K-12 learner social/emotional/cognitive development across multiple areas of learning will be examined, with consideration given to impact on classroom pedagogy.

ED 596, TECHNOLOGY FOR EDUCATORS, 3 Credits
Explore the integration of current and emerging technologies into K-12 content areas by engaging learners in real world issues and learning in a social context. Integrate technologies that promote critical thinking, communication, collaboration, and creativity. Discuss technologies in terms of cultural linguistic diversity. Gain transferable skills. Taught via Ecampus only.
Equivalent to: TCE 596
Recommended: Basic computer literacy.
Available via Ecampus

ED 597, K-5 STEM INTEGRATION IN DIVERSE CLASSROOMS, 2 Credits
An investigation of theory and practice related to science teaching and learning in diverse classrooms through integration of science, math, literacy and social studies.
Available via Ecampus

ED 599, SPECIAL TOPICS, 1-4 Credits
Equivalent to: TCE 599
This course is repeatable for 90 credits.

ED 601, RESEARCH, 1-16 Credits
Equivalent to: TCE 601
This course is repeatable for 16 credits.

ED 602, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: TCE 602
This course is repeatable for 16 credits.

ED 603, THESIS, 1-16 Credits
Equivalent to: TCE 603
This course is repeatable for 999 credits.
ED 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: TCE 605
This course is repeatable for 16 credits.

ED 606, PROJECTS, 1-16 Credits
Equivalent to: TCE 606
This course is repeatable for 16 credits.

ED 607, SEMINAR, 1-16 Credits
Equivalent to: TCE 607
This course is repeatable for 16 credits.

ED 608, WORKSHOP, 1-16 Credits
Equivalent to: TCE 608
This course is repeatable for 16 credits.

ED 609, PRACTICUM/CLINICAL EXPERIENCE, 1-16 Credits
Equivalent to: TCE 609
This course is repeatable for 16 credits.

ED 610, INTERNSHIP, 1-15 Credits
Equivalent to: TCE 610
This course is repeatable for 15 credits.

ED 620, RESEARCH DESIGN AND EPISTEMOLOGIES, 3 Credits
Analysis of multiple research designs and epistemologies in education research. Development of critical reading of research and synthesis across related literature. Consideration of epistemologies and theoretical traditions in educational scholarship and how they shape research design. Exploration of the historical and ethical contexts of empirical research in related educational fields.
Equivalent to: SED 580

ED 622, QUALITATIVE RESEARCH TECHNIQUES IN EDUCATION, 3 Credits
A study of qualitative research designs and analytical procedures with specific applications in education.
Prerequisite: SED 580 with C or better or ED 620 with C or better
Equivalent to: SED 622

ED 624, QUANTITATIVE RESEARCH DESIGN AND CRITICAL ANALYSIS, 3 Credits
A study of quantitative research designs and analytical procedures with specific applications in education.
Prerequisite: ED 620 with C or better or SED 580 with C or better
Equivalent to: SED 612

ED 650, EQUITY AND EDUCATION POLICY, 3 Credits
Introduces students to key educational policy debates, with a particular focus on attempts to use education policy to advance equity. Examines different visions for the purpose of education and different definitions of equity. Explores the roles of different actors within education policy, including legislators, courts, and non-governmental organizations. Provides students with frameworks for analyzing education policy, which students will then apply to analyze a current policy debate that is of interest to them.

ED 651, RESEARCH BILINGUALISM AND MULTILINGUALISM, 3 Credits
Develops critical research skills to create new knowledge in the field of multilingualism. Examines interdisciplinary and intersectional perspectives to consider notions of identity among multilinguals and explore the historical trajectory of bilingualism and multilingualism research. Provides a broad understanding of the theoretical and methodological frameworks used to study bilingualism and multilingualism in globalized contexts.

ED 652, ETHNOGRAPHIC METHODS, 3 Credits
As an advanced qualitative method class, this course introduces theory and ethnographic research methods by presenting the various ways by which socio-cultural anthropologists observe and analyze phenomena, groups or individuals in everyday language and social practices in their local and global contexts, taking into account issues of language, equity and educational policy. Students will carry out an ethnographic research project of a particular phenomenon they wish to learn more about.
Prerequisite: SED 622 with B or better

ED 653, DISCOURSE, IDENTITY AND EDUCATION, 3 Credits
Builds a foundation in discourse theory and its applications to identity and education. Includes empirical studies that draw from particular lenses of discourse theory, exemplifying how these scholars organize the design, implementation, and discussion of research around discourse theory. Develops knowledge of discourse theory to propose a study that could be conducted drawing from discourse analytic perspectives.

ED 808, WORKSHOP, 1-4 Credits
Equivalent to: TCE 808
This course is repeatable for 16 credits.

Electrical & Computer Engineer (ECE)

ECE 111, INTRODUCTION TO ECE: TOOLS, 3 Credits
Introduction to the electrical and computer engineering professional practice. Covers the foundations of engineering problem solving and other skills necessary for success. Students will be taught engineering practice through hands-on approaches. Recommended for electrical and computer engineering majors, and for those interested in engineering as a profession. Lec/lab. Has extra fees.
Recommended: Completion or concurrent enrollment in MTH 111
ECE 112, INTRODUCTION TO ECE: CONCEPTS, 3 Credits
Basic electrical and computer engineering concepts, problem solving and hands-on laboratory project. Topics include electronic circuit and device models, digital logic, circuit analysis, and simulation tools. Lec/lab. Has extra fees.
Pre requisite: MTH 111 with C or better or MTH 112 with C or better or MTH 251 with C or better or MTH 251H with C or better or Math Placement Test with a score of 23

ECE 199, SPECIAL STUDIES, 0-16 Credits
One-credit section. Graded P/N. This course is repeatable for 16 credits.

ECE 271, DIGITAL LOGIC DESIGN, 3 Credits
A first course in digital logic design. Data types and representations, Boolean algebra, state machines, simplification of switching expressions, and introductory computer arithmetic. Lec/rec.
Pre requisite: MTH 251 (may be taken concurrently) with C or better or MTH 251H (may be taken concurrently) with C or better and MTH 231 (may be taken concurrently) with C or better

ECE 272, DIGITAL LOGIC DESIGN LABORATORY, 1 Credit
This laboratory course accompanies ECE 271, Digital Logic Design. This also illustrates topics covered in the lectures of ECE 271 using computer-aided design, verification tools, and prototyping hardware.
Recommended: Completion or concurrent enrollment in ECE 271

ECE 322, ELECTRONICS I, 3 Credits
Fundamental device characteristics including diodes, MOSFETs and bipolar transistors; small- and large-signal characteristics and design of linear circuits.
Pre requisite: ENGR 203 with C or better
Equivalent to: ECE 322H

ECE 322H, ELECTRONICS I, 3 Credits
Fundamental device characteristics including diodes, MOSFETs and bipolar transistors; small- and large-signal characteristics and design of linear circuits.
Attributes: HNRS – Honors Course Designator
Pre requisite: ENGR 203 with C or better
Equivalent to: ECE 322

ECE 323, ELECTRONICS II, 3 Credits
Transient operation of MOSFETs and bipolar transistors; multistage amplifiers; frequency response; feedback and stability.
Pre requisite: ECE 322 with C or better

ECE 331, ELECTROMECHANICAL ENERGY CONVERSION, 4 Credits
Energy conversion principles for electric machines. Steady state characteristics of direct current, induction, and synchronous machines. Application of stepper and servo motors and synchronous generators.
Pre requisite: (ENGR 202 with C or better or ENGR 202H with C or better) and MTH 256 [C] and PH 213 [C]

ECE 332, LABORATORY ON ELECTROMECHANICAL ENERGY CONVERSION, 1 Credit
DC, PMAC, and induction machine testing, operation, and control.
Pre requisite: ENGR 202 with C or better or ENGR 202H with C or better
Corequisite: ECE 331

ECE 341, JUNIOR DESIGN I, 3 Credits
Introduction to system design and group projects. Design and fabrication of an electrical engineering project in a small group.
Pre requisite: CS 261 (may be taken concurrently) with C or better and ENGR 203 [C]

ECE 342, JUNIOR DESIGN II, 3 Credits
Introduction to system design and group projects. Design and fabrication of an electrical engineering project in a small group.
Pre requisite: ECE 341 with C or better

ECE 351, SIGNALS AND SYSTEMS I, 3 Credits
Analytical techniques for continuous-time and discrete-time signal, system, and circuit analysis. Lec.
Pre requisite: ENGR 203 with C or better and (MTH 256 [C] or MTH 256H [C])

ECE 352, SIGNALS AND SYSTEMS II, 3 Credits
Analytical techniques for continuous-time and discrete-time signal, system, and circuit analysis.
Pre requisite: ECE 351 with C or better and (MTH 306 [C] or MTH 306H [C])

ECE 353, INTRODUCTION TO PROBABILITY AND RANDOM SIGNALS, 3 Credits
Explores discrete and continuous probability concepts, single and multiple random variable distributions, expectation, introductory stochastic processes, correlation and power spectral density properties of random signals, random signals through linear filters.
Pre requisite: ECE 351 with C or better

ECE 372, INTRODUCTION TO COMPUTER NETWORKS, 4 Credits
Computer network principles, fundamental networking concepts, packet-switching and circuit switching, TCP/IP protocol layers, reliable data transfer, congestion control, flow control, packet forwarding and routing, MAC addressing, multiple access techniques. CROSSLISTED as CS 372/ECE 372.
Pre requisite: CS 261 with C or better and (ECE 271 [C] or CS 271 [C])
Equivalent to: CS 372
Recommended: C programming and Unix familiarity.
ECE 375, COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE PROGRAMMING, 4 Credits
Introduction to computer organization, how major components in a computer system function together in executing a program, and assembly language programming. Lec/lab.
Prerequisite: ECE 271 with C or better
Recommended: CS 261 or C/C++ programming

ECE 390, ELECTRIC AND MAGNETIC FIELDS, 4 Credits
Static and quasi-static electric and magnetic fields.
Prerequisite: (MTH 255 with C or better or MTH 255H with C or better) and ENGR 203 (may be taken concurrently) [C] and PH 213 [C]

ECE 391, TRANSMISSION LINES, 3 Credits
Transient and steady-state analysis of transmission line circuits with application to engineering problems.
Prerequisite: ECE 322 (may be taken concurrently) with C or better and ENGR 203 [C] and (MTH 254 [C] or MTH 254H [C]) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ECE 391X

ECE 399, SPECIAL TOPICS, 1-16 Credits
Course work to meet students' needs in advanced or specialized areas and to introduce new, important topics in electrical and computer engineering at the undergraduate (junior/senior) level.
Equivalent to: ECE 399H
This course is repeatable for 16 credits.

ECE 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ECE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ECE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ECE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ECE 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ECE 411, ENGINEERING MAGNETICS, 3 Credits
Application of magnetic materials in the design of magnetic devices. Properties of magnetic materials; engineering design of actuators, sensors and data storage devices. Introduction to spintronics.
Prerequisite: ECE 390 with C or better

ECE 413, SENSORS, 3 Credits
Overview of sensor technologies including materials, physics of operation, applications and system integration.
Prerequisite: ECE 323 with C or better and PH 213 [C] and (CH 201 [C] or CH 231 [C]) or (CH 121 [C] and CH 122 [C]) or (CH 231 [C] and CH 261 [C])

ECE 415, MATERIAL SCIENCE OF NANOTECHNOLOGY, 3 Credits
Introduction physical chemistry of solid surfaces, thermodynamics, and kinetics applied to synthesis of nanomaterials such as nanoparticles, nanowires, thin films, carbon nanotubes, fullerenes, graphene, etc. Characterization of nanomaterials, applications of nanomaterials, nano-synthesis techniques, integration of nanotechnology, and emerging nanotechnology topics.
Prerequisite: ECE 416 with C or better or ENGR 321 with C or better or ENGR 321H with C or better

ECE 416, ELECTRONIC MATERIALS AND DEVICES, 4 Credits
Semiconductor fundamentals and physical principles of pn junctions and Schottky barrier diodes.
Prerequisite: ENGR 201 with C or better and PH 213 [C] and (CH 201 [C] or CH 231 [C]) or (CH 121 [C] and CH 122 [C]) or (CH 231 [C] and CH 261 [C])
Equivalent to: ECE 317

ECE 417, BASIC SEMICONDUCTOR DEVICES, 4 Credits
Theory and physical principles of bipolar junction and field-effect transistors. Lec/rec.
Prerequisite: ECE 416 with C or better

ECE 418, SEMICONDUCTOR PROCESSING, 4 Credits
Theory and practice of basic semiconductor processing techniques. Introduction to process simulation. Lec/lab/rec.
Prerequisite: ECE 416 with C or better

ECE 422, CMOS INTEGRATED CIRCUITS I, 4 Credits
Analysis and design of analog integrated circuits in CMOS technology; current mirrors, gain stages, single-ended operational amplifier, frequency response, and compensation.
Prerequisite: ECE 322 with C or better and ECE 323 (may be taken concurrently) [C]

ECE 423, CMOS INTEGRATED CIRCUITS II, 4 Credits
Analysis and design of analog integrated circuits in CMOS technology; cascaded current mirrors, cascaded gain stages, single-ended and fully differential operational amplifier, common-mode feedback, noise, and distortion. Lec/lab.
Prerequisite: ECE 422 with C or better

ECE 431, POWER ELECTRONICS, 4 Credits
Fundamentals and applications of devices, circuits and controllers used in systems for electronic power processing. Lec/lab.
Prerequisite: ECE 322 with C or better and ECE 323 (may be taken concurrently) [C] and ECE 351 [C]
ECE 432, DYNAMICS OF
ELECTROMECHANICAL ENERGY
CONVERSION, 4 Credits
Generalized machine theory. Techniques for dynamic analysis of
electromechanical machines including arbitrary reference frame theory.
Lec/lab.
Prerequisite: ECE 331 with C or better and ENGR 203 [C]
Corequisites: ECE 431

ECE 433, POWER SYSTEM ANALYSIS, 4
Credits
Fundamentals and control of real and reactive power, steady-state load
flow studies, unbalance, stability and transient system analysis.
Prerequisite: ECE 323 with C or better and ECE 352 [C] and (ENGR 202 [C]
or ENGR 202H [C]) and MTH 254 [C] and MTH 306 [C]
Recommended: Three-phase power

ECE 437, SMART GRID, 3 Credits
Fundamentals of smart power grids. Technology advances in
transmission and distribution systems, policy drivers, assets and demand
management, and smart grid security.
Prerequisite: ECE 433 with C or better
Recommended: Background in power systems analysis equivalent to
ECE 433

ECE 438, ELECTRIC AND HYBRID
ELECTRIC VEHICLES, 4 Credits
Transportation electrification history, hybrid electric vehicle architecture,
powertrain components and their modeling and control, vehicle system
dynamics and controls.
Prerequisite: ECE 331 with C or better and ECE 431 [C]

ECE 441, ENGINEERING DESIGN
PROJECT, 3 Credits
Exposes problem situations and issues in engineering design similar to
those encountered in industry through an extended team design project.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ECE 342 with C or better and WR 327 [C]

ECE 442, ENGINEERING DESIGN
PROJECT, 3 Credits
Exposes problem situations and issues in engineering design similar to
those encountered in industry through an extended team design project.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ECE 441 with C or better

ECE 443, ENGINEERING DESIGN
PROJECT, 2 Credits
Exposes problem situations and issues in engineering design similar to
those encountered in industry through an extended team design project.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ECE 442 with C or better

ECE 451, SYSTEMS DYNAMICS AND
CONTROL, 4 Credits
Modeling and analysis of linear continuous systems in time and
frequency domains. Fundamentals of single-input-single-output control
system design. CROSSLISTED as ECE 451/ME 430.
Prerequisite: (ME 317 with C or better or ME 317H with C or better
or (ECE 351 with C or better and ECE 352 [C] and (ENGR 212 [C] or
ENGR 212H [C])))
Equivalent to: ME 430, ME 430H
Available via Ecampus

ECE 461, INTRODUCTION TO ANALOG AND
DIGITAL COMMUNICATIONS, 4 Credits
Fundamental concepts of analog and digital telecommunication systems:
modeling, analysis, and design of analog amplitude and angle modulation
systems; probabilistic performance assessment of modulated signals
over noisy channels; introduction to baseband digital modulation
techniques such as binary pulse amplitude modulation and pulse position
modulation and their demodulation in the presence of random noise. Lec.
Prerequisite: ECE 351 with C or better and ECE 352 [C] and ECE 353 [C]

ECE 462, DIGITAL COMMUNICATIONS AND
CHANNEL CODING, 4 Credits
Modeling, analysis, design of baseband and passband digital
communications systems: geometric representation of signals; correlator
receivers for M-ary digital communications systems; decision theory
and its application to digital communication systems in additive white
Gaussian noise environment; generation, transmission, and reception of
passband digital modulated signals (BPSK, QPSK, FSK PAM); basics of
information theory and channel encoding. Lec.
Prerequisite: ECE 461 with C or better and ECE 351 [C] and ECE 352 [C]
and ECE 353 [C]

ECE 463, WIRELESS COMMUNICATIONS
NETWORK, 4 Credits
Wireless networks: personal area (IEEE 802.15.4a), local area (IEEE
802.11), metropolitan area (IEEE 802.16), and mobile cellular networks
(e.g., CDMA); physical-layer techniques for data modulation and multiple
access; RF system engineering aspects of mobile cellular networks (e.g.,
system capability for voice and packet data traffics, RF coverage for a
certain propagation environment.) Lec.
Prerequisite: ECE 351 with C or better and ECE 352 [C]
Recommended: Probability background and ECE 461

ECE 464, DIGITAL SIGNAL PROCESSING, 4
Credits
Analysis and design of discrete-time linear-time invariant systems
for processing discrete-time signals: DT-LTI system properties, DT
signal analysis using Discrete-Time Fourier Transform, Discrete Fourier
Transform and z-Transform, frequency response and transfer function.
Signal sampling and reconstruction, digital processing of continuous-
time signals, FIR and IIR digital filter design, and filter structures.
Prerequisite: ECE 351 with C or better and ECE 352 [C]
ECE 468, DIGITAL IMAGE PROCESSING, 3 Credits
Introduction to digital image processing including fundamental concepts of visual perception, image sampling and quantization, image enhancement in spatial and frequency domains (through 2D Fourier transform), image restoration, and color image processing. Implementation of algorithms using Matlab Image Processing Toolbox.
Prerequisite: ECE 351 with C or better and ECE 352 [C]

ECE 471, ENERGY-EFFICIENT VLSI DESIGN, 4 Credits
Combinational and sequential logic design using CMOS transistors; analysis of power consumption and logic delay of digital logic; clock design including skew, jitter, and dynamic clock energy consumption; supply voltage and power supply noise sources; dynamic voltage frequency scaling (DVFS); sub-threshold logic design and effect on energy/robustness; custom digital integrated circuit design including transistor layouts and CAD entry; CMOS scaling and the effect on process variability and power consumption. Lec/lab.
Prerequisite: ECE 271 with C or better and ECE 322 [C] and ECE 323 (may be taken concurrently) [C]
Equivalent to: CS 476, EECS 476

ECE 472, COMPUTER ARCHITECTURE, 4 Credits
Computer architecture using processors, memories, and I/O devices as building blocks. Issues involved in the design of instruction set architecture, processor, pipelining and memory organization. Design philosophies and trade-offs involved in Reduced Instruction Set Computer (RISC) architectures. Lec/lab. CROSSLISTED as CS 472/ ECE 472 and CS 572/ECE 572.
Prerequisite: ECE 375 with C or better
Equivalent to: CS 472

ECE 473, MICROCONTROLLER SYSTEM DESIGN, 4 Credits
Implementation of embedded computer systems focusing on the development of hardware and software for an embedded microcontroller system. Topics include internal microcontroller architecture, interfacing peripheral devices, mixed analog and digital systems, and hardware and software implementation of several systems using a microcontroller and peripherals. Lec/lab.
Prerequisite: ECE 322 with C or better and ECE 375 [C] and CS 261 [C]

ECE 474, VLSI SYSTEM DESIGN, 4 Credits
Introduction to custom and semi-custom digital integrated circuit design as used in VLSI systems. The use of CAD/CAE tools, design management, and design methodology are introduced.
Prerequisite: ECE 322 with C or better and ECE 375 [C]

ECE 476, ADVANCED COMPUTER NETWORKING, 4 Credits
Prerequisite: (CS 372 with C or better or ECE 372 with C or better) and (ECE 353 [C] or ST 314 [C] or ST 314H [C])
Equivalent to: CS 476, EECS 476

ECE 477, MULTIMEDIA SYSTEMS, 4 Credits
Design of multimedia systems used in information technology covering the hardware, software, applications, and networks. Components covered include multimedia representation, coding and compression techniques, wireless networks, networking for multimedia, and embedded system for multimedia. Lec.
Recommended: ECE 375

ECE 478, NETWORK SECURITY, 4 Credits
Basic concepts and techniques in network security, risks and vulnerabilities, applied cryptography and various network security protocols. Coverage of high-level concepts such as authentication, confidentiality, integrity, and availability applied to networking systems. Fundamental techniques including authentication protocols, group key establishment and management, trusted intermediaries, public key infrastructures, SSL/TLS, IPSec, firewalls and intrusion detection CROSSLISTED as CS 478/ECE 478.
Prerequisite: CS 372 with C or better or ECE 372 with C or better
Equivalent to: CS 478
Recommended: CS 370

ECE 481, DIGITAL SIGNAL PROCESSING, 4 Credits
Introduction to digital signal processing, conversion of analog signal to digital signal and vice versa, digital filter design, z-transform, frequency response, Fourier series and transform, window functions, and discrete Fourier transform. Lec/quiz/lab. CROSSLISTED as CS 481/ECE 481.
Prerequisite: ECE 391 or PH 481 (may be taken concurrently)

ECE 482, OPTICAL ELECTRONIC SYSTEMS, 4 Credits
Photodetectors, laser theory, and laser systems. Lec/lab. CROSSLISTED as ECE 482/PH 482 and ECE 582/PH 582.
Equivalent to: PH 482
Recommended: ECE 391 or (PH 481 or PH 581)

ECE 483, GUIDED WAVE OPTICS, 4 Credits
Optical fibers, fiber mode structure and polarization effects, fiber interferometry, fiber sensors, optical communication systems. Lec/lab. CROSSLISTED as ECE 483/PH 483 and ECE 583/PH 583.
Prerequisite: ECE 391 (may be taken concurrently) with C or better or PH 481 (may be taken concurrently) with C or better
Equivalent to: PH 483

ECE 484, ANTENNAS AND PROPAGATION, 4 Credits
Introduction to antennas and radiowave propagation. Offered alternate years.
Prerequisite: (ECE 390 with C or better and ECE 391 [C])

ECE 485, MICROWAVE DESIGN TECHNIQUES, 4 Credits
Introduction to basic design techniques required for the design of high-frequency circuits and systems. Lec/Lab.
Prerequisite: ECE 390 with C or better and ECE 391 [C]

ECE 499, SPECIAL TOPICS, 0-16 Credits
Course work to meet students' needs in advanced or specialized areas and to introduce new important topics in electrical and computer engineering at the undergraduate level.
This course is repeatable for 16 credits.

ECE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
ECE 503, ECE MS THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ECE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ECE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ECE 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ECE 510, OCCUPATIONAL INTERNSHIP, 1-4 Credits
This course is repeatable for 99 credits.
Available via Ecampus

ECE 516, ELECTRONIC MATERIALS AND DEVICES, 4 Credits
Semiconductor fundamentals and physical principles of pn junctions and Schottky barrier diodes.
Equivalent to: ECE 317
Recommended: ENGR 201

ECE 517, BASIC SEMICONDUCTOR DEVICES, 4 Credits
Theory and physical principles of bipolar junction and field-effect transistors. Lec/rec.
Recommended: ECE 416

ECE 518, SEMICONDUCTOR PROCESSING, 4 Credits
Theory and practice of basic semiconductor processing techniques. Introduction to process simulation. Lec/lab/rec.
Recommended: ECE 416

ECE 520, ANALOG CMOS INTEGRATED CIRCUITS, 4 Credits
Principles and techniques of design of electronic circuits with focus on a design methodology for analog integrated circuits. Practical aspects of using CAD tools in analyzing and laying out circuits will be discussed.

ECE 521, ANALOG CIRCUIT SIMULATION, 4 Credits
Formulation/solution of circuit equations; sparse matrix techniques; DC, transient, sensitivity, noise and Fourier analyses; RF circuit simulation.
Recommended: ECE 423 or ECE 520

ECE 522, CMOS INTEGRATED CIRCUITS I, 4 Credits
Analysis and design of analog integrated circuits in CMOS technology; current mirrors, gain stages, single-ended operational amplifier, frequency response, and compensation.
Recommended: ECE 322 and completion or concurrent enrollment in ECE 323

ECE 523, CMOS INTEGRATED CIRCUITS II, 4 Credits
Analysis and design of analog integrated circuits in CMOS technology; cascaded current mirrors, cascaded gain stages, single-ended and fully differential operational amplifier, common-mode feedback, noise, and distortion. Lec/lab.
Recommended: ECE 422 or ECE 522

ECE 530, CONTEMPORARY ENERGY APPLICATIONS, 4 Credits
Contemporary energy issues and applications; fundamental physics of renewable energy sources (e.g. wind, wave, and solar), devices used to harvest energy from these sources, state-of-the-art renewable energy technology, power transmission, transformers, and energy storage.
Recommended: Matlab, basic circuit analysis with RLC components and diode

ECE 531, POWER ELECTRONICS, 4 Credits
Fundamentals and applications of devices, circuits and controllers used in systems for electronic power processing. Lec/lab.
Recommended: ECE 322 and ECE 351 and completion or concurrent enrollment in ECE 323

ECE 532, DYNAMICS OF ELECTROMECHANICAL ENERGY CONVERSION, 4 Credits
Generalized machine theory. Techniques for dynamic analysis of electromechanical machines including arbitrary reference frame theory. Lec/lab.
Corequisites: ECE 531
Recommended: ECE 331

ECE 533, POWER SYSTEM ANALYSIS, 4 Credits
Fundamentals and control of real and reactive power, steady-state load flow studies, unbalance, stability and transient system analysis.
Recommended: ECE 323 and ECE 352 and three-phase power

ECE 535, ADJUSTABLE SPEED DRIVES AND MOTION CONTROL, 3 Credits
Adjustable speed drives, associated power electronic converters, simulation and control. Lec.
Equivalent to: ECE 647
Recommended: ECE 530

ECE 536, POWER SYSTEM PROTECTION, 3 Credits
Recommended: ECE 433 or ECE 533

ECE 537, SMART GRID, 3 Credits
Fundamentals of smart power grids. Technology advances in transmission and distribution systems, policy drivers, assets and demand management, and smart grid security.
Recommended: Background in power systems analysis equivalent to ECE 433
ECE 538, ELECTRIC AND HYBRID ELECTRIC VEHICLES, 4 Credits
Transportation electrification history, hybrid electric vehicle architecture, powertrain components and their modeling and control, vehicle system dynamics and controls.
Equivalent to: ECE 534
Recommended: ECE 331 and ECE 431

ECE 550, LINEAR SYSTEMS, 4 Credits
Linear dynamic systems theory and modeling.
Recommended: ECE 351 and ECE 352

ECE 560, STOCHASTIC SIGNALS AND SYSTEMS, 4 Credits
Stochastic processes, correlation functions, spectral analysis applicable to communication and control systems.
Recommended: ECE 461 or ECE 561

ECE 561, INTRODUCTION TO ANALOG AND DIGITAL COMMUNICATIONS, 4 Credits
Fundamental concepts of analog and digital telecommunication systems: modeling, analysis, and design of analog amplitude and angle modulation systems; probabilistic performance assessment of modulated signals over noisy channels; introduction to baseband digital modulation techniques such as binary pulse amplitude modulation and pulse position modulation and their demodulation in the presence of random noise. Lec.
Recommended: ECE 351 and ECE 352 and ECE 353

ECE 562, DIGITAL COMMUNICATIONS AND CHANNEL CODING, 4 Credits
Modeling, analysis, design of baseband and passband digital communications systems: geometric representation of signals; correlator receivers for M-ary digital communications systems; decision theory and its application to digital communication systems in additive white Gaussian noise environment; generation, transmission, and reception of passband digital modulated signals (BPSK, QPSK, FSK PAM); basics of information theory and channel encoding. Lec.
Recommended: ECE 461 and ECE 351 and ECE 352 and ECE 353

ECE 563, WIRELESS COMMUNICATIONS NETWORK, 4 Credits
Wireless networks: personal area (IEEE 802.15.4a), local area (IEEE 802.11), metropolitan area (IEEE 802.16), and mobile cellular networks (e.g., CDMA); physical-layer techniques for data modulation and multiple access; RF system engineering aspects of mobile cellular networks (e.g., system capability for voice and packet data traffic, RF coverage for a certain propagation environment). Lec.
Recommended: Probability background and ECE 461

ECE 564, DIGITAL SIGNAL PROCESSING, 4 Credits
Analysis and design of discrete-time linear-time invariant systems for processing discrete-time signals: DT-LTI system properties, DT signal analysis using Discrete-Time Fourier Transform, Discrete Fourier Transform and z-Transform, frequency response and transfer function. Signal sampling and reconstruction, digital processing of continuous-time signals, FIR and IIR digital filter design, and filter structures.
Recommended: ECE 351 and ECE 352

ECE 565, ESTIMATION, FILTERING, AND DETECTION, 4 Credits
Principles of estimation, linear filtering, and detection.
Recommended: ECE 353

ECE 566, INFORMATION THEORY, 4 Credits
Introduction to information theory: entropy, differential entropy, entropy rates, mutual information, data compression, channel capacity, source coding, channel coding, network information theory.
Recommended: ECE 353 and strong mathematical background

ECE 569, CONVEX OPTIMIZATION, 4 Credits
Introduces the fundamental concepts, theories of convex and nonconvex optimization, and the algorithmic solutions as well as applications to many research disciplines including signal processing, networking, communications, and machine learning. Emphasis will be on (i) convex analysis and optimality conditions, (ii) first-order large-scale algorithms (gradient, proximal gradient, ADMM, Frank-Wolfe, stochastic gradient, block coordinate descent), and (iii) convergence analysis.
Recommended: Linear algebra and ECE 599 Matrix Analysis for Signal Processing

ECE 570, HIGH PERFORMANCE COMPUTER ARCHITECTURE, 4 Credits
Advanced concepts in computer architecture. Performance improvement employing advanced pipelining and multiple instruction scheduling techniques. Issues in memory hierarchy and management. CROSSLISTED as CS 570/ECE 570.
Equivalent to: CS 570
Recommended: ECE 472 or ECE 572

ECE 571, ENERGY-EFFICIENT VLSI DESIGN, 4 Credits
Combinational and sequential logic design using CMOS transistors; analysis of power consumption and logic delay of digital logic; clock design including skew, jitter, and dynamic clock energy consumption; supply voltage and power supply noise sources; dynamic voltage frequency and scaling (DVFS); sub-threshold logic design and effect on energy/robustness; custom digital integrated circuit design including transistor layouts and CAD entry; CMOS scaling and the effect on process variability and power consumption. Lec/lab.
Equivalent to: ECE 573
Recommended: ECE 271 and ECE 322 and completion or concurrent enrollment in ECE 323 (all with a minimum grade of C)

ECE 572, COMPUTER ARCHITECTURE, 4 Credits
Computer architecture using processors, memories, and I/O devices as building blocks. Issues involved in the design of instruction set architecture, processor, pipelining and memory organization. Design philosophies and trade-offs involved in Reduced Instruction Set Computer (RISC) architectures. Lec/lab. CROSSLISTED as CS 472/ ECE 472 and CS 572/ECE 572.
Equivalent to: CS 572
Recommended: ECE 375
ECE 573, MICROCONTROLLER SYSTEM DESIGN, 4 Credits
Implementation of embedded computer systems focusing on the development of hardware and software for an embedded microcontroller system. Topics include internal microcontroller architecture, interfacing peripheral devices, mixed analog and digital systems, and hardware and software implementation of several systems using a microcontroller and peripherals. Lec/lab.
Equivalent to: ECE 571
Recommended: ECE 322 and ECE 375 and CS 261

ECE 574, VLSI SYSTEM DESIGN, 4 Credits
Introduction to custom and semi-custom digital integrated circuit design as used in VLSI systems. The use of CAD/CAE tools, design management, and design methodology are introduced.
Recommended: ECE 322 or ECE 375

ECE 576, ADVANCED COMPUTER NETWORKING, 4 Credits
Equivalent to: CS 576, ECE 566
Recommended: (CS 372 or ECE 372) and (ECE 353 or ST 314 or ST 314H)

ECE 577, MULTIMEDIA SYSTEMS, 4 Credits
Design of multimedia systems for information technology covering the hardware, software, applications, and networks. Components covered include multimedia representation, coding and compression techniques, wireless networks, networking for multimedia, and embedded system for multimedia. Lec.
Recommended: ECE 375

ECE 578, CYBER-SECURITY, 4 Credits
A broad overview of the field of computer and network security. Essential cryptographic mechanisms such as symmetric and public-key cryptography (e.g., encryption, signatures), network security and authentication protocols (e.g., Kerberos, TLS, IPsec), system security (e.g., access control, firewalls), advanced topics (e.g., searchable encryption, cloud security, secure computation). CROSSLISTED as CS 578/ECE 578.
Equivalent to: CS 578

ECE 580, NETWORK THEORY, 4 Credits
Linear graphs, multiport networks, and other topics in advanced network theory.

ECE 582, OPTICAL ELECTRONIC SYSTEMS, 4 Credits
Photodetectors, laser theory, and laser systems. Lec/lab. CROSSLISTED as ECE 482/PH 482 and ECE 582/PH 582.
Equivalent to: PH 582
Recommended: PH 481 or PH 581

ECE 583, GUIDED WAVE OPTICS, 4 Credits
Optical fibers, fiber mode structure and polarization effects, fiber interferometry, fiber sensors, optical communication systems. Lec/lab. CROSSLISTED as ECE 483/PH 483 and ECE 583/PH 583.
Equivalent to: PH 583
Recommended: Completion or concurrent enrollment in (ECE 391 or PH 481 or PH 581)

ECE 584, ANTENNAS AND PROPAGATION, 4 Credits
Introduction to antennas and radiowave propagation. Offered alternate years.

ECE 585, MICROWAVE DESIGN TECHNIQUES, 4 Credits
Introduction to basic design techniques required for the design of high-frequency circuits and systems. Lec/Lab.

ECE 590, ANALYTICAL TECHNIQUES IN ELECTROMAGNETIC FIELDS, 4 Credits
Basic analytical techniques required to solve meaningful field problems in engineering.

ECE 591, ADVANCED ELECTROMAGNETICS, 3 Credits
Advanced techniques for analyzing problems in electromagnetics, primarily numerical. Offered alternate years.
Recommended: ECE 590

ECE 593, RF MICROWAVE CIRCUIT DESIGN, 3 Credits
Active/passive RF and microwave circuit design with emphasis to wireless systems.
Recommended: ECE 390 and ECE 391

ECE 599, SPECIAL TOPICS, 0-16 Credits
Course work to meet students' needs in advanced or specialized areas and to introduce new important topics in electrical and computer engineering at the graduate level.
This course is repeatable for 99 credits.

ECE 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ECE 603, ECE PhD THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ECE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ECE 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ECE 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
ECE 611, ELECTRONIC MATERIALS PROCESSING, 3 Credits
Technology, theory, and analysis of processing methods used in integration circuit fabrication. Offered alternate years. CROSSLISTED as CHE 611/ECE 611.
Equivalent to: CHE 611, ECE 511

ECE 612, PROCESS INTEGRATION, 3 Credits
Process integration, simulation, and statistical quality control issues related to integrated circuit fabrication. Offered alternate years. CROSSLISTED as CHE 612/ECE 612.
Equivalent to: CHE 612, ECE 512
Recommended: ECE 611 or CHE 611

ECE 613, ELECTRONIC MATERIALS AND CHARACTERIZATION, 3 Credits
Physics and chemistry of electronic materials and methods of materials characterization. Offered alternate years. CROSSLISTED as CHE 613/ECE 613.
Equivalent to: CHE 613, ECE 513

ECE 614, SEMICONDUCTORS, 3 Credits
Essential aspects of semiconductor physics relevant for an advanced understanding of semiconductor materials and devices. Offered alternate years.
Equivalent to: ECE 514
Recommended: Exposure to quantum mechanics and solid state physics.

ECE 615, SEMICONDUCTOR DEVICES I, 3 Credits
Advanced treatment of two-terminal semiconductor electronic devices. Offered alternate years.
Equivalent to: ECE 515
Recommended: ECE 614

ECE 616, SEMICONDUCTOR DEVICES II, 3 Credits
Advanced treatment of three-terminal semiconductor electronic devices. Offered alternate years.
Equivalent to: ECE 516
Recommended: ECE 615

ECE 617, THIN FILM TRANSISTORS, 4 Credits
Thin-film electronics typically necessitate semiconducting materials lacking long-range order (disordered semiconductors), and hence provide a range of challenges and opportunities for device engineers. Provides a comprehensive review of the device physics and materials science of thin film electronics — in particular thin-film transistors. Provides students with the theoretical and practical knowledge to be successful in the development and study of thin film transistors, in both academic and industrial environments.
Recommended: ECE 390, ECE 416/ECE516, ECE 417/ECE 517, ECE 614

ECE 619, SELECTED TOPICS IN SOLID STATE, 3 Credits
Special courses taught on various topics in solid state as interests and demands vary. This course is repeatable for 99 credits.

ECE 621, RADIO FREQUENCY IC DESIGN, 3 Credits
Radio frequency (RF) circuits. Principles, analysis, and design of bipolar and MOS RF IC building blocks: low noise amplifiers, mixers, oscillators, frequency synthesizers.
Recommended: (ECE 422 or ECE 522) and (ECE 423 or ECE 523) or ECE 520

ECE 626, ANALOG CMOS CIRCUIT DESIGN, 3 Credits
Switched-capacitor circuit design, on-chip filters, data converters. Practical aspects of analog CMOS IC design.

ECE 627, OVERSAMPLED DELTA-SIGMA DATA CONVERTERS, 3 Credits
Noise-shaping theory in first, second, and higher-order modulators. Design, simulation, and realization in hardware of converters using this popular architecture.

ECE 629, SELECTED TOPICS IN MICROELECTRONICS, 3 Credits
Course work to meet student's needs in advanced or specialized areas and to introduce the newest important results in microelectronics.

ECE 659, SELECTED TOPICS IN SYSTEMS AND CONTROL, 3 Credits
Course work to meet students' needs in advanced or specialized areas and to introduce the newest important results in systems and control. This course is repeatable for 18 credits.

ECE 669, SELECTED TOPICS IN COMPUTER ENGINEERING, 1-16 Credits
Topics to be presented at various times include information storage and retrieval, computer architecture, fault-tolerant computing, asynchronous sequential circuits, automata, data transmission, coding theory. This course is repeatable for 99 credits.

ECE 699, SPECIAL TOPICS, 3 Credits
Advanced studies in field and wave theories and special devices. Topic examples are microwave and acoustic devices, advanced lasers and masers, electron beam interactions with traveling waves, MHD device dynamics.
This course is repeatable for 99 credits.
Energy Systems Engineering (ESE)

**ESE 330, MODELING AND ANALYSIS OF DYNAMIC SYSTEMS, 4 Credits**

Presents basic concepts of dynamic behavior, and the analytical and computational techniques for predicting and assessing dynamic behavior. Modeling a basic system, compound system, dynamic stability, and natural behavior to continuing and abrupt inputs are presented.

**Prerequisite:** ENGR 202 with C or better and ENGR 212 [C] and MTH 256 [C] and MTH 306 [C]

**ESE 355, ENERGY REGULATION, 4 Credits**

Introductory course to the policies and laws governing energy generation and transmission in the United States with a focus on electricity. History of regulations give context to understand current regulation and potential future policies. Laws regulating the use of alternative energy resources covered in a practical setting. Offered at OSU-Cascades only.

**Prerequisite:** BA 360 (may be taken concurrently) with C or better or ENGR 390 (may be taken concurrently) with C or better

**ESE 360, ENERGY CONSUMPTION ANALYSIS, 4 Credits**

Analysis of energy use in transportation, residential and industrial sectors to understand how new technologies improve energy efficiency. Tradeoff techniques applied to decide between less efficient, less expensive systems versus more efficient, more expensive systems. International energy consumption compared, and energy losses evaluated for heating, cooling and electronic systems. Offered at OSU-Cascades only.

**Prerequisite:** (BA 360 (may be taken concurrently) with C or better or ENGR 390 (may be taken concurrently) with C or better) and ME 311 [C]

**ESE 401, RESEARCH, 1-16 Credits**

*Equivalent to:* ESC 401

This course is repeatable for 4 credits.

**ESE 430, FEEDBACK CONTROL SYSTEMS, 4 Credits**

Modeling and analysis of linear, continuous-time systems in the time and frequency domains. Fundamentals of single-input-single-output control system design using both time-domain and frequency-domain techniques.

**Prerequisite:** ESE 330 with C or better

**ESE 450, ENERGY GENERATION SYSTEMS, 4 Credits**

Survey of technical fundamentals and operational principles of conventional and renewable energy conversion systems to understand the environmental and sustainable issues for energy systems currently in use or may be used in the future to power our industrial society. Offered at OSU-Cascades only.

**Prerequisite:** ME 312 with C or better

**ESE 470, ENERGY DISTRIBUTION SYSTEMS, 4 Credits**

Detailed coverage of the electrical energy distribution system, its operation, and control design. Design considerations and impacts to meet emerging and evolving customer needs. Broader understanding of natural gas and oil pipeline distribution for these infrastructure commodities. Offered at OSU-Cascades only.

**Prerequisite:** ENGR 202 with C or better and ME 311 [C]

**ESE 471, ENERGY STORAGE SYSTEMS, 4 Credits**

Coverage of energy storage techniques involving electrochemical, mechanical and emerging options. Integration of the energy storage media, its effects on the bulk power system, and design tradeoffs to understand environmental impacts, cost, reliabilities, and efficiencies for commercialization of bulk energy storage. Offered at OSU-Cascades only.

**Prerequisite:** ENGR 202 with C or better and ME 312 [C]

**ESE 497, ^MIME CAPSTONE DESIGN, 4 Credits**

Product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; long-run policies and strategy. CROSSLISTED as ESC 497/ESE 497. (Writing Intensive Course)

**Attributes:** CWIC – Core, Skills, WIC

**Prerequisite:** (ENGR 390 with C or better or BA 360 with C or better) and IE 425 [C] and (ME 312 [C] or ME 312H [C]) and (ME 331 [C] or ME 331H [C]) and ESE 355 [C] and ESE 360 [C] and (ST 314 [C] or ST 314H [C]) and WR 327 [C]

**Equivalent to:** IE 497, ME 497, MIME 497

**ESE 498, ^MIME CAPSTONE DESIGN, 4 Credits**

Product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; long-run policies and strategy. (Writing Intensive Course)

**Attributes:** CWIC – Core, Skills, WIC

**Prerequisite:** ESE 497 with C or better or IE 497 with C or better or ME 497 with C or better or MIME 497 with C or better

**Equivalent to:** ESC 498, IE 498, ME 498

**ESE 499, SPECIAL TOPICS, 0-16 Credits**

*This course is repeatable for 16 credits.*

Engineering Science (ENGR)

**ENGR 003, UNDERGRADUATE RESEARCH, 0 Credits**

Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.
ENGR 101, DESIGN OF COFFEE, 2 Credits
Roast coffee beans and brew and taste coffee while using engineering design to create the perfect cup of coffee using the least amount of electricity. Lec/rec.
Available via Ecampus

ENGR 111, ENGINEERING ORIENTATION I, 3 Credits
Engineering as a profession, historical development, ethics, curricula and engineering careers. Introduction to problem analysis and solution, data collection, accuracy and variability. Lec/rec.
Equivalent to: ENGR 111H

ENGR 112, INTRODUCTION TO ENGINEERING COMPUTING, 3 Credits
Systematic approaches to engineering problem solving using computers. Logical analysis, flow charting, input/output design, introductory computer programming and use of engineering software. Lec/lab/rec.
Equivalent to: ENGR 112H, ENGR 112H
Available via Ecampus

ENGR 112H, INTRODUCTION TO ENGINEERING COMPUTING, 3 Credits
Systematic approaches to engineering problem solving using computers. Logical analysis, flow charting, input/output design, introductory computer programming and use of engineering software. Lec/lab/rec.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 112

ENGR 199, SPECIAL TOPICS, 0-16 Credits
Graded P/N.
Equivalent to: ENGR 199H
This course is repeatable for 16 credits.

ENGR 201, ELECTRICAL FUNDAMENTALS I, 3 Credits
Prerequisite: (MTH 251 with C or better or MTH 251H with C or better) and (MTH 252 [C] or MTH 252H [C])
Equivalent to: ENGR 201H
Available via Ecampus

ENGR 201H, ELECTRICAL FUNDAMENTALS I, 3 Credits
Attributes: HNRS – Honors Course Designator
Prerequisite: (MTH 251 with C or better or MTH 251H with C or better) and (MTH 252 [C] or MTH 252H [C])
Equivalent to: ENGR 201

ENGR 202, ELECTRICAL FUNDAMENTALS II, 3 Credits
Sinusoidal steady-state analysis and phasors. Application of circuit analysis to solve single-phase and three-phase circuits including power, mutual inductance, transformers and passive filters. Lec/lab.
Prerequisite: ENGR 201 with C or better or ENGR 201H with C or better
Equivalent to: ENGR 202H
Available via Ecampus

ENGR 203, ELECTRICAL FUNDAMENTALS III, 3 Credits
Laplace transforms, Fourier series, Bode plots, and their application to circuit analysis.
Prerequisite: (ENGR 201 with C or better or ENGR 201H with C or better) and (ENGR 202 [C] or ENGR 202H [C]) and (MTH 256 [C] or MTH 256H [C])

ENGR 211, STATICS, 3 Credits
Analysis of forces induced in structures and machines by various types of loading. Lec/rec.
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: ENGR 211H
Available via Ecampus

ENGR 211H, STATICS, 3 Credits
Analysis of forces induced in structures and machines by various types of loading. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C or better or MTH 252H with C or better
Equivalent to: ENGR 211

ENGR 212, DYNAMICS, 3 Credits
Kinematics, Newton's laws of motion, and work-energy and impulse-momentum relationships applied to engineering systems. Lec/rec.
Prerequisite: (ENGR 211 with C or better or ENGR 211H with C or better) and (PH 211 [C] or PH 211H [C])
Equivalent to: ENGR 212H
Available via Ecampus

ENGR 212H, DYNAMICS, 3 Credits
Kinematics, Newton's laws of motion, and work-energy and impulse-momentum relationships applied to engineering systems. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 211 with C or better or ENGR 211H with C or better) and (PH 211 [C] or PH 211H [C])
Equivalent to: ENGR 212

ENGR 213, STRENGTH OF MATERIALS, 3 Credits
Properties of structural materials; analysis of stress and deformation in axially loaded members, circular shafts, and beams, and in statically indeterminate systems containing these components. Lec/rec.
Prerequisite: ENGR 211 with C or better or ENGR 211H with C or better
Equivalent to: ENGR 213H
Available via Ecampus
ENGR 213H, STRENGTH OF MATERIALS, 3 Credits
Properties of structural materials; analysis of stress and deformation in axially loaded members, circular shafts, and beams, and in statically indeterminate systems containing these components. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 211 with C or better or ENGR 211H with C or better
Equivalent to: ENGR 213

ENGR 221, THE SCIENCE, ENGINEERING AND SOCIAL IMPACT OF NANOTECHNOLOGY, 3 Credits
Nanotechnology is an emerging engineering field that manipulates atoms and molecules to fabricate new materials and tiny devices. Properties of nanostructured materials, manufacturing methods, characterization methods, and impact on health and safety. Benefits and concerns about nanotechnology will be assessed. Lec/rec. CROSSLISTED as ENG 221/ Mats 221.
Equivalent to: Mats 221
Recommended: One year of college science.

ENGR 248, ENGINEERING GRAPHICS AND 3-D MODELING, 3 Credits
Introduction to graphical communication theory, including freehand sketching techniques, geometric construction, multi-view, pictorial, sectional and auxiliary view representation and dimensioning techniques. Practical application of theoretical concepts using solid modeling software to capture design intent and generate engineering drawings. Lec/Lab.
Available via Ecampus

ENGR 299, SPECIAL TOPICS, 0-16 Credits
Equivalent to: ENGR 299H
This course is repeatable for 16 credits.

ENGR 299H, SPECIAL TOPICS, 0-16 Credits
Equivalent to: ENGR 299
This course is repeatable for 16 credits.

ENGR 350, *SUSTAINABLE ENGINEERING, 3 Credits
Examination of technological innovations and alternatives required to maintain human quality of life and environmental sustainability. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: ENGR 350H
Available via Ecampus

ENGR 350H, *SUSTAINABLE ENGINEERING, 3 Credits
Examination of technological innovations and alternatives required to maintain human quality of life and environmental sustainability. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ENGR 350

ENGR 352, *CREATIVE COLLABORATION: DESIGNING AND BUILDING, 3 Credits
Working in multi-disciplinary teams, design, implement, and document a piece of public art work or science museum display. Projects may be made of any media, but must demonstrate creativity both in the engineering used to create them and the technology and society message they convey. CROSSLISTED as ART 352/ENGR 352. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ART 352

ENGR 363, *ENERGY MATTERS, 3 Credits
Establishes a basic energy vocabulary, applies the fundamental concepts of identifying energy use and determining efficiency, and studies the implications of energy decisions in the context of traditional, alternative, and sustainable energy resources. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: ENGR 363H
Recommended: MTH 112 or higher

ENGR 390, ENGINEERING ECONOMY, 3 Credits
Time value of money; economic study techniques, depreciation, taxes, retirement, and replacement of engineering facilities.
Available via Ecampus

ENGR 391, ENGINEERING ECONOMICS AND PROJECT MANAGEMENT, 3 Credits
Critical issues in the management of engineering and high-technology projects are discussed. Economic, time, and performance parameters of engineering projects are analyzed from the organizational and resource perspectives. Network optimization and simulation concepts are introduced. Fundamental engineering economics concepts are introduced and applied to planning and managing projects.
Equivalent to: ENGR 391H
Available via Ecampus

ENGR 391H, ENGINEERING ECONOMICS AND PROJECT MANAGEMENT, 3 Credits
Critical issues in the management of engineering and high-technology projects are discussed. Economic, time, and performance parameters of engineering projects are analyzed from the organizational and resource perspectives. Network optimization and simulation concepts are introduced. Fundamental engineering economics concepts are introduced and applied to planning and managing projects.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 391
ENGR 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ENGR 399H
This course is repeatable for 16 credits.
Available via Ecampus

ENGR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 399
This course is repeatable for 16 credits.

ENGR 407, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: ENGR 407H
This course is repeatable for 16 credits.

ENGR 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 407
This course is repeatable for 16 credits.

ENGR 415, ^ENGINEERING CAPSTONE DESIGN I, 4 Credits
Utilizes engineering methodologies in a team environment to develop real-world solutions to an engineering problem. Develops all phases of system development, including project planning, requirements analysis, design, testing, configuration management, quality assurance, documentation, and delivery. First course/term of a two term design project.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ENGR 415 with C- or better

ENGR 416, ^ENGINEERING CAPSTONE DESIGN II, 4 Credits
Utilizes engineering methodologies in a team environment to develop real-world solutions to an engineering problem. Teams will be responsible for all phases of system development, including project planning, requirements analysis, design, testing, configuration management, quality assurance, documentation, and delivery. Second course/term of a two term design project.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ENGR 415 with C- or better

ENGR 450, PROFESSIONAL PREPARATION FOR BEGINNING LEVEL ENGINEERS, 1 Credit
Practical training on professional skills essential for a career as a practicing engineer. Covers development of networking and interviewing skills, preparation of a resume, job search strategies and guidance on future professional development.

ENGR 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ENGR 499H
This course is repeatable for 16 credits.

ENGR 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENGR 499
This course is repeatable for 16 credits.

ENGR 520, MENG INTRODUCTION TO PORTFOLIO, 1 Credit
Explores OSU resources, Graduate School, and College of Engineering requirements to prepare for work on an MEng final portfolio. Engages in writing skills necessary to complete the final portfolio. Investigates communication styles, Imposter Syndrome, understanding and coping mechanisms, and professional ethics as they relate to an MEng final portfolio.

ENGR 521, MENG PORTFOLIO COMPLETION, 1 Credit
Demonstrate how graduate learning outcomes have been met. Formulate clear and reasonable professional goals and articulate how the program has helped prepare for achievement of those goals. Create a final portfolio document summarizing core knowledge and its integration with other fields.
Prerequisite: ENGR 520 with C or better

ENGR 531, APPLIED IMAGING AND IMAGE PROCESSING, 3 Credits
Explore image formats, storage issues, characteristics and significance of histograms; define and explain image artifacts such as random and periodic noise. Implement different image processing operations such as filters, registration, and mathematical algorithms to enhance an image and facilitate subsequent segmentation such as histogram thresholding, cluster analysis, watershed analysis, etc. Make quantitative measurements from images, such as length, area, orientation, connectivity, anisotropy, and perimeter of objects, as well as porosities, surface areas and curvatures. Apply advanced image analysis via skeletonization, morphological/ topological analysis, surface generation/ triangulation etc.
This course is repeatable for 3 credits.
Recommended: Introductory preparation in mathematical analysis, vectors, matrices, probability, statistics, linear systems, and computer programming

ENGR 550, PROFESSIONAL PREPARATION FOR ENGINEERS, 1 Credit
Practical training on professional skills essential for a career as a practicing engineer. Covers development of networking and interviewing skills, preparation of a resume and related online media, and guidance on future professional development. As this is a graduate-level course, it will include guidance on how students can develop and present themselves in ways that differentiate their abilities from those of more junior engineers.
Available via Ecampus
ENGR 555, FOUNDATIONS OF ENGINEERING EDUCATION RESEARCH AND PRACTICE, 3 Credits
An examination as to why engineering education is practiced and researched the way that it is through reading, discussion and writing. The focus of the course will be on written and verbal interactions informed by careful reading of assigned texts.

ENGR 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

English (ENG)

ENG 104, *INTRODUCTION TO LITERATURE: FICTION, 3 Credits
Study of fiction for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 104H
Available via Ecampus

ENG 104H, *INTRODUCTION TO LITERATURE: FICTION, 3 Credits
Study of fiction for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 104

ENG 105, *INTRODUCTION TO LITERATURE: DRAMA, 3 Credits
Study of drama for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core

ENG 106, *INTRODUCTION TO LITERATURE: POETRY, 3 Credits
Study of poetry for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 106H
Available via Ecampus

ENG 106H, *INTRODUCTION TO LITERATURE: POETRY, 3 Credits
Study of poetry for greater understanding and enjoyment. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 106

ENG 107, *INTRODUCTION TO LITERATURE: CREATIVE NONFICTION, 3 Credits
An introduction to the study of creative nonfiction as a diverse genre, from journalism to memoir and essay. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Recommended: WR 121

ENG 108, *INTRODUCTION TO SCIENCE FICTION AND FANTASY, 3 Credits
Focuses on modern and contemporary examples of science fiction and fantasy with some attention paid to the roots of the genres (myths, folklore, and fairy tales). Hypothesizes that both genres reflect the anxieties and aspirations of the eras that produce and consume them. Introduces students to a range of modern classics, including contemporary science fiction and fantasy written by women and people of color. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

ENG 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

ENG 200, LIBRARY SKILLS FOR LITERARY STUDY, 1 Credit
Introduction to library resources for the study of literature. Required for English majors.

ENG 201, *SHAKESPEARE, 4 Credits
The earlier plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 201H
Available via Ecampus

ENG 201H, *SHAKESPEARE, 4 Credits
The earlier plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 201

ENG 202, *SHAKESPEARE, 4 Credits
The later plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 202H

ENG 202H, *SHAKESPEARE, 4 Credits
The later plays. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 202
ENG 204, *SURVEY OF BRITISH LITERATURE: BEGINNINGS TO 1660, 4 Credits
English literature presented in chronological sequence. (H) (Bacc Core Course)  
**Attributes:** CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core  
**Equivalent to:** ENG 204H
Available via Ecampus

ENG 205, *SURVEY OF BRITISH LITERATURE: RESTORATION TO ROMANTIC ERA, 4 Credits
English literature presented in chronological sequence. (H) (Bacc Core Course)  
**Attributes:** CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core  
**Equivalent to:** ENG 205H, ENG 205H

ENG 206, *SURVEY OF BRITISH LITERATURE: VICTORIAN ERA TO 20TH CENTURY, 4 Credits
English literature presented in chronological sequence. (H) (Bacc Core Course)  
**Attributes:** CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core  
**Equivalent to:** ENG 206H

ENG 207, *LITERATURE OF WESTERN CIVILIZATION: CLASSICAL-RENAISSANCE, 4 Credits
The great plays, poems and fiction of Western civilization. Covers the Classical World: (Greek, Hebrew, Roman) and Western European major authors through the Renaissance. (H) (Bacc Core Course)  
**Attributes:** CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

ENG 208, *LITERATURE OF WESTERN CIVILIZATION: 18TH CENTURY TO PRESENT, 4 Credits
The great plays, poems and prose of Western civilization from the 18th century Enlightenment through Romanticism and beyond. (H) (Bacc Core Course)  
**Attributes:** CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

ENG 210, *LITERATURES OF THE WORLD: ASIA, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of Asia. (H) (NC) (Bacc Core Course)  
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Available via Ecampus

ENG 211, *LITERATURES OF THE WORLD: AFRICA, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of Africa. (H) (NC) (Bacc Core Course)  
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core  
**Equivalent to:** ENG 211H

ENG 211H, *LITS OF THE WORLD: AFRICA, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of Africa. (H) (NC) (Bacc Core Course)  
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core  
**Equivalent to:** ENG 211

ENG 212, *LITERATURES OF THE WORLD: MESO/SOUTH AMERICA, CARIBBEAN, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of Meso- and South America and the Caribbean. (H) (NC) (Bacc Core Course)  
**Attributes:** CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
ENG 213, *LITERATURES OF THE WORLD: MIDDLE EAST, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of the Middle East. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ENG 213H
Available via Ecampus

ENG 213H, *LITERATURES OF THE WORLD: MIDDLE EAST, 4 Credits
Representative works of poetry, prose, and drama from nonwestern cultural traditions. Covers literature of the Middle East. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ENG 213

ENG 214, *LITERATURE OF THE WORLD: EUROPE, 4 Credits
Representative works of poetry, prose, and drama written by European authors. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture

ENG 215, *CLASSICAL MYTHOLOGY, 4 Credits
Greek and Roman mythology, its allusions, continuing influences. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

ENG 220, *TOPICS IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
A comparative treatment of literary topics in the context of institutional and systematic discrimination. Not offered every year. CROSSLISTED as ENG 220/FILM 220. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 220H, FILM 220

ENG 220H, *TOPICS IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
A comparative treatment of literary topics in the context of institutional and systematic discrimination. Not offered every year. CROSSLISTED as ENG 220/FILM 220. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 220, FILM 220

ENG 221, *AFRICAN-AMERICAN LITERATURE, 4 Credits
Reading and critical analysis of African-American literature in historical, political, and/or thematic perspective. Content changes from term to term. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 221H
This course is repeatable for 8 credits.

ENG 221H, *AFRICAN-AMERICAN LITERATURE, 4 Credits
Reading and critical analysis of African-American literature in historical, political, and/or thematic perspective. Content changes from term to term. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 221
This course is repeatable for 8 credits.

ENG 222, CHILDREN’S LITERATURE, 4 Credits
Surveys a variety of genres, including fairy tales, folktales, and fables, nonsense poetry, picture books, historical and fantasy novels, examining how these texts represent childhood and connect with historical, cultural, and psychological contexts. Available via Ecampus

ENG 225, THE ART, SCIENCE, AND LITERATURE OF FLY FISHING, 1 Credit
Designed to rapidly introduce students to some of the major themes and formal devices of literature written about fly fishing. In four days, we will gain a sense of how four different genres—the short story, the novel, poetry, and creative nonfiction—represent and understand this activity.
Corequisites: FW 112, PAC 331

ENG 240, *INTRODUCTION TO ENVIRONMENTAL LITERATURE, 4 Credits
An exploration of the key figures, themes, theories, and works of American environmental literature. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

ENG 253, *SURVEY OF AMERICAN LITERATURE: COLONIAL TO 1900, 4 Credits
Readings from American literature presented in chronological sequence, important eras and movements with emphasis on major writers. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
ENG 254, *SURVEY OF AMERICAN LITERATURE: 1900 TO PRESENT, 4 Credits
Readings from American literature presented in chronological sequence, important eras and movements with emphasis on major writers. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 254H

ENG 254H, *SURVEY OF AMERICAN LITERATURE: 1900 TO PRESENT, 4 Credits
Readings from American literature presented in chronological sequence, important eras and movements with emphasis on major writers. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 254

ENG 260, *LITERATURE OF AMERICAN MINORITIES, 4 Credits
Study of the literature of American minorities: North American Indian, black, Chicano/Chicana, Asian, Middle Eastern, gay and lesbian. Not offered every year. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 260H

ENG 260H, *LITERATURE OF AMERICAN MINORITIES, 4 Credits
Study of the literature of American minorities: North American Indian, black, Chicano/Chicana, Asian, Middle Eastern, gay and lesbian. Not offered every year. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 260

ENG 275, *THE BIBLE AS LITERATURE, 4 Credits
Biblical structure, literary types, ideas, influences. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 275H
Available via Ecampus

ENG 275H, *THE BIBLE AS LITERATURE, 4 Credits
Biblical structure, literary types, ideas, influences. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 275

ENG 295, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ENG 295H, PHL 295, PHL 295H, WGSS 295, WGSS 295H

ENG 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, PHL 295, PHL 295H, WGSS 295, WGSS 295H

ENG 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ENG 301, WAYS OF READING, 4 Credits
What’s the difference between reading a book for pleasure and reading it for a class? What kinds of skills are necessary for upper-level work as an English major? What exactly is literary criticism? Pursue these questions by studying a selection of texts paired with works providing historical and critical context. Learn how to think and write like a literary critic by reading carefully, discussing these works in class, and writing analytical essays.

ENG 302, ^WRITING ABOUT LITERATURE, 4 Credits
The conventions of academic writing in the English major, with the goal of developing original textual interpretations and situating those interpretations in relation to secondary sources. Develop an understanding of a broader scholarly conversation by writing about issues of difference, including but not limited to categories of gender, race, ethnicity, sexuality, class, and ability. In tandem with one-credit library lab (ENG 200), practice evaluating scholarly resources, including secondary sources and archival research.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ENG 301 with D- or better
Corequisites: ENG 200

ENG 304, CAREER PREPARATION FOR ENGLISH MAJORS, 2 Credits
Introduces students majoring in English to tasks and processes needed to successfully prepare for a future career. Includes exercises in self-reflection, guidance in exploring professional options and networking, and feedback on job-seeking materials.
Prerequisite: ENG 301 with D- or better

ENG 311, ^STUDIES IN BRITISH PROSE, 4 Credits
An introduction to the prose genre in British literature with intensive practice in reading and writing practices for literary study. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
ENG 317, *THE AMERICAN NOVEL: BEGINNINGS TO CHOPIN, 4 Credits
Chronological survey of the novel in America. Covers from the beginnings to Chopin. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

ENG 318, *THE AMERICAN NOVEL: MODERNIST PERIOD, 4 Credits
Chronological survey of the novel in America. Covers Modernist Period from Dreiser to Faulkner. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

ENG 319, *THE AMERICAN NOVEL: POST-WORLD WAR II, 4 Credits
Chronological survey of the novel in America. Covers Post-World War II:Mailer to the present. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

ENG 320, *STUDIES IN PAGE, STAGE, AND SCREEN, 4 Credits
Study of a particular theme, genre, movement, or author through the relations of text and performance. Topics change from term to term and may include content from film, drama, digital sources, and other visual media. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.

ENG 321, *STUDIES IN WORD, OBJECT, AND IMAGE, 4 Credits
Study of a particular theme, genre, movement, or author through the relations of texts to material artifacts and/or static visual objects (e.g., paintings, engravings, printed matter, or photographs). Topics change from term to term. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
This course is repeatable for 8 credits.

ENG 322, *STUDIES IN GLOBALISM, TEXT, AND EVENT, 4 Credits
Study of a particular theme, genre, movement, or author as informed by patterns of globalization, issues in international relations, and/or landmark moments of cultural exchange. Topics change from term to term. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CSGI – Core, Synth, Global Issues
This course is repeatable for 8 credits.

ENG 330, *THE HOLOCAUST IN LITERATURE AND FILM, 4 Credits
Study of fiction, memoir, and film representing Nazi Holocaust of European Jewry. Reviews history of racial Anti-Semitism and rise of Nazism as context for textual analysis of Holocaust literature. Examines literary and filmic form as productive to social awareness of the roots, events, and aftermath of the Holocaust. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

ENG 340, LITERATURES OF THE COAST, 4 Credits
Introduces the diverse means by which literature and the arts represent coastal and marine life. The working thesis is that modern cultural artifacts and literary theories are reflected in and have the power to transform the societal challenges facing coastal community and ocean health. Explores the significance of such interdisciplinary translations through a variety of generic perspectives including poetry, short story, philosophy, creative nonfiction, and graphic narrative.

ENG 345, INTRODUCTION TO LITERARY CRITICISM AND THEORY, 4 Credits
Study and analysis of critical frameworks and methodologies for the interpretation of literature and culture. Required for English majors. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: ENG 200 with C- or better

ENG 360, *NATIVE AMERICAN LITERATURE, 4 Credits
An introduction to the prose and poetry written by Native Americans of the North American continent. Not offered every year. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core

ENG 362, *AMERICAN WOMEN WRITERS, 4 Credits
Study of important literary works of any genre by American women from historical, thematic, or formalist perspectives. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 362H

ENG 374, *MODERN SHORT STORY, 4 Credits
Survey of the short story from the 19th century to the present. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 374H

ENG 374H, *MODERN SHORT STORY, 4 Credits
Survey of the short story from the 19th century to present. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 374
ENG 375, CHILDREN'S LITERATURE, 4 Credits
Survey a variety of genres, including fairy tales, folktales, and fables, nonsense poetry, picture books, historical and fantasy novels, examining how these texts represent childhood and connect with historical, cultural, and psychological contexts.
Equivalent to: ENG 375H
Available via Ecampus

ENG 375H, CHILDREN'S LITERATURE, 4 Credits
Survey a variety of genres, including fairy tales, folktales and fables, nonsense poetry, picture books, historical and fantasy novels, examining how these texts represent childhood and connect with historical, cultural, and psychological contexts.
Attributes: HNRS – Honors Course Designator
Equivalent to: ENG 375

ENG 386, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART I, 4 Credits
The first course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Conquest to Civil War. CROSSLISTED as ART 386/ENG 386.
Equivalent to: ART 386

ENG 387, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART II, 4 Credits
The second course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Civil War to Harlem Renaissance. CROSSLISTED as ART 387/ENG 387.
Equivalent to: ART 387

ENG 388, A CULTURAL HISTORY OF AMERICAN ART AND LITERATURE: PART III, 4 Credits
The third course in an interdisciplinary sequence that examines the development and interrelationships of American art and literature from contact to the present. Covers Great Depression to Postmodernity. CROSSLISTED as ART 388/ENG 388.
Equivalent to: ART 388

ENG 399, SELECTED TOPICS, 1-16 Credits
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: ENG 399H
This course is repeatable for 16 credits.

ENG 399H, SELECTED TOPICS, 1-16 Credits
(h)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 399
This course is repeatable for 16 credits.

ENG 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENG 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

ENG 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ENG 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ENG 406, PROJECTS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENG 406H
This course is repeatable for 16 credits.

ENG 406H, PROJECTS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalents: ENG 406
This course is repeatable for 16 credits.

ENG 407, ^SEMINAR, 1-16 Credits
CROSSLISTED as AMS 407/ENG 407. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: ENG 407H
This course is repeatable for 16 credits.

ENG 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ENG 410, INTERNSHIP IN ENGLISH, 1-16 Credits
Provides upper-division English majors with supervised, on-the-job work experience, accompanying academic readings. Graded P/N.
This course is repeatable for 16 credits.
Recommended: 16 credits of literature; 6 credits of writing beyond WR 121
ENG 412, STUDIES IN BRITISH THEATER AND SOCIETY, 4 Credits
Study of major dramatists and the audiences they addressed, of socio-economic conditions and their interrelations with theatrical institutions. Readings may include dramatic and non-dramatic literature. Historical period and content may vary. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 416, *POWER AND REPRESENTATION, 4 Credits
Critical analysis of works by colonized peoples, women, and ethnic minorities, with a focus on the issue of representation. Not offered every year. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 418, THE ENGLISH NOVEL: VICTORIAN PERIOD, 4 Credits
Selected English novels focusing on those from the Victorian period. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 420, *STUDIES IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
Comparative studies in literature documenting or illuminating institutional and systematic discrimination. Not offered every year. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 425, STUDIES IN MEDIEVAL LITERATURE, 4 Credits
Particular genres, themes, and writers in medieval literature. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 426, STUDIES IN CHAUCER, 4 Credits
The works of Geoffrey Chaucer in their historical, cultural, and poetic contexts. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 430, STUDIES IN EARLY MODERN LITERATURE, 4 Credits
Literature and culture of the Tudor, early Stuart, and Interregnum periods, 1485-1660. Content and genres will vary and may include non-English writers who influenced the English Renaissance. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 433, STUDIES IN THE LONG EIGHTEENTH CENTURY, 4 Credits
Literature of the period 1660-1800, with emphasis on one or more of the following poets: Dryden, Pope, Swift, Johnson, Gray, Cowper. May also include prose writers (e.g., Behn, Fielding, Richardson, Addison and Steele) and dramatists (e.g., Congrieve, Wycherly, Gay). Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 434, STUDIES IN ROMANTICISM, 4 Credits
Romantic-period writing and culture, with emphasis on one or more of the following authors: Blake, Wordsworth, Coleridge, Keats, Byron and Shelley. May also include Romantic novelists and prose writers (e.g., Austen, Wollstonecraft, Burke). Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 435, STUDIES IN SHAKESPEARE, 4 Credits
Shakespeare's works from a variety of critical and scholarly perspectives. Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 436, STUDIES IN VICTORIAN LITERATURE, 4 Credits
Fiction, poetry, and nonfiction prose of the Victorian era. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.
ENG 438, STUDIES IN MODERNISM, 4 Credits
Studies in the literature and contexts of the Modernist period in Anglo-American letters (1890s to 1940s). Authors may include Wilde, Crane, Conrad, Eliot, Stevens, James, Woolf, Joyce, Lawrence, Shaw, Forster. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 440, STUDIES IN MODERN IRISH LITERATURE, 4 Credits
Studies in the literature and contexts of the period of Irish writing often referred to as the Irish Renaissance. Authors may include Yeats, Joyce, Shaw, O’Casey, Gregory, Synge, Bowen, Moore, Behan, O’Brien, Kavanagh, Cronin. Sometimes offered as a study of Joyce’s works alone. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 445, STUDIES IN NONFICTION, 4 Credits
Particular essayists and journalists, movements, problems, conventions, and types of nonfiction writing in English. Topics change from term to term. Not offered every year. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 450, STUDIES IN SHORT FICTION, 4 Credits
Particular writers, movements, and types of short fiction. Topics change from term to term. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 454, MAJOR AUTHORS, 4 Credits
Advanced study of major and influential authors from various cultures and backgrounds. Subjects change from term to term. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 460, STUDIES IN DRAMA, 4 Credits
Particular dramatists, movements, conventions, and types of world drama. Topics change from term to term. Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 465, STUDIES IN THE NOVEL, 4 Credits
Particular novelists, movements, conventions, and types of the novel throughout its history. Topics change from term to term. Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 470, STUDIES IN POETRY, 4 Credits
Particular poets, movements, problems, conventions, and types of poetry in English or English translation. Topics change from term to term. Not offered every term. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 475, STUDIES IN CRITICISM, 4 Credits
Particular critics, critical movements, issues, and histories of criticism. Topics change from term to term. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 16 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 480, STUDIES IN LITERATURE, CULTURE AND SOCIETY, 4 Credits
Study of literature in its relationship to society and culture; study of literary culture. Topics change from term to term. Not offered every term. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: FILM 480
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 482, STUDIES IN AMERICAN LITERATURE, CULTURE, AND THE ENVIRONMENT, 4 Credits
Creative nonfiction, fiction, poetry, and film from the mid-19th century to the present, examining relationships between rural and urban, and investigating the development of important patterns in how the physical environment is perceived, represented, interpreted, and used in the United States. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.
ENG 485, *STUDIES IN AMERICAN LITERATURE, 4 Credits
Special topics in American literary history. Organized around movements, regions, themes, or major authors. Topics change from term to term. Not offered every term. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 486, STUDIES IN BRITISH LITERATURE, 4 Credits
Particular British writers, movements, conventions, genres, and problems. Topics change from term to term. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 488, LITERATURE AND PEDAGOGY, 4 Credits
Practices, approaches, histories, and theories of teaching literature appropriate for secondary through college settings. Considers text selection, assignments, and evaluation. (H)
Attributes: LACH – Liberal Arts Humanities Core

ENG 489, WRITING, LITERATURE AND MEDICINE, 4 Credits
Considers medical themes in literature, social meanings of illness, and writing strategies appropriate to the healing arts.

ENG 490, HISTORY OF THE ENGLISH LANGUAGE, 4 Credits
A study of the origins, changes, and reasons for changes in the grammar, sounds, and vocabulary of English from its earliest stages through its modern forms. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 497, INTERNATIONAL WOMEN'S VOICES, 4 Credits
A study of women and literature in an international context, focusing on the cultural differences among women and the effects of gender on language and literature. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 498, WOMEN AND LITERATURE, 4 Credits
Study of the relations between women and literature, including such issues as images of women in literature, women writers, and the effects of gender on language.
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 499, SELECTED TOPICS, 1-16 Credits
(H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 16 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

ENG 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENG 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ENG 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ENG 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ENG 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ENG 507, SEMINAR, 1-16 Credits
CROSSLISTED as AMS 507/ENG 507.
Equivalent to: AMS 507
This course is repeatable for 16 credits.

ENG 510, GRADUATE INTERNSHIP IN ENGLISH, 1-2 Credits
Provides graduate students with supervised, on-the-job work experience and professional development. Graded P/N.
This course is repeatable for 12 credits.

ENG 512, STUDIES IN BRITISH THEATER AND SOCIETY, 4 Credits
Study of major dramatists and the audiences they addressed, of socio-economic conditions and their interrelations with theatrical institutions. Readings may include dramatic and non-dramatic literature. Historical period and content may vary.
This course is repeatable for 8 credits.

ENG 514, INTRODUCTION TO GRADUATE STUDIES, 4 Credits
Introduction to the MA program; theories and methods of English studies. Offered fall term only. Required for first-year MA students.

ENG 516, POWER AND REPRESENTATION, 4 Credits
Critical analysis of works by colonized peoples, women, and ethnic minorities, with a focus on the issue of representation. Not offered every year.
ENG 518, THE ENGLISH NOVEL: VICTORIAN PERIOD, 4 Credits
Selected English novels focusing on those from the Victorian period.

ENG 519, THE ENGLISH NOVEL: 20TH CENTURY, 4 Credits
Selected English novels of the 20th century.

ENG 520, STUDIES IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
Comparative studies in literature documenting or illuminating institutional and systematic discrimination. Not offered every year.

ENG 525, STUDIES IN MEDIEVAL LITERATURE, 4 Credits
Particular genres, themes, and writers in medieval literature. Topics change from term to term. This course is repeatable for 8 credits.

ENG 526, STUDIES IN CHAUCER, 4 Credits
The works of Geoffrey Chaucer in their historical, cultural, and poetic contexts. Topics change from term to term. This course is repeatable for 8 credits.

ENG 530, STUDIES IN EARLY MODERN LITERATURE, 4 Credits
Literature and culture of the Tudor, early Stuart, and Interregnum periods, 1485-1660. Content and genres will vary and may include non-English writers who influenced the English Renaissance. This course is repeatable for 8 credits.

ENG 533, STUDIES IN THE LONG EIGHTEENTH CENTURY, 4 Credits
Literature of the period 1660-1800, with emphasis on one or more of the following poets: Dryden, Pope, Swift, Johnson, Gray, Cowper. May also include prose writers (e.g., Behn, Fielding, Richardson, Addison and Steele) and dramatists (e.g., Congreve, Wycherly, Gay). Not offered every term. This course is repeatable for 8 credits.

ENG 534, STUDIES IN ROMANTICISM, 4 Credits
Romantic-period writing and culture, with emphasis on one or more of the following authors: Blake, Wordsworth, Coleridge, Keats, Byron and Shelley. May also include Romantic novelists and prose writers (e.g., Austen, Wollstonecraft, Burke). Not offered every term. This course is repeatable for 8 credits.

ENG 535, STUDIES IN SHAKESPEARE, 4 Credits
Shakespeare’s works from a variety of critical and scholarly perspectives. Not offered every term. This course is repeatable for 8 credits. Recommended: At least one quarter of Shakespeare

ENG 536, STUDIES IN VICTORIAN LITERATURE, 4 Credits
Fiction, poetry, and nonfiction prose of the Victorian era. Topics change from term to term. This course is repeatable for 8 credits.

ENG 538, STUDIES IN MODERNISM, 4 Credits
Studies in the literature and contexts of the Modernist period in Anglo-American letters (1890’s to 1940’s). Authors may include Wilde, Crane, Conrad, Eliot, Stevens, James, Woolf, Joyce, Lawrence, Shaw, Forster. Topics change from term to term. This course is repeatable for 8 credits.

ENG 540, STUDIES IN MODERN IRISH LITERATURE, 4 Credits
Studies in the literature and context of the period of Irish writing often referred to as the Irish Renaissance. Authors may include Yeats, Joyce, Shaw, O’Casey, Gregory, Synge, Bowen, Moore, Behan, O’Brien, Kavanagh, Cronin. Sometimes offered as a study of Joyce’s works alone. Topics change from term to term. This course is repeatable for 8 credits.

ENG 545, STUDIES IN NONFICTION, 4 Credits
Particular essayists and journalists, movements, problems, conventions, and types of nonfiction writing in English. Topics change from term to term. This course is repeatable for 16 credits.

ENG 550, STUDIES IN SHORT FICTION, 4 Credits
Particular writers, movements, and types of short fiction. Topics change from term to term. Not offered every year. This course is repeatable for 8 credits.

ENG 554, MAJOR AUTHORS, 4 Credits
Advanced study of major and influential authors from various cultures and backgrounds. Subjects change from term to term. Not offered every year. This course is repeatable for 8 credits.

ENG 560, STUDIES IN DRAMA, 4 Credits
Particular dramatists, movements, conventions, and types of world drama. Topics change from term to term. Not offered every term. This course is repeatable for 8 credits.

ENG 565, STUDIES IN THE NOVEL, 4 Credits
Particular novelists, movements, conventions, and types of the novel throughout its history. Topics change from term to term. Not offered every term. This course is repeatable for 8 credits.
ENG 570, STUDIES IN POETRY, 4 Credits
Particular poets, movements, problems, conventions, and types of poetry in English or English translation. Topics change from term to term. Not offered every term.
This course is repeatable for 8 credits.

ENG 575, STUDIES IN CRITICISM, 4 Credits
Particular critics, critical movements, issues, and histories of criticism. Topics change from term to term. Not offered every year.
This course is repeatable for 16 credits.

ENG 580, STUDIES IN LITERATURE, CULTURE AND SOCIETY, 4 Credits
Study of literature in its relationship to society and culture; study of literary culture. Topics change from term to term. Not offered every term.
Equivalent to: FILM 580
This course is repeatable for 16 credits.

ENG 582, STUDIES IN AMERICAN LITERATURE, CULTURE, AND THE ENVIRONMENT, 4 Credits
Creative nonfiction, fiction, poetry, and film from the mid-19th century to the present, examining relationships between rural and urban, and investigating the development of important patterns in how the physical environment is perceived, represented, interpreted, and used in the United States.
This course is repeatable for 8 credits.

ENG 585, STUDIES IN AMERICAN LITERATURE, 4 Credits
Special topics in American literary history. Organized around movements, regions, themes, or major authors. Topics change from term to term. Not offered every term.
This course is repeatable for 8 credits.

ENG 586, STUDIES IN BRITISH LITERATURE, 4 Credits
Particular British writers, movements, conventions, genres, and problems. Topics change from term to term. Not offered every year.
This course is repeatable for 8 credits.

ENG 588, LITERATURE AND PEDAGOGY, 4 Credits
Practices, approaches, histories, and theories of teaching literature appropriate for secondary through college settings. Considers text selection, assignments, and evaluation.

ENG 589, WRITING, LITERATURE AND MEDICINE, 4 Credits
Considers medical themes in literature, social meanings of illness, and writing strategies appropriate to the healing arts.

ENG 590, HISTORY OF THE ENGLISH LANGUAGE, 4 Credits
A study of the origins, changes, and reasons for changes in the grammar, sounds, and vocabulary of English from its earliest stages through its modern forms.

ENG 595, LANGUAGE, TECHNOLOGY, AND CULTURE, 4 Credits
Explores relationship between literacy, technology, and thought.

ENG 598, WOMEN AND LITERATURE, 4 Credits
Study of the relations between women and literature, including such issues as images of women in literature, women writers, and the effects of gender on language.
This course is repeatable for 8 credits.

Entomology (ENT)
ENT 101, INTRODUCTION TO CROP, SOIL, AND INSECT SCIENCE, 1 Credit
Introduces students with interests in crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. CROSSLISTED as CROP 101/ENT 101/SOIL 101.
Equivalent to: CROP 101, HORT 101, SOIL 101
Available via Ecampus

ENT 300, *PLAGUES, PESTS, AND POLITICS, 3 Credits
Integration and interaction of agricultural and public health aspects of entomology in society and history. CROSSLISTED as ENT 300/HORT 330.
(Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: BI 300, HORT 330
Available via Ecampus

ENT 311, INTRODUCTION TO INSECT PEST MANAGEMENT, 4 Credits
Identification, biology and management of injurious and beneficial insects. Concurrent laboratory is designed to provide hands-on experience with identification of insect groups of relevance to agricultural cropping systems. Lec/lab.
Equivalent to: CSS 311
Recommended: Entomology course work or one year college biology.
Available via Ecampus

ENT 322, HONEY BEE BIOLOGY AND BEEKEEPING, 3 Credits
In this introduction to the fascinating honey bee and its biology, honey bees are used as model organisms to illustrate general principles of biology, entomology, and sociobiology. Students will learn the basics of beekeeping, have an opportunity to manipulate honey bee colonies, and gain hands-on experience, prevailing winter weather permitting.
Available via Ecampus
ENT 331, POLLINATORS IN PERIL, 3 Credits
Pollinators, human influences on pollination systems, and the potential consequences of pollinator decline. An introduction to the skills needed to investigate media reports and multidisciplinary scientific research. Effects of pesticides, habitat fragmentation, climate change, invasive species, pests, pathogens, and other threats to pollinators in critical natural and agricultural systems around the world.
Equivalent to: HORT 331
Recommended: Completion of a Baccalaureate Core biological science course.
Available via Ecampus

ENT 401, RESEARCH, 1-16 Credits
Work on approved problems carried on in the library, laboratory or field. This course is repeatable for 16 credits.

ENT 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ENT 405, READING AND CONFERENCE, 1-16 Credits
Reading and discussions on special topics. This course is repeatable for 16 credits.

ENT 407, SEMINAR, 1-2 Credits
Graded P/N. This course is repeatable for 16 credits.

ENT 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENT 420, INSECT ECOLOGY, 3 Credits
Insect ecology, evolution, and management. Biophysical ecology; foraging and feeding; life cycles; population dynamics, regulation, and control; species interactions including herbivore-plant, predator-prey, parasite-host, competition, and mutualism; diversity, food web structure, agricultural ecology, exercises merge models, experiments, and sampling. Offered on even years.
Recommended: BI 370

ENT 440, ISSUES IN INSECT TOXICOLOGY, 3 Credits
Introduction to concepts and mechanisms associated with molecular toxicology as it relates to insects, including interactions with naturally occurring and synthetic compounds. Overview of current research in insect toxicology including resistance to pesticides, protection of non-target species, and use of insects as model organisms. Discussion of laboratory and field approaches and potential strategies to address issues in insect toxicology.
Recommended: Background in basic chemistry and biology
Available via Ecampus

ENT 444, INSECT AGROECOLOGY, 3 Credits
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape.
CROSSLISTED as ENT 444/HORT 444 and ENT 544/HORT 544.
Equivalent to: HORT 444
Recommended: General background or previous course work in entomology.

ENT 499, SPECIAL TOPICS, 1-6 Credits
Equivalent to: FW 499
This course is repeatable for 6 credits.

ENT 501, RESEARCH, 1-16 Credits
Work on approved problems carried on in the library, laboratory or field. This course is repeatable for 16 credits.

ENT 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ENT 505, READING AND CONFERENCE, 1-16 Credits
Reading and discussions on special topics. This course is repeatable for 16 credits.

ENT 507, SEMINAR, 1-2 Credits
Graded P/N. This course is repeatable for 16 credits.

ENT 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ENT 509, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509/ENT 509/PBG 509/SOIL 509.
Equivalent to: CROP 509, PBG 509, SOIL 509
This course is repeatable for 9 credits.

ENT 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENT 518, CURRENT TOPICS IN ENTOMOLOGY, 2 Credits
A core course of the Horticulture graduate program. Provides an advanced understanding of entomology and its relationship to other disciplines through critical analysis of the scientific literature. Practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term.
CROSSLISTED as ENT 518/HORT 518.
Equivalent to: HORT 518
This course is repeatable for 12 credits.
ENT 520, INSECT ECOLOGY, 3 Credits
Insect ecology, evolution, and management. Biophysical ecology; foraging and feeding; life cycles; population dynamics, regulation, and control; species interactions including herbivore-plant, predator-prey, parasite-host, competition, and mutualism; diversity, food web structure, agricultural ecology, exercises merge models, experiments, and sampling. Offered even years.
Recommended: BI 370 and Z 365

ENT 523, ORGANIC BEEKEEPING AND HONEY PRODUCTION, 3 Credits
In this introduction to the fascinating honey bee and its biology, honey bees are used as model organisms to illustrate general principles of biology, entomology, and sociobiology. Learn the basics of beekeeping, organic beekeeping and honey production. Examine the culture and certification of organic and conventional systems of honey production. Available via Ecampus

ENT 540, ISSUES IN INSECT TOXICOLOGY, 3 Credits
Introduction to concepts and mechanisms associated with molecular toxicology as it relates to insects, including interactions with naturally occurring and synthetic compounds. Overview of current research in insect toxicology including resistance to pesticides, protection of non-target species, and use of insects as model organisms. Discussion of laboratory and field approaches and potential strategies to address issues in insect toxicology.
Recommended: Background in basic chemistry and biology
Available via Ecampus

ENT 542, PRINCIPLES OF INTEGRATED PEST MANAGEMENT: SYSTEMS DESIGN, 4 Credits
Principles of integrated pest management design focusing on the use of systems analysis as a means to integrate management tactics, environmental and biological monitoring, pest control models, and implementation elements into a cohesive whole. Introduction to integrated pest management on websites. Students will design a hypothetical crop-pest management system. Lec/lab.
Equivalent to: HORT 542
Recommended: ENT 311

ENT 544, INSECT AGROECOLOGY, 3 Credits
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as ENT 444/HORT 444 and ENT 544/HORT 544.
Equivalent to: HORT 544
Recommended: General background or previous course work in entomology.

ENT 548, INTEGRATED PEST MANAGEMENT IN ORGANIC SYSTEMS, 3 Credits
Prevention, detection, and management of pests and diseases in organic plant production systems. Content includes activities that require students to expand their experience of pest management in their locality by incorporating new and emergent technology for monitoring, diagnosing and managing insects, pathogen, and weed pests and their impacts on crops. Discussions will be centered on the logistics and potential of new technologies in pest management, incorporating biological, ecological and sustainable agriculture concepts.
Recommended: ENT 311 with minimum grade of D-
Available via Ecampus

ENT 599, SPECIAL TOPICS, 1-16 Credits
Important topics of current interest in the areas of systematics, insect physiology and toxicology, ecology and behavior, and pest management. Course content and title will change with each offering.
This course is repeatable for 16 credits.

ENT 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ENT 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ENT 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ENT 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ENT 609, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded P/N.
Equivalent to: CROP 609, PBG 609, SOIL 609
This course is repeatable for 9 credits.

ENT 699, SPECIAL TOPICS, 1-16 Credits
Important topics of current interest in the areas of systematics, insect physiology and toxicology, ecology and behavior, and pest management. Course content and title will change with each offering.
This course is repeatable for 16 credits.
Environmental Arts & Humanities (EH)

**EAH 411, *^PERSPECTIVES IN ENVIRONMENTAL ARTS AND HUMANITIES, 4 Credits**
Introduction to methods of inquiry in the field of environmental arts and humanities. Students will learn key concepts in approaches to environmental humanities scholarship and environmental art, informed by ecological principles and other perspectives from the natural sciences. Disciplinary approaches include history, literature, philosophy, and the formal arts. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC
Available via Ecampus

**EAH 412, *^ENVIRONMENTAL SCIENCE IN CONTEXT, 4 Credits**
Introduction to environmental science methods and practice, especially for students studying in the arts and humanities. Students will gain a working understanding of the scientific method, theory, and analysis, including how to interpret and evaluate risk assessment, statistics-based arguments, and visual representations of data. Students will also gain an understanding of the history and role of the sciences in environmental discourse. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC
Available via Ecampus

**EAH 501, RESEARCH, 1-16 Credits**
Graded P/N.
*This course is repeatable for 99 credits.*

**EAH 503, THESIS, 1-16 Credits**
Graded P/N.
*This course is repeatable for 999 credits.*

**EAH 505, READING AND CONFERENCE, 1-4 Credits**
Graded P/N.
*This course is repeatable for 4 credits.*

**EAH 506, FIELD COURSE PROJECTS, 3 Credits**

**EAH 507, SEMINAR, 2-4 Credits**
*This course is repeatable for 10 credits.*

**EAH 508, PROFESSIONAL DEVELOPMENT WORKSHOP, 1 Credit**
Graded P/N.
*This course is repeatable for 6 credits.*

**EAH 510, WORK AND FIELD EXPERIENCE, 1-4 Credits**
Graded P/N.
*This course is repeatable for 8 credits.*

**Environmental Engineering (ENVE)**

**ENVE 199, SPECIAL TOPICS, 1-16 Credits**
Seminar course that includes invited speakers. Open to all students interested in learning about the Environmental Engineering undergraduate program and potential career opportunities. Graded P/N.
*This course is repeatable for 16 credits.*

**ENVE 299, SPECIAL TOPICS, 0-16 Credits**
Equivalent to: ENVE 299H
*This course is repeatable for 16 credits.*

**ENVE 299H, SPECIAL TOPICS, 0-16 Credits**
Attributes: HNRS – Honors Course Designator
Equivalent to: ENVE 299
*This course is repeatable for 16 credits.*

**ENVE 321, ENVIRONMENTAL ENGINEERING FUNDAMENTALS, 4 Credits**
Application of engineering principles to the analysis of environmental problems. Topics include water, wastewater, solid wastes, and air pollution.
Prerequisite: MTH 256 with C or better or MTH 256H with C or better

**ENVE 322, FUNDAMENTALS OF ENVIRONMENTAL ENGINEERING, 4 Credits**
Application of engineering principles to the analysis of environmental problems. Topics include water, wastewater, solid wastes, and air pollution.
Prerequisite: ((CH 222 with C or better or CH 232 with C or better or CH 232H with C or better or CH 225H with C or better) and (MTH 256 [C] or MTH 256H [C]))
ENVE 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 406, SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 407, SEMINAR, 1-16 Credits
Equivalent to: ENVE 407H
This course is repeatable for 16 credits.

ENVE 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ENVE 407
This course is repeatable for 16 credits.

ENVE 410, OCCUPATIONAL INTERNSHIP, 1-12 Credits
This course is repeatable for 12 credits.

ENVE 415, ENVIRONMENTAL ENGINEERING LABORATORY, 3 Credits
Theoretical and empirical analysis of several unit operations, use of formal work processes, safety, teamwork, oral and written communication, and personal accountability. Lec/lab/rec.
Prerequisite: CEEB 414 with C or better
Equivalent to: CHE 415

ENVE 421, DRINKING WATER TREATMENT PROCESSES, 4 Credits
Characterization and treatment of drinking water sources including engineering principles for the selection and design of treatment processes. Lec/rec/lab.
Prerequisite: ENVE 322 with C or better

ENVE 422, WASTEWATER TREATMENT PROCESSES, 4 Credits
Characterization and treatment of municipal and industrial wastewaters including engineering principles for the selection and design of treatment processes. Lec/rec.
Prerequisite: ENVE 421 with C or better

ENVE 425, AIR POLLUTION CONTROL, 3 Credits
Study of air pollution sources, transport, and control, including engineering, chemical, meteorological, social, and economic aspects. Lec/rec.
Prerequisite: ENVE 321 with C or better or ENVE 322 with C or better

ENVE 431, FATE AND TRANSPORT OF CHEMICALS IN ENVIRONMENTAL SYSTEMS, 4 Credits
Fundamentals of organic chemistry and engineering principles applied to the movement and fate of xenobiotic compounds. Lec/lab/rec.
Prerequisite: ((CH 123 with C or better or CH 223 with C or better or CH 226H with C or better or CH 233 with C or better) and (CH 440 [C] or CHE 331 [C] or CHE 331H [C]) and (ENVE 321 [C] or ENVE 322 [C] and ENVE 421 [C])

ENVE 456, SUSTAINABLE WATER RESOURCES DEVELOPMENT, 3 Credits
Sustainable water resources engineering principles, assessing the impact of engineering practices. Use of engineering analyses and sustainable principles to design projects and minimize their environmental impact.

ENVE 457, BIOREACTORS, 3 Credits
Design and analysis of bioreactors using suspension and immobilized microbial cultures.
Prerequisite: CHE 333 with C or better and ENVE 322 [C]

ENVE 490, ENVIRONMENTAL ENGINEERING DESIGN, 4 Credits
Open-ended design of environmental processes including development of process flow diagrams, control strategies, process simulators, and financial analysis of processes. Lec/rec.
Prerequisite: ENVE 421 with C or better and ENVE 422 [C]

ENVE 499, SPECIAL TOPICS IN ENVIRONMENTAL ENGINEERING, 1-4 Credits
A critical examination of topics selected by the instructor from among topics not covered in other environmental engineering courses.
This course is repeatable for 4 credits.

ENVE 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ENVE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 507, SEMINAR, 1-16 Credits
One-credit seminar. Graded P/N.
This course is repeatable for 16 credits.

ENVE 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
ENVE 521, DRINKING WATER TREATMENT PROCESSES, 4 Credits
Characterization and treatment of drinking water sources including engineering principles for the selection and design of treatment processes. Lec/rec/lab.
Recommended: ENVE 322

ENVE 522, WASTEWATER TREATMENT PROCESSES, 4 Credits
Characterization and treatment of municipal and industrial wastewaters including engineering principles for the selection and design of treatment processes. Lec/rec.
Recommended: ENVE 421

ENVE 525, AIR POLLUTION CONTROL, 3 Credits
Study of air pollution sources, transport, and control, including engineering, chemical, meteorological, social, and economic aspects. Lec/rec.
Recommended: ENVE 321 or ENVE 322

ENVE 531, FATE AND TRANSPORT OF CHEMICALS IN ENVIRONMENTAL SYSTEMS, 4 Credits
Fundamentals of organic chemistry and engineering principles applied to the movement and fate of xenobiotic compounds. Lec/lab/rec.
Recommended: (CH 123 or CH 223 or CH 226H or CH 233) and (CH 440 or CHE 331 or CHE 331H) and (ENVE 321 or ENVE 322) and ENVE 421

ENVE 532, AQUATIC CHEMISTRY: NATURAL AND ENGINEERED SYSTEMS, 4 Credits
Low temperature thermodynamic and selective kinetic treatments primarily of the inorganic chemistry groups, but also organic ligands and surface active groups, of natural and engineered waters; thermodynamic principles and computational techniques for prediction of equilibrium speciation; comparison of predictions to observations; computer laboratory. Lec/rec.
Equivalent to: OC 532
Recommended: One year of college-level chemistry (CH 221 and CH 222 and CH 223) or (CH 231 or CH 231H) and (CH 232 or CH 232H) and (CH 233 or CH 233H); a minimum of one year organic or physical chemistry; and concurrent enrollment in ENVE 536 and/or OC 652

ENVE 535, PHYSICAL AND CHEMICAL TREATMENT PROCESSES, 4 Credits
Fundamental principles of physical and chemical processes relevant for the treatment of contaminants in environmental matrices (e.g. water, air and soil).
Prerequisite: ENVE 532 with C or better
Equivalent to: ENVE 538

ENVE 536, AQUEOUS ENVIRONMENTAL CHEMISTRY LABORATORY, 1 Credit
Laboratory investigation of acid/base equilibria, coordination chemistry, and precipitation/dissolution chemistry.
Corequisites: ENVE 532

ENVE 541, MICROBIAL PROCESSES IN ENVIRONMENTAL SYSTEMS, 4 Credits
Energetics kinetics and stoichiometry of microbial transformations of organic and inorganic compounds. Mathematical models of biodegradation.

ENVE 545, MICROBIAL METHODS IN ENVIRONMENTAL ENGINEERING, 3 Credits
Covers the principles of microbiological methods pertinent to environmental engineers with an emphasis on applications in drinking water treatment, wastewater treatment, and soil remediation. The course is targeted at engineering students that do not have much experience with culture-based and molecular-based techniques.
Prerequisite: ENVE 541 with C+ or better

ENVE 554, GROUNDWATER REMEDIATION, 4 Credits

ENVE 556, SUSTAINABLE WATER RESOURCES DEVELOPMENT, 3 Credits
Sustainable water resources engineering principles, assessing the impact of engineering practices. Use of engineering analyses and sustainable principles to design projects and minimize their environmental impact.

ENVE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

ENVE 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ENVE 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ENVE 699, SELECTED TOPICS IN ENVIRONMENTAL ENGINEERING, 1-4 Credits
A critical examination of topics selected by the instructors from among topics not covered in other environmental engineering courses.
Equivalent to: ENVE 611
This course is repeatable for 8 credits.
Environmental Sciences (ENSC)

**ENSC 003, UNDERGRADUATE RESEARCH, 0 Credits**

Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

**ENSC 004, INTERNSHIP, 0 Credits**

Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students' understanding of the connection between theory and practice in their respective disciplines.

**ENSC 101, ENVIRONMENTAL SCIENCES ORIENTATION, 1 Credit**

Introduction to the Environmental Sciences Program and related professional and educational opportunities. Recommended for all freshman and first-year transfer environmental sciences majors, but open to all students interested in learning about career options in the environmental sciences. Graded P/N.

**ENSC 399, SPECIAL TOPICS, 1-16 Credits**

*Equivalent to: ENSC 399H*

This course is repeatable for 16 credits.

**ENSC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits**

*This course is repeatable for 24 credits.*

Available via Ecampus

**ENSC 402, INDEPENDENT STUDIES, 1-16 Credits**

*This course is repeatable for 24 credits.*

**ENSC 403, THESIS, 1-16 Credits**

*This course is repeatable for 24 credits.*

**ENSC 405, READING AND CONFERENCE, 1-12 Credits**

*Equivalent to: ENSC 405H*

*This course is repeatable for 16 credits.*

**ENSC 406, PROJECTS, 1-16 Credits**

*This course is repeatable for 24 credits.*

**ENSC 407, SEMINAR, 1-16 Credits**

*Equivalent to: ENSC 407H*

*This course is repeatable for 12 credits.*

**ENSC 407H, SEMINAR, 1-16 Credits**

*Attributes: HNRS – Honors Course Designator*

*Equivalent to: ENSC 407*

*This course is repeatable for 12 credits.*

Available via Ecampus

**ENSC 408, WORKSHOP, 1-16 Credits**

*This course is repeatable for 12 credits.*

**ENSC 410, ENVIRONMENTAL SCIENCE INTERNSHIP, 1-12 Credits**

Supervised practical experience working with professionals at selected cooperating institutions, agencies, laboratories, or companies. Graded P/N.

*This course is repeatable for 48 credits.*

Available via Ecampus

**ENSC 452, ENVIRONMENTAL ASSESSMENT, 3 Credits**

Environmental site assessment is a primary tool for environmental science professionals. Apply environmental science concepts to evaluate features of a specific natural area and conduct a land suitability analysis. Create a conceptual site design and management plan that complies with federal, state, and local regulations and environmental laws. CROSSTLISTED as ENSC 452/GEOG 452 and GEOG 552.

*Equivalent to: GEOG 452*

Available via Ecampus

**ENSC 479, ENVIRONMENTAL CASE STUDIES, 3 Credits**

Improves students' ability to ask questions, gather and synthesize information, and communicate ideas on environmental topics. Instruction and information necessary for the course is entirely Web based. (Writing Intensive Course)

*Attributes: CWIC – Core, Skills, WIC*

*Equivalent to: BOT 479*

*Recommended: One year of college biology or chemistry*

Available via Ecampus

**ENSC 499, SPECIAL TOPICS, 1-16 Credits**

*This course is repeatable for 16 credits.*

**ENSC 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits**

*This course is repeatable for 16 credits.*

**ENSC 503, THESIS, 1-16 Credits**

*PREREQ: Departmental approval required.*

*This course is repeatable for 999 credits.*

Available via Ecampus

**ENSC 505, READING AND CONFERENCE, 1-16 Credits**

*This course is repeatable for 16 credits.*

**ENSC 506, PROJECTS, 1-16 Credits**

*This course is repeatable for 16 credits.*

Available via Ecampus

**ENSC 507, SEMINAR, 1-16 Credits**

*This course is repeatable for 16 credits.*
**ENSC 508, WORKSHOP, 1-16 Credits**  
PREREQ: Departmental approval required.  
This course is repeatable for 16 credits.  
Available via Ecampus

**ENSC 510, INTERNSHIP, 1-12 Credits**  
This course is repeatable for 12 credits.  
Available via Ecampus

**ENSC 515, ENVIRONMENTAL PERSPECTIVES AND METHODS, 3 Credits**  
Unique perspective or method each quarter. Possibilities include: remote sensing, modeling over a range of scales in time, space, and levels of system organization; and risk analysis.  
Available via Ecampus

**ENSC 516, USING BEST PRACTICES IN ENVIRONMENTAL PROJECT MANAGEMENT, 4 Credits**  
Explore foundational project management concepts using a real world case-study to practice both soft and hard skills through individual and group assignments, discussions and presentations. Apply best practices, methodologies and tools using a global standards framework to achieve successful outcomes in environmental project management work. Active learning and networking are incorporated throughout the course to provide a full perspective on project management.  
Available via Ecampus

**ENSC 520, ENVIRONMENTAL ANALYSIS, 3 Credits**  
Develop analytical thinking, explore analytical approaches, enhance writing skills, and gain experience in oral communication about environmental issues.  
Available via Ecampus

**ENSC 540, ENVIRONMENTAL SCIENCE PERSPECTIVES ON THE FUTURE OF FOOD, 4 Credits**  
Examines the newest developments in environmental science research and on-the-ground best management practices for achieving food security and sustainability for growing U.S. and global populations in a dynamic environment and climate.  
Available via Ecampus

**ENSC 541, ENVIRONMENTAL SCIENCE, SCIENTISTS, AND SOUND DECISIONS, 4 Credits**  
Focusing on analyzing the role of environmental science and scientists in decision-making in a variety of professional contexts at various scales (local through global) using a case-study approach and proposing a draft model process.  
Available via Ecampus

**ENSC 542, MANAGEMENT OPPORTUNITIES IN THE NITROGEN CASCADE, 4 Credits**  
Analyzes the environmental science behind reducing excess reactive nitrogen entering the environment through our provision of food, power, and transportation for future populations. Identifies emerging complementary suites of interventions and legislation innovating management practices at local, regional, national and international scales.  
Available via Ecampus

**ENSC 543, EXCELLING IN AN INTERDISCIPLINARY TEAM, 4 Credits**  
Identifying, examining and practicing the top skills, attributes and leadership dynamics involved in working in interdisciplinary environmental science teams in industry, government, and research organizations, informed by experienced experts across these areas.  
Available via Ecampus

**ENSC 549, SELECTED TOPICS, 1-16 Credits**  
This course is repeatable for 16 credits.

**ENSC 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits**  
This course is repeatable for 16 credits.

**ENSC 603, THESIS, 1-16 Credits**  
This course is repeatable for 999 credits.

**ENSC 605, READING AND CONFERENCE, 1-16 Credits**  
This course is repeatable for 16 credits.

**ENSC 606, PROJECTS, 1-16 Credits**  
This course is repeatable for 16 credits.

**ENSC 607, SEMINAR, 1-16 Credits**  
This course is repeatable for 16 credits.

**ENSC 699, SELECTED TOPICS, 1-16 Credits**  
This course is repeatable for 16 credits.

**Ethnic Studies (ES)**

**ES 101, *INTRODUCTION TO ETHNIC STUDIES, 3 Credits**  
This interdisciplinary course focuses on the ethnic group experience in the United States with emphasis on African Americans, Native Americans, Chicanos/as, Latinos/as, and Asian Americans. (Bacc Core Course)  
Attributes: CPCD – Core, Pers, Cult Diversity; LACS – Liberal Arts Social Core  
Available via Ecampus
ES 159, *LANGUAGE, RACE AND RACISM IN THE US: AN INTRODUCTION, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed notions. CROSSLISTED as ANTH 159/ES 159/WLC 159. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ANTH 159, WLC 159

ES 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ES 201, *INVENTING ETHNIC AMERICA, 3 Credits
An examination of past and present constructions of race and ethnicity in U.S. culture and society and their impact on individuals, institutions, policies, and practices, with particular emphasis on contemporary America. (Bacc Core Course) (H) (SS)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Available via Ecampus

ES 211, *INTRODUCTION TO LATINO/A STUDIES, 4 Credits
An introduction to key concepts and ideas in Latino/a Studies, with a focus on the processes that led to the historical incorporation of various Latin@ groups into the United States, and the factors that have shaped contexts of reception for Latino/as historically. Students will explore connections and disconnections between historical and present day discourses and processes. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

ES 213, *LATINO/A IDENTITIES AND ACTIVISM, 4 Credits
A comparative interdisciplinary treatment of contemporary Latino/a cultures and current issues affecting their status in the United States. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Available via Ecampus

ES 221, *SURVEY OF AFRICAN AMERICAN STUDIES I, 4 Credits
An interdisciplinary survey of the African American experience beginning with pre-colonial Africa and ending with World War I. (H) (NC) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 221

ES 221H, *SURVEY OF AFRICAN AMERICAN STUDIES I, 3 Credits
An interdisciplinary survey of the African American experience beginning with pre-colonial Africa and ending with World War I. (H) (NC) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ES 221

ES 223, *SURVEY OF AFRICAN AMERICAN STUDIES II, 4 Credits
An interdisciplinary survey of the African American experience from World War I to the present. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Equivalent to: ES 223H

ES 223H, *SURVEY OF AFRICAN AMERICAN STUDIES II, 4 Credits
An interdisciplinary survey of the African American experience from World War I to the present. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ES 223

ES 231, *INTRODUCTION TO ASIAN AMERICAN STUDIES, 4 Credits
An examination of the histories and experiences of Asian Americans from the mid-1800s to the present through historical texts, oral histories, personal essays, video, audio, and creative writings. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core

ES 233, *ASIAN PACIFIC AMERICAN ACTIVISM AND EMPOWERMENT, 4 Credits
A look at Asian Pacific American activism and issues, from early labor organizing to contemporary community efforts, with particular emphasis on the 1960s to the present. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core

ES 241, *INTRODUCTION TO NATIVE AMERICAN STUDIES, 4 Credits
A survey of Native American cultures and history, both prior to and following contact with Europeans. Introduces the key contemporary issues and questions in the field of Native American studies. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 241H
Available via Ecampus
ES 241H, *INTRODUCTION TO NATIVE AMERICAN STUDIES, 4 Credits
A survey of Native American cultures and history, both prior to and following contact with Europeans. Introduces the key contemporary issues and questions in the field of Native American studies. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 241

ES 243, *NATIVE AMERICAN ASSIMILATION AND ACTIVISM, 4 Credits
Comprehensive course dealing with Native American experiences in the United States. Focuses on tribal and individual Native American activism and responses to government policies and cultural practices of assimilation since 1900. (Bacc Core Course) (H) (NC)
Attributes: CPCD – Core, Pers, Cult Diversity; CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core

ES 260, *INTRODUCTION TO PACIFIC ISLANDS STUDIES, 4 Credits
Introduction to the geography, societies, histories, cultures, and contemporary issues of Oceania (Pacific islands). Especially concerned with the experience of indigenous communities and the representations generated inside and outside Oceania. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

ES 270, MAKING ALLIANCES AND SOLIDARITIES, 4 Credits
Examines the history of social justice movement alliances and solidarity work. Students will learn from case studies and analyses of successes and failures in collaborations across race, gender, class, sexuality, and indigenous communities. Students will extend course learning via experiential projects requiring the application and practice of alliance-making and solidarity principles.

ES 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ES 311, NARRATIVES OF LATINO MIGRATIONS, 3 Credits
A study of the scholarship and creative literature dealing with migrations from Mexico and other Latin American countries to the United States.
Attributes: LACH – Liberal Arts Humanities Core

ES 321, AFRICAN AMERICAN POLITICAL AND SOCIAL THOUGHT: 20TH CENTURY, 4 Credits
This interdisciplinary course examines the dialogues, conflicts and self-representations produced by African Americans beginning with the closing years of the 19th century (1895) and ending with the opening days of World War II. (SS)
Attributes: LACS – Liberal Arts Social Core

ES 323, CONTEMPORARY AFRICAN AMERICAN SOCIAL DISCOURSE, 4 Credits
Interdisciplinary course examines key African American political discourse(s) that emerged in response to major social and cultural transformations occurring in the United States after World War II to the present. (SS)
Attributes: LACS – Liberal Arts Social Core

ES 332, ASIAN PACIFIC AMERICANS AND THE MEDIA, 4 Credits
A broad study of representations of Asians, Pacific Islanders, and Asian Pacific Americans in various US media, including media produced by Asian Pacific Americans themselves.
Attributes: LACH – Liberal Arts Humanities Core

ES 334, *ASIAN PACIFIC AMERICAN LITERATURE, 4 Credits
An examination of various works by Asian Pacific American writers and some of the critical debates surrounding them. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPLA – Core, Pers, Lit and Arts

ES 345, NATIVE AMERICANS IN OREGON, 4 Credits
Analysis and understanding of the complex experiences of Native Americans in the present state of Oregon, from early contact with those of other ethnicities to contemporary demographic contexts. (H) (NC)
Attributes: LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Available via Ecampus

ES 350, ^PUBLIC DISCOURSE AND WRITINGS ON RACE, 4 Credits
Explores historical and contemporary cases of private, political, and public discourse on race and difference. Students will study diverse examples to explore strategies and methods of dominant and resistant discourse, as well as their social and material impacts. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

ES 351, *ETHNIC MINORITIES IN OREGON, 4 Credits
Exploration of the cultures and contributions of major ethnic groups in the state of Oregon. With timelines, oral histories, and audiovisual aids, the course will allow students to learn the ethnic and regional diversity in Oregon history. (Bacc Core Course) (H)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Available via Ecampus
ES 353, *ENVIRONMENTAL RACISM, 4 Credits
Introduces environmental racism; the unequal impact of environmental harm on communities of color and indigenous peoples. Presents empirical evidence and theoretical frames, and explores efforts by government, residents, and activists to combat it. Considers questions of environmental justice via social structure, public access, open space, indigeneity, food, and media. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 353H

ES 353H, *ENVIRONMENTAL RACISM, 4 Credits
Introduces environmental racism; the unequal impact of environmental harm on communities of color and indigenous peoples. Presents empirical evidence and theoretical frames, and explores efforts by government, residents, and activists to combat it. Considers questions of environmental justice via social structure, public access, open space, indigeneity, food, and media. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 353

ES 354, *LITERATURE OF ETHNIC MINORITIES IN THE UNITED STATES, 4 Credits
An examination of various literary works by ethnic minorities addressing issues of race and ethnicity in U.S. culture and society. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

ES 355, *RACE, SPACE, AND DIFFERENCE, 4 Credits
A hands-on approach to exploring how we make space, and why geography is always infused with markers of social identity and exercises of power. Will practice ‘reading’ space and landscapes, and learn how notions of race and other forms of ‘difference’ shape space (and vice versa) to produce experiences of inclusion, exclusion, cooperation, and conflict. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 355H

ES 355H, *RACE, SPACE, AND DIFFERENCE, 4 Credits
A hands-on approach to exploring how we make space, and why geography is always infused with markers of social identity and exercises of power. Will practice ‘reading’ space and landscapes, and learn how notions of race and other forms of ‘difference’ shape space (and vice versa) to produce experiences of inclusion, exclusion, cooperation, and conflict. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 355

ES 357, *FARMWORKER JUSTICE MOVEMENTS, 4 Credits
Justice movements for farmworkers have a long and storied past in the annals of US history. This course begins with the 1960s Chicano civil rights era struggles for social justice. Focus on the varied strategies of four farmworker justice movements: United Farm Workers, Farm Labor Organizing Committee, Pinos y Campesinos Unidos Noroeste, and the Coalition of Immokalee Workers. The course is structured around the question of the movement and its various articulations. Course covers central themes and strategies that comprise the core of farmworker movements but is designed to allow students to explore other articulations they find relevant. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 357H

ES 357H, *FARMWORKER JUSTICE MOVEMENTS, 4 Credits
Justice movements for farmworkers have a long and storied past in the annals of US history. This course begins with the 1960s Chicano civil rights era struggles for social justice. Focus on the varied strategies of four farmworker justice movements: United Farm Workers, Farm Labor Organizing Committee, Pinos y Campesinos Unidos Noroeste, and the Coalition of Immokalee Workers. The course is structured around the question of the movement and its various articulations. Course covers central themes and strategies that comprise the core of farmworker movements but is designed to allow students to explore other articulations they find relevant. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: ES 357

ES 360, *INDIGENOUS OCEAN AND COAST, 4 Credits
An intensive experiential course that explores Indigenous ocean and coast relationships. Work directly with the Confederated Tribes of Siletz on several possible coast related projects, all using hands-on learning and application methods. All projects will be centered on traditional knowledge, including traditional ecological knowledge (TEK). Projects will center current tribal interests and needs as well as engage with the complexities of continuing cultural practices within a confederated (and once terminated) tribe comprised of both coastal and inland bands and tribes.
Attributes: CPCD – Core, Pers, Cult Diversity

ES 361, (RE)FRAMING RACE THROUGH FILM PRODUCTION, 4 Credits
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROS Lis listed as ES 361/ QS 361/WGSS 361/WLC 361.
Equivalent to: QS 361, WGSS 361, WLC 361
Recommended: Prior filmmaking experience
ES 373, APPROACHES TO SOCIAL JUSTICE, 3 Credits
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSTILLED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ANTH 373, WGSS 373, WLC 373

ES 375, *ARTS AND SOCIAL JUSTICE, 4 Credits
Explores concepts of structural inequality, difference, power, and discrimination through a critical survey of arts activism. Think critically about artwork and artists which address a number of social issues in the United States, including race, ethnicity, class, gender, sexuality, immigration, and indigeneity. CROSSTILLED as ES 375/QS 375/WGSS 375.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 375, WGSS 375

ES 377, *HEALTH AND SOCIAL JUSTICE, 4 Credits
Introduction to the intersection of health and social justice, to better understand socially unjust health differences (inequities) present in communities across the United States and abroad. Examination of relevant historical issues, theories of justice, human rights, and empirical evidence of health inequities, with an emphasis in critical analysis and applied knowledge. Overview of community-engaged participatory approaches that may be used to address social injustices and health inequities. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

ES 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: ES 399H
This course is repeatable for 16 credits.

ES 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ES 399
This course is repeatable for 16 credits.

ES 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ES 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ES 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ES 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ES 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ES 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ES 408, WORKSHOP, 1-16 Credits
This course is repeatable for 99 credits.

ES 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

ES 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ES 416, MIGRANT HEALTH, 4 Credits
An overview of major health and health care issues related to migrant communities in the United States. From an ecological perspective, students gain an understanding of the theories and realities about migration and the migration-health relationship. In particular, the situation of migrant and seasonal farmworkers in the Pacific Northwest is analyzed. Specific topics include assimilation and acculturation, access to care, protective practices (the so-called Latino paradox), migrant health centers and community health workers, environmental and occupational issues, immigrant families.

ES 431, *QUEER OF COLOR CRITIQUES, 4 Credits
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSTILLED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 431, WGSS 431

ES 437, *(EN)GENDERING ASIAN PACIFIC AMERICA, 4 Credits
An examination of intersecting articulations of race, class, gender, sexuality, and ethnicity as they relate to and are addressed by Asian Pacific Americans. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Equivalent to: ES 431

ES 444, NATIVE AMERICAN LAW: TRIBES, TREATIES, AND THE UNITED STATES, 4 Credits
Examination of the parameters of native treaty relationships with the federal and state governments, and considers the future of these agreements.
Attributes: LACN – Liberal Arts Non-Western Core; LACS – Liberal Arts Social Core

ES 445, *NATIVE AMERICAN SCIENCE AND TECHNOLOGY, 4 Credits
Examination of scientific and technological discovery, continuity, and change among indigenous peoples, with particular emphasis on selected communities of pre- and post-European contact North America. (Bacc Core Course) (H) (NC)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 445H
ES 445H, *NATIVE AMERICAN SCIENCE AND TECHNOLOGY, 4 Credits
Examination of scientific and technological discovery, continuity, and change among indigenous peoples, with particular emphasis on selected communities of pre- and post-European contact North America. (Bacc Core Course) (H) (NC)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: ES 445

ES 448, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 448, REL 448

ES 451, THEORIES OF RACE AND ETHNICITY, 4 Credits
A seminar examining various theories of race and ethnicity, their historical contexts, and applications.

ES 453, *ETHNOHISTORY METHODOLOGY, 4 Credits
A seminar developing techniques for collecting, analyzing, and incorporating ethnic community histories in research papers and theses. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACN – Liberal Arts Non-Western Core
Available via Ecampus

ES 455, INTERNSHIP SEMINAR, 1 Credit
Prepares students for the internship and provides an opportunity to explore career options and/or graduate study.
Recommended: ES 101 and ES 201

ES 457, *LITERATURE BY WOMEN OF COLOR IN THE UNITED STATES, 4 Credits
An examination of works by various women writers of color and their treatment of issues such as race, ethnicity, class, sexuality, and gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core

ES 458, RACIAL PATTERNS OF URBANIZATION, 4 Credits
This interdisciplinary course will examine the linkages between race and patterns of urbanization. It will examine how ideologies about race, gender, and class have set the themes of debate and discussion about urbanization in both theoretical and popular discourses.

ES 459, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas— as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ANTH 459, WLC 459

ES 460, ETHNICITY AND SOCIAL JUSTICE, 4 Credits
Seminar examines inequities and social justice issues in contemporary U.S. society, particularly dimensions of race and ethnicity in our public policies and practices impacting communities in areas such as housing, poverty, employment, public health, education, law enforcement, and the environment.

ES 461, RACISM AND THE PRISON INDUSTRIAL COMPLEX, 4 Credits
The prison industrial/punishment complex in the late 20th and early 21st centuries has become a growth industry with the privatization of prisons, and mass incarceration of mostly people-of-color. This course examines the history and growth of this industry and the implications that it has on this democracy.

ES 463, US EMPIRE/IMPERIALISM, SETTLER/COLONIALISM, CAPITALISM/ RACE, 4 Credits
How and when did the United States become an empire? This course approaches the historical and contemporary actions of the United States as both a continental and global empire through historiography, socio-political, economic, and racial analyses of U.S. hegemony. Students will learn from recent interdisciplinary scholars who have worked to understand the development of U.S. empire as a series of overlapping cultural projects in the homeland, and beyond the borders of the United States as mutually constitutive of political, and economic, and cultural processes of empire-building, that is capital accumulation, and power.
ES 464, FOOD AND ETHNIC IDENTITY: DECOLONIZING FOOD AND OUR BODY, 3 Credits
This interdisciplinary and comparative course will examine the relationship between food and identity. Food, from its production to consumption, is a powerful symbol of social and cultural meaning. As an expression of identity and subjectivity, food also marks borders between humans and non-humans, plants and animals, nature and culture, tradition and modernity, etc. CROSSLISTED as ES 464/FCSJ 464 and ES 564/FCSJ 564. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: FCSJ 464
Available via Ecampus

ES 472, 'INDIGENOUS TWO-SPIRIT AND QUEER STUDIES, 4 Credits
'Two-spirit' refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art. CROSSLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/ WGSS 572. (Writing Intensive Course).
Attributes: CWIC – Core, Skills, WIC
Equivalent to: QS 472, WGSS 472
Recommended: QS 262 or ES 242 or WGSS 414
Available via Ecampus

ES 477, QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/ WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: QS 477, WGSS 477
Recommended: QS 262 and QS 462

ES 483, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, PS 483, WLC 483

ES 485, CAPSTONE IN SOCIAL JUSTICE, 2 Credits
Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisite: (ANTH 373 with D- or better or ES 373 with D- or better or WGSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WGSS 410 [D-] or WLC 410 [D-])
Equivalent to: ANTH 485, WGSS 485, WLC 485
This course is repeatable for 4 credits.

ES 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ES 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ES 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

ES 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

ES 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ES 506, SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ES 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ES 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

ES 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

ES 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

ES 515, ADVANCED RESEARCH LITERATURE REVIEW, 3 Credits
Provides graduate students with knowledge and experience in the advanced literature review process including construction of the literature review as product. One of the primary skills graduate students must master is advanced review of a body of literature for the research project. Mastery of the literature review process influences quality and sophistication of claims developed to justify research, with the written review clearly delineating the unique contribution of the student's research and the knowledge gap that it fills. The literature review as a product is a strong written argument that builds a case from credible evidence based on previous research. CROSSLISTED as ANTH 515/ CSSA 515/ES 515/WGSS 515.
Equivalent to: ANTH 515, CSSA 515, WGSS 515
ES 516, MIGRANT HEALTH, 4 Credits
An overview of major health and health care issues related to immigrant communities in the United States. From an ecological perspective, students gain an understanding of the theories and realities about migration and the migration-health relationship. In particular, the situation of migrant and seasonal farmworkers in the Pacific Northwest is analyzed. Specific topics include assimilation and acculturation, access to care, protective practices (the so-called Latino paradox), migrant health centers and community health workers, environmental and occupational issues, immigrant families.

ES 531, QUEER OF COLOR CRITIQUES, 4 Credits
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531.
Equivalent to: QS 531, WGSS 531

ES 537, (EN)GENDERING ASIAN PACIFIC AMERICA, 4 Credits
An examination of intersecting articulations of race, class, gender, sexuality, and ethnicity as they relate to and are addressed by Asian Pacific Americans.
Equivalent to: ES 531

ES 544, NATIVE AMERICAN LAW: TRIBES, TREATIES, AND THE U.S., 4 Credits
Examination of the parameters of native treaty relationships with the federal and state governments, and considers the future of these agreements.

ES 548, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSLISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548.
Equivalent to: PHL 548, REL 548

ES 551, THEORIES OF RACE AND ETHNICITY, 4 Credits
A seminar examining various theories of race and ethnicity, their historical contexts, and applications.

ES 552, ETHNICITY IN FILM, 4 Credits
Using ethnicity and gender as primary frames of reference, this upper-division/graduate level seminar seeks to introduce students to critical film theory and examine ethnicity and gender as a force both in front of and behind the camera.
Available via Ecampus

ES 553, ETHNOHISTORY METHODOLOGY, 4 Credits
A seminar developing techniques for collecting, analyzing, and incorporating ethnic community histories in research papers and theses.

ES 557, LITERATURE BY WOMEN OF COLOR IN THE UNITED STATES, 4 Credits
An examination of works by various women writers of color and their treatment of issues such as race, ethnicity, class, sexuality, and gender.

ES 558, RACIAL PATTERNS OF URBANIZATION, 4 Credits
This interdisciplinary course will examine the linkages between race and patterns of urbanization. It will examine how ideologies about race, gender, and class have set the themes of debate and discussion and about urbanization in both theoretical and popular discourse.

ES 559, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas— as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ANTH 559, WLC 559

ES 560, ETHNICITY AND SOCIAL JUSTICE, 4 Credits
Seminar examines inequities and social justice issues in contemporary U.S. society, particularly dimensions of race and ethnicity in our public policies and practices impacting communities in areas such as housing, poverty, employment, public health, education, law enforcement, and the environment.

ES 561, RACISM AND THE PRISON INDUSTRIAL COMPLEX, 4 Credits
The prison industrial/punishment complex in the late 20th and early 21st centuries has become a growth industry with the privatization of prisons, and mass incarceration of mostly people-of-color. This course examines the history and growth of this industry and the implications that it has on this democracy.

ES 563, US EMPIRE/IMPERIALISM, SETTLER/COLONIALISM, CAPITALISM/ RACE, 4 Credits
How and when did the United States become an empire? This course approaches the historical and contemporary actions of the United States as both a continental and global empire through historiography, socio-political, economic, and racial analyses of U.S. hegemony. Students will learn from recent interdisciplinary scholars who have worked to understand the development of U.S. empire as a series of overlapping cultural projects in the homeland, and beyond the borders of the United States as mutually constitutive of political, and economic, and cultural processes of empire-building, that is capital accumulation, and power.
ES 564, FOOD AND ETHNIC IDENTITY: DECOLONIZING OUR FOOD AND BODY, 3 Credits
This interdisciplinary and comparative course will examine the relationship between food and identity. Food, from its production to consumption, is a powerful symbol of social and cultural meaning. As an expression of identity and subjectivity, food also marks borders between humans and non-humans, plants and animals, nature and culture, tradition and modernity, etc. CROSSLISTED as ES 464/FCSJ 464 and ES 564/FCSJ 564.
Equivalent to: FCSJ 564
Available via Ecampus

ES 569, TOPICS IN JOTERIA STUDIES, 3 Credits
A space for engaging with arts, activism and scholarship emerging from queer Latin@/Chican@ experiences and consciousness is provided. Offered winter term in odd years. CROSSLISTED as ES 569/SPAN 569/WS 569.
Equivalent to: QS 569, SPAN 569, WS 569
This course is repeatable for 6 credits.

ES 572, INDIGENOUS TWO SPIRIT AND QUEER STUDIES, 4 Credits
Equivalent to: QS 572, WS 572
Recommended: QS 262 or QS 464

ES 575, CRITICAL RACE FEMINISM AND OUTSIDER JURISPRUDENCE, 4 Credits
Critical exploration of critical legal justice movements and their relationship to social identities. Seminar emphasizes specific legal cases, federal and state laws, and constitutional issues that impact groups deemed outsiders in legal discourse as well as their social implications. The critical justice movement and anti-subordination struggles will be explored via case analyses that shape race, class, gender, sexuality, and disability relations. Theoretical contributions of law and society, critical race theory, LatCrit, and critical race feminism, critical white studies, critical mixed race studies, OutCrit, ClassCrit, and critical disability studies applied to historical precedent and current attempts at marginalizing/empowering communities. CROSSLISTED as ES 575/WS 575.
Equivalent to: WS 575

ES 577, QUEER TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WS 477 and ES 577/QS 577/WS 577.
Equivalent to: QS 577, WS 577
Recommended: QS 262 and QS 464

ES 583, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WS 483 and ES 583/PS 583/WS 583.
Equivalent to: ENG 583, PS 583, WS 583

ES 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

ES 808, WORKSHOP, 1-16 Credits
This course is repeatable for 99 credits.

Film Studies (FILM)

FILM 110, *INTRODUCTION TO FILM STUDIES: 1895-1945, 3 Credits
An introduction to the serious study of world cinema, 1895-1945. Class lectures will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films from the U.S., Europe, and Asia accompany the lectures. Film fee required. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 110

FILM 125, *INTRODUCTION TO FILM STUDIES: 1945-PRESENT, 3 Credits
Provides an introduction to the serious study of world cinema, 1945-present. Class lectures will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films from the U.S., Europe, and Asia accompany the lectures. Film fee required. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 125
FILM 220, *TOPICS IN DIFFERENCE, POWER, AND DISCRIMINATION, 4 Credits
A comparative treatment of literary topics in the context of institutional and systematic discrimination. Not offered every year. CROSSLISTED as ENG 220/FILM 220. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 220, ENG 220H

FILM 245, *THE NEW AMERICAN CINEMA, 4 Credits
A formalist, ideological, and commercial investigation into contemporary American cinema. Three hours of lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 245, FILM 245H
Available via Ecampus

FILM 245H, *THE NEW AMERICAN CINEMA, 4 Credits
A formalist, ideological, and commercial investigation into contemporary American cinema. Three hours of lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 245, ENG 245H, FILM 245

FILM 255, *WORLD CINEMA PART I: ORIGINS TO 1968, 4 Credits
A systematic introduction to the arts and history of international cinema, from the invention of the medium in 1895 to the rise of New Wave and Third Cinema in the 1960s. Weekly screenings of films such as Rashomon, Tokyo Story, Pather Panchali, Terra em Transe, and La Noire de. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

FILM 256, *WORLD CINEMA PART II: 1968-PRESENT, 4 Credits
A systematic introduction to the arts and history of international cinema, from the decolonization movement in the 1960s and the 1970s to the dynamics of globalization that we are experiencing today. Weekly screenings include such films as A Better Tomorrow, Chungking Express, Spirited Away, Oldboy, Bombay, and City of God. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Available via Ecampus

FILM 265, *FILMS FOR THE FUTURE, 4 Credits
An interdisciplinary study of film, literary, and philosophical visions of the future. Three hours of lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 265

FILM 310, *FILM THEORY AND CRITICISM, 4 Credits
Survey of significant works and movements in film theory and criticism, from classical to contemporary eras. Begins with the question of what distinguishes film from other visual arts, pursuing questions about the ontology of film, medium specificity, and aesthetics. Proceeds with investigations concerning issues of technology, authorship, genre, the avant-garde, gender, race and ethnicity, commercialism, transnationalism, queer theory, and affect. Weekly screenings will supplement class readings, lectures and discussions. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Prerequisite: FILM 110 with C or better or FILM 125 with C or better

FILM 360, INTERNATIONAL FILM FESTIVAL, 3 Credits
Critical study of a selection of films screened at the Oregon State University’s International Film Festival. Topics include acting, sound, special effects, cinematography. CROSSLISTED as FILM 360/WLC 360.
Equivalent to: WLC 360
This course is repeatable for 9 credits.

FILM 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: FILM 399H
This course is repeatable for 16 credits.

FILM 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FILM 399
This course is repeatable for 16 credits.

FILM 445, DOCUMENTARY FILM STUDIES, 4 Credits
Examines the worldwide development of documentary filmmaking. We interrogate the nature, form, and function of non-fiction cinematic forms by analyzing diverse films, filmmakers, and theoretical models, while paying attention to social, technological, and aesthetic influences. We study significant modes of documentary including the city symphony, political documentary, direct cinema/cinema verite, and postmodern documentary. Finally, we will pay special attention to the cross-fertilization of non-fiction with other filmmaking modes. Throughout the course, we seek to answer the following questions: How do documentary conventions mark the ‘Real’? How is documentary film a tool for social change?

FILM 452, ^STUDIES IN FILM, 4 Credits
Particular cinematographers, movements, types, conventions, or problems in film. Topics change from term to term. Lecture and separate screenings each week. Film fee required. Not offered every year. (H) (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core
Equivalent to: ENG 452, ENG 452H, FILM 452H
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.
FILM 452H, STUDIES IN FILM, 4 Credits
Particular cinematographers, movements, types, conventions, or problems in film. Topics change from term to term. Lecture and separate screenings each week. Film fee required. Not offered every year. (H)
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator;
LACH – Liberal Arts Humanities Core
Equivalent to: ENG 452, FILM 452
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above

FILM 480, STUDIES IN FILM, CULTURE AND SOCIETY, 4 Credits
Study of film in its relationship to society and culture; study of film culture. Topics change from term to term. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: ENG 480
This course is repeatable for 8 credits.
Recommended: Sophomore standing; 8 credits of ENG 200-level or above.

FILM 545, DOCUMENTARY FILM STUDIES, 4 Credits
Examines the worldwide development of documentary filmmaking. We interrogate the nature, form, and function of non-fiction cinematic forms by analyzing diverse films, filmmakers, and theoretical models, while paying attention to social, technological, and aesthetic influences. We study significant modes of documentary including the city symphony, political documentary, direct cinema/cinema verite, and postmodern documentary. Finally, we will pay special attention to the cross-fertilization of non-fiction with other filmmaking modes. Throughout the course, we seek to answer the following questions: How do documentary conventions mark the 'Real'? How is documentary film a tool for social change?

FILM 552, STUDIES IN FILM, 4 Credits
Particular cinematographers, movements, types, conventions, or problems in film. Topics change from term to term. Lecture and separate screenings each week. Film fee required. Not offered every year.
Equivalent to: ENG 552
This course is repeatable for 16 credits.

FILM 580, STUDIES IN FILM, CULTURE AND SOCIETY, 4 Credits
Study of film in its relationship to society and culture; study of film culture. Topics change from term to term.
Equivalent to: ENG 580
This course is repeatable for 8 credits.

Finance (FIN)
FIN 341, INVESTMENTS, 4 Credits
Risk and reward characteristics of investments; sources of investment information; domestic and international security markets; investment characteristics of common stocks, debt securities, convertible securities, option contracts, and investment companies; real property investment; economic market analysis; technical market analysis; tax aspects of investments; and investment management.
Prerequisite: BA 240 with C or better or BA 240H with C or better or BA 360 with C or better or BA 360H with C or better or FIN 340 with C or better or FIN 340H with C or better
Equivalent to: BA 341

FIN 342, ADVANCED FINANCIAL MANAGEMENT, 4 Credits
Capital market theory and the valuation of risky assets, capital budgeting, valuing the firm’s securities, capital structure theory, long-term financing alternatives, cost of capital, dividend policy, working capital management, financial analysis and planning, mergers, and takeovers.
Prerequisite: FIN 340 with C or better or FIN 340H with C or better or BA 240 with C or better or BA 240H with C or better or BA 360 with C or better or BA 360H with C or better
Equivalent to: BA 342

FIN 343, CFA PREPARATION, 2-4 Credits
Provides students with structure and guidance in their preparation for the Chartered Financial Analyst (CFA) Level exam. Students systematically prepare for and are tested on the 18 sections of the exam.
Equivalent to: BA 343
This course is repeatable for 4 credits.

FIN 347, APPLIED PORTFOLIO MANAGEMENT, 2 Credits
Hands-on experience of managing two investment portfolios. Each member in the Oregon State Investment Group (OSIG) should act as a financial analyst to analyze a chosen company by performing the Discounted Cash Flow (DCF) or Residual Income Model (RIM), the relative valuation, and the SWOT analyses. The weekly seminar offers opportunities for students to present their analyses and offer comments and suggestions to other’s presentations.
Equivalent to: BA 347

FIN 348, APPLIED PORTFOLIO MANAGEMENT II, 1 Credit
Each student will act as a financial analyst to analyze a chosen company using models learned in FIN 347. Provides students with an opportunity to practice security valuation and get familiar with the tools. In addition, this course will focus on various measures of portfolio performance.
Prerequisite: FIN 347 with C- or better or BA 437 with C- or better
Equivalent to: BA 438
FIN 439, APPLIED PORTFOLIO MANAGEMENT III, 1 Credit
Each student will act as a financial analyst to analyze a chosen company using models learned from FIN 437. Provides students additional opportunity to practice security valuation and strengthen their understanding of the tools. In addition, this course will introduce ways to develop an efficient portfolio.
Prerequisite: FIN 437 with C- or better or BA 437 with C- or better
Equivalent to: BA 439

FIN 440, FIXED INCOME SECURITIES, 4 Credits
Provides students with intermediate knowledge of fixed income assets, interest rate and interest rate theory, the tools for estimating values, and managing portfolios of fixed income assets. The course can also serve as a partial coverage of material expected of applicants planning on seeking the Certified Financial Analyst designation.
Prerequisite: FIN 341 with C- or better

FIN 441, FINANCIAL INSTITUTIONS, 4 Credits
Introduction of markets and institutions that form the economic system of trading financial and real assets both domestically and internationally. The introduction of concepts of financial theory, institutional detail, regulatory environments, and the history of financial markets. Topics include legal, ethical, technological, and global issues facing financial managers, markets, and institutions.
Prerequisite: BA 240 with C or better or BA 240H with C or better or BA 360 with C or better or BA 360H with C or better or FIN 340 with C or better or FIN 340H with C or better
Equivalent to: BA 441

FIN 442, FINANCIAL STATEMENT ANALYSIS, 4 Credits
Student develop the understanding and skill to use financial statements for investment decisions, credit decisions, performance analysis, and forecasting. Three main topic areas: analysis overview, accounting analysis, and financial analysis.
Prerequisite: FIN 342 with C- or better
Equivalent to: BA 435

FIN 443, PORTFOLIO MANAGEMENT, 4 Credits
An introduction to the construction, revision, and performance evaluation of financial asset portfolios.
Prerequisite: FIN 341 with C- or better or BA 341 with C- or better
Equivalent to: BA 443
Available via Ecampus

FIN 444, FINANCIAL RISK MANAGEMENT, 4 Credits
Investigation of financial hedging activities for corporations and financial institutions using futures, options, and other derivative securities. Identification of risk attributes, valid hedging rationales, and management of hedging programs.
Prerequisite: FIN 341 with C- or better
Equivalent to: BA 444

FIN 445, INTERNATIONAL FINANCIAL MANAGEMENT, 4 Credits
International monetary environment; foreign exchange risk management; source and availability of funds to finance trade and multinational operations; taxation planning and control; international portfolio diversification; international banking; capital budgeting; political risk evaluation of performance.
Prerequisite: FIN 341 with C- or better and FIN 342 [C-] and (FIN 440 [C-] or FIN 442 [C-] or FIN 443 [C-] or FIN 444 [C-] or FIN 499 [C-])
Equivalent to: BA 445

FIN 499, SELECTED TOPICS IN FINANCE, 1-4 Credits
Examination of the impact of recent advances in finance on contemporary business. Topic will vary from term to term. This course is repeatable for 16 credits.

FIN 542, INVESTMENTS, 3 Credits
Introduction to the tools and concepts of security analysis and investments; basic security types, including stocks, bonds, options and futures, respective markets and to how these securities are traded; fundamental valuation techniques and theory for stocks and bonds.
Recommended: BA 360

FIN 543, PORTFOLIO MANAGEMENT, 4 Credits
An introduction to the construction, revision, and performance evaluation of financial asset portfolios.
Prerequisite: FIN 542 with C or better

FIN 544, FINANCIAL RISK MANAGEMENT, 4 Credits
Investigation of financial hedging activities for corporations and financial institutions using futures, options, and other derivative securities. Identification of risk attributes, valid hedging rationales, and management of hedging programs.
Equivalent to: BA 544
Recommended: FIN 542

FIN 545, INTERNATIONAL FINANCIAL MANAGEMENT, 3 Credits
International monetary environment; foreign exchange risk management; source and availability of funds to finance trade and multinational operations; taxation planning and control; international portfolio diversification; international banking; capital budgeting; political risk evaluation of performance.
Prerequisite: BA 540 with B- or better
Equivalent to: BA 545
Recommended: FIN 341 and FIN 342 and (FIN 440 or FIN 442 or FIN 443 or FIN 444 or FIN 499)

FIN 546, ADVANCED CORPORATE FINANCE, 3 Credits
The second course in the Corporate Finance sequence. Examines corporate payout policies and capital structure choices, choices in debt financing, financial planning and working capital management, and valuation of projects using a real-options approach.
Prerequisite: BA 540 with B- or better
FIN 549, MERGERS AND ACQUISITIONS, 3 Credits
Provides an in-depth examination of the theory and practice of the market for corporate control, primarily focusing on mergers and acquisitions (M&A). The objective of the course is to provide an understanding of how to structure, value, and implement an M&A transaction. Students will be expected to apply the appropriate tools and skills to evaluate M&A transactions.
Prerequisite: FIN 546 with B- or better

FIN 550, FUNDAMENTALS OF FINANCIAL PLANNING, 4 Credits
Professional conduct and regulation, general financial planning principles, and education planning.

FIN 551, INSURANCE PLANNING AND TAX PLANNING, 4 Credits
Risk management and insurance planning; tax fundamentals and income tax planning.
Prerequisite: FIN 550 with B- or better

FIN 552, FINANCIAL PLANNING II, 3 Credits
Retirement planning; qualified and non-qualified retirement plans; IRAs; legal, tax, financial and non-financial aspects of estate planning; trusts; wills; wealth transfers.
Prerequisite: FIN 551 with C or better

FIN 553, FINANCIAL PLANNING III, 6 Credits
Synthesis and integration of financial planning fundamentals to develop a comprehensive financial plan; client communication.
Prerequisite: FIN 552 with C or better

FIN 599, SELECTED TOPICS IN FINANCE, 1-4 Credits
This course is repeatable for 16 credits.

FIN 640, FOUNDATIONS OF FINANCIAL RESEARCH, 3 Credits
Provides an in-depth introduction to the foundations of financial research with an emphasis on theoretical developments and empirical research methods. Specific topics may change from quarter to quarter, but sample topics include theory of the firm, capital structure theory, dividend policy, and event study methodology.

FIN 641, CORPORATE FINANCE SEMINAR, 3 Credits
Survey classic and contemporary research in the area of corporate finance. Specific topics may change from quarter to quarter, but sample topics include capital structure, dividend policy, agency theory, adverse selection and signaling, and non-cooperative games with and without complete information.

FIN 642, CAPITAL MARKETS, 3 Credits
Surveys research on capital markets. Specific topics may change from quarter to quarter, but sample topics include asset pricing models, efficient markets vs behavioral finance, market volatility, volume, new issues market, and emerging markets.

Fisheries and Wildlife (FW)

FW 107, ORIENTATION TO FISHERIES AND WILDLIFE, 1 Credit
Information relevant to academic pathways and career planning in the fields of fisheries and wildlife. Graded P/N.
Available via Ecampus

FW 113, INTRODUCTION TO MARINE LIFE IN THE SEA-MARINE BIRDS AND MAMMALS, 1 Credit
Introduces first- and second-year undergraduates, teachers and non-degree students to the breadth of marine science course offerings and research at Oregon State University’s Hatfield Marine Science Center located in Newport, Oregon. Using an experiential based format, students collect field data to better understand marine mammals (whales, dolphins and porpoises), seabirds, and their interactions with their environment. Lec/lab. Graded P/N.

FW 199, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
Equivalent to: FW 199H
This course is repeatable for 16 credits.

FW 199H, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: FW 199
This course is repeatable for 16 credits.

FW 209, CAREER SKILLS IN FISHERIES AND WILDLIFE SCIENCES, 1 Credit
A foundation for life-long career development in fisheries and wildlife sciences. Practice the skills needed to search, apply, and attain internships and jobs.
Prerequisite: FW 107 with P or better
Available via Ecampus

FW 251, PRINCIPLES OF FISH AND WILDLIFE CONSERVATION, 3 Credits
History of conservation and natural resource use; ecological principles, and social and economic limitations of conservation; principles and practices of wildlife and fisheries management; role of research in management.
Recommended: One course in introductory biology
Available via Ecampus
FW 255, FIELD SAMPLING OF FISH AND WILDLIFE, 3 Credits
Introduction to sampling populations and communities of vertebrate animals emphasizing sampling design, collection and management of data, and communication of results.
Recommended: WR 121 and familiarity with personal computers.
Available via Ecampus

FW 289, COMMUNICATION SKILLS FOR FISHERIES AND WILDLIFE PROFESSIONALS, 4 Credits
Introduces students to the theoretical and practical dimensions of interpersonal and public communication in a natural resource management field. Lec/rec.
Recommended: FW 251
Available via Ecampus

FW 301, FIELD TECHNIQUES FOR MARINE MAMMAL CONSERVATION, 1 Credit
A laboratory and hands-on experience covering field techniques, computer software for data organization and analyses, and understanding the practical management conservation application for students who are taking or have taken FW/Bi 302, Biology and Conservation of Marine Mammals. Taught summer term at HMSC, Newport, OR.
Prerequisite: BI 302 (may be taken concurrently) with D- or better or FW 302 (may be taken concurrently) with D- or better

FW 302, BIOLOGY AND CONSERVATION OF MARINE MAMMALS, 4 Credits
An examination of the biology of whales, pinnipeds, and other marine mammals, including general adaptations to a marine existence; systemsatics and biogeography; reproduction; diving physiology; communication and echolocation; feeding and migratory behavior; and marine mammal/human interactions; including conservation issues. Taught at Hatfield Marine Science Center OR online through Ecampus.
Equivalent to: BI 302
Recommended: One year of introductory biology
Available via Ecampus

FW 303, SURVEY OF GEOGRAPHIC INFORMATION SYSTEMS IN NATURAL RESOURCE, 3 Credits
Concepts underlying geographic information systems, global positioning system, and remote sensing; application to management and research, data quality issues, and case studies. Not a lab/skills class.
Available via Ecampus

FW 307, SPECIALIZATION DEVELOPMENT, 1 Credit
Students will examine career alternatives, develop career goals, learn what knowledge, skills, and abilities are important for diverse careers in fisheries and wildlife conservation, and develop an academic and lifelong plan for achieving their career goals. This course is intended to assist students in developing a specialization in fisheries and wildlife sciences. Graded P/N.
Equivalent to: FW 207
Recommended: FW 209
Available via Ecampus

FW 311, ICHTHYOLOGY, 3 Credits
Survey of the diversity of biological adaptations of fishes. Topics include origins, anatomy, reproductive strategies, migration, flight, behavior, physiology, nutrition, and conservation.
Recommended: One year introductory biology.
Available via Ecampus

FW 312, SYSTEMATICS OF BIRDS, 2 Credits
External anatomy, classification of birds of the world, and field identification of birds by sight and song. Field trips required.
Recommended: One year introductory biology.
Available via Ecampus

FW 315, ICHTHYOLOGY, 3 Credits
A survey of the diversity of biological adaptations of fishes. Topics include physiological and zoogeographical adaptations, reproduction, evolution, cladogenesis, morphology, behavior, and genetics.
Equivalent to: FW 313
Recommended: One year introductory biology.
Available via Ecampus

FW 316, SYSTEMATICS OF FISHES, 3 Credits
Phylogenetic diversity, evolution, relationships and identification of the world’s fishes, with particular focus on Oregon fishes. Includes identification, anatomy, use of keys, introduction to the comparative method, systematic theory, taxonomy, field collection and specimen curation. Lec/lab.
Prerequisite: (BI 211 with D- or better or BI 211H with D- or better or BI 221 with D- or better or BI 221H with D- or better or BI 204 with D- or better) and (BI 212 [D-] or BI 212H [D-] or BI 222 [D-] or BI 222H [D-] or BI 205 [D-] and (BI 213 [D-] or BI 213H [D-] or BI 223 [D-] or BI 223H [D-] or BI 206 [D-])
Recommended: FW 315
Available via Ecampus

FW 317, MAMMALOGY, 3 Credits
A survey of the origins, evolution, diversity, and adaptations of mammals to diverse environments. Topics include taxonomy, reproduction, sensory perception, herbivory, population cycles and behavior.
Recommended: One year introductory biology.
Available via Ecampus
**FW 318, SYSTEMATICS OF MAMMALS, 2 Credits**
A survey of the phylogenetic diversity of the mammals in Oregon from a habitat/community perspective. Identifying, using keys, and measuring specimens will be stressed.
*Recommended:* One year introductory biology.
*Available via Ecampus*

**FW 320, INTRODUCTORY POPULATION DYNAMICS, 4 Credits**
Principles and concepts of population dynamics related to fish and wildlife populations; methods of estimating abundance, mortality, sustainable harvest levels and extinction risk; hands-on introduction to models for population analysis. Lec/lab.
*Prerequisite:* BI 370 (may be taken concurrently) with D- or better or BI 370H (may be taken concurrently) with D- or better or BI 371 (may be taken concurrently) with D- or better
*Recommended:* Introductory statistics and mathematics equivalent to MTH 245 or higher
*Available via Ecampus*

**FW 321, APPLIED COMMUNITY AND ECOSYSTEM ECOLOGY, 3 Credits**
Perspectives in community and ecosystem ecology, and their use in management of fisheries and wildlife resource systems.
*Prerequisite:* FW 320 (may be taken concurrently) with D- or better
*Available via Ecampus*

**FW 323, MANAGEMENT PRINCIPLES OF PACIFIC SALMON IN THE NORTHWEST, 3 Credits**
Explores the nature of the salmon problem in the Northwest. Experts from diverse disciplines describe principles of salmon biology, habitat ecology and management, socioeconomics of direct and indirect users, and government policies.
*Available via Ecampus*

**FW 324, *FOOD FROM THE SEA, 3 Credits***
Where does seafood come from, and how does seafood arrive on a plate? How productive are the world’s oceans, and can the oceans continue to produce enough to feed (and employ) the masses? How do different cultures, ethnicities, and regions of the world rely upon food from the sea for daily meals? Food from the Sea is an exploration of the cultural, societal, economic, practical, and environmental features of the protein that feeds billions. (Bacc Core Course)
*Attributes:* CSGI – Core, Synth, Global Issues
*Available via Ecampus*

**FW 325, *GLOBAL CRISIS IN RESOURCE ECOLOGY, 3 Credits***
Historical and contemporary implications of the impacts of burgeoning human populations on rates and patterns of global ecological change. Changes in ecosystem processes and crises of species extinction in the context of cultural and political institutions. (Bacc Core Course)
*Attributes:* CSGI – Core, Synth, Global Issues
*Available via Ecampus*

**FW 326, INTEGRATED WATERSHED MANAGEMENT, 3 Credits**
A comprehensive approach to watershed management, one that includes biophysical, socioeconomic, planning and education related topics. Intended for students interested in the sustainable management of natural resources.
*Recommended:* FW 251
*Available via Ecampus*

**FW 328, WILDLIFE CAPTURE AND IMMOBILIZATION, 2 Credits**
Manual and chemical restraint methods are covered with an emphasis on darting equipment, animal and human safety, drug pharmacology and species specific recommendations.
*This course is repeatable for 4 credits.*
*Available via Ecampus*

**FW 331, ECOLOGY OF MARINE AND ESTUARINE BIRDS, 4 Credits**
Focusing on how marine and estuarine birds are adapted for life at sea. Topics include morphology, physiology, foraging ecology, and biogeography as well as introductory oceanography. Field trips.
*Recommended:* One year introductory biology.

**FW 340, *MULTICULTURAL PERSPECTIVES IN NATURAL RESOURCES, 3 Credits***
Explores multicultural influences on development of natural resources in the American West. Effects of diverse social values on changes in the physical landscape and biodiversity. (Bacc Core Course)
*Attributes:* CPDP – Core, Perspective, Difference/Power/Discrimination
*Equivalent to:* FW 340H
*Available via Ecampus*

**FW 341, FISH AND WILDLIFE LAW ENFORCEMENT, 2 Credits**
Introduction to the philosophy, purposes, and methods of enforcing natural resource laws, emphasizing fish and wildlife laws.

**FW 345, *GLOBAL CHANGE BIOLOGY, 3 Credits***
Global Change Biology is the study of the impact of climate change on natural systems and actions to mitigate (slow) or adapt to climate change. Global climate change is having dramatic effects on natural resources including fish and wildlife populations and their habitats. Students will gain an understanding of the role that natural ecosystems (oceans, forests, wetlands, grasslands etc.) play in regulating the climate; how land use affects the earth’s climate; how climate change will affect fish, wildlife and their habitats; and the role that managers and researchers can play in mitigating and adapting to climate change. (Bacc Core Course)
*Attributes:* CSGI – Core, Synth, Global Issues
*Recommended:* Introductory biology and ecology courses such as BI 370
FW 350, *ENDANGERED SPECIES, SOCIETY AND SUSTAINABILITY, 3 Credits
Provides a general background to endangered species biology, and the social and economic implications of the legislation enacted to conserve endangered species (Endangered Species Act, CITES Treaty). (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: FW 251
Available via Ecampus

FW 356, *CITIZEN SCIENCE, 3 Credits
Citizen science involves non-specialists in scientific studies addressing large challenges best solved through collaboration. Citizens contribute data scientists may not otherwise be able to obtain, while improving their understanding of the scientific process, integrating technology into the learning process, and generating new knowledge for society. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Two terms of coursework at OSU
Available via Ecampus

FW 360, *ORIGINS OF F&W MANAGEMENT-EVOLUTION, GENETICS, AND ECOLOGY, 3 Credits
Examines genetics and human interactions with fisheries and wildlife from an ecological and evolutionary perspective. Basic principles of environmental interactions, and how humans interact with other species and their environments in the disciplines commonly recognized as fisheries, wildlife and conservation sciences. (Baccalaureate Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: One year introductory biology
Available via Ecampus

FW 366, ENVIRONMENTAL CONTAMINANTS IN FISH AND WILDLIFE, 3 Credits
Environmental contamination is an important threat to many fish and wildlife populations and the habitats they rely upon. The field of ecotoxicology links the ecology of fish and wildlife with toxicology of environmental contaminants, and so spans political, scientific, and public relations realms. Through the pairing of introductory concepts with key case studies, this course provides students with a preparatory framework for understanding toxicological issues of importance for those focused on studying, managing or conserving fish and wildlife populations.
Prerequisite: (BI 204 with D- or better or BI 211 with D- or better or BI 211H with D- or better) and (BI 205 [D-] or BI 212 [D-] or BI 212H [D-])
Available via Ecampus

FW 370, CONSERVATION GENETICS, 4 Credits
A foundational course in preparation for a degree in Fisheries and Wildlife or other degrees focused on conservation of natural resources. Covers a broad range of topics associated with issues surrounding genetics that working professionals in the biological sciences should be conversant about. One of the most important aspects of the course is the development of problem-solving and critical-thinking skills.
Prerequisite: (BI 211 with D- or better or BI 211H with D- or better or BI 221 with D- or better or BI 221H with D- or better or BI 204 with D- or better) and (BI 212 [D-] or BI 212H [D-]) or BI 222H [D-] or BI 205 [D-] and (BI 213 [D-] or BI 213H [D-]) or BI 223 [D-] or BI 223H [D-] or BI 206 [D-])
Recommended: One year introductory biology
Available via Ecampus

FW 391, *RIDGE TO REEF: SUSTAINABLE RESOURCE MANAGEMENT IN PALAU, 4 Credits
How do small islands address issues of natural resource management, food security, and sustainability? What role do communities, governments, and non-profits play in addressing these issues? Can traditional ecological knowledge help solve these challenges? What about climate change on small Islands? The Republic of Palau will be our classroom. Students will work with and learn from fishers, farmers, community leaders, traditional chiefs, terrestrial and marine biologists, and policy makers. Key topics include food security/production, climate change adaptation, protected area management, biocultural conservation, sustainable forest management, watershed management, sustainable development, coral reef and fisheries management, biodiversity measurement methods and ecosystem restoration.
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

FW 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

FW 403, THESIS, 1-16 Credits
This course is repeatable for 32 credits.

FW 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

FW 407, SEMINAR, 1-16 Credits
Graded P/N. Taught at Hatfield Marine Science Center.
Equivalent to: FW 407H
This course is repeatable for 16 credits.
Available via Ecampus

FW 407H, SEMINAR, 1-16 Credits
Graded P/N. Taught at Hatfield Marine Science Center.
Attributes: HNRS – Honors Course Designator
Equivalent to: FW 407
This course is repeatable for 16 credits.

FW 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.
FW 410, INTERNSHIP, 1-6 Credits
This course is repeatable for 99 credits.
Available via Ecampus

FW 415, FISHERIES AND WILDLIFE LAW AND POLICY, 3 Credits
Provides students with an understanding of the key legal frameworks within which they will work to conserve fish and wildlife resources. Examines federal law and policy relating to allocation and conservation of fish and wildlife resources.
Recommended: PS 201 or other introductory political science course.
Available via Ecampus

FW 418, URBAN ECOLOGY, 3 Credits
Understand how an increasing human population increases pressure on fish and wildlife communities and resources within ecosystems. Examines the interactions between humans and animal species within urban areas and the effects of urbanization on species, communities, and ecosystems. Topics include conserving biodiversity, invasive species, human health and well-being, and urban planning.
Recommended: FW 255, BI 370
Available via Ecampus

FW 419, THE NATURAL HISTORY OF WHALES AND WHALING, 3 Credits
Addresses the natural history of whales as a unique example of adaptation in an evolutionary lineage, and the history of whaling as a general example of the failings of international resource management.
Recommended: Some background in vertebrate ecology and evolution or genetics
Available via Ecampus

FW 421, AQUATIC BIOLOGICAL INVASIONS, 4 Credits
An overview of the background, theory, evolution, ecology, politics and conservation of invasions by introduced species in aquatic environments. Taught at Hatfield Marine Science Center OR online through Ecampus.
Equivalent to: BI 421
Recommended: One year of university-level biology.
Available via Ecampus

FW 422, INTRODUCTION TO OCEAN LAW, 3 Credits
Examination of US law and primary international law focused on fisheries management with coverage of regulation of other ocean resources including energy, marine mammals, endangered species, pollution, and protected areas. Final project is intended to provide students with hands-on exposure to real-world fisheries and ocean management issues.
Available via Ecampus

FW 426, COASTAL ECOLOGY AND RESOURCE MANAGEMENT, 5 Credits
Study of the ecology and management of coastal marine and freshwater ecosystems as well as natural resources, emphasizing experimental (participatory) learning in a field station setting. Lec/lab.

FW 427, PRINCIPLES OF WILDLIFE DISEASES, 4 Credits
Ecological aspects of important diseases affecting North American wildlife will be discussed. Demonstrations will mainly cover migratory birds, carnivores and ruminants. Lec/lab. Ecampus sections do not use lab demonstrations.
Available via Ecampus

FW 433, POPULATION DYNAMICS FOR CONSERVATION, 4 Credits
A synthesis of the principles of population dynamics from the viewpoint of a resource manager. Particular attention is paid to populations structured by age, size, or over space, and considering both fisheries and wildlife management. Laboratory work uses computer programming in the R language to implement examples from lecture.
Prerequisite: (FW 320 with C or better or BI 483 with C or better) and ((MTH 227 with C or better or MTH 228 with C or better) or (MTH 251 with C or better or MTH 252 with C or better))

FW 434, ESTUARINE ECOLOGY, 4 Credits
Integrated and synthetic training in the ecological processes of estuarine environments, with emphasizes on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as FW 434/OC 434 and FW 534/OC 534.
Equivalent to: OC 434
Available via Ecampus

FW 435, WILDLIFE IN AGRICULTURAL ECOSYSTEMS, 3 Credits
Examines the relationships between agricultural production and fish and wildlife populations and communities. Explores the impacts of agricultural practices on fish and wildlife. Field trips required; transportation fee charged. OSU Ecampus students are not required to attend field trips. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: BI 370 and FW 251
Available via Ecampus

FW 439, HUMAN DIMENSIONS OF FISHERIES AND WILDLIFE MANAGEMENT, 3 Credits
Examines the human dimensions of fisheries and wildlife including economics, policy, communications, and management. Focuses on the application of social scientific theories and approaches to fisheries and wildlife issues. Independent and group work with a substantial writing component. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: FW 255, FW 289 and completion of human dimensions coursework
Available via Ecampus
FW 445, ECOLOGICAL RESTORATION, 4 Credits
Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. CROSSTLISTED as FES 445/FW 445 and FES 545/FW 545.
Equivalent to: FES 445, FOR 445
Recommended: BI 370 or BI 370H

FW 451, AVIAN CONSERVATION AND MANAGEMENT, 3 Credits
Identification, classification, life history strategies, ecology and management of upland and migratory birds.
Recommended: FW 311
Available via Ecampus

FW 452, BIODIVERSITY CONSERVATION IN MANAGED FORESTS, 3 Credits
Designed for students in forestry, wildlife, fisheries and related fields. Introduces the concepts of, and approaches to, managing forest stands, landscapes and regions to achieve desired habitat conditions for indicator species and conservation of biological diversity. CROSSTLISTED as FES 452/FW 452.
Equivalent to: FES 452
Recommended: FW 315 with D- or better and FW 320 [D-]
Available via Ecampus

FW 454, FISHERY BIOLOGY, 4 Credits
Principles and methods used in the study of biology of fishes; ecological requirements of freshwater and anadromous fishes; principles and practices in sport fishery management. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: FW 315 with D- or better and FW 320 [D-]
Available via Ecampus

FW 456, FRESHWATER ECOLOGY AND CONSERVATION, 5 Credits
Physical, chemical, biological, and environmental concepts in continental aquatic systems. Includes techniques related to assessing aquatic resources their management and conservation. Lec/lab.
Prerequisite: BI 370 with D- or better or BI 371 with D- or better
Recommended: 9 credits of upper-division biological sciences
Available via Ecampus

FW 458, MAMMAL CONSERVATION AND MANAGEMENT, 4 Credits
A thorough understanding of the management, conservation, and ecology of mammals in North America; includes population dynamics, harvest management, techniques to determine abundance, diets, reproduction, and the cultural and political variables that contribute to formulation of management programs.
Recommended: 9 credits of upper-division biological sciences.
Available via Ecampus

FW 462, ECOSYSTEM SERVICES, 3 Credits
Introduces students to the ecological, economic, and social/ethical issues involved in the study of ecosystem services, with a major focus on biological components involved in ecosystem services. Topics covered include: 1) an introduction to the roles that living organisms play in the provision of ecosystem services, 2) the relationship of ecosystem functions and services, 3) the societal factors that influence this relationship, 4) general categories of ecosystem services, 5) identification of potential ecosystem services in terrestrial and aquatic systems, 6) an overview of the methods of valuation, and 7) translating ecosystems functions to services. Case studies will be used to illustrate key concepts and relationships within different ecological and social contexts.
Recommended: BI 370
Available via Ecampus

FW 464, MARINE CONSERVATION BIOLOGY, 3 Credits
Lectures, group library research, and class debates on current issues regarding the conservation of biodiversity in the sea. Topics include overfishing, invasive species, eutrophication, marine pollution, and global warming, as well as means of addressing these threats.
Prerequisite: BI 370 with D- or better or BI 370H with D- or better
Equivalent to: BI 464

FW 465, MARINE FISHERIES, 4 Credits
A global perspective on commercial fish and shellfish harvesting with emphasis on fishing technology and policy issues. Offered fall term in odd years.
Recommended: FW 315

FW 467, ANTARCTIC SCIENCE AND CONSERVATION, 4 Credits
Explores the history, geology, climate, and ecosystems of Antarctica, with an emphasis on current research and conservation issues. Focuses on critical thinking skills developed through independent research on a topic of interest, an internal peer review project, and discussions of relevant case studies in Antarctic research.
Available via Ecampus

FW 469, METHODS IN PHYSIOLOGY AND BEHAVIOR OF MARINE MEGAFNA, 4 Credits
An in-depth study of marine megafauna (mammals, birds, turtles) with an emphasis on methods and analyses of behavior and physiology for conservation. Lab and field exercises include investigations into the behavior-physiology nexus of diving, migration, thermoregulation, energy expenditure, and mating systems. Research techniques to be explored will include, for example, tracking and remote biotelemetry monitoring technologies, respirometry, genetics, and direct field study observation. Theoretical approaches, field techniques and statistical analyses will help prepare students for a career in fisheries or wildlife science. Lec/lab.
Taught at HMS.C.
Prerequisite: (BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C- or BI 212H [C-]) and (BI 213 [C- or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Recommended: FW 302, FW 320, FW 331 and FW 475
FW 470, *ECOLOGY AND HISTORY: LANDSCAPES OF THE COLUMBIA BASIN, 3 Credits
Integrates environmental history and landscape ecology of the Columbia River Basin from geologic origins to the present, to create an understanding of change caused by natural processes and human activities. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: HSTS 470
Recommended: (HST 201 and HST 202 and HST 203) or BI 370

FW 471, ENVIRONMENTAL PHYSIOLOGY OF FISHES, 4 Credits
Principles of the functional biology of fishes with emphasis on environmental interactions and management implications.
Recommended: FW 315 and (BI 370 or BI 371)

FW 473, FISH ECOLOGY, 4 Credits
Behavior of fishes as a mode of accommodation to various ecological and evolutionary constraints. Importance of heritable and learned patterns to population and community dynamics. Application of behavioral studies to the solution of management problems. Lec/lab/rec.
Prerequisite: (BI 370 with D- or better or BI 370H with D- or better) and FW 315 [D-]
Available via Ecampus

FW 474, EARLY LIFE HISTORY OF FISHES, 4 Credits
Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years.
Recommended: FW 315

FW 475, WILDLIFE BEHAVIOR, 4 Credits
Recommended: 9 credits of upper-division biology.
Available via Ecampus

FW 476, FISH PHYSIOLOGY, 4 Credits
Physiological specializations and adaptations of major groups of fishes.
Prerequisite: FW 315 with D- or better
Available via Ecampus

FW 479, WETLANDS AND RIPARIAN ECOLOGY, 3 Credits
Ecology of riparian freshwater and estuarine wetlands of the Pacific Northwest. Effects of land use on ecosystem structure, function, biodiversity, and restoration will be explored.
Recommended: BI 370 or BI 371
Available via Ecampus

FW 481, WILDLIFE ECOLOGY, 3 Credits
Interrelationships of wildlife, environmental change. Predicting and measuring responses of wildlife to altered habitat conditions
Prerequisite: BI 370 with D- or better or BI 370H with D- or better or BI 371 with D- or better
Available via Ecampus

FW 488, PROBLEM SOLVING IN FISHERIES AND WILDLIFE SCIENCE, 3 Credits
A capstone course designed to introduce students to the synthesis of scientific information on species, habitats and ecosystems and the use of such data in shaping fisheries and wildlife conservation, management and policy. Includes a group problem-solving project and case studies.
For FW majors in their senior year.
Prerequisite: FW 320 with D- or better and FW 321 (may be taken concurrently) [D-]
Recommended: 400-level FW course work (e.g., FW 426 or FW 454 or FW 481)
Available via Ecampus

FW 489, EFFECTIVE COMMUNICATIONS IN FISHERIES AND WILDLIFE SCIENCE, 3 Credits
Centers on the synthesis and interpretation of data and effective communication of that information in written and oral communication to diverse audiences including scientists, managers, administrators and the general public.
Available via Ecampus

FW 491, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE, 3 Credits
Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as FW 491/MB 491 and FW 591/MB 591.
Equivalent to: MB 491
Recommended: 9 credits of upper-division fisheries biology.

FW 493, FIELD METHODS FOR MARINE RESEARCH, 3 Credits
The primary focus is providing hands-on experience in a small class exploring various field sampling methodologies, research planning logistics, and field operations in estuary and nearshore environments. Topics covered include measurement and collection methods, animal handling techniques, equipment care and handling, sampling strategy, experimental design, data management planning and, if possible, small boat work.
Recommended: One year of biology

FW 496, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB, 2 Credits
This laboratory complements lectures in FW/MB 491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods.
CROSSLISTED as FW 496/MB 496 and FW 596/MB 596.
Equivalent to: MB 496
Recommended: MB 303 or other upper-division laboratory course.
FW 497, AQUACULTURE, 3 Credits
Principles and practices for the aquaculture of fish, shellfish, and algae. (Writing Intensive Course.)
Attributes: CWIC – Core, Skills, WIC
Recommended: 9 credits of upper-division biology.
Available via Ecampus

FW 498, AQUACULTURE LABORATORY, 3 Credits
Biology and culture requirements of fish, shellfish, and algae. Emphasis on laboratory culture techniques and practical experience in handling organisms. Taught at Hatfield Marine Science Center.
Recommended: 9 credits of upper-division biology.

FW 499, SPECIAL TOPICS IN FISHERIES AND WILDLIFE, 0-16 Credits
Various topics in fisheries science and wildlife science. Taught at Hatfield Marine Science Center and Corvallis campus.
Equivalent to: ENT 499
This course is repeatable for 16 credits.
Available via Ecampus

FW 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

FW 502, TEACHING METHODS IN FISHERIES AND WILDLIFE, 1 Credit
This is a discussion course designed to help new GTAs and instructors who are learning the trials and tribulations of university-level teaching in our department. This is a great course for students who are interested in hearing more about teaching approaches, grading and assessment, student communication, problem students, and development of teaching
Graded P/N.

FW 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
Available via Ecampus

FW 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

FW 506, PROJECTS, 1-6 Credits
Projects are synthesis papers or outreach products that are developed with a mentor from campus, a natural resource agency, or the student’s place of employment. The purpose of your project is to contribute to the field of study with a product that reflects the principles and applications learned in your classes.
This course is repeatable for 12 credits.
Available via Ecampus

FW 507, SEMINAR, 1-16 Credits
Selected Topics. Taught at Hatfield Marine Science Center and Corvallis campus.
This course is repeatable for 16 credits.
Available via Ecampus

FW 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

FW 510, PROFESSIONAL INTERNSHIP, 1-16 Credits
This course is repeatable for 10 credits.
Available via Ecampus

FW 514, PROFESSIONAL DEVELOPMENT: MEETING COMMUNICATIONS, 1-3 Credits
Fisheries and wildlife professionals use meetings of scientists, managers and stakeholders to communicate key findings and develop consensus recommendations for policy. This experiential learning course exposes students to a scientific or management meeting in their chosen field (fisheries, wildlife, ecology, or conservation biology) and gets them to think about how meetings function as well as their content.
This course is repeatable for 3 credits.
Available via Ecampus

FW 515, FISHERIES AND WILDLIFE LAW AND POLICY, 3 Credits
Provides students with an understanding of the key legal frameworks within which they will work to conserve fish and wildlife resources. Examines federal law and policy relating to allocation and conservation of fish and wildlife resources.
Recommended: PS 201 or other introductory political science course.
Available via Ecampus

FW 518, URBAN ECOLOGY, 3 Credits
Understand how an increasing human population increases pressure on fish and wildlife communities and resources within ecosystems. Examines the interactions between humans and animal species within urban areas and the effects of urbanization on species, communities, and ecosystems. Topics include conserving biodiversity, invasive species, human health and well-being, and urban planning.
Available via Ecampus

FW 519, THE NATURAL HISTORY OF WHALES AND WHALING, 3 Credits
Addresses the natural history of whales as a unique example of adaptation in an evolutionary lineage, and the history of whaling as a general example of the failings of international resource management.
Recommended: Some background in vertebrate ecology and evolution or genetics
Available via Ecampus

FW 521, AQUATIC BIOLOGICAL INVASIONS, 4 Credits
An overview of the background, theory, evolution, ecology, politics and conservation of invasions by introduced species in aquatic environments. Taught at Hatfield Marine Science Center OR online through Ecampus.
Recommended: One year of university-level biology.
Available via Ecampus
**FW 522, INTRODUCTION TO OCEAN LAW, 3 Credits**
Examination of US law and primary international law focused on fisheries management with coverage of regulation of other ocean resources including energy, marine mammals, endangered species, pollution, and protected areas. Final project is intended to provide students with hands-on exposure to real-world fisheries and ocean management issues. 
*Available via Ecampus*

**FW 523, MONITORING WILDLIFE POPULATIONS AND THEIR HABITATS, 3 Credits**
An overview of monitoring plan design and the conceptual background needed to understand and critique monitoring plans, and have the basic skills to develop and implement a monitoring program as part of an interdisciplinary team. 
*Recommended: Introductory course in statistics and introductory course in ecology.*
*Available via Ecampus*

**FW 524, INTRODUCTION TO FISHERIES ASSESSMENT, 3 Credits**
Fisheries management strategies rely on models that predict a population’s responses to exploitation. This course introduces approaches commonly used to assess and evaluate the dynamics and status of a population. Provides an overview of the terminology, data requirements, underlying rationale, assumptions, limitations and uncertainty associated with stock assessments. 
*Recommended: College algebra, introductory statistics and, if unfamiliar with data collection and analysis methods in fisheries, FW 454/554*
*Available via Ecampus*

**FW 526, COASTAL ECOLOGY AND RESOURCE MANAGEMENT, 5 Credits**
Study of the ecology and management of coastal marine and freshwater ecosystems as well as natural resources, emphasizing experimental (participatory) learning in a field station setting. Lec/lab.

**FW 527, PRINCIPLES OF WILDLIFE DISEASES, 4 Credits**
Ecological aspects of important diseases affecting North American wildlife will be discussed. Demonstrations will mainly cover migratory birds, carnivores and ruminants. Lec/lab. Ecampus sections do not use lab demonstrations. 
*Available via Ecampus*

**FW 528, DIVERSITY AND IDENTIFICATION OF LARVAL FISHES, 3 Credits**
Research on early life history stages of fishes has increased considerably in recent years, due to its importance in many research fields, such as fisheries science and oceanography, species conservation, systematics and morphology. Simultaneously, the ability to identify ichthyoplankton has decreased. This course is intended to provide students with an understanding of the evolutionary diversity of ichthyoplankton of the world. 
*Recommended: A completed 300-level systematics of fishes, ichthyology or comparative anatomy course. *
*Available via Ecampus*

**FW 529, ICHTHYOPLANKTON IDENTIFICATION LABORATORY, 2 Credits**
Larval fishes are important in many research fields, and are part of many natural history collections. However, often museums are unable to provide the curatorial needs due to the lack of trained personnel. The lab will provide students with the necessary practical skills to identify larval fishes. Distinctive from the course 528, where students learn about the diversity and evolution of larval fish characters, the laboratory is designed to the identification of larvae from a real collection. Students are encouraged to bring unidentified ichthyoplankton samples or mixed species lots to the course to help with their identification.

**FW 533, POPULATION DYNAMICS FOR CONSERVATION, 4 Credits**
A synthesis of the principles of population dynamics from the viewpoint of a resource manager. Particular attention is paid to populations structured by age, size, or over space, and considering both fisheries and wildlife management. Laboratory work uses computer programming in the R language to implement examples from lecture. 
*Prerequisite: IB 592 with C or better*
*Recommended: (MTH 227 and MTH 228) or (MTH 251 and MTH 252)*

**FW 534, ESTUARINE ECOSYSTEMS, 4 Credits**
Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSTPRINTED as FW 434/OC 434 and FW 534/OC 534. 
*Equivalent to: OC 534*
*Available via Ecampus*

**FW 535, WILDLIFE IN AGRICULTURAL ECOSYSTEMS, 3 Credits**
Examines the relationships between agricultural production and fish and wildlife populations and communities. Explores the impacts of agricultural practices on fish and wildlife. Field trips required, transportation fee charged. OSU Ecampus students are not required to attend field trips. 
*Recommended: BI 370 and FW 251*
*Available via Ecampus*
FW 537, STRUCTURED DECISION MAKING IN NATURAL RESOURCE MANAGEMENT, 2 Credits
Structured decision making (SDM) is used for making natural resource management and policy decisions. It is an ideal framework for interdisciplinary teams to cooperate and identify the most effective management strategies. Graduate students from diverse backgrounds (natural resources, political science, others) are provided with an understanding of the SDM process.
Recommended: One year of college-level mathematics and one quarter of fish and wildlife management
Available via Ecampus

FW 538, STRUCTURED DECISION MAKING IN NATURAL RESOURCE MANAGEMENT LAB, 2 Credits
Students who are taking or have taken FW 537 are provided with the understanding of and ability to employ the techniques needed to build models that are used during the structured decision-making process. The laboratory emphasizes the use of graphical models and basic statistical techniques for building decision-making models. Lec/lab.
Prerequisite: FW 537 (may be taken concurrently) with D- or better

FW 540, VERTEBRATE POPULATION DYNAMICS, 4 Credits
Concepts in population ecology and quantitative approaches to managing wildlife populations; methods of parameter estimation, model structure, assumptions, and analysis, applications to common management issues.
Recommended: Upper-division population ecology and basic statistics courses

FW 544, QUANTITATIVE DECISION ANALYSIS FOR FISH AND WILDLIFE MANAGEMENT, 4 Credits
Decision analysis allows decision makers to examine the expected effects of different strategies before implementation; incorporate multiple objectives and values of stakeholders; determine the relative influence of various sources of uncertainty; and estimate the value of collecting additional data. Quantitatively oriented graduate students in natural resources are provided with an in-depth overview of decision analysis and adaptive management, emphasizing animal population management. Lec/lab.
Recommended: ST 511 and ST 512 or equivalent, basic background in animal population dynamics and management.

FW 545, ECOLOGICAL RESTORATION, 4 Credits
Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. CROSSLISTED as FES 445/FW 445 and FES 545/FW 545.
Equivalent to: FES 545, FOR 545
Recommended: BI 370 or BI 370H

FW 549, HISTORY OF FISHERIES SCIENCE, 3 Credits
Surveys the development of fisheries science, professionalization of the discipline, patronage, and the political, economic, and social context in which fisheries science operates.
Available via Ecampus

FW 550, TROPHIC CASCADES, 2-3 Credits
Theory and empirical analysis of terrestrial carnivore effects on plants and ecosystems as mediated through herbivores. Emphasis on large carnivores, frequency/strength of trophic cascades, implications for ecosystem function, management, and restoration. Lectures, current literature, discussions, field exercise, term paper, and student presentations. CROSSLISTED as FES 550/FW 550.
Equivalent to: FES 550, FOR 547, FW 547
This course is repeatable for 3 credits.

FW 551, AVIAN CONSERVATION AND MANAGEMENT, 3 Credits
Identification, classification, life history strategies, ecology and management of upland and migratory birds.
Recommended: FW 311 or equivalent course work.
Available via Ecampus

FW 552, FOREST WILDLIFE HABITAT MANAGEMENT, 4 Credits
Management of terrestrial vertebrates in forest ecosystems. Effects on silvicultural practices and landscape pattern on habitats and populations. CROSSLISTED as FES 552/FW 552.
Equivalent to: FES 552
Recommended: FOR 341 or equivalent course in ecology.
Available via Ecampus

FW 554, FISHERY BIOLOGY, 4 Credits
Principles and methods used in studying the biology of fishes; ecological requirements of freshwater and anadromous fishes; principles and practices in sport fishery management.
Recommended: FW 315 and FW 320
Available via Ecampus

FW 556, FRESHWATER ECOLOGY AND CONSERVATION, 5 Credits
Physical, chemical, biological, and environmental concepts in continental aquatic systems. Includes techniques related to assessing aquatic resources their management and conservation. Lec/lab.
Recommended: BI 370 or BI 371 or 9 credits of upper-division biological sciences
Available via Ecampus

FW 558, MAMMAL CONSERVATION AND MANAGEMENT, 4 Credits
A thorough understanding of the management, conservation, and ecology of mammals in North America; includes population dynamics, harvest management, techniques to determine abundance, diets, reproduction, and the cultural and political variables that contribute to formulation of management programs.
Recommended: 9 credits of upper-division biological sciences.
Available via Ecampus
FW 560, PSYCHOLOGY OF ENVIRONMENTAL DECISIONS, 3 Credits
Natural resource management and conservation programs have one thing in common: to be effective, they must consider how and why humans make decisions. This course approaches this topic from a psychological lens and will cover the psychological processes associated with making individual and group decisions, common biases and heuristics in our decision-making, and how these apply to diverse natural resource management and conservation issues. Students will learn how to take these aspects of human decision making into consideration when participating in or facilitating collaborative environmental programs.
Available via Ecampus

FW 562, ECOSYSTEM SERVICES, 3 Credits
Introduces students to the ecological, economic, and social/ethical issues involved in the study of ecosystem services, with a major focus on biological components involved in ecosystem services. Topics covered include: 1) an introduction to the roles that living organisms play in the provision of ecosystem services, 2) the relationship of ecosystem functions and services, 3) the societal factors that influence this relationship, 4) general categories of ecosystem services, 5) identification of potential ecosystem services in terrestrial and aquatic systems, 6) an overview of the methods of valuation, and 7) translating ecosystems functions to services. Case studies will be used to illustrate key concepts and relationships within different ecological and social contexts.
Recommended: BI 370 or equivalent course work.
Available via Ecampus

FW 563, CONSERVATION BIOLOGY OF WILDLIFE, 3 Credits
Overview of the field of conservation biology with emphasis on the relationship to conservation and management of wildlife.
Available via Ecampus

FW 564, MARINE CONSERVATION BIOLOGY, 3 Credits
Lectures, group library research, and class debates on current issues regarding the conservation of biodiversity in the sea. Topics include overfishing, invasive species, eutrophication, marine pollution, and global warming, as well as means of addressing these threats.
Equivalent to: BI 564
Recommended: BI 370 or BI 370H

FW 565, MARINE FISHERIES, 4 Credits
A global perspective on commercial fish and shellfish harvesting with emphasis on fishing technology and policy issues. Offered fall term in odd years.
Recommended: FW 315

FW 567, ANTARCTIC SCIENCE AND CONSERVATION, 4 Credits
Explores the history, geology, climate, and ecosystems of Antarctica, with an emphasis on current research and conservation issues. Focuses on critical thinking skills developed through independent research on a topic of interest, an internal peer review project, and discussions of relevant case studies in Antarctic research.
Available via Ecampus

FW 569, BEHAVIOR AND PHYSIOLOGY OF MARINE MEGAFAUNA, 4 Credits
An in-depth study of marine megafauna (mammals, birds, turtles) with an emphasis on methods and analyses of behavior and physiology for conservation. Lab and field exercises include investigations into the behavior–physiology nexus of diving, migration, thermoregulation, energy expenditure, and mating systems. Research techniques to be explored will include, for example, tracking and remote biotelemetry monitoring technologies, respirometry, genetics, and direct field study observation. Theoretical approaches, field techniques and statistical analyses will help prepare students for a career in fisheries or wildlife science. Lec/lab. Taught at HMSC.
Recommended: FW 302, FW 320, FW 331, and FW 475

FW 570, ECOLOGY AND HISTORY: LANDSCAPES OF THE COLUMBIA BASIN, 3 Credits
Integrates environmental history and landscape ecology of the Columbia River Basin from geologic origins to the present, to create an understanding of change caused by natural processes and human activities.
Equivalent to: HSTS 570
Recommended: (HST 201 and HST 202 and HST 203) or BI 370

FW 571, ENVIRONMENTAL PHYSIOLOGY OF FISHES, 4 Credits
Principles of the functional biology of fishes with emphasis on environmental interactions and management implications.
Recommended: FW 315 and (BI 370 or BI 371)

FW 573, FISH ECOLOGY AND CONSERVATION, 4 Credits
Behavior of fishes as a mode of accommodation to various ecological and evolutionary constraints. Importance of heritable and learned patterns to population and community dynamics. Application of behavioral studies to the solution of management problems.
Recommended: BI 370 and FW 315
Available via Ecampus

FW 574, EARLY LIFE HISTORY OF FISHES, 4 Credits
Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years.
CROSSLISTED as FW 574/OC 574.
Equivalent to: OC 574
Recommended: FW 315

FW 575, WILDLIFE BEHAVIOR, 4 Credits
Equivalent to: FW 585
Recommended: 9 credits of upper-division biology.
Available via Ecampus

FW 576, FISH PHYSIOLOGY, 4 Credits
Physiological specializations and adaptations of major groups of fishes.
Recommended: FW 315
Available via Ecampus
FW 579, WETLANDS AND RIPARIAN ECOLOGY, 3 Credits
Ecology of riparian freshwater and estuarine wetlands of the Pacific Northwest. Effects of land use on ecosystem structure, function, biodiversity, and restoration will be explored.
Recommended: BI 370 or BI 371
Available via Ecampus

FW 580, STREAM ECOLOGY, 3 Credits
Structure and function of stream ecosystems, with emphasis on biological processes; physical and chemical relations; riparian influences and landscape perspectives.
Recommended: 9 credits of upper-division science.
Available via Ecampus

FW 581, WILDLIFE ECOLOGY, 3 Credits
Interrelationships of wildlife, environment and humans. Evaluation of properties and habitats of wildlife populations.
Recommended: (BI 370 or BI 371) and FW 311 and FW 320 and ST 351
Available via Ecampus

FW 583, SPECIES RECOVERY PLANNING AND RESTORATION, 3 Credits
The importance of communication in science is stressed and a broad knowledge of endangered species-related information is provided. Students develop the ability to critically evaluate published information in scientific literature and to present and summarize it as part of the collaborative species recovery planning process with a varied audience of stakeholders.
Recommended: FW 563 and FW 573
Available via Ecampus

FW 591, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE, 3 Credits
Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as FW 491/MB 491 and FW 591/MB 591.
Equivalent to: MB 591
Recommended: 9 credits of upper-division fisheries biology.

FW 596, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB, 2 Credits
This laboratory complements lectures in FW/MB 491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods. CROSSLISTED as FW 496/MB 496 and FW 596/MB 596.
Equivalent to: MB 596
Recommended: MB 303 or other upper-division laboratory course.

FW 597, AQUACULTURE, 3 Credits
Principles and practices for the aquaculture of fish, shellfish, and algae.
Recommended: 9 credits of upper-division biology.
Available via Ecampus

FW 598, AQUACULTURE LABORATORY, 3 Credits
Biology and culture requirements of fish, shellfish, and algae. Emphasis on laboratory culture techniques and practical experience in handling organisms. Taught at Hatfield Marine Science Center.
Recommended: 9 credits of upper-division biology.

FW 599, SPECIAL TOPICS IN FISHERIES AND WILDLIFE, 0-16 Credits
Various topics in fisheries science and wildlife science. Taught at Hatfield Marine Science Center and Corvallis campus.
Equivalent to: ENT 499
This course is repeatable for 99 credits.

FW 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FW 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
Available via Ecampus

FW 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FW 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FW 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

FW 620, ECOLOGICAL POLICY, 3 Credits
Policy issues associated with ecosystem management, risk assessment, biological diversity, ecosystem health, sustainability, invasive species, bioregionalism, globalization and transnational factors, and rights, ethics, and morals.
Recommended: Background in natural resources, environmental sciences, ecological sciences, ecological economics, political science, or similar discipline.
Available via Ecampus

FW 661, ANALYSIS OF ANIMAL POPULATIONS, 5 Credits
Quantitative methods for estimating parameters (abundance, survival, population stability) of animal populations. Emphasis is on vertebrate animals and statistical methods of hypothesis testing, parameter estimation, and inference testing. Offered odd-numbered years.
Recommended: ST 511 and ST 512 or equivalent

FW 699, SPECIAL TOPICS IN FISHERIES AND WILDLIFE, 1-4 Credits
Various topics in fisheries science and wildlife science. Taught at Hatfield Marine Science Center and Corvallis campus.
This course is repeatable for 8 credits.

FW 808, WORKSHOP, 1-16 Credits
Food in Culture, Social Justice (FCSJ)

FCSJ 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

FCSJ 261, *FOOD IN AMERICAN CULTURE, 3 Credits
Fosters understanding of the meanings of foods and foodways in American culture. Uses food as a lens to explore general topic areas such as work, family, ecology, and identity. Critically examines core issues that shape and have shaped American culture. CROSSLISTED as ANTH 261/FCSJ 261. (Bacc Core Course) (SS)
Attributes: CPWC – Core, Pers, West Culture; LACS – Liberal Arts Social Core
Equivalent to: ANTH 261
Available via Ecampus

FCSJ 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

FCSJ 361, *FOOD JUSTICE, 4 Credits
Contemporary food systems are examined from a cultural and social justice perspective. The human right to food as recognized by the United Nations serves as the justice grounding point. Impediments to realizing the right to food will be examined in national and international contexts. CROSSLISTED as ANTH 361/FCSJ 361. (Bacc Core Course) (SS)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Equivalent to: ANTH 361
Available via Ecampus

FCSJ 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

FCSJ 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FCSJ 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

FCSJ 403, THESIS, 1-6 Credits
This course is repeatable for 16 credits.

FCSJ 405, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 16 credits.

FCSJ 406, FOOD PROJECTS, 1-6 Credits
Graded P/N.
This course is repeatable for 6 credits.
Available via Ecampus

FCSJ 407, SEMINAR, 1-3 Credits
This course is repeatable for 16 credits.

FCSJ 410, INTERNSHIP, 1-16 Credits
Opportunities for students to take advantage of off-campus work experiences during regular term sessions for academic credit. Allows students to broaden and deepen their understanding and appreciation of the value of their academic activity. Internship is supervised and evaluated by individual faculty members.
This course is repeatable for 16 credits.
Recommended: 6 credits of FCSJ

FCSJ 422, INTERCULTURAL LEARNING COMMUNITY, 3-6 Credits
Taught as a learning community combining students, professors and community members to explore contemporary food-related questions in two different countries. Syllabus content will change depending on 1) The countries chosen, 2) The questions that are most of interest to the members of the community. Depending on the year, up to 25% of the time might be spent on the Corvallis campus.
Prerequisite: FCSJ 454 with C- or better
This course is repeatable for 6 credits.

FCSJ 444, NUTRITIONAL ANTHROPOLOGY, 4 Credits
Examines human nutrition and food systems from comparative, biocultural and evolutionary perspectives. Long-term evolutionary processes are examined within an ecological framework as significant factors affecting human biology and susceptibility to diet-related disease. An emphasis on anthropological methods in nutritional assessment including anthropometry, paleodietary assessment and nutritional participant-observation will provide students with the tools to evaluate human diet from skeletal and fossil collections through contemporary cross-cultural populations. CROSSLISTED as ANTH 444/FCSJ 444 and ANTH 544/FCSJ 544.
Prerequisite: ANTH 240 with C or better or ANTH 330 with C or better
Equivalent to: ANTH 444

FCSJ 454, *INTERNATIONAL PERSPECTIVES ON FOOD SYSTEMS, 4 Credits
Macro and micro-comparative overview of food systems in at least two different international settings, highlighting the influences of culture, social structure, geography, and economy on food systems. Non-traditional and emerging theoretical critiques of such influences on food systems are highlighted. (Bacc Core Course) (H) (SS) (NC)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core; LACS – Liberal Arts Social Core
Available via Ecampus
FCSJ 464, FOOD AND ETHNIC IDENTITY: DECOLONIZING FOOD AND OUR BODY, 3 Credits

This interdisciplinary and comparative course will examine the relationship between food and identity. Food, from its production to consumption, is a powerful symbol of social and cultural meaning. As an expression of identity and subjectivity, food also marks borders between humans and non-humans, plants and animals, nature and culture, tradition and modernity, etc. CROSSLISTED as ES 464/FCSJ 464 and ES 564/FCSJ 564. (H)

Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: ES 464
Available via Ecampus

FCSJ 467, CAPSTONE: FOOD IN CULTURE AND SOCIAL JUSTICE, 1 Credit

Working under the supervision of a Food in Culture and Social Justice faculty person, students further engage with a topic previously explored in FCSJ course work and produce a 5-page paper and public poster, presentation or website that demonstrates critical thinking and writing competencies about food, culture and social justice. Graded P/N.
Equivalent to: ANTH 467
Recommended: Completion or concurrent enrollment in the last coursework for the FCSJ undergraduate certificate
Available via Ecampus

FCSJ 486, ANTHROPOLOGY OF FOOD, 4 Credits

The role of food in human cultures, both past and present. Includes discussion of different food procurement styles, social movements and the political economy of food. Looks at the symbolic aspects of food as well as its relationship with the environment. CROSSLISTED as ANTH 486/FCSJ 486 and ANTH 586/FCSJ 586.
Attributes: LACS – Liberal Arts Social Core
Equivalent to: ANTH 486
Recommended: 3 credits of social science.

FCSJ 499, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 16 credits.

FCSJ 501, RESEARCH, 1-6 Credits

This course is repeatable for 16 credits.

FCSJ 502, INDEPENDENT STUDY, 1-6 Credits

This course is repeatable for 16 credits.

FCSJ 503, THESIS, 1-12 Credits

This course is repeatable for 999 credits.

FCSJ 505, READING AND CONFERENCE, 1-6 Credits

This course is repeatable for 16 credits.

FCSJ 506, FOOD PROJECTS, 1-6 Credits

Graded P/N.
This course is repeatable for 6 credits.

FCSJ 507, SEMINAR, 1-3 Credits

This course is repeatable for 16 credits.

FCSJ 510, GRADUATE INTERNSHIP, 1-16 Credits

Opportunities for students to take advantage of off-campus work experiences during regular term sessions for academic credit. Allows students to broaden and deepen their understanding and appreciation of the value of their academic activity. Internship is supervised and evaluated by individual faculty members.
This course is repeatable for 16 credits.
Recommended: 6 credits of FCSJ

FCSJ 522, INTERCULTURAL LEARNING COMMUNITY, 3-6 Credits

Taught as a learning community combining students, professors and community members to explore contemporary food-related questions in two different countries. Syllabus content will change depending on 1) The countries chosen, 2) The questions that are most of interest to the members of the community. Depending on the year, up to 25% of the time might be spent on the Corvallis campus.
Prerequisite: FCSJ 554 with C or better
This course is repeatable for 6 credits.

FCSJ 544, NUTRITIONAL ANTHROPOLOGY, 4 Credits

Examines human nutrition and food systems from comparative, biocultural and evolutionary perspectives. Long-term evolutionary processes are examined within an ecological framework as significant factors affecting human biology and susceptibility to diet-related disease. An emphasis on anthropological methods in nutritional assessment including anthropometry, paleodietary assessment and nutritional participant-observation will provide students with the tools to evaluate human diet from skeletal and fossil collections through contemporary cross-cultural populations. CROSSLISTED as ANTH 444/FCSJ 444 and ANTH 544/FCSJ 544.
Equivalent to: ANTH 544
Recommended: ANTH 240 or ANTH 330

FCSJ 547, METHODS IN FOOD IN CULTURE AND SOCIAL JUSTICE, 4 Credits

Exposes graduate students to the methodological approaches and methods used in guiding empirical research on the socio-cultural aspects of food, focusing on vulnerable populations, food security, procurement, foodways, disasters, and climate change. Methodological approaches and methods as evidenced in peer-reviewed publications is the grounding for the course. CROSSLISTED as ANTH 547/FCSJ 547.
Equivalent to: ANTH 547

FCSJ 554, INTERNATIONAL PERSPECTIVES ON FOOD SYSTEMS, 4 Credits

Macro and micro-comparative overview of food systems in at least two different international settings, highlighting the influences of culture, social structure, geography, and economy on food systems. Non-traditional and emerging theoretical critiques of such influences on food systems are highlighted.
Available via Ecampus
FCSJ 564, FOOD AND ETHNIC IDENTITY: DECOLONIZING FOOD AND OUR BODY, 3 Credits
This interdisciplinary and comparative course will examine the relationship between food and identity. Food, from its production to consumption, is a powerful symbol of social and cultural meaning. As an expression of identity and subjectivity, food also marks borders between humans and non-humans, plants and animals, nature and culture, tradition and modernity, etc. CROSSTLISTED as ES 464/FCSJ 464 and ES 564/FCSJ 564.
Equivalent to: ES 564
Available via Ecampus

FCSJ 567, AGRI-FOOD MOVEMENTS, 4 Credits
Investigates the origins and contemporary status of producer and consumer food movements including, but not limited to, organics, agricultural labor movements, animal welfare, vegetarian and vegan movements, farmers’ markets, and permaculture. CROSSTLISTED as ANTH 567/FCSJ 567.
Equivalent to: ANTH 567

FCSJ 586, ANTHROPOLOGY OF FOOD, 4 Credits
The role of food in human cultures, both past and present. Includes discussion of different food procurement styles, social movements and the political economy of food. Looks at the symbolic aspects of food as well as its relationship with the environment. CROSSTLISTED as ANTH 486/FCSJ 486 and ANTH 586/FCSJ 586.
Equivalent to: ANTH 586
Recommended: 3 credits of social science.

FCSJ 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Food Science and Technology (FST)

FST 101, FOOD SCIENCE ORIENTATION, 1 Credit
For food science majors. Orientation and academic guidance toward career planning in food science and technology.

FST 199, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

FST 210, FRUIT AND VEGETABLE PROCESSING, 3 Credits
Lectures, lab activities and plant tours to help majors and non-majors understand traditional and modern fruit and vegetable processing technologies.
Recommended: CH 123 or CH 223 or ((CH 233 or CH 233H) and (CH 263 or CH 263H))

FST 212, DAIRY PROCESSING, 2 Credits
Methods of processing and preserving milk and milk products and related unit operations.
Recommended: CH 123 or CH 223 or CH 233 or CH 233H

FST 213, DAIRY PROCESSING LABORATORY, 1 Credit
Laboratory and field work to accompany FST 212. Field trip required.
Recommended: Concurrent enrollment in FST 212

FST 251, INTRODUCTION TO WINES, BEERS, AND SPIRITS, 3 Credits
A descriptive introduction to the history, science, sensory, economics, and societal aspects of alcoholic beverages.
Recommended: High school biology and chemistry
Available via Ecampus

FST 260, *FOOD SCIENCE AND TECHNOLOGY IN WESTERN CULTURE, 3 Credits
Exploring the sciences and technologies of food processing and preservation within the context of their historical, current, and possible future influences on what we eat, the structure of our society, and our day-to-day lives. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Available via Ecampus

FST 273, *WINE IN THE WESTERN WORLD, 3 Credits
A study of wine throughout history, from its accidental discovery and refinement through today, with a focus on the profound role wine plays in agriculture, social rituals, human health, economics, and the ambivalent pursuit of pleasure. (Baccalaureate Core Course)
Attributes: CPWC – Core, Pers, West Culture
Available via Ecampus

FST 280, FOOD AND BEVERAGE FERMENTATION, 2 Credits
Investigates different types of fermentation processes, related techniques, and products. Engages in laboratory activities on cider fermentation and sensory evaluation. Lec/lab.
Prerequisite: CH 231 (may be taken concurrently) with C- or better and CH 261 (may be taken concurrently) [C-]

FST 315, PILOT PLANT EXPERIENCES, 2 Credits
Students will be working in one of the FST pilot plants (dairy, vegetables/fruit, brewing, wine making, distilling) and will be assisting with the manufacturing of foods or beverages. Students must have available blocks of time in their schedules to contribute significantly to a production run. Production schedules for each pilot plant will be determined in advance of registration for each term. Not all pilot plants will be available each term. Lab.
FST 360, FOOD SAFETY AND SANITATION, 3 Credits
Principles, practices, and regulations governing and ensuring the microbiological safety of our food supply through risk assessment, surveillance, and intervention.
Prerequisite: (BI 211 with D- or better or BI 211H with D- or better or BI 212 with D- or better or BI 212H with D- or better or BI 213 with D- or better or BI 213H with D- or better or BI 221 with D- or better or BI 221H with D- or better or BI 222 with D- or better or BI 222H with D- or better or BI 223 with D- or better or BI 223H with D- or better) and (CH 121 [D-] or CH 221 [D-] or CH 221 [D-] or CH 221H [D-] or CH 231 [D-] or CH 231H [D-])

FST 370, INDUSTRY PREPARATION/ HACCP, 3 Credits
Assists students in preparation for internships and employment in the food industry by introducing compliance with food safety regulations, HACCP, and audits.
Recommended: One year of chemistry and one year of biology.

FST 385, COMMUNICATING FOOD AND FERMENTATION SCIENCE, 3 Credits
This writing intensive course (WIC) will guide students in the investigation and critical evaluation of literature on a topic of current interest in food or fermentation science, and the development of their ability to write concisely and with precision about technical subject matter in this discipline. Lec/rec. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: WR 121 with C- or better and FST 360 [D-] and MB 302 (may be taken concurrently) [D-]
Recommended: Completion of Bacc Core Writing II requirement

FST 399, SPECIAL TOPICS, 0-16 Credits
Equivalent to: FST 399H
This course is repeatable for 16 credits.

FST 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FST 399
This course is repeatable for 16 credits.

FST 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FST 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

FST 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FST 407, SENIOR SEMINAR, 1 Credit
A work internship to give students practical on-the-job training in the food processing or related industries. Graded P/N.
This course is repeatable for 16 credits.

FST 420, SENSORY EVALUATION OF FOOD, 4 Credits
Sensory test methods used in the evaluation of the taste, smell, texture, and color of foods as well as the evaluation of consumer acceptance of foods. This includes methods for measuring sensory qualities, underlying psychological principles, statistical methods for analyzing data, and proper interpretation of these results. Lec/lab.
Prerequisite: (ST 351 with C- or better or ST 411 with C- or better) and (ST 352 (may be taken concurrently) [D-] or ST 412 (may be taken concurrently) [D-])

FST 421, *FOOD LAW, 3 Credits
Concepts, statutes, regulations, and agencies controlling the production, processing, and distribution and promotion of food. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

FST 422, FOOD CHEMISTRY FUNDAMENTALS, 4 Credits
An integrated lecture/lab/recitation course applying theories of molecular reactivity to model food systems. Lectures focus on the molecular bases of chemical phenomena that dictate the behavior of foods. Laboratories and recitations provide opportunities for students to observe, manipulate, and explore model food systems. Emphasis on major food components (water, lipids, proteins, and carbohydrates) and their behavior under conditions of particular relevance to food processing. Lec/lab/rec.
Prerequisite: (BB 350 with D- or better or BB 450 with D- or better or BB 450H with D- or better) and (CH 332 [C-] or CH 336 [C-]) and (MTH 228 (may be taken concurrently) [D-] or MTH 252 (may be taken concurrently) [D-] or MTH 252H (may be taken concurrently) [D-])

FST 423, FOOD ANALYSIS, 4 Credits
An integrated laboratory/lecture course covering methods used for the quantitative analysis of the chemical composition of foods and agricultural products.
Recommended: CH 324 and CH 337 and BB 350

FST 425, FOOD SYSTEMS CHEMISTRY, 4 Credits
The chemistry of food components in real-world food systems. Focused on water, proteins, carbohydrates, lipids, and food polymers, their interactions, and the effects of food processing and storage. Integrates writing as a learning tool and means of professional communication. Lec/lab/rec.
Prerequisite: FST 422 with D- or better

FST 430, FOOD PRODUCT DEVELOPMENT, 3 Credits
Provides technical background and hand-on experience in food product development and food innovation.
Recommended: Junior or senior standing
Available via Ecampus
FST 437, CHEMISTRY AND BIOCHEMISTRY OF DISTILLED SPIRITS, 3 Credits
The underlying science of the production of the distilled spirits will be discussed systematically. The course will cover the requirements for water, the major raw materials (eg. cereals, fruits, agave, syrups, and woods for maturation) and the conversion of these into fermentable extract. The scientific principles of fermentation will be explored, in the context of both ethanol and secondary metabolite production. Distillation will be considered, in terms of the physics and chemistry of liquid-liquid separations, before discussing post-fermentation options such as blending, maturation and product finishing.
Prerequisite: FST 251 with C- or better and BB 350 (may be taken concurrently) [D-]
Available via Ecampus

FST 438, PRODUCTION AND ANALYSIS OF DISTILLED SPIRITS, 3 Credits
Building on the prerequisite course, this course compares and contrasts different approaches to the manufacture of distilled spirits by using some of the major spirit categories as examples. The management of a distilled spirits production plant in terms of legislative, safety and process/product quality will be discussed before explicit consideration of the requirements for establishing a distilled spirits production plant. Successful completion of this course will provide students with a broad understanding of the distilled spirits sector.
Prerequisite: FST 437 with D- or better
This course is repeatable for 3 credits.

FST 455X, FOOD FOR CHANGE, 3 Credits
Focus on traditional regional recipes, explore and document how global change has affected food production and demand until today and how projected climate change will affect it in the future by analyzing the ingredient lists. Focus on one recipe/ingredient, find maps of past/current crop ranges, document changes, establish the carbon footprint, and identify possible replacement ingredients projecting future culinary solutions.
Available via Ecampus

FST 460, CHEMISTRY AND BIOCHEMISTRY OF BEER, 3 Credits
Chemistry, microbiology and engineering of malting and brewing operations for the production of beer, including the compositional analysis of barley, malt, hops, water, and beer and their effects on beer quality.
Prerequisite: (BI 212 with C- or better or BI 212H with C- or better or BI 221 with C- or better or BI 221H with C- or better) and CH 331 [C-] and CH 332 [C-]
Recommended: Completion or concurrent enrollment in BEE 472 and MB 302

FST 461, PRODUCTION AND ANALYSIS OF BEER, 3 Credits
Compositional analysis, laboratory techniques and sensory evaluation of barley, malt, hops, water, yeast and beer. Lec/lab.
Prerequisite: FST 460 with D- or better and MB 302 [D-] and (MB 303 (may be taken concurrently) [D-] or MB 303H (may be taken concurrently) [D-])

FST 466, WINE PRODUCTION PRINCIPLES, 3 Credits
Principles of wine production technology from grape berry development through bottling, covering the microbiology and chemistry of fermentation, aging and production practices of red and white table wines, as well as sparkling and dessert wines.
Prerequisite: (BI 212 with C- or better or BI 212H with C- or better or BI 221 with C- or better or BI 221H with C- or better) and CH 331 [C-] and CH 332 [C-]
Recommended: BB 350 and MB 302

FST 467, PRODUCTION AND ANALYSIS OF WINE, 5 Credits
Examines the practical fundamentals of red and white wine production and the key analysis techniques used to assess grapes and wines. Wine will be produced and monitored from grape to bottle using standard chemical, microbial, and sensorial techniques.
Prerequisite: FST 466 with D- or better and FST 479 (may be taken concurrently) [D-]

FST 479, FERMENTATION MICROBIOLOGY, 3 Credits
An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors. CROSSLISTED as FST 479/MB 479 and FST 579/MB 579.
Prerequisite: ((BI 212 with C- or better or BI 212H with C- or better) or ((BI 221 with C- or better or BI 221H with C- or better) and (BI 223 [C-] or BI 223H [C-])) ) and CH 331 [C-] and CH 332 [C-] and (BB 350 [D-] or BB 450 [D-]) and MB 302 [D-]
Equivalent to: MB 479

FST 480, TOPICS IN FERMENTATION, 0-2 Credits
Selected topics in fermentation science will be presented by department faculty and invited outside experts. Topics and format will change each quarter. Students may take the course for 1 or 2 credits as the topics change. Lec/lab.
This course is repeatable for 8 credits.

FST 490, FOOD PROCESSING CALCULATIONS, 2 Credits
Application of engineering principles to produce safe processed foods meeting consumer expectations for safety and quality. Validate process engineering models by comparing predicted values with new experimental data.
Prerequisite: BEE 472 with D- or better and FST 360 [D-]
Corequisites: FST 491

FST 491, FOOD PROCESSING CALCULATIONS LABORATORY, 1 Credit
Experiments in a pilot plant supported by a computer laboratory. Prepare samples of novel process technology products.
Corequisites: FST 490
Recommended: Microsoft Excel skills.
FST 495, FOOD PACKAGING, 3 Credits
Fundamentals of food packaging covering the major packaging solutions with a focus on plastic, paper, glass, metal, and paperboard. Modeling of gas and water permeation and accelerated shelf testing. Regulations in food contact surface and related to indirect food additives.
Prerequisite: MTH 111 with C- or better and PH 201 [C-] and CH 331 [C-]

FST 499, SPECIAL STUDIES, 0-16 Credits
This course is repeatable for 16 credits.

FST 501, RESEARCH, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 16 credits.

FST 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

FST 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FST 507, SEMINAR, 1 Credit
This course is repeatable for 4 credits.

FST 509, PRACTICUM IN TEACHING, 1-16 Credits
This course is repeatable for 16 credits.

FST 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

FST 514, HEALTH BENEFITS OF FUNCTIONAL FOODS, NUTRACEUTICALS AND DIETARY SUPPLEMENTS, 3 Credits
Functional foods, nutraceuticals and dietary supplements represent a rapidly expanding segment of domestic and international markets. This course will overview the principles and procedures necessary to evaluate and market these products. The chemistry and mechanisms of major nutraceutical ingredient categories and current scientific information supporting their biochemical and physiological efficacy will be addressed. Special dietary products, such as medical, weight control, sport, and herbal supplements, will be addressed. Regulatory aspects of labeling and structure-function claims will be covered. CROSSLISTED as FST 514/NUTR 514.
Equivalent to: NFM 514, NUTR 514
Recommended: BB 350 and CH 332

FST 520, SENSORY EVALUATION OF FOOD, 4 Credits
Sensory test methods used in the evaluation of the taste, smell, texture, and color of foods as well as the evaluation of consumer acceptance of foods. This includes methods for measuring sensory qualities, underlying psychological principles, statistical methods for analyzing data, and proper interpretation of these results. Lec/lab.
Recommended: Completion of ST 351 or ST 411 and completion or concurrent enrollment in ST 352 or ST 412

FST 521, FOOD LAW, 3 Credits
Concepts, statutes, regulations, and agencies controlling the production, processing, and distribution and promotion of food.

FST 522, FOOD CHEMISTRY FUNDAMENTALS, 4 Credits
An integrated lecture/lab/recitation course applying theories of molecular reactivity to model food systems. Lectures focus on the molecular bases of chemical phenomena that dictate the behavior of foods. Laboratories and recitations provide opportunities for students to observe, manipulate, and explore model food systems. Emphasis on major food components (water, lipids, proteins, and carbohydrates) and their behavior under conditions of particular relevance to food processing. Lec/lab/rec.
Recommended: (BB 350 or BB 450 or BB 450H) and (CH 332 or CH 336) and (MTH 228 or MTH 252 or MTH 252H)

FST 523, FOOD ANALYSIS, 4 Credits
An integrated laboratory/lecture course covering methods used for the quantitative analysis of the chemical composition of foods and agricultural products.
Recommended: CH 324 and CH 337 and BB 350

FST 525, FOOD SYSTEMS CHEMISTRY, 4 Credits
The chemistry of food components in real-world food systems. Focused on water, proteins, carbohydrates, lipids, and food polymers, their interactions, and the effects of food processing and storage. Integrates writing as a learning tool and means of professional communication. Lec/lab.
Prerequisite: FST 522 with C or better

FST 537, CHEMISTRY AND BIOCHEMISTRY OF DISTILLED SPIRITS, 3 Credits
The underlying science of the production of the distilled spirits will be discussed systematically. The course will cover the requirements for water, the major raw materials (eg. cereals, fruits, agave, syrups, and woods for maturation) and the conversion of these into fermentable extract. The scientific principles of fermentation will be explored, in the context of both ethanol and secondary metabolite production. Distillation will be considered, in terms of the physics and chemistry of liquid-liquid separations, before discussing post-fermentation options such as blending, maturation and product finishing.
Available via Ecampus

FST 538, PRODUCTION AND ANALYSIS OF DISTILLED SPIRITS, 3 Credits
Building on the prerequisite course, this course compares and contrasts different approaches to the manufacture of distilled spirits by using some of the major spirit categories as examples. The management of a distilled spirits production plant in terms of legislative, safety and process/ product quality will be discussed before explicit consideration of the requirements for establishing a distilled spirits production plant. Successful completion of this course will provide students with a broad understanding of the distilled spirits sector.
Prerequisite: FST 537 with D- or better
This course is repeatable for 3 credits.
FST 555X, FOOD FOR CHANGE, 3 Credits
Focus on traditional regional recipes, explore and document how global change has affected food production and demand until today and how projected climate change will affect it in the future by analyzing the ingredient lists. Focus on one recipe/ingredient, find maps of past/current crop ranges, document changes, establish the carbon footprint, and identify possible replacement ingredients projecting future culinary solutions.
Equivalent to: ENSC 555X
Available via Ecampus

FST 560, CHEMISTRY AND BIOCHEMISTRY OF BEER, 3 Credits
Chemistry, microbiology and engineering of malting and brewing operations for the production of beer, including the compositional analysis of barley, malt, hops, water, and beer and their effects on beer quality.
Recommended: (BI 212 or BI 212H or BI 221 or BI 221H) and CH 331 and CH 332 and completion or concurrent enrollment in BEE 472 and MB 302

FST 561, PRODUCTION AND ANALYSIS OF BEER, 3 Credits
Compositional analysis, laboratory techniques and sensory evaluation of barley, malt, hops, water, yeast and beer. Lec/lab.
Prerequisite: FST 560 with D- or better

FST 566, WINE PRODUCTION PRINCIPLES, 3 Credits
Principles of wine production technology from grape berry development through bottling, covering the microbiology and chemistry of fermentation, aging and production practices of red and white table wines, as well as sparkling and dessert wines.
Recommended: (BI 212 or BI 212H or BI 221 or BI 221H) and CH 331, CH 332, BB 350 and MB 302

FST 567, PRODUCTION AND ANALYSIS OF WINE, 5 Credits
Examines the practical fundamentals of red and white wine production and the key analysis techniques used to assess grapes and wines. Wine will be produced and monitored from grape to bottle using standard chemical, microbial, and sensorial techniques.
Prerequisite: FST 566 with C or better and FST 579 (may be taken concurrently) [C]

FST 579, FERMENTATION MICROBIOLOGY, 3 Credits
An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors.
Equivalent to: MB 579
Recommended: ((BI 212 or BI 212H) or (BI 221 or BI 221H)) and (BI 223 or BI 223H)) and CH 331, CH 332, (BB 350 or BB 450) and MB 302

FST 595, FOOD PACKAGING, 3 Credits
Fundamentals of food packaging covering the major packaging solutions with a focus on plastic, paper, glass, metal, and paperboard. Modeling of gas and water permeation and accelerated shelf testing. Regulations in food contact surface and related to indirect food additives.

FST 599, SPECIAL STUDIES, 0-16 Credits
This course is repeatable for 16 credits.

FST 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FST 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

FST 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FST 620, ADVANCED TOPICS IN SENSORY SCIENCE, 2 Credits
Current and/or advanced subjects in human sensory science. Includes 1) topics in human flavor perception that covers human psychophysics, neuroscience, and related fields, and 2) sensory evaluation techniques and data handling methods that are advanced in nature. Different points of view regarding above topics will be discussed.
Prerequisite: FST 520 with C or better
This course is repeatable for 4 credits.

FST 628, FLAVOR CHEMISTRY, 3 Credits
The definition of flavor, analytical methods in flavor chemistry, and mechanisms of odor interaction in food system will be discussed. In addition, an integrated approach will be used to study the flavor chemistry of economically-important agricultural products in the Pacific Northwest such as dairy products, fruits, and alcoholic beverages.
Recommended: FST 522 and FST 523

FST 639, FOOD POLYMER SCIENCE, 3 Credits
Investigates the theoretical principles and structure-function relationships of food macromolecules. The theoretical principles are related, where possible, to observable phenomena during thermal processing and storage of foods.
Recommended: (FST 422 or FST 522) and (FST 425 or FST 525)

FST 641, PROCESSING WHEAT AND OTHER SMALL GRAINS: A MOLECULAR VIEW, 3 Credits
Provides a fundamental overview of wheat and other cereals from the perspective of the molecular level events that are important in milling, baking, and other processes. Uses cereal processing (focused primarily on bread-making) as the vehicle for placing elements of food chemistry, food polymer science, physical chemistry, and rheology into the cohesive framework of a single food category. Students will experience how the sciences of chemistry, physics, engineering, microbiology, biochemistry, nutrition, etc. amalgamate in the production of the selected cereal products. Lec/lab.
FST 666, ADVANCED TOPICS IN ENOLOGY, 3 Credits
An in-depth investigation of advanced wine processing techniques and wine research, focusing on their impact on production and wine quality.
Prerequisite: FST 566 with B or better and FST 567 (may be taken concurrently) B
Recommended: Viticulture course such as HORT 454 and good understanding of how vineyard practices influence grape quality

Forest Ecosystems and Society (FES)
FES 115, ECOLOGY OF OREGON COAST FOREST, 1 Credit
A combination of lecture, lab, and field exercises to explore the ecology and development of Oregon coastal forests. Lec/lab. Graded P/N.
Equivalent to: FS 115

FES 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: FS 199
This course is repeatable for 16 credits.

FES 202, SOFTWARE TOOLS IN QUANTITATIVE SOCIAL SCIENCE RESEARCH, 3 Credits
Develop and apply software skills to analyze quantitative social science data, then interpret and present results. Using software, students will conduct statistical analysis of primary and/or secondary data (for example, their own survey data or data from sources such as the US Census American Community Survey).
Prerequisite: ST 201 with C or better

FES 240, *FOREST BIOLOGY, 4 Credits
Structure, function, development and biology of forest vegetation and their relationships to forestry and natural resource applications. Field trips required. Lec/lab/rec. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: FES 240H, FOR 240
Available via Ecampus

FES 240H, *FOREST BIOLOGY, 4 Credits
Structure, function, development and biology of forest vegetation and their relationships to forestry and natural resource applications. Field trips required. Lec/lab/rec. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science; HNRS – Honors Course Designator
Equivalent to: FES 240

FES 241, DENDROLOGY, 3 Credits
Learn to identify the principal forest trees of North America, and the principal trees and shrubs of the Pacific Northwest. Also learn about forested regions of the world. Lec/lab/rec.
Equivalent to: FES 141
Available via Ecampus

FES 242, FOREST PLANTS OF THE PACIFIC NORTHWEST, 3 Credits
Field course on the identification and ecology of forest trees, shrubs, and herbs of the Pacific Northwest. Overnight camping required. Students should be prepared to hike 3-5 miles per day.

FES 341, FOREST ECOLOGY, 3 Credits
Basic physiological characteristics of trees, succession, climax, and related concepts. Vegetation classification. Stand structure, diversity, competition, growth, soils-forests interactions, biomass and nutrient distribution, energy relations, nutrient element dynamics, ecology of disturbances.
Equivalent to: FOR 341
Available via Ecampus

FES 342, FOREST TYPES OF THE NORTHWEST, 3 Credits
Forest trees in nature are aggregated into stable or transitory associations known as forest cover types. Knowledge of forest cover types, their species composition and ecology, is applicable to the fields of forestry, fire management, wildlife management, and forest ecology.
Equivalent to: FOR 342
Available via Ecampus

FES 343, FORESTS OF THE EASTERN UNITED STATES, 3 Credits
Major Southeast US forest types will be visited and morphological, geographic, ecological and economic characteristics of important forest tree species examined.
Prerequisite: FES 141 with C or better or FES 241 with C or better
This course is repeatable for 3 credits.

FES 350, URBAN FORESTRY, 3 Credits
Introduction to principles and practices of planting and managing trees as a system of urban environment; understanding the economic, environmental, social aspects of urban forests, and an overview of contemporary land use issues and societal perspectives between people and plants. CROSSLISTED as FES 350/HORT 350.
Equivalent to: FOR 350
Available via Ecampus

FES 355, MANAGEMENT FOR MULTIPLE RESOURCE VALUES, 3 Credits
Management of a variety of resource attributes in multiple use context, including considerations for recreation, fish, wildlife, aesthetics, watersheds, and forest products.
Equivalent to: FOR 355
Available via Ecampus
FES 365, *ISSUES IN NATURAL RESOURCES CONSERVATION, 3 Credits
Background of major current issues in natural resources conservation with emphasis on forests, soils, and water and potential sustainable carrying capacity. Focus on evaluating facts and opinions related to issues. Basics of terrestrial and aquatic ecology, recent and current issues of soil, water, and forest use and management. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: FOR 365
Available via Ecampus

FES 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

FES 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: FS 401
This course is repeatable for 16 credits.

FES 403, THESIS, 1-16 Credits
Equivalent to: FS 403
This course is repeatable for 16 credits.

FES 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: FS 405
This course is repeatable for 16 credits.

FES 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FES 407, SEMINAR, 1-16 Credits
Some sections graded A-F. This course is repeatable for a maximum of 16 credits.
This course is repeatable for 16 credits.

FES 410, INTERNSHIP, 1-16 Credits
Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of university and agency personnel. Graded P/N.
This course is repeatable for 16 credits.

FES 412, FOREST ENTOMOLOGY, 3 Credits
Role of insects in natural and managed forests. Recognition of important forest insect pest groups and species, prediction of forest insect responses to environmental changes, and management strategies and treatments to protect forest resource values.
Prerequisite: BI 204 with C or better or BI 211 with C or better or BI 211H with C or better or BI 212 with C or better or BI 212H with C or better or BI 221 with C or better or BI 221H with C or better

FES 422, RESEARCH METHODS IN SOCIAL SCIENCE, 4 Credits
An introduction to research methods applied to social science issues and problems. Emphasis is on the nature of the research process, how to conduct research, and how to interpret and disseminate research results.
Lec/lab.
Prerequisite: ST 201 with D- or better or ST 351 with D- or better or ST 351H with D- or better
Equivalent to: TOL 422
Available via Ecampus

FES 430, FOREST AS CLASSROOM, 4 Credits
Investigates instructional methods used to teach K-12 students about natural resources. Reveals how forest exploration can be used as a means to teach others about science, ecology, mathematics, social science, and history. Provides an opportunity for future teachers, naturalists, interpreters, and scientists to improve their teaching and communication skills.
Available via Ecampus

FES 433, PLANNING AGROFORESTRY PROJECTS, 2 Credits
Helps forestry and other natural resource students understand various agroforestry concepts, systems and technologies and practices worldwide. Lays the groundwork for students to identify different systems, characterize socio-economic conditions and plan sustainable agroforestry systems. Class activities examine how biological, economic, and social factors influence agroforestry farming decisions.
Prerequisite: BOT 341 with D- or better

FES 435, *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOL 435 and FES 535/MCB 535/TOL 535. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FES 435H, TOX 435, TOX 435H
Recommended: One quarter each of biology and chemistry
Available via Ecampus

FES 440, WILDLAND FIRE ECOLOGY, 3 Credits
Fire histories and ecology of major forest, rangeland, and wetland ecosystems. Includes fire interactions with physical and biotic components of ecosystems, role of fire in ecological processes, and utilization in natural resource management.
Equivalent to: FOR 446
Recommended: Junior or senior standing, with coursework in ecology and natural resource management
Available via Ecampus
FES 444, ECOLOGICAL ASPECTS OF PARK MANAGEMENT, 3 Credits
Ecological principles applied to the management of park recreation uses. The relationship between biological and physical science information and recreation management decisions is explored.
Equivalent to: TOL 444
Recommended: An ecology course and completion or concurrent enrollment in FES 251 or FOR 251

FES 445, ECOLOGICAL RESTORATION, 4 Credits
Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. CROSSLISTED as FES 445/FW 445 and FES 545/FW 545.
Equivalent to: FOR 445, FW 445
Recommended: BI 370 or BI 370H
Available via Ecampus

FES 447, ARBORICULTURE, 4 Credits
The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. CROSSLISTED as FES 447/HORT 447 and FES 547/HORT 547.
Equivalent to: FOR 447, HORT 447
Recommended: (FES 141 or FES 241 or HORT 226 or HORT 228) and (FOR 111 or HORT 112)
Available via Ecampus

FES 450X, LARGE CARNIVORES IN ECOLOGY, 1 Credit
Exploration of interesting effects of large carnivores on other animals and the structure and function of ecosystems. Featured carnivores include gray wolves, grizzly bears, cougars, lions, and others. Investigation of the global conservation status and trends of large carnivores and their prey.

FES 452, BIODIVERSITY CONSERVATION IN MANAGED FORESTS, 3 Credits
Designed for students in forestry, wildlife, fisheries and related fields. Introduces the concepts of, and approaches to, managing forest stands, landscapes and regions to achieve desired habitat conditions for indicator species and conservation of biological diversity. CROSSLISTED as FES 452/FW 452.
Equivalent to: FS 453, FW 452
Recommended: FES 240 or FES 341 or BI 370
Available via Ecampus

FES 454, MANAGING AT THE WILDLAND-URBAN INTERFACE, 3 Credits
Course targets fire-prone communities where resource professionals need to work cooperatively with local and federal agencies and citizens to gain acceptance for fire management programs and build joint responsibility for fuel reduction activities.
Equivalent to: FOR 454
Recommended: FOR 111 for non-Ecampus students

FES 455, URBAN FOREST PLANNING, POLICY AND MANAGEMENT, 4 Credits
Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to maximize the economic, environmental, and social values and benefits of urban forest landscapes. CROSSLISTED as FES 455/HORT 455 and FES 555/HORT 555.
Prerequisite: FES 350 with C- or better
Equivalent to: FOR 455, HORT 455

FES 477, *AGROFORESTRY, 3 Credits
Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/ NR 477 and FES 577/RNG 577. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FS 477, NR 477
Recommended: Introductory course in biology
Available via Ecampus

FES 485, *CONSENSUS AND NATURAL RESOURCES, 3 Credits
Students will use a working group approach. They will select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to their issue. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FS 485
Available via Ecampus

FES 486, ^PUBLIC LANDS POLICY AND MANAGEMENT, 3 Credits
Examines public lands policy and management in the Western U.S. Overview of historical and current federal land management agency laws, regulations, and policies. Highlights political, legal, economic, ecological, and social context of public land management decisions. (Writing Intensive Course)
Attributes: CWSIC – Core, Skills, WIC
Recommended: Sophomore standing
Available via Ecampus

FES 499, SELECTED TOPICS IN FOREST SCIENCE, 0-16 Credits
In-depth studies of specific topics within a field of specialization. Examples include biotechnology in forestry, mykorrhizal ecology, tree improvement, landscape ecology, global climatic change in relation to forestry, advanced silviculture prescriptions, agroforestry, and others. This course is repeatable for 16 credits.
FES 500, MARKET TOOLS FOR MANAGING GREENHOUSE GAS EMISSIONS, 3 Credits
Examines the use of market-based approaches to managing greenhouse gas emissions; the role of forestry and natural resource management in mitigating greenhouse gas emissions; and the design of carbon and offset markets in the context of broader climate change policies. CROSSLISTED as FES 500/MNR 500.
Equivalent to: MNR 500
Recommended: MTH 111
Available via Ecampus

FES 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: FS 501
This course is repeatable for 16 credits.

FES 503, THESIS, 1-16 Credits
Equivalent to: FS 503
This course is repeatable for 999 credits.

FES 505, READING AND CONFERENCE, 1-16 Credits
Some sections graded P/N.
Equivalent to: FS 505
This course is repeatable for 16 credits.
Available via Ecampus

FES 506, PROJECTS, 1-16 Credits
Equivalent to: FS 506
This course is repeatable for 16 credits.
Available via Ecampus

FES 507, SEMINAR, 1-16 Credits
Some sections graded A-F.
Equivalent to: FS 507
This course is repeatable for 16 credits.

FES 508, WORKSHOP, 1-16 Credits
Equivalent to: FS 508
This course is repeatable for 16 credits.

FES 511, COMMUNITIES AND NATURAL RESOURCES, 5 Credits
Provides students from diverse backgrounds with interdisciplinary, experiential learning exposure to contemporary community and natural resource issues in rural Oregon. Social science concepts are employed to critically appraise current conditions and future prospects for rural, natural resource-dependent communities.
Equivalent to: FS 511
This course is repeatable for 15 credits.

FES 512, FOREST ENTOMOLOGY, 3 Credits
Role of insects in natural and managed forests. Recognition of important forest insect pest groups and species, prediction of forest insect responses to environmental changes, and management strategies and treatments to protect forest resource values.
Recommended: BI 204 or BI 211 or BI 211H or BI 212 or BI 212H or equivalent.

FES 520, POSING RESEARCH QUESTIONS, 3 Credits
Acquaints beginning graduate students in the natural resources to the scientific method and formation of good researchable questions. The course consists of lectures, readings and discussions. Concepts in the course are reinforced and amplified by discipline-specific companion modules. Students prepare and orally present a researchable question in their area of interest that is critiqued by the class and instructors.
Equivalent to: FS 520

FES 521, NATURAL RESOURCE RESEARCH PLANNING, 3 Credits
Research planning and study plan development, investigative procedures, the principles and ethics of natural resource science, principles and practices in scientific communication.
Equivalent to: FS 521

FES 522, RESEARCH METHODS SOCIAL SCIENCE, 4 Credits
An introduction to research methods applied to social science issues and problems. Emphasis is on the nature of the research process, how to conduct research, and how to interpret and disseminate research results.
Lec/lab.
Equivalent to: FOR 522, MNR 522
Recommended: Recent statistics course

FES 523, QUANTITATIVE ANALYSIS IN SOCIAL SCIENCE, 4 Credits
Application and interpretation of statistical approaches to human dimensions of natural resources, recreation, and other social sciences. Emphasis is on an applied approach focusing on understanding data, selecting appropriate statistics for theoretical and managerial problems, using statistical software for analyses, and interpreting findings.
Recommended: (FES 522 or FOR 522) and ST 511

FES 524, NATURAL RESOURCES DATA ANALYSIS, 4 Credits
Hands-on experience in applied statistical modeling and data analysis for natural resources. Emphasis is on understanding of statistical models and the application and actual implementation of statistical analysis techniques, use of statistical software for analyses (e.g., R), and interpretation of findings. Students analyze data from their own research for final projects.
Prerequisite: ST 511 with B or better and ST 512 [B]

FES 525, INTERDISCIPLINARY APPROACHES TO SOCIO-ECOLOGICAL PROBLEMS, 3 Credits
Inter-, multi- and transdisciplinary approaches to socio-ecological problems, including terminology, assumptions, and analytical frameworks of different scientific fields. How disciplines have been integrated to approach specific case studies. Teams apply concepts, tools, and approaches in a final integrated analysis, resulting in proposed actions or policies.
FES 526, EFFECTIVE COMMUNICATION & PRESENTATION SKILLS FOR SCIENTISTS, 1 Credit
Provides an overview of communication principles and effective scientific communication skills for producing a seminar on proposed research presented to fellow scientists. Students evaluate strengths and weaknesses of communication styles; develop their ability to provide fair, timely feedback; and apply communication principles to evaluate strengths and weaknesses of presentations and proposed research. This course is repeatable for 3 credits.

FES 527, FOREST CARBON ANALYSIS FOR ASSESSMENTS AND POLICY AGREEMENTS, 3 Credits
Role of forests in mitigating greenhouse gas emissions. International GHG policies and recommendations for monitoring emissions and forest carbon. Measurement, modeling, and projections of forest ecosystem carbon. Evaluation of policies for reducing GHG emissions and increasing forest carbon stores.
Prerequisite: FES 536 with C or better
Recommended: MNR 538 or MNR 550
Available via Ecampus

FES 530, FOREST AS CLASSROOM, 4 Credits
Investigates instructional methods used to teach K-12 students about natural resources. Reveals how forest exploration can be used as a means to teach others about science, ecology, mathematics, social science, and history. Provides an opportunity for future teachers, naturalists, interpreters, and scientists to improve their teaching and communication skills.
Available via Ecampus

FES 533, PLANNING AGROFORESTRY PROJECTS, 2 Credits
Helps forestry and other natural resource students understand various agroforestry concepts, systems and technologies worldwide. Lays the groundwork for students to identify different systems, characterize socio-economic conditions and plan sustainable agroforestry systems. Class activities examine how biological, economic, and social factors influence agroforestry farming decisions.
Recommended: BOT 341 and/or equivalent course in ecology.

FES 535, GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535.
Equivalent to: BI 535, FS 535, MCB 535, TOX 535
Recommended: One quarter each of biology and chemistry
Available via Ecampus

FES 536, CARBON SEQUESTRATION IN FORESTS, 2 Credits
Examines processes controlling the sequestration of carbon in the forest system including the forest itself and wood products. Also examines how forests can be managed to sequester carbon as well as the important economic, policy, and other constraints. Lectures, readings, discussion, simulation models, and homework will be used to cover the material.
Recommended: Undergraduate-level biology or ecology.
Available via Ecampus

FES 537, BELOWGROUND ECOSYSTEMS, 3 Credits
Physical and biological components and their interactions in different soil ecosystems with description and examination of the relationships between producers and decomposers in the soil.
Recommended: Undergraduate biology or ecology courses

FES 538, VALUATION OF NON-MARKET RESOURCES, 3 Credits
Focuses on the theory and methods for estimating the economic value of non-market resources (e.g. clean air and water, biodiversity, nature-based recreation, etc.). Blends the theory and econometrics of non-market valuation through hands-on applications of methods with real datasets. The valuation of non-market resources is a burgeoning field within applied economics and should continue to grow in both importance and applications.
Recommended: AREC 512 or ECON 512

FES 540, WILDLAND FIRE ECOLOGY, 3 Credits
Fire histories and ecology of major forest, rangeland, and wetland ecosystems. Includes fire interactions with physical and biotic components of ecosystems, role of fire in ecological processes, and utilization in natural resource management.
Recommended: Coursework in ecology and natural resource management

FES 542, WILDLIFE LANDSCAPE ECOLGY, 3 Credits
Explores the interaction between spatial pattern and scale and ecological processes with particular emphasis on biodiversity in forests. The focus is on theory, methods and conservation applications in landscape ecology.
Recommended: Undergraduate courses in ecology and concurrent enrollment in ST 511

FES 543, ADVANCED SILVICULTURE, 3 Credits
The scientific basis of forest regeneration and silvicultural practices and prescriptions in immature and mature stands. Field trips are required.
Lec/lab.
Equivalent to: FS 543
Recommended: FOR 442 and FOR 443
FES 545, ECOLOGICAL RESTORATION, 4 Credits
Fundamentals of restoring and reclaiming disturbed landscapes and ecosystems. Topics covered include types and assessment of site conditions; determining restoration goals and feasibility; hydrologic, biotic, and soil functions and their importance in restoration; and measures of successful restoration. CROSSTLISTED as FES 445/FW 445 and FES 545/FW 545.
Equivalent to: FOR 545, FW 545
Recommended: BI 370 or BI 370H
Available via Ecampus

FES 546, ADVANCED FOREST COMMUNITY ECOLOGY, 4 Credits
Fundamental concepts of community including disturbance, diversity and succession. Strong emphasis on field skills and data interpretation. Saturday field trip required. Lec/lab.

FES 547, ARBORICULTURE, 4 Credits
The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. CROSSTLISTED as FES 447/HORT 447 and FES 547/HORT 547.
Equivalent to: HORT 547
Recommended: (FES 141 or FES 241 or HORT 226 or HORT 228) and (FOR 111 or HORT 112)
Available via Ecampus

FES 548, INVASIVE PLANTS: BIOLOGY, ECOLOGY AND MANAGEMENT, 3 Credits
Concepts of plant physiology, genetics and population dynamics are used to understand how plant invasions occur and some communities continue to exist. Management implications are explored.
Equivalent to: FS 548
Available via Ecampus

FES 550, TROPHIC CASCADES, 2-3 Credits
Theory and empirical analysis of terrestrial carnivore effects on plants and ecosystems as mediated through herbivores. Emphasis on large carnivores, frequency/strength of trophic cascades, implications for ecosystem function, management, and restoration. Lectures, current literature, discussions, field exercise, term paper, and student presentations. CROSSTLISTED as FES 550/FW 550.
Equivalent to: FOR 547, FW 547, FW 550
This course is repeatable for 3 credits.

FES 552, FOREST WILDLIFE HABITAT MANAGEMENT, 4 Credits
Management of terrestrial vertebrates in forest ecosystems. Effects on silvicultural practices and landscape pattern on habitats and populations. CROSSTLISTED as FES 552/FW 552.
Equivalent to: FW 552
Recommended: FOR 341 or equivalent course in ecology.
Available via Ecampus

FES 554, MANAGING AT THE WILDLAND-URBAN INTERFACE, 3 Credits
Course targets fire-prone communities where resource professionals need to work cooperatively with local and federal agencies and citizens to gain acceptance for fire management programs and build joint responsibility for fuel reduction activities.
Equivalent to: FOR 554
Recommended: FOR 111 for non-Ecampus students

FES 555, URBAN FOREST PLANNING, POLICY AND MANAGEMENT, 4 Credits
Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to maximize the economic, environmental, and social values and benefits of urban forest landscapes. CROSSTLISTED as FES 455/HORT 455 and FES 555/HORT 555.
Equivalent to: FOR 555, HORT 555
Recommended: FES 350 or HORT 350
Available via Ecampus

FES 558, CONCEPTS OF FOREST RECREATION PLANNING AND MANAGEMENT, 3 Credits
Examines research that forms the conceptual basis for tools, techniques, and approaches used in recreation planning and management.
Equivalent to: FOR 558

FES 560, GREEN INFRASTRUCTURE, 4 Credits
Explores the relationship between the natural and built environments in cities and examines how planning for and managing green infrastructure assets (such as urban tree canopy, watersheds, and natural areas) increases economic health, community livability and ecological resilience in cities.
Available via Ecampus

FES 561, PHYSIOLOGY OF WOODY PLANTS, 3 Credits
The structure, growth and physiological processes of trees and shrubs.
Equivalent to: FS 561
Recommended: (CH 231 or CH 231H) and (CH 232 or CH 232H) and (CH 233 or CH 233H) and CH 331 and CH 332 and BOT 331

FES 565, URBAN FORESTRY LEADERSHIP, 2 Credits
Examines the application of leadership theories and principles to the decision-making, policy creation, and effective administration of urban forestry programs in the public, private, and non-profit sectors. Taught via Ecampus only.
Available via Ecampus
FES 577, AGROFORESTRY, 3 Credits
Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. Crosslisted as FES 477/ NR 477 and FES 577/RNG 577.
Equivalent to: FS 577, NR 577, RNG 577
Recommended: Introductory course in biology.

FES 580, WRITING SCIENTIFIC MANUSCRIPTS, 1 Credit
Discussion of parts of a scientific manuscript and the submission, review, and publication process. Brief presentations and discussion of examples provided by the instructor and students. Students write their own manuscripts and work in teams to provide feedback on manuscript components.

FES 585, CONSENSUS AND NATURAL RESOURCES, 3 Credits
Students will use a working group approach. They will select a natural resource topic, study the team process and interaction as a method of learning, explore the issue using systems practice, and strive for consensus on solutions to their issue.
Equivalent to: FS 585
Available via Ecampus

FES 586, PUBLIC LANDS POLICY AND MANAGEMENT, 3 Credits
Examines public lands policy and management in the Western U.S. Overview of historical and current federal land management agency laws, regulations, and policies. Highlights political, legal, economic, ecological, and social context of public land management decisions.
Available via Ecampus

FES 599, SELECTED TOPICS IN FOREST SCIENCE, 0-16 Credits
In-depth studies of specific topics within a field of specialization. Examples include biotechnology in forestry, mycorrhizal ecology, tree improvement, landscape ecology, global climatic change in relation to forestry, advanced silviculture prescriptions, agroforestry, and others. This course is repeatable for 16 credits. Available via Ecampus

FES 600, GLOBAL CHANGE ECOLOGY: IMPACTS, MITIGATION, AND ADAPTATION, 3 Credits
An interdisciplinary discourse on what is known about global change and dynamics of the earth system, including principles of climate, influences on ecosystem functioning and connectivity needed to understand responses of the earth system to human activities.
Equivalent to: FS 600

FES 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: FS 601
This course is repeatable for 16 credits.

FES 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

FES 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FES 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FES 629, TEACHING PRACTICUM IN FOREST SCIENCE, 1 Credit
Preparation of graduate students in forest science and related disciplines for their first teaching experiences. Using concepts and information introduced in the class, students will develop the curriculum for one credit of college-level instruction (or an equivalent approved by the instructor) in a topic of their choice.
Equivalent to: FS 629

FES 646, FOREST ECOSYSTEMS ANALYSIS AND APPLICATION, 4 Credits
The structure and function of forests and associated streams in natural and managed landscapes; application of ecosystem analysis to policy management decisions; roles of models; scaling from individual processes to ecosystems, landscapes, and beyond. Required classroom discussions, field trip.
Equivalent to: FS 646
Recommended: College-level ecology/biology, chemistry, and math; familiarity with Excel.

FES 699, SELECTED TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Forest Engineering (FE)

FE 101, INTRODUCTION TO FOREST ENGINEERING, 2 Credits
Introduction to the forest engineering discipline. Discussion of critical issues, available resources, career opportunities and professional opportunities. Overview of field instruments and analytical approaches.

FE 102, FOREST ENGINEERING PROBLEM SOLVING AND TECHNOLOGY, 3 Credits
A technology applications course designed to introduce students to formulating and implementing computational solutions to engineering analysis and design problems in a digital environment. Students will learn to evaluate engineering problems, formulate one or more solution techniques or algorithms, and code the solution using spreadsheet and/or programming software. Professionalism in completing and presenting laboratory exercises is emphasized. Laboratory exercises draw from a variety of engineering topics. This course may be substituted for CE 102, Civil Engineering I: Problem Solving and Technology.
Equivalent to: FE 215
Recommended: Calculus
FE 206, ENGINEERING FOREST BIKING TRAILS, 2 Credits
Students will design trails that mitigate impact on the environment and other trail users, while still providing a fun experience for mountain bike riders. Topics include site classification, trail safety, water management, digital terrain models, and commercial road design software. This course will emphasize field and design work.

FE 208, FOREST SURVEYING, 4 Credits
Introduction to theory and practice of surveying methods and measurements as applied to the specifics of forestry problems and their solutions. This is the first of a four-course sequence (FE 208, 209, 310, 311). Together with FE 257 it is designed to prepare students for the Fundamentals of Land Surveying exam, which is necessary to become a professional land surveyor.
Prerequisite: MTH 112 with C or better or MTH 241 with C or better or MTH 251 with C or better or MTH 251H with C or better or MTH 252 with C or better or MTH 252H with C or better
Equivalent to: FE 308
Available via Ecampus

FE 209, FOREST PHOTOGRAMMETRY AND REMOTE SENSING, 4 Credits
Management and conservation of natural resources with the fundamentals of spatial data acquisition from airborne and spaceborne sensors. Introduction to theory of spectral reflectance properties of vegetation, the principles of photographic analysis and aerial photo-interpretation and new advances such as LIDAR.
Prerequisite: MTH 112 with C or better or MTH 241 with C or better or MTH 251 with C or better or MTH 251H with C or better or MTH 252 with C or better or MTH 252H with C or better
Equivalent to: FE 309
Available via Ecampus

FE 257, GIS AND FOREST ENGINEERING APPLICATIONS, 3 Credits
An introduction to the appropriate use and potential applications of geographic information systems (GIS) and related technologies (GPS and remote sensing) in forest management and operational planning and problem solving. Students are presented with lectures and exercises that cover a wide range of GIS and GIS-related topics and issues including spatial database creation, structure, analysis, and modeling. Lec/lab.
Equivalent to: FE 357
Available via Ecampus

FE 307, JUNIOR SEMINAR, 1 Credit
College is the time to develop the skills necessary for the transition between academics and career. In conjunction with the expertise already available on campus, this course will guide students through career planning, exploration, placement, and employer expectations. CROSSLISTED as FE 307/FOR 307.
Equivalent to: FOR 307

FE 310, FOREST ROUTE SURVEYING, 4 Credits
Route surveying and site surveying applied to forestry problems. Use of surveying equipment, traversing; computations; leveling; horizontal, vertical, compound, reverse and spiral curves; earthwork; construction staking as applied to new road and existing road P-line survey. Includes rapid survey techniques. Lec/lab.
Prerequisite: (FE 208 with C or better or FE 308 with C or better) or CE 361 with C or better or CEM 263 with C or better

FE 312, FORESTRY FIELD SCHOOL, 2 Credits
A hands-on experience in the major aspects of forestry, including regeneration surveys, silviculture, cruising, recreation, forest disturbances, logging site and mill visits, east and west of the Cascades Range. CROSSLISTED as FE 312/FOR 312.
Equivalent to: FOR 312

FE 315, SOIL ENGINEERING, 4 Credits
Prerequisite: ENGR 213 (may be taken concurrently) with D- or better
Recommended: CE 311 or CEM 311 or FE 330

FE 316, SOIL MECHANICS, 4 Credits
Soil strength and soil mechanics theories applied to analysis of slope stability, retaining structures, foundations, and pavements. Lec/lab.
Prerequisite: FE 315 (may be taken concurrently) with C- or better or CE 372 (may be taken concurrently) with D- or better

FE 330, FOREST ENGINEERING FLUID MECHANICS AND HYDRAULICS, 3 Credits
Fluid properties, pressure, fluid statics, continuity, energy equation, single and series pipe flow, open channel hydraulics, peakflow estimates for culvert design, stream crossing design. Lec/lab.
Prerequisite: ENGR 213 (may be taken concurrently) with D- or better and FE 102 (may be taken concurrently) [C-]
Equivalent to: FE 431

FE 370, HARVESTING OPERATIONS, 4 Credits
Timber harvesting and transport methods from the forest to the mill. Technical feasibility, economic, and environmental relationships in forestry operations. Junior standing in forestry required. For non-forest engineering students.
Prerequisite: PH 201 with C or better or PH 211 with C or better

FE 371, HARVESTING PROCESS ENGINEERING, 4 Credits
Timber harvesting equipment and systems. Harvesting process evaluation and decisions aided by forest engineering analysis. Lec/lab.
Prerequisite: ENGR 211 with C or better and FE 102 [C]
Recommended: Concurrent enrollment in FE 208 and FE 357

FE 403, THESIS, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 16 credits.
FE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FE 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

FE 415, FOREST ROAD ENGINEERING, 3 Credits
Location, surveying, design, cost estimation, and construction practices for forest roads. Lecture on principles, and laboratory field practice in locating, surveying, designing, and cost estimating.
Prerequisite: FE 310 with C- or better

FE 416, FOREST ROAD SYSTEM MANAGEMENT, 4 Credits
Structural characteristics of bridges, load rating, structural design of culverts, aggregate testing and evaluation, environmental assessment of forest road systems, road maintenance cycles and management.
Prerequisite: (ENGR 211 with D- or better or ENGR 211H with D- or better) and (ENGR 213 [D-] or ENGR 213H [D-]) and FE 316 [C-] and FE 415 [C-]

FE 423, UNMANNED AIRCRAFT SYSTEM REMOTE SENSING, 3 Credits
Unmanned Aircraft System (UAS) Geomatics presents techniques in UAS design and applications for remote sensing measurements of both natural and constructed landscapes.
Prerequisite: FE 309 with C or better or GEOG 480 with C or better or GEOG 481 with C or better or GEO 444 with C or better or GEO 466 with C or better

FE 430, WATERSHED PROCESSES, 4 Credits
Effects of land use practices on the physical hydrology (interception, infiltration, evapotranspiration, subsurface flow and surface runoff, water yields, and peak flows) of forested watersheds. Surface erosion, mass soil movements, stream temperatures, nutrient levels and effects of management activities upon riparian systems; forest practice rules. Lec/lab.

FE 436, FOREST DISTURBANCE HYDROLOGY, 3 Credits
Impacts of forest disturbance, including timber harvest, wildfire, insect outbreaks, and low frequency storms and floods on watershed hydrology and streams.
Prerequisite: FE 434 with C or better
Equivalent to: FE 435

FE 440, FOREST OPERATIONS ANALYSIS, 4 Credits
Identification and measurement of production components in harvesting systems. Methods analysis, productivity improvement and engineering economics. Report writing skills emphasized. Lec/lab.
Prerequisite: FE 102 with C- or better and (FE 370 [C-] or FE 371 [C-])
Recommended: Basic statistics

FE 444, FOREST REMOTE SENSING AND PHOTOGRAMMETRY, 4 Credits
Introduction to spectral reflectance, photogrammetry, image analysis, and point clouds. Fundamentals of data acquisition with passive and active sensors installed on airborne and spaceborne platforms. Radar and lidar in forestry. Lec/lab.
Prerequisite: FE 257 with C or better and (MTH 112 [C] or MTH 241 [C] or MTH 251 [C] or MTH 251H [C] or MTH 252 [C] or MTH 252H [C]) and (PH 201 [C] or PH 211 [C])

FE 456, *INTERNATIONAL FORESTRY, 3 Credits
An introduction to the biological, physical, and sociological factors that shape the world’s forests and the activities used to manage those forests. What influence these factors have on forest policies, practices, and outcomes. CROSSLISTED as FE 456/FOR 456. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: FOR 456
Recommended: Introductory course in biology.

FE 457, TECHNIQUES FOR FOREST RESOURCE ANALYSIS, 4 Credits
Use of linear programming, nonlinear programming, dynamic programming, and simulation to solve complex forest management problems, with emphasis on intertemporal multiple-use scheduling. Forestry transportation problems, multiple-use allocation and investment analysis. Field trips required. CROSSLISTED as FE 457/FOR 457 and FE 557/FOR 557.
Prerequisite: FOR 329 with C or better and FOR 441 [C] and FOR 443 [C]
Equivalent to: FOR 457

FE 459, FOREST MANAGEMENT PLANNING AND DESIGN I, 4 Credits
Integration of environmental, economic, and social aspects of forestry in management planning. Development of strategic and tactical plans using diverse data types and sources. Senior capstone class projects. Lec/lab. CROSSLISTED as FE 459/FOR 459.
Prerequisite: FE 457 with C or better or FOR 457 with C or better
Equivalent to: FOR 459
FE 460, FOREST OPERATIONS REGULATIONS AND POLICY ISSUES, 3 Credits
Reviews regulations and other policies that affect timber harvesting and other forest practices, particularly policies that address concerns of environment, safety, employment and transportation. Discusses how such rules and other policies evolve, including the role of public perceptions, forestry professionals and other key policy players. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

FE 469, FOREST MANAGEMENT PLANNING AND DESIGN II, 4 Credits
A team-based, project-centric course for integrated timber harvest planning. Establish tactical and operational planning goals and constraints, identify feasible harvesting and transportation systems, and design harvest units to meet objectives and constraints. Lec/lab. CROSSLISTED as FE 469/FOR 469.
Prerequisite: FE 459 with C or better or FOR 459 with C or better
Equivalent to: FOR 469

FE 470, LOGGING MECHANICS, 4 Credits
Relationship of torque, power, and thrust to the operation of cable and ground-based harvesting systems. On-highway and off-highway heavy truck performance.
Prerequisite: (ENGR 211 with D- or better or ENGR 211H with D- or better) and ENGR 213 [D-] and FE 371 [C-]

FE 471, HARVESTING MANAGEMENT, 3 Credits
Verification of harvesting assessment plans and operational planning/field layout. Practical logging skills related to harvest planning, operations monitoring, and designing worker training programs. Lec/lab.
Recommended: FE 371 and FE 470

FE 472, MECHANIZED HARVESTING AND SIMULATION, 2 Credits
Study of harvesters, forwarders, and processing of timber for maximizing stand value. The use of a harvesting simulator will provide for a hands-on approach to learning.
Recommended: FOR 321

FE 479, SLOPE AND EMBANKMENT DESIGN, 3 Credits
A comprehensive overview of evaluating stability and performance for natural and engineered slopes. Design aspects include construction of road embankments, slope remediation techniques and application of geosynthetics for slope stabilization, slope and wall construction, and drainage. CROSSLISTED as CE 479/FE 479 and CE 579/FE 579.
Prerequisite: CE 373 with C or better or FE 316 with C or better
Equivalent to: CE 479

FE 480, FOREST ENGINEERING PRACTICE AND PROFESSIONALISM, 1 Credit
Personal and professional skills, attributes, and issues in forest engineering practice. Includes topics such as ethics, land stewardship, media relations and risk management.

FE 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 8 credits.

FE 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

FE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

FE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FE 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

FE 515, FOREST ROAD ENGINEERING, 3 Credits
Location, surveying, design, cost estimation, and construction practices for forest roads. Lecture on principles, and laboratory field practice in locating, surveying, designing, and cost estimating.
Recommended: Basic surveying

FE 516, FOREST ROAD SYSTEM MANAGEMENT, 4 Credits
Structural characteristics of bridges, load rating, structural design of culverts, aggregate testing and evaluation, environmental assessment of forest road systems, road maintenance cycles and management.
Recommended: FE 415 or FE 515

FE 523, UNMANNED AIRCRAFT SYSTEM REMOTE SENSING, 3 Credits
Unmanned Aircraft System (UAS) Geomatics presents techniques in UAS design and applications for remote sensing measurements of both natural and constructed landscapes.
Prerequisite: GEOG 580 with C or better or GEOG 581 with C or better or GEO 544 with C or better or GEO 566 with C or better or OC 678 with C or better

FE 530, WATERSHED PROCESSES, 4 Credits
Effects of land use practices on the physical hydrology (interception, infiltration, evapotranspiration, subsurface flow and surface runoff, water yields, and peak flows) of forested watersheds. Surface erosion, mass soil movements, stream temperatures, nutrient levels and effects of management activities upon riparian systems; forest practice rules. Lec/lab.
FE 532, FOREST HYDROLOGY, 4 Credits
Physical hydrology, erosion processes, and attributes of stream ecosystems for forested watersheds. Material can be widely applied, but is applicable primarily to the humid, temperate rainforests of the Pacific Northwest. Lec/rec.
Recommended: BEE 512 or introductory hydrology course

FE 536, FOREST DISTURBANCE HYDROLOGY, 3 Credits
Impacts of forest disturbance, including timber harvest, wildfire, insect outbreaks, and low frequency storms and floods on watershed hydrology and streams.
Recommended: FE 434

FE 540, FOREST OPERATIONS ANALYSIS, 4 Credits
Identification and measurement of production components in harvesting systems. Methods analysis, productivity improvement and engineering economics. Report writing skills emphasized. Lec/lab.
Recommended: FE 102 and (FE 370 or FE 371) and basic statistics.

FE 544, FOREST REMOTE SENSING AND PHOTOGRAMMETRY, 4 Credits
Introduction to spectral reflectance, photogrammetry, image analysis, and point clouds. Fundamentals of data acquisition with passive and active sensors installed on airborne and spaceborne platforms. Radar and lidar in forestry. Lec/lab.
Recommended: FE 257 and (MTH 112 or MTH 241 or MTH 251 or MTH 251H or MTH 252 or MTH 252H)

FE 545, SEDIMENT TRANSPORT, 4 Credits
Principles of sediment erosion, transportation and deposition in rivers, reservoirs, and estuaries; measurement, analysis, and computational techniques. Offered even years in winter term. CROSSLISTED as BEE 545/FE 545.
Equivalent to: BEE 545
Recommended: CE 313 or FE 330

FE 552, FOREST TRANSPORTATION SYSTEMS, 4 Credits
Analysis of interactions between harvesting and road systems. Advanced topics in road and landing spacing, determination of road standards, analysis of logging road networks, transfer and sort yard facility location. Simultaneous resource scheduling and transportation planning.
Recommended: FE 102 and (FE 440 or FE 540)

FE 555, FOREST SUPPLY CHAIN MGMT, 3 Credits
Develop and implement operational planning and logistics scheduling systems to manage a forestry supply chain for typical forest organizations in the Pacific Northwest. Once developed, these supply chain plans will be implemented using simulation software that will allow students to view the results of their forest operations plans.
Recommended: (CS 151 or FE 102) and FE 357 and FOR 457

FE 557, TECHNIQUES FOR FOREST RESOURCE ANALYSIS, 4 Credits
Use of linear programming, nonlinear programming, dynamic programming, and simulation to solve complex forest management problems, with emphasis on intertemporal multiple-use scheduling. Forestry transportation problems, multiple-use allocation, and investment analysis. Field trips required. CROSSLISTED as FE 457/FOR 457 and FE 557/FOR 557.
Equivalent to: FOR 557
Recommended: FOR 329 and FOR 441 and FOR 443

FE 560, FOREST OPERATIONS REGULATIONS AND POLICY ISSUES, 3 Credits
Reviews regulations and other policies that affect timber harvesting and other forest practices, particularly policies that address concerns of environment, safety, employment and transportation. Discusses how such rules and other policies evolve, including the role of public perceptions, forestry professionals and other key policy players.

FE 570, LOGGING MECHANICS, 4 Credits
Relationship of torque, power, and thrust to the operation of cable and ground-based harvesting systems. On-highway and off-highway heavy truck performance.
Recommended: ENGR 211 and ENGR 213 and FE 371

FE 571, HARVESTING MANAGEMENT, 3 Credits
Verification of harvesting assessment plans and operational planning/field layout. Practical logging skills related to harvest planning, operations monitoring, and designing worker training programs.
Recommended: FE 371 and FE 470

FE 579, SLOPE AND EMBANKMENT DESIGN, 3 Credits
A comprehensive overview of evaluating stability and performance for natural and engineered slopes. Design aspects include construction of road embankments, slope remediation techniques and application of geosynthetics for slope stabilization, slope and wall construction, and drainage. CROSSLISTED as CE 479/FE 479 and CE 579/FE 579.
Equivalent to: CE 579
Recommended: CE 373 or FE 316

FE 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

FE 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

FE 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

FE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
FE 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

FE 607, SEMINAR, 1-16 Credits
Subject matter is required by graduate programs.
This course is repeatable for 16 credits.

FE 640, SPECIAL TOPICS IN FOREST ENGINEERING, 1-3 Credits
Recent advances in logging engineering, forest engineering, and forest operations. Content will vary with instructor. May be retaken for credit. This course is repeatable for 99 credits.

Forestry (FOR)

FOR 111, INTRODUCTION TO FORESTRY, 3 Credits
Forest resources in the world; forests and human well-being; where and how forests grow; environmental and human values; products, characteristics, and uses; basic elements of use, planning and management. Interpretation of forestry literature; professional origins in the U.S. Field trips required.
Equivalent to: F 111
Available via Ecampus

FOR 112, COMPUTING APPLICATIONS IN FORESTRY, 3 Credits
An overview of computing applications used in all aspects of forestry work, but largely focused on development of intermediate and advanced spreadsheet skills using Microsoft Excel (e.g., complex formulas and functions, charting, and pivot tables). Additionally, the course rounds out essential skills in document formatting and presentation development.

FOR 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

FOR 206, *FOREST SOILS LABORATORY FOR SOIL 205, 1 Credit
Laboratory exercise and field trips designed to develop student competency in soil processes, description, analysis, and assessment with a particular emphasis on the role of soils in managed and unmanaged forest ecosystems. (Bacc Core Course if taken with SOIL 205)
Attributes: CPBS – Core, Pers, Biological Science; CPPS – Core, Pers, Physical Science
Corequisites: SOIL 205

FOR 208, FOREST SOILS RECITATION, 1 Credit
Readings, exercises, discussions designed to develop student competency in forest soil processes, description, analysis, and assessment. A particular emphasis will be placed on the role of soils in managed and unmanaged forest ecosystems.
Recommended: An introductory soils course.
Available via Ecampus

FOR 307, JUNIOR SEMINAR, 1 Credit
College is the time to develop the skills necessary for the transition between academics and career. In conjunction with the expertise already available on campus, this course will guide students through career planning, exploration, placement, and employer expectations. CROSSLISTED as FE 307/FOR 307.
Equivalent to: FE 307

FOR 312, FORESTRY FIELD SCHOOL, 2 Credits
A hands-on experience in the major aspects of forestry, including regeneration surveys, silviculture, cruising, recreation, forest disturbances, logging site and mill visits, east and west of the Cascades Range. CROSSLISTED as FE 312/FOR 312.
Equivalent to: FE 312

FOR 321, FOREST MENSURATION, 5 Credits
Encompasses methods used to measure tree, stand and forest-level attributes, and sample and analyze forest resources data. Provides information that support forest management decisions at the stand and forest levels. Focuses mainly on quantitative analysis of forest vegetation. Uses considerable time and effort on measuring other forest resources (e.g., wildlife habitat and riparian zones).
Prerequisite: (FOR 141 with C or better or FES 141 with C or better or FOR 241 with C or better or FES 241 with C or better) and FE 208 [C] and (MTH 241 [C] or MTH 245 [C] or MTH 251 [C] or MTH 251H [C]) and (ST 201 [C] or ST 314 [C] or ST 314H [C] or ST 351 [C] or ST 351H [C])
Equivalent to: F 321

FOR 322, FOREST MODELS, 3 Credits
Introduction to static and dynamic forest models: defining what they are, how they might be used, and, in general terms, how they are developed.
Prerequisite: FOR 321 with C- or better and MTH 241 [D-] and (ST 201 [D-] or ST 351 [D-])
Equivalent to: F 322

FOR 329, FOREST RESOURCE ECONOMICS I, 4 Credits
Forest products markets, appraisal, rotation, thinning, uneven-aged management and forest regulation. Economics of timber management and harvest scheduling.
Prerequisite: ST 201 with D- or better and ST 351 with D- or better
Equivalent to: FOR 331

FOR 330, FOREST RESOURCE ECONOMICS II, 4 Credits
Basic arithmetic of interest and capital budgeting. Basic wood products markets. Forest resource markets and market failures. Nonmarket valuation and multiple-use forestry. Impacts of forest management and policy decisions on forest resource use. Lec/lab.
Prerequisite: (AEC 250 with C or better or (ECON 201 with C or better or ECON 201H with C or better)) and (MTH 241 [C] or MTH 245 [C] or (MTH 251 [C] or MTH 251H [C]))
Equivalent to: FOR 430
FOR 346, TOPICS IN WILDLAND FIRE, 3 Credits
An interdisciplinary survey of concepts relating to fire science, ecology, management, and policy. Includes case studies of several representative ecosystems, ranging from west- and eastside forests of the Pacific Northwest to shrub steppe ecosystems of the Intermountain West and chaparral ecosystems of southern California. Distance and campus-based delivery using videos, website, and discussion.
Equivalent to: FW 346, RNG 346
Recommended: Coursework in forest biology or ecology (eg. FOR 240 or FES 240 or FES 341)
Available via Ecampus

FOR 399, SPECIAL TOPICS, 0-16 Credits
Equivalent to: FOR 399H
This course is repeatable for 16 credits.

FOR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: FOR 399
This course is repeatable for 16 credits.

FOR 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: F 401
This course is repeatable for 16 credits.

FOR 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

FOR 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: F 405, FRR 405
This course is repeatable for 16 credits.

FOR 406, PROJECTS, 1-16 Credits
Section 4: Integrated Projects, Graded.
Equivalent to: F 406, FRR 406
This course is repeatable for 16 credits.

FOR 407, SEMINAR, 1-16 Credits
Equivalent to: F 407, FRR 407
This course is repeatable for 16 credits.

FOR 408, WORKSHOP, 1-3 Credits
Equivalent to: FRR 408
This course is repeatable for 16 credits.

FOR 410, INTERNSHIP, 1-16 Credits
Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of university and agency personnel. Graded P/N.
Equivalent to: FRR 410
This course is repeatable for 16 credits.

FOR 413, FOREST PATHOLOGY, 3 Credits
Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSLISTED as BOT 413/FOR 413.
Prerequisite: BI 204 with C or better or BI 212 with C or better or BI 212H with C or better or BI 213 with C or better or BI 213H with C or better or BI 221 with C or better or BI 221H with C or better
Equivalent to: BOT 413

FOR 417, ADVANCED FOREST SOILS, 4 Credits
Synthesize current information on fundamental properties and processes of forest soils with emphasis on applications to silviculture, soil conservation, and sustainable management of forested ecosystems. Lec/lab.
Prerequisite: SOIL 205 with C- or better and ((CH 231 with C- or better or CH 231H with C- or better) and (CH 261 [C-] or CH 261H [C-]) or CH 201 [C-]) and (MTH 241 [C-] or MTH 251 [C-] or MTH 251H [C-] or MTH 252 [C-] or MTH 252H [C-])
Equivalent to: FOR 417X

FOR 431, ECONOMICS AND POLICY OF FOREST WILDLAND FIRE, 3 Credits
General overview of the history of fire and the interaction of people with fire on forested landscapes. Forest fire policy history and current issues in the U.S. Basic legal concepts relevant to forest fire policy. An economic framework for understanding spatial externalities, decision-making under uncertainty, institutional economics, and incentives.
Prerequisite: AEC 351 with C or better or AEC 352 with C or better or FOR 330 with C or better or ECON 352 with C or better
Available via Ecampus

FOR 436, WILDLAND FIRE SCIENCE AND MANAGEMENT, 4 Credits
Principles and applications of fire as a natural resource management tool; the role of fire in conservation management, restoration, and preservation of ecosystems. Covers basic techniques and current research used to describe fire behavior and spread, fuels and fuel manipulation, and fire effects on the biota. Focus will be on fire as a natural process in ecosystem dynamics. Lec/lab.
Equivalent to: FW 436, RNG 436
Available via Ecampus

FOR 441, SILVICULTURE PRINCIPLES, 4 Credits
Nursery operation, vegetation management, herbivores, fire, seeding and planting techniques. Introduction to principles and techniques involving vegetation control, thinning, fertilizing, and harvesting. Environmental considerations related to forest stand treatments. Lec/lab.
Prerequisite: (FES 240 with C or better or FOR 240 with C or better) and (FES 141 [C] or FES 241 [C])
FOR 442, SILVICULTURE REFORESTATION, 4 Credits
Silvicultural principles and practices needed to successfully regenerate forestlands in North America. Topics include artificial and natural regeneration, genetic improvement, seed orchards, forest tree nurseries, site preparation, seedling quality and handling, vegetation management, animal damage protection, early stand management, and ecological and ecophysiological considerations. Emphasis is placed on regeneration methods applied to plantations in western Oregon. Field trips required. **Prerequisite:** SOIL 205 with C or better and (FES 240 [C] or FES 240H [C] or FOR 240 [C])  
**Corequisites:** FOR 443

FOR 443, SILVICULTURAL PRACTICES, 4 Credits  
Manipulation of forest stand structure and dynamics to meet various resource management objectives. Covers key concepts and practices associated with vegetation control, thinning, fertilization, even-aged and uneven-aged regeneration systems including social and environmental considerations associated with treatments. Two-day field trip required. **Lec/lab.**  
**Prerequisite:** (FES 240 with C or better or FES 240H with C or better or FOR 240 with C or better) and FOR 321 [C]  
**Corequisites:** FOR 442

FOR 456, *INTERNATIONAL FORESTRY, 3 Credits  
An introduction to the biological, physical, and sociological factors that shape the world's forests and the activities used to manage those forests. What influence these factors have on forest policies, practices, and outcomes. CROSSLISTED as FE 456/FOR 456. (Bacc Core Course)  
**Attributes:** CSSI – Core, Synth, Global Issues  
**Equivalent to:** FE 456

**Recommended:** Introductory course in biology.

FOR 457, TECHNIQUES FOR FOREST RESOURCE ANALYSIS, 4 Credits  
Use of linear programming, nonlinear programming, dynamic programming, and simulation to solve complex forest management problems, with emphasis on intertemporal multiple-use scheduling. Forestry transportation problems, multiple-use allocation, and investment analysis. Field trips required. CROSSLISTED as FE 457/FOR 457 and FE 557/FOR 557.  
**Prerequisite:** FOR 329 with C or better and FOR 441 [C] and FOR 443 [C]  
**Equivalent to:** FE 457

FOR 459, FOREST MANAGEMENT PLANNING AND DESIGN I, 4 Credits  
Integration of environmental, economic, and social aspects of forestry in management planning. Development of strategic and tactical plans using diverse data types and sources. Senior capstone class projects. **Lec/lab.** CROSSLISTED as FE 459/FOR 459.  
**Prerequisite:** FE 457 with C or better or FOR 457 with C or better  
**Equivalent to:** FE 459

FOR 460, FOREST POLICY, 4 Credits  
Policy formulation and analysis for forest resources. Consideration of policy affecting land management approaches to planning, management, and social and economic development. Major forestry policy areas covered include outdoor recreation, range, timber, wilderness, and wildlife and fish. **Lec/lab.** (Writing Intensive Course)  
**Attributes:** CWIC – Core, Skills, WIC

FOR 462, NATURAL RESOURCE POLICY AND LAW, 3 Credits  
First of two offerings designed to provide an introduction to current environmental and natural resource law issues and disputes for students who will have to meet, consult, and work with lawyers throughout their professional career. Focus is on mechanisms governing resource allocation within the constraints of private property rights. Emphasis is placed on the federal Endangered Species Act and its relation to water allocation and public trust doctrines. Students will also gain a broad understanding of regulatory

FOR 469, FOREST MANAGEMENT PLANNING AND DESIGN II, 4 Credits  
A team-based, project-centric course for integrated timber harvest planning. Establish tactical and operational planning goals and constraints, identify feasible harvesting and transportation systems, and design harvest units to meet objectives and constraints. **Lec/lab.** CROSSLISTED as FE 469/FOR 469.  
**Prerequisite:** FE 459 with C or better or FOR 459 with C or better  
**Equivalent to:** FE 469

FOR 499, SPECIAL TOPICS, 0-16 Credits  
Topics of current importance in forest resources issues, education, policies, economics, management, business, social values, silviculture, and biometrics. Topics will change from term to term. May be repeated with different topics for credit. Section 8: Social aspects of natural resource management (3 credits) graded.  
**This course is repeatable for 16 credits.**

Available via Ecampus

FOR 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits  
**Equivalent to:** F 501

**This course is repeatable for 16 credits.**

FOR 503, THESIS, 1-16 Credits  
**Equivalent to:** F 503

**This course is repeatable for 999 credits.**

FOR 505, READING AND CONFERENCE, 1-16 Credits  
**Equivalent to:** F 505, FRR 505

**This course is repeatable for 16 credits.**

FOR 506, PROJECTS, 1-16 Credits  
**Equivalent to:** F 506

**This course is repeatable for 16 credits.**

FOR 507, SEMINAR, 1-16 Credits  
**Equivalent to:** F 507, FRR 507

**This course is repeatable for 16 credits.**
FOR 508, WORKSHOP, 1-3 Credits
This course is repeatable for 16 credits.

FOR 510, INTERNSHIP, 1-9 Credits
This course is repeatable for 16 credits.

FOR 513, FOREST PATHOLOGY, 3 Credits
Effects of diseases on forest ecosystems. Recognition of important groups, prediction of pathogen responses to environmental changes, and management strategies for protection of forest resources. Field trips. Lec/lab. CROSSLISTED as BOT 513/FOR 513.
Equivalent to: BOT 513
Recommended: BI 204 or BI 212 or BI 212H or BI 213 or BI 213H

FOR 517, ADVANCED FOREST SOILS, 4 Credits
Synthesize current information on fundamental properties and processes of forest soils with emphasis on applications to silviculture, soil conservation, and sustainable management of forested ecosystems. Lec/lab.
Recommended: SOIL 205 and ((CH 231 or CH 231H) and (CH 261 or CH 261H)) or CH 201) and (MTH 241 or MTH 251 or MTH 251H or MTH 252 or MTH 252H) all with a minimum grade of C-

FOR 518, MANAGING FOREST NUTRITION, 3 Credits
Synthesize current information on nutrient limitations of forest productivity, long-term forest productivity, and mitigating and managing forest nutrition with emphasis on forests of the Pacific Northwest.

FOR 520, GEOSPATIAL FOREST ANALYSIS, 3 Credits
Prerequisite: FE 444 with C or better or GEOG 480 with C or better

FOR 524, FOREST BIOMETRICS, 3 Credits
Advanced topics in forest biometrics, including measurement of forest structure and dynamics, application of sampling theory and methods, and statistical techniques for interpreting forestry data.
Equivalent to: F 524
Recommended: FOR 322 and ST 511

FOR 525, FOREST MODELING, 3 Credits
Examination of regression techniques and assumptions used to develop static and dynamic equations of tree and stand attributes.
Prerequisite: ST 552 with C or better
Equivalent to: F 525

FOR 528, PROFESSIONAL COMMUNICATION AND ETHICS, 2 Credits
Conventions of written and oral communication in forestry and related disciplines including basic narrative development. Exploration of environmental, professional, and research ethics, and the role they play in effective communication with multiple stakeholders.

FOR 531, ECONOMICS AND POLICY OF FOREST WILDLAND FIRE, 3 Credits
General overview of the history of fire and the interaction of people with fire on forested landscapes. Forest fire policy history and current issues in the U.S. Basic legal concepts relevant to forest fire policy. An economic framework for understanding spatial externalities, decision-making under uncertainty, institutional economics, and incentives.
Recommended: FOR 330 or AEC 351 or AEC 352 or ECON 352
Available via Ecampus

FOR 534, ECONOMICS OF THE FOREST RESOURCE, 3 Credits
Topics include optimal stand and forest management for timber production, economics of ecosystem services (e.g. recreation, biodiversity, carbon sequestration, water quality and regulation), non-market valuation methods, management under risk and uncertainty, discounting, intergenerational equity, sustainability, international trade and other global issues.
Recommended: FOR 330 and FOR 331

FOR 536, WILDLAND FIRE SCIENCE AND MANAGEMENT, 4 Credits
Principles and applications of fire as a natural resource management tool; the role of fire in conservation management, restoration, and preservation of ecosystems. Covers basic techniques and current research used to describe fire behavior and spread, fuels and fuel manipulation, and fire effects on the biota. Focus will be on fire as a natural process in ecosystem dynamics. Lec/lab.
Equivalent to: FW 536, RNG 536

FOR 542, INTERNATIONAL INTENSIVE SILVICULTURE, 2 Credits
Operational and ecological aspects of intensive silvicultural management of planted forests around the world. Guest speakers in different countries will describe the type of silvicultural management that is carried out in the speaker’s country from species and genetic selection, to harvest and rotation length, including site preparation and planting techniques. Emphasis on comparing silvicultural practices in each country to the management of plantations in western Oregon.

FOR 543, SILVICULTURAL PRACTICES, 5 Credits
Manipulation of immature and mature forest stands for various resource management objectives. Principles and techniques involving vegetation control, thinning, fertilizing, and harvesting. Environmental considerations related to stand treatments. Two-day field trips required.
Recommended: (FOR 240 or FES 240) and FOR 321 and concurrent enrollment in FOR 429

FOR 549, SILVICULTURAL INFLUENCES ON FOREST ECOSYSTEM DYNAMICS, 3 Credits
Fundamental biological and ecological principles for the design and implementation of silvicultural regimes that achieve a wide diversity of forest ecosystem management objectives.
Recommended: Undergraduate course in silviculture and in forest mensuration.
FOR 550, SUSTAINABLE FOREST MANAGEMENT, 3 Credits
Sustainable forestry as part of the global sustainability movement. History of sustainability and its influence on decision-making in forest management. Current dimensions of sustainability: forest certification, climate change, role of environmental ethics, biodiversity conservation, maintenance of long-term site productivity, conservation of soil and water resources, roles of social institutions, and links to concerns for social justice.

FOR 557, TECHNIQUES FOR FOREST RESOURCE ANALYSIS, 4 Credits
Use of linear programming, nonlinear programming, dynamic programming, and simulation to solve complex forest management problems, with emphasis on intertemporal multiple-use scheduling. Forestry transportation problems, multiple-use allocation, and investment analysis. Field trips required. CROSSLISTED as FE 457/FOR 457 and FE 557/FOR 557.
Equivalent to: FE 557
Recommended: FOR 329 and FOR 441 and FOR 443

FOR 561, FOREST POLICY ANALYSIS, 3 Credits
Basic elements of forest policy problems, including resource allocation and efficiency, distribution, and interpersonal equity, taxation, regulation, and control, and planning and uncertainty. Emphasis on policy and analysis and its uses in policy decision.

FOR 562, NATURAL RESOURCE POLICY AND LAW, 3 Credits
First of two offerings designed to provide an introduction to current environmental and natural resource law issues and disputes for students who will have to meet, consult, and work with lawyers throughout their professional career. Focus is on mechanisms governing resource allocation within the constraints of private property rights. Emphasis is placed on the federal Endangered Species Act and its relation to water allocation and public trust doctrines. Students will also gain a broad understanding of regulatory

FOR 563, ENVIRONMENTAL POLICY AND LAW INTERACTIONS, 3 Credits
Second of two offerings designed to provide an introduction to current environmental and natural resource law issues and disputes for students who will have to meet, consult, and work with lawyers throughout their professional career. Focus is on the arena of regulatory environmental laws. Environmental torts, regulation of point and non-point source pollution under the federal Clean Water Act, wetlands protection, and laws governing agricultural and forest practices will be examined as examples of regulatory frameworks for achieving resource protection. Students will be exposed to the basic framework of federal laws regulating air and hazardous waste pollutants.

FOR 599, SPECIAL TOPICS, 1-16 Credits
Topics of current importance in forest resources issues, education, policies, economics, management, business, social values, silviculture, and biometrics. Topics will change from term to term. May be repeated with different topics for credit. Section 8: Social aspects of natural resource management (3 credits) graded.
This course is repeatable for 16 credits.
Available via Ecampus

FOR 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: F 601
This course is repeatable for 16 credits.

FOR 603, THESIS, 1-16 Credits
Equivalent to: F 603
This course is repeatable for 999 credits.

FOR 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: F 605
This course is repeatable for 16 credits.

FOR 606, PROJECTS, 1-16 Credits
Equivalent to: F 606
This course is repeatable for 16 credits.

FOR 607, SEMINAR, 1-16 Credits
Equivalent to: F 607
This course is repeatable for 16 credits.

FOR 699, SPECIAL TOPICS, 1-16 Credits
Topics of current importance in forest resources issues, education, policies, economics, management, business, social values, silviculture, and biometrics. Topics will change from term to term. May be repeated with different topics for credit.
This course is repeatable for 16 credits.

FOR 808, WORKSHOP, 1-9 Credits
This course is repeatable for 16 credits.

French (FR)

FR 111, FIRST-YEAR FRENCH, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with no prior training in French. Native and/or bilingual speakers of French will not receive credit for FR 111, FR 112, FR 113. Lec/rec.
Available via Ecampus

FR 112, FIRST-YEAR FRENCH, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with no prior training in French. Native and/or bilingual speakers of French will not receive credit for FR 111, FR 112, FR 113. Lec/rec.
Prerequisite: FR 111 with D- or better or placement test
Available via Ecampus
FR 113, FIRST-YEAR FRENCH, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with no prior training in French. Native and/or bilingual speakers of French will not receive credit for FR 111, FR 112, FR 113. Lec/rec.
Prerequisite: FR 112 with D- or better or placement test
Available via Ecampus

FR 121, SURVIVAL FRENCH FOR STUDENTS AND TRAVELERS, 3 Credits
Provides practical linguistic tools for short stays in France. Basic conversation skills, pronunciation, introduction to French non-verbal language, as well as cultural tools, introduction to French etiquette, visual dictionary, and tips for avoiding cross-cultural misunderstandings common between Americans and the French.

FR 199, SPECIAL STUDIES, 1-16 Credits
Conversation, pronunciation, vocabulary-building, etc. Supplements basic sequence FR 111, FR 112, FR 113. May be repeated for credit when topic varies.
This course is repeatable for 16 credits.

FR 211, SECOND-YEAR FRENCH, 4 Credits
Continued development of basic language skills, pronunciation, and vocabulary acquisition; introduction to extensive reading. Native and/or bilingual speakers of French will not receive credit for FR 211, FR 212, FR 213. Lec/rec.
Prerequisite: FR 113 with D- or better or placement test
Available via Ecampus

FR 212, SECOND-YEAR FRENCH, 4 Credits
Continued development of basic language skills, pronunciation, and vocabulary acquisition; introduction to extensive reading. Native and/or bilingual speakers of French will not receive credit for FR 211, FR 212, FR 213. Lec/rec.
Prerequisite: FR 211 with D- or better or placement test
Available via Ecampus

FR 213, SECOND-YEAR FRENCH, 4 Credits
Continued development of basic language skills, pronunciation, and vocabulary acquisition; introduction to extensive reading. Completion of FR 213 with a grade of C- or better satisfies BA requirement in foreign languages. Native and/or bilingual speakers of French will not receive credit for FR 211, FR 212, FR 213. Lec/rec.
Prerequisite: FR 212 with D- or better or placement test
Available via Ecampus

FR 288, FRENCH STUDIES, FRENCH STUDY CENTERS, 1-12 Credits
May be repeated for credit when topic varies. Section 1: Topics, French language. Section 2: Practical work (exercises). Section 3: Topics, French arts and letters. Section 4: Topics, France and French society.
This course is repeatable for 12 credits.

FR 299, SPECIAL STUDIES, 1-16 Credits
Conversation, pronunciation, vocabulary-building, etc. Supplements basic sequence FR 211, FR 212, FR 213. May not be offered every year. May be repeated for credit when topic varies.
This course is repeatable for 16 credits.

FR 300, ADVANCED FRENCH CONVERSATION, 3 Credits
Focuses on oral communication through extensive listening and speaking practice in French. Students will interact with francophone cultures and the French language through personal research and presentations, exchanges with native and non-native francophone speakers, as well as through diverse authentic documents. Time will be dedicated to a targeted practice of French pronunciation, topical vocabulary and idiomatic expressions. Some reading and writing will also be required to develop oral skills. Native speakers of French are not eligible to take this course.
Prerequisite: FR 311 with C- or better

FR 311, THIRD-YEAR FRENCH, 3 Credits
A language-use course; primary emphasis on developing oral and written proficiency; extensive practice in speaking and writing. Grammar review; vocabulary study; written assignments including original compositions. Conducted in French.
Prerequisite: FR 213 with C- or better or placement test
Available via Ecampus

FR 312, THIRD-YEAR FRENCH, 3 Credits
A language-use course; primary emphasis on developing oral and written proficiency; extensive practice in speaking and writing. Grammar review; vocabulary study; written assignments including original compositions. Conducted in French.
Prerequisite: FR 311 with C- or better or placement test
Available via Ecampus

FR 313, THIRD-YEAR FRENCH, 3 Credits
A language-use course; primary emphasis on developing oral and written proficiency; extensive practice in speaking and writing. Grammar review; vocabulary study; written assignments including original compositions. Conducted in French.
Prerequisite: FR 312 with C- or better or placement test
Available via Ecampus

FR 315, FRENCH FOR BUSINESS, 3 Credits
Recommended: FR 213
Available via Ecampus

FR 319, SELECTED TOPICS IN FRENCH LANGUAGE, 3 Credits
Skill-orientation variable. Conducted in French. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Available via Ecampus
FR 321, FRENCH CONVERSATION FOR ADVANCED SPEAKERS I, 1 Credit
Designed for students who would like to continue developing basic listening and speaking skills in French through independent work with a variety of media. Graded P/N.
Prerequisite: FR 213 with D- or better
Available via Ecampus

FR 322, FRENCH CONVERSATION FOR ADVANCED SPEAKERS II, 1 Credit
Designed for students who would like to continue developing basic listening and speaking skills in French through independent work with a variety of media.
Prerequisite: FR 213 with D- or better
Available via Ecampus

FR 323, FRENCH CONVERSATION FOR ADVANCED SPEAKERS III, 1 Credit
Designed for students who would like to continue developing basic listening and speaking skills in French through independent work with a variety of media.
Prerequisite: FR 213 with D- or better
Available via Ecampus

FR 333, *FRENCH CULTURE AND SOCIETY SINCE THE REVOLUTION, 3 Credits
Cultural life of the French people from 1789 to the present. Conducted in French. Need not be taken in order. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 6 credits of 300-level French
Available via Ecampus

FR 339, FRENCH: FRANCOPHONE STUDIES, 3 Credits
May be repeated for credit when topic varies. Not offered every year.
Equivalent to: FR 339H
This course is repeatable for 9 credits.
Available via Ecampus

FR 340, INTRODUCTION TO FRENCH LITERARY STUDIES, 3 Credits
Concepts and vocabulary fundamental to the study of French literature; general view of the main currents of French literary history; introduction to French versification; techniques of literary analysis; practice in literary analysis and in writing about literature; explication de texte. Conducted in French. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: FR 213
Available via Ecampus

FR 343, THE SHORT STORY: WOMEN IN THE FRANCOPHONE WORLD, 3 Credits
A selection of short stories written by francophone women representing various regions of the French-speaking world. These stories revolve around contemporary issues affecting and of interest particularly to women in these francophone societies. Among major themes will be immigration, conditions of women, quest for identity, tradition versus modernity, and other related topics.
Prerequisite: FR 311 with C or better

FR 349, SELECTED TOPICS IN FRANCOPHONE LITERATURE, 3 Credits
Literary works, themes, movements, or authors from French-speaking areas of the world. Conducted in French. May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 9 credits.

FR 379, PROCTOR EXPERIENCE, 1-2 Credits
Supervised practicum for advanced students. Assignments as proctors or tutors in lower-division French courses. No more than 2 credits may be used to satisfy degree requirements for a major in French; may not be used to satisfy requirements for a minor in French. Graded P/N.
This course is repeatable for 6 credits.
Recommended: Completion of 12 upper-division credits in French, including FR 311, FR 312, FR 313 and FR 351, with a minimum 3.0 GPA

FR 388, FRENCH STUDIES, FRENCH STUDY CENTERS, 1-12 Credits
May be repeated when topic varies. Section 1: Topics, French language. Section 2: Practical work (exercises). Section 3: Topics, French arts and letters. Section 4: Topics, France and French society.
This course is repeatable for 12 credits.

FR 399, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

FR 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FR 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

FR 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

FR 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

FR 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

FR 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.
FR 411, FOURTH-YEAR FRENCH, 3 Credits
A language-use course; primary emphasis on developing oral and written proficiency; extensive practice in speaking and writing. Grammar review; vocabulary study; analysis of writing styles and techniques; oral reports and original presentations in French; original compositions. Conducted in French.
Prerequisite: FR 313 with D- or better
Available via Ecampus

FR 421, FRENCH CONVERSATION FOR ADVANCED SPEAKERS IV, 1 Credit
Designed for students who would like to continue developing listening and speaking skills in French through independent work with a variety of media. Graded P/N.
Prerequisite: FR 313 with D- or better

FR 422, FRENCH CONVERSATIONS FOR ADVANCED SPEAKERS V, 1 Credit
Designed for students who would like to continue developing listening and speaking skills in French through independent work with a variety of media. Graded P/N.
Prerequisite: FR 313 with D- or better

FR 423, FRENCH CONVERSATION FOR ADVANCED SPEAKERS VI, 1 Credit
Designed for students who would like to continue developing listening and speaking skills in French through independent work with a variety of media.
Prerequisite: FR 313 with D- or better

FR 439, ^FRENCH/FRANCOPHONE STUDIES, 3 Credits
Variable topics in language, culture, or literature. May be repeated for credit when topic varies. Conducted in French. Not offered every year. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 9 credits.
Available via Ecampus

FR 449, SELECTED TOPICS IN FRANCOPHONE LITERATURE, 3 Credits
Conducted in French. May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 9 credits.

FR 488, FRENCH STUDIES, FRENCH STUDY CENTERS, 1-12 Credits
May be repeated for credit when topic varies. Section 1: Topics, French language. Section 2: Practical work (exercises). Section 3: Topics, French arts and letters. Section 4: Topics, France and French society. This course is repeatable for 12 credits.

FR 499, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year. Equivalent to: FR 499H
This course is repeatable for 9 credits.

FR 499H, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. See Schedule of Classes for current offerings and prerequisites. Not offered every year.
Attributes: HNRS – Honors Course Designator
Equivalent to: FR 499
This course is repeatable for 9 credits.

FR 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

FR 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

FR 503, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

FR 505, READING AND CONFERENCE., 1-16 Credits
This course is repeatable for 16 credits.

FR 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

FR 511, FOURTH-YEAR FRENCH, 3 Credits
A language-use course; primary emphasis on developing oral and written proficiency; extensive practice in speaking and writing. Grammar review; vocabulary study; analysis of writing styles and techniques; oral reports and original presentations in French; original compositions. Conducted in French.
Recommended: FR 313

FR 539, FRENCH/FRANCOPHONE STUDIES, 3 Credits
Variable topics in language, culture, or literature. May be repeated for credit when topic varies. Conducted in French. See Schedule of Classes for current topics and prerequisites. Not offered every year.
This course is repeatable for 12 credits.

FR 588, FRENCH STUDIES, FRENCH STUDY CENTERS, 1-12 Credits
May be repeated for credit when topic varies. Section 1: Topics, French language. Section 2: Practical work (exercises). Section 3: Topics, French arts and letters. Section 4: Topics, France and French society. This course is repeatable for 12 credits.

General Science (GS)

GS 199, SPECIAL STUDIES, 1-16 Credits
Equivalent to: BHS 199
This course is repeatable for 16 credits.

GS 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

GS 401, RESEARCH, 1-16 Credits
Equivalent to: BHS 401
This course is repeatable for 16 credits.
### Geography (GEOG)

#### GEOG 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

#### GEOG 004, INTERNSHIP, 0 Credits
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students’ understanding of the connection between theory and practice in their respective disciplines.

#### GEOG 100, *CLIMATE JUSTICE, 3 Credits
Unequal distribution of social, economic and political power that creates winners and losers from climate change. Case studies of climate-change-related environmental degradation, conflict, conservation, climate denial, renewable energy, and investment. Concepts and actions to promote climate justice. Lec/rec. (Bacc Core Course)

**Attributes:** CPDP – Core, Perspective, Difference/Power/Discrimination

#### GEOG 102, *PHYSICAL GEOGRAPHY, 4 Credits
Processes that shape the earth’s surface. Weathering, mass movement, landforms, river systems, groundwater, biogeography, human effects on the landscape. Use of maps and imagery. (Bacc Core Course)

**Attributes:** CPPS – Core, Pers, Physical Science

#### GEOG 103, *THE HUMAN PLANET, 3 Credits
Introduces the study of human activities, patterns, processes and institutions–globally and in specific places. Examines human behaviors and relationships, among cultures and with the environment. Demonstrates the importance of places, networks and patterns in a range of human and environmental processes. (Bacc Core Course)

**Attributes:** CPDC – Core, Pers, Cult Diversity

#### GEOG 105, *GEOGRAPHY OF THE NON-WESTERN WORLD, 3 Credits
An introduction to the rich variety of environments, population and settlement dynamics, cultures, geopolitical changes, and economies in Africa, the Middle East, and Asia. Lec/lab/rec. (Bacc Core Course)

**Attributes:** CPDC – Core, Pers, Cult Diversity

#### GEOG 106, *GEOGRAPHY OF THE WESTERN WORLD, 3 Credits
An introduction to the rich variety of environments, population and settlement dynamics, cultures, geopolitical changes, and economics in Europe and Russia, Australia and Oceania, and the Americas. Lec/rec. (SS) (Bacc Core Course)

**Attributes:** CPWC – Core, Pers, West Culture; LACS – Liberal Arts Social Core

#### GEOG 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

#### GEOG 201, *FOUNDATIONS OF GEOSPATIAL SCIENCE AND GIS, 4 Credits
Basic physical science principles underlying geospatial technologies such as GPS, mobile devices, and online mapping and navigation tools used in GIS, remote sensing, and geovisualization. Concepts and applications in government, business, and the environment. (Bacc Core Course)

**Attributes:** CPPS – Core, Pers, Physical Science

#### GEOG 203, *HUMAN-ENVIRONMENT GEOGRAPHY, 3 Credits
How human societies manage resources, physical limits to sustainability, role of science in the use and management of resources, and how societal resource use adversely affects other societies, in human history and across spatial scales. Lec/rec. (Bacc Core Course)

**Attributes:** CPDP – Core, Perspective, Difference/Power/Discrimination

#### GEOG 301, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.
GEOG 240, *HUMAN DIMENSIONS OF CLIMATE CHANGE, 3 Credits
Examine theories regarding human institutions and behavior. Apply these theories to understand how human behavior and institutions can change to: (1) reduce vulnerability to climate change impacts through adaptation and (2) reduce greenhouse gas emissions through climate change mitigation and societal transformation at multiple scales. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

GEOG 241, *TRANSFORMING ENVIRONMENTAL CONFLICTS, 3 Credits
Explores the geography of environmental conflicts; an examination of how social processes and institutions influence access and use of natural resources; and the social constructs from which difference, power, and discrimination emerge. Examines the experiences of women, minority, and under-represented communities to contemplate more integrated, equitable and sustainable approaches to resources management, in the United States and beyond. Personal skills in transforming conflicts, as well as the concepts of distributive, procedural, and restorative justice, will be explored. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

GEOG 250, *LAND USE PLANNING FOR SUSTAINABLE COMMUNITIES, 3 Credits
Overview of the history and current practices of land use and community planning. Use basic geospatial tools to assess land use patterns and planning processes. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

GEOG 251, *GEOGRAPHY OF DISASTER MANAGEMENT, 3 Credits
Introduction to the geographic concepts and processes for effective disaster management, including response, recovery, mitigation and preparedness. Risk assessment and evidence-based best practices to prepare and respond to emergencies in a variety of geographic contexts. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: GEO 205

GEOG 295, GEOGRAPHIC FIELD RESEARCH, 3 Credits
Introduction to field research in geography. Practice skills including observation, posing of questions, and collection and analysis of data. Focus on theory-based geographic study design, proposal development, and research critiques.
Recommended: GEOG 102 or GEOG 103 or GEOG 201 or GEOG 203
Available via Ecampus

GEOG 299, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.
**GEOG 324, *ECOLOGICAL BIOGEOGRAPHY, 4 Credits**

Spatial distributions and change over time of species, communities, and biomes. Effect of climate, tectonics, disturbance on evolution, extinction, and succession. Implications for conservation. (Writing Intensive Course)

*Attributes: CWIC – Core, Skills, WIC*

*Prerequisite: GEOG 102 with D- or better or (BI 370 with C- or better or BI 370H with C- or better)*

*Equivalent to: GEO 324*

---

**GEOG 330, *GEOGRAPHY OF INTERNATIONAL DEVELOPMENT AND GLOBALIZATION, 3 Credits**

Introduction to the geography of global wealth and inequality with a focus on contemporary development, underdevelopment, and globalization problems in Asian, African, Caribbean, Latin American, and Pacific Island countries. (Bacc Core Course)

*Attributes: CSGI – Core, Synth, Global Issues*

---

**GEOG 331, *POPULATION, CONSUMPTION, AND ENVIRONMENT, 3 Credits**

An examination of population patterns and trends, emphasizing historical growth and more recent demographic changes; using geographic tools to understand patterns of spatial distribution, to use and analyze data sources, and to gain experience interpreting and displaying data about population structure and dynamics; and developing the ability to evaluate the relationship between population, consumption, resources, and quality of life. Patterns of consumption, as individuals and societies will be examined and different future scenarios will be examined with reference to environmental, social and economic sustainability. (Bacc Core Course)

*Attributes: CSGI – Core, Synth, Global Issues*

*Equivalent to: GEO 350*

Available via Ecampus

---

**GEOG 340, *INTRODUCTION TO WATER SCIENCE AND POLICY, 3 Credits**

Policy and science of the hydrologic cycle. Emphasis on interaction between water’s natural time-space fluctuations and human uses. (Bacc Core Course)

*Attributes: CSST – Core, Synthesis, Science/Technology/Society*

*Equivalent to: CSS 335, CSS 335H, GEO 335, GEO 335H, GEOG 340H, SOIL 335*

Available via Ecampus

---

**GEOG 340H, *INTRODUCTION TO WATER SCIENCE AND POLICY, 3 Credits**

Policy and science of the hydrologic cycle. Emphasis on interaction between water’s natural time-space fluctuations and human uses. (Bacc Core Course)

*Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator*

*Equivalent to: CSS 335, CSS 335H, GEO 335, GEO 335H, GEOG 340, SOIL 335*

---

**GEOG 350, *GEOGRAPHY OF NATURAL HAZARDS, 3 Credits**

Introduction to the geography of risk, natural hazards, and disasters, focusing on concepts of vulnerability, adaptation and resilience of human society in the Pacific Northwest and globally.

*Attributes: CSGI – Core, Synth, Global Issues*

*Equivalent to: GEO 304*

Available via Ecampus

---

**GEOG 360, GISCIENCE I: GEOGRAPHIC INFORMATION SYSTEMS AND THEORY, 4 Credits**

Fundamentals of spatial data, geographic information systems (GIS), and introductory spatial analysis, programming, and modeling.

*Equivalent to: GEO 365*

Available via Ecampus

---

**GEOG 361, GISCIENCE II: ANALYSIS AND APPLICATIONS, 4 Credits**

Applications-based course. Development and conduct of geospatial analyses using various spatial data structures, techniques and models. Acquire, clean, integrate, manipulate, visualize and analyze geospatial data through laboratory work.

*Prerequisite: GEOG 360 with C- or better and (MTH 112 [C-] or MTH 241 [C-] or MTH 251 [C-]) and ST 351 [C-]*

Available via Ecampus

---

**GEOG 370, CARTOGRAPHY, 4 Credits**

Creation, evaluation, and critique of maps using cartographic theories for effective geovisual communication and geospatial thinking.

*Prerequisite: GEOG 201 with C- or better*

Available via Ecampus

---

**GEOG 371, WEB MAPPING, 4 Credits**

Concepts and techniques of web programming, digital storytelling, online project management, and web-based cartographic principles for developing, evaluating, and using web maps.

*Prerequisite: GEOG 201 with C- or better*

---

**GEOG 399, SPECIAL STUDIES, 1-16 Credits**

This course is repeatable for 16 credits.

*Equivalent to: GEOG 399H*

This course is repeatable for 16 credits.

---

**GEOG 399H, SPECIAL STUDIES, 1-16 Credits**

*Attributes: HNRS – Honors Course Designator*

*Equivalent to: GEOG 399*

This course is repeatable for 16 credits.

---

**GEOG 400, FIELD TRIPS, 1-16 Credits**

Participation in group field trips that are not a part of any other course. Transportation fee is charged. Students may prepare guides for trips. Faculty sponsor must be prearranged.

*This course is repeatable for 48 credits.*
GEOG 401, RESEARCH, 1-16 Credits
Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged. 
This course is repeatable for 24 credits.

GEOG 403, THESIS, 1-16 Credits
Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged. 
This course is repeatable for 24 credits.

GEOG 405, READING AND CONFERENCE, 1-16 Credits
Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. 
This course is repeatable for 16 credits.

GEOG 407, SEMINAR, 1-16 Credits
Graded P/N. 
This course is repeatable for 16 credits.

GEOG 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

GEOG 410, INTERNSHIP, 1-16 Credits
Pre-career professional experience under joint faculty and employer supervision. Graded P/N. 
This course is repeatable for 16 credits. 
Recommended: 12 credits of upper-division geography
Available via Ecampus

GEOG 423, SNOW HYDROLOGY, 3 Credits
Fundamentals of snow hydrology. Physical principles of snow formation, snowpack accumulation, energy balance, snowcover-climate interactions, snow metamorphism, snowpack ablation, snowmelt chemistry, remote sensing of snow, avalanches, field methods, snowmelt/ runoff modeling techniques, and watershed processes.
Equivalent to: GEO 483

GEOG 424, HYDROLOGY FOR WATER RESOURCES MANAGEMENT, 3 Credits
A quantitative introduction to surface and subsurface hydrology with a focus on decision making for the water resource professional 
Prerequisite: MTH 251 with C- or better

GEOG 430, RESILIENCE-BASED NATURAL RESOURCE MANAGEMENT, 3 Credits
Causes and consequences of conflict over natural resource management at local to global scales; principles for managing social-ecological systems for resilience. Field trip(s) may be required, transportation fee charged.
Equivalent to: GEO 420

GEOG 431, GLOBAL RESOURCES AND DEVELOPMENT, 3 Credits
Examines resource development issues and strategies in the Global South. Issues and strategies from agriculture, forestry, fisheries, energy, wildlife management, mineral development, land use, and health are examined.
Equivalent to: GEO 426

GEOG 432, *GEOGRAPHY OF FOOD AND AGRICULTURE, 3 Credits
Overview of food and agriculture in relation to production and consumption regions as a basis for distinguishing different types of food and agricultural systems. Local and global examination of the geographic aspects of breeding, location in agricultural systems, and adaptation in agro-ecosystems using field study, explorations of literature, and lecture. Field trip required, transportation fee charged. (Bacc Core Course) 
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: GEO 449

GEOG 433, CLIMATE CHANGE IMPACTS, ADAPTATION AND VULNERABILITY, 3 Credits
Climate change poses challenges for human security and well-being, and for social and economic development. Evaluate how climate change impacts vary based on vulnerability, exposure, sensitivity, adaptive capacity, and risk. 
Prerequisite: ATS 201 with C- or better or GEOG 240 with C- or better or GEOG 323 with C- or better

GEOG 440, CONFLICT, COOPERATION, AND CONTROL OF WATER IN THE US, 3 Credits
Examine why nations rise and fall based on water availability and investigate why the United States is no exception. Explore how the US develops, protects, governs and manages its water resources and how it will cope with climate change and conflict. Discover resilience and sustainability through case studies.
Available via Ecampus

GEOG 441, THE WORLD’S WATER, 3 Credits
Investigate why water is a critical resource that supports life, livelihoods, and the environment. Understand that where rivers crosses political boundaries, the sharing of water presents challenges and opportunities. Interpret how international basins are governed; Evaluate how dams and water development affect ecology and people; and apply water conflict management frameworks to emerging international water issues.
Available via Ecampus

GEOG 450, LAND USE IN THE AMERICAN WEST, 3 Credits
Development of a conceptual framework for land use study; analysis of land as a resource, land use trends, land use principles, and management issues as related to planning, focusing on the American West, the fastest growing region in the nation.
Equivalent to: GEO 423
GEOG 451, PLANNING PRINCIPLES AND PRACTICES FOR RESILIENT COMMUNITIES, 4 Credits
Applies GIS skills and techniques to determine and analyze future land uses. Determine suitable land uses that incorporate community goals, site constraints and minimize use conflicts. Regulatory and market-based implementation strategies for land uses will also be discussed.
Prerequisite: GEOG 360 with C- or better
Available via Ecampus

GEOG 452, ENVIRONMENTAL ASSESSMENT, 3 Credits
Environmental site assessment is a primary tool for environmental science professionals. Apply environmental science concepts to evaluate features of a specific natural area and conduct a land suitability analysis. Create a conceptual site design and management plan that complies with federal, state, and local regulations and environmental laws. CROSSLISTED as ENSC 452/GEOG 452 and GEOG 552.
Equivalent to: ENSC 452
Available via Ecampus

GEOG 462, GISCIENCE III: PROGRAMMING FOR GEOSPATIAL ANALYSIS, 4 Credits
Introduction to the extension of geographic information systems (GIS) through programming. No prior programming experience is expected. Teaches a pragmatic approach to design and write programs for geospatial analysis.
Prerequisite: GEOG 361 with C- or better
Available via Ecampus

GEOG 463, GISCIENCE IV: SPATIAL MODELING, 4 Credits
Introduction to spatial simulation models representing attraction, segregation, individual entities, and processes of spread, applied to contemporary problems in human and physical geography.
Prerequisite: GEOG 462 with C- or better or GEOG 562 with C- or better or GEO 578 with C- or better

GEOG 464, GEOSPATIAL PERSPECTIVES ON INTELLIGENCE, SECURITY AND ETHICS, 3 Credits
Applications and implications of geospatial science (GIS, remote sensing, and spatial analysis) in intelligence, human, environmental, and ethical domains. Concepts and practices of ethics in geospatial science, including data access, management, visualization, and decision-making.
Prerequisite: GEOG 360 with C- or better
Recommended: Senior standing
Available via Ecampus

GEOG 472, GEOVISUALIZATION: GEOVISUAL ANALYTICS, 3 Credits
Concepts and techniques underlying the production of maps by computer. Practical experience with a variety of computer mapping packages. Lec/lab.
Prerequisite: GEOG 370 with C- or better or GEOG 371 with C- or better or GEO 360 with C- or better
Equivalent to: GEO 445

GEOG 480, REMOTE SENSING I: PRINCIPLES AND APPLICATIONS, 4 Credits
Fundamentals of satellite remote sensing and image analysis. Topics include physical principles of remote sensing from the ultraviolet to the microwave, sensors and sensor technology, and environmental applications of remote sensing through image analysis.
Prerequisite: GEOG 201 with C- or better
Available via Ecampus

GEOG 481, SATELLITE IMAGE ANALYSIS, 4 Credits
Intermediate concepts and techniques for satellite image processing including image enhancement, clustering, classification, machine learning, change detection, and time series analysis. Hands-on experience with open-source, large volume data and geospatial programming within Google Earth engine.
Prerequisite: GEOG 480 with C- or better and (ST 314 [C-] or ST 351 [C-] or ST 351H [C-])

GEOG 495, FIELD GEOGRAPHY SYNTHESIS, 3 Credits
Explore how geographers use field work to investigate landscapes such as mountains, forests, coasts, tundra and desert to understand how they were formed and explain how they have changed over time. Learn techniques for finding out how landscape processes impact humans and, in turn, how humans impact the environment around them. Apply geographic theories and concepts to synthesize, analyze and interpret the relationship between human communities and the environment through the planning and execution of field work.
Prerequisite: GEOG 295 with C- or better
Available via Ecampus

GEOG 499, SPECIAL STUDIES, 0-16 Credits
This course is repeatable for 16 credits.

GEOG 500, FIELD TRIPS, 1-16 Credits
Participation in group field trips that are not a part of any other course. Transportation fee charged. Students may prepare guides for trips. Faculty sponsor must be prearranged.
This course is repeatable for 48 credits.

GEOG 501, RESEARCH, 1-16 Credits
Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged.
This course is repeatable for 24 credits.

GEOG 503, THESIS, 1-16 Credits
Independent, original study that culminates in a thesis. Faculty sponsor must be prearranged.
This course is repeatable for 999 credits.
GEOG 505, READING AND CONFERENCE, 1-16 Credits
Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged. This course is repeatable for 16 credits.

GEOG 507, SEMINAR, 1-16 Credits
Graded P/N. This course is repeatable for 16 credits.

GEOG 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

GEOG 510, INTERNSHIP, 1-15 Credits
Pre-career professional experience under joint faculty and employer supervision. Graded P/N. This course is repeatable for 16 credits. Available via Ecampus

GEOG 511, HISTORY AND PHILOSOPHY OF GEOGRAPHY, 3 Credits
The historical development of research traditions in the discipline of geography. This includes an examination of changes in conceptual structures and current trends. Equivalent to: GEO 515

GEOG 512, SOCIAL-ECOLOGICAL SYSTEMS, 3 Credits
Exploration of critical debates surrounding theories associated with social-ecological systems, resilience, vulnerability, adaptation, social learning, transformation, adaptive governance. Equivalent to: GEO 554

Recommended: 9 credits of graduate study.

GEOG 523, SNOW HYDROLOGY, 3 Credits
Fundamentals of snow hydrology. Physical principles of snow formation, snowpack accumulation, energy balance, snowcover-climate interactions, snow metamorphism, snowpack ablation, snowmelt/snowmelt chemistry, remote sensing of snow, avalanches, field methods, snowmelt/runoff modeling techniques, and watershed processes. Equivalent to: GEO 583

GEOG 524, HYDROLOGY FOR WATER RESOURCES MANAGEMENT, 3 Credits
A quantitative introduction to surface and subsurface hydrology with a focus on decision making for the water resource professional. Recommended: MTH 251

GEOG 530, RESILIENCE-BASED NATURAL RESOURCE MANAGEMENT, 3 Credits
Causes and consequences of conflict over natural resource management at local to global scales; principles for managing social-ecological systems for resilience. Field trip(s) may be required; transportation fee charged. Equivalent to: GEO 520

GEOG 531, GLOBAL RESOURCES AND DEVELOPMENT, 3 Credits
Examines resource development issues and strategies in the Global South. Issues and strategies from agriculture, forestry, fisheries, energy, wildlife management, mineral development, land use, and health are examined. Equivalent to: GEO 526

GEOG 532, GEOGRAPHY OF FOOD AND AGRICULTURE, 3 Credits
Overview of food and agriculture in relation to production and consumption regions as a basis for distinguishing different types of food and agricultural systems. Local and global examination of the geographic aspects of breeding, location in agricultural systems, and adaptation in agro-ecosystems using field study, explorations of literature, and lecture. Field trip required, transportation fee charged. Equivalent to: GEO 549

GEOG 533, CLIMATE CHANGE IMPACTS, ADAPTATION AND VULNERABILITY, 3 Credits
Climate change poses challenges for human security and well-being, and for social and economic development. Evaluate how climate change impacts vary based on vulnerability, exposure, sensitivity, adaptive capacity, and risk.

GEOG 540, CONFLICT, COOPERATION, AND CONTROL OF WATER IN THE US, 3 Credits
Examine why nations rise and fall based on water availability and investigate why the United States is no exception. Explore how the US develops, protects, governs and manages its water resources and how it will cope with climate change and conflict. Discover resilience and sustainability through case studies. Available via Ecampus

GEOG 541, THE WORLD’S WATER, 3 Credits
Investigate why water is a critical resource that supports life, livelihoods, and the environment. Understand that where rivers crosses political boundaries, the sharing of water presents challenges and opportunities. Interpret how international basins are governed; evaluate how dams and water development affect ecology and people; and apply water conflict management frameworks to emerging international water issues. Available via Ecampus

GEOG 546, ADVANCED LANDSCAPE AND SEASCAPE ECOLOGY, 4 Credits
Pattern-process interactions in large scale ecological and physical systems, including terrestrial, aquatic, and marine/ocean ecosystems. Principles of pattern-process interactions from genetic to community levels of ecological organization applied to design of conservation reserves. Hypothesis testing, field techniques, spatial models/statistics, GIS/remote sensing. Equivalent to: GEO 546
GEOG 550, LAND USE IN THE AMERICAN WEST, 3 Credits
Development of a conceptual framework for land use study; analysis of land as a resource, land use trends, land use principles, and management issues as related to planning, focusing on the American West, the fastest growing region in the nation.
Equivalent to: GEO 523

GEOG 551, PLANNING PRINCIPLES AND PRACTICES FOR RESILIENT COMMUNITIES, 4 Credits
Applies GIS skills and techniques to determine and analyze future land uses. Determine suitable land uses that incorporate community goals, site constraints and minimize use conflicts. Regulatory and market-based implementation strategies for land uses will also be discussed.
Prerequisite: GEOG 560 with C or better
Available via Ecampus

GEOG 552, ENVIRONMENTAL ASSESSMENT, 3 Credits
Environmental site assessment is a primary tool for environmental science professionals. Apply environmental science concepts to evaluate features of a specific natural area and conduct a land suitability analysis. Create a conceptual site design and management plan that complies with federal, state, and local regulations and environmental laws.
CROSSTLISTED as ENSC 452/GEOG 452 and GEOG 552.
Available via Ecampus

GEOG 560, GISCIENCE I: INTRODUCTION TO GEOGRAPHIC INFORMATION SCIENCE, 4 Credits
Introduction to modern spatial data processing, development, and functions of geographic information systems (GIS); theory, concepts and applications of geographic information science (GIScience).
Equivalent to: GEO 565
Available via Ecampus

GEOG 561, GISCIENCE II: ANALYSIS AND APPLICATIONS, 4 Credits
Applications-based course. Development and conduct of geospatial analyses using various spatial data structures, techniques and models. Students acquire, clean, integrate, manipulate, visualize and analyze geospatial data through laboratory work.
Prerequisite: GEOG 560 with C or better
Equivalent to: GEO 580
Available via Ecampus

GEOG 562, GISCIENCE III: PROGRAMMING FOR GEOSPATIAL ANALYSIS, 4 Credits
Introduction to the extension of geographic information systems (GIS) through programming. No prior programming experience is expected. Teaches a pragmatic approach to design and write programs for geospatial analysis.
Prerequisite: GEOG 561 with C or better
Available via Ecampus

GEOG 563, GISCIENCE IV: SPATIAL MODELING, 4 Credits
Introduction to spatial simulation models representing attraction, segregation, individual entities, and processes of spread, applied to contemporary problems in human and physical geography.
Prerequisite: GEOG 462 with C or better or GEOG 562 with C or better

GEOG 564, GEOSPATIAL PERSPECTIVES ON INTELLIGENCE, SECURITY AND ETHICS, 3 Credits
Applications and implications of geospatial science (GIS, remote sensing, and spatial analysis) in intelligence, human, environmental, and ethical domains. Concepts and practices of ethics in geospatial science, including data access, management, visualization, and decision-making.
Prerequisite: GEOG 560 with C or better
Available via Ecampus

GEOG 565, SPATIO-TEMPORAL VARIATION IN ECOLOGY AND EARTH SCIENCE, 4 Credits
Objectives and techniques of spatial and temporal analysis. Point patterns, geostatistics, spectral analysis, wavelet analysis, interpolation, and mapping.
Equivalent to: GEO 541

GEOG 566, ADVANCED SPATIAL STATISTICS AND GISCIENCE, 4 Credits
Provides advanced graduate students from a variety of disciplines in earth science and ecology the opportunity to structure and conduct spatio-temporal analyses using available software tools and their own datasets for their graduate research.
Equivalent to: GEO 584

GEOG 571, ADVANCED WEB MAPPING, 4 Credits
Advanced concepts and techniques of web programming, digital storytelling, online project management, and web-based cartographic principles for developing, evaluating, and using web maps.

GEOG 572, GEOVISUALIZATION: GEOVISUAL ANALYTICS, 3 Credits
Concepts and techniques underlying the production of maps by computer. Practical experience with a variety of computer mapping packages. Lec/lab.
Equivalent to: GEO 545
Recommended: GEOG 370 or GEOG 371

GEOG 580, REMOTE SENSING I: PRINCIPLES AND APPLICATIONS, 4 Credits
Fundamentals of satellite remote sensing and image analysis. Topics include physical principles of remote sensing from the ultraviolet to the microwave, sensors and sensor technology, and environmental applications of remote sensing through image analysis.
Recommended: GEOG 201
Available via Ecampus
**GEOG 581, SATELLITE IMAGE ANALYSIS, 4 Credits**
Intermediate concepts and techniques for satellite image processing including image enhancement, clustering, classification, machine learning, change detection, and time series analysis. Hands-on experience with open-source, large volume data and geospatial programming within Google Earth engine.

**Prerequisite:** GEOG 580 with C- or better

**GEOG 595, FIELD GEOGRAPHY OF OREGON, 3 Credits**
Investigate how geographers use field work to study landscapes such as mountains, forests, coasts, tundra and desert to understand how they were formed and explain how they have changed over time. Apply techniques for finding out how landscape processes impact humans and, in turn, how humans impact the environment around them. Apply geographic theories and concepts to synthesize, analyze and interpret the relationship between human communities and the environment through the planning and execution of field work in Oregon.

**GEOG 596, FIELD RESEARCH IN GEOMORPHOLOGY AND LANDSCAPE ECOCLOGY, 3 Credits**
Natural history interpretation of disturbance and recovery processes and management implications in forest-stream landscapes of western Oregon. Course consists of field experience and several seminars. Transportation and lodging fee charged.

**Equivalent to:** GEO 548
**Recommended:** 9 graduate credits in sciences or engineering.

**GEOG 599, SPECIAL STUDIES, 0-16 Credits**
This course is repeatable for 24 credits.

**GEOG 600, FIELD TRIPS, 1-16 Credits**
Participation in group field trips that are not a part of any other course. Transportation fee charged. Students may prepare guides for trips. Faculty sponsor must be prearranged.

This course is repeatable for 48 credits.

**GEOG 601, RESEARCH, 1-16 Credits**
Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged.

This course is repeatable for 36 credits.

**GEOG 603, THESIS, 1-16 Credits**
Independent, original study that culminates in a thesis. Faculty sponsor must be prearranged.

This course is repeatable for 999 credits.

**GEOG 605, READING AND CONFERENCE, 1-16 Credits**
Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged.

This course is repeatable for 16 credits.

**GEOG 607, SEMINAR, 1-16 Credits**
Graded P/N.
This course is repeatable for 16 credits.

**GEOG 608, WORKSHOP, 1-16 Credits**
This course is repeatable for 16 credits.

**GEOG 699, SPECIAL STUDIES, 1-16 Credits**
This course is repeatable for 24 credits.

**Geophysics (GPH)**

**GPH 501, RESEARCH, 1-16 Credits**
Original research work that will not be part of the data used in a thesis. Graded P/N.

This course is repeatable for 24 credits.

**GPH 503, THESIS, 1-16 Credits**
Thesis research and writing.

This course is repeatable for 999 credits.

**GPH 505, READING AND CONFERENCE, 1-16 Credits**
Independent reading and library research on specialized topics in geophysics, guided by discussions with supervising faculty. A written report may be required.

This course is repeatable for 16 credits.

**GPH 507, SEMINAR, 1-16 Credits**
This course is repeatable for 48 credits.

**GPH 601, RESEARCH, 1-16 Credits**
Original research work that will not be part of the data used in a thesis. Graded P/N.

This course is repeatable for 36 credits.

**GPH 603, THESIS, 1-16 Credits**
Thesis research and writing.

This course is repeatable for 999 credits.

**GPH 605, READING AND CONFERENCE, 1-16 Credits**
Independent reading and library research on specialized topics in geophysics, guided by discussions with supervising faculty. A written report may be required.

This course is repeatable for 16 credits.

**GPH 607, SEMINAR, 1-16 Credits**
This course is repeatable for 48 credits.
GPH 630, ELEMENTS OF SEISMOLOGY, 4 Credits
Survey of basic concepts in global seismology: world seismicity; elastic structure of the earth; seismic wave paths in the earth; locating earthquakes; earthquake focal mechanisms, magnitudes, stress drop, energy; stress and strain, elasticity, wave equation, plane waves in homogeneous and layered media, surface waves, free oscillations; ray theory; seismometry; earthquake prediction. Laboratory exercises include interpretation and analysis of seismograms from global seismographic networks.
Recommended: Differential equations.

GPH 632, CRUSTAL SEISMOLOGY, 3 Credits
Structure of the earth's crust and upper mantle from seismic reflection and large offset (refraction, wide-angle reflection) data. Methods of data collection, data processing theory and practice, modeling and interpretation techniques, correlation of seismic results with laboratory measurements of rock properties, and regional case studies.
Prerequisite: GPH 630 with C or better

GPH 640, GEODESY, 4 Credits
Physical and observational geodesy, including the Earth's gravity field and potential and determination of the Earth's geoid. Interpretation of geoid, geoid anomalies, and isostatic compensation. Gravity, point-position and remote sensing geodetic measurement techniques, including GPS, InSAR, VLBI, leveling, triangulation/trilateration, and low-Earth orbit gravity satellite missions are covered as are geodetic reference frames. Offered alternate years.

GPH 641, ELECTROMAGNETIC METHODS IN GEOPHYSICS, 3 Credits
Survey of electromagnetic (EM) methods in geophysics. Review of electromagnetic theory, Maxwell's equations in the quasi-static limit, the diffusion of EM fields in a layered conductor, qualitative discussion of EM fields in 2- and 3-D conductors. EM techniques, including DC resistivity, magnetotellurics, controlled source EM, induced polarization, and long-period magnetometer array methods. Applications to exploration, to basic research on crustal structure and to studies of upper-mantle conductivity.
Recommended: Upper-division EM course.

GPH 642, EARTH MAGNETISM, 3 Credits
Geomagnetism and magnetic potential: general morphology and secular change; internal and external sources; principles of paleomagnetism, including field and laboratory procedures; origin of remnant magnetism in rocks and the controlling physical and chemical processes; the origin of the Earth's magnetic field.

GPH 650, GEOPHYSICAL INVERSE THEORY, 4 Credits
Survey of the theory and applications of inverse methods currently used in the geophysical sciences for the interpretation of inaccurate and inadequate data. Backus-Gilbert inverse theory, resolution, regularization methods (such as damped least squares) for linear and non-linear problems, stochastic inversion, and extremal models. Applications to seismic, gravity, magnetic and electromagnetic data.
Recommended: Linear algebra

GPH 651, GEODYNAMICS I, 3 Credits
Application of the techniques of continuum mechanics to geological problems. Thermal and subsidence history of the lithosphere; stress and strain in the earth; elasticity and flexure of the lithosphere; gravitational compensation. Lec. Offered odd years on Corvallis campus in fall term (subject to change).

GPH 665, GEOPHYSICAL FIELD TECHNIQUES, 3 Credits
Instrumentation, field methods and interpretation of gravimetric, magnetic, electrical and seismic prospecting techniques. Students will be required to collect, reduce, analyze, and interpret data.

GPH 689, SPECIAL TOPICS IN GEOPHYSICS, 1-4 Credits
Special topics of current interest in geophysics, not covered in detail in other courses. May be repeated on different topics for credit. This course is repeatable for 16 credits.

Geosciences (GEO)

GEO 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

GEO 004, INTERNSHIP, 0 Credits
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students’ understanding of the connection between theory and practice in their respective disciplines.

GEO 100, *NATURAL DISASTERS: HOLLYWOOD VERSUS REALITY, 4 Credits
Introduction to natural hazards, as seen through the lens of popular media. Course will explore the causes and consequences of natural disasters via in-class exercises and activities designed to develop students' skills in scientific analysis and problem solving. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science

GEO 101, *THE SOLID EARTH, 4 Credits
Solid earth processes and materials. Earthquakes, volcanoes, earth structure, rocks, minerals, ores. Solid earth hazard prediction and planning. Geologic time. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

GEO 199, SPECIAL STUDIES, 1-16 Credits
Equivalent to: GEO 199H
This course is repeatable for 16 credits.
GEO 201, *PHYSICAL GEOLOGY, 4 Credits
Study of earth's interior. Tectonic processes and their influence on mountains, volcanoes, earthquakes, minerals, and rocks. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: GEO 201H

GEO 202, *EARTH SYSTEMS SCIENCE, 4 Credits
Surficial processes (glaciers, rivers), climate, soils, vegetation, and their interrelationships. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: GEO 201H, GEO 202H

GEO 203, *EVOLUTION OF PLANET EARTH, 4 Credits
History of earth and life as interpreted from fossils and the rock record. Field trip(s) required; transportation fee charged. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science

GEO 221, *ENVIRONMENTAL GEOLOGY, 4 Credits
Introductory geology emphasizing geologic hazards (volcanoes, earthquakes, landslides, flooding), geologic resources (water, soil, air, mineral, energy), and associated environmental problems and mitigation strategies. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

GEO 295, INTRODUCTION TO FIELD GEOLOGY, 3 Credits
Two-week course taught in the fall program in various locations throughout the west. Collect field data to make geological maps, cross-sections, columns, and reports. Serves as an introduction to upper-level course work for Geology degree. Lec/lab.
Prerequisite: GEO 201 with C- or better

GEO 305, *LIVING WITH ACTIVE CASCADE VOLCANOES, 3 Credits
The impact of volcanic activity on people, infrastructure, and natural resources; how and why volcanic activity in the Cascade Range occurs; volcano monitoring and hazard assessment. Field trip required, transportation fee charged. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

GEO 306, *MINERALS, ENERGY, WATER AND THE ENVIRONMENT, 3 Credits
Formation, occurrence, and use of earth resources including metallic minerals, building materials, energy resources including fossil fuels and nuclear energy, and water resources. Environmental consequences of resource use including surface and groundwater pollution, waste disposal, air pollution and acid rain, and global climate change. Implications of resource use and availability for economic development and geopolitical relations.
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

GEO 307, *NATIONAL PARK GEOLOGY AND PRESERVATION, 3 Credits
National parks as classrooms to study geological processes and the importance of preserving natural landscapes. Field trip(s) required; transportation fee charged. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: GEO 307H
Available via Ecampus

GEO 308, *GLOBAL CHANGE AND EARTH SCIENCES, 3 Credits
Study of global change over different time scales during the history of the earth, with emphasis on evolution of its atmosphere, plate tectonics, paleoclimates, and mass extinctions. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

GEO 309, *ENVIRONMENTAL JUSTICE, 3 Credits
Technical and social issues surrounding the unequal exposure to environmental hazards based on race and the environmental justice movement that has grown to address charges of such environmental racism. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Powere/Discrimination
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
Available via Ecampus

GEO 310, EARTH MATERIALS I: MINERALOGY, 4 Credits
Principles of crystal morphology, and structure. Characteristics, identification, and origins of minerals. Lec/lab.
Prerequisite: (GEO 201 with D- or better or GEO 221 with D- or better) and ((CH 121 with D- or better or CH 231 with D- or better and CH 261 [D-] or CH 231H [D-] and CH 261H [D-]) )

GEO 315, EARTH MATERIALS II: PETROLOGY, 4 Credits
Origin, identification and classification of igneous, sedimentary, and metamorphic rocks. Field trip(s) required, transportation fee charged. Lec/lab.
Prerequisite: GEO 310 with D- or better
GEO 322, SURFACE PROCESSES, 4 Credits
Examination of surficial processes and terrestrial landforms of the earth, including slopes, rivers, glaciers, deserts, and coastlines. Field trip(s) required; transportation fee charged. Lec/lab.
Prerequisite: (GEO 102 with D- or better or GEO 102H with D- or better or GEO 202 with D- or better) and (MTH 251 [C-] or MTH 251H [C-]) and (PH 201 [D-] or PH 201H [D-] or PH 211 [D-] or PH 211H [D-])

GEO 331, *ASTROBIOLOGY: LIFE BEYOND EARTH, 3 Credits
Evaluates the potential distribution of life in the Universe, presents the science and technology used to search for life, and explores the societal impacts of its discovery.
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Completion of 12 credits of biological and physical science in the Bacc Core

GEO 340, STRUCTURAL GEOLOGY, 4 Credits
Analysis of geometry and kinematics of geologic structures including brittle and ductile faults, folds, joints, deformation fabrics. Field trip(s) required; transportation fee charged. Lec/lab.
Prerequisite: GEO 201 with D- or better
Equivalent to: GEO 450

GEO 352, *OREGON: GEOLOGY, PLACE, AND LIFE ON THE RING OF FIRE, 4 Credits
Provides an overview of the geology of Oregon in the context of the Pacific Northwest including tectonic setting, geologic features and landscapes, as well as topics and concepts of interest to society in general. Lessons will include discussion of the relationship between people and the landscape, incorporating the concept of ethnographic landscapes–geologic structures, natural resources and geologic hazards that are part of the identity of a place. Emphasizes written and graphic communication skills. Field trip required, transportation fee charged. Lec/ lab. (Bacc core course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: GEO 352H

GEO 352H, *OREGON: GEOLOGY, PLACE, AND LIFE ON THE RING OF FIRE, 4 Credits
Provides an overview of the geology of Oregon in the context of the Pacific Northwest including tectonic setting, geologic features and landscapes, as well as topics and concepts of interest to society in general. Lessons will include discussion of the relationship between people and the landscape, incorporating the concept of ethnographic landscapes–geologic structures, natural resources and geologic hazards that are part of the identity of a place. Emphasizes written and graphic communication skills. Field trip required, transportation fee charged. Lec/ lab. (Bacc core course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: GEO 352

GEO 370, STRATIGRAPHY AND SEDIMENTOLOGY, 4 Credits
Basic principles of sedimentology and stratigraphy. Sedimentology is largely concerned with classifying and interpreting the origin of sedimentary rocks. Stratigraphy provides formal rules and strategies for organizing sedimentary (and other) rocks into a temporal framework. Reconstruction of Earth history with various approaches centered on paleoclimatology, paleogeography, paleoceanography, and tectonics. Lec/lab.
Prerequisite: GEO 201 with C- or better and GEO 203 [C-]
Equivalent to: GEO 470

GEO 380, *EARTHQUAKES IN THE PACIFIC NORTHWEST, 3 Credits
Earthquake hazards in the Northwest; responses to reducing earthquake risk at state, local, and personal levels. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

GEO 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

GEO 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: GEO 399
This course is repeatable for 16 credits.

GEO 400, FIELD TRIPS, 1-16 Credits
Participation in group field trips that are not a part of any other course. Transportation fee is charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. Graded P/N.
This course is repeatable for 48 credits.

GEO 401, RESEARCH, 1-16 Credits
Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged.
This course is repeatable for 24 credits.

GEO 403, THESIS, 1-16 Credits
Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged.
This course is repeatable for 24 credits.

GEO 405, READING AND CONFERENCE, 1-16 Credits
Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged.
This course is repeatable for 16 credits.

GEO 407, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: GEO 407H
This course is repeatable for 12 credits.
GEO 407H, SEMINAR, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: GEO 407
This course is repeatable for 12 credits.

GEO 408, WORKSHOP, 1-16 Credits
This course is repeatable for 12 credits.

GEO 410, INTERNSHIP, 1-15 Credits
Pre-career professional experience under joint faculty and employer supervision. Graded P/N.
This course is repeatable for 48 credits.

GEO 412, IGNEOUS PETROLOGY, 4 Credits
Petrogenesis of igneous rocks. Petrographic analysis using polarizing microscopes. Field trip may be required, transportation fee charged. Lec/lab.
Prerequisite: GEO 315 with D- or better
Recommended: GEO 415 [C-]

GEO 415, EARTH MATERIALS III: PETROGRAPHY, 4 Credits
Microscope-based study of minerals and igneous, sedimentary and metamorphic rocks. Representation and interpretation of geological processes based on microscopic observation. Lec/lab.
Prerequisite: GEO 201 with D- or better and GEO 310 [D-] and GEO 315 [D-]
Equivalent to: GEO 320

GEO 427, VOLCANOLOGY, 4 Credits
A survey of volcanoes: their distribution, forms, composition, eruptive products, eruptive styles, and associated phenomena. Field trip may be required; transportation fee charged. Offered alternate years. Lec/lab.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: GEO 315 with D- or better
Recommended: GEO 415 [C-]

GEO 432, APPLIED GEOMORPHOLOGY, 3 Credits
Effect of landform processes upon human activity; consequences of resource management strategies on erosional balance within landscape; identification of mitigation of natural hazards; role of geomorphic process studies in environmental planning. Taught as seminar, themes TBA. Field trip(s) may be required; transportation fee charged.
Equivalent to: GEO 449
Recommended: GEO 322

GEO 433, COASTAL GEOMORPHOLOGY, 3 Credits
Morphodynamic approach to coastal landforms, processes and evolution including the impacts and response of humans to coastal change.
Prerequisite: (PH 211 with D- or better or PH 211H with D- or better) and (PH 212 [D-] or PH 212H [D-] and GEO 322 [D-])
Recommended: MTH 251 [D-] and MTH 252 [D-]

GEO 440, ECONOMIC GEOLOGY, 4 Credits
Principles of the origin, distribution, and importance of metallic mineral deposits formed by magmatic, hydrothermal, and sedimentary processes. Lec/lab.
Prerequisite: GEO 315 with D- or better
Recommended: GEO 340 [C-]

GEO 461, GEOLOGY OF EARTHQUAKES, 3 Credits
Tectonics of the present day as based on surface geology, geodesy, seismicity and crustal structure; description of active faults and folds; use of neotectonics in evaluation of earthquake hazard. Field trip(s) may be required; transportation fee charged. Offered alternate years.
Prerequisite: GEO 340 with D- or better

GEO 463, GEOPHYSICS AND TECTONICS, 4 Credits
Geophysical observations as constraints on geologic interpretation. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: MTH 251 [D-] and (PH 202 [D-] or PH 212 [D-])

GEO 481, GLACIAL GEOLOGY, 4 Credits
Mass balance of glaciers, physics of glacial flow, processes of glacial erosion and deposition, glacial meltwater, glacial isostasy and eustasy, and Quaternary stratigraphy. Field trip(s) may be required; transportation fee charged. Lec/lab. Offered alternate years.
Recommended: GEO 202 [C-]

GEO 484, INTRODUCTION TO BIOGEOCHEMISTRY, 3 Credits
Interdisciplinary course, applying concepts from chemistry, physics, biology and geology to Earth systems including terrestrial, ocean and freshwater environments; water and energy cycles; carbon, nitrogen, phosphorus and sulfur cycles; biogeochemical cycles through Earth history.
Prerequisite: MTH 111 with D- or better and (CH 231 [D-] or CH 261 [D-] and CH 232 [D-] and CH 262 [D-])
**GEO 486, QUATERNARY PALEOClimatOLOGY, 3 Credits**
Introduction to geochronology, climate proxies, climate forcing, and climate modeling applied to paleoclimate problems. Emphasis on Quaternary climate history.
**Prerequisite:** (GEO 202 with D- or better or GEO 203 with D- or better) and (CH 122 [D-] or CH 222 [D-] or (CH 232 [D-] or CH 232H [D-]) and (CH 262 [D-] or CH 262H [D-] or CH 272 [D-]))

**GEO 487, HYDROGEOLOGY, 4 Credits**
**Prerequisite:** MTH 252 with D- or better or MTH 252H with D- or better

**GEO 488, QUATERNARY STRATIGRAPHY OF NORTH AMERICA, 3 Credits**
Stratigraphic principles applied to Quaternary deposits. Survey Quaternary dating methods. Proxy records of glaciation and climate change. Quaternary stratigraphy of North America, emphasizing stratigraphic records of ice sheets, glaciers, and pluvial lakes. Offered alternate years.
**Recommended:** GEO 481 or GEO 581

**GEO 495, ADVANCED FIELD GEOLOGY, 6 Credits**
Six-week summer program in central Oregon. Collect field data to make geological maps, cross-sections, columns, and reports. Fee charged.
**Prerequisite:** GEO 295 with C- or better and GEO 315 [C-] and GEO 340 [C-] and GEO 370 [C-]

**GEO 497, FIELD MAPPING OF ORE DEPOSITS, 3 Credits**
Eight-day field trip over spring vacation to a mineral district in the western United States, emphasizing detailed mapping of outcrops, trenches, and underground workings. Students prepare final maps and a report suitable for presentation to management or publication during summer term. Transportation fee charged. Not offered every year.
**Recommended:** GEO 440 [C-] and GEO 495 [C-]

**GEO 499, SPECIAL TOPICS, 0-16 Credits**
Equivalent to: GEO 499H
**This course is repeatable for 16 credits.**

**GEO 500, FIELD TRIPS, 1-16 Credits**
Participation in group field trips that are not a part of any other course. Transportation fee charged. Students may prepare guides for trips. Faculty sponsor must be prearranged. Graded P/N.
**This course is repeatable for 48 credits.**

**GEO 501, RESEARCH, 1-16 Credits**
Independent, original research subjects guided by faculty conferences and resulting in a brief written report. Faculty sponsor must be prearranged.
**This course is repeatable for 24 credits.**

**GEO 503, THESIS, 1-16 Credits**
Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged.
**This course is repeatable for 99 credits.**

**GEO 505, READING AND CONFERENCE, 1-16 Credits**
Independent reading in specialized topics guided by and discussed in faculty conferences. Faculty sponsor must be prearranged.
**This course is repeatable for 16 credits.**

**GEO 507, SEMINAR, 1-16 Credits**
Graded P/N.
**This course is repeatable for 48 credits.**

**GEO 508, WORKSHOP, 1-16 Credits**
**This course is repeatable for 24 credits.**

**GEO 510, INTERNSHIP, 1-15 Credits**
Pre-career professional experience under joint faculty and employer supervision. May not be used to meet minimum credit hour requirements for graduate degrees in geosciences. Graded P/N.
**This course is repeatable for 16 credits.**

**GEO 512, IGNEOUS PETROLOGY, 4 Credits**
Petrogenesis of igneous rocks. Petrographic analysis using polarizing microscopes. Field trip may be required, transportation fee charged. Lec/lab.

**GEO 516, INTERPRETATION OF GEOLOGIC MAPS, 3 Credits**
Development of skills in formulating geologic problems, using geologic maps, and developing solutions by the scientific method.

**GEO 518, GEOSCIENCE COMMUNICATION, 3 Credits**
Professional development of the skills of technical editing and writing for geoscientists. Practice the craft of presentation development and delivery, and the broader issues of problem development, and manuscript and proposal writing specific to geoscience graduate students.

**GEO 527, VOLCANOLOGY, 4 Credits**
A survey of volcanoes: their distribution, forms, composition, eruptive products, eruptive styles, and associated phenomena. Field trip may be required; transportation fee charged. Offered alternate years. Lec/lab.

**GEO 530, GEOCHEMISTRY, 4 Credits**
Principles of geochemistry applied to problems of earth science.

**GEO 531, ENVIRONMENTAL GEOCHEMISTRY, 3 Credits**
An introduction to natural processes at and near the earth’s surface, as well as an examination of the impact of human activities on the natural environment. Study includes discussion of the sources, transformations, transport, and fate of contaminants. Field trip(s) required; transportation fee charged.
GEO 532, APPLIED GEOMORPHOLOGY, 3 Credits
Effect of landform processes upon human activity; consequences of resource management strategies on erosional balance within landscape; identification of mitigation of natural hazards; role of geomorphic process studies in environmental planning. Taught as seminar, themes TBA. Field trip(s) may be required; transportation fee charged. Equivalent to: GEOG 549

GEO 533, COASTAL GEOMORPHOLOGY, 3 Credits
Morphodynamic approach to coastal landforms, processes and evolution including the impacts and response of humans to coastal change.

GEO 535, GEOCHEMICAL ANALYSIS TECHNIQUES, 3 Credits
An introduction to the theory, techniques and instrumentation used for the chemical analysis of earth materials, with emphasis on analysis of solid earth material samples (predominantly, but not restricted to, rocks). Includes discussions of laboratory safety, relevant statistical approaches, basic physical and chemical principles of analysis, sample preparation techniques and data processing and reporting. Course also includes a large component of hands-on experience with instrumentation available in-house in the College of Earth, Ocean, and Atmospheric Sciences. Lec/lab.
Prerequisite: GEO 530 with C or better

GEO 536, STRUCTURAL AND NEOTECTONIC FIELD METHODS, 3 Credits
Field-intensive mapping experience emphasizing a topical issue in active tectonics, neotectonics, earthquake geology, or structural geology. One-week field trip required; transportation fee charged. Weekly discussions during quarter. Offered alternate years.

GEO 537, TECTONIC GEOMORPHOLOGY, 3 Credits
Exploration of linkages between patterns of erosion, crustal deformation, and landscape evolution from geomorphic, geologic, geophysical, and modeling perspectives. Field trip required; transportation fee charged. Offered alternate years.

GEO 540, ECONOMIC GEOLOGY, 4 Credits
Principles of the origin, distribution, and importance of metallic mineral deposits formed by magmatic, hydrothermal, and sedimentary processes. Lec/lab.

GEO 550, COASTAL HAZARDS: PROCESSES, RESPONSE, AND ADAPTATION, 3 Credits
Coastal hazards and the associated risks they pose to rapidly expanding coastal communities. Examination of coastal hazards from a trans-disciplinary perspective including the physical processes, the coastal response, and coastal adaptation/management options for dealing with the hazards. Emphasizes probabilistic and other user-inspired approaches for assessing coastal vulnerability to the various hazards.

GEO 561, GEOLOGY OF EARTHQUAKES, 3 Credits
Tectonics of the present day as based on surface geology, geodesy, seismicity, and crustal structure; description of active faults and folds; use of neotectonics in evaluation of earthquake hazard. Field trip(s) may be required; transportation fee charged. Offered alternate years.

GEO 563, GEOPHYSICS AND TECTONICS, 4 Credits
Geophysical observations as constraints on geologic interpretation. Lec/lab.
Equivalent to: GPH 563

GEO 581, GLACIAL GEOLOGY, 4 Credits
Mass balance of glaciers, physics of glacial flow, processes of glacial erosion and deposition, glacial meltwater, glacial isostasy and eustasy, and Quaternary stratigraphy. Field trip(s) may be required; transportation fee charged. Lec/lab. Offered alternate years.

GEO 586, QUATERNARY PALEOCLIMATOLOGY, 3 Credits
Introduction to geochronology, climate proxies, climate forcing, and climate modeling applied to paleoclimate problems. Emphasis on Quaternary climate history.

GEO 588, QUATERNARY STRATIGRAPHY OF NORTH AMERICA, 3 Credits
Stratigraphic principles applied to Quaternary deposits. Survey Quaternary dating methods. Proxy records of glaciation and climate change. Quaternary stratigraphy of North America, emphasizing stratigraphic records of ice sheets, glaciers, and pluvial lakes. Offered alternate years.

GEO 597, FIELD MAPPING OF ORE DEPOSITS, 3 Credits
Eight-day field trip over spring vacation to a mineral district in the western United States, emphasizing detailed mapping of outcrops, trenches, and underground workings. Students prepare final maps and a report suitable for presentation to management or publication during spring term. Transportation fee charged. Not offered every year. Recommended: GEO 440 [C-] or GEO 540 [C-]

GEO 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 24 credits.

GEO 600, FIELD TRIPS, 1-16 Credits
Participation in group field trips that are not part of any other course. Transportation fee charged. Students may prepare guide for trips. Faculty sponsors must be arranged. Graded P/N.
This course is repeatable for 84 credits.

GEO 601, RESEARCH, 1-16 Credits
This course is repeatable for 36 credits.

GEO 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
GEO 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

GEO 606, PROJECTS, 1-16 Credits
This course is repeatable for 84 credits.

GEO 607, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 48 credits.

GEO 608, WORKSHOP, 1-16 Credits
This course is repeatable for 24 credits.

GEO 622, IGNEOUS PETROLOGY, 3 Credits
Controls on the distribution of major and trace elements; theory, applications, and examples. Field trip(s) may be required; transportation fee charged. Offered alternate years.
Recommended: GEO 412 [C-] or GEO 512 [C-]

GEO 633, GEOCHRONOLOGY AND ISOTOPE GEOLOGY, 3 Credits
Measurements of cosmic and geologic time by radioactive decay. Use of radiogenic and stable isotopic tracers in geology. Offered alternate years.
Equivalent to: OC 633

GEO 666, STABLE ISOTOPE GEOCHEMISTRY, 3 Credits
Study of the principles governing terrestrial stable isotope distributions, with application to geologic, oceanographic, atmospheric and planetary processes. The primary focus is on isotopes of the light elements such as oxygen, hydrogen, carbon and sulfur, but may include other isotope systems, including Sr/Nd isotopes as geochemical tracers, noble gases, and metal isotopes (e.g., Mo, Cu, Fe).

GEO 684, GLOBAL BIOGEOCHEMICAL CYCLES, 4 Credits
An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. CROSSLISTED as GEO 684/SOIL 684.
Equivalent to: SOIL 684

GEO 691, MASS AND HEAT TRANSPORT IN THE ENVIRONMENT, 4 Credits

GEO 694, TOPICS IN ORE GENESIS, 1-3 Credits
In-depth examination of published research on selected mineral deposits to build an understanding of environments and processes of ore formation. Offered alternate years.
This course is repeatable for 6 credits.

GEO 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 24 credits.

German (GER)

GER 100, BASIC GERMAN I, 2 Credits
Develops basic proficiency in German grammar, vocabulary, speaking and listening. Taught in English.

GER 111, FIRST-YEAR GERMAN, 4 Credits
Development of basic writing, reading, listening, and speaking skills; includes cultural component. Designed solely for students with no prior training in German. Native or bilingual speakers of German will not receive credit for GER 111, GER 112, or GER 113. Lec/lab/rec.
Available via Ecampus

GER 112, FIRST-YEAR GERMAN, 4 Credits
Development of basic writing, reading, listening, and speaking skills; includes cultural component. Designed solely for students with no prior training in German. Native or bilingual speakers of German will not receive credit for GER 111, GER 112, or GER 113. Lec/lab/rec.
Prerequisite: GER 111 with D- or better
Available via Ecampus

GER 113, FIRST-YEAR GERMAN, 4 Credits
Development of basic writing, reading, listening, and speaking skills; includes cultural component. Designed solely for students with no prior training in German. Native or bilingual speakers of German will not receive credit for GER 111, GER 112, or GER 113. Lec/lab/rec.
Prerequisite: GER 112 with D- or better
Available via Ecampus

GER 130, BASIC GERMAN II, 2 Credits
Develop basic proficiency in German grammar, vocabulary, speaking and listening. Taught in English.
Prerequisite: GER 100 with P or better

GER 199, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

GER 211, SECOND-YEAR GERMAN, 4 Credits
Continuing development of writing, reading, listening, and speaking skills; cultural component. Completion of second-year German or equivalent with a GPA of 2.50 or higher serves as a prerequisite for upper-division courses. Native or bilingual speakers of German will not receive credit for GER 211, GER 212 or GER 213. Lec/lab/rec.
Prerequisite: GER 113 with D- or better
Available via Ecampus

GER 212, SECOND-YEAR GERMAN, 4 Credits
Continuing development of writing, reading, listening, and speaking skills; cultural component. Completion of Second-Year German or equivalent with a GPA of 2.50 or higher serves as a prerequisite for upper-division courses. Native or bilingual speakers of German will not receive credit for GER 211, GER 212 or GER 213. Lec/rec.
Prerequisite: GER 211 with D- or better
Available via Ecampus
GER 213, SECOND-YEAR GERMAN, 4 Credits
Continuing development of writing, reading, listening, and speaking skills; cultural component. Completion of Second-Year German or equivalent with a GPA of 2.50 or higher serves as a prerequisite for upper-division courses. Completion of GER 213 with grade of C- or better satisfies BA requirement in foreign languages. Native or bilingual speakers of German will not receive credit for GER 211, GER 212, or GER 213. Lec/rec.
Prerequisite: GER 212 with D- or better
Available via Ecampus

GER 299, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

GER 311, THIRD-YEAR GERMAN, 4 Credits
Focus on development of German writing, speaking, and listening skills towards the level B1/B2 of the Common European Framework of Languages. Conducted in German.
Prerequisite: GER 213 with C- or better
Available via Ecampus

GER 312, THIRD-YEAR GERMAN, 4 Credits
Develop writing, speaking, and listening skills in German towards the B1 level of the Common European Framework of Languages. Focus on continued development of intermediate language skills learned in GER 311. Conducted in German.
Prerequisite: GER 311 with C- or better
Available via Ecampus

GER 313, THIRD-YEAR GERMAN, 4 Credits
Develop writing, speaking, and listening skills in German towards the B1 level of the Common European Framework of Languages. Focus on continued development of intermediate language skills learned in GER 312. Conducted in German.
Prerequisite: GER 312 with C- or better
Available via Ecampus

GER 319, SELECTED TOPICS IN GERMAN LANGUAGE, 3 Credits
Focus on development of German language skills and/or history of the language. Conducted in German. May be repeated for credit when topic varies. Lec/rec. Not offered every year.
This course is repeatable for 9 credits.
Available via Ecampus

GER 329, SELECTED TOPICS IN LITERATURE AND/OR CULTURE, 3 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 9 credits.
Available via Ecampus

GER 339, SELECTED TOPICS IN GERMAN CULTURE, 3 Credits
Focus on specific aspects of German culture. Attention to development of German language skills. Conducted in German. May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 9 credits.
Recommended: Completion of 9 credits from GER 311, GER 312, GER 313.
Available via Ecampus

GER 349, SELECTED TOPICS IN GERMAN LITERATURE, 3 Credits
Attention to development of German language skills. Conducted in German. May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 9 credits.
Recommended: GER 213

GER 351, GERMAN PRONUNCIATION AND PHONETICS, 3 Credits
Analysis of the fundamentals of the German sound system, including pronunciation, phonology, phonetic and contrastive analysis of sounds; phonemes, intonation, and tone patterns. Required of students working toward a teaching certificate in German. Not offered every year.
Recommended: GER 213
Available via Ecampus

GER 355, TRANSLATION, 3 Credits
Introduces students to translation studies in theory and practice. Students will learn problems behind translating texts and strategies to overcome these issues, before working on shorter and longer translation projects of a variety of texts. Taught in English.
Prerequisite: GER 312 with D- or better

GER 361, CRITICAL ISSUES OF GERMAN CINEMA, 3 Credits
Critique of current scholarly debates in German cinema (popular cinema, stars, institutional and cultural frameworks, cultural politics, and transnational connections) in connection with the critical viewing of a large variety of films from various periods. Taught in English.
Available via Ecampus

GER 362, DIVIDED SCREEN: GERMAN CINEMA BETWEEN 1945 AND 1990, 3 Credits
Introduces German cinema between the corner dates 1945–division into East and West–and German unification in 1990. Compares and contrasts films made in East and West Germany to understand differences and similarities in the political and cultural set-up of the two states.
Available via Ecampus

GER 363, CONTEMPORARY GERMAN CINEMA, 3 Credits
Introduces German cinema after unification in 1990. Analyzes German films from various genres, ‘schools,’ and directors. Reflects and compares contemporary issues of Germany, Austria, and Switzerland to Hollywood cinema.
GER 379, PROCTOR EXPERIENCE, 1-2 Credits
Supervised practicum for advanced students, with assignments as proctors or tutors in lower-division German language courses. No more than 2 credits may be used to satisfy degree requirements for a major in German; no credit may be used to satisfy requirements for a minor in German. Graded P/N.
This course is repeatable for 6 credits.
Recommended: Completion of 12 upper-division credits in German, including GER 311, GER 312, GER 313
Available via Ecampus

GER 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

GER 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

GER 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

GER 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

GER 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

GER 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

GER 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.
Available via Ecampus

GER 411, FOURTH-YEAR GERMAN, 4 Credits
Develops German writing, speaking, and listening skills towards the level B2/C1 of the Common European Framework of Languages. Conducted in German. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: GER 313 with C- or better
Available via Ecampus

GER 412, FOURTH-YEAR GERMAN, 4 Credits
Focus on development of German writing, speaking, and listening skills towards the level B2/C1 of the Common European Framework of Languages. Conducted in German.
Prerequisite: GER 411 with C- or better
Available via Ecampus

GER 413, FOURTH-YEAR GERMAN, 4 Credits
Develops German writing, speaking, and listening skills towards the level B2/C1 of the Common European Framework of Languages. Conducted in German.
Prerequisite: GER 412 with C- or better
Available via Ecampus

GER 421, GERMAN LANGUAGE TANDEM, 1 Credit
Optional course that can be taken to fine-tune advanced German speaking skills with the help of a native speaker. Graded P/N.
This course is repeatable for 6 credits.

GER 449, SELECTED TOPICS IN GERMAN LITERATURE, 3 Credits
May be repeated for credit when topic varies. Conducted in German.
This course is repeatable for 9 credits.
Recommended: 9 upper-division credits in German.
Available via Ecampus

GER 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

GER 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

GER 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

GER 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

GER 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

GER 511, FOURTH-YEAR GERMAN, 3 Credits
Focus on development of German writing, speaking, and listening skills.
Conducted in German.
Recommended: GER 313

GER 512, FOURTH-YEAR GERMAN, 3 Credits
Focus on development of German writing, speaking, and listening skills.
Conducted in German.
Recommended: GER 411 or GER 511

GER 513, FOURTH-YEAR GERMAN, 3 Credits
Focus on development of German writing, speaking, and listening skills.
Conducted in German.
Recommended: GER 412 or GER 512
GER 549, SELECTED TOPICS IN GERMAN LITERATURE, 3 Credits
May be repeated for credit when topic varies. Conducted in German. 
This course is repeatable for 9 credits.
Recommended: 9 upper-division credits in German.

Graduate Education (GRAD)

GRAD 402, INDEPENDENT STUDY, 1-16 Credits
Lab/Field trip fee.
This course is repeatable for 16 credits.

GRAD 420, GRADUATE SCHOOL PREPARATION, 1 Credit
Applying for graduate or professional school can be a daunting task. How and where to apply, how to choose an advisor, what to look for in a school, and how to obtain funding are hurdles to overcome during the application process. Supplemental materials will be provided as part of the course materials.
Available via Ecampus

GRAD 430, INTRODUCTION TO SCIENTIFIC DIVING, 4 Credits
Incorporates academic, confined water and open water training to prepare the student to manage the task loading associated with performing scientific tasks underwater. Introduces the diver to basic techniques and equipment used in underwater data collection. Qualifies the student for acceptance into the OSU Scientific Diving Program as a Scientific Diver-in-Training, at the discretion of the DSO and OSU Diving Control Board. Includes field trips.

GRAD 499, SPECIAL TOPICS, 4 Credits
Graduate school preparation.

GRAD 502, INDEPENDENT STUDY, 1-16 Credits
Lab/Field trip fee.
This course is repeatable for 16 credits.

GRAD 505, READING AND CONFERENCE, 1-16 Credits
Reading and discussions on special topics. Graded P/N. 
This course is repeatable for 16 credits.

GRAD 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

GRAD 509, PRACTICUM, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

GRAD 511, DESIGNING A PATH FOR SUCCESS, 1 Credit
Graduate student learners will be oriented onto paths that will help lead them toward degree completion and success. Students will receive foundational knowledge about graduate school requirements, effective mentor/mentee relationships, financing their education, research integrity and professional conduct, innovation and commercialization, and other soft skills essential for their progress through their graduate program.
Equivalent to: WGSS 511, WGSS 512, WGSS 513

GRAD 512, CURRENT ISSUES IN HIGHER EDUCATION, 3 Credits
Explores current, work-relevant issues in higher education nationally.
Development of plan to stay current with important issues.
Available via Ecampus

GRAD 513, PROFESSIONAL DEVELOPMENT IN COLLEGE AND UNIVERSITY TEACHING, 1-3 Credits
Self-directed learning experience, providing structure and context for professional development opportunities in teaching, such as workshops, seminars, webinars, symposia, and other relevant programming. Designed to encourage and reward continuing investment in the development of knowledge and skill sets as educators. Consists of participating in self-selected teaching-related programming (in-person or online), as well as reading, writing, and reflecting on your chosen experiences.
This course is repeatable for 3 credits.
Available via Ecampus

GRAD 520, RESPONSIBLE CONDUCT OF RESEARCH, 2 Credits
Covers 10 topics in responsible conduct of research: ethical decision making; human subjects; animal welfare; data acquisition, sharing and ownership; research misconduct; conflicts of interest; authorship; peer review; mentor/mentee responsibilities; and collaborative science. Weekly writing assignments. Useful to all students who conduct scholarly activity. Provides transcript-visible training in research ethics relevant to the Graduate Learning Outcome established by Faculty Senate to be able to conduct scholarly and professional activities in an ethical manner.
Available via Ecampus

GRAD 521, RESEARCH DATA MANAGEMENT, 2 Credits
Careful examination of all aspects of research data management best practices. Designed to prepare students to exceed funder mandates for performance in data planning, documentation, preservation and sharing in an increasingly complex digital research environment. Open to students of all disciplines.

GRAD 522, PREPARING AN IRB SUBMISSION, 1 Credit
Workshop-style course resulting in applications that are ready for IRB review. Ethical issues in research will be discussed. Students will draft all submission materials outside of class and participate in the critique of each other’s protocols and consent forms. IRB approval will not be granted as part of this class. Graded P/N.
**GRAD 530, INTRODUCTION TO SCIENTIFIC DIVING, 4 Credits**
Incorporates academic, confined water and open water training to prepare the student to manage the task loading associated with performing scientific tasks underwater. Introduces the diver to basic techniques and equipment used in underwater data collection. Qualifies the student for acceptance into the OSU Scientific Diving Program as a Scientific Diver-in-Training, at the discretion of the DSO and OSU Diving Control Board. Includes field trips.

**GRAD 542, THE INCLUSIVE CLASSROOM: DIFFERENCE, POWER AND DISCRIMINATION, 3 Credits**
An examination of multidisciplinary scholarship on difference, power, and discrimination; critical pedagogies; and curriculum transformation. Discussions of theory and research are coupled with practical hands-on opportunities for students to develop and hone their teaching and course development skills. CROSSLISTED as GRAD 542/WGSS 542.
Equivalent to: WGSS 542
Available via Ecampus

**GRAD 550, INTRODUCTION TO ONLINE COURSE DEVELOPMENT AND FACILITATION, 2 Credits**
Prepares students to develop and teach distance courses. Students explore practical aspects of course development and facilitation: a brief history of distance education and pedagogical theory; course design principles; engagement of adult learners; active learning; and investigation of how online instruction, in addition to offering flexibility and convenience, also offers distinct pedagogical benefits. Open to students in all disciplines.
Available via Ecampus

**GRAD 560, THEORIES OF TEACHING AND LEARNING IN HIGHER EDUCATION, 3 Credits**
Examination and analysis of theories and research related to teaching and learning in higher education contexts with emphasis on theoretical applications for GTAs, instructors, and other who teach in the college and university classroom.
Available via Ecampus

**GRAD 561, COURSE DESIGN AND METHODS FOR COLLEGE & UNIVERSITY TEACHING, 3 Credits**
Exploration of research and research-based practices related to teaching and learning in higher education contexts with emphasis on course design, facilitation, and other instructional techniques for GTAs, instructors, and others who teach in the college and university classroom.
Available via Ecampus

**GRAD 599, SPECIAL TOPICS, 1-16 Credits**
This course is repeatable for 99 credits.
Available via Ecampus

**GRAD 605, READING AND CONFERENCE, 1-16 Credits**
Reading and discussions on special topics. Graded P/N. This course is repeatable for 16 credits.

**GRAD 606, PROJECTS, 1-16 Credits**
Graded P/N. This course is repeatable for 16 credits.

**GRAD 607, CAPSTONE SEMINAR, 3 Credits**
Provides a culminating experience required for all graduate students pursuing the Graduate Certificate in College and University Teaching and for other graduate students seeking a structured opportunity to develop their teaching portfolio.
Prerequisite: GRAD 560 with C or better and GRAD 561 [C]
Available via Ecampus

**GRAD 609, PRACTICUM, 1-16 Credits**
Graded P/N. This course is repeatable for 16 credits.

**GRAD 610, INTERNSHIP, 3 Credits**
Provides a framework for the in-depth internship experiences required of all graduate students pursuing the Graduate Certificate in College and University Teaching and for other graduate students seeking a structured opportunity to reflect on and improve their teaching.
Prerequisite: GRAD 560 with C or better and GRAD 561 [C]
Available via Ecampus

**Graphic Design (GD)**

**GD 110, GRAPHIC DESIGN TOOLS AND TECHNIQUES, 4 Credits**
A foundation-level course covering software skills and production techniques aimed at building a confident understanding and demonstration of the tools of design, making, craft, and delivery.
Available via Ecampus

**GD 126, GRAPHIC DESIGN PRO APPLICATION, 2 Credits**
Required pre-graphic design course. Course will focus on the development of a final portfolio to be reviewed by the graphic design faculty at the end of the spring term. Lec/lab/studio.
Prerequisite: ART 101 with C- or better and ART 115 [C] and ART 121 [C] and ART 131 [C]
Recommended: ART 120 and ART 122 and DHE 121

**GD 200, GRAPHIC DESIGN TECHNOLOGY AND PRODUCTION, 1, 4 Credits**
A second year level course (2 series) covering software skills and production techniques aimed at building a confident understanding and demonstration of the tools of design, making, craft, and delivery.
GD 210, GRAPHIC DESIGN I, 4 Credits
Explores the basic elements and principles of graphic design, using a variety of analog and digital techniques. Examines both visual and verbal vocabulary to describe and complete design projects with targeted intention. Introduces the practice, theory, methodologies and delivery systems of graphic design, including image making, typography, and composition, building upon technical skills gained in GD 110.
Prerequisite: GD 110 with C- or better

GD 220, GRAPHIC DESIGN TECHNOLOGY AND PRODUCTION 2, 4 Credits
A second-year level course (2 series) covering software skills and production techniques aimed at building a confident understanding and demonstration of the tools of design, making, craft, and delivery.
Prerequisite: GD 200 with C- or better

GD 224, INTERACTIVE DESIGN 1, 4 Credits
Introductory class to interactive design principles in the graphic design professional core.
Prerequisite: GD 126 with C- or better and GD 226 (may be taken concurrently) [C-] and GD 228 (may be taken concurrently) [C-]

GD 226, TYPOGRAPHY 1, 4 Credits
An introductory course in the discipline, function and tradition of typography as it relates to visual and verbal communication.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 226

GD 228, PROCESS: MAKING AND MEANING, 4 Credits
Course utilizes creative problem solving techniques, communication theories, combined with media explorations to bring together message, meaning, medium, and form.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 228

GD 230, GRAPHIC DESIGN PROFESSIONAL DEVELOPMENT, 2 Credits
A required professional development course for graphic design sophomores aimed at preparing and empowering students to navigate professional opportunities as students. This course is a prerequisite for GD 430 Graphic Design Practicum.

GD 269, GRAPHIC DESIGN HISTORY, 3 Credits
A historical and theoretical overview of the evolution and innovations in graphic design.
Prerequisite: GD 126 with D- or better
Equivalent to: GD 369
Available via Ecampus

GD 300, GRAPHIC DESIGN ADVANCED TOOLS AND TECHNIQUES II, 4 Credits
An intermediate technology course covering software skills and production techniques for interactive and motion delivery, aimed at building a confident understanding and demonstration of the industry standard tools of interactive and time-based design.
Prerequisite: GD 210 with C- or better

GD 312, ^CONTEMPORARY ISSUES IN DESIGN, 3 Credits
For all graphic design students in the professional graphic design program. The course examines contemporary design issues through reading, research, writing, presentations and discussion. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: GD 126 with D- or better
Equivalent to: GD 412

GD 325, GRAPHIC DESIGN: COLLABORATIVE PROCESSES, 4 Credits
Intermediate course in graphic design. Emphasis on collaborative projects exploring principles of group problem solving in typography.
Equivalent to: ART 325

GD 326, TYPOGRAPHY 2, 4 Credits
An intermediate course exploring the design of organizational typographic structures and systems.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 326

GD 327, TYPOGRAPHY 3, 4 Credits
An intermediate course exploring the visual, expressive vocabulary of typography, using innovative experimentation.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 327

GD 328, INTERACTIVE 2, 4 Credits
An introduction to the contemporary issues of interactive design: experience design, application design, e-publication design, and from a visual communications perspective.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 328

GD 330, GRAPHIC DESIGN AND SUSTAINABILITY, 4 Credits
An in-depth and hands-on exploration of the strategies, frameworks, and problem solving skills required for a sustainable and regenerative graphic design practice. Focus is on applying perspectives and systems thinking skills to design projects in the real world.
Prerequisite: GD 210 with C- or better

GD 355, THE PHOTOGRAPHIC BOOK, 4 Credits
Practical studio course focusing on the photographic book in all of its forms. Use appropriated imagery as well as original imagery to create a variety of zines as well as soft and hardcover photo-books. Structure, form, materials, and layout will be discussed as well as content, sequencing, and physical construction. CROSSLISTED as ART 355/ GD 355.
Prerequisite: ART 263 with C- or better
Equivalent to: ART 355
GD 419, PORTFOLIO REVIEW, 3 Credits
A course to advise students during their final portfolio preparation. The objective is to complete the portfolio and hone presentation skills and techniques.
Prerequisite: GD 420 with C- or better
Equivalent to: ART 419

GD 420, PROFESSIONAL PRACTICES, 3 Credits
Professional ethics and standards, business practices and tactics, and pre-press production techniques and concerns for graphic designers.
Prerequisite: GD 126 with D- or better
Equivalent to: ART 420

GD 421, INFORMATION AND PUBLICATION DESIGN, 4 Credits
Theoretical and historical issues of organizing and visualizing statistics, numbers, and/or complex relationships. Emphasis on conceptualization, visual diagramming, and analysis of subtle visual relationships.
Equivalent to: ART 421

GD 422, NEW MEDIA: INTERACTIVE, 4 Credits
An advanced course designing digital experiences with emphasis on innovative navigation, architectural structures, theoretical, and historical issues of new media.
Recommended: Junior block in graphic design and CS 295.

GD 423, EXPERIMENTAL TYPOGRAPHY, 4 Credits
An advanced course in experimental typography focusing on intent, meaning, and method.
Equivalent to: ART 423

GD 424, BRAND IDENTITY SYSTEMS, 4 Credits
Studio course that explores both the theory and the practice of brand identity systems, through the creation of a comprehensive visual branding project.
Prerequisite: GD 126 with C- or better
Equivalent to: ART 424
This course is repeatable for 12 credits.

GD 426, GRAPHIC DESIGN CAPSTONE 1, 3 Credits
The first in a two-course sequence of senior-level graphic design capstone courses. The focus is on applying more in-depth design research methods to graphic design senior capstone projects.

GD 427, CAPSTONE 2, 4 Credits
The second in a two-course sequence of senior-level graphic design capstone courses. The focus is on the design and development of the senior capstone project.
Prerequisite: GD 126 with C- or better and GD 426 [C-]
Equivalent to: GD 428

GD 429, GRAPHIC DESIGN STUDIO, 4 Credits
Provides opportunity for students to work with clients on actual projects in a professional environment. Lec/lab.
Equivalent to: ART 429
This course is repeatable for 16 credits.

GD 430, GRAPHIC DESIGN PRACTICUM, 2 Credits
Works from the skills and lessons learned in GD 230, Professional Development, to provide a system of evaluation and reflection in a structured class environment for students in a graphic design internship or project-based practicum.
Prerequisite: GD 230 with C- or better
This course is repeatable for 8 credits.

GD 440, USER RESEARCH FOR GRAPHIC DESIGNERS, 4 Credits
Examines the theory and methodology of user and audience research (qualitative and quantitative) as it relates to the graphic design discipline. Examines specific methodologies for the execution of design and user research through the conceptualization and implementation of design projects. Explores how theory can be put into practice through a student-initiated primary research project consisting of a design methodology and implementation.
Prerequisite: GD 210 with C- or better

GD 455, THE PHOTOGRAPHIC BOOK II, 4 Credits
Practical studio course focusing on advanced practices and techniques in relation to the photographic book. Use appropriated imagery as well as original imagery to complete well-developed book projects. Structure, form, materials, and layout will be discussed as well as content, sequencing, and physical construction. Advanced elements such as application of blanking, slip cases, screen printing, and other construction techniques will be taught. CROSSTLISTED as ART 455/GD 455.
Prerequisite: ART 355 with C- or better
Equivalent to: ART 455

GD 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Health and Human Sciences (HHS)

HHS 001, SERVICE LEARNING, 0 Credits
Engage in a service-learning or community engagement experience where skills and knowledge are applied to meet an authentic community-identified need. The experience will integrate meaningful community service with reflection. Through readings and discussions, critically reflect on the service in order to increase understanding of the discipline, gain a broader appreciation of the discipline, enhance a sense of civic responsibility, and strengthen connections with communities.

HHS 002, LEADERSHIP, 0 Credits
Provides basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.
HHS 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

HHS 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HHS 206, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

HHS 231, *LIFETIME FITNESS FOR HEALTH, 2 Credits
Provides up-to-date and relevant health and wellness information; practical strategies to implement positive behavior change in physical activity, nutrition, and stress management throughout college and the lifespan. (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness
Equivalent to: HHP 231, HHS 231H
Available via Ecampus

HHS 231H, *LIFETIME FITNESS FOR HEALTH, 2 Credits
Provides up-to-date and relevant health and wellness information; practical strategies to implement positive behavior change in physical activity, nutrition, and stress management throughout college and the lifespan. (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness; HNRS – Honors Course Designator
Equivalent to: HHS 231

HHS 241, *LIFETIME FITNESS, 1 Credit
Assessment, evaluation and practice of physical fitness and health behaviors leading to the development of a personal fitness program. (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness
Available via Ecampus

HHS 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 18 credits.

HHS 440, GLOBAL NUTRITION, 3 Credits
Examines causes and consequences of nutritional problems including malnutrition, both under- and overnutrition, that impact health, developmental capacity, and economic well-being of populations in developing societies. Explores policies, practices, and cultural approaches to improving nutritional status at the household, local and international levels.
Available via Ecampus

HHS 513, INTEGRATED APPROACH TO PUBLIC HEALTH I, 6 Credits
An integrated approach to introduce students to the core knowledge and methods used in public health, including evidence-based approaches to public health, public health and health care systems, planning and management to promote health, and policy in public health. This course is the first of a two-part course sequence.
Available via Ecampus

HHS 514, INTEGRATED APPROACH TO PUBLIC HEALTH II, 6 Credits
An integrated approach to introduce students to the core knowledge and methods used in public health, including: evidence-based approaches to public health; public health and health care systems; planning and management to promote health; and policy in public health. This course is the second of a two part course sequence.
Prerequisite: HHS 513 with B- or better
Available via Ecampus

HHS 517, CASE STUDIES IN PUBLIC HEALTH PRACTICE, 3 Credits
Case-based learning to illustrate the complexity of public health issues and to demonstrate the need for integrated approaches for developing and implementing successful strategies in public health practice. Students will apply a wide range of knowledge and skills essential to public health practice that relate to outbreak investigation, policy analysis, regulatory decision-making, ethics, program development, program evaluation, research synthesis, screening programs, working with stakeholders, health risk communication, and disaster preparedness.
Prerequisite: H 513 with B- or better or HHS 514 with B- or better
Available via Ecampus

HHS 526, LINEAR REGRESSION IN PUBLIC HEALTH, 2 Credits
Biostatistical tools for scientific applications in public health using linear regression analysis. Confounding, effect modification, variable selection, assessing model fit, observational studies, and exploratory data analysis. Emphasis on the use of statistical packages for analyzing public health data.
Prerequisite: H 524 with B- or better
This course is repeatable for 4 credits.
Available via Ecampus

HHS 527, LOGISTIC REGRESSION IN PUBLIC HEALTH, 2 Credits
Biostatistical tools for scientific applications in public health using logistic regression analysis. Confounding, effect modification, variable selection, assessing model fit, exploratory data analysis, and observational studies. Emphasis on the use of statistical packages for analyzing public health data.
Prerequisite: H 524 with B- or better
HHS 537, EVIDENCE-BASED LEADERSHIP IN PUBLIC HEALTH, 3 Credits
Examines how collaboration differs from working together, and offer opportunities to develop skills for successful and effective group functioning. Students will be challenged to examine personal strengths (and the strengths of others) as they relate to leadership and followership. Explores evidence-based management – identifying and using organizational and scientific data in decision making.
Prerequisite: H 536 with B- or better
Available via Ecampus

HHS 540, GLOBAL NUTRITION, 3 Credits
Examines causes and consequences of nutritional problems including malnutrition, both under- and overnutrition, that impact health, developmental capacity, and economic well-being of populations in developing societies. Explores policies, practices, and cultural approaches to improving nutritional status at the household, local and international levels.
Available via Ecampus

HHS 541, PUBLIC HEALTH PERSPECTIVE ON GLOBAL FOOD SECURITY, 3 Credits
Explore food insecurity and hunger in the U.S. and global contexts, including examination of the causes, correlates, and consequences of hunger and community, national, and international food safety nets.

HHS 550, COMMUNICATING FOR PUBLIC HEALTH POLICY IMPACT, 3 Credits
Successful public health professionals communicate clearly and in compelling ways with non-scientific audiences. In this hands-on course, the theory and practice of effective public health communication will be explored, with a focus on advancing a public health policy. Through a selected public health policy topic, students will develop and enhance skills in planning and implementing impactful public health communications, including message development, data visualization, media interviewing, engaging through social media and presenting to policymakers. Professionals in the field, including those in legislative and media roles, will share examples of effective communication and provide constructive feedback on students’ work.

HHS 578, EVIDENCE-BASED PUBLIC HEALTH I, 3 Credits
Evidence-based public health is the process of integrating science-based interventions with community preferences to improve the health of populations. This is the first in a two-course series and provides theoretical and practical bases to identify, implement and evaluate evidence-based research (i.e. programs, surveillance, policies). Students will develop skills to select and adapt evidence-based public health programming for a specific community and/or population.
Prerequisite: H 513 with B- or better or HHS 514 with B- or better
Available via Ecampus

HHS 579, EVIDENCE-BASED PUBLIC HEALTH II, 3 Credits
Evidence-based public health is the process of integrating science-based interventions with community preferences to improve the health of populations. This is the second in a two-course series. Applies science and adaptation frameworks learned in the first course to the development of a program plan. Provides instruction and application of program planning and program evaluation frameworks. Course learning is synthesized through the development of a grant proposal for adapted public-health program plus evaluation plan.
Prerequisite: H 575 with B- or better and HHS 578 [B-]
Available via Ecampus

HHS 580, GRANT WRITING FOR PUBLIC HEALTH PRACTITIONERS, 4 Credits
Provides an introduction to principles of grant writing, with an emphasis on grants seeking funding from national, regional, or local entities (e.g., CDC, foundations) that support research and program that aim to improve community health through health promotion. There will be a focus on grants that MPH-level practitioners seek to conduct research, enhance practice, and/or support delivery of programs within communities. Students will have the opportunity to integrate skills developed through prior courses in the context of writing a grant proposal.
Prerequisite: H 515 with C- or better and H 575 [C-] and H 576 [C-]

HHS 584, SURVEILLANCE AND FIELD EPIDEMIOLOGY FOR PUBLIC HEALTH, 3 Credits
A review of public health surveillance systems, and the continuum of communicable disease surveillance into field epidemiology and other responses to identified events.
Prerequisite: H 524 with B- or better or HHS 514 with B- or better
Available via Ecampus

HHS 590, PUBLIC HEALTH LAW, 2 Credits
Examines how collaboration differs from working together, and offer opportunities to develop skills for successful and effective group functioning. Students will be challenged to examine personal strengths (and the strengths of others) as they relate to leadership and followership. Explores evidence-based management – identifying and using organizational and scientific data in decision making.

HHS 597, GLOBAL HEALTH SYSTEMS, 3 Credits
Explores key components of global health systems, using case studies of institutions, processes, and health outcomes.
Available via Ecampus

HHS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HHS 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
Hebrew (HEBR)

HEBR 111, INTRODUCTION TO HEBREW, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with no prior training in Hebrew. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 111, HEBR 112, HEBR 113.

HEBR 112, INTERMEDIATE HEBREW, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with prior training in Hebrew. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 111, HEBR 112, HEBR 113.
Prerequisite: HEBR 111 with D- or better

HEBR 113, INTERMEDIATE HEBREW II, 4 Credits
Pronunciation, grammar, reading, writing, listening comprehension, speaking, conversation. Designed specifically for students with prior training in Hebrew. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 111, HEBR 112, HEBR 113.
Prerequisite: HEBR 111 with D- or better and HEBR 112 [D]

HEBR 211, SECOND-YEAR HEBREW I, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 211. Taught via Ecampus only.
Prerequisite: HEBR 113 with D- or better

HEBR 212, SECOND-YEAR HEBREW II, 4 Credits
Continued development of basic language skills, pronunciation, and vocabulary acquisition; introduction to extensive reading. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 211, HEBR 212, HERB 213. Taught via Ecampus only.
Prerequisite: HEBR 211 with D- or better

HEBR 213, SECOND-YEAR HEBREW III, 4 Credits
Continued development of basic language skills, pronunciation, and vocabulary acquisition; introduction to extensive reading. Native and/or bilingual speakers of Hebrew will not receive credit for HEBR 211, HEBR 212, HEBR 213.
Prerequisite: HEBR 212 with D or better

History (HST)

HST 101, *HISTORY OF WESTERN CIVILIZATION, 4 Credits
Provides an awareness and understanding of the Western cultural heritage. Stresses the major ideas and developments that have been of primary importance in shaping the Western tradition. Covers the Ancient World to 1000 A.D. HST 101, HST 102 and HST 103 need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 101H
Available via Ecampus

HST 102, *HISTORY OF WESTERN CIVILIZATION, 4 Credits
Provides an awareness and understanding of the Western cultural heritage. Stresses the major ideas and developments that have been of primary importance in shaping the Western tradition. Covers 1000 A.D. to 1789. HST 101, HST 102 and HST 103 need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 102H
Available via Ecampus

HST 103, *HISTORY OF WESTERN CIVILIZATION, 4 Credits
Provides an awareness and understanding of the Western cultural heritage. Stresses the major ideas and developments that have been of primary importance in shaping the Western tradition. Covers 1789 to the present. HST 101, HST 102 and HST 103 need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 103H
Available via Ecampus

HST 104, *WORLD HISTORY I: ANCIENT CIVILIZATIONS, 3 Credits
A survey of the historical development of several world civilizations from antiquity to roughly 600 to 700 A.D. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. Not offered every year. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus
HST 105, *WORLD HISTORY II: MIDDLE AND EARLY MODERN AGES, 3 Credits

A survey of the historical development of several world civilizations roughly from the 8th century to the late 18th century. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. (H) (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

Equivalent to: HST 105H
Available via Ecampus

HST 105H, *WORLD HISTORY II: MIDDLE AND EARLY MODERN AGES, 3 Credits

A survey of the historical development of several world civilizations roughly from the 8th century to the late 18th century. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. (H) (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core

Equivalent to: HST 105

HST 106, *WORLD HISTORY III: THE MODERN AND CONTEMPORARY WORLD, 3 Credits

A survey of the historical development of several world civilizations from the 18th century to the contemporary period. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. Not offered every year. (H) (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

Equivalent to: HST 106H
Available via Ecampus

HST 106H, *WORLD HISTORY III: THE MODERN AND CONTEMPORARY WORLD, 3 Credits

A survey of the historical development of several world civilizations from the 18th century to the contemporary period. Exploration of religious, cultural, social, political, and economic institutions of various societies. Cultural diversity analysis of both ancient Western and non-Western civilizations. Not offered every year. (H) (Bacc Core Course)

Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core

Equivalent to: HST 106

HST 199, SPECIAL STUDIES, 1-16 Credits

This course is repeatable for 16 credits.

HST 201, *HISTORY OF THE UNITED STATES, 4 Credits

Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers pre-Columbian and colonial origins to 1820. HST 201, HST 202, HST 203 need not be taken in sequence. (H) (SS) (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

Equivalent to: HST 201H
Available via Ecampus

HST 201H, *HISTORY OF THE UNITED STATES, 4 Credits

Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers pre-Columbian and colonial origins to 1820. HST 201, HST 202, HST 203 need not be taken in sequence. (H) (SS) (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

Equivalent to: HST 201

HST 202, *HISTORY OF THE UNITED STATES, 4 Credits

Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1820 to 1920. HST 201, HST 202, HST 203 need not be taken in sequence. (H) (SS) (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

Equivalent to: HST 202H
Available via Ecampus

HST 202H, *HISTORY OF THE UNITED STATES, 4 Credits

Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1820 to 1920. HST 202H and HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

Equivalent to: HST 202
HST 203, *HISTORY OF THE UNITED STATES, 4 Credits
Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1920 to present. HST 201, HST 202, HST 203 need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 203H
Available via Ecampus

HST 203H, *HISTORY OF THE UNITED STATES, 4 Credits
Provides an overview of the development of the U.S. from the pre-Columbian era to the present. Attention is given to economic, political, and social trends, as well as to international relations. Covers 1920 to present. HST 202H and HST 203H need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 203

HST 210, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 210H, PHL 210, PHL 210H, REL 210
Available via Ecampus

HST 210H, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, PHL 210, PHL 210H, REL 210, REL 210H

HST 215, *INTRODUCTION TO JEWISH TRADITIONS, 4 Credits
An introduction to Judaism’s traditions, histories, and practices. Covers historical origins and developments from the biblical period through the Middle Ages, and considers Judaism in the modern world. Topics include the Jewish calendar (including holidays and their traditions), Jewish life cycle events, Jewish prayer, and traditional texts such as the Mishnah and Talmud. CROSSLISTED as HST 215/REL 215. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: REL 215

HST 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HST 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HST 299
This course is repeatable for 16 credits.

HST 310, THE HISTORIAN’S CRAFT, 4 Credits
A study of the practice as well as theory of historical work. Combines training in reading, writing, and thinking historically with a survey of the development of history, philosophies of history, types and use of historical evidence, varieties of historical investigation, and factors that influence the writing of history. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 420
Recommended: 9 credits of history or upper-division standing.
Available via Ecampus

HST 314, MARITIME HISTORIES OF THE PACIFIC, 4 Credits
Emphasizes the study of maritime histories of the Pacific Ocean. Incorporates themes of globalization, imperial expansion, and cultural contact. Covers the time between 1400CE and 1800CE, including both renaissance and enlightenment eras.
Recommended: Upper division standing
Available via Ecampus

HST 315, THE EUROPEAN MILITARY, 1400-1815, 4 Credits
Major aspects of European military history, 1400-1815, notable developments in weaponry and strategy, the social history of the military, impact of war on the civilian front, and pacifism and antimilitarism. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 316, THE AMERICAN MILITARY, 1607-1865, 4 Credits
Major aspects of American military history, 1607-1865, notable developments in weaponry and strategy, the social history of the military, impact of war on the civilian front, and pacifism and antimilitarism. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
HST 317, *WHY WAR: A HISTORICAL PERSPECTIVE, 4 Credits
An inquiry into the origins of mass violence. Theory and case studies are used to suggest possible causes of international war, civil war, revolution, and genocide. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 317H
Available via Ecampus

HST 317H, *WHY WAR: A HISTORICAL PERSPECTIVE, 4 Credits
An inquiry into the origins of mass violence. Theory and case studies are used to suggest possible causes of international war, civil war, revolution, and genocide. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 317

HST 318, THE AMERICAN MILITARY, 1865-PRESENT, 4 Credits
Major aspects of American military history, 1865-present: evolution of strategy, tactics, and technology in war; the impact of the military on American society in peace and war; historiographic aspects of U.S. military history. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 319, *THE HISTORY OF HUMAN RIGHTS IN THE MODERN WORLD, 4 Credits
Historical examination of the articulations, development, and enforcement of human rights in a global context since the 1770s. Particular attention devoted to nineteenth-century transnational humanitarian missions, wartime codes of conduct, international war crimes tribunals, European imperialism and decolonization, twentieth-century genocides, the International Criminal Court, the United Nations’ “Universal Declaration of Human Rights” (UDHR), and the legacy of the UDHR. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

HST 320, *ANCIENT NEAR EAST, 4 Credits
A detailed survey of the peoples and cultures of the ancient Near East, including Assyria, Babylon, Egypt, Israel, Mesopotamia, and Persia, from the earliest recorded beginnings of civilization to about 500 B.C. Particular attention is given to the art, religion, law, and literature of these civilizations. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core

HST 321, GREECE, 4 Credits
The history of the Greek city-states and the civilization they produced; the archaeological discovery of early Greece; the development of the polis; Sparta, Athenian democracy, the Persian and Peloponnesian Wars; Greek private life and religion. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 322, ROMAN REPUBLIC, 4 Credits
The rise of Rome from a city-state to a world power, Rome’s wars with Carthage, her growing domination of the Mediterranean, the ensuing breakdown of Roman society and traditional values, and the rise of ambitious leaders who ultimately destroyed the Republic. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 323, ROMAN EMPIRE, 4 Credits
Roman history from 31 B.C. to A.D. 493. The establishment of the Principate, Roman social and private life, the rise of Christianity, the decline and fall of the Western Empire, Rome’s contributions to arts, religion, and law. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 324, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 B.C.E–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 324H, REL 324, REL 324H

HST 324H, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 B.C.E–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: HST 324, REL 324, REL 324H

HST 325, *EARLY CHRISTIANITY: ORIGINS TO 600, 4 Credits
Traces early Christianity from its origins to the beginning of the Middle Ages. It deals with the origins and Jewish background of Christianity in Palestine, the ministry and teachings of Jesus, the spread of Christianity throughout the Roman Empire by his disciples and early missionaries, the formation of the New Testament canon, the development of Christian doctrine, controversies over heresy, and the origin of monasticism and the Papacy. CROSSLISTED as HST 325/REL 325. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: REL 325

HST 326, *HISTORY OF CHRISTIANITY, 4 Credits
Examines the history of global Christianity from the fifth through the seventeenth centuries. Themes to be investigated include the evolving relationship between the church and the state; mysticism; conversion and resistance; the emergence of Protestantism; marriage and sex, as well as women in the history of Christianity. CROSSLISTED as HST 326/REL 326.
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: REL 326
Available via Ecampus
HST 327, HISTORY OF MEDIEVAL EUROPE, 4 Credits
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 284 A.D. to 1000. Not offered every year. CROSSLISTED as HST 327/REL 327. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 327

HST 328, HISTORY OF MEDIEVAL EUROPE, 4 Credits
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 1000 to 1400. Not offered every year. CROSSLISTED as HST 328/REL 328. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 328
Available via Ecampus

HST 329, HISTORY OF EARLY MODERN EUROPE, 4 Credits
Political, social, intellectual, and cultural history of Europe from 1400-1789. Focuses on the Renaissance. HST 329, HST 330, and HST 331 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 330, HISTORY OF EARLY MODERN EUROPE, 4 Credits
Political, social, intellectual, and cultural history of Europe from 1400-1789. Focuses on the Reformation. Not offered every year. CROSSLISTED as HST 330/REL 330. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 330
Available via Ecampus

HST 331, HISTORY OF EARLY MODERN EUROPE, 4 Credits
Political, social, intellectual, and cultural history of Europe from 1400-1789. Focuses on the scientific revolution. HST 329, HST 330, and HST 331 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 333, MEDIEVAL AND EARLY MODERN SPANISH HISTORY, 4 Credits
From Islamic conquest to conquest of America, the social, religious, political and economic history of Spain from 1000 to 1700. Offered fall term in odd years. CROSSLISTED as HST 333/REL 333. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 333

HST 335, *NINETEENTH-CENTURY EUROPE, 4 Credits
A thematic overview of the ‘long’ nineteenth century, from the French Revolution (1789) to the outbreak of the first World War (1914): the industrial revolution and the class struggles that accompanied it; the growing importance of the nation in politics and culture; imperial expansion and Europeans’ contacts with non-Europeans; urbanization; Darwinism and Social Darwinism; and the developments leading to the cataclysm of Europe’s first ‘modern’ war. Not offered every year. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

HST 336, TWENTIETH-CENTURY EUROPE, 4 Credits
Examines the politics, culture, and society of Europe from World War I to the present. Themes include total war; ways that art and literature influenced politics; communist and fascist visions of the relationship of the individual to the society or collective; racial theories and genocide; the cold war division of Europe into East and West; decolonization; and the development of the European Community. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 338, *HITLER’S EUROPE, 4 Credits
Examines WWII and Nazi Germany’s efforts to construct an empire. Themes include: the Nazi Party’s rise to power in 1933 and pursuit of war, battles and occupation policies in Western and Eastern Europe, anti-Semitism and the concept of Lebensraum, collaboration among occupied peoples and Germans, and the Holocaust. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

HST 340, HISTORY OF RUSSIA, 4 Credits
Survey of political, economic, and social developments from the origin of Russia to the post-Soviet period. Focuses on the period from 862 to 1917. Not offered every year. HST 340 and HST 341 need not be taken in sequence. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 440, HST 540
Available via Ecampus

HST 341, HISTORY OF RUSSIA, 4 Credits
Survey of political, economic, and social developments from the origin of Russia to the post-Soviet period. Focuses on the period from 1917 to the present. Not offered every year. HST 340 and HST 341 need not be taken in sequence. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 441, HST 541
Available via Ecampus

HST 344, SPECIAL TOPICS IN RUSSIAN HISTORY, 4 Credits
Special topics and problems in Russian history not covered in other courses. May be repeated when topic varies. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
This course is repeatable for 8 credits.
HST 345, SOCIETY IN MODERN RUSSIA, 4 Credits
Development of Russian/Soviet/Post-Soviet society since 1861, focusing on gender, urbanization, and the general social ramifications of modernization. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 445, HST 545

HST 348, *INDIGENOUS HISTORY OF LATIN AMERICA, 4 Credits
Dedicated to studying the indigenous histories of Mexico, Central, and South America from 2000 BCE to 1600 CE through their own voices with an emphasis on religion, gender, and society. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Available via Ecampus

HST 350, *EARLY LATIN AMERICA, 4 Credits
History of Latin America leading up to and after Spanish and Portuguese conquest. Focus on indigenous American, European and African cultures and religions in contact under colonial government and economic systems. Covers the period from 1400 to 1810. CROSSLISTED as HST 350/REL 350. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 350H, REL 350
Available via Ecampus

HST 350H, *EARLY LATIN AMERICA, 4 Credits
History of Latin America leading up to and after Spanish and Portuguese conquest. Focus on indigenous American, European and African cultures and religions in contact under colonial government and economic systems. Covers the period from 1400 to 1810. CROSSLISTED as HST 350/REL 350. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 350, REL 350

HST 351, *MODERN LATIN AMERICA, 4 Credits
History of the development of Latin America, emphasizing the issues of imperialism, economic dependency, social stratification, political instability, and nationalism within an international context. Covers 1850 to the present. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 351H
Available via Ecampus

HST 352, *AFRICANS IN LATIN AMERICAN HISTORY, 4 Credits
A survey of the role of Africans and their descendants in Latin American history, linking the history of the Americas, Europe and Africa. CROSSLISTED as HST 352/REL 352. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: REL 352
Recommended: HST 350 and HST 351

HST 353, *SLAVERY IN THE AMERICAS, 4 Credits
A survey of the roles of Africans and their descendants in the history of the Atlantic World, linking Europe, Africa, and the Americas. Examines slavery and freedom in the African Diaspora, as well as social, cultural, and spiritual life. CROSSLISTED as HST 353/REL 353. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Available via Ecampus

HST 362, WOMEN IN UNITED STATES HISTORY, 4 Credits
Women in the United States--their roles in and contribution to American political, economic, social, cultural, and intellectual life. Course sequence pays particular attention to the diversity of American women's backgrounds and experiences. Covers 1620 to 1890. Not offered every year. HST 362 and HST 363 need not be taken in sequence. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 363, WOMEN IN UNITED STATES HISTORY, 4 Credits
Women in the United States--their roles in and contribution to American political, economic, social, cultural, and intellectual life. Course sequence pays particular attention to the diversity of American women's backgrounds and experiences. Covers 1890 to the present. Not offered every year. HST 362 and HST 363 need not be taken in sequence. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 364, *UNITED STATES RELIGION AND SOCIAL REFORM, 4 Credits
Provides an awareness of how various religious groups have thought about and engaged with social change pertaining to slavery, feminism, civil rights, same-sex marriage, and immigration. Focus on reading primary sources related to each of these issues. CROSSLISTED as HST 364/REL 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: REL 364
Available via Ecampus

HST 365, *THE CIVIL RIGHTS MOVEMENT IN THE MODERN U.S., 4 Credits
An exploration of the 'long civil rights movement' among African Americans and their allies during the 20th century United States, with attention to the structure of racial inequality, movement philosophies and strategies, white allies and opponents, relationships to other freedom movements, and the movement's legacies. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: HST 365H
HST 365H, *THE CIVIL RIGHTS MOVEMENT IN THE MODERN U.S., 4 Credits
An exploration of the 'long civil rights movement' among African Americans and their allies during the 20th century United States, with attention to the structure of racial inequality, movement philosophies and strategies, white allies and opponents, relationships to other freedom movements, and the movement’s legacies. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 365

HST 366, *NATIVE NORTH AMERICA, 4 Credits
Explores the history, culture, and representation of various Native American groups from the pre-Columbian era to the twenty-first century. Through a range of interdisciplinary readings and media, students will explore themes like the construction and maintenance of cultural identity, politics and warfare between indigenous groups and European or American interlopers, the influence of Native economies, and Native groups' persistence in American life amidst ongoing economic and demographic change. (Bacc Core Course) (H)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 367, *HISTORY OF LATINA/OS IN THE UNITED STATES, 4 Credits
Exploration and analysis of the Latino/a experience in the United States. Traces the Native American, Spanish, and African roots of Latinos from colonization to the present day. Analyzes the political, social, economic, and cultural develops of six major Latino groups in the United States: Central Americans, Cubans, Dominicans, Mexicans, Puerto Ricans and South Americans. Explores the similarities and differences between these groups, as well as the unique problems faced by each groups of Latinos. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

HST 368, *LESBIAN AND GAY MOVEMENTS IN MODERN AMERICA, 4 Credits
Examination of lesbian and gay male identities, lives, and collectivities in American culture from the post-Civil War period to the present. The political and cultural participation, rather than human sexual behaviors, orientations, or values. Not offered every year. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Available via Ecampus

HST 369, **IMMIGRATION TO THE U.S. SINCE 1880, 4 Credits
The history of immigrants to the U.S. after 1880. Focuses on the experience of immigrants and their children in the U.S. and on the history of U.S. immigration policy. Includes several types of writing assignments: nongraded, drafts and revisions, and a research paper using outside primary and secondary sources and scholarly notations specific to the discipline of history. HST 369 satisfies WIC requirement for Liberal Studies majors but not History majors. (Baccalaureate Core Course) (Writing Intensive Course) Taught via Ecampus only.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CWIC – Core, Skills, WIC
Available via Ecampus

HST 370, *SOCIAL CHANGE AND AMERICAN POPULAR MUSIC, 4 Credits
An examination of the interactions between social history and popular music, including creation, performance, production, distribution, and reception. Social, ethnic, and economics groups have notoriously used popular music to identify themselves and their boundaries. This course examines how the functions of popular music in our culture and economy have changed over time, and the ways in which popular music reflects and sometimes helps precipitate social change. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

HST 375, *GLOBAL HISTORY OF SPORTS, 4 Credits
Historical and contemporary examination of the ties between global sports and politics, economy, culture, and society. Particular attention devoted to the development of various sports and their modern articulation. Among other, the course deals with these crucial questions: How is ‘sports’ defined? What led to the development of different sports in different places throughout the world? How are global sports institutions influencing our lives? What are the changes witnessed in consuming sports in the last half a century? How can sports tackle institutionalized racism, but also promote nefarious practices, chauvinism, and exclusion based on ethnicity or religion?
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

HST 378, *RELIGION AND GENDER: A GLOBAL PERSPECTIVE, 4 Credits
Introduces students to the academic study of religion, as well as the academic study of gender. In order to offer a global perspective, we will read a series of case studies that deal with the religion as a gendered experience. Students will produce two essays, one of which will be based on independent research. CROSSLISTED as HST 378/REL 378/ WGSS 378. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: REL 378, WGSS 378
Available via Ecampus
HST 381, *HISTORY OF AFRICA, 4 Credits
History of Africa from earliest times to present, including origins of human society, slave trade, European imperialism and African nationalism. Covers Africa before 1830. HST 381 and HST 382 need not be taken in sequence. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core

HST 382, *HISTORY OF AFRICA, 4 Credits
History of Africa from earliest times to present, including origins of human society, slave trade, European imperialism and African nationalism. Covers Nineteenth and Twentieth century Africa. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core

HST 382H, *HISTORY OF AFRICA, 4 Credits
History of Africa from earliest times to present, including origins of human society, slave trade, European imperialism and African nationalism. Covers Nineteenth and Twentieth century Africa. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 382
Available via Ecampus

HST 385, *THE ARAB-ISRAELI CONFLICT, 4 Credits
Examination of the origins of the Arab-Israeli conflict and subsequent efforts to find a lasting solution. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 385H

HST 385H, *THE ARAB-ISRAELI CONFLICT, 4 Credits
Examination of the origins of the Arab-Israeli conflict and subsequent efforts to find a lasting solution. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 385

HST 386, *MODERN IRAN: REVOLUTION AND ITS AFTERMATH, 4 Credits
The history of 20th century Iran with a focus on the Islamic revolution and its consequences. Readings will provide the cultural and political background for understanding contemporary Iran and its place in the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 386H

HST 386H, *MODERN IRAN: REVOLUTION AND ITS AFTERMATH, 4 Credits
The history of 20th century Iran with a focus on the Islamic revolution and its consequences. Readings will provide the cultural and political background for understanding contemporary Iran and its place in the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HST 386

HST 387, *ISLAMIC CIVILIZATION, 4 Credits
Political, social, and religious developments from 600 to 1400. Early history and the formation of Islamic society to the Mongol invasion. CROSSLISTED as HST 387/REL 387. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: REL 387

HST 388, *ISLAMIC CIVILIZATION, 4 Credits
Political, social, and religious developments from 1400 to the present. The expansion of Islam, Turkic, and Asian dynasties, impact of Western imperialism and modern Islamic world. CROSSLISTED as HST 388/REL 388. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: REL 388
Available via Ecampus

HST 390, *MIDEAST WOMEN: IN THEIR OWN WORDS, 4 Credits
The lives of modern Middle Eastern women as told in memoirs, autobiography and film. First-person narratives and film portrayals provide the means for understanding historical events and contemporary trends in the region. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 390H

HST 390H, *MIDEAST WOMEN: IN THEIR OWN WORDS, 4 Credits
The lives of modern Middle Eastern women as told in memoirs, autobiography and film. First-person narratives and film portrayals provide the means for understanding historical events and contemporary trends in the region. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HST 390

HST 391, *TRADITIONAL CHINA AND JAPAN, 4 Credits
Prehistory to Western encounters in the middle of the nineteenth century, with emphasis on the philosophical, artistic heritage, and social institutions of these two countries which form East Asia. HST 391 and HST 392 need not be taken in sequence. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Available via Ecampus
**HST 392, *MODERN CHINA AND JAPAN, 4 Credits**
From the opening of East Asia in the mid-nineteenth century to the present, with emphasis on modern political movements and cultural transformation. HST 391 and HST 392 need not be taken in sequence. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Available via Ecampus

**HST 396, *GENDER, FAMILY AND POLITICS IN TRADITIONAL CHINA, 4 Credits**
Study of the interaction between gender, family and politics as major factors shaping traditional Chinese experience. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

**HST 397, *GENDER, FAMILY AND POLITICS IN MODERN CHINA, 4 Credits**
Study of the interaction between gender, family and politics as three factors shaping modern Chinese experience. Elective for history majors. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

**HST 399, SPECIAL TOPICS, 1-16 Credits**
Equivalent to: HST 399H
This course is repeatable for 16 credits.

**HST 399H, SPECIAL TOPICS, 1-16 Credits**
Attributes: HNRS – Honors Course Designator
Equivalent to: HST 399
This course is repeatable for 16 credits.

**HST 401, RESEARCH, 1-16 Credits**
This course is repeatable for 16 credits.

**HST 402, INDEPENDENT STUDY, 1-16 Credits**
This course is repeatable for 16 credits.
Available via Ecampus

**HST 403, THESIS, 1-16 Credits**
This course is repeatable for 16 credits.
Available via Ecampus

**HST 405, READING AND CONFERENCE, 1-16 Credits**
This course is repeatable for 16 credits.

**HST 406, PROJECTS, 1-16 Credits**
This course is repeatable for 16 credits.

**HST 407, ^SEMINAR, 5 Credits**
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Equivalent to: HST 407
This course is repeatable for 20 credits.

**HST 407H, ^SEMINAR, 5 Credits**
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC; HNRS – Honors Course Designator
Equivalent to: HST 407
This course is repeatable for 20 credits.

**HST 410, HISTORY INTERNSHIP, 1-12 Credits**
Supervised work of a historical nature with historical societies, archives, museums, or other public or private organizations. No more than 6 of the maximum 12 credits may be used to satisfy the history major requirement of 51 credits.
This course is repeatable for 12 credits.
Available via Ecampus

**HST 415, SELECTED TOPICS, 4 Credits**
Selected topics of special or current interest not covered in other courses. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 415H
This course is repeatable for 99 credits.

**HST 415H, SELECTED TOPICS, 4 Credits**
Selected topics of special or current interest not covered in other courses. (H)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 415
This course is repeatable for 99 credits.

**HST 416, *FOOD IN WORLD HISTORY, 4 Credits**
Historical analysis of food and cooking from pre-history to the present, with an emphasis on cross-cultural differences of food production and consumption. (Bacc Core Course) (H)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Available via Ecampus

**HST 417, *HISTORY OF BEER AND BREWING, 4 Credits**
History of beer and brewing from the beginnings of civilization through the modern microbrewery movement.
Attributes: CSST – Core, Synthesis, Science/Technology/Society

**HST 421, HELLENISTIC GREECE, 4 Credits**
History of the Greek world from the end of the Peloponnesian War to the Roman conquest of Greece; the careers of Alexander the Great and his successors; the art, literature, science, religion, and philosophy of the post-classical or Hellenistic world. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

**HST 422, MEDIEVAL SLAVERY, 4 Credits**
A seminar-style course on the history of slavery from late Rome until the beginning of the Atlantic slave trade. Focuses on both primary sources which shed light on premodern slavery, and on recent scholarly debates, as seen in secondary sources. Through the study of slavery, students will investigate the social and cultural history of the long Middle Ages, including questions of class, religion, economics, gender, race, and law.
HST 425, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425H, REL 425, REL 425H
Available via Ecampus

HST 425H, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, REL 425, REL 425H

HST 426, WORLD WAR I: A GLOBAL HISTORY, 4 Credits
Examines World War I from a global perspective, its origins, the course of the conflict and its aftermath, looking especially at Great Britain, France, Russia, Germany and their colonial possessions. Topics will include the concept of total war and the home fronts of a number of nations.
Prerequisite: HST 103 with D- or better

HST 427, TEACHING THE HOLOCAUST, 4 Credits
Provides a broad sense of the Holocaust; reviews the event itself, its long-term background (the history of anti-Semitism), and the rise of Nazism and Fascism in the years before World War II. Examines what has been learned from the Holocaust and addresses the broader issue of genocide, especially in the 20th century.

HST 430, HISTORY OF WESTERN THOUGHT, 4 Credits
A synthesis of major developments in philosophy, science, social, and political theory and the arts between 1890 and 1945. Not offered every year. HST 428, HST 429, HST 430 need not be taken in sequence. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 431, *A HISTORY OF CHILDHOOD, 4 Credits
Examines childhood as a social and historical construct and explores how race, class, gender, and geography have created unequal access to this protected category for individual children and continues to produce inequalities in children’s health, education, and access to designated safe spaces. Explores how historical phenomena have impacted children, including colonialism, slavery, revolution, the rise of the modern state, the professionalization of medicine and social work, compulsory education, developing legal concepts about children’s rights, the development of consumer mass culture, WWI, WWII, and the Cold War. Traces shifting understandings of the ‘normal’ child. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

HST 432, THE HISTORY OF SEXUALITY, 4 Credits
The history of human sexuality from ancient Greece to the present. (H) (SS)
Attributes: LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 432H

HST 432H, THE HISTORY OF SEXUALITY, 4 Credits
The history of human sexuality from ancient Greece to the present. (H) (SS)
Attributes: HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HST 432

HST 433, ENGLISH HISTORY, 4 Credits
The major political, cultural, economic, social and religious developments that have shaped the history of England and ultimately of America and much of the world. Medieval and Tudor-Stuart England. HST 433/HST 533, HST 434/HST 534 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 434, ENGLISH HISTORY, 4 Credits
The major political, cultural, economic, social and religious developments that have shaped the history of England and ultimately of America and much of the world. England since 1688. HST 433/HST 533, HST 434/HST 534 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 435, THE HISTORY OF EUROPEAN WOMEN FROM 1400 TO 1789, 4 Credits
Focuses on the social, economic, and cultural roles women in Europe between 1400 and 1789. Topics include Christianity and women, the Renaissance lady, the European witch craze, women rulers, the debate about female intellectual abilities, and the beginning of the campaign for female equality.
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 102 and HST 103
HST 436, HISTORY OF MODERN GERMANY, 4 Credits
Political, economic, social and intellectual developments from 1815 through the imperial, Weimar, and Nazi eras to the present. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 452, MODERN MEXICO, 4 Credits
History of Mexico since 1810—economic, political, and social change and relations with the United States. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 350 or HST 351 or upper-division standing.

HST 456, PROBLEMS IN LATIN AMERICAN HISTORY, 4 Credits
A focused examination of the origins and development of selective institutions and problems important to understanding the region, such as the church, the military, labor, political instability, economic stagnation, and social stratification. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 350 or HST 351 or upper-division standing.

HST 464, AMERICAN DIPLOMATIC HISTORY, 4 Credits
American diplomatic relations from the nation's founding to 1898. HST 464/HST 564 and HST 465/HST 565 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.

HST 465, *AMERICAN DIPLOMATIC HISTORY, 4 Credits
American diplomatic relations from 1898 to the present. HST 464/ HST 564 and HST 465/HST 565 need not be taken in sequence. Not offered every year. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 465H
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.

HST 465H, *AMERICAN DIPLOMATIC HISTORY, 4 Credits
American diplomatic relations from 1898 to the present. HST 464/ HST 564 and HST 465/HST 565 need not be taken in sequence. Not offered every year. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 465
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.

HST 466, RELIGION AND U.S. FOREIGN RELATIONS, 4 Credits
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSLISTED as HST 466/REL 466 and HST 566/REL 566.
Equivalent to: REL 466
Recommended: HST 202 and HST 203 or upper-division standing.

HST 467, HISTORY OF THE AMERICAN WEST, 4 Credits
Important themes in the transformation of western America from the pre-industrial world of native Americans to the emergence of the region as a major force in the cultural, economic, and political life of the United States. HST 467/HST 567 and HST 468/HST 568 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.

HST 468, HISTORY OF THE AMERICAN WEST, 4 Credits
Important themes in the transformation of western America from the pre-industrial world of native Americans to the emergence of the region as a major force in the cultural, economic, and political life of the United States. HST 467/HST 567 and HST 468/HST 568 need not be taken in sequence. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.
Available via Ecampus

HST 469, HISTORY OF THE PACIFIC NORTHWEST, 4 Credits
The demographic, ecological, and cultural transformation of Oregon, Washington, and Idaho from Indian times to the present. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 and HST 203 or upper-division standing.

HST 470, RELIGION IN THE AMERICAN WEST, 4 Credits
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSLISTED as HST 470/REL 470 and HST 570/REL 570.
Equivalent to: REL 470
HST 471, COLONIAL AMERICA, 4 Credits
Economic, political, social, religious, and intellectual development of colonial North America from the English background to 1689. HST 471/ HST 571, HST 472/572 need not be taken in sequence. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 or upper-division standing.

HST 472, COLONIAL AMERICA, 4 Credits
Economic, political, social, religious, and intellectual development of colonial North America from 1689 to 1763. HST 471/HST 571, HST 472/572 need not be taken in sequence. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 or upper-division standing.

HST 473, THE ERA OF THE AMERICAN REVOLUTION, 4 Credits
The American Revolution, the drafting of the Constitution, and the launching of the new nation, 1763 to 1789. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 or upper-division standing.

HST 474, JEFFERSONIAN AND JACKSONIAN DEMOCRACY, 4 Credits
American political, economic, religious, and social development during the early and middle national era with emphasis on the formation and growth of political parties, territorial expansion and western settlement, and the beginnings of sectional conflict. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 201 and HST 202 or upper-division standing.

HST 475, CIVIL WAR AND RECONSTRUCTION, 4 Credits
Origins of the war, nature of the war, and the critical postwar era, 1830s to 1880s, with special attention to the changing historiography of the period. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 202 or upper-division standing.

HST 477, THE PROGRESSIVE AND NEW DEAL ERAS, 4 Credits
Twentieth-century U.S. history from 1900 to 1939, with emphasis on political and economic developments; attention given to diplomatic, cultural, and social change. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 203

HST 478, THE U.S. SINCE 1939, 4 Credits
United States political, cultural, and diplomatic history from the Second World War through the 1970s, with special emphasis on the Cold War at home and abroad. Not offered every year. (H) 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 203 or upper-division standing.

HST 481, *ENVIRONMENTAL HISTORY OF THE UNITED STATES, 4 Credits
A study of human interaction with the environment and the transformation of the landscape and ecology of North America from the Indian period to the present, with special attention to the progressive alterations induced by the modernizing world of agriculture, industry, urbanism, and their relation to the market system in the United States. Not offered every year. (H) (Bacc Core Course) 
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Recommended: HST 201, HST 202 and HST 203
Available via Ecampus

HST 484, RELIGION AND LAW, 4 Credits
Investigates the relationship between religion and law in Jewish, Christian, and Muslim society, as well as modern western “secular” society, considering the question from a theoretical, historical, and contemporary case-study perspective. We will look at the religious origins of legal systems, the ways in which members of religious communities engaged with their own and others’ laws, and the ways in which modern societies have used law to separate “religion” from the state. CROSSLISTED as HST 484/REL 484 and HST 584/REL 584. 
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 484

HST 485, *POLITICS AND RELIGION IN THE MODERN MIDDLE EAST, 4 Credits
The role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSLISTED as HST 485/REL 485 and HST 585/REL 585. (H) (NC) 
Attributes: CPCD – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: REL 485

HST 486, A HISTORY OF CHRISTIANITY IN AFRICA, 4 Credits
An investigation of the historical development and changing character of Christianity in Africa. Topics include the examination of the role of Christianity in the development of social identity and politics in historic Ethiopia from the early first millennium CE, Portuguese missionary efforts in Central Africa during the period of the Atlantic slave trade from the 15th to the 18th centuries; the role of 19th century missionaries in both spreading Christianity in Africa and during the European colonization of Africa at the end of the 19th century, the emergence of African independence churches and prophetic Christianity in the 20th century; and the 
Attributes: LACH – Liberal Arts Humanities Core
Recommended: HST 381 and/or HST 382
HST 487, WORLD WAR II: A GLOBAL HISTORY, 4 Credits
Examines World War II from a global perspective, its origins, the course of the conflict and its aftermath, looking especially at the US, USSR, Britain, Germany and Japan. Topics will include the concept of total war and the home fronts of a number of nations.
Recommended: HST 103
Available via Ecampus

HST 488, THE UNITED STATES AND VIETNAM 1945-1995, 4 Credits
Examines the Vietnam War from both the US and Vietnamese perspective within the context of the Cold War. Political, military, social and moral issues will be covered within the concept of American exceptionalism.
Available via Ecampus

HST 490, *ISRAELI SOCIETY AND PLURALISM, 4 Credits
Overwhelmingly a nation of immigrants, modern Israel displays an extraordinary amount of ethnic and social diversity among the 75% of its citizens who identify as Jews and among the 25% defined as Arab or “other.” By introducing students to Israel’s ethnic, religious, LGBTQ, migrant worker and refugee communities, this course examines the tensions that inform Israel’s efforts to construct a national identity within a multicultural society. Israel aspires to be both liberal democratic and Jewish, secular and religious. As such, it provides an unparalleled case study for investigating how a society negotiates the dynamics of inclusion, exclusion and difference.
Attributes: CSGI – Core, Synth, Global Issues

HST 494, MODERN JAPAN: A CULTURAL HISTORY, 4 Credits
Japanese history from the Meiji to the contemporary period (1980s/1990s). Examination of Japanese tradition and the Tokugawa period. Investigation of Westernization/modernization, imperialism, national identity, gender, atomic bomb(s), and post-war culture. (H)
Attributes: LACH – Liberal Arts Humanities Core

HST 495, CHINA IN 20TH CENTURY, 4 Credits
Treats the decline of the Confucian tradition, shifts in the economy, and metamorphoses of the political system. Attention is given to China’s attempt to balance her Communist revolutionary legacies with her current modernizing goals. (H) (NC)
Attributes: LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Recommended: HST 391 and HST 392 or upper-division standing.

HST 499, SPECIAL TOPICS, 1-16 Credits
Supervised readings designed to allow students to explore in depth key issues in Asian history. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 499H
This course is repeatable for 16 credits.

HST 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HST 499
This course is repeatable for 16 credits.
HST 521, HELLENISTIC GREECE, 4 Credits
History of the Greek world from the end of the Peloponnesian War to the Roman conquest of Greece; the careers of Alexander the Great and his successors; the art, literature, science, religion, and philosophy of the post-classical or Hellenistic world. Not offered every year.
Recommended: HST 101

HST 522, MEDIEVAL SLAVERY, 4 Credits
A seminar-style course on the history of slavery from late Rome until the beginning of the Atlantic slave trade. Focuses on both primary sources which shed light on premodern slavery, and on recent scholarly debates, as seen in secondary sources. Through the study of slavery, students will investigate the social and cultural history of the long Middle Ages, including questions of class, religion, economics, gender, race, and law.

HST 525, THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525.
Equivalent to: REL 525
Available via Ecampus

HST 526, WORLD WAR I: A GLOBAL HISTORY, 4 Credits
Examines World War I from a global perspective, its origins, the course of the conflict and its aftermath, looking especially at Great Britain, France, Russia, Germany and their colonial possessions. Topics will include the concept of total war and the home fronts of a number of nations.
Recommended: HST 103

HST 527, TEACHING THE HOLOCAUST, 4 Credits
Provides a broad sense of the Holocaust; reviews the event itself, its long-term background (the history of anti-Semitism), and the rise of Nazism and Fascism in the years before World War II. Examines what has been learned from the Holocaust and addresses the broader issue of genocide, especially in the 20th century.

HST 530, HISTORY OF WESTERN THOUGHT, 4 Credits
A synthesis of major developments in philosophy, science, social, and political theory and the arts between 1890 and 1945. Not offered every year. HST 528, HST 529, HST 530 need not be taken in sequence.

HST 531, A HISTORY OF CHILDHOOD, 4 Credits
Examines childhood as a social and historical construct and explores how race, class, gender, and geography have created unequal access to this protected category for individual children and continues to produce inequalities in children's health, education, and access to designated safe spaces. Explores how historical phenomena have impacted children, including colonialism, slavery, revolution, the rise of the modern state, the professionalization of medicine and social work, compulsory education, developing legal concepts about children's rights, the development of consumer mass culture, WWI, WWII, and the Cold War. Traces shifting understandings of the 'normal' child.

HST 532, THE HISTORY OF SEXUALITY, 4 Credits
The history of human sexuality from ancient Greece to the present.

HST 533, ENGLISH HISTORY, 4 Credits
The major political, cultural, economic, social and religious developments that have shaped the history of England and ultimately of America and much of the world. Medieval and Tudor-Stuart England. HST 433/HST 533, HST 434/HST 534 need not be taken in sequence. Not offered every year.

HST 534, ENGLISH HISTORY, 4 Credits
The major political, cultural, economic, social and religious developments that have shaped the history of England and ultimately of America and much of the world. England since 1688. HST 433/HST 533, HST 434/HST 534 need not be taken in sequence. Not offered every year.

HST 535, THE HISTORY OF EUROPEAN WOMEN FROM 1400 TO 1789, 4 Credits
Focuses on the social, economic, and cultural roles women in Europe between 1400 and 1789. Topics include Christianity and women, the Renaissance lady, the European witch craze, women rulers, the debate about female intellectual abilities, and the beginning of the campaign for female equality.
Recommended: HST 102 or HST 103

HST 536, HISTORY OF MODERN GERMANY, 4 Credits
Political, economic, social and intellectual developments from 1815 through the imperial, Weimar, and Nazi eras to the present. Not offered every year.

HST 552, MODERN MEXICO, 4 Credits
History of Mexico since 1810—economic, political, and social change and relations with the United States. Not offered every year.
Recommended: HST 350 or HST 351

HST 556, PROBLEMS IN LATIN AMERICAN HISTORY, 4 Credits
A focused examination of the origins and development of selective institutions and problems important to understanding the region, such as the church, the military, labor, political instability, economic stagnation, and social stratification.
Recommended: HST 350 or HST 351
HST 564, AMERICAN DIPLOMATIC HISTORY, 4 Credits
American diplomatic relations from the nation’s founding to 1898. HST 464/HST 564 and HST 465/HST 565 need not be taken in sequence. Not offered every year.
Recommended: HST 201 and HST 202 and HST 203

HST 565, AMERICAN DIPLOMATIC HISTORY, 4 Credits
American diplomatic relations from 1898 to the present. HST 464/HST 564 and HST 465/HST 565 need not be taken in sequence. Not offered every year.
Recommended: HST 201 and HST 202 and HST 203

HST 566, RELIGION AND U.S. FOREIGN RELATIONS, 4 Credits
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSLISTED as HST 466/REL 466 and HST 566/REL 566.
Equivalent to: REL 566
Recommended: HST 202 and HST 203

HST 567, HISTORY OF THE AMERICAN WEST, 4 Credits
Important themes in the transformation of western America from the pre-industrial world of native Americans to the emergence of the region as a major force in the cultural, economic, and political life of the United States. HST 467/HST 567 and HST 468/HST 568 need not be taken in sequence. Not offered every year.
Recommended: HST 201 and HST 202 and HST 203

HST 568, HISTORY OF THE AMERICAN WEST, 4 Credits
Important themes in the transformation of western America from the pre-industrial world of native Americans to the emergence of the region as a major force in the cultural, economic, and political life of the United States. HST 467/HST 567 and HST 468/HST 568 need not be taken in sequence. Not offered every year.
Recommended: HST 201 and HST 202 and HST 203

HST 569, HISTORY OF THE PACIFIC NORTHWEST, 4 Credits
The demographic, ecological, and cultural transformation of Oregon, Washington, and Idaho from Indian times to the present. Not offered every year.
Recommended: HST 201 and HST 202 and HST 203

HST 570, RELIGION IN THE AMERICAN WEST, 4 Credits
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSLISTED as HST 470/REL 470 and HST 570/REL 570.
Equivalent to: REL 570

HST 571, COLONIAL AMERICA, 4 Credits
Economic, political, social, religious, and intellectual development of colonial North America from the English background to 1689. HST 471/HST 571, HST 472/572 need not be taken in sequence. Not offered every year.
Recommended: HST 201

HST 572, COLONIAL AMERICA, 4 Credits
Economic, political, social, religious, and intellectual development of colonial North America from 1689 to 1763. HST 471/HST 571, HST 472/572 need not be taken in sequence. Not offered every year.
Recommended: HST 201

HST 573, THE ERA OF THE AMERICAN REVOLUTION, 4 Credits
The American Revolution, the drafting of the Constitution, and the launching of the new nation, 1763 to 1789. Not offered every year.
Recommended: HST 201

HST 574, JEFFERSONIAN AND JACKSONIAN DEMOCRACY, 4 Credits
American political, economic, religious, and social development during the early and middle national era with emphasis on the formation and growth of political parties, territorial expansion and western settlement, and the beginnings of sectional conflict. Not offered every year.
Recommended: HST 201 and HST 202

HST 575, CIVIL WAR AND RECONSTRUCTION, 4 Credits
Origins of the war, nature of the war, and the critical postwar era, 1830s to 1880s, with special attention to the changing historiography of the period. Not offered every year.
Recommended: HST 202

HST 577, THE PROGRESSIVE AND NEW DEAL ERAS, 4 Credits
Twentieth-century U.S. history from 1900 to 1939, with emphasis on political and economic developments; attention given to diplomatic, cultural, and social change. Not offered every year.
Recommended: HST 203

HST 578, THE U.S. SINCE 1939, 4 Credits
United States political, cultural, and diplomatic history from the Second World War through the 1970s, with special emphasis on the Cold War at home and abroad. Not offered every year.
Recommended: HST 203
HST 581, ENVIRONMENTAL HISTORY OF THE UNITED STATES, 4 Credits
A study of human interaction with the environment and the transformation of the landscape and ecology of North America from the Indian period to the present, with special attention to the progressive alterations induced by the modernizing world of agriculture, industry, urbanism, and their relation to the market system in the United States. Not offered every year.
Recommended: HST 201, HST 202, HST 203

HST 584, RELIGION AND LAW, 4 Credits
Investigates the relationship between religion and law in Jewish, Christian, and Muslim society, as well as modern western “secular” society, considering the question from a theoretical, historical, and contemporary case-study perspective. We will look at the religious origins of legal systems, the ways in which members of religious communities engaged with their own and others’ laws, and the ways in which modern societies have used law to separate “religion” from the state. CROSSTLISTED as HST 484/REL 484 and HST 584/REL 584.
Equivalent to: REL 584

Topics include the examination of the role of Christianity in the development of social identity and politics in historic Ethiopia from the early first millennium CE; Portuguese missionary efforts in Central Africa during the period of the Atlantic slave trade from the 15th to the 18th centuries; the role of 19th century missionaries in both spreading Christianity in Africa and during the European colonization of Africa at the end of the 19th century; the emergence of African independence churches and prophetic Christianity in the 20th century; and the
Recommended: HST 381 and/or HST 382

HST 587, WORLD WAR II: A GLOBAL HISTORY, 4 Credits
Examines World War II from a global perspective, its origins, the course of the conflict and its aftermath, looking especially at the US, USSR, Britain, Germany and Japan. Topics will include the concept of total war and the home fronts of a number of nations.
Recommended: Completion or concurrent enrollment in HST 103

HST 588, THE UNITED STATES AND VIETNAM 1945-1995, 4 Credits
Examines the Vietnam War from both the US and Vietnamese perspective within the context of the Cold War. Political, military, social and moral issues will be covered within the concept of American exceptionalism.

HST 590, ISRAELI SOCIETY AND PLURALISM, 4 Credits
Overwhelmingly a nation of immigrants, modern Israel displays an extraordinary amount of ethnic and social diversity among the 75% of its citizens who identify as Jews and among the 25% defined as Arab or “other.” By introducing students to Israel’s ethnic, religious, LGBTQ, migrant worker and refugee communities, this course examines the tensions that inform Israel’s efforts to construct a national identity within a multicultural society. Israel aspires to be both liberal democratic and Jewish, secular and religious. As such, it provides an unparalleled case study for investigating how a society negotiates the dynamics of inclusion, exclusion and difference.

HST 594, MODERN JAPAN: A CULTURAL HISTORY, 4 Credits
Japanese history from the Meiji to the contemporary period (1980s/1990s). Examination of Japanese tradition and the Tokugawa period. Investigation of Westernization/modernization, imperialism, national identity, gender, atomic bomb(s), and post-war culture.

HST 595, CHINA IN 20TH CENTURY, 4 Credits
Treats the decline of the Confucian tradition, shifts in the economy, and metamorphoses of the political system. Attention is given to China’s attempt to balance her Communist revolutionary legacies with her current modernizing goals.
Recommended: HST 391 and HST 392

HST 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

History of Science (HSTS)

HST 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

HST 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

HST 407, SEMINAR, 1-16 Credits
Equivalent to: HSTS 407H
This course is repeatable for 16 credits.

HST 411, *HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas within their social and cultural contexts. Scientific thought from ancient civilizations to the post-Roman era. Not offered every year. HST 411/HST 511, HST 412/HST 512, HST 413/HST 513 need not be taken in sequence. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Recommended: Upper-division standing and at least one science sequence
HSTS 412, *HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas within their social and cultural context. Origin of modern science in the 16th and 17th centuries. HSTS 411/HSTS 511, HSTS 412/HSTS 512, HSTS 413/HSTS 513 need not be taken in sequence. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and at least one science sequence.

HSTS 413, *HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas with their social and cultural context. Development of modern science in the 18th and 19th centuries and to the present. HSTS 411/HSTS 511, HSTS 412/HSTS 512, HSTS 413/HSTS 513 need not be taken in sequence. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and at least one science sequence.

HSTS 414, *HISTORY OF TWENTIETH-CENTURY SCIENCE, 4 Credits
Focuses on the organization, practice, and theories of the natural sciences in the twentieth century, with emphasis primarily on the European and American scientific traditions from the 1890s to the present. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

HSTS 415, **THEORY OF EVOLUTION AND FOUNDATION OF MODERN BIOLOGY, 4 Credits
Origin and development of Darwin's theory of evolution. Reception of theory and history of evolution to the present. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 415H
Recommended: Upper-division standing.
Available via Ecampus

HSTS 415H, **THEORY OF EVOLUTION AND FOUNDATION OF MODERN BIOLOGY, 4 Credits
Origin and development of Darwin's theory of evolution. Reception of theory and history of evolution to the present. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 415

HSTS 416, *HISTORY OF MEDICINE PRE-1800, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine's development to general changes in science and culture, to 1800. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

HSTS 417, **HISTORY OF MEDICINE, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine's development to general changes in science and culture. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 417H
Available via Ecampus

HSTS 417H, **HISTORY OF MEDICINE, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine's development to general changes in science and culture. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 417

HSTS 418, *SCIENCE AND SOCIETY, 4 Credits
Historical study of the interaction of science and society. Case studies are used from the 18th through 20th centuries. Topics vary by term. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

HSTS 419, **STUDIES IN SCIENTIFIC CONTROVERSY: METHODS AND PRACTICES, 4 Credits
Course focuses on accounts of scientific discoveries that have been controversial, to understand the rational, psychological, and social characteristics which have defined the meaning and procedures of the natural sciences. Case studies are used from the 18th through 20th centuries. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 419H
Available via Ecampus
HSTS 419H, STUDIES IN SCIENTIFIC CONTROVERSY: METHODS AND PRACTICES, 4 Credits
Course focuses on accounts of scientific discoveries that have been controversial, to understand the rational, psychological, and social characteristics which have defined the meaning and procedures of the natural sciences. Case studies are used from the 18th through 20th centuries. (H) (SS) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core
Equivalent to: HSTS 419

HSTS 421, TECHNOLOGY AND CHANGE, 4 Credits
Current views of technology and associated cultural changes and the contexts in which these developed; the changing role of technology in modern industrial society, especially in the United States; recent efforts to predict and control technological developments and the social and cultural consequences. (H) (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core; LACS – Liberal Arts Social Core

HSTS 422, HISTORICAL STUDIES OF SCIENCE AND POLITICS, 4 Credits
The historical study of scientists, their work, their political and ethical choices mainly in the United States and Europe from the 1920s to the 1950s. (H) (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core

HSTS 423, SCIENCE AND RELIGION, 4 Credits
A historical survey of critical issues in the relationship of Western science and religion from ancient times to the end of the twentieth century. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core

HSTS 425, HISTORY OF THE LIFE SCIENCES, 4 Credits
History of ideas about life from Greeks to present day. Cultural background and development of major theories of the life sciences with emphasis on natural history. (Bacc Core Course) (Writing Intensive Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC
Recommended: Upper-division standing plus one year college sciences.

HSTS 437, HISTORY OF ANIMALS IN SCIENCE, 4 Credits
Using a variety of sources, this course explores the ways humans have thought about and used animals in science and medicine from the seventeenth century to the present. How has science constructed the boundaries between humans and animals, and what have the consequences been for each? (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

HSTS 440, HISTORY OF PSYCHOTHERAPY, 4 Credits
The history of psychotherapy in modern Western societies, from biomedical, cultural, political, and psychosocial perspectives. Not offered every year. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Equivalent to: HSTS 440
Available via Ecampus

HSTS 440H, HISTORY OF PSYCHOTHERAPY, 4 Credits
The history of psychotherapy in modern Western societies, from biomedical, cultural, political, and psychosocial perspectives. Not offered every year. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HSTS 440

HSTS 451, THE HISTORY OF OUTER SPACE, 4 Credits
Advancements in technology and science has made it possible to observe, robotically explore, personally visit, and daily use outer space including an overview of what we have learned, how this endeavor has shaped human civilization and culture, and what may lie ahead. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

HSTS 452, A WOMEN’S HISTORY OF OUTER SPACE, 4 Credits
Since early Babylon, women have also observed the sky, performed fundamental calculations, examined astronomical plates, and made significant fundamental discoveries that changed the way we see the cosmos. At NASA, women have gone from purely secretarial positions in 1958 to commanding the International Space Station and administering the Mars Rover Program today. These advancements in opportunity and responsibility reflect a larger story of how traditional roles for women have evolved in response to changes in both technology and social norms. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

HSTS 499, SPECIAL TOPICS, 1-16 Credits
(H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HSTS 499H
This course is repeatable for 16 credits.
HSTS 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

HSTS 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

HSTS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

HSTS 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

HSTS 511, HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas within their social and cultural context. Scientific thought from ancient civilizations to the post-Roman era. Not offered every year. HSTS 411/HSTS 511, HSTS 412/HSTS 512, HSTS 413/HSTS 513 need not be taken in sequence.
Recommended: At least one science sequence

HSTS 512, HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas with their social and cultural context. Origin of modern science in the 16th and 17th centuries.
HSTS 411/HSTS 511, HSTS 412/HSTS 512, HSTS 413/HSTS 513 need not be taken in sequence.
Recommended: At least one science sequence

HSTS 513, HISTORY OF SCIENCE, 4 Credits
Stresses the interaction of scientific ideas with their social and cultural context. Development of modern science in the 18th and 19th centuries and to the present. HSTS 411/HSTS 511, HSTS 412/HSTS 512, HSTS 413/HSTS 513 need not be taken in sequence.
Recommended: At least one science sequence

HSTS 514, HISTORY OF TWENTIETH-CENTURY SCIENCE, 4 Credits
Focuses on the organization, practice, and theories of the natural sciences in the twentieth century, with emphasis primarily on the European and American scientific traditions from the 1890s to the present.

HSTS 515, THEORY OF EVOLUTION AND FOUNDATION OF MODERN BIOLOGY, 4 Credits
Origin and development of Darwin’s theory of evolution. Reception of theory and history of evolution to the present.

HSTS 516, HISTORY OF MEDICINE PRE-1800, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine’s development to general changes in science and culture, to 1800.

HSTS 517, HISTORY OF MEDICINE, 4 Credits
History of medical theory and the changing role of the physician; internal development of medicine as a discipline as well as a profession; relationship of medicine’s development to general changes in science and culture.

HSTS 518, SCIENCE AND SOCIETY, 4 Credits
Historical study of the interaction of science and society. Case studies are used from the 18th through 20th centuries. Topics vary by term.

HSTS 519, STUDIES IN SCIENTIFIC CONTROVERSY: METHOD AND PRACTICE OF, 4 Credits
Course focuses on accounts of scientific discoveries that have been controversial, to understand the rational, psychological, and social characteristics which have defined the meaning and procedures of the natural sciences. Case studies are used from the 18th through 20th centuries.

HSTS 521, TECHNOLOGY AND CHANGE, 4 Credits
Current views of technology and associated cultural changes and the contexts in which these developed; the changing role of technology in modern industrial society, especially in the United States; recent efforts to predict and control technological developments and the social and cultural consequences.

HSTS 522, HISTORICAL STUDIES OF SCIENCE AND POLITICS, 4 Credits
The historical study of scientists, their work, their political and ethical choices mainly in the United States and Europe from the 1920s to the 1950s.

HSTS 523, SCIENCE AND RELIGION, 4 Credits
A historical survey of critical issues in the relationship of Western science and religion from ancient times to the end of the twentieth century.

HSTS 525, HISTORY OF THE LIFE SCIENCES, 4 Credits
History of ideas about life from Greeks to present day. Cultural background and development of major theories of the life sciences with emphasis on natural history.
Recommended: One year of college sciences

HSTS 537, HISTORY OF ANIMALS IN SCIENCE, 4 Credits
Using a variety of sources, this course explores the ways humans have thought about and used animals in science and medicine from the seventeenth century to the present. How has science constructed the boundaries between humans and animals, and what have the consequences been for each?
HSTS 540, HISTORY OF PSYCHOTHERAPY, 4 Credits
The history of psychotherapy in modern Western societies, from biomedical, cultural, political, and psychosocial perspectives. Not offered every year.
Available via Ecampus

HSTS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 36 credits.

HSTS 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

Honors College (HC)

HC 001, SERVICE LEARNING, 0 Credits
Engage in a service-learning or community engagement experience where skills and knowledge are applied to meet an authentic community-identified need. The experience will integrate meaningful community service with reflection. Through readings and discussions, critically reflect on the service in order to increase understanding of the discipline, gain a broader appreciation of the discipline, enhance a sense of civic responsibility, and strengthen connections with communities.
Attributes: HNRS – Honors Course Designator

HC 002, LEADERSHIP, 0 Credits
Provides basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.
Attributes: HNRS – Honors Course Designator

HC 199, *HONORS WRITING, 3 Credits
Through a range of assignments, texts, and guest speakers, Honors College students will develop critical thinking skills and a strategy for writing in their discipline. (Bacc Core Course)
Attributes: HNRS – Honors Course Designator
Prerequisite: WR 121 with D- or better or WR 121H with D- or better

HC 299, SELECTED TOPICS, 1-16 Credits
Selected topics for Honors College students.
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 399, SELECTED TOPICS, 1-16 Credits
Upper-division special topics for Honors College students.
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 402, INDEPENDENT STUDY, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 403, THESIS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 404, WRITING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 405, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 406, PROJECTS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 407, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 18 credits.
Available via Ecampus

HC 408, WORKSHOP, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.
Available via Ecampus

HC 409, PRACTICUM, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

HC 499, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
This course is repeatable for 16 credits.

Horticulture (HORT)

HORT 112, INTRODUCTION TO HORTICULTURAL SYSTEMS, PRACTICES AND CAREERS, 2 Credits
Overview of horticultural systems and practices, with an emphasis on the Pacific Northwest. Exploration of career opportunities in horticulture. Includes viticulture, environmental landscaping, turf management, greenhouse and nursery production, farming, education, and research. Required field trips. Available via Ecampus

HORT 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: HORT 199H
This course is repeatable for 16 credits.

HORT 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 199
This course is repeatable for 16 credits.
HORT 212, INTRODUCTION TO ORGANIC AGRICULTURAL SYSTEMS, 4 Credits
An introduction to organic agricultural systems with a focus on history, regulations, principles and practices, performance, trends, and careers.
Available via Ecampus

HORT 217, *SOCIAL IMPACTS OF SCIENCE, 3 Credits
Contemporary societies provide funding for scientific research, at the same time they struggle with existing and emerging societal problems. This course will discuss how social problems can be addressed by science and technology, and how the impacts of research are quantified.
(Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

HORT 226, LANDSCAPE PLANT MATERIALS I: DECIDUOUS HARDWOODS AND CONIFERS, 4 Credits
Identification of trees, shrubs, vines, and ground covers used in landscape horticulture. Basic plant taxonomy, nomenclature, anatomy, and use of plants in the landscape. Diverse plant material covered with an emphasis on deciduous hardwoods and conifers.
Available via Ecampus

HORT 228, LANDSCAPE PLANT MATERIALS II: SPRING FLOWERING TREES AND SHRUBS, 4 Credits
Identification of trees, shrubs, vines, and ground covers used in landscape horticulture. Basic plant taxonomy, nomenclature, anatomy, and use of plants in the landscape. Diverse plant material covered with an emphasis on spring flowering trees and shrubs.
Available via Ecampus

HORT 251, TEMPERATE TREE FRUIT, BERRIES, GRAPES, AND NUTS, 2 Credits
Covers fruit and nut crops for temperate zones. Emphasis placed on scientific and common names, plant adaptation, basic morphology, major cultivars, and markets. Offered alternate years.

HORT 255, HERBACEOUS ORNAMENTAL PLANT MATERIALS, 3 Credits
Identification and culture of herbaceous plants used in the landscape. Offered via Ecampus only.
Available via Ecampus

HORT 260, ORGANIC FARMING AND GARDENING, 3 Credits
Organic farming and gardening methods are discussed in class and practiced in the field. The philosophical background of organic farming as well as the biological, environmental and social factors involved in organic food production are covered. Emphasis is on hands-on application of scientific principles to create sustainable food production systems.
Lec/lab.
Available via Ecampus

HORT 270, INTRODUCTION TO THERAPEUTIC HORTICULTURE, 2 Credits
An introduction to the history, benefits, and methods of therapeutic horticulture. Surveys program models for vocational, social/recreational, wellness and therapeutic applications of horticulture.

HORT 271, TECHNIQUES AND ADAPTIVE STRATEGIES IN THERAPEUTIC HORTICULTURE, 2 Credits
An introduction to the characteristics of therapeutic gardens. Survey of year-round, indoor and outdoor therapeutic horticultural programming adaptations, strategies and techniques for different special populations.
Prerequisite: HORT 270 with D- or better

HORT 272, BASIC THERAPEUTIC SKILLS I, 2 Credits
The assessment and evaluation process in therapeutic horticulture. Development of communication strategies, helping skills, and horticultural skills for therapeutic situations.
Prerequisite: HORT 271 with D- or better

HORT 273, BASIC THERAPEUTIC SKILLS II, 2 Credits
Assessment and documentation tools in therapeutic horticulture. Treatment issues related to different types of physical and mental issues. Conduct and evaluate therapeutic horticultural activity sessions.
Prerequisite: HORT 272 with D- or better

HORT 274, THERAPEUTIC HORTICULTURAL PROGRAMS FOR OLDER ADULTS/CHILDREN, 2 Credits
Benefits and applications of therapeutic horticulture to older adults and special needs children.
Prerequisite: HORT 273 with D- or better

HORT 275, THERAPEUTIC GARDEN DESIGN, MAINTENANCE AND PROGRAMMING, 2 Credits
The history, characteristics and design of the therapeutic garden. The use of the garden in therapeutic horticultural programming.
Prerequisite: HORT 274 with D- or better and HORT 280 [D-]

HORT 283, INTRODUCTION TO URBAN AGRICULTURE, 3 Credits
Focuses on the adaption of agricultural principles to the urban environment, specifically the production of plant crops. Topics include: (I) urban environments and infrastructure, (II) urban crop production practices, (III) urban markets and farm management. Exposes students to the breadth of items that they should consider in order to be a successful urban grower.
Recommended: General background or previous coursework in agriculture
Available via Ecampus
HORT 285, PERMACULTURE DESIGN AND THEORY: CERTIFICATE COURSE, 4 Credits
Permaculture design course meets internationally recognized standards for certification. Lectures, hands-on activities, experiential learning, group discussions, readings, student projects and presentations. Two mandatory weekend days. Design intensive, utilizing graphic and verbal presentation skills. Research into other functioning permaculture systems through literature, websites, and as observed on field trips. Lec/lab.
This course is repeatable for 8 credits.
Available via Ecampus

HORT 299, SPECIAL TOPICS, 0-16 Credits
Equivalent to: HORT 299H
This course is repeatable for 16 credits.

HORT 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 299
This course is repeatable for 16 credits.

HORT 300, CROP PRODUCTION IN PACIFIC NORTHWEST AGROECOSYSTEMS, 4 Credits
Relation of crop production to human culture and the natural environment. Origins of agriculture and the processes of agricultural change, and productivity and sustainability of specific crop production systems in the Pacific Northwest. History, geography, resource requirements, and key challenges faced are presented. Fundamental crop production practices in relation to productivity and sustainability. Lec/lab/rec. CROSSLISTED as CROP 300/HORT 300.
Equivalent to: CROP 300, CSS 300
Recommended: One year of general biology
Available via Ecampus

HORT 301, GROWTH AND DEVELOPMENT OF HORTICULTURAL CROPS, 3 Credits
Gain fundamental knowledge of plant growth and development of horticultural crops from a micro- to macro-level starting at double fertilization through fruit growth—covering seed-to-seed. The last section specifically examines how environmental factors affect growth and development. Lec/lab.
Recommended: General biology or botany sequence.
Available via Ecampus

HORT 303, HORTICULTURAL PROJECTS, 2 Credits
Student-managed crop production projects with emphasis on container grown, greenhouse crops. Crop scheduling, propagation and planting, selecting temperature and lighting regimes, specifying growth regulator applications, nutrient management, irrigation management, pest monitoring, and problem diagnosis and correction.
Recommended: HORT 301

HORT 306, INPUTS IN ORGANIC CROPPING SYSTEMS: SOURCING AND EFFICACY, 2 Credits
Applied course focused on the regulation, sourcing, and efficacy of organic inputs including soil amendments, fertilizers, and pesticides. Gain experience using science-, practice-, and regulation-based information to source and determine effectiveness of inputs in certified organic cropping systems.
Prerequisite: HORT 212 with C- or better and CROP 355 [C-]

HORT 307, ORGANIC SYSTEM PREDICAMENTS, 3 Credits
Analyze controversial organic agriculture and systems issues while developing critical- and systems-thinking skills. Synthesis of information from diverse sources and application of scientific knowledge will be required to recommend possible solutions to real world organic agriculture predicaments.
Available via Ecampus

HORT 308, WEED MANAGEMENT IN ORGANIC CROPPING SYSTEMS, 3 Credits
Applied organic weed identification and management course. Learn real-world application of science-, practice-, and regulation-based weed management information while designing and evaluating organic weed management plans for certified organic farming systems.
Available via Ecampus

HORT 310, PRINCIPLES OF PLANT PROPAGATION, 3 Credits
Plant propagation is the regeneration of plants using vegetative plant parts or seeds to maintain the desired genetic makeup. Theory and principles of horticultural and physiological concepts applicable for laboratory, greenhouse, nursery, field, and orchard propagators.
Prerequisite: HORT 301 with D- or better
Available via Ecampus

HORT 311, PLANT PROPAGATION, 4 Credits
The regeneration of plants from vegetative and reproductive tissue and organs. Horticultural and physiological principles, methods, and techniques for laboratory, greenhouse nursery, field, and orchard.
Prerequisite: HORT 301 with D- or better
Available via Ecampus

HORT 314, PRINCIPLES OF TURFGRASS MAINTENANCE, 4 Credits
Identification and adaptation of common turfgrasses. Physiology of turfgrass growth and response to cultural and environmental stresses. Cultural practices including establishment, general maintenance, and pest control. Field trips required.
Recommended: (CSS 205 or CSS 305 or SOIL 205)
Available via Ecampus
HORT 315, SUSTAINABLE LANDSCAPES: MAINTENANCE, CONSERVATION, RESTORE, 4 Credits
Sustainable care and maintenance practices for non-turf landscape areas. Low input pruning, planting, fertilization, and pest control with an emphasis on IPM. Plant responses to stress, particularly those encountered in the urban environment. Outdoor labs required. Recommended: Basic knowledge of plant physiology
Available via Ecampus

HORT 316, PLANT NUTRITION, 4 Credits
Basic concepts and principles of plant mineral nutrition that provide a basis for solving practical nutritional problems in horticultural crops. Areas covered include mineral nutrients, nutrient availability in the soil and plant uptake, nutrient deficiencies and toxicities and their causes and remedies, and plant and soil analysis. Lec/lab/rec.
Prerequisite: CSS 205 with D- or better or CSS 305 with D- or better or SOIL 205 with D- or better
Available via Ecampus

HORT 318, APPLIED ECOLOGY OF MANAGED ECOSYSTEMS, 3 Credits
Survey of ecological processes in managed ecosystems emphasizing ecological management techniques. Ecosystem services; biodiversity management; weed dynamics; agroecology; urban ecology; restoration and mitigation; landscape management. Field trip required. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Available via Ecampus

HORT 319, RESTORATION HORTICULTURE, 3 Credits
As world population increases to some 9 billion plus by 2044, the importance of ecologically sound horticultural practices becomes increasingly apparent. Integration of ecological concepts and theory in management and development of created landscapes is critical for the preservation of many ecological services currently provided by undeveloped areas. Offered via Ecampus only. Recommended: WR 121 with proficiency in writing skills and ability to communicate through writing. Basic ecology course or practical experience providing understanding of ecological principals and concepts
Available via Ecampus

HORT 330, *PLAGUES, PESTS, AND POLITICS, 3 Credits
Integration and interaction of agricultural and public health aspects of entomology in society and history. CROSSLISTED as ENT 300/HORT 330. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: BI 300, ENT 300
Available via Ecampus

HORT 331, POLLINATORS IN PERIL, 3 Credits
Pollinators, human influences on pollination systems, and the potential consequences of pollinator decline. An introduction to the skills needed to investigate media reports and multidisciplinary scientific research. Effects of pesticides, habitat fragmentation, climate change, invasive species, pests, pathogens, and other threats to pollinators in critical natural and agricultural systems around the world. Equivalent to: ENT 331
Recommended: Completion of a Baccalaureate Core biological science course.
Available via Ecampus

HORT 344, INSECT AND DISEASE MANAGEMENT IN ORGANIC CROPPING SYSTEMS, 3 Credits
A skills-based course on the science, practice, and regulations related to insect and disease management in organic cropping systems. Prerequisite: BOT 350 with C- or better and ENT 311 [C-]
This course is repeatable for 3 credits.
Available via Ecampus

HORT 349, DIAGNOSING PLANT PROBLEMS, 3 Credits
Basic principles of problem diagnosis in crop, garden, and landscape plants are covered. Problems caused by cultural and environmental issues, plant diseases, insect pests, and other causes are addressed. Students will gain familiarity with resources for plant problem diagnosis. Offered via Ecampus only. Recommended: Background in basic biology, plant pathology and/or entomology from a university or practical setting

HORT 350, URBAN FORESTRY, 3 Credits
Introduction to principles and practices of planting and managing trees as a system of urban environment; understanding the economic, environmental, social aspects of urban forests, and an overview of contemporary land use issues and societal perspectives between people and plants. CROSSLISTED as FES 350/HORT 350. Equivalent to: FES 350, FOR 350
Recommended: Foundational forestry and horticulture courses
Available via Ecampus

HORT 351, FLORICULTURE AND GREENHOUSE SYSTEMS, 4 Credits
For students interested in growing plants in commercial or educational greenhouses. Actively explores the production and scheduling of floriculture crops for various markets. Combines the practical aspects of growing floral crops under environments created by traditional and technologically advanced greenhouses. Greenhouse structures and crop environment manipulation will be emphasized. Students actively manage a floriculture crop and are responsible for developing and implementing production schedules, and for making key decisions on the culture of diverse floral crops. Recommended: HORT 301
HORT 358, LANDSCAPE CONSTRUCTION TECHNIQUES, 4 Credits
Study of landscape construction process from initial site analysis to finished landscape. Techniques used in building hardscape and landscape areas. Field trips required. Lec/lab.

HORT 360, IRRIGATION AND DRAINAGE, 4 Credits
Familiarizes students with the principles and practices of irrigation and drainage systems. Optimum use of water, irrigation and drainage system design, installation, repairs, and troubleshooting are emphasized. Lec/lab.
Prerequisite: CSS 305 with D- or better or SOIL 205 with D- or better or (SOIL 205 with D- or better

HORT 361, PLANT NURSERY SYSTEMS, 4 Credits
Covers how to grow shrubs and trees, and herbaceous annuals and perennials in nurseries for use in urban landscapes and managed ecosystems such as forestry and restoration. Plant nursery systems are diverse and require intensive management involving a dynamic decision making process. This course actively explores field and container production systems as well as the marketing of plants, an overview of plant growth regulation and post-production handling, the influence of efficient production practices on plant quality, integrating pest management strategies, and natural resource utilization.
Recommended: HORT 301

HORT 380, SUSTAINABLE LANDSCAPE DESIGN, 3 Credits
The assessment of design problems/situations, the development of solutions and the communication of those solutions to the client through the design. Specific topics include designing for ecosystem maintenance/enhancement, introduction to computer-aided design (CAD), using color in landscape designs and rendering section/elevation views.

HORT 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HORT 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

HORT 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

HORT 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

HORT 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: HORT 405H
This course is repeatable for 16 credits.

HORT 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 405
This course is repeatable for 16 credits.

HORT 406, PROJECTS: DATA PRESENTATIONS, 1 Credit
For any student doing research, to learn to develop and evaluate poster and slide presentations containing scientific data. Students are exposed to a variety of scientific disciplines as they prepare and critique their own and other students' posters and oral presentations. Students improve written and oral communication skills. Letter grade is based on participation, improvement, and the quality of a final poster project and oral presentation. Offered winter term. CROSSLISTED as BRR 406/HORT 406.
Equivalent to: BRR 406

HORT 407, SEMINAR, 1 Credit
Equivalent to: CROP 407, SOIL 407
Available via Ecampus

HORT 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HORT 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

HORT 410, INTERNSHIP, 1-12 Credits
Work internship to acquaint horticulture majors with the practices of the horticulture industry. Under direction of departmental internship committee. Requires approved statement of intent, submission of employer and employee evaluation forms and written report. This course is repeatable for 12 credits.
Available via Ecampus

HORT 411, HORTICULTURE BOOK CLUB, 1 Credit
Reading and discussion of noteworthy books and associated topics relating to agriculture, society and the environment. This course is repeatable for 2 credits.

HORT 412, CAREER EXPLORATION: INTERNSHIPS AND RESEARCH PROJECTS, 1 Credit
Provides orientation to the horticulture major internship and research project requirement. Covers procedures for selecting, performing, and reporting on an internship or research project. Includes guidance and skill development valuable in the pursuit of horticultural career goals, such as cover letter and resume preparation and interviewing experience.
Available via Ecampus
HORT 414, PRECISION AGRICULTURE, 4 Credits
Provides insight into the technology available to support precision agriculture and data management planning applications. Examines the concepts and applications of precision agriculture to teach practical use of hardware, equipment and software. An overview of current technology including autonomous vehicles, GPS, soil and crop proximal sensors, imagery and mapping, variable rate control systems, and yield monitors. Lec/lab. CROSSLISTED as CROP 414/HORT 414.
Equivalent to: CROP 414
Available via Ecampus

HORT 418, GOLF COURSE MAINTENANCE, 4 Credits
Basic aspects of golf course maintenance under temperate zone conditions. Lec/lab. Recommended: HORT 314

HORT 421, HERBS, SPICES, AND MEDICINAL PLANTS, 3 Credits
Principles of crop ecology, morphology, chemistry and utilization of natural products of herbs, spices, and medicinal plants (HSMP). Examines the history and importance of HSMP, their historic and modern uses, current market trends, botany, collection in the wild, fundamentals of production systems for HSMP, harvesting, drying, and other postharvest operations, natural products and their uses, regulations and legal concerns of herbal products. Recommended: CROP 200 or equivalent horticulture course
Available via Ecampus

HORT 433, SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS, 4 Credits
Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSLISTED as CROP 433/HORT 433 and CROP 533/HORT 533.
Prerequisite: BI 102 with D- or better or BI 213 with D- or better or BI 213H with D- or better or BI 223 with D- or better or BI 223H with D- or better or BI 311 with D- or better or BI 311H with D- or better or HORT 430 with D- or better or CSS 430 with D- or better or CSS 430 with D- or better or PBG 430 with D- or better or PBG 450 with D- or better
Equivalent to: CROP 433

HORT 444, INSECT AGROECOLOGY, 3 Credits
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as ENT 444/HORT 444 and ENT 544/HORT 544.
Equivalent to: ENT 444
Recommended: General background or previous course work in entomology.

HORT 447, ARBORICULTURE, 4 Credits
The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. CROSSLISTED as FES 447/HORT 447 and FES 547/HORT 547.
Equivalent to: FES 447, FOR 447
Recommended: (FES 141 or FES 241 or HORT 226 or HORT 228) and (FES 111 or HORT 112)
Available via Ecampus

HORT 451, TREE FRUIT PHYSIOLOGY AND CULTURE, 4 Credits
Plant growth and development in relation to tree fruit production; emphasis on canopy development and pruning theory, flowering and fruit set, and development, dormancy, and cold acclimation. Field trips required. Recommended: Completion or concurrent enrollment in HORT 301 and BOT 331

HORT 452, BERRY AND GRAPE PHYSIOLOGY AND CULTURE, 4 Credits
Production of wine grapes, caneberries, strawberries, blueberries, and other miscellaneous berry crops. Emphasis on plant growth and development; pruning and training systems; flower and fruit development and cultivars. Field trips required. Offered in alternate years. Recommended: HORT 301

HORT 453, GRAPEVINE GROWTH AND PHYSIOLOGY, 3 Credits
The physiological aspects of grapevine growth and development including dormancy, flowering and fruit set, vegetative growth, fruit development and water relations. Additional topics include taxonomy, morphology and physiological influences of vineyard mesoclimate and vine microclimate. Lec/lab.
Prerequisite: HORT 301 with C- or better
Recommended: HORT 301

HORT 454, PRINCIPLES AND PRACTICES OF VINEYARD PRODUCTION, 3 Credits
The relationship of vineyard and canopy management to grapevine physiology and fruit quality. Nutrient/water relations within the soil/vine continuum. Vineyard microclimate, floor management, and pests will also be discussed. Lec/lab.
Prerequisite: HORT 301 with D- or better
Recommended: Completion or concurrent enrollment in HORT 453

HORT 455, URBAN FOREST PLANNING, POLICY AND MANAGEMENT, 4 Credits
Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to maximize the economic, environmental, and social values and benefits of urban forest landscapes. CROSSLISTED as FES 455/HORT 455 and FES 555/HORT 555.
Prerequisite: FES 350 with C- or better or HORT 350 with C- or better
Equivalent to: FES 455, FOR 455
Available via Ecampus
HORT 456, PHYSIOLOGY AND PRODUCTION OF BERRY CROPS, 4 Credits
Physiology and production systems of blueberries, red and black raspberries, blackberries, and other berry crops. Emphasis on plant growth and development; flower and fruit development; cultivars; pruning and training systems; irrigation; harvesting; nutrient management; and conventional and organic production systems.
Prerequisite: HORT 301 with D- or better
Available via Ecampus

HORT 463, SEED BIOLOGY, 3 Credits
Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered even years. Lec/lab. CROSSLISTED as CROP 463/HORT 463 and CROP 563/HORT 563.
Equivalent to: CROP 463, HORT 363

HORT 480, CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT, 4 Credits
Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as CROP 480/HORT 480 and CROP 580/HORT 580.
Equivalent to: CROP 480
Recommended: CROP 300 or HORT 300
Available via Ecampus

HORT 481, HORTICULTURE PRODUCTION CASE STUDIES, 4 Credits
Field-based case studies investigate production issues encountered in horticultural crops; individual and group activities; discussion of processes for troubleshooting, decision-making and management recommendations; assessment of economic, practical and logistical feasibility. Prior knowledge of plant physiology, soils, entomology, and plant nutrition are required. Multiple field trips required. A field trip fee will be charged.
Prerequisite: HORT 301 with D- or better

HORT 482, DESIGN AND MANAGEMENT OF ORGANIC CROPPING SYSTEMS, 3 Credits
This capstone course is the final stage of the Organic Farming Systems Certificate Program. Iteratively design and evaluate organic farming system management plans. Apply real-world science, practice, and regulation-based information to the design and management of organic farming systems.
Prerequisite: HORT 212 with C- or better and CROP 355 [C-] and HORT 306 (may be taken concurrently) [C-] and HORT 307 (may be taken concurrently) [C-] and HORT 308 (may be taken concurrently) [C-] and HORT 344 (may be taken concurrently) [C-] and SOIL 360 (may be taken concurrently) [C-]

HORT 483, CASE STUDIES IN URBAN AGRICULTURE, 3 Credits
Provides an overview of the diversity of endeavors that are available to potential urban agriculturists. These include urban and peri-urban farms (for profit and non-profit), community and school gardens, controlled climate facilities, rooftop farms and gardens, and more. For each case study, we will specifically examine: (1) the market where the farmer sells goods, (2) methods of achieving growth, particularly while avoiding debt, (3) increasing livelihood reliance upon on-farm income.
Recommended: General background or previous coursework in agriculture
Available via Ecampus

HORT 485, ADVANCED PERMACULTURE DESIGN TOOLS FOR CLIMATE RESILIENCE, 3 Credits
Understand how permaculture as a design system can create sustainable human habitation that is beneficial to the natural world. Use tools specific to permaculture designers to assess, analyze, and project future climate scenarios and respond to them with appropriate design. Climate analogue identification and climate change forecasting provide the basis for a student assessment project that addresses current and future climatic conditions. Assessment and mapping assignments utilize Google Earth Pro, Google Docs, and Google Sheets.
Prerequisite: HORT 285 with B or better
Available via Ecampus

HORT 495, HORTICULTURAL MANAGEMENT PLANS, 3 Credits
Develop an integrated management plan for a horticultural enterprise. This course is repeatable for 6 credits.

HORT 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: HORT 499H
This course is repeatable for 16 credits.

HORT 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HORT 499
This course is repeatable for 16 credits.

HORT 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

HORT 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

HORT 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

HORT 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

HORT 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
HORT 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HORT 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

HORT 510, INTERNSHIP, 1-12 Credits
Offered via Ecampus only.
This course is repeatable for 12 credits.

HORT 511, RESEARCH AND EDUCATIONAL PERSPECTIVES IN HORTICULTURE, 2 Credits
Introduces beginning graduate students to the faculty in horticulture and provides an in-depth discussion of their research and education programs.

HORT 518, CURRENT TOPICS IN ENTOMOLOGY, 2 Credits
A core course of the Horticulture graduate program. Provides an advanced understanding of entomology and its relationship to other disciplines through critical analysis of the scientific literature. Practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as ENT 518/HORT 518.
Equivalent to: ENT 518
This course is repeatable for 12 credits.

HORT 519, CURRENT TOPICS IN PLANT BREEDING AND GENETICS, 2 Credits
Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 519/PBG 519.
Equivalent to: PBG 519
This course is repeatable for 12 credits.

HORT 520, CURRENT TOPICS IN HORTICULTURAL RESEARCH, 2 Credits
This is a core course in the horticulture graduate program. Students gain an advanced understanding of horticulture science and its relationship to other disciplines through critical analysis of the scientific literature. Students practice synthesizing information and presenting findings to their peers. Instructors, topics and specific learning objectives vary from term to term.
This course is repeatable for 12 credits.

HORT 521, HERBS, SPICES, AND MEDICINAL PLANTS, 3 Credits
Principles of crop ecology, morphology, chemistry and utilization of natural products of herbs, spices, and medicinal plants (HSMP). Examines the history and importance of HSMP, their historic and modern uses, current market trends, botany, collection in the wild, fundamentals of production systems for HSMP, harvesting, drying, and other postharvest operations, natural products and their uses, regulations and legal concerns of herbal products.
Recommended: CROP 200 or equivalent course in HORT.
Available via Ecampus

HORT 533, SYSTEMATICS AND ADAPTATION OF VEGETABLE CROPS, 4 Credits
Covers the botanical and taxonomic relationships, breeding systems and adaptation of vegetable crops. Fresh material is used to illustrate varietal differences and traits of importance. Lec/lab. Offered even years. CROSSLISTED as CROP 433/HORT 433 and CROP 533/HORT 533.
Equivalent to: CROP 533
Recommended: BI 102 or BI 213 or BI 311 or HORT 430 or CSS 430 or HORT 450 or CSS 450

HORT 540, ORGANIC VEGETABLE PRODUCTION SYSTEMS: DESIGN AND MANAGEMENT, 3 Credits
Design, management, and troubleshooting in organic vegetable production systems. Students learn to integrate knowledge from various technical disciplines and explore the social, economic, and environmental dimensions of vegetable production to analyze and evaluate organic vegetable farm enterprises.
Recommended: CROP/SOIL 530 and ENT 548
Available via Ecampus

HORT 544, INSECT AGROECOLOGY, 3 Credits
Agroecology incorporates ecological concepts and principles to the design and management of sustainable agricultural systems. Topics include: the role of insects in sustainable agricultural systems; application of the principles of insect ecology to better manage insect pests and maximize crop yield; conserving beneficial insects and other natural resources in agroecosystems and the surrounding landscape. CROSSLISTED as ENT 444/HORT 444 and ENT 544/HORT 544.
Equivalent to: ENT 544
Recommended: General background or previous course work in entomology.

HORT 547, ARBORICULTURE, 4 Credits
The principles and practices of arboriculture, the art and science of selecting, planting, establishing and maintaining trees in urban, suburban, commercial and residential landscapes. CROSSLISTED as FES 447/HORT 447 and FES 547/HORT 547.
Equivalent to: FES 547
Available via Ecampus
HORT 552, BERRY AND GRAPE PHYSIOLOGY AND CULTURE, 4 Credits
Production of wine grapes, caneberries, strawberries, blueberries, and other miscellaneous berry crops. Emphasis on plant growth and development; pruning and training systems; flower and fruit development and cultivars. Field trips required. Offered in alternate years.
Recommended: HORT 301

HORT 555, URBAN FOREST PLANNING, POLICY AND MANAGEMENT, 4 Credits
Examination of planning, policy, and management strategies used in the stewardship of urban natural resources. Fundamentals for developing effective programs to maximize the economic, environmental, and social values and benefits of urban forest landscapes. CROSSLISTED as FES 455/HORT 455 and FES 555/HORT 555.
Equivalent to: FES 555, FOR 555
Recommended: FOR 350 or FES 350 or HORT 350
Available via Ecampus

HORT 556, PHYSIOLOGY AND PRODUCTION OF BERRY CROPS, 4 Credits
Physiology and production systems of blueberries, red and black raspberries, blackberries, and other berry crops. Emphasis on plant growth and development; flower and fruit development; cultivars; pruning and training systems; irrigation; harvesting; nutrient management; and conventional and organic production systems.
Available via Ecampus

HORT 563, SEED BIOLOGY, 3 Credits
Information about reproductive development of plants such as pollination and fertilization, which is important for the initiation of seed formation, will be provided. Embryo and endosperm development as well as accumulation of seed storage materials, which are major events during seed development, will be covered, as well as the dormancy and germination mechanisms in mature seeds. Lectures and discussions (presentations required for graduate students). Offered every year. Lec/lab. CROSSLISTED as CROP 463/HORT 463 and CROP 563/HORT 563.
Equivalent to: CROP 563, HORT 363

HORT 580, CASE STUDIES IN CROPPING SYSTEMS MANAGEMENT, 4 Credits
Decision cases involving the production of field and horticultural crops; individual and group activities; discussion of the decision-making process. Multiple field trips required. A field trip fee will be charged. CROSSLISTED as CROP 480/HORT 480 and CROP 580/HORT 580.
Equivalent to: CROP 580
Recommended: CROP 300 or HORT 300
Available via Ecampus

HORT 581, HORTICULTURE PRODUCTION CASE STUDIES, 4 Credits
Field-based case studies investigate production issues encountered in horticultural crops; individual and group activities; discussion of processes for troubleshooting, decision-making and management recommendations; assessment of economic, practical and logistical feasibility. Prior knowledge of plant physiology, soils, entomology, and plant nutrition are required. Multiple field trips required. A field trip fee will be charged.
Recommended: HORT 301

HORT 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

HORT 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

HORT 603, DISSERTATION, 1-16 Credits
This course is repeatable for 999 credits.

HORT 605, READING & CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

HORT 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

HORT 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

HORT 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HORT 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Hospitality Management (HM)

HM 101, INTRODUCTION TO HOSPITALITY, 4 Credits
Introduction to the food-service, lodging, and tourism components of the hospitality industry, and the essential leadership and management skills necessary for success in the field. Background information, current issues, and future challenges in various segments of the industry are included.

HM 210, HOSPITALITY INTERNSHIP, 3 Credits
Students are required to complete this internship so that OSU and the sponsoring company can offer a platform from where students can apply the management concepts learned in class and acquire the necessary hands-on experience in a hotel, restaurant/food service and/or tourism industry to eventually qualify for a supervisory of managerial level role.
Prerequisite: HM 101 with C- or better

HM 230, LODGING MANAGEMENT, 4 Credits
Provides a comprehensive introduction to the management of hotels and lodging properties. Focuses on operations, service, management and financials of the lodging industry.
Prerequisite: HM 101 with C- or better
HM 235, HOSPITALITY LAW AND LABOR RELATIONS, 4 Credits
Provides insight into the laws and regulations governing the hospitality industry with an emphasis on labor relations and human resources best practices. Addresses the general concepts of tort, contracts, liability, risk management, employment practices, licensing and insurance needs. Explores the legal issues that today’s hospitality professionals face such as privacy, labor laws, the common law system for innkeepers and newer hospitality products in the shared economy such as AirBnB or VRBO.

HM 240, HOSPITALITY COST CONTROL, 4 Credits
Introduces the basic techniques and control procedures used in the hospitality industry to maximize profit and minimize costs. Examines and discusses methods employed to protect and uphold the investors/owners strategic financial goals. Students will focus on all aspects of hospitality control objectives; from food and beverage costs, purchasing, labor costs, menu pricing, establishing room rates, cash flow, theft and loss prevention, to computer applications. The principles of effective budgeting, important hospitality financial ratios and the factors that determine hospitality profitability will also be reviewed.

HM 310, INTERNSHIP II, 3 Credits
Hospitality Internship II builds on the knowledge students have gained from their course work internship (HM 210). Students are required to complete this internship in a hotel, restaurant/food service and/or related hospitality sector. In cooperation with OSU and the sponsoring company, students will apply the HM concepts learned in class to a real-world business environment.

HM 320, SERVICE AUTOMATION AND TECHNOLOGY, 4 Credits
Students discover the basic concepts of hospitality technology and service automation. The hospitality industry continues to see significant changes in all facets of business due to changing customer expectations, new and cheaper technology, and a challenging labor market. The result of these forces has led the hospitality industry to increasingly turn to automation of basic job tasks to stay competitive. Examines new technologies shaping the hospitality industry and how industry leaders are taking advantage of these new technologies to improve efficiency and service.

HM 321, HOSPITALITY TECHNOLOGY LABORATORY, 4 Credits
Technology is critical to attracting, servicing and retaining hospitality customers. The Hospitality Technology Lab course introduces the student to each facet of technology in the industry. The course provides an opportunity for hands-on practical experience with the latest technology. At the end of the course, the student will have a basic working knowledge of Food 3D printers, hotel property management systems, global distribution systems, booking engines, revenue management solutions and other automation tools like Botlr.

HM 325, ONLINE MARKETING AND REPUTATION MANAGEMENT, 4 Credits
Students are introduced to Online Internet Marketing techniques in the hospitality industry. The course will focus on online marketing, advertising strategies and the importance of a strong internet presence in order to maximize revenue. The course will show how organizations can encourage & capitalize on customer generated content practices to effectively retain customers and generate recurring revenue streams. Available via Ecampus

HM 340, VACATION PROPERTY MANAGEMENT, 4 Credits
The vacation property market is one of the largest segments of the hospitality industry and is forecast to grow further over the next ten years. This course looks at each facet of this market including property development, contracts, management, promotion and financing. The course also explores the additional challenges and opportunities associated with the shared economy such as managing owner relations, homeowner associations, renovations and public policy.

HM 399, SPECIAL TOPICS, 4 Credits
This course is repeatable for 16 credits.

HM 410, HOSPITALITY INTERNSHIP III, 3 Credits
Hospitality Internship III builds on the knowledge the students have gained from their course work and their previous internships (HM 210 & HM 310). Students are required to complete this internship in a hotel, restaurant/food service and/or related hospitality sector. In cooperation with OSU and the sponsoring company, students apply the HM concepts learned in class to a real-world environment. Prerequisite: HM 310 with C- or better

HM 420, REVENUE MANAGEMENT AND PRICING, 4 Credits
Revenue management is critical to the hospitality industry due to the perishable nature of a service-based product. The fundamental principles and concepts of revenue management covered are capacity management, duration control, demand and revenue forecasting, discounting, overbooking practices, displacement analysis, channel management, and pricing execution. Available via Ecampus

HM 425, ADVANCED RESTAURANT MANAGEMENT AND OWNERSHIP, 4 Credits
Covers concept development, design and funding of a new restaurant, and best practices in operations and management of a full-service foodservice operation. Intended for students wishing to develop their knowledge of foodservice entrepreneurialism, creation, operations and management/ownership.
HM 430, SERVICE MANAGEMENT, 4 Credits
With growing access to information and alternative products, customers can choose where to do business based on the level of service they receive. This course will study and analyze service delivery systems for the hospitality industry with particular emphasis on implementing a consumer driven quality service program. This course will review customer service philosophy and techniques. Quality issues, service design and delivery, customer interaction systems, complaint handling and service recovery are also addressed.
Available via Ecampus

HM 460, HOSPITALITY INVESTMENT AND ASSET MANAGEMENT, 4 Credits
Covers the principles of hospitality investment and asset management. Provides future hospitality owners/executives with the tools and knowledge to evaluate real estate investments in new hospitality ventures. Tools for financial analysis and assessment, debt and equity financing (public and private), and the use of industry benchmarks are discussed and practiced. Students explore the financial feasibility of a specific hospitality investment while considering financial risk, new income streams, competitor analysis and market forecasting, investment and asset management.

HM 470, ADVANCED HOSPITALITY, 4 Credits
Capstone course for the hospitality management degree. Provides students with an in-depth understanding of the importance of core competencies in the hospitality and tourism industry. A broader interpretation of the hospitality industry is gained and the student will discover new and innovative practices within the industry. Students will apply the knowledge gained in this course and the program as a whole to a capstone project with an industry partner. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC

Human Dev and Family Sciences (HDFS)

HDFS 101, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 199, SPECIAL PROJECTS, 1-16 Credits
Special projects designed with instructor Graded P/N. This course is repeatable for 16 credits.

HDFS 201, CONTEMPORARY FAMILIES IN THE U.S., 3 Credits
An introduction to families with application to personal life. Focuses on diversity in family structure, social class, race, gender, work and other social institutions. (Bacc Core Course) Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst Equivalent to: FCS 201 Available via Ecampus

HDFS 209, HUMAN SERVICES PRACTICUM, 4 Credits
Field experience to learn, primarily through observation, how to apply human service strategies and skills to helping individuals and families served by professional agencies. Supervision by agency and instructor. Requires 90 hours of work on-site. Seminar introduces basic theories and skills through readings, discussion and reflective exercises. Prerequisite: HDFS 107 with C- or better This course is repeatable for 8 credits.

HDFS 240, HUMAN SEXUALITY, 3 Credits
Physiological, psychological, social, and historical influences on sexuality; emphasis on developmental and relationship aspects. (Bacc Core Course) Attributes: CPSI – Core, Pers, Soc Proc & Inst Available via Ecampus

HDFS 262, INTRODUCTION TO HUMAN SERVICES, 3 Credits
An exploration of the human services profession. Emphasis on prevention and early intervention concepts and programs. Development of internship search skills, including an introduction to a wide range of human services organizations. Equivalent to: HDFS 107 Available via Ecampus

HDFS 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 310, HUMAN SERVICES PRACTICUM, 4 Credits
Field experience to learn, primarily through observation, how to apply human service intervention strategies and skills to helping individuals and families served by professional agencies and organizations. Supervision by agency and instructor. Requires 90 hours of work on-site. Supplementary bi-weekly seminar, readings, and reports. Graded P/N. Prerequisite: HDFS 262 with C- or better Equivalent to: HDFS 209 This course is repeatable for 8 credits.

HDFS 311, INFANT AND CHILD DEVELOPMENT, 4 Credits
Research and theory on development from infancy through middle childhood. Discussion of biological, familial, and sociocultural influences. Development of skills in observing children's behavior. Equivalent to: HDFS 211 Available via Ecampus

HDFS 312, PARENTING RESEARCH AND APPLICATION, 4 Credits
Research and theory regarding parenting and parent education, including parenting styles and practices, discipline, parent-child interactions, attachment, and the family context with an emphasis on professional implications for promoting child health and well-being. Equivalent to: HDFS 312X Available via Ecampus
HDFS 313, ADOLESCENT DEVELOPMENT, 4 Credits
Advanced theories and research on physical, social and psychological development during adolescence; emphasizes influences of family, peers, schools and community.
*Available via Ecampus*

HDFS 314, ADULT DEVELOPMENT AND AGING, 4 Credits
Advanced theories and research related to developmental changes and stability in early, middle, and late adulthood. Gender issues, personality, cognition, and adaptation.
*Available via Ecampus*

HDFS 330, FOSTERING LEARNING IN EARLY CHILDHOOD DEVELOPMENT, 4 Credits
Development of skills in applying theoretical approaches to observing, recording, and interpreting the behavior of young children in order to design interactions that support learning in group settings.
**Prerequisite:** HDFS 311 with C- or better

HDFS 331, DIRECTED EXPERIENCE IN EARLY CHILDHOOD, 3 Credits
Placement in early childhood program to focus on guidance techniques, classroom management, and implementation of curricula, based on developmental observation, research, and theory. Supplementary weekly seminar, readings, and reports. Lab/rec. Taught on the OSU-Cascades campus only.
**Prerequisite:** (HDFS 311 with C- or better or HDFS 211 with C- or better) and HDFS 330 [C-]  
**Equivalent to:** HDFS 330

HDFS 341, FAMILY STUDIES, 4 Credits
Study of family forms, family formation, and family change over the human life course is sociohistorical, economic, political, and cultural context.
*Available via Ecampus*

HDFS 360, CRITICAL THINKING IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 4 Credits
Explores foundations of critical thinking, especially methods for sustaining open-minded inquiry and evaluating evidence and arguments. Current controversies in human development and family policy are targets of debate.
*Available via Ecampus*

HDFS 361, APPLIED RESEARCH METHODS, 4 Credits
Basic research methods as they are applied in human development and family studies.
*Available via Ecampus*

HDFS 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 401, RESEARCH, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 405, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 406, PROJECTS, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
*Available via Ecampus*

HDFS 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 410, HUMAN SERVICES INTERNSHIP, 6-12 Credits
Field experience to apply theory and evidence-based practices to individual, family, and community problems in professional settings. Supervision by agency and instructor. Requires 300 hours of work on-site. Seminar includes reflection and constructive criticism processes. Can be taken across 2 consecutive terms (150 hours each) within the same agency. Graded P/N.
**Prerequisite:** HDFS 107 with C- or better and HDFS 209 [P] and HDFS 462 [C-]  
**This course is repeatable for 12 credits.**

HDFS 430, CHILD DEVELOPMENT CENTER INTERNSHIP, 12 Credits
Participate in an internship in a research-based model early childhood program focused on early childhood education, program development and evaluation, parent education and administration.
**Prerequisite:** HDFS 330 with C- or better

HDFS 431, FAMILY, SCHOOL, AND COMMUNITY COLLABORATION, 3 Credits
Focus on family, school, community environments and interactions for children from infancy to adolescence. Resources and skills for enhancing child development across these settings are emphasized.
**Prerequisite:** HDFS 311 with C- or better or HDFS 313 with C- or better
**Equivalent to:** HDFS 436
*Available via Ecampus*
HDFS 432, CHILDREN AND YOUTH WITH DISABILITIES, 3 Credits
Developmental, educational, and family issues related to children and youth with disabilities. Highlights a broad range of human exceptionality, including giftedness.
Equivalent to: HDFS 420
Recommended: 6 credits of HDFS, SOC or PSY.
Available via Ecampus

HDFS 433, EARLY CHILDHOOD INTERNSHIP, 10 Credits
Students will complete an internship in a Pre-Kindergarten, Kindergarten or First Grade classroom and will focus on curriculum development, implementation and evaluation, individualizing for diverse student needs and communication with students.
Prerequisite: HDFS 311 with C- or better and HDFS 330 [C-] and HDFS 331 [C-]
Recommended: HDFS 261

HDFS 444, FAMILY VIOLENCE AND NEGLECT, 4 Credits
Examination of the causes and consequences of family abuse and neglect, including child abuse, domestic violence and elder abuse.
Recommended: 6 credits of HDFS, SOC or PSY.
Available via Ecampus

HDFS 447, *FAMILIES AND POVERTY, 4 Credits
Examines families in poverty focusing on causes and consequences of family poverty, including global economic factors, migration patterns, discrimination, and policies and programs for families. Community service required. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HDFS 446, HDFS 447H
Available via Ecampus

HDFS 447H, *FAMILIES AND POVERTY, 4 Credits
Examines families in poverty focusing on causes and consequences of family poverty, including global economic factors, migration patterns, discrimination, and policies and programs for families. Community service required. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: HDFS 447
This course is repeatable for 18 credits.
Recommended: 6 credits of HDFS, SOC or PSY

HDFS 450, FAMILY POLICY, 4 Credits
Family policies aim to protect, promote, and strengthen families by addressing one or more of the five explicit functions families perform: (a) family formation, (b) partner relationships, (c) economic support, (d) childrearing, and (e) caregiving. This course will explore the relationships between family policies and family functioning using state, federal, and international policy examples. By reviewing theoretical frameworks for conceptualizing family policy, students will assess the consequences policies may have for family well-being.
Available via Ecampus

HDFS 461, ^PROGRAM DEVELOPMENT AND PROPOSAL WRITING, 4 Credits
Principles of program development and evaluation applied to the development of a proposal for a human services program; analysis of needs and resources, identification of empirically-based strategies, and assessment. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: HDFS 360 with C- or better and HDFS 361 [C-]
Available via Ecampus

HDFS 462, PROFESSIONAL HELPING SKILLS, 4 Credits
Explores collaborative, strengths-based methods to resolve individual, family, and community problems. Applies ethical standards to case study, with emphasis on the values of human dignity and social justice. Develops basic helping skills within an empowerment framework.
Prerequisite: HDFS 262 with C- or better and HDFS 310 (may be taken concurrently) [P]

HDFS 465, TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 3 Credits
Topics and issues in human development and family sciences. Examples: children and the law; gender and families; parenting; aging; relationship development across the lifespan.
Equivalent to: HDFS 465H
This course is repeatable for 18 credits.
Recommended: 6 credits of HDFS, SOC or PSY

HDFS 465H, TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 3 Credits
Topics and issues in human development and family sciences. Examples: children and the law; gender and families; parenting; aging; relationship development across the lifespan.
Attributes: HNRS – Honors Course Designator
Equivalent to: HDFS 465
This course is repeatable for 18 credits.
Recommended: 6 credits of HDFS, SOC or PSY

HDFS 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: HDFS 499
This course is repeatable for 16 credits.

HDFS 501, RESEARCH, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 502, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 16 credits.
HDFS 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

HDFS 505, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 506, SPECIAL PROBLEMS/SPECIAL PROJECTS, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 510, INTERNSHIP, 3-15 Credits
This course is repeatable for 16 credits.

HDFS 511, THEORIES OF HUMAN DEVELOPMENT, 4 Credits
Critical examination of significant theories of human development. Emphasizes evolution of theories and impact on current human development research.

HDFS 516, CHILD DEVELOPMENT, 4 Credits
Study of theories, concepts, and issues related to physical, cognitive, social, and emotional development in infants and children. Covers identity formation, family contexts, adolescent sexuality, societal contexts for adolescent development, and risk and resilience processes.
Recommended: 15 quarter credits of social and behavioral sciences.

HDFS 517, ADOLESCENT DEVELOPMENT, 4 Credits
Study of theories, concepts, and issues related to biological, cognitive, social, and emotional development in adolescents. Covers identity formation, family contexts, adolescent sexuality, societal contexts for adolescent development, and risk and resilience processes.
Recommended: 15 quarter credits of behavioral and social sciences.

HDFS 518, ADULT DEVELOPMENT AND AGING, 4 Credits
Study of theories, concepts, and issues related to biological, cognitive, social, and emotional development throughout adulthood. Covers life transitions, stress-related growth, optimal aging, wisdom, and developmental methods.
Recommended: 15 quarter credits of behavioral and social sciences.

HDFS 519, THE LIFE COURSE, 4 Credits
Introduces students to key concepts, principles, and controversies in life-course studies. Emphasizes how the nature and rhythm of the life course is structured by time and place. Examines how the lives of individuals and groups are shaped by history, demography, social institutions, states and policies, and culture.

HDFS 529, INTRODUCTORY DATA ANALYSIS WITH SAS, 1 Credit
Introduction to basic statistical concepts and the use of the SAS software for data analysis. Graded P/N.

HDFS 530, RESEARCH IN HUMAN DEVELOPMENT AND FAMILY SCIENCES I, 4 Credits
An overview of research design, measurement, sampling and evaluation research. Introduces computer applications for data collection and analysis. Lec/lab.
Recommended: Undergraduate statistics and 12 credits of social science courses.

HDFS 531, APPLIED QUANTITATIVE METHODS I: ANOVA, 4 Credits
Principles and application of general linear models for categorical predictors and repeated measures designs (e.g., ANOVA).
Prerequisite: HDFS 529 with B- or better

HDFS 532, APPLIED QUANTITATIVE METHODS II: LINEAR REGRESSION, 4 Credits
Principles and application of general linear models for continuous predictors (e.g., multiple regression).
Prerequisite: HDFS 531 with B- or better
Equivalent to: HDFS 632

HDFS 533, SOCIAL POLICY AND HUMAN DEVELOPMENT, 4 Credits
Probes how policies and governments affect human development over the life course. Examines experiences in family, education, work, and health. Families are a central lens for examining effects. Offered alternate years.
Equivalent to: HOEC 533

HDFS 534, SOCIAL PROGRAM AND POLICY EVALUATION, 4 Credits
Models of evaluation and application of applied research methods to social programs and policies.
Prerequisite: HDFS 531 with C or better
Equivalent to: HOEC 534
HDFS 538, QUALITATIVE RESEARCH METHODS I, 4 Credits
Critical survey of qualitative approaches in social science research. Examines historical roots, epistemological perspectives, and ethical issues. Includes ethnographic and observational methods, interview, grounded theory, case study, and participatory approaches.
Equivalent to: HDFS 635
Recommended: 15 quarter credits of behavioral and social sciences.

HDFS 539, QUALITATIVE METHODS II, 4 Credits
Critical survey of qualitative approaches in social science research. Examines historical roots, epistemological perspectives, and ethical issues. Includes ethnographic and observational methods, interview, grounded theory, case study, and participatory approaches. Application of qualitative methods through completion of a qualitative research project.
Prerequisite: HDFS 538 with C or better

HDFS 541, FAMILY STUDIES, 4 Credits
Critical survey of current research in family studies with a focus on diverse family structures and processes.
Recommended: 15 quarter credits of behavioral and social sciences.

HDFS 546, THEORIES OF FAMILY STUDIES, 4 Credits
An overview of the major theoretical perspectives used in the study of families. Issues of theory construction and evaluation are also covered. Course goal is to enable the student to apply conceptual frameworks to a particular area of interest.
Equivalent to: HDFS 547

HDFS 547, FAMILIES AND POVERTY, 3 Credits
Examines families in poverty focusing on causes and consequences of family poverty, including global economic factors, migration patterns, discrimination, and policies and programs for families.
Equivalent to: HDFS 546

HDFS 565, TOPICS IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 3 Credits
Topics and issues in human development and family sciences. Examples: children and the law; gender and families; parenting; aging; relationship development across the lifespan.
This course is repeatable for 18 credits.
Recommended: 6 credits of HDFS, SOC or PSY.

HDFS 587, SOCIAL GERONTOLOGY, 3 Credits
An introduction to aging research targeted toward understanding demographics of aging societies, lifespan theories, methods of aging research, psychosocial aging processes, family and caregiving issues, housing and long-term care, and current social policies.

HDFS 602, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 603, DISSERTATION, 1-16 Credits
This course is repeatable for 999 credits.

HDFS 605, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 606, SPECIAL PROJECTS, 1-6 Credits
This course is repeatable for 16 credits.

HDFS 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

HDFS 610, PRACTICUM/INTERNSHIP, 3-15 Credits
This course is repeatable for 16 credits.

HDFS 630, QUANTITATIVE METHODS IN FAMILY AND INDIVIDUAL DEVELOPMENT, 3 Credits
Advanced quantitative techniques in human development and family studies. Includes longitudinal designs, structural equation modes. Content varies with each offering.
Prerequisite: HDFS 532 with B- or better
This course is repeatable for 9 credits.

HDFS 639, COMMUNITY-BASED PARTICIPATORY RESEARCH, 4 Credits
Focuses on initiating and conducting research in partnership with communities. Includes in-depth examination of community-based participatory research (CBPR) elements, principles, theories, and approaches; how researchers can successfully partner with communities; and research with minority and/or underprivileged communities; with examples from environmental health, gerontology, and health promotions.
Recommended: 9 credits of public health or HDFS graduate coursework

HDFS 665, TEACHING IN HUMAN DEVELOPMENT AND FAMILY SCIENCES, 1 Credit
Principles and practices of pedagogy in human development and family sciences related to both on-campus and Ecampus instruction. Graded P/N.
This course is repeatable for 6 credits.
HDFS 685, RACE, CLASS, CULTURE AND AGING, 4 Credits
Examines the diversity among the older population in health status, health beliefs/behaviors, and health care, and explores the interaction of culture and structure as determinants of their life chances. The empirical literature used in the course is drawn from the experiences of aging of African-American, Latino, and Asian-Pacific Islander elderly. Taught spring term even years. CROSSLISTED as H 685/HDFS 685.
Equivalent to: H 685
Recommended: 9 credits of public health or HDFS graduate coursework

HDFS 699, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 8 credits.

HDFS 808, WORKSHOP, 1-16 Credits
PREREQ: Application to Early Childhood Leadership Directions.
This course is repeatable for 16 credits.

Humanitarian Engr Sci & Tech (HEST)
HEST 199, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 9 credits.

HEST 201, INNOVATION FOR SOCIAL IMPACT, 3 Credits
Introduces methods for designing solutions to address needs of low-resource or other vulnerable peoples using tools from engineering and social sciences, and investigates techniques to bring ideas to market sustainably through social entrepreneurship. Multidisciplinary teams will step through the design process, including detailed needs assessment and customer discovery, critique and application of theoretical frameworks, exploration of the diffusion process and relevant system/institutions, prototyping, plans for technical and user experience testing, and considering implementation. CROSSLISTED as ANTH 201/HEST 201.
Equivalent to: ANTH 201

HEST 241, HOUSEHOLD ENERGY IN GUATEMALA: BACKGROUND, 1 Credit
An introduction to the technical, social, environmental, and economic issues surrounding energy needs for households in developing countries and the technologies and policies needed to help address them. Students are introduced to concepts about global development, needs assessment and co-design, qualitative and quantitative evaluation, and local socioeconomic conditions. This course is preparation for the 10-day Summer HEST 242 faculty-led study abroad course in Guatemala. Students from any major are invited to participate in this multidisciplinary course series.

HEST 242, HOUSEHOLD ENERGY IN GUATEMALA: APPLICATIONS, 3 Credits
Through immersion in rural communities during this 10-day interdisciplinary study abroad course, students will gain a deeper understanding of household energy needs in developing countries, as well as the social, environmental, technical, and economic issues surrounding technologies and policies to help meet these needs. The outcomes produced by a variety of household technologies such as biomass cookstoves will be evaluated through qualitative and quantitative data gathering, including experiments, observations, and surveys, giving students the chance to practice their research and cross-cultural communication skills under a variety of circumstances.
Recommended: HEST 241

HEST 299, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 9 credits.

HEST 310, *INTRO TO COMMUNITY ENGAGEMENT AND COMMUNITY-BASED DESIGN, 3 Credits
Includes study of civic problems and issues, design-thinking concepts and application to co-design of engineering, science and technology-based solutions with social impact, and development of dispositions for effective community engagement through field study and service-learning. Recommended course for student wanting to complete a HEST internship. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

HEST 320, *ENGINEERING FOR GLOBAL HEALTH SOLUTIONS, 3 Credits
An introduction to the critical processes and drivers involved in the development of engineering solutions to address global health problems. Topics include world health challenges, accessing and interpreting health and economic data, basic healthcare systems around the world, the importance of ethical guidelines in ensuring the protection of human subjects, the process of cost effectiveness assessment of a technology, and the timescale and hurdles to adoption of a technology. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

HEST 399, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 9 credits.

HEST 411, ENGINEERING DESIGN FOR EMERGENCY & LOW-RESOURCE ENVIRONMENTS, 3 Credits
Introduces the challenges of engineering in emergency and low-resource environments, concepts of appropriate technologies and response, and engineering design of discrete services and technologies such as water systems, environmental health systems and infrastructure.
Recommended: Completion of an undergraduate engineering fluid mechanics course
HEST 412, *MULTIDISCIPLINARY CASE STUDIES IN HUMANITARIAN ENGINEERING, SCIENCE AND TECHNOLOGY, 3 Credits
Introduces students to multidisciplinary methods and perspectives applied to case studies in humanitarian engineering, science and technology. Applications to real world issues with global implications at the interface of humanity and nature are addressed from a systems perspective using a case study approach.
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

HEST 415, UAV ENGINEERING, 4 Credits
Develop a strong foundation in Unmanned Aerial Vehicles (UAV) systems technologies. Engineering evaluation of UAV systems, subcomponents, aircraft missions, operations and Federal Aviation Administration (FAA) requirements. Apply actual UAV models and subsystems to a real-world project on UAV deployment for humanitarian and environmental missions. Write a technical report as a team-project, developing and demonstrating critical thinking and engineering reporting skills in the subject. CROSSTLISTED as AAE 415/HEST 415.
Prerequisite: ME 316 with C or better and ME 317 [C] and ME 331 [C] and ME 373 [C]
Equivalent to: AAE 415

HEST 499, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 9 credits.

HEST 511, ENGINEERING DESIGN FOR EMERGENCY & LOW-RESOURCE ENVIRONMENTS, 3 Credits
Introduces the challenges of engineering in emergency and low-resource environments, concepts of appropriate technologies and response, and engineering design of discrete services and technologies such as water systems, environmental health systems and infrastructure.
Recommended: Completion of an undergraduate engineering fluid mechanics course

HEST 512, MULTIDISCIPLINARY CASE STUDIES IN HUMANITARIAN ENGINEERING, SCIENCE AND TECHNOLOGY, 3 Credits
Introduces students to multidisciplinary methods and perspectives applied to case studies in humanitarian engineering, science and technology. Applications to real world issues with global implications at the interface of humanity and nature are addressed from a systems perspective using a case study approach.
Available via Ecampus

HEST 541, HOUSEHOLD ENERGY IN GUATEMALA: BACKGROUND, 1 Credit
An introduction to the technical, social, environmental, and economic issues surrounding energy needs for households in developing countries and the technologies and policies needed to help address them. Students are introduced to concepts about global development, needs assessment and co-design, qualitative and quantitative evaluation, and local socioeconomic conditions. This course is preparation for the 10-day Summer HEST 542 faculty-led study abroad course in Guatemala. Students from any major are invited to participate in this multidisciplinary course series.

HEST 542, HOUSEHOLD ENERGY IN GUATEMALA: APPLICATIONS, 3 Credits
Through immersion in rural communities during this 10-day interdisciplinary study abroad course, students will gain a deeper understanding of household energy needs in developing countries, as well as the social, environmental, technical, and economic issues surrounding technologies and policies to help meet these needs. The outcomes produced by a variety of household technologies such as biomass cookstoves will be evaluated through qualitative and quantitative data gathering, including experiments, observations, and surveys, giving students the chance to practice their research and cross-cultural communication skills under a variety of circumstances.
Recommended: HEST 541

HEST 599, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 9 credits.

Industrial and Mfg Engineering (IE)

IE 112, SPREADSHEET SKILLS FOR INDUSTRIAL & MANUFACTURING ENGINEERS, 1 Credit
Basic spreadsheet functionality needed to create spreadsheet applications for common industrial and manufacturing engineering information processing tasks, including simple databases, statistical analysis, quality control, forecasting, production planning and control, and operations analysis and improvement. Topics include creating spreadsheets, formatting, data types, formulas, charts, user-defined functions, and pivot tables.

Recommended: Completion of an undergraduate engineering mechanics course

IE 199, SPECIAL TOPICS, 1-16 Credits
Special topics in industrial engineering.
This course is repeatable for 16 credits.

IE 212, COMPUTATIONAL METHODS FOR INDUSTRIAL ENGINEERING, 4 Credits
Prerequisite: ENGR 112 with C or better and IE 112 (may be taken concurrently) [C]
Recommended: Algebra, calculus, differentiation and integration
IE 255, INTRODUCTORY QUANTITATIVE ANALYSIS OF INDUSTRIAL AND MANUFACTURING SYSTEMS, 3 Credits
An introduction to basic analysis concepts that will be utilized in subsequent industrial and manufacturing engineering courses. Emphasis will be placed on fundamental concepts such as data collection, commonly applied quantitative analysis methods, and how these are utilized to support decisions in different industrial and manufacturing system applications. Examples include resource utilization calculations, equipment fraction equations, queuing models, basic statistical inference procedures, and probability models used in discrete event simulation.
Prerequisite: MTH 252 with C or better

IE 285, INTRODUCTION TO INDUSTRIAL AND MANUFACTURING ENGINEERING, 3 Credits
Introduction to selected topics in industrial and manufacturing engineering, including history and philosophy, product design and manufacturing cycle, integrate role of engineering and business, and multi-objective nature of organizations. Surveys of selected design problems in resource allocation, operations and quality management, and production engineering. CROSSTLISTED as IE 285/MFGE 285.
Prerequisite: IE 112 (may be taken concurrently) with C or better or FOR 112 (may be taken concurrently) with C or better
Equivalent to: MFGE 285

IE 299, SPECIAL TOPICS, 1-16 Credits
Special topics in industrial engineering. This course is repeatable for 16 credits.

IE 355, STATISTICAL QUALITY CONTROL, 4 Credits
Control of quality through the use of statistical analysis; typical control techniques and underlying theory. Development of reliability models and procedures for product assurance. Lec/lab.
Prerequisite: IE 255 with C or better or ST 314 with C or better
Equivalent to: IE 351

IE 356, EXPERIMENTAL DESIGN FOR INDUSTRIAL PROCESSES, 4 Credits
Systematic analysis of processes through the use of statistical analysis, methods, and procedures. Application of statistical techniques including use of classic process analysis techniques, regression and design of experiments. Lec/rec.
Prerequisite: IE 255 with C or better or ST 314 with C or better
Equivalent to: IE 352

IE 366, WORK SYSTEMS ENGINEERING, 4 Credits
Principles and techniques of work measurement, methods engineering, workplace design, work sampling, and predetermined time systems. Basic human factors engineering and ergonomics principles applied to workplace design. The work systems engineering process. Lec/lab/rec.
Prerequisite: (IE 255 with C or better or ST 314 with C or better) and PH 212 [C] and PH 213 [C]
Equivalent to: IE 341

IE 367, PRODUCTION PLANNING AND CONTROL, 4 Credits
Forecasting techniques, inventory analysis, master production scheduling, material and capacity requirements, planning and scheduling methods.
Prerequisite: IE 255 with C or better or ST 314 with C or better
Equivalent to: IE 362

IE 368, FACILITY DESIGN AND OPERATIONS MANAGEMENT, 4 Credits
Design and analysis of industrial facilities including just-in-time systems, queuing, material handling systems, material flow analysis, line balancing, systematic layout planning, design of warehouse facilities, and facilities location.
Prerequisite: ENGR 248 with C or better and (IE 255 [C] or ST 314 [C])
Equivalent to: IE 365

IE 380, *THE RESPONSIBLE ENGINEER, 3 Credits
The idea of responsibility and the ethical responsibilities of the engineer. Introduction to value, ethics, and ethical systems. Engineering as value creation and the ethical ramifications of engineering. Codes of engineering ethics. Recognizing and addressing ethical dilemmas in engineering. Examination of the individual, social, and environmental effects of engineering and technology. (Baccalaureate Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

IE 399, SPECIAL TOPICS, 1-16 Credits
Special topics in industrial engineering. This course is repeatable for 16 credits.

IE 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

IE 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

IE 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

IE 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

IE 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

IE 411, VISUAL PROGRAMMING FOR INDUSTRIAL APPLICATIONS, 4 Credits
Object-oriented modeling, Unified Modeling Language, software development concepts, file and database connectivity, and visual programming skills (Microsoft Visual Basic) for use in developing industrial applications, such as process monitoring and supply chain management.
Prerequisite: IE 212 with C or better
Equivalent to: IE 414
IE 412, INFORMATION SYSTEMS ENGINEERING, 4 Credits
Framework for enterprise information systems. Engineering and scientific systems. Requirements definition, enhanced entity relationship modeling, logical modeling, structured query language, relational model, referential integrity. Lec/lab.
Prerequisite: IE 212 with C or better

IE 415, SIMULATION AND DECISION SUPPORT SYSTEMS, 4 Credits
Analysis of operations and production systems through the application of computer simulation modeling techniques. Fundamentals of computer simulation including random number generation, input/output data analysis, model validation and verification. Lec/lab.
Prerequisite: IE 112 with C or better and (IE 255 [C] or ST 314 [C])

IE 418, TELECOMMUNICATION CONCEPTS, 3 Credits
Telecommunication concepts for industrial applications. OSI reference model, local area networks, wide area networks, internet architecture. Taught fall in even years.
Prerequisite: IE 212 with C or better
Recommended: Previous programming experience

IE 419, WIRELESS NETWORKS, 3 Credits
RF fundamentals, ISO 802.11 standards, spread spectrum technology, narrow band technology, direct sequence and frequency hopping transmission schemes, electromagnetic interference, design of indoor wireless networks.
Prerequisite: IE 418 with C or better

IE 425, INDUSTRIAL SYSTEMS OPTIMIZATION, 4 Credits
A first course in operations research. Topics include mathematical programming formulations and solutions, the simplex method, network optimization, introduction to metaheuristics, and linear programming under uncertainty.
Prerequisite: (IE 255 with C or better or ST 314 with C or better) and (MTH 306 [C] or MTH 341 [C])
Equivalent to: IE 421, IE 422

IE 426, STOCHASTIC MODELS OF INDUSTRIAL SYSTEMS, 4 Credits
The application of probabilistic and stochastic modeling methodologies to analyze the performance of production and service systems. Major topics include probability models for space planning, Poisson arrival processes, discrete and continuous time Markov chain models of machine cycle times, and queuing models applied to various industrial systems. Other applications of these tools to model inventories, process behavior, and equipment reliability is illustrated.
Prerequisite: (IE 255 with C or better or ST 314 with C or better) and IE 425 [C]

IE 470, MANAGEMENT SYSTEMS ENGINEERING, 4 Credits
Improvement of organizational performance through the design and implementation of systems that integrate personnel, technological, environmental, and organizational variables. Topics include performance assessment and measurement as well as improvement methodologies.
Prerequisite: ENGR 390 with C or better and IE 355 [C] and IE 366 [C] and IE 367 [C] and IE 368 [C]
Equivalent to: IE 474

IE 471, PROJECT MANAGEMENT IN ENGINEERING, 3 Credits
Critical issues in the management of engineering and high-technology projects are discussed. Time, cost, and performance parameters are analyzed from the organizational, people, and resource perspectives. Network optimization and simulation concepts are introduced. Resource-constrained project scheduling case discussions and a term project are included.
Prerequisite: ENGR 390 with C or better and IE 355 [C] and IE 366 [C] and IE 367 [C] and IE 368 [C]

IE 475, ADVANCED MANUFACTURING COSTING TECHNIQUES, 3 Credits
Costing techniques applicable in advanced manufacturing enterprises: activity-based costing, economic value added, Japanese cost management techniques, life cycle costing, throughput accounting, cost of quality, and financial versus operational performance measures. Emphasis on linkages to such advanced manufacturing systems as cellular manufacturing, flexible manufacturing, JIT, Lean, and ERP.
Prerequisite: ENGR 390 with C or better and IE 355 [C] and IE 366 [C] and IE 367 [C] and IE 368 [C]

IE 499, SPECIAL TOPICS, 1-5 Credits
Recent advances in industrial engineering pertaining to the theory and application of system studies. Analysis and design of natural resource systems; evaluation; detection extraction; processing and marketing systems; advanced design of production systems with reference to social, economic, and regional planning; human engineering studies of man-machine systems; applications of operations research techniques. Nonsequence course. Not offered every term.
This course is repeatable for 99 credits.

IE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

IE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

IE 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

IE 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
IE 511, VISUAL PROGRAMMING FOR INDUSTRIAL APPLICATIONS, 4 Credits
Object-oriented modeling, Unified Modeling Language, software development concepts, file and database connectivity, and visual programming skills (Microsoft Visual Basic) for use in developing industrial applications, such as process monitoring and supply chain management.
Equivalent to: IE 514
Recommended: IE 212

IE 512, INFORMATION SYSTEMS ENGINEERING, 4 Credits
Framework for enterprise information systems. Engineering and scientific systems. Requirements definition, enhanced entity relationship modeling, logical modeling, structured query language, relational model, referential integrity.

IE 515, SIMULATION AND DECISION SUPPORT SYSTEMS, 4 Credits
Analysis of operations and production systems through the application of computer simulation modeling techniques. Fundamentals of computer simulation including random number generation, input/output data analysis, model validation and verification. Lec/lab.
Recommended: IE 212 and previous programming experience.

IE 518, TELECOMMUNICATION CONCEPTS, 3 Credits
Telecommunication concepts for industrial applications. OSI reference model, local area networks, wide area networks, internet architecture. Taught fall in even years.
Recommended: IE 212 and previous programming experience.

IE 519, WIRELESS NETWORKS, 3 Credits
RF fundamentals, ISO 802.11 standards, spread spectrum technology, narrow band technology, direct sequence and frequency hopping transmission schemes, electromagnetic interference, design of indoor wireless networks.
Prerequisite: IE 518 with C or better

IE 521, INDUSTRIAL SYSTEMS OPTIMIZATION I, 3 Credits
Techniques for analysis and solution of problems in industrial and management systems. Emphasis on application of linear and integer programming and extensions.
Equivalent to: IE 525
Recommended: MTH 341

IE 522, INDUSTRIAL SYSTEMS OPTIMIZATION II, 3 Credits
Techniques for analysis and solution of problems in industrial and management systems. Emphasis on applications of dynamic programming, Markovian processes, and questions as applied to industrial problems.
Recommended: ST 314

IE 523, INTEGER PROGRAMMING, 3 Credits
Classic models and algorithms for discrete optimization. Includes intuition and theory about computational strategies for solution of integer programming and combinatorial optimization problems.
Prerequisite: IE 521 with C or better

IE 533, HUMAN ANALYTICS AND BEHAVIORAL OPERATIONS, 3 Credits
Introduces several quantitative applications related to determining workforce size, skill-sets, and multi-functionality in service and manufacturing systems based on measurable quality and productivity performance, at the intersection of human factors engineering and production planning. Modeling and solving problems in a context of the speed and accuracy trade-off. Models include learning, forgetting, teamwork, fatigue, procrastination, and individual difference measures.
Recommended: Introductory math programming

IE 542, DESIGN OF HUMAN FACTORS / ERGONOMICS EXPERIMENTS, 4 Credits
Designed to provide graduate students with introductions to a broad range of methods appropriate for studying humans, tasks, environments and their interaction along with various topics in the area of Human Factors/Ergonomics. Reading/discussion format.
Recommended: Graduate level statistics course

IE 545, HUMAN FACTORS ENGINEERING, 4 Credits
Analysis and design of work systems considering human characteristics, capabilities and limitations. Analysis and design of displays, controls, tools, and workstations. Human performance analysis. Human factors research methods.
Equivalent to: IE 541

IE 546, HUMAN-MACHINE SYSTEMS ENGINEERING, 3 Credits
Development of safe, high performance human-machine systems. System/function/task analysis, function allocation, design, mockups and rapid prototyping, human factors test and evaluation. Critical examination of the human-factors and domain-specific literature to identify human factors problems, and knowledge and methods to address those problems.
Equivalent to: IE 542
Recommended: IE 545

IE 548, COGNITIVE ENGINEERING, 3 Credits
Theories and models of human sensory, cognitive, and motor performance pertaining to the operation of complex systems. Applications to human-machine systems engineering. Research topics and methods related to cognitive engineering.
Recommended: IE 545
IE 552, DESIGN OF INDUSTRIAL EXPERIMENTS, 3 Credits
A first course in design of experiments with an emphasis on applications and fundamental data analysis methods. Basic statistical inference, analysis of variance, blocking, general factorial designs, and two-level factorial designs are covered.
Recommended: ST 314

IE 553, DESIGN OF INDUSTRIAL EXPERIMENTS II, 3 Credits
This second course in design of experiments is a continuation of IE 552. The same textbook is used. Topics covered include two-level fractional factorial designs, regression models, response surface methods, rules for expected sum of squares and expected mean squares, a summary of the ‘no-name’ approach to DOE, and analysis of experiments with unbalanced data (time permitting).
Prerequisite: IE 552 with C or better

IE 563, ADVANCED PRODUCTION PLANNING AND CONTROL, 3 Credits
Recommended: IE 521 and ST 314

IE 564, DESIGN AND SCHEDULING OF CELLULAR MANUFACTURING SYSTEMS, 3 Credits
Recommended: Computer experience

IE 570, MANAGEMENT SYSTEMS ENGINEERING, 4 Credits
Improvement of organizational performance through the design and implementation of systems that integrate personnel, technological, environmental, and organizational variables. Topics include performance assessment and measurement as well as improvement methodologies.
Equivalent to: IE 574

IE 571, PROJECT MANAGEMENT IN ENGINEERING, 3 Credits
Critical issues in the management of engineering and high-technology projects are discussed. Time, cost, and performance parameters are analyzed from the organizational, people, and resource perspectives. Network optimization and simulation concepts are introduced. Resource-constrained project scheduling case discussions and a term project are included.
Available via Ecampus

IE 575, SYSTEMS THINKING THEORY AND PRACTICE, 4 Credits
An introduction to systems science theory and practice. Systems science theory is explored through the fundamentals of systems thinking theory, and theory of knowledge. Systems science practice is explored through system dynamics modeling techniques for simulating socio-technical systems, structures, and processes.

IE 581, OPERATIONS MANAGEMENT, 4 Credits
Critical and current issues on the implementation of operations management strategies for the engineering manager. Includes aspects of operations in an engineering management environment such as work systems design, forecasting, strategy, facilities location and design, management of quality and resources planning and management.
Prerequisite: IE 582 with B or better
Recommended: IE 571
Available via Ecampus

IE 582, INTRODUCTION TO MANAGEMENT FOR ENGINEERS AND SCIENTISTS, 4 Credits
An introduction to concepts, tools, and practices necessary for a broad understanding of the roles of engineering and technical managers. A mix of research results, case studies, and experiential learning is used to bolster theories of management, with focus on technical organizations.
Available via Ecampus

IE 583, ADVANCED ENGINEERING ECONOMICS ANALYSIS, 4 Credits
Examines the economics dimension of engineering management, from costing techniques to financial analysis. Topics include industrial cost analysis and estimation, economic planning, forecasting, and budgeting, and financial analysis for engineering and engineering management.
Prerequisite: IE 582 with B or better
Recommended: Basic courses in engineering economic analysis (ENGR 390)
Available via Ecampus

IE 584, SYSTEMS ENGINEERING, 4 Credits
An overview of systems engineering within engineering management practice. Principles of systems engineering are explored through traditional and contemporary hard and soft systems of engineering techniques and practices, and through current future developments in the field.
Prerequisite: IE 582 with B- or better
Recommended: IE 581 and IE 583 and IE 586 and IE 587
Available via Ecampus
IE 585, LEGAL ASPECT OF ENGINEERING MANAGEMENT, 3 Credits
A survey of legal topics relevant to engineers, including basic of legal system, labor law, intellectual property, torts, and contracts. This is an introductory course, emphasizes on legal principles that can provide engineers with the ability to recognize legal issues that are likely to arise in the engineering profession and engineering management. Note: This is an introductory class and will in no way make a student a lawyer. Students are advised to seek legal representation if he/she encounters a legal issue.
Prerequisite: IE 582 with B or better
Recommended: IE 581 and IE 583 and (IE 586 or CCE 552)
Available via Ecampus

IE 586, PROJECT RISK MANAGEMENT, 4 Credits
An introduction to the concept of project risk in producing constructed engineering projects. Course content includes project baselining, risk definition and identification, risk assessment and management techniques, risk control, risk response, and risk management. CROSSLISTED as CCE 552/IE 586.
Equivalent to: CCE 552
Available via Ecampus

IE 587, MANAGEMENT OF INFORMATION SYSTEMS, 4 Credits
An introduction to the management of information systems and their strategic importance in business. Topics covered include global e-business and collaboration, databases and information management, basics of telecommunications and wireless technology, security vulnerabilities of information systems, basics of business intelligence and business analytics, knowledge management and enhanced decision making.
Prerequisite: IE 582 with B or better
Available via Ecampus

IE 588, MANAGEMENT OF NEW PRODUCT DEVELOPMENT, 4 Credits
Introduces the new product development (NPD) process with the objective of understanding the underlying structure in NPD and exploring the methods to manage NPD processes by applying them to case studies and term project. The NPD process is investigated through its five key phases: (1) Opportunity identification/selection, (2) Concept generation, (3) Concept/project evaluation, (4) Development, and (5) Launch.
Prerequisite: IE 581 with B or better and IE 582 [B] and IE 583 [B]
Recommended: IE 584
Available via Ecampus

IE 589, PROFESSIONAL RESPONSIBILITY AND ETHICS, 3 Credits
An in-depth exploration of professional engineering ethics. Course content includes conceptual theoretical basis of ethics, ethics among professional organizations, ethical consideration of design, critical analysis of ethical situations, ethics in the workplace, and ethical considerations regarding the broader environment. CROSSLISTED as CCE 554/IE 589.
Equivalent to: CCE 554
Available via Ecampus

IE 590, STRATEGIC PLANNING IN ENGINEERING ORGANIZATIONS, 4 Credits
Provides an overview the strategic planning process from a variety engineering perspective. Variety engineering is explored via key management control theory concepts and through applying students’ work experience.
Prerequisite: IE 581 with B or better and IE 582 [B] and IE 583 [B]
Available via Ecampus

IE 591, STATISTICAL CONCEPTS FOR ENGINEERING MANAGERS, 4 Credits
Provides a first review of basic probability and statistical inference concepts and methods relevant for engineering managers. This is followed by a presentation of frequently utilized statistical methods in industry. These include process control, regression analysis, and experimental design. For each method, the fundamental ideas will be covered, and simple examples will be presented to provide engineering managers with the background needed to initiate and manage applications of these methods in industry. The course will end with an overview of process optimization, and robust parameter design.
Prerequisite: IE 582 with B or better
Available via Ecampus

IE 594, RESEARCH METHODS IN ENGINEERING, 3 Credits
Introduction to research methodologies including surveys, interviews, quasi-experimentation, and case studies. Methods for research design, and collection and analysis of data.
Equivalent to: IE 574

IE 599, SPECIAL TOPICS, 1-5 Credits
Recent advances in industrial engineering pertaining to the theory and application of system studies. Analysis and design of natural resource systems; evaluation; detection extraction; processing and marketing systems; advanced design of production systems with reference to social, economic, and regional planning; human engineering studies of man-machine systems; applications of operations research techniques. Nonsequence course. Not offered every term.
Equivalent to: IE 592
This course is repeatable for 99 credits.
Available via Ecampus

IE 603, THESIS, 1-16 Credits
This course is repeatable for 99 credits.
Available via Ecampus

IE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 99 credits.

IE 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

IE 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Integrative Biology (IB)

**IB 501, RESEARCH, 1-16 Credits**
Graduate-level research completed under faculty supervision.
Equivalent to: Z 501
This course is repeatable for 16 credits.

**IB 503, THESIS, 1-16 Credits**
Master’s thesis, completed under faculty supervision.
Equivalent to: Z 503
This course is repeatable for 999 credits.

**IB 505, READING AND CONFERENCE, 1-16 Credits**
For graduate students working toward a master’s degree. After arrangements with individual faculty, readings and discussions on topics of mutual interest.
Equivalent to: Z 505
This course is repeatable for 16 credits.

**IB 506, PROJECTS: OUTREACH, 1-16 Credits**
Graded P/N.
Equivalent to: BI 506
This course is repeatable for 16 credits.

**IB 507, SEMINAR, 1-16 Credits**
Graded P/N.
Equivalent to: Z 507
This course is repeatable for 16 credits.

**IB 510, INTERNSHIP, 1-16 Credits**
Equivalent to: Z 510
This course is repeatable for 16 credits.

**IB 511, INTEGRATIVE BIOLOGY GRADUATE STUDENT ORIENTATION, 2 Credits**
Introduction to the graduate program in Integrative Biology and at OSU in general. Class introduces students to various skills for success in graduate school and beyond. Exploration of career options for those holding a degree in IB are explored. Graded P/N.

**IB 512, INTEGRATIVE BIOLOGY GTA TRAINING AND DEVELOPMENT, 1 Credit**
Provides instructional support and professional development for first year graduate teaching assistants (GTAs) in Integrative Biology. Focuses on developing a foundation for quality instruction, facilitation, and leadership as GTAs and professionals. Best practices, skills, theory and knowledge necessary for effective teaching, facilitation, and assessment of student learning are explored.
This course is repeatable for 3 credits.

**IB 513, GRANT WRITING AND ETHICS, 3 Credits**
Participants will write and submit a grant proposal by the end of the term. We discuss the main components of a typical grant proposal. Participants read and critique proposal drafts written by participants. Ethical issues are discussed as they are encountered.
Equivalent to: Z 585
This course is repeatable for 6 credits.

**IB 515, SCIENCE COMMUNICATION: MAKING YOUR SCIENCE MATTER, 2 Credits**
A practical, hands-on course designed to help science graduate students build knowledge and skills for engaging with audiences beyond their scientific peers. The science of science communication, the cultures of journalism and public policy, the changing roles of scientists in society, and science advocacy will be explored through lectures, invited talks, in-class discussions and exercises.

**IB 518, SCIENCE AND POLICY, 2 Credits**
An introduction to the science-policy interface in a ‘post-truth’ society. The formulation of state and federal public policy is examined, as well as role of science and scientist in informing policy, management decisions and public understanding. Current topics are emphasized.

**IB 522, COMPARATIVE/FUNCTIONAL VERTEBRATE ANATOMY, 5 Credits**
Phylogenetically-based study of the form and function of vertebrate organ systems, including integumentary, musculoskeletal, cardiopulmonary, digestive, and sensory. Lab emphasizes comparative form through dissection, and function through non-invasive experimentation. Lec/lab.
Equivalent to: Z 522

**IB 523, ENVIRONMENTAL PHYSIOLOGY, 3 Credits**
Comparative environmental physiology of animals with emphasis on adaptations to such aspects of the physical environment as temperature, water, ions, and gases. Consideration given to interactions between physiology and environment that influence the local and geographic distribution of animals.
Equivalent to: Z 523

**IB 525, EMBRYOLOGY AND DEVELOPMENT, 5 Credits**
Equivalent to: Z 525
IB 527, PALEOBIOLOGY, 0-4 Credits
Fossils provide a direct window into the evolution, extinction, and ecology of past life on Earth. A process-based study of the marine and terrestrial fossil record is taken to explore the topics of preservation, macroevolution, extinction of biotas, biomechanics, paleoecology, and climate change. Required laboratory and weekend field trip.
Equivalent to: BI 527

IB 531, VERTEBRATE PHYSIOLOGY I, 4 Credits
Systems/concepts covered include motor reflexes, autonomic nervous system, digestion/metabolism, renal and osmoregulatory, endocrine and reproductive systems. First in IB 531, IB 532 series.

IB 532, VERTEBRATE PHYSIOLOGY II, 3 Credits
Systems/concepts covered include blood, immune, lymphatic, cardiovascular, and pulmonary. Second in the IB 531, IB 532 series.
Equivalent to: Z 532

IB 538, BEHAVIORAL NEUROBIOLOGY, 3 Credits
Equivalent to: Z 538

IB 540, INSECT PHYSIOLOGY, 3 Credits
Fundamentals of insect physiology from the behavioral to the molecular level. Cellular physiology and hormonal control of molting, metamorphosis and reproduction. Overview of body functions: respiration, circulation, digestion, metabolism, and osmoregulation. Physiological basis of behavior: muscles and flight, structure and functions of the nervous system, sensory physiology and chemical communication. The contributions of insect physiology to general physiological principles and biorational methods of insect pest control are discussed.
Equivalent to: Z 540

IB 545, EVOLUTION, 3 Credits
Formal analysis of genetic and ecological mechanisms producing evolutionary change; special topics include speciation, ecological constraints, adaptive radiations, paleontology, biogeography, the origin of life, molecular evolution, and human evolution.
Equivalent to: BI 545

IB 551, FUNCTIONAL ANATOMY OF THE HUMAN MUSCULAR SYSTEM, 4 Credits
In-depth dissection of the orientation, innervation, and functional significance of muscles and muscle groups. Topics include muscle identification, joint anatomy and variation of human form. IB 551 student expectations include vasculation and detailed joint anatomy. The laboratory component will consist of the dissection of the muscular anatomy of a human cadaver. Lab fee. Lec/lab.
Equivalent to: BI 551
Recommended: ((BI 231 and 241) or (BI 331 and 341)) and ((BI 232 and 242) or (BI 332 and 342)) and ((BI 233 and 243) or (BI 333 and 343))

IB 554, EVOLUTIONARY GENOMICS, 3 Credits
Examines the evolutionary forces that have produced such varied and complex genomes across the tree of life. The processes by which genomes can be structured, maintained, and remodeled (by nature or by humans) are explored through scientific literature. Special emphasis will be given to recent technological advances in genomics, along with their potential impacts on individuals and society.

IB 556, PHYLOGENETICS, 4 Credits
Explores the theory and practice of modern phylogenetic analysis. Emphasis placed on tree reconstruction algorithms, assessment of statistical support, and contemporary issues in phylogenetics. Lab will focus on the use of phylogenetic software and the analysis of molecular data sets. Lec/lab.
Equivalent to: BI 556

IB 561, MARINE AND ESTUARINE INVERTEBRATE ZOOLOGY, 4 Credits
Comparative survey of eight major invertebrate phyla and many lesser-known phyla. Areas of emphasis will be 1) invertebrate identification, 2) natural history (diversity, habitat, feeding, behavior), and 3) comparative anatomy (adaptive significance of morphological structures). Laboratories and field trips will strongly supplement lecture material. Lec/lab. Taught at Hatfield Marine Science Center.
Equivalent to: Z 561

IB 573, HERPETOLOGY, 3 Credits
World families and distribution of amphibians and non-avian sauropods; evolution, population biology, life histories, current literature.
Equivalent to: Z 573

IB 574, SYSTEMATIC HERPETOLOGY, 2 Credits
A survey of the phylogenetic diversity of amphibians and reptiles of the United States. Identification through the use of keys will be stressed. Field trip fee. Lab fee. Lec/lab.
Equivalent to: Z 574

IB 577, AQUATIC ENTOMOLOGY, 4 Credits
Biology, ecology, collection, and identification of aquatic insects. Two required Saturday field trips. Lec/lab.
Equivalent to: Z 577

IB 581, BIOGEOGRAPHY, 3 Credits
Biogeography is the study of the distribution of biodiversity. We focus on abiotic (geological, climatological) and biotic (ecological, evolutionary) factors that govern diversity across space and through time, emphasizing assembly of communities, global change, and conservation in today’s rapidly changing world. The course format includes lecture, computer-based activities, and discussion. Offered winter term in odd years.
Equivalent to: BI 581

IB 583, POPULATION BIOLOGY, 3 Credits
Theoretical and empirical views of the structure and function of populations from across the tree of life, emphasizing the integration of ecological and evolutionary approaches. Lec.
Equivalent to: BI 583
IB 592, THEORETICAL ECOLOGY, 4 Credits
A treatment of the central concepts of theoretical ecology, with emphasis on the analysis and modeling of single populations and multispecies communities. Topics include discrete- and continuous-time models of population growth, stochastic and deterministic processes, and the response of populations and communities to pulse and press perturbations.
Equivalent to: BI 592

IB 593, BEHAVIORAL ECOLOGY, 5 Credits
Behavioral ecology with emphasis on both theoretical and empirical approaches. Offered alternate years.
Equivalent to: Z 593

IB 594, COMMUNITY ECOLOGY, 5 Credits
Theory and analysis of multispecies associations. Emphasis on extent to which existing ecological theory is supported by natural phenomena. Course considers how biotic and abiotic mechanisms interact to regulate community organization and stability in marine, freshwater, and terrestrial habitats. Offered alternate years.
Equivalent to: Z 594

IB 595, DISEASE ECOLOGY, 3 Credits
An introduction to disease ecology—the study of disease processes in natural populations and communities. The course focuses on (I) the role parasites play in the ecology and evolution of animal populations, including humans; and (II) the relevance of ecological and evolutionary considerations in managing infectious diseases.
Equivalent to: BI 595

IB 599, SPECIAL TOPICS, 1-16 Credits
Topics and credits vary. Grading mode TBA. Taught at Hatfield Marine Science Center and Corvallis campus.
Equivalent to: Z 599
This course is repeatable for 16 credits.

IB 601, RESEARCH, 1-16 Credits
Doctoral-level research under faculty supervision. Graded P/N.
Equivalent to: Z 601
This course is repeatable for 16 credits.

IB 603, THESIS, 1-16 Credits
Doctoral thesis completed under faculty supervision.
Equivalent to: Z 603
This course is repeatable for 999 credits.

IB 605, READING AND CONFERENCE, 1-16 Credits
For graduate students working toward doctoral degree. After arrangements with individual faculty, readings and discussions on topics of mutual interest.
Equivalent to: Z 605
This course is repeatable for 16 credits.

Intensive English Pgm Acad Eng (IEPA)

IEPA 002NC, FOUNDATION LISTENING/SPEAKING, 6 Credits
Engages students in activities that familiarize them with English pronunciation and conversation models. They learn to participate in basic conversations on everyday topics using formulaic expressions and understand and give basic instructions.
This course is repeatable for 18 credits.

IEPA 003NC, ORIENTATION: SKILLS FOR LIVING IN THE U.S., 3 Credits
Focus on helping international students adjust to living in the United States. The emphasis is on developing skills and strategies that contribute to success in- and out of the classroom. Additional topics include personal safety, health, and American culture. Graded P/N only.

IEPA 005NC, TEST PREPARATION, 3 Credits
Become familiar with the components and question types of standardized math (ALEKS), English language (IELTS), and graduate school examinations (varies by section). Learn test-taking strategies and focus on the language skills that are essential for success on the examinations. Graded P/N only. This course is Level 5 or above.
This course is repeatable for 9 credits.

IEPA 007NC, FOUNDATION READING/VOCABULARY, 6 Credits
Engages students in activities that familiarize them with the English alphabet and the most common sight words building up to sentence-level understanding. Extensive practice with activities designed to help students identify and scan for details in adapted materials.
This course is repeatable for 18 credits.

IEPA 008NC, PRONUNCIATION AND ORAL FLUENCY, 3 Credits
Improve spoken English by learning ways to pronounce words and phrases more clearly. Work on areas such as stress, linking, intonation and individual problem sounds. Get individual instructor feedback, focusing on specific target areas. Graded P/N only. This course is Level 3 or above.
This course is repeatable for 9 credits.

IEPA 009NC, FOUNDATION WRITING/GRAMMAR, 6 Credits
Engages students in activities that familiarize them with English spelling and writing conventions. They learn to write simple sentences with basic grammar for everyday purposes.
This course is repeatable for 18 credits.
IEPA 011NC, ACADEMIC LISTENING/ SPEAKING 1, 6 Credits
Development of basic listening and speaking skills. Extensive practice with activities designed to help students listen and respond to authentic and adapted texts about everyday topics and classroom language.
Prerequisite: IEPA 002NC with C E or better or INTO Combined LS Level with a score of 1
This course is repeatable for 18 credits.

IEPA 013NC, GUIDED LEARNING, 3 Credits
Designed to support learning taking place in Foundation and Level 1 classes. Students meet in the Learning Center and manage their learning using individualized activities which are provided by the instructor. Primary focus is on vocabulary and basic English skills. Graded P/N only.
Prerequisite: IEPA Writing Reading Level with a score of 1
This course is repeatable for 9 credits.

IEPA 014NC, ACADEMIC READING/ VOCABULARY 1, 6 Credits
Development of basic reading and vocabulary skills. Extensive practice with activities designed to help students read adapted texts about everyday topics.
Prerequisite: IEPA 007NC with C E or better or INTO Combined RW Level with a score of 1
This course is repeatable for 18 credits.

IEPA 018NC, ACADEMIC WRITING/ GRAMMAR 1, 6 Credits
Development of forms and patterns of basic English grammar used in simple sentences and paragraphs. Extensive practice with activities designed to help students understand and produce grammatical structures necessary for achievement of Level 1 learning outcomes.
Prerequisite: IEPA 009NC with C E or better or INTO Combined RW Level with a score of 1
This course is repeatable for 18 credits.

IEPA 021NC, ACADEMIC LISTENING/ SPEAKING 2, 6 Credits
Development of listening and speaking skills with a movement beyond the basic level. Extensive practice with activities designed to help students comprehend longer listening texts on a wider range of topics and improve conversational skills.
Prerequisite: IEPA 011NC with C E or better or INTO Combined LS Level with a score of 2
This course is repeatable for 18 credits.

IEPA 024NC, ACADEMIC READING/ VOCABULARY 2, 6 Credits
Development of reading and vocabulary skills with a movement beyond the basic level. Extensive practice with activities designed to help students comprehend longer texts on a wider range of topics.
Prerequisite: IEPA 014NC with C E or better or INTO Combined RW Level with a score of 2
This course is repeatable for 18 credits.

IEPA 028NC, ACADEMIC WRITING/ GRAMMAR 2, 6 Credits
Development of forms and patterns of English grammar used in paragraphs and compositions. Extensive practice with activities designed to help students understand and produce grammatical structures necessary for achievement of Level 2 learning outcomes.
Prerequisite: IEPA 018NC with C E or better or INTO Combined RW Level with a score of 2
This course is repeatable for 18 credits.

IEPA 031NC, ACADEMIC LISTENING/ SPEAKING 3, 6 Credits
Development of listening and speaking skills with a movement toward academic tasks and projects at Level 3. Extensive practice in longer and more varied listening with a focus on developing listening and note taking strategies in addition to presentational skills.
Prerequisite: IEPA 021NC with C E or better or INTO Combined LS Level with a score of 3
This course is repeatable for 18 credits.

IEPA 033NC, GUIDED LEARNING, 3 Credits
Designed to support the learning taking place in Level 3 classes. Students meet in the Learning Center and assume greater responsibility for their learning, including setting and evaluating goals with the help of the instructor. Includes computer-assisted learning. Graded P/N only.
This course is repeatable for 9 credits.

IEPA 034NC, ACADEMIC READING/ VOCABULARY 3, 6 Credits
Development of reading and vocabulary skills with a movement toward academic tasks at Level 3. Extensive practice in longer and more varied reading with a focus on developing reading and vocabulary acquisition strategies.
Prerequisite: IEPA 024NC with C E or better or INTO Combined RW Level with a score of 3
This course is repeatable for 18 credits.

IEPA 038NC, ACADEMIC WRITING/ GRAMMAR 3, 6 Credits
Development of writing and grammar skills with a movement toward academic tasks and projects at Level 3. Extensive practice with activities designed to help students develop syntax and composition skills.
Prerequisite: IEPA 028NC with C E or better or INTO Combined RW Level with a score of 3
This course is repeatable for 18 credits.

IEPA 041NC, ACADEMIC LISTENING/ SPEAKING 4, 6 Credits
Further development of academic listening and speaking skills with a strong emphasis on critical thinking in the listening of lengthier, more complex listenings appropriate to Level 4. Extensive practice in listening and note taking to adapted lectures as well as discussions and presentations in small and large groups.
Prerequisite: IEPA 031NC with C E or better or INTO Combined LS Level with a score of 4
This course is repeatable for 18 credits.
IEPA 043NC, IDL, 3 Credits
Individualized Directed Learning (IDL) classes meet in the Learning Center. Students assume more responsibility for their learning, including goal setting and self-monitoring with the instructor providing a framework and a contractual agreement. Designed to support learning in Level 4. Focus is on compensating for gaps in skills and on specialized needs. Graded P/N only.
*This course is repeatable for 9 credits.*

IEPA 044NC, ACADEMIC READING/ VOCABULARY 4, 6 Credits
Further development of reading and vocabulary skills with a strong emphasis on critical thinking in the reading of lengthier, more complex material appropriate to Level 4. Extensive practice on developing reading fluency and vocabulary acquisition strategies.
*Prerequisite: IEPA 034NC with C E or better or INTO Combined RW Level with a score of 4*
*This course is repeatable for 18 credits.*

IEPA 046NC, FUNDAMENTAL ACADEMIC EXTENSIONS, 6 Credits
This integrated skills course reinforces skills needed to be successful in an academic setting. It provides students with the opportunity to improve academic reading comprehension, annotation and paraphrasing skills, note taking, and group participation. Students apply the strategies learned in listening and reading contexts to writing in-class assignments. Students also develop critical thinking skills through course activities.
*This course is repeatable for 18 credits.*

IEPA 048NC, ACADEMIC WRITING/ GRAMMAR 4, 6 Credits
Development of formal, academic writing skills including researching, analyzing and organizing the standard academic essay, using paraphrases, summaries, and quotations at Level 4. Introduction of the concept of intellectual property and referencing. Extensive practice with activities designed to help students develop more complex sentences appropriate to academic writing.
*Prerequisite: IEPA 038NC with C E or better or INTO Combined RW Level with a score of 4*
*This course is repeatable for 18 credits.*

IEPA 049NC, SPECIAL TOPICS, 3 Credits
Topics may include English Through Photography, English Through Movies, The World of Video Games, English Through Drama, Critical Listening and Speaking, News and Views, Intermediate Vocabulary Building, English for Engineers, Academic Success, English for Business, INTO Adventure. All sections open to Level 4 and above.
*This course is repeatable for 45 credits.*

IEPA 050NC, ACADEMIC READING/ WRITING 5, 6 Credits
Primary focus on more sophisticated development and greater accuracy in writing essays and research papers, with accountability for sources of information at Level 5. Introduction of authentic college-level material to be read with increasingly discriminating ability, including an expanding awareness of opposing viewpoints.
*Prerequisite: (IEPA 044NC with C or better and IEPA 048NC [C]) or INTO Combined RW Level with a score of 5*
*This course is repeatable for 18 credits.*

IEPA 051NC, ACADEMIC LISTENING/ SPEAKING 5, 6 Credits
Primary focus on developing listening and speaking skills for use in an academic context at Level 5. Assignments include researched expository and persuasive class presentations. Emphasis is on developing note-taking skills using authentic lectures at normal speed and on listening to guest speakers.
*Prerequisite: IEPA 041NC with C E or better or INTO Combined LS Level with a score of 5*
*This course is repeatable for 18 credits.*

IEPA 052NC, GUIDED OBSERVATION, 6 Credits
Designed to prepare Level 5 or 6 students for the American university classroom. With instructor guidance, students select an OSU course to observe all term, become familiar with classroom practices and develop English skills, especially listening and note-taking. Discuss, write about and compare observations and explore relevant topics in American higher education. Graded P/N only.
*This course is repeatable for 18 credits.*

IEPA 055NC, TOEFL PREPARATION, 3 Credits
Develop strategies to improve scores on the iBT TOEFL exam for students at Level 5 or 6. Practice all skills, particularly integrated skills. Learn test-taking strategies and practice aspects and structures that occur frequently. Learn about the components of both iBT and paper-based tests. Become familiar with common question types. May be taken for two consecutive terms. Graded P/N only.
*This course is repeatable for 9 credits.*

IEPA 056NC, ACADEMIC EXTENSIONS, 6 Credits
Integrated course that reinforces skills and strategies needed to be successful in a US university. Opportunities to improve comprehension of lectures, note-taking skills, and ability to work in groups. Additional focus on academic reading comprehension, fluency, and vocabulary study. This course is designed to be taken in place of IEPA 050 or IEPA 051.
*This course is repeatable for 18 credits.*

IEPA 057NC, ADVANCED GRAMMAR THROUGH WRITING, 3 Credits
Increase the ability to recognize and use correct advanced grammar structures at Level 5 or 6. Develop increased fluency and accuracy in writing. Practice and perfect more complex grammatical structures, particularly those used frequently in university-level writing. May be taken for two consecutive terms. Graded P/N.
*This course is repeatable for 9 credits.*

IEPA 059NC, SPECIAL TOPICS, 3 Credits
Topics may include Advanced Vocabulary Building, Creative Nonfiction, English Through History, Critical Thinking Through Reading and Writing, Critical Thinking Through Listening and Speaking, English for Business, All About Oregon. All sections open to Level 5 or 6.
*This course is repeatable for 27 credits.*
IEPA 060NC, ACADEMIC READING/WRITING 6, 6 Credits
Development of reading and writing skills and strategies at Level 6 to prepare students for reading tasks based on academic content as encountered in university classes. Focused on skills such as analyzing, synthesizing, evaluating and critical thinking. Emphasis on skills required to produce a university-level research paper. Work focuses on writing critical reactions to readings, summarizing and paraphrasing. Evaluation and synthesis of information from a variety of sources, including library and online resources.
Prerequisite: IEPA 050NC with C E or better or INTO Combined RW Level with a score of 6
Equivalent to: IEPA 062NC
This course is repeatable for 18 credits.

IEPA 061NC, ACADEMIC LISTENING/SPEAKING 6, 6 Credits
Focus on comprehending university-level material at Level 6. Note-taking skills are enhanced through a variety of listening activities including lectures. Students learn to analyze, synthesize, evaluate and respond to information through class discussions and oral reports. Emphasis on improving ability to demonstrate competent presentation skills for use in an undergraduate or graduate setting. Focus on incorporating outside sources from library and online research into presentations. Activities include group discussion, presentations, fluency exercises and practice developing compensatory strategies. Strong focus on self-evaluation and peer critique.
Prerequisite: IEPA 051NC with C E or better or INTO Combined LS Level with a score of 6
Equivalent to: IEPA 064NC
This course is repeatable for 18 credits.

IEPA 066NC, ADVANCED ACADEMIC EXTENSIONS, 6 Credits
Integrated course that reinforces and expands skills and strategies needed to be successful in a US university. Opportunities to improve comprehension of lectures, note-taking skills, and ability to work in groups. Additional focus on critical thinking, academic reading comprehension, academic writing fluency, and vocabulary study. This course is designed to be taken in place of IEPA 060 or IEPA 061. This course is repeatable for 18 credits.

IEPA 098NC, COMMUNICATION FOR IGTAs, 3 Credits
Enhance communication with American university students by practicing the skills IGTAs need to deliver materials in their fields: pronunciation, presentation skills and intercultural communication. Make presentations applying the language and communication skills learned in class. An independent panel of students and faculty evaluate the final presentations. This course is repeatable for 6 credits.

Intensive English Pgm Gen Engl (IEPG)

IEPG 001NC, PRONUNCIATION, 3 Credits
Focuses on developing pronunciation skills for GE students of all levels. Activities include audio journals, presentations, and conversations. Students practice vowel sounds, word and sentence stress, and intonation to improve clarity and fluency of speech. Graded P/N. This course is repeatable for 99 credits.

IEPG 003NC, TOURISM FOR EVERYONE, 3 Credits
Focuses on vocabulary and commonly spoken English for Special Programs’ short-term groups. Graded P/N. This course is repeatable for 99 credits.

IEPG 005NC, AMERICAN IDIOMS, 6 Credits
Develops vocabulary emphasizing common and popular colloquial, slang, and idiomatic expressions in English. Students practice their skills with idioms in live conversations, classroom listening and speaking activities, and interviews with native speakers. Other emphases include pronunciation, intonation, and appropriate use of idiomatic vocabulary. Graded P/N. This course is repeatable for 99 credits.

IEPG 006NC, FOUNDATION PREP READING, 6 Credits
Engages students in activities that familiarize them with the English alphabet and spelling conventions, and the most common sight words building up to sentence-level understanding. They learn to identify and scan for details in adapted materials from written sources including calendars, timetables, schedules, signs, leaflets, brochures and advertisements. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR). This course is repeatable for 99 credits.

IEPG 007NC, FOUNDATION PREP VOCABULARY, 6 Credits
Engages students in activities that familiarize them with the English alphabet and survival vocabulary. They learn to recognize and use survival vocabulary and communicate personal information and basic needs. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR). This course is repeatable for 99 credits.

IEPG 008NC, EXPLORING THE WORLD, 6 Credits
Focuses on vocabulary acquisition and reading comprehension skills. Students explore a variety of topics related to geography, culture, travel, technology, and the environment. Activities include presentations on global topics, reading activities, and vocabulary activities. Graded P/N. This course is repeatable for 99 credits.
**IEPG 009NC, FOUNDATION PREP LISTENING/SPEAKING, 6 Credits**
Engages students in activities that familiarize them with English pronunciation and conversation models. They learn to participate in basic conversations on survival topics using formulaic expressions and understand and give basic instructions. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR).
*This course is repeatable for 99 credits.*

**IEPG 010NC, READING/Writing 1, 6 Credits**
Development of basic reading and writing skills. Using topics from everyday life, focus is on vocabulary, spelling, sentence and paragraph writing and reading of short passages.
**Prerequisite:** (INTO Combined RW Level with a score of 1 or IEPH 010NC with C or better or (IEPG 006NC with C or better and IEPH 006NC [C]) and (IEPG 011NC (may be taken concurrently) [C] or (IEPG 021NC (may be taken concurrently) [C] and IEPG 017NC (may be taken concurrently) [C]))
*This course is repeatable for 99 credits.*

**IEPG 011NC, LISTENING/SPEAKING 1, 9 Credits**
Designed to provide the language and cultural tools for survival in an English-speaking environment. Primary focus is on basic English words, phrases and sentences and the ability to use them appropriately in practical, everyday contexts through short conversations and oral reports.
**Prerequisite:** (INTO Combined LS Level with a score of 1 or IEPH 011NC with C or better or (IEPG 009NC with C or better and IEPH 009NC [C]) and (IEPG 010NC (may be taken concurrently) [C] or IEPG 020NC (may be taken concurrently) [C]) and (IEPG 017NC (may be taken concurrently) [C] or IEPG 021NC (may be taken concurrently) [C])
*This course is repeatable for 99 credits.*

**IEPG 013NC, MEDIA LAB, 3 Credits**
Designed to develop individual, independent learning and language acquisition strategies, including goal setting and self-monitoring. Guided by instructors, students make use of digital, print, and audio media to improve specific language skills, such as listening, vocabulary, pronunciation, speaking, etc. Focus is on compensating for gaps in skills and on specializing needs. Classes meet in the Learning Center. Graded P/N.
*This course is repeatable for 99 credits.*

**IEPG 017NC, PRACTICAL GRAMMAR 1, 6 Credits**
Study of forms and patterns of basic English grammar used in everyday conversations and simple sentences. Primary focus is on students being able to understand and produce grammatical structures necessary for achievement of Level 1 learning outcomes.
**Prerequisite:** (IEPG 010NC (may be taken concurrently) with C or better or IEPG 020NC (may be taken concurrently) with C or better) and (IEPG 011NC (may be taken concurrently) [C] or IEPG 021NC (may be taken concurrently) [C])
*This course is repeatable for 99 credits.*

**IEPG 020NC, READING/Writing 2, 6 Credits**
Development of reading and writing skills beyond basic level. Reading focus is on comprehending longer texts on a wider range of topics. Writing focus continues sentence and paragraph work and introduces basic composition skills.
**Prerequisite:** (IEPG 010NC with C or better and IEPH 010NC [C] or IEPH 020NC [C] or INTO Combined RW Level with a score of 2)
*This course is repeatable for 99 credits.*

**IEPG 021NC, LISTENING/SPEAKING 2, 9 Credits**
Development of listening and speaking skills beyond the basic level. Primary focus is to practice and expand listening and conversational skills. Students participate in discussions, conduct interviews and make short oral reports using everyday English vocabulary.
**Prerequisite:** (IEPG 011NC with C or better and IEPH 011NC [C] or IEPH 021NC [C] or INTO Combined LS Level with a score of 2)
*This course is repeatable for 99 credits.*

**IEPG 026NC, AE PREPARATION, 6 Credits**
Preparation for study in the Academic English Program. Read and listen to content on topics common in university classrooms. Gain vocabulary knowledge and develop skills such as note-taking and outlining. Explore the campus firsthand to learn about the American university system. Graded P/N.
*This course is repeatable for 99 credits.*

**IEPG 027NC, PRACTICAL GRAMMAR 2, 6 Credits**
Review and practice of Level 1 grammar and development and use of the basic forms and patterns of Level 2 grammar. Primary focus is on speaking, listening, and writing activities using the targeted structures.
**Prerequisite:** (IEPG 017NC with C or better and IEPH 017NC [C]) or IEPH 027NC [C]
*This course is repeatable for 99 credits.*
IEPG 029NC, SPECIAL TOPICS, 3,6 Credits

ST/ENGLISH THROUGH ANIMATION (6): Develops the ability to understand authentic spoken English. By watching animated popular TV segments, students will learn to understand English as it is really spoken. In addition to developing listening skills, students develop their speaking ability, expand their vocabulary base, and deepen their understanding of culture in the U.S. and in the countries of classmates. Conversation and speaking will be emphasized through the use of dialogue. Graded P/N. 

ST/ENGLISH THROUGH MUSIC (6): Course focus is on strengthening listening and idiomatic vocabulary skills through music in English. Goals of vocabulary activities with song lyrics include increasing students' knowledge of idiomatic, slang, and cultural expressions, as well as how more common, familiar words are used in expressive, poetic, and unique ways. English through Music will significantly enhance and strengthen students' listening skills through a variety of activities. Graded P/N. 

ST/ENGLISH FOR TOURISM (6): Learn vocabulary and commonly spoken English for working in the tourism industry and for traveling. Prepare to manage a restaurant, work for an airline, give tours or share the history and culture of your country with others. Graded P/N. 

ST/GLORIOUS FOOD (3): Course focuses on the vocabulary of cooking and food preparation. Primary emphasis is on cross-cultural communication. Students share culinary traditions from their home countries and learn about American food culture. Students present on traditional foods and diets. Class discussions also involve conversations about nutrition, healthy, and unhealthy eating. Graded P/N. 

ST/PRESENT YOURSELF (6): Focusses on learning the necessary skills in for giving effective presentations on a range of topics in a variety of situations. Graded P/N. 

ST/AMERICAN UNIVERSITY CULTURE (6): Focuses on helping students adapt to university culture. Students learn and practice everyday language used on a college campus, explore cultural differences in communication, and learn about services and programs available on and near campus. Graded P/N. 

ST/ENGLISH THROUGH MOVIES (6): Designed to explore culture and English language through the careful viewing of major motion pictures. Using theme-related background material and vocabulary, students enhance their appreciation of movies from various genres. Comprehension tasks aid in deepening understanding of characters, plot actions, and themes. Classroom activities also include opportunities for small group and class discussion. Graded P/N. 

This course is repeatable for 99 credits.

IEPG 031NC, LISTENING/SPEAKING 3, 9 Credits

Engages students in communication about practical topics and problems. They listen to recordings of adapted material to understand the main points. They learn to give personal opinions in informal conversations, solve practical problems find out information, and ask for and follow detailed directions. They give short prepared presentations on personal experiences or other very familiar topics. Prepares students for language use at the B1 level of the Common European Framework of Reference (CEFR). 

Prerequisite: (IEPG 021NC with C or better and IEPH 021NC [C]) or IEPH 031NC [C] or INTO Combined LS Level with a score of 3 

This course is repeatable for 99 credits.

IEPG 033NC, ENGLISH THROUGH LITERATURE, 6 Credits

Course focus is on strengthening reading comprehension and vocabulary skills through reading adapted English novels and novellas, while introducing students to English history and culture through literature. Activities include summary presentation, active reading strategies, and extensive class discussion about literary themes, concepts, and the relationships between those themes and current events. Graded P/N. 

This course is repeatable for 99 credits.

IEPG 035NC, VOCABULARY BUILDING, 6 Credits

Develop and increase vocabulary used in classroom and social contexts. Students receive multiple exposures to target words from leveled word lists through self-assessment, reflection, word study strategies, reading, discussions, writing, and games. Graded P/N. 

This course is repeatable for 99 credits.

IEPG 037NC, PRACTICAL GRAMMAR 3, 6 Credits

Focus on more tenses and aspects of English grammar. Students begin combining tenses learned in Level 2 with those studied in Level 3 to develop increasingly complex sentences for use and practice in conversations, sentences and short compositions. Graded P/N. 

Prerequisite: (IEPG 027NC with C or better and IEPH 027NC [C]) or IEPH 037NC [C] 

This course is repeatable for 99 credits.

IEPG 039NC, SPECIAL TOPICS, 6 Credits

ST/ENGLISH THROUGH MOVIES (6): Designed to explore culture and English language through the careful viewing of major motion pictures. Using theme-related background material and vocabulary, students enhance their appreciation of movies from various genres. Comprehension tasks aid in deepening understanding of characters, plot actions, and themes. Classroom activities also include opportunities for small group and class discussion. ST/FANFICTION (6): Explore an important movie or short novel/short story. Develop comprehension skills, vocabulary and grammar structures while learning about the culture of the story. Then use the story as a base to write original fiction by practicing writing structures and literary elements important in creative writing. Graded P/N. 

This course is repeatable for 99 credits.
IEPG 040NC, READING/Writing 4, 6 Credits

Engages students in activities that help them communicate in various social and cultural contexts. They scan authentic and adapted materials to identify information of practical use and identify the purpose, point of view, tone and conclusions in informative and persuasive texts. They learn to write coherent and cohesive paragraphs and longer texts with reasonable accuracy.

Prerequisite: (IEPG 030NC with C or better and IEPH 030NC [C]) or IEPH 040NC [C] or INTO Combined RW Level with a score of 4
This course is repeatable for 99 credits.

IEPG 041NC, LISTENING/SPEAKING 4, 9 Credits

Engages students in the use of informal spoken English. They listen to adapted and authentic recordings to understand main ideas and details. They learn to express themselves on a variety of subjects in everyday conversations. They learn to give instructions, explain problems, and make complaints. They give prepared presentations on cultural topics. Prepares students for language use at the B1+ level of the Common European Framework of Reference (CEFR).

Prerequisite: (IEPG 031NC with C or better and IEPH 031NC [C]) or IEPH 041NC [C] or INTO Combined LS Level with a score of 4
This course is repeatable for 99 credits.

IEPG 049NC, SPECIAL TOPICS, 6 Credits

ST/ALL ABOUT OREGON (6): Introduces students to the diversity of Oregon culture, geography, geology, history and folklore. The course is both content based, teaching general information about Oregon, and language focused, with an emphasis on content-related vocabulary, listening strategies and reading skills. Students are encouraged to actively participate in learning by taking a field trip to a relevant site of interest. Graded P/N. ST/ENGLISH THROUGH POPULAR SCIENCE CULTURE (6): Designed to develop skills in reading, writing, listening, and speaking through current scientific discoveries and innovations. Insights learned from recent advances in science will provide practical knowledge for the workplace environment and relevant relational dynamics. Graded P/N. ST/AMERICAN STUDIES (6): Introduces students to the culture and history of America through diverse readings, videos, audio recordings, and first-hand experiences. Skill emphases include vocabulary acquisition and reading comprehension. Students create presentations to share what they learn about American traditions and customs. Class discussions explore the culture and history of the United States and its international relations with students’ home countries. Graded P/N. ST/OUTDOOR PURSUITS (6): Designed to develop skills in reading, writing, listening, and speaking through interaction with common outdoor activities. Learn about how to live a healthy and environmentally aware lifestyle from insights from local experts in the university and local community. Graded P/N. ST/STRATEGIES FOR INTERPERSONAL COMMUNICATION (6): Develops the necessary skills for effective communication in small groups. This course will help students learn helpful language for collaborating with a team, provides strategies for navigating complicated discussions, and builds confidence in communication in English. Graded P/N. ST/CROSS-CULTURAL COMMUNICATION (6): Explore what culture is, what influences it, and how it affects the way people understand the world and communicate with others. Students learn about American culture, behaviors, norms, and values, and those of their classmates by comparing them to each other through a variety of interactive activities. Students have the opportunity to share a classroom with American university students. Graded P/N. ST/IT’S NEWS TO ME (6): Course focuses on reading and vocabulary comprehension skills and conversation skills through the use of adapted and authentic news media sources, including print newspapers, news radio, and news video. Students become familiar with the conventions of journalistic writing and learn about the structure of English language newspapers. Activities include reading comprehension tasks, analysis of news stories, presentations, and creating a class newspaper. ST/BUSINESS VOCABULARY BUILDING (6): Course focuses on improving the use of business English vocabulary and idioms. Students learn and apply a variety of authentic words from the text, in-class activities, and assigned practice to help them communicate more effectively in a business context. The course focuses on both acquisition of targeted vocabulary and strategies for decoding and retention. Graded P/N. ST/ENGLISH THROUGH PHOTOGRAPHY (6): Focuses on improving English language skills through reading, listening and speaking about photography and by actually taking and showing photographs. Students will spend time outside of class to take pictures and then talk about the pictures in class. Presentations will be given about one’s own photographs. Graded P/N. ST/ENGLISH THROUGH VOLUNTEERING (6): English and critical thinking skills are developed by exploring social and environmental issues in class and then by putting that knowledge into action by volunteering for community organizations. In the classroom, English skills are developed through discussions, reading, writing, and listening to people talk about the issues. The students will then go out into the community with the class to do meaningful volunteer activities, such as helping to build a house and grow vegetables for needy families (Session 1) or sharing one’s culture and talents with children and seniors (Session 2). Graded P/N.
This course is repeatable for 99 credits.
IEPG 051NC, LISTENING/SPEAKING 5, 9 Credits
Engages students in the use of standard spoken English. They listen to authentic radio, TV, podcasts, Internet and other media to understand main ideas and details. They learn to express themselves more naturally in conversation. They evaluate problems, lead class discussions, and give informal or formal presentations on contemporary topics. American culture is included in materials and activities. Prepares students for language use at the B2 level of the Common European Framework of Reference (CEFR).
Prerequisite: (IEPG 041NC with C or better and IEPH 041NC [C]) or IEPH 051NC [C] or INTO Combined LS Level with a score of 5
This course is repeatable for 99 credits.

IEPH

IEPH 001NC, PRONUNCIATION, 3 Credits
Focuses on developing pronunciation skills for GE students of all levels. Activities include audio journals, presentations, and conversations. Students practice vowel sounds, word and sentence stress, and intonation to improve clarity and fluency of speech. Graded P/N.
This course is repeatable for 99 credits.

IEPH 002NC, CAMPUS CONNECTIONS, 1 Credit
Focuses on helping students adjust to living in the United States. The emphasis is on American customs, culture shock and common slang used in everyday interactions. Graded P/N.
This course is repeatable for 99 credits.

IEPH 003NC, TOURISM FOR EVERYONE, 3 Credits
Focuses on vocabulary and commonly spoken English for working in the tourism industry and for traveling. Prepare to manage a restaurant, work for an airline, give tours or share the history and culture of your country with others. Graded P/N.
This course is repeatable for 99 credits.

IEPH 004NC, AMERICAN HOLIDAYS, 6 Credits
Teaches the culture and history of American holidays and traditional holiday celebrations. Class activities involve planning and hosting holiday parties, reading histories and accounts of holiday celebrations in America, and acquiring the vocabulary used for discussing holidays and traditions. Graded P/N.
This course is repeatable for 99 credits.

IEPH 005NC, AMERICAN IDIOMS, 6 Credits
Develops vocabulary emphasizing common and popular colloquial, slang, and idiomatic expressions in English. Students practice their skills with idioms in live conversations, classroom listening and speaking activities, and interviews with native speakers. Other emphases include pronunciation, intonation, and appropriate used of idiomatic vocabulary. Graded P/N.
This course is repeatable for 99 credits.

IEPH 006NC, FOUNDATION PREP READING, 6 Credits
Engages students in activities that familiarize them with the English alphabet and spelling conventions, and the most common sight words building up to sentence-level understanding. They learn to identify and scan for details in adapted materials from written sources including calendars, timetables, schedules, signs, leaflets, brochures, and advertisements. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR).
This course is repeatable for 99 credits.

IEPH 007NC, FOUNDATION PREP VOCABULARY, 6 Credits
Engages students in activities that familiarize them with the English alphabet and survival vocabulary. They learn to recognize and use survival vocabulary to communicate personal information and basic needs. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR).
This course is repeatable for 99 credits.

IEPH 008NC, EXPLORING THE WORLD, 6 Credits
Focuses on vocabulary acquisition and reading comprehension skills. Students explore a variety of topics related to geography, culture, travel, technology, and the environment. Activities include presentations on global topics, reading activities, and vocabulary activities. Graded P/N.
This course is repeatable for 99 credits.

IEPH 009NC, FOUNDATION PREP LISTENING/SPEAKING, 6 Credits
Engages students in activities that familiarize them with English pronunciation and conversation models. They learn to participate in basic conversations on survival topics using formulaic expressions and understand and give basic instructions. Prepares students for the language use at the A1 level of the Common European Framework of Reference (CEFR).
This course is repeatable for 99 credits.

IEPH 010NC, READING/WRITING 1, 6 Credits
Development of basic reading and writing skills. Using topics from everyday life, focus is on vocabulary, spelling, sentence and paragraph writing and reading of short passages.
Prerequisite: (INTO Combined RW Level with a score of 1 or IEPG 010NC (may be taken concurrently) with C or better or (IEPG 006NC (may be taken concurrently) with C or better and IEPH 006NC [C]) and (IEPH 011NC (may be taken concurrently) [C] or (IEPH 017NC (may be taken concurrently) [C]) and IEPH 021NC (may be taken concurrently) [C])
This course is repeatable for 99 credits.
IEPH 011NC, LISTENING/SPEAKING I, 9 Credits

Designed to provide the language and cultural tools for survival in an English speaking environment. Primary focus is on basic English words, phrases and sentences and the ability to use them appropriately in practical, everyday contexts through short conversations and oral reports.

Prerequisite: (INTO Combined LS Level with a score of 1 or IEPG 011NC (may be taken concurrently) with C or better or (IEPG 009NC (may be taken concurrently) with C or better and IEPH 009NC [C]) and (IEPH 010NC (may be taken concurrently) [C] or IEPH 020NC (may be taken concurrently) [C]) and (IEPG 017NC (may be taken concurrently) [C] or IEPH 027NC (may be taken concurrently) [C])

This course is repeatable for 99 credits.

IEPH 013NC, MEDIA LAB, 3 Credits

Designed to develop individual, independent learning and language acquisition strategies, including goal setting and self-monitoring. Guided by instructors, students make use of digital, print, and audio media to improve specific language skills, such as listening, vocabulary, pronunciation, speaking, etc. Focus is on compensating for gaps in skills and on specializing needs. Classes meet in the Learning Center. Graded P/N.

This course is repeatable for 99 credits.

IEPH 017NC, PRACTICAL GRAMMAR I, 6 Credits

Study of forms and patterns of basic English grammar used in everyday conversations and simple sentences. Primary focus is on students being able to understand and produce grammatical structures necessary for achievement of Level 1 learning outcomes.

Prerequisite: (IEPH 010NC (may be taken concurrently) with C or better or IEPH 020NC (may be taken concurrently) with C or better) and (IEPH 011NC (may be taken concurrently) [C] or IEPH 021NC (may be taken concurrently) [C])

This course is repeatable for 99 credits.

IEPH 020NC, READING/Writing 2, 6 Credits

Development of reading and writing skills beyond basic level. Reading focus is on comprehending longer texts on a wider range of topics. Writing focus continues sentence and paragraph work and introduces basic composition skills.

Prerequisite: (IEPG 010NC (may be taken concurrently) with C or better and IEPH 010NC [C]) or IEPH 020NC (may be taken concurrently) [C] or INTO Combined RW Level with a score of 2

This course is repeatable for 99 credits.

IEPH 021NC, LISTENING/SPEAKING 2, 9 Credits

Development of listening and speaking skills beyond the basic level. Primary focus is to practice and expand listening and conversational skills. Students participate in discussions, conduct interviews and make short oral reports using everyday English vocabulary.

Prerequisite: (IEPH 011NC (may be taken concurrently) with C or better and IEPH 011NC [C]) or IEPH 021NC (may be taken concurrently) [C] or INTO Combined LS Level with a score of 2

This course is repeatable for 99 credits.

IEPH 026NC, AE PREPARATION, 6 Credits

Preparation for study in the Academic English Program. Read and listen to content on topics common in university classrooms. Gain vocabulary knowledge and develop skills such as note-taking and outlining. Explore the campus firsthand to learn about the American university system. Graded P/N.

This course is repeatable for 99 credits.

IEPH 027NC, PRACTICAL GRAMMAR 2, 6 Credits

Review and practice of Level 1 grammar and development and use of the basic forms and patterns of Level 2 grammar. Primary focus is on speaking, listening, and writing activities using the targeted structures.

Prerequisite: (IEPG 017NC (may be taken concurrently) with C or better and IEPH 017NC [C]) or IEPH 027NC (may be taken concurrently) [C]

This course is repeatable for 99 credits.

IEPH 029NC, SPECIAL TOPICS, 3,6 Credits

ST/ENGLISH THROUGH ANIMATION (6): Develops the ability to understand authentic spoken English. By watching animated popular TV segments, students will learn to understand English as it is really spoken. In addition to developing listening skills, students will develop their speaking ability, expand their vocabulary base, and deepen their understanding of culture in the U.S. and in the countries of classmates. Conversation and speaking will be emphasized through the use of dialogue. Graded P/N. ST/ENGLISH THROUGH MUSIC (6): Course focus is on strengthening listening and idiomatic vocabulary skills through music in English. Goals of vocabulary activities with song lyrics include increasing students’ knowledge of idiomatic, slang, and cultural expressions, as well as how more common, familiar words are used in expressive, poetic, and unique ways. English Through Music will significantly enhance and strengthen students’ listening skills through a variety of activities. Graded P/N. ST/ENGLISH FOR TOURISM (6): Learn vocabulary and common spoken English for working in the tourism industry and traveling. Prepare to manage a restaurant, work for an airline, give tours or share the history and culture of your country with others. Graded P/N. ST/ENGLISH FOR PROFESSIONAL SUCCESS (6): Students learn the conventions of business and professional demonstrations. Focus is on specialized vocabulary for communicating professional information clearly and fluently. Students practice creating job resumes and cover letters, as well as hold mock interviews and business conferences. Graded P/N. ST/GLORIOUS FOOD (3): Course focuses on the vocabulary of cooking and food preparation. Primary emphasis is on cross-cultural communication. Students share culinary traditions from their home countries and learn about American food culture. Students present on traditional foods and diets. Class discussions also involve conversations about nutrition, healthy, and unhealthy eating. Graded P/N. ST/PRESENT YOURSELF (6): Focuses on learning the necessary skills for giving effective presentations on a range of topics in a variety of situations. Graded P/N.

This course is repeatable for 99 credits.
IEPH 030NC, READING/Writing 3, 6
Credits
Engages students in a variety of texts and compositions. They summarize the main points in adapted fiction or non-fiction from popular sources, skim for main ideas, and scan for specific details in factual texts. They acquire the basics of paragraph writing. They summarize factual information and describe personal experiences well enough to make another person understand the main points. Prepares students for language use at the B1 level of the Common European Framework of Reference (CEFR).
Prerequisite: (IEPG 020NC (may be taken concurrently) with C or better and IEPH 020NC [C]) or IEPG 030NC [C] or INTO Combined RW Level with a score of 3
This course is repeatable for 99 credits.

IEPH 031NC, LISTENING/SPEAKING 3, 9
Credits
Engages students in communication about practical topics and problems. They listen to recordings of adapted material to understand the main points. They learn to give personal opinions in informal conversations, solve practical problems, find out information, and ask for and follow detailed directions. They give short prepared presentations on personal experiences or other very familiar topics. Prepares students for language use at the B1 level of the Common European Framework of Reference (CEFR).
Prerequisite: (IEPG 021NC (may be taken concurrently) with C or better and IEPH 021NC [C]) or IEPG 031NC (may be taken concurrently) [C] or INTO Combined LS Level with a score of 3
This course is repeatable for 99 credits.

IEPH 033NC, ENGLISH THROUGH LITERATURE, 6 Credits
Course focus is on strengthening reading comprehension and vocabulary skills through reading adapted English novels and novellas, while introducing students to English history and culture through literature. Activities include summary presentation, active reading strategies, and extensive class discussion about literary themes, concepts, and the relationships between those themes and current events. Graded P/N.
This course is repeatable for 99 credits.

IEPH 035NC, VOCABULARY BUILDING, 6
Credits
Develop and increase vocabulary used in classroom and social contexts. Students receive multiple exposures to target words from leveled word lists through self-assessment, reflection, word study strategies, reading, discussions, writing, and games. Graded P/N.
This course is repeatable for 99 credits.

IEPH 037NC, PRACTICAL GRAMMAR 3, 6
Credits
Focus on more tenses and aspects of English grammar. Students begin combining tenses learned in Level 2 with those studied in Level 3 to develop increasingly complex sentences for use and practice in conversations, sentences and short compositions.
Prerequisite: (IEPG 027NC (may be taken concurrently) with C or better and IEPH 027NC [C]) or IEPG 037NC (may be taken concurrently) [C]
This course is repeatable for 99 credits.

IEPH 039NC, SPECIAL TOPICS, 6 Credits
ENGLISH THROUGH MOVIES (6): Designed to explore culture and English language through the careful viewing of major motion pictures. Using theme-related background material and vocabulary, students enhance their appreciation of movies from various genres. Comprehension tasks aid in deepening understanding of characters, plot actions, and themes. Classroom activities also include opportunities for small group and class discussion. ST/FANFICTION (6): Develop comprehension skills, vocabulary and grammar structures while learning about the culture of the story. Then use the story as a base to write original fiction by practicing writing structures and literary elements important in creative writing. Graded P/N.
This course is repeatable for 99 credits.

IEPH 040NC, READING/Writing 4, 6
Credits
Engages students in activities that help them communicate in various social and cultural contexts. They scan authentic and adapted materials to identify information of practical use and identify the purpose, point of view, tone and conclusions in informative and persuasive texts. They learn to write coherent and cohesive paragraphs and longer texts with reasonable accuracy. Prepares students for language use at the B1+ level of the Common European Framework Reference (CEFR).
Prerequisite: (IEPG 030NC (may be taken concurrently) with C or better and IEPH 030NC [C]) or IEPG 040NC (may be taken concurrently) or INTO Combined RW Level with a score of 4
This course is repeatable for 99 credits.

IEPH 041NC, LISTENING/SPEAKING 4, 9
Credits
Engages students in the use of informal spoken English. They listen to adapted and authentic recordings to understand main ideas and details. They learn to express themselves on a variety of subjects in everyday conversations. They learn to give instructions, explain problems, and make complaints. They give prepared presentations on cultural topics. Prepares students for language use at the B1+ level of the Common European Framework of Reference (CEFR).
Prerequisite: (IEPG 031NC (may be taken concurrently) with C or better and IEPH 031NC [C]) or IEPG 041NC (may be taken concurrently) [C] or INTO Combined LS Level with a score of 4
This course is repeatable for 99 credits.

IEPH 043NC, BUSINESS MATTERS, 6
Credits
Development of language skills for business settings and for fulfilling career goals, including preparing for the job market, working in sales, and advertising. Graded P/N.
This course is repeatable for 99 credits.

IEPH 047NC, PRACTICAL GRAMMAR 4, 3
Credits
Focus on developing increased fluency and grammatical accuracy as appropriate to high-intermediate or advanced English proficiency. Practice applying correct grammar in both written and oral communication. Graded P/N.
This course is repeatable for 99 credits.
**IEPH 049NC, SPECIAL TOPICS, 6 Credits**

ST/MOVIE MAKING (6): Improves English skills and builds self-confidence by focusing on movie-making projects. Students will receive an introduction to recording and editing digital video. The course develops vocabulary, verbal and non-verbal communication skills, reading and listening comprehension, and presentation skills. Students form teams to produce short videos on subjects of choice. Graded P/N.

ST/AMERICAN STUDIES (6): Introduces students to the culture and history of America through diverse readings, videos, audio recordings, and first-hand experiences. Skill emphases include vocabulary acquisition and reading comprehension. Students create presentations to share what they learn about American traditions and customs. Class discussions explore the culture and history of the United States and its international relations with students’ home countries. Graded P/N.

ST/TECHNOLOGY TOOLS (6): Designed to explore social networking sites such as blogs, delicious.com, plurk.com, and ning.com. Skills gained such as linking, posting, uploading, etc. will be transferrable to many technology situations. Engaging activities are designed to foster language learning in the online environment. Graded P/N.

ST/CROSS-CULTURAL COMMUNICATION (6): Explore what culture is, what influences it, and how it affects the way people understand the world and communicate with others. Students learn about American culture, behaviors, norms, and values, and those of their classmates by comparing them to each other through a variety of interactive activities. Students have the opportunity to share a classroom with American university students. Graded P/N.

ST/NEWS TO ME (6): Course focuses on reading and vocabulary comprehension skills, and conversation skills through the use of adapted and authentic media sources, including print newspapers, news radio, and news video. Students become familiar with the conventions of journalistic writing and learn about the structure of English language newspapers. Activities include reading, comprehension tasks, analysis of news stories, presentations, and creating a class newspaper. Graded P/N.

ST/BUSINESS VOCABULARY BUILDING (6): Course focuses on improving the use of English business vocabulary and idioms. Students learn and apply a variety of authentic words from the text, in-class activities, and assigned practice to help them communicate more effectively in a business context. The course focuses on both acquisition of targeted vocabulary and strategies for decoding and retention. Graded P/N.

ST/ABOUT OREGON (6): Introduces students to the diversity of Oregon culture, geography, geology, history and folklore. The course is both content based, teaching general information about Oregon, and language focused, with an emphasis on content-related vocabulary, listening strategies and reading skills. Students are encouraged to actively participate in learning by taking a field trip to a relevant site of interest. Graded P/N.

**IEPH 051NC, LISTENING/SPEAKING 5, 9 Credits**

Engages students in the use of standard spoken English. They listen to authentic radio, TV, podcasts, Internet and other media to understand main ideas and details. They learn to express themselves more naturally in conversation. They evaluate problems, lead class discussions, and give informal or formal presentations on contemporary topics. American culture is included in materials and activities. Prepares students for language use at the B2 level of the Common European Framework of Reference (CEFR).

**Prerequisite:** (IEPG 041NC (may be taken concurrently) with C or better and IEPH 041NC [C]) or IEPH 051NC (may be taken concurrently) [C] or INTO Combined LS Level with a score of 5

This course is repeatable for 99 credits.

**IEPH 055NC, TOEFL PREPARATION, 6 Credits**

Course focuses on developing skills and familiarity with the TOEFL test in preparation for students taking the exam. Focus is on teaching test-taking strategies, developing methods for preparation and study, and filling in gaps in language skills. Students take practice tests and complete activities model on TOEFL test tasks.

This course is repeatable for 99 credits.

**Interdisciplinary Programs (IST)**

**IST 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits**

This course is repeatable for 16 credits.

**IST 503, THESIS, 1-16 Credits**

This course is repeatable for 999 credits.

**IST 505, READING AND CONFERENCE, 1-16 Credits**

This course is repeatable for 16 credits.

**IST 506, PROJECTS, 1-16 Credits**

This course is repeatable for 16 credits.

**IST 511, INTRODUCTION TO INTERDISCIPLINARY GRADUATE STUDIES, 1 Credit**

First term graduate seminar for master’s students in interdisciplinary studies to design their program of study; discover and access library and other university resources related to their fields of study; and practice synthesizing aspects of three differing fields.

Available via Ecampus
IST 512, APPLYING AN INTERDISCIPLINARY PERSPECTIVE, 3 Credits
Students will develop knowledge and skills in theory, research methods, and practice of approaching problems, issues, or events from an interdisciplinary perspective.
Recommended: IST 511
Available via Ecampus

IST 513, INTERDISCIPLINARY RESEARCH COLLOQUIUM, 1 Credit
Supports MAIS students as they conduct research for their thesis, research paper, or project, further their understanding how to synthesize multiple fields of study into a research project, and effectively employ this knowledge in preparation of the thesis/paper/project itself. Graded P/N.

International Degree (INTL)

INTL 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

INTL 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

INTL 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

INTL 405, PROJECTS: INTERNATIONAL PROJECTS, 1-16 Credits
Projects of an international nature.
This course is repeatable for 16 credits.

INTL 406, SPECIAL PROGRAMS/SPECIAL TOPICS, 1-16 Credits
Projects of an international nature.
This course is repeatable for 16 credits.

INTL 407, SEMINAR: INTERNATIONAL ISSUES, 1-16 Credits
Advanced study of selected topics related to a variety of international issues.
This course is repeatable for 16 credits.

INTL 408, WORKSHOP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

INTL 410, INTERNSHIP: INTERNATIONAL INTERNSHIPS AND SEMINAR, 1-16 Credits
Internships and seminars for students working abroad or working on an international project.
This course is repeatable for 16 credits.

INTL 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

INTL 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Italian (IT)

IT 111, FIRST-YEAR ITALIAN, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Designed for students with no previous training in Italian. Native speakers of Italian will not receive credit for IT 111, IT 112, IT 113. Not offered every year.
Available via Ecampus

IT 112, FIRST-YEAR ITALIAN, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Designed for students with no previous training in Italian. Native speakers of Italian will not receive credit for IT 111, IT 112, IT 113. Not offered every year.
Prerequisite: IT 111 with D- or better
Available via Ecampus

IT 113, FIRST-YEAR ITALIAN, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Designed for students with no previous training in Italian. Native speakers of Italian will not receive credit for IT 111, IT 112, IT 113. Not offered every year.
Prerequisite: IT 112 with D- or better
Available via Ecampus

IT 188, ITALIAN STUDIES, ITALIAN STUDY CENTER, 1-12 Credits
May be repeated for credit when topic varies. Section 1: Topics, Italian language. Section 2: Practical work (exercises).
This course is repeatable for 99 credits.

IT 199, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

IT 211, SECOND-YEAR ITALIAN, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers of Italian will not receive credit for IT 211, IT 212, IT 213. Not offered every year.
Prerequisite: IT 113 with D- or better
Available via Ecampus

IT 212, SECOND-YEAR ITALIAN, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers of Italian will not receive credit for IT 211, IT 212, IT 213. Not offered every year.
Prerequisite: IT 211 with D- or better
Available via Ecampus

IT 213, SECOND-YEAR ITALIAN, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers of Italian will not receive credit for IT 211, IT 212 IT 213. Completion of IT 213 with a grade of C- or better satisfies BA requirement in foreign languages. Not offered every year.
Prerequisite: IT 212 with D- or better
Available via Ecampus
IT 299, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 16 credits.

IT 331, *ITALIAN CULTURE, 3 Credits
An investigation of Italy through the wide-angle lens of social anthropology. Students will explore what is both known and unknown about Italy in its socio-political, broad cultural as well as regional, and media contexts (music, film, technology). Students’ critical skills will be thoroughly solicited through online presentation and discussion. The course is taught in English. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

IT 360, ITALIAN CINEMA, 3 Credits
A look at Italian cinema from film muto to the 21st century. Sub-genres including Epic Film, Neorealism, Italian Comedy, the Spaghetti Western, and New Italian Comedy will be examined within their socio-historical contexts. Taught in English.

IT 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

IT 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.

IT 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

Japanese (JPN)

JPN 111, FIRST-YEAR JAPANESE, 4 Credits
Designed to help students develop an understanding of basic language structures and to acquire the ability to use them appropriately in a variety of practical, everyday social contexts. Primary focus is on oral and non-verbal communication skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 111, JPN 112, JPN 113. Lec/lab/rec.
Available via Ecampus

JPN 112, FIRST-YEAR JAPANESE, 4 Credits
Designed to help students develop an understanding of basic language structures and to acquire the ability to use them appropriately in a variety of practical, everyday social contexts. Primary focus is on oral and non-verbal communication skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 111, JPN 112, JPN 113. Lec/lab/rec.
Prerequisite: JPN 111 with D- or better
Available via Ecampus

JPN 113, FIRST-YEAR JAPANESE, 4 Credits
Designed to help students develop an understanding of basic language structures and to acquire the ability to use them appropriately in a variety of practical, everyday social contexts. Primary focus is on oral and non-verbal communication skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 111, JPN 112, JPN 113. Lec/lab/rec.
Prerequisite: JPN 112 with D- or better
Available via Ecampus

JPN 199, SPECIAL STUDIES: INTENSIVE JAPANESE, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 16 credits.
Available via Ecampus

JPN 211, SECOND-YEAR JAPANESE, 4 Credits
Continued development of basic oral communication skills as required in a variety of social contexts. Initial development of reading skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 211, JPN 212, JPN 213. Lec/lab/rec.
Prerequisite: JPN 113 with D- or better
Available via Ecampus

JPN 212, SECOND-YEAR JAPANESE, 4 Credits
Continued development of basic oral communication skills as required in a variety of social contexts. Initial development of reading skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 211, JPN 212, JPN 213. Lec/lab/rec.
Prerequisite: JPN 211 with D- or better

JPN 213, SECOND-YEAR JAPANESE, 4 Credits
Continued development of basic oral communication skills as required in a variety of social contexts. Initial development of reading skills. Native and/or bilingual speakers of Japanese will not receive credit for JPN 211, JPN 212, JPN 213. Completion of JPN 213 with a grade of C- or better satisfies BA requirement in foreign languages. Lec/rec.
Prerequisite: JPN 212 with D- or better

JPN 299, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 16 credits.

JPN 311, THIRD-YEAR JAPANESE, 3 Credits
Continued development of oral communication skills as required in a variety of social contexts. Further development of reading skills. Lec/lab/rec.
Prerequisite: JPN 213 with C- or better or placement test
JPN 312, THIRD-YEAR JAPANESE, 3 Credits  
Continued development or oral communication skills as required in a variety of social contexts. Further development of reading skills. Lec/lab/rec.  
Prerequisite: JPN 311 with C- or better or placement test

JPN 313, THIRD-YEAR JAPANESE, 3 Credits  
Continued development or oral communication skills as required in a variety of social contexts. Further development of reading skills. Lec/rec.  
Recommended: JPN 312

JPN 329, SPECIAL TOPICS IN LANGUAGE, CULTURE, OR LITERATURE, 1-16 Credits  
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 16 credits.

JPN 345, MULTIMODAL LITERACIES: JAPANESE, 2 Credits  
Introduction to the analysis and production of multimodal literacies. Study of semiotic resources such as language and images across modalities such as film, manga, and social media. Required of all majors in World Languages and Cultures. Taught in Japanese. Has to be taken in conjunction with the lecture session in English.  
Corequisites: WLC 345  
Recommended: JPN 213

JPN 379, PROCTOR EXPERIENCE, 1-2 Credits  
Supervised practicum for advanced students, with assignment as proctor or tutor in lower-division Japanese courses. No credit may be used to satisfy requirements for a minor in Japanese. Graded P/N. This course is repeatable for 6 credits.

JPN 388, JAPANESE STUDIES, JAPANESE STUDY CENTER, 1-12 Credits  
May be repeated for credit when topic varies. This course is repeatable for 12 credits.

JPN 399, SPECIAL TOPICS, 1-16 Credits  
May be repeated for credit when topic varies. Not offered every year. This course is repeatable for 16 credits.

JPN 402, INDEPENDENT STUDY, 1-16 Credits  
This course is repeatable for 16 credits. Available via Ecampus

JPN 405, READING AND CONFERENCE, 1-16 Credits  
This course is repeatable for 16 credits.

JPN 410, INTERNSHIP, 1-15 Credits  
This course is repeatable for 15 credits.

JPN 411, FOURTH-YEAR JAPANESE, 3 Credits  
Designed to help students apply grammatical points and expressions that they have learned from the first through the third year. It also stresses further development of reading and writing skills. (Writing Intensive Course)  
Attributes: CWIC – Core, Skills, WIC  
Prerequisite: JPN 311 with C- or better

JPN 412, FOURTH-YEAR JAPANESE, 3 Credits  
Further development of conversational, reading, and writing skills. Readings include excerpts from contemporary essays, short stories, novels, plays, and newspaper articles. Not offered every year.  
Prerequisite: JPN 411 with C- or better

JPN 413, FOURTH-YEAR JAPANESE, 3 Credits  
Further development of conversational, reading, and writing skills. Readings include excerpts from contemporary essays, short stories, novels, plays, and newspaper articles. Not offered every year.  
Prerequisite: JPN 412 with C- or better

JPN 502, INDEPENDENT STUDY, 1-16 Credits  
This course is repeatable for 16 credits.

JPN 505, READING AND CONFERENCE, 1-16 Credits  
This course is repeatable for 16 credits.

Kinesiology (KIN)  
KIN 131, INTRODUCTION TO KINESIOLOGY, 1 Credit  
Overview of the field, career opportunities in exercise and sport science and other professions dealing with the discipline of human movement; orientation to support services. Graded P/N.  
Equivalent to: EXSS 131  
Available via Ecampus

KIN 132, INTRODUCTION TO THE ALLIED HEALTH PROFESSIONS, 1 Credit  
Overview of allied health professions including physical and occupational therapy, physician assistant, nursing, athletic training and others. Discuss job responsibilities, employment opportunities and educational requirements.  
Equivalent to: EXSS 132

KIN 160, INTRODUCTION TO INJURY MANAGEMENT FOR THE PHYSICALLY ACTIVE, 3 Credits  
Introduction to management of physical activity-related injury for the non-healthcare provider (e.g., coaches, physical educators and fitness professionals).  
Equivalent to: EXSS 160
KIN 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: EXSS 199
This course is repeatable for 16 credits.

KIN 201, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

KIN 206, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

KIN 230, INTRODUCTION TO ADVENTURE PROGRAMS, 3 Credits
Foundation course for leadership opportunities in the Adventure Leadership Institute (ALI). Provides overview of history, theoretical foundations, and utilization of adventure programs in education, recreation, and therapy.
Equivalent to: EXSS 230

KIN 231, HUMAN GROUP DYNAMICS, 3 Credits
Provides students with the fundamental concepts and theories essential for understanding dynamics that occur in groups in recreation, leisure, and everyday settings.
Equivalent to: EXSS 231

KIN 232, BACKCOUNTRY LEADERSHIP, 3 Credits
Prepares students to be leaders in outdoor settings by building the practical and logistical skills needed in the effective delivery of courses and/or trips. Covers the teaching skills and essentials for trip leaders in the wilderness, including trip planning, logistics, risk management, and group interaction in the backcountry.
Prerequisite: (EXSS 230 with C or better or KIN 230 with C or better) and PAC 301 [C] and PAC 303 [C] and PAC 329 [C]
Equivalent to: EXSS 232

KIN 233, TEACHING TECHNIQUES FOR OUTDOOR ACTIVITIES, 3 Credits
Gateway course for students pursuing the Level Three Adventure Leadership Certificate. Emphasizes teaching outdoor activities at a professional level. Students work individually with the course instructor to develop, plan and implement an activity course (land or water based) for the Adventure Leadership Institute.
Prerequisite: EXSS 232 with C or better or KIN 232 with C or better
Equivalent to: EXSS 233

KIN 299, SPECIAL TOPICS, 1-3 Credits
Equivalent to: EXSS 299
This course is repeatable for 24 credits.

KIN 301, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EXSS 301
This course is repeatable for 16 credits.

KIN 305, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EXSS 305
This course is repeatable for 16 credits.

KIN 306, PROJECTS, 1-16 Credits
Equivalent to: EXSS 306
This course is repeatable for 36 credits.

KIN 307, SEMINAR, 1-3 Credits
Section 2: Seminar Pre-Internship (1 credit).
Equivalent to: EXSS 307
This course is repeatable for 36 credits.

KIN 311, MOTOR BEHAVIOR, 4 Credits
Underlying mechanisms and factors affecting movement function, skill acquisition, and changes in movement behavior across the lifespan.
Prerequisite: BI 232 with C- or better or BI 332 with C- or better
Equivalent to: EXSS 311
Available via Ecampus

KIN 312, *SOCIOCULTURAL DIMENSIONS OF PHYSICAL ACTIVITY, 4 Credits
Physical activity in contemporary society. Relationships with the social processes; interrelationships between physical activity and cultural institutions. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture
Equivalent to: EXSS 312
Available via Ecampus

KIN 314, INTRODUCTION TO ADAPTED PHYSICAL ACTIVITY, 3 Credits
Overview of cognitive, neuromuscular, sensory and orthopedic disabilities; understanding accessible physical activity programs for individuals with disabilities.
Equivalent to: EXSS 314
Available via Ecampus

KIN 321, BIOMECHANICS OF HUMAN MOVEMENT, 4 Credits
Integration of the physical laws and anatomical structures governing human movement; qualitative analytical processes emphasized.
Prerequisite: (BI 231 with C- or better and BI 241 [C-]) or (BI 331 [C-] and BI 341 [C-]) and (MTH 112 [C-] or MTH 251 [C-])
Equivalent to: EXSS 321
Available via Ecampus

KIN 324, EXERCISE PHYSIOLOGY, 4 Credits
Physiological effects of acute and chronic exercise; factors affecting human performance; exercise training principles.
Prerequisite: (BI 233 with C- or better or BI 333 with C- or better) and (BI 231 [C-] or BI 331 [C-]) and (CH 121 [C-] or CH 231 [C-] or CH 231H [C-]) and (CH 122 [C-] or CH 232 [C-] or CH 232H [C-]) and (CH 123 [C-] or CH 233 [C-] or CH 233H [C-] or CH 130 [C-])
Equivalent to: EXSS 324
Available via Ecampus
KIN 325, FITNESS ASSESSMENT AND EXERCISE PRESCRIPTION, 3 Credits
Introduction to lab- and field-based physical fitness assessments and the skills needed to design safe and effective exercise programs for apparently healthy adults. Lec/lab.
Prerequisite: KIN 324 with C- or better or EXSS 324 with C- or better
Equivalent to: EXSS 325

KIN 333, KINESIOLOGY PRACTICUM, 2 Credits
Field experience in kinesiology under professional supervision.
Equivalent to: EXSS 333

KIN 334, KINESIOLOGY PRACTICUM, 2 Credits
Field experience in kinesiology under professional supervision.
Prerequisite: KIN 333 with C- or better
Equivalent to: EXSS 334

KIN 335, KINESIOLOGY PRACTICUM, 2 Credits
Field experience in kinesiology under professional supervision.
Equivalent to: EXSS 335

KIN 341, NUTRITION FOR EXERCISE, 4 Credits
Review of the interrelationship between nutrition and exercise, including macronutrient, micronutrient and fluid needs for active individuals. CROSSLISTED as KIN 341/NUTR 341.
Prerequisite: KIN 324 with C- or better and NUTR 240 [C-]
Equivalent to: EXSS 341, NUTR 341
Available via Ecampus

KIN 343, PRE-THERAPY/ALLIED HEALTH SEMINAR, 1 Credit
Provides knowledge in professional school preparation and current issues related to the allied health professions.
Prerequisite: (KIN 132 with C or better or BI 109 with C or better) and BI 231 [C] and BI 232 [C] and BI 233 [C] and BI 241 [C] and BI 242 [C] and BI 243 [C]
Equivalent to: EXSS 343
Recommended: Overall GPA of 3.0

KIN 344, PRE-THERAPY/ALLIED HEALTH PRACTICUM, 1 Credit
Clinical field experiences under the supervision of a licensed professional in the allied health or related setting enhanced with classroom discussion.
Prerequisite: KIN 132 with C or better and BI 231 [C] and BI 232 [C] and BI 233 [C] and BI 241 [C] and BI 242 [C] and BI 243 [C]
Corequisites: KIN 343
Equivalent to: EXSS 344
This course is repeatable for 2 credits.
Recommended: Overall GPA of 3.0

KIN 345, ALLIED HEALTH PRACTICUM, 1-2 Credits
Field experience under professional supervision in an allied health or related setting. Includes arranged consultations with the instructor to discuss current issues related to the allied health professions.
Equivalent to: EXSS 345
This course is repeatable for 2 credits.
Recommended: Overall GPA 2.75

KIN 353, PHYSICAL EDUCATION TEACHER EDUCATION PRACTICUM, 2 Credits
Supervised K-12 physical education field experience with seminars. May include one instructor-approved coaching experience in school setting.
Equivalent to: EXSS 353
Recommended: OSU GPA 2.00, KIN GPA 2.50, and completion or concurrent enrollment in KIN 422 or KIN 423

KIN 354, PHYSICAL EDUCATION TEACHER EDUCATION PRACTICUM, 2 Credits
Supervised K-12 physical education field experience with seminars. May include one instructor-approved coaching experience in school setting.
Equivalent to: EXSS 354
Recommended: OSU GPA 2.00, KIN GPA 2.50 and concurrent enrollment in KIN 422 or KIN 423

KIN 355, PHYSICAL EDUCATION TEACHER EDUCATION PRACTICUM, 2 Credits
Supervised K-12 physical education field experience with seminars. May include one instructor-approved coaching experience in school setting.
Equivalent to: EXSS 355
Recommended: OSU GPA 2.00, KIN GPA 2.50 and concurrent enrollment in KIN 422 or KIN 423

KIN 360, INJURY MANAGEMENT FOR THE PHYSICALLY ACTIVE, 3 Credits
Introduction to management of physical activity-related injury for the non-healthcare provider (e.g., coaches, physical educators and fitness professionals) and pre-professional.
Available via Ecampus

KIN 370, PSYCHOLOGY OF SPORT AND PHYSICAL ACTIVITY, 3 Credits
Interaction between psychological variables and human motor performance.
Equivalent to: EXSS 370
Available via Ecampus

KIN 380, THERAPEUTIC MODALITIES, 4 Credits
Indications, contra indication, techniques, and effects of various physical agents used in the care and treatment of musculoskeletal injuries and diseases.
Equivalent to: EXSS 380
KIN 385, THERAPEUTIC EXERCISE, 4 Credits
Principles and techniques of therapeutic exercise; rehabilitative activities and programs for musculoskeletal injuries, conditions, and diseases. Lec/lab.
Prerequisite: KIN 321 with C- or better or EXSS 321 with C- or better
Equivalent to: EXSS 385

KIN 394, PROFESSIONAL ACTIVITIES: RESISTANCE TRAINING PROGRAM DESIGN, 3 Credits
Presents the conceptual basis for optimizing resistance training program designs, exercise routines for all ages and fitness levels, correct exercise technique. Lec/lab.
Prerequisite: KIN 324 with C- or better and KIN 325 [C-]
Equivalent to: EXSS 394

KIN 395, PROFESSIONAL ACTIVITIES: GROUP FITNESS, 3 Credits
Application of biomechanical, physiological, psychological and safety principles for the development of group exercise classes in a variety of modes and settings. Lec/lab.
Prerequisite: (KIN 324 with C- or better or EXSS 324 with C- or better) and (KIN 325 [C-] or EXSS 325 [C-])
Equivalent to: EXSS 395

KIN 396, PROFESSIONAL ACTIVITIES: AQUATICS, 3 Credits
Aquatic overview; emphasis on underlying hydrodynamic principles; includes safety, survival, stroke mechanics, aquatic exercise, training, games. Lec/lab/activity.
Equivalent to: EXSS 396
Recommended: PAC 250

KIN 399, SPECIAL TOPICS, 1-3 Credits
Equivalent to: EXSS 399, KIN 399H
This course is repeatable for 18 credits.

KIN 399H, SPECIAL TOPICS, 1-3 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: KIN 399
This course is repeatable for 18 credits.

KIN 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EXSS 401
This course is repeatable for 16 credits.

KIN 403, THESIS, 1-16 Credits
Equivalent to: EXSS 403
This course is repeatable for 16 credits.

KIN 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EXSS 405
This course is repeatable for 16 credits.

KIN 406, PROJECTS, 1-16 Credits
Equivalent to: EXSS 406
This course is repeatable for 16 credits.

KIN 407, SEMINAR, 1-16 Credits
Equivalent to: EXSS 407
This course is repeatable for 16 credits.

KIN 408, WORKSHOP, 1-16 Credits
Equivalent to: EXSS 408
This course is repeatable for 16 credits.

KIN 409, PRACTICUM, 1-16 Credits
Available via Ecampus

KIN 410, INTERNSHIP, 1-15 Credits
Planned experiences at selected cooperating agencies, companies or institutions; supervised by university and program personnel; supplementary conference, reports and appraisal required.
Equivalent to: EXSS 410
This course is repeatable for 20 credits.
Recommended: Completion of required courses, cumulative Kinesiology program GPA of 2.25, KIN overall GPA of 2.50 and completion of 165 credits
Available via Ecampus

KIN 411, NEUROMUSCULAR CONTROL OF HUMAN MOVEMENT, 3 Credits
Exploration and understanding of the neurological basis of human movement with emphasis on models of motor function and dysfunction.
Prerequisite: KIN 311 with C- or better

KIN 422, FACILITATING PHYSICAL ACTIVITY FOR CHILDREN AND YOUTH, 3 Credits
Students learn skills for facilitating physical activity programs for children and youth in a variety of settings, including information on the benefits of physical activity, program design, implementation and management techniques.
Prerequisite: KIN 311 with C- or better

KIN 423, QUALITATIVE MOVEMENT ANALYSIS, 3 Credits
Develop observational skills to perform systematic qualitative analyses of selected physical activity performances and other human movements.
Prerequisite: (KIN 311 with C- or better or EXSS 311 with C- or better) and (KIN 321 [C-] or EXSS 321 [C-])
Equivalent to: EXSS 423

KIN 425, ANATOMICAL KINESIOLOGY, 4 Credits
Anatomical aspects of human movement; actions of bones and muscles in motor activities. Application of physical principles to factors governing anatomical function in health and injury.
Prerequisite: EXSS 321 with C- or better or KIN 321 with C- or better
Equivalent to: EXSS 425
KIN 432, PHYSICAL ACTIVITY ASSESSMENT, 3 Credits
Assessment of physical activity using subjective and objective measurement methods with focus on applications for individuals, communities, and special populations.
Equivalent to: EXSS 432

KIN 434, APPLIED MUSCLE PHYSIOLOGY, 3 Credits
Skeletal muscle structure, function, and metabolism; applications to muscle fatigue, exercise training, inactivity, and aging.
Prerequisite: KIN 324 with C- or better or EXSS 324 with C- or better
Equivalent to: EXSS 474

KIN 435, PHYSICAL ACTIVITY PROMOTION, 3 Credits
Application of behavioral science and public health research to the promotion of physical activity in individuals, groups and communities.
Prerequisite: KIN 370 with C- or better
Equivalent to: EXSS 435

KIN 437, PHYSICAL ACTIVITY, AGING, AND CHRONIC DISEASE, 4 Credits
Addresses the consequences of primary and secondary aging from an individual and public health perspective. Physiological changes associated with aging and chronic disease, functional assessment of older adults, and exercise prescription for older adults with and without chronic exercise will be emphasized.
Prerequisite: (KIN 324 with C- or better or EXSS 324 with C- or better) and (KIN 325 [C-] or EXSS 325 [C-])
Equivalent to: EXSS 437

KIN 444, ADVANCED ADAPTED PHYSICAL ACTIVITY, 3 Credits
Discuss various disability models and perspectives; reinforce determinants of physical activity; design and implement different physical activity programs and curricula for individuals with disabilities. Lec/lab.
Prerequisite: (KIN 314 with C- or better or EXSS 314 with C- or better)
Equivalent to: EXSS 444

KIN 462, BEHAVIORAL DIMENSIONS OF PHYSICAL ACTIVITY, 4 Credits
Adopting and maintaining an active, healthy lifestyle is difficult. This course explores 'why' this might be the case and 'how' to improve upon the situation.
Prerequisite: KIN 312 with C- or better and KIN 370 [C]

KIN 474, EXERCISE PHYSIOLOGY LAB METHODS, 3 Credits
Practical experience and projects in exercise physiology lab methods, including measurement of submaximal and maximal oxygen consumption body composition, anaerobic power, and electrocardiography.
Prerequisite: (KIN 324 with C- or better or EXSS 324 with C- or better) and (KIN 325 [C-] or EXSS 325 [C-])
Equivalent to: EXSS 474

KIN 475, *POWER AND PRIVILEGE IN SPORT, 3 Credits
Issues of power and privilege in sport including race, gender, sexual orientation, disability and aggression and the consequences of long held society norms and stereotypes. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisite: (KIN 312 with C- or better or EXSS 312 with C- or better)
Equivalent to: EXSS 475
Recommended: 6 credits of social science Available via Ecampus

KIN 481, ^ANALYSIS OF CRITICAL ISSUES IN KINESIOLOGY, 3 Credits
Reading and interpreting current research, and using writing as a tool for learning on a critical issue in kinesiology. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: KIN 381
Available via Ecampus

KIN 483, TISSUE INJURY AND REPAIR, 3 Credits
Mechanics of tissue injury and the body’s response and repair following injury of bone, muscle, tendon, ligament, cartilage and nervous system tissue.
Prerequisite: (BI 231 with C- or better or BI 331 with C- or better) and (BI 241 [C-] or BI 341 [C-]) and (BI 232 [C-] or BI 332 [C-]) and (BI 242 [C-] or BI 342 [C-]) and (BI 331 [C-] or Z 331 [C-] and Z 332 [C-] or Z 333 [C-]) and (BI 341 [C-] or Z 341 [C-] and Z 342 [C-] or Z 343 [C-])
Equivalent to: EXSS 483

KIN 490, SCIENTIFIC INQUIRY IN KINESIOLOGY, 4 Credits
Principles and techniques of organization, administration, interpretation and evaluation of exercise science-related data. Includes human subjects training and certification, research design, and statistical analysis using SPSS and Excel including central tendency, correlation and regression, probability, and inferential statistics (t-tests and ANOVA). Lec/lab.
Prerequisite: KIN 325 with C- or better and MTH 112 [C-]

KIN 499, SELECTED TOPICS, 1-5 Credits
Impact of human movement development on people, their movement behavior, and environment. Topics vary from term to term and year to year. May be repeated for credit when topics differ.
Equivalent to: EXSS 499
This course is repeatable for 24 credits.

KIN 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EXSS 501
This course is repeatable for 16 credits.

KIN 503, THESIS, 1-16 Credits
Equivalent to: EXSS 503
This course is repeatable for 999 credits.
KIN 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EXSS 505
This course is repeatable for 16 credits.

KIN 506, PROJECTS, 1-16 Credits
Equivalent to: EXSS 506
This course is repeatable for 16 credits.

KIN 507, SEMINAR, 1-16 Credits
Section 1: Seminar (1). Graduate research seminar that emphasizes student oral presentations of current research topics in exercise and sport science. One credit required for all graduate students. Section 2: Current Developments (1). Discussion of contemporary issues in the exercise and sport science literature. Topics vary by term. Two credits required of all doctoral students. Section 9: International Aspects (1). Discussion of international aspects of study in exercise and sport science. Required of all doctoral students. Graded P/N.
Equivalent to: EXSS 507
This course is repeatable for 16 credits.

KIN 508, WORKSHOP, 1-16 Credits
Equivalent to: EXSS 508
This course is repeatable for 16 credits.

KIN 509, PRACTICUM, 1-16 Credits
This course is repeatable for 35 credits.

KIN 510, INTERNSHIP, 1-16 Credits
Planned experiences at selected cooperating agencies, companies or institutions; supervised by university and program personnel; supplementary conference, reports and appraisal required.
Equivalent to: EXSS 510
This course is repeatable for 26 credits.

KIN 511, INTRODUCTION TO ATHLETIC TRAINING, 4 Credits
Practice domains include injury and illness prevention and wellness protection, clinical evaluation and diagnosis, immediate and emergency care, treatment and rehabilitation, and organizational and professional health and well-being. Lec/lab.

KIN 512, APPLIED MOTOR LEARNING, 3 Credits
Application of research and theory to the teaching of motor skills with emphasis on development of instructional strategies related to modeling, knowledge of results, practice, and motivational aspects of learning.
Equivalent to: EXSS 512
Recommended: KIN 311

KIN 513, MOTOR DEVELOPMENT: AN INTEGRATIVE APPROACH, 3 Credits
Addresses the social, cultural, biological and psychological processes and health-related factors (e.g., physical activity) that jointly influence lifespan motor development (emphasis on the early years).

KIN 515, MOTOR CONTROL AND MOVEMENT DYSFUNCTION, 3 Credits
Contemporary motor control theories and their application to the development of instructional and training programs for individuals with movement disorders caused by neurological disease and/or trauma.
Equivalent to: EXSS 515
Recommended: KIN 311 and (KIN 314 or KIN 444)

KIN 520, ORTHOPEDIC ASSESSMENT OF UPPER EXTREMITY INJURIES, 4 Credits
Prevention, assessment and management of upper extremity injuries and conditions commonly encountered by the athletic trainer. Lec/lab.
Prerequisite: KIN 511 with C or better

KIN 521, ORTHOPEDIC ASSESSMENT OF LOWER EXTREMITY INJURIES, 4 Credits
Prevention, assessment and management of lower extremity injuries and conditions commonly encountered by the athletic trainer. Lec/lab.
Prerequisite: KIN 511 with C or better

KIN 522, ORTHOPEDIC ASSESSMENT OF SPINE, 4 Credits
Prevention, assessment and management of spinal injuries and conditions commonly encountered by the athletic trainer. Lec/lab.
Prerequisite: KIN 520 with C or better and KIN 521 [C]

KIN 523, BIOMECHANICS OF MOTOR ACTIVITIES, 3 Credits
Kinematic and kinetic analysis of volitional human movement with emphasis on analytical techniques and quantitative problem solving.
Equivalent to: EXSS 523
Recommended: KIN 323 or PH 201

KIN 525, BIOMECHANICS OF MUSCULOSKELETAL INJURY, 3 Credits
Mechanical causes and effects of forces applied to the musculoskeletal system, material properties of human tissues, pathomechanics of injury, and degenerative changes across the lifespan. Not offered every year.
Equivalent to: EXSS 525

KIN 531, PHYSIOLOGY OF PHYSICAL ACTIVITY AND INACTIVITY, 3 Credits
Physiologic responses to acute and chronic physical activity and inactivity with emphasis on underlying mechanisms and health outcomes.

KIN 532, PHYSICAL ACTIVITY ASSESSMENT, 3 Credits
Assessment of physical activity using subjective and objective measurement methods with focus on applications for individuals, communities, and special populations.
Equivalent to: EXSS 532
KIN 533, ENERGETICS AND BIOCHEMISTRY OF EXERCISE, 3 Credits
Metabolic and energetic responses to acute and chronic physical activity; emphasis on recent research.
Equivalent to: EXSS 533
Recommended: Undergraduate course in biochemistry or exercise physiology.

KIN 535, PHYSICAL ACTIVITY PROMOTION, 3 Credits
Application of behavioral science and public health research to the promotion of physical activity in individuals, groups and communities.
Recommended: KIN 370

KIN 536, PHYSICAL ACTIVITY IN DIVERSE POPULATIONS, 3 Credits
Addresses the social, cultural, political, and environmental determinants of physical activity and health among diverse populations. Includes examination of intersecting issues related to race, ethnicity, gender, age, disability, geography, income status, and other societal factors across the lifespan for promoting physical activity through public health strategies.

KIN 541, INTEGRATED BEHAVIORAL HEALTH IN ATHLETIC TRAINING, 3 Credits
Explores integrated behavioral health in athletic training focusing on patient-centered care. Emphasizes the multidisciplinary approach in the individualized care of behavioral health conditions including suicidal ideation, depression, eating disorders and the associated necessary referrals to additional clinical personnel.
Prerequisite: KIN 521 with C or better

KIN 544, ADVANCED ADAPTED PHYSICAL ACTIVITY, 3 Credits
Discuss various disability models and perspectives; reinforce determinants of physical activity; design and implement different physical activity programs and curricula for individuals with disabilities.
Lec/lab.
Equivalent to: EXSS 544
Recommended: KIN 314

KIN 547, INCLUSION IN PHYSICAL ACTIVITY, 3 Credits
Effectiveness of physical activity programs provided in inclusive settings. This will include a lifespan/non-categorical approach to program development.
Equivalent to: EXSS 547
Recommended: KIN 314 or KIN 444

KIN 548, ASSESSMENT AND PROGRAMMING FOR SPECIAL POPULATIONS, 3 Credits
Use of appropriate assessment procedures for developing effective psychomotor programs for the disabled.
Equivalent to: EXSS 548
Recommended: KIN 314 or KIN 444

KIN 549, PHYSICAL ACTIVITY FOR PERSONS WITH SEVERE DISABILITIES, 3 Credits
Plan, develop and implement appropriate physical activity programs, functional program design, assistive technology, instructional strategies, behavior management practices, and data analysis systems that address the needs for psychomotor performance of persons with low incidence disabilities.
Equivalent to: EXSS 549
Recommended: KIN 314 or KIN 444

KIN 550, HEALTH PROMOTION FOR PEOPLE WITH DISABILITIES, 3 Credits
Discussion will focus on disability and health, theory driving health promotion program development, guidelines for developing a program for individuals with disabilities, and program evaluation.
Equivalent to: EXSS 550

KIN 551, CURRENT TRENDS AND ISSUES IN PHYSICAL EDUCATION, 4 Credits
Current trends and issues in physical education, including curriculum development, professional ethics, instructional practices, and physical activity for the school community.
Equivalent to: EXSS 551

KIN 553, INSTRUCTIONAL ANALYSIS TECHNIQUES I, 3 Credits
Introduction to techniques of instructional analysis. Provides in-depth information and training in systematic observation techniques, raw data conversion and inter/intraobserver reliability.
Equivalent to: EXSS 553

KIN 554, INSTRUCTIONAL ANALYSIS TECHNIQUES II, 3 Credits
Laboratory/seminar experience to accompany student teaching winter and spring terms. Provides continued application of systematic observation techniques throughout the elementary student teaching experience.
Equivalent to: EXSS 554

KIN 555, SKILL ANALYSIS AND ASSESSMENT IN K-12, 3 Credits
Develop proficiency in assessing movement skills, execution of sport techniques, and game play performance. Assessment trends and practices utilized in physical education programs are included.
Equivalent to: EXSS 555

KIN 556, INSTRUCTIONAL SKILLS I, 3 Credits
Skills of planning, implementing, and evaluating programs of instruction in physical education, grades K-12.
Equivalent to: EXSS 556
KIN 557, INSTRUCTIONAL SKILLS II, 2 Credits
Applying and refining skills of planning, implementing, and evaluating programs of instruction in physical education, grades K-12.
Equivalent to: EXSS 557

KIN 558, PHYSICAL EDUCATION CURRICULUM DESIGN AND ORGANIZATION, 3 Credits
Curricular programs and variations from kindergarten through grade 12, administrative policies and practices.
Equivalent to: EXSS 558

KIN 559, THE PHYSICAL EDUCATOR AS A PROFESSIONAL, 1 Credit
Transitioning to teaching, developing a portfolio, certification, obtaining a position, teacher burnout, professionalism, problems of first-year teachers, developing patterns of behavior that lead to a successful career.
Equivalent to: EXSS 559

KIN 560, MOTIVATION IN PHYSICAL ACTIVITY, 3 Credits
A social psychological approach to understanding the role of self-perceptions and cognitions in explaining motivated behavior in sport and exercise settings.
Equivalent to: EXSS 560
Recommended: KIN 370

KIN 561, PSYCHOSOCIAL FACTORS IN PHYSICAL ACTIVITY, 3 Credits
A social psychological approach to understanding the role of social interactions and contextual factors in explaining human behavior in sport and exercise settings.
Equivalent to: EXSS 561
Recommended: KIN 560

KIN 562, LIFESPAN SPORT AND EXERCISE PSYCHOLOGY, 3 Credits
Social-psychological issues across the lifespan in the context of sport and exercise.
Equivalent to: EXSS 562
Recommended: KIN 561

KIN 564, PROGRAM CAPSTONE AND SYNTHESIS, 3 Credits
Capstone course in which teacher candidates will review and update their teaching philosophy; showcase their Physical Education master’s portfolio; and develop a plan for professional development.
Prerequisite: KIN 510 with C- or better

KIN 565, MANAGEMENT OF EMERGENT CONDITIONS IN ATHLETIC TRAINING, 3 Credits
Examines the knowledge and skills required to care for emergent conditions encountered by the athletic trainer. Includes the management of a patient experiencing shock, cardiovascular emergency, respiratory emergency, head injury, spinal injury, fracture, dislocation, and conditions related to environmental factors.
Prerequisite: KIN 566 with C or better

KIN 566, GENERAL MEDICAL ASSESSMENT, 4 Credits
Prevention, evaluation, diagnosis, and management of general medical conditions commonly encountered by the athletic trainer.
Prerequisite: KIN 565 with C or better

KIN 567, PHARMACOLOGY IN ATHLETIC TRAINING, 3 Credits
Pharmacology in sports medicine, topics including, but not limited to, the mechanisms and actions of drugs commonly administered and prescribed in sports medicine environments.
Prerequisite: KIN 566 with C or better

KIN 568, ADMINISTRATIVE ISSUES IN ATHLETIC TRAINING, 3 Credits
Examines administrative aspects of athletic training program management. Including principles of risk management, strategic and operational planning, medical-legal aspects of athletic healthcare, confidentiality and documentation of patient health information, insurance and third-party reimbursement, personnel issues, and current professional issues.
Prerequisite: KIN 569 with C or better

KIN 569, RESEARCH INFORMED PRACTICE, 3 Credits
Examine the principles and skills underlying the utilization of evidence to enhance clinical practice decision-making. Includes the development of clinical questions, review and appraisal of relevant literature, and utilization of patient-centered outcome measures.
Prerequisite: KIN 520 with C or better

KIN 573, MEASUREMENT IN HUMAN MOVEMENT, 3 Credits
Equivalent to: EXSS 573
Recommended: ST 511

KIN 575, RESEARCH IN HUMAN MOVEMENT, 3 Credits
Investigation and evaluation of research methods applicable to human movement study and professional physical education
Equivalent to: EXSS 575
Recommended: ST 511
KIN 583, CONCUSSION MANAGEMENT, 3 Credits
Examines concussions and other traumatic brain injuries encountered by the athletic trainer. Includes the prevention, assessment, rehabilitation, and management of concussions.
Prerequisite: KIN 565 with C or better

KIN 584, PHYSIOLOGY AND MANAGEMENT OF MUSCULOSKELETAL INJURIES, 3 Credits
Mechanics of musculoskeletal tissue injuries; physiologic response and repair processes of various tissues; and effects of physical agents commonly used by athletic trainers in the care and treatment of musculoskeletal injuries.
Prerequisite: KIN 511 with C or better

KIN 585, REHABILITATION II, 4 Credits
Explores the theoretical foundation and techniques of rehabilitation management in the physically active patient. Emphasizes therapeutic exercise of injuries and conditions of the upper extremity, cervical and thoracic spine using techniques of program design learned in KIN 586. Examine theory and apply manual therapy interventions.
Prerequisite: KIN 586 with C or better

KIN 586, REHABILITATION I, 4 Credits
Explores the theoretical foundation and techniques of rehabilitation management in the physically active patient. Emphasizes therapeutic exercise of injuries and conditions of the lower extremity, lumbar spine, pelvis and ribs with a focus on program design, implementation and interpretation of patient's physical status.
Prerequisite: KIN 522 with C or better

KIN 599, SPECIAL TOPICS, 1-3 Credits
Impact of human movement development on people, their movement behavior, and environment. Topics vary from term to term and year to year. May be repeated when topics differ.
Equivalent to: EXSS 599
This course is repeatable for 99 credits.

KIN 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: EXSS 601
This course is repeatable for 16 credits.

KIN 603, THESIS, 1-16 Credits
Equivalent to: EXSS 603
This course is repeatable for 999 credits.

KIN 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: EXSS 605
This course is repeatable for 16 credits.

KIN 606, PROJECTS, 1-16 Credits
Equivalent to: EXSS 606
This course is repeatable for 16 credits.

KIN 607, SEMINAR, 1-16 Credits
Section 1: Graduate Research (1). Seminar emphasizes student oral presentations of current research topics in exercise and sport science. One credit required of all graduate students. Section 3: Current Developments (1). Discussion of contemporary issues in the exercise and sport science literature. Topics vary by term. Two credits required of all doctoral students. Section 9: International Aspects (1). Discussion of international aspects of study in exercise and sport science. Required of all doctoral students. Graded P/N.
Equivalent to: EXSS 607
This course is repeatable for 16 credits.

KIN 610, PROFESSIONAL INTERNSHIP: PHYSICAL EDUCATION, 1-15 Credits
Field experience in which the term will integrate academic study with classroom teaching experience to learn specific competencies relating to functioning well in the context of the classroom and the school, and demonstrate this competency through the assessment of work by supervisors and by evidence collected and presented in work samples.
Equivalent to: EXSS 610
This course is repeatable for 25 credits.

KIN 647, CURRENT TOPICS AND RESEARCH IN ADAPTED PHYSICAL ACTIVITY, 3 Credits
Current trends and critical research issues in adapted physical activity; focus on international and national trends. Topic will be variable.
Equivalent to: EXSS 647

KIN 699, SPECIAL TOPICS, 1-16 Credits
Current issues, trends, and topics in KIN research. May be repeated for credit with different topics.
Equivalent to: EXSS 699
This course is repeatable for 25 credits.

Korean (KOR)
KOR 111, FIRST-YEAR KOREAN, 4 Credits
For students with no prior training in Korean. Basic language skills along with cultural understanding by introducing the history of Hangul, traditional holidays, games, songs, foods and drama. Provides the Korean alphabet (Hangul), basic vocabulary, grammar, listening, speaking, reading, and writing skills. Three areas of focus: (1) reading and writing the Korean alphabet; (2) basic colloquial expressions; and (3) cultural understanding.
Available via Ecampus

KOR 112, FIRST-YEAR KOREAN, 4 Credits
Basic language skills along with cultural understanding by introducing the history of Hangul, traditional holidays, games, songs, foods and drama. Provides the Korean alphabet (Hangul), basic vocabulary, grammar, listening, speaking, reading, and writing skills. Three areas of concentration: (1) reading and writing the Korean alphabet, (2) basic colloquial expressions, and (3) cultural understanding.
Prerequisite: KOR 111 with D- or better
Available via Ecampus
LEAD 242, PERSONAL LEADERSHIP DEVELOPMENT, 3 Credits
Examines content related to leadership traits, styles, and effective leadership tactics. An introductory course designed to create awareness and develop the employability skills necessary for participants to be productive contributors in their school, home, community and profession.
Equivalent to: AG 242
Available via Ecampus

LEAD 342, TEAM AND ORGANIZATIONAL LEADERSHIP, 3 Credits
Examines the planning, implementation and evaluation of organizations, and challenges students in the development of effective communication, group dynamics, conflict management, teambuilding and problem solving. Students will explore the development of successful teams, multiple roles within teams, improving group performance, group decision making, how to manage conflict in teams, enhancing diversity in teams, creating a culture of creativity and innovation, and the evaluation of teams.
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: AG 342
Available via Ecampus

LEAD 401, LEADERSHIP RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

LEAD 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 410, LEADERSHIP INTERNSHIP, 1-16 Credits
Students apply what they have learned through both the leadership theory and trait/skill development portion of the Leadership minor.
This course is repeatable for 16 credits.
Available via Ecampus

LEAD 442, LEADERSHIP SKILLS FOR CAREER SUCCESS, 3 Credits
Focuses on the development and refinement of the following leadership skills: utilizing diversity, team building, project management, program planning models, working with difficult people, conflict management, leading change, establishing an effective network, organizational strategies, and emotional intelligence.
Equivalent to: AG 442
Available via Ecampus
LEAD 443, LEADERSHIP THROUGH CONVERSATIONS, 3 Credits
Engages students in the exploration of conversations as a component of leadership. Students will engage in topics related to developing effective conversations, listening, conversation styles, group dynamics, digital communication, meetings as conversations and interviewing skills.
Equivalent to: AG 442
Available via Ecampus

LEAD 444, LEADERSHIP MINOR CAPSTONE, 2 Credits
Capstone course for students completing the Leadership minor. Students will reflect on what they have learned through the Leadership minor and how to apply that learning in the context of their future careers.
Equivalent to: AG 444
Recommended: (AG 242 or LEAD 242) and (AG 342 or LEAD 342)

LEAD 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 506, SPECIAL PROBLEMS/SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

LEAD 542, LEADERSHIP SKILLS FOR CAREER SUCCESS, 3 Credits
Focuses on the development and refinement of the following leadership skills: utilizing diversity, team building, project management, program planning models, working with difficult people, conflict management, leading change, establishing an effective network, organizational strategies, and emotional intelligence.
Equivalent to: AG 542
Available via Ecampus

LEAD 543, LEADERSHIP THROUGH CONVERSATIONS, 3 Credits
Engages students in the exploration of conversations as a component of leadership. Students will engage in topics related to developing effective conversations, listening, conversation styles, group dynamics, digital communication, meetings as conversations and interviewing skills.
Equivalent to: AG 543
Available via Ecampus

LEAD 580, LEADING AUTHENTICALLY: FOUNDATIONS OF LEADERSHIP, 3 Credits
The foundational course for students in graduate leadership coursework. Students will explore leadership theories to develop an understanding of how to be an authentic leader. Students will analyze and apply course content in relation to their own personal leadership experiences and gain perspectives and tools to influence their future.

LEAD 581, LEADING OTHERS: ENHANCING TEAM AND ORGANIZATIONAL PERFORMANCE, 3 Credits
A foundational course for group, team, and organizational leadership. Throughout this course, you will become familiar with the necessary conditions for designing effective teams and work groups, best practices and processes needed for maximum productivity, strategies to resolve common issues in teams, and methods to evaluate team performance.

LEAD 582, LEADING CHANGE: LEADING, MOTIVATING, AND EMPOWERING OTHERS, 3 Credits
Examines and synthesizes leadership content to form a personal and professional foundation for being remarkable. Drawing on 15 different being remarkable qualities, students will be challenged to develop and apply the skills needed for leadership success.

Liberal Arts (LA)
LA 199, SPECIAL TOPICS, 2 Credits
Various topics introducing students to the liberal arts.
This course is repeatable for 6 credits.

LA 399, SPECIAL TOPICS, 1-12 Credits
This course is repeatable for 12 credits.

Liberal Studies (LS)
LS 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

LS 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

LS 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.
LS 405, READING AND CONFERENCE, 1-3
Credits
This course is repeatable for 16 credits.

 LS 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

 LS 407, SEMINAR, 1-16 Credits
Graduate credit must not exceed 9 credits.
This course is repeatable for 16 credits.

 LS 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

 LS 410, INTERNSHIP, 1-12 Credits
Restricted to students enrolled in off-campus programs. Not available to students in residence on the Corvallis campus. Maximum of 12 credits.
This course is repeatable for 12 credits.
Available via Ecampus

 LS 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Library & Information Science (LIB)

 LIB 410, INTERNSHIP, 1-16 Credits
The internship is an opportunity to gain experience that connects a student's discipline or interests to contemporary issues faced by cultural heritage organizations, such as libraries, archives, special collections and in publishing. OSU Libraries or Press focuses on contemporary issues concerning information and society and digital and print collections. Students will work with an on-site mentor who guides their field experience in collaboration with the internship coordinator at OSU Libraries. Graded P/N.
This course is repeatable for 16 credits.

 LIB 510, INTERNSHIP, 1-16 Credits
The internship is an opportunity to gain experience that connects a student's discipline or interests to contemporary issues faced by cultural heritage organizations, such as libraries, archives, special collections and in publishing. OSU Libraries or Press focuses on contemporary issues concerning information and society and digital and print collections. Students will work with an on-site mentor who guides their field experience in collaboration with the internship coordinator at OSU Libraries. Graded P/N.
This course is repeatable for 16 credits.

Linguistics (LING)

 LING 111, CLASSROOM STUDY OF A LESS COMMONLY TAUGHT LANGUAGE, 4 Credits
Beginning classroom-based instruction of a language otherwise not taught at OSU. Skill areas addressed include reading, writing, speaking, listening and culture. Not for students who have previous proficiency in the target language. May be repeated for credit for different languages. For a master-apprentice approach, enroll instead in the LING 114, LING 115, LING 116 sequence.
This course is repeatable for 12 credits.

 LING 112, CLASSROOM STUDY OF A LESS COMMONLY TAUGHT LANGUAGE, 4 Credits
Beginning classroom-based instruction of a language otherwise not taught at OSU. Skill areas addressed include reading, writing, speaking, listening and culture. Not for students who have previous proficiency in the target language. May be repeated for credit for different languages. For a master-apprentice approach, enroll instead in the LING 114, LING 115, LING 116 sequence.
This course is repeatable for 12 credits.

 LING 113, CLASSROOM STUDY OF A LESS COMMONLY TAUGHT LANGUAGE, 4 Credits
Beginning classroom-based instruction of a language otherwise not taught at OSU. Skill areas addressed include reading, writing, speaking, listening and culture. Not for students who have previous proficiency in the target language. May be repeated for credit for different languages. For a master-apprentice approach, enroll instead in the LING 114, LING 115, LING 116 sequence.
This course is repeatable for 12 credits.

 LING 114, MASTER/APPRENTICE STUDY OF A LESS COMMONLY TAUGHT LANGUAGE, 1-4 Credits
LING 114, LING 115, and LING 116 provides context-rich beginning language instruction, in close collaboration with a native speaker, of a language otherwise not taught at OSU. Learners work toward a level of communicative proficiency approaching the intermediate low level in each of the primary skill areas. Four credits of one language are required before moving on to the next course in the sequence. May be repeated for credit for up to three languages. Not for students who have previous proficiency in the target language.
This course is repeatable for 12 credits.
LING 115, MASTER/APPRENTICE
STUDY OF A LESS COMMONLY TAUGHT
LANGUAGE, 1-4 Credits
LING 114, LING 115, and LING 116 provides context-rich beginning
language instruction, in close collaboration with a native speaker, of a
language otherwise not taught at OSU. Learners work toward a level of
communicative proficiency approaching the intermediate low level in
each of the primary skill areas. Four credits of one language are required
before moving on to the next course in the sequence. May be repeated
for credit for up to three languages. Not for students who have previous
proficiency in the target language.
This course is repeatable for 12 credits.

LING 116, MASTER/APPRENTICE
STUDY OF A LESS COMMONLY TAUGHT
LANGUAGE, 1-4 Credits
LING 114, LING 115, and LING 116 provides context-rich beginning
language instruction, in close collaboration with a native speaker, of a
language otherwise not taught at OSU. Learners work toward a level of
communicative proficiency approaching the intermediate low level in
each of the primary skill areas. Four credits of one language are required
before moving on to the next course in the sequence. May be repeated
for credit for up to three languages. Not for students who have previous
proficiency in the target language.
This course is repeatable for 12 credits.

LING 199, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

LING 208, *WESTERN CULTURE STUDY
ABROAD, 3 Credits
Overseas study of the history and contemporary form of important
features of Western culture. Based on at least 10 weeks of studying abroad.
CROSSLISTED as ANTH 208/LING 208. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: ANTH 208
Available via Ecampus

LING 209, *CULTURAL DIVERSITY STUDY
ABROAD, 3 Credits
Overseas study of non-Western cultures. Based on at least 10 weeks
of studying abroad. CROSSLISTED as ANTH 209/LING 209. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: ANTH 209

LING 251, *LANGUAGES OF OREGON, 3
Credits
Basic lessons in languages spoken in Oregon's minority language
communities presented by native informants; discussion, language
analysis, and assessment facilitated by linguistics faculty. Languages
presented will vary. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: LING 251H

LING 299, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

LING 399, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

LING 401, RESEARCH, 1-16 Credits
PREREQ: Departmental approval required.
This course is repeatable for 16 credits.

LING 402, INDEPENDENT STUDY, 1-16
Credits
This course is repeatable for 16 credits.

LING 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

LING 405, READING AND CONFERENCE,
1-16 Credits
This course is repeatable for 16 credits.

LING 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

LING 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 16 credits.

LING 451, GENERAL LINGUISTICS, 3
Credits
Language systems; comparative philology, historical, descriptive, and
structural linguistics; semantics; phonetics and phonemics. Not offered
every year.
Recommended: 9 credits upper-division foreign language training

LING 499, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

LING 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

LING 502, INDEPENDENT STUDY, 1-16
Credits
This course is repeatable for 16 credits.

LING 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

LING 505, READING AND CONFERENCE,
1-16 Credits
This course is repeatable for 16 credits.

LING 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

LING 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.
LING 510, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.

LING 545, METHODS AND MATERIALS FOR SECOND LANGUAGE ACQUISITION, 4 Credits
Historical and contemporary approaches to teaching and assessment in the second language classroom; emphasis on evaluating second language teaching methods and materials.

LING 551, GENERAL LINGUISTICS, 3 Credits
Language systems; comparative philology; historical, descriptive, and structural linguistics; semantics; phonetics and phonemics. Not offered every year.
Recommended: 9 credits upper-division foreign language training

LING 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Management (MGMT)

MGMT 364, PROJECT MANAGEMENT, 4 Credits
Covers the tools available to project managers, the human and organizational dimensions in different project environments, some computer applications, cases, and a project.
Prerequisite: BA 351 with C or better or BA 352 with C or better or BA 352H with C or better
Equivalent to: BA 364
Available via Ecampus

MGMT 446, CROSS-CULTURAL MANAGEMENT, 4 Credits
Provides a comprehensive understanding of cross-cultural management issues including leading culturally diverse workforces and managing diversity in the workplace. Students will not only learn theoretical foundations and best practices to address regarding global work practices, but also learn how to transfer and apply the course materials in this course to their
Prerequisite: BA 352 with C or better or BA 352H with C or better
Available via Ecampus

MGMT 448, EMPLOYEE RECRUITMENT AND SELECTION, 4 Credits
Provides an in-depth coverage of best practices pertaining to the process of attracting, selecting, and hiring new employees in modern organizations. Topics that will be emphasized include recruitment tactics, legal issues related to staffing, the criteria organizations use to make hiring decisions, and the strengths and weaknesses of various techniques used to evaluate prospective applicants throughout the selection process. The implications of what we discuss for the organization, the hiring manager, and the job-seeker are considered.
Prerequisite: BA 352 with C or better or BA 352H with C or better
Available via Ecampus

MGMT 449, COMPENSATION MANAGEMENT, 4 Credits
Students will understand and design methods of compensation aimed at motivating and rewarding employee contributions to the organization. Employee contributions may include behavior, skills and goods/services that employees produce as individuals, teams, business units, projects or organizations. Topics include pay strategies and structures, performance measurement and evaluation, and various non-salary incentives.
Prerequisite: BA 352 with C or better

MGMT 452, LEADERSHIP, 4 Credits
In-depth study of leadership research, theory and skills. Emphasis on analysis of organizational leadership situations and application of leadership skills in the workplace.
Prerequisite: BA 351 with C or better or BA 352 with C or better or BA 352H with C or better
Equivalent to: BA 452
Available via Ecampus

MGMT 453, HUMAN RESOURCES MANAGEMENT, 4 Credits
Personnel administration for line supervisors and managers. Integrates systems approach to understanding government regulation of employment, resolution of workplace personnel problems, and performance-based personnel management.
Prerequisite: BA 351 with C or better or BA 352 with C or better or BA 352H with C or better
Equivalent to: BA 453
Available via Ecampus

MGMT 455, INFLUENCE AND NEGOTIATION, 4 Credits
Focuses on analysis, skill development and application of management research to real-life organizational influence, persuasion, negotiation and conflict management situations.
Prerequisite: BA 352 with C or better or BA 352H with C or better
Equivalent to: BA 455
Available via Ecampus

MGMT 457, SUPPLY CHAIN STRATEGY, 4 Credits
Covers tools and concepts needed to manage the supply chain effectively. Topics include negotiation, purchasing, logistics operations, and applying e-business tools. Emphasis on creating integrated supply chains.
Prerequisite: BA 357 with C- or better or BA 357H with C- or better
Equivalent to: BA 457
Available via Ecampus
MGMT 477, INTEGRATED HUMAN RESOURCE ANALYTICS PROJECT, 4 Credits
Students will integrate what they have learned to solve industry-sponsored problems. The goal of the class is to provide students with opportunities to design, implement, and evaluate analytic solutions for a real-world enterprise. Student teams will examine the data requirements, technical requirements, and organizational requirements necessary for the success of analytical solutions. The specific goal of the class is to provide students real-world case studies that examine the role of analytics in an organization. Special emphasis will be given to the implementation and leadership of the analytical function in an enterprise.
Prerequisite: BA 474 with C- or better and BA 475 [C-]

MGMT 499, SELECTED TOPICS IN MANAGEMENT, 1-4 Credits
Examination of the impact of recent advances in management on contemporary business. Topic will vary from term to term. This course is repeatable for 16 credits.

MGMT 546, CROSS-CULTURAL MANAGEMENT, 3 Credits
Develop comprehensive skills to navigate and manage cross-cultural management issues, leveraging best practices for a globalized era. Based on recent evidence-based research, (1) identify the role of culture and its influence on employee behavior at intercultural work settings; (2) develop a perspective to explore the challenges modern organizations face when leading and managing globalizing employees and (3) develop a capacity to effectively manage diverse workforces in cross-cultural settings by enhanced cultural awareness of, and adaptability for different cultures and business norms.
Prerequisite: BA 550 with B- or better

MGMT 548, EMPLOYEE RECRUITMENT AND SELECTION, 4 Credits
Provides an in-depth coverage of best practices pertaining to the process of attracting, selecting, and hiring new employees in modern organizations. Topics that will be emphasized include recruitment tactics, legal issues related to staffing, the criteria organizations use to make hiring decisions, and the strengths and weaknesses of various techniques used to evaluate prospective applicants throughout the selection process. The implications of what we discuss for the organization, the hiring manager, and the job-seeker are considered.
Available via Ecampus

MGMT 549, COMPENSATION MANAGEMENT, 4 Credits
Students will understand and design methods of compensation aimed at motivating and rewarding employee contributions to the organization. Employee contributions may include behavior, skills and goods/services that employees produce as individuals, teams, business units, projects or organizations. Topics include pay strategies and structures, performance measurement and evaluation, and various non-salary incentives.

MGMT 552, ORGANIZATIONAL BEHAVIOR, 3 Credits
Provides evidence-based study of human behavior within organizations with the goal of applying theories of human behavior to effective organizational administration. Topics include understanding individual differences, employee motivation, job design, the evaluation and motivation of employees, group dynamics and team management, effective communications, conflict management, employee stress, and work-life balance.

MGMT 553, HUMAN RESOURCES MANAGEMENT, 4 Credits
Personnel administration for line supervisors and managers. Integrates systems approach to understanding government regulation of employment, resolution of workplace personnel problems, and performance-based personnel management.
Equivalent to: BA 553
Recommended: (BA 351 or BA 352 or BA 352H) with a minimum grade of C
Available via Ecampus

MGMT 555, INFLUENCE AND NEGOTIATION, 4 Credits
Focuses on analysis, skill development and application of management research to real life organizational influence, persuasion, negotiation and conflict management situations.
Prerequisite: BA 516 with C or better
Equivalent to: MGMT 574
Available via Ecampus

MGMT 559, MANAGING ETHICS AND CORPORATE SOCIAL RESPONSIBILITY, 3 Credits
Introduces students to contemporary issues managers face making ethical and socially-responsible decisions in an increasingly competitive, transparent, and global environment. Practical examples and cases, as well as contemporary behavioral ethics research and theory are incorporated throughout the course.
Available via Ecampus

MGMT 572, STRATEGIC HUMAN RESOURCE MANAGEMENT, 3 Credits
Students will learn the theories of human resource management, the legal requirements for human resource practices, and how to create an HR measurement system that aligns with an organization's strategy.
Prerequisite: BA 550 with C- or better
Recommended: BA 516 or equivalent with a minimum grade of C
Available via Ecampus

MGMT 574, NEGOTIATIONS, 3 Credits
Students will learn the theories of negotiation and the techniques to develop an effective negotiation style.
Equivalent to: MGMT 555
Recommended: BA 516 with a minimum grade of C
Available via Ecampus
MGMT 575, INTEGRATIVE CAPSTONE I, 3 Credits
First course in a two-course sequence spanning the final two quarters of the OLMBA program. Students will conduct an extensive analysis of the student's organization, the industry and external environment, the organization's competitors, internal organization, and business level strategy.
Prerequisite: BA 562 with B or better
Available via Ecampus

MGMT 576, INTEGRATIVE CAPSTONE II, 3 Credits
Second course in a two-course sequence spanning the final two quarters of the OLMBA program. Students start from the final proposal in MGMT 575 and formulate an integrative project plan through the application of multidisciplinary knowledge.
Prerequisite: MGMT 575 with B or better
Available via Ecampus

MGMT 650, ORGANIZATIONAL BEHAVIOR, 3 Credits
Surveys research on individual differences, psychological states, and team processes related to work motivation, decision-making and performance.

Manufacturing Engineering (MFGE)

MFGE 241, INTRODUCTION TO MECHATRONICS, 3 Credits
Explores the fundamentals of mechatronics: electronic circuits, tools, and basic sensors/actuators commonly used in the manufacturing process monitoring. Examines the operation and use of these instruments and tools for mechatronics design and prototyping. Examines the fundamentals of five types of sensors: distance, movement, proximity, stress/strain, and temperature, with a focus on the mathematical modeling of the sensors when they are embedded in a mechanical system. Apply basic programming in LabVIEW software to support the operation of data sampling through a data acquisition card. Integrate mechanical design with electronics controlled by a computer in an open loop fashion in the lab.
Prerequisite: ENGR 202 with C or better

MFGE 285, INTRODUCTION TO INDUSTRIAL AND MANUFACTURING ENGINEERING, 3 Credits
Introduction to selected topics in industrial and manufacturing engineering, including history and philosophy, product design and manufacturing cycle, integrate role of engineering and business, and multi-objective nature of organizations. Surveys of selected design problems in resource allocation, operations and quality management, and production engineering. CROSSLISTED as IE 285/MFGE 285.
Prerequisite: IE 112 (may be taken concurrently) with C or better or FOR 112 (may be taken concurrently) with C or better
Equivalent to: IE 285

MFGE 336, PRODUCTION ENGINEERING, 4 Credits
Provides a general understanding of the production engineering function within industry and the means by which to achieve tight tolerances through machining. Geometric dimensioning and tolerancing, fixture and gage design, and fundamentals of metal cutting mechanics are introduced, and their interactions are explored. Lec/lab.
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and ENGR 248 [C] and (ENGR 321 [C] or ENGR 321H [C] or MATS 321 [C] or MATS 321H [C]) and ME 250 [C]
Equivalent to: IE 336

MFGE 337, MATERIALS AND MANUFACTURING PROCESSES, 4 Credits
Introduces mechanical manufacturing methods by which materials are economically shaped into valuable products. The overall goal is to develop an understanding of how the functionality, shape, materials, cost and sustainability of a product influence manufacturing process selection and design. Lec/lab.
Prerequisite: (ENGR 321 with C or better or ENGR 321H with C or better or MATS 321 with C or better or MATS 321H with C or better) and ME 250 [C] and MFGE 336 [C]
Equivalent to: IE 337

MFGE 341, LOGICAL CONTROL FOR MECHATRONICS SYSTEMS, 4 Credits
Explore embedded software and hardware infrastructures used in mechatronics systems. Examine binary number and Boolean algebra using AND, OR, and XOR operators in microcontroller-controlled systems, and flip-flops and other basic components that realize binary control functions. Explore the working principles of AVR microcontroller systems, including the internal structure of clock timers, memory space, and IO addresses. Implement basic microcontroller operations using Assembly language. Demonstrate functions such as open loop control and wired/wireless communication in labs by programming a commercial microcontroller platform with assembly language.
Prerequisite: MFGE 241 with C or better

MFGE 413, COMPUTER AIDED DESIGN AND MANUFACTURING, 4 Credits
Introduces students to the application of computer aided engineering tools across the extended product design and manufacturing cycle. Students become familiar with new product development and working in a sustaining engineering environment with an emphasis on using computer-aided design (CAD) and computer-aided manufacturing (CAM) tools to gain competitive advantage.
Prerequisite: ENGR 248 with C or better and (IE 366 [C] or ME 382 [C] or ME 382H [C])
Equivalent to: ME 413

MFGE 436, LEAN MANUFACTURING SYSTEMS ENGINEERING, 4 Credits
The planning, evaluation, deployment, and integration of lean manufacturing theory and methods. Examines manufacturing processes/ equipment and systems, e.g., planning/control, product design, supply chain resource management. Lec/lab.
Prerequisite: ENGR 390 with C or better or ENGR 391 with C or better
Equivalent to: IE 436
MFGE 437, COMPUTER CONTROL OF MANUFACTURING PROCESSES, 4 Credits
Introduces fundamental knowledge in the automation of manufacturing systems and processes. Autimated manufacturing system design and operations—computer numerical control (CNC) technology; NC part programming; sensors and actuators, their modeling and dynamic simulation; feedback motion delivery systems design and tuning; programmable logic controls (PLC) for industrial control systems, and path planning for numerical controlled (NC) machinery. Lec/lab.
Prerequisite: (ME 317 with C or better or ME 317H with C or better or MFGE 336 with C or better) and (ENGR 212 [C] or ENGR 212H [C])
Equivalent to: IE 437

MFGE 438, COMPOSITES MANUFACTURING, 4 Credits
Introduction to fiber-reinforced composite materials and their applications. Topics include matrices and reinforcement; open and closed molding processes; filament winding, quality, testing, damage assessment; basics of factory operations and sustainability of composites. Students will complete laboratory projects using fiber-reinforced laminates. Lec/lab.
Prerequisite: ENGR 213 with C or better or ENGR 213H with C or better

MFGE 441, DIGITAL CONTROL OF MECHATRONICS SYSTEMS, 4 Credits
Explores modeling and control of mechatronics systems. Review Laplace and Fourier transforms and then examine Industrial Proportional (P), Derivative (D), Integral (I)-based, PD, PI, PID, lead-lag and pole placement feedback control strategies, and their design principles based on time and frequency domain performance metrics. Explores the frequency domain loop-shaping control design approach, and reference command generation and feedforward control for motion control. Examines digital control and real-time implementation of feedback control laws on real-time microprocessor systems. Implement and test feedback control algorithms on a servo motor setup in the labs.
Prerequisite: ENGR 212 with C or better and MFGE 341 [C]

MFGE 442, ADVANCED SIGNAL PROCESSING FOR MECHATRONICS SYSTEMS, 4 Credits
Examine continuous and discrete Fourier Transforms, and Fast Fourier Transform algorithm concepts. Explore the design of low, high and band-pass filtering based on Finite (FIR) and Infinite (IIR) Impulse Response filters, and 1D and 2D image signal processing basics. Apply Artificial Neural Network (ANN) Basics for pattern recognition, regression and classification. Implement digital filtering on micro-processor systems, and apply ANN for image processing in the labs.
Prerequisite: MFGE 441 with C or better

MFGE 499, SPECIAL TOPICS, 0-5 Credits
This course is repeatable for 99 credits.

MFGE 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

MFGE 511, PRECISION MACHINE DESIGN, 3 Credits
Tolerance analysis and application in design/manufacturing practice, principles of machine design and computational analysis of errors in machine design, sensor mounting and sensor calibration, machine level error budget with geometric and thermal errors, structural design of joints and supports, deterministic design for flexures and couplings, bearing systems design, motion and power system design for machine tools. CROSSLISTED as ME 511/MFGE 511.
Equivalent to: ME 511
Recommended: An understanding of mechanical component design and solid mechanics.

MFGE 531, MICROMANUFACTURING, 4 Credits
Introduction to microsystem platforms, scaling laws and size effects in micromanufacturing techniques with an emphasis on microchannel arrays, microchannel lamination and micro-scale characterization. Lec/lab.
Equivalent to: IE 531

MFGE 535, INDUSTRIAL SUSTAINABILITY ANALYSIS, 3 Credits
Students are exposed to the role of business and engineering in the design and implementation of sustainable industrial systems. Drivers, metrics, and analysis concepts, methods, and tools are introduced. Students incorporate business and engineering considerations in making product, manufacturing process, and supply chain design considerations.

MFGE 536, LEAN MANUFACTURING SYSTEMS ENGINEERING, 4 Credits
The planning, evaluation, deployment, and integration of lean manufacturing theory and methods. Examines manufacturing processes/equipment and systems, e.g., planning/control, product design, supply chain resource management. Lec/lab.
Equivalent to: IE 536
Available via Ecampus

MFGE 538, COMPOSITES MANUFACTURING, 4 Credits
Introduction to fiber-reinforced composite materials and their applications. Topics include matrices and reinforcement; open and closed molding processes; filament winding, quality, testing, damage assessment; basics of factory operations and sustainability of composites. Students will complete laboratory projects using fiber-reinforced laminates. Lec/lab.
Recommended: (ENGR 213 or ENGR 213H)

MFGE 551, ADDITIVE MANUFACTURING, 3 Credits
Introduces basic principles and process physics for additive manufacturing as compared with subtractive manufacturing. Various processes in AM (extrusion, jetting, photopolymerization, powder bed fusion, direct energy deposition and sheet lamination) and laser AM are discussed. Materials selection in AM (metals, polymers, ceramics and composites), powder metallurgy and metallurgical phenomena in additive manufacturing will be covered.
MFGE 599, SPECIAL TOPICS, 0-5 Credits  
This course is repeatable for 99 credits.

Marine Resource Management (MRM)

MRM 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits  
Graded P/N.  
This course is repeatable for 24 credits.

MRM 503, THESIS, 1-16 Credits  
This course is repeatable for 99 credits.

MRM 505, READING AND CONFERENCE, 1-16 Credits  
This course is repeatable for 24 credits.

MRM 506, PROJECTS, 1-16 Credits  
This course is repeatable for 72 credits.

MRM 507, SEMINAR, 1-16 Credits  
This course is repeatable for 48 credits.

MRM 508, WORKSHOP, 1-16 Credits  
This course is repeatable for 24 credits.

MRM 510, INTERNSHIP, 1-9 Credits  
Planned and supervised resource management experience with selected cooperating governmental agencies, private organizations, or business firms. Supplementary conferences, reports and evaluations. Graded P/N.  
This course is repeatable for 24 credits.

MRM 525, SPECIAL TOPICS IN MARINE RESOURCE MANAGEMENT, 1-4 Credits  
Subjects of current interest in marine resource management not covered in depth in other courses. May be repeated for credit when topic varies.  
This course is repeatable for 24 credits.

MRM 530, PRINCIPLES AND PRACTICE OF MARINE RESOURCE MANAGEMENT, 3 Credits  
Introduces learners to the core concepts/skills required for guiding the management of the interactions between human and natural marine systems. Particular attention is given to the concept and framework of Ecosystem-Based Management, the goal of which is to conserve, maintain and restore ecosystem functions to promote the economic and ecological sustainability of marine ecosystems and human communities that depend on the services they provide. Tomorrow’s marine resource managers must be capable of identifying, requesting, analyzing, synthesizing, and combining natural and social science with experiential knowledge and human/social capital to generate meaningful policy and management recommendations and strategies.

MRM 534, OCEANS IN CRISIS, 3 Credits  
Explores the state of the world’s oceans and coasts, whether or not they are indeed in crisis, and what, if any management responses can be reasonably expected to halt and restore our oceans.

MRM 535, RIGHTS-BASED FISHERIES MANAGEMENT, 3 Credits  
Clear, appropriate and enforceable fishing entitlements and responsibilities are a cornerstone of sustainable fisheries management. Rights-based management tools such as dedicated access privileges, community quotas, co-management and cost recovery will be explored as ways of promoting individual and collective responsibility for sustainable fisheries management. High seas fisheries will also be addressed.

MRM 552, MARINE ECONOMICS, 3 Credits  
Economic aspects of marine resource utilization and management will be analyzed. Topics include open access aspect of marine resources; conflict and allocation of marine resources, marine resource markets, marine recreation, pollution, and aquaculture, with special emphasis on commercial fisheries. CROSSTOITED as AEC 552/MRM 552.  
Equivalent to: AEC 552, AREC 552  
Recommended: AEC 351 or AEC 352 or AREC 351 or AREC 352

Marine Studies (MAST)

MAST 201, HUMANS AND THE OCEAN, 3 Credits  
An introduction to marine systems and the history of humans’ interaction with the ocean from a unique literary perspective. Lectures, group and individual library research, fieldtrips, and assignments will collate approaches from a range of disciplines including marine science, history, literary study, and other arts and humanistic disciplines. Through fiction and non-fiction literary perspectives designed to enhance critical reading skills, learn about historic and contemporary ocean and coastal issues, such as sustainable fisheries, pollution, and climate change, with perspectives from faculty in the humanities, arts, and sciences.

MAST 300, SOCIETY, CULTURE, AND THE MARINE ENVIRONMENT, 4 Credits  
Explore the dynamic relationship between people and the marine environment, as it relates to different ways of studying change. Emphasis is on liberal arts approaches from the social sciences, arts, and humanities. Applies theoretical foundations and associated methodological approaches from these liberal arts disciplines to understand and study issues of the coasts and ocean.

MAST 410, MARINE STUDIES INTERNSHIP, 4-8 Credits  
Prerequisite: MAST 300 with C- or better  
This course is repeatable for 8 credits.
Marketing (MRKT)

MRKT 323, ADVANCED APPLICATION OF MARKETING PRINCIPLES, 4 Credits
Develop an understanding of how a market-orientation can help firms to profitably deliver value to targeted customers. Through a combination of case discussions, preparation of a client project, lectures and in-class activities, analyze complex marketing challenges; make strategic decisions for products, services, and brands, based on marketing principles; and persuasively communicate decisions.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better
Equivalent to: MRKT 390

MRKT 390, BUILDING AND MANAGING PRODUCTS, SERVICES, AND BRANDS, 4 Credits
Covers concepts and principles used by marketing professionals. Designed explicitly for Marketing majors, it is an introduction to the relationships between customers, products, and companies in a competitive and dynamically evolving marketplace.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better

MRKT 396, FUNDAMENTALS OF MARKETING RESEARCH, 4 Credits
Introduction to the fundamentals of market research. Provides a basic understanding of marketing research and relevant decisions in the process.

Prerequisite: (BA 275 with C- or better or BA 275H with C- or better or BA 276 with C- or better or ST 202 with C- or better) and (BA 223 [C] or BA 223H [C] or BA 390 [C] or BA 390H [C])
Equivalent to: BA 396
Available via Ecampus

MRKT 477, INTEGRATED MARKETING ANALYTICS PROJECT, 4 Credits
Students will integrate what they have learned to solve industry-sponsored problems. The goal of the class is to provide students with opportunities to design, implement, and evaluate analytic solutions for a real-world enterprise. Student teams will examine the data requirements, technical requirements, and organizational requirements necessary for the success of analytical solutions. The specific goal of the class is to provide students real-world case studies that examine the role of analytics in an organization. Special emphasis will be given to the implementation and leadership of the analytical function in an enterprise.

Prerequisite: BA 474 with C- or better and BA 475 [C-]

MRKT 484, DIGITAL MARKETING PLATFORMS, 4 Credits
Examines the major digital channels and platforms for digital marketing, theories and techniques of digital marketing, implementation considerations, and associated risks and limitations.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Available via Ecampus

MRKT 485, SEARCH MARKETING, 4 Credits
Examines the fundamentals of Search Engine Optimization (SEO) and Search Engine Marketing (SEM) and how they can be integrated into an overall marketing strategy to maximize brand visibility and performance.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Available via Ecampus

MRKT 486, CUSTOMER RELATIONSHIP MANAGEMENT, 4 Credits
An integration of people, process and technology. Students will learn how individuals and companies can gain the return on investment that they expect through technology implementation, service and business process mapping, employee training, customer relationship, customer life time value, technology solutions that track customer data and employee performance.

Prerequisite: BA 396 with C- or better or MRKT 396 with C- or better
Equivalent to: BA 486
Available via Ecampus

MRKT 488, PROFESSIONAL SALES, 4 Credits
Emphasizes coverage and utilization of principles and theory of personal selling to address sales opportunities in a variety of contexts. Focuses on the use of sales skills by professional salespeople.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Equivalent to: BA 491

MRKT 489, PERSONAL SELLING SKILLS AND TECHNIQUES, 4 Credits
Learn and develop the skills necessary for persuasive encounters in personal selling settings, such as making sales calls, preparing and delivering presentations, writing documents (sales proposals, cover letters, and resumes) and structuring logical, persuasive, prioritized arguments.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Equivalent to: BA 489
Available via Ecampus

MRKT 491, QUALITATIVE RESEARCH METHODS, 4 Credits
Students will gain an overall understanding of qualitative research and methods such as focus groups, in-depth interviews, and observational research. Explores qualitative research methods through hands-on learning and experiences.

Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Available via Ecampus
MRKT 492, CONSUMER BEHAVIOR, 4 Credits
Understanding the processes that lead to purchase, so as to improve decisions on segmentation and the appropriate marketing mix for each segment. How consumers and households make decisions, and why different individuals/groups make different decisions. Application of behavioral science concepts at individual, subcultural and cultural levels. Effects of consumerism and regulation also are considered.
Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Equivalent to: BA 492
Available via Ecampus

MRKT 493, INTEGRATED MARKETING COMMUNICATIONS, 4 Credits
Analysis of the influence of marketing communications on the attitudes and behaviors of consumer and industrial buyers. Identification and examination of the major decisions made by marketing/advertising managers in implementing the promotional mix.
Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Equivalent to: BA 493
Available via Ecampus

MRKT 495, RETAIL MANAGEMENT, 4 Credits
Management of retail business with emphasis on strategic planning, analysis, and control, focused on middle- and upper-middle management decisions.
Prerequisite: BA 390 with C- or better or BA 390H with C- or better or BA 223 with C- or better or BA 223H with C- or better
Equivalent to: BA 495
Available via Ecampus

MRKT 496, MARKETING RESEARCH PRACTICUM, 4 Credits
Provides the student with practical experience in the collection, analysis and interpretation of primary data.
Prerequisite: MRKT 396 with C or better or BA 396 with C or better
Equivalent to: BA 496
Available via Ecampus

MRKT 497, GLOBAL MARKETING, 4 Credits
Consideration of cultural, political, regulatory, economic and trade barriers in the design of marketing plans for product development, pricing, channels of distribution; and promotion alternatives in a global market.
Prerequisite: (BA 347 with C- or better or BA 347H with C- or better) and (BA 390 [C-] or BA 390H [C-] or BA 223 [C-] or BA 223H [C-])
Equivalent to: BA 497

MRKT 498, SERVICES MARKETING, 4 Credits
Formulation of strategic and tactical marketing plans for organizations (both profit and not-for-profit) in the service sector of the economy. Projects or cases are used to provide a comprehensive experience.
Prerequisite: BA 223 with C or better or BA 223H with C or better or BA 390 with C or better or BA 390H with C or better or MRKT 390 with C or better
Equivalent to: BA 498
Available via Ecampus

MRKT 499, MARKETING STRATEGY, 4 Credits
Market and competitive analysis for developing overall strategies and tactics to achieve the marketing objectives of the business enterprise. Projects or cases are used to provide a comprehensive experience.
Prerequisite: MRKT 396 with C or better or BA 396 with C or better
Equivalent to: BA 499

MRKT 581, APPLIED QUANTITATIVE MARKETING ANALYSIS, 4 Credits
Includes a comprehensive presentation of quantitative methods used in marketing management. It is designed to prepare students to use quantitative techniques in making marketing decisions. Topics include ANOVA, regression, discriminant and logit analysis, factor analysis, cluster analysis, and structural equation modeling.
Prerequisite: BA 596 with C or better or MRKT 596 with C or better

MRKT 582, APPLIED QUALITATIVE MARKETING ANALYSIS, 3 Credits
Explores the uses and application of qualitative research methods to inform and improve marketing decision-making. Students will be introduced to such methods as focus group interviews, individual in-depth interviews, observational research methods, participant observation, and ethnographic immersion. Students will learn appropriate analytic strategies and reporting methodologies.
Prerequisite: BA 596 with C or better or MRKT 596 with C or better

MRKT 584, DIGITAL MARKETING PLATFORMS, 4 Credits
Examines the major digital channels and platforms for digital marketing, theories and techniques of digital marketing, implementation considerations, and associated risks and limitations.
Prerequisite: BA 516 with B- or better
Available via Ecampus

MRKT 585, SEARCH MARKETING, 4 Credits
Examines the fundamentals of Search Engine Optimization (SEO) and Search Engine Marketing (SEM) and how they can be integrated into an overall marketing strategy to maximize brand visibility and performance.
Prerequisite: BA 516 with B- or better
Available via Ecampus
MRKT 586, CUSTOMER RELATIONSHIP MANAGEMENT, 4 Credits
An integration of people, process and technology. Students will learn how individuals and companies can gain the return on investment that they expect through technology implementation, service and business process mapping, employee training, customer relationship, customer lifetime value, technology solutions that track customer data and employee performance.
Prerequisite: BA 516 with B- or better
Recommended: MRKT 396 with a minimum grade of C-
Available via Ecampus

MRKT 587, DESIGNING CUSTOMER EXPERIENCES, 3 Credits
Allows students to explore the process of designing customer experiences in ways that allow firms to successfully deliver value in a complex, dynamic competitive environment. Building on knowledge developed through collaboration, generation of customer insights, and mapping exercises, students will work in teams to design a customer experience for an industry client. Lec/studio.
Prerequisite: BA 590 with B- or better and MRKT 592 [B-]

MRKT 588, PROFESSIONAL SALES, 4 Credits
Emphasizes coverage and utilization of principles and theory of personal selling to address sales opportunities in a variety of contexts. Focuses on the use of sales skills by professional salespeople.

MRKT 589, PERSONAL SELLING SKILLS DEVELOPMENT, 4 Credits
Learn and develop the skills necessary for persuasive encounters in personal selling settings, such as making sales calls, preparing and delivering presentations, writing documents (sales proposals, cover letters, and resumes) and structuring logical, persuasive, prioritized arguments.
Recommended: BA 491 or MRKT 488 with a minimum grade of C-
Available via Ecampus

MRKT 592, CONSUMER BEHAVIOR, 3 Credits
Understanding the processes that lead to purchase, so as to improve decisions on segmentation and the appropriate marketing mix for each segment. How consumers and households make decisions, and why different individuals/groups make different decisions. Application of behavioral science concepts at individual, subcultural and cultural levels. Effects of consumerism and regulation also are considered.
Prerequisite: BA 516 with B- or better
Equivalent to: BA 592
Available via Ecampus

MRKT 593, INTEGRATED MARKETING COMMUNICATIONS, 3 Credits
Analysis of the influence of marketing communications on the attitudes and behaviors of consumer and industrial buyers. Identification and examination of the major decisions made by marketing/advertising managers in implementing the promotional mix.
Prerequisite: BA 516 with B- or better
Equivalent to: BA 593
Available via Ecampus

MRKT 595, RETAIL MANAGEMENT, 4 Credits
Management of retail business with emphasis on strategic planning, analysis, and control, focused on middle- and upper-management decisions.
Equivalent to: BA 595
Recommended: (BA 390 or BA 390H or BA 590) with a minimum grade of C-
Available via Ecampus

MRKT 596, MARKETING RESEARCH DESIGN AND METHODS, 3 Credits
Focuses on articulating research problems, creating appropriate research design to address information needs (i.e., understanding markets, competitors, and customers), ethics (to include IRB training), and the application of diverse data collection methods, including secondary, qualitative, and quantitative methods. Measurement, sampling, and data preparation will also be addressed.
Equivalent to: BA 596
Recommended: BA 390

MRKT 597, GLOBAL MARKETING, 4 Credits
Consideration of cultural, political, regulatory, economic and trade barriers in the design of marketing plans for product development, pricing, channels of distribution; and promotion alternatives in a global market.
Equivalent to: BA 597
Recommended: BA 347 and (BA 390 or BA 390H or BA 590) with a minimum grade of C-

MRKT 599, SELECTED TOPICS IN MARKETING, 1-4 Credits
Concepts and methods in advanced marketing management practice. Latest theoretical developments and quantitative methods in marketing, with particular relevance to managerial applications. Topics will vary from term to term.
Equivalent to: BA 599
This course is repeatable for 16 credits.

MRKT 690, MARKETING AND COMMERCIALIZATION, 3 Credits
Surveys marketing research related to innovation. Specific topics may change from quarter to quarter, but sample topics include research on marketing strategy, consumer behavior, brand equity, brand management, and product management, each from the perspective of the consumer and the firm.
**Master of Natural Resources (MNR)**

**MNR 500, MARKET TOOLS FOR MANAGING GREENHOUSE GAS EMISSIONS, 3 Credits**

Examines the use of market-based approaches to managing greenhouse gas emissions; the role of forestry and natural resource management in mitigating greenhouse gas emissions; and the design of carbon and offset markets in the context of broader climate change policies. CROSSTLISTED as FES 500/MNR 500.

**Equivalent to:** FES 500

**Recommended:** MTH 111

*Available via Ecampus*

**MNR 511, INTRODUCTION TO SUSTAINABLE NATURAL RESOURCES, 3 Credits**

Overview of economic, environmental, social, cultural, ethical, and policy considerations of sustainable natural resource management. International collaborative efforts to address global natural resource issues. Key policy drivers, key stressors, balancing competing interests. Introductory course required for all Master of Natural Resources students; open to other graduate students. Taught via Ecampus only.

**Recommended:** Undergraduate biology or ecology course

*Available via Ecampus*

**MNR 519, DIVERSITY, EQUITY AND INCLUSION IN NATURAL RESOURCE MGMT, 3 Credits**

Explores practical approaches to operationalizing diversity, equity and inclusion (DEI) principles in natural resource management organizational settings, programs and outdoor settings. Examines case studies on topics such as accessibility to recreational places, implicit bias and cultural competency in public communications, and how enhancing workplace diversity increases social capital. Introduces DEI analysis through a research project in their local area.

*Available via Ecampus*

**MNR 522, RESEARCH METHODS SOCIAL SCIENCE, 4 Credits**

An introduction to research methods applied to social science issues and problems. Emphasis is on the nature of the research process, how to conduct research, and how to interpret and disseminate research results. Lec/lab.

**Equivalent to:** FES 522

**Recommended:** Upper-division or graduate level statistics

*Available via Ecampus*

**MNR 530, TROPICAL FOREST ECOLOGY AND MANAGEMENT: A GLOBAL PERSPECTIVE, 3 Credits**

Study of tropical forest ecology and the common ecological patterns found within tropical forests. The threats and challenges that tropical forests face in the 21st century and the issues of human use and their impacts. Developing strategies for sustainable management and restoration approaches to alleviate pressure on remaining tropical forests. Taught via Ecampus only.

**MNR 538, ADAPTING FORESTS TO CLIMATE CHANGE, 3 Credits**

Climate change is expected to have profound effects on forests. Society can respond by managing in forests in ways that can help mitigate climate change or help forests adapt. Nonetheless, changes in climate and forest responses are uncertain, making management and policy decisions difficult and controversial. We will investigate the effects of climate change on forests, focusing on potential forest management and policy responses.

*Available via Ecampus*

**MNR 550, CLIMATE CHANGE IMPACTS ON FOREST ECOSYSTEMS, 3 Credits**

Forest management responses to climate change rely on understanding the mechanisms of interaction between forests and climate, as well as the capacity to evaluate impacts of future climate scenarios on forests. Considers effects of rising CO2 and changing climate at the level of ecophysiological processes, changes in species distribution, changes in disturbance regimes, and ecosystem-level impacts mediated by the water, carbon, and nitrogen cycles. Modeling approaches include statistically-based bioclimatic envelopes, and dynamic global vegetation models that treat ecosystem processes and changes in biome distribution.

**Recommended:** Basic ecology course

*Available via Ecampus*

**MNR 560, DEVELOPING THE MNR CAPSTONE PROPOSAL, 3 Credits**

Applies content from across the MNR degree in developing a capstone project. Explores the types of capstone projects and methodologies. Identifies and evaluates the data needed to address natural resource problems or topics. Develops outlines for students’ individualized MNR capstone projects.

**Prerequisite:** MNR 511 with C or better

*Available via Ecampus*

**MNR 561, MNR CAPSTONE PROJECT, 1-6 Credits**

Students work with their major advisor on the completion of their capstone project at the end of the MNR degree program. Students incorporate knowledge gained from coursework to address a natural resource problem within interconnected ecological, economic and social contexts.

**Prerequisite:** MNR 560 with C or better or SNR 506 with P or better

*This course is repeatable for 12 credits.*

*Available via Ecampus*

**Master of Public Policy (MPP)**

**MPP 507, SEMINAR, 1-16 Credits**

Selected issues concerning government, public policy, public affairs or non-profit organizations.

*This course is repeatable for 16 credits.*

**MPP 510, INTERNSHIP, 1-16 Credits**

Supervised work experience in government, public policy, public affairs or non-profit organizations. Reports and appraisals required. Graded P/N.

*This course is repeatable for 16 credits.*
MPP 808, WORKSHOP, 1-16 Credits
This course is repeatable for 32 credits.

Materials Science (MATS)

MATS 221, THE SCIENCE, ENGINEERING AND SOCIAL IMPACT OF NANOTECHNOLOGY, 3 Credits
Nanotechnology is an emerging engineering field that manipulates atoms and molecules to fabricate new materials and tiny devices. Properties of nanostructured materials, manufacturing methods, characterization methods, and impact on health and safety. Benefits and concerns about nanotechnology will be assessed. Lec/rec. CROSSLISTED as ENG 221/ MATS 221.
Equivalent to: ENGR 221
Recommended: One year of college science.

MATS 321, INTRODUCTION TO MATERIALS SCIENCE, 4 Credits
Crystal structure, microstructure, and physical properties of metals, ceramics, polymers, composites, and amorphous materials. Also includes elementary mechanical behavior and phase equilibria.
Prerequisite: CH 202 with C or better or CH 222 with C or better or CH 232 with C or better or CH 232H with C or better or CH 224H with C or better
Equivalent to: ENGR 321, ENGR 321H, MATS 321H
Available via Ecampus

MATS 321H, INTRODUCTION TO MATERIALS SCIENCE, 4 Credits
Crystal structure, microstructure, and physical properties of metals, ceramics, polymers, composites, and amorphous materials. Also includes elementary mechanical behavior and phase equilibria.
Attributes: HNRS – Honors Course Designator
Prerequisite: CH 202 with C or better or CH 222 with C or better or CH 232 with C or better or CH 232H with C or better or CH 224H with C or better
Equivalent to: ENGR 321, ENGR 321H, MATS 321

MATS 322, MECHANICAL PROPERTIES OF MATERIALS, 3 Credits
Mechanical behavior of materials, relating laboratory test results to material structure, and elements of mechanical analysis.
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and (ENGR 321 [C] or ENGR 321H [C] or MATS 321 [C])
Equivalent to: ENGR 322

MATS 413, THERMODYNAMICS AND PHASE EQUILIBRIA OF MATERIALS, 4 Credits
Explores the statistical interpretation of entropy, heat capacity, enthalpy of condensed phases, solution thermodynamics, liquid-solid and solid-solid phase equilibria. Considers the principles of thermodynamics governing phase stability with a focus on liquid-solid and solid-solid equilibria, and phase stability in two-component systems. Examines the relationship of Gibbs free energy to phase stability.
Prerequisite: MATS 321 with C or better and (ME 311 [C] or NSE 311 [C] or CHE 311 [C])

MATS 441, PHYSICAL METALLURGY, 3 Credits
Introduction to properties of metals and alloys including solidification, diffusion, solid solutions, intermediate phases, annealing, heat treatment and phase transformation with a focus on ferrous and non-ferrous metal systems. Identifies relationships between material composition, structure, and properties resulting from synthesis, processing or service. Explores the knowledge of ferrous and non-ferrous alloy systems and their significant metallurgical properties and applications.
Prerequisite: MATS 321 with C or better

MATS 445, WELDING METALLURGY, 4 Credits
Theory-based course focused on the metallurgy of welds. Topics covered include welding/joining processes, heat input, diffusion, solidification, phase transformation, materials compatibility and welding defects. This is NOT a practical welding class.
Prerequisite: (MATS 321 with C or better or ENGR 321 with C or better or ENGR 321H with C or better) or MATS 570 with C or better

MATS 455, EXPERIMENTAL TECHNIQUES IN MATERIAL SCIENCE, 4 Credits
Materials processing, characterization, computational and data analysis techniques in materials science. Focus on processing-structure-property relationships. Lec/lab.
Prerequisite: (ENGR 321 with C or better or ENGR 321H with C or better)
Equivalent to: ME 455
This course is repeatable for 8 credits.
Recommended: ME 570

MATS 478, THIN FILM MATERIALS CHARACTERIZATION AND PROPERTIES, 4 Credits
Processing of thin films and characterization of the microstructure; diffusion and solid state reactions; mechanical, magnetic and electronic properties of thin films.
Prerequisite: (ME 311 with C or better or ME 311H with C or better) and (ENGR 321 [C] or ENGR 321H [C] or MATS 321 [C]) and (ENGR 322 [C] or MATS 322 [C])
Equivalent to: ME 478

MATS 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MATS 545, WELDING METALLURGY, 4 Credits
Theory-based course focused on the metallurgy of welds. Topics covered include welding/joining processes, heat input, diffusion, solidification, phase transformation, materials compatibility and welding defects. This is NOT a practical welding class.
Recommended: (MATS 321 or ENGR 321 or ENGR 321H) or MATS 570
MATS 555, EXPERIMENTAL TECHNIQUES IN MATERIAL SCIENCE, 4 Credits
Materials processing, characterization, computational and data analysis techniques in materials science. Focus on processing-structure-property relationships. Lec/lab.
Prerequisite: ME 570 with C or better
Equivalent to: ME 555
This course is repeatable for 8 credits.
Recommended: ENGR 321 or ENGR 321H

MATS 570, STRUCTURE-PROPERTY RELATIONS IN MATERIALS, 4 Credits
Equivalent to: ME 570

MATS 571, ELECTRONIC PROPERTIES OF MATERIALS, 4 Credits
Equivalent to: ME 571
Recommended: CH 545 or ME 570

MATS 578, THIN FILM MATERIALS CHARACTERIZATION AND PROPERTIES, 4 Credits
Processing of thin films and characterization of the microstructure; diffusion and solid state reactions; mechanical, magnetic and electronic properties of thin films.
Equivalent to: ME 578

MATS 581, THERMODYNAMICS OF SOLIDS, 4 Credits
Equivalent to: ME 581

MATS 582, RATE PROCESSES IN MATERIALS, 3 Credits
Diffusion in solids, including vacancy and interstitial and short-circuit diffusion. Phase transformations including classic nucleation and growth theory. Applications to materials development.
Prerequisite: MATS 581 with C or better or ME 581 with C or better
Equivalent to: ME 582

MATS 584, ADVANCED FRACTURE OF MATERIALS, 4 Credits
Fracture mechanics will be used as a basis for predicting failure of materials, understanding failure mechanisms, and identifying causes of failure. Course will include discussion of recent journal articles, experimental demonstrations, and analysis of real fracture data.
Equivalent to: ME 584
Recommended: ENGR 322

MATS 587, DISLOCATIONS, DEFORMATION, AND CREEP, 4 Credits
The effects of point, line, and planar defects on plastic deformation and creep behavior in solids will be discussed with emphasis on the role of dislocations and vacancies.
Equivalent to: ME 587
Recommended: ENGR 322

MATS 588, COMPUTATIONAL METHODS IN MATERIALS SCIENCE, 4 Credits
A broad introduction to important materials science simulation methods. These include molecular dynamics, density functional theory, and Monte Carlo methods. Learning is through a mixture of lecture and hands-on lab projects in which students use computational methods to explore and reinforce fundamental concepts in materials science. Lec/lab.
Equivalent to: ME 588
Recommended: Experience with Matlab or Mathematica or an equivalent numerical and programming environment.

MATS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MATS 659, PRINCIPLES OF TRANSMISSION ELECTRON MICROSCOPY, 4 Credits
This lecture-only course covers basic principles of transmission electron microscopy (TEM) including instrument components, electron optics, electron diffraction, and the origins and interpretation of image contrast. Spectroscopic techniques are covered, but diffraction and imaging techniques are emphasized. Coverage of experimental techniques will focus on those useful for addressing problems in materials science.
Equivalent to: MATS 570 and (CH 616 or MATS 555)

MATS 671, ELECTRONIC PROPERTIES OF OXIDES, 3 Credits
Band theory of solids applied to metal oxide materials. Includes metallic oxides, non-stoichiometric semiconductors and associated defect chemistry, high temperature superconductors, electrostatics, linear dielectrics, non-linear dielectrics, piezoelectrics, and the optical properties of oxides.
Equivalent to: ME 671
Recommended: MATS 571 or PH 575
Mathematics (MTH)

MTH 065, ELEMENTARY ALGEBRA, 3 Credits
Arithmetic of signed numbers, order of operations, simplifying algebraic expressions, solutions of linear equations, and inequalities. Rules of exponents, addition, subtraction, and multiplication of polynomials, factoring, solution of quadratic equations by factoring, reducing rational expressions. Word problems involving linear equations, graphing of linear equations, inequalities. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: Math Placement Test with a score of 05 or Math Placement - ALEKS with a score of 015
Available via Ecampus

MTH 095, INTERMEDIATE ALGEBRA, 3 Credits
Addition, subtraction, multiplication, and division of rational expressions, long division of polynomials, solutions of fractional equations, applications involving linear equations. Fractional equations, inequalities, literal equations, and variations. Negative and fractional exponents, radicals, solutions of quadratic equations, and complex numbers. Cartesian coordinates, graphs of linear equations and inequalities, distance formula, slope, equations of lines, solutions of systems of linear equations in two unknowns and inequalities. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 065 with C- or better or Math Placement Test with a score of 11 or Math Placement - ALEKS with a score of 030
Available via Ecampus

MTH 102, ALGEBRAIC FOUNDATIONS, 3 Credits
This course is designed primarily for EOP students. They will use various computing technologies to explore realistic and interesting situations in which algebra is used. As they work through explorations, they will work with many of the fundamental ideas of algebra, ideas they will find important in their daily lives.

MTH 103, ALGEBRAIC REASONING, 4 Credits
Graphing data, functions, rate of change, linear equations, systems of linear equations, linear inequalities, linear functions, absolute value functions, quadratic functions, exponential functions. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 065 with C- or better or Math Placement Test with a score of 11 or Math Placement - ALEKS with a score of 030
Available via Ecampus

MTH 105, *INTRODUCTION TO CONTEMPORARY MATHEMATICS, 3 Credits
Elementary linear programming, combinatorics, descriptive statistics, elementary probability, exponential growth and decay, examples of major mathematical ideas and models. Lec/rec. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Recommended: MTH 095 or MTH 103 or (MPT=Math Placement Test score of 17; MPAL=Math Placement Test-ALEKS score of 46%)
Available via Ecampus

MTH 111, *COLLEGE ALGEBRA, 4 Credits
Polynomial equations and inequalities, polynomial functions and graphs, inverse functions, exponential and logarithmic functions, elementary mathematical modeling and applications. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with a C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 095 with C- or better or MTH 103 with C- or better or Math Placement Test with a score of 17 or Math Placement - ALEKS with a score of 046
Available via Ecampus

MTH 112, *ELEMENTARY FUNCTIONS, 4 Credits
Triangle trigonometry, circular functions and graphs, trigonometric equations and identities, inverse trigonometric functions, polar coordinates, vectors and applications. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 111 with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 060
Equivalent to: MTH 150X
Available via Ecampus

MTH 199, SPECIAL TOPICS, 1-16 Credits
Maximum 3 credits per term, 9 credits total. Does not meet university group requirement in physical science.
This course is repeatable for 9 credits.

MTH 211, *FOUNDATIONS OF ELEMENTARY MATHEMATICS, 4 Credits
Introduction to problem solving, sets, whole numbers, number theory, fractions. Intended primarily for prospective elementary teachers. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 095 with C- or better or MTH 103 with C- or better or MTH 111 with C- or better or MTH 112 with C- or better or Math Placement Test with a score of 17 or Math Placement - ALEKS with a score of 046

MTH 212, FOUNDATIONS OF ELEMENTARY MATHEMATICS, 4 Credits
Math 212 is the second of a three-term sequence of courses designed to help prepare prospective elementary and middle school teachers. Topics covered include fractions, decimals, percent, ratio and proportion, integers, rational numbers, real numbers, probability and statistics.
Prerequisite: MTH 211 with C- or better
MTH 227, *CALCULUS AND PROBABILITY FOR THE LIFE SCIENCES I, 4 Credits
Review of exponential and trigonometric functions, including examples of exponential and periodic behavior; discrete probability; examples of biologically motivated difference equations; differentiation of polynomials, exponential and trigonometric functions with applications to optimization. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 112 with C- or better or MTH 150X with C- or better or Math Placement Test with a score of 33 or Math Placement - ALEKS with a score of 75
Equivalent to: MTH 227X

MTH 228, CALCULUS AND PROBABILITY FOR THE LIFE SCIENCES II, 4 Credits
Continuation of MTH 227 with more general population growth models. Antidifferentiation; The Fundamental Theorem of Calculus applied to solving continuous growth models. Continuous random variables. Basic linear algebra of small systems sufficient to calculate eigenvalues and eigenvectors and appreciate their use in life science applications. Lec/rec.
Prerequisite: MTH 227 with C- or better or MTH 227X with C- or better

MTH 231, ELEMENTS OF DISCRETE MATHEMATICS, 4 Credits
Elementary logic and set theory, functions, direct proof techniques, contradiction and contraposition, mathematical induction and recursion, elementary combinatorics, basic graph theory, minimal spanning trees. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 227 with C- or better or MTH 227X with C- or better

MTH 231H, ELEMENTS OF DISCRETE MATHEMATICS, 4 Credits
Elementary logic and set theory, functions, direct proof techniques, contradiction and contraposition, mathematical induction and recursion, elementary combinatorics, basic graph theory, minimal spanning trees. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 111 with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 060
Equivalent to: MTH 231H
Available via Ecampus

MTH 245, *MATHEMATICS FOR MANAGEMENT, LIFE, AND SOCIAL SCIENCES, 4 Credits
Techniques of counting, probability and elements of statistics including binomial and normal distributions. Introductory matrix algebra. Elements of linear programming. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 111 with C- or better or Math Placement Test with a score of 24 or Math Placement - ALEKS with a score of 060
Available via Ecampus

MTH 251, *DIFFERENTIAL CALCULUS, 4 Credits
Differential calculus for engineers and scientists. Rates of change: the derivative, velocity, and acceleration. The algebraic rules of differential calculus and derivatives of polynomial, rational, and trigonometric functions. Maximum-minimum problems, curve sketching, and other applications. Antiderivatives and simple motion problems. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math
Prerequisite: MTH 112 with C- or better or MTH 150X with C- or better or Math Placement Test with a score of 33 or Math Placement - ALEKS with a score of 075
Equivalent to: MTH 251H
Available via Ecampus

MTH 251H, *DIFFERENTIAL CALCULUS, 4 Credits
Differential calculus for engineers and scientists. Rates of change: the derivative, velocity, and acceleration. The algebraic rules of differential calculus and derivatives of polynomial, rational, and trigonometric functions. Maximum-minimum problems, curve sketching, and other applications. Antiderivatives and simple motion problems. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Bacc Core Course)
Attributes: CSMA – Core, Skills, Math; HNRS – Honors Course Designator
Prerequisite: MTH 112 with C- or better or MTH 150X with C- or better or Math Placement Test with a score of 33 or Math Placement - ALEKS with a score of 075
Equivalent to: MTH 251

MTH 252, INTEGRAL CALCULUS, 4 Credits
Definite integrals, elementary applications to area, force, and work. Integral tables and basic techniques of integration, calculus of logarithmic and exponential functions, polar coordinates, applications to areas, volumes, force, work, and growth and decay problems. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better
Equivalent to: MTH 252H
Available via Ecampus
MTH 252H, INTEGRAL CALCULUS, 4
Credits
Definite integrals, elementary applications to area, force, and work. Integral tables and basic techniques of integration, calculus of logarithmic and exponential functions, polar coordinates, applications to areas, volumes, force, work, and growth and decay problems. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better
Equivalent to: MTH 252

MTH 253, INFINITE SERIES AND SEQUENCES, 4 Credits
Indeterminate forms. Improper integrals. Sequences and series, especially Taylor’s formula and power series. Applications to numerical estimation with error analysis. Series with complex terms and the Euler identities. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 253H

MTH 254, VECTOR CALCULUS I, 4 Credits
Vectors, vector functions, and curves in two and three dimensions. Surfaces, partial derivatives, gradients, and directional derivatives. Multiple integrals in rectangular, polar, cylindrical, and spherical coordinates. Physical and geometric applications. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 254H
Available via Ecampus

MTH 254H, VECTOR CALCULUS I, 4 Credits
Vectors, vector functions, and curves in two and three dimensions. Surfaces, partial derivatives, gradients, and directional derivatives. Multiple integrals in rectangular, polar, cylindrical, and spherical coordinates. Physical and geometric applications. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 254

MTH 255, VECTOR CALCULUS II, 4 Credits
Brief review of vector functions, space curves, gradients, and directional derivatives. Introduction to vector analysis: vector fields, divergence, curl, line integrals, surface integrals, conservative fields, and the theorems of Gauss and Stokes with applications to force, work, mass, and charge. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Equivalent to: MTH 255

MTH 255H, VECTOR CALCULUS II, 4 Credits
Brief review of vector functions, space curves, gradients, and directional derivatives. Introduction to vector analysis: vector fields, divergence, curl, line integrals, surface integrals, conservative fields, and the theorems of Gauss and Stokes with applications to force, work, mass, and charge. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Equivalent to: MTH 255

MTH 256, APPLIED DIFFERENTIAL EQUATIONS, 4 Credits
First order linear and nonlinear equations, and second order linear equations. Applications to electric circuits and mechanical oscillators. Introduction to the Laplace transform and higher order equations. Solution methods and applications appropriate for science and engineering. (Familiarity with complex numbers and Euler’s identities is highly desirable.) Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Equivalent to: MTH 256H
Available via Ecampus

MTH 256H, APPLIED DIFFERENTIAL EQUATIONS, 4 Credits
First order linear and nonlinear equations, and second order linear equations. Applications to electric circuits and mechanical oscillators. Introduction to the Laplace transform and higher order equations. Solution methods and applications appropriate for science and engineering. (Familiarity with complex numbers and Euler’s identities is highly desirable.) All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Equivalent to: MTH 256

MTH 257, LINEAR ALGEBRA, 4 Credits
Introduction to linear algebra: vectors and vector spaces, matrices and linear transformations, determinants, systems of linear equations. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better
Equivalent to: MTH 257

MTH 258, LINEAR ALGEBRA, 4 Credits
Introduction to linear algebra: vectors and vector spaces, matrices and linear transformations, determinants, systems of linear equations. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 251 with C- or better or MTH 251H with C- or better
Equivalent to: MTH 258
MTH 265, INTRODUCTION TO SERIES, 2 Credits
Convergence and divergence of numerical series, including geometric series. Series of functions. Power series and their analytic properties. Taylor series expansions and Taylor polynomials.
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Available via Ecampus

MTH 265H, INTRODUCTION TO SERIES, 2 Credits
Convergence and divergence of numerical series, including geometric series. Series of functions. Power series and their analytic properties. Taylor series expansions and Taylor polynomials.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 265

MTH 299, SPECIAL TOPICS, 0-16 Credits
Maximum 3 credits per term, 9 credits total. This course is repeatable for 9 credits.

MTH 306, MATRIX AND POWER SERIES METHODS, 4 Credits
Introduction to matrix algebra, determinants, systematic solution to linear systems, and eigenvalue problems. Convergence and divergence of series with emphasis on power series, Taylor series expansions, convergence tests for power series, and error estimates for truncated series used in practical approximations. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 306H

MTH 306H, MATRIX AND POWER SERIES METHODS, 4 Credits
