Introduction to matrix algebra, determinants, systematic solution to linear systems, and eigenvalue problems. Convergence and divergence of series with emphasis on power series, Taylor series expansions, convergence tests for power series, and error estimates for truncated series used in practical approximations. Lec/rec. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Attributes: HNRS – Honors Course Designator
Prerequisite: MTH 252 with C- or better or MTH 252H with C- or better
Equivalent to: MTH 306

MTH 311, ADVANCED CALCULUS I, 4 Credits
Rigorous development of calculus, axiomatic properties of the real numbers, topology of the real line, convergence of sequences and series of real numbers, functions, limits of functions, basic properties of continuity and derivatives. Brief treatment of Riemann integration, improper integrals, sequences of functions, pointwise and uniform convergence, introductory aspects of multivariable calculus. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better and MTH 355 [C-]

MTH 312, ADVANCED CALCULUS II, 4 Credits
Rigorous development of calculus, axiomatic properties of $\mathbb{R}$, topology of the real line, convergence of sequences and series of real numbers, functions, limits of functions, basic properties of continuity and derivatives. Brief treatment of Riemann integration, improper integrals, sequences of functions, pointwise and uniform convergence, introductory aspects of multivariable calculus. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 311 with C- or better

MTH 321, INTRODUCTORY APPLICATIONS OF MATHEMATICAL SOFTWARE, 3 Credits
An introduction to select mathematical software packages to support problem solving and applications. Topics include using computational resources to solve basic numerical and symbolic problems in mathematics, visualization and presentation of data, creation of simple programming scripts, and applications of basic programming techniques to promote mathematical understanding. The scientific typesetting language LaTeX will also be covered. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 341 with C- or better or (MTH 264 with C- or better or MTH 264H with C- or better) or (MTH 306 with C- or better or MTH 306H with C- or better)

MTH 323, ^MATHEMATICAL MODELING, 3 Credits
A variety of mathematical modeling techniques will be introduced. Students will formulate models in response to practical problems drawn from the literature of ecology, environmental sciences, engineering or other fields. Informal writing assignments in class and formal written presentation of the models will be required. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (MTH 256 with C- or better or MTH 256H with C- or better) and MTH 341 [C-]

MTH 333, ^FUNDAMENTAL CONCEPTS OF TOPOLOGY, 3 Credits
Open and closed sets, continuity, compactness, connectedness, winding number, fixed point theorems in the plane. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: MTH 341 with C- or better or MTH 355 with C- or better

MTH 338, ^NON-EUCLIDEAN GEOMETRY, 3 Credits
Introduction to non-Euclidean geometries. Selected topics such as hyperbolic and elliptic geometry, spherical geometry, projective geometry, geometries arising from alternative metrics. All courses used to satisfy MTH prerequisites must be completed with C- or better. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: MTH 341 (may be taken concurrently) with C- or better
MTH 341, LINEAR ALGEBRA I, 3 Credits
Matrix algebra, determinants, systems of linear equations, subspaces, an introductory study of eigenvalues and eigenvectors. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 254 with C- or better or MTH 254H with C- or better
Available via Ecampus

MTH 342, LINEAR ALGEBRA II, 4 Credits
Abstract (real or complex) vector spaces, linear transformations, inner product spaces, orthogonality, eigenspaces and diagonalization, spectral theorems, singular value decomposition. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 341 with C- or better

MTH 343, INTRODUCTION TO MODERN ALGEBRA, 4 Credits
Introduction to algebraic abstraction, with an emphasis on structures and logical communication by way of proofs. Material includes an introduction to groups, rings and fields. Emphasis is on symmetry groups, the integers as a ring, and polynomial rings; selected applications. Generalizing from examples to mathematical statements, reading proofs, and both creating and editing proofs. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 341 with C- or better and MTH 355 [C-]

MTH 351, INTRODUCTION TO NUMERICAL ANALYSIS, 3 Credits
Introduction to the computation of approximate solutions to mathematical problems that cannot be solved by hand: analysis of errors; rootfinding for nonlinear equations in one variable; interpolation of functions; numerical integration. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 253 with C- or better and MTH 355 [C-]

MTH 355, DISCRETE MATHEMATICS, 3 Credits
Proof analysis and development in the context of discrete mathematics for math majors transitioning to upper-division course work. Topics include elementary logic and set theory, quantifiers, basic counting principles, elementary combinatorics, equivalence relations, the binomial theorem, and mathematical induction. Additional topics may include recurrence relations, generating functions, and introductory graph theory. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 253 with C- or better
Recommended: MTH 341

MTH 361, INTRODUCTION TO PROBABILITY, 3 Credits
Probability problem solving using concepts developed in calculus. Topics include probability models, discrete and continuous random variables, expectation and variance, the law of large numbers, and the central limit theorem. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 253 with C- or better or (MTH 306 with C- or better or MTH 306H with C- or better) or (MTH 265 with C- or better or MTH 265H with C- or better)
Equivalent to: MTH 361H

MTH 390, FOUNDATIONS OF ELEMENTARY MATHEMATICS, 4 Credits
Math 390 is the third of a three-term sequence of classes designed to help prepare prospective elementary and middle school teachers. Topics covered include informal geometry, measurement, congruence, similarity, coordinate and transformational geometry.
Prerequisite: MTH 211 with C- or better and MTH 212 [C-]

MTH 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MTH 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: MTH 399
This course is repeatable for 16 credits.

MTH 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MTH 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

MTH 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MTH 406, PROJECTS, 1-3 Credits
Graded P/N.
This course is repeatable for 16 credits.

MTH 407, SEMINAR, 3 Credits
This course is repeatable for 99 credits.

MTH 410, OCCUPATIONAL INTERNSHIP, 3-12 Credits
Planned and supervised training experience at selected government, industrial, or business placement sites. Must be followed by a one-hour post-internship seminar. Consult departmental head advisor. Graded P/N.
This course is repeatable for 16 credits.

MTH 411, REAL ANALYSIS, 3 Credits
Properties of metric spaces and normed spaces, including $L_p$ spaces. Completeness and applications, including fixed point theorems. Compactness. Equicontinuity and the Arzela-Ascoli theorem. Uniform continuity and uniform convergence, including applications.
Prerequisite: MTH 312 with B+ or better and MTH 341 [B+]
This course is repeatable for 18 credits.
MTH 412, REAL ANALYSIS, 3 Credits
Measure and integration theory, basic convergence theorems, Lebesgue spaces, Fubini’s theorem, Radon-Nikodym theorem, and applications. Banach spaces including Baire category theorems, and Hilbert spaces. Prerequisite: MTH 411 with C- or better or MTH 511 with C- or better. This course is repeatable for 18 credits.

MTH 413, REAL ANALYSIS, 3 Credits
Measure and integration theory, basic convergence theorems, Lebesgue spaces, Fubini’s theorem, Radon-Nikodym theorem, and applications. Banach spaces including Baire category theorems, and Hilbert spaces. Prerequisite: MTH 412 with C- or better or MTH 512 with C- or better. This course is repeatable for 18 credits.

MTH 419, MULTIVARIABLE ADVANCED CALCULUS, 3 Credits
A rigorous development of multivariable advanced calculus, including continuity and compactness in multivariable Euclidean spaces, differentiation and approximation of multivariable functions, the inverse function theorem and the implicit function theorem, integration in several variables. Prerequisite: MTH 312 with B or better.

MTH 420, MODELS AND METHODS OF APPLIED MATHEMATICS, 3 Credits
Discrete and continuous mathematical models and methods for analysis, including linear analysis, equilibrium and minimum principles, calculus of variations, principal component analysis and orthogonal expansions, asymptotic and Fourier analysis, least squares, constrained and unconstrained optimization, inverse problems, and Monte Carlo techniques. Particular models and methods covered may vary annually. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 256 with C- or better or MTH 256H with C- or better and MTH 341 [C-] or MTH 563 [C].

MTH 427, INTRODUCTION TO MATHEMATICAL BIOLOGY, 3 Credits
Modeling and mathematical analysis of biological processes using first principles at scales ranging from the molecular to the population level. Deterministic models are studied in both discrete and continuous time and analyzed using linearization principles, linear and nonlinear stability techniques, phase plane methods, and methods from partial differential equations. Results obtained from mathematical analysis will be qualitatively interpreted and applied to the biological process under investigation. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 256 with C- or better or MTH 256H with C- or better and MTH 341 [C-] or MTH 563 [C].

MTH 428, STOCHASTIC ELEMENTS IN MATHEMATICAL BIOLOGY, 3 Credits
An introduction to stochastic modeling of biological processes. The stochastic models covered may include Markov processes in both continuous and discrete time, urn models, branching processes, and coalescent processes. The biological applications may include genetic drift, population dynamics, genealogy, demography, and epidemiology. Mathematical results will be qualitatively interpreted and applied to the biological process under investigation. Prerequisite: MTH 341 with C or better and (MTH 361 [C] or MTH 463 [C] or MTH 563 [C]).

MTH 430, METRIC SPACES AND TOPOLOGY, 3 Credits
Fundamental notions of metric space topology. Examples of Euclidean, non-Euclidean and other fundamental metric spaces including the Hilbert Cube and two-dimensional surfaces. Characterization and classification results for metric spaces. Selected applications of topology, possibly including the structure of molecules and/or networks. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 311 with C- or better. Recommended: MTH 311

MTH 434, INTRODUCTION TO DIFFERENTIAL GEOMETRY, 3 Credits
Curves and surfaces in Euclidean space; geodesics; curvature; introduction to tensor algebra and differential forms; selected applications. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: (MTH 255 with C- or better or MTH 255H with C- or better) and MTH 342 [C-]. Recommended: MTH 311

MTH 435, DIFFERENTIAL GEOMETRY, 3 Credits
Differentiable 2-manifolds; curvature; geodesics; tensor algebra and the algebra of exterior differential forms with emphasis on Euclidean space; differentiation of tensors and forms; integration of forms; selected applications. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 434 with C- or better or MTH 534 with C- or better.

MTH 437, GENERAL RELATIVITY, 3 Credits
Geometry of special relativity. Tensor analysis, metrics, geodesics, curvature. Einstein field equations, cosmological models, black holes. Selected topics such as global structure, conserved quantities, spinors. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 434 with C- or better or MTH 534 with C- or better. Recommended: MTH 311

MTH 440, COMPUTATIONAL NUMBER THEORY, 3 Credits
Development of the number theory used in some basic tests of primality and methods of factoring integers. Applications to cryptography. All courses used to satisfy MTH prerequisites must be completed with C- or better. Prerequisite: MTH 231 with C- or better or MTH 343 with C- or better or MTH 355 with C- or better.
MTH 441, APPLIED AND COMPUTATIONAL ALGEBRA, 3 Credits
Applications of fundamental algebraic systems to topics such as factorization of polynomials, finding roots of polynomials, error correcting codes. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 343 with C- or better and (MTH 342 [C-] or MTH 440 [C-] or MTH 540 [C-])

MTH 442, APPLIED AND COMPUTATIONAL ALGEBRA, 3 Credits
Applications of fundamental algebraic systems to topics such as factorization of polynomials, finding roots of polynomials, error correcting codes. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 441 with C- or better or MTH 541 with C- or better

MTH 443, ABSTRACT LINEAR ALGEBRA, 3 Credits
Abstract vector spaces. Linear transformations, eigenvalues and eigenvectors, the Jordan canonical form, inner product spaces. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 342 with C- or better or MTH 343 with C- or better

MTH 451, NUMERICAL LINEAR ALGEBRA, 3 Credits
Computation of solutions of linear systems using direct and iterative methods; least-squares solution of overdetermined systems; computation of eigenvalues and eigenvectors. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 341 with C- or better
Recommended: Programming experience, MTH 342 and MTH 351

MTH 452, NUMERICAL SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS, 3 Credits
Numerical solution of initial-value problems using Runge-Kutta methods and linear multistep methods; introduction to boundary-value problems. Analysis of stability, accuracy, and implementation of methods. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: (MTH 256 with C- or better or MTH 256H with C- or better) and ((MTH 306 with C- or better or MTH 306H with C- or better) or MTH 341 with C- or better or (MTH 264 with C- or better or MTH 264H with C- or better)) and (MTH 253 [C-] or (MTH 265 [C-] or MTH 265H [C-]))
Recommended: MTH 351 or MTH 451 or MTH 551

MTH 453, NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Numerical solution of boundary value problems and initial-boundary value problems using finite difference and finite element methods. Analysis of stability, accuracy, and implementation of methods. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 452 with C- or better or MTH 552 with C- or better

MTH 453, PROBABILITY I, 3 Credits
An introduction to probability theory; topics covered include: the axioms of probability, probability spaces and models, independence, random variables; densities, distributions, expectation, and variance; probability inequalities, the law of large numbers, and the binomial central limit theorem. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 311 (may be taken concurrently) with C- or better

MTH 454, PROBABILITY II, 3 Credits
Transformations of random variables; sums of independent random variables, generating functions, characteristic functions, the central limit theorem and other weak limit theorems. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: (MTH 463 with C- or better or MTH 563 with C- or better) and MTH 341 [C-]

MTH 455, PROBABILITY III, 3 Credits
Random variables, central limit theorem; distributions of standard statistics; Markov chains, continuous and discontinuous stochastic processes. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 464 with C- or better or MTH 564 with C- or better

MTH 467, ACTUARIAL MATHEMATICS, 3 Credits
Foundations of actuarial science from the point of view of mathematical models that arise in the design and management of insurance systems. Most models will be life insurance based. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 463 with C- or better or MTH 563 with C- or better or ST 421 with C- or better

MTH 468, SYSTEMS OF ORDINARY DIFFERENTIAL EQUATIONS, 3 Credits
Systems of two first-order differential equations, phase portraits, linearization and the stability of equilibria, conservative systems, reversible systems, limit cycles and the Poincare-Bendixson Theorem. Additional topics selected from Hamiltonian systems, Hopf bifurcation or Lorenz equations and chaos. MTH 480 and MTH 481 cannot both be taken for credit. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: (MTH 256 with C- or better or MTH 256H with C- or better) and MTH 341 [C-] and MTH 451 [C-]

MTH 480, APPLIED ORDINARY DIFFERENTIAL EQUATIONS, 3 Credits
Linear and nonlinear systems of ordinary differential equations, elementary stability theory, higher order equations, boundary value problems, series solution of ordinary differential equations. All courses used to satisfy MTH prerequisites must be completed with a C- or better.
Prerequisite: (MTH 256 with C- or better or MTH 256H with C- or better) and (MTH 253 with C- or better or MTH 253H with C- or better) or (MTH 265 with C- or better or MTH 265H with C- or better) and (MTH 341 [C-] or MTH 264 [C-] or MTH 264H [C-]) or (MTH 306 [C-] or MTH 306H [C-])
MTH 482, APPLIED PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Partial differential equations, Bessel's and Legendre's equations, Fourier analysis, separation of variables, transform methods. All courses used to satisfy MTH prerequisites must be completed with a C- or better.
Prerequisite: MTH 480 with C- or better or MTH 481 with C- or better or MTH 581 with C- or better

MTH 483, COMPLEX VARIABLES, 3 Credits
Introduction to the complex differential and integral calculus: Cauchy's theorem and formula, the residue calculus, series and Laurent series, harmonic functions, conformal mapping, and applications. All courses used to satisfy MTH prerequisites must be completed with a C- or better.
Prerequisite: (MTH 256 with C- or better or MTH 256H with C- or better) and (MTH 306 [C-] or (MTH 306H [C-]) or (MTH 265 [C-] or MTH 265H [C-]))

MTH 490, INTENSIVE SUMMER RESEARCH IN MATHEMATICS, 12 Credits
Combination of seminar, lectures, and individual research projects designed to introduce students to research mathematics. This course is repeatable for 99 credits.

MTH 491, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Ordered fields, number systems (natural, integer, rational, real, and complex), fundamental theorems of arithmetic and algebra, algebraic and transcendental numbers, constructible points and numbers and the classical geometric constructions, Polya's problem solving heuristics and strategies. Intended primarily for prospective mathematics teachers. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 341 with C- or better

MTH 492, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Major results of Euclidean geometry, axiomatic systems for Euclidean geometry, dependency tree of Euclidean theorems, groups of geometric transformations with applications to symmetries of plane and solid objects, Euler's formula, number systems, isometries and similitudes of the plane (translations, rotations, reflections, and dilations). Intended primarily for prospective mathematics teachers. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 491 with C- or better or MTH 591 with C- or better

MTH 493, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Geometric transformations as real, complex, and matrix functions, invariants and genealogy of geometric transformations, extensions to transformations of the sphere and of three-dimensional space, selected applications chosen from fractals, analysis of frieze and crystallographic patterns, problem solving, groups of symmetries, computer graphics, and the use of dynamic geometry software. Intended primarily for prospective mathematics teachers. All courses used to satisfy MTH prerequisites must be completed with C- or better.
Prerequisite: MTH 492 with C- or better or MTH 592 with C- or better

MTH 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

MTH 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MTH 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

MTH 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MTH 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

MTH 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

MTH 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

MTH 510, OCCUPATIONAL INTERNSHIP, 3-12 Credits
Planned and supervised training experience at selected government, industrial, or business placement sites. Must be followed by a one-hour post-internship seminar. Consult departmental head advisor. Graded P/N.
This course is repeatable for 16 credits.

MTH 511, REAL ANALYSIS, 3 Credits
Properties of metric spaces and normed spaces, including lp spaces. Completeness and applications, including fixed point theorems. Compactness. Equicontinuity and the Arzela-Ascoli theorem. Uniform continuity and uniform convergence, including applications.
This course is repeatable for 18 credits.
Recommended: MTH 312 and MTH 341

MTH 512, REAL ANALYSIS, 3 Credits
Measure and integration theory, basic convergence theorems, Lebesgue spaces, Fubini's theorem, Radon-Nikodym theorem, and applications. Banach spaces including Baire category theorems, and Hilbert spaces.
Prerequisite: MTH 511 with C- or better
This course is repeatable for 18 credits.

MTH 513, REAL ANALYSIS, 3 Credits
Measure and integration theory, basic convergence theorems, Lebesgue spaces, Fubini's theorem, Radon-Nikodym theorem, and applications. Banach spaces including Baire category theorems, and Hilbert spaces.
Prerequisite: MTH 512 with C- or better
This course is repeatable for 18 credits.
MTH 520, MODELS AND METHODS OF APPLIED MATHEMATICS, 3 Credits
Discrete and continuous mathematical models and methods for analysis, including linear analysis, equilibrium and minimum principles, calculus of variations, principal component analysis and orthogonal expansions, asymptotic and Fourier analysis, least squares, constrained and unconstrained optimization, inverse problems, and Monte Carlo techniques. Particular models and methods covered may vary annually. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 256 or MTH 256H) and MTH 341

MTH 524, DYNAMICAL SYSTEMS THEORY AND APPLICATIONS, 3 Credits
Theory, models, and problems for discrete and/or continuous dynamical systems. Depending on term, the emphasis may be toward deterministic or stochastic systems. Topics generally include stability theory, periodic behavior, and chaotic systems. Models selected from biology, economics, fluid dynamics, and electrical and mechanical systems. May be repeated once for credit with a different topic. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 6 credits.
Recommended: MTH 341 and MTH 342 and MTH 311 and MTH 312 and MTH 361

MTH 525, DYNAMICAL SYSTEMS THEORY AND APPLICATIONS, 3 Credits
Theory, models, and problems for discrete and/or continuous dynamical systems. Depending on term, the emphasis may be toward deterministic or stochastic systems. Topics generally include stability theory, periodic behavior, and chaotic systems. Models selected from biology, economics, fluid dynamics, and electrical and mechanical systems. May be repeated once for credit with a different topic. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 6 credits.
Recommended: MTH 341 and MTH 342 and MTH 311 and MTH 312 and MTH 361

MTH 527, INTRODUCTION TO MATHEMATICAL BIOLOGY, 3 Credits
Modeling and mathematical analysis of biological processes using first principles at scales ranging from the molecular to the population level. Deterministic models are studied in both discrete and continuous time and analyzed using linearization principles, linear and nonlinear stability techniques, phase plane methods, and methods from partial differential equations. Results obtained from mathematical analysis will be qualitatively interpreted and applied to the biological process under investigation. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 256 or MTH 256H) and MTH 341

MTH 528, STOCHASTIC ELEMENTS IN MATHEMATICAL BIOLOGY, 3 Credits
An introduction to stochastic modeling of biological processes. The stochastic models covered may include Markov processes in both continuous and discrete time, urn models, branching processes, and coalescent processes. The biological applications may include genetic drift, population dynamics, genealogy, demography, and epidemiology. Mathematical results will be qualitatively interpreted and applied to the biological process under investigation. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 341 and (MTH 361 or MTH 463 or MTH 563)

MTH 531, GENERAL TOPOLOGY AND FUNDAMENTAL GROUPS, 3 Credits
Topological spaces and maps. Separation axioms, compactness, convergence, extension theorems, metrizability and compactification. Product spaces and simplicial complexes. Definition and basic properties of the fundamental group functor, with applications to the theory of covering spaces. Selected topics from dimension theory, manifold theory, and other areas of topology. All courses used to satisfy MTH prerequisites must be completed with C or better.

MTH 532, GENERAL TOPOLOGY AND FUNDAMENTAL GROUPS, 3 Credits
Topological spaces and maps. Separation axioms, compactness, convergence, extension theorems, metrizability and compactification. Product spaces and simplicial complexes. Definition and basic properties of the fundamental group functor, with applications to the theory of covering spaces. Selected topics from dimension theory, manifold theory, and other areas of topology. All courses used to satisfy MTH prerequisites must be completed with C or better.

MTH 534, INTRODUCTION TO DIFFERENTIAL GEOMETRY, 3 Credits
Curves and surfaces in Euclidean space; geodesics; curvature; introduction to tensor algebra and differential forms; selected applications. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 255 or MTH 255H) and MTH 342 and MTH 311

MTH 535, DIFFERENTIAL GEOMETRY, 3 Credits
Differentiable 2-manifolds; curvature; geodesics; tensor algebra and the algebra of exterior differential forms with emphasis on Euclidean space; differentiation of tensors and forms; integration of forms; selected applications. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 434 or MTH 534

MTH 537, GENERAL RELATIVITY, 3 Credits
Geometry of special relativity. Tensor analysis, metrics, geodesics, curvature. Einstein field equations, cosmological models, black holes. Selected topics such as global structure, conserved quantities, spinors. All courses used to satisfy MTH prerequisites must be completed with C or better.
Prerequisite: MTH 434 with C or better or MTH 534 with C or better
Recommended: MTH 311
MTH 540, COMPUTATIONAL NUMBER THEORY, 3 Credits
Development of the number theory used in some basic tests of primality and methods of factoring integers. Applications to cryptology. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 231 or MTH 343 or MTH 355

MTH 541, APPLIED AND COMPUTATIONAL ALGEBRA, 3 Credits
Applications of fundamental algebraic systems to topics such as factorization of polynomials, finding roots of polynomials, error correcting codes. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 343 and (MTH 342 or MTH 440 or MTH 540)

MTH 542, APPLIED AND COMPUTATIONAL ALGEBRA, 3 Credits
Applications of fundamental algebraic systems to topics such as factorization of polynomials, finding roots of polynomials, error correcting codes. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 441 or MTH 541

MTH 543, ABSTRACT LINEAR ALGEBRA, 3 Credits
Abstract vector spaces. Linear transformations, eigenvalues and eigenvectors, the Jordan canonical form, inner product spaces. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 342 and MTH 343

MTH 551, NUMERICAL LINEAR ALGEBRA, 3 Credits
Computation of solutions of linear systems using direct and iterative methods; least-squares solution of overdetermined systems; computation of eigenvalues and eigenvectors. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 341, MTH 342, MTH 351 and programming experience

MTH 552, NUMERICAL SOLUTION OF ORDINARY DIFFERENTIAL EQUATIONS, 3 Credits
Numerical solution of initial-value problems using Runge-Kutta methods and linear multistep methods; introduction to boundary-value problems. Analysis of stability, accuracy, and implementation of methods. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: Programming experience and (MTH 256 or MTH 256H) and (MTH 306 or MTH 306H or MTH 341) and (MTH 351 or MTH 451 or MTH 551)

MTH 553, NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Numerical solution of boundary value problems and initial-boundary value problems using finite difference and finite element methods. Analysis of stability, accuracy, and implementation of methods. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 452 or MTH 552

MTH 563, PROBABILITY I, 3 Credits
An introduction to probability theory; topics covered include: the axioms of probability, probability spaces and models, independence, random variables; densities, distributions, expectation, and variance; probability inequalities, the law of large numbers, and the binomial central limit theorem. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 312

MTH 564, PROBABILITY II, 3 Credits
Transformations of random variables; sums of independent random variables, generating functions, characteristic functions, the central limit theorem and other weak limit theorems. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 341 and (MTH 463 or MTH 563)

MTH 565, PROBABILITY III, 3 Credits
Random variables, central limit theorem; distributions of standard statistics; Markov chains, continuous and discontinuous stochastic processes. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 464 or MTH 564

MTH 567, ACTUARIAL MATHEMATICS, 3 Credits
Foundations of actuarial science from the point of view of mathematical models that arise in the design and management of insurance systems. Most models will be life insurance based. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 463 or MTH 563) or ST 421.

MTH 568, PROBABILITY AND DATA ANALYSIS IN K-8 MATHEMATICS, 3 Credits
Key ideas and topics in probability, data analysis, and statistics critical for the mathematics content knowledge of elementary teachers in grades K-8. Based on the recommendations of The Mathematical Education of Teachers by the Conference Board of the Mathematical Sciences. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 390
MTH 581, APPLIED ORDINARY DIFFERENTIAL EQUATIONS, 3 Credits
Linear and nonlinear systems of ordinary differential equations, elementary stability theory, higher order equations, boundary value problems, series solution of ordinary differential equations. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 256 or MTH 256H) and (((MTH 253 or MTH 253H) and MTH 341) or (MTH 306 or MTH 306H))

MTH 582, APPLIED PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Partial differential equations, Bessel's and Legendre's equations, Fourier analysis, separation of variables, transform methods. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 492 or MTH 592

MTH 583, COMPLEX VARIABLES, 3 Credits
Introduction to the complex differential and integral calculus: Cauchy's theorem and formula, the residue calculus, power series and Laurent series, harmonic functions, conformal mapping, and applications. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: (MTH 256 or MTH 256H) and (MTH 253 or MTH 306 or MTH 306H)

MTH 589, TOPICS IN SECONDARY MATHEMATICS, 3 Credits
Key ideas and topics in discrete mathematics critical for the mathematics content knowledge of middle and high school teachers in grades 6-12. Based on the recommendations of The Mathematical Education of Teachers by the Conference Board of the Mathematical Sciences. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 390

MTH 590, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Ordered fields, number systems (natural, integer, rational, real, and complex), fundamental theorems of arithmetic and algebra, algebraic and transcendental numbers, constructible points and numbers and the classical geometric constructions, Polya's problem solving heuristics and strategies. Intended primarily for prospective mathematics teachers. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 491 or MTH 591

MTH 591, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Major results of Euclidean geometry, axiom systems for Euclidean geometry, dependency tree of Euclidean theorems, groups of geometric transformations with applications to symmetries of plane and solid objects, Euler's formula, tilings and tesselations, isometries and similarities of the plane (translations, rotations, reflections, glide reflections, dilations). Intended primarily for prospective mathematics teachers. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 491 or MTH 591

MTH 592, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Basic theory of analytic functions of a complex variable, including Cauchy's theorem, residue theorem, analytic continuation, conformal mappings, entire, and meromorphic functions. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 411 or MTH 511

MTH 593, ALGEBRA AND GEOMETRIC TRANSFORMATIONS, 3 Credits
Basic theory of analytic functions of a complex variable, including Cauchy's theorem, residue theorem, analytic continuation, conformal mappings, entire, and meromorphic functions. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 611
MTH 614, FUNCTIONAL ANALYSIS, 3 Credits
Topological vector spaces, generalized functions, operator theory. Normally offered alternate years. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 513

MTH 619, TOPICS IN ANALYSIS, 1-12 Credits
This course is repeatable for 12 credits.

MTH 621, PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Partial differential equations of physics, including those of potential theory, wave propagation, and heat flow, treated by classical means, generalized functions and variational principles. Square summable function methods and integral equations. This course is the first in a year-long sequence of MTH 621, MTH 622, MTH 623. All courses used to satisfy MTH prerequisites must be completed with C or better.
Prerequisite: MTH 621 with C or better
This course is repeatable for 6 credits.
Recommended: 6 credits of senior-level analysis

MTH 622, PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Partial differential equations of physics, including those of potential theory, wave propagation, and heat flow, treated by classical means, generalized functions and variational principles. Square summable function methods and integral equations. This course is the first in a year-long sequence of MTH 621, MTH 622, MTH 623. All courses used to satisfy MTH prerequisites must be completed with C or better.

MTH 623, PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Partial differential equations of physics, including those of potential theory, wave propagation, and heat flow, treated by classical means, generalized functions and variational principles. Square summable function methods and integral equations. This course is the first in a year-long sequence. All courses used to satisfy MTH prerequisites must be completed with C or better.
Prerequisite: MTH 621 with C or better and MTH 622 [C]
This course is repeatable for 6 credits.

MTH 627, ADVANCED PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Advanced theory including existence proofs and distributional approach. Normally offered fall term in odd years. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 6 credits.
Recommended: MTH 413 or MTH 513

MTH 628, ADVANCED PARTIAL DIFFERENTIAL EQUATIONS, 3 Credits
Advanced theory including existence proofs and distributional approach. Normally offered winter term in even years. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 6 credits.
Recommended: MTH 627

MTH 634, ALGEBRAIC TOPOLOGY, 3 Credits
Simplicial and singular homology, products, and cohomology; applications to fixed-point and separation theorems. Topics selected from homotopy, manifold and obstruction theory. Normally offered alternate years. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 532

MTH 635, ALGEBRAIC TOPOLOGY, 3 Credits
Simplicial and singular homology, products, and cohomology; applications to fixed-point and separation theorems. Topics selected from homotopy, manifold and obstruction theory. Normally offered alternate years. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 634

MTH 636, ALGEBRAIC TOPOLOGY, 3 Credits
Simplicial and singular homology, products, and cohomology; applications to fixed-point and separation theorems. Topics selected from homotopy, manifold and obstruction theory. Normally offered alternate years. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 635

MTH 644, ABSTRACT ALGEBRA I, 3 Credits
Group theory, rings and fields, Galois theory. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 443 or MTH 543

MTH 645, ABSTRACT ALGEBRA II, 3 Credits
Group theory, rings and fields, Galois theory. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 644

MTH 649, TOPICS IN ALGEBRA AND NUMBER THEORY, 3 Credits
This course is repeatable for 27 credits.
MTH 654, NUMERICAL ANALYSIS, 3
Credits
Advanced topics in numerical analysis, such as finite volume methods and finite element methods for partial differential equations, numerical methods for inverse problems, and image processing. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 12 credits.
Recommended: Familiarity with numerical methods

MTH 655, NUMERICAL ANALYSIS, 3
Credits
Advanced topics in numerical analysis, such as finite volume methods and finite element methods for partial differential equations, numerical methods for inverse problems, and image processing. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 12 credits.
Recommended: Familiarity with numerical methods

MTH 656, NUMERICAL ANALYSIS, 3
Credits
Advanced topics in numerical analysis, such as finite volume methods and finite element methods for partial differential equations, numerical methods for inverse problems, and image processing. All courses used to satisfy MTH prerequisites must be completed with C or better.
This course is repeatable for 12 credits.
Recommended: Familiarity with numerical methods

MTH 657, TOPICS IN APPLIED MATHEMATICS, 1-12 Credits
Previous topics have included turbulence, financial mathematics and probability methods in partial differential equations.
This course is repeatable for 12 credits.

MTH 658, TOPICS IN MATHEMATICAL MODELING, 1-12 Credits
Mathematical treatment of topics of current interest in the physical and biological sciences and technology. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.

MTH 659, TOPICS IN NUMERICAL ANALYSIS, 1-12 Credits
This course is repeatable for 12 credits.

MTH 664, PROBABILITY THEORY, 3
Credits
General theory of probability measures and random variables, including weak convergence, characteristic functions, the central limit theorem, and the Brownian motion process. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 664

MTH 665, PROBABILITY THEORY, 3
Credits
General theory of probability measures and random variables, including weak convergence, characteristic functions, the central limit theorem, and the Brownian motion process. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 664

MTH 669, TOPICS IN STOCHASTIC PROCESSES, 1-12 Credits
Previous topics have included Markov processes, martingales, branching processes, and stochastic differential equations.
This course is repeatable for 12 credits.

MTH 674, DIFFERENTIAL GEOMETRY OF MANIFOLDS, 3 Credits
Differentiable manifolds, tangent bundles, vector fields and flows, submanifolds, Riemannian metrics, differential forms, integration on manifolds. Selected topics such as foliations, Lie groups, and de Rham cohomology. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 341 and (MTH 411 or MTH 511)

MTH 675, DIFFERENTIAL GEOMETRY OF MANIFOLDS, 3 Credits
Differentiable manifolds, connections in linear bundles, Riemannian manifolds and submanifolds. Selected topics such as variational theory of geodesics, harmonic forms, and characteristic classes. Normally offered alternate years. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: MTH 674

MTH 676, TOPICS IN TOPOLOGY, 3 Credits
This course is repeatable for 27 credits.

MTH 679, TOPICS IN GEOMETRY, 1-12 Credits
This course is repeatable for 12 credits.

MTH 682, TEACHING AND LEARNING PROBABILITY AND STATISTICS, 3 Credits
Experimental, activity-based approaches to introductory probability and statistics are explored. Topics include computer simulations, exploratory data analysis, misuses of statistics, and misconceptions of probability. All courses used to satisfy MTH prerequisites must be completed with C or better.

MTH 684, COMPUTERS AND MATHEMATICS, 3 Credits
A variety of mathematical problems are investigated with a laboratory approach using microcomputers and a wide variety of software. Problems may be taken from number theory, calculus, geometry, probability, and elementary numerical analysis. All courses used to satisfy MTH prerequisites must be completed with C or better.
Recommended: Ability to program in either BASIC or PASCAL
MTH 685, ADVANCED PROBLEM SOLVING, 3 Credits
Mathematical problem solving using the heuristic approach of George Polya. Problems may be taken from a variety of areas, including number theory, calculus, geometry, probability, abstract and linear algebra. All courses used to satisfy MTH prerequisites must be completed with C or better.

MTH 689, TOPICS IN MATHEMATICS EDUCATION, 1-12 Credits
Topics may vary. This course is repeatable for 12 credits.

MTH 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Mech/Ind/Mfg Engineering (MIME)

MIME 101, INTRODUCTION TO MIME, 3 Credits
Provides students with an overview of mechanical, industrial, manufacturing, and energy systems engineering careers and an introduction to technical areas of study. Skills necessary for success in both the academic curriculum and in the engineering profession will also be emphasized, including communication and ethics. Lec/rec. Equivalent to: ME 101, MIME 101H

MIME 101H, INTRODUCTION TO MIME, 3 Credits
Provides students with an overview of mechanical, industrial, manufacturing, and energy systems engineering careers and an introduction to technical areas of study. Skills necessary for success in both the academic curriculum and in the engineering profession will also be emphasized, including communication and ethics. Lec/rec. Attributes: HNRS – Honors Course Designator Equivalent to: MIME 101

MIME 199, SPECIAL TOPICS, 0-4 Credits
Equivalent to: MIME 101

MIME 299, SPECIAL TOPICS, 0-4 Credits
This course is repeatable for 4 credits.

MIME 399, SPECIAL TOPICS, 0-4 Credits
Special topics in mechanical, industrial, and manufacturing engineering. This course is repeatable for 16 credits.

MIME 497, ^MIME CAPSTONE DESIGN, 4 Credits
Integrates engineering knowledge and experience by applying skills to work on real-world engineering project. Involves product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; and long-run policies and strategy. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC Prerequisite: (IE 355 with C or better and IE 356 [C] and IE 366 [C] and IE 367 [C] and IE 368 [C] and WR 327 [C]) or (MATS 322 [C] and ENGR 390 [C] and ME 250 [C] and (ME 312 [C] or ME 312H [C]) and (ME 317 [C] or ME 317H [C]) and (ME 382 [C] or ME 382H [C]) and (ME 383 [C] or ME 383H [C]) and (ST 314 [C] or ST 314H [C]) and WR 327 [C]) Equivalent to: ESE 497, IE 497, ME 497

MIME 498, ^MIME CAPSTONE DESIGN, 4 Credits
Product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; long-run policies and strategy. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC Prerequisite: MIME 497 with C or better or ESE 497 with C or better Equivalent to: ESE 498, IE 498, ME 498

MIME 504, WRITING AND CONFERENCE/EXPLORATION, 1-9 Credits
Students will be allowed to register for a variable number of MIME 504 credits to bring their registration up to full-time status (9 credits). Graded P/N. Equivalent to: IE 504, ME 504, ROB 504 This course is repeatable for 15 credits.

MIME 507, SEMINAR/NEW STUDENT ORIENTATION, 1 Credit

Mechanical Engineering (ME)

ME 206, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ME 250, INTRODUCTION TO MANUFACTURING PROCESSES, 1 Credit
Use of measuring and layout tools; interpretation of blueprints and drawings, identification of engineering materials. Operation of machine tools, including calculation of machining parameters. Operation of gas and MIG welding equipment. Lec/lab. Graded P/N. Prerequisite: ENGR 248 with C or better and (PH 211 [C] or PH 211H [C])

ME 299, SPECIAL TOPICS, 1-16 Credits
Graded P/N. Equivalent to: ME 299H This course is repeatable for 16 credits.
ME 299H, SPECIAL STUDIES, 1-16 Credits
Graded P/N.
Attributes: HNRS – Honors Course Designator
Equivalent to: ME 299
This course is repeatable for 16 credits.

ME 306, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ME 311, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSTLISTED as ME 311/NSE 311.
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ENGR 311, ENGR 311H, ME 311H, ME 311, NE 311H, NSE 311, NSE 311H

ME 311H, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSTLISTED as ME 311/NSE 311.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ENGR 311, ENGR 311H, ME 311H, ME 311, NE 311H, NSE 311, NSE 311H

ME 312, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSTLISTED as ME 312/ NSE 312.
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or ME 311 with C or better or NSE 311 with C or better or NSE 311H with C or better
Equivalent to: ENGR 312, ME 312H, NE 312, NE 312H, NSE 312, NSE 312H

ME 312H, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSTLISTED as ME 312/ NSE 312.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or ME 311 with C or better or NSE 311 with C or better or NSE 311H with C or better
Equivalent to: ENGR 312, ME 312H, NE 312, NE 312H, NSE 312, NSE 312H

ME 316, MECHANICS OF MATERIALS, 3 Credits
Determination of stresses, deflections, and stability of deformable bodies with an introduction to finite element analysis.
Prerequisite: (ENGR 213 with C or better or ENGR 213H with C or better) and (MTH 256 [C] or MTH 256H [C])

ME 317, INTERMEDIATE DYNAMICS, 4 Credits
Continues the study of kinematics and kinetics of particles and rigid bodies, with applications to mechanical systems of current interest to engineers.
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C]) and (ENGR 112 [C] or CS 161 [C] or CBEE 102 [C] or NSE 115 [C])
Equivalent to: ME 317H

ME 317H, INTERMEDIATE DYNAMICS, 4 Credits
Continues the study of kinematics and kinetics of particles and rigid bodies, with applications to mechanical systems of current interest to engineers.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C]) and (ENGR 112 [C] or CS 161 [C] or CBEE 102 [C] or NSE 115 [C])
Equivalent to: ME 317

ME 331, INTRODUCTORY FLUID MECHANICS, 4 Credits
Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSTLISTED as ME 331/ NSE 331.
Prerequisite: ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or ME 311 with C or better or NSE 311 with C or better or ME 311 with C or better or NSE 311 with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 331, ENGR 331H, ME 331, ME 331H, NSE 331, NSE 331H

ME 331H, INTRODUCTORY FLUID MECHANICS, 4 Credits
Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSTLISTED as ME 331/ NSE 331.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or ME 311 with C or better or NSE 311 with C or better or ME 311 with C or better or NSE 311 with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 331, ENGR 331H, ME 331, ME 331H, NSE 331, NSE 331H

ME 332, HEAT TRANSFER, 4 Credits
Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSTLISTED as ME 332/NSE 332.
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or ME 311 with C or better or NSE 311 with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ME 332H, ME 332, ME 332H, NSE 332, NSE 332H
ME 332H, HEAT TRANSFER, 4 Credits
Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSLISTED as ME 332/NSE 332.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 331 with C or better or ME 331H with C or better or NSE 331 with C or better or NSE 331H with C or better or NE 331 with C or better or NE 331H with C or better
Equivalent to: ME 332, NE 332, NSE 332, NSE 332H

ME 351, INTRODUCTION TO INSTRUMENTATION AND MEASUREMENT SYSTEMS, 4 Credits
Illustrates the function, operation, and application of common mechanical engineering instruments, measurement principles, and statistical analysis. Demonstrates elements of measurement systems, including transduction, signal conditioning, and data recording. Examines function and operation of digital data acquisition systems.
Prerequisite: (ENGR 202 with C or better or ENGR 202H with C or better) and (ENGR 212 [C] or ENGR 212H [C]) and (ENGR 213 [C] or ENGR 213H [C])
Equivalent to: ME 451

ME 373, MECHANICAL ENGINEERING METHODS, 4 Credits
Analytical and numerical methods for solving representative mechanical engineering problems. Lec/rec.
Prerequisite: (ENG 112 with C or better or ENGR 112H with C or better) and (MTH 256 [C] or MTH 256H [C]) and MTH 341 [C]
Equivalent to: ME 373H

ME 373H, MECHANICAL ENGINEERING METHODS, 4 Credits
Analytical and numerical methods for solving representative mechanical engineering problems. Lec/rec.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENG 112 with C or better or ENGR 112H with C or better) and (MTH 256 [C] or MTH 256H [C]) and MTH 341 [C]
Equivalent to: ME 373

ME 382, INTRODUCTION TO DESIGN, 4 Credits
Organization, planning, economics, and the use of creativity and optimization in solving mechanical design problems. Case studies and/or industrial design problems. Lec/lab.
Prerequisite: ENGR 248 with C or better and ME 250 (may be taken concurrently) [C] and ENGR 212 [C] and ENGR 213 [C]
Equivalent to: ME 382H

ME 382H, INTRODUCTION TO DESIGN, 4 Credits
Organization, planning, economics, and the use of creativity and optimization in solving mechanical design problems. Case studies and/or industrial design problems. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 248 with C or better and ME 250 (may be taken concurrently) [C] and (PH 211 [C] or PH 211H [C])
Equivalent to: ME 382

ME 383, MECHANICAL COMPONENT DESIGN, 4 Credits
Failure analysis and design of machine components. Lec/lab.
Prerequisite: ME 316 with C or better and ME 250 (may be taken concurrently) [C] and (ENGR 212 [C] or ENGR 212H [C]) and ENGR 213 [C]
Equivalent to: ME 383H

ME 383H, MECHANICAL COMPONENT DESIGN, 4 Credits
Failure analysis and design of machine components. Lec/lab.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 316 with C or better and ME 250 (may be taken concurrently) [C] and (ENGR 212 [C] or ENGR 212H [C]) and ENGR 213 [C]
Equivalent to: ME 383

ME 401, RESEARCH, 1-16 Credits
This course is repeatable for 9 credits.

ME 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

ME 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 9 credits.

ME 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ME 405
This course is repeatable for 9 credits.

ME 406, PROJECTS, 1-16 Credits
This course is repeatable for 15 credits.

ME 407, SEMINAR, 1-16 Credits
Equivalent to: ME 407H
This course is repeatable for 2 credits.

ME 410, INTERNSHIP, 1-16 Credits
Credits may not apply toward BS degree in Mechanical Engineering. Graded P/N.
This course is repeatable for 16 credits.

ME 411, AEROSPACE APPLICATIONS IN MECHANICAL ENGINEERING, 4 Credits
Provides students with the fundamentals of mechanical engineering applications to aerospace. Topics covered include an overview of modern aircraft and spacecraft analysis, with an emphasis on performance, stability, structures, materials, FAA and FAR standards and current professional practices in the conceptual design of aerospace vehicles. Student projects will integrate course topics.
Prerequisite: (ME 316 with C or better and (ME 317 [C] or ME 317H [C]) and (ME 331 [C] or ME 331H [C]) and (ME 373 [C] or ME 373H [C]))
ME 412, DESIGN OF MECHANISMS, 4 Credits
Analysis and study of the function, classification, position, velocity, and acceleration of multi-element mechanical linkages and mechanisms. Synthesis of mechanisms for specified multiple point paths, quick return, dwell, and straight-line motion. The lecture will instruct students in the kinematic analysis and synthesis of mechanisms through the use of theory and software packages. The laboratory will familiarize students with a modern mechanism design and animation software package. Lec/lab.
Prerequisite: (ME 317 with C or better or ME 317H with C or better) and ME 383 [C]

ME 420, APPLIED STRESS ANALYSIS, 4 Credits
Elasticity theory, failure theories, energy methods, finite element analysis.
Prerequisite: ME 316 with C or better

ME 422, MECHANICAL VIBRATIONS, 4 Credits
Dynamic response of single and multiple degree-of-freedom systems.
Prerequisite: ME 317 with C or better or ME 317H with C or better
Equivalent to: ME 422H

ME 422H, MECHANICAL VIBRATIONS, 4 Credits
Dynamic response of single and multiple degree-of-freedom systems.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 317 with C or better or ME 317H with C or better
Equivalent to: ME 422

ME 424, FINITE ELEMENT MODELING OF MECHANICAL ENGINEERING SYSTEMS, 3 Credits
Application of modern finite element code in the analysis of complex mechanical engineering systems. Extensive use of engineering workstations. Lec/lab.
Prerequisite: ME 420 with C or better or ME 520 with C or better

ME 430, SYSTEMS DYNAMICS AND CONTROL, 4 Credits
Modeling and analysis of linear continuous systems in time and frequency domains. Fundamentals of single-input-single-output control system design. CROSSLISTED as ECE 451/ME 430.
Prerequisite: (ME 317 with C or better or ME 317H with C or better or (ECE 351 with C or better and ECE 352 [C] and (ENGR 212 [C] or ENGR 212H [C]))
Equivalent to: ECE 451, ME 430H
Available via Ecampus

ME 430H, SYSTEMS DYNAMICS AND CONTROL, 4 Credits
Modeling and analysis of linear continuous systems in time and frequency domains. Fundamentals of single-input-single-output control system design. CROSSLISTED as ECE 451/ME 430.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ME 317 with C or better or ME 317H with C or better or (ECE 351 with C or better and ECE 352 [C] and (ENGR 212 [C] or ENGR 212H [C]))
Equivalent to: ECE 451, ME 430

ME 443, RENEWABLE ENERGY: THERMAL FLUID SYSTEMS, 4 Credits
Evaluates several thermal/fluid power conversion strategies that deal with both thermal and fluid energy sources in terms of basic conversion technology, resource potential and developmental challenges. There are four modules, each targeting a particular renewable energy system in thermal and fluid sciences.
Prerequisite: (ME 311 with C or better or ME 311H with C or better or NE 311H [C] or NE 331 [C] or NE 331H [C]) and (ME 332 [C] or ME 332H [C] or NE 332 [C] or NE 332H [C])

ME 444, THERMAL SYSTEMS DESIGN AND ANALYSIS, 4 Credits
Integration of the concepts, laws, and methodologies from fluid mechanics, heat transfer, and thermodynamics, into a set of practical tools for thermal energy systems design and analysis.
Prerequisite: (ME 332 with C or better or ME 332H with C or better or NSE 332 with C or better or NSE 332H with C or better) and (ME 312 (may be taken concurrently) [C] or ME 312H (may be taken concurrently) [C] or NE 312 (may be taken concurrently) [C] or NE 312H (may be taken concurrently) [C])

ME 445, INTRODUCTION TO COMBUSTION, 4 Credits
Study of combustion science based on the background of chemistry, thermodynamics, fluid mechanics, heat and mass transfer. Stoichiometry, energetics of chemical reactions, flame temperature, equilibrium product analyses, chemical kinetics, and chain reactions.
Prerequisite: (ME 312 with C or better or ME 312H with C or better) and (ME 332 [C] or ME 332H [C])

ME 450, APPLIED HEAT TRANSFER, 4 Credits
An intermediate heat transfer course seeking to lay a foundation for determining the heating and cooling characteristics with a variety of modern and classical processes. Included is design of multi-component heat transfer systems. Lecture, 110 minutes twice per week.
Prerequisite: ME 332 with C or better or ME 332H with C or better
ME 452, THERMAL AND FLUIDS SCIENCES LABORATORY, 4 Credits
Course emphasis is on experiments related to thermodynamics, heat transfer, and fluid mechanics. Proper experimental methods, data and uncertainty analysis related to thermal and fluids measurements are discussed.
Prerequisite: (ME 311 with C or better or ME 311H with C or better) and (ME 331 [C] or ME 331H [C]) and (ME 332 [C] or ME 332H [C])
Equivalent to: ME 452H

ME 452H, THERMAL AND FLUIDS SCIENCES LABORATORY, 4 Credits
Course emphasis is on experiments related to thermodynamics, heat transfer, and fluid mechanics. Proper experimental methods, data and uncertainty analysis related to thermal and fluids measurements are discussed.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ME 311 with C or better or ME 311H with C or better) and (ME 331 [C] or ME 331H [C]) and (ME 332 [C] or ME 332H [C])
Equivalent to: ME 452

ME 453, STRUCTURE AND MECHANICS LABORATORY, 4 Credits
Techniques for measurement of structural response and material properties. Proper use of rosette strain gauges, load cells, and displacement transducers. Full-field strain measurement using photoelasticity and digital image correlation. Proper implementation of material testing standards. Characterization of anisotropic composite materials.
Prerequisite: ME 451 with C or better

ME 460, INTERMEDIATE FLUID MECHANICS, 4 Credits
Ideal fluid flow including potential flow theory. Introduction to compressible flow. Viscous flow and boundary layer theory. Introduction to turbulence.
Prerequisite: ME 331 with C or better or ME 331H with C or better

ME 461, GAS DYNAMICS, 4 Credits
Studies one-dimensional isentropic flow, nozzles, diffusers, normal and oblique shocks, compressible flow with friction and heating, and an introduction to propulsion systems.
Prerequisite: (ME 312 with C or better or ME 312H with C or better) and (ME 331 [C] or ME 331H [C])

ME 480, MATERIALS SELECTION, 3 Credits
Selecting materials for engineering applications. The major families of materials, their properties, and how their properties are controlled; case studies and design projects emphasizing materials selection.
Prerequisite: MATS 322 with C or better or ENGR 322 with C or better

ME 484, FRACTURE OF MATERIALS, 3 Credits
Fracture mechanics and fatigue mechanisms: mechanisms of ductile and brittle fracture. Environmentally induced fracture and fatigue. Considerations in design of engineering materials and structures will be discussed.
Prerequisite: MATS 322 with C or better or ENGR 322 with C or better

ME 499, SPECIAL TOPICS, 0-16 Credits
Equivalent to: ME 499H
This course is repeatable for 16 credits.

ME 499H, SPECIAL TOPICS, 0-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: ME 499
This course is repeatable for 16 credits.

ME 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ME 502, INDEPENDENT STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

ME 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ME 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ME 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ME 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ME 508, THERMAL FLUID SCIENCE SEMINAR, 1 Credit
Student participation seminar experience for 1 course credit. Students will present and listen to seminars concerning ongoing research within the thermal fluid sciences.

ME 509, MATERIALS SCIENCE SEMINAR, 1 Credit
Student participation seminar experience for one credit; students will listen to seminars concerning ongoing research activities within materials science. Students will also have the opportunity to present their own research results periodically. Graded P/N.
Equivalent to: MATS 509
ME 511, PRECISION MACHINE DESIGN, 3 Credits
Tolerance analysis and application in design/manufacturing practice, principles of machine design and computational analysis of errors in machine design, sensor mounting and sensor calibration, machine level error budget with geometric and thermal errors, structural design of joints and supports, deterministic damping, exact constraint design for flexures and couplings, bearing systems design, motion and power system design for machine tools. CROSSTLISTED as ME 511/MFGE 511.
Equivalent to: MFGE 511
Recommended: An understanding of mechanical component design and solid mechanics.

ME 512, DESIGN OF MECHANISMS, 4 Credits
Analysis and study of the function, classification, position, velocity, and acceleration of multi-element mechanical linkages and mechanisms. Synthesis of mechanisms for specified multiple point paths, quick return, dwell, and straight-line motion. The lecture will instruct students in the kinematic analysis and synthesis of mechanisms through the use of theory and software packages. The laboratory will familiarize students with a modern mechanism design and animation software package. Lec/lab.
Recommended: (ME 317 or ME 317H) and ME 383

ME 513, BIO-INSPIRED DESIGN, 4 Credits
Intersection of design and biology that seeks to systematically mine biological knowledge to solve design problems. Investigates inspiration from nature from three different types: visual, conceptual, and computational. Includes design rules, heuristics, principles or patterns to solve engineering problems. Algorithmic bio-inspiration emulates natural algorithms for control or optimization problems.

ME 515, RISK AND RELIABILITY ANALYSIS IN ENGINEERING DESIGN, 4 Credits
Fundamentals of risk, uncertainty, and reliability. Methods to analyze and quantify the risk of failures, and the reliability of complex systems, including fault tree analysis, reliability block diagrams, probabilistic risk assessment. Introduction to research methods for risk and reliability analysis during the early design stages.

ME 516, MODELING AND ANALYSIS OF COMPLEX SYSTEMS, 4 Credits
Introduction to challenges and considerations when designing complex systems. Fundamentals of systems engineering and methods used in practice. Models and tools used to enable the use of models for trade studies during the design of complex systems. Model-based design environments and methodologies. Introduction to decision support tools in design.

ME 517, OPTIMIZATION IN DESIGN, 4 Credits
Optimization methods as applied to engineering design, theory and application of nonlinear optimization techniques for multivariate unconstrained and constrained problems. Model boundedness and sensitivity.

ME 519, SELECTED TOPICS IN DESIGN, 3-4 Credits
Topics in mechanical design selected from the following: design processes, quality engineering, design for assembly, statistical machine design, the Tagucchi method, and parametric design.
This course is repeatable for 32 credits.

ME 520, APPLIED STRESS ANALYSIS, 4 Credits
Elasticity theory, failure theories, energy methods, finite element analysis. Recommended: ME 316

ME 521, LINEAR ELASTICITY, 4 Credits
A general introduction to the theory of elasticity. The solution of 2-D problems using the Airy stress function in rectangular and polar coordinates. The solution of 3-D problems using the Galerkin vector, the Papkovich-Neuber solution, and complex variable methods. Applications to asymptotic fields at discontinuities, contact and crack problems, and thermoelasticity.
Recommended: ME 316

ME 522, MECHANICAL VIBRATIONS, 4 Credits
Dynamic response of single and multiple degree-of-freedom systems. Recommended: ME 317

ME 523, ADVANCED STRESS ANALYSIS, 4 Credits
An introduction to the mechanics of nonlinear elastic, plastic, and viscoelastic material behavior including large deformations.
Recommended: ME 316

ME 524, FINITE ELEMENT MODELING OF MECHANICAL ENGINEERING SYSTEMS, 3 Credits
Application of modern finite element code in the analysis of complex mechanical engineering systems. Extensive use of engineering workstations. Lec/lab.
Prerequisite: ME 520 with C or better

ME 526, NUMERICAL METHODS FOR ENGINEERING ANALYSIS, 3 Credits
Equivalent to: NE 526, NSE 526
Recommended: Programming experience and previous exposure to numerical methods

ME 529, SELECTED TOPICS IN SOLID MECHANICS, 3-4 Credits
Advanced topics in solid mechanics emphasizing research applications of current interest.
This course is repeatable for 32 credits.
ME 531, LINEAR MULTIVARIABLE CONTROL SYSTEMS I, 4 Credits
Theoretical design of control systems for systems modeled by linear multivariable differential equations. Topics covered include controllability, observability, state feedback control, pole placement, output feedback, estimator design, and control designs that include both estimators and regulators.

ME 532, LINEAR MULTIVARIABLE CONTROL SYSTEMS II, 4 Credits
Focuses on designing control systems where the device to be controlled is an uncertain system, yet can be described by a set of linear differential equations. Lec.
Prerequisite: ME 531 with C or better

ME 533, NONLINEAR DYNAMIC ANALYSIS, 4 Credits
Course focuses on understanding the behavior of nonlinear dynamic systems of interest to mechanical engineers. Lec.
Recommended: ME 317

ME 534, NONLINEAR MULTIVARIABLE CONTROL SYSTEMS, 4 Credits
Focuses on designing control systems when the device to be controlled is mathematically described by a nonlinear set of differential equations. Lec.
Prerequisite: ME 533 with C or better

ME 539, SELECTED TOPICS IN DYNAMICS, 1-16 Credits
Advanced topics in dynamics emphasizing research applications of current interest.
This course is repeatable for 30 credits.

ME 540, INTERMEDIATE THERMODYNAMICS, 4 Credits
Students are expected to master classical thermodynamics by way of solving extended problems using software tools. Statistical thermodynamics concepts are also introduced and exercised.
Recommended: ME 312

ME 541, LIQUID-VAPOR PHASE CHANGE AND HEAT TRANSFER, 4 Credits
Advanced treatment of underlying physics and engineering modeling approaches for heat transfer associated with vapor/liquid phase change processes. Topics include thermodynamics and mechanical aspects of phase change processes, pool boiling, filmwise and dropwise condensation, internal convective boiling and condensation, and other emerging areas in phase change heat transfer.

ME 543, RENEWABLE ENERGY: THERMAL FLUID SYSTEMS, 4 Credits
Evaluates several thermal/fluid power conversion strategies that deal with both thermal and fluid energy sources in terms of basic conversion technology, resource potential and developmental challenges. There are four modules, each targeting a particular renewable energy system in thermal and fluid sciences.
Recommended: (ME 311 or ME 311H or NE 311 or NE 311H) and (ME 331 or ME 331H or NE 331 or NE 331H) and (ME 332 or ME 332H or NE 332 or NE 332H)

ME 544, ADVANCED POWER GENERATION SYSTEMS, 4 Credits
Thermal mechanical evaluation of modern power generation technologies, including fossil and nuclear Rankine cycle power plants, gas turbines, cogeneration power plants, distributed power generation and fuel cells. Lec/rec.
Recommended: ME 312 and (ME 332 or ME 332H)

ME 545, INTRODUCTION TO COMBUSTION, 4 Credits
Study of combustion science based on the background of chemistry, thermodynamics, fluid mechanics, heat and mass transfer. Stoichiometry, energetics of chemical reactions, flame temperature, equilibrium product analyses, chemical kinetics, and chain reactions.
Recommended: ME 312 and (ME 332 or ME 332H)

ME 546, CONVECTION HEAT TRANSFER, 3 Credits
An advanced treatment of forced and natural convection heat transfer processes emphasizing underlying physical phenomena. Current topical literature will be considered; analytical and numerical problem solving is included.
Recommended: (ME 332 or ME 332H) and ME 373

ME 547, CONDUCTIVE HEAT TRANSFER, 3 Credits
Analytical and numerical solutions to steady state and transient conduction problems.
Recommended: (ME 332 or ME 332H) and ME 373

ME 548, RADIATION HEAT TRANSFER, 3 Credits
Analytical and numerical methods of solution of thermal radiation problems.
Recommended: (ME 332 or ME 332H) and ME 373

ME 549, SELECTED TOPICS IN HEAT TRANSFER, 3 Credits
Topics in heat transfer including advanced problems in conduction, radiation, and convection. Additional examination of heat transfer in multiphase systems, inverse problems, combined modes, equipment design, solution techniques and other topics of current interest considered, including extensive use of current literature. Not all topics covered each year.
This course is repeatable for 9 credits.
ME 550, APPLIED HEAT TRANSFER, 4 Credits
An intermediate heat transfer course seeking to lay a foundation for determining the heating and cooling characteristics with a variety of modern and classical processes. Included is design of multi-component heat transfer systems. Lecture, 110 minutes twice per week.
Recommended: ME 332 or ME 332H

ME 552, MEASUREMENTS IN FLUID MECHANICS AND HEAT TRANSFER, 4 Credits
Course emphasis is on measurement techniques and data analysis methods related to fluid mechanics and heat transfer. Proper experimental methods, data and uncertainty analyses related to thermal and fluids measurements are discussed. Local and spatial mapping of fluid and thermal fields are highlighted.
Recommended: (ME 331 or ME 331H) and (ME 332 or ME 332H) and ME 451.

ME 553, STRUCTURE AND MECHANICS LABORATORY, 4 Credits
Techniques for measurement of structural response and material properties. Proper use of rosette strain gauges, load cells, and displacement transducers. Full-field strain measurement using photoelasticity and digital image correlation. Proper implementation of material testing standards. Characterization of anisotropic composite materials.
Recommended: ME 451

ME 560, INTERMEDIATE FLUID MECHANICS, 4 Credits
Ideal fluid flow including potential flow theory. Introduction to compressible flow. Viscous flow and boundary layer theory. Introduction to turbulence.
Recommended: ME 331

ME 561, GAS DYNAMICS, 4 Credits
Studies one-dimensional isentropic flow, nozzles, diffusers, normal and oblique shocks, compressible flow with friction and heating, and an introduction to propulsion systems.
Recommended: ME 312 and (ME 331 or ME 331H)

ME 564, TURBULENCE MODELING, 3 Credits
An introductory course on theory of different turbulence modeling techniques such as Reynolds Averaged Navier Stokes (RANS), Large Eddy Simulation (LES), and Direct Numerical Simulation (DNS) applied to a range of turbulent flows including free shear flows, boundary layers, and internal flows.
Prerequisite: ME 560 with C or better and (ME 565 [C] or ME 566 [C])

ME 565, INCOMPRESSIBLE FLUID MECHANICS, 3 Credits
Generalized fluid mechanics; kinematics; methods of description, geometry of the vector field, dynamics of nonviscous fluids, potential motion, two-dimensional potential flow with vorticity.

ME 566, VISCOUS FLOW, 3 Credits
Boundary layer, stability, transition prediction methods, computational methods in fluid mechanics, recent developments.

ME 567, ENGINEERING APPLICATIONS OF COMPUTATIONAL FLUID DYNAMICS, 4 Credits
Basic concepts of computational fluid dynamics, a technique used for solving fully three-dimensional fluid flow problems with no exact solution, will be discussed and applied to general engineering applications using commercially available software. Lec.
Recommended: ME 312 and (ME 331 or ME 331H)

ME 568, TURBULENT FLOW DYNAMICS, 4 Credits
An introductory course of the basic physics of turbulent flows, coverage will include statistical methods and physical interpretation of a range of flows including boundary layer flows, internal flows, and environmental flows.
Prerequisite: ME 560 with C or better
Recommended: A first course in fluid mechanics such as ME 331

ME 569, SELECTED TOPICS IN FLUID MECHANICS, 2-4 Credits
Topics in fluid mechanics emphasizing research applications of current interest.
This course is repeatable for 32 credits.

ME 580, MATERIALS SELECTION, 3 Credits
Selecting materials for engineering applications. The major families of materials, their properties, and how their properties are controlled; case studies and design projects emphasizing materials selection. Lec/lab.
Equivalent to: MATS 580
Recommended: MATS 322 or ENGR 322

ME 583, COMPOSITE MATERIALS, 3 Credits
Explores fibers and matrices, mechanics of composites, reinforcement and failure mechanisms, properties and applications.
Recommended: ME 420 and ME 483 with a minimum grade of C

ME 585, FATIGUE OF MATERIALS, 4 Credits
Analyzes the failure of materials by fatigue including how fatigue behavior is characterized, how fatigue failure is predicted, the physical mechanisms responsible for fatigue failure of various materials, and how such behavior is related to the atomic structure and microstructure of the material.
Prerequisite: ME 570 with C or better or MATS 570 with C or better
ME 589, SELECTED TOPICS IN MATERIALS, 3 Credits
Topics in materials science to correspond to areas of graduate research. Topics will be chosen from the following list: optical materials, dielectrics, oxidation and corrosion, ceramics, thermophysical properties, polymers and viscoelasticity, coatings and thin films. Lec/rec. This course is repeatable for 32 credits.

ME 596, SELECTED TOPICS IN THERMODYNAMICS, 3 Credits
Topics in thermodynamics including advanced problems in classical thermodynamics and statistical thermodynamics of current interest. Topics will likely be considered, including extensive use of literature. Not all topics covered each year. This course is repeatable for 32 credits.

ME 597, PRECISION MOTION GENERATION, 4 Credits
Introduces fundamental knowledge in mechatronic systems used in manufacturing equipment such as CNC machine tools, and their computer numerical controls. Students will be exposed to sensors and actuators utilized in machine tools, industrial robots and for process automation. Fundamental knowledge to model and identify dynamics of motion delivery systems, design and analysis of accurate position control algorithms for precision motion generation will be covered. Digital motion control design will be introduced. Motion planning and real-time path interpolation algorithms will be covered. Students will be able to design NC systems for 2D motion platforms. Recommended: ME 430. This course is repeatable for 32 credits.

ME 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 32 credits.

ME 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ME 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ME 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ME 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

ME 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

ME 611, MODERN PRODUCT DESIGN, 4 Credits
Modern product development, design and prototyping are covered. Product development and prototyping is examined from a research standpoint in this course. Customer outcomes gathering, functional modeling, product architecture, modern techniques for concept generation and selection are explored. Also covered are recently developed theories and techniques for prototyping. The topics’ place in the overall design process is shown through a product development and prototyping project.

ME 613, SUSTAINABLE PRODUCT DESIGN, 4 Credits
Graduate students will work in multidisciplinary design teams to develop innovative and environmentally friendly products. Combining the principles of integrated product development and sustainable design thinking, students will (a) advance their knowledge of the design process by creating a patent-quality new product, (b) learn and employ environmentally-minded design theory and methods, including various software packages and online tools, and (c) further enhance teamwork working skills by working collaboratively in a professional design team. Sustainable Product Development is conducted as a collaborative design experience, in that lectures, discussion, and team working time will be integrated into class sessions.

ME 615, DESIGN UNDER UNCERTAINTY, 4 Credits
Tackles the problem of decision making in engineering design. The fundamental challenge faced in making decisions in engineering designs is that they are almost exclusively decisions made under uncertainty. Sources of uncertainty could result from engineering models, experiments conducted, or lack of knowledge of future events. The course will cover three basic topics 1) how do we quantify uncertainty, 2) how do we account for the uncertainty in decision making, and 3) how do we make design selection decisions about products or systems we design. Prerequisite: ME 517 with C or better.

ME 617, DESIGN AUTOMATION, 4 Credits
Design automation is the field of study wherein advanced numerical methods are used to automate difficult or tedious design decisions. Typically, such methods are based on numerical optimization and artificial intelligence. They work in tandem with other engineering digital tools like computer-aided design, computer-aided manufacturing, and finite-element analysis. This course builds upon a fundamental understanding of optimization to introduce students to a range of different techniques that may be used to support engineering decision-making. This includes heuristic methods, AI tree-search, discrete and stochastic algorithms. The course concludes with discussion of recent innovations in multi-objective, multi-disciplinary and robust optimization. Prerequisite: ME 517 with C or better.

ME 667, COMPUTATIONAL FLUID DYNAMICS, 3 Credits
Application of modern computational techniques to solve a wide variety of fluid dynamics problems including both potential and viscous flow with requirements for computer code development. Prerequisite: (ME 560 with C or better or ME 565 with C or better or ME 566 with C or better) and (ME 526 [C] or ME 575 [C]).

Microbiology (MB)

MB 110, ORIENTATION TO MICROBIOLOGY, 1 Credit
Introduction of incoming microbiology students to college life with an emphasis on faculties, facilities, services, and curricula in microbiology. Exposure to career opportunities in microbiology. Graded P/N.
MB 201, LABORATORY SKILLS, 1-16
Credits
These credits are designed for students who are doing experiential learning in a research laboratory on campus, performing basic laboratory tasks that are not elevated to the level of an independent research project. Graded P/N. This course is repeatable for 16 credits.

MB 230, *INTRODUCTORY MICROBIOLOGY, 4 Credits
Microbiology as it affects our everyday lives. The impact of microorganisms on health, food/water sanitation, environment, industry, and genetic engineering. Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: MB 230H
Available via Ecampus

MB 255, *ALLIED HEALTH MICROBIOLOGY, 4 Credits
General properties of cellular microbes and viruses, microbial biochemistry and genetics, pathogenesis and disease, immunity, and microbial infections. Lecture and lab emphasis is on medical microbiology, infectious diseases, and public health. Not intended for biological sciences majors. Lec/lab. CROSSLISTED as BHS 255/MB 255.
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: BHS 255
Available via Ecampus

MB 290, SUCCESS IN MICROBIOLOGY, 1 Credit
Science skills, science literacy, ethics, and professional development to build a successful career in Microbiology. Learn the process of research, access and analyze primary literature, evaluate user-generated science content, practice professional skills, and identify and plan for experience-building opportunities such as jobs, research and internships. Sophomore standing or higher.

MB 299, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies.
Equivalent to: MB 299H
This course is repeatable for 16 credits.

MB 299H, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: MB 299
This course is repeatable for 16 credits.

MB 302, GENERAL MICROBIOLOGY, 3 Credits
Emphasis on cytology, physiology, virology, growth and control of growth with coverage of the role of microorganisms in nature, in disease, and as useful tools.
Prerequisite: (CH 332 with C- or better or CH 335 with C- or better) and ((BI 212 with C- or better or BI 212H with C- or better) and (BI 213 [C-] or BI 213H [C-]) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]))
Available via Ecampus

MB 303, GENERAL MICROBIOLOGY LABORATORY, 2 Credits
Development of laboratory techniques; exercises designed to reinforce concepts covered in MB 302. MB 302 is a prereq that may be taken prior to or concurrently with MB 303. Lec/lab.
Prerequisite: MB 302 (may be taken concurrently) with D- or better
Equivalent to: MB 303H
Recommended: Two terms organic chemistry

MB 310, BACTERIAL MOLECULAR GENETICS, 3 Credits
Introductory concepts of bacterial molecular genetics. Topics include DNA replication, mutation, DNA repair, DNA recombination, transposons, bacteriophages, genetic manipulation, and gene regulation.
Prerequisite: MB 302 with D- or better and (BB 314 [D-] or BB 314H [D-]) and (BB 450 [D-] or BB 490 [D-]) and (BB 451 (may be taken concurrently) [D-] or BB 491 (may be taken concurrently) [D-])
Equivalent to: MB 306

MB 311, MOLECULAR MICROBIOLOGY LAB: A WRITING INTENSIVE COURSE, 3 Credits
Scientific writing, laboratory notebook composition, experimental design, and laboratory experiments in bacterial molecular biology. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (MB 303 with D- or better or MB 303H with D- or better) and MB 310 (may be taken concurrently) [D-]
Equivalent to: MB 307

MB 312, BACTERIAL PHYSIOLOGY AND METABOLISM, 3 Credits
Molecular structure and function, macromolecular assembly, energy production and use, and cellular growth.
Prerequisite: MB 310 with D- or better and BB 451 [D-]
Equivalent to: MB 304
Recommended: BB 450

MB 314, AQUATIC MICROBIOLOGY, 3 Credits
A survey of the diversity, ecology, and physiology of microbes in aquatic systems, with emphasis on their roles in food webs, chemical cycling, and human health. Provides the background knowledge and quantitative/analytical skills necessary to interpret and critique current and historical research in the fields of general aquatic microbiology.
Prerequisite: (CH 231 with D- or better or CH 231H with D- or better or CH 121 with D- or better) and (CH 232 [D-] or CH 232H [D-] or CH 122 [D-]) and (CH 233 [D-] or CH 233H [D-] or CH 123 [D-])
MB 320, HUMAN BACTERIOLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 205 [C-] and BI 206 [C-]) or ((BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]))
Equivalent to: BHS 320
Available via Ecampus

MB 330, *DISEASE AND SOCIETY, 3 Credits
Infectious disease has many effects on the development of society, and likewise, human interactions affect the development of disease. The course examines these interactions with a focus on the role of race, class, and economic status in the development of epidemics. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

MB 340, HUMAN VIROLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 205 [C-] and BI 206 [C-]) or ((BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]))
Equivalent to: BHS 340
Available via Ecampus

MB 385, ^EMERGING INFECTIOUS DISEASES AND EPIDEMICS, 3 Credits
Emerging and reemerging infectious disease is a contemporary global issue of great concern. To understand and evaluate the issue, the course covers germ theory, disease history and ecology, microbial pathogenesis and the immune response, historic plagues, and the biological, environmental, population and social changes that contribute to disease emergence. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ((BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) and (BI 213 [D-] or BI 213H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-]))
Equivalent to: BI 385

MB 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: MB 399H
This course is repeatable for 16 credits.

MB 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: MB 399
This course is repeatable for 16 credits.

MB 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MB 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

MB 405, READING AND CONFERENCE, 1-16 Credits
Conference: Instruction in microbiology.
This course is repeatable for 16 credits.

MB 406, SPECIAL PROJECTS, 1-16 Credits
Reading and Conference/Instructor in Microbiology.
This course is repeatable for 16 credits.

MB 407, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

MB 410, OCCUPATIONAL INTERNSHIP, 1-10 Credits
Supervised work experience at selected cooperating institutions, agencies, laboratories, clinics or companies. Maximum of 10 credits allowed but no more than 3 credits may be used to satisfy microbiology major requirement of 36 credits. Graded P/N.
This course is repeatable for 10 credits.

MB 416, IMMUNOLOGY, 3 Credits
Basic theory and applications of immunochemistry, immunogenetics, and cellular immunology. Examination of immunologically related diseases.
Prerequisite: BB 450 with D- or better or BB 490 with D- or better

MB 417, IMMUNOLOGY LABORATORY, 2 Credits
Laboratory on the applications of current immunological techniques.
Prerequisite: (MB 303 with D- or better or MB 303H with D- or better) and MB 416 (may be taken concurrently) [D-]

MB 420, MICROBIAL GENOMES, BIOGEOCHEMISTRY, AND DIVERSITY, 3 Credits
A survey of microbial diversity from the earliest lifeforms to the modern role of bacteria and archaea in global biogeochemical cycles. Topics covered include molecular evolution, microbial genomics, biochemical diversity, and metabolic pathways that adapt cells to extreme environments. Particular emphasis is placed on marine systems, from photosynthesis in surface waters to life in the ocean crust.
Prerequisite: BB 451 with D- or better

MB 422, AQUATIC MICROBIOLOGY LABORATORY, 2 Credits
Examine patterns of microbiological communities and how those patterns relate to environmental factors. Collect and process samples, analyze the resultant data and present those results. Focus on the microbial ecology of freshwater and marine systems as a foundation for discovery and learning using current analytical techniques.
Prerequisite: MB 303 with D- or better

MB 423, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MB 424, SPECIAL PROJECTS, 1-16 Credits
Reading and Conference/Instructor in Microbiology.
This course is repeatable for 16 credits.

MB 425, RESEARCH AND CONFERENCE, 1-16 Credits
Conference: Instruction in microbiology.
This course is repeatable for 16 credits.

MB 427, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

MB 428, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MB 430, HUMAN BACTERIOLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 205 [C-] and BI 206 [C-]) or ((BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]))
Equivalent to: BHS 320

MB 431, HUMAN VIROLOGY, 4 Credits
Prerequisite: (BI 204 with C- or better and BI 205 [C-] and BI 206 [C-]) or ((BI 211 [C-] or BI 211H [C-]) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-]) or (BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-]))
Equivalent to: BHS 340

MB 432, HUMAN VIROLOGY LABORATORY, 2 Credits
Laboratory on the applications of current immunological techniques.
Prerequisite: (MB 303 with D- or better or MB 303H with D- or better) and MB 416 (may be taken concurrently) [D-]
MB 430, BACTERIAL PATHOGENESIS, 3 Credits
Bacteria pathogenic for humans, emphasizing the structural, physiological and genetic mechanisms of pathogenesis. Role of the immune system in pathogenesis and protection.
Prerequisite: MB 302 with D- or better and MB 310 [D-] or BB 451 [D-]

MB 434, VIROLOGY, 3 Credits
Properties of viruses, their biology and pathogenesis. Emphasis on viruses causing human disease.
Prerequisite: ((BB 450 with D- or better or BB 450H with D- or better) and (BB 451 [D-] or BB 451H [D-]) or (BB 490 [D-] and BB 491 [D-]) and BB 492 [D-])

MB 435, PATHOGENIC MICROBES LABORATORY, 2 Credits
Laboratory experiments to illustrate concepts presented in MB 430 and/or MB 434, focusing on pathogenic microorganisms.
Prerequisite: (MB 303 with D- or better or MB 303H with D- or better) and MB 302 [D-] and (MB 430 (may be taken concurrently) [D-] or MB 434 (may be taken concurrently) [D-])

MB 436, THE HUMAN MICROBIOME, 3 Credits
Examines the biodiversity, function, and medical importance of the communities of microorganisms that inhabit the human body. A diverse array of topics will be discussed, including how the human microbiome is studied, case studies of specific aspects of the human microbiome, and emerging theories of how the microbiome influences human health.
Prerequisite: BI 314 with D- or better or BB 314 with D- or better or BI 314H with D- or better or MB 302 with D- or better

MB 440, FOOD MICROBIOLOGY, 3 Credits
Role of microorganisms in food spoilage, infection, and intoxication; also basic principles in contamination control and germicidal treatment during processing, preparing, and distributing food for consumption.
Prerequisite: MB 302 with D- or better

MB 441, FOOD MICROBIOLOGY LABORATORY, 2 Credits
Laboratory techniques to accompany MB 440/MB 540.
Prerequisite: (MB 303 with D- or better or MB 303H with D- or better) and MB 440 (may be taken concurrently) [D-]
Recommended: MB 302

MB 448, MICROBIAL ECOLOGY, 3 Credits
A comparison of soil sediments and freshwater as microbial habitats. Discussion of the role of microorganisms in nutrient cycles, effects of microbial activity on plant and animal life.
Prerequisite: MB 302 with D- or better

MB 456, MICROBIAL GENETICS AND BIOTECHNOLOGY, 3 Credits
General biology of natural, genetically engineered, and composite plasmids. Major topics include extrachromosomal DNA replication, plasmid transmission, insertion elements, transposons, gene expression, and recombinant DNA vectors. Biotechnological applications and molecular genetic tools are emphasized.
Prerequisite: MB 302 with D- or better and (BB 450 [D-] or BB 490 [D-]) and (BB 451 [D-] or BB 491 [D-]) and (MB 310 [D-] or BB 492 [D-])

MB 479, FERMENTATION MICROBIOLOGY, 3 Credits
An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors. CROSSLISTED as FST 479/MB 479 and FST 579/MB 579.
Prerequisite: ((BI 212 with C- or better or BI 212H with C- or better) or ((BI 221 with C- or better or BI 221H with C- or better) and (BI 223 [C-] or BI 223H [C-])) and CH 331 [C-] and CH 332 [C-] and MB 350 [D-] or BB 450 [D-] and MB 302 [D-]
Equivalent to: FST 479

MB 480, GENERAL PARASITOLOGY, 3 Credits
Covers a broad overview of parasitology with emphasis on medical parasitology. Explores important groups and host/parasite relationships among all taxa from invertebrates to vertebrates, including mammals.
Prerequisite: ((BI 211 with D- or better or BI 211H with D- or better) and (BI 212 [D-] or BI 212H [D-]) and (BI 213 [D-] or BI 213H [D-]) or ((BI 221 [D-] or BI 221H [D-]) and (BI 222 [D-] or BI 222H [D-]) and (BI 223 [D-] or BI 223H [D-])) or (BI 204 [D-] and BI 205 [D-] and BI 206 [D-])
Available via Ecampus

MB 490, MICROBIOLOGY CAPSTONE EXPERIENCE, 2 Credits
Capstone experience for microbiology students to practice professional skills necessary to sustain a career in science. Students will work in teams to analyze research data and communicate this analysis, in addition to explore career opportunities and learn how to successfully compete for jobs. Graded P/N.
Prerequisite: MB 302 with D- or better

MB 491, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE, 3 Credits
Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as FW 491/MB 491 and FW 591/MB 591.
Equivalent to: FW 491
Recommended: 9 credits of upper-division fisheries or biology.
MB 496, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB, 2 Credits
This laboratory complements lectures in FW/MB 491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods. CROSSLISTED as FW 496/MB 496 and FW 596/MB 596.
Equivalent to: FW 496
Recommended: MB 303 or other upper-division laboratory course.

MB 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.
Recommended: One term of biology

MB 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MB 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

MB 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MB 506, SPECIAL PROJECTS, 1-6 Credits
This course is repeatable for 6 credits.

MB 507, SEMINAR, 1 Credit
Graded P/N.
This course is repeatable for 99 credits.

MB 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

MB 511, SCIENTIFIC SKILLS, 1 Credit
Foundational skills for success in graduate school. Students will also become familiar with ongoing research programs in three active programs in the Microbiology Program.

MB 512, HIGHLIGHTS OF MICROBIOLOGY, 1 Credit
Designed for students to gain familiarity with the history of microbiology through reading, reviewing and writing about great papers in the field. Students also meet the Microbiology Program faculty and students, and learn about some of the research in the Microbiology Program through attending colloquium.

MB 513, MICROBIAL SYSTEMS, 3 Credits
Presentation of a modern view of microbiology through the lens of microbes’ influences on our planet’s habitats and inhabitants. Discusses current research and the use of advanced techniques to illustrate how microbiology is contributing to many cross-disciplinary problems that can involve engineering, public health, sociology, ecology, geology, etc.

MB 516, IMMUNOLOGY, 3 Credits
Basic theory and applications of immunochemistry, immunogenetics, and cellular immunology. Examination of immunologically related diseases.
Recommended: BB 450 or BB 490

MB 517, IMMUNOLOGY LABORATORY, 2 Credits
Laboratory on the applications of current immunological techniques.
Recommended: (MB 303 or MB 303H) and completion or concurrent enrollment in MB 516

MB 520, MICROBIAL GENOMES, BIOGEOCHEMISTRY, AND DIVERSITY, 3 Credits
A survey of microbial diversity from the earliest lifeforms to the modern role of bacteria and archaea in global biogeochemical cycles. Topics covered include molecular evolution, microbial genomics, biochemical diversity, and metabolic pathways that adapt cells to extreme environments. Particular emphasis is placed on marine systems, from photosynthesis in surface waters to life in the ocean crust.
Recommended: BB 451 or BB 551

MB 522, AQUATIC MICROBIOLOGY LAB, 2 Credits
Examine patterns of microbiological communities and how those patterns relate to environmental factors. Collect and process samples, analyze the resultant data and present those results. Focus on the microbial ecology of freshwater and marine systems as a foundation for discovery and learning using current analytical techniques.

MB 530, BACTERIAL PATHOGENESIS, 3 Credits
Bacteria pathogenic for humans, emphasizing the structural, physiological and genetic mechanisms of pathogenesis. Role of the immune system in pathogenesis and protection.
Recommended: MB 302 and MB 310 and (BB 451 or BB 491)

MB 534, VIROLOGY, 3 Credits
Properties of viruses, their biology and pathogenesis. Emphasis on viruses causing human disease.
Recommended: ((BB 450 or BB 450H) and (BB 451 or BB 451H)) or (BB 490 and BB 491 and BB 492)

MB 540, FOOD MICROBIOLOGY, 3 Credits
Role of microorganisms in food spoilage, infection, and intoxication; also basic principles in contamination control and germicidal treatment during processing, preparing, and distributing food for consumption.
Recommended: MB 302

MB 541, FOOD MICROBIOLOGY LABORATORY, 2 Credits
Laboratory techniques to accompany MB 440/MB 540.
Prerequisite: MB 540 (may be taken concurrently) with C or better
Recommended: MB 302 and MB 303

MB 548, MICROBIAL ECOLOGY, 3 Credits
A comparison of soil sediments and freshwater as microbial habitats. Discussion of the role of microorganisms in nutrient cycles, effects of microbial activity on plant and animal life.
Recommended: MB 302
MB 555, BIOLOGY OF THE PROKARYOTES, 3 Credits
An integrative graduate course examining bacterial and archaeal life at different levels of biological organization, emphasizing current research and analysis of primary literature. The various life styles of prokaryotes are the common theme of the course. Topics include biofilms, cooperation and communication, development, stress responses, metabolic interactions involved in global nutrient cycling. Offered every even year in winter term.
Recommended: BB 450 and MB 310 and MB 312

MB 556, MICROBIAL GENETICS AND BIOTECHNOLOGY, 3 Credits
General biology of natural, genetically engineered, and composite plasmids. Major topics include extrachromosomal DNA replication, plasmid transmission, insertion elements, transposons, gene expression, and recombinant DNA vectors. Biotechnological applications and molecular genetic tools are emphasized.
Recommended: MB 302 and (BB 450 or BB 490) and (BB 451 or BB 491) and (MB 310 or BB 492)

MB 579, FERMENTATION MICROBIOLOGY, 3 Credits
An introduction to industrial microbiology with a focus on the physiology of fermentation and use of microorganisms for the production of food ingredients, fermented foods, and beverages. FST students need to take BB 350 and MB students need to take BB 450 for their respective majors.
Equivalent to: FST 579
Recommended: ((BI 212 or BI 212H) or ((BI 221 or BI 221H) and (BI 223 or BI 223H))) and CH 331, CH 332, (BB 350 or BB 450) and MB 302

MB 580, GENERAL PARASITOLOGY, 3 Credits
Covers a broad overview of parasitology with emphasis on medical parasitology. Explores important groups and host/parasite relationships among all taxa from invertebrates to vertebrates, including mammals.
Available via Ecampus

MB 591, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE, 3 Credits
Introduction to diseases of fish including pathogens important to aquaculture and ornamental industries as well as to wild fish populations and conservation programs. CROSSLISTED as FW 491/MB 491 and FW 591/MB 591.
Equivalent to: FW 591
Recommended: 9 credits of upper-division fisheries or biology.

MB 596, FISH DISEASES IN CONSERVATION BIOLOGY AND AQUACULTURE LAB, 2 Credits
This laboratory complements lectures in FW/MB 491/591, with students learning basic necropsy techniques; identification of bacterial, viral and metazoan pathogens; and molecular identification methods. CROSSLISTED as FW 496/MB 496 and FW 596/MB 596.
Equivalent to: FW 596
Recommended: MB 303 or other upper-division laboratory course.

MB 599, SELECTED TOPICS, 0-6 Credits
This course is repeatable for 24 credits.

MB 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MB 603, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

MB 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MB 607, SEMINAR, 1 Credit
Graded P/N.
This course is repeatable for 99 credits.

MB 610, INTERNSHIP, 1-9 Credits
This course is repeatable for 16 credits.

MB 668, MICROBIAL BIOINFORMATICS AND GENOME EVOLUTION, 4 Credits
Theoretical and practical issues in microbial genome sequencing and annotation, with an emphasis on evolutionary theory and comparative analysis of microbial genome sequences. Metabolic prediction from genomes, with a population genetics perspective on comparative microbial genomics. Exploration of applications of genomics and allied tools to microbial populations, including metagenomics, metaproteomics, and metatranscriptomics.
Equivalent to: MCB 668

MB 699, SPECIAL TOPICS, 0-16 Credits
Lec/lab.
This course is repeatable for 16 credits.

Military Science (MS)

MS 111, MILITARY SCIENCE I: INTRODUCTION TO ARMY LEADERSHIP AND ROTC, 1 Credit
Introduction to ROTC, and its relationship to the U.S. Army. Role of the army officer, including leadership and management fundamentals. Introduction to land navigation. Lec/lab.

MS 112, MILITARY SCIENCE I: INTRODUCTION TO BASIC MILITARY SKILLS, 1 Credit
Basic small unit tactics; land navigation; how to read a topographic map and use a magnetic compass; includes practical exercises. Graded A-F only.

MS 113, MILITARY SCIENCE I: INTRODUCTION TO TACTICAL LEADERSHIP, 1 Credit
Customs and traditions of the U.S. Army; unit organization and missions. Types of careers available to army officers. Practical exercises. Lec/lab.
MS 130, MILITARY PHYSICAL CONDITIONING, 1 Credit
Prepares military science cadets and university students to excel in the Army Physical Fitness Test (AFPT). (Bacc Core Course)
Attributes: CSFT – Core, Skills, Fitness
This course is repeatable for 11 credits.

MS 211, MILITARY SCIENCE II: FOUNDATIONS OF LEADERSHIP I, 2 Credits
An examination of effective leadership. Development of interpersonal skills using practical exercises and case studies. Graded A-F only. Lec/lab.

MS 212, MILITARY SCIENCE II: FUNDAMENTALS OF LEADERSHIP II, 2 Credits
History of the American soldier from 1775 to 1919; weaponry and tactics of the American Army. Use of battle analysis and war gaming included.

MS 213, MILITARY SCIENCE II: FUNDAMENTALS OF MILITARY OPERATIONS, 2 Credits
Basic U.S. Army tactics at the individual, team, and squad levels. Integration of military skills in offensive and defensive operations. Graded A-F only. Lec/lab.

MS 214, MILITARY SCIENCE: LEADER’S TRAINING COURSE (LTC), 6 Credits
Four weeks of classroom and field training at Fort Knox, Kentucky. Can substitute for the first two years of the ROTC program.

MS 313, MILITARY SCIENCE III: LEADERSHIP AND MANAGEMENT OF MILITARY ORGANIZATIONS, 3 Credits
Study of military leadership, management, theory and dynamics of the military team. Applies principles to advanced military operations. Includes leadership, management, and organizational theory; group dynamics; functions of staff organizations; development of the commander’s estimate; combat orders and plans; troop leading procedures; application of leadership concepts in offensive and defensive operations at the squad, platoon, and company level; and fundamentals of small-unit tactics/patrolling. Graded A-F only. Lec/lab.

MS 314, MILITARY SCIENCE: LEADER DEVELOPMENT AND ASSESSMENT COURSE, 6 Credits
Practical and theoretical instruction and training in soldier skills for four weeks. Practical leadership application and experience in a military environment.
Prerequisite: MS 311 with D- or better and MS 312 [D-] and MS 313 [D-]

MS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MS 411, MILITARY SCIENCE IV: ADAPTIVE LEADERSHIP, 3 Credits
Train, mentor and evaluate underclass cadets. Learn duties and responsibilities of Army staff office and apply processes. Execute and assess battalion training events. Understand and employ risk management process and use soldier fitness program to reduce and manage stress. Graded A-F only. Lec/lab.

MS 412, MILITARY SCIENCE IV: PREPARATION FOR OFFICERSHIP, 3 Credits
Recent military history, national defense policy and its application in current world events. Includes military law; law of land warfare; small-unit administration; and ethics and professionalism with emphasis on applied leadership, management techniques, and ethical decision making. Designed to assist the future army officer with the transition from student to junior officer leader. Graded A-F only. Lec/lab.

MS 413, MILITARY SCIENCE IV: PREPARATION FOR OFFICERSHIP, 3 Credits
Recent military history, national defense policy and its application in current world events. Includes military law; law of land warfare; small-unit administration; and ethics and professionalism with emphasis on applied leadership, management techniques, and ethical decision making. Designed to assist the future army officer with the transition from student to junior officer leader. Graded A-F only. Lec/lab.
Molecular & Cellular Biology (MCB)

MCB 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 99 credits.

MCB 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

MCB 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 99 credits.

MCB 507, SEMINAR, 1-16 Credits
This course is repeatable for 99 credits.

MCB 508, WORKSHOP, 1-16 Credits
This course is repeatable for 99 credits.
Available via Ecampus

MCB 509, PRACTICUM, 1-16 Credits
This course is repeatable for 99 credits.

MCB 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 99 credits.

MCB 525, TECHNIQUES IN MOLECULAR AND CELLULAR BIOLOGY, 3 Credits
An intensive laboratory course introducing modern methods for the manipulation of cellular macromolecules. Recombinant DNA technology, protein chemistry, and in situ hybridization methods presented in a format that emphasizes experimental continuity. The course requires two weeks of intensive full-time involvement.

MCB 530, INTRODUCTION TO POPULATION GENETICS, 3 Credits
Genetic polymorphisms, inbreeding, genetic drift, population subdivision and gene flow, mutation and selection. Emphasis on applied rather than theoretical questions. Offered alternate years.
Equivalent to: GEN 530
Recommended: BI 311 and ST 351 and ST 352

MCB 535, GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535.
Equivalent to: BI 535, FES 535, FS 535, TOX 535
Recommended: One quarter each of biology and chemistry
Available via Ecampus

MCB 541, PLANT TISSUE CULTURE, 4 Credits
Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.
Equivalent to: HORT 541, PBG 541
Recommended: (BI 311 and BOT 331) or PBG 430

MCB 554, GENOME ORGANIZATION, STRUCTURE, AND MAINTENANCE, 4 Credits
How diverse organisms store their individual sets of genetic information (genomes). Evolution of genomes and gene families. Structures of DNA and chromatin. Biochemical and regulatory pathways that protect cellular genomes against environmental and endogenous damage and ensure transmission of faithful copies to progeny. Remodeling of genomes by recombination and transposition.
Equivalent to: GEN 554, MB 554, TOX 554
Recommended: BI 311 (or genetics equivalent) and (BB 450 and BB 451 and BB 452) or (BB 490 and BB 491 and BB 492)

MCB 555, GENOME EXPRESSION AND REGULATION, 4 Credits
Prokaryotic and eukaryotic systems will be used to describe recent advances in understanding transcriptional and posttranscriptional control mechanisms. Topics include: microbial, yeast and mouse model systems; transcriptional control mechanisms; RNA processing, silencing and microRNAs; protein synthesis and posttranslational modification; microarray- and mass spectrometry-based expression genomics.
Equivalent to: GEN 555
Recommended: BB 451

MCB 557, SCIENTIFIC SKILLS AND ETHICS, 3 Credits
Offers instruction, guest lectures and case-study based discussions of ethical issues relevant to scientists on topics such as mentoring, best practices of conducting research, research misconduct and compliance, intellectual property, peer review, ethical use of animal and human subjects and managing conflicts of interest. Training in the preparation and presentation of scientific seminars and grant writing.

MCB 563, CANCER AND CHEMOPREVENTION, 2 Credits
A summary of mechanisms of cancer progression, how cancer is detected, and introduction to chemoprevention using targeted therapy and alternative medicine.
Recommended: BB 451 and BI 314 and BI 460
MCB 575, COMPARATIVE GENOMICS, 4 Credits
Explores principles of comparative genomics. Examines methods for genome assembly and annotation. Discusses genomic approaches for the study of structural change, whole genome duplication, gene family evolution, gene networks, gene regulation and epigenetics. Lab topics include the analysis of next generation sequencing data and conducting comparative genomic analyses. CROSSLISTED as BDS 475/BOT 475 and BDS 575/BOT 575/MCB 575.
Equivalent to: BDS 575, BOT 575
Recommended: BB 314 and (BI 311 or PBG 430) and basic working knowledge of cell and molecular biology and genetics

MCB 576, INTRODUCTION TO COMPUTING IN THE LIFE SCIENCES, 3 Credits
Introduction to management of large datasets (e.g., nucleic acids, protein), computer programming languages, application of basic mathematical functions, and assembly of computational pipelines pertinent to life sciences. CROSSLISTED as BOT 576/MCB 576.
Equivalent to: BOT 576
Recommended: Cell and molecular biology or genetics and familiarity with text editing software and unix/linux operating system

MCB 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

MCB 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

MCB 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

MCB 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

MCB 609, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

MCB 610, INTERNSHIP, 1-9 Credits
Laboratory rotation.
This course is repeatable for 16 credits.

MCB 620, INTRODUCTION TO MOLECULAR MARKERS, 2 Credits
Principles and methods for molecular marker discovery and analysis. Offered even years. CROSSLISTED as PBG 620/MCB 620.
Equivalent to: PBG 620
Recommended: BI 311 or PBG 430 or PBG 530 or HORT 430 or HORT 530

MCB 622, MAPPING QUANTITATIVE TRAIT LOCI, 1 Credit
Principles and methods for mapping genes underlying phenotypically complex traits. Offered alternate years. CROSSLISTED as MCB 622/PBG 622.
Equivalent to: CSS 622, GEN 622, PBG 622
Recommended: CSS 590 or ST 513

MCB 627, MOLECULAR HOST-MICROBE INTERACTIONS, 3 Credits
Lecture and discussion-based presentation of the molecular bases for interactions between organisms. Addresses bacterial, algal, and fungal symbionts of eukaryotes and considers pathogenesis, commensalism, and mutualism. A focus on the evolution of host-microbe interactions is included.

MCB 671, MOLECULAR TOOLS, 3 Credits
Intended for personnel with some scientific background who are seeking basic- and advanced-level molecular biology knowledge and who wish to become involved with molecular biology-related and biotechnological research. CROSSLISTED as MCB 671/VMB 671.
Equivalent to: VMB 671

MCB 699, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

Music (MUS)

MUS 101, *MUSIC APPRECIATION I: SURVEY, 3 Credits
Dealing primarily with the Western classical tradition, the course focuses on developing perceptive listening skills through the study of musical forms and styles. For non-majors. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 101H
Available via Ecampus

MUS 101H, *MUSIC APPRECIATION I: SURVEY, 3 Credits
Dealing primarily with the Western classical tradition, the course focuses on developing perceptive listening skills through the study of musical forms and styles. For non-majors. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 101

MUS 102, *MUSIC APPRECIATION II: PERIODS AND GENRES, 3 Credits
A study of the masterworks of a single era (such as Baroque, classic, romantic, twentieth century) or a genre (such as orchestra, chamber, opera, musical theatre). For non-majors. Need not be taken in order. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 102H
This course is repeatable for 12 credits.
Available via Ecampus
MUS 102H, *MUSIC APPRECIATION II: PERIODS AND GENRES, 3 Credits
A study of the masterworks of a single era (such as Baroque, classic, romantic, twentieth century) or a genre (such as orchestra, chamber, opera, musical theatre). For non-majors. Need not be taken in order. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course
Designator; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 102
This course is repeatable for 12 credits.

MUS 103, *MUSIC APPRECIATION III: GREAT COMPOSERS, 3 Credits
The life and works of one or more significant composers including Bach, Haydn, Mozart, Beethoven, and others. For non-majors. Does not need to be taken in sequence. (FA) (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core
Equivalent to: MUS 103H
This course is repeatable for 18 credits.

MUS 104, *SURVEY OF JAZZ, 3 Credits
Study of jazz as a technical framework and values system for performing, composing and, experiencing music. Survey the history of jazz music up to the present to learn how this music works—from its technical musical elements to the culture that gave birth to and influenced its development. Actively listen, critique and discuss jazz, identify major artists and styles, and understand the cultural forces that shaped its development over time. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

MUS 107, INTRODUCTION TO DIGITAL AUDIO WORKSTATIONS AND PUBLISHING, 3 Credits
An introduction to project based music composing applications to create original music, remixes and contemporary productions. Students build skills through weekly exercises in both Reaper and Musescore notation software.
This course is repeatable for 6 credits.
Available via Ecampus

MUS 108, *MUSIC CULTURES OF THE WORLD, 3 Credits
Survey of the world’s music with attention to musical styles and cultural contexts. Included are Oceania, Indonesia, Africa, Asia, Latin America. For non-majors. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: MUS 108H
This course is repeatable for 18 credits.
Available via Ecampus

MUS 108H, *MUSIC CULTURES OF THE WORLD, 3 Credits
Survey of the world’s music with attention to musical styles and cultural contexts. Included are Oceania, Indonesia, Africa, Asia, Latin America. For non-majors. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: MUS 108
This course is repeatable for 18 credits.

MUS 111, THE FUNDAMENTALS OF MUSIC TECHNOLOGY, 3 Credits
Covers the principles and approaches used in contemporary music technology. Lectures and demonstrations will be rooted in physics, psychoacoustics, digital and analog recording, various software and hardware platforms, composition, and audio production in order to give students greater context into the creative and technical avenues of the music technologist.

MUS 112, INTRODUCTION TO DIGITAL AUDIO, 3 Credits
Students will develop a thorough understanding of digital audio in both theory and application. Topics to be explored include common DAW operations, CD authoring, audio for web, sound design, MIDI, songwriting and composition, and digital effects. Course projects will engage students in both technical and creative capacities of digital audio production.
Prerequisite: MUS 111 with C- or better

MUS 113, AUDIO TECHNOLOGIES, 3 Credits
Students will gain a thorough understanding of the technical and creative potential of various audio equipment used in sound production including microphones, speakers, mixers, recording equipment, effects processors, patch bays, MIDI, and various video equipment. Through discussion and experimentation, students will pursue real-world audio problems in collaborative and individual projects.
Prerequisite: MUS 111 with C- or better

MUS 114, FOUNDATIONS: APPLIED LISTENING AND THEORY, 3 Credits
A general music foundation series that facilitates students with no prior formal musical background to develop contemporary music literacy using modes of listening including radio, digital music libraries, interactive tutorials and guided listenings and visual mapping.
This course is repeatable for 6 credits.

MUS 121, LITERATURE AND MATERIALS OF MUSIC I, 3 Credits
Covers fundamentals of music theory along with a brief introduction to Western art music. This requires students to learn to read and write all notes in treble and bass clef, and all common scales, intervals, triads and seventh chords, using key signatures. They also learn to recognize basic rhythms and write them down.
This course is repeatable for 6 credits.
MUS 122, LITERATURE AND MATERIALS
OF MUSIC I, 3 Credits
An integrated, team-taught approach to the study of Western art music, including repertory, melodic, harmonic, and rhythmic components, formal organization, and composition. Recitation included.
Recommended: MUS 121

MUS 123, LITERATURE AND MATERIALS
OF MUSIC I, 3 Credits
An integrated, team-taught approach to the study of Western art music, including repertory, melodic, harmonic, and rhythmic components, formal organization, and composition. Recitation included. Lec/lab/rec.
Recommended: MUS 122

MUS 125, LITERATURE AND MATERIALS
LAB I, 1 Credit
Scales, all major and harmonic form of minor, interval drill.
Equivalent to: MUS 124
Recommended: MUS 121. Concurrent enrollment in MUS 122 for music majors

MUS 126, LITERATURE AND MATERIALS
LAB II, 1 Credit
Transpose scores, harmonic idioms, harmonic progressions. Lec/lab.
Equivalent to: MUS 125
Recommended: MUS 122 and MUS 125. Concurrent enrollment in MUS 123 for music majors

MUS 134, AURAL SKILLS I, 1 Credit
Aural comprehension of the basic melodic, rhythmic, and harmonic elements of music.
Corequisites: MUS 121

MUS 135, AURAL SKILLS II, 1 Credit
Aural comprehension of the basic melodic, rhythmic, and harmonic elements of music.
Recommended: Concurrent enrollment with MUS 122

MUS 136, AURAL SKILLS I, 1 Credit
Aural comprehension of the basic melodic, rhythmic, and harmonic elements of music.
Recommended: MUS 135 and concurrent enrollment in MUS 123

MUS 137, JAZZ IMPROVISATION, 1-3
Credits
Instrumental and vocal improvisation including composition and arranging techniques.
This course is repeatable for 9 credits.

MUS 140, OSU CHAMBER CHOIR, 1-2
Credits
A select ensemble of approximately 40 mixed voices. Performances each term. Annual tours. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 146, WOMEN'S CHOIR, 1-2 Credits
A women's ensemble designed for vocal development and exploration of treble choral literature. Performances each term.
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 147, MEN'S CHOIR, 1-2 Credits
A men's ensemble designed for vocal development and exploration of TTBB choral literature. Performances each term.
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 150, SYMPHONIC BAND, 1 Credit
A select ensemble of approximately 80 wind and percussion players. Performance each term. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 151, CAMPUS BAND, 1 Credit
Wind and percussion ensemble of approximately 70 players. Performance each term. Open to all students.
This course is repeatable for 9 credits.

MUS 152, RHYTHM AND BEAVS PEP
BAND, 1 Credit
An auditioned group of 12 musicians who perform at university, community, and athletic events throughout the year.
This course is repeatable for 9 credits.

MUS 153, MARCHING BAND, 1-2 Credits
A marching and playing unit of more than 160 musicians. Performs for home football games.
This course is repeatable for 6 credits.

MUS 154, BASKETBALL BAND, 1 Credit
An ensemble of approximately 50 players. Performs for home games.
This course is repeatable for 3 credits.

MUS 155, COLOR GUARD, 1 Credit
A derivative of the Marching Band Color Guard, this ensemble performs and competes around the Pacific Northwest during winter term. Audition required.
This course is repeatable for 9 credits.

MUS 156, INDOOR DRUM LINE, 1-2
Credits
A derivative of the Marching Band Drum Line, this ensemble performs and competes around the Pacific Northwest during winter term. Audition required.
This course is repeatable for 9 credits.

MUS 157, SMALL JAZZ ENSEMBLE, 1
Credit
Concentration on current jazz styles. Performance each term.
This course is repeatable for 9 credits.

MUS 158, LARGE JAZZ ENSEMBLE, 1
Credit
Concentration on current jazz styles. Performance each term.
This course is repeatable for 9 credits.
MUS 160, UNIVERSITY SYMPHONY ORCHESTRA, 1 Credit
An ensemble of 65-80 players. Performance of orchestral repertoire from the eighteenth, nineteenth, and twentieth centuries. Performance each term. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 162, CHAMBER ENSEMBLE: GUITAR, 1 Credit
A guitar performance group designed to explore ensemble rehearsal techniques and repertoire.
This course is repeatable for 9 credits.
Recommended: MUP 196 or MUP 296 or MUP 396 or MUP 496

MUS 163, ACCOMPANYING, 1 Credit
Piano accompanying and chamber music skills, studio experience and weekly performance class.
This course is repeatable for 9 credits.
Recommended: Concurrent enrollment in MUS 190 or MUS 290

MUS 164, CHAMBER ENSEMBLE: STRINGS, 1 Credit
This course is repeatable for 9 credits.

MUS 165, CHAMBER ENSEMBLE: WOODWINDS, 1 Credit
This course is repeatable for 9 credits.

MUS 166, CHAMBER ENSEMBLE: BRASS, 1 Credit
This course is repeatable for 9 credits.

MUS 167, CHAMBER ENSEMBLE: PERCUSSION, 1 Credit
This course is repeatable for 9 credits.

MUS 168, CHAMBER ENSEMBLE: MISCELLANEOUS, 1 Credit
This course is repeatable for 9 credits.

MUS 169, OPERA WORKSHOP, 1-2 Credits
This course is repeatable for 3 credits.

MUS 171, GROUP LESSONS: PIANO I, 1 Credit
Part 1 of the first-year group piano sequence. Group instruction in piano skills and basic theory.

MUS 172, GROUP PIANO II, 1 Credit
Part 2 of the first-year group piano sequence. A continuation of MUS 171.
Prerequisite: MUS 171 with C- or better

MUS 173, GROUP PIANO III, 1 Credit
Part 3 of the first-year group piano sequence. A continuation of MUS 172.
Prerequisite: MUS 172 with C- or better

MUS 185, VOICE CLASS, 1 Credit
Students improve and strengthen the voice as a solo instrument.
This course is repeatable for 9 credits.

MUS 186, GROUP GUITAR, 1 Credit
Teaches fundamentals of the guitar in a small-group setting. Emphasis on practical use of the instrument.
This course is repeatable for 9 credits.

MUS 187, GROUP GUITAR II, 1 Credit
A continuation of MUS 186, MUS 187 focuses on helping students learn higher functionality in techniques and attain greater ability to perform solo or in ensemble.
Prerequisite: MUS 186 with D- or better
This course is repeatable for 9 credits.

MUS 190, APPLIED MUSICIANSHIP: BEGINNER BEAT MAKING (DAW), 2 Credits
Teaches the process involved in composing and constructing drum beats for any style of popular music. This course will take you through the basics of understand the roles of each individual drum on a typical drum kit, to programming on an 808 or sequenced style virtual kit. We will also explore putting together your own collection of sounds and building drum and percussion kits for your own creative applications and compositions.
Prerequisite: MUS 111 with C or better
This course is repeatable for 6 credits.
Available via Ecampus

MUS 199, SPECIAL STUDIES, 1-3 Credits
First-year level.
This course is repeatable for 18 credits.

MUS 201, ENGLISH AND LATIN DICTION FOR SINGERS, 1 Credit
Presents the principles of lyric diction in English and Latin and provides practice in the skills needed to sing the languages accurately and expressively.

MUS 202, ITALIAN LYRIC DICTION FOR SINGERS, 1 Credit
Presents the principles of lyric diction in Italian and provides practice in the skills needed to sing the languages accurately and expressively.
Prerequisite: MUS 201 with C or better

MUS 203, GERMAN LYRIC DICTION FOR SINGERS, 1 Credit
Presents the principles of German lyric diction and provides practice in the skills needed to sing the language accurately and expressively.
Prerequisite: MUS 201 with C or better

MUS 204, FRENCH LYRIC DICTION FOR SINGERS, 1 Credit
Presents the principles of French lyric diction and provides practice in the skills needed to sing the language accurately and expressively.
Prerequisite: MUS 201 with C or better
MUS 216, THE MUSIC BUSINESS, 3 Credits
An overview of the many elements that comprise today’s music industry, with an emphasis on the most recent entrepreneurial and creative trends in this multi-billion-dollar business.

MUS 221, LITERATURE AND MATERIALS OF MUSIC, 3 Credits
Advanced harmony, techniques of analysis, musical form, composition. Continued study of the repertory of Western music through the mid-twentieth century.
Recommended: MUS 123

MUS 222, LITERATURE AND MATERIALS OF MUSIC, 3 Credits
Advanced harmony, techniques of analysis, musical form, composition. Continued study of the repertory of Western music through the mid-twentieth century. Three lectures weekly.
Recommended: MUS 221

MUS 223, LITERATURE AND MATERIALS OF MUSIC, 3 Credits
Advanced harmony, techniques of analysis, musical form, composition. Continued study of the repertory of Western music through the mid-twentieth century. Three lectures weekly.
Recommended: MUS 222

MUS 234, AURAL SKILLS II, 1 Credit
Sight-singing; melodic and harmonic dictation. To be taken in sequence.
Recommended: MUS 123 and MUS 136

MUS 235, AURAL SKILLS II, 1 Credit
Sight-singing; melodic and harmonic dictation. To be taken in sequence.
Recommended: MUS 234

MUS 236, AURAL SKILLS II, 1 Credit
Sight-singing; melodic and harmonic dictation. To be taken in sequence.
Recommended: MUS 235

MUS 251, INTRO TO ARTS ENTREPRENEURSHIP, 3 Credits
Introduction to Arts Entrepreneurship emphasizes the importance of entrepreneurial thinking in the arts while engaging students with the fundamentals of the arts “business”. The focus of this course is the development of each student’s Digital Portfolio. Each student will explore the arts industry through first-hand experiences with creative problem-solving exercises, discussion questions, collaborative projects, case studies, and hands-on activities. For majors. (FA)
This course is repeatable for 3 credits.

MUS 271, GROUP PIANO IV, 1 Credit
Part of the second-year group piano sequence. Group instruction in piano skills and basic theory.

MUS 272, GROUP PIANO V, 1 Credit
Part of the second-year group piano sequence. Group instruction in piano skills and basic theory.
Prerequisite: MUS 271 with C- or better

MUS 273, GROUP PIANO VI, 1 Credit
Part of the second-year group piano sequence. Group instruction in piano skills and basic theory.
Prerequisite: MUS 272 with C- or better

MUS 279, INTRODUCTION TO SONGWRITING 1, 3 Credits
The study of songs and songwriting will be introduced, with special attention paid to the art of lyrics, melody, harmony, and structure to create songs. Songs will be analyzed and composed, and students will listen to popular American songwriting throughout modern history. Students are expected to listen critically and create and collaborate on original song lyrics and music.
This course is repeatable for 6 credits.

MUS 299, SPECIAL STUDIES, 1-3 Credits
Sophomore level.
This course is repeatable for 18 credits.
Available via Ecampus

MUS 301, SOLO VOCAL REPERTOIRE: ENGLISH, 2 Credits
Survey of the development of English solo vocal literature from the Renaissance period to the present.
Prerequisite: MUS 123 with C or better

MUS 302, SOLO VOCAL REPERTOIRE: ITALIAN, 2 Credits
Survey of the development of Italian solo vocal literature from the Renaissance period to the present.
Prerequisite: MUS 123 with C or better

MUS 303, SOLO VOCAL REPERTOIRE: GERMAN, 2 Credits
Survey of the development of German solo vocal literature from the Renaissance period to the present.
Prerequisite: MUS 123 with C or better

MUS 304, SOLO VOCAL REPERTOIRE: FRENCH, 2 Credits
Survey of the development of French solo vocal literature from the 19th century to the present.
Prerequisite: MUS 123 with C or better

MUS 309, *WOMEN IN WESTERN MUSIC, 3 Credits
Explores the powerful roles women have played in both Western classical and popular music, from the Medieval Era to the present day. Drawing on historical, contemporary, and cross-cultural ideas and repertoire, the course will identify contributions women have made as composers, performers, patrons, educators, and consumers, and will examine why women’s contributions were ignored in the past. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Available via Ecampus
MUS 311, MIDI SYSTEMS AND APPLICATIONS, 3 Credits
Students will develop a thorough understanding of the Musical Instrument Digital Interface (MIDI) language. Using both hardware and software environments, they will learn technical and creative approaches to live and studio MIDI applications expected of the industry professional. Prerequisite: MUS 112 with C- or better

MUS 313, SOUND SYNTHESIS, 3 Credits
Examines the various forms of synthesis used in modern electronic music and audio production. Throughout the course of the term, students will cultivate listening, programming, and analytical skills through the study of analog and digital synthesis. Emphasis will be placed on practical applications of synthesis through original creative projects. Prerequisite: MUS 213 with C- or better

MUS 315, INTRODUCTION TO CONDUCTING, 2 Credits
Basic terminology, beat patterns, and baton technique. Introduction to score preparation. Philosophy and history of conducting are also addressed. Recommended: MUS 223 and MUS 236 and piano proficiency exam.

MUS 316, CHORAL CONDUCTING, 2 Credits
Continuation of MUS 315. Hand gesture technique, score reading, and score preparation of literature from all major historical periods. Focus upon principles of developing choral excellence. Includes conducting practice with a campus ensemble. To be taken in sequence. Recommended: MUS 315

MUS 317, CHORAL CONDUCTING, 2 Credits
Continuation of MUS 315. Hand gesture technique, score reading, and score preparation of literature from all major historical periods. Focus upon principles of developing choral excellence. To be taken in sequence. Recommended: MUS 315

MUS 318, INSTRUMENTAL CONDUCTING, 2 Credits
Continuation of MUS 315, including types of instrumental groups, seating arrangements, score preparation, and instrumental transposition and ranges. Advanced baton technique. To be taken in sequence. Recommended: MUS 315

MUS 319, INSTRUMENTAL CONDUCTING, 2 Credits
Continuation of MUS 315, including types of instrumental groups, seating arrangements, score preparation, and instrumental transposition and ranges. Advanced baton technique. To be taken in sequence. Recommended: MUS 315

MUS 321, LITERATURE AND MATERIALS OF MUSIC III, 3 Credits
Twentieth century harmony and counterpoint, including contrapuntal composition. Continued study and analysis of repertoire into the 21st century. Recommended: MUS 223

MUS 324, HISTORY OF WESTERN MUSIC, 3 Credits
Chronological survey of the Euro-American traditions in music to be taken in sequence. Prerequisite: MUS 123 with D- or better Recommended: MUS 223

MUS 325, HISTORY OF WESTERN MUSIC, 3 Credits
Traces the development of music history from the early Classic period through the end of the 19th century. Major trends in orchestral, solo, chamber and vocal music are explored through lectures, readings, research, discussion, score studies, and intensive writing assignments. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC Prerequisite: MUS 123 with D- or better Recommended: MUS 223

MUS 326, HISTORY OF WESTERN MUSIC, 3 Credits
Chronological survey of the Euro-American traditions in music to be taken in sequence. Prerequisite: MUS 123 with D- or better Recommended: MUS 223

MUS 330, ALEXANDER TECHNIQUE FOR MUSICIANS, 1 Credit
A theoretical and practical introduction to the Alexander Technique, a psychophysical reeducation process developed by F.M. Alexander. The course will provide the opportunity for instrumentalists and singers to integrate the Alexander Technique into their practice and performance, enabling more freedom of choice in their approach to music making. Prerequisite: MUS 123 with D- or better This course is repeatable for 6 credits.

MUS 331, GENRE STUDIES: POPULAR MUSIC AND CULTURE IN LATIN AMERICA, 3 Credits
Explores traditional and popular musical practices in Spanish-speaking Latin America. Focusing on the rich mixture of African, European, and indigenous cultures that characterize this region, the class will examine technical aspects of music itself, cultural contexts of musical creation and performance, and the historical development of particular musical styles. Case studies, explored through listening and reading, will highlight various local and national musical traditions and their presence in transnational migrant communities and emerging world music markets. (Bacc Core Course) Attributes: CPCD – Core, Pers, Cult Diversity This course is repeatable for 6 credits. Available via Ecampus

MUS 337, JAZZ IMPROVISATION, 1-3 Credits
Instrumental and vocal improvisation including composition and arranging techniques. This course is repeatable for 9 credits. Recommended: Two years college-level MUS 137 experience
MUS 340, OSU CHAMBER CHOIR, 1-2 Credits
A select ensemble of approximately 40 mixed voices. Performance each term. Annual tours. Students must have two years college-level vocal experience or equivalent. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 341, VOCAL PEDAGOGY I, 2 Credits
Provides an understanding of the singing voice and establishes guidelines for teaching vocal techniques. Explores the anatomical, physiological and acoustic elements of singing, providing students with a working knowledge of the vocal mechanism.
Prerequisite: MUP 291 with C or better

MUS 344, INSTRUMENTAL PEDAGOGY AND REPertoire, 3 Credits
This course is directed towards the student who anticipates a career as a professional musician in a performance group, soloist, or as an instrumental studio instructor.
Recommended: Music lessons MUP 300 or higher

MUS 346, WOMEN’S CHOIR, 1-2 Credits
A women’s ensemble designed for vocal development and exploration of treble choral literature. Performances each term.
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 347, MEN’S CHOIR, 1-2 Credits
A men’s ensemble designed for vocal development and exploration of TTBB choral literature. Performances each term.
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 350, SYMPHONIC BAND, 1 Credit
A select ensemble of approximately 80 wind and percussion players. Performance winter and spring terms. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 351, CAMPUS BAND, 1 Credit
Wind and percussion ensemble of approximately 70 players. Performance each term. Open to all students.
This course is repeatable for 9 credits.

MUS 352, RHYTHM AND BEAVS PEP BAND, 1 Credit
An auditioned group of 12 musicians who perform at university, community, and athletic events throughout the year.
This course is repeatable for 9 credits.

MUS 353, MARCHING BAND, 1-2 Credits
A marching and playing unit of more than 160 musicians. Performs for home football games; one trip each year to an off-campus game.
This course is repeatable for 6 credits.

MUS 354, BASKETBALL BAND, 1 Credit
An ensemble of approximately 50 players. Performs for home games. Students must have two years college-level experience.
This course is repeatable for 3 credits.

MUS 355, COLOR GUARD, 1 Credit
A derivative of the Marching Band Color Guard, this ensemble performs and completes around the Pacific Northwest during winter term. Audition required.
This course is repeatable for 3 credits.

MUS 356, INDOOR DRUM LINE, 1-2 Credits
A derivative of the Marching Band Drum Line, this ensemble performs and competes around the Pacific Northwest during winter term. Audition required.
This course is repeatable for 3 credits.

MUS 357, SMALL JAZZ ENSEMBLE, 1 Credit
Concentration on current jazz styles. Performance each term.
This course is repeatable for 9 credits.

MUS 358, LARGE JAZZ ENSEMBLE, 1 Credit
Concentration on current jazz styles. Performance each term.
This course is repeatable for 9 credits.

MUS 360, UNIVERSITY SYMPHONY ORCHESTRA, 1 Credit
An ensemble of 65-80 players. Performance of orchestral repertoire from the 18th, 19th, and 20th centuries. Performance each term. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
This course is repeatable for 9 credits.

MUS 362, CHAMBER ENSEMBLE: GUITAR, 1 Credit
A guitar performance group designed to explore ensemble rehearsal techniques and repertoire.
This course is repeatable for 9 credits.
Recommended: MUP 196 or MUP 296 or MUP 396 or MUP 496

MUS 363, ACCOMPANYING, 1 Credit
Piano accompanying and chamber music skills, studio experience, and weekly performance class.
This course is repeatable for 9 credits.
Recommended: Concurrent enrollment in MUS 390 or MUS 490. Two years college-level ensemble.

MUS 364, CHAMBER ENSEMBLE: STRINGS, 1 Credit
May be repeated for a maximum of 9 credits.
This course is repeatable for 9 credits.

MUS 365, CHAMBER ENSEMBLE: WOODWINDS, 1 Credit
May be repeated for a maximum of 9 credits.
This course is repeatable for 9 credits.
MUS 366, CHAMBER ENSEMBLE: BRASS, 1 Credit
May be repeated for a maximum of 9 credits.
This course is repeatable for 9 credits.

MUS 367, CHAMBER ENSEMBLE: PERCUSSION, 1 Credit
May be repeated for a maximum of 9 credits.
This course is repeatable for 9 credits.

MUS 368, CHAMBER ENSEMBLE: MISCELLANEOUS, 1 Credit
May be repeated for a maximum of 9 credits.
This course is repeatable for 9 credits.

MUS 369, OPERA WORKSHOP, 1-2 Credits
This course is repeatable for 3 credits.

MUS 371, GROUP PIANO VII, 1 Credit
Part of the third-year group piano sequence. Group instruction in piano skills and basic theory.

MUS 372, GROUP PIANO VIII, 1 Credit
Part of the third-year group piano sequence. Group instruction in piano skills and basic theory.
Prerequisite: MUS 371 with C- or better

MUS 373, GROUP PIANO IX, 1 Credit
Part of the third-year group piano sequence. Group instruction in piano skills and basic theory.
Prerequisite: MUS 372 with C- or better

MUS 375, INTRODUCTION TO PIANO TUNING, 3 Credits
Provides an introduction to the science of piano tuning and general piano maintenance. Students will acquire knowledge of the construction of the modern piano and its predecessors. They will learn about the temperaments and the science of tuning. Finally, through supervised instruction and practice, students will learn the skill of how to tune a modern piano.
This course is repeatable for 6 credits.

MUS 378, MUSICAL WELLNESS FOR PIANISTS, 3 Credits
Pianists are offered a body of knowledge that enables them to cultivate mindful, healthful learning and performance processes for themselves and their students. Special focus is given to dealing with fatigue, physical limitations, and injuries.
This course is repeatable for 6 credits.

MUS 399, SPECIAL STUDIES, 1-3 Credits
Junior level.
This course is repeatable for 18 credits.
Available via Ecampus

MUS 400, STUDIES IN WRITING ABOUT MUSIC, 3 Credits
Students will read relevant literature pertaining to a selected topic. These readings will be discussed during the class period, serve as a basis of knowledge for the writing assignments throughout the quarter, and promote critical thinking about the topic. As a Writing Intensive Course (WIC), a large portion of the term will be devoted to learning various genres of writing about music, including formal writing and informal, low-stakes writing. Students will be introduced to a variety of ways of writing about music through the course readings and will learn how to tailor one's writing style towards a genre's particular audience. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: MUS 325 with C or better
Recommended: Completion of a WR II course

MUS 401, RESEARCH AND SCHOLARSHIP, 1-6 Credits
This course is repeatable for 18 credits.

MUS 402, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 18 credits.
Available via Ecampus

MUS 403, THESIS, 1-6 Credits
This course is repeatable for 18 credits.

MUS 405, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 18 credits.

MUS 406, PROJECTS, 1-6 Credits
This course is repeatable for 18 credits.

MUS 407, SEMINAR, 1-6 Credits
Equivalent to: MUS 407H
This course is repeatable for 18 credits.

MUS 408, WORKSHOP, 1-6 Credits
This course is repeatable for 18 credits.

MUS 409, PIANO PEDAGOGY PRACTICUM, 2 Credits
A practical application course offering experiential learning and supervised teaching experiences to piano pedagogy students. Serves as a practicum co-requisite for the final two terms of Piano Pedagogy (MUS 446 and MUS 447).
Corequisites: MUS 446, MUS 447
This course is repeatable for 8 credits.

MUS 410, INTERNSHIP, 3 Credits
Provides experience in field settings, opportunity to develop personal and professional skills. See school for details.
This course is repeatable for 12 credits.
Available via Ecampus
MUS 442, GENRE STUDIES, 3 Credits
Intensive study of selected genres, such as orchestra, chamber music, keyboard literature, vocal literature, music theatre and opera.
Equivalent to: MUS 442H
This course is repeatable for 18 credits.
Available via Ecampus

MUS 443, THEORY AND COMPOSITION STUDIES, 3 Credits
Intensive study of selected subjects, such as analysis, composition, choral arranging, band arranging, and orchestration.
This course is repeatable for 18 credits.
Recommended: MUS 223

MUS 444, FOUNDATIONS OF PIANO PEDAGOGY, 3 Credits
Introduction to foundational principles of piano instruction and addresses topics surrounding methodology, materials, and the techniques of teaching piano.
This course is repeatable for 6 credits.

MUS 445, PIANO PEDAGOGY I: BEGINNING AND ELEMENTARY STUDENTS, 3 Credits
Introduces basic foundational ideas of piano instruction at the beginning and elementary levels. Students will engage with topics surrounding methodology, materials, and the techniques of teaching piano to the beginning and elementary student.

MUS 446, PIANO PEDAGOGY II, 3 Credits
The second in a three-term sequence. The course reinforces foundational ideas and skills learned in Pedagogy I, and continues on to address methodology, materials, and techniques surrounding group piano teaching, teaching preschoolers, and teaching adults. Students will engage in supervised teaching experiences in class as well as in a corresponding lab practicum course which should be taken in conjunction with Pedagogy II. Students must also register for MUS 409.
Prerequisite: MUS 445 with D- or better
Corequisites: MUS 409

MUS 447, PIANO PEDAGOGY III, 3 Credits
The third in a three-term sequence. The course reinforces foundational ideas learned in Pedagogy I and Pedagogy II, and continues with emphasis on special topics and projects preparing students for a professional career as independent piano teachers. Students must also register for MUS 409.
Prerequisite: MUS 446 with D- or better
Corequisites: MUS 409

MUS 449, INTERMEDIATE RECORDING TECHNIQUES, 3 Credits
The second of a three-term sequence on analog and digital recording and editing techniques. The second term deals with multi-track recording, MIDI interfacing and recording, advanced microphone placement, intermediate Pro-tools, and an introduction to E-magic Logic.
Recommended: MUS 493

MUS 451, INTRODUCTION TO ARTS ENTREPRENEURSHIP, 3 Credits
Survey of the business strategies behind a successful career in the arts. Emphasizes the importance of entrepreneurial thinking, engages students with the fundamentals of the arts 'business', and explores ways to influence and shape the industry's future. CROSSTLISTED as ART 451/ MUS 451/TA 451. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Equivalent to: ART 451, TA 451
Available via Ecampus

MUS 472, ITALIAN AND LATIN DICTION FOR SINGERS, 2 Credits
Presents the principles of lyric diction in Italian and liturgical Latin and provides practice in the skills needed to sing the languages accurately and expressively.

MUS 481, PIANO LITERATURE I: 18TH THROUGH EARLY 19TH CENTURIES, 3 Credits
Examines the evolution of piano literature from the Baroque period through the early 19th Century. Examines individual styles and composers' works in the context of the surrounding cultural and social history, beginning with the birth of the piano and continuing with the piano's growing popularity in Western European society. An emphasis will be placed on listening experience and the aural identification of landmark piano works. Students to gain familiarity with a rich body of piano repertoire in the historical and social context in which it was composed.

MUS 482, PIANO LITERATURE II: 19TH AND 20TH CENTURIES, 3 Credits
Examines the evolution of piano literature in the 19th and 20th centuries. Students will learn about individual styles and composers' works in the context of the surrounding cultural and social history of the piano. An emphasis will be placed on listening experience and the aural identification of landmark piano works. The overall objective of the course is for students to gain familiarity with a rich body of piano repertoire in the historical and social context in which it was composed.

MUS 485, PIANO LITERATURE III: REPERTOIRE FOR TEACHING THE PIANO, 3 Credits
This specialized area of Piano Pedagogy includes repertoire for piano students of varying levels, analytical skills for evaluating repertoire for students, and repertoire requirements for national and international piano teaching organizations.

MUS 493, BASIC RECORDING TECHNIQUES, 3 Credits
The first of a three-term sequence on analog and digital recording and editing techniques. The first term deals with issues such as signal processing, microphone design and placement, and an introduction to Digidesign Pro-Tools.
This course is repeatable for 9 credits.
Recommended: MUS 123

MUS 494, INTERMEDIATE RECORDING TECHNIQUES, 3 Credits
The second of a three-term sequence on analog and digital recording and editing techniques. The second term deals with multi-track recording, MIDI interfacing and recording, advanced microphone placement, intermediate Pro-tools, and an introduction to E-magic Logic.
Recommended: MUS 493
MUS 495, ADVANCED RECORDING TECHNIQUES, 3 Credits
The third of a three-part sequence on analog and digital recording and editing techniques. The third term deals with advanced multi-track recording, sampling MIDI interfacing and recording, mixing and mastering using Waveburner, advanced Pro-Tools, advanced use of E-Magic Logic recording and editing and portable ADAT recording and editing. 
Recommended: MUS 494

MUS 496, SURROUND SOUND RECORDING AND MASTERING, 2 Credits
Survey of the concepts, equipment, and standard procedures used in surround sound audio and audio-for-video, including basic equipment and software configuration, surround recording and editing techniques, advanced automation using Pro Tools, and layback/sync to video.
Prerequisite: MUS 495 with D- or better

MUS 499, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 18 credits.

MUS 501, RESEARCH AND SCHOLARSHIP, 1-6 Credits
This course is repeatable for 18 credits.

MUS 502, INDEPENDENT STUDY, 1-6 Credits
This course is repeatable for 18 credits.

MUS 503, THESIS, 1-6 Credits
This course is repeatable for 999 credits.

MUS 505, READING AND CONFERENCE, 1-6 Credits
This course is repeatable for 18 credits.

MUS 506, PROJECTS, 1-6 Credits
This course is repeatable for 18 credits.

MUS 507, SEMINAR, 1-6 Credits
This course is repeatable for 18 credits.

MUS 508, WORKSHOP, 1-6 Credits
This course is repeatable for 18 credits.

MUS 510, INTERNSHIP, 3 Credits
Provides experience in field settings, opportunity to develop personal and professional skills. See school for details.
This course is repeatable for 12 credits.

MUS 516, ADVANCED CONDUCTING: CHORAL, 3 Credits
Baton technique, interpretation and the study of major choral scores.
Recommended: MUS 317

MUS 517, ADVANCED CONDUCTING: CHORAL, 3 Credits
Baton technique, interpretation and the study of major choral scores.
Recommended: MUS 317

MUS 518, ADVANCED CONDUCTING: INSTRUMENTAL, 3 Credits
Baton technique, interpretation and the study of major instrumental scores.
Recommended: MUS 319

MUS 519, ADVANCED CONDUCTING: INSTRUMENTAL, 3 Credits
Baton technique, interpretation and the study of major instrumental scores.
Recommended: MUS 319

MUS 540, OSU CHAMBER CHOIR, 1-2 Credits
A select ensemble of approximately 40 mixed voices. Performance each term. 500-level credit available only to students who can demonstrate proficiency and experience to perform at the graduate level. This will be evaluated by the instructor through audition.
This course is repeatable for 6 credits.

MUS 543, THEORY AND COMPOSITION STUDIES, 3 Credits
Intensive study of selected subjects, such as analysis, composition, choral arranging, band arranging, and orchestration. This course is repeatable for 18 credits.
Recommended: MUS 223

MUS 546, WOMEN'S CHOIR, 1-2 Credits
A women's ensemble designed for vocal development and exploration of treble choral literature. Performances each term.
This course is repeatable for 9 credits.

MUS 547, MEN'S CHOIR, 1-2 Credits
A men's ensemble designed for vocal development and exploration of TTBB choral literature. Performances each term.
This course is repeatable for 9 credits.

MUS 550, SYMPHONIC BAND, 1 Credit
A select ensemble of approximately 80 wind and percussion players. Performance winter and spring terms. 500-level credit available only to students who can demonstrate proficiency and experience sufficient to perform at the graduate level. This will be evaluated by the instructor by audition.
This course is repeatable for 6 credits.

MUS 560, UNIVERSITY SYMPHONY ORCHESTRA, 1 Credit
An ensemble of 65-80 players. Performance of orchestral repertoire from the 18th, 19th, and 20th centuries. Performance each term. 500-level credit available only to students who can demonstrate proficiency and experience to perform at the graduate level. This will be evaluated by the instructor through audition.
This course is repeatable for 6 credits.
MUS 563, ACCOMPANYING, 1 Credit
Piano accompanying and chamber music skills, studio experience and weekly performance class. 500-level credit available only to students who can demonstrate proficiency and experience sufficient to perform at the graduate level. This will be evaluated by the instructor by audition.
This course is repeatable for 6 credits.
Recommended: Concurrent enrollment in MUP 590

MUS 572, ITALIAN AND LATIN DICTION FOR SINGERS, 2 Credits
Presents the principles of lyric diction in Italian and liturgical Latin and provides practice in the skills needed to sing the languages accurately and expressively.

MUS 573, GERMAN DICTION FOR SINGERS, 2 Credits
Presents the principles of German lyric diction and provides practice in the skills needed to sing the language accurately and expressively.

MUS 599, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 6 credits.

Music (Studio) (MUP)

MUP 170, INDIVIDUAL LESSONS: INTERMEDIATE PIANO, 1-2 Credits
This course is repeatable for 12 credits.

MUP 190, INDIVIDUAL LESSONS: KEYBOARD, 1-2 Credits
This course is repeatable for 12 credits.

MUP 191, INDIVIDUAL LESSONS: VOICE, 1-2 Credits
This course is repeatable for 12 credits.

MUP 192, INDIVIDUAL LESSONS: STRINGS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 193, INDIVIDUAL LESSONS: WOODWINDS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 194, INDIVIDUAL LESSONS: BRASS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 195, INDIVIDUAL LESSONS: PERCUSSION, 1-2 Credits
This course is repeatable for 12 credits.

MUP 196, INDIVIDUAL LESSONS: GUITAR, 1-2 Credits
Private studio guitar lessons designed to explore effective practice strategies, technique, and repertoire.
This course is repeatable for 12 credits.
Recommended: MUS 162 or MUS 362

MUP 290, INDIVIDUAL LESSONS: KEYBOARD, 1-2 Credits
This course is repeatable for 12 credits.

MUP 291, INDIVIDUAL LESSONS: VOICE, 1-2 Credits
This course is repeatable for 12 credits.

MUP 292, INDIVIDUAL LESSONS: STRINGS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 293, INDIVIDUAL LESSONS: WOODWINDS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 294, INDIVIDUAL LESSONS: BRASS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 295, INDIVIDUAL LESSONS: PERCUSSION, 1-2 Credits
This course is repeatable for 12 credits.

MUP 296, INDIVIDUAL LESSONS: GUITAR, 1-2 Credits
Private studio guitar lessons designed to explore effective practice strategies, technique, and repertoire.
This course is repeatable for 12 credits.
Recommended: MUS 164

MUP 390, INDIVIDUAL LESSONS: KEYBOARD, 1-2 Credits
This course is repeatable for 12 credits.

MUP 391, INDIVIDUAL LESSONS: VOICE, 1-2 Credits
This course is repeatable for 12 credits.

MUP 392, INDIVIDUAL LESSONS: STRINGS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 393, INDIVIDUAL LESSONS: WOODWINDS, 1-2 Credits
This course is repeatable for 12 credits.
MUP 394, INDIVIDUAL LESSONS: BRASS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 395, INDIVIDUAL LESSONS: PERCUSSION, 1-2 Credits
This course is repeatable for 12 credits.

MUP 396, INDIVIDUAL LESSONS: GUITAR, 1-2 Credits
Private studio guitar lessons designed to explore effective practice strategies, technique, and repertoire.
This course is repeatable for 12 credits.
Recommended: MUS 162 or MUS 362

MUP 398, JUNIOR RECITAL, 1 Credit
Time is dedicated towards the applied music project for junior music performance majors. A public recital will be given during junior-level applied study with the approval of the applied teacher. Graded P/N.

MUP 490, INDIVIDUAL LESSONS: KEYBOARD, 1-2 Credits
This course is repeatable for 12 credits.

MUP 491, INDIVIDUAL LESSONS: VOICE, 1-2 Credits
This course is repeatable for 12 credits.

MUP 492, INDIVIDUAL LESSONS: STRINGS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 493, INDIVIDUAL LESSONS: WOODWINDS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 494, INDIVIDUAL LESSONS: BRASS, 1-2 Credits
This course is repeatable for 12 credits.

MUP 495, INDIVIDUAL LESSONS: PERCUSSION, 1-2 Credits
This course is repeatable for 12 credits.

MUP 496, INDIVIDUAL LESSONS: GUITAR, 1-2 Credits
Private studio guitar lessons designed to explore effective practice strategies, technique, and repertoire.
This course is repeatable for 12 credits.
Recommended: MUS 162 or MUS 362

MUP 498, SENIOR RECITAL, 1 Credit
Time is dedicated towards the final applied music project for instrumental and voice music majors. A public recital will be given after the completion of junior-level applied study with the approval of the applied teacher. Graded P/N.

Music Education (MUED)

MUED 100, MUSIC EDUCATION IN PUBLIC SCHOOLS, 3 Credits
An introduction to the practice of teaching music in public schools in the United States. Participants will learn about teaching and learning music through reading, discussion, creative projects, field observations, and peer teaching experiences. Provides a breadth of experiences so prospective teachers can make informed decisions regarding their career path. While completion of this course does not guarantee admittance to the Music Education Program at OSU, it will prepare candidates for the admission process.
Prerequisite: MUS 121 with C or better

MUED 201, VOCAL DICTION SEMINAR I: LATIN AND GERMAN, 1 Credit
A laboratory course in Latin and German vocal diction for choral music education majors. Emphasis on the pronunciation of sung texts and the International Phonetic Alphabet.
Prerequisite: MUED 100 with B- or better

MUED 202, VOCAL DICTION SEMINAR II: ITALIAN AND FRENCH, 1 Credit
A laboratory course in Italian and French vocal diction for choral music education majors. Emphasis on the pronunciation of sung texts and the International Phonetic Alphabet.
Prerequisite: MUED 100 with B- or better
MUED 275, PROFESSIONAL SEMINAR IN MUSIC EDUCATION I, 1 Credit
Provides a professional community for emerging music educators. Students will complete field-work, interact with field specialists and practitioners, and study emerging topics and contemporary practices in music education. Students will begin to develop their professional portfolios. This course begins a series of seminars, which will be dedicated to professional development the exploration of trends in music education.
Prerequisite: MUED 100 with B- or better

MUED 276, PROFESSIONAL SEMINAR IN MUSIC EDUCATION II, 1 Credit
Continued engagement in field-work, interaction with field specialists and practitioners, and a study of emerging topics and contemporary practices in music education.
Prerequisite: MUED 100 with B- or better

MUED 277, PEDAGOGIC TECHNIQUES FOR THE MUSIC EDUCATOR, 1 Credit
MUED 277: Brass; MUED 277: Woodwinds; MUED 277: Strings; MUED 277: Voice (Instrumentalists); MUED 277: Vocal Pedagogy (Singers); MUED 277: Percussion; MUED 277: Guitar. Topics: performance using proper beginning technique for each instrument, and description/assessment of proper technique for each instrument at the intermediate and advanced level. Emphasis is on techniques for teaching in classroom settings.
This course is repeatable for 7 credits.

MUED 350, JAZZ PEDAGOGY, 1 Credit
Explores basic concepts and pedagogies of jazz music as applicable to the school jazz ensemble. Establishes a basic foundation of jazz knowledge and pedagogy that can be built upon in future independent learning endeavors.
Prerequisite: MUED 100 with B- or better

MUED 353, MUSIC EDUCATION IN PUBLIC SCHOOLS, 3 Credits
Examines historical practices, philosophical differences and pedagogical approaches that influence public school music programs. Field experiences provide contextual models with genuine teaching opportunities each week.
Prerequisite: MUS 121 with D- or better

MUED 375, PROFESSIONAL SEMINAR IN MUSIC EDUCATION III, 1 Credit
Continued interaction with field specialists and practitioners, and study of emerging topics and contemporary practices in music education. Fieldwork focuses on instructional strategies for guiding critical thinking and creative music listening.
Prerequisite: MUED 100 with B- or better

MUED 376, PROFESSIONAL SEMINAR IN MUSIC EDUCATION IV, 1 Credit
Continued interaction with field specialists and practitioners, and study of emerging topics and contemporary practices in music education. Fieldwork focuses on observation, leadership of composition, and improvisation activities.
Prerequisite: MUED 100 with B- or better

MUED 391, SECONDARY GENERAL MUSIC FOUNDATIONS, 3 Credits
Prepares the teacher candidate to design and facilitate experiences in music learning appropriate for secondary students (grades 6 to 12).
Prerequisite: MUED 100 with B- or better

MUED 392, SEMINAR IN SECONDARY GENERAL MUSIC, 1 Credit
Focuses on special topics (drumming) that follow evolving trends in secondary general music education.
Prerequisite: MUED 100 with D- or better

MUED 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 18 credits.

MUED 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 18 credits.

MUED 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 18 credits.

MUED 406, PROJECT, 1 Credit
Editing and refining of portfolio materials representing professional growth in teaching throughout the Professional Teacher and Counselor Education Program. Includes work samples, assessments, reflections, and videotapes.
This course is repeatable for 18 credits.

MUED 408, WORKSHOP, 1-16 Credits
May be repeated for a maximum of 18 credits.
This course is repeatable for 18 credits.

MUED 410, INTERNSHIP/STUDENT TEACHING, 1-10 Credits
An immersive 60-day experience. Daily experience with communicating content, planning, assessment, and classroom management in a guided field setting. Student teaching is a requirement for Oregon licensure.
This course is repeatable for 99 credits.

MUED 413, THEORY AND PRACTICUM: FIELD, 1-4 Credits
Field experience in music classroom. For pre-MAT students taking 4 credits, the experience is approximately 10 hours per week in elementary-level classroom.
MUED 450, SURVEY OF WIND LITERATURE, 1 Credit
Examines different time periods of wind band literature from the Renaissance through current repertoire. Explores wind band literature through study of the music and historical practices.
Prerequisite: MUED 326 with B- or better

MUED 460, PSYCHOLOGY OF MUSIC, 3 Credits
The study and evaluation of psychological, physiological, and neurological aspects of musical behavior and experience; including but not limited to acoustics, human hearing, perception and cognition, development and expertise, affective response and preference, unusual abilities, and selected special topics.

MUED 469, MARCHING BAND TECHNIQUES LABORATORY, 1 Credit
Provides an in-depth study of the unique techniques and demands of running a marching band.
Prerequisite: MUS 121 with C or better

MUED 470, METHODS AND MATERIALS FOR THE PUBLIC SCHOOL WIND BAND, 3 Credits
Includes examination of method books, instructional materials, and music for middle school and high school band. Class format is lecture, discussions, and microteaching demonstrations. Includes study of past and current methods of improving student musical understanding and performance through band literature and rehearsal techniques.
Recommended: MUS 318 and MUS 319

MUED 473, METHODS FOR TEACHING ELEMENTARY MUSIC, 3 Credits
Focuses on pedagogical content knowledge in music for specialists preparing to teach Kindergarten through grade five. Students will focus on the developmental characteristics of learners, repertoire and instructional techniques appropriate for the elementary music classroom, and lesson planning incorporating state and national standards. Issues related to diverse and special needs populations will be interwoven throughout each segment of the course.
Prerequisite: MUED 353 with D- or better

MUED 474, ELEMENTARY APPROACHES SEMINAR I, 1 Credit
Topics include practical applications of varied teaching methods, lesson planning, curricular design, repertoire, and resources for the general music classroom at the elementary level.
Prerequisite: MUED 473 with B- or better

MUED 475, ELEMENTARY APPROACHES SEMINAR II, 1 Credit
Provides the foundation for teacher candidates to develop a critical disposition regarding contemporary issues in the general music classroom.
Prerequisite: MUED 473 with B- or better

MUED 480, CLASSROOM CHORAL METHODS, 3 Credits
Examines research, theory, and pedagogical methods of choral classrooms. Primary topics: the role of choral music in various school settings and the responsibilities of the music teacher in developing/implementing goals and objectives for a choral music education curriculum.
Prerequisite: MUED 100 with B- or better

MUED 499, SPECIAL STUDIES, 1-16 Credits
May be repeated for a maximum of 18 credits.
This course is repeatable for 18 credits.

MUED 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 18 credits.

MUED 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 18 credits.

MUED 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

MUED 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 18 credits.

MUED 506, PROJECTS, 1-16 Credits
This course is repeatable for 18 credits.

MUED 507, THEORY AND PRACTICUM SEMINAR, 1-4 Credits
Field experience in music classroom.
This course is repeatable for 10 credits.

MUED 508, WORKSHOP, 1-16 Credits
This course is repeatable for 18 credits.

MUED 510, PROFESSIONAL INTERNSHIP, 3-15 Credits
A supervised teaching experience at a variety of public school levels. The student works with an experienced mentor teacher, accepting the professional responsibilities of teaching.
This course is repeatable for 15 credits.

MUED 521, SPECIAL TOPICS IN MUSIC ED, 3 Credits
Advanced pedagogy in one particular area within music education, such as jazz band techniques, computer design of marching band drills, advanced technology in music education. Topics will vary.
MUED 560, PSYCHOLOGY OF MUSIC, 3 Credits
The study and evaluation of psychological, physiological, and neurological aspects of musical behavior and experience; including but not limited to acoustics, human hearing, perception and cognition, development and expertise, affective response and preference, unusual abilities, and selected special topics.

MUED 562, RESEARCH IN MUSIC EDUCATION, 3 Credits
Introduction to the historical, philosophical, quantitative and qualitative research methodologies in music education. Includes interpretation and application of findings published in major research journals.

MUED 570, METHODS AND MATERIALS FOR THE PUBLIC SCHOOL WIND BAND, 3 Credits
Includes examination of method books, instructional materials, and music for middle school and high school band. Class format is lecture, discussions, and microteaching demonstrations. Includes study of past and current methods of improving student musical understanding and performance through band literature and rehearsal techniques.

MUED 573, METHODS FOR TEACHING ELEMENTARY MUSIC, 3 Credits
Focuses on pedagogical content knowledge in music for specialists preparing to teach Kindergarten through grade five. Students will focus on the developmental characteristics of learners, multiple representations of the subject matter, and lesson planning incorporating state and national standards. Issues related to diverse and special needs populations will be interwoven throughout each segment of the course.

Recommended: MUED 353

MUED 580, SECONDARY VOCAL MUSIC EDUCATION, 3 Credits
This methods course focuses on vocal music education, grades nine through twelve. Students explore relationships between teaching and learning in order to effectively plan for instruction.

MUED 581, SECONDARY INSTRUMENTAL MUSIC EDUCATION, 3 Credits
This methods course focuses on instrumental music education, grades nine through twelve. Students explore relationships between teaching and learning in order to effectively plan for instruction.

MUED 591, CURRICULUM FOUNDATIONS IN MUSIC EDUCATION, 3 Credits
Examination of historical, philosophical, and social influences on contemporary music education emphasizing 1950 through the present, culminating in the National Standards for Arts Education.

MUED 592, FOUNDATIONS OF MUSIC EDUCATION II: 3 Credits
CURRICULUM IMPLEMENTATION AND EVALUATION Students design and construct a comprehensive music education curriculum grounded in current research, the National Standards for Arts Education and Oregon’s Common Curriculum Goals.

MUED 593, MUSIC TECHNOLOGY, 3 Credits
Specific applications for teaching music incorporating appropriate software and hardware for curricular integration and curricular evolution.

MUED 599, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 18 credits.

Natural Resources (NR)

NR 003, UNDERGRADUATE RESEARCH, 0 Credits
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

NR 201, MANAGING NATURAL RESOURCES FOR THE FUTURE, 3 Credits
Overview of the complexities involved in managing natural resources of the Pacific Northwest. Exposure to major natural resource issues of the region. Development of critical thinking skills useful in seeking solutions.
Available via Ecampus

NR 202, NATURAL RESOURCE PROBLEMS AND SOLUTIONS, 3 Credits
Exploration of the multiple components (ecological, social, political, ethical) of selected natural resource problems. Uses case studies to illustrate how social and biophysical characteristics of environmental problems influence the methods used to try to solve these problems and their potential for success.
Recommended: NR 201
Available via Ecampus

NR 312, CRITICAL THINKING FOR NATURAL RESOURCE CHALLENGES, 3 Credits
Provides an introduction to critical thinking as it applies to issues and problems in natural resources. Attention is given to formal argument analysis, fallacies of argumentation, and critical scientific and philosophical concepts.
Recommended: Sophomore standing

NR 325, SCIENTIFIC METHODS FOR ANALYZING NATURAL RESOURCE PROBLEMS, 3 Credits
Approaches to disciplinary and interdisciplinary problem analysis in natural resources. Introduces systems thinking and the benefits and limitations of different tools used to integrate information from multiple disciplines and stakeholders. Applications of alternative analysis tools are illustrated through selected forest-related case studies. Lec/lab.
Prerequisite: MTH 111 with C- or better or Math Placement - ALEKS with a score of 060
Recommended: NR 201 and (ST 201 or ST 351)
NR 351, *WHEN SCIENCE ESCAPES THE LAB: SCIENCE AND RESOURCE MANAGEMENT, 3 Credits
Role of science in solving natural resource problems. Selecting the 'best available science.' How science is portrayed, filtered, and used by the media and interests groups to affect policy and management. Analysis of case studies on use of science in natural resource decision making. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Sophomore standing and NR 312

NR 380, NATURE IN STORYTELLING OVER THE CENTURIES, 3 Credits
Examines the historic tendency across cultures to mythologize elements of the natural world, resulting in celebrated myths, fables, and stories. The course examines nature-based folklore from past centuries, uncovering early perceptions of landscapes, creatures, and plants held by societies and cultures. Focus then shifts to exploration of how perceptions of nature have evolved over the past century. Connections between contemporary popular culture and old-world myths, fables, and stories will thus be revealed.
Available via Ecampus

NR 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

NR 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

NR 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

NR 405, READING AND CONFERENCE, 1-9 Credits
This course is repeatable for 18 credits.

NR 406, PROJECTS, 1-9 Credits
This course is repeatable for 16 credits.
Available via Ecampus

NR 407, SEMINAR, 1-9 Credits
This course is repeatable for 18 credits.

NR 410, INTERNSHIP, 1-6 Credits
This course is repeatable for 12 credits.
Available via Ecampus

NR 455, NATURAL RESOURCE DECISION MAKING, 4 Credits
Students will participate on collaborative planning teams that effectively engage stakeholders in the decision making process, and offer sound natural resource decisions that are supported by multiple interests.
Prerequisite: FES 485 with D- or better and (BI 371 [D-] or BI 373 [D-] or ENSC 479 [D-] or FE 460 [D-] or FES 486 [D-] or FOR 460 [D-] or FW 435 [D-] or FW 439 [D-] or FW 454 [D-] or FW 497 [D-] or GEOG 323 [D-] or HORT 318 [D-] or SOIL 395 [D-] or WR 462 [D-])
Available via Ecampus

NR 477, *AGROFORESTRY, 3 Credits
Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/ NR 477 and FES 577/RNG 577. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FES 477, FS 477, RNG 477
Recommended: Introductory course in biology.

NR 499, SPECIAL TOPICS, 1-16 Credits
This is a hybrid course when offered by Ecampus.
Equivalent to: NR 499H
This course is repeatable for 16 credits.
Available via Ecampus

NR 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: NR 499
This course is repeatable for 16 credits.

Naval Science (NS)

NS 002, LEADERSHIP, 0 Credits
Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience help students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

NS 111, INTRO TO NAVAL SCIENCE, 3 Credits
Naval organization and administration; organization of the Navy or Marine Corps, the Navy and Marine Corps as a career, responsibilities and commitments as an officer in the Navy or Marine Corps.

NS 112, U.S. NAVAL HISTORY I, 3 Credits
A study of U.S. seapower and maritime affairs from the American Revolution through 1900. Lec/lab.

NS 113, U.S. NAVAL HISTORY II, 3 Credits
A study of U.S. seapower and maritime affairs from 1900 through present day. Lec/lab.
Prerequisite: NS 112 with D- or better
**NS 211, LEADERSHIP AND MANAGEMENT, 5 Credits**
The first of two core leadership courses that provide the academic foundation of the four-year continuum of leadership development in Naval ROTC. Includes key concepts from various fields in leadership, management, the behavioral sciences, and information that comes straight from the Navy and Marine Corps. The theory to application model provides a scholarly framework.

**NS 212, NAVAL ENGINEERING, 5 Credits**
Propulsion, basic engineering systems theory, and concepts application in modern ship and jet propulsion. Course will include auxiliary systems, theory and design of shipboard auxiliaries, ship design, and damage control/safety procedures. Offered every other winter term.

Prerequisite: NS 111 with D- or better

**NS 311, NAVIGATION, 5 Credits**
Introduction to navigation including piloting, dead reckoning, and voyage planning. Course includes nautical rules of the road, maneuvering board, relative motion, and shipboard external communications.

**NS 313, NAVAL OPERATIONS AND SEAMANSHIP, 3 Credits**
Theory of shiphandling, communications, shipboard evolutions, heavy weather, case study discussions.

Prerequisite: NS 311 with D- or better

**NS 321, EVOLUTION OF WARFARE, 5 Credits**
Provides a basic understanding of the art and practice of warfare from the beginning of recorded history to present day. Utilizes Marine Corps Doctrinal Publications as base documents to evaluate warfare technology, tactics, and strategic thought. Special emphasis is placed on the evolution and innovation of warfare, and decision-making at all levels of war. Historical case studies recognize and reinforce patterns, enduring themes, and principles of warfighting. Historical study is not simply to ascertain what happened, but to use historical lessons learned as a basis for making practical judgments about the present and future.

**NS 323, NAVAL SCIENCE III: MARINE CORPS OPTION, 3 Credits**
Explores a fundamental understanding of the basic military skills required for completion of the commissioning course at Officer Candidate School (OCS). Examines USMC history, mission and organization, map reading, land navigation, small unit leadership and tactics, 5-paragraph order, and M16 familiarization, in order to face the environment expected during OCS.

Prerequisite: NS 321 with D- or better

**NS 405, READING AND CONFERENCE, 1-16 Credits**
To prepare midshipmen returning from a leave of absence from the Naval ROTC program for commissioning and entrance into the fleet. This course is repeatable for 16 credits.

**NS 411, NAVAL WEAPONS SYSTEMS, 5 Credits**
Introduction to the theory and development of U.S. Naval weapons systems, current weapons systems types, platforms, and employment. Course will include naval weapons systems types, launch platforms, characteristics and employment.

Prerequisite: NS 111 with D- or better

**NS 413, LEADERSHIP AND ETHICS, 4 Credits**
The second of two core leadership courses that provide the academic foundation of NROTC leadership development. The purpose of this capstone course is to provide future naval leaders with a sound moral leadership foundation for “real life” military decision making. Integrates an intellectual exploration of Western moral traditions and ethical philosophy with military leadership, core values, professional ethics, the Uniform Code of Military Justice, and Navy regulations. Combining ethical theory and leadership discussions with current military events will prepare students for the role and responsibilities of leadership in the naval service.

Prerequisite: NS 211 with C- or better

**NS 421, FUNDAMENTALS OF MANEUVER WARFARE, 5 Credits**
A detailed look at broad aspects of warfare and their interactions with maneuver warfare doctrine, with a focus on the United States Marine Corps. Throughout the course there is a strong focus on leadership, as the fundamental purpose of this course is to develop the skills, knowledge, leadership background, and mindset necessary for a successful Marine Corps Officer. This class is open to all students; however, most topics and concepts of this class are intended to professionally develop future United States Marine Corps officers.

Prerequisite: NS 321 with D- or better

**New Media Communications (NMC)**

**NMC 100, *NEW MEDIA AND CULTURE, 3 Credits**
Provides students with the basic critical skills to analyze the cultural, social, and political impact of new media technologies, new media texts, and new media institutions. Students will be exposed to a variety of social scientific and humanistic conceptual approaches to analyzing new media and culture. Special emphasis will be placed on historical analyses of how new media have shaped culture, as well as how culture has shaped new media. (Bacc Core Course)

Attributes: CPSI – Core, Pers, Soc Proc & Inst

Available via Ecampus

**NMC 101, *INTRODUCTION TO NEW MEDIA COMMUNICATIONS, 3 Credits**
Principles of new media communications. Perspectives on the communications media. How the communications media operate and how they interact with society.

Attributes: CPSI – Core, Pers, Soc Proc & Inst

Equivalent to: NMC 101H

Available via Ecampus
NMC 101H, *INTRODUCTION TO NEW MEDIA COMMUNICATIONS, 3 Credits
Principles of new media communications. Perspectives on the communications media. How the communications media operate and how they interact with society.
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: NMC 101

NMC 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

NMC 240, SURVEY OF SOCIAL MEDIA, 3 Credits
Social media are curiously positioned as being both emergent media and convergent media--they function because of the coalescence of existing media forms and the creation of new ones. This class will use multiple perspectives to explore the past, present, and future of social media.
Prerequisite: NMC 101 with C- or better
Available via Ecampus

NMC 241, APPLIED MEDIA AESTHETICS, 4 Credits
Foundational elements and principles of art and design in relation to visual media production and the communicative arts. Topics include composition, layout, color theory, typography, image manipulation, graphics creation and design in visual media. Provides core competencies digital visual communication arts tools.
Recommended: NMC 101

NMC 245, CULTURAL ANALYTICS AND DATA SCIENCE, 3 Credits
Computational approaches to cultural research have changed what it means to work with media today. This course provides a foundation in data science tailored for work in social and cultural research including basic work in natural language processing, social network analysis, and information visualization.

NMC 255, APPLIED SOUND DESIGN, 4 Credits
Foundational elements and principles of sound design in relation to audio production and the communicative arts. Topics include elements of sound, technical terminology, types of equipment and digital audio workflows. Provides core competencies in audio recording, editing and manipulation in sound media.
Recommended: NMC 101

NMC 260, NEW MEDIA FUTURES, 3 Credits
Historical context and current perspectives on the various aspects of new multimedia communications, including linear and nonlinear or time-based and interactive media. Primary topics include digital cinema (compositing and nonlinear access), visual music, information visualization, interactive narrative, and virtual space.
Available via Ecampus

NMC 280, GLOBAL MEDIA, 3 Credits
Explores theoretical and practical concepts of global media. Both historical and contemporary perspectives on the topic are addressed, particularly as they relate to cultural autonomy, political rights, social justice, communication flow debates, media systems of different world regions, global representations in U.S. media, and developments in global technology and economic media developments.
Available via Ecampus

NMC 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

NMC 301, ^WRITING FOR THE MEDIA PROFESSIONAL, 3 Credits
Fundamentals of gathering information, evaluating information, writing information of the media and editing media content in written form.
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: NMC 101
Available via Ecampus

NMC 302, REPORTING, 3 Credits
An introduction to the practices, procedures, techniques, and organizational structures of basic news gathering and writing.
Equivalent to: WR 301
Recommended: WR 201
Available via Ecampus

NMC 305, COPYEDITING, 3 Credits
Copyreading, headline writing, newspaper layout and design.
Equivalent to: WR 305

NMC 306, ART AND CULTURE CONTENT CREATION, 3 Credits
Explores various forms of the arts and culture using criticism/reviewing/feature writing’s forms, principles and ethics. Encourages students to be artful in response, given certain time and space boundaries, but also to discuss pushing the boundaries, exploding those boundaries and doing excellent, artful creation in response to the arts that affect our lives.
Available via Ecampus

NMC 311, INTRODUCTION TO NONPROFIT MANAGEMENT, 3 Credits
Introduction to the principles of effective nonprofit management and lays a foundation for future leaders and managers in the nonprofit sector. Focuses on historical perspectives, ethics, governance and leadership, legal structure and standards, financial management, strategic planning principles, fundraising principles, volunteer management, marketing and communications, and the future of the nonprofit sector.
Available via Ecampus
NMC 320, HISTORY OF TELECOMMUNICATIONS, 3 Credits
A historical overview of the telecommunications industry. The goal is to understand how the industry got where it is today and, by analyzing principles, events, and trends, suggest what directions it may take in the future. The emphasis is on constructing a causal chronology, interrelating developments in technology, organization, and structure of the industry. This course will focus on the technological developments in the industry. Prerequisite: NMC 101 with C- or better and NMC 260 [C-]
Recommended: WR II completed with a passing grade.

NMC 321, HISTORY OF BROADCASTING, 3 Credits
The technological, economic and corporate, legal and political, artistic, and social developments that shaped American broadcasting in the 20th century are examined. Implications for the future of broadcasting are addressed as well. Prerequisite: NMC 260 with C- or better
Recommended: WR II completed with a passing grade

NMC 322, LANDMARKS IN MEDIA CONTENT, 3 Credits
Introduces students to media content that represents advances in the art and science of creative use of media technology. Some of these advances were recognized immediately, some only after time had passed. Prerequisite: NMC 101 with C- or better and NMC 260 [C-]
Recommended: WR II completed with a passing grade.

NMC 330, THE MEANING OF VIDEO GAMES, 3 Credits
Examines approaches to understanding the experience of playing video games, including the role of storytelling in diverse games, the relationship between the player and the game, the game as art, and intersections between games and real life. Prerequisite: NMC 301 with C- or better
Recommended: NMC 101

NMC 340, SOCIAL MEDIA STRATEGY, 3 Credits
Designing systems of interaction is important for understanding how people come to be a part of social networks. Students will participate in a series of simulation games that will explore the dimensions of the interaction between publics and social networks, culminating in an original research project. Prerequisite: NMC 240 with C- or better and NMC 260 [C-]
Recommended: NMC 301

NMC 341, MEDIA SPIN AND DECEPTION DETECTION, 3 Credits
Examines common ways media is used to deceive, and how media scholars and creators can avoid falling prey to spinners, platformed prevaricators, and purveyors of ‘fake news’ using knowledge of production techniques, logic, and other skills.

NMC 349, VIDEO ART, 4 Credits
Studio course in video art and time-based media projects. Emphasis on experimental approaches to video art in a contemporary art context, linear and non-linear video production and the projection and screening of video art projects. Introduction to the history of video art as an art form. Lec/studio. CROSSLISTED as ART 349/NMC 349.
Prerequisite: ART 222 with C- or better and ART 263 [C-]
Equivalent to: ART 349
This course is repeatable for 8 credits.

NMC 351, NEW MEDIA VISUALIZATION, 4 Credits
Principles of spatial design, interactive design and immersive storytelling as they relate to Virtual, Augmented and Mixed Reality (collectively referred to as Extended or X-Reality). Additional topics include the history and current applications of X-Reality technology.
Prerequisite: NMC 101 with C- or better

NMC 355, SOUND DESIGN FOR VISUAL MEDIA, 4 Credits
Explores creative application of sound design for linear narrative, interactive and experimental visual media. Topics include evolving sound aesthetics for visual media in a historical and technological context. Emphasis on post-production synchronization, sound effect creation and manipulation, music underscoring and expressive experimentation in the audio visual story.
Prerequisite: NMC 101 with C- or better and NMC 255 [C-]

NMC 356, PODCAST PRODUCTION, 3 Credits
An intermediate-level production class in which we will develop, launch, distribute, and maintain professional-quality podcasts and use podcasting tools and resources for other storytelling enterprises.
Prerequisite: NMC 255 with C- or better

NMC 380, PRE-PRODUCTION, 4 Credits
Focuses on pre-production or the planning phase of various audio/visual storytelling media. Explores creative application of visualizing a text narrative into a audio/visual media production. Topics include story structure, concept development, visual research, cinematics, shot composition, storyboarding, animatics and editing.
Prerequisite: NMC 101 with C- or better
Recommended: NMC 241

NMC 382, STUDIO AND MULTICAMERA PRODUCTION, 4 Credits
Proficiency in organizing, producing, directing, and evaluating television programs using multicamera studio techniques, including graphics, set design, audio for television and digital video production, and lighting. Emphasis on bringing ideas from conception to realization in a studio setting. Lec/lab.
Recommended: NMC 101
NMC 383, FIELD PRODUCTION, 4 Credits
Development of the technical abilities and conceptual approaches to audio, film, video and multimedia production. Emphasis on single-camera production techniques and concepts. Students will begin the study of post-production process. Students will also begin to study lighting and audio as they relate to single-camera field production.
Prerequisite: NMC 380 with C- or better
Recommended: NMC 351

NMC 385, MOTION DESIGN FOUNDATIONS, 4 Credits
Explores foundational elements and principles of animation for motion design. Topics include introductory animation techniques, history of motion graphics, the production process and workflows. Concept development, visual research, asset creation will be exercised through the creative development and execution of motion design projects.
Prerequisite: NMC 101 with C- or better
Recommended: NMC 241

NMC 388, SOCIAL MEDIA AND INTERPERSONAL RELATIONSHIPS, 3 Credits
Examines how individuals build and maintain close relationships through new media and social networks. Currently, scholars are seeing a shift in how individuals self-report building close relationships, as people use elements of new media more and more frequently. Designed to look into the similarities and differences of these relationships as compared to face-to-face relationships. CROSSTHREADED as COMM 388/NMC 388.
Equivalent to: COMM 388
Available via Ecampus

NMC 392, WEB DESIGN AND PROGRAMMING, 3 Credits
Web apps are applications that are loaded as web pages. They can store data locally and continue to function while offline. In this hands-on class, students will create web apps that run on smart phones. No prior programming skills are required. Programming concepts that are required to create interactive web apps will be covered in this class.
Prerequisite: NMC 260 with C- or better

NMC 393, SERVER SIDE PROGRAMMING, 3 Credits
Create websites that focus on the server side. Server side website can store or retrieve data from users. In this hands-on class, students will create server side websites. No prior programming skills are required. Programming concepts that are required to create interactive server side websites will be covered in this class.
Prerequisite: NMC 260 with C- or better
This course is repeatable for 3 credits.
Recommended: NMC 392

NMC 394, INTERACTIVE DESIGN AND USER EXPERIENCE, 3 Credits
Explores core skills of interactive design within media communications and systems, including conceptualizing interactive systems, prototyping, iterating, and managing interactive design workflow processes. Primarily examines interactivity through the lens of app design, while considering how these principles apply to other domains such as web interactivity, digital applications, tangible products, and mixed reality. Expands interactive formats and user experiences through visual consideration. Emphasizes hands-on aspect for artists to re/create interactive designs and focuses on the practical facet of the design.

NMC 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

NMC 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

NMC 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

NMC 403, THESIS/DISSERTATION, 1-16 Credits
This course is repeatable for 16 credits.

NMC 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

NMC 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

NMC 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

NMC 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

NMC 409, PRACTICUM, 1-16 Credits
Equivalent to: ART 409
This course is repeatable for 16 credits.

NMC 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

NMC 418, VIRAL CONTENT, 3 Credits
Online media is often filled with memes, likes, shares, tweets and even hilarious cat videos. Companies like Buzzfeed exist to create, maintain and drive traffic to content. In 2015, collectively the top 10 YouTube content creators made 70.5 million dollars. So, what's the secret to going viral? This class is designed to look at this question by examining the culture of viral content, the social and psychological influences that shape online behavior and the business of creating and spreading viral content. Throughout the term, students will apply these principle concepts in an attempt to make their own viral content.
Available via Ecampus
NMC 419, REEFER MADNESS IN THE MEDIA, 3 Credits
Critically examines the history of hemp and marijuana prohibition, issues of propaganda and the media’s role during the transition between prohibition and the current state of reform. The purpose of this course is to better understand the role media plays in shaping our political, cultural and personal experiences. For students, this knowledge is invaluable for analysis, evaluation and critical thinking skills. The framework of this class is based on four modules: ‘History of Marijuana Prohibition’, ‘Marijuana, Media and Culture’, ‘Medicinal Marijuana Movement’ and ‘Legalizing Marijuana Campaigns’.
Available via Ecampus

NMC 421, DIFFUSION OF INNOVATIONS, 3 Credits
An introduction to old and emerging theories that explain the spread of innovative ideas and technologies among members of a society, emphasizing the role of communication processes and the special problems for diffusion in communication technology.
Prerequisite: NMC 301 with C- or better
Recommended: NMC 101

NMC 425, LATINOS IN THE MEDIA, 3 Credits
Examines the sociohistorical context for the underrepresentation of Latinos in mainstream media, the narrow roles and issues ascribed to Latinos and the ways in which media moguls attempt to attract Latino consumers. Focus on Latino filmmakers, actors, and writers as they rewrite traditional scripts to create a vibrant, multifaceted picture of Latinos in the U.S. today.
Prerequisite: NMC 101 with D- or better

NMC 427, *DIGITAL PORNOGRAPHY, 3 Credits
Exploration of the prominent role pornography plays in digital communication innovation globally including the examination of social consequences; diffusion of technology, business models and economic impact; legal, ethical, and moral issues; and community health and well-being. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

NMC 430, MEDIA THEORY, 3 Credits
Specifies the concepts, hypotheses, and theoretical paradigms that have characterized the study of media since the early 20th century. The evolution of theory as new media has changed the media economy is emphasized, as well as the need for new concepts to describe phenomena unique to the Internet era (concepts such as
Prerequisite: NMC 301 with C- or better
Recommended: NMC 101

NMC 435, MEDIA EFFECTS, 3 Credits
Reviews the potential for media technology and media content to influence the beliefs and behaviors of individuals. The media's ability to bring about specific changes in people's attitudes, values, political agendas, purchasing habits, and jury decisions are discussed. The impact of new media's interactive technology and content on people's beliefs and behaviors is emphasized.
Prerequisite: NMC 301 with C- or better

NMC 437, NEW MEDIA AND SOCIETY, 3 Credits
Traces the impact of new media—from the telegraph to the Internet—on American society. Emphasizes the way that existing social institutions (e.g., schools and churches) and opinion leaders (e.g., presidents and scholars) greeted the arrival of new media with an increasingly predictable mixture of fear and euphoria. Social changes such as the westward expansion of the U.S. in the 19th century, the arrival of immigrants in the late 19th and early 20th centuries, and the rise of youth culture in the mid-20th century are discussed in terms of their connection to developments in the technology and structure of media. The integration of Internet-based services into contemporary American society is the focus of one-half of the course.
Prerequisite: NMC 301 with C- or better
Recommended: NMC 101

NMC 440, MEDIA MANAGEMENT, 3 Credits
Changes in technology and in the media’s role in converging technologies require creative, innovative organizational structure and strategic management and leadership techniques. Identify basic roles, principles and concepts as related to media management. Through group work, role-plays, and projects, investigate the creative and practical aspects of managing diverse teams and interpersonal dialogue, while becoming more culturally competent.
Prerequisite: NMC 301 with C- or better

NMC 441, MEDIA ENTREPRENEURSHIP, 3 Credits
Studies the entrepreneurial process as it relates uniquely to the arts and sciences of new media. Students will study the basic entrepreneurial processes of law, finance, accounting, organizational structure, budgeting, business plans, market analyses, taxes, licensing, and insurance as they relate to new media enterprises. Students will also study the sales/revenue generation side of new media ventures.
Prerequisite: NMC 301 with C- or better
Available via Ecampus

NMC 461, TRANS-MEDIA CREATION IN SCI-FI & FANTASY, 3 Credits
Develops an exploitable sci-fi/fantasy storyworld suitable for trans-media franchise development, anchors it with a novelette-length work of fiction writing, and makes preparations to utilize it as the hub of a trans-media storytelling franchise. Although a tremendous amount of writing happens in this class as part of the story-creation process, writing is used simply as a capture tool. This is not a writing class.

NMC 462, TRANS-MEDIA PUBLISHING IN SCI-FI & FANTASY, 3 Credits
Simulates a trans-media story shop. A franchise canon is selected (usually from the public domain) and student teams work on specific trans-media assets for the franchise, bringing their existing skill sets to the table and learning new ones from their peers in a collaborative setting. Examples of such assets include webcomics, short video productions, virtual-reality experiences, video games, tabletop games, interactive novels, alternate-reality games, podcasts, radio dramas, e-books, YouTube channels.
NMC 470, MEDIA LAW, 3 Credits
The relevant laws and regulations that govern the mass media; the participants in the law making process; the analytical methods and problem solving techniques used in the law making process; the laws and policies affecting journalists. Issues such as libel, privacy, obscenity, indecency, fair trial/free press and copyright are covered.
Prerequisite: NMC 301 with C- or better
Available via Ecampus

NMC 471, TELECOMMUNICATIONS POLICY, 3 Credits
Covers past and present telecommunications policy. Examines the agencies that govern the telecommunications industry, including the Federal Communications Commission. Studies the differences and similarities between the regulations associated with public and private telecommunications systems and services. Students will gain knowledge of telecommunications industry ownership regulations, including antitrust regulation of the telecommunications industry.
Prerequisite: NMC 301 with C- or better

NMC 481, COMPOSING AND DIGITAL EFFECTS, 4 Credits
Explores compositing and digital effects as production techniques in digital storytelling. This course explores several compositing techniques and workflow options for digital manipulation of moving image content. Topics include green screen extraction, motion and camera tracking, rotoscoping, and 2D/3D workflows.
Prerequisite: NMC 101 with C- or better and NMC 241 [C-] and NMC 260 [C-] and NMC 380 [C-]

NMC 482, DOCUMENTARY, 4 Credits
Theory and production of the documentary genre. The class covers all stages of producing a documentary film from the idea through development, marketing, planning, shooting, editing, and post-production.
Lec/lab.
Prerequisite: NMC 383 with C- or better
Recommended: NMC 351 and NMC 380

NMC 483, NEW MEDIA 3-D, 4 Credits
Hands-on introduction to the world of 3-D computer modeling and animation, including investigations of light, texture, form, spatial design and motion. Course includes discussions of professional and artistic practice and critique of student and professional work.
Lec/lab.
Equivalent to: NMC 485

NMC 484, NEW MEDIA ANIMATION, 4 Credits
An in-depth theoretical and hands-on investigation of advanced animation tools and techniques used for educational, scientific, entertainment, and expressive communication projects. Tools and techniques covered include motion capture (full body, face, hand), automated lip-sync dialogue processing, dynamic simulation, particle motion, and other simulation or performance-based animation approaches. Students will work individually and in teams to explore the communicative and creative possibilities of the described technologies.
Recommended: NMC 101

NMC 487, VIRTUAL WORLDS, 4 Credits
Explores design of virtual space from theoretical, historical and practical perspectives. Compares and contrasts real world physical space with virtual space. Examines narrative back story, style, form, color, light, motion and sound in video games. Develops detailed cultural and environmental back stories for virtual worlds based on research. Plans and maps layout of interactive virtual worlds that encourage exploration.
Researches and applies principles of color, light, form, motion, sound and spatial narrative design. Builds interactive virtual spaces using 3D modeling and game development software. Creates cinematic trailers of virtual worlds, including complex camera moves and soundtracks. Designs logos for virtual worlds based on principles of design, and research of brand identities.
Prerequisite: (NMC 100 with C or better or NMC 260 with C or better) and NMC 351 [C]

NMC 490, MEDIA ETHICS, 3 Credits
Exploration of the ethical issues surrounding new media communications. Topics include professionalism in journalism, new media visual production, new media management, advertising, film, and public relations. Topics also include new media’s relationship with society, violence in the media, and sex in the media.
Prerequisite: NMC 301 with C- or better
Recommended: NMC 101

NMC 493, MEDIA AND POWER, 3 Credits
Analyzes the relationship between media and power. Media technologies like television, film, the smartphone, and GPS have been central to the analysis, governance, and control of populations. Emphasizes how media technologies have allowed for the exertion, extension, and resistance of power in the United States. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

NMC 498, ADVANCED COLLABORATIVE EXPERIENCE, 3-4 Credits
Senior-level course designed to integrate the skills and knowledge obtained through NMC course work into a group research, group project, and/or group production that will be useful to students for their professional portfolio or serve as the basis for academic publication. Topic changes per term.
Prerequisite: NMC 101 with C- or better and NMC 301 [C-]
This course is repeatable for 4 credits.

NMC 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Nuclear Science & Engineering (NSE)
NSE 114, INTRO TO NUCLEAR ENGINEERING AND RADIATION HEALTH PHYSICS I, 3 Credits
Introduction to the nuclear engineering and radiation health physics fields; problem-solving techniques; careers in the nuclear industry; nuclear history; elementary nuclear and reactor physics; basic nuclear fission and fusion theory; reactor types; nuclear safety; nuclear fuel cycle; and radiation protection.
Equivalent to: NE 114, RHP 114
Nuclear Science & Engineering (NSE)

NSE 115, INTRO TO NUCLEAR ENGINEERING AND RADIATION HEALTH PHYSICS II, 3 Credits
Introduction to the nuclear engineering and radiation health physics fields; problem-solving techniques; careers in the nuclear industry; nuclear history; elementary nuclear and reactor physics; basic nuclear fission and fusion theory; reactor types; nuclear safety; nuclear fuel cycle; and radiation protection.
Equivalent to: NE 115, RHP 115

NSE 233, MATHEMATICAL METHODS FOR NSE, 3 Credits
Development and application of analytical and numerical methods with applications to problems in the NE/RHP field. Major topics will include solution of ODEs and systems of ODEs, root finding techniques and numerical integration and differentiation. Major applications will include solution of the Bateman Equations and solution of the diffusion equation.
Prerequisite: MTH 256 with C or better or MTH 256H with C or better

NSE 234, NUCLEAR AND RADIATION PHYSICS I, 3 Credits
Relativistic dynamics; basic nuclear physics; basic quantum mechanics; radioactivity; electromagnetic waves; interaction of ionizing radiation with matter; cross sections; basic atomic structure.
Prerequisite: MTH 251 with C or better or MTH 251H with C or better
Equivalent to: NE 234, RHP 234

NSE 235, NUCLEAR AND RADIATION PHYSICS II, 3 Credits
Radioactivity; radioactive decay modes; decay kinetics, interaction of neutrons with matter; nuclear reactions; fission and fusion basics; cross sections.
Prerequisite: (NSE 234 with C or better or NE 234 with C or better or RHP 234 with C or better) and (MTH 252 [C] or MTH 252H [C])
Equivalent to: NE 235, RHP 235

NSE 236, NUCLEAR RADIATION DETECTION AND INSTRUMENTATION, 4 Credits
Principles and mechanisms underlying nuclear radiation detection and measurements; operation of nuclear electronic laboratory instrumentation; application of gas-filled, scintillation and semiconductor laboratory detectors for measurement of alpha, beta, gamma, and neutron radiation; experimental investigation of interactions of radiation with matter. Lec/lab.
Prerequisite: NSE 235 with C or better or NE 235 with C or better or RHP 235 with C or better
Equivalent to: NE 236, RHP 236

NSE 311, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSLISTED as ME 311/NSE 311.
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ME 311, ME 311H, NE 311, NE 311H, NSE 311

NSE 311H, INTRODUCTION TO THERMAL-FLUID SCIENCES, 4 Credits
Basic concepts of fluid mechanics, thermodynamics and heat transfer are introduced. Conservation of mass, energy, moment and the second law of thermodynamics are included. CROSSLISTED as ME 311/NSE 311.
Attributes: HNRS – Honors Course Designator
Prerequisite: (ENGR 212 with C or better or ENGR 212H with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: ME 311, ME 311H, NE 311, NE 311H, NSE 311

NSE 312, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSLISTED as ME 312/NSE 312.
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 312, ME 312, ME 312H, NE 312, NE 312H, NSE 312

NSE 312H, THERMODYNAMICS, 4 Credits
Analyzes exergy destruction, machine and cycle processes, law of corresponding states, non-reactive gas mixtures, reactive mixtures, thermodynamics of compressible fluid flow. CROSSLISTED as ME 312/NSE 312.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 312, ME 312, ME 312H, NE 312, NE 312H, NSE 312

NSE 319, *SOCIETAL ASPECTS OF NUCLEAR TECHNOLOGY, 3 Credits
Description and discussion of nuclear-related issues as they impact society. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: NE 319

NSE 331, INTRODUCTORY FLUID MECHANICS, 4 Credits
Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSLISTED as ME 331/NSE 331.
Prerequisite: ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NE 311 with C or better or NE 311H with C or better or NSE 311 with C or better or NSE 311H with C or better
Equivalent to: ENGR 331, ENGR 331H, ME 331, ME 331H, NE 331, NE 331H, NSE 331H
NSE 331H, INTRODUCTORY FLUID MECHANICS, 4 Credits
Introduces the concepts and applications of fluid mechanics and dimensional analysis with an emphasis on fluid behavior, internal and external flows, analysis of engineering applications of incompressible pipe systems, and external aerodynamics. CROSSLISTED as ME 331/NSE 331.
Attributes: HNRS – Honors Course Designator
Prerequisite: ENGR 311 with C or better or ENGR 311H with C or better or ME 311 with C or better or ME 311H with C or better or NSE 311 with C or better or NSE 311H with C or better or NE 311 with C or better or NE 311H with C or better
Equivalent to: ENGR 331, ENGR 331H, ME 331, ME 331H, NE 331, NE 331H, NSE 331

NSE 332, HEAT TRANSFER, 4 Credits
Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSLISTED as ME 332/NSE 332.
Prerequisite: ME 331 with C or better or ME 331H with C or better or NSE 331 with C or better or NSE 331H with C or better or NE 331 with C or better or NE 331H with C or better
Equivalent to: ME 332, ME 332H, NE 332, NE 332H, NSE 332H

NSE 332H, HEAT TRANSFER, 4 Credits
Analyzes conductive, convective and radiative energy transfer using control volume and differential analysis and prediction of transport properties. CROSSLISTED as ME 332/NSE 332.
Attributes: HNRS – Honors Course Designator
Prerequisite: ME 331 with C or better or ME 331H with C or better or NSE 331 with C or better or NSE 331H with C or better or NE 331 with C or better or NE 331H with C or better
Equivalent to: ME 332, ME 332H, NE 332, NE 332H, NSE 332

NSE 401, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: NE 401
This course is repeatable for 99 credits.

NSE 403, THESIS/DISSERTATION, 1-16 Credits
Equivalent to: NE 403
This course is repeatable for 16 credits.

NSE 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: NE 405
This course is repeatable for 16 credits.

NSE 406, PROJECTS, 1-16 Credits
Equivalent to: NE 406
This course is repeatable for 16 credits.

NSE 407, SEMINAR, 1 Credit
Graded P/N.
Equivalent to: RHP 407
This course is repeatable for 16 credits.

NSE 410, INTERNSHIP, 1-12 Credits
Supervised technical work experience at approved organizations. Graded P/N.
Equivalent to: RHP 410
This course is repeatable for 12 credits.

NSE 415, NUCLEAR RULES AND REGULATIONS, 2 Credits
An introduction to the key nuclear regulatory agencies; major nuclear legislation; current radiation protection standards and organizations responsible for their implementation. Offered alternate years.
Prerequisite: NSE 236 with C or better
Equivalent to: NE 415, RHP 415
Recommended: NSE 481 or NE 481 or RHP 481

NSE 429, SELECTED TOPICS IN NUCLEAR ENGINEERING, 1-3 Credits
Topics associated with nuclear engineering not covered in other undergraduate courses; topics may vary from year to year.
Equivalent to: NE 429
This course is repeatable for 45 credits.

NSE 435, RADIATION SHIELDING AND EXTERNAL DOSIMETRY, 4 Credits
Theoretical principles of shielding for neutron and gamma radiation; external dosimetry fundamentals for neutrons, photons, and charged particles; applications to problems of practical interest; analytical, numerical, and computer solutions emphasized.
Prerequisite: (NSE 234 with C or better or NE 234 with C or better or RHP 234 with C or better) and (NSE 235 [C] or NE 235 [C] or RHP 235 [C]) and (NSE 481 [C] or NE 481 [C] or RHP 481 [C])
Equivalent to: NE 435

NSE 440, NUCLEAR FUEL CYCLE AND WASTE MANAGEMENT, 4 Credits
Mining, milling, conversion, enrichment, fuel fabrication, reprocessing, and waste management of nuclear fuel, including disposal of low- and high-level radioactive waste.
Prerequisite: NSE 235 with C or better or NE 235 with C or better or RHP 235 with C or better
Equivalent to: NE 440

NSE 450, PRINCIPLES OF NUCLEAR MEDICINE, 3 Credits
Basic principles of nuclear medicine; detectors; radiopharmaceutical; dosimetry; imaging procedures.
NSE 451, NEUTRONIC ANALYSIS I, 3 Credits
Physical models of neutronic systems; nuclear physics; steady state and transient neutronic system behavior; introductory neutron transport theory, one speed diffusion theory; numerical methods; fast and thermal spectrum calculations; multigroup methods; transmutation and burnup; reactor fuel management; reactivity control; perturbation theory; neutronic laboratory sessions.
Prerequisite: (MTH 256 with C or better or MTH 256H with C or better) and (NSE 235 [C] or NE 235 [C] or RHP 235 [C]) and (NSE 333 [C] or NE 333 [C] or RHP 333 [C])
Equivalent to: NE 451

NSE 452, NEUTRONIC ANALYSIS II, 3 Credits
Physical models of neutronic systems; nuclear physics; steady state and transient neutronic system behavior; introductory neutron transport theory, one speed diffusion theory; numerical methods; fast and thermal spectrum calculations; multigroup methods; transmutation and burnup; reactor fuel management; reactivity control; perturbation theory; neutronic laboratory sessions. Lec/lab.
Prerequisite: NSE 451 with C or better or NE 451 with C or better
Equivalent to: NE 452

NSE 455, REACTOR OPERATOR TRAINING I, 3 Credits
The Oregon State University TRIGA reactor Operator Training I class is one of a two-course series. Students interested in participating in this course are expected to enroll in both the NSE 455/NSE 555 and NSE 456/NSE 556 classes taught during spring and summer terms. Students successfully completing the NSE 455/NSE 555 and NSE 456/NSE 556 series will culminate their course work with the opportunity to take a certification test proctored by the Nuclear Regulatory Commission.
Prerequisite: (NSE 236 with C or better or NE 236 with C or better or RHP 236 with C or better) and (MTH 256 [C] or MTH 256H [C])
Equivalent to: NE 455

NSE 456, REACTOR OPERATOR TRAINING II, 4 Credits
The Oregon State University TRIGA reactor Operator Training II class is one of a two-course series. Students interested in participating in this course must have already taken and successfully passed NSE 455/NSE 555. Students successfully completing NSE 455/NSE 555 will culminate their course work with the opportunity to take a certification test proctored by the Nuclear Regulatory Commission.
Prerequisite: NSE 455 with C or better or NE 455 with C or better
Equivalent to: NE 456

NSE 457, NUCLEAR REACTOR LABORATORY, 2 Credits
Experimental investigation of the principles of nuclear reactor operation. Use of the OSU TRIGA Reactor and other laboratory facilities. Preparation and presentation of laboratory reports. Lec/lab.
Prerequisite: (NSE 451 with C or better or NE 451 with C or better or NSE 551 with C or better or NE 551 with C or better) and (NSE 452 [C] or NE 452 [C] or NSE 552 [C] or NE 552 [C])
Equivalent to: NE 457

NSE 467, NUCLEAR REACTOR THERMAL HYDRAULICS, 4 Credits
Hydrodynamics and conductive, convective and radiative heat transfer in nuclear reactor systems. Core heat removal design; critical heat flux, hot spot factors, single- and two-phase flow behavior. Advanced thermal hydraulic computer codes.
Prerequisite: ME 332 with C or better or ME 332H with C or better or NSE 332 with C or better or NSE 332H with C or better or NE 332 with C or better or NE 332H with C or better
Equivalent to: NE 467

NSE 473, NUCLEAR REACTOR SYSTEMS ANALYSIS, 3 Credits
Analysis of nuclear light water reactor (pressurized water reactor and boiling water reactor) design and operation, including the nuclear steam supply system, engineered safety features and balance of plant systems; regulatory design requirements; industry standards; plant engineering and instrumentation drawings. Advanced reactor system designs.
Prerequisite: NSE 452 with C or better or NE 452 with C or better
Equivalent to: NE 473

NSE 474, ^NUCLEAR SYSTEMS DESIGN I, 4 Credits
Part I of a two-part series aimed at developing the student’s ability to utilize fundamental nuclear and radiation protection skills to transform concepts into practical designs. Design projects involve the integration of neutronics, thermal hydraulics, safety and risk analysis, power production, materials, radiation protection, economic optimization, statistics and other skills. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: NSE 481 with C or better
Equivalent to: NE 474, RHP 474

NSE 475, ^NUCLEAR SYSTEMS DESIGN II, 4 Credits
Part II of a two-part series aimed at developing the student’s ability to utilize fundamental nuclear and radiation protection skills to transform concepts into practical designs. Design projects involve the integration of neutronics, thermal hydraulics, safety and risk analysis, power production, materials, radiation protection, economic optimization, statistics and other skills. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (NSE 452 with C or better or NE 452 with C or better) and (NSE 474 [C] or NE 474 [C] or RHP 474 [C])
Equivalent to: RHP 475

NSE 481, RADIATION PROTECTION, 4 Credits
Fundamental principles and theory of radiation protection; regulatory agencies, dose units; source of radiation; biological effects and risk; dose limits; applications of external and internal dosimetry; shielding and atmospheric dispersion.
Prerequisite: NSE 235 with C or better or NE 235 with C or better or RHP 235 with C or better
Equivalent to: NE 481, RHP 481
NSE 483, RADIATION BIOLOGY, 3 Credits
Biological effects of ionizing radiation at the molecular, cellular, and organismal levels with emphasis on vertebrates; both acute and chronic radiation effects are considered.
Prerequisite: NSE 481 with C or better or RHP 481 with C or better or MP 481 with C or better
Equivalent to: MP 483

NSE 488, RADIOECOLOGY, 3 Credits
Radionuclides in the environment: their measurement and identification, uptake and transfer through food chains. Effect of radiation on natural populations of plants and animals.
Prerequisite: NSE 481 with C or better or RHP 481 with C or better or NE 481 with C or better
Equivalent to: RHP 488

NSE 499, SPECIAL TOPICS, 0-16 Credits
Equivalent to: NE 499
This course is repeatable for 16 credits.

NSE 501, RESEARCH, 1-16 Credits
Equivalent to: MP 501
This course is repeatable for 99 credits.
Available via Ecampus

NSE 503, THESIS, 1-16 Credits
Equivalent to: MP 503
This course is repeatable for 999 credits.
Available via Ecampus

NSE 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: MP 505
This course is repeatable for 16 credits.
Available via Ecampus

NSE 506, PROJECTS, 1-16 Credits
Equivalent to: MP 506
This course is repeatable for 16 credits.
Available via Ecampus

NSE 507, SEMINAR, 1 Credit
Graded P/N.
Equivalent to: MP 507
This course is repeatable for 16 credits.
Available via Ecampus

NSE 510, INTERNSHIP, 1-12 Credits
Supervised technical work experience at approved organizations. Graded P/N.
Equivalent to: MP 510
This course is repeatable for 16 credits.

NSE 515, NUCLEAR RULES AND REGULATIONS, 2 Credits
An introduction to the key nuclear regulatory agencies; major nuclear legislation; current radiation protection standards and organizations responsible for their implementation. Offered alternate years.
Equivalent to: NE 515, RHP 515
Available via Ecampus

NSE 516, RADIOCHEMISTRY, 4 Credits
Selected methods in radiochemical analysis. Actinide chemistry, activation analysis, radionuclide solvent extraction, and microbial reactions with radionuclides. Designed for majors in chemistry, chemical engineering, nuclear engineering, and radiation health physics. Lec/lab.
CROSSLISTED as CH 516/NSE 516
Prerequisite: (NSE 531 with C or better or NE 531 with C or better or RHP 531 with C or better) and (NSE 536 [C] or NE 536 [C] or RHP 536 [C])
Equivalent to: CH 516, RHP 516
Available via Ecampus

NSE 517, RADIONUCLIDES IN LIFE SCIENCES, 4 Credits
Chemistry of actinides and fission products, radioseparations, selected medical generators, radiolabeling of organic molecules. Designed for majors in medical physics, radiation health physics, chemistry, pharmacy.
Prerequisite: (NSE 531 with C or better or NE 531 with C or better or RHP 531 with C or better) and (NSE 536 [C] or NE 536 [C] or RHP 536 [C])
Equivalent to: MP 517, RHP 517

NSE 519, RADIOCHEMICAL ANALYSIS, 4 Credits
Hands-on learning of radiochemistry, practical training with open radiation sources for preparation of irradiation targets, counting samples from contaminated soils or separation of medical radionuclides. Fundamentals of chemical dosimetry are also covered. Designed for a broad range of majors in chemistry, nuclear engineering, radiation health physics, radioecology, chemical and environmental engineering. Lec/lab. The lecture part of the course also is delivered online as video stream via Canvas.
Prerequisite: NSE 536 with C or better or NE 536 with C or better or RHP 536 with C or better
Equivalent to: NE 519, RHP 519
Recommended: NSE 516

NSE 521, RADIOLOGICAL ANATOMY AND PHYSIOLOGY, 4 Credits
Anatomy and physiology with correlating images for use by medical physicists, therapists, dosimetrists. This course adheres to the AAMD requirements for Cross Sectional Anatomy.
Equivalent to: MP 521, RHP 521

NSE 522, NUCLEAR SECURITY SCIENCE, 4 Credits
Explores the nuclear fuel cycle from the perspective of nuclear security and safeguards and in the context of current international nuclear policies. Nuclear threats are balanced with the past history of nuclear weapons use, current nonproliferation technology, and the future international growth of the nuclear industry. Critical thinking will be assessed by way of in-class discussions, journal article reviews, written analysis of fuel cycle signatures, and conducting research. Signatures including radiological and morphological characteristics of nuclear material is introduced as well as the techniques for the detection of special nuclear materials.
NSE 525, NUCLEAR SECURITY SYSTEM DESIGN, 3 Credits
Studies the science and engineering associated with the design, evaluation, and implementation of systems to secure nuclear and radiological materials. Topics include adversary characterization, target categorization and the consequences of failure to protect targets, detection and delay technologies, on-site and off-site response and response strategies, insider threat evaluation, and mathematical methods for evaluating risk due to the threat and the security system design. Students will become familiar with the components of a sustainable nuclear security program and their interconnections, and learn about the planning of nuclear security activities at both the state and facility level.

NSE 526, NUMERICAL METHODS FOR ENGINEERING ANALYSIS, 3 Credits
Equivalent to: ME 526, NE 526
Recommended: Programming experience and previous exposure to numerical methods

NSE 531, RADIOPHYSICS, 3 Credits
Expands understanding of concepts and applications of atomic and nuclear physics to enable continued study in nuclear engineering and health physics. Includes fundamental concepts of nuclear and atomic physics, atomic and nuclear shell structure, radioactive decay, radiation interactions, radiation biology, and the characteristics of fission.
Equivalent to: MP 531
Available via Ecampus

NSE 533, DETECTION OF SPECIAL NUCLEAR MATERIALS, 3 Credits
Designed for students interested in radiation measurements and nuclear security, especially those considering PhD-level work in this area. Covers topics including special nuclear material characteristics, radiation background and it interferences with SNM, an introduction to MCNPX, a brief introduction to Geant4, detection of SNM via counting or imaging, localization of SNM, and characterization of SNM.
Prerequisite: NSE 536 with C or better
Recommended: MTH 251 or MTH 251H

NSE 534, APPLIED DETECTION FOR NUCLEAR SECURITY, 3 Credits
Applied detection techniques currently being deployed globally for nuclear security are presented in lectures and explored in practical exercises. A prominent feature of this class is the unique opportunity to complete the Nuclear Security Education Program (NSEP) Training program hosted at the HAMMER federal training center.
Prerequisite: NSE 536 with C or better

NSE 535, RADIATION SHIELDING AND EXTERNAL DOSIMETRY, 4 Credits
Theoretical principles of shielding for neutron and gamma radiation; external dosimetry fundamentals for neutrons, photons, and charged particles; applications to problems of practical interest; analytical, numerical, and computer solutions emphasized.
Equivalent to: MP 535, NE 535, RHP 535
Available via Ecampus

NSE 536, ADVANCED RADIATION DETECTION AND MEASUREMENT, 4 Credits
Principles and mechanisms underlying nuclear radiation detection and measurements; operation of nuclear electronic laboratory instrumentation; application of gas-filled, scintillation and semiconductor detectors for measurement of alpha, beta, gamma, and neutron radiation, liquid scintillation equipment; use of Bonner spheres for neutron energy profiles; experimental investigation of interactions of radiation with matter. Lec/lab.
Prerequisite: NSE 531 with C or better or NE 531 with C or better or RHP 531 with C or better or MP 531 with C or better
Equivalent to: MP 536

NSE 537, DIGITAL RADIATION MEASUREMENT AND SPECTROSCOPY, 3 Credits
Principles of digital spectroscopy; application of digital filters in digital processing of detector pulses; hardware implementation of a typical digital spectrometer; introduction of Field-Programmable Gate Array (FPGA) devices programming a digital spectrometer using Hardware Description Language (VHDL); simulation, synthesis and spectroscopy; experimental design tests and evaluation. Lec/lab.
Prerequisite: NSE 536 with C or better or NE 536 with C or better or RHP 536 with C or better
Equivalent to: NE 537

NSE 539, SELECTED TOPICS IN INTERACTION OF NUCLEAR RADIATION, 1-6 Credits
Topics associated with interactions of nuclear radiation not covered in other graduate courses; topics may vary from year to year.
Equivalent to: NE 539

NSE 540, NUCLEAR FUEL CYCLE AND WASTE MANAGEMENT, 4 Credits
Mining, milling, conversion, enrichment, fuel fabrication, reprocessing, and waste management of nuclear fuel, including disposal of low- and high-level radioactive waste.
Equivalent to: NE 540
Available via Ecampus

NSE 541, DIAGNOSTIC IMAGING PHYSICS I, 3 Credits
An introduction to the production and usage of ionizing radiation in medicine. The course will cover x-ray production, x-ray spectrum, characteristics and manipulation, and how x-rays are utilized to obtain anatomical information in diagnostics imaging. Imaging modalities to be covered in this course are general and portable planar radiography, mammography, and fluoroscopy (including interventional radiography).
Prerequisite: NSE 531 with C or better or MP 531 with C or better or RHP 531 with C or better
Equivalent to: MP 541
NSE 542, DIAGNOSTIC IMAGING PHYSICS II, 3 Credits
An introduction to Computed Tomography (CT) and Ultrasound (US) imaging, and their applications in medicine. The course will cover x-ray production, detection, and image processing as it relates specifically to CT, as well as general acoustic physics principles and how they are applied to US imaging. Additionally, clinical radiation protection and dosimetry in diagnostic imaging will be taught.
Prerequisite: NSE 531 with C or better or PP 531 with C or better or RHP 531 with C or better
Equivalent to: MP 542

NSE 543, ADVANCED DIAGNOSTIC IMAGING PHYSICS, 3 Credits
An introduction to the areas of health informatics and magnetic resonance imaging (MRI). The health informatics portion of the course will specifically cover picture archiving and communication systems (PACS), including DICOM standards, data transfer and storage, digital image displays, and clinical implementation of PACS systems. The MRI portion of the course will provide instruction on the physical principles behind nuclear magnetic response (NMR) and how these phenomenon are exploited in MRI. Advanced MRI techniques and applications, along with clinical testing requirements, will also be covered.
Prerequisite: NSE 531 with C or better or MP 531 with C or better or RHP 531 with C or better
Equivalent to: MP 543

NSE 544, NUCLEAR MEDICINE IMAGING, 3 Credits
An introduction to the uses of radionuclides in medical imaging. The theory and application of detectors and imaging systems in nuclear medicine including collimators, scintillation probes, cameras, SPECT, PET, and hybrid technologies (SPECT/CT, PET/CT, and PET/MRI) will be covered.
Prerequisite: (NSE 541 with C or better or MP 541 with C or better) and (NSE 531 [C] or RHP 531 [C])
Equivalent to: MP 544

NSE 545, DIAGNOSTIC IMAGING PRACTICUM, 3 Credits
Provides an introduction to the medical physicist’s role in a clinical department; an opportunity to integrate principles learned throughout the graduate program as they apply to diagnostic imaging physics. Observations of procedures in radiography, fluoroscopy, ED, OR, interventional radiology, CT, MRI, ultrasound, and nuclear medicine. Experience in regulatory testing of x-ray equipment; observations of testing of CT and other x-ray modalities. Graded P/N.
Prerequisite: (NSE 541 with C or better or MP 541 with C or better) and (NSE 531 [C] or MP 531 [C] or RHP 531 [C])
Equivalent to: MP 545

NSE 550, PRINCIPLES OF NUCLEAR MEDICINE, 3 Credits
Basic principles of nuclear medicine; detectors; radiopharmaceutical; dosimetry; imaging procedures.
Equivalent to: RHP 550

NSE 551, NEUTRONIC ANALYSIS I, 3 Credits
Physical models of neutron systems; nuclear physics; steady state and transient neutron system behavior; introductory neutron transport theory; one speed diffusion theory; numerical methods; fast and thermal spectrum calculations; multigroup methods; transmutation and burnup; reactor fuel management; reactivity control; perturbation theory; neutronic laboratory sessions.
Equivalent to: NE 551

NSE 552, NEUTRONIC ANALYSIS II, 3 Credits
Physical models of neutron systems; nuclear physics; steady state and transient neutron system behavior; introductory neutron transport theory; one speed diffusion theory; numerical methods; fast and thermal spectrum calculations; multigroup methods; transmutation and burnup; reactor fuel management; reactivity control; perturbation theory; neutronic laboratory sessions.
Prerequisite: NSE 551 with C or better or NE 551 with C or better
Equivalent to: NE 552

NSE 553, ADVANCED NUCLEAR REACTOR PHYSICS, 3 Credits
Advanced analytic and numerical techniques for the prediction of the neutron population in nuclear reactor systems. Topic will include long characteristic neutron transport, collision probabilities, nodal methods, equivalence theory, and perturbation theory.
Prerequisite: (NSE 551 with C or better or NE 551 with C or better) and (NSE 552 [C] or NE 552 [C])
Equivalent to: NE 553
Recommended: Computer programming experience

NSE 555, REACTOR OPERATOR TRAINING I, 3 Credits
The Oregon State University TRIGA Reactor Operator I class is one of a two-course series. Student interested in participating in this course are expected to enroll in both the NSE 455/555 and NSE 456/556 classes taught during spring and summer terms. Students successfully completing the NSE 455/555 and NSE 456/556 series will culminate their course work with the opportunity to take a certification test proctored by the Nuclear Regulatory Commission.
Equivalent to: NE 555

NSE 549, SELECTED TOPICS IN NUCLEAR FUEL CYCLE ANALYSIS, 1-6 Credits
Topics associated with the nuclear fuel cycle not covered in other graduate courses; topics may vary from year to year.
Equivalent to: NE 549
This course is repeatable for 45 credits.
NSE 556, REACTOR OPERATOR TRAINING II, 4 Credits
The Oregon State University TRIGA Reactor Operator Training II class is one of a two-course series. Students interested in participating in this course must have already taken and successfully passed NSE 455/NSE 555. Students successfully completing NSE 456/NSE 556 will culminate their course work with the opportunity to take a certification test proctored by the Nuclear Regulatory Commission.
Prerequisite: NSE 555 with C or better or NE 555 with C or better
Equivalent to: NE 556

NSE 557, NUCLEAR REACTOR LABORATORY, 2 Credits
Experimental investigation of the principles of nuclear reactor operation. Use of the OSU TRIGA Reactor and other laboratory facilities. Preparation and presentation of laboratory reports. Lec/lab.
Prerequisite: (NSE 551 with C or better or NE 550 with C or better) and (NSE 552 C or NE 552 [C])
Equivalent to: NE 557

NSE 559, SELECTED TOPICS IN NUCLEAR REACTOR ANALYSIS, 1-3 Credits
Topics associated with nuclear reactor theory not covered in other graduate courses; topics may vary from year to year.
Equivalent to: NE 559
This course is repeatable for 45 credits.

NSE 561, NUCLEAR REACTOR SYSTEMS LABORATORY, 3 Credits
Operational aspects of nuclear reactor systems; neutronic and thermal-hydraulic characterization of nuclear reactors; examination of design basis accident prevention and mitigation; loss of coolant accidents; loss of flow accidents; station blackouts. Lec/lab.
Prerequisite: (NSE 553 with C or better or NE 553 with C or better) and (NSE 567 C or NE 567 [C])
Equivalent to: NE 561

NSE 562, RADIATION THERAPY, 3 Credits
The physics of radiation generation and delivery relevant to the field of clinical radiation oncology. Topics will include external beam radiation therapy; dosimetric calculations; high dose-rate and low dose-rate brachytherapy; electron beam dosimetry and treatment planning; special techniques in radiotherapy; and clinical radiation protection and quality assurance.
Prerequisite: NSE 531 with C or better or MP 531 with C or better or NE 531 with C or better or RHP 531 with C or better
Equivalent to: MP 562

NSE 564, APPLIED RADIATION THERAPY PHYSICS LABORATORY II, 3 Credits
Covers the applied practice of therapeutic radiation physics for clinical radiation oncology. Topics include current methodologies in SRS and ARC QA, treatment planning QA, adaptive radiotherapy, eye plaque brachytherapy and HDR brachytherapy.
Equivalent to: MP 564

NSE 565, APPLIED THERMAL HYDRAULICS, 3 Credits
Advanced topics in the computational modeling of the hydrodynamic and heat transfer phenomena of nuclear reactors. Steady-state and transient solutions of one-dimensional nuclear reactor thermal hydraulic models. Nuclear reactor behavior analysis during various accident scenarios.
Equivalent to: NE 565

NSE 566, NUCLEAR REACTOR SAFETY, 3 Credits
Focused on probability risk assessment and system reliability analysis techniques applied to nuclear reactor safety. Application of these methods will be performed specifically through examination of neutronics and thermal hydraulic transients, effectiveness of emergency systems, accident prevention and mitigation, and assessment of radioactive release to the environment.
Prerequisite: (NSE 551 with C or better or NE 551 with C or better) and (NSE 567 C or NE 567 [C])
Equivalent to: NE 568

NSE 569, SELECTED TOPICS IN NUCLEAR REACTOR ENGINEERING, 1-6 Credits
Advanced nuclear engineering design concepts, reactor systems analysis techniques and innovative nuclear engineering applications. Artificial intelligence and expert system applications to nuclear engineering problems. Topics may vary from year to year.
Equivalent to: NE 569
This course is repeatable for 30 credits.

NSE 573, NUCLEAR REACTOR SYSTEMS ANALYSIS, 3 Credits
Analysis of nuclear light water reactor (pressurized water reactor and boiling water reactor) design and operation, including the nuclear steam supply system, engineered safety features and balance of plant systems; regulatory design requirements; industry standards; plant engineering and instrumentation drawings. Advanced reactor system designs.
Prerequisite: NSE 552 with C or better or NE 552 with C or better
Equivalent to: NE 573
NSE 574, NUCLEAR SYSTEMS DESIGN I, 4 Credits
Part I of a two-part series aimed at developing the student’s ability to utilize fundamental nuclear and radiation protection skills to transform concepts into practical designs. Design projects involve the integration of neutronics, thermal hydraulics, safety and risk analysis, power production, materials, radiation protection, economic optimization, statistics and other skills.
Equivalent to: RHP 574

NSE 575, NUCLEAR SYSTEMS DESIGN II, 4 Credits
Part II of a two-part series aimed at developing the student’s ability to utilize fundamental nuclear and radiation protection skills to transform concepts into practical designs. Design projects involve the integration of neutronics, thermal hydraulics, safety and risk analysis, power production, materials, radiation protection, economic optimization, statistics and other skills.
Prerequisite: (NSE 551 with C or better or NE 551 with C or better) and (NSE 552 [C] or NE 552 [C]) and (NSE 574 [C] or NE 574 [C])
Equivalent to: RHP 575

NSE 582, APPLIED RADIATION SAFETY, 4 Credits
Application of radiation protection as practiced in the fields of nuclear science and engineering; application of health physics principles to reduce health hazards at each of the following stages: design, prevention, assessment, and post-incident. A history of key nuclear regulatory agencies; early and current radiation protection standards and organizations responsible for their formulation; major nuclear legislation; pertinent nuclear rules and regulations and their application. Lec/lab.
Equivalent to: MP 582
Available via Ecampus

NSE 583, RADIATION BIOLOGY, 3 Credits
Biological effects of ionizing radiation at the molecular, cellular, and organismal levels with emphasis on vertebrates; both acute and chronic radiation effects are considered.
Equivalent to: MP 583
Available via Ecampus

NSE 584, RADIATION BIOLOGY II, 3 Credits
Application of radiobiological models in radiation therapy. Some background in radiation biology is strongly recommended.
Equivalent to: MP 584, RHP 584
Available via Ecampus

NSE 588, RADIOECOLOGY, 3 Credits
Radionuclides in the environment: their measurement and identification, uptake and transfer through food chains. Effect of radiation on natural populations of plants and animals.
Equivalent to: RHP 588
Recommended: NSE 481 or RHP 481 or NE 481
Available via Ecampus

NSE 590, INTERNAL DOSIMETRY, 3 Credits
Further development and more in-depth treatment of internal dosimetry concepts, theoretical basis of energy deposition, biokinetics, and estimation of radiation risk from ingested, inhaled, or injected radionuclides.
Prerequisite: NSE 531 with C or better and NSE 535 [C]
Equivalent to: NE 590, RHP 590
Available via Ecampus

NSE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

NSE 601, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: MP 601
This course is repeatable for 99 credits.

NSE 603, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

NSE 605, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: MP 607
This course is repeatable for 16 credits.

NSE 606, PROJECTS, 1-16 Credits
Equivalent to: MP 606
This course is repeatable for 16 credits.

NSE 607, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: MP 601
This course is repeatable for 99 credits.

NSE 610, INTERNSHIP, 1-16 Credits
Equivalent to: MP 610
This course is repeatable for 16 credits.

NSE 654, COMPUTATIONAL PARTICLE TRANSPORT, 3 Credits
Properties of and methods for solution of the linear Boltzmann equation for nuclear reactors; spherical and double-spherical harmonics; integral equation methods; Monte Carlo methods.
Prerequisite: (NSE 551 with C or better or NE 551 with C or better) and (NSE 552 [C] or NE 552 [C])
Equivalent to: NE 654
NSE 667, ADVANCED THERMAL HYDRAULICS, 3 Credits
Advanced topics in single- and two-phase hydrodynamics and heat transfer for nuclear reactors. Two-phase flow patterns, flow instabilities, condensation induced transients, convective boiling heat transfer, and current topics in reactor safety thermal hydraulics. Offered alternate years.
Prerequisite: NSE 567 with C or better or NE 567 with C or better
Equivalent to: NE 667

NSE 699, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.
Equivalent to: NE 699

NSE 808, WORKSHOP, 1-4 Credits
This course is repeatable for 16 credits.
Equivalent to: NE 808

Nursing (NUR)
NUR 411, INFORMATICS IN NURSING, 1 Credit
Provides an overview of nursing informatics as a means to improve information management in healthcare. Consideration of healthcare technologies with ethical and financial criteria in relation to the quality of their outcomes.

NUR 412, TRANSITION TO PROFESSIONAL NURSING, 3 Credits
Provides an overview of the nursing metaparadigm: client, nurse, health/illness and environment. Nursing theoretical perspectives will be discussed as a foundation for professional nursing practice as care provider and manager of care. Special emphasis will be on the practice of the baccalaureate nurse.

NUR 413, ADVANCED HEALTH ASSESSMENT, 3 Credits
Builds on previous health assessment knowledge and skills, focusing on comprehensive health assessment skills. Using a lifespan approach, students examine the physical, cultural, psychosocial, spiritual and nutritional variables through the use of health history and health assessment.

NUR 414, NURSING EPIDEMIOLOGY, 3 Credits
Presents the basic concepts and methods of epidemiology applied to population focused health care and nursing practice. Emphasis is placed on the use of epidemiologic reasoning in deriving inferences about the etiology of health outcomes from population data and in guiding the design of health service programs.
Prerequisite: ST 201 with D- or better

NUR 415, *NURSING PRACTICE IN A MULTICULTURAL SOCIETY, 3 Credits
Provides an overview of the influence of culture on health care practices and the delivery of nursing care for individuals, groups, and communities. Emphasis is on increasing awareness of culturally diverse nursing care and the impact of cultural beliefs, values, and practices upon health and health care delivery.
Attributes: CPCD – Core, Pers, Cult Diversity

NUR 416, POPULATION-FOCUSED AND COMMUNITY-BASED NURSING PRACTICE I, 4 Credits
Introduces the concepts and principles of community health and the practice of evidence-based community health nursing. The nursing process is applied to the care of individuals, families, and groups within the community. Emphasis on health promotion and illness prevention. Consideration of cultural competence in nursing care. Application of community health nursing principles occurs in the 54-hour independent clinical practicum under the supervision of the faculty.
Prerequisite: NUR 413 with C- or better
Recommended: Completion of at least 12 credits in the RN to BSN program

NUR 417, POPULATION-FOCUSED AND COMMUNITY-BASED NURSING PRACTICE II, 5 Credits
Builds on NUR 416 through the application of the theories and principles of population-focused nursing in a community setting. Emphasis will be on community health measures which promote and maintain the health of the community. Application of community health nursing principles occurs in the 54-hour independent clinical practicum under the supervision of the faculty.
Prerequisite: NUR 416 with C- or better

NUR 418, HEALTH CARE SYSTEM ISSUES IN NURSING PRACTICE, 3 Credits
Consideration of the current and emerging forces that will affect health care delivery across the health care continuum. Issues related to health-care relevant policy, finance, and regulation, with special attention to the impacts on nursing care will be included.

NUR 419, HEALTH CARE QUALITY IN NURSING PRACTICE, 2 Credits
Explores strategies that contribute to building a culture of safe, quality nursing practice. The focus is on incorporating quality assessment and improvement strategies as evidence based practice in an interdisciplinary environment.
NUR 420, ^NURSING RESEARCH AND EVIDENCE-BASED PRACTICE, 4 Credits
Overview of the research process and utilization in professional nursing practice. Discussion of evidence-based practice as the foundation for safe, quality care. Reading and interpreting current research, and using writing as a tool for learning on a critical issue in nursing will be the focus of this course. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: NUR 414 with D- or better
Recommended: WR II requirement

NUR 421, AGING AND END OF LIFE ISSUES IN NURSING, 3 Credits
Overview of the impact of the aging population on health care. Common ethical dilemmas encountered in health care will be explored. Application of ethical principles to the complicated situations encountered by inter-professional teams, with special consideration of those related to end-of-life care for the professional nurse.

NUR 422, HEALTH PROMOTION IN NURSING PRACTICE, 3 Credits
Builds on prior learning and focuses on preventative health care and health promotion for individuals, families, and communities. Consideration is given to the influence of culture and lifespan development. Using biophysical, environmental, spiritual, sociocultural and economic determinants of health, the focus is on the role of nurses in improving health outcomes with individuals, families, and communities.
Prerequisite: NUR 413 with C- or better

NUR 423, NURSING LEADERSHIP, 4 Credits
Explores the role of the nurse leader, integrating prior learning with an understanding of the nature of leadership as well as leadership and management theories. An introduction to the principles of project management with application to a clinical leadership project is included. Consideration of individual student growth, particularly related to the student outcomes of the program and personal goals for future growth will be a focus. Application of the content will occur in the 54-hour independent clinical practicum, under the direction of the faculty, to develop and implement a clinical leadership project.

Nutrition (NUTR)

NUTR 104, ORIENTATION TO THE NUTRITION MAJOR, 1 Credit
Discuss and explore the academic and professional requirements for successful entry into professional careers in dietetics, foodservice systems management, and human nutrition sciences majors. Identify professional resources, career opportunities, markets and trends in these OSU Nutrition major options. Graded P/N.
Equivalent to: NFM 104
Available via Ecampus

NUTR 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: NFM 199
This course is repeatable for 16 credits.

NUTR 201, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

NUTR 216, *FOOD IN NON-WESTERN CULTURE, 3 Credits
Cultural determinants influencing food habits of humans. Interrelation of eating patterns and socio-cultural, ecological, psychological and economic factors in cross-cultural settings. Roles of men and women in food provision. Lec/rec. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: NFM 216
Available via Ecampus

NUTR 225, GENERAL HUMAN NUTRITION, 3 Credits
The relationship of food, its nutrients and other components to the promotion of health and fitness with emphasis on the young adult. Current health concerns on a national and international level. This course is for non-majors; NES majors and those in the health sciences should take NUTR 240.
Equivalent to: NFM 225
Available via Ecampus

NUTR 235, SCIENCE OF FOODS, 5 Credits
Composition, functional properties, and structure of foods, including modified ingredients. Principles underlying preparation of food products of standard quality. Lec/lab.
Prerequisite: CH 123 with C- or better or CH 223 with C- or better or ((CH 263 with C- or better or CH 263H with C- or better or CH 273 with C- or better) and (CH 233 [C-] or CH 233H [C-]))
Equivalent to: NFM 235

NUTR 240, HUMAN NUTRITION, 3 Credits
An introductory nutrition course for exercise science, nutrition, dietetics, food science, and health science majors who have taken general chemistry. Concepts of nutrient metabolism and utilization, nutrient deficiencies and toxicities and their relationship to disease prevention and treatment.
Prerequisite: (CH 121 with C- or better or CH 224H with C- or better or (CH 221 with C- or better or CH 231 with C- or better or CH 231H with C- or better))
Equivalent to: NFM 240
Available via Ecampus

NUTR 241, APPLICATIONS IN HUMAN NUTRITION, 1 Credit
Application of nutrition theory from NUTR 240 using a dietary project and hands-on recitation activities. A key focus of the course will be on applying nutrition theory. Rec.
Prerequisite: NUTR 240 (may be taken concurrently) with C- or better
Equivalent to: NFM 241
Available via Ecampus

NUTR 299, SPECIAL TOPICS, 1-16 Credits
Equivalent to: NFM 299
This course is repeatable for 16 credits.
NUTR 306, PROJECTS, 1-16 Credits
This course is repeatable for 36 credits.

NUTR 307, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

NUTR 311, FOODSERVICE PRODUCTION AND PURCHASING, 4 Credits
Food production, purchasing, facility and materials management in foodservice operations. Quantity production styles, safety and sanitation, service methods and equipment. Lec/lab/rec.
Prerequisite: NUTR 235 with C- or better
Equivalent to: NFM 311

NUTR 312, *ISSUES IN NUTRITION AND HEALTH, 3 Credits
Impact of nutrition as one component of complex environmental, behavioral, social, and genetic factors significant to health promotion. Apply scientific knowledge to current health issues of changing dietary patterns, technological development in food products and nutrition controversies. Recognize economic and public policy implications. Lec/rec. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: NUTR 225 with C- or better or NUTR 240 with C- or better
Equivalent to: NFM 312
Recommended: Completion of science requirement in Bacc Core
Available via Ecampus

NUTR 319, PROMOTING FOOD AND NUTRITION, 3 Credits
Strategies in promoting products, services or ideas; negotiating, advertising, public policy, consumer service, social marketing, market research, trends and strategies. Lec/lab.
Prerequisite: NUTR 240 with C- or better and NUTR 241 [C-]
Equivalent to: NUTR 219

NUTR 325, NUTRITION THROUGH THE LIFE CYCLE, 3 Credits
Nutritional needs and concerns in pregnancy and lactation, infancy, childhood, adolescence, adult and later years.
Prerequisite: (NUTR 240 with C- or better or NUTR 225 with C- or better) and NUTR 241 [C-]
Equivalent to: NFM 325
Recommended: Junior standing
Available via Ecampus

NUTR 341, NUTRITION FOR EXERCISE, 4 Credits
Review of the interrelationship between nutrition and exercise, including macronutrient, micronutrient and fluid needs for active individuals.
CROSSLISTED as KIN 341/NUTR 341.
Prerequisite: KIN 324 with C- or better and NUTR 240 [C-]
Equivalent to: EXSS 341, KIN 341
Available via Ecampus

NUTR 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: NFM 399
This course is repeatable for 16 credits.

NUTR 401, RESEARCH, 1-16 Credits
Equivalent to: NFM 401
This course is repeatable for 16 credits.

NUTR 403, THESIS, 1-16 Credits
Graded P/N.
Equivalent to: NFM 403
This course is repeatable for 16 credits.

NUTR 405, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: NFM 405
This course is repeatable for 16 credits.

NUTR 406, SPECIAL PROBLEMS; PROJECTS, 1-16 Credits
Equivalent to: NFM 406
This course is repeatable for 16 credits.

NUTR 407, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: NFM 407
This course is repeatable for 16 credits.

NUTR 408, WORKSHOP, 1-16 Credits
Graded P/N.
Equivalent to: NFM 408
This course is repeatable for 16 credits.

NUTR 409, PRACTICUM, 1-16 Credits
Equivalent to: NFM 409
This course is repeatable for 16 credits.

NUTR 410, FIELD EXPERIENCE, 1-15 Credits
Supervised work experience with professional-level responsibilities in community agency or business firm. Supplementary conferences, readings, reports. Supervised by agency/firm and instructor. For advanced students. Applications made and approved term preceding enrollment. Graded P/N.
Equivalent to: NFM 410
This course is repeatable for 50 credits.
Available via Ecampus

NUTR 416, *CULTURAL ASPECTS OF FOODS, 3 Credits
Regional, ethnic, and religious influences on food patterns; worldwide trends in food practices. Laboratory experience with foods from several cultures. Lec/lab. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: NUTR 235 with C- or better
Equivalent to: NFM 416
NUTR 417, HUMAN NUTRITION SCIENCE, 4 Credits
Application of biochemistry and physiology to nutrition of the individual.
Prerequisite: BB 350 with C- or better
Equivalent to: NFM 417
Recommended: One physiology course

NUTR 418, HUMAN NUTRITION SCIENCE, 4 Credits
Application of biochemistry and physiology to nutrition of the individual.
Prerequisite: NUTR 417 with C- or better
Equivalent to: NFM 418
Recommended: Biochemistry and physiology

NUTR 423, COMMUNITY NUTRITION, 4 Credits
Meeting nutritional needs in community settings; nutritional status of individuals and groups; programs of public and private agencies and industry; intervention techniques. Roles of community nutritionist.
Prerequisite: NUTR 325 with C- or better
Equivalent to: NFM 423

NUTR 430, MEDICAL NUTRITION THERAPY I, 4 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions are addressed during the three-course sequence using lecture, case studies and assessment recitation sessions. Lec/lab/rec.
Prerequisite: (BB 350 with C- or better or (BB 450 with C- or better and BB 451 [C-]) and (BI 233 [C-] or BI 332 [C-] and (BI 242 [C-] or BI 342 [C-]) and (BI 233 [C-] or BI 333 [C-] and (BI 243 [C-] or BI 343 [C-]) and NUTR 417 (may be taken concurrently) [C-] and NUTR 439 [C-]

NUTR 431, MEDICAL NUTRITION THERAPY 2, 4 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions are addressed during the three-course sequence using lecture, case studies and assessment recitation sessions.
Prerequisite: NUTR 430 with C- or better

NUTR 432, MEDICAL NUTRITION THERAPY 3, 3 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions are addressed during the three-course sequence using lecture, case studies and assessment recitation sessions.
Prerequisite: NUTR 431 with C- or better

NUTR 439, COMMUNICATIONS IN DIETETICS, 3 Credits
Theory and practice in food and nutrition communications in dietetics. Experience in nutritional counseling and interviewing, employee training and nutritional education materials development, public speaking, and media presentation strategies. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: NUTR 325 with C- or better
Equivalent to: NFM 439

NUTR 446, MANAGING FOOD AND NUTRITION SERVICES, 4 Credits
Overview of organizational structure, functions of managers in food and nutrition service organizations: human and financial resources, regulatory influences, health care organizations, current issues in operations. Lec/rec.
Prerequisite: NUTR 311 with C- or better
Equivalent to: NFM 446

NUTR 447, MANAGEMENT OF FOOD SYSTEMS LABORATORY, 3 Credits
Application of theory in managing a university food service as part of a student team: planning, production, projecting resource needs, evaluation of outcomes and financial goals.
Equivalent to: NFM 447
Recommended: NUTR 446 or NUTR 546

NUTR 499, SPECIAL TOPICS IN DIETETICS, 1-16 Credits
Current issues, trends, and topics in nutrition and dietetics. May be repeated for credit when topic varies.
Equivalent to: NFM 499
This course is repeatable for 16 credits.

NUTR 501, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: NFM 501
This course is repeatable for 16 credits.

NUTR 502, INDEPENDENT STUDY, 1-16 Credits
Graded P/N.
Equivalent to: NFM 502
This course is repeatable for 16 credits.

NUTR 503, THESIS, 1-16 Credits
Graded P/N.
Equivalent to: NFM 503
This course is repeatable for 999 credits.

NUTR 505, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: NFM 505
This course is repeatable for 16 credits.

NUTR 506, SPECIAL PROBLEMS; PROJECTS, 1-16 Credits
Graded P/N.
Equivalent to: NFM 506
This course is repeatable for 16 credits.
Available via Ecampus

NUTR 507, SEMINAR, 1-16 Credits
1 credit graded P/N.
Equivalent to: NFM 507
This course is repeatable for 16 credits.
NUTR 508, WORKSHOP, 1-16 Credits
Graded P/N.
Equivalent to: NFM 508
This course is repeatable for 16 credits.

NUTR 509, PRACTICUM, 1-16 Credits
Graded P/N.
Equivalent to: NFM 509
This course is repeatable for 16 credits.

NUTR 510, FIELD EXPERIENCE: INTERNSHIP, 1-16 Credits
Supervised work experience with professional-level responsibilities in community agency or business firm. Supplementary conferences, readings, reports. Supervised by agency/firm and instructor. Limited to students admitted to degree program. Application made and approved in the term preceding enrollment. No more than 6 credits may be applied to a master’s degree program.
Equivalent to: NFM 510
This course is repeatable for 6 credits.

NUTR 514, HEALTH BENEFITS OF FUNCT FOODS, NUTRACEUT, DIETARY SUPPLEMENTS, 3 Credits
Functional foods, nutraceuticals and dietary supplements represent a rapidly expanding segment of domestic and international markets. This course will overview the principles and procedures necessary to evaluate and market these products. The chemistry and mechanisms of major nutraceutical ingredient categories and current scientific information supporting their biochemical and physiological efficacy will be addressed. Special dietary products, such as medical, weight control, sport, and herbal supplements, will be addressed. Regulatory aspects of labeling and structure-function claims will be covered. CROSSLISTED as FST 514/NUTR 514.
Equivalent to: FST 514, NFM 514
Recommended: BB 350 and CH 332

NUTR 516, CULTURAL ASPECTS OF FOODS, 3 Credits
Regional, ethnic, and religious influences on food patterns; worldwide trends in food practices. Laboratory experience with foods from several cultures. Lec/lab.
Equivalent to: NFM 516
Recommended: NUTR 235

NUTR 517, HUMAN NUTRITION SCIENCE, 4 Credits
Application of biochemistry and physiology to nutrition of the individual.
Equivalent to: NFM 517
Recommended: BB 350 and one physiology course

NUTR 518, HUMAN NUTRITION SCIENCE, 4 Credits
Application of biochemistry and physiology to nutrition of the individual.
Prerequisite: NUTR 517 with C or better
Equivalent to: NFM 518
Recommended: biochemistry, physiology.

NUTR 523, COMMUNITY NUTRITION, 4 Credits
Meeting nutritional needs in community settings; nutritional status of individuals and groups; programs of public and private agencies and industry; intervention techniques. Roles of community nutritionist.
Equivalent to: NFM 523
Recommended: NUTR 325

NUTR 525, ORGANIC FOOD AND HEALTH: EVIDENCE AND CONSUMER PERCEPTIONS, 3 Credits
Overview of organic food including an understanding of the definition, certifications and labeling; basic production comparisons with conventional foods, evidence for comparisons between organic and conventionally produced foods; consumer attitudes and perceptions regarding organic foods.
Available via Ecampus

NUTR 530, MEDICAL NUTRITION THERAPY I, 4 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions are addressed during the three-course sequence using lecture, case studies and assessment recitation sessions. Lec/lab/rec.
Recommended: (BB350 or (BB450 and BB 451)) and (BI 232 or BI 332) and (BI 242 or BI 342) and (BI 233 or BI 333) and (BI 243 or BI 343) and NUTR 439 and completion or concurrent enrollment in NUTR 417

NUTR 531, MEDICAL NUTRITION THERAPY 2, 4 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions are addressed during the three-course sequence using lecture, case studies and assessment recitation sessions.
Recommended: NUTR 430

NUTR 532, MEDICAL NUTRITION THERAPY 3, 3 Credits
Principles and practices related to implementation and documentation of the nutrition care process in dietetics. Diet-related conditions addressed during the three-course sequence using lecture, case studies and assessment recitation sessions.
Recommended: NUTR 431

NUTR 535, NUTRITION AND EXERCISE: MACRONUTRIENTS AND ENERGY METABOLISM, 3 Credits
Current research examining the interrelationship of macronutrients and exercise and energy balance will be reviewed, including their roles in health, disease prevention and exercise performance.
Equivalent to: NFM 535
Recommended: NUTR 517 or KIN 533
NUTR 539, COMMUNICATIONS IN DIETETICS, 3 Credits
Theory and practice of food and nutrition communications in dietetics. Experience in nutritional counseling and interviewing, employee training and nutritional education materials development, public speaking, and media presentation strategies.
Equivalent to: NFM 539
Recommended: NUTR 325

NUTR 546, FOODSERVICE ORGANIZATIONS, 3 Credits
Overview of organizational structure, functions of managers in foodservice organizations: human resources, regulatory influences, health care organizations, current issues in operations. Lec/rec.
Equivalent to: NFM 546
Recommended: NUTR 311 and NUTR 445

NUTR 550, NUTRITIONAL STATUS, 4 Credits
Research studies with emphasis on estimation of nutrient intake and assessment of nutritional status, including biochemical, clinical, epidemiological and anthropometric measures. Interpretation of status indicators.
Equivalent to: NFM 550
Recommended: NUTR 418 or NUTR 518

NUTR 551, ADVANCED MEDICAL NUTRITION THERAPY, 4 Credits
This advanced course includes evidence-based practices and standards of care available to address complex scenarios for which medical nutrition therapy is an integral part of patient care. Students will build on prior assessment, nutritional diagnostic, implementation, monitoring, evaluation and documentation skills relevant to dietetics practice. Lecture, readings, case studies including professional documentation and expert guests will be used to illustrate medical nutrition therapy addressing topics such as as domestic malnutrition, nutrition support, pediatric nutrition, eating disorders, diabetes and geriatric nutrition.
Available via Ecampus

NUTR 552, FOOD AND NUTRITION PROGRAM MANAGEMENT AND EVALUATION, 4 Credits
Introduction to the evaluation of outcomes and impacts of food/nutrition-related systems, performance, interventions, programs and/or policies. Application of methods used to appraise problems or activities, as well to conceptualize, create, implement and administer evaluations in order to make decisions regarding their outcomes, impacts, efficiency and cost effectiveness. A case study approach across a range of food and nutrition-related public, government and private organizations will introduce the breadth of approaches in such evaluations.
Available via Ecampus

NUTR 553, DIETARY BEHAVIOR AND COUNSELING, 4 Credits
Strategies for navigating dietary behavior using collaborative, patient centered, goal-oriented approaches. Introduces the theoretical framework around dietary behavior and motivational interviewing with methods regarding the language of change and creating client/patient interest in change. Guided practice and focus on development of skills.

NUTR 599, SPECIAL TOPICS IN NUTRITION, 1-16 Credits
Current issues, trends, and topics in nutrition and health. May be repeated for credit when topic varies.
Equivalent to: NFM 599
This course is repeatable for 16 credits.

NUTR 601, RESEARCH, 1-16 Credits
Equivalent to: NFM 601
This course is repeatable for 16 credits.

NUTR 602, INDEPENDENT STUDY, 1-16 Credits
Graded P/N.
Equivalent to: NFM 602
This course is repeatable for 16 credits.

NUTR 603, THESIS, 1-16 Credits
Graded P/N.
Equivalent to: NFM 603
This course is repeatable for 999 credits.

NUTR 605, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: NFM 605
This course is repeatable for 16 credits.

NUTR 607, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: NFM 607
This course is repeatable for 16 credits.

NUTR 609, PRACTICUM, 1-16 Credits
Equivalent to: NFM 609
This course is repeatable for 16 credits.

NUTR 610, INTERNSHIP, 1-16 Credits
Graded P/N.
Equivalent to: NFM 610
This course is repeatable for 16 credits.
**NUTR 617, ADVANCED MACRONUTRIENT METABOLISM, 3 Credits**
Fociques on human macronutrient metabolism. Macronutrient topics include water, carbohydrate, lipid, amino acid/protein, lipid and carbohydrate and energy metabolism. Emphasis is placed on the integration of metabolism at the molecular, biochemical and physiological level. Moreover, the class examines contemporary issues relevant to macronutrient metabolism and human disease. Offered even years in spring term.
Equivalent to: NFM 617
Recommended: NUTR 418 or NUTR 518

**NUTR 618, ADVANCED MICRONUTRIENT METABOLISM, 3 Credits**
Focus is on human micronutrient metabolism. Topics include micronutrients (vitamins and minerals), phytochemicals and mammalian metabolism. Emphasis will be placed on the integration of micronutrient/phytochemical metabolism at the molecular, biochemical and physiological level. Moreover, the class examines contemporary issues relevant to micronutrient/phytochemical metabolism and human disease.
Equivalent to: NFM 618
Recommended: NUTR 418 or NUTR 518 and basic knowledge of biochemistry and physiology

**NUTR 699, SPECIAL TOPICS IN NUTRITION RESEARCH, 1-16 Credits**
Current issues, trends, and topics in nutrition research. May be repeated for credit when topic varies.
Equivalent to: NFM 699
This course is repeatable for 16 credits.

**Ocean Earth & Atmospheric Sci (OEAS)**

**OEAS 500, CASCADE FIELD TRIP, 2-4 Credits**
A field course to various locations within the Cascade volcanic arc, Coast Range and Oregon Coast. Introduction to the range of physical and biological science topics to be covered in OEAS 520, OEAS 530 and OEAS 540 in field settings; the linkages between these topics, and their impact on humans, with case examples. Students will practice math skills, and collect samples and data to be used in laboratory sessions in the later courses. Offered annually. Transportation fee charged. Graded P/N.
This course is repeatable for 4 credits.

**OEAS 511X, PROFESSIONAL INSTRUCTION IN CEOAS, 1 Credit**
Provides graduate teaching assistants and potential teaching assistants in the College of Earth, Ocean, and Atmospheric Sciences with an introduction to effective instruction techniques, including the expectations of instructors, teaching pedagogy, use of technology, ethical instruction, inclusivity in the classroom and other topics.

**OEAS 520, THE SOLID EARTH, 4 Credits**
Movement of mass and energy within the Earth and into/out of its outer surface, expressed as plate tectonics, earthquakes, heat flow, volcanoes, geomagnetic field; composition, structure, hydrology and aging of ocean crust; lithosphere creation, recycling and mantle overturn. Marine sedimentation, sources and transport, continental weathering, tectonics-climate interactions, glacial history and sea level response. Geohazards, storm events, beach and estuary processes. Offered annually. Lec/lab.
Recommended: One year each of physics, chemistry and calculus

**OEAS 530, THE FLUID EARTH, 4 Credits**
Fundamental principles of fluid circulation in the atmosphere and ocean. Atmospheric chemistry, radiation, thermodynamics, and dynamics. Conservation of mass, heat, momentum and vorticity in the ocean; equations governing motion; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation. Air-sea fluxes and global circulation models; climate change. Offered annually. Lec/lab.
Recommended: One year each of physics, chemistry, calculus, or science and a field course

**OEAS 540, THE BIOGEOCHEMICAL EARTH, 4 Credits**
Integrating fundamental concepts in biological and chemical oceanography to understand energy and material transformations in estuarine, coastal and open ocean habitats. Topics include structure and function of marine ecosystems, biogeochemical cycles, and human impacts. Offered annually. Lec/lab.
Recommended: One year of physics, chemistry, and calculus

**Oceanography (OC)**

**OC 003, UNDERGRADUATE RESEARCH, 0 Credits**
Engage in research activities appropriate to the discipline; and through the research experience, acquire skills, techniques, and knowledge relevant to the field of study. In consultation with a faculty mentor, engage in research activity, and make and execute a plan for a project.

**OC 004, INTERNSHIP, 0 Credits**
Provides basic personal and professional skills that can be used within and outside of a work setting. Through practice, this experience guides students in building and maintaining positive professional relationships, networking/mentoring relationships, and enhances students’ understanding of the connection between theory and practice in their respective disciplines.

**OC 103, *EXPLORING THE DEEP: GEOGRAPHY OF THE WORLD'S OCEANS, 4 Credits**
Introduces non-science students to the oceans, including marine geology and chemistry, ocean currents, coastal and biological processes. Field trip required, transportation fee charged. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: GEO 103H, OC 103H
Available via Ecampus
OC 199, SPECIAL TOPICS IN OCEANOGRAPHY, 1-4 Credits
Introduction to topics of current interest in oceanography for lower-division undergraduates. May be repeated for credit when topic varies. This course is repeatable for 16 credits.

OC 201, *OCEANOGRAPHY, 4 Credits
Plate tectonics and the geological structure of ocean basins; physical and chemical properties of seawater; Earth's energy budget; large-scale circulation of the atmosphere and ocean; marine sediment properties and transport; Earth history recorded in marine sediments; the carbon cycle in the atmosphere and sea; and the ecology of pelagic and benthic systems. Lec/lab. (Bacc Core Course) Attributes: CPPS – Core, Pers, Physical Science Equivalent to: OC 331H Available via Ecampus

OC 202, *INTRODUCTION TO BIOLOGICAL OCEANOGRAPHY, 4 Credits
Explores critical topics to biological oceanography, including: the interaction of ocean life, past and present, with its chemical, physical, and geological environment; how ocean life captures energy to produce food and affect climate; and how historical sea-faring observations shaped our understanding of ocean life relative to current technological advances. Attributes: CPBS – Core, Pers, Biological Science

OC 295, INTRODUCTION TO FIELD OCEANOGRAPHY - LAND, 1 Credit
OC 295 is preparatory for the intensive OC 296 field portion at sea. Students will learn about the collection of samples and data using methods and instruments that are common in sea-going oceanography and help plan the cruise. Prerequisite: OC 201 (may be taken concurrently) with D- or better

OC 296, INTRODUCTION TO FIELD OCEANOGRAPHY - SEA, 2 Credits
The sea-going field portion of OC 295 onboard a large research vessel. During the multi-day cruise students will collect oceanographic data and samples from the coastal ocean. Students who complete OC 295 and OC 296 will learn how to collect data and samples on the high seas, conduct preliminary analyses of data, and contribute to the development of scientific knowledge. Serves as an introduction to upper-division course work in oceanography. Prerequisite: OC 295 with P or better

OC 332, COASTAL OCEANOGRAPHY, 3 Credits
Physics, geology, biology and hydrology of coastal oceans. How coastal waters respond to forcing by heating, cooling, winds, tides, waves, rain, evaporation, river runoff and freezing. Geography and geology of coastlines: erosion and deposition processes, beach dynamics. Coastal equilibrium cells as sources and sinks of sediment. Rocky shore, beach, mudflat, estuarine, and coastal biotic communities; animal migrations. Law of the Sea rights and responsibilities of coastal states. Fisheries and mariculture in coastal seas. Pollution and coastal ocean resources. Using a matrix to define environmental problems; pathways that pollutants take through the coastal ecosystem. Offered annually. Equivalent to: OC 332H

OC 333, OCEANS, COASTS, AND PEOPLE, 3 Credits
Contemporary issues related to human interactions with the oceans and coastal zones, including living and energy resources, geohazards and impacts of global change. Content presented in lectures, readings and group discussions, with project oral presentations. Recommended: OC 201

OC 334, *POLAR OCEANOGRAPHY, 3 Credits
Explores the physical, chemical and biological oceanography of the Arctic and Antarctic and examines the impacts of man's activities both directly through resource utilization, and indirectly through climate change. Introduction to polar oceanography through a series of lectures, interactive classes, written assignments and a case study. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC Prerequisite: OC 201 with D- or better

OC 399, SPECIAL TOPICS IN OCEANOGRAPHY, 1-4 Credits
Equivalent to: OC 399H This course is repeatable for 16 credits.

OC 399H, SPECIAL TOPICS IN OCEANOGRAPHY, 1-4 Credits
Attributes: HNRS – Honors Course Designator Equivalent to: OC 399 This course is repeatable for 16 credits.

OC 401, RESEARCH PROJECTS, 1-16 Credits
Field and laboratory research in oceanography for undergraduates, resulting in a written report. This course is repeatable for 24 credits.

OC 403, THESIS, 1-16 Credits
Independent, original study that culminates in a senior thesis. Faculty sponsor must be prearranged. Graded P/N. This course is repeatable for 24 credits.

OC 405, READING AND CONFERENCE, 1-4 Credits
Independent library research and reading in specialized topics in oceanography for undergraduates, guided by discussions in conferences with faculty. A written report may be required. This course is repeatable for 16 credits.

OC 407, SEMINAR, 1-3 Credits
Undergraduate seminar on current developments in the oceanographic research literature, with student presentations and group discussions. A written report may be required. Equivalent to: OC 407H This course is repeatable for 12 credits.
OC 407H, SEMINAR, 1-3 Credits
Undergraduate seminar on current developments in the oceanographic research literature, with student presentations and group discussions. A written report may be required.
Attributes: HNRS – Honors Course Designator
Equivalent to: OC 407
This course is repeatable for 12 credits.

OC 410, INTERNSHIP, 1-16 Credits
Pre-career professional experience under joint faculty and employer supervision. Graded P/N.
This course is repeatable for 48 credits.
Recommended: 12 credits of upper-division college courses

OC 430, PRINCIPLES OF PHYSICAL OCEANOGRAPHY, 4 Credits
Fundamental principles of physical oceanography; conservation of mass, heat, momentum and vorticity; equations governing motion in the ocean; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation. Descriptive oceanography; application of the fundamental principles to the ocean; examination of the major current systems; water mass analysis. Offered annually.
Recommended: One year each of college physics and college calculus.

OC 433, COASTAL AND ESTUARINE OCEANOGRAPHY, 3 Credits
Circulation of the coastal ocean including continental shelf circulation, upwelling, coastal jets, undercurrents, coastal-trapped waves. Fundamentals of surface waves and tides; tsunamis, wind generation, breaking waves. Estuary classification and circulation patterns; shallow-water processes and beach morphology. Offered alternate years.
Recommended: One year of college physics and one year of calculus.

OC 434, ESTUARINE ECOLOGY, 4 Credits
Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSLISTED as FW 434/OC 434 and FW 534/OC 534.
Equivalent to: FW 434
Available via Ecampus

OC 440, BIOLOGICAL OCEANOGRAPHY, 4 Credits
An advanced examination of the ocean as an ecosystem with emphasis on the processes affecting the production and structure of oceanic communities. Starting with the physical and chemical characteristics of the ocean environment, lectures and labs examine the flow of energy and matter from primary producers through primary consumers up to higher trophic levels. Microbial and benthic processes are examined. Current topics, such as hypoxia, ocean acidification and harmful algal blooms are discussed. Lec/lab.
Prerequisite: OC 201 with C- or better
Recommended: Two terms of college-level biology

OC 449, ECOLOGICAL THEORIES IN BIOLOGICAL AND FISHERIES OCEANOGRAPHY DATA, 4 Credits
Students will learn the ecological theories applied in fisheries oceanography research and analytical techniques used to quantify fisheries oceanography processes. The lecture and lab sessions will be presented in the context of fundamental ecological research, including effects of environmental and climate variability on production and distribution of species and communities. A specific emphasis is toward analyses of large spatio-temporal data. Lec/lab.
Prerequisite: (MTH 252 with C or better or MTH 252H with C or better or MTH 228 with C or better) and (ST 351 [C] or ST 351H [C]) and (OC 440 (may be taken concurrently) [C] or BI 370 [C] or BI 370H [C])

OC 450, CHEMICAL OCEANOGRAPHY, 4 Credits
Chemical properties and processes in the oceans. Composition, origin and evolution of sea water; thermodynamic and kinetic predictions for reactions in sea water; major and minor element reservoirs and fluxes; vertical and horizontal transport of materials; isotopic clocks and tracers; nutrients; chemical processes and fluxes across major marine interfaces, including estuaries, atmosphere, sediments, suspended particles and hydrothermal systems. Lec/lab.
Prerequisite: CH 122 with D- or better or CH 232 with D- or better or CH 232H with D- or better
Recommended: One year of college-level general chemistry.

OC 460, GEOLOGICAL OCEANOGRAPHY, 4 Credits
Explores the (primarily) sedimentary processes in the ocean and their stratigraphic significance. Topics include how sediment is delivered to (or produced in) in the ocean; how waves, currents, and gravity redistribute it; and how it accumulates in various depositional environments to form the stratigraphic record. The challenge of deciphering sedimentary archives to better understand Earth history on time scales of events to millions of years will also be explored.
Prerequisite: OC 201 with C- or better and GEO 201 [C-]
Recommended: One year each of physics and chemistry or science background.

OC 495X, ADVANCED FIELD OCEANOGRAPHY 1, 2 Credits
Design a ship-based research project and contribute to the preparation and planning for a related oceanographic cruise.
Prerequisite: (OC 430 with C- or better or OC 440 with C- or better or OC 450 with C- or better or OC 460 with C- or better) and (OC 430 [C-] or OC 440 [C-] or OC 450 [C-] or OC 460 [C-])
Recommended: Senior standing

OC 496X, ADVANCED FIELD OCEANOGRAPHY 2, 4 Credits
Participate in an oceanographic cruise to collect data and samples. Analyze data and samples and prepare a written report of findings.
Prerequisite: OC 495X with C- or better
Recommended: Senior standing
OC 499, SPECIAL TOPICS IN OCEANOGRAPHY, 0-4 Credits
Subjects of current interest in oceanography, not covered in depth in other courses. May be repeated for credit when topic varies. Equivalent to: OC 499H
This course is repeatable for 16 credits.

OC 501, RESEARCH, 1-16 Credits
Original research work that will not be part of the data used in a thesis. Graded P/N. This course is repeatable for 24 credits.

OC 503, THESIS, 1-16 Credits
Thesis research and writing. This course is repeatable for 999 credits.

OC 505, READING AND CONFERENCE, 1-16 Credits
Independent reading and library research on specialized topics in oceanography, guided by discussions with supervising faculty. A written report may be required. This course is repeatable for 16 credits.

OC 506, PROJECTS, 1-16 Credits
This course is repeatable for 72 credits.

OC 507, SEMINAR, 1-3 Credits
Student presentations and discussions of current research literature or personal research results. Original research presentations by visiting scientists, OSU faculty and graduate students presenting final thesis results. Other sections and specific topics by arrangement. This course is repeatable for 48 credits.

OC 508, WORKSHOP, 1-16 Credits
This course is repeatable for 24 credits.

OC 512, BASIC MATLAB FOR ENVIRONMENTAL SCIENTISTS AND ENGINEERS, 2 Credits
MATLAB desktop environment will be introduced and basic programming and data analysis skills will be developed, with an emphasis on writing optimized routines to analyze data sets utilizing matrix algebra and vectorization of functions. Basic graphics and visualization will be covered, including two-dimensional and three-dimensional graphing, contouring and movies.

OC 515, OREGON COAST MATH CAMP, 3 Credits
Selected topics from differential calculus, integral calculus, ordinary and partial differential equations, statistics, linear algebra and vector calculus. Two-week course taught at Hatfield Marine Science Center in Newport, Oregon, before fall term begins. Graded P/N. Recommended: Differential and integral calculus and linear algebra

OC 521, APPLICATIONS IN OCEAN ECOLOGY AND BIOGEOCHEMISTRY, 4 Credits
Methodological underpinnings of marine ecology and biogeochemistry. Students will learn about both new and traditional methods of seawater analysis and biological rate determinations. They will evaluate methods by analyzing observations and samples, and assessing the interpretive effectiveness of approaches. Lec/lab. Prerequisite: OEAS 540 with C or better Corequisites: OC 522, OC 523 Equivalent to: G 521

OC 522, OCEAN BIOGEOCHEMICAL DYNAMICS, 4 Credits
Examines what keeps ocean systems in balance, and determines their response to perturbation. The course relies on connections between physical transport and biogeochemical reaction rates and energetics, taught from the perspective of key ocean biogeochemical cycles. Corequisites: OC 521, OC 523

OC 523, OCEAN ECOLOGICAL DYNAMICS, 4 Credits
Major characteristics of ocean biota and ocean ecosystems. Main themes will be centered on the bioenergetics of marine systems at levels ranging from the individual to ocean biomes, and on how ocean biota facilitates diverse marine biogeochemical processes. Lec/rec.

OC 528, MICROPROBE ANALYSIS, 3 Credits
Theory and application of electron microprobe analysis to problems in geology, engineering, chemistry, physics, and biology. Equivalent to: GEO 528

OC 533, COASTAL AND ESTUARINE OCEANOGRAPHY, 3 Credits
Circulation of the coastal ocean including continental shelf circulation, upwelling, coastal jets, undercurrents, coastal-trapped waves. Fundamentals of surface waves and tides; tsunamis, wind generation, breaking waves; shallow-water processes and beach morphology. Offered alternate years. Recommended: One year of college physics and one year of calculus.

OC 534, ESTUARINE ECOLOGY, 4 Credits
Integrated and synthetic training in the ecological processes of estuarine environments, with emphases on ecological interactions among organisms and the biogeochemical cycling of carbon and nitrogen. Topics include geomorphology, estuarine physics and chemistry, primary and secondary producers, ecosystem metabolism, element cycling, food webs, fisheries, restoration, management, and impacts of climate. Field trip required, transportation fee charged. CROSSTLISTED as FW 434/OC 434 and FW 534/OC 534. Equivalent to: FW 534 Available via Ecampus
OC 549, ECOLOGICAL THEORIES IN BIOLOGICAL AND FISHERIES OCEANOGRAPHY DATA, 4 Credits
Students will learn the ecological theories applied in fisheries oceanography research and analytical techniques used to quantify fisheries oceanography processes. The lecture and lab sessions will be presented in the context of fundamental ecological research, including effects of environmental and climate variability on production and distribution of species and communities. A specific emphasis is toward analyses of large spatio-temporal data. Lec/Lab.
Recommended: (MTH 252 or MTH 252H or MTH 228) and (ST 351 or ST 351H) and (OC 440 or BI 370 or BI 370H)

OC 561, IGNEOUS AND TECTONIC PROCESSES IN THE OCEAN, 3 Credits
An integrated view of the igneous and tectonic processes responsible for the formation and evolution of the ocean basins. The course is organized by tectonic environment including ridge crest, ridge flank, ocean basins, seamounts, and active and passive margins.
Recommended: One year each physics, calculus and geology.

OC 562, SEDIMENTARY PROCESSES IN THE OCEAN BASINS, 3 Credits
An integrated view of sediment processes in the ocean basins from a source to sink perspective, with a special emphasis on the interpretation of the historical record.
Recommended: OC 550 and one year each physics and calculus and geology.

OC 574, EARLY LIFE HISTORY OF FISHES, 4 Credits
Overview of diversity of development patterns in fishes; emphasis on morphology, life history, and evolution. Offered alternate years.
CROSSLISTED as FW 574/OC 574.
Equivalent to: FW 574
Recommended: FW 315

OC 599, SPECIAL TOPICS IN OCEANOGRAPHY, 0-4 Credits
Subjects of current interest in oceanography, not covered in depth in other courses. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.

OC 601, RESEARCH, 1-16 Credits
Original research work that will not be part of the data used in a thesis. Graded P/N.
This course is repeatable for 36 credits.

OC 603, THESIS, 1-16 Credits
Thesis research and writing.
This course is repeatable for 999 credits.

OC 605, READING AND CONFERENCE, 1-16 Credits
Independent reading and library research on specialized topics in oceanography, guided by discussions with supervising faculty. A written report may be required.
This course is repeatable for 16 credits.

OC 606, PROJECTS, 1-16 Credits
This course is repeatable for 84 credits.

OC 607, SEMINAR, 1-3 Credits
Student presentations and discussion of current research literature or personal research results. Original research presentations by visiting scientists, OSU faculty and graduate students presenting final thesis results. Other sections and specific topics by arrangement.
This course is repeatable for 24 credits.

OC 608, WORKSHOP, 1-16 Credits
This course is repeatable for 48 credits.

OC 630, OCEAN WAVE MECHANICS I, 3 Credits
Linear wave boundary value problem formulation and solution, water particle kinematics, shoaling, refraction, diffraction, and reflection. Linear long wave theory with applications to tides, seiching, and storm surge. CROSSLISTED as CE 630/OC 630.
Equivalent to: CE 630

OC 631, OCEAN WAVE MECHANICS II, 3 Credits
Second in the sequence of ocean wave engineering mechanics, covers the following topics: introduction to long wave theory, wave superposition, wave height distribution, and the wind-wave spectrum, introduction to wave forces, and basic nonlinear properties of water waves. May include additional selected topic in wave mechanics. CROSSLISTED as CE 631/OC 631.
Prerequisite: CE 630 with C or better or OC 630 with C or better
Equivalent to: CE 631

OC 634, LONG WAVE MECHANICS, 3 Credits
Theory of long waves. Depth-integrated Euler’s equation and its jump conditions. Evolution equations and their solutions. Nonlinear shallow-water waves, the Korteweg-deVries equation and Boussinesq equation. Boundary-layer effects. Shallow-water waves on beaches. Applications of the fundamentals to problems of tsunamis. CROSSLISTED as CE 634/OC 634.
Prerequisite: OC 630 with C or better and CE 631 [C]
Equivalent to: CE 634
Recommended: OC 670

OC 635, APPLIED MODELING OF NEARSHORE PROCESSES, 4 Credits
An introduction to numerical modeling of the nearshore ocean, providing hands-on experience with state-of-the-art numerical models for wave propagation, nearshore circulation, planform shoreline evolution and bathymetric profile evolution. The focus is on review of model requirements, detailed study of several specific models for several domains of interest, application to coastal phenomena, and the interpretation of model results. Offered alternate years.
Equivalent to: CE 635
OC 646, PHYSICAL/BIOLOGICAL INTERACTIONS IN THE UPPER OCEAN, 4 Credits
Variability in physical oceanic processes in the upper ocean and relationship to spatial and temporal variations in biomass, growth rates, and other biological patterns in the organisms of ocean surface waters. The relationship between variability in ocean physical phenomena and ecosystem dynamics, including the requirements of sampling design for upper ocean ecological studies. Time and space scales of physical and biological phenomena in the upper ocean. Offered alternate years. Offered alternate years, typically fall term.
Prerequisite: OEAS 530 with C or better and OEAS 540 [C]

OC 649, SPECIAL TOPICS IN BIOLOGICAL OCEANOGRAPHY, 1-4 Credits
Special topics of current interest in biological oceanography not covered in detail in other courses. May be repeated for credit when topic varies. This course is repeatable for 16 credits.

OC 657, SEDIMENT BIOGEOCHEMISTRY, 3 Credits
An overview of early diagenetic processes in marine sediments and the interdisciplinary approaches used to quantify material transformations at the seafloor.
Recommended: OC 550

OC 659, SPECIAL TOPICS IN CHEMICAL OCEANOGRAPHY, 1-4 Credits
Special topics of current interest in chemical oceanography not covered in detail by other courses. May be repeated for credit when topic varies. This course is repeatable for 16 credits.

OC 660, PALEOCEANOGRAPHY, 3 Credits
Large-scale changes in the oceanic and atmospheric system, as recorded in marine sediments, and their implications for understanding global environment changes. Chemical, physical, and biological proxies for oceanic and atmospheric processes in the geologic record period. Evidence for changing global climate at time scales longer than the historical record; the oceanic history of the Late-Cenozoic ice ages, long term evolution of climate change patterns, catastrophic global environmental events, and application of quantitative models to the past. Current research topics in paleoceanography. Offered alternate years.
Recommended: OC 560

OC 662, NEARSHORE HYDRODYNAMICS, 3 Credits
Briefly reviews wave processes in the nearshore, and concentrates on the wave-averaged circulation with an eye towards it potential effects on bathymetric change.
Recommended: Previous courses related to water wave mechanics and differential equations

OC 664, NEARSHORE SEDIMENT TRANSPORT, 3 Credits
To study the dynamics of a nearshore wave field propagating over a shoaling bathymetry, the response of sediments and morphology to those motions, emergent morphology due to the coupled system, anthropogenic influences and mitigation.
Recommended: General physics, integral and differential calculus; nearshore hydrodynamics.

OC 668, THEORETICAL PETROLOGY, 3 Credits
Recommended: Petrology.

OC 669, SPECIAL TOPICS IN GEOLOGICAL OCEANOGRAPHY, 1-4 Credits
Subjects of current interest in geological oceanography not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for 16 credits.

OC 670, FLUID DYNAMICS, 4 Credits
Fundamentals of fluid dynamics: conservation laws of mass, momentum, and energy; inviscid and viscous flows; boundary layers; vorticity dynamics; irrotational and potential flow. Offered annually.
Recommended: One year of college physics; mathematics through differential equations and vector calculus.

OC 671, GEOPHYSICAL FLUID DYNAMICS, 4 Credits
Dynamics of rotating and stratified fluids, potential vorticity, geostrophic motion; inviscid shallow-water theory, Poincare, Kelvin, and Rossby waves; geostrophic adjustment, quasigeostrophic approximation, Ekman layers, two-layer and continuously stratified models. Offered annually.
Prerequisite: OC 670 with C or better

OC 672, THEORY OF OCEAN CIRCULATION, 4 Credits
Theory of steady and time-dependent large-scale circulation in ocean basins. Effects of earth’s curvature: the beta-plane approximation. The wind-driven Sverdrup circulation, western boundary currents, eastern boundary upwelling; the effects of friction. Linear theory and nonlinear theory; inertial gyres. Effects of buoyancy forcing; heating, cooling, evaporation, precipitation; density stratification. Wind- and buoyancy-forced circulation in the thermocline; ventilation. Potential vorticity conservation and homogenization. Offered annually.
Prerequisite: OC 670 with C or better and OC 671 [C]
OC 673, DESCRIPTIVE PHYSICAL OCEANOGRAPHY, 4 Credits
Fundamental mass, force, and energy balances of the ocean; geostrophy; planetary boundary layers; wind-driven and thermohaline circulation; vorticity; air-sea fluxes of heat, salt, moisture and momentum. Application of these balances through descriptive examination of the ocean-global heat budget; surface current systems; abyssal circulation. Study of variability on a variety of time and space scales. Instrumentation and platforms used for observing the ocean. Offered annually.
Prerequisite: OC 530 with C or better or OC 670 with C or better or ATS 515 with C or better

OC 674, TURBULENCE, 4 Credits
Governing equations, turbulent kinetic energy, vorticity dynamics; turbulent transports of mass and momentum; statistical description of turbulent flows, spectral dynamics; turbulent boundary layers, planetary boundary layers in the atmosphere and ocean, convective mixed layers, stable boundary layers; deep ocean turbulence. Offered alternate years.
Prerequisite: OC 670 with C or better

OC 675, NUMERICAL MODELING IN OCEAN CIRCULATION, 4 Credits
Review of theoretical models of ocean circulation, including shallow water, barotropic, quasigeostrophic, and primitive equation models; adjustment times, internal length and time scales; the role of advection, bathymetry, and coastlines; global models, basin models, regional models and models of jets, eddies and boundary currents. Review of numerical techniques and problems specific to ocean modeling. Local facilities are used to develop models on remote supercomputers.
Prerequisite: OC 670 with C or better
Recommended: Working knowledge of FORTRAN

OC 676, INVERSE MODELING AND DATA ASSIMILATION, 4 Credits
Survey of methods for combining oceanographic observations and observing systems with numerical models of ocean circulation. Topics include: finite-dimensional least squares theory with inequality constraints; optimal interpolation; the representation theory of smoothing; the Kalman smoother and filter; gradient descent methods for minimization; spatial and temporal regularity of filters and smoothers; linear theory of array design; nonlinear optimization, practical assimilation methods.
Recommended: Strong background in linear algebra and advanced calculus, geophysical fluid dynamics, numerical modeling of ocean circulation.

OC 678, OCEAN REMOTE SENSING, 4 Credits
Theory and applications of satellite remote sensing observations of the ocean with emphasis on strengths and limitations in the measurements. Topics include review of electricity and magnetism, absorption and scattering in the atmosphere (radiative transfer), satellite orbital mechanics, measurements of ocean color, infrared remote sensing, microwave radiometry, scatterometry, and satellite altimetry. Offered alternate years.
Recommended: MTH 252 and PH 212

OC 679, SPECIAL TOPICS IN PHYSICAL OCEANOGRAPHY, 1-4 Credits
Subjects of current interest in physical oceanography, not covered in depth in other courses. May be repeated for credit when topic varies. This course is repeatable for 16 credits.

OC 680, STABILITY OF GEOPHYSICAL FLUID FLOWS, 4 Credits
Linear perturbation analysis applied to geophysical flows. These methods provide both quantitative and conceptual insight into the formative stages of turbulent flow. Emphasis is on practical numerical methods for the solution of differential eigenvalue problems. Examples are drawn from a wide range of geophysical flow instabilities, based in part upon student interests.
Prerequisite: OC 670 with C or better
Recommended: Multivariate calculus, matrix calculus, Matlab and concurrent enrollment in OC 670

OC 681, GEOPHYSICAL WAVES, 4 Credits
Fundamentals of wave dynamics applied to geophysical fluids. Hyperbolic waves—linear and nonlinear; characteristics; shock waves. Dispersive waves—linear waves, dispersion relations, group velocity; isotropic and anisotropic dispersion; nonlinear solitary waves. Application to geophysical waves—surface gravity, capillary, internal gravity, Kelvin, planetary, coastal. Offered alternate years.
Prerequisite: OC 670 with C or better

OC 682, DATA ANALYSIS IN THE TIME AND SPACE DOMAINS, 4 Credits
Theory of classical and modern techniques for analysis of data in the time and space domains with applications to real oceanographic and atmospheric data. Topics include correlation analysis, regression analysis, EOF analysis, objective mapping, interpolation, filtering, sampling errors, and confidence tests. Offered alternate years.
Recommended: MTH 341 and MTH 342 and MTH 418 and OC 608 and ST 314 and a working knowledge of Matlab, IDL, or FORTRAN

OC 683, DATA ANALYSIS IN THE FREQUENCY AND WAVE NUMBER DOMAINS, 4 Credits
Theory of classical and modern techniques for analysis of data in the frequency and wavenumber domains with applications to real oceanographic and atmospheric data. Topics include sampling theory, one-dimensional autospectal analysis, multidimensional autospectral analysis, coherence and phase analysis, bi-spectral analysis, wavelet analysis, and confidence tests. Offered alternate years.
Equivalent to: ATS 683
Recommended: MTH 341 and MTH 342 and MTH 418 and OC 608 and ST 314 and a working knowledge of Matlab, IDL, or FORTRAN

OC 691, PROPOSAL WRITING, 3 Credits
Teaches the use of NSF Fastlane. Includes a discussion of ethics and fairness in reviewing, a review of real proposals by faculty, a simulated NSF funding panel, and then development of a real proposal, for review purposes. This will relate directly to the student’s current thesis or project. The course enables graduate students from all disciplines to develop rigorous, well thought-out proposals. It should be taken early enough in the program so that the proposal process contributes to their research progress.
OC 808, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

Outdoor Products (OP)

OP 101, INTRODUCTION TO THE OUTDOOR PRODUCTS INDUSTRY, 4 Credits

OP 231, EXPERIENCE OUTDOOR PRODUCTS - WATER, 2 Credits
Hands-on experience with multiple water-related outdoor products in classroom and outdoor settings. Identifying key characteristics for consumers and implications for design, development, marketing, business, and sustainability. Evaluating product performance and developing ideas for objective improvements. Includes one mandatory weekend outdoor-experience outing.

OP 232, EXPERIENCE OUTDOOR PRODUCTS - WINTER, 2 Credits
Hands-on experience with multiple winter-related outdoor products in classroom and outdoor settings. Identifying key characteristics for consumers and implications for design, development, marketing, business, and sustainability. Evaluating product performance and developing ideas for objective improvements. Includes one mandatory weekend outdoor-experience outing.

OP 233, EXPERIENCE OUTDOOR PRODUCTS - LAND, 2 Credits
Hands-on experience with multiple land-related outdoor products in classroom and outdoor settings. Identifying key characteristics for consumers and implications for design, development, marketing, business, and sustainability. Evaluating product performance and developing ideas for objective improvements. Includes one mandatory weekend outdoor-experience outing.

OP 301, OUTDOOR PRODUCTS PROCESS CONNECTIONS, 4 Credits
The interrelated processes and connections of product commercialization. How product design decisions impacts business considerations such as margin, inventory, supply chain, cash flow, and profitability. How design thinking and nurturing a design culture that promotes innovation is necessary for business success and growth. Challenges of product sales and distribution related to design.
Prerequisite: OP 231 with C- or better or OP 232 with C- or better or OP 233 with C- or better

OP 307, OUTDOOR PRODUCTS PRACTICUM SEMINAR, 1 Credit
Prerequisite: OP 101 with C- or better

OP 309, OUTDOOR PRODUCTS PRACTICUM, 1-6 Credits
Prerequisite: OP 307 with C- or better
This course is repeatable for 6 credits.

OP 351, OUTDOOR PRODUCTS DESIGN AND DEVELOPMENT I, 4 Credits
Explores needs-based design for Outdoor Products. Experiential-based projects related to function and design and understanding Design in context of Consumer Needs. Investigates design-choices impact upstream and downstream commercialization processes.
Prerequisite: OP 301 with C- or better

OP 352, OUTDOOR PRODUCTS DESIGN AND DEVELOPMENT II, 4 Credits
Exploration of development and product creation cycles for Outdoor Products. Bridging the design and operations phases of commercialization. Investigate quality, sample production, product testing, and costing. Managing how development decisions impact upstream and downstream commercialization processes.
Prerequisite: OP 351 with C- or better

OP 359, OUTDOOR PRODUCTS DESIGN AND DEVELOPMENT II, 4 Credits
Prerequisite: OP 352 with C- or better

Peace Studies (PAX)

PAX 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PAX 201, STUDY OF PEACE AND THE CAUSES OF CONFLICT, 3 Credits
Examination of the causes of personal, social, and institutional conflict and peaceful, constructive means of dealing with conflict. The history and current status of peace movements within and outside governments; prospects for world peace. Case studies in peace and conflict. CROSSTLISTED as PAX 201/REL 201. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 201

PAX 301, *PEACE STRATEGIES, 4 Credits
Investigates the relationship between science, peace and justice on personal, community and global scales. Applies peace literacy skills to understand the historical foundations of complex issues today. Emphasis on how students can contribute to solving current scientific and social problems.
Attributes: CSST – Core, Synthesis, Science/Technology/Society
PAX 402, INDEPENDENT STUDY, 1-16
Credits
Individual basic and applied study projects on peace-related issues, designed in consultation with the Peace Studies Program director or a member of the Peace Studies faculty.
This course is repeatable for 16 credits.

PAX 405, READING AND CONFERENCE, 1-16 Credits
Study supervised and directed by members of the Peace Studies Program committee or approved faculty, as arranged by the student and Peace Studies Program director.
This course is repeatable for 16 credits.

PAX 407, SEMINAR, 1-16 Credits
Close examination of peace-related topics, including theory, method, research, and application. May be taken more than one time as topics vary.
This course is repeatable for 16 credits.

PAX 410, PEACE STUDIES INTERNSHIP, 1-16 Credits
Directed, supervised, and evaluated field work, to supplement the student's classroom work, arranged one term in advance.
This course is repeatable for 16 credits.

PAX 415, TOPICS IN PEACE STUDIES, 1-16 Credits
Selected topics relevant to the study of conflict, peace, and war. May be taken more than one time as topics vary.
Equivalent to: PAX 415H
This course is repeatable for 16 credits.

PAX 415H, TOPICS IN PEACE STUDIES, 1-16 Credits
Selected topics relevant to the study of conflict, peace, and war. May be taken more than one time as topics vary.
Attributes: HNRS – Honors Course Designator
Equivalent to: PAX 415
This course is repeatable for 16 credits.

PAX 499, TOPICS IN PEACE STUDIES, 1-4 Credits
Examination of the work of a particular nonviolence theorist or of a specific problem; e.g., pacifism and humanitarian intervention, nonviolence and gender. Course may be repeated as appropriate. Not offered every year.
This course is repeatable for 8 credits.

PAX 502, INDEPENDENT STUDY, 1-16 Credits
Individual basic and applied study projects on peace-related issues, designed in consultation with the Peace Studies Program director or a member of the Peace Studies faculty.
This course is repeatable for 16 credits.

PAX 505, READING AND CONFERENCE, 1-16 Credits
Study supervised and directed by members of the Peace Studies Program committee or approved faculty, as arranged by the student and Peace Studies Program director.
This course is repeatable for 16 credits.

PAX 507, SEMINAR, 1-16 Credits
Close examination of peace-related topics, including theory, method, research, and application. May be taken more than one time as topics vary.
This course is repeatable for 16 credits.

PAX 510, PEACE STUDIES INTERNSHIP, 1-16 Credits
Directed, supervised, and evaluated field work, to supplement the student's classroom work, arranged one term in advance.
This course is repeatable for 16 credits.

PAX 515, TOPICS IN PEACE STUDIES, 1-16 Credits
Selected topics relevant to the study of conflict, peace, and war. May be taken more than one time as topics vary.

PAX 599, TOPICS IN PEACE STUDIES, 1-4 Credits
Examination of the work of a particular nonviolence theorist or of a specific problem; e.g., pacifism and humanitarian intervention, nonviolence and gender. Course may be repeated as appropriate. Not offered every year.
This course is repeatable for 8 credits.

Pharmacy (PHAR)

PHAR 001, SERVICE LEARNING, 0 Credits
Engage in a service-learning or community engagement experience where skills and knowledge are applied to meet an authentic community-identified need. The experience will integrate meaningful community service with reflection. Through readings and discussions, critically reflect on the service in order to increase understanding of the discipline, gain a broader appreciation of the discipline, enhance a sense of civic responsibility, and strengthen connections with communities.

PHAR 002, LEADERSHIP, 0 Credits
Provides basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

PHAR 201, PHARMACY ORIENTATION, 1 Credit
Career opportunities in pharmacy including community and institutional practice, government, and industry. Discussion of available educational pathways. Open to non-pharmacy students. Graded P/N.
PHAR 210, TERMINOLOGY OF THE HEALTH SCIENCES, 2 Credits
Provides the student in any of the health science disciplines or pre-professional studies with a working knowledge of the terminology used in the health sciences. Open to non-pharmacy students.
*Available via Ecampus*

PHAR 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 405, READING & CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 407, SEMINAR, 1-16 Credits
One-credit section. Graded P/N.
This course is repeatable for 16 credits.

PHAR 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

PHAR 505, READING & CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 507, SEMINAR, 1-16 Credits
One-credit section. Graded P/N.
This course is repeatable for 16 credits.

PHAR 525, FOUNDATIONS OF DRUG ACTION I, 3 Credits
Introductory course presenting actions of chemicals on physiological systems. Concepts encompass drug absorption and distribution, drug design and characterization of drug interactions with specialized cellular components, and drug biotransformation or excretion.

PHAR 526, FOUNDATIONS OF DRUG ACTION III, 3 Credits
Drug actions in the autonomic nervous system (ANS) provide a template for understanding drug actions throughout the body. This course provides a complete consideration of pharmacologic and medicinal chemistry principles as they relate to drug interactions with the ANS. Treatment options for selected diseases that respond to drugs acting on the ANS are also addressed.

PHAR 527, FOUNDATIONS OF DRUG ACTION II, 3 Credits
Introductory course presenting actions of chemicals on physiological systems. Concepts encompass drug activation of biological response via biochemical or molecular transduction mechanisms, pharmacogenetics and pharmacogenomics, and drug-induced toxicities.

PHAR 537, BIOORGANIC CHEMISTRY, 3 Credits
A contemporary treatment of the chemistry, enzymology and molecular genetics techniques used in studying major natural products biosynthesis pathways in nature. Offered alternate years.
*Recommended: (CH 530, CH 531, CH 535) and (BB 590, BB 591, BB 592)*

PHAR 547, INFECTIOUS DISEASES AND TREATMENTS, 3 Credits
Introduction to infectious disease processes and antimicrobial agents, including general clinical microbiology, and structure mechanism of action of anti-bacterial and anti-fungal agents.
*Recommended: Upper level biochemistry*

PHAR 548, DRUG ACTIONS IN IMMUNOLOGY AND INFLAMMATION, 3 Credits
Review of foundational concepts in immunology, inflammation and tissue repair, and modification of these processes therapeutically through an understanding and application of anti-inflammatory agents and immune system modulators.

PHAR 563, CANCER AND CHEMOPREVENTION, 2 Credits
A summary of mechanisms of cancer progression, how cancer is detected, and introduction to chemoprevention using targeted therapy and alternative medicine.
*Recommended: (BB 451 or BB 551) and BI 314 and (BI 460 or BI 560) or second year standing in the PharmD program*

PHAR 572, APPLIED BIOPHARMACEUTICS AND PHARMACOKINETICS, 3 Credits
Pharmacokinetics and bioavailability of drugs in clinical care, including changing disease states.

PHAR 573, CURRENT TOPICS IN PHARMACEUTICAL SCIENCES, 1-3 Credits
Critical evaluation of contemporary pharmaceutics and pharmacokinetics research articles.
*This course is repeatable for 9 credits.*

PHAR 574, NANOMEDICINE, 3 Credits
Introduction to the interdisciplinary field of nanomedicine, the use of nanoscale (1-100 nm) phenomena and materials in biomedical applications. Reviews the basic principles of nanotechnology relevant to areas such as diagnostic/molecular imaging, drug delivery, and other novel therapeutics. Topics will be described through both survey of historical developments and the latest scientific developments in the field of nanomedicine.

PHAR 591, PHARMACOLOGY I, 5 Credits
Principles of pharmacology; molecular, cellular, and physiologic mechanisms of drug action; pharmacological rationale for therapeutic and toxicologic treatment outcomes.
PHAR 592, PHARMACOLOGY II, 5 Credits
Principles of pharmacology; molecular, cellular, and physiologic mechanisms of drug action; pharmacologic rationale for therapeutic and toxicologic treatment outcomes.

PHAR 593, PHARMACOLOGY III, 5 Credits
Principles of pharmacology; molecular, cellular, and physiologic mechanisms of drug action; pharmacologic rationale for therapeutic and toxicologic treatment outcomes.

PHAR 594, ADVANCES IN MANIPULATING THE HUMAN GENOME, 3 Credits
Covers current techniques in genetic engineering used to modify the characteristics of individuals as a prelude to possible future human genetic engineering, including advances in gene manipulation from early recombinant DNA techniques to CRISPR-Cas technology. Emphasizes manipulations of the genomes of individual mammals, and characterization of the effect of those manipulations at levels from the molecular to the physiological. Explores DNA/RNA/protein extraction, polymerase chain reaction, molecular cloning, sequencing (DNA, R, and chromatin), expression analyses, gene overexpression, silencing and perturbation.
Recommended: Advanced Biochemistry or Cell and Molecular Biology Available via Ecampus

PHAR 601, RESEARCH, 1-16 Credits
This course is repeatable for 99 credits.

PHAR 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

PHAR 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

PHAR 669, INTRODUCTION TO GRANT PROPOSAL WRITING, 2 Credits
To introduce students to the fundamentals of writing grant proposals to the National Institute of Health (NIH), different funding mechanisms, as well as the grant reviewing process. CROSSLISTED as PHAR 669/ VMB 669.
Equivalent to: VMB 669
This course is repeatable for 20 credits.

PHAR 699, SPECIAL TOPICS IN PHARMACEUTICAL SCIENCES, 3 Credits
This course is repeatable for 99 credits.

PHAR 701, RESEARCH AND SCHOLARSHIP, 1-8 Credits
Research conducted by professional pharmacy students under faculty supervision.
This course is repeatable for 12 credits.

PHAR 703, THESIS, 1-8 Credits
Independent study and analysis that culminates in a thesis.
This course is repeatable for 99 credits.

PHAR 704, RESEARCH SEMINAR, 1 Credit
This course is repeatable for 2 credits.
Recommended: First or second year standing PharmD program

PHAR 705, READING AND CONFERENCE, 1-8 Credits
May be repeated for credit.
This course is repeatable for 12 credits.

PHAR 706, INTRODUCTION TO HEALTH DISPARITIES, 2 Credits
An examination of the multifaceted issue of health disparities in the U.S. healthcare system. Marginalized groups with disparities based upon racial/ethnic, gender, sexual preference and identity, disability, physical and mental health, geography and socioeconomics will be examined at the individual, systematic, and institutional levels.
Recommended: PHAR 707

PHAR 707, CAREER PERSPECTIVES AND PROFESSIONAL DEVELOPMENT, 2 Credits
Students will explore the necessary knowledge, skills and abilities in order to support professional role formation and ongoing professional development. Students will practice skills related to identifying personal strengths and weaknesses, building self-awareness, creating professional job search materials, communicating professionally in written and oral formats, and participating as a team member.
Recommended: First-year standing in the PharmD program

PHAR 708, INTRODUCTORY PHARMACY PRACTICE EXPERIENCES: COMMUNITY CARE I, 2 Credits
Students will be placed in community pharmacies for experiential rotations. Students will gain an understanding of the scope of practice and roles of pharmacy personnel while demonstrating skills related to processing and dispensing functions in the community setting. Students will observe patient counseling and have an opportunity to conduct medication reviews to identify any drug-related problems. In-class discussions of patient cases will explore concepts relating to ethical decision-making, cultural sensitivity and coordinated pharmacy practice topics with other first-year courses.
Recommended: PHAR 707
PHAR 709, INTRODUCTORY PHARMACY PRACTICE EXPERIENCES: COMMUNITY CARE II, 2 Credits

Students will be placed in community pharmacies for experiential rotations. Students will gain an understanding of the scope of practice and roles of pharmacy personnel while demonstrating skills related to processing and dispensing functions in the community setting. Students will observe patient counseling and have an opportunity to conduct medication reviews to identify any drug-related problems. In-class discussions of patient cases will explore concepts relating to ethical decision-making, cultural sensitivity and coordinated pharmacy practice topics with other first-year courses.

Recommended: PHAR 708

PHAR 711, FUNDAMENTALS OF INTERPROFESSIONAL COLLABORATION, 1 Credit

The first professional year IPE Series is a yearlong course focusing on interprofessional education for students from local colleges (LBCC/OSU/WesternU) representing programs in medical assistant, pharmacy, nursing and osteopathic medicine. Students develop a positive perspective of working with other disciplines, enhanced understanding of their specific role and responsibilities on an interprofessional team, recognize the value of other disciplines providing patient-centered care, and develop a shared accountability for providing patients with safe, high-quality health care.

Recommended: First-year standing in the PharmD program

PHAR 712, FOUNDATIONS OF PATIENT SAFETY AND INTERPROFESSIONAL PRACTICE, 1 Credit

Techniques, best practices and opportunities for improving patient safety through interprofessional teamwork. Graded P/N.

PHAR 713, SPANISH FOR PHARMACY PROFESSIONALS, 2 Credits

For the pharmacy professional with little or no Spanish language background (those with some Spanish language skills would find it beneficial). The course is presented in a video format with in-class facilitator for discussion. Provides basic Spanish grammar instruction but the focus will be on vocabulary and communication in a community pharmacy environment.

PHAR 714, COMPLEMENTARY MEDICINE, 3 Credits

Covers vitamins and microminerals and their role in biochemical processes, maintaining health and preventing disease. The course also covers the etiology of obesity and treatment modalities. The course builds upon the general background of students in biochemistry and physiology to provide a common baseline of knowledge and allow for integration of concepts required to understand preventive medicine.

Recommended: PHAR 729 and PHAR 735

PHAR 715, PRESCRIPTION DRUG ABUSE, 2 Credits

Examines the issue of prescription drug abuse among the general population. Graded P/N.

PHAR 717, SENIOR CARE PHARMACY, 2 Credits

Provides an overview of senior care pharmacy practice including an introduction to the senior patient, the senior care healthcare environment, medication-related problems in the elderly, the role of the pharmacist as a member of the interdisciplinary senior healthcare team, and employment opportunities in senior care pharmacy. Graded P/N.

Equivalent to: PHAR 721

Recommended: First-year standing PharmD program and PHAR 723 and PHAR 735 and PHAR 739

PHAR 718, DEVELOPMENT AND MECHANISMS OF ACTION OF CANCER DRUGS, 2 Credits

Analysis of the development and mechanisms of action of cancer chemotherapeutic drugs, with an emphasis on natural product sources for lead compounds and biological targets. Discussion of mainstay cancer drugs illustrates historical, current and emerging cancer drug development paradigms. Provides an understanding of how cancer therapeutic agents have evolved and how they intercept pharmacologic targets.

Recommended: Second-year standing in PharmD program

PHAR 719, POISONS AND TOXINS, 2 Credits

Covers many different types of substances, including common household poisons, poisonous plants and mushrooms, toxic gases/metal, shellfish toxins, and other natural toxins. Aspects of the chemistry and pharmacology of the poisons, antidotes/treatments, and occasional case studies will be covered. Historical examples and current events will also be incorporated into the course materials.

Equivalent to: PHAR 723

Recommended: PHAR 735

PHAR 720, PHARMACY PRACTICE I-PRINCIPLES OF INTEGRATED PATIENT CARE, 4 Credits

Pathophysiology of common conditions, self-care therapeutics, clinical data collection and documentation, prescription drug information and education, patient counseling skills, basic pharmacy calculations.

Recommended: First-year standing in PharmD program

PHAR 721, PHARMACY PRACTICE II, 3 Credits

Pathophysiology of common conditions, self-care therapeutics, clinical data collection and documentation, prescription drug information and education, patient counseling skills, basic pharmacy calculations.

Recommended: PHAR 720
PHAR 722, PHARMACY PRACTICE III: PRINCIPLES OF INTEGRATED PATIENT CARE, 4 Credits
Pathophysiology of common conditions, self-care therapeutics, clinical data collection and documentation, prescription drug information and education, patient counseling skills, basic pharmacy calculations.
Recommended: PHAR 721

PHAR 726, PRINCIPLES OF EVIDENCE-BASED MEDICINE II: DRUG LIT EVAL, 3 Credits
Students will learn to critique and evaluate health-related scientific journal articles using valid established techniques.
Recommended: Second-year standing in PharmD program

PHAR 728, PHARMACY LAW, 2 Credits
Introduces the student to the federal and state agencies and regulations that govern pharmacy practice and provides students with foundational knowledge and skills to comply with state and federal regulations. Emphasis will be on regulations from the Food and Drug Administration, Drug Enforcement Administration, and Oregon Board of Pharmacy.
Recommended: First year standing in PharmD program

PHAR 729, PRINCIPLES OF EVIDENCE-BASED MEDICINE I: INFORMATION SCIENCE, 3 Credits
Students will learn to identify appropriate information resources and will systematically collect, arrange, and analyze pertinent information related to a particular patient or drug product problem.
Equivalent to: PHAR 739
Recommended: First-year standing in PharmD program

PHAR 733, PHARMACEUTICS I, 3 Credits
Foundational perspectives in physical pharmacy with an emphasis on liquid and parenteral products. Properties and processes that influence compatibility and stability in drug formulation are discussed. Varied types of sterile and non-sterile formulations, including product optimization for drug delivery and patient specific considerations, are examined.
Recommended: PHAR 735

PHAR 734, PHARMACEUTICS II, 3 Credits
Preformulation and formulation factors affecting the development, production and use of pharmaceutical dosage forms, including ingredients in, and physical, chemical, and biological properties affecting storage, stability, and handling of dosage forms. Lec/lab. Approved for use on a graduate program of study
Recommended: PHAR 733 and PHAR 735

PHAR 735, DRUG ACTION I: MEDICINAL CHEMISTRY AND PHARMACEUTICS, 3 Credits
Introductory course exploring interactions of chemicals with physiological systems. Concepts encompass drug design and characterization of drug interactions with specialized cellular components, drug absorption and distribution, and drug biotransformation or excretion. Approved for a graduate program of study.

PHAR 736, DRUG ACTION III: AUTONOMIC DRUG ACTION, 3 Credits
Drug actions in the autonomic nervous system (ANS) provide a template for understanding drug actions throughout the body. This course provides a complete consideration of pharmacologic and medicinal chemistry principles as they relate to drug interactions with the ANS. Treatment options for selected diseases that respond to drugs acting on the ANS are also addressed.
Recommended: PHAR 735 and PHAR 737

PHAR 737, DRUG ACTION II: PHARMACOGENOMICS, PHARMACOLOGY & TOXICOLOGY, 3 Credits
Introductory course presenting actions of chemicals on physiological systems. Concepts encompass drug activation of biological response via biochemical or molecular transduction mechanisms, pharmacogenetics and pharmacogenomics, and drug-induced toxicities. Approved for use on graduate program of study.
Recommended: PHAR 735

PHAR 738, HEALTHCARE SYSTEMS I, 3 Credits
Examination of the U.S. healthcare industry and how it relates to pharmacy. Emphasis is given to changing relationships between healthcare systems, patients, providers of care, hospitals, insurers, employers and the government.
Recommended: First-year standing in the PharmD program

PHAR 739, HEALTHCARE SYSTEMS II, 2 Credits
Population-based strategies for improving health and wellness with an emphasis on prevention rather than treatment. We will also look at how social determinants of health affect peoples’ ability to be healthy and how the safety net seeks to close the gap for those who have limited access or resources.
Recommended: PHAR 738

PHAR 740, PHARMACY PRACTICE IV, 3 Credits
Basic physical assessment skills and identification of therapeutic endpoints and monitoring parameters for drugs presented in the medicinal chemistry/pharmacology sequence. Students will gain experience in basic physical assessment skills, interviewing skills, history taking, organizing pharmacy notes, and documenting information.
Recommended: PHAR 722 and concurrent enrollment in PHAR 752

PHAR 741, PHARMACY PRACTICE V, 3 Credits
Basic physical assessment skills and identification of therapeutic endpoints and monitoring parameters for drugs presented in the medicinal chemistry/pharmacology sequence. Students will gain experience in basic physical assessment skills, interviewing skills, history taking, organizing pharmacy notes, and documenting information. Lec/ lab.
Recommended: PHAR 740. Concurrent enrollment in PHAR 744 and PHAR 753
PHAR 742, PHARMACY PRACTICE VI, 3 Credits
Basic physical assessment skills and identification of therapeutic endpoints and monitoring parameters for drugs presented in the medicinal chemistry/pharmacology sequence. Students will gain experience in basic physical assessment skills, interviewing skills, history taking, organizing pharmacy notes, and documenting information. Lec/lab.
Recommended: PHAR 741. Concurrent enrollment in PHAR 745 and PHAR 754

PHAR 743, INTRODUCTORY PHARMACY PRACTICE EXPERIENCE: COMMUNITY III, 2 Credits
Students are assigned to community, institutional and ambulatory care pharmacy settings, and experiences emphasize topics and communication methods covered in the corresponding pharmacy practice course.
Recommended: Concurrent enrollment in PHAR 740

PHAR 744, INTRODUCTORY PHARMACY PRACTICE EXPERIENCE: AMBULATORY CARE I, 2 Credits
Students are assigned to institutional or ambulatory care pharmacy settings, and experiences emphasize topics and communication methods covered in the corresponding pharmacy practice course.
Recommended: Concurrent enrollment in PHAR 742 and PHAR 754

PHAR 745, INTRODUCTORY PRACTICE EXPERIENCES: AMBULATORY CARE II, 2 Credits
Students are assigned to institutional or ambulatory care pharmacy settings, and experiences emphasize topics and communication methods covered in the corresponding pharmacy practice course. Graded P/N.
Recommended: Concurrent enrollment in PHAR 742 and PHAR 754

PHAR 746, PHARMACY MANAGEMENT, 3 Credits
Using a case-based format, students will work in groups to “solve” (using SOAP notes) real-world scenarios based in different pharmacy settings. The cases are organized around the major focus areas listed in the schedule. Each group will present their solution and a recap of the actual outcome will be provided whenever available.

PHAR 747, INFECTIOUS DISEASES AND TREATMENTS, 3 Credits
Introduction to infectious disease processes and antimicrobial agents, including general clinical microbiology, and structure mechanism of action of anti-bacterials and anti-fungal agents. Approved for a graduate program of study.
Recommended: Upper level biochemistry

PHAR 748, DRUG ACTIONS IN IMMUNOLOGY AND INFLAMMATION, 3 Credits
Review of foundational concepts in immunology, inflammation and tissue repair; and modification of these processes therapeutically through an understanding and application of anti-inflammatory agents and immune system modulators. Approved for a graduate program of study.

PHAR 750, PHARMACOKINETICS AND BIOPHARMACEUTICS, 4 Credits
Pharmacokinetics and bioavailability of drugs in clinical care, including changing disease states. Approved for use on a graduate program of study.
Recommended: PHAR 735

PHAR 752, INTEGRATED DRUG STRUCTURE, ACTION AND THERAPEUTICS I, 7 Credits
Drug therapy of central nervous system disorders; molecular, cellular and physiologic basis of drug action; chemical and physical properties affecting drug metabolism, action and toxicities; treatment options; patient and disease-specific therapeutic considerations.
Recommended: PHAR 736

PHAR 753, INTEGRATED DRUG STRUCTURE, ACTION AND THERAPEUTICS II, 7 Credits
Drug therapy of pulmonary and cardiovascular disorders; molecular, cellular and physiologic basis of drug action; chemical and physical properties affecting drug metabolism, action and toxicities; treatment options; patient and disease-specific therapeutic considerations.
Recommended: PHAR 752

PHAR 754, INTEGRATED DRUG STRUCTURE, ACTION AND THERAPEUTICS III, 7 Credits
Drug therapy of endocrine disorders, and men's and women's health issues; molecular, cellular and physiologic basis of drug action; chemical and physical properties affecting drug metabolism, action and toxicities; treatment options; patient and disease-specific therapeutic considerations.
Recommended: PHAR 753
PHAR 760, INTRODUCTORY PHARMACY PRACTICE EXPERIENCES: INSTITUTIONAL, 2 Credits

Students gain familiarity with the provision of patient centered care through the variety of pharmacy services within a health system. Experiences include introduction to acute care services, transitions of care, and introduction to health systems pharmacy. Emphasis is on learning how to ensure patient medication safety by understanding the process of preparing and distributing medication, collecting and analyzing relevant patient information, and providing guidance regarding medication administration and monitoring. This course is repeatable for 6 credits.

Recommended: Concurrent enrollment in PHAR 761 and PHAR 764

PHAR 761, ADVANCED INTEGRATED DRUG THERAPY I, 8 Credits

Pathophysiologic basis of disease and drug therapy management.

Recommended: Concurrent enrollment in PHAR 764 and PHAR 770

PHAR 762, ADVANCED INTEGRATED DRUG THERAPY II, 8 Credits

Pathophysiologic basis of disease and drug therapy management.

Recommended: Concurrent enrollment in PHAR 765

PHAR 764, PHARMACY PRACTICE VII, 3 Credits

Development of skills for advanced drug therapy problem identification, assessment, and plan resolution for patients with diseases discussed in PHAR 752, 753, 754, 761 and PHAR 762. Students will integrate interviewing, physical assessment, and problem-solving to identify, assess, and resolve drug therapy problems and communicate findings in SOAP notes, care plans, and case presentations.

Recommended: PHAR 742 and concurrent enrollment in PHAR 761

PHAR 765, PHARMACY PRACTICE VIII, 3 Credits

Development of skills for application of didactic learning to case-based drug therapy problem identification, assessment, and plan. Content draws on PHAR 761, and PHAR 762, as well as earlier course work. Students will integrate knowledge from multiple courses to problem-solve drug therapy concerns, and communicate findings both orally and in written format.

Recommended: PHAR 761 and PHAR 764. Concurrent enrollment in PHAR 762

PHAR 767, PRE-APPE READINESS AND COMPLEX CASE ANALYSIS, 3 Credits

Confidence and competence needed for advanced practice settings are enhanced utilizing a mixture of benchmark assessment tools and small case discussions of complex patient cases. The focus is to assure readiness to integrate into inter-professional collaborative health care settings and serve diverse patient populations. Knowledge, skills, attitudes, and professional values are assessed and developed. Formative and summative feedback delivered through faculty, peer and self-evaluation help guide student preparation for advanced experiences and life-long learning. Graded P/N.

Recommended: PHAR 760 and PHAR 762 and PHAR 765 and PHAR 773

PHAR 768, ETHICAL AND LEGAL DECISION MAKING, 1 Credit

Student understanding of pharmacy law is assessed, and discussed in the context of pharmacists’ ability to properly respond when legal concepts may not align with ethical decision making in a health profession. Students will apply a framework for ethical decision making and identify personal strategies to maintain currency in pharmacy law and applied ethical decision making.

Recommended: PHAR 760 and PHAR 762 and PHAR 765 and PHAR 773

PHAR 770, ADVANCED PHARMACOKINETICS, 4 Credits

A physiologic approach to understanding advanced pharmacokinetic principles. Approved for use on a graduate program of study.

Recommended: PHAR 750

PHAR 773, EVIDENCE BASED MEDICINE III, 3 Credits

Covering the principles required for evidence-based medicine, including interpreting and applying results from clinical, humanistic, and economic research to medical decision-making.

Recommended: PHAR 726

PHAR 774, EVIDENCE BASED MEDICINE IV, 3 Credits

Covers a variety of topics related to drug policy and drug use management. Population-based strategies to improve drug use will be emphasized along with developing an evidence-based process for evaluating new drugs. A major course project, evaluating a new drug, will focus on application of principles taught in this and previous courses.

Recommended: PHAR 773

PHAR 776, PHARMA-CSI, 2 Credits

Application of PK, PD, and P'genomic concepts, principles, and equations in computer workshops to solve drug therapy misadventures. Approved for use on a graduate program of study.

Recommended: PHAR 770 and third-year standing in the PharmD program

PHAR 777, ACUTE MEDICAL EMERGENCIES, 2 Credits

Drug therapy management in the critically ill patient. Graded P/N.

Recommended: PHAR 762

PHAR 778, ADVANCED ADULT MEDICINE, 2 Credits

Adult medicine elective utilizes actual patient cases to enhance knowledge of pharmacy and the pharmacologic basis of therapeutics in the setting of adult medicine, emphasizing application or current guidelines and major clinical trials for commonly encountered disease states. Graded P/N.

Recommended: Third-year standing in PharmD program and PHAR 761 and PHAR 762 and PHAR 764 and PHAR 765
PHAR 780, COMMUNITY PHARMACY CLERKSHIP, 8 Credits
Supervised advanced professional education in ambulatory care pharmacy practice environment. Emphasis is placed on the application of direct and indirect pharmaceutical patient care and direct interactions with other health care professionals. Students will evaluate, assess and monitor pharmacotherapy of acute and chronic diseases in addition to providing drug information. Graded P/N.
Equivalent to: PHAR 785
This course is repeatable for 32 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 785, AMBULATORY PRIMARY CARE CLERKSHIP, 8 Credits
Supervised advanced professional education in ambulatory care pharmacy practice environment. Emphasis is placed on the application of direct and indirect pharmaceutical patient care and direct interactions with other health care professionals. Students will evaluate, assess and monitor pharmacotherapy of acute and chronic diseases in addition to providing drug information to patients and health care professionals. Graded P/N.
This course is repeatable for 32 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 780, COMMUNITY PHARMACY CLERKSHIP, 8 Credits
Supervised advanced professional education in ambulatory care pharmacy practice environment. Emphasis is placed on the application of direct and indirect pharmaceutical patient care and direct interactions with other health care professionals. Students will evaluate, assess and monitor pharmacotherapy of acute and chronic diseases in addition to providing drug information to patients and health care professionals. Graded P/N.
Equivalent to: PHAR 785
This course is repeatable for 32 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 785, AMBULATORY PRIMARY CARE CLERKSHIP, 8 Credits
Supervised advanced professional education in ambulatory care pharmacy practice environment. Emphasis is placed on the application of direct and indirect pharmaceutical patient care and direct interactions with other health care professionals. Students will evaluate, assess and monitor pharmacotherapy of acute and chronic diseases in addition to providing drug information to patients and health care professionals. Graded P/N.
This course is repeatable for 32 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 790, GENERAL INTERNAL MEDICINE CLERKSHIP, 8 Credits
Supervised advanced professional education located in internal medicine inpatient pharmacy practice environment. Emphasis is placed on the application of biomedical and pharmaceutical sciences to direct and indirect pharmaceutical patient care and direct interactions with other health care professionals. Students will evaluate, assess, and monitor pharmacotherapy involved in a wide variety of acute and chronic diseases. In addition, students will provide drug information to other health care professionals and patients. Graded P/N.
This course is repeatable for 32 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 792, HOSPITAL/HEALTH SYSTEMS PATIENT CARE CLERKSHIP, 8 Credits
Supervised advanced professional education located in various hospital or health care systems patient care-oriented settings. Emphasis is placed on application of pharmaceutical sciences and pharmacotherapy to patient care. Graded P/N.
This course is repeatable for 24 credits.
Recommended: Fourth-year standing in the PharmD program

PHAR 795, PATIENT CARE ELECTIVE CLERKSHIP, 8 Credits
Supervised advanced professional education located in various patient care-oriented settings. Emphasis is placed on the application of pharmaceutical sciences and pharmacotherapy to direct and indirect pharmaceutical care. Specialties include but are not limited to geriatrics, pediatrics, infectious disease, oncology, general patient care, nutrition support, nuclear pharmacy, home infusion, critical care, anticoagulation, pain management, etc. Graded P/N.
This course is repeatable for 24 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 797, ELECTIVE CLERKSHIP, 8 Credits
Supervised advanced professional education located in various pharmacy-oriented settings. Emphasis is placed on the application of pharmaceutical sciences and pharmacotherapy to a variety of environments involving pharmacy. Specialties include but are not limited to managed care, drug information, administration, pharmaceutical research, pharmaceutical industry, professional pharmacy organizations, etc. Graded P/N.
This course is repeatable for 24 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774

PHAR 798, PHARMACY HEALTH ADMINISTRATION, 8 Credits
Provides students the opportunity to integrate and apply leadership and business principles necessary to operate and manage a pharmacy business or department in a diverse organizational environment.
This course is repeatable for 16 credits.
Recommended: PHAR 760 and PHAR 763 and PHAR 766 and PHAR 772 and PHAR 774 and reading and understanding of the Advanced Experiential Manual

PHAR 799, SELECTED TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Philosophy (PHL)

PHL 121, *REASONING AND WRITING, 3 Credits
Develops critical thinking skills to increase clarity and effectiveness of student writing; uses writing experiences to teach critical thinking skills. Subjects include identifying and evaluating arguments, analyzing assumptions, justifying claims with reasons, avoiding confused or dishonest reasoning, applying common patterns of reasoning in everyday contexts, and writing cogent complex arguments. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Equivalent to: PHL 121H
Available via Ecampus
PHL 150, *GREAT IDEAS IN PHILOSOPHY, 3 Credits
Explores the assumptions and deeper meanings of familiar concepts and experiences. An introduction to some basic and famous ideas in Western thought. Topics may include truth, beauty, infinity, perception, freedom, pleasure, knowledge, mind and body, morality, justice, and political authority. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

PHL 160, *QUESTS FOR MEANING: WORLD RELIGIONS, 4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160H, REL 160, REL 160H
Available via Ecampus

PHL 160H, *QUESTS FOR MEANING: WORLD RELIGIONS, 4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSLISTED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, REL 160, REL 160H

PHL 170, *THE IDEA OF GOD, 4 Credits
Concepts and images of God and their connections to world-views, experience, science, gender, society, self-understanding, and religions. CROSSLISTED as PHL 170/REL 170. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: REL 170

PHL 199, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies.
Equivalent to: PHL 199H
This course is repeatable for 16 credits.

PHL 201, *INTRODUCTION TO PHILOSOPHY, 4 Credits
An in-depth introduction to the methods and ideas of Western philosophy, concentrating on such great figures as Socrates, Plato, Aristotle, Descartes, Kant and Nietzsche and such topics as the nature of reality, the existence of God, knowledge and doubt, the relation of consciousness to the world, free will and determinism, good and evil, and minds and machines. Philosophers and ideas covered will vary by the section. Written assignments are required. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Available via Ecampus

PHL 202, INTRODUCTION TO RELIGIOUS STUDIES, 4 Credits
An introduction to the academic study of religion. It examines the concepts of religion and the sacred, approaches to the study of religion, ubiquitous features of religious experience, including symbol, myth, ritual, and community, understandings of the human condition in diverse religious traditions, and ways religious communities address challenges of pluralism and secularization. CROSSLISTED as PHL 202/REL 202.
Equivalent to: REL 202
Available via Ecampus

PHL 203, *THE MEANING OF EXISTENCE, 4 Credits
Introduction to existentialism; explores different philosophical approaches to the significance of human life, meaning, and freedom. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

PHL 205, *ETHICS, 4 Credits
Introduction to ethical theory and to the evaluation of ethical issues in society such as sexual ethics and euthanasia. Includes the study of philosophical theories of moral responsibility and moral virtue, and the philosophical ideas behind ethics debates in society. Students are encouraged to develop their own positions on ethical issues through discussion projects and term papers. Lec/rec. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 205H
Available via Ecampus

PHL 205H, *ETHICS, 4 Credits
Introduction to ethical theory and to the evaluation of ethical issues in society such as sexual ethics and euthanasia. Includes the study of philosophical theories of moral responsibility and moral virtue, and the philosophical ideas behind ethics debates in society. Students are encouraged to develop their own positions on ethical issues through discussion projects and term papers. Lec/rec. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 205

PHL 206, *RELIGIOUS ETHICS AND MORAL PROBLEMS, 4 Credits
An examination of the practical ethics of the monotheistic religious traditions of the West–Judaism, Christianity, Islam–and their different approaches to concrete moral problems. Topics include sexuality and marriage, euthanasia, capital punishment, pacifism and just war, and environmentalism. CROSSLISTED as PHL 206/REL 206. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: REL 206
**PHL 207, *POLITICAL PHILOSOPHY, 4 Credits**
Introductory study of the philosophical justifications of political systems and philosophical theories about the rights and obligations of citizens and governments. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 207H
Available via Ecampus

**PHL 208, INTRODUCTION TO BUDDHIST TRADITIONS, 4 Credits**
Survey of the historical development of Buddhism in India and its spread throughout Asia and beyond by investigating the literature, rituals, history and social structure of the Buddhist traditions of Sri Lanka and Southeast Asia, Tibet and the Himalayan region, China, Taiwan, Korea, Japan, and finally its growth in the West. CROSSLISTED as PHL 208/REL 208. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: REL 208
Available via Ecampus

**PHL 209, *SELF AND SOCIETY, 4 Credits**
An introduction to social philosophy, addresses the interactions between the development of personal identity (self) and social structures, including social relations, institutions, norms and values. Includes issues in philosophical anthropology (what it means to be human), social theories of the self, and perspectives from feminist philosophy, post-colonial studies, and non-Western contributions in socio-philosophy. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

**PHL 210, *RELIGION IN THE UNITED STATES, 4 Credits**
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: HST 210, HST 210H, PHL 210H, REL 210
Available via Ecampus

**PHL 210H, *RELIGION IN THE UNITED STATES, 4 Credits**
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, REL 210, REL 210H

**PHL 213, *INTRODUCTION TO HINDU TRADITIONS, 4 Credits**
Survey of the historical development of Hinduism in India and the ‘Hindu Diaspora.’ Topics will include the Indus Valley civilization, the Vedic tradition, yoga, and Hindu renunciation, ‘Classical’ Hindu theism and devotion, Hindu philosophy and ritual, and modern and contemporary Hinduism. CROSSLISTED as PHL 213/REL 213. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: REL 213
Available via Ecampus

**PHL 214, *INTRODUCTION TO ISLAMIC TRADITIONS, 4 Credits**
Development of Islamic traditions in the Arab world and in the global context. Origins of Islam, the narrative of the Prophet Muhammad, the development of the Qur’an, and the central tenets of Islamic faith and practice. Transformation of Islam from a regional to a global tradition. CROSSLISTED as PHL 214/REL 214. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: REL 214
Available via Ecampus

**PHL 220, *WORLD-VIEWS AND VALUES IN THE BIBLE, 4 Credits**
A study of central portions of the Bible (in the Old Testament: Torah, prophets, psalms, and wisdom; in the New Testament: Jesus, gospels, and letters) from the perspective of the academic discipline of biblical scholarship, exploring the philosophical questions of the relationships between story, myth, thought, values, and understandings of life. CROSSLISTED as PHL 220/REL 220. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 220H, REL 220
Available via Ecampus

**PHL 234, *PHILOSOPHY OF HAPPINESS, 3 Credits**
Explores various philosophical and psychological approaches to happiness and how culturally specific ideas of happiness have shaped the social and cultural realities around the world. Explores the human need for happiness within cultures. Examines happiness through the writings of the greatest Eastern and Western philosophers. Analyzes research on happiness within positive psychology.
Attributes: CPWC – Core, Pers, West Culture

**PHL 251, *KNOWERS, KNOWING, AND THE KNOWN, 4 Credits**
An introduction to the major debates in Western philosophy concerning the nature of reality, and the ways we come to know about that reality. One example concerns debates about the problem of skepticism: Is it possible that humans could be completely mistaken about the way the world is? Another example concerns debates about human identity and free will. Beginning with historical figures such as Descartes and Hume, the course also provides an introduction to more contemporary thinkers.
(Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: PHL 251H
PHL 251H, *KNOWERS, KNOWING, AND THE KNOWN, 4 Credits
An introduction to the major debates in Western philosophy concerning the nature of reality, and the ways we come to know about that reality. One example concerns debates about the problem of skepticism: Is it possible that humans could be completely mistaken about the way the world is? Another example concerns debates about human identity and free will. Beginning with historical figures such as Descartes and Hume, the course also provides an introduction to more contemporary thinkers. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: PHL 251

PHL 275, *INTRODUCTION TO DISABILITY STUDIES, 4 Credits
Introduces core concepts and themes in the multidisciplinary field of disability studies. Analyzes disability as a product of discriminatory, oppressive, and inaccessible built environments and societies. Explores disability pride, culture, and community as alternatives to medical and charity models of disability. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PHL 275H
Available via Ecampus

PHL 275H, *INTRODUCTION TO DISABILITY STUDIES, 4 Credits
Introduces core concepts and themes in the multidisciplinary field of disability studies. Analyzes disability as a product of discriminatory, oppressive, and inaccessible built environments and societies. Explores disability pride, culture, and community as alternatives to medical and charity models of disability. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PHL 275

PHL 280, *ETHICS OF DIVERSITY, 4 Credits
Uses moral philosophy to examine difference-based discrimination and prejudice in the human community. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 280H

PHL 280H, *ETHICS OF DIVERSITY, 4 Credits
Uses moral philosophy to examine difference-based discrimination and prejudice in the human community. (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 280

PHL 295, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSTLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ENG 295, ENG 295H, PHL 295H, WGSS 295, WGSS 295H

PHL 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSTLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, ENG 295H, PHL 295, WGSS 295, WGSS 295H

PHL 299, SELECTED TOPICS, 1-16 Credits
This course is repeatable for 99 credits.
Equivalent to: PHL 299H

PHL 301, *HISTORY OF WESTERN PHILOSOPHY, 4 Credits
A study of the history of Western philosophy from the early Greeks into the twentieth century. Designed to give an appreciation and understanding of the Western philosophical tradition and the philosophical foundations of Western civilization. May be taken independently. PHL 301: Greek and Roman philosophy. PHL 302: The rise of modern philosophy through Hume. PHL 303: Kant and the nineteenth century. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: 3 credits of philosophy
Available via Ecampus

PHL 302, *HISTORY OF WESTERN PHILOSOPHY, 4 Credits
A study of the history of Western philosophy from the early Greeks into the twentieth century. Designed to give an appreciation and understanding of the Western philosophical tradition and the philosophical foundations of Western civilization. May be taken independently. PHL 301: Greek and Roman philosophy. PHL 302: The rise of modern philosophy through Hume. PHL 303: Kant and the nineteenth century. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: 3 credits of philosophy
PHL 303, *HISTORY OF WESTERN PHILOSOPHY, 4 Credits
A study of the history of Western philosophy from the early Greeks into the twentieth century. Designed to give an appreciation and understanding of the Western philosophical tradition and the philosophical foundations of Western civilization. May be taken independently. PHL 301: Greek and Roman philosophy. PHL 302: The rise of modern philosophy through Hume. PHL 303: Kant and the nineteenth century. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: 3 credits of philosophy

PHL 309, *SELF AND SOCIETY, 4 Credits
As introduction to social philosophy, addresses the interactions between the development of personal identity (self) and social structures, including social relations, institutions, norms and values. Includes issues in philosophical anthropology (what it means to be human), social theories of the self, and perspectives from feminist philosophy, post-colonial studies, and non-Western contributions in social philosophy. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Recommended: Sophomore standing

PHL 310, *CRITICS OF RELIGION, 4 Credits
An introduction to critiques of religion by Nietzsche, Freud, Marx, and other influential thinkers. Examines the nature, scope, and effects of criticisms that challenge the psychological, moral, political, and epistemological foundations of religious belief, practice, and institutions. CROSSLISTED as PHL 310/REL 310. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: REL 310

PHL 315, *GANDHI AND NONVIOLENCE, 4 Credits
An examination of the life and work of Mohandas K. Gandhi, the 20th century activist and author, and the theory and practice of nonviolence in his life and work. Emphasis will be placed upon Gandhi’s biographical narrative, the development of satyagraha, Gandhi’s nonviolent approach to social transformation, and post-Gandhian nonviolent movements. CROSSLISTED as PHL 315/REL 315. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PHL 315H, REL 315
Available via Ecampus

PHL 316, INTELLECTUAL ISSUES OF MEXICO AND MEXICAN AMERICANS, 4 Credits
The philosophical, social, cultural, and political reality of Mexican Americans and their historical roots in Mexico since the Spanish Conquest. Analysis of internal colonialism, racism, machismo, fatalism, alienation, cultural identity, as well as more contemporary including NAFTA, immigration, and U.S.-Mexican relations. CROSSLISTED as PHL 316/REL 316. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: REL 316

PHL 321, DEDUCTIVE LOGIC, 4 Credits
Development of formal language and deductive systems for first-order, quantificational logic. Emphasis on translation of ordinary English statements into formal language. Discussion of the contrast between semantic and syntactic treatment of logical concepts.
Recommended: Upper-division standing or PHL 101.

PHL 325, *SCIENTIFIC REASONING, 4 Credits
Introduction to and analysis of scientific reasoning. Emphasis on understanding and evaluation of theoretical hypotheses, causal and statistical models, and uses of scientific knowledge to make personal and public decisions. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: PHL 325H
Available via Ecampus

PHL 330, *TECHNOLOGY AND ETHICS, 3 Credits
Develops ethical reasoning skills crucial for future technical professionals. Explores philosophical questions that arise where technology, humans, and society interact, and thereby constructs a critical lens to analyze decision alternatives. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper division standing

PHL 342, CONTEMPORARY ETHICS, 4 Credits
A study of significant ethical developments and issues in contemporary society, including ethical principles and concepts behind social debates on such matters as sexual ethics, abortion, discrimination, the uses of animals in scientific research, and responsibilities of corporations. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: PHL 205

PHL 344, *PACIFISM, JUST WAR, AND TERRORISM, 4 Credits
An examination of the philosophical and theological issues pertaining to pacifism, justified war, and forms of terrorism in Islamic and Western traditions. Special attention is given to concepts of jihad, justifications of war, and restraint on conduct in war. CROSSLISTED as PHL 344/REL 344. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 344H, REL 344

PHL 345, *FIRST FREEDOM: RELIGIOUS LIBERTY AND INTOLERANCE, 4 Credits
An examination of the religious, philosophical, political, and historical issues regarding religious freedom, conscience, and disestablishment as enshrined in the First Amendment and as illustrated by historical and contemporary examples of religious intolerance in the United States. CROSSLISTED as PHL 345/REL 345. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: REL 345
**PHL 360, *PHILOSOPHY AND THE ARTS, 4 Credits***

Major philosophical theories about art and its meaning, from ancient to modern times. How philosophers have understood beauty, the imagination, art and knowledge, art and pleasure, art and emotion. Offered every other year. (H) (Bacc Core Course)

**Attributes:** CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

**Equivalent to:** PHL 360H

**Recommended:** 3 credits of philosophy or upper-division standing

Available via Ecampus

**PHL 360H, *PHILOSOPHY AND THE ARTS, 4 Credits***

Major philosophical theories about art and its meaning, from ancient to modern times. How philosophers have understood beauty, the imagination, art and knowledge, art and pleasure, art and emotion. Offered every other year. (H) (Bacc Core Course)

**Attributes:** CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core

**Equivalent to:** PHL 360

**Recommended:** 3 credits of philosophy or upper-division standing

**PHL 365, *LAW IN PHILOSOPHICAL PERSPECTIVE, 4 Credits***

A study of philosophical issues in the law through the examination of legal cases and major essays in jurisprudence. Special attention given to concepts of justice, responsibility, liberty, law, and legal ethics. Offered every other year. (H) (Bacc Core Course)

**Attributes:** CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core

**Recommended:** 3 credits of philosophy or upper-division standing

**PHL 371, *PHILOSOPHIES OF CHINA, 4 Credits***

A study of the traditional philosophies of China, including Confucianism, Taoism, Mohism, Legalism, and Buddhism. Not offered every year.

CROSSLISTED as PHL 371/REL 371. (NC) (Bacc Core Course)

**Attributes:** CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core

**Equivalent to:** PHL 371H, REL 371

**Recommended:** 3 credits of philosophy or upper-division standing.

Available via Ecampus

**PHL 371H, *PHILOSOPHIES OF CHINA, 4 Credits***

A study of the traditional philosophies of China, including Confucianism, Taoism, Mohism, Legalism, and Buddhism. Not offered every year.

CROSSLISTED as PHL 371/REL 371. (NC) (Bacc Core Course)

**Attributes:** CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core

**Equivalent to:** PHL 371, REL 371

**Recommended:** 3 credits of philosophy or upper-division standing

**PHL 390, MORAL THEORIES, 3 Credits***

Examines the evolution of moral philosophy from the beginning of Western, Greek-based philosophy through contemporary moral theory, and will include philosophical questions about moral philosophy generally, virtue ethics, deontology, utilitarianism, environmental ethics, animal rights, and feminism and ecofeminism.

**Prerequisite:** PHL 205 with D- or better

**PHL 399, SPECIAL TOPICS IN PHILOSOPHY, 1-4 Credits***

Examination of the work of a philosopher or of a specific philosophical problem; e.g., Wittgenstein, determinism, perception, philosophy of mind. May be repeated for credit when topic varies. Not offered every year.

**Equivalent to:** PHL 399

**This course is repeatable for 16 credits.**

**Recommended:** 3 credits of upper-division philosophy

**PHL 402, INDEPENDENT STUDY, 1-16 Credits***

**This course is repeatable for 16 credits.**

Available via Ecampus

**PHL 403, THESIS, 1-16 Credits***

**This course is repeatable for 16 credits.**

**PHL 405, READING AND CONFERENCE, 1-16 Credits***

**This course is repeatable for 16 credits.**

**Recommended:** Sophomore standing

**PHL 407, ^SEMINAR, 1-16 Credits***

(Writing Intensive Course)

**Attributes:** CWIC – Core, Skills, WIC

**Equivalent to:** PHL 407

**This course is repeatable for 16 credits.**

**Recommended:** Two upper-division philosophy courses and sophomore standing

**PHL 410, INTERNSHIP, 1-12 Credits***

**This course is repeatable for 16 credits.**
PHL 411, GREAT FIGURES IN PHILOSOPHY, 4 Credits
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: REL 411
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy and sophomore standing.

PHL 417, FEMINIST PHILOSOPHIES, 3 Credits
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: WGSS 417, WS 417
Recommended: 6 credits of philosophy or upper-division standing.

PHL 421, MATHEMATICAL LOGIC, 3 Credits
Rigorous definition of a formal logic and investigation of its characteristics. Emphasis on the distinction and relation between semantic and syntactic methods (model theory and proof theory) and on the meta-mathematical analysis of axiomatic theories. Not offered every year.
Recommended: PHL 321 or 6 credits of 400-level mathematics or computer science and sophomore standing.

PHL 430, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 430H, REL 430

PHL 430H, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530. (NC)
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 430, REL 430

PHL 431, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 431H, REL 431

PHL 431H, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Attributes: HNRS – Honors Course Designator
Equivalent to: PHL 431, REL 431

PHL 432, *YOGA AND TANTRIC TRADITIONS, 4 Credits
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: REL 432

PHL 433, *THEORY AND PRACTICE OF MODERN YOGA, 4 Credits
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: REL 433

PHL 434, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 434H, REL 434, REL 434H
PHL 434H, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: PHL 434, REL 434, REL 434H

PHL 436, PHILOSOPHY AND RELIGION, 3 Credits
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSLISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: REL 436
Recommended: 6 credits of philosophy and sophomore standing.

PHL 440, *ENVIRONMENTAL ETHICS, 3 Credits
Philosophical ideas about our ethical relationships with parts of the non-human world and future generations, with applications to current environmental issues. Includes a study of different conceptions of environmental ethics, philosophical problems in environmental ethics (such as the moral status of animals, plants, species, and ecosystems), the uses of environmental ethics by environmental groups, and selected contemporary global environmental issues such as global warming and loss of biodiversity. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 440H
Recommended: PHL 205 and PHL 342 and PHL 365 or 6 credits of philosophy and sophomore standing.
Available via Ecampus

PHL 440H, *ENVIRONMENTAL ETHICS, 3 Credits
Philosophical ideas about our ethical relationships with parts of the non-human world and future generations, with applications to current environmental issues. Includes a study of different conceptions of environmental ethics, philosophical problems in environmental ethics (such as the moral status of animals, plants, species, and ecosystems), the uses of environmental ethics by environmental groups, and selected contemporary global environmental issues such as global warming and loss of biodiversity. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 440
Recommended: PHL 205 and PHL 342 and PHL 365 or 6 credits of philosophy and sophomore standing
Available via Ecampus

PHL 443, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443H, REL 443, REL 443H
Recommended: One introductory-level science course and sophomore standing.
Available via Ecampus

PHL 443H, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course) (NC)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 443, REL 443, REL 443H
Recommended: One introductory-level science course and sophomore standing

PHL 444, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444H, REL 444, REL 444H
Available via Ecampus

PHL 444H, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. (H) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 444, REL 444, REL 444H
PHL 448, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: ES 448, REL 448

PHL 450, TOPICS, 1-16 Credits
Uses the IDEAS MATTER lectures as the focus for an exploration of ideas that make a difference in the world. Students read background materials, attend lectures, meet with the speakers, and write essays on the ideas they learn.
This course is repeatable for 16 credits.

PHL 451, KNOWLEDGE AND REALITY, 3 Credits
Examination of significant theories of knowledge, theories concerning the nature of reality, and their connections. Includes an analysis of important concepts and problems, such as perception, induction, belief, empiricism, rationalism, and skepticism. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: 6 credits of philosophy, sophomore standing.

PHL 455, DEATH AND DYING, 3 Credits
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSLISTED as PHL 455/REL 455 and PHL 555/REL 555.
Equivalent to: REL 455
Recommended: 6 credits of philosophy or sophomore standing
Available via Ecampus

PHL 456, *MINDS, BRAINS, AND MACHINES, 4 Credits
Past and present theories about consciousness, the relationship of mind and body, minds in human and non human animals, and the roots and implications of those theories. Includes historical foundations in philosophy (e.g., dualism, monism) and contemporary philosophical approaches. Contemporary issues emphasize computational models of thought, extended cognition and the future of personhood, intelligence and artificial intelligence (e.g., decision and agency in artificial intelligence), ethical issues of artificial intelligence (e.g., autonomous cars, autonomous weaponry, health monitoring and privacy).
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: PHL 251

PHL 461, ART AND MORALITY, 4 Credits
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: REL 461

PHL 470, PHILOSOPHY OF SCIENCE, 3 Credits
Examination of philosophical questions, classic and contemporary, about science and scientific knowledge. Scientific explanations, the structure of theories, the concept of a natural law, revolutions in science, influences of the sciences and philosophy on one another, science and values. Not offered every year. (H)
Attributes: LACH – Liberal Arts Humanities Core
Recommended: 6 credits of upper-division philosophy and sophomore standing

PHL 474, *PHILOSOPHY OF BIOLOGY, 4 Credits
An introduction to some of the conceptual challenges engendered by contemporary evolutionary biology, including the nature of fitness, natural selection, adaptations, and species; identifying organisms, traits, and the units of selection; the evidence required to support particular adaptive or historical hypotheses; and others. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Previous university-level coursework in either philosophy or the biological sciences

PHL 499, TOPICS IN PHILOSOPHY, 1-4 Credits
Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.
Equivalent to: PHL 499H
This course is repeatable for 16 credits.
Recommended: 6 credits of upper-division philosophy, sophomore standing.

PHL 499H, TOPICS IN PHILOSOPHY, 1-4 Credits
Examination of the work of a philosopher or of a specific problem; e.g., Wittgenstein, determinism, perception. May be repeated for credit when topic varies. Not offered every year.
Equivalent to: PHL 499H
This course is repeatable for 4 credits.
Recommended: 6 credits of upper-division philosophy, sophomore standing.

PHL 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

PHL 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

PHL 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

PHL 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
PHL 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Recommended: Two upper-division philosophy courses

PHL 510, INTERNSHIP, 1-12 Credits
This course is repeatable for 16 credits.

PHL 511, GREAT FIGURES IN PHILOSOPHY, 4 Credits
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511.
Equivalent to: REL 511
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy

PHL 517, FEMINIST PHILOSOPHIES, 3 Credits
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.
Equivalent to: WGSS 517, WS 517
Recommended: 6 credits of philosophy

PHL 525, PHILOSOPHICAL METHODS, 3 Credits
Examines diverse ways of approaching philosophical issues. Contains readings from different philosophical traditions. Develops understanding of the skills and conventions of philosophical argumentation.

PHL 530, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530.
Equivalent to: REL 530

PHL 531, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: REL 531

PHL 532, YOGA AND TANTRIC TRADITIONS, 4 Credits
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532.
Equivalent to: REL 532

PHL 533, THEORY AND PRACTICE OF MODERN YOGA, 4 Credits
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533.
Equivalent to: REL 533

PHL 534, SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Equivalent to: REL 534

PHL 536, PHILOSOPHY AND RELIGION, 3 Credits
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSLISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: REL 536
Recommended: 6 credits of philosophy

PHL 540, ENVIRONMENTAL ETHICS, 3 Credits
Philosophical ideas about our ethical relationships with parts of the non-human world and future generations, with applications to current environmental issues. Includes a study of different conceptions of environmental ethics, philosophical problems in environmental ethics (such as the moral status of animals, plants, species, and ecosystems), the uses of environmental ethics by environmental groups, and selected contemporary global environmental issues such as global warming and loss of biodiversity.
Recommended: PHL 205 and PHL 342 and PHL 365 or 6 credits of philosophy
Available via Ecampus

PHL 541, CLASSIC MORAL THEORIES, 3 Credits
Philosophical issues in ethics analyzed through the examination of such classical works in moral philosophy as Aristotle's Nichomachean ethics. Not offered every year.
Recommended: Either PHL 205 or PHL 342 or PHL 440 or one course in the history of philosophy.
PHL 542, CONTEMPORARY MORAL THEORIES, 3 Credits
Examines contemporary ethical theories through study of moral philosophy in the 20th century, including recent developments in such areas as environmental ethics and feminist/feminine ethics.
Recommended: At least two philosophy courses including at least one of PHL 205 or PHL 342 or PHL 541.

PHL 543, WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543.
Equivalent to: REL 543
Recommended: One introductory-level science course
Available via Ecampus

PHL 544, BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544.
Equivalent to: REL 544
Available via Ecampus

PHL 547, RESEARCH ETHICS, 3 Credits
An examination of the interrelationship between ethical values and scientific practice. Topics include professionalism in science; scientific integrity, misconduct, and whistleblowing; the ethics of authorship; conflicts of interest between academic science and commercial science, and social responsibilities in science.

PHL 548, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSLISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548.
Equivalent to: ES 548, REL 548

PHL 550, TOPICS, 1-16 Credits
Uses the IDEAS MATTER lectures as the focus for an exploration of ideas that make a difference in the world. Students read background materials, attend lectures, meet with the speakers, and write essays on the ideas they learn.
This course is repeatable for 16 credits.

PHL 551, KNOWLEDGE AND REALITY, 3 Credits
Examination of significant theories of knowledge, theories concerning the nature of reality, and their connections. Includes an analysis of important concepts and problems, such as perception, induction, belief, empiricism, rationalism, and skepticism. Not offered every year.
Recommended: 6 credits of philosophy

PHL 555, DEATH AND DYING, 3 Credits
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSLISTED as PHL 455/REL 455 and PHL 555/REL 555.
Equivalent to: REL 555
Recommended: 6 credits of philosophy

PHL 556, MINDS, BRAINS, AND MACHINES, 4 Credits
Past and present theories about consciousness, the relationship of mind and body, minds in human and non human animals, and the roots and implications of those theories. Includes historical foundations in philosophy (e.g., dualism, monism) and contemporary philosophical approaches. Contemporary issues emphasize computational models of thought, extended cognition and the future of personhood, intelligence and artificial intelligence (e.g., decision and agency in artificial intelligence), ethical issues of artificial intelligence (e.g., autonomous cars, autonomous weaponry, health monitoring and privacy).

PHL 561, ART AND MORALITY, 4 Credits
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: REL 561

PHL 570, PHILOSOPHY OF SCIENCE, 3 Credits
Examination of philosophical questions, classic and contemporary, about science and scientific knowledge. Scientific explanations, the structure of theories, the concept of a natural law, revolutions in science, influences of the sciences and philosophy on one another, science and values. Not offered every year.
Recommended: 6 credits of upper-division philosophy

PHL 574, PHILOSOPHY OF BIOLOGY, 4 Credits
An introduction to some of the conceptual challenges engendered by contemporary evolutionary biology, including the nature of fitness, natural selection, adaptations, and species; identifying organisms, traits, and the units of selection; the evidence required to support particular adaptive or historical hypotheses; and others.
Recommended: Previous university-level coursework in either philosophy or the biological sciences
PHL 599, TOPICS IN PHILOSOPHY, 1-4
Credits
Examination of the work of a philosopher or of a specific problem; e.g.,
Wittgenstein, determinism, perception. May be repeated for credit when
topic varies. Not offered every year.
Equivalent to: PHL 590
This course is repeatable for 16 credits.
Recommended: 6 credits of upper-division philosophy

Physical Activity Courses (PAC)

PAC 100, ADAPTED PHYSICAL ACTIVITY, 1
Credit
Individual workout for students with permanent or temporary physical
disabilities and for students enrolled in another PAC who sustain an
injury.
This course is repeatable for 11 credits.

PAC 102, AQUA AEROBICS, 1 Credit
Fitness class using a variety of movements in shallow and deep water,
mostly in a vertical position. Do not need swimming skills.
Equivalent to: PAC 101
This course is repeatable for 11 credits.

PAC 103, DEEP WATER FITNESS, 1 Credit
Fitness class using a variety of movements in a deep water pool, mostly
in a vertical position. Should be comfortable in deep water.
This course is repeatable for 11 credits.

PAC 104, ARCHERY, 1 Credit
Basic mechanics and introduction to archery. Exposure to varying
archery techniques and equipment, including recurve and compound bow
shooting.
This course is repeatable for 11 credits.

PAC 105, CPR/FIRST AID, 1 Credit
Introduces cardiac and first aid emergency response procedures.
Emphasis placed on safe response, chain of survival, quality CPR
(adults, children, infants and team responses), use of an AED, medical
emergencies, injury emergencies and environmental emergencies.
Students successfully completing the American Heart Association
certification requirements will be issued a Heartsaver First Aid and BLS
(Basic Life Support) for the Healthcare Provider certification at the end of
the course.
This course is repeatable for 11 credits.

PAC 106, BEAVER FIT, 1 Credit
A conditioning class for those of all fitness levels that focuses on
mobility, functional movement, and high-intensity interval training as a
means to improve cardiovascular fitness, muscular fitness, and flexibility.
This course is repeatable for 11 credits.

PAC 108, STEP AEROBICS, 1 Credit
Low-impact, high intensity workout adjustable to all fitness levels utilizing
adjustable height benches. Strengthening and flexibility exercises
included.
This course is repeatable for 11 credits.

PAC 110, INTRODUCTION TO WHITE WATER KAYAKING, 2 Credits
Students will learn fundamentals of white water kayaking in sheltered
water based on the internationally recognized British Canoe (BC) teaching
and skills certification system. Emphasis is on activity and basic skills.
See class schedule for the location, website, and class schedule specific
to the course. This course runs for six class sessions of 3 hours (Fridays),
and one mandatory Saturday (5-hour) session. The entire class lasts for
six weeks.
This course is repeatable for 11 credits.

PAC 111, INTRODUCTION TO CANOEING, 2 Credits
Students will learn fundamentals of canoeing in sheltered water based
on the internationally recognized British Canoe (BC) teaching and skills
certification system. Emphasis is on activity and basic skills. See class
schedule for the location, website, and class schedule specific to the
course. This course runs for six class sessions of 3 hours (Fridays), and
one mandatory Saturday (5-hour) session. The entire class lasts for six
weeks.
This course is repeatable for 11 credits.

PAC 112, LEARNING KAYAK ROLLING BASICS, 2 Credits
Students learn fundamentals of rolling a kayak in an indoor pool-based
environment. Emphasis is on activity and basic skills. See class schedule
for the location, website, and class schedule specific to the course.
This course is repeatable for 10 credits.

PAC 113, BADMINTON I, 1 Credit
Singles and doubles skills, practice, rules, strategies and play.
This course is repeatable for 11 credits.

PAC 114, BADMINTON II, 1 Credit
Intermediate skill development in badminton.
This course is repeatable for 11 credits.
Recommended: Fundamental skills, rules and strategy of singles and
doubles play.

PAC 115, OUTDOOR LIVING SKILLS, 2 Credits
Educates and introduces students on how to travel safely in the
backcountry through proper preparation, risk awareness, Leave No Trace
ethics, terrain recognition, navigation, and camp craft. Classroom and
field (lab) experience. Includes one mandatory weekend overnight outing.
CROSSTIFIED as PAC 115/TRAL 115.
Equivalent to: TRAL 115
This course is repeatable for 4 credits.

PAC 116, BASKETBALL I (MEN/WOMEN), 1 Credit
Fundamental basketball skills, drills, rules, strategies, and practice. Game
play appropriate for the skill level.
This course is repeatable for 11 credits.
PAC 117, BASKETBALL COMPETITIVE, 1 Credit
Team play, individual and team skills developed and refined, competitive round robin tournaments.
This course is repeatable for 11 credits.
Recommended: Prior competitive experience.

PAC 118, LABORATORY FOR OUTDOOR LIVING SKILLS, 1 Credit
Practical field application of concepts learned in PAC 115/TRAL 115, Outdoor Living Skills. Field (lab) experience includes one mandatory weekend overnight. Introduces how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. CROSSLISTED as PAC 118/TRAL 118.
Corequisites: PAC 115
Equivalent to: TRAL 118
This course is repeatable for 2 credits.

PAC 120, MOUNTAIN BIKING, 1 Credit
Touring trails in Corvallis area; riding techniques, safety, maintenance, environmental concerns. Required equipment: mountain bike, tire repair kit, helmet.
This course is repeatable for 11 credits.

PAC 121, BILLIARDS, 1 Credit
Skills, technique, strategy, game knowledge as introduction to billiards (pool), a 'cue' sport; rules and gaming for variations of pocket billiards; practice and class tournament play.
This course is repeatable for 11 credits.

PAC 122, BODY SCULPTING, 1 Credit
Fitness workout set to music using lighter resistance training aids such as dumbbells, resistance tubing, bands, and aerobic steps.
This course is repeatable for 11 credits.

PAC 123, BOWLING I, 1 Credit
Fundamentals of the game including etiquette, spot bowling, natural hook and straight ball delivery, scoring, handicap computation, spare pickup, and error correction. Additional fee; equipment supplied.
This course is repeatable for 11 credits.

PAC 124, BOWLING II, 1 Credit
Review and refinement of basic fundamentals of bowling. Emphasis on spot bowling, adjusting for lane conditions, choices in equipment, league play, and mental training.
This course is repeatable for 11 credits.
Recommended: Bowling I or the ability to bowl above a 110 average

PAC 126, CARDIO KICKBOXING I, 1 Credit
High intensity group workout set to motivational music and combining skills and techniques from boxing, kickboxing, and other martial arts.
This course is repeatable for 11 credits.
Available via Ecampus

PAC 129, CARDIO COMBO, 1 Credit
Combination of aerobic training classes that use music such as Cardio Kickboxing, Body Sculpture, Sports Conditioning, and/or Step Aerobics. Actual curriculum may vary with instructors.
This course is repeatable for 11 credits.

PAC 130, CONDITIONING, 1 Credit
Total body approach to fitness, cardiorespiratory conditioning, muscular strength and endurance; flexibility emphasized. May follow a specific training format, e.g., ROTC section follows Army conditioning format.
This course is repeatable for 11 credits.
Available via Ecampus

PAC 131, SNOWBOARD-SKI CONDITIONING, 1 Credit
Strength, muscular endurance, flexibility, balance, and cardiovascular exercises specific to downhill skiing and snowboarding; designed to help prepare students for participation in these sports.
This course is repeatable for 11 credits.

PAC 133, DANCE: TAP I, 1 Credit
Individual and group dance with specialized shoes; basic step technique and vocabulary; warm up exercises progressing into rhythmic combinations performed to music; culminates in full routine to music.
This course is repeatable for 11 credits.

PAC 136, DANCE: BALLET III, 1 Credit
Intermediate and advanced ballet technique, comprehensive exploration of the discipline. Additional fee for accompanist.
This course is repeatable for 11 credits.
Recommended: Ballet II, previous comparable experience

PAC 138, DANCE: BALLET I, 1 Credit
Introduction to jazz dance, technique, isolations, and combinations. Different jazz styles are explored. No previous dance experience is necessary.
This course is repeatable for 11 credits.
Recommended: Jazz I or comparable experience.
PAC 145, DANCE: MODERN I, 1 Credit
Introduction to modern dance movement fundamentals. Technique, stretch, strength, and alignment are included, as well as an appreciation for movement expression. No previous dance experience needed. Additional fee for accompanist.
Equivalent to: PAC 145H
This course is repeatable for 11 credits.

PAC 145H, DANCE: MODERN I, 1 Credit
Introduction to modern dance movement fundamentals. Technique, stretch, strength, and alignment are included, as well as an appreciation for movement expression. No previous dance experience needed. Additional fee for accompanist.
Attributes: HNRS – Honors Course Designator
Equivalent to: PAC 145
This course is repeatable for 11 credits.

PAC 146, DANCE: MODERN II, 1 Credit
An intermediate level of modern dance technique and movement expression. Additional fee for accompanist.
Recommended: Modern Dance I or comparable experience.

PAC 148, DANCE: CUBAN SALSA I (LEAD/FOLLOW), 1 Credit
Foundations of Cuban Salsa (Casino) as well as Rueda de Casino with focus on musical development and fundamentals of leading and following in partner dance.
This course is repeatable for 11 credits.

PAC 149, DANCE: CUBAN SALSA II, 1 Credit
Higher concepts of Cuban Salsa (Casino) as well as Rueda de Casino, with focus on musical development and fundamentals of leading and following in partner dance.
This course is repeatable for 11 credits.
Recommended: Cuban Salsa I or comparable experience.

PAC 151, COUNTRY LINE DANCE, 1 Credit
Non-partner dance routines in country western style; musical interpretation, footwork, and sequencing of 20 different routines.
This course is repeatable for 11 credits.

PAC 152, DANCE: SALSA I, 1 Credit
Steps and rhythmic accent of Salsa and Merengue style; fundamentals of leading and following; basic moves and combinations. No prior experience needed.
This course is repeatable for 11 credits.

PAC 153, DANCE: SALSA II, 1 Credit
Intermediate moves, rhythmic accents and step combinations of Salsa; development of leading and following.
Prerequisite: PAC 152 with C- or better
This course is repeatable for 11 credits.

PAC 154, DANCE: COUNTRY WESTERN I (LEAD/FOLLOW), 1 Credit
Focus on traditional Country Western Swing patterns. Emphasizes fundamentals of leading and following. Also including introduction to waltz, two-step, cowboy cha-cha and 10-step polka.
Equivalent to: PAC 144
This course is repeatable for 11 credits.

PAC 155, DANCE: COUNTRY WESTERN II (LEAD/FOLLOW), 1 Credit
Build on CW I with advanced waltz, two-step, and cha-cha patterns; introduces schottische and East Coast swing.
This course is repeatable for 11 credits.
Recommended: Country Western I or comparable experience

PAC 156, DANCE: COUNTRY WESTERN III (LEAD/FOLLOW), 1 Credit
Advanced two-step patterns and styling with a focus on musical interpretation; development of leading and following.
Prerequisite: PAC 155 with C- or better
This course is repeatable for 11 credits.

PAC 158, DANCE: BEGINNING SWING (LEAD/FOLLOW), 1 Credit
Introduction to single time, double time, and triple time (jitterbug) swing; variations for each style, covering most swing music rhythms. Emphasizes fundamentals of leading and following.
This course is repeatable for 11 credits.

PAC 159, DANCE: BALLROOM I (LEAD/FOLLOW), 1 Credit
Posture and alignment, fundamentals of leading and following, basic steps and variations for waltz, foxtrot, swing, tango, and cha-cha.
Equivalent to: PAC 134
This course is repeatable for 11 credits.

PAC 160, DANCE: BALLROOM II (LEAD/FOLLOW), 1 Credit
Additional steps and patterns of popular ballroom dances.
Prerequisite: PAC 159 with C- or better
Equivalent to: PAC 135
This course is repeatable for 11 credits.

PAC 161, DANCE: BALLROOM III (LEAD/FOLLOW), 1 Credit
Styling; additional dances: rhumba, silver fox trot, and Viennese waltz; advanced dance figures for tango and cha-cha.
Prerequisite: PAC 160 with C- or better
This course is repeatable for 11 credits.

PAC 163, DANCE: LATIN I, 1 Credit
Latin dances including cha-cha, mambo, salsa, rhumba, merengue, bolero, salsa, and paso doble. Emphasis on proper styling and technical execution of each dance; effective leading and following techniques.
Prerequisite: PAC 159 with C- or better
This course is repeatable for 11 credits.
PAC 165, DANCE: WEST COAST SWING (LEAD/FOLLOW), 1 Credit
Focus on style, technique and many different step patterns of the west coast swing dance.
Prerequisite: PAC 154 with C- or better or PAC 159 with C- or better
Equivalent to: PAC 162
This course is repeatable for 11 credits.

PAC 166, BALLROOM 2 STEP, HUSTLE (LEAD/FOLLOW), 1 Credit
Smooth, romantic social dance that is neither ballroom, Latin, nor swing but a rhythm dance identified as club-style, danced to contemporary ballad-like music. Hustle is fast-paced, swing-related dance to disco beat. Class encompasses intermediate step patterns, technique and styling, stationary, traveling patterns.
Prerequisite: PAC 160 with C- or better
This course is repeatable for 11 credits.

PAC 167, DANCE: LINDY HOP, 1 Credit
Ballroom dance style based on original eight-count swing dance evolved in Harlem ballrooms during the late 1920s; styling emphasized.
Prerequisite: PAC 158 with C- or better or PAC 159 with C- or better
This course is repeatable for 11 credits.

PAC 168, DANCE: LINDY HOP II (LEAD/FOLLOW), 1 Credit
Intermediate patterns, syncopations, play techniques, and styling with a focus on musical interpretation in the Lindy Hop style; development of leading and following.
Prerequisite: PAC 167 with C- or better
This course is repeatable for 11 credits.

PAC 169, COOL SHOES, BALLROOM PERFORMANCE, 2 Credits
Learn and perform ballroom dance routines on an intermediate level. This course is a full year commitment ending with a dance concert in the spring.
This course is repeatable for 12 credits.

PAC 170, DANCE: WEST COAST SWING II (LEAD/FOLLOW), 1 Credit
Intermediate patterns, syncopations, play techniques, and styling with a focus on musical interpretation; development of leading and following.
Prerequisite: PAC 165 with C- or better
This course is repeatable for 11 credits.

PAC 173, INTERMEDIATE ROCK CLIMBING, 2 Credits
Introduces variety of basic skills, gear and systems that will allow them to safely participate in a single pitch rock climbing environment based on internationally recognized American Mountain Guides Association (AMGA) teaching and skills certification systems. Presents students with various technical skills that will serve as a foundation for future land-based outdoor disciplines. Students will be introduced to gear, such as software (ropes, webbing, harnesses) and hardware (carabiners, friction devices); skills, such as knots, belaying, rappelling, lead climbing; and systems such as anchors and basic rescue techniques. CROSSLISTED as PAC 173/TRAL 173.
Equivalent to: TRAL 173
This course is repeatable for 10 credits.

PAC 174, FLAG FOOTBALL, 1 Credit
Skill instruction and practice; drills; strategies, game play of America football; emphasis on teamwork and sportsmanship in a competitive but non-threatening or stressful environment.
This course is repeatable for 11 credits.

PAC 178, FLY FISHING I, 1 Credit
Casting and fishing techniques, lure making, equipment selection, terminology, and regulation for fishing in Oregon’s marine environment.
This course is repeatable for 11 credits.

PAC 179, FLY FISHING II, 1 Credit
Advanced fly casting and fly fishing techniques for trout, fly-tying, equipment selection, basic aquatic organism identification, terminology, and regulations for fishing in Oregon’s freshwater environment.
This course is repeatable for 11 credits.

PAC 180, STEELHEAD FISHING, 1 Credit
Casting and fishing techniques, lure making, equipment selection, terminology, and regulations for fishing in Oregon’s marine environment for steelhead.
This course is repeatable for 11 credits.

PAC 182, DISC GOLF I, 1 Credit
Techniques for throwing discs; equipment, knowledge, etiquette, and rules associated with playing a disc golf course; experience playing practice and official disc golf courses.
This course is repeatable for 11 credits.

PAC 184, GOLF I, 1 Credit
Basic fundamental principles in all phases of golf; rules, terminology, etiquette, safety and scoring. Equipment provided.
This course is repeatable for 11 credits.

PAC 185, GOLF II, 1 Credit
Individual practice and course play; skill refinement as continuation of Golf I. Equipment available. Course play expected, additional fee.
Recommended: Golf I
This course is repeatable for 11 credits.

PAC 186, GOLF III, 1 Credit
Advanced skills, knowledge involved in competitive play. Course play expected, additional fee.
Recommended: Handicap below 15 or Golf II; competitive play.
PAC 188, GYMNASTICS, 1 Credit
Fundamental techniques on vault, bars, beam, and floor.
This course is repeatable for 11 credits.

PAC 189, GYMNASTICS II, 1 Credit
Build upon previous gymnastics experiences or classes; floor exercise, uneven parallel bars, vault, mini-trampoline and beam apparatus are available.
This course is repeatable for 11 credits.
Recommended: Gymnastics I or competitive experience.

PAC 190, KARATE, 1 Credit
Instruction in traditional Japanese karate basic striking and blocking techniques, kata (forms), philosophy, conditioning, and etiquette. Self-defense applications are also emphasized.
Equivalent to: PAC 183
This course is repeatable for 11 credits.

PAC 191, BRAZILIAN JIU-JITSU, 1 Credit
Basic level grappling self-defense techniques and applying them in sparring sessions along with understanding the core principles which make this martial arts system effective. An introduction to the history of Brazilian Jiu-jitsu along with proper gym etiquette, vocabulary, and culture.
This course is repeatable for 11 credits.

PAC 192, JUDO I, 1 Credit
Skill instruction in landing, throwing and grappling for this style of martial arts; etiquette for practice and competition; basic knowledge of vocabulary, rules and scoring.
This course is repeatable for 11 credits.
Recommended: Judo I or comparable experience

PAC 193, JUDO II, 1 Credit
Intermediate skill instruction in landing, throwing, pins, chokes in Kodokan Judo style; principles of Seiryoku-Zenyou and Jita-Kyoei designed to help individuals become better members of society through training body and mind; instruction for competition knowledge and skills. Judo etiquette for practice and competition expected.
This course is repeatable for 11 credits.
Recommended: Judo I or comparable experience

PAC 194, PILATES, 1 Credit
Non-impact, invigorating approach to physical conditioning and mind/body awareness; helps develop core body strength, improve posture and balance, and increase muscle endurance, tone, flexibility.
This course is repeatable for 11 credits.
Available via Ecampus

PAC 195, PILATES II, 1 Credit
Progression of Joseph Pilates mat exercises; emphasis on intermediate and advanced levels; application of Pilates’ principles to new exercises; use of props; application of principles to daily living.
This course is repeatable for 11 credits.
Recommended: PAC 194, Pilates.

PAC 197, PICKLEBALL, 1 Credit
Fast-paced, self-officiated net game with similarities to tennis, badminton, table tennis, and racquetball. Course covers rules, strategies, technique, preparation for play, and includes extensive active practice and play; played with two, three, or four people.
This course is repeatable for 11 credits.

PAC 199, SPECIAL TOPICS, 1-3 Credits
Experimental or new classes.
This course is repeatable for 11 credits.

PAC 201, RELAXATION, 1 Credit
Introduction to techniques that promote relaxation of the nervous system. These may include, but are not limited to: meditation, imagery, yoga postures, and self-massage. Students will be encouraged to reflect on how life choices influence their nervous system.
This course is repeatable for 11 credits.
Available via Ecampus

PAC 202, MEDITATION, 1 Credit
Examine the application of building simple awareness, how to manage thoughts in productive and compassionate ways, and how to transfer these skills into healthy relationships. Explore strategies for managing mental and physical difficulties including anxiety, pain, and overall stress through experiential learning and personal sharing of experiences.
This course is repeatable for 11 credits.

PAC 203, OBSERVATION & ASSISTANT INSTRUCTIONAL PRACTICE IN PHYS ACT, 1 Credit
Observe and begin physical activity instruction within dance, yoga, sports, fitness, aquatics, martial arts, or cross-disciplinary physical activities. Used in several of the leadership training program curriculums.
This course is repeatable for 11 credits.

PAC 204, LEAD INSTRUCTIONAL PRACTICE IN PHYSICAL ACTIVITY, 1 Credit
Lead physical activity curriculum within dance, yoga, fitness, aquatics, sports, martial arts, or cross-disciplinary physical activities. Gain experience implementing already designed lesson plans, assessment, and leading peers through basic exercise, while supervised by university and program personnel.
Prerequisite: PAC 203 with C- or better
This course is repeatable for 11 credits.

PAC 205, ROWING, CREW I (MEN/WOMEN), 1 Credit
Introduction to the sport of rowing; designed for the novice (beginner). Includes basic technique and terminology, related water safety, and development of strength, endurance, and flexibility.
This course is repeatable for 11 credits.
Recommended: Swim Test (1).

PAC 208, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

PAC 212, RUNNING, JOGGING, 1 Credit
Cardiorespiratory fitness with scenic running routes; training, nutrition, and physiology. Beginning and intermediate level.
This course is repeatable for 11 credits.
Available via Ecampus
PAC 213, RUNNING: 10K TRAINING, 1 Credit
Intermediate to advanced conditioning and training program for road racing.
This course is repeatable for 11 credits.
Recommended: Prior training in running.

PAC 214, HALF MARATHON TRAINING, 2 Credits
Progressive training combining walking, running, core strengthening, interval techniques in preparation for a 13.1 mile (1/2 marathon) event. Open to all levels; may choose to walk, walk/run, or run.
This course is repeatable for 11 credits.

PAC 215, RUGBY, TOUCH, 1 Credit
Basic skills of open field rugby; emphasis on ball handling and attacking strategy; rules and history; game play.
This course is repeatable for 11 credits.

PAC 217, SELF DEFENSE, 1 Credit
Nonviolent self-defense. Develop self-confidence and skills for assault situations. Conditioning and practical skills. Men and women, all levels.
This course is repeatable for 11 credits.

PAC 224, TELEMARK SKIING, 1 Credit
Winter sport that is a cross between cross country and downhill skiing. Requires telemark equipment where the heel is unattached. Class accommodates all levels and practices on the downhill slopes. Additional fee covers bus transportation, lessons, and lift ticket. Rental of equipment is not included.
This course is repeatable for 11 credits.

PAC 225, DOWNHILL SKIING, 1 Credit
Travel to area facilities, 1-1/2 hour lesson followed by open practice, students grouped according to skill level: beginner, intermediate, advanced, racer. Special fee covers bus transportation, lessons, and lifts. Additional fee for rentals.
This course is repeatable for 11 credits.

PAC 227, SNOWBOARDING, 1 Credit
Travel to area facilities, 1 1/2 hour lesson followed by open practice, students grouped according to skill level: beginner, intermediate, advanced. Special fee covers bus transportation, lessons, and lifts. Additional fee for rentals.
This course is repeatable for 11 credits.

PAC 229, SOCCER I, 1 Credit
Basic skills of controlling the ball; conditioning; lead-up games; team play.
Equivalent to: PAC 211
This course is repeatable for 11 credits.

PAC 230, SOCCER II, 1 Credit
Review of basic skills of offense and defense in controlled game play; concepts of team position and play, pressure and attack.
This course is repeatable for 11 credits.
Recommended: Previous soccer experience.

PAC 231, SOCCER III, 1 Credit
High level soccer skills; team play and transition concepts; set plays and alignments for both offense and defense.
This course is repeatable for 11 credits.
Recommended: Soccer II or competitive playing experience.

PAC 233, SOCCER: INDOOR, 1 Credit
Skill instruction and development; strategies and rules for indoor play; game play in indoor gymnasium.
This course is repeatable for 11 credits.

PAC 236, SOFTBALL, WHIFFLEBALL, 1 Credit
Skills, rules, strategies, practice, and game play of the popular outdoor slow pitch game. Modified softball with whiffleball when play is indoors.
This course is repeatable for 11 credits.

PAC 242, SCUBA: OPEN WATER, 2 Credits
Lecture includes physiology, water environment, equipment, and techniques for fundamental SCUBA diving. Laboratory includes practice in techniques, skills, and equipment usage; sessions held in pool and open water. Successful completion leads to PADI certification. Additional fee covers most equipment, texts, certification, and open water dive trip.
This course is repeatable for 11 credits.
Recommended: 200-yard swim, 10-minute survival skills and good health

PAC 243, SCUBA: ADVANCED OPEN WATER, 1 Credit
Classroom lecture and laboratory in hypothermics, natural navigation, dive physiology, compass navigation, night and limited visibility procedures, boat diving, search and salvage techniques, deep diving procedures, health for diving, and an introduction to dive rescue. Successful completion of this course can lead to PADI certification. Additional fee.
Equivalent to: PAC 228
This course is repeatable for 11 credits.
Recommended: PAC 242 or PADI Open Water Certification

PAC 244, SCUBA: RESCUE DIVER, 1 Credit
Techniques, skills, knowledge, and practice in self-rescue and rescue of others in underwater emergencies; may lead to PADI certification; lecture and pool laboratory; open water dive required. Additional fee.
This course is repeatable for 11 credits.
Recommended: PAC 243 or PADI Advanced Open Water Certification

PAC 245, SCUBA SPECIAL TOPICS, 1 Credit
Specialized courses requiring previous certification in SCUBA. Check the current schedule of classes for more information and prerequisites. Possible classes: altitude diver, night diver, search and recovery, deep diver, underwater navigation, equipment specialist. Additional fee.
This course is repeatable for 11 credits.
Recommended: PAC 242 or PADI Open Water Certification
PAC 246, DIVEMASTER TRAINING, 2 Credits
Entry level PADI certification course for preparation to instruct SCUBA; lecture, lab, open water experience; must take two consecutive terms. This course is repeatable for 11 credits.
Recommended: PAC 244. PADI Advanced, Advanced Plus, Rescue Diver certifications and 20 logged dives

PAC 247, SURFING, 1 Credit
Knowledge and fundamental skills of this aquatic sport including history, terminology, safety precautions, the ocean environment, and equipment. Additional fee. This course is repeatable for 11 credits.

PAC 248, SWIM: NON-SWIMMER, 1 Credit
Skills for self-rescue; fundamental skills in swimming and safety. Designed for people with a fear of water. Recommended S/U grading. Equivalent to: PAC 219
This course is repeatable for 11 credits.

PAC 249, LIFEGUARD TRAINING, 1 Credit
Trains participants in the skills required to become a lifeguard. Emphasis on professional behavior, water rescues, safe response, quality CPR (adults, children, infants, and team responses), use of an AED and first aid. Students successfully completing the American Red Cross certification requirements will be issued a lifeguarding certification at the end of the course. This course is repeatable for 11 credits.
Recommended: Basic swimming skills

PAC 250, SWIM I, 1 Credit
Swimming concepts, survival and breathing techniques, front crawl and elementary backstroke as minimum instruction. This course is repeatable for 11 credits.
Recommended: Basic swimming skills: float, tread water, bobbing

PAC 252, SWIM II, 1 Credit
Fitness swimming, swimming strokes and skills. Equivalent to: PAC 221
This course is repeatable for 11 credits.
Recommended: Swim I or the ability to front crawl continuously for 75yards

PAC 253, SWIM TRAINING WORKOUT, 1 Credit
Competitive skills and strokes; emphasis on training. This course is repeatable for 11 credits.
Recommended: Ability to do interval training.

PAC 254, COMPETITIVE SWIMMING, 1 Credit
Prepares students for competitive swimming and emphasizes lifetime aquatic fitness; interval swim workouts designed for speed and endurance; instruction on legal techniques of strokes and turns; culminates in intra-class swim meet; 2,000-3,000 yards/day. This course is repeatable for 11 credits.
Recommended: Swim II or previous interval training experience up to 400 yard distances

PAC 256, TAIJI, TAI CHI I, 1 Credit
Introduction to ancient Chinese 'internal martial art' based upon concepts of Yin and Yang; detailed slow and relaxed form movements provide benefits to body, mind, and spirit. This course is repeatable for 11 credits.

PAC 257, TAIJI, TAI CHI II, 1 Credit
Continuation of study of the Yang-style Taiji form; more in-depth exploration of underlying principles and push-hands exercises. This course is repeatable for 11 credits.

PAC 260, TENNIS I, 1 Credit
Introduction to fundamental strokes, singles and doubles play, scoring, and basic concepts in tennis. Equivalent to: PAC 234
This course is repeatable for 11 credits.

PAC 261, TENNIS II, 1 Credit
Review and refinement of fundamental strokes; volley, lob, return of serve; introduction to singles and doubles strategy. Equivalent to: PAC 235
This course is repeatable for 11 credits.
Recommended: Tennis I or competitive tennis experience

PAC 262, TENNIS III, 1 Credit
Focus on ground stroke, serve consistency; approach shots and overheads; tactics for net and baseline play. This course is repeatable for 11 credits.
Recommended: Tennis II

PAC 265, TUMBLING I, 1 Credit
Technical instruction, progressions, and practice in basic, intermediate, and advanced tumbling skills; emphasis on safety and fitness concepts; floor and mini-trampoline skills; no apparatus instruction. This course is repeatable for 11 credits.
Recommended: Tumbling I or prior experience.

PAC 266, TUMBLING II, 1 Credit
Technical instruction, progressions, safety, and practice building upon skills taught in PAC 265, Tumbling I. This course is repeatable for 11 credits.
Recommended: Tumbling I or prior experience.

PAC 268, TRIATHLON TRAINING, 2 Credits
Training in swimming, running, and bicycling to prepare for triathlon participation. Strategies, transitioning technique, and weight training information; training plan formation; event planning; culminates in class or community event. This course is repeatable for 11 credits.
Recommended: Experience in at least one of the three activities.

PAC 271, ULTIMATE FRISBEE, 1 Credit
Fundamentals for the beginning and intermediate player; individual skill development, rules, game play, and strategy. This course is repeatable for 11 credits.

PAC 273, VOLLEYBALL I, 1 Credit
Fundamental volleyball skills, drills, rules, strategies, and practice. Game play appropriate for skill level. This course is repeatable for 11 credits.
PAC 274, VOLLEYBALL II, 1 Credit
Fundamental skills and knowledge refined; intermediate skills developed, competitive play.
This course is repeatable for 11 credits.
Recommended: Volleyball I and good fundamental skills.

PAC 275, VOLLEYBALL III, 1 Credit
Skill refinement and development; intense, highly competitive drills and game situations, doubles through sixes play.
This course is repeatable for 11 credits.
Recommended: Volleyball II or varsity-level experience

PAC 278, FITNESS WALKING, 1 Credit
Establishment of personal fitness programs through walking with emphasis on technique and aerobic components.
This course is repeatable for 11 credits.

PAC 282, WATER POLO, 1 Credit
Team game, played in deep water; instruction in skills, drills, strategies, techniques; game play; knowledge of rules and terminology.
This course is repeatable for 11 credits.
Recommended: Swim I skills.

PAC 286, WEIGHT TRAINING: CIRCUITS, 1 Credit
Fast-paced fitness class using stations of resistance training exercises. Designed to improve cardiovascular fitness and muscular endurance more than strength.
This course is repeatable for 11 credits.

PAC 287, WEIGHT TRAINING I, 1 Credit
Exercise techniques in both free and fixed resistance training equipment; safety procedures, terminology, and principles of exercise.
This course is repeatable for 11 credits.

PAC 288, WEIGHT TRAINING II, 1 Credit
Intermediate level of weight training in free and fixed weights.
Prerequisite: PAC 287 with C+ or better
This course is repeatable for 11 credits.

PAC 292, WRESTLING, 1 Credit
Collegiate wrestling fall and winter terms; freestyle and Greco wrestling spring term. All levels.
This course is repeatable for 11 credits.

PAC 293, INTERDISCIPLINARY YOGA, 1 Credit
Basic yoga poses (asanas) using specific techniques and sequences to promote flexibility, strength, relaxation, and a sense of well-being will be used. Integrative concepts between yoga and our daily life will be examined as well as yoga in relationship to other forms of physical movement.
Equivalent to: PAC 293H
This course is repeatable for 11 credits.

PAC 293H, INTERDISCIPLINARY YOGA, 1 Credit
Basic yoga poses (asanas) using specific techniques and sequences to promote flexibility, strength, relaxation, and a sense of well-being will be used. Integrative concepts between yoga and our daily life will be examined as well as yoga in relationship to other forms of physical movement.
Attributes: HNRS – Honors Course Designator
Equivalent to: PAC 293
This course is repeatable for 11 credits.

PAC 294, YOGA I, 1 Credit
Principles and practice of basic yoga postures, techniques of posture alignment, yogi breathing styles and their impact on the body and mind. Students will be exposed to a variety of forms of yoga, as well as basic yoga philosophy.
This course is repeatable for 11 credits.
Available via Ecampus

PAC 295, YOGA II, 1 Credit
Building off Yoga I, this is an intermediate level course meant to develop a deeper understanding of yoga practice.
Equivalent to: PAC 256
This course is repeatable for 11 credits.
Recommended: Yoga I or previous yoga experience.
Available via Ecampus

PAC 296, VINYASA YOGA, 1 Credit
Dynamic flow that connects movement and breath encouraging meditation in motion. May include sustained yoga postures.
Equivalent to: PAC 257
This course is repeatable for 11 credits.
Recommended: Yoga I or previous yoga experience

PAC 297, YOGATHON, 1 Credit
Expands on knowledge and skills learned in Yoga I or Fitness Yoga through three to five class sessions, each 3-6 hours; longer sessions provide students with an intensive mental and physical experience centering on the concepts of yoga; includes introductory relaxation and meditation skills.
This course is repeatable for 11 credits.
Recommended: PAC 294 and PAC 295 and PAC 296 and (Yoga I or Fitness Yoga)

PAC 298, RESTORATIVE YOGA, 1 Credit
An emphasis on floor postures, supported postures, and longer holds that cultivate a relationship with ease. Techniques will be used to help students facilitate greater personal awareness. Students will use self reflection practices for personal well-being.
This course is repeatable for 11 credits.

PAC 299, SPECIAL TOPICS, 1-3 Credits
Advanced information, skills, practice, and application; experimental and new classes. May have additional fee.
This course is repeatable for 11 credits.
Recommended: Intermediate to advanced skills in an activity area
PAC 300, ALI: HIKING LOCAL TRAILS, 1 Credit
Covers the fundamentals of hiking as a recreational activity and an outdoor travel skill. Content will cover local trails, place history, hiking techniques, clothing and equipment selection, elemental first aid and safety concerns, leave-no-trace principles, and map basics. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 301, ALI: CHALLENGE COURSE EXPERIENCE, 1 Credit
Emphasis on gaining practical experience and understanding of various components that occur in challenge course activities/programs; group dynamic mental and physical challenges; cooperative games and initiatives that promote communication, problem solving skills and leadership; Low and High challenge course activities that promote self-confidence and agility. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 302, ALI: CHALLENGE COURSE PRACTICES AND FACILITATION, 1 Credit
Covers the set up and facilitation of various challenge course low and high course elements as they pertain to ALI's Challenge Course programming. Students will learn facilitation skills, risk management concepts, operational procedures, and technical rescue skills. A passing grade in this course will result in a certificate of completion from the OSU ALI Challenge Course. PAC courses may not be used to fulfill upper-division requirements.
Prerequisite: PAC 301 with C- or better
Recommended: Climbing wall instructor, efficient climbers toolbox, self-rescue
This course is repeatable for 11 credits.

PAC 303, ALI: CAMP CRAFT, 1 Credit
Provides basic front-country camping skills such as packing, trip planning, how to dress for different climates/weather, storm-proofing, knife and axe techniques and safety, stove and kitchen operations, and fire building. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 304, ALI: BACKPACKING, 1 Credit
Hiking and camping while carrying all gear; tent set-up, camp site selection, operation of single-burner stoves, loading a backpack, water infiltration, navigation, proper hiking technique, energy conservation; leave-no-trace principles in every aspect of the trip and class; includes classroom instruction and required overnight trip. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 307, ALI: RAFTING, 1 Credit
An introduction to white water rafting. Students will learn the fundamentals of safe rafting, trip planning and become familiar with the gear associated with rafting. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 308, ALI: CANOEING, 1 Credit
Designed as an introduction to canoeing. Students learn the fundamentals of safe canoeing, trip planning and become familiar with the gear associated with rafting. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 309, ALI: KAYAKING I, 1 Credit
Focuses on developing technical kayaking skills in flat water and moving water up to Class I. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 311, ALI: STAND UP PADDLEBOARD, 1 Credit
Covers the curriculum for level 1 and 2 American Canoe Association standup paddle board skill courses. Skills include equipment, environmental factors, techniques, preparation and planning, emergency management, and environmental ethics. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 312, ALI: BOULDERING, 1 Credit
Introduction to the sport of bouldering, a subset of rock climbing using an indoor climbing facility; emphasis on safety, spotting, climbing movement, training techniques and improvement; provides activities that promote muscular strength and endurance, flexibility, and cardiovascular endurance. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 313, ALI: CANYONEERING, 1 Credit
Students will learn the fundamentals of canyoneering, including efficient hiking techniques, safe anchoring, belaying and rappelling techniques, and environmental mitigation skills. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 314, ALI: ROCK CLIMBING I, 1 Credit
Physical conditioning for, and instruction in, the skills and techniques of rock climbing; environmental impact issues; held at on-campus indoor climbing center. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 315, ALI: ROCK CLIMBING II, 1 Credit
Focuses on developing technical climbing skills related to lead climbing and anchor construction. Includes a one-day outdoor experience. PAC courses may not be used to fulfill upper-division requirements.
Prerequisite: PAC 315 with C- or better
This course is repeatable for 11 credits.

PAC 316, ALI: ROCK CLIMBING III, 1 Credit
Focuses on developing technical climbing skills in an outdoor setting. Includes a weekend long outdoor experience and cover skills ranging from building anchors using natural protection, to advanced outdoor movement skills. PAC courses may not be used to fulfill upper-division requirements.
Prerequisite: PAC 315 with C- or better and PAC 316 [C-]
This course is repeatable for 11 credits.
Recommended: Intermediate to advanced skills in an activity area
PAC 319, ALI: TECHNICAL RAPPELLING, 1 Credit
Students will learn, practice and hone their skills in the art of technical rappelling. Introduces many different styles, techniques and equipment used for rappelling in a variety of situations. Throughout the course, students will be provided with simple to advanced challenges to overcome. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.

PAC 320, ALI: MOUNTAINEERING I, 1 Credit
Snow climbing techniques, anchoring, belaying and rappelling techniques, snow camping/living skills, and wilderness ethics; classroom instruction and required overnight alpine trip. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.

PAC 321, ALI: MOUNTAINEERING II, 1 Credit
Building on skills learned in Mountaineering I; rope team/glacier travel experience, fundamentals of crevasse rescue, advanced snow climbing techniques, safe anchoring, belaying and rappelling techniques, snow camping/living skills, and wilderness ethics. PAC courses may not be used to fulfill upper-division requirements. Prerequisite: PAC 320 with C- or better This course is repeatable for 11 credits.

PAC 322, ALI: ICE CLIMBING, 1 Credit
Students will learn the fundamentals of ice climbing, including efficient ice climbing techniques, safe anchoring, belaying and rappelling techniques and wilderness ethics. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.

PAC 323, ALI: MOUNTAIN RESCUE BASICS, 1 Credit
Focuses on developing technical skills in a mountain rescue system. PAC courses may not be used to fulfill upper-division requirements. Prerequisite: PAC 320 with D- or better This course is repeatable for 11 credits.

PAC 324, ALI: WHITE WATER RESCUE, 1 Credit
Provides an introduction to white water rescue; students learn the fundamentals of white water rescue, scene management, and the necessary gear to perform rescues. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.

PAC 325, ALI: WILDERNESS FIRST AID, 1 Credit
Fundamentals of emergency care in a non-urban environment including anatomy, physiology, injury assessment, short-term care, small-group rescues; backcountry emphasis with long-term care and evacuation complications. PAC courses may not be used to fulfill upper-division requirements. Equivalent to: PAC 325H This course is repeatable for 11 credits.

PAC 325H, ALI: WILDERNESS FIRST AID, 1 Credit
Fundamentals of emergency care in a non-urban environment including anatomy, physiology, injury assessment, short-term care, small-group rescues; backcountry emphasis with long-term care and evacuation complications. PAC courses may not be used to fulfill upper-division requirements. Attributes: HNRS – Honors Course Designator Equivalent to: PAC 325 This course is repeatable for 11 credits.

PAC 326, ALI: BUSH CRAFT, 1 Credit
Basic wilderness living techniques, knowledge and skills needed for a student to be ethical and efficient, and have the ability to survive in the outdoors. Special emphasis is placed on building shelters, water purification, navigation, awareness, fire, self-sufficiency and caring for groups in the wilderness. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.

PAC 327, ALI: ROCK GUIDE SCHOOL, 1 Credit
Serves as an opportunity to learn the skills for being a rock guide for the ALI. With five days of training and practice in the field at two climbing sites in Oregon, it serves to help students understand the unique challenges of instructing climbing in the outdoor environment. This course may end with Sport Climbing Instructor certification through the Professional Climbing Instructors of America. PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits. Recommended: Efficient climbers toolbox, self-rescue, climbing wall instructor—lead certification

PAC 328, ALI: RAFT GUIDE SCHOOL, 1 Credit
Provides students the skills and guided practice time needed to become competent paddle raft guides. It is a nine-day course that focuses on the development of water reading, raft maneuvering, risk management, and whitewater rescue skills needed by raft guides. Successful completion of the course will result in a certificate of completion from the American Canoe Association (ACA). PAC courses may not be used to fulfill upper-division requirements. This course is repeatable for 11 credits.
PAC 329, ALI: WILDERNESS FIRST RESPONDER, 2 Credits
Fundamentals of emergency care in a non-urban environment, including physiology, injury assessment, short-term care, anatomy, and small-group rescues. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

PAC 330, ALI: SNOW TRAVEL AND CAMPING, 1 Credit
An introduction to traveling in the backcountry in adverse weather conditions that often accompany winter. Topics covered include cross country touring, snow shoeing, winter camping techniques, and winter safety considerations including introducing avalanche safety. PAC courses may not be used to fulfill upper-division requirements.

PAC 332, ALI: AVALANCHE AWARENESS, 1 Credit
Focuses on what causes avalanches, how to safely travel in avalanche terrain, and resources to pursue in understanding the avalanche risk where you are traveling. PAC courses may not be used to fulfill upper-division requirements.
This course is repeatable for 11 credits.

Physical Therapy/Therapist (PT)

PT 700, PROFESSIONALISM AND INTERPROFESSIONAL PRACTICE, 2 Credits
Introduction to the role of the professional in physical therapy practice. Topics of application include communication, professional behavior and abilities, ethics, legal issues, and responsibility for professional development.

PT 711, ANALYTICAL ANATOMY AND IMAGING, 4 Credits
Detailed kinesiologic analysis of appendicular, spine, head, neck, and face muscles. Lecture, clinical demonstration, and practical experiences.

PT 712, NEUROANATOMY AND NEUROSCIENCE, 5 Credits
Organized approach to structures in the brain, spinal cord and peripheral nervous systems. Detailed analysis of Neurophysiologic mechanisms underlying normal and abnormal motor sensory function.

PT 713, MUSCULOSKELETAL ANATOMY, 6 Credits
Musculoskeletal anatomy, innervation, blood supply, and function: intensive study of the head, neck, trunk, and limbs.

PT 716, CULTURAL COMPETENCE IN PHYSICAL THERAPY, 2 Credits
An exploration of how cultural competence is a critical core component of professional practice in physical therapy and should be considered as a part of the best practice in providing physical therapy care.

PT 717, GERIATRICS IN PHYSICAL THERAPY, 2 Credits
An overview of the Physical and Psycho-Behavior aspects of aging in adulthood. An introduction to usual and pathological changes and treatment issues relevant to older patients.

PT 718, PSYCHOSOCIAL ASPECTS OF DISABILITY, 2 Credits
A study of behavior, social structures and beliefs, and interaction patterns to support the scientific basis of the effective interactions of physical therapists with patients.

PT 719, PHYSICAL THERAPY IN RURAL COMMUNITIES, 2 Credits
An overview of major issues in the rural health care system and the environment in which physical therapists, as rural health clinicians, must function. Provides students with an understanding of the healthcare delivery system in rural America with a concentration on the diverse populations of the Northwest region of the United States.

PT 720, MOTOR DEVELOPMENT, 3 Credits
Examination of normal development of gross motor, fine motor, language, cognition, psychosocial, and play skills across the lifespan from in utero to young adulthood.

PT 721, MOTOR CONTROL AND LEARNING ACROSS THE LIFE SPAN, 4 Credits
Introduction to sensorimotor systems, overview of current perspectives in motor control and learning from fetus through late adulthood, and clinical tests of motor proficiency.

PT 722, PREVENTION WELLNESS AND POPULATION HEALTH, 3 Credits
A study of the development of wellness plans for individuals or families in the community. Students will learn to assess family health care needs, seek out community resources, and educate community members on specific issues related to their own health and well-being.

PT 730, APPLIED PHYSIOLOGY, 3 Credits
Selected subjects in cellular and systems physiology. Emphasis on molecular and cellular aspects of neuromuscular function, also renal and endocrine physiology.

PT 731, CLINICAL EXERCISE PHYSIOLOGY, 4 Credits
Adaptation of the human body to exercise and the use of exercise to modify human function.

PT 740, THERAPEUTIC EXERCISE I, 3 Credits
Theoretical principles for evaluation of exercise need and prescription of exercise programs. Emphasis on approaches for patients with musculoskeletal deficits.
PT 741, THERAPEUTIC EXERCISE II, 3 Credits
Examination of needs analysis and prescription of exercise programs for special patient populations and assessment of current community trends in exercise and wellness.

PT 743, BUSINESS AND ADMINISTRATION IN PHYSICAL THERAPY, 3 Credits
Examination on the factors affecting patients entry into and progression through the healthcare system, including the effect of current financial, legal and regulatory policies that affect the patient, the patient/professional relationship, and the practice of physical therapy. Provides an overview of primary business disciplines including market research and strategy, marketing, finance, operations, and management.

PT 745, BASICS OF PATIENT MANAGEMENT, 1.6 Credit
Development of basic decision-making skills, professional behaviors and impairment assessment in patients with musculoskeletal, neurologic and/or cardiopulmonary dysfunction. This course is repeatable for 6 credits.

PT 746, DISORDERS OF THE MUSCULOSKELETAL SYSTEM, 3 Credits
Regional description of pathology and pathophysiological mechanisms of disorders of bone, connective tissue, and joints.

PT 748, THERAPEUTIC MODALITIES, 3 Credits
An introduction to the management of pain and dysfunction using thermal, electrical and mechanical modalities used by Physical Therapists in general practice.

PT 750, CLINICAL BIOMECHANICS & GAIT, 5 Credits
Introduction to the principles of biomechanics as they apply to physical therapy practice. Emphasis on joint structure and function and tissue mechanics. Introduction to both normal and pathological gait including examination of joint kinematics, kinetics, and muscle activity.

PT 752, PROSTHETICS AND ORTHOTICS, 3 Credits
The examination of pathological gait of patients using prosthetic and orthotic devices. The course emphasizes types of orthotic and prosthetic devices, assessments, reassessment and corrections of gait deviations using therapeutic interventions geared toward functional interventions, patient/family education, exercises, and balance and coordination techniques.

PT 760, PHARMACOLOGY, 2 Credits
The study of prescription and/or over-the-counter medications used in the management of a variety of patient conditions encountered during physical therapy management.

PT 761, RESEARCH METHODS AND EVIDENCE BASED PRACTICE, 2 Credits
Introduction to evidence based practice, scientific methods, and clinical research methodologies.

PT 780, DIFFERENTIAL DIAGNOSIS, 4 Credits
Consideration of principles of differential diagnosis with emphasis on mastering this skill.

PT 791, MANAGEMENT OF CARDIOPULMONARY DYSFUNCTION, 2 Credits
Physical therapy evaluation and intervention in the care of patients with circulatory, cardiac, or pulmonary dysfunction.

Physics (PH)

PH 104, *DESCRIPTIVE ASTRONOMY, 4 Credits
Historical and cultural context of discoveries concerning planets and stars and their motions. Topics include the solar system, the constellations, birth and death of stars, pulsars and black holes. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 104H

PH 104H, *DESCRIPTIVE ASTRONOMY, 4 Credits
Historical and cultural context of discoveries concerning planets and stars and their motions. Topics include the solar system, the constellations, birth and death of stars, pulsars and black holes. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course
Designator
Equivalent to: PH 104

PH 106, *PERSPECTIVES IN PHYSICS, 4 Credits
A descriptive and non-mathematical study of the development of physical concepts and their historical and philosophical context. The emphasis is on the origin, meaning, significance, and limitations of these concepts and their role in the evolution of current understanding of the universe. Concepts to be covered include Copernican astronomy, Newtonian mechanics, energy, electricity and magnetism, relativity, and quantum theory. Intended primarily for non-science students. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
PH 111, *INQUIRING INTO PHYSICAL PHENOMENA, 4 Credits
Development of conceptual understandings through investigation of everyday phenomena. Emphasis is on questioning, predicting, exploring, observing, discussing, and writing in physical science contexts. Students document their initial thinking, record their evolving understandings, and write reflections upon how their thinking changed and what fostered their learning. Lec/lab. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science

PH 198, FIRST-YEAR ORIENTATION, 1 Credit
Introduction to the Physics Department including educational, research, and career opportunities. Recommended for all freshman and transfer physics majors, but open to all students interested in learning about opportunities in Physics.

PH 199, SPECIAL STUDIES, 1-16 Credits
One-credit sections are graded pass/no pass. This course is repeatable for 99 credits.

PH 201, *GENERAL PHYSICS, 5 Credits
Introductory survey course covering a broad spectrum of classical and modern physics with applications. Topics include dynamics, vibrations and waves, electricity and magnetism, optics, and modern physics. Laboratory and recitation sections accompany the lectures. Mathematical preparation should include college algebra and trigonometry. Lec/lab/rec. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Recommended to: PH 201H

PH 202, *GENERAL PHYSICS, 5 Credits
Introductory survey course covering broad spectrum of classical and modern physics with applications. Topics include dynamics, vibrations and waves, electricity and magnetism, optics, and modern physics. Laboratory and recitation sections accompany the lectures. Mathematical preparation should include college algebra and trigonometry. Lec/lab/rec. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Recommended to: PH 202H

PH 203, *GENERAL PHYSICS, 5 Credits
Introductory survey course covering broad spectrum of classical and modern physics with applications. Topics include dynamics, vibrations and waves, electricity and magnetism, optics, and modern physics. Laboratory and recitation sections accompany the lectures. Mathematical preparation should include college algebra and trigonometry. Lec/lab/rec. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Recommended to: PH 203H

PH 205, *SOLAR SYSTEM ASTRONOMY, 4 Credits
History, laws, and tools of astronomy. Composition, motion, and origin of the sun, planets, moons, asteroids, and comets. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. The courses in the astronomy sequence (PH 205, PH 206, PH 207) can be taken in any order. Lec/lab. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

PH 206, *STARS AND STELLAR EVOLUTION, 4 Credits
Properties of stars, star formation, evolution, and death; supernovae, pulsars, and black holes. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. The courses in the astronomy sequence (PH 205, PH 206, PH 207) can be taken in any order. Lec/lab. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

PH 207, *GALAXIES, COSMOLOGY, LIFE IN THE UNIVERSE, 4 Credits
Nature and content of galaxies, properties of quasars, and the cosmic background radiation. Emphasis on the Big-Bang model and its features. An accompanying laboratory is used for demonstrations, experiments, and projects, as well as for outdoor observations. The courses in the astronomy sequence (PH 205, PH 206, PH 207) can be taken in any order. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

PH 211, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Recommended to: PH 211H

PH 211H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Baccalaureate Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 211
Recommended to: MTH 251 and concurrent enrollment in MTH 252 and a PH 221 recitation section
PH 212, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Prerequisite: PH 211 with D- or better or PH 211H with D- or better
Equivalent to: PH 212H, PH 212H
Recommended: MTH 252 and concurrent enrollment in PH 222 and MTH 254

PH 212H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Prerequisite: PH 211 with D- or better or PH 211H with D- or better
Equivalent to: PH 212
Recommended: MTH 252 and concurrent enrollment in PH 222 and MTH 254

PH 213, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Equivalent to: PH 213H
Recommended: MTH 254 and (PH 212 or PH 212H). Concurrent enrollment in a recitation section is strongly recommended.

PH 213H, *GENERAL PHYSICS WITH CALCULUS, 4 Credits
A comprehensive introductory survey course intended primarily for students in the sciences and engineering. Topics include mechanics, wave motion, thermal physics, electromagnetism, and optics. Elementary calculus is used. Laboratory work accompanies the lectures. Lec/lab/rec. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science; HNRS – Honors Course Designator
Equivalent to: PH 213
Recommended: MTH 254 and (PH 212 or PH 212H). Concurrent enrollment in a recitation section is strongly recommended.

PH 221, RECITATION FOR PHYSICS 211, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Prerequisite: PH 211 (may be taken concurrently) with D- or better or PH 211H (may be taken concurrently) with D- or better
Equivalent to: PH 221H

PH 221H, RECITATION FOR PHYSICS 211, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 211 (may be taken concurrently) with D- or better or PH 211H (may be taken concurrently) with D- or better
Equivalent to: PH 221

PH 222, RECITATION FOR PHYSICS 212, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Graded P/N.
Prerequisite: PH 212 (may be taken concurrently) with D- or better or PH 212H (may be taken concurrently) with D- or better
Equivalent to: PH 222H

PH 222H, RECITATION FOR PHYSICS 212, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 212 (may be taken concurrently) with D- or better or PH 212H (may be taken concurrently) with D- or better
Equivalent to: PH 222
Recommended: Concurrent enrollment in PH 212 or PH 212H

PH 223, RECITATION FOR PHYSICS 213, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Prerequisite: PH 213 (may be taken concurrently) with D- or better or PH 213H (may be taken concurrently) with D- or better
Equivalent to: PH 223H

PH 223H, RECITATION FOR PHYSICS 213, 1 Credit
One-hour weekly session for the development of problem-solving skills in calculus-based general physics. Lec/rec. Graded P/N.
Attributes: HNRS – Honors Course Designator
Prerequisite: PH 213 (may be taken concurrently) with D- or better or PH 213H (may be taken concurrently) with D- or better
Equivalent to: PH 223
Recommended: Concurrent enrollment in PH 213
PH 265, SCIENTIFIC COMPUTING, 3 Credits
Basic computational tools and techniques for courses in science and engineering. Project approach to problem solving using symbolic and compiled languages with visualization. Basic computer literacy assumed. 
Equivalent to: CS 265
Recommended: Concurrent enrollment in MTH 251

PH 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PH 313, *ENERGY ALTERNATIVES, 3 Credits
Exploration of the challenges and opportunities posed by dwindling resources; physical and technological basis of our current energy alternatives; new or controversial technologies such as nuclear or solar power; overview of resource availability, patterns of energy consumption, and current governmental policies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: PH 313H
Recommended: Upper-division standing and 12 credits of introductory science.
Available via Ecampus

PH 313H, *ENERGY ALTERNATIVES, 3 Credits
Exploration of the challenges and opportunities posed by dwindling resources; physical and technological basis of our current energy alternatives; new or controversial technologies such as nuclear or solar power; overview of resource availability, patterns of energy consumption, and current governmental policies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: PH 313
Recommended: Upper-division standing and 12 credits of introductory science.

PH 315, PHYSICS OF CONTEMPORARY CHALLENGES, 3 Credits
An introduction to thermal and quantum physics in the context of contemporary challenges faced by our society, such as power generation, energy efficiency, and global warming.
Recommended: PH 211

PH 317, *EXPERIMENTAL PHYSICS, 3 Credits
Conducting experiments, understanding equipment, modeling physical phenomena, analyzing and presenting data, sources of variation and uncertainty. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PH 213 with C- or better and PH 315 [C-] and PH 335 [C-]

PH 317X, EXPERIMENTAL PHYSICS, 3 Credits
Conducting experiments, understanding equipment, modeling physical phenomena, analyzing and presenting data, data-driven conclusions and inferences, statistical analysis
Prerequisite: PH 213 with C- or better and PH 315 [C-] and PH 335 [C-]

PH 331, *SOUND, HEARING, AND MUSIC, 3 Credits
Basic course in the physics, technology, and societal implications of sound. Intended for students in nontechnical majors. Topics include wave motion, hearing and the perception of sound, noise pollution, music and musical instruments, architectural acoustics, and sound recording and reproduction. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and one year of university science

PH 332, *LIGHT, VISION, AND COLOR, 3 Credits
Basic physics of light, optical instruments (lenses, telescopes, microscopes), the eye and visual perception, colors, photography, environmental lighting, lasers and holography. For nontechnical majors. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: Upper-division standing and one year of university science

PH 335, TECHNIQUES OF THEORETICAL MECHANICS, 3 Credits
Newtonian, Lagrangian, and Hamiltonian classical mechanics. Special relativity with relativistic mechanics.
Recommended: PH 212 and MTH 254

PH 356, COMPUTATIONAL PHYSICS LAB, 1 Credit
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisite: PH 213 with C- or better
Equivalent to: PH 365X
Recommended: Concurrent enrollment in Paradigms

PH 366, COMPUTATIONAL PHYSICS LAB, 1 Credit
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisite: PH 213 with C- or better
Recommended: Concurrent enrollment in Paradigms

PH 367, COMPUTATIONAL PHYSICS LAB, 1 Credit
A project-driven laboratory experience in computational physics. Includes the use of basic mathematical and numerical techniques in computer calculations leading to solutions for typical physical problems. Topics to be covered will coordinate with the Paradigms in Physics course sequence.
Prerequisite: PH 213 with C- or better
Recommended: Concurrent enrollment in Paradigms
PH 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: PH 399H
This course is repeatable for 16 credits.

PH 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PH 399
This course is repeatable for 16 credits.

PH 401, RESEARCH, 1-16 Credits
A research project under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration. This course is repeatable for 16 credits.

PH 403, \textsuperscript{J}THESIS, 1-16 Credits
A research project leading to a thesis under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.

PH 405, READING AND CONFERENCE, 1-16 Credits
An independent study project under the supervision of a faculty member, whose approval must be arranged by the student in advance of registration.

PH 407, SEMINAR, 1-16 Credits
Departmental seminars or colloquium. Graded P/N.
Equivalent to: PH 407H
This course is repeatable for 16 credits.

PH 407H, SEMINAR, 1-16 Credits
Departmental seminars or colloquium.
Attributes: HNRS – Honors Course Designator
Equivalent to: PH 407
This course is repeatable for 16 credits.

PH 409, PHYSICS TEACHING PRACTICUM, 1-6 Credits
Physics practicum experience for students assisting in Physics courses. Includes training in course content and development of instructional materials. Admission is by application. See the department office in Weniger 301 for details. This course is repeatable for 6 credits.

PH 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

PH 411, ELECTRONICS, 3 Credits
Covers how to build and analyze basic circuits. Topics include passive dc and ac circuits including filters, complex impedance, Fourier analysis, operational amplifiers, semiconductor diodes, and transistors.
Recommended: PH 213

PH 415, COMPUTER INTERFACING AND INSTRUMENTATION, 3 Credits
Applications of computers as scientific instruments, with emphasis on hardware and instrumentation, online data acquisition, and computer control of experiments.
Recommended: Upper-division and PH 412/PH 512 or equivalent background in electronics

PH 422, PARADIGMS IN PHYSICS: STATIC FIELDS, 3 Credits
Theory of static electric, magnetic, and gravitational potentials and fields using the techniques of vector calculus in three dimensions.
Equivalent to: PH 322
Recommended: PH 213 and MTH 255

PH 423, PARADIGMS IN PHYSICS: ENERGY AND ENTROPY, 3 Credits
Thermodynamics and canonical statistical mechanics.
Equivalent to: PH 323
Recommended: PH 213

PH 424, PARADIGMS IN PHYSICS: OSCILLATIONS AND WAVES, 3 Credits
Dynamics of mechanical and electrical oscillation using Fourier series and integrals; time and frequency representations for driven damped oscillators, resonance; one-dimensional waves in classical mechanics and electromagnetism; normal modes.
Recommended: PH 213 and PH 411 and MTH 256

PH 425, PARADIGMS IN PHYSICS: QUANTUM FUNDAMENTALS, 3 Credits
Introduction to quantum mechanics through Stern-Gerlach spin measurements. Probability, eigenvalues, operators, measurement, state reduction, Dirac notation, matrix mechanics, time evolution. Quantum behavior of a one-dimensional well.
Recommended: PH 213 and concurrent enrollment in MTH 341

PH 426, PARADIGMS IN PHYSICS: CENTRAL FORCES, 3 Credits
Gravitational and electrostatic forces; angular momentum and spherical harmonics, separation of variables in classical and quantum mechanics, hydrogen atom.
Recommended: PH 213 and PH 422 and PH 425 and concurrent enrollment in PH 335

PH 427, PARADIGMS IN PHYSICS: PERIODIC SYSTEMS, 3 Credits
Quantum waves in position and momentum space; Bloch waves in one-dimensional periodic systems, and the reciprocal lattice; coupled harmonic oscillators; phonons.
Recommended: PH 424 and PH 425 and concurrent enrollment in PH 315

PH 431, CAPSTONES IN PHYSICS: ELECTROMAGNETISM, 3 Credits
Static electric and magnetic fields in matter, electrodynamics, Maxwell equations, electromagnetic waves, wave guides, dipole radiation.
Recommended: (PH 424 or 524) and (PH 426 or PH 526)

</table>
PH 541, CAPSTONES IN PHYSICS: THERMAL AND STATISTICAL PHYSICS, 3 Credits
Entropy and quantum mechanics; canonical Gibbs probability; ideal gas; thermal radiation; Einstein and Debye lattices; grand canonical Gibbs probability; ideal Fermi and Bose gases; chemical reactions and phase transformations.
Recommended: (PH 423 or PH 523) and (PH 451 or PH 551)

PH 551, CAPSTONES IN PHYSICS: QUANTUM MECHANICS, 3 Credits
Wave mechanics, Schrödinger equation, operators, harmonic oscillator, identical particles, atomic fine structure, approximation methods and applications.
Recommended: (PH 424 or PH 524) and (PH 425 or PH 525) and (PH 426 or PH 526)

PH 555, ASTROPHYSICS, 3 Credits
Physics of stars and the cosmos.
Recommended: PH 213; PH 315 or equivalent junior-level background in modern physics and thermodynamics.

PH 562, MATHEMATICAL PHYSICS, 3 Credits
Fundamental mathematical techniques needed for graduate students in physics. Topics include vector spaces and operators; fourier series, integrals, and transforms; partial differential equations; special functions, distributions, and delta functions; Green’s functions; complex analysis.

PH 564, SCIENTIFIC COMPUTING II, 3 Credits
Mathematical, numerical, and conceptual elements forming foundations of scientific computing: computer hardware, algorithms, precision, efficiency, verification, numerical analysis, algorithm scaling, profiling, and tuning. Lec/lab.
Equivalent to: PH 365

PH 575, INTRODUCTION TO SOLID STATE PHYSICS, 3 Credits
Introduction to condensed matter physics for majors in physics, chemistry, and engineering. Topics include band structure, free electron behavior; optical properties, magnetism, and lattice excitations.
Recommended: (PH 451 or PH 551) and concurrent enrollment in PH 427 or PH 527

PH 581, PHYSICAL OPTICS, 4 Credits
Wave propagation, polarization, interference, diffraction, and selected topics in modern optics.
Recommended: PH 431 or PH 531

PH 582, OPTICAL ELECTRONIC SYSTEMS, 4 Credits
Photodetectors, laser theory, and laser systems. Lec/lab. CROSSLISTED as ECE 482/PH 482 and ECE 582/PH 582.
Equivalent to: ECE 582
Recommended: PH 481 or PH 581

PH 583, GUIDED WAVE OPTICS, 4 Credits
Optical fibers, fiber mode structure and polarization effects, fiber interferometry, fiber sensors, optical communication systems. Lec/lab. CROSSLISTED as ECE 483/PH 483 and ECE 583/PH 583.
Equivalent to: ECE 583
Recommended: Completion or concurrent enrollment in ECE 391 or PH 481/581

PH 585, ATOMIC, MOLECULAR, AND OPTICAL PHYSICS, 3 Credits
Atomic and molecular structure, interaction with electromagnetic fields, atomic and molecular spectra, spectroscopic techniques, laser theory, nonlinear optics.
Recommended: (PH 431 or PH 531) or (PH 451 or PH 551)

PH 591, BIOLOGICAL PHYSICS, 3 Credits
Basic physics principles applied to the kinetics and dynamics of molecular and cellular processes. Ion channels, two-state systems, dynamics of molecular motors, cell signalling, and multicellular phenomena.
Recommended: PH 320, PH 421, PH 422 and PH 423 or junior-level background in classical mechanics, electromagnetism, and thermodynamics

PH 595, INTRODUCTION TO PARTICLE AND NUCLEAR PHYSICS, 3 Credits
Elementary particles and forces, nuclear structure and reactions.
Recommended: PH 451 or PH 551

PH 599, SPECIAL TOPICS, 1-16 Credits
(See PH 499 for description.)
This course is repeatable for 16 credits.

PH 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

PH 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

PH 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PH 607, SEMINAR, 1-16 Credits
Section 1: Departmental Colloquium. Section 3: Nuclear and Particle Physics. Section 5: Atomic, Molecular, and Optical Physics. Section 7: Solid State Physics. Section 9: Computational Physics. One-credit options are graded P/N.
This course is repeatable for 16 credits.

PH 609, PRACTICUM IN TEACHING, 1-6 Credits
This course is repeatable for 6 credits.

PH 621, DYNAMICS OF SINGLE- AND MULTI-PARTICLE SYSTEMS, 3 Credits
Introduction to theory of non-linear systems. Chaos in Hamiltonian and dissipative systems. Lyapunov exponents, fractal geometries.
Recommended: PH 435 or PH 535
PH 631, ELECTROMAGNETIC THEORY, 3 Credits
Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.
Recommended: PH 431 or PH 531

PH 632, ELECTROMAGNETIC THEORY, 3 Credits
Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.
Recommended: PH 631 and (PH 431 or PH 531)

PH 633, ELECTROMAGNETIC THEORY, 3 Credits
Electrostatics; multipole expansion; magnetostatics; radiation fields; dynamics of relativistic particles and electromagnetic fields.
Recommended: PH 632 and (PH 431 or PH 531)

PH 641, STATISTICAL THERMOPHYSICS, 3 Credits
Macroscopic thermodynamics and kinetic theory. Classical and quantal statistical ensembles; partition functions. Applications to atoms and molecules, clustering, solids, radiation.
Recommended: PH 435 or PH 535

PH 642, STATISTICAL THERMOPHYSICS, 3 Credits
Macroscopic thermodynamics and kinetic theory. Classical and quantal statistical ensembles; partition functions. Applications to atoms and molecules, clustering, solids, radiation.
Recommended: PH 641

PH 651, QUANTUM MECHANICS, 3 Credits
Basic principles of nonrelativistic quantum theory and applications. Schrodinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.
Recommended: (PH 435 or PH 535) and (PH 451 or PH 551)

PH 652, QUANTUM MECHANICS, 3 Credits
Basic principles of nonrelativistic quantum theory and applications. Schrodinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.
Recommended: (PH 435 or PH 535) and (PH 451 or PH 551) and PH 651

PH 653, QUANTUM MECHANICS, 3 Credits
Basic principles of nonrelativistic quantum theory and applications. Schrodinger theory, quantum theory of angular momentum, matrix mechanics, perturbation theory, identical particles, scattering.
Recommended: (PH 435 or PH 535) and (PH 451 or PH 551) and PH 652

PH 654, ADVANCED QUANTUM THEORY, 3 Credits
Scattering theory, second quantization and many body theory, relativistic quantum mechanics, quantization of fields, quantum electrodynamics, and elementary particles.
Recommended: PH 653

PH 671, SOLID STATE PHYSICS, ELECTRON TRANSPORT, 3 Credits
Fundamentals of solid state physics, Boltzmann transport, phonon and defect scattering, quantum transport, transport in magnetic field, localization, Mott-insulator transition, electron tunneling, superconductivity. Not offered every year.
Recommended: Basic knowledge of electromagnetism and quantum mechanics

PH 672, SOLID STATE PHYSICS, THEORY, 3 Credits
The many-body problem, density functional theory, excited states properties, BCS theory of superconductivity. Not offered every year.
Prerequisite: PH 575 with D- or better and PH 654 [D-]
Recommended: Basic knowledge of electromagnetism and quantum mechanics

PH 673, SOLID STATE PHYSICS, NANOSCIENCE AND NANOTECHNOLOGY, 3 Credits
Introduction to nanoscience and nanotechnology; semiconductor quantum wells, wires, and dots; bulk metals vs nanoparticles; molecular ensembles vs single molecules; fabrication of nanoparticles and nanostructured materials; scanning probe microscopy; advanced optical imaging and manipulation. Not offered every year.
Recommended: Basic knowledge of electromagnetism and quantum mechanics

PH 674, SOLID STATE PHYSICS, MAGNETISM, 2 Credits
Magnetism of atoms; interaction between magnetic atoms, magnetic ordering in crystalline solids; excitations in magnetic solids; temperature dependent phenomena in magnetic solids; magnetism of metals, alloys, insulators and semiconductors; topics of considerable interest in contemporary research.
Recommended: Basic knowledge of electromagnetism and quantum mechanics

PH 681, ATOMIC, MOLECULAR AND OPTICAL PHYSICS, MODERN OPTICS, 3 Credits
Maxwell's equations in matter; refraction, phase and group indices; material and geometry dispersion; effective-medium regime. Not offered every year.
Recommended: Basic knowledge of electromagnetism and quantum mechanics

PH 682, ATOMIC, MOLECULAR, OPTICAL PHYSICS, SEMICONDUCTOR OPTICS, 3 Credits
Linear response theory; polarization effects; interband excitations and emissions; low dimensional systems; excitons; phonons; semiconductor lasers; photovoltaics. Not offered every year.
Recommended: Basic knowledge of electromagnetism and quantum mechanics
PH 683, ATOMIC, MOLECULAR AND OPTICAL PHYSICS, NONLINEAR OPTICS, 3 Credits
Coherent nonlinear electromagnetic phenomena; harmonic generation and parametric mixing; quantum mechanical description of multi-photon interactions; incoherent multi-photon interactions; coherent nonlinear optical phenomena and spectroscopies. Not offered every year.
Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 684, ATOMIC, MOLECULAR AND OPTICAL PHYSICS, ULTRAFAST OPTICS, 2 Credits
Introduction of ultrafast optical science; short pulse propagation in linear media; pulse stretching and compressing; Q-switching and mode-locking; characterization of femtosecond lasers; coherent optical effects. Offered in alternate years.
Recommended: Basic knowledge of electromagnetism and quantum mechanics.

PH 699, SPECIAL TOPICS: BIOLOGICAL PHYSICS, 3 Credits
Topics vary from year to year. Not offered every year. This course is repeatable for 9 credits.

Plant Breeding & Genetics (PBG)

PBG 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: PBG 199H
This course is repeatable for 16 credits.

PBG 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PBG 199
This course is repeatable for 16 credits.

PBG 299, SPECIAL TOPICS, 1-16 Credits
Equivalent to: PBG 299H
This course is repeatable for 16 credits.

PBG 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PBG 299
This course is repeatable for 16 credits.

PBG 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PBG 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

PBG 403, THESIS, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

PBG 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: PBG 405H
This course is repeatable for 16 credits.

PBG 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PBG 405
This course is repeatable for 16 credits.

PBG 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

PBG 409, TEACHING PRACTICUM, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PBG 410, INTERNSHIP, 1-12 Credits
Offered via Ecampus only.
This course is repeatable for 12 credits.

PBG 430, PLANT GENETICS, 3 Credits
Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes.
Equivalent to: HORT 430
Recommended: One year of biology and chemistry.
Available via Ecampus

PBG 431, PLANT GENETICS RECITATION, 1 Credit
Review and demonstration of plant genetics principles.
Equivalent to: CSS 431, HORT 431

PBG 441, PLANT TISSUE CULTURE, 4 Credits
Principles, methods, and applications of plant tissue culture. Laboratory is important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.
Equivalent to: HORT 441
Recommended: (BI 311 and BOT 331) or PBG 430 or CSS 430

PBG 450, PLANT BREEDING, 4 Credits
An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Examples are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab.
Prerequisite: PBG 430 with D- or better
Equivalent to: CSS 450, HORT 450
Recommended: BI 311 or PBG 430
PBG 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: PBG 499H
This course is repeatable for 16 credits.

PBG 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PBG 499
This course is repeatable for 16 credits.

PBG 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PBG 503, THESIS, 1-16 Credits
Graded P/N.
This course is repeatable for 999 credits.

PBG 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PBG 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

PBG 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PBG 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

PBG 509, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509/ENT 509/PBG 509/SOIL 509.
Equivalent to: CROP 509, ENT 509, SOIL 509
This course is repeatable for 9 credits.

PBG 510, INTERNSHIP, 4 Credits
Offered via Ecampus only.
This course is repeatable for 12 credits.

PBG 513, PLANT GENETIC ENGINEERING, 3 Credits
Principles, methods, and recent developments in the genetic engineering of higher plants. Offered alternate years.
Equivalent to: HORT 513
Recommended: (BI 311 and BOT 331) or (CSS 430 or CSS 530) or (HORT 430 or HORT 530) or (PBG 430 or PBG 530)

PBG 519, CURRENT TOPICS IN PLANT BREEDING AND GENETICS, 2 Credits
Provides an advanced understanding of plant breeding and genetics and their relationship to other disciplines through critical analysis of the scientific literature. Practice synthesizing information and presenting findings to peers. Instructors, topics, and specific learning objectives vary from term to term. CROSSLISTED as HORT 519/PBG 519.
Equivalent to: HORT 519
This course is repeatable for 12 credits.

PBG 530, PLANT GENETICS, 3 Credits
Introduction to the principles of plant genetics with an emphasis on the structure and function of economically important plant genomes.
Equivalent to: HORT 530
Recommended: One year of biology and chemistry.

PBG 541, PLANT TISSUE CULTURE, 4 Credits
Principles, methods, and applications of plant tissue culture. Laboratory is an important part of course. Topics include callus culture, regeneration, somaclonal variation, micropropagation, anther culture, somatic hybridization, and transformation. CROSSLISTED as PBG 441 and MCB 541/PBG 541.
Equivalent to: HORT 541, MCB 541
Recommended: (BI 311 and BOT 331) or PBG 430

PBG 550, PLANT BREEDING, 4 Credits
An introduction to the genetic improvement of self-pollinated, cross-pollinated, and asexually propagated species and the genetic principles on which breeding methods are based. Example are drawn from a wide range of crops, including cereal grains, grasses, fruits, nuts, and vegetables; guest lecturers discuss their breeding programs. Additional topics include crop evaluation, germplasm preservation, disease resistance, and biotechnology. Lec/lab.
Equivalent to: CSS 550, HORT 550
Recommended: BI 311 or PBG 430 or PBG 530

PBG 551, BREEDING CLONAL CROPS, 1 Credit
The overall goal of the course is to gain fundamental knowledge of breeding methods for clonal crops; these methods are different from those used for seed-propagated crops. Specific examples from a wide array of plant species (tree fruits, berries, tree nuts, potato, sweet potato, cassava, cacao) will be provided to illustrate application of the fundamental knowledge.
Prerequisite: PBG 450 with C or better or PBG 550 with C or better

PBG 552, PLANT BREEDING AND SEED PRODUCTION IN ORGANIC SYSTEMS, 3 Credits
Genetic improvement and seed propagation of self-pollinated and cross-pollinated crops bred for and used in organic production. The philosophical basis for organic agriculture will be reviewed in the context of what breeding technologies are allowed and why. Important traits for adaptation to organic production will be described. Models for organic plant breeding and examples of such programs are provided.
Prerequisite: PBG 530 with D or better
Recommended: BI 311 or PBG 430
PBG 556, CROP PLANT DOMESTICATION, 2 Credits
Learning is based on discussion of the contemporary literature on crop plant origins and domestication. The major agronomic and horticultural crops will be covered. Topics include primary centers of domestication, traits altered by domestication, effect of genetic architecture and local ecology on domestication, and importance of genetic diversity to current plant improvement efforts.

PBG 557, PLANTS AND PATENTS, 2 Credits
Learn about different methods of intellectual property protection in agriculture with a focus on plant patents, plant variety protection and utility patents. The rights, current issues and restrictions that different types of patents allow will be presented through reading the current literature.

PBG 559, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PBG 591, SELECTED TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PBG 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PBG 601, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PBG 603, DISSERTATION, 1-16 Credits
Graded P/N.
This course is repeatable for 999 credits.

PBG 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PBG 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

PBG 609, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded P/N.
Equivalent to: CROP 609, ENT 609, SOIL 609
This course is repeatable for 9 credits.

PBG 620, INTRODUCTION TO MOLECULAR MARKERS, 2 Credits
Principles and methods for molecular marker discovery and analysis. Offered even years. CROSSLISTED as MCB 620/PBG 620.
Equivalent to: MCB 620
Recommended: BI 311 or PBG 430 or PBG 530 or HORT 430 or HORT 530

PBG 621, GENETIC MAPPING AND ASSOCIATION, 2 Credits
Principles and methods for genetic map construction and genome-wide association studies. Offered even years. CROSSLISTED as MCB 621/PBG 621.
Equivalent to: MCB 621
Recommended: BI 311 or PBG 430 or PBG 530 or HORT 430 or HORT 530

PBG 622, MAPPING QUANTITATIVE TRAIT LOCI, 1 Credit
Principles and methods for mapping genes underlying phenotypically complex traits. Offered alternate years. CROSSLISTED as MCB 622/PBG 622.
Equivalent to: CSS 622, MCB 622
Recommended: CROP 590 or CSS 590 or ST 513

PBG 650, ADVANCED PLANT BREEDING AND QUANTITATIVE GENETICS, 3 Credits
Pedigree, bulk, single-seed-descent, doubled haploid, backcross, testcross, mass, and half-sib, S~1~ and S~2~ family breeding methods; breeding hybrids and selecting sources of alleles for developing superior hybrids; the nature and consequences of genotype by environment interactions; marker-assisted backcross and inbred line breeding; quantitative trait locus mapping; random linear models; designing and analyzing cultivar, line, and family selection experiments. Offered odd years.
Equivalent to: CSS 650
Recommended: (CSS 430 or CSS 530 or PBG 430 or PBG 530 or HORT 430 or HORT 530) and (CSS 450 or CSS 550 or PBG 450 or PBG 550 or HORT 450 or HORT 550) and (ST 411 or ST 511) and (ST 412 or ST 512) and (ST 413 or ST 513)

Political Science (PS)

PS 110, *GOVERNING AFTER THE ZOMBIE APOCALYPSE, 3 Credits
Constitution-writing in a post-apocalyptic world. Students write a constitution that addresses issues of difference, power, and discrimination. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 110H
Available via Ecampus

PS 110H, *GOVERNING AFTER THE ZOMBIE APOCALYPSE, 3 Credits
Constitution-writing in a post-apocalyptic world. Students write a constitution that addresses issues of difference, power, and discrimination. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 110
PS 201, *INTRODUCTION TO UNITED STATES GOVERNMENT AND POLITICS, 4 Credits
Description and analysis of American politics and government, including such topics as interest groups, parties, elections, media, the presidency, Congress, the Constitution, and the courts. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: PS 101, PS 102, PS 102H
Available via Ecampus

PS 204, *INTRODUCTION TO COMPARATIVE POLITICS, 4 Credits
Major concepts of comparative politics applied to various political settings; the United States, Western Europe, Communist regimes, and developing countries. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Available via Ecampus

PS 205, *INTRODUCTION TO INTERNATIONAL RELATIONS, 4 Credits
Analysis of the international system and factors affecting world politics. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: PS 205H
Available via Ecampus

PS 206, *INTRODUCTION TO POLITICAL THOUGHT, 4 Credits
Introduction to political philosophy. Major ideas and issues of selected political thinkers. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PS 206H
Available via Ecampus

PS 221, INTRODUCTION TO LAW, 4 Credits
Overview of American law and the U.S. legal system. Topics include legal concepts from selected substantive areas of law, structures and processes of law, and development of basic legal analytical skills.

PS 299, SPECIAL STUDIES, 1-4 Credits
PREREQ: Departmental approval required.
This course is repeatable for 4 credits.

PS 300, ^RESEARCH METHODS, 4 Credits
Qualitative and quantitative approaches to the study of political phenomena. The role of values, theory, hypothesis, data collection, and analysis in evaluating and conducting political science research. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: PS 400
Available via Ecampus

PS 311, CONGRESSIONAL POLITICS, 4 Credits
Congressional politics, both on Capitol Hill and in the district, including campaigns, constituent relations, lobbying, legislating, and the legislature in democratic theory.
Equivalent to: PS 411

PS 312, PRESIDENTIAL POLITICS, 4 Credits
Office, powers, and politics of the American presidency, with reference to other executive offices in American government; emphasis on the importance and effect of the presidency in American politics.
Available via Ecampus

PS 313, CAMPAIGNS AND ELECTIONS, 4 Credits
Political parties and elections, the conduct of electoral campaigns, the electorate and voting behavior, electoral system, exercise of the suffrage, extent and consequences of voter participation.
Equivalent to: PS 413

PS 314, INTEREST GROUP POLITICS, 4 Credits
Interest group formation, resources, strategies, and internal struggles, as well as group influence on elections and politics, in government and policy making, and in relation to democratic theory.

PS 315, *THE POLITICS OF MEDIA, 4 Credits
Examination of the methods of operation, content and effects of the media in relation to politics and government. Includes analysis of newspaper, radio and television, political advertising, and other forms of political communication. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

PS 317, GENDER AND POLITICS, 4 Credits
Analyzes the role that gender plays in shaping politics and other aspects of society. The course will cover theories of gender difference, gender-based movements, gender and political office, and gender and public policy. (SS)
Attributes: LACS – Liberal Arts Social Core

PS 321, CONSTITUTIONAL LAW: GOVERNMENT POWERS AND CONSTRAINTS, 4 Credits
The role of the U.S. Supreme Court in shaping the powers and limitations of the U.S. government. The powers of the three main branches of our government, and cases where the powers of these branches clash with one another or with the powers of the states or rights of the individual.
Available via Ecampus
PS 322, *CONSTITUTIONAL LAW: CIVIL RIGHTS AND LIBERTIES, 4 Credits

Doctrines pertaining to the First, Second and Fourteenth Amendments, such as freedom of speech, of expression, of the press and of the exercise, the right to bear arms and the prohibition against governmental establishment of religion. Issues of discrimination and the reach of the 14th amendment’s equal protection clause, and the right to privacy. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

PS 323, CONSTITUTIONAL LAW: RIGHTS OF THE ACCUSED, 4 Credits

The role of the U.S. Supreme Court in shaping the powers and limitations of the U.S. government. The powers of the three main branches of our government, and cases where the powers of these branches clash with one another or with the powers of states or rights of the individual.

PS 325, *GENDER AND THE LAW, 4 Credits

Legal status of American women, with emphasis on constitutional law, the 1964 Civil Rights Act and its amendments, and various state laws as they relate to the legal rights of women. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

PS 326, JUDICIAL PROCESS AND POLITICS, 4 Credits

Study of the operation, processes, behavior and influence of the state and federal judiciaries, as well as current research in the judiciary as it relates to politics.

PS 328, SPORTS AND POLITICS, 4 Credits

Topics include: Sport’s interactions with formal political institutions, sports law, sports in the international community, sports at the university, sports and gender, sports and labor politics, and sports and race.

PS 331, *STATE AND LOCAL POLITICS, 4 Credits

Role, organization, and functions of government at the state and local level. Satisfies teaching certification requirement for course work in state and local government. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: PS 203
Available via Ecampus

PS 342, THE POLITICS OF CORRUPTION, 4 Credits

Surveys corruption and how it manifests itself in democracies and centralized states. Topics include theoretical accounts for why corruption occurs, what factors are conducive toward producing corruption, the consequences of corruption, and anti-corruption efforts that have succeeded and failed to rectify corruption.

PS 343, *RUSSIAN POLITICS, 4 Credits

Brief survey of Russian politics in Tsarist and Soviet periods followed by extensive analysis of Russian politics in the late Soviet period under Gorbachev (1985-91), the collapse of the USSR in 1991, and post-Soviet Russian politics (1992-present). (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 344, *LATIN AMERICAN POLITICS, 4 Credits

The key political, social and economic issues in Latin America. Surveys topics of interest in the region such as economic development, democratization, revolution and political leadership from both an historical and contemporary perspective. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 345, *POLITICS OF DEVELOPING NATIONS, 4 Credits

Analyzes the concepts of development and modernization. Also focuses on the economic, political, and cultural problems faced by developing nations. (NC) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Equivalent to: PS 345H
Available via Ecampus

PS 346, *MIDDLE EAST POLITICS, 4 Credits

The comparative study of the Middle East and North Africa focusing on the internal political dynamics of countries in the region and the international relations among them. Examines issues of political and economic development in their post-colonial context and analyzes impact of nationalism, political Islam, ethnicity, and globalization. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: PS 446
Available via Ecampus

PS 348, *CHINESE POLITICS, 4 Credits

Examines China’s post-1949 political and economic development. Special attention is given to the reform era from the late 1970s to the present. The course also addresses the impact of the reforms on society and on the country’s relationship with the world. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
PS 349, *BRITISH POLITICS, 4 Credits
The structure and operation of the British political system, the nature of the political parties and how the governing institutions of the British state have changed over time. The course will also consider how British politics impact upon the culture, politics and institutions of the United States. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture

PS 350, *JAPANESE POLITICS, 4 Credits
Examination of the Japanese political system during the postwar period. Topics include prewar historical influences, political parties, bureaucracy, interest groups, policy processes and issues, political economy, foreign policy, and United States-Japan relations. Attention will also be given to recent dramatic changes in Japan’s political system. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity

PS 351, AMERICAN FOREIGN POLICY, 4 Credits
Overview of the role of the United States in the world since World War II and of the factors influencing the formation of American foreign policy.
Equivalent to: PS 456
Available via Ecampus

PS 354, *INTERNATIONAL ORGANIZATIONS AND GLOBAL POLITICS, 4 Credits
The role of international law and organizations in global politics. How sovereign states interact, and what motivates them to commit to supranational laws and intergovernmental organizations. How international law has evolved since the early 1900s. Intergovernmental organizations and treaties, with emphasis on the United Nations, the International Monetary Fund and the World Bank, the World Trade Organization, the European Union, and the North Atlantic Treaty Organization. (Bacc Core Course)
Attributes: CSSI – Core, Synth, Global Issues
Available via Ecampus

PS 356, INTERNATIONAL POLITICS OF ASIA PACIFIC, 4 Credits
Examines the most pressing issues facing the region: security and regional economic integration. The major players, their interests, and their differing perspectives on regional issues will be analyzed.

PS 361, CLASSICAL POLITICAL THOUGHT, 4 Credits
Major political theorists from the pre-Socratics through the Scholastics. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

PS 362, MODERN POLITICAL THOUGHT, 4 Credits
Major political theorists from the Renaissance to the mid-nineteenth century. (H)
Attributes: LACH – Liberal Arts Humanities Core
Available via Ecampus

PS 363, *GENDER AND RACE IN AMERICAN POLITICAL THOUGHT, 4 Credits
Traditional canon of American political thought scrutinized from vantage point of feminist and critical race theory scholarship. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 363H
Available via Ecampus

PS 364, CONTEMPORARY POLITICAL THEORY, 4 Credits
Major issues in contemporary political theory. The specific emphasis of the course may vary from term to term, focusing on questions related to theories of justice, theories of democracy, global political theory, or the work of a single important thinker.

PS 365, AMERICAN POLITICAL THOUGHT, 4 Credits
Political values and theoretical systems in the American tradition, from the Puritans to the present.

PS 366, *FROM ATLANTIS TO UTOPIA: THE POLITICS OF THE IDEAL STATE, 4 Credits
The search for the ideal state has occupied political philosophy since antiquity. From Plato’s Atlantis story through More’s utopia and beyond, philosophers, writers and filmmakers have pondered how to create a perfect state with perfect citizens which will stand the test of time. Each week will combine theoretical reflections from antiquity through post-modernity with a selection of examples from more or less contemporary fiction that will ideally already be known to the audience. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: PS 366H
Available via Ecampus

PS 366H, *FROM ATLANTIS TO UTOPIA: THE POLITICS OF THE IDEAL STATE, 4 Credits
The search for the ideal state has occupied political philosophy since antiquity. From Plato’s Atlantis story through More’s utopia and beyond, philosophers, writers and filmmakers have pondered how to create a perfect state with perfect citizens which will stand the test of time. Each week will combine theoretical reflections from antiquity through post-modernity with a selection of examples from more or less contemporary fiction that will ideally already be known to the audience. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: PS 366
PS 370, *SCIENCE, RELIGION, AND POLITICS, 4 Credits
Addresses historical interplay between religion and science in Western culture, then focuses on the perceived conflicts between science and religion within American socio-political context; illustrates role of politics as the 'playing field' on which social differences contend; requires students to grapple with viewpoints that differ from their own. Team taught. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

PS 371, PUBLIC POLICY PROBLEMS, 4 Credits
The content and the politics of adoption and application of such policy areas as defense, poverty and welfare, macroeconomics, and regulation. Available via Ecampus

PS 372, PUBLIC ADMINISTRATION, 4 Credits
The workings of the modern administrative state, processes and procedures through which government acts, and the balance between powerful government, democratic and accountable government, and efficient government. Available via Ecampus

PS 374, *SUSTAINABLE LIVING: PRACTICES AND POLICIES, 4 Credits
Exploration of the role individuals in sustainability practices and policies. Special focus is given to an examination of how individuals can make sustainable lifestyle choices in light of policy regulations, technologies, socio-economic conditions, and cultural values. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

PS 375, *THE CIVIL RIGHTS MOVEMENT AND POLICIES, 4 Credits
Political and social evolution of the civil rights movement, emphasizing events 1954-1965, and major contemporary civil rights politics and policies in the South and the nation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PS 375H

PS 375H, *THE CIVIL RIGHTS MOVEMENT AND POLICIES, 4 Credits
Political and social evolution of the civil rights movement, emphasizing events 1954-1965, and major contemporary civil rights politics and policies in the South and the nation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: PS 375

PS 399, CURRENT PROBLEMS IN POLITICS, 1-4 Credits
Selected issues of recent American and international concern such as Vietnam, Central America, or similar topical issues. May be repeated for credit when topic varies.
Equivalent to: PS 399H
This course is repeatable for 16 credits.

PS 399H, CURRENT PROBLEMS IN POLITICS, 1-4 Credits
Selected issues of recent American and international concern such as Vietnam, Central America, or similar topical issues. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 399
This course is repeatable for 16 credits.

PS 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

PS 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

PS 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

PS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PS 405H, READING AND CONFERENCE, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 405
This course is repeatable for 16 credits.

PS 406, PROJECTS, 1-16 Credits
Section 1-5: Reading. Associated with the internship for which credit is given in PS 410.
This course is repeatable for 16 credits.
Available via Ecampus

PS 407, SEMINAR, 1-16 Credits
Equivalent to: PS 407H
This course is repeatable for 16 credits.

PS 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PS 407
This course is repeatable for 16 credits.

PS 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

PS 409, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.
PS 410, POLITICAL SCIENCE INTERNSHIP, 1-12 Credits
Supervised work experience in government- or law-related programs or other public affairs organizations. Reports and appraisals required. Only 4 credits may be applied to the major. This course is repeatable for 12 credits. Available via Ecampus

PS 413, ETHICS IN PUBLIC POLICY, 4 Credits
Examines ethical dilemmas in public policy, and provides the opportunity to study the ethical theories of Hobbes, Kant, Mill, and Rawls. Crosslisted as PPOL 413/PS 413. Equivalent to: PPOL 413 Available via Ecampus

PS 427, NUCLEAR NONPROLIFERATION AND ARMS CONTROL, 4 Credits
Examines the history, politics and current challenges involving nuclear weapons proliferation and arms control.

PS 428, TERRORISM AND GLOBAL SECURITY, 4 Credits

PS 441, DEMOCRATIZATION, 4 Credits
Democratization and the factors that encourage and/or erode democratic stability. Political developments in a wide array of countries, with a particular focus on the unfolding events in the Middle East. Theories of what causes authoritarian regimes to collapse and what helps initially fragile democracies endure or collapse.

PS 446, EAST ASIAN POLITICAL ECONOMY, 4 Credits
Surveys and analyzes the economic and political development of China, Japan, South Korea, Taiwan, Hong Kong, and Singapore. Japan is examined as a developmental model for the East Asian Newly Industrializing Countries (NICs) and as a major player in the regional economy. China is examined as a contrasting model in terms of its changing pattern of economic development and its importance for the region. Equivalent to: PS 346

PS 449, TOPICS IN COMPARATIVE POLITICS, 4 Credits
Topics in comparative politics not covered in other courses. May be repeated for credit when topic varies. (Writing Intensive Course) Attributes: CWIC – Core, Skills, WIC This course is repeatable for 16 credits.

PS 454, INTERNATIONAL LAW AND ORGANIZATIONS, 4 Credits
Theories and historical development of international law and organizations; the United Nations system. Recommended: PS 204 or PS 205

PS 455, THE POLITICS OF CLIMATE CHANGE, 4 Credits
Covers domestic and international political aspects of global climate change. Topics include local, state, and national activity as well as roles played by presidents, Congress, the Supreme Court, corporations and media. International focus on conventions and treaties, tensions between developed and developing nations and possible national security impacts. Available via Ecampus

PS 457, US-CHINA RELATIONS, 4 Credits
Historical evolution of US-China relationship. Emphasis on economic ties, tensions, and conflicts surrounding trade, investment, security, human rights, political reform, Tibet, and Taiwan. Equivalent to: PS 557

PS 458, INTERNATIONAL POLITICAL ECONOMY, 4 Credits
Examines topics in which politics and economics meet in the international arena, such as trade, debt, finance, development, multinational corporations, and globalization. Does not require a background in economics. (Bacc Core Course) Attributes: CSGI – Core, Synth, Global Issues

PS 461, ENVIRONMENTAL POLITICAL THEORY, 4 Credits
Examines the ways in which political theory enhances our understanding of environmental issues. Focuses on the political and philosophical premises of various environmental perspectives, and how different theories of justice and democracy address issues such as environmental racism, ecological justice, and global climate change.

PS 462, THEORIES OF LAW, 4 Credits
Covers some of the main theories and approaches to the nature of law. What is law? What is its relation, if any, to morality? What is it that judges do? Questions such as these are explored through reading some of the classic works on the topic.

PS 470, GLOBAL FOOD POLITICS AND POLICY, 4 Credits
Examines the politics and policy of global food systems as they relate to food distribution, production, and consumption. The cultivation and consumption of food is highly political, and at times, contentious. Specific focus is given to issues like social justice, GMOs, human health, environment and agribusiness. Available via Ecampus

PS 471, NUCLEAR POLITICS AND POLICY, 4 Credits
Covers the political and policy implications of nuclear technology, including both nuclear weapons and civilian applications such as nuclear energy.
PS 473, US ENERGY POLICY, 4 Credits
Addresses US energy policy with respect to how the U.S. governs the production and use of different energy sources, along with the management of its energy infrastructure. Examines policies currently in place, as well as proposals for alternatives, while examining the economic, environmental, national security and energy security implications of different policy approaches.
Available via Ecampus

PS 474, INTERNATIONAL ENERGY POLITICS AND POLICY, 4 Credits
Addresses international energy policies and politics, including trends and socio-political challenges impacting the diversity of global energy sources. CROSSLISTED as PPOL 474/PS 474 and PPOL 574/PS 574.
Equivalent to: PPOL 474

PS 475, ENVIRONMENTAL POLITICS AND POLICY, 4 Credits
Environmental and natural resource issues and policies in national and regional context, emphasizing public attitudes, elections, Congress, public policy, and relevant national and state agencies.
Available via Ecampus

PS 476, *SCIENCE AND POLITICS, 4 Credits
Relationship between science and the political system in political ideas and history, in bureaucratic politics of science policy, and in contemporary scientific disputes. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

PS 477, INTERNATIONAL ENVIRONMENTAL POLITICS AND POLICY, 4 Credits
Analysis of international environmental theory and politics, the development of international environmental regimes, agreements and treaties, and the process of globalization and the quality of the environment.
Available via Ecampus

PS 478, RENEWABLE ENERGY POLICY, 4 Credits
Renewable energy policy with respect to how the U.S. governs the market development, production and use of different renewable energy sources are addressed.
Available via Ecampus

PS 483, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, ES 483, WLC 483

PS 499, SPECIAL TOPICS, 1-16 Credits
Selected topics in political science of special or current interest not covered in other courses. May be repeated for credit when topic varies.
This course is repeatable for 99 credits.

PS 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Independent research project under supervision of graduate faculty.
This course is repeatable for 16 credits.

PS 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

PS 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

PS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PS 506, PROJECTS, 1-16 Credits
Section 1-5: Reading. Associated with the internship for which credit is given in PS 410. Completion of this course is required to receive credit for PS 410. Section 11: MU Field Training, 3 credits. Section 12: ASOSU Field Training, 3 credits, each graded P/N.
This course is repeatable for 16 credits.

PS 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

PS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

PS 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

PS 510, POLITICAL SCIENCE INTERNSHIP, 1-12 Credits
Supervised work experience in government- or law-related programs or other public affairs organizations. Reports and appraisals required.
This course is repeatable for 12 credits.
PS 527, NUCLEAR NONPROLIFERATION AND ARMS CONTROL, 4 Credits
Examines the history, politics and current challenges involving nuclear weapons proliferation and arms control.

PS 528, TERRORISM AND GLOBAL SECURITY, 4 Credits

PS 541, DEMOCRATIZATION, 4 Credits
Democratization and the factors that encourage and/or erode democratic stability. Political developments in a wide array of countries, with a particular focus on the unfolding events in the Middle East. Theories of what causes authoritarian regimes to collapse and what helps initially fragile democracies endure or collapse.

PS 554, INTERNATIONAL LAW AND ORGANIZATIONS, 4 Credits
Theories and historical development of international law and organizations; the United Nations system. Recommended: PS 204 or PS 205

PS 555, THE POLITICS OF CLIMATE CHANGE, 4 Credits
Covers domestic and international political aspects of global climate change. Topics include local, state, and national activity as well as roles played by presidents, Congress, the Supreme Court, corporations and media. International focus on conventions and treaties, tensions between developed and developing nations and possible national security impacts.

PS 557, US-CHINA RELATIONS, 4 Credits

PS 558, INTERNATIONAL POLITICAL ECONOMY, 4 Credits
Examines topics in which politics and economics meet in the international arena, such as trade, debt, finance, development, multinational corporations, and globalization. Does not require a background in economics.

PS 561, ENVIRONMENTAL POLITICAL THEORY, 4 Credits
Examines the ways in which political theory enhances our understanding of environmental issues. Focuses on the political and philosophical premises of various environmental perspectives, and how different theories of justice and democracy address issues such as environmental racism, ecological justice, and global climate change.

PS 562, THEORIES OF LAW, 4 Credits
Covers some of the main theories and approaches to the nature of law. What is law? What is its relation, if any, to morality? What is it that judges do? Questions such as these are explored through reading some of the classic works on the topic.

PS 570, GLOBAL FOOD POLITICS AND POLICY, 4 Credits
Examines the politics and policy of global food systems as they relate to food distribution, production, and consumption. The cultivation and consumption of food is highly political, and at times, contentious. Specific focus is given to issues like social justice, GMOs, human health, environment and agribusiness.

PS 573, US ENERGY POLICY, 4 Credits
Addresses US energy policy with respect to how the U.S. governs the production and use of different energy sources, along with the management of its energy infrastructure. Examines policies currently in place, as well as proposals for alternatives, while examining the economic, environmental, national security and energy security implications of different policy approaches. Available via Ecampus

PS 574, INTERNATIONAL ENERGY POLITICS AND POLICY, 4 Credits
Addresses international energy policies and politics, including trends and socio-political challenges impacting the diversity of global energy sources. CROSSLISTED as PPOL 474/PS 474 and PPOL 574/PS 574. Equivalent to: PPOL 574

PS 575, ENVIRONMENTAL POLITICS AND POLICY, 4 Credits
Environmental and natural resource issues and policies in national and regional context, emphasizing public attitudes, elections, Congress, public policy, and relevant national and state agencies. Available via Ecampus

PS 576, SCIENCE AND POLITICS, 4 Credits
Relationship between science and the political system in political ideas and history, in bureaucratic politics of science policy, and in contemporary scientific disputes.

PS 577, INTERNATIONAL ENVIRONMENTAL POLITICS AND POLICY, 4 Credits
Analysis of international environmental theory and politics, the development of international environmental regimes, agreements and treaties, and the process of globalization and the quality of the environment. Available via Ecampus

PS 578, RENEWABLE ENERGY POLICY, 4 Credits
Renewable energy policy with respect to how the U.S. governs the market development, production and use of different renewable energy sources are addressed. Available via Ecampus
PS 583, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSTLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 583, ES 583, WLC 583

PS 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

PS 808, WORKSHOP, 4 Credits
Principles of public administration, administrative organization and procedures, public relations. It will include collaborative governance, leadership, and other issues.

Professional Science Masters (PSM)

PSM 506, PROJECTS, 1,16 Credit
This course is repeatable for 99 credits.

PSM 507, SEMINAR, 1-16 Credits
This course is repeatable for 99 credits.

PSM 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

Psychology (PSY)

PSY 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

PSY 201, *GENERAL PSYCHOLOGY, 4 Credits
Scientific study of behavior and experience. Neuroscience; sensation and perception; conditioning, learning and memory; thinking, problem solving, language, intelligence, and consciousness. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: PSY 201H
Available via Ecampus

PSY 201H, *GENERAL PSYCHOLOGY, 4 Credits
Scientific study of behavior and experience. Neuroscience; sensation and perception; conditioning, learning and memory; thinking, problem solving, language, intelligence, and consciousness. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: PSY 201

PSY 298, QUANTITATIVE METHODS IN PSYCHOLOGICAL SCIENCE, 4 Credits
Foundational course explores quantitative methods in psychological science to prepare students for further study in research methods in psychological science. Topics include descriptive statistics, hypothesis testing, correlation, one-way or two-way ANOVA, regression, controversies and emerging practices in open psychological science.
Prerequisite: (PSY 201 with C- or better or PSY 201H with C- or better) and (PSY 202 [C-] or PSY 202H [C-]) and MTH 105 [C-] and ST 201 [C-] and (PHL 121 [C-] or WR 222 [C-] or WR 327 [C-])
Equivalent to: PSY 298H
Available via Ecampus

PSY 298H, QUANTITATIVE METHODS IN PSYCHOLOGICAL SCIENCE, 4 Credits
Foundational course explores quantitative methods in psychological science to prepare students for further study in research methods in psychological science. Topics include descriptive statistics, hypothesis testing, correlation, one-way or two-way ANOVA, regression, controversies and emerging practices in open psychological science.
Attributes: HNRS – Honors Course Designator
Prerequisite: (PSY 201 with C- or better or PSY 201H with C- or better) and (PSY 202 [C-] or PSY 202H [C-]) and MTH 105 [C-] and ST 201 [C-] and (PHL 121 [C-] or WR 222 [C-] or WR 327 [C-])
Equivalent to: PSY 298

PSY 299, SPECIAL TOPICS, 0-6 Credits
This course is repeatable for 30 credits.

PSY 299H, SPECIAL TOPICS, 0-6 Credits
Equivalent to: PSY 299
This course is repeatable for 30 credits.
PSY 301, RESEARCH METHODS IN PSYCHOLOGY, 4 Credits
Study of scientific methodology in psychology, including experimental and observational techniques. Topics include problem identification and hypothesis formation, research design, application of statistics, collection and interpretation of data, computer usage, and research report writing.

Lec/lab.
Prerequisite: PSY 201 with D- or better and PSY 202 [D-] and (ST 351 [D-] or ST 351H [D-])
Available via Ecampus

PSY 302, USER EXPERIENCE RESEARCH, 3 Credits
Design ethical, lab-based experimental research studies in humans’ interactions with computing technologies. Analyze and interpret quantitative and qualitative data using relevant inferential methods. Prepare reports and visualize data to communicate research findings.
Prerequisite: PSY 201 with C- or better and (PSY 298 [C-] or ST 314 [C-] or ST 352 [C-])

PSY 312, CAREERS IN HUMAN COMPUTER INTERACTION, 2 Credits
Explores various career options available in the field of human-computer interaction, and exposes students to working professionals and suggestions for career trajectories within the field.

PSY 330, BRAIN AND BEHAVIOR, 4 Credits
Introduction to the relationships of the structure and functioning of the human brain to behavior. Information from neuroanatomy, neurochemistry, neurosurgery and neurology is combined with psychological research on both normal and abnormal human behavior. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Available via Ecampus

PSY 340, COGNITIVE PSYCHOLOGY, 4 Credits
Explores mental processes and considers their impact on behavior. Covers topics including perception, attention, memory, reasoning, decision making, and language. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with C- or better
Available via Ecampus

PSY 340H, COGNITION, 4 Credits
Theories, research and applications concerning cognition. Topics include perception, attention, memory, learning, thinking and language.
Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]

PSY 350, HUMAN LIFESPAN DEVELOPMENT, 4 Credits
An introduction to physical, social, cognitive and linguistic development with an emphasis on theory and methodology. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Available via Ecampus

PSY 360, SOCIAL PSYCHOLOGY, 4 Credits
The study of behavior and experience in a social context. Topics include person perception, attribution, attraction and love, attitudes and attitude change, aggression, social influence and group dynamics. Applications of social psychological principles to other fields, e.g., law, health care, etc. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 360H
Available via Ecampus

PSY 360H, SOCIAL PSYCHOLOGY, 4 Credits
The study of behavior and experience in a social context. Topics include person perception, attribution, attraction and love, attitudes and attitude change, aggression and social influence and group dynamics. Applications of social psychological principles to other fields, e.g., law, health care, etc. (SS)
Attributes: HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 360

PSY 370, PERSONALITY, 4 Credits
An overview of major theories of personality is followed by an introduction to personality testing and research. (SS)
Attributes: LACS – Liberal Arts Social Core
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Available via Ecampus

PSY 381, ABNORMAL PSYCHOLOGY, 4 Credits
Survey of various forms of psychological disorders; theories regarding etiology and treatment. Special emphasis on research approaches to such disorders.
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Equivalent to: PSY 381H
Available via Ecampus

PSY 399, SPECIAL TOPICS, 1-6 Credits
This course is repeatable for 30 credits.
Available via Ecampus

PSY 399H, SPECIAL TOPICS, 1-6 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: PSY 399
This course is repeatable for 30 credits.

PSY 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus
PSY 402, INDEPENDENT STUDY, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

PSY 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PSY 406, PROJECTS, 0-16 Credits
This course is repeatable for 16 credits.

PSY 407, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 408, WORKSHOP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 410, PSYCHOLOGY INTERNSHIP, 1-16 Credits
Professional experience applying psychological science in a variety of employment settings under joint faculty and employer supervision.
Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus

PSY 426, *PSYCHOLOGY OF GENDER, 4 Credits
Survey of theories, life cycles and contemporary problems of women and men in a social context. Scientific examination of gender related to psychological functioning and behavior. Topics can include psychological research on human similarities and differences in gender attitudes, relationships, sexuality, violence, employment, and mental health. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisite: PSY 202 with D- or better
Available via Ecampus

PSY 432, PHYSIOLOGICAL PSYCHOLOGY, 4 Credits
Basic vertebrate neurophysiology and neuroanatomy in relation to behavior. Neural and hormonal correlates of sensation, learning, memory and motivation.
Prerequisite: PSY 330 with D- or better
Recommended: Biological science background

PSY 433, PSYCHOPHARMACOLOGY, 4 Credits
Drug-brain-behavior interactions. Psychoactive drugs and their relationships to normal and abnormal behavior in humans.
Recommended: Upper-division standing and biological science background

PSY 434, ^BRAIN AND BEHAVIOR METHODS, 4 Credits
Methodology primarily in the area of neuropsychological research. Topics include the finding and interpretation of background literature, critical evaluation of research, hypothesis formulation, experimental design, data interpretation, reporting of results and methods, and weaving a conclusion and review article. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with D- or better and PSY 330 [D-]

PSY 437, MOTIVATION, 4 Credits
Biological, learning, and cognitive approaches to human and animal motivation. Topics include evolution, homeostasis, drive, arousal, incentive motivation, achievement motivation, and social motivation.
Prerequisite: (PSY 330 with D- or better or PSY 340 with D- or better) and PSY 301 [D-]
Available via Ecampus

PSY 440, ^COGNITION RESEARCH, 4 Credits
Advanced scientific methodology primarily in the areas of attention, learning, memory, and thinking. Students will design their own research projects, collect and analyze data, and write a professional report. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with D- or better and PSY 340 [D-]
Available via Ecampus

PSY 442, PERCEPTION, 4 Credits
Fundamental concepts of animal and human sensation and perception, with emphasis on audition and vision. Applications of psychophysical methods to research in all sensory modalities. Includes review workshops on basic mathematical, physical and physiological concepts necessary to interpret research in this field.
Prerequisite: PSY 301 with D- or better and (PSY 330 [D-] or PSY 340 [D-])

PSY 444, LEARNING AND MEMORY, 4 Credits
Experimental and theoretical work on learning, conditioning, and memory in animals and humans.
Prerequisite: PSY 301 with D- or better and PSY 340 [D-]
Available via Ecampus

PSY 446, PSYCHOLOGY OF HUMAN COMPUTER INTERACTION, 4 Credits
Explore biological, behavioral, perceptual, cognitive and social issues relevant to humans interact with other computing technology from a psychological science perspective. Evaluate, design, and experimentally test human computer interactions using experimental methods in psychological science.
Prerequisite: PSY 201 with C- or better
Recommended: PSY 340
PSY 448, CONSCIOUSNESS, 4 Credits
Psychological, phenomenological, and physiological approaches to the content and processes of subjective awareness. Topics include philosophical issues, cortical and reticular neurophysiology, sleeping and dreaming, selective attention, imagery, and self-awareness.
Prerequisite: PSY 301 with D- or better and PSY 340 [D-]
Available via Ecampus

PSY 450, *EDUCATIONAL PSYCHOLOGY, 4 Credits
Examines psychological theories of learning applied to educational contexts including behaviorism, information processing, social cognitivism, and constructivism. Emphasizes on review of literature in selected topic area and writing a psychological research or program proposal. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with C- or better and (PSY 340 [C-] or PSY 350 [C-])
Available via Ecampus

PSY 454, COGNITIVE DEVELOPMENT, 4 Credits
Discusses intellectual development from infancy to adulthood. Topics include the origin of thinking, the development of perception, attention, memory, problem solving, language, academic skills, and social cognition. Piaget, Vygotsky, and information processing approaches will be discussed.
Prerequisite: PSY 350 with D- or better
Available via Ecampus

PSY 456, SOCIAL DEVELOPMENT, 4 Credits
Covers theories and research concerning human social development. Topics include theories of socialization; the development of social relationships; the self-concept; emotion; sex roles; social cognition; prosocial behavior; morality; self-control; and aggression.
Prerequisite: PSY 350 with D- or better
Available via Ecampus

PSY 458, LANGUAGE ACQUISITION, 4 Credits
Psychological processes involved in the acquisition and use of language throughout childhood. Biological, cognitive, and social influences on language will be discussed, as well as personal uses of language, such as language in thought and reading.
Prerequisite: PSY 350 with D- or better

PSY 460, *ADVANCED SOCIAL RESEARCH METHODS, 4 Credits
Advanced experimental research methods in the social sciences. Issues in psychological construct operationalization, experimental design, data collection, analysis, and report writing will be emphasized. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with D- or better and PSY 360 [D-]
Available via Ecampus

PSY 462, PSYCHOLOGY OF DISABILITY, 4 Credits
Prerequisite: PSY 201 with C- or better or PSY 202 with C- or better or PSY 202H with C- or better

PSY 463, JUDGMENT AND DECISION MAKING, 4 Credits
Explores ways to improve judgment and decision making through the application of research from cognitive psychology. Emphasis on development of critical thinking skills.
Prerequisite: PSY 340 with D- or better

PSY 464, SOCIAL COGNITION, 4 Credits
Research and theory concerning cognitive structures and processes underlying social judgment and social behavior. Topics include attribution theory, social inference, person memory, schema-based information processing.
Prerequisite: PSY 360 with D- or better
Available via Ecampus

PSY 465, WOMEN, WEIGHT, AND BODY IMAGE, 4 Credits
Focuses on women’s increasing struggles with weight, eating disorders, and broader body image issues in contemporary society. Explores how social institutions such as media, medicine, government contribute to weight bias and unhealthy standards for appearance. Examines weightism as a system of oppression that intersects with other systems of oppression including sexism, racism, classism, heterosexism, ableism, and ageism.
Equivalent to: WGSS 465

PSY 466, *FAT STUDIES, 4 Credits
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSTLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better or WGSS 240 with D- or better or WGSS 262 with D- or better or WGSS 262H with D- or better or WGSS 270 with D- or better or WGSS 280 with D- or better or WGSS 280H with D- or better or WGSS 321 with D- or better or WGSS 325 with D- or better or WGSS 325H with D- or better or WGSS 340 with D- or better or WGSS 340H with D- or better or WGSS 350 with D- or better or WGSS 360 with D- or better or WGSS 360H with D- or better or WGSS 364 with D- or better or WGSS 364H with D- or better or WGSS 373 with D- or better or WGSS 375 with D- or better or WGSS 380 with D- or better or WGSS 380H with D- or better
Equivalent to: WGSS 466, WS 466
PSY 467, POLITICAL PSYCHOLOGY, 4 Credits
Survey of classic and contemporary perspectives in political psychology. Special focus on how citizens form political judgments. Topics include personality, affect, cognition, group influence, voting, nationalism, and political tolerance.
Prerequisite: PSY 360 with D- or better
Available via Ecampus

PSY 468, THE PSYCHOLOGY OF CLOSE RELATIONSHIPS, 4 Credits
Explores the research and theory on the development, maintenance, and dissolution of human relationships. The course will examine various directions to the study of interpersonal relationships, including attachment, evolutionary-biological, cognition, and interdependence. Topics will also include physical attraction, love, friendship, communication, trust, jealousy, and several issues that are specific to troubled dyadic relations.
Prerequisite: PSY 360 with D- or better
Available via Ecampus

PSY 470, *PSYCHOMETRICS AND PSYCHOLOGICAL TESTING, 4 Credits
An introduction to psychological measurement is provided with emphasis on the notions of reliability and validity; advanced correlation techniques are introduced. These methods are applied to contemporary tests of personality, aptitude, and achievement. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with D- or better and (PSY 340 [D-] or PSY 370 [D-] or PSY 380 [D-] or PSY 381 [D-] or PSY 481 [D-])

PSY 476, NONVERBAL BEHAVIOR, 4 Credits
Examines empirical findings, phenomena, and theories related to nonverbal behavior and its perception from a psychological perspective. Covers topics including: theories of nonverbal behavior encoding, decoding, and their accuracy; the neurophysiological basis for nonverbal behavior; valid assessments of nonverbal behavior abilities; and the impact that nonverbal behavior has on interaction processes and social relationships.
Prerequisite: PSY 201 with C- or better or PSY 202 with C- or better or PSY 202H with C- or better

PSY 480, ^CLINICAL RESEARCH METHODS, 4 Credits
Advanced research methods used in clinical psychology research. Design of studies, assessment, data collection, and interpretation will be discussed. The clinical content area focused on will vary. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PSY 301 with D- or better and (PSY 380 [D-] or PSY 381 [D-] or PSY 481 [D-])

PSY 482, PSYCHOTHERAPY, 4 Credits
Survey of the theory, techniques and research on the major contemporary systems of psychotherapy.
Prerequisite: PSY 370 with D- or better or PSY 380 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
Available via Ecampus

PSY 483, DEVELOPMENTAL PSYCHOPATHOLOGY, 4 Credits
Developmental perspective on child and adolescent psychological disorders including causal factors, associated features, and research-supported interventions.
Prerequisite: PSY 350 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
Available via Ecampus

PSY 484, ^PSYCHOLOGY OF ADDICTION, 4 Credits
Focuses on the psychological factors in drug and behavioral addictions and associated interventions. The approach will be biopsychosocial, addressing neurobiological, behavioral, psychological, and social factors that influence addiction. Topics will include epidemiology and public health impact, diagnosis, models of addiction, and intervention and treatment approaches.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: H 220 with C- or better or PSY 301 with C- or better or SOC 315 with C- or better

PSY 485, BEHAVIOR MODIFICATION, 4 Credits
Review of basics of operant and classical conditioning. Research on behavior modification and behavior therapy with both normal and abnormal animals, human adults, and children. Application areas include behavior problems, handicaps, eating disorders, time management, self-control stress management, contingency contracts, and cognitive therapies.
Prerequisite: PSY 350 with D- or better or PSY 380 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
Recommended: Background work in family life or education
Available via Ecampus

PSY 486, YOGA AND MENTAL HEALTH, 4 Credits
Examines the use of yoga in psychological practice with a particular focus on managing mental and physical illnesses.
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]

PSY 492, CONSERVATION PSYCHOLOGY, 4 Credits
Explores connections between the study of human behavior and the achievement of conservation goals. Understanding how people think about and interact with nature is crucial for promoting environmental sustainability and human well-being. Students will examine theory and research on human cognitive, emotional, and behavioral responses to nature.
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Available via Ecampus
PSY 493, POSITIVE PSYCHOLOGY, 4 Credits
Psychological theory, research, and interventions directed at how humans can flourish and identify and enhance positive strengths. Topics include positive emotional and cognitive states and processes, prosocial behavior, positive school and work environments, and discovering meaning in life.
Prerequisite: PSY 360 with D- or better or PSY 370 with D- or better
Available via Ecampus

PSY 494, ENGINEERING PSYCHOLOGY, 4 Credits
Survey human capabilities and limitations in human-machine interaction, including vision, memory, attention, motor control, and human error. Emphasis on theory and implications for system designs.
Prerequisite: PSY 340 with C- or better
Recommended: PSY 301

PSY 495, PSYCHOLOGY OF MEDITATION, 4 Credits
Explores the psychological processes of meditation, and requires regular meditation sessions by students. Readings ranging from traditional Eastern philosophy to empirical psychological research journal articles will focus on outcomes and effective methods of meditation practice.
Prerequisite: PSY 201 with D- or better or PSY 202 with D- or better

PSY 496, INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY, 4 Credits
Survey of psychological research and theory relevant to organizations, industry, and other work settings. Topics include training, employee selection, performance evaluation, work attitudes, and motivation.
Prerequisite: PSY 360 with D- or better or PSY 370 with D- or better
Available via Ecampus

PSY 497, EVOLUTIONARY PSYCHOLOGY, 4 Credits
Evolutionary approach to the study of psychology. Focus on psychological mechanisms as evolved traits.
Prerequisite: PSY 201 with D- or better and PSY 202 [D-]
Available via Ecampus

PSY 498, HEALTH PSYCHOLOGY, 4 Credits
Psychological factors in the maintenance of good health and in the prevention of, treatment of, and recovery from illness: Behavioral contributions to illness, life-style risk factors, stress and the immune system, psychological response to symptoms and care-givers, health habits and self-care, management of pain and chronic illness, disability and terminal illness.
Prerequisite: PSY 330 with D- or better or PSY 340 with D- or better or PSY 350 with D- or better or PSY 360 with D- or better or PSY 370 with D- or better or PSY 381 with D- or better or PSY 481 with D- or better
Available via Ecampus

PSY 499, SPECIAL TOPICS, 1-16 Credits
Newly emerging or specialized topics that can only be offered occasionally or for particular purposes. Each offering will be structured with a syllabus.
Equivalent to: PSY 422, PSY 499H
This course is repeatable for 30 credits.
Available via Ecampus

PSY 499H, SPECIAL TOPICS, 1-16 Credits
Newly emerging or specialized topics that can only be offered occasionally or for particular purposes. Each offering will be structured with a syllabus.
Attributes: HNRS – Honors Course Designator
Equivalent to: PSY 499

PSY 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 502, INDEPENDENT STUDY, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 503, THESIS, 1-16 Credits
Graded P/N.
This course is repeatable for 999 credits.

PSY 505, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 508, WORKSHOP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

PSY 510, PSYCHOLOGY INTERNSHIP, 1-16 Credits
Professional experience applying psychological science in a variety of employment settings under joint faculty and employer supervision.
Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus
PSY 514, RESEARCH METHODS I, 4 Credits
An introduction to the tools and methods that psychologists use to examine the processes that underlie human behavior. Emphasis is on the skills necessary for completing a research study: hypothesis formulation, design criteria, data collection, analysis, interpretation, write-up, and presentation of results. Utilizes a combination of readings, discussions, and class exercises. Course culminates in an independent research project proposal.
Prerequisite: ST 511 with B- or better

PSY 521, ISSUES IN PROFESSIONAL PSYCHOLOGY, 1 Credit
Professional development seminar focused on professional issues specific to the field of research-based psychology. Includes writing for publication, professional speaking, professional development and leadership, and current professional and research controversies. Each iteration of the course over the academic year will have a different focus. Graded P/N. This course is repeatable for 3 credits.

PSY 523, ETHICS IN PSYCHOLOGICAL RESEARCH, 1 Credit
Covers research ethics in psychology. Topics include the history of research-oriented ethical guidelines, ethical principles, working with an IRB, questionable research practices, and fraud. Meets OSU's Learning Outcome regarding the ethical conduct of research.
Recommended: An undergraduate-level psychological research methods course

PSY 526, PSYCHOLOGY OF GENDER, 4 Credits
Survey of theories, life cycles and contemporary problems of women and men in a social context. Scientific examination of gender related to psychological functioning and behavior. Topics can include psychological research on human similarities and differences in gender attitudes, relationships, sexuality, violence, employment, and mental health.
Recommended: PSY 202

PSY 531, GRADUATE BEHAVIORAL NEUROSCIENCE, 4 Credits
Neurobiological underpinnings of behavior examining animal and human research on neural structure and function in relation to typical and atypical behavior, including psychiatric disorders.

PSY 533, PSYCHOPHARMACOLOGY, 4 Credits
Drug-brain-behavior interactions. Psychoactive drugs and their relationships to normal and abnormal behavior in humans.
Recommended: Biological science background

PSY 537, MOTIVATION, 4 Credits
Biological, learning, and cognitive approaches to human and animal motivation. Topics include evolution, homeostasis, drive, arousal, incentive motivation, achievement motivation, and social motivation.
Recommended: PSY 301 and (PSY 330 or PSY 340)

PSY 541, GRADUATE SEMINAR IN COGNITION, 4 Credits
Cognitive psychology studies the processes by which human beings notice, encode, remember, and use information. A graduate-level survey that covers the history, methods, important findings, and major theories of the field, with an emphasis on reading and critically analyzing articles from the primary research literature. Topics of interest will include perception and object recognition, attention, working memory, long-term memory, concepts and categorization, and judgment and decision making.

PSY 542, PERCEPTION, 4 Credits
Fundamental concepts of animal and human sensation and perception, with emphasis on audition and vision. Applications of psychophysical methods to research in all sensory modalities. Includes review workshops on basic mathematical, physical and physiological concepts necessary to interpret research in this field.
Recommended: PSY 301 and (PSY 330 or PSY 340)

PSY 544, LEARNING AND MEMORY, 4 Credits
Experimental and theoretical work on learning, conditioning, and memory in animals and humans.
Recommended: PSY 301 and PSY 340

PSY 546, PSYCHOLOGY OF HUMAN COMPUTER INTERACTION, 4 Credits
Explore biological, behavioral, perceptual, cognitive and social issues relevant to humans interact with other computing technology from a psychological science perspective. Evaluate, design, and experimentally test human computer interactions using experimental methods in psychological science.

PSY 548, CONSCIOUSNESS, 4 Credits
Psychological, phenomenological, and physiological approaches to the content and processes of subjective awareness. Topics include philosophical issues, cortical and reticular neurophysiology, sleeping and dreaming, selective attention, imagery, and self-awareness.
Recommended: PSY 301 and PSY 340

PSY 551, LIFESPAN DEVELOPMENTAL SCIENCE, 4 Credits
The study of human change and stability over time. Topics may include, but are not limited to, theories, methodological approaches, and contexts for development, social development, cognitive development, and biopsychosocial processes including temperament and personality, resilience, health, thriving, emotion regulation, and developmental contexts.

PSY 554, COGNITIVE DEVELOPMENT, 4 Credits
Discusses intellectual development from infancy to adulthood. Topics include the origin of thinking, the development of perception, attention, memory, problem solving, language, academic skills, and social cognition. Piaget, Vygotsky, and information processing approaches will be discussed.
Recommended: PSY 350
PSY 556, SOCIAL DEVELOPMENT, 4 Credits
Covers theories and research concerning human social development. Topics include theories of socialization, the development of social relationships; the self-concept; emotion; sex roles; social cognition; prosocial behavior; morality; self-control; and aggression.
Recommended: PSY 350

PSY 558, LANGUAGE ACQUISITION, 4 Credits
Psychological processes involved in the acquisition and use of language throughout childhood. Biological, cognitive, and social influences on language will be discussed, as well as personal uses of language, such as language in thought and reading.
Recommended: PSY 350

PSY 561, GRADUATE SOCIAL PSYCHOLOGY, 4 Credits
A graduate level survey course of the theories, methods, and empirical findings that constitute the field of social psychology. Topics will include, but not be limited to, person perception, social cognition, attitudes, attitude change, persuasion, interpersonal attraction, relationships, small-group processes, altruism, and aggression.

PSY 562, PSYCHOLOGY OF DISABILITY, 4 Credits
Recommended: PSY 360

PSY 564, SOCIAL COGNITION, 4 Credits
Research and theory concerning cognitive structures and processes underlying social judgment and social behavior. Topics include attribution theory, social inference, person memory, schema-based information processing.
Recommended: PSY 360

PSY 565, WOMEN, WEIGHT, AND BODY IMAGE, 4 Credits
Focuses on women’s increasing struggles with weight, eating disorders, and broader body image issues in contemporary society. Explores how social institutions such as media, medicine, government contribute to weight bias and unhealthy standards for appearance. Examines weightism as a system of oppression that intersects with other systems of oppression including sexism, racism, classism, heterosexism, ableism, and ageism.
Equivalent to: WGSS 565

PSY 566, FAT STUDIES, 4 Credits
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566.
Equivalent to: WGSS 566, WS 566
Recommended: WGSS 223 or WGSS 223H or WGSS 224 or WGSS 240 or WGSS 262 or WGSS 262H or WGSS 270 or WGSS 280 or WGSS 280H or WGSS 321 or WGSS 325 or WGSS 325H or WGSS 340 or WGSS 340H or WGSS 350 or WGSS 360 or WGSS 360H or WGSS 364 or WGSS 364H or WGSS 373 or WGSS 375 or WGSS 380 or WGSS 380H

PSY 567, POLITICAL PSYCHOLOGY, 4 Credits
Survey of classic and contemporary perspectives in political psychology. Special focus on how citizens form political judgments. Topics include personality, affect, cognition, group influence, voting, nationalism, and political tolerance.

PSY 571, GRADUATE PSYCHOMETRICS, 4 Credits
A graduate level introduction to psychological testing theory and practice, and to ethical, sociopolitical, psychological, and psychometric issues in the use of psychological tests. Particularly emphasizes basic psychometric principles that are important in scale construction, test evaluation, and practical assessment.
Prerequisite: ST 511 with B- or better and ST 512 [B-]

PSY 576, NONVERBAL BEHAVIOR, 4 Credits
Examines empirical findings, phenomena, and theories related to nonverbal behavior and its perception from a psychological perspective. Covers topics including: theories of nonverbal behavior encoding, decoding, and their accuracy, the neurophysiological basis for nonverbal behavior; valid assessments of nonverbal behavior abilities; and the impact that nonverbal behavior has on interaction processes and social relationships.

PSY 581, GRADUATE SEMINAR IN CLINICAL RESEARCH AND THEORY, 4 Credits
Focuses on major concepts, theory, and empirical findings on the causes and treatment of psychological disorders. The seminar emphasizes culture, context, bias, and stigma, as well as application of principles of clinical science to students’ graduate program research agendas.

PSY 582, PSYCHOTHERAPY, 4 Credits
Survey of the theory, techniques and research on the major contemporary systems of psychotherapy.
Recommended: PSY 370 or PSY 381
PSY 583, DEVELOPMENTAL PSYCHOPATHOLOGY, 4 Credits
Developmental perspective on child and adolescent psychological disorders including causal factors, associated features, and research-supported interventions.
Recommended: PSY 350 or PSY 381 or PSY 481

PSY 584, PSYCHOLOGY OF ADDICTION, 4 Credits
Focuses on the psychological factors in drug and behavioral addictions and associated interventions. The approach will be biopsychosocial, addressing neurobiological, behavioral, psychological, and social factors that influence addiction. Topics will include epidemiology and public health impact, diagnosis, models of addiction, and intervention and treatment approaches.

PSY 585, BEHAVIOR MODIFICATION, 4 Credits
Review of basics of operant and classical conditioning. Research on behavior modification and behavior therapy with both normal and abnormal animals, human adults, and children. Application areas include: behavior problems, handicaps, eating disorders, time management, self-control, stress management, contingency contracts, and cognitive therapies.
Recommended: PSY 350 or equivalent work in family life or education.

PSY 586, YOGA AND MENTAL HEALTH, 4 Credits
Examines the use of yoga in psychological practice with a particular focus on managing mental and physical illnesses.
Recommended: PSY 201 and PSY 202

PSY 591, GRADUATE SEMINAR IN HEALTH PSYCHOLOGY, 4 Credits
Covers the theories, methods, and empirical findings that constitute the field of health psychology. Topics include, but are not limited to, the interaction of multiple factors involved in etiology, prevention, treatment, and course of illness and disability; health behavior, health promotion, and health risks; stress and coping in health; long-term care and adaptation to chronic illness or disability; practice of institutional healthcare.

PSY 592, CONSERVATION PSYCHOLOGY, 4 Credits
Explores connections between the study of human behavior and the achievement of conservation goals. Understanding how people think about and interact with nature is crucial for promoting environmental sustainability and human well-being. Students will examine theory and research on human cognitive, emotional, and behavioral responses to nature.
Recommended: PSY 201 and PSY 202

PSY 593, POSITIVE PSYCHOLOGY, 4 Credits
Psychological theory, research, and interventions directed at how humans can flourish and identify and enhance positive strengths. Topics include positive emotional and cognitive states and processes, prosocial behavior, positive school and work environments, and discovering meaning in life.
Recommended: PSY 360 or PSY 370

PSY 594, ENGINEERING PSYCHOLOGY, 4 Credits
Explores the psychological processes of meditation, and requires regular meditation sessions by students. Readings ranging from traditional Eastern philosophy to empirical psychological research journal articles will focus on outcomes and effective methods of meditation practice.
Recommended: (PSY 301 and PSY 340)

PSY 595, PSYCHOLOGY OF MEDITATION, 4 Credits
Survey human capabilities and limitations in human-machine interaction, including vision, memory, attention, motor control, and human error. Emphasis on theory and implications for system designs.
Recommended: PSY 201 and PSY 202

PSY 596, INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY, 4 Credits
Survey of psychological research and theory relevant to organizations, industry, and other work settings. Topics include training, employee selection, performance evaluation, work attitudes, and motivation.
Recommended: PSY 360 and PSY 370

PSY 598, HEALTH PSYCHOLOGY, 4 Credits
Psychological factors in the maintenance of good health and in the prevention of, treatment of, and recovery from illness: Behavioral contributions to illness, life-style risk factors, stress and the immune system, psychological response to symptoms and care-givers, health habits and self-care, management of pain and chronic illness, disability and terminal illness.
Recommended: 300-level course in psychology.

PSY 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

PSY 601, RESEARCH, 1-16 Credits
Research credits for PhD students in Psychological Science. Graded P/N. This course is repeatable for 99 credits.

PSY 602, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

PSY 603, THESIS/DISSERTATION, 1-16 Credits
Graded P/N. This course is repeatable for 999 credits.
PSY 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

PSY 606, SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

PSY 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

PSY 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

PSY 640, TOPICS IN ENGINEERING PSYCHOLOGY, 4 Credits
This course is repeatable for 99 credits.

PSY 643, APPLIED COGNITION, 4 Credits
Surveys a range of applied cognition research in real-world settings, including aviation, driving, business, education, sports, legal practice, and everyday activities.

PSY 649, ADVANCED ENGINEERING PSYCHOLOGY, 4 Credits
Advanced survey of human information processing and performance in human-technology systems, with emphasis on theory, methodology, and implications for system analysis and design.

PSY 660, TOPICS IN APPLIED COGNITION, 4 Credits
This course is repeatable for 99 credits.

PSY 690, TOPICS IN HEALTH PSYCHOLOGY, 4 Credits
This course is repeatable for 99 credits.

PSY 697, GRADUATE PSYCHOLOGICAL SCIENCE OF TEACHING AND LEARNING, 4 Credits
For graduate students of all majors on the translation of cognitive, social, and developmental psychological science for the practice of university teaching and learning. Topics include memory, attention, metacognition, motivation, interpersonal and developmental processes, and individual differences. Emphasis on critical review of theories and methods, and practical applications for university teaching.

PSY 699, SPECIAL TOPICS, 1-16 Credits
Special topics for advanced graduate students. Graded A-F. This course is repeatable for 99 credits.

Public Health (H)
Additional public health courses can be found under HHS.

H 100, INTRODUCTION TO PUBLIC HEALTH, 4 Credits
A basic overview of public health. Uses a mix of lectures, guest speakers, classroom activities and homework to help students understand the role of public health in eliminating health disparities, understanding epidemics, and setting policy.
Equivalent to: H 100H
Available via Ecampus

H 100H, INTRODUCTION TO PUBLIC HEALTH, 4 Credits
A basic overview of public health. Uses a mix of lectures, guest speakers, classroom activities and homework to help students understand the role of public health in eliminating health disparities, understanding epidemics, and setting policy.
Attributes: HPRS – Honors Course Designator
Equivalent to: H 100

H 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

H 201, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

H 206, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

H 210, *INTRODUCTION TO THE HEALTH CARE SYSTEM, 3 Credits
Provides tools to understand and critically assess the health care delivery system, its components, and the challenges created by its structure. The health care system will be considered from the perspective of several main players [e.g., patients, hospitals, doctors, health plans]. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

H 220, INTRODUCTION TO HEALTH DATA ANALYSIS, 3 Credits
Introduction to the application of biostatistics and probability to the health sciences. Topics include quantitative analysis and inference, statistical methods in the biosciences, and quantitative study to evaluate and control health problems.
Recommended: MTH 105 or MTH 111 or higher mathematics.
Available via Ecampus

H 225, *SOCIAL AND INDIVIDUAL HEALTH DETERMINANTS, 4 Credits
Overview of the macro (social/system/environmental) and micro (individual) contributors to premature disease, disability and population health. Selected behavioral theories supporting health risks and strategies for the prevention of premature disease/disability and the promotion of health. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus
H 250, INTRODUCTION TO HEALTH CARE MANAGEMENT, 3 Credits
Participants will learn key principles, practices and personalities of health care management. The content is broadly applicable to health care enterprises of every kind: public health organizations, physician practices and clinics, hospitals and health systems, agencies and service organizations, for-profit firms, not-for-profit enterprises, etc.
Prerequisite: H 210 (may be taken concurrently) with C- or better
Available via Ecampus

H 309, PRACTICUM IN HEALTH CARE SERVICES, 3-6 Credits
Supervised work experience in a health care service setting or health-related agency or program. Weekly progress reports and post-experience summary report and evaluation will be expected. Preplanned with instructor approval. Open to health care administration majors. Graded P/N.
This course is repeatable for 12 credits.

H 310, HEALTH FIELD EXPERIENCES, 3-6 Credits
Introductory field experience in a health or health-related worksite.
Graded P/N.
Prerequisite: H 210 with C- or better
This course is repeatable for 12 credits.
Available via Ecampus

H 312, HIV/AIDS AND STIS IN MODERN SOCIETY, 3 Credits
Fundamental principles relating to etiology, nature, prevention, and control of AIDS and other sexually transmitted diseases in contemporary society; emphasis on social, psychological, legal, economic, and ethical issues surrounding these diseases.
Available via Ecampus

H 319, INTRODUCTION TO HEALTH POLICY, 3 Credits
Describe the policy development process, including problem conceptualization, agenda setting, role of interest groups and public opinion, analysis of alternatives and selection of policy alternative.
Prerequisite: H 210 with C- or better
Available via Ecampus

H 320, INTRODUCTION TO HUMAN DISEASE, 3 Credits
Fundamental principles relating to etiology, nature, prevention, and control of communicable and noncommunicable diseases in human populations. Special emphasis on disease prevention and health promotion in the high risk diseases of modern, industrialized society.
Available via Ecampus

H 333, *GLOBAL PUBLIC HEALTH, 3 Credits
Introduction to the field of global health, its history, methods, and key principle; understanding global health inequities through case studies; overview of major global health prevention programs. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: H 333H
Available via Ecampus

H 333H, *GLOBAL PUBLIC HEALTH, 3 Credits
Introduction to the field of global health, its history, methods, and key principle; understanding global health inequities through case studies; overview of major global health prevention programs. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator
Equivalent to: H 333

H 344, *FOUNDATIONS OF ENVIRONMENTAL HEALTH, 3 Credits
Identifies environmentally-linked disease, population growth, and health concerns associated with toxic substances, food quality, air pollution, water pollution, noise, solid and hazardous waste, and pesticide use. Explores scientific topics related to environmental health in a global context that impact our collective environment. Compares and contrasts select environmental problems in the US to those that occur in the global community.
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

H 349, PEER HELPER SKILLS DEVELOPMENT, 3 Credits
Prepares the student for an active role as a peer helper in alcohol and drug abuse prevention and health education. Course work will include: drug, alcohol, addiction and other related health issues, basic listening and communication skills, conflict resolution, crisis recognition and referral. A major component will be affective learning situations designed to promote self-awareness and personal growth.

H 364, DRUGS, SOCIETY AND HUMAN BEHAVIOR, 3 Credits
Drug use and abuse; theories of addiction; basic principles of drug action regarding the use of sedative and stimulative compounds; alcohol; opiates; hallucinogens; designer drugs; cocaine; and over-the-counter products. Particular emphasis on the role of the individual's value orientation, decision-making, and self-responsibility in treatment and educational approaches to prevention.
Prerequisite: PSY 201 with C- or better or PSY 202 with C- or better
Equivalent to: H 364H
H 364H, DRUGS, SOCIETY AND HUMAN BEHAVIOR, 3 Credits
Drug use and abuse; theories of addiction; basic principles of drug action regarding the use of sedative and stimulative compounds; alcohol; opiates; hallucinogens; designer drugs; cocaine; and over-the-counter products. Particular emphasis on the role of the individual's value orientation, decision-making, and self-responsibility in treatment and educational approaches to prevention.
Attributes: HNRS – Honors Course Designator
Prerequisite: PSY 201 with C- or better or PSY 202 with C- or better
Equivalent to: H 364

H 365, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

H 376, EVIDENCE-BASED HEALTH PROMOTION, 3 Credits
Future health professionals will learn what makes a successful health promotion program. Students will lean about research-tested programs that are effective for promoting health in community, clinical, and educational settings. Students will begin to develop the skills needed to critically examine evidence in the field and select programs to address current public health issues.
Prerequisite: H 100 with C- or better and H 225 [C-]
Available via Ecampus

H 385, SAFETY AND HEALTH STANDARDS AND LAWS, 3 Credits
Emphasis on the Occupational Safety and Health Act; study includes the scope and duties under the act, enforcement, and adjudication procedures and OSHA litigation; components of Oregon-OSHA.
Available via Ecampus

H 388, *GLOBAL ENVIRONMENTAL HEALTH, 3 Credits
An overview of global environmental issues, including climate change, air pollution, water, e-waste, and metals, and their impacts on human health. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues

H 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: H 399H
This course is repeatable for 16 credits.

H 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: H 399
This course is repeatable for 16 credits.

H 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

H 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

H 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

H 404, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

H 405, RESEARCH AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

H 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

H 407, SEMINAR, 2 Credits
Seminar to prepare students for their internship in public health. Focus is on professionalism, leadership skills, identifying strengths, and transitioning from college to graduate school or the working world.
Equivalent to: H 407H
Recommended: H 480 for students in EOH (Environmental and Occupational Health) minors. H 250 for students in the HMP (Health Management and Policy) option. H 225 and H 320 for students in the HPHB (Health Promotion and Health Behavior) option
Available via Ecampus

H 407H, SEMINAR, 2 Credits
Seminar to prepare students for their internship in public health. Focus is on professionalism, leadership skills, identifying strengths, and transitioning from college to graduate school or the working world.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 407
Recommended: H 480 for students in EOH (Environmental and Occupational Health) minors. H 250 for students in the HMP (Health Management and Policy) option. H 225 and H 320 for students in the HPHB (Health Promotion and Health Behavior) option

H 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

H 409, PRACTICUM, 1-6 Credits
Supervised work experience in a public health or health care administration setting. Open to majors in public health. Graded P/N.
This course is repeatable for 16 credits.

H 410, INTERNSHIP, 1-12 Credits
Directed field experience with participation in a community, worksite, or health agency program. Experience is individually arranged to meet student needs. Graded P/N.
Prerequisite: H 407 with C- or better
This course is repeatable for 24 credits.
Recommended: H 436 (for HMP students). H 225 and H 320 and H 476 (for HPHB students)

H 414, BE THE CHANGE FOR GLOBAL HEALTH TRANSFORMATION, 3 Credits
Learn how stigma and discrimination create differences in access to resources and lead to health injustice and disparities. Draw on social justice and community mobilization frameworks to explore health-related social movements and social change necessary to improve public health throughout the world. Contextualize local work to eliminate health disparities in the United States within a global context and as part of global processes. Learn how community mobilization can lead to the transformation of structures, systems, and ideologies that drive discrimination and health disparities.
Prerequisite: H 100 with C- or better
H 415, PEOPLE ON THE MOVE: MIGRATION AND GLOBAL HEALTH, 3 Credits
Overview of migration as an issue of global health importance; social determinants of migrant health and disparities; migrant health and sustainable development.
Prerequisite: H 100 with C- or better

H 416, GLOBAL POVERTY AND HEALTH DISPARITIES, 3 Credits
Learn why poverty remains a primary factor in poor health outcomes around the world, driving limited access to clean water and sanitation, healthful food, education, safety, basic rights, and health care. Examine global poverty, including the causes and consequences of global poverty and the ways in which social structures, identities, and policies shape wealth and health. Discuss global distribution of wealth, the wealth-health gradient and social determinants of health in a global context, causes and consequences of global poverty, and policy and programmatic intervention strategies aimed at reducing material hardship and global inequality.
Prerequisite: H 100 with C- or better

H 418, PUBLIC HEALTH ETHICS AND ISSUES, 3 Credits
Current ethical issues in public health, including gender and ethnicity in employment, pharmaceutical controls, product liability, advertising, and export of high technology.

H 421, MENTAL HEALTH, 3 Credits
Examination of social, governmental, legal and individual mental health issues. Brief overview of some major mental disorders.
Prerequisite: H 225 with C- or better and H 320 [C-]

H 422, HEALTH, AGING AND CONTROL OF CHRONIC DISEASES, 4 Credits
Epidemiology of the major chronic diseases, risk factors, potential methods of prevention/intervention, ethical issues, and efficacy of current methods of prevention and control. Emphasis on adult populations and public health services, policies, and programs at the local, state, and federal levels designed to promote healthy aging.
Recommended: 9 credits of health course work.

H 425, FOUNDATIONS OF EPIDEMIOLOGY, 3 Credits
Measures of disease frequency; measures of effect; association and causation; sources of inaccuracy; experimental and observational study designs. Lec/rec.
Prerequisite: H 220 with C- or better or ST 201 with C- or better or ST 314 with C- or better or ST 351 with C- or better
Available via Ecampus

H 432, ECONOMIC ISSUES IN HEALTH AND MEDICAL CARE, 3 Credits
Application of economic principles to the health care field: the demand for medical care and insurance, health care suppliers, health care markets.
Prerequisite: (ECON 201 with C- or better or ECON 201H with C- or better) and H 210 [C-]
Available via Ecampus

H 434, *HEALTH CARE LAW AND REGULATION, 3 Credits
Legal aspects of health care delivery; tort law and its applications; professional liability and liability insurance; laws relative to health care institutions, cost controls, antitrust and access. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: H 210 with C or better and H 250 [C-] and WR 222 [C-]
Available via Ecampus

H 436, ADVANCED TOPICS IN HEALTH CARE MANAGEMENT, 3 Credits
Covers how health services are governed and organized; how health care organizations assess and adapt to change; constraints/opportunities in shaping organizational performance; leadership; strategic decision-making and the use of evidence-based management in health care.
Prerequisite: H 210 with C- or better and H 250 [C-]
Available via Ecampus

H 445, *OCCUPATIONAL HEALTH, 3 Credits
Current and historical topics in the area of occupational health, with particular emphasis on the types of materials that produce human health effects; clinical and epidemiologic data used to assess the public health importance of occupational pollutants and to evaluate control strategies.
(Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

H 448, PUBLIC HEALTH TOXICOLOGY, 3 Credits
Introduction to the concepts and principles of toxicology as they apply to environmental and occupational health
Prerequisite: H 344 with C- or better
Recommended: One term of basic chemistry
Available via Ecampus

H 449, MASS MEDIA AND HEALTH, 3 Credits
Designed to examine the effects of mass media on population health, from the negative impact of advertising of cigarettes, alcohol and junk food, to the (hopefully) positive impact of public-health campaigns.
Prerequisite: H 225 with C- or better and H 320 [C-]
H 457, FINANCIAL MANAGEMENT OF
HEALTH CARE ORGANIZATIONS, 3 Credits
Utilization of standard financial tools needed to manage the capital
resources of health care organizations. Includes funding capital projects,
product costing, budgeting methods, capital formation and investment
strategies.
Prerequisite: H 210 with C- or better and H 250 [C-] and BA 315 [C-]
Available via Ecampus

H 458, REIMBURSEMENT MECHANISMS,
3 Credits
Introduces and analyzes the different types of healthcare reimbursement
methodologies used in the U.S. health care system.
Prerequisite: H 210 with C- or better
Available via Ecampus

H 461, SEXUALITY: A HEALTH SCIENCE
PERSPECTIVE, 3 Credits
Exploration of the meaning of sexuality from a variety of contemporary
health science perspectives; aspects of sex and sexuality fundamental to
total health; issues central to the health educator role examined.

H 465, *PUBLIC HEALTH AND WOMEN:
SOCIAL AND POLICY ISSUES, 3 Credits
Public health approach to the identification of women’s health needs in the
United States and in other countries as it relates to the intersection of
race, ethnicity, social class, sexual orientation, age, and ability. (Bacc Core
Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Recommended: 6 credits in public health.

H 468, FINANCING AND ADMINISTRATION
OF LONG-TERM CARE, 3 Credits
Examines the financing and administration of long term care. Emphasis is
on a system-wide overview and specific application to nursing facility
management.

H 474, PUBLIC HEALTH AND VIOLENCE IN
SOCIETY, 3 Credits
Examination of violence as a major public health issue. Historical, social,
environmental, economic, behavioral and psychological aspects of
assaultive violence, spousal abuse, rape and sexual assault, child abuse,
child sexual abuse, suicide, the effects of the media on violence, drug
abuse and violence, and related public health problems in contemporary
American society. Emphasis on health and the efficacy of current efforts
aimed at ameliorating these problems and potential for alternative public
health models for prevention and intervention.

H 476, ^PLANNING AND EVALUATING
HEALTH PROMOTION PROGRAMS, 4
Credits
A systematic approach to planning, implementing and evaluating health
promotion programs in a variety of health related settings. Students will
be writing a series of drafts to effectively develop a health promotion
program plan. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: H 225 with C- or better and H 320 [C-] and H 376 [C-]

H 477, DIETARY INTERVENTIONS FOR
PUBLIC HEALTH, 3 Credits
A public health perspective on the practice of population-based dietary
intervention. Examination of relevant theories, research, and practice that
pertain to health promoters/educators.
Prerequisite: NUTR 225 with C- or better
Equivalent to: NUTR 477

H 480, UNDERGRADUATE EOH SEMINAR,
1 Credit
Explores current topics in environmental health and safety. EOH faculty
will discuss their current research interests; EOH graduate student
speakers will share their environmental health and safety internship
experiences. Documentaries will be viewed to introduce topics of
discussion. Features will be discussions relating directly to ongoing,
current environmental/occupational health crises, both in the United
States and around the world. Graded P/N.
This course is repeatable for 2 credits.
Available via Ecampus

H 489, EMERGENCY AND DISASTER
MANAGEMENT, 3 Credits
Study of preparedness, response, recovery and business resumption
strategies, activities and applications needed to effectively deal with
emergency and disaster incidents.

H 491, SELECTED TOPICS, 1-3 Credits
Recent changes and advances in public health and health care
administration and their application to special fields of study. Topics vary
from term to term and year to year.
Equivalent to: H 491H
This course is repeatable for 6 credits.

H 491H, SPECIAL TOPICS, 1-3 Credits
Recent changes and advances in public health and health care
administration and their application to special fields of study. Topics vary
from term to term and year to year.
Attributes: HNRS – Honors Course Designator
Equivalent to: H 491
This course is repeatable for 6 credits.

H 494, APPLIED ERGONOMICS, 3 Credits
Principles of occupational ergonomics for managing optimal worker
performance and well-being.

H 495, DESIGN FOR ENVIRONMENT,
SAFETY, AND HEALTH, 3 Credits
Systematic consideration of environmental, safety, and health concerns
at the earliest possible stage in the lifecycle design engineering of
products, technologies, and manufacturing processes.

H 501, RESEARCH AND SCHOLARSHIP,
1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

H 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
H 505, READING AND CONFERENCE, 1-16
Credits
This course is repeatable for 16 credits.

H 506, PROJECTS, 1-16
Credits
This course is repeatable for 16 credits.

H 507, SEMINAR, 1-16
Credits
Section 1. Internship (1). Graded P/N.
This course is repeatable for 16 credits.

H 508, WORKSHOP, 1-16
Credits
This course is repeatable for 16 credits.

H 509, PRACTICUM, 1-16
Credits
Supervised work experience in a public health or health care administration setting. Open to majors in public health. Graded P/N.
This course is repeatable for 16 credits.

H 510, INTERNSHIP, 1-16
Credits
Directed field experience with participation in a community, worksite, or health agency program. Experience is individually arranged to meet student needs. Graded P/N.
This course is repeatable for 16 credits.
Available via Ecampus

H 511, COMMUNITY, CULTURE, AND GLOBAL HEALTH, 3
Credits
Overview of health issues across cultures, ethnic groups, and regional/national boundaries from a critical and interdisciplinary perspective. Special emphasis on understanding social and behavioral factors that influence health in underserved communities/groups, especially ethnic/racial minorities, women, children, and migrants.

H 512, INTRODUCTION TO ENVIRONMENTAL AND OCCUPATIONAL HEALTH SCIENCES, 3
Credits
Introduction to environmental and occupational health. Hazards affecting human health are examined in the context of current social, political and regulatory pressures.
Available via Ecampus

H 513, INTEGRATED APPROACH TO PUBLIC HEALTH, 12
Credits
An integrated approach to introduce students to the core knowledge and methods used in public health, including evidence-based approaches to public health, public health and health care systems, planning and management to promote health, and policy in public health.

H 514, ENVIRONMENT, SAFETY AND HEALTH SEMINAR, 1
Credit
One-credit graduate seminar on current topics of interest and importance to the environmental health and occupational safety field. Critical reading of research publications, discussion of controversial issues facing ESH professionals, and/or presentation of current ESH research.
This course is repeatable for 3 credits.

H 515, RESEARCH METHODS IN SOCIAL AND BEHAVIORAL HEALTH SCIENCES, 3
Credits
Provides an introduction to quantitative research methods and design. Topics include definition of research problems and questions, hypothesis generation, research design, sampling, variable definition and measurement, data collection, and ethical considerations. Also provides a brief introduction to qualitative and mixed methods.

H 516, RESEARCH METHODS IN GLOBAL HEALTH, 3
Credits
Overview of research methods used to understand health, illness, health care, and health-seeking behavior in international settings. Special emphasis on the use of qualitative and mixed methods in international health research.

H 518, PUBLIC HEALTH ETHICS AND ISSUES, 3
Credits
Explores key ethical issues in the context of public health practice; codes and guidelines for ethical conduct of public health practice; issues related to social accountability, vulnerable populations, and ethical framework for community engagement.
Available via Ecampus

H 519, DISPLACEMENT, MIGRATION, AND GLOBAL HEALTH, 3
Credits
Critical examination of health of displaced/migrant populations with an emphasis on health disparities and social determinants. Understanding intersections of humanitarianism, migration, vulnerability, and displacement from a global health perspective.

H 520, HEALTH DISPARITIES, 3
Credits
Health disparities based on race/ethnicity, culture, social class, and rural/urban residence, among others; strategies to reduce disparities, promote health, and prevent disease in diverse populations.
Available via Ecampus

H 521, MENTAL HEALTH, 3
Credits
Focus upon mental health policy development, in relation to federal and state government services and regulations, implementation of services.

H 522, HEALTH, AGING AND CONTROL OF CHRONIC DISEASES, 4
Credits
Epidemiology of the major chronic diseases, risk factors, potential methods of prevention/intervention, ethical issues, and efficacy of current methods of prevention and control. Emphasis on adult populations and public health services, policies, and programs at the local, state, and federal levels designed to promote healthy aging.
Recommended: 9 credits of public health course work.
H 523, FOUNDATIONS OF PUBLIC HEALTH, 4 Credits
Fundamental principles, concepts and tools used in public health to promote the health of populations. Using a combination of case study method, lecture and discussion, students will develop a broad understanding of public health and recognition of how discipline-specializations address the social, behavioral and environmental determinants of public health.
Available via Ecampus

H 524, INTRODUCTION TO BIOSTATISTICS, 4 Credits
Quantitative analysis and interpretation of health data including probability distributions, estimation of effects, and hypothesis-tests such as Chi-square, one-way ANOVA, and simple linear regression.
Available via Ecampus

H 525, EPIDEMIOLOGICAL METHODS I, 3 Credits
Introduction to the concepts and methods of epidemiology. Topics include measures of population health, screening, study design, measures of association, and interpretation of epidemiological data.
Prerequisite: H 513 with B- or better or H 535 with B- or better

H 526, EPIDEMIOLOGICAL METHODS II, 3 Credits
Concepts and methods of epidemiological analysis; standardization; stratified analysis; confounding and its control; planning and conducting epidemiologic research; role of multivariate analysis in epidemiologic research.
Prerequisite: H 524 with B- or better and H 525 [B-]

H 527, CRITICAL ASSESSMENT OF INTERNATIONAL HEALTH PROGRAMS, 3 Credits
Introduces the critical evaluation framework of assessing international health development programs, based on self-determination and community ownership principles. The framework of assessment method includes three levels: upstream evaluation, midstream evaluation, and downstream evaluation.
Recommended: H 528 and H 529

H 528, GLOBAL HEALTH ISSUES, 3 Credits
Examines major issues in health developments of global significance, their causes and impacts on international health, and methods and strategies to address them.

H 529, INTERNATIONAL HEALTH, 3 Credits
Overview of the epidemiological, economic, political, sociological, and cultural factors that impact on international health. Special emphasis on the methods of prevention/intervention utilized in coping with health problems on an international level.

H 530, HEALTH POLICY ANALYSIS AND POLITICS, 3 Credits
Examination of current health policy issues affecting health care programs, services, and organization as well as the role of politics in public health and health policy. Exploration of processes by which health policy proposals are generated, promoted, defeated, modified and implemented.
Prerequisite: H 513 with B- or better or HHS 514 with B- or better
Available via Ecampus

H 532, ECONOMIC ISSUES IN HEALTH AND MEDICAL CARE, 3 Credits
Application of economics principles to the health care field: the demand for medical care and insurance, health care suppliers, health care markets.
Recommended: ECON 201

H 533, HEALTH SYSTEMS ORGANIZATION, 3 Credits
Examines the nature of health and health care services and reviews the role of government and the free market on health services. Alternative ways of organizing, financing, and delivery of health care services are explored.
Available via Ecampus

H 534, HEALTH CARE LAW AND REGULATION, 3 Credits
Legal aspects of health care delivery; tort law and its applications; professional liability and liability insurance; laws relative to health care institutions, cost controls, antitrust and access.

H 535, INTERPRETING EPIDEMIOLOGIC EVIDENCE, 3 Credits
Intended for students in the human sciences and allied health fields. Introduces basic epidemiology concepts. Topics will include measures of disease frequency, assessing population health, causal logic, quantifying associations between exposures and health outcomes, epidemiologic study design, and threats to study validity (random error, bias, confounding). Examples focus on application of epidemiological methods to a variety of health-related fields.

H 536, HEALTHCARE ORGANIZATION LEADERSHIP THEORY AND BEHAVIOR, 3 Credits
Overview of organization theory and behavior in health care organizations. Emphasis is on developing an understanding of the factors and forces that influence the structures, behaviors, and operations of health care delivery organizations. This understanding will be developed through consideration of organizations, their environments, and the roles of individuals working in management.
Prerequisite: H 513 with B- or better or HHS 514 with B- or better
Available via Ecampus
H 537, INJURY EPIDEMIOLOGY, 3 Credits
An overview of the distribution and determinants of injuries, methodological issues specific to injury epidemiology, and approaches to injury control.
Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 513 with B- or better
Recommended: Graduate epidemiology training

H 538, PUBLIC AND PRIVATE HEALTH INSURANCE, 3 Credits
Introduction to the principles and practices of public or social and commercial health insurance, and their financial reimbursement mechanisms.

H 540, WATER AND HUMAN HEALTH, 3 Credits
Critically examine the complex relationship between water quality, human activities, and population health.

H 541, AIR QUALITY AND HUMAN HEALTH, 3 Credits
Examination of the major sources of air pollution, its impact on ecosystems and climate change, and population health. Will also discuss technologies and introduce regulations that are used to control air pollutants.

H 542, ENVIRONMENTAL AND OCCUPATIONAL HEALTH RISK ASSESSMENT, 3 Credits
Understand concepts, principles and practices in modern environmental and occupational risk analysis and how they are utilized to make evidence-based decisions by regulatory agencies.

H 543, EXPOSURE SCIENCE I, 4 Credits
Overview of the concepts, principles and practices in modern environmental and occupational exposure assessment. Exposure Science I provides a broad introduction to environmental and occupational exposure assessment methods, while Exposure Science II focuses on sampling and measurement methods.

H 544, ENVIRONMENTAL AND OCCUPATIONAL EPIDEMIOLOGY, 3 Credits
Examines exposure assessment methodology and epidemiological study designs that are commonly used in environmental and occupational health science in order to characterize the impact of environmental and occupational exposures on population health.
Prerequisite: H 525 with C or better
Recommended: Graduate level statistics course

H 546, PHYSICAL AGENTS AND HUMAN HEALTH, 3 Credits
Focus on physical agents (heat, noise, vibration, radiation) and health risks associated with these agents. It covers the range and sources of exposure to physical agents, methods of characterizing these exposures, effects on human health, and the regulations/standards that set limits for physical agents. Lec/lab.

H 547, GIS AND PUBLIC HEALTH, 4 Credits
Applications of geographic information systems (GIS) to public health are reviewed, including mapping, spatial analysis methods, estimating access, and exposure assessment. This course is geared toward individuals involved in public health who have no (or introductory level) knowledge of GIS. Lec/lab.

H 548, PUBLIC HEALTH TOXICOLOGY, 3 Credits
Introduction to the concepts and principles of toxicology as they apply to environmental and occupational health.
Recommended: H 344 with a grade of C- or better and one term of basic chemistry.
Available via Ecampus

H 549, MASS MEDIA AND HEALTH, 3 Credits
Examines the effects of mass media on population health, from the negative impact of advertising of cigarettes, alcohol and junk food, to the (hopefully) positive impact of public health campaigns.
Prerequisite: H 571 with C or better

H 550, SOCIAL EPIDEMIOLOGY, 3 Credits
Explores the social determinants of health at the population level. Primary focus is on introduction to methods specific to social epidemiology, but will also provide an overview of current understanding of the empirical associations between social factors and health.
Prerequisite: H 525 with B or better
Recommended: Introductory course in epidemiology

H 551, APPLIED EPIDEMIOLOGICAL ANALYSIS OF SECONDARY DATA, 3 Credits
Practical experience performing a hypothesis-driven epidemiological analysis utilizing secondary surveillance or other appropriate data set, writing an analytical plan, appropriate programming for the analysis (using STATA or SAS), understanding the analysis output, preparing tables, and interpreting results.
Prerequisite: H 526 with B- or better and H 560 [B+] and H 580 [B-]

H 552, DISASTER EPIDEMIOLOGY, 3 Credits
Describe the impact of natural and manmade disasters on human health, understand epidemiologic methods specific to disasters, and apply fundamental epidemiologic methods to identify and characterize disaster-related adverse health outcomes.
Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better

H 554, EPIDEMIOLOGY OF AGING, 3 Credits
An overview of the core principles of the epidemiology of aging is provided. There will be an emphasis on health and disease processes in older adults. Students will learn essential study design and analytic issues that may arise in studies of aging.
Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better
H 555, CANCER EPIDEMIOLOGY, 3 Credits
Introduction to basic concepts and methodology in cancer epidemiology. 
Prerequisite: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better

H 556, STRATEGIC MANAGEMENT OF HEALTH SERVICE ORGANIZATIONS, 3 Credits
Theories and methodologies of long-range planning and strategic management in health care organizations.

H 557, FINANCIAL MANAGEMENT OF HEALTH CARE ORGANIZATIONS, 3 Credits
Utilization of standard financial tools needed to manage the capital resources of health care organizations. Includes funding capital projects, product costing, budgeting methods, capital formation and investment strategies.
Recommended: H 210 and H 250

H 558, REIMBURSEMENT MECHANISMS, 3 Credits
Techniques used in cost-effectiveness analysis. Examples are drawn from the public health and health economics literature.

H 559, PUBLIC HEALTH SURVEILLANCE, 3 Credits
An introduction to public health surveillance systems (national and international) for chronic and infectious diseases. Utility of existing surveillance systems for secondary epidemiological data analysis.
Prerequisite: H 524 with B- or better and H 525 [B-]

H 560, PUBLIC HEALTH SURVEILLANCE, 3 Credits
An introduction to public health surveillance systems (national and international) for chronic and infectious diseases. Utility of existing surveillance systems for secondary epidemiological data analysis.
Prerequisite: H 524 with B- or better and H 525 with B- or better or H 514 with B- or better

H 562, INFECTIOUS DISEASE EPIDEMIOLOGY, 3 Credits
Understand epidemiologic methods specific to infectious diseases, apply fundamental epidemiologic methods to infectious disease questions, and describe the broad trends in global infectious disease burden. The application methods and principles will be explored through lectures, discussions, assignments and writing projects.
Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or H 514 with B- or better

H 563, PHYSICAL ACTIVITY EPIDEMIOLOGY, 3 Credits
Physical activity epidemiology will focus on current research, controversial issues, and methodological problems in the epidemiology of physical activity, exercise, and health.
Prerequisite: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better
Recommended: H 524

H 564, COMPUTING TOOLS AND HEALTH DATA ANALYSIS, 3 Credits
Modern computational biostatistics for analyzing health data, emphasizing important technologies and methods for data processing and understanding of how they work. Topics will evolve over time as new procedures are developed.
Corequisites: H 524

H 565, PUBLIC HEALTH AND WOMEN: SOCIAL AND POLICY ISSUES, 3 Credits
Public health approach to the identification of women’s health needs in the United States and in other countries as it relates to the intersection of race, ethnicity, social class, sexual orientation, age, and ability.
Equivalent to: BA 565
Recommended: 6 credits in public health.

H 566, DATA MINING IN PUBLIC HEALTH, 3 Credits
An introduction to high-dimensional data analysis and data mining techniques used as an information technology tool to extract previously unknown and potentially useful information from large databases in biology, medicine, and public health.
Recommended: H 581 and H 564

H 568, FINANCING AND ADMINISTRATION OF LONG-TERM CARE, 3 Credits
Examines the financing and administration of long term care. Emphasis is on a system-wide overview and specific application to nursing facility management.

H 569, MATERNAL AND CHILD HEALTH, 3 Credits
Women’s reproductive health and health of children stressing causation, management, and prevention of public health problems. Epidemiological analysis of morbidity and mortality in children and women of childbearing age; impact of social, political and economic influences on the health of women and children; comparison of issues and problems of industrialized versus developing nations. Consideration of health issues of interest to the many diverse racial and ethnic groups of women and children in the U.S. as well as the global village.

H 571, PRINCIPLES OF HEALTH BEHAVIOR, 3 Credits
Theoretical approaches to behavior change in health promotion/education research and practice; factors influencing health behaviors, ethical behavior change issues, behavioral interventions for special populations.
Available via Ecampus

H 572, COMMUNITY ORGANIZATION FOR HEALTH PROMOTION AND EDUCATION, 3 Credits
History, theory, and practice of community organizing for health advocacy; focus on group processes, use of media, leadership, coalitions, grass roots methods and social change.

H 573, INTRODUCTION TO MULTILEVEL/HIERARCHICAL MODELS, 3 Credits
Introduction to the theory and application of hierarchical models to problems in epidemiology and public health. Hierarchical models will be dealt with using both frequentist and Bayesian frameworks.
Recommended: H 581
**H 575, EVALUATION OF HEALTH PROMOTION AND EDUCATION PROGRAMS, 3 Credits**
Provides theoretical and practical bases for program evaluation. Develops basic skills in a variety of approaches to evaluation, including techniques that are particularly suitable for evaluating health promotion, community health improvement, and related health and social services programs. Course learning is synthesized through designing an evaluation framework and methodology for a relevant program.

**Prerequisite:** H 513 with B- or better or H 515 with B- or better or HHS 514 with B- or better

*Available via Ecampus*

**H 576, PROGRAM PLANNING FOR HEALTH/HUMAN SERVICES, 4 Credits**
Provides students with an introduction to the principles of program planning and the development of program plans, with a focus on evidence-based public health/human services. Students will have the opportunity to integrate skills developed through prior courses in the context of writing a program plan.

**Prerequisite:** (H 515 with C- or better or HHS 514 with C- or better) and H 571 [C-] and H 575 [C-]

**H 578, INTRODUCTION TO MOLECULAR EPIDEMIOLOGY I, 3 Credits**
A survey of and introduction to the methods and issues arising in genetics and molecular epidemiology, including key biostatistical methods, study designs, and technologies used in the conduct of these studies. Students will gain experience conducting critical reviews of research papers with respect to study design and biostatistical analysis.

**Prerequisite:** (H 524 with C or better and H 526 [C])

**Recommended:** Knowledge of and familiarity with basic concepts of molecular biology (DNA replication, transcription, and translation)

**H 580, LINEAR REGRESSION AND ANALYSIS OF TIME TO EVENT DATA, 4 Credits**
Multiple linear regression analysis for measurement data and survival analysis methods for time to event health data, including modes of inference, diagnostics, model selection, and reporting conclusions. Lec/lab.

**Prerequisite:** (H 524 with C or better or HDFS 530 with C or better)

**H 581, GENERALIZED LINEAR MODELS AND CATEGORICAL DATA ANALYSIS, 4 Credits**
Biostatistical methods focusing on binary and count data will provide a foundation for understanding and implementing generalized linear regression and categorical data models that are commonly used to analyze epidemiological and public health data from cohort, case-control, and clinical trial study designs. Lec/lab.

**Recommended:** H 580

**H 582, ANALYSIS OF CORRELATED HEALTH DATA, 3 Credits**
Biostatistical methods for clustered, repeated measures, and longitudinal correlated health data, with an introduction to applications of linear and generalized linear mixed models and generalized estimating equations.

**Prerequisite:** H 581 with C or better

**H 583, ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY MANAGEMENT, 4 Credits**
Studies the design and management principles and practices in the environment, safety and health field.

**H 584, ANALYSIS OF INTERVENTION STUDIES AND CLINICAL TRIALS, 3 Credits**
Principles of data analysis from intervention studies and clinical trials, including professional graphical and tabular presentation, reproducibility and reliability of measurements, and controlling the Type I error rate when analyzing multiple endpoints. Basic principles of designing experiments are also covered including blocking, stratification, interaction, and control of variability.

**Prerequisite:** (H 524 with C or better or HDFS 530 with C or better)

**H 585, ENVIRONMENT, SAFETY AND HEALTH POLICY AND LAW, 3 Credits**
Survey of the environment, safety and health policy and law in the United States. Furnishes the basic knowledge and general understanding about policy and law-related issues important to all environmental health and safety professionals.

**Recommended:** H 385

**H 586, BAYESIAN BIOSTATISTICS IN PUBLIC HEALTH, 3 Credits**
An examination of methods for designing and implementing Bayesian analysis to address scientific questions through hands-on experience with health data. This survey course also covers proper interpretation and communication of results from practical Bayesian methods for biostatistics data analysis, with illustrations of the utility of Bayesian ideas in public health.

**Prerequisite:** H 581 with C or better

**H 587, TIME TO EVENT ANALYSIS OF HEALTH DATA, 3 Credits**
Biostatistical models and methods for survival analysis of time to event data that are routinely encountered in biomedical and health research.

**Prerequisite:** (H 524 with C or better or HDFS 530 with C or better)

**H 588, APPLIED OCCUPATIONAL SAFETY AND HEALTH, 3 Credits**
The management and technical aspects of a workplace safety and health program are identified and assessed. Students completing the course receive a 30-hour OSHA General Industry card.
**H 589, EMERGENCY AND DISASTER MANAGEMENT, 3 Credits**
Study of preparedness, response, recovery and business resumption strategies, activities and applications needed to effectively deal with emergency and disaster incidents.

**H 590, OCCUPATIONAL ERGONOMICS AND BIOMECHANICS, 3 Credits**
Examines the advanced theories, applications, and contemporary topics of occupational ergonomics and biomechanics. Topics include muscle physiology, work-related musculoskeletal disorders, assessing biomechanical exposure in the workplace, various material handling assessment tools, 3-Dimensional Static Strength Prediction Program, human vibrations, and implementing ergonomic interventions.

**H 591, SELECTED TOPICS, 1-3 Credits**
Recent changes and advances in public health and health care administration and their application to special fields of study. Topics vary from term to term and year to year. 
*This course is repeatable for 9 credits.*

**H 592, SPATIAL EPIDEMIOLOGY, 3 Credits**
An introduction to methods in spatial epidemiology is provided, including spatial exploration of health data, quantifying spatial patterns and clusters, spatial exposure assessment, and explaining patterns and associations.
*Prerequisite: H 547 with C or better and H 581 [C]*

**H 593, REPRODUCTIVE EPIDEMIOLOGY, 3 Credits**
Focuses on current research, controversial issues, and methodological problems in the epidemiology of reproductive health.
*Prerequisite: H 513 with B- or better or HHS 514 with B- or better or H 525 with B- or better or H 535 with B- or better*  
*Recommended: H 524*

**H 594, APPLIED ERGONOMICS, 3 Credits**
Principles of occupational ergonomics for managing optimal worker performance and well-being.

**H 595, DESIGN FOR ENVIRONMENT, SAFETY, AND HEALTH, 3 Credits**
Systematic consideration of environmental, safety, and health concerns at the earliest possible stage in the lifecycle design engineering of products, technologies, and manufacturing processes.

**H 596, HEALTHCARE EPIDEMIOLOGY, 3 Credits**
Focus on current research, controversial issues, and methodological problems in the epidemiology of healthcare. Topics include institutional infection control, medical errors, screening and diagnostic testing, cost-effectiveness, and others related to the delivery and assessment of healthcare, with a focus on the US healthcare system specifically.
*Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better*  
*Recommended: H 524*

**Available via Ecampus**

**H 597, METHODS IN FOODBORNE DISEASE OUTBREAK INVESTIGATION, 3 Credits**
Focuses on the practical basis for developing and implementing methods for foodborne disease outbreak detection, investigation and control, using recent outbreaks to highlight underlying principles. Biological characteristics of major foodborne disease pathogens, clinical features of the illnesses its causes and epidemiologic presentations of foodborne outbreaks will be reviewed. The implications of these characteristics will be discussed in a problem solving, interactive format that examines theory and practice in the context of recent outbreaks. Strategies to promote timely decision-making will be emphasized.
*Prerequisite: H 513 with B- or better or H 525 with B- or better or H 535 with B- or better or HHS 514 with B- or better*

**H 598, HEALTH POLICY ANALYSIS METHODS, 3 Credits**
Analysis of public policies affecting health care programs, services and organizations and the impact of those programs on citizens. Health services research methods, including data sources for health policy research and health policy literature.
*Prerequisite: H 513 with B- or better and H 533 [B-]*

**H 599, SPECIAL TOPICS, 1-16 Credits**
*This course is repeatable for 24 credits.*

**H 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 603, THESIS, 1-16 Credits**
*This course is repeatable for 999 credits.*

**H 605, READING AND CONFERENCE, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 606, PROJECTS, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 607, SEMINAR, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 608, WORKSHOP, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 610, INTERNSHIP, 1-16 Credits**
*This course is repeatable for 16 credits.*

**H 611, INTRODUCTION TO SYSTEMATIC LITERATURE REVIEWS, 3 Credits**
Users will learn how to apply systematic review methodology to a research question of their choice and understand how literature reviews inform evidence-based decision-making. Examples will focus on applying literature reviews to public health, clinical science, and biomedical research.
H 612, DOCTORAL SEMINAR IN PUBLIC HEALTH: RESEARCH AND PRACTICE, 1 Credit
Contemporary research and professional issues specific to the discipline of public health. Includes responsible conduct of research, writing for publication, professional development and leadership, and faculty research in public health.
This course is repeatable for 9 credits.

H 613, INDEPENDENT RESEARCH PROJECT, 1-9 Credits
Independent research project for PhD students, including research design, execution or research, and the formal presentation of findings in written form. Student will develop an original research topic based on knowledge and review of the literature in a public health-relevant area of inquiry. Graded P/N.
This course is repeatable for 9 credits.

H 614, RESEARCH MANUSCRIPT, 4 Credits
PhD students write a manuscript to submit to a peer-reviewed journal as part of the course requirements. Graded P/N.

H 615, ADVANCED EVALUATION AND RESEARCH DESIGN, 3 Credits
Provides an in-depth examination of advanced research designs and methods for establishing causal statements about the efficacy, effectiveness and generalizability of public health and social service interventions designed to alter public health and social risk or protective factors.
Recommended: H 515 and H 575

H 620, ADVANCED TOPICS IN GLOBAL HEALTH INTERVENTION AND PRACTICE, 3 Credits
Examines the processes and tools involved in planning and evaluating culturally competent health and human service prevention and intervention programs in the global context. Special considerations in program decision-making in the global context (community engagement, cultural competence, sustainability, feasibility, political/ethical issues) will be explored. Provides a key forum for doctoral students to share ongoing developments in their research and practice drawing from fieldwork as well as attended conferences and meetings.

H 622, GLOBAL HEALTH SYSTEMS, POLICY AND POLITICS, 3 Credits
Focuses on learning to identify key stakeholders in the politics of global health, and to be able to describe political and policy processes involved in negotiating global health decisions. Employment of theories and evidence from both the global North and South to explain political processes affecting public health practice and programs.

H 626, GLOBAL HEALTH SYSTEM FINANCE AND STRENGTHENING, 3 Credits
Introduces an analytical framework of health system finance strengthening for global health, from local community to national level and international level. Develops the analytical skill and knowledge for examining the source and mechanism of financing health systems and identify, mobilize, organize, and manage domestic and global health resources. Provides training to examine equity and efficiency of financial burden in a health system, and the strategies to strengthen it.

H 630, QUANTITATIVE HEALTH POLICY RESEARCH METHODS I, 4 Credits
Contemporary doctoral-level quantitative health policy/services research methods emphasizing linear regression models, data sources for health policy research, and health policy research literature.
Prerequisite: H 524 with B- or better

H 632, APPLIED HEALTH ECONOMICS, 4 Credits
Advanced doctoral-level quantitative health policy/services research methods emphasizing causal inference when potential endogeneity is present.
Prerequisite: H 630 with B- or better

H 635, COST EFFECTIVENESS ANALYSIS IN HEALTH AND MEDICAL CARE, 3 Credits
The primary objective of this course is to introduce students to cost-effectiveness studies in health and medical care. Covers the core concepts of CEA, quality adjusted life years, cost calculations, and decision rules.

H 638, PUBLIC AND PRIVATE HEALTH INSURANCE, 3 Credits
Introduction to the principles and practices of public or social and commercial health insurance, their finance mechanisms, and theoretical foundation behind the selection of certain system of health insurance and finance method.
Prerequisite: H 533 with C or better

H 639, COMMUNITY-BASED PARTICIPATORY RESEARCH, 4 Credits
Focuses on initiating and conducting research in partnership with communities. Includes in-depth examination of community-based participatory research (CBPR) elements, principles, theories, and approaches; how researchers can successfully partner with communities; and research with minority and/or underprivileged communities; with examples from environmental health, gerontology, and health promotion.
Recommended: 9 credits of public health or HDFS graduate coursework

H 642, ENVIRONMENTAL AND REGULATORY RISK ASSESSMENT, 3 Credits
Understand concepts, principles and practices in modern risk analysis and how they are utilized to make evidence-based decisions in public health. Focus will be on real world examples of risk assessment by environmental and occupational regulatory agencies.
H 650, REPORTING RESULTS: WRITING FOR EPIDEMIOLOGY, 3 Credits
Applied experience writing a scientific paper to disseminate results, including deciding on authorship, preparing a lay summary, revising and responding to peer review, and serving as a reviewer.
Prerequisite: H 526 with B- or better and H 551 [B-] and H 580 [B-]

H 651, ADVANCED EPIDEMIOLOGICAL METHODS, 4 Credits
Covers advanced topics in epidemiology. Course expands on many of the same topics as H 526, and explores them in greater breadth and depth. Topics include causal theory, measures of disease and association, confounding, selection bias, predictive models, directed acyclic graphs, effect modification, mediation, indirect and direct effects, study design, and other contemporary topics.
Prerequisite: H 526 with B- or better and H 581 [B-]

H 652, CAUSAL INERENCE IN EPIDEMIOLOGY, 3 Credits
Discussion of the theoretical framework of causal statistics and the development of modern methods including propensity scores and marginal structural models. Focus is on the inverse probability of treatment weighting; discussion of other estimation methods will be included. Additional topics may include longitudinal causal models, causal mediation, instrumental variables, and other contemporary topics.
Applied examples will be used for illustration.
Prerequisite: H 526 with B- or better

H 659, QUANTITATIVE HEALTH POLICY RESEARCH METHODS II, 4 Credits
Advanced doctoral-level quantitative health policy/services research methods emphasizing health care utilization, expenditures, and outcomes data.
Prerequisite: H 630 with B- or better

H 662, ADVANCED METHODS IN INFECTIOUS DISEASE EPIDEMIOLOGY, 3 Credits
Covers advanced methods and principles for infectious disease research, including framing infectious disease issues into testable hypotheses, designing epidemiologic studies using appropriate sampling strategies, and identifying strengths and weaknesses of various epidemiologic research methods.
Prerequisite: H 526 with B- or better and H 562 [B-]

H 671, ADVANCED THEORIES OF HEALTH BEHAVIOR, 3 Credits
Provides an in-depth examination of major theories of health behavior (both health compromising and health enhancing).
Recommended: H 571

H 672, ADVANCED QUALITATIVE METHODS IN HEALTH BEHAVIOR, 3 Credits
Provides an in-depth examination of the use of qualitative methods in health behavior research and practice.
Recommended: H 515 and SOC 518 and HDFS 538

H 673, MEASUREMENT OF HEALTH BEHAVIOR CONCEPTS, 4 Credits
Provides in-depth study and field work for graduate students in public health and related fields of the methods used in the conceptualization, development, and evaluation of quantitative measures of health behavior and related concepts.
Recommended: H 524, H 515, and 3 credits in other quantitative research methods or social behavioral methods (eg. sociology or psychology or health promotion or education programs)

H 675, DEVELOPMENT OF HEALTH BEHAVIOR INTERVENTIONS, 3 Credits
Examines the application of social/behavioral theories in health promotion interventions and in conducting intervention research in diverse populations. The course will focus on program development, on implementation strategies, and on translation into practice.
Recommended: H 571 and H 575 and H 576

H 676, ADVANCED TOPICS IN HEALTH PROMOTION AND HEALTH BEHAVIOR, 3 Credits
Examines topics of relevance to health promotion and health behavior. Specific topics include current issues and emerging research findings, with a focus on social and behavior science perspectives, analysis of public health problems, and application of principles and practices of health promotion and health behavior.
This course is repeatable for 6 credits.
Recommended: H 515 and H 571

H 681, ADVANCED TOPICS IN ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY, 3 Credits
Advanced topics in the environment, safety and health discipline. Content varies with each offering.

H 682, ENVIRONMENTAL AND OCCUPATIONAL HEALTH AND SAFETY: MOVING FROM RESEARCH TO PRACTICE, 3 Credits
An examination of research transfer models that can be adapted and implemented to environmental and occupational settings. Case studies and content will vary with each course offering.
H 683, ADVANCED RESEARCH METHODS IN ENVIRONMENTAL AND OCCUPATIONAL HEALTH, 3 Credits
Covers advanced methods for environmental and occupational health research, including framing environmental and occupational health issues into testable hypotheses, designing appropriate studies, and identifying strengths and weaknesses of different research methods.

H 685, RACE, CLASS, CULTURE AND AGING, 4 Credits
Examines the diversity among the older population in health status, health beliefs/behaviors, and health care, and explores the interaction of culture and structure as determinants of their life chances. The empirical literature used in the course is drawn from the experiences of aging of African-American, Latino, and Asian-Pacific Islander elderly. Taught spring term even years. CROSSLISTED as H 685/HDFS 685.
Equivalent to: HDFS 685
Recommended: 9 credits of public health or HDFS graduate coursework

H 699, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

Public Policy (PPOL)

PPOL 002, LEADERSHIP, 0 Credits
Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience help students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

PPOL 402, INDEPENDENT STUDY, 1-4 Credits
This course is repeatable for 16 credits.

PPOL 406, SPECIAL PROJECTS, 1-12 Credits
Associated with the internship for which credit is given in PPOL 410.
This course is repeatable for 12 credits.
Available via Ecampus

PPOL 407, SEMINAR, 1-6 Credits
This course is repeatable for 6 credits.
Available via Ecampus

PPOL 409, PRACTICUM/CLINICAL EXPERIENCE, 2 Credits
This discussion-based course will cover topics in public policy based on assigned readings.

PPOL 410, INTERNSHIP/WORK EXPERIENCE, 1-12 Credits
Supervised work experience in public policy-related programs, government, or organizations. Reports and appraisals required. Only 5 credits may be applied to the major.
This course is repeatable for 12 credits.
Available via Ecampus

PPOL 413, ETHICS IN PUBLIC POLICY, 4 Credits
Examines ethical dilemmas in public policy, and provides the opportunity to study the ethical theories of Hobbes, Kant, Mill, and Rawls.
CROSSLISTED as PPOL 413/PS 413.
Equivalent to: PS 413
Available via Ecampus

PPOL 421, INTRODUCTION TO POLICY RESEARCH, 4 Credits
Introduction to research design, research ethics, and quantitative and qualitative data collection and analysis. Activities include reading, review questions and exercises, discussion board participation, and data collection, analysis and reporting.
Prerequisite: ECON 201 with D- or better and PS 201 [D-] and SOC 204 [D-]
Available via Ecampus

PPOL 422, POLICY ANALYSIS, 4 Credits
Overview of common policy analysis approaches, methods and tools used to identify, assess, present and select public policy. Assignments include reading, reflection, exercises and a multi-stage policy analysis memo project using analyses conducted in PPOL 421.
Attributes: CWIC – Core, Skills, WIC
Prerequisite: PPOL 421 with C or better

PPOL 441, ENERGY, CLIMATE AND SOCIETY, 4 Credits
Explores the complex interrelationships between humans and energy, emphasizing the role of energy in critical social issues, including but not limited to: domestic and international conflict, poverty, social change, inter-generational equity, energy transitions and environmental justice.
(Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

PPOL 446, THE POLICY AND LAW OF U.S. COASTAL GOVERNANCE, 4 Credits
Examines federal and state policy, legislative and judicial protections of public beach access; ownership and use of tide and submerged lands, including the public trust doctrine; wetland conservation; and the Federal Coastal Zone Management Act. This course is intended to equip future environmental and natural resource professionals with a foundation in US coastal management, especially areas where new professionals will be very involved (coastal development, offshore/alternative energy, and sea level rise/storm hazards). The format includes reading, discussion, and student presentations. Readings will be drawn from the textbook; additional readings will be posted on Canvas.
Available via Ecampus

PPOL 447, INTEGRATED POLICY: FOOD, ENERGY, WATER, CLIMATE, 4 Credits
Environmental decisions include trade-offs. Policy choices for sustainably providing Earth’s eight billion people with food, energy, and water are urgently needed. Policy sectors (such as food) risk outcomes that are not beneficial, and impose long-term costs and potential catastrophic climate burdens. This transdisciplinary course examines emerging integrated policies concerning provision of food, energy, and water and their relationship to climate.
Available via Ecampus
PPOL 448, MARINE POLICY IN THE UNITED STATES, 4 Credits
Introduces students to the history, rationale, achievements, and gaps in American ocean policy. Students will acquire foundational tools of policy analysis and problem solving, and will synthesize and apply their knowledge creatively in order to propose integrated policy solutions to specific contemporary marine issues.
Available via Ecampus

PPOL 452, INTERNATIONAL COMPARATIVE RURAL POLICY, 4 Credits
Examines and compares the role of rural policy in different cultural, political and administrative contexts at the international, national, state, regional and local levels. The course also provides the opportunity to study the nature and implications of new forms of governance in rural contexts in North America and Europe.

PPOL 474, INTERNATIONAL ENERGY POLITICS AND POLICY, 4 Credits
Addresses international energy policies and politics, including trends and socio-political challenges impacting the diversity of global energy sources. CROSSLISTED as PPOL 474/PS 474 and PPOL 574/PS 574.
Equivalent to: PS 474

PPOL 501, RESEARCH AND SCHOLARSHIP, 1-12 Credits
Graded P/N.
This course is repeatable for 99 credits.
Available via Ecampus

PPOL 505, READING AND CONFERENCE, 1-10 Credits
This course is repeatable for 16 credits.
Available via Ecampus

PPOL 507, SEMINAR, 1-4 Credits
This course is repeatable for 16 credits.
Available via Ecampus

PPOL 510, INTERNSHIP, 1-12 Credits
Supervised work experience in government, public policy, public affairs or non-profit organizations. Reports and appraisals required. Graded P/N.
This course is repeatable for 12 credits.
Available via Ecampus

PPOL 511, PUBLIC ORGANIZATIONS AND LEADERSHIP, 4 Credits
Provides an historical overview of developments in, and theories associated with, the organization and control of public organizations. Students will critically examine various influential models of bureaucracy, while also learning about the strengths and weaknesses of emergent forms of bureaucratic organization, including networks, public-private partnerships, collaboration, and governance. The course also explores different theories of leadership, assisting students in the development of their own authentic leadership style, and thinking through the application of such theories and styles to the real world of public organization leadership, especially in the fragmented, decentralized, complex, and uncertain contemporary environment of networks, partnerships, and governance.
Available via Ecampus

PPOL 512, PUBLIC POLICY THEORY, 4 Credits
Theoretical approaches to the study of the policy process, policy elements, policy tools, (e.g., regulation), and policy typologies.
Equivalent to: PS 571
Available via Ecampus

PPOL 521, UNDERSTANDING SOCIAL RESEARCH, 4 Credits
Study of basic concepts and principles of qualitative and quantitative social research, including selection of general strategies and specific designs, conceptual and operational measurement, sample selection, data collection, data processing and analysis techniques, interpretation and reporting. Utilizes reports of social research in scholarly journals, popular media, and agency documents. Emphasis on critical evaluation and interpretation.
Equivalent to: SOC 515
Available via Ecampus

PPOL 522, QUANTITATIVE METHODS FOR PUBLIC POLICY ANALYSIS, 4 Credits
Covers a variety of techniques for analyzing quantitative data, including linear regression, logistic regression, and other techniques. Emphasis is placed on working with data and software to answer research questions. Prior knowledge of hypothesis testing and descriptive statistics is assumed.
Prerequisite: PPOL 521 with C or better and ECON 524 [C]
Equivalent to: SOC 516
Available via Ecampus

PPOL 523, QUALITATIVE RESEARCH METHODS, 4 Credits
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.
Equivalent to: SOC 518
Recommended: SOC 204 or SOC 204H
Available via Ecampus
PPOL 524, APPLIED RESEARCH METHODS, 4 Credits
Application of sociological theory, concepts, and methods. Topics vary but may include program evaluation, social impact assessment, policy analysis, focus group research, survey research, among others.
Equivalent to: SOC 519
Recommended: SOC 204 or SOC 204H and at least one upper-division course in sociology.
Available via Ecampus

PPOL 525, MANAGING AND GOVERNING PUBLIC AND NON-PROFIT ORGANIZATIONS, 4 Credits
Provides students with an introduction to management in public and non-profit organizations. Public and non-profit managers face challenges that are not faced by their counterparts in the private sector. These challenges are often associated with a different legal structure, employee protections, and differences in ethos and motivation. Students will build on knowledge of public administration to examine contemporary issues of public management and public governance and the techniques and challenges of management in practice. Successful completion of the course will equip students to be critically reflective practitioners and scholars of the management of public and non-profit organizations.
Recommended: Public Administration or PS 572 or PPOL 532 or experience in working in public or community service

PPOL 531, INFLUENCING PUBLIC POLICY: AN INTRODUCTION TO THE DARK ARTS, 4 Credits
Explores the various tactical and strategic behaviors that individuals and groups use to influence public policy. Focusing on the ethical and pragmatic dimensions of policy consequential tactics and strategy, topics vary but may include policy communication, the use of science and evidence, human cognition and decision-making processes, lobbying, and vote and agenda manipulation.

PPOL 541, ENERGY, CLIMATE AND SOCIETY, 4 Credits
Explores the complex interrelationships between humans and energy, emphasizing the role of energy in critical social issues, including but not limited to: domestic and international conflict, poverty, social change, inter-generational equity, energy transitions and environmental justice.

PPOL 544, COLLABORATIVE GOVERNANCE, 4 Credits
Explores and develops the norms, rules, institutional design, decision-making dynamic, and politics of collaborative governance arrangements for complex natural resource problem settings. Designed to bring together traditional adversaries, government agencies, and citizens to resolve and improve management of collective public problems, collaborative governance for natural resources is now an important problem-solving tool that is employed in thousands of communities, watersheds, and landscapes around the world.

PPOL 545, INTERNATIONAL MARINE POLICY, 4 Credits
Explores the institutional, political and legal factors that impact international marine policy with an emphasis on the United Nations Law of the Sea Convention. Additional topics include marine resource exploitation, climate change, and national security issues as they pertain to the world’s oceans, coasts, and national policies.
This course is repeatable for 16 credits.

PPOL 546, THE POLICY AND LAW OF UNITED STATES COASTAL GOVERNANCE, 4 Credits
Examines federal and state policy, legislative and judicial protections of public beach access; ownership and use of tide and submerged lands, including the public trust doctrine; wetland conservation; and the Federal Coastal Zone Management Act. This course is intended to equip future environmental and natural resource professionals with a foundation in US coastal management, especially areas where new professionals will be very involved (coastal development, offshore/alternative energy, and sea level rise/storm hazards). The format includes reading, discussion, and student presentations. Readings will be drawn from the textbook; additional readings will be posted on Canvas.
Available via Ecampus

PPOL 547, INTEGRATED POLICY: FOOD, ENERGY, WATER, CLIMATE, 4 Credits
Environmental decisions include trade-offs. Policy choices for sustainably providing Earth’s eight billion people with food, energy, and water are urgently needed. Policy sectors (such as food) risk outcomes that are not beneficial, and impose long-term costs and potential catastrophic climate burdens. This transdisciplinary course examines emerging integrated policies concerning provision of food, energy, and water and their relationship to climate.
Available via Ecampus

PPOL 548, MARINE POLICY IN THE UNITED STATES, 4 Credits
Introduces students to the history, rationale, achievements, and gaps in American ocean and coastal policy. Students will acquire foundational tools of policy problem solving, critique, and analysis, and will synthesize and apply their knowledge creatively to propose integrated policy solutions to specific contemporary marine issues.
Available via Ecampus

PPOL 551, HIGHER EDUCATION POLICY, 4 Credits
An introduction to policy issues in the area of higher education and exploration of possible tensions within the policy goals of quality, equity, access and outcomes. Students will gain knowledge of the key pieces of legislation and constitutional law governing higher education policy at both federal and state levels, as well as an overview of the relevant research in this area. Begins with a short historical introduction to the U.S. higher education system and concludes with a discussion of its competing demands and functions.
PPOL 552, INTERNATIONAL COMPARATIVE RURAL POLICY, 4 Credits
Examines and compares the role of rural policy in different cultural, political and administrative contexts at the international, national, state, regional and local levels. The course also provides the opportunity to study the nature and implications of new forms of governance in rural contexts in North America and Europe.
Available via Ecampus

PPOL 574, INTERNATIONAL ENERGY POLITICS AND POLICY, 4 Credits
Addresses international energy policies and politics, including trends and socio-political challenges impacting the diversity of global energy sources. CROSSLISTED as PPOL 474/PS 474 and PPOL 574/PS 574.
Equivalent to: PS 574

PPOL 599, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 16 credits.

PPOL 602, INDEPENDENT STUDY, 1-4 Credits
This course is repeatable for 16 credits.

PPOL 603, THESIS, 1-12 Credits
This course is repeatable for 999 credits.

PPOL 607, SEMINAR, 1-4 Credits
This course is repeatable for 16 credits.

PPOL 609, PRACTICUM, 1-12 Credits
This course is repeatable for 24 credits.

PPOL 613, ADVANCED POLICY THEORY I, 4 Credits
First of two-class series introducing a comprehensive review of public policy theory focused on examining theoretical approaches to understanding the complex and contentious assumptions and premises that pose challenges to the way we conduct public policy.

PPOL 614, ADVANCED POLICY THEORY II, 4 Credits
Second course in a two-course series providing a comprehensive review of public policy theory. The course examines theoretical approaches to understanding the complex and contentious assumptions and premises that pose challenges to the way we conduct public policy.

PPOL 621, ADVANCED QUANTITATIVE METHODS, 4 Credits
Methods used in research in the social sciences, focused on causal inference in public policy contexts. Covers methods used at the frontier of research to estimate the causal effect of policies on outcomes, including instrumental variables, regression discontinuity, and difference-in-differences estimation.
Recommended: ECON 524

PPOL 622, ADVANCED POLICY ANALYSIS, 4 Credits
Introduction to advanced quantitative modeling used in policy analysis, with an emphasis on the application of modeling techniques to research papers. Focus is predominantly on counts and zero-truncated modeling, time series, and panel regression.
Prerequisite: (ECON 524 with B+ or better and PPOL 522 [B+]) or PPOL 621 [C+] or (AEC 523 [C+] and AEC 525 [C+])

PPOL 628, ADVANCED QUALITATIVE METHODS, 4 Credits
Focus on epistemological approaches, research design, data analysis techniques and critiques of qualitative research, with emphasis on participant observation and interviewing. Culminates in the written and oral presentation of a qualitative research proposal, including preliminary results from fieldwork conducted during the course.
Prerequisite: ANTH 591 with C or better or HDFS 538 with C or better or SOC 518 with C or better

PPOL 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Queer Studies (QS)

QS 262, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 262H, WGSS 262, WGSS 262H
Available via Ecampus

QS 262H, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia’s and transphobia’s relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course).
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 262, WGSS 262, WGSS 262H

QS 299, SPECIAL TOPICS, 3 Credits
This course is repeatable for 9 credits.
QS 321, *QUEER POP CULTURE, 3 Credits
Examines the concept of Queer popular culture through film, music, TV, image, and other mediums. Seeks to disrupt dominant discourses around gender and sexuality by centralizing women of color feminisms and queer of color critiques to analyze popular representations of gender, sexuality, race, class, disability, and other social locations. CROSSLISTED as QS 321/WGSS 321. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WGSS 321
Available via Ecampus

QS 361, (RE)FRAMING RACE THROUGH FILM PRODUCTION, 4 Credits
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSLISTED as ES 361/ QS 361/WGSS 361/WLC 361.
Equivalent to: ES 361, WGSS 361, WLC 361
Recommended: Prior filmmaking experience

QS 362, *SERVING LGBTQ+ COMMUNITIES, 3 Credits
Engages the ethics and responsibilities involved in serving LGBTQ+ communities in fields such as education, health, law, and social services for those entering and/or continuing professions in fields that historically underserve LGBTQ+ people. Topics include LGBTQ+ youth; LGBTQ+ elders; issues affecting LGBTQ+ people across their lifespans; approaches to cultural competency; violence against LGBTQ+ people, forms of oppression including heterosexism, homophobia, and transphobia; and LGBTQ+ community resilience. CROSSLISTED as QS 362/WGSS 362. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: WGSS 362
Available via Ecampus

QS 364, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 364H, WGSS 364, WGSS 364H
Available via Ecampus

QS 364H, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, WGSS 364, WGSS 364H

QS 375, *ARTS AND SOCIAL JUSTICE, 4 Credits
Explores concepts of structural inequality, difference, power, and discrimination through a critical survey of arts activism. Think critically about artwork and artists which address a number of social issues in the United States, including race, ethnicity, class, gender, sexuality, immigration, and indigeneity. CROSSLISTED as ES 375/QS 375/ WGSS 375.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 375, WGSS 375

QS 399, SPECIAL TOPICS IN QUEER STUDIES, 3 Credits
This course is repeatable for 12 credits.

QS 409, PRACTICUM: PROJECTS IN QUEER STUDIES, 1-12 Credits
Capstone projects bring theory into practice through research, design, and implementation of a project that synthesizes and demonstrates learning in the Queer Studies program. This course is repeatable for 12 credits.
Available via Ecampus

QS 431, *QUEER OF COLOR CRITIQUES, 4 Credits
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 431, WGSS 431

QS 432, *GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ART 432, WGSS 432
Available via Ecampus

QS 462, *QUEER THEORIES, 4 Credits
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: WGSS 462
Available via Ecampus
QS 472, *INDIGENOUS TWO-SPRIT AND QUEER STUDIES, 4 Credits
'Two-spirit' refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art. CROSSLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/WGSS 572. (Writing Intensive Course).
Attributes: CWIC – Core, Skills, WIC
Equivalent to: ES 472, WGSS 472
Recommended: QS 262 or ES 242 or WGSS 414
Available via Ecampus

QS 473, TRANSGENDER LIVES, 4 Credits
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573.
Equivalent to: WGSS 473
Recommended: WSQSS/QS 262, WGSS/QS 364
Available via Ecampus

QS 476, *TRANSNATIONAL SEXUALITIES, 4 Credits
Explores contemporary experiences of sexualities within transnational contexts. Analyzes themes including queer and LGBTQI organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSLISTED as QS 476/WGSS 476 and QS 576/WGSS 576. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisite: QS 262 with D- or better
Equivalent to: WGSS 476

QS 477, QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 477, WGSS 477
Recommended: QS 262 and QS 462
Available via Ecampus

QS 499, SPECIAL TOPICS IN QUEER STUDIES, 4 Credits
Topics in gay, lesbian, bisexual, transgender, and queer issues and scholarship. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.

QS 524, TRANS/GENDER POLITICS, 4 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 524/WGSS 524.
Equivalent to: WGSS 524

QS 531, QUEER OF COLOR CRITIQUES, 4 Credits
'Queer of color critiques’ refers to political theories and activism that emerge from LGBTQI people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531.
Equivalent to: ES 531, WGSS 531

QS 532, GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women's, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532.
Equivalent to: ART 532, WGSS 532
Available via Ecampus

QS 562, QUEER THEORIES, 4 Credits
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQI people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562.
Equivalent to: WGSS 562

QS 569, TOPICS IN JOTERIA STUDIES, 3 Credits
A space for engaging with arts, activism and scholarship emerging from queer Latin@/Chican@ experiences and consciousness is provided. Offered winter term in odd years. CROSSLISTED as ES 569/QS 569/SPAN 569/WGSS 569.
Equivalent to: ES 569, SPAN 569, WGSS 569
This course is repeatable for 6 credits.

QS 572, INDIGENOUS TWO-SPRIT AND QUEER STUDIES, 4 Credits
'Two-spirit' refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art. CROSSLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/WGSS 572.
Equivalent to: ES 572, WGSS 572
Recommended: QS 262 or ES 242 or WGSS 414 or WGSS 514
QS 573, TRANSGENDER LIVES, 4 Credits
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573.
Equivalent to: WGSS 573
Recommended: WGSS/QS 262, WGSS/QS 364

QS 576, TRANSCONTINENTALITY, 4 Credits
Explores contemporary experiences of sexualities within transnational contexts. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 577, WGSS 577
Recommended: QS 262

QS 577, QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 577, WGSS 577
Recommended: QS 262 and QS 462

QS 579, SPECIAL TOPICS IN QUEER STUDIES, 4 Credits
Topics in gay, lesbian, bisexual, transgender, and queer issues and scholarship. May be repeated for credit when topic varies. This course is repeatable for 12 credits.

Rangeland Ecology & Management (RNG)

RNG 121, *INTRODUCTION TO WILDLAND ECOLOGY, 4 Credits
Ecological principles will be applied to understand contemporary issues related to wildlands, specifically the rangeland biomes that comprise over 50% of the Earth’s surface (FAO, SRM, USDA ERS). Topics to be covered fall into the following categories: Fundamentals of Ecology; Animals (wildlife & livestock); Disturbance (e.g., invasive species, fire, mineral extraction, etc.); Ecosystem Goods & Services (e.g., carbon sequestration, watersheds, biodiversity, recreation, etc.). The course will largly focus on U.S. wildlands, however a portion will examine the ecology and issues of international rangelands in Africa, Eurasia, Australia, and South America. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Available via Ecampus

RNG 299, SPECIAL TOPICS, 1-16 Credits
Equivalent to: RNG 299H
This course is repeatable for 16 credits.

RNG 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: RNG 299
This course is repeatable for 16 credits.

RNG 341, RANGELAND ECOLOGY AND MANAGEMENT, 3 Credits
Nature and management of rangelands. Integrated land use with emphasis on plant-animal-soil interactions.
Equivalent to: RNG 241
Available via Ecampus

RNG 351, RANGE ECOLOGY I - GRASSLANDS, 3 Credits
Principles and terminology of grassland ecology. Addresses the spatial-temporal dynamics of structure, function, and process in North American grassland ecosystems. Water, nutrient cycles and energy pathways are explored in context of the variable driving forces of climate (drought), herbivory, and fire.
Recommended: (BOT 313 [D-] and RNG 341 [D-])
Available via Ecampus

RNG 352, RANGE ECOLOGY II - SHRUBLANDS, 3 Credits
Introduces the ecology of shrublands using an autecological approach. Explores the effects of stressors such as temperature, drought, fire, and herbivory on plant morphology, physiology, reproduction, and growth. Covers life histories of common shrubs and descriptions of shrubland communities used to promote understanding of autecological principles.
Recommended: BOT 313 and RNG 341
Available via Ecampus

RNG 353, WILDLAND PLANT IDENTIFICATION, 4 Credits
Students will learn how to identify approximately 100 plant species found in wildlands of North America and Mexico. Individual plant species ecology, basic plant anatomy and identification characteristics observable only through a microscope or dissecting scope, and how to use a dichotomous key for plant ID will also be covered.
Equivalent to: RNG 253
Available via Ecampus

RNG 355, DESERT WATERSHED MANAGEMENT, 4 Credits
A systems-based understanding of hydrologic processes in arid and semiarid landscapes. The class is focused on gaining knowledge of multiple ecological and hydrological interactions occurring in dryland watersheds and on discussing practical methodology aimed to enhance site productivity and ecosystem resilience. Emphasis is placed on land use effects on watershed function; monitoring of soil, water, and vegetation variables; and methods of rehabilitation of degraded landscapes. The course has a strong experiential learning component through a series of ‘hands-on’ practicums and a field trip to a semiarid location in eastern Oregon. (Bacc Core Course)
Available via Ecampus

RNG 399, SPECIAL TOPICS, 1-16 Credits
May be repeated for a total of 16 credits.
This course is repeatable for 16 credits.
RNG 403, SENIOR THESIS, 1-16 Credits
This course is repeatable for 16 credits.

RNG 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

RNG 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

RNG 411, ADVANCED PLANT ID, 2 Credits
Advanced rangeland plant taxonomy.
This course is repeatable for 16 credits.

RNG 421, WILDLAND RESTORATION AND ECOLOGY, 4 Credits
Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function. Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed. This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function.
Recommended: Course work in soils and ecology
Available via Ecampus

RNG 441, RANGE LAND ANALYSIS, 4 Credits
Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods.
Recommended: ST 351 or ST 351H
Available via Ecampus

RNG 442, RANGE LAND-ANIMAL RELATIONS, 4 Credits
Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiography, and their effects on management of rangeland-animal resources.
Available via Ecampus

RNG 448, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 448, CROP 448

RNG 455, RIPARIAN ECOHYDROLOGY AND MANAGEMENT, 4 Credits
A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture).
Recommended: RNG 355
Available via Ecampus

RNG 457, HABITAT ANALYSIS 1: HABITAT USE AND MOVEMENT, 3 Credits
Effective habitat management necessitates an understanding of how animals use and move through the landscape, including rangelands.
This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on site selection of terrestrial animals (wild and domestic). However, topics covered in this course are broadly analogous to other ecosystems. Emphasis will be placed on analysis of habitat use (space use) and animal movement from multiple study designs.
Prerequisite: FW 251 with D- or better and RNG 341 [D-] and MTH 241 [D-] and (ST 201 [D-] or ST 351 [D-])
Available via Ecampus

RNG 458, HABITAT ANALYSIS 2: ABUNDANCE, OCCUPANCY AND DEMOGRAPHY, 3 Credits
Habitat influences abundance, occupancy, and demographic rates of wildlife. Wildlife management is often a component of land management and both benefit from land stewards that have an understanding of how habitat characteristics influence the occupancy, abundance, and performance of wildlife within an area. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on abundance, occupancy, and demographic rates of terrestrial animals.
Prerequisite: FW 251 with D- or better and RNG 341 [D-] and MTH 241 [D-] and (ST 201 [D-] or ST 351 [D-])

RNG 470, PASTORAL SYSTEMS OF THE WORLD, 4 Credits
Description and evaluation of ecosystems which support grazing animals and pastoralists. Biology, ecology and management of these landscapes will be explored through climate, soils, and plant communities and human-livestock interactions. The historic role of trade and contemporary challenges to the ecological, social and economic sustainability of pastoral systems will be examined.

RNG 490, RANGELAND MANAGEMENT PLANNING, 4 Credits
Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints affecting decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab.
Available via Ecampus
RNG 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

RNG 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

RNG 503, MASTER'S THESIS, 1-16 Credits
This course is repeatable for 999 credits.

RNG 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

RNG 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

RNG 507, SEMINAR, 1-2 Credits
This course is repeatable for 16 credits.

RNG 521, WILDLAND RESTORATION AND ECOLOGY, 4 Credits
Emphasis is placed on understanding the ecology of arid and semi-arid ecosystems through the study of ecological processes responsible for ecosystem function. Range improvement practices for stabilizing and repairing degraded wildlands by directing autogenic recovery mechanisms are discussed. This involves manipulating plants, soil, animals and microenvironments for improved ecosystem function.
Available via Ecampus

RNG 541, RANGELAND ANALYSIS, 4 Credits
Techniques used to describe vegetation in shrub-lands, grasslands, and forests. Use of measurements in resource management. Course is field-oriented, emphasizing both theory and practice of wildland inventory methods.
Recommended: ST 351
Available via Ecampus

RNG 542, RANGELAND-ANIMAL RELATIONS, 4 Credits
Domestic and wild animal use of rangelands as related to environmental factors, palatability, food habits, nutrition, physiography, and their effects on management of rangeland-animal resources.
Recommended: RNG 341
Available via Ecampus

RNG 548, LIVESTOCK PRODUCTION ON PASTURE, 4 Credits
Focuses on grazing management in cultivated pastures in Oregon and other regions with similar agro-ecological conditions. Become familiar with the basic principles of pasture production, grazing management and feed planning and management in large and small ruminant production systems. Provides information on the underlying factors affecting pasture and animal production and product quality in pasture-based production systems. CROSSLISTED as ANS 448/CROP 448/RNG 448 and ANS 548/CROP 548/RNG 548.
Equivalent to: ANS 548, CROP 548

RNG 555, RIPARIAN ECOHYDROLOGY AND MANAGEMENT, 4 Credits
A systems approach to study ecological and hydrological relationships occurring in riparian ecosystems. The class is focused on gaining knowledge of multiple connections between soil, water, and terrestrial vegetation occurring in riparian systems. Emphasis is placed on land use effects on the riparian ecologic and hydrologic function, methods of rehabilitation, and theories of the proper use of riparian ecosystems under a multiple-use philosophy (i.e., fish, wildlife, livestock, aesthetics, recreation, and silviculture).
Recommended: RNG 355
Available via Ecampus

RNG 557, HABITAT ANALYSIS 1: HABITAT USE AND MOVEMENT, 3 Credits
Effective habitat management necessitates an understanding of how animals use and move through the landscape, including rangelands. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on site selection of terrestrial animals (wild and domestic). However, topics covered in this course are broadly analogous to other ecosystems. Emphasis will be placed on analysis of habitat use (space use) and animal movement from multiple study designs.
Recommended: RNG 355
Available via Ecampus

RNG 558, HABITAT ANALYSIS 2: ABUNDANCE, OCCUPANCY AND DEMOGRAPHY, 3 Credits
Habitat influences abundance, occupancy, and demographic rates of wildlife. Wildlife management is often a component of land management and both benefit from land stewards that have an understanding of how habitat characteristics influence the occupancy, abundance, and performance of wildlife within an area. This is an advanced undergraduate and introductory graduate course designed to familiarize students with multiple techniques of assessing the influence of habitat on abundance, occupancy, and demographic rates of terrestrial animals.

RNG 577, AGROFORESTRY, 3 Credits
Theory and worldwide practice of multiple-crop low input sustainable systems involving concurrent production of tree and agricultural products. Biological, economic, social, and political factors that underlie the application of agroforestry technology. CROSSLISTED as FES 477/NR 477 and FES 577/RNG 577.
Equivalent to: FES 577, FS 577, NR 577
Recommended: Introductory course in biology.

RNG 590, RANGELAND MANAGEMENT PLANNING, 4 Credits
Administration and management of rangelands; planning processes involving goal setting, inventories, personnel management, environment, conflict resolution, and other constraints necessary for decision-making. Use of data collected from field problems to support the execution of class plans. Field trip required. Lec/lab.

RNG 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
RNG 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

RNG 603, PH.D. THESIS, 1-16 Credits
This course is repeatable for 999 credits.

RNG 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

RNG 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

RNG 607, SEMINAR, 1-2 Credits
This course is repeatable for 16 credits.

RNG 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

RNG 643, WILDLAND PLANT ECOPHYSIOLOGY, 4 Credits
Emphasizes the physiological ecology of plants living in arid and semi-arid ecosystems. Primary class emphasis will include photosynthesis, respiration, water stress and water use efficiency, stable isotopes, root structure and function, nutrient uptake and stress, and defoliation. Offered every other winter, odd years.

RNG 662, RANGELAND ECOLOGY, 3 Credits
Studies ecological theory and related resource management implications in rangelands and arid wildlands. Topics include the history and development of rangeland ecology, plant demography, invasive species, plant population dynamics, disturbance theory, succession, vegetation classification and range condition assessments. Offered every other winter, even years.

Recommended: Basic ecology course

RNG 670, ECOLOGICAL INVASIVE PLANT MANAGEMENT, 2 Credits

RNG 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Religious Studies (REL)

REL 160, *QUESTS FOR MEANING: WORLD RELIGIONS, 4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSTRADED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, PHL 160H, REL 160H
Available via Ecampus

REL 160H, *QUESTS FOR MEANING: WORLD RELIGIONS, 0-4 Credits
A survey and analysis of the search for meaning and life fulfillment represented in major religious traditions of the world, such as Hinduism, Buddhism, Taoism, Zen, Confucianism, Judaism, Christianity, and Islam. Lec/rec. CROSSTRADED as PHL 160/REL 160. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 160, PHL 160H, REL 160

REL 170, *THE IDEA OF GOD, 4 Credits
Concepts and images of God and their connections to world-views, experience, science, gender, society, self-understanding, and religions. CROSSTRADED as PHL 170/REL 170. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: PHL 170

REL 199, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 12 credits.

REL 201, STUDY OF PEACE AND THE CAUSES OF CONFLICT, 3 Credits
Examination of the causes of personal, social, and institutional conflict and peaceful, constructive means of dealing with conflict. The history and current status of peace movements within and outside governments; prospects for world peace. Case studies in peace and conflict. CROSSTRADED as PAX 201/REL 201. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: PAX 201

REL 202, INTRODUCTION TO RELIGIOUS STUDIES, 4 Credits
An introduction to the academic study of religion. It examines the concepts of religion and the sacred, approaches to the study of religion, ubiquitous features of religious experience, including symbol, myth, ritual, and community, understandings of the human condition in diverse religious traditions, and ways religious communities address challenges of pluralism and secularization. CROSSTRADED as PHL 202/REL 202.
Equivalent to: PHL 202
Available via Ecampus
REL 206, *RELIGIOUS ETHICS AND MORAL PROBLEMS, 4 Credits
An examination of the practical ethics of the monotheistic religious traditions of the West--Judaism, Christianity, Islam--and their different approaches to concrete moral problems. Topics include sexuality and marriage, euthanasia, capital punishment, pacifism and just war, and environmentalism. CROSSLISTED as PHL 206/REL 206. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: PHL 206

REL 208, INTRODUCTION TO BUDDHIST TRADITIONS, 4 Credits
Survey of the historical development of Buddhism in India and its spread throughout Asia and beyond by investigating the literature, rituals, history and social structure of the Buddhist traditions of Sri Lanka and Southeast Asia, Tibet and the Himalayan region, China, Taiwan, Korea, Japan, and finally its growth in the West. CROSSLISTED as PHL 208/REL 208. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 208
Available via Ecampus

REL 210, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

REL 210H, *RELIGION IN THE UNITED STATES, 4 Credits
A thematic overview of the historical study of religion in the United States, with an eye toward ways that social and cultural contexts have shaped the religious experience of Americans in different places and times. Surveys a wide array of religious movements, groups, and individuals from the colonial period to present. CROSSLISTED as HST 210/PHL 210/REL 210. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: HST 210, HST 210H, PHL 210, PHL 210H, REL 210
Available via Ecampus

REL 212, *INTRODUCTION TO CATHOLICISM, 4 Credits
Explores historical experiences of Roman Catholics from the origins of the tradition to the present. The course 1) explores the historical origins and expansions of Catholicism in world history, 2) examines Catholic practices, structures, ideas and beliefs, and 3) surveys the unique form Catholicism took in United States history using a wide variety of sources, including historical monographs, novels, memoir, film, papal documents, correspondence, essays, speeches, poetry, political writing, sermons, advertisements, liturgy, and artwork. Learn about the major developments, persons, institutions, and ideas that shaped the experience of Catholics in different moments of world history.
Attributes: CPWC – Core, Pers, West Culture

REL 213, *INTRODUCTION TO HINDU TRADITIONS, 4 Credits
Survey of the historical development of Hinduism in India and the 'Hindu Diaspora.' Topics will include the Indus Valley civilization, the Vedic tradition, yoga, and Hindu renunciation, 'Classical' Hindu theism and devotion, Hindu philosophy and ritual, and modern and contemporary Hinduism. CROSSLISTED as PHL 213/REL 213. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Available via Ecampus

REL 214, *INTRODUCTION TO ISLAMIC TRADITIONS, 4 Credits
Development of Islamic traditions in the Arab world and in the global context. Origins of Islam, the narrative of the Prophet Muhammad, the development of the Qur’an, and the central tenets of Islamic faith and practice. Transformation of Islam from a regional to a global tradition. CROSSLISTED as PHL 214/REL 214. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Available via Ecampus

REL 215, *INTRODUCTION TO JEWISH TRADITIONS, 4 Credits
An introduction to Judaism's traditions, histories, and practices. Covers historical origins and developments from the biblical period through the Middle Ages, and considers Judaism in the modern world. Topics include the Jewish calendar (including holidays and their traditions), Jewish life cycle events, Jewish prayer, and traditional texts such as the Mishnah and Talmud. CROSSLISTED as HST 215/REL 215. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 215
REL 220, *WORLD-VIEWS AND VALUES IN THE BIBLE, 4 Credits
A study of central portions of the Bible (in the Old Testament: Torah, prophets, psalms, and wisdom; in the New Testament: Jesus, gospels, and letters) from the perspective of the academic discipline of biblical scholarship, exploring the philosophical questions of the relationships between story, myth, thought, values, and understandings of life. CROSSTLISTED as PHL 220/REL 220. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: PHL 220
Available via Ecampus

REL 299, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 12 credits.

REL 310, *CRITICS OF RELIGION, 4 Credits
An introduction to critiques of religion by Nietzsche, Freud, Marx, and other influential thinkers. Examines the nature, scope, and effects of criticisms that challenge the psychological, moral, political, and epistemological foundations of religious belief, practice, and institutions. CROSSTLISTED as PHL 310/REL 310. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 310

REL 315, *GANDHI AND NONVIOLENCE, 4 Credits
An examination of the life and work of Mohandas K. Gandhi, the 20th century activist and author, and the theory and practice of nonviolence in his life and work. Emphasis will be placed upon Gandhi’s biographical narrative, the development of satyagraha, Gandhi’s nonviolent approach to social transformation, and post-Gandhian nonviolent movements. CROSSTLISTED as PHL 315/REL 315. (Bacc Core Course)
Attributes: CPWC – Core, Pers, Cult Diversity
Equivalent to: PHL 315

REL 316, INTELLECTUAL ISSUES OF MEXICO AND MEXICAN AMERICANS, 4 Credits
The philosophical, social, cultural, and political reality of Mexican Americans and their historical roots in Mexico since the Spanish Conquest. Analysis of internal colonialism, racism, machismo, fatalism, alienation, cultural identity, as well as more contemporary including NAFTA, immigration, and U.S.-Mexican relations. CROSSTLISTED as PHL 316/REL 316. (NC)
Attributes: LACH – Liberal Arts Non-Western Core
Equivalent to: PHL 316

REL 324, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSTLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPWC – Core, Pers, Cult Diversity
Equivalent to: HST 324, HST 324H, REL 324H
Available via Ecampus

REL 324H, *ANCIENT JEWISH HISTORY, 4 Credits
History of Judaism from the Second Temple through the early Rabbinic period (539 BCE–200 CE). Covers historical origins and developments of Judaism including the canonization of the Bible, Jewish life in the Persian and Greco-Roman worlds, and the beginnings of Diasporic and Rabbinic Judaism. CROSSTLISTED as HST 324/REL 324. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: HST 324, HST 324H, REL 324
Available via Ecampus

REL 325, *EARLY CHRISTIANITY: ORIGINS TO 600, 4 Credits
Traces early Christianity from its origins to the beginning of the Middle Ages. It deals with the origins and Jewish background of Christianity in Palestine, the ministry and teachings of Jesus, the spread of Christianity throughout the Roman Empire by his disciples and early missionaries, the formation of the New Testament canon, the development of Christian doctrine, controversies over heresy, and the origin of monasticism and the Papacy. CROSSTLISTED as HST 325/REL 325. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: HST 325

REL 326, *HISTORY OF CHRISTIANITY, 4 Credits
Examines the history of global Christianity from the fifth through the seventeenth centuries. Themes to be investigated include the evolving relationship between the church and the state; mysticism; conversion and resistance; the emergence of Protestantism; marriage and sex, as well as women in the history of Christianity. CROSSTLISTED as HST 326/REL 326.
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: HST 326
Available via Ecampus

REL 327, HISTORY OF MEDIEVAL EUROPE, 4 Credits
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 284 A.D. to 1000. Not offered every year. CROSSTLISTED as HST 327/REL 327. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 327

REL 328, HISTORY OF MEDIEVAL EUROPE, 4 Credits
Cultural, political, and economic history of the European Middle Ages from the fall of the Roman Empire in the West to the Renaissance. Covers 1000 to 1400. Not offered every year. CROSSTLISTED as HST 328/REL 328. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 328
Available via Ecampus
REL 330, HISTORY OF EARLY MODERN EUROPE, 4 Credits
Political, social, intellectual, and cultural history of Europe from 1400-1789. Focuses on the Reformation. Not offered every year. CROSSLISTED as HST 330/REL 330. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 330
Available via Ecampus

REL 333, MEDIEVAL AND EARLY MODERN SPANISH HISTORY, 4 Credits
From Islamic conquest to conquest of America, the social, religious, political and economic history of Spain from 1000 to 1700. Offered fall term in odd years. CROSSLISTED as HST 333/REL 333. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: HST 333

REL 344, PACIFISM, JUST WAR, AND TERRORISM, 4 Credits
An examination of the philosophical and theological issues pertaining to pacifism, justified war, and forms of terrorism in Islamic and Western traditions. Special attention is given to concepts of jihad, justifications of war, and restraints on conduct in war. CROSSLISTED as PHL 344/REL 344. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 344

REL 345, FIRST FREEDOM: RELIGIOUS LIBERTY AND INTOLERANCE, 4 Credits
An examination of the religious, philosophical, political, and historical issues regarding religious freedom, conscience, and disestablishment as enshrined in the First Amendment and as illustrated by historical and contemporary examples of religious intolerance in the United States. CROSSLISTED as PHL 345/REL 345. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: PHL 345

REL 350, EARLY LATIN AMERICA, 4 Credits
History of Latin America leading up to and after Spanish and Portuguese conquest. Focus on indigenous American, European and African cultures and religions in contact under colonial government and economic systems. Covers the period from 1400 to 1810. CROSSLISTED as HST 350/REL 350. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 350, HST 350H
Available via Ecampus

REL 352, AFRICANS IN LATIN AMERICAN HISTORY, 4 Credits
A survey of the role of Africans and their descendants in Latin American history, linking the history of the Americas, Europe and Africa. CROSSLISTED as HST 352/REL 352. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 352
Recommended: HST 350 and HST 351

REL 353, SLAVERY IN THE AMERICAS, 4 Credits
A survey of the roles of Africans and their descendants in the history of the Atlantic World, linking Europe, Africa, and the Americas. Examines slavery and freedom in the African Diaspora, as well as social, cultural, and spiritual life. CROSSLISTED as HST 353/REL 353. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HST 353

REL 354, UNITED STATES RELIGION AND SOCIAL REFORM, 4 Credits
Provides an awareness of how various religious groups have thought about and engaged with social change pertaining to slavery, feminism, civil rights, same-sex marriage, and immigration. Focus on reading primary sources related to each of these issues. CROSSLISTED as HST 364/REL 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

REL 357, PHILOSOPHIES OF CHINA, 4 Credits
A study of the traditional philosophies of China, including Confucianism, Taoism, Mohism, Legalism, and Buddhism. Not offered every year. CROSSLISTED as PHL 371/REL 371. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 371, PHL 371H
Recommended: 3 credits of philosophy or upper-division standing.
Available via Ecampus

REL 358, RELIGION AND GENDER: A GLOBAL PERSPECTIVE, 4 Credits
Introduces students to the academic study of religion, as well as the academic study of gender. In order to offer a global perspective, we will read a series of case studies that deal with the religion as a gendered experience. Students will produce two essays, one of which will be based on independent research. CROSSLISTED as HST 378/REL 378/ WGSS 378. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 378, WGSS 378
Available via Ecampus

REL 359, ISLAMIC CIVILIZATION, 4 Credits
Political, social, and religious developments from 600 to 1400. Early history and the formation of Islamic society to the Mongol invasion. CROSSLISTED as HST 387/REL 387. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 387
REL 388, *ISLAMIC CIVILIZATION, 4 Credits
Political, social, and religious developments from 1400 to the present. The expansion of Islam, Turkic, and Asian dynasties, impact of Western imperialism and modern Islamic world. CROSSLISTED as HST 388/REL 388. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 388
Available via Ecampus

REL 399, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 12 credits.

REL 402, INDEPENDENT STUDY, 1-12 Credits
This course is repeatable for 16 credits.
Available via Ecampus

REL 405, READING AND CONFERENCE, 1-4 Credits
This course is repeatable for 12 credits.

REL 407, ^SEMINAR, 1-16 Credits
(Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 16 credits.
Available via Ecampus

REL 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

REL 411, GREAT FIGURES IN PHILOSOPHY, 4 Credits
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511. (H)
Attributes: LACH – Liberal Arts Humanities Core
Equivalent to: PHL 411
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy and sophomore standing.

REL 415, SELECTED TOPICS, 1-4 Credits
This course is repeatable for 12 credits.

REL 425, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, HST 425H, REL 425H

REL 425H, *THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525. (H) (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: HST 425, HST 425H, REL 425

REL 430, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530. (NC)
Attributes: LACN – Liberal Arts Non-Western Core
Equivalent to: PHL 430, PHL 430H

REL 431, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about non-violence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by ‘Socially Engaged Buddhists’ living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: PHL 431, PHL 431H

REL 432, *YOGA AND TANTRIC TRADITIONS, 4 Credits
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 432

REL 433, *THEORY AND PRACTICE OF MODERN YOGA, 4 Credits
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of ‘bodily culture’ of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: PHL 433
REL 434, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSTLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues  
Equivalent to: PHL 434, PHL 434H, REL 434H

REL 434H, *SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSTLISTED as PHL 434/REL 434 and PHL 534/REL 534.
Attributes: CSGI – Core, Synth, Global Issues  
Equivalent to: PHL 434, PHL 434H, REL 434

REL 435, YOGA PHILOSOPHY, 2 Credits
Explores selected sutras from Patanjali’s classical yogic texts through a contemporary lens. Utilizes introductory Sanskrit pronunciation and definitions. Includes an experiential component with mediation, breath, reflection and postural techniques for greater synthesis of concepts.
Recommended: Some yoga or meditation experience

REL 436, PHILOSOPHY AND RELIGION, 3 Credits
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSTLISTED as PHL 436/REL 436 and PHL 536/REL 536.
Equivalent to: PHL 436
Recommended: 6 credits of philosophy and sophomore standing.

REL 438, ADVANCED YOGA TEACHING SEMINAR II, 2 Credits
Examines guiding meditation and contemplative inquiry, as well as professional ethics. Develops and applies personal teaching philosophy and approach. Emphasizes teacher qualities, theme integration, and marketing.

REL 443, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSTLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course)  
Attributes: CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core  
Equivalent to: PHL 443, PHL 443H, REL 443H
Recommended: One introductory-level science course and sophomore standing.
Available via Ecampus

REL 443H, *WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSTLISTED as PHL 443/REL 443 and PHL 543/REL 543. (Bacc Core Course)  
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core  
Equivalent to: PHL 443, PHL 443H, REL 443
Recommended: One introductory-level science course and sophomore standing

REL 444, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSTLISTED as PHL 444/REL 444 and REL 544/REL 544. (H)  
(Bacc Core Course)  
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACH – Liberal Arts Humanities Core  
Equivalent to: PHL 444, PHL 444H, REL 444H

REL 444H, *BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSTLISTED as PHL 444/REL 444 and REL 544/REL 544. (H)  
(Bacc Core Course)  
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core  
Equivalent to: PHL 444, PHL 444H, REL 444

REL 448, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. (NC)  
Attributes: LACN – Liberal Arts Non-Western Core  
Equivalent to: ES 448, PHL 448

REL 455, DEATH AND DYING, 3 Credits
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSTLISTED as PHL 455/REL 455 and PHL 555/REL 555.  
Equivalent to: PHL 455
Recommended: 6 credits of philosophy or sophomore standing
Available via Ecampus
REL 461, ART AND MORALITY, 4 Credits
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561.
Equivalent to: PHL 461

REL 466, RELIGION AND U.S. FOREIGN RELATIONS, 4 Credits
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSLISTED as HST 466/REL 466 and HST 566/REL 566.
Equivalent to: HST 466
Recommended: HST 202 and HST 203 or upper-division standing.

REL 470, RELIGION IN THE AMERICAN WEST, 4 Credits
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSLISTED as HST 470/REL 470 and HST 570/REL 570.
Equivalent to: HST 470

REL 484, RELIGION AND LAW, 4 Credits
Investigates the relationship between religion and law in Jewish, Christian, and Muslim society, as well as modern western "secular" society, considering the question from a theoretical, historical, and contemporary case-study perspective. We will look at the religious origins of legal systems, the ways in which members of religious communities engaged with their own and others' laws, and the ways in which modern societies have used law to separate "religion" from the state. CROSSLISTED as HST 484/REL 484 and HST 584/REL 584.
Equivalent to: HST 484

REL 485, POLITICS AND RELIGION IN THE MODERN MIDDLE EAST, 4 Credits
The role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSLISTED as HST 485/REL 485 and HST 585/REL 585. (H) (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; LACH – Liberal Arts Humanities Core; LACN – Liberal Arts Non-Western Core
Equivalent to: HST 485

REL 511, GREAT FIGURES IN PHILOSOPHY, 4 Credits
Study of the works of a major philosopher such as Plato, Aristotle, Descartes, Hume, Kant, or Marx. Each course normally devoted to the work of a single figure. Need not be taken in sequence. Not offered every year. CROSSLISTED as PHL 411/REL 411 and PHL 511/REL 511.
Equivalent to: PHL 511
This course is repeatable for 16 credits.
Recommended: 6 credits of philosophy

REL 525, THE HOLOCAUST IN ITS HISTORY, 4 Credits
An inquiry into the causes, course, and impact of the Holocaust. The general theme of anti-Semitism in European history is explored for background. Topics discussed for comparative purposes include anti-Semitism in American history; other episodes of mass murder in the 20th century. Not offered every year. CROSSLISTED as HST 425/REL 425 and HST 525/REL 525.
Equivalent to: HST 525

REL 530, HISTORY OF BUDDHIST PHILOSOPHY, 4 Credits
Examination of the major philosophical schools, texts, and thinkers in Buddhist history, emphasizing its Indian origins, but looking beyond to the various Buddhist traditions throughout Asia. CROSSLISTED as PHL 430/REL 430 and PHL 530/REL 530.
Equivalent to: PHL 530

REL 531, BUDDHISM, NON-VIOLENCE, AND SOCIAL JUSTICE, 4 Credits
Investigates the philosophical grounding of Buddhist ideas about nonviolence, justice and social responsibility. Looks at broad-based Buddhist social activism movements and leaders; their methods of training, issues and types of actions taken by 'Socially Engaged Buddhists' living Buddhist traditions. CROSSLISTED as PHL 431/REL 431 and PHL 531/REL 531.
Equivalent to: PHL 531

REL 532, YOGA AND TANTRIC TRADITIONS, 4 Credits
An examination of the theory and practice of yoga and tantra in the traditions of Hinduism, Buddhism, and Jainism, and in their contemporary popular manifestations. Emphasis on the representation of yoga and tantra in Indian literature and history, including contemplative practices, bodily disciplines, and ritual. CROSSLISTED as PHL 432/REL 432 and PHL 532/REL 532.
Equivalent to: PHL 532

REL 533, THEORY AND PRACTICE OF MODERN YOGA, 4 Credits
An examination of the phenomenon of modern yoga in theory and in practice. Emphasis on the roots of contemporary forms of yoga in the intersection between traditional Hindu and Buddhist formulations of yoga, Indian wrestling and martial arts, European gymnastics, and cosmopolitan conceptions of 'bodily culture' of both European and Indian origins. CROSSLISTED as PHL 433/REL 433 and PHL 533/REL 533.
Equivalent to: PHL 533
REL 534, SPIRITUALITY AND ECOLOGY: GREEN YOGA, 4 Credits
An exploration of the relationship between spirituality and ecological engagement in traditional contexts and in contemporary spirituality, with a global focus on contemplative practices rooted in Indian tradition, such as yoga. CROSSLISTED as PHL 434/REL 434 and PHL 534/REL 534. Equivalent to: PHL 534

REL 536, PHILOSOPHY AND RELIGION, 3 Credits
Examination of significant philosophical issues or movements and their relationship to theology and religion. CROSSLISTED as PHL 436/REL 436 and PHL 536/REL 536. Equivalent to: PHL 536
Recommended: 6 credits of philosophy

REL 543, WORLD VIEWS AND ENVIRONMENTAL VALUES, 3 Credits
A comparative study of world-views (secular and religious, Western and Eastern, modern and ancient) and how they affect concepts of nature, environmental values, and selected environmental issues. CROSSLISTED as PHL 443/REL 443 and PHL 543/REL 543. Equivalent to: PHL 543
Recommended: One introductory-level science course

REL 544, BIOMEDICAL ETHICS, 4 Credits
Application of ethical principles and decision-making processes to selected problems in medicine, health care, and biotechnology. Special attention given to end-of-life choices, reproductive rights and technologies, organ transplantation, research ethics, genetic engineering, and allocating scarce resources. An interdisciplinary focus that draws on social, legal, economic, and scientific issues in ethical decisions in medicine. CROSSLISTED as PHL 444/REL 444 and REL 544/REL 544. Equivalent to: PHL 544

REL 548, NATIVE AMERICAN PHILOSOPHIES, 4 Credits
Native American perspectives on ways of knowing, sources of meaning and ethics, the nature of reality, self, community, and cosmos. Includes lectures, scholarship, story-telling, poetry, theater, and music as forums for this exploration. Introduces ideas of leading Native American thinkers about the human relation to the natural world, sources of strength and wisdom, the nature of time and place and spirit, right ways of acting in communities, both civic and biotic, and the place of beauty in a well-lived life. CROSSLISTED as ES 448/PHL 448/REL 448 and ES 548/PHL 548/REL 548. Equivalent to: ES 548, PHL 548

REL 555, DEATH AND DYING, 3 Credits
A multidisciplinary study of cultural, philosophical, and religious perspectives on death, dying, and grieving. Not offered every year. CROSSLISTED as PHL 455/REL 455 and PHL 555/REL 555. Equivalent to: PHL 555
Recommended: 6 credits of philosophy

REL 561, ART AND MORALITY, 4 Credits
The arts in the context of their connections to, and conflicts with, varied conceptions of the common good. Topics include free expression and community standards, museums and obligations toward cultural treasures, art in public places, public funding of art, the politics of taste. CROSSLISTED as PHL 461/REL 461 and PHL 561/REL 561. Equivalent to: PHL 561

REL 566, RELIGION AND U.S. FOREIGN RELATIONS, 4 Credits
An examination of the intersection of religion and U.S. foreign relations from the late nineteenth century to the present. Surveys major events in U.S. diplomacy, including war and peace and explores the role of religion and religious ideas in shaping national identity, core values, and civil religion. CROSSLISTED as HST 466/REL 466 and HST 566/REL 566. Equivalent to: HST 566
Recommended: HST 202 and HST 203

REL 570, RELIGION IN THE AMERICAN WEST, 4 Credits
The history of religion in the American West. Examines four themes in the religious history of the American West: locations (the designation of particular places as special), migrations (movement in and out of the region), adaptations (changes over time, in response to changing conditions), and discrimination (recognition of difference, as well as prejudicial treatment based on difference). Engages with various primary and secondary sources, including texts, films, and photographs. CROSSLISTED as HST 470/REL 470 and HST 570/REL 570. Equivalent to: HST 570

REL 584, RELIGION AND LAW, 4 Credits
Investigates the relationship between religion and law in Jewish, Christian, and Muslim society, as well as modern western “secular” society, considering the question from a theoretical, historical, and contemporary case-study perspective. We will look at the religious origins of legal systems, the ways in which members of religious communities engaged with their own and others’ laws, and the ways in which modern societies have used law to separate “religion” from the state. CROSSLISTED as HST 484/REL 484 and HST 584/REL 584. Equivalent to: HST 584

REL 585, POLITICS AND RELIGION IN THE MODERN MIDDLE EAST, 4 Credits
The role of religious and secular ideologies in the politics of the 20th century Middle East. Topics include the impact of liberal and nationalist thought, the Iranian revolution, radical Islamist movements, and Zionism. CROSSLISTED as HST 485/REL 485 and HST 585/REL 585. Equivalent to: HST 585

Robotics (ROB)

ROB 421, APPLIED ROBOTICS, 4 Credits
Multidisciplinary teams of students design, build, and demonstrate a robotic system, including all sensory, computation, and actuation. The specific task, such as checkers-playing robots, changes each year, and is designed to be challenging for ambitious students. Robots will compete in a friendly competition at the end of the term. Lec/lab. Prerequisite: ME 430 with C or better Equivalent to: ENGR 421
ROB 456, INTELLIGENT ROBOTS, 4 Credits
Foundations of probabilistic reasoning for robotics. Topics include state estimation, robot motion, perception, localization and decision making under uncertainty.
Prerequisite: ST 314 with C or better
Equivalent to: ME 456
Recommended: CS 331, CS 361, ECE 363, or other programming experience

ROB 501, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

ROB 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ROB 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ROB 506, PROJECTS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ROB 507, SEMINAR, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ROB 514, INTRODUCTION TO ROBOTICS, 4 Credits
A broad introduction to the field of robotics, and to the graduate Robotics program. The goal of the class is to take students with different backgrounds (mechanical engineering, computer science, electrical engineering, physics, etc.) and give them a common base in the fundamentals of robotics. A secondary goal is to introduce students to the Robotics program, and to give them some of the skills that will make them successful, both in the program and as a professional roboticist.

ROB 521, RESEARCH ROBOTICS, 4 Credits
Multidisciplinary teams of students will use the backdrop of a robotics competition to generate a research question, then design, build, and demonstrate a robotic system that is used to answer this research question. An example may be a Jenga-playing robot, where students try a new computer vision algorithm, or test a theory on force control. This directly parallels graduate research in robotics, where systems-building is necessary, and toy problems can illustrate research results, but the important focus is a core research question. The specific competition task changes each year, and robots will compete at the end of the term. Lec/lab.
Equivalent to: ENGR 521

ROB 534, SEQUENTIAL DECISION MAKING IN ROBOTICS, 4 Credits
Examines sequential decision making in robotics with a focus on motion planning and related optimization problems applied to fielded systems in marine, aerial, and ground domains. Discussions regarding both fundamental background material as well as cutting edge research in the following areas: discrete planning, sampling-based planning, planning under uncertainty, multi-robot systems, optimization, and performance guarantees.

ROB 537, LEARNING-BASED CONTROL, 4 Credits
Provides an introduction to learning systems and their application to the control of nonlinear systems. Covered topics include neural networks, reinforcement learning, and evolutionary algorithms. Includes project component in which students write a technical paper and give a conference style presentation based on their project.
Equivalent to: ME 537

ROB 538, MULTIAGENT SYSTEMS, 4 Credits
Provides an introduction to multiagent systems. In particular, it focuses on how to coordinate agents using different approaches. Covered topics include multiagent learning, game theory, swarms, social choice, and auctions. Includes significant reading and critiquing of assigned papers.
Equivalent to: ME 538

ROB 541, GEOMETRIC MECHANICS, 4 Credits
An introduction to geometric methods in the analysis of dynamic systems. Using the kinematics of simple robotic systems as a motivating example, we explore topics such as manifolds and Lie groups, representations of velocity, holonomic and nonholonomic constraints, constraint curvature and response to cyclic inputs, distance metrics.
Recommended: Prior exposure to linear algebra and differential equations

ROB 542, ACTUATOR DYNAMICS, 4 Credits
Focuses on how inertia, spring compliance, and other passive dynamics affect highly dynamic, software-controlled systems. Examples include robotic manipulation tasks, robot-human interaction, CNC machines, or legged locomotion. Lec/lab.
Recommended: Prior courses on dynamics and control such as ME 531, ME 533, ME 535

ROB 545, ROBOTIC MANIPULATION, 4 Credits
Introduction to the mechanical processes governing manipulation with a focus on the kinematics, statics, and dynamics of interacting rigid bodies. Topics include numerical inverse kinematics, dynamics of open chains, and interaction control. Some manipulation problems considered include grasping, picking and placing, and assembly.

ROB 562, HUMAN CONTROL SYSTEMS, 4 Credits
Covers mechanisms of human motor systems and control of the neuromusculoskeletal anatomy followed by functional analysis of these system components. Then all the components are integrated to study feedback control dynamics. Covers classic to modern theories of motor control, adaptation, cognitive involvement, and rehabilitation techniques.
Equivalent to: ME 539
Recommended: Basic feedback control systems, linear algebra, differential equations
ROB 564, SOFT ROBOTICS, 4 Credits
Soft robotics researchers propose building intelligent machines purely out of stretchable compressible soft materials. The course is centered on term-long projects that will result in real soft robots with the goal of presenting to the international community. The topics covered include rapid digital manufacturing, soft actuators, soft sensors, soft logic, soft energy, applications of soft robotics, and modeling soft mechanics.

ROB 567, HUMAN ROBOT INTERACTION, 4 Credits
The field of human-robot interaction brings together research and application of methodology from robotics, human factors, human-computer interaction, interaction design, cognitive psychology, education and other fields to enable robots to have more natural and more rewarding interactions with humans throughout their spheres of functioning.
Recommended: Background in one of human factors, usabilityhci, programming experience, design

ROB 568, SOCIAL ROBOTICS, 4 Credits
In-depth exploration of the leading research, design principles, and challenges in Human-Robot Interaction (HRI), with an emphasis on socially interactive robots. Topics include social embodiment, multi-modal communication, human-robot teamwork, social learning, aspects of social psychology and cognition, as well as applications and evaluation with human subjects. Requires participation, lightning talks, student-led lectures, written critiques of class readings, and a group project involving a hypothetical social robotics project.

ROB 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 32 credits.

ROB 601, RESEARCH, 1-16 Credits
Graded P/N.
This course is repeatable for 99 credits.

ROB 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ROB 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

Russian (RUS)

RUS 111, FIRST-YEAR RUSSIAN, 4 Credits
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Designed for students with no prior training in Russian. Native and/or bilingual speakers of Russian will not receive credit for RUS 111, RUS 112, RUS 113.

RUS 112, FIRST-YEAR RUSSIAN, 4 Credits
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Designed for students with no prior training in Russian. Native and/or bilingual speakers of Russian will not receive credit for RUS 111, RUS 112, RUS 113.
Prerequisite: RUS 111 with D- or better

RUS 113, FIRST-YEAR RUSSIAN, 4 Credits
Pronunciation, intonation, grammar, reading, writing, listening comprehension and conversation. Designed for students with no prior training in Russian. Native and/or bilingual speakers of Russian will not receive credit for RUS 111, RUS 112, RUS 113.
Prerequisite: RUS 112 with D- or better

RUS 199, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 299, SPECIAL STUDIES, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 329, SPECIAL TOPICS IN LANGUAGE, CULTURE, AND/OR LITERATURE, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 16 credits.

RUS 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

RUS 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

RUS 407, SEMINAR., 1-16 Credits
This course is repeatable for 16 credits.

RUS 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.

RUS 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

RUS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

Science & Mathematics Educ (SED)

SED 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SED 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SED 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
SED 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SED 409, FIELD PRACTICUM: SCIENCE AND MATHEMATICS, 3 Credits
Placement in middle or high school (grades 7-12) to assist in developing competencies with adolescents in science/mathematics classes. This course is repeatable for 18 credits.

SED 412, TECHNOLOGY FOUNDATIONS FOR TEACHING MATH AND SCIENCE, 3 Credits
Integration of instructional technologies with other strategies to teach math and science in elementary, middle, and secondary schools in the 21st century.
Equivalent to: SED 412H

SED 413, INQUIRY IN SCIENCE AND SCIENCE EDUCATION, 3 Credits
Investigation of inquiry and the nature of inquiry in science as it relates to science education. Students will examine issues relating to integrating scientific understandings and practice into K-12 instruction. Available via Ecampus

SED 414, INQUIRY IN MATHEMATICS AND MATHEMATICS EDUCATION, 3 Credits
Investigation of mathematics as it relates to mathematics education. Students will examine issues related to integrating mathematical understanding, mathematics standards/curricula, and mathematics-specific strategies in K-12 instruction. Lec/lab.

SED 416, INQUIRY IN SCIENCE AND MATHEMATICS EDUCATION, 3 Credits
Investigation of inquiry and the nature of inquiry in mathematics and science as it relates to education. Students will examine issues relating to integrating mathematical and scientific understandings and practices into K-12 education.

SED 419, TEACHING MATHEMATICAL MODELING IN STEM, 3 Credits
Provides students an overview of the content requirements in the Common Core Standards for Mathematics and the teaching practices that are central to those standards with a focus on the role of mathematical modeling. Students experience content lessons and lessons focused on supporting students in developing understanding of that content.
Recommended: Background in an educational setting or as a pre-service teacher at any level, a K-12 teacher or free-choice learning educator

SED 431, OVERVIEW OF FREE-CHOICE LEARNING, 3 Credits
Examines learning that occurs when people believe they have choices over what and how they learn, how much time they spend learning, and what their sources of information are. Covers current research on learning in museums, aquariums, zoos, botanical gardens, science centers, after-school programs, media and apprenticeships.

SED 435, COMMUNICATING OCEAN SCIENCES TO INFORMAL AUDIENCES, 3 Credits
For students interested in improving their ability to communicate their scientific knowledge by helping general public and student audiences learn about ocean sciences in a wide variety of learning settings. Combines instruction in inquiry-based teaching methods and learning theory with work in student’s local informal learning settings like museums, zoos, aquariums and libraries.

SED 459, SCIENCE AND THE NATURE OF INQUIRY, 3 Credits
Focuses on inquiry approaches to the teaching and learning of science. Development of teaching strategies including materials and resources for teaching science using an inquiry approach as well as more teacher-directed approaches.

SED 473, SCIENCE PEDAGOGY AND TECHNOLOGY I, 4 Credits
Development of pedagogical content knowledge in grades 6-12 science instruction: learning theory, nature of science, technology integration, and reform recommendations. Lec/lab/rec.

SED 474, MATHEMATICS PEDAGOGY AND TECHNOLOGY I, 4 Credits
Development of pedagogical content knowledge in grades 6-12 mathematics instruction: learning theory, nature of mathematics, technology integration, and reform recommendations. Recommended: Investigation of mathematics as it relates to mathematics education and SED 414

SED 476, MATHEMATICS PEDAGOGY AND TECHNOLOGY II, 4 Credits
Development of additional pedagogical content knowledge in grades 6-12; stress on dominant themes of the school mathematics curriculum including problem solving, reasoning, communication, and connections as well as the integration of technology into the mathematics classroom. Prerequisite: SED 474 with D- or better

SED 477, SCIENCE PEDAGOGY AND TECHNOLOGY II, 4 Credits
Development of pedagogical content knowledge in grades 6-12; science instruction; learning theory, nature of science, technology integration, and reform recommendations. Prerequisite: SED 473 with C or better

SED 499, SPECIAL TOPICS, 3 Credits
PREREQ: Provisional acceptance to Education Double Degree program. This course is repeatable for 18 credits.

SED 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SED 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
SED 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SED 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

SED 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SED 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

SED 509, PRACTICUM, 1-16 Credits
This course is repeatable for 16 credits.

SED 510, PROFESSIONAL INTERNSHIP: SCIENCE OR MATHEMATICS EDUCATION, 1-16 Credits
Supervised teaching experience at the elementary, middle or high school level; students experience general classroom and professional responsibilities common to the regular science or mathematics teacher. This course is repeatable for 16 credits.
Available via Ecampus

SED 511, ANALYSIS OF CLASSROOMS I, 3 Credits
Observation and analysis of the complex science/ mathematics classroom (grades 3-12) and school culture and their impact on student learning.

SED 512, TECHNOLOGY FOUNDATIONS FOR TEACHING MATH AND SCIENCE, 3 Credits
Integration of instructional technologies with other strategies to teach math and science in elementary, middle, and secondary schools in the 21st century.

SED 513, INQUIRY IN SCIENCE AND SCIENCE EDUCATION, 3 Credits
Investigation of inquiry and the nature of inquiry in science as it relates to science education. Students will examine issues relating to integrating scientific understandings and practice into K-12 instruction.

SED 514, INQUIRY IN MATHEMATICS AND MATHEMATICS EDUCATION, 3 Credits
Investigation of mathematics as it relates to mathematics education. Students will examine issues related to integrating mathematical understanding, mathematics standards/curricula, and mathematics-specific strategies in K-12 instruction. Lec/lab.

SED 516, INQUIRY IN SCIENCE AND MATHEMATICS EDUCATION, 3 Credits
Investigation of inquiry and the nature of inquiry in mathematics and science as it relates to education. Students will examine issue relating to integrating mathematical and scientific understandings and practices into K-12 education.

SED 519, TEACHING MATHEMATICAL MODELING IN STEM, 3 Credits
Provides students an overview of the content requirements in the Common Core Standards for Mathematics and the teaching practices that are central to those standards with a focus on the role of mathematical modeling. Students experience content lessons and lessons focused on supporting students in developing understanding of that content.
Recommended: Background in an educational setting or as a pre-service teacher at any level, a K-12 teacher or free-choice learning educator

SED 520, TECHNOLOGY FOR MATH AND SCIENCE EDUCATION, 3 Credits
Explore current and emerging technologies applied to math and science learning that promote critical thinking, communication, collaboration, and creativity. Gain technology skills and resources that can be transferred to formal and informal learning environments.
Recommended: Basic computer literacy.

SED 531, OVERVIEW OF FREE-CHOICE LEARNING, 3 Credits
Examines learning that occurs when people believe they have choices over what and how they learn, how much time they spend learning, and what their sources of information are. Covers current research on learning in museums, aquariums, zoos, botanical gardens, science centers, afterschool programs, media and apprenticeships.

SED 535, COMMUNICATING OCEAN SCIENCES TO INFORMAL AUDIENCES, 3 Credits
For students interested in improving their ability to communicate their scientific knowledge by helping general public and student audiences learn about ocean sciences in a wide variety of learning settings. Combines instruction in inquiry-based teaching methods and learning theory with work in student's local informal learning settings like museums, zoos, aquariums and libraries.

SED 541, WEATHER CONCEPTS FOR SCIENCE AND MATH TEACHING, 3 Credits
Science content and pedagogy in learning and teaching basic weather concepts.
Recommended: Background in an educational setting or as a K-12 teacher or free-choice learning educator
SED 550, HIGH QUALITY SCIENCE AND MATHEMATICS INSTRUCTION, 3 Credits
Explores high quality science and mathematics instruction to prepare professional teachers in science and mathematics. Develops skills in high-leverage instructional practices and reviews research literature that supports these practices. Investigates social justice issues related to systems of schooling in the United States.

SED 552, MATHEMATICS METHODS: PRACTICUM I, 3 Credits
Theoretical background, practical knowledge, and skills for teaching in mathematics classrooms (grades 3-12). Instructional methods/modes, classroom management, contemporary curriculum goals and instructional planning.

SED 553, SCIENCE METHODS/PRACTICUM I, 3 Credits
Theoretical background, practical knowledge, and skills for teaching in science classrooms (grades 3-12). Instructional methods/modes, classroom management, contemporary curriculum goals and instructional planning.

SED 554, ENGINEERING AND SCIENCE IN THE LIVES OF STUDENTS, 3 Credits
Explore the use of construction engineering as a vehicle to make science and math more relevant and useful for the everyday life of students. Recommended: Background in an educational setting or as a K-12 teacher or free-choice learning educator (e.g. museum, science camp).

SED 556, FOSTERING REFLECTIVE DISCOURSE IN SCIENCE AND MATH CONTEXTS, 3 Credits
Examines ways of speaking that foster learning in science and mathematics contexts such as K-16 classrooms and free-choice learning settings (i.e., museums, zoos, science camps, etc.). Assignments assume the participant is a K-12 teacher or free-choice learning educator enrolled in a graduate licensure program or has access to an educational setting.

SED 557, SCIENCE PEDAGOGY AND TECHNOLOGY I, 4 Credits
Development of pedagogical content knowledge in grades 6-12 science instruction: learning theory, nature of science, technology integration, and reform recommendations. Lec/lab/rec.

SED 558, MATHEMATICS PEDAGOGY AND TECHNOLOGY I, 4 Credits
Development of pedagogical content knowledge in grades 6-12 mathematics instruction: learning theory, nature of mathematics, technology integration, and reform recommendations. Recommended: Investigation of mathematics as it relates to mathematics education and SED 414.

SED 559, SCIENCE PEDAGOGY AND TECHNOLOGY II, 4 Credits
Development of additional pedagogical content knowledge in grades 6-12; stress on dominant themes of the school mathematics curriculum including problem solving, reasoning, communication, and connections as well as the integration of technology into the mathematics classroom. Prerequisite: SED 574 with C or better

SED 560, PERSONAL DIMENSIONS OF FREE-CHOICE LEARNING, 3 Credits
Investigates the fundamental roles that identity, motivation, interest, prior knowledge and experience, and choice and control play in supporting learning and how learning leaders can build on these dimensions of learning in order to successfully engage lifelong learners. Available via Ecampus

SED 561, SOCIO-CULTURAL DIMENSIONS OF FREE-CHOICE LEARNING, 3 Credits
Investigates connections between theories of free-choice learning and the fundamental concepts of sociology, social psychology and anthropology: social stratification, social structure and interaction, social institutions, and cultural background. Real world examples will be included to support learning leaders’ efforts to facilitate the socio-cultural dimensions of lifelong science and mathematics learning. Available via Ecampus

SED 562, PHYSICAL DIMENSIONS OF FREE-CHOICE LEARNING, 3 Credits
Learning is influenced by the interaction of variables within three contexts—personal, socio-cultural and physical. This course focuses on how macro-scale environmental factors (e.g. space, crowding, novelty) and micro-scale environmental factors (e.g. design elements, real objects, different media) support free-choice learning. Available via Ecampus

SED 563, PROFESSIONAL DEVELOPMENT AND PRACTICUM IN MATHEMATICS, 3 Credits
Developing and implementing a program for continuing learning and evaluation in mathematics education.

SED 564, PROFESSIONAL DEVELOPMENT AND PRACTICUM IN SCIENCE, 3 Credits
Developing and implementing a program for continuing learning and evaluation in science education.
SED 594, ADVANCED INSTRUCTIONAL STRATEGIES IN SCIENCE AND MATHEMATICS, 3 Credits
Explore instructional strategies and skills for K-12 science and math teachers to support student learning rigorous content.

SED 595, ASSESSMENT AND EVALUATION, 3 Credits
Examines education assessment focusing on formative assessment in multiple contexts across learning environments.

SED 597, PROFESSIONAL DEVELOPMENT IN MATHEMATICS AND SCIENCE EDUCATION, 3 Credits
Development of strategies and skills for developing, implementing and evaluating a program of professional development for mathematics or science educators considering various choices of program settings.

SED 598, MATHEMATICS AND SCIENCE CURRICULUM, 3 Credits
Current trends, history of these trends, and rationale for mathematics and science curriculum reform across learning environments.

SED 599, TOPICS IN SCIENCE EDUCATION, 3 Credits
Current issues, trends, and topics in science education. May be repeated for credit with different topics.
This course is repeatable for 18 credits.

SED 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SED 603, DISSERTATION, 1-16 Credits
This course is repeatable for 999 credits.

SED 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SED 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

SED 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SED 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

SED 611, SURVEY OF RESEARCH ON TEACHING, 3 Credits
Critical analysis of perspectives of research in science/math education with a focus on teaching as the unit of analysis.
Prerequisite: SED 580 with C or better

SED 613, LEARNING THEORY, 3 Credits
Provides a critical overview and analysis of current theories of learning and development, beginning with a discussion about what learning is, how it has been viewed and studied over time, and how seminal theories inform an understanding of lifelong learning and its facilitation.
Prerequisite: SED 580 (may be taken concurrently) with C or better

SED 615, PRACTICUM IN MATHEMATICS/SCIENCE IN COLLEGE TEACHING, 3 Credits
Supervised field practicum in college mathematics/science teaching.
This course is repeatable for 9 credits.

SED 621, SURVEY OF RESEARCH ON LEARNING, 3 Credits
Critical analysis of perspectives on student thinking and learning in science/math education.
Prerequisite: SED 580 (may be taken concurrently) with C or better

SED 623, CURRICULUM THEORY, 3 Credits
Establishes theoretical grounding of curriculum. Includes theoretical background, practical knowledge, and skills related to science and mathematics curriculum, including the history, curriculum theory and practice.
Prerequisite: SED 580 (may be taken concurrently) with C or better

SED 625, CRITICAL PEDAGOGY, 3 Credits
Builds a foundation in critical pedagogy theory and practice. Includes reading of classic and contemporary literature by recognized thinkers in the fields of critical pedagogical studies, requiring careful evaluation of empirical research and synthesis to develop a coherent point of view. Develops methodologies for analyzing data using critical pedagogical theories and intersectional perspectives.

SED 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

SED 808, WORKSHOP, 1-16 Credits
This course is repeatable for 99 credits.
Available via Ecampus

Science (SCI)

SCI 470, FOUNDATIONS OF INNOVATION, 2 Credits
Learn the basic language and the initial skill set needed to address how scientific ideas and research results become innovations – solutions that address societal and market needs. Acquire the skills to become innovators and to create value for all types of academic, small-company, industrial, governmental, and non-profit research and development organizations. Students work in areas aligned with their scientific interests either individually or in a team. CROSSLISTED as CH 470/SCI 470 and CH 570/SCI 570.
Equivalent to: CH 470
Recommended: Science and engineering majors
SCI 470X, INNOVATION AND COMMERCIALIZATION IN SCIENCE AND TECHNOLOGY, 2 Credits
Provides a basic language and the initial skill set needed to address how scientific discoveries and research results can become innovations — solutions to address societal and market needs. Students work in areas aligned with their scientific interests and areas of experience.

SCI 570, FOUNDATIONS OF INNOVATION, 2 Credits
Learn the basic language and the initial skill set needed to address how scientific ideas and research results become innovations — solutions that address societal and market needs. Acquire the skills to become innovators and to create value for all types of academic, small-company, industrial, governmental, and non-profit research and development organizations. Students work in areas aligned with their scientific interests either individually or in a team. CROSSLISTED as CH 470/SCI 470 and CH 570/SCI 570.
Equivalent to: CH 570
Recommended: Science and engineering majors

Science of Engineering (ESC)

ESC 111, INTRODUCTION TO ENGINEERING, 3 Credits
Describes different fields of engineering; Performs calculations and synthesize results; Develops critical thinking skills and apply to engineering problems; Applies engineering specific technical and soft skills.
Equivalent to: MIME 101

ESC 340, INTRO TO EXPERIMENTATION, 4 Credits
Theory and application of instrumentation and measurement techniques are covered. Course topics include fundamentals of sampling theory, error and uncertainty analysis, signal conditioning, sensor fundamentals, and data analysis. Laboratory exercises provide experience utilizing data acquisition hardware and software, as well as a variety of sensors for measuring parameters from mechanical and electrical engineering systems.
Prerequisite: CS 162 with C or better and ENGR 202 [C] and PH 213 [C] and ST 314 [C]

ESC 350, ENGINEERING MATERIALS, 4 Credits
An introduction to materials and their structures and properties. The physical and chemical phenomena responsible for the electrical, mechanical, and thermal behavior of solids will be studied.
Prerequisite: PH 213 with C or better and CH 232 [C]

ESC 401, RESEARCH, 1-16 Credits
Equivalent to: ESE 401
This course is repeatable for 4 credits.

ESC 497, ^MIME CAPSTONE DESIGN, 4 Credits
Product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; long-run policies and strategy. CROSSLISTED as ESC 497/ESE 497. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: (ENGR 390 with C or better or BA 360 with C or better) and IE 425 [C] and (ME 312 [C] or ME 312H [C]) and (ME 331 [C] or ME 331H [C]) and ESE 355 [C] and ESE 360 [C] and (ST 314 [C] or ST 314H [C]) and WR 327 [C]
Equivalent to: ESE 497, MIME 497

ESC 498, ^MIME CAPSTONE DESIGN, 4 Credits
Product design; selection and replacement of major tools, processes, and equipment; paperwork controls; subsystem revision; system or plant revision; selection and training of personnel; long-run policies and strategy. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Prerequisite: ESE 497 with C or better or IE 497 with C or better or ME 497 with C or better or MIME 497 with C or better
Equivalent to: ESE 498, IE 498, ME 498

ESC 499, SPECIAL TOPICS, 4 Credits
This course is repeatable for 16 credits.

Social Science (SSCI)

SSCI 199, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 8 credits.

SSCI 211, CAREER DEVELOPMENT IN THE SOCIAL SCIENCES, 1 Credit
An introduction to career options available to students pursuing a social science degree. Students will explore career options and engage in exercises to help them reflect on their own interests, career goals, and aspirations. Hybrid class.

SSCI 299, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 8 credits.

SSCI 301, ^QUALITATIVE RESEARCH METHODS FOR THE SOCIAL SCIENCES, 4 Credits
Introduces a variety of qualitative research methods including ethnography, interviewing, recording oral histories, and conducting focus groups. Students will develop their own research questions, collect data to answer that research question, code and analyze data, and write and disseminate results. The course will culminate in a final paper and in-class presentation of original research results. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: 6 credits of upper-division courses in the social sciences, including sociology, political science, anthropology, or communication

SSCI 399, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 16 credits.
SSCI 401, RESEARCH, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 402, INDEPENDENT STUDY, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 403, THESIS, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 405, READING AND CONFERENCE, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 406, PROJECTS, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 407, SEMINAR, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 408, WORKSHOP, 1-4 Credits
This course is repeatable for 16 credits.

SSCI 410, INTERNSHIP, 1-4 Credits
An assignment in a private or public business or agency. The student observes or works in one or more departments of the enterprise, perhaps in one area of interest or specialization (e.g., community development, community dialogue, environmental leadership). Work is supervised by the agency staff, supervising school faculty member(s) provide academic evaluation. 12 credits maximum.
This course is repeatable for 12 credits.

SSCI 499, SPECIAL TOPICS, 1-4 Credits
This course is repeatable for 16 credits.

Sociology (SOC)

SOC 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

SOC 204, *INTRODUCTION TO SOCIOLOGY, 3 Credits
Development and application of sociological concepts and perspectives concerning human groups; includes attention to socialization, culture, organization, stratification, and societies. Consideration of fundamental concepts and research methodology. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: SOC 204H
Available via Ecampus

SOC 205, *INSTITUTIONS AND SOCIAL CHANGE, 3 Credits
Sociological study of the dynamic organizational nature of society through analysis of social change and major social institutions such as family, education, religion, the economy, and political systems. (SS) (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Available via Ecampus

SOC 206, *SOCIAL PROBLEMS AND ISSUES, 3 Credits
Examination of social problems with particular focus upon U.S. society. Sociological perspectives on definition, description, and analysis of contemporary and recurrent problems in industrialized societies. Investigation of causes and consequences of social problems considered in societal context. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Available via Ecampus

SOC 241, INTRODUCTION TO CRIME AND JUSTICE, 3 Credits
Provides a sociological understanding of criminal justice system institutions and processes. Emphasis is placed on understanding the criminal law; police and policing; courts and the prosecution process; and prisons, jails and corrections.
Available via Ecampus

SOC 242, CRIME AND MEDIA, 3 Credits
Provides a better understanding of how the media constructs perceptions and stereotypes of crime and the criminal justice system. Emphasizes on contemporary crime topics by examining current news outlets, crime TV shows, movies, and podcasts. Provide the tools necessary to decipher fact from fiction in the media representation of crime and the criminal justice system.
Recommended: SOC 204

SOC 299, SPECIAL TOPICS, 1-16 Credits
Equivalent to: SOC 299H
This course is repeatable for 16 credits.
Available via Ecampus

SOC 312, *SOCIOLOGY OF THE FAMILY, 4 Credits
Survey of the family as a social institution. Addresses historical and cultural perspectives with emphasis on family diversity, variations in family form and life style, interdependence between family and other institutions, analysis of major family issues, forces for change in the family. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: SOC 312H
Available via Ecampus
SOC 312H, *SOCIOLOGY OF THE FAMILY, 4 Credits
Survey of the family as a social institution. Addresses historical and cultural perspectives with emphasis on family diversity, variations in family form and life style, interdependence between family and other institutions, analysis of major family issues, forces for change in the family. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: SOC 312

SOC 313, SOCIOLOGY OF INTIMATE RELATIONSHIPS, 4 Credits
Examines the microsociological dynamics of intimate relationships. Perceptions and expectations of intimate relationships are explored. Specific attention will be given to issues, processes, and factors that are involved in the construction and management of intimate relationships in contemporary society.

SOC 315, ^METHODS I: RESEARCH DESIGN, 4 Credits
First in a two-course sequence required of all sociology majors. Students learn to formulate researchable questions, devise measures, select data collection techniques, and examine ethical and practical dilemmas in constructing sociological research. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: SOC 415
Available via Ecampus

SOC 316, METHODS II: QUANTITATIVE ANALYSIS, 4 Credits
Second in a two-course sequence required of all sociology majors. The primary objective is to provide students with the statistical skills necessary to analyze sociological data. Covers the construction and interpretation of contingency tables, basic ideas of probability and statistical inference, and an introduction to correlation and regression.
Prerequisite: SOC 315 with C- or better
Equivalent to: SOC 416
Available via Ecampus

SOC 340, DEVIANT BEHAVIOR AND SOCIAL CONTROL, 4 Credits
Current perspectives, research and theories of deviant behavior. Review and analysis of various approaches and programs designed to prevent and deal with deviant behavior.
Available via Ecampus

SOC 341, POLICE AND SOCIETY, 4 Credits
Represents a social scientific examination of the field of policing rather than methods or tactics of crime control. Explores the culture of law enforcement and how police officers perform their duties and create their own impressions of their work. Examines how the field of law enforcement is influenced by historical trends, laws, cultural & occupational values, and social institutions. Discusses stereotypes, routine duties, occupational stressors, and deadly hazards of law enforcement which provide opportunities to practice and improve interpersonal and conflict resolution skills.
Recommended: SOC 204 and/or SOC 241

SOC 345, *CRIMES AND VIOLENCE IN INTIMATE RELATIONSHIPS, 4 Credits
Analyzes the historical, social, political, legal, cultural, and psychological aspects of domestic violence, sexual assault, and stalking. Addresses definitions of the problem, demographics, survivors, perpetrators, witnesses, bystanders, strategies and tactics of abusers and survivors, along with strategies for prevention, intervention, treatment, and social change. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

SOC 349, SERIAL HOMICIDE, 4 Credits
Examines the extent, causes, and social characteristics of serial killers. After examining general criminological theories and the characteristics of “typical murder,” investigates the popular images about serial killers, the motivations of these offenders, the distribution of their crimes over time and across geographical areas, elements surrounding these offenses, and the offenders’ methods of selecting victims. Topics include homicide investigation techniques, crime profiling, and the criminal prosecution of serial killers.
Recommended: SOC 204 and/or SOC 241

SOC 350, HEALTH, ILLNESS AND SOCIETY, 4 Credits
Social and cultural factors in the identification, course, and treatment of illness; analysis of selected health settings and professions.
Available via Ecampus

SOC 351, *SOCIOLOGY OF MENTAL ILLNESS, 4 Credits
Focuses on how social and cultural context impact mental health, and how the very concepts of mental illness, abnormal or crazy are constructed in the first place, then applied by both “mental health” professionals and persons in their everyday lives. Examines major social models of “mental illness,” aiming to understand and evaluate their basic concepts and assumptions, as well as the response to “mental illness,” including how family, friends, troubled persons and professionals interpret, define and respond to “mental illness” and the processes shaping the policies and practices of the mental health enterprise.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

SOC 355, DEATH AND DYING, 4 Credits
An overview of cross-cultural and historical attitudes and practices around end of life, death and dying. Assessment of contemporary legal, professional, cultural and technological issues surrounding end of life/ death and dying.
Available via Ecampus

SOC 360, *POPULATION TRENDS AND POLICY, 4 Credits
Basic socio-demographic factors affecting population size, distribution, composition and change; examination of local, national, and international trends, and demographic policy. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus
SOC 371, *SOCIAL MEDIA AND EVERYDAY LIFE, 4 Credits
Examines key concepts, themes, and theories in the study of social media in today's world. Interconnected themes include communication and the public sphere, self representation, power, and new technologies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

SOC 372, *POPULAR CULTURE, 4 Credits
Critical examination of contemporary popular culture from a sociological perspective. Debates in the field of cultural sociology, including a critique of the distinction between 'high' and 'low' forms of culture, the social distinction between work and leisure time, the influence of society on individual patterns of consumption and personal taste, and the sociology of everyday life. Specific topics include mass media, sports, leisure activities, fashion, youth culture, science fiction, music, talk shows, soap operas, internet chat rooms, personal ads, home shopping, and folklore.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

SOC 381, SOCIAL DIMENSIONS OF SUSTAINABILITY, 4 Credits
Exploration of the social forces driving current views of sustainability. Specific attention will be given to values and belief systems, as well as social institutions in shaping sustainability issues related to ecologically sound, socially just, and economically viable outcomes.
Available via Ecampus

SOC 399, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses.
Equivalent to: SOC 399H
This course is repeatable for 16 credits.

SOC 399H, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 399
This course is repeatable for 16 credits.

SOC 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SOC 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

SOC 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SOC 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SOC 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SOC 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 30 credits.
Available via Ecampus

SOC 412, SOCIOLOGY OF WORK AND FAMILY, 4 Credits
Survey of the intersections between families and work; variations in family structure, policies and paid and unpaid work in the United States; interdependence between paid and unpaid family labor and broader social change.
Available via Ecampus

SOC 413, SOCIOLOGICAL THEORY, 4 Credits
Historical and philosophical foundations of sociological theory; major schools of thought and their major contributors.
Available via Ecampus

SOC 418, QUALITATIVE RESEARCH METHODS, 4 Credits
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.

SOC 422, SOCIOLOGY OF ORGANIZATIONS, 4 Credits
Introduces sociological thinking about organizations in contemporary society with an emphasis on exploring the range of frameworks used to think about and explain modern organizations; applies knowledge to specific contemporary organizations.

SOC 424, SOCIAL PSYCHOLOGY, 4 Credits
Examines individuals in social context; explores dynamics of interpersonal relationships; evaluates link between self and society, including concepts of role/status/identity. Contemporary research design, problems, and findings pertinent to social psychology.

SOC 426, *SOCIAL INEQUALITY, 4 Credits
Evolution of social inequality in society. Emphasis upon the causes and consequences of inequality in power, privilege, and prestige in human societies, with special attention to the United States. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Available via Ecampus

SOC 430, GENDER AND SOCIETY, 4 Credits
Examination of nature and consequences of social differentiation and stratification on the basis of sex and gender. Analysis of social position of women and men in society, focusing on their positions in institutional areas such as the family, politics, work and education. Evaluation of theories of biological, psychological, and sociological bases for the behavior and characteristics of women and men.
Available via Ecampus
SOC 432, SOCIOLOGY OF AGING, 4 Credits
Examination of the social significance of age, position and problems of the elderly in society; discusses the societal and individual consequences of an aging population; explores social theories of aging.
Available via Ecampus

SOC 437, RACE AND ETHNIC RELATIONS, 4 Credits
Comparative/international perspective on the social construction of race and ethnicity. Social, economic and political experiences of selected groups in the U.S. and other countries are examined.

SOC 438, US IMMIGRATION ISSUES IN THE 21ST CENTURY, 4 Credits
Provides a critical overview of immigration to the United States from a socio-historic perspective. Examines how successive waves of immigrants have influenced American society from the earliest groups of Europeans in the 19th century to the most recently arriving immigrants from Asia, Latin America and the Caribbean.

SOC 439, WELFARE AND SOCIAL SERVICES, 4 Credits
Analysis of social, political, and economic forces affecting welfare and social service systems, with overview of current programs, policy issues, public opinions, occupational aspects and societal impacts.
Available via Ecampus

SOC 440, JUVENILE DELINQUENCY, 4 Credits
Contemporary research and theories of juvenile delinquency. Review and evaluation of various strategies and programs designed to prevent delinquency or for treatment of delinquents.

SOC 441, CRIMINOLOGY AND PENOLOGY, 4 Credits
Review of sociological perspectives on crime and criminal justice, with emphasis upon North America. Review of crime statistics, types of crime, theories of criminality, corrections programs and prisons, and programs to reduce crime.
Available via Ecampus

SOC 442, SOCIOLOGY OF DRUG USE AND ABUSE, 4 Credits
Emphasizes a sociological understanding of drug use, drug problems and drug policy. In order to understand drug use and abuse it is necessary to understand the chemical properties of the substances at issue, the attributes of the people who use and abuse drugs, and the norms and characteristics of the society in which the substance use occurs.
Available via Ecampus

SOC 444, INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION, 4 Credits
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Equivalent to: SOC 444H

SOC 444H, INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION, 4 Credits
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 444

SOC 448, LAW AND SOCIETY, 4 Credits
An introduction to social scientific approaches to law, covering major topics in the area. Topics may include disputing, legal consciousness, social movements and law, punishment, legal actors, and legal institutions.
Recommended: (SOC 204 or SOC 204H) with minimum grade of D-

SOC 449, LAW, CRIME, AND POLICY, 4 Credits
Surveys criminal justice policies aimed at enforcing laws, reducing crime, punishing violators, and rehabilitating ex-offenders. Interrogates the behavioral assumptions used in creating and evaluating policies. Examines specific crimes and the policies used to address them.
Available via Ecampus

SOC 450, SOCIOLOGY OF EDUCATION, 4 Credits
Contemporary perspectives and research on schools, students, teachers and social forces affecting the educational system. Review of comparative and evaluation research on alternative educational strategies and programs. Overview of the literature of educational critics.
Available via Ecampus

SOC 452, SOCIOLOGY OF RELIGION, 4 Credits
Social patterns within U.S. religious groups, relation of religious groups to society, and the methodological problems in studying such groups.

SOC 453, SOCIOLOGY OF SPORT, 4 Credits
Critical analysis of sport. Examines sport socialization; deviance; violence; gender; race/ethnicity; professional sport careers; intercollegiate athletics; marriage/family; and the media.
SOC 454, LEISURE AND CULTURE, 4 Credits
Examination of the social, cultural, and global significance of leisure activity (in particular, tourism and recreation) from a historical perspective relative to attitudes, values, behaviors, and use of natural resources. (SS)
Attributes: LACS – Liberal Arts Social Core
Available via Ecampus

SOC 456, *SCIENCE AND TECHNOLOGY IN SOCIAL CONTEXT, 4 Credits
Study of social aspects of science and technology (values, practices, organization, impacts) by analysis of issues revealing their relationship to other social and cultural processes. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

SOC 460, THE SOCIOLOGY OF GLOBALIZATION, 4 Credits
Examines the sociological effect of globalization on Western and non-Western societies. The course focuses on changes in the global economy and how this has influenced the social structure, patterns of change, and mutual influences among societies. (NC)
Attributes: LACN – Liberal Arts Non-Western Core

SOC 466, INTERNATIONAL DEVELOPMENT: GENDER ISSUES, 4 Credits
Examines roles and statuses of women and men throughout the world and differential impact of development on men and women. Evaluates traditional development policies and programs and discusses theories of gender stratification and of modernization. (NC)
Attributes: LACN – Liberal Arts Non-Western Core

SOC 470, COLLECTIVE BEHAVIOR, 4 Credits
Examines current theories; focuses on behavior in crowds and diverse social settings including fads/fashions, ecstatic crowds/miracles, natural/technological disasters, urban legends, collective delusions/mass hysteria, protest/demonstrations, riots/mobs.

SOC 471, *SOCIAL MOVEMENTS, 4 Credits
Introduces core theoretical and methodological issues related to social movements in the US and abroad. Emphasizes social forces giving rise to movements, tactics employed by movements, and impacts of them on society.
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Available via Ecampus

SOC 475, RURAL SOCIOLOGY, 4 Credits
Helps students understand the rich diversity in rural society, with an emphasis on the interdependencies between urban and rural contexts. Current issues and social problems experienced by rural populations and how sociology is used to understand and address issues affecting rural communities are explored.
Available via Ecampus

SOC 480, ENVIRONMENTAL SOCIOLOGY, 4 Credits
Explores the evolution of environmental thought, paradigm shifts, and institutional structures associated with environmental concerns, social movements, and social impacts.
Available via Ecampus

SOC 481, *SOCIETY AND NATURAL RESOURCES, 4 Credits
Explores the complex interrelationships between humans and natural resources, emphasizing how management decisions and organizations are enmeshed in social and cultural contexts. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

SOC 482, *ENERGY, CLIMATE AND SOCIETY, 4 Credits
Explores the complex interrelationships between humans and energy, emphasizing the role of energy in critical social issues, including but not limited to: domestic and international conflict, poverty, social change, inter-generational equity, energy transitions and environmental justice. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society

SOC 499, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Equivalent to: SOC 499, SOC 499H
This course is repeatable for 16 credits.

SOC 499H, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students.
Attributes: HNRS – Honors Course Designator
Equivalent to: SOC 499
This course is repeatable for 16 credits.

SOC 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

SOC 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

SOC 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

SOC 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SOC 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

SOC 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
SOC 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

SOC 510, INTERNSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

SOC 512, SOCIOLOGY OF WORK AND FAMILY, 4 Credits
Survey of the intersections between families and work; variations in family structure, policies and paid and unpaid work in the United States; interdependence between paid and unpaid family labor and broader social change.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 513, SOCIOLOGICAL THEORY, 4 Credits
Historical and philosophical foundations of sociological theory; major school of thought and their major contributors.
Recommended: SOC 204 or SOC 204H

SOC 518, QUALITATIVE RESEARCH METHODS, 4 Credits
An introduction to the theory and methods of qualitative research. Students will be exposed to various qualitative research methods through practical field exercises. These include ethnographic field observation, content analysis, interviewing, focus groups and unobtrusive measures. Other commonly used methods of collecting qualitative data are also examined.
Equivalent to: PPOL 523
Recommended: SOC 204 or SOC 204H

SOC 522, SOCIOLOGY OF ORGANIZATIONS, 4 Credits
Introduces sociological thinking about organizations in contemporary society with an emphasis on exploring the range of frameworks used to think about and explain modern organizations; applies knowledge to specific contemporary organizations.
Recommended: SOC 204 or SOC 204H

SOC 524, SOCIAL PSYCHOLOGY, 4 Credits
Examines individuals in social context; explores dynamics of interpersonal relationships; evaluates link between self and society, including concepts of role/status/identity. Contemporary research design, problems, and findings pertinent to social psychology.
Recommended: SOC 204 or SOC 204H

SOC 526, SOCIAL INEQUALITY, 4 Credits
Evolution of social inequality in society. Emphasis upon the causes and consequences of inequality in power, privilege, and prestige in human societies, with special attention to the United States.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 530, GENDER AND SOCIETY, 4 Credits
Examination of nature and consequences of social differentiation and stratification on the basis of sex and gender. Analysis of social position of women and men in society, focusing on their positions in institutional areas such as the family, politics, work and education. Evaluation of theories of biological, psychological, and sociological bases for the behavior and characteristics of women and men.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 532, SOCIOLOGY OF AGING, 4 Credits
Examination of the social significance of age, position and problems of the elderly in society; discusses the societal and individual consequences of an aging population; explores social theories of aging.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 537, RACE AND ETHNIC RELATIONS, 4 Credits
Comparative/international perspective on the social construction of race and ethnicity. Social, economic and political experiences of selected groups in the U.S. and other countries are examined.
Recommended: SOC 204 or SOC 204H

SOC 538, US IMMIGRATION ISSUES IN THE 21ST CENTURY, 4 Credits
Provides a critical overview of immigration to the United States from a socio-historic perspective. Examines how successive waves of immigrants have influenced American society from the earliest groups of Europeans in the 19th century to the most recently arriving immigrants from Asia, Latin America and the Caribbean.

SOC 539, WELFARE AND SOCIAL SERVICES, 4 Credits
Analysis of social, political, and economic forces affecting welfare and social service systems, with overview of current programs, policy issues, public opinions, occupational aspects and societal impacts.
Recommended: SOC 204 or SOC 204H or SOC 205 or SOC 206
Available via Ecampus

SOC 540, JUVENILE DELINQUENCY, 4 Credits
Contemporary research and theories of juvenile delinquency. Review and evaluation of various strategies and programs designed to prevent delinquency or for treatment of delinquents.
Recommended: SOC 204 or SOC 204H

SOC 541, CRIMINOLOGY AND PENOLOGY, 4Credits
Review of sociological perspectives on crime and criminal justice, with emphasis upon North America. Review of crime statistics, types of crime, theories of criminality, corrections programs and prisons, and programs to reduce crime.
Recommended: SOC 204 or SOC 204H
Available via Ecampus
SOC 542, SOCIOLOGY OF DRUG USE AND ABUSE, 4 Credits
Emphasizes a sociological understanding of drug use, drug problems and drug policy. In order to understand drug use and abuse it is necessary to understand the chemical properties of the substances at issue, the attributes of the people who use and abuse drugs, and the norms and characteristics of the society in which the substance use occurs.
Available via Ecampus

SOC 544, INSIDE-OUT: PRISONS, COMMUNITIES, AND PREVENTION, 4 Credits
Course takes place in a state correctional facility, with OSU students learning alongside ‘inside’ students from the facility for a full quarter. Course content examines prisons, communities, crime, and prevention from a sociological perspective. All students participate in service-learning projects.
Recommended: SOC 204

SOC 548, LAW AND SOCIETY, 4 Credits
An introduction to social scientific approaches to law, covering major topics in the area. Topics may include disputing, legal consciousness, social movements and law, punishment, legal actors, and legal institutions.
Recommended: (SOC 204 or SOC 204H) with minimum grade of D-

SOC 549, LAW, CRIME, AND POLICY, 4 Credits
Surveys criminal justice policies aimed at enforcing laws, reducing crime, punishing violators, and rehabilitating ex-offenders. Interrogates the behavioral assumptions used in creating and evaluating policies. Examines specific crimes and the policies used to address them.
Recommended: SOC 204 or SOC 204H

SOC 550, SOCIOLOGY OF EDUCATION, 4 Credits
Contemporary perspectives and research on schools, students, teachers and social forces affecting the educational system. Review of comparative and evaluation research on alternative educational strategies and programs. Overview of the literature of educational critics.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 552, SOCIOLOGY OF RELIGION, 4 Credits
Social patterns within U.S. religious groups, relation of religious groups to society, and the methodological problems in studying such groups.
Recommended: SOC 204 or SOC 204H

SOC 553, SOCIOLOGY OF SPORT, 4 Credits
Critical analysis of sport. Examines sport socialization; deviance; violence; gender; race/ethnicity; professional sport careers; intercollegiate athletics; marriage/family; and the media.
Recommended: SOC 204 or SOC 204H

SOC 554, LEISURE AND CULTURE, 4 Credits
Examination of the social, cultural, and global significance of leisure activity (in particular, tourism and recreation) from a historical perspective relative to attitudes, values, behaviors, and use of natural resources.
Recommended: SOC 204 or SOC 204H
Available via Ecampus

SOC 556, SCIENCE AND TECHNOLOGY IN SOCIAL CONTEXT, 4 Credits
Study of social aspects of science and technology (values, practices, organization, impacts) by analysis of issues revealing their relationship to other social and cultural processes.
Recommended: SOC 204 or SOC 204H

SOC 560, THE SOCIOLOGY OF GLOBALIZATION, 4 Credits
Examines the sociological effect of globalization on Western and non-Western societies. The course focuses on changes in the global economy and how this has influenced the social structure, patterns of change, and mutual influences among societies.
Recommended: SOC 204 or SOC 204H

SOC 566, INTERNATIONAL DEVELOPMENT: GENDER ISSUES, 4 Credits
Examines roles and statuses of women and men throughout the world and differential impact of development on men and women. Evaluates traditional development policies and programs and discusses theories of gender stratification and of modernization.
Recommended: SOC 204 or SOC 204H

SOC 570, COLLECTIVE BEHAVIOR, 4 Credits
Examines current theories; focuses on behavior in crowds and diverse social settings including fads/fashions, ecstatic crowds/miracles, natural/technological disasters, urban legends, collective delusions/mass hysteria, protest/demonstrations, riots/mobs.
Recommended: SOC 204 or SOC 204H

SOC 571, SOCIAL MOVEMENTS, 4 Credits
Introduces core theoretical and methodological issues related to social movements in the US and abroad. Emphasizes social forces giving rise to movements, tactics employed by movements, and impacts of them on society.
Recommended: SOC 204 or SOC 204H

SOC 575, RURAL SOCIOLOGY, 4 Credits
Helps students understand the rich diversity in rural society, with an emphasis on the interdependencies between urban and rural contexts. Current issues and social problems experienced by rural populations and how sociology is used to understand and address issues affecting rural communities are explored.
Recommended: SOC 204 or SOC 204H
Available via Ecampus
SOC 580, ENVIRONMENTAL SOCIOLOGY, 4 Credits
Explores the evolution of environmental thought, paradigm shifts, and institutional structures associated with environmental concerns, social movements, and social impacts. Recommended: SOC 204 or SOC 204H Available via Ecampus

SOC 581, SOCIETY AND NATURAL RESOURCES, 4 Credits
Explores the complex interrelationships between humans and natural resources, emphasizing how management decisions and organizations are enmeshed in social and cultural contexts. Recommended: SOC 204 or SOC 204H Available via Ecampus

SOC 582, ENERGY, CLIMATE AND SOCIETY, 4 Credits
Explores the complex interrelationships between humans and energy, emphasizing the role of energy in critical social issues, including but not limited to: domestic and international conflict, poverty, social change, inter-generational equity, energy transitions and environmental justice.

SOC 599, SPECIAL TOPICS, 1-16 Credits
Selected topics of special or current interest not covered in other courses. For advanced undergraduate and graduate students. Equivalent to: SOC 590 This course is repeatable for 16 credits. Recommended: SOC 204 or SOC 204H

SOC 808, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

Software Engineering (SE)
SE 199, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

SE 201, SOFTWARE DEVELOPMENT I, 4 Credits
Introduction to collaborative software development of larger, object-oriented systems. Overview of software architecture, and the tools, principles and practice of modern software development. Prerequisite: CS 162 with C or better

SE 299, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

SE 303, SOFTWARE ENGINEERING III, 4 Credits
Introduction to refactoring techniques and improving the quality and maintainability of software. Applying continuous integration and deployment tools; containers and virtual development environments. Prerequisite: CS 362 with C or better

SE 399, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

SE 467, BUSINESS OF SOFTWARE II, 4 Credits
Become an entrepreneur. Start a real software business, from ideation to sales. Real-world, hands-on learning in a fast-paced startup environment. Development of product ideas, hypotheses, and business models to discover customers. Teamwork, management, and positioning for investment. Prerequisite: CS 466 with C or better

SE 468, BUSINESS OF SOFTWARE III, 4 Credits
Become an entrepreneur. Start a real software business, from ideation to sales. Real-world, hands-on learning in a fast-paced startup environment. Development of product ideas, hypotheses, and business models to discover customers. Teamwork, management, and positioning for investment. Prerequisite: SE 467 with C or better

SE 499, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

Soil Science (SOIL)
SOIL 101, INTRODUCTION TO CROP, SOIL, AND INSECT SCIENCE, 1 Credit
Introduces students with interests in crop, soil, and insect sciences to educational and professional opportunities in these disciplines. Speakers will discuss opportunities in research and academia as well as in the applied professional job market. CROSSLISTED as CROP 101/ENT 101/SOIL 101. Equivalent to: CROP 101, ENT 101, HORT 101 Available via Ecampus

SOIL 199, SPECIAL TOPICS, 1-16 Credits
Equivalent to: SOIL 199H This course is repeatable for 16 credits.

SOIL 199H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator Equivalent to: SOIL 199 This course is repeatable for 16 credits.

SOIL 205, SOIL SCIENCE, 3 Credits
Introduction to the chemical, physical and biological nature of soils. Examines how soils function in terms of plant growth, nutrient supply, the global carbon cycle, ecological habitat, and water purification. Community-based learning projects provide hands-on experience with fundamental soil science principles and the impact of human activities on soil quality and sustainability. Lec. (Bacc Core Course if taken with SOIL 206 or FOR 206) Attributes: CPBL – Core, Pers, BioSci Attached Lec; CPPL – Core, Pers, PhySci Attached Lec Prerequisite: SOIL 206 (may be taken concurrently) with D- or better or FOR 206 (may be taken concurrently) with D- or better Equivalent to: CSS 205, CSS 305
SOIL 206, *SOIL SCIENCE LABORATORY FOR SOIL 205, 1 Credit
Students will gain hands-on experience with soil science concepts and applications. Laboratory exercises and field trips will help students develop proficiency in the methods/tools for analyzing soil chemistry, biology, morphology, physical properties, and soil forming factors. Skills will be taught in the context of soils' social, economic, and environmental importance. (Bacc Core Course if taken with SOIL 205)
Attributes: CPBS – Core, Pers, Biological Science; CPPS – Core, Pers, Physical Science
Corequisites: SOIL 205

SOIL 299, SPECIAL TOPICS, 1-16 Credits
Equivalent to: SOIL 299H
This course is repeatable for 16 credits.

SOIL 299H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: SOIL 299
This course is repeatable for 16 credits.

SOIL 316, NUTRIENT CYCLING IN AGROECOSYSTEMS, 4 Credits
Nutrient forms, transformations, and cycling. Diagnosis and correction of nutrient deficiencies, pH and salinity. Impact of nutrient management practices on crop production, soil health, nutrient use efficiency, and environmental quality. Organic and inorganic fertilization. Labs include soil sampling and testing procedures, data collection on soil and plants, computer applications for soil fertility management, and field trips. Lec/lab.
Prerequisite: (CH 121 with D- or better or CH 231 with D- or better) and (SOIL 205 [C] or CSS 205 [C] or CSS 305 [C])

SOIL 325, ^AG AND ENVIRONMENTAL PREDICAMENTS: A CASE STUDY APPROACH, 3 Credits
Analyze controversial agricultural and environmental issues, synthesize information from diverse sources, and apply scientific knowledge to recommend specific courses of action to solve real world problems. Develop oral and written communication skills through individual and group work. CROSSLISTED as CROP 325/SOIL 325/SUS 325. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: CROP 325, SUS 325

SOIL 360, SOIL MANAGEMENT FOR ORGANIC PRODUCTION, 3 Credits
This is a skills-based soil management course that is part lecture and part student-centered learning. Significant class time will be devoted to making field-scale management decisions. The course includes individual and group work, presentation, and discussion. The intent is to prepare students for real-world application of soil management decisions in certified organic systems. Using the National Organic Program as a starting point as well as farm system descriptions with extensive long-term data sets, we will interpret soil nutrient analyses, cover cropping systems, and organic amendments, to design soil management plans for two model cropping systems (annual and perennial).
Prerequisite: (SOIL 205 with C or better and (SOIL 206 [C] or FOR 206 [C])) or CSS 205 [C]
Recommended: Introductory soil science course with lab
Available via Ecampus

SOIL 366, ECOSYSTEMS OF WILDLAND SOILS, 3 Credits
Focuses on soils that occur in relatively undisturbed ecosystems such as forests and rangelands. Topics covered include properties and processes specific to understanding and managing the soil resource in these areas. An overview of US Soil Taxonomy will also be given.
Prerequisite: SOIL 205 with D- or better or CSS 205 with D- or better or CSS 305 with D- or better
Recommended: An understanding and appreciation of environmental chemistry, biology, ecology, and physics
Available via Ecampus

SOIL 388, SOIL SYSTEMS AND PLANT GROWTH, 4 Credits
Introduces soils as providers of critical resources for plant growth. Explains how soils supply water, air, thermal energy and nutrients to plants. Shows that sustainable management of soil resources requires substantial understanding of their role in the functioning of natural, forest, and agricultural systems. Explains controls on stocks and availabilities of individual soil resources and mechanisms making these resources plant-available.
Prerequisite: (SOIL 205 with D- or better and (SOIL 206 [D-] or FOR 206 [D-]) or CSS 205 [D-] and (CH 121 [D-] or CH 231 [D-] and (BOT 220 [D-] or (BI 204 [D-] or BI 205 [D-] or BI 206 [D-]) or BI 211 [D-] or BI 212 [D-] or BI 213 [D-]) or (BI 211H [D-] or BI 212H [D-] or BI 213H [D-]) or (BI 221 [D-] or BI 222 [D-] or BI 223 [D-]) or (BI 221H [D-] or BI 222H [D-] or BI 223H [D-]))
Available via Ecampus
SOIL 395, **WORLD SOIL RESOURCES, 3 Credits**
The properties, global distribution, and agricultural productivity of major world soil groups are described. Potentials for human-accelerated soil degradation are introduced for each soil group, and reasons for conflicting assessments of degradation are discussed. Offered via Ecampus only. (Bacc Core Course) (Writing Intensive Course)

**Attributes:** CSST – Core, Synthesis, Science/Technology/Society; CWIC – Core, Skills, WIC

**Prerequisite:** CH 121 with D- or better or CH 122 with D- or better or CH 123 with D- or better or CH 201 with D- or better or CH 202 with D- or better or CH 231 with D- or better or CH 231H with D- or better or CH 232 with D- or better or CH 232H with D- or better or CH 233 with D- or better or CH 233H with D- or better

**Equivalent to:** CSS 395

**Recommended:** One term of chemistry

Available via Ecampus

SOIL 399, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 16 credits.

SOIL 401, RESEARCH, 1-16 Credits

Equivalent to: CSS 401

This course is repeatable for 16 credits.

SOIL 403, THESIS, 1-16 Credits

Independent, original study and preparation of a senior thesis.

Equivalent to: CSS 403

This course is repeatable for 16 credits.

SOIL 405, READING AND CONFERENCE, 1-16 Credits

Equivalent to: SOIL 405H

This course is repeatable for 16 credits.

SOIL 405H, READING AND CONFERENCE, 1-16 Credits

**Attributes:** HNRS – Honors Course Designator

Equivalent to: SOIL 405

This course is repeatable for 16 credits.

SOIL 407, SEMINAR, 1 Credit

Equivalent to: CROP 407, HORT 407

Available via Ecampus

SOIL 408, WORKSHOP, 1-16 Credits

Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems.

Equivalent to: CSS 408

This course is repeatable for 16 credits.

SOIL 409, PRACTICUM, 1-16 Credits

This course is repeatable for 16 credits.

SOIL 410, INTERNSHIP, 1-6 Credits

Professional work experience previously approved and supervised by the department, written report required.

Equivalent to: CSS 410

This course is repeatable for 12 credits.

SOIL 435, ENVIRONMENTAL SOIL PHYSICS, 3 Credits

Covers principles of soil physical properties and processes as they relate to agricultural, hydrological and environmental problems. Lec/lab. Offered odd years.

**Prerequisite:** CSS 205 with D- or better or CSS 305 with D- or better or SOIL 205 with D- or better

**Equivalent to:** CSS 435

**Recommended:** CH 123 and MTH 241 and PH 201

Available via Ecampus

SOIL 445, ENVIRONMENTAL SOIL CHEMISTRY, 3 Credits

Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.

Equivalent to: CSS 445

SOIL 455, BIOLOGY OF SOIL ECOSYSTEMS, 4 Credits

A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/rec/lab.

Equivalent to: CSS 455

**Recommended:** (CSS 305 or CSS 205 or SOIL 205). Courses in chemistry, physics, and microbiology

SOIL 466, SOIL MORPHOLOGY AND CLASSIFICATION, 4 Credits

Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab.

**Prerequisite:** SOIL 205 with D- or better or SOIL 205 with D- or better or SOIL 305 with D- or better

**Equivalent to:** CSS 466

Available via Ecampus

SOIL 468, SOIL LANDSCAPE ANALYSIS, 4 Credits

Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system and landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered even years.

**Prerequisite:** SOIL 466 (may be taken concurrently) with D- or better or CSS 466 (may be taken concurrently) with D- or better

**Equivalent to:** CSS 468

Available via Ecampus

SOIL 499, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 16 credits.
SOIL 499H, SPECIAL TOPICS, 1-16 Credits  
Attributes: HNRS – Honors Course Designator  
Equivalent to: SOIL 499  
This course is repeatable for 16 credits.

SOIL 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits  
This course is repeatable for 16 credits.

SOIL 503, THESIS/DISSERTATION, 1-16 Credits  
This course is repeatable for 999 credits.

SOIL 505, READING AND CONFERENCE, 1-16 Credits  
This course is repeatable for 16 credits.

SOIL 506, PROJECTS, 1-16 Credits  
This course is repeatable for 16 credits.

SOIL 507, SEMINAR, 1-16 Credits  
This course is repeatable for 16 credits.

SOIL 508, WORKSHOP, 1-16 Credits  
Evaluation and judging of soils in Oregon and other states; directed studies of soil morphology, soil survey, soil fertility, soil physics, soil chemistry, soil biology, and soil information systems.  
Equivalent to: CSS 508  
This course is repeatable for 16 credits.

SOIL 509, PRACTICUM IN TEACHING, 1-3 Credits  
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. CROSSLISTED as CROP 509/ENT 509/ PBG 509/SOIL 509.  
Equivalent to: CROP 509, ENT 509, PBG 509  
This course is repeatable for 9 credits.

SOIL 510, INTERNSHIP, 1-6 Credits  
Professional work experience previously approved and supervised by the department, written report required.  
This course is repeatable for 6 credits.

SOIL 511, SOIL: A NATURAL AND SOCIETAL RESOURCE, 3 Credits  
Serves degree- and non-degree-seeking graduate learners wanting soil science knowledge but having minimal science background. Understanding soil physical, chemical, and biological properties promotes informed soil management while supporting individual to global societal values. Established curriculum facilitates graduate degrees or certificates, continuing education, professional certification, and self-improvement goals. A highly interactive social media framework supports weekly student-student and instructor-student learning interactions.  
Available via Ecampus

SOIL 512, METHODS OF SOIL ANALYSIS - FIELD, 1 Credit  
Recognition and quantitative description of soil properties in agroecosystems. Assessments of soil environments used for crop production in Oregon. Demonstration and practice of volumetric and bulk soil sampling techniques as well as the application of pedotransfer functions. Each participant will be responsible for analyzing at least one soil sample in the chemical level. Five-day duration with four overnight stays at campgrounds. Participants will use their own or borrowed camping equipment.  
Recommended: SOIL 205 with a minimum grade of C

SOIL 514, METHODS OF SOIL ANALYSIS - LABORATORY, 2 Credits  
Provide the theoretical background, as well as practical experience needed to plan, select, execute, and interpret soil chemical and physical analyses such as those typically used for nutrient management recommendations. Individual and group activities involve classroom presentations, as well as hands-on work in a teaching laboratory. Samples processed are those collected in SOIL 512, Methods of Soil Analysis - Field. Duration is five full work days.  
Prerequisite: SOIL 512 (may be taken concurrently) with C or better  
Recommended: SOIL 205 and successful completion of EH&S Laboratory

SOIL 515, SOIL FERTILITY MANAGEMENT, 3 Credits  
Management of plant nutrients in agronomic systems; diagnosis of nutrient availability and prediction of crop response to fertilizers; interactions between nutrient response and chemical, physical and biological properties of soils.  
Equivalent to: CSS 515  
Recommended: CSS 315 and courses in statistics, chemistry and plant physiology.

SOIL 523, PRINCIPLES OF STABLE ISOTOPES, 3 Credits  
An introduction to the theory and use of stable isotopes. Applications of stable isotopes to soil science, plant physiology, hydrology, and ecosystem studies. Offered even years.  
Equivalent to: CSS 523

SOIL 525, MINERAL-ORGANIC MATTER INTERACTIONS, 3 Credits  
Studies the fundamental properties of the mineral-organic interface and the mechanisms of interaction between mineral and organic soil properties.  
Equivalent to: CSS 525  
Recommended: CSS 305 or CSS 205 or SOIL 205
SOIL 530, ORGANIC SOIL AND CROP MANAGEMENT, 3 Credits
Overview of organic soil and crop management, organic soil system management, soil microbiology under organic systems, cropping systems, organic cereal production systems, organic forage production system, organic horticultural systems management, organic field and horticulture cropping systems; recent research and case studies. CROSSLISTED as CROP 530/SOIL 530.
Equivalent to: CROP 530
Recommended: (SOIL 525, CROP 200 and SOIL 205 or introductory biology) and completion or concurrent enrollment in AGRI 520
Available via Ecampus

SOIL 535, SOIL PHYSICS, 3 Credits
Theoretical elements of soil physical properties and processes related to agricultural, hydrological and environmental problems. Offered fall term in even years.
Equivalent to: CSS 535
Recommended: CSS 305, CSS 205, SOIL 205, MTH 241, CH 123, PH 201

SOIL 536, VADOSE ZONE HYDROLOGY LABORATORY, 1 Credit
Experimental elements of soil physical properties and processes allowing practical experience in the measurement and analysis of soil physical processes related to agricultural, hydrological and environmental problems. Weekly laboratory. Offered even years.
Equivalent to: CSS 536
Recommended: CH 123 and PH 201

SOIL 545, ENVIRONMENTAL SOIL CHEMISTRY, 3 Credits
Structural chemistry of clay minerals and organic matter, cation and anion exchange, and soil solution equilibria of soils. Ion exchange, mineral-solution equilibria, and adsorption reactions of silicate clays, oxides, and organic matter are emphasized. Covers the sorption behavior of environmental contaminants and the weathering reactions that govern the transport of reactive solutes through soils. Lec/rec. Offered odd years.
Equivalent to: CSS 545

SOIL 547, NUTRIENT CYCLING, 3 Credits
Reviews and discusses ecosystem-level biogeochemical concepts for terrestrial and freshwater ecosystems, primarily by reading and discussing classic and current literature to determine the state-of-knowledge and uncertainties associated with it. Topics include root nutrient uptake mechanisms, soil chemical and biochemical transformations in different soil and ecosystems, measuring soil solution and watershed fluxes, soil organic matter formation and structure, the meaning of sustainability, the concept of N saturation in terrestrial ecosystems, and the use of natural abundance and tracer isotopes in ecosystem biogeochemistry. While forest biogeochemical processes will be emphasized, desert, aquatic, wetland, and prairie ecosystems will also be explored. CROSSLISTED as BOT 547/SOIL 547.
Equivalent to: BOT 547, FS 547
Recommended: College-level chemistry and biology and one class in ecology (eg. BI 370) and/or soils (eg. SOIL 205)

SOIL 555, BIOLOGY OF SOIL ECOSYSTEMS, 4 Credits
A detailed study of the organisms that live in the soil and their activities in the soil ecosystems, soil as a habitat for organisms, taxonomy and biology of soil organisms, fundamentals of nutrient cycles, special topics in soil biology, review basis of soil microbial and ecological principles. Lec/rec/lab.
Equivalent to: CSS 555
Recommended: CSS 305 or CSS 205 or SOIL 205. Courses in chemistry, physics, and microbiology

SOIL 566, SOIL MORPHOLOGY AND CLASSIFICATION, 4 Credits
Observation and description of soil properties in the field; writing soil profile descriptions; evaluating criteria that define features used to classify soils; using soil classification keys. Lec/lab.
Equivalent to: CSS 566
Recommended: CSS 305 or CSS 205 or SOIL 205

SOIL 568, SOIL LANDSCAPE ANALYSIS, 4 Credits
Principles of soil geomorphology, soil stratigraphy, and surficial processes as applied to understanding the soil system at landscape scales. Emphasis on field observations of soils, geomorphic surfaces, and environment. Field project entails design of soil survey map units, field mapping and GIS cartographic techniques. Lec/lab. Offered odd years.
Prerequisite: CSS 566 (may be taken concurrently) with C or better or SOIL 566 (may be taken concurrently) with C or better
Equivalent to: CSS 568

SOIL 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

SOIL 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SOIL 603, THESIS/DISSERTATION, 1-16 Credits
This course is repeatable for 999 credits.

SOIL 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SOIL 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

SOIL 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SOIL 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.
SOIL 609, PRACTICUM IN TEACHING, 1-3 Credits
Developing skills and competence in teaching under staff supervision; organization and presentation of instructional material by assisting in laboratory, recitation, and lectures. Graded P/N.
Equivalent to: CROP 609, ENT 609, PBG 609
This course is repeatable for 9 credits.

SOIL 635, ADVANCED SOIL PHYSICS, 3 Credits
Explores theoretical development of a key topic in soil physics. Topics may include evaporation from porous media, multiphase fluid movement, soil deformation, and soil salinization, with respect to either historical development, present day understanding or future needs of the field. Course structure incorporates lectures and discussion requiring intensive student participation. Offered odd years.
Prerequisite: CSS 535 with C or better or SOIL 535 with C or better
Recommended: A working knowledge of soil physics and a passing grade in a graduate-level soil physics course

SOIL 645, SOIL MICROBIAL ECOLOGY, 3 Credits
An advanced treatment of current topics in soil microbiology, with an emphasis on the ecology of soil microorganisms. Topics include the size, composition, diversity, and activity of soil microbial communities, linkage of microbial community structure to ecosystem functions, and applications of molecular biology to soil microbiology. Offered even years.
Equivalent to: CSS 645
Recommended: SOIL 455 or CSS 455 or MB 448

SOIL 684, GLOBAL BIOGEOCHEMICAL CYCLES, 4 Credits
An in-depth treatment of global biogeochemical cycles, focusing on cycles of carbon, oxygen, nitrogen, phosphorus, and sulfur in the atmosphere, hydrosphere, and lithosphere. CROSSLISTED as GEO 684/ SOIL 684.
Equivalent to: GEO 684
Recommended: One year of college-level physics and chemistry, including introductory biology. One year of graduate coursework in soil, earth, ocean, atmospheric or forest science

SOIL 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Spanish (SPAN)

SPAN 111, FIRST-YEAR SPANISH, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers will not receive credit for SPAN 111, SPAN 112, SPAN 113.
Available via Ecampus

SPAN 112, FIRST-YEAR SPANISH, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers may not receive credit for SPAN 111, SPAN 112, SPAN 113. Lec/rec.
Prerequisite: SPAN 111 (may be taken concurrently) with D- or better or placement test
Available via Ecampus

SPAN 113, FIRST-YEAR SPANISH, 4 Credits
Development of listening comprehension, speaking, reading, and writing skills. Native speakers and bilingual speakers may not receive credit for SPAN 111, SPAN 112, SPAN 113. Lec/rec.
Prerequisite: SPAN 112 with D- or better or placement test
Available via Ecampus

SPAN 117, FIRST-YEAR SPANISH-COMPLETE SEQUENCE, 12 Credits
Introduction to Spanish. Listening, speaking, reading, and writing skills developed. Students must take all twelve credits. Entire first-year sequence in eight weeks.
Equivalent to: SPAN 111, SPAN 112, SPAN 113

SPAN 188, HISPANIC STUDIES, HISPANIC STUDY CENTERS, 1-12 Credits
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises); Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.

SPAN 199, SPECIAL STUDIES, 1-3 Credits
May be repeated for a maximum of 3 credits.
This course is repeatable for 9 credits.

SPAN 211, SECOND-YEAR SPANISH, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers will not receive credit for SPAN 211, SPAN 212, SPAN 213.
Prerequisite: SPAN 113 with D- or better or placement test
Available via Ecampus

SPAN 212, SECOND-YEAR SPANISH, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers may not receive credit for SPAN 211, SPAN 212, SPAN 213.
Prerequisite: SPAN 211 with D- or better or placement test
Available via Ecampus

SPAN 213, SECOND-YEAR SPANISH, 4 Credits
Further development of listening comprehension, speaking, reading, and writing skills. Native speakers may not receive credit for SPAN 211, SPAN 212, SPAN 213. Completion if SPAN 213 with a grade of C- or better satisfies BA requirement for foreign languages.
Prerequisite: SPAN 212 with D- or better or placement test
Available via Ecampus
SPAN 214, SECOND-YEAR SPANISH FOR NATIVE SPEAKERS, 4 Credits
Designed for native speakers who learned Spanish in a home environment. Introduction to written Spanish.

SPAN 215, SECOND-YEAR SPANISH FOR NATIVE SPEAKERS, 4 Credits
Designed for native speakers who learned Spanish in a home environment. Introduction to written Spanish.
Recommended: SPAN 214

SPAN 216, SECOND-YEAR SPANISH FOR NATIVE SPEAKERS, 4 Credits
Designed for native speakers who learned Spanish in a home environment. Completion of SPAN 216 with a grade of C- or better satisfies BA requirement for foreign languages.
Recommended: SPAN 215

SPAN 217, SECOND-YEAR SPANISH-COMPLETE SEQUENCE, 12 Credits
Intermediate Spanish. Listening, speaking, reading, and writing skills developed. Students must take all 12 credits. Entire second-year sequence in eight weeks.
Recommended: SPAN 113 or SPAN 117

SPAN 221, SPANISH FOR MEDICAL PROFESSIONS I, 4 Credits
Provides students in health science and pre-professional disciplines with a working knowledge of Spanish used in health sciences and cultural competency needed to serve Latino populations.
Prerequisite: SPAN 113 with C- or better
Available via Ecampus

SPAN 222, SPANISH FOR MEDICAL PROFESSIONS II, 4 Credits
Provides students in health science and pre-professional disciplines with a working knowledge of Spanish used in health sciences and cultural competency needed to serve Latino populations.
Prerequisite: SPAN 221 with C- or better
Available via Ecampus

SPAN 288, HISPANIC STUDIES, HISPANIC STUDY CENTERS, 1-12 Credits
Section 1: Topics, Hispanic language; Section 2: Practical work (exercises); Section 3: Topics, Hispanic arts and letters; Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 299, SPECIAL STUDIES, 1-3 Credits
This course is repeatable for 9 credits.

SPAN 311, THIRD YEAR SPANISH, 3 Credits
Focuses on reading, writing, oral production, listening comprehension and the acquisition of skills related to inter-cultural communication. Enables further development of the language skills acquired in earlier courses while studying the more complex aspects of the language. Spanish classes at OSU are guided by the national standards, known as the five Cs: Communication, Culture, Connections, Comparisons, and Community.
Prerequisite: SPAN 213 with C- or better or placement test
Equivalent to: SPAN 314
Available via Ecampus

SPAN 312, THIRD YEAR SPANISH, 3 Credits
Focuses on reading, writing, oral production, listening comprehension and the acquisition of skills related to inter-cultural communication. Enables further development of the language skills acquired in earlier courses while studying the more complex aspects of the language. Spanish classes at OSU are guided by the national standards, known as the five Cs: Communication, Culture, Connections, Comparisons, and Community.
Prerequisite: SPAN 213 with C- or better or placement test or SPAN 311 (may be taken concurrently) with C- or better
Equivalent to: SPAN 315
Available via Ecampus

SPAN 313, THIRD YEAR SPANISH, 3 Credits
Focuses on reading, writing, oral production, listening comprehension and the acquisition of skills related to inter-cultural communication. Spanish classes at OSU are guided by the national standards, known as the five Cs: Communication, Culture, Connections, Comparisons, and Community.
Prerequisite: SPAN 213 with C- or better or SPAN 311 (may be taken concurrently) with C- or better or SPAN 312 (may be taken concurrently) with C- or better or placement test
Equivalent to: SPAN 316
Available via Ecampus

SPAN 314, THIRD-YEAR SPANISH FOR HERITAGE LANGUAGE LEARNERS, 3 Credits
Extensive practice in reading, writing, and speaking. Refinement of spelling, grammar, and vocabulary within a relevant cultural context. Students cannot receive credit for both SPAN 311 and SPAN 314.
Equivalent to: SPAN 311
Recommended: SPAN 216 or placement
Available via Ecampus

SPAN 315, THIRD-YEAR SPANISH FOR HERITAGE LANGUAGE LEARNERS, 3 Credits
Extensive practice in reading, writing, and speaking. Refinement of spelling, grammar, and vocabulary within a relevant cultural context. Students cannot receive credit for both SPAN 312 and SPAN 315.
Equivalent to: SPAN 312
Recommended: SPAN 314 or placement
Available via Ecampus
SPAN 316, THIRD-YEAR SPANISH FOR HERITAGE LANGUAGE LEARNERS, 3 Credits
Extensive practice in reading, writing, and speaking. Refinement of spelling, grammar, and vocabulary within a relevant cultural context. Students cannot receive credit for both SPAN 313 and SPAN 316.
Equivalent to: SPAN 313
Recommended: SPAN 315 or placement
Available via Ecampus

SPAN 317, DIRECTED READING AND WRITING IN SPANISH, 3 Credits
Emphasis on reading comprehension and improving writing ability. Students will build on their language skills and cultural awareness using different forms of literary expression from the Spanish-speaking world.
Equivalent to: SPAN 327
Recommended: 9 credits of upper-division Spanish
Available via Ecampus

SPAN 318, INTRODUCTION TO SPANISH LANGUAGE LITERATURE, 3 Credits
Provides the literary background and analytical tools for students to discuss Spanish language literature with some depth and prepares students for more advanced literature courses. Some discussion of Latin American and Spanish history, politics and culture will provide a context for the readings.
Recommended: 9 credits of upper-division Spanish
Available via Ecampus

SPAN 319, SPANISH FOR BUSINESS, 3 Credits
Recommended: SPAN 312
Available via Ecampus

SPAN 320, SPANISH CONVERSATION, 3 Credits
Extensive listening and speaking practice in Spanish, and systematic contact with Latin culture. Emphasis on vocabulary, pronunciation, intonation, and comprehension. Native speakers of Spanish are not eligible to take this course. May be used to satisfy requirements for the major or minor.
Recommended: 6 credits of upper-division Spanish
Available via Ecampus

SPAN 327, MEXICAN-AMERICAN LITERATURE AND COMPREHENSION FOR SPANISH HERITAGE LANGUAGE LEARNERS, 3 Credits
Combines the study of fiction, drama, and poetry in Spanish language produced by people of Mexican origin in what is today the United States, with intensive practice in the writing of formal Spanish. Students are encouraged to develop their independent thinking and analytical ability. Designed for students from a Spanish-speaking background.
Equivalent to: SPAN 317
Recommended: SPAN 316
Available via Ecampus

SPAN 331, *THE CULTURES OF SPAIN AND PORTUGAL, 3 Credits
Historical development of the cultures and societies of the Iberian Peninsula. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.
Available via Ecampus

SPAN 332, *THE CULTURES OF SPAIN AND PORTUGAL, 3 Credits
Historical development of the cultures and societies of the Iberian Peninsula. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.
Available via Ecampus

SPAN 333, CULTURES OF SPAIN AND PORTUGAL, 3 Credits
Historical development of the cultures and societies of today's Iberian Peninsula. Taught in Spanish.
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.
Available via Ecampus

SPAN 336, *LATIN AMERICAN CULTURE, 3 Credits
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.
Available via Ecampus
SPAN 337, *LATIN AMERICAN CULTURE, 3 Credits
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.
Available via Ecampus

SPAN 338, *LATIN AMERICAN CULTURE, 3 Credits
Historical development of the cultures and societies of Latin America, with an emphasis on Spanish- and Portuguese-speaking peoples. Taught in Spanish. (H) (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 339, MEXICAN IMMIGRANT EXPERIENCE IN THE UNITED STATES, 3 Credits
An interdisciplinary analysis of the immigration from Mexico to the United States. It will include discussions of literary, cultural and political accounts. Emphasis on the development of presentational communication skills in Spanish. Taught in Spanish.
Recommended: 12 credits from SPAN 314, SPAN 315, SPAN 316, SPAN 317, SPAN 318, SPAN 331, SPAN 332, SPAN 336, SPAN 337, SPAN 338.
Available via Ecampus

SPAN 344, SELECTED TOPICS IN LITERATURE, 3 Credits
Taught in Spanish. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Recommended: Completion of 9 credits from SPAN 311, SPAN 312, SPAN 313, SPAN 317, SPAN 318.

SPAN 350, PHONETICS AND PRONUNCIATION, 3 Credits
An exploration of the organs of speech and hearing, acoustic analysis, and transcription of native and learner Spanish speech samples.
Recommended: 3 credits of upper-division Spanish.

SPAN 351, HISPANIC LINGUISTICS, 3 Credits
Recommended for teacher certification.
Recommended: SPAN 350

SPAN 355, INTRODUCTION TO SPANISH TRANSLATION, 3 Credits
Combines beginning translation theory with hands-on practice using a variety of activities from several areas of professional specialization. Introduces the uses and limits of automatic translators. Includes a brief introduction to simultaneous interpretation as it is done in professional conference settings. Taught in English and Spanish; participants must be proficient in both.
Prerequisite: SPAN 311 with D- or better or SPAN 314 with D- or better

SPAN 379, PROCTOR EXPERIENCE, 1 Credit
Supervised practicum for advanced students, with assignments as proctors or tutors in lower-division Spanish language courses. No more than 2 credits may be used to satisfy degree requirements for a major in Spanish; no credit may be used to satisfy requirements for a minor in Spanish. Graded P/N.
This course is repeatable for 3 credits.
Recommended: Completion of 21 upper-division credits in Spanish with a minimum 3.00 GPA.

SPAN 388, HISPANIC STUDIES, HISPANIC STUDY CENTERS, 1-12 Credits
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises). Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SPAN 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SPAN 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SPAN 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SPAN 410, INTERNSHIP, 1-15 Credits
This course is repeatable for 15 credits.
Available via Ecampus
SPAN 411, SPECIALIZED GRAMMAR OR LINGUISTICS TOPICS, 3 Credits
Students develop an in-depth knowledge of various linguistic aspects of Spanish, particularly in regard to problematic grammatical structures and the development of writing proficiency. The main focus is on integrating a thorough understanding of grammatical structures into writing using selected literary works as models. Students analyze their own linguistic progress and apply this meta-knowledge to their writing.
Recommended: 18 credits of upper-division Spanish.
Available via Ecampus

SPAN 412, ADVANCED COMPOSITION, 3 Credits
Emphasis on creative writing. Students will read and discuss a series of stories with the same theme, then write their own. The subjunctive and other advanced grammar topics will be reviewed and incorporated into the writing activities. Taught in Spanish.
Recommended: 18 credits of upper-division Spanish

SPAN 413, ADVANCED COMMUNICATION SKILLS, 3 Credits
Contextualized exploration of skills outlined in the National Standards Project's
Recommended: 18 credits of upper-division Spanish

SPAN 435, SPECIAL TOPICS IN LATIN AMERICAN CULTURE, 3 Credits
Historical and contemporary aspects of the cultures of Latin America. May include material relevant to Spain and U.S. Latinos. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Recommended: 18 credits of upper-division Spanish

SPAN 438, SELECTED TOPICS IN LUSO-HISPANIC CULTURE, 3 Credits
Contemporary aspects of the cultures of Spain, Portugal, or Latin America with a cross-cultural perspective. Topics and language of instruction vary. May be repeated for credit when topic varies. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
This course is repeatable for 9 credits.
Recommended: Completion of 6 credits from SPAN 331, SPAN 332, SPAN 333, SPAN 336, SPAN 337, SPAN 338.
Available via Ecampus

SPAN 444, SELECTED TOPICS IN THE LITERATURE OF SPAIN, 3 Credits
Representative Spanish prose, poetry, and drama, with an emphasis on the 19th and 20th centuries. Taught in Spanish. See Schedule of Classes for current term offering. May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 12 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 445, SELECTED TOPICS IN THE LITERATURE OF LATIN AMERICA, 3 Credits
Representative prose, poetry, and drama of Spanish America and/or Brazil, with an emphasis on the mid-19th century to the present. Topics and language of instruction may vary. See Schedule of Classes for current term offering. May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 18 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 448, LATIN AMERICAN GREAT WORKS, 3 Credits
Major works by Latin American writers, concentrating on literary style and technique, as well as Latin American history, politics and culture. Taught in Spanish.
Recommended: Completion of 21 upper-division credits of Spanish.

SPAN 455, INTRODUCTION TO SPANISH TRANSLATION, 3 Credits
Combines beginning translation theory with hands-on practice using a variety of activities from several areas of professional specialization. Includes a brief introduction to simultaneous interpretation as it is done in professional conference or broadcast media settings. Participants must be highly proficient in both English and Spanish.
Recommended: 12 credits of upper-division Spanish

SPAN 456, SPANISH IN THE UNITED STATES, 3 Credits
Provides a foundation for the study of Spanish in the United States. Focuses on the diverse identities of Latino/as and Spanish speakers as they define what it means to be bilingual locally, regionally, and nationally. Spanish and Spanish-English bilingualism will be studied from critical sociolinguistic, historical and political perspectives.
Available via Ecampus

SPAN 488, HISPANIC STUDIES, HISPANIC STUDY CENTERS, 1-12 Credits
Section 1: Topics, Hispanic language. Section 2: Practical work (exercises). Section 3: Topics, Hispanic arts and letters. Section 4: Topics, Hispanic society.
This course is repeatable for 12 credits.

SPAN 499, SPECIAL TOPICS, 1-16 Credits
May be repeated for credit when topic varies. Not offered every year.
This course is repeatable for 99 credits.

SPAN 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
SPAN 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 506, SPECIAL PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

SPAN 510, INTERNSHIP, 1-15 Credits
(See SPAN 410 for description.)
This course is repeatable for 15 credits.

SPAN 535, SPECIAL TOPICS IN LATIN AMERICAN CULTURE, 3 Credits
Historical and contemporary aspects of the cultures of Latin America. May include material relevant to Spain and U.S. Latinos. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Recommended: 18 credits of upper-division Spanish

SPAN 538, SELECTED TOPICS IN LUSO-HISPANIC CULTURE, 3 Credits
Contemporary aspects of the cultures of Spain, Portugal, or Latin America with a cross-cultural perspective. Topics and language of instruction vary. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 9 credits.
Recommended: Completion of 6 credits from SPAN 331, SPAN 332, SPAN 333, SPAN 336, SPAN 337, SPAN 338.

SPAN 544, SELECTED TOPICS IN THE LITERATURE OF SPAIN, 3 Credits
Representative Spanish prose, poetry, and drama, with an emphasis on the 19th and 20th centuries. Taught in Spanish. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 12 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 545, SELECTED TOPICS IN THE LITERATURE OF LATIN AMERICA, 3 Credits
Representative prose, poetry, and drama of Spanish America and/or Brazil, with an emphasis on the mid-19th century to the present. Topics and language of instruction may vary. Not offered every year. May be repeated for credit when topic varies.
This course is repeatable for 18 credits.
Recommended: Completion of 21 upper-division credits in Spanish.

SPAN 548, LATIN AMERICAN GREAT WORKS, 3 Credits
Major works by Latin American writers, concentrating on literary style and technique, as well as Latin American history, politics and culture. Taught in Spanish.
Recommended: 21 upper-division credits of Spanish.

SPAN 555, INTRODUCTION TO SPANISH TRANSLATION, 3 Credits
Combines beginning translation theory with hands-on practice using a variety of activities from several areas of professional specialization. Includes a brief introduction to simultaneous interpretation as it is done in professional conference or broadcast media settings. Participants must be highly proficient in both English and Spanish.
Recommended: 12 credits of upper-division Spanish.

SPAN 556, SPANISH IN THE UNITED STATES, 3 Credits
Provides a foundation for the study of Spanish in the United States. Focuses on the diverse identities of Latino/as and Spanish speakers as they define what it means to be bilingual locally, regionally, and nationally. Spanish and Spanish-English bilingualism will be studied from critical sociolinguistic, historical and political perspectives.
Recommended: SPAN 350

SPAN 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

SPAN 808, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

Statistics (ST)

ST 199, SPECIAL TOPICS, 3 Credits
This course can only be taken once unless instructor permission is provided.

ST 201, PRINCIPLES OF STATISTICS, 4 Credits
Study design, descriptive statistics, the use of probability in statistical arguments, sampling, hypothesis tests and confidence intervals for means and proportions. Lec/rec.
Equivalent to: ST 201H
Recommended: High school algebra
Available via Ecampus

ST 202, PRINCIPLES OF STATISTICS, 4 Credits
Comparisons of means and proportions between two populations (t-tests, chi-square tests, non-parametric tests), simple linear regression, correlation. Lec/rec.
Prerequisite: ST 201 with D- or better
Equivalent to: ST 209
Available via Ecampus

ST 314, INTRODUCTION TO STATISTICS FOR ENGINEERS, 3 Credits
Probability, common probability distributions, sampling distributions, estimation, hypothesis testing, control charts, regression analysis, experimental design.
Prerequisite: MTH 252 with D- or better or MTH 252H with D- or better
Equivalent to: ST 314H
Available via Ecampus
ST 351, INTRODUCTION TO STATISTICAL METHODS, 4 Credits
Study designs, descriptive statistics, collecting and recording data, probability distributions, sampling distributions for means and proportions, hypothesis testing and confidence intervals for means and proportions in one- and two-sample inference, and chi-square tests. Lec/lab.
Equivalent to: ST 351H
Recommended: High school algebra with statistics
Available via Ecampus

ST 351H, INTRODUCTION TO STATISTICAL METHODS, 4 Credits
Study designs, descriptive statistics, collecting and recording data, probability distributions, sampling distributions for means and proportions, hypothesis testing and confidence intervals for means and proportions in one- and two-sample inference, and chi-square tests. Lec/lab.
Attributes: HNRS – Honors Course Designator
Equivalent to: ST 351
Recommended: High school algebra with statistics

ST 352, INTRODUCTION TO STATISTICAL METHODS, 4 Credits
Randomization tests and other nonparametric tests for one- and two-sample inference, simple and multiple linear regression, correlation, one- and two-way analysis of variance, logistic regression.
Prerequisite: ST 351 with D- or better or ST 351H with D- or better

ST 406, PROJECTS, 1-16 Credits
Section 1: Projects, graded P/N. Section 2: Teaching Experience, graded P/N. Section 3: Directed Work, graded P/N.
This course is repeatable for 16 credits.

ST 407, SEMINAR, 1 Credit
Attendance at consulting practicum. Graded P/N.

ST 410, INTERNSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ST 411, METHODS OF DATA ANALYSIS, 4 Credits
Graphical, parametric and nonparametric methods for comparing two samples; one-way and two-way analysis of variance; simple linear regression. Lec/lab.
Recommended: ST 351

ST 412, METHODS OF DATA ANALYSIS, 4 Credits
Multiple linear regression, including model checking, dummy variables, using regression to fit analysis of variance models, analysis of covariance, variable selection methods. Lec/lab.
Prerequisite: ST 411 with D- or better
Recommended: ST 351

ST 413, METHODS OF DATA ANALYSIS, 4 Credits
Principles of experimental design; randomized block and factorial designs; repeated measures; categorical data analysis, including comparison of proportions, tests of homogeneity and independence in cross-classified frequency tables, Mantel-Haenszel test, logistic regression, log-linear regression. Introduction to multivariate statistics.
Lec/lab.
Prerequisite: ST 412 with D- or better
Recommended: ST 351

ST 415, DESIGN AND ANALYSIS OF PLANNED EXPERIMENTS, 3 Credits
Principles of experimental design; uses, construction and analysis of completely randomized, randomized block and Latin square designs; covariates; factorial treatments, split plotting; random effects and variance components.
Prerequisite: ST 352 with D- or better or ST 411 with D- or better or ST 511 with D- or better

ST 421, INTRODUCTION TO MATHEMATICAL STATISTICS, 4 Credits
Probability, random variables, expectation, discrete and continuous distributions, multivariate distributions.
Recommended: MTH 253

ST 422, INTRODUCTION TO MATHEMATICAL STATISTICS, 4 Credits
Sampling distributions, Central Limit Theorem, estimation, confidence intervals, properties of estimators, and hypothesis testing.
Prerequisite: ST 421 with D- or better
Recommended: MTH 253

ST 431, SAMPLING METHODS, 3 Credits
Estimation of means, totals and proportions; sampling designs including simple random, stratified, cluster, systematic, multistage and double sampling; ratio and regression estimators; sources of errors in surveys; capture-recapture methods.
Recommended: ST 411 or ST 511

ST 435, QUANTITATIVE ECOLOGY, 3 Credits
Overview of statistical methods that are useful for analyzing ecological data, including spatial pattern analysis, multivariate techniques, logistic regression, Bayesian statistics and computer-intensive methods.
Consideration of special topics such as population dynamics, food webs and ecological indicators. Not offered every year.
Prerequisite: ST 412 with D- or better or ST 512 with D- or better

ST 439, SURVEY METHODS, 3 Credits
Survey design, data collection and analysis, general methodology.
Prerequisite: ST 201 with D- or better or ST 351 with D- or better
Available via Ecampus
ST 441, PROBABILITY, COMPUTING, AND SIMULATION IN STATISTICS, 4 Credits
Prerequisite: ST 422 with D- or better or ST 522 with D- or better

ST 443, APPLIED STOCHASTIC MODELS, 3 Credits
Development of stochastic models commonly arising in statistics and operations research, such as Poisson processes, birth-and-death processes, discrete-time and continuous-time Markov chains, renewal and Markov renewal processes. Analysis of stochastic models by simulation and other computational techniques.
Prerequisite: ST 421 with D- or better or ST 521 with D- or better
Recommended: Experience with a high-level programming language or mathematical computation package

ST 499, SPECIAL TOPICS, 1-4 Credits
May be repeated for credit.
This course is repeatable for 8 credits.

ST 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ST 503, THESIS, 1-16 Credits
This course is repeatable for 99 credits.

ST 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

ST 506, PROJECTS, 1-16 Credits
Section 1: Projects. Section 2: Teaching Experience. Section 3: Directed Work.
This course is repeatable for 16 credits.

ST 507, SEMINAR, 1 Credit
Section 1: Attendance at consulting practicum, 1 credit. Section 3: Research Seminar, 1 credit. Section 4: Computing Facilities, 1 credit. All sections graded P/N.
This course is repeatable for 99 credits.

ST 509, CONSULTING PRACTICUM, 2 Credits
The student provides statistical advice, under faculty guidance, on university-related research projects.
This course is repeatable for 99 credits.
Recommended: ST 507 and ST 553

ST 510, INTERNSHIP, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

ST 511, METHODS OF DATA ANALYSIS, 4 Credits
Graphical, parametric and nonparametric methods for comparing two samples; one-way and two-way analysis of variance; simple linear regression. Lec/lab.
Recommended: ST 351

ST 512, METHODS OF DATA ANALYSIS, 4 Credits
Multiple linear regression, including model checking, dummy variables, using regression to fit analysis of variance models, analysis of covariance, variable selection methods. Lec/lab.
Prerequisite: ST 511 with C or better
Recommended: ST 351

ST 513, METHODS OF DATA ANALYSIS, 4 Credits
Principles of experimental design; randomized block and factorial designs; repeated measures; categorical data analysis, including comparison of proportions, tests of homogeneity and independence in cross-classified frequency tables, Mantel-Haenszel test, logistic regression, log-linear regression. Introduction to multivariate statistics. Lec/lab.

ST 515, DESIGN AND ANALYSIS OF PLANNED EXPERIMENTS, 3 Credits
Principles of experimental design; uses, construction and analysis of completely randomized, randomized block and Latin square designs; covariates; factorial treatments, splitplotting; random effects and variance components.
Recommended: ST 352 or (ST 411 or ST 511)
Available via Ecampus

ST 516, FOUNDATIONS OF DATA ANALYTICS, 4 Credits
Foundations of estimation and hypothesis testing; desirable properties of estimators; maximum likelihood; one- and two-sample problems; theoretical results are explored through simulations and analysis using R. Offered via Ecampus only.
Recommended: ST 351
Available via Ecampus

ST 517, DATA ANALYTICS I, 4 Credits
Methods for modeling quantitative data and statistical learning—simple and multiple linear regression; linear mixed effects models; data imputation; prediction and cross-validation; scaling up to large datasets. Simulations and data analysis using R. Offered via Ecampus only.
Prerequisite: ST 516 with C+ or better
Available via Ecampus

ST 518, DATA ANALYTICS II, 4 Credits
Statistical methods and data analysis techniques for count data. Topics include tests for tables of counts, logistic regression, log-linear regression, generalized linear mixed models, and issues for large datasets. Data analysis in R.
Prerequisite: ST 517 with C+ or better
Available via Ecampus
ST 521, INTRODUCTION TO MATHEMATICAL STATISTICS, 4 Credits
Probability, random variables, expectation, discrete and continuous distributions, multivariate distributions.
Recommended: MTH 253

ST 522, INTRODUCTION TO MATHEMATICAL STATISTICS, 4 Credits
Sampling distributions, Central Limit Theorem, estimation, confidence intervals, properties of estimators, and hypothesis testing.
Prerequisite: ST 521 with C or better
Recommended: MTH 253

ST 525, APPLIED SURVIVAL ANALYSIS, 3 Credits
Statistical methods for analyzing survival data or time-to-event data, which may be censored and/or truncated. Specific topics can vary term to term, and could include Kaplan-Meier estimator; K-sample hypothesis tests for survival data; Accelerated failure time model; Cox proportional hazard regression model.
Prerequisite: ST 516 with C or better and ST 517 [C] and ST 518 [C]
Available via Ecampus

ST 531, SAMPLING METHODS, 3 Credits
Estimation of means, totals and proportions; sampling designs including simple random, stratified, cluster, systematic, multistage and double sampling; ratio and regression estimators; sources of errors in surveys; capture-recapture methods.
Recommended: ST 411 or ST 511

ST 535, QUANTITATIVE ECOLOGY, 3 Credits
Overview of statistical methods that are useful for analyzing ecological data, including spatial pattern analysis, multivariate techniques, logistic regression, Bayesian statistics and computer-intensive methods. Consideration of special topics such as population dynamics, food webs and ecological indicators. Not offered every year.
Recommended: ST 412 or ST 512

ST 537, DATA VISUALIZATION, 3 Credits
Perceptual principles for displaying data; critique and improvement of data visualizations; use of color in visualization; principles of tidy data; strategies for data exploration; select special topics.
Prerequisite: ST 512 with C or better or ST 517 with C or better or ST 552 with C or better
Recommended: Familiarity with linear regression and using R
Available via Ecampus

ST 538, MODERN STATISTICAL METHODS FOR LARGE AND COMPLEX DATA SETS, 3 Credits
Provides students with the tools and experience to analyze big and messy data and work effectively in a data science team. Covers the tools to handle big data and answer statistical questions based on the data. Includes three big data analysis projects that students work on in groups. Focuses on proper use of modern data analysis techniques related to regression, classification and clustering for data coming from a variety of application fields. R will be the lingua franca.
Prerequisite: ST 512 with C or better or ST 517 with C or better or ST 552 with C or better or ST 412 with C or better
Available via Ecampus

ST 539, SURVEY METHODS, 3 Credits
Survey design, data collection and analysis, general methodology.
Recommended: ST 201 or ST 351
Available via Ecampus

ST 541, PROBABILITY, COMPUTING, AND SIMULATION IN STATISTICS, 4 Credits
Recommended: ST 422 or ST 522

ST 543, APPLIED STOCHASTIC MODELS, 3 Credits
Development of stochastic models commonly arising in statistics and operations research, such as Poisson processes, birth-and-death processes, discrete-time and continuous-time Markov chains, renewal and Markov renewal processes. Analysis of stochastic models by simulation and other computational techniques.
Recommended: (ST 421 or ST 521) and experience with a high-level programming language or mathematical computation package.

ST 551, STATISTICAL METHODS, 4 Credits
Properties of t, chi-square and F tests; randomized experiments; sampling distributions and standard errors of estimators, delta method, comparison of several groups of measurements; two-way tables of measurements.
Recommended: Concurrent enrollment in MTH 341 and (ST 422 or ST 522)

ST 552, STATISTICAL METHODS, 4 Credits
Simple and multiple linear regression including polynomial regression, indicator variables, weighted regression, and influence statistics, nonlinear regression and linear models for binary data.
Prerequisite: ST 551 with C or better
Recommended: ST 422 or ST 522.

ST 553, STATISTICAL METHODS, 4 Credits
Principles and analysis of designed experiments, including factorial experiments, analysis of covariance, random and mixed effect models. Lec/lab.
Prerequisite: ST 552 with C or better
**ST 555, ADVANCED EXPERIMENTAL DESIGN, 3 Credits**

Designs leading to mixed models including split plots, repeated measures, crossovers and incomplete blocks. Introduction to experimental design in industry including confounding, fractional factorials and response surface methodology. Analysis of unbalanced data.

**Prerequisite:** ST 553 with C or better

**ST 557, APPLIED MULTIVARIATE ANALYSIS, 3 Credits**

Multivariate data structures, linear combinations; principal components, factor and latent structure analysis, canonical correlations, discriminant analysis; cluster analysis, multidimensional scaling. Not offered every year.

**Recommended:** (ST 412 or ST 512) and (MTH 252 or MTH 245)

**ST 558, MULTIVARIATE ANALYSES, 3 Credits**

Basics of matrix algebra, principal components analysis, cluster analysis, factor analysis, multidimensional scaling.

**Prerequisite:** ST 518 with C- or better

**Available via Ecampus**

**ST 559, BAYESIAN STATISTICS, 3 Credits**

Bayesian statistics for data analysis. Characterizations of probability; comparative (Bayesian versus frequentist) inference; prior, posterior and predictive distributions; hierarchical modeling. Computational methods include Markov Chain Monte Carlo for posterior simulation.

**Recommended:** ST 562

**ST 561, THEORY OF STATISTICS, 4 Credits**

Distributions of functions of random variables, joint and conditional distributions, sampling distributions, convergence concepts, order statistics. Lec/rec.

**Recommended:** ST 422 or ST 522

**ST 562, THEORY OF STATISTICS, 4 Credits**

Sufficiency, exponential families, location and scale families; point estimation: maximum likelihood, Bayes, and unbiased estimators; asymptotic distributions of maximum likelihood estimators; Taylor series approximations.

**Prerequisite:** ST 561 with C or better

**Recommended:** ST 422 or ST 522

**ST 563, THEORY OF STATISTICS, 4 Credits**

Hypothesis testing: likelihood ratio, Bayesian, and uniformly most powerful tests; similar tests in exponential families; asymptotic distributions of likelihood ratio test statistics; confidence intervals.

**Prerequisite:** ST 562 with C or better

_This course is repeatable for 4 credits._

**Recommended:** ST 422 or ST 522

**ST 565, TIME SERIES, 3 Credits**

Analysis of serially correlated data in both time and frequency domains. Autocorrelation and partial autocorrelation functions, autoregressive integrated moving average models, model building, forecasting; filtering, smoothing, spectral analysis, frequency response studies. Offered winter term in even years.

**Recommended:** (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 566, TIME SERIES ANALYTICS, 3 Credits**

Focuses on statistical and analytical tools for analyzing data that are observed sequentially over time. Specific topics can vary term to term, and could include methods for exploratory time series analysis, linear time series models (ARMA, ARIMA), forecasting, spectral analysis and state-space models. The focus will be on applied problems, though some mathematical statistics is necessary for a solid understanding of the statistical issues. This course is designed for students in Data Analytics MS and Certificate programs.

**Prerequisite:** ST 516 with C or better and ST 517 [C] and ST 518 [C]

**Available via Ecampus**

**ST 567, SPATIAL STATISTICS, 3 Credits**

The analysis of spatial data. Graphical tools for exploring spatial data, geostatistics, variogram estimation, kriging, areal models, hierarchical spatial models, and spatio-temporal modelling. Offered winter term in odd years.

**Recommended:** (ST 412 or ST 512) and (ST 422 or ST 522)

**ST 591, INTRODUCTION TO QUANTITATIVE GENOMICS, 3 Credits**

Provides an overview of how genomic data is generated and analyzed. It focuses on the underlying biological motivation, theoretical concepts, and analytical challenges associated with genomic research, especially the generation of statistics that summarize genomic data. The class is organized as a combination of lectures and group literature review discussions. Students are expected to actively participate in the class. Students from diverse backgrounds, including quantitative, biological, and computations sciences, are encouraged to enroll.

**Recommended:** ST 411 or ST 511

**Available via Ecampus**

**ST 592, STATISTICAL METHODS FOR GENOMICS RESEARCH, 3 Credits**

Lectures include an overview of statistical methods commonly applied in genomics research. Specific methods can vary term to term, and could include cluster analysis, decision trees, dimension reduction tools, regression models, multiple testing adjustment, variable selection methods, etc. Journal clubs include team-based review and presentations of landmark papers in both statistical methodology and genomics research. Research experience includes whole-term collaboration between students from statistics and other disciplines on real projects.

**Recommended:** ST 411 or ST 511 or a higher level course such as ST 551

**Available via Ecampus**

**ST 595, CAPSTONE PROJECT, 3 Credits**

Provides an opportunity for students to integrate and apply the analytics skills learned in MS in Data Analytics program to solve real-world problems and to interpret and communicate their results. Student teams will engage in the entire process of solving data science projects in realistic settings, from placing the problem into appropriate statistical framework to applying suitable analytic methods to the problem. Problem solving, written and oral communication skills will be emphasized.

**Prerequisite:** ST 516 with C or better and ST 517 [C] and ST 518 [C] and ST 558 [C]

**Available via Ecampus**
ST 599, SPECIAL TOPICS, 1-4 Credits
May be repeated for credit when topic varies.
This course is repeatable for 16 credits.

ST 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

ST 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

ST 606, PROJECTS, 1-16 Credits
Section 1: Projects; Section 2: Teaching Experience, graded P/N; Section 3: Directed Work, graded P/N.
This course is repeatable for 16 credits.

ST 623, GENERALIZED REGRESSION MODELS, 3 Credits
Maximum likelihood analysis for frequency data; regression-type models for binomial and Poisson data; iterative weighted least squares and maximum likelihood; analysis of deviance and residuals; over-dispersion and quasi-likelihood models; log-linear models for multidimensional contingency tables.
Prerequisite: ST 553 with C or better and ST 563 [C]

ST 625, SURVIVAL ANALYSIS, 3 Credits
Prepares students to understand and analyze survival data. Concepts to be discussed include: hazard function (failure rate function); nonparametric likelihood; empirical processes; empirical distribution function; censoring (mostly right independent censoring); Kaplan-Meier estimator; Bias of the KM estimator; Cox proportional hazards model; Accelerated Failure Time Model; Partial Likelihood; log-rank test.
Prerequisite: ST 553 with C or better or ST 563 with C or better

ST 651, LINEAR MODEL THEORY, 3 Credits
Least squares estimation, best linear unbiased estimation, parameterizations, multivariate normal distributions, distributions of quadratic forms, testing linear hypotheses, simultaneous confidence intervals. Offered alternate years.
Recommended: ST 553 and ST 563

ST 652, LINEAR MODEL THEORY, 3 Credits
Advanced topics including classification models, mixed-effects models and multivariate models. Offered alternate years.
Prerequisite: ST 651 with C or better
Recommended: ST 553 and ST 563

ST 661, ADVANCED THEORY OF STATISTICS, 3 Credits
Exponential families, sufficient statistics; unbiased, equivariant, Bayes, and admissible estimation. Offered alternate years.
Recommended: ST 563 and MTH 511

ST 662, ADVANCED THEORY OF STATISTICS, 3 Credits
Uniformly most powerful, unbiased, similar, and invariant tests. Offered alternate years.
Prerequisite: ST 661 with C or better
Recommended: ST 563 and MTH 511

ST 663, ADVANCED THEORY OF STATISTICS, 3 Credits
First-order and higher-order asymptotics; likelihood ratio, score, and Wald tests; Edgeworth and saddlepoint approximations. Offered alternate years.
Prerequisite: ST 662 with C or better
Recommended: ST 563 and MTH 511

Sustainability (SUS)

SUS 102, *INTRODUCTION TO ENVIRONMENTAL SCIENCE AND SUSTAINABILITY, 4 Credits
An introduction to the science behind critical environmental issues and the biological basis of creating and maintaining sustainable ecosystems. Focus on such questions as: how do we decide what to believe about environmental issues? How do we quantify, restore, and value biodiversity? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
Attributes: CPBS – Core, Pers, Biological Science
Equivalent to: SOIL 102
Available via Ecampus

SUS 103, *INTRODUCTION TO CLIMATE CHANGE, 4 Credits
An introduction to the principles of climate change science with an emphasis on the empirical evidence for climate change. Students will learn critical thinking skills to assess such questions as: How do we determine the processes controlling global warming? How do we predict trends in climate change? How do we calculate and understand uncertainty in these predictions? What is valid science in the global warming debate? Lec/lab. (Bacc Core Course)
Attributes: CPPS – Core, Pers, Physical Science
Available via Ecampus

SUS 304, *SUSTAINABILITY ASSESSMENT, 4 Credits
Explores theories and application of sustainability assessment techniques and analysis methods. Practical application of globally recognized assessment protocol, including checklists, footprinting, life-cycle analysis and the indicators used to conduct these analyses. Emphasis on ecological and social indicators, although economic indicators are explored. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

SUS 325, ^AG AND ENVIRONMENTAL PREDICAMENTS: A CASE STUDY APPROACH, 3 Credits
Analyze controversial agricultural and environmental issues, synthesize information from diverse sources, and apply scientific knowledge to recommend specific courses of action to solve real world problems. Develop oral and written communication skills through individual and group work. CROSSLISTED as CROP 325/SOIL 325/SUS 325. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: CROP 325, SOIL 325
SUS 331, *SUSTAINABILITY, JUSTICE, AND ENGAGEMENT, 3 Credits
Many sustainability crises are local, and the people most impacted tend to be groups already experiencing difference, lack of power, and discrimination. Transformational responses led by those most affected will be examined – responses that address the environmental problem while also building social and economic power for those affected. The tools and tactics used to achieve positive changes will be analyzed. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: SUS 331H
Available via Ecampus

SUS 331H, *SUSTAINABILITY, JUSTICE, AND ENGAGEMENT, 3 Credits
Many sustainability crises are local, and the people most impacted tend to be groups already experiencing difference, lack of power, and discrimination. Transformational responses led by those most affected will be examined – responses that address the environmental problem while also building social and economic power for those affected. The tools and tactics used to achieve positive changes will be analyzed. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: SUS 331

SUS 350, *SUSTAINABLE COMMUNITIES, 4 Credits
Introduction to the concept of sustainable communities from a multidisciplinary perspective. Instructors from a broad array of disciplines and professions. Development of holistic thinking skills and innovative solutions to complex problems. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: NR 350
Available via Ecampus

SUS 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SUS 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

SUS 420, SOCIAL DIMENSIONS OF SUSTAINABILITY, 3 Credits
Focuses on the social aspects of sustainability, including how the environment, the economy, social life interact to create the world we live in. Explores how social institutions (school, government, business, family) contribute to sustainability and promote or discourage social and environmental justice at local and global scales. Also offered at OSU-Cascades and via Ecampus.
Available via Ecampus

SUS 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

SUS 512, TOPICS IN THE SCIENCE OF SUSTAINABILITY, 4 Credits
Provides a graduate-level introduction to key concepts and issues in environmental science and sustainability, targeted at business-oriented graduate and post-bacc students who do not have a science background. The course is a core requirement of the Sustainable Business certificate program offered jointly by the College of Business (COB) and the College of Agricultural Sciences’ (CAS) Sustainability Double-Degree (SDD) Program.

SUS 514, SUSTAINABILITY PLANNING AND ASSESSMENT, 4 Credits
Sustainability is fundamentally about balancing social, economic and ecological systems. This course examines a range of different methodologies for measuring and evaluating performance towards established sustainability criteria and indicators. Students will critically evaluate tools for making sustainable decisions and understand the limitations of individual assessment approaches in different contexts. Specific assessment techniques to be explored include ecological footprinting, sustainable community indicators, greenhouse gas emissions inventories, sustainability checklists, environmental management systems (ISO standards), life-cycle analysis, and business sustainability reporting. Students will leave the course with the fundamental skills required to complete sustainability assessments via globally relevant approaches.

SUS 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

Sustainable Natural Resources (SNR)
SNR 506, INDEPENDENT PROJECT IN NATURAL RESOURCE SUSTAINABILITY, 2 Credits
Students identify, pose, frame, and analyze the various components of an important natural resource sustainability problem within their country, region, or organization and, at the end of term, present a workplan for its resolution. Oral and written reports are expected. Graded P/N.
Prerequisite: SNR 511 with C or better
Available via Ecampus

SNR 511, SUSTAINABLE NATURAL RESOURCE DEVELOPMENT, 1 Credit
Using readings, class discussions, and field trips, we introduce the program sessions and pedagogical methods, familiarize students with basic working definitions of sustainability, and build capacity to work as group on a common project.
Available via Ecampus

SUS 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
SNR 520, SOCIAL ASPECTS OF SUSTAINABLE NATURAL RESOURCES, 3 Credits
Using readings, personal experiences, and class discussions, students explore five principles of socially sustainable natural resource management, and review the role they play in creating natural resource-based sustainable communities.
Recommended: SNR 511
Available via Ecampus

SNR 521, ECONOMICS OF SUSTAINABLE NATURAL RESOURCE MANAGEMENT, 3 Credits
Focuses on the sources of market failure, the means of correcting market failure, and the real-world examples of making progress toward sustainable resource use by means of market mechanisms.
Recommended: SNR 511
Available via Ecampus

SNR 522, BASIC BELIEFS AND ETHICS IN NATURAL RESOURCES, 3 Credits
Examines basic philosophies and ethical systems in American forestry, including Pinchot’s agricultural/utilitarian approach and Leopold’s biotic/ecological model, compares them to contemporary public attitudes and considers their implications for sustainability.
Available via Ecampus

SNR 530, ECOLOGICAL PRINCIPLES OF SUSTAINABLE NATURAL RESOURCES, 3 Credits
Focus on ecological sustainability and ecological concepts and principles, with examples drawn from forests and arid lands. Exploration of global ecosystems, ecological processes and services, factors that create and maintain diversity, ecosystem health and integrity. Principles for sustainable natural resource management and use.
Recommended: SNR 511 and a basic ecology course
Available via Ecampus

SNR 531, SUSTAINABLE SILVICULTURE AND FOREST CERTIFICATION, 3 Credits
Strategies for sustainable silviculture, and measuring and verifying environmental performance (including certification systems) are examined using classroom lectures, case studies, and field exercises. Part of the 18-credit Sustainable Natural Resources (SNR) Graduate Certificate; also open to other graduate students.
Recommended: SNR 511 and at least two years’ experience working in a natural resources-related field

SNR 532, PLANNING AGROFORESTRY PROJECTS, 2 Credits
Develop basic understanding and appreciation of agroforestry concepts, systems, technologies and practices as used and applied in tropical and temperate zones of the world.
Recommended: SNR 530 (or equivalent ecology course) and SNR 511
Available via Ecampus

SNR 533, NONTIMBER FOREST PRODUCTS: AN INTERDISCIPLINARY INTRODUCTION, 3 Credits
Interdisciplinary introduction to the culture, history, economy, ecology, policy and management of nontimber forest products (NTFP), e.g., wild foods, medicines, floral greens, craft material and landscaping species. Includes domestic public and private forest and international case studies.
Available via Ecampus

SNR 534, REDUCED IMPACT TIMBER HARVEST, 2 Credits
Explores planning, implementation, monitoring, and evaluation of reduced impact timber harvesting. Part of the 18-credit Sustainable Natural Resources (SNR) Graduate Certificate; also open to other graduate students.
Recommended: SNR 511 and at least two years’ experience working in a natural resources-related field

SNR 535, SUSTAINABLE MANAGEMENT OF AQUATIC AND RIPARIAN RESOURCES, 3 Credits
Explores integrated strategies for sustainable management of watersheds, estuaries, coastal zones, and aquatic resources. Special emphasis given to links between land uses and aquatic environments. Part of the 18-credit Sustainable Natural Resources (SNR) Graduate Certificate; also open to other graduate students.
Recommended: SNR 511
Available via Ecampus

SNR 540, GLOBAL ENVIRONMENTAL CHANGE, 3 Credits
Explore biophysical and social sciences that underlie contemporary global change issues: global biogeochemical cycles, climate system, climate change, threats to biodiversity; human dimensions of climate change, globalization, land cover and land use change, global environmental governance and management tools.
Recommended: Basic biology course
Available via Ecampus

SNR 808, WORKSHOP, 1-4 Credits
Describes the policies, practices, and market mechanisms that enhance ecological, economic, and social sustainability of natural resource production and natural ecosystems. Sustainable natural resource management attempts to meet the needs of the present without compromising the future of people or the ecosystems on which they depend.
This course is repeatable for 4 credits.

Theatre Arts (TA)

TA 121, ORAL INTERPRETATION I, 3 Credits
Analysis and presentation of literature. Exploration of emotional reactions, expressive vocal and physical responses, and performing techniques for effective communication. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
TA 144, PLAYREADING, 1 Credit
Reading/discussion/examination of plays from world theatre of past and present from the perspective of production and theatre history. This course is repeatable for 2 credits. Available via Ecampus

TA 147, *INTRODUCTION TO THE THEATRE, 3 Credits
Origins, history, nature, elements, and style of theatre production; function of artists and craftspersons of the theatre. (FA) (Bacc Core Course) Attributes: CPLA – Core, Pers, Lit and Arts; LACF – Liberal Arts Fine Arts Core Equivalent to: TA 147H Available via Ecampus

TA 147H, *INTRODUCTION TO THE THEATRE, 3 Credits
Origins, history, nature, elements, and style of theatre production; function of artists and craftspersons of the theatre. (FA) (Bacc Core Course) Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core Equivalent to: TA 147

TA 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TA 242, VISUAL PRINCIPLES OF THEATRE, 3 Credits
An introduction to visual creativity, creative thinking, and visual problem solving as applied to theatre arts as a whole, and to scene and costume design. (FA) Attributes: LACF – Liberal Arts Fine Arts Core Available via Ecampus

TA 243, PRINCIPLES OF COSTUMING FOR THE STAGE, 3 Credits
Principles and techniques of costume construction; practical application in the costume shop on theatre production. Recommended: TA 147 and TA 242

TA 244, SCENE CRAFTS, 3 Credits
Constructing scenery and stage properties; practical experience in backstage procedures and scene painting. Lec/lab. (FA) Attributes: LACF – Liberal Arts Fine Arts Core

TA 245, STAGE LIGHTING, 3 Credits
Fundamentals of electricity as used in stage lighting; color and light, lighting instruments and control systems, theory and practice of lighting stage production. Recommended: TA 244

TA 247, STAGE MAKEUP, 3 Credits
Basic principles and theory with laboratory experience in most-used applications of theatrical makeup.

TA 248, FUNDAMENTALS OF ACTING I, 3 Credits
Examination of basic principles and techniques of acting. Exploration of relaxation/focus, personal vocal/physical awareness, the actor’s craft, and the performance process. (FA) Attributes: LACF – Liberal Arts Fine Arts Core Recommended: TA 147

TA 249, FUNDAMENTALS OF ACTING II, 3 Credits
Continued work in the basic principles and techniques of acting. Emphasis on improvisation, character analysis, and creation, the balance between truth and technique. Prerequisite: TA 248 with D- or better

TA 250, WORKSHOP: THEATRE ARTS, 1-3 Credits
Practical experience in performance, technical theatre, or design. Maximum for 6 credits may be applied toward graduation. Equivalent to: TA 250H This course is repeatable for 6 credits.

TA 250H, WORKSHOP: THEATRE ARTS, 1-3 Credits
Practical experience in performance, technical theatre, or design. Maximum for 6 credits may be applied toward graduation. Attributes: HNRS – Honors Course Designator Equivalent to: TA 250 This course is repeatable for 6 credits.

TA 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TA 330, *HISTORY OF THE THEATRE, 3 Credits
The rise and development of the composite arts of the theatre in their cultural and social context. Origins to 1500. Offered alternate years. (H) (Bacc Core Course) Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core

TA 331, *HISTORY OF THE THEATRE, 3 Credits
The rise and development of the composite arts of the theatre in their cultural and social context. 1500 to 1870. Offered alternate years. (H) (Bacc Core Course) Attributes: CPLA – Core, Pers, Lit and Arts; LACH – Liberal Arts Humanities Core Recommended: TA 144 and TA 147

TA 332, **HISTORY OF THE THEATRE, 3 Credits
The rise and development of the composite arts of the theatre in their cultural and social context. 1870 to present. Offered alternate years. (H) (Bacc Core Course) (Writing Intensive Course) Attributes: CPLA – Core, Pers, Lit and Arts; CWIC – Core, Skills, WIC; LACH – Liberal Arts Humanities Core Recommended: TA 144 and TA 147
TA 344, PLAYSCRIPT ANALYSIS, 3 Credits
Study of major approaches to playscript analysis and detailed application of these systems to the theatrical production process. (H)
Attributes: LACH – Liberal Arts Humanities Core
Prerequisite: TA 147 with D- or better
Recommended: TA 144

TA 346, SCENE AND STAGE DESIGN, 3 Credits
Designs for stage productions including elements of color, mass, line, and lighting for various types of theatre architecture and plays. Offered alternate years.
Recommended: TA 147 and TA 244

TA 348, ADVANCED ACTING: REALISM, 3 Credits
Discussion, research, rehearsal, performance, and criticism of scenes from realistic drama. Emphasis on the craft of acting, emotional availability/honesty, personal awareness. Offered alternate years.
Prerequisite: TA 248 with D- or better

TA 349, ADVANCED ACTING: STYLES, 3 Credits
Discussion, research, rehearsal, performance, and criticism of scenes from a range of period and genre styles. Offered alternate years.
Prerequisite: TA 248 with D- or better

TA 350, WORKSHOP: THEATRE ARTS, 1-3 Credits
Advanced work in acting, directing or technical theatre in dramatic productions; laboratory experience. Maximum of 6 credits may be applied toward graduation.
This course is repeatable for 6 credits.

TA 351, PRINCIPLES OF PLAYWRITING, 3 Credits
Basic principles and techniques of playwriting. Offered alternate years.
Recommended: TA 144 and TA 344

TA 352, PLAYWRITING WORKSHOP, 3 Credits
Intensive work on student playscripts generated in TA 351, through rewrites, revision and rehearsals. Offered alternate years.
Recommended: TA 351

TA 354, FUNDS PLAY DIRECTION, 3 Credits
History, theories and techniques of stage direction. Script analysis, study of the audience, staging, working with actors and designers, the production process. Emphasis on practical exploration and application. Offered alternate years.
Recommended: TA 244 and TA 248

TA 360, *MULTICULTURAL AMERICAN THEATRE, 3 Credits
Examines the rich panorama of multicultural-American theatre (e.g., African-American, gay and lesbian, Hispanic, Asian American). (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACH – Liberal Arts Humanities Core
Equivalent to: TA 360H
Available via Ecampus

TA 360H, *MULTICULTURAL AMERICAN THEATRE, 3 Credits
Examines the rich panorama of multicultural-American theatre (e.g., African-American, gay and lesbian, Hispanic, Asian American). (H) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator; LACH – Liberal Arts Humanities Core
Equivalent to: TA 360

TA 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TA 401, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

TA 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

TA 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

TA 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

TA 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

TA 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

TA 407H, SEMINAR, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 407
This course is repeatable for 16 credits.

TA 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.
TA 410, THEATRE ARTS INTERNSHIP, 1-16 CREDITS
One- to three-term residency in a producing theatre, for a maximum allowable total of 15 credits. Student works in a department of the theatre and in related production activities, according to areas of interest or specialization. Work supervised and evaluated by agency staff; academic evaluation by supervising department faculty member(s). Available to upper-division theatre arts majors and graduate students approved by faculty and selected by intern agency.
This course is repeatable for 15 credits.
Recommended: 27 credits in theatre arts, with a minimum of 6 credits in area of skill specialization, or 12 credits of upper-division theatre arts courses, with a minimum of 6 credits in area of skill specialization

TA 416, TOPICS IN THEATRE ARTS, 3 CREDITS
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow.
Equivalent to: TA 416H
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TA 416H, TOPICS IN THEATRE ARTS, 3 CREDITS
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow.
Attributes: HNRS – Honors Course Designator
Equivalent to: TA 416
This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TA 443, COSTUME DESIGN, 3 Credits
Theory and practice of designing costumes for a theatrical production.
Recommended: TA 243

TA 444, THE THEORY AND CRITICISM OF THEATRE ARTS, 3 Credits
Major theories that have influenced and motivated theatre practice in Western civilization throughout its development. Offered on alternate years. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: TA 444H
Recommended: 6 credits of theatre history, or 6 credits of dramatic literature.

TA 450, STUDIO: THEATRE ARTS, 3-6 Credits
Advanced individual study on approved projects in one of the arts of the theatre: acting, directing or scene/costume/lighting design; or in stage or theatre management.
This course is repeatable for 6 credits.
Recommended: 9 credits of upper-division theatre arts

TA 451, INTRODUCTION TO ARTS ENTREPRENEURSHIP, 3 CREDITS
Survey of the business strategies behind a successful career in the arts. Emphasizes the importance of entrepreneurial thinking, engages students with the fundamentals of the arts ‘business’, and explores ways to influence and shape the industry’s future. CROSSLISTED as ART 451/MUS 451/TA 451. (FA)
Attributes: LACF – Liberal Arts Fine Arts Core
Equivalent to: ART 451, MUS 451
Available via Ecampus

TA 454, ADVANCED PLAY DIRECTION, 3 CREDITS
Expanded exploration of directing theories and techniques. Practical application through the production of a one-act play in a laboratory theatre. Offered alternate years.
Prerequisite: TA 354 with D- or better

TA 499, SPECIAL TOPICS, 1-16 CREDITS
This course is repeatable for 16 credits.

TA 502, INDEPENDENT STUDY, 1-16 CREDITS
This course is repeatable for 16 credits.

TA 503, THESIS, 1-16 CREDITS
This course is repeatable for 999 credits.

TA 505, READING AND CONFERENCE, 1-16 CREDITS
This course is repeatable for 16 credits.

TA 510, THEATRE ARTS INTERNSHIP, 6-15 CREDITS
One- to three-term residency in a producing theatre, for a maximum allowable total of 15 credits. Student works in a department of the theatre and in related production activities, according to areas of interest or specialization. Work supervised and evaluated by agency staff; academic evaluation by supervising department faculty member(s). Available to upper-division theatre arts majors and graduate students approved by faculty and selected by intern agency.
This course is repeatable for 15 credits.
Recommended: 27 credits in theatre arts, with a minimum of 6 credits in area of skill specialization, or 12 credits of upper-division theatre arts courses, with a minimum of 6 credits in area of skill specialization
TA 516, TOPICS IN THEATRE ARTS, 3 Credits
Lectures and explorations of theories, issues, methods, problems, and applications in theatre arts. Concentrated work in a variety of selected theatre topics. Offered as demand and staffing allow. This course is repeatable for 12 credits.
Recommended: 9 credits of theatre arts

TA 543, COSTUME DESIGN, 3 Credits
Theory and practice of designing costumes for a theatrical production.
Recommended: TA 243

TA 550, STUDIO: THEATRE ARTS, 3-6 Credits
Advanced individual study on approved projects in one of the arts of the theatre: acting, directing or scene/costume/lighting design; or in stage or theatre management. This course is repeatable for 6 credits.
Recommended: 9 credits of upper-division theatre arts

TA 554, ADVANCED PLAY DIRECTION, 3 Credits
Expanded exploration of directing theories and techniques. Practical application through the production of a one-act play in a laboratory theatre. Offered alternate years.
Recommended: TA 354

Tourism, Recreat, Adven. Lead. (TRAL)

TRAL 110, INTRODUCTION TO WHITE WATER KAYAKING, 2 Credits
Students will learn fundamentals of white water kayaking in sheltered & moving water based on the internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Emphasis is on activity and basic skills.

TRAL 111, INTRODUCTION TO CANOEING, 2 Credits
Students will learn fundamentals of canoeing in sheltered & moving water based on the internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Emphasis is on activity and basic skills.

TRAL 115, OUTDOOR LIVING SKILLS, 2 Credits
Educates and introduces students on how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. Classroom and field (lab) experience. Includes one mandatory weekend overnight outing. CROSSLISTED as PAC 115/TRAL 115.
Corequisites: TRAL 118
Equivalent to: PAC 115
This course is repeatable for 4 credits.

TRAL 118, LABORATORY FOR OUTDOOR LIVING SKILLS, 1 Credit
Practical field application of concepts learned in PAC 115/TRAL 115, Outdoor Living Skills. Field (lab) experience includes one mandatory weekend overnight. Introduces how to travel safely in the backcountry through proper preparation, risk awareness, Leave No Trace ethics, terrain recognition, navigation, and camp craft. CROSSLISTED as PAC 118/TRAL 118.
Corequisites: TRAL 115
Equivalent to: PAC 118
This course is repeatable for 2 credits.

TRAL 130, INTRODUCTION TO OUTDOOR AND ADVENTURE PROFESSIONS, 3 Credits
Outdoor and adventure professions will be explored. Introduces students to practical and conceptual aspects of land and water trips in outdoor tourism, adventure, and educational settings. Innovative people and products will be examined in the context of outdoor and adventure professions and their impact, past, present, and future.
Equivalent to: TOL 130

TRAL 132, FOUNDATIONS AND HISTORY OF OUTDOOR AND ADVENTURE PROFESSIONS, 3 Credits
History, evolution, and theoretical underpinning of outdoor and adventure professions as an important and evolving feature of Western culture within the United States and beyond. Influential ideas, paradigm shifts, events, and developments that have led to professionalism, institutionalization, dissemination, and impact on other subject areas and professions. Impact of other cultures on current state of the professions. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: TOL 132

TRAL 173, INTERMEDIATE ROCK CLIMBING, 2 Credits
Introduces variety of basic skills, gear and systems that will allow them to safely participate in a single pitch rock climbing environment based on internationally recognized American Mountain Guides Association (AMGA) teaching and skills certification systems. Presents students with various technical skills that will serve as a foundation for future land-based outdoor disciplines. Students will be introduced to gear, such as software (ropes, webbing, harnesses) and hardware (carabiners, friction devices); skills, such as knots, belaying, rappelling, lead climbing; and systems such as anchors and basic rescue techniques. CROSSLISTED as PAC 173/TRAL 173.
Equivalent to: PAC 173
This course is repeatable for 10 credits.
TRAL 215, GROUP FACILITATION, 4 Credits
Introduces facilitation, leadership, and management of groups. Group facilitation theory, techniques, and models for use in a variety of environments and with different populations. Prominent personality types and how to effectively facilitate these. Determining needs, utilizing appropriate techniques, sequencing, and processing to meet specific determined needs of groups.

TRAL 217, INTERMEDIATE ROCK, 2 Credits
 Begins by affirming rock site management foundational skills such as proper equipment, knots, rappelling, and basic climbing anchor systems. Then focuses on building upon those foundational skills by covering more complex anchor systems, vertical rescues, releasable rappels, and movement through various rock specific terrains.
Recommended: TRAL 172 or similar training and equivalent skill level

TRAL 218, ROCK SITE MANAGEMENT, 2 Credits
Begins by affirming Intermediate Rock foundational skills such as proper equipment, knots, lead climbing techniques, movement, rappelling, and basic climbing anchor systems based on internationally recognized American Mountain Guides Association (AMGA) teaching and skills certification systems. Class will then focus on building upon those foundational skills by covering more complex anchor systems, lead techniques, vertical rescues, releasable rappels and movement through various rock specific terrains.
Prerequisite: TRAL 173 with C or better or PAC 173 with C or better

TRAL 251, RECREATION RESOURCE MANAGEMENT, 4 Credits
Overview of recreation resource management including study of land and water resources used for outdoor recreation. The planning and management of natural and cultural resources for long-term resource productivity, with a focus on rural and wildlife areas of the forest, range and coast.
Equivalent to: FES 251
Available via Ecampus

TRAL 260, INTERMEDIATE PADDLESPORT, 2 Credits
Learn how to successfully paddle as a competent group member within moving water & whitewater environments up to class III. This course will emphasize that the student has a holistic approach to river running, can be an effective group member during river rescues, can contribute to the safety, group skills and leadership of a river descent and showcase the knowledge required of an intermediate whitewater paddler based on internationally recognized British Canoe (BC) and American Canoe Association (ACA) teaching and skills certification systems. Uses a variety of diverse whitewater specific kayaks and canoes.
Prerequisite: (TRAL 110 with C or better or PAC 110 with C or better) and (TRAL 111 [C] or PAC 111 [C])

TRAL 270, PRE-INTERNSHIP SEMINAR, 1 Credit
Exploration of career goals, internship opportunities, and the variety of practice areas in the tourism, recreation, and adventure leadership (TRAL) professions. Student preparation in planning, obtaining, and completing TRAL internships. The course is designed to assist undergraduate majors in TRAL prepare for the required internship. Graded P/N.
Equivalent to: TOL 270

TRAL 280, OUTDOOR LEADERSHIP FUNDAMENTALS, 3 Credits
A week-long outdoor expedition focusing on water-based and land-based skills while developing a comprehensive understanding of expedition behavior. Students will meet in the classroom to prepare for the week-long field expedition covering various topics such as risk management, expedition planning, navigation, water safety and other topics. The expedition will expose students to extended travel in the backcountry while further developing technical and interpersonal skills.
Prerequisite: (TRAL 110 with C or better or PAC 110 with C or better) and (TRAL 111 [C] or PAC 111 [C]) and TRAL 115 [C] and TRAL 118 [C] and TRAL 173 [C]

TRAL 299, SPECIAL TOPICS, 0-16 Credits
Topics of current importance in tourism, recreation, and/or adventure leadership education. Topics will change from term to term. May be repeated with different topics for credit. This course is repeatable for 16 credits.

TRAL 309, CERTIFICATION PRACTICUM, 2 Credits
Allows students the opportunity to acquire nationally or internationally recognized certification in one or more disciplines. Will provide an avenue for students to acquire professional faculty guidance and mentoring so they are more able to attain a certification.
This course is repeatable for 6 credits.

TRAL 351, OUTDOOR RECREATION MANAGEMENT ON PUBLIC LANDS, 3 Credits
Explores current issues and problems in outdoor recreation management on public lands and approaches to address these. Emphasis on day-to-day, field-based management of recreation resources, rather than broad-scale planning.
Prerequisite: TRAL 251 with C- or better or FES 251 with C- or better
Equivalent to: FES 351

TRAL 352, WILDERNESS MANAGEMENT, 3 Credits
Wilderness as land use concept. Wilderness history, preservation, planning and management. Wilderness in the context of other land uses.
Equivalent to: FES 352
Available via Ecampus
TRAL 353, NATURE, ECO, AND ADVENTURE TOURISM, 4 Credits
Examines natural resource-based tourism issues in both domestic and international contexts, with examples from around the world. Explores distinctions between nature-based tourism and other forms of tourism (e.g., traditional mass tourism, adventure tourism, ecotourism), positive and negative impacts of natural resource-based tourism (e.g., social, cultural, economic, environmental), and other related issues such as marketing, accreditation and certification, poverty and pro-poor tourism, and sustainable design.
Equivalent to: FES 353

TRAL 354, COMMUNITIES, NATURAL AREAS, AND SUSTAINABLE TOURISM, 3 Credits
Introduces students to macro-level community and regional issues associated with tourism in natural areas. Explores positive and negative community impacts associated with tourism, traditional government-based tourism management and policies; community-based tourism management, and partnerships and stakeholder collaboration. Domestic and international examples are used to illustrate concepts and principles.
Equivalent to: FES 354

TRAL 357, *PARKS AND PROTECTED AREAS MANAGEMENT, 3 Credits
Provides a broad yet comprehensive understanding of the theories, problems, and techniques of managing parks, wild and scenic rivers, wilderness, and other protected areas. Covers the evolution of policies and recent issues in management of these protected areas, in the United States and around the world. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: FES 357

TRAL 370, DESIGN AND MANAGEMENT OF OUTDOOR EXPERIENCES, 4 Credits
Introduction to pedagogical, administrative, and organizational knowledge, skills, and dispositions for effective design and management of effective short and extended duration outdoor experiences in wilderness-like areas. Covers personnel logistics, site planning, itinerary planning, educational and skills progression, communication with volunteers and program contacts, budgets.
Prerequisite: TRAL 280 with C or better or TOL 375 with C or better
Equivalent to: TOL 370
Recommended: Junior standing

TRAL 372, ETHICS AND ADVENTURE LEADERSHIP, 3 Credits
Examines ethical issues and situations inherent in adventure leadership and other experiential education settings. Leading adventure programs entails judgment-laden decisions that are made every hour of every day concerning participants, leaders, and programs. Students will become familiar with predominant ethical theories and apply these theories to practical situations with a view to assessing the values that influence their decisions and subsequent actions. Students will better understand how their decisions influence their professional work and those of others within the context of adventure leadership.
Equivalent to: TOL 372
Recommended: TOL 375 or TRAL 375 or other writing intensive course

TRAL 373, WILDERNESS AND ADVENTURE EDUCATION, 4 Credits
Rationale for and methods used in the application of wilderness and outdoor adventure education programs in education, recreation, corporate and human service settings. Covers historical and contemporary philosophies and practices in adventure education, with a primary emphasis on outdoor adventure education. Examines the educational, social, and ethical consequences of outdoor adventure education programs. Also explores the role of wilderness in the context of the United States and differing views of what constitutes wilderness from an international perspective.
Equivalent to: TOL 373
Recommended: TRAL 375 or TOL 375

TRAL 374, OUTDOOR ADVENTURE EDUCATION, 3 Credits
Rationale for and methods used in the application of outdoor adventure education programs in education, recreation, corporate and human service settings. Historical and contemporary philosophies and practices in outdoor adventure education. Examines the educational, social, and ethical consequences of outdoor adventure education programs. Examines outdoor adventure education in the context of the United States and differing paradigms informing the practice in other cultures internationally. Presents current research in outdoor adventure education.
Prerequisite: TRAL 130 with C or better and TRAL 132 [C] and TRAL 215 [C]

TRAL 375, *EXPERIENTIAL EDUCATION, 4 Credits
Theory, techniques, and practice of experiential education. Students will define learning objectives, design curriculum, develop teaching materials, and effectively teach a variety of audiences. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Equivalent to: TOL 375

TRAL 377, EXPEDITIONS I WATER, 5 Credits
A field-based course that develops the knowledge, skills, and dispositions needed to safely and effectively lead, and participate in, an extended water based expedition of one week or longer. Technical skill emphasis is on whitewater kayaking and/or rafts and/or canoes with an additional focus on swift water rescue skills.
Prerequisite: TRAL 370 with C or better and TRAL 260 [C]
Corequisites: TRAL 379
Equivalent to: TOL 377

TRAL 378, TOURISM AND RECREATION DATA ANALYSIS, 3 Credits
Introduces students to descriptive and inferential statistics. The focus is on 1) applying relevant statistical analyses to tourism and recreation data and 2) interpreting results.
Equivalent to: TOL 378
Recommended: MTH 111
TRAL 379, EXPEDITIONS II-LAND, 10 Credits
This is a field-based course that develops the knowledge, skills, and dispositions needed to safely and effectively lead and participate in an extended backcountry expedition of three weeks or longer. Emphasis is on mountaineering skills in a backcountry context.
Prerequisite: TRAL 370 with C or better
Corequisites: TRAL 377
Equivalent to: TOL 379

TRAL 399, SPECIAL TOPICS, 0-16 Credits
Topics of current importance in tourism, recreation, and/or adventure leadership education. Topics will change from term to term. May be repeated with different topics for credit.
This course is repeatable for 16 credits.

TRAL 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: TOL 401
This course is repeatable for 16 credits.

TRAL 406, PROJECTS, 1-16 Credits
Equivalent to: TOL 406
This course is repeatable for 16 credits.

TRAL 410, INTERNSHIP, 1-16 Credits
Full-time supervised professional experience emphasizing functional proficiency under joint sponsorship of university and agency personnel. Graded P/N.
Equivalent to: TOL 410
Recommended: FES 251 and FES 351 and FES 356 and FOR 391 and FOR 407

TRAL 432, ECONOMICS OF RECREATION AND TOURISM, 3 Credits
Applications of economic theory, concepts, and methods to outdoor recreation and nature-based tourism resources, projects and plans. Key topics include analyses of economic impacts, benefits and costs, demand and supply, and non-market valuation (e.g., revealed, stated, and benefit transfer methods).
Equivalent to: FES 432
Recommended: (AEC 350, ECON 201 or 201H) and (ST 202 or 202H)

TRAL 456, PLANNING FOR SUSTAINABLE RECREATION, 4 Credits
Concepts related to the creation and design of outdoor recreation plans. Techniques for collecting data pertaining to visitor experiences and preferences. Recreation planning at several levels, both for public and private lands, with emphasis on larger scale site planning where recreation is integrated with other resource uses. Lec/lab.
Prerequisite: TRAL 251 with C- or better or FES 251 with C- or better
Equivalent to: FES 456

TRAL 457, PLANNING FOR SUSTAINABLE TOURISM, 4 Credits
Examines relationships among tourists, tourism developments, and the planning of tourist attractions and services. Focuses on planning tourist resources and programs within a geographic region, as well as at both the destination and site levels. Planning tools and design concepts are reviewed, analyzed, and applied. Lec/lab.
Prerequisite: TRAL 251 with C or better or FES 251 with C or better
Equivalent to: FES 457

TRAL 474, ENTREPRENEURSHIP IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP, 3 Credits
Creation and management of tourism and outdoor leadership businesses. Covers principles of running a successful business and includes special considerations for operations on public lands (e.g., concessionaires).
Equivalent to: TOL 474
Recommended: BA 101

TRAL 476, RISK MANAGEMENT IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP, 3 Credits
Risk management in tourism and outdoor leadership from an operational perspective. Focuses on risk in tourism and outdoor education programs as a contributing factor for learning, growth, and satisfaction of client motivations. Covers the nature of accidents in outdoor settings, addresses the practitioner’s perspective of risk in the field, and describes theories and methods of implementing risk management. Covers the ethics of utilizing risk and potentially dangerous activities as a basis for enhancing client education and experience.
Equivalent to: TOL 476

TRAL 477, ADVENTURE THERAPY, 3 Credits
Provides students with an overview of adventure therapy, including its history, theory, current status and future trends. Includes program design, ethical issues, and best practices in the field.
Equivalent to: TOL 477

TRAL 478, LEGAL ISSUES IN TOURISM, RECREATION, AND ADVENTURE LEADERSHIP, 3 Credits
Covers the legal dimensions of tourism and outdoor leadership activities. Students will learn about the civil and criminal judicial system from a tourism and outdoor leadership perspective. They will learn to apply risk management methodologies and instruments, such as contracts, insurance, waivers and releases to address legal liability. The basic principles of intentional and negligent torts will be discussed, with an emphasis on practical applications. Also covers employment issues and general business law, including business structure and the use of entities as liability shields.
Prerequisite: TRAL 375 with C- or better or TOL 375 with C- or better
Equivalent to: TOL 478
TRAL 479, *NATURE AND THE HUMAN EXPERIENCE, 3 Credits
Examines the human experience with (and within) nature from biological, psychological, spiritual, and international/cultural perspectives. Identifies opportunities for fostering the human-nature connection to achieve organizational goals and individual and societal health. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: TOL 479
Recommended: TOL 375 or other equivalent WIC course.

TRAL 493, ENVIRONMENTAL INTERPRETATION, 4 Credits
Interpretation of natural and cultural features in parks, museums, and similar settings. Emphasis on learning and applying effective communication techniques in the development of brochures, exhibits, talks, museums, and visitor centers.
Equivalent to: FES 493
Available via Ecampus

TRAL 499, SPECIAL TOPICS, 1-16 Credits
Topics of current importance in forest resources issues, education, policies, economics, management, business, social values, silviculture, and biometrics. Topics will change from term to term. May be repeated with different topics for credit. Section 8: Social aspects of natural resource management (3 credits) graded.
Equivalent to: TOL 499
This course is repeatable for 16 credits.
Available via Ecampus

TOX 003, UNDERGRADUATE RESEARCH, 0 Credits
Students engage in research activities appropriate to their discipline; and through the research experience, to acquire skills, techniques, and knowledge relevant to their field of study. In consultation with a faculty mentor, students will engage in research activity, and make and execute a plan for a project.

TOX 360, *THE WORLD OF POISONS, 3 Credits
Provides a basic understanding of how we are exposed and respond to chemicals, examples of human diseases associated with toxic insult, the role of technology and the interface of society and toxicology in risk perception and legislation. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Recommended: One 3-credit course in chemistry or one 3-credit course in biology.

TOX 401, RESEARCH, 1-16 Credits
Equivalent to: AC 401
This course is repeatable for 16 credits.

TOX 405, READING AND CONFERENCE, 1-16 Credits
Equivalent to: AC 405
This course is repeatable for 16 credits.

TOX 411, FUNDAMENTALS OF TOXICOLOGY, 3 Credits
Introduction to the discipline of toxicology. Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations.
Prerequisite: BB 350 (may be taken concurrently) with D- or better or BB 450 (may be taken concurrently) with D- or better or BB 490 (may be taken concurrently) with D- or better

TOX 413, ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT, 3 Credits
Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed.
Prerequisite: TOX 411 with D- or better

TOX 429, TOXIC SUBSTANCES IN FOOD, 3 Credits
Toxicology and epidemiology of human exposures to pesticides and food toxicants.
Prerequisite: BB 350 (may be taken concurrently) with D- or better or BB 450 (may be taken concurrently) with D- or better or BB 490 (may be taken concurrently) with D- or better
Equivalent to: TOX 429H

TOX 430, CHEMICAL BEHAVIOR IN THE ENVIRONMENT, 3 Credits
Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment.
Prerequisite: CH 123 with D- or better or CH 331 with D- or better

TOX 435, *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSTEXITED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: FES 435, FES 435H, TOX 435H
Recommended: One quarter each of biology and chemistry
Available via Ecampus
TOX 435H, *GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. (Bacc Core Course) Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator Equivalent to: BI 435, BI 435H, FES 435, FS 435, FS 435H, TOX 435 Recommended: One quarter each of biology and chemistry

TOX 455, ECOTOXICOLOGY: AQUATIC ECOSYSTEMS, 3 Credits
Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish. Prerequisite: CH 331 with D- or better

TOX 480, COMPUTATIONAL TOXICOLOGY AND RISK ASSESSMENT, 3 Credits
Provides an in-depth understanding of the current systems biology paradigm for chemical risk and drug safety assessment. Learn about novel technologies in computational chemistry, molecular biology and systems biology used to develop methods for risk assessment, including approaches for chemical prioritization for screening and testing, predictive models for high-throughput hazard identification and utilization of “big data” to determine chemical mechanisms of action and toxicity pathways. Apply these approaches to specific case studies in risk analysis, environmental health and toxicology. Recommended: One year college chemistry and biology plus introductory toxicology or biochemistry

TOX 490, ENVIRONMENTAL FORENSIC CHEMISTRY, 3 Credits
Principles of Good Laboratory Practice Standards, methodology, utility and limitations of chemical forensic methods as applied to real investigations. Recommended: One year of college chemistry and one term of organic chemistry.

TOX 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TOX 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

TOX 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

TOX 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

TOX 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

TOX 511, FUNDAMENTALS OF TOXICOLOGY, 3 Credits
Introduction to the discipline of toxicology. Examination of the basic concepts that define how chemicals are absorbed, distributed, metabolized, and eliminated by the body. Overview of associated dose/response relations. Prerequisite: BB 550 (may be taken concurrently) with C or better or BB 590 (may be taken concurrently) with C or better

TOX 512, TARGET ORGAN TOXICOLOGY, 3 Credits
Examination of toxicological effects of chemicals at organ level. Normal physiology of the organ system is received. Prerequisite: TOX 511 with C or better

TOX 513, ENVIRONMENTAL TOXICOLOGY AND RISK ASSESSMENT, 3 Credits
Procedures for defining exposure and the use of toxicological data in defining risk assessment. Recent application of mechanistic concepts are reviewed. Prerequisite: TOX 511 with C or better

TOX 529, TOXIC SUBSTANCES IN FOOD, 3 Credits
Toxicology and epidemiology of human exposures to pesticides and food toxicants. Recommended: Completion or concurrent enrollment in BB 350, BB 450 or BB 490

TOX 530, CHEMICAL BEHAVIOR IN THE ENVIRONMENT, 3 Credits
Applications of chemical concepts in the definition and solution of pollution problems; analytical considerations, thermodynamic factors influencing movement of chemicals, physical and metabolic transformations occurring in the environment. Recommended: CH 106 and CH 331 and graduate standing.

TOX 535, GENES AND CHEMICALS IN AGRICULTURE: VALUE AND RISK, 3 Credits
A multidisciplinary course that examines the scientific, social, political, economic, environmental, and ethical controversies surrounding agricultural and natural resource biotechnologies. Lec/rec. CROSSLISTED as FES 435/TOX 435 and FES 535/MCB 535/TOX 535. Equivalent to: BI 535, FES 535, FS 535, MCB 535 Recommended: One quarter each of biology and chemistry Available via Ecampus

TOX 555, ECOTOXICOLOGY: AQUATIC ECOSYSTEMS, 3 Credits
Focuses on transport, fate, and effects of toxic substances in freshwater ecosystems. There is special emphasis on impacts on fish. Recommended: CH 331
TOX 557, SCIENTIFIC SKILLS AND ETHICS, 3 Credits
Acquire a multitude of skills to launch and maintain productive extramurally funded careers as research scientists. Explore the ethical practices, data sharing approaches, and compliance requirements needed to conduct research. Examine the ethical use of human subjects and animals in research. Explore the changing landscape of intellectual property and commercialization policies for scientists. Introduces communication strategies for effective interactions with scientific peers, the general public and research sponsors.
Equivalent to: MCB 557

TOX 575, ADVANCED XENOBIOTIC METABOLISM AND DISPOSITION, 2 Credits
Course will focus on structure, function and regulation of specific proteins that function in uptake, distribution, metabolism, and excretion of drugs and other chemicals that are foreign to the body (xenobiotics). The course will focus on proteins which are termed Phase I and Phase II xenobiotic metabolizing enzymes and xenobiotic transporters. There will be an emphasis on Cytochrome P450 enzymes and hepatic and renal xenobiotic transporter proteins and their key roles in xenobiotic metabolism and excretion.
Recommended: TOX 512

TOX 580, COMPUTATIONAL TOXICOLOGY AND RISK ASSESSMENT, 3 Credits
Provides an in-depth understanding of the current systems biology paradigm for chemical risk and drug safety assessment. Learn about novel technologies in computational chemistry, molecular biology and systems biology used to develop methods for risk assessment, including approaches for chemical prioritization for screening and testing, predictive models for high-throughput hazard identification and utilization of “big data” to determine chemical mechanisms of action and toxicity pathways. Apply these approaches to specific case studies in risk analysis, environmental health and toxicology.
Recommended: One year college chemistry and biology plus introductory toxicology or biochemistry

TOX 590, ENVIRONMENTAL FORENSIC CHEMISTRY, 3 Credits
Principles of Good Laboratory Practice Standards, methodology, utility and limitations of chemical forensic methods as applied to real investigations.
Recommended: One year of college chemistry and one term of organic chemistry.

TOX 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TOX 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

TOX 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

TOX 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

TOX 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

TOX 611, TESTING FOR GENOTOXICITY, 4 Credits
A lab-based course geared toward toxicology, biochemistry, biology, food science, nutrition, pharmacy and MCB students. Introduces principles and methods of several key assays used to screen for DNA damage and mutation. These tests will include the following: (i) Salmonella mutagenicity assay ('Ames test'), (ii) single cell gel electrophoresis ('comet') assay, (iii) micronucleus assay, and (iv) PCR-based single strand conformation polymorphism (SSCP) screening for oncogene/tumor suppressor gene mutation in cancers. This 2-week, intensive lab/lecture class runs Mon-Fri in the LPSC during the first session of summer term. Each day includes laboratory work and a 2-hour lecture covering basic principles of the assays, as well as technical details of the experiment for the day.
Prerequisite: TOX 514 with C or better
Recommended: BB 400 series, prior course work on DNA repair and mutagenesis

TOX 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

TOX 808, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

Twentieth Century Studies (TCS)

TCS 407, SEMINAR, 1-12 Credits
Advanced study of selected topics related to issues and problems in the twentieth century introduced in TCS core course offerings. Section I seminars will be graded pass/no pass and carry 1 credit; other sections will be graded A-F and will carry variable credit.
This course is repeatable for 16 credits.

TCS 507, SEMINAR, 1-12 Credits
Advanced study of selected topics related to issues and problems in the Twentieth Century introduced in TCS core course offerings. Section I seminars will be graded P/N and carry 1 credit; other sections will be graded A-F and will carry variable credit.
This course is repeatable for 16 credits.

University Experience (UEXP)

UEXP 002, LEADERSHIP, 0 Credits
Provides students with basic personal and interpersonal leadership skills that can be used within and outside of a work setting. Through practice, the leadership experience helps students explore motivation, decision-making, time management, power, team building, conflict, ethics, dealing with change, communication skills, and diversity issues.

UEXP 199, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
UEXP 290, INFORMATION AND GLOBAL SOCIAL JUSTICE, 3 Credits
In preparing for any trip, many questions come up. In this course you will ask yourself questions, from the simple to the more complex. We will begin class on the OSU campus and continue on location in Spain or Italy. In-country, you will immerse in the local culture via a homestay, participate in service-learning, visit museums, explore cultural and historic locations, and attend lectures. While seeking answers to our questions we will reflect on the forces (politics, access, linguistic, economic, etc.) that affect the information available to us. This class has no language requirement.

UEXP 299, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

UEXP 399, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

UEXP 406, SPECIAL PROJECTS, 2 Credits
Trains new ambassadors to lead campus and housing tours. Creates educated, ethically and morally responsible, fully confident TOUR (Team of Undergraduate Recruiters) Ambassadors who are engaged, reflective, creative, and caring members of their communities who can contribute to the success of prospective and new students.

UEXP 407, SEMINAR, 1-16 Credits
Equivalent to: AHE 407
This course is repeatable for 16 credits.

UEXP 410, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

UEXP 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Veterinary Medicine Biomedical (VMB)

VMB 110, PREVETERINARY MEDICINE, 1 Credit
Introduction to the profession’s role in society. Graded P/N.
Equivalent to: VM 110

VMB 112, THE ONE HEALTH PARADIGM AND AUDIENCE CONNECTIONS, 3 Credits
Present, discuss and communicate current research papers and ongoing projects in concise, audience appropriate formats using techniques from entrepreneurship, grant proposal writing and Hollywood storytelling. This course is repeatable for 6 credits.

VMB 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

VMB 415, ONE HEALTH IN PRACTICE, 3 Credits
One health is the concept that human, animal and environmental health are all intertwined. Utilizes current one health issues such as disease outbreaks and antimicrobial resistance to encourage students from diverse fields to develop interdisciplinary collaboration and communication skills. CROSSTLISTED as BHS 415/VMB 415.
Equivalent to: BHS 415

VMB 499, SPECIAL TOPICS, 1-16 Credits
Special studies course to allow different instructors the ability to teach a new class or one time class. Graded P/N.
This course is repeatable for 16 credits.

VMB 501, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMB 503, THESIS, 1-12 Credits
Equivalent to: VM 503
This course is repeatable for 999 credits.

VMB 504, WRITING AND CONFERENCE (NON-THESIS), 1-9 Credits
This course is repeatable for 9 credits.

VMB 505, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: VM 505
This course is repeatable for 16 credits.

VMB 507, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: VM 507
This course is repeatable for 16 credits.

VMB 512, THE ONE HEALTH PARADIGM AND AUDIENCE CONNECTIONS, 3 Credits
Present, discuss and communicate current research papers and ongoing projects in concise, audience appropriate formats using techniques from entrepreneurship, grant proposal writing and Hollywood storytelling. This course is repeatable for 6 credits.

VMB 517, VETERINARY PHYSIOLOGY, 5 Credits
Physiology of body fluids, muscles, membranes, intermediary metabolism, cardiovascular system, and metabolism.
Equivalent to: VM 517

VMB 518, VETERINARY PHYSIOLOGY, 5 Credits
Physiology of gastrointestinal, endocrine and reproductive systems.
Prerequisite: VMB 517 with C or better
Equivalent to: VM 518
VMB 519, VETERINARY PHYSIOLOGY, 4 Credits
Physiology of respiratory and renal systems and acid-base balance.
Prerequisite: VMB 518 with C or better
Equivalent to: VM 519

VMB 521, ANIMAL MODELS, 3 Credits
Selection/use criteria for models describing animal or human diseases or processes with emphasis on experimental design, validation, transgenic technology, population dynamics, husbandry, and ethics.

VMB 523, ZOONOSES, 3 Credits
Interactive examination of the molecular basis of diseases that are transmissible between animals and humans. Emphasis on bacterial, viral and parasitic pathogens of animals and humans.

VMB 601, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: VM 601
This course is repeatable for 16 credits.

VMB 603, THESIS, 1-16 Credits
Equivalent to: VM 603
This course is repeatable for 999 credits.

VMB 604, WRITING AND CONFERENCE (NON-THESIS), 1-9 Credits
This course is repeatable for 9 credits.

VMB 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: VM 605
This course is repeatable for 16 credits.

VMB 606, PROJECTS, 1-16 Credits
Graded P/N.
Equivalent to: VM 606
This course is repeatable for 16 credits.

VMB 607, SEMINAR, 1-16 Credits
One-credit section; VMB 607 Sect. 1. Graded P/N.
Equivalent to: VM 607
This course is repeatable for 16 credits.

VMB 611, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 611

VMB 612, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 612

VMB 613, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 613

VMB 614, VETERINARY MICROSCOPIC ANATOMY, 4 Credits
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 614

VMB 615, VETERINARY MICROSCOPIC ANATOMY, 3 Credits
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 615

VMB 616, VETERINARY NEUROSCIENCES, 4 Credits
Structural and functional relationships of the nervous system and organs of special sense with emphasis on general clinical application.

VMB 620, VETERINARY IMMUNOLOGY, 5 Credits
Clinical and diagnostic aspects of immunological mechanisms, serological reactions; hypersensitivity, allergy, and disorders of the immune system.
Equivalent to: VM 620

VMB 621, GENERAL PATHOLOGY, 4 Credits
General principles of pathology, cell injury and death, inflammation and tissue repair, abnormalities of cell growth, and structures and mechanisms of disease.
Equivalent to: VM 621

VMB 622, PATHOLOGY LABORATORY, 1 Credit
Laboratory instruction to complement VMB 621.
Prerequisite: VMB 611 (may be taken concurrently) with C or better
Equivalent to: VM 622

VMB 624, ANTIBIOTIC STEWARDSHIP, 1 Credit
Elective course for students to learn about significant aspects of antibiotic resistance. Intended to become part of the “One Health Program”, resulting in the ability to create a plan for effective antibiotic stewardship as it relates to human, animal, and environmental health.

VMB 627, ORNAMENTAL FISH MEDICINE, 2 Credits
An introduction to the basic principles of ornamental fish medicine including basic husbandry, handling and clinical procedures. This is a 1-week intensive course held at the Hatfield Marine Science Center in Newport, Oregon. Graded P/N.
VMB 630, MECHANISMS OF DISEASE, 3 Credits
Cellular and molecular events that contribute to the pathogenesis of disease in animals, including humans. Host interactions with infectious agents and the environment.
Equivalent to: VM 630

VMB 631, MATHEMATICAL MODELING OF BIOLOGICAL SYSTEMS, 3 Credits
The use of mathematical modeling in biological sciences is studied. A variety of modeling techniques are covered including implementing the methods computationally.

VMB 640, SEMINARS IN LABORATORY ANIMAL MEDICINE, 2 Credits
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment of research animals.

VMB 641, SEMINARS IN LABORATORY ANIMAL MEDICINE, 2 Credits
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment for research animals.

VMB 642, SEMINARS IN LABORATORY ANIMAL MEDICINE, 2 Credits
Prepares students for careers in laboratory animal medicine. Provides a review of medical conditions, diagnosis and treatment for research animals.

VMB 651, SELECTED TOPICS IN VETERINARY MEDICINE, 3 Credits
Topics vary; check Schedule of Classes for particular topics.
Equivalent to: VM 650

VMB 652, CANCER SYSTEMS BIOLOGY, 3 Credits
Overview of systems biology approaches that are being used to study cancer, with an emphasis on omics techniques and fundamental mechanisms in the origination and progression of cancer. Discussion-based, with each class session focused on a contemporary research article in the field of cancer systems biology.

VMB 660, VETERINARY PARASITOLOGY, 5 Credits
A study of the parasitic diseases of domestic animals with an emphasis on diagnosis and treatment. Fundamentals in host-parasite interactions, taxonomy and life cycle strategies are covered.

VMB 663, VETERINARY DIAGNOSTIC PATHOLOGY, 6 Credits
Practical hands-on course training students in the diagnostic pathology utilizing case material received at the OSU Veterinary Diagnostic Lab. Graded P/N.

VMB 664, COMPARATIVE MICROSCOPIC PATHOLOGY, 1 Credit
Case-based discussion course to train participants in the recognition, description, and pathogenesis of a wide variety of disease processes with an emphasis on microscopic features. Graded P/N. This course is repeatable for 4 credits.

VMB 665, READINGS IN VETERINARY PATHOLOGY, 1 Credit
Group discussions of assigned readings central to understanding of veterinary pathology, including recent advances. Graded P/N. This course is repeatable for 6 credits.

VMB 666, VETERINARY MEDICINE AND PUBLIC HEALTH, 3 Credits
Covers aspects of veterinary medicine that affect human health. An understanding of the contribution of the veterinary profession to human (public) health will enable students to play an effective role in this area, regardless of career direction.

VMB 669, INTRODUCTION TO GRANT PROPOSAL WRITING, 2 Credits
To introduce students to the fundamentals of writing grant proposals to the National Institute of Health (NIH), different funding mechanisms, as well as the grant reviewing process. CROSSLISTED as PHAR 669/VM 669.
Equivalent to: PHAR 669
This course is repeatable for 20 credits.

VMB 670, INTRODUCTION TO SYSTEMS BIOLOGY, 2 Credits
Students will gain a high-level overview of systems biology and bioinformatics, with an emphasis on biomedical applications, integration of ‘omics’ approaches, and biological networks.

VMB 671, MOLECULAR TOOLS, 3 Credits
Intended for personnel with some scientific background who are seeking basic- and advanced-level molecular biology knowledge and who wish to become involved with molecular biology-related and biotechnological research. CROSSLISTED as MCB 671/VMB 671.
Equivalent to: MCB 671
Available via Ecampus
VMB 672, MOLECULAR APPROACH TO CANCER, 1 Credit
Overview of cancer pathogenesis and current molecular techniques to diagnose and treat various neoplasms is provided. Content will include both veterinary and human data and concepts. Discussion/Lab. Graded P/N.

VMB 673, COMPARATIVE IMMUNOLOGY, 3 Credits
Examines immune system function in animals other than mice and men with a focus on adapting cutting-edge technologies.

VMB 674, VACCINES AND NEW THERAPIES, 3 Credits
Provides students with a cohesive understanding of the basic research behind the discovery of new therapeutic targets and scientific advancements used in development of vaccines and new therapies.

VMB 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 99 credits.

VMB 701, RESEARCH, 1-16 Credits
Equivalent to: VM 701
This course is repeatable for 16 credits.

VMB 705, READING AND CONFERENCE, 1-16 Credits
Equivalent to: VM 705
This course is repeatable for 16 credits.

VMB 706, PROJECTS, 1-16 Credits
Equivalent to: VM 706
This course is repeatable for 16 credits.

VMB 711, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 711

VMB 712, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken.
Equivalent to: VM 712

VMB 713, VETERINARY GROSS ANATOMY, 4 Credits
Systematic and topographic study and dissection of the dog, cat, horse, ruminant, pig, and chicken. Lec/lab.
Equivalent to: VM 713

VMB 714, VETERINARY MICROSCOPIC ANATOMY, 4 Credits
Structure and development of cells, tissues, organs, and organ systems of animals.
Equivalent to: VM 714

VMB 716, VETERINARY NEUROSCIENCES, 4 Credits
Structural and functional relationships of the nervous system and organs of special sense with emphasis on general clinical application.
Equivalent to: VM 716

VMB 717, VETERINARY PHYSIOLOGY, 5 Credits
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation.
Equivalent to: VM 717

VMB 718, VETERINARY PHYSIOLOGY, 5 Credits
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation.
Equivalent to: VM 718

VMB 719, VETERINARY PHYSIOLOGY, 4 Credits
Physiology of body fluids, excretion, respiration, acid-base balance, blood, muscle, bone, cardiovascular system, digestion, metabolism, endocrine system, reproduction, and lactation. Lec/lab.
Equivalent to: VM 719

VMB 720, VETERINARY IMMUNOLOGY, 5 Credits
Clinical and diagnostic aspects of immunological mechanisms, serological reactions, hypersensitivity, allergy, and disorders of the immune system. Lec/lab.
Equivalent to: VM 720

VMB 721, VETERINARY PATHOLOGY, 5 Credits
Basic mechanisms and concepts relating to reaction of cells and tissues to disease, with emphasis on cellular and tissue degeneration, inflammatory reaction, circulatory disturbance and neoplasia. Lec/lab.
Equivalent to: VM 721

VMB 722, RESEARCH READING SKILLS FOR VETERINARY STUDENTS, 1 Credit
Training in critical evaluation of biomedical and clinical research studies, and understanding of laboratory diagnostic methods.

VMB 723, VETERINARY LEADERSHIP: INCLUSION, REFLECTION, DEVELOPMENT, 1 Credit
Focusing on diversity and inclusion, self-compassion, and effective interpersonal communication in relationship to fostering leadership in veterinary medicine. Graded P/N.
This course is repeatable for 10 credits.
VMB 724, ANTIBIOTIC STEWARDSHIP, 1 Credit
Elective course for students to learn about significant aspects of antibiotic resistance. Intended to become part of the “One Health Program”, resulting in the ability to create a plan for effective antibiotic stewardship as it relates to human, animal, and environmental health.

VMB 726, PET BIRD AND SMALL MAMMAL MEDICINE AND SURGERY, 2 Credits
Medicine and surgery of pet birds and small animals. Graded P/N.

VMB 727, ORNAMENTAL FISH MEDICINE, 2 Credits
An introduction to the basic principles of ornamental fish medicine including basic husbandry, handling and clinical procedures. Graded P/N.

VMB 728, SPECIAL ANIMAL MEDICINE, 4 Credits
Diagnosis, treatment, and management of special animals, including the common laboratory animals. 
Equivalent to: VM 728
This course is repeatable for 8 credits.

VMB 729, LAB ANIMAL/PRIMATE MEDICINE AND SURGERY, 3-12 Credits
Designed to provide hands-on experience with a variety of laboratory animal species including primates, rodents, ungulates, fish, and reptiles. May be repeated up to 4 times for 3, 6, 9 or 12 credits per term. 12 credits maximum apply toward graduation. Graded P/N. 
This course is repeatable for 12 credits.

VMB 736, DIAGNOSTIC CLINICAL PATHOLOGY, 2 Credits
One week clinical experience in clinical pathology, cytology, urinalysis, clinical chemistry interpretation and hematology. Lec/lab.
Equivalent to: VM 736

VMB 740, VETERINARY INTEGRATED PROBLEM SOLVING, 1 Credit
The first of three 1-credit courses in problem solving and integration of clinical cases and basic sciences in the veterinary curriculum. 
Equivalent to: VM 740

VMB 742, VETERINARY INTEGRATED PROBLEM SOLVING, 1 Credit
The third of three 1-credit courses in problem solving and integration of clinical cases and basic sciences in the veterinary curriculum. Graded P/N.
Equivalent to: VM 742

VMB 745, COMMUNICATIONS FOR VETERINARIANS, 1 Credit
Communications and problem solving for the third-year veterinary student. Graded P/N.

VMB 749, WILDLIFE SAFARI, 2 Credits
Clinical training in the care of exotic and zoo animal species. Graded P/N.

VMB 750, SYSTEMIC PATHOLOGY I, 4 Credits
Examines the principles of system and organ responses to injury and the consequent effects of these changes on the host. 
Equivalent to: VM 750

VMB 751, SYSTEMIC PATHOLOGY II, 5 Credits
Examines the principles of system and organ responses to injury and the consequent effects of these changes on the host. 
Equivalent to: VM 751

VMB 753, VETERINARY VIROLOGY, 4 Credits
Virology for the professional DVM student. 
Equivalent to: VM 753

VMB 756, ADVANCED CLINICAL PATHOLOGY, 1 Credit
One-week rotation in advanced clinical pathology: cytology, hematology and clinical chemistry interpretation. Graded P/N. 
Prerequisite: VMB 736 with C or better

VMB 759, VETERINARY BACTERIOLOGY AND MYCOLOGY, 5 Credits
Bacteriology and mycology for the professional DVM student. 
Equivalent to: VM 759

VMB 760, VETERINARY PARASITOLOGY, 5 Credits
A study of the parasitic diseases of domestic animals with an emphasis on diagnosis and treatment. Fundamentals in host-parasite interactions, taxonomy and life cycle strategies are covered. 
Equivalent to: VM 760

VMB 761, VETERINARY PHARMACOLOGY, 2 Credits
Fundamentals of pharmacology as related to veterinary medicine presented in a systems-oriented approach with drug therapy in domestic animals. 
Equivalent to: VM 761

VMB 762, VETERINARY PHARMACOLOGY II, 4 Credits
Fundamentals of pharmacology as related to veterinary medicine presented in a systems-oriented approach with drug therapy in domestic animals. 
Equivalent to: VM 762

VMB 763, VETERINARY CLINICAL PATHOLOGY, 4 Credits
Clinical pathology for the professional DVM student. 
Equivalent to: VM 763
VMB 765, VETERINARY TOXICOLOGY, 4 Credits
A study of toxic agents, mechanisms of action, toxicosis and treatments, especially as related to domestic and wild animals, with principles of toxicity testing, clinical diagnosis, and identification of poisonous plants. Lec/lab.
Equivalent to: VM 765

VMB 766, EPIDEMIOLOGY AND PUBLIC HEALTH, 3 Credits
Examination of the application of epidemiology to the field of veterinary medicine and the study of important veterinary public health issues.
Equivalent to: VM 766

VMB 768, BASIC HISTOPATHOLOGY, 1 Credit
A rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species. Graded P/N.
Prerequisite: VMB 751 with C or better

VMB 769, ANIMAL GENOMICS, 1 Credit
Discussion about the dog and cow genomes, susceptibility to diseases, and the possibilities and techniques for treatment of medical conditions by gene transfer and modification.

VMB 772, INTERNATIONAL VETERINARY MEDICINE, 2 Credits
Veterinary students work with veterinarians and domestic animals in international settings. Graded P/N.
This course is repeatable for 4 credits.

VMB 774, LABORATORY ANIMAL MEDICINE, 6 Credits
Clinical experience related to diagnosis, treatment, and management of laboratory animals. Graded P/N.
Equivalent to: VM 774

VMB 786, ADVANCED HISTOPATHOLOGY, 2 Credits
A rotation in histopathology at the Veterinary Diagnostic Laboratory. Emphasis is placed on case evaluation, diagnosis and report writing of biopsies of all species.

VMB 795, DIAGNOSTIC SERVICES, 2 Credits
Students will perform service duty in the necropsy area of the Veterinary Diagnostic Laboratory and will perform necropsies on delivered specimens. Other activities.

Veterinary Medicine Clinical (VMC)

VMC 501, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: VM 501
This course is repeatable for 16 credits.

VMC 503, THESIS, 1-12 Credits
Equivalent to: VM 503
This course is repeatable for 999 credits.

VMC 505, READING AND CONFERENCE, 1-16 Credits
Graded P/N.
Equivalent to: VM 505
This course is repeatable for 16 credits.

VMC 507, SEMINAR, 1-16 Credits
Graded P/N.
Equivalent to: VM 507
This course is repeatable for 16 credits.

VMC 509, TEACHING PRACTICUM FOR VETERINARY PROFESSIONAL CURRICULUM, 1-6 Credits
Provides veterinary specialty residents and graduate students a mentored experience in teaching of veterinary medical students. Experience can be gained with teaching of lecture and/or laboratory courses.
This course is repeatable for 6 credits.

VMC 601, RESEARCH, 1-16 Credits
Graded P/N.
Equivalent to: VM 601
This course is repeatable for 16 credits.

VMC 603, THESIS, 1-16 Credits
Equivalent to: VM 603
This course is repeatable for 999 credits.

VMC 605, READING AND CONFERENCE, 1-16 Credits
Equivalent to: VM 605
This course is repeatable for 16 credits.

VMC 606, PROJECTS, 1-16 Credits
Graded P/N.
Equivalent to: VM 606
This course is repeatable for 16 credits.

VMC 607, SEMINAR, 1-16 Credits
One-credit section; VMC 607 Sect. 1. Graded P/N.
Equivalent to: VM 607
This course is repeatable for 16 credits.

VMC 632, POSTGRADUATE MEDICINE, 3-7 Credits
An interactive, practical course on the role of scholarship in clinical medicine, including techniques to develop and conduct research in a clinical setting.
This course is repeatable for 16 credits.
VMC 634, POSTGRADUATE SURGERY, 3-7 Credits
An interactive, practical course on the role of scholarship in clinical surgery, including techniques to develop and conduct research in a clinical setting.  
This course is repeatable for 16 credits.

VMC 637, POSTGRADUATE CARDIOLOGY, 3-7 Credits
An interactive, practical course on the role of scholarship in clinical cardiology, including techniques to develop and conduct research in a clinical setting.  
This course is repeatable for 16 credits.

VMC 682, TOPICS IN INTERNAL MEDICINE, 2-4 Credits
In-depth investigation of important topics in physiology, pathophysiology, treatment, diagnosis, and other aspects of internal medicine through investigation of primary literature and recent reviews.  
This course is repeatable for 16 credits.

VMC 684, TOPICS IN SURGERY, 2-4 Credits
In-depth investigation of important topics in physiology, pathophysiology, treatment, diagnosis, and other aspects of surgery through investigation of primary literature and recent reviews.  
This course is repeatable for 16 credits.

VMC 701, RESEARCH, 1-16 Credits
Equivalent to: VM 701  
This course is repeatable for 16 credits.

VMC 705, READING AND CONFERENCE, 1-16 Credits
Equivalent to: VM 705  
This course is repeatable for 16 credits.

VMC 706, PROJECTS, 1-16 Credits
Equivalent to: VM 706  
This course is repeatable for 16 credits.

VMC 714, SMALL ANIMAL DENTISTRY, 1 Credit
A clinical course designed to provide students with hands-on training in diagnosis, treatment and prophylaxis of dental diseases of dogs and cats.

VMC 715, CASE STUDIES IN SMALL ANIMAL MEDICINE I, 1 Credit
A case-based course involving diseases and conditions of the endocrine, gastrointestinal and hepatobiliary systems as well as neoplastic and infectious diseases of small animals.

VMC 716, CASE STUDIES IN SMALL ANIMAL MEDICINE II, 1 Credit
A case-based course involving diseases and conditions of the cardiovascular, respiratory and urogenital systems as well as emergent diseases and conditions.

VMC 717, CASE STUDIES IN SMALL ANIMAL MEDICINE III, 1 Credit
A case-based course involving diseases and conditions of the dermatologic, neurologic, ophthalmologic, and hemolymphatic systems.

VMC 718, SMALL ANIMAL PREVENTIVE MEDICINE, 2 Credits
Introductory course to basic concepts in small animal preventive medicine including vaccine immunology, vaccine strategies, internal/external parasite control, nutrition in disease prevention, and wellness programs for dogs and cats.

VMC 719, CLINICAL CARDIOLOGY I, 2 Credits
Hands-on practical experience in a clinical setting in taking a clinical history, performing a cardiovascular physical examinations, recording electrocardiograms, interpreting thoracic radiographs and echocardiograms, creating problem lists, compiling lists of differential diagnosis, formulating diagnostic and therapeutic plans, discussing treatment options, generating medical records, and discharging patients.

VMC 720, VETERINARY CLINICAL NUTRITION, 2 Credits
To examine the nutritional needs of many species of veterinary importance. Emphasis is placed on designing feeding programs to optimize health and animal performance.

VMC 721, SMALL ANIMAL CLINICAL NUTRITION, 1 Credit
Introduction to the concepts of small animal clinical nutrition and is designed for the third-year veterinary student.

VMC 723, ADVANCED FELINE MEDICINE, 2 Credits
A one-week elective for senior students in the DVM curriculum. The course emphasizes aspects of internal medicine specific to the domestic cat. Graded P/N.
VMC 724, LARGE ANIMAL SURGERY, 4 Credits
Familiarizes students with general surgical principles and common surgical conditions in large animal species.
Equivalent to: VM 724
This course is repeatable for 8 credits.

VMC 725, PRINCIPLES OF SURGERY, 4 Credits
A basic course in the principles and techniques of surgery for the professional veterinary student. Lec/lab.
Equivalent to: VM 725

VMC 726, SMALL ANIMAL THERIOGENOLOGY, 1 Credit
Advanced clinical experience in small animal (canine) reproduction. Graded P/N.
Prerequisite: VMC 783 with C or better

VMC 727, ADVANCED SMALL ANIMAL SURGERY, 2 Credits
One-week of additional lectures and laboratories to improve surgical skills and acquire more advanced knowledge of specific surgical conditions. Lec/lab. Graded P/N.

VMC 729, CLINICAL THERIOGENOLOGY, 1 Credit
Practical and theoretical training in reproductive management and disorders in all species; routine diagnostic and treatment procedures; clinic rounds.
This course is repeatable for 3 credits.

VMC 731, SMALL ANIMAL EMERGENCY CARE-DOVE LEWIS, 3 Credits
A two-week clinical rotation at the Dove Lewis Memorial Emergency Clinic in Portland, OR.
Equivalent to: VM 731

VMC 732, CLINICAL LARGE ANIMAL MEDICINE I, 3,6 Credits
Clinical medicine training in diseases of food animals and horses; clinic rounds and diagnostic procedures.
Equivalent to: VM 732
This course is repeatable for 24 credits.

VMC 733, LARGE ANIMAL SURGERY LABORATORY, 2 Credits
Apply surgery principles and common surgical procedures of large animal species

VMC 734, CLINICAL LARGE ANIMAL SURGERY I, 3,6 Credits
Clinical surgery, treatment, and care of food animals and horses; clinical rounds; training in surgery, lameness, and diagnostic procedures. Lec/lab.
Equivalent to: VM 734
This course is repeatable for 24 credits.

VMC 735, RURAL VETERINARY PRACTICE I, 3,6 Credits
Rural practice training in diseases of food animals and horses. Lec/lab.
Equivalent to: VM 735
This course is repeatable for 6 credits.

VMC 736, CLINICAL SKILLS IV: PROFESSIONAL COMMUNICATION AND ETHICS, 2 Credits
Develop communication skills and ethical reasoning for client interactions.

VMC 737, VETERINARY ANESTHESIOLOGY, 4 Credits
A three-week rotation in veterinary anesthesiology utilizing patients presented to the veterinary teaching hospital.
Equivalent to: VM 737

VMC 739, VETERINARY MEDICAL ETHICS, 1 Credit
Introduction of ethics in veterinary medicine, with specific attention to ethical theories, ethical decision making, moral status of animals, professional ethics, and practice issues.
Equivalent to: VM 739

VMC 740, SHEEP AND GOAT MEDICINE AND SURGERY, 3 Credits
Discussions of economically important sheep and goat diseases, practical surgeries, and a review of nutrition and husbandry. Graded P/N.

VMC 741, LARGE ANIMAL GI SURGERY, 2 Credits
A one-week course for 4th year veterinary students, with particular interest in gastrointestinal surgery. Graded P/N.

VMC 742, CAMELID MEDICINE AND SURGERY, 4 Credits
Designed to give students an in-depth introduction to camelid health care via hands-on work, lectures, and discussion sections. Graded P/N.

VMC 744, ADVANCED LAMENESS IN EQUINE, 3 Credits
Application of anatomy, lameness examination, nerve and joint anesthesia, diagnostic radiology, ultrasound and nuclear scintigraphy to diagnosis of lameness in horses. Graded P/N.

VMC 745, PRACTICE MANAGEMENT, 2 Credits
A course in basic personal and business finances, career skills, and legal aspects of veterinary practice. Graded P/N.
Equivalent to: VMB 775
VMC 747, VETERINARY ANESTHESIOLOGY II, 3 Credits
An additional two-week clinical rotation in veterinary anesthesiology utilizing patients presented to the Veterinary Teaching Hospital. Graded P/N.

VMC 748, EQUINE DENTISTRY, 2 Credits
Utilizing modern, motorized equipment, cadaver specimens, and live hospital and client horses, students will learn and perform modern methods of equine dental prophylaxis and treatment. Graded P/N.

VMC 749, CLINICAL IMAGING II, 3 Credits
Advanced clinical course for 4th-year veterinary students in which they will assume additional responsibility for performing common radiographic procedures. Graded P/N.
Prerequisite: VMC 796 with C or better

VMC 750, EQUINE CLINICAL NUTRITION, 1 Credit
A one-week course for veterinary students focusing on equine nutrition that can be used in veterinary practice. Graded P/N.

VMC 751, RUMINANT NUTRITION, 2 Credits
An advanced course in clinical ruminant nutrition dealing with nutritional problems of ruminants that might be encountered by a practicing veterinarian. Graded P/N.

VMC 752, CLINICAL LARGE ANIMAL MEDICINE II, 3-6 Credits
Additional clinical medicine training. Graded P/N.
Prerequisite: VMC 732 with C or better
Equivalent to: VM 752
This course is repeatable for 6 credits.

VMC 753, CLINICAL ONCOLOGY I, 2 Credits
Teaches students a realistic approach to the diagnosis and treatment of pets with cancer. Students will participate in rounds, case management and medical records keeping.

VMC 754, CLINICAL LARGE ANIMAL SURGERY II, 3,6 Credits
Additional clinical surgery training. Graded P/N.
Prerequisite: VMC 734 with C or better
Equivalent to: VM 754
This course is repeatable for 6 credits.

VMC 755, RURAL VETERINARY PRACTICE II, 3-6 Credits
One additional rural practice training. Graded P/N.
Prerequisite: VMC 735 with C or better
Equivalent to: VM 755
This course is repeatable for 6 credits.

VMC 756, CLINICAL SKILLS V: TECHNICAL SKILLS AND CLINICAL REASONING, 1 Credit
Development of technical and psychomotor skills and clinical reasoning in preparation for clinical coursework.

VMC 758, CATTLE PRODUCTION MEDICINE, 3 Credits
Clinical application of production medicine practices to dairy and beef cattle practice. Graded P/N.
Prerequisite: VMC 735 with C or better
Equivalent to: VM 758

VMC 759, LARGE ANIMAL PALPATION, 1 Credit
A laboratory for additional experience in rectal palpation of large animals, for third-year veterinary students. Graded P/N.

VMC 760, CLINICAL SKILLS I: INTRO TO ANIMAL CARE AND VETERINARY MED, 3 Credits
Introduction of a variety of topics relevant to veterinary clinical skills including professionalism, inclusion, ethics, and career options. In addition, animal care, handling, restraint, and physical exam skills will begin to be developed.

VMC 761, CLINICAL SKILLS II: PHYSICAL EXAM AND PROBLEM SOLVING SKILLS, 3 Credits
Introduction to problem solving and integration of clinical case and basic science in the veterinary curriculum. Development of physical exam skills on healthy animals and medical records keeping.

VMC 762, CLINICAL SKILLS III: REASONING AND COMMUNICATION, 2 Credits
Develop communication skills and clinical reasoning in preparation for client interactions and evidence-based decision-making.

VMC 763, ADVANCED CLINICAL CARDIOLOGY, 1 Credit
An elective course for junior veterinary students detailing diagnosis and management of the common congenital and acquired cardiac diseases of domestic animals.

VMC 764, DIAGNOSTIC IMAGING, 4 Credits
A lecture and laboratory course in diagnostic imaging covering physics or radiography and ultrasonography, radiation safety and image interpretation for small and large animals, presented by body systems.
Equivalent to: VM 764
VMC 765, ADVANCED CLINICAL RADIOLOGY, 1 Credit
An elective advanced radiology case-based course for Year 3 veterinary medicine students that focuses on radiographic findings of commonly encountered clinical disease.

VMC 766, CLINICAL SMALL ANIMAL ULTRASONOGRAPHY, 2 Credits
A 1-week overview of clinical small animal ultrasonography with particular emphasis on material relevant to a general or emergency practitioner. Students will be able to perform a FAST scan to identify peritoneal fluid. Students will listen to didactic lectures in the morning with practical sessions in the afternoon. At the end of the week, pairs of students will make a short presentation based on a literature search on a topic of interest.

VMC 767, SMALL ANIMAL ABDOMINAL ULTRASOUND, 3 Credits
Introductory course to provides instruction in veterinary ultrasound with an emphasis on image optimization, evaluation of the abdomen, description and interpretation of imaging findings in dogs and cats. This course is intended for students with a background in common small animal disease and imaging anatomy.

VMC 768, PRINCIPLES OF ANESTHESIA, 4 Credits
A basic course in the principles and techniques of surgery and anesthesia for the professional veterinary student. Lec/lab.
Equivalent to: VM 768

VMC 769, GENERAL MEDICINE, 2 Credits
An introduction to medicine with a discussion of the principles of medicine that would be applicable to all species. Physical examination, clinical diagnosis, pathophysiology of signs of disease in domestic animals, therapeutic principles and diagnostic procedures.
Equivalent to: VM 769

VMC 770, LARGE ANIMAL MEDICINE I, 4 Credits
The first of three courses in large animal medicine for third-year professional veterinary students covering diagnosis and treatment of domestic large animals.
Equivalent to: VM 770

VMC 771, LARGE ANIMAL MEDICINE II, 4 Credits
Diagnosis, treatment and control of diseases of large domestic animals, specifically gastrointestinal, hepatobiliary diseases, weight loss, and introduction to production medicine, and some swine diseases.

VMC 772, LARGE ANIMAL MEDICINE III, 4 Credits
Diagnosis, treatment and control of diseases of large domestic animals, specifically central nervous system, mastitis, musculoskeletal, sudden death, skin, and some swine diseases.

VMC 773, MEDICINE LABORATORY I, 1 Credit
Laboratory experience for third-year veterinary students concurrent with the large and small animal medicine courses.

VMC 774, MEDICINE LABORATORY II, 1 Credit
Laboratory experience for third-year veterinary students concurrent with the large and small animal medicine courses.

VMC 775, CLINICAL SMALL SPORTS MEDICINE AND REHABILITATION, 3 Credits
Clinical training in small animal rehabilitation in the Veterinary Teaching Hospital.

VMC 776, SMALL ANIMAL MEDICINE I, 5 Credits
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.
Equivalent to: VM 776

VMC 777, SMALL ANIMAL MEDICINE II, 5 Credits
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.

VMC 778, SMALL ANIMAL MEDICINE III, 5 Credits
A course for veterinary students describing major topics of small animal internal medicine, using both a systems-based approach and a problem-based approach.

VMC 779, EQUINE SPORTS MEDICINE, 1 Credit
One-week elective encompassing basic exercise physiology, sports-related injuries, injury rehabilitation, training and nutrition of equine athletes. Graded P/N.
Equivalent to: VM 779

VMC 780, VETERINARY MEDICAL PRECEPTORSHIP, 1-16 Credits
Theory of practice of veterinary medicine in a non-university situation. Graded P/N.
Equivalent to: VM 780
This course is repeatable for 16 credits.

VMC 781, SEMINAR IN VETERINARY MEDICINE, 1-16 Credits
Seminars and case discussions on selected topics by students, staff, and others. Graded P/N.
Equivalent to: VM 781
This course is repeatable for 16 credits.
VMC 782, EMERGENCY CARE, 1 Credit
One-week rotation in the Veterinary Teaching Hospital during non-regular hours. Practice and instruction in caring for critically ill patients.
Equivalent to: VM 782

VMC 783, THERIOGENOLOGY I, 4 Credits
To present the clinical applications of reproductive physiology, anatomy, embryology, pathology and microbiology in domesticated animals.
Equivalent to: VM 783

VMC 785, SMALL ANIMAL SURGERY, 7 Credits
A lecture and laboratory course covering the diagnosis, operative methods, and aftercare of common small animal surgical conditions.
Equivalent to: VM 785

VMC 786, ANIMAL BEHAVIOR, 1 Credit
Diagnosis and treatment of feline, canine and equine problem behaviors including aggression, anxiety, house-soiling and compulsive behaviors.

VMC 787, 3RD YEAR CLINICS, 1 Credit
An introductory clinical experience for third-year veterinary students.

VMC 789, PET PRACTICE, 3 Credits
Additional clinical training in primary care pet practice at a Banfield Pet Hospital. Graded P/N.
This course is repeatable for 6 credits.

VMC 790, CLINICAL EXPERIENCE, 1-16 Credits
Equivalent to: VM 790
This course is repeatable for 48 credits.

VMC 791, CLINICAL SMALL ANIMAL MEDICINE, 3,6 Credits
A clinical rotation in small animal internal medicine at the Veterinary Teaching Hospital. Emphasis will be placed on patient evaluation, diagnosis and treatment of diseases of dogs and cats.
This course is repeatable for 6 credits.

VMC 792, CLINICAL SMALL ANIMAL MEDICINE II, 3-6 Credits
A two-week, three-credit clinical elective rotation in small animal internal medicine at the Veterinary Teaching Hospital. Emphasis will be placed on patient evaluation, diagnosis and treatment of diseases of dogs and cats.
This course is repeatable for 6 credits.

VMC 793, CLINICAL SMALL ANIMAL SURGERY, 3,6 Credits
Clinical training in small animal surgery in the Veterinary Teaching Hospital.
Prerequisite: VMC 725 with C or better and VMC 785 [C]
This course is repeatable for 6 credits.

VMC 794, OHS SMALL ANIMAL PRIMARY CARE, 4 Credits
Three-week rotation at OHS to gain experience with an emphasis on surgery, medical case workup, exam room protocol and behavior basics.

VMC 796, CLINICAL IMAGING, 3 Credits
A clinical course for 4th-year veterinary students in which they will assume primary responsibility for performing common radiographic procedures.

VMC 797, SMALL ANIMAL CRITICAL CARE AND HOSPITAL SERVICE ROTATION, 1 Credit
A one-week clinical rotation in small animal critical care managing small animal cases in the intensive care unit at the Veterinary Teaching Hospital.

VMC 798, CLINICAL SMALL ANIMAL SURGERY II, 3-6 Credits
Clinical training in small animal surgery in the College of Veterinary Medicine, Lois B. Acheson Veterinary Teaching Hospital.
This course is repeatable for 6 credits.

VMC 799, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Water Resources Engineering (WRE)
WRE 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRE 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRE 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WRE 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRE 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRE 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRE 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

WRE 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRE 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.
WRE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WRE 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRE 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRE 610, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRE 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Water Resources Policy and Mgt (WRP)

WRP 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRP 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRP 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRP 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRP 509, PRACTICUM, 1-16 Credits
This non-traditional class explores tools, models and concepts in the collaborative decision-making process in water resources. Emphasis is on group projects and self-directed practical application of community-based natural resources.
This course is repeatable for 16 credits.
Available via Ecampus

WRP 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WRP 517, WRITING IN WATER RESOURCES, 4 Credits
An intensive summer course to develop proficiency in writing at a graduate level for the wide range of writing tasks common to water resource professionals. Students will complete individual in-class writing assignments and collaborate on a draft of a technical report. While it is designed for students in the Water Cooperation and Peace joint degree program (many of whom will be international students) the course will also be useful for other students. Lec/rec.

WRP 521, WATER CONFLICT MANAGEMENT AND TRANSFORMATION, 3 Credits
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.
Available via Ecampus

WRP 523, ENVIRONMENTAL WATER TRANSACTIONS, 3 Credits
Covers the theory and practice of using water rights transactions to reallocate water rights to environmental purposes. Different transactional techniques and contexts appropriate to their use are presented through case studies primarily from the western United States, with some reference to the use transactions in other countries such as Australia.
Available via Ecampus

WRP 524, SOCIOTECHNOLOGICAL ASPECTS OF WATER RESOURCES, 3 Credits
Core curriculum, graduate-level course in the Water Resources Graduate Program focusing on an interdisciplinary approach to water resources research that integrates the human and the technological dimensions of water resource issues. It is comprised of lecture and discussion sessions with guest lectures by visiting seminar speakers.

WRP 544, MANAGING NATURAL RESOURCES FOR CLIMATE ADAPTATION, 3 Credits
Students will work through series of case studies in resource management to identify strategies and approaches that promote or prevent resilience in resource management. Students participate in discussions and hands-on activities in addition to the lectures and will prepare daily reflections, a final reflection and a final essay due one week after the end of the classroom sessions. This course will use a lecture and discussion format, and draw from the international expertise of the instructor and guest lecturers.
WRP 548, CONDUCTING COLLABORATIVE PROJECTS, 3 Credits
Focuses on development of the abilities needed to complete a directed water-related collaborative project, delivered through experiential learning. The course specifically addresses development of collaborative skills needed to work in interdisciplinary teams. The course activities are centered around a collaborative project on which students will be conducting research, collecting data synthesizing information; and providing classmates with constructive peer-review. Lec/rec.

WRP 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRP 808, WORKSHOP, 1-4 Credits
Examines ways to work effectively in contentious water situations. Explores conflict tolerance, prevention, management, and transformation through collaborative structures as well as through models of negotiation and dialogue.
This course is repeatable for 4 credits.

Water Resources Science (WRS)

WRS 501, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRS 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRS 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WRS 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRS 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 510, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 532, APPLIED FIELD PROBLEMS, 3 Credits
Introduces graduate students to real-world water resources problems and approaches to solving them. Students will assess and analyze the various constraints and limitations to integrated water management that often cannot be adequately simulated in classroom exercises. They will acquire the practical tools necessary to become effective water resources professionals in a rapidly changing world.

WRS 536, FUNDAMENTALS OF HYDROLOGY, 3 Credits
Teaches students from a non-technical background in the Water Cooperation and Peace program the fundamentals of hydrology. Students will be introduced to hydrology and the hydrological cycle at the graduate level with a focus on key concepts. Students will apply these concepts to understanding of real world problems in the associated course, WRS 532, Applied Field Problems. Lec/lab.

WRS 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 601, RESEARCH, 1-16 Credits
This course is repeatable for 16 credits.

WRS 603, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WRS 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WRS 606, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WRS 607, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WRS 608, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 610, INTERNSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WRS 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Women, Gender, and Sexuality (WGSS)

WGSS 110, *GENDER, RACE, AND POP CULTURE, 3 Credits
Introduces students to the critical analysis of mass media and representations of women, gender, sexuality, and race in popular culture. Topics vary from term to term and may include the entertainment industry, advertising, music, literature, the internet and technology. May be repeated for credit when topic varies. (Bacc Core Course) Attributes: CPWC – Core, Pers, West Culture
This course is repeatable for 9 credits.
Available via Ecampus
WGSS 111, *FEMINIST PERSPECTIVES ON CURRENT EVENTS, 3 Credits
Introduction to feminist analysis through the examination of current events and their relation to gender, sexuality, race, ethnicity, nationality, religion, class, age, and ability. Topics vary from term to term and may include issues related to politics, social movements, education, the workplace, science and technology, the environment, globalization, arts and culture, and the media. May be repeated for credit when topic varies.
Attributes: CPSI – Core, Pers, Soc Proc & Inst  
This course is repeatable for 9 credits.

WGSS 199, SPECIAL STUDIES, 1-3 Credits
Special topics of contemporary relevance to research of women and gender role issues. For students who seek an elementary introduction to a specific realm of women, gender, and sexuality studies. May be repeated for credit when topic varies.
Equivalent to: WS 199  
This course is repeatable for 9 credits.

WGSS 223, *INTRODUCTION TO WOMEN, GENDER, AND SEXUALITY STUDIES, 3 Credits
Multidisciplinary introduction to women, gender, and sexuality studies. Focuses on the lives and status of women in society and explores ways institutions such as family, work, media, law and religion affect different groups of women. Explores issues of gender, race, class, age, sexual orientation, size and ability. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core  
Equivalent to: WGSS 223H, WS 223, WS 223H  
Available via Ecampus

WGSS 223H, *INTRODUCTION TO WOMEN, GENDER, AND SEXUALITY STUDIES, 3 Credits
Multidisciplinary introduction to women, gender, and sexuality studies. Focuses on the lives and status of women in society and explores ways institutions such as family, work, media, law and religion affect different groups of women. Explores issues of gender, race, class, age, sexual orientation, size and ability. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core  
Equivalent to: WGSS 223, WS 223, WS 223H

WGSS 224, *WOMEN: PERSONAL AND SOCIAL CHANGE, 3 Credits
Examines the way the questioning of traditional gender roles and their accompanying power structures can lead to change in women's personal and public lives. Explores women's heritage and contributions and focuses on issues of self-growth and social movements for change. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core  
Equivalent to: WS 224  
Available via Ecampus

WGSS 220, *WOMEN IN THE MOVIES, 3 Credits
Examines ways women are depicted in the movies and how those depictions are created by and create larger social constructions of women. Special attention is given to the intersections of race, class, sexual identity, and age with gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination  
Equivalent to: WGSS 220H, WS 220

WGSS 220H, *WOMEN IN THE MOVIES, 3 Credits
Examines ways women are depicted in the movies and how those depictions are created by and create larger social constructions of women. Special attention is given to the intersections of race, class, sexual identity, and age with gender. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator  
Equivalent to: WGSS 220

WGSS 230, *WOMEN IN WORLD CINEMA, 3 Credits
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity  
Equivalent to: WGSS 230H, WS 230  
Available via Ecampus

WGSS 235, *WOMEN IN WORLD CINEMA, 3 Credits
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator  
Equivalent to: WGSS 235, WS 235, WS 235H

WGSS 235H, *WOMEN IN WORLD CINEMA, 3 Credits
Explores constructions and practices of gender in a transnational, multi-religious, and global framework by examining a wide variety of films about women around the world. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator  
Equivalent to: WGSS 235, WS 235, WS 235H

WGSS 240, *GENDER, RACE, AND SPORT, 3 Credits
Focuses on sport as a gendered and racialized institution. Drawing from cultural, psychosocial, and political perspectives students examine intersections of gender with race, sexual identity, social class, ability, age, and religion.
Attributes: CPSI – Core, Pers, Soc Proc & Inst  
Equivalent to: WGSS 240H

WGSS 240H, *GENDER, RACE, AND SPORT, 3 Credits
Focuses on sport as a gendered and racialized institution. Drawing from cultural, psychosocial, and political perspectives students examine intersections of gender with race, sexual identity, social class, ability, age, and religion.
Attributes: CPSI – Core, Pers, Soc Proc & Inst; HNRS – Honors Course Designator  
Equivalent to: WGSS 240
WGSS 262, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia's and transphobia's relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 262, QS 262H, WGSS 262H
Available via Ecampus

WGSS 262H, *INTRODUCTION TO QUEER STUDIES, 3 Credits
Centering itself on activism and scholarship, this course examines homophobia's and transphobia's relationship with racism, colonialism, sexism, ableism, classism and other forms of oppression. Introduces key concepts, histories, and political frameworks within Lesbian, Gay, Bisexual, Transgender, and Queer political movements. CROSSLISTED as QS 262/WGSS 262. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 262, QS 262H, WGSS 262

WGSS 270, *RESISTING GENDER VIOLENCE, 3 Credits
Addresses issues of domestic violence, rape, dating violence, as well as contemporary social debates about pornography and the media's impact on violence in society, which includes a global perspective. Course focuses on individual and collective practices resisting gender violence. (Bacc Core Course) (SS)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst; LACS – Liberal Arts Social Core
Equivalent to: WS 270
Available via Ecampus

WGSS 280, *WOMEN WORLDWIDE, 3 Credits
Focuses on women's experiences throughout the world and examines women's issues and status cross-culturally. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: WGSS 280H, WS 280
Available via Ecampus

WGSS 280H, *WOMEN WORLDWIDE, 3 Credits
Focuses on women's experiences throughout the world and examines women's issues and status cross-culturally. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: WGSS 280, WS 280, WS 280H

WGSS 295, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: ENG 295, ENG 295H, PHL 295, PHL 295H, WGSS 295H

WGSS 295H, *FEMINISM AND THE BIBLE, 3 Credits
Examines feminist interpretations of the Bible and pays special attention to intersections of race, social class, sexual identity, and nation in biblical interpretation. CROSSLISTED as ENG 295/PHL 295/WGSS 295. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: ENG 295, ENG 295H, PHL 295, PHL 295H, WGSS 295

WGSS 299, TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES, 1-6 Credits
Current topics related to women, gender and sexuality. Description and analysis of different realms of knowledge about gender issues.
Equivalent to: WS 299
This course is repeatable for 12 credits.

WGSS 311, *GLOBAL EXPERIENCE: CULTURAL DIVERSITY, 3 Credits
Engagement in a study abroad experience outside Western Europe with an emphasis on transnational, queer, and critical race feminist analysis (minimum of 7 days). (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
This course is repeatable for 12 credits.

WGSS 312, *GLOBAL EXPERIENCE: WESTERN CULTURE, 3 Credits
Engagement in a study abroad experience in Western Europe with an emphasis on transnational, queer, and critical race feminist analysis (minimum of 7 days). (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
This course is repeatable for 12 credits.

WGSS 313, *GLOB EXPER: CONTEMP GLOB ISSU, 3 Credits
Engagement in a study abroad experience with an emphasis on transnational, queer, and critical race feminist analysis of critical global issues (minimum of 7 days).
Attributes: CSGI – Core, Synth, Global Issues
This course is repeatable for 12 credits.
WGSS 319, *FEMINIST DECOLONIZING METHODOLOGIES: SOCIAL JUSTICE RESEARCH, 3 Credits
Examines traditional scientific methods through a feminist philosophy of science lens that incorporates critiques of the racialized and gendered origins of modern science. Second, it introduces the breadth of feminist research methods associated with social justice research.
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better

WGSS 320, *GENDER AND TECHNOLOGY, 3 Credits
Explores women’s contributions and focuses in technology fields. Analyzes gendered nature of technology. Theory and practice of technologies. (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: WS 320
Available via Ecampus

WGSS 321, *QUEER POP CULTURE, 3 Credits
Examines the concept of Queer popular culture through film, music, TV, image, and other mediums. Seeks to disrupt dominant discourses around gender and sexuality by centralizing women of color feminisms and queer of color critiques to analyze popular representations of gender, sexuality, race, class, disability, and other social locations. CROSSLISTED as QS 321/WGSS 321. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: QS 321
Available via Ecampus

WGSS 324, *FEMINIST ACTIVISMS, 3 Credits
Addresses the breadth of feminist social justice activism through a focus on collective movements for social change as well as individual and community resistance. In exploring relationships between feminist theories and practice, students are encouraged to vision and practice a variety of feminist activisms. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; CPSI – Core, Pers, Soc Proc & Inst

WGSS 325, *DISNEY: GENDER, RACE, EMPIRE, 3 Credits
Explores constructions of gender, race, class, sexuality, and nation in the animated films of Walt Disney; introduces concepts in film theory and criticism, and develops analyses of the politics of representation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: WGSS 325H, WS 325
Available via Ecampus

WGSS 325H, *DISNEY: GENDER, RACE, EMPIRE, 3 Credits
Explores constructions of gender, race, class, sexuality, and nation in the animated films of Walt Disney; introduces concepts in film theory and criticism, and develops analyses of the politics of representation. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: WGSS 325

WGSS 340, *GENDER AND SCIENCE, 3 Credits
Analyzes the relationship between society and science by explaining technology and science as gendered practices and bodies of knowledge. Focuses on the ways the making of women and men affect the making of science and explores the roles of women in scientific pursuits. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; LACS – Liberal Arts Social Core
Equivalent to: WGSS 340H, WS 340
Available via Ecampus

WGSS 340H, *GENDER AND SCIENCE, 3 Credits
Analyzes the relationship between society and science by explaining technology and science as gendered practices and bodies of knowledge. Focuses on the ways the making of women and men affect the making of science and explores the roles of women in scientific pursuits. (SS) (Bacc Core Course)
Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator; LACS – Liberal Arts Social Core
Equivalent to: WGSS 340

WGSS 350, *POLITICS OF MOTHERHOOD IN A GLOBAL CONTEXT, 3 Credits
Introduces students to the politics of motherhood in global contexts, focusing on politics of transnational adoption; motherhood, surrogacy, and biotechnologies; effects of globalization on mothering across borders; mothering in the global welfare state; movements for reproductive justice; and transnational representations of motherhood. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WS 350

WGSS 360, MEN AND MASCULINITIES IN A GLOBAL CONTEXT, 3 Credits
Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work.
Equivalent to: WGSS 360H, WS 360
Available via Ecampus
WGSS 360H, MEN AND MASCULINITIES IN A GLOBAL CONTEXT, 3 Credits
Students will become familiar with central topics in global masculinity studies, analyze texts in diverse media, develop original arguments, and engage with issues of masculinity and representation through written and creative work.
Attributes: HNRS – Honors Course Designator
Equivalent to: WGSS 360, WS 360

WGSS 361, (RE)FRAMING RACE THROUGH FILM PRODUCTION, 4 Credits
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSLISTED as ES 361/QS 361/WGSS 361/WLC 361.
Equivalent to: ES 361, QS 361, WLC 361
Recommended: Prior filmmaking experience

WGSS 362, *SERVING LGBTQ+ COMMUNITIES, 3 Credits
Engages the ethics and responsibilities involved in serving LGBTQ+ communities in fields such as education, health, law, and social services for those entering and/or continuing professions in fields that historically underserve LGBTQ+ people. Topics include LGBTQ+ youth; LGBTQ+ elders; issues affecting LGBTQ+ people across their lifespans; approaches to cultural competency; violence against LGBTQ+ people, forms of oppression including heterosexism, homophobia, and transphobia; and LGBTQ+ community resilience. CROSSLISTED as QS 362/WGSS 362. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst
Equivalent to: QS 362
Available via Ecampus

WGSS 364, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 364, QS 364H, WGSS 364H
Available via Ecampus

WGSS 364H, *TRANSGENDER POLITICS, 3 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 364/WGSS 364. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: QS 364, QS 364H, WGSS 364

WGSS 373, APPROACHES TO SOCIAL JUSTICE, 3 Credits
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSLISTED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ANTH 373, ES 373, WLC 373

WGSS 375, *ARTS AND SOCIAL JUSTICE, 4 Credits
Explores concepts of structural inequality, difference, power, and discrimination through a critical survey of arts activism. Think critically about artwork and artists who address a number of social issues in the United States, including race, ethnicity, class, gender, sexuality, immigration, and indigeneity. CROSSLISTED as ES 375/QS 375/WGSS 375.
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 375, QS 375

WGSS 378, *RELIGION AND GENDER: A GLOBAL PERSPECTIVE, 4 Credits
Introduces students to the academic study of religion, as well as the academic study of gender. In order to offer a global perspective, we will read a series of case studies that deal with the religion as a gendered experience. Students will produce two essays, one of which will be based on independent research. CROSSLISTED as HST 378/REL 378/WGSS 378. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: HST 378, REL 378
Available via Ecampus

WGSS 380, *MUSLIM WOMEN, 3 Credits
Examines the lives and experiences of Muslim women in Islamic communities around the world from a variety of perspectives in order to highlight issues significant for contemporary Muslim women: family, education, work, politics, health, marriage, divorce, war, and violence. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Available via Ecampus

WGSS 399, TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES, 1-6 Credits
Current topics in women, gender, and sexuality. May be repeated for credit when topic varies.
Equivalent to: WGSS 399H, WS 399
This course is repeatable for 12 credits.

WGSS 399H, TOPICS IN WOMEN, GENDER, AND SEXUALITY STUDIES, 1-6 Credits
Current topics in women, gender, and sexuality. May be repeated for credit when topic varies.
Attributes: HNRS – Honors Course Designator
Equivalent to: WGSS 399, WS 399, WS 399H
This course is repeatable for 12 credits.
WGSS 402, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: WS 402
This course is repeatable for 16 credits.
Available via Ecampus

WGSS 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WGSS 407, SEMINAR, 3 Credits
Equivalent to: WS 407
This course is repeatable for 99 credits.

WGSS 409, PRACTICUM, 1-12 Credits
This course is repeatable for 12 credits.

WGSS 410, INTERNSHIP, 1-16 Credits
The internship experience provides the opportunity to gain experience within an off-campus private, public, or community agency or organization which has as one of its goals the improvement of the status of women in society. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the WGSS program. Only 6 credits will count toward the Women, Gender, and Sexuality Studies major.
Equivalent to: WS 410
This course is repeatable for 16 credits.
Available via Ecampus

WGSS 414, *SYSTEMS OF OPPRESSION IN WOMEN'S LIVES, 4 Credits
Explores the ways different systems of oppression and discrimination impact women's lives. Examines sexism, classism, racism, and anti-Jewish oppression, as well as discrimination against queer women, older women, and those who differ in ability and appearance. (SS) (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; LACS – Liberal Arts Social Core
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better
Equivalent to: WGSS 414H

WGSS 416, THEORIES OF FEMINISM, 4 Credits
Explores feminist conceptions about the nature of the world, women's reality and visions for change. Analyzes major issues raised by the women's movement and the development of feminist ideas, as well as provides a critical examination of feminist thought and different theories which comprise it.
Prerequisite: WS 223 with D- or better or WS 223H with D- or better or WS 224 with D- or better or WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WS 416
Available via Ecampus

WGSS 417, FEMINIST PHILOSOPHIES, 3 Credits
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.
Equivalent to: PHL 417, WS 417

WGSS 418, FEMINIST RESEARCH METHODS, 4 Credits
Introduces feminist research methods associated with research design, analysis, and interpretation. It utilizes feminist social justice frameworks and focuses on in-depth interviewing and focus groups, oral histories, ethnography, and visual and textual analysis, as well as survey design and community-based participatory research.
Prerequisite: WGSS 414 with C- or better

WGSS 430, WOMEN OF COLOR FEMINISMS, 4 Credits
Explores the contemporary experiences of women of color, as well as the theoretical and practical frameworks of women of color feminisms. Analyzes key themes in women of color feminisms, including politics of representation, multiple forms of state and interpersonal violence, intersecting forms of oppression, economic justice, reproductive justice, and strategies of resistance.
Prerequisite: WS 223 with D- or better or WS 223H with D- or better or WGSS 223 with D- or better or WGSS 223H with D- or better
Equivalent to: WS 430

WGSS 431, *QUEER OF COLOR CRITIQUES, 4 Credits
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/QS 431/WGSS 431 and ES 531/QS 531/WGSS 531 . (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ES 431, QS 431

WGSS 432, *GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women's, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/QS 432/WGSS 432 and ART 532/QS 532/WGSS 532 . (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ART 432, QS 432
Available via Ecampus
**WGSS 440, *WOMEN AND NATURAL RESOURCES, 3 Credits**
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women's use and control of natural resources. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society
Equivalent to: WGSS 440H, WS 440
Available via Ecampus

**WGSS 440H, *WOMEN AND NATURAL RESOURCES, 3 Credits**
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women's use and control of natural resources. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society; HNRS – Honors Course Designator
Equivalent to: WGSS 440

**WGSS 450, ECOFEMINISM, 3 Credits**
Focuses on the ecological and feminist principles that mediate humanity's relationship with nature.
Equivalent to: WS 450
Available via Ecampus

**WGSS 460, ^SEXUALITIES, FEMINISMS, WOMEN, 4 Credits**
Explores the historical, theoretical, and political dimensions of female sexuality. The course also examines the basic assumptions about the meaning of gendered sexuality, how it has been shaped and controlled, and why women's sexuality has been/is a source of both women’s liberation and subjugation. In addition, the course incorporates Queer and Trans* theories about gendered/women’s sexualities. (SS) (Writing Intensive Course)

Attributes: CWIC – Core, Skills, WIC; LACS – Liberal Arts Social Core
Prerequisite: WS 223 with D- or better or WS 224 with D- or better or WGSS 240 with D- or better or WGSS 262 with D- or better or WGSS 262H with D- or better or WS 270 with D- or better or WS 280 with D- or better or WS 280H with D- or better or WS 321 with D- or better or WS 325 with D- or better or WS 325H with D- or better or WS 340 with D- or better or WS 340H with D- or better or WS 350 with D- or better or WS 360 with D- or better or WS 360H with D- or better or WS 364 with D- or better or WS 364H with D- or better or WS 373 with D- or better or WS 375 with D- or better or WS 380 with D- or better or WS 380H with D- or better
Equivalent to: PSY 466, WS 466
Available via Ecampus

**WGSS 462, *QUEER THEORIES, 4 Credits**
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media.
CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562. (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: QS 462, WS 462
Available via Ecampus

**WGSS 466, *FAT STUDIES, 4 Credits**
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566. (Bacc Core Course)

Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

Prerequisite: WS 223 with D- or better or WS 223H with D- or better or WS 224 with D- or better or WS 240 with D- or better or WGSS 262 with D- or better or WGSS 262H with D- or better or WS 270 with D- or better or WS 280 with D- or better or WS 280H with D- or better or WS 321 with D- or better or WS 325 with D- or better or WS 325H with D- or better or WS 340 with D- or better or WS 340H with D- or better or WS 350 with D- or better or WS 360 with D- or better or WS 360H with D- or better or WS 364 with D- or better or WS 364H with D- or better or WS 373 with D- or better or WS 375 with D- or better or WS 380 with D- or better or WS 380H with D- or better

Equivalent to: PSY 466, WS 466
Available via Ecampus

**WGSS 472, ^INDIGENOUS TWO-SPRIT AND QUEER STUDIES, 4 Credits**
'Two-spirit' refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art.
CROSSLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/WGSS 572. (Writing Intensive Course).

Attributes: CWIC – Core, Skills, WIC

Equivalent to: ES 472, QS 472
Recommended: QS 262 or ES 242 or WGSS 414
Available via Ecampus

**WGSS 473, TRANSGENDER LIVES, 4 Credits**
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573

Equivalent to: QS 473
Recommended: WGSS/QS 262, WGSS/QS 364
Available via Ecampus
WGSS 476, *TRANSNATIONAL SEXUALITIES, 4 Credits
Explores contemporary experiences of sexualities within transnational contexts. Analyzes themes including queer and LGBTQI organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSLISTED as QS 476/WGSS 476 and QS 576/WGSS 576. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Prerequisite: QS 262 with D- or better
Equivalent to: QS 476

WGSS 477, QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 477, QS 477
Recommended: QS 262 and QS 464
Available via Ecampus

WGSS 480, *GENDER AND TRANSNATIONAL ACTIVISMS, 3 Credits
Focuses on social constructions of gender in global context. It explores the comparative realities of various gendered struggles for social justice and studies key definitions and theoretical assumptions relevant to the subject of global feminist activism. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; LACN – Liberal Arts Non-Western Core
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WGSS 480H
Available via Ecampus

WGSS 480H, *GENDER AND TRANSNATIONAL ACTIVISMS, 3 Credits
Focuses on social constructions of gender in global context. It explores the comparative realities of various gendered struggles for social justice and studies key definitions and theoretical assumptions relevant to the subject of global feminist activism. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator; LACN – Liberal Arts Non-Western Core
Prerequisite: WGSS 223 with D- or better or WGSS 223H with D- or better or WGSS 224 with D- or better
Equivalent to: WGSS 480

WGSS 482, GLOBAL PERSPECTIVES ON WOMEN’S HEALTH, 4 Credits
Women’s health issues are examined from a global perspective in the context of a woman’s life and through a feminist political lens. Central to our discussions will be an analysis of the interplay among race, class, and gender in shaping particular health care outcomes. The course stresses the potential for women’s agency and autonomy with respect to improving their health and environments.
Equivalent to: WS 482

WGSS 483, RACE, GENDER, AND HEALTH JUSTICE, 4 Credits
Based on a social justice framework, this course explores the intersections of race, gender, ethnicity, disability and sexuality to provide a deeper understanding of how these factors shape health inequities in diverse communities nationally and globally.

WGSS 485, CAPSTONE IN SOCIAL JUSTICE, 2 Credits
Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisite: (ANTH 373 with D- or better or ES 373 with D- or better or WS 373 with D- or better or WGSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WS 410 [D-] or WS 486 [D-] or WGSS 410 [D-] or WLC 410 [D-])
Equivalent to: ANTH 485, ES 485, WLC 485
This course is repeatable for 4 credits.

WGSS 486, GLOBAL EXPERIENCE I, 1 Credit
Prepares students to participate in a short-term study abroad experience that emphasizes volunteer experiences in women's organizations and analysis from transnational feminist perspectives.
Equivalent to: WS 486

WGSS 487, GLOBAL EXPERIENCE II, 1 Credit
Engages students in a short-term study abroad experience that emphasizes volunteer experiences in women's organizations and analysis from transnational feminist perspectives.
Prerequisite: WS 486 with D- or better or WS 586 with D- or better or WGSS 486 with D- or better or WGSS 586 with D- or better
Equivalent to: WS 487

WGSS 488, GLOBAL EXPERIENCE III, 1 Credit
Students reflect on their short-term study abroad experience by engaging in in-depth transnational feminist analysis of particular aspects of the study abroad experience.
Prerequisite: WS 486 with D- or better or WS 487 with D- or better or WGSS 486 with D- or better or WGSS 487 with D- or better
Equivalent to: WS 488
WGSS 490, SELF-ESTEEM AND PERSONAL POWER, 3 Credits
Explores ways to improve self-esteem and develop personal power. Focuses on issues of self and identity, contextualizing these in the ways gender is constructed in society. (SS)
Attributes: LACS – Liberal Arts Social Core
Equivalent to: WS 490

WGSS 495, *GLOBAL FEMINIST THEOLOGIES, 4 Credits
Explores the connections between women’s religious experiences around the world and the global problems addressed by feminist theology and spirituality. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WGSS 495H, WS 495
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing.

WGSS 495H, *GLOBAL FEMINIST THEOLOGIES, 3 Credits
Explores the connections between women’s religious experiences around the world and the global problems addressed by feminist theology and spirituality. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues; HNRS – Honors Course Designator
Equivalent to: WGSS 495, WS 495
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing.

WGSS 496, *FEMINIST THEOLOGIES IN THE UNITED STATES, 4 Credits
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: WGSS 496H, WS 496, WS 496H
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224 and junior standing.

WGSS 496H, *FEMINIST THEOLOGIES IN THE UNITED STATES, 4 Credits
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination; HNRS – Honors Course Designator
Equivalent to: WGSS 495, WS 496, WS 496H
Recommended: (WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224) and junior standing

WGSS 498, FEMINIST PRACTICE, 4 Credits
For graduating seniors in women, gender, and sexuality studies. Building on knowledge and experiences acquired in required and elective women, gender, and sexuality studies courses, it focuses on central questions for feminist research and activism. In particular, the course helps students develop deeper understandings of the process of generating feminist knowledge and its application in diverse forms of feminist practice.
Prerequisite: WGSS 414 with D- or better and WGSS 416 [D-]
Equivalent to: WS 498
Available via Ecampus

WGSS 499, TOPICS, 1-6 Credits
Topics on contemporary research in women, gender, and sexuality studies. May be repeated for credit when topic varies.
Equivalent to: WS 499
This course is repeatable for 12 credits.
Available via Ecampus

WGSS 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: WS 501
This course is repeatable for 16 credits.

WGSS 502, INDEPENDENT STUDY, 1-16 Credits
Equivalent to: WS 502
This course is repeatable for 16 credits.

WGSS 503, THESIS, 1-16 Credits
Equivalent to: WS 503
This course is repeatable for 999 credits.
Available via Ecampus

WGSS 506, PROJECTS, 1-16 Credits
Equivalent to: WS 506
This course is repeatable for 16 credits.

WGSS 510, INTERNSHIP, 1-16 Credits
The internship experience provides the opportunity to gain experience within an off-campus private, public, or community agency or organization which has as one of its goals the improvement of the status of women in society. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the Women, Gender, and Sexuality Studies program.
Equivalent to: WS 510
This course is repeatable for 16 credits.

WGSS 511, ORIENTATION AND PROFESSIONALIZATION I, 1 Credit
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 511 provides knowledge about Women, Gender, and Sexuality Studies as a discipline and as a course of study that helps students manage the transition to graduate school. Graded P/N.
Equivalent to: GRAD 511, WS 511
WGSS 512, ORIENTATION AND PROFESSIONALIZATION II, 1 Credit
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 512 guides students in the development of an intellectual life with a focus on thriving and surviving as a scholar in Women, Gender, and Sexuality Studies. Graded P/N.
Equivalent to: GRAD 511, WS 512

WGSS 513, ORIENTATION AND PROFESSIONALIZATION III, 1 Credit
The WGSS 511, 512, 513 sequence prepares Women, Gender, and Sexuality Studies graduate students to succeed in their courses of study and in their chosen profession. WGSS 513 focuses on helping students shape a future that utilizes the graduate degree in Women, Gender, and Sexuality Studies. It helps students manage the transition to life after the Women, Gender, and Sexuality Studies Master’s program at OSU. Graded P/N.
Equivalent to: GRAD 511, WS 513

WGSS 514, SYSTEMS OF OPPRESSION: STRATEGIES FOR RESISTANCE, 4 Credits
Explores the ways different systems of oppression function in society. Applies feminist intersectionality approaches to examine interlocking systems of inequality and privilege.
Equivalent to: WS 514

WGSS 515, ADVANCED RESEARCH LITERATURE REVIEW, 3 Credits
Provides graduate students with knowledge and experience in the advanced literature review process including construction of the literature review as product. One of the primary skills graduate students must master is advanced review of a body of literature for the research project. Mastery of the literature review process influences quality and sophistication of claims developed to justify research, with the written review clearly delineating the unique contribution of the student’s research and the knowledge gap that it fills. The literature review as a product is a strong written argument that builds a case from credible evidence based on previous research. CROSSLISTED as ANTH 515/ CSSA 515/ES 515/WGSS 515.
Equivalent to: ANTH 515, CSSA 515, ES 515

WGSS 516, THEORIES OF FEMINISM, 4 Credits
Explores feminist conceptions about the nature of the world, women’s reality and visions for change. Analyzes major issues raised by the women’s movement and the development of feminist ideas, as well as provides a critical examination of feminist thought and different theories which comprise it.
Equivalent to: WS 516
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224

WGSS 517, FEMINIST PHILOSOPHIES, 3 Credits
Diverse forms of feminist philosophy, including a variety of critiques, especially those based on race and class, with in-depth consideration of selected social issues such as rape and pornography. CROSSLISTED as PHL 417/WGSS 417 and PHL 517/WGSS 517.
Equivalent to: PHL 517, WS 517
Recommended: 6 credits of philosophy

WGSS 518, FEMINIST RESEARCH, 4 Credits
Explores the socio-political and historical context out of which traditional research methodologies emerge and the relationship of gender to scientific pursuits. Teaches what it means to do emancipatory anti-sexist and participatory research.
Equivalent to: WS 518

WGSS 521, FEMINIST LEADERSHIP, 4 Credits
Examines theories of feminist leadership and applications in non-profit, governmental, and higher education institutions.
Equivalent to: WS 521

WGSS 522, GRANT AND FUND DEVELOPMENT FOR FEMINIST ORGANIZATIONS, 4 Credits
Provides students with the skills needed to be successful in grant-writing and fundraising for feminist organizations. Students will address the politics of grant writing and fund raising in relation to the feminist movement’s aims and goals. They will also work directly with agencies to understand the trade-offs and value/need of securing funding for social change organizations.
Equivalent to: WS 522

WGSS 523, COMMUNITY ORGANIZING AND COLLECTIVE ACTION, 2 Credits
Addresses relationships between theory and action in feminist context. Explores both social change activism in terms of individual and collective action strategies and social movement theory in historical and contemporary perspectives.
Equivalent to: WS 523

WGSS 524, TRANS/GENDER POLITICS, 4 Credits
Addresses transgender politics—including transsexual, genderqueer, and gender non-conforming issues—through feminist and intersectional approaches by analyzing transgender theories, arts, and activism. CROSSLISTED as QS 524/WGSS 524.
Equivalent to: QS 524

WGSS 525, GENDER AND TECHNOLOGY, 3 Credits
Explores women’s contributions and focuses in technology fields. Analyzes gendered nature of technology. Theory and practice of technologies for change and activism.
Equivalent to: WS 525
WGSS 530, WOMEN OF COLOR FEMINISMS, 4 Credits
Explores the contemporary experiences of women of color, as well as the theoretical and practical frameworks of women of color feminisms. Analyses key themes in women of color feminisms, including politics of representation, multiple forms of state and interpersonal violence, intersecting forms of oppression, economic justice, reproductive justice, and strategies of resistance.
Equivalent to: WS 530
Recommended: WGSS 223 or WGSS 223H or WS 223 or WS 223H

WGSS 531, QUEER OF COLOR CRITIQUES, 4 Credits
‘Queer of color critiques’ refers to political theories and activism that emerge from LGBTQ people of color to examine the intersections between race, sexuality and gender. Addresses these intersections through theory, history, and activism. CROSSLISTED as ES 431/WS 431/WGSS 431 and ES 531/WS 531/WGSS 531.
Equivalent to: ES 531, WS 531

WGSS 532, GENDER, SEXUALITY, AND THE PHOTOGRAPHIC IMAGE, 3 Credits
A creative and discussion-based course focusing on ways in which photography can and has addressed issues of gender and sexuality. An introduction to key concepts and intersections in Women’s, Gender and Sexuality Studies; Queer Studies and photography theory. Create written and photographic responses to artworks, texts, personal experience and pop-culture. CROSSLISTED as ART 432/WS 432/WGSS 432 and ART 532/QS 532/WGSS 532.
Equivalent to: ART 532, QS 532
Available via Ecampus

WGSS 535, FEMINIST TEACHING AND LEARNING, 4 Credits
Focuses on the experiences and practices of the feminist classroom. Key components of the class include issues associated with the identity and development of the teacher, as well as the development of skills to help facilitate understanding, empowerment, and the personal and social agency of students.
Equivalent to: WS 535

WGSS 536, FEMINIST MEDIA STUDIES, 4 Credits
Examination of print, radio, television, and new media from feminist perspectives.

WGSS 540, WOMEN AND NATURAL RESOURCES, 3 Credits
Explores the relationship between women and natural resources. In particular, the course examines the roles of policy, technology, culture, and management in women’s use and control of natural resources.
Equivalent to: WS 540

WGSS 542, THE INCLUSIVE CLASSROOM: DIFFERENCE, POWER AND DISCRIMINATION, 3 Credits
An examination of multidisciplinary scholarship on difference, power, and discrimination; critical pedagogies; and curriculum transformation. Discussions of theory and research are coupled with practical hands-on opportunities for students to develop and hone their teaching and course development skills. CROSSLISTED as GRAD 542/WGSS 542.
Equivalent to: GRAD 542

WGSS 550, ECOFEMINISM, 3 Credits
Focuses on the ecological and feminist principles that mediate humanity’s relationship with nature.
Equivalent to: WS 550

WGSS 555, FEMINIST TEXTUAL AND DISCOURSE ANALYSIS, 4 Credits
Graduate students are introduced to current methods and modes of feminist literary, visual culture, performance, new media, and film studies with a focus on application. In doing so, the course focuses on feminist approaches to key topics within textual studies (such as form, authors, and readers) as well as distinct methodological approaches to various genres and mediums (including poems, performances, photographs, and films).

WGSS 560, SEXUALITIES, FEMINISMS, WOMEN, 4 Credits
Explores the historical, theoretical, and political dimensions of female sexuality. The course also examines the basic assumptions about the meaning of gendered sexuality, how it has been shaped and controlled, and why women’s sexuality has been/is a source of both women’s liberation and subjugation. In addition, the course incorporates Queer and Trans* theories about gendered/women’s sexualities.
Equivalent to: WS 560
Recommended: WGSS 223 or WGSS 223H or WS 223 or WS 223H

WGSS 562, QUEER THEORIES, 4 Credits
Engages key themes and critical frameworks in queer theories. Topics include histories of sexuality; forms of oppression, including heterosexism, homophobia, and transphobia; resistance to oppression; violence against LGBTQ people; queer activism; diverse experiences of sexuality; and representations in literature, art, and popular media. CROSSLISTED as QS 462/WGSS 462 and QS 562/WGSS 562.
Equivalent to: QS 562, WS 562
**WGSS 566, FAT STUDIES, 4 Credits**
Examines body weight, shape, and size as an area of human difference subject to privilege and discrimination that intersects with other systems of oppression based on gender, race, class, age, sexual orientation, and ability. Employs a multi-disciplinary approach spanning the behavioral sciences and humanities. Frames weight-based oppression as a social justice issue, exploring forms of activism used to counter weightism perpetuated throughout various societal institutions. CROSSLISTED as PSY 466/WGSS 466 and PSY 566/WGSS 566.
Equivalent to: PSY 566, WS 566
Recommended: WS 223 or WS 223H or WS 224 or WGSS 240 or WGSS 262 or WGSS 262H or WGSS 270 or WGSS 280 or WGSS 280H or WGSS 321 or WGSS 325 or WGSS 325H or WGSS 340 or WGSS 340H or WGSS 350 or WGSS 360 or WGSS 360H or WGSS 364 or WGSS 364H or WGSS 373 or WGSS 375 or WGSS 380 or WGSS 380H

**WGSS 569, TOPICS IN JOTERIA STUDIES, 3 Credits**
A space for engaging with arts, activism and scholarship emerging from queer Latin@/Chicano@ experiences and consciousness is provided. Offered winter term in odd years. CROSSLISTED as ES 569/QS 569/SPAN 569/WGSS 569.
Equivalent to: ES 569, QS 569, SPAN 569
This course is repeatable for 6 credits.

**WGSS 572, INDIGENOUS TWO-SPIRIT AND QUEER STUDIES, 4 Credits**
'Two-spirit’ refers to North American indigenous genders outside of European male/female binaries. Two-spirit communities argue for decolonization as a central political struggle, calling all people to unlearn settler colonial gender/sexuality on Native land. Addresses indigenous two-spirit/GLBTQ issues through theory, literature, activism, and art. CROSSLISTED as ES 472/QS 472/WGSS 472 and ES 572/QS 572/WGSS 572.
Equivalent to: ES 572, QS 572
Recommended: QS 262 or ES 242 or WGSS 414 or WGSS 514

**WGSS 573, TRANSGENDER LIVES, 4 Credits**
With a particular focus on transgender people of color and transnational constructions of gender, this course will engage issues in the lives of Transgender people through autobiography, memoir, biography, poetry, and documentary film. CROSSLISTED as QS 473/WGSS 473 and QS 573/WGSS 573.
Equivalent to: QS 573
Recommended: WGSS/QS 262, WGSS/QS 364

**WGSS 575, CRITICAL RACE FEMINISM AND OUTSIDER JURISPRUDENCE, 4 Credits**
Critical exploration of critical legal justice movements and their relationship to social identities. Seminar emphasizes specific legal cases, federal and state laws, and constitutional issues that impact groups deemed outsiders in legal discourse as well as their social implications. The critical justice movement and anti-subordination struggles will be explored via case analyses that shape race, class, gender, sexuality, and disability relations. Theoretical contributions of law and society, critical race theory, LatCrit, and critical race feminism, critical white studies, critical mixed race studies, OutCrit, ClassCrit, and critical disability studies applied to historical precedent and current attempts at marginalizing/empowering communities. CROSSLISTED as ES 575/WGSS 575.
Equivalent to: ES 575

**WGSS 576, TRANSNATIONAL SEXUALITIES, 4 Credits**
Explores contemporary experiences of sexualities within transnational contexts. Analyzes themes including queer and LGBTQI organizing, same-sex desires, queer transnational immigration and labor flows, sex industries and discourses of trafficking, sex tourism, and reproductive justice, using feminist, queer, and postcolonial theoretical frameworks. CROSSLISTED as QS 476/WGSS 476 and QS 576/WGSS 576.
Equivalent to: QS 576
Recommended: QS 262

**WGSS 577, QUEER/TRANS PEOPLE OF COLOR ARTS AND ACTIVISM, 4 Credits**
LGBTQ people of color often engage struggles for social justice through artistic movements. Focuses on arts by LGBTQ people of color and the way these artistic movements contribute to activism that interrupts interlocking systems of oppression. CROSSLISTED as ES 477/QS 477/WGSS 477 and ES 577/QS 577/WGSS 577.
Equivalent to: ES 577, QS 577
Recommended: QS 262 and QS 464

**WGSS 582, GLOBAL PERSPECTIVES ON WOMEN’S HEALTH, 4 Credits**
Women’s health issues are examined from a global perspective in the context of a woman’s life and through a feminist political lens. Central to our discussions will be an analysis of the interplay among race, class, and gender in shaping particular health care outcomes. The course stresses the potential for women’s agency and autonomy with respect to improving their health and environments.
Equivalent to: WS 582

**WGSS 583, RACE, GENDER, AND HEALTH JUSTICE, 4 Credits**
Based on a social justice framework, this course explores the intersections of race, gender, ethnicity, disability and sexuality to provide a deeper understanding of how these factors shape health inequities in diverse communities nationally and globally.
WGSS 585, TRANSNATIONAL FEMINISMS, 4 Credits
Introduces students to themes and theoretical principles of transnational feminisms, with special emphasis placed on feminist movements of the global South. We will explore colonialism, globalization, nation-building, representation, global economies, militarism, human rights, and politics of gender, race, class, sexuality, and nation.
Equivalent to: WS 585

WGSS 586, GLOBAL EXPERIENCE I, 1 Credit
Prepares students to participate in a short-term study abroad experience that emphasizes volunteer experiences in women’s organizations and analysis from transnational feminist perspectives.
Equivalent to: WS 586

WGSS 587, GLOBAL EXPERIENCE II, 1 Credit
Engages students in a short-term study abroad experience that emphasizes volunteer experiences in women’s organizations and analysis from transnational feminist perspectives.
Equivalent to: WS 587
Recommended: WS 486 or WS 586 or WGSS 486 or WGSS 586

WGSS 588, GLOBAL EXPERIENCE III, 1 Credit
Students reflect on their short-term study abroad experience by engaging in in-depth transnational feminist analysis of particular aspects of the study abroad experience.
Equivalent to: WS 588
Recommended: (WS 586 and WS 587) or (WGSS 586 and WGSS 587)

WGSS 595, GLOBAL FEMINIST THEOLOGIES, 4 Credits
Explores the connections between women’s religious experiences around the world and the global problems addressed by feminist theology and spirituality.
Equivalent to: WS 595
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224

WGSS 596, FEMINIST THEOLOGIES IN THE UNITED STATES, 4 Credits
Explores U.S.-based feminist critiques of traditional theologies and examines feminist constructions of theologies rooted in diverse human experiences.
Equivalent to: WS 596
Recommended: WS 223 or WS 223H or WS 224 or WGSS 223 or WGSS 223H or WGSS 224

WGSS 599, TOPICS, 1-6 Credits
Topics on contemporary research in women, gender, and sexuality. May be repeated for credit when topic varies.
Equivalent to: WS 599
This course is repeatable for 12 credits.

WGSS 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Individual and collaborative research and scholarship under the supervision of faculty.
This course is repeatable for 16 credits.

WGSS 602, INDEPENDENT STUDY, 1-16 Credits
Independent study in some field of special interest under the supervision of a faculty member.
This course is repeatable for 16 credits.

WGSS 603, THESIS, 1-12 Credits
Graded P/N.
This course is repeatable for 999 credits.

WGSS 605, READING AND CONFERENCE, 1-16 Credits
Independent reading in specialized topics, guided by discussions in conference with faculty.
This course is repeatable for 16 credits.

WGSS 606, PROJECTS, 1-16 Credits
Special project initiation and participation under the supervision of faculty. Graded P/N.
This course is repeatable for 16 credits.

WGSS 610, INTERNSHIP, 1-6 Credits
The internship experience provides opportunities to gain experience in a private, public, or community agency or organization, which has social justice advocacy as one of its goals. Students work with an on-site mentor who guides their field experience in collaboration with the internship coordinator in the WGSS program. One feature of graduate internships is the opportunity to shadow key personnel in order to meet internship goals. Graded P/N.
This course is repeatable for 6 credits.

WGSS 611, COLLOQUIUM, 1 Credit
Provides presentations of feminist research by OSU faculty and graduate students and faculty members from other institutions. Graded P/N.
This course is repeatable for 4 credits.

WGSS 616, MULTIRACIAL, TRANSNATIONAL, AND QUEER FEMINISMS I, 4 Credits
Introduces doctoral students to foundational and emerging themes and texts in women, gender, and sexuality studies, with particular emphases on women of color feminisms, transnational feminisms, and queer feminist critiques. The first seminar in a two-part sequence (WGSS 616 and 617).
WGSS 617, MULTIRACIAL, TRANSNATIONAL, AND QUEER FEMINISMS II, 4 Credits
Introduces doctoral students to foundational and emerging themes and texts in women, gender, and sexuality studies, with particular emphases on women of color feminisms, transnational feminisms, and queer feminist critiques. The second seminar in a two-part sequence (WGSS 616 and 617).
Prerequisite: WGSS 616 with B or better

WGSS 618, FEMINIST PARTICIPATORY ACTION RESEARCH, 4 Credits
An examination of theories, principles and strategies of PAR, and appreciation of advantages and limitations of this approach and skills necessary for participating effectively in PAR projects.
Recommended: Any upper-division graduate level course in research methods.

WGSS 619, DECOLONIZING METHODS, 4 Credits
Navigates from feminist philosophy of science interventions to postcolonial, Chicana/Latina, and critical race criticisms of methodological stances in “normal” science. Standpoint methodologies, racialized and gendered origins of modern statistical methods, longstanding affinity between colonial inequalities and Eurocentric scientific inquiry, and successor sciences/sciences from below constitute the main themes of the course.

WGSS 620, SOCIAL JUSTICE THEORY AND PRACTICE, 4 Credits
An examination of social justice theories and practices. Specifically engages with issues of power and privilege, systems of oppression, intersectionality, and social activism. Explores the practices of social justice movements.

Wood Science and Engineering (WSE)
WSE 111, RENEWABLE MATERIALS FOR A GREEN PLANET, 2 Credits
Renewable materials are an integral part of modern lifestyles, and current societal trends point to increased use of renewable materials. This course provides an overview of renewable materials and their current applications in society. As an overview course, it covers a breadth of renewable material uses and exposes students to life-cycle thinking.

WSE 210, RENEWABLE MATERIALS TECHNOLOGY AND UTILIZATION, 4 Credits
Characteristics and uses of renewable fiber products including wood, bamboo and grasses; manufacturing processes; effect of tree growth and harvesting on renewable products manufacturing and properties. Wood identification. Lec/lab.
Equivalent to: FP 210

WSE 211, WOODTURNING WITH SCIENCE I, 4 Credits
An introduction to scientific woodturning. Students will get a grounding in tools, lathes, sharpening, and set-up, and then will transition into turning basic forms (spindle and bowl). Particular relevance will be placed upon grain orientation, wood moisture content, wood anatomy, wood chemistry, wood species and extractive effects, and how all of these attributed affect both form and function. Class instruction will be entirely studio based. CROSSLISTED as ART 211/WSE 211.
Equivalent to: ART 211
This course is repeatable for 8 credits.

WSE 225, DEVELOPMENTS OF BUILDING DESIGN WITH RENEWABLE MATERIALS, 3 Credits
Introduction to architectural design, considering the different building requirements and the solutions available, with a focus on wood-based products and other ligno-cellulosic materials.

WSE 250, CAD: COMPUTER AIDED DESIGN, 3 Credits
Provides students with the tools and techniques to design and render products, furniture, and structures using Solidworks, as well as create technical drawings that facilitate communication between designers, engineers, and clients. The techniques developed during this course are applicable to a wide variety of industrial CAD and product design industries worldwide. Lec/lab/studio.
Available via Ecampus

WSE 266, *INDUSTRIAL HEMP, 3 Credits
Introduction to the botany, biology and agronomy of the hemp plant, and the origins, historical contexts and implications of contemporary legal and social issues surrounding its use for food, fiber, and building products. Taught via Ecampus only. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst; CPWC – Core, Pers, West Culture
Available via Ecampus

WSE 299, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 16 credits.

WSE 320, ANATOMY OF RENEWABLE MATERIALS, 3 Credits
Examination of macroscopic and microscopic anatomy of renewable (plant based) materials commonly used by society. Learning activities including lecture and the hands-on study of the various plant materials and their components with naked-eye, hand lens, and microscopic examination. Lec/lab.

WSE 321, CHEMISTRY OF RENEWABLE MATERIALS, 3 Credits
Chemical structures and chemical properties of renewable plant-based materials will be taught at molecular levels. Chemical compositions of different renewable materials will be covered. Chemical and biochemical modifications and applications or renewable materials will be discussed in detail. Lec/lab.
Prerequisite: CH 122 with D- or better or CH 202 with D- or better or CH 232 with D- or better or CH 232H with D- or better
WSE 322, PHYSICAL AND MECHANICAL PROPERTIES OF RENEWABLE MATERIALS, 4 Credits

Introduction to thermodynamics and mechanics of plant fibers, solid wood and bio-based composites: hygroscopicity, heat and mass transport; statics, elasticity and strength of materials; mechanical properties.

Prerequisite: WSE 321 with C- or better

WSE 324, RENEWABLE MATERIALS LABORATORY, 3 Credits

Integrates the knowledge gained in the core science courses (WSE 321 and WSE 322) to help students obtain a deeper understanding of how chemistry, physics, and anatomy affect renewable material properties. The course uses renewable fiber materials such as hardwoods, softwoods, natural fibers, bamboo, composite wood products (e.g. OSB, plywood, MDF, etc.) and fiber-based products (e.g. wood-plastic composites, natural fiber composites, straw panels, paper, etc.) to examine the intricate relationships between fundamental properties and performance.

Prerequisite: WSE 321 with C- or better and WSE 322 [C-]

WSE 350, WOODWORKING FOR ART AND DESIGN, 3 Credits

Acquaints students with the fundamentals of making art and design objects with wood.

WSE 351, ADVANCED CAD: COMPUTER AIDED DESIGN, 3 Credits

Develop advanced techniques using industry standard CAD software as it relates to wood based product, furniture, and structural design. Build upon the skills acquired during WSE 250 CAD: COMPUTER AIDED DESIGN and learn advanced Solidworks techniques. Introduction to Rhinoceros 3D software and various parametric plugins. Lec/studio.

Prerequisite: WSE 250 with C- or better

WSE 352, CAM FOR THE CNC ROUTER AND LASER ENGRAVER, 3 Credits

Process G-code using CAM software for CNC routing operations, as well as create raster and vector drawings for laser cutting/engraving applications. Each student will work through the design process researching and conceptualizing ideas, 3D modeling designs, developing working prototypes, and fabricating a final product. Lec/lab/studio.

Prerequisite: WSE 350 with C- or better

Recommended: Introductory level CAD course or demonstrated proficiency in industry standard CAD software

WSE 385, EVALUATING SUSTAINABILITY THROUGH LIFE CYCLE ANALYSIS, 3 Credits

With increased focus on sustainability, it has become important to quantify a sustainability metric of a material, process, or a system. To that end an understanding of life cycle analysis (LCA) is needed that can be used to determine a sustainability metric. This Ecampus course presents the use of LCA to gain insights on the environmental and social impacts of the choices we make. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

WSE 392, BAMBOOLOOOZA: THE FASCINATING WORLD OF BAMBOO, 3 Credits

An exploration of the world of bamboo and its application to renewable products. This course provides an in-depth understanding of a renewable material bamboo from its native form to processed products. Additionally, this course discusses the utilization and perception of bamboo in different societies of the world. Taught via Ecampus only. (Bacc Core Course)

Attributes: CSST – Core, Synthesis, Science/Technology/Society
Available via Ecampus

WSE 399, SPECIAL TOPICS, 0-16 Credits

This course is repeatable for 16 credits.

WSE 401, RESEARCH, 1-16 Credits

Equivalent to: FP 401
This course is repeatable for 16 credits.

WSE 403, THESIS, 1-16 Credits

This course is repeatable for 16 credits.

WSE 405, READING AND CONFERENCE, 1-16 Credits

Equivalent to: FP 405
This course is repeatable for 16 credits.

WSE 406, PROJECTS, 1-16 Credits

Equivalent to: FP 406
This course is repeatable for 16 credits.

WSE 413, WOODTURNING WITH SCIENCE II, 4 Credits

An in-depth look at how character in wood (figure, spalting, knots, etc.) affects machinability and output in both functional and aesthetic turning. Students will work with a wide range of spalted wood types and figure across numerous species while working on advanced turning forms. Particular emphasis will be placed upon how figure affects grain orientation, how spalting affects density and stability, and how the challenges with character wood can be overcome without specialty tools. Class instruction will be entirely studio based. CROSSLISTED as ART 413/WSE 413.

Prerequisite: WSE 210 with C- or better and WSE 211 [C-]

Equivalent to: ART 413, FP 413
This course is repeatable for 8 credits.
WSE 414, WSE ART AND DESIGN CAPSTONE, 8 Credits
Brings together the basic collaborative design elements and technical background of each student in the creation of collaborative design projects with the intention of giving students real-world, problem-based design experience.
This course is repeatable for 16 credits.

WSE 425, TIMBER TECTONICS IN THE DIGITAL AGE, 4 Credits
An exploration of the advances in design, construction and fabrication of timber buildings. Includes experimentation with both physical and digital models and a final project, in collaboration with UO Architecture students.
Recommended: Junior standing and knowledge of CAD

WSE 430, FUNDAMENTALS OF ENGINEERING MECHANICS, 4 Credits
An introduction to fundamentals of engineering mechanics for RM students selecting Science and Engineering option. While in most aspects the course follows standard introductory mechanics courses for engineers, special attention is paid to elasticity and strength in cellular and anisotropic materials like solid wood and bio-based composites. The overall objective of this course is to provide fundamental knowledge and practical skills in the area of engineering mechanics and mechanical principles behind some of the most important methods of characterization, processing, and utilization of renewable biomaterials; commonly used today, emerging and future. Lec/lab.
Prerequisite: MTH 254 with D- or better and WSE 324 [B-]

WSE 444, STRAND-BASED COMPOSITES MANUFACTURE, 1 Credit
The strand-based composites manufacturing process uses the results of research projects and the instructor’s mill experience. All aspects of the process from wood procurement through pressing are discussed. This course will be valuable to those interested in a manufacturing career.
Available via Ecampus

WSE 450, ENTREPRENEURIAL PRODUCT DEVELOPMENT I, 3 Credits
Provides an entrepreneurial experience in product development, in which students design, produce, market, and sell a product in a business setting. Working as a team, students will design a product using renewable materials and are expected to perform and understand manufacturing techniques and processes to produce the product in limited quantities.
Prerequisite: WSE 250 with C- or better and WSE 455 [C-]

WSE 451, ENTREPRENEURIAL PRODUCT DEVELOPMENT II, 3 Credits
Provides an entrepreneurial experience in product development, in which students design, produce, market, and sell a product in a business setting. Working as a team, students will design a product using renewable materials and are expected to perform and understand manufacturing techniques and processes to produce the product in limited quantities. Lab/studio.
Prerequisite: WSE 250 with C- or better and WSE 450 [C-] and WSE 455 [C-]

WSE 453, FOREST PRODUCTS BUSINESS, 3 Credits
Provides students with the skills necessary to operate effectively in the global forest products industry. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
Recommended: ECON 201 and ECON 202

WSE 455, INDUSTRICAL MARKETING IN THE FOREST SECTOR, 3 Credits
Marketing heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating course work to the day-to-day work in business.
Equivalent to: FP 455

WSE 458, DESIGN OF WOOD STRUCTURES, 3 Credits
Study of basic wood properties and design considerations. Design of wood connectors, beams, columns, and beam columns. Introduction to plywood and glue laminated members. Design of structural diaphragms and shear walls. Taught via Ecampus only.
Prerequisite: CE 381 with C or better
Equivalent to: CE 484
Available via Ecampus

WSE 461, BIO-BASED PRODUCTS MANUFACTURING, 4 Credits
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products.
Prerequisite: WSE 210 with C- or better and WSE 321 [C-] and WSE 324 [C-]

WSE 462, ADVANCED MANUFACTURING 1, 4 Credits
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement.
Prerequisite: WSE 461 with C- or better

WSE 463, ADVANCED MANUFACTURING 2, 4 Credits
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises.
Prerequisite: WSE 462 with C- or better
WSE 465, RENEWABLE MATERIALS MANUFACTURING EXPERIENCE, 2 Credits
Learning about and visiting a number of renewable materials industrial and commercial operations representing all parts of the renewable materials value chain. The class will meet daily for one 5-day week immediately prior to the start of fall term. During the week, the students and at least one instructor will meet daily. Lectures will precede visits to industrial plants, mills and sites. At the end of the day, an instructor will participate in a debriefing session, reiterating what was learned during the day. Students will then submit a report on the day’s activities. The class includes daily travel and overnight stays.
This course is repeatable for 4 credits.

WSE 470, *FORESTS, WOOD, AND CIVILIZATION, 3 Credits
Multidisciplinary examination of issues related to the roles of forests, trees, and wood in civilization, as providers of commodities, ecosystem services, and spiritual and artistic inspiration. Issues include global supply and demand, wood ownership and political power, and perceptions and uses of forest resources in different societies. (Bacc Core Course)
Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: WSE 470H
Available via Ecampus

WSE 471, RENEWABLE MATERIALS IN BUILDING CONSTRUCTION, 3 Credits
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.

WSE 473, BIOENERGY AND ENVIRONMENTAL IMPACT, 3 Credits
Explores world’s use of woody biomass fuels, their potential to contribute to our region’s energy supply, and conversion technologies such as direct combustion, pyrolysis, and thermochemical modification. Also examines emissions and other environmental impacts of utilizing renewable materials to generate energy and manufacture products.
Prerequisite: (MTH 111 with D- or better or MTH 112 with D- or better or MTH 231 with D- or better or MTH 241 with D- or better or MTH 245 with D- or better or MTH 251 with D- or better or MTH 251H with D- or better) and (CH 122 [D-] or CH 222 [D-] or CH 232 [D-] or CH 232H [D-])

WSE 479, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 99 credits.

WSE 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: FP 501
This course is repeatable for 16 credits.

WSE 503, THESIS, 1-16 Credits
Equivalent to: FP 503
This course is repeatable for 999 credits.

WSE 505, READING AND CONFERENCE, 1-16 Credits
Equivalent to: FP 505
This course is repeatable for 16 credits.

WSE 506, PROJECTS, 1-16 Credits
Equivalent to: FP 506
This course is repeatable for 16 credits.

WSE 507, SEMINAR, 1 Credit
Section 1: Beginning Seminar. Section 2: Seminar. Graded P/N.
Equivalent to: FP 507
This course is repeatable for 99 credits.

WSE 513, WOODTURNING WITH SCIENCE II, 4 Credits
An in-depth look at how character in wood (figure, spalting, knots, etc.) affects machinability and output in both functional and aesthetic turning. Students will work with a wide range of spalted wood types and figure across numerous species while working on advanced turning forms. Particular emphasis will be placed upon how figure affects grain orientation, how spalting affects density and stability, and how the challenges with character wood can be overcome without specialty tools. Class instruction will be entirely studio based.
This course is repeatable for 12 credits.
Recommended: WSE 210 and WSE 211

WSE 514, WSE MASTER OF DESIGN CAPSTONE, 3 Credits
Focuses on preparing MDes students for displaying and marketing their work in competitive studio settings. Become familiar with finding a venue, advertising, designing a space, tracking lighting, hanging or displaying work, administering a show opening, and publicizing work using an artist/designer statement, as well as producing a catalog. Assessment will be via a three party critique of work, composed of one artist, one designer, and one scientist. Assessment will relate to the student’s ability to defend critique, put together a cohesive show, and create an appropriate body of work.
Prerequisite: WSE 522 with C or better

WSE 516, INTRODUCTION TO SCULPTURAL WOODTURNING, 4 Credits
The development of studio / sculptural woodturning has a unique history, and involves a cluster of specialized skills. This course blends historic woodturning practices with modern approaches and aesthetics to bring an understanding of wood science into this very specialized field of woodturning.
Prerequisite: WSE 513 with B or better and WSE 514 [B]
This course is repeatable for 12 credits.

WSE 520, THE GLOBAL CONTEXT OF THE FOREST SECTOR, 3 Credits
Provides a broad knowledge base of business and marketing practices in the global forest industry. Includes a module on research ethics that fulfills OSU Graduate School requirements.
WSE 521, WOOD SCIENCE I, 4 Credits
A comprehensive overview and integration of wood anatomy, wood physics, wood chemistry and wood mechanics; global contemporary issues impacting the wood and fiber sector; integration of basic wood sciences to understand the complex relationships between environment and wood material properties, and the influence of both on the use of wood-based materials.

WSE 522, WOOD SCIENCE II, 4 Credits
Continuation of the comprehensive overview and integration of wood and fiber anatomy, physics, chemistry, and mechanics; integration of basic wood science to understand relationships with wood and fiber properties and their impact on final use. Focus on biological, chemical and physical degradation of wood; adhesion; and physical and engineering properties of wood. Lec/lab.

WSE 525, TIMBER TECTONICS IN THE DIGITAL AGE, 4 Credits
An exploration of the advances in design, construction and fabrication of timber buildings. Includes experimentation with both physical and digital models and a final project, in collaboration with UO Architecture students. Lec/lab/studio.
Recommended: Knowledge of CAD

WSE 526, STRUCTURAL HEALTH ASSESSMENT/MONITORING OF TIMBER BUILDINGS, 3 Credits
Holistic approaches for the evaluation of the performance of timber systems and structures in a building. Learn about the tools available to experts for different analysis purposes, and to understand how data acquired from different techniques can be analyzed and used to inform building management and maintenance, fabrication and construction practices, and future design.
Recommended: WSE 210 and WSE 321 and WSE 324

WSE 530, POLYMER COMPOSITES, 3 Credits
A comprehensive survey of the material and mechanical properties of polymer-based composite materials including failure mechanisms, interfacial and nanoscale effects, and transport and thermal properties.
Recommended: CHE 545 and multivariable calculus

WSE 535, POLYMER SYNTHESIS AND STRUCTURE, 3 Credits
A comprehensive overview of various synthetic methods for various synthetic polymers; structures of various synthetic and natural polymers.
Recommended: 3 credits of undergraduate organic chemistry or CH 331 or CH 334

WSE 555, INDUSTRIAL MARKETING IN THE FOREST SECTOR, 3 Credits
Marketing relies heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating coursework to the day-to-day work in business.
Equivalent to: FP 555

WSE 558, WOOD DESIGN, 4 Credits
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. CROSSLISTED as CE 584/WSE 558.
Equivalent to: CE 584
Recommended: CE 383 or CE 481 with minimum grade of C

WSE 561, BIO-BASED PRODUCTS MANUFACTURING, 4 Credits
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products.
Recommended: WSE 210 and WSE 321 and WSE 324

WSE 562, ADVANCED MANUFACTURING 1, 4 Credits
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement.
Recommended: WSE 461

WSE 563, ADVANCED MANUFACTURING 2, 4 Credits
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises.
Recommended: WSE 462

WSE 571, RENEWABLE MATERIALS IN BUILDING CONSTRUCTION, 3 Credits
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.

WSE 530, POLYMER COMPOSITES, 3 Credits
A comprehensive survey of the material and mechanical properties of polymer-based composite materials including failure mechanisms, interfacial and nanoscale effects, and transport and thermal properties.
Recommended: CHE 545 and multivariable calculus

WSE 555, INDUSTRIAL MARKETING IN THE FOREST SECTOR, 3 Credits
Marketing relies heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating coursework to the day-to-day work in business.
Equivalent to: FP 555

WSE 558, WOOD DESIGN, 4 Credits
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. CROSSLISTED as CE 584/WSE 558.
Equivalent to: CE 584
Recommended: CE 383 or CE 481 with minimum grade of C

WSE 561, BIO-BASED PRODUCTS MANUFACTURING, 4 Credits
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products.
Recommended: WSE 210 and WSE 321 and WSE 324

WSE 562, ADVANCED MANUFACTURING 1, 4 Credits
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement.
Recommended: WSE 461

WSE 563, ADVANCED MANUFACTURING 2, 4 Credits
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises.
Recommended: WSE 462

WSE 571, RENEWABLE MATERIALS IN BUILDING CONSTRUCTION, 3 Credits
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.

WSE 530, POLYMER COMPOSITES, 3 Credits
A comprehensive survey of the material and mechanical properties of polymer-based composite materials including failure mechanisms, interfacial and nanoscale effects, and transport and thermal properties.
Recommended: CHE 545 and multivariable calculus

WSE 555, INDUSTRIAL MARKETING IN THE FOREST SECTOR, 3 Credits
Marketing relies heavily on effective communication, so this course concentrates on written and oral communication. The course will arm students with the skills necessary to apply basic concepts of marketing of forest products. Application will be highlighted through examples and industry speakers relating coursework to the day-to-day work in business.
Equivalent to: FP 555

WSE 558, WOOD DESIGN, 4 Credits
Study of basic wood properties and design considerations. Design and behavior of wood connectors, beams, columns and beam columns. Introduction to plywood and glued laminated members. Analysis and design of structural diaphragms and shear walls. Lec/lab. CROSSLISTED as CE 584/WSE 558.
Equivalent to: CE 584
Recommended: CE 383 or CE 481 with minimum grade of C

WSE 561, BIO-BASED PRODUCTS MANUFACTURING, 4 Credits
First of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include the major processing steps for the conversion of raw materials such as wood, bamboo, hemp, and cereal straws into products.
Recommended: WSE 210 and WSE 321 and WSE 324

WSE 562, ADVANCED MANUFACTURING 1, 4 Credits
Second of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process design elements, quality control, and approaches to continuous process improvement.
Recommended: WSE 461

WSE 563, ADVANCED MANUFACTURING 2, 4 Credits
Third of a 3-term series exploring technologies and management practices associated with manufacturing products from wood and other renewable materials. Subjects covered include process control, optimization, automation, and contemporary topics such as Big Data and the Internet of Things and the potential impacts of the trends on manufacturing enterprises.
Recommended: WSE 462

WSE 571, RENEWABLE MATERIALS IN BUILDING CONSTRUCTION, 3 Credits
Building construction is a major application of renewable materials, primarily wood. This course explores material selection options, applications, and performance characteristics. Residential construction is emphasized, but non-residential construction applications will also be discussed. Concepts and interpretation of life cycle assessment are introduced.
WSE 573, BIOENERGY AND ENVIRONMENTAL IMPACT, 3 Credits
Explores world's use of woody biomass fuels, their potential to contribute to our region's energy supply, and conversion technologies such as direct combustion, pyrolysis, and thermochemical modification. Also examines emissions and other environmental impacts of utilizing renewable materials to generate energy and manufacture products. Recommended: (MTH 111 or MTH 112 or MTH 241 or MTH 245 or MTH 251 or MTH 251H) and (CH 122 or CH 222)

WSE 592, ADVANCED WOOD DESIGN, 4 Credits
Study of advanced concepts in wood properties and design. Design and analysis of specialty wood connectors. Design of wood members for adverse conditions including fire design. Common failure mechanisms and forensic engineering concepts. Design for durability. Lec/lab. Recommended: Understanding of basic concepts in mechanics and timber design

WSE 599, SPECIAL TOPICS, 0-16 Credits
This course is repeatable for 99 credits.

WSE 601, RESEARCH AND SCHOLARSHIP, 1-16 Credits
Equivalent to: FP 601
This course is repeatable for 16 credits.

WSE 603, THESIS, 1-16 Credits
Equivalent to: FP 603
This course is repeatable for 999 credits.

WSE 605, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WSE 606, PROJECTS, 1-16 Credits
Equivalent to: FP 606
This course is repeatable for 16 credits.

WSE 607, SEMINAR, 1 Credit
Section 1: Beginning Seminar. Section 2: Graduate Seminar. Equivalent to: FP 607
This course is repeatable for 99 credits.

WSE 699, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

World Languages and Cultures (WLC)

WLC 159, *LANGUAGE, RACE AND RACISM IN THE US: AN INTRODUCTION, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed notions. CROSSLISTED as ANTH 159/ES 159/WLC 159. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
Equivalent to: ANTH 159, ES 159

WLC 221H, *MASTERPIECES OF GERMAN CINEMA, 3 Credits
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: WLC 221

WLC 222, *WOMEN IN ITALIAN CINEMA, 3 Credits
An exploration of filmic portrayals of women as participants in social, economic and political life in Italy. Examines Italian cinema as a reflection of Italian culture. Focuses on women as protagonists, symbolic figures and filmmakers. Analysis will be presented through a variety of historical, critical and theoretical approaches. Taught in English. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts

WLC 230, *FRANCE TODAY: CULTURES WITHIN AND BEYOND ITS BORDERS, 3 Credits
An exploratory study of French culture and society since 1945. Topics include: decolonization, immigration, Francophone intellectual currents, France’s European vocation, and social conflict today. Conducted in English. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: FR 270, FR 270H, WLC 230H
Available via Ecampus

WLC 230H, *FRANCE TODAY: CULTURES WITHIN AND BEYOND ITS BORDERS, 3 Credits
An exploratory study of French culture and society since 1945. Topics include: decolonization, immigration, Francophone intellectual currents, France’s European vocation, and social conflict today. Conducted in English. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: FR 230, FR 230H, WLC 230

WLC 231, *GERMAN DICTATORSHIPS: NAZIS AND COMMUNISTS, 3 Credits
Introduction to the two best-known dictatorships in German society, National Socialism of the Third Reich from 1933-1945 and Socialism in the German Democratic Republic from 1949-1989 via the study of visual media (feature films, documentaries, newsreels, etc.) and other primary and secondary sources. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: GER 231, GER 231H, WLC 231H
WLC 231H, *GERMAN DICTATORSHIPS: NAZIS AND COMMUNISTS, 3 Credits
Introduction to the two best-known dictatorships in German society, National Socialism of the Third Reich from 1933-1945 and Socialism in the German Democratic Republic from 1949-1989 via the study of visual media (feature films, documentaries, newsreels, etc.) and other primary and secondary sources. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture; HNRS – Honors Course Designator
Equivalent to: GER 231H

WLC 232, *INTRODUCTION TO JEWISH CULTURE, 3 Credits
An overview of Jewish culture from its origins to the present day. Students will compare and contrast the lifestyles, ideologies, religious and cultural practices of Jews living in Israel and the United States; two divergent cultures that developed from similar roots. Taught in English. Taught via Ecampus only. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: HEBR 231

WLC 233, *RUSSIAN CULTURE I, 3 Credits
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: RUS 231

WLC 234, *RUSSIAN CULTURE II, 3 Credits
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: RUS 232

WLC 235, *RUSSIAN CULTURE III, 3 Credits
Introduction to basic features of Russian culture originating in the past and continuing into the present. Aspects of history, politics, economics, geography, art, music, literature, and everyday life. Compares Russian culture with Western European and American culture. WLC 233: Old Russia; WLC 234: 19th Century; WLC 235: 20th Century. Taught in English. (H) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; CPWC – Core, Pers, West Culture; LACH – Liberal Arts Humanities Core
Equivalent to: RUS 233

WLC 241, *GRIMMS’ FAIRY TALES, 4 Credits
We will read a selection of the most popular Grimms’ fairy tales and consider why they have remained so popular. What is it about fairy tales that has made them such a lasting source of creative inspiration into our time? Students will learn to understand and critique fairy tales and their role in Western cultures through analysis of the tales and creative adaptation of a tale for a modern audience. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: GER 241

WLC 261, *MASTERPIECES GERMAN CINEMA, 3 Credits
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts
Equivalent to: GER 261, GER 261H, WLC 261H

WLC 261H, *MASTERPIECES GERMAN CINEMA, 3 Credits
An introduction to the serious study of German cinema, 1920 to present. Class lectures discussing key works of German cinema will offer a variety of historical, critical and theoretical approaches. Weekly screenings of important films accompany the lectures. Taught in English. Film fee will be required. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; HNRS – Honors Course Designator
Equivalent to: GER 261, GER 261H, WLC 261H

WLC 301, *INTRODUCTION TO WORLD LANGUAGE AND CULTURE STUDIES, 4 Credits
Addresses the structure, histories, and cultures associated with world languages and presents skills for learning languages more effectively. Includes related topics such as globalization, colonialism, and language justice; language policy, linguistic diversity, and language death; immigration and migration; race and racism. This is a required course in the WLC major in the Literacies thematic area. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

WLC 320, *FRANCOPHONE CULTURES IN FILM, 3-9 Credits
An exploration of the different cultures of France and the Francophone world through film. Students will delve into the heart of these societies and discover their socio-historical, political, economic and cultural context. Students’ analytical and critical skills will be thoroughly solicited through various research and writing activities. Taught in English. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity
Equivalent to: FR 329, FR 329H, WLC 320H
This course is repeatable for 9 credits.
Available via Ecampus
WLC 320H, *FRANCOPHONE CULTURES IN FILM, 3-9 Credits
An exploration of the different cultures of France and the Francophone world through film. Students will delve into the heart of these societies and discover their socio-historical, political, economic and cultural context. Students' analytical and critical skills will be thoroughly solicited through various research and writing activities. Taught in English. (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; HNRS – Honors Course Designator
Equivalent to: FR 329, FR 329H, WLC 320
This course is repeatable for 9 credits.

WLC 321, *MODERN SPAIN THROUGH SPANISH CINEMA, 3 Credits
Examines the history of modern Spain and its cinematography via the study of key Spanish films and cineastes in the twentieth and twenty-first centuries. (Bacc Core Course)
Attributes: CPLA – Core, Pers, Lit and Arts; CPWC – Core, Pers, West Culture
Equivalent to: SPAN 361

WLC 331, *CHINESE CULTURE I, 3 Credits
Introduction to basic features of Chinese culture from ancient times to the 9th century. Topics include philosophy and religion, the Chinese language, literature and the arts, science and technology, government, family and gender, social and economic conditions, contacts with the outside world. Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 331
Available via Ecampus

WLC 332, *CHINESE CULTURE II, 3 Credits
Introduction to basic features of Chinese culture from the 10th through the 19th centuries. Topics include philosophy and religion, literature and the arts, science and technology, government, family and gender, social and economic conditions, daily life, and contacts with the outside world. Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 332
Available via Ecampus

WLC 333, *CHINESE CULTURE III, 3 Credits
Survey of important developments of Chinese society and culture from the early 20th century to the present. Topics include wars and revolutions, economic, political, and social conditions, the new culture movement, changing family structure and women’s status, relationships within greater China (Mainland China, Taiwan, and Hong Kong). Taught in English. Open to all students. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: CHN 333

WLC 334, FASHION AND DESIGN IN THE FRANCOPHONE WORLD, 3 Credits
A study of the world of French fashion and design: origins and history, what’s new and exciting in French fashion today and attitudes about fashion and beauty of design that have given the French the inside track on prestige in this arena for centuries.
Equivalent to: FR 338
Available via Ecampus

WLC 335, *JAPANESE CULTURE I, 3 Credits
An introductory survey of Japanese history, arts, literature society, and traditions from the ancient to the mid-19th century. Taught in English. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 331
Available via Ecampus

WLC 336, *JAPANESE CULTURE II, 3 Credits
An introductory survey of Japanese history, arts, literature society, and traditions from the ancient to the mid-19th century. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 332
Available via Ecampus

WLC 337, *JAPANESE CULTURE III, 3 Credits
A survey of Japan from the mid-19th century to the present in areas including arts, literature, business, education, society, politics, and foreign relations. Taught in English. May not be offered every year. (NC) (Bacc Core Course)
Attributes: CPCD – Core, Pers, Cult Diversity; LACN – Liberal Arts Non-Western Core
Equivalent to: JPN 333
Available via Ecampus

WLC 338, *DEAF CULTURE, 4 Credits
Introduction to Deaf culture in the United States. Includes discussion and analysis of issues relevant to Deaf culture, including politics, language, education, art, literature, media representations, and contemporary life in the Deaf community. (Bacc Core Course)
Attributes: CPSI – Core, Pers, Soc Proc & Inst

WLC 339, *DEAF HISTORY, 4 Credits
This course covers the history of Deaf people and the Deaf community in the United States. It examines the historical and contemporary impacts of US social, political, legal, educational, and economic systems on the Deaf experience. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination
WLC 360, INTERNATIONAL FILM FESTIVAL, 3 Credits
Critical study of a selection of films screened at the Oregon State University’s International Film Festival. Topics include acting, sound, special effects, cinematography. CROSSLISTED as FILM 360/WLC 360.
Equivalent to: FILM 360
This course is repeatable for 9 credits.
Recommended: Sophomore standing or higher.

WLC 361, (RE)FRAMING RACE THROUGH FILM PRODUCTION, 4 Credits
A critical engagement of ways race and ethnicity are treated in nonfiction short film as students produce their own short film as a means of challenging dominant racial representations and narratives. Requires a basic understanding of ways that notions about race and ethnicity combine with ideologies about gender, sexuality, ability, class, etc. to perpetuate unjust systems and institutions. CROSSLISTED as ES 361/QS 361/WGSS 361/WLC 361.
Equivalent to: ES 361, QS 361, WGSS 361
Recommended: Prior filmmaking experience

WLC 373, APPROACHES TO SOCIAL JUSTICE, 3 Credits
Study various ways of thinking about social justice and evaluate these in case studies and current events. As a basis for the Social Justice minor, write a research paper on the theoretical and practical aspects of a social justice issue. CROSSLISTED as ANTH 373/ES 373/WGSS 373/WLC 373.
Equivalent to: ANTH 373, ES 373, WGSS 373

WLC 399, SPECIAL TOPICS, 1-16 Credits
Graded P/N.
This course is repeatable for 16 credits.

WLC 410, WORLD LANGUAGE INTERNSHIP, 1-12 Credits
Opportunities for juniors and seniors to apply skills in world language and knowledge of world culture at selected government, industry, or business placement sites. Allows students to prepare for transition from academic to work world. Interns are supervised and evaluated by employer and faculty coordinator. See also Oregon International Internships in the catalog section on International Programs. Graded P/N.
Equivalent to: FLL 410
This course is repeatable for 16 credits.
Recommended: Completion of 90 credits with 2.75 GPA or higher; completion of the third-year language course in one foreign language with 3.00 GPA or better, with at least three terms of study in the OSU School of Language, Culture, and Society.

WLC 429H, *FRENCH SOCIETY THROUGH ITS CINEMA, 3 Credits
An examination of French society through its own cinema. Via the screening and study of films from the various periods of French history, students will delve into the heart of French society and will discover the socio-historical, political, economic and cultural context. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: FR 429, FR 429H, WLC 429H
Available via Ecampus

WLC 429H, *FRENCH SOCIETY THROUGH ITS CINEMA, 3 Credits
An examination of French society through its own cinema. Via the screening and study of films from the various periods of French history, students will delve into the heart of French society and will discover the socio-historical, political, economic and cultural context. (Bacc Core Course)
Attributes: CPWC – Core, Pers, West Culture
Equivalent to: FR 429, FR 429H, WLC 429H
Available via Ecampus

WLC 459, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas—as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ANTH 459, ES 459

WLC 473, COMMUNITY-BASED LEARNING, 3 Credits
A service-learning course that allows students to apply the theory and skills acquired in advanced linguistics, culture, and literature courses to specific needs of populations that speak a language taught in the department. It combines 80 hours of community-supervised fieldwork with an online academic component consisting of assigned readings, independent research, and ongoing reflective writing. Each student is expected to make significant contributions toward the completion of a deliverable product that benefits a native speaker community. Pre-advanced oral proficiency required.
This course is repeatable for 6 credits.

WLC 483, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, ES 483, PS 483

WLC 483, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 483, ES 483, PS 483
WLC 485, CAPSTONE IN SOCIAL JUSTICE, 2 Credits
Working with an advisor from the Social Justice minor, conduct research to synthesize and extend analysis of a particular social justice issue, building on three previous papers or projects. Results are presented in a 10-15 page paper and a public poster, presentation or website. CROSSLISTED as ANTH 485/ES 485/WGSS 485/WLC 485.
Prerequisite: (ANTH 373 with D- or better or ES 373 with D- or better or WGSS 373 with D- or better or WLC 373 with D- or better) and (ANTH 410 [D-] or ES 410 [D-] or WGSS 410 [D-] or WLC 410 [D-])
Equivalent to: ANTH 485, ES 485, WGSS 485
This course is repeatable for 4 credits.

WLC 499, SPECIAL TOPICS, 1-16 Credits
Equivalent to: WLC 499H
This course is repeatable for 16 credits.

WLC 499H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: WLC 499
This course is repeatable for 16 credits.

WLC 510, WORLD LANGUAGE INTERNSHIP, 1-12 Credits
Opportunities for juniors and seniors to apply skills in world language and knowledge of world culture at selected government, industry, or business placement sites. Allows students to prepare for transition from the academic world to the work world. Interns are supervised and evaluated by the employer and a faculty coordinator. See also Oregon International Internships in the catalog section on International Programs. Graded P/N.
Equivalent to: FLL 510
This course is repeatable for 16 credits.
Recommended: Completion of 90 credits with 2.75 GPA or higher; completion of the third-year language course in one foreign language with 3.00 GPA or better, with at least three terms of study in the OSU School of Language, Culture, and Society.

WLC 559, LANGUAGE, RACE AND RACISM IN THE U.S.: ADVANCED STUDY, 4 Credits
Unpack language, race and racism—as well as the intersections between those ideas— as cornerstones to understanding identity and society as inherently socially constructed ideas. Better understand how racism is produced and reproduced in talk and text (this will include symbols and signs), especially in the context of the denial of racism. Focuses on the language of racism, and more specifically, types of discourse that construct Whiteness as dominant over Color. CROSSLISTED as ANTH 459/ES 459/WLC 459 and ANTH 559/ES 559/WLC 559.
Equivalent to: ANTH 559, ES 559

WLC 583, CUBAN CULTURE, POLITICS AND SOCIETY, 4 Credits
One of two courses that comprise the Cuba Study Abroad Program. It introduces students to Cuban culture, politics (and particularly Cuba-U.S. relations during and after the Revolution) and arts via a combination of lectures/lessons led by invited specialists in their fields, readings, films and student activities. Students will learn about a variety of topics including migration, agriculture, health care, education, economics, religion/spirituality, gender, race, and the arts (literature, music and other performance). Given the interdisciplinary approach to this course, students will also be able to focus on other topics of interest to them/ their program of study. CROSSLISTED as ES 483/PS 483/WLC 483 and ES 583/PS 583/WLC 583.
Equivalent to: ENG 583, ES 583, PS 583

WLC 599, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

Written English (WR)

WR 115, INTRODUCTION TO EXPOSITORY WRITING, 3 Credits
Introduction to rhetorical concepts and writing strategies necessary for university level written composition. Includes substantial discussion of grammar, punctuation, and usage conventions of standard written English. Does not satisfy WR 121 requirement. Graded P/N.
This course is repeatable for 6 credits.

WR 121, *ENGLISH COMPOSITION, 3 Credits
Introduction to critical thinking, the writing process, and the forms of expository writing. Intensive writing practice, with an emphasis on revision. The term in which the student takes the course is determined alphabetically. (Bacc Core Course)
Attributes: CSW1 – Core, Skills, WR I
Equivalent to: WR 121H
Available via Ecampus

WR 121H, *ENGLISH COMPOSITION, 3 Credits
Introduction to critical thinking, the writing process, and the forms of expository writing. Intensive writing practice, with an emphasis on revision. The term in which the student takes the course is determined alphabetically. (Bacc Core Course)
Attributes: CSW1 – Core, Skills, WR I; HNRS – Honors Course Designator
Equivalent to: WR 121
WR 130, FUNDAMENTALS OF GRAMMAR, SYNTAX, AND SENTENCE BUILDING, 1 Credit
Provides opportunities to improve writing at the sentence level. Focuses on the fundamental elements of the sentence (grammar), the principles and rules of sentence structure (syntax), and techniques for writing meaningful, compelling sentences (sentence building). WR 130 is a hybrid course; students will use online modules, activities, and quizzes to advance understanding of grammar fundamentals and to practice writing, editing, and revising sentences. In-person meetings will emphasize student questions and applying lessons to other academic writing projects. Graded P/N.
Available via Ecampus

WR 199, SPECIAL STUDIES, 1-16 Credits
This course is repeatable for 16 credits.

WR 201, *WRITING FOR MEDIA, 3 Credits
Introduction to newspaper style. Introduction to reporting. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Equivalent to: LS 201
Recommended: Grade B or higher in WR 121 or WR 121H and 30 wpm typing speed.
Available via Ecampus

WR 214, *WRITING IN BUSINESS, 3 Credits
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in business and industry. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Available via Ecampus

WR 220, *STORIES OF THE US-MEXICO BORDER, 4 Credits
Analyzes stories from and about the US-Mexico border. Explores and challenges conventional ideas about undocumented immigration in the US and considers immigration as a complex phenomenon with various causes. Examines historical and current causes of migration across the US-Mexico border and the difficulties experienced on the migrant trail. Analyzes discriminatory practices of dehumanization, deportation, and detention and reveals immigrant resistance to oppression. (Bacc Core Course)
Attributes: CPDP – Core, Perspective, Difference/Power/Discrimination

WR 222, *ENGLISH COMPOSITION, 3 Credits
Continued practice in expository writing with an emphasis on argumentation and research. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Available via Ecampus

WR 224, *INTRODUCTION TO FICTION WRITING, 3 Credits
Discussion workshop. Student work examined in context of contemporary published work. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 224H
Available via Ecampus

WR 224H, *INTRODUCTION TO FICTION WRITING, 3 Credits
Discussion workshop. Student work examined in context of contemporary published work. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 224
Available via Ecampus

WR 228, *WRITING ABROAD, 3 Credits
Prepares students to compose thoughtful, nuanced, and journalistically-grounded writing for a Web-based audience based on experiences studying abroad. By reading deeply in the lifestyle and creative nonfiction genres, students will develop strategies for communicating their observations effectively. Instruction follows an editorial model, allowing students to practice the role of editor, freelancer, and designer, all with an eye towards publishing in a course-affiliated online magazine. To achieve success in this course, students must demonstrate knowledge of writing techniques appropriate to the genre and must demonstrate editorial skill. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better
Available via Ecampus

WR 230, *ESSENTIALS OF ENGLISH GRAMMAR, 3 Credits
Introduces students to the structure of sentences with a focus on beginning grammar. Students in WR 230 will learn the differences between clauses and phrases, how to recognize subjects and predicates in a variety of sentence types, how to avoid the most common grammatical errors in student writing, and how to use punctuation correctly--and with intention. Students will complete readings, watch videos, participate in discussions, and demonstrate understanding through weekly quizzes. They will also challenge themselves with numerous writing activities, and complete writing analysis projects. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Available via Ecampus
WR 239, INTRODUCTION TO WRITING FICTION AND CREATIVE NONFICTION, 3 Credits
Explores how to write good stories, whether real or imagined. Students will read and write in both genres, identifying the elements that make stories more vivid, more human, and more true. Students will write informal pieces and one longer work in each genre, and will workshop one story or essay. Taught via Ecampus only.

WR 240, *INTRODUCTION TO NONFICTION WRITING, 3 Credits
Discussion workshop. Student work examined in context of contemporary published work. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
This course is repeatable for 9 credits.
Available via Ecampus

WR 241, *INTRODUCTION TO POETRY WRITING, 3 Credits
Discussion workshop. Rudiments of mechanics and some background in development of modern poetry. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Available via Ecampus

WR 250, *PODCAST STORYTELLING, 3 Credits
Focuses on the skills needed to write, record, and produce informative and engaging podcasts. Students develop themes, write scripts, conduct interviews, and learn to make thoughtful editing decisions in the production of audio podcasts.
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better

WR 301, *PUBLISHING AND EDITING, 3 Credits
Invites students to learn about editing and copyediting techniques, broader editorial decisions, and current publishing platforms. Students will learn about scholarly publishing in the U.S. and about how social media and public relations fit into this world. Participants will also explore editing within a rhetorical dimension, considering purpose and audience, as well as conventions of grammar, mechanics, and usage. Students will review a scholarly article reporting on research in editing and/or publishing, as well as develop a publication-ready work of their own. As part of a final project, the class will work toward a collaborative publication. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with D- or better
Available via Ecampus

WR 303, *WRITING FOR THE WEB, 3 Credits
Concerns the production of instructive, informative, and rhetorically savvy writing for Web-based locations and applications. Helps people find information, get things done, convey their opinions, build communities, and collaborate on complex projects. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with D- or better or WR 121H with D- or better
Available via Ecampus

WR 323, *ENGLISH COMPOSITION, 3 Credits
Continued practice in writing with an emphasis on the elements of style: diction, tone, precision and economy, emphasis, figurative language. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Available via Ecampus

WR 324, *SHORT STORY WRITING, 4 Credits
Study and writing of the short story. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 224 with D- or better
This course is repeatable for 8 credits.
Available via Ecampus

WR 327, *TECHNICAL WRITING, 3 Credits
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 327H
Available via Ecampus

WR 327H, *TECHNICAL WRITING, 3 Credits
Continued practice in writing with an emphasis on the rhetorical and critical thinking demands of writers in scientific and technological fields. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Equivalent to: WR 327
Available via Ecampus

WR 329, WRITING FOR LAW AND LAW SCHOOL, 3 Credits
Improves the rhetorical and structural sophistication of persuasive writing, and gives practice in writing the law application essay. Provides a thorough review of logical, grammatical, usage, and sentence-level errors.
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
WR 330, *UNDERSTANDING GRAMMAR, 3 Credits
Advanced study of traditional grammatical forms and conventional grammatical terms with emphasis on the assumptions underlying the structure of traditional grammar. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better or WR 121H with C- or better or Exam for Waiver - WR 121 with a score of 1
Available via Ecampus

WR 340, CREATIVE NONFICTION WRITING, 4 Credits
Intermediate study and writing of creative nonfiction.
Attributes: LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 240 with D- or better
This course is repeatable for 8 credits.
Available via Ecampus

WR 341, *POETRY WRITING, 4 Credits
Study and writing of verse. (FA) (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; LACF – Liberal Arts Fine Arts Core
Prerequisite: WR 241 with D- or better
This course is repeatable for 8 credits.

WR 353, WRITING ABOUT PLACES, 3 Credits
Utilizing personal experience, reading, and research, students, study, discuss, and practice the conventions of writing about place far and near, global and local, for various audiences and in a range of formats.
Prerequisite: WR 121 with D- or better
Available via Ecampus

WR 362, *SCIENCE WRITING, 3 Credits
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
Equivalent to: WR 362H
Available via Ecampus

WR 362H, *SCIENCE WRITING, 3 Credits
Students learn and practice the conventions for writing scientific material for a variety of audiences. Involves writing and research assignments, multimedia presentations, lecture, and in-class and online activities. (Bacc Core Course)
Attributes: CSW2 – Core, Skills, WR II; HNRS – Honors Course Designator
Prerequisite: WR 121 with C- or better or WR 121H with C- or better
Equivalent to: WR 362

WR 383, FOOD WRITING, 4 Credits
Students will write about food and food issues for a variety of audiences, including print and digital, adapting their texts to become increasingly sophisticated critical thinkers and writers who can shape material effectively. Will also address food science and food studies from a historical and cultural background.
Prerequisite: (WR 121 with D- or better or WR 121H with D- or better) and (HC 199 [D-] or PHL 121 [D-] or WR 201 [D-] or WR 214 [D-] or WR 222 [D-] or WR 224 [D-] or WR 241 [D-] or WR 322 [D-] or WR 323 [D-] or WR 324 [D-] or WR 327 [D-] or WR 330 [D-] or WR 341 [D-] or WR 362 [D-])
Available via Ecampus

WR 399, SPECIAL TOPICS, 1-16 Credits
Equivalent to: WR 399H
This course is repeatable for 16 credits.

WR 399H, SPECIAL TOPICS, 1-16 Credits
Attributes: HNRS – Honors Course Designator
Equivalent to: WR 399
This course is repeatable for 16 credits.

WR 401, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WR 402, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

WR 403, THESIS, 1-16 Credits
This course is repeatable for 16 credits.

WR 404, WRITING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WR 405, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WR 406, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WR 407, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.
Available via Ecampus

WR 408, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WR 411, ^THE TEACHING OF WRITING, 4 Credits
Pedagogy and theory in composition; prepares teachers (secondary through college) in writing process, assignment design, evaluation, and grammar. Also focuses on students’ own writing. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC
WR 414, ADVERTISING AND PUBLIC RELATIONS WRITING, 4 Credits
Writing news releases, annual reports, brochures, newsletters, and other PR materials. Writing advertising copy.
**Prerequisite:** WR 121 with B or better or WR 121H with B or better
Available via Ecampus

WR 416, ADVANCED COMPOSITION, 4 Credits
The development of style and voice in both the personal and the academic essay.
**Equivalent to:** WR 416H
This course is repeatable for 8 credits.

WR 420, STUDIES IN WRITING, 4 Credits
Selected topics in rhetoric and composition.
This course is repeatable for 8 credits.
Available via Ecampus

WR 424, ADVANCED FICTION WRITING, 4 Credits
Workshop. (FA)
**Attributes:** LACF – Liberal Arts Fine Arts Core
**Prerequisite:** WR 324 with D- or better
This course is repeatable for 8 credits.
Available via Ecampus

WR 435, SCIENTIFIC, TECHNICAL, & PROFESSIONAL COMMUNICATION CAPSTONE, 1 Credit
Complete a portfolio comprised of material generated throughout previous courses in the Certificate in Scientific, Technical, and Professional Communication. CROSSTLISTED as COMM 435/WR 435.
**Equivalent to:** COMM 435
**Recommended:** Completion of 18 credits towards the Scientific, Technical, and Professional Communication Certificate

WR 440, ADVANCED CREATIVE NONFICTION WRITING, 4-8 Credits
An advanced course in creative nonfiction writing, centered around workshops of polished material.
**Prerequisite:** WR 340 with D- or better
This course is repeatable for 8 credits.

WR 441, ADVANCED POETRY WRITING, 4 Credits
Advanced poetry workshop. (FA)
**Attributes:** LACF – Liberal Arts Fine Arts Core
**Prerequisite:** WR 341 with D- or better
This course is repeatable for 8 credits.

WR 448, MAGAZINE ARTICLE WRITING, 4 Credits
Writing the magazine article. Analyzing markets and writing query and cover letters, marketing manuscripts to magazines. Interviewing and researching.

WR 449, CRITICAL REVIEWING, 4 Credits
Writing critical reviews of books, television programs, movies, plays, and restaurants for newspapers and magazines. The role of criticism in popular culture.
Available via Ecampus

WR 462, ENVIRONMENTAL WRITING, 4 Credits
Writing about environmental topics from multiple perspectives. Includes science journalism, research and writing on current scientific issues and controversies, and theories of rhetoric and environmentalism. (Writing Intensive Course)
**Attributes:** CWIC – Core, Skills, WIC
**Prerequisite:** WR 121 with C- or better or WR 121H with C- or better
This course is repeatable for 12 credits.

WR 466, ADVANCED TECHNICAL WRITING, 4 Credits
Introduces the texts, contexts, and concepts important to the practice of professional communication in organizational contexts, addressing practical writing skills, rhetoric, and ethics. Course readings concern what professional technical writers do and what theories govern their actions, bridging the gap between real-world problems and academic research. Organized with an eye towards future action and solving real-world writing and communication problems with empirical research, usability testing, and information design.
**Prerequisite:** WR 121 with D- or better or WR 121H with D- or better

WR 475, RHETORICS OF RACE, 4 Credits
By exploring the interrelated concepts of race, racialization, and racism, Rhetorics of Race problematizes race as a taken-for-granted phenomenon. Through reading, writing, and discussion, class participants study racial formations as historically specific and analyze contemporary forms of racism in the US. Readings and discussion pay close attention to how rhetoric and discourse have the power to reproduce and challenge white supremacy and race-based oppressions. Emphasizing the intersectionality of oppression—that racism necessarily takes place at intersections with other forms of subordinate inclusion including sexism, homophobia, ableism, etc.—Rhetorics of Race draws from Queer Black Feminism, Chicano@ Feminism, and Critical Race Theory.

WR 485, CONTEMPORARY RHETORIC THEORY, 4 Credits
Familiarizes students with a range of theories that have significantly contributed to or influenced the field of modern and contemporary rhetorical research. The course examines scholars, concepts, and methodologies that are central to contemporary rhetorical theory, while touching on key critical theorists who, although perhaps are considered outside the field of rhetoric studies, impact the ways in which language, persuasion, and communication are currently understood. From this work, students develop their own perspectives and generate evidence-based arguments concerning those same issues.
**Prerequisite:** WR 121 with C- or better or WR 121H with C- or better
WR 493, ^THE RHETORICAL TRADITION AND THE TEACHING OF WRITING, 4 Credits
Major past and contemporary theories of written communication, their historical context, and their impact on writing and the teaching of writing. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

WR 495, ^INTRODUCTION TO LITERACY STUDIES, 4 Credits
Literacy studies in multidisciplinary contexts. Examines historical, theoretical, and practical relationships among reading, writing, language, culture, and schooling. (Writing Intensive Course)
Attributes: CWIC – Core, Skills, WIC

WR 497, DIGITAL LITERACY AND CULTURE, 4 Credits
From pencils to pixels, telegraphs to texts, and semaphores to social networking, Digital Literacy and Culture focuses on the relationships between human expression and the technologies that provide context, meaning, and shape to those expressions.
Prerequisite: WR 121 with C- or better or WR 121H with C- or better

WR 499, SPECIAL TOPICS, 1-16 Credits
This course is repeatable for 16 credits.

WR 500, MFA RESIDENCY, 1-20 Credits
Low-Residency Masters of Fine Arts Residency. Required course for graduate students in the Low-Residency Masters of Fine Arts in Creative Writing.
This course is repeatable for 48 credits.

WR 501, RESEARCH AND SCHOLARSHIP, 1-16 Credits
This course is repeatable for 16 credits.

WR 502, INDEPENDENT STUDY, 1-16 Credits
This course is repeatable for 16 credits.

WR 503, THESIS, 1-16 Credits
This course is repeatable for 999 credits.

WR 504, WRITING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WR 505, READING AND CONFERENCE, 1-16 Credits
This course is repeatable for 16 credits.

WR 506, PROJECTS, 1-16 Credits
This course is repeatable for 16 credits.

WR 507, SEMINAR, 1-16 Credits
This course is repeatable for 16 credits.

WR 508, WORKSHOP, 1-16 Credits
This course is repeatable for 16 credits.

WR 509, PRACTICUM, 1-16 Credits
Required practicum for graduate students teaching introduction to poetry writing.
This course is repeatable for 16 credits.

WR 511, THE TEACHING OF WRITING, 4 Credits
Pedagogy and theory in composition; prepares teachers (secondary through college) in writing process, assignment design, evaluation, and grammar. Also focuses on student’s own writing.

WR 512, CURRENT COMPOSITION THEORY, 4 Credits
Current rhetoric and composition theory and its applications for teachers and writers.

WR 513, LOW-RESIDENCY MFA MENTORSHIP, 5-12 Credits
Low-Residency Masters of Fine Arts Mentorship. Required course for graduate students in the Low-Residency Masters of Fine Arts in Creative Writing.
This course is repeatable for 36 credits.

WR 514, ADVERTISING AND PUBLIC RELATIONS WRITING, 4 Credits
Writing news releases, annual reports, brochures, newsletters, and other PR materials. Writing advertising copy.

WR 516, ADVANCED COMPOSITION, 4 Credits
The development of style and voice in both the personal and the academic essay.
This course is repeatable for 16 credits.

WR 517, TEACHING PRACTICUM: ENGLISH COMPOSITION, 2 Credits
Required practicum for graduate students teaching English Composition.

WR 518, TEACHING PRACTICUM: WRITING IN BUSINESS, 1 Credit
Pedagogy practicum for graduate students in the teaching of professional writing and communication. This course is required for GTA’s who will teach WR 214, Writing in Business.
This course is repeatable for 3 credits.

WR 519, TEACHING PRACTICUM: WR 222, 1 Credit
This practicum prepares graduate teaching assistants to teach Writing 222 (Argumentation). It includes both theoretical and practical components, providing an overview of the curriculum and addressing course development, lesson planning, and pedagogical best practices. The practicum is required for SWLF graduate students with a focus in rhetoric and composition.
WR 520, STUDIES IN WRITING, 4 Credits
Selected topics in rhetoric and composition.
This course is repeatable for 8 credits.
Available via Ecampus

WR 521, TEACHING PRACTICUM: FICTION WRITING, 1 Credit
Required practicum for graduate students teaching introduction to fiction writing.
This course is repeatable for 3 credits.

WR 522, TEACHING PRACTICUM: POETRY WRITING, 1 Credit
Required practicum for graduate students teaching introduction to poetry writing.
This course is repeatable for 3 credits.

WR 523, TEACHING PRACTICUM: NONFICTION WRITING, 1 Credit
Required practicum for graduate students teaching introduction to nonfiction writing.
This course is repeatable for 3 credits.

WR 524, ADVANCED FICTION WRITING, 4 Credits
Advanced fiction workshop with an emphasis on developing longer pieces.
This course is repeatable for 24 credits.

WR 525, ADVANCED SCIENTIFIC AND TECHNICAL WRITING, 4 Credits
Combines scientific and technical writing with science journalism. Students will draw on a data set (preferably their own) to draft a scientific journal article, short grant proposal, magazine article, and letter of inquiry. They will also critically evaluate and edit documents by reviewing classmates’ drafts.
Equivalent to: PSM 525

WR 540, ADVANCED NONFICTION WRITING, 4 Credits
Advanced creative nonfiction workshop with an emphasis on developing longer pieces.
This course is repeatable for 24 credits.

WR 541, ADVANCED POETRY WRITING, 4 Credits
Advanced poetry workshop.
This course is repeatable for 24 credits.

WR 548, MAGAZINE ARTICLE WRITING, 4 Credits
Writing the magazine article. Analyzing markets and writing query and cover letters, marketing manuscripts to magazines. Interviewing and researching.
This course is repeatable for 8 credits.

WR 549, CRITICAL REVIEWING, 4 Credits
Writing critical reviews of books, television programs, movies, plays, and restaurants for newspapers and magazines. The role of criticism in popular culture.

WR 562, ENVIRONMENTAL WRITING, 4 Credits
Writing about environmental topics from multiple perspectives. Includes science journalism, research and writing on current scientific issues and controversies, and theories of rhetoric and environmentalism.
Equivalent to: STC 562
This course is repeatable for 8 credits.
Recommended: WR 121

WR 566, ADVANCED TECHNICAL WRITING, 4 Credits
Introduces the texts, contexts, and concepts important to the practice of professional communication in organizational contexts, addressing practical writing skills, rhetoric, and ethics. Course readings concern what professional technical writers do and what theories govern their actions, bridging the gap between real-world problems and academic research. Organized with an eye towards future action and solving real-world writing and communication problems with empirical research, usability testing, and information design.

WR 575, RHETORICS OF RACE, 4 Credits
By exploring the interrelated concepts of race, racialization, and racism, Rhetorics of Race problematizes race as a taken-for-granted phenomenon. Through reading, writing, and discussion, class participants study racial formations as historically specific and analyze contemporary forms of racism in the US. Readings and discussion pay close attention to how rhetoric and discourse have the power to reproduce and challenge white supremacy and race-based oppressions. Emphasizing the intersectionality of oppression—that racism necessarily takes place at intersections with other forms of subordination including sexism, homophobia, ableism, etc.—Rhetorics of Race draws from Queer Black Feminism, Chican@ Feminism, and Critical Race Theory.

WR 585, CONTEMPORARY RHETORIC THEORY, 4 Credits
Familiarizes students with a range of theories that have significantly contributed to or influenced the field of modern and contemporary rhetorical research. The course examines scholars, concepts, and methodologies that are central to contemporary rhetorical theory, while touching on key critical theorists who, although may be considered outside the field of rhetoric studies, impact the ways in which language, persuasion, and communication are currently understood. From this work, students develop their own perspectives and generate evidence-based arguments concerning those same issues.
Recommended: WR 121

WR 593, THE RHETORICAL TRADITION AND THE TEACHING OF WRITING, 4 Credits
Major past and contemporary theories of written communication, their historical context, and their impact on writing and the teaching of writing.
WR 595, INTRODUCTION TO LITERACY STUDIES, 4 Credits

Literacy studies in multidisciplinary contexts. Examines historical, theoretical, and practical relationships among reading, writing, language, culture, and schooling.

WR 597, DIGITAL LITERACY AND CULTURE, 4 Credits

From pencils to pixels, telegraphs to texts, and semaphores to social networking, Digital Literacy and Culture focuses on the relationships between human expression and the technologies that provide context, meaning, and shape to those expressions.

Recommended: WR 121

WR 599, SPECIAL TOPICS, 1-16 Credits

This course is repeatable for 30 credits.

Zoology (Z)

Z 349, *BIO DIVERSITY: CAUSES, CONSEQUENCES, AND CONSERVATION, 3 Credits

The earth's biodiversity is a precious inheritance that is threatened by an unprecedented extinction crisis. This course examines the evolutionary and ecological processes that have created this unique diversity of life, the importance of biodiversity in maintaining the earth's ecosystems, and methods used to conserve biodiversity for future generations. (Bacc Core Course)

Attributes: CSGI – Core, Synth, Global Issues
Equivalent to: BI 349
Available via Ecampus

Z 350, ANIMAL BEHAVIOR, 3 Credits

Concepts of behavior; sensory receptors, internal mechanisms governing responses; learning and habituation; social organization and communication.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Equivalent to: BI 350
Available via Ecampus

Z 361, INVERTEBRATE BIOLOGY, 3 Credits

Exploration of the diversity and evolutionary relationships among major invertebrate phyla with an emphasis on morphological features, functional aspects, and life history for each phylum.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 362, INVERTEBRATE BIOLOGY LABORATORY, 2 Credits

Morphology and anatomy of representative invertebrates introduced in Z 361; diversity within phyla. Study is by dissections and both microscopic and macroscopic examination; field trip fee. Lab fee. Lec/lab.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 364, DIVERSITY OF LIFE: INVERTEBRATES, 5 Credits

Exploration of the diversity and evolutionary relationships among major invertebrate groups with an emphasis on building and interpreting phylogenetic trees as well as comparing and contrasting morphology, function, and life history within each group. Laboratory activities build scientific skills by exploring current hypotheses and tools for the study of invertebrate evolution.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Available via Ecampus

Z 365, BIOLOGY OF INSECTS, 4 Credits

Introduction to the study of insects, focusing on the biological attributes responsible for the success and dominance of insects. Emphasis on taxonomy, morphology, behavior, ecology, and coevolutionary interrelationships. Required field trips. Lec/lab.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 371, VERTEBRATE BIOLOGY, 3 Credits

Overview of vertebrate origins and phylogeny integrating several disciplines (anatomy, ecology, genetics, developmental biology, physiology, behavior, and evolution) to explore the structural and functional adaptations and evolutionary history of vertebrates. Lec.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Recommended: Completion or concurrent enrollment in Z 372

Z 372, VERTEBRATE BIOLOGY LABORATORY, 2 Credits

Classification, identification, and natural history of vertebrates. Includes laboratory examination of specimens and frequent field trips (fee charged) emphasizing Oregon fauna. Lab fee.

Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C] or BI 212H [C-]) and (BI 213 [C] or BI 213H [C-]) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C] or BI 222H [C-]) and (BI 223 [C] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and Z 371 (may be taken concurrently) [D-]
Z 374, DIVERSITY OF LIFE: VERTEBRATES, 5 Credits
Examination of vertebrate origins and phylogeny, integrating several disciplines (molecular biology, anatomy, behavioral ecology, and evolution). Emphasizes critical thinking and the scientific process to explore the structural/functional adaptations and evolutionary history of vertebrates. Laboratory activities build scientific skills by exploring current hypotheses and tools for the study of vertebrate evolution. Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 422, COMPARATIVE/FUNCTIONAL VERTEBRATE ANATOMY, 5 Credits
Phylogenetically-based study of the form and function of vertebrate organ systems, including integumentary, musculoskeletal, cardiopulmonary, digestive, and sensory. Lab emphasizes comparative form through dissection, and function through non-invasive experimentation. Lec/lab. Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 332 (may be taken concurrently) [D-] or CH 335 (may be taken concurrently) [C-])

Z 423, ENVIRONMENTAL PHYSIOLOGY, 3 Credits
Comparative environmental physiology of animals with emphasis on adaptations to such aspects of the physical environment as temperature, water, ions, and gases. Consideration given to interactions between physiology and environment that influence the local and geographic distribution of animals. Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 332 (may be taken concurrently) [D-] or CH 335 (may be taken concurrently) [D-])

Z 424, VERTEBRATE PHYSIOLOGY LABORATORY, 2 Credits
Experiments and exercises in vertebrate physiology covering systems studied in Z 431 and Z 432. Available to Biology majors. Lab fee. Prerequisite: Z 431 with C- or better and Z 432 (may be taken concurrently) [C-]

Z 425, EMBRYOLOGY AND DEVELOPMENT, 5 Credits
An integrated molecular, cellular and whole organism approach. Comparative embryonic development from gametogenesis, body axis specification, pattern formation and organogenesis. Experimental approaches uncovering cellular interactions, regulation of gene expression, and cellular differentiation. Lab emphasizes experimental comparative developmental biology and embryology. Lab fee. Lec/lab. Prerequisite: (BI 311 with D- or better or BI 311H with D- or better) and (BI 314 [D-] or BI 314H [D-] or BB 314 [D-] or BB 314H [D-])

Z 431, VERTEBRATE PHYSIOLOGY I, 4 Credits
Systems/concepts covered include motor reflexes, autonomic nervous system, digestion/metabolism, renal and osmoregulatory, endocrine and reproductive systems. First in Z 431, Z 432/Z 442 series. Lec/rec. Prerequisite: (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 332 (may be taken concurrently) [C-] or CH 335 (may be taken concurrently) [C-])

Z 432, VERTEBRATE PHYSIOLOGY II, 3 Credits
Systems/concepts covered include blood, immune, lymphatic, cardiovascular, and pulmonary. Second in the Z431, 432/442 series. Prerequisite: Z 431 with C- or better

Z 438, BEHAVIORAL NEUROBIOLOGY, 3 Credits
An introduction to the neurobiological basis of animal behavior. Examines behavior in the context of sensory physiology, motor control, neural circuitry, and cellular processes. Lec. Prerequisite: (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-]) and (CH 123 [C-] or (CH 233 [C-] or CH 233H [C-]) and (CH 263 [C-] or CH 263H [C-]))

Z 442, VERTEBRATE PHYSIOLOGY LABORATORY, 2 Credits
Experiments and exercises in vertebrate physiology covering systems studied in Z 431 and Z 432. Available to Biology majors. Lab fee. Prerequisite: Z 431 with C- or better and Z 432 (may be taken concurrently) [C-]

Z 461, MARINE AND ESTUARINE INVERTEBRATE ZOOLOGY, 4 Credits
Comparative survey of eight major invertebrate phyla and many lesser-known phyla. Areas of emphasis will be 1) invertebrate identification, 2) natural history (diversity, habitat, feeding, behavior), and 3) comparative anatomy (adaptive significance of morphological structures). Laboratories and field trips will strongly supplement lecture material. Lec/lab. Taught at Hatfield Marine Science Center. Prerequisite: (((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) and (CH 332 (may be taken concurrently) [C-] or CH 335 (may be taken concurrently) [C-])
Z 473, HERPETOLOGY, 4 Credits
Exploration of global herpetofauna focusing on taxa of the Pacific Northwest of North America. Identification and natural history of amphibians and reptiles are emphasized, along with a phylogenetic framework, to explore and discuss ideas involving their behavior, evolution, ecology, and conservation. Student projects examine important topics in the field.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])
Available via Ecampus

Z 477, AQUATIC ENTOMOLOGY, 4 Credits
Biology, ecology, collection, and identification of aquatic insects. Two required Saturday field trips. Lec/lab.
Prerequisite: ((BI 211 with C- or better or BI 211H with C- or better) and (BI 212 [C-] or BI 212H [C-]) and (BI 213 [C-] or BI 213H [C-])) or ((BI 221 [C-] or BI 221H [C-]) and (BI 222 [C-] or BI 222H [C-]) and (BI 223 [C-] or BI 223H [C-])) or (BI 204 [C-] and BI 205 [C-] and BI 206 [C-])

Z 499, SPECIAL TOPICS, 0-16 Credits
Topics and credits vary.
Equivalent to: Z 499H
This course is repeatable for 16 credits.

Z 499H, SPECIAL TOPICS, 1-16 Credits
Topics and credits vary.
Equivalent to: Z 499
This course is repeatable for 16 credits.

Danielle Lindsey, Assistant Registrar - VA & Athletics Compliance, 541-737-0593

**University Degree Requirements**
Current degree requirements are printed each year in the Academic Regulations (p. 16) section of the Academic Catalog, along with other information on a wide range of topics from minimum credits for full-time status to adding courses. All students are encouraged to review this part of Academic Catalog each year for the most current information about OSU requirements and procedures.

Students with questions about baccalaureate degree requirements are encouraged to contact their advisor. Students needing assistance in selecting a major or selecting an advisor may wish to call or stop by the college office.

**Catalog Rights Policy**
**Graduation Requirements/Catalog Contract Policy**
When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student’s catalog year for institutional and baccalaureate core requirements is established by their first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student’s catalog year for college/major/option/minor requirements is based on the date of declaration of the major/option/minor.
- A student’s major and option(s) must be in the same catalog year. If an option(s) is declared in an academic year subsequent to the catalog year associated with the major, the option(s) will be aligned with the catalog year of the major. If the option(s) did not exist in the catalog year of the major, the major will roll forward to the catalog year of the option(s). A second major and option(s) may be declared by the student for a catalog year which differs from the first major and option(s).
- Additionally, while the student’s first major/option must be in the same catalog year, any additional declarations of majors/options/minors will be determined by the declaration dates (and corresponding catalog year) established by the change of academic program process.
- A student, in collaboration with an advisor, can also move their major/option/minor catalog year forward.
- At the time of graduation, all continuously enrolled students, including transfer students, may not use a catalog that is more than ten years old. Students may petition their college’s head advisor for an extension of a catalog greater than ten years prior to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms). The published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c (p. 18) beginning with the 2011–2012 academic year, provides a mechanism for a student to keep their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for institutional and baccalaureate core requirements. The catalog year for college/major/option/minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU Academic Catalog. However, Oregon State University may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University.

**The Baccalaureate Experience**
Oregon State University is committed to creating an atmosphere of intellectual curiosity, academic freedom, diversity, and personal empowerment. This will enable everyone to learn with and from others. This compelling learning experience celebrates knowledge; encourages personal growth and awareness; acknowledges the benefits of diverse experiences, world views, learning styles, and values; and engenders personal and societal values that benefit the individual and society.

OSU develops curricula based on sound disciplinary knowledge and input from practitioners. Students acquire skills and knowledge for a lifetime of learning, and will be involved in scholarly and creative pursuits.

The baccalaureate degree includes:

- the baccalaureate core
- an in-depth study in at least one major; and
- individual elective courses.

Minors are available in many areas and are required in certain programs. Students should check college, school, program, or departmental requirements.

The Baccalaureate Core (bacc core) Curriculum represents what the OSU faculty believes is the foundation for students’ further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the bacc core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the bacc core promotes understanding.
of interrelationships among disciplines in order to increase students' capacities as ethical citizens of an ever-changing world.

The Baccalaureate Core

The Oregon State University Baccalaureate Core (p. 2423) is continually enriched. It emphasizes critical thinking, writing, world cultures, appreciation of differences, the arts, sciences, literature, lifelong fitness, and global awareness in 15 course categories. Over 250 courses are available to meet core requirements. Students must complete a total of 48 credits plus a Writing Intensive Course (WIC) of at least 3 credits.

The Faculty Senate Baccalaureate Core Committee determines which courses will satisfy each of the requirements above. WIC courses will be reviewed by the WIC Director and the Faculty Senate Baccalaureate Core Committee. The core is governed by the following rules: (1) No more than two courses from any one department may be used by a student to satisfy the Perspectives category of the core. (2) No single course may be used by a student to satisfy more than one subject area of the core even though some courses have been approved in more than one area. (3) Both Synthesis courses may not be taken in the same department. 4) The WIC course must be taken in the student's major. Each interdisciplinary major has a list of approved WIC courses for that major. (WIC Rationale (http://wic.oregonstate.edu/wic-learning-outcomes/)) A current list of approved Baccalaureate Core courses can be found in the OSU Catalog (p. 2423).

Defining characteristics of baccalaureate core courses are available on the Office of Academic Programs and Assessment website (https://apa.oregonstate.edu/assessment/baccalaureate-core-assessment/). Additional information is also available online (http://main.oregonstate.edu/baccalaureate-core/).

The purpose of the writing intensive requirement is to insure that each graduate is prepared to write in the discourse, conventions, and genres of their major field.

A student completing requirements for two majors, including double degrees as well as dual majors (one degree with two majors), may request that one WIC course satisfy the WIC requirement for graduation in both majors. This opportunity is available if and only if:

1. The discourse, written conventions, and genres of the two majors are closely related, and
2. The substitution of a WIC course from one major for that in another major is approved by the chairs or heads of both departments involved and the approval is placed in the student's academic file.

Students and advisors should be aware that in some cases, the WIC course in a major is an integral part of the degree and substitution may not be appropriate. The final decision rests with the department chair or head.

Baccalaureate Core Requirements

No single course may be used by a student to satisfy more than one area of the Baccalaureate core even though some courses are approved for more than one area.

Skills Courses (lower division except WIC) (15)

To support students’ success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSU-generated credits:

Mathematics: MTH 105, *Intro to Contemporary Mathematics, or higher level mathematics (3)
Writing I (3) (WR 121, must earn at least C–)
Speech (3)

To prepare for the upper-division Writing Intensive Course in the major, the following Skills course is to be taken and completed satisfactorily within the first 90 hours of OSU-generated credits:

Writing II

For transfer students with sophomore standing or above, Writing II and Speech must be completed within the first 45 hours of OSU-generated credits. These requirements apply to all students, whether full time or part time.

Additional skill course category to be completed:
Fitness (3)

Perspectives Courses (lower and upper division) (24)

No more than two courses from any one department may be used by a student to satisfy the Perspectives category of the core. GEO courses listed under Physical Science are considered to be from a different department than GEO courses listed under any other Perspective category. Choose an additional course from either Physical Science or Biological Science.

Biological Science (including lab) (4)
Physical Science (including lab) (4)
Plus choice of additional physical or biological science (including lab) (4)

Take a minimum of one course in each of the following areas:

Cultural Diversity (3)
Literature and the Arts (3)
Social Processes and Institutions (3)
Western Culture (3)

Difference, Power, and Discrimination Courses (lower or upper division) (3)

Synthesis Courses (upper division) (6)
Both synthesis courses may not be taken in the same department. One course is from each of the following areas:

Contemporary Global Issues (3)
Science, Technology, and Society (3)

WIC (Writing Intensive Course, upper division, included in credits for major) (3)
The WIC course must be taken in the student’s major. Each interdisciplinary major has a list of approved WIC courses for that major.

Total (48) + WIC (3) = 51

Approved Baccalaureate Core Courses

For the current and complete list of approved baccalaureate core courses (p. 2423).

Monitoring Degree Progress with MyDegrees

MyDegrees is a web-based degree checklist program and academic advising tool designed to assist students and advisors in reviewing degree progress. It organizes a student's academic transcript...
chronologically and categorically, identifying courses they have completed and courses still needed to fulfill the degree requirements.

Students may access this tool through MyOSU (https://myosu.oregonstate.edu), or through links on the Office of the Registrar website (http://registrar.oregonstate.edu). Video tutorials on how to use MyDegrees are available on the Office of the Registrar website (http://registrar.oregonstate.edu/video-tutorials/).

The Office of the Registrar works with advisors to update and maintain an accurate degree audit that will be used to clear student degree requirements during the final term of the students’ undergraduate year.

**Major Program**

In-depth study in at least one area is required in each baccalaureate degree. Major requirements often include not only courses within the given discipline but also necessary prerequisites and work in related areas.

Students must satisfy all the requirements of their major department and major college. The dean's certification of fulfillment of all requirements of the major college is required.

**Upper-Division Courses**

1. **Credits in upper-division courses:** minimum 60 (exclusive of upper-division physical education activity courses).
2. **Credits in each major:** minimum 36, including at least 24 in upper-division courses.

For further details on upper-division course requirements, see Academic Regulation 25c (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Practicum Courses and Internships**

Academic performance is not the sole criterion for admission to and continuation in certain courses and programs at the university, particularly practicum courses and internships. The university may find it necessary to evaluate a person's behavior and background to determine the ability to maintain the standards of professional conduct which are necessary in some disciplines. An evaluation may take into consideration current performance as well as past experiences and actions which could affect the ability to perform in the particular course or program.

**Grade-Point Average (GPA)**

A minimum GPA of 2.00 on OSU cumulative grade-point average is required. See Academic Regulation 25e (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Total Credits**

A minimum 180 earned credits, which must include:

1. **Credits in upper-division courses:** minimum 60 (exclusive of upper-division physical education activity courses).
2. **Credits in each major:** minimum 36, including at least 24 in upper-division courses.

Some degree programs may require more than 180 credits.

2. Unearned credits are those courses for which a grade of F, N, U, I, W, AUD, or WAU are assigned as a final grade for that course. All other grades are calculated as earned credit.

For further information on total credits required, see Academic Regulation 25c (p. 21), Institutional Requirements for Baccalaureate Degrees.

**Academic Standing**

Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined in the Grades, Regulations, and Records section of this catalog.

**Academic Residence Requirement**

Academic Regulation 25f (p. 21), Academic Residence, Institutional Requirements for Baccalaureate Degrees, states:

- A minimum of 45 of the last 75 credits, or 150 total credits, must be completed while the student is in academic residence at OSU.
- ‘Academic Residence’ is defined as OSU courses taken as a degree-seeking student of OSU or courses through one of the following approved special programs: Professional degree programs which require that the student enroll in another institution while finishing the bachelor's degree at OSU or an international study program sponsored by Oregon State University.
- A minimum of 15 upper-division credits used to meet the preceding residency requirement (1) must be taken in each of the student's majors.
- Credits earned by special examination for credit (AR 23) are not considered in academic residence.

**Other Graduation Requirements**

**BA Degree Requirements**

The bachelor of arts (BA) degree is conferred for broad and liberal education in various approved areas of studies (typically humanities, arts, social science, and sciences). Requirements for the BA degree differ from those for a bachelor of science (BS) degree in the same department. Many departments offer only one or the other of the two baccalaureate degrees. Check departmental curricula for detailed information. The BA degree requires second language proficiency, including American Sign Language (ASL), equivalent to that attained at the end of the second year course in the language as certified by the School of Language, Culture, and Society. See the Academic Regulations for more details.

**Concurrent and Subsequent Baccalaureate Degrees**

Academic Regulation 26 (p. 22)

1. **Concurrent Baccalaureate Degrees:** An undergraduate student may be granted two or more baccalaureate degrees (for example the BA or BS) at the same graduation exercise. The student must:
   a. Complete institutional, college, and departmental requirements for the degree;
   b. Complete, for each additional degree, a minimum of 32 credits more than the requirements of the curriculum requiring the least number of credits; and
   c. Complete each additional 32 credits in residence.

2. **Subsequent Baccalaureate Degree:** A student who has received a previous baccalaureate degree from either OSU or another accredited
Undergraduate Graduation via Institutional Awarding

To become a degree candidate:

- You must be a current OSU student with senior standing
- You must be enrolled in the final course(s) required for your program of study

With Institutional Awarding, undergraduate students no longer need to apply for graduation. Students should meet regularly with their academic advisor to ensure their progress to graduation.

Commencement exercises are held annually in June and attendance is optional. Students who have graduated in the previous summer, fall or winter terms and senior-level students who will graduate in spring, or upcoming summer and fall terms may participate in the June Commencement exercises.

Ecampus students planning to travel to Corvallis for Commencement can contact Ecampus Student Services for additional information.

Additionally, please be aware that all corresponding transcripts are sealed, meaning the academic record cannot be altered, by the Office of the Registrar 90 days after the conferral of a degree. This ensures that the academic course work that reflects the components that substantiated the awarding of the degree is accurately and permanently recorded.

Double Degrees

A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student's academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26).

Some double-degree programs — Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) — require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26.)

Dual (or Multiple) Majors

A student may earn two or more majors within a single degree program (a particular combination of degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes
all of the majors. The student’s academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in some cases may be earned as a credential subsequent to completion of the degree. (See Academic Regulation 27 (p. 23)).

Note: Occasionally, with careful planning, a student can complete two majors from separate colleges in less than the 212 credits required for two degrees. When this occurs a student can petition for an exception, and graduate with two majors from separate colleges. The student must pick one college as their home college and all majors will be associated with the home college. The student must have the support of advisors from both major programs to have their petition considered.

**Honors Degrees**

Students completing the honors college curriculum receive an honors degree in the college of their major, e.g., HBS Honors Bachelor of Science in Chemistry, or HBA Honors Bachelor of Arts in English. In some cases it might be possible for an Honors College student to earn multiple degrees simultaneously by following the double degrees requirements outlined in Academic Regulation 26 (p. 22).

Students seeking an honors degree must meet the requirements of the Honors College in order to receive their degree. Students that complete an Honors degree will have the honors degree recorded on their academic record. The student’s diploma will also include the honors degree designation (e.g., Honors Bachelor of Science, etc.).

Note: Honors degrees are not currently available to Ecampus students.

**Degrees with Distinction**

Graduates who have completed at least 90 credits at OSU or sixty upper-division credits at OSU, and who have an OSU cumulative GPA of 3.5 or higher, are awarded an OSU degree with distinction as follows:

<table>
<thead>
<tr>
<th>Academic Distinction</th>
<th>OSU GPA Range</th>
<th>Graduation Honor Cord Color</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cum Laude</td>
<td>3.50-3.69</td>
<td>Orange</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70-3.84</td>
<td>Gold</td>
</tr>
<tr>
<td>Summa Cum Laude</td>
<td>3.85-4.00</td>
<td>White</td>
</tr>
</tbody>
</table>

*These distinctions are noted on diplomas.*

**Undergraduate Research/Arts Fellow Honor Distinction**

Oregon State University recognizes significant engagement and accomplishment in undergraduate research and the arts by awarding an honor distinction of 'Undergraduate Research/Arts Fellow' to students of all majors upon completion of a significant research or creative arts experience under faculty mentorship. ‘Research’ here is intended to encompass modes of scholarship and inquiry as they are variously practiced and defined in OSU’s academic disciplines. Students completing significant creative projects in the arts may receive the honorary distinction ‘Undergraduate Arts Fellow.’ The distinction will be noted on the student’s transcript, and the student will receive a blue honor cord to be worn at graduation ceremonies.

To qualify for the Undergraduate Research/Arts Fellow distinction:

1. Students must demonstrate involvement in all major phases of their project including conception, implementation, and presentation. This involvement will generally consist of sustained work over multiple quarters or the summer resulting in an original contribution relative to the discipline.
2. The project presentation must be to an audience that extends beyond the immediate research group or creative context, for example at a public performance, symposium/seminar, the annual CUE (Celebration of Undergraduate Excellence) at OSU, a professional meeting, or through publication in a journal.
3. Evidence of the presentation must be submitted with the final honorable distinction application and deposited into the OSU Scholars Archive.
4. The faculty mentor must endorse the application, verifying satisfaction of the criteria described above.

To apply for the distinction, students should complete the OSU Undergraduate Research/Arts Fellow Honor Distinction Application (http://undergraduate.oregonstate.edu/research/transcript-notation/). Students that complete a thesis in the University Honors College, International Education, Physics, BioResource Research or the Bioenergy Minor should submit Form A while form B is to be used for all other research/creative activities. The Form B which application requires submission of a detailed description of the project and the student’s involvement in specific research/creative tasks, a timeline of the student’s project engagement, details of the public presentation, and the faculty mentor’s endorsement. Applications are submitted to the head advisor in the students’ major college, who will sign the application and transmit to the Director for Undergraduate Research for signature before it is sent to the Office of the Registrar for processing. Applications may be submitted at any time during the undergraduate’s career but no later than three weeks prior to a student’s anticipated graduation date.

**Dissertation/Thesis**

Upon completion and acceptance of a dissertation/thesis at the conclusion of a program of study, the dissertation/thesis will be recorded on a student’s transcript, notating the title and term/year that the dissertation/thesis was accepted by the university.

**Re-Enrolling Students**

Re-enrolling students are reminded that graduation requirements may have changed. Students are responsible for consulting their college for changes in their curriculum. If a program has been discontinued, students cannot expect to continue pursuit of that program. Re-enrolling students are also reminded that individual retention and re-enrollment standards of specific colleges may be in effect.

**Oregon Transfer Students**

Oregon community college students entering OSU who have completed the Associate of Arts Oregon Transfer (AAOT) degree (meeting the block transfer agreement between Oregon community colleges and Oregon public universities) will satisfy the lower-division requirements of the baccalaureate core (except those in the synthesis requirement) and have junior standing for registration.

When entering OSU, Oregon community college students who have completed the Associate of Arts Oregon Transfer (AAOT) degree will have junior standing for registration and will satisfy the lower-division requirements of the baccalaureate core, except those in the synthesis requirement.
requirement. The AAOT degree meets the block transfer agreement between Oregon community colleges and Oregon public universities.

For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

**Washington Transfer Students**

The Direct Transfer Associate degree awarded by any community college in Washington state will satisfy lower-division general (core) requirements at OSU. Students will receive junior level standing with an earned Washington Direct Transfer Associate degree of 90 transferable quarter hours or more. The minimum requirements are: 2.0 GPA on 90 earned quarter hours of transferable credit. OSU will accept a maximum of 12 credits in professional, vocational, and technical courses. You must still meet requirements in your chosen major, minor, or professional program.

For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

**California Transfer Students**

OSU accepts the Intersegmental General Education Transfer Curriculum (IGETC) to satisfy lower-division (general) core requirements. The IGETC was developed for community college students who plan to transfer to a four-year institution but are undecided about which one and/or undecided about a major. Students interested in the IGETC path to transfer are strongly advised to see an academic advisor prior to enrollment. The minimum requirements are: 36 quarter (24 semester) academically transferable hours, 2.25 cumulative GPA, IGETC Area 1 Group A English requirement (C– or higher grade), IGETC Area 2 Mathematical Concepts requirement (C– or higher grade), and student must be admissible to the last institution they attended.

For more information about how OSU accepts any of the transfer degrees, call OSU Admissions at 800-291-4192.

**Transfer Credits**

Decisions on transfer courses meeting specific baccalaureate core (general education requirements) will be made by the Office of Admissions with the Faculty Senate and the Office of Academic Programs. Some requirements may be met by advanced placement or international baccalaureate. For more information, contact the Office of Admissions. Articulation tables for baccalaureate core courses can be found online (http://admissions.oregonstate.edu/baccalaureate-core-course-equivalencies/).

**Baccalaureate Core Courses**

The Baccalaureate Core (Bacc Core) Curriculum represents what the OSU faculty believes is the foundation for students’ further understanding of the modern world. Informed by natural and social sciences, arts, and humanities, the Bacc Core requires students to think critically and creatively, and to synthesize ideas and information when evaluating major societal issues. Importantly, the Bacc Core promotes understanding of interrelationships among disciplines in order to increase students’ capacities as ethical citizens of an ever-changing world.

No single course may be used by a student to satisfy more than one subject area of the Core even though some courses have been approved in more than one area. See Academic Regulation 25(a)(5) (p. 21).

**Skill Courses (15)**

To support students’ success in all courses, the following first-year Skills courses are to be taken and completed satisfactorily within the first 45 hours of OSU-generated credits:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>WR 121</td>
<td>ENGLISH COMPOSITION (must earn at least C-)</td>
<td>3</td>
</tr>
<tr>

Perspective Courses (24)
No more than two courses (or lecture/lab combinations) from any one department may be used by a student to satisfy the Perspectives category of the core. GEO courses listed under Physical Science are considered to be from a different department than GEO courses listed under any other Perspective category. Choose one Biological Science lecture/lab combination, one Cultural Diversity, one Literature and the Arts, one Physical Science lecture/lab combination, one Social Processes and Institutions, one Western Culture, plus one additional lecture/lab combination from either Physical Science or Biological Science.

Biological Science (Lecture/Lab) (4 or 8)  
Select 1 or 2 lecture/lab combinations. Combination is assumed (uses the same number) unless indicated in the title.

Select 1 or 2 lecture/lab combinations. Combination is assumed (uses the same number) unless indicated in the title. Courses listed as lab must also have the corresponding Physical Science Lecture from below.

Title: **HISTORY OF THE THEATRE**
### Physical Science Lecture (4)

Lectures in this section match with labs from above section. Both the lecture and the corresponding lab must be passed to meet the Physical Science requirement.

The image contains a list of courses and their corresponding codes and credits. The courses are categorized into two sections: Baccalaureate Core Courses and Writing Intensive Courses (WIC). The Baccalaureate Core Courses include various subjects such as Research, Interpersonal Communication, Experimental Chemistry, Project Management, Civil Engineering, Process Engineering, Ecological Engineering, Ethical Issues in Agriculture, Managing Ethics, Voices on Sustainability, Planning and Evaluating Health Promotion, and Writing in Agriculture. The Writing Intensive Courses (WIC) include a variety of topics such as Small-Group Communication, Introduction to Economic Research, Public Policy, Environmental Science, Writing About Literature, Studies in American Literature, and Environmental Science in Context. The courses are listed in a table format with columns for code, title, and credits.

Ecampus – Top-ranked degrees online
As a leader in online education, Oregon State University Ecampus works with OSU faculty to provide access to exceptional learning experiences that transform the lives of students in Oregon and around the world. Thousands of online and distance students enroll in Ecampus online courses each year, all of which are developed by Oregon State University faculty. In the 2019-20 academic year, more than 26,000 OSU students took at least one Ecampus class online.

OSU Ecampus is widely regarded as one of America’s best providers of online education. In January 2020, Oregon State’s online bachelor’s programs were ranked No. 5 in the nation by U.S. News & World Report (https://ecampus.oregonstate.edu/news/2020/top-online-degree-programs/). It marked the sixth straight year OSU Ecampus was ranked in the top 10. This recognition is based on student engagement; faculty credentials and training; services and technology; and expert opinion.

our programs and courses
Students interested in pursuing an Oregon State degree online can choose from more than 70 programs (https://ecampus.oregonstate.edu/online-degrees/?type=undergraduate-degrees), including bachelor’s degrees in business administration; computer science; fisheries and wildlife sciences; Spanish; agricultural sciences; and various liberal arts disciplines.

Oregon State’s online and hybrid graduate-level offerings feature MBA tracks, a Master of Science in Business and various business graduate certificates; master’s programs in engineering management and data analytics; a Master of Natural Resources; and a variety of education programs.

Browse the complete collection of online and hybrid offerings:
- Undergraduate degrees (https://ecampus.oregonstate.edu/online-degrees/topics/?type=undergraduate-degrees)
- Graduate degrees (https://ecampus.oregonstate.edu/online-degrees/topics/?type=graduate-degrees)
- Undergraduate certificates and minors (https://ecampus.oregonstate.edu/online-degrees/topics/?type=undergraduate-certificates)
- Graduate certificates (https://ecampus.oregonstate.edu/online-degrees/topics/?type=graduate-certificates)
- Undergraduate course sequences (https://ecampus.oregonstate.edu/online-degrees/topics/?type=course-sequences)
- 1,300+ courses (https://ecampus.oregonstate.edu/soc/)

Serving the Portland region
Ecampus is helping to expand Oregon State’s presence in the Portland region. Not only do students have access to OSU-signature programs and courses online through Ecampus, but now they can also study in a dynamic, hybrid (online/in-person) learning environment. This hybrid experience includes face-to-face interaction with OSU faculty and students as well as on-site support services at the OSU Portland Center at Pioneer Square (https://portland.oregonstate.edu/).

The students we serve
Oregon State Ecampus serves students in all 50 states and more than 50 countries worldwide. OSU’s distance learners include full- and part-time students, working and retired professionals, community college students, active-duty and retired military, high school students and individuals who want to further their education with a single college course.

How we support students
Oregon State Ecampus offers a variety of support services (https://ecampus.oregonstate.edu/students/) that meet students’ needs and help them along the path to graduation. Once enrolled online, Ecampus students have access to student services specialists; a team of success coaches; a dedicated Ecampus librarian and 24/7 library support; remote exam proctoring; OSU’s Disability Access Services; and live, around-the-clock technical support on OSU’s learning management system, Canvas.

Success coaching is an academic counseling service for undergraduate Ecampus students, and it employs an individualized, strengths-based and holistic approach. Success coaches work in partnership with students to improve academic skills, to identify support resources, and to address obstacles to academic success at OSU.

Ecampus works to create a sense of community for students in a variety of ways no matter where they live. This is done primarily through the Ecampus Learning Community and other organizations (https://ecampus.oregonstate.edu/services/student-services/organizations.htm) that students can join from a distance.

The Ecampus enrollment services team provides a personal connection to OSU Ecampus for prospective applicants. The enrollment services specialists answer questions about OSU Ecampus online degree programs, courses, the application process and how to get started.

A commitment to excellence
All curricula for Ecampus courses and degree programs are designed by Oregon State faculty and are held to the same rigorous academic standards as the university’s on-campus classes. OSU is accredited by the Northwest Commission on Colleges and Universities, and all Ecampus students who complete degree requirements receive the same diploma and transcript as campus-based students.

Services for faculty
Ecampus works closely with nearly 1,000 Oregon State faculty members, program leaders and department heads in order to provide students with transformative educational opportunities. The Ecampus staff offers an array of services, including a faculty development and training program (https://ecampus.oregonstate.edu/faculty/development/) that is comprehensive, responsive, and flexible.

Ecampus requires ongoing training for faculty developing and teaching online courses. Faculty are expected to participate in training as part of the course development and redevelopment process, and to participate in ongoing training annually.

The Ecampus Faculty Forum is held each spring and allows faculty, administrators and staff to engage in discussions about online teaching excellence, research in online education, faculty experiences
in online course development and more. More than 300 OSU faculty, administrators and staff attend the event annually.

Ecampus also participates in the Quality Matters program (https://ecampus.oregonstate.edu/faculty/qm/), which seeks to improve student success in online courses by focusing on continuously improving course design. Using an independent and research-based peer review process, the faculty-driven QM program examines course design, not the content itself or the teaching.

In 2019, QM honored Oregon State (https://ecampus.oregonstate.edu/news/2019/osu-ecampus-honored-online-student-support/) with its Online Learner Support Certification. The certification applies to all programs delivered online by Ecampus, and it recognizes programs that provide "all the critical student and academic services needed for learner success and use learner feedback to continuously improve those services.

Mary Ellen Dello Stritto, Director
4943 The Valley Library
Corvallis, OR 97331-4504

The OSU Ecampus Research Unit (ECRU) responds to and forecasts the needs and challenges of the online education field through conducting original research; fostering strategic collaborations; and creating evidence-based resources and tools that contribute to effective online teaching, learning and program administration.

As a research unit dedicated to responding to and forecasting the needs and challenges of the field of online teaching and learning, the ECRU focus on the following areas:

- Exploring the efficacy of modalities, technologies and pedagogical methods
- Promoting research literacy and evidence-based decision-making
- Building communities to support and encourage research networks

The ECRU prioritizes actionable research and projects that cross more than one of these areas.

Established in 2015, the ECRU regularly publishes the results of national and local studies. Its podcast, "Research in Action (https://ecampus.oregonstate.edu/research/podcast/)," features nearly 200 episodes that address topics and issues facing researchers nationwide.

The Ecampus Research Unit created and maintains the Online Learning Efficacy Research Database (https://ecampus.oregonstate.edu/research/projects/online-learning-efficacy-research/), a repository of academic studies that allows users to explore whether the learning outcomes of online education are equivalent to face-to-face environments. As of April 2020, the Online Learning Efficacy Research Database has 259 citations across 75 discrete disciplines from 186 academic journals. The database is updated each month with additions of new studies that fit the database parameters.

The Research Unit houses a competitive award program to fund Oregon State faculty in their online learning research endeavors. Learn more about the Ecampus Research Fellows (ECRF) program (https://ecampus.oregonstate.edu/research/fellows/), its goals, timeline and the materials you'll need to apply online (http://ecampus.oregonstate.edu/research/fellows/).

Stefanie Buck, Director
Phone: 541-737-7403
Email: stefanie.buck@oregonstate.edu
Website: https://open.oregonstate.edu

To make college more affordable and accessible for students, the Open Educational Resources Unit (OERU) works with all university faculty to create no-cost and low-cost course materials to be used in classes taught on-campus and online with OSU Ecampus.

The OERU aims to take advantage of Oregon State’s national reputation in the field of online learning to establish a competitive open educational resources (OER) program that focuses on reusable digital components.

The OERU staff partners with faculty to adopt, adapt and author open textbooks or other resources that are freely available online to students and faculty at Oregon State and worldwide. OERU staff can assist faculty in locating OER, creating images, graphics and interactivities to incorporate into OER. Consultation on Creative Commons licensing is also available.

Learn how you and your department can partner with Ecampus OERU (http://open.oregonstate.edu/opportunities/).
A

Aaron, Wendy 2012, Assistant Professor, College of Education
Degrees:  
BA, Univ of California-Santa Cruz, 2001  
MA, Univ of California-Los Angeles, 2004  
PHD, Univ of Michigan-Ann Arbor, 2011

Abbasi, Bahman 2017, Assistant Professor, Acad Prog/Student Aff, Sch of Mech/Ind/Mfg Engr
Degrees:  
MS, Southern Illinois U-Edwardsvil, 2007  
PHD, Univ of Maryland-College Park, 2010

Abney, Landon 2015, Faculty Research Assistant, Sch Elect Engr/Comp Sci
Degrees:  
BS, Oregon State University, 2015

Abrassart, Arthur 1966, Emeritus, College of Business

Aburas, Ali 2011, Instructor, Sch Elect Engr/Comp Sci
Degrees:  
BS, Al-Fateh University, 1993  
MS, New Mexico St Univ-Main, 2003  
PHD, Oregon State University, 2016

Ackermann, Mark 2017, Professor, Vet Biomedical Science

Ackers, Steven 2000, Senior Faculty Research Asst I, Fisheries and Wildlife
Degrees:  
PHD, Northern Arizona University, 1997

Acock, Alan 1990, Emeritus, Sch of Soc/Bhav Hlth Sci

Adams, Dennis 2016, Instructor, College of Business
Degrees:  
BS, Brigham Young University Main, 1999  
MBA, University of Oregon, 2006

Adams, Julie 2016, Professor, Sch Elect Engr/Comp Sci
Degrees:  
BS, Siena College, 1989  
MENG, University of Pennsylvania, 1993  
PHD, University of Pennsylvania, 1995

Adams, Michael 2010, Food Technologist, Food Innovation Center
Degrees:  
MS, Oregon State University, 2015

Adams, Terry 1986, Senior Instructor I, College of Education
Degrees:  
BA, University of Oklahoma, 1978  
BA, Oregon State University, 1989  
JD, University of Oklahoma, 1981

Adams, Darius 1995, Emeritus, Forest Eng/Resourcs/Mgmt

Adams, David 1972, Emeritus, Horticulture Extension

Adams, Frank 1953, Emeritus, Enviro/Molecular Toxic

Adams, Paul 1980, Emeritus, Forest Eng/Resourcs/Mgmt

Adams, Ronald 1998, Dean Emeritus, College of Engineering, Emeritus, Sch of Mech/Ind/Mfg Engr

Adams, Wesley 1978, Emeritus, Forest Ecosyst & Society

Adrean, Lindsay 2005, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:  
BA, Foreign Institution, 1989  
MBA, Andrews University, 2000

Aduviri, Amas 2005, Dir-CAMP, Coll Assist Migrant Prgm
Degrees:  
BA, Foreign Institution, 1989  
MBA, Andrews University, 2000

Aduviri, Cheridy 2006, Senior Instructor I, College of Education
Degrees:  
BA, Eastern Washington University, 1996  
MA, Andrews University, 2000

AguilarClapes-Saganoles, Virginia 2017, Research Associate (Post Doc), Fisheries and Wildlife
Degrees:  
MS, Foreign Institution, 2013  
PHD, Foreign Institution, 2017

Aguilera, Mary 2006, Instructor, College of Education
Degrees:  
BS, Multnomah University, 2000  
MA, Western Conservative Baptist S, 2004  
PHD, Oregon State University, 2009

Ahearn, Kerry 1976, Emeritus, Sch of Wrtg Lit & Film

Ahern, Katherine 2011, Instructor, Ext Deschutes Co Office
Degrees:  
BS, University of Puget Sound, 1987  
MA, Oklahoma State Univ-Main, 1993

Ahern, Kevin 1989, Professor, Biochem/Biophysics
Degrees:  
BS, Oklahoma State Univ-Main, 1976  
MS, Oklahoma State Univ-Main, 1981  
PHD, Oregon State University, 1986

Ahrns, Glenn 2001, Assistant Professor (Practice), Ext Clackamas Co Office
Degrees:  
BS, Humboldt State University, 1982  
MS, Oregon State University, 1990

Akins, Scott 2004, Associate Professor, Sociology
Degrees:  
BA, Northern Arizona University, 1994  
MA, Washington State University, 1999  
PHD, Washington State University, 2002

Akroyd, Christopher 2012, Assistant Professor, College of Business
Degrees:  
MS, University of Sydney, 1995  
MBA, Kobe University, 2000
PHD, Univ of Auckland, 2007

Alani, Adam 2010, Associate Professor, Pharmacy
Degrees:
BS, University of Baghdad, 1989
MS, University of Baghdad, 1995
PHD, Univ of Wisconsin-Madison, 2007

Albert, Dennis 2004, Assistant Professor (Sr Res), Horticulture
Degrees:
BS, Univ of Michigan-Ann Arbor, 1981
MS, Univ of Michigan-Ann Arbor, 1983
PHD, Univ of Michigan-Ann Arbor, 1990

Albertani, Roberto 2010, Associate Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
MS, Foreign Institution, 1980
PHD, University of Florida, 2005

Albertson, Giselle 2007, Instructor, Fisheries and Wildlife
Degrees:
MAT, Pacific University, 1997

Alcanter, Benjamin 2011, Instructor, Vet Biomedical Science
Degrees:
DVM, Autonomous Univ St of Mexico, 2005

Alcon, Tim 2014, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BA, Western Washington University, 1992
MS, Western Washington University, 1998
MS, Iowa State University, 2010

Alcorn, Kay 2013, Instructor (ESL), INTO OSU Program
Degrees:
BS, San Diego State University, 1986
MS, School for Internatl Training, 1997

Aldarondo, Nicole 2012, Faculty Research Assistant, Bty/Plant Extnt Field Fac

Aldrich-Markham, Susan 1983, Emeritus, Crop and Soil Science

Aldwin, Carolyn 2004, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Clark University, 1974
PHD, Univ of Cal-San Francisco, 1982

Alexander, Julie 2010, Research Associate, Microbiology (Ag)
Degrees:
BS, Univ of Mary Washington, 1999
MS, James Cook University, 2002
PHD, Montana State Univ-Bozeman, 2010

AliNiaze, Mohammed 1972, Emeritus, Horticulture

Alix-Garcia, Jennifer 2017, Professor, Applied Economics
Degrees:
BS, Univ of Michigan-Ann Arbor, 1995
MA, Tufts University, 2000
PHD, Univ of California-Berkeley, 2005

Allan, Andrea 2005, Instructor, Earth, Ocean & Atmo Sci
Degrees:
BS, Penn State Univ-Main Campus, 2005
MS, Oregon State University, 2007

PHD, Oregon State University, 2012

Allan, Robert 2004, Dir-Student Services, Earth, Ocean & Atmo Sci
Degrees:
BA, Wittenberg University, 1995
MA, Minnesota State Univ-Mankato, 2000

Alleau, Yvan 1999, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci, Forest Eng/Resources/Mgmt
Degrees:
BS, Universite de Poitiers, 1997
MOCE, Oregon State University, 2002

Allen, Anna 2008, Instructor, Speech Communication
Degrees:
BA, Oregon State University, 2010
MA, Oregon State University, 2012

Allen, Jennifer 2015, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, San Diego State University, 2006

Allen, Nancy 1999, Head Advisor, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 1985
MS, Oregon State University, 2001

AllenJr, Thomas 1962, Emeritus, Ag Botany/Plant Path

Allred, Ann 2010, Instructor, Acad Prog/Student Aff
Degrees:
BA, Ohio University-Main Campus, 1968
MAT, Eastern Oregon University, 2001

Allstot, David 1995, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Portland, 1969
MS, Oregon State University, 1974
PHD, Univ of California-Berkeley, 1979

Almabruk, Khaled 2010, Research Associate (Post Doc), Pharmacy
Degrees:
PHD, Oregon State University, 2016

Almuaybid, Ameer 2012, Instructor, Sch of Psychological Sci
Degrees:
BS, Oregon State University, 2013
MAIS, Oregon State University, 2016

AlMusaly, Islam 2016, Instructor, New Media Communications
Degrees:
BS, King Fahd Univ of Petrol Min, 2007
MS, Oregon State University, 2011
PHD, Oregon State University, 2017

Alvarado, Beth 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, University of Arizona, 1983
MA, Stanford University, 1985
MFA, University of Arizona, 1989

Amano, Matthew 1967, Emeritus, College of Business
Ambrowiak, Gloria 2013, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Univ of Wisconsin-Madison, 2012

Ameele, Melinda 1999, Instructor (PAC), Physical Activity Courses, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Oregon State University, 1980
MS, Portland State University, 1988

Amort, Donald 1958, Emeritus, Sch Elect Engr/Comp Sci

Anand, Tejasvi 2015, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
PHD, Univ of Illinois at Urbana-Cha, 2015

Andersen, Daniel 2012, Instructor, Political Science
Degrees:
BS, Western Washington University, 2005
MS, University of Oregon, 2008
PHD, Oregon University, 2012

Andersen, Wilbert 1969, Emeritus, Extension Service Program

Anderson, Jeff 2014, Assistant Professor, Ag Botany/Plant Path
Degrees:
BA, Whitman College, 1997
PHD, Cornell University-Ithaca, 2006

Anderson, Jennifer 2016, Instructor, College of Education
Degrees:
BA, Whitman College, 1997
MS, Syracuse University-Main Campu, 2001

Anderson, Kim 1999, Professor, Enviro/Molecular Toxic
Degrees:
BS, Boise State University, 1985
BS, University of Oregon, 1981
PHD, Washington State University, 1989

Anderson, Lorinda 2011, Assistant Professor (Clinical), Pharmacy
Degrees:
D PHAR, University of Utah, 2010

Anderson, Nicole 2009, Associate Professor, Ext Yamhill Co Office
Degrees:
BS, Xavier University, 2003
MS, Washington State University, 2006

Anderson, T Anne 2010, Instructor, Speech Communication
Degrees:
BS, Portland State University, 1997
MA, Oregon State University, 2013

Anderson, Wayne 1986, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Gonzaga University, 1977
MA, University of Washington, 1979
MA, Mount Angel Seminary, 1997
PHD, University of Washington, 1983

Anderson, Norman 1962, Emeritus, Integrative Biology

Anderson, Sonia 1968, Emeritus, Biochem/Biophysics

Andrew, Isaac 2010, Instructor, Music
Degrees:
BMUS, Azusa Pacific University, 2005
MM, Cal State Univ-Long Beach, 2010

Andrews, Heather 2007, Faculty Research Assistant, North Willamette Exp Sta
Degrees:
BSEE, Southern Oregon University,
BS, Southern Oregon University,

Andrews, Lawrence 1993, Senior Faculty Research Asst I, Fisheries and Wildlife
Degrees:
BS, University of New Mexico, 1988

Andrews, Matthew 2016, Professor, Biochem/Biophysics
Degrees:
BS, Univ of Michigan-Ann Arbor, 1979
MS, Central Michigan University, 1981
PHD, Wayne State University, 1984

Andrews, Nicholas 2005, Associate Professor (Practice), Ext No Willamette Co Off
Degrees:
BS, Oregon State University, 1991
MS, Univ of Reading, 1995

Angima, Sam 2005, Assistant Dean, College of Ag Extension, Associate Professor, Crop and Soil Science
Degrees:
BS, Andrews University, 1991
MS, Kenyatta Univ, 1996
PHD, Purdue University Main Campus, 2000

Annalora, Andrew 2013, Assistant Professor (Sr Res), Enviro/Molecular Toxic
Degrees:
BS, University of New Mexico, 2001
PHD, University of New Mexico, 2005

Anselone, Philip 1964, Emeritus, Mathematics

Antle, John 2008, Professor, Applied Economics
Degrees:
BA, Albion College, 1976
MA, University of Chicago, 1979
PHD, University of Chicago, 1980

Antolin, Benjamin 2017, Faculty Research Assistant, EXT Fam/CommHlth OnCmps
Degrees:
BA, Eastern Washington University, 2017

Anzinger, Dawn 1998, Senior Instructor I, Forest Ecosyst & Society
Degrees:
BS, Oregon State University, 1999
MS, Oregon State University, 2002

Appleby, Arnold 1959, Emeritus, Crop and Soil Science

Apte, Sourabh 2005, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, University of Pune, 1994
MS, Indian Institute of Science, 1996
PHD, Penn State Univ-Main Campus, 2000

Arbuckle, Scarlett 2013, Instructor, Fisheries and Wildlife
Degrees:
BS, Long Island Univ-Southampton, 2003
PHD, Texas AM Univ-College Station, 2012

Arellano, Lucy 2013, Assistant Professor, College of Education
Degrees:
BA, Univ of Michigan-Ann Arbor, 2000
MA, Univ of Michigan-Ann Arbor, 2005
PHD, Univ of California-Los Angeles, 2011

Arismendi, Ivan 2010, Assistant Professor, Fisheries and Wildlife
Degrees:
PHD, Universidad Austral De Chile, 2010

Arispe, Sergio 2014, Assistant Professor, Ext Malheur Co Office
Degrees:
PHD, Univ of California-Davis, 2012

Armstrong, Jonathan 2016, Assistant Professor, Fisheries and Wildlife
Degrees:
BS, Lewis Clark College, 2005
PHD, University of Washington, 2013

Armstrong, Donald 1974, Emeritus, Ag Botany/Plant Path

Arnadottir, Liney 2009, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, University of Iceland, 2001
MS, University of Washington, 2003
PHD, University of Washington, 2007

Arnesen, Erik 2011, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, Sonoma State University, 2010

Arnold, David 2002, Senior Instructor I, Philosophy
Degrees:
BS, Oregon State University, 1972
MA, University of Oregon, 1977
PHD, Emory University, 1983

Arnold, Mary 2000, Professor, EXT 4-H YouthDev OnCmps
Degrees:
BA, Western Washington University, 1984
MS, Oregon State University, 1992
PHD, Oregon State University, 1994

Arnold, Stevan 1997, Professor, Integrative Biology
Degrees:
BA, Univ of California-Berkeley, 1966
PHD, Univ of Michigan-Ann Arbor, 1972

Arnold, Roy 1987, Emeritus, Food Science and Techno, Provost Emeritus, Provost/Exec Vice Pres

Arocho, Ingrid 2014, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, University of Puerto Rico, 2007
MS, North Carolina State Univ, 2008
PHD, North Carolina State Univ, 2014

Arora, Vipin 2014, Instructor, College of Business
Degrees:
BS, Foreign Institution, 2003
MS, Foreign Institution, 2006

Arp, Daniel 1990, Distinguished Professor, Ag Botany/Plant Path, Dean/
Director-CAS, College of Ag Admin
Degrees:
BS, Univ of Nebraska-Lincoln, 1976
PHD, Univ of Wisconsin-Madison, 1980

Arras, Tracy 2000, Senior Instructor I, Sch of Civil/Constr Engr
Degrees:
BS, Cal State Polytechnic · Pomona, 1986
MS, Cal State Univ-Fresno, 1996
PHD, Oregon State University, 2014

Arredondo, Felipe 2012, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Univ of California-Davis, 1987

Arscott, George 1953, Emeritus, Animal & Rnglnd Sciences

Arthur, Jeffrey 1977, Emeritus, Statistics (Science)

Arthurs, Jonathan 2013, Associate Professor, College of Business
Degrees:
BBA, Texas AM Univ-College Station, 1991
MBA, Texas AM Univ-College Station, 1998
PHD, University of Oklahoma, 2004

Asbell, Ann 1984, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Univ of Missouri-Columbia, 1974
MS, Indiana University-Bloomington, 1979

Ashford, Scott 2007, Dean, College of Engineering, Professor, Sch of Civil/
Constr Engr
Degrees:
BS, Oregon State University, 1983
MS, Univ of California-Berkeley, 1986
PHD, Univ of California-Berkeley, 1994

Ashford, Teresa 1999, Instructor, Acad Prog/Student Aff
Degrees:
BS, Oregon State University, 1997
MS, Oregon State University, 2004

Ashraf, Anjabeen 2016, Instructor, College of Education
Degrees:
BS, Houston Baptist University, 2006
MED, Univ of Houston-Victoria, 2009
PHD, North Carolina State Univ, 2015

Ashton, Carolyn 2005, Associate Professor, Ext Benton County Office
Degrees:
BA, University of Arizona, 1989
MA, Michigan State University, 1994

Atchley, Elizabeth 2005, Instructor, Music

Ates, Serkan 2016, Assistant Professor, Animal & Rnglnd Sciences
Degrees:
BS, Selcuk University, 1996
Atkinson, Stephen 2010, Research Associate, Microbiology (Ag)
Degrees:
BS, Foreign Institution, 2004
PHD, Foreign Institution, 2011

Atkinson, William 1987, Emeritus, Forest Eng/Resources/Mgmt

Auerbach, Marisha 2011, Lecturer, Horticulture
Degrees:
BA, Evergreen State College, 1998

Auld, Heather 2016, Research Associate (Post Doc), COMES - Newport Exp Sta
Degrees:
BS, University of Ottawa, 2008
PHD, Carleton University, 2016

AustinHaney, Angela 1999, Head Advisor, Pharmacy
Degrees:
BS, University of Idaho, 1997
EDM, Oregon State University, 2001

AuYeung, Nicholas 2006, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, University of Connecticut, 2006
PHD, Oregon State University, 2011

Averett, Joshua 2012, Faculty Research Assistant, Eastern Ore Univ Ag Prg
Degrees:
BS, Eastern Oregon University, 2012
MS, Oregon State University, 2014

Ayres, James 1970, Emeritus, Pharmacy

Azarenko, Anita 1986, Assoc VP/Cap Plan & Fac Ops, Capital Planning & Devlp
Degrees:
BS, Univ of Maryland System, 1981
MS, Univ of Maryland System, 1983
PHD, Univ of Maryland System, 1986

Azizian, Mohammad 1987, Research Associate, Sch of Chem/Bio/Envr Eng
Degrees:
BS, University of Tehran, 1978
MS, University of Tehran, 1983
PHD, Oregon State University, 1993

B

Babb, Sandra 2015, Assistant Professor, Music
Degrees:
BMUS, Florida State University, 1996
MM, Florida State University, 2000
PHD, Florida State University, 2010

Babbar-Sebens, Meghna 2012, Associate Professor, Sch of Civil/Constr Engr
Degrees:
MS, Univ of Illinois at Urbana-Cha, 2002

BAiles, Jack 1972, Emeritus, College of Business

Bailey, John 2005, Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Virginia Polytechnic Institute, 1983
MF, Virginia Polytechnic Institute, 1985
PHD, Oregon State University, 1997

Bailey, Mike 2004, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Purdue University Main Campus, 1975
MS, Purdue University Main Campus, 1976
PHD, Purdue University Main Campus, 1979

Bai, Joe 2013, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of California-Berkeley, 2004
PHD, University of Washington, 2011

Baird, William 1997, Professor, Enviro/Molecular Toxic
Degrees:
BS, Lehigh University, 1966
PHD, Univ of Wisconsin System, 1971

Baisted, Derek 1963, Emeritus, Biochem/Biophysics

Bakalinsky, Alan 1989, Associate Professor, Food Science and Techno
Degrees:
BS, Univ of California-Davis, 1979
MS, Univ of California-Davis, 1983
PHD, Univ of California-Davis, 1989

Baker, C Scott 2006, Professor, Marine Mammal Institute
Degrees:
BA, New College of Florida, 1977
PHD, Univ of Hawaii at Manoa, 1985
Baker, Keith 2014, Assistant Professor, School of Public Policy Degrees: PHD, Univ of Birmingham, 2008

Baker, Mark 2010, Instructor (PAC), Physical Activity Courses Degrees: BA, Brigham Young University Main, 2004 MFA, Southern Utah University, 2008

Bakos, Yong 2016, Instructor, Acad Prog/Student Aff Degrees: BA, Northwestern University, 1999 MS, Regis University, 2014

Balasubramanian, Ravi 2011, Assistant Professor, Sch of Mech/Ind/Mfg Engr Degrees: BS, National Univ of Singapore, 2000 PHD, Carnegie Mellon University, 2006

Baldivieso, Pablo 2016, Statistics Instructor, Acad Prog/Student Aff Degrees: MS, Portland State University, 2008

Baney, Nichole 2013, Faculty Research Assistant, Klamath Basin Res&ExtCtr Degrees: BS, Cal State Univ-Chico, 2012

Ball, Jason 2015, Faculty Research Assistant, Food Innovation Center Degrees: BS, Culinary Institute of America, 2014

Ball, Patrick 2011, Senior Instructor I, Acad Prog/Student Aff Degrees: BS, University of Montana, 1991

Barbour, Philip 1987, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci Degrees: BS, Oregon State University, 1985 MS, Oregon State University, 1991

Barbour, Richmond 1992, Professor, Sch of Wrtg Lit & Film Degrees: BA, Stanford University, 1970 PHD, Univ of California-Berkeley, 1990

Barden, Natchee 2012, Assistant Professor, Ethnic Studies Degrees: BA, Univ of N Carolina-Chapel Hill, 1992 MBA, Indiana University-Bloomington, 1999 PHD, Duke University, 2006

Barofsky, Douglas 1984, Emeritus, Chemistry

Barreto, Felipe 2015, Assistant Professor, Integrative Biology Degrees: BS, University of Florida, 2001 MS, Univ of N Carolina-Wilmington, 2003 PHD, Univ of California-Irvine, 2009

Barnhart, Michelle 2009, Associate Professor, College of Business Degrees: BS, Stanford University, 1994 PHD, University of Utah, 2009

Barrett, Kathy 2014, Instructor, Acad Prog/Student Aff Degrees: BS, Oregon State University, 1978 EDM, Oregon State University, 1982
Barros, Ana Margarida 2014, Research Associate (Post Doc), Forest Ecosyst & Society
Degrees:
PHD, Univ of Lisbon, 2013

Barroso, Judit 2014, Assistant Professor, Columbia Basin Exp Sta
Degrees:
BS, Foreign Institution, 1999
PHD, Foreign Institution, 2004

Barstow, Elizabeth 2016, Instructor, History
Degrees:
BA, Penn State Univ-Main Campus, 2001
PHD, Harvard University, 2010

Barstow, Geoffrey 2016, Assistant Professor, Philosophy
Degrees:
BA, Hampshire College, 2002
MTS, Episcopal Divinity School, 2008
PHD, University of Virginia, 2013

Barte, Georgene 1961, Emeritus, Sch of Bio/Pop Hlth Sci
Barth, John 1987, Professor, Earth, Ocean & Atmo Sci, Exec Dir-Marine
Stud. Init, Provost/Exec Vice Pres
Degrees:
BA, Univ of Colorado-Boulder, 1982
PHD, Massachusetts Inst of Technolo, 1987

Barth, Marita 2011, Senior Instructor I, Chemistry
Degrees:
PHD, Massachusetts Inst of Technolo, 2007

Bartholomew, Jerri 1990, Professor, Microbiology (Ag), Department Head,
Microbiology (Science)
Degrees:
BS, Penn State Univ-Central Office, 1980
MS, Oregon State University, 1985
PHD, Oregon State University, 1989

Barton, Carrie 2001, Senior Faculty Research Asst I, Enviro/Molecular
Toxic
Degrees:
BA, University of Oregon, 2001

Barton, Michael 2010, Faculty Research Assistant, Superfund Research
Ctr
Degrees:
BS, Oregon State University, 2010

Bassinette, John 1995, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Cornell University, 1989
MS, University of Idaho, 1995

Batten, Belinda 1993, Executive Associate Dean, College of Engineering,
Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of Maryland-College Park, 1985
MS, Univ of Maryland-Baltimore Cty, 1987
PHD, Clemson University, 1991

Baumberger, Tamara 2018, Assistant Professor (Sr Res), CIMRS (Inst/
Marine Res)
Degrees:
PHD, Univ of Zurich, 2011

Baunach, August 1997, Instructor, Sch of Wrg Lit & Film
Degrees:
BS, Oregon State University, 1977
MS, Oregon State University, 1992

Bay, Brian 2000, Associate Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of California-Davis, 1984
MS, Univ of California-Davis, 1987
PHD, Univ of California-Davis, 1992

Bayne, Christopher 1970, Emeritus, Integrative Biology
Bazanele, Penny 2013, Instructor, World Languag & Cultures
Degrees:
BA, Univ of Colorado-Boulder, 1977
MA, Univ of Colorado-Boulder, 1979

Beaird, Nicholas 2016, Research Associate (Post Doc), Earth, Ocean &
Atmo Sci
Degrees:
BA, Colby College, 2006
MS, University of Washington, 2010
PHD, University of Washington, 2013

Beal, Cynthia 2012, Lecturer, Crop and Soil Science
Beamer, Jennifer 2008, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Cal State Univ-Chico, 1999
BA, Humboldt State University, 1999
MS, Cal State Univ-Chico, 2008
PHD, Oregon State University, 2013

Bean, Anna 2011, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 2016

Bean, Mindy 2017, Instructor (PAC), Physical ActivityCourses
Degrees:
MBA, Chadron State College, 2012

Bearden, David 2001, Department Chair, Pharmacy
Degrees:
D PHAR, Univ of Illinois-Chicago, 1997

Beatty, Joseph 1974, Emeritus, Integrative Biology
Beaudry, Christopher 2009, Associate Professor, Chemistry
Degrees:
BS, Univ of Wisconsin-Madison, 2000
PHD, Univ of California-Berkeley, 2005

Beaver, Laura 1998, Research Associate, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Oregon State University, 2000
MS, Oregon State University, 2002
PHD, George Washington University, 2008

Becherer, Johannes 2015, Research Associate (Post Doc), Earth, Ocean &
Atmo Sci
Degrees:
MS, University of Rostock, 2010
Beck, Jessica 1998, Asst Dean-Grad School Dev, Graduate School Admin Degrees:  
BA, Rutgers University-New Brunswi, 1995  
MED, Oregon State University, 1997  
PHD, Oregon State University, 2001

Becker, Christopher 2014, Instructor (PAC), Physical Activity Courses Degrees:  
BA, University of Oregon, 2014

Becker, Laurence 2002, Dir-ESUP, Earth, Ocean & Atmo Sci, Professor Degrees:  
BA, Univ of California-Berkeley, 1981  
MA, Stanford University, 1982  
PHD, Univ of London, 1989

Becker, Lorene 2003, Senior Instructor I, Earth, Ocean & Atmo Sci Degrees:  
BS, Pitzer College, 1981  
MS, Univ of Wisconsin-Madison, 1999

Becker, Boris 1970, Emeritus, College of Business

Becker, Gerald 1968, Emeritus, College of Education

Becker, Robert 1962, Emeritus, Biochem/Biophysics

Becker-Blease, John 2009, Associate Dean, College of Business, Associate Professor Degrees:  
BS, University of Florida, 1996  
BA, Univ of New Hampshire-Durham, 1993  
PHD, University of Oregon, 2002

Becker-Blease, Kathryn 2009, Associate Professor, Sch of Psychological Sci, Dir-Sch of Psychosocial Sci Degrees:  
BS, University of Oregon, 1998  
MA, University of Oregon, 1999  
PHD, University of Oregon, 2002

Beckman, Joseph 2001, Distinguished Professor, Biochem/Biophysics Degrees:  
BA, Univ of Colorado-Boulder, 1975  
MA, Univ of Colorado-Boulder, 1977  
PHD, Duke University, 1984

Bee, Colleen 2008, Associate Professor, College of Business Degrees:  
BA, University of Waterloo, 1998  
MA, University of Waterloo, 2000  
PHD, University of Oregon, 2005

Beechler, Brianna 2005, Assistant Professor (Sr Res), Vet Biomedical Science Degrees:  
BA, Bucknell University, 2002  
DVM, Oregon State University, 2008  
PHD, Oregon State University, 2013

Beged-Dov, Yael 2010, Instructor, World Languag & Cultures Degrees:  
BS, Oregon State University, 1994

Behan, Jeffrey 2001, Faculty Research Assistant, Institute Natr Res Dir Degrees:  
BS, Northern Arizona University, 1984  
MS, Northern Arizona University, 1997

Behrenfeld, Michael 2004, Professor, Ag Botany/Plant Path Degrees:  
BS, Eastern Washington University, 1987  
MS, Oregon State University, 1989  
PHD, Oregon State University, 1993

Beilby, Pamela 2012, Faculty Research Assistant, Biochem/Biophysics Degrees:  
BS, Univ of California-Irvine, 1989  
MA, Portland State University, 2006  
PHD, Oregon State University, 2017

Beisiegel, Mary 2012, Assistant Professor, Mathematics Degrees:  
MS, Virginia Polytechnic Institute, 1998  
MS, Foreign Institution, 2005  
PHD, Foreign Institution, 2009

Belart, Francisca 2012, Assistant Professor, Forest Eng/Resources/Mgmt Degrees:  
BS, Universidad Austral De Chile, 2006  
MS, Oregon State University, 2008  
PHD, Oregon State University, 2016

Bell, Neil 1990, Professor (Practice), Ext Marion County Office Degrees:  
BS, University of British Columbia, 1990  
MS, Oregon State University, 1992

Bell, Randy 2012, Professor, College of Education Degrees:  
BS, Marshall University, 1984  
MS, Duke University, 1987  
PHD, Oregon State University, 1999

Bell, Samuel 2016, Assistant Professor (Sr Res), Applied Economics Degrees:  
BS, Foreign Institution, 1998  
BSEE, Foreign Institution, 1999  
PHD, Cornell University-Ithaca, 2015

Bell, Christopher 1981, Emeritus, Sch of Civil/Constr Engr

Bell, J 1962, Emeritus, Sch of Civil/Constr Engr

Bell, John 1959, Emeritus, Forest Eng/Resources/Mgmt

Bella, David 1967, Emeritus, Sch of Civil/Constr Engr

Below, Amy 2009, Associate Professor, Political Science Degrees:  
BA, Univ of Cal-Santa Barbara, 1997  
MA, Univ of Southern California, 2000  
PHD, Univ of Southern California, 2008

Bengtson, George 1979, Emeritus, College of Forestry Adm

Bennett, Max 1999, Associate Professor, Ext Jackson Co Office Degrees:  
BA, University of Oregon, 1987
MS, Oregon State University, 1993

**Bennett, Andrew** 1987, Emeritus, Earth, Ocean & Atmo Sci

**Bennett Jr, Clean** 1959, Emeritus, Speech Communication

**Benoit, Montaigne** 2017, Instructor, World Languag & Cultures

Degrees:
- BA, University of Arizona, 1993
- MA, Portland State University, 2010

**Benoit-Bird, Kelly** 2004, Professor, Earth, Ocean & Atmo Sci

Degrees:
- BS, Brown University, 1998
- PHD, Univ of Hawaii at Manoa, 2003

**Bentley-Townlin, Tracy** 1990, Manager of Access Services, Disability Access Srvcs

Degrees:
- BA, University of New Mexico, 1987
- BS, University of New Mexico, 1987
- MED, Oregon State University, 1994
- PHD, Oregon State University, 2002

**Beran, Kurt** 1975, Emeritus, College of Business

**Berg, Laura** 2011, Head Coach-Softball, Intercolleg Athletics

Degrees:
- BS, Cal State Univ-Fresno, 1998

**Bergan, Nicholas** 2012, Instructor, Economics

Degrees:
- BA, ST Louis University, 2002
- MS, Florida State University, 2004

**Berger, David** 2008, Associate Professor, College of Business

Degrees:
- BS, Washington State University, 2003
- PHD, Washington State University, 2008

**Bergeron, D** 1974, Emeritus, Fisheries and Wildlife

**Bergevin, Joseph** 2016, Faculty Research Assistant, Sch of Chem/Bio/Envr Eng

Degrees:
- BS, San Jose State University, 2000

**Berman, Tsipora Claudia** 2007, Instructor (PAC), Physical ActivityCourses

Degrees:
- BS, Univ of Michigan-Ann Arbor, 1976
- MED, Antioch University, 1993

**Bermudez, Luiz** 2002, Distinguished Professor, Vet Biomedical Science, Department Head, Veterinary Medicine

Degrees:
- MD, Federal Univ of Rio de Janeiro, 1978

**Bernard, Kim** 2012, Assistant Professor, Earth, Ocean & Atmo Sci

Degrees:
- BS, Rhodes University, 2001
- MS, Rhodes University, 2003
- PHD, Rhodes University, 2007

**Bernardin, Susan** 2017, Associate Professor, Sch Lang, Culture & Soc

**Bernell, David** 2001, Dir-MA/MS Interdisc Studies, Graduate School Admin, Associate Professor, Political Science

Degrees:
- BA, University of New Mexico, 1988
- MA, Johns Hopkins University, 1994
- PHD, Johns Hopkins University, 1997

**Bernell, Stephanie** 2001, Associate Dean, Graduate School Admin, Associate Professor, Sch of Soc/Bhav Hlth Sci

Degrees:
- BA, American University, 1990
- MA, American University, 1992
- PHD, Johns Hopkins University, 1999

**Bernert, Joseph** 2009, Lead GIS Analyst, INR-Or Biodvrsty InfoCtr

Degrees:
- BS, Oregon State University, 1985
- MS, Oregon State University, 1987

**Bernieri, Frank** 2001, Professor, Sch of Psychological Sci

Degrees:
- BA, University of Rochester, 1983
- PHD, Harvard University, 1988

**Berry, Ralph** 1968, Emeritus, Ag Botany/Plant Path

**Beschta, Robert** 1974, Emeritus, Forest Ecosyst & Society

**Besse Jr, Ralph** 1963, Emeritus, College of Ag Admin

**Bethel, Jeffrey** 2011, Associate Professor, Sch of Bio/Pop Hlth Sci

Degrees:
- BS, Univ of California-Davis, 1997
- PHD, Univ of California-Davis, 2005

**Betjemann, Peter** 2005, Director-SWLF, Liberal Arts Admin, Associate Professor, Sch of Wrtg Lit & Film

Degrees:
- BA, Vassar College, 1995
- MA, Princeton University, 1998
- PHD, Princeton University, 2004

**Betts, Matthew** 2007, Professor, Forest Ecosyst & Society

Degrees:
- BS, University of New Brunswick, 1999
- MA, University of Waterloo, 1995
- PHD, University of New Brunswick, 2005

**Beuthin, Mary** 2007, Instructor, Crop/Soil Sci Extension

Degrees:
- BS, Oregon State University, 2010

**Beyer, Erika** 2013, Instructor, College of Business

Degrees:
- BA, Carleton College, 1999
- MARCH, University of Oregon, 2010

**BezerradaSilva, Cherre Sade** 2016, Research Associate (Post Doc), Horticulture

Degrees:
- BS, Foreign Institution, 2004
- MS, Foreign Institution, 2007
- PHD, Foreign Institution, 2011
Bhattacharyya, Shamodeep 2015, Assistant Professor, Statistics (Science)
Degrees:
PHD, Univ of California-Berkeley, 2013

Biedenweg, Kelly 2015, Assistant Professor, Fisheries and Wildlife
Degrees:
BS, Western Washington University, 1998
MS, Keene State College, 2005
PHD, University of Florida, 2010

Biesack, Ryan 2009, Instructor, Music
Degrees:
BMUS, Univ of Wisconsin-Stevens Pt, 2006
MA, University of Oregon, 2009

Biespel, David 2001, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Boston University, 1986
MFA, Univ of Maryland-College Park, 1991

Biga, Lindsay 2006, Instructor, Integrative Biology
Degrees:
BA, Denison University, 2005
PHD, Oregon State University, 2013

Bildfell, Robert 1998, Professor, Vet Biomedical Science
Degrees:
MS, Univ of Prince Edward Island, 1989
DVM, University of Guelph, 1985

Biles, Kathy 1997, Senior Instructor I, Acad Prog/Student Aff
Degrees:
BS, Charleston Southern University, 1996
MS, Oregon State University, 2000
PHD, Oregon State University, 2004

Binney, Stephen 1973, Emeritus, Sch Nuclear Sci & Engr

Bionaz, Massimo 2012, Assistant Professor, Animal & RngLnd Sciences
Degrees:
MS, Foreign Institution, 2000
PHD, Foreign Institution, 2004

Birkes, David 1972, Emeritus, Statistics (Science)

Bishaw, Badege 1993, Senior Instructor I, Forest Ecosyst & Society, Dir-Program
Degrees:
BS, Addis Ababa University, 1979
MS, Tech Univ of Dresden, 1985
PHD, Oregon State University, 1993

Bishop, Cecily 2002, Assistant Professor, Animal & RngLnd Sciences
Degrees:
BS, Washington State University, 2001

Biskup, Jeffery 2018, Assistant Professor, Vet Clinical Sciences
Degrees:
DVM, University of Guelph, 2009

Bixler, Kirsten 2003, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BA, Franklin Marshall College, 1999

Black, J Lynette 2004, Associate Professor, EXT 4-H YouthDev OnCmps
PHD, Univ of California-San Diego, 1982

**Blouin, Michael** 1995, Professor, Integrative Biology
Degrees:
BA, University of Virginia, 1982
MS, Florida State University, 1986
PHD, Florida State University, 1989

**Blouin, Wilbur** 1957, Emeritus, Extension Service Program

**Bluhm, Andrew** 2000, Senior Faculty Research Asst I, Forest Ecosyst & Society
Degrees:
BS, Univ of Minnesota-Twin Cities, 1993
MS, University of Georgia, 1997

**Bluhm, Wilbur** 1957, Emeritus, Extension Service Program

**Bluhm, Andrew** 2000, Senior Faculty Research Asst I, Forest Ecosyst & Society
Degrees:
BS, Univ of Minnesota-Twin Cities, 1993
MS, University of Georgia, 1997

**Bluhm, Wilbur** 1957, Emeritus, Extension Service Program

**Blunck, David** 2013, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BSME, Brigham Young University Main, 2005
PHD, Purdue University Main Campus, 2010

**Blythe, Linda** 1978, Emeritus, Vet Biomedical Science

**Boal, Nathan** 2009, Instructor, Music
Degrees:
BA, Valparaiso University, 2000

**Bobba, Rakesh** 2014, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Birla Inst of Tech Science, 2000
MS, Univ of Maryland-College Park, 2007
PHD, Univ of Maryland-College Park, 2009

**Bobbitt, Andra** 1991, Senior Faculty Research Asst I, CIMRS (Inst/Marine Res)
Degrees:
BA, Univ of California-San Diego, 1984

**Bobe, Gerd** 2009, Associate Professor, Animal & Rnglnd Sciences
Degrees:
MS, Iowa State University, 1997
MPH, Johns Hopkins University, 2006
PHD, Iowa State University, 2002

**Bodman, Susannah** 2000, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Portland State University, 2013
BA, University of Oregon, 1991
MA, Oregon State University, 2002

**Bodyfelt, Floyd** 1964, Emeritus, Food Sci/Tech Extension

**Boedtker, Olaf** 1961, Emeritus, Physics

**Boehlert, George** 2002, Emeritus, Fisheries and Wildlife

**Boersma, Larry** 1960, Emeritus, Crop and Soil Science

**Bogart, Kathleen** 2012, Assistant Professor, Sch of Psychological Sci
Degrees:
BS, Louisiana St Univ and A M, 2004
MA, San Francisco State University, 2008
PHD, Tufts University, 2012

**Boggess, William** 1995, Professor, Applied Economics, Exec Assoc Dean & Asst Dir, College of Ag Admin
Degrees:
BS, Iowa State University, 1974
PHD, Iowa State University, 1979

**Bogley, William** 1990, Professor, Mathematics
Degrees:
BA, Dartmouth College, 1981
MS, University of Oregon, 1983
PHD, University of Oregon, 1987

**Bohle, Mylen** 1989, Associate Professor, Ext Crook County Office
Degrees:
BS, Montana State Univ-Bozeman, 1979
BS, Montana State Univ-Bozeman, 1975
MS, Oregon State University, 1989

**Bohler, Sandra** 2017, Faculty Research Assistant, COMES - Newport Exp Sta
Degrees:
BA, New College of Florida, 2004
BS, Univ of Southern Mississippi, 2011
MS, Univ of Southern Mississippi, 2013

**Bohnert, David** 1998, Professor, EOARC - Burns Exp Sta, Director
Degrees:
BS, Angelo State University, 1990
MS, Angelo State University, 1994
PHD, University of Kentucky, 1998

**Bokil, Vrushali** 2006, Associate Professor, Mathematics
Degrees:
BS, University of Pune, 1991
MS, New Mexico St Univ-Main, 1996
MS, Indian Institute of Technology, 1993
PHD, University of Houston, 2003

**Bolden, David** 2008, Instructor (PAC), Physical Activity Courses
Degrees:
BS, Touro College, 2008

**Bolling, Jessica** 2014, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Puget Sound, 2012
MA, University of Oregon, 2014

**Bollmann, Stephanie** 2007, Faculty Research Assistant, Integrative Biology
Degrees:
BS, Kansas State University, 2002
PHD, Oregon State University, 2008

**Bolte, John** 1987, Department Head, Biol & Ecol Engineering, Professor
Degrees:
BS, University of Florida, 1979
MS, University of Florida, 1983
PHD, Auburn University Central Offi, 1987

**Bonady, Devon** 2016, Instructor, Horticulture
Degrees:
BA, Dartmouth College, 2000
MS, University of Oregon, 2012
Bond, Barbara 1992, Emeritus, Forest Ecosyst & Society

Bondi, Michael 1978, Professor, Ext Clackamas Co Office, Regional Administrator, Extension Service Admin, Director, North Willamette Exp Sta
Degrees:
BS, Iowa State University, 1973
MS, Univ of Canterbury, 1977

Bonham, Carl 1955, Emeritus, Extension Service Program

Bonventre, Josephine 2012, Research Associate (Post Doc), Biochem/Biophysics
Degrees:
BS, Gettysburg College, 2004
MS, Adelphi University, 2006
PHD, Rutgers University-Central Off, 2012

Boock, Michael 2003, Associate Professor, Library
Degrees:
BA, Univ of Wisconsin-Milwaukee, 1989
MLS, Kent State Univ-Main Campus, 1994

Boone, Carmen 2004, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Univ Peruana Cayetano Heredia, 1996
MS, Oregon State University, 2007

Boonstra, Michael 2011, Instructor, Art
Degrees:
BFA, Univ of Michigan-Ann Arbor, 1996
MFA, University of Oregon, 2002

Boots, Donald 1977, Emeritus, Student Health Services

Boovy, Bradley 2012, Assistant Professor, World Languag & Cultures
Degrees:
MA, Tulane University, 2003
MA, Univ of Texas-Austin, 2006
PHD, Univ of Texas-Austin, 2012

Boren, Blake 2006, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
PHD, Oregon State University, 2015

Borg, Tharald 1967, Emeritus, Music

Borman, Michael 1992, Emeritus, Animal & Rnglnd Sciences

Borodale, Glencora 2009, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Western Ontario, 2002
MS, Brown University, 2004
PHD, Brown University, 2008

Bose, Bella 1980, Associate School Head, Sch Elect Engr/Comp Sci, Professor
Degrees:
BS, Madras Christian College, 1973
MENG, Indian Institute of Science, 1975
PHD, Southern Methodist University, 1980

Bosma, Bret 2009, Research Associate, Sch of Civil/Constr Engr
Degrees:
BS, Cal State Univ-Chico, 2005
MS, Cal State Univ-Chico, 2008

PHD, Oregon State University, 2013

Bothwell, Michelle 1994, Associate Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Purdue University Main Campus, 1989
PHD, Cornell University, 1994

Bottomley, Peter 1979, Emeritus, Microbiology (Science)

Bottoms, SueAnn 2000, Assistant Professor, College of Education
Degrees:
BS, Eastern Oregon University, 1987
MS, Oregon State University, 1997
PHD, Oregon State University, 2007

Boucher, Christopher 2016, Instructor, Acad Prog/Student Aff
Degrees:
MFA, Syracuse University-Main Campu, 2002

Boudet, Hilary 2012, Assistant Professor, Sociology
Degrees:
BA, Rice University, 2001
PHD, Stanford University, 2010

Boudinot, Victoria 2011, Instructor, Acad Prog/Student Aff
Degrees:
BS, Portland State University, 1984
MS, Central Oregon Com College, 2007

Boudrea, Nabil 2003, Associate Professor, World Languag & Cultures
Degrees:
BA, Foreign Institution, 1993
MA, CUNY Queens College, 1998
PHD, Louisiana St Univ and A M, 2002

Bourdeau, Virginia 1987, Professor, EXT 4-H YouthDev OnCmps
Degrees:
BS, Oregon State University, 1980
MS, Southern Oregon University, 1983

Bourne, Amy 2006, Senior Instructor I, College of Business
Degrees:
BS, Texas Tech University, 1996
MS, Texas Tech University, 1996
PHD, Anderson University, 2008

Bouska, Cassie 2004, Assistant Professor (Practice), Ext Coos County Office
Degrees:
BS, Oregon State University, 2000
MS, Oregon State University, 2004

Bouwma, Andrew 2012, Instructor, Integrative Biology
Degrees:
BS, Calvin College, 1996
MS, Univ of Wisconsin-Madison, 2001
PHD, Univ of Wisconsin-Madison, 2003

Bouwma-Gearhart, Jana 2012, Associate Professor, College of Education
Degrees:
BA, Lawrence University, 1995
MS, Univ of Wisconsin-Madison, 2003
PHD, Univ of Wisconsin-Madison, 2008
Bovbjerg, Marit 2009, Assistant Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BA, University of Virginia, 1999
MS, University of Virginia, 2002
PHD, Univ of N Carolina-Chapel Hill, 2010

Bovbjerg, Viktor 2009, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Iowa State University, 1985
MPH, University of Washington, 1992
PHD, University of Washington, 1996

Bowers, Stephanie 1999, Senior Instructor I, Mathematics
Degrees:
BS, Linfield College, 1994
MS, Oregon State University, 2001

Bowker, Judith 1991, Emeritus, Speech Communication

Bowman, Sally 1993, Emeritus, Sch of Soc/Bhav Hlth Sci

Boyd-Berman, Holly 2009, Instructor, College of Education
Degrees:
BA, Emory University, 1999
MA, Georgia State University, 2006

Boyle, James 1981, Emeritus, Forest Eng/Resources/Mgmt

Braaten, Justin 2009, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BA, Univ of N Dakota-Main Campus, 2007
MS, Univ of N Dakota-Main Campus, 2009

Bracha, Shay 2010, Assistant Professor, Vet Clinical Sciences
Degrees:
MS, Michigan State University, 2006
DVM, Foreign Institution, 2003

Bradley, Elise 2014, Instructor, College of Education
Degrees:
BS, Western Oregon University, 1981
MS, Western Oregon University, 1985

Bradshaw, Julia 2012, Associate Professor, Art
Degrees:
BA, Santa Clara University, 1997
MFA, San Jose State University, 2007

Braithwaite, Emily 2017, Faculty Research Assistant, Horticulture
Degrees:
BS, Rutgers University-Newark, 2016

Braithwaite, Susan 2018, Instructor, College of Education
Degrees:
BA, Cal State Univ-Fullerton, 1978
MAT, Lewis Clark College, 1988

Braker, Marjorie 1979, Emeritus, EXT Fam/CommHlth OnCmps

Branch, Harrison 1972, Emeritus, Art

Brander, Susanne 2017, Assistant Professor (Sr Res), Enviro/Molecular Toxic
Degrees:
BS, Elizabethtown College, 1999
MS, Johns Hopkins University, 2005
PHD, Univ of California-Davis, 2011

Brandt, Jeanne 1985, Professor, Ext Linn County Office
Degrees:
BS, Oregon State University, 1982
MS, Oregon State University, 1984

Brandt, Stephen 2009, Professor, Fisheries and Wildlife
Degrees:
BA, Univ of Wisconsin-Madison, 1972
MS, Univ of Wisconsin-Madison, 1975
PHD, Univ of Wisconsin-Madison, 1978

Brandt, Jeanette 1973, Emeritus, College of Business

Brandt, Patricia 1962, Emeritus, Information Services

Brandt, William 1956, Emeritus, Ag Botany/Plant Path

Branscum, Adam 2010, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
MS, Cal State University-East Bay, 2000
MS, Univ of California-Davis, 2005
PHD, Univ of California-Davis, 2005

Brasted-Maki, Donald 2008, Instructor, Sch of Wrtg Lit & Film
Degrees:
BS, Univ of Minnesota-Twin Cities, 1980
MA, Middlebury College, 1986
PHD, Temple University, 2001

Braun, Clare 2012, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Arizona, 2007
MFA, Oregon State University, 2014

Brauner, David 1975, Emeritus, Anthropology

Braunworth Jr, William 1986, Associate Professor, Horticulture, Department Head
Degrees:
BS, Colorado State University, 1975
MS, Colorado State University, 1977
PHD, Oregon State University, 1986

Braverman, Marc 2005, Professor, EXT Fam/CommHlth OnCmps
Degrees:
BA, University at Buffalo, SUNY, 1972
MS, Univ of Wisconsin-Madison, 1975
PHD, Univ of Wisconsin-Madison, 1982

Bray, Tammy 2002, Dean Emeritus, Public Hlth/HumanSci Adm, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Fu-Jen Univ Chinese Language I, 1967
MS, Washington State University, 1971
PHD, Washington State University, 1974

Breece, Carolyn 2004, Senior Faculty Research Asst I, Horticulture
Degrees:
BS, University of Oregon, 1999
MS, Northern Arizona University, 2006
Breen, Patrick 1974, Emeritus, Horticulture

Brekken, Christine 2007, Instructor, Applied Economics, Research Associate
Degrees:
BA, University of St Thomas, 1998
MS, Oregon State University, 2011
JD, Univ of Minnesota-Twin Cities, 2005

Brekken, Ted 2006, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BSEE, Univ of Minnesota-Twin Cities, 1999
MS, Univ of Minnesota-Twin Cities, 2002
PhD, Univ of Minnesota-Twin Cities, 2005

Brennan, William 1966, Emeritus, Dean of Students

Brewer, Linda 2000, Senior Faculty Research Asstll, Horticulture
Degrees:
BA, Univ of Missouri-Kansas City, 1974
MS, Oregon State University, 2001

Brewer, Wesley 2016, Associate Professor, Music
Degrees:
BMUS, Arizona State University, 1999
MM, Southern Oregon University, 2005

Brewer, Donald 1957, Emeritus, Crop and Soil Science

Brewster, Benjamin 2001, Instructor, Sch Elect Engr/Comp Sci
Degrees:
MS, Oregon State University, 2007

Brewster, Bill 1975, Emeritus, Crop and Soil Science

Breyta, Rachel 2016, Research Associate, Microbiology (Ag)
Degrees:
PhD, University of Washington, 2008

Bridges, Laurie 2000, Associate Professor, Library
Degrees:
BS, Univ of Nebraska-Lincoln, 1995
MLS, Seattle University, 2007
MS, Oregon State University, 1999

Britton, Gwyneth 1965, Emeritus, College of Education

Brizee, Lori 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, University of Washington, 1983

Brock, Isabelle 2006, Senior Instructor I, Sch of Wrtg Lit & Film
Degrees:
BA, Susquehanna University, 2004
MFA, Oregon State University, 2000

Broderick, William 1986, Emeritus, College of Education

Brodie, J Douglas 1975, Emeritus, Forest Eng/Resources/Mgmt

Brody, Barbara 2009, Assistant Professor (Practice), Ext Malheur Co Office
Degrees:
BS, Cal State Polytechnic - Pomona, 1997
MS, Cal State Polytechnic - Pomona, 1997

Brook, Edward 1996, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Duke University, 1985
MS, University of Montana, 1988
PhD, Massachusetts Inst of Technolo, 1993

Brookhyser, Evelyn 1966, Emeritus, EXT Fam/CommHlth OnCmps

Brooks, Lois 2010, Vice Provost-Information Svcs, Info Svcs Central Admin
Degrees:
BS, University of San Francisco,
MBA, Univ of California-Berkeley,

Brooks, Raymond 1997, Emeritus, College of Business

Brooks, Royal 1967, Emeritus, Biol & Ecol Engineering

Broome, Jon 2011, Instructor, College of Business
Degrees:
BS, United States Military Academy, 1982
MBA, University of Oregon, 1991

Broughton, Heather 2009, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Wyoming, 2008
DVM, Oregon State University, 2012
PhD, Oregon State University, 2017

Brown, D 2000, Instructor, Sch of Psychological Sci
Degrees:
BA, Cal State Univ-Fullerton, 1974
MS, Cal State Univ-Fullerton, 1976
PhD, Boston University, 1993

Brown, Jennifer 2015, Professor, Horticulture
Degrees:
BS, Univ of Illinois at Urbana-Cha, 2008
MS, Univ of Illinois at Urbana-Cha, 2001
PhD, Michigan State University, 2004

Brown, Nicole 2001, Instructor, College of Business
Degrees:
BA, Linfield College, 1999
MA, Oregon State University, 2004

Brown, Shane 2013, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, Oregon State University, 1995
MS, Univ of California-Davis, 1998
PhD, Oregon State University, 2005

Brown, Tami 2015, Instructor, Crop/Soil Sci Extension
Degrees:
BA, Cal State Univ-Sacramento, 1988
MSW, Walla Walla University, 1997

Brown, Carol 1978, Emeritus, College of Business

Brown, Clinton 1970, Emeritus, Art

Brown, Daniel 1974, Emeritus, College of Business

Brown, Dorothy 1955, Emeritus, Extension Service Prgram
Brown, Joy 1962, Emeritus, Extension Service Program

Brown, Kenneth 1963, Emeritus, Extension Service Program

Brown, Lyle 1970, Emeritus, Microbiology (Science)

Brown, Terence 1975, Emeritus, Wood Science/Eng

Browne, Anna 2016, Assistant Professor (Practice), Ext Umatilla Co Office

Degrees:
BA, Western Oregon University, 2002
MAT, Eastern Oregon University, 2004

Browne, Cornelius 2002, Associate Professor, Acad Prog/Student Aff, Sch of Wrtg Lit & Film

Degrees:
BA, University of Central Florida, 1993
MA, The Ohio State Univ Main, 1995
PHD, The Ohio State Univ Main, 2001

Browne, William 1970, Emeritus, College of Business

Brownell, Philip 1979, Emeritus, Integrative Biology

Brownill, George 1966, Dean Emeritus, College of Forestry Adm, Emeritus, Forest Eng/Resources/Mgmt

Brudvig, Robert 1999, Associate Professor, Music

Degrees:
BA, Oregon State University, 1993
BS, Oregon State University, 1989
MS, Portland State University, 1996

Brumley, Richard 1993, Emeritus, Library

Brummer, Fara 2004, Faculty Research Assistant, Ext Lake County Office

Degrees:
BS, Westchester Community College, 1990
MS, Oregon State University, 2009

Brunner, Charles 1984, Emeritus, Wood Science/Eng

Bruslind, Linda 1993, Senior Instructor II, Microbiology (Science)

Degrees:
BS, University of Arizona, 1991
MS, University of Arizona, 1993
PHD, Oregon State University, 1997

Bryan, M 1972, Emeritus, Univ Housing and Dining

Bryant, Nancy 1974, Emeritus, College of Business

Bubl, Charles 1978, Associate Professor, Ext Columbia Co Office

Degrees:
BS, Oregon State University, 1973
MS, Oregon State University, 1978

Buccola, Steven 1980, Emeritus, Applied Economics

Buchanan, Angelika 2018, Instructor, College of Business

Buck, Stefanie 2009, Associate Professor, Library

Degrees:
BA, Iowa State University, 1988
MLS, Univ of Hawaii at Manoa, 1993
MS, Univ of Hawaii at Manoa, 1993

Buckhouse, John 1975, Emeritus, Animal & RngInd Sciences

Buckland, Kristine 2017, Assistant Professor, North Willamette Exp Sta

Degrees:
MS, Utah State University, 2011
PHD, Utah State University, 2016

Bucy, David 1956, Emeritus, Facilities O&M Admin

Budd, Timothy 1986, Emeritus, Sch Elect Engr/Comp Sci

Bude, Tekla 2016, Assistant Professor, Sch of Wrtg Lit & Film

Degrees:
BS, Univ of Michigan-Ann Arbor, 2006
MS, Univ of Oxford Univ Offices, 2007
PHD, University of Pennsylvania, 2013

Buermeyer, Andrew 2000, Associate Professor, Enviro/Molecular Toxic

Degrees:
BS, SUNY-Albany, 1989
PHD, Univ of Wisconsin-Madison, 1994

Buhl, Kaci 2002, Associate Professor (Practice), Enviro/Molecular Toxic

Degrees:
BS, Michigan State University, 2000
MS, Michigan State University, 2002

Buirzert, Christo 2011, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci

Degrees:
BS, Delft Univ of Technology, 2003
MS, Delft Univ of Technology, 2007
PHD, Univ of Copenhagen, 2012

Bull, Tina 1996, Emeritus, Music

Buotte, Polly 1999, Research Associate (Post Doc), Forest Ecosyst & Society

Degrees:
BS, Colorado State University, 1991
MS, University of Montana, 1997
PHD, University of Idaho, 2015

Burand, Michael 2012, Senior Instructor I, Chemistry

Degrees:
BS, Univ of Minnesota-Duluth, 2000
MS, Univ of Minnesota-Twin Cities, 2003
PHD, Univ of Minnesota-Twin Cities, 2006

Burke, Molly 2015, Assistant Professor, Integrative Biology

Degrees:
BS, Univ of California-Los Angeles, 2004
Burke, Mary 1985, Emeritus, Microbiology (Science)
Burke, Michael 1984, Emeritus, Horticulture
Burkhardt, Brett 2011, Assistant Professor, Sociology
Degrees:
MS, Univ of Wisconsin-Madison, 2006
PHD, Univ of Wisconsin-Madison, 2011
Burnett, Margaret 1993, Distinguished Professor, Sch Elect Engr/Comp Sci
Degrees:
BA, Miami University-Oxford, 1970
MS, University of Kansas, 1981
PHD, University of Kansas, 1991
Burnett, Timothy 2016, Instructor, Acad Prog/Student Aff
Degrees:
BS, Cal State Univ-San Marcos, 2008
MS, San Diego State University, 2012
Burns, Leslie 1985, Emeritus, College of Business
Burr, Terry 2005, Instructor, Crop/Soil Sci Extension
Degrees:
BS, Oregon State University, 1987
Burridge, Judith 1968, Emeritus, Extension Service Prgrm
Burris, Frank 2000, Associate Professor, Ext Curry County Office
Degrees:
BS, Univ of Alaska Fairbanks, 1986
MS, Univ of Alaska Fairbanks, 1991
Burris, Nedry 1968, Emeritus, Business Affairs
Burrows, Sean 2012, Assistant Professor, Chemistry
Degrees:
BS, University of Central Florida, 2004
PHD, Texas Tech University, 2009
Burt, John 1973, Emeritus, General Agriculture
Burt, Lawrence 1979, Emeritus, Applied Econ Extension
Burton, Vicki 1993, Professor, Sch of Wrtg Lit & Film, Director, Writing Intensive Prgrm
Degrees:
BA, Wake Forest University, 1967
MAT, Duke University, 1968
PHD, Auburn University Main Campus, 1993
Burton, Robert 1978, Emeritus, Mathematics
Busby, Posy 2001, Assistant Professor, Ag Botany/Plant Path
Degrees:
BA, Harvard University, 2002
MS, Harvard University, 2006
PHD, Stanford University, 2012
Bush, Nathan 2016, Instructor, Theatre
Degrees:
MFA, Western Illinois University, 2013
Bushnell, Bobette 1995, Senior Instructor I, Speech Communication
Degrees:
BS, Brigham Young University Main, 1966
MA, Brigham Young University Main, 1969
PHD, Oregon State University, 1993
Bushnell, John 2007, Senior Instructor I, Sch of Wrtg Lit & Film
Degrees:
BA, Linfield College, 2002
MFA, University of Oregon, 2007
Bushnell, Tyler 2006, Instructor (PAC), Physical Activity
Courses
Degrees:
BS, Brigham Young University Main, 2002
MS, Brigham Young University Main, 2005
Busler, Susan 1987, Associate Professor, Ext Polk County Office
Degrees:
BS, Kent State Univ-Main Campus, 1983
MPA, Seattle University, 1986
Butcher, Karyle 1981, Emeritus, Library
Butler, David 1975, Emeritus, Statistics (Science)
Butler, Marvin 1991, Emeritus, Crop and Soil Science
Byrne, John 1964, Emeritus, Earth, Ocean & Atmo Sci, President Emeritus, Office of the President
C
Cabak, Carrie 2013, Instructor, College of Business
Degrees:
BS, Cal Poly State-San Luis Obispo, 1985
MBA, Willamette University, 2017
MS, San Jose State University, 1999
Caballero-Ignacio, Clarisa 2012, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 2017
Cabot, Nick 2016, Instructor, College of Education
Degrees:
BA, University of San Diego, 1975
MS, University of Washington, 1993
PHD, University of Washington, 2008
Cabrera, DeMar 2004, Instructor, Speech Communication
Degrees:
BA, Stanford University, 2004
MS, Oregon State University, 2006
MFA, Boston University, 2013
Cadart-Ricard, Odette 1965, Emeritus, World Languag & Cultures
Cadell, Seth 2007, Assistant Professor (Sr Res.), Sch Nuclear Sci & Engr
Degrees:
BS, Principia College, 2007
MS, Oregon State University, 2009
PHD, Oregon State University, 2013
Cahn, Megan 2008, Research Associate (Post Doc), Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Napa Valley College, 2002
Caldwell, Douglas 1968, Emeritus, Earth, Ocean & Atmo Sci
Caldwell, George 2003, Emeritus, Speech Communication
Calvert, Janet 1982, Emeritus, Extension Service Program
Calvert, Leonard 1961, Emeritus, Ext/Exp S Communications
Calvo-Amodio, Francisco 2012, Assistant Professor, Sch of Mech/Ind/ Mfg Engr
 Degrees:
 BS, Foreign Institution, 2000
 MS, Foreign Institution, 2003
 PHD, Texas Tech University, 2012
 Cameron, H 1955, Emeritus, Ag Botany/Plant Path
 Campana, Michael 2006, Professor, Earth, Ocean & Atmo Sci
 Degrees:
 BS, College of William Mary, 1970
 MS, University of Arizona, 1973
 PHD, University of Arizona, 1975
 Campbell, Courtney 1990, Hundere Chair, Philosophy, Professor
 Degrees:
 BA, Yale University, 1981
 MA, Univ of Virginia-Main Campus, 1984
 PHD, Univ of Virginia-Main Campus, 1988
 Campbell, Holly 2007, Instructor, Fisheries and Wildlife, Political Science
 Degrees:
 BA, Northern Illinois University, 1979
 MS, University of Utah, 2006
 JD, University of Oregon, 1991
 PHD, Oregon State University, 2011
 Campbell, John 2000, Assistant Professor (Sr Res), Forest Ecosystems & Society
 Degrees:
 BA, Reed College, 1991
 MS, Univ of Wisconsin-Madison, 1998
 PHD, Oregon State University, 2004
 Campbell, Matthew 2013, Professor, Sch of Mech/Ind/Mfg Engr
 Degrees:
 BS, Carnegie Mellon University, 1995
 MS, Carnegie Mellon University, 1997
 PHD, Carnegie Mellon University, 2000
 Campbell, Scott 2014, Instructor, Sch of Mech/Ind/Mfg Engr
 Degrees:
 BS, Oregon State University, 2014
 MS, Oregon State University, 2016
 Campbell, Elizabeth 1984, Emeritus, Sch of Wrng Lit & Film
 Campbell, Kay 1987, Emeritus, Art
 CampbellIII, Allan 1976, Emeritus, Forest Ecosystems & Society
 Cann, David 2004, Professor, Sch of Mech/Ind/Mfg Engr
 Degrees:
 BS, Virginia Polytechnic Institute, 1991
 MS, Penn State Univ-Main Campus, 1993
 PHD, Penn State Univ-Main Campus, 1997
 Cannon, Lynn 1963, Emeritus, Extension Service Program
 Capalbo, Susan 2008, Professor, Applied Economics, Senior Vice Provost-
 Acad Aff, Provost/Exec Vice Pres
 Degrees:
 BA, University of Rhode Island, 1974
 MS, University of Rhode Island, 1976
 PHD, Univ of California-Davis, 1982
 Cappellazzi, Jed 2010, Faculty Research Assistant, Wood Science/Engr
 Degrees:
 BS, SUNY Coll-Env Sci Forestry, 2007
 MS, Oregon State University, 2014
 Cardinal, Bradley 1997, Professor, Sch of Bio/Pop Hlth Sci
 Degrees:
 BA, Eastern Washington University, 1985
 MS, Eastern Washington University, 1987
 PHD, Temple University, 1993
 Cardwell, Allison 2010, Senior Faculty Research Asst I, Enviro/Molecular Toxic
 Degrees:
 BS, University of Washington, 1998
 CareyJr, Andrew 1961, Emeritus, Earth, Ocean & Atmo Sci
 Carlisle, Trevor 2016, Instructor, Sch of Chem/Bio/Envr Eng
 Degrees:
 PHD, Univ of Colorado-Boulder, 2011
 Carlson, Anders 2002, Associate Professor, Earth, Ocean & Atmo Sci
 Degrees:
 BA, Augustana College, 2001
 MS, Univ of Wisconsin Colleges, 2002
 PHD, Oregon State University, 2006
 Carlson, Angela 1969, Senior Instructor I, Music
 Degrees:
 BA, University of Idaho, 1964
 MM, Univ of Wisconsin-Madison, 1965
 Carlson, Marlan 1969, Professor, Music
 Degrees:
 MM, University of Rochester, 1961
 MA, Kansas State University, 1959
 Carlson, Roy 1958, Emeritus, Sch of Wrng Lit & Film
 Carlson, Theodore 1961, Emeritus, Liberal Arts Admin
 Carozza, Susan 2009, Associate Professor, Sch of Bio/Pop Hlth Sci
 Degrees:
 BS, Texas AM Univ-College Station, 1981
 MPH, Univ of N Carolina-Chapel Hill, 1993
 PHD, Univ of N Carolina-Chapel Hill, 1997
 Carpena-Mendez, Fina 2009, Assistant Professor, Anthropology
 Degrees:
 BA, Univ Autonoma de Barcelona, 1996
 MA, Univ Autonoma de Barcelona, 1998
PHD, Univ of California-Berkeley, 2006

**Carpenter, Bret** 2017, Instructor, College of Business
Degrees:
BS, Cal State Polytechnic - Pomona, 1986
MS, Cal State Polytechnic - Pomona, 1992

**Carr, Emily** 2013, Dir-MFA-Creative Writing, Acad Prog/Student Aff
Degrees:
BA, Univ of Missouri-Columbia, 2000
MFA, Univ of N Carolina-Wilmington, 2004
PHD, Nazarene University College, 2011

**Carr, Jay** 1979, Emeritus, Animal & Rnglnd Sci Extn

**Carrell, Steven** 2011, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BS, Oregon State University, 2016

**Carroll, Carleton** 1974, Emeritus, World Languag & Cultures

**Carson, Mina** 1989, Professor, History
Degrees:
BA, Harvard University, 1975
MS, Portland State University, 1995
MA, Harvard University, 1979
PHD, Harvard University, 1984

**Carter, Rich** 1997, Professor, Chemistry
Degrees:
BS, Gettysburg College, 1993
PHD, Univ of Texas-Austin, 1997

**Carter, David** 1961, Emeritus, Mathematics

**Carter, W** 1980, Emeritus, Extension Service Prgram

**Casas, Ruben** 2006, Instructor, Ethnic Studies
Degrees:
BFA, Chapman University, 2004
MA, Chapman University, 2006

**Case, Patricia** 2000, Associate Professor, Ext Klamath Co Office
Degrees:
BS, Univ of California-Davis, 1984
MS, Univ of Nebraska-Lincoln, 1987

**Casey, Patrick** 1994, Head Coach-Baseball, Intercolleg Athletics
Degrees:
BS, George Fox University, 1988

**Cassady, John** 2005, Emeritus, Pharmacy

**Cassidy, James** 2003, Senior Instructor I, Crop and Soil Science
Degrees:
BS, Oregon State University, 2000
MS, Oregon State University, 2002

**Cassidy, Kevin** 2011, Instructor, College of Business
Degrees:
BS, Virginia Polytechnic Institute, 1975
MBA, Univ of Colorado-Boulder, 1984

**Castagnoli, Steve** 1992, Associate Professor, Ext Hood River Co Office, Director, Mid-Columbia Exp Sta
Degrees:
BA, Univ of California-Santa Cruz, 1981
MS, Univ of California-Davis, 1988

**Castle, Emery** 1954, Emeritus, Applied Economics

**Castner, Rebecca** 2017, Assistant Professor (Clinical), Pharmacy
Degrees:
BS, University of Dayton, 2005
D PHAR, University of Baltimore, 2010

**Catania, Joseph** 2006, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Univ of Wisconsin-Madison, 1975
MA, University of Chicago, 1977
PHD, Univ of Cal-San Francisco, 1986

**Cate, Rachael** 2009, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BA, Portland State University, 2009
MA, Oregon State University, 2011

**Cating, Robert** 2013, Faculty Research Assistant, Hermiston Exp Sta
Degrees:
BA, Indiana University-Bloomington, 2002
MS, University of Florida, 2010
PHD, University of Florida, 2010

**Caughey, Carol** 1990, Emeritus, College of Business

**Cazares-Cervantes, Abraham** 2015, Instructor, College of Education
Degrees:
PHD, Oregon State University, 2014

**Caze, Jessica** 1999, Instructor (PAC), Physical Activity Courses
Degrees:
BS, Oregon State University, 2004

**Cebra, Christopher** 1997, Professor, Vet Clinical Sciences, Dept Chair - Clinical Sciences, Veterinary Medicine
Degrees:
BA, University of Pennsylvania, 1986
MA, University of Pennsylvania, 1986
MS, Colorado State University, 1995
DVM, University of Pennsylvania, 1991

**Ceraso, Marion** 2017, Associate Professor (Practice), Sch of Bio/Pop Hlth Sci
Degrees:
BA, Rutgers University-New Brunswi, 1984
MS, Johns Hopkins University, 1991
MA, Univ of Wisconsin-Madison, 2009

**Cervantes, Brandy** 1998, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Michigan-Ann Arbor, 1997
PHD, Oregon State University, 2004

**Chadwell, Faye** 2007, Professor, Library, D&D Campbell Univ Librarian
Degrees:
BA, Appalachian State University, 1984
MA, Appalachian State University, 1987
MLS, Univ of Illinois at Urbana-Cha, 1988

**Chakerian, Raven** 2013, Instructor, World Languag & Cultures
Degrees:
Chakrabarti Basu, Priyadarshini 2016, Research Associate (Post Doc), Horticulture
Degrees:
BS, University of Calcutta, 2008
MS, University of Calcutta, 2010
PhD, University of Calcutta, 2016

Chamberlain, David 1980, Emeritus, Animal & Range Sciences

Chambers, Kenton 1968, Emeritus, Ag Botany/Plant Path

Champeau, Donna 1995, Emeritus, Sch of Soc/Bhav Hlth Sci

Champlin, Dell 2010, Instructor, Economics
Degrees:
BA, Univ of Colorado-Boulder, 1969
MA, Monterey Inst of Internat Stud, 1975
PhD, University of Utah, 1990

Chan, Francis 2001, Associate Professor (Sr Res), Integrative Biology
Degrees:
BA, Hampshire College, 1993
PhD, Cornell University-Ithaca, 2001

Chan, Han Ling 2010, Faculty Research Assistant, Chemistry
Degrees:
BS, Oregon State University, 2011
MS, Oregon State University, 2015

Chan, Samuel 2004, Assistant Professor(Extension), Sea Grant
Degrees:
BS, Univ of California-Berkeley, 1980
MS, Oregon State University, 1984
PhD, Oregon State University, 1989

Chandler, Kelly 2015, Assistant Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, George Mason University, 2002
MS, Penn State Univ-Main Campus, 2004
PhD, Penn State Univ-Main Campus, 2008

Chang, Chih-hung 2000, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, National Taiwan University, 1991
PhD, University of Florida, 1999

Chang, Jeffrey 2006, Associate Professor, Ag Botany/Plant Path
Degrees:
BS, Univ of Minnesota-Twin Cities, 1993
PhD, Univ of California-Davis, 1999

Chang, Xiaohui 2014, Assistant Professor, College of Business
Degrees:
BA, University of Chicago, 2006
PhD, University of Chicago, 2012

Chaplen, Frank 1996, Associate Professor, Biol & Ecol Engineering
Degrees:
BS, Oregon State University, 1989
PhD, Univ of Wisconsin-Madison, 1995

Chaplin, Tanya 1997, Head Coach-Women's Gymnastics, Intercollg Athletics

Chaplin, Christopher 2006, Associate Professor, Music
Degrees:
BMUS, The Ohio State Univ Main, 1992
MM, The Ohio State Univ Main, 1998

Chappell, Marisa 2005, Associate Professor, History
Degrees:
BA, Emory University, 1991
MA, Northwestern University, 1994
PhD, Northwestern University, 2002

Chappell, Patrick 2005, Assistant Professor (Clinical), Vet Biomedical Science
Degrees:
BA, Emory University, 1991
PhD, Northwestern University, 1999

Chelton, Dudley 1983, Emeritus, Earth, Ocean & Atmo Sci

Chen, Hsiou-Lien 1995, Associate Professor, College of Business
Degrees:
BA, Fu Jen Catholic University, 1982
MS, The Ohio State Univ Main, 1990
PhD, The Ohio State Univ Main, 1995

Chen, Jiyao 2011, Associate Professor, College of Business
Degrees:
BS, Tongji Medical University, 1995
MS, Central South Univ of Tech, 1998
PhD, Stevens Institute of Technolog, 2007

Chen, Lizhong 2014, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Zhejiang University, 2009
MS, Univ of Southern California, 2011
Chi, Chunhuei 1990, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Foreign Institution, 1978
MPH, Univ of Texas System Office, 1982
D SCI, Harvard University, 1990

Chiang, Patrick 2006, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Univ of California-Berkeley, 1998
MS, Stanford University, 2001
PHD, Stanford University, 2006

Ching, Te 1956, Emeritus, Crop and Soil Science

ChisholmHatfield, Samantha 1998, Research Associate (Post Doc), Earth,
Ocean & Atmo Sci, Instructor, Univ Honors College
Degrees:
BS, Oregon State University, 2001
PHD, Oregon State University, 2009

Cho, Jeewon 2011, Associate Professor, College of Business
Degrees:
BBA, Dukusung Womens University, 1995
MBA, Seoul National University, 1997
PHD, SUNY-College at Buffalo, 2007

Cho, Sam 2014, Assistant Professor, College of Business
Degrees:
MBA, University of Rochester, 2010
MA, Hitotsubashi University, 2003
PHD, Washington State University, 2014

Choate, Jeffery 1999, Assistant Professor (Practice), Ext Lane County
Office
Degrees:
BS, University of Oregon, 1999
MS, University of Oregon, 2004

Choi, Jaewoo 2012, Research Associate, Linus Pauling Institute
Degrees:
BS, Foreign Institution, 2001
MS, Foreign Institution, 2003
PHD, Case Western Reserve Univ, 2010

Chona, Harbans 1966, Emeritus, Library

Chouinard, Adam 2010, Instructor, Integrative Biology
Degrees:
BS, Univ of New Hampshire-Durham, 2006
MS, Univ of New Hampshire-Durham, 2010
PHD, Oregon State University, 2016

Choun, Soyoung 2002, Research Associate (Post Doc), Sch of Soc/Bhav
Hlth Sci, Instructor
Degrees:
BA, Ewha Womans University, 1979
MS, Oregon State University, 2006
PHD, Oregon State University, 2012

Chow, Eileen 2007, Senior Faculty Research Asst I, Integrative Biology
Degrees:
BS, Oregon State University, 2009

Christensen, John 1979, Professor, Pharmacy
Degrees:
BS, University of Utah, 1975
PHD, University of Utah, 1980

**Christensen, Russell** 2009, Instructor, Music
Degrees:
BED, University of Oregon, 1979
MED, Western Oregon University, 1984

**Christensen, Neil** 1978, Emeritus, Crop and Soil Science

**Christiansen, Alicia** 2016, Assistant Professor (Practice), Ext Douglas County Offc
Degrees:
BS, Cal Poly State-San Luis Obispo, 2011
MS, Humboldt State University, 2016

**Christopher, Patricia** 2015, Instructor, Acad Prog/Student Aff
Degrees:
MS, San Diego State University, 1980

**Chuhlantseff, Daniela** 2016, Instructor, Child Development Lab
Degrees:
BED, National Univ Health Sciences, 1992
BA, Cal State Univ-Fresno, 1991

**Chuinard, Andrew** 2015, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Oregon State University, 2006
MPH, Oregon State University, 2015

**Chung, Woodam** 1998, Associate Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Seoul National University, 1993
MS, Seoul National University, 1995
PHD, Oregon State University, 2002

**Church, Benjamin** 2007, Instructor (PAC), Physical ActivityCourses
Degrees:
BA, Oregon State University, 2016

**Church, D** 1956, Emeritus, Animal & Rnglnd Sciences

**Ciannelli, Lorenzo** 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Foreign Institution, 1993
PHD, University of Washington, 2002

**Ciechanowski, Kathryn** 2006, Associate Professor, College of Education
Degrees:
BA, Univ of California-Davis, 1995
BS, Univ of California-Davis, 1995
EDM, Harvard University, 1997
PHD, Univ of Michigan-Ann Arbor, 2006

**Cieri, Mike** 2006, Instructor, College of Business
Degrees:
BA, University of Oregon, 1987
MS, University of Oregon, 1990

**Ciuffetti, Lynda** 1989, Professor, Ag Botany/Plant Path
Degrees:
BS, Massachusetts Maritime Academy, 1973
MS, Michigan Technological Univ, 1976
PHD, Purdue University Main Campus, 1983

**Claassen, Briana** 2014, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Northwest Nazarene University, 2012

**Claremont, Rita** 1997, Senior Faculty Research Asst I, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 1994

**Clark, JaTik** 2010, Instructor, Music
Degrees:
BMUS, Univ of S Carolina-Columbia, 1997
MM, Univ of Cincinnati Main, 1999

**Clark, Peter** 1988, Distinguished Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, St Lawrence University, 1978
MS, University of Waterloo, 1980
PHD, Univ of Colorado System, 1984

**Clark, Sara** 1997, Academic Advisor, Mathematics, Instructor
Degrees:
BS, Pacific Lutheran University, 1997
MS, Oregon State University, 1999

**Clark, Steve** 2011, Vice President, VP Univ Relations & Mktg
Degrees:
BS, Oregon State University, 1975

**Clark, Glenn** 1968, Emeritus, College of Education

**Clauson, Milo** 1971, Senior Faculty Research Asst I, Wood Science/Engr
Degrees:
BA, Eastern Oregon University, 1969

**Claycomb, Doretta** 2000, Senior Faculty Research Asst I, Food Innovation Center
Degrees:
BA, Oregon State University, 1979

**Claypool, Donald** 1964, Emeritus, Animal & Rnglnd Sciences

**Clemetsen, Bruce** 2006, Instructor, College of Education
Degrees:
BS, Willamette University, 1984
MA, Michigan State University, 1988
PHD, Bowling Green State University, 1999

**Clinton, Richard** 1976, Emeritus, Political Science, Instructor, Univ Honors College
Degrees:
BA, Vanderbilt University, 1960
MA, Vanderbilt University, 1964
PHD, Univ of N Carolina-Chapel Hill, 1971

**Clough, Sharyn** 2003, Professor, Philosophy
Degrees:
BA, University of Calgary, 1987
MA, University of Calgary, 1989
PHD, Simon Fraser University, 1997

**Clough, George** 1987, Emeritus, Horticulture

**Cluskey, Mary** 1994, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Southern Illinois U-Carbondale, 1976
MS, Illinois State University, 1979
PHD, Oregon State University, 1992

Cluver, Brigitte 1994, Instructor, College of Business
Degrees:
BS, Univ of California-Davis, 1993
MS, Oregon State University, 1996
PHD, Oregon State University, 2008

Coakley, James 1990, Associate Professor, College of Business, Senior
Assoc Dean-AcademicProg
Degrees:
BS, Oregon State University, 1970
MBA, University of Utah, 1976
PHD, University of Utah, 1982

Coakley, Stella 1988, Emeritus, Ag Botany/Plant Path

CoakleyJr, James 1988, Emeritus, Earth, Ocean & Atmo Sci

Coblentz, Bruce 1975, Emeritus, Fisheries and Wildlife

Coblyn, Matthew 2005, Research Associate, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Oregon State University, 2008
MS, Univ of California-Irvine, 2009
PHD, Oregon State University, 2015

Coehlo, Deborah 1995, Instructor, Acad Prog/Student Aff
Degrees:
BS, Miscellaneous Institution, 1977
MS, University of Washington, 1983
PHD, Oregon State University, 1999

Coffin, Christopher 2005, Instructor, Physics
Degrees:
BS, Oregon State University, 1983
MAT, Western Oregon University, 2002

Cogliati, Karen 2014, Research Associate, Fisheries and Wildlife
Degrees:
BS, University of Windsor, 2007
MS, University of Windsor, 2009
PHD, Mc Master University, 2013

Cohen, LeaNora 1985, Emeritus, College of Education

Cohn, Greg 2016, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, University of Montana, 2008

Colantonio, Ernest 2008, Faculty Research Assistant, Earth, Ocean &
Atmo Sci
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1981
MS, Univ of Wisconsin-Madison, 1994

Cole, Elizabeth 1981, Senior Faculty Research Asst I, Forest Eng/
Resoures/Mgmt
Degrees:
BS, Utah State University, 1981
MS, Oregon State University, 1984

Cole, Richard 1977, Emeritus, General Agriculture

Coleri, Erdem 2014, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, Middle East Tech University, 2005
MS, Middle East Tech University, 2007
PHD, Univ of California-Davis, 2011

Collier, Robert 1981, Emeritus, Earth, Ocean & Atmo Sci

Collison, Brooke 1989, Emeritus, College of Education

Colomer, Soria 2015, Assistant Professor, College of Education
Degrees:
BA, Millsaps College, 1998
MS, Univ of Mississippi-Main Campu, 2000
PHD, University of Georgia, 2012

Colonna, Ann 2002, Senior Faculty Research AsstII, Food Innovation
Center
Degrees:
BS, University of Arizona, 1997

Colton, Andrew 2017, Faculty Research Assistant, Crop and Soil Science
Degrees:
BA, Foreign Institution, 2015
MS, Foreign Institution, 2016

Colwell, Frederick 2006, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Whitman College, 1977
MS, Northern Arizona University, 1982
PHD, Virginia Polytechnic Institute, 1986

Combes, Vincent 2010, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
MS, Georgia Institute of Technolog, 2007
MENG, Foreign Institution, 2005
PHD, Georgia Institute of Technolog, 2010

Conkey, Harlan 1969, Emeritus, Speech Communication

Conklin, Frank 1968, Emeritus, Applied Economics

ConleyJr, John 2007, Professor, Sch Elect Engr/Comp Sci
Degrees:
BSEE, Penn State Univ-Main Campus, 1991
PHD, Penn State Univ-Main Campus, 1995

Conner, Roby 2008, Instructor, Sch of Wrng Lit & Film
Degrees:
BA, Schreiner College, 1994
MFA, University of Oregon, 2007

Conner, Helen 1963, Emeritus, Extension Service Prgram

Connolly, Lanelle 2006, Senior Faculty Research Asst I, Biochem/
Biophysics
Degrees:
BS, Eastern Oregon University, 1999

Connor-Smith, Jennifer 2001, Instructor, Sch of Psychological Sci
Degrees:
BS, University of Vermont, 1993
PHD, University of Vermont, 1999

Conroy, James 2015, Instructor, College of Education
Degrees:
BS, Oregon State University, 1974
JD, University of Oregon, 1977

Constantine Jr, G 1966, Emeritus, Pharmacy

Conte, Frank 1962, Emeritus, Integrative Biology

Contreras, Ryan 2009, Associate Professor, Horticulture
Degrees:
BS, North Carolina State Univ, 2002
MS, North Carolina State Univ, 2006
PHD, University of Georgia, 2009

Conway, Bryan 2010, Instructor, Economics
Degrees:
BS, University of Oregon, 1991
MS, Oregon State University, 1994

Conway, Flaxen 1989, Dir-MRM Program, Earth, Ocean & Atmo Sci
Professor, Sea Grant
Degrees:
BS, Oregon State University, 1984
MS, Oregon State University, 1986

Cook, Erin 2003, Instructor, Speech Communication
Degrees:
BA, Oregon State University, 2004
MAIS, Oregon State University, 2007

Cook, Steve 1997, Senior Instructor II, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Alaska System, 1973
MS, Univ of Alaska System, 1982
PHD, University of Florida, 1995

Cook, Gordon 1965, Emeritus, Crop and Soil Science

Cook, Thomas 1977, Emeritus, Horticulture

Coolen, Michael 1978, Emeritus, Music

Cooley, Richard 2006, Assistant Professor (Sr Res), Biochem/Biophysics
Degrees:
BA, Middlebury College, 2004
PHD, Oregon State University, 2011

Cooley, Stacy 2007, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
BA, Middlebury College, 2005
DVM, Oregon State University, 2010

Coolican, Patricia 1978, Emeritus, Extension Service Prgram

Coop, Leonard 1987, Assistant Professor (Practice), Integrd Plant Prot (Ag)
Degrees:
BA, Baker University, 1979
MS, Oregon State University, 1982
PHD, Oregon State University, 1987

Cooper, Laurel 1997, Research Associate, Ag Botany/Plant Path
Degrees:
BS, University of Alberta, 1989
PHD, University of Alberta, 1997

Copa, George 1998, Emeritus, College of Education

Copeman, Louise 2006, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci
Degrees:
BS, Memorial Univ of Newfoundland, 1996
MS, Memorial Univ of Newfoundland, 2001
PHD, Memorial Univ of Newfoundland, 2011

Corcoran, Patrick 1987, Associate Professor, Ext Clatsop Co Office
Degrees:
BS, Univ of Wisconsin-Eau Claire, 1984
MS, Oregon State University, 1989

Corden, Malcolm 1958, Emeritus, Ag Botany/Plant Path

Cordoba, Maria 2016, Research Associate (Post Doc), Crop and Soil Science
Degrees:
BS, Oregon State University, 1998
MAIS, Oregon State University, 2003

Cordray, Sheila 1982, Emeritus, Sociology

Cornwall, Winston 1996, Instructor, College of Education
Degrees:
BA, Wesleyan University, 1978
MS, Oregon State University, 1984

Corp, Mary 1998, Director, Columbia Basin Exp Sta, Professor, Ext Umatilla
Co Office, Regional Administrator, Extension Service Admin
Degrees:
BS, Eastern Oregon University, 1989
MS, Portland State University, 1995

Costa, Jennifer 2012, Instructor, College of Business
Degrees:
BA, Villanova University, 2006
JD, University of Oregon, 2011

Cotilla-Sanchez, Eduardo 2012, Assistant Professor, Sch Elect Engr/ Comp Sci
Degrees:
BS, Foreign Institution, 2007
MS, University of Vermont, 2009
PHD, University of Vermont, 2012

Cowen, Robert 2013, Professor, Earth, Ocean & Atmo Sci
Degrees:
PHD, Univ of California-San Diego, 1985

Cowles, Timothy 1984, Emeritus, Earth, Ocean & Atmo Sci

Cox, Daniel 2002, Professor, Sch of Civil/Constr Engr
Degrees:
BS, University of Delaware, 1987
MS, University of Delaware, 1989
PHD, University of Delaware, 1995

Cozzi, Elaine 2011, Assistant Professor, Mathematics
Degrees:
BA, University of Virginia, 2000
Crisman, Russell 1979, Emeritus, Vet Clinical Sciences

Crisp, Gloria 2016, Associate Professor, College of Education
Degrees:
BBA, University of Houston, 1999
MA, University of Houston, 2002
EDD, University of Houston, 2006

Croft, Brian 1982, Emeritus, Horticulture

Cromack Jr, Kermit 1974, Emeritus, Forest Ecosyst & Society

Cross, James 2018, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Penn State Univ-Main Campus, 2010
MS, New Brunswick Theological Semi, 2013

Cross, Robin 2000, Assistant Professor (Sr Res), Applied Economics
Degrees:
BS, Oregon State University, 1997
PHD, Oregon State University, 2005

Cross, Frank 1969, Emeritus, College of Education

Crowe, Frederick 1984, Emeritus, Ag Botany/Plant Path

Crowell, Cathleen 2016, Associate Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BA, Willamette University, 2000
MA, Univ of N Carolina-Chapel Hill, 2002
PHD, Univ of N Carolina-Chapel Hill, 2006

Crowhurst, Rachel 2008, Senior Faculty Research Asst I, Fisheries and Wildlife
Degrees:
BS, Brock University, 2005
MS, Oregon State University, 2012

Crozier Jr, William 1961, Emeritus, Art

Cruickshank, Jennifer 2016, Assistant Professor (Practice), Ext Marion County Office
Degrees:
MS, Univ of California-Davis, 1998
PHD, Univ of Wisconsin-Madison, 2003

Crump, Byron 2013, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Oberlin College, 1990
MS, University of Washington, 1996
PHD, University of Washington, 1999

Cruse, Donna 1970, Emeritus, Sch of Psychological Sci

Cruz, Shannon 2016, Visiting Assistant Professor, Speech Communication
Degrees:
BA, Michigan State University, 2012
BS, Michigan State University, 2012
MS, Michigan State University, 2015
PHD, Michigan State University, 2016

Cservenka, Anita 2016, Assistant Professor, Sch of Psychological Sci
Degrees:
BS, Univ of California-Los Angeles, 2008
Cucinell, Margaret 2017, Instructor, Acad Prog/Student Aff
Degrees:
MED, George Mason University, 2006

Cuena, Richard 1978, Emeritus, Biol & Ecol Engineering

Cull, Paul 1970, Emeritus, Sch Elect Engr/Comp Sci

Cunningham, Sarah 2007, Instructor, Anthropology
Degrees:
MAIS, Ball State University, 2006
PHD, Oregon State University, 2012

Curran, Kaitlin 2015, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
DVM, Washington State University, 2011

Curtin, Christopher 2016, Assistant Professor, Food Science and Techno
Degrees:
BS, Foreign Institution, 1999
PHD, Foreign Institution, 2001

Curtis, Daniel 2007, Senior Faculty Research Asst I, Crop and Soil Science
Degrees:
BS, Oregon State University, 1985
MS, Oregon State University, 1988

Curtis, Marc 1996, Instructor, Ag Botany/Plant Path
Degrees:
BS, Southern New Hampshire Univ, 1994
PHD, Oregon State University, 2003

Curtis, Lawrence 1999, Emeritus, Enviro/Molecular Toxic

Cusack, Leanne 2009, Instructor, Sch of Bio/Pop Hlth Sci, Research
Associate (Post Doc)
Degrees:
MPH, Oregon State University, 2010
PHD, Oregon State University, 2014

Cushing, Tamara 2014, Assistant Professor, Forest Eng/Resources/Mgmt,
Endowed Chair-Starker
Degrees:
BS, University of Florida, 1996
MS, Mississippi State University, 1999
PHD, University of Georgia, 2006

Cusimano, Barbara 1988, Emeritus, Sch of Bio/Pop Hlth Sci

Custer, Olga 2004, Instructor, Sociology
Degrees:
BA, Kharkiv State University, 1999
BS, Kharkiv State University, 1997
PHD, Kharkiv State University, 2001

Cuyler, Madeline 2018, Faculty Research Assistant, Food Innovation
Center
Degrees:
BS, University of Oregon, 2017

D

D’Antonio, Ashley 2016, Assistant Professor, Forest Ecosyst & Society
Degrees:
BS, Penn State Univ-Main Campus, 2006
MS, Utah State University, 2010
PHD, Utah State University, 2015

Daeschel, Mark 1988, Emeritus, Food Science and Techno

Dahl, Nicholas 2015, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Oregon, 1992
MA, University of Oregon, 1994
PHD, Penn State Univ-Main Campus, 2002

Dale, Robert 1965, Emeritus, Philosophy

Daley, Laurence 1983, Emeritus, Horticulture

Dallas, David 2004, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Rice University, 2008
PHD, Univ of California-Davis, 2012

Dalrymple, G 1994, Emeritus, Earth, Ocean & Atmo Sci

Dalton, Meghan 2009, Faculty Research Assistant, Earth, Ocean & Atmo
Sci
Degrees:
MS, Oregon State University, 2011

Daly, Christopher 1990, Professor (Sr Res), Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of California-Davis, 1978
MA, Univ of Colorado-Boulder, 1984
PHD, Oregon State University, 1994

Daly, Elizabeth 2003, Senior Faculty Research Asst I, CIMRS (Inst/Marine
Res)
Degrees:
BS, Univ of Maryland-College Park, 1992

Dalziel, Benjamin 2015, Assistant Professor, Integrative Biology
Degrees:
BS, University of Guelph, 2004
MS, University of Guelph, 2006
PHD, Cornell University-Ithaca, 2014

DAmbrosio, Bruce 1986, Emeritus, Sch Elect Engr/Comp Sci

Dane, Charles 1957, Emeritus, College of Business

Danelishvili, Lia 2002, Assistant Professor (Sr Res), Vet Biomedical
Science
Degrees:
MS, Foreign Institution, 1995
PHD, Foreign Institution, 2000

Daniels, Richard 1970, Emeritus, Sch of Wrtg Lit & Film

Danielson, Harold 1968, Emeritus, Crop and Soil Science

Danler, Signe 2012, Instructor, Horticulture
Degrees:
BA, Oregon State University, 2013
MS, Oregon State University, 2014

Darchuk, Emily 2013, Faculty Research Assistant, Food Science and
Techno
Degrees:
BS, Univ of Illinois at Urbana-Champaign, 2008
MS, Oregon State University, 2015

Dark, Catherine 1990, Senior Instructor I, Physical Activity Courses
Degrees:
BA, Central Washington University, 1975
MA, Laban Centre for Movement Da, 1988

Darnell, Thomas 1978, Emeritus, Horticulture Extension

Dascaiuc, Radu 2011, Associate Professor, Mathematics
Degrees:
BS, Foreign Institution, 1997
MS, Texas AM Univ-College Station, 1999
PHD, Texas AM Univ-College Station, 2005

Dasenko, Betsy 2010, Instructor, College of Education
Degrees:
BS, Portland State University, 2000
MAT, Oregon State University, 2001

Dasenko, Mark 1995, Senior Faculty Research Asst I, Ctr Excellnce Genome Res
Degrees:
BS, Oregon State University, 1999

DaSilvaMarques, Rodrigo 2011, Research Associate (Post Doc), Animal & Rnglnd Sciences
Degrees:
BS, Universidade de Sao Paulo, 2008
MS, Universidade de Sao Paulo, 2011
PHD, Oregon State University, 2017

Daugherty, Tracy 1986, Emeritus, Sch of Wrtg Lit & Film

Davenport, Kathy 2016, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, East Tennessee State Univ, 2009
PHD, Virginia Polytechnic Institute, 2016

David, Maude 2018, Assistant Professor, Microbiology (Science)
Degrees:
BS, Universite of Lyon, 2004
MS, Universite of Lyon, 2006
PHD, Universite of Lyon, 2010

Davis, Anthony 2016, Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, University of New Brunswick, 2001
MS, Purdue University Main Campus, 2003
PHD, Purdue University Main Campus, 2006

Davis, Edward 2007, Bioinformatics Analyst, Ctr Excellnce Genome Res
Degrees:
BS, Oregon State University, 2009
PHD, Oregon State University, 2017

Davis, Emily Jane 2014, Assistant Professor(Extension), Forest Ecosyst & Society
Degrees:
BA, McGill University, 2005
MA, University of British Columbia, 2007

PHD, University of British Columbia, 2011

Davis, Jamie 2008, Assistant Professor (Practice), Ext Lake County Office
Degrees:
BS, Univ of Wisconsin-River Falls, 2006
MS, Colorado State University, 2014

Davis, Joel 1993, Faculty Research Assistant, Horticulture
Degrees:
BS, Cal State Polytechnic - Pomona, 1988
MS, Oregon State University, 1998

Davis, Loren 1999, Professor, Anthropology, Executive Director
Degrees:
BS, Oregon State University, 1991
MAIS, Oregon State University, 1995
PHD, University of Alberta, 2001

Davis, Susannah 2016, Research Associate, Sch of Chem/Bio/Envr Eng
Degrees:
BA, Smith College, 2004
MED, University of Washington, 2011
PHD, University of Washington, 2016

Davis, Lorin 1969, Emeritus, Sch of Mech/Ind/Mfg Engr

Davis, Steven 1983, Emeritus, Animal & Rnglnd Sciences

Davis-Malewitz, Emily 2011, Instructor, World Languag & Cultures
Degrees:
MA, University of Virginia, 2008

DavisJr, Lowery 1997, Assistant Professor, Ext Columbia Co Office
Degrees:
BS, New Mexico St Univ-Main, 1986
MA, New Mexico St Univ-Main, 1988

Davison, Neil 1995, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Univ of Maryland System, 1982
MFA, Columbia University-NYC, 1984
PHD, Univ of Maryland System, 1993

Dawson, Patricia 1988, Professor, Ext Umatilla Co Office
Degrees:
BS, University of Idaho, 1981
MA, Norwich University, 1992

Dawson, Peter 1969, Emeritus, Integrative Biology

Day, Michelle 2003, Faculty Research Assistant, Forest Eng/Resourcs/Mgmt
Degrees:
BA, Bates College, 1996
MS, Oregon State University, 2005

Day, Paul 1972, Emeritus, Extension Service Prgram

Deacy, William 2016, Research Associate (Post Doc), Fisheries and Wildlife
Degrees:
BA, Vanderbilt University, 2008
PHD, University of Montana, 2016

DeAdder, Tyler 2004, Coord of Undergrad Acad Prog, Sch of Mech/Ind/Mfg Engr
Dealy, Glen 1967, Emeritus, Political Science

DeAmicis, Raffaele 2016, Associate Professor (Sr Res), Sch Elect Engr/Comp Sci
Degrees:
PHD, Univ of Bologna, 2001

Dean, Raven 2013, Instructor, Mathematics
Degrees:
BA, Central Washington University,
MS, Oregon State University, 2016

DeAngelis, Jack 1988, Emeritus, College of Ag Admin

Deardorff, James 1978, Emeritus, Earth, Ocean & Atmo Sci

DeBano, Sandra 2001, Riparian Entomologist, Hermiston Exp Sta
Degrees:
BS, Arizona State University, 1990
MS, Arizona State University, 1992
PHD, University of Kentucky, 1997

Deboodt, Tim 1987, Associate Professor, Ext Crook County Office
Degrees:
BS, Oregon State University, 1981
MS, University of Wyoming, 1984
PHD, Oregon State University, 2008

Deck, Kim 2014, Faculty Research Assistant, EXT Fam/CommHlth OnCmps
Degrees:
BA, Florida State University, 1991

Decker, Shawn 2011, Research Associate (Post Doc), Chemistry
Degrees:
BS, Western Oregon University, 2010

Dedeurwaerder, Charles 1968, Emeritus, Liberal Arts Admin

DeGandi, Nicholas 2014, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 2014

Deitering, Anne-Marie 2003, Librarian-Endowed, Library, AUL-Learning and Engagement
Degrees:
BA, University of Pennsylvania, 1989
MLS, Emporia State University, 2003
MA, Syracuse University-Main Campu, 1994

DeKock, Carroll 1967, Emeritus, Chemistry

Delander, Gary 1983, Executive Associate Dean, Pharmacy, Associate Professor
Degrees:
BS, Univ of Colorado-Boulder, 1977
PHD, U of Minnesota-Central Offices, 1983

DeLeenheer, Patrick 2013, Professor, Mathematics
Degrees:
MS, Foreign Institution, 1995
PHD, Foreign Institution, 2000

Delf, Elizabeth 2008, Instructor, Sch of Wrtg Lit & Film
Degrees:
MA, Oregon State University, 2011

Dello, Katie 2009, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, SUNY-Albany, 2004
MA, SUNY-Albany, 2007

delMar, David 1999, Instructor, History
Degrees:
PHD, University of Oregon, 1993

Deluc, Laurent 2009, Associate Professor, Horticulture
Degrees:
PHD, Univ of Bordeaux Faculte De Me, 2004

DeMatoseSilva, Carlos Adriano 2011, Research Associate (Post Doc), Vet Biomedical Science
Degrees:
BS, Foreign Institution, 2005
MS, Foreign Institution, 2008
PHD, Foreign Institution, 2013

Demirel, Onan 2015, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Purdue University Main Campus, 2006
MS, Purdue University Main Campus, 2009
PHD, Purdue University Main Campus, 2015

deMorais, Helio 2009, Professor, Vet Clinical Sciences, Director-VTH, Veterinary Medicine
Degrees:
DVM, Fed Univ of Rio Grande do Sul, 1982
PHD, The Ohio State Univ Main, 1995

Dennis, Alan 2001, Multimedia Tech Designer, Ext/Exp S Communications
Degrees:
BS, Oregon State University, 2006

Denson-Hill, Catherine 2005, Instructor, Acad Prog/Student Aff
Degrees:
BA, University of Oregon, 1980
MS, Western Oregon University, 1997

Denver, Dee 2006, Professor, Integrative Biology
Degrees:
BS, Univ of Missouri-Columbia, 1996
PHD, Univ of Missouri-Columbia, 2002

Dermody, Sarah 2017, Assistant Professor, Sch of Psychological Sci
Degrees:
BA, University of Virginia, 2008
MS, Univ of Pittsburgh-Main Campus, 2011
PHD, Univ of Pittsburgh-Main Campus, 2015

Desai, Vishal 2017, Research Associate (Post Doc), Chemistry
Degrees:
BS, University of Mumbai, 2008
MS, University of Mumbai, 2010
PHD, University of Mumbai, 2017

deSilva, Lynette 2006, Instructor, Earth, Ocean & Atmo Sci
Degrees:
DeSilva, Shanaka 2006, Professor, Earth, Ocean & Atmo Sci
Degrees:  
BS, Univ of Southampton, 1981  
PhD, Foreign Institution, 1987

DeSzoeko, Paula 2016, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:  
BS, Oregon State University, 2004  
MS, Arizona State University, 2008

DeSzoeko, Simon 2009, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:  
BA, University of Oregon, 1997  
PhD, University of Washington, 2004

DeSzoeko, Roland 1977, Emeritus, Earth, Ocean & Atmo Sci

Detar, Liddy 2011, Instructor, Women/Gendr/Sxlt Studies
Degrees:  
BS, Barnard College, 1991  
MS, Univ of California-Santa Cruz, 1998  
PhD, Univ of California-Santa Cruz, 2002

Detweiler, Amy Jo 1999, Associate Professor, Ext Deschutes Co Office
Degrees:  
BS, Westminster College, 1992  
MS, Colorado State University, 1998

Dever, Edward 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:  
BS, Texas AM Univ-College Station, 1987  
MS, Texas AM Univ-College Station, 1989  
PhD, Massachusetts Inst of Technolo, 1995

DeWit, Jefferson 2014, Research Associate (Post Doc), Fisheries and Wildlife
Degrees:  
BS, Liberty University, 2007  
MS, Virginia Polytechnic Institute, 2010  
PhD, Penn State Univ-Main Campus, 2014

DeWitt, Christina 1997, Dir-OSU SREC, COMES - Astoria, Associate Professor, Food Science and Techno
Degrees:  
BS, Texas AM Univ-College Station, 1989  
MS, Oregon State University, 1994  
PhD, Oregon State University, 2000

DeYoung, Bruce 1988, Emeritus, College of Business

Dhagat, Pallavi 2003, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:  
BS, Birla Inst of Tech Science, 1993  
MS, Washington University-St Louis, 1996  
D SCI, Washington University-St Louis, 1999

Di, Yanming 2009, Associate Professor, Statistics (Science)
Degrees:  
BS, Tsinghua University, 2001  
MS, Arizona State University, 2003  
MS, Tsinghua University, 1997  
PhD, University of Washington, 2009

Dick, Thomas 1986, Professor, Mathematics
Degrees:  
BA, University of Kansas, 1978  
BS, University of Kansas, 1978  
MS, Brandeis University, 1979  
PhD, Univ of New Hampshire-Durham, 1984

Dickinson, Ralph 1968, Emeritus, Sch of Bio/Pop Hlth Sci

Dickson, Marianne 2003, Senior Instructor I, College of Business
Degrees:  
BFA, Intl Acad Design Tech (U), 2003  
MS, Oregon State University, 2005

Diebel, Ken 2014, Instructor, Fisheries and Wildlife
Degrees:  
BS, Colorado State University, 1984  
MS, Colorado State University, 1986  
PhD, Virginia Polytechnic Institute, 1989

Diebel, Penelope 1995, Associate Professor, Applied Economics,
Assistant Dean, College of Ag Admin
Degrees:  
BS, Colorado State University, 1983  
MS, Colorado State University, 1986  
PhD, Virginia Polytechnic Institute, 1990

Dierking, Lynn 2003, Professor, College of Education
Degrees:  
BS, University of Miami, 1978  
MED, University of Florida, 1981  
PhD, University of Florida, 1987

Dierksen, Karen 2001, Research Associate (Post Doc), Microbiology
(Science)
Degrees:  
BS, Univ of Waikato, 1995  
MS, University of Otago, 1999

Dietrich, Debbie 2006, Senior Faculty Research Asst I, Marine Mammal Institute
Degrees:  
BS, Univ of Waikato, 1995  
MS, University of Otago, 1999

Dietterich, Thomas 1985, Emeritus, Sch Elect Engr/Comp Sci

Dig, Daniel 2013, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:  
PhD, Univ of Illinois at Urbana-Cha, 2007

Diggs, Helen 2009, Attending Veterinarian, Lab Animal Resources,
Professor (Clinical), Vet Biomedical Science
Degrees:  
BA, University of Portland, 1978  
DVM, Washington State University, 1985  
DVM, Oregon State University, 1985

Dilles, John 1986, Professor, Earth, Ocean & Atmo Sci
Degrees:  
BS, Cal Institute of Tech, 1975  
MS, Cal Institute of Tech, 1976
Dillon, Wade 2014, Instructor, Mathematics
Degrees:
BS, Foreign Institution, 2009
MS, Foreign Institution, 2011

Dillon, Thomas 1976, Emeritus, Earth, Ocean & Atmo Sci

Dilson, Wolfgang 1970, Emeritus, World Languag & Cultures

Dilts, Rachel 2005, Instructor, Sch of Psychological Sci
Degrees:
BS, Western Oregon University, 1999
MA, Lewis Clark College, 2001
PHD, Oregon State University, 2009

Dimcovic, Zlatko 2004, Faculty Research Assistant, Sch of Chem/Bio/Envr Eng
Degrees:
MS, Case Western Reserve Univ, 2003

Dinkins, Jonathan 2016, Assistant Professor, Animal & Rnglnd Sciences
Degrees:
BS, University of Puget Sound, 2001
MFA, Montana State Univ-Bozeman, 2005
PHD, Utah State University, 2013

Dishon, Karissa 2010, Assistant Professor, Ext Deschutes Co Office
Degrees:
BS, Portland State University, 2005
MBA, Oregon State University, 2015

Dittel, Jacob 2016, Research Associate, Fisheries and Wildlife
Degrees:
BS, Univ of Wisconsin-Oshkosh, 2008
MS, Univ of Wisconsin-Oshkosh, 2014
PHD, University of Nevada-Reno, 2016

Divilov, Konstantin 2018, Research Associate (Post Doc), COMES - Newport Exp Sta
Degrees:
BA, CUNY Hunter College, 2012
MS, Univ of Illinois at Urbana-Cha, 2014
PHD, Cornell University-Ithaca, 2017

Dix, Russell 1964, Emeritus, Office of the Registrar

Dixon, Emily 2001, Instructor, Horticulture
Degrees:
BS, University of Oregon, 2009
MS, Oregon State University, 2015

Dixon-Ibarra, Alicia 2008, Instructor, Sch of Bio/Pop Hlth Sci, Assistant Professor (Sr Res)
Degrees:
MPH, Oregon State University, 2013
MS, Oregon State University, 2011
PHD, Oregon State University, 2014

DodgeVera, Tina 1996, Instructor, Ext Linn County Office
Degrees:
BS, Oregon State University, 1999
MPH, Oregon State University, 2004

Dolly, Valerian 1994, Professor, Ag Botany/Plant Path
Degrees:
MS, Moscow State University, 1985
MA, Arizona State University, 1988
PHD, University of Washington, 1993

Donatelle, Rebecca 1984, Emeritus, Sch of Soc/Bhav Hlth Sci

Donegan, Kelly 2005, Instructor, Horticulture
Degrees:
BS, Univ of California-Santa Cruz, 1984
MS, Oregon State University, 1987

Dong, Zheng 2018, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, Oregon State University, 2015

Doolen, Toni 2000, Executive 3-Dean, Provost/Exec Vice Pres, Professor, Sch of Mech/Ind/Mfg Engr, Dean, Univ Honors College
Degrees:
BS, Cornell University, 1987
MS, Stanford University, 1991
PHD, Oregon State University, 2001

Dost, Frank 1962, Emeritus, Enviro/Molecular Toxic
Doudoroff, Eve-Mary 1962, Emeritus, World Languag & Cultures

Douglass, James 1968, Emeritus, Music

Dowling, Thomas 1982, Instructor, College of Business
Degrees:
BA, Ohio University-Main Campus, 1973
MS, Univ of Pittsburgh-Main Campus, 1978

Downing, Troy 1990, Extension Dairy Specialist, Animal & Rnglnd Sci Ext
Degrees:
BS, Cal State Univ-Chico, 1986
MS, University of Nevada-Reno, 1990

Doyle, Amelia 2014, Faculty Research Assistant, Horticulture
Degrees:
BS, Oregon State University, 2016

Doyle, Jamie 2008, Assistant Professor(Extension), Ext Coos County Office
Degrees:
BA, Boston University, 2000

Dragila, Maria 1999, Professor, Crop and Soil Science
Degrees:
BS, Cal State Polytechnic - Pomona, 1981
MS, Univ of California-Los Angeles, 1984
PHD, University of Nevada-Reno, 1999

Dray, Tevian 1988, Professor, Mathematics
Degrees:
BS, Massachusetts Inst of Technolo, 1976
MA, Univ of California-Berkeley, 1977
PHD, Univ of California-Berkeley, 1981

Dreher, Theo 1987, Professor, Microbiology (Ag)
Degrees:
BS, University of Melbourne, 1976
PHD, University of Melbourne, 1980

Drexler Jr, John 1983, Emeritus, College of Business

Drill, Scott 2013, Instructor, Forest Eng/Resources/Mgmt
Degrees:
BGS, Embry-Riddle Aeronautical U-FL, 2002
MBA, Embry-Riddle Aeronautical U-FL, 2006

Driskill, Qwo Li 2012, Associate Professor, Women/Gendr/Sxlt Studies
Degrees:
BA, Univ of Northern Colorado, 1998
MA, Antioch University-Seattle, 2001
PHD, Michigan State University, 2008

Drummond, Robert 2011, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Univ of Michigan-Ann Arbor, 1996
MFA, George Mason University, 2006

Du, Xiuning 2009, Research Associate, CIMRS (Inst/Marine Res)
Degrees:
BS, Ningbo University, 2008
PHD, Oregon State University, 2012

Duane, Maureen 1997, Senior Faculty Research Asst I, Forest Ecosyst & Society

Dund, Robert 2017, Instructor, Physics
Degrees:
BS, George Mason University, 1996
MS, George Mason University, 2003
PHD, George Mason University, 2011

Dugene, Mathilde 2017, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, Univ Pierre Et Marie Curie-Par, 2011
MS, Universite of Aix-Marseille II, 2013
PHD, Universite of Aix-Marseille II, 2016

Duggan, Scott 2014, Assistant Professor (Practice), Ext Warm Springs
Degrees:
BS, Cal Poly State-San Luis Obispo, 1990
BS, University of Idaho, 1993
MS, Cal Poly State-San Luis Obispo, 2007

Dugger, Bruce 2002, Assoc Department Head, Fisheries and Wildlife, Associate Professor
Degrees:
BS, Univ of California-Davis, 1986
MS, Univ of Missouri-Columbia, 1990
PHD, Univ of Missouri-Columbia, 1996

Duncan, Patti 2008, Associate Professor, Women/Gendr/Sxlt Studies
Degrees:
BA, Vassar College, 1992
MA, Emory University, 1996
PHD, Emory University, 2000

Duncan, James 1976, Emeritus, Ag Communications

Duncan, Robert 1977, Emeritus, Earth, Ocean & Atmo Sci
Dundas, Steven 2015, Assistant Professor, Applied Economics
Degrees:
BS, University of Delaware, 2003
MS, University of Delaware, 2011
PHD, North Carolina State Univ, 2015

Dung, Jeremiah 2012, Assistant Professor, Central Oregon Exp Sta
Degrees:
BS, Eastern Washington University, 2006
MS, Washington State University, 2009
PHD, Washington State University, 2012

Dunn, Christopher 2006, Research Associate (Post Doc), Forest Eng/
Resources/Mgmt
Degrees:
BS, Colorado State University, 1999
MS, Oregon State University, 2010
PHD, Oregon State University, 2015

Dunn, James 1963, Emeritus, Office of Development

Dunn, John 1975, Emeritus, Sch of Bio/Pop Hlth Sci

Dunnington, Leslie 1969, Emeritus, Counseling Center

Duplaix, Nicole 2006, Senior Instructor I, Fisheries and Wildlife
Degrees:
BS, Universite of Caen, 1962
MS, Univ of Paris VII, 1968
PHD, Univ of Paris VII, 1981

DuPont, Bryony 2013, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Case Western Reserve Univ, 2008
MS, Carnegie Mellon University, 2010
PHD, Carnegie Mellon University, 2013

Durham, Catherine 1997, Marketing Economist, Food Innovation Center
Degrees:
BS, Univ of California-Davis, 1981
MS, University of Arizona, 1985
PHD, Univ of California-Davis, 1991

Duringer, Jennifer 1995, Research Associate, Enviro/Molecular Toxic
Degrees:
BA, Oregon State University, 1998
BS, Oregon State University, 1998
PHD, Oregon State University, 2003

Durland, Theodore 2008, Assistant Professor (Sr Res), Earth, Ocean &
Atmo Sci
Degrees:
BS, Univ of Hawaii at Manoa, 1983
MS, Univ of Hawaii at Manoa, 2002
PHD, Univ of Hawaii at Manoa, 2006

Durski, Scott 2000, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
BS, Cornell University, 1990
MENG, Stevens Institute of Technolog, 1993
PHD, Rutgers University-New Brunswi, 2000

Dutcher, Sarah 2017, Instructor, College of Education
Degrees:
BS, University of Portland, 2002

MED, University of Oregon, 2013

Dutson, Thayne 1987, Dean Emeritus, College of Ag Admin, Emeritus,
Food Science and Techno

Duval, Alyssa 2010, Instructor, Crop and Soil Science
Degrees:
BS, Oregon State University, 2012
MS, Oregon State University, 2015

Duvall, Betty 1995, Emeritus, College of Education

Dybek, Nicholas 2014, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Univ of Michigan-Ann Arbor, 2002
MFA, University of Iowa, 2005

Dykeman, Cass 1998, Associate Professor, College of Education
Degrees:
BA, Claremont McKenna College, 1984
MED, University of Washington, 1988
PHD, Univ of Virginia-Central Offic, 1993

E
Eakin, Gene 1990, Instructor, College of Education
Degrees:
BS, Oregon State University, 1967
MA, Univ of Colorado System, 1974
PHD, University of Oregon, 1980

Easterday, Harry 1955, Emeritus, Physics

Easton, Edison 1951, Emeritus, College of Business

Ebbeck, Vicki 1990, Assoc Dean for Student Success, Public Hlth/
HumanSci Adm, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BED, Catholic Institute of Sydney, 1984
MS, University of Oregon, 1986
PHD, University of Oregon, 1990

Eberhart, Joyce 1983, Senior Faculty Research Asst I, Crop and Soil
Science
Degrees:
BA, Univ of Wisconsin System, 1978

Eddleman, Lee 1981, Emeritus, Animal & Rnglnd Sciences

Ede, Lisa 1980, Emeritus, Sch of Wrtg Lit & Film

Edge, William 1989, Associate Dean, College of Ag Admin, Professor,
Fisheries and Wildlife
Degrees:
BS, University of Montana, 1979
MS, University of Montana, 1982
PHD, University of Montana, 1985

Edmunds, Brooke 2014, Assistant Professor (Practice), Ext Linn County
Office
Degrees:
BS, Iowa State University, 2000
PHD, North Carolina State Univ, 2008

Edmunson-Morton, Tiah 2006, Instructor, Library
Degrees:
Edwards, Jennifer 2005, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Oregon, 1982
MED, University of Oregon, 1994

Edwards, John 1995, Professor, Sch of Psychological Sci
Degrees:
BA, Davidson College, 1983
MA, Univ of N Carolina-Charlotte, 1989
MA, The Ohio State Univ Main, 1992
PHD, The Ohio State Univ Main, 1995

Edwards, Mark 1997, Professor, Sociology
Degrees:
BA, Univ of California-Davis, 1984
MA, University of Washington, 1992
PHD, University of Washington, 1997

Edwards, Barbara 1997, Emeritus, Mathematics

Egbert, Gary 1988, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Univ of California-Berkeley, 1977
MS, University of Washington, 1981
PHD, University of Washington, 1987

Egelkraut, Thorsten 2005, Instructor, Applied Economics
Degrees:
BA, Universität-Gesamthochschule-S, 1997
MS, University of Georgia, 1999
MS, Univ of Illinois at Urbana-Cha, 2002
MBA, Universität-Gesamthochschule-S, 1997
PHD, Univ of Illinois at Urbana-Cha, 2005

Egna, Hillary 1986, Director and Unit Leader, Aquaculture CRSP
Degrees:
BS, Univ of Michigan-Ann Arbor, 1980
MS, Oregon State University, 1985
PHD, Oregon State University, 1998

Egri, Denise 2011, Instructor (ESL), INTO OSU Program
Degrees:
BA, Univ of California-Berkeley, 1997
MA, Monterey Inst of Internat Stud, 2003

Ehlers, Elizabeth 2012, Instructor, World Language & Cultures
Degrees:
MA, Univ of London University Coll, 2011

Ehrlich, Allison 2014, Assistant Professor (Sr Res), Enviro/Molecular Toxic
Degrees:
BS, Northeastern University, 2007
MA, Yale University, 2010
PHD, Yale University, 2014

Ehsan, Samina 2008, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Dhaka, 2007
MS, University of Dhaka, 2007

Els, Todd 2017, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, Texas State University, 2012
MS, Western Washington University, 2016

Ellsworth, Lisa 2000, Instructor, Ag Botany/Plant Path, Assistant Professor (Sr Res), Fisheries and Wildlife
Degrees:
BS, Oregon State University, 2001
MS, Oregon State University, 2006
PHD, Univ of Hawaii at Manoa, 2012

Elder, Valerie 2016, Assistant Professor (Practice), Ext Clatsop Co Office
Degrees:
BS, Cal Poly State-San Luis Obispo, 2013
MS, West Virginia University, 2015

Eleven, Bartelt 1984, Emeritus, Applied Economics

Elia, Sabry 1998, Professor (Sr Res), Crop and Soil Science
Degrees:
BS, Foreign Institution, 1974
MS, Michigan State University, 1988
PHD, Michigan State University, 1994

El Khoury, Laureane 2008, Faculty Research Assistant, Biol & Ecol Engineering
Degrees:
BS, Lebanese University, 2001

Elliott, Karen 2002, Senior Instructor I, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Carroll College, 1998
MS, University of Montana, 2002
PHD, Oregon State University, 2006

Elliott, Kristopher 2011, OES Assistant Director, Outdoor School
Degrees:
BS, Cal Poly State-San Luis Obispo, 2008
MAG, Cal Poly State-San Luis Obispo, 2011

Elliott, Rebekah 2004, Associate Professor, College of Education
Degrees:
BA, Univ of Cal-Santa Barbara, 1985
PHD, Univ of Colorado-Boulder, 2002

Ellis, Karen 2011, Instructor, Acad Prog/Student Aff
Degrees:
BA, Northwestern University, 1974
MFA, Univ of Hawaii at Manoa, 1980
Elser, Justin 2002, Research Associate (Post Doc), Ag Botany/Plant Path
Degrees:
BA, Eastern Washington University, 2000
PHD, Oregon State University, 2008

Elston, Julie 2005, Professor, Acad Prog/Student Aff, College of Business
Degrees:
BA, University of Washington, 1982
MS, USE 007273 CUNY Baruch, 1985
PHD, University of Washington, 1992

Elwood, Norman 1979, Emeritus, Forest Eng/Resources/Mgmt

Ely, Roger 2003, Associate Professor, Biol & Ecol Engineering
Degrees:
BS, Oregon State University, 1978
MS, Oregon State University, 1987
PHD, Oregon State University, 1996

Embley, Robert 1984, Professor (Sr Res), CIMRS (Inst/Marine Res)
Degrees:
BA, Rutgers University-Camden, 1966
PHD, Columbia University-NY, 1975

Emerson, Patrick 2006, Professor, Economics
Degrees:
BA, Lewis Clark College, 1990
MA, Univ of Wisconsin-Madison, 1994
PHD, Cornell University-Ithaca, 2000

Emerson, Sarah 2010, Associate Professor, Statistics (Science)
Degrees:
BS, Stanford University, 2004
PHD, Stanford University, 2009

Emmingham, William 1980, Emeritus, Forest Ecosyst & Society

Endress, Bryan 2002, Assistant Professor, Eastern Ore Univ Ag Prg
Degrees:
BA, Luther College, 1995
MS, Univ of Illinois at Urbana-Cha, 1997
PHD, Miami University-Oxford, 2002

Engelbreton, Jesse 2014, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BA, Univ of Minnesota-Twin Cities, 2007
BS, Univ of Minnesota-Twin Cities, 2008
MA, Univ of Kent British Studies C, 2009
PHD, University of Idaho,

Engel, David 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, Biola University, 1992
MA, Southern Oregon University, 2016
MA, Saint Thomas Seminary, 1998

Engel, Evelyn 1975, Emeritus, Ext/Exp S Communications

EngelJr, Harold 1979, Emeritus, Veterinary Medicine

Engle, Molly 1998, Ext Evaluation & Grants, Extension Service Admin
Degrees:
BS, University of Arizona, 1971
MS, University of Arizona, 1973

PHD, University of Arizona, 1983

Epps, Clinton 2008, Associate Professor, Fisheries and Wildlife
Degrees:
BA, Rice University, 1997
PHD, Univ of California-Berkeley, 2004

Erickson, Kelly 2007, Instructor, Political Science
Degrees:
BA, Univ of California-San Diego, 1996
MA, University of Virginia, 2002
PHD, University of Virginia, 2017

Erickson, Mary 2015, Instructor, New Media Communications
Degrees:
BA, University of Washington, 1999
MA, Carleton University, 2001
PHD, University of Oregon, 2011

Erickson, Sarah 2013, Instructor, Mathematics
Degrees:
BA, Western Washington University,

Erickson, Dianne 1987, Emeritus, College of Education

Erickson, Linda 1979, Emeritus, Ext Clackamas Co Office

Erofeev, Anatoli 1995, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
MS, Moscow Eng-Physics Institute, 1981
PHD, Russian Academy of Sciences, 1990

Erofeeva, Svetlana 1996, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
MS, Moscow Eng-Physics Institute, 1981
PHD, Moscow Eng-Physics Institute, 1988

Erwig, Martin 2000, Professor, Sch Elect Engr/Comp Sci
Degrees:
PHD, Foreign Institution, 1994

Esbensen, Steven 1977, Emeritus, Earth, Ocean & Atmo Sci

Escala, Anuncia 1986, Senior Instructor I, World Langauag & Cultures
Degrees:
MA, New Mexico Highlands Universit, 1986
PHD, University of Oregon, 1993

Escher, Christine 1993, Professor, Mathematics
Degrees:
BA, Universitat Kaiserslautern, 1985
PHD, University of Pennsylvania, 1993

Eseonu, Chinweike 2012, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Foreign Institution, 2006
MS, Univ of Minnesota-Duluth, 2008
PHD, Texas Tech University, 2012

Estes, Max 2015, Instructor, Art
Degrees:
MFA, Univ of Wisconsin-Milwaukee, 2008

Estill, Charles 2002, Professor, Vet Clinical Sciences
Degrees:
BS, Colorado State University, 1972
PhD, North Carolina State Univ, 1994

Estreich, George 2011, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Virginia, 1986
MFA, Cornell University, 1989

Etherton, Cindy 2017, Instructor, College of Education
Degrees:
BS, Linfield College, 1990
MED, Western Oregon University, 2010

Evans, Allison 2007, Instructor, Microbiology (Science)
Degrees:
BA, Depauw University, 1998
MS, University of Idaho, 2001
PhD, Oregon State University, 2016

Evans, T Matthew 2012, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, University of New Mexico, 1997
MS, Georgia Institute of Technolog, 2002
PhD, Georgia Institute of Technolog, 2005

Evans, Glenn 1977, Emeritus, Chemistry

Evans, Gwil 1966, Emeritus, Ag Communications

Evans, Thomas 1968, Emeritus, College of Education

F

Facka, Aaron 2017, Research Associate(Post Doc), INR-Or Biodvrsty
InfoCtr
Degrees:
BS, New Mexico St Univ-Main, 2003
MS, New Mexico St Univ-Main, 2006
PhD, North Carolina State Univ, 2016

Fairchild, Clifford 1962, Emeritus, Physics

Falk, John 2003, Emeritus, College of Education

Faltesek, Daniel 2012, Assistant Professor, New Media Communications
Degrees:
BA, Concordia College-Moorhead, 2006
PhD, University of Iowa, 2011

Fan, Andy 2016, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Tsinghua University, 2000
MS, Chinese Academy of Sciences, 2003
PhD, Univ of Mass-Boston, 2009

Fan, Shaokun 2016, Assistant Professor, College of Business
Degrees:
BS, Nanjing University, 2004
MS, Nanjing University, 2008
PhD, University of Arizona, 2012

Fandino, Kimberly 2017, Instructor, College of Education
Degrees:
MA, Western Oregon University, 2000

Fang, Chong 2010, Associate Professor, Chemistry
Degrees:
PhD, University of Pennsylvana, 2006

Fantacone, Mary 2008, Faculty Research Assistant, Linus Pauling
Institute
Degrees:
BS, Metropolitan State Univ-Denver, 2000
BA, University of Wyoming, 1989
MS, Michigan State University, 2008

Farber, Paul 1970, Emeritus, History

Farber, Vreneli 1979, Emeritus, World Languag & Cultures

Fare, Rolf 1998, Professor, Economics
Degrees:
BS, Univ of Lund, 1967
MS, Univ of Lund, 1971
PhD, Univ of Lund, 1976

Faridani, Adel 1989, Professor, Mathematics
Degrees:
BS, Foreign Institution, 1982
PhD, Univ of Munster, 1988

Farkas, Daniel 1990, Emeritus, Food Science and Techno

Farmandis, Christine 1998, Instructor (PAC), Physical ActivityCourses
Degrees:
MA, Oregon State University, 1997

Farness, Donald 1964, Emeritus, Economics

Farsoni, Abdollah 2003, Associate Professor, Sch Nuclear Sci & Engr
Degrees:
BS, University of Tehran, 1992
MS, Sharif University of Tech, 1999
PhD, Oregon State University, 2006

Fasth, Becky 1995, Senior Faculty Research Asst I, Forest Ecosyst &
Society
Degrees:
BS, Univ of Illinois Central Offic, 1991

Faudskar, John 1972, Emeritus, Fisheries and Wildlife

Faulkenberry, G 1991, Emeritus, Statistics (Science)

Feamside, Jeff 2013, Instructor, Sch of Wrtg Lit & Film
Degrees:
BFA, Bowling Green State University, 1996
MFA, Eastern Washington University, 2000

Febre, Ricardo 2017, Visiting Assistant Professor, Sch of Arts & Comm
Degrees:
BA, San Jose State University, 1996
MFA, SUNY College-New Paltz, 2006

Federiuk, Joyce 2017, Instructor (PAC), Physical ActivityCourses
Degrees:
MS, Massachusetts Inst of Technolo, 2008

Feeney, David 2013, Instructor, College of Business
Degrees:
BS, University of Dayton, 1989
Fehrenbacher, Jennifer 2016, Assistant Professor, Earth, Ocean & Atmo Sci  
Degrees:  
BS, Northern Illinois University, 1997  
MS, University of Chicago, 2003  
PHD, University of Chicago, 2010  

Feibert, Erik 1990, Senior Faculty Research Asst I, Malheur Exp Sta  
Degrees:  
BS, Universidade de Sao Paulo, 1980  
MA, Univ of California-Santa Cruz, 1988  

Fein, Burton 1970, Emeritus, Mathematics  

Feinberg, David 1995, Instructor (PAC), Physical Activity Courses  
Degrees:  
BA, Univ of California-Berkeley, 1974  

Felder, William 2009, Instructor, Mathematics  
Degrees:  
BA, Univ of California-Berkeley, 2006  
MS, Oregon State University, 2011  
PHD, Oregon State University, 2017  

Felix, Joel 2006, Associate Professor, Malheur Exp Sta  
Degrees:  
BS, Purdue University Main Campus, 1990  
MS, Purdue University Main Campus, 1992  
PHD, Iowa State University, 1999  

Fendall, Roger 1968, Emeritus, Crop and Soil Science  

Feng, Zhenxing 2016, Assistant Professor, Sch of Chem/Bio/Envr Eng  
Degrees:  
BS, Peking University, 2004  
MS, McGill University, 2006  
PHD, Northwestern University, 2011  

Fenner, Alan 2004, Professor, Sch Elect Engr/Comp Sci  
Degrees:  
BS, University of Maine, 1997  
MS, Purdue University Main Campus, 2000  
PHD, Purdue University Main Campus, 2004  

Fern, Xiaoli 2005, Associate Professor, Sch Elect Engr/Comp Sci  
Degrees:  
BA, Shanghai Jiaotong University, 1997  
MS, Shanghai Jiaotong University, 1999  
PHD, Purdue University Main Campus, 2005  

Field, Jennifer 1992, Professor, Enviro/Molecular Toxic  
Degrees:  
BS, Northland College, 1985  
PHD, Colorado School of Mines, 1990  

Field, Katharine 1988, Director, Bioresources Research, Professor, Microbiology (Science)  
Degrees:  
BA, Yale University, 1975  
MA, Boston University, 1979  
PHD, University of Oregon, 1985  

Field, Laurel 2015, Faculty Research Assistant, Integrative Biology  
Degrees:  
BA, Whitman College, 2017  

Fernandez, Natalia 2010, Associate Professor, Library  
Degrees:  
BA, University of Arizona, 2008  
MA, University of Arizona, 2010  

Fernandez-Salvador, Javier 2006, Assistant Professor (Practice), Ext Marion County Office  
Degrees:  
BS, Oregon State University, 2007  
BS, Univ San Francisco de Quito, 2002  
MS, Oregon State University, 2014  

Ferngren, Gary 1970, Professor, History  
Degrees:  
BA, Western Washington University, 1964  
MA, University of British Columbia, 1967  
PHD, University of British Columbia, 1973  

Fery, Melissa 2005, Associate Professor (Practice), Ext Lane County Office  
Degrees:  
BS, Oregon State University, 1998  
MS, Oregon State University, 2000  

Feser, Edward 2017, Professor, School of Public Policy  
Degrees:  
BA, University of San Francisco, 1989  

Fick, Jason 2016, Assistant Professor, Music  
Degrees:  
BA, La Grange College, 2000  
MM, University of Oregon, 2007  
PHD, University of North Texas, 2013  

Fick, Kimary 2016, Instructor, Music  
Degrees:  
BMUS, University of Delaware, 2001  
MM, University of Oregon, 2005  
PHD, University of North Texas, 2016  

Fidler, Anna 2015, Instructor, Art  
Degrees:  
BFA, Western Michigan University, 1995  
MFA, Portland State University, 2005  

Fieland, Valerie 2007, Faculty Research Assistant, Ag Botany/Plant Path  
Degrees:  
BS, Oregon State University, 1986  

Field, Jennifer 1992, Professor, Enviro/Molecular Toxic  
Degrees:  
BS, Northland College, 1985  
PHD, Colorado School of Mines, 1990  

Field, Katharine 1988, Director, Bioresources Research, Professor, Microbiology (Science)  
Degrees:  
BA, Yale University, 1975  
MA, Boston University, 1979  
PHD, University of Oregon, 1985  

Field, Laurel 2015, Faculty Research Assistant, Integrative Biology  
Degrees:  
BA, Whitman College, 2017
Figueroa, Robert 2014, Associate Professor, Philosophy
Degrees:
BA, Rutgers University-New Brunswick, 1989
MA, Univ of Colorado-Boulder, 1995
PHD, Univ of Colorado-Boulder, 1999

FilarWilliams, Beth 2015, Assistant Professor, Library
Degrees:
BA, Johns Hopkins University, 1994
MLS, Univ of Maryland-College Park, 1997

Filichkin, Tanya 1998, Senior Faculty Research Asst I, Crop and Soil Science
Degrees:
BS, Foreign Institution, 1979
MS, Foreign Institution, 1984

Filley, Shelby 1998, Professor, Ext Douglas County Offc
Degrees:
BS, Univ of California-Davis, 1982
MS, Cal State Polytechnic - Pomona, 1986
PHD, Oregon State University, 1998

Fink, Gregory 1964, Emeritus, Pharmacy

Firth, James 1973, Emeritus, College of Education

Fischer, Cameron 2004, Instructor, Acad Prog/Student Aff
Degrees:
BA, Univ of California-Santa Cruz, 1997
MA, Prescott College, 2000

Fischer, Erica 2017, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, Cornell University-Ithaca, 2007
PHD, Purdue University Main Campus, 2015

Fischer, C 1947, Emeritus, Animal & Rnglnd Sci Exttn

Fisher, Jennifer 2010, Faculty Research Assistant, CIMRS (Inst/Marine Res)
Degrees:
MS, San Jose State University, 2004

Fisher, Monica Grace 1998, Assistant Professor (Sr Res), Applied Economics
Degrees:
BA, University of Washington, 1990
MS, Oregon State University, 1995
PHD, Purdue University Main Campus, 2002

Fisher, Glenn 1976, Emeritus, Crop and Soil Science

Fisk, Martin 1983, Emeritus, Earth, Ocean & Atmo Sci

Fitzgerald, Stephen 1984, Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, SUNY Coll-Env Sci Forestry, 1979
MS, University of Idaho, 1983

Flaherty, Francis 1967, Emeritus, Mathematics

Flahive, Mary 1990, Professor, Mathematics
Degrees:
BA, St Josephs College-Main, 1969
MS, The Ohio State Univ Main, 1971
PHD, The Ohio State Univ Main, 1976

Flatt, Patricia 2000, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, University of Denver, 1992
MS, University of Denver, 1994
PHD, Vanderbilt University, 2000

Flay, Brian 2005, Emeritus, Sch of Soc/Bhav Hlth Sci

Fletcher, Kiel 2015, Instructor, Acad Prog/Hlth Sci
Degrees:
BA, Univ of Colorado-Boulder, 2006
MA, Pacific NW College of Art, 2013

Fletcher, Richard 1979, Emeritus, Forest Eng/Resourcs/Mgmt

Fletcher, Roger 1967, Emeritus, Extension Service Admin

Fleury, Nick 2011, Head Advisor, College of Ag Admin
Degrees:
BS, Univ of Michigan-Ann Arbor, 2000
MS, University of Oregon, 2009
MPA, University of Oregon, 2009

Flexner, Lisa 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, Stanford University, 1994
MA, Stanford University, 1995
PHD, University of Washington, 2006

Flick, Lawrence 1994, Dean Emeritus, College of Education

Floyd, Joseph 2013, Instructor, Women/Gendr/Sxlt Studies
Degrees:
BA, Univ of S Carolina-Columbia, 2010
MSW, University of Washington, 2012

Fogaren, Kristen 2017, Research Associate (Post Doc), Earth, Ocean & Atmo Sci

Follett, Thomas 1997, Faculty Research Assistant, Marine Mammal Institute
Degrees:
BS, University of Washington, 1997

Folts, James 1971, Emeritus, Art

Fontana, Peter 1967, Emeritus, Physics

Ford, Amy 2002, Senior Instructor I, Acad Prog/Student Aff
Degrees:
Fore, Ruth 2016, Instructor, Wood Science/Engr
Degrees:
BS, Corban University, 1996
MS, Oregon State University, 2001
PHD, Oregon State University, 2005

Foreman, Nicholas 2015, Instructor, History
Degrees:
BA, University of North Texas, 2009
MA, University of North Texas, 2012
PHD, University of Florida, 2017

Formiga, Alice 2001, Assistant Professor (Practice), Horticulture
Extension
Degrees:
BA, Bryn Mawr College,
MA, New York University,

Foster, James 1985, Emeritus, Political Science

Fowler, Jeffrey 2013, Instructor (ESL), INTO OSU Program
Degrees:
BA, Hamline University, 2007
MA, Monterey Inst of Internat Stud, 2012

Fowler Jr, John 1997, Interim Department Head, Ag Botany/Plant Path, Professor
Degrees:
BS, University of Georgia, 1987
PHD, Univ of California-Berkeley, 1994

Fradelollii, Joseph 2009, Senior Instructor I, Sch of Civil/Constr Engr
Degrees:
BS, Univ of Texas-Austin, 2003
MS, Univ of Texas-Austin, 2006

Frasier, Amy 2004, Health Educator-Nutritionist, Student Health Services
Degrees:
BS, Oregon State University, 2002

Frew, John 1997, Interim Department Head, Ag Botany/Plant Path, Professor
Degrees:
BS, University of Georgia, 1987
PHD, Univ of California-Berkeley, 1994

Freeman, Ela 2016, Instructor, World Languag & Cultures
Degrees:
BS, North Carolina State Univ, 2002
MA, North Carolina State Univ, 2010

Freeman, Julianne 2010, Instructor, Anthropology
Degrees:
BA, Pomona College, 1986
PHD, Indiana University-Bloomington, 1996

Freeman, Ru 2017, Instructor- MFA, Acad Prog/Student Aff
Degrees:
BA, Bates College, 1993
MA, Foreign Institution, 1998

Freedman, Jean 1968, Emeritus, Political Science

Frick, Robert 2014, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Pennsylvania State Univ-Main Campus, 2005
MS, Georgia Institute of Technolog, 2007
Frost, Kenneth 2015, Assistant Professor, Hermiston Exp Sta
Degrees:
BS, Univ of Wisconsin-Madison, 2000
MS, Univ of Wisconsin-Madison, 2004
PHD, Univ of Wisconsin-Madison, 2012

Fry, Brady 2011, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University,

Fu, Elain 2013, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Brown University, 1992
MS, Univ of Maryland-College Park, 1996
PHD, Univ of Maryland-College Park, 1997

Fu, Xiao 2017, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BEE, Univ of Elec Sci Tech of Chi, 2005
MENG, Univ of Elec Sci Tech of Chi, 2010
PHD, Chinese Univ of Hong Kong, 2014

Fuchigami, Leslie 1970, Emeritus, Horticulture

Fuentes, Claudio 2011, Associate Professor, Statistics (Science)
Degrees:
PHD, University of Florida, 2011

Fuller, Brian 2017, Instructor, Sociology
Degrees:
PHD, Osgoode Hall Law Sch of York U, 2013

Fuller, Jaime 2001, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 2007

Fuller, Skylar 2013, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Oregon State University,

Funderburg, Lauren 2012, Instructor (ESL), INTO OSU Program
Degrees:
BA, George Fox University, 2008
MA, Concordia University, 2012

Funk, Kenneth 1980, Associate Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BA, Taylor University, 1975
MS, The Ohio State Univ Main, 1977
PHD, The Ohio State Univ Main, 1980

Furuno, Jon 2011, Associate Professor, Pharmacy
Degrees:
BS, University of Rhode Island, 1996
MS, Baltimore Hebrew College, 2001
PHD, Baltimore Hebrew College, 2004

Gable, Kevin 1988, Professor, Chemistry
Degrees:
BS, Miami University-Oxford, 1981
MS, Cornell University, 1984

Gallager, Christine 2006, Instructor, Sch of Arts & Comm
Degrees:
BFA, University of Oregon, 1995
MFA, Rhode Island School of Design, 2005

Gallagher, Katelin 2014, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Univ of Illinois at Urbana-Cha, 2006

Gallagher, Sally 1994, Professor, Sociology
Degrees:
BA, Gordon College, 1981
PHD, Univ of Maine Central Office, 1991

Galloway, Robin 2000, Emeritus, Sch of Soc/Bhav Hlth Sci

Gambatese, John 2000, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Univ of California-Berkeley, 1986
MS, Univ of California-Berkeley, 1987
PHD, University of Washington, 1996

Gamble, Wilbert 1962, Emeritus, Biochem/Biophysics

Gamroth, Michael 1974, Emeritus, Animal & Rnglnd Sci Extn

Ganio, Lisa 1994, Associate Professor, Forest Ecosyst & Society
Degrees:
BA, Humboldt State University, 1982
MS, Oregon State University, 1986
PHD, Oregon State University, 1989

Ganzhorn, Seth 2017, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Oregon, 2003
MS, Fordham University, 2012
PHD, Fordham University, 2014

Garceau, Demaris 2005, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Central Washington University, 1986
MS, Central Washington University, 2004

Garcia, Deann 2016, Instructor, Sch of Arts & Comm
Degrees:
BFA, Oregon State University, 2006
MA, Minneapolis College of Art And, 2015

Garcia, Jonathan 2015, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Yale University, 2003
PHD, Columbia University-NYC, 2009

Gibbs, Susannah 2016, Research Associate (Post Doc), Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Pomona College, 2011
MS, Johns Hopkins University, 2013
PHD, Johns Hopkins University,

Gibbs, Wallace 1958, Emeritus, Office of the Registrar

Gibeaut, David 2010, Research Associate (Post Doc), Mid-Columbia Exp Sta
Degrees:
BS, The Ohio State Univ Main, 1981
PHD, Univ of California-Riverside, 1987

Gibson, Nathan 2006, Associate Professor, Mathematics
Degrees:
BS, Worcester Polytechnic Institut, 1998
MS, Univ of Tennessee-Knoxville, 2001
PHD, North Carolina State Univ, 2004

Gibson, Yvette 2011, Instructor, Animal & Rnglnd Sciences
Degrees:
BS, Oregon State University, 2012
MS, Oregon State University, 2015

Giebultowicz, Jadwiga 1995, Professor, Integrative Biology
Degrees:
MS, Univ of Warsaw, 1974
PHD, Univ of Warsaw, 1981

Giebultowicz, Tomasz 1995, Associate Professor, Physics
Degrees:
MS, Univ of Warsaw, 1968
PHD, Univ of Warsaw, 1975

Giers, Morgan 2017, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Missouri Univ of Sci Tech, 2010
PHD, Arizona State University, 2014

Gilbertson, Heidi 2016, Instructor, College of Education
Degrees:
BA, Cal State Univ-Northridge, 1998
MED, Concordia University, 2014

Gilchrist, Della 2013, Instructor (ESL), INTO OSU Program
Degrees:
MA, Cal State Univ-Los Angeles, 1992
MA, Biola University, 2004

Gillen, Dee 2015, Instructor (PAC), Physical ActivityCourses, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, University of Oregon, 1997
MS, University of Oregon, 2000

Gillespie, Timmothy 2017, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 2017

Gilley, Larry 2016, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
Goins, Justin 2006, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BS, Portland State University, 2010
MCOUN, Portland State University, 2015

Goka-Dubose, Emiko 2015, Faculty Research Assistant, Acad Prog/Student Aff
Degrees:
BS, Portland State University, 2010
MCOUN, Portland State University, 2015

Goldfinger, Chris 1988, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Humboldt State University, 1980
MS, Oregon State University, 1990
PHD, Oregon State University, 1994

Goldsmith, Jenna 2016, Instructor, Acad Prog/Student Aff
Degrees:
BA, Illinois State University, 2008
MA, Illinois State University, 2010

Golya, Nandita 2014, Instructor, College of Education
Degrees:
MS, University of Oregon, 2009
MS, University of Oregon, 2007
PHD, University of Oregon, 2014

Gombart, Adrian 2008, Associate Professor, Linus Pauling Institute
Degrees:
BS, Oregon State University, 1986
BS, Oregon State University, 1989
MS, Oregon State University, 1989
PHD, University of Washington, 1994

Goni, Miguel 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Washington, 1986
PHD, University of Washington, 1992

Gonnerman, Greg 1994, Senior Faculty Research Asst I, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 1994

Gonor, Jefferson 1964, Emeritus, Earth, Ocean & Atmo Sci

Gonzales-Berry, Erlinda 1997, Emeritus, Ethnic Studies

Gonzalez, Carlos 2015, Assistant Professor, Forest Eng/Resoures/Mgmt
Degrees:
BA, Foreign Institution, 1994
MS, Foreign Institution, 2004
PHD, University of Florida, 2009

Good, Stephen 2015, Assistant Professor, Biol & Ecol Engineering
Degrees:
BS, Carnegie Mellon University, 2004
MS, Michigan Technological Univ, 2008
PHD, Princeton University, 2013

Good, James 1980, Emeritus, Earth, Ocean & Atmo Sci

Goodnow, Trischa 1993, Professor, Speech Communication
Degrees:
BS, Clarion Univ of Pennsylvania, 1985
MA, Emerson College, 1987
PHD, Univ of Pittsburgh-Main Campus, 1993

Goodrich, Matthew 2013, Instructor, Music
Degrees:
BMUS, Oberlin College, 1988
MM, University of Washington, 1994

Goodwin, Julia 2007, Instructor, History
Degrees:
BMUS, Oberlin College, 1994
MA, Univ of N Carolina-Charlotte, 1998
PHD, University of Rochester, 2007

Gordon, Jana 2005, Associate Professor (Clinical), Vet Clinical Sciences
Degrees:
BS, University of Arizona, 1993
MS, Univ of Illinois at Urbana-Cha, 2002
DVM, Colorado State University, 1998

Gordon, Louis 1966, Emeritus, Earth, Ocean & Atmo Sci

Gorman, Dylan 2012, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 2014

Gorman, Elena 2006, Associate Professor (Clinical), Vet Biomedical Science
Degrees:
BS, New Mexico St Univ-Main, 1991
MS, Univ of Illinois at Urbana-Cha, 2006
DVM, Colorado State University, 1997

Gorman, Jessica 2015, Assistant Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Univ of California-San Diego, 1997
MPH, Univ of N Carolina-Chapel Hill, 2000
PHD, Univ of California-San Diego, 2009

Gorman, Michael 1989, Instructor (PAC), Physical ActivityCourses
Degrees:
MS, Oregon State University, 1978

Gosnell, Hannah 2006, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Brown University, 1988
MA, Univ of Colorado-Boulder, 1995
PHD, Univ of Colorado-Boulder, 2000

Gossett, Jason 2015, Instructor, Music
Degrees:
BA, Murray State University, 2001
MA, Murray State University, 2009
PHD, Penn State Univ-Main Campus, 2015

Gottlieb, Evan 2003, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Mc Master University, 1997
MA, University at Buffalo, SUNY, 2000
PHD, University at Buffalo, SUNY, 2002

Gourlie, Jennifer 2000, Faculty Research Assistant, Columbia Basin Exp Sta
Degrees:
BS, Eastern Oregon University, 1998

Gouthu, Satyanarayana 2010, Research Associate, Horticulture
Degrees:
BS, Andhra University, 1984
MS, Gujarat Agricultural Univ, 1986
PHD, Gujarat Agricultural Univ, 1994

Goyer, Aymeric 2005, Associate Professor (Sr Res), Hermiston Exp Sta
Degrees:
BS, Univ of Rennes Institut De Ges, 1997
MS, Foreign Institution, 1998
PHD, Foreign Institution, 2001

Grabe, Ann 1993, Instructor, Music
Degrees:
BS, Oregon State University, 1981
MA, Ithaca College, 1986

Grabow, Aleksandria 2018, Instructor, Sch of Psychological Sci
Degrees:
BS, Cal State Univ-Long Beach, 2011
MS, University of Oregon, 2016

Graebner, Ryan 2012, Assistant Professor (Practice), Columbia Basin Exp Sta
Degrees:
BA, University of Montana, 2011

Graff, Jason 2011, Assistant Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BS, University of Washington, 2003
BS, Univ of Illinios Springfield, 1998
PHD, University of Rhode Island, 2010

Graham, Allie 2017, Research Associate (Post Doc), Integrative Biology
Degrees:
MS, Univ of N Carolina-Greensboro, 2009
PHD, University of Miami, 2017

Graham, Chelsea 2017, Visiting Assistant Professor, Speech Communication
Degrees:
BA, Cal State Univ-Northridge, 2007
MA, Northern Kentucky University, 2011
PHD, University of Kansas, 2016

Graham, David 1992, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Florida Inst of Technology, 1975
MS, University of Rhode Island, 1980
PHD, Massachusetts Inst of Technolo, 1987

Graham, Kim 2018, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Oregon State University, 2007

Graham, Matthew 2013, Assistant Professor, Physics
Degrees:
PHD, Univ of California-Berkeley, 2010

GrahamJr, Roger 1990, Professor, College of Business
Degrees:
BS, Colorado State University, 1973
MS, University of Montana, 1984
PHD, University of Oregon, 1990

Grand, Lauren 2016, Assistant Professor (Practice), Ext Lane County Office

Goy, University of Washington, 2013

Granrud, Amanda 2010, Instructor, Speech Communication
Degrees:
BA, Carroll College, 1994
MA, Univ of N Carolina-Chapel Hill, 1999

Gravatt, Margaret 1973, Emeritus, Student Health Services

Graves, Julie 2015, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
MS, Minnesota State Univ-Mankato, 1999
PHD, Univ of Colorado-Boulder, 2013

Gray, Clifford 1961, Emeritus, College of Business-Adm

Greaves, Kathleen 1992, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Univ of Hawaii at Manoa, 1992
MS, Oregon State University, 1995
PHD, Oregon State University, 2000

Green, David 2015, Research Associate, Institute Natrl Res Dir

Green, Jessica 2007, Senior Faculty Research Asst I, Horticulture
Degrees:
BS, Colorado Mesa University, 2007
MS, Oregon State University, 2010

Green, Julia 2009, Instructor, Speech Communication
Degrees:
MA, Oregon State University, 2014

Green, Julie 2000, Professor, Art
Degrees:
BFA, University of Kansas, 1983
MFA, University of Kansas, 1996

Green, Marc 1997, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 1976

Greene, Rawley 2006, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Southern Illinois U-Carbondale, 2006
PHD, Oregon State University, 2013

Greenwood, Juliet 2000, Associate Professor, Biochem/Biophysics, Associate Provost, VP/Dean Undergrd Studies
Degrees:
BS, Siena College, 1990
PHD, Univ of Alabama at Birmingham, 1995

Gregerson, Donna 1974, Emeritus, EXT Fam/CommHlth OnCmps

Gregg, Jillian 1999, Instructor, Crop and Soil Science
Degrees:
BS, University of Utah, 1988
MS, University of Utah, 1991
PHD, Cornell University-Ithaca, 1999

Gregory, Matthew 1996, Senior Faculty Research AsstII, Forest Ecosyst & Society
Grosskopf, Shawna 1998, Emeritus, Economics
Grotta, Amy 2000, Associate Professor, Ext Columbia Co Office
Grenz, Theme 2007, Instructor, College of Education
Gratz, Michael 2011, Instructor, Sch Elect Engr/Comp Sci
Gretes, Michael 2011, Instructor, Sch Elect Engr/Comp Sci
Gutzmacher, Stephanie 2015, Assistant Professor, Sch of Bio/Pop Hlth
Guaderrama, Luanna 2000, Instructor, Integrative Biology
Guenther, Ronald 1967, Emeritus, Mathematics
Guerrini, Anita 2008, Professor, History
Gutbrod, Oscar 1966, Emeritus, Crop and Soil Science
Gutowska, Izabela 2011, Assistant Professor (Sr Res), Sch Nuclear Sci &
Gvakharia, Barbara (Varo) 1994, Research Associate, Integrative Biology
Gwin, Lauren 2008, Assistant Professor, Crop and Soil Science
Gwin, Lauren 2008, Assistant Professor, Crop and Soil Science
Grosskopf, Shawna 1998, Emeritus, Economics
Grotta, Amy 2000, Associate Professor, Ext Columbia Co Office
Grenz, Theme 2007, Instructor, College of Education
Gratz, Michael 2011, Instructor, Sch Elect Engr/Comp Sci
Gretes, Michael 2011, Instructor, Sch Elect Engr/Comp Sci
Gutzmacher, Stephanie 2015, Assistant Professor, Sch of Bio/Pop Hlth
Guaderrama, Luanna 2000, Instructor, Integrative Biology
Guenther, Ronald 1967, Emeritus, Mathematics
Guerrini, Anita 2008, Professor, History
Gutbrod, Oscar 1966, Emeritus, Crop and Soil Science
Gutowska, Izabela 2011, Assistant Professor (Sr Res), Sch Nuclear Sci &
Gvakharia, Barbara (Varo) 1994, Research Associate, Integrative Biology
Gwin, Lauren 2008, Assistant Professor, Crop and Soil Science
Grosskopf, Shawna 1998, Emeritus, Economics
Grotta, Amy 2000, Associate Professor, Ext Columbia Co Office
Grenz, Theme 2007, Instructor, College of Education

Gutzmacher, Stephanie 2015, Assistant Professor, Sch of Bio/Pop Hlth
Guaderrama, Luanna 2000, Instructor, Integrative Biology
Guenther, Ronald 1967, Emeritus, Mathematics
Guerrini, Anita 2008, Professor, History
Gutbrod, Oscar 1966, Emeritus, Crop and Soil Science
Gutowska, Izabela 2011, Assistant Professor (Sr Res), Sch Nuclear Sci &
Gvakharia, Barbara (Varo) 1994, Research Associate, Integrative Biology
Gwin, Lauren 2008, Assistant Professor, Crop and Soil Science
Haak, Margaret 1993, Senior Instructor II, Chemistry
Degrees:
BS, Oregon State University, 1981
MS, Oregon State University, 1992

Haapala, Karl 2008, Associate Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BSME, Michigan Technological Univ, 2001
MS, Michigan Technological Univ, 2003
DENG, Michigan Technological Univ, 2008

Hacker, Sally 1996, Professor, Integrative Biology
Degrees:
BS, University of Washington, 1984
MS, University of Maine, 1988
PHD, Brown University, 1996

Hacker, Marla 1997, Emeritus, Sch of Mech/Ind/Mfg Engr

Hackleman, Debra 1978, Emeritus, Library

Haddad, Becky 2017, Instructor, General Agriculture
Degrees:
BS, Univ of Wisconsin-Platteville, 2012
MS, North Dakota St U-Main Campus, 2016

Hadley, Adam 2009, Research Associate, Forest Ecosyst & Society
Degrees:
BS, University of New Brunswick, 2003
MS, Universite Laval, 2006
PHD, Oregon State University, 2012

Hadley, Kathryn 2016, Instructor, Physics
Degrees:
BS, Unknown College, 2003
PHD, University of Oregon, 2011

Hagelstein, Fred 1958, Emeritus, Extension Service Prgram

Hagen, Chris 2012, Associate Professor, Acad Prog/Student Aff, Sch of Mech/Ind/Mfg Engr
Degrees:
MENG, Colorado State University, 2002
PHD, Univ of Wisconsin-Madison, 2006

Hagen, Christian 2006, Associate Professor (Sr Res), Fisheries and Wildlife
Degrees:
BA, Fort Lewis College, 1993
MS, University of Manitoba, 1999
PHD, Kansas State University, 2003

Hagen, Tony 1998, Professor-Endowed, Linus Pauling Institute
Degrees:
BS, North Carolina State Univ, 1983
PHD, Emory University, 1990

Hagerty, Christina 2010, Assistant Professor, Columbia Basin Exp Sta

Hagerty, Roy 1996, Dean-COS, College of Science Admin, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Alberta, 1990
MS, Stanford University, 1993
PHD, Stanford University, 1995
PHD, Stanford University, 1996

Haider, Mran 2011, Instructor, Speech Communication
Degrees:
BS, Portland State University, 2003
MS, Portland State University, 2008

Haillemariam, Temesgen 2003, Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Alemaya University of Agricult, 1985
MS, Lakehead University, 1992
PHD, University of British Columbia, 1999

Hajjar, Reem 2016, Assistant Professor, Forest Ecosyst & Society
Degrees:
BS, McGill University, 2000
MA, Columbia University-NYC, 2004
PHD, University of British Columbia, 2011

Hake, Charisse 2000, Instructor, Mathematics
Degrees:
BA, LeTourneau University, 1999
MS, Oregon State University, 2002

Hale, Brian 1998, Associate Professor (Sr Res), Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Cal-Santa Barbara, 1995
MS, University of Florida, 1998
Halischak, Kate 2006, Dir-Student Athlete Acad Svcs, Acad Svcs Stdnt Athletes
Degrees:
BA, Bowling Green State University, 1976
MA, Bowling Green State University, 1978
PHD, University of Notre Dame, 1982

Hall, Adela 2015, Instructor, World Languag & Cultures
Degrees:
MA, Czech Technical Univ in Prague, 1998
PHD, Foreign Institution, 2007

Hall, Jean 1990, Professor, Vet Biomedical Science
Degrees:
BS, Oregon State University, 1981
MS, Colorado State University, 1987
DVM, Washington State University, 1982
PHD, Colorado State University, 1989

Hall, Kim 2006, Instructor, Forest Ecosyst & Society
Degrees:
BS, Santa Barbara City College, 2004
BS, Univ of California-Berkeley, 2004
MS, Oregon State University, 2009
PHD, Oregon State University, 2014

Hall, Troy 2014, Department Head, Forest Ecosyst & Society, Professor
Degrees:
BA, Pomona College, 1985
MA, Duke University, 1990
PHD, Oregon State University, 1996

Hall, James 1963, Emeritus, Fisheries and Wildlife

Hall, Roberta 1975, Emeritus, Anthropology

Haller, Merrick 2001, Interim NNMREC Director, NW Marine RenewEnergyCtr, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Purdue University Main Campus, 1993
MS, University of Delaware, 1996
PHD, University of Delaware, 1999

Hallett, Sascha 2003, Research Associate, Microbiology (Ag)
Degrees:
BS, University of Queensland, 1993
PHD, University of Queensland, 1998

Hallman, Amy 2014, Project Coordinator, Enviro/Molecular Toxic
Degrees:
BS, Missouri State Univ, 2009
MS, Southern Illinois U-Carbondale, 2013

Halse, Richard 1990, Emeritus, Ag Botany/Plant Path

Halsey, Kimberly 2000, Assistant Professor, Microbiology (Science)
Degrees:
BS, Oregon State University, 1988
BS, Oregon State University, 2001
PHD, Oregon State University, 2007

Halton, Alyssa 2012, Instructor, Sch of Wrtg Lit & Film
Degrees:
Hannigan, JJ 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, University of Oregon, 2014
MAT, Saint Louis University-Main, 2012

Hannigan-Downs, Kimberly 1995, Associate Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BS, Willamette University, 1989
MS, Indiana State University, 1991
PHD, Oregon State University, 2004

Hannum, Olin 2010, Instructor/Dir Athletic Bands, Music
Degrees:
MFA, Oregon State University, 2011

Hansen, Amy 2016, Instructor, Music
Degrees:
BMUS, Oberlin College, 1993

Hansen, Eric 1994, Professor, Wood Science/Engr, Department Head
Degrees:
BS, University of Idaho, 1990
PHD, Virginia Polytechnic Institute, 1994

Hansen, Everett 1972, Emeritus, Ag Botany/Plant Path

Hansen, Herbert 1974, Emeritus, College of Ag Admin

Hansen, N 1998, Emeritus, College of Ag Extension

Hanshumaker, William 1993, Senior Instructor II, Sea Grant
Degrees:
BS, University of Florida, 1974
MA, Lewis Clark College, 1987

Hanson, Brittany 2012, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Oklahoma State Univ-Main, 2008
MS, Oklahoma State Univ-Main, 2011

Hanson, Chad 2007, Senior Faculty Research Asst I, Forest Ecosyst & Society
Degrees:
BS, Univ of California-Santa Cruz, 2001
MS, Univ of California-Santa Cruz, 2008

Hanson, Warren 2012, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Southwestern College, 2006
MS, Oklahoma State Univ-Main, 2011

Harden, Liana 2013, Assistant Professor (Practice), Ext Hood River Co Office
Degrees:
BS, University of Oklahoma, 2004
MA, Portland State University, 2012

Hardesty, David 1970, Emeritus, Art

Harding, Anna 1987, Emeritus, Sch of Bio/Pop Hlth Sci

Hardison, Linda 1996, Assistant Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BA, Univ of Texas-Austin, 1984
PHD, University of Washington, 1995

Hardy, Jay 2015, Assistant Professor, College of Business
Degrees:
BS, Colorado State University, 2009
MS, University of Oklahoma, 2012
PHD, University of Oklahoma, 2015

Harmon, Mark 1981, Emeritus, Forest Ecosyst & Society

Harper, Barbara 2003, Associate Professor (Sr Res), Sch of Bio/Pop Hlth Sci
Degrees:
BA, Occidental College, 1970
PHD, Univ of Texas-Austin, 1974

Harper, Bryan 2007, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Arizona State University, 1995
MS, University of Nevada-Las Vegas, 2001

Harper, Stacey 2005, Associate Professor, Enviro/Molecular Toxic
Degrees:
BS, Colorado Mesa University, 1993
MS, University of Nevada-Las Vegas, 1998
PHD, University of Nevada-Las Vegas, 2003

Harper, Theresa 2001, Instructor (ALS), Academic Success Center
Degrees:
BS, Oregon State University, 2002
MAT, Oregon State University, 2006
MS, Kansas State University, 2013

Harper, James 1942, Emeritus, Animal & Rnglnd Sciences

Harran, Tyler 2015, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, University of Wyoming, 2014

Harrer, Laurie 2015, Instructor, Acad Prog/Student Aff
Degrees:
BS, Montana State Univ-Bozeman,

Harris, Robert 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Davis, 1984
MS, University of Utah, 1992
PHD, University of Utah, 1996

Harris, Irwin 1947, Emeritus, Memorial Union

Harrison, Wayne 2008, Senior Instructor I, Sch of Wrtg Lit & Film
Degrees:
BA, University of New Haven, 1996
MFA, University of Iowa, 1999

Harrison, William 1974, Emeritus, College of Business-Adm

Hart, Dianne 1981, Emeritus, World Langau & Cultures

Hart, John 1984, Emeritus, Crop and Soil Science
Hart, Ralph 1969, Emeritus, Crop/Soil Sci Extension

Harte, Michael 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Univ of Auckland, 1986
MA, Univ of Auckland, 1988
PHD, University of Victoria, 1994

Hartung, Daniel 2001, Associate Professor, Pharmacy
Degrees:
BS, Univ of Wisconsin-Madison, 2000
D PHAR, Univ of Wisconsin-Madison, 2000

Harvey, S Marie 2003, Associate Dean for Research, Public Hlth/HumanSci Adm, Distinguished Professor, Sch of Soc/Bhv Hlth Sci
Degrees:
BA, University of Puget Sound, 1969
MPH, Univ of California-Los Angeles, 1979
PHD, Univ of California-Los Angeles, 1984

Harward, Moyle 1956, Emeritus, Crop and Soil Science

Hase, Claudia 2003, Professor (Sr Res), Vet Biomedical Science
Degrees:
BS, Univ of Gottingen, Sch of Medi, 1984
MS, Univ of Heidelberg, 1986
PHD, Univ of Wurzburg, 1992

Hasenbeck, Aimee 2015, Faculty Research Assistant, Food Innovation Center
Degrees:
BS, Univ of Arkansas-Fayetteville, 2011
MS, Univ of Arkansas-Fayetteville, 2014

Hashimoto, Andrew 1986, Emeritus, Biol & Ecol Engineering

Hass, Ryan 2003, Instructor, Mathematics
Degrees:
BS, Oregon State University, 2003
MS, Oregon State University, 2005
PHD, Oregon State University, 2009

Hasselschwert, Dan 2004, Instructor (PAC), Physical Activity Courses
Degrees:
BS, Defiance College, 1997

Hatase, Tatsuhiko 2004, Instructor, Mathematics
Degrees:
BS, Oregon State University, 2004
PHD, Oregon State University,

Hatfield, Amanda 2003, Instructor, Ext Douglas County Offc
Degrees:
BA, Oregon State University, 2005

Hatfield, Bridget 2013, Assistant Professor, Sch of Soc/Bhv Hlth Sci
Degrees:
PHD, Univ of N Carolina-Greensboro, 2010

Hatfield, Robert 2010, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, Lancaster Univ, 2003
PHD, Lancaster Univ, 2008

Hathaway, Ronald 1972, Emeritus, Animal & Rnglnd Sci Extn

Hatlevig, Susan 1991, Faculty Research Assistant, Vet Biomedical Science
Degrees:
MS, Univ of California-San Diego, 1984
PHD, Arizona State University, 1989

Hatten, Jeffery 2007, Associate Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Western Washington University, 1999
PHD, University of Washington, 2007

Hatton, Ross 2012, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Massachusetts Inst of Technolo, 2005
MS, Carnegie Mellon University, 2007
PHD, Carnegie Mellon University, 2011

Haun, James 1964, Emeritus, Office of the Registrar

Haverson, Wayne 1978, Emeritus, College of Education

Hawkes, Stephen 1968, Emeritus, Chemistry

Hawks, Austin 2012, Senior Instructor I, Eastern Ore Univ Ag Prg
Degrees:
BS, Brigham Young University-Idaho, 2006
BS, Utah State University, 2010
MS, Utah State University, 2010

Hawkyard, Donald 2006, Research Associate (Post Doc), COMES - Newport Exp Sta
Degrees:
BS, Oregon State University, 2006
MS, Oregon State University, 2010
PHD, Oregon State University, 2015

Hawley, Andrew 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, Ohio University-Main Campus, 2012

Haxby, Dean 1988, Associate Professor, Pharmacy
Degrees:
BS, Oregon State University, 1980
D PHAR, Medical Univ of South Carolina, 1985

Haxel, Joseph 1998, Assistant Professor (Sr Res), CIMRS (Inst/Marine Res)
Degrees:
BS, Univ of Cal-Santa Barbara, 1998
MS, Oregon State University, 2002
PHD, Oregon State University, 2013

Hay, James 1977, Emeritus, Horticulture

Hayashi, Elaine 1999, Senior Instructor I, World Languag & Cultures
Degrees:
BA, Oregon State University, 1997
MA, Lesley University, 2005

Hayden-Lewis, Katherine 2018, Instructor, Acad Prog/Student Aff
Degrees:
PHD, Oregon State University, 2015

Hayes, Patrick 1986, Professor, Crop and Soil Science
Degrees:
BS, University of Arizona, 1980
MS, Oregon State University, 1982
PHD, U of Minnesota-Central Offices, 1986

Hayes, Stephen 2007, Instructor, Art
Degrees:
BS, Univ of Wisconsin-Madison, 1977
MFA, Univ of Wisconsin-Madison, 1980

Hayes, Wilson 1998, Emeritus, Sch of Bio/Pop Hlth Sci

Hayslip, Craig 2005, Faculty Research Assistant, Marine Mammal Institute
Degrees:
BA, University of Washington, 1982

Hazzard, Timothy 2001, Instructor, Animal & Rnglnd Sciences
Degrees:
BS, Cornell University, 1991
DVM, Oregon State University, 2005
PHD, Oregon State University, 1997

He, Shan 2016, Associate Professor, College of Business
Degrees:
BA, Shanghai University, 1997
MS, University of Utah, 2001
PHD, Boston College, 2007

Headrick, Charlotte 1982, Emeritus, Speech Communication

Heard, Jamison 2017, Faculty Research Assistant, Sch Elect Engr/Comp Sci

Heath, Kathleen 1967, Emeritus, Sch of Bio/Pop Hlth Sci

Hebert, Martin 2017, Instructor, Music

Heckert, Stephanie 2009, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Univ of N Carolina-Greensboro, 2005
MS, Oregon State University, 2011

Hee, Samarendra 2016, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BS, Symbiosis International Univ, 2009
MS, Symbiosis International Univ, 2012

Hedberg, Kenneth 1955, Emeritus, Chemistry

Hedgoth, Harriet 2013, Instructor, Child Development Lab
Degrees:
BS, Oregon State University, 2010

Hedrick, Theresa 2014, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Clemson University, 2001
MS, Georgia State University, 2007

Heer, Donald 2000, Senior Faculty Research Asst I, Sch Elect Engr/Comp Sci
Degrees:
BS, Oregon State University, 2000
MS, Oregon State University, 2003

Heesacker, Adam 1999, Senior Faculty Research Asst I, Crop and Soil Science
Degrees:
BS, Oregon State University, 2001
MS, University of Georgia, 2006

Heidel, Jerry 1988, Emeritus, Vet Biomedical Science

Heiduschke, Sebastian 2008, Associate Professor, World Languag & Cultures
Degrees:
BA, Foreign Institution, 1999
MA, University of Florida, 2001
PHD, Univ of Texas-Austin, 2006

Heikkila, Paul 1969, Emeritus, Fisheries and Wildlife

Heimlich, Sara 1996, Faculty Research Assistant, CIMRS (Inst/Marine Res)
Degrees:
BS, Evergreen State College, 1976
MS, San Jose State University, 1988

Hein, Wendy 2001, Associate Professor (Practice), Ext Clackamas Co Office
Degrees:
BS, Harvey Mudd College, 1997
MS, University of Kentucky, 2000

Heinrich, Aaron 1998, Faculty Research Assistant, North Willamette Exp Sta
Degrees:
BS, Oregon State University, 2002
MS, Univ of California-Davis, 2009

Helback, Susan 2001, Coordinator-Academic Program 2, College of Education, Instructor
Degrees:
BS, Univ of Wisconsin-Stevens Pt, 1984
MS, Univ of Wisconsin-Stevens Pt, 1994

Helgerson, Laura 2012, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Oregon State University, 2011

Helle, Anita 1990, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Puget Sound, 1970
MA, University of Puget Sound, 1972
PHD, University of Oregon, 1986

Hellickson, Martin 1975, Emeritus, Biol & Ecol Engineering

Hellwich, De Anna 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, Troy University, 1996
PHD, Florida State University, 2001

Helman, Elizabeth 2006, Instructor, Speech Communication
Degrees:
BA, Santa Clara University, 2000
MA, University of Oregon, 2002
PHD, University of Oregon, 2006
Helmick, Sandra 1991, Emeritus, Sch of Soc/Bhav Hlth Sci
Hemphill, Delbert 1976, Emeritus, Horticulture
Hemstrom, Miles 2012, Research Associate, Institute Natrl Res Dir
Degrees:
PHD, Oregon State University, 1979
HendrixFreitas, Fernanda 2017, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
PHD, Univ of Cal-Santa Barbara, 2015
Henderson, Emilie 2006, Research Associate, INR-Or Biodvrsy InfoCtr
Degrees:
BS, Williams College, 1996
MS, Williams College, 2000
PHD, Williams College, 2006
Henderson, Leticia 2015, Assistant Professor (Practice), Ext Baker County Office
Degrees:
BS, New Mexico St Univ-Main, 2010
MS, New Mexico St Univ-Main, 2012
Henderson, Sarah 2000, Associate Professor, Political Science
Degrees:
BA, Oberlin College, 1993
MA, Univ of Colorado-Boulder, 1995
PHD, Univ of Colorado-Boulder, 2000
Hendricks, Jerry 1975, Emeritus, Enviro/Molecular Toxic
Hendricks, Jon 1988, Emeritus, Sociology, Univ Honors College
Hendrix, David 2013, Assistant Professor, Biochem/Biophysics
Degrees:
BS, Georgia Institute of Technolog, 1999
PHD, Univ of California-Berkeley, 2007
Henkel, Sarah 2009, Assistant Professor (Sr Res), Hatfield Marine Sci Ctr
Degrees:
BS, College of William Mary, 2000
MS, Cal State Univ-Fullerton, 2003
PHD, Univ of Cal-Santa Barbara, 2008
Heppell, Scott 2000, Associate Professor, Fisheries and Wildlife
Degrees:
BS, University of Washington, 1990
MS, North Carolina State Univ, 1994
PHD, North Carolina State Univ, 1998
Heppell, Selina 2001, Professor, Fisheries and Wildlife, Department Head
Degrees:
BS, University of Washington, 1991
MS, North Carolina State Univ, 1993
PHD, Duke University, 1998
Herink, Megan 2011, Assistant Professor (Clinical), Pharmacy
Degrees:
MBA, Creighton University, 2011
D PHAR, Creighton University, 2008
Herlihy, Alan 1991, Instructor, Fisheries and Wildlife
Degrees:
BA, Northwestern University, 1981
MS, Univ of Virginia-Main Campus, 1984
PHD, Univ of Virginia-Main Campus, 1987
Herman, Gregory 2009, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of Wisconsin-Parkside, 1985
PHD, Univ of Hawaii at Manoa, 1992
Hermann, Richard 1961, Emeritus, Forest Eng/Resources/Mgmt
Degrees:
BS, Univ of California-Davis, 1979
MS, Univ of California-Davis, 1981
PHD, Univ of California-Davis, 1988
Hernandez, Salvador 2013, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, Brigham Young University Main, 2001
MS, Brigham Young University Main, 2003
PHD, Purdue University Main Campus, 2010
Herring, Peg 2001, Emeritus, College of Ag Admin
Herriott, Kendall 2013, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Texas AM Univ-College Station, 1984
Herron, Crystal 2010, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, Oregon State University,
MS, Oregon State University, 2016
Herzog, James 1967, Emeritus, Sch Elect Engr/Comp Sci
Hess, Jennifer 2006, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Western Washington University, 1983
MPH, Western Washington University, 1989
MPH, University of Washington, 1998
PHD, University of Oregon, 2004
Hess, Robin 2016, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Delaware, 2003
PHD, Oregon State University, 2012
Hesse, Colin 2013, Assistant Professor, Speech Communication
Degrees:
BA, Whitworth University, 2003
PHD, Arizona State University, 2009
Hetherington, William 1987, Emeritus, Physics
Hibbs, David 1983, Emeritus, Forest Ecosyst & Society
Hicks, Erin 2016, Instructor, College of Education
Degrees:
BFA, Univ of Colorado-Boulder, 1996
BFA, Rocky Mountain College of Art, 2000
MA, SUNY-College at Buffalo, 2013
Hicks, Russell 1975, Emeritus, College of Engineering
Higdon, Robert 1982, Professor, Mathematics
Degrees:
Higginbotham, Jack 1987, Director-Space Programs, College of Science Admin, Professor, Sch Nuclear Sci & Engr
Degrees:
BS, Kansas State University, 1981
MS, Kansas State University, 1983
PHD, Kansas State University, 1987

Higgins, Adam 2000, Associate Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Kansas State University, 1981
MS, Kansas State University, 2002
PHD, Georgia Institute of Technolog, 2008

Higgins, Berta 2016, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BS, University of San Diego, 2000

Higgins, Chad 2011, Associate Professor, Biol & Ecol Engineering
Degrees:
BS, Cornell University-Ithaca, 2000
MS, Johns Hopkins University, 2005
PHD, Johns Hopkins University, 2007

Higgins, Christopher 2000, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Marquette University, 1988
MS, Univ of Texas-Austin, 1990
PHD, Lehigh University, 1997

Higgins, Stephanie 2016, Instructor, College of Education
Degrees:
BA, Marquette University, 1989
MS, SUNY College-Potsdam, 1998

Higgins, Karen 1986, Emeritus, College of Education

Higley, Kathryn 1994, School Head, Sch Nuclear Sci & Engr, Professor
Degrees:
BA, Reed College, 1978
MS, Colorado State University, 1992
PHD, Colorado State University, 1994

Hildebrandt, Emery 1954, Emeritus, Speech Communication

Hilderbrand, Kenneth 1969, Emeritus, Food Science and Techno

Hill, David 2009, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1993
MS, Univ of California-Berkeley, 1994
PHD, Univ of California-Berkeley, 1997

Hill, Eric 1997, Senior Instructor I, Univ Honors College
Degrees:
BA, Univ of Southern California, 1993
MA, Oregon State University, 1999

Hilton, Richard 1987, Senior Faculty Research AsstIl, Southern Oregon Exp Sta
Degrees:
BA, Pomona College, 1981
Hoisington, Anne 2000, Associate Professor (Practice), EXT Fam/CommHlth OnCmps
Degrees:
BA, University of Washington, 1989
MS, Washington State University, 1999

Hokanson, Kenton 2018, Research Associate, Microbiology (Ag), Instructor
Degrees:
BA, Pomona College, 2008
MS, Univ of Cal-San Francisco, 2015
PHD, Univ of Cal-San Francisco, 2017

Holck, Nicole 2015, Instructor, New Media Communications
Degrees:
MS, University of Oregon, 2006
MS, University of Oregon, 2010

Holder, Troy 2016, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
DVM, Univ of the West Indies, 1998

Holdren, Rich 1987, Vice Provost Emeritus, VP for Research

Hollinger, Geoffrey 2013, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Swarthmore College, 2005
MS, Carnegie Mellon University, 2007
PHD, Carnegie Mellon University, 2010

Holm, Christopher 2001, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2004
MS, Oregon State University, 2007

Holman, Anita 1996, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 1996

Holman, Robert 1979, Emeritus, Earth, Ocean & Atmo Sci

Holmberg, Karen 2005, Associate Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Middlebury College, 1988
MA, Univ of Southern California, 1994
PHD, Univ of Missouri-Columbia, 2001

Holmes, Zoe 1974, Emeritus, Sch of Bio/Pop Hlth Sci

Holmgren, Anthony 2017, SCUBA Certification Evaluator, Physical ActivityCourses

Holtan, Donald 1975, Emeritus, Animal & Rngld Sciences

Holtz, Danielle 2016, Research Associate, Ctr for the Humanities

Holyoak, Arlene 1981, Emeritus, Sch of Soc/Bhav Hlth Sci

Holzman, MayaLisa 2016, Instructor, Acad Prog/Student Aff
Degrees:
MA, Univ of Wisconsin-Madison, 2010

PHD, Univ of Wisconsin-Madison, 2016

Hommel, Demian 2011, Senior Instructor I, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Oregon, 1999
MS, University of Oregon, 2004
PHD, University of Oregon, 2009

Honegger, David 2009, Research Associate (Post Doc), Sch of Civil/Constr Engr
Degrees:
BA, Lewis Clark College, 2016
MS, Stanford University, 2006
PHD, Oregon State University, 2015

Hooker, Karen 1994, School Head, Public Hlth/HumanSci Adm, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Denison University, 1978
MA, College of William Mary, 1981
PHD, Penn State Univ-Central Office, 1985

Hooper, Samuel 2014, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BFA, University of Pennsylvania, 2011

Hooven, Louisa 1997, Instructor, Horticulture, Assistant Professor (Sr Res)
Degrees:
BS, Oregon State University, 1997
PHD, Oregon State University, 2004

Hord, Norman 2012, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
MPH, Johns Hopkins University, 1995
MS, Clemson University, 1988
PHD, Purdue University Main Campus, 1994

Home, Frederic 1986, Emeritus, Chemistry

Homer, Neilann 2013, Assistant Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BS, Cornell University-Ithaca, 1988
MPH, Univ of Illinios Springfield, 1996
PHD, University of Washington, 2001

Horning, Markus 2006, Associate Professor (Sr Res), Marine Mammal Institute
Degrees:
BS, Univ of Freiburg, 1988
PHD, Univ of Bielefeld, 1992

Horowitz, Irwin 1994, Emeritus, Sch of Psychological Sci

Horton, Cheryl 2011, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, Cornell University-Ithaca, 2006
MS, Oregon State University, 2014

Horton, Howard 1957, Emeritus, Fisheries and Wildlife
Hosking, Lena 2017, Assistant Professor (Practice), Ext Jackson Co Office
Degrees:
BS, Univ of Wisconsin-Madison, 1995
MS, Oregon State University, 2015

Hoskins, Tyler 2011, Faculty Research Assistant, Horticulture
Degrees:
BS, George Fox University, 2008
MS, Virginia Polytechnic Institute, 2014

Hosoi, Yasuharu 1969, Emeritus, Philosophy

Hosty, Maureen 1991, Professor, EXT Urban Outreach
Degrees:
BA, Kansas State University, 1981
MA, Kansas State University, 1986
MA, American University, 1985

Houck, Lynne 1997, Emeritus, Integrative Biology

Hougum, Lyla 1985, Emeritus, Liberal Arts Admin

Houston, Laurie 1996, Instructor, Applied Economics, Senior Faculty Research Asst I
Degrees:
BS, Univ of New Hampshire-Durham, 1987
MS, University of Rhode Island, 1993

Houstonll, Lawrence 2015, Assistant Professor, College of Business
Degrees:
MS, Central Pennsylvania Business, 2012
PHD, Central Pennsylvania Business, 2015

Houtman, Rachel 2007, Faculty Research Assistant, Forest Eng/Resourcs/Mgmt
Degrees:
BA, Earlham College, 2005
MS, Oregon State University, 2011

Hovland, Matthew 2013, Instructor, Animal & Rnglnd Sciences
Degrees:
BS, Oregon State University, 2011
MS, Oregon State University, 2017

Hovland, Clarence 1949, Emeritus, Liberal Arts Admin

Howe, Dana 2003, Senior Faculty Research Asst I, Integrative Biology
Degrees:
BA, Augsburg College, 1999
MS, Oregon State University, 2006

Howe, Glenn 2001, Associate Professor, Forest Ecosyst & Society
Degrees:
BS, Penn State Univ-Main Campus, 1977
MS, Michigan State University, 1981
PHD, Oregon State University, 1991

Howell, Michael 1973, Emeritus, Animal & Rnglnd Sciences

Howes, Satoris 2017, Associate Professor, Acad Prog/Student Aff, College of Business
Degrees:
PHD, Texas AM Univ-College Station, 2005

Hoyle, Christopher 2010, Associate Professor, Sch of Mech/Ind/Mfg Engr

Hsieh, Ping-Hung 1997, Professor, College of Business
Degrees:
BA, Fu-Jen Univ Chinese Language I, 1988
MA, Univ of Michigan-Ann Arbor, 1992
PHD, Univ of Michigan-Ann Arbor, 1996

Hsu, Victor 1993, Associate Professor, Biochem/Biophysics
Degrees:
BS, Harvey Mudd College, 1984
PHD, Univ of California-San Diego, 1989

Hu, Juan 2011, Instructor, Sch of Psychological Sci
Degrees:
PHD, Beijing Normal University, 2002
PHD, Clark University, 2011

Huang, Jian 2005, Senior Faculty Research Asst I, Wood Science/Engr
Degrees:
BS, Dalian University of Technolog, 2002
MS, Dalian University of Technolog, 2005
MS, Oregon State University, 2007

Huang, Liang 2015, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Foreign Institution, 2003
MSE, University of Pennsylvania, 2005
PHD, University of Pennsylvania, 2008

Hubbard, Dale 1994, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, Texas AM Univ-Galveston, 1994
BS, Texas AM Univ-Galveston, 1993
MS, Oregon State University, 1999

Huber, Michael 1986, Professor, Vet Clinical Sciences
Degrees:
BS, Univ of California-Davis, 1978
MS, Oregon State University, 1991
DVM, Univ of California-Davis, 1980

Huber, Wayne 1991, Emeritus, Sch of Civil/Constr Engr

Hubler, Katherine 1997, Instructor, History
Degrees:
BS, Oregon State University, 2001
BA, Oregon State University, 2001
MA, Boston College, 2007
PHD, Boston College, 2012

Huddleston, J 1975, Emeritus, Crop and Soil Science

Degrees:
BS, University of Kansas, 1978

Hudspeth, Robert 1974, Emeritus, Sch of Civil/Constr Engr

Huff, Aimee 2013, Assistant Professor, College of Business
Hughes, Michael 2015, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, Marshall University, 2003
MS, Marshall University, 2006
PHD, Univ of Tennessee-Knoxville, 2015

Hughes, Paul 2015, Assistant Professor, Food Science and Techno
Degrees:
BS, Foreign Institution, 1985
MBA, Foreign Institution, 2005
PHD, Foreign Institution, 1990

Huillet, Michelle 2010, Instructor, Speech Communication
Degrees:
MAIS, Oregon State University, 2013

Hulting, Andrew 2006, Associate Professor, Crop and Soil Science
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1996
MS, Univ of Illinois at Urbana-Cha, 1999
PHD, Montana State Univ-Bozeman, 2004

Hunt, Andrew 2014, Instructor, Crop and Soil Science
Degrees:
BS, North Carolina State Univ, 2006
MS, North Carolina State Univ, 2008

Hunt, Angela 1997, Senior Faculty Research AsstII, COMES - Astoria
Degrees:
BS, University of Oregon, 1995

Hunter-Zaworski, Katharine 1983, Associate Professor, Sch of Civil/Constr Engr
Degrees:
PHD, Oregon State University, 1988

Hurley, John 2016, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
BS, Unknown College, 1994
MS, Ball State University, 1999
PHD, University of New Mexico, 2010

Hurst, Allison 2014, Associate Professor, Sociology
Degrees:
JD, Pepperdine University, 1995
PHD, University of Oregon, 2006

Hurst, Jonathan 2008, Associate Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Carnegie Mellon University, 2001
MS, Carnegie Mellon University, 2004
PHD, Carnegie Mellon University, 2008

Hurwitz, David 2009, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, Univ of Mass-Amherst, 2004
MS, Univ of Mass-Amherst, 2006
PHD, Univ of Mass-Amherst, 2009

Husby, Kirsty 2013, Instructor, Vet Clinical Sciences
Degrees:
BS, Iowa State University, 2007
DVM, Iowa State University, 2011

Hussong-Christian, Uta 2008, Associate Professor, Library
Degrees:
BS, Univ of Michigan-Ann Arbor, 1990
MLS, Univ of Hawaii at Manoa, 2005

Hutchings, Jennifer 2012, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of London, 1996
PHD, Univ of London, 2001

Hutchings, Mitchell 2017, Instructor, Music
Degrees:
BMUS, Western Carolina University, 2007
MM, Florida State University, 2010

Hutchinson, Rebecca 2009, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BSEE, Bucknell University, 2002
PHD, Carnegie Mellon University, 2009

Hutton, Norman 1977, Emeritus, Veterinary Medicine

Huyer, Adriana 1972, Emeritus, Earth, Ocean & Atmo Sci

Hyde, Glenda 1989, Associate Professor (Practice), Ext Deschutes Co
Office
Degrees:
BA, Linfield College, 1974
MA, Eastern Oregon University, 2003

Hydes, Denise 2018, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BSN, Loyola Univ of Chicago, 1980
MPH, Johns Hopkins University, 1985
PHD, Univ of N Carolina-Chapel Hill, 1991

Hyrapet, Shireen 2012, Senior Instructor I, Earth, Ocean & Atmo Sci
Degrees:
BS, Oklahoma State Univ-Main, 2006
MS, Millersville University, 2003
PHD, Oklahoma State Univ-Main, 2012

Hystad, Perry 2013, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, University of Victoria, 2004
MS, University of Victoria, 2007
PHD, University of British Columbia, 2013

Ianni, Eric 2014, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BA, Virginia Polytechnic Institute, 2006
BA, Oregon State University, 2015

Ideker, Jason 2008, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, Georgia Institute of Technolog, 2002
MSE, University of Central Texas, 2004
Iltis, Robert 1991, Associate Professor, Speech Communication
Degrees:  
BA, Colorado State University, 1978  
MS, Colorado State University, 1981  
PHD, Univ of Wisconsin-Madison, 1989

Imamura, Naoto 2014, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:  
BS, Kyoto University, 2010  
MS, Kyoto University, 2011  
PHD, Kyoto University, 2014

Inderbitzin, Michelle 2001, Associate Professor, Sociology
Degrees:  
BA, University of Washington, 1991  
MA, University of Washington, 1996  
PHD, University of Washington, 2000

Indra, Arup 2005, Associate Professor, Pharmacy
Degrees:  
BS, University of Calcutta, 1988  
MS, University of Calcutta, 1991  
PHD, Jadavpur University, 2001

Indra, Gitali 2006, Associate Professor (Sr Res), Pharmacy
Degrees:  
BS, Osmania University, 1987  
MS, Andhra University, 1989  
PHD, Univ Louis Pasteur Faculte De, 2001

Ingegneri, Lynn 2001, Instructor, Crop and Soil Science
Degrees:  
BS, Colorado State University, 1997  
MS, Colorado State University, 2001  
PHD, Oregon State University, 2005

Ingham, Russell 1985, Professor, Ag Botany/Plant Path
Degrees:  
BA, St Olaf College, 1974  
MS, Texas AM Univ-Commerce, 1977  
PHD, Colorado State University, 1981

Ingle,Jr, James 1971, Emeritus, Chemistry

Ingram, Patricia 1970, Emeritus, Sch of Bio/Pop Hlth Sci

Ip, Hung-Yok 1994, Associate Professor, History
Degrees:  
BA, Chinese University of Hong Kon, 1983  
MA, Chinese University of Hong Kon, 1985  
PHD, Univ of California-Davis, 1994

Ireland, Isabella 2011, Instructor (ESL), INTO OSU Program
Degrees:  
MS, Foreign Institution, 1974

Irvin, Veronica 2014, Assistant Professor, Sch of Soc/Bhav Hlth Sci
Degrees:  
BA, University of San Diego, 1998  
MPH, San Diego State University, 2003  
PHD, University of San Diego, 2011

Irvine, Jed 2004, Senior Faculty Research Asst I, Sch Elect Engr/Comp Sci
Degrees:  
BSEE, University of Delaware, 1985

Irvine, Ladd 1999, Senior Faculty Research Asst I, Marine Mammal Institute
Degrees:  
BS, University of Puget Sound, 1998  
MS, Oregon State University, 2007

Irving, Alexander 2005, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:  
BS, Southern Oregon University, 2000

Irwin, Adriane 2002, Assistant Professor (Clinical), Pharmacy
Degrees:  
BS, Oregon State University, 2004  
MS, University of New Mexico, 2006  
D PHAR, University of New Mexico, 2010

Isgor, Burkan 2012, Professor, Sch of Civil/Constr Engr
Degrees:  
BS, Bogazici Universitesi, 1995  
MENG, Carleton University, 1997  
PHD, Carleton University, 2001

Ishmael, Jane 1989, Associate Professor, Pharmacy
Degrees:  
BS, Univ of Bradford, 1988  
PHD, Oregon State University, 1995

Isley, Arleigh 1969, Emeritus, Extension Service Prgram

Istok, Jonathan 1986, Professor, Sch of Civil/Constr Engr
Degrees:  
BS, The Ohio State Univ Main, 1978  
MS, Oregon State University, 1981  
PHD, Oregon State University, 1986

Ivory, Jami 2017, Faculty Research Assistant, Hatfield Marine Sci Ctr
Degrees:  
BS, Humboldt State University, 2012  
MS, College of William Mary, 2016

Iwaniec, Urszula 2005, Professor, Sch of Bio/Pop Hlth Sci
Degrees:  
BA, Univ of Illinois at Urbana-Cha, 1984  
MA, Arizona State University, 1989  
PHD, Univ of Wisconsin-Madison, 1997

J

Jacks, Clinton 1970, Emeritus, Animal & Rnglnd Sciences

Jackson, Jennifer 2001, Assistant Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:  
BS, Oregon State University, 1997  
MS, Chemeketa Community College, 2003  
MS, Oregon State University, 2003  
PHD, Chemeketa Community College, 2015  
PHD, Oregon State University, 2015

Jackson, Korey 2013, EndowedChair-GF Innov Lib Svcs, Library
Jackson, Philip 1978, Emeritus, Earth, Ocean & Atmo Sci
Jackson, Royal 1970, Emeritus, Forest Ecosyst & Society
Jacobs, Derric 2007, Instructor, Sociology
Degrees:
MPP, Oregon State University, 2008
Jacobson, David 1998, Senior Faculty Research Asst I, COMES - Newport Exp Sta
Degrees:
BS, University of Nevada-Reno, 1985
Jacobson, Kaety 2002, Senior Instructor I, Ext Lincoln Co Office
Degrees:
BS, Oregon State University, 2003
Jacobson, Robert 1967, Emeritus, Extension Service Prgram
Degrees:
BA, Washington State University, 1976
MA, Stanford University, 1981
PHD, Stanford University, 1985
Jaeger-Williams, Donna 2018, Instructor, Acad Prog/Student Aff
Jager, Katie 2011, Instructor, Statistics (Science)
Degrees:
BS, North Idaho College, 2007
MS, Oregon State University, 2013
Jaiswal, Pankaj 2008, Associate Professor, Ag Botany/Plant Path
Degrees:
BS, Foreign Institution, 1990
MS, Foreign Institution, 1992
PHD, Foreign Institution, 1998
Jalilvand, Mahshid 2014, Instructor, Economics
Degrees:
BA, University of Tehran, 1976
MA, Univ of Nebraska-Lincoln, 1981
PHD, Univ of Nebraska-Lincoln, 1988
Jana, Subhashis 2017, Research Associate (Post Doc), Biochem/Biophysics
Degrees:
PHD, Foreign Institution, 2017
Jander, Albrecht 2003, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
MS, Washington University-St Louis, 1993
D SCI, Washington University-St Louis, 1996
Janes, Robert 1994, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, University of Idaho, 1983
Jang, Hyo Sang 2004, Research Associate (Post Doc), Enviro/Molecular Toxic
Degrees:
BS, Seoul National University, 1995
MS, Seoul National University, 1997
PHD, Oregon State University, 2009
Jang, Yeong Jin 2017, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Foreign Institution, 2010
MS, Georgia Institute of Technolog, 2016
PHD, Georgia Institute of Technolog, 2017
Janney, Philip 2007, Research Associate, Enviro/Molecular Toxic
Degrees:
BS, James Madison University, 2007
PHD, Oregon State University, 2015
Janousek, Christopher 2013, Assistant Professor (Sr Res), Fisheries and Wildlife
Degrees:
BS, Univ of California-Santa Cruz, 1999
PHD, Univ of California-San Diego, 2005
Jansen, Henri 1985, Assoc Dean-Acdmc & StudAffairs, College of Science Admin, Professor, Physics
Degrees:
BS, University of Groningen, 1972
MS, University of Groningen, 1976
PHD, University of Groningen, 1981
Japhet, Kimberly 2000, Senior Instructor I, Crop and Soil Science
Degrees:
BA, University of Kentucky, 1978
MED, Oregon State University, 1981
Jarvis, William 2002, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci, Assoc Dir-Watershed Institute, Water/Watershed Institut
Degrees:
BS, University of Wyoming, 1983
MS, University of Wyoming, 1986
PHD, Oregon State University, 2006
Jarvis, Robert 1971, Emeritus, Fisheries and Wildlife
Jaster, Theodora 2002, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BA, Univ of New Hampshire-Durham, 1990
Javorsky, Rebecca 2013, Instructor (ESL), INTO OSU Program
Degrees:
BS, Montana State Univ-Bozeman, 1989
MA, Northern Arizona University, 2012
Jeffers, Rebecca 1986, Faculty Research Assistant, Music
Degrees:
BA, Carleton College, 1961
MM, Univ of Michigan-Arbor, 1963
JeffreyJr, Hugh 1950, Emeritus, Business Affairs
Jeliazkov, Valtcho 2014, Associate Professor, Crop and Soil Science
Degrees:
MS, High Agricultural Inst, 1983
PHD, High Agricultural Inst, 1988
PHD, Univ of Mass-Amherst, 2001
Jeliazkova, Ekaterina 2015, Faculty Research Assistant, Central Oregon Exp Sta
Degrees: 
MS, Univ of Mass-Amherst, 2000

Jenkins, Christopher 2017, Faculty Research Assistant, Southern Oregon Exp Sta
Degrees: 
BS, Univ of California-Davis, 2014
MS, Washington State University, 2016

Jenkins, Jeffrey 1990, Professor, Enviro/Molec Toxic Ext
Degrees: 
BS, Cal Poly State-San Luis Obispo, 1972
PHD, Michigan State University, 1981

Jenkins, Stephanie 2012, Assistant Professor, Philosophy
Degrees: 
BA, Penn State Univ-Main Campus, 2003
MA, Penn State Univ-Main Campus, 2007
PHD, Penn State Univ-Main Campus, 2012

Jensen, Carlos 2005, Assoc Dean-Undergrad Prog, College of Engineering, Associate Professor, Sch Elect Engr/Comp Sci
Degrees: 
BS, SUNY College-Brockport, 1998
PHD, Georgia Institute of Technolog, 2005

Jensen, Tim 2013, Assistant Professor, Sch of Wrtg Lit & Film
Degrees: 
BA, Miami University-Oxford, 2003
MA, The Ohio State Univ Main, 2008
PHD, The Ohio State Univ Main, 2013

Jensen, Edward 1976, Emeritus, Forest Ecosyst & Society

Jepson, Paul 1994, Professor, Enviro/Molecular Toxic
Degrees: 
BS, Univ of London Imperial Colleg, 1976
PHD, Univ of Cambridge, 1980

Jerman, Michael 2017, Instructor, Economics
Degrees: 
BA, University of Arizona, 2005
MA, Central Michigan University, 2013
PHD, University of Oregon, 2019

Jessie, Casi 2017, Research Associate (Post Doc), Crop and Soil Science
Degrees: 
BS, Oklahoma State Univ-Main, 2009
MS, Oklahoma State Univ-Main, 2012
PHD, Oklahoma State Univ-Main, 2017

Jeter, Brett 2002, Asst Dean-Undergrad Prgms, College of Engineering
Degrees: 
BS, Oregon State University, 2005

Ji, Xiulei 2012, Associate Professor, Chemistry
Degrees: 
BS, Jilin University, 2003
MS, Foreign Institution, 2005
PHD, Foreign Institution, 2009

Jiang, Duo 2014, Assistant Professor, Statistics (Science)
Degrees: 
BS, Tsinghua University, 2009
PHD, University of Chicago, 2014

Jiang, Yuan 2011, Associate Professor, Statistics (Science)
Degrees: 
PHD, Univ of Wisconsin-Madison, 2008

Jin, Ling 2004, Professor, Vet Biomedical Science
Degrees: 
MS, Nanjing Agricultural Univ, 1989
DVM, Nanjing Agricultural Univ, 1986
PHD, Univ of Illinois at Urbana-Cha, 1999

John, Deborah 1999, Associate Professor, EXT Fam/CommHlth OnCmps
Degrees: 
BS, University of New Orleans, 1978
MS, University of West Florida, 1998
PHD, Oregon State University, 2002

John, Finn 2010, Instructor, New Media Communications
Degrees: 
BA, University of Oregon, 1991
MS, University of Oregon, 2010

Johns, Deidre 2014, Assistant Professor, Vet Biomedical Science
Degrees: 
BS, Univ of California-San Diego, 1996
PHD, Univ of Colorado-Boulder, 2003

Johns, Jennifer 2016, Assistant Professor, Vet Biomedical Science
Degrees: 
BS, Univ of California-Los Angeles, 1996
DVM, Univ of California-Davis, 2001
PHD, Univ of California-Davis, 2011

Johnson, Allison 2011, Instructor, Music
Degrees: 
BA, Stanford University, 1987
MFA, Cal Institute of Arts, 1995
PHD, Univ of California-San Diego, 2003

Johnson, Colin 2011, Associate Professor, Biochem/Biophysics
Degrees: 
BS, Clarkson University, 1999
PHD, Univ of Illinois at Urbana-Cha, 2005

Johnson, Donald 1976, Instructor, Univ Honors College
Degrees: 
BS, Southern Oregon University, 1971
MFA, University of Puget Sound, 1973

Johnson, Dustin 1998, Associate Professor, Ext Harney County Office
Degrees: 
BS, Oregon State University, 2000
MS, Oregon State University, 2005

Johnson, Earl 2010, Assistant Professor, College of Education
Degrees: 
BA, University of the Pacific, 1966
MA, Michigan State University, 1968
PHD, Univ of California-Berkeley, 1981

Johnson, Eric 1997, Senior Faculty Research Asst I, Enviro/Molecular Toxic
Degrees: 

BA, Cal State Univ-Fresno, 1988
MS, Cal State Univ-Fresno, 1994

Johnson, James 2006, Assoc Dean-Outreach and Engag, College of Forestry Adm, Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Colorado State University, 1974
MS, University of Maine, 1976
PHD, Virginia Polytechnic Institute, 1981

Johnson, Janell 2007, Senior Instructor I, Animal & Rnglnd Sciences
Degrees:
BS, Cal State Univ-Chico, 2010
MS, Oregon State University, 2011

Johnson, Kenneth 1988, Professor, Ag Botany/Plant Path
Degrees:
BS, U of Minnesota-Central Offices, 1979
MS, Oregon State University, 1982
PHD, U of Minnesota-Central Offices, 1986

Johnson, Lawrence 2008, Instructor, Music
Degrees:
BMUS, University of Puget Sound, 1975
MM, Cleveland Institute of Music, 1978

Johnson, Rebecca 1984, Vice President, Cascades Exec Office, Professor, Forest Ecosyst & Society
Degrees:
BA, Univ of Wisconsin-Madison, 1977
MS, Michigan State University, 1979
PHD, Michigan State University, 1985

Johnson, Samuel 2003, Associate Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BS, Texas Christian University, 1998
MS, University of Nevada-Las Vegas, 2000
PHD, Oregon State University, 2009

Johnson, Tonya 2011, Assistant Professor (Practice), Ext Marion County Office
Degrees:
BS, Pacific University, 1995
MPH, CUNY Hunter College, 2008

Johnson, Torrey 2005, Instructor, Mathematics
Degrees:
BS, Central Washington University, 2000
MS, University of Oregon, 2002
PHD, Oregon State University, 2012

Johnson, Arthur 1966, Emeritus, Radiation Center, Sch Nuclear Sci & Engr

Johnson, Douglas 1982, Emeritus, Animal & RngInd Sciences

Johnson, Duane 1959, Emeritus, College of Education

Johnson, K Norman 1985, Emeritus, Forest Ecosyst & Society

Johnson, Sharon 2000, Emeritus, Sch of Soc/Bhv Hlth Sci

Johnson, Simon 1971, Emeritus, Sch of Wrtg Lit & Film

Johnson Jr, W 1968, Emeritus, Biochem/Biophysics

Johnston, Alison 2011, Associate Professor, Political Science
Degrees:
PHD, London Sch of Econ Political, 2011

Johnston, James 2008, Research Associate (Post Doc), Forest Eng/Resources/Mgmt
Degrees:
BA, University of Oregon, 1996
MS, Oregon State University, 2008
PHD, Oregon State University, 2016

Johnston, Kirbee 2016, Faculty Research Assistant, Pharmacy
Degrees:
BA, Lewis Clark College, 2011
MPH, Oregon Health Science Univ, 2016

Johnston, Matthew 2014, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Cal Institute of Tech, 2005
MS, Columbia University-NYC, 2006
PHD, Columbia University-NYC, 2012

Johnston, Alberta 1963, Emeritus, Extension Service Admin

Johnston, LaRea 1960, Emeritus, Ag Botany/Plant Path

Jolles, Anna 2002, Associate Professor, Vet Biomedical Science
Degrees:
BS, Univ of Oxford Univ Offices, 1995
PHD, Princeton University, 2004

Jolliff, Gary 1976, Emeritus, Crop and Soil Science

Jones, Elizabeth 2013, Instructor, Educ Opportunities Prgm
Degrees:
BS, Brigham Young University Main, 1990
MS, Brigham Young University Main, 1992
PHD, University of Utah, 1999

Jones, Erin 2010, Faculty Research Assistant, EXT Fam/CommHlth OnCmps
Degrees:
BS, Oregon State University, 2012
MPH, Oregon State University, 2014

Jones, Frank 2011, Assistant Professor, Ag Botany/Plant Path
Degrees:
BS, Miami University-Oxford, 1990
MS, Miami University-Oxford, 1994
PHD, University of Georgia, 2004

Jones, Gerrad 2017, Assistant Professor, Biol & Ecol Engineering
Degrees:
MS, New Mexico St Univ-Main, 2008
MS, Villanova University, 2010
PHD, University of Nevada-Reno, 2014

Jones, Gordon 2017, Assistant Professor (Practice), Ext Jackson Co Office
Degrees:
MS, Virginia Polytechnic Institute, 2013
PHD, Virginia Polytechnic Institute, 2016

Jones, Joyce 1994, Associate Professor, Ext Tillamook Co Office
Degrees:
BS, Oregon State University, 1981
MED, Oregon State University, 1991

Jones, Julia 1989, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Hampshire College, 1977
MA, Johns Hopkins University, 1979
PHD, Johns Hopkins University, 1983

Jones, Michael 2014, Assistant Professor, School of Public Policy
Degrees:
PHD, Oklahoma State Univ-Okla City, 2010

Jones, Patrick 2014, Faculty Research Assistant, North Willamette Exp Sta
Degrees:
BS, Univ of Tennessee-Martin, 2011
MS, Univ of Tennessee-Knoxville, 2013

Jones, Rachel 2017, Instructor, Ag Botany/Plant Path
Degrees:
BS, Truman State University, 2007
MS, Villanova University, 2010
PHD, University of Nevada-Reno, 2014

Jones, Tracy 2014, Instructor (ESL), INTO OSU Program
Degrees:
BA, Missouri Western State Univ, 1998
MA, Foreign Institution, 2009

Jones, Robert 1962, Emeritus, Sch of Wrtg Lit & Film

Jordan, Cheryl 1976, Emeritus, College of Business

Jordan, Shelley 1986, Professor, Art
Degrees:
BFA, School of Visual Arts, 1976
MFA, CUNY Brooklyn College, 1986

Jorgensen, Josh 2015, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Univ of California-Davis, 2011
MPH, Univ of California-Davis, 2006
PHD, Univ of California-Davis, 2014

Joshi, Amol M 2014, Assistant Professor, College of Business
Degrees:
BEE, Georgia Institute of Technolog, 1992
MBA, Dartmouth College, 1998
MS, Dartmouth College, 1997
PHD, Univ of N Carolina-Chapel Hill, 2011

Jovanovic, Goran 1992, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of Belgrade, 1971
MS, Oregon State University, 1974
PHD, Oregon State University, 1979

Jump, Donald 2006, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Delaware State University, 1971
MS, Rutgers University-Camden, 1974
PHD, Georgetown University, 1980

Jung, Jaehoon 2017, Research Associate (Post Doc), Sch of Civil/Constr Engr
Degrees:
BS, Yonsei University Col of Med, 2007
PHD, Yonsei University Col of Med, 2014

Jung, Joo Yeoun 2009, Assistant Professor (Sr Res), Food Science and Techno
Degrees:
MENG, Seoul National Univ of Tech, 2007
PHD, Oregon State University, 2013

Juranek, Lauren 2011, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Davis, 1999
MS, University of Washington, 2003
PHD, University of Washington, 2007

K

Kaiser, Clive 2006, Professor, Ext Umatilla Co Office
Degrees:
BS, Univ of Natal, 1991
MS, Univ of Natal, 1993
PHD, Univ of Natal, 1997

Kaiser, Paulina 2014, Research Associate, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Northwestern University, 2006
MPH, Univ of Michigan-Ann Arbor, 2010
PHD, Univ of Michigan-Ann Arbor, 2014

Kalk, Michael 2008, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BA, Whitman College, 2003

Kalodimos, Jonathan 2015, Assistant Professor, College of Business
Degrees:
BS, Kansas State University, 2006
MS, University of Florida, 2007
PHD, University of Washington, 2014

Kaminski, Alexis 2016, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, University of Alberta, 2010
MS, University of Alberta, 2012
PHD, Univ of Cambridge, 2016

Kamke, Fred 2005, Professor, Wood Science/Engr, Endowed Chair-JELD-WEN
Degrees:
BS, U of Minnesota-Central Offices, 1979
PHD, Oregon State University, 1983

Kanury, Anjaneya 1985, Emeritus, Sch of Mech/Ind/Mfg Engr

Kaplan, Jonathan 2003, Professor, Philosophy
Degrees:
BA, Univ of California-Irvine, 1991
PHD, Stanford University, 1996

Karchesy, Joseph 1979, Emeritus, Wood Science/Engr
Karing, Jasmine 2016, Faculty Research Assistant, Sch of Soc/Bhav Hlth Sci  
Degrees:  
BA, University of Nevada-Reno, 2007  
MPH, Univ of Hawaii at Manoa, 2015  

Karow, Russell 1983, Emeritus, Crop and Soil Science  

Karplus, Andy 1998, Department Head, Biochem/Biophysics,  
Distinguished Professor  
Degrees:  
BS, Univ of California-Davis, 1978  
PHD, University of Washington, 1984  

Kasianchuk, Anastasia 2007, Instructor, Sch of Bio/Pop Hlth Sci  
Degrees:  
MS, Oregon State University, 2010  

Kasschau, Kristin 2001, Research Associate, Crop and Soil Science  
Degrees:  
BS, Carleton College, 1991  
PHD, Texas AM Univ-College Station, 1999  

Katz, Jonathan 1993, Professor, History  
Degrees:  
BA, Harvard University, 1975  
PHD, Princeton University, 1990  

Kauffman, J 1986, Professor (Sr Res), Fisheries and Wildlife  
Degrees:  
BS, Texas Tech University, 1978  
MS, Oregon State University, 1982  
PHD, Univ of California-Berkeley, 1986  

Kavanaugh, Maria 1999, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci  
Degrees:  
BS, Oregon State University, 2000  
MS, Oregon State University, 2006  
PHD, Oregon State University, 2012  

Kawai, Shinji 2012, Faculty Research Assistant, Horticulture  
Degrees:  
BS, Foreign Institution, 1985  
MS, Oregon State University, 1987  
PHD, Foreign Institution, 2000  

Kawasaki, Megumi 2017, Research Associate, Sch of Mech/Ind/Mfg Engr  
Degrees:  
BS, Foreign Institution, 2007  
MS, Foreign Institution, 2009  
PHD, Foreign Institution, 2013  

Ke, Jia-Hong 2017, Research Associate, Sch of Mech/Ind/Mfg Engr  
Degrees:  
BS, Foreign Institution, 2007  
MS, Foreign Institution, 2009  
PHD, Foreign Institution, 2013  

Kelley, Karolyn 2009, Assistant Professor (Practice), Ext Union County Office  
Degrees:  
BS, Oregon State University, 2010  
MS, Oregon State University, 2011  

Kellogg, Loren 1978, Emeritus, Forest Eng/Resources/Mgmt  

Kelly, Christine 2004, Associate Professor, Sch of Chem/Bio/Envr Eng  
Degrees:  
BS, University of Arizona, 1989  
PHD, Univ of Tennessee-Knoxville, 1997  

Kelly, Kristy 2016, Instructor, Sch of Wrtg Lit & Film  
Degrees:  
BA, Western Washington University, 2009  
MA, University of Oregon, 2012  

Kelsey, Mary 1958, Emeritus, Sch of Bio/Pop Hlth Sci  

Kelso, Debaran 1994, Senior Faculty Research Asst I, Fisheries and Wildlife  
Degrees:  
BA, Univ of Colorado System, 1977  
MS, University of the Witwatersran, 1987  

Kemp, Patrick 1974, Emeritus, College of Business  

Kendrick, Brady 2017, Instructor, Acad Prog/Student Aff  
Degrees:  
BS, University of North Texas, 2009  

Kennedy, Adam 2006, Faculty Research Assistant, Forest Ecosyst & Society  
Degrees:  
BS, Portland State University, 2004  
MS, Portland State University, 2006
Kennedy, Matthew 2002, Senior Instructor I, Animal & Rnglnd Sciences
Degrees:
BS, Oregon State University, 2003
MS, Oregon State University, 2005

Kennedy, Patricia 2002, Professor, EOARC - Union Exp Sta, Interim
Director, Eastern Ore Univ Ag Prg
Degrees:
BA, Colorado College, 1975
MS, University of Idaho, 1980
PHD, Utah State University, 1991

Kennedy, Robert 1996, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Univ of Houston System, 1992
MA, Univ of Colorado-Boulder, 1994
PHD, Oregon State University, 2004

Kennedy, Timothy 1976, Emeritus, Sch of Mech/Ind/Mfg Engr

Kennelke, Larry 1970, Emeritus, College of Education

Kent, Adam 2002, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of New England, 1989
PHD, Australian National University, 1994

Kent, Michael 1999, Professor, Microbiology (Science)
Degrees:
BS, Humboldt State University, 1977
MS, San Diego State University, 1981
PHD, Univ of California-Davis, 1985

Keon, Dylan 1997, Assistant Professor (Sr Res), Sch Elect Engr/Comp Sci
Degrees:
BS, Western Michigan University, 1993
MS, Oregon State University, 2001
PHD, Oregon State University, 2013

Kerio, Susanna 2017, Research Associate (Post Doc), Ag Botany/Plant
Path
Degrees:
BS, Foreign Institution, 2009
MS, Foreign Institution, 2010
PHD, Foreign Institution, 2016

Kerkvliet, Joe 1988, Emeritus, Economics

Kerkvliet, Nancy 1977, Emeritus, Enviro/Molecular Toxic

Kerr, David 2008, Associate Professor, Sch of Psychological Sci
Degrees:
BS, Willamette University, 1997
PHD, Univ of Michigan-Ann Arbor, 2004

Kerr, Richard 2004, Head Advisor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Portland State University, 1995
MFA, Washington State University, 2002
EDM, Queensland Univ of Technology, 2008

Kershaw, Nancy 1984, Professor, Ext Tillamook Co Office
Degrees:
BS, Oregon State University, 1978
MS, Stephen F Austin State Univers, 1981

Kesterson, Todd 1999, Senior Instructor I, New Media Communications
Degrees:
BFA, University of Oregon, 1990
MS, Southern Oregon University, 1999

Keszler, Douglas 1984, Distinguished Professor, Chemistry, Assoc Dean-Rsrch,GrdStdies,Adm, College of Science Admin
Degrees:
BS, Southwestern Oklahoma State Un, 1979
PHD, Northwestern University, 1984

Ketchum, Lynn 1988, Emeritus, Ext/Exp S Communications

Ketter, James 2000, Instructor, Physics
Degrees:
BS, Kansas State University, 1979
MS, Oregon State University, 2005

Ketterman, Jennifer 2002, Assoc Registrar-Operations, Office of the Registrar
Degrees:
BS, Oregon State University, 2002

Khanna, Sunil 1995, School Head, Public Hlth/HumanSci Adm, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, University of Delhi, 1982
MS, University of Delhi, 1984
PHD, University of Delhi, 1988
PHD, Syracuse University-Main Campu, 1995

KhanzadehMoradllo, Mehdi 2017, Research Associate (Post Doc), Sch of Civil/Constr Engr
Degrees:
PHD, Oklahoma State Univ-Main, 2016

Kidwell, Amanda 2013, Instructor (PAC), Physical Activity Courses
Degrees:
BS, Oregon State University, 2013

Kiekel, Robert 1966, Emeritus, World Languag & Cultures

Kiernamcc, Gary 1986, Emeritus, Crop and Soil Science

Kiigemagi, Ulo 1954, Emeritus, Enviro/Molecular Toxic

Kile, Molly 2011, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Univ of California-Santa Cruz, 1997
MS, Harvard University, 2001
PHD, Harvard University, 2006

Kilinc, Mehmet 2016, Research Associate (Post Doc), Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Istanbul University, 2005
MS, Istanbul University, 2008
PHD, Univ of Arkansas-Fayetteville, 2015

Kim, David 2000, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of California-Los Angeles, 1982
BS, Univ of Michigan-Ann Arbor, 1984
MENG, Univ of Michigan-Ann Arbor, 1989
PHD, Univ of Michigan-Ann Arbor, 1990

Kim, Hoe Woon 2005, Senior Instructor I, Mathematics
Degrees:
BS, Keimyung University, 1996
MS, Kyungpook National University, 2001
PHD, Oregon State University, 2010

Kim, Jay 2015, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Dankook University, 2003
MS, Univ of Wisconsin-Madison, 2007
PHD, University of Washington, 2015

Kim, Jinsub 2014, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
MS, Cornell University-Ithaca, 2013
PHD, Cornell University-Ithaca, 2014

Kim, Yusoon 2011, Associate Professor, College of Business
Degrees:
MENG, Univ of Michigan-Ann Arbor, 2004
MSE, Univ of Michigan-Ann Arbor, 2003
PHD, Arizona State University, 2010

Kimerling, A 1976, Emeritus, Earth, Ocean & Atmo Sci

Kincanon, Kerry 1999, Director-Expl Advis & Advis In, Academic Success Center
Degrees:
BS, Wayne State College, 1994
MA, Ball State University, 1996

Kinch, Michael 1969, Emeritus, Information Services

Kincel, Laurel 2011, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Texas AM Univ-College Station, 1993
MS, Univ of Cincinnati Main, 1998
PHD, Univ of Cincinnati Main, 2002

King, Celeste 2009, Instructor (ESL), INTO OSU Program
Degrees:
BA, Seattle Pacific University, 1989
EDM, Oregon State University, 1992

King, Rochelle 2015, Instructor (ESL), INTO OSU Program
Degrees:
BA, Brigham Young University Main, 2007
MA, American University, 2009

King, Valery 1987, Associate Professor, Library
Degrees:
BA, University of Oregon, 1977
MLS, University of Oregon, 1978

King, Charles 1977, Emeritus, Integrative Biology

King, David 1963, Emeritus, History

King, David 2006, Emeritus, College of Ag Admin

King, Jonathan 1980, Emeritus, College of Business

King, Keith 1969, Emeritus, Integrative Biology

King, Lynda 1986, Emeritus, World Languag & Cultures

King, Nancy 2000, Emeritus, College of Business

Kingsley, Kenneth 1974, Emeritus, Ext/Exp S Communications

Kioussi, Chrissa 2002, Professor, Pharmacy
Degrees:
BS, Univ of Athens, 1986
MS, Foreign Institution, 1987
PHD, Foreign Institution, 1992

Kirby, Eric 2013, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Hamilton College, 1992
MS, University of New Mexico, 1994
PHD, Massachusetts Inst of Technolo, 2001

Kirk, Cheryl 2012, Instructor, Ext Josephine Co Office
Degrees:
BS, Montana State Univ-Bozeman, 1986

Kirk, Katelyn 2013, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, University of Oregon,
MS, Oregon State University, 2015

Kirk, Nathan 2013, Instructor, Integrative Biology
Degrees:
BS, SUNY-College at Buffalo, 2003
MS, SUNY-College at Buffalo, 2006
PHD, Auburn University Main Campus, 2012

Kirk, Dale 1954, Emeritus, Biol & Ecol Engineering

Kiser, James 1997, Instructor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Humboldt State University, 1982
MS, Oregon State University, 1992
PHD, Oregon State University, 2010

Klain, Sarah 2016, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BA, Reed College, 2003
MS, University of British Columbia, 2010
PHD, University of British Columbia, 2016

Kleber, Markus 2005, Professor, Crop and Soil Science
Degrees:
MS, Universitat Hohenheim, 1992
PHD, Universitat Hohenheim, 1997

Klein, Matthew 2013, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Univ of Maryland-College Park, 2012
MS, Oregon State University, 2016

Klein, Andrew 1985, Emeritus, Sch Nuclear Sci & Engr

Kleinsorge, Ilene 1987, Dean Emeritus, College of Business

Klemke, Lloyd 1970, Emeritus, Sociology

Kleronomos, Misha 2009, Instructor, Sch of Psychological Sci
Degrees:
Kline, Norma 2016, Assistant Professor (Practice), Ext Coos County Office
Degrees:
BS, Univ of California-Berkeley, 1989
MS, Northern Arizona University, 1996

Kling, David 2013, Assistant Professor, Applied Economics
Degrees:
PhD, Univ of California-Davis, 2013

Kling, Jennifer 2001, Professor (Sr Res), Crop and Soil Science, Research
Associate, Forest Ecosyst & Society
Degrees:
BS, Oregon State University, 1980
MS, Univ of Nebraska-Lincoln, 1983
PhD, North Carolina State Univ, 1988

Klingeman, Peter 1966, Emeritus, Sch of Civil/Constr Engr

Klinkhammer, Gary 1990, Emeritus, Earth, Ocean & Atmo Sci

Klopfenstein, Joseph 2015, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
BS, Purdue University Main Campus, 1980
DVM, Purdue University Main Campus, 1983

Klotz, Anthony 2013, Assistant Professor, College of Business
Degrees:
BS, Iowa State University, 2001
MBA, Creighton University, 2009
PhD, University of Oklahoma, 2013

Knapp, Melinda 2012, Instructor, Acad Prog/Student Aff
Degrees:
BS, Cal State Univ-Fresno, 1988
MED, Oregon State University, 2008
MS, Cal State Univ-Fullerton, 2000
PhD, Oregon State University, 2013

Kneifl, Chris 2016, Instructor, World Langau & Cultures
Degrees:
BA, University of Oklahoma, 1999
MA, University of Oklahoma, 2008

Kneis, Philipp 2011, Instructor, Political Science
Degrees:
MA, Univ of Berlin, 2008

Knight, Heather 2016, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BSME, Massachusetts Inst of Technolo, 2006
MS, Carnegie Mellon University, 2013
PhD, Carnegie Mellon University, 2016

Knothe, Carol 1972, Emeritus, Ext Malheur Co Office

Knowles, Christopher 2003, Associate Professor, Wood Science/Engr
Degrees:
BS, Stephen F Austin State Univers, 2000
MS, Stephen F Austin State Univers, 2003
PhD, Oregon State University, 2007

Knutson, Christopher 2006, Instructor, Chemistry
Degrees:
BA, Univ of Wisconsin-Eau Claire, 2006
PhD, Oregon State University, 2011

Knutson, Devon 1994, Emeritus, Animal & Rngld Sciences

Knutz, Mike 2001, Associate Professor, Ext Yamhill Co Office
Degrees:
BS, Oregon State University, 1992
MAG, Oregon State University, 1993

Koch, Ryan 2017, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 2000

Kocher, Carl 1973, Emeritus, Physics

Koehlinger, Amy 2012, Associate Professor, History
Degrees:
PhD, Yale University, 2002

Koenig, Harold 1987, Associate Professor, College of Business
Degrees:
BA, University of Rochester, 1980
MBA, Univ of Nebraska-Lincoln, 1982
PhD, Univ of Nebraska-Lincoln, 1989

Koepsell, Paul 1969, Emeritus, Ag Botany/Plant Path

Koester, Ardis 1974, Emeritus, EXT Fam/CommHlth OnCmps

Kogel, Marcos 1991, Emeritus, Horticulture

Kolbe, Edward 1974, Emeritus, Biol & Ecol Engineering

Kolding, Mathias 1967, Emeritus, Hermiston Exp Sta

Koley, Dipankar 2013, Assistant Professor, Chemistry
Degrees:
BS, Foreign Institution, 2003
MS, Texas AM Univ-Commerce, 2005
PhD, Univ of Texas-Austin, 2011

Kollath, Jeffrey 1999, Senior Instructor II, Statistics (Science)
Degrees:
BS, Univ of Illinois-Chicago, 1986
BS, Univ of Illinois Central Offic, 1986
MS, Oregon State University, 1995

Kolluri, Siva 2006, Associate Professor, Enviro/Molecular Toxic
Degrees:
MS, Jadavpur University, 1990
PhD, Univ of Karlsruhe, 1999

Kolpak, Scott 2009, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, University of Oregon, 1999
MS, University of Oregon, 2002

Kone-Nishikawa, Yvette 2018, Instructor, Acad Prog/Student Aff

Kong, Wei 1995, Professor, Chemistry
Degrees:
BS, Peking University, 1987
Kongraksawech, Teepakorn 2004, Research Associate, Crop and Soil Science
Degrees:
MS, Oregon State University, 2007
PHD, Oregon State University, 2012

Konkler, Matthew 2013, Faculty Research Assistant, Wood Science/Engr
Degrees:
BS, Muskingum College, 2008
MS, Wright State University, 2011

Konrad, Kevin 2010, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, CUNY Queens College, 2010
MS, Oregon State University, 2012
PHD, Oregon State University, 2017

Konstantinidis, Peter 2016, Instructor/Curator, Fisheries and Wildlife
Degrees:
MS, Foreign Institution, 2005
PHD, Foreign Institution, 2011

Kooistra, Chad 2014, Research Associate (Post Doc), Forest Ecosyst & Society
Degrees:
BS, Colorado State University, 2005
MS, University of Idaho, 2011
PHD, Oregon State University, 2016

Koong, Ling-Jung 1987, Emeritus, Animal & Rnglnd Sciences

Kopperman, Paul 1978, Professor, History
Degrees:
BA, Queens University of Charlotte, 1966
MA, Queens University of Charlotte, 1969
PHD, Univ of Illinois at Urbana-Champaign, 1972

Koppers, Antonius 2007, Professor, Earth, Ocean & Atmo Sci
Degrees:
PHD, Vrije Univ Amsterdam, 1998

Koresky, Milo 1992, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of California-San Diego, 1984
MS, Univ of California-San Diego, 1985
PHD, Univ of California-Berkeley, 1991

Kosanovic-Brown, Ann 2010, Instructor, Music
Degrees:
BMUS, Oberlin College, 1979

Koskelo, Gina 1986, Senior Faculty Research Asst I, North Willamette Exp Sta
Degrees:
BS, University of Oregon, 1980

Koslicki, David 2013, Assistant Professor, Mathematics
Degrees:
BS, Washington State University, 2006
DTA, Skagit Valley College, 2004
PHD, Penn State Univ-Main Campus, 2012

Kosro, P 1984, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Univ of California-Santa Cruz, 1973
MS, Stanford University, 1977
PHD, Univ of California-San Diego, 1985

Kothari, Brianne 2014, Assistant Professor, Acad Prog/Student Aff, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Gonzaga University, 2003
MA, Washington State University, 2005
PHD, Portland State University, 2011

Kovac, David 1987, Instructor, Univ Honors College
Degrees:
BA, Univ of California-Berkeley, 1978
MED, Oregon State University, 1985
PHD, University of Oregon, 1995

Kovacevic, Jovana 2016, Assistant Professor, Food Innovation Center
Degrees:
PHD, Foreign Institution, 2014

Kovchegov, Yevgeniy 2005, Professor, Mathematics
Degrees:
BA, New York University, 1997
MS, Stanford University, 2000
PHD, Stanford University, 2002

Kowalewski, Alec 2012, Assistant Professor, Horticulture
Degrees:
BA, Michigan State University, 2003
MS, Michigan State University, 2006
PHD, Michigan State University, 2010

Kradjan, Wayne 1998, Dean Emeritus, College of Pharmacy-Adm, Emeritus, Pharmacy

Kraemer, Lauren 2008, Assistant Professor (Practice), Ext Hood River Co Office
Degrees:
MPH, Oregon State University, 2010

Krahmer, Robert 1961, Emeritus, Wood Science/Engr

Krahn, Gloria 2013, Professor-Endowed Chair, Public Hlth/HumanSci Adm
Degrees:
BS, University of Manitoba, 1972
MPH, Univ of California-Berkeley, 1994
PHD, University of Manitoba, 1980

Krane, Kenneth 1974, Emeritus, Physics

Krantz, Gerald 1955, Emeritus, Integrative Biology

Krause, Joseph 1988, Professor, World Languag & Cultures
Degrees:
BA, Oregon State University, 1976
MA, Michigan State University, 1979
PHD, Michigan State University, 1981

Krawchuk, Meg 2015, Assistant Professor, Forest Ecosyst & Society
Degrees:
BS, University of Guelph, 1995
MS, Acadia University, 2001
PHD, University of Alberta, 2007
Krebs, Jason 2002, Instructor, World Languag & Cultures
Degrees:
BA, Oregon State University, 2004
MA, Portland State University, 2007

Kretschmer, Kelsy 2001, Assistant Professor, Sociology
Degrees:
BA, Oregon State University, 2003
PHD, Univ of California-Irvine, 2010

Kristick, Laurel 1997, Associate Professor, Library
Degrees:
BS, University of Arizona, 1983
MLS, Univ of California-Los Angeles, 1987

Kroese, Duncan 2009, Faculty Research Assistant, Columbia Basin Exp Sta
Degrees:
BS, Oregon State University, 2010
MS, Oregon State University, 2016

Kroll, Andrew 2018, Instructor, Forest Ecosyst & Society
Degrees:
BA, St John’s College-Annapolis, 1994
MS, New Mexico St Univ-Main, 2001
PHD, University of Montana, 2004

Kronmiller, Brent 2013, Faculty Research Assistant, Ctr Excellence Genome Res
Degrees:
BS, University of Oregon, 1997
PHD, Iowa State University, 2008

Kropp, Susan 2009, Instructor (ESL), INTO OSU Program
Degrees:
BA, Oregon State University, 1990
MA, University of New England, 2005
EDM, University of Oregon, 2009

Krueger, James 1961, Emeritus, Chemistry

Krueger, Judith 1966, Emeritus, Music

Krueger, William 1971, Emeritus, Animal & Rnglnd Sciences

Kruis, Scott 2018, Instructor, Crop and Soil Science
Degrees:
BS, Western Michigan University, 1989
MS, Western Michigan University, 1997

Kudlacek, Trina 1999, Instructor, Sch of Bio/Pop Hlth Sci, Women/Gendr/Sxlt Studies
Degrees:
BS, University of Kansas, 1989
MS, University of Kansas, 1993
EDD, Temple University, 1996

Kulm, Laverne 1964, Emeritus, Earth, Ocean & Atmo Sci

Kunecka, Marta 2007, Instructor, Philosophy
Degrees:
MA, Jagiellonian Univ Cracow, 2005

Kurth, Ellie 2004, Senior Faculty Research Asst I, Ag Botany/Plant Path
Degrees:
BS, Montana State Univ-Bozeman, 1999

Kurth, Nicole 2015, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, San Francisco State University, 1998

Kurth, Tige 2016, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2007

Kutch, Ian 2017, Research Associate (Post Doc), Integrative Biology

Kutzler, Michelle 2002, Associate Professor, Animal & Rnglnd Sciences
Degrees:
BS, Washington State University, 1990
DVM, Washington State University, 1993
PHD, Cornell University-Ithaca, 2002

Kuusela, Olli-Pekka 2015, Assistant Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Univ of Helsinki, 2008
MA, Virginia Polytechnic Institute, 2010
PHD, Virginia Polytechnic Institute, 2013

Kwon, Hyojung 2013, Research Associate, Forest Ecosyst & Society
Degrees:
BS, Sejong University, 1994
MS, Yonsei University, 1996
PHD, Univ of California-Davis, 2005

Kwon, Jung 2016, Assistant Professor, COMES - Astoria
Degrees:
BS, Seoul City University, 2004
MS, Seoul City University, 2006
PHD, Purdue University Main Campus, 2012

LaBauve, Brianne 2016, Instructor (PAC), Physical ActivityCourses
Degrees:
BA, Univ of Southern California, 2002

Labram, John 2017, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
MS, Foreign Institution, 2008
PHD, Foreign Institution, 2011

LaBrier, Daniel 2016, Assistant Professor (Sr Res), Sch Nuclear Sci & Engr
Degrees:
PHD, Idaho State University, 2013

Labut, Edwin 2008, Faculty Research Assistant, Linus Pauling Institute
Degrees:
BS, Eastern Michigan University, 1993

Lach, Denise 1996, Director-SPP, Liberal Arts Admin, Professor, Sociology
Degrees:
BS, Univ of New Mexico-Gallup, 1987
MS, University of Oregon, 1988
PHD, University of Oregon, 1992

Lachenbruch, Barbara 1992, Emeritus, Forest Ecosyst & Society

Lackey, Robert 1982, Instructor, Fisheries and Wildlife

MS, Oregon State University, 1995
PHD, Oregon State University, 2011
Leavitt, Keith 2011, Associate Professor, College of Business
Degrees:
MS, Montana State Univ-Bozeman, 2001
MBA, University of Washington, 2007
PHD, University of Washington, 2009
LeBlanc, Nicole 2011, Assistant Professor, Vet Clinical Sciences
Degrees:
BA, University of Connecticut, 2002
DVM, Univ of Wisconsin-Madison, 2010
LeBoldus, Jared 2015, Assistant Professor, Ag Botany/Plant Path
Degrees:
BS, University of British Columbia, 2003
MS, University of Alberta, 2006
PHD, Foreign Institution, 2010
PHD, University of Alberta, 2010
Leder, Carol 2001, Head Advisor, College of Business
Degrees:
BS, Oregon State University, 1975
Lee, Ben 1991, Professor, Sch Elect Engr/Comp Sci
Degrees:
BEE, SUNY-Excelsior College, 1984
BEE, SUNY-Stony Brook, 1984
PHD, Penn State Univ-Main Campus, 1991
Lee, David 2011, Assistant Professor, Pharmacy
Degrees:
BS, Georgia Institute of Technolog, 1999
D PHAR, Virginia Commonwealth Univ, 2009
PHD, Virginia Commonwealth Univ, 2009
Lee, Hyun Seok 2017, Assistant Professor, College of Business
Degrees:
BBA, Korea University Col of Medici, 2010
MS, Korea University Col of Medici, 2012
PHD, Univ of N Carolina-Chapel Hill, 2017
Lee, Janet 1991, Professor, Women/Gendr/Sxlt Studies
Degrees:
BA, University of Stirling, 1976
MA, Washington State University, 1982
PHD, Washington State University, 1985
Lee, Megan 2013, Instructor (ESL), INTO OSU Program
Degrees:
MA, Seattle Pacific University, 2007
Lee, Sang In 2018, Faculty Research Assistant, Food Science and Techno
Degrees:
BS, Univ of Arkansas-Fayetteville, 2013
MS, Univ of Arkansas-Fayetteville, 2016
Lee, Seunghae 2011, Associate Professor, College of Business
Degrees:
BS, Yonsei University, 1990
MS, Yonsei University, 1992
PHD, Michigan State University, 2004
Lee, Stacey 2011, Instructor, College of Education
Degrees:
Lee, Yun-Shik 2001, Professor, Physics
Degrees:
BS, Seoul National University, 1989
MS, Seoul National University, 1991
PHD, Univ of Texas-Austin, 1997

Lee, John 1969, Emeritus, Mathematics

Lee, John 2001, Professor, Physics
Degrees:
BS, Oregon State University, 2007
DVM, Western Univ of Health Science, 2012

Lee, Theodore 1984, Emeritus, Sch of Wrtg Lit & Film

Lee, John 1962, Emeritus, Extension Service Prgram

Lee, John 2007, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
BS, Oregon State University, 2007

Leibowitz, Flora 1977, Professor, Philosophy
Degrees:
BA, SUNY-Stony Brook, 1973
MA, Johns Hopkins University, 1975
PHD, Johns Hopkins University, 1979

Leid, Mark 1992, Associate Dean for Research, Pharmacy, Professor
Degrees:
BS, Washington State University, 1983
PHD, Oregon State University, 1989

Lecsko, James 1975, Emeritus, Sch of Bio/Pop Hlth Sci

Leman, Nancy 1971, Emeritus, Sch of Wrtg Lit & Film

Lengwin, Tracy 2016, Instructor, College of Education
Degrees:
MA, Ashland Community College, 2000

Lenhardt, Catherine 2010, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
MA, Univ of N Carolina-Chapel Hill, 2014

Lenhardt, John 2010, Instructor (ESL), INTO OSU Program
Degrees:
BS, University of Oregon, 1992
MAT, Quinnipiac University, 1999

Lepoud, Janice 1988, Emeritus, EXT Fam/CommHlth OnCmps

Leonard, Mary 2010, Research Associate (Post Doc), Enviro/Molecular Toxic
Degrees:
BA, New Mexico St Univ-Main, 1997
BS, New Mexico St Univ-Main, 1997
MA, Arizona State University, 2006
PHD, Oregon State University, 2017

Leonard, Scott 1995, Senior Faculty Research Asst I, Linus Pauling Institute
Degrees:
BS, Bastyr University, 1995
MS, Oregon State University, 1998

Leong, Jonathan 2001, Instructor, College of Business
Degrees:
BS, Claremont McKenna College, 2005
BS, Harvey Mudd College, 2005
MS, Claremont McKenna College, 2010

Leong, Joann 1975, Emeritus, Microbiology (Science)

Leopold, Devin 2017, Research Associate (Post Doc), Ag Botany/Plant Path
Degrees:
BA, Hampshire College, 2002
PHD, Stanford University, 2017

Lerczak, James 2006, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Williams College, 1988
MS, University of Washington, 1991
PHD, Scripps Research Institute, 2000

Lerner, Michael 1990, Professor, Chemistry, Administrator 1-Dept Head
Degrees:
BA, University of Pennsylvania, 1983
PHD, Univ of California-Berkeley, 1988

LeRoux, Sharon 2000, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Oregon State University, 1992
MS, Oregon State University, 2000

Leshchinsky, Ben 2012, Assistant Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, University of Delaware, 2007
MS, Columbia University-NYC, 2008
PHD, Columbia University-NYC, 2012

Lesmeister, Marilyn 2006, Associate Professor, EXT 4-H YouthDev OnCmps
Degrees:
BS, North Dakota St U-Main Campus, 1977
MS, Univ of Wisconsin-Madison, 1987
PHD, Univ of Wisconsin System, 1996

Lesser, Virginia 1992, Professor, Statistics (Science), Director-Survey Research Cntr, Department Head -Statistics
Degrees:
BS, Lebanon Valley College, 1980
MS, North Carolina State Univ, 1987
PHD, Univ of N Carolina Systems, 1999

LeSueur, Billie 1965, Emeritus, Extension Service Prgram

Letelier, Ricardo 1994, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Universidad de Conception, 1988
PHD, Univ of Hawaii System, 1994

Lett, Kenneth 1999, Faculty Research Assistant, Ctr Excellence Genome Res

Lev, Larry 1984, Ext Marketing Economist, Applied Econ Extension
Degrees:
BA, Wesleyan University, 1975
MS, Michigan State University, 1981
PHD, Michigan State University, 1984

Levi, Taal 2013, Assistant Professor, Fisheries and Wildlife
Degrees:
BA, Univ of California-Berkeley, 2004
PHD, Univ of California-Santa Cruz, 2012

Levien, Keith 1985, Emeritus, Sch of Chem/Bio/Envr Eng

Levin, Alexander 2016, Assistant Professor, Southern Oregon Exp Sta

Levine, Shepard 1954, Emeritus, Art

Lewis, Aaron 2009, Senior Instructor I, College of Business

Lewis, David 2001, Professor, Applied Economics

Lewis, Jon 1983, Distinguished Professor, Sch of Wrtg Lit & Film

Lewis, Karley 2010, Faculty Research Assistant, EXT Fam/CommHlth OnCmps

Lewis, Sarah 2001, Senior Faculty Research AsstII, Earth, Ocean & Atmo Sci

Lewis, Margaret 1971, Emeritus, EXT Fam/CommHlth OnCmps

Leytem, Alicia 2004, Faculty Research Assistant, Enviro/Molecular Toxic

Li, Anlong 2009, Research Associate (Post Doc), Wood Science/Engr

Li, Cheng 2011, Research Associate (Post Doc), Earth, Ocean & Atmo Sci

Li, Fuxin 2015, Assistant Professor, Sch Elect Engr/Comp Sci

Li, Hua-yu 1996, Associate Professor, Political Science

Li, Jun 1999, Research Associate (Post Doc), Chemistry

Li, Kaichang 1999, Professor, Wood Science/Engr

Li, Lixin 2004, Faculty Research Assistant, Microbiology (Science)

Li, Tao 2015, Assistant Professor, Sch of Soc/Bhav Hlth Sci

Li, Xiaoping 2017, Research Associate (Post Doc), Hermiston Exp Sta

Li, Zhenglun 2014, Instructor, Food Science and Techno

Libbey, Leonard 1961, Emeritus, Food Science and Techno

Liburdy, James 1997, Professor-Endowed, Sch of Mech/Ind/Mfg Engr

Lien, Mei-Ching 2004, Professor, Sch of Psychological Sci

Lieuallen, Thomas 1992, Network Research Assist, College of Engineering

Lillie, Robert 1984, Emeritus, Earth, Ocean & Atmo Sci

Lim, Juyun 2007, Associate Professor, Food Science and Techno
Lin, Kuan-Chen 2012, Assistant Professor, College of Business
Degrees:
BS, National Taiwan University, 2000
MBA, National Taiwan University, 2006
PHD, Cornell University-Ithaca, 2005

Linares, Roberto 2004, Senior Instructor I, Pharmacy
Degrees:
BS, Oregon State University, 1991

Lindberg, Kreg 2003, Associate Professor, Acad Prog/Student Aff, Forest
Ecosyst & Society
Degrees:
BA, Dartmouth College, 1986
MA, Johns Hopkins University, 1989
PHD, Oregon State University, 1995

Lindsay, Adam 2011, Instructor, Crop and Soil Science
Degrees:
BS, University of Oregon, 2006
MS, Oregon State University, 2014

Ling, Qingyue 2000, Associate Professor (Sr Res), Food Innovation Center
Degrees:
BSME, Nanjing Forestry University, 1982
MS, Univ of Maine Central Office, 1992
PHD, Auburn University Main Campus, 1997

Link-Perez, Melanie 2016, Instructor, Ag Botany/Plant Path
Degrees:
BA, Smith College, 2003
MS, Miami University-Oxford, 2005
PHD, Miami University-Oxford, 2010

Linnell, Jessica 2016, Assistant Professor (Practice), Ext Tillamook Co
Office
Degrees:
BS, Univ of California-Davis, 2010
PHD, Univ of California-Davis, 2015

Lipscomb, Shannon 2010, Associate Professor, Acad Prog/Student Aff, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Whitman College, 2000
PHD, Univ of California-Davis, 2007

Lisenkov, Ivan 2016, Research Associate (Post Doc), Sch Elect Engr/
Comp Sci
Degrees:
BS, Moscow State University, 2005
MS, Moscow State University, 2007
PHD, Moscow State University, 2010

Liss, William 1977, Emeritus, Fisheries and Wildlife

List, Peter 1967, Emeritus, Philosophy

Liston, Aaron 1990, Dir-Herbarium, Ag Botany/Plant Path
Degrees:
BS, Hebrew University of Jerusalem, 1982
MS, Hebrew University of Jerusalem, 1984

Liu, Hong 2005, Professor, Biol & Ecol Engineering
Degrees:
BS, Harbin Institute of Technology, 1996
MENG, Harbin Institute of Technology, 1998
PHD, Univ of Hong Kong, 2003

Liu, Huaping 2001, Professor, Sch Elect Engr/Comp Sci
Degrees:
PHD, New Jersey Inst Technolog, 1997

Liu, Judy 2015, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Penn State Univ-Main Campus, 1995
MS, Univ of California-Berkeley, 1996
PHD, Univ of California-Berkeley, 2000

Livesay, Margaret 1998, Senior Instructor I, Ext Benton County Office
Degrees:
BS, Fort Lewis College, 1981

Liyanage, Medagama Liyanage Amila 2009, Instructor, Chemistry
Degrees:
BS, Univ of Colombo, 2008
PHD, Oregon State University, 2015

LlebotLorente, Clara 2010, Assistant Professor, Library
Degrees:
BS, Univ of Barcelona, 2005
MS, Gran Canaria Univ, 2007
PHD, Gran Canaria Univ, 2011

Lloyd, Deanna 2012, Instructor, Crop and Soil Science
Degrees:
BA, Western Washington University,
MS, Oregon State University, 2016

Locke, Kerry 1985, Emeritus, Crop and Soil Science

Lockwood, Elise 2013, Assistant Professor, Mathematics
Degrees:
BS, Wheaton College, 2004
MS, Portland State University, 2006
PHD, Portland State University, 2011

Loeb, Barbara 1985, Emeritus, Art

Loehr, Christiane 2003, Professor, Vet Biomedical Science
Degrees:
DVM, Justus-Liebig University, 1996
PHD, Washington State University, 2002

Loesgen, Sandra 2013, Assistant Professor, Chemistry
Degrees:
PHD, Georg August Univ Akad Ausland, 2007

Logan, Sam 2014, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, University of Delaware, 2006
MS, University of Delaware, 2008
PHD, Auburn University Main Campus, 2012

Logendran, Rasaratnam 1989, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of Moratuwa, 1975
MENG, Asian Institute of Technology, 1980
PHD, Oklahoma State Univ-Main, 1984

Loges, William 2003, Associate Professor, New Media Communications
Degrees:
BA, Univ of California-San Diego, 1983
PHD, Univ of Southern California, 1992

Lombard, Porter 1963, Emeritus, Horticulture

Lomonte, Rosemarie 1959, Emeritus, Information Services

Long, Lynn 1988, Emeritus, Horticulture

Longo, Robert 2015, Instructor, College of Business
Degrees:
BS, Montclair State University, 1976
MBA, Seton Hall University, 1979

Longway, Lucas 2012, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BA, Bard College at Simon’s Rock, 2011
MS, Oregon State University, 2016

Looney, Jane 2018, Instructor, Sociology
Degrees:
MA, Rutgers University-New Brunswi, 2003
PHD, Rutgers University-New Brunswi, 2005

Loper, Joyce 1998, Professor, Ag Botany/Plant Path
Degrees:
MS, Univ of California-Davis, 1978
PHD, Univ of California-Berkeley, 1983

Lopez, Emily 2016, Faculty Research Assistant, Klamath Basin Res&ExtCtr
Degrees:
BS, Oregon State University, 2013

Lopez, Nathan 1998, Faculty Research Assistant, Biochem/Biophysics
Degrees:
BS, Oregon State University, 1999

LopezCevallos, Daniel 2004, Assistant Professor, Ethnic Studies
Degrees:
BS, Univ San Francisco de Quito, 2001
MPH, Univ San Francisco de Quito, 2004
PHD, Oregon State University, 2008

Lorang, Jennifer 1993, Research Associate, Ag Botany/Plant Path
Degrees:
MS, U of Minnesota-Central Offices, 1988
PHD, Univ of California-Riverside, 1993

Louis, Joseph 2016, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, Natl Inst Tech Tiruchirappalli, 2008
MS, Purdue University Main Campus, 2010
PHD, Purdue University Main Campus, 2016

Love, Jennifer 2016, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Oberlin College, 1991
MA, Oregon State University, 1993
PHD, University of Nevada-Reno, 2000

Lovejoy, Steven 2004, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
MS, Oregon State University, 1989
PHD, Oregon State University, 2006

Loveland, Walter 1967, Professor, Chemistry
Degrees:
BS, Massachusetts Inst of Technolo, 1961
PHD, University of Washington, 1966

Lovell, Ronald 1972, Emeritus, Sch of Wrtg Lit & Film

Lovestone, Lauren 2014, Instructor, Philosophy
Degrees:
BA, Oregon State University, 2015

Lowenstein, David 2016, Research Associate (Post Doc), North Willamette Exp Sta
Degrees:
BA, CUNY Lehman College, 2009
MS, Univ of Wisconsin-Madison, 2011
PHD, Univ of Illinois-Chicago, 2016

Lowrie, Miriam 1971, Emeritus, Ext Polk County Office

Lowry, Justine 2015, Instructor, Acad Prog/Student Aff
Degrees:
BS, Cal State Univ-Chico, 1998
MS, Univ of Northern Colorado, 2008

Lowry, Malcolm 2003, Assistant Professor (Sr Res), Microbiology (Science), Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Ohio University-Lancaster, 1991
PHD, The Ohio State Univ Main, 1998

Lu, Guanyi 2013, Assistant Professor, College of Business
Degrees:
MS, Texas AM Univ-College Station, 2009
PHD, Texas AM Univ-College Station, 2013

Lubchenco, Jane 1976, Endowed Chair/Dist Prof, Integrative Biology
Degrees:
BA, Colorado College, 1969
MS, University of Washington, 1971
PHD, Harvard University, 1975

Lucas, Hannah 2009, Faculty Research Assistant, Horticulture
Degrees:
BS, University of Puget Sound, 1997
MS, Western Washington University, 2008

Luck, Jeff 2011, Associate Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Rice University, 1981
MBA, Univ of California-Los Angeles, 1986
PHD, Rand Graduate School of Policy, 1996

Luczkiw, Laura 2015, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Southern Illinois U-Carbondale, 2010
MS, Southern Illinois U-Carbondale, 2012

Luft, David 2008, Professor, History
Degrees:
Degrees:
BS, University of British Columbia, 1997
MF, University of British Columbia, 1998
PHD, Oregon State University, 2001

Lytle, David 2002, Professor, Integrative Biology
Degrees:
BS, Univ of Michigan-Ann Arbor, 1992
PHD, Cornell University-Ithaca, 2000

Lyubinetsky, Igor 2016, Research Associate, Sch of Chem/Bio/Envr Eng
Degrees:
MS, Univ of Leningrad, 1983
PHD, Univ of Leningrad, 1996

M
Ma, Cathleen 1994, Senior Faculty Research Asstll, Forest Ecosyst & Society
Degrees:
BS, Northwest Agricultural College, 1982

Ma, Yifei 2017, Research Associate (Post Doc), Sch of Civil/Constr Engr
Degrees:
PHD, Georgia Institute of Technolog, 2017

MacCarty, Nordica 2015, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Iowa State University, 2000
MS, Iowa State University, 2013
PHD, Iowa State University, 2015

MacDonald, Megan 2011, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
MS, Katholiek Univ Leuven, 2003
PHD, Univ of Michigan-Ann Arbor, 2011

Machado, Stephen 2001, Professor, Columbia Basin Exp Sta
Degrees:
BS, Foreign Institution, 1984
MS, Univ of Reading, 1987
PHD, Kansas State University, 1997

Macnab, Sandy (Alexander) 1979, Emeritus, Crop and Soil Science

MacroryPowell, Maud 2006, Associate Professor (Practice), Ext Jackson Co Office
Degrees:
BA, Swarthmore College, 1994
MA, Antioch University-Seattle, 2004

MacTavish, Katherine 2001, Associate Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, University of New Mexico, 1990
MA, University of New Mexico, 1995
PHD, Univ of Illinois at Urbana-Cha, 2001

Macuga, Kristen 2012, Assistant Professor, Sch of Psychological Sci
Degrees:
BS, James Madison University, 1999
PHD, Univ of Cal-Santa Barbara, 2008

Maddison, David 2009, Professor-Endowed Chair, Integrative Biology
Degrees:
BS, University of Toronto, 1980
MS, University of Alberta, 1985
PHD, Harvard University, 1990

Maddux, Bettye 2004, Director, Chemistry
Degrees:
BS, Louisiana St Univ and A M, 1983
PHD, Univ of Texas-Austin, 1992

Maddux, Timothy 2003, Research Associate, Sch of Civil/Constr Engr
Degrees:
BS, Cal Institute of Tech, 1992
MS, Univ of Cal-Santa Barbara, 1995
PHD, Univ of Cal-Santa Barbara, 2002

Maddy, Deborah 1997, Emeritus, General Agriculture

Madison, Rodney 2004, Instructor, History
Degrees:
BA, Hardin-Simmons University, 1993
MA, Hardin-Simmons University, 1998

Madsen, Lisa 2003, Associate Professor, Statistics (Science)
Degrees:
BS, University of Oregon, 1988
MS, Cornell University-Ithaca, 2000
MS, University of Oregon, 1990
PHD, Cornell University-Ithaca, 2004

Maes, Cari 2012, Assistant Professor, Women/Gendr/Sxlt Studies
Degrees:
BA, James Madison University, 2002
MA, Univ of Cal-Santa Barbara, 2004
PHD, Emory University, 2011

Maes, Kenneth 2012, Assistant Professor, Anthropology
Degrees:
BS, Univ of Cal-Santa Barbara, 2002
MS, Emory University, 2007
PHD, Emory University, 2010

Magana, Mario 1998, Associate Professor, EXT 4-H YouthDev OnCmps
Degrees:
BA, Oregon State University, 1997
MAIS, Oregon State University, 1999

Magona, Mario 1989, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Iowa State University, 1979
MS, Georgia Institute of Technolog, 1980
PHD, Purdue University Main Campus, 1987

Magnuson, Anna 2011, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
BS, Oregon State University, 2015

Magnusson, Kathy 2005, Professor, Vet Biomedical Science
Degrees:
BS, U of Minnesota-Central Offices, 1980
DVM, U of Minnesota-Central Offices, 1982
PHD, U of Minnesota-Central Offices, 1989

Maguire, Douglas 1996, Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BA, University of Maine, 1976
MS, Rutgers University-New Brunswi, 1979
PHD, Oregon State University, 1986

Mahmud, Taifo 2003, Professor, Pharmacy
Degrees:
BS, North Sumatra University, 1989
MS, Osaka University, 1994
PHD, Osaka University, 1997

Mahrt, Larry 1972, Emeritus, Earth, Ocean & Atmo Sci

Maier, Claudia 1994, Professor, Chemistry
Degrees:
BS, Foreign Institution, 1987
MS, Univ of Konstanz, 1990
PHD, Univ of Konstanz, 1994

Maille, Robin 2009, Assistant Professor (Practice), Ext Union County Office
Degrees:
BA, University of Puget Sound, 1986
MA, West Virginia University, 2006
MF, Yale University, 1992

Mainwaring, Doug 1997, Senior Faculty Research Asst I, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Portland State University, 1996
BS, University of Oregon, 1990
MS, Oregon State University, 2000

Maisch, Filip 2010, Senior Instructor I, Mathematics
Degrees:
BS, Humboldt State University, 2004
MA, Univ of California-Santa Cruz, 2006
PHD, Univ of California-Santa Cruz, 2010

Maksud, Michael 1980, Dean Emeritus, Sch of Bio/Pop Hlth Sci

Makun, Leslie 2011, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, University of South Alabama, 2006
MS, Oregon State University, 2015
MA, University of South Alabama, 2011

Maldonado, Marta 2015, Associate Professor, Ethnic Studies
Degrees:
BA, University of Puerto Rico, 1992
MA, Washington State University, 1996
PHD, Washington State University, 2004

Males, James 1998, Emeritus, Animal & Rngld Sciences

Malewitz, Raymond 2011, Associate Professor, Sch of Wrtg Lit & Film
Degrees:
BS, Univ of Michigan-Ann Arbor, 1999
PHD, University of Virginia, 2007

Maley, Jordan 1998, Instructor, Ext Gilliam County Offc
Degrees:
BS, Southern Oregon University, 1977

Mali, Urmila 1994, Instructor, Educ Opportunities Prgm
Faculty A-Z

Mallette, Natasha 2016, Instructor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of Arkansas-Fayetteville, 2001
MS, Univ of Arkansas-Fayetteville, 2003
PHD, Montana State Univ-Bozeman, 2013

Mallory-Smith, Carol 1994, Emeritus, Crop and Soil Science

Malouf, Robert 1991, Emeritus, Fisheries and Wildlife

Mandsager, Ron 2009, Associate Professor (Clinical), Vet Clinical Sciences
Degrees:
DVM, Iowa State University, 1984

Maness, Thomas 2009, Dean, College of Forestry Adm, Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, West Virginia University, 1979
MS, Virginia Polytechnic Institute, 1981
PHD, University of Washington, 1989

Manoog, Corinne 1987, Professor, Physics
Degrees:
BA, Mt Holyoke College, 1977
PHD, Univ of Texas-Austin, 1984

Manosevitz, Sara 1966, Emeritus, Liberal Arts Admin, World Languag & Cultures

Marcus, Craig 2008, Department Head, Enviro/Molecular Toxic, Professor
Degrees:
BS, Univ of Wisconsin-Madison, 1975
PHD, Univ of Wisconsin-Madison, 1981

Maresh, Thomas 1967, Emeritus, Earth, Ocean & Atmo Sci, Dean Emeritus, Graduate School Admin

Marcum, Wade 2006, Associate Professor, Sch Nuclear Sci & Engr
Degrees:
BS, Oregon State University, 2006
MS, Oregon State University, 2008
PHD, Oregon State University, 2010

Markle, Douglas 1985, Emeritus, Fisheries and Wildlife

Man, Eugene 2009, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Berkeley, 1975
MENG, Univ of California-Berkeley, 1977

Marchant, Ann 1999, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
MS, Oregon State University, 1983

Marsch, June 2008, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2010

Marlow, Lindsay 2016, Assistant Professor, Library
Degrees:
BS, Murray State University, 2005
MLS, SUNY-College at Buffalo, 2013

Marcus, Craig 2008, Department Head, Enviro/Molecular Toxic, Professor
Degrees:
BS, Univ of Wisconsin-Madison, 1975
PHD, Univ of Wisconsin-Madison, 1981

Mar disposal, Thomas 1967, Emeritus, Earth, Ocean & Atmo Sci, Dean Emeritus, Graduate School Admin

Maniglio, Roberta 2016, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Brown University, 1982
MS, Univ of S Carolina-Columbia, 1985
PHD, Univ of S Carolina-Columbia, 1991

Marchant, Ann 1999, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
MS, Oregon State University, 1983

Marshall, Byron 2005, Associate Professor, College of Business, Asst Dean-Assess Accrd Anlytc
Degrees:
BS, Cal State Univ-System Office, 1988
MBA, Cal State Univ-System Office, 1995
PHD, University of Arizona, 2005

Marshall, Kandice 2005, Instructor, Economics
Degrees:
BS, Linfield College, 2005
MS, Oregon State University, 2007
PHD, Oregon State University, 2011

**Martell, Richard** 2013, Instructor, College of Business
Degrees:
BA, Sonoma State University, 1978
MA, New York University, 1986
PHD, New York University, 1988

**Martin, Dana** 1998, Regional Administrator, Extension Service Admin
Degrees:
BS, Oregon State University, 1976
MA, Michigan State University, 2005

**Martin, James** 2009, Instructor, College of Business
Degrees:
BS, Brigham Young University Main, 1975
MBA, Santa Clara University, 1983

**Martin, Kenneth** 2007, Senior Instructor I, Sch of Civil/Constr Engr
Degrees:
BS, Texas AM Univ-College Station, 1999
MS, Oregon State University, 2010

**Martin, Larry** 2016, Instructor, College of Business
Degrees:
BS, Oregon State University, 1973
MBA, Williamette University, 1993

**Martin, Lloyd** 1967, Emeritus, North Willamette Exp Sta

**Martinez, Fabian** 2016, Faculty Research Assistant, Microbiology (Science)
Degrees:
BS, Cal State Univ-Northridge, 2015

**Martinez, Pauline** 2017, Instructor, Acad Prog/Student Aff
Degrees:
MA, San Francisco State University, 2010

**Martinez-Alvarez, Olga** 1999, Instructor, Child Development Lab
Degrees:
BS, Oregon State University, 2003

**Mason, Ben** 2011, Associate Professor, Sch of Civil/Constr Engr, Assistant Dean, Univ Honors College
Degrees:
BS, Georgia Institute of Technolog, 2006
MS, Univ of California-Berkeley, 2007
PHD, Univ of California-Berkeley, 2011

**Mason, Robert** 1991, Assoc Dept Head/Dir-UGrad Prog, Integrative Biology, Professor
Degrees:
BA, College of the Holy Cross, 1982
PHD, Univ of Texas-Austin, 1987

**Mason, Barbara** 2000, Emeritus, Speech Communication

**Masoni, Sarah** 2000, Senior Faculty Research Assttl, Food Innovation Center
Degrees:
BA, Oregon State University, 1987

**Massey, William** 2017, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Central Michigan University, 2006
MS, Southern Illinois U-Carbondale, 2008
PHD, Univ of Wisconsin-Milwaukee, 2013

**Massie, John** 1956, Emeritus, Extension Service Prgram

**Mast, M JoAnn** 1990, Emeritus, College of Education

**MataGonzalez, Ricardo** 2007, Associate Professor, Animal & Rnglnd Sciences
Degrees:
BS, Universidad Mayor De San Simon, 1989
MS, New Mexico St Univ-Main, 1995
PHD, Texas Tech University, 1999

**Matano, Ricardo** 1990, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Universidad Nacional, 1983
MA, Princeton University, 1988
PHD, Princeton University, 1991

**Mate, Bruce** 1973, Director, Marine Mammal Institute, Professor
Degrees:
BS, University of Oregon, 1968
PHD, University of Oregon, 1973

**Mathany, Allan** 1975, Emeritus, Budget/Fiscal Planning

**Mathem, Rebecca** 2012, AssocProv EnrollMgmt/Registrar, Office of the Registrar
Degrees:
BS, Univ of Minnesota-Twin Cities, 1998
MA, Univ of Minnesota-Twin Cities, 2000

**Mathew, Prem** 2004, Associate Dean, College of Business, Associate Professor
Degrees:
BS, University of Pennsylvania, 1991
MBA, University at Buffalo, SUNY, 1993
PHD, Univ of Missouri-Columbia, 1999

**Mathews, V John** 2015, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Foreign Institution, 1980
MS, University of Iowa, 1981
PHD, University of Iowa, 1984

**Mathews, Christopher** 1978, Emeritus, Biochem/Biophysics

**Matoszliuk, Lauren** 2015, Research Associate (Post Doc), Forest Eng/Resources/Mgmt
Degrees:
BS, Duquesne University, 2008
MS, Oregon State University, 2017
PHD, Northwestern University, 2013

**Matsumoto, Haruyoshi** 1991, Associate Professor (Sr Res), CIMRS (Inst/Marine Res)
Degrees:
BS, Tokai University, 1976
MS, Univ of Hawaii System, 1978
PHD, Univ of Hawaii System, 1984
Matsumoto, Masakazu 1975, Emeritus, Veterinary Medicine

Matthews, Sean 2015, Research Associate, Institute Natr Res Dir
Degrees:
BS, Humboldt State University, 1997
MS, Humboldt State University, 2002
PHD, Univ of Mass-Amherst, 2012

Mattsson, Monte 2016, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BA, Southern Illinois U-Carbondale, 2002
BS, Portland State University, 2010
MS, Portland State University, 2015

Matzke, Gordon 1977, Emeritus, Earth, Ocean & Atmo Sci

Maughan, Laurel 1972, Emeritus, Library

MauroGutierrez, Francisco 2009, Research Associate, Forest Eng/Resoucrs/Mgmt
Degrees:
PHD, Foreign Institution, 2015

Mayaram, Karitkeya 1999, Professor, Sch Elect Engr/Comp Sci
Degrees:
BEE, Birla Inst of Tech Science, 1981
MS, SUNY-Stony Brook, 1982
PHD, Univ of California-Berkeley, 1988

Mayhue, Steven 2017, Instructor, College of Education
Degrees:
BS, University of Wyoming, 1984
MA, Grand Canyon University, 2003

McAlexander, James 1990, Professor, College of Business
Degrees:
BA, Brigham Young University Main, 1981
PHD, University of Utah, 1987

McAllaster, Michelle 2007, Graduate Program Coordinator, Sch of Civil/Constr Engr
Degrees:
BS, Portland State University, 2004
MED, Portland State University, 2005

McBrien, Elisabeth 2014, Instructor (ESL), INTO OSU Program
Degrees:
MA, Portland State University, 2010

McCabe, Rachelle 1984, Professor, Music
Degrees:
BA, Washington State University, 1977
MM, The Juilliard School, 1979
PHD, Michigan State University, 1984

McCafferty, Christopher 2000, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 2000

McCain, Erik 2017, Instructor, Acad Prog/Student Aff
Degrees:
MA, The Univ of Alabama-Tuscaloosa, 2016

McCarley, Jason 2016, Professor, Sch of Psychological Sci
Degrees:
BA, Purdue University Main Campus, 1992
MA, University of Louisville, 1995
PHD, University of Louisville, 1998

McCaughan, William 2000, Emeritus, Extended Campus

McClellan, Thomas 1945, Emeritus, Sch of Civil/Constr Engr

McClelland, Megan 2001, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Univ of California System, 1994
MA, Loyola Univ of Chicago, 1998
PHD, Loyola Univ of Chicago, 2001

McClelland, Thomas 1959, Emeritus, History, Liberal Arts Admin

McCuskey, Rebecca 1989, Senior Faculty Research Asst I, Horticulture
Degrees:
BS, Oregon State University, 1988
MS, Oregon State University, 1996

McCormick, Brenda 1987, Instructor, Forest Ecosyst & Society, Emeritus, Dean Emeritus, Graduate School Admin
Degrees:
BS, University of Connecticut, 1974
MS, University of Connecticut, 1976
PHD, Louisiana State Univ System, 1979

McClellan, Brenda 1987, Instructor, Sch of Psychological Sci

McCullough, Winston 2006, Instructor, Sch of Psychological Sci

McCullough, Brenda 1981, Emeritus, World Languag & Cultures

McCune, Bruce 1987, Professor, Ag Botany/Plant Path
Degrees:
BS, University of Montana, 1974
MA, University of Montana, 1979
PHD, Univ of Wisconsin-Madison, 1982

McCune, Myrica 2002, Faculty Research Assistant, Institute Natr Res Dir
Degrees:
BS, Oregon State University, 2009

McDaniel, Mina 1983, Emeritus, Food Science and Techno

McDonald, Brian 1999, Senior Faculty Research Asst I, Horticulture

McDonnell, Rory 2016, Assistant Professor, Crop and Soil Science
Degrees:
BS, Foreign Institution, 1998
PHD, Foreign Institution, 2004

McDonnell, Kathleen 2009, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, University of Toronto, 1983
MAT, Oregon State University, 2009

McElroy, Kelly 2014, Assistant Professor, Library
Degrees:
BA, Univ of Southern California, 2005
MLS, University of British Columbia, 2010

McEvoy, Peter 1976, Emeritus, Ag Botany/Plant Path

McFadden, Philip 1990, Associate Professor, Biochem/Biophysics
Degrees:
BS, Univ of Texas-El Paso, 1979
PHD, Univ of California-Los Angeles, 1983

McFarlane, Dale 1965, Emeritus, College of Business

McGee, Samantha 2015, Instructor, Mathematics
Degrees:
BS, Cal State Univ Monterey Bay,

McGorin, Robert 2000, Professor-Endowed, Food Science and Techno, Department Head
Degrees:
BA, Northwestern University, 1973
MS, Univ of Illinois at Urbana-Cha, 1976
PHD, Univ of Illinois at Urbana-Cha, 1980

McGrath, D 2011, Senior Instructor I, Sch Elect Engr/Comp Sci
Degrees:
BS, Xavier University, 2004
MS, Indiana University-Bloomington, 2006

McGrath, Edward 1965, Emeritus, Political Science

McGrath, Daniel 1983, Emeritus, Horticulture

McGraw, Lori 1994, Senior Instructor I, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Penn State Univ-Central Office, 1984
MS, Penn State Univ-Central Office, 1992
PHD, Oregon State University, 2002

McGreevy, Sarah 2011, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Univ of California-Santa Cruz, 1998
MA, Humboldt State University, 2006

McGregor, Ian 2018, Assistant Professor (Practice), Ext Klamath Co Office

McGregor, Jessina 1999, Associate Professor, Pharmacy
Degrees:
BA, Oregon State University, 2001
BS, Oregon State University, 2001
PHD, Univ of Maryland-Baltimore, 2005

McInnis, Mike 1985, Emeritus, Animal & Rnglnd Sciences

McIntire, Charles 1961, Emeritus, Ag Botany/Plant Path

McIntyre, David 1989, Professor, Physics
Degrees:
BS, University of Arizona, 1980
MS, Stanford University, 1984
PHD, Stanford University, 1987

McIver, James 1995, Associate Professor (Sr Res), EOARC - Union Exp Sta
Degrees:
BA, Univ of Colorado-Colorado Spr, 1975
MS, Idaho State University, 1978
PHD, Oregon State University, 1983

McKay, Jennifer 2008, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci
Degrees:
BS, University of Western Ontario, 1988
MS, University of Western Ontario, 1992
PHD, University of British Columbia, 2004

McKenna, Wendy 2000, Instructor, Child Development Lab
Degrees:
MA, The Fielding Institute, 1995
JD, San Francisco Theological Semi, 1980

McKenzie, Erica 2005, Professor, Vet Clinical Sciences
Degrees:
BS, Murdoch University, 1994
PHD, U of Minnesota-Central Offices, 2003

McKiel, Carol 2016, Instructor, College of Education
Degrees:
BS, Indiana University-South Bend, 1999
MS, Northeastern State University, 2007
PHD, Oregon State University, 2011

McLain, Thomas 1993, Emeritus, Wood Science/Engr

McLaughlin, Katherine 2016, Assistant Professor, Statistics (Science)
Degrees:
BA, Univ of California-Berkeley, 2011
PHD, Cal State Univ-Los Angeles, 2016

McLellan, Kevin 2007, Instructor (PAC), Physical ActivityCourses

McMahan, Linda 2000, Emeritus, Horticulture

McMorran, Jeffrey 1991, Extension Seed Cert Spec, Crop/Soil Sci Extension
Degrees:
BS, Univ of California-Davis, 1977
MS, Oregon State University, 1982
PHD, Oregon State University, 1994

McMullen, B Starr 1980, Emeritus, Economics

McMurray, David 1994, Emeritus, Anthropology

McMurry, Allison 2011, Instructor (ESL), INTO OSU Program
Degrees:
MA, Brigham Young University Main, 1998

McNeely, Lacey 2007, Instructor, College of Business
Degrees:
BS, Oregon State University, 1999
MBA, Oregon State University, 2009

McNeil, Lori 2017, Instructor, Acad Prog/Student Aff
Degrees:
MED, Northwest Christian University, 2013
MBA, Corban University, 2010
McNeilan, Ray 1964, Emeritus, Horticulture Extension

McPhail, Kerry 2000, Associate Professor, Pharmacy
Degrees:
BS, Rhodes University, 1995
PHD, Rhodes University, 2000

McReynolds, Robert 1982, Emeritus, Horticulture Extension

McSweeney, Jacqueline 2017, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BA, Loyola Marymount University, 2011
BS, Loyola Marymount University, 2011
PHD, Rutgers University-New Brunswick, 2017

Mead, Clifford 1986, Emeritus, Library

Mecham, Jacob 2007, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
BS, Brigham Young University Main, 2000
DVM, Texas AM Univ-Commerce, 2004

Medlock, Jan 2012, Associate Professor, Vet Biomedical Science
Degrees:
BS, Georgia Institute of Technolog, 1997
MS, Georgia Institute of Technolog, 1999
PHD, University of Washington, 2004

Megale, Donald 1958, Emeritus, Sch of Bio/Pop Hlth Sci

Megowan, Meghan 2010, Faculty Research Assistant, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Oregon State University, 2013

Megraw, Molly 2012, Assistant Professor, Ag Botany/Plant Path
Degrees:
BS, University of Washington, 1996
MS, Johns Hopkins University, 1999
PHD, University of Pennsylvania, 2007

Mehl, Ryan 2011, Associate Professor, Biochem/Biophysics
Degrees:
BS, Moravian College-Main Campus, 1996
MS, Cornell University-Ithaca, 1999
PHD, Cornell University-Ithaca, 2001

Mehlenbacher, Shawn 1986, Oregon Hazelnut Ind. Professor, Horticulture
Degrees:
BS, Penn State Univ-Main Campus, 1978
PHD, Cornell University, 1982

Meigs, Andrew 1998, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Macalester College, 1985
MS, Univ of Alaska System, 1990
PHD, Univ of Southern California, 1995

Meigs, Garrett 2006, Research Associate, Forest Ecosyst & Society
Degrees:
BS, Cornell University-Ithaca, 2004
MS, Oregon State University, 2009
PHD, Oregon State University, 2014

Meints, Brigid 2011, Research Associate (Post Doc), Crop and Soil Science

Meints, Russel 1988, Emeritus, Ag Botany/Plant Path

Melathopoulos, Andony 2016, Assistant Professor, Horticulture Extension
Degrees:
BS, Simon Fraser University, 1995
MS, Simon Fraser University, 1999
PHD, Dalhousie University, 2015

Melesse, Kassahun 2015, Assistant Professor, Applied Economics
Degrees:
BA, Foreign Institution, 2000
MS, Foreign Institution, 2008
PHD, Foreign Institution, 2015

Mellbye, Mark 1986, Emeritus, Crop and Soil Science

Mellinger, David 2000, Professor (Sr Res), CIMRS (Inst/Marine Res)
Degrees:
BS, Massachusetts Inst of Technolo, 1983
PHD, Stanford University, 1991

Mellinger, Margaret 2003, Dir-Emerg Tech & Serv, Library, SFHF Associate Professor
Degrees:
BA, Youngstown State University, 1984
MS, Univ of Tennessee-Knoxville, 1999

Mendez-Luck, Carolyn 2011, Associate Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Univ of Southern California, 1996
MPH, Univ of California-Los Angeles, 1996
PHD, Univ of California-Los Angeles, 2003

MEnesti, Ana-Maria 2011, Instructor, World Language & Cultures
Degrees:
BA, Portland State University, 2001
MA, Simon Fraser University, 2006

Meng, Qinglai 2008, Professor, Economics
Degrees:
BS, Wuhan University, 1988
MA, New York University, 1997
PHD, New York University, 1999

Menge, Bruce 1976, Distinguished Professor, Integrative Biology
Degrees:
BA, U of Minnesota-Central Offices, 1965
PHD, University of Washington, 1970

Menguc, Yigit 2014, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Rice University, 2006
PHD, Carnegie Mellon University, 2011

MeninoJr, Alfred 1984, Emeritus, Animal & Rnglnd Sciences

MentlerII, John 2009, Instructor, College of Business
Degrees:
BA, Univ of Colorado-Boulder, 1989
MBA, Univ of Colorado-Boulder, 1993
Merle, Susan 1997, Senior Faculty Research Asst I, CIMRS (Inst/Marine Res)
Degrees:
BS, University of Washington, 1991

Merlet, Lea 2017, Faculty Research Assistant, Horticulture
Degrees:
BS, Univ of Bordeaux Faculte De Me, 2012
MS, Universite of Angers, 2016

Merrill, Gary 1984, Professor, Biochem/Biophysics
Degrees:
BA, The Ohio State Univ Main, 1973
PHD, Syracuse University-Main Campu, 1977

Merrill IV, Edward 2000, Instructor (PAC), Physical Activity Courses
Degrees:
BS, Oregon State University, 1998

Mewalal, Ritesh 2018, Research Associate (Post Doc), Forest Ecosyst & Society

Meyer, Eli 2011, Assistant Professor, Integrative Biology
Degrees:
BS, Long Island Univ-Southampton, 1998
PHD, Univ of Southern California, 2006

Meyer, Howard 1983, Emeritus, Animal & Rnglnd Sciences

Meyers, Stephen 2002, Research Associate (Post Doc), Ag Botany/Plant Path
Degrees:
BS, Dowling College, 1988
MS, Oregon State University, 2006
PHD, Oregon State University, 2010

Michael, Carol 1989, Emeritus, EXT Fam/CommHlth OnCmps

Michael, Robert 1968, Emeritus, Sch of Bio/Pop Hlth Sci

Micheau, Gary 2013, Instructor, College of Business
Degrees:
BS, United States Military Academy, 1972
MS, Gonzaga University, 1980
MS, Univ of Southern California, 1976

Michels, Alexander 1999, Research Associate, Linus Pauling Institute
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1998
PHD, Oregon State University, 2007

Middleton, Cheryl 1983, Associate Professor, Library, AUL-Research & Scholarly Comm
Degrees:
BS, Oregon State University, 1993
MLS, Louisiana State Univ System, 1995

Middleton, Luke 2005, Faculty Research Assistant, Pharmacy
Degrees:
BS, University of Kansas, 2000

Miggins, Daniel 2013, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, New Mexico Inst Mining Tech, 1997
MS, Univ of Colorado-Boulder, 2002
PHD, Univ of Texas-El Paso, 2009

Mignot, Guillaume 2017, Assistant Professor (Sr Res), Sch Nuclear Sci & Engr
Degrees:
PHD, Univ of Wisconsin-Madison, 2008

Miles, Stanley 1966, Emeritus, Applied Economics

Miller, Betsey 2008, Instructor, Horticulture
Degrees:
BS, Colorado State University, 2004
MS, Oregon State University, 2011

Miller, Jessica 2003, Associate Professor, COMES - Newport Exp Sta
Degrees:
BA, University of Montana, 1989
MS, University of Washington, 1993
PHD, University of Oregon, 2004

Miller, Kirk 2007, Instructor, Vet Clinical Sciences
Degrees:
BS, Colorado State University, 1993
DVM, Colorado State University, 1995

Miller, Thomas 1989, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, Cornell University, 1980
MENG, Cornell University, 1981
PHD, Cornell University, 1990

Miller, Weston 2007, Associate Professor (Practice), Ext Clackamas Co Office
Degrees:
BS, Lewis Clark College, 1994
MS, San Jose State University, 2001

Miller, Charles 1970, Emeritus, Earth, Ocean & Atmo Sci

Miller, Donald 1960, Emeritus, Wood Science/Engr

Miller, Jeffrey 1979, Emeritus, Horticulture

Miller, Richard 1977, Emeritus, Animal & Rnglnd Sciences

Miller, Robert 1987, Emeritus, Earth, Ocean & Atmo Sci

Miller, Ronald 1987, Emeritus, College of Business

Miller, Terry 1970, Emeritus, Environ/Molecular Toxic

Miller-Morgan, Timothy 1995, Clinical Vet - Fisheries, Lab Animal Resources, Extension Vet Aqua Specialist, Sea Grant
Degrees:
BS, University of Puget Sound, 1987
BS, Washington State University, 1991
DVM, Washington State University, 1995

Millhollin, Melissa 2010, Instructor, General Agriculture
Degrees:
BS, Oregon State University,
MS, Oregon State University, 2015

Milligan, Allen 2004, Associate Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BS, Long Island Univ-Southampton, 1987
MS, SUNY-Stony Brook, 1991
PHD, University of British Columbia, 1998

Milligan, Kristen 2004, Assistant Professor (Sr Res), Integrative Biology, Associate Director, Marine Studies Initiative
Degrees:
BS, Evergreen State College, 1992
PHD, University of British Columbia, 1998

Millison, Andrew 2009, Instructor, Horticulture
Degrees:
BA, Prescott College, 1997
MA, Prescott College, 2002

Mills, Sean 2008, Instructor, Music
Degrees:
BA, University of Oregon, 1988
MA, University of Oregon, 1989

Mills, Dallice 1976, Emeritus, Ag Botany/Plant Path

Mills, Randall 1984, Emeritus, Animal & Rngldn Sci Ext

Milota, Michael 1988, Emeritus, Wood Science/Engr

Milovancev, Milan 2011, Associate Professor, Vet Clinical Sciences
Degrees:
BS, Univ of Minnesota-Twin Cities, 2001
DVM, Univ of Minnesota-Twin Cities, 2003

Mistelfeier, Frank 2000, Instructor, Earth, Ocean & Atmo Sci, Physics
Degrees:
MA, Univ of N Carolina Systems, 1986
PHD, Oregon State University, 1994

Milston-Clements, Ruth 1998, Senior Faculty Research Asst I, Microbiology (Ag)
Degrees:
BS, Oregon State University, 1998
BS, Lancaster Univ, 2000
MS, Oregon State University, 2001

Minnick, Miriam 1957, Emeritus, Information Services

Minot, Ethan 2006, Associate Professor, Physics
Degrees:
BS, Massey University, 1998
PHD, Cornell University, 1998

Minoura, Toshimi 1982, Emeritus, Sch Elect Engr/Comp Sci

Miranda, Cristobal 1977, Associate Professor (Sr Res), Pharmacy
Degrees:
MS, Virginia Polytechnic Institute, 1971
DVM, Univ of the Philippines Vet Me, 1959

PHD, Virginia Polytechnic Institute, 1974

Mitchell, Erin 2005, Instructor (PAC), Physical Activity Courses
Degrees:
BS, University of Arizona, 2000
MPH, Oregon State University, 2004
PHD, Oregon State University, 2015

Mitchell, Katie 2004, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, University of Washington, 1998

Mitchell, Velma 1966, Emeritus, Extension Service Prgram

MitchellJr, Richard 1979, Emeritus, Sociology

Mix, Alan 1984, Distinguished Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Washington, 1978
MS, Columbia University-NYC, 1980
MS, Columbia University-NYC, 1984
PHD, Columbia University-NYC, 1986

Mix, Michael 1970, Emeritus, Integrative Biology

Mize, Ronald 2013, Associate Professor, Ethnic Studies
Degrees:
BS, Univ of Colorado-Boulder, 1991
MA, Colorado State University, 1994
PHD, Univ of Wisconsin-Madison, 2000

Mobley, Megan 2014, Instructor, Crop and Soil Science
Degrees:
BS, Duke University, 2004
PHD, Duke University, 2011

Mobley, Ronald 1968, Emeritus, Horticulture

Mohler, Ronald 1972, Emeritus, Sch Elect Engr/Comp Sci

Mojica, Cynthia 2015, Assistant Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Univ of California-Davis, 1993
MPH, Univ of California-Los Angeles, 1995
PHD, Univ of California-Los Angeles, 2006

Mojica, Kristina 2015, Research Associate, Ag Botany/Plant Path
Degrees:
BS, Hawaii Pacific University, 2004
MS, Univ of Hawaii at Manoa, 2009
PHD, Univ of Amsterdam, 2009

Mok, David 1975, Emeritus, Horticulture

Mok, Machteld 1975, Emeritus, Horticulture

Molitor, John 2010, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Christian Brothers University, 1990
MS, Southern Illinois U-Edwardsvil, 1993
PHD, Univ of Missouri-Columbia, 1999

Mollapourasl, Reza 2017, Instructor, Mathematics
Degrees:
Monaco, Elisa 2012, Instructor, Animal & Rngld Sciences
Degrees:
BS, Foreign Institution, 2003
MS, Foreign Institution, 2007

Mondal, Debashis 2014, Associate Professor, Statistics (Science)
Degrees:
PHD, University of Washington, 2007

Montagne, Paul 1994, Faculty Research Assistant, Sch of Civil/Constr Engr
Degrees:
BS, University of Oregon, 1985

Montezeno, Daniel 2017, Research Associate (Post Doc), Sch Elect Engr/Comp Sci
Degrees:
BS, Federal University of Pelotas, 1998
MS, Federal Univ of Santa Catarina, 2003
PHD, Federal Univ of Santa Catarina, 2016

Montfort, Devlin 2013, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Washington State University, 2006
MS, Washington State University, 2007
PHD, Washington State University, 2011

Montgomery, Todd 2013, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Nevada-Las Vegas, 1997
MBA, Foreign Institution, 2000

Montgomery, Claire 1995, Emeritus, Forest Eng/Resources/Mgmt

Montoya, Daniel 2017, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Nevada-Reno, 1978
MPH, Univ of Mass-Amherst, 2017

Montoya, Mitzi 2015, Dean, College of Business, Professor
Degrees:
BS, Michigan State University, 1990
PHD, Michigan State University, 1995

Moon, Dale 2001, Instructor, College of Education
Degrees:
MED, Western Washington University, 1990

Moon, Un-Ku 1998, Professor, Sch Elect Engr/Comp Sci
Degrees:
MS, Cornell University, 1989
PHD, Univ of Illinois Central Offic, 1994

Mooney, Ann 2018, Faculty Research Assistant, Earth, Ocean & Atmo Sci

Moore, Amber 2017, Assistant Professor, Crop/Soil Sci Extension
Degrees:
BS, Auburn University Main Campus, 1997
MS, North Carolina State Univ, 2002
PHD, North Carolina State Univ, 2005

Moore, Dan 2016, Assistant Professor, Library

Moore, Drew 2017, Instructor, Acad Prog/Student Aff

Moore, Jared 2006, Associate Professor, College of Business, Dir-Phd Program Development
Degrees:
BS, Arizona State University, 1993
MS, Arizona State University, 1999
PHD, Arizona State University, 2006

Moore, Jennie 2013, Instructor (PAC), Physical Activity
Courses
Degrees:
BS, Northwestern College, 1994
MS, Western Illinois University, 2001

Moore, Juliann 2008, Instructor, Statistics (Science)
Degrees:
BS, Oregon State University, 2009
MS, Oregon State University, 2011

Moore, Randall 2002, Senior Instructor I, Fisheries and Wildlife
Degrees:
BS, Cornell University, 1987
MS, George Mason University, 1995
PHD, Oregon State University, 2005

Moore, Walter 2017, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, DePaul University, 2000
MFA, Texas State University, 2005
PHD, Purdue University Main Campus, 2015

Moore, Frank 1975, Emeritus, Integrative Biology

Moore, James 1979, Emeritus, Biol & Ecol Engineering

Moore, Kathleen 1981, Emeritus, Philosophy

Moore, Mark 1990, Emeritus, Speech Communication

Moore, Sylvia 1966, Emeritus, Sch of Bio/Pop Hlth Sci

Morales, Kelly 2013, Instructor, Crop and Soil Science
Degrees:
BS, Univ of Mass-Amherst, 1995
MS, Oklahoma State Univ-Main, 1997
PHD, Oklahoma State Univ-Main, 2001

Morales, Maralisa 2010, Instructor, World Languag & Cultures
Degrees:
MA, Oregon State University, 2012

Moran, Patricia 1989, Emeritus, Sch of Soc/Bhav Hlth Sci

Moretti, Marcelo 2017, Assistant Professor, Horticulture
Degrees:
BS, Universidade de Sao Paulo, 2007
MS, Cal State Univ-Fresno, 2011
PHD, Univ of California-Davis, 2016

Moretti, Nathalia 2017, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Foreign Institution, 2007
Ms, Cal State Univ-Fresno, 2012

Moretz, Deanna 2003, Clinical Pharmacy Specialist, Pharmacy
Degrees:
BS, University at Buffalo, SUNY, 1984
D PHAR, Univ of N Carolina-Chapel Hill, 2000

Morgan, Cheryl 1997, Senior Faculty Research Asst II, CIMRS (Inst/Marine Res)
Degrees:
BA, Whitman College, 1988
MS, Washington State University, 1993

Morgan, Elena 2012, Instructor (ESL), INTO OSU Program
Degrees:
BS, Foreign Institution, 2008
MED, Eastern Washington University, 2010

Morgan, Andriy 2011, Associate Professor, Pharmacy
Degrees:
MS, Foreign Institution, 1998
PhD, Foreign Institution, 2002

Morita, Richard 1962, Emeritus, Microbiology (Science)

Morley, Susan 2017, Instructor, Pharmacy
Degrees:
MBA, David Lipscomb University, 2014
MS, David Lipscomb University, 2014
D PHAR, University of Memphis, 1997
D PHAR, Univ of Tennessee-Memphis, 1997

Morre, Jeffrey 2001, Senior Faculty Research Asst II, Chemistry
Degrees:
BS, Univ of Texas-Austin, 1991

Morre, Susan 2003, Instructor, Graduate School Admin
Degrees:
BA, Univ of Texas-Austin, 1975
MS, Oregon State University, 2004
PhD, Oregon State University, 2014

Morrell, Jeffrey 1983, Distinguished Professor, Wood Science/Engr
Degrees:
BS, Syracuse University-Main Campu, 1977
MS, Penn State Univ-Allentown, 1979
PhD, Syracuse University-Main Campu, 1982

Morris, John 2009, Instructor, College of Business
Degrees:
BS, University of Kansas, 1980
MBA, Univ of Nebraska-Omaha, 1982

Morris, Lesley 2013, Assistant Professor, Eastern Ore Univ Ag Prg
Degrees:
BA, University of New Mexico, 1995
MS, University of Nevada-Las Vegas, 2001
PhD, Utah State University, 2008

Morris, John 1968, Emeritus, Integrative Biology

Morris Jr, Robert 1965, Emeritus, Earth, Ocean & Atmo Sci

Morrison, Betty 1973, Emeritus, Extension Service Prgram

Morrissette, Brett 1999, Senior Faculty Research Asst I, Forest Eng/ Resources/Mgmt
Degrees:
BS, Oregon State University, 1999
MF, Oregon State University, 2002

Morrissey, Michael 1990, Emeritus, Food Science and Techno

Morrow, Alice 1980, Emeritus, EXT Fam/CommHlth OnCmps

Mosher, Wayne 1948, Emeritus, Extension Service Admin

Mosley, Alvin 1977, Emeritus, Crop and Soil Science

Mote, Philip 2009, Professor, Earth, Ocean & Atmo Sci, Dir-OCCRI, Assoc Dean-Strateg Initiatives
Degrees:
BA, Harvard University, 1987
PhD, University of Washington, 1994

Moule, Jean 1997, Emeritus, College of Education

Moultton, Hong 2010, Associate Professor (Sr Res), Vet Biomedical Science
Degrees:
BS, Chongqing University, 1985
PhD, Portland State University, 1996

Moum, James 1984, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, University of Toronto, 1978
MA, University of Toronto, 1979
PhD, University of British Columbia, 1984

Mouzung, Christine 2004, Faculty Research Assistant, EXT Fam/ CommHlth OnCmps, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Pacific University, 1996
MS, Oregon State University, 2008

Muckleston, Keith 1965, Emeritus, Earth, Ocean & Atmo Sci

Mueller, Chad 2004, Instructor, Eastern Ore Univ Ag Prg
Degrees:
BS, Oklahoma State Univ-Main, 1995
MS, South Dakota State University, 1998
PhD, South Dakota State University, 2003

Mueller, Ryan 2012, Assistant Professor, Microbiology (Science)
Degrees:
BS, Virginia Polytechnic Institute, 1999
PhD, Univ of California-San Diego, 2007

Muglia, Juan 2012, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, National Univ of La Plata, 2011
PhD, Oregon State University, 2017

Muir, Patricia 1987, Emeritus, Ag Botany/Plant Path

Mukatis, W Alfred 1980, Emeritus, College of Business

Mulas, Laura 2014, Instructor, World Languag & Cultures
Degrees:
BS, Virginia Commonwealth Univ, 1998
Mulatero, Oriana 2014, Instructor, Speech Communication
Degrees:
BA, University of South Florida, 2012
MAIS, Oregon State University, 2016

Muldoon, Ariel 2007, Faculty Research Assistant, Forest Ecosyst & Society
Degrees:
MS, Oregon State University, 2009
MS, New Mexico St Univ-Main, 2007

Mull, Jeffrey 1983, Asoc. Dir-Medical Services, Student Health Services
Degrees:
BS, Allegheny College, 1976
MD, Univ of Pittsburgh-Main Campus, 1980

Mullet, Kathy 2004, Associate Professor, College of Business
Degrees:
BS, Virginia Polytechnic Institute, 1980
MS, Virginia Polytechnic Institute, 1984
PHD, Virginia Polytechnic Institute, 1992

Muna, Catherine 1987, Emeritus, Sch of Soc/Bhav Hlth Sci

Munanura, Ian 2015, Assistant Professor, Forest Ecosyst & Society
Degrees:
BS, Universite Nationale du Rwanda, 2000
MS, Univ of Kent British Studies C, 2005
PHD, Clemson University, 2013

Munar, Myrna 1988, Associate Professor, Pharmacy
Degrees:
BA, Univ of Southern California, 1981
D PHAR, Univ of Southern California, 1985

Mundt, Christopher 1985, Professor, Ag Botany/Plant Path
Degrees:
BS, Cornell College, 1979
MS, Iowa State University, 1981
PHD, North Carolina State Univ, 1985

Muraca, Barbara 2014, Assistant Professor, Philosophy
Degrees:
PHD, Foreign Institution, 2008

Murati, Jesse 1995, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BA, Lewis Clark College, 2000
MS, Oregon State University, 2009

Murnieks, Charles 2013, Assistant Professor, College of Business
Degrees:
BS, US Air Force Academy, 1993
MBA, Univ of California-Los Angeles, 2001
PHD, Univ of Colorado-Boulder, 2007

Murphey, John 2001, Instructor (PAC), Physical ActivityCourses
Degrees:
BA, Texas AM Univ-College Station, 2001

Murphy, Chad 2014, Assistant Professor, College of Business
Degrees:
BA, Brigham Young University Main, 2006
MA, University of Chicago, 2008
PHD, Penn State Univ-Main Campus, 2014

Murphy, Glen 2001, Emeritus, Forest Eng/Resoures/Mgmt

Murphy, Lea 1980, Emeritus, Mathematics

Murphy, Thomas 1965, Emeritus, Sch of Psychological Sci

Murray, Katie 2005, Assistant Professor (Practice), Integrd Plant Prot (Ag)
Degrees:
BA, Univ of Alabama in Huntsville, 2000
MA, Oregon State University, 2007

Murtaugh, Paul 1992, Emeritus, Statistics (Science)

Murthy, Ganti 2007, Professor, Biol & Ecol Engineering
Degrees:
BS, Foreign Institution, 2001
MS, Indian Institute of Technology, 2003
PHD, Univ of Illinois at Urbana-Cha, 2006

Musser, Gary 1972, Emeritus, Mathematics

Muszynski, Lech 2004, Associate Professor, Wood Science/Engr
Degrees:
MS, Agricultural U of Poznan, 1987
PHD, Agricultural U of Poznan, 1997

Mutschler, Ben 2000, Associate Professor, History
Degrees:
BA, Harvard University, 1988
MA, Columbia University-NYC, 1992
PHD, Columbia University-NYC, 2000

Muzacz, Arien 2017, Instructor - CMH Counseling, College of Education
Degrees:
PHD, Oregon State University, 2015

Myers, Andrew 2004, Instructor, Art
Degrees:
BS, Eastern Oregon University, 1995
MFA, Portland State University, 2003

Myers, Erika 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, Amherst College, 1993
MS, Western Carolina University, 2007
EDM, Harvard University, 1998

Myers, James 1996, Professor-Endowed, Horticulture
Degrees:
BS, Kansas State University, 1978
MS, Univ of Wisconsin-Madison, 1981
PHD, Univ of Wisconsin-Madison, 1984

Myers, Jen 2013, Instructor, Crop and Soil Science
Degrees:
BA, Univ of Maryland-College Park, 1999
MA, Lancaster Univ, 2005

Myles, Daniel 2007, Senior Instructor Ii, Chemistry
Degrees:
BS, University of Waterloo, 2000
Myrold, David 1984, Professor, Crop and Soil Science
Degrees:
BS, Michigan Technological Univ, 1977
MS, Washington State University, 1979
PHD, Michigan State University, 1984

Nabelek, John 1987, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Massachusetts Inst of Technolo, 1974
MS, Massachusetts Inst of Technolo, 1975
PHD, Massachusetts Inst of Technolo, 1984

Nackley, Lloyd 2016, Assistant Professor, North Willamette Exp Sta
Degrees:
BS, Cal State Polytechnic - Pomona, 2003
PHD, University of Washington, 2012

Nafshun, Richard 1992, Senior Instructor II, Chemistry
Degrees:
BS, Cal State Univ-Stanislaus, 1992
MS, Oregon State University, 1996
PHD, Oregon State University, 1996

Nagele, Janet 1997, Associate Professor, Ext Clackamas Co Office
Degrees:
BS, Cornell University, 1983
MS, Michigan State University, 1995

Nagypal, Tamas 2017, Research Associate (Post Doc), Sch of Wrtg Lit & Film
Degrees:
BA, Foreign Institution, 2008
MA, Foreign Institution, 2010
MA, Foreign Institution, 2008
PHD, York Universite, 2017

Nahorniak, Jasmine 1997, Senior Faculty Research Asstll, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Canterbury, 1992
MS, Dalhousie University, 1996

Nairn, John 2006, Endowed Chair-Richardson, Wood Science/Engr, Professor
Degrees:
BA, Dartmouth College, 1977
PHD, Univ of California-Berkeley, 1981

Naithani, Sushma 2008, Assistant Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BS, Foreign Institution, 1990
MS, Maharaja Sayaji Univ of Baroda, 1992
PHD, University of Lucknow, 1999

Nakajima, Setsuko 1990, Senior Instructor I, World Langau & Cultures
Degrees:
BA, University of Oregon, 1982
MA, University of Oregon, 1984

Nakamura, Fumiko 1991, Instructor, World Langau & Cultures
Degrees:
BA, Oregon State University, 1990
MAIS, Oregon State University, 1992

Nakaue, Harry 1971, Emeritus, Animal & Rnglnd Sciences

Nash, Jonathan 1996, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Queens University of Charlotte, 1991
MS, Cornell University, 1995
PHD, Oregon State University, 2000

Nason, Jeffrey 2007, Associate Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Cornell University-Ithaca, 1997
MS, Cornell University-Ithaca, 2002
PHD, Univ of Texas-Austin, 2006

Natarajan, Arun 2012, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Foreign Institution, 2001
MS, Cal Institute of Tech, 2003
PHD, Cal Institute of Tech, 2007

Natarajan, Ganapathy 2014, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
MS, Univ of Minnesota-Duluth, 2008
PHD, Texas Tech University, 2012

Navab-Daneshmand, Tala 2016, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Amirkabir Univ of Tech, 2002
MS, University of Tehran, 2004
PHD, McGill University, 2015

Nayyeri, Amir 2013, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Tehran, 2004
MS, University of Tehran, 2007
PHD, Univ of Illinois at Urbana-Cha, 2012

Needham, Mark 2006, Professor, Forest Ecosyst & Society
Degrees:
BA, University of Victoria, 1999
MA, University of Victoria, 2002
PHD, Colorado State University, 2006

Neiman, David 2011, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Berkeley, 1981

Nelson, Kim 1984, Senior Faculty Research Asstll, Fisheries and Wildlife
Degrees:
BS, Lewis Clark College, 1980
MS, Oregon State University, 1989

Nelson, Michael 2011, Senior Instructor I, Economics
Degrees:
BA, Emporia State University, 1989
Nelson, Michael 2012, Endowed Chair-Ruth H. Spaniol, Forest Ecosyst & Society, Professor
Degrees:
BA, Univ of Wisconsin-Stevens Pt, 1988
MA, Michigan State University, 1990
PHD, Lancaster Univ, 1998

Nelson, Peder 2006, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci, Instructor
Degrees:
BA, Western State College Colorado, 1999
MS, Southern Oregon University, 2006

Nelson, Shelley 1999, Instructor, Sociology
Degrees:
BS, Oregon State University, 2000
MA, Indiana University-Bloomington, 2005

Nelson, David 1977, Emeritus, Earth, Ocean & Atmo Sci

Nelson, Peter 1975, Emeritus, Sch of Civil/Constr Engr

Nemanic, Sarah 2011, Associate Professor, Vet Clinical Sciences
Degrees:
MS, University of Houston, 1999
DVM, Univ of California-Davis, 2006
PHD, U of Texas Health Science, 2002

Nembhard, David 2016, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
PHD, Univ of Michigan-Ann Arbor, 1994

Nembhard, Harriet 2016, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BA, Claremont McKenna College, 1990
MSE, Univ of Michigan-Ann Arbor, 1993
PHD, Univ of Michigan-Ann Arbor, 1994

Neumann, Catherine 1994, Emeritus, Sch of Bio/Pop Hlth Sci

Newberger, Stuart 1969, Emeritus, Mathematics

Newburgh, R 1958, Emeritus, Biochem/Biophysics

Newhart, Daniel 2013, Assistant Professor (Practice), Sch Lang, Culture & Soc
Degrees:
BA, Purdue University Main Campus, 2004
MA, The Ohio State Univ Main, 2006
PHD, The Ohio State Univ Main, 2011

Newsom, Sean 2015, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Michigan State University, 2004
MS, Colorado State University, 2007
PHD, Univ of Michigan-Ann Arbor, 2012

Newton, Lydia 1996, Senior Faculty Research Asst I, Statistics (Ag)
Degrees:
BA, Univ of California-Davis, 1993
MAIS, Oregon State University, 1998

Newton, Michael 1960, Emeritus, Forest Eng/Resources/Mgmt

NeyhartJr, Charles 1972, Emeritus, College of Business

NeylandJr, Michael 2012, Instructor (ESL), INTO OSU Program
Degrees:
BA, Evergreen State College, 2001
MED, Framingham State College, 2007

Ng, Ean 2012, Assistant Professor (Sr Res), Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Montana State Univ-Bozeman, 2002
MS, Texas Tech University, 2004
PHD, Texas Tech University, 2010

Ng, Kok-Mun 2013, Professor, College of Education
Degrees:
BS, Univ of Malaya, 1985
MED, University of North Texas, 1996
PHD, Texas AM Univ-Commerce, 1999

Nguyen, Thinh 2004, Professor, Sch Elect Engr/Comp Sci
Degrees:
PHD, Univ of California-Berkeley, 2003

Nibler, Joseph 1967, Emeritus, Chemistry

Nice, Karl 1969, Emeritus, College of Education

Nichols, Christopher 2012, Associate Professor, History
Degrees:
BA, Wesleyan University, 2000
MA, University of Virginia, 2002
PHD, University of Virginia, 2008

Nichols, Jane 2003, Associate Professor, Library, Dept Head-Teaching & Engagmnt
Degrees:
BA, Univ of Wisconsin-Madison, 1989
MLS, Dominican University, 2001

Nickerson, Amy 2015, Instructor (ESL), INTO OSU Program
Degrees:
BA, Eastern Washington University, 2006
MA, Eastern Washington University, 2009

Nielsen, Elizabeth 2014, Instructor, History
Degrees:
BA, University of Puget Sound,
MA, Univ of Wisconsin-Madison, 2017
MA, Oregon State University, 2016

Nielsen, Roger 1988, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Arizona, 1976
MS, University of Arizona, 1978
PHD, Southern Methodist University, 1983

Nielsen, James 1974, Emeritus, College of Business

Niem, Alan 1970, Emeritus, Earth, Ocean & Atmo Sci

Niemeyer, Kyle 2013, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Case Western Reserve Univ, 2009
MS, Case Western Reserve Univ, 2010
PHD, Case Western Reserve Univ, 2013
Nieri, Rachele 2018, Research Associate (Post Doc), North Willamette Exp Sta
Degrees:
BS, Foreign Institution, 2010
MS, Foreign Institution, 2012
PHD, Foreign Institution, 2017

Niess, Margaret 1978, Emeritus, College of Education

Nieto, Javier 2016, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
MPH, Foreign Institution, 1985
MD, Univ Politecnica de Valencia, 1978
PHD, Johns Hopkins University, 1991

Nieukirk, Sharon 1998, Senior Faculty Research Asst II, CIMRS (Inst/Marine Res)
Degrees:
BS, Guilford College, 1981
MS, Oregon State University, 1992

Nigon, Andrew 2016, Instructor, Art
Degrees:
BFA, Minnesota State Univ-Mankato, 2005
MFA, University of South Florida, 2010

Nigussie, Fikru 2015, Assistant Professor (Clinical), Vet Biomedical Science
Degrees:
DVM, Addis Ababa University, 1994
PHD, Texas AM Univ-College Station, 2013

Nikolov, Martin 2017, Instructor, Anthropology
Degrees:
BA, Sofia Univ St Kliment Ohridski, 2004
MA, Sofia Univ St Kliment Ohridski, 2005
PHD, Sofia Univ St Kliment Ohridski, 2011

Nishihara, Janet 1981, Director-EOP Educ Opportunities Prgm
Degrees:
BS, Oregon State University, 1978
MED, Oregon State University, 1983
PHD, University of Oregon, 2002

Nixon, Jessica 2015, Faculty Research Assistant, Genome Research/Biocomp
Degrees:
BS, University of Washington, 2012

Noakes, David 2005, Professor, Fisheries and Wildlife
Degrees:
BS, University of Western Ontario, 1968
MS, University of Western Ontario, 1966
PHD, Univ of California-Berkeley, 1971

Noble, Brie 2012, Senior Faculty Research Asst I, Pharmacy
Degrees:
BS, Arizona State University, 2004

Nolan, Mary 2006, Senior Instructor I, Anthropology
Degrees:
BA, Oregon State University, 1992
MA, Oregon State University, 1994

Nolan, Mary 1973, Emeritus, Earth, Ocean & Atmo Sci

Nolin, Anne 2002, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, University of Arizona, 1980
MS, University of Arizona, 1987
PHD, Univ of Cal-Santa Barbara, 1993

Noller, Jay 2000, Professor, Crop and Soil Science, Department Head
Degrees:
BS, Cal State Univ-Los Angeles, 1982
MS, Cal State Univ-Los Angeles, 1984
PHD, Univ of Colorado-Boulder, 1993

Nonogaki, Hiroyuki 2000, Associate Professor, Horticulture
Degrees:
BS, Yokohama National University, 1986
PHD, Tokyo University Agri Tech, 1996

Nonogaki, Mariko 2011, Faculty Research Assistant, Horticulture
Degrees:
BS, Oregon State University, 2008

Noone, David 2014, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Foreign Institution, 1996
PHD, Foreign Institution, 2001

Norcross, Emily 2011, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
MA, Univ of N Carolina-Chapel Hill, 2003

Norcross, Marc 2011, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Boston University, 2001
MA, Univ of N Carolina-Chapel Hill, 2003
PHD, Univ of N Carolina-Chapel Hill, 2011

Norris, Lauren 2015, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BS, Portland State University, 2013
MS, Oregon State University, 2017

Norris, Logan 1962, Emeritus, Forest Ecosyst & Society

Northcraft, Martin 1955, Emeritus, Sch of Civil/Constr Engr

Northway, Shanna 2001, Assistant Professor (Practice), Ext Grant County Office
Degrees:
BS, Oregon State University, 2005
MS, Oregon State University, 2006

Novak, Mark 2002, Assistant Professor, Integrative Biology
Degrees:
BA, Cornell University-Ithaca, 2000
PHD, University of Chicago, 2008

Noxel, Sherri 2007, Director-AFBP, College of Business
Degrees:
BS, University of Florida, 1985
MS, University of Florida, 1987
PHD, The Ohio State Univ Main, 2000

Nyarko, Afua 2004, Assistant Professor, Biochem/Biophysics
Degrees:
BS, Foreign Institution, 1991
PHD, Ohio University-Main Campus, 2005

Nye, Mary 1994, Emeritus, History

Nye, Robert 1994, Emeritus, History

Nyman, Matthew 2012, Instructor, College of Education
Degrees:
BS, University of Vermont, 1983
MA, SUNY-Binghamton, 1988
PHD, Virginia Polytechnic Institute, 1992

Nyman, May 2012, Instructor, College of Education
Degrees:
BS, University of Vermont, 1983
MA, SUNY-Binghamton, 1988
PHD, Virginia Polytechnic Institute, 1992

O'Brien, Timothy 2018, Faculty Research Assistant, Earth, Ocean & Atmo Sci

O'Connor, Cameron 2017, Instructor, Music
Degrees:
BMUS, Cal State Univ-Los Angeles, 2009
MM, The Juilliard School, 2011

O'Rourke, Amie 2013, Instructor, Child Development Lab
Degrees:
BS, Oregon State University, 2002

Oakley, Lisa 2007, Research Associate (Post Doc), Public Hlth/HumanSci Adm
Degrees:
BA, Willamette University, 2004
MPH, Oregon State University, 2009
PHD, Emory University, 2015

Obermire, Kara 2016, Assistant Professor, College of Business
Degrees:
BS, University of Montana, 2004
MBAA, University of Montana, 2005
PHD, Univ of Wisconsin-Madison, 2016

Ocamb, Cynthia 1997, Associate Professor, Ag Botany/Plant Path
Degrees:
MS, Univ of N Dakota-Main Campus, 1986
PHD, U of Minnesota-Central Offices, 1991

Ochoa, Carlos 2013, Assistant Professor, Animal & Rnglnd Sciences
Degrees:
BS, Foreign Institution, 1993
MS, New Mexico St Univ-Main, 2002
PHD, New Mexico St Univ-Main, 2011

O'Connell, Steven 2009, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, University of Georgia, 2004
MS, College of Charleston, 2009
PHD, Oregon State University, 2014

Odden, Michelle 2011, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Northwestern University, 2000
MS, Univ of California-Berkeley, 2006
PHD, Univ of California-Berkeley, 2009

Oester, Paul 1979, Emeritus, Forest Ecosyst & Society

OHanlon, Sam 2014, Instructor, Sch of Psychological Sci
Degrees:
BS, Univ of Cal-Santa Barbara, 2007
MA, Univ of Hawaii at Manoa, 2012
PHD, Univ of Hawaii at Manoa, 2014

OHara, Linda 2003, Instructor, Sch Elect Engr/Comp Sci
Degrees:
MS, University of Oregon, 1998

Oka, Kayleen 2016, Instructor, Graduate School Admin
Degrees:
BA, Carleton University, 1997
MA, Unknown College, 1998
PHD, University of Toronto, 2007

OLaughlin, Matthew 2005, Instructor, Sch of Psychological Sci
Degrees:
BA, Marquette University, 1995
MS, University of Oregon, 1997
PHD, University of Oregon, 2000

Oldfield, James 1951, Emeritus, Animal & Rnglnd Sciences

Olen, Beau 2010, Faculty Research Assistant, Applied Economics,
Instructor, Economics
Degrees:
BS, Univ of California-Davis, 2010
MS, Oregon State University, 2012

Olivier, Amelie 2015, Instructor, World Languag & Cultures
Degrees:
BA, Universite Paris-Sorbonne,

Olsen, Christine 2001, Instructor, Forest Ecosyst & Society
Degrees:
BA, University of Virginia, 1999
MS, Oregon State University, 2003
PHD, Oregon State University, 2008

Olsen, Keith 1999, Senior Faculty Research AsstlI, Forest Ecosyst & Society
Degrees:
BS, Oregon State University, 1995

Olsen, Michael 2009, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, University of Utah, 2004
MS, University of Utah, 2005
DENG, Univ of California-San Diego, 2009

Olsen, Eldon 1979, Emeritus, Forest Eng/Resources/Mgmt

Olson, Dawn 2009, Faculty Research Assistant, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Oregon State University, 1990

Olson, Keith 2013, Faculty Research Assistant, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Oregon Inst of Technology, 1991
BS, Portland State University, 2009
MS, Portland State University, 2012

Olson, Rebecca 2008, Associate Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Boston University, 2000
MA, Brandeis University, 2003
PHD, Brandeis University, 2008

Olson, Geraldine 1975, Emeritus, Sch of Soc/Bhav Hlth Sci

Olson, Robert 1968, Emeritus, Fisheries and Wildlife

Olstad, Andrew 2005, Senior Instructor I, College of Business
Degrees:
BS, Harvey Mudd College, 2000
MS, Oregon State University, 2011

Olvera, Monica 2009, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Oregon State University, 2003
MA, Oregon State University, 2006
PHD, Oregon State University, 2016

Olyaei, Ali 1999, Professor, Pharmacy
Degrees:
BS, Oregon State University, 1988
D PHAR, Univ of Kansas Medical Center, 1991

OMalley, Kathleen 2002, Associate Professor, COMES - Newport Exp Sta
Degrees:
BS, Florida State University, 1999
MS, University of Guelph, 2001
PHD, Oregon State University, 2007

OMalley, Robert 1986, Senior Faculty Research AsstI, Ag Botany/Plant Path
Degrees:
BS, University of Puget Sound, 1979
MS, University of Washington, 1981

OMalley, Michael 2000, Senior Instructor I, College of Education
Degrees:
MED, Harvard University, 1990

OMalley, Nell 1998, Senior Instructor I, College of Education
Degrees:
BA, Northeastern University, 1983
MA, Oregon State University, 1992

Omoto, Kiki 2011, Instructor, Child Development Lab
Degrees:
BS, Oregon State University, 2013

ONeil, Shawn 2012, Senior Faculty Research Asst I, Ctr Excellnce Genome Res
Degrees:
BS, Northern Michigan University, 2005
MS, University of Notre Dame, 2009
PHD, University of Notre Dame, 2012

ONeil, Gregory 2017, Professor (Practice), North Willamette Exp Sta
Degrees:
MS, Foreign Institution, 1992

O'Neill, Larry 2000, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Davis, 2000
PHD, Oregon State University, 2007

Orben, Rachael 2015, Research Associate (Post Doc), Hatfield Marine Sci Ctr
Degrees:
BS, Cornell University-Ithaca, 2002
PHD, Univ of California-Santa Cruz, 2014

O'Reilly, Kathy 2007, Associate Professor (Clinical), Vet Biomedical Science
Degrees:
BS, University of Wyoming, 1977
MS, University of Wyoming, 1982
PHD, Univ of Wisconsin-Madison, 1989

Oriard, Michael 1976, Emeritus, Sch of Wrtg Lit & Film

Orosco, Joseph 2001, Associate Professor, Philosophy
Degrees:
BA, Reed College, 1992
MA, Univ of California-Riverside, 1995
PHD, Univ of California-Riverside, 2002

Or, Matthew 2011, Assistant Professor, Acad Prog/Student Aff, Integrative Biology
Degrees:
PHD, Univ of California-Davis, 1994

Ortiz, Steven 2000, Associate Professor, Sociology
Degrees:
BA, Univ of Cal-Santa Barbara, 1976
MA, Cal State Univ-Fullerton, 1983
MS, Cal State Univ-Long Beach, 1979
PHD, Univ of California-Berkeley, 1994

Orum, Chris 1999, Instructor, Mathematics
Degrees:
BA, University of Oregon, 1982
PHD, Oregon State University, 2004

Orzech, Miriam 1968, Emeritus, The SMILE Program

Osagie, Iyunolu 2017, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Ife, 1983
MA, Cornell University, 1990
PHD, Cornell University, 1992

Osborne, James 2006, Associate Professor, Food Science and Techno
Degrees:
BS, Massey University, 1998
MS, Massey University, 2000
PHD, Washington State University, 2005

Osborne, Michael 2008, Professor, History
Degrees:
BS, Oregon State University, 1971
MS, Oregon State University, 1974
PHD, Univ of Wisconsin-Madison, 1987
Osborne, Judith 1991, Emeritus, College of Education
Osborne, Owen 1990, Emeritus, Extension Service Admin
Oscar, Breland 2011, Instructor, Chemistry
Degrees:
BS, University of the South, 2011
Osei-Kofi, Nana 2013, Associate Professor, Women/Gendr/Sxlt Studies
Degrees:
PHD, Claremont Graduate University, 2003
Osis, Vicki 1968, Emeritus, Fisheries and Wildlife
Ossianer, Mina 1988, Professor, Mathematics
Degrees:
BA, University of Washington, 1978
MS, University of Washington, 1982
PHD, University of Washington, 1985
Osterloh, Kevin 2014, Assistant Professor, History
Degrees:
BA, The Ohio State Univ Main, 1996
MA, New York University, 2000
PHD, Princeton University, 2007
Ostroverkhova, Oksana 2005, Associate Professor, Physics
Degrees:
BS, Taras Shevchenko Natl Univ, 1996
PHD, Case Western Reserve Univ, 2001
Ozkan-Haller, Tuba 2001, Assoc Dean-Research & Fac Adv, Earth, Ocean & Atmo Sci, Professor
Degrees:
BS, Bogazici Universitesi, 1991
MOCE, University of Delaware, 1994
PHD, University of Delaware, 1998
Page, Gerald 2017, Research Associate (Post Doc), Forest Ecosyst & Society
Degrees:
BS, Univ of Western Australia, 2004
PHD, Univ of Western Australia, 2014
Pahl, Janet 1976, Emeritus, EXT Fam/CommHlth OnCmps
Degrees:
BA, Rice University, 1982
MS, Evergreen State College, 2007
PHD, Oregon State University, 2013
Palacios, Angela 2002, Senior Instructor I, World Languag & Cultures
Degrees:
BA, Universidad de los Andes, 1993
BA, Foreign Institution, 1995
MS, Western Oregon University, 2006
Palacios, Daniel 2003, Assistant Professor (Sr Res), Marine Mammal Institute
Degrees:
BS, Univ de Bogota Jorge T Lozano, 1994
PHD, Oregon State University, 2003
Palmer, Amy 2007, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BS, Oregon State University, 2008
Palmer, Camille 2007, Associate Professor, Sch Nuclear Sci & Engr
Degrees:
BS, Oregon State University, 1997
MS, Univ of Cincinnati Main, 1999
PHD, Univ of Cincinnati Main, 2003
Palmer, Randall 2017, Instructor, College of Business
Degrees:
BA, Univ of California-Davis, 1979
MBA, Univ of California-Los Angeles, 1987
Palmer, Todd 1995, Associate School Head, Sch Nuclear Sci & Engr
Professor
Degrees:
BS, Oregon State University, 1987
MS, Univ of Michigan-Ann Arbor, 1988
PHD, Univ of Michigan-Ann Arbor, 1993
Pancake, Cherri 1992, Emeritus, Sch Elect Engr/Comp Sci
Pandelova, Iovanna 1992, Research Associate, Horticulture
Degrees:
BS, Moscow State University, 1985
PHD, Moscow State University, 1991
Pang, Yin Yuin 2017, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
MS, National Chung-Cheng Univ, 2008
Pantula, Sastry 2013, Professor, Statistics (Science)
Degrees:
BS, Indian Veterinary Research Ins, 1978
MS, Indian Veterinary Research Ins, 1979
PHD, Iowa State University, 1982
Paoletti, David 2005, Senior Instructor I, Fisheries and Wildlife
Degrees:
Pape-Christiansen, Andrea 2016, Instructor, Acad Prog/Student Aff
Degrees: MAG, Oregon State University, 1991

Parham-Mocello, Jennifer 2011, Senior Instructor I, Sch Elect Engr/Comp Sci
Degrees: BS, Appalachian State University, 1999
MS, University of Montana, 2003
PHD, North Carolina State Univ, 1985

Park, Jae 1992, Professor, COMES - Astoria
Degrees: BS, Konkuk University, 1980
MS, The Ohio State Univ Main, 1982
PHD, North Carolina State Univ, 1985

Park, Jihye 2015, Assistant Professor, Sch of Civil/Constr Engr
Degrees: MS, The Ohio State Univ Main, 2009
MS, Foreign Institution, 2006
PHD, The Ohio State Univ Main, 2012

Park, Si Hong 2017, Assistant Professor, Food Science and Techno
Degrees: BS, Foreign Institution, 2004
MS, Foreign Institution, 2006
PHD, Univ of Arkansas-Fayetteville, 2013

Parke, Jennifer 1997, Professor (Sr Res), Crop and Soil Science
Degrees: BA, Univ of California-Santa Cruz, 1975
PHD, Oregon State University, 1982

Parker, Ashley 2009, Instructor, Sociology
Degrees: MPP, Oregon State University, 2011

Parker, Jill 1991, Associate Professor, Vet Clinical Sciences
Degrees: BA, New College of Florida, 1978
DVM, University of Pennsylvania, 1983

Parker, Nathan 2008, Instructor, Animal & RngInd Sciences
Degrees: BS, Oregon State University, 2012
MS, Oregon State University, 2016

Parker, Robert 2000, Associate Professor, Ext Baker County Office
Degrees: BS, University of Idaho, 1974
MS, Oregon State University, 1994

Parker, Donald 1991, Emeritus, College of Business

Parks, Harold 1977, Emeritus, Mathematics

Parmigiani, John 2004, Associate Professor (Sr Res), Sch of Mech/Ind/ Mfg Engr, Dir-Industrial Relations
Degrees: BS, Penn State Univ-Main Campus, 1987
MS, Penn State Univ-Main Campus, 1997
PHD, Univ of Michigan-Ann Arbor, 2007

Parmigiani, Alena 2003, Associate Professor, Sch Nuclear Sci & Engr

Parnell, Dale 1992, Emeritus, College of Education

Parry, M. 2011, Professor, Sch of Mech/Ind/Mfg Engr
Degrees: BS, Wichita State University, 1985
MS, Arizona State University, 1988
PHD, Penn State Univ-Central Office, 1995

Paulenova, Alena 2003, Associate Professor, Sch Nuclear Sci & Engr
Pauls, Jill 1998, Instructor, Music
Degrees:
- MS, Kharkiv State University, 1979
- PHD, Kharkiv State University, 1985

Paulsen, Lenore 1969, Emeritus, Extension Service Prgram

Paulson, Clayton 1971, Emeritus, Earth, Ocean & Atmo Sci

Pavol, Michael 2002, Associate Professor, Sch of Bio/Pop Hlth Sci
Degrees:
- BS, Rensselaer Polytechnic Inst, 1984
- MENG, Rensselaer Polytechnic Inst, 1985
- PHD, The Ohio State Univ Main, 1999

Payet, Jerome 2012, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
- MS, Foreign Institution, 2003
- PHD, University of British Columbia, 2012

Penhallegon, Ross 1983, Emeritus, Horticulture

Penn, John 1972, Emeritus, Vice Prov/Student Aff

Pennington, Jamie 2010, Senior Faculty Research Asst I, Enviro/Molecular Toxic, Faculty Research Assistant, Pharmacy
Degrees:
- BS, Montana State Univ-Northern, 1992

Penn, John 1972, Emeritus, Vice Prov/Student Aff

Pennington, Jamie 2010, Senior Faculty Research Asst I, Enviro/Molecular Toxic, Faculty Research Assistant, Pharmacy
Degrees:
- BS, Montana State Univ-Northern, 1992

Peacock, John 2010, Instructor, College of Business
Degrees:
- BS, Brigham Young University Main, 1994
- MS, Brigham Young University Main, 1994

Pearce, Stuart 2011, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
- BS, Auburn University Main Campus, 2005
- MS, Texas AM Univ-College Station, 2011

Pearcy, William 1960, Emeritus, Earth, Ocean & Atmo Sci

Pearson, Erwin 1982, Emeritus, Veterinary Medicine

Pearson, George 1971, Emeritus, Biochem/Biophysics

Pease, James 1972, Emeritus, Earth, Ocean & Atmo Sci

Peckham, Charles 1965, Emeritus, Printing & Mailing Svcs

Peltonaki, Kiri 2004, Associate Professor, Art
Degrees:
- BFA, Fine Arts Academy of Finland, 1993
- MFA, Cal Institute of Arts, 1996
- MA, University of Rochester, 2000
- PHD, University of Rochester, 2002

Pence, Deborah 1998, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
- BS, Clemson University, 1990
- MS, Clemson University, 1992
- PHD, Clemson University, 1995

Pepe, Philip 2013, Instructor, Integrative Biology
Degrees:
- BS, SUNY-Stony Brook, 1975
- MS, Univ of Southern California, 1981
- PHD, Univ of Southern California, 1983

Penn, John 1972, Emeritus, Vice Prov/Student Aff

Pennington, Jamie 2010, Senior Faculty Research Asst I, Enviro/Molecular Toxic, Faculty Research Assistant, Pharmacy
Degrees:
- BS, Montana State Univ-Northern, 1992

Peremyslov, Valera 1994, Senior Faculty Research AsstII, Ag Botany/Plant Path
Degrees:
- MS, Novosibirsk State Univ, 1983

Peremyslova, Ekaterina 2008, Faculty Research Assistant, Integrative Biology
Degrees:
- MS, Novosibirsk State Univ, 1985

Perez, Melinda 2005, Instructor, College of Business
Degrees:
- BS, San Jose State University, 1981
- MBA, Golden Gate University, 1985

Perez, Viviana 2011, Associate Professor, Biochem/Biophysics
Degrees:
- PHD, Universidad de Chile, 2004

PerezHerbison, Josean 2011, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
- BA, Oregon State University, 2013

Perkins, Cory 2014, Research Associate (Post Doc), Chemistry
Degrees:
- BS, Western Oregon University, 2009
- PHD, Oklahoma State Univ-Main, 2012

Perle, Maeve 2008, Instructor, Acad Prog/Student Aff
Degrees:
- BS, Univ of Dublin Trinity College, 1992
- MS, Unknown College 10, 1995

Perry, Rebekah 2015, Instructor, Art
Degrees:
- BA, Brigham Young University Main, 1996
MA, Univ of Mass-Amherst, 2006
PHD, University of Pittsburgh Centr, 2011

**Perry, David** 1977, Emeritus, Forest Ecosyst & Society

**Perry, Gregory** 1986, Emeritus, Applied Economics

**Pestana, Catarina** 2013, Instructor, Sch of Civil/Constr Engr

Degrees:
MS, San Diego State University, 2011
PHD, Oregon State University, 2016

**Peszynska, Malgorzata** 2003, Professor, Mathematics

Degrees:
MS, Warsaw Univ of Technology, 1986
PHD, Univ of Augsburg, 1992

**Peters, Marinda** 2016, Instructor, College of Education

Degrees:
BA, Pacific University, 2005
MA, Pacific University, 2007

**Peters, Patrick** 2001, Instructor, Sch of Wrtg Lit & Film

Degrees:
BS, Oregon State University, 2001
MFA, Oregon State University, 2003

**Peters, Jean** 1958, Emeritus, Public Hlth/HumanSci Adm

**Peters, Kurt** 1996, Emeritus, Ethnic Studies

**Petersen, Ann** 2015, Instructor, Acad Prog/Student Aff

Degrees:
PHD, Univ of Colorado-Boulder, 2008

**Petersen, Christoffer** 1995, Senior Faculty Research Asst I, Library

Degrees:
BS, Oregon State University, 1999

**Peterson, Ebba** 2006, Research Associate (Post Doc), Ag Botany/Plant Path

Degrees:
BS, Univ of California-Santa Cruz, 2005
MS, Oregon State University, 2009
PHD, Oregon State University, 2011

**Peterson, Matthew** 2008, Senior Faculty Research Asst I, Ctr Excellnce Genome Res

Degrees:
BS, Univ of Wisconsin-Madison, 1999
MS, University of Oregon, 2014

**Peterson, Scott** 2000, Senior Instructor II, Mathematics

Degrees:
BS, University of Sioux Falls, 1982
MS, Utah State University, 1986

**Petro, Vanessa** 2010, Faculty Research Assistant, Forest Ecosyst & Society

Degrees:
MS, Oregon State University, 2013

**Petsche, Clayton** 2011, Associate Professor, Mathematics

Degrees:
BS, Virginia Polytechnic Institute, 1998

PHD, Univ of Texas-Austin, 2003

**Pett-Ridge, Julie** 2009, Associate Professor, Crop and Soil Science

Degrees:
BA, Dartmouth College, 1997
PHD, Cornell University-Ithaca, 2007

**Petzel, Florence** 1960, Emeritus, College of Business

**Pflugfelder, Ehren** 2012, Assistant Professor, Sch of Wrtg Lit & Film

Degrees:
BS, Slippery Rock Univ of Penn, 2001
MA, Case Western Reserve Univ, 2005
PHD, Purdue University Main Campus, 2012

**Phelps, Rick** 2018, Instructor, Acad Prog/Student Aff

**Phelps, David** 1965, Emeritus, Sch of Soc/Bhav Hlth Sci

**Philbrick, David** 1983, Emeritus, Public Hlth/HumanSci Adm

**Philipp, Kurt** 1963, Emeritus, History

**Phillips, Miles** 2016, Associate Professor (Practice), Ext Coos County Office

Degrees:
MS, West Virginia University, 1999

**Phillips, Robert** 1957, Emeritus, Liberal Arts Admin

**Philmus, Benjamin** 2013, Assistant Professor, Pharmacy

Degrees:
BS, Long Island Univ-Southampton, 1999
MS, Hawaii Pacific University, 2006
PHD, Hawaii Pacific University, 2009

**Phipps, Wanda** 1968, Emeritus, Extension Service Prgram

**Pierce, Brett** 2014, Faculty Research Assistant, Forest Ecosyst & Society

Degrees:
BS, Oregon State University, 2016

**Pierce, Stephen** 1988, Research Associate, Earth, Ocean & Atmo Sci

Degrees:
BS, Tufts University, 1984
MS, Massachusetts Inst of Technolo, 1987
PHD, Oregon State University, 1998

**Pierce, Donald** 1966, Emeritus, Statistics (Science)

**Pileggi, Margaret** 2018, Instructor, College of Education

Degrees:
BA, Oregon State University, 1985
MA, Portland State University, 1999

**Pirelli, Gene** 1979, Professor, Ext Polk County Office

Degrees:
BS, Oregon State University, 1977
MS, Oregon State University, 1979

**Pisias, Nicklas** 1981, Emeritus, Earth, Ocean & Atmo Sci

**Pitcher, Erich** 2016, Instructor, College of Education

Degrees:
BA, Antioch University, 2006
MS, Univ of Wisconsin-Madison, 2012
PHD, Michigan State University, 2016

Pittman, Randall 2011, Faculty Research Assistant, Sch of Civil/Constr Engr
Degrees:
BS, Grove City College, 2007

Pitts, G 2009, Faculty Research Assistant, Forest Ecosys & Society
Degrees:
BS, Cal State Univ-Stanislaus, 1973
MS, Oregon State University, 1979

Plant, Thomas 1978, Emeritus, Sch Elect Engr/Comp Sci

Plants, Constance 1960, Emeritus, Public Hlth/HumanSci Adm

Platt, Carolyn 2005, Senior Instructor I, Acad Prog/Student Aff
Degrees:
BA, Occidental College, 1976
MA, Stanford University, 1984
PHD, Stanford University, 1989

Plaza, Dwaine 1997, Professor, Sociology
Degrees:
BA, York Universite, 1987
MS, York Universite, 1990
PHD, York Universite, 1996

Plaza, Lauren 2007, Instructor, Sociology
Degrees:
MS, Oregon State University, 2011

Pohjanpelo, Petri 1989, Professor, Mathematics
Degrees:
PHD, Univ of Minnesota-Twin Cities, 1989

Poirson, Brittany 2015, Faculty Research Assistant, Integrative Biology
Degrees:
BS, Western Washington University, 2007
MS, Unknown College, 2014

Poling, Dow 1963, Emeritus, Sch of Bio/Pop Hlth Sci

Politano, Kristin 2010, Faculty Research Assistant, Integrative Biology
Degrees:
BS, Florida State University, 2005
MS, University of Florida, 2008

Politano, Vincent 2010, Coordinator-IACUC, VP for Research
Degrees:
MS, University of Florida, 2008

Polizzi, Stephanie 2005, Senior Instructor I, Ext Coos County Office
Degrees:
BS, SUNY College-Cortland, 1979
MPH, Loma Linda University, 1996

Pollard, Christine 2011, Associate Professor, Acad Prog/Student Aff, Sch of Bio/Pop Hlth Sci
Degrees:
BA, Azusa Pacific University, 1991
MS, Pacific University, 1998
PHD, Univ of Mass-Amherst, 2003

Poole, Arthur 1975, Emeritus, Horticulture Extension

Poppino, Richard 1995, Emeritus, Music

Porrovecchio, Mark 2006, Associate Professor, Speech Communication
Degrees:
BA, Carroll College, 1995
MA, Oregon State University, 1997
PHD, Univ of Pittsburgh-Main Campus, 2006

Porter, David 2001, Associate School Head, Sch of Mech/Ind/Mfg Engr
Professor
Degrees:
MS, Univ of Pittsburgh-Main Campus, 1999
MS, ITESM Monterrey, 1994
PHD, Univ of Pittsburgh-Main Campus, 2000

Porter, Shelby 2014, Faculty Research Assistant, Ag Botany/Plant Path

Powelson, Mary 1968, Emeritus, Ag Botany/Plant Path

Powers, Matthew 2013, Instructor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Ball State University, 2002
MS, Michigan Technological Univ, 2005
PHD, Michigan Technological Univ, 2008

Prahl, Fredrick 1984, Emeritus, Earth, Ocean & Atmo Sci

Pratt, Clara 1978, Emeritus, Sch of Soc/Bhav Hlth Sci

Preece, Justin 2010, Senior Faculty Research Asst I, Ag Botany/Plant Path
Degrees:
BA, Southern Methodist University, 1998
MA, Southern Methodist University, 2006

Presley, Rick 2003, Faculty Research Assistant, Sch Elect Engr/Comp Sci
Degrees:
BS, Oregon State University, 2001
MS, Oregon State University, 2006

Prevenas, Paul 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, Northern Illinois University, 1973
MED, Northern Illinois University, 1974
PHD, Univ of Wisconsin-Madison, 1994

Price, Jennifer 2012, Instructor (ESL), INTO OSU Program
Degrees:
BA, Univ of Cal-Santa Barbara, 1998
MA, Univ of Leeds, 2010

Price, Lisa 2011, Professor, Anthropology
Degrees:
BA, University of Oregon, 1984
MA, University of Kentucky, 1987
PHD, University of Oregon, 1993

Pritchett, Larry 2005, Senior Faculty Research Asst I, Columbia Basin Exp Sta
Degrees:
BS, University of Idaho, 1985

Pritchett, Harold 1957, Emeritus, Sch of Civil/Constr Engr

Proebsting, William 1980, Emeritus, Horticulture
Proteau, Philip 1991, Associate Professor, Pharmacy
Degrees:
BS, University of Washington, 1985
MS, Cal Institute of Tech, 1989
PHD, Oregon State University, 1993

Prueitt, Michael 2016, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, Western Carolina University, 1992
MA, Fairleigh Dickinson U-Madison, 2004
PHD, Univ of Missouri-Columbia, 2008

Pscheidt, Jay 1988, Professor, Ag Botany/Plant Path
Degrees:
BS, Univ of Wisconsin-Madison, 1980
MS, Univ of Wisconsin-Madison, 1983
PHD, Univ of Wisconsin-Madison, 1985

Puettmann, Klaus 2000, Professor, Forest Ecosyst & Society
Degrees:
PHD, Oregon State University, 1990

Pugatch, Todd 2011, Associate Professor, Economics
Degrees:
MA, Univ of Michigan-Ann Arbor, 2003
PHD, Univ of Michigan-Ann Arbor, 2011

Pumphrey, Floyd 1957, Emeritus, Columbia Basin Exp Sta

Punches, John 1994, Associate Professor, Ext Douglas County Offc, Regional Administrator, Extension Service Admin
Degrees:
BS, Michigan Technological Univ, 1990
MS, Virginia Polytechnic Institute, 1993

Putnam, Melodie 1993, Senior Instructor II, Ag Botany/Plant Path
Degrees:
BS, Oregon State University, 1981
MS, Univ of Wisconsin-Madison, 1984

Puttachary, Sreekanth 2017, Assistant Professor, Vet Biomedical Science
Degrees:
MS, Foreign Institution, 2005
MS, Unknown College, 2005
DVM, Foreign Institution, 2002
PHD, Iowa State University, 2012

Pyatt, Rene 2017, Instructor, College of Education
Degrees:
BS, Portland State University, 2001
MAT, George Fox University, 2003

Pyles, Marvin 1981, Emeritus, Forest Eng/Resources/Mgmt

Qi, Zhongang 2016, Research Associate (Post Doc), Sch Elect Engr/Comp Sci
Degrees:
BS, Zhejiang University, 2008
PHD, Zhejiang University, 2013

Qian, Michael 2001, Professor, Food Science and Techno
Degrees:
BS, Wuhan University, 1982

Qian, Yan Ping 2001, Assistant Professor (Sr Res), Crop and Soil Science
Degrees:
BS, Huazhong Agricultural Univ, 1987
MS, Univ of Illinois at Urbana-Cha, 1992
MBA, Metropolitan State University, 1999
PHD, Univ of Minnesota-Twin Cities, 1995

Qin, Ruijun 2016, Assistant Professor, Ext Umatilla - Hermiston
Degrees:
BS, Shanxi Agricultural Univ, 1992
MS, Chinese Acad of Agri Sciences, 1995
PHD, Swiss Federal Inst of Tech, 2003

Qiu, Weihong 2013, Assistant Professor, Physics
Degrees:
PHD, The Ohio State Univ Main, 2008

Qu, Yunyao 2016, Faculty Research Assistant, Sch Elect/Comp Sci
Degrees:
BS, Univ of California-Davis, 2016

Quick, Covie 2015, Instructor, College of Education
Degrees:
BS, Oregon State University, 1983
MED, Univ of Missouri-Columbia, 2014

Quick, Devon 2001, Senior Instructor I, Integrative Biology
Degrees:
BS, Tufts University, 1999
PHD, Oregon State University, 2009

R

Rackham, Robert 1971, Emeritus, Extension Service Program

Radke, Brent 2017, Faculty Research Assistant, Food Science and Technology

Radniecki, Tyler 2005, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Bemidji State University, 1999
MS, Yale University, 2001
PHD, Yale University, 2005

Radosевич, Steven 1983, Emeritus, Forest Ecosyst & Society

Rahe, Mallory 2009, Instructor, Applied Econ Extension
Degrees:
BS, Univ of Illinois at Urbana-Cha, 2006
MS, Univ of Illinois at Urbana-Cha, 2009

Raich, Raviv 2007, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Tel Aviv University, 1994
MS, Tel Aviv University, 1998
PHD, Georgia Institute of Technolog, 2004

Raja, Venkataramani 1998, Senior Instructor I, College of Business
Degrees:
BS, Loyola College, 1986
MS, Indian Institute of Technology, 1989
PHD, Washington State University, 1998

Rajagopal, Indira 1989, Senior Instructor II, Biochem/Biophysics
Read, Marilyn 2005, Associate Professor, College of Business
Degrees:
BS, Cal State Univ-Northridge, 1988
MA, Cal State Univ-Long Beach, 1992
PHD, Oregon State University, 1996

Ream, Lloyd 1988, Professor, Microbiology (Ag)
Degrees:
BA, Vanderbilt University, 1975
PHD, Univ of California-Berkeley, 1981

Reardon, Patrick 2001, Director-NMR Facility, NMR Facility
Degrees:
BS, Oregon State University, 2001
PHD, Duke University, 2011

Reason, Dana 2008, Instructor, Music
Degrees:
BMUS, McGill University, 1992
MA, Mills College, 1997
PHD, Univ of California-San Diego, 2002

Rebman, Randall 2014, Instructor (ESL), INTO OSU Program
Degrees:
MA, Northern Arizona University, 2013

Redfield, Stephen 2002, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BS, Oregon State University, 2007
MS, Oregon State University, 2010

Reece, Sandy 2013, Instructor, Anthropology
Degrees:
BA, University of Tulsa, 1990
MA, Arizona State University, 1994
PHD, Arizona State University, 2005

Reed, A Scott 1990, Vice Provost-Outreach/Eng/Ext, Extension Service
Admin, Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Michigan State University, 1975
MS, Michigan State University, 1977
PHD, U of Minnesota-Central Offices, 1987

Reed, Lura 2004, Instructor, Acad Prog/Student Aff
Degrees:
BA, Pomona College, 1988
MA, College of Alameda, 1991
PHD, College of Alameda, 1993

Reed, Donald 1962, Emeritus, Biochem/Biophysics

Reed, Gary 1985, Emeritus, College of Ag Admin

Reed, Marjorie 1987, Emeritus, Sch of Psychological Sci

Reehoorn, Jon 2010, Head Coach-Men's Golf, Intercolleg Athletics
Degrees:
BA, Washington State University, 2002
MS, University of Louisville, 2004

Reese, Douglas 2000, Senior Instructor I, Fisheries and Wildlife
Degrees:
BA, Univ of Cal-Santa Barbara, 1992
MS, Western Washington University, 1998
PHD, Oregon State University, 2005

**Reese, George** 2008, Instructor, College of Education

Degrees:
- BA, Miami University-Oxford, 1985
- EDM, Oregon State University, 2007

**Reese, Ryan** 2012, Assistant Professor, Acad Prog/Student Aff, College of Education

Degrees:
- BS, Western Washington University, 2008
- MED, University of Florida, 2010
- PhD, Univ of N Carolina-Greensboro, 2013

**Reese, Steven** 1997, Director, Radiation Center

Degrees:
- BS, Oregon State University, 1991
- PHD, Colorado State University, 1997

**Reeser, Paul** 1994, Senior Faculty Research Asst I, Ag Botany/Plant Path

Degrees:
- BS, Rutgers University-Central Off, 1979
- MS, Univ of Wisconsin-Madison, 1982

**Reeves, Joshua** 2015, Assistant Professor, New Media Communications

Degrees:
- BA, Univ of Colorado-Boulder, 2006
- MA, Carnegie Mellon University, 2010
- MFA, Univ of Colorado-Boulder, 2008
- PhD, North Carolina State Univ, 2013

**Reibach, Jan** 2004, Instructor, Music

**Reibach, Rhonda** 2010, Instructor, Music

**Reimer, Jeffrey** 2005, Professor, Applied Economics

Degrees:
- BS, Univ of Illinois at Urbana-Cha, 1994
- MS, Univ of Illinois at Urbana-Cha, 1999
- PhD, Purdue University Main Campus, 2003

**Reimers, Clare** 2000, Professor, Earth, Ocean & Atmo Sci

Degrees:
- BA, Univ of Virginia-Central Offc, 1976
- MS, Oregon State University, 1978
- PhD, Oregon State University, 1982

**Reinert, David** 1979, Senior Faculty Research Asstll, Earth, Ocean & Atmo Sci

Degrees:
- BS, Oregon State University, 1973

**Reistad, Gordon** 1970, Emeritus, Sch of Mech/Ind/Mfg Engr

**Reitsma, Reindert** 2002, Professor, College of Business

Degrees:
- MS, Catholic University of Nijmege, 1984
- PhD, Catholic University of Nijmege, 1990

**Reitz, Stuart** 2012, Professor, Ext Malheur Co Office

Degrees:
- BS, University of South Alabama, 1985
- MS, Clemson University, 1988
- PhD, Clemson University, 1994

**Remcho, Vincent** 1998, Professor, Chemistry

**Rempel, Hannah** 2000, Librarian, Library

Degrees:
- BA, Eastern Mennonite University, 1997
- MLS, University of Washington, 2006
- MS, Oregon State University, 2003

**Rendón, Dalila** 2016, Research Associate (Post Doc), Horticulture

Degrees:
- BS, Universidad de los Andes, 2007
- MS, Portland State University, 2010
- PhD, Macquarie University, 2016

**Reno, Paul** 1990, Emeritus, Microbiology (Ag)

**Renquist, Stephen** 2000, Associate Professor, Ext Douglas County Offc

Degrees:
- BS, Cal Poly State-San Luis Obispo, 1975
- MS, Cal Poly State-San Luis Obispo, 1976

**Restrepo, Juan** 2014, Professor, Mathematics

Degrees:
- BS, New York University, 1983
- MS, Penn State Univ-Main Campus, 1987
- PhD, Penn State Univ-Main Campus, 1992

**Rettig, Jack** 1961, Emeritus, College of Business

**Rettig, Raymond** 1968, Emeritus, Applied Economics

**Reuter, Ronald** 2003, Associate Professor, Acad Prog/Student Aff, Forest Ecosyst & Society

Degrees:
- BS, Penn State Univ-Main Campus, 1992
- MS, University of Idaho, 1995
- PhD, Univ of Minnesota-Duluth, 1999

**Reyes, Victor** 2011, Instructor (ESL), INTO OSU Program

Degrees:
- BA, Pitzer College, 2003
- MA, San Francisco State University, 2006

**Reyes, Jose Jr** 1987, Emeritus, Sch Nuclear Sci & Engr

**Reynolds, Lorena** 2010, Instructor, Sociology

Degrees:
- BA, Univ of Colorado-Boulder, 1994
- JD, Univ of California-Los Angeles, 1997

**Reynolds, Lorien** 2016, Instructor, Crop and Soil Science

Degrees:
- BS, Humboldt State University, 2005
- PhD, University of Oregon, 2016

**Reynolds-McInlay, Ryann** 2016, Assistant Professor, College of Business

Degrees:
- BS, Penn State Univ-Main Campus, 2004
- MBA, Penn State Univ-Main Campus, 2011
- PhD, Temple University, 2016

**Rhode, Linus** 2000, Head Coach-Women's Soccer, Intercolleg Athletics

Degrees:
Rhodes, Matthew 2016, Instructor, Economics
Degrees:
PHD, Univ of N Carolina-Greensboro, 2013

Ribbink, Dina 2017, Assistant Professor, Acad Prog/Student Aff, College of Business
Degrees:
PHD, Univ of Maryland-College Park, 2010

Ribero, Ana 2016, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BS, University of Florida, 2002
MA, DePaul University, 2011
PHD, University of Arizona, 2016

Rice, James 2005, Faculty Research Assistant, Marine Mammal Institute
Degrees:
BA, University of Vermont, 1988

Rice, Laura 1980, Emeritus, Sch of Wrtg Lit & Film

Richards, Linda 2007, Instructor, History
Degrees:
BS, Southern Oregon University, 1991
MA, Southern Oregon University, 2007
PHD, Oregon State University, 2014

Richardson, Tjodie 1985, Head Advisor, Applied Economics

Richardson, Daryl 1973, Emeritus, Horticulture

Richter, Jennifer 2000, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Indiana University-Bloomington, 1991
MFA, Penn State Univ-Main Campus, 1994

Rickson, Fred 1971, Emeritus, Ag Botany/Plant Path

Riedl, Helmut 1985, Emeritus, Enviro/Molecular Toxic

Rielly, Loretta 1990, Emeritus, Library

Ries, Paul 2013, Instructor, Forest Ecosyst & Society
Degrees:
BS, The Ohio State Univ Main, 1983
MS, The Ohio State Univ Main, 1985
EDD, Carson-Newman College, 2017

Riggiro, Mariapaola 2015, Assistant Professor, Wood Science/Engr
Degrees:
PHD, Foreign Institution, 2007

Riggs, William 1989, Associate Professor, Ext Klamath Co Office,
Regional Administrator, Extension Service Admin, Director, Klamath Basin Res&ExtCtr
Degrees:
BS, New Mexico St Univ-Main, 1987
MS, New Mexico St Univ-Main, 1989

Righetti, Timothy 1983, Emeritus, Horticulture

Riley, Michael 1996, Asst Coach-Football, Intercolleg Athletics
Degrees:
BS, The Univ of Alabama-Tuscaloosa, 1975

MS, Whitworth University, 1977

Ring, Johanna 2017, Instructor, World Langau & Cultures
Degrees:
MA, Ludwig-Maximillians Universita, 2012

Ring, Ludwig 2017, Research Associate (Post Doc), Food Science and Techno
Degrees:
PHD, Foreign Institution, 2017

Ringle, John 1966, Emeritus, Graduate School Admin, Sch Nuclear Sci & Engr

Ringo, Chris 2012, Senior Faculty Research Asst I, Crop and Soil Science
Degrees:
BA, SUNY College-Potsdam, 1980
MS, Syracuse University-Main Campu, 1984

Ripertolla, Roberta 2016, Professor, EXT Fam/CommHlth OnCmps
Degrees:
MS, Univ of Wisconsin-Madison, 1979
PHD, Univ of Wisconsin-Madison, 1985

Ripple, William 1981, Dir-ERSAL/Distinguished Prof, Forest Ecosyst & Society
Degrees:
BS, South Dakota State University, 1974
MS, Univ of Cape Town, 1998
MS, Univ of Cape Town, 2002
MS, Oregon State University, 2006

Risien, Craig 2003, Senior Faculty Research AsstI, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Berkeley, 2003
MS, Univ of California-Davis,

Ritokova, Gabriela 2012, Faculty Research Assistant, Forest Eng/ Resources/Mgmt
Degrees:
BS, Univ of California-Berkeley, 2003
MS, Univ of California-Davis,

Ritzheimer, Kara 2007, Associate Professor, History
Degrees:
BA, Willamette University, 1997
MA, SUNY-Binghamton, 2000
PHD, SUNY-Binghamton, 2007

Rivera-Mills, Susana 2007, Vice Provost and Dean, VP/Dean Undergrd Studies, Professor, World Langau & Cultures
Degrees:
BA, University of Iowa, 1991
MA, University of Iowa, 1993
PHD, University of New Mexico, 1998

Riverman, Sandra 1990, Instructor (ESL), INTO OSU Program
Degrees:
BA, Oregon State University, 1977
MA, University of Arizona, 1987

Rivers, James 2008, Assistant Professor (Sr Res), Forest Ecosyst & Society
Degrees:
Riverstone, Lyn 1999, Senior Instructor I, Mathematics
Degrees:
MS, Oregon State University, 1996

Rivin, Carol 1984, Emeritus, Ag Botany/Plant Path

Robbins, Scott 1977, Horticulture Farm Manager, Corvallis Farm Unit
Degrees:
BS, Oregon State University, 1975
MS, Oregon State University, 1980

Robbins, William 1970, Emeritus, History

Robe, Carol 1994, Instructor, Music
Degrees:
BA, Cornell University, 1977
MM, University of Oregon, 1978

Robelo, Lucia 2004, Instructor, World Language & Cultures
Degrees:
BA, Oregon State University, 2004
MS, Oregon State University, 2007

Roberson, Daniel 2010, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Cal State Univ-San Marcos, 2010
MPH, Oregon State University, 2014
MS, Oregon State University, 2014

Roberts, Cami 2007, Instructor (PAC), Physical Activity Courses, Instructor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Lewis-Clark State College, 1997
MS, University of Idaho, 2001

Roberts, Heather 2006, Senior Faculty Research Asst I, Forest Ecosyst & Society
Degrees:
BS, University of Oregon, 2001

Roberts, James 2005, Instructor, Speech Communication
Degrees:
BS, Oregon State University, 2005
MA, Oregon State University, 2011

Roberts, Leilani 1989, Emeritus, Philosophy

Roberts, Paul 1966, Emeritus, Integrative Biology

Robertshaw, Brooke 2015, Assistant Professor, Library
Degrees:
BA, Oglethorpe University, 1995
MED, University of Georgia, 1998
PHD, Utah State University, 2013

Robinson, Emily 2016, Faculty Research Assistant, Pharmacy
Degrees:
BA, Reed College, 2012

Robinson, Jonathan 2010, Faculty Research Assistant, Integrative Biology
Degrees:
BA, Univ of Hawaii at Hilo, 2005
MS, Western Washington University, 2009

Robinson, Matthew 2016, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Colorado State University, 2004
MS, Colorado State University, 2007
PHD, Colorado State University, 2011

Robinson, Seri 2013, Assistant Professor, Wood Science/Engr
Degrees:
BS, Northern Michigan University, 2003
MS, Michigan Technological Univ, 2005
PHD, Michigan Technological Univ, 2010

Robinson, William 2002, Arid Ecologist, Fisheries and Wildlife
Degrees:
BA, Southern Illinois U-Carbondale, 1987
MS, Southern Illinois U-Carbondale, 1990
PHD, Univ of Illinois Central Offic, 1998

Robinson, Alan 1966, Emeritus, Sch Nuclear Sci & Engr

Robinson, David 1977, Emeritus, Sch of Wrtg Lit & Film

Robinson, Kay 1970, Emeritus, Admissions

Robson, Charlie 2011, Instructor, Mathematics
Degrees:
BS, Univ of Alaska Anchorage, 2011
PHD, Oregon State University, 2017

Roche, Lauren 2016, Faculty Research Assistant, CIMRS (Inst/Marine Res)
Degrees:
BS, Univ of Cal-Santa Barbara, 2008

Rochefort, Willie 1993, Associate Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of Mass - Central Offices, 1976
MS, Northwestern University, 1978
PHD, Univ of California-San Diego, 1986

Rock, Elizabeth 2001, Instructor, College of Business
Degrees:
BS, Oregon State University, 1983
MBA, Oregon State University, 1990

Rockey, Daniel 1997, Professor, Vet Biomedical Science
Degrees:
BS, University of Washington, 1981
MS, University of Wyoming, 1983
PHD, Oregon State University, 1989

Rockwell, Daniel 2004, Senior Instructor I, Mathematics
Degrees:
BSEE, Southern Oregon University, 2004
MS, Oregon State University, 2007
PHD, Oregon State University, 2011

Rodgers, Chad 2016, Instructor, Theatre
Degrees:
MFA, Univ of N Carolina-Chapel Hill, 2014

Rodgers, Lawrence 2008, Dean, Liberal Arts Admin, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Oklahoma, 1982
MA, University of Iowa, 1984
PHD, Univ of Wisconsin-Madison, 1989

Rodgers, Susan 2008, Associate Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Bowdoin College, 1982
MFA, Bennington College, 2003
MA, Kansas State University, 1987

Rodriguez, Roger 2018, Faculty Research Assistant, Acad Prog/Student Aff

Roerig, Kyle 2011, Faculty Research Assistant, Crop and Soil Science
Degrees:
BS, Utah State University, 2010

Rogers, William 1980, Emeritus, Crop and Soil Science

Rogge, David 1982, Emeritus, Sch of Civil/Constr Engr

Rohlman, Diana 2008, Assistant Professor (Sr Res), Sch of Bio/Pop Hlth Sci
Degrees:
PHD, Oregon State University, 2013

Rohrer, Robert 2011, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BA, Colby College, 2004

Rohrmann, George 1979, Emeritus, Microbiology (Ag)

Rojo, Javier 2017, Professor, Statistics (Science)
Degrees:
PHD, Univ of California-Berkeley, 1984

Rolston, Irene 2004, Senior Instructor I, Anthropology
Degrees:
BA, Oregon State University, 2001
MA, Oregon State University, 2006

Rondon, Silvia 2005, Professor, Hermiston Exp Sta
Degrees:
BS, Univ Nacional Agraria La Molin, 1995
MS, Univ Nacional Agraria La Molin, 1999
PHD, Univ of Illinois at Urbana-Cha, 2002

Rooker, Terry 2013, Instructor, Sch Elect Engr/Comp Sci
Degrees:
MS, OGI Sch of Sci Tech at OHSU, 1990

Root, Elizabeth 2008, Associate Professor, Speech Communication
Degrees:
BA, Bethel University, 1992
MA, Univ of Minnesota-Twin Cities, 1998
PHD, University of New Mexico, 2007

Root, Jon 1969, Emeritus, Extended Campus

Roper, Larry 1995, Professor, Sch Lang, Culture & Soc
Degrees:
BA, Heidelberg University, 1975
MA, Bowling Green State University, 1976

PHD, Univ of Maryland-College Park, 1998

Rorrer, Gregory 1989, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of Michigan-Ann Arbor, 1983
MS, Michigan State University, 1985
PHD, Michigan State University, 1989

Rorrer, Kristin 1998, Academic Advisor, Sch of Arts & Comm
Degrees:
BA, Kalamazoo College, 1983
MS, Michigan State University, 1985

Rose, Ania 2017, Professor, College of Business
Degrees:
BBA, Texas AM Univ-College Station, 1993
MBA, Texas AM Univ-College Station, 1994
PHD, Texas AM Univ-College Station, 1998

Rose, Jake 2017, Professor, College of Business
Degrees:
BBA, Texas AM Univ-College Station, 1993
MS, Texas AM Univ-College Station, 1994
PHD, Texas AM Univ-College Station, 1998

Rose, Jeremy 2007, Instructor, Integrative Biology
Degrees:
BS, Univ of Cal-Santa Barbara, 2007
BA, University of Washington, 1998
PHD, Oregon State University, 2015

Rose, Pamela 1987, Leader-4-H Program, EXT 4-H YouthDev OnCmps, Associate Professor
Degrees:
BS, USE 002997 N Dakota St U, 1983
MS, Univ of Minnesota-Twin Cities, 1987
PHD, Oregon State University, 2009

Roseberg, Richard 1990, Associate Professor, Southern Oregon Exp Sta, Director
Degrees:
BS, Oregon State University, 1980
MS, Oregon State University, 1985
PHD, The Ohio State Univ Main, 1990

Rosenberg, Matthew 2011, Instructor, Speech Communication
Degrees:
BA, Oregon State University, 2011
MAIS, Oregon State University, 2014

Rosenberg, Stacy 2016, Visiting Assistant Professor, Forest Ecosyst & Society
Degrees:
PHD, University of Oregon, 2005

Rosenberger, Randall 2003, Assoc Dean-Undergrad Studies, College of Forestry Adm, Professor, Forest Ecosyst & Society
Degrees:
BA, Slippery Rock Univ of Penn, 1988
MA, Colorado State University, 1992
PHD, Colorado State University, 1996

Rosenberger, Nancy 1988, Emeritus, Anthropology

BS, Colorado State University, 1993
PHD, Oregon State University, 2002

Rudd, Oris 1955, Emeritus, Extension Service Program

Rudd, Walter 1985, Emeritus, Sch Elect Engr/Comp Sci

Rudolph, Jenny 2004, Associate Professor (Practice), Ext Columbia Co Office

Degrees:
BA, University of Oklahoma, 2002
MPA, Portland State University, 2009

Rueck, Kerry 2016, Instructor, College of Education

Degrees:
BA, George Fox University, 1995

Rueck, Scott 2010, Head Coach-Women's Basketball, Intercolleg Athletics

Degrees:
MS, Oregon State University, 1992

Ruggiero, Peter 2006, Professor, Earth, Ocean & Atmo Sci

Degrees:
BS, Lehigh University, 1991
MS, Oregon State University, 1993
PHD, Oregon State University, 1997

Runkel, Sara 2015, Assistant Professor (Practice), Ext Josephine Co Office

Degrees:
BA, Warren Wilson College, 2001
MS, Slippery Rock Univ of Penn, 2009

Rupp, David 1999, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci

Degrees:
BS, University of Arizona, 1991
MS, Northern Arizona University, 1993
PHD, Oregon State University, 2005

Rush, Norm 2016, Instructor, Acad Prog/Student Aff

Degrees:
MA, University of Utah, 1982

Russ-Eft, Darlene 2002, Professor, College of Education

Degrees:
BA, The College of Wooster, 1969
MA, Univ of Michigan-Ann Arbor, 1973
PHD, Univ of Michigan-Ann Arbor, 1974

Russell, Duncan 2014, Assistant Professor (Clinical), Vet Biomedical Science

Degrees:
BVSC, Univ of Glasgow, 2005

Russell, Michael 1998, Faculty Research Assistant, Institute Natrnl Res Dir

Degrees:
BS, Oregon State University, 2000

Russell, Stephanie 2008, Instructor, EXT SNAP-Ed On-Campus

Degrees:
BS, Oregon State University, 2005

Russell, Sterling 1963, Emeritus, Ag Botany/Plant Path

Rust, Stephen 2003, Instructor, Sch of Wrtg Lit & Film

BA, Western Oregon University, 1998
MS, Western Oregon University, 2002

Sand, Megan 1999, Instructor, Music
Degrees:
BS, Oregon State University, 2003

Sanders, Justin 2008, Assistant Professor (Sr Res), Vet Biomedical Science
Degrees:
BS, Central Washington University, 2003
PHD, Oregon State University, 2013

Sanders Jr, Raymond 1967, Emeritus, Counseling Center

Santala, Melissa 2015, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of California-Berkeley, 2003
MS, Univ of California-Berkeley, 2006
PHD, Univ of California-Berkeley, 2009

Santamaria, Luisa 2009, Associate Professor, Ext No Willamette Co Off
Degrees:
BS, Foreign Institution, 1991
MS, University of Delaware, 1996
PHD, University of Delaware, 2007

Santastiero, Ellen 2007, Instructor, Acad Prog/Student Aff
Degrees:
BA, SUNY-Albany, 1983
MFA, Bennington College, 1999

Santelmann, Mary 1988, Associate Professor, Earth, Ocean & Atmo Sci, Director, Water Res.Grad.Prog, Graduate School Admin
Degrees:
BS, Univ of Minnesota-Twin Cities, 1978
MS, Univ of Michigan-Ann Arbor, 1980
PHD, Univ of Minnesota-Twin Cities, 1988

Sapon-White, Richard 1996, Catalog Librarian, Library
Degrees:
BS, University of Toronto, 1977
MPH, Univ of California-Los Angeles, 1979
MLS, Southern Connecticut State Uni, 1989

Sarasohn, Lisa 1978, Emeritus, History

Sarbacker, Stuart 2009, Associate Professor, Philosophy
Degrees:
MA, Univ of Wisconsin-Madison, 1999
MA, Univ of Minnesota-Twin Cities, 1995
PHD, Univ of Wisconsin-Madison, 2001

Sargent, Jennifer 2005, Assistant Professor (Clinical), Vet Biomedical Science
Degrees:
BS, Oregon State University, 2004
DVM, Oregon State University, 2011

Sarker, Mahfuzur 2000, Professor, Vet Biomedical Science
Degrees:
BS, University of Dhaka, 1982
MS, University of Dhaka, 1985
Sarker, Nahid 2001, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BA, University of Dhaka, 1986

Sarma, Anita 2015, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
MS, Univ of California-Irvine, 2002
PHD, Univ of California-Irvine, 2008

SathuvalliRajakalyan, Vidyasagar 2004, Assistant Professor, Hermiston Exp Sta
Degrees:
BS, Tamil Nadu Agricultural Univ, 2002
MS, Oregon State University, 2007
PHD, Oregon State University, 2010

Saugen, John 1964, Emeritus, Sch Elect Engr/Comp Sci

Savage, Thomas 1982, Emeritus, Animal & Rnglnd Sciences

Savonen, Carol 1988, Emeritus, Ag Communications

Saw, Jimmy 2016, Research Associate, Microbiology (Science)
Degrees:
BS, Univ of Hawaii at Manoa, 2002
MS, Univ of Hawaii at Manoa, 2004
PHD, Univ of Hawaii at Manoa, 2012

Sawer, Barbara 1974, Emeritus, Extension 4-H Youth

Sawyer, Teresa 1990, Senior Faculty Research Asst I, College of Science Admin
Degrees:
BS, Oregon State University, 1990

Sayre, Henry 1983, Emeritus, Art

Scaffidi, Christopher 2009, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Univ of Wisconsin-Madison, 1995
MA, Princeton University, 1998
PHD, Carnegie Mellon University, 2009

Scanlan, Michelle 2005, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 2012
BS, Oregon State University, 2005

Scanlan, Michael 1981, Emeritus, Philosophy

Scanlan, Richard 1964, Emeritus, Food Science and Techno, VP for Research

Schachtschneider, Christopher 2016, Assistant Professor (Practice), Ext Umatilla Co Office
Degrees:
BS, University of Idaho, 2009
MS, University of Idaho, 2016

Schafer, Daniel 1982, Emeritus, Statistics (Science)

Schafer, Kay 1994, Emeritus, Liberal Arts Admin, Sch of Psychological Sci

Schauber, Ann 1978, Emeritus, Liberal Arts Admin

Schaup, Henry 1973, Emeritus, Biochem/Biophysics

Scheier, Ryan 2013, Instructor, Acad Prog/Student Aff
Degrees:
BS, Kutztown Univ of Pennsylvania, 2011
MS, Oregon State University, 2016

Schellman, Heidi 2015, Department Head, Physics, Professor
Degrees:
PHD, Univ of California-Berkeley, 1984

Scherr, Melissa 2004, Instructor, Horticulture
Degrees:
BS, Oregon State University, 2005
PHD, Oregon State University, 2010

Scheuermann, Thomas 1990, Instructor, Sch Lang, Culture & Soc
Degrees:
BS, The Ohio State Univ Main, 1976
MA, The Ohio State Univ Main, 1979
JD, Catholic University of America, 1985

Schilke, Kate 2002, Assistant Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Oregon State University, 2003
PHD, Oregon State University, 2009

Schilpzand, Pauline 2011, Associate Professor, College of Business
Degrees:
BBA, Emory University, 1999
MBA, University of Florida, 2004
PHD, University of Florida, 2008

Schimmerlik, Michael 1978, Emeritus, Biochem/Biophysics

Schimleck, Laurence 2012, Professor, Wood Science/Engr
Degrees:
BA, Foreign Institution, 1993
PHD, Foreign Institution, 1997

Schlif, John 2000, Assistant Professor (Clinical), Vet Clinical Sciences
Degrees:
MS, Colorado State University, 1993
DVM, Colorado State University, 1985

Schmittner, Andreas 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Universitat Bremen, 1996
PHD, Univ of Bern, 1999
Schnabel, Joseph 1991, Instructor, Pharmacy
Degrees:
BS, Oregon State University, 1984
PHD, Purdue University Main Campus, 1987

Schneider, Guenter 1993, Associate Professor, Physics
Degrees:
MS, Universitat Stuttgart, 1994
PHD, Oregon State University, 1999

Schneider, Gary 1964, Emeritus, Extension Service Program

Schoolfield, Mary 2014, Faculty Research Assistant, COMES - Newport Exp Sta
Degrees:
BS, Meredith College, 2002

Schori, Richard 1978, Emeritus, Mathematics

Schreder, Peter 2000, Associate Professor, Ext Lake County Office
Degrees:
BS, Oregon State University, 1991
MS, Texas AM Univ-College Station, 1999

Schroeder, Elizabeth 2010, Associate Professor, Economics
Degrees:
PHD, Georgetown University, 2010

Schroeder, Vanessa 2013, Faculty Research Assistant, Ext Haney County Office
Degrees:
BA, Washington University-St Louis, 2011

Schroeder, Jane 1960, Emeritus, Extension Service Program

Schroeder, W Lee 1967, Emeritus, College of Engineering

Schroeder, Walter 1949, Emeritus, Extension Service Program

Schubiger, Carla 2015, Research Associate, Vet Biomedical Science
Degrees:
DVM, Univ of Bern, 2004
PHD, Washington State University, 2015

Schuetz, Rachael 2015, Instructor, Acad Prog/Student Aff
Degrees:
BA, University of Oregon, 2005
MED, University of Oregon, 2006
EDD, University of Oregon, 2016

Schulien, Jennifer 2016, Research Associate, Ag Botany/Plant Path
Degrees:
BA, Univ of Colorado-Boulder, 2006
PHD, Univ of California-Santa Cruz, 2015

Schultz, Adam 2003, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Brown University, 1979
MA, Univ of Cambridge St Edmunds H, 1995
PHD, University of Washington, 1985

Schultz, Dawson 2013, Instructor, Philosophy
Degrees:
PHD, Vanderbilt University, 1983

Schultz, Robert 1962, Professor, Sch of Civil/Constr Engr

Schulze, Mark 2008, Assistant Professor (Sr Res), Forest Ecosyst & Society
Degrees:
BS, Evergreen State College, 1992
PHD, Penn State Univ-Main Campus, 2003

Schuna, John 2014, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Univ of Wisconsin-Eau Claire, 2006
MS, North Dakota St U-Main Campus, 2009
PHD, North Dakota St U-Main Campus, 2012

Schuster, Martin 2005, Associate Professor, Microbiology (Ag)
Degrees:
BS, Univ of Gottingen, Sch of Medi, 1996
PHD, Univ of N Carolina-Chapel Hill, 2000

Schutfort, Julianne 1995, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BA, Cal State Univ-Sacramento, 1988
MS, Clemson University, 1995
MS, Oregon State University, 1998

Schuyler, Michael 1980, Emeritus, Chemistry

Schwalm, Donelle 2012, Research Associate, Fisheries and Wildlife
Degrees:
PHD, Texas Tech University, 2012

Schwartz, Adam 2013, Assistant Professor, World Languag & Cultures
Degrees:
BA, Univ of California-Davis, 2003
MA, Stanford University, 2004
PHD, University of Arizona, 2009

Schwartz, Cynthia 2013, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Bryn Mawr College, 1987
MS, Columbia University-NYC, 1990

Schwartz, Samuel 1996, Instructor, Sch of Wrtg Lit & Film
Degrees:
BA, Oregon State University, 2001
MA, Univ of Tennessee-Knoxville, 2004
PHD, University of Arizona, 2010

Schwartz, Robert 1978, Emeritus, Sch of Wrtg Lit & Film

Scollan, Katherine 2007, Associate Professor, Vet Clinical Sciences
Degrees:
BS, Arizona State University, 2002
DVM, Cornell University-Ithaca, 2006

Scott, Christine 2014, Instructor (ESL), INTO OSU Program
Degrees:
BA, Portland State University, 1996
MA, Unknown College, 2007

Scott, Inara 2012, Assistant Professor, College of Business

Scott, Robert 1962, Professor, Sch of Civil/Constr Engr

Degrees:
BS, Worcester Polytechnic Institut, 1955
MS, Worcester Polytechnic Institut, 1960
Scott, Jeness 2014, Faculty Research Assistant, Central Oregon Exp Sta
Degrees:
BS, Iowa State University, 1998
PhD, Univ of California-Davis, 2008

Scott, Michael 2004, Professor, Sch of Civil/Constr Engr
Degrees:
BS, North Carolina State Univ, 1998
MS, Univ of California-Berkeley, 1999
PhD, Univ of California-Berkeley, 2004

Scott, Richard 2010, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 2013

Scott, Nan 1972, Emeritus, Crop and Soil Science

Scott, Shirley 1988, Emeritus, Library

Scribnor, Keith 2000, Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Vassar College, 1984
MFA, University of Montana, 1991

Seal, Bruce 2014, Instructor, Acad Prog/Student Aff
Degrees:
BS, University of Nevada-Reno, 1974
MS, University of Nevada-Reno, 1978
PhD, University of Nevada-Reno, 1986

Seals, Faith 2014, Instructor, Acad Prog/Student Aff
Degrees:
BED, Northwest Nazarene University, 1985
MCOUN, Oregon State University, 1992

Seavert, Clark 1989, Professor, Applied Economics
Degrees:
BA, College of Southern Idaho, 1985
BS, Oregon State University, 1987
MS, University of Idaho, 1988

Segura, Catalina 2013, Assistant Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Foreign Institution, 1997
MS, University of Washington, 2003
PhD, Univ of Colorado-Boulder, 2008

Seim, Wayne 1968, Emeritus, Fisheries and Wildlife

Sektman, Michaela 2001, Senior Faculty Research Asst I, EXT Fam/CommHlth OnCmps
Degrees:
BS, Oregon State University, 2003
MS, Oregon State University, 2008

Selivonchick, Daniel 1976, Emeritus, Food Science and Techno

Selker, John 1991, Distinguished Professor, Biol & Ecol Engineering
Degrees:
BA, Reed College, 1981
MS, Cornell University, 1989

PhD, Cornell University, 1991

Sellinger, Cynthia 2009, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BS, University of New Orleans, 1978
MS, Univ of Michigan-Ann Arbor, 1994

Selman, Lane 2005, Faculty Research Assistant, Horticulture
Degrees:
BS, University of Florida, 1996
MS, University of Florida, 1998

Semevolos, Stacy 2002, Professor, Vet Clinical Sciences, Assoc Dean Student & Acad Aff, Veterinary Medicine
Degrees:
BA, Cornell University-Ithaca, 1989
MS, Cornell University-Ithaca, 2000
DVM, Univ of Illinois at Urbana-Cha, 1994

Semprini, Lewis 1993, Distinguished Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Univ of California-Berkeley, 1974
MS, Stanford University, 1979
PhD, Stanford University, 1986

Sencer, Burak 2014, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Istanbul University, 2003
MS, University of British Columbia, 2005
PhD, University of British Columbia, 2009

Serdani, Maryna 2003, Senior Faculty Research AsstII, Ag Botany/Plant Path
Degrees:
BS, Univ of Pretoria, 1992
MS, Univ of Stellenbosch, 1998

Servias, David 2009, Instructor, Music
Degrees:
BA, University of Idaho, 2001
MA, Washington State University, 2003

Servias, Lauren 2012, Instructor, Music
Degrees:
MM, University of Oregon, 2012

Sessions, John 1983, Emeritus, Forest Eng/Resources/Mgmt

Degrees:
BS, Univ of Wisconsin-Parkside, 1986
MS, Northwestern University, 1990
PhD, Northwestern University, 1992

Severns, Paul 2002, Research Associate, Ag Botany/Plant Path
Degrees:
BS, University of Oregon, 1998
PhD, Oregon State University, 2009

Seville, Mary 1983, Emeritus, College of Business

Shah, Vidhi 2015, Research Associate (Post Doc), Pharmacy
Shamah, Devora 2002, Instructor, College of Education
Degrees:
BA, Univ of California-San Diego, 1992
MAT, University of Chicago, 1993
PHD, Oregon State University, 2009

Shangmao, AI 2016, Emeritus, Sch of Civil/Constr Engr

Shao, Rong 2016, Assistant Professor, College of Business
Degrees:
BS, Beijing Forestry University, 2009
MS, Georgia State University, 2011
PHD, University of Florida, 2016

Sharp, Kendra 2009, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1993
MENG, Univ of California-Berkeley, 1996
PHD, Univ of California-Berkeley, 2001

Sharpton, Thomas 2002, Assistant Professor, Microbiology (Science)
Degrees:
BS, Oregon State University, 2003
PHD, Univ of California-Berkeley, 2009

Sharrow, Steven 1976, Emeritus, Animal & Rnglnd Sciences

Shaver, Patrick 1995, Instructor, Animal & Rnglnd Sciences
Degrees:
BS, New Mexico St Univ-Main, 1973
PHD, Oregon State University, 2010

Shaw, David 2005, Associate Professor, Forest Eng/Resources/Mgmt
Degrees:
BS, Northern Arizona University, 1977
MS, Western Washington University, 1982
PHD, University of Washington, 1991

Shaw, Susan 1996, Professor, Women/Gendr/Sxlt Studies
Degrees:
MA, Southern Baptist Theological S, 1983
PHD, Southern Baptist Theological S, 1987

Shay, Alan 2008, Instructor, Horticulture
Degrees:
BS, Oregon State University, 1991
MS, Oregon State University, 2010

Shay, Kate 2004, Research Associate, Linus Pauling Institute
Degrees:
BA, Scripps College, 1995
PHD, Washington State University, 2003

Shay, Neil 2010, Professor, Food Science and Techno
Degrees:
PHD, University of Florida, 1990

Shay, Steven 2004, Instructor, History
Degrees:
BA, Montana State Univ-Bozeman, 1991

MA, Washington State University, 2000
PHD, Washington State University, 2008

Shearman, R Kipp 1994, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Colorado System, 1993
PHD, Oregon State University, 2000

Sheehan, Elizabeth 2012, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Yale University, 2002
MA, University of Virginia, 2006
PHD, University of Virginia, 2011

Sheets, Willis 1959, Emeritus, Extension Service Prgram

Shelby, Bo 1976, Emeritus, Forest Ecosyst & Society

Sheldrick, Sarah 2000, Instructor, Speech Communication
Degrees:
BS, Oregon State University, 2006
MA, Oregon State University, 2009

Shell, Karen 2006, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Harvey Mudd College, 1996
PHD, Univ of California-San Diego, 2004

Shellhammer, Thomas 2001, Professor, Food Science and Techno
Degrees:
BS, Univ of California-Davis, 1987
MS, Univ of California-Davis, 1989
PHD, Univ of California-Davis, 1996

Shepard, Jon 2016, Faculty Research Assistant, Integrative Biology
Degrees:
BS, Oregon State University, 1963
MS, Washington State University, 1965

Sherman, Aurora 2007, Associate Professor, Sch of Psychological Sci
Degrees:
BA, Pomona College, 1990
MA, Univ of Michigan-Ann Arbor, 1994
PHD, Univ of Michigan-Ann Arbor, 1997

Sher, Barry 1990, Emeritus, Earth, Ocean & Atmo Sci

Sher, Evelyn 1990, Emeritus, Earth, Ocean & Atmo Sci

Sherwood, Dawn 2007, Instructor, Animal & Rnglnd Sciences
Degrees:
BS, Texas Tech University, 1994
MS, Texas Tech University, 1997
PHD, Univ of Nebraska-Lincoln, 2007

Shibley, Gloria 1965, Emeritus, Extension Service Prgram

Shiel, Alyssa 2014, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Arizona, 2003
BS, Unknown College, 2003
PHD, University of British Columbia, 2010

Shin, Jun Bun 2015, Assistant Professor, Sch of Arts & Comm
Degrees:
BA, Purdue University Main Campus, 2008
Shinderman, Matthew 2004, Senior Instructor I, Acad Prog/Student Aff

Degrees:
BS, James Madison University, 1995
MS, Utah State University, 1999
PHD, Colorado State University, 2003

Shindler, Bruce 1988, Emeritus, Forest Ecosyst & Society

Shirazi, Mehra 1997, Assistant Professor, Women/Gendr/Sxlt Studies

Degrees:
BS, Oregon State University, 1992
MS, Oregon State University, 1996
PHD, Oregon State University, 2005

Shirley, Lindsey 2016, Associate Professor, General Agriculture

Degrees:
BS, Iowa State University, 2001
MED, Univ of Minnesota-Twin Cities, 2002
PHD, Iowa State University, 2007

Shirley, Robert 1967, Emeritus, College of Business-Adm

Shively, Stanley 1970, Emeritus, Sociology

Shock, Clinton 1984, Emeritus, Malheur Exp Sta

Showalter, Ralph 2003, Professor, Mathematics

Degrees:
BS, North Carolina State Univ, 1964
MA, North Carolina State Univ, 1965
PHD, Univ of Illinois at Urbana-Cha, 1968

Shriver, Ann 1986, Instructor, Applied Economics

Degrees:
BS, Georgetown University, 1979
MS, Michigan State University, 1984

Shroyer, Emily 2004, Associate Professor, Earth, Ocean & Atmo Sci

Degrees:
BS, Univ of Alaska Fairbanks, 2000
PHD, Oregon State University, 2009

Shulzhenko, Natalia 2011, Assistant Professor, Vet Biomedical Science

Degrees:
MS, Foreign Institution, 1995
PHD, Foreign Institution, 2002

Shuman, Matthew 2004, Instructor, Sch Elect Engr/Comp Sci

Degrees:
BS, Oregon State University, 2006
MS, Oregon State University, 2008
MBA, Oregon State University, 2013

Shumway, Sallyann 1963, Emeritus, EXT Fam/CommHlth OnCmps

Siddens, Beth 1990, Senior Faculty Research Asst I, Enviro/Molecular Toxic

Degrees:
BS, Oregon State University, 1982

Sidlauskas, Brian 2009, Associate Professor, Fisheries and Wildlife

Degrees:
BA, Cornell University, 1998
MS, University of Chicago, 2003

PHD, University of Chicago, 2006

Siemens, Philip 1988, Emeritus, Physics

Sifneos, Jean 1993, Faculty Research Assistant, Statistics (Ag)

Degrees:
BA, Tulane University, 1980
MS, Oregon State University, 1986

Sikora, Aleksandra 2011, Associate Professor, Pharmacy

Degrees:
MS, Foreign Institution, 1998
PHD, Foreign Institution, 2005

Silverstein, Diane 1999, Instructor, Ext Klamath Co Office

Degrees:
BS, Oregon State University, 1982

Silverstein, Thomas 1996, Faculty Research Assistant, Klamath Basin Res&ExtCtr

Degrees:
BS, Oregon State University, 1986
MS, Oregon State University, 1994

Siler, Cassandra 2017, Instructor, Chemistry

Degrees:
MA, Harvard University, 2014
MS, Harvard University, 2010
PHD, Harvard University, 2004

Siler, Nicholas 2017, Assistant Professor, Earth, Ocean & Atmo Sci

Sillars, David 2002, Emeritus, Sch of Civil/Constr Engr

Simko, Benedict 1978, Emeritus, Crop and Soil Science

Simmons, Amy 2003, Faculty Research Assistant, Forest Eng/Resources/Mgmt

Degrees:
BS, Central Washington University, 2000
MS, Washington State University, 2003

Simmons, Dale 1963, Emeritus, Sch of Psychological Sci

Simon, Cory 2017, Assistant Professor, Sch of Chem/Bio/Envr Eng

Degrees:
BS, University of Akron-Main, 2010
PHD, Univ of California-Berkeley, 2016

Simon-Brown, Viviane 1994, Emeritus, Forest Ecosyst & Society

Simoneit, Bernd 1981, Emeritus, Earth, Ocean & Atmo Sci

Simonicich, Michael 2001, Research Associate, Enviro/Molecular Toxic

Degrees:
BS, Univ of Wisconsin-Green Bay, 1990
MS, Univ of Wisconsin-Green Bay, 1992
PHD, Indiana University-Bloomington, 1996

Simonicich, Staci 2001, Professor, Enviro/Molecular Toxic, Assoc VP, VP for Research

Degrees:
BS, Univ of Wisconsin-Green Bay, 1990
PHD, Indiana University-Bloomington, 1995

Simonsen, John 1990, Professor, Wood Science/Engr
Degrees:
BS, Univ of Missouri-Systems, 1969
PHD, Univ of Colorado System, 1975

Simonson, Gerald 1961, Emeritus, Crop and Soil Science

Singh, Harleen 2002, Associate Professor (Clinical), Pharmacy

Singh, Lakhveer 2017, Research Associate (Post Doc), Biol & Ecol Engineering

Sinha, Arijit 2004, Associate Professor, Wood Science/Engr

Sisley, Etsuko 2014, Instructor, World Langauag & Cultures

Sjogren, Christine 1960, Emeritus, World Language & Cultures

Skog, Ingrid 2007, Senior Instructor I, Sch of Bio/Pop Hlth Sci

Skoog, Ingrid 2007, Senior Instructor I, Sch of Bio/Pop Hlth Sci

Smit, Ellen 2008, Professor, Sch of Bio/Pop Hlth Sci

Smyl, William 2012, Professor, Sch of Mech/Ind/Mfg Engr

Smyly, Janice 1978, Emeritus, Sch of Bio/Pop Hlth Sci

Smyly, Richard 1985, Emeritus, Ag Botany/Plant Path

Smyly, William 1987, Emeritus, College of Education

Skinner, Megan 2015, Instructor (PAC), Physical ActivityCourses

Skinkis, Patricia 2007, Associate Professor, Horticulture Extension

Sklarbak, Kerry 2014, Assistant Professor, Art

Sleight, Arthur 1989, Emeritus, Chemistry

Sleszynski, Neal 2009, Senior Instructor I, Chemistry

Small, Lawrence 1961, Emeritus, Earth, Ocean & Atmo Sci

Smallman, Mary 2006, Faculty Research Assistant, Animal & Rngln Sciences

Smit, Ellen 2008, Professor, Sch of Bio/Pop Hlth Sci

Sinha, Arijit 2004, Associate Professor, Wood Science/Engr

Singh, Harleen 2002, Associate Professor (Clinical), Pharmacy

Singh, Lakhveer 2017, Research Associate (Post Doc), Biol & Ecol Engineering

Sisley, Etsuko 2014, Instructor, World Langauag & Cultures

Sjogren, Christine 1960, Emeritus, World Language & Cultures

Skog, Ingrid 2007, Senior Instructor I, Sch of Bio/Pop Hlth Sci

Smith, Brian 1999, Research Associate (Post Doc), Enviro/Molecular Toxic

Smith, Carole 1999, Associate Professor, EXT 4-H YouthDev OnCmps

Smith, Daniel 1993, Senior Instructor I, Food Science and Techno

Sisley, Etsuko 2014, Instructor, World Langauag & Cultures

Skog, Ingrid 2007, Senior Instructor I, Sch of Bio/Pop Hlth Sci

Skoog, Ingrid 2007, Senior Instructor I, Sch of Bio/Pop Hlth Sci

Smyly, Janice 1978, Emeritus, Sch of Bio/Pop Hlth Sci

Smyly, Richard 1985, Emeritus, Ag Botany/Plant Path

Smyly, William 1987, Emeritus, College of Education
BS, Western Washington University, 1986
MS, Oregon State University, 1991

Smith, David 1982, Senior Faculty Research Asst I, Horticulture

Degrees:
BS, Oregon State University, 1982

Smith, Joseph 1999, Faculty Research Assistant, Sch of Chem/Bio/Envr Eng

Degrees:
BS, Oregon State University, 2002
BS, Oregon State University, 1996

Smith, Kristina 2007, Instructor, Acad Prog/Student Aff

Degrees:
BA, University at Buffalo, SUNY, 1997
PHD, University at Buffalo, SUNY, 2003

Smith, Robert 2013, Research Associate (Post Doc), Ag Botany/Plant Path

Degrees:
BS, Oregon State University, 2011
MS, University of Nevada-Las Vegas, 2013

Smith, Stacey 2008, Associate Professor, History

Degrees:
BA, Univ of Colorado-Boulder, 1998
MA, Univ of Wisconsin-Madison, 2001
PHD, Univ of Wisconsin-Madison, 2008

Smith, Alvin 1980, Emeritus, Veterinary Medicine

Smith, Bradford 1983, Emeritus, Veterinary Medicine

Smith, Charles 1961, Emeritus, Sch of Mech/Ind/Mfg Engr

Smith, Courtland 1969, Emeritus, Anthropology

Smith, Frederick 1964, Emeritus, Sea Grant

Smith, J 1965, Emeritus, Mathematics

Smith, Margaret 1977, Emeritus, Sch of Soc/Bhav Hlth Sci

Smith, Robert 1979, Emeritus, Extension Service Prgram

Smith, Robert 1964, Emeritus, Earth, Ocean & Atmo Sci

Smouse, Evan 1998, Senior Instructor I, College of Business

Degrees:
PhD, Oregon State University, 1979

Smyth, Johanna 2010, Instructor, Ag Botany/Plant Path

Degrees:
BS, College of William Mary, 2007
PHD, Oregon State University, 2016

Smyth, William 1992, Professor, Earth, Ocean & Atmo Sci

Degrees:
BS, University of Alberta, 1984
MS, University of Toronto, 1986

PHD, University of Toronto, 1990

Smythe, Robert 1998, Emeritus, Statistics (Science)

Snelling, Jacob 2012, Faculty Research Assistant, Horticulture

Degrees:
BS, Colorado State University, 2007
MS, Colorado State University, 2010

Snow, Christine 1990, Emeritus, Sch of Bio/Pop Hlth Sci

Snyder, Aimee 2015, Instructor, Sch of Soc/Bhav Hlth Sci

Degrees:
BED, University of Arizona, 2006
MPH, University of Arizona, 2013

Snyder, Wesley 2014, Instructor, Sch of Wrtg Lit & Film

Degrees:
BA, Missouri State Univ, 2009
MA, Oregon State University, 2016

Snyder, Stanley 1985, Emeritus, Veterinary Medicine

Sobota, Janel 2002, Senior Faculty Research Asst I, Fisheries and Wildlife

Degrees:
BS, Western Washington University, 1999
MS, Oregon State University, 2005

Soland, James 2017, Instructor, College of Education

Degrees:
PHD, Stanford University, 2015

Solberg, Rorie 2002, Associate Professor, Political Science

Degrees:
BA, Washington University-St Louis, 1991
MA, The Ohio State Univ Main, 1995
PHD, The Ohio State Univ Main, 1997

Soleau, Carol 1977, Emeritus, Sch of Bio/Pop Hlth Sci

Sollins, Phillip 1976, Emeritus, Forest Ecosyst & Society

Sollitt, Charles 1972, Emeritus, Sch of Civil/Constr Engr

Solmon, Donald 1977, Emeritus, Mathematics

SoltauNelson, Camille 2011, Senior Instructor I, Economics

Degrees:
BS, Oregon State University, 1998
PHD, Washington State University, 2006

Sona, Jamie 2007, Instructor, Vet Biomedical Science

Degrees:
BS, New Mexico St Univ-Main, 2001
MS, Colorado State University, 2007

Sondreli, Kelsey 2015, Research Associate (Post Doc), Ag Botany/Plant Path

Degrees:
BS, North Dakota St U-Main Campus, 2008
MS, North Dakota St U-Main Campus, 2010
PHD, Oregon State University, 2016

Sorenson, Gary 1968, Emeritus, Economics
Souder, Jon 2015, Assistant Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Marlboro College, 1973
MS, Univ of California-Berkeley, 1987
PHD, Univ of California-Berkeley, 1990

Soule, B 1967, Emeritus, College of Business

Sousa, Francis 2016, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Davis, 2009
MA, Columbia University-NYC, 2010
PHD, Cal Institute of Tech, 2016

Sovern, Stan 1994, Senior Faculty Research Asst I, Fisheries and Wildlife
Degrees:
BS, Oregon State University, 1986

Spagnoli, Sean 2013, Assistant Professor (Clinical), Vet Biomedical Science
Degrees:
BS, Cornell University-Ithaca, 2009
BS, Cornell University-Ithaca, 2005
DVM, Cornell University-Ithaca, 2009

Spalding, Ana 2015, Assistant Professor, School of Public Policy
Degrees:
MA, Univ of California-Santa Cruz, 2008
MA, University of Miami, 2004
PHD, Univ of California-Santa Cruz, 2011

Sparks, Kelly 2013, Assoc VicPres-Finc Stateg Plan, Community Relatns/Admin
Degrees:
BS, University of Oregon, 1994
MBA, Washington University-St Louis, 1999

Sparks, Peter 2013, Senior Instructor I, Acad Prog/Student Aff Degrees:
BS, Michigan State University, 1990
MA, New York University, 1994
PHD, New York University, 1994

Spatafora, Joseph 1995, Professor, Ag Botany/Plant Path, Department Head, Rep-Faculty Athletics, Provost/Exec Vice Pres
Degrees:
BS, Louisiana Tech University, 1986
PHD, Louisiana State Univ System, 1992

Spencer, James 1963, Emeritus, History

Spidle, Mary 2013, Instructor, College of Education
Degrees:
MED, Oregon State University, 1983
PHD, Oregon State University, 1995

Spinrad, Richard 2010, Professor, Earth, Ocean & Atmo Sci, Sr Advisor to VP VP for Research
Degrees:
BA, Johns Hopkins University, 1975
MS, Oregon State University, 1978
PHD, Oregon State University, 1982

Spitsbergen, Jan 1995, Assistant Professor (Sr Res), Microbiology (Ag)

Degrees:
BS, Michigan State University, 1976
DVM, Michigan State University, 1980
PHD, Cornell University, 1986

Spitz, Derek 2016, Research Associate (Post Doc), Fisheries and Wildlife
Degrees:
BA, University of Chicago, 2009
PHD, University of Montana, 2015

Spitz, Yvette 1995, Professor, Earth, Ocean & Atmo Sci
Degrees:
MS, Florida State University, 1990
PHD, Old Dominion University, 1995

Sponaugle, Su 2013, Professor, Integrative Biology
Degrees:
BA, University of Chicago, 1986
MS, SUNY-Stony Brook, 1988
PHD, SUNY-Stony Brook, 1994

Sponseller, Claire 2006, Instructor, Ext Umatilla Co Office
Degrees:
BS, University of Idaho, 2002
MAG, Colorado State University, 2007

Spotts, Robert 1978, Emeritus, Ag Botany/Plant Path

Squires, Nancy 2005, Senior Instructor I, Sch of Mech/Ind/Mfg Engr Degrees:
BS, Univ of California-San Diego, 1976
MS, Univ of California-San Diego, 1978
PHD, Univ of California-San Diego, 1994

Sredi, Henry 1983, Emeritus, College of Education

Sremba, Angela 2007, Instructor, Fisheries and Wildlife
Degrees:
BS, Kalamazoo College, 2007
BA, Kalamazoo College, 2007

Sroufe, Matthew 2010, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 2011

Stadsvoid, Cyril 1963, Emeritus, Art

Staggs, Kendall 1995, Instructor, History Degrees:
BS, Oklahoma State Univ-Main, 1981
MA, University of Iowa, 1984
PHD, University of Iowa, 1991

Stang, Bernadette 1982, Senior Faculty Research AsstII, Vet Clinical Sciences
Degrees:
BS, Oregon State University, 1982
MS, Oregon State University, 1993

Stang, Jack 1976, Emeritus, Horticulture

Stanger Jr, Charles 1973, Emeritus, Malheur Exp Sta

Stanley, John 1991, Senior Faculty Research AsstII, Earth, Ocean & Atmo Sci
Degrees:
MS, Michigan State University, 1982

Stanley, Kathleen 1995, Senior Instructor I, Sociology
Degrees:
MA, University of Kansas, 1985

Stanley, Valerie 2017, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oberlin College, 2007
MS, Univ of Minnesota-Twin Cities, 2010

Starwalt, Shannon 2004, Instructor, Pharmacy
Degrees:
BS, Oregon State University, 2003
D PHAR, Oregon State University, 2007

Staten, Maryanne 1964, Emeritus, Sch of Soc/Bhav Hlth Sci

Staus, Nancy 2007, Research Associate, College of Education
Degrees:
BS, Univ of Minnesota-Twin Cities, 1990
MS, Univ of Minnesota-Twin Cities, 1997
PHD, Oregon State University, 2012

Stawski, Robert 2013, Associate Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Oklahoma State Univ-Main, 2000
MS, Syracuse University-Main Campu, 2004
PHD, Syracuse University-Main Campu, 2006

Stebbins, Robert 1962, Emeritus, Horticulture

Steel, Brent 1990, Professor, Political Science
Degrees:
BA, Eastern Washington University, 1979
MS, Washington State University, 1981
PHD, Washington State University, 1984

Steggell, Carmen 1998, Emeritus, College of Business

Stehr, Christian 1969, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
BA, Univ of Wurzburg, 1967
MA, University of Oregon, 1971
PHD, University of Oregon, 1975

Stein, David 2008, Faculty Research Assistant, Vet Biomedical Science
Degrees:
BS, Oregon State University, 1981

Steinberg, Ben 2005, Faculty Research Assistant, Sch Elect Engr/Comp Sci
Degrees:
BA, San Francisco State University, 1989
MA, Arizona State University, 1994
MS, Arizona State University, 1999

Stemper, David 1999, Instructor, Forest Ecosyst & Society
Degrees:
BS, Univ of Minnesota-Twin Cities, 1998
MS, Univ of Minnesota-Twin Cities, 1997

Stenb, Benjamin 2011, Instructor, Philosophy
Degrees:
BA, Whitman College, 1997
MA, University of Washington, 2001
PHD, University of Washington, 2006

Stennett, Douglass 1974, Emeritus, Pharmacy

Stephan, Toni 2000, Instructor, Ext Deschutes Co Office
Degrees:
MS, Cal State Polytechnic - Pomona, 1995

Stephenson, Garry 1986, Professor, Crop and Soil Science
Degrees:
BS, Arizona State University, 1977
MAG, Oregon State University, 1988
MAIS, Oregon State University, 1980
PHD, University of Oregon, 2006

Steen, Sam 1981, Emeritus, College of Education

Stilts, James 2013, Associate Professor, Applied Economics
Degrees:
BS, Kansas State University, 1986
MS, Michigan State University, 1993
PHD, Michigan State University, 1997

Stetz, Albert 1976, Emeritus, Physics

Stevens, Jan 1995, Professor, Pharmacy
Degrees:
BS, University of Groningen, 1988
PHD, University of Groningen, 1995

Stevens, Joe 1966, Emeritus, Applied Economics

Stewart, Josh 2014, Instructor, General Agriculture
Degrees:
BS, Texas Tech University, 1999
MS, Texas Tech University, 2014

StewartDonaldson, Carla 2012, Instructor, College of Education
Degrees:
BS, Northern Arizona University, 1973
MS, Oregon State University, 1995
PHD, Oregon State University, 2012

StGermain, Justin 2015, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BA, University of Arizona, 2004
MFA, University of Arizona, 2006

Stieger-Vanegas, Susanne 2008, Associate Professor, Vet Clinical Sciences
Degrees:
MS, Foreign Institution, 1995
DVM, Foreign Institution, 1998
PHD, Univ of California-Davis, 2007

Stiehl, Ruth 1972, Emeritus, College of Education

Still, Christopher 2012, Associate Professor, Forest Ecosyst & Society
Degrees:
BS, Colorado State University, 1993
PHD, Stanford University, 2000

Stillie, Brian 2016, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
StJacques, Jillian 2004, Senior Instructor I, Sch of Wrtg Lit & Film
Degrees:
BA, Cal State Univ-Northridge, 1997
BFA, San Francisco Art Institute, 1992
MFA, Cal Institute of Arts, 1995

Stock, Tim 2005, Senior Instructor I, Horticulture
Degrees:
MS, Univ of Reading, 1994

Stokes, Lynissa 2011, Instructor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Princeton University, 1993
MA, Boston University, 1997
PHD, Boston University, 2004

Stoltz, Michael 1979, Emeritus, Crop and Soil Science

Stone, Alexandra 2000, Ext Vegetable Crop Specialist, Horticulture
Extension
Degrees:
BA, Dartmouth College, 1982
PHD, The Ohio State Univ Main, 1997

Stone, Daphne 2015, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BA, Evergreen State College, 1975
PHD, University of Oregon, 1986

Stone, David 1998, Associate Professor, Enviro/Molec Toxic Ext, Director,
Food Innovation Center
Degrees:
BS, Univ of Texas-Austin, 1993
MS, University of North Texas, 1996
PHD, Oregon State University, 2001

Stone, Jeffrey 1987, Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BA, Antioch University, 1976
PHD, University of Oregon, 1986

Stone, Lucia 2013, Instructor (ESL), INTO OSU Program
Degrees:
MA, Univ of Colorado-Denver, 2003

Stone, Robert 2009, Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Missouri Univ of Sci Tech, 1992
MS, Missouri Univ of Sci Tech, 1995
PHD, Univ of Texas-Austin, 1997

Stone, Solon 1957, Emeritus, College of Engineering, Sch Elect Engr/ Comp Sci

Stonehill, Arthur 1966, Emeritus, College of Business

Stoner, Joseph 2004, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Florida, 1987
MS, University of Florida, 1991
PHD, Univ du Quebec a Montreal, 1995

Storie, Judy 2015, Instructor (PAC), Physical ActivityCourses
Degrees:
BS, Oregon State University, 1977

Storksdieck, Martin 2014, Professor, College of Education
Degrees:
MPA, Harvard University, 1993
MS, Foreign Institution, 1991
PHD, Foreign Institution, 2005

Stormshak, Fredrick 1968, Emeritus, Animal & Rnglnd Sciences

Stornelli, Jason 2015, Assistant Professor, College of Business
Degrees:
BA, University of Western Ontario, 2005
PHD, Univ of Michigan-Ann Arbor, 2015

Stout, Christopher 2015, Assistant Professor, Political Science
Degrees:
BA, Univ of California-Riverside, 2004
MA, Univ of California-Irvine, 2009
PHD, Univ of California-Irvine, 2010

Stoven, Heather 2007, Assistant Professor (Practice), Ext Yamhill Co Office
Degrees:
BA, College of Saint Benedict, 1998
MS, Univ of California-Davis, 2003

Strandberg, Lee 1975, Emeritus, Pharmacy

Strauss, Steven 1985, Distinguished Professor, Forest Ecosyst & Society
Degrees:
BS, Cornell University, 1978
MS, Yale University, 1980
PHD, Univ of California-Berkeley, 1985

Strawn, Kellie 2001, Instructor, General Agriculture
Degrees:
BS, Oregon State University, 2005
MS, Oklahoma State Univ-Okla City, 2008

Streit, Kelly 2011, Instructor, Ext Clackamas Co Office
Degrees:
BS, Oregon State University, 1983
MS, Univ of Tennessee-Knoxville, 1986

Streletsksaya, Nadia 2016, Assistant Professor, Applied Economics
Degrees:
BA, Foreign Institution, 2011
PHD, Foreign Institution, 2016

Strid, April 2013, Faculty Research Assistant, Enviro/Molecular Toxic
Degrees:
BS, Denison University,
MS, Oregon State University, 2015

Strik, Bernardine 1987, Ext Horticulturist-Berry, Horticulture Extension
Degrees:
BS, University of Victoria, 1983
PHD, University of Guelph, 1987

Strimbu, Bogdan 2014, Assistant Professor, Forest Eng/Resourcs/Mgmt
Degrees:
BS, Transylvania University, 1992
MS, University of British Columbia, 2003
PHD, University of British Columbia, 2009
Strini, Thomas 2014, Instructor, Sch of Wrtg Lit & Film
Degrees:
BMUS, Southern Illinois U-Edwardsvil, 1973
MM, Southern Illinois U-Carbondale, 1975

Strong, Nicole 2004, Assistant Professor (Practice), Ext Deschutes Co Office
Degrees:
BS, Purdue University Main Campus, 1997
MS, Penn State Univ-Main Campus, 2003

Strong, Teri 1998, Instructor, College of Education
Degrees:
BA, Simpson College, 1981
MED, Univ of Missouri-Systems, 1984
PHD, University of Oregon, 1994

Strother, James 2015, Assistant Professor, Integrative Biology
Degrees:
BA, Univ of California-Berkeley, 2005
PHD, Univ of California-Irvine, 2007

Stroud, Daniel 2007, Instructor, Acad Prog/Student Aff
Degrees:
BS, College of Charleston, 1994
MED, Clemson University, 2004
PHD, University of New Mexico, 2007

Strub, Paul 1984, Emeritus, Earth, Ocean & Atmo Sci

Stubblefield, William 2002, Professor, Enviro/Molecular Toxic
Degrees:
BS, Eastern Kentucky University, 1977
MS, University of Kentucky, 1979
PHD, University of Wyoming, 1987

Stuedlein, Armin 2009, Associate Professor, Sch of Civil/Constr Engr
Degrees:
BS, SUNY Coll-Env Sci Forestry, 2000
MS, Syracuse University-Main Campu, 2003
PHD, University of Washington, 2008

Stueve, Joan 1995, Head Advisor, Sch Nuclear Sci & Engr

Su, Shelley 1992, Senior Instructor I, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Oregon State University, 1972
PHD, Oregon State University, 1998

Subramanian, Munirpallam 2006, Professor Endowed Chair, Chemistry
Degrees:
BS, University of Madras, 1974
MS, University of Madras, 1976
PHD, Indian Institute of Technology, 1982

Suchy, Natalea 2008, Assistant Professor (Clinical), Pharmacy
Degrees:
BA, Univ of Southern California, 2002
PHD, Univ of Southern California, 2006

Suffridge, Christopher 2017, Research Associate (Post Doc), Microbiology (Science)
Degrees:
MS, Univ of Southern California, 2011
PHD, Univ of Southern California, 2017

Sugar, David 1978, Emeritus, Ag Botany/Plant Path

Sullivan, Christopher 1999, Senior Faculty Research Asst I, Ctr Excellnce Genome Res
Degrees:
BS, Oregon State University, 2001

Sullivan, Clare 2014, Assistant Professor (Practice), Ext Deschutes Co Office
Degrees:
BS, University of British Columbia, 2007
MS, University of Saskatchewan, 2012

Sullivan, Dan 1995, Professor, Crop and Soil Science
Degrees:
BS, Oregon State University, 1977
MS, Oregon State University, 1981
PHD, Kansas State University, 1990

Sullivan, Rebecca 2018, Instructor, Acad Prog/Student Aff

Sullivan, David 1981, Emeritus, College of Business

Sun, Bo 2012, Assistant Professor, Physics
Degrees:
BS, Tsinghua University, 2003
PHD, New York University, 2010

Sun, Conroy 2014, Assistant Professor, Pharmacy
Degrees:
BS, University of Washington, 2008
PHD, University of Washington, 2003

Sunderland, Paul 1986, Emeritus, General Agriculture

Suttie, Sandra 1969, Emeritus, Sch of Bio/Pop Hlth Sci

Sutton, Wendy 1995, Senior Faculty Research Asst I, Ag Botany/Plant Path
Degrees:
BS, Eastern Oregon University, 1993

Suzuki, Yasuko 2004, Research Associate (Post Doc), Fisheries and Wildlife
Degrees:
MS, Univ of California-Davis, 2004
PHD, Oregon State University, 2012

Swan, Patricia 1978, Emeritus, EXT Fam/CommHlth OnCmps

Swanson, Lloyd 1970, Emeritus, Animal & Rnglnd Sciences

Sweeney, James 2014, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Brown University, 1979
MS, Case Western Reserve Univ, 1983
PHD, Case Western Reserve Univ, 1988

Swenson, L 1968, Emeritus, Physics

Swift, Michele 2007, Instructor, College of Business
Degrees:
BA, Univ of California-Irvine, 1988
MA, University of Oregon, 1997
PhD, Univ of Colorado-Boulder, 2007

Swisher, Holly 2006, Associate Professor, Mathematics
Degrees:
BA, University of Oregon, 2000
MA, Univ of Wisconsin-Madison, 2003
PhD, Univ of Wisconsin-Madison, 2005

Sylvia, Gilbert 1988, Director, COMES - Newport Exp Sta
Degrees:
BS, Univ of Mass - Central Offices, 1973
MS, Colorado State University, 1981
PhD, University of Rhode Island, 1988

Tabatabaie, Seyed Mohammad Hossein 2013, Research Associate (Post Doc), Biol & Ecol Engineering
Degrees:
BS, University of Tehran, 2010
MS, University of Tehran,

Tadepalli, Prasad 1989, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Engineering College, 1979
MS, Madras Christian College, 1981
PhD, Rutgers University-Central Off, 1989

Takata, Yumie 2015, Assistant Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Nara Women's University, 2000
MS, Univ of Hawaii at Manoa, 2002
PhD, University of Washington, 2010

Tanguay, Robert 2003, Distinguished Professor, Enviro/Molecular Toxic
Degrees:
BA, Cal State Univ-San Bernardino, 1988
PhD, Univ of California-Riverside, 1995

Tapiro, Hagay 2017, Research Associate (Post Doc), Sch of Civil/Constr Engr
Degrees:
BS, Ben Gurion Univ of the Negev, 2014
MS, Ben Gurion Univ of the Negev, 2014

Tappeiner, John 1980, Emeritus, Forest Eng/Resources/Mgmt

Taratula, Oleh 2011, Associate Professor, Pharmacy
Degrees:
MS, Foreign Institution, 2002
PhD, Rutgers University-Newark, 2008

Taratula, Olena 2011, Assistant Professor (Sr Res), Pharmacy
Degrees:
MS, Unknown College 10, 2002
PhD, Rutgers University-Newark, 2008

Tasse, Amanda 2016, Assistant Professor, New Media Communications
Degrees:
BFA, Maryland Institute Coll of Art, 2000
MFA, Univ of Southern California, 2000
PhD, Univ of Southern California, 2016

Tate, Janet 1989, Professor, Physics
Degrees:
BS, Univ of Natal, 1980
MS, Stanford University, 1984
PhD, Stanford University, 1988

Tattersall, Mason 2008, Instructor, History
Degrees:
BA, University of British Columbia, 2005
MA, University of British Columbia, 2008
PhD, Oregon State University, 2015

Taylor, Anne 1999, Assistant Professor (Sr Res), Crop and Soil Science
Degrees:
BS, Oregon State University, 2000
MS, Oregon State University, 2001
PhD, Oregon State University, 2008

Taylor, Barbara 1991, Professor, Integrative Biology
Degrees:
BA, Univ of Colorado-Boulder, 1974
PhD, Univ of California-San Diego, 1988

Taylor, James 2009, Instructor (ESL), INTO OSU Program
Degrees:
BA, Multnomah College, 1988
MA, Multnomah University, 2009

Taylor, Edward 1966, Emeritus, Earth, Ocean & Atmo Sci

Taysom, Wayne 1951, Emeritus, Art

Tebeau, Mary 2011, Instructor, Acad Prog/Student Aff
Degrees:
BA, Linfield College, 1989
MED, Linfield College, 1996

Temes, Gabor 1990, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, University of Budapest, 1952
BS, Forest Institute of Profession, 1955
PhD, University of Ottawa, 1961

Temple, Todd 1999, Senior Faculty Research Asst I, Ag Botany/Plant Path
Degrees:
BA, University of South Florida, 1991
BS, Oregon State University, 2000
MS, Oregon State University, 2003

Tennessen, Jacob 2014, Assistant Professor (Sr Res), Integrative Biology
Degrees:
BS, Cornell University-Ithaca, 2002
PhD, Oregon State University, 2009

TepleyIII, Frank 2005, Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Cal State Univ-Northridge, 1991
BA, Univ of California-Los Angeles, 1983
PhD, Univ of California-Los Angeles, 1999

Terhes, Amanda 2004, Instructor, College of Business
Degrees:
BS, Oregon State University, 1993
MS, Oregon State University, 2007

Termehchy, Arash 2012, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Foreign Institution, 1998
MS, Foreign Institution, 2000
PHD, Univ of Illinois at Urbana-Cha, 2012

Terry Novak, Rebecca 2011, Assistant Professor, Integrative Biology
Degrees:
BA, Macalester College, 2001
PHD, University of Chicago, 2008

Tesch, Steven 1981, Emeritus, College of Forestry Adm

Tevis, Tenisha 2016, Assistant Professor, College of Education
Degrees:
EDD, Penn State Univ-Main Campus, 2007

Thatcher, Evan 2017, Instructor, Physics
Degrees:
PHD, University of Florida, 2015

Thienes, John 1952, Emeritus, Extension Service Program

Thies, Richard 1968, Emeritus, Chemistry

Thomann, Enrique 1987, Professor, Mathematics, Department Head
Degrees:
BS, National University of Cordoba, 1977
PHD, Univ of California-Berkeley, 1985

Thomas, Alaina 2016, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
MS, Kansas State University, 2014

Thomas, William 2006, Research Associate (Post Doc), Ag Botany/Plant Path
Degrees:
BS, Arizona State University, 2003
PHD, Oregon State University, 2012

Thomas, Darrah 1971, Emeritus, Chemistry

Thomas, David 1967, Emeritus, Statistics (Science)

Thompson, Allen 2011, Associate Professor, Philosophy
Degrees:
BA, Evergreen State College, 1992
MA, University of Washington, 1995
PHD, University of Washington, 2005

Thompson, Ashley 2018, Assistant Professor, Ext Wasco County Office

Thompson, Karen 2012, Assistant Professor, College of Education
Degrees:
BA, Brown University, 1996
MA, Univ of California-Berkeley, 2002
PHD, Stanford University, 2012

Thompson, Paul 2014, Assistant Professor, Economics
Degrees:
BA, The College of Wooster, 2009
PHD, Michigan State University, 2014

Thompson, Robert 1998, Associate Professor, Ethnic Studies
Degrees:
BA, Cal State Univ-Los Angeles, 1979
MA, Cal State Univ-Los Angeles, 1986
MA, Univ of California-Santa Cruz, 1992

PHD, Univ of California-Santa Cruz, 1997

Thompson, Gregory 1996, Emeritus, General Agriculture

Thompson, James 1989, Emeritus, Animal & Rnglnd Sci Ext

Thompson, Maxine 1964, Emeritus, Horticulture

Thorburn, Sheryl 2002, AssocDean-Acad&FacultyAffairs, Public Hlth/ HumanSci Adm, Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Oregon State University, 1984
MPH, Univ of California-Berkeley, 1990
MA, Univ of California-San Diego, 1985
PHD, Univ of N Carolina-Chapel Hill, 1993

Thomson, Neil 2010, Faculty Research Assistant, AdvTech&MfgInst (ATAMI)
Degrees:
BS, Univ of California-Berkeley, 1978

Thurber, Andrew 2011, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Hawaii Pacific University, 2001
MS, Unknown College, 2005
PHD, Scripps Research Institute, 2010

Tidwell, Lane 2009, Research Associate, Enviro/Molecular Toxic
Degrees:
BS, Oregon State University, 2008
PHD, Oregon State University, 2016

Tiffany, Carmen 2016, Instructor, New Media Communications
Degrees:
BFA, Minnesota State Univ-Mankato, 2005
MFA, University of South Florida, 2010

Tillson, Gregory 1970, Emeritus, Extension Service Admin

Tilt, Bryan 2005, Professor, Anthropology
Degrees:
BA, Utah State University, 1998
MA, University of Washington, 2001
PHD, University of Washington, 2004

Tilt, Jenna 2007, Assistant Professor (Sr Res), Earth, Ocean & Atmo Sci,
Instructor
Degrees:
BS, Utah State University, 1998
MS, University of Washington, 2001
PHD, University of Washington, 2007

Tilton, Susan 2000, Assistant Professor, Enviro/Molecular Toxic
Degrees:
BS, Duke University, 1997
MS, Univ of Mississippi-Main Campu, 2000
PHD, Oregon State University, 2005

Timm, Karen 1983, Emeritus, Veterinary Medicine

Tinsley, Ian 1957, Emeritus, Enviro/Molecular Toxic

Titus, Mathew 2010, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BA, Willamette University, 2009
MS, Oregon State University, 2013

**Tobey, Lauren** 2006, Assistant Professor (Practice), EXT SNAP-Ed On-Campus

Degrees:
- BS, Univ of Illinois at Urbana-Cha, 1997
- MS, Univ of Illinois at Urbana-Cha, 2005

**Todd, Rodney** 1974, Emeritus, Crop and Soil Science

**Todorovic, Sinisa** 2008, Associate Professor, Sch Elect Engr/Comp Sci

Degrees:
- BS, Univ of Belgrade, 1994
- MS, University of Florida, 2002
- PHD, University of Florida, 2005

**Tolbert, TC** 2014, Instructor, Acad Prog/Student Aff

Degrees:
- MFA, University of Arizona, 2005

**Tomasino, Elizabeth** 2012, Assistant Professor, Food Science and Techno

Degrees:
- BS, Univ of New Hampshire-Durham, 2004
- MS, Cornell University-Ithaca, 2006
- PHD, Lincoln University, 2012

**Tomayko, Emily** 2016, Assistant Professor, Sch of Bio/Pop Hlth Sci

Degrees:
- BS, University of Georgia, 2005
- PHD, Univ of Illinois at Urbana-Cha, 2011

**Tomey, Shauna** 1999, Assistant Professor (Practice), EXT Fam/CommHlth OnCmps

Degrees:
- BA, University of Washington, 2001
- MS, Kansas State University, 2003
- PHD, Oregon State University, 2010

**Toombs, Charles** 2013, Instructor, College of Business

Degrees:
- BS, Michigan State University, 1974
- MBA, Univ of Illinois-Chicago, 1987

**Topitzhofer, Ellen** 2011, Faculty Research Assistant, Horticulture

Degrees:
- BS, Univ of Minnesota-Twin Cities, 2011
- MS, Oregon State University, 2014

**Torbeck, Frances** 1958, Emeritus, Extension Service Prgram

**Tomquist, Susan** 1996, Professor, Vet Biomedical Science, Dean, Veterinary Medicine

Degrees:
- BS, University of New Mexico, 1980
- BA, Michigan State University, 1975
- MS, University of New Mexico, 1987
- DVM, Colorado State University, 1985
- PHD, Washington State University, 1996

**Torpey, James** 1971, Emeritus, Sch of Bio/Pop Hlth Sci

**Torres, Leigh** 2014, Assistant Professor, Marine Mammal Institute

Degrees:
- BA, American University, 1997
- MS, Duke University, 2001

**Torres, Marta** 1996, Professor, Earth, Ocean & Atmo Sci

Degrees:
- BS, Univ of Costa Rica, 1976
- MS, Oregon State University, 1984
- PHD, Oregon State University, 1988

**Towne, Silas** 2017, Instructor, Acad Prog/Student Aff

Degrees:
- BS, George Fox University, 2003
- MS, University of Oregon, 2005
- MED, Grand Canyon University, 2011

**Townsend, Katy** 2014, Assistant Professor, Vet Clinical Sciences

Degrees:
- BVSC, Foreign Institution, 2004
- MS, The Ohio State Univ Main, 2012

**Townsend, Kimberly** 2005, Instructor, Crop and Soil Science

Degrees:
- BA, Johns Hopkins University, 2004
- MS, Oregon State University, 2013

**Townsend, Michael** 1998, Assistant Professor (Sr Res), Crop and Soil Science

Degrees:
- BS, Montana State Univ-Bozeman, 1988
- MS, Montana State Univ-Bozeman, 1990
- PHD, New Mexico St Univ-Main, 1998

**Traber, Maret** 1998, Professor, Linus Pauling Institute

Degrees:
- BS, Univ of California-Berkeley, 1972
- PHD, Univ of California-Berkeley, 1976

**Traylor, Roger** 1996, Senior Instructor I, Sch Elect Engr/Comp Sci

Degrees:
- BS, Tennessee Tech University, 1981
- MS, Oregon State University, 1991

**Trehu, Anne** 1987, Professor, Earth, Ocean & Atmo Sci

Degrees:
- BA, Princeton University, 1975
- MA, Princeton University, 1977
- PHD, Massachusetts Inst of Technolo, 1982

**Trejo, David** 2009, Professor, Sch of Civil/Constr Engr

Degrees:
- BS, Univ of California-Berkeley, 1991
- MS, Univ of California-Berkeley, 1993
- PHD, Univ of California-Berkeley, 1997

**Tremblay, Carol** 1990, Professor, Economics

Degrees:
- BA, Univ of California-Irvine, 1976
- MA, Washington State University, 1982
- PHD, Washington State University, 1984

**Tremblay, Victor** 1990, Professor, Economics

Degrees:
- BA, Univ of California-Los Angeles, 1973
- MA, Cal State Univ-Northridge, 1977
- PHD, Washington State University, 1983
Trempy, Janine 1989, Associate Provost- Acad Aff, Academic Affairs Admin, Professor, Microbiology (Science) Degrees: BS, Kansas State University, 1980 PhD, U of Texas Health Science, 1985

Triburgo, Lorenzo 2013, Instructor, Art Degrees: BA, New York University, 2002 MFA, School of Visual Arts, 2005

Trimbach, David 2017, Research Associate (Post Doc), Fisheries and Wildlife

Trine, Lisandra 2013, Faculty Research Assistant, Enviro/Molecular Toxic Degrees: BS, Univ of Puerto Rico Mayaguez,

Trippe, Aaron 2001, Faculty Research Assistant, Genome Research/ Biocomp Degrees: BS, Oregon State University, 2003

Tronrud, Dale 2009, Faculty Research Assistant, Chemistry Degrees: BS, Univ of Wisconsin-Madison, 1980 PhD, University of Oregon, 1986

Trosen, LeAnna 2016, Instructor (PAC), Physical Activity Courses Degrees: BS, North Dakota St U-Main Campus, 1988

Trow, Clifford 1970, Emeritus, History

Trow, Jo Anne 1965, Emeritus, College of Education, Vice Provost Emeritus, Vice Prov/Student Aff

Trujillo, Juan 1997, Assistant Professor, World Langauag & Cultures Degrees: BA, Brigham Young University Main, 1987 MA, Brigham Young University Main, 1990 PhD, Univ of Texas-Austin, 1997

Truong, Hao 2006, Faculty Research Assistant, Enviro/Molecular Toxic, Forest Ecosyst & Society Degrees: BA, Oregon State University, 2011

Truong, Lisa 2004, Assistant Professor (Sr Res), Enviro/Molecular Toxic Degrees: PhD, Oregon State University, 2012

Tseng, Jennifer 2018, Instructor, Acad Prog/Student Aff

Tseng, Kuo-Fu 2007, Research Associate (Post Doc), Physics Degrees: BS, Fu Jen Catholic University, 2002 PhD, Oregon State University, 2013

Tubb, Richard 1975, Emeritus, Fisheries and Wildlife

Tuck, Brian 1983, Professor, Ext Wasco County Office, Regional Administrator, Extension Service Admin Degrees: BS, Cal State Univ-Fresno, 1974 MBA, City University of Seattle, 1989 MPA, City University of Seattle, 1989 MAG, Oregon State University, 1984

Tucker, Sylvia 1975, Emeritus, College of Education

Tufillaro, Nicholas 2005, Associate Professor (Sr Res), Earth, Ocean & Atmo Sci Degrees: BA, Reed College, 1982 MA, Bryn Mawr College, 1987 PhD, Bryn Mawr College, 1990

Tumer, Irem 2006, Assoc Dean-Research/Econ Devp, College of Engineering, Professor, Sch of Mech/Ind/Mfg Engr Degrees: BS, Univ of Texas-Austin, 1991 MS, Univ of Texas-Austin, 1995 PhD, Univ of Texas-Austin, 1998

Tumer, Kagan 2006, Professor, Sch of Mech/Ind/Mfg Engr Degrees: BS, George Mason University, 1989 MS, Univ of Texas-Austin, 1992 PhD, Univ of Texas-Austin, 1996

Turkan, Yelda 2016, Assistant Professor, Sch of Civil/Constr Engr Degrees: BS, Foreign Institution, 2005 MS, Foreign Institution, 2006 PhD, University of Waterloo, 2012

Turkel, David 2017, Instructor, Sch of Wrtg Lit & Film Degrees: BA, Wayne State University, MFA, Univ of Texas-Austin,

Turner, Russell 2004, Dir-Bone Research Lab, Sch of Bio/Pop Hlth Sci Degrees: BS, Penn State Univ-Main Campus, 1970 MS, Penn State Univ-Main Campus, 1973
PHD, Penn State Univ-Main Campus, 1975

**Turner, Harley** 1974, Emeritus, EOARC - Burns Exp Sta

**Tyler, Brett** 2011, Professor, Ag Botany/Plant Path, Director-CGRB, VP for Research

Degrees:
- BS, Monash University, 1978
- PHD, University of Melbourne, 1982

**Tyler, Kylee** 2009, Instructor, College of Business

Degrees:
- BS, College of Southern Idaho, 2008
- MS, Oregon State University, 2011

**Tyler Jr, Daniel** 1996, Research Associate, Earth, Ocean & Atmo Sci

Degrees:
- BS, Fort Lewis College, 1985
- MS, San Jose State University, 1994
- PHD, Oregon State University, 2004

**Tynon, Joanne** 1997, Emeritus, Forest Ecosyst & Society

U

**Udell, Chet** 2016, Assistant Professor (Sr Res), Biol & Ecol Engineering

Degrees:
- BS, Stetson University, 2005
- MS, University of Florida, 2008
- PHD, University of Florida, 2012

**Udell, Monique** 2013, Assistant Professor, Animal & Rnglnd Sciences

Degrees:
- BS, Stetson University, 2005
- MS, University of Florida, 2008
- PHD, University of Florida, 2011

**Ullman, David** 1984, Emeritus, Sch of Mech/Ind/Mfg Engr, Instructor, Univ Honors College

Degrees:
- BS, Univ of Cincinnati Main, 1968
- MS, Univ of Cincinnati Main, 1970
- PHD, The Ohio State Univ Main, 1978

**Unsworth, Michael** 1992, Emeritus, Earth, Ocean & Atmo Sci

**Ushijima, Blake** 2016, Research Associate (Post Doc), Vet Biomedical Science

Degrees:
- BS, Univ of Hawaii at Manoa, 2010
- PHD, Univ of Hawaii at Manoa, 2016

**Uzgalis, William** 1981, Emeritus, Philosophy

V

**Vache, Kellie** 1998, Assistant Professor (Sr Res), Biol & Ecol Engineering

Degrees:
- BS, University of Washington, 1994
- PHD, Oregon State University, 2003

**Valdivia, Roberto** 2011, Assistant Professor (Sr Res), Applied Economics

Degrees:
- BS, Foreign Institution, 1996
- MS, Montana State Univ-Bozeman, 2002

**PHD, Wageningen Univ Research Ctr, 2016**

**Valls, Andrew** 2003, Associate Professor, Political Science

Degrees:
- BA, Univ of Wisconsin-Madison, 1988
- MA, Univ of Pittsburgh-Main Campus, 1990
- PHD, Univ of Pittsburgh-Main Campus, 1995

**VanAppledorn, Craig** 2013, Faculty Research Assistant, Earth, Ocean & Atmo Sci

Degrees:
- BS, Michigan Technological Univ, 2008

**VanBreemen, Richard** 2017, Professor, Pharmacy

Degrees:
- BA, Oberlin College, 1980
- PHD, Johns Hopkins University, 1985

**VanBuren, Vicki** 2015, Instructor, Acad Prog/Student Aff

Degrees:
- BS, University of Oklahoma, 1972
- MS, Washington State University, 1978

**Vance, Amanda** 2010, Faculty Research Assistant, Horticulture

Degrees:
- BS, Warren Wilson College, 2006

**VanDenHoek, Jamon** 2015, Assistant Professor, Earth, Ocean & Atmo Sci

Degrees:
- BS, Univ of Wisconsin-Madison, 2004
- MS, Univ of Wisconsin-Madison, 2005
- PHD, Univ of Wisconsin-Madison, 2012

**VandeVoorde, Rebecca** 2016, Faculty Research Assistant, Pharmacy

Degrees:
- BS, Univ of Illinois at Urbana-Cha, 1982
- MS, Univ of Illinois at Urbana-Cha, 1985
- PHD, University of Iowa, 1995

**VandeWater, John** 1976, Emeritus, OSU Global Opportunities

**VanDyke, Henry** 1960, Emeritus, Integrative Biology

**Vanegas, Jorge** 2009, Assistant Professor (Clinical), Vet Clinical Sciences

Degrees:
- MS, Univ of California-Davis, 2005
- DVM, Universidad La Salle, 2007

**VanHolde, Ken** 1967, Emeritus, Biochem/Biophysics

**VanLanen, Siobhan** 2016, Instructor (PAC), Physical ActivityCourses

Degrees:
- BS, Portland State University, 2016

**VanLonden, Pam** 2001, Instructor, Sch Elect Engr/Comp Sci, Women/ Gendr/Sxlt Studies

Degrees:
- BA, Western Oregon University, 1983
- MAIS, Western Oregon University, 1988

**VanOrder, Mark** 2014, Instructor, College of Business

Degrees:
- BS, Humboldt State University, 1983
- MBA, University of Oregon, 1999

**VanTuyl, Steven** 1999, Assistant Professor, Library
Vanwechten, James 1985, Emeritus, Sch Elect Engr/Comp Sci

VanVliet, Antone 1959, Emeritus, Career Development Ctr

VanWinkle, Denis 2016, Instructor, Forest Eng/Resources/Mgmt

VanZee, Karen 1992, Senior Instructor I, Biochem/Biophysics

VanZee, Emily 2005, Associate Professor (Sr Res), Physics

Varadharajan, Leela 2013, Instructor, College of Business

Vasilev, Yury 2002, Assistant Professor (Sr Res), Linus Pauling Institute

Vaux, Felix 2017, Research Associate (Post Doc), COMES - Newport Exp Sta

Vavra, Martin 1971, Emeritus, Animal & Rnglnd Sciences

Vega-Thurber, Rebecca 2011, Associate Professor, Microbiology (Science)

Vega-Gutierrez, Sarath 2014, Faculty Research Assistant, Wood Science/Engr

Veijlupkova, Zuzana 1997, Senior Faculty Research Asst I, Ag Botany/Plant Path

Velez, Jonathan 2008, Interim Department Head, General Agriculture, Associate Professor

Velt, Anthony 1985, Associate Professor, Sch of Bio/Pop Hlth Sci

Veltri, Anthony 1985, Associate Professor, Sch of Bio/Pop Hlth Sci

Velez, Jonathan 2008, Interim Department Head, General Agriculture, Associate Professor

Velez, Jonathan 2008, Interim Department Head, General Agriculture, Associate Professor

Veni, Kimberly 2015, Instructor, Acad Prog/Student Aff

VerWey, Brian 2013, Faculty Research Assistant, Ag Botany/Plant Path

Vergara-Arteaga, Hector 2001, Assistant Professor, Sch of Mech/Ind/Mfg Engr

Vester, Adam 2015, Instructor, College of Business

Vital, Louise 2018, Instructor, College of Ed

Vogel, Walter 2003, Research Associate, Pharmacy

Vogt, Blaine 1998, Senior Instructor I, Philosophy

Voivod, Valery 2002, Assistant Professor (Sr Res), Linus Pauling Institute

Volk, Veril 1966, Emeritus, Crop and Soil Science
Volmar, Karen 2013, Associate Professor (Clinical), Sch of Soc/Bhav Hlth Sci
Degrees:
BA, Hamilton College, 1994
MPH, Boston University, 1999
JD, Boston University, 1999

Vomocil, James 1967, Emeritus, Crop and Soil Science

Vonborstel Jr, Frank 1948, Emeritus, Extension Service Prgram

Vondracek, Ruth 2001, Emeritus, Library

Vong, Ann 2009, Instructor, College of Business
Degrees:
BS, Oregon State University, 2004
MS, Oregon State University, 2011

Vong, Richard 1989, Emeritus, Earth, Ocean & Atmo Sci

vonGermeten, J Nicole 2003, Professor, History, Director-SHPR, Liberal Arts Admin
Degrees:
MA, Univ of California-Berkeley, 1999
MA, Univ of Auckland, 1997
PHD, Univ of California-Berkeley, 2003

Vorachek, William 1999, Research Associate, Vet Biomedical Science
Degrees:
BS, Univ of Michigan-Ann Arbor, 1981
PHD, University of Virginia, 1991

Vuchinich, Samuel 1988, Emeritus, Sch of Soc/Bhav Hlth Sci

Vue, Rican 2015, Assistant Professor, Political Science
Degrees:
BS, Univ of California-Davis, 2005
MA, Univ of California-Los Angeles, 2007
PHD, Univ of California-Los Angeles, 2013

Vutukur, Pavan 2013, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Jawaharlal Nehru Tech Univ, 2009
MS, Univ of Texas-Tyler, 2011

Walczak, Maureen 2006, Research Associate (Post Doc), Earth, Ocean & Atmo Sci
Degrees:
BS, University of Washington, 2004
MS, University of Washington, 2006
PHD, Oregon State University, 2011

Walczak, Paul 2001, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2003
MS, Oregon State University, 2005

Waldbusser, George 2009, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, St John’s Univ-New York, 1999
MS, University of Connecticut, 2002
PHD, Univ of Maryland-Baltimore, 2008

Walenta, Darrin 1992, Associate Professor, Ext Union County Office
Degrees:
BS, Oklahoma State Univ-Main, 1992
MS, Washington State University, 2001

Walker, Gregg 1987, Professor, Speech Communication
Degrees:
BA, U of Minnesota-Central Offices, 1974
MA, University of Kansas, 1982
PHD, University of Kansas, 1983

Walker, Jeff 1996, Senior Instructor II, Chemistry
Degrees:
BS, University of Western Ontario, 1986
PHD, University of Western Ontario, 1992

Walkingshaw, Eric 2007, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BA, University of Washington, 2006
MS, Oregon State University, 2011
PHD, Oregon State University, 2013

Walsh, Kenneth 2000, Senior Instructor I, Physics
Degrees:
BS, Oregon State University, 2003
PHD, Oregon State University, 2010

Walstad, John 1980, Emeritus, Forest Eng/Resources/Mgmt

Walter, Cara 2006, Faculty Research Assistant, Biol & Ecol Engineering
Degrees:
MS, Oregon State University, 2009

Walton, Vaughn 2006, Professor, Horticulture Extension
Degrees:
BS, Univ of Stellenbosch, 1992
MS, Univ of Stellenbosch, 1998
PHD, Univ of Stellenbosch, 2003

Wang, Alan 2011, Associate Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Unknown College 10, 2000
MS, Chinese Academy of Sciences, 2003
PHD, Univ of Texas-Austin, 2006

Wang, Guojie 2015, Assistant Professor, Eastern Ore Univ Ag Prg
Degrees:
BS, Foreign Institution, 2002
MS, Foreign Institution, 2005
PhD, North Dakota St U-Main Campus, 2010

Wang, Hailei 2002, Assistant Professor (Sr Res), Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Southwest Petroleum Univ, 1992
MS, Texas Tech University, 2002
PhD, Oregon State University, 2006

Wang, Haizhong 2012, Assistant Professor, Sch of Civil/Constr Engr
Degrees:
BS, Foreign Institution, 2003
MS, Foreign Institution, 2006
PhD, Univ of Mass-Amherst, 2010

Wang, Hui 2017, Research Associate (Post Doc), Earth, Ocean & Atmo Sci

Wang, Rong 2004, Research Associate, Linus Pauling Institute
Degrees:
BS, Zhejiang Medical Univ, 1983
MS, Shanghai Medical University, 1989
MD, Jinan University, 1994
PhD, Jinan University, 1994

Wang, Xisheng 2013, Faculty Research Assistant, Vet Biomedical Science
Degrees:
DVM, Foreign Institution, 1997
PhD, Virginia Polytechnic Institute, 2006

Wanke, Paul 1999, Instructor, History
Degrees:
BA, Western Washington University, 1983
MA, University of Idaho, 1992

Ward, Corrina 2010, Instructor, Speech Communication
Degrees:
MAIS, Oregon State University, 2014

Ward, Megan 2014, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Lawrence University, 1997
MA, Univ of Oxford University Coll, 2001
PhD, Rutgers University-New Brunswi, 2008

Ward, Chris 1986, Emeritus, College of Education

Waring, Richard 1963, Emeritus, Forest Ecosyst & Society

Warner, Rebecca 1990, Professor, Sociology
Degrees:
BA, Portland State University, 1980
MA, Washington State University, 1982
PhD, Washington State University, 1985

Warner, Sally 2012, Research Associate, Earth, Ocean & Atmo Sci
Degrees:
BS, Foreign Institution, 2004
MS, University of Washington, 2008
PhD, University of Washington, 2012

Warner, Virginia 1990, Faculty Research Assistant, Microbiology (Ag)
Degrees:
BS, Oregon State University, 1984
BS, Oregon State University, 1989

Watrous, Barbara 1981, Emeritus, Vet Clinical Sciences

Watson, Amy 2011, Assistant Professor, Acad Prog/Student Aff, College of Business
Degrees:
BS, Missouri State Univ, 2006
MBA, Missouri State Univ, 2007
PhD, Univ of Arkansas-Fayetteville, 2011

Degrees:
BA, Oregon State University, 1995
MA, Concordia College-St Paul, 2001

Warnock, Jennifer 2008, Associate Professor, Vet Clinical Sciences
Degrees:
BA, Univ of California-Berkeley, 1997
DVM, Univ of California-Davis, 2001

Warren, Ana 2006, Senior Instructor I, World Langau & Cultures
Degrees:
BA, University of Oregon, 2004
MA, University of Oregon, 2006

Warren, Dana 2009, Assistant Professor, Forest Ecosyst & Society
Degrees:
BA, Skidmore College, 1998
MA, Cornell University-Ithaca, 2002
PhD, Cornell University-Ithaca, 2008

Warren, Timothy 2001, Research Associate (Post Doc), Ag Botany/Plant Path
Degrees:
PhD, Univ of Cal-San Francisco, 2012

Warrick, Douglas 2004, Professor, Integrative Biology
Degrees:
BS, Univ of Nebraska-Lincoln, 1982
MS, University of Oregon, 1992
PhD, University of Montana, 1997

Wascher, Rick 2017, Instructor, College of Business
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1986
JD, University of Oklahoma, 1989

Wasserman, Allen 1965, Emeritus, Physics

Watkins, Patti 1993, Associate Professor, Sch of Psychological Sci
Degrees:
BA, West Virginia University, 1980
MA, University of the Pacific, 1983
PhD, Virginia Polytechnic Institute, 1987

Watkins-Brandt, Katie 2006, Senior Faculty Research Asst I, Earth, Ocean & Atmo Sci
Degrees:
BS, Antioch University, 2007
MS, Oregon State University, 2010

Watral, Virginia 1990, Faculty Research Assistant, Microbiology (Ag)
Degrees:
BS, Oregon State University, 1984
BS, Oregon State University, 1989

Watrous, Barbara 1981, Emeritus, Vet Clinical Sciences

Ward, Megan 2014, Assistant Professor, Sch of Wrtg Lit & Film
Degrees:
BA, Lawrence University, 1997
MA, Univ of Oxford University Coll, 2001
PhD, Rutgers University-New Brunswi, 2008

Warnes, William 1986, Emeritus, Sch of Mech/Ind/Mfg Engr

Warnock, Debera 1997, Associate Professor, Ext Wallowa Co Office
Watson, James 2017, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Foreign Institution, 2001
MS, Foreign Institution, 2004
PHD, Univ of Cal-Santa Barbara, 2011

Watson, Philip 1984, Emeritus, Chemistry

Wax, Darold 1963, Emeritus, History

Waymire, Edward 1979, Emeritus, Mathematics

Weaver, Carol 2015, Instructor (PAC), Physical Activity
Courses
Degrees:
BS, Oregon State University, 1981
EDM, Oregon State University, 1987

Weaver, Roger 1962, Emeritus, Sch of Wrtg Lit & Film

Webb, Kyle 2003, Instructor, Acad Prog/Student Aff
Degrees:
BA, Dartmouth College, 1997
MS, Oregon State University, 2005
PHD, Oregon State University, 2005

Weber, Edward 2012, Professor, Political Science
Degrees:
BA, Colorado State University, 1978
MA, Univ of Wisconsin-Madison, 1991
PHD, Univ of Wisconsin-Madison, 1996

Weber, Genevieve 2011, Instructor, Ag Botany/Plant Path
Degrees:
BS, Rensselaer Polytechnic Inst, 2005
PHD, Johns Hopkins University, 2011

Weber, Bruce 1974, Emeritus, Applied Economics

Weber, Dale 1976, Emeritus, Animal & Rnglnd Sciences

Weber, Leonard 1957, Emeritus, College of Engineering

Webster, Lindsay 2017, Instructor, Acad Prog/Student Aff

Webster, Janet 1989, Emeritus, Library

Wegis, Heidi 2002, Associate Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BS, Cal State Univ-Bakersfield, 2002
MS, Oregon State University, 2005
PHD, Oregon State University, 2008

Weidinger, Alois 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, University of Central Florida, 2003
JD, Freie Universitat Berlin, 2000

Weinberg, Laurence 2015, Instructor, Acad Prog/Student Aff
Degrees:
BS, Rensselaer Polytechnic Inst, 1965

Weidinger, Alois 2017, Instructor, Acad Prog/Student Aff
Degrees:
MS, University of Central Florida, 2003
JD, Freie Universitat Berlin, 2000

Weinberg, Laurence 2015, Instructor, Acad Prog/Student Aff
Degrees:
BS, Rensselaer Polytechnic Inst, 1965

WD, University of Wyoming, 1976
PHD, Univ of Minnesota-Twin Cities, 1969

Weinman, Richard 1967, Emeritus, Speech Communication

Weis, Virginia 1996, Department Head - IB, Integrative Biology, Professor
Degrees:
BS, Yale University, 1984
PHD, Univ of California-Los Angeles, 1990

Weiser, Conrad 1971, Dean Emeritus, College of Ag Admin, Emeritus,
Horticulture

Weiss, Aaron 2008, Faculty Research Assistant, Sch Nuclear Sci & Engr
Degrees:
BS, Oregon State University, 2010

Weiss, Paula 2010, Senior Instructor I, Chemistry
Degrees:
BS, Radford University, 2004
MS, Virginia Polytechnic Institute, 2007

Weiss, William 2015, Professor, Sch of Civil/Constr Engr, School Head
Degrees:
BA, Penn State Univ-Main Campus, 1995
MS, Northwestern University, 1997
PHD, Northwestern University, 1999

Weisshaar, Andreas 1986, Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Universitat Stuttgart, 1981
MS, Oregon State University, 1986
MS, Universitat Stuttgart, 1987
PHD, Oregon State University, 1991

Weitemier, Kevin 2010, Research Associate (Post Doc), Fisheries and
Wildlife
Degrees:
BA, Colorado College, 2005
MS, Portland State University, 2010
PHD, Oregon State University, 2016

Welch, Kylie 2013, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2015

Wells, Elissa 1993, Associate Professor, Ext Coos County Office
Degrees:
BS, Oregon State University, 1999
MS, Oregon State University, 2002

Welty, James 1958, Emeritus, Sch of Mech/Ind/Mfg Engr

Wenell, Paula 2008, Instructor, Sociology
Degrees:
MS, George Fox University, 1998

Weprich, Tyson 2017, Research Associate (Post Doc), Ag Botany/Plant
Path
Degrees:
BS, Duke University, 2008
PHD, North Carolina State Univ, 2017

Weiss, Robert 1977, Emeritus, Sch of Wrtg Lit & Film
West, Thomas 1976, Emeritus, Sch of Mech/Ind/Mfg Engr
Westall, John 1980, Emeritus, Chemistry
Westbery, Toby 2005, Assistant Professor (Sr Res), Ag Botany/Plant Path
Degrees:
BS, Univ of Cal-Santa Barbara, 1996
MS, Univ of Cal-Santa Barbara, 2001
PHD, Univ of Cal-Santa Barbara, 2008
Westwood, Melvin 1960, Emeritus, Horticulture
Wettstein, Justin 2012, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Oklahoma, 1997
MS, Stanford University, 1998
MPA, University of Washington, 2007
MS, University of Washington, 2003
PHD, University of Washington, 2007
Whanger, Philip 1966, Emeritus, Enviro/Molecular Toxic
Wheatcroft, Robert 1998, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, The College of Wooster, 1981
MS, University of Georgia, 1984
PHD, University of Washington, 1990
Wheeler, Caryn 2016, Assistant Professor (Practice), Ext Jackson Co
Office
Degrees:
BS, Michigan State University, 2006
MPH, Portland State University, 2011
Wheeler, Patricia 1982, Emeritus, Earth, Ocean & Atmo Sci
Wheeler, William 1956, Emeritus, Forest Ecosyst & Society
White, Angelicque 2001, Associate Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Alabama in Huntsville, 1998
MS, Univ of Alabama in Huntsville, 2001
PHD, Oregon State University, 2006
White, David 1998, Associate Professor, EXT 4-H YouthDev OnCmps
Degrees:
BS, Oregon State University, 1984
MS, Oregon State University, 1986
PHD, Oregon State University, 2006
White, Elizabeth 1999, Instructor, College of Education
Degrees:
BA, Northwestern University, 1965
MA, San Diego State University, 1982
PHD, Oregon State University, 2010
White, Erich 2009, Instructor (ESL), INTO OSU Program
Degrees:
BS, University of Wyoming, 1991
MA, University of Montana, 1995
White, Will 2017, Assistant Professor, COMES - Newport Exp Sta
Degrees:
BS, Davidson College, 2000
PHD, Univ of Cal-Santa Barbara, 2007
White, James 1971, Emeritus, Chemistry
Whitefield, Jonathan 2016, Faculty Research Assistant, Earth, Ocean &
Atmo Sci
Degrees:
BS, Foreign Institution, 2003
MS, Foreign Institution, 2004
MS, Univ of Alaska Fairbanks, 2016
Whitler, William 1992, Theriogenologist, Vet Clinical Sciences
Degrees:
BS, University of Florida, 1980
DVM, University of Florida, 1985
Whitten, John 2015, Instructor, Art
Degrees:
BFA, Watkins College of Art, 2007
MFA, University of Oregon, 2014
Wickham, Charlotte 2011, Assistant Professor, Statistics (Science)
Degrees:
PHD, Univ of California-Berkeley, 2011
Widicus, Wilbur 1964, Emeritus, College of Business
Wightman, Maxwell 2015, Faculty Research Assistant, Forest Eng/
Resources/Mgmt
Degrees:
BS, SUNY Coll-Env Sci Forestry, 2009
MS, University of Florida, 2014
Wilby, Jennifer 2017, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
BA, Univ of California-Riverside, 1996
MPH, Univ of Leeds, 2000
PHD, Univ of Hull, 2008
Wilcox, Anthony 1987, Emeritus, Sch of Bio/Pop Hlth Sci
Wilcox, Bert 1962, Emeritus, Extension Service Admin
Wildenschild, Dorthe 2002, Assoc Dean-Graduate Programs, College of
Engineering, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
MS, Denmark Technical College, 1991
PHD, Denmark Technical College, 1996
Wilkins, Bill 1961, Emeritus, Economics, Liberal Arts Admin
Wilkinson, Camilla 2016, Faculty Research Assistant, CIMRS (Inst/Marine
Res)
Degrees:
PHD, Open University, 2013
WillardArgeres, Peter 1999, Instructor, Mathematics
Degrees:
BS, Northeastern University, 1989
MS, Oregon State University, 1997
William, Ray 1979, Emeritus, Horticulture Extension
Williams, Craig 2006, Professor (Clinical), Pharmacy
Degrees:
BS, Univ of California-Los Angeles, 1990
D PHAR, Univ of Cal-San Francisco, 1994
Williams, David 1986, Professor, Enviro/Molecular Toxic
Degrees:
BA, Reed College, 1975
MS, Oregon State University, 1981
PHD, Oregon State University, 1982

Williams, Janaleen 2010, Instructor, Ext Clackamas Co Office
Degrees:
BS, Western Oregon University, 1981

Williams, John 1986, Associate Professor, Ext Wallowa Co Office
Degrees:
BS, Oregon State University, 1975
MS, Oregon State University, 1987

Williams, Katy 2013, Instructor, Mathematics
Degrees:
BS, Angelo State University,
MS, Oregon State University, 2015

Williams, Matt 2016, Instructor, Art
Degrees:
BFA, University of Oregon, 2013
MA, University of Iowa, 2015
MFA, University of Iowa, 2016

Williams, Tara 2004, Associate Professor, Sch of Wrtg Lit & Film, Associate Dean, Univ Honors College
Degrees:
BA, University of Florida, 1997
PHD, Rutgers University-New Brunswi, 2004

Williamson, Kari 2011, Faculty Research Assistant, Fisheries and Wildlife
Degrees:
BA, Evergreen State College, 1999

Williamson, Kenneth 1972, Emeritus, Sch of Civil/Constr Engr

Willis, Patrick 2008, Associate Professor, Ext Washington Co Office
Degrees:
BS, Portland State University, 1983
MS, Portland State University, 1993

Willis, David 1962, Emeritus, Integrative Biology

Wilson, Gregory 2006, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Victoria,
MS, Oregon State University, 2009
PHD, Oregon State University, 2013

Wilson, Laurie 2003, Resident Dir-OUS France, OSU Global Opportunities
Degrees:
BA, Univ of California-Santa Cruz, 1993
MA, University of Oregon, 1996
PHD, University of Oregon, 2001

Wilson, Tracy 2015, Assistant Professor, Central Oregon Exp Sta
Degrees:
BS, Univ of Tennessee-Knoxville, 2006
MS, Oklahoma State Univ-Main, 2011
PHD, Oklahoma State Univ-Main, 2014

Wilson, Howard 1973, Emeritus, Mathematics

Wilson, James 1973, Emeritus, Wood Science/Engr

Wilson, Mark 1983, Emeritus, Ag Botany/Plant Path

Wiman, Nik 2012, Assistant Professor, North Willamette Exp Sta
Degrees:
BS, Montana State Univ-Bozeman, 1998
MS, Montana State Univ-Bozeman, 2001
PHD, Washington State University, 2011

Wimer, Jeffrey 2003, Senior Instructor II, Forest Eng/Resources/Mgmt
Degrees:
BS, Oregon State University, 1983

Winder, Charles 2016, Instructor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Texas Tech University, 1979
MBA, University of Houston, 1983
PHD, Texas Tech University, 2012

Winfield, Tammy 2007, Faculty Research Assistant, EXT Fam/CommHlth
OnCmps
Degrees:
BS, Oregon State University, 2009
MS, Oregon State University, 2013

Wing, David 2002, Instructor, Mathematics
Degrees:
BS, Oregon State University, 2002
BS, Portland State University, 2002
MS, Oregon State University, 2005
PHD, Oregon State University, 2011

Wing, Michael 1991, Associate Professor, Forest Eng/Resources/Mgmt
Degrees:
BA, University of Oregon, 1988
MS, University of Oregon, 1991
PHD, Oregon State University, 1998

Wingard, Christopher 1997, Senior Faculty Research AsstII, Earth, Ocean & Atmo Sci
Degrees:
BS, University of Oregon, 1993
MS, University of Oregon, 1996

Wingard, Nobuko 2014, Instructor, World Languag & Cultures
Degrees:
BA, University of Oregon, 2004
MA, University of Oregon, 2007
MA, Columbia University-NYC, 2012

Winograd, Kenneth 1990, Emeritus, College of Education

Winters, Breezy 2017, Instructor, Acad Prog/Student Aff

Winters, Dylan 2015, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of California-Santa Cruz, 2014

Winters, Haley 2014, Instructor (ESL), INTO OSU Program
Degrees:
MA, Portland State University, 2014

Winters, Johna 2013, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Beloit College, 2007

Winters, Kirsten 2006, Instructor, Sch Elect Engr/Comp Sci
Degrees:
BA, Concordia College-Moorhead, 1997
MPP, Oregon State University, 2011
PHD, Oregon State University, 2015

Winters, Eugene 1963, Emeritus, Extension Service Prgram

Wiprud, Theodore 1964, Emeritus, Art

Wirth, Donald 1971, Emeritus, Conference Services

Wiseman, Michele 2009, Faculty Research Assistant, Ag Botany/Plant Path
Degrees:
BS, Oregon State University, 2011
MS, Oregon State University, 2013

Withee, Shana 1986, Associate Professor, Ext Harney County Office
Degrees:
BS, Utah State University, 1982
MS, Utah State University, 1986

Withrow-Robinson, Bradford 1991, Associate Professor,Ext Benton County Office
Degrees:
BS, Oregon State University, 1984
MS, Oregon State University, 1995
PHD, Oregon State University, 2000

Witt, James 1966, Emeritus, Enviro/Molecular Toxic

Witers, Robert 1977, Emeritus, College of Ag Admin

Witzke, Kara 1998, Senior Instructor I, Acad Prog/Student Aff
Degrees:
BS, Biola University, 1990
MS, Cal State Univ-Fullerton, 1993
PHD, Oregon State University, 1997

Woekel, Erica 2007, Assistant Professor (Clinical), Sch of Bio/Pop Hlth Sci
Degrees:
BS, Trinity Western University, 2002
MA, University of British Columbia, 2005
PHD, Oregon State University, 2011

Wogaman, Mariol 1968, Emeritus, Library

Wolf, Aaron 1998, Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, San Francisco State University, 1985
MS, Univ of Wisconsin-Madison, 1990
PHD, Univ of Wisconsin-Madison, 1992

Wolpert, Thomas 1989, Professor, Ag Botany/Plant Path
Degrees:
BS, Univ of Nebraska-Central Offic, 1973
MS, Purdue University Main Campus, 1979
PHD, Purdue University Main Campus, 1983

Wolsko, Christopher 2009, Associate Professor, Acad Prog/Student Aff, Sch of Psychological Sci
Degrees:
BS, Univ of Illinois at Urbana-Cha, 1994
MA, Univ of Colorado-Boulder, 1998
PHD, Univ of Colorado-Boulder, 2001

Wong, Carmen 2006, Research Associate, Sch of Bio/Pop Hlth Sci
Degrees:
BS, U of Minnesota-Central Offices, 1993
PHD, Stanford University, 1999

Wong, Kylee 2013, Instructor (PAC), Physical Activity/Courses
Degrees:
BS, Oregon State University, 2017

Wong, Siew Sun 2011, Associate Professor, EXT Fam/CommHlth OnCmps
Degrees:
BS, Utah State University, 1996
MS, Utah State University, 1999
PHD, Utah State University, 2005

Wong, Weng-Keen 2005, Director- RIC, Sch Elect Engr/Comp Sci, Associate Professor
Degrees:
BS, University of British Columbia, 1997
MS, Carnegie Mellon University, 2001
PHD, Carnegie Mellon University, 2004

Wong, Sally 1973, Emeritus, Counseling Center

Wood, Brian 2001, Professor, Sch of Chem/Bio/Envr Eng
Degrees:
BS, Washington State University, 1988
MS, Washington State University, 1990
PHD, Univ of California-Davis, 1999

Wood, Guy 1985, Professor, World Langauag & Cultures
Degrees:
BS, Univ of Minnesota-Duluth, 1971
MA, New York University, 1973
PHD, Univ of Colorado-Boulder, 1984

Wood, Jeffrey 2009, Faculty Research Assistant, Earth, Ocean & Atmo Sci
Degrees:
BS, Oregon State University, 2011

Wood, Terence 1985, Emeritus, Sch of Bio/Pop Hlth Sci

Woodard, Ernest 1974, Emeritus, Extension Service Prgram

Woodburn, Margy 1969, Emeritus, Sch of Bio/Pop Hlth Sci

Woods, Brian 2003, Professor, Sch Nuclear Sci & Engr
Degrees:
BS, University of Virginia, 1988
MS, Univ of Maryland-College Park, 1999
PHD, Univ of Maryland-College Park, 2001

Wooster, David 2001, Riparian Entomologist, Hermiston Exp Sta
Degrees:
BS, University of Nevada-Reno, 1988
MS, Kansas State University, 1990
PHD, University of Kentucky, 1997

Wrathall, David 2016, Assistant Professor, Earth, Ocean & Atmo Sci
Degrees:
BA, Brigham Young University Main, 2002
MPA, University of Georgia, 2005
PHD, Foreign Institution, 2011

Wright, Maria 2001, Faculty Research Assistant, Water/Watershed Institut
Degrees:
BA, Carleton College, 1993
MS, Penn State Univ-Main Campus, 1996

Wright, Sara 2007, Senior Instructor I, College of Education
Degrees:
BS, Oregon State University, 1993
MAT, Oregon State University, 1994

Wrolstad, Ronald 1965, Emeritus, Food Science and Techno

Wu, JunJie 1997, Professor, Applied Economics
Degrees:
BS, Henan University, 1983
MS, Zhengzhou University, 1987
PHD, University of Connecticut, 1992

Wu, Qiao 1998, Professor, Sch Nuclear Sci & Engr
Degrees:
BS, Tsinghua University, 1983
MS, Tsinghua University, 1985
PHD, Purdue University Main Campus, 1995

Wu, Zhaohui 2003, Professor, College of Business
Degrees:
BA, Xian Foreign Language Univ, 1990
MBA, Bowling Green State University, 1997
PHD, Arizona State University, 2003

Wyld, Jennifer 2010, Instructor, College of Education
Degrees:
MED, Loyola College, 1999
MA, Univ of Texas-Austin, 1992
PHD, Oregon State University, 2015

Wynn, Mark 2011, Instructor (ESL), INTO OSU Program
Degrees:
BA, Northern Arizona University, 1999
MA, University of Arizona, 2007

Wysocki, Donald 1985, Associate Professor (Practice), Ext Umatilla Co Office
Degrees:
BS, Univ of Wisconsin-Stevens Pt, 1974
MS, Washington State University, 1977
PHD, Iowa State University, 1983

X

Xu, Donghua 2016, Assistant Professor, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Jilin University, 1998
MS, Cal Institute of Tech, 2002

Xue, Lan 2005, Associate Professor, Statistics (Science)
Degrees:
BS, Univ of Sci Tech of China, 2000
PHD, Michigan State University, 2005

Xue, Lei 2011, Associate Professor, Art
Degrees:
BA, Beijing Normal University, 1996
MA, Columbia University-NYC, 2003
PHD, Columbia University-NYC, 2009

Y

Yalcin, Kaplan 2006, Senior Instructor II, Earth, Ocean & Atmo Sci
Degrees:
BS, Univ of Missouri-Columbia, 1998
MS, Univ of New Hampshire-Durham, 1999
PHD, Univ of New Hampshire-Durham, 2005

Yalcin, Rebecca 2006, Instructor, Earth, Ocean & Atmo Sci
Degrees:
BS, Juniata College, 1999
MS, University of Maine, 2001

Yan, Qing 2014, Research Associate, Ag Botany/Plant Path
Degrees:
BS, Zhengzhou University, 2001
PHD, China Agriculture Univ, 2008

Yang, Haori 2013, Assistant Professor, Sch Nuclear Sci & Engr
Degrees:
MS, Univ of Michigan-Ann Arbor, 2006
MS, Tsinghua University, 2003
PHD, Univ of Michigan-Ann Arbor, 2009

Yang, Jimmy 2003, Professor, College of Business
Degrees:
BA, National Chung Hsing Univ, 1993
MBA, Saint Louis University-Main, 1997
PHD, Univ of Cincinnati Main, 2003

Yang, Liping 2007, Faculty Research Assistant, Chemistry
Degrees:
MS, Nankai University, 2002

Yang, Sean 2016, Assistant Professor, College of Business
Degrees:
MA, University at Buffalo, SUNY, 2005
PHD, University at Buffalo, SUNY, 2016

Yang, Wei 2001, Associate Professor, Ext No Willamette Co Off
Degrees:
BS, Northwestern University, 1986
MS, Penn State Univ-Main Campus, 1995
PHD, Penn State Univ-Main Campus, 1999

Yang, Zhiquiang 1997, Research Associate, Forest Ecosyst & Society
Degrees:
BS, Nankai University, 1994
MS, Chinese Academy of Sciences, 1997
PHD, Oregon State University, 2004
Yates, Tom 1963, Emeritus, Information Services

Yates-Doerr, Emily 2017, Assistant Professor, Anthropology
Degrees:
BA, Stanford University, 2001
MA, Stanford University, 2002
PHD, New York University, 2011

Yavuz, Attila 2014, Assistant Professor, Sch Elect Engr/Comp Sci
Degrees:
BS, Yildiz University, 2004
PHD, North Carolina State Univ, 2011

Yax, Kristen 2004, Instructor, Sch of Psychological Sci
Degrees:
PHD, University of Houston, 2010

Ye, Terrance 2003, Research Associate, Forest Ecosyst & Society
Degrees:
BA, Nanjing Forestry University, 1983
MS, Nanjing Forestry University, 1986
PHD, University of Alberta, 2003

Yeats, Robert 1977, Emeritus, Earth, Ocean & Atmo Sci

Yeh, Harry 2003, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Washington State University, 1975
MS, Washington State University, 1977
PHD, Univ of California-Berkeley, 1983

Yiilma, Solomon 1995, Senior Faculty Research Asst I, Crop and Soil Science
Degrees:
BS, Alemaya University of Agricult, 1981
MS, Alemaya University of Agricult, 1984

Yim, Solomon 1987, Professor, Sch of Civil/Constr Engr
Degrees:
BS, Rice University, 1976
MA, Univ of California-Berkeley, 1981
MS, Univ of California-Berkeley, 1977
PHD, Univ of California-Berkeley, 1983

Yin, Xihou 1997, Assistant Professor (Sr Res), Pharmacy
Degrees:
BS, South China Agricultural Univ, 1983
MS, Universite De Franche-Comte, 1992
PHD, Foreign Institution, 1996

Yonker, Nicholas 1962, Emeritus, Philosophy

Yoon, Jangho 2011, Associate Professor, Sch of Soc/Bhav Hlth Sci
Degrees:
BS, Yonsei University, 2000
MPH, Univ of N Carolina-Chapel Hill, 2002
PHD, Univ of N Carolina-Chapel Hill, 2007

Yoon, Tongkwon 2017, Instructor, World Languag & Cultures
Degrees:
BA, Korea University, 1989
MA, Korea University, 1993

You, Won Suk 2017, Research Associate (Post Doc), Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Sungkyunkwan University, 2009
MS, Sungkyunkwan University, 2011
PHD, Sungkyunkwan University, 2016

Youmans, Russell 1966, Emeritus, Applied Economics

Young, Amy 2016, Juntos Faculty Res Assist, Out & Engage Open Campus
Degrees:
BA, Brandeis University, 2006
MPH, Oregon State University, 2016

Young, Eugene 2007, Instructor, College of Business
Degrees:
BSEE, Penn State Univ-Main Campus, 1968
MBA, Santa Clara University, 1977

Young, George 2017, Research Associate, Sch of Mech/Ind/Mfg Engr
Degrees:
BS, Rensselaer Polytechnic Inst, 1990
MS, University of Virginia, 1993
PHD, University of Virginia, 1999

Young, Kimberly 2016, Instructor, Acad Prog/Student Aff
Degrees:
BA, Cal State Univ-Long Beach, 2001

Young, John 1972, Emeritus, Anthropology

Young, William 1977, Emeritus, Crop and Soil Science

Youngberg, Harold 1960, Emeritus, Crop and Soil Science

Younger, Kathryn 2013, Instructor, Animal & Rnglnd Sciences
Degrees:
BA, Oregon State University.
MS, Oregon State University, 2016

Yu, Larry 2009, Instructor, Ethnic Studies
Degrees:
BA, University of Kansas, 1989
MA, Brown University, 1999
PHD, Brown University, 1999

Yu, Shiao-Ling 1987, Associate Professor, World Languag & Cultures
Degrees:
BS, Caldwell University, 1958
MA, University of Kansas, 1977
MS, Boston College, 1961
PHD, Univ of Wisconsin-Madison, 1983

Yu, Zhen 1999, Faculty Research Assistant, Linus Pauling Institute
Degrees:
BS, Nankai University, 1994
MS, Oregon State University, 2002
PHD, Oregon State University, 2005

Yun, Joonkoo 1999, Professor, Sch of Bio/Pop Hlth Sci
Degrees:
BS, Sungkyunkwan University, 1987
MS, Univ of Wisconsin-La Crosse, 1992
PHD, Indiana University-Bloomington, 1998
Yungen, John 1950, Emeritus, Southern Oregon Exp Sta

The Office of Financial Aid is here to help you invest in your future. It’s a good idea to apply for financial aid at the same time that you apply for admission to OSU. Although we won't review your financial aid information until after your admission application is filed, you can still apply for financial aid before you have been admitted to OSU. Learn more about your options at OSU by choosing a category below.

Financial aid is based on the premise that you, and in the case of dependent students, your parents are primarily responsible for providing for your educational expenses, and it is intended to supplement student and family contributions toward educational costs. Financial aid comes from many sources, including federal and state government, private organizations, and Oregon State University's institutional funds. These funds consist of grants, scholarships, federal work study, subsidized loans, unsubsidized loans, and parent loans.

Eligibility/Application Procedures
To be eligible for federal financial aid, a student must:

1. Fill out the Free Application for Federal Student Aid (FAFSA), beginning October 1st using previous year tax data (for example the 2020–2021 application will use 2018 tax information). Parents and students are encouraged to use the IRS data retrieval tool to update their income information and submit it by the OSU priority deadline of February 28. The FAFSA application process allows for the completion of tax information questions from the IRS directly from your return! Follow the prompts while completing the application to authorize this information exchange. Always remember that there is no fee to apply for federal aid.

2. List Oregon State University as a school that you would like your information to be sent to on the FAFSA. Oregon State's federal school code is 003210.

3. The priority FAFSA application deadline for OSU is February 28th. This date is used to determine eligibility for some need-based aid programs as well as state and institutional funds. Applications received after the priority deadline will still be eligible for federal aid such as the Pell Grant and Direct Loans. Graduate students are not eligible for federal Title IV grants or subsidized loans.

4. Make sure you are eligible to receive financial aid. In order to receive federal funding you must:
   • Have a high school diploma or a General Education Development (GED) certificate, or complete a high school education in a home school setting that is treated as such under state law.
   • Be enrolled or accepted for enrollment in a degree or approved certificate program (e.g., not special admit)
   • Be a U.S. citizen or eligible noncitizen.
   • Have a valid Social Security Number.
   • Register with the Selective Service if required. You can register online (http://www.sss.gov) or you can call 1-847-688-6888. (TTY users can call 1-847-688-2567.)
   • Maintain satisfactory academic progress as defined by Oregon State University once in school.
   • Are not in default on a federal student loan and do not owe money on a federal student grant.
   • The Higher Education Act of 1965 as amended (HEA) suspends aid eligibility for students who have been convicted under federal or state law of the sale or possession of drugs, if the offense occurred during a period of enrollment for which the student was receiving federal student aid (grants, loans, and/or work-study).

5. Apply for admission to Oregon State University. Apply Online. You will not be considered for any financial aid award until you have applied to the university.

What happens AFTER I apply?
Once you have submitted your FAFSA application online you will receive a confirmation of receipt from Federal Student Aid. They will also send you a Student Aid Report that will give you a summary of your application and inform you of any problems you might need to resolve. You should read this report carefully and resolve problems in a timely manner. If you receive notification that something on your FAFSA is missing or incorrect, you can check your financial aid information through MyOSU.
Financial Aid information or email the OSU Office of Financial Aid for further information.

Students whose aid application was received by the end of February may expect to receive an initial award letter by approximately April 1. Aid applications are then completed on a rolling basis by date of receipt with award notifications being sent out as files are completed.

You will receive an email or letter once your financial aid award has been completed. You will also be notified if you need to provide further information in order for us to complete your application. All correspondence will be sent to your ONID email account, so be sure to keep your information up to date!

The award notification will show the type and amount of aid available to you for the coming school year. To reserve these funds, the student must read and accept the award within 30 days. The accepted award indicates the student has read and agrees to the terms of the award as outlined.

Understand Before You Accept

By accepting your award, you are stating that you have read, understand, and accept the Terms and Conditions (http://financialaid.oregonstate.edu/review_termsconditions/) of your award. As a recipient of financial aid, you must meet certain requirements to maintain financial aid eligibility. The Office of Financial Aid reserves the right to revise a financial aid award during any time of the year if there are changes in your financial aid eligibility. You will be notified through your OSU student email if new requirements have been established or revisions have been made. Your aid eligibility may change based on FAFSA Verification (http://financialaid.oregonstate.edu/verification-faqs/), Satisfactory Academic Progress (http://financialaid.oregonstate.edu/review_satisfactoryacademicprogress/), withdrawing (http://financialaid.oregonstate.edu/receive_withdrawal/) from courses, course participation (http://financialaid.oregonstate.edu/course-participation/), Census Date enrollment (http://financialaid.oregonstate.edu/receive_censusdate/), reaching aid limits (http://financialaid.oregonstate.edu/aid-limits-undergraduates/), and other factors. If you will be less than fulltime (12 credits as an undergraduate/post-bacc or 9 credits as a graduate student) please submit an enrollment revision form (http://financialaid.oregonstate.edu/forms/) to let us know.

Acceptance Deadlines

The acceptance deadlines listed on your award letter do not apply to federal Ford Direct subsidized and unsubsidized loan offers. If you are still deciding how much to accept in Ford loans, you may wait until closer to the start of the term to accept that portion of the aid offer.

Students Who Are Not Yet Admitted

You will not be able to login and accept your aid offer until you have received your Admission's letter and your OSU student ID number. If you have not yet received your ID number and cannot login to MyOSU, you may disregard the acceptance deadline listed on your award letter. Just be sure to accept or decline your aid offer once the Admission's process is complete.

How to Accept Your Aid Offer

To accept your financial aid, login to MyOSU (http://oregonstate.edu/main/online-services/). Log in using your ONID username and password.

If you need assistance with this information, you can contact the OSU Computer Help Desk at 541-737-3474.

You can then accept, reject, or revise your Financial Aid Award through MyOSU (https://oregonstate.edu/main/online-services/) by completing the following steps:

- Select the Paying for College tab
- Select Financial Aid Awards
- Select the appropriate year (ex. 2020-2021) in the top right of the screen
- Select the Award Offer tab
- Click Submit when done
- Go to Student Loans (https://studentaid.gov/) to complete any necessary Entrance Counseling and Master Promissory Notes (these are both required in order to receive federal student loans)
- If you will be enrolled less than fulltime submit an enrollment revision form (http://financialaid.oregonstate.edu/forms/)

*You may accept all or a portion of aid awarded to you. You are also not required to accept the maximum loan amount offered to you. To borrow a lesser amount, indicate the total amount of loan you wish to borrow for the academic year. When deciding what amount to accept, please note that your loans must be divided up equally throughout the academic year.

*You are responsible for notifying the OSU Office of Financial Aid in the event that you receive any additional awards from any other source. The OSU Office of Financial Aid will then make any required revisions to your aid package. The receipt of additional aid may result in a reduction or elimination of aid from university-administered programs, even if it has already been paid.

*If you are considered a dependent student, your parents can also apply for a Parent PLUS loan up to the remaining cost of attendance by completing a PLUS loan application and Master Promissory Note available for them through the Federal Student Loans website. (https://studentloans.gov/myDirectLoan/index.action/)

*Important notice about Parent PLUS loan applications: The PLUS loan application will not be available for 2020-2021 until May 01, 2020. If you attempt to apply prior to that date you will be told that OSU does not participate in the program. Rest assured, OSU DOES participate in the Federal Direct Parent PLUS loan program. Applications for parent PLUS loan requires a credit check each time the parent applies for the loan and is only valid for 180 days. Applying too early may cause delays with processing and disbursements. Students can review their file status by logging into their ONID account.

**Types of Financial Aid

Federal Programs

Federal Pell Grant

A need-based grant from the federal government intended for high need undergraduate students seeking their first bachelor's degree.

- After the Free Application for Federal Student Aid (FAFSA) is filed, the Department of Education sends you a Student Aid Report (SAR) or an Information Acknowledgement if you filed online. These documents will indicate if you are Pell eligible and it is important to review them for accuracy.
- Based on the Congressional approval of year round Pell, students may now receive up to 150% of their Pell eligibility in a single year.
You may be eligible to receive a fulltime Pell Grant for all 4 terms of the academic year. Terms in which a student is attending less than halftime (fewer than 6 credit hours) may not be counted towards this additional eligibility.

- Students may receive the Pell grant for a maximum of 18 terms/12 semesters. Utilizing year round Pell will use this lifetime eligibility (https://studentaid.ed.gov/sa/types/grants-scholarships/pell/calculate-eligibility/) more quickly.

Federal Supplemental Educational Opportunity Grant (FSEOG)
- A need-based grant from the federal government intended for high need undergraduate students seeking their first bachelor’s degree.
- Administered by the OSU Office of Financial Aid. Funds are limited and eligibility is based in part by meeting the OSU priority FAFSA submission deadline of February 28.

Federal College Work-Study Program (FWS)
Federal College Work-Study Program (FWS) program helps provide part-time jobs for students with financial need to help them pay for their education.

- The program is administered by the OSU Office of Financial Aid. Funds are limited and eligibility is based on need and in part by meeting the OSU priority FAFSA submission deadline of February 28.
- Being awarded FWS funds allows you to apply for jobs that specifically have the Work-Study designation. If you are awarded FWS and secure a Work-Study job, you will be paid monthly for hours worked.
- The amount of FWS indicated on your award is the maximum amount you may earn for the academic year. Funds are paid monthly on the basis of hours worked in the pay period not to exceed 20 hours per week.
- Students not awarded FWS may still apply for jobs both on and off campus.

Please review our Work-Study Page (https://financialaid.oregonstate.edu/Work_Study/) for more detailed information

LOANS

Loans: Federal Aid THAT DOES HAVE TO BE REPARED

Federal Loan Basics
- Federal Student Loans are aid that must be repaid.
- You must file a FAFSA each year to receive a federal loan offer.
- On Subsidized Loans, the U.S. Department of Education pays the interest while you are attending school at least half time.
- On Unsubsidized Loans, you are responsible for paying the interest during times of deferment.
- Parent Plus and Graduate Plus loans require a credit check and separate application each year.
- Minimum halftime enrollment is required each term to receive federal loans.
- Find interest rate and origination fees for all federal loans online (https://studentaid.ed.gov/sa/types/loans/interest-rates/)
- There are yearly, aggregate, and timeframe maximums for federal loans.
- The Perkins Loan program has not been extended beyond the 2017-2018 aid year. Repayment and deferment options are handled by the OSU Business Affairs Student Loan Office (https://fa.oregonstate.edu/business-affairs/perkins/). Please see our Perkins disclosure page (https://financialaid.oregonstate.edu/federal-perkins-loan-program-extension-act-additional-disclosures/) if you have an existing Perkins loan.

Types of Federal Loans

Subsidized Federal Ford Direct Student Loan
- Subsidized means the U.S. Department of Education pays the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) while you are attending school at least half time.
- Awarded to undergraduate students with financial need.
- The amount you are awarded is determined by your financial need and class rank.
- If you have not received a Federal Ford Direct Loan at OSU in the past, you must complete Entrance Counseling and a Master Promissory Note online (https://studentaid.gov/).
- Repayment begins 6 months after graduation or dropping below half time enrollment
- Has yearly, aggregate, and timeframe limits.

Unsubsidized Federal Ford Direct Student Loan
- Unsubsidized means you are responsible for paying the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) during times of deferment.
- Awarded to undergraduate and graduate students.
- The amount you are awarded is determined by your class rank and dependency status.
- If you have not received a Federal Ford Direct Loan at OSU in the past, you must complete Entrance Counseling and a Master Promissory Note online (https://studentaid.gov/).
- If you are a dependent student and your parent has been credit denied for the Parent Plus loan this year, you may submit a Student Loan Revision form to request an increase in the Ford Direct unsubsidized student loan.
- Repayment begins 6 months after graduation or dropping below half time enrollment.
- Has yearly and aggregate limits.

Parent PLUS Federal Loan
- The Federal Direct Parent PLUS Loan is a credit based loan borrowed by the parent on behalf of a dependent undergraduate or post-bacc student for educational expenses.
- Has no yearly or aggregate limits but amounts must fit into the expected cost of attendance.
- The loan is unsubsidized meaning you are responsible for paying the interest (https://studentaid.ed.gov/sa/types/loans/interest-rates/) during times of deferment.
- The parent borrower must complete a Direct PLUS Loan Application and Master Promissory Note (MPN) online (https://studentaid.gov/).
- The credit check, run as part of the application, is only valid for 180 days. Do not complete the application more than 180 days before the start of the term, or before May of the respective year if attending summer term.

*For applicants who have been determined to have an adverse credit history, but qualify for a Direct Parent PLUS loan by documenting extenuating circumstances or obtaining an endorser must complete
Effective July 1, 2013 there will be a limit on the amount of time that a student is allowed to borrow subsidized loan funds which will be tied to their program length. Students that exceed 150% of their program length will no longer be eligible to receive subsidized loan funds, regardless of any extensions granted based on the Satisfactory Academic Progress appeal process through the Office of Financial Aid. Find more details on the federal loan webpage.

**Independent Undergraduate Ford Direct Student Loan Maximum Per Year:**
- $9,500 freshman ($3,500 of that may be subsidized if eligible)
- $10,500 sophomore ($4,500 of that may be subsidized if eligible)
- $12,500 junior/senior ($5,500 of that may be subsidized if eligible)

**Independent Undergraduate Ford Direct Student Loan Aggregate Maximum (Limit for all years combined):**
- $57,500 Ford Direct Subsidized and Unsubsidized Loans Combined (no more than $23,000 of that may be subsidized)

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

* The Subsidized Federal Direct Ford Loan is need-based with the government paying the interest on the loan while the student is enrolled. Effective July 1, 2013 there will be a limit on the amount of time that a student may submit a Student Loan Revision form (https://financialaid.oregonstate.edu/forms/) to request an increase in the Ford Direct unsubsidized student loan. In this case the aggregate maximum increases to $57,500.

**Graduate PLUS Counseling**
- You must complete a Direct PLUS Loan Application and Master Promissory Note (MPN) and Entrance Counseling online (https://studentaid.gov/).
- The credit check, run as part of the application, is only valid for 180 days. Do not complete the application more than 180 days before the start of the term, or before May of the respective year if attending summer term.

*For applicants who have been determined to have an adverse credit history, but qualify for a Direct Graduate PLUS loan by documenting extenuating circumstances or obtaining an endorser must complete the PLUS Counseling online (https://studentaid.gov/).

**FEDERAL LOAN LIMITS**

**Dependent Undergraduate Ford Direct Student Loan Maximum Per Year:**
- $5,500 freshman ($3,500 of that may be subsidized if eligible)
- $6,500 sophomore ($4,500 of that may be subsidized if eligible)
- $7,500 junior/senior ($5,500 of that may be subsidized if eligible)

* If a Parent Plus loan has been credit denied for this year, the student may submit a Student Loan Revision form (https://financialaid.oregonstate.edu/forms/) to request an increase in the Ford Direct unsubsidized student loan. The maximum increase is $4,000 for fresh/soph and $5,000 for jr/sr.

**Dependent Undergraduate Ford Direct Student Loan Aggregate Maximum (Limit for all years combined):**
- $31,000 Ford Direct Subsidized and Unsubsidized Loans Combined (no more than $23,000 of that may be subsidized)

* If a Parent Plus loan has been credit denied for this year, the student may submit a Student Loan Revision form (https://financialaid.oregonstate.edu/forms/) to request an increase in the Ford Direct unsubsidized student loan. In this case the aggregate maximum increases to $57,500.

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

* The Subsidized Federal Direct Ford Loan is need-based with the government paying the interest on the loan while the student is enrolled. Effective July 1, 2013 there will be a limit on the amount of time that a student may submit a Student Loan Revision form to request an increase in the Ford Direct unsubsidized student loan.

**Graduate Ford Direct Loan Limits**

**Graduate Ford Direct Student Loan Maximum Per Year:**
- $20,500 (unless seeking certain medical or professional degrees)

**Graduate Ford Direct Student Loan Aggregate Maximum (Limit for all years of undergraduate and graduate work combined):**
- $138,500 (unless seeking certain medical or professional degrees)

* The credit hour maximum timeframe (MTF) is an additional limitation beyond the federal aggregate aid maximums. More information about the MTF may be found on the Satisfactory Academic Progress section of our website.

**Campus Scholarships**
These limited merit and need based scholarships are administered by the Office of Scholarships and the Office of Financial Aid. Incoming students are considered based on completion of the scholarship portion of the admissions application. Eligibility is limited to students who have completed fewer than 12 terms and submit the application for Admission by February 1. Recipients must be enrolled full-time and are notified of their awards in writing. Criteria is available on the Scholarships website (https://scholarships.oregonstate.edu/prospective-student-scholarships/).

**Departmental Awards**
Each department on campus administers their own awards. Contact the department or donor directly for specific information regarding the award. For a searchable database of scholarships, visit ScholarDollars (https://scholarships.oregonstate.edu/scholardollars/).

Private Awards

These awards come from outside donors and can affect your financial aid package. Outside scholarship checks should be mailed to: Student Accounts, Oregon State University, PO Box 1086, Corvallis, OR 97339. If you have not already submitted notification to the Financial Aid Office regarding your outside scholarships, please submit the Reporting Additional Sources of Assistance form located on the Financial Aid Forms page.

State of Oregon Opportunity Grant

The Opportunity Grant is a state grant administered by the Office of Student Access and Completion (OSAC) and awarded to undergraduate Oregon residents based on need and allowable funding. Students must complete the FAFSA (https://fafsa.ed.gov/) or ORSAA (https://oregonstudentaid.gov/fafsa-orsaa.aspx) each year in order to be considered. Twelve terms of eligibility are possible. This grant is not available during summer term.

OSAC Scholarship Application

Start your OSAC Scholarship Application (https://app.oregonstudentaid.gov/), final deadline is March 1 of each year. In the event that it falls on a weekend or holiday, the deadline will automatically be extended to 5:00 p.m. (PST) of the following business day.

Oregon Student Child Care Grant

You may apply for the Oregon Student Child Care Grant (https://app.oregonstudentaid.gov/) if you are an Oregon student seeking financial support for college students with children in daycare.

Other Programs

Private Supplemental/Alternative Loan

Students needing additional funding for school, whose aid package has not fully met their cost of attendance, may opt to apply for funding through a private lending agency. These loans have a variable interest rate, and a credit check must be done on all applicants. OSU cannot recommend lenders for private/alternative loans. More information may be found on our webpage (http://financialaid.oregonstate.edu/review_aidtypes_privateloans/).

Graduate Students

Based on the FAFSA application, graduate degree seeking students may be eligible to receive Unsubsidized Direct Loans. The annual loan maximum for non-professional students is $20,500 per academic year. The aggregate borrowing limit is $138,500. This includes all Federal Direct Subsidized and Unsubsidized loans borrowed for undergraduate and graduate study. Students must be enrolled at least half time (5 credits) and repayment begins six months after graduation, withdrawal, or if you drop below half-time enrollment. Interest rate and origination fee information may be found on the FSA webpage (https://studentaid.ed.gov/sa/types/loans/interest-rates/). For more information, visit our graduate student webpage (http://financialaid.oregonstate.edu/graduate-student-aid/).

In addition to Unsubsidized Direct Loan, Graduate Students can apply for a credit based Graduate PLUS loan (https://studentaid.gov/). If credit approved for this loan, graduate students may accept up to their remaining cost of attendance for that year.

Before you can receive a PLUS Loan, your school must have determined your maximum eligibility for Direct Unsubsidized Stafford Loans.

In addition to these Federal Aid Programs, the Graduate School offers additional information on Assistantship, Grant and Scholarship Opportunities on their webpage (http://gradschool.oregonstate.edu/).

Receipt of Aid Funds

OSU Office of Business Affairs is responsible for disbursing refunds from student accounts once financial aid has been applied. You must be registered and have your tuition and fees billed to your account for financial aid to be applied. Aid funds are never made available in advance. Textbooks cannot be charged to a student’s account. It is assumed that the student will purchase textbooks out-of-pocket and use any refund to ‘reimburse’ themselves for the costs. If a credit balance remains on your student account after current university charges are paid, you will be issued a refund. Federal Work-Study earnings are paid by payroll check to you each month for hours worked. You may receive a refund and still have an outstanding balance on your account. For more information about your bill or refund, visit the Business Affairs website.

Delayed Disbursements

There are several ways in which your aid may be delayed. Here are the most common reasons:

- You may be required to complete Entrance Counseling and sign a Master Promissory Note (MPN) for your Ford Direct Loans. You would have been notified of these requirements via an email to your ONID email account.
- Dropping classes (below 12 for undergraduates, 9 for graduates). All students are assumed to be full-time unless they notify Financial Aid in writing that they will be less. If you are not enrolled at full-time and have not notified us, your aid will not disburse.
- Registering late for classes.
- Being waitlisted for classes. These classes do not count toward your enrollment level until you are actually enrolled in them.
- Having unsatisfied requirements with your financial aid file. Check your status through MyOSU/Financial Aid/My Eligibility.

You are responsible for managing your Financial Aid experience, so be sure to check MyOSU frequently and review any emails you receive from us as they may include requests for additional information or action.

Requesting Changes

It is understood that you want as much grant and scholarship money as possible. When you are awarded your financial aid, your award will reflect your eligibility for available grant aid. When accepting your award, you may always request a lesser loan amount. Please note that loan funds are divided into equal disbursements, based on your enrollment at OSU within the given year. You may replace your Federal Work-Study funds with a Direct Ford loan, however this is dependent upon your loan eligibility. In addition, if you initially decline loan funds but find later that you in fact need them, you may also request that the loan be reinstated up to the total of your original offer. Please request any changes in writing.
by submitting a Loan Revision Request form to the financial aid office. Be aware that not all budget requests can be accommodated.

**Additional Costs**

In certain instances, your cost of attendance may be adjusted to include other allowable costs incurred to meet your educational needs. Requests are reviewed on a case-by-case basis to determine approval. Documentation of the additional expense must be included for consideration. If approved, additional expenses are usually funded with 'self-help' assistance in the form of loans. Adjustments are not made for consumer debts, car payments, or private school tuition.

Adjustments may include, but are not limited to:

- Medical or dental cost not covered by insurance
- Computer expense (one time allowance)
- Child care cost for children 12 and under
- Commuting costs from outside the Corvallis area
- Costs related to students with disabilities
- Study abroad program fees

**Parent or Student Expected Contributions (EFC)**

The information you reported on your FAFSA is used to calculate a number called the Expected Family Contribution (EFC). The EFC is not the amount of money that your family must provide. The school uses the EFC to determine the amount of your federal grants, loans, or work-study awards for which you may be eligible.

**Changes in Your Situation**

Financial Aid offices may consider special or unusual circumstances that impact your family situation. Please contact us with any questions you might have regarding your eligibility for a review.

**Renewing Aid**

You must apply for financial aid every year by submitting a FAFSA application. Applications must be received before February 28 at the central processor to be considered for priority funding. You may apply for aid online after October 1st for the following academic year.

**Dropping Courses and the Census Date**

Dropping courses impacts your financial aid in several ways. Aid is based on your enrollment level on the Census Date (https://financialaid.oregonstate.edu/receive_censusdate/) of each term. For undergraduates, full-time status is 12 or more credits, 3/4 is 9-11 credits, 1/2 is 6-8 credits, and less than halftime is 1-5 credits. Less than fulltime enrollment may affect your financial aid eligibility. Students enrolled less than halftime are not eligible to receive most types of aid including federal student loans. If you plan on being less than fulltime you must submit an enrollment revision form (https://financialaid.oregonstate.edu/forms/) to the Office of Financial Aid.

Financial aid eligibility each term is based on your level of enrollment on the Census Date (https://financialaid.oregonstate.edu/receive_censusdate/). On this date, budgets and financial aid are adjusted and locked based on your enrollment level at that time. If your aid was paid at the full-time amount and you are less than fulltime on the Census Date, your budget will be revised and your aid may need to be reduced to reflect your Census Date enrollment. This revision may create a new bill on your OSU student billing account.

Dropping or withdrawing from courses after the census date, may also impact your financial aid eligibility for the current and future terms. Withdrawing (https://financialaid.oregonstate.edu/receive_withdrawal/) from all courses, failing to complete courses (unofficially withdrawing), or not participating (https://financialaid.oregonstate.edu/course-participation/) in courses, may result in the partial or full loss of aid eligibility for that term. Future term eligibility will depend on continuing to make Satisfactory Academic Progress (https://financialaid.oregonstate.edu/review_satisfactoryacademicprogress/).

If you will be less than halftime, be sure to stay in contact with your loan servicer. Halftime enrollment is required in order to keep federal loans in the "in school deferment status". Find more on our Loan Repayment page (https://financialaid.oregonstate.edu/loan-repayment/).

**Short Sessions (Courses in Modules)**

If a student is enrolled in sessions that do not span the entire 11 week term (modules) there are special rules that apply. You are paid federal financial aid based on all of the modules (entire payment period) you are registered for at the time of disbursement. If you do not complete all of those modules a return of federal funds may be required.

Be sure to monitor your OSU student email carefully. If you drop, withdraw from, or do not fully complete your current modules, you will be considered withdrawn from the term even if you are still enrolled in a future modules. In this case you may be emailed a request to complete a survey verifying your intent to participate in future modules. If you do not complete this survey, a return of federal aid may be required. See our Withdrawal Page (https://financialaid.oregonstate.edu/receive_withdrawal/) under “How is the return of federal aid calculation different for short sessions/modules?” for more detailed information on how drops, withdrawals, and non-completion can impact your aid.

The Pell Grant must always be adjusted to exclude payments for any course you do not participate in. If you drop a course before that course session began, we are required to reverse any Pell Grant payments made for that course. Reversed Pell will be returned to the Department of Education. This reversal of aid may create a new bill on your OSU student billing account.

**What Happens If I Withdraw?**

Students who withdraw from the university after the start of the term must complete a Withdrawal Form through the (https://registrar.oregonstate.edu/withdraw-term/)Registrar’s Office (http://oregonstate.edu/registrar/) and notify the Office of Financial Aid of their current and future term enrollment plans with an Enrollment Revision Form (https://financialaid.oregonstate.edu/forms/). If financial aid funds were used to pay tuition and fees any refundable tuition amount is returned to the appropriate financial aid sources (refer to the tuition/fee refund schedule on the Business Affairs page (https://fa.oregonstate.edu/business-affairs/tuition-reduction-schedule/#text)).

OSU is required to calculate the Return of Title IV financial aid funds for students that officially withdraw (complete the withdrawal process) or unofficially withdraw (ceasing course participation) during the academic term. Students who do not intend to complete the term for which they
are enrolled, should follow the official withdrawal process as outlined by university regulations.

The information below is a brief summary of the process that takes place when a student withdraws from all courses or fails to receive a passing grade for a given term. The policies and procedures listed are subject to change without advance notice based on changes in federal or institutional policies. This is not an exhaustive list of the rules pertaining to the Return of Title IV funds. Further guidance regarding these policies and procedures may be obtained by contacting the Office of Financial Aid. Reference material relating to the federal rules for this process may be found in Volume 5 of the Federal Student Aid Handbook (https://ifap.ed.gov/ifap/byAwardYear.jsp?type=fsahandbook). The return of funds calculation worksheet may be found in the IFAP iLibrary (https://ifap.ed.gov/ifap/titleiv.jsp).

What Happens If I Withdraw From or Do Not Complete A Course

The impact of a partial withdrawal (official or unofficial) will vary greatly by student status, type of aid awarded, participation, and other factors. Students who plan to drop, withdraw, or do not complete one or more courses, should contact the Office of Financial Aid for a personalized evaluation of how a partial withdrawal will impact their current and future aid eligibility.

Below are some important things to keep in mind about how a partial withdrawal may impact current and future term federal aid eligibility:

**Current Term**

The Census Date (https://financialaid.oregonstate.edu/census-date/) is the point at which your enrollment is locked for financial aid purposes. During the fall, winter, and spring terms, the census coincides with the last date you can drop classes for a full tuition refund at OSU. At this point in the term, credit hours are locked and financial aid for the term is adjusted to reflect the student's official enrolled credits. In a standard length term, a partial withdrawal after census does not impact current term aid eligibility in most cases.

Terms when a student is taking short session/modular courses are treated differently. You may be considered completely withdrawn from the term even if you have successfully completed earlier modules or are enrolled in future modules. Review the “How is the return of federal aid calculation different for short sessions/modules?” section (drop down on the lower part of the withdrawal page) for further information.

**Future Term**

To maintain federal aid eligibility a student must make Satisfactory Academic Progress. This means meeting certain criteria for OSU GPA, Pace of completion, and consistency of completion. The Pace of completion percentage is calculated by dividing the number of credits successfully completed by the number attempted. When you withdraw from or do not successfully complete a course, your Pace of completion goes down. For example, if you complete 5 out of 10 credits your Pace of completion is 50%. If you do not maintain a pace of at least 67% overall Pace, federal aid eligibility can be lost. Find out more on our Satisfactory Academic Progress page (https://financialaid.oregonstate.edu/renewing-your-aid/).

Students are expected to understand the terms, conditions, and requirements that relate to their financial aid award. Additional information on retaining full financial aid eligibility may be found on the Financial Aid webpages:

- Satisfactory Academic Progress (https://financialaid.oregonstate.edu/satisfactory-academic-progress/)
- Terms and Conditions (https://financialaid.oregonstate.edu/terms-conditions/)
- Renewing Your Aid (https://financialaid.oregonstate.edu/renewing-your-aid/)
- Census Date (https://financialaid.oregonstate.edu/census-date/)
- Course Participation (https://financialaid.oregonstate.edu/course-participation/)

**What Happens If I Do Not Complete Any Courses in a Term?**

Federal financial aid is awarded based on the expectation that a student will participate in all of their courses through the last day of the term. When a student does not complete any courses, the Office of Financial Aid is required to review their eligibility for aid that has been or could be disbursed. A return of Title IV (federal aid) calculation must be completed for any student who did not complete the term. A student is considered to have earned the full amount of disbursed federal aid if they participated in all courses and completed more than 60% of the term. In cases where full participation and more than 60% term completion cannot be verified, a return of federal Title IV and other types of aid may be required.

In most cases, the percent completion date used for the Return of Title IV funds calculation will either be based on the date of withdrawal or the last date of participation reported by instructors. In the case of an official withdrawal that is processed during the term, the calculation is usually completed based on the date of official withdrawal reported by the Registrar's Office. A student is considered unofficially withdrawn if they fail to receive any passing grades in a given term. In the case of an unofficial withdrawal, the date used will be based on participation dates reported by OSU and partner school instructors. The last date of participation may also be used for the Return of Title IV funds calculation instead of the withdrawal date in cases where the participation date is considered more accurate.

In addition to a current term return of federal funds, future term aid eligibility may be impacted by a full withdrawal. Students are expected to understand the terms, conditions, and requirements that relate to their financial aid award. Additional information on retaining full financial aid eligibility may be found on these Financial Aid webpages:

- Satisfactory Academic Progress (https://financialaid.oregonstate.edu/satisfactory-academic-progress/)
- Terms and Conditions (https://financialaid.oregonstate.edu/terms-conditions/)
- Renewing Your Aid (https://financialaid.oregonstate.edu/renewing-your-aid/)

**How Does a Return of Federal Aid Calculation Work**

The Return of Title IV Funds calculation determines the amount of federal funds that must be returned by the institution as well as how much aid the student must return for the period of non-enrollment. For students who completed 60% or less of the term, a pro-rated schedule is used to determine the amount of aid that must be returned. That means the percentage of aid that a student is eligible to retain for the term is based on the percentage of the term that they completed. If a return of aid amount is calculated, the funds must be repaid to the financial aid programs in the following order.
• Federal Direct Unsubsidized Ford Loan
• Federal Direct Ford Loans
• Federal Perkins Loan
• Federal Direct PLUS Loan
• Federal Pell Grant
• FSEOG

The amount of federal aid that you must repay is determined via the Federal Formula for Return of Title IV funds (Section 484B of the Higher Education Act). This law also specifies the order in which funds are to be returned to the financial aid programs from which they were awarded, starting with loan programs.

You may be required to make a repayment when cash has been disbursed from financial aid funds, in excess of the amount of aid that you earned (based on the date of your total withdrawal or last date of participation) during the term. The amount of Title IV aid earned is determined by multiplying the total Title IV aid (other than FWS) for which you qualified by the percentage of time during the term that you were enrolled.

If less aid was disbursed than was earned, you may submit a request to receive a late disbursement for the difference.

If more aid was disbursed than was earned, the amount of Title IV aid that you must return (i.e. not earned) is determined by subtracting the earned amount from the amount actually disbursed.

The responsibility for returning unearned Title IV aid is shared between the university and you. It is allocated according to the portion of disbursed aid that could have been used to cover university charges, and the portion that could have been disbursed directly to you once those charges were covered. OSU will distribute the unearned aid back to the Title IV programs, as specified by law. The return of funds will be completed within 45 days of the date the determination of the withdrawal. You will receive a letter by postal mail if the Return of Title IV Funds calculation was completed and a return of funds was required. If the Return of Title IV Funds calculation was not required but funds needed to be returned for other reasons, you will be notified through your OSU student (onid) email.

You will be billed for the amount that you owe to the Title IV programs, as well as any amount due to the university, as a result of Title IV funds that were returned that would have been used to cover university charges.

Withdrawing (official or unofficially) from a term may also impact a student's eligibility for financial aid in future terms. Students should familiarize themselves with the Satisfactory Academic Progress requirements for federal aid and should contact the Office of Financial Aid regarding how federal and other types of aid may be impacted.

How is the Return of Federal Aid Calculation Different for Short Sessions/ Modules

OSU has multiple sessions that do not span the entire length of our usual 11 week term (mostly during summer). These shorter sessions are considered “modules” for federal financial aid purposes and these modules have unique rules that may impact federal aid eligibility.

A student may be considered withdrawn if they do not complete all days in the payment period they were scheduled to complete. For a student enrolled in sessions not spanning a full 11 week term, the payment period they are expected to complete is made up of the combined calendars for all sessions that they were paid aid on.

If a student drops courses in a future session while they are enrolled in a current session, they are not considered withdrawn from the term. An aid adjustment may be required for those drops but a Return of Title IV calculation would not be required.

A student who drops, withdraws from, or does not complete their current sessions, will be considered withdrawn from the term even if they are still enrolled in a future session. Students must monitor their student email for the Summer Survey request. Students will be required to submit that survey in order to verify their intent to participate in those future sessions. If this intent to participate survey is not received, a Return of Title IV Calculation must be done even if the student has successfully completed other coursework for the term and is enrolled in future sessions.

For courses in modules, the calendar used in the Return of Title IV funds calculation includes all days within the period that the student was scheduled to complete (including those completed by the student) prior to ceasing attendance. For example, a student enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). If they drop session 5 (a session that has not yet started) before they withdraw from session 2, we calculate using only the session 2 calendar. If they were still enrolled in session 5 when they withdraw from session 2, we calculate on both calendars combined. Calculating on the combined calendars may reduce the completion percentage which may increase the amount of funds that needs to be returned.

Below are 3 examples of how drops, withdrawals, and non-completion can impact aid in modules:

EX 1. Mary enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). She withdraws from session 2 on 6/1 and remains enrolled in session 5. In this case Mary will be considered withdrawn from the term if she does not complete the summer survey to confirm her intent to attend session 5. As long as Mary submits that survey and successfully completes session 5, a Return of Title IV calculation is not required.

EX 2. Joe enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). He receives a B grade in his session 2 course but, after that course had ended, decides he no longer wants to take the course in session 5. Joe had been paid federal aid with the expectation that he would complete the entire payment period that spanned both sessions. Because he decided not to complete session 5 after session 2 had ended, a Return of Title IV calculation is required and he may end up owing aid money back for the term.

EX 3. Barry enrolls in 2 summer sessions (session 2 spans 6/25-7/20 and session 5 spans 8/20-9/7). While enrolled his session 2 course he decides he no longer wants to take the course in session 5 and drops that course. Barry had been paid federal aid with the expectation that he would complete the entire payment period that spanned both sessions. Because he dropped his session 5 course while he was still attending session 2, a Return of Title IV Calculation is not required but his Pell Grant is still reduced for the session 5 course he never attended.

What if I am a Degree Partnership Program Student Who Withdraws from of Fails Partner School Courses

In cases of official and unofficial withdrawal an instructor reported last date of participation (https://financialaid.oregonstate.edu/course-participation/) may be required to determine a student’s aid eligibility. The OSU Office of Financial Aid is not able to contact partner school instructors directly to obtain this information. After a term has ended DPP
students may be contacted with instructions on how to complete this participation verification process. Due to the time sensitive nature of this process, it is very important for DPP students to check their OSU Student (ONID) email regularly to look for these financial aid notifications. Failure to verify participation may result in the reduction or full loss of financial aid eligibility for the term.

**Student Responsibilities**

**Reporting Changes**

Your financial aid is based on the information submitted to our office for the current academic year in which you requested aid. To keep your file current and accurate, you are required to report the changes to the OSU Office of Financial Aid. You should expect a revision of your award in most cases. Reasons for changes can include but are not limited to:

- Additional financial assistance: scholarships, grants, loans, fee waivers, Tribal Assistance, tuition/book support, social security benefits or any other monetary award not reported previously.
- Receipt of graduate teaching or research assistantship, and/or fellowship.
- Receipt of resident advisor position.
- Changes in enrollment hours and/or withdrawal from the university.
- Changes in residency status for tuition purposes.
- Change in course load if below full time.

**Entrance and Exit Interview**

All Federal Direct Ford loan recipients are required to complete an entrance interview prior to receiving the first disbursement of their loan proceeds. They are also required to complete an exit interview during their last term of attendance. (For further information can be found online (https://studentaid.gov/)).

**Appeals**

Students who are not satisfied with a decision of a financial aid staff member may appeal that decision, in writing, and then in person to the following staff in the order indicated: the director of Financial Aid, and then the Financial Aid Appeals Subcommittee. The decision of the director and/or Financial Aid Appeals Subcommittee will be considered final.

**Student Enrollment Levels**

Federal financial aid eligibility and deferment of student loans are affected by enrollment levels. Summer enrollment levels are the same as other terms.

**Undergraduate**

*Full Time*: 12 or more credits in a term  
*Three Quarter Time*: 9 to 11 credits in a term  
*Half Time*: 6 to 8 credits in a term

**Graduate**

*Full Time*: 9 or more credits in a term  
*Half Time*: 5 to 8 credits in a term

**OSU ScholarDollars**

Starting November 1st, OSU students may use OSU ScholarDollars to submit an application for the nearly $50 million in campus-based scholarship funding available for the 2019-2020 academic year. By submitting one application, you will be considered for over 1,600 OSU scholarship opportunities!

Newly-admitted and continuing OSU students are eligible to apply for scholarships through OSU ScholarDollars. Students must have been admitted to OSU and have an active ONID account to be able to log into the system and submit an application.

Submit your OSU ScholarDollars application between November 1, 2019 and February 1, 2020 to maximize the number of scholarships for which you will be considered. Most OSU scholarships have a deadline on or after February 15, 2020, but specific deadlines may vary.

Merit-based, need-based, and activity-based OSU scholarships are available, and OSU ScholarDollars also offers a searchable database of external scholarships.

For further information about ScholarDollars, please email the Scholarship Office at scholarship.office@oregonstate.edu.

- OSU ScholarDollars (https://scholarships.oregonstate.edu/scholardollars/)
GLOSSARY & CATALOG DEFINITIONS

The following terms are used throughout the Academic Catalog.

Academic Probation: Students who have completed two or more terms at OSU and have an OSU cumulative GPA below 2.0 will be placed on probation. Students who attain a cumulative GPA of 2.0 or better are removed from academic probation.

Academic Suspension: Students who are on probation and have a subsequent term GPA of less that 2.0 will be placed on suspension. A student who has been suspended from OSU is prohibited from enrolling in classes, and must fulfill specified criteria before being re-admitted to the university (see Academic Regulation 22 [https://catalog.oregonstate.edu/regulations/]). Academic suspension is recorded on the student’s academic record.

Academic Warning: Students with a term GPA below 2.0 will be placed on academic warning.

Academic Year: The time period containing the academic terms fall, winter, and spring (currently September through June). When summer term is considered as part of an academic year, or when it is considered as part of the Banner Student Information Systems (SIS), summer term is the first term of the academic year.

Add/Drop: Students may add or drop classes in accordance with the dates outlined on the Academic Calendar (https://registrar.oregonstate.edu/osu-academic-calendar/).

Advanced Placement: Advanced placement and/or credit may be granted to an entering student who has satisfactorily completed College Board Advanced Placement Examinations taken during high school.

Advanced Standing Report: A summary of courses and credits completed by a student at one postsecondary institution and accepted by another institution at the time of admission. The advanced standing report is used to determine the number of required and elective credits needed to complete degree requirements.

Advisor: A faculty member appointed by a program, department, school, or college to advise students during their college experience.

Baccalaureate Core: The university’s general education requirements consisting of skills courses; perspectives courses; difference, power and discrimination courses; synthesis courses; and writing intensive courses. A baccalaureate core course is designated with an asterisk, *, a writing intensive course with a caret, ^. See Earning a Degree at Oregon State University (https://catalog.oregonstate.edu/earning-degrees/) in this catalog.

Baccalaureate Degree: An approved academic award given for the satisfactory completion of an instructional program requiring at least four but not more than five years of full-time equivalent college-level academic work that includes the following:

1. institutional general education requirements (i.e., baccalaureate core);
2. major area of study requirements; and
3. may include option, minor, supporting area, or elective requirements.

A minimum of 180 credits is required for most degree programs. Some majors may require more. The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

BA Degree: The Bachelor of Arts degree is conferred for broad and liberal education in humanities, arts, social sciences, and sciences. College BA requirements provide:

1. a breadth of preparation in these fields that is significantly greater than that required of all undergraduates through the baccalaureate core; and
2. foreign language proficiency certified by the School of Language, Culture, and Society as equivalent to that attained at the end of the second year course in the language.

Proficiency in American Sign Language equivalent to that attained at end of the second year also meets the BA language requirement.

BFA Degree: The bachelor of fine arts is a professional degree requiring a minimum of 105 credits in the visual arts.

BS Degree: The Bachelor of Science degree is conferred for focused curricula that emphasize scientific ways of knowing and quantitative approaches to understanding in the sciences and social sciences, and for curricula in professional fields.

Blanket-numbered Courses: Reserved number courses such as 401/501/601. See Reserved numbered courses.

Certificate Program (undergraduate): A specified interdisciplinary program of study leading to an official certificate and notation on the transcript. A certificate program draws courses from more than one department, rather than a single department (as with most minors). An undergraduate certificate program must be taken in conjunction with a formal degree program. An undergraduate certificate requires a minimum of 27 credits.

Certificate Program (postbaccalaureate): A specified program of study of undergraduate courses leading to an official certificate and notation on the transcript. A completed baccalaureate degree program from an accredited institution is required. A postbaccalaureate certificate program requires a minimum of 27 credits.

Certificate Program (graduate): A structured progression of graduate-level courses that constitute a coherent body of study with a specifically defined focus within a single discipline or a logical combination of disciplines. It is designed for students who have completed a baccalaureate degree and are in pursuit of advanced-level learning. A graduate certificate requires a minimum of 18 graduate credits.

Certificate Program (professional): A site-based training and professional development certificate that is not transcript visible.

College: A subdivision of the university offering degree programs within a specific subject area. For example, the College of Forestry offers degree programs in forest engineering, forest resources, forest science, and wood science and technology.

Commencement: A term used to refer to the graduation ceremony held in June.

Corequisite: A course that must be taken concurrently with another course.
Course: An organized unit of instruction or research. Types include lectures, recitations, seminars, laboratories, discussions, internships, clerkships, reading and conference, independent study, and other categories of courses.

Course Designator (subject code): An abbreviation representing the department, college, or program offering the course. Example: MB indicates that the course is offered through the Department of Microbiology.

Course Numbering: State universities in Oregon follow this basic course numbering system:

- 0–99. Noncredit or credit courses of a remedial, terminal, or semiprofessional nature that are not applicable toward degree requirements.
- 100–299. Undergraduate, lower-division courses.
- 300–499. Undergraduate, upper-division courses.
- 500–599. Graduate courses offered primarily in support of a master’s degree but which are also available for doctoral-level credit. Undergraduates of superior scholastic achievement may be admitted on approval of the instructor and department head. An undergraduate student may apply to reserve these courses for later use on a graduate degree program.
- 600–699. Graduate courses offered principally in support of doctoral-level instructional programs but also available for master’s program credit.
- 700–799. Professional or technical courses that may be applied toward a professional degree (such as DVM or PharmD) but not toward other graduate degrees (such as PhD).
- 800–899. In-service courses aimed at practicing professionals in the discipline. These courses may not be applied to graduate or professional degree programs.
- 001NC–099NC. Non-credit courses offered through the INTO Oregon State University Intensive English program.

Course Reference Number (CRN): A five-digit number used to select a specific course, lab, and/or recitation.

Commonly Numbered Courses: House Bill 2913 directed the Oregon University System (defunct since June 30, 2015) and Oregon community colleges to jointly develop, to the extent possible, a common course numbering system for lower-division transfer courses. The ‘Commonly Numbered Course List’ represents a good faith effort to meet the requirements of the legislation. The list of courses is recommended for use by campuses’ faculty and administration as they develop or revise academic programs to better facilitate students transferring from community colleges to public four-year institutions. OSU agreed to this list after review by all affected departments. The ‘Commonly Numbered Course List’ available through the Office of Academic Programs and Assessment includes course descriptions in addition to the course numbers and titles. Course numbers and title should follow the usage in the list. Descriptions may vary.

CRED (Credential): A student who has received a previous baccalaureate degree from either OSU or another accredited university or college may be granted a subsequent minor, certificate, major or option under the guidelines of Academic Regulation 27 (https://catalog.oregonstate.edu/regulations/). It indicates the student is not seeking a degree, but rather a credential to accompany an existing degree.

Credit: Credits vary, depending upon the type of course and level at which it is offered. One credit is generally given for three hours per week of work in and out of class. For example, each hour of class lecture is generally expected to require two hours of work out of class. One credit would be given for a lecture course that met for one 50-minute period each week over a 10-week period; i.e., 10 contact hours between faculty and students. One credit is typically given for a laboratory course that meets for two to three hours per week for an entire term. Equivalent credits are given for recitations, discussions, and other types of courses. All credits given in the Academic Catalog refer to quarter credits. When transferring in course work from a semester system institution, multiply the number of credits by 1.5 to determine how many quarter credits will be transferred (3 semester hours x 1.5 = 4.5 quarter credits). If planning to transfer OSU credits out to a semester system institution, multiply the number of quarter credits by .67 to determine how many credits will transfer (4 quarter credits x .67 = 2.68 semester credits).

Curriculum: (plural curricula) An organized program of study and courses required for a specific degree or certificate program.

Degree: An academic award granted upon satisfactory completion of a set of collegiate-level educational requirements.

Discipline: A field of study in which a student may concentrate, such as sociology, anthropology, or mathematics.

Doctoral Degree: An approved academic award given as a sign of proficiency in scholarship and for the satisfactory completion of an instructional program requiring at least three years of full-time equivalent academic work beyond the baccalaureate degree, the completion of which signifies recognized competence, original research and/or the capacity to do independent advanced graduate-level analysis. A minimum of 108 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

Double Degrees: A student may earn multiple, different degrees simultaneously. Additional degrees may also be earned after your first degree was awarded. The degrees may be offered by the same college, or by different colleges. To earn a double degree, or for each additional degree, a student must complete a minimum of 32 credits above the minimum number of credits needed for one of the degrees. Each degree application is reviewed by the appropriate academic advisor. Advisors complete a separate graduation audit for each of the degrees.

On the student’s academic record, each degree awarded will be recorded as a separate degree with its major, e.g., Bachelor of Science in Mathematics, Bachelor of Arts in English. The student will also receive a separate diploma for each degree awarded (See Academic Regulation 26 (https://catalog.oregonstate.edu/regulations/)).

Some double-degree programs — Education (BA, BS, HBA, HBS), Innovation Management (BA, BS, HBA, HBS), Sustainability (BS, HBS), International Studies (BA, HBA) — require that a primary degree be completed in order for the secondary degree to be awarded. When multiple degrees are not dependent on one another, one of the degrees may be awarded even though requirements for the other degree have not yet met. The double degree may be earned concurrently or subsequently. (See Academic Regulation 26 (https://catalog.oregonstate.edu/regulations/)).

Dual (or Multiple) Majors from Same College: A student may earn two or more majors within a single degree program (a particular combination of
degree, college, and campus, e.g., BA degree from the College of Liberal Arts on the Corvallis campus). It is sometimes possible to complete two or more majors within the minimum number of credits required for a degree, but usually the student must complete additional credits to complete requirements for all of their majors. For this reason, dual (or multiple) majors are obtained within the same college. The advisor must complete one graduation audit that includes all of the majors. The student's academic record will list one degree with two or more majors, e.g., Bachelor of Science in Mathematics and Chemistry. The student receives one diploma. Dual (or multiple) majors may be obtained concurrently with the completion of the degree, or in some cases may be earned as a credential subsequent to completion of the degree. (See Academic Regulation 27 [https://catalog.oregonstate.edu/regulations/]).

**Note:** Occasionally, with careful planning, a student can complete two majors from separate colleges in less than the 212 credits required for two degrees. When this occurs a student can petition for an exception, and graduate with two majors from separate colleges. The student must pick one college as their home college and all majors will be associated with the home college. The student must have the support of advisors from both major programs to have their petition considered.

**Electives:** Courses students may select, either for general knowledge or for fulfilling specific degree requirements. They are generally chosen and used by students to supplement or enrich the required curriculum.

**Endorsement:** An endorsement is the subject matter (content area) or specialty in which an individual is licensed to teach. Endorsements can be part of an initial teaching license or can be added later.

**First Professional Degree:** An academic award granted for an instructional program the completion of which: (1) signifies completion of the academic requirements to begin practice in the profession; (2) requires at least two years of full-time equivalent college-level work prior to entrance; and (3) usually requires a total of at least five years of full-time equivalent academic work to complete the degree program, including prior required college-level work plus the length of the professional program itself (examples, DVM in veterinary medicine and PharmD in pharmacy). The conditions and conferral of the award are governed by the faculty and ratified by the state of Oregon Higher Education Coordinating Commission.

**Freshman:** A student who has completed 44 of fewer term credits toward an undergraduate degree.

**Grade-point Average (GPA):** Total number of grade points received for A, A–, B+, B, B–, C+, C, C–, D+, D, D– or F grades divided by total number of credits attempted. OSU uses a 4-point grade scale.

**Grade Points:** Quality points assigned for one term credit of each grade: A = 4.0; A– = 3.7; B+ = 3.3; B = 3; B– = 2.7; C+ = 2.3; C = 2.0; C– = 1.7; D+ = 1.3; D = 1; D– = .7; F = 0.0. Grades of I, P, N, S, U and W are not computed.

Grades: [https://catalog.oregonstate.edu/grades-regulations-records/]

Letters used to indicate the quality of academic work completed in a given course: A, A–, B+, B, B–, C+, C, C–, D+, D, D–, F, I, S, U, P, N, W.

**Graduation Audit:** An evaluation of a student's academic record to determine if the graduation requirements set forth by the university, college, and major department have been fulfilled.

**Graduate Area of Concentration:** A graduate area of concentration is a subdivision of a major or minor in which a strong graduate program is available. Areas of concentration may be referenced on the student's program of study, but they are not listed on the student's transcript. ‘Areas of concentration’ can only be used in association with graduate programs.

**Graduate Major:** A graduate major is the area of academic specialization, approved by the State Board of Higher Education, in which the student chooses to qualify for a graduate degree. Upon completion of a graduate degree, the degree awarded and the graduate major are listed on the student's transcript.

**Graduate Option:** Options are for students of a specific major. An option is one of several distinct variants of course aggregations within a major that focus on an area of study designed to provide a student with specialized knowledge, competence, and skills while sharing a minimum core of courses.

A graduate option consists of a minimum of 12 designated quarter credits of related course work (excluding thesis credits), comprised of course work offered by the sponsoring unit as well as by other academic units. The option may be comprised of specific courses, completion of a designated number of credits from a longer list of alternative courses, or a combination of specific and alternative course lists. Approved options may be added to a graduate program of study, and approved by the faculty advisor(s) and the director of the sponsoring unit. On the program of study, there should be no overlap in course credits between options (the same course cannot be used to satisfy credit requirements in multiple options). When the unit submits the final examination card to validate awarding of the major to the Graduate School, the unit will also validate that the requirements of the option have been completed.

**Hybrid Course:** A hybrid (http://ctl.oregonstate.edu/hybrid-learning/osu-hybrid-faqs/) course includes both regularly scheduled on-site classroom meetings and significant online, out-of-classroom components that replace regularly scheduled class meeting time. A substantial portion of the course learning activities are delivered online; face-to-face meeting time is generally reduced by approximately 50% compared to a traditional on-campus course.

**Interdisciplinary:** A course or program that integrates concepts, knowledge, or faculty from several fields of study.

**Junior:** A student who has completed at least 90 but not more than 134 term credits toward an undergraduate degree.

**Lower-division Courses:** Course offerings at a level of preparation usually associated with freshmen and sophomore students (e.g., 100- and 200-level courses).

**Major (graduate):** See Graduate major above.

**Major (undergraduate):** An extensive program of study in a designated subject area.

**Master’s Degree:** An approved academic award given as a mark of proficiency in scholarship and for the satisfactory completion of an instructional program requiring at least one but not more than two years of full-time equivalent academic work beyond the baccalaureate degree. A minimum of 45 credits is required beyond the baccalaureate degree. [Note: The total number, above the minimum, will vary by degree program.] The conditions and conferral of the award are governed by the faculty and ratified by the Oregon State Board of Higher Education.

**Minor (graduate):** A graduate minor is an academic area that clearly supports the major. Master’s program minors must include a minimum of 15 quarter credits of graduate course work; doctoral minors require a
The credits being granted vary according to the amount of work done. 

assigned for specific courses that may be taken for more than one term.

completed in conferences with the instructor.

majors, minors, options and certificates.

leading to a degree or qualification. At OSU, this includes
courses that result in a professional or pre-professional program.

Programs are designed to provide students with the fundamental knowledge, skills, and competencies necessary to succeed in their chosen career fields.

Options are for students of a specific major. Options consist of at least 21 designated credits of course work, 15 of which must be at the upper-division level. If all requirements have been met, the option may be listed on a student’s transcript.

Perspectives Courses: Baccalaureate core courses that integrate fundamental knowledge from science and liberal arts disciplines to develop cultural, historic, and scientific perspectives.

Postbaccalaureate Student: A student holding a baccalaureate degree who is admitted to work toward a second baccalaureate degree or teaching certificate is classified as a postbaccalaureate student (AR 4).

Pre-professional Program: Curriculum generally offered at the freshman and sophomore levels. A pre-professional program is designed to ensure students have the aptitude, motivation, and discipline to successfully complete advanced course work as well as achieve the standards for a chosen career field.

Prerequisites: Requirements that must be completed before enrollment in a particular course. The instructor may waive a prerequisite.

Professional Program: Curriculum generally offered at the junior and senior level, designed to prepare students for a professional career within a specific field (e.g., engineering, pharmacy). Admission to professional programs, often based on prior course work and/or work experience, is competitive.

Program: Academic studies that comprise the core, required and elective courses that lead to a degree or qualification. At OSU, this includes majors, minors, options and certificates.

Reading and Conference: A course focused on reading assignments to be completed in conferences with the instructor.

Reserved Numbered Courses: Certain blocks of numbers that have been assigned for specific courses that may be taken for more than one term. The credits being granted vary according to the amount of work done.

Survey or foundation courses in the liberal arts and sciences

Research and Scholarship

Independent Study

Thesis/Dissertation

Writing and Conference

Reading and Conference

Special Problems/Special Projects

Seminar

Workshop

Practicum/Clinical Experience

Internship/Work Experience

Senior: A student who has completed 135 or more term credits toward an undergraduate degree.

Sequence: Two, three, or four closely related courses that are usually taken in numerical order and through more than one term.

Skills Courses: Baccalaureate core courses designed to give the student fundamental mathematical, communication, and fitness competence.

Sophomore: A student who has completed at least 45 but not more than 89 term credits toward an undergraduate degree.

Special Topics Courses (X99): Like reserved numbered courses, special topics courses may be repeated as specified by the academic unit responsible for the course offering. It is implied that the course content is different each time the student takes the course. In the schedule of classes, section titles are listed as ‘ST/’ followed by the topic covered in the section.

Student Enrollment Levels: The levels below establish enrollment levels for federal financial aid eligibility and the deferment of student loans. Summer enrollment levels are the same as other terms.

Half Time: 6 to 8 credits in a term

Three Quarter Time: 9 to 11 credits in a term

Full Time: 12 or more credits in a term

Syllabus: A list of course objectives, lecture topics, assigned reading, exams, etc., prepared and distributed by a professor at the beginning of the term.

Synthesis Courses: Baccalaureate core upper-division courses that emphasize interdisciplinary, critical thinking approaches to global, technological, and societal issues.

TBA: Commonly used abbreviation for ‘to be arranged’; time, place, or credit of a course is to be arranged with the instructor.

Term: Usually one-third of the school year. Terms at OSU are divided into fall, winter, and spring terms (also referred to as ‘quarters’). Summer term is generally an 8- or 11-week session during the summer. See ‘Credits’ above.

Transfer Student: An individual who has completed 36 or more transferable term credits at another institution and will resume their college course work at a second institution.

U-Engage: First-year seminar designed to assist the transition of new students to college.

University: An assembly of colleges, each specializing in a different field.

Upper-Division Courses: Advanced course offerings at a level usually associated with junior or senior students. Upper-division courses are numbered in the 300s and 400s.
Waive: This term refers to decisions of advisors to ‘waive’ a course or courses in a student’s program. Typical reasons include transfer credit for equivalent courses, equivalent experience in the profession or discipline, and petitioning for and successfully completing an examination. Waiving courses usually does not decrease the total credits required for completion of the degree or program; students should discuss this with their advisor.

Withdraw: To voluntarily leave a course or the term without academic penalty. A W letter grade will be placed on the student’s transcript for each course attempted.

Workshop: A brief intensive course for a small group which emphasizes problem solving.

Writing Intensive Courses (WIC): Designated upper-division courses in the major discipline that use student writing as a significant approach to learning. WIC courses must meet a variety of requirements, as do other courses in the baccalaureate core. WIC courses have a carat, ^, in front of the title.
When determining the graduation requirements for a given student:

- Students must meet all applicable degree requirements from the published catalog(s).
- The student’s catalog year for institutional and baccalaureate core requirements is established by their first term of attendance (matriculation date) at Oregon State University as an admitted student.
- The student’s catalog year for college/major/option/minor requirements is based on the date of declaration of the major/option/minor; consequently, a student’s first (primary) major/option must be in the same catalog year. If a primary option is declared in a subsequent academic year, the primary option will be aligned with the catalog year of the primary major. If the primary option did not exist in the catalog year of the primary major, the primary major will roll forward to the catalog year of the primary option.
- Additionally, while the student’s first major/option must be in the same catalog year, any additional declarations of majors/options/minors will be determined by the declaration dates (and corresponding catalog years) established by the change of academic program process. A student, in collaboration with an advisor, can also choose to graduate under a subsequent (to their most recent major declaration date) catalog year within the same major/option.
- At the time of graduation, all students, including transfer students, must use a catalog that is not more than ten years old. Students may petition to the head advisor of their college for an extension of a catalog greater than ten years prior to their expected graduation term.
- Current policy requires a student to reapply after not enrolling at OSU for four consecutive terms (not including summer terms); the published catalog for the resulting readmission/matriculation date will become the catalog of record for graduation requirements. The Planned Educational Leave Program defined in AR 13.c beginning with 2011–2012 academic year, provides a mechanism for a student to sustain their original catalog of record during a planned absence.
- For Degree Partnership Program students, the first term the student is admitted to OSU will be the matriculation date and will determine the catalog year for institutional and baccalaureate core requirements. The catalog year for college/major/option/minor requirements will be the same as all other OSU students.
- Every effort has been made to ensure the accuracy of information in the OSU Academic Catalog. However, Oregon State University or the Oregon State Board of Higher Education may find it necessary from time to time to make changes in courses, curricula, or degree requirements. Students already admitted to a program in which such changes have been made will be reasonably accommodated, if possible, to ensure their normal progress toward a degree. A student may, however, still be required to conform to changes in courses, curricula, or degree requirements as deemed necessary by Oregon State University or the State Board of Higher Education.

**Grading System**

**Grades**

The grading system consists of:

- A = Exceptional, 4.0 grade points per credit.
- A− = 3.7 grade points per credit.
- B+ = 3.3 grade points per credit.
- B = Superior, 3.0 grade points per credit.
- B− = 2.7 grade points per credit.
- C+ = 2.3 grade points per credit.
- C = Average, 2.0 grade points per credit.
- C− = 1.7 grade points per credit.
- D+ = 1.3 grade points per credit.
- D = Inferior, 1.0 grade point per credit.
- D− = 0.7 grade point per credit.
- F = Failure, 0.0 grade point per credit.
- G = Reserved for Graduate Credit, no grade point per credit.
- I = Incomplete, no grade points or credits.
- I/Alt Grade = Incomplete, no grade points or credits. If not resolved after 12 months or degree conferral, the ‘I’ reverts to the alternate grade.
- N = No credit, no grade points or credits.
- NG = No basis for a grade, no credit or grade points.
- P = Pass, credit given, no grade points.
- R = Thesis in Progress, credit given, no grade points.
- S = Satisfactory, credit given, no grade points.
- TR = Accepted Transfer Credit.
- U = Unsatisfactory, no credit or grade points.
- W = Withdrawal (passing), no credit or grade points.
- WC = Complete withdrawal, no credit or grade points.
- AUD = Audit, no credit or grade points.
- WAU = Withdrawal from Audit, no credit or grade points.

When a requirement of a course has not been completed for reasons acceptable to the instructor and the rest of the academic work is passing, a report of I (incomplete) may be made and additional time granted. The I is only granted at the discretion of the instructor. The instructor must submit the grade the student will earn if the missing work is not completed. That alternate grade will become the default grade if the missing work is not completed. The instructor documents the deficiency and the deadline for completing the missing work. A record of the deficiency shall be kept on file in the unit or department office. The allotted time awarded shall not exceed one calendar year except by petition or the time of the degree conferral, whichever comes first. To remove the I grade, the student must complete the deficiency within the allotted time and the instructor will then submit the appropriate grade. If the student fails to complete the work within the allotted time, the Office of the Registrar will automatically change the I grade on the student’s record to the alternate grade submitted by the instructor at the time the I was given. The alternate grade will be included in the grade-point average. Under no circumstances shall a student who earns an A−F grade or an N or U grade have their grade changed retroactively to an I grade.

An instructor may move to correct a grade by filing a Change of Grade in the Registrar’s Office. Grade changes for students of a permanently separated instructor will be managed by the department chair of the
course involved. Upon permanent separation from the University an
instructor’s change of grade will not be accepted by the Office of the
Registrar. The Office of the Registrar will routinely review grade changes.

Students may withdraw from a course. In such cases, a grade of W is
assigned. A student who discontinues attendance in a course without
official withdrawal receives a grade of F in the course.

1 A student may petition via the Office of the Registrar for an extension of the
one calendar year deadline with the concurrence of the faculty. An approved
petition will grant an extension of a single additional term, with a maximum of
three total extensions being possible. An approved petition for an extension of
time to remove an incomplete will be voided at the time of degree conferral.

Grade Points

Grade points are computed on the basis of 4 points for each credit of A
grade, 3.70 for each credit of A– grade, 3.30 for each credit of B+ grade,
3.00 for each credit of B grade, 2.70 for each credit of B– grade, 2.30 for
each credit of C+ grade, 2.00 for each credit of C grade, 1.70 for each
credit of C– grade, 1.30 for each credit of D+ grade, 1.00 for each credit of
D grade, .70 for each credit of D– grade, and 0 for each credit of F.

Marks of I/Alt, W, WC, P, N, NG, R, S, and U are disregarded in the
computation of points. The grade-point average (GPA) is the quotient of
total points divided by total credits; total credits are the number of term
credits in which grades A, B, C, D, and F are received.

Academic Standing

Satisfactory Academic Standing (Undergraduate Students) (AR 22)

Oregon State University expects students to maintain satisfactory
academic progress toward degree completion. At the conclusion of
each term, grade-point averages are calculated and academic standings
determined for students seeking a baccalaureate degree according to
the criteria outlined below. Students whose standings evidence a lack of
satisfactory progress will be warned of this condition and advised to
seek help from their academic advisors. Any student who is not on
Academic Warning, Academic Probation, or Academic Suspension is in
good standing.

1. **Academic Warning**: Students with a term GPA below 2.0 will be
placed on Academic Warning.

2. **Academic Probation**: Students who have attempted 1 24 or more
credits at OSU and have an OSU cumulative GPA below 2.0 will be
placed on Academic Probation. Students who attain a cumulative
GPA of 2.0 or better are removed from Academic Probation.

3. **Academic Suspension**: Students who are on Academic Probation and
have a subsequent term GPA below 2.0 will be placed on Academic
Suspension. Academic Suspension is recorded on the student’s
academic record. Students who are academically suspended are
denied all the privileges of the institution and of all organizations in
any way connected to it, including any university-recognized living
group.

4. **Reinstatement to the University**: Suspended students will be
considered for reinstatement to the university after two years or
completion of a minimum of 24 quarter credits of transferable
college-level work at an accredited college or university, with a GPA of
2.5 or above.

The Faculty Senate Academic Standing Committee (http://
senate.oregonstate.edu/academic-standing-committee/) is responsible
for enforcement of the above regulations on Satisfactory Academic
Standing. Additionally, this committee has discretionary authority to
grant exceptions and to develop guidelines for administering these
regulations.

A student may petition via the Office of the Registrar for an extension of the
one calendar year deadline with the concurrence of the faculty. An approved
petition will grant an extension of a single additional term, with a maximum of
three total extensions being possible. An approved petition for an extension of
time to remove an incomplete will be voided at the time of degree conferral.

Grade Points

Grade points are computed on the basis of 4 points for each credit of A
grade, 3.70 for each credit of A– grade, 3.30 for each credit of B+ grade,
3.00 for each credit of B grade, 2.70 for each credit of B– grade, 2.30 for
each credit of C+ grade, 2.00 for each credit of C grade, 1.70 for each
credit of C– grade, 1.30 for each credit of D+ grade, 1.00 for each credit of
D grade, .70 for each credit of D– grade, and 0 for each credit of F.

Marks of I/Alt, W, WC, P, N, NG, R, S, and U are disregarded in the
computation of points. The grade-point average (GPA) is the quotient of
total points divided by total credits; total credits are the number of term
credits in which grades A, B, C, D, and F are received.

Academic Standing

Satisfactory Academic Standing (Undergraduate Students) (AR 22)

Oregon State University expects students to maintain satisfactory
academic progress toward degree completion. At the conclusion of
each term, grade-point averages are calculated and academic standings
determined for students seeking a baccalaureate degree according to
the criteria outlined below. Students whose standings evidence a lack of
satisfactory progress will be warned of this condition and advised to
seek help from their academic advisors. Any student who is not on
Academic Warning, Academic Probation, or Academic Suspension is in
good standing.

1. **Academic Warning**: Students with a term GPA below 2.0 will be
placed on Academic Warning.

2. **Academic Probation**: Students who have attempted 1 24 or more
credits at OSU and have an OSU cumulative GPA below 2.0 will be
placed on Academic Probation. Students who attain a cumulative
GPA of 2.0 or better are removed from Academic Probation.

3. **Academic Suspension**: Students who are on Academic Probation and
have a subsequent term GPA below 2.0 will be placed on Academic
Suspension. Academic Suspension is recorded on the student’s
academic record. Students who are academically suspended are
denied all the privileges of the institution and of all organizations in
any way connected to it, including any university-recognized living
group.

4. **Reinstatement to the University**: Suspended students will be
considered for reinstatement to the university after two years or
completion of a minimum of 24 quarter credits of transferable
college-level work at an accredited college or university, with a GPA of
2.5 or above.

The Faculty Senate Academic Standing Committee (http://
senate.oregonstate.edu/academic-standing-committee/) is responsible
for enforcement of the above regulations on Satisfactory Academic
Standing. Additionally, this committee has discretionary authority to
grant exceptions and to develop guidelines for administering these
regulations.

A student may petition via the Office of the Registrar for an extension of the
one calendar year deadline with the concurrence of the faculty. An approved
petition will grant an extension of a single additional term, with a maximum of
three total extensions being possible. An approved petition for an extension of
time to remove an incomplete will be voided at the time of degree conferral.

Other Limitations

Academic performance is not the sole criterion for admission to and
continuation in certain courses and programs at the university, such as
practicum courses and internships. The university may find it necessary
to evaluate a person’s background to determine their likelihood of
maintaining standards of professional conduct that are necessary in
the academic discipline or profession. An evaluation may take into
consideration current performance, as well as past experiences and
actions that could affect a student’s ability to perform in the particular
course or program.

Student Conduct Regulations

Oregon State University aspires to stimulate a lasting attitude of
civility, social responsibility and openness in our students as well as
an appreciation for our values of accountability, diversity, respect, and
truth. Consistent with that, all students enrolled at OSU are expected
to follow student conduct regulations and university policies that
have been developed to govern the behavior of students as well as
members of the university community. These regulations and policies
are formulated to guarantee each student's freedom to learn and to
protect the fundamental rights of others. The assumption upon which
these regulations are based is that all people must treat others with
dignity and respect in order for scholarship to thrive. The regulations
and procedures for disciplinary action and appeal are available on the
OSU website (http://studentlife.oregonstate.edu/studentconduct/).
Violations of the regulations subject a student to appropriate disciplinary
or judicial action. These regulations have been formulated by the Student
Conduct Committee, the Student Activities Committee, the university
administration, and the State Board of Higher Education.

Student Grades

Student grades may be obtained via MyOSU (https://
myosu.oregonstate.edu): Select Student, then Student Grades. Or obtain
an unofficial transcript under Academic Profile, and click on Transcript.
Grades are not automatically mailed to the student.

You may request a transcript online (http://registrar.oregonstate.edu/
transcripts/) at no charge.

Grades, GPA calculations, and academic standings are not complete and
final prior to 8 a.m. on the Wednesday following the final exam week.
Grades and GPAs appearing prior to that day may be incomplete.
**Student Records**

Family Educational Rights and Privacy Act of 1974, as amended, (20 U.S.C. 1232g) provides that Oregon State University students have the right to inspect and review the student's education records within 45 days of the day the university receives a request for access; the right to request the amendment of the student's education record that the student believes are inaccurate or misleading; the right to consent to disclosures of the personally identifiable information contained in the student's educational record, except to the extent that FERPA authorizes disclosure without consent; and the right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA. The Student Records Policy is available in the OSU Academic Catalog.

**Progress Standards for Veteran Students**

Programs at Oregon State University are approved for the use of VA benefits under the Montgomery GI Bill®, Dependents Educational Assistance, and Title 38 and Title 10 of the US Code, or benefits offered by the State of Oregon Department of Veteran Affairs. The university, through the Registrar's Office, provides the certifying service to qualified students. The certifying official issues enrollment certification documents to the appropriate VA regional office and monitors students' satisfactory progress for the VA. Any student receiving GI Bill® education benefits while attending Oregon State University is required to obtain transcripts from all previously attended schools and submit them to the school for review of prior credit.

1. OSU students who receive benefits from the Veterans Benefits Administration of the Department of Veterans Affairs are subject to the satisfactory progress standards as set forth in Chapter 38, U.S. Code sections 1674, 1724, 1775, and 1776, and to those defined by the university in Academic Regulation 22, Satisfactory Academic Standing:
   a. Academic Warning: Students with a term GPA below 2.0 will be placed on Academic Warning.
   b. Academic Probation: Students who have attempted 24 or more credits at OSU and have an OSU cumulative GPA below 2.0 will be placed on Academic Probation. Students who attain a cumulative GPA of 2.0 or better are removed from Academic Probation.
   c. Academic Suspension: Students who are on Academic Probation and have a subsequent term GPA below 2.0 will be placed on Academic Suspension. Academic Suspension is recorded on the student's academic record. Students who are academically suspended are denied all the privileges of the institution and all organizations in any way connected to it, including any university-recognized living group.
   d. Reinstatement to the University: Suspended students will be considered for reinstatement to the university after two years or completion of a minimum of 24 quarter credits of transferable college-level work at an accredited college or university, with a GPA of 2.5 or above.

2. Oregon State University expects students to maintain satisfactory academic progress toward degree completion. At the conclusion of each term, grade-point averages are calculated and academic standings determined for students seeking a baccalaureate degree according to the criteria outlined below. Students whose standings evidence a lack of satisfactory progress will be warned of this condition and advised to seek help from their academic advisors. Any student who is not on Academic Warning, Academic Probation, or Academic Suspension is in good standing.

3. Students, who are placed on probation by the university, also will be notified that they are on probation insofar as Veterans Affairs' progress standards are concerned. If a student's deficiency is not corrected and they subsequently are placed on academic suspension, the university will notify Veterans Affairs of their unsatisfactory progress.

4. The university will recertify students who are suspended by the university and subsequently reinstated by the Academic Standing Committee.

5. Students dismissed from the university for unsatisfactory conduct will be reported as making unsatisfactory progress. The university will recertify the student only upon rescission of the dismissal by the university.

**Options for Exemption from Nonresident Tuition**

HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375

A public university listed in ORS 352.002 or community college shall charge an enrolled student who is not a resident of this state, and who is attending classes as an undergraduate or graduate at a public university or community college campus in this state, tuition and fees no greater than the resident rate if the student:

a. Served in the armed forces of the United States; and
b. Was relieved or discharged from that service with either an honorable discharge or a general discharge under honorable conditions; and

c. Undergraduate student newly enrolled after September 15, 2013, or graduate student newly enrolled after September 15, 2014, and

d. Provides proof that the student has established a physical presence in Oregon within 12 months of being enrolled at the public university or community college.

**Veterans Access, Choice, and Accountability Act (VACAA) of 2014**

Students eligible for in-state tuition under Section 702 (“Choice Act”) include:

- A Veteran who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
- A spouse or child using transferred benefits who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and enrolls in the school within 3 years of the transferor’s discharge from a period of active duty service of 90 days or more.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship who lives in the state in which the institution of higher learning is located (regardless of their formal
state of residence) and enrolls in the institution within three years of the servicemember's death in the line of duty following a period of active duty service of 90 days or more.

• Anyone using transferred Post-9/11 GI Bill® benefits (38 U.S.C. § 3319) who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence) and the transferor is a member of the uniformed service who is serving on active duty.

• Anyone using Vocational Rehabilitation benefits (38 U.S.C. § 3102) who lives in the state in which the institution of higher learning is located (regardless of their formal state of residence).

Choice Act eligible students will continue to receive in-state tuition rates after they have used all of their GI Bill® benefits or Marine Gunnery Sergeant John David Fry Scholarship benefits as long as the student remains continuously enrolled. If there is a break in enrollment, or if the student changes their program of study after exhausting their VA educational benefits, they will no longer receive in-state tuition rates.

Veterans who do not qualify under the Choice Act will likely qualify under HB 2158 (2013) and HB 4021 (2014) section 1. ORS 352.375 or HB 2787 (see above).

If you are a Veteran and need to apply for residency, you may need to complete a Residency Affidavit (https://admissions.oregonstate.edu/sites/admissions.oregonstate.edu/files/residency_affidavit.pdf) or the Exemption from Nonresident Tuition Veteran Form (https://registrar.oregonstate.edu/sites/registrar.oregonstate.edu/files/forms/exemption-from-nonresident-tuition_2018.pdf) depending on your circumstances.

Another helpful resource when applying for residency are the Instructions for Completing Residence Information Affidavit (https://admissions.oregonstate.edu/residency-frequently-asked-questions-faq/#military).

Military and Veteran Resources Advisor

William Elfering, MVRA
Office of Student Life
Phone: 541-737-7662
Email: william.elfering@oregonstate.edu
Website: veterans.oregonstate.edu (https://veterans.oregonstate.edu/)

The Military and Veteran Resources Advisor (MVRA) advocates for student-veterans to receive targeted support in navigating campus resources and pursuing academic goals and advises about internal and external support programs. The MVRA collaborates with School Certifying Officials to counsel students and parents concerning eligibility and benefits available under various programs at the local, state, regional, and federal level. The MVRA maintains an informative Military and Veteran Resources website and corresponds with prospective, currently enrolled, and alumni student-veterans to provide them with the latest news on benefits, processes, and procedures from the Veterans Administration.

School Certifying Official (SCO)

The School Certifying Official (SCO) certifies the enrollment of veterans and eligible dependents at Oregon State University. All veterans and eligible dependents, whether new, returning, or transfer students, who expect to receive educational benefits from the Veterans Administration must notify the SCO in the Registrar's Office. For questions about benefits, contact veterans@oregonstate.edu.

The School Certifying Official also monitors and reports to the Veterans Administration the Satisfactory Progress Standards for students who are receiving VA education benefits. See Progress Standards for Veteran Students for more information.

Military Tuition Assistance Program

The School Certifying Officials (SCO) at Oregon State University are the direct contact points for students using the Military Tuition Assistance Program. SCOs process students' tuition assistance authorizations and contracts and forward copies to OSU Business Affairs for billing the military branches. Depending on the branch of the military, requirements vary on how grades are reported. Grade reporting is done at the end of each academic term.

For questions about the Military Tuition Assistance Program, contact veterans@oregonstate.edu.

Veteran and U.S. Military Service Recognition Cord

Recognition of U.S. Military Service

Oregon State University recognizes the significant contribution and sacrifices made by OSU students who are U.S. military servicemembers and veterans. Students may receive red, white, and blue Military Service Recognition Cords to be worn at commencement.

Servicemembers and veterans may visit the Office of the Registrar in Kerr Administration Building during the month prior to commencement to request cords.

Undergraduate Planned Educational Leave Program

Students may find that a planned interruption or pause in their regular, full-time education is needed. PELP is designed to enhance the prospect of successful completion of an academic program by allowing a student to arrange a voluntary absence that temporarily suspends their academic work for a period of time. For detailed information please refer to Academic Regulation 13 (p. 18).

Unauthorized Peer-to-Peer (P2P) File Sharing and Other Copyright Infringement

The university takes copyright infringement seriously. As set forth in the Acceptable Use of University Computing Resources Policy, all students must abide by federal and state copyright laws when using university computing or network resources. The unauthorized publishing or use of copyrighted material on the university computer network is strictly prohibited and users are personally liable for the consequences of such unauthorized use. This specifically applies to Peer-to-Peer or P2P file-sharing of copyrighted music and movies. Students should be aware that by engaging in unauthorized sharing of copyrighted material, they not only violate university policy, but they...
may also be held criminally and civilly liable by federal and/or state authorities.

Under current copyright law, criminal cases of copyright violation carry a penalty of up to five (5) years in prison and a $250,000 fine. Civil penalties for copyright infringement include a minimum fine of $750 for each work. Oregon State University will subject students who violate this policy to discipline as appropriate. For a first-time violation of this copyright policy, students are required to pass a copyright quiz within 72 hours or else their network access is disabled. Repeated infringement is subject to disciplinary action by the office of Student Conduct and Community Standards, up to and including expulsion from the university.

The entire policy regarding Unauthorized Peer-to-Peer (P2P) File Sharing and Other Copyright Infringement is available online (http://fa.oregonstate.edu/gen-manual/).

Student Records-Right to Privacy

Notice to Students Regarding Privacy of Records

The Family Educational Rights and Privacy Act (FERPA) of 1974 (Public Law 93-380), as amended, Oregon Revised Statutes 351.065, and Oregon Administrative Rules 580-013-0005 through 580-013-0065 of the State Board of Higher Education afford students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education record that the student believes are inaccurate or misleading. Students should write the university official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of the personally identifiable information contained in the student's educational record, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the university in an administrative, supervisory, academic or research, or support staff position (including health staff and members of the Law Enforcement Unit); a person or company with whom the university has contracted; a person or company acting as consultant or volunteer for the university; a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill their professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Oregon State University to comply with the requirements of FERPA.

The name and address of the office that administers FERPA is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920
1-800-USA-LEARN (1-800-872-5327)

Revised directory information effective May 2014: Oregon State University will provide the following 'directory' information to all inquiries without students' written consent:

- student's name
- current mailing address and telephone number
- current OSU ONID email address
- campus office address
- class standing (e.g., freshman, sophomore, etc.)
- student level (undergraduate, graduate, etc.)
- college
- major field of study
- honors
- full-time or part-time enrollment status
- status as a graduate teaching assistant or graduate research assistant and hours of service.
- participation in officially recognized activities and sports
- dates of attendance
- anticipated graduation date
- degrees and awards received
- date(s) of degree(s)
- most recent previous educational institution attended by student

A student may request in writing that all of the above directory information be kept confidential. This option may be exercised by filing a written, dated, and signed request at the Office of the Registrar at any time. The restriction remains in effect until revoked by the student even if the student leaves the university or graduates.

The procedures for exercising the above rights are explained in Oregon Administrative Rules 576-020-0005 through 576-020-0065.

Release of Student Information to Military Recruiters (Solomon Amendment)

Oregon State University provides information about students that is requested by military recruiters under requirements of the Solomon Amendment (As of Oct. 23, 1998 [63 Fed. Reg. 56819] and the Interim Rule published Jan. 13, 2000 [65 Fed. Reg. 2056] by Department of Defense). Under this federal law military recruiters may request the following information: Name, current mailing address (as provided by the student) including email address, current telephone number (as provided by the student), age, class level (e.g., freshman, sophomore, etc.), and academic major. The information may be requested for the immediately previous term, current term, or future term for all students.
age 17 and older who are or were registered at OSU for at least 1 credit in the requested term. Recruiters may request this information each term. Recruiters may not obtain any information that is not in the above list of student recruiting information. For example, they may not request any of the following: Social Security Number or ID Number, place of birth, race/ethnicity/nationality, grades and GPA, grades of low-performing students, religious affiliation, names of students with loans in default, veteran status, or names of students no longer enrolled at OSU. Institutions that do not comply with the Solomon Amendment risk losing federal funding from the departments of Defense, Education, Health and Human Services, Labor, and Transportation. Institutions do not risk losing student-aid funding such as Perkins Loans, Federal SEOG or Work-Study funds.

Use of Social Security Number (SSN)
You are requested to provide voluntarily your Social Security Number to assist OSU (and organizations conducting studies for or on behalf of OSU) in developing, validating, or administering predictive tests and assessments; administering student aid programs; improving instructions; internal identification of students and alumni; collection of student debts; or comparing student educational experiences with subsequent workforce experiences. When conducting studies, OSU will disclose your Social Security Number only in a manner that does not permit personal identification of you by individuals other than representatives of OSU (or the organization conducting the study for OSU) and only if the information is destroyed when no longer needed for the purposes for which the study was conducted. By providing your Social Security Number, you are consenting to the use identified above. This request is made pursuant to ORS 352.004, ORS 352.107, and ORS 352.146. Provision of your Social Security Number and consent to its use is not required and if you choose not to do so you will not be denied any right, benefit, or privilege provided by law. You may revoke your consent to the use of your Social Security Number at any time by contacting:
Office of the Registrar, Oregon State University, Corvallis, OR 97331-2130; 541-737-4331.

All access and use at Oregon State University of the Social Security Number is prohibited except for meeting federal or state requirements, compliance, and reporting.

Students Rights to Privacy of Records Tutorial (FERPA)
A brief online tutorial that explains students’ rights may be viewed at http://registrar.oregonstate.edu/ferpa-training-module/.

OSU Directory
The OSU Campus Directory is a directory of staff and student names, addresses and telephone numbers. This information is extracted at the end of the second week of the fall term and is published annually and posted on the OSU website. To find students, faculty and staff, use the Search box for Find people and pages or go to http://directory.oregonstate.edu/.

Students who do not want information to be included in either the printed or electronic version should indicate that in their Directory Profile on the Web before the end of the second week of fall term. Just log in to MyOSU at https://myosu.oregonstate.edu and under Update Personal Profile select OSU Directory Preferences, then follow the instructions on that page.

Student Photo Roster
Getting to know students is an important means by which instructors and advisors can improve the quality of the learning environment.

Accessing Student Photo Roster System:
1. Login to MyOSU at https://myosu.oregonstate.edu.
2. Under Update Personal Profile, select OSU Directory Preferences.
3. Check or uncheck the checkbox ‘Photo Viewable to Advisor’.
4. Check or uncheck the checkbox ‘Photo Viewable to Instructor’.
5. Click the ‘Submit Changes’ button to update your Directory Profile.

To view your choices regarding opting in or out of the Student Photo Roster System, please view it online using the instructions above.

Selecting the ‘opt in’ option for instructors means that all instructors of record associated with the student’s current classes will be able to view the photograph.

Students can change their minds at any time.
HOW TO READ THE SCHEDULE OF CLASSES

Registration instructions can be found on the Office of the Registrar website (https://registrar.oregonstate.edu/registration/).

Courses in the Schedule of Classes are arranged alphabetically and numerically by course designator or subject code. For example, ENG for English, MTH for mathematics.

NEW! Remote, Blended, and On Campus Only Search Filters

- Remote Learning – 100% remote, excludes Ecampus. Students attend class sessions remotely at scheduled times (synchronously); no on-campus requirements.
- Blended Learning – both on-campus and remote elements. Students attend class in-person and remotely. Some components may include synchronous remote learning.
- On Campus Only – 100% in-person instruction. Students primarily attend class in-person/on-site. Instruction is delivered in person at the schedule time and location.
- Ecampus – fully online (asynchronous) learning. Students participate via Canvas. Search classes by selecting Campus = Ecampus-Online

Schedule of Classes Terms and Abbreviations

Avail = Remaining seats available

Baccalaureate / WIC Courses

All baccalaureate core classes in the Schedule of Classes have an asterisk * in the title. The course description also contains the note, '(Bacc Core Course)'.

All writing intensive course classes (WIC) have a carat ^ in the title. The course description also contains the note, '(Writing Intensive Course)'.

Campus

'Dx' = Ecampus - Distance Ed = An Ecampus course (Additional abbreviations may follow indicating a specific location or course level such as 'LD' for lower division and 'UD' for upper division)

'B' = Oregon State - Cascades = OSU Cascades Campus in Bend, Oregon

'C' = Oregon State - Corvallis = Corvallis Campus

'N' = Newport/HMSC = Hatfield Marine Science Center in Newport, Oregon

'L' = EOU = OSU courses taught at Eastern Oregon University in LaGrande, Oregon

'PDX' = Oregon State - Portland

Cap = Seating Capacity

Curr = Current Enrollment

Comments

Special instructions, textbooks required, etc.

Courses with Labs/Recitations/Studios

If a course lecture is 'linked' to a noncredit lab or recitation or studio, you must register for all parts of the course. Web registration will not permit you to register for one part without the other. Likewise, you may not drop only one part of a 'linked' course; if you do so, the other part will be dropped automatically. If you want to change one part of a multi-part course, you should drop the part and add a new part at the same time before processing your requested changes. Be sure to process the request after specifying the drop and the add.

Course Numbers

100/200 = Lower Division, Undergraduate
300/400 = Upper Division, Undergraduate
500 = Graduate, primarily Master's
600 = Graduate, primarily Doctoral
700 = Professional, DVM, PharmD
800 = In-service courses for practicing professionals

CRN

The unique Course Reference Number identifying each class.

Cr = Credit

All credits listed in the Schedule of Classes refer to quarter credits.

If a course is taught for variable credits, for example 1–16 credits, Web registration will prompt you to enter the correct number of credits for which you want to enroll. If you need to change that number later, you may do so via the Web.

Day/Time/Date

Days of the week and hours the class meets (see Meeting Time below), and start and end dates of classes.

End Date

Last day of classes before finals week.

Fees

A list of course fee codes, their description, and the fee amounts are listed in the catalog under Tuition, Fees and Payment at https://catalog.oregonstate.edu/fees-residency-requirements/. Additional information is in the Business Affairs website at http://fa.oregonstate.edu/business-affairs/tuition-and-fee-information/.

Instructor

Name of instructor or staff.

Location

See the campus map at https://map.oregonstate.edu/ for building abbreviations and locations.

Meeting Time

Days of the week are abbreviated as follows:

M = Monday
T = Tuesday
W = Wednesday,
Th = Thursday
F = Friday
S = Saturday
TBA = To Be Announced

NSHD
No-show-drop will appear in the Comments column. A student who is registered for such a course who attends no meetings of the course during the first five school days of the term will be dropped from the course by the instructor, unless the student has obtained prior permission for absence. See Academic Regulation 9b (https://catalog.oregonstate.edu/regulations/).

P/N = Pass/No Credit
A class is graded A–F unless P/N appears, in which case Pass/No Credit grading applies.

All courses registered via the Web are given the A–F or P/N grade option as appropriate. Any change of the A–F option (to S/U) is done in-person at the Office of the Registrar after completing the Change of Grading Basis form (http://oregonstate.edu/registrar/forms/). The deadline for these changes is the end of the 7th week of classes. See the Academic Calendar (http://registrar.oregonstate.edu/osu-academic-calendar)/.

Restrictions
Prerequisites, corequisites, limitations to registration. See Registration Restrictions below.

Sec = Section

Section Title
Seminars, special topics, blanket courses and others may have course subject section titles.

Section Description
Description of what the topic covered.

Session
Summer term sessions, e.g., 8-week session.

Start Date
First day of class.

Status
Whether the section is open, closed, waitlisted or cancelled for registration.

TBA = To be announced.

Term
Su 18 = Summer term 2018
F 18 = Fall term 2018
W 19 = Winter term 2019
Sp 19 = Spring term 2019

Type
The method of instructional delivery.
A=Lecture
B=Discussion
C=Recitation
D=Laboratory
E=Seminar
F=Independent or Special Studies
FNL=Final Exam
G=Research
H=Activity
HYB=Hybrid (a combination of online and classroom)
I=Experimental
J=Internship
L=Tutorial
M=Practicum
MID=Midterm
N=Reading and Conference
O=Experiential/Co-op Education
P=Programmed Instruction
Q=Thesis
R=Studio
U=Externship
V=Examination for Credit
W=Workshop
Y=Online
Z=Modular

Weeks
Number of weeks in the term or summer session.

WL Avail = Seats available on waitlist
WL Cap = Waitlist capacity
WC Curr = Students currently on waitlist

Registration Restrictions
Prerequisites
Prerequisites provide the background necessary for successful performance in a course. Students may attempt a course without having prerequisites if they have obtained the consent of the instructor to do so. If the instructor’s consent is not obtained, then students who have not fulfilled published prerequisites may be disenrolled from the course during the first week of classes.

Departmental Approval
Special approval is required for this course; the student requests an ‘override’ from the department teaching the course, and then the student registers for the course.

+/-
+ indicates ‘only.’ For example, under class limitation +1 means only freshmen, – indicates ‘no.’ Under college limitation, −1,7 means no students from College of Agricultural Sciences or the College of Pharmacy may register.

AL=Alphabetic Sections (Alpha sections for WR 121)
WR 121 course sections have registration limitations determined by the first letter of the student’s last name. These are marked in the comments or restrictions column with the following codes:

• AL+AG = Students whose last names range from A to G may register that term.
• AL+HN = Students whose last names range from H to N may register that term.
• AL+OZ = Students whose last names range from O to Z may register that term.

**CL=Class Standing.**
The catalog system translates these codes into the following terminology:

1 = Freshman  
2 = Sophomore  
3 = Junior  
4 = Senior  
5 = Undergraduate nondegree  
6 = Graduate nondegree  
7 = Postbaccalaureate (undergraduate)  
8 = Master’s candidate  
9 = Doctoral candidate  
G = Postbaccalaureate (graduate)  
V = Professional

**CO=College Codes**
The catalog system translates these codes into the following terminology:

01 = Agricultural Sciences  
02 = Business  
03 = Education  
04 = Pre-Engineering  
05 = Forestry  
07 = Pharmacy  
08 = Science  
09 = Graduate School  
10 = Liberal Arts  
11 = Defense Education (ROTC)  
14 = University Exploratory Studies Program  
15 = Veterinary Medicine  
16 = Engineering  
17 = Interdisciplinary Programs  
18 = University Honors College  
22 = Pre-Business Program  
23 = Public Health and Human Sciences  
24 = Oceanic and Atmospheric Sciences  
EP = Intensive English Program

**DG=Degree**
If a course is restricted to students pursuing specific degrees, it will list a code of DG + – under the Registration Restrictions column. Degrees listed may include HBA (Honors Bachelor of Art), HBFA (Honors Bachelor of Fine Arts) and HBS (Honors Bachelor of Science).

**LV=Level**
The catalog system translates these codes into the following terminology:

01 = Undergraduate  
02 = Graduate students  
03 = Postbaccalaureate students  
04 = Nondegree and Credential  
05 = Professional students  
06 = INTO OSU GE/AE/Pathways

---

**Major Restrictions/Major Code Descriptions**
Some courses are restricted to students enrolled in particular majors. Numerical codes of the majors students are restricted to are noted in the Restrictions section in the online Schedule of Classes.
INFORMATION SERVICES, COMPUTERS, AND ACADEMIC TECHNOLOGIES

Information Services supports OSU students by providing accounts, technologies, equipment checkout, printing, computing networks and computing labs. The IS Service Desk provides students with technical support for laptops, mobile devices, and campus systems like Canvas. If you need in-person support, please visit the Walk-up Service Desk in Milne Computer Center room 201.

Student employment opportunities are available from a variety of units within IS, including the IS Service Desk and Academic Technology, with the greatest opportunities announced just prior to each new term.

Accounts and Passwords

Website: https://oregonstate.teamdynamix.com/TDClient/KB/ArticleDet?ID=58474

- **Accounts & Technologies Guide for New Students**: This guide is for new OSU students who need to get connected to OSU systems such as email and Canvas. Even if you are already connected to one or more OSU systems, we recommend you go through this guide, just to be sure you've covered the bases and know where to get computing help.
- **ONID**: ONID stands for OSU Network ID. It's a universal computer account available to all OSU students, employees and associates. You use your ONID username and password to access Online Services, Canvas, email, the wireless network and many other university computing services.
- **Box**: Box is unlimited cloud storage and collaboration for all OSU students and employees.
- **G Suite**: ONID email is accessed via G Suite. All OSU students, instructors, and employees may access all the supported core apps: Drive, Mail, Calendar, Site and Groups.
- **Office365 for OSU**: Office365 allows students and employees to download and install up to 5 free copies of Microsoft Office on personal devices and to collaborate online using native Microsoft Office tools: Word, Excel, PowerPoint and OneNote.

Software

Website: http://is.oregonstate.edu/accounts-support/software

- Many software packages are available to students.

Technical Support

- **OSU Computer Help Documents**: 24/7 help guides and FAQs
- **OSU Service Desk**: Monday–Friday support via phone, 541-737-8787, webform, and in-person at Milne Computer Center room 201 (also open on weekends during regular terms)

Student Employment

(Opportunities subject to availability)

Student workers provide programming, development, and support services for the OSU community. Potential employment is contingent upon eligibility per university policy on student employment.

- **IS Service Desk**
- **Technical support, programmers**
- **Central Web Services**
- **Web app and mobile app developers**
- **Customer service and support, system maintenance**

See the OSU website for postings.
INTO OREGON STATE UNIVERSITY

1701 SW Western Blvd
Corvallis, OR 97333, USA
Phone: +1-541-737-2464
Email: info@oregonstate.edu
Website: http://www.intoosu.oregonstate.edu (http://intoosu.oregonstate.edu/)

Administration
Bob Gilmour, Executive Director, INTO OSU
Julianna Betjemann, Director of Student Experience, INTO OSU
Shain Panzeri, Director of International Admissions and Academic Support, INTO OSU
Elena Sapp, Director of Academic Programs, INTO OSU

Oregon State University offers academic Pathway and English language training programs through the INTO OSU Center. Personalized support tailored to international students’ educational, social and cultural needs prepares them to progress with confidence as degree-seeking students. INTO OSU provides international students with learning experiences and services that promote academic, professional and personal success.

INTO established its first partnership in the U.S. at Oregon State University in 2008. Located in the new International Living-Learning Center, INTO OSU offers outstanding academic programs, technology-assisted learning, a welcoming, interconnected community of students from across the U.S. and the world, strong student support programs and state-of-the-art facilities. The innovative Pathway and English language programs offered at the INTO OSU Center are delivered by highly qualified OSU teaching faculty. INTO OSU also provides a breadth of academic preparation and support services designed specifically to meet the unique needs of its international students.

Facilities
The International Living-Learning Center opened in September 2011 and is the home for INTO Oregon State University. This state-of-the-art building offers a world-class student experience where international and domestic students live and learn together in the heart of the OSU campus. This building includes residential accommodations for more than 300 international and domestic students, 26 classrooms, a large and spacious auditorium, computer labs, a café, market and comfortable open spaces where students can socialize.

Student Services
The INTO OSU Student Services team provides a range of co-curricular programs and services promoting social, personal and academic well being. Upon arrival at OSU, the team helps students settle in to life in Corvallis, provide social opportunities and a variety of resources tailored to the specific needs of international students. Whether it’s a question about making an appointment with a doctor, finding a place to live, renewing your visa or anything else, there will always be someone available to help you.

International Student Orientation
Orientation involves a variety of important events that prepare students to be successful at OSU, including information about maintaining your visa status, registering for OSU classes, health requirements and insurance coverage. Attendance at International Student Orientation is required of all international students, both direct and INTO OSU.

Other important activities during orientation include: opening an OSU email account, getting an OSU ID card, learning about OSU community expectations and taking a tour of the campus. It’s also a great time to make new international and American friends and attend the many social events planned on campus.

Visa and Immigration Support
Upon arrival, the university’s Office of International Services (OIS) office, in conjunction with the INTO OSU Student Services team, will provide information, support and guidance on maintaining your immigration status while you are in the U.S. These can include questions about renewing a student visa, making sure your I-20 or DS-2019 status is always current, bringing your dependents, employment, traveling and more. During your program, in conjunction with the INTO OSU Academic Support and Finance teams, they will support you through your program and issue any documentation you may need to support your visa status. Students can come in for walk-in hours, or make individual appointments with an International Student Adviser or Sponsored Student Adviser at the Office of International Services (OIS). In addition, workshops are held throughout the year on topics such as employment, scholarships and travel.

OSU Office of International Admissions
The OSU Office of International Admissions is housed in the INTO OSU Center. The Office of International Admissions works closely with prospective international students from inquiry to admission for a variety of programs including: Academic English, Pathway Programs (Undergraduate and Graduate), Undergraduate, Post-Baccalaureate, Professional (MBA, PharmD, and DVM), and Non-degree Exchange Students. All other graduate programs (Master’s and PhD) are served by the Graduate School. Visit the Office of International Admissions (http://admissions.oregonstate.edu/international/) online.

Scholarships
Oregon State University and INTO Oregon State University are proud to offer a wide variety of scholarships for exceptional international students. Scholarships are available to undergraduate students, graduate students and Pathway students alike. For more information about these exciting scholarship opportunities, please visit the Office of International Admissions (http://admissions.oregonstate.edu/international/scholarships-international-students/). Scholarships are available to undergraduate students, graduate students and Pathway and English language students.

Undergraduate Pathway and Undergraduate Transfer Program (UTP)
These programs combine intensive language study, academic skills development and academic course work in a carefully constructed program designed to prepare students for rigorous OSU degree programs.

The UTP offers customized programs for students who have earned university credits and wish to apply them towards their OSU degree. UTP students receive additional academic, language and cultural support to help be successful at OSU.
The Undergraduate Pathway program and UTP are designed for students who:

- Want to study for an undergraduate degree in the U.S.
- Need to improve their English language skills
- May have lower GPAs than required of direct-entry students
- Desire additional academic, language, and cultural support in order to succeed during their first year at a U.S. university
- Apply previously earned university credit towards graduation at OSU (UTP only)

The Undergraduate Pathway and UTP programs are for students who want to take the fast-track to success. Students receive the highest level of support during their transition abroad, making it an ideal choice for international students who are driven to achieve high academic goals.

**Undergraduate Pathway and UTP programs are available in:**

- Business
- Engineering
- Science
- Computer Science
- Natural Resources and Renewable Materials
- Food Science and Technology
- Exercise and Sport Science
- General
- Public Policy
- Women and Gender Studies
- Design, Apparel and Merchandising Management
- Mathematics
- Psychology

**Four types of Undergraduate and UTP programs are available:**

- 1-term Accelerated UTP: This program is composed of one term of programming which counts toward the student's undergraduate degree.
- 2-term Accelerated UTP: This program is composed of two terms of programming which count toward the student's undergraduate degree.
- 3-term Standard Pathway and UTP: Leads students through their first year and upon completion of all progression requirements, students will move on to their degree-seeking program as a second-year sophomore.
- 4-term Comprehensive Pathway and UTP: Offers an intensive language curriculum for students to start their first year of study, allowing students to progress to their degree program. After successfully completing progression requirements, students will move on to their degree-seeking program as a second-year sophomore.

**Undergraduate Pathway and UTP Core Academic Courses**

The Undergraduate Pathway program and UTP are comprised of OSU credit-earning courses in math, science and writing. From the first day of classes, INTO OSU Pathway and UTP students study alongside domestic students in many of the same courses.

For more information please visit INTO OSU (http://intoosu.oregonstate.edu).

---

**Graduate Pathway Program**

The innovative Graduate Pathway program provides international students a direct path to various graduate degrees at the university. Upon successful completion of the program, students are guaranteed progression to a graduate degree program through a curriculum consisting of graduate credit courses that apply to the OSU degree program. The program provides academic, language and cultural support in order to succeed at Oregon State University.

Direct admission to the Graduate School and respective department-based graduate programs at Oregon State University is highly competitive with only the best and most prepared students being selected. Many students who meet all the minimum entry requirements are not admitted because of the highly competitive nature of the programs.

The Graduate Pathway program is designed for international students who:

- Choose to demonstrate their admissibility to an OSU degree seeking program through Graduate Pathway performance in OSU graduate level courses in a specific area of study
- Fall short of meeting the minimum GPA or test score requirements
- Need further English development
- Any or all of the above

**Graduate Pathway Programs are available in:**

- Business Administration (MBA)
- Business (MSB)
- Chemical Engineering (MEng)
- Organic Chemistry (MS)
- Civil Engineering (MEng)
- Comparative Health Sciences (MS/PhD)
- Computer Science (MEng)
- Electrical and Computer Engineering (MEng)
- Environmental Engineering (MEng)
- Environmental Sciences (PSM)
- Industrial Engineering (MEng)
- Mechanical Engineering (MEng)
- Biostatics (MPH)
- Global Health (MPH)
- Health Promotion and Health Behavior (MPH)
- Materials Chemistry (MS)
- Mathematics (MS)
- Biological and Ecological Engineering (MEng)

**Three types of Graduate Pathway Programs are offered:**

- 1-term Accelerated Pathway: Minimum 9 graduate credits earned in the program
- 2-term Accelerated Pathway: Minimum 15 graduate credits earned in the program
- 3-term Standard Pathway: Minimum 15 graduate credits earned in the program

**Graduate Pathway Core Academic Courses**

The academic courses included in the Graduate Pathway programs are carefully chosen to ensure success in graduate-level studies. Students
will be advised on which modules to follow during their academic orientation at the INTO OSU Center.

For more information please visit INTO OSU (http://intoonosu.oregonstate.edu).

**Academic English**

**Program Description**

The Academic English program at INTO Oregon State University prepares international students for university study in the U.S. The academically rigorous program provides international students with high-quality English language instruction and the academic skills to succeed at OSU through development of:

- Listening
- Speaking
- Reading
- Writing
- Grammar
- Standardized test preparation
- Academic study skills

**Program Highlights**

- Intensive English to prepare for university study
- Academic advising throughout the program
- Small classes of 18-20 students
- Highly-trained and experienced instructors
- Participation in the Conversant Program
- Use of a fully-equipped Learning Center with state-of-the-art technology

**Program Outcomes**

After finishing this intensive program successful students will be able to:

- Interact comfortably in the U.S. classroom with professors and fellow students
- Understand U.S. values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the Internet and OSU library databases to conduct academic research
- Read, understand, and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

The length of the Study Abroad program will vary depending on a student’s needs. The program can be customized for different levels of English and for specific academic interests. There are fall, winter, spring and summer start dates available. Additional program and admission information can be found online (http://admissions.oregonstate.edu/international/programs/study-abroad-osu/).

With prior approval from your home university, the academic courses you will study at OSU can be used to gain credits toward your undergraduate degree in your home country. This program is not designed as a route to degree-seeking OSU programs, though your credits may apply to an OSU degree if you seek admission.

This program consists of three parts:

**Study Abroad with English (SAWE) Part 1**

Students study full-time in the Academic English program. Students have an opportunity to progress to Study Abroad with English Part 2 upon successful completion of Academic English level 4 and meeting internal progression criteria.

**Study Abroad with English (SAWE) Part 2**

Students are able to select from OSU undergraduate credit bearing courses offered by the College of Liberal Arts and study alongside domestic and international students while continuing to take 6-12 hours of academic English classes. Students have an opportunity to progress to the Visiting International Students Program upon successful completion of Academic English core level 6 courses or ALS 161/ALS 162 and meeting internal progression criteria.

**Visiting International Students Program (VISP)**

Students can select from a range of OSU credit-bearing courses offered by the College of Liberal Arts. Optional academic English courses are also available.

All OSU undergraduate College of Liberal Arts courses taken through the VISP and SAWE Part 2 program are transferrable with prior approval from the student’s home university (except intensive English courses, if selected).

Departmental approval is required for students seeking to register for a course outside the College of Liberal Arts.
MUSEUMS, GALLERIES, AND COLLECTIONS

The educational resources of the university include art, galleries, collections, and exhibits of cultural and scientific materials. Research, teaching, and extension functions are combined in these collections, which serve both the institution and the general public.

Over the years, various departments and schools of the university have become repositories for extensive holdings of manuscripts; rare books; prints, paintings, and other art objects; costumes; textiles; historic artifacts; archaeological material; fossils; preserved plants and animals; wood products; and marine material. These collections serve many of the same functions as a library or make possible the identification of materials whose age, name, or significance is unknown.

Most university collections serve primarily research and teaching functions and may be viewed by prior appointment with their curators.

- Archaeological Collection: Consists of artifacts, field notes, maps, drawings, sketches, and photographs accumulated in archaeological investigations. Several thousand items of primary archaeological documentation comprise this collection. Location: Waldo Hall.
- Art About Agriculture (https://agsci.oregonstate.edu/art/art-about-agriculture/): Recognizes professional and emerging Pacific Northwest artists, creates a growing, dynamic, permanent collection of fine art based on, stimulated by, and portraying agriculture, and presents the permanent collection and tour exhibit to rural and urban audiences.
- College of Business-Design Collection (https://business.oregonstate.edu/sdhe/historic-collection/): The collection, with display cases on the 2nd floor of Milam Hall, supports the outreach missions of the College of Business Design Programs by providing an educational resource and creative inspiration for students, researchers, and the general public.
- Department of Fisheries and Wildlife's Mammals and Fishes Collections: Include more than 9,000 specimens of birds and 10,000 specimens of mammals, as well as the Braly Ornithological Collection; Overton Dowell, Jr., Bird Collection; Alex Walker Ornithological Collection; and Oregon Game Commission Collection. Location: Nash Hall.
- Fairbanks Art Gallery (https://liberalarts.oregonstate.edu/sac/art-and-art-history/fairbanks-galleries/fairbanks-gallery-art/): Fairbanks Gallery of Art is Oregon State University’s professional art gallery. Its mission is to initiate, produce, and present scholarly visual art exhibitions to advance contact and dialogue with original works of art as an indispensable part of liberal art education. The exhibition programming of the gallery reflects the diversity of visual-art practices and cultures, fostering critical thinking, and reflecting the depth and breadth of human experience. The exhibitions support the educational missions of Art and Art History and broaden the dialogue across University communities, including general audiences.
- Fine Arts Print Collection (https://oregondigital.org/sets/fairbanks/): Contains nearly 600 prints representing numerous countries and spanning several centuries. The collection’s holdings includes work of various styles, including Japanese Ukiyo-e, modern Japanese woodblock, 20th century Latin American, German Expressionism, and 20th century American prints.
- The Herbarium (http://oregonstate.edu/dept/botany/herbarium/): Contains more than 450,000 named specimens of seed plants, ferns, mosses, algae, fungi, and lichens. Emphasis is on collections from western North America. The herbarium is the repository for the Morton E. Peck Herbarium of Willamette University, a research collection of Oregon flora consisting of more than 30,000 sheets, and the former University of Oregon herbarium.
- Herpetological Collection (http://people.oregonstate.edu/~arnoldst/herp%20collection.html): Consists of more than 60,000 ethanol-preserved amphibians and reptiles, and approximately 24,000 frozen tissue samples. The collection has excellent representation for sites in the Pacific Northwest and includes the largest collection of garter snakes (Thamnophis) in the world.
- The J.C. Braly Natural History Collection: Includes 550 mounts of birds and mammals in addition to over 1,000 preserved specimens of amphibians and reptiles from the Pacific Northwest. Location: Cordley Hall.
- The LaSells Stewart Center Galleries (https://lasells.oregonstate.edu/gallery/): Offer visitors the opportunity to experience three distinct art galleries: Giustina Gallery, Murdock Gallery, and South Hall Display Case. Collectively, the galleries provide the local and campus community diverse opportunities to view and display art work. Annual exhibits include: Vista and Vineyards, Art about Agriculture, Cultural Connections Exhibit and the Community Art Exhibit.
- The Little Gallery (https://liberalarts.oregonstate.edu/feature-story/little-gallery-presents/): Exhibits eclectic selections of art from well-established and emerging artists and visually advances different critical methods of seeing, crucial and transformative approaches to large intercultural questions. The gallery has a welcome place in an international language department, is bringing cultures together and has become a confluence of disciplines, a place for discussion and wonder.
- Memorial Union Art Collection (https://mu.oregonstate.edu/gallery/): Currently among the 125 artists included in the collection are paintings and sculptures by J. Leo Fairbanks, works from the early nineteen hundreds by Carrie Gilbert depicting Native Americans, prints collected and donated by Gordon and Vivian Gilkey, and historic photographs of OSU (a number of which are on display in the mezzanine hall).
- Memorial Union Concourse Gallery (https://mu.oregonstate.edu/art-gallery/): One of the largest exhibition spaces on the OSU Campus. Several contemporary art exhibits reflecting a diversity of styles, media and cultural perspectives are scheduled throughout the year. These exhibits feature the artwork of international, regional, local recognized artists, and the art of talented OSU students.
- Oregon State Arthropod Collection (http://osac.oregonstate.edu/): A valuable research collection of nearly three million insect and mite...
specimens, chiefly from the Pacific Northwest. Collection strengths include Coleoptera, Hemiptera, Lepidoptera, and Hymenoptera. Location: 4082 Cordley Hall.

- Special Collections and Archives Research Center (http://scarc.library.oregonstate.edu/): Include collections pertaining to the history of science and technology; the historical records of OSU and papers of its prominent faculty members; collections documenting cultural and ethnic groups in Oregon; rare book collections; and collections documenting natural resources in the Pacific Northwest, especially agriculture and forestry.

- Valley Library NW Art Collection (https://library.oregonstate.edu/nwart/): Consists of more than 140 contemporary artworks by leading Northwest artists, including current and former art faculty members at OSU. The majority of the works were added to the collection during the 1999 library renovation through the Oregon Percent for Art law and selected in collaboration with the Oregon Arts Commission.

- Visitor Center of the OSU Marine Science Center (https://seagrant.oregonstate.edu/visitor-center/): Features aquariums, interactive exhibits, and hands-on displays that bring to life the marine research conducted by OSU scientists. Special events, educational programs, guided tours and walks are available on request to teach visitors about the ocean and its inhabitants, from undersea volcanoes to the tiniest tide pool creatures.

- The Xylarium (Wood Collection): Contains approximately 2,500 species of wood, primarily from North and South America, Southeast Asia, and Africa.
OSU Office of Global Opportunities (OSU GO) is the centralized hub for supporting students and faculty who wish to explore, travel, study, and go global: whether studying abroad in diverse countries, participating in specialized international internships, joining service-learning and experiential programs that delve into unique projects and communities, and/or conducting comprehensive and rigorous international research.

Overseas Study and Internship Programs

OSU students may broaden their education by taking part in one or a number of OSU GO's international study programs. Many of the programs allow qualified students from a wide variety of disciplines to earn academic credit from Oregon State University while pursuing their studies internationally. For academic programs approved for OSU credit, financial aid may apply to help cover the costs. IE3 Global is the program development unit within OSU GO to support the strategic mission of education abroad.

IE3 Global offers wide and diverse program options for OSU: direct exchange, study abroad, faculty-led, international internships and research, and supports faculty sabbatical opportunities. Furthermore, IE3 Global partners with colleges and departments on new program opportunities, development, and implementation that align with OSU’s strategic internationalization goals and evolving international curriculum.

More information about OSU GO programs can be obtained by writing to caine.francis@oregonstate.edu or calling 541-737-6434.

Course Equivalency Database:

To assist students and academic advisors in the planning process, OSU GO manages a database of credits (http://international.oregonstate.edu/osugo/course-equivalency/) earned by OSU students participating in education abroad programs.
PROGRAMS

A

- Accountancy Graduate Major (MAC)
- Accountancy Undergraduate Major (BS, HBS)
- Accounting Certificate
- Accounting Graduate Option
- Accounting Information Systems Option
- Actuarial Science Minor
- Adapted Physical Activity Graduate Option
- Adapted Physical Education Graduate Major (MAPE)
- Adult and Higher Education Graduate Major (EDD, EDM, PhD)
- Adult and Higher Education Graduate Minor
- Advanced Biochemistry Option
- Advanced Biophysics Option
- Advanced Chemistry Option
- Advanced Manufacturing Graduate Option
- Advanced Manufacturing Graduate Option
- Advanced Mathematics Teaching Option
- Advanced Molecular Biology Option
- Advanced Science and Mathematics Education Graduate Option
- Advanced Wood Manufacturing Option
- Adventure Leadership Education Option
- Aerospace Engineering Minor
- Aerospace Studies Minor
- Aging Sciences Graduate Minor
- Agricultural and Food Business Management Minor
- Agricultural and Food Business Management Undergraduate Major (BS, HBS)
- Agricultural Education Graduate Major (MS)
- Agricultural Education Graduate Minor
- Agricultural Education Graduate Option
- Agricultural Sciences and Natural Resources Communications Minor
- Agricultural Sciences Minor
- Agricultural Sciences Undergraduate Major (BS, HBS)
- Agronomy Option
- Alternative Energy Option
- American Studies Undergraduate Major (BA, BS, HBA, HBS)
- Animal Behavior Option
- Animal BioHealth/Pre-Professional Option
- Animal Production Option
- Animal Reproduction and Development Option
- Animal Science Graduate Major (MS, PhD)
- Animal Science Graduate Minor
- Animal Sciences Minor
- Animal Sciences Undergraduate Major (BS, HBS)
- Anthropology Graduate Minor
- Anthropology Minor
- Anthropology Undergraduate Major (BA, BS, HBA, HBS)
- Apparel Design Undergraduate Major (BS, HBS)
- Applied and Computational Mathematics Option
- Applied Anthropology Graduate Major (MA, MS, PhD)
- Applied Anthropology Graduate Minor
- Applied Computer Science Option
- Applied Ecology Option
- Applied Economics Graduate Major (MA, MS, PhD)
- Applied Economics Graduate Minor
- Applied Ethics Certificate
- Applied Ethics Graduate Major (MA, MS)
- Applied Ethics Graduate Minor
- Applied Genetics Option
- Applied Journalism Minor
- Applied Physics Option
- Aquatic Biology Option
- Aquatic Microbiology Option
- Archaeology Option
- Architectural Engineering Undergraduate Major (BS, HBS)
- Art and Design Option
- Art Graduate Minor
- Art History Minor
- Art History Option
- Art Undergraduate Major (BA, BFA, BS, HBA, HBFA, HBS)
- Arts, Media, and Technology Minor
- Arts, Media, and Technology Undergraduate Major (BA, BS, HBA, HBS)
- Asian Languages and Cultures Minor
- Asian Studies Minor
- Athletic Training Graduate Major (MATRN)

B

- Biochemistry and Biophysics Graduate Major (MA, MS, PhD)
- Biochemistry and Biophysics Graduate Minor
- Biochemistry and Biophysics Undergraduate Major (BS, HBS)
- Biochemistry and Molecular Biology Undergraduate Major (BS, HBS)
- Biochemistry Option
- Biocultural Option
- Bioengineering Graduate Major (MENG, MS, PhD)
- Bioengineering Undergraduate Major (BA, BS, HBA, HBFA, HBS)
- BioHealth Sciences Undergraduate Major (BS, HBS)
- Biological and Ecological Engineering Graduate Major (MENG, MS, PhD)
- Biological and Ecological Engineering Graduate Minor
- Biological Data Sciences Graduate Minor
- Biological Data Sciences Minor
- Biological Data Sciences Undergraduate Major (BS, HBS)
- Biological Physics Option
- Biology Minor
- Biology Teaching Option
- Biology Undergraduate Major (BS, HBS)
- Biomedical Sciences Graduate Option
- Bioproducts and Bioenergy Option
- Bioresource Research Undergraduate Major (BS, HBS)
- Biostatistics Graduate Option
- Biotechnology Option
• Botany and Plant Pathology Graduate Major (MS, PhD)
• Botany and Plant Pathology Graduate Minor
• Botany Undergraduate Major (BS, HBS)
• Business Administration Graduate Major (MBA, PhD)
• Business Administration Graduate Minor
• Business Administration Undergraduate Major (BA, BS, HBA, HBS)
• Business Analytics Graduate Certificate
• Business Analytics Graduate Option
• Business Analytics Undergraduate Major (BS, HBS)
• Business Engineering Option
• Business Fundamentals Graduate Certificate
• Business Graduate Major (MSB)
• Business Information Systems Undergraduate Major (BA, BS, HBA, HBS)
• Business Minor
• Business Option

C
• Chemical Engineering Graduate Major (MENG, MS, PhD)
• Chemical Engineering Graduate Minor
• Chemical Engineering Option
• Chemical Engineering Undergraduate Major (BA, BS, HBA, HBS)
• Chemical Physics Option
• Chemistry and the Environment Option
• Chemistry Education Option
• Chemistry Graduate Major (MA, MS, PhD)
• Chemistry Graduate Minor
• Chemistry Minor
• Chemistry Teaching Option
• Chemistry Undergraduate Major (BA, BS, HBA, HBS)
• Child Development Option
• Civil Engineering Graduate Major (MENG, MS, PhD)
• Civil Engineering Graduate Minor
• Civil Engineering Undergraduate Major (BA, BS, HBA, HBS)
• Climate and Biosystems Modeling Option
• Climate Science Option
• Clinical Mental Health Counseling Graduate Option
• Clinical Sciences Graduate Option
• Clinically Based Elementary Graduate Option
• College and University Teaching Graduate Certificate
• College Student Services Administration Graduate Major (EDM, MS)
• Communication Minor
• Communication Option
• Community College Leadership Graduate Option
• Community Development and Leadership Option
• Community History and Civic Engagement Graduate Option
• Comparative Health Sciences Graduate Major (MS, PhD)
• Comparative Health Sciences Graduate Minor
• Comparative International Agriculture Minor
• Comprehensive Botany Option
• Computational Biology Option
• Computational Molecular Biology Option
• Computational Physics Option
• Computer Science Double Degree Option
• Computer Science Graduate Major (MENG, MS, PhD)
• Computer Science Graduate Minor
• Computer Science Minor
• Computer Science Undergraduate Major (BA, BS, HBA, HBS)
• Computer Systems Option
• Conservation Law Enforcement Option
• Conservation, Resources, and Sustainability Option
• Construction Engineering Management Undergraduate Major (BA, BS, HBA, HBS)
• Contemplative Studies Minor
• Corporate Finance Graduate Option
• Counseling Graduate Major (MCOUN, PhD)
• Counseling Graduate Minor
• Counselor Education Graduate Option
• Creative Writing Graduate Major (MFA)
• Creative Writing Graduate Minor
• Creative Writing Undergraduate Major (BA, HBA)
• Crime and Justice Option
• Crop and Soil Science Undergraduate Major (BS, HBS)
• Crop Science Graduate Major (MS, PhD)
• Crop Science Graduate Minor
• Crop Science Minor
• Cultural/Linguistic Option
• Customizable Option
• CyberSecurity Certificate

D
• Data Analytics Graduate Certificate
• Data Analytics Graduate Major (MS)
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Dean’s Academy Option
• Design and Human Environment Graduate Major (MA, MS, PhD)
• Design and Human Environment Graduate Minor
• Design and Innovation Management Undergraduate Major (BS, HBS)
• Design Graduate Option
• Dietetics Option
• Digital Communication Arts Undergraduate Major (BA, BFA, BS, HBA, HBFA, HBS)
• Digital Marketing Analytics Option
• Digital Marketing Option
• Dual Language Education Graduate Certificate
• Dynamics and Controls Graduate Option

E
• Early Childhood Development and Education Minor
• Early Childhood Option
• Earth Sciences Minor
• Earth Sciences Undergraduate Major (BS, HBS)
• Earth Systems Option
• Ecological and Environmental Informatics Option
• Ecological Engineering Undergraduate Major (BS, HBS)
• Ecological Management of Turf, Landscape and Urban Horticulture Option
• Ecological Restoration Option
• Ecology Option
• Ecology, Evolution, and Conservation Option
• Economics Minor
• Economics Undergraduate Major (BA, BS, HBA, HBS)
• Education Graduate Major (EDD, EDM, MS, PhD)
• Education Graduate Minor
• Education Minor
• Education Undergraduate Major (BA, BS, HBA, HBS)
• Electrical and Computer Engineering Graduate Major (MENG, MS, PhD)
• Electrical and Computer Engineering Graduate Minor
• Electrical and Computer Engineering Undergraduate Major (BS, HBS)
• Elementary Education Undergraduate Major (BS, HBS)
• Elementary Graduate Option
• Elementary Teaching Option
• Energy Policy Graduate Certificate
• Energy Systems Engineering Undergraduate Major (BS, HBS)
• Engineering Management Graduate Certificate
• Engineering Management Graduate Option
• Engineering Management Graduate Option
• Engineering Science Undergraduate Major (BS, HBS)
• English for Speakers of Other Languages Graduate Certificate
• English Graduate Major (MA)
• English Graduate Minor
• English Minor
• English Undergraduate Major (BA, HBA)
• Enology and Viticulture Option
• Entomology Graduate Major (MA, MS, PhD)
• Entomology Graduate Minor
• Entomology Graduate Option
• Entomology Graduate Option
• Entomology Minor
• Entrepreneurship and Innovation Management Graduate Minor
• Entrepreneurship for Business Majors Option
• Entrepreneurship Minor
• Environmental Agriculture Option
• Environmental and Energy Politics Option
• Environmental and Natural Resource Sociology Option
• Environmental and Occupational Health Graduate Option
• Environmental and Occupational Health Minor
• Environmental Arts and Humanities Graduate Major (MA)
• Environmental Arts and Humanities Graduate Minor
• Environmental Chemistry Option
• Environmental Chemistry Option
• Environmental Economics and Policy Minor
• Environmental Economics and Policy Undergraduate Major (BS, HBS)
• Environmental Engineering Graduate Major (MENG, MS, PhD)
• Environmental Engineering Graduate Minor
• Environmental Engineering Minor
• Environmental Engineering Undergraduate Major (BA, BS, HBA, HBS)
• Environmental Law and Policy Minor
• Environmental Policy and Economics Option
• Environmental Science Education Option
• Environmental Sciences Graduate Major (MA, MS, PhD, PSM)
• Environmental Sciences Graduate Minor
• Environmental Sciences Minor
• Environmental Sciences Undergraduate Major (BS, HBS)
• Environmental Water Resources Option
• Epidemiology Graduate Minor
• Epidemiology Graduate Option
• Equine Option
• Ergonomics Graduate Minor
• Ethnic Studies Graduate Minor
• Ethnic Studies Minor
• Ethnic Studies Undergraduate Major (BA, BS, HBA, HBS)
• Exercise Physiology Minor

F
• Family and Consumer Sciences Teaching Option
• Family Business Minor
• Family Business Option
• Fermentation Science Minor
• Fermentation Science Option
• Film Studies Minor
• Finance Graduate Option
• Finance Graduate Option
• Finance Minor
• Finance Undergraduate Major (BA, BS, HBA, HBS)
• Financial Analytics Graduate Option
• Financial Planning Graduate Certificate
• Financial Planning Graduate Option
• Fish and Wildlife Conservation Option
• Fisheries and Wildlife Administration Graduate Major (PSM)
• Fisheries and Wildlife Sciences Minor
• Fisheries and Wildlife Sciences Undergraduate Major (BS, HBS)
• Fisheries Management Graduate Certificate
• Fisheries Science Graduate Major (MS, PhD)
• Fisheries Science Graduate Minor
• Food in Culture and Social Justice Certificate
• Food in Culture and Social Justice Graduate Minor
• Food Manufacturing Minor
• Food Quality Option
• Food Science and Technology Graduate Major (MS, PhD)
• Food Science and Technology Graduate Minor
• Food Science and Technology Undergraduate Major (BS, HBS)
• Food Science Minor
• Food Science Option
• Food Technology Minor
• Forensic Science Option
• Forest Ecosystems and Society Graduate Major (MF, MS, PhD)
• Forest Ecosystems Option
• Forest Engineering - Civil Engineering Undergraduate Major (BS, HBS)
• Forest Engineering Undergraduate Major (BS, HBS)
• Forest Management Option
• Forest Operations Management Option
• Forest Restoration and Fire Option
• Forestry Minor
• Forestry Undergraduate Major (BS, HBS)
• Forests and Climate Change Graduate Certificate
• Foundational Mathematics Option
• Free-Choice Learning Graduate Option
• French Minor
• French Undergraduate Major (BA, HBA)

G
• General Anthropology Option
• General Business Option
• General Economics Option
• General Horticulture Option
• General Human Development and Family Sciences Option
• Genetics Option
• Genomics Option
• Genomics/Bioinformatics Option
• Geographic Information Science Certificate
• Geographic Information Science Graduate Certificate
• Geography and Geospatial Science Undergraduate Major (BS, HBS)
• Geography Graduate Major (MS, PhD)
• Geography Graduate Minor
• Geography Minor
• Geology Graduate Major (MA, MS, PhD)
• Geology Graduate Minor
• Geology Minor
• Geology Option
• Geophysics Option
• German Minor
• German Undergraduate Major (BA, HBA)
• Gerontology Certificate
• Gerontology Graduate Minor
• Global Development Studies Minor
• Global Health Graduate Option
• Global Health Minor
• Global Perspectives on War, Peace, and Empire Graduate Option
• Graphic Design Minor

H
• Habitat Management Option
• Health Management and Policy Graduate Certificate
• Health Management and Policy Minor
• Health Management and Policy Option
• Health Promotion and Health Behavior Graduate Option
• Health Promotion and Health Behavior Option
• Health Systems and Policy Graduate Option
• Health Teaching Option
• History and Philosophy of Science Graduate Major (MA, MS, PhD)
• History and Philosophy of Science Graduate Minor
• History Graduate Major (MA, MS)
• History Graduate Minor
• History Minor
• History of Science and Technology Graduate Option
• History Undergraduate Major (BA, BS, HBA, HBS)
• Honors Associate Undergraduate Major (HBA, HBFA, HBM, HBS)
• Honors Scholar Undergraduate Major (HBA, HBFA, HBM, HBS)
• Horticultural Research Option
• Horticulture Graduate Major (MS, PhD)
• Horticulture Graduate Minor
• Horticulture Minor
• Horticulture Undergraduate Major (BS, HBS)
• Hospitality Management Option
• Hospitality Management Undergraduate Major (BA, BS, HBA, HBS)
• Human Development and Family Sciences Minor
• Human Development and Family Sciences Undergraduate Major (BS, HBS)
• Human Development and Family Studies Graduate Major (MS, PhD)
• Human Development and Family Studies Graduate Minor
• Human Dimensions in Natural Resources Option
• Human Resource Analytics Option
• Human Resource Management Graduate Option
• Human Services Option
• Human Systems Engineering Graduate Option
• Humanitarian Engineering Minor

I
• Individualized Specialty Option
• Industrial Engineering Graduate Major (MENG, MS, PhD)
• Industrial Engineering Graduate Minor
• Industrial Engineering Undergraduate Major (BS, HBS)
• Information Systems Engineering Graduate Option
• Innovation Management Graduate Option
• Innovation Management Undergraduate Major (BA, BS, HBA, HBS)
• Instructional Design Graduate Certificate
• Instrumental Performance Option
• Integrated Conservation Analysis Option
• Integrated Science Teaching Option
• Integrative Biology Graduate Major (MS, PhD)
• Integrative Biology Graduate Minor
• Interdisciplinary Studies Graduate Major (MAIS)
• Interior Design Undergraduate Major (BS, HBS)
• International Affairs Option
• International Business Option
• International Business Option
• International Business Option
• International Business Option
• International Business Option
• International Engineering Minor
• International Studies Undergraduate Major (BA, HBA)
• Irrigation Engineering Minor

K
• Kinesiology Graduate Major (MS, PhD)
• Kinesiology Graduate Minor
• Kinesiology Undergraduate Major (BS, HBS)

L
• Landscape Analysis Option
• Language Arts Graduate Option
• Language Arts Teaching Option
• Language Equity and Educational Policy Graduate Option
• Language in Culture Certificate
• Latin American Affairs Certificate
• Law and Politics Option
• Law, Economics and Policy Option
• Leadership in Higher Education Graduate Option
• Leadership Minor
• Liberal Studies Undergraduate Major (BA, BS, HBA, HBS)

M
• Management and Marketing Option
• Management Undergraduate Major (BA, BS, HBA, HBS)
• Managerial Economics Option
• Manufacturing Engineering Undergraduate Major (BS, HBS)
• Manufacturing Systems Engineering Graduate Option
• Manufacturing Systems Option
• Marine Biology and Ecology Minor
• Marine Biology Option
• Marine Conservation and Management Minor
• Marine Resource Management Graduate Certificate
• Marine Resource Management Graduate Major (MA, MS)
• Marine Resource Management Graduate Minor
• Market Research and Consumer Analytics Option
• Marketing Graduate Option
• Marketing Insights and Analytics Graduate Option
• Marketing Minor
• Marketing Option
• Marketing Undergraduate Major (BA, BS, HBA, HBS)
• Materials Mechanics Graduate Option
• Materials Science Graduate Major (MS, PhD)
• Materials Science Graduate Minor
• Materials Science Minor
• Materials Science Option
• Mathematical Biology Option
• Mathematical Economics Option
• Mathematical Physics Option
• Mathematics Education Graduate Minor
• Mathematics Education Graduate Option
• Mathematics Graduate Major (MA, MS, PhD)
• Mathematics Graduate Minor
• Mathematics Graduate Option
• Mathematics Minor
• Mathematics Undergraduate Major (BS, HBS)
• Mechanical Engineering Graduate Major (MENG, MS, PhD)
• Mechanical Engineering Graduate Minor
• Mechanical Engineering Undergraduate Major (BS, HBS)
• Medical Humanities Certificate
• Medical Physics Graduate Major (MMP, MS, PhD)
• Merchandising Management Minor
• Merchandising Management Option
• Merchandising Management Undergraduate Major (BS, HBS)
• Microbiology Graduate Major (MA, MS, PhD)
• Microbiology Graduate Minor
• Microbiology Minor
• Microbiology Undergraduate Major (BS, HBS)
• Military History Minor
• Military Science Minor
• Molecular, Cellular, and Genomic Botany Option
• Music Education Option
• Music Graduate Minor
• Music Graduate Option
• Music Minor
• Music Performance Minor
• Music Production Option
• Music Studies Undergraduate Major (BM, HBM)
• Music Undergraduate Major (BA, BS, HBA, HBS)

N
• Natural Resource Education Option
• Natural Resources Graduate Major (MNR)
• Natural Resources Minor
• Natural Resources Undergraduate Major (BS, HBS)
• Nature, Eco, and Adventure Tourism Option
• Naval Science-U.S. Marine Corps Minor
• Naval Science-U.S. Navy Minor
• Neuroscience Option
• New Media Communications Minor
• Nuclear Engineering Graduate Major (MENG, MS, PhD)
• Nuclear Engineering Graduate Minor
• Nuclear Engineering Minor
• Nuclear Engineering Undergraduate Major (BS, HBS)
• Nutrition and Health Sciences Option
• Nutrition Graduate Major (MS, PhD)
• Nutrition Graduate Minor
• Nutrition in Foodservice, Culinary and Food Systems Option
• Nutrition Minor
• Nutrition Undergraduate Major (BS, HBS)

O
• Ocean Science Option
• Ocean, Earth and Atmospheric Sciences Graduate Major (MA, MS, PhD)
• Ocean, Earth and Atmospheric Sciences Graduate Minor
• Oceanography Minor
• Optical Physics Option
• Organic Agriculture Graduate Certificate
• Organic Farming Systems Certificate
• Organizational Leadership Graduate Minor
• Organizational Leadership Graduate Option
• Organizational Leadership Minor
• Outdoor Products Minor
• Outdoor Products Undergraduate Major (BS, HBS)
• Outdoor Recreation Management Option

P
• Pastoral Systems of the World Option
• Peace Studies Certificate
• Pest Biology and Management Option
• Pharmaceutical Sciences Graduate Major (MS, PhD)
• Pharmaceutical Sciences Graduate Minor
• Pharmacy Professional Major (PHARMD)
• Philosophy Graduate Minor
• Philosophy Minor
• Philosophy Undergraduate Major (BA, BS, HBA, HBS)
• Photography and Digital Studio BFA Option
• Photography and Digital Studio Option
• Photography Minor
• Physical Activity Graduate Option
• Physical Therapy Professional Major (DPT)
• Physics Graduate Major (MA, MS, PhD)
• Physics Graduate Minor
• Physics Minor
• Physics Teaching Option
• Physics Teaching/Physics Option
• Physics Undergraduate Major (BA, BS, HBA, HBS)
• Physiology and Behavior Option
• Piano Performance and Pedagogy Option
• Piano Performance Option
• PK-12 English to Speakers of Other Languages (ESOL) Graduate Option
• Plant Breeding and Genetics Graduate Option
• Plant Breeding and Genetics Graduate Option
• Plant Breeding and Genetics Option

Q
• Queer Studies Graduate Minor
• Queer Studies Minor

R
• Radiation Health Physics - Pre Med Option
• Radiation Health Physics Graduate Major (MHP, MS, PhD)
• Radiation Health Physics Graduate Minor
• Radiation Health Physics Minor
• Radiation Health Physics Undergraduate Major (BS, HBS)
• Rangeland Ecology and Management Graduate Major (MS, PhD)
• Rangeland Ecology and Management Graduate Minor
• Rangeland Science Minor
• Rangeland Science Option
• Rangeland Sciences Undergraduate Major (BS, HBS)
• Religious Studies Minor
• Religious Studies Undergraduate Major (BA, BS, HBA, HBS)
• Renewable Energy Graduate Option
• Renewable Materials Minor
• Renewable Materials Undergraduate Major (BS, HBS)
• Research Thesis Graduate Option
• Retail Management Option
• Risk and Uncertainty Quantification in Earth Systems Graduate Minor
• Robotics Graduate Major (MENG, MS, PhD)
• Robotics Graduate Minor
• Rural Policy Graduate Certificate

S
• School Counseling Graduate Option
• Science and Engineering Option
• Science Education Graduate Minor
• Science Education Graduate Option
• Science Graduate Option
• Science/Mathematics Education Graduate Option
• Scientific, Technical, and Professional Communication Certificate
• Secondary Teaching Emphasis Option
• Social Justice Education Graduate Option
• Social Justice Minor
• Social Science Undergraduate Major (BA, BS, HBA, HBS)
• Social Studies Graduate Option
• Social Studies Teaching Option
• Sociology Graduate Minor
• Sociology Minor
• Sociology Undergraduate Major (BA, BS, HBA, HBS)
• Soil Science Graduate Major (MS, PhD)
• Soil Science Graduate Minor
• Soil Science Minor
• Soil Science Option
• Spanish Minor
• Spanish Undergraduate Major (BA, HBA)
• Speech Communication Graduate Minor
• Speech Communication Undergraduate Major (BA, BS, HBA, HBS)
• Statistics Graduate Major (MA, MS, PhD)
• Statistics Graduate Minor
• Statistics Minor
• Statistics Option
• Strategy, Entrepreneurship, and Innovation Graduate Option
• Studio Art BFA Option
• Studio Art Minor
• Studio Art Option
• Supply Chain Analytics Graduate Option
• Supply Chain and Logistics Management Graduate Certificate
• Supply Chain and Logistics Management Graduate Option

T
• Teaching Graduate Major (MAT)
• Theater Arts Minor
• Theater Arts Option
• Therapeutic Horticulture Option
• Thermal Fluid Sciences Graduate Option
• Tourism, Recreation, and Adventure Leadership Minor
• Tourism, Recreation, and Adventure Leadership Undergraduate Major (BS, HBS)
• Toxicology Graduate Major (MS, PhD)
• Toxicology Graduate Minor
• Toxicology Minor
• Toxicology Option
• Turf and Landscape Management Minor

U
• Urban Agriculture Certificate
• Urban Forest Landscapes Option
• Urban Forestry Graduate Certificate
• User Experience Research Minor

V
• Veterinary Medicine Professional Major (DVM)
• Viticulture and Enology Option
• Vocal Performance, Pedagogy and Literature Option

W
• Water Conflict Management and Transformation Graduate Certificate
• Water Conflict Management and Transformation Graduate Minor
• Water Resources Engineering Graduate Major (MS, PhD)
• Water Resources Engineering Graduate Minor
• Water Resources Graduate Minor
• Water Resources Option
• Water Resources Policy and Management Graduate Major (MS)
• Water Resources Policy and Management Graduate Minor
• Water Resources Science Graduate Major (MS, PhD)
• Water Resources Science Graduate Minor
• Wildland Fire Ecology Option
• Wildlife Management Graduate Certificate
• Wildlife Science Graduate Major (MS, PhD)
• Wildlife Science Graduate Minor
• Women, Gender, and Sexuality Studies Certificate
• Women, Gender, and Sexuality Studies Graduate Major (MA, PhD)
• Women, Gender, and Sexuality Studies Graduate Minor
• Women, Gender, and Sexuality Studies Minor
• Women, Gender, and Sexuality Studies Undergraduate Major (BA, BS, HBA, HBS)
• Wood Science Graduate Major (MS, PhD)
• Wood Science Graduate Minor
• Writing Minor

Y
• Yoga Studies and Yoga Teacher Training Certificate

Z
• Zoology Undergraduate Major (BS, HBS)

Cynthia Sagers, Vice President for Research
Roy Haggerty, Associate Vice President for Research, 541-737-8390, roy.haggerty@oregonstate.edu
Mark Peters, Interim Director, Office of Research Integrity, 541-737-0647, mark.peters@oregonstate.edu
Patricia Hawk, Assistant Vice President, Office for Sponsored Research and Award Administration, 541-737-4933, patricia.hawk@oregonstate.edu
Brian Wall, Assistant Vice President for Research, Commercialization and Industry Partnerships, Office for Commercialization and Corporate Development and Oregon State University Advantage, 541-737-9058, brian.wall@oregonstate.edu
Susan Emerson, Research Development Associate, 541-737-1755, susan.emerson@oregonstate.edu

The Research Office

Oregon's State University is one of only two land, sea, space and sun grant institutions in the U.S., holds top tier research designation from the Carnegie Foundation, and is the state's largest public research university. Oregon State research exceeded $308 million dollars in fiscal year 2015, with private sector funding totaling approximately $40 million.

The OSU Research Agenda, integrated with the university's strategic plan, guides faculty inquiry in OSU's three signature areas of distinction: Advancing the Science of Sustainable Earth Systems; Improving Human Health and Wellness; and Promoting Economic Growth and Social Progress.

Headed by the vice president for research, the Research Office serves faculty involved in research, innovation, scholarship, and creativity in all OSU colleges and in a variety of multidisciplinary centers, institutes and programs. The office provides support to secure funding, comply with regulations, partner with industry, establish collaborations across the university and raise the profile of OSU.

Programs, Offices and Centers

Incentive Programs (http://research.oregonstate.edu/incentive/): The General Research Fund is for projects not otherwise supported by organized or directed programs. Faculty Release Time provides funding for developing external grant proposals or furthering scholarly activities. Research Equipment Reserve Funds help acquire, repair, renovate, or improve equipment. The Undergraduate Research, Innovation, Scholarship and Creativity Fund enable students to initiate scholarly relationships with faculty early in their academic careers.

OSU Advantage (http://advantage.oregonstate.edu/home/): OSU Advantage connects business with faculty expertise, student talent and world-class facilities to research solutions, bring ideas to market and launch companies. OSU Advantage helps faculty take their research and projects into the marketplace where they can have real-world impacts, and provides opportunities to new sources of funding to carry on important and impactful work. Three aligned organizations offer this opportunity: Advantage Accelerator, Advantage Partnerships, and Advantage Impact.

Office of Research Integrity (http://research.oregonstate.edu/ori/): The ORI works with OSU faculty, staff, and students to help assure proper conduct of research in areas pertaining to the use of human subjects, and non-human vertebrate animals. The office also works with faculty and Academic Affairs to identify and appropriately manage issues that could be perceived to present financial conflicts of interest. The university's Small Boat and Diving Safety programs are overseen by the office, as are issues related to technology export controls. The ORI's purpose is to facilitate the research efforts of OSU faculty, staff and students by helping them to remain compliant with the many federal and state research regulations that assure the integrity of research, the safety of all, and the ethical treatment of human and animal subjects.

Office of Sponsored Research and Award Administration (http://research.oregonstate.edu/osraa/) (OSRAA) (http://research.oregonstate.edu/osraa/): OSRAA has central responsibility for proposal submission for sponsored research, scholarship, instructional and other activities at Oregon State and contractual compliance as it relates to sponsored activities. OSRAA balances service to OSU faculty and staff, university administration, and the numerous organizations that sponsor Oregon State University activities. Functions include proposal review, monitoring institutional compliance with terms and conditions, official institutional signatory, policy and procedure development, training, compliance activities related to research administration, and general funding opportunity assistance.

Office for Commercialization and Corporate Development (OCCD) (http://advantage.oregonstate.edu/advantage-impact/): The OCCD leads OSU's industry-sponsored research efforts and the commercialization of OSU innovations by evaluating markets, developing an intellectual property protection strategy and executing research, confidentiality, materials transfer, licensing and other industry agreements. The OCCD is the bridge to commercial entities—from Oregon-based startups to large international companies, the OCCD facilitates OSU research to impact the world.

Office for Research Development (ORD) (http://research.oregonstate.edu/ord/): The ORD provides leadership in strategic planning, implementation, coordination, and review of large research proposals across campus, and manages the University Limited Submission process. The primary responsibilities of the ORD are to identify and develop new external funding sources, increase funding support for the university, facilitate the development of research partnerships, research future grant opportunities, and provide education for faculty and administrators to encourage applications for grant funding.

Multidisciplinary Centers and Institutes (https://research.oregonstate.edu/research-centers-and-institutes-osu-0/): Addressing many of the world's most pressing challenges requires collaborative efforts of scientists, engineers, social scientists, and humanists to attain long-lasting, high impact results. OSU fosters these dynamic transdisciplinary collaborations through a variety of centers, institutes and programs. With particular strengths in material sciences, ocean and earth sciences, enterprise innovation and economic development, health sciences, and natural resources, OSU investigators, representing virtually every college on campus, team to conduct cutting-edge research, provide undergraduate and graduate education, and
proactively engage communities throughout Oregon and the world in helping them address their greatest needs.

**Center for Genome Research and Biocomputing**

Brett Tyler, Director  
Website: http://cgrp.oregonstate.edu/

Facilitates the development, application and training in computationally intensive, genome-enabled research at OSU and across the state. Research in the CGRB and faculty affiliate laboratories seeks to improve health, better utilize natural and agricultural resources, understand our global environment, and develop new bio-based products and energy sources. The center offers leadership and services to faculty, staff and students through core laboratories, computational facilities, seminars and technology workshops, and conferences. It also provides a focal point for researchers to establish contacts, initiate collaborations, and apply new technologies in their own laboratories.

**Center for Latino/a Studies and Engagement**

Ana Gómez-Diazgranados, Associate Director of Outreach and Engagement  
Email: Ana.Gomez@oregonstate.edu (Daniel.Lopez-Cevallos@oregonstate.edu)

Daniel Lopez-Cevallos, Associate Director of Research  
Email: Daniel.Lopez-Cevallos@oregonstate.edu

Website: http://liberalarts.oregonstate.edu/centers-and-initiatives/center-latino-studies-and-engagement/ (http://liberalarts.oregonstate.edu/centers-and-initiatives/center-latino-studies-and-engagement/)

The mission of the Center for Latino/a Studies and Engagement is to promote engaged research and outreach devoted to advancing knowledge and understanding of Latinx life chances and the issues shaping their lived experiences in our state, region and beyond. The overarching goals of the center are to promote excellence in engaged research, teaching, and outreach in Latinx Studies; to establish an action-based agenda which will promote the economic, political, physical, and educational well-being and development of the Latinx community in rural and urban Oregon; to serve as a model for enhancing the university’s capabilities in similarly targeted research and engagement efforts; and to foster engaged research that is collaborative, trans-disciplinary, and community oriented; furthering both theoretical and applied knowledge to solve real-world problems.

**Center for Research on Lifelong STEM Learning**

Martin Storksdieck, Director  
Email: Storksdieck@oregonstate.edu  
Website: http://stem.oregonstate.edu/

Works to improve understanding of how all people learn STEM throughout the lifespan and across formal and informal settings. The center works across campus to enhance OSU's capacity to conduct applied research on learning and education in STEM disciplines (Science, Technology, Engineering and Mathematics), and to provide OSU with the insights from past and current research on STEM learning. It serves a diverse and decentralized community of those who engage in STEM, or use learning research at OSU, by functioning as a central hub and institutional support structure. The center represents OSU STEM learning research at state, national and international levels.

**The Center for the Humanities**

Christopher McKnight Nichols, Director  
Joy Jensen, Coordinator  
Website: http://oregonstate.edu/dept/humanities/

Primarily concerned with the advancement of interdisciplinary humanities research and provides fellowships to visiting scholars and OSU faculty members engaged in research and writing projects in literature, history, philosophy, foreign languages, and related humanities fields. Fellowship applications are screened by an advisory board made up of former fellows and OSU faculty from the College of Liberal Arts. The Humanities Center also hosts or co-sponsors research conferences, seminars, films, lectures, and other public programs in the humanities. The Humanities Center’s fundamental concern is the advancement of humanities research, teaching, and public presence at OSU.

**Cooperative Institute for Marine Resources Studies**

Michael A. Banks, Director  
Website: http://hmsc.oregonstate.edu/cimrs/

Established in 1982 to foster collaborative research between the National Oceanic and Atmospheric Administration (NOAA) and Oregon State University in fisheries, aquaculture, oceanography, and related fields. It also encourages education and training of scientists in disciplines related to marine resources. Administered through the Vice President for Research, the institute is the academic home for a staff of 25 to 45 (total) research assistants, associate and full professors, research associates, and faculty research assistants and students. Headquartered at the Hatfield Marine Science Center in Newport, the institute hosts collaborative research with various NOAA investigators within DAR, NOS and NMFS, specifically, the Pacific Marine Environmental Laboratory, the Northwest Fisheries Science Center and the Alaska Fisheries Science Center, the West Coast Regional Office, as well as researchers from a broad range of colleges and departments within the entire OSU system.

**Environmental Health Sciences Center**

Joseph Beckman, Director  
Website: http://ehsc.oregonstate.edu/

Established in 1967 with funding by the National Institute of Environmental Health Sciences (NIEHS). As an organizational unit under the vice president for research, it provides resources for coordination and stimulation of interdisciplinary basic research and training related to the effects of environmental factors on human health. The EHS Center currently brings together and uses a variety of professional capabilities of research and teaching faculty, staff, and students from numerous OSU departments, schools, and colleges within OSU. Academic areas include chemistry, biochemistry and biophysics, environmental and molecular toxicology, microbiology, molecular and cell biology, food science and technology, fisheries and wildlife, veterinary medicine, pharmacology, zoology, and statistics. The center’s visiting scientists program complements research expertise in these areas.
Hatfield Marine Science Center

Robert Cowen, Director
2030 SE Marine Science Drive, Newport, OR 97366
Phone: 541-867-0212 (Director's Office)
Email: HMSCmainoffice@oregonstate.edu
Website: http://hmsc.oregonstate.edu/

HMSC has over 50 years of accomplishment in research, education, and outreach. Originally established as a marine laboratory for Oregon State University, it has grown to encompass a large group of partners on its 49-acre site on Yaquina Bay in Newport, Oregon. Within OSU, HMSC includes researchers, students, and faculty from six colleges. It serves as home to several university programs, including the Coastal Oregon Marine Experiment Station, the Cooperative Institute for Marine Resources Studies, and the Marine Mammal Institute. It also includes important components of the Oregon Sea Grant program and the Northwest National Marine Renewable Energy Center. Our onsite partners include six state and federal agencies involved in research and management of the marine environment, and our cooperation includes faculty appointments for agency staff, as well as opportunities for students to work with agency scientists.

Institute for Natural Resources

Lisa Gaines, Interim Director
Phone: 541-737-9918 (Main Office)
Website: http://inr.oregonstate.edu/

Created by the Oregon Legislature with the Oregon Sustainability Act of 2001, the INR is a cooperative enterprise bringing the scientific knowledge and expertise of the Oregon University System and other Oregon higher education institutions to bear on natural resource management. Designated as the lead university to administer INR, Oregon State University (OSU) established INR as a research institute within OSU to help decision-makers identify and use relevant science in making policy choices. At INR's foundation is the land grant mission — building bridges between theory and practice and effectively communicating knowledge to decision-makers.

Institute for Water and Watersheds

Todd Jarvis, Director
Kathryn Motter, Laboratory Manager
Phone: 541-737-9918
Email: iww@oregonstate.edu
Website: http://water.oregonstate.edu/

Since water is ‘virtually’ embedded in all Oregon products, whether natural or manufactured, the state’s economic vitality is tied directly to water. Water quantity and quality issues in the Willamette and Klamath Basins are two of the state’s top environmental priorities. The Institute for Water and Watersheds (IWW), Oregon’s federally-designated water resources research institute, has over 125 affiliated faculty and pursues solutions to Oregon’s water problems by assembling research teams from a broad spectrum of disciplines. The institute utilizes educational and outreach models to communicate the latest water science and policy options to stakeholders so that they can make informed intelligent decisions. The IWW’s Water Collaboratory, an open analytical chemistry laboratory, provides faculty, staff, and students with a variety of analytical capabilities.

Laboratory Animal Resources Center

Helen E. Diggs, ME, DVM, DACLAM
Director and Campus Attending Veterinarian
101 Laboratory Animal Resources Center
Corvallis, Oregon 97331
541-737-6213
Email: larc@oregonstate.edu
Website: http://oregonstate.edu/dept/larc/

Supports and manages the care and veterinary oversight of vertebrate animals used in instruction, research, production, and testing on the Oregon State University campus and property throughout the state. As the leading public research university in Oregon, the campus community is held to the highest standards of responsible animal care. The LARC staff is composed of veterinarians, animal technicians, and veterinary technicians all with specialty training and certifications specific to laboratory animal medicine. LARC employees are committed to providing an exemplary animal oversight program. This includes ensuring humane care and use of animals through quality veterinary oversight, husbandry, social housing and environmental enrichment. The LARC staff facilitates campus research and instructional collaborations, through consultation, training, and provision of professional technical and clinical services, and by maintaining compliance with applicable federal and state regulations. The LARC upholds the university’s academic mission and commitment to public service.

Linus Pauling Institute

Balz Frei, Director
307 Linus Pauling Science Center
541-737-5075
Email: lpi@oregonstate.edu
Website: http://lpi.oregonstate.edu/

The Linus Pauling Institute was co-founded in 1973 by Linus Pauling, the only individual to win two unshared Nobel Prizes (Chemistry, 1954; Peace, 1962). The institute moved to the campus of Oregon State University (Dr. Pauling’s undergraduate alma mater) in 1996 and now operates as one of the university’s research centers and institutes. Researchers at the Linus Pauling Institute investigate the role that vitamins and essential minerals (micronutrients) and chemicals from plants (phytochemicals) play in human aging, immune function, and chronic diseases, especially heart disease, cancer, and neurodegenerative diseases. A major emphasis is to understand the role of oxidative stress and inflammation in disease etiology, and the preventive effects of dietary constituents with antioxidant or anti-inflammatory properties.

Northwest National Marine Renewable Energy Center

Belinda Batten, Director
Phone: 541-737-9492
Email: belinda.batten@oregonstate.edu
Website: http://nnmrec.oregonstate.edu/

The NNMREC is a U.S. Department of Energy-sponsored partnership between Oregon State University (OSU), the University of Washington...
and monitoring. Facilities for radiation work include teaching and

detectors; and a variety of instruments for radiation measurements

operate at 1,100 kilowatts when running at a steady power level and at

facilities, including a TRIGA Mark II nuclear research reactor (licensed to

major items of specialized equipment and unique teaching and research

use of radiation and radioactive materials. Located in the center are

Website: [radiationcenter.oregonstate.edu](http://radiationcenter.oregonstate.edu/)

a strong science mathematics, and technology education base from

training, research, and public service programs related to aeronautics,

cooperative programs among universities, aerospace industry, and

federal, state, and local governments; encourage interdisciplinary

training, research, and public service programs related to aeronautics,

space science, and technology; recruit and train professionals, especially

women, underrepresented minorities, and persons with disabilities,

for careers in aerospace-related science and engineering; and develop

a strong science mathematics, and technology education base from

elementary through university levels.

Oregon NASA Space Grant Consortium

Jack Higginbotham, Director
Phone: 541-737-2414
Website: [spacegrant.oregonstate.edu](http://spacegrant.oregonstate.edu/)

NASA established Oregon Space Grant in 1991 as a part of the National
Space Grant College and Fellowship Program. The objectives of the
program are to establish a national network of universities with interest
and capabilities in aeronautics, space, and related fields; encourage
cooperative programs among universities, aerospace industry, and
federal, state, and local governments; encourage interdisciplinary
training, research, and public service programs related to aeronautics,

space science, and technology; recruit and train professionals, especially

women, underrepresented minorities, and persons with disabilities,

for careers in aerospace-related science and engineering; and develop

a strong science mathematics, and technology education base from

elementary through university levels.

Oregon Sea Grant

Shelby Walker, Director
Website: [seagrant.oregonstate.edu](http://seagrant.oregonstate.edu/)

Oregon Sea Grant’s mission is to be a catalyst that promotes discovery,
understanding and resilience for Oregon coastal communities and
ecosystems. Funding for Sea Grant comes from federal and state
appropriations, as well as contributions from local governments and
industry. The major support is a grant from the National Oceanic and
Atmospheric Administration. Program activities are conducted in four

thematic areas; ecological, social and economic aspects of coastal
development, adaptation to acute or chronic coastal hazards, human and
natural dimensions of coastal and marine fisheries, and cultural beliefs,

learning and valuation of coastal and marine issues.

Radiation Center

Steve Reese, Director
Website: [radiationcenter.oregonstate.edu](http://radiationcenter.oregonstate.edu/)

The Radiation Center is a campus-wide instructional and research
facility specially designed to accommodate programs involving the
use of radiation and radioactive materials. Located in the center are
major items of specialized equipment and unique teaching and research
facilities, including a TRIGA Mark II nuclear research reactor (licensed to
operate at 1,100 kilowatts when running at a steady power level and at
2,500 megawatts in the pulsing mode), a cobalt-60 gamma irradiator; a
number of gamma radiation spectrometers and associated germanium
detectors; and a variety of instruments for radiation measurements
and monitoring. Facilities for radiation work include teaching and

research laboratories with up-to-date instrumentation and related
equipment for performing neutron activation analysis and radiotracer
studies; laboratories for plant experiments involving radioactivity; an
instrument calibration facility for radiation protection instrumentation;

and facilities for packaging radioactive materials for shipment to national
and international destinations.

Superfund Research Center

Robert Tanguay, Director
Email: robert.tanguay@oregonstate.edu
541-737-6514
Website: [superfund.oregonstate.edu](http://superfund.oregonstate.edu/)

The Superfund Research Center oversees the NIEHS-funded Superfund
Research Program grant at Oregon State University. This grant supports
a multidisciplinary research effort to address the re-emerging health
threat of polycyclic aromatic hydrocarbons (PAHs) in the environment.

PAHs are considered a re-emerging threat to environmental health due to
the increased burning of fossil fuels (e.g., coal and petroleum products)
for energy production. The SRP grant supports five research projects
and six support cores at Oregon State University and Pacific Northwest
National Laboratory in Richland, WA, in a range of efforts involving human
exposure to PAHs. In addition, research partners are located at San
Diego State University, the Confederated Tribes of the Umatilla Indian
Reservation and Pennsylvania State University. These research projects
focus on determining the effect of PAHs on a variety of adverse human
health outcomes employing animal models such as zebrafish to detect
developmental toxicities.

Oregon Nanoscience and Microtechnologies Institute

Skip Rung, President and Executive Director
Phone: 541-713-1331
Email: skip@onami.us
Website: [onami.us](http://onami.us/)

ONAMI is Oregon’s first ‘signature research center’ for the purpose of
sustaining and growing Oregon’s innovation economy. As is true of only
three other states, technology is Oregon’s largest employer, with an
average wage twice the statewide average. Growth of these kinds of
job opportunities is the single most effective thing we can do for state
financial health, schools, public safety and human services.

Our strategy has been 10 years in the making, and the selection of
‘nanoscience and microtechnologies’ was based on a careful analysis
intended to discover the largest possible intersection among:

• nationally competitive research in our universities,
• future commercial opportunities/growing sectors of the national
  economy,
• the existing skills of Oregon industry and its surrounding value chain
  ecosystem.

ONAMI is now a nationally recognized model for state innovation
initiatives, and is frequently featured at events and in publications by the
National Science Foundation, National Governors Association, and other
organizations concerned with keeping the United States competitive in
the global innovation economy.
The state of Oregon so far has invested $47 million in ONAMI, including $5.2 million from the Oregon Innovation Council (OECD) for fiscal year 2012–2013. These funds are invested in OSU research and commercialization capacity in the form of matching funds for competitive extramural proposals, facility operations, and ‘gap’ grants to assist in the formation of successful new products and startup companies.

**Oregon Translational Research and Development Institute**

Jennifer E. Fox, Executive Director  
Phone: 503-227-1814  
Email: jfox@otradi.org  
Website: [http://www.otradi.org](http://www.otradi.org/)

OTRADI is a nonprofit research and development organization, supported in part by the state of Oregon that strives to promote bioscience industry growth and job creation in Oregon. OTRADI achieves this goal via collaboration with private and public sector entities in the bioscience community to discover, develop, and commercialize therapeutics, vaccines, diagnostics and other life sciences products important for human health. OTRADI’s specialized high-throughput drug discovery robotic equipment is unique in the Northwest, offering previously out-of-reach drug screening capabilities as well as the expertise necessary to analyze results and quickly identify the best products to commercialize. OTRADI uses its equipment and expertise to rapidly screen thousands of chemical compounds developed by Oregon research laboratories and companies to identify new potential drugs, speeding progress on global health concerns, and bringing more economic development and scientific talent to Oregon.

**Oregon BEST**

David Kenney, President and Executive Director  
Phone: 503-928-7902  
Email: david.kenney@oregonbest.org  
Website: [http://oregonbest.org](http://oregonbest.org/)

Oregon BEST funds and supports innovative cleantech startups across Oregon. As an economic development catalyst, Oregon BEST connects startups with state and federal resources while preparing them for follow-on investment through a series of focused programs.

We invest strategically in public-private partnerships that rapidly transform university research into new clean technologies, companies, and jobs. The research, projects, and startups we support serve as a proving ground for leading-edge clean technologies while powering a vibrant innovation ecosystem.

Oregon BEST’s work not only adds value and enhances competitiveness for Oregon businesses, it also grows the state’s research revenue, expands research programs, enhances workforce development, and positions Oregon to recruit new cleantech companies.

Since its establishment as an independent, nonprofit organization by the Oregon Legislature in 2007, Oregon BEST’s 270+ Member Researchers ([http://oregonbest.org/portfolio/](http://oregonbest.org/portfolio/)) have attracted more than $135 million in research revenue to Oregon from federal, industry, and foundation sources. Building on Oregon’s international reputation as a sustainability innovator, Oregon BEST offers a range of programs, expertise, and research facilities described below.

Cutting-edge research requires cutting-edge equipment and the expertise to operate it. Oregon BEST supports a network of nine shared-user research facilities ([http://oregonbest.org/what-we-offer/expertise/labs/](http://oregonbest.org/what-we-offer/expertise/labs/)) at Oregon State University, Portland State University, and the University of Oregon. These multi-million dollar labs offer our industry partners access to research tools, faculty expertise, and workforce development opportunities. The labs help Oregon businesses compete while helping universities grow research and educate graduates. By providing both financial and leadership support, Oregon BEST works to ensure that our community has access to advanced research facilities.

**Agricultural Experiment Station**

Daniel J. Arp, Director  
William G. Boggess, Executive Associate Director  
W. Daniel Edge, Associate Director  
Joyce Loper, Associate Director  
John R. Talbott, Assistant Director  
Jack Breen, Agricultural Sciences and Marine Sciences Business Center Manager  
Email: AESsupport@oregonstate.edu  
Website: [http://agsci.oregonstate.edu/research/research](http://agsci.oregonstate.edu/research/research/)

A statewide research network of Oregon State University scientists working on the Corvallis campus and at 11 branch stations in the major crop, climate, and marketing areas of Oregon. These diverse locations ensure that the station’s research program is close to the people and the needs of Oregon’s agricultural and natural resources. Founded July 1, 1888, in accordance with the federal Hatch Act of 1887, the mission of the Oregon Agricultural Experiment Station is to conduct research and demonstrations in the agricultural, biological, social, and environmental sciences that contribute to the economic, environmental, and social welfare of Oregon.

**College of Engineering Research and Economic Development Office**

Irem Y. Tumer, Associate Dean for Research and Economic Development  
Website: [http://red.engr.oregonstate.edu/](http://red.engr.oregonstate.edu/)

RED at the College of Engineering was established to promote and support research programs and faculty. The overall mission of the RED office is to build new bridges between faculty, external stakeholders and collaborators, help faculty find and apply for funding opportunities, boost the college’s reputation for research, and grow industry funding. We specifically aim to foster high-impact research initiatives among our faculty, and develop strong relationships with our academic, industry, and government partners. This includes not only connecting faculty teams with funding opportunities and matching industry needs with Oregon State expertise, but also assembling teams that can build new programs in emerging areas that are responsive to global challenges.

**Aquaculture Collaborative Research Unit**

Hillary S. Egna, Director  
Website: [http://aquafishcrsp.oregonstate.edu/](http://aquafishcrsp.oregonstate.edu/) and [http://pdacrsp.oregonstate.edu/](http://pdacrsp.oregonstate.edu/)

The Aquaculture Unit, a center within the College of Agricultural Sciences since 1999, has served as the home for international aquaculture programs such as the Feed the Future Innovation Lab.
for Collaborative Research on Aquaculture & Fisheries (formerly AquaFish CRSP), the Aquaculture Best Management Practices for Strategic Investment in Rapid Technology Dissemination project, the Aquatic Resource Use and Conservation for Sustainable Freshwater Aquaculture and Fisheries Project (USAID Mali/Bamako Mission), a USAID Cairo Mission Aquaculture Project, the Aquaculture CRSP, the Pond Dynamics/Aquaculture (PD/A) CRSP and other projects. These diverse international aquaculture programs have been knitted together under independent grants, and have shared a common goal to reduce poverty in developing countries by improving access by the poor to fish and water resources. The Unit has worked with nearly 600 U.S. and host country universities, government, private companies, and non-governmental organizations to support research, development, and outreach activities in 34 countries including Bangladesh, Belize, Brazil, Bolivia, Burma, Cambodia, China, Colombia, Costa Rica, Ecuador, Egypt, El Salvador, Ghana, Guatemala, Guyana, Honduras, Indonesia, Kenya, Laos PDR, Malawi, Mali, Mexico, Nepal, Nicaragua, Panama, Peru, Philippines, Rwanda, South Africa, Tanzania, Thailand, Uganda, U.S.A., and Vietnam.

Integrated Plant Protection Center

Paul Jepson, Director
Website: http://www.ipmnet.org/

IPPC was established in 1991, to expand upon the range of activities of the International Plant Protection Center, that was chartered by Oregon State University in 1969. The IPPC is partially supported by the Agricultural Experiment Station, and the Cooperative Extension Service. The IPPC focuses upon research, education and outreach activities associated with the adoption of sustainable integrated pest management (IPM) practices in agriculture. It is the home for a number United States Department of Agriculture (USDA)-funded programs associated with pest control and pesticide management, including the state IPM program, the Regional Pest Management Center program, the Pesticide and Environmental Stewardship program, and the Farm Safety program.

Inter-University Consortium for Political and Social Research

Valery King, Official Representative (OSU Libraries)
Website: http://www.icpsr.umich.edu/icpsrweb/

Through funding provided by OSU Libraries, OSU is a member of ICPSR, the Inter-University Consortium for Political and Social Research. A unit within the Institute for Social Research at the University of Michigan, ICPSR was established in 1962 and maintains and provides access to a vast archive of social science data for research and instruction. OSU students, faculty and staff may access these data at no charge and may also deposit their own data into the collection. ICPSR offers members reduced fees to attend the Summer Training Program in Quantitative Methods of Social Research, a comprehensive curriculum of intensive courses in research design, statistics, data analysis, and social methodology. Additionally ICPSR leads several initiatives that encourage use of data in teaching, particularly for undergraduate instruction, and offers user support to assist researchers in identifying relevant data for analysis and in conducting their research projects.

Kiewit Center for Infrastructure and Transportation

Jason Weiss, Director
Email: kiewit.center@oregonstate.edu
Website: http://cce.oregonstate.edu/research/

The center was initially established in 1962 as the Transportation Research Institute. The Kiewit Center serves as the umbrella organization for all research within the School of Civil and Construction Engineering. The center is a key component in the College of Engineering’s drive to become a top 25 engineering program, coordinating multi- and interdisciplinary research projects. For the last 150 years, civil engineers have built the infrastructure upon which American prosperity rests. Roads, bridges, airfields, dams, schools, and safe drinking water form the foundation for our quality of life. Today that foundation is crumbling. Americans experience this deterioration every day. A recent report by the American Society of Civil Engineers confirms what most Americans already know—the ASCE report gave the U.S. infrastructure an overall grade of D+. The center is an interdisciplinary unit that provides research, education and public service related to the built environment and the systems that operate in that environment.

Marine Mammal Institute

Bruce Mate, Director
Website: http://mni.oregonstate.edu/

A multi-disciplinary faculty incorporating the work of academics from engineering, genetics, fisheries and wildlife (agriculture), aquatics, ecology, veterinary medicine, biology, and communications.

- Whale Telemetry Group (WTG): Using satellite-monitored radio tags to determine the distribution and critical habitats of endangered whales.
• Cetacean Conservation and Genomics Laboratory (CCGL): Exploring the genomes of whales and dolphins to understand the past, assess the present, and conserve the future.
• Geospatial Ecology of Marine Megafauna (GEMM) Laboratory: Spatial and behavioral studies of marine megafauna to generate an improved understanding of species ecology and distribution patterns.
• Bio-Telemetry and Behavioral Ecology Laboratory: Using telemetry and bio-logging tools to study the behavioral ecology of marine mammals.
• Oregon Marine Mammal Stranding Network (OMMSN): Documenting occurrences and investigating the causes of marine mammal strandings in Oregon.

### Microproducts Breakthrough Institute
**Goran Jovanovic, OSU Co-Director**
Phone: 541-713-1348 (MBI Office)
Email: goran.jovanovic@oregonstate.edu
Website: [http://mbi-online.org/](http://mbi-online.org/)

The MBI is a 45,000 square foot facility located on the Hewlett-Packard Corvallis campus containing offices, laboratories, fabrication facilities and laydown space for the research, development and commercialization of arrayed microfluidic systems and related nanomanufacturing technology. This facility is focused on accelerating the discovery, development and commercial deployment of new nano- and micro-scale phenomena and their technology embodiments. The MBI is collaboration between the Pacific Northwest National Laboratory (PNNL) and OSU. PNNL and OSU are leaders in the science, engineering, and technology development of nano- and micro-scale processes and systems. Collaboratively they conduct research and development projects ranging from fundamental science and technology investigations to assistance with commercial development and production. Areas of current research and development include photovoltaic manufacturing, hydrogen storage, nanomaterials synthesis, biofuel processing, miniature heat pumps and artificial kidneys among others.

### Oregon Climate Change Research Institute
**Philip W. Mote, Director**
**Kathie Dello, Associate Director**
Website: [http://occri.weebly.com/](http://occri.weebly.com/)

The Oregon State Legislature established the Oregon Climate Change Research Institute (OCCRI) within the Department of Higher Education in 2007. OCCRI is a network of over 150 researchers at Oregon State University (OSU), the University of Oregon, Portland State University, Southern Oregon University, and affiliated federal and state labs. OCCRI is tasked with: facilitating research by faculty at Oregon's public universities on climate change and its effects on natural and human systems in Oregon; serving as a clearinghouse for climate change information; providing climate change information to the public in integrated and accessible formats; supporting the Oregon Global Warming Commission in developing strategies to prepare for and to mitigate the effects of climate change on natural and human systems, and providing technical assistance to local governments to assist them in developing climate change policies, practices, and programs.

### Oregon Wood Innovation Center
**Scott Leavengood, Director**
Phone: 541-737-4212

**Chris Knowles, Assistant Director**
Phone: 541-737-1438
Email: owic@oregonstate.edu
Website: [http://owic.oregonstate.edu/](http://owic.oregonstate.edu/)

OWIC is a joint initiative of Oregon State University’s College of Forestry and Extension Service. OWIC’s mission is to improve the competitiveness of Oregon’s wood products industry by fostering innovation in products, processes, and business systems. A key function of the center is to serve as the primary link between university research and needs and opportunities in the forest industry. The forest products industry has undergone dramatic changes in recent years. The industry responded to reductions in raw material supply and the forces of globalization by consolidating, retooling production systems, and by focusing on improving efficiencies in manufacturing processes. However, it is clear that focusing solely on process innovation will be insufficient to maintain future competitive advantage. Firms must also focus on product and business systems innovation. OWIC helps foster such innovation by serving as a ‘clearinghouse’ to connect manufacturers to the research community, to other organizations that provide assistance to businesses, and to facilitate networking within the industry.

### Sun Grant Western Regional Center
**John R. Talbott, Director**
Phone: 541-737-2194
Emails: john.talbott@oregonstate.edu or sungrant@oregonstate.edu
Website: [http://sungrant.oregonstate.edu/](http://sungrant.oregonstate.edu/)

A network of five land grant universities serve as regional Sun Grant Centers. These universities include Oregon State University (Western Region), South Dakota State University (North-Central), Oklahoma State University (South-Central), the University of Tennessee-Knoxville (Southeastern), and Pennsylvania State University (Northeastern). The centers facilitate federally funded research, extension, and education programs in their respective regions.
The mission of the Sun Grant Initiative is to:

1. Enhance national energy security through development, distribution and implementation of biobased energy technologies;
2. Promote diversification in and the environmental sustainability of, agricultural production in the United States through biobased energy and products technologies;
3. Promote economic diversification in rural areas of the United States through biobased energy and product technologies; and
4. Enhance the efficiency of bioenergy and biomass research and development programs through improved coordination and collaboration among the Department of Agriculture, the Department of Energy, and the land grant colleges and universities.
TUITION, FEES, AND PAYMENT

Tuition, Fees, and Student Accounts

Tuition Charges
Tuition rates vary depending on factors such as academic program, residency, campus, and student or course level. For a full listing of tuition and fees, please visit the OSU Business Affairs website (http://fa.oregonstate.edu/business-affairs/tuition-and-fee-information/) or the OSU Budget Office website (http://fa.oregonstate.edu/budget/).

Mandatory Enrollment Fees
Building, Incidental, Student Health: amounts updated annually
Students pay mandatory enrollment fees each term which include the Building Fee, Incidental Fee, and Student Counseling and Health Services Fees. These fees support services that benefit all students, and are required of all enrolled students. For more detail, see Student Fee Information (https://fa.oregonstate.edu/business-affairs/student-fee-information/).

Advance Tuition Deposit: $200.00
Once you have been admitted to OSU as a degree-seeking student, to confirm intent to enroll, students are requested to submit an advance tuition deposit (ATD) of $200.00. For more information, see the Admissions website. (https://admissions.oregonstate.edu/instructions-paying-your-atd/)

Matriculation Fee: $350.00
All new students (undergraduate and graduate) are charged a one-time fee of $350.00 at the start of their first term at OSU to support access to a variety of OSU programs and services, including but are not limited to: new student orientation; pre-enrollment advising; and campus open houses.

Course Fees: varies by course
Certain courses have additional fees which may include lab fees, field trip fees, and material fees. Refer to the Schedule of Classes (https://catalog.oregonstate.edu/course-search/) for individual course related fees.

Student ID Card Fee: $25.00
Charged to all new and readmitted students their first term after admission or readmission. Ecampus students are not charged this fee unless they request an ID card (email request to ID.Center@oregonstate.edu) or attend an on-campus class.

Other Fees
Every student at OSU has a student account. Charges that students incur beyond tuition and fees are posted to the student account and are part of the student’s financial responsibility. This includes, but not limited to: housing, dining, library, parking, recreation center, fines and the like. For more information, visit OSU External Fees (https://fees.oregonstate.edu/Public/BrowseExternal.aspx).

Special Tuition Rate Categories

Graduate Assistants
OSU has a tuition remission policy for students who meet specific criteria and are eligible to hold a graduate assistant appointment. For more information, see the Graduate School website (https://gradschool.oregonstate.edu/finance/tuition-remission/graduate-tuition-remission-policy/).

Non-degree Students
Non-degree students (those that are not enrolled as a degree seeking student) pay undergraduate or graduate tuition based on the level of the course. If enrolled in 8 or fewer credits, the resident tuition rates apply. If taking 9 or more credits, resident or nonresident tuition rates apply, based on the student’s residency status.

Non-degree students are charged the mandatory Building and Incidental Fees. To be eligible to use Student Health Services, Non-degree students must pay the Student Health Service fee and Counseling Service fee.

Senior citizens Auditing a Course
Senior citizens in Oregon may audit courses without paying tuition or fees. The person must receive permission from the instructor before enrolling in the course, and fill out the university’s non-degree admissions application, as well as pay a non-refundable non-degree enrollment application fee. Qualifying students must be 65 years of age or older and register for 8 or fewer credits each term. Enrollment is dependent upon space availability.

All other students (under 65 years of age) auditing courses are charged tuition and fees at the same rate as courses taken for credit.

Employees and dependents
OSU offers an employee benefit to eligible employees appointed to at least .50 FTE (not including temporary or student employees) to register for courses and receive reduced tuition rates for a maximum of 12 credit hours. Eligible employees may transfer this benefit to a qualified family member each term. For more information see the Human Resources website (https://hr.oregonstate.edu/benefits/current-employees/tuition-reduction-staff-fee-privileges/).

Student Financial Obligation
Upon registering for or receiving services from the University, the student agrees to accept full responsibility to pay tuition, fees and other associated costs assessed as a result of the student’s registration or receipt of services. The student understands and agrees that registration constitutes an obligation to pay for all assessed tuition, fees and other associated costs by the published or assigned due date. Even if the student is younger than the applicable age of majority, the student agrees the educational services provided by the University are a necessity, and the student is contractually obligated pursuant to the “doctrine of necessaries.”

Any student incurring tuition, fees and any other charges at the University understands and agrees to be fully responsible for the resulting amounts that become due and owing to the University. All charges incurred by the student resulting from attendance at the University (or use of any University services) including tuition, course fees, library charges, room and board fees, health services, and other University charges are added to, and available on, the student’s account.

Financial Aid, awards, scholarships, grants, and sponsorships are all posted to the student account as credits and subsequently applied as payment for charges (in accordance with federal Title IV financial aid regulations as applicable). The student account will remain active as long the Student attends the University, receives University services, or has an account balance.

Billing
The University uses electronic billing as its official billing method. Any charge added to the student account balance is due and payable
immediately and, therefore, the student is responsible for viewing and paying the student account at the time the charge posts to the student’s account. Students are sent an email to their ONID email account on the 5th day of each month as a reminder to view their account activity online at MyBill (http://mybill.oregonstate.edu). On the 2nd day of every month, any unpaid balance on the student’s account from the previous month incurs simple interest at the rate of 12% percent per year. There is no penalty for early repayment of all or any part of the account, and the student maintains the right to pay the outstanding debt in full at any time. Failure to review the student account does not constitute a valid reason for failing to pay the bill on time. For more information about student billing, see the Business Affairs website (https://fa.oregonstate.edu/business-affairs/student-billing/).

**Payment**

OSU accepts electronic check (bank debits), paper checks, credit cards, money orders, and cash as payment methods for student accounts. Online payment options can be accessed through MyBill (http://mybill.oregonstate.edu) or MyOSU (http://myosu.oregonstate.edu) (navigate to Paying for College, Financial Services, Pay My Bill). Please note any service or convenience fees associated with the selected payment option. For more information, see the OSU Cashiers website (https://fa.oregonstate.edu/business-affairs/student-billing/).

**Delinquent Accounts**

Financial Holds: Failure to pay the student account balance or any monies due and owed to the University will result in a financial hold on the student’s account. A financial hold will prevent the student from registering for future terms, requesting transcripts, and will restrict the student from other campus services as determined by the University.

- Registration Hold, continuing students: Enforced if the student account balance is more than $2,200 or if there are unpaid charges, of any amount, owed from any term other than the two most recent terms. If either of these conditions exist, a Registration Hold will be placed on the student account. Please note: Cascades campus students must pay their account in full in order to register.
- Registration Hold, returning students: Enforced unless the student account is paid in full. This applies to students who are no longer registered or have not attended for a term or more (other than Summer).
- Transcript Hold: Enforced if any prior term charges remain unpaid. All prior term charges must be paid in full in order to access an official transcript. Please note: Cascades campus students must pay their entire student account in full, including current term charges, in order to access an official transcript.

Interest: On the 2nd day of every month, any unpaid balance on the student’s account from the previous bill will be assessed 1% interest charge (simple interest at the rate of 12% percent per year). There is no penalty for early repayment of all or any part of the account, and the student maintains the right to pay the outstanding debt in full at any time.

Debt Resolution: If a student fails to pay the balance owed on their student account after the fourth week of the next term, then the student is in default of their financial obligation. The University will provide the student with notice of default, and may use all remedies in law and in equity to enforce and collect the amount owed on the student’s account. Additional fees or penalties will apply. Failure to pay the student account, or any monies due and owed to the University or failure to make acceptable payment arrangements, may result in the University referring the student’s delinquent account to a collection agency.

OSU will not impose any penalty (e.g., assessment of late fees; denial of access to classes, libraries or other institutional facilities; or the requirement to borrow additional funds) to any student actively using Chapter 31 or Chapter 33 benefits at OSU because of the student’s inability to meet their financial obligations to OSU due to the delayed disbursement of funding from the VA under Chapter 31 or Chapter 33.

**Drop/Withdraw Refunds**

Students who drop or withdraw from a class during the first 30% of the term (or part of term) may be eligible for a partial tuition refund. If the financial aid that was disbursed to the student is revoked due to dropping or withdrawing from classes, the student must repay the revoked financial aid. Refunds are calculated from the date of official drop, withdraw, or cancellation, not the last date of class attendance. For refund deadlines, see below or the Business Affairs website (https://fa.oregonstate.edu/business-affairs/tuition-reduction-schedule/). For complete withdraw from the term, follow instructions found at Withdraw from the Term (https://registrar.oregonstate.edu/withdraw-term/).

**Special Fees**

**Admission Office (not refundable)**

- Application Fee, Undergraduate: $65.00
- Application Fee, Graduate, US Citizen/Permanent Resident: $75.00
- Application Fee, Graduate, International: $85.00
• Application Fee, Non-degree, Undergraduate: $30.00
• Application Fee, Non-degree, Graduate: $35.00
• Re-Admission Fee, Undergraduate: $25.00. Required after an absence of one year.
• Re-Admission Fee, Graduate: Domestic Students $75.00; International Students $85.00. Required after an absence of one term.
• Reinstatement Fee: $50.00. Required after student is suspended and wishes to be reinstated.

Office of the Registrar
• Diploma Mailing Fee: $25.00, or $40.00 for out of U.S.
• Duplicate Diploma: $40.00
• Examination for Credit or Waiver $80.00 per exam
• FAX Service: $20.00 per request to fax documents
• Late Course Change: $20.00 per course changed. This applies to any late add, late add to audit, late drop, late withdrawal from a course, late change in grading basis, or late change in course credit done after the stated deadlines, see Office of the Registrar website (https://registrar.oregonstate.edu/osu-academic-calendar/).
• Late Registration Fees, during first two weeks of classes: $50.00
• Late Registration Fees, after the second week of classes and by approval only: $100.00
• PELP Fee (Undergraduate Planned Educational Leave Program): $25.00. The non-refundable application fee allows an undergraduate student to maintain their official standing as a student at OSU and reserves the student's right to keep their original academic catalog active during their absence.
• Transcripts: $10.00 or no fee depending on delivery method, see Office of the Registrar website (http://registrar.oregonstate.edu/transcripts/). Please note that all obligations to OSU must be cleared before transcript orders can be processed.
• Verification of Enrollment Fee: $15.00 per verification. See Office of the Registrar website (https://registrar.oregonstate.edu/verify-your-enrollment/).

Business Affairs
• Collection Account Processing Fee: $5.00 to $60.00
• Returned Check Fee: $25.00
• Stop Payment Fee: $20.00
• Sponsored Student Administrative Fee: $275.00 per term. An administrative management fee is charged for international students supported under contractual arrangement with sponsoring agencies or entities requiring special administrative or management services beyond those normally provided.

Billing Questions
If there appears to be an error on your monthly statement, use the following guidelines:

Financial Aid questions: Contact the Office of Financial Aid and Scholarships - A218 Kerr Administration Building, 541-737-2241, Financial.Aid@oregonstate.edu

Graduate Assistants: Please contact your department. For information regarding GRA/GTA, see the Graduate School website (https://gradschool.oregonstate.edu/finance/graduate-assistantships/).

Housing questions: Contact University Housing and Dining Office - Oxford House, 957 SW Jefferson Ave, 541-737-4771, or please see UHDS website (https://uhds.oregonstate.edu/housing/room-dining-rates-common-charges/).

Residency questions: Please see Admissions website (https://admissions.oregonstate.edu/residency/).

Sponsor Payment questions: Contact Business Affairs - B100 Kerr Administration Building, 541-737-3775, ThirdPartyBilling@oregonstate.edu

Other Billing questions: Contact Business Affairs - B100 Kerr Administration Building, 541-737-3775, StudentAccountServices@oregonstate.edu

Financial Aid
Scholarships, Student Loans, and Grants
Eligible students who have accepted scholarships, student loans and grant awards will have those funds applied automatically to their student billing account. You can monitor your financial aid eligibility and billing account through MyOSU.

If financial aid amounts exceed the amount of qualifying tuition/fees expenses owed, a refund will be generated if the surplus exceeds $1.00. Distribution of the refund can be made by direct deposit or check. Please note that federal financial aid cannot be posted toward the balance of the matriculation fee, accrued interest, printing charges, parking or library fines or student health service charges.

- If you would like direct deposit of your financial aid refund, complete the Direct Deposit form found through Online Services or Student Finance website (http://fa.oregonstate.edu/business-affairs/student-finance/).
- If you would like your refund as a check, your current mailing address must be up to date for all check processing. You can do this through MyOSU (https://myosu.oregonstate.edu/).

For full details, visit the Business Affairs Office Website. Click on Current Student.

Beginning the third week of the term, students eligible for refunds due to financial aid or scholarship disbursements may request a refund at the Cashier's Office or through email at refund@oregonstate.edu.

Emergency Loans
Emergency loans, not to exceed $350.00 per term, are available to students in good financial standing, attending at least half time, and formally admitted to the university. Loans are to be repaid by the last day of the current term. Loan amounts become part of the revolving account balance and carry interest at 1 percent per month (12 percent APR). The Cashier's Office reviews the applications and issues payment if approved. Application forms are available at the Cashier's Office in the Kerr Administration Building. Be sure to have your OSU ID and a second photo ID to present with the application.

Ecampus students can email cashiers.office@oregonstate.edu to request the application. They will be asked to scan the completed form and email it back to the Cashier's Office with accompanying identification.
Payment of Student Fees

Payment of Nonresident Instruction Fee (580-10-080)
1. All students classified as nonresidents shall pay a nonresident fee.
2. Refunds of the nonresident fee may be granted if the student shows that the classification previously assigned was in error. However, no such refund shall be made unless the student applies and submits all supporting information for residency status prior to the last day to register for the term in which the student seeks the change of status.

Enrollment of Spouse and Dependent Children (580-010-086)
The spouse and dependent children of regular department staff members with a full-time equivalent of at least .50 may enroll as students at resident fee rates in department institutions.

In-State Tuition for Veterans
The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition and fees purposes:

1. A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill - Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge or release from a period of active duty service of 90 days or more.
2. Anyone using transferred Post-911 G.I. Bill benefits (38 U.S.C. § 3319) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge or release from a period of active duty service of 90 days or more.
3. Anyone using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Oregon while attending a school located in the State of Oregon (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
4. Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three-year period following discharge, release, or death described above and must be using educational benefits under either chapter 30 or chapter 33, of title 38, United States Code.

Residency Requirements

Residency: OSU Admissions Website
For further details about residency, please visit the OSU Admissions website (http://admissions.oregonstate.edu/residency/) or email Residency@oregonstate.edu.

Appendix I: Residency Standards: A–G

A. Definitions
For the purpose of these Residency Standards the following definitions apply
1. "Domicile" is a person's true, fixed, and permanent home and place of habitation. It is the place where a person intends to remain and to which the person expects to return when the person leaves without intending to establish a new domicile elsewhere. In order to establish a domicile in Oregon, a person must maintain a predominant physical presence in Oregon for 12 consecutive months after moving to the state.
2. A 'financially independent person' is a person who, at the time of application for residency status: (a) declares themselves to be financially independent; (b) has not been claimed as a dependent during the immediately preceding tax year, and will not be claimed as a dependent during the current tax year, on the federal or state income tax returns of any other person; and (c) has not received in the immediately preceding calendar year, and will not receive during the current calendar year, one-half or more of their support, in cash or in kind, from another person or persons, except for support received from their spouse.
3. A 'financially dependent person' is a person who, at the time of application for residency status: (a) declares themselves to be financially dependent; and (b) has been claimed as a dependent on the federal and state income tax returns of another person during the immediately preceding tax year.
4. "University" or 'Universities' are Oregon public universities listed in ORS 352.002.
5. 'Residency Procedure' is the procedure attached as Appendix II to the Interinstitutional Residency Compact, including any subsequent amendments as described in that
5. A financially dependent person who is claimed as a dependent by another person who has not established and maintained an Oregon domicile shall be presumed to be a non-resident. This presumption may be overcome by evidence of the student’s long-standing presence in Oregon and demonstration of other factors under Section C of these Standards.

6. The criteria for determining Oregon resident classification shall also be used to determine whether a person who has moved from Oregon has established a non-Oregon residence.

7. If institution records show that the residence of a student or the person upon whom the student is dependent is outside of Oregon, the student shall continue to be classified as a nonresident until entitlement to resident classification is shown. The burden of showing that the residence classification should be changed is on the student requesting the change.

8. Notwithstanding section B.4 of these Standards, a student who is financially dependent on a non-Oregon resident may nonetheless be considered an Oregon resident if the student resides in Oregon for at least 12 consecutive months with a parent or legal guardian who has both: (a) established and maintained an Oregon domicile for 12 consecutive months; and (b) during that period, has been primarily engaged in activities other than those of being a college student.

1 Oregon law establishes two exemptions from non-resident tuition. ORS 351.641 provides an exemption for students who are not US citizens or lawful permanent residents, but who meet certain other qualifications, including attendance at an Oregon school and receiving a high school diploma or equivalent in Oregon. ORS 352.375 provides an exemption for qualified veterans of the U.S. Armed Forces. Students who qualify for either of these exemptions are not considered Oregon residents under these Residency Standards. However, they are exempt from paying non-resident tuition. Questions about these exemptions and the process for establishing eligibility should be directed to the appropriate official at each university.

C. Residency Consideration Factors

1. The following factors, although not necessarily conclusive or exclusive, have probable value in support of a claim for Oregon resident classification:
   a. Reside in Oregon for 12 consecutive months prior to the beginning of the term for which resident classification is sought and during that period be primarily engaged in activities other than those of a college student;
   b. Reliance upon Oregon resources for financial support;
   c. Domicile in Oregon of persons legally responsible for the student;
   d. Acceptance of an offer of permanent employment in Oregon; and
   e. Ownership by the person of their living quarters in Oregon.

2. The following factors, standing alone, do not constitute sufficient evidence to effect classification as an Oregon resident:
   a. Voting or registration to vote;
   b. Employment in any position normally filled by a student;
   c. The lease of living quarters;
   d. Admission to a licensed practicing profession in Oregon;
   e. Automobile registration;
   f. Public records, for example, birth and marriage records, Oregon driver’s license;
   g. Continuous presence in Oregon during periods when not enrolled in school;
   h. Ownership of property in Oregon or the payment of Oregon income or other Oregon taxes; or
   i. Domicile in Oregon of the student’s spouse.

D. Evidence of Financial Dependency

In determining whether a student is financially dependent, a student must provide:
   a. Evidence of established domicile of the person claiming the student as a dependent; and
   b. The identification of the student as a dependent on the federal and state income tax returns of the person claiming the student as a dependent. Additional documentation to substantiate dependency during the current calendar year may be required at a later time if deemed necessary by the institution.
   c. A student who provides evidence that they are a financially dependent person under these rules shall not be required to establish a 12-month domicile prior to classification of resident status, provided such a student may not be classified as a resident while receiving financial assistance from another state or state agency for educational purposes.

E. Residence Classification of Armed Forces Personnel

1. For purposes of these Standards, members of the armed forces means officers and enlisted personnel of:
   a. The Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
   b. Reserve components of the Army, Navy, Air Force, Marine Corps, and Coast Guard of the United States;
   c. The National Guard of the United States and the Oregon National Guard.

2. Notwithstanding Section B, active members of the armed forces and their spouses and dependent children shall be considered residents for purposes of an institution’s tuition and mandatory enrollment fees if the members:
   a. Reside in this state while assigned to duty at any base, station, shore establishment, or other facility in this state;
   b. Reside in this state while serving as members of the crew of a ship that has an Oregon port of shore establishment as its home port or permanent station; or
   c. Reside in another state or a foreign country and file Oregon state income taxes no later than 12 months before leaving active duty.

3. An Oregon resident entering the armed forces retains Oregon residence classification until it is voluntarily relinquished.

4. An Oregon resident who has been in the armed forces and assigned on duty outside of Oregon, including a person who establishes residency under section E.2.c of these Standards, must, within a reasonable time, demonstrate intent to retain classification as an Oregon resident. Such intent may be shown by returning to Oregon within six months after completing service in the armed forces.

5. A person who continues to reside in Oregon after separation from the armed forces may count the time spent in the state while in the armed forces to support a claim for classification as an Oregon resident.

6. The dependent child and spouse of a person who is a resident under Section E.2 of these Standards shall be considered an
Residency Classification of Members of Oregon Tribes

1. Students who are enrolled members of federally recognized tribes of Oregon or who are enrolled members of a Native American tribe which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon shall be assessed resident tuition regardless of their state of residence.

2. For purposes of these Standards, the federally recognized tribes of Oregon are:
   a. Burns Paiute Tribe;
   b. Confederated Tribes of Coos, Lower Umpqua and Siuslaw;
   c. Confederated Tribes of Grand Ronde Community of Oregon;
   d. Confederated Tribes of Siletz Indians of Oregon;
   e. Confederated Tribes of the Umatilla Indian Reservation;
   f. Confederated Tribes of the Warm Springs Indian Reservation;
   g. Coquille Indian Tribe;
   h. Cow Creek Band of Umpqua Indians;
   i. Klamath Tribes.

3. For purposes of this rule these Standards, the Native American tribes which had traditional and customary tribal boundaries that included parts of the state of Oregon or which had ceded or reserved lands within the state of Oregon are:
   a. CALIFORNIA:
      1. Benton Paiute Tribe;
      2. Big Bend Rancheria;
      3. Big Lagoon Rancheria;
      4. Blue Lake Rancheria;
      5. Bridgeport Indian Colony;
      6. Cedarville Rancheria;
      7. Fort Bidwell Indian Tribe;
      8. Hoopa Valley Tribe;
      9. Karuk Tribe of California;
     10. Likely Rancheria;
     11. Lookout Rancheria;
     12. Lytton Rancheria;
     13. Melochundum Band of Tolowa Indians;
     14. Montgomery Creek Rancheria
     15. Pit River Tribe;
     16. Quartz Valley Indian Community;
     17. Redding Rancheria;
     18. Roaring Creek Rancheria;
     19. Smith River Rancheria;
     20. Susanville Rancheria; Tolowa-Tututni Tribe;
     21. Winnemucca Colony;
     22. XL Ranch;
     23. Yurok Tribe.
   b. IDAHO:
      1. Nez Perce Tribe of Idaho;
      2. Shoshoni-Bannock Tribes.
   c. NEVADA:
      1. Duck Valley Shoshone-Paiute Tribes;
      2. Fallon Paiute-Shoshone Tribe;
      3. Fort McDermitt Paiute-Shoshone Tribe;
      4. Lovelock Paiute Tribe;
      5. Pyramid Lake Paiute Tribe;
      6. Reno-Sparks Indian Colony;
      7. Summit Lake Paiute Tribe;
      8. Walker River Paiute Tribe;
      9. Winnemucca Indian Colony;
   d. OKLAHOMA: Modoc Tribe of Oklahoma.
   e. WASHINGTON:
      1. Chehalis Community Council;
      2. Colville Confederated Tribes;
      3. Quinault Indian Nation;
      4. Shoalwater Bay Tribe;
      5. Yakama Indian Nation.

4. A student seeking to be assessed resident tuition and mandatory enrollment fees under these Standards shall submit, following procedures prescribed by the University where the student seeks to enroll, a photocopy of tribal enrollment which documents tribal membership.

Residence Classification of Non-Citizens

1. A person who is not a citizen of the United States may be considered an Oregon resident if the person qualifies as a resident under Section B and is one of the following:
   a. A lawful permanent resident. The date of approval of lawful permanent residency shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue.
   b. An immigrant granted refugee or political asylum in the United States. The date of approval of political asylum or refugee status shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue.
   c. A person holding one of the following non-immigrant visa classifications: A, E, G, H-1B, H-1C, the spouse or child of a person holding an H-1B or H-1C visa, I, K, L, NATO, O, R, S, T, TN, U, or V. The date of the issuance of a visa for one of these classifications shall be the earliest date upon which the 12-month residency requirements under Section B may begin to accrue. A person possessing a non-immigrant or temporary visa that is not identified under these Standards shall not be considered an Oregon resident under this Section G.1.c.

Appendix II: Residency Procedure: A–C

A. Definitions
   Definitions in the Residency Standards shall also apply to this Residency Procedure.

B. Changes in Residence Classification
   1. Unless otherwise specified in the Residency Standards, if an Oregon resident student enrolls in an institution outside of Oregon and later seeks to enroll in a University that applies these Residency Standards, the residence classification of that student
Residency Requirements

shall be re-examined and determined on the same basis as for any other person.

2. A student who becomes eligible for resident tuition during a term of enrollment at a University will not qualify for resident tuition until the beginning of the next term.

3. Once established, classification as a resident continues so long as the student remains in continuous academic year enrollment in the classifying University.

4. A person who seeks eligibility for resident tuition under these rules shall complete and submit a notarized Residence Information Affidavit. The affidavit and all required supportive documents and materials must be submitted by the last day to register for the term in which resident status is sought.

5. Universities that apply this Residency Procedure are only bound by determinations of residency that follow this Procedure, including timely submittal of the notarized affidavit.

C. Review of Residence Classification Decisions

1. An inter-institutional residency committee (IRC) is established consisting of the officers who determine student residence classification at each University that applies this Residency Procedure. The chair of the committee shall rotate among the Universities with no chair serving more than two consecutive years. A majority of the members of the Committee shall constitute a quorum. A majority of a quorum may make recommendations.

2. Residence cases of unusual complexity, especially where there may be conflict of rules, may be referred by the originating classification officer to the IRC for its recommendation to the registrar or designee.

3. Any person who is aggrieved by the originating classification officer's classification decision may, within ten days of the date of mailing or other service of the classification decision, request that the IRC review the classification and make recommendations to the registrar or designee of the originating university. The appeal must be in writing and shall be filed with the originating University. An aggrieved person may supply written statements to the IRC for consideration in reviewing the case and may also make an oral presentation to the IRC on a date to be scheduled by the IRC. The IRC shall make a recommendation to the registrar or designee of the originating University. That registrar or designee shall then issue a decision. The decision of the registrar or designee shall be final unless appealed.

4. A person dissatisfied with the decision of the registrar or designee may, within ten days of the date of the mailing or other service of the decision, appeal the decision to the president or designee of the originating University. An appeal shall be in writing only. The decision of the president or designee shall be final.

5. A person granted a meritorious hardship exception to residency under the Oregon Administrative Rules regarding residency prior to July 1, 1990, shall not lose the exception solely because of the repeal of the exception authorization.
TUTORING AND STUDENT SUPPORT SERVICES

Departments and Offices

There are numerous departments dedicated to your success as a student. Get involved on campus, find support for a challenging class, discover your community, connect with new friends or obtain help during a hard time. Our programs and services are here to assist you.

• Academics for Student Athletes (http://studentathlete.oregonstate.edu/): This office provides academic and personal support to all student athletes at Oregon State University.

• Academic Success Center (http://success.oregonstate.edu/): The Academic Success Center creates opportunities for students to learn how to learn throughout their academic careers. Services include drop-in consultations, academic coaching, the Learning Corner (https://success.oregonstate.edu/learning/) online resource and supplemental instruction.

• Associated Students of Oregon State University (http://asosu.oregonstate.edu/): ASOSU is the student government body at Oregon State. It supports the varied interests of OSU students through democratic representation.

• Career Development Center (http://oregonstate.edu/career/): The Career Development Center provides comprehensive professional development to all OSU students through presentations, workshops and appointments. The center also hosts the quarterly Career Expo and maintains Handshake, a networked platform that connects students with employers and thousands of job and internship opportunities.

• Center for Fraternity & Sorority Life (http://studentlife.oregonstate.edu/cfsl/): The Center for Fraternity & Sorority Life advocates for the interests of the Greek community at OSU by providing advice to governing chapters. The center serves as the direct university contact for organization headquarters staff.

• College Assistance Migrant Program (CAMP): (http://camp.oregonstate.edu/) This program provides financial and academic support to first-year students with the goal of preparing them for success in college. CAMP works with faculty, student services and community-based agencies to improve educational opportunities.

• Community Engagement & Leadership (http://sli.oregonstate.edu/cce/): In partnership with community-based organizations, CEL provides direct service, advocacy, philanthropy and other community engagement opportunities in partnership with community-based organizations that allow students to work toward a more just, sustainable world.

• Counseling & Psychological Services: (http://oregonstate.edu/counsel/) Counseling & Psychological Services provides individual, couples and group counseling for OSU students, as well as outreach and education on topics like mindfulness, stress management and suicide prevention.

• Craft Center (http://sli.oregonstate.edu/craft/): The Craft Center supports an enriched experiential learning experience where students can foster their own creativity. The center offers ceramic, glass, jewelry, woodworking and photography classes, in addition to fluctuating craft events and activities.

• Cross Campus Strategic Initiatives: (http://studentaffairs.oregonstate.edu/ccsi/) Oversees the development, implementation and assessment of campus-wide initiatives in support of the transition, integration and advisement of matriculated students. CCSI provides training, resources, transitional coursework, advocacy, expertise and community-building opportunities for professional faculty, instructional faculty and students.

• Disability Access Services: (http://ds.oregonstate.edu/home/) Disability Access Services facilitates access to university programs and services for individuals with disabilities through accommodations, education, consultation and advocacy.

• Diversity & Cultural Engagement (http://oregonstate.edu/dept/iss/): Diversity & Cultural Engagement is committed to the development of underserved students by creating and advocating for inclusive and educationally purposeful initiatives that enhance learning, academic success, cross-cultural fluency and self-efficacy.

• Educational Opportunities Program: (http://eop.oregonstate.edu/) EOP provides a welcoming environment that supports the full development of the personal and academic potential of students who have traditionally been denied equal access to higher education. Services include assistance navigating the admissions process, locating financial resources, orientating oneself to the university, securing academic and personal counseling, and providing supportive courses in math, reading, writing and psychology.

• Family Resource Center (http://familyresources.oregonstate.edu/): Located in Champinefu Lodge, the Family Resource Center provides a welcoming place for families to spend time on campus with their children. The center advocates for and supports students with families by focusing on quality early education and children’s care centers, lactation support and financial assistance.

• Human Services Resource Center: (http://studentlife.oregonstate.edu/hsrc/) The Human Services Resource Center provides low-income students with the resources they need to be academically successful. HSRRC services include food insecurity, housing and textbook lending.

• Louis Stokes Alliance for Minority Participation: (http://lsamp.oregonstate.edu/) LSAMP is dedicated to increasing the number of traditionally underrepresented students successfully completing science, technology, engineering and mathematics baccalaureate degree programs.

• Mathematics & Statistics Learning Center (https://math.oregonstate.edu/mlc/): Provides free drop-in tutoring, resources, make-up testing, a mathematics education resource room and a computer classroom with Mathematical Software (https://math.oregonstate.edu/mlc software/) installed.
• Memorial Union: (http://osumu.org/) The Memorial Union is the community center of OSU and serves students, alumni, staff and guests. The MU complements students’ academic experience through cultural, educational, social and recreational programs.

• Men's Development & Engagement (https://studentaffairs.oregonstate.edu/AAES/mens-development-engagement/): MDE provides engaging and innovative programs that support male-identified student success, develop healthy men and masculinities and engage male-identified individuals and groups in exploration of identity development and societal norms.

• Military & Veteran Resources (http://studentlife.oregonstate.edu/veterans/): The Military & Veteran Resources provides support to military service members, veterans and their families studying at OSU. The office helps navigate the requirements of higher education to ensure awareness of available benefits and services and foster a successful learning experience.

• New Student Programs & Family Outreach: (http://oregonstate.edu/soar/) New Student Programs & Family Outreach serves as a campus leader in facilitating the transition process for new students and their family members, promoting and enhancing successful transitions through collaborative programs and outreach.

• Office of the Dean of Students (http://studentlife.oregonstate.edu/): The Office of the Dean of Students fosters environments that enable students to effectively engage in their academic work, develop cultural competencies and global awareness, and become informed citizens. Office staff are available to help students navigate university resources.

• Office of International Services: (http://international.oregonstate.edu/) This office supports international students from admissions through graduation with advising services and guidance on settling in at Oregon State. Staff are available to help you with questions and locate other services on campus, as needed.

• Ombuds: (http://oregonstate.edu/ombuds/) The University Ombuds Office promotes a civil and inclusive campus community by providing informal, impartial, and confidential conflict management services to all members of the university community.

• Recreational Sports: (http://oregonstate.edu/recsports/) The Department of Recreational Sports provides an extensive and diverse list of sport, fitness and adventure opportunities to serve the varied recreation preferences and interests of the campus community.

• Student Conduct & Community Standards: (http://oregonstate.edu/studentconduct/) The Office of Student Conduct & Community Standards handles student-conduct and related matters at Oregon State University.

• Student Experiences & Engagement: (https://see.oregonstate.edu/) SEE is your starting point for student engagement. Through its departments — Community Engagement & Leadership, the Craft Center, Diversity & Cultural Engagement and Experiential Learning & Activities — SEE provide hands-on experiences that enhance belonging, build leadership skills, challenge your heart and mind, and support you living your best life.

• Student Care (http://studentlife.oregonstate.edu/student-care/): Student Care is designed help students manage unexpected life events, personal crises, mental health struggles, academic difficulties and challenges that can interfere with college success.

• Student Health Services: (http://studenthealth.oregonstate.edu/) Student Health Services contributes to the success of students and the university community by providing medical and health promotion services while creating a safe environment for all individuals.

• TRIO Student Support Services: (http://trio-sss.oregonstate.edu/) TRIO-SSS helps first-generation college students and other students who would benefit from additional support make the transition to college, offering academic guidance, professional development, peer mentorship, technology access, student success seminars and additional services. To learn about eligibility requirements or to apply, visit the TRIO-SSS website.

• University Exploratory Studies Program: (http://uesp.oregonstate.edu/) UESP is the academic home for students who are exploring their options before deciding on a major and offers a comprehensive range of services to help students make informed decisions about their academic coursework and potential majors while they are exploring.

• University Housing & Dining Services: (http://oregonstate.edu/uhds/dining/) University Housing & Dining Services offers on-campus residents a connection from the moment they arrive to campus. UHDS facilities include a variety of living options (https://uhds.oregonstate.edu/housing/halls/), three dining centers and an on-campus grocery store that provide students with connections to residential staff, academic support services, healthy dining options and leadership opportunities right where they live.

• Writing Center: (http://writingcenter.oregonstate.edu/) The Writing Center offers four programs in support of Oregon State University student writing: The Undergrad Research & Writing Studio, The Graduate Writing Center, The Online Writing Suite and English Language Learning.

Natural Resource Education Option .................................... 799
Natural Resources Graduate Major (MNR) ........................... 787
Natural Resources Minor .................................................. 789
Natural Resources (NR) ..................................................... 2210
Natural Resources Undergraduate Major (BS, HBS) .............. 790
Nature, Eco, and Adventure Tourism Option ....................... 807
Naval Science (NROTC) .................................................. 1759
Naval Science (NS) ........................................................ 2211
Naval Science-U.S. Marine Corps Minor .............................. 1761
Nutrition (NUTR) .................................................. 2217

Nutrition and Health Sciences Option .................................. 1459
Nutrition Graduate Major (MS, PhD) .................................. 1457
Nutrition Graduate Minor .................................................. 1457
Nutrition in Foodservice, Culinary and Food Systems Option .......... 1460
Nutrition Minor ............................................................ 1457
Nutrition (NUR) .................................................................. 2226
Nutrition Undergraduate Major (BS, HBS) ................................ 1458

O
Ocean Earth & Atmospheric Sci (OEAS) .................................. 2232
Ocean, Earth and Atmospheric Sciences Graduate Major (MA, MS, PhD) ................. 463
Ocean, Earth and Atmospheric Sciences Graduate Minor .................. 464
Ocean Science Option ....................................................... 444
Oceanography Minor .......................................................... 464
Oceanography (OC) ......................................................... 2232
Optical Physics Option ....................................................... 1601
Oregon Transfer Module ..................................................... 41
Organic Agriculture Graduate Certificate .................................. 300
Organic Farming Systems Certificate .................................... 299
Organizational Leadership Graduate Minor ................................ 396
Organizational Leadership Graduate Option ................................. 355
Organizational Leadership Minor ........................................... 396
OSU Office of Global Opportunities (OSU GO) ......................... 2593
Other Degrees & Programs within the College of Engineering ........... 608
Other Degrees & Programs within the College of Liberal Arts .......... 1053
Outdoor Products Minor ..................................................... 616
Outdoor Products (OP) ....................................................... 2239
Outdoor Products Undergraduate Major (BS, HBS) ................. 617
Outdoor Recreation Management Option ................................ 807

P
Pastoral Systems of the World Option .................................... 167
Peace Studies Certificate ..................................................... 1168
Peace Studies (PAX) ......................................................... 2239
Pest Biology and Management Option .................................... 186
Pharmaceutical Sciences Graduate Major (MS, PhD) ....................... 1356
Pharmaceutical Sciences Graduate Minor ................................ 1356
Pharmacy (PHAR) ............................................................ 2240
Pharmacy Professional Major (PHARMD) .................................. 1356
Philosophy Graduate Minor ................................................ 1169
Philosophy Minor ............................................................. 1169
Philosophy (PHL) ............................................................. 2247
Philosophy Undergraduate Major (BA, BS, HBA, HBS) .............. 1170
Photography and Digital Studio BFA Option .............................. 1102
Photography and Digital Studio Option ................................... 1102
Photography Minor .......................................................... 1119
Physical Activity Courses (PAC) ........................................... 2258
Physical Activity Graduate Option ......................................... 1409
Physical Therapy Professional Major (DPT) ............................... 1461
Physical Therapy/Therapist (PT) ............................................. 2268
Physics ............................................................................ 1587
Physics Graduate Major (MA, MS, PhD) ................................ 1595
Physics Graduate Minor ..................................................... 1596
Physics Minor ................................................................. 1596
Physics (PH) .................................................................... 2269
Physics Teaching Option ..................................................... 509
Physics Teaching/Physics Option ............................................. 1601
Physics Undergraduate Major (BA, BS, HBA, HBS) .................... 1596
Physiology and Behavior Option ............................................ 1662
Piano Performance and Pedagogy Option .................................. 1115
Piano Performance Option .................................................. 1115
PK-12 English to Speakers of Other Languages (ESOL) Graduate Option ................. 500
Plant Breeding & Genetics (PBG) ........................................ 2277
Plant Breeding and Genetics Graduate Option .............................. 229
Plant Breeding and Genetics Option ..................................... 284
Plant Breeding and Genetics Option ..................................... 224
Plant Breeding and Genetics Option ..................................... 291
Plant Growth and Development Option .................................... 186
Plant Pathology Option ....................................................... 207
Policy and Management Option ............................................ 800
Political Science Graduate Minor ........................................ 1306
Political Science Minor ..................................................... 1307
Political Science (PS) ......................................................... 2279
Political Science Undergraduate Major (BA, BS, HBA, HBS) .......... 1308
Popular Music Studies Minor ............................................... 1120
Pre-Clinical Laboratory Science Option .................................. 1680
Pre-Dentistry Option .......................................................... 1681
Pre-Dentistry/Biology Option .............................................. 1663
Pre-Dietetics Option .......................................................... 1460
Pre-Education Biology Option ............................................. 1663
Pre-Education Option .......................................................... 1052
Pre-Medicine Option .......................................................... 1568
Pre-Medicine/Biochemistry and Biophysics Option ................. 1636
Pre-Medicine/Biochemistry and Molecular Biology Option .... 1640
Pre-Medicine/Biology Option .............................................. 1664
Pre-Medicine/Microbiology Option .................................... 1688
Pre-Medicine/Pre-Podiatry Option ..................................... 1681
Pre-Optometry Option ....................................................... 1682
Pre-Pharmacy Option .......................................................... 1682
Pre-Physical Therapy Option ............................................. 1682
Pre-Physician Assistant Option ........................................ 1683
Pre-Therapy and Allied Health Option .............................. 1455
Pre-Veterinary Medicine Option ....................................... 1665
Product Development Option ............................................ 718
Professional Sales Minor .................................................... 397
Professional Science Masters (PSM) Programs .................... 2287
Psychology Graduate Major (MS, PhD) ................................ 1271
Psychology Graduate Minor ............................................. 1272
Psychology Minor .............................................................. 1272
Psychology (PSY) .............................................................. 2287
Psychology Undergraduate Major (BA, BS, HBA, HBS) ...... 1273
Public Health Graduate Certificate ................................... 1406
Public Health Graduate Major (MPH, PhD) ................. 1407
Public Health Graduate Minor ........................................... 1410
Public Health (H) ............................................................... 2296
Public Health Minor .......................................................... 1486
Public Health Practice Graduate Option ................................ 1409
Public Health Undergraduate Major (BS, HBS) .................... 1486

School of Public Policy .............................................................................................. 1277
School of Social and Behavioral Health Sciences ................................................... 1462
School of Writing, Literature and Film ...................................................................... 1316
Science & Mathematics Educ (SED) ......................................................................... 2327
Science and Engineering Option .............................................................................. 842
Science Education Graduate Minor .......................................................................... 513
Science Education Graduate Option .......................................................................... 500
Science Graduate Option ........................................................................................... 515
Science of Engineering (ESC) .................................................................................. 2332
Science (SCI) ............................................................................................................ 2331
Science/Mathematics Education Graduate Option ................................................... 500
Scientific, Technical, and Professional Communication Certificate ......................... 1120
Secondary Teaching Emphasis Option ........................................................................ 1585
Social Justice Education Graduate Option .................................................................. 501
Social Justice Minor .................................................................................................... 1255
Social Science (SSCI) ................................................................................................. 2332
Social Science Undergraduate Major (BA, BS, HBA, HBS) ......................................... 1055
Social Studies Graduate Option ................................................................................... 515
Social Studies Teaching Option ................................................................................... 509
Sociology Graduate Minor .......................................................................................... 1315
Sociology Minor ........................................................................................................... 1315
Sociology (SOC) ........................................................................................................ 2333
Sociology Undergraduate Major (BA, BS, HBA, HBS) ................................................. 1315
Software Engineering (SE) ........................................................................................ 2340
Soil Science Graduate Major (MS, PhD) ..................................................................... 230
Soil Science Graduate Minor .................................................................................... 230
Soil Science Minor ..................................................................................................... 230
Soil Science Option ................................................................................................... 226
Soil Science (SOIL) ................................................................................................. 2340
Spanish Minor ........................................................................................................... 1256
Spanish (SPAN) ......................................................................................................... 2345
Spanish Undergraduate Major (BA, HBA) ................................................................. 1256
Speech Communication Graduate Minor ...................................................................... 1121
Speech Communication Undergraduate Major (BA, BS, HBA, HBS) ....................... 1121
Statistics ....................................................................................................................... 1688
Statistics Graduate Major (MA, MS, PhD) ................................................................. 1694
Statistics Graduate Minor ........................................................................................... 1695
Statistics Minor .......................................................................................................... 1695
Statistics Option ........................................................................................................... 1586
Statistics (ST) .............................................................................................................. 2350
Strategy, Entrepreneurship, and Innovation Graduate Option ................................. 356
Student Records-Right to Privacy .............................................................................. 2582
Studio Art BFA Option ................................................................................................. 1103
Studio Art Minor ........................................................................................................... 1122
Studio Art Option ....................................................................................................... 1104
Supply Chain Analytics Graduate Option ................................................................... 368
Supply Chain and Logistics Management Graduate Certificate .............................. 412
Supply Chain and Logistics Management Graduate Option ....................................... 357
Supply Chain and Logistics Management Option ...................................................... 363
Sustainability Minor .................................................................................................... 301
Sustainability (SUS) ..................................................................................................... 2355
Sustainability Undergraduate Major (BS, HBS) .......................................................... 303
Sustainable Ecosystems Option .................................................................................. 187
Sustainable Forest Management Graduate Major (MF, MS, PhD) ............................... 831
Sustainable Horticultural Production Option ............................................................. 293
Sustainable Livestock Ranching Option ..................................................................... 167
Sustainable Natural Resources Graduate Certificate ................................................. 801
Sustainable Natural Resources (SNR) ......................................................................... 2356
Sustainable Rangeland Ecosystem Stewardship Option .............................................. 168
Sustainable Tourism Management Option ................................................................... 808
Teaching Graduate Major (MAT) .............................................................................. 513
Theater Arts Minor ....................................................................................................... 1123
Theater Arts Option ..................................................................................................... 1122
Theatre Arts (TA) ........................................................................................................ 2357
Therapeutic Horticulture Option .............................................................................. 296
Thermal Fluid Sciences Graduate Option .................................................................... 722
Tourism, Recreat, Adven. Lead. (TRAL) ................................................................... 2361
Tourism, Recreation, and Adventure Leadership Minor ............................................ 802
Tourism, Recreation, and Adventure Leadership Undergraduate Major (BS, HBS) .... 802
Toxicology Graduate Major (MS, PhD) ....................................................................... 239
Toxicology Graduate Minor ......................................................................................... 239
Toxicology Minor ......................................................................................................... 239
Toxicology Option ....................................................................................................... 188
Toxicology (TOX) ....................................................................................................... 2365
Tuition, Fees, and Payment ......................................................................................... 2610
Turf and Landscape Management Minor .................................................................... 299
Tutoring and Student Support Services ....................................................................... 2617
Twentieth Century Studies (TCS) .............................................................................. 2367
